Fire Hazard Crucial in Parched North Woods

By THE ASSOCIATED PRESS

Michigan's north woods are bone dry and imperiled by an explosive forest fire situation today.

Only scant help weatherwise appears in the offing. Scattered showers—buf only a few of these in the parched north country — are forecast for tomorrow. The Sunday outlook is for partly cloudy and cooler weather.

More than half a dozen forest flared up in scattered locations in the northern Lower Peninsula yesterday afternoon. All were reported either out or under control by evening.

But state conservation authorities said if the situation continues, a state of emergency may be declared.

Four separate forest fires in Crawford and Roscommon counties yesterday swept through some 1,600 acres of timberland injuring two fire fighters and destroying a Conservation Department fire pumper truck.

One of the fires burned out of control six hours near Roscommon destroying 1,000 acres of Woodland.

Forest Annis of Grayling and Clifford Yorty of Higgins Lake were driving the pumper truck to fight the blaze when the vehicle's engine stalled.

The wind shifted and the fire leaped though tree tops across the highway, trapping the men in a fiery pocket. They managed to break free on foot, but were hospitalized at Grayling with severe burns. The truck was destroyed.

★ ★ ★

Another blaze swept through 500 acres of timberland near the abandoned lumber town of Delwaard northwest of Grayling. A third fire burned out 80 acres of woodland near Jennings, south of Lake City, and the fourth destroyed four acres of timberland south of Nine Mile Hill near Roscommon.

The Conservation Department issued a call for volunteers to help fight the big Roscommon area fire.

Conservation workers, state police, local fire departments, and national guardsmen from Camp Grayling were rushed to the scene.

The fire was discovered shortly after noon. It was reported under control and burning itself out at 7 p.m. The fire was fanned by gusty winds up to 40 m.p.h.

AREA TINDER DRY

Milton M. Bergman, the department's forest fire chief, reported that the northern Lower Peninsula, in particular, was tinder dry.

"It's terribly dry up here," Bergman said. "All those fires came in one afternoon and we had to hustle to keep them under control. In some cases, we had to hire local labor to help our own men and call in volunteers.

Bergman listed other afternoon fires as two in Clare County covering about 50 acres each, one of about 50 acres in Missaukee County, one of about 20 acres in Roscommon County, two small fires in Gladwin County and one small blaze in Huron County."

★ ★ ★

He said all burning permits have been canceled for the northern Lower Peninsula area above the Muskegon-Bay City line.

"We're hoping for rain this weekend," Bergman said, "but it doesn't look promising. "If we don't get it, we will have to ask the governor to issue a proclamation declaring an emergency situation banning all smoking and outdoor fires in the area."

The northern Lower Peninsula, he said, has not received a good soaking rain since early in March. The rain of two weekends ago did not extend up to the northern woods area, he said.

Bergman said a danger situation also existed in the Upper Peninsula, but added that it was not as acute as in in the northern Lower Peninsula.

House Group Set to OK Jobless Pay Extension

Hospital Hops 2 Hurdles in Race to Avoid Deficit

The Pontiac General Hospital administration has passed two big hurdles in its battle to stay out of the red this year. Whether a third can be cleared appeared questionable.

Hospital Director Carl I. Flath announced to the Board of Trustees last night that a "favorable" working agreement had been signed with unionized employes, and the county has agreed to increase its per-day hospital rates for welfare patients.

★ ★ ★

He said the working agreement, which will be in effect until next Jan. 1, represented an end to the tradition that hospital wages are tied to corresponding wages of other municipal employes. The hospital contended that this six-year tradition has resulted in hospital job rates that are out of balance.

The contract was signed with Local 100 of the American Federation of State, County and Municipal Employes (AFL-CIO) and will affect wages of both union and non-union hourly employes.

It calls for approximately $35,000 in increases at increments of $60 a year or 1 per cent of salary, whichever is higher. The increases were made retroactive to Jan. 1.

COUNTY RATES HIKED

The new county rates were upped from $25 a day to $33. James Clarkson, chairman of the board's finance committee, said this was "only about 50 cents" less than the average per-day cost of the average patient at the hospital. He believed this deficit could be made up elsewhere.

Flath has said the hospital lost $57,739 last year caring for welfare patients at less than cost. He pointed out the loss represented about two per cent of its potential income.

The third hurdle is the $82,500 interest on 1954 hospital bonds that the hospital wants the city to pick up this year. In the past, the hospital has picked the annual interest up. It amounted to about four per cent of the hospital's expenditures last year, Flath said.

★ ★ ★

Taking into account the new county welfare rates, the hospital might have a surplus approaching $50,000 at the end of this year, if the city picked up the bond interest, Flath figured.

The city already has sent the hospital a bill for $41,250, representing the first installment of this year's interest payment. Although due April 1, the hospital has not yet signed a check covering it.

Report From Flath Asserts Hospital Not Overstaffed

Trustees of Pontiac General Hospital today began a three-week study of a 122-page report which Hospital Director Carl I. Flath said "will show that personnel-wise, this hospital has a near-perfect operation."

The report was submitted last night in answer to charges last month by several board members that more people were working at the hospital now than when Flath took over last fall with promises to make personnel cuts.

Flath said the report, "the most complete personnel analysis of its kind that I know of," was prepared mostly by department heads and administrative aides on their own time.

"If something drastic needs to be done in the way of personnel cuts," Flath said, "I think the board should read this report and then share in the responsibility of deciding where the cuts should be made."

The board charged there were 545 regular employes in September last year when Flath joined the hospital, and 563 at the end of February.

It will take up the report again at a special meeting May 8.

Senate Witness Battling Ouster

Robert Scott Asserts Action Against Him 'Teamster Inspired'

A witness for the Senate Rackets Committee was prepared today to charge he is being "railroaded" out of a Wayne County AFL-CIO local in retaliation for his testimony against the Teamsters Union and its president, James R. Hoffa.

★ ★ ★

Robert P. Scott, 51, of 31 Bloomfield Terrace, a former vice president of Pontiac Teamsters Local 614, said he might invoke his Senatorial immunity at a hearing April 24 at which he has been ordered to show cause why he should not be suspended from Barbers Union Local 552 (AFL-CIO).

Scott, a former Pontiac barber and now a member of the State Board of Examiners of Barbers, charged the local's action was "Teamster - inspired" and aimed at "embarrassing my campaign for election as Pontiac state representative" this fall.

★ ★ ★

The local, in a letter signed by its secretary - treasurer, Elmer Albrecht, charged Scott with "actions caused by you which are detrimental to the best interests"

Cherry Blossoms Out at Last in Capital

WASHINGTON (AP)—The capital's famed cherry blossoms are out at last—three weeks too late for the Cherry Blossom Festival.

Normally, the Japanese cherry trees around the Tidal Basin bloom about the first week in April.

But this year they were delayed by the prolonged cold weather. And the festival was held a week early, partly to avoid conflict with Easter.

With the temperature soaring into the 70s during the past few days, the white-pink blossoms burst into full bloom.

Ike Seeks Rest at Camp

WASHINGTON (INS) — President Eisenhower and the First Lady leave today for a quiet weekend at their mountain retreat, Camp David, near Thurmont, Md. They plan to motor back to the White House Sunday night or early Monday morning.

You'll Be Singing, Too, on Theater Trip

"I FEEL PRETTY" — That's the name of the catchy song pretty Carol Lawrence (right) is singing in this entertaining scene from the Broadway hit "West Side Story." After seeing "West Side Story," you should be feeling pretty good yourself, singing the praises of this lavish production. It's one of five stage hits scheduled on The Pontiac Press Theater Tour, June 23 to 28.

Musical to Thrill Theater Trippers

'West Side Story' One of Hits on Lineup for Press Tourists

"West Side Story," a new musical which will thrill Pontiac Press theater trippers, is one of the big hits of Broadway. And by all rights, it should be.

The colorful production has behind it a list of talent that reads like a Broadway who's who.

★ ★ ★

The story is by Arthur Laurents, who share plaudits from audiences and critics alike for his hand in "Born Yesterday," a fabulously successful comedy.

Laurents also authored "Home of the Brave," a serious stage hit of a few years past.

Consider next the composer of "West Side Story." He is none other than Leonard Bernstein, one of show business' most versatile talents and also renowned on the concert stage.

One of Bernstein's lates achievements was the incidental music for Mary Martin's "Peter Pan." He is the composer of such musicals as "On The Town" and such ballets as "Fancy Free."

Thirdly, there is Jerome Robbins, director and choreagrapher whose talent has been a big factor behind the success of many productions, including "Pajama Game," "Peter Pan," "Bells Are Ringing," "High Button Shoes," "The King and I," "Call Me Madam," "On the Town," and "Fancy Free."

No wonder "West Side Story" is so successful. And with the help of a colorful production and outstanding performers it promises to provide top - notch entertainment for the 250 Pontiac area residents who fly to Broadway for a week of theater June 23-28.

Reservations for "West Side Story" and four other top Broadway hits can be made by filling out the coupon on Page 2 of today's Press. The deadline for reservations is May 23.

Loosen Nation's Purse Strings

Bank Rates Cut Again

WASHINGTON (AP)—The government has loosened another notch in its curbs on the nation's money supply.

For the fourth time in five months, the Federal Reserve Board reduced its discount rate — the interest charged member banks borrowing from reserve banks.

The action, cutting the rate from 2¼ per cent to 1¾ per cent, is effective today in New York, Chicago, St. Louis, Philadelphia and Minneapolis. The seven other Federal Reserve districts are expected to follow suit in time.

In another move aimed at making more money available for lending, the board reduced the amount of reserves which certain banks must maintain against demand deposits.

Showers Will Chill Our Balmy Weather

A 62-year-old record was equaled yesterday when the mercury climbed to a pleasant 83 degrees in downtown Pontiac around 4 p.m.

It was the warmest April 17 since 1896.

The bureau said today this warm spell was about to be snapped. It predicted a low between 46-50 tonight with scattered showers and temperatures between 66 and 70 degrees Saturday.

The low preceding 8 a.m. in Pontiac was 60 degrees. The thermometer registered 75 at 2 p.m.

Tigers Open Home Season

Fans Throng to Stadium

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

DETROIT — The largest American League crowd of the day, an estimated 45,000 began moving into Briggs Stadium before noon today as the Tigers opened their 1958 home season against the Cleveland Indians.

Continued warm weather and the fine season start in Chicago, where the Tigers took two of three games, also presents the possibility of the largest opening day home crowd since 1949 when 53,433 were in the stands.

★ ★ ★

A pair of lefthanders were named to start on the mound by managers Jack Tighe of Detroit and Bobby Bragan of Cleveland.

Billy Hoeft was nominated by Tighe. He won two and lost two against the Indians last year. His overall record was 9-11.

Southpaw Don Mossi, who won three and was not beaten by the Tigers last season, was Bragan's choice, although there was indication that Herb Score might be a last minute switch.

★ ★ ★

Opening day ceremonies include the annual presentation of the floral horseshoe to Tighe at home plate by the Detroit Fireman's Fund Association.

Governor G. Mennen Williams and Detroit mayor Louis C. Miriani formed the battery to throw out the first ball. Williams did the throwing and Miriani the catching.

The series with Cleveland will continue with single games Saturday and Sunday.

Jury Returns Verdict Against UAW

Awards Renda $400,000

DETROIT (AP) — A Circuit Court jury has awarded Detroit scrap dealer Carl Renda a $400,000 damage verdict against the United Auto Workers and four of its aides.

★ ★ ★

The jury returned its verdict yesterday in Renda's damage suit charging malicious prosecution in the 1948 shooting of UAW President Walter P. Reuther.

Renda had demanded 4½ million dollars.

One of the defendants, Emil Mazey, UAW secretary treasurer, said the union would appeal the decision.

Renda charged the union sought to pin the Reuther shooting on him by paying Donald Ritchie, Windsor, Ont., $5,000 to testify against him.

CARL RENDA

CHARGED WITH CONSPIRACY

Renda was one of four men named in a warrant four years ago charging them with conspiracy to shoot Reuther. The warrant was dropped after Ritchie repudiated his story.

The verdict was against the union; Mazey; Harold Cranefield, UAW legal counsel; Jack T. Conway, Reuther's administrative assistant; and Samuel J. Henderson, a private detective employed by the union.

The jury found no cause for action against retired State Police Lt. Joseph Sheridan, a fifth defendant.

★ ★ ★

The union contended there was probable cause for issuance of the warrant.

The 1948 Reuther shooting has never been solved.

Month's Dues for 133,000

DETROIT (AP) — It will take one month's dues of 133,333 members of the United Auto Workers Union to pay off the $400,000 judgement won from the union yesterday by Carl Renda. The union's regular dues are $3 a month. Some locals charge more.

Plan Includes 16 Extra Weeks Compensation

Also Would Aid Those Not Covered by U.S. Unemployment Program

WASHINGTON (INS) — The House Ways and Means committee was set today to vote an emergency 16-week extension of jobless pay benefits and set up a new plan for unemployed not covered by the insurance program.

Rep. Eugene McCarthy (D-Minn) said he would attempt to set benefits for all insured workers at 50 per cent of basic wages and provide for new federal standards on a permanent basis.

★ ★ ★

However, other members said the committee undoubtedly would approve a measure worked out yesterday that compromises the plans for continuing the benefits for a temporary period only.

The compromise would do these things;

—Continue existing state benefit levels, as proposed by President Eisenhower and supported by governors of several states. The size of these benefits vary from state to state.

—Provide for Uncle Sam to pay the $800,000,000 cost of the program for insured workers, rejecting the President's proposal that states pay back the costs within four years.

★ ★ ★

—Continue benefits for a period of 16 weeks. The President had asked that they be continued for a period 50 per cent of the length

See Retail Sales Rise With Spring

NEW YORK (AP) — Pleasant weather combined with attractive price promotions this week to give retail sales a springtime lift, according to a Dun & Bradstreet Inc. survey.

★ ★ ★

Although business was down sharply from the same week last year — the peak of the pre-Easter selling surge — it was slightly ahead of last year's corresponding post-Easter week.

Easter fell on April 21 in 1957 — two weeks later than in 1958.

Warm weather items got the nod from spring-conscious consumers this week. Lightweight apparel, sportswear, outdoor furniture and garden tools led the best sellers.

★ ★ ★

Television sets moved briskly in response to marked-down prices, but demand for refrigerators and washing machines was slow.

Miles, Kehoe Opposed in District 4 Contest

The District 4 contest Monday is between an incumbent who has been on the City Commission four years, and a newcomer, who served seven years on the Tax Board of Review.

Floyd P. Miles is seeking his third two-year term. Gerald W. Kehoe is running for office for the first time.

Kehoe, 46, of 14 Cross St. has lived in Pontiac 40 years. An active UAW member, he has been shop committee chairman four times at Fisher Body Local 596, UAW.

Kehoe currently is employed in the maintenance department of the Fisher plant in Pontiac. He attended Assumption College in Windsor, Ont.

Miles, 49, of 103 Summit St. has lived in Pontiac 46 years. He is owner of the Christian Literature Sales, 39 Oakland Ave.

Miles once was employed in the traffic office of Pontiac Motor Division and served as business manager of the First Baptist Church.

★ ★ ★

Statements by the candidates to The Press follow:

FLOYD P. MILES

"It is my conviction the City Commission should pass such legislation as would help place Pontiac on the highest moral and spiritual plane. Employes serving the city should be of the highest caliber.

"A commissioner should be vitally interested in the material needs of those he represents. He should work for adequate roads, sewers, etc. to serve the people.

"Through the cooperation of the other Commissioners and administrative officials, many miles of curb and gutter and blacktop have been laid in District 4 during the past four years. The Pontiac Creek Drain was extended into the district, correcting a bad drainage problem of many years' standing. Sanitary sewers have been built and several miles of water mains laid. These improvements should continued on a pay-as-you-go basis.

"Citizens should receive the best possible service without raising the tax rate.

"Ordinances have been enacted during the past four years to correct nuisances of weeds, junk, etc. These have helped, but I recognize there is much yet to be accomplished.

"If re-elected, I will work for the continued improvement of District 4 and the welfare of Pontiac as a whole."

GERALD W. KEHOE

"If elected Commissioner, I will request that all areas in the district not presently serviced by sewers be declared eligible op a public necessity basis, with payments based on a five to ten year formula, as set up by City Charter.

"I am opposed to pupitive assessments on new construction and will work for fair assessment formulas for all.

"I will strive to keep present industry and vigorously seek new industry, large and small.

★ ★ ★

"I firmly believe that widows and those living on fixed pensions should be given tax consideration in line with present day cost-of-living.

"I am opposed to all secret meetings. I believe all City Commission meetings should be conducted as outlined in the City Charter. I believe that those presently working for the city should be given first consideration for promotion.

"I am for planning a public works program and would seek federal funds to accomplish it. Such a program would alleviate unemployment and provide many much-needed civic improvements.

"If elected I would cooperate with other Commissioners and provide positive leadership for District 4."

Know the Weather

By E. H. SIMS

Fox-fire, we learned in yesterday's "Know the Weather" has nothing to do with the weather.

It is a fungus breathing, noticed only at night. Likewise, St. Elmo's Light, known to both sailors and farmers, and some of the rest of us, tells us little or nothing about the weather.

Not understood until World War II, St. Elmo's Light is merely a discharge of positive or negative particles, after one or the other has built up to an overloaded degree on some object.

Ships' masts, tall trees in swamps, aircraft moving through all sorts of clouds, charged differently and accumulating charges faster than they can be dissipated, all collect enough current to produce St. Elmo's Light. More about it in the next release of "Know the Weather."

Sees Ultimate Win for Reorganization

WASHINGTON (AP) — Sen. Dirksen (R-Ill) said today he foresees ultimate victory for a reorganization of the Defense Department along the lines urged by President Eisenhower.

Dirksen, assistant GOP Senate leader, said he is "quite sympathetic to the whole thing," especially in the light of explanations he and other leaders have received at White House briefings.

Eisenhower opened his fight for the program with a nationally televised address before a meeting here of newspaper editors. He received a prompt pledge of vigorous support from 24 of the Senate's 47 Republican members.

The plan also won limited endorsement from the Army Assn., the membership of which includes active, retired and reserve Army officers. The Air Force Assn. previously had endorsed the plan, but the Navy League, a civilian group, has criticized it.

Set May 11 Date of Dedication for Hospital Addition

The new addition at Pontiac General Hospital will be dedicated May 11, the Board of Trustees decided last night.

★ ★ ★

The dedication will coincide with the beginning of National Hospital Week. During the week, open house is scheduled at the hospital.

Committees were appointed last night to work out details of the observance.

★ ★ ★

Carl I. Flath, hospital director, said local professional, civic and fraternal groups will be sent special invitations.

★ ★ ★

Mrs. Raymond Rappaport, chairman of the women's hospital auxiliary, reported that her group was prepared to guide the general public on tours of the new building.

District 7 Campaign Pits Former Opponents Again

Two City Commission candidates from District 7 Monday will renew an election battle they waged against each other two years ago.

Incumbent Gilbert W. Long won then. His opponent, Robert A. Landry, is also trying again this year.

Long, 43, of 139 Prospect St. is seeking his second two-year term. A native of Pontiac, Long once was a self-employed decorator and now is an insurance agent.

One of his special interests is church work. Long is an active member of the Beulah Holiness Church, serving as a Sunday School superintendent and treasurer of its board of directors.

★ ★ ★

Landry, 44, of 47 Center St., formerly was in the production control division of Fisher Body Division's Pontiac plant. He now is a senior clerk at Fisher Body's Livonia plant.

A Pontiac resident 30 years, Landry attended St. Joseph College in Lowell, Mass., and is active in the Knights of Columbus here.

Statements to The Press by the candidates follow:

ROBERT A. LANDRY

"The greatest need of the people of District 7 today is for a strong voice on the City Commission. It is the responsibility of the Commission to bring them detailed information on all issues concerning the district and the city as a whole.

"My opponent's failure to carry out his responsibility has led to misunderstanding, confusion and a general decline in active participation in civic affairs on the part of too many residents in District 7.

"It is my opinion that a well-informed citizen generally becomes an active citizen and, consequently, an asset to his community.

★ ★ ★

"Our initial problem is active representation. This I propose to give our residents. District 7 has given Pontiac many fine social, civic and cultural leaders. All of them had one thing in common: they possessed a fighting spirit. Let's return to that type leadership."

GILBERT W. LONG

"The future of Pontiac is dependent on positive, progressive administration in city government. With that in mind, I pledge to do all in my power to see that various programs are encouraged and undertaken to insure the future growth of our city.

"The urban renewal project, which is now being studied and planned, is of prime importance. With the advent of shopping centers, it behooves us to do everything possible to make Pontiac attractive, not only to business, but to shoppers.

"Continued civic improvements are a must. As the budget permits, such things as a new central fire station and a main library are to be planned. Of course, these various projects should definitely be handled on a pay - as - you - go policy.

★ ★ ★

"Much progress has been made in the field of public recreation. But additional emphasis should be given this service.

"If re-elected, I pledge to do all in my power to continue a program of progress for Pontiac."

of the union and "membership in a dual organization."

Scott scoffed at the latter charge, saying it referred to his membership in the State Barbers Assn., Inc., a group partially made up of employers and organized by Scott in 1932.

★ ★ ★

He has belonged to the barbers union from 1927 to 1929 and again from 1944 to date, Scott pointed out.

In his testimony before the McClellan Committee in Washington last fall, Scott charged mainly that the 1948 election at which he and other Local 614 officers were elected was "rigged" by Hoffa.

Curve on M53 Claims Life

Detroit Man, 81, Dies; Two Women Injured Seriously Near Imlay

IMLAY CITY — An auto crash four miles north of Imlay City yesterday claimed the life of an 81-year-old Detroit man and seriously injured two elderly women.

