HEARING NATIONAL ANTHEMS — President Eisenhower and the British royal family stand at attention today outside gates of Balmoral Castle in Scotland, during playing of the national anthems. The President flew up to Scotland from London this morning and drove the 50 miles from the airport with Prince Philip, who is standing between Eisenhower and Queen Elizabeth in this picture.

Heat's Here for Awhile, Despite Predicted Rains

Despite thundershowers, the mercury will be nudging 90 or above this weekend and early next week, the Weather Bureau said today.

Pontiac temperatures will average 8-10 degrees above the normal high of 79 for the next five days, it was predicted.

The mercury had reached 89 at 2 p.m.

Afternoon and evening thundershowers may dump up to one inch of rain on the area by the middle of next week, but they're not expected to bring much relief from the heat.

An early afternoon storm yesterday held the mercury at 87 degrees, snapping a seven - day streak of 90-degree heat.

Two inches of rain were dumped on Pontiac yesterday afternoon and last night.

More thunderstorms today may keep the temperature in the 80s again, the weatherman said.

The thunderstorm which lashed Pontiac for the third time in five days caused only minor damage. A tree was felled by strong winds on E. New York street and some big branches were downed in various parts of the city.

In Keego Harbor, two trees fell on a Willow Beach avenue home. Damage was slight. Another tree fell across telephone wires, but didn't break them.

Lightning bolts set afire three homes, in Berkley, Royal Oak and Harper Woods. Damage wasn't serious.

Strong winds knocked down trees and wires in Birmingham, Hazel Park, Royal Oak and several southern Macomb County communities.

The Lapeer County community of Columbiaville went without telephone service briefly and a barn there burned to the ground after it was struck by lightning.

High, whirling winds tore across the Upper Peninsula's Keweenaw County, bowling over heavy pipelines and hitting Torch Lake with a dust storm.

Business Tax Hike Approved

GOP State Senators OK Compromise for $7.5 Million Boost

LANSING (AP)—Senate tax strategists backed down from firm opposition to a business tax increase today and came up with a compromise offer designed to break up the seven and one-half month legislative tax battle.

A Republican Senate caucus agreed to go along with a 7½ million boost in the business tax tied with a one cent increase in the use (sales) tax.

★ ★ ★

GOP leaders figured the package would bring in nearly 128 million dollars in new revenues over a 12-month period.

The proposal was sent immediately to a House Republican caucus. If Republicans in the lower chamber back it, the stage would be set for a possible break in the tax war and an early end to the marathon 1959 session that opened last Jan. 14.

Under the new GOP business tax formula, as outlined by Sen. Carlton H. Morris (R-Kalamazoo), top Republican tax strategist:

The Business Activities Tax would go up from 6½ to 7½ mills for a gross increase of 10 million dollars. As a concession to low or no profit firms, taxpayers would get a 25 per cent credit against the tax, reducing the take to about 5½ millions.

★ ★ ★

A one-half mill boost in the 1½ mill tax on utilities would add another $500,000. Banks and other financial institutions would kick in another 1½ million dollars by paying 15 cents more per $1,000 of deposits.

"We offer this strictly as a compromise," said Morris, who indicated yesterday he would fight any new business tax increase.

"We do not believe business should be taxed," he said. "We believe this is going to hurt job opportunities in the state. However, in an effort to compromise, to get the state back on its feet, and to submit something we believe Gov. Williams cannot justifiably turn down, we offer this."

Go Soak Your Head

BACKYARD SHOWER — Janice See, 2½ years old, enjoys a refreshing shower from her sprinkling can in the back yard of her parents home, Mr. and Mrs. Russell See at 2897 Orangegrove St., Waterford Township. Like most children, the heat does not bother this youngster when there's plenty of water available for cooling off.

Offer Advice for Health During Heat

Health officials can prescribe no remedy for fallen spirits and stifled ambition during the current heat wave.

But, they do have sound advice to avoid the ill effects induced by soaring temperatures and soggy humidity.

Dr. Charles A. Neafie, Oakland County deputy health director, says it's okay to carry on as usual.

"But," he warns, "use moderation in everything.

"Don't over-exert yourself, don't over-eat and be careful of consuming an excessive amount of icy drinks. Some constitutions can't take it.

★ ★ ★

"The lighter the clothing you wear, the better off you are."

Dr. Everette Gustafson, public service officer for the Oakland County Medical Society, cited two basic rules to follow during unusually hot weather periods.

1. Don't remain in the direct sun for prolonged lengths of time.

2. Maintain fluids and salts to balance excessive perspiration.

"Remembering always to call a doctor, a layman can administer some emergency first aid to someone stricken by the heat," says Gustafson.

"In case of heat stroke, try to cool down the patient as quickly as possible. Loosen the person's clothing and apply cold packs.

★ ★ ★

"Abdominal cramps and exhaustion induced by loss of fluids and body salt can be relieved immediately with salt."

Dr. Gustafson was quick to point out that excessive dosages of salt can bring on nausea and vomiting. He recommends one half of a salt tablet with two glasses of water.

"A heat wave is bad weather for heart patients," he adds. "Adequate ventilation is the safeguard in this case."

★ ★ ★

Charles Cohen, sanitarian for the Pontiac Health Department, issued a warning, with a special eye to picnickers, to take precautions against food poisoning.

"We haven't had any epidemics

Nehru Discloses Captured Posts on North Border

Repeats His Warning Nation Can't Tolerate Peiping Aggression

NEW DELHI, India (UPI) — Prime Minister Jawaharlal Nehru told Parliament today that Chinese Communist forces had invaded Indian territory in the northeast and northwest and captured border posts in battles with Indian troops.

He said Indian troops had been captured both in the northeast Frontier Agency south of Tibet and the Ladakh district of Eastern Kashmir which New Delhi regards as Indian territory.

The Indians since have gained their freedom, he said.

Both sections are wild, almost inaccessible areas. They border on Communist - dominated Tibet along with the Indian protectorates of Sikkim and Bhutan.

Nehru solemnly repeated his warning to Peiping that aggression against Sikkim and Bhutan would be considered aggression against India.

★ ★ ★

Nehru told Parliament it was a "serious matter" and that the Indian ambassador in Peiping had lodged a strong protest with the Chinese government.

In the case of the NEFA, he said, the Chinese replied that the Indians attacked and the Chinese fired in self defense.

He said the Chinese Communists have not yet replied to the protest about the Laddakh engagement.

BUILD ROAD

Nehru said that between October 1957 and February 1958 the Communists built a road that crossed the northeast corner of Laddakh. They were asked to stop.

Last month, the Indian government finally sent a reconnaissance party to the area and on July 28 it was captured by a strong Chinese detachment inside Indian territory, he said.

He said the Indian patrol was released Aug. 18.

★ ★ ★

Nehru said it appeared the Chinese had established a camp at a place called Stangura, well within the Indian border, and claimed the territory as their own.

Nehru denied reports in the Indian press that as many as

Ike Pays Social Visit to British Royal Pair

BALMORAL, Scotland (AP) — President Eisenhower broke into his diplomatic mission to Western Europe today with a social visit to Britain's royal family at Balmoral Castle. Queen Elizabeth II made a completely unexpected appearance to the gates to welcome him.

"Well, well, I'm delighted to see you," said the Queen, slim and elegant though though she is expecting her third child early next year.

Eisenhower bowed and said: "Thank you, ma'am. It's grand to be here."

It was a friendly and informal beginning for Eisenhower's overnight visit.

Surprisingly, the Queen not only came out to see Eisenhower but did it on television — the first broadcast ever from Balmoral.

The President had driven 50 miles with Prince Philip in a car from the airport at Dyce to cheers of crowds along the way.

The Queen — who danced until the early hours this morning at a castle ball for her servants — presented the President to Princess Margaret.

The Queen wore a powder blue suit with short jacket. Her skirt snuggly hugged her hips.

She had on a white hat and

British Cheers at Ike's Arrival Unprecedented

LONDON (UPI) — Big crowds were old hat to President Eisenhower — but that was before London.

The reception he received here late yesterday was so large and enthusiastic that some of London's top police officials, with more than 20 years experience in dealing with crowds, said frankly they had never seen anything like it.

Eisenhower said he was overwhelmed after a quarter million Germans roared a welcome in Bonn Wednesday. That could leave him only overwhelmingly overwhelmed by the thunder rolling from a half million to a million Britons yesterday.

Members of the Eisenhower staff said the President had expected a warm reception but the actual dizzying spectacle was a pleasant shocker.

Eisenhower himself was deeply gratified. He regarded the tremendous turnout as much more than a salute to an old soldier of World War II. He felt it was a thrilling demonstration — as was the one in Bonn—of Western resolve to be firm and unafraid in a world of tension.

Demand Hoffa Tell Funds Use

Court-Appointed Group Asks Results of Order to Invest $525,000

WASHINGTON (AP) — Teamsters President James R. Hoffa has until Monday to report on the disposition of over half a million dollars in union funds.

The demand on Hoffa was made yesterday by court-appointed monitors.

The money, belonging to Hoffa's home Local No. 299 in Detroit, was on deposit for several years—on a non-interest-bearing basis — in Florida and Indiana banks.

About $400,000 was in the Florida National Bank, Orlando, Fla., and $125,000 in the Fidelity Bank and Trust Co., Indianapolis.

The court-appointed monitors announced Aug. 13 that Hoffa had agreed to have Local 299 withdraw the money and have it invested or redeposited at interest so the local's members "will have a proper return."

The monitors declined to com-

(Continued on Page 2, Col. 6)

Pelican Had Enough of Park in the Heat

Apparently fed up with the current heat wave, a pelican believed to be from the Detroit Zoological Park today migrated to the cooling waters of Pontiac Lake.

Fred Currier, of 8780 Arlington St., While Lake Township, spotted the large bird circling around near his dock. Two neighbor boys later trapped the pelican while he swam leisurely in search of fish.

Frank McGinnis, zoo director said the bird probably belongs to them, and had park attendants checking their stock of 15 pelicans for any escapees.

The boys and Currier held the bird prisoner at a lakeside business place, awaiting word either from McGinnis or conservation officers.

"I bet he wishes he went south instead of north now," said Mrs. Currier.

Nearly Done Anyway

KNOXVILLE, Tenn. (UPI)—John Chester Bowling, 42, told police they were a little late when they arrested him yesterday and found $750 worth of counterfeit $20 bills in his pocket. "I don't care about these bills," he said. "I've already passed $140,000 worth."

Guidance Clinic Won't Get Funds

Following a 1956 opinion of the county's coropration counsel, budget-studying Oakland supervisors yesterday voted 5 to 2 not to give the Child Guidance Clinic any county funds next year.

Seven members of the Board of Supervisors' Ways and Means Committee did, however, consent to giving the Clinic another chance to plead its case. This supposedly will come Monday if Noel A. Buckner, chairman of the group, accepts the committee's invitation.

★ ★ ★

The supervisors want a more detailed accounting of Clinic expenditures in the past, plus a promise that the county's Board of Auditors would have absolute control over what county funds might be granted.

Favorable acceptance of these terms might possibly change members' previous opposition to giving money to the organization which treats emotionally-disturbed children.

This was evident from yesterday's fourth budget hearing as several supervisors displayed sudden change of attitudes in this direction.

'POOR PSYCHOLOGY'

"I think it's poor psychology to cut them out entirely," said Hiland M. Thatcher, member of the W-M Committee and vice chairman of the Board of Supervisors.

"That's only going to start a cold war that is going to turn hot," he told fellow committee members.

At Tuesday's session members were sharply criticized for slicing the Clinic's $35,000 appropriation from the 1960 county budget. Officials say branches of it might have to be shut, and that matching state funds might be terminated.

Supervisors, in turn, replied that

Hydrogen Leak Delays Takeoff of X15 Plan

EDWARDS AIR FORCE BASE, Calif. (AP) — A fuel leak delayed takeoff today of an X15 rocket plane scheduled for its first power flight.

The Air Force said a hyodrogen leak in the fuel system made it necessary to set back the flight.

Takeoff originally was set for 7 a.m., but subsequent delays held the ship earthbound hours later.

Authorities hope the flight will be a major milestone in the X15's way to space. It is designed ultimately to rocket a man 100 miles or more above the earth at nearly 4,000 miles an hour.

2 Big Detours Ahead in City

Motorists Will Take Temporary Routes Off Joslyn, S. Saginaw

Pontiac traffic will face two big detours for a couple weeks, one detour beginning today and the other Monday.

Joslyn avenue between Walton boulevard and Collier road will be closed to through traffic for about three weeks, as Denton Construction Co. crews lay two-lane pavement along the mile stretch of gutted asphalt.

City Traffic Engineer Theodore M. Vanderstempel said detour signs would go up this afternoon at Collier and Walton.

Traffic will have to detour over Perry street and Baldwin avenue, he said.

STILL USABLE

It is expected that local traffic will still be able to use Joslyn, at a slow pace. The company said storm sewers would be installed first along the road side, with paving coming afterward.

Monday morning, the Grand Trunk Western Railroad will begin tearing up the crossing at S. Saginaw and Wilson streets, first step in a two-week remodeling job to smooth the road for automobiles.

There will be several detours and traffic changes during the two-week period, said Vanderstempel.

★ ★ ★

Northbound Saginaw traffic will be detoured around the crossing via Paddock and Wilson streets. East-

Communist Party Is Supreme Entity

Who Goes to Church in Russia?—Just 'Old Folks'

(Editor's note: This is the second article on Russia. The first appeared yesterday).

By HAROLD A. FITZGERALD
Publisher, Pontiac Press

The religious status of Russia is very depressing. I understood vaguely that they didn't believe in God but wasn't aware of the casual indifference with which they dismiss the whole subject. It leaves you aghast and with a feeling of frustration and dismay.