★ ★ ★

Magnus Haas, of 8183 Forest Lawn, was killed when a car in which he was riding failed to make a curve on M53 and rolled over two times. He suffered a broken neck and crushed chest.

In the Lapeer County General Hospital in serious condition are his wife, Mary, 65, and Mrs. Anna Primoschitz, 76, of 12900 E. Canfield, Detroit.

Frank Haas, 50, the driver of the car, was treated at the hospital and released. Nephew of the elder Haas, he lives at the same address as Mrs. Primoschitz, his mother.

Haas' 1958 model car, which according to the speedometer had been driven only 491 miles, went into the ditch at a stretch known as "dead man's curve."

He told Lapeer County Sheriff's deputies he couldn't negotiate the curve and that his car rolled over two times. He was not held.

Longer Jobless Pay Pushed by House

provided by states. These vary from six weeks in Florida to 30 weeks in Pennsylvania.

—Permit insured workers to be eligible for the additional payments until July 1, 1959.

The compromise also called for an entirely new program to aid many workers not covered by the 22-year-old Unemployment Compensation Insurance Law.

★ ★ ★

Heads of households who could prove they were unemployed and were actively but unsuccessfully seeking work would be eligible for payments under the new program. Some 800,000 of the 1,800,000 present unemployed who are not covered by jobless insurance would be eligible.

At the request of railroad union spokesmen, the measure would not include extended benefits for unemployed railroad workers, as proposed by the President.

★ ★ ★

Aid to the thousands exhausting unemployment compensation each week has been a key point in the anti - recession program of both President Eisenhower and congressional Democratic leaders.

More than 2,500,000 are expected to exhaust present benefits in the next year and would therefore be eligible for the additional payments. Payments would average about 29 dollars a week although varying widely from state to state.

Ballots in for Election of 3 C. of C. Directors

BIRMINGHAM—Members of the Birmingham Chamber of Commerce have received ballots for the election of three members to the chamber's Board of Directors.

Candidates for the vacancies, presented by the nominating committee, were Richard A. Fischer, Claude L. Kidd Jr., Thomas P. Monahan, Eugene G. Parmenter, Carus B. Schmidt and Harry D. Wesch.

Chamber President Richard Wilson will appoint a board of judges who will tabulate the votes which come in by mail. The directors elected will be announced at the annual dinner meeting April 30.

★ ★ ★

Charles Mortensen, manager of the chamber, said Mort Neff, who writes the "Michigan Outdoors" column for the Detroit News, will be the guest speaker at the dinner.

Arraigned yesterday in Birmingham Municipal Court on a charge of passing a bad check, John M. Bell, 29, of 1850 Rochester Rd., Royal Oak, was bound over to Circuit Court. Bond was set at $2,500.

Birmingham Police said Bell had cashed a bogus $62 check at Young's of Birmingham, a men's clothing store. He admitted cashing several other bad checks in the area, police said.

Birmingham Rotary Anns will meet Monday at the home of Mrs. Wallace Reid, 2160 Northlawn Ave., for a 1 p.m. luncheon. Miss Janiece Marsh, service representative for Michigan Bell Telephone Co., will speak on "Your Voice Is You."

Robert Girardin, Birmingham recreation director, today assured parents that the only mementoes of their children's fishing trip at the Carp Carnival tomorrow will be prizes. The youngsters will not bring home the carp. The annual fishing contest will be held at Quarton Lake from 1 to 4 p.m.

Mrs. James H. Powell

Service for Mrs. James H. (Ida) Powell, 84, of 301 Manor Rd., will be held at 11 a.m. tomorrow at Manley Bailey Funeral Home. Burial will be in Evergreen Cemetery.

Mrs. Powell died yesterday at William Beaumont Hospital after a long illness.

She had been a resident of Birmingham for six years and a member of the First Presbyterian Church.

Surviving are two daughters, Mrs. Colin Gillies of Oak Park and Mrs. Arthur Martin of Birmingham; two sons, Melvin of Detroit and Guy C. of Birmingham; five grandchildren and five great-grandchildren.

John R. Clemons

Service for John R. Clemons, 85, of 26006 Carol Lane, Franklin, will be held at 1 p.m. tomorrow at Bell Chapel of William R. Hamilton Co. Burial will be in Franklin Cemetery.

Mr. Clemons died yesterday after an illness of several months.

A retired farmer, he had lived his entire life in Oakland County.

He leaves a sister, Mrs. Mary A. Bowden and a brother, William D., both of Franklin.

Youth, 19, Shot by Policeman

In Serious Condition After Attempt to Flee in Ferndale

FERNDALE — A 19-year-old Ferndale youth is reported in "very serious" condition at William Beaumont Hospital, Royal Oak, after having been shot last night by a pursuing policeman.

★ ★ ★

Neil H. William, of 956 W. Lewiston St., was shot in the thigh by a Ferndale policeman as he was trying to escape on foot after he had been stopped for speeding.

Police declined to name the officer until after he had made a statement this morning to Oakland County Prosecutor Fred Ziem.

Police said Williams' car was spotted traveling at a high rate of speed at Woodward Heights. The officer chased the car and forced it over at Oakridge street in Ferndale.

Williams then jumped out of his car, police said, and was shot as he ran down the street.

GM, UAW Return to Bargaining Table

DETROIT (AP) — Negotiators for General Motors Corp. and the United Auto Workers Union return to the bargaining table today after a one-day recess.

Bargaining on a new contract, which got under way March 25, is believed so far to have dealt with secondary phases, including seniority, job classification and shop conditions.

The union held bargaining talks yesterday with Ford Motor Co. and Chrysler Corp. The Ford talks were recessed until today and the Chrysler talks until Monday.

Contracts at the big three expire about June 1.

The UAW has made profit sharing its main goal in collective bargaining this year. It also is demanding an unspecified wage increase and more fringe benefits.

Indonesia Takes Sumatran Port

Sukarno's Troops Win Padang, Head for Last Rebel Stronghold

JAKARTA, Indonesia (AP) — Jubilantly proclaiming the capture of Padang, President Sukarno's government said today its forces are advancing on the last rebel stronghold in Sumatra.

Six thousand Marines, foot soldiers and commandos swarmed into the port city of 150,000 beginning at dawn yesterday and routed the rebels to the dense Sumatran jungles by nightfall. The next objective was Bukittinggi, the mountain rebel capital 40 miles north of Padang.

A Jakarta regiment also was reported moving on rebel troops in the Celebes, the octopus-shaped island 1,200 miles to the east which stood with Sumatra in the Outer Islands' fight against Jakarta.

The rebels claim Sukarno's government on Java has been too friendly with the Communists and short-changed them on foreign trade revenues from their own rich oil, copra, spice and other exports.

The fall of Padang signaled the last days of the two-month-old rebel government. But it remained to be seen whether the Sumatran rebels would make good their threat to wage a nagging guerrilla war from the jungles, the same sort of war which the Indonesians carried on against the Dutch until they got their independence.

Unionist Cohen Quizzed Again

Philadelphia Teamster Boss Allegedly Used Funds for Own Luxury

WASHINGTON (AP)—Ray Cohen, short, burly Philadelphia Teamsters boss, goes back before a Senate committee today for quizzing about charges he milked his local union of huge sums of cash.

Cohen has refused to permit the Senate Rackets Committee to have access to his personal accounts, and invoked the Fifth Amendment in refusing to answer most questions yesterday.

★ ★ ★

Committee investigators testified the union's books show that $241,926.65 went to Cohen from Jan. 1, 1954, to Sept. 18, 1957.

They said also that with a base pay that netted him $20,000 a year after taxes, Cohen spent far beyond that amount — $206,575.10 in 3½ years.

★ ★ ★

Committee investigator Edgar Parkhurst said Cohen's cash purchases included a series of boats ranging from a small cruiser to a yacht, a home remodeled at more than the original cost, and a variety of luxury items.

★ ★ ★

The committee questioned Cohen's payment of $7,500 of union money in 1954 to Thomas D. McBride, then a union attorney and now Pennsylvania's Democratic attorney general. The committee raised a point that it was for services during a period the local was under a trusteeship which removed Cohen temporarily from office.

40 Scrap Scavengers Die

2nd War Wreck Explodes

NAHA, Okinawa (AP)—A sunken World War II ship loaded with ammunition blew up off Okinawa last night, killing an estimated 40 natives exploring it for scrap in violation of regulations.

The explosion left a large oil slick. There was no visible trace of bodies or of a number of fishing boats known to have been in the area at the time. Police based their estimate of the dead on a check of persons missing from nearby villages.

★ ★ ★

Scrap hunting has long been on of the most profitable postwar occupations of Ikinawans despite prohibitions and warnings from the U.S. military administration. Scavengers blew up another sunken ammunition ship last July, killing at least 32 Okinawans. The scrap collectors pose as fishermen and use homemade diving gear.

The wreck detonated last night was believed that of the Canada Victory, sunk during the battle of Okinawa.

Gale Storm Recovering

HOLLYWOOD (AP)—Actress Gale Storm is reported recovering after major abdominal surgery. Exact nature of the operation was not announced.

Faith, Air Hammer Gold-Digging Tools

DALLAS (AP)—Armed with faith and an air hammer, a Dallas family continued today its quest for gold believed buried beneath a modest home.

★ ★ ★

The family of Eugenio Gaytan, 77, has dug a pit 12 feet deep beneath his home in the search for gold a friend told them early Spaniards buried there long ago.

★ ★ ★

An air hammer was pressed into operation when a large limestone slab was uncovered at the bottom of the pit. It was removed, but only more slabs were found beneath it.

Be Careful, Miss Steno, Wife of Boss Is Due In

LOS ANGELES (AP)—Encourage the wife to visit your office; it'll make for a happier home.

Author of this advice is Prof. James A. Peterson, marriage counselor at the University of Southern California.

★ ★ ★

"Married couples today are in effect leading two separate lives," Peterson told an interviewer. "Wives must get better acquainted with the husband's work. . . . The first step is in not infrequent visits to his office.

"It will give her some insight into the pressures under which he works. And it will bring husband and wife closer to leading one life together."

. . . . Other Guy's Fault

DETROIT (AP)—Eighty per cent of motorists involved in auto crashes call themselves good or excellent drivers and 82 per cent blame other motorists for their accidents. The figures, based on a University of Michigan survey, were presented to the Michigan Safety Conference.

Orion Continues Drive for Boy's Hospital Bills

LAKE ORION — The fund drive to help pay the hospital bills for Richard Lamphier, 16, of 366 S. Broadway, is being continued.

Tag days are being conducted in the village today and tomorrow, and canisters will remain in stores for donations.

Richard, who lives with his mother, Mrs. Helen Lamphier, was injured almost two years ago when he was struck by a car while riding his motor scooter. His father is dead.

A benefit card party was held for him Saturday, but more money is needed, drive sponsors say.

Re-Elect Capac Farmer

DETROIT (AP) — Harold Zorlin, 54, a Capac dairy farmer, has been re-elected chairman of the 20-member Michigan State Fair Commission. The commission, at its annual meeting Thursday, elected Helen Berthelot of Detroit as vice chairman. She is the first woman to hold the post.

MR. AND MRS. DAVID R. STREETER

Romeo's David Streeter Wed in Wheaton Chapel

ROMEO — David R. Streeter of Romeo claimed Carolyn W. Steele of Wheaton, Ill. as his bride in a recent double ring ceremony held in the Wheaton Academy Chapel.

The bride is the daughter of Mr. and Mrs. W. Karl Steele of Wheaton. The bridegroom's parents are Mr. and Mrs. David L. Streeter, 218 Pleasant St., Romeo.

★ ★ ★

Dr. H. H. Savage, pastor of the First Baptist Church of Pontiac, performed the ceremony before an altar decorated with a formal arrangement of Easter lilies, palms and white candles.

Given in marriage by her father, the bride wore a gown of Chantilly lace over starlite satin designed and made by her mother. It was fashioned with a long sleeved fitted bodice and full skirt which ended in a chapel train.

Her fingertip veil of silk illusion was fastened to a tiny crown of pearls and sequins. She carried an arrangement of red rosebuds and lilies of the valley.

Mary Vugeteen of Muskegon was maid of honor. Bridesmaids were Maureen Darroch of Bloomfield, N.J., and the bridegroom's sister, Carol Streeter of Romeo.

John Streeter, brother of the bridegroom, served as best man. Groomsmen were Allan Streeter of Detroit, brother of the bridegroom, and Ted Hosner of Utica. Another brother of the bridegroom, Thomas Streeter, served as junior groomsman.

Ring bearer was Steven Huntoon of Jackson, and Robert McCarron and Larry Powell seated the guests.

★ ★ ★

After the nuptials, a reception was held in the Academy lounge. The newlyweds, both seniors at Wheaton College, will resume their studies following their honeymoon trip to the Gulf of Mexico.

1,500 Attend Fisher Rite

DETROIT (AP) — Fifteen hundred mourners attended funeral service Thursday for Charles T. Fisher Jr., president of the National Bank of Detroit. Fisher died early Monday of cancer of the lung. Service was held at St. Peter and Paul Catholic Church.

Romeo Girl's Safety Poster Tops

Wins Contest 2nd Straight Year

ROMEO—For the second year in a row, talented 11-year-old Vera Kiriczenko last night was named winner of the Safety Poster Contest sponsored annually by the Elementary Schools Club of Romeo.

Vera, a sixth grader, is the daughter of Mr. and Mrs. John Romanczuk, 153 S. Bailey St. She received a trophy from Inspector Francis E. Davey, head of the Detroit Police Department Youth Bureau.

★ ★ ★

The theme of her poster was "Light Up the World With Safety."

Runnerup in the competition which attracted close to 1,000 entries was an 11-year-old boy. He is Mathew Friedemann, son of Mr. and Mrs. Conrad J. Friedemann, 11870 W. 31 Mile Rd.

Mathew, a fifth grader, was given a smaller trophy by former Romeo Police Chief Gordon Osgood.

Some 325 persons crowded into the Romeo Youth and civic Center to witness the award ceremonies. They saw 40 youngsters receive blue ribbons denoting second honorable mention, 36 win first place blue ribbons and 31 get pins as room winners.

Nine students were named grade winners and were given plaques. Sharing top honors in the first grade were Janet Carr and Charles Seifert. Second grade winner was Barbara Falker, third grade Nancy Johns and fourth grade, Annette Scheuneman.

There was a three-way tie in the fifth grade, winners being Robert Renwick, Carol Emmett and Pat Lasslett. And top honors in the sixth grade went to Larry Rankens.

★ ★ ★

The posters were identified only by number until the judging was completed. Then each teacher checked her own list for the names of the winners. Only last night did the students finally learn which award they were to receive.

Research Fund Drives Conflict

Recent reports indicate that we have at least 40 different organizations in the United States raising money on behalf of their specific diseases.

★ ★ ★

If all 40 of these groups put the bite on each of us we would really be at odds with fund raising in general. Fortunately this has not quite been the case.

Medical research must go on. It is the key to ending eventually many of the deadly diseases.

★ ★ ★

Fund raising for our better known illnesses such as heart, polio, cancer and arthritis makes quite a long list. But when we add some of the less well known ailments as myasthenia gravis, cystic fibrosis and others we are stretching a little far afield.

None of us today can contribute to all the worthy causes. And we have many. But to each victim, his own particular disease is serious enough without worrying about how many fellow sufferers there are.

★ ★ ★

Our system of fund raising today is by "popularity contest," disease by disease. This is not fair. All types of medical research must continue. In some cases this method may lead to choking off funds for a vital program of research which may be off the beaten track yet have within it the answer to many diseases.

To the average citizen every disease can be dangerous. We want to see all of them licked — and fast.

★ ★ ★

It seems time for a little common sense and some hard thinking to find some better way to finance medical research than to tackle each disease by itself.

Trade Act Extension Is Urged by President

President EISENHOWER again has asked Congress for a five year extension of the Reciprocal Trade Agreements Act and in a major speech, directed his appeal to the American public.

Meeting in Washington with 125 trade promoting organizations, Mr. EISENHOWER spoke vigorously for his foreign trade program. Supporting his stand were Democrats ADLAI STEVENSON and House Speaker RAYBURN, as well as DAVID MCDONALD, president of the United States Steel Workers' Union. Vice-President NIXON headed a group of Administrative backers, including Secretaries DULLES, WEEKS, MITCHELL *and* BENSON.

★ ★ ★

"If free nations cannot find room and opportunity to trade within the free world," the President declared, "they surely, inexorably turn to trade with the Communist world. For to live they must trade. It is as simple as that."

The Trade Agreements Act permits the President to cut tariffs on goods from countries which grant our goods similar treatment. The new six nation European Common Market, which plans to reduce and ultimately eliminate tariffs among its members while applying common tariffs to outside countries, will make it a powerful force in world trade. It is all the more important, therefore, that the President be given long term authority to deal with tariffs.

★ ★ ★

Our exports for 1957 totaled $19.5 billion and imports, $13 billion with only $2 billion in competitive goods. The other $11 billion included such necessities as tea, coffee, cocoa, bananas and such strategic materials as tin, sisal, rubber and manganese. The U. S. is not a self-sufficient country. We must import one-tenth of our raw materials.

The $2 billion in competitive goods does adversely affect some segments of American industry. But, as President Eisenhower emphasized, the Reciprocal Trade Act already provides protection for those who might be injured by lower tariffs.

★ ★ ★

World trade provides employment for 4.5 million Americans. The U. S. needs a vigorous foreign trade to assure steady employment and high production. Healthy foreign commerce is necessary to this country's well being and as a defense against Soviet economic penetration.

The Man About Town

Stand Too Close

Warning for Children as They Wait for School Bus

Work: What has a great fascination for some people, who can just sit and look at it for hours.

Several teachers, school bus drivers and school officials have requested me to issue a warning about children being careless while waiting for their bus. They often stand too close to the passing cars, and partake in playful carelessness in pushing each other around.

A Waterford child narrowly escaped death the other day when it ran in front of a car while being chased by a playmate. Only the quick action of the driver, and the fact that he had room to swerve his car on the pavement, saved the child's life.

Tell your children to keep back a few feet, and not, to engage in any playful stunts. They thus can save their own lives, and also save the nerves of the drivers.

Today at noon was the final hour for receiving entries in the baseball contest. The results now are being tabulated, and in this column Monday will appear a summary of our readers' predictions, showing how they voted. The winner of the $250 will, of course, not be determined until after May 1. The standings of the top batters will be published in this column each day, beginning April 28.

A letter in the "Voice of the People" in The Pontiac Press 55 years ago, sent me by

Together They Might Do Something

David Lawrence Says:

GOP Must Draw Unhappy Voters

WASHINGTON — There are many lessons to be derived from the senatorial primary election in New Jersey this week, but there is one of national significance which is of paramount concern to the Republican Party throughout the nation.

For it shows the overriding importance of the problem that faces the Republican Party — how to bring back to the polls the millions of conservatives and non-radicals who have been inclined to stay at home because they think "Modern Republicanism" means New Dealism.

LAWRENCE

The New Jersey primary in the Republican Party was a three-man race, but there happened to be running an able conservative — Robert Morris — who exemplified the viewpoint of many disaffective Republicans in the state.

★ ★ ★

He polled more than 73,000 votes. If any considerable part of this bloc had stayed at home, the Republicans would not have made the excellent showing they did in the total vote.

Thus the Republicans polled 41.2 per cent of the vote they had in the senatorial election of 1954, while the Democrats came up with 40.8 per cent. This is about even-up. But it represents a very significant gain for the Republicans as compared with the showing they have been making in recent special elections in other states.

In the Wisconsin senatorial in August 1957, the Democrats got 69.4 per cent of the senatorial vote they had in 1956, whereas the Republicans polled only 35 per cent.

★ ★ ★

To put it another way, 65 per cent of the Republicans in Wisconsin stayed away from the polls in the special election, but only 30.6 per cent of the Democrats didn't vote.

Much the same story was told in the election in February of this year to fill the seat of the late Rep. Andresen of the first district of Minnesota.

The Republicans fell off 52 per cent of the vote for congressman as compared with their vote in the same district in 1956, while the Democrats polled only 24.3 per cent less than their 1956 total.

★ ★ ★

Similarly, in the 1957 special election in New Jersey's second district, the Republicans dropped 31.5 per cent from their 1956 vote, while the Democratic drop was only 16.5 per cent.

Normally, the per cent who stay away from the polls in years when there is no presidential election is about the same in both parties, and that is what happened in New Jersey this week.

The disgruntled Republicans this time had a good reason to vote. They had, in Robert Morris, former counsel for the Senate subcommittee on internal security, a candidate who stood for their point of view. He had not previously been identified with Republican politics in New Jersey and was not well enough known to poll a bigger vote this time.

The big question now is whether the successful nominee, Rep. Robert Kean, can unify his party and bring the disaffected Republicans to the polls. Many observers think he can do it and can thus enable the Republicans to hold on to their Senate seat in New Jersey this year.

In a sense the problem is the same everywhere else in the country. The Republicans have suffered a deep cleavage. This was brought on by those who pictured President Eisenhower as a partisan of the "left-of-center" philosophy of the so-called "liberals."

Many Republicans have allowed themselves to be swayed emotionally, too, over the way the administration handled itself in connection with the "censure" of the late Sen. McCarthy.

While this attitude pleased the so-called "liberals" — nearly all of whom have been voting Democratic anyway — it caused many Republicans not to vote at all.

The job now is not only to heal such wounds, but to demonstrate to the dissident Republicans that this is a year when to stay at home and nurture resentments is only to bring into office on the Democratic side more radicals who can disturb the economy by unsound measures.