★ ★ ★

I discussed the subject with two boys at the big Moscow University and one of them said easily:

"Why believe in something that doesn't exist?"

"Do you have a supreme or everlasting Entity?" I asked.

"Sure," said the second. "It's the state — the Communist Party. Beyond that there's nothing."

"Do you go to church?"

"Of course not."

"Do your brothers and sisters go? Or your parents?" They shook their heads. "Then who does go? You have limited church services."

"Old folks go. That's all."

"What will happen when they die?"

"Churches will end in Russia."

★ ★ ★

They have about 50 churches in Moscow; we have more than a hundred in Pontiac. And Moscow's population is five and a half-million.

★ ★ ★

We told our interpreter we wanted her to go to church Sunday with us and she said: "I will send the car and driver. He will take you."

She would have taken us to a circus, a parade of beauty queens, the county fair or a Communist rally. But church was out.

★ ★ ★

As a matter of fact, last Sunday Don Maxwell and I went to two Russian churches. First, we attended the orthodox Russian church and spent 15 minutes listening to one of the best trained choirs I ever heard. The men were especially superb and the blended voices showed training—and hard practice. Six clerics in beautiful light blue, ministerial garb and striking turbans appeared solemnly at one point and an elderly man of fine presence and distinguished mien presided. As Don Maxwell said: "He looked like Moses."

★ ★ ★

The church was so packed we stood in a temporary entry never intended for communicants. There was a sprinkling of five-to-ten-year-old children and I suppose they were brought by their grandparents. Certainly the average age of the congregation aside from them was past sixty.

★ ★ ★

Then we attended a Baptist Church—Maxwell's father was a preacher—and arrived in the midst of a sermon which we couldn't understand. But we could comprehend the overflow crowd, the rapt attention of the congregation and the truly religious solemnity of the occasion. Here we stood on an iron platform high above the balcony. When we left, we gave beaucoup rubles to the kindly Russian who ushered us in and out and indicated they were for the church. He thanked us until we were out of sight.

★ ★ ★

I don't believe this nation can forsake God forever. When freedom allows the people the right of personal expression and the privilege of self-declaration, religion must inevitably return. But the attitude of these young folks leaves you with a "gone" feeling that is hard to describe.

★ ★ ★

A great experience was a trip to Pravda, the biggest Russian newspaper. It has the largest newspaper circulation in the world—6,000,000. We were very graciously entertained by Sergei Vishnevski, a courtly and friendly Russian, and we were taken through the plant. The mechanical superintendent and the foreman of the composing room joined us and the latter was a fine appearing, red-haired Russian woman. Their mechanical operations are very similar to ours.

★ ★ ★

Once the foreman asked me our circulation and when I told her, she bowed respectfully but obviously was unimpressed. (Remember, they have six million). Then she asked the number of pages and I told her in 1959 we were averaging just under forty a day. Immediately she asked back for a confirmation and when the interpreter repeated, the deep blue eyes under that gorgeous red hair widened perceptibly. Pravda runs four pages a day and occasionally six. Perhaps that's another spot in Russia where I stand condemned as a liar.

★ ★ ★

A foreign correspondent told us only two newspapermen had gone through Pravda before—Norman Chandler, Los Angeles, and Erwin Canham, Christian Science Monitor —who is also currently president of the U.S. Chamber of Commerce. He was in Moscow when we were. Both of these men are old friends of Maxwell's and mine.

Maxwell renewed an offer he made earlier in Chi-

(Continued on Page 2, Col. 2)

Sewage Dates for City OK'd

Lansing Says Facilities Must Be Operating by End of 1960

The Water Resources Commission in Lansing made it official yesterday.

The commission approved a time-table under which Pontiac is ordered to have sufficient new sewage treatment facilities in operation by the end of next year to curb Clinton River pollution to the satisfaction of the State Health Department.

The time-table is the same one the commission decided on a month ago. It says Pontiac must have plans for more facilities approved by the health department by July 1 next year.

A copy of the order was mailed today to City Manager Walter K. Willman.

★ ★ ★

Still undetermined is how much money will be involved. In May, the health department said the city's plan for $3,300,000 in improvements was satisfactory. Last month, health officials indicated the city would probably have to spend more than that.

"The pollution problem apparently is worse than we suspected in May," said Dr. Albert E. Heustis, state health commissioner.

City engineering consultants are to huddle soon with health department officials to decide on the scope of the expansion, said Willman.

So far, no financing plan is in sight. Voters three times turned down general obligation bonds for more facilities, the last time in May.

★ ★ ★

Willman has raised the possibility of general obligation bonds without voter approval. This would be legal, he said, if the commission obtains a circuit court writ ordering the city to meet its construction deadlines.

Health Officials Offer Advice for Hot Days

(Continued From Page One)

here, as has been reported in some parts of the country," says Cohen, "but 90 to 95 per cent of the cases go unreported."

★ ★ ★

Cohen explains that food poisoning is caused by bacteria-produced toxins.

"When they take effect, you know you've got it," he says. "It hits six to eight hours after the contaminated food is eaten.

"To avoid contamination, don't let food stand in the heat without refrigeration. If food is cooked, it should be rapidly cooled and refrigerated until it is time to serve. Never leave it standing to cool off.

"Secondly, foods that are handled a lot have a greater chance to become contaminated, such as minced foods and potato salad. Persons who have sores or cuts on their hands or who have colds should not prepare food."

★ ★ ★

The sanitarian says the symptoms of food poisoning are nausea, vomiting, headaches and diarrhea. It lasts usually within one day.

★ ★ ★

"Food poisoning doesn't kill too many people, but it can have serious effects. The best thing to do is to consult a physician."

'Yankee Flower' Wilts

MONTGOMERY, Ala. (UPI)—The camellia has officially ousted the golden rod as Alabama's state flower. Gov. John Patterson yesterday signed a bill making the switch. Camellia fanciers had demanded it on the grounds that the golden rod was brought in by the Yankees during the Civil War and in addition, caused hay fever.

Only 'Old Folks' in Russian Churches

(Continued From Page One)

cago to Menshikov, the Russian Ambassador to the U.S.

"You send Pravda's chief editorial writer to The Chicago Tribune for a month," he said, "and we will print anything he writes providing we send our man to Pravda with the same privilege."

The terse but evasive answer was:

"Life isn't that simple."

★ ★ ★

Well, it isn't in Russia.

But it is here.

We have nothing to fear. We aren't afraid to hear other ideas. We aren't afraid to study and evaluate different opinions. When Maxwell renewed his offer in the home office of Pravda, the answer was substantially the same.

★ ★ ★

Pravda only prints an occasional murder. It isn't uplifting and contributes nothing to the general advancement of the people. From what they say, party exhortations and loyalties are continually preached and advocated.

★ ★ ★

They told us that a few years ago they had three problems: drinking water, transportation and housing. The first two have been solved by the canal and by Metro. The achievement of the third is still years away—ten to twelve in the estimate of loyal party members. But they certainly are giving an all out effort to solve it.

And they should.

★ ★ ★

An eight room house will contain six husbands and wives — a room apiece—with a common kitchen and bathroom. As I understand it, two children entitle you to an additional room. Rents are very low but living quarters are a serious national problem.

But they're certainly going about the solution. I never saw so many apartment houses under construction anywhere in my life. Many of them are two blocks long and they are attractive in appearance. In some areas in Moscow you can see block after block of these gigantic edifices in various stages of construction.

★ ★ ★

You will be interested in the questions that we were asked about the United States. At one time at the University after we had plied a small Russian group with a flood of questions, we asked whether they might like to ask some in return. Now remember, this nation is suffering from a woeful lack of many, many things. Here's the very first question:

"Do you like Paul Robeson?"

We winced. "He's a tramp," said Maxwell, remembering Robeson's record of turning on America after it brought him fame and fortune.

★ ★ ★

"What do you thing of the —— case?"

As nearly as we could make out, this referred to a black-white rape trial of several years back. We answered honestly, and our opinions coincided with theirs.

★ ★ ★

Then came:

"Do you know Cyrus Eaton?"

"Fortunately," we replied, "we don't know him personally."

★ ★ ★

"Do you know any Negroes?"

"There are 25 or 30 working at The Chicago Tribune," said Maxwell, "and two more work for me in my home and they get twice as many rubles a month as your workers plus room and board."

I told them we had two at The Press and Negroes have worked in our home forever.

★ ★ ★

You see, these people only know what they read and are told in Russia. Apparently Russian papers play up the unimportant happenings that reflect on us as a nation and as individuals. They ignore our triumphs and virtues. Why don't they ask how we elect a President? Why don't they ask how many vote? Why don't they ask about our great colleges, our manufacturing, our transportation and our great personal freedom?

Why?

★ ★ ★

Personally, I think it's because they don't know about these things, whereas the trivial negative features have been accented.

In Russia, only members of the Communist Party can vote and there are eight million. That means 192,000,000 ***can't vote.*** **How would you like that here? Less than two thousand would be allowed to vote in all Pontiac.** ***And the rest would stay home.***

★ ★ ★

A young Russian construction worker asked me whether I had an automobile. I told him there were three in my family and each of us owned one—different ones, too. He was respectfully silent—too respectfully, if you know what I mean.

He asked if I had a television. Well, right or wrong, we have four and while they stand silent hour after hour, at least they're available. Again, I was written off as one of those capitalistic liars. They classify everyone from here as a capitalist and judging from their own standards, ***they're absolutely right.***

★ ★ ★

The main roads leading to Moscow are excellent. All are hard surfaced, broad and in a state of perfect repair. I wish I could ascribe this as a desire to serve the motorist. But there are too few of him. Mr. Average Citizen only rides when he's in a taxi or taken by truck from one point to another. When we stopped in Smolensk (130,000) overnight, a crowd surrounded our faithful equipage and in the morning a hundred curious citizens gathered to watch us start. Cars and "foreigners" were that much a curiosity. If three Russians left the Waldron Hotel today and packed in front of the building, not a single pedestrian would pause to watch.

★ ★ ★

No one told me but my own unhappy guess on the splendid roads suggests they're mainly military necessities and precautions. Russia has scads of trucks. Much of their basic transportation and hauling must lie here, but they also make a jim-dandy transport to handle troops by the hundreds of thousands and also munitions and guns. This is a sobering and is an unspoken obeisance to Mars—the god of war—the only god the Russians know. Those roads are a grim recognition of the possibilities of mass murder all over again. Can there be a greater travesty on decency and Christianity all over the world than this mad armament and military race? Can there be a more shameful indictment of nations or a more wanton prostitution of mankind's efforts? And remember, the U.S. is in it.

★ ★ ★

Well, at the end of this somber note let me toss in a light one. Here's the latest story from Moscow:

"Roosevelt, Truman and Eisenhower have proved three things. Roosevelt proved you could be President forever. Truman proved anyone can be President. And Eisenhower proved we don't need one."

★ ★ ★

We flew up to Leningrad and came back on the Red Arrow—Russians' greatest overnight train. They claim the track is the longest straight stretch in the world, as a former Czar ordered the two cities connected by a railroad with a straight track the entire distance.

Well, he got it.

The pullmans are very good and the service excellent—including caviar for breakfast.

★ ★ ★

Leningrad is the one time "winter capitol" of the Czars —the tyrants who held Russia in subjugation for centuries. It has a great palace and all the incidental perquisites with which these historical overlords surrounded themselves. The squalor of the millions made the pomp and ceremony of the Czars a possibility and the Russians will never forget it.

★ ★ ★

Moscow's main streets are traffic delights. They are the broadest I ever saw. And you never hear an automobile horn. The cars — especially trucks—are there in profusion but it's against the law to sound a horn. ***And that means just what it says.*** In the U.S. it would be accepted as: "Aw, Holman, don't blow it very hard—or very often"; or, "don't blow it over eight or ten times a trip"; or, "go easy on the horn, Mac, see. They's a law."

In Russia it means *Don't Blow the Horn—Ever.* And they don't blow the horn—*Ever.*

★ ★ ★

I watched a woman collecting the mail. She emptied the box and then went back to her truck and got a cloth and rubbed the whole thing down until it shone. Their streets are scrupulously clean as compared to our highways of trash, discarded wrappers, empty bags, newspapers and what have you.

★ ★ ★

Twice Maxwell tried to phone Chicago and once I tried to phone my son, Howard. Not one of the three calls went through. We placed them around six at night which was ten in the morning here and waited each time until eleven o'clock.

★ ★ ★

In Copenhagen, we called London three times, Chicago once and Pontiac once. All five calls were completed in 45 minutes. I could hear Howard as plainly in Pontiac as though I phoned Bill Marbach next door at the Presbyterian Church, from this office.

★ ★ ★

The food is plain but substantial—save for caviar—and we had this great delicacy twice a day as "standard equipment." It was wonderful.

(Editor's Note: Tomorrow is a summary of Russia today and a guess on Russia tomorrow.)

Supervisors Refuse Money for Clinic

(Continued From Page One)

no money was available as the Tax Allocation Board did not give the county the $6.47 of the 15-mill taxing limitation on which the Board of Auditors had based its $13,977,018 budget.

As it stands now, after the committee has made increases and decreases in many sections, the 1960 budget shapes up this way:

It totals $12,775,429.48 — from $7,342,678.48 it will take the different departments to operate plus $5,432,751.00 for salaries. Based on the $5.62 tax allocation it received, the county expects to collect $10,244,784.14 in taxes. Receipts from 17 departments is expected to bring in $2,382,000.

This leaves the budget out of balance — on paper only — by $148,645.34.

The committee Monday will also consider making this amount up by taking another $100,000 from the Social Welfare Department's appropriation and $48,000 from the contingent fund.

After much wrangling, Supervisor John L. Carey (Springfield Township) moved that the Clinic's appropriation be kept out the budget, based on the opinion of Charles A. Davis, corporation counsel.

MUST KEEP CONTROL

Davis wrote three years ago, and he says he supports it now, that the law authorizing counties to give money to such clinics was unconstitutional. He added that "there is sufficient authority," however, to justify the appropriation but only if control of the funds be retained by the Board of Auditors.

Carey said any citizen could take the county to court for appropriating public money to a private corporation, such as the Oakland Clinic, over which the county had no say how the money was spent.

Voting against Carey's motion were Fred W. Smith, W-M Committee chairman, and R. Clare Cummings, both former board members of the Clinic.

"We've had this opinion for several years now but have still given them their money," said Smith.

Siding with Carey were David Levinson (Birmingham), Orph C. Holmes (Ferndale), Frank J. Voll Sr. (Oakland Township), and Thatcher.

Although no vote was taken yesterday on recommended pay raises for 1,198 county employes next year, W-M supervisors Monday are most likely to approve them routinely as they include a total salaries budget of $5,432,751 in the revised budget.

Queen, Ike Exchange Pleasant Greetings

(Continued From Page One)

wore black gloves and black shoes. On her right arm she carried a large black pocketbook.

Both she and Princess Margaret, dressed in a mauve-colored suit, wore a string of pearls.

With Eisenhower, the queen inspected the royal bodyguard, Royal Highland Fusiliers. "I think they're absolutely wonderful," Eisenhower said.

"That's very nice of you and I'm sure they will like hearing it," the Queen replied.

With TV cameras focused on them, there was a lull then.

It appeared to be some sort of signal, for Elizabeth smiled and asked "Would you like to go?" nodding toward the palace car at the gateway.

They took the car for the half-mile drive to the gloomy old castle built amid these melancholy moors by Queen Victoria.

Eisenhower flies back to London Saturday, then drives to Chequers, the country home of Prime Minister Harold Macmillan, for a weekend of talks about the President's approaching exchange of visits with Soviet Premier Nikita Khrushchev.

★ ★ ★

Eisenhower got an early start today, leaving U.S. Ambassador John Hay Whitney's Regents Park residence at 7:50 a.m.

Demand Hoffa Tell Disposition of Funds

(Continued From Page One)

ment when asked whether Hoffa has failed to do this. However, they issued a formal order yesterday directing that Hoffa reply by Monday morning

In August 1958, Senate committee investigators testified that Indianapolis Local 135 listed the $125,000 on deposit in the Fidelity Bank as a loan received from the Michigan Conference of Teamsters, which Hoffa also heads as well as Local 299. They said the money actually belonged to Local 299.

Gene San Souci, Indianapolis Teamsters boss, testified he got Hoffa to make the deposit to give the impression around Indianapolis that the local Teamsters organization there was wealthy.

The Rackets Committee made public in November 1957 a sworn statement from Omar P. Hewitt Jr., vice president of the Florida National Bank, saying that the Teamsters Union agreed to deposit $500,000 in his bank in connection with loans of a similar amount granted by the bank to Henry Lower.

The Day in Birmingham

Classes Are Scheduled for School Bus Drivers

BIRMINGHAM — A four-day school bus driver education program will be held in Birmingham Monday through Thursday, it was announced today by David H. Soule, coordinator of the state program.

★ ★ ★

To be given for new bus drivers or drivers who have not previously attended the full 12 hours of instruction, the program will be presented in the Torry School located on Lincoln street, east of Woodward avenue.

The program, sponsored by Eastern Michigan University, will be attended by bus drivers from Birmingham and the surrounding area.

Four sessions are scheduled to be held from 9 a.m. until 12 noon each day. The program will cover eight areas for discussion, namely: highway safety, accident causes and reporting, Michigan Vehicle Code, Department of Public Instruction policies, understanding children's behavior, responsibilities of a bus driver, first aid, and care and use of emergency equipment.

The program, to be conducted by Maynard Day, consultant of the Bus Driver Education Program, is open to both public and private school drivers.

Francis M. Fisher has been appointed officer in charge of the new North Woodward office of the Manufacturers National Bank of Detroit at 1012-16 North Hunter Blvd. in Bloomfield Township, Arthur J. Fushman, bank president, announced today.

Fisher, 47, is an assistant cashier. Prior to his new appointment, he had served at the bank's main office and at the Fenkell-Lesure and other offices of the bank.

He began his banking career Oct. 1, 1936 with the Industrial National Bank and came to Manufacturers when the two banks merged in November 1955.

Fisher, who lives at 2122 E. Derby Rd., is married and has one daughter. He is a member of the Birmingham Citizens Committee on Education and is a graduate of the Central States School of Banking, Madison, Wis.

Mrs. Mel D. Wilson

Requiem Mass for Mrs. Mel D. (Florence A.) Wilson, 73, of 1063 Stratford Lane, Bloomfield Hills, will be at 10 a.m. tomorrow at Holy Name Catholic Church, Birmingham. Burial will follow in Roseland Park Cemetery.

★ ★ ★

Mrs. Wilson died yesterday at her home after a brief illness.

The Rosary will be recited at 8 p.m. today at Bell Chapel of the William R. Hamilton Co., Birmingham.

Mrs. Wilson was a member of the Detroit Athletic Club and the Detroit Golf Club. She also was a charter member of the Detroit Women's District Golf Assn.

★ ★ ★

She is survived by her son-in-law, Robert S. Haines of Bloomfield Hills, a grandson and three great-grandchildren.

2 Big Detours Ahead for Pontiac Traffic

(Continued From Page One)

bound Wilson traffic at Saginaw will be forced to make right turns.

Southbound Saginaw will be normal the first week, then will be detoured over to the northbound lane the second week.

★ ★ ★

Franklin road buses, which normally head downtown over W. Wilson and Saginaw, will use Rapid street to reach Saginaw.

PADDOCK ONE-WAY

Paddock street will be temporarily one-way northbound from Saginaw to Prospect and there will be no parking allowed on these four blocks nor on Wilson between Paddock and Saginaw.

More detours will occur early this fall, Vanderstempel said, when the Denton Co. widens Cass avenue between Oakland avenue and Wisner Stadium.

The Joslyn and Cass projects comprise the city's paving program this year.

Pontiac's '58 Record Far Above Average

City's Traffic Death Toll Grim

Along with two traffic safety awards, the National Safety Council this week handed Pontiac some grim facts about the city's 1958 traffic death toll.

The Council, in its analysis of traffic safety activities here last year, noted that Pontiac's fatal accident rates were far above the national average for cities of comparable size.

Pontiac showed 16.7 fatal accidents per 100,000 population and 2.8 per 10,000 registered vehicles, the report said.

The National averages for cities of comparable size, the report said, were 7.4 accidents per 100,000 population and 1.6 per 10,000 registered vehicles.

COUNT JUMPS

Fifteen persons died in 14 accidents within the city limits in 1958.

In the preceding three years, the city averaged eight fatal accidents yearly.

The 1958 figures represented a 72.7 per cent increase in the fatal accident population rate and a 64.7 increase in the fatal accident registration rate.

"Traffic accidents within a city do not give a complete picture of the traffic accident problem of the community," the Council said.

"In 1958 there were 15 deaths from traffic accidents occuring in Pontiac. But deaths of Pontiac residents in and out of the city substantially exceed this number.

During the three years of 1955-57, an average of 21 Pontiac residents lost their lives in accidents, the council noted.

The report said the number of residents killed elsewhere as well as inside the city is an important indication of the adequacy and effectiveness of the community's traffic safety program.

The Council awarded certificates of achievement to the city for its maintenance of accident records and school traffic safety education program.

Commenting on the statistics, Public Safety Director George D. Eastman said the higher number of fatal accidents in Pontiac last year presented no substantial change in the city's traffic problem.

LUCK ENTERS IN

He noted that the city registered 408 non-injury accidents in 1958—26 below the average for the preceding three years.

"The margin between a serious injury and a fatal accident is slim," he said. "There is a substantial element of luck involved."

More emphasis, however, must be placed on "the three E's of traffic safety," Eastman said, "traffic engineering, education, and enforcement."

The police department offical said that police traffic supervision was ineffective last year.

The Council rated Pontiac's traffic supervision on a percentage basis as only 27 per cent effective. A rating of 70 per cent was given the city the previous year.

The large difference in scores, Eastman claimed, was the result of the city's reporting traffic supervision activities in 1957 that never existed.

The reports which the city annually sends to the National Safety Council were a controversial issue in the Civil Service Commission hearing of former police chief Herbert W. Straley.

Starting next month, Eastman said, police officers would begin reporting the most minor traffic accidents to get a clearer picture of the city's need in traffic engineering and enforcement areas.

He said reports of very small accidents have not been prepared previously because of a police shortage.

Recovers Valuable Trash

NEW YORK (UPI)—A 67-year-old woman who "threw away" $65,300 by mistake last year got most of it back in court yesterday. An 80-year-old janitor found the money in a garbage can last November.

Red China Invades India Border Regions

(Continued From Page One)

1,000 Chinese troops had crossed the Nathula Pass and entered NEFA. Other reports put the number at 200.

Asked if the Communists planned to incorporate Sikkim and Bhutan into Chinese territory Nehru said "we have seen occasional reports to this effect" but that it was not possible to check the authenticity of these reports.

REPEATS WARNING

Nehru reported his warning that India was responsible for protection of the Sikkim and Bhutan borders and that any aggression there will be considered aggression against India.

Nehru said the NEFA incident came Aug. 7 when 200 Chinese armed troops violated the Indian border at Kameng in the vast wilderness lying north of Assam through which Tibet's Dalai Lama made his escape.

The NEFA is closed to most outsiders and heavily patrolled by Indian troops.

★ ★ ★

Nehru said the Chinese were ordered to withdraw but first pushed back an Indian patrol. The Chinese withdrew but arrived again at the checkpoints.

On Aug. 26 Chinese troops crossed over into the Indian territory of Subarasari, a division of the NEFA, and opened fire on the Indians. They surrounded the Indians and captured 11 who later escaped.

Will Conceal Playground

LOUISVILLE, Ky. (AP) — The new Davison Memorial Methodist Church here will build a playground where basketball boards, swings and slides will rise hydraulically from below the surface of a parking lot.

Guide Rough With Cardinal Climbs High Mountain

COURMAYEUR, Italy (AP) — The youngest cardinal of the Roman Catholic Church has climbed Europe's highest mountain.

Julius Cardinal Doepfner, 46-year-old bishop of Berlin, climbed 15,781-foot Mont Blanc 11 days ago incognito with three other priests.

The four priests wore rough mountain clothing and identified themselves only to the parish priest at Courmayeur, whom the cardinal asked for permission to celebrate Mass in his church.

★ ★ ★

The cardinal and his companions set out Aug. 16 with Alpine guide Aldo Ollier and his son, spent the night on straw in a hut with a group of Alpine soldiers, and began the ascent at 1:30 a.m. They reached the top at 8 a.m.

Later the parish priest told Ollier one of his customers had been a cardinal.

★ ★ ★

"If I'd known it, I wouldn't have used such a rough tone giving him orders during the climb," the guide said.

Invents Sun Compass

Albert H. Bumstead of the National Geographic Society invented the sun compass for use in the Arctic and Antarctic, where neither the magnetic nor the gyroscopic compass works properly. Explorer Richard E. Byrd said the sun compass made it possible to fly with confidence to the North and South Poles.

Monument Honors Airlift

A soaring Air Bridge Monument in West Berlin honors the men who flew the Berlin Airlift in 1948-49, says the National Geographical Magazine. To supply two million people cut off by Soviet blocade, a round - the - clock aerial convoy delivered 2,325,000 tons of supplies. The big planes descended at three-minute intervals. Some crewmen dropped candy to children as them came in.

TRAIN FOR 'REAL THING' — Four recruits of the Pontiac Police Dept. undergo field exercises in the first city-run police recruit training program. Seventeen recruits will complete an intensive four-week training course and be sworn in as patrolmen Friday. Searching the two men against the car is David L. Schroeder, of 81 N. Johnson Ave., son of retired Fire Chief John Schroeder. He is taking a revolver from Freeman L. Stalions of 1461 Stirling Ave. The other recruit against the car is Robert K. Mitchell of 3631 Dorothy Lane, Waterford Township. Training a revolver on the two "suspects" is Jack G. Beach, 62 Madison Court, Clarkston.

Real Estate Appraisers Ruled Not Brokers

LANSING (UPI)—Attorney General Paul Adams ruled today that appraisers of real estate for insurance purposes only are not real estate brokers under Michigan law.

The ruling came at the request of Corporations and Securities Commissioner Lawrence Gubow.

Change Peak's Name

The United States Board of Geographic Names is changing the name of 7,600-foot Knife Peak in Alaska to Mt. Griggs, in honor of Dr. Robert F. Griggs, who led six National Geographic Society expeditions to Alaska four decades ago.

New U.S. Stamp Honors Pan-American Games

CHICAGO (UPI) — The Post Office Department Thursday dedicated a new 10-cent stamp honoring the Pan-American Games.

L. Rohe Walter, special assistant to the postmaster general dedicated the stamp at special ceremonies before the opening of the games here.

Walter predicted use of the red, white and blue stamps "will serve as reminders of the friendship and good will which characterizes relations of the Pan-American nations."

Beneaths the earth's thin, fruitful crust there are temperatures hot enough to vaporize iron. Pressures are so great that rock, heated far beyond its melting point, remains in a state of glassy solidity. Occasionally these elemental forces breach a fracture in the planet's shell, causing what is known as a volcano.