Dr. William Brady Says:

Calcium Cautions Dated as Old High-Wheel Bicycle

From what I read in letters it seems the fashion among trick specialists, "clinic" racketeers and other fast buck practitioners to utter vague warnings against "too much calcium."

Just how much calcium is too much?

DR. BRADY

As a general rule the doctor who dismisses questions about vitamins and minerals by asserting that a fairly liberal and varied diet supplies all the vitamins and minerals any one needs is talking through his hat.

I quote Sherman: "The ordinary mixed diet of Americans and Europeans, at least among dwellers in cities and towns, is probably more often deficient in calcium than in any other chemical element."

Boas "Treatment of the Patient Past Fifty" (a medical book not available to the public) quotes Sherman's statement and adds that "as a result, adults experience a steady, long-continued loss of calcium through the years . . . the bones become poor in calcium and more fragile."

★ ★ ★

But an eminent old-timer named Howell supports the trick specialists by opining, in his Textbook of Physiology," that "There is some evidence that the amount of calcium in the tissues" (bone is tissue and so is blood) "increases with age." This is certainly true of the bones, which become brittle in advanced life, and is stated also for the arteries, whose elasticity diminishes as the calcium salts deposited in their coats are increased."

Boas spoke his piece about 10 years ago. Howell gave his version about 40 years ago.

Boas is modern. When Howell opined that too much calcium in the bones explained the greater brittleness of the bones of the elderly, nothing was known about nutrition.

Prolonged confinement to bed or chair, prolonged immobility, or unwillingness to take a reasonable amount of daily general exercise also favors the same "long-continued loss of calcium from the bones" as that which is so characteristic of old age.

Even a young adult who has been immobilized for weeks or months is likely to suffer a fracture from some trifling injury when he or she gets up again. Unless — this is just my belief, for it remains to be proved by clinical test in a series of cases — unless the individual receives an adequate daily calcium and vitamin D supplement throughout the period of immobilization.

But, shucks, it is idle to dream in the Boas era when the medical profession (and the dental profession) is still years back in the Howell high-wheel bicycle age.

Signed letters, not more than one per 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

'Union Must Stand on Own Merits'

You're right, Union Man, the Pontiac Motor strike was in 1946, not '49. That means the union has had 12 years instead of nine in which to prove they're not qualified to run the company. I walked the picket line, too, but now I'm doing my own thinking.

The union did get us vacation pay, but before that I could save more than that and live better, too. I figure every dollar in benefits the union gets me, it cost me at least two dollars.

The union has done some good, but like everything else, it should stand or fall on its merits. If it has to be rammed down throats of people who don't want it, its merits look pretty dubious to me. If you were Mr. Kohler, would you rehire men who for four years have been trying to break you and terrorize your employes? I don't think so.

'Jobless Don't Like Shiftless Label'

No doubt Mr. Kennedy has a very good job, maybe a very good business which he built up by "hard work and rugged individualism" and to him the recession is just something he reads about.

Very few unemployed think the world owes them a living, but they do feel they're entitled to a decent economic deal in the shape of fair return for their "fortitude, ingenuity and hard work."

And when they get hungry and lose all their possessions while trying to find a way to earn a decent living, they don't take it kindly when some well-heeled lad writes a letter and calls them shiftless.

'Now Is Time We Need Help'

I've just made a trip through 11 states and wherever there were new car lots or sheds, they were full of new cars and we didn't see many on the road. We passed farm machinery plants with acres of new machinery setting out in the weather. I talked to farmers and they said if Ike vetoed the farm bill they would be ruined. He has vetoed it.

Now I see they've fixed it where veterans don't have to make down payments on new homes. It's just a little late, after some veterans have lost theirs. Veterans and the majority of working people need help now, not later.

Reuther's idea to stop taking income tax from working people's checks would help. If they wait a year it will be too late for many.

'High School Pool Is a Disgrace'

The Pontiac Central High School swimming pool is a disgrace and it's time something is done about it. It's humiliating to think we must ask other schools to swim in such a place.

Not only is it in desperate need of repairs, but the walls are very dirty and paint has peeled all the way through to the bricks. If the pool isn't worth making major repairs for, we could at least put a couple coats of paint on the walls to make it look decent. Paint costs very little, and if we can afford $1000 for a golf net that hasn't been used all year, certainly we can buy a few buckets of paint.

And speaking of economy, why do we every year pay two and three men to put a 220 line to the pool for use in water shows when we could install one permanently for less? Just Another Taxpayer

Case Record of a Psychologist:

Explains Tantrums in Menopause

Sarah's jealous nagging really indicates a severe sexual inferiority complex. But her inferiority is purely psychological for she has absorbed the erroneous idea that the menopause is the death knell for a wife's erotic allure. Scrapbook this case and send for the sex booklet below, for it is often as helpful to menopausal couples as to newlyweds.

By DR. GEORGE W. CRANE

Case X-383: Sarah S., aged 47, is an attractive looking housewife.

"But she is insanely jealous of my father," her grown daughter said.

DR. CRANE

"Why, Mother accuses him of the most impossible and outlandish affairs with other women:

"If we children ever try to show her that she is wrong, then she grows furious and says we are always taking his side.

"Dr. Crane, why should she be so unreasonably jealous and spiteful? My father puts up with her nagging and meekly tries to soothe her.

"We children wouldn't take half what he submits to so meekly."

MENOPAUSAL TYRANTS

When women reach the age of about 45, they often get terrified about the menopause.

For women have mistakenly assumed that the menopause meant they no longer could be physically appealing to their mates.

★ ★ ★

"I'm nothing but a nothing. I'm not a thing at all," is the way they subconsciously feel. "My husband can't be fond of me any longer."

Moreover, the usual middle aged husband is not as ardent as he was at the age of 25, so when these suspicious wives start carrying such a chip on their shoulder, they usually find what they are looking for.

Their husbands may not respond as alertly to their suggestion about a movie date. Or the men may not be as gallant about opening doors or holding their wives' coats.

★ ★ ★

"You don't love me any more," the wife may then seize the initiative and start her nagging attack maybe carrying it onward till 2 a.m.

"You know doggone well you're the ONLY woman I ever loved," the tired husband may finally protest, half-irritably.

And that is the sweetest music in the world to the ears of a menopausal wife, even if she must club the admission from her weary mate.

SEX MISTAKES

It is a tragic mistake of womankind to think her sexual charm stops at the age of 45.

The womb is not primarily a sex organ, anyway, so its functioning is not a significant factor in making a woman thrilling and thrillable.

But most women in past ages have erroneously imagined their womb was the barometer of their female allure. It isn't, so get hep to medical facts.

★ ★ ★

And a marriage should not degenerate into a platonic affair just because husbands and wives are 50 or 60 or even 70 years of age.

There is actually no date line on erotic vigor. It is supposed to last throughout a long lifetime. Like our gastric appetite, it is supposed to endure as long as we live.

Many men, unfortunately, help drive themselves into a platonic role by their use of cigarettes, for I have found that obesity and cigarettes are the two most common causes for premature impotence in males.

Mankind thus can curb both his gastric as well as his sex appetite by drugs. Morphine will thus kill the stomach hungers.

And tobacco helps do the same. But cigarettes, as well as drugs

will also curb the erotic hunger, too, which is one reason why they were so widely distributed to soldiers during the war.

When a wife like Sarah becomes unduly jealous, it usually means she feels inferior in the erotic realm. A smart husband can correct her false notions in a few minutes by the booklet below, which is as useful for wives past 45 as for new brides.

So send for my booklet "Sex Problems in Marriage," enclosing a stamped return envelope plus 20 cents (non-profit).

It can salvage marital happiness at the menopause and keep your love flourishing as long as you live.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

See Conversion of Salt Water

Scientists Predict Vast Desert Regions to Be Open for Irrigation

SAN FRANCISCO (INS) — Within the next 10 years, mankind will have solved the age-old problem of how to get plenty of low-cost fresh water.

This is the prediction of a group of nationally recognized salt water conversion experts now attending the American Chemical Society's national conference in San Francisco.

★ ★ ★

By conquering the fresh water barrier—which is now only economic, not scientific—the experts foresee the possibility of opening vast desert regions for irrigation at relatively low cost.

Moreover, salt water from the seas converted into fresh water which is piped into water-deficient areas would mean the end to droughts that have plagued man for centuries.

Johan Bjorksten, chairman of a water conversion symposium at the conference of 6,000 chemists and chemical engineers, opined that dams may be a thing of the past within the next 10 years. He pointed out that while some dams may be needed for flood control, even the power potential of falling water is likely to be replaced by other means 10 years hence.

★ ★ ★

Bjorksten and the other symposium experts agreed that once the cost barrier is overcome that now blocks the large-scale economic conversion of salt water into fresh water, there will be little need for today's vast and expensive networks of dammed lakes, canals, pipe lines and pumps for water storage and transportation, such as those in California.

Gary Cooper's Face Undergoes Plastic Surgery

NEW YORK (AP) — Gary Cooper has had some facial blemishes removed by plastic surgery.

The operation was performed yesterday at Manhattan Eye, Ear and Throat Hospital.

★ ★ ★

A hospital spokesman said the surgery was not the type popularly known as face-lifting, and that the veteran movie star's features are as rugged as ever.

The announcement said Cooper entered the hospital yesterday for reconstructive plastic surgery of internal injuries resulting from a broken nose and the removal of a facial scar and cyst of long standing, resulting from accidents.

The surgery was without incident and Cooper expects to be discharged from the hospital in a few days.

Bob Considine Says:

Belgians Hunt Wampum at Brussels Fair

BRUSSELS (INS)—The quickest way to the Brussels Fair is by Sabena, the Belgian national airline, which flies nonstop restaurants from New York to Brussels and also sends clouds of Convairs and American-built helicopters to the fair from lesser distances.

Bring money. Things are not cheap at the fair or in town, but neither is piracy afoot here. The Belgians are happier to see us than, let's say, the French or Monagesques; but they're every bit as cooperative when it comes to exchanging wampum into native currency.

Take out extra insurance if you plan to do any driving in Belgium. The Belgians are not required to prove, either by test or by license, they know how to drive a car before venturing forth behind the wheel.

It's enough to be able to buy one. A car dealer takes a new owner's money, shows him how to open the door and turn the key, jumps back two paces and blows him a kiss.

One phase of liability in accidents is quite simply determined. A man whose rear is smashed by the charge of another car must pay for damage to the car that collided with him.

Plainly, or at least it seems plain to Belgian traffic judges, the car that was struck made some fool decision — such as going too slow—which caused the innocent assailant to collide.

Ed Stone, the architect of the brilliant American Pavilion, told us today there may be a reason why so many who have viewed it exclaim that it seemed to float in the air.

"We were worried about it taking off in a high wind this past winter," Stone said of the $12 million complex.

"We lashed it down with cables when we built it, but now it's steady as a rock.

"The roof is a bicycle wheel with a diameter 20 feet greater than the length of a football field. It rests in the outer walls and needs no further support, any more than a real bicycle wheel would sag if placed across the top of a tub.

"There's no chance that the wind will get under it and lift it off. You see, the hub of the wheel is a whole 60 feet across which is open to the sky.

"That lightens the load and takes the pressure off. It lets the rain in, too, but only on the lake we built underneath the open part of the roof. And whoever heard of water hurting a lake?"

Really, the building is a joy to behold. However, some of the first visitors found the contents a bit too off-beat, especially the prominence given torturous surrealist sculpture.

An Omaha friend named V. J. Skutt, gravely regarding an object of art which resembled a piece of driftwood rejected by an especially poor ocean, mused, "You know, I think maybe a bust of George Washington or Abe Lincoln would look a bit better."

The Portuguese beat everybody else to the paunch in the race to get a national restaurant open.

With workmen still hammering the Portuguese Pavilion together the doors of that country's neighboring dining saloon were flung open Tuesday noon with waiters in immaculate white ties and tails and what including the right wines. With luncheon done and all of us feeling like characters in an out-of-focus Renoir somebody said: "Coffee all around, please."

The man paused in mid-stride and a look of reflective pain came over his face. Coffee was the one item he'd forgotten to stock.

turned out to be a larder stocked 99 and 44/100 complete.

The maitre d' triumphantly brought our group what it ordered,

Junior Editors Quiz on PAUL REVERE

QUESTION: Did Paul Revere finish his famous ride?

★ ★ ★

ANSWER: During the tense days before the outbreak of the Revolutionary War, 30 Boston mechanics formed a volunteer patrol to keep an eye on movements of British troops in Boston. Among them was Paul Revere, a silversmith who had been a leader of the Boston Tea Party in 1773.

On the night of April 18, 1775, some 800 British troops were dispatched to Concord, 20 miles from Boston, to destroy American military stores. They were to go by way of Lexington to arrest the revolutionary leaders Samuel Adams and John Hancock. The Americans learned of the plan and at midnight Paul Revere and William Dawes set out on horseback to warn the colonists and arouse the minutemen to take up arms. They reached Lexington in time to alert Adams and Hancock, but on the road to Concord, Revere was captured by British scouts. However, Dawes got through Concord in time. Revere was released after a day and he returned to Boston to help the colonists fight the British.

Eye Shielding of Younger Men

Military Considers Use of Middle-Aged Group in Radiation Areas

WASHINGTON (AP)—A Navy scientist suggests that the armed services consider using middle-aged men as radiation shock troops to protect younger servicemen from genetic hazards after a nuclear attack.

The idea would be to use men in their 40s and even 50s for road-building, radiation-cleanup and other jobs in areas or on ships contaminated by fallout soon after an attack — while many of the younger servicemen would take temporarily cover in radiation shelters.

★ ★ ★

Capt. A. R. Behnke of the Navy's Radiological Defense Laboratory, San Francisco, explained that as far as future generations are concerned, men in the younger and sexually more productive years require more protection against radiation than do those whose fathering years are waning.

Behnke told about the idea in a talk and interview at a symposium sponsored by the U.S. Naval Medical School in nearby Bethesda, Md.

He said it was based on an idea first put forth by Dr. Eugene Cronkite, a former Navy radiation specialist now working at the Atomic Energy Commission's Brookhaven, N.Y., laboratory.

The idea might also be a means of protecting young men from long-term cancer hazards due to undue radiation exposure, Behnke said.

★ ★ ★

As for the middle-aged men, exposure to fallout might carry a cancer hazard, he said, but the men would be of such an age at the time of exposure that they might well live out a close-to-normal life span and die of something else before cancer had time to develop.

Calls Ambassadors From Britain, France

MOSCOW (AP) — The British and French ambassadors got their call today to talk with Soviet Foreign Minister Andrei Gromyko about a summit conference. Gromyko saw U.S. Ambassador Llewellyn Thompson yesterday.

★ ★ ★

Gromyko's individual interviews followed agreement by the Western Big Three to open presummit talks. But the Western Allies rejected the Soviet stipulation that Gromyko and the three amasssadors confine themselves to arranging a foreign ministers' conference which in turn would be restricted to deciding the date, place, participants and agenda for a meeting of government heads.

Instead, the West insisted that the lower-level talks must begin an exploration of the points of conflict between the Communists and the West to determine on what issues — if any — agreement may be reached. The West contends that any agreement is going to require long, unpublicized negotiations, and nothing can be accomplished in a brief, floodlit turn by top leaders.

Spots His Trouble

He Climbed by Going From Top to Bottom

NEW YORK (AP)—In most fields a man gets ahead by going from the bottom to the top.

George Abou ben Hamid—may his tribe increase!—did it the other way. Now one of America's leading showmen, he won success by working his way from the top to the bottom.

"I started as an acrobat at the age of 7 in Lebanon," explained Hamid. "The novice always acts as top man on the human pyramid. His goal is to work down until he is the ground man—and holds the others up."

Hamid now runs the world's largest booking agency for thrill acts. He owns the Steel Pier at Atlantic City and a chain of movie houses. He also is currently staging the Beatty-Hamid-Morton Circus, billed as the largest under canvas.

★ ★ ★

But at 62, George, one of the top tumblers of his time, can still turn a cartwheel in his office—and thinks it isn't a bad way for a busy executive to pep up his circulation.

"I could probably still do a somersault—maybe for Marilyn Monroe," he remarked genially. "It's the ex-athlete who quits exercising who gets flabby and fat and dies young."

★ ★ ★

Hamid has known most of the entertainment figures of two generations, but his lifelong favorites are Col. William (Buffalo Bill) Cody and Annie Oakley, star marksman with the colonel's famous Wild West show.

"I came to this country with the show 50 years ago," he recalled. "Annie Oakley bought me my first primer and taught me to read. She gave me the only schooling I ever had.

"Col. Cody made a pet of me. I remember making lemonade for him during the summertime. I started with him for 25 cents a week.

"Once when I won in a contest between tumblers from three of the biggest circuses he was so pleased he doubled my salary—from $5 to $10.

★ ★ ★

"Buffalo Bill was my hero. No man since has been worshiped in quite the way he was. They even closed the schools when he came to town.

"He made more money for a time than any man who'd ever been in the circus business. But he was too generous.

★ ★ ★

"The only reason he died broke was that when somebody told him a sob story he'd automatically reach in his pocket for money—and he never bothered to count what he pulled out. He gave away his fortune by the handful."

Although he has booked the highest-priced talent in the show world, his own heart still is with the lower-paid circus performers who may risk death for a little wage.

Mackinac Span's Lighting Called 'Beautiful Sight'

ST. IGNACE (AP) — All the lights on the multimillion dollar Straits of Mackinac Bridge were turned on for the first time Wednesday night. It was described as "a truly beautiful sight."

★ ★ ★

Engineers had just finished installing the remainder of the bridge's 314 lights. Nearly 100 amber cable lights and 8 powerful floodlights at the base of the towers were hooked into the power cables shortly before the system was tested.

The calm waters of the Straits reflected the amber and white of the cable lights and floods, the blue-white of 164 mercury vapor road lights, 4 red aerial beacons atop the 47-story towers and 70 red and green navigation lights strung on the piers.

Testing and adjusting the new lights will continue the rest of the week.

★ ★ ★

The system will be turned on again over the Memorial Day weekend and then off, until the bridge is dedicated formally June 26-28.

Treatment of Salesgirls Often Is Rough

By PHYLLIS BATTELLE

NEW YORK (INS) — **AMERICANS IN A NUTSHELL:** A reader writes in defense of indifferent and insolent salesgirls: "The woman customer is free to wander around the shops looking for something to buy or, usually, 'just looking.' She is in the driver's seat. Has divine rights. The clerk is not free to wander anywhere, looking for anything. She stands there and takes it, day in and day out, and because the treatment she gets is untakeable, she invariably ends up insolent and indifferent."

Two Americans pointed up the difference in male and female attitude toward the rising divorce rate.

He says, sadly, "Whatever the remedy may be it is not to be found in the marriage-divorce-remarriage merry go round."

She says, blithely, "She marries for love. And if love dies, she does not try to live with the corpse. She believes in reincarnation. And usually her faith is justified . . ."

SPRING HOUSE-PREENING: A decorator for psychiatrists says colors in the home can either upset you or put you to sleep. If you want to be stimulated and jangled, use reds and loud tints. If you want to be dull and sluggish, use beiges and bland golds. (If you want to be smart, use your own judgment) . . .

A survey of teenagers shows that 96 per cent expect to own their own homes; 75 per cent of these expect two bathrooms, and 11.5 per cent expect more than two. The National Association of Home Builders, amazed, estimated that if the kids' dreams come true, plumbing production will have to increase 30 per cent . . .

A New York analyst says redecoration of her home is the most "traumatic" experience in a woman's life: More strenuous than childbirth, more emotional than her wedding. It is marked by even more indecision than a crumbling marriage . . .

SPEAKING OF DECISION: Ford Bond, once-famed radio commentator, decided at age 20 he would retire at age 50. He spent his 40's shopping for his early resting place, almost picked Majorca, finally settled on St. Croix, V.I. His comment on radio — "I got out just in time. The big men in radio, even with great accomplishments, are hanging around the table, tragically taking the crumbs. I didn't wait till they threw me on the ash heap" . . .

Americans smoked 410 billion more cigarettes in 1957 than in 1956. A study shows that doctors, however, have cut their smoking by 20 per cent in the last six years . . .

Modern Papermaking Studied at Filer City

FILER CITY (AP) — A papermaking giant which munches on pulpwood at increasing profit to Michigan woodlot owners was displayed today by American Box Board Co. at Filer City.

Center of interest for newsmen in an open house tour of the Bleached Kraft Mill, expanded at a cost of $17,750,000 over the past two years.

★ ★ ★

It produces a smooth paperboard used extensively in food and dairy packaging.

Gordon B. Bonfield, general manager of the Filer City operation, says a daily output of 150 tons of Bleached Kraft paperboard is planned for the new mill.

With other corrugated paperboard, the total plant output has been raised to 550 tons a day.

American Box Board employs 550 persons in its Filer City operations. Bonfield says production and delivery of pulpwood for plant needs provides another 1,400 jobs across the state.

New requirements for pine and aspen pulpwood have raised the planned yearly needs to 305,000 cords. Bonfield estimated yearly purchases of pulpwood will total $4,700,000.

★ ★ ★

The firm works with public and private landowners in developing forestry practices to insure future supplies.

American Box Board last year started a tree farm family plan in five counties surrounding Filer City. Woodlot owners use the services of company foresters and those who practice intensive management are guaranteed a pulpwood market at the Filer City mill.

The firm also opened a new office recently at Mio to set up procurement programs for eastern lower Michigan wood.

★ ★ ★

Another feature of the Filer City plant expansion is a $2,500,000 chemical recovery plant. Pulp mill waste discharge now is burned and its chemical deposit recovered within the plant.