Fight Court Use of Chemical Test for Alcohol

LANSING (UPI)—Use of chemical tests for alcohol as evidence in Michigan courts is opposed by a medico-legal problems committee of the State Bar Assn.

★ ★ ★

A recommendation will be presented to the MBA's annual meeting Sept. 24 that the Association oppose a current legislative proposal to admit such tests as evidence.

"There is no general scientific acceptance of the standards set forth in the bill that .15 concentration of alcohol in the blood is a reliable measure of intoxication," the committee's report said.

★ ★ ★

The report also said the drawing of conclusions from scientific data "is not proper subject for legislation."

Which Church? Is Big Puzzle

Unit Started 150 Years Ago Finds It Has Own Denomination

DENVER, Colo. (AP) — Once a man decides to enlist in Christianity, he faces a puzzler: Out of the maze of denominations, "Which one?"

The situation, to Thomas Campbell, didn't make sense.

★ ★ ★

A man should be able to be just a Christian, he maintained, without having to align himself with any particular faction.

This is the 150th anniversary of his declaration of the concept.

More than 8,000 of its present-day advocates gathered here today.

They represent the International Convention of Christian Churches (Disciples of Christ).

Although their founding effort was to erase denominational distinctions, they became, instead, a new branch of the faith.

★ ★ ★

Says the Rev. Dr. Gaines M. Cook of Indianapolis, the convention's executive secretary: "It is ironical that this movement which had no intention of becoming a separate denomination now has nearly two million communicants."

★ ★ ★

However, they still cling to the original ideal.

One of their familiar slogans: "In essentials, unity; in opinions, liberty; in all things, charity."

Belief in Christ as the son of God, and baptism are the only requirements.

Official State Mottos Vary in Language

CHICAGO (AP) — Hawaii's statehood brings a new language to the list of those used for official state mottos.

★ ★ ★

The island state's motto in Hawaiian is "Ua Mau Ke Ea O Ka Aina I Ka Pono." It means, "The life of the land is perpetuated in righteousness."

English and Latin are the languages most used for state mottos, but a few states have chosen other tongues to say what they mean, according to the Book of the States.

California, famed for its 1849 Gold Rush, has a one-word motto, the appropriate Greek word Eureka" (I have found it).

★ ★ ★

Minnesota's French motto is "L'Etoile du Nord" (The Star of the North).

Montana, using Spanish, says "Oro y Plata" (Gold and Silver).

The only American Indian motto is Washington's "Al-ki," which means "Bye and Bye."

Headaches Common for Men in Antarctic

NEW YORK (UPI)—Many American men stationed for months in the Antarctic during the recent International Geophysical Year suffered from constant headaches, according to Capt. Charles S. Mullin Jr.

★ ★ ★

Medical officers believe the headaches were an emotional reaction to the realization that feelings of aggression and hostility had to be controlled because of the close quarters.

During World War I, according to a report by the Twentieth Century Fund, only 4.1 per cent of all enlisted men in the U.S. armed forces had finished high school. In World War II, the figure was more than 23 per cent.

MOUTH-TO-MASK — Two men demonstrate a new artificial respiration device called the mouth-to-mask resuscitator in Dayton, Ohio. An extension of the medically approved mouth-to-mouth method, the two-foot breathing tube is used to force oxygen-rich breath into the victim's lungs without objectionable contact. The two-pound device protects the victim's lungs from overinflation, also allows rescuer to breathe normally.

The Washington Monument, 555-feet high, has a capstone made of 100 ounces of aluminum.

All minnows are not small fish. The white salmon, a minnow, weighs up to 80 pounds.

Young Men Not Always So 'Promising'

MINNEAPOLIS (UPI) — The "promising young man" singled out for special training by his boss doesn't always line up to the promise, according to Moorhead Wright, operating manager of the General Electric Management Institute.

★ ★ ★

Wright said "experience shows how wrong these arbitrary 'crown prince' theories can be. You just can't pick a few bright young men and ignore the rest."

★ ★ ★

He cited the experience of one company which dug up its "promising young men" list of 10 years ago. There were 143 names on it but only 37 per cent of them had obtained the success predicted for them.

★ ★ ★

"There can be no dividing lines between 'promising young men' who will be developed and 'unpromising young men' who should be ignored," Wright said.

Takes a Lot of Water

EAST LANSING (UPI) —A total of 1,200,000 gallons of water is needed to fill Michigan State University's new outdoor pool and the indoor men's intramural swimming pools.

Three modern Egyptian towns, Luxor and El Karnak on the east side of the Nile, and Qurna on the west bank, share the site of what was once the world's greatest city, Thebes. The ruined temples and dusty avenues of tombs make up the world's greatest single collection of the remains of an ancient civilization.

Batista's Wife, Sons Join Him in Exile

LISBON, Portugal (AP) — Fulgencio Batista's wife and three of their sons arrived by plane from the United States today to join the former Cuban president in exile.

Marta Batista was accompanied by sons George, Carlos and Roberto. Another son, Fulgencio Jr., greeted the family at the airport and drove them to the hotel where Batista has been staying since he arrived from the Dominican Republic last week.

★ ★ ★

The family is expected to go on soon to live in Portugal's Madeira Islands, in the Atlantic off northwest Africa.

★ ★ ★

Mrs. Batista and her sons have been living in a home the family has in Daytona Beach, Fla., since Batista fled Cuba to escape Fidel Castro's advancing revolutionary forces.

Laos Kingdom Needs Our Continued Help

American aid in increased amounts is on its way to the tiny kingdom of Laos. This southeastern Asian country needs and deserves our continued support.

★ ★ ★

The fighting in Laos is no new thing for that area. The Communists' reversion to fighting is simply a reminder that all small, non-Communist neighbors of China must learn to live in tension.

Laos has the natural misfortune to be the cockpit of Southeast Asia. It has interlocked frontiers with North and South Viet Nam, Burma, China, Cambodia and Siam.

★ ★ ★

If this little state were to fall, the whole of Southeast Asia would be threatened.

Of all Asia, North Korea and Outer Mongolia alone remain inside the Russian sphere of influence. Peking controls Communist policy everywhere throughout the Far East. Laos is now—and must remain indefinitely—in the front line of resistance to this policy of coercion and bluff, civil war and infiltration.

★ ★ ★

The encouraging aspect in the latest shifts of the Chinese Communist tactics is that this little state has not been overawed by that responsibility.

Everyone Is Taxed for Chicago's Water Grab

The Senate Public Works Committee has approved a bill to authorize a one year extension of an additional 1,000 cubic feet of water a second from Lake Michigan to the Illinois Waterway. The House already had passed its own version.

★ ★ ★

Until 1900 the Chicago River flowed eastward into the lake, Then engineers reversed the flow and lake water was brought in. Missouri sought an injunction fearing that Chicago wastes would imperil the St. Louis water supply. But before the hearing, Chicago went ahead and knocked out a dam turning the water westward and eventually into the Mississippi.

★ ★ ★

In 1930 the Supreme Court ordered diversion held to 1,500 cubic feet a second to maintain navigation in addition to domestic pumpage. By then Chicago had worked this rate up to 8,500 cubic feet per second. The court never did approve the diversion but the flow being by then firmly established, as Chicago had foreseen, it had to leave the present 1,500 foot diversion for navigation purposes but not to flush sewage.

★ ★ ★

Diverting of lake water already has damaged hundreds of miles of shoreline, fishing and hunting grounds in six states and Ontario. Further diversion would cause an annual power loss to New York State and Canada of over a million dollars each. Harbors and channels would have to be dredged deeper at a cost of many millions in Federal and local money. A one inch loss in water levels costs the Lake Fleet $4 million annually in ship carrying capacity.

★ ★ ★

Canada has protested again to the State Department that if the U.S. takes unilateral action to divert additional Great Lakes water at Chicago, many U.S.-Canadian agreements and understandings would be broken. The fact is that any diversion would violate treaties with Canada that recognize the common interest in water of the Great Lakes Basin. The present diversion is not by act of Congress.

It seems illogical to spend money on one hand to maintain proper depths and then allow a diversion which lowers the water when that diversion can be stopped by requiring Illinois to return its treated sewage to the lake.

Mosquito Bite Bump Is Laid to Allergy

The "bump" that results when a mosquito bites you is an allergic reaction.

★ ★ ★

It is not, as many persons—including scientists—had believed, the result of the insect's injecting a poisonous substance that irritates the skin.

★ ★ ★

Tests with laboratory animals and some humans show they can be sensitized to mosquito bites. The immediate reaction, described as the appearance of a soft, "whitish wheal," surounded by a red area, occurs only in sensitized animals, according to Dr. J. A. McKiel of the Department of National Health and Welfare of Ottawa, Canada.

★ ★ ★

Just what the above means, other than the fact that most of us are sensitive to mosquitoes and the allergic reaction does itch, we don't know.

The Man About Town

Illuminated Root

A Queer Quirk of Nature Found Digging Near Tree

Vacation: A period away from home, the most enjoyable feature of which often is getting back home.

When digging in the yard near his cottage at Walters Lake the other evening,

Melville King

of 3231 Avalon Drive, found a root that gave off an illumination like a whole battery of lightning bugs. Pieces of it retain this activity for several hours. Can some of my readers explain this phenomenon? One already has asserted it is a root of a dogwood tree.

Regarding the Merriman pet crow, that never patronized the bird bath until this hot spell,

Paul Frostman,

(that's a cool name), of Keego Harbor, says he has a pet crow that was just as allergic to water until they put ice cubes in the bird bath, and he now refuses to get out.

After waiting for 15 years, the night blooming cereus plant of

Mrs. Cecil Hanes

of Orchard Lake, suddenly sprung into glory this week, with two blossoms.

Regarding the alleged scarcity of bats, those winged mammals, in the Pontiac area,

Mrs. Paul Ogiesby

of Clarkston, says that a colony of them inhabit a hollow tree near her home, and never come out until after dark. Her son plugged up the entrance to their home one night, and the following morning counted 18 bats clinging to the bark nearby, and so sleepy they didn't move until it got dark again, although he removed the plug early in the day. They diet on mosquitoes.

"Never saw so many streaked rains," phones

Ambrose Netchler

of Rochester, who says that when a thunderstorm passed over that village the other day there was a hard downpour for several minutes—but its path was less than two blocks wide.

A dead bass found floating in Pontiac Lake by

Oscar Putnam

had tried to swallow a bluegill about half its size.

Verbal Orchids to—

Mr. and Mrs. Frank Christiansen of 302 South East Boulevard; 52nd wedding anniversary.

Mrs. Jennie Caillouette of Williams Lake; 81st birthday.

George H. Look of Middle Straits Lake; 85th birthday.

Mrs. Orpie Butler of Drayton Plains; 82nd birthday.

Mr. and Mrs. Anthony Seeburger of Durand; 60th wedding anniversary.

Excalibur!

David Lawrence Suggests:

Nikita May Well Be Envious of Ike

WASHINGTON — The cheers of the people of Western Europe for President Eisenhower—exuberant and affectionate—are a reminder of the historic friendship between the United States and its Allies.

But the demonstrations signify even more—how free peoples trust one another. This is something that peoples behind the Iron Curtain might well examine, for it contains the very ingredients of international understanding that someday could apply its benefits to the whole world.

LAWRENCE

In the personality of Dwight Eisenhower — a man of military background in the past, but today a symbol of peace—the world sees a missionary seeking, by good will and a spirit of conciliation, to overcome the petty, narrow and self-centered policies of men in government that sometimes keep nations apart.

It is an open secret that Eisenhower is in Western Europe this week as much to bind up the wounds of a strained governmental alliance with France as he is to prepare for the days next month in which he will represent the West in talks with Soviet Premier Khrushchev.

Dwight Eisenhower is popular in Europe as a man. But this is not simply because of his genial personality and innate friendliness. It is because of his record—he commanded the very forces that saved Britain and France 15 years ago. His acceptance by the people of West Germany is due largely to the fact that Gen. Eisenhower dealt with his defeated foes on a basis of decency and fairness.

But, above all, President Eisenhower typifies the American spirit—the desire to see a nation like West Germany, which has repudiated Nazism and established a government of free institutions, preserve its independence and become reunited with their kinsmen in East Germany.

Every American president usually speaks in foreign affairs on behalf of the American people—there is less and less partisanship nowadays on such matters. Hence, a president of the United States, by a personal visit to countries allied with us, can accomplish a good deal to strengthen the ties with them.

But whatever may have been the original reasons that seemed to make it desirable for President Eisenhower to go overseas, the truth is that such a visit is constructively helpful in the long run and tends to promote a spirit of mutual concession in resolving differences.

★ ★ ★

Everybody knows that President de Gaulle is trying somehow to increase the prestige of France and his hold on his own country. He has several crucial points to discuss with Eisenhower, involving, of course, the plight of Algeria.

The principle of American non-intervention in disputes inside other countries is well recognized everywhere, but at the same time the yearning of colonial peoples for independence also strikes a sympathetic note in the United States.

Certainly the most important consideration is what will benefit a dependent people. To give them immediate independence is not always in their own best interest. Gradualism is a better approach, because economic disintegration and consequent suffering for the masses often follows too sudden a change in the governmental structure.

Indonesia, for example, has her independence today but is worse off than at any time since her people benefited by the enlightened colonialism of the Dutch government.

JUST TO UNDERSTAND

Eisenhower doesn't go to France in the next few days as a mediator on the Algerian problem, but he will sit down with Gen. de Gaulle to emphasize that allied unity, especially in defense matters, is far more important than any other single factor in the internal situation confronting France.

To keep NATO planes from using bases inside France because the United States wouldn't grant information on nuclear weapons is petty tactics for any Frenchman to be practicing in these critical days.

After all, the United States has twice had to come to the rescue of France in world-war crises, and it would be a disservice to the people of France if, in this missile and atomic age, the weapons of war by which American planes could help stave off any attack on France were suddenly found lacking.

Surely questions like these, on sober second thought, will have to be handled with more tact in the future than they have in the past, lest confidence in Gen. de Gaulle himself is weakened in America.

(Copyright 1959)

Dr. William Brady Says:

Survey Indicates Exercise Good for Health of Heart

CVD is an abbreviation for the medical term cardiovascular degeneration or cardio-vascular disease. That is, degeneration of disease of the heart and arteries. It covers coronary thrombosis, arteriosclerosis, slow heart muscle failure.

DR. BRADY

Nearly all departments of pathology (morbid anatomy) in the hospitals of the National Health Service of Scotland, England and Wales in a national autopsy survey, submitted particulars of the appearance of the coronary arteries, the heart muscle and associated evidence for a consecutive series of 25 males aged 45 to 70, coming to autopsy. About 5,000 reports were submitted.

In each instance the last occupation of the man was classified as "light," "active" or "heavy" work.

The survey indicated that "habitual physical activity is a general factor of cardiovascular health in middle age."

In the 5,000 autopsies the hearts of sedentary and light workers, such as clerks, bookkeepers, bar tenders, showed about the same pathology (state of degeneration) as the hearts of heavy workers 10 to 15 years older.

★ ★ ★

Coronary heart disease among heavy workers constitutes a major health problem, even though it is less common, less severe and develops later than among sedentary or light workers.

In previous articles here I have said that coronary episodes are most likely to occur when the victims are at rest, least likely when the victims are exercising, working or playing.

Many good physicians now favor arm-chair treatment of a coronary thrombosis instead of prolonged bed rest. They get the patient up in an arm-chair for an hour or so within a few days, and walking about the room within a week or two perhaps.

From every point of view moderate daily exercise is generally good for the heart.

It makes little difference whether the patient has valvular incompetence, myocarditis (heart muscle degeneration) or coronary disease (occlusion or thrombosis), carefully graduated, that is, gradually increasing doses of exercise as prescribed and supervised by the doctor, is the most essential factor of good treatment.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped, self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright 1959)

The Country Parson

"The world would be a pretty good place if we'd behave the way we think others should."

Voice of the People

'New Library Vote Just Way to Railroad Passage'

It seems the Waterford Township Board and its colleagues don't care what the majority of voters want or say pertaining to the vote which was taken on the proposed library.

★ ★ ★

The majority of already overtaxed property owner voters has voiced its opinion in the vote of a previous election. They said they didn't want to finance a library and its upkeep. What does the Board and a minority group do? They finagle to hold a special election at which they figure there'll be such a small turnout they can muster enough hand-picked voters to win the proposed library and a tax raise for the people.

★ ★ ★

The Board was elected to represent the majority of the people, not the whims and wishes of a few; so, let's have Township government by the people and for the people. Think of those on fixed incomes, Social Security, etc., those who can hardly maintain a home now.

Charles Anderson

6166 Waterford Dr.

Khrushchev's Muscles Grew After Sputnik

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Premier Nikita Khrushchev took his time getting tough. Some men swear by nuts, berries or good, red meat for feeling fit. But Khrushchev acts like a man who got his muscles from missile milk.

You could see him grow, and his disposition change, if you went back day by day over his life since 1953 and read what he has said about the West. Stalin died that year and Khrushchev, comparatively unknown, became boss of the Communist party in the U.S.S.R.

★ ★ ★

Khrushchev then still was considered only the No. 2 man, under Premier Georgi Malenkov, who succeeded Stalin. All through 1953 Khrushchev had practically nothing to say. By then, of course, the Soviet Union had come a long way.

It had the atom bomb. But it wasn't until the end of the year that the U.S.S.R. developed the hydrogen bomb. The United States already had both. But the Soviet Union was working on missiles, too. That was going to change things.

HE HELD HIS LIP

Khrushchev didn't do any boasting in 1953. He didn't do any in 1954, either. He just held his lip. When he did talk, it was friendly. He said communism and capitalism must cooperate. This was the beginning of his coexistence theme.

★ ★ ★

Khrushchev didn't really begin to talk until 1955, when Malenkov got the gate and Nikolai Bulganin became premier. Khrushchev was still only party secretary but more and more he began to sound like the No. 1 man.

Khrushchev even sounded humble in mid-1955. Just before going to the Geneva summit conference with Bulganin he said no one should get the idea the Soviet Union was going there on broken legs. There was nothing boastful about that.

★ ★ ★

By early 1956, Soviet scientists must have been making impressive progress with missiles. For on April 26 that year Khrushchev began boasting: he predicted the Soviets would have a guided missile with an H-bomb warhead.

Still, he was willing to acknowledge the United States was the No. 1 power. He said on June 7, 1956, it was a "pat on the back" for the Soviet Union to be compared with this country as one of the two great powers. This humble mood didn't last long.

HE WAS BOILING

In November that year, Khrushchev was boiling. Britain, France and Israel had invaded Egypt and there had been a revolt in satellite Hungary.

He told Western envoys in Moscow: "Whether you like it or not, history is on our side. We will bury you."

★ ★ ★

The new Khrushchev, the one the world has been hearing ever since, emerged. Irked by President Eisenhower's doctrine of giving military help to Mid-East countries which asked for it, Khrushchev said: That doctrine would land on the "garbage heap" of history.

In May 1957, he was talking of having an H-bomb that could melt the arctic ice cap. That same month he told the Western world its children would live under socialism.

★ ★ ★

By August he was predicting a higher living standard for Soviets than Americans have. Then the reason behind this surging confidence became clear: in October and November the U.S.S.R. beat the United States into outer space with its Sputniks.

Portraits

By JAMES J. METCALFE

Help others in their time of need . . . With all that you can do . . . Take care of friends and neighbors, and . . . God will take care of you . . . For that is His most holy will . . . That souls should live together . . . With comfort and protecting hand . . . In stress and stormy weather . . . Be always kind and generous . . . In conduct and in speech . . . And do not let yourself incline . . . To criticize or preach . . . God will not favor you, if you . . . Are selfish and demanding . . . But he will bless your tolerance . . . And patient understanding . . . So do be good to other souls . . . As you would have them be . . . The noblest virtue on this earth . . . Is that of charity.

Case Records of a Psychologist:

Suggests Way to Handle Wolves

Girls, suppose you were in Alice's predicament with a violent man, parked in a remote spot in a Forest Preserve and with him waving a revolver at you to make you submit. How could you get out of that dilemma? Read this case carefully, for it may save your life someday. And send for the sex booklet below.

By DR. GEORGE W. CRANE

CASE C-429: Alice G., aged 19, was one of my psychology students at Northwestern University.

"Dr. Crane," she told me one day after class, "psychology has been a life saver to me, maybe literally.

DR. CRANE

"For example, you once told us that a girl can prevent assault if she can keep her escort talking and thus make him 'cerebrate.'

"Well, two weeks ago I accepted a blind date. The boy was supposed to be very nice, but after the dance, he drove out to the Forest Preserve and parked.

"Then he started getting fresh and even pulled a revolver out of the pocket of the car.

★ ★ ★

"I was scared and almost panicked. The only thing that saved me was that lecture in our psychology class.

"For I began to ask him questions. He tried to brush them aside and crush my lips to his, but I'd turn my head and let him kiss my cheek instead.

"Soon he began to reply to my questions and after a few minutes he was docile. He finally took me back to the dormitory, but I never had been in such a dangerous situation before.

★ ★ ★

"So please remind your readers about that rule that a man can't cerebrate and emote at the same time, so keep him cerebrating with judicial questions."

ADVICE TO COEDS

Sexual passion is mainly an emotional response of the body. But we are so created that the brain can't function in logical thought while we are overwhelmed with such emotions as love, anger or even grief.

"Count 10," is thus a wise psychological rule when you are angry, since the very act of counting involves the brain. It means you are cerebrating, and this reduces your ire.

Even a grief-stricken wife may be snapped out of her tremendous sorrow if the mortician tactfully gets her to looking over caskets with a view to picking out the one she prefers.

★ ★ ★

And in love, the same law holds true. A girl should never forget that an impetuous escort may get out of control if she keeps her mouth shut!

That's one reason why a man subconsciously tries to keep a girl's lips imprisoned in a prolonged kiss. For his emotion rises steadily and is not impeded as long as he can prevent her from making his brain function, as by her questions.

Alice was a smart coed, therefore, when she reacted to the danger of her isolated parking spot in the Chicago Forest Preserve.

★ ★ ★

GIRLS, TALK FAST

A girl's greatest protection in such a crisis consists in keeping her escort's brain cerebrating (thinking). And a man MUST think, even in order to answer simple questions.

So steer conversation around to his childhood and his mother. Be liberal with honest compliments. Inquire about his ambitions re college or business careers or the Army.

Ply him with discreet questions, for as long as you can keep him talking, he cannot grow unduly erotic.

Eroticism is based largely on a girl's silence. So send for my booklet "Sex Problems of Young People," enclosing a stamped return envelope, plus 20 cents (non-profit).

It gives further advice on how to make a boy cerebrate instead of emote.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 6c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

MIDLAND (UPI) — The mid-Michigan gladiolus show will be held here Saturday and Sunday. Several hundred exhibitors from throughout the state are expected to enter blooms.

FOUR ROSES DISTILLERS CO., N.Y.C. BLENDED WHISKEY · 86 PROOF · 60% GRAIN NEUTRAL SPIRITS.

Defense Expert May Resign

Washington Is Alarmed as Valuable Aide Eyes Grace Lines Job

WASHINGTON (UPI)—Assistant Defense Secretary Wilfred J. McNeil, who has ridden herd on the nation's vast defense outlays for the past 12 years, said Thursday he was considering resigning, possibly to assume the presidency of Grace Steamship Lines.

★ ★ ★

McNeil, 58, has served as department comptroller under every defense secretary in both Democratic and Republican administrations since the military services were unified in 1947.

McNeil said his specific plans were indefinite. But he added in a statement that personal reasons had led him to give industry offers more serious consideration than in the past. One such offer, he said, was from Grace Lines.

Grace has been without a president since early July when Louis Lapham resigned because of illness.

★ ★ ★

A Grace spokesman here declined to comment on the possibility of McNeil joining the firm.

There was dismay in Congress over the possible loss of the expert who has helped unsnarl many complex defense spending problems and became a top fiscal adviser to Congress and presidents.

Rep. Daniel J. Flood (D-Pa) a member of the House defense appropriations subcommittee, said he would favor boosting McNeil's salary to match any outside offer.

★ ★ ★

He said McNeil, who draws $21,000 a year for supervising billions in defense spending, has resisted past industry offers "only through an extraordinary, unbelievable sense of duty."

Lake Erie College for Women at Painesville, Ohio, spends 12 weeks each year at one of the school's eight study centers in Europe.

DENIES ALLEGATION — Dr. Richard Porter, General Electric scientist, above, has told a House armed services subcommittee that he did not improperly influence a defense department decision which left the United States behind Russia in the race to outer space. Porter told the committee that previous testimony given by a newspaper columnist before the committee to that effect did not jibe with the facts.

Ferris Professor Rises

BIG RAPIDS (AP)—Dr. John Johnson has been promoted from professor of economics at Ferris Institute to assistant dean of general education. Johnson, 47, will serve as administrative aide to Dr. James V. Darrell, dean of general education.

New Oil Pollutes Lake Erie Water

Williams Asks Canada to Halt Wells, Discuss Precaution Methods

LANSING (AP) — Gov G. Mennen Williams Thursday urged Canada to halt offshore oil explorations in the Great Lakes until precautionary measures are taken to prevent pollution.

In a telegram to Premier Leslie M. Frost of Ontario, the governor said brine and oil from a new well at Colchester, Ont. already has polluted the waters of Lake Erie.

State conservation and water recourses officials say waste matter from the same well also is likely to pollute the Detroit River and the Michigan portion of Lake Huron, he said.

Exploration for another well near Sarnia, Ont. also is contemplated. The two are the first on the Great Lakes.

"Assurances from Canadian authorities that remedial steps will be taken if serious pollution develops are appreciated, but joint discussion can lead to precautionary measures which will, in the end, prevent damage before it occurs, Williams told Frost.

The governor also called on the U.S. Bureau of International Water Resources to join in urging Canadian authorities to stop explorations until discussions are held among Michigan, federal and Canadian authorities.

The entire junior class of the continue to hang long after death.

Red China Has Troubles; May Mean Asian Peace

TOKYO (AP) — Communist China has publicly admitted she is in deep economic trouble at home. Does this mean war or peace for Asia?

After a secret meeting of the Communist Central Committee earlier this month, Peiping announced Wednesday that production last year was far less than previously announced. As a result, earlier production goals set for this year were cut drastically.

With his agricultural and industrial program for 1959 in admitted jeopardy, logic would seem to indicate that Mao Tze-tung will avoid an expensive shooting war in Asia.

★ ★ ★

This could mean a period of calm in the Formosa Strait. For 10 days Communist guns, which for a year have bombarded the Nationalist offshore Quemoy Islands, have been silent.

But Mao also believes fear and hatred supply more adrenalin to overworked peasants and laborers than do peace and good will. While seeking to avoid a hot war off his coast, the Chinese leader might try to instill a sense of urgency in this hard-pressed people by continuing to wave the danger flag over little Laos.

He might even encourage some limited shooting. Using his Communist Vietnamese allies, this would cost him little in men or money. And he could continue his propaganda picture of the United States as an imperialist enemy, threatening Chinese security with machinations in Laos.