Sees Jobs Increasing

DETROIT (AP) — The appointment by Wayne County of a jobs coordinator will mean more work for persons now on Wayne County relief rolls, County Welfare Director Walter J. Dunne said Thursday. Dunne said the co-ordinator will deal with mayors of Wayne County communities and township supervisors to find work for the jobless.

Wins Safety Award

DETROIT (AP) — The F. J. Boutell Driveaway Co., Inc., of Flint Thursday won the outstanding overall safety record award given at the Michigan Trucking Assn.'s annual transporation day ceremonies here.

Mental Hospital Inquiry Looms

Statewide Investigation Likely to Follow Check Into Patient Abuses

LANSING (AP)—A legislative investigation of Michigan's vast mental hospital system was in prospect today following a one-day check into reports of patient abuses at two mental hospitals.

★ ★ ★

Heads of both institutions and two employes, along with Charles F. Wagg, mental health director, appeared before the House Ways and Means Committee yesterday to answer their accusers.

Afterward, the committee drafted a resolution declaring there was "probable cause" for the charges. It asked the House for $5,000 to finance a study of the whole mental health program between the 1958 and 1959 sessions of the legislature. Quick approval was anticipated.

Rep. Arnell Engstrom (R-Traverse City), committee chairman, indicated the investigation likely would have little to do with individual reports of mistreatment.

★ ★ ★

Dr. E. J. Rennell, medical superintendent at Coldwater, testified yesterday.

Rennell said patient mistreatment occurred occasionally but was not tolerated. Since he came to Coldwater in 1944 from a superintendent's job at Pontiac State Hospital, he said, 27 attendants have been discharged for abuses or have resigned while incidents were under investigation.

★ ★ ★

More than 500 employes at Coldwater submitted statements to the committee supporting Rennell and his administration.

6 Are Sentenced After Police Raid

Six persons were arrested last night in a Pontiac Police vice squad raid on 22 Whittemore St.

All pleaded guilty this morning to various charges in Municipal Court and were fined by Judge Cecil B. McCallum.

The sentences were: Laura Adams, 57, of 22 Whittemore, operating an illegal liquor place, $100 or 20 days; Irene Gauthier, 54, of 626 State St., and Doris Surratt, 39, of 58 N. Cass Ave., soliciting an act of prostitution, $25 or five days each.

Guilty of loitering in the place were Patrick T. McNamara, 57, of 22 Whittemore; Mary Raymond, 51, of Tucson, Ariz.; and Carlos Schramlin, 60, of 1890 June St., Rochester.

They were fined $15 or three days in jail.

The raid was made by Officers Gerald Navarre and Earl Skrobeck after the latter secured entrance to the house and purchased drinks.

Waterford to Adopt Budget Tonight

A special meeting of the Waterford Township Board has been scheduled for 6:45 tonight for the specific purpose of the adoption of the 1958-59 annual budget, according to clerk James Seeterlin.

The hiring of two additional firemen and two more police department personnel has been requested and is included in the budget.

★ ★ ★

Supervisor Elmer Johnson estimates that $412,125 will be needed to operate the township government efficiently. This is approximately $50,000 more than last year.

Stories for Small Fry

Story Hour at the Pontiac Main Library tomorrow will feature stories of springtime and Cinderella. They will be told by Mrs. John H. Eddy, children's librarian, from 2-3 p.m.

Saginaw Street Crash Injures Two 'Cyclists

Two youths on a motorcycle were injured last night when they hit a car making a left turn in front of them on Saginaw, at South boulevard, police said.

The driver of the motorcycle, Patrick Nurbenberg, 22, of 2495 Harrison St., Rochester, is in poor condition today after undergoing surgery for chest injuries.

His passenger, Neil White, 17, of 1430 Crescent Lake Rd., Waterford Township, was treated for cuts and bruises and released.

★ ★ ★

The driver of the car, George J. Lupar, 62, of 8477 Arlis Ave., Walled Lake, was not hurt.

OK $3½ Milljon School Budget

Board of Education in Waterford Approves Increase for 1958-59

The Waterford Township Board of Education approved a record budget of $3,570,668 for school operation for 1958-59 at last night's regular board meeting.

★ ★ ★

An increase of $326,703 was necessitated by the opening of the new John D. Pierce Junior High School next September, along with other urgent needs, according to superintendent William Shunck.

More than 600 additional children are expected to enroll in the school system next fall and additional teachers and educational facilities will be necessary, he said.

The board approved the hiring of one additional painter, a carpenter, and a mechanic at a salary of $5,000 each which will include overtime pay.

Some 25 additional teachers will be hired at approximately $100,000 and there will be eight more custodial personnel added to the payroll requiring between $35,000 and $40,000.

★ ★ ★

The board approved the current salary schedule for teachers which calls for an additional $53,453 for next year.

Shunck said, "While the budget quotation does not improve either teacher or custodial personnel schedule, it probably calls for more funds than the allocation board will allot because of township and county needs."

The budget provides for seven new buses at an approximate cost of $45,000. Two would be replacements for current equipment in use and five will help carry the load of the new John D. Pierce School.

★ ★ ★

Last year state aid for the Waterford Township school district totaled $1,785,968 and with the additional pupil - enrollment expected next year, Shunck estimates that state aid will be approximately $2,084,076.

Waterford Township school district top valuation figure is now $77,489,244.

'Pantless Intruder' Released in Pontiac

Pontiac police have dropped charges against Elwood F. St. Croix, 22, of 16394 Fish Lake Rd., Holly, who was apprehended by a householder on April 13.

St. Croix was found by Charles Newsom, of 305 W. Hopkins St., standing in his living room at 5 a.m. without his pants on.

It turned out that St. Croix who had been drinking at a nearby house party had gone for a drive with his brother-in-law and fallen asleep in the car.

He was left in the car by his relative and on awakening had walked into the wrong house by error and started to undress preparatory to sleeping on the couch.

Legislator Proposes Cut in State Printing Costs

LANSING (AP)—While lawmakers argued about millions, Sen. Edward Hutchinson (R-Fennville) yesterday proposed a move to save the state $11,000 a year in paper and printing costs.

Hutchinson offered a resolution to restrict printing of Senate bills to those which get committee approval. This is about one half the bills introduced. Action on the resolution was deferred.

Optometrists Hear of Work With State

The Oakland County Optometric Society heard the president of the Michigan Optometric Assn. speak last night at the Waldron Hotel.

Dr. Wayne H. Chapman, of Charlotte, told the members that the association's Motorist Vision Committee was working with the Secretary of State's office in compiling information of sight defects in motorists.

It may lead, he said, to the development of more stringent vision tests in licensing drivers.

The state group also is cooperating with other state associations in tests of the role color in hunting safety.

Gold yellow has proved about six times as visible as red when used in hunters' clothes, he added.

Children's problem with glasses are also being studied, Dr. Chapman said. The use of safety hardened or plastic lenses can avoid needless accidents, he stressed.

Pontiac Press Photos

The annual Spring Card Party of the Woman's National Farm and Garden Association was held Thursday with members attending dessert bridge parties held simultaneously in a number of area homes. Mrs. Charles Rogers, Mrs. Willis Lefurgy, and Mrs. William Isgrigg (left to right) were photographed just before greeting their hostess for the day's activities.

Garden Club Holds Annual Spring Party

Thursday's dessert bridge will benefit the Grace Fitzgerald Scholarship Fund and will provide funds for landscaping the new civic park adjacent to the old City Hall where a rose garden will be planted. Mrs. James Hall, Mrs. Bruce Benway, and Mrs. Fred Beukema (left to right) appeared to be enjoying thoroughly the hand of bridge and friendly chat they shared at the affair.

Germans Join Sack Parade for Springtime

DUSSELDORF, Germany — German fashion designers have joined the chemise parade — with a few shirtwaist exceptions.

In the new German spring fashion collections, the sack or chemise was the featured silhouette, usually with optional belts.

Many dresses had matching jackets or blouson tops where the fullness above was caught at the hips with a narrow belt.

Coats also showed off low-placed belts, which gave new interest to straight topcoats. Wrap-over coats were cut tapered at the hem.

Mrs. Robert Isgrigg (left) and Mrs. Jack Habel joined to discuss Farm and Garden projects Thursday. This year funds will be used for rose beds instead of flowering crab trees which have been planted for the past four years to beautify municipal property.

Martha June Ehlers and Phil Bowser were married Saturday evening. The bride is the dqughter of Mr. and Mrs. Bernhardt Ehlers. Mrs. Rita Bowser and William Bowser are parents of the bridegroom.

MR. and MRS. PHIL M. BOWSER

Martha June Ehlers Wed

St. Trinity Lutheran Church was the setting for the wedding of Martha June Ehlers and Phil McKinley Bowser. The Rev. Ralph C. Claus performed the Saturday evening ceremony in the presence of 200 guests.

The bride is the daughter of Mr. and Mrs. Bernhardt Ehlers of South Paddock street. Mrs. Rita Bowser of Myrtle avenue and William Bowser of Detroit are the parents of the bridegroom.

★ ★ ★

A floor - length gown of Alencon lace and net over white satin, accented by a scalloped neckline and long tapered sleeves, was worn by the bride. A crown of net trimmed with seed pearls secured her veil of illusion and she carried an arrangement of white roses and stephanotis on a white prayer book.

Matron of honor Mrs. Jack Richards of Scott Lake was gowned in an aqua waltz length silk dress, and she carried pink roses and white carnations. Attendants, Audrey Rease and Mrs. Marshall Buttram wore waltz-length gowns of net over satin in yellow and mint green and carried yellow roses and white carnations.

★ ★ ★

Best man was Linwood Wilson. Seating the guests were Wilbert Pfahlert and William Hartman.

For the reception, held in the church parlors, Mrs. Ehlers wore a floral print dress with white accessories and a corsage of deep red roses. Mrs. Bowser chose a navy ensemble with pink accessories and a red rose corsage.

Before leaving on a trip to Niagara Falls and Washington, D.C., the new Mrs. Bowser changed to a light blue suit with matching accessories. The couple will live on South Paddock street.

Don't Discourage Yourself

Delay Weighing for Four Days

By JOSEPHINE LOWMAN

This week I am devoting my Friday Question Box to those of you who are on my Nine-Day Reducing Diet.

★ ★ ★

Q. "Shall I weigh every day?"

A. No. This is discouraging. Diet for about four days and then weigh. Weigh again at the end of a week and then for the last time on the 10th day.

★ ★ ★

Q. "I cannot get skim milk in my neighborhood. Can I drink whole milk? I do not like buttermilk."

A. No. The calorie count for whole milk is just double that for skim milk or buttermilk. Use one of the powdered, fat-free milks. You will find this quite palatable especially if you have it very cold.

★ ★ ★

Q. "Will exercise help me lose weight?"

A. Yes, because it increases your output of energy. It also is especially helpful in speeding the loss in inches.

★ ★ ★

MENUS FOR SATURDAY

Breakfast
One-half grapefruit
Two slices crisp bacon
One thin dry slice of whole wheat toast
Black coffee

Luncheon
1 medium hamburger
Sliced tomatoes
One glass skimmed milk

Dinner
Good helping liver
Stewed tomatoes
Ten stalks of asparagus
One glass of skimmed milk
One slice of pineapple or one-half grapefruit or apple.

★ ★ ★

I am also giving you Sunday's menus today so that you will have them to do your marketing.

MENUS FOR SUNDAY

Breakfast
Two slices crisp bacon
One thin dry slice of whole wheat toast
One-half grapefruit
Black coffee

Dinner
Chilled orange juice
Serving of baked or broiled chicken
Celery
Olives (only two or three)
One-half cup lima beans
One roll
Fresh fruit cup

Supper
Scrambled eggs
Lettuce and cucumber salad
One glass skimmed milk

★ ★ ★

Today's exercise: Lie on the floor on your back with your legs straight and your arms resting on the floor at your sides. Bend both knees up as you raise your head from the flobr. Try to touch your nose with your knees. Do this carefully or you may give your nose a banging. Return head and legs to the floor. Continue.

If you would like to lose from 5 to 10 pounds in nine days, and have missed some of the menus, it is not too late to begin. Send 10 cents and a stamped, self - addressed envelope with your request for my Nine-Day Reducing Diet Booklet. Address Josephine Lowman in care of The Pontiac Press.

★ ★ ★

Watch for next Monday's menu in tomorrow's column.

Tomorrow: "Got a Big Job — Like Dieting? Break It Into Small Parts."

Do this exercise today: Bend both knees up as you raise your head from the floor. Try to touch your nose with your knees.

Dear Abby . . . .

Go East, Young Man!

By ABIGAIL VAN BUREN

"DEAR ABBY: I am well traveled and I have concluded that the Mohammedans in Arabia have the right system. A man should be entitled to have as many wives as he can afford. When is the rest of the world going to wake up and realize this is the only intelligent way to live?"

WELL TRAVELED

DEAR WELL: I have wonderful news for you. A plane can get you to any point in Arabia in approximately 26 hours. Fly now and pay later.

ABBY

"DEAR ABBY: My first husband and I agreed to disagree four years ago. I took the two kids, naturally. He married a woman who looks like a lady-wrestler and I think she's off her rocker she is so jealous of him.

"He comes on Sunday to see the kids and this lady-wrestler sits out there in the car while he comes inside. She isn't ashamed to look through a pair of binoculars into my front window (from the car). If he spends more than the agreed hour in the house she sits on the horn. Now, tell me, do I have a right to complain?" CHICKIE

DEAR CHICKIE: Your ex-husband's present wife is HIS problem — not yours. If she behaves in the manner described by you I think you are lucky she sits in the car (binoculars and all!)

★ ★ ★

"DEAR ABBY: In the process of housecleaning I came across a sex education book in the bedroom of my 14-year-old daughter. Personally, I think it is beyond her. My question is: Should I mention it to her or should I just toss it out and forget it?"

WORRIED MOM

DEAR MOM: Do not toss it out. Tell your daughter you are delighted that she is interested in learning about the subject (in the right way) and sit down and read it with her to be sure she understands it.

★ ★ ★

"DEAR ABBY: My husband claims that an alchoic drinks at least a fifth every day and has to save a shot before breakfast. I say this is not true.

"My husband thinks because he can make a fifth last two days and never takes a drink before noon he has no drinking problem. He has not missed a day's work so far but I am afraid it will get out of hand. Do you think I should worry or not?" A WIFE

DEAR WIFE: Worrying won't help. Your husband is concuming enough whisky to become an alcoholic if he isn't already one. Urge him to get professional help. And — AA is free, you know.

★ ★ ★

CONFIDENTIAL To B. B.: I knew you could do it. After shedding 30 pounds you are your old "sylph" again. Congratulations!

★ ★ ★

CONFIDENTIAL TO "BUCK": A mule can't kick when he's pulling a load. Go back to work and everyone will be much happier.

Married Saturday in Washington, D. C., were Linda Hollis Hall and Ens. Milton Harold Bank II, USN. Parents of the bride are Dr. and Mrs. Charles Baynes Hall of Falls Church, Va. The Rev. and Mrs. Milton H. Bank of Franklin boulevard are the bridegroom's parents.

MRS. MILTON HAROLD BANK II

Milton Bank, Linda Hall Wed in Military Rite

The Navy Security Chapel in Washington, D. C., was the scene of the military wedding uniting Linda Hollis Hall and Ens. Milton Harold Bank II, USN. The Saturday ceremony was performed by the bridegroom's father, the Rev. Milton H. Bank, pastor of Pontiac's Central Methodist Church.

The bride is the daughter of Dr. and Mrs. Charles Baynes Hall of Falls Church, Va. Dr. and Mrs. Bank reside on Franklin boulevard.

★ ★ ★

Linda's bridal gown was of embroidered organdy with a tiered skirt and chapel train. Her finger-tip veil of illusion was secured by a coronet of organdy, and she carried lilies of the valley on a prayer book.

ATTEND BRIDE

Maid of honor Mary Elizabeth Hall, sister of the bride, and bridesmaids Elizabeth Howell of Atlanta, Ga., Judy OudsHoff of Melbourne, Fla., Carol Best and Joan Willey, both of Washington, D. C., were gowned in delphinium blue and carried white lilacs and blue delphiniums.

Susanne Elaine Bank, sister of the bridegroom, served as flower girl, wearing a frock of white organdy over delphinium blue and carrying white demure roses and forget-me-nots.

★ ★ ★

Midshipman Wayne Scott, son of Mr. and Mrs. Wayne E. Scott of Delaware drive, was best man. Ushers included Lt. Richard T. Manning, USN; 2nd Lt. George V. Robillard, USMC; 2nd Lt. Pedro R. Vasquez, USMC; and 2nd Lt. Robert P. Rogers, USMC.

RECEPTION HELD

For a reception at the Columbia Country Club, Mrs. Hall wore a beige silk organza creation with green cymbidium orchids. Mrs. Bank chose a beige lace gown with brown orchids.

As her going away ensemble, the new Mrs. Bank chose a navy wool jersey suit with a chiffon blouse and a picture hat.

★ ★ ★

The bride is a graduate of Mt. Vernon Seminary, Washington, D. C. and attended the University of North Carolina and George Washington University. The bridegroom is a graduate of the U. S. Naval Academy at Annapolis, Md.

The couple will live in Pensacola, Fla.

Miss Hessler Feted at Party

Bonita Hessler, whose marriage to James G. Flynn will be an event of May 10, was honored with a bridal shower given by Mrs. Joseph McCarthy and Mrs. Fred Slavin Jr., in the former's Draper avenue home.

Sixteen guests were present for the Monday evening event. She is the daughter of Mr. and Mrs. John Hessler of Lake Orion and the prospective bridegroom is the son of the William Flynns of Lake Orion.

Central Methodist Group Sees Film

Nursery Class parents of Central Methodist Church viewed the film "The Nursery Child and the Church" Thursday evening. Assisting in showing the film were Mrs. Thomas Porritt and the Rev. Calvin Rice.

Following the discussion, lead by Mrs. M. A. Andrews, refreshments were served by Mrs. Walter Rice and Mrs. B. Frank Moyer, aided by Mrs. Jerle Head, Mrs. Robert Herkimer, Mrs. Harold Kendrick and Mrs. Russell W. Curtis.

Let Son Take Gift to Repair

By EMILY POST

"Dear Mrs. Post: My son received a watch for confirmation from a relative. He has had the watch a month and I have noticed lately that it is not keeping good time. I would like to know if it would be proper for me to tell this relative about it and ask her to take it back to the jeweler from whom she bought it for adjustment.

"My husband thinks not, but I think it would be proper since most watches come with a guarantee and it would be senseless for me to pay to have it repaired when it can be done for nothing. What is your opinion on this?"

Answer: No, I would not ask her to take the watch back. But you can ask her the name of the jeweler to which your son can take the watch to have it regulated. Once it is keeping time it will be up to your son to wind and wear the watch carefully, following exactly the jeweler's instructions.

"Dear Mrs. Post: Is it proper for the man's immediate family (sister or mother) to give a shower for his fiancee? I say it is not, but my sister thinks it is quite different from the impropriety of her family asking people to donate presents. Is this true?"

Answer: It is to a degree. That is, I think they should ask only their nearest relatives and those special friends whose affections for the son assure their willingness to buy these extra presents for his fiancee. If she is being given showers by her own friends, then I think another type of party would be more appropriate.

"Dear Mrs. Post: When giving a dinner party at home at which placecards are to be used, is a card put at the host and hostess' places too or are they just put at the guests' places?"

Answer: Only at the guests' places.

MACE Parley Set May 2-3 in Muskegon

"That We May Explore Resources for Learning" is to be the theme of a state conference of Michigan Association for Childhood Education, scheduled May 2 and 3 in Muskegon.

Chosen "Outstanding Woman of the Year of Waterford Township" last night was Mrs. William Shunck (left) of Longworth street. Here she receives a plaque from Virginia Allen, past state president of the Business and Professional Women's Club. She was selected from 33 candidates nominated.

Waterford's Woman of Year

Area Title Goes to Mrs. Shunck

"Outstanding Woman of the Year" of Waterford Township is Mrs. William Shunck who was chosen from a list of 33 eligible candidates.

★ ★ ★

Sponsored by the Waterford-Clarkston Business and Professional Women's Clubs, Mrs. Shunck received an engraved bronze plaque at a banquet held at the Community Activities Inc. Building last night.

Mrs. Shunck was chosen for her wide variety of interests in general community welfare, leadership ability, and for maintaining a wholesome family life. She has three children.

★ ★ ★

This is the first time an outstanding "Woman of the Year" has been honored in Waterford Township. Judging chairman Mrs. D. E. Fillmore said, "Selecting the right woman for the award was quite a problem for our community as there were so many worthy candidates." Mrs. Shunck was nominated by four area organizations.

Child Sees Through Adult 'Understanding'

By MURIEL LAWRENCE

Gail had done a poor job of dishwashing. The plates were still sticky with soap, the glasses unrinsed. Noting this sloppy work, her mother thought: "I musn't be angry. I'll just have a little understanding talk with Gail."

★ ★ ★

So after calling the child's attention to her mistakes, she said, "You know, dear, when you're grownup and have a home of your own, your husband will expect you to take care of it.

"There's nothing a man dislikes so much as a slatternly wife. I know it takes time from looking at TV to rinse the dishes, but these are the years when you have to learn to take time to do chores well. Do you understand?"

Gail said, "Yes, Mother. Can I go now?"

Shocked and disappointed by this result of her effort to "understand" Gail, her mother said angrily, "Indeed you cannot! You do those dishes properly before you move an inch from this kitchen!"

Then she retreated to the living room to brood resentfully over the child's rejection of her "understanding."

It was rejected because it was coercion masquerading as understanding.

NOT RESPONSIBLE

Gail hasn't a home of her own. She hasn't a husband to please by doing chores properly. She's a 12-year-old child intent on 12-year-old affairs.

So far as she was concerned, her mother's "understanding" was just yak about a future that had no substance — a roundabout way of saying, "Do the dishes again."

★ ★ ★

Life becomes much easier for parents when we stop confusing "understanding" a child with selling him obedience.

If we want obedience, let's demand it honestly. But if we want to understand Gail, we have to forget what we want in order to discover what she wants. Then we compromise our different wants.

We say, "All right, you hate dishwashing. How about doing them three nights a week instead of seven? If I do them the other four nights, will you clean the bathroom on Saturday mornings?"

Many of us think we are giving "understanding" to children when we are just belaboring them with our own reasons for wanting them to obey. We are trying to force submission from them without inviting the open defiance we fear.

★ ★ ★

They know this—and have no respect for such phony understanding.

Central Swimmers Plan Water Show

By WILLIAM BANK

Wednesday through Saturday evenings beginning at 8 o'clock, the Pontiac Central High School Dolphins Club will present their annual water show at the PCH pool. This year the theme of the show is "Dolphins In Disneyland."

Chairmen of the committees planning the show are Judy Baker and Joanne Wood, tickets; Ann Donaldson and Patricia Kline, narration; Nancy Donaldson and Gail Blamy, scenes; Judy Baker and Gail Blamy, music, and Nancy Donaldson, cover design. The club's sponsor is Mrs. Geraldine Irwin.

The group acts of the program include "Davy Crockett," "Bears," "Rocket Ship," "Marsian Maidens," "Three Little Pigs," "Lady, Tramp, Scottie and the Hound," "Seven Dwarfs," "Peter Pan" and "The Three Nephews."

A solo entitled "Snow White" will be done by Gail Blamy, and Duke Cummins, the only boy in the show, will do a duet with Nancy Donaldson entitled "Donald and Daisy."

★ ★ ★

Tickets cost 75 cents and can be purchased from any member of the Dolphins Club.

Several members of the Future Teachers Club have made reservations to attend the FTA convention at Eastern Michigan College on May 1. They are Donna Gravely, Judy Noren, Karen Rognaldson, Beverly Donaldson, Beverly Stanley, Rita Stanley, Addie Taylor, Elaine Glazier and Carolyn Goines.

Others are Ineta Cayton, Ethel Jones, Ronald Miller, Donald Hunt, Linda Stickney, Sharon Mathews and Sylvia Redmond.

ARRIVE FROM MSU

New student teachers have arrived from Michigan State University to assist our teachers while learning education techniques. They are Harry Ackerman, Roger Hoyt, Shirley Klosowski, business education; David Davis, mathematics; Howard Irwin and Paul Nemeth, social studies; Velma Polifrone, music, and Marvin Rush, biology.

Eighteen students will be accepted as members of the Thespians soon. They become eligible to join the dramatics club after earning 20 points by working on plays.

The new members-to-be include Leah Berg, William Bank, Dorita Carlisle, Marjorie Crowder, Carl Code, Terri Fortino, Dimitra Govenis, Sam Hartmann, Richard Hathaway and Bill Hanson.

Concluding the list are Alan Higgins, Kay Hamilton, Judi Johnson, Alvin Lambert, Donald Lucas, Carol Olson, Jeanette Ohanesian and Sandra Somerville.

Wednesday a new group of student jurors participated in the Pontiac Teenage Traffic Court. They are Rosalie Richards, Mickey Newhouse, Douglas Lucas, Sophia Skinner, Robert Ragland, Joseph Hill, Paul Trumper, Gloria Cunningham, Myrla Henry and Derris Nichols.

LAST MINUTE DETAILS — Giving members of the cast final instructions to polish up their presentation of "Joan of Lorraine" is Natalie Glime, (standing) director of the St. Michael High School senior class play. Kneeling is Pat Foster, who portrays Joan; Brian Dirker, (seated) the Dauphin, and Donald Landry, a soldier. The play, which opened this afternoon, will be presented again tomorrow afternoon and evening and Sunday night.

St. Fred Class to Portray Life of Joan of Lorraine

By PATRICIA FOSTER

The seniors of St. Frederick High School presented the first of four performances of their class play entitled "Joan of Lorraine" this afternoon in the school's hall.

Attending the matinee were students of all grades in the high school.

The play will be held tomorrow afternoon for the benefit of the faculty. The evening performances, also to be held at St. Vincent Hall 211 S. Parke St., will begin tomorrow and Sunday at 8 p.m.

★ ★ ★

Tickets are being sold by members of the student body and can be purchased at the door both nights. The donation for the event is one dollar per person.

HAS TWO PLOTS

The play was written by Maxwell Anderson and the setting is a rehearsal for the actual production of "Joan of Lorraine." It consists of two plots. The main plot concerns the tragedy of St. Joan of Arc of France.

★ ★ ★

At the time the story takes place France is in a very precarious position since it is about to be taken over illegally by the English. It is revealed to Joan from Heaven that she is the one who is to rescue France from its plight.

★ ★ ★

The part of Joan is portrayed by Ingrid Soderberg and Patricia Foster. The double casting lends variety of interpretation as Ingrid will act the part of Joan Saturday evening and Pat will be Joan Sunday night. Brian Dirker assumes the role of the French Dauphin.

Soldiers include Don Landry and Joe Humphries. Bob Morrow plays the part of director in the sub-plot centered around the actors and actresses and the feelings they have about the parts they are portraying in the actual story.

Others in the cast include Dick Powe and Bob Croasdell, Becky Shutt, Mary Duerr, Maureen Drake, Dick Kast, Sharon Talbot, Cathy Bieri, Denny Hall, Dwight Hannefeld, Marty Koenig, Joe McLaughlin, Chuck Maloney, Mary Agnes Brown, Julie Slowik, and Jim Devereaux.

★ ★ ★

Judy Warrilow is stage manager.

The production is under the direction of Mrs. Natalie Glime who teaches at Holy Name Elementary School, Birmingham. She attended Marygrove College and received her degree in dramatics.

Edgar Allan Poe is buried in Baltimore, where he died at the age of 40. His grave is marked by a monument built by Baltimore school children.

W. Bloomfield Names Leaders

Western Michigan University will be the next educational institutional Mary Law, who was named valedictorian of 1958 class of West Bloomfield High School, will attend.

Miss Law, the daughter of Mr. and Mrs. Jesse Law, 3013 Cass Lake Ave., Keego Harbor, plans to become an elementary teacher.

Barney Goodrich, son of Louis Goodrich, 1934 Cass Lake Ave., Keego Harbor, won the salutatorian position of the class for his scholastic achievements. Goodrich plans to study chemical engineering during his college career.

Joseph Margola, Spanish and Latin teacher, directed the play and was assisted by Margaret Rose, teacher.

Walled Lake Council to Hold Carnival

The Walled Lake High School student council is sponsoring a carnival entitled "Spring Fun Fest" at the senior high gym tonight and tomorrow afternoon and evening.

The purpose of the affair is to raise funds to permit the council to continue to sponsor such events as assemblies, debates, discussions, spring forensics, and purchase pins for honors and award winners.

Cooperating with the council are the various organizations in the school who each will be able to keep all but 10 per cent of the profits which go to the council.

Among the many attractions will be a talent show given every two hours.

TO DEMONSTRATE DANCES

The cheerleaders will alternate with the council in presenting "Dancing Through the Ages" which will consist of demonstrations of dances popular in different eras.

Other attractions are the Math Club's "See It Now," a series of scientific displays; Varsity Club, games, the speech students' booth which will allow its patrons to hear themselves on a tape recorder; cartoons drawn to order by Wade Dick, member of the journalism class, a photography booth by the Photo Club, a fish pond, the fortune telling board by the library staff and numerous others including a number of booths where refreshments will be available.

The public is invited to attend from 7 p.m. to 11 p.m. tonight and 2 until 10 p.m. tomorrow.

Gwen Hunsinger Heads Event

WTHS Sophomores Slate Annual 'Activities Night'

By SANDY CLEMENCE

Waterford Township High School's "Activities Night," sponsored by the sophomore class, will be held one week from tonight.

Gwen Hunsinger is general chairman and other chairmen include: Sue Fawcett, tickets; Sherry Bertram, dancing and decorations; Jerry Schorder, activities; Gary Gaynor, clean-up and Caroline Knisley, publicity.

The group plans to conduct a variety of sports including ping-pong between 8 and 9:30 p.m. A dance will follow from 9:30 until 11 p.m.

★ ★ ★

This week, six WTHS students attended school at East Lansing High School as part of the 1958 student exchange program. They were: Jim Windell and Grace Williamson, seniors; Ron Newman and Karen Anderson, juniors; and John Teeuwissen and Kathy Kantarian, sophomores.

Models for the Senior Prom Fashion show held at WTHS Friday were Bonita Brookshear, Ruth Rush, Sharon McIntosh, Susc Marei Diestel, Janet Warner, Judy Wagner, Tish Fitz-Gerald, Bonnie Williams, John Herrington, Gary Christoson and Chuck Kirken.

GAA (Girls' Athletic Association) members are having their annual "Mom's Night" Monday. The mothers will join in various sports activities with their daughters.

★ ★ ★

WTHS Discussion club went to Brighton High School Tuesday and talked about the social behavior of teens. All other Inter-Lakes League teams attended.

★ ★ ★

The Waterford team consisted of Don Tate, Jean Rexford, Dusty Smith, Joni Whittemore, Sandy Seconder and Brenda Lewis. The sponsor is Charlie Reicks.

Name Carnival Royalty Tonight at Clarkston

Tonight the Clarkston High School student council's annual School Carnival, will be present beginning at 7:30 p.m.

The candidates for king and queen of the carnival are Judy Weaver and Dick Lippert, seniors; Jackie Brown and John Tisch, juniors; Gay Ann Parks and Dick Hien, sophomores and Sandy Asher and Dave Gresham freshmen.

The results of the voting, held this week, will be announced tonight.

★ ★ ★

Class sponsored concessions plus a special presentation by the Junior Thespians, the freshman-sophomore dramatics group, will be included in the evening.

★ ★ ★

Tomorrow night the Junior Banquet will be held at the school beginning at 7:30 p.m. William Coulacos, former director of the Pontiac Boys' Club, will be the guest speaker.

More geysers are found in Yellowstone National Park than anywhere else in the world.

Fry, Miss Liebaert Head Orion Class

Edward Fry, who earned all A's in all of his classes in high school with the exception of two B's, has been named valedictorian of the 1958 graduating class at Lake Orion Community High School.

Fry is the son of Mr. and Mrs. Edward Fry of 2510 O'Connor Dr. and plans to enter the University of Michigan this fall to study math, chemistry and physics.

The second highest scholastic average in the class was achieved

FRY MISS LIEBAERT

by Mary Louis Liebaert who will be salutatorian. She is the daughter of Mr. and Mrs. Andrew Liebaert, 965 Highview.

Miss Liebaert received one C and the rest were all A's throughout her four-year high school career. She also plans to enter the University of Michigan and study history and political science.

Based on a 3-point system equivalent to a perfect record, Fry attained a 2.94 and Miss Liebaert achieved a 2.93.

AT MADISON

Wednesday, the Madison Junior High School Vocal Department under the direction of William Coffing and David Stimac will present the annual Spring Festival in the school gymnasium beginning at 8 p.m.

Sixty-six ninth grade students are now on a five day trip to Washington, D. C. They will return Sunday accompanied by George Yansen, principal and Mrs. Gordon Paull, Dean Hall, Thomas Shara and William Coffing of the faculty.

Jefferson to Hold 'Gym Night'

Wednesday night the physical education classes of Jefferson Junior High School will present the annual "Gym Night" beginning at 7:30 p.m.

Purpose of the evening is to acquaint parents and friends of the students with the year round physical education program at Jefferson.

The evening, under the direction of Catherine and Richard Craig, physical education teachers, will consist of exhibitions in basketball, soccer, football, tumbling, track, relay races, pyramids and folk dancing.

AT LINCOLN

The highlight of the week at Lincoln Junior High School was the band concert given by the 41-piece band. This annual spring concert included ensembles, solos, and full band arrangements of a variety of numbers.

★ ★ ★

This year selections from "Annie Get Your Gun" proved very popular. Pam Morris played a flute solo; Pat Hogan, Pat Wilkinson, Andrea Bain, and Priscilla Wilkinson played a clarinet quartette selection.

★ ★ ★

The fifty-voice girl's group called Choralines are preparing a musical program for the Hawthorne Mother-Daughter Banquet on May 1. Diane Peters and Judy Kemp will be the accompanists. Sue Eckley is the director of the group.

★ ★ ★

The ninth graders who are going on the four day trip to Washington, D. C, April 30 through May 4 are now planning and preparing their wardrobes for the trip. Each week has found the group active in seeing movies and film strips of the historic places in order to be ready for the trip. Ralph Forman, assistant principal, reports that 113 students have signed up for the trip.

AT EASTERN

Now is the time for making choices if one happens to be an eighth grader at Eastern Junior High School.

Monday all eighth graders attended an assembly at which faculty members representing the various departments presented ninth grade subject areas to the eighth graders. Choices should be based upon the student's needs, interests, and aptitudes.

Eastern's wrestlers competed in an all-junior high wrestling tournament on Saturday at Pontiac Central High School. Winners were Therry Davis, 85 lb. class, third; Richard Abare, 130 lb. class, first; Richard Ewer, 135 lb. class, first; Tony Rubio, 145 lb. class, third; Jimmie Jones, 155 lb. class, second; Jim Zink, 175 lb. class, second. Eastern came in third in the tournament with forty-two points.

AT WASHINGTON

The school population was reduced sharply on Wednesday at Washington Junior High School when 185 ninth graders joined forces with a group from Madison Junior High for the annual Washington D. C. tour. The group will return to Pontiac on Sunday morning.

Faculty chaperones are: Mrs. Frank Green, Mrs. Charles Heimke, Mrs. Willis Brewer, Mrs. George Yansen, Mrs. Thomas Hollis, Mrs. Cecil Myers, Joseph Shara, John Burton, Lester Kindy, and W. W. Abbott.

Three student teachers from Michigan State University are doing their practice teaching at Washington this spring. They are Theodore Tomblinson and Doris Robbins, science and Gregory Battcock, art.

Left to right in a pyramid are: Emma Jackson, 619 Ditmar Ave.; Thomasine Bessent, 171 Crestwood St.; Pauline Thomas, 446 Branch St.; Mattie Hyde, 94 Clovese St. and Margery Keel, 611 Nevada Ave.

Disc Data and Chatter

Music in the Round

by Dick Saunders

If Nat King Cole's latest release, "Looking Back," doesn't sell a million then there's something wrong with current taste.

This record is in my opinion the finest thing Cole has ever done (possibly with the exception of his 1957 cutting of "Stardust.")

This haunting blues-spiritual isn't loused up by a rock 'n' roll beat or a too-lavish treatment with strings, voices, and bells. It's the greatest.

Elvis Presley's latest recording "Wear My Ring Around Your Neck" calls for a mighty unusual girl (or could it be Elvis has fat fingers?)

THE JAZZ NEST: With Easter eggs getting a bit rancid, we have one for the nest that will never grow stale. "Ladies of Jazz" (Atlantic 1271) is a gem. One side goes to Barbara Carrol and is handled beautifully (I especially like her "You Took Advantage of Me").

★ ★ ★

The flip side is handled by Mary Lou Williams. Included are two Williams originals, "Opus Z" and "In the Purple Grotto." Both gals are steeped in jazz background. The music is progressive, with a strange blend of traditionalism creeping in here and there.

LOCAL TASTE: According to area record shops, we have our first clean sweep of 1958 in the weekly poll. "Witch Dr." by David Seville has taken nothing but first place votes.

Tied for second are "He's Got the Whole World in His Hands" by Laurie London and "Twilight Time" by The Platters; "All I Have to Do Is Dream" by The Everly Bros. is third and coming on strong; "Chanson D'Amour" by Art and Dotty Todd is fourth, and fifth is "Wear My Ring Around Your Neck" by Elvis.

Enjoy Shrubbery Bouquets During Spring, Summer, Fall

By MRS. H. W. HUTTENLOCHER
Clarkston Branch of the Woman's National Farm and Garden Assn., Inc.

(This is the fourth in a series of articles by a member of one of the 27 branches of the Woman's National Farm and Garden Assn., Inc. throughout the area which will be printed on the farm and garden pages this year.)

Are you a lazy gardener? Most people are, for gardening takes time, energy and study.

Yet, most of us want essentially two things from our gardens: beauty to share with our friends and those who pass our home, and an abundance of material for bouquets from early spring to fall.

There is a fool proof way in which this may be accomplished and this is by a carefully thought out shrubbery plan.

Flowering shrubs and those with colorful and beautifully textured foliage can be used to make startlingly arrangements throughout the home.

Once chosen, planted and given a little "tender, loving care" at first, shrubs give an even increasing supply of bouquet material.

SECRET IS SUCCESSION

But remember, the secret is in the choosing of shrubs that bloom in succession—not all at the same time!

Here is a very simple and basic list of shrubs for all season bloom. "S" stands for sunny location; the "Sh" indicates shade, and the numerals are the approximate height in feet.

The list begins with those which bloom in early spring, (in about two weeks and continues down through those which can be found adding color to your home and garden in the summer and then fall.

1. Forsythia, S-Sh, 4-5
2. Flowering almond, S, 2-3
3. Flowering quince, S,4-5
4. Honeysuckle, S, 5-8
5. Lilacs, S, 5-8
6. Deutzia, S, 4-5
7. Spirea Bridal Wreath, S, 5-8
8. Snowball, S-Sh, 5-8
9. Mock orange, S, 5-8
10. Weigela, S, 4-5
11. Hydrangea, AG, S-Sh, 3-4
12. Sperea Anthony Waterer, S, 2-3
13. Snowberry, Sh, 4-5
14. Butterfly Bush, S, 4-5
15. Altheas, S, 4-5
16. Hydrangea PG, S-Sh, 3-4

Don't plant shrubs in a straight line. Plant in easy curves putting the taller growing shrubs at the back with the shorter in front.

Do not plant too close together, and give the taller growing shrubs more room than those that are shorter.

Your nurseryman can give you many helpful suggestions for achieving a constant succession of shrubbery bloom, year in and year out and you should have many happy pickings.

Ordinary Plastic Seals

Polyethylene plastic film — the material that many fresh vegetables are wrapped in is claimed to be the least expensive efficient moisture barrier on the market today. Enough polyethylene to seal the ground area in a crawl space under a house of 1,100 square feet would cost a little more than $15.

Income Tax Blues?

Help Budget by Planting; Freezing Vegetables

Now's the time when we all go into a state of shock over the state of our taxes.

We re-examine the family budget, revise it, or just decide, as Robert Benchley once did, that we can't afford a budget in the first place and throw it out the window.

We then make the familiar resolution that by gosh . . . this year will be different. We won't get caught short again. We'll live within our income.

★ ★ ★

Well, rescue is at hand as near as your own backyard. Plant the family vegetables from inexpensive seed. Not only will you cut down on the food bills but there's an excellent tax advantage for the man or woman who raises his own vegetables because they're not figured in his taxable income.

AUGMENT INCOME

This is a good way to augment the family income without paying additional taxes.

The farm weight of all fruits and vegetables consumed in 1956 was 533 pounds per capita. That's approximately ten pounds per person, per week. If you consider the cost of this food, it's a sizeable amount. Yet, one fifteen cent packet of vegetable seed will fill the family larder with well over five dollars worth of food.

★ ★ ★

With the wide variety of vegetables we eat and the amount consumed during one week by the average family, the money saved by doing our own gardening can become an impressive amount, not only in cold cash on the food bills but tax cash on the family yearly income.

HELP WINTER SLACK

By freezing or canning extra vegetables during the summer, we can take up the slack during the winter months.

If you like this idea of lower food bills, just get out the old hoe and rake, get in some packets of vegetable seeds and go to work.

Beware of Phony Shrub, Tree Sales

EAST LANSING (AP) — Spring is the season for suckers as far as sales of shrubs and trees are concerned, the state agriculture department warns.

For their own protection, householders planning to landscape should demand a showing of a valid certificate of inspection, the department said.

★ ★ ★

C. A. Boyer, head of the department's bureau of grades and standards, explained that all nursery stock is sold according to grades and standards.

Householders should beware, he emphasized, of door-to-door salesmen or mail order advertisements offering such merchandise at "ridiculous prices."

HONORS GARDENING — This stamp, commemorating one of America's oldest and most popular hobbies, gardening, was issued last month. It was the first 1958 United States commemorative, a three-center. The stamp is green and displays an American Ceres, Goddess of the Harvest, holding a cornucopia overflowing with flowers, fruits and vegetables.

About Ground Improvement

Here's a Few Tips

By WAYNE B. SIEFERT
County Horticultural Agent

Here are some tips for spring home ground improvement:

DEAD GRASS?

Dead grass is a problem in the spring. Many feel raking a lawn is important because dead grass and creeping weeds are removed. A new idea came to my attention a few days ago which I think is worth a try. In many cases dead grass is mostly dead stubble of last year's grass. Instead of raking most of the fallen clippings up and losing a lot of good organic matter and mulch, why not just cut the lawn close and let the clippings lay.

Lawns are usually cut at one and one-half to two inches during the summer. The first cut in the spring could be three-quarters to one inch before much new growth starts, to cut off all this old stubble. This gets rid of the tufts of brown grass and helps add organic matter to the soil instead of hay to the trash fire.

FIRES HARM TURF

Grass fires never benefit a turf. In spite of the pleasure of burning dead grass in the spring, little can be said for the benefits. Many pasture and lawn grasses tend to grow in tufts or crowns, and these are severly damaged. This accounts for the many "bare spots" which are uncovered by burning.