★ ★ ★

Failure of Mao and some of his top civilian and military aides to appear at Monday's important conference suggested Mao may be in Moscow conferring with Soviet Premier Nikita Khrushchev prior to the Soviet leader's departure for Washington.

★ ★ ★

The Chinese might, through Khrushchev, seek to ease tension with the United States to permit total concentration on the staggering job to be done at home.

UPI Telephoto

IN THE 90S AGAIN? — The temperature was in the 90s here in Chicago. Felix, an orangutan at Brookfield Zoo didn't seem to mind the heat though. He merely invaded one of the zoo's refreshment stands, opened an ice cream cooler, and enjoyed an ice cream cone. However, Felix was in such haste that he failed to remove the paper wrapper from the cone.

By Electronic Devices

Gets Bouncing Checkup

HEMPSTEAD, N. Y. (AP)—The Air Force can now give a man a continuous physical examination while it bounces him around from high to low altitude and back again.

The examination is conducted by electronic devices demonstrated at Mitchel Air Force Base, with Sgt. Richard P. Laauser the guinea pig.

★ ★ ★

Laauser was taken quickly to a simulated level of 65,000 feet, allowed to "free fall" back to 25,000, brought back to 40,000, and then rushed back up to 65,000.

The rapid changes had important effects on his heart action, rate and flow of breathing and body temperature, and these were monitored continuously by the new equipment.

★ ★ ★

The equipment, developed for the Air Force by Gultof Industries, Inc., Metuchen, N. J., is expected to help scientists gain still more knowledge of what really would happen to the human system in high-altitude and space flights.

Reuther Wants Labor on Dock

Asks Leaders to Show Nikita Real Freedom in This Country

DETROIT (AP) — Walter Reuther, president of the United Auto Workers Union, Thursday urged labor leaders to meet Soviet Premier Nikita Khrushchev when he visits the United States.

He said labor leaders in this country should take advantage of the opportunity to tell the Russian premier that the workers of America are "irrevocably committed to the cause of human freedom."

"No one in America has better credentials to do this essential job than do American trade union leaders," Reuther said in a statement. "And if they fail because of an attitude of isolation, they do America and the cause of human freedom a great disservice."

He added:

"While American labor might disagree with American industry, Khrushchev must have the opportunity to see and hear that all Americans, regardless of economics or politics, are united in common dedication to the defense of our system of freedom and are unalterably opposed to and will resist with all our energy the efforts of the Soviet Union at world domination."

2 Duck Hunters Arise Much Earlier Than Prey

ANADARKO, Okla. (AP) — R. E. McClure thought his clock read 5:07 a.m. so he crawled out of bed and awakened his son so they could go duck hunting.

After both were dressed, they took a second look. McClure had misread the clock and it was 1:25 a.m. instead. They both crawled back into bed.

Name Means Modest

Moussorgsky, the Russian composer noted for his rugged and powerful operas, had a contrasting first name. It was "Modest."

Sir Stork Busy on Airplanes

Pan Am Claims Twins; Eastern Reports Eighth Birth Thursday

NEW YORK (AP) — High-flying Sir Stork is catching up with airliners with increasing frequency.

A baby was born Thursday aboard an Eastern Air Lines plane en route from Puerto Rico to New York, just a day after twins were born on a Pan American World Airways plane flying from London to New York via Gander, Nfld.

The birth on the Eastern air liner placed emphasis on an announcement the line had issued only a couple of hours earlier.

It said it was stepping up its training of its flight attendants in obstetrical aid. The announcement pointed out that seven children already had been born on Eastern flights. Then came the eighth.

Eastern said it would place new stress on obstetrical aid at its training school for stewardesses at Miami, Fla., and give refresher courses annually to all its flight attendants.

Student's Collection of Leaves Was Itchy

PONCA CITY, Okla. (AP) — Mrs. LaRue Pfaff, first grade school teacher, assigned her students to bring in fall leaves and plants to decorate their room.

The youngsters responded eagerly, and Mike Smith brought in an armload of leaves. Only after itching set in did teacher and pupil find Mike's collection included poison ivy.

Children Play Duets on Guitar and Sing

NEWARK N.J. (AP) — Jimmy and Daniel Del Rossi entertain their neighbors with guitar duets of American folk songs.

They won't be a threat to current teen-age idols for quite a while, however.

★ ★ ★

Jimmy is 8 years old and Daniel is only 4.

3 Marine Corps Generals Resign Over Appointment

WASHINGTON (AP) — Three Marine Corps generals, disappointed by the appointment of a junior officer to the Marines' top spot, have announced their resignations.

Their action Thursday came two weeks after President Eisenhower named Maj. Gen. David M. Shoup to be commandant of the Marine Corps Jan. 1. Shoup will be jumped to full general.

★ ★ ★

The three who resigned were Lt. Gens. Vernon E. Megee, commander in the Pacific; Edwin A. Pollock, fleet force commander for the Atlantic, and Merrill B. Twining, commandant of Marine Corps schools at Quantico, Va.

Megee, at his headquarters in Honolulu, said "I'm naturally disappointed because I didn't get the top job. So are some other senior officers in the corps."

He gave that as the reason for the three resignations. Pollock and Twining were not available for comment.

"However," Megee added, "Dave Shoup is a fine officer and will make a great commandant.

★ ★ ★

"I'm retiring because of the feeling that when the Defense Department selects a junior officer for the top spot it is best to show loyalty by stepping aside and giving Dave Shoup a free rein. After all, I am his senior and he has been under me in the past."

Another reason given is that the trio is retiring while they still may receive a promotion to four-star rank on the retired lists.

A new law has set Nov. 1—the date their resignations are effective—as the deadline after which Navy, Marine and Coast Guard officers no longer will get a retirement promotion if combat records are good.

The three Marine generals all are veterans of World War II and Korea.

Megee is 59, Pollock 60, and Twining, a younger brother of Air Force Gen. Nathan Twining, chairman of the joint chiefs of staff, is 56.

Megee has completed 40 years active duty, Pollock 38 years and Twining 36 years.

State Motorists Prefer '59 Cars to Waiting

LANSING (AP)—A lot of Michigan motorists apparently aren't waiting to see the 1960 models before buying new cars, the secretary of state's office reported today.

License plate sales so far this year total 3,423,626, up 82,827 from the same period last year.

★ ★ ★

License plate income now totals $61,713,886, an increase of $1,954,217 over the same period last year.

The Great Salt Lake of Utah is about six times saltier than the ocean.

Plan Nuclear Power Plant for Pennsylvania Hamlet

PEACH BOTTOM, Pa. (AP)—This tiny farming hamlet in south-central Pennsylvania, filled with serenity, suddenly has been plunged into the hectic race for nuclear development.

Peach Bottom, population 1,362, Thursday was announced as the site for the world's first high temperature, gas - cooled nuclear power plant.

The Atomic Energy Commision said in Washington that it contracted with the Philadelphia Electric Co. and the General Dynamics Corp. for development of the 24½-million-dollar plant.

The commission said that operation of the plant at higher and more efficient temperatures than now used holds promise for accelerating development of economic nuclear power.

AEC Chairman John A. McCone added that "we have confidence that when this reactor is completed the United States can expect to be several years ahead of other countries in this very important nuclear development."

The plant will be built on a 620-acre tract fronting the Susquehanna River's west bank. It will house a graphite-moderated, helium-cooled nuclear reactor designed to produce 40,000 kilowatts. Construction is expected to be completed by Oct. 1, 1963.

★ ★ ★

One of the members of Peach Bottom's board of township supervisors appeared very unexcited about the reactor. William T. Montgomery said he couldn't see how the plant "can benefit our area terribly much. I guess there's no harm in having it here."

The number of new biographies published in the United States in 1958 was 697. There were also 1,522 children's books, 2,235 works of fiction, 97 on music and 451 books on poetry and drama.

Trouble Ahead With Canada

Senators Argue Long Over Water Diversion Bill Aiding Chicago

WASHINGTON (AP) — Chicago's demands to divert more water from Lake Michigan may imperil this nation's relations with Canada.

The warning was sounded yesterday by Sen. Jacob K. Javits (R-NY), one of the opponents of a bill which would allow Chicago to take more water from the lake for its sewage disposal system.

★ ★ ★

Javits told the Senate that if the bill passed "we may very easily find ourselves in a grave international mess with a close neighbor and ally."

But Sen. Paul H. Douglas (D-Ill), chief spokesman for the House-passed bill, was so confident of enough votes for its passage that he sought to avoid prolonged debate which may run over until next week.

At one point when Sen. William Proxmire (D-Wis) and other opponents had peppered him with questions, Douglas accused them of getting him to aid a filibuster.

"I'm not going to assist in the filibuster any longer," he said, leaving the Senate chamber. "I'm going to lunch."

The bill would authorize a one-year trial diversion by Chicago of an additional 1,000 cubic feet of water per second from the lake as part of a three-year study of Chicago's sewage problems.

★ ★ ★

Opponents say it would damage shipping of the Great Lakes, rob them of hydroelectric power from the St. Lawrence and break water agreements with Canada. President Eisenhower has vetoed two somewhat similar bills in the past, and the State Department opposes this one, because of Canadian objections.

Pastor Pleads for Teen Peace Over New York Girl's Coffin

NEW YORK (AP)—The 15-year-old Negro girl lay in her white casket in historic Trinity church, whose stately spire rises between the skyscrapers of Wall Street.

A hushed throng heard the minister say: "Let there be no more sudden death on the streets of the Lower East Side. Let there be peace on the streets."

★ ★ ★

The Rev. Dr. C. Kilmer Myers spoke softly Thursday night to 500 mourners who came from the humid tenements to the city's oldest church.

He pointed to the coffin holding the body of Theresa Gee, slain by a rifle bullet through the head in a teenage gang fight la' Sunday.

"Because she died in a burst of violence on a street of this city, she has become more than Theresa Gee, which was all she ever wanted," he said.

★ ★ ★

"She has become a symbol of the utter failure of our urban society to make it possible for young people to grow to adulthood without the nagging presence of tragic experiences.

"She is a symbol of our failure to provide wholesome and reliable goals. She is the victim of the strange rift between youth and adults in our day.

"We are the guilty ones, the police, the social workers, the clergy and the citizenry, all o' us caught up, as was Theresa, in the tragic and demonic forces of the history of our age."

★ ★ ★

Dr. Myers, head of an East Side chapel of Trinity Protestant-Episcopal parish, aided in arranging a truce two years ago between teenage gangs of the area—one predominantly Jewish and Italian and now inhabited by many Negroes and Puerto Ricans.

Theresa was not the only victim of Sunday's gang war. Julio Rosario, 14, died on Tuesday of stab wounds. Six other youths were stabbed or shot, none fatally.

In a swift reaction to the violence, a grand jury Thursday returned two first-degree murder indictments. One was against John Curz, 18-year-old Puerto Rican, for the shooting of Theresa. The other against Miguel (Gypsy) Castro, 17, in Rosario's slaying.

★ ★ ★

Police said Cruz, leader of the Forsyth gang, admitted shooting Theresa but said it was accidental.

Police said the Forsyth gang was a predominantly Puerto Rican group while the rival gang, the Sportsmen, was composed chiefly of Negro youths.

The Sunday battles stemmed from a fist fight a week ago Thursday between Cruz and Castro, a member of the Sportsmen. Castro lost the fight but returned Sunday with a dozen followers.

The mourners at Trinity church received leaflets asking them to march in a procession tonight as a demonstration for "an end to fear and hatred."

You Try to Be Friendly and What Do You Get?

DES MOINES (AP) — A young Des Moines executive decided that, in the interests of good will, he would say a friendly word to everyone he met in his building. But after he met one woman he modified the policy.

The woman's reply:

"Young man, I do not like to be spoken to by people I do not know."

Fair Officials Ponder 'Veteran of Year' Pick

DETROIT (UPI)—Stae Fair officials today sifted 1,500 nominations for "Veteran of the Year" to be named at the festival Sept. 5.

Veterans' posts and auxiliaries throughout the state nominated candidates for the honor. The State Fair runs from Sept. 4 through Sept. 13 at Detroit, Manager Donald L. Swanson said.

Officials Fuss Over Publicity

Chief of Information Questions Ban Order on Military Articles

WASHINGTON (AP) — Rep. John E. Moss (D-Calif) disclosed today that the Defense Department has banned signed newspaper or magazine articles by high officers except in military publications.

★ ★ ★

Moss, as chairman of the House Government Information subcommittee, demanded an explanation.

In a letter to Secretary of Defense Neil H. McElroy, Moss said the new ban seems to conflict with a previous Defense Department directive. This said the department has an obligation to inform the public "and to provide proper information regarding the Army, Navy, Air Force and Marine Corps."

★ ★ ★

The only restriction on writing for publication contained in that directive, Moss said, was that articles had to be checked for security clearance and that such writing should not conflict with the officer's official duties.

New Drugs Combat Emotional Depression

NEW YORK (UPI) — Three new drugs designed to combat emotional depression have entered the pill sweepsteaks.

The new drugs — Nardil, Niamid and Trofranil — are the exact opposite of the currently popular tranquilizers. They are said to bring patients "up" to normal instead of toning "down" anxieties as do tranquilizers.

Youth Heads Indian Tribal Council at 23

NEW POST, Wis. (AP) — John Anderson, 23-year old Chippewa Indian, is the youngest man ever elected to the Court Oreilles Reservation tribal council.

Anderson, chairman of the council which directs Indian affairs on the 25,000 acre reservation, is a student at Superior Wis. State College.

Must Recognize Labor Problems

GM Official Calls for Long Range Philosophy in Bargaining

DETROIT—A long range, "overall philosophy" by industry toward collective bargaining is essential to an efficient, cooperative effort between labor and management, according to Earl R. Bramblett, labor relations director of General Motors.