Often it is felt that many weeds are killed by destroying the seed. But here again, most of the seed has already fallen to the ground and is not affected by the fire. Sometimes small trees seem to do poorly after the grass has burned off. In many cases heating the bark stunts the trees. That's a pretty high price for an innocent fire.

STUMPS PRESENT PROBLEM

Killing stumps is often a problem on home properties. Although trees are usually killed when cut off in the winter, occasionally new shoots will appear. Particularly with willows, box elder trees and apple and thorn apple trees, this sometimes proves more difficult than it seems.

Often 2-4,D is tried, but we know of much better compounds. Several manufacturers now have brush killer mixtures which are a combination of 2-4,D and 2,4,5-T. One spraying of the stump and new growth usually does the job.

Standing trees are easily killed by this material. If it is mixed with diesel oil it works better than with water. Spray young trees and brush on the leaves and around the crown. On large trees, chop into the bark first and then soak this band with the brush kill and diesel oil. This will cause the trees to die within two months.

SHADE TREE FIRST AID

In a lot of cases, fine shade trees become rotten and dangerous because of poor care. Fungus diseases which rot out trees usually cannot get started unless a dead or cut off branch gives them a chance. If a wound is less than three inches in size, it usually will heal before the fungus rots get started.

Where broken branches or dying branches exist, saw them off flush with the trunk. These heal quickly. When stubs are left, these will not heal and invite rot. Where these stubs have been left, recut them flush with the trunk.

After the cut, use a wound dressing. These dressings waterproof the cut, repels insects and makes it much less conspicuous. Household paints may be used. They sometimes crack, however, and healing is then retarded. A much better material is the asphaltic tree paints. They are commonly sold in hardware and garden supply stores.

GRANDPA'S HELPER — Five-year-old Jerry Vance, son of Mr. and Mrs. Valmer Vance, of Pontiac Township, just loves to steer the four horsepower tractor that his grandpa, Earl Vance, of Pontiac Township, has to cultivate a one-third acre home garden. Gardening Tops Hobbies—Claims 50 Million Fans

Can you name a hobby which lays claim to 50 million fans? No, it isn't golf or tiddleywinks — it is gardening, and the favorite part of the sport is rose growing.

★ ★ ★

Strangely enough, this most popular of hobbies is also one of the cheapest. There are no greens fees, no caddies, no dues. All that is required is a hole in the ground and a few rose plants. Given these elements almost any amateur can grow roses worthy of the experts.

★ ★ ★

The popularity of rose growing is hardly a matter of chance, since time immemorial, man has had a natural affinity for the earth and for growing things. The number of rose growers has grown by leaps and bounds in recent years and their search for an emotional outlet has been materially aided by the research and development program introduced by the industry itself.

★ ★ ★

Not too long ago, the normal gardener was required to take his chances with the plants he ordered and had no guarantee that the results would be worth the effort. Today, however, scientific methods have developed to the extent that rose plants are guaranteed to give results before they reach the consumer.

Plan Vegetable Garden Wisely

Make Time Schedule to Increase Quantity, Reduce Waste

A "pencil and paper" vegetable garden can help you increase production and reduce waste, says Fred Widmoyer, extension specialist in horticulture at Michigan State University.

For instance, plant only enough seed of crops like lettuce, radishes and spinach to provide you the amount you can use in a short time. Then, after a few weeks, plant another lot which will be ready after you have used the first harvest. Or, if the variety will not do well later in the season, plant other varieties that mature later.

As you do your armchair gardening, consider the height to which different seed varieties grow. Vegetables need full sunlight to produce well, so plan your garden so no crop will shade another. Plant tall-growing crops together and to the north of low-growing ones, suggests Widmoyer.

Be Artistic in Garden Plan

We can't all be painters and we can't all be musicians, but we can all develop our own private type of artistic ability when it comes to planning the colors in our garden.

The simplest garden can contain only one type flower in one color, but that's not much fun. Slightly more variation can be had by selecting a mixed packet of zinnia seed described as containing shades of pink. This would provide subtle contrast.

The next logical and more advanced step would be to select other flowers in shades of pink to combine with the zinnias such as snapdragons, China aster, clarkia, petunia, Phylox Drummondi, cleome, larkspur, dianthus and others. By combining more than one type of flower, we gain more than color interest alone as there will be considerable variation in plant and flower form.

Combining several colors in a garden is fascinating. Flower colors seldom clash, but a carefully arranged color harmony stands out as something extra special.

The same combinations you admire in clothes or in your home furnishings will combine well in the garden. Try blues and purples with yellows and orange. A few buttons or purple China asters with yellow or orange African marigolds; blue cynoglossum with yellow gaillardia; purple petunias and orange gazanias; Salvia farinacea with yellow zinnias.

Bright reds are useful for accents and combine well with white and blue . . . red zinnias, blue cynoglossum and white cosmos. White flowers are useful throughout the garden as they lend a softening note, as do gray foliaged plants such as dianthus and dusty miller. Delicate sprays of flowers like that of baby's breath have a similar effect.

In planning the border, keep in mind that groupings should be made large. Each area should be several feet in diameter and of uneven shape rather than a perfect circle. If groups are made too small, the appearance will be spotty. Each group of a given plant should be repeated several times.

If a border of annuals can be made against a background of shrubs or by a wall or fence, the flowers will show to best advantage. If this is not possible, plan to use some really tall flowers in the rear such as hollyhocks, cleome, the tallest snapdragons or giant zinnias.

In a mixed border a good rule of thumb is to plant the tallest flowers to the rear, the medium tall plants in the center and the low ones along the edge. However, don't take this so literally that the rows look like soldiers or a planting of vegetables.

Let the groups flow one into another with some of the medium-tall plants coming right up into the foreground. This creates bays or pockets and prevents monotony.

Coolhouse is the name given to a greenhouse kept especially for growing plants that thrive best in temperatures renging from 35 to 40 degrees at night and 60 degrees during the day.

GROW GRASS not weeds

Granulated Wonder Gro Is Formulated For Michigan Lawns--High Nitrogen Content (12-6-6)
Crowd out ugly crab grass with a healthy lawn. Ordinary fertilizers contain too little *Nitrogen* to provide the fast, vigorous, healthy growth that grass needs. Feed your lawn with Wonder Gro. Granulated Wonder Gro is specially formulated to match recommendations of Michigan State University. Easy to apply, feeds longer, dustless, odorless, will not burn or blow away, because it is granulated.
Made by DAVISON, makers of Nurish, the water soluble plant food.
Proper Lawn Feeding Costs Less
2500 sq. ft. coverage (50' x 50') ... $2.50
5000 sq. ft. coverage (50' x 100') ... $3.95
more Economical...more Efficient because it's GRANULATED
Each granule of Wonder Gro is a tiny *atom* of complete plant food. Wonder Gro does not lay on top of the grass but settles down into the soil, providing high Nitrogen content, longer feeding at the roots. *Dustless, odorless, clean, free flowing.*

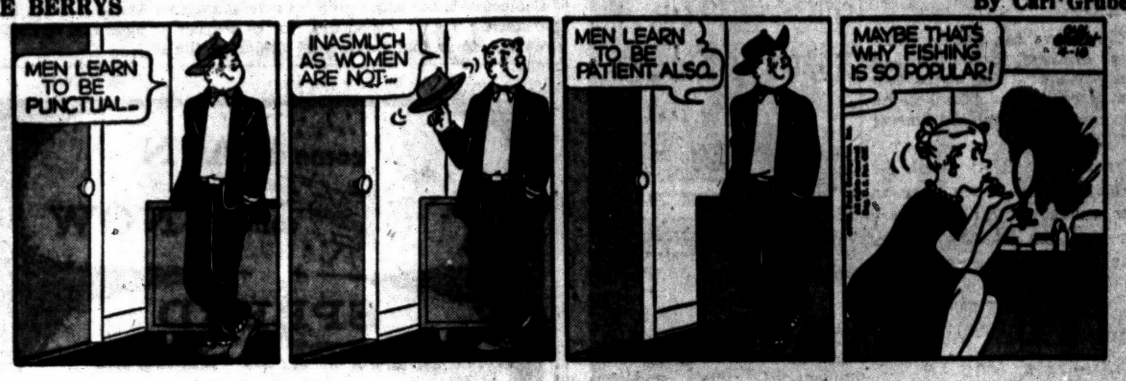
THE BERRYS By Carl Grubert



Author-Educator Raps U.S. Schools

WASHINGTON (AP) — An author-educator told the nation's editors today that the quality of education provided in American classrooms is disgracefully low.

★ ★ ★

Arthur Bestor, University of Illinois historian and former head of the Council for Basic Education, told the American Society of Newspaper Editors that "professional educationists" have frittered away the country's resources of youthful talent on what he called "trivial and short-sighted programs."

★ ★ ★

Bestor's speech was prepared for a panel session at the editors' annual meeting. It was expected to draw a vigorous reply from another panelist, Dr. William G. Carr, executive secretary of the National Education Assn.

★ ★ ★

Bestor noted that 50,000 American students are studying German, as compared with five million Soviet pupils. American schools offer physics for one year, he said, while Soviet schools require physics for five years.

The Great Smoky Mountains National Park was established in 1930. It has 462,224 acres, most of them covered with trees.

Fine Sergeant $120 for Abusing Korean

SEOUL, Korea (AP) — An Army court-martial today fined M. Sgt. Robert E. Weidensaul of Pottstown, Pa., $120 for roughing up a teen-age Korean thief and nailing him into a narrow, three-foot-long box.

Weidensaul was the third American ordered punished for mistreating 14-year-old Kim Chong Il, who was caught stealing at an aircraft maintenance center in Korea.

The sergeant was convicted of cropping and tarring the boy's hair, stuffing him into a crate and nailing it shut Feb. 25. Weidensaul's commander Maj. Thomas James of Plymouth, Pa., then flew the box to another base 25 miles away. The boy is now in a U.S.-supported orphanage.

James earlier was relieved of his command and fined $200. The other man accused in the case, Capt. Marvin E. Kemp of Kilmichael, Miss., was fined $1,200 and relieved of command for six months for knocking the boy about and nicking him with a knife.

Weidensaul testified nine cases of stealing had been reported on the station in the previous month.

Smaller Vessels to Use Seaway This Summer

By ROBERT RICE
Canadian Press Staff Writer

MONTREAL (AP) — The United States gets the key to its locks in the St. Lawrence Seaway this summer.

★ ★ ★

The U. S. section of the international waterway—two locks and a 10-mile canal—opens this year along with Canada's newly-finished Iroquois lock.

HALF-FILLED TUBS

But they'll be like half-filled bathtubs, operating at a 14-foot depth instead of the seaway's standard 27 feet.

The moment is set for July. That's when a 35-mile-long, man-made power pool floods over the old Cornwall Canal route to Lake Ontario, forcing a temporary re-routing of river boats into U. S. and Canadian locks at the western end of the Seaway.

★ ★ ★

The project isn't ready for 27-foot navigation yet. Final work on the U. S. locks—including installation of some machinery—will continue this summer but 14 feet of water in the locks won't hamper the job.

★ ★ ★

The old Lachine and Soulanges Canals—both 14 feet deep—continue this year to steer small 250-foot "canallers" and ocean freighters past rough rapids in the river between Montreal and Cornwall.

With the Cornwall Canals inundated after July, these ships will use the Eisenhower and Snell locks in the U. S. and the Iroquois lock in Canada to bypass a mammoth hydro-electric dam near Cornwall.

This year's limited operation will be the first working preview of the billion-dollar seaway-power project, a four-way partnership of Canada, the United States, Ontario and New York State.

TOO 60 YEARS

It took 60 years to bring the four groups together. From the original U. S.-Canadian survey of seaway routes in 1895, bitter opposition from American interests thwarted Canada's long-held vision of an ocean waterway to the country's industrial heart.

★ ★ ★

The full dream comes true next April when giant ocean-going freighters and sleek 700-foot "lakers" will be able to sail for the first time from the Gulf of St. Lawrence to the lakehead.

All the way—2,400 miles—there will be a 27-foot-deep channel.

★ ★ ★

It took a long time to get the idea across to the United States. Seaway legislation moved in and out of the U. S. Congress for 37 years until an impatient Canada finally warned she might "go it alone."

IDEA APPROVED

Then the U. S. approved the idea and in May 1954, President Eisenhower signed the seaway legislation and work began within three months.

The seaway is a joint enterprise, but the largest share is Canada's. For every $1 spent by the U. S., Canada spends $3. Five of the seven locks are Canadian-built.

★ ★ ★

But the two nations from the start of construction worked closely. Wisconsin-born Lewis G. Castle, administrator of the U. S. St. Lawrence Seaway Development Corporation, says:

"Seaway cooperation has been notable."

★ ★ ★

The American share of the navigation work consists of dredging in the Thousand Islands section and of dredging and building two locks and a major canal in the international rapids section. The cost is $130,500,000. Canada is spending $315,000,000.

It's expected a single joint toll will be imposed and then split between the two nations.

Initially, some 30,000,000 tons of cargo will move through the seaway — compared with 13,000,000 tons on the present shallow waterway.

★ ★ ★

Plans are moving forward for a gala seaway opening. The Queen, who will inaugurate the Canadian enterprise, is expected to meet President Eisenhower at some point along the seaway. The rendezvous may be on Canada's Cornwall Island where an international bridge is being built to the American mainland.

Pranksters Pour Sugar in Gas Tank

A part-owner of a Pontiac Township used car lot reported to the Sheriff's Department yesterday that "at least $300 damage" was caused by pranksters who poured sugar into the gasoline tank of one of his cars.

F. L. Clark, of 2062 Commonwealth Rd., said the sugar got into the engine of the car after it had been run awhile yesterday, and ruined it.

He suspects that several other used cars may have been tampered with in similar fashion.

He said he intended posting a $100 reward for information leading to the arrest and conviction of the prankster or pranksters.

Hollywood Headlines

Johnny Mathis Signed to Play Himself in Movie

By LOUELLA O. PARSONS

HOLLYWOOD (INS)—That very persuasive Jerry Wald has sweet-talked Clifford Odets out of the new Odets' play "The Story on Page One."

Clifford had written this directly for the stage but Jerry wants it for academy winner Joanne Woodward. He would also like to have Paul Newman, but so far he hasn't been able to get a release from Warner Bros. for the popular Paul.

"Story on Page One" is a murder that involves a young couple and all testimony points to their guilt. In the end they are exonerated, "but how, we are not telling," said Jerry.

I don't know of anyone who has had his life story written at the age of 22, but that's exactly what's going to happen to Johnny Mathis.

Ray Stark has signed him to a contract and his first will be a musical based on the life story of Johnny Mathis.

This singer who is such a popular favorite was born in San Francisco and what I didn't know is that when he attended the George Washington School he won all sorts of awards as an athlete.

On my reading table is a copy of Judge Louis H. Burke's "With This Ring," a book I believe married people with problems should read.

Judge Burke did amazing work in the Los Angeles conciliation court. He recently became presiding judge but when he was in the conciliation court he effected 43 per cent reconciliations among couples coming before him, and in one year alone saved 2,000 children from being separated from one parent or the other by divorce.

A blueprint which the judge drew up that has helped many couples has been copied in Japan and Germany as well as the United States. Gordon Gordon, famous mystery writer, lent him a hand and there is now talk that some of the big companies are bidding for "With This Ring."

Queen Soraya is coming to Hollywood with a very definite purpose in mind. She wants to study to be an actress and it's pretty certain she will call on Jack Warner whom she met when she was here with the Shah of Iran.

She receives $60,000 a year, but in her agreement she had to promise not to reveal any of the secrets of her seven years as wife of the king.

Her mother is with her and a maid. As I remember when I met her during her visit here she speaks with a marked accent and this, of course, would have to be remedied.

Behaving in the best tradition of "The show must go on," Susan Hayward was on Walter Wanger's set of "I Want to Live" (the story of Barbara Graham) at eight o'clock the morning followig the death of her mother, Mrs. Ellen Marrenner.

Mrs. Marrenner died suddenly of a coronary thrombosis and Susan was with her at the hospital when her condition became grave, and she made all funeral arrangements.

However, she realized that Walter had had one delay after another, not only with her own sicknesses — she had the flu and measles—but the illnesses of other members of the cast as well.

Produce Better Movies to Compete With TV

In an effort to combat television competition, better movies are being produced. Evidence shows that if pictures are worthwhile, people will go to see them.

A policy of longer engagements for better films has struck popular fancy and some local theaters have arranged several of these.

Find Key to Life, Scientists Believe

By RENNIE TAYLOR
AP Science Reporter

SAN FRANCISCO (AP) — From simple chemicals which presumably existed on the dead earth millions of years ago scientists have produced substances they believe to be identical with those which formed the first living things.

★ ★ ★

These materials include an assortment of amino acids, the constituents of protein, and finally combinations of these acids into protein-like materials. Protein is the basic substance of living matter.

The steps they followed in the test tube experiments were something like those taken by other scientists in attempting to synthesize protein, one of the great goals of biological science.

★ ★ ★

However, their object was not to make protein for its own sake but to demonstrate how the first building blocks of life could have been formed.

These scientists presented the results of their work in paper before the American Chemical Society yesterday.

Lead AL With 3-0, Three Tied for 2nd

Orioles Stockpiling Victories

By THE ASSOCIATED PRESS

Manager Paul Richards may have said a first division finish for Baltimore was only a possibility before the American League race started, but at the moment he's busy stockpiling early victories that could provide the payoff for the Orioles in August and September.

These April games may be pretty big come the late run for first division money, and Richards the only unbeaten skipper left in the AL, isn't missing any bets to get 'em. Last night, despite a 3-0 lead, he pulled rookie Milt Pappas in the fourth inning, sent veteran Jack Harshman to the mound and came off with a 4-0 victory.

★ ★ ★

That put Baltimore in first place as the Orioles came to New York for the Yankees' home opener today. The Yankees joined Detroit and Kansas City in second with a 3-1 victory at Boston yesterday while the Chicago White Sox and Cleveland Indians salvaged the final games of their three-day series with the Tigers and Athletics.

★ ★ ★

Rookie Jim "Mudcat" Grant went all the way for his first victory as the Indians clipped the A's 3-2.

★ ★ ★

Gus Triandos and Brooks Robinson homered for the Orioles, who tagged loser Chuck Stobbs and two relievers for 10 hits.

Johnny Kucks spaced seven hits for his first complete game since last June for the Yankees, and didn't lose his shutout bid until Jackie Jensen's third homer in the ninth. He got pinch-hitter Ted Williams, making his first appearance after a bout with food poisoning, on a grounder in the eighth. Pete Runnels led the Sox with 4-for-4.

★ ★ ★

Tom Brewer, 2-11 against New York, gave up the telling run on Mickey Mantle's first hit of the year—a solid, fifth-inning homer. The Mick had hit only one home run at Fenway Park in each of the last two seasons.

Mickey Vernon's pinch double with two out, scored a pair and brought the Indians from behind in the ninth against Duke Maas. Grant, 22, a righthander, struck out five, walked three and gave eight hits—including an RBI single and homer by Bob Cerv, who now has nine RBI

Exchange of Pitchers

BALTIMORE (INS) — The Baltimore Orioles traded southpaw Bud Daley to Kansas City today for righthander Arnold Portocarrero.

Bengals Meet Tribe in Home Opener Today

White Sox Garner 4-3 Victory in Final Tilt at Chicago

DETROIT (AP) — Manager Jack Tighe says Detroit must get off to a good start and avoid early season injuries if the Tigers are to go anywhere this season. And he concedes a home-opening victory over Cleveland at Briggs Stadium today would go a long way toward firing-up the club.

"Since I've been with the Tigers as a coach and manager they've always had poor starts," Tighe said. "The team we've got this year is the kind of club that could really get inspired. A fast start would really help the guys who must come through — especially some of our young pitchers."

Tighe said while he was disappointed about yesterday's 4-3 loss to the Chicago White Sox, there were some bright spots in the game.

"We hit well and barring a couple of errors we could have just as well made a sweep of the series," the Tiger manager declared.

★ ★ ★

"The pitching all through the series was good," Tighe said, "and five home runs in three games are more than we hit all last year against Chicago at Comiskey Park."

Near-perfect weather with sunny skies and temperatures in the low 70s was predicted for the opener. Stadium officials estimated attendance would hit 45,000.

Tighe picked Billy Hoeft to try for Detroit's second home-opening victory since 1950. He faces either Don Mossi or Herb Score.

It is the 11th time in the last 25 years that the Tigers have met Cleveland in the Detroit inaugural. The Indians have won seven of the previous encounters. They've won only one of their first three starts this season.

Detroit's loss to Chicago yesterday left the Tigers with a 2-1 record.

Consecutive singles by Tito Francona, Al Smith and Bubba Phillips in the sixth inning moved the White Sox ahead 4-3 after Reno Bertoia had tied the score in the fifth with a solo homer.

The Tigers scored first in the opening inning when Frank Bolling's fly escaped Smith for a double and Harvey Kuenn's drive banged off third baseman Billy Goodman for another two-bagger.

A walk, a fielder's choice, a stolen base and Jim Hegan's single gave Detroit a 2-0 lead in the second before Smith drove in two Chicago runs with a single.

★ ★ ★

The Sox went ahead in the fifth when Luis Aparicio doubled and Nellie Fox singled, but Bertoia's homer tied it 3-3.

Mansfield Observers Rate Pontiac as 'Team to Watch'

By H. GUY MOATS

MANSFIELD, Ohio — Michigan prep thinclads today began a sizeable "invasion" of one of the country's most highly regarded track and field meets here in Mansfield.

Heading the delegation of some 28 Michigan schools is Pontiac's Central High defending MHSAA champions. Chiefs, 13 strong, arrived early today. Michigan squads totaled about 250 athletes.

★ ★ ★

More than 1,600 young athletes from four states were listed among the entries from Michigan, Pennsylvania, West Virginia, and Ohio.

Veteran relays observers named several teams they figured carried the most authority into the big schoolboy athletic carnival. Three, in particular, were singled out as potential top threats. They are all state champions in their respective commonwealths, and Pontiac, champion here in 1956 headed the list.

Other top threats are Springfield, Ohio, the Buckeye state's Class AA champion, and Mt. Lebanon of Pittsburgh, Pennsylvania's prep track power, boasting 100 straight dual-meet victories.

★ ★ ★

"Entries for this meet," says Harry Mehock, its originator and director for the 27 years of its existence, "have eclipsed all previous records of participation. Pontiac, Springfield and Mt. Lebanon are the teams to watch."

★ ★ ★

The four-mile relay this afternoon, with Birmingham and both Flint Northern and Central among the entries, is the only event of the day for Class A. Preliminaries in the 100, 220, pole vault, high and broad jumps, discus, and hurdles were set for Saturday morning.

Jones in Ohio Event Saturday

The Eastern Michigan College track team, led by Pontiac Olympic candidate Hayes Jones and Kerry Keating of Waterford, opens its outdoor season tomorrow in the Ohio Relays at Columbus.

★ ★ ★

Three dual meets, the Drake Relays, a conference and state meet are included on the team schedule which runs through June 27 when Eastern serves as host to the NAIA event.

"Jones and the rest of the team are in top shape but we have not had much chance to practice lately because of our spring vacation and a resurfacing job being done on the track," said Huron coach George Marshall today before leaving for Columbus.

★ ★ ★

He is confident Jones will continue to improve although the sophomore sensation has already set several records against the nation's best.

SPORTS

Musial Sets Record...All for Naught

By The Associated Press

Stan "The Man" Musial has yet another National League record in the bag today, but the St. Louis Cardinals are still looking for that first victory in what some folks picked to be their pennant year.

★ ★ ★

Musial, at 37 closing in on a cluster of standout hitting records and milestones, slammed past Mel Ott's league record for total bases with a home run and a single last night, but it wasn't enough to ward off a 4-3 defeat by the Chicago Cubs.

★ ★ ★

Musial now has collected 5,046 total bases on 2,960 hits—just 40 short of the select 3,000-hit club—while padding his NL record of long hits to 1,157 with his 382nd home run. Ott totaled 5,041 bases in his 22 seasons. Musial, in his 17th season, now ranks No. 5 among the major league total-bases leaders, topped by Ty Cobb's 5,863.

★ ★ ★

While the Cubs, who crippled St. Louis in last year's stretch run, stayed unbeaten with their second decision over the Cardinals, the defending champion Milwaukee Braves whipped Pittsburgh 6-1 with Ed Mathews again belting a pair of homers and World Series ace Lew Burdette looking sharp.

San Francisco clobbered Don Newcombe early and defeated Los Angeles 7-4 in the only other NL game scheduled.

★ ★ ★

The Cubs made it five in a row over St. Louis, in a carry-over from last season, with Dale Long's sacrifice fly scoring the deciding run in the eighth. Rookie Tony Taylor lined a two-run single and John Goryl rapped a homer for a quick 3-0 lead against loser Lindy McDaniel.

Musial's homer, giving the Cards their first run in 13 innings this season, came off rookie Glenn Hobbie, who gave up half of St. Louis' six hits in his 5 2-3 innings and needed relief help for his first victory.

★ ★ ★

Mathews, who led the league with 47 home runs in 1953 and hit Law for a two-out, three-run homer in the fifth, breaking a 1-1 tie, and then slugged No. 4 in the seventh off rookie Bennie Daniels. Red Schoendienst, who was 3-for-4, was on base for both blows by Mathews, who also hit two opening day.

★ ★ ★

Burdette, who blanked the Yankees twice in the World Series, walked no one and gave up seven hits. A triple by Roberto Clemente and Gene Baker's sacrifice fly ruined his shoutout bid in the fifth. It was Lew's ninth straight victory over the Bucs since June 20, 1950. He's 15-2 lifetime against 'em.

★ ★ ★

Winner Curt Barclay and Marv Grissom shut out the Dodgers on three hits over the last 5 1-3 innings in relief of Johnny Antonelli, who blew a 3-0 lead by giving up five hits and six walks. The Giants took the lead for keeps, 6-4, in a three-run fourth, when Newk left with a pulled muscle after rookie Bob Schmidt rapped him for a home run that tied it 4-all.

★ ★ ★

The other second "openers" in the NL had St. Louis at Chicago and Cincinnati at Pittsburgh in day games with Milwaukee at Philadelphia tonight.

Permanent New Year's Eve

LA Shows No Restraint as Dodgers Make Debut

LOS ANGELES (AP) — Fifty-five years ago, when Los Angeles was a busy young city of 102,000, a local paper gave meager display to an item beginning:

"A number of automobiles, tally-hos and carriages will assemble at the city hall. Headed by a brass band, the parade will start at 1 o'clock."

★ ★ ★

This was the restrained introduction to organized baseball in Los Angeles. The next day the Los Angeles LoLoos played their first game in the Pacific Coast League and vanquished the Seattle Webfeet 2-1.

Today the journals announced another baseball arrival; but with little more restraint than you'd expect to find among starving rabbits in a carrot patch.

The papers were breathless with such announcements as this:

★ ★ ★

"New Year's Eve and Los Angeles' shiny new Dodgers arrived simultaneously last night in our town. But this was a New Year's Eve that never would end and a team that never would leave. The grand arrival last night and the premiere of major league baseball today shrunk the nation 3,000 miles. . ."

★ ★ ★

The excitement was hardly confined to the sports writers. Banners fluttered over Broadway, bands got ready to march, pretty girls put on their new Dodger blouses, and traffic cops awaited some 90,000 persons expected to turn up at the Coliseum. Such a crowd would be the largest ever to watch a baseball game.

★ ★ ★

There, in a vast arena never before used for baseball, and not perfectly designed to accommodate it, the Los Angeles Dodgers are matched against San Francisco's new Giants in the first National League championship game ever played here.

★ ★ ★

Before the game, however, were the parade, an uncommon event in Los Angeles, and other ceremonies.

The starting point was city hall, where Mayor Norris Poulson would receive the home plate from Ebbets Field, the Dodgers' old grounds in Brooklyn. From city hall, it was off to the Coliseum along a circuitous parade route.

RIGNEY ILL — San Francisco Giants' manager Bill Rigney, who left the game yesterday in the 4th inning, entered an Oakland, Calif., hospital because of illness. Giant vice president Chub Feeney said it was nothing serious.

Doctoring Your Golf

By DR. CARY MIDDLECOFF

Patient's Complaint: Pushed Shots.

Diagnosis: Forced Sway.

Treatment: Keep your head firmly in place until the ball is hit and on its way. And when you place your head over the ball at the start of your swing, it must remain stock still until ball and clubhead meet. Not only must you keep the head down, but also STILL. No top-notch golfer will give you an argument about that.

If your head moves forward in the course of the swing, your body and hands and all the rest of you will do likewise. The head, you see, is the hub of the swing.

What you must avoid in order to keep from pushing your shots well to the right of your target is the forward sway which brings hands and body into the ball ahead of the clubhead. The forward sway traces back to the forward movement of the head.

For LA Coliseum

5-Iron — Might Do Trick

LOS ANGELES (AP)—The Coliseum fence is something you have to see for yourself.

Only 250 feet from home plate with a 42-foot screen on top, it could be cleared by a golfer with a seven iron. Well, make it a five iron, caddy.

★ ★ ★

It is sort of a suspension gadget along the lines of the George Washington Bridge in that town that used to be in the National League. Or better yet, something like the Brooklyn Bridge.

Two steel towers poke their heads toward the sky from the recessed field at the bottom of this uncovered concrete bowl where the new Los Angeles Dodgers play. They are dwarfed by the rows upon rows of seats that stretch toward the horizon.

There is a yellow pipe at the top of the fence, 42 feet up. Above that a few cables dip and weave from one tower to the other for 140 feet toward left center. If the ball goes over the yellow pipe, it is a home run. If it hits below the line, it is a live ball and playable. If it hits the pipe? Well, it will have a yellow stain and the umpires can figure that out.

AREA GRIDDER AT "M" — Johnny Walker (right), former Walled Lake gridder who was the outstanding player of Oakland County during the 1956 season, is shown with coach Bennie Oosterbaan and three of Michigan's prospective regulars for next season. Left to right are Brad Myers, Stan Noskin and Bob Ptacek. Other regular John Hernnstein is playing baseball. Walker is a sophomore and highly regarded.

33 Pros Under Par

Two Hit 65 at Derby Meet

LOUISVILLE, Ky. (AP) — Sparkling 65s by Bert Weaver and Bill Collins set the pace Thursday as par took a plastering in the first round of the Kentucky Derby Open Golf Tournament.

Seneca Golf Course's 6,526 yards of tree-lined hills—usually considered a rugged test—didn't worry 33 pros who toured the first 18 holes with scores under par of 35-37—72.

★ ★ ★

The course record was equalled by the efforts of Weaver, a former Louisiana State University star from Beaumont, Tex., and Collins, a Baltimore native playing out of Grossinger, N.Y.

Even so, they had a scant stroke lead over Chick Harbert of Northville, Mich., who put together a string of birdies on the second nine to finish with 66.

They had a two-stroke lead over Dow Finsterwald of Tequesta, Fla.; Toney Lema, Napa, Calif., and Tommy Bolt of Chattanoga, Tenn.

Bunched with 68s were Doug Ford of Mahopac, N.Y.; Bill Nary of Albuquerque, N.M.; Paul Harney of Worcester, Mass.; Tom Nieporte of Cincinnati; Gary Payers of Johannesburg, South Africa; Frank Stranahan of Toledo, Ohio and Ed Oliver of Hesperia, Calif.

'Battle Royal' Mat Show Here Tonight

City wrestling enthusiasts should get their money's worth at tonight's professional mat show in the Pontiac Armory ring. A six-man "battle royal" is the bill of fare, starting at 8:30.

Grapplers scheduled to take part in the free-for-all are Jack "Bad Boy" Brown, Martino Angelo, Danny Ferrazzo, Dynamite Johnny Gates and the Donovan Brothers. All six men will wrestle at the same time.

Tickets for tonight's card are available at Griff's Grill, and the Armory. Ex-wrestler Bert Ruby is the matchmaker for the program, sponsored by the 107th Ordnance Company of the Pontiac National Guard.

George Tech sat out the bowl games this year, the first time since 1950 that the Yellow Jackets have not entered. The 1957 team finished the year with a 4-4-2 mark.

Teeing Off

By BILL CORNWELL

No one seems to know where it started, but a report has been circulating that Jack Fleck, head pro at Rochester Golf and Country Club, was planning to pack up and head for California.

Lynn Fleck, Jack's attractive wife, squelched the rumor with these words: "We're very delighted with this area and the state of Michigan and we have no intention of leaving."

"I can't imagine how that story got started," Mrs. Fleck said. "We go to California during the winter months," she continued, "but we don't plan on staying there."

The Flecks have been going to the west coast for the winter every year since 1950 and they recently finished building a home in San Fernando Valley.

FLECK

A syndicate headed by Fleck purchased the former Brooklands course in October of 1956 and Jack assumed his new duties last year. The 1955 U. S. Open champion has since bought a controlling interest in the revamped 18-hole layout, which turned private this spring.

There was a very sound reason for Mrs. Fleck doing the talking. Her husband is now competing in the Kentucky Derby Open at Louisville.

SHORT PUTTS

Indianwood Country Club's women golfers will hold a luncheon meeting Saturday at 12 o'clock noon in the clubhouse.

Michigan State University's new 18-hole golf course will be initiated April 26 when the Spartans entertain Northwestern in a Big 10 dual meet.

The one good arm that helped make Ed Furgol a top-flight pro underwent surgery this week at Duke Hospital in Durham, N.C. The operation, described as minor, was for the purpose of correcting a bursitis condition in the elbow of Furgol's right arm and to remove small bone chips.

Furgol, now 39 years old, was National Open champ in 1954. He has a withered left arm caused by a childhood injury.

Sally Sharp, MSU co-ed and former state amateur champion, has been rated at two strokes handicap this year by the Women's District Golf Association.

Waterford, Falcons Win League Meets

Waterford and Farmington romped to easy victories in a pair of Inter-Lakes Conference track meets under sunny skies yesterday.

The Skippers tripped Southfield 86 1-6 to 22 5-6 winning 10 events outright and sharing 1st in another. Bill Cole piled up 11¼ and Bill Loveland 10¼ to make it easy. Cliff Solbert took the 100 and 200 dashes to pave the losers. Waterford now has a 2-1 record.

Farmington piled up 75 1-3 points to Van Dyke's 33 2-3 for its 2nd straight triumph. Warren Cawley set another school mark winning the 220 in 22.5 seconds while also taking the high jump and helping in the 880 relay. Dewey Nichols

Montreal Leads Again on Overtime Win

Rocket's Big Goal Produces 3-2 Triumph

Canadiens Can Clinch Cup Title at Boston Sunday

MONTREAL (AP) — Maurice "Rocket" Richard, the fiery hockey veteran with a flair for dramatics and a devastating shot, rifled in an overtime goal last night to give the Montreal Canadiens a 3-2 win over the Boston Bruins and the same 3-2 margin in the Stanley Cup final.

The end to the sudden-death struggle came at 5:45 of overtime play. It was a blow to the fighting Bruins but typical of the Rocket's explosive accomplishments.

★ ★ ★

The shot was only the second he had been able to fire on the Boston net throughout the long struggle.

The big goal that once again gave Montreal the edge in the best-of-seven series marked the sixth time Richard has broken up overtime games in his 13 appearances in post-season play.

It was also the 18th time he has scored the winning goal in playoffs. Once before in the current series—in Montreal's 3-0 win last Sunday in Boston—the 36-year-old Rocket popped in what proved to be the winner.

★ ★ ★

The game was a desperate struggle between the two teams, each giving everything to grab this big fifth game before the series moves to Boston for the sixth game Sunday.

It was also a game that could have gone either way. Against the brilliant work of goalies Jacques Plante of Montreal and Don Simmons of Boston, each team had to come from behind before the grim tussle finally was tossed to the fortunes of sudden-death play.

Both teams blew early scoring chances that could have wrapped up the game without necessity of overtime. In the first few minutes of the game the Canadiens put on a drive that had Simmons on the jump.

Boston supporters hoped that Fleming Mackell's first-period goal was an omen of victory. In the four previous games of the final the team scoring first won the game. The Canadiens finally ended the hoodoo.

Jean Beliveau was serving a highsticking penalty when Mackell raced in fast to bat Allan Stanley's rebound past Plante at 18:43.

The Boom Boom Geoffrion-Beliveau combination righted things for Montreal early in the second period. Beliveau got the draw on a face off, whipping the puck toward the Boston net and Geoffrion tipped it in at 2:20.

★ ★ ★

The crowd was still whooping it up when Geoffrion backhanded a pass to Beliveau, who let drive in one motion as he reached the puck and beat Simmons with a 25-foot-

Danish Athlete Unbeaten as Milford's Best Miler

Milford High School's track team, this spring, can lay claim to being somewhat of an international outfit, what with a hard-working and fast-improving miler from Denmark coming through with winning points.

Husky Peder Jensen, 18-year-old senior, competed in his first track meet in the Milford-Walled Lake contest a week ago. He made his 2nd start Wednesday and won both times as the Redskins' No. 1 miler. At that rate Peder is going to be a lot of help to the Milford club, says Coach Bill Golden.

Peder's best time was his first win, a 5:10.3 mark. He'll do much better, his coach believes, before the season ends.

A native of Esbjeig, Denmark, Peder had grown up playing soccer, since nine years old, at a private soccer club. When he arrived in Milford as an exchange student last fall, there was no soccer to play so he went out for cross-country. He became the Redskins' leading harrier and the step to the track team as a miler was easy, says Coach Golden. "Peder is a quiet, well-liked young man, a real good neighbor."

Jensen plans to continue his schooling in Denmark when he returns in the fall. He is living with the Jack Adams family in Milford.

One Milford athlete, current half miler Paul Sanford spent his junior year in New Zealand, under the AFS exchange plan.

Pontiac Nine Leads SVC, Avon Wins

Pontiac took over 1st place in the Saginaw Valley League, Avondale and Oxford posted extra-inning victories and Romeo won its 3rd straight in baseball action around this sector yesterday.

Holly opened its season under new coach Leroy Decker by whipping Grand Blanc 8-4 and Bloomfield Hills nipped Oak Park 7-6 in other games.

A two-run 1st inning and Charley Honchell's three-hit pitching was all the Chiefs needed to down Saginaw Arthur Hill 5-1 for their 2nd straight loop triumph. Honchell, who lost a shutout in the 6th, and catcher Chuck Johnson had two hits apiece.

Avondale and Lake Orion staged an interesting battle in the Oakland B opener. Avon overcame a 2-0 deficit on Dick Roy's two-run double in the 4th and clinched a 3-2 verdict in the 8th when Otto Jancik singled in a run. Winner Dennis Evans fanned 12 and loser Dick Smith 14.

The Oxford-Clarkston game was similar. Larry Stelmach of the losers batted in two with a double to send that one into overtime. An attempted squeeze bunt that went for a hit by winning hurler Fred Liestman wrapped up the 3-2 victory in the 8th as Jerry Hight scored. Dave Gaddis was charged with the defeat in relief.

Romeo had its home run power stifled but still came up with 14 safeties in walloping Tri-County rival Rochester 12-6. An eight-run 7th broke up a close tussle. Dave Proper had five straight hits and Bud Dodge three off four Falcon hurlers. Carl Montross garnered two doubles and a single off Bob Galan, who won his 2nd start.

Holly trailed 2-1 before going ahead to stay with four in the 4th on its new diamond. George McDaniel pitched the triumph with relief help from starting catcher Amos Bradsher. Mel Reid, Bill Haslock and Bradsher each smashed a double and single for the Broncos.

At Bloomfield Hills, a walk and Frank Borgon's double accounted for the deciding marker. Second hurler Bruce Withers gained the victory besting Oak Park ace Mike Detmer.

Field for '500' Now at 56 Cars

INDIANAPOLIS (AP)—Four more mail entries Thursday brought the field to 56 cars for the 42nd 500-mile auto race May 30 and Speedway President Tony Hulman said that appeared to be the lot.

★ ★ ★

No mail entries postmarked after Tuesday midnight will be accepted.

★ ★ ★

Only two drivers were named in the final batch of entries. Don Freeland of Indianapolis, a Speedway veteran, was named to drive a car owned by Bob Estes, Inglewood, Calif.

Ray Crawford, Pasadena, Calif., supermarket operator and World War II ace, will drive his own car.

Bill Homeier, Pacoima, Calif., was named to drive a car entered earlier by Leonard G. Smith, Mount Clemens, Mich.

★ ★ ★

The field will be cut to 33 starters by time trials May 17, 18, 24 and 25.

Elks Bowlers to Divide $1,000 in Doubles Event

A total of $1,000 will be awarded the top 98 finishers in the 2nd annual Elks Mixed doubles tournament which goes into its 3rd weekend Saturday and Sunday.

The winning team will earn a $100 check and the 2nd place duo will take $75 to top the list.

Currently heading the pack is the combination of Rose Stratton and O. Evanoff with a 1,250 handicap total.

Howe's Keg Tourney Starts 2nd Weekend

The 2nd of three weekends of bowling begins tomorrow in the 7th annual Howe's Lanes singles tournament which has over 500 area keglers vying for title honors.

Dick Cork is the man to beat with his big 923 rolled last weekend. His 855 also stands as the best actual series.

A guaranteed $200 will be awarded the champion with $140 going to the runner-up.

Russians in Mat Sweep

NEW YORK (AP) — How can we catch up to the Russians in wrestling in time for the 1960 Olympics?

"By development programs, by using international rules, by competition in international meets and by stressing the fall."

★ ★ ★

So says Terry McCann, a quick, lithe grappler from Tulsa via Chicago and the University of Iowa.

Terry, a bantamweight or 125½-pounder, should be listened to respectfully. He was the only Yank to beat the formidable Russians on their four-meet tour of Oklahoma and New York. His other credentials include the National AAU crown and formerly, the NCAA title.

★ ★ ★

The crewcut blond scored the lone American victory last night when the Soviets completed their sweep by trouncing another picked squad, 6-1 with one draw, before a turnaway crowd of 1,400 at the New York A.C. gym. In Oklahoma, the redclad invaders won by 7-1, 5-1 with 2 draws, and 5-0 with 3 draws.

Golf Clinic Set for This Month

The Pontiac Parks and Recreation Department will conduct a golf instruction clinic before the month of April makes its exit provided there is enough interest.

The clinic is tentatively composed of four two-hour sessions covering basic fundamentals of the game through films, demonstration and practice.

Emphasis will be given to proper stance, grip and swing in relation to a variety of clubs and situations. Rules and golf etiquette are also scheduled to receive attention.

Persons of high school age and above interested in attending this clinic should register with the Parks and Recreation Department by calling FE 3-7131. Those who sign up will be notified by phone or postal card of the date, time and place for the clinic. A small fee will be charged.

Skippers Lose to PCH

Balanced play paid off over an outstanding individual showing for the Pontiac Central golf team yesterday as the Chiefs trounced Waterford 332 to 356 at Pontiac Country Club.

The Chiefs had four boys at 84 or lower as against one for the losers as Dick Whitmer fired an 82, Nick Shorter and John Taylor had 83 each and Mike Samardjia 84.

Waterford's Chuck Canterbury was medalist with a 77 aided by an eagle on the par-4 12th hole. Dennis Alden had an 86.