He believes the first step toward establishing sound labor relations policies is to recognize that the problem exists and put yourself in the frame of mind to do something about it.

"There is no use pretending that there are no real problems to be solved in labor relations. Getting a great many people working together to produce goods and services on a mass scale is relatively new and is not perfect. Problems are bound to arise," he added.

As part of the answer to the problem, "a sound policy approach" toward labor relations on the part of industry was proposed by Bramblett, whose staff last October reached agreement with 19 different unions on new labor contracts.

★ ★ ★

"In General Motors," he stated, "we have always been willing to work out solutions, but the solution must be on a sound basis. It must meet three tests: (1) Is it fair? (2) Is it sound? (3) Is it practical?"

Bramblett related that he has heard union officials say they have the greatest difficulty in dealing with managements which vacillate in their position on basic issues.

Another basic concept to which he said the company had adhered since the early days of collective bargaining is that mangement's responsibility for managing the business must be recognized and maintained.

They Grow Younger, Not Older

Ah! To Be 50 in Denmark

By PHYLLIS BATTELLE

COPENHAGEN — Denmark is a remarkable land where to grow old is a privilege, a pleasure, and a cause for wild celebration and one more aquavit.

Babies are cute, adolescents are problematical, people from 20 to 49 are all right if you like the type.

But when a man reaches 50 he is suddenly the greatest guy in town. Let young women have their wedding day and old women have their first grandchild celebrations—a man's 50th birthday is by all odds cause for the biggest blowout in his life.

This is the day when he becomes "voksen." Meaning "an adult."

"There is almost no one in Denmark who does not like to drink and indulge in a certain amount of absolute unabridged foolishness," says a youthful-looking guy named Chris Petersen.

The custom is for a man's friends to appear at his home at about 5:30 a.m. on the morning of his 50th birthday—accompanied by band and booze. Thus the day begins.

At the usual time he goes to his office, fortified with friendship and so on, and there (if the man is at all popular with the staff) an open house is held. All day! Herr Petersen, who celebrated his 50th a few months ago at the office of Pan American Airways, where he is public relations boss, described the buffet and bar setup from 9 a.m. to 4:

Ham steak, turkey, all kinds of fish and pastries, plus a variety of beverages too numerous and lethal to mention here.

YOU HAVE LIVED

At the conclusion of the office day Christ Petersen went home to a traditional dinner party for the personal friends of a man who has reached 50. It lasts till well into his 51st year.

"By the end of the celebration," mused Chris, "you know that you have lived. You know that it is true—what all your friends have been telling you—you're a gay dog, old enough at last to know how to enjoy yourself.

"For a half century you have worked to get to this plateau. Now life really starts."

One aspect of life in Denmark that makes it so delightful to grow old is the social welfare program. The Danes seem way ahead of us in planning for the age of retirement.

Every needy old person in the nation gets an automatic pension, out of which he can live almost lavishly. That is because for every old person the state builds a large, almost luxurious apartment. Rent is slightly over $5 a month; meals are 20 cents a throw.

This feeling of social security is probably the reason why here in Copenhagen one sees ladies in their ups pumping bicycles, and men in their 90s lying on the beach, puffing cigarillos.

When there is no fear of growing old, age is retarded.

This is an enchanting country for the tourist, but it is much more than that. It is a land where, unlike America, the accent is not on youth and as a consequence we feel younger with every digested day.

Use Language of Dutch

The Afrikaans language, used in South Africa, is a derivative of the Dutch spoken by Dutch colonists in the 17th Century.

Teenager Gets Life for 'Revenge Rape'

JASPER, Ala. (AP)—A teenage high school student has been sentenced to life imprisonment for raping his teacher's wife for revenge.

James Harold Herron, 17, was arrested March 24, a short time after Mrs. Erston Bonner said she was attacked.

★ ★ ★

The youth told police he raped the 26-year-old mother because he wanted to get even with her husband who had expelled him from school.

Herron was calm as Circuit Judge Alton M. Blanton read the sentence Thursday.

★ ★ ★

The jury, which fixes sentences in capital crimes in Alabama, deliberated only five minutes.

Mrs. Bonner said the youth also robbed her of $3.

Dead Horse to Cost Taxpayers $3,132

NASHVILLE, Ind. (AP) — The taxpayers of Brown County are being asked to pay $3,132 for a dead horse.

Elmer Richardson asked that much after his prize show mare was killed in falling through a defective culvert

Parks Official Suspended for Poor Judgment

ATLANTA, Ga. (AP) Mayor J. G. Stith of East Point suspended the superintendent of that suburban community's Parks and Rrecreation Department after a safety demonstration by white youths at a Negro swimming pool.

The white youths, both boys and girls ranging in age from 12 to 20, were members of a Red Cross swimming instructors class.

Stith said the superintendent, James R. Grayson, was suspended for 11 days because Grayson had not exercised proper judgment "in allowing white females to participate in a water safety demonstration" at the Negro pool.

NORAD Mounts Guard, Eyes Trawlers, Geese

(This is the last in a series of articles on the Air Force Academy at Colorado Springs, Colo. written by Pontiac Press Reporter Dick Saunders, who is touring the installation.)

COLORADO SPRINGS, Colo. — A group of Pontiac area residents, myself included, invaded the secret confines of North American Air Defense Command (NORAD) today in Colorado Springs, Colo.

This fabulous center of mass technology and lightning-quick communication is the eye of a spider's web that stretches over the North American continent ready to snare any unwanted outsider.

But in this case the spider is not hungry. In fact, it could live better with no food at all. For this spider a meal could mean destruction.

In the short time that we spent in the Combat Operations Center we saw two Russian trawlers detected in the vast radar screen near Greenland, near where cables were cut last year.

★ ★ ★

Jets scrambled to the alert and the trawlers were off and on their way before we were about to do the same.

That's how fast this thing called NORAD works. However commanders are shockingly honest about NORAD's limitations.

"As yet we have no defense against a concentrated ICBM attack," said Maj. O. Frank Wolff, of the NORAD Command Office of Information Services.

"But we expect to have the nike zeus ready to knockout ICBM's by the time Russia has enough to mass a concentrated attack," he explains.

★ ★ ★

This "eye" of national defense works hand-in-hand with Canadian forces. The first line of defense lies far to the north of Canada.

The second line lies in Southern Canada. Unidentified flying objects reaching the second line immediately send air fields and missile installations through the northern U. S. into action.

"Once a hostile attack comes," says Maj. Wolff, "the survival of Canada and the U.S. depends entirely on the effectiveness of NORAD."

★ ★ ★

"We receive information from radar posts and relay it to SAC and our other installations." The center is located in an area that is, as yet, too far from costal areas to be reached by submarine-launched missiles.

But in less time than it takes Pontiac resident to drive to Detroit, an ICBM can travel from Russia to Colorade Springs. The estimated time is 25 minutes.

There are four basic actions to NORAD operation: Detection, Identification, Interception, and Destruction. Radar nets are so sensitive that full scale alerts have been set off by flocks of geese.

★ ★ ★

NORAD is nearly too vast for the mind to imagine now, but it continues to grow and improve. "We can't sit back and think we have the answers," says Wolff.

"It's a strange game. We're waiting for something we hope to God never happens."

Paralytic Polio Cases Reach Year's High Mark

WASHINGTON (AP)— Paralytic polio cases—with all states reported except Nevada—reached a new 1959 weekly high of 285 last week. But the figure was only six above the previous week.

The Public Health Service reported this today. Simultaneously, it said it will likely be another year or two before live polio virus vaccines are licensed for general use in this country.

50-Cent Piece Helps Her Clear Conscience of Theft

A 50-cent piece has helped a former Pontiac resident clear her conscience of "snitching" a pencil-top eraser from a blind lady in the courthouse years ago.

The Oakland County Clerk's Office this morning received this letter addressed to 'The County Court House, Pontiac, Michigan:"

"Dear Sirs,

"Enclosed you will find $.50. Many years ago when I lived in Pontiac, I stopped by the courthouse one day after school. There was an almost blind lady selling odd things as candy, pencils, etc. As I was only a young girl, I suddenly got the urge to snitch a pencil top eraser.

"Ever since then, that act has bothered me no end and even though I have asked God's forgiveness, I have wanted to make it right. It is such a small thing, but nevertheless it was really stealing.

"I know you don't have time for small things as this but thank you for accepting my return for taking something that didn't belong to me."

It was signed by a Norma Klein. It was stationery of the Emmanuel Missionary College in Berrien Springs. The date was Aug. 26.

A clerk in the office, after reading the letter to her, presented the 50 cents, taped on an index card, to Mrs. Ada Dodson, the blind lady who currently sells cigarettes and candy in the courthouse.

"I think I'll buy a pencil with it," she said, rather doubting she was the one the eraser was stolen from. She said she would frame the letter even though "maybe the money isn't mine."

Last-Chance Housing Bill Sent Over to President

WASHINGTON (AP)—A defiant Congress, turning a deaf ear to Republican veto warnings, today handed President Eisenhower a "last chance" billion-dollar housing bill.

Party lines fell apart Thursday as the House, by a topheavy 283-105 vote, completed congressional action on a $1,050,000,000 bill that contained the same features that prompted a housing veto last month.

At stake was the President's perfect record of never having a veto overridden. This time the House virtually dared him to challenge its action.

The overwhelming vote far exceeded the two-thirds necessary to override. The Senate vote, on Aug. 19, likewise was by an overriding majority of 72-14.

★ ★ ★

With adjournment fever mounting, and House leaders looking forward to quitting by next weekend, the President was confronted with a take-it-or-leave-it proposition.

"If President Eisenhower wants a housing bill, this is his last chance," proclaimed Rep. Albert Rains (D-Ala), sponsor of the bill and Democratic housing spokesman.

★ ★ ★

When the President vetoed the first $1,375,000,000 housing bill as excessive, he hit at new public housing authority, loans to extend the government into college classroom construction, and other features.

★ ★ ★

And in a message last Tuesday, Eisenhower told Congress to limit itself to extending the authority of the Federal Housing Administration to insure home mortgages. This insurance authority, which does not involve additional funds, is already about five billion dollars in excess of congressional limitations.

But the House Thursday, with machine-gun monotony, knocked down successive Republican-backed efforts to revise the bill and kill features already denounced as objectionable by the President.

On final passage, 54 Republicans and 229 Democrats voted for the bill. Only 76 Republicans and 29 Democrats voted against it.

Republicans deserted their party leadership in droves. The coalition of Republicans and Southern Democrats, so effective in past floor maneuverings, was never in evidence.

Asks Postal Rates Hike for 4th Class

WASHINGTON (AP)—An Interstate Commerce Commission examiner recommended today that the post office be authorized to increase rates on fourth-class mail (parcel post and catalogues) by 88 million dollars annually.

Increases proposed range from 35 per cent down to 1 per cent and average 17.1 per cent. The percentage of increase diminishes within each zone, other than local, as weight increases. There are only a few reductions for the greater weights and longer distances.

Exceptions to the examiner's recommendation must be filed before Sept. 28.

The ICC, with its 11 members sitting, will hear oral argument on Oct. 9.

Postmaster General Arthur E. Summerfield filed a request Nov. 28, 1958 asking ICC consent to the increased rates.

Pontiac Motor Pays Employes for Suggestions

Pontiac Motor Division employes were paid $84,140.20 for suggestion awards during the first half of 1959 to stand high among General Motors divisional leaders — according to GM's January 1 - June 30 Suggestion Plan Report.

Pontiac's average award of $112.64 was well ahead of the GM Car Group average of $48.93 and the GM division-wide average of $44.62.

★ ★ ★

In addition, Pontiac employes scored on 28.7 per cent of suggestions, submitted, a success rate which also topped the Car Group average of 24.9 per cent and GM overall figure of 27.4 per cent.

Gets Death Sentence for Slaying of Rival

CINCINNATI (AP) — Edythe Klumpp today was sentenced to death in Ohio's electric chair Dec. 15 for the slaying of her lover's wife.

Just before the sentencing in Hamilton County Criminal Court, her attorney read a statement prepared by Mrs. Klumpp which accused William Bergen of killing his estranged wife.

Mrs. Klumpp, 41, tight lipped and showing no outward emotion, was convicted last July 2 of killing Bergen's wife, Louise, 32, on Oct. 30, 1958.

Mrs. Klumpp and Bergen had been living together for five months.

Judge Frank M. Gusweiler pronounced sentence after overruling a motion for a new trial that had been filed by defense attorney William E. Hopkins.

Find Father of Three Dead of Shotgun Blast

A Beverly Hills father of three was found dead of a shotgun blast in the head yesterday morning, the weapon lying across his chest.

Beverly Hills Police said seven-year-old Deborah Gamble discovered her father's body in the basement of their home at 16276 Birwood. Police said 25-year-old James Gamble, a journeyman die maker at the Grand Blanc Fisher Body plant, was said to be despondent.

Progressive Business School to Open in Alma Next Month

ALMA (AP) — Two young men will see a dream come true next month when classes begin at Northwood College in what was once the showplace mansion of a Michigan lumber baron.

★ ★ ★

A year ago, Arthur E. Turner, 28, was admissions and alumni director at Alma College here. R. Gary Stauffer, 31, was his assistant.

Turner now is president of the fledgling Northwood, a non-profit institution founded this year, and Stauffer is vice president. Armed with some fresh ideas, they are the guiding lights of what they hope will become one of the most outstanding — and progressive — business colleges in the midwest.

Alma townspeople, a well-to-do Cedar Springs businessman and other benefactors and advisers are betting that it will.