Smokers of Opium Told to Pipe Down

TEHRAN, Iran — Iran's recent decision to suppress opium production has been hailed by authorities fighting the drug on an international scale, Tehran reports.

The government ordered the closing of public dens where addicts gathered to smoke their pipes. Every addict has six months' grace in which to report at a control center; thereafter, he will be prosecuted if not registered for treatment.

These stern measures will cause a big loss in national revenue, at least temporarily. One acre in every 350, throughout Iran, was devoted to cultivating the opium poppy, resulting in an annual harvest of 700 to 1,200 tons of raw opium.

Now 30,000 acres of poppies have been plowed under. Iran's 1,500,000 addicts smoked nearly two tons a day — causing 5,000 suicides a year, as one effect.

Predicts Wage Hike Will Up Car Prices

BOSTON — Prices of 1959 automobiles will be higher if "labor succeeds in obtaining a bigger wage increase than that provided in its present contract," Edward T. Ragsdale, general manager of Buick and vice president of General Motors, predicted today.

★ ★ ★

The existing contract between General Motors and the UAW-CIO provides a minimum wage increase of six cents hourly per year.

"For more than a decade now business has been caught in a vicious cost-price squeeze," Ragsdale said at a luncheon meeting of Boston businessmen. "We have been besieged on one side by organized labor with its persistent and continuing demands for higher wages, and on the other side by the consumer who has become alarmed at the ever-increasing price he must pay for the goods he needs."

★ ★ ★

Ragsdale said he believed the bottom of the business downturn had been reached and recovery would set in within a few months.

Illegal Price Advantage Cited at Thompson Firm

WASHINGTON (AP) — A Federal Trade Commission examiner ruled today that Thompson Products Inc., Cleveland, has given big auto makers an illegal price advantage over its own distributors in the purchase of replacement auto parts.

Examiner Earl J. Kolb issued an order which would prohibit Thompson from practicing what he said was price discrimination outlawed by antitrust laws.

The decision may be appealed, stayed or reviewed by the full commission.

About 80 per cent of all of the residents of England and Wales are generally classified as urban population.

Rails Again Stock Leaders

NEW YORK (AP) — Rails resumed their stock market leadership in active early trading today.

Gains of fractions to around a point were scored in a broad advance by most major divisions of the list.

★ ★ ★ ★

The ticker tape was behind for a period of six minutes in reporting the first heavy wave of transactions and was two minutes behind the pace of transactions at worst.

After the first upsurge there was some backing away from the best gains as turnover moderated.

Wall Street continued to expect benefits for the railroads in the form of proposals from a Senate subcommittee. Meanwhile, the list as a whole benefited from news of another drop in the discount rate and easing of reserve requirements for Federal Reserve banks.

U.S. government bonds and corporate bonds rose sharply after these new credit-easing measures.

Fractional gains were made by a string of leading rails including New York Central, Southern Railway, Baltimore & Ohio and Southern Pacific.

Youngstown Sheet rose more than a point. Gains of about a point were made by Du Pont, American Telephone and Phelps Dodge.

NOTICE OF HEARING ON SPECIAL Assessment Improvements by Bloomfield Township Board.

Kirkway Bridge Improvement Special Assessment No. 43.

To the owners of the following described property:

Lots 1 thru 8 inclusive Kirkway Subdivision; Lots 1 thru 32 inclusive and Outlot B of Lochalsa Subdivision; Lots 1 thru 5 inclusive of West Lochalsa Subdivision, Section 7, 8, 17 and 18, Bloomfield Township, Oakland County, Michigan.

Please take notice that the Township Board of the Township of Bloomfield has tentatively declared its intention to make the following described improvements:

Raise the south, or Long Lake Road side of the bridge on Kirkway Drive to a height of 24" for a distance of 80 feet from the bridge and to erect the necessary warning or safety signs in connection therewith. Also grading, draining, providing proper gravel base and raising to a maximum height of 24" the approach to the bridge above mentioned on the south of Long Lake Side thereof, located on Kirkway Drive, Bloomfield Township, Oakland County, Michigan; and has tentatively designated the special assessment district against which the cost of said improvements is to be assessed as consisting of all the lots and parcels of land set forth above.

Plans and estimates have been prepared and are on file with the Township Clerk for public examination. The estimate of cost as prepared shows the cost of said project to be $2,000.00.

Take further notice that the Township Board will meet on May 1, 1958 at 7:30 o'clock p.m. at Bloomfield Township Hall, in the Township of Bloomfield for the purpose of hearing any objections to the petition to the improvements and to the special assessment district therefor.

ROBERT H. DUDLEY,
Township Clerk
April 18, 25, '58.

★ ★ ★

The cast will include Marilyn Coffing, Gail Marien, Kim Nixon, Claudia Lessel, Karen Tatu, Kathy O'Brien and Ileane Wilson. Audrey Limkeman will direct.

Bob Lilleyman, guest organist, will play several of Fanny Crosby's hymns.

The Youth Choir under the direction of Bill Coffing will sing "I Am Thine, O Lord," "Blesses Assurance," "Pass Me Not O Gentle Savior," and "Saved by Grace." Marillyn Vernon will sing "Safe in the Arms of Jesus."

★ ★ ★

The Rev. Theodore R. Allebach, pastor, will speak on "The Goal of Christian Living" at the 10 a.m. service.

China Theater Unit Amused Emperor

HONG KONG — Emperor Chousin, who ruled in 1154 B.C., had a group of men and women who entertained him — the first show company mentioned in Chinese history and, many historians believe, the pioneers of Chinese drama.

★ ★ ★

One day one of the ifperial entertainers, drunk when he reached home, put on his wife's dress, went out on the street and began to sing and dance. A big crowd gathered and applauded him.

★ ★ ★

Other entertainers heard about it and concluded this was the best way to draw a crowd. This is the first instance on record of female impersonation, which later became an important part of Chinese drama.

Life is what you make it. To a pedestrian, it's IF you make it . . . These are wonderful times, but most of us won't admit it for another 15 or 20 years . . . A family man sometimes is a fellow who has several small mouths to feed and one big mouth to listen to. —Earl Wilson.

1st Rocket Ship Flown in 3 A.D., Historians Say

HONG KONG—Some historians say a Chinese general built an airship, probably rocket-propelled, and used it as a war machine in the Third Century A.D. They write that Ku Min, also noted as a magician, came to the aid of Emperor Han Su when his 500-year-old dynasty was tottering under the attacks of rebels.

Ku Min, inventing camouflage, too, is said to have built over his airship's propelling mechanism the form of a cow and with this terrifying apparatus flew over the rebels, observing their movements and throwing bombs down on them until they were defeated.

He refused to divulge the principle of his invention because he believed it would prove a menace to the future peace of the world.

Lovable Lush Lewis Gets Friars Tribute

BY EARL WILSON

NEW YORK—The Friars Club named a room for Comedian Joe E. Lewis. (Never mind which room it was.)

It was a fitting tribute to a man who has become loved by doing all the wrong things.

WILSON

Joe E. — who is Chicago's contribution to culture and gracious living—lives in saloons and gambles away fortunes at dice and on horses. Most people who do these things are in disgrace, but Joe E. is more popular than Liberace.

Joe E. took the mike to explain his success story at the Friars' tribute to him. He mentioned his happy childhood. "When we were kids in Chicago, we never heard of juvenile delinquency," he said. "We were already full-fledged criminals. I did smoke marijuana once, but it was a mistake. I thought it was opium."

Joe E. called out to Jack Barry, who'd been m.c.'ing: "A fellow could get sober standing up here!"

★ ★ ★

It's nice to have friendships to treasure, Joe E. resumed, sentimentally. "I'm so glad my friend Sophie Tucker's here tonight. You know Sophie did a great job for us during the war. Then the Confederates grabbed her."

LEWIS

Perhaps some people will be horrified that I've written so lengthily of a man who proclaims his supposed vices, but actually Joe's not wicked but a sweet soul, an easy touch, one of the most charitable of men.

Off now to play 16 weeks in Las Vegas, he even claims he's giving up drinking.

"I am beginning to see," he explains, "the handwriting on the floor."

THE MIDNIGHT EARL . . .

Steve Allen says he'll use **Dody Goodman** often on his TV'er . . . Comic **Carl Reiner's** book, "Enter Laughing," will be produced on B'way by David Merrick. **Greer Garson's** husband, **Buddy Fogelson,** brought in another well in the rich "Garson oil fields" . . . Singer **Tommy Sands** hopes to become a dramatic actor, applied for an Actors Studio audition . . .

WISH I'D SAID THAT: The boy and girl who have a wonderful evening on only 50 cents probably gave the money to her kid brother.—Maestro Ben Cutler. **That's earl, brother.**

NOTHING LIKE NOREEN — John Forsythe has discovered that his 14-year-old co-star, Noreen Corcoran, is the big drawing card for the adult viewers of "Bachelor Father." Thus, the emphasis of the show has been switched to Noreen's problems and John's reaction to them. The situation comedy is telecast by CBS on alternate Sundays at 7:30 p. m.

So His Co-Star Gets Spotlight

'Bachelor Father' Plot Now Revolves Around Noreen Corcoran

By ERSKINE JOHNSON

HOLLYWOOD (NEA)—"There's Nothing Like A Dame"—a teenage dame.

★ ★ ★

Television's "Bachelor Father"—handsome John Forsythe—made the discovery that the song lyrics of "South Pacific" didn't.

He discovered there's nothing like a teenage dame for adult TV comedy—and that there's nothing like a teenage dame for a TV fan.

When "Bachelor Father" started on CBS last fall, alternating every other Sunday with the Jack Benny Show, the plot emphasis was on John's romantic problems, as a sophisticated man-about-town, while playing father to Noreen Corcoran, his 14-year-old niece.

★ ★ ★

"But it didn't take us long to realize we were on the wrong track," he says today. "Adult problems are limited compared to the wild problems of a teenage girl.

"So we made a quick switch and now the plot accent is on Noreen's problems and my reaction to them. It's resulted in better comedy and bigger audiences."

FANS HOWLING

Today adult fans are howling over Noreen's chatter:

"I'd like to go out with Freddie but I don't know. He's an older man. He's 16," and: "I was watching an old movie on TV. Some actor named Clark Gable was in it. He looks a little like Tab Hunter."

And today teenage TV fans dig John Forsythe the most.

"It's amazing," the boyish-faced father of two daughters, Page, 7; Brooke, 4, and a son, 14-year-old Dall, told me. "In motion pictures (The Trouble With Harry, The Ambassador's Daughter) my teenage fan mail boiled down to words like, 'Gee, you're a nice looking man.'"

But now—WOW!

Says John: "It's heavily perfumed with things like, 'How about meeting me under the clock at the Biltmore Hotel Friday afternoon?' and 'Gee, I wish I had a father like you.' I guess they think I'm the wolf I'm playing. I'd like to be," he grinned, "but I'm not."

★ ★ ★

The "I wish I had a father like you" fan mail refrain to Forsythe is easy to understand. Father may know best in the Robert Young league, but as a "Bachelor Father" even Forsythe admits:

"I let Noreen get away with murder. I guess that's why the show is clicking. She's become a heroine to the teenage set because she has an over-indulgent father. But lucky for us, even parents are amused."

Ex-Husband Says He Warned Lana About Daughter

MILAN (INS) — Actor Lex Barker, former husband of Lana Turner, was quoted in the Milan magazine "Epoca" as saying he once warned Miss Turner her daughter Cheryl would get into "serious trouble."

"Time has proved me right all too soon," Barker was quoted in commenting upon the fatal stabbing of Johnny Stompanato by 14-year-old Cheryl on April 4.

★ ★ ★

The husky actor, known for his movie "Tarzan" roles, was quoted by "Epoca" as blaming his divorce from Lana on trouble caused by Cheryl whom he allegedly described as having always been "full of complexes."

Barker, according to the magazine, said the child "dominated" her mother. The actor, now reported vacationing in Switzerland, was further quoted as saying of Cheryl that "she was not a bad girl but very strange."

Of Miss Turner, Barker was quoted as saying she "was a good wife. When she loved a man she loved him seriously. She was neither loose nor fickle."

★ ★ ★

Barker was quoted as saying he first heard of Lana's "affair" with Stompanato a year ago but he had met the man as early as 1953.

Speaks When Spoken To

DENVER (AP)—A prosecution witness in a barroom murder case testified in District Court he recognized the accused killer despite the latter's disguise the night of the slaying Dec. 20. Asked why he did not volunteer the information to police at that time, Loyas H. Dean, 51, a bartender, replied: "They didn't ask me."

Strikers at CBS Go to Polls Today

WASHINGTON (AP) — Striking technicians of the Columbia Broadcasting System voted today on a proposed agreement to end their 10-day-old walkout against the big radio and TV network in eight cities.

★ ★ ★

Representatives of the network and the International Brotherhood of Electrical Workers reached an understanding late yesterday. Details of the agreement were withheld pending a referendum of the 1,300 strikers, expected to be completed sometime tomorrow.

The walkout, involving cameramen and other technicians, has affected CBS radio and television stations in New York, Hollywood, San Francisco, St. Louis, Chicago, Milwaukee, Boston and Hartford, Conn.

★ ★ ★

Chief issues in the dispute have been wage rates, job security and work jurisdiction. The workers now receive a weekly minimum of $175. CBS earlier offered a top rate of $185.

Rochester Man Injured as Car Strikes Tree

A Rochester man, Jack Britten, 28, was admitted to Pontiac General Hospital late last night after his car struck a tree on U.S. 10 just north of Andersonville Rd., in Waterford, according to State Police.

Britton, of 2024 Harned St., is reported in satisfactory condition today with a possible fractured skull. He told police he blacked out at the wheel while driving south.

AP Prepared for Space Age

Agency Leader Cites Need of Versatility in News Gathering

NEW YORK (AP)—The dawning of the space age found The Associated Press geared to cover in depth the resulting interest in science, education and defense, Frank J. Starzel, AP general manager, said today.

"The staff of writers covering science and other specialized fields has been reinforced, and the broad interest in this type of news is reflected generally through the organization," he said in his annual report.

★ ★ ★

He said, "Our planning assumes a broader perspective, and we must be ready to meet new challenges quickly and positively."

Starzel's report was sent to members of The AP, worldwide news-gathering cooperative, in advance of the annual meeting to be held Monday in the Waldorf-Astoria Hotel. The luncheon speaker will be Robert McLean, president of the Philadelphia Bulletin and former president of The Associated Press.

"It is no longer enough for the newsman to be just a competent reporter or editor," Starzel said. "Demands of the news are so multiple that staffers must background themselves educationally as never before in history. . . .

"At the same time, the boundaries of news have become unlimited. The subject matter is vastly more diversified and the areas where it breaks have spread enormously and shifted greatly in emphasis."

★ ★ ★

He said that, to meet these demands, The Associated Press in the coming year must keep versatile, mobile and knowledgeable staffers at home and abroad.

Flint Holdup Suspect Arrested in Oklahoma

OKLAHOMA CITY, (AP) — William John Wiseman, 23, wanted on an armed robbery charge in Michigan, was arrested by FBI agents here yesterday.

Carroll Doyle, FBI agent in charge, said Wiseman arrived in Oklahoma City only a few days ago and was hired as a dishwasher in a local hotel Tuesday.

He said Wiseman is accused of an armed robbery at Flint, Mich., on April 10, and was arrested under a federal warrant filed April 14 at Bay City, Mich., charging the man with unlawful flight to avoid prosecution.

Man Ordered by Court to Carry Less Money

KALAMAZOO (AP) — Lewis Mull, 73, of Paw Paw, pleaded guilty in Municipal Court to walking out of a supermarket without paying for 32 cents worth of cheese.

Police said he was carrying $3,760.65 in cash and savings bonds at the time of his arrest as a shoplifter. Mull was released on six months probation.

Judge Clark M. Olmsted instructed Mull to have a psychiatric examination, and ordered that in the future he never carry more than $25 on his person without permission of the probation officer.

Teachers 'Baby Sitters'

KALAMAZOO (AP) — American schools have gone downhill steadily over the past 50 years until they are "little more than glorified babysitting operations," Nobel Prize winner Dr. Harold Urey says. In an address to a Western Michigan University audience, the University of Chicago chemist said "you can't get first-class teachers at the low salaries being offered today."

Killed Near Imlay City

IMLAY CITY (AP) — Magnus Haaf, 81, of Detroit, was killed Thursday when the car in which he was riding missed a curve and overturned on M53 four miles south of Imlay City.

Reassess Uprising Failures

Castro Leaders Regroup

HAVANA, Cuba (AP)—Top lieutenants of rebel leader Fidel Castro were believed gathering in the Sierra Maestra today to reassess failures in their campaign to overthrow President Fulgencio Batista.

★ ★ ★

A rebel radio broadcast from Castro's mountain headquarters in eastern Cuba said leaders would be changed in areas where sabotage and armed uprisings failed last week.

Castro called the meeting to plan ways of avoiding future bungling. He angrily ordered the execution of any of his six provincial command leaders who armed uprising in Havana April 9, broadcast said.

★ ★ ★

It hinted that Castro has sided with 12 officers in his Havana command against Havana rebel boss Faustino Perez. The 12 accused Perez of fumbling which enabled Batista's troops to crush an attempted general strike and armed uprising in Havana April 9.

The broadcast repeated Castro's pledge to continue his rebellion until Batista is overthrown.

Selling 5c Beer to Aid Economy at Ike's Advice

NEW YORK (AP)—Tavern owner Lewis T. Gill has a head start on everybody in following President Eisenhower's advice to cut prices and encourage more people to buy.

★ ★ ★

Gill pulled out all stops earlier in the week at his bar and grill: he brought back the nickel beer, a 7-ounce glass of it too. In addition, he offered whisky for a quarter and a cheese and slami sandwich for a dime.

There's a sign in his place reading "The President says buy. Large beer, 5 cents, 1915 prices." And that goes for any brand.

Last night enthusiastic imbibers were lined up two deep along Gill's 50-foot bar. Two extra bartenders were on duty.

★ ★ ★

Gill, 50, commented: "Volume sales are up in the clouds, but of course profit is a lot less. But the profit is there, even at 5 cents per. A keg costs me $14 and pennies. I get $15 and pennies."

Plans Approved for New School

Waterford Township Board Announces Bids to Be Received May 15

At last night's regular Waterford Township board of education meeting members approved the plans for specifications for the new Thomas Cooley Elementary School to be built on the north side of Watkins Lake.

★ ★ ★

Bids for construction of the school on an eight-acre site will be received May 15 and work will begin immediately following the awarding of contracts.

The Laura Haviland Elementary School has also been scheduled for construction this year and will be located near Elizabeth Lake.

Superintendent William Shunck explained that all the new schools in the township are part of a three and one-half million dollar bond issue approved by voters in February, 1956.

This includes the Schoolcraft, Beaumont, Jayno, Adams, Cooley and Haviland Elementary Schools, the Pierce Junior High School and the purchase of several sites for future schools.

A host of tiny electric switches known as relays, functioning as transmitters, are the key to the modern telephone dial system in use today.

Mansfield Runs Again

HELENA, Mont. (AP)—Sen. Mike Mansfield, 55, will be a candidate for renomination as Democratic senator from Montana. The assistant majority leader ecame the third candidate to file for the party's nomination. Thomas G. Stimatz of Butte and J. M. Nickey of Bozeman filed earlier.

To Raze Old Buildings

FLINT (AP) — This city's old police station and adjacent city hall will be razed within a few days to provide space for a parking lot. The buildings were purchased by a private company for $700,000. Flint has a new $6,554,000 Municipal Center housing all phases of city government.

The American system of coins was devised by Thomas Jefferson.

5th Jurist County's Problem

Where'll We Put Judge?

Now that a fifth circuit judge has been approved for Oakland County, the question is where the county is going to put him?

It's pretty early to tell since the bill was just signed the other day," declared John C. Austin, vice chairman of the board of auditors, who will be responsible for finding the fifth jurist a place to hang his hat.

★ ★ ★

Austin said a meeting soon would be called between the auditors and the supervisor's Building and Grounds Committee to work out this problem.

And the problem of cramped quarters is not a new one to the county. To make room for Judge Clark J. Adams, the newest addition to the Oakland circuit, the juvenile department was forced out of the courthouse basement in 1956.

"To say we're pinched for room for the new judge is the understatement of the week," exclaimed Austin.

BUILDING DELAYED

Architects for the proposed new courthouse said today courtrooms for five judges and provisions for a sixth have been provided.

However, realization of the new building has been slowed for several years, as the county awaits a ruling from the Michigan Supreme Court.

Auditors have allocated $12,313 in the tentative 1959 budget for the fifth judgeship. Gov. Williams this week signed the bill to provide the additional judge.

Woman on Farm Cites Privilege to Have 'Militia'

HOUSTON, Tex. (AP)—Mrs. Irene Cliett, who says she seceded her 703-acre farm from the United States last month, quoted the U.S. Constitution in answer to a federal complaint.

Mrs. Cliett withdrew from the United States when an injunction suit was filed to keep her off 350 of the acres.

The government complained Mrs. Cliett had "taken up battle stations with firearms upon the aforesaid land," which she named Eneri, Irene spelled backwards.

Mrs. Cliett answered: "A well-regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed."

She also asked that the injunction be set aside because, she said, she did not get a fair trial in the suit over the land.

Heirs of the late George Scott sued for half the land after he died in 1935. Mrs. Cliett contended he was only a family friend who lived in her home. But the court held there was some indication of a partnership and said the heirs should get half the land.

About two of three adult Americans wear eyeglasses.

The Florida everglades with their millions of acres of rich land, now idle because of standing water, have been called America's last frontier, ripe for exploration and development.

Italy has more earthquakes than any other country in the world except Japan.