Two shortcomings of most business schools led to the founding of Northwood.

★ ★ ★

Turner and Stauffer noted that most such schools failed to offer students either campus life or training in other than business courses. They felt something valuable was lacking.

The 100 entering students who will start classes Sept. 8 will live much like students at Alma College, a four-year liberal arts school established in 1886. Dormitories, library, auditorium, dining rooms, cafeteria and snack bar supplement classrooms and administrative offices.

The two main buildings came ready-made with ivy-covered walls and a rather colorful history.

In 1859 Ammi W. Wright, a multi-millionaire lumberman, built the 36-room victorian mansion that houses most of Northwood's facilities.

The three-story granite building has seven fireplaces, 15-foot ceilings, stained glass windows and inlaid woodwork. Some of the original furnishings have been donated to the college by Alma Townspeople who acquired them after Wright's death.

★ ★ ★

A library, soon to contain 10,000 volumes from an anonymous donor, is in the massive carriage house. So is a pine-paneled auditorium with a seating capacity of 200 and a snack bar where a blacksmith once shod the Wright stable of prize horses. The second story will be converted into class rooms next year, Turner said, and enrollment will be upped to about 300.

The college also bought four other old homes in the neighborhood for dormitories. The 'pioneer' class is about equally divided between men and women students and eight states are represented.

The eight-member faculty averages 35 years of age.

"We also plan an a capella choir, dramatics, intramural athletics and social clubs," said Turner, a former Saginaw County farm boy who once wanted to be a doctor.

"It's a far cry from many business schools crowded into the second floor of a downtown office building," he said.

Students will study such subjects as psychology, geography, and humanities as well as typing, shorthand, office machine operation and other normal business subjects. A school for airline hostesses is in the works.

★ ★ ★

"We surveyed businessmen and industrialists across the state and found they wanted a well-rounded employe, one who could meet and talk with people intelligently as well as perform their specific job," Turner said.

Wesley P. Jordan, Cedar Rapids businessman, is Northwood's business manager, and the chief source of its financial support.

Its 12-member advisory board includes business leaders such as L. R. Kamperman, vice president of the Leonard Refiners, Inc., Alma; Howard C. Grimes, president of Lansing's J. S. Knapp Co. department store, and Everett N. Luce, Dow Chemical Co. official.

Diamond Rock, an uninhabited islet off Martinique, was called H.M.S. Diamond Rock during the Napoleonic wars. British sailors and marines held out there for almost 18 months, finally surrendering to a French naval squadron. Caves in Diamond Rock's sheer cliffs sheltered barracks, coastal batteries, a hospital and warehouse.

DR. DOOLEY

Dr. Dooley Has Cancer Surgery

Three-Hour Operation Removes Chest Tumor From Laos Medic

NEW YORK (AP)—Dr. Thomas A. Dooley, 32, who gained world attention for his medical work in the jungles of Laos, underwent cancer surgery Thursday.

★ ★ ★

The three-hour operation removed a chest tumor. His condition was described as good at Sloan-Kettering Cancer Research Center of Memorial Hospital.

The hospital said the lung was not affected and there were no complications.

★ ★ ★

Dooley, a native of St. Louis, Mo., became interested in missionary medicine while a Navy medical officer. He helped form Medico — Medical International Cooperation — and was instrumental in construction of a three-building hspital at Muong Sing in Laos. There he has aided hundreds of refugees fleeing from Communist North Viet Nam.

★ ★ ★

Dooley was flown here last week from Laos for treatment.

Discussing his illness, Dooley estimated he might have five or six years to live with "this capricious type of cancer." He has expressed his determination to return to his hospital at Laos and spend his remaining days at work there.

CROWDS CHEERED — The sign and the picture tell yesterday's story in West Germany. The sign reads: 'Eisenhower and Adenauer, Friendship of Men, Friendship of Nations.' Hundreds of school children — both German and American — were excused from classes and joined the crowds which lined the streets along the route Eisenhower took from Bad Godesberg to Bonn. Eisenhower drove to the city of Bonn for talks with German leaders. The people cheered and waved paper American flags. Late yesterday the President flew on to London for talks with British leaders.

Just 5 Minutes With Khrushchev

'We Want Our 4 Girls'

CHICAGO (UPI) — A refugee Czech athlete and his wife have asked for a chance to plead personally with Soviet Premier Nikita Khrushchev for the freedom of their three daughters.

Mr. and Mrs. Victor Lonsmin of suburban Cicero, both 39, hoped Khrushchev would give the word which would allow their girls to join them in the United States.

The family has been separated for 11 years, ever since Lonsmin and his wife slipped out from behind the Iron Curtain. At the time, they thought it would be easy for their children to follow.

But the Czech government wants Lonsmin, a former hockey star, to return. It has refused to let his daughters leave their grandmother's home near Prague.

The couple wrote Soviet Ambassador Mikhail Menshikov that they were willing to travel to any of the cities in the United States Khrushchev will visit next month.

Lonsmin said "we would ask him to intercede for us with the Czech government, which we know respects his opinion."

JUST 5 MINUTES

"All we'd like is five minutes—anywhere—to ask him to help us regain our children, just as the United States helped Kozmins regain theirs," he added.

Lonsmin was referring to the four Kozmin brothers. A Chicago judge recently ordered them returned to their parents in Moscow and the boys left for Russia Wednesday.

The Lonsmin girl are Georgiana, 16, Victoria, 15, and Helen, 13.

The Lonsmin wrote directly to Khrushchev asking his help on July 27. He hasn't answered their letter.

Don't Mow Closely

When you mow your grass too close. the roots quit growing until the tops recover, reports the North Carolina State College School of Agriculture.

Senate Confirms Choice for Commerce Aide

WASHINGTON (AP) — The Senate confirmed by voice vote today President Eisenhower's nomination of Philip A. Ray of California as undersecretary of commerce.

★ ★ ★

Confirmed at the time were two appointments to the Interstate Commerce Commission.

★ ★ ★

They were those of McGregor Goff of Idaho, a reappointment; and Clyde E. Herring of Iowa, named to succeed Richard F. Mitchell, resigned.

Thailand's King, Queen to Visit Here in June

WASHINGTON (AP)—The king and queen of Thailand have accepted an invitation from President Eisenhower to visit the United States next year.

The White House announced Thursday that their majesties will be here for a 10-day official visit beginning late in June.

Infrared rays were discovered more than 150 years ago by Sir William Herschel.

ORCHARD FURNITURE COMPANY

164 ORCHARD LAKE AVENUE • PONTIAC

3 BLOCKS WEST of SOUTH SAGINAW

Women's Section

This charming fashion should go to the head of the class this fall. It's designed in a plaid fabric combining acetate and cotton that resists wrinkles, launders with a minimum of care and never loses its crisp, well-behaved texture. The silhouette has a simulated bolero jacket with button, bow and braid accents, plus a crisp white collar. Added style notes are a full gathered skirt and a covered belt. Available locally.

Wearing clothes in which they feel at ease is important to young school girls. A combination that promises to be a favorite for fall is the long sleeve, striped knit pullover blouse that teams up with solid color "slim jims" in corduroy. A side zipper gives the slacks a smooth fit while a matching striped knit belt adds extra dash to the playtime outfit. Also available locally.

Friend Has to Make Invitation

By EMILY POST

Dear Mrs. Post: A girl I know, but who is not an intimate friend of mine, told me that she and a friend of hers were planning to take a motor trip out West. I always wanted to go out West but as I had no one to go with, and did not want to travel this distance alone, I gave up the idea. I would like to know if it would be proper to ask this friend if I may go along with them. I will, of course, pay all my own expenses and also share the expenses of the car. Would such a request be in order or might this be considered a gross imposition?

★ ★ ★

Answer: As she is not an intimate friend, all you can do is to say, "What a wonderful trip! How I wish I could go along." If after that she makes no suggestion of your joining them, you must forget the idea.

Dear Mrs. Post: My parents are living but I've been making my home for years with my grandmother. She is very good to me and is now going to give me a nice wedding and reception. What about the name or names used on my wedding invitations? Is it right for me to eliminate my own parents when they will be present?

★ ★ ★

Answer: Since the wedding is being given by your grandmother, the invitations should be sent out in her name, and read: "at the marriage of her granddaughter." This is not at all unusual

---

Dear Mrs. Post: When invited to a buffet party, is it up to the man to go to the buffet table and fill a plate for his companion and bring it to her, or does she help herself?

★ ★ ★

Answer: They usually go to the buffet table together so that he can help her to the foods that she chooses, or if she prefers, she fills her own plate.

ANGIE M. SODA

Mr. and Mrs. Frank Soda of Elizabeth Lake road announce the engagement of their daughter, Angie Marie, to Roger Davis, son of Mr. and Mrs. John K. Davis of Berkley. The bride-elect is a graduate of Guy Cari Beauty College, Royal Oak.

Newlyweds Reside in California

Making their home in Fresno, Calif. are Mr. and Mrs. Joseph Gerard Graef Jr.

★ ★ ★

The former Iva Ruth Pinkston is the daughter of Mrs. Aneta F. Pinkston of Mohawk road and the bridegroom is the son of Mr. and Mrs. Joseph Gerard Graef of Philadelphia, Pa.

★ ★ ★

The couple were married Aug. 1 in San Francisco. The bride, escorted to the altar by her brother, Charles B. Pinkston of Detroit, had her sister Mrs. Clinton M. Petty of Sunnyvale, Calif. as her only attendant. James Grealish of Daly City, Calif. was best man.

★ ★ ★

Ushers were James Witt, William Huey, Robert Burgess and another of the bride's brothers, Carl R. Pinkston of Pontiac.

Following a reception at Hunter's Point Officers Mess, the couple left for a honeymoon at Lake Tahoe.

★ ★ ★

Mr. and Mrs. Harold W. Mundy of Detroit, the bride's brother-in-law and sister, also attended the wedding.

Mother Knows Best About Dad's Clothes

By DOROTHY ROE
AP Women's Editor

Mother knows best what Father should wear.

This seems to be an accepted fact among manufacturers, designers and salesmen of men's clothing. When Mom comes along to help Pop buy a new suit, everybody is delighted. Stanley Goldman, one of the country's leading manufacturers of men's upper-bracket suits, explains it.

"The average man is not a shopper," Goldman says. "He dreads the idea of walking into a store and trying on things in front of strange salesmen. His main idea is to get it over with as quickly as possible, and get the heck out of there. So he orders the same kind of suit he's been wearing for the last 10 years and that's that. He resists the idea of a new style or a new color. He's a creature of habit, and becomes panicky when confronted with a change in routine.

★ ★ ★

"His wife, on the other hand, likes variety. She's interested in anything new. Moreover, she knows what looks well on her husband. If she goes along when he decides to buy a new suit, he's much more likely to come out with the right thing. And it also will be a much less painful performance. A man is timid about looking at anything new, he doesn't like discussing his clothing problems with strangers. But when his wife is with him, she's a friend, and he depends on her advice."

★ ★ ★

It's been a job, says this veteran expert in men's fashions, to get the American male to accept the new Continental styling of suits, and its present success is directly traceable to women's influence.

MORE CHESTY!

"The narrower line of the new suits, the slightly fitted look, the tapered trousers and sleeves all make a man look trimmer and more chesty — the way women like their men to look. Once a man has tried on one of the new styles, he's sold. But it usually takes a woman to persuade him to take the first plunge."

There's more style change in men's suits this fall than in many years, says Goldman, not only in cut but also in fabrics. The newest suitings are lightweight and comfortable, with subtle color blends. At first glance a suit may appear to be conservative dark gray, brown or navy, but on closer inspection it is seen that there are a number of colors making up the final effect. The effect is subdued, but the ingredients are colorful.

Since the average American man today buys only seven-eighths of a suit each year, when he gets a new one, it should be right. And if he's wise, says Goldman, he'll heed the advice of his spouse.

Fall Handbags

On tap for fall: tapestry handbags, many with leather handles and trim. Trim, in black, brown or beige, can be matched to shoes or gloves.

JUDITH A. COOPER

Announcing the engagement of their daughter, Judith Anne, to Pfc. Richard L. Vore, are Mr. and Mrs. Ray Cooper of Waterford Township. Parents of the prospective bridegroom are Mr. and Mrs. Orville Vore of Waterford Township. The couple is planning a fall wedding.

Bride-Elect Is Honored

Constance Marie Haaseth, bride-elect of Vernon Robert Christensen was honored at a shower Thursday evening given by Mrs. John Such of Lansing and Mrs. Leroy Kelley of Detroit in the Delrose drive home of their mother, Mrs. Oscar Schumann.

★ ★ ★

Mrs. Such will attend as matron of honor. Bridesmaids are Mrs. Kelley, Mrs. George Ralich and Delores Gustavson.

The wedding will take place Sept. 26 at St. Trinity Lutheran Church.

Parents of the couple are Mr. and Mrs. Einar Haaseth of Middle Belt road and Mr. and Mrs. Robert Christensen of Arlington, S.D.

★ ★ ★

Guests at the shower were Mrs. Haaseth, Mrs. Martin Tipolt, Joyce Tipolt, Mrs. Arthur Sampson, Mrs. Donald Hagadone, Mrs. William Maneck, Wendy Maneck, Mrs. Donovan Wharff, Mrs. Anthony Tassi, and Mrs. Russell Morrow.

★ ★ ★

Others were Mrs. Leslie Walters, Mrs. Ronald LaBarge, Mrs. Cleo Buttrey, Mrs. James Seifert, Mrs. James Salfi of Drayton Plains and Mrs. David Ligon of Bloomfield Hills.

Gives New Styling to Formal Clothes

The sweater look goes into evening cloths for fall and winter. Designer Oleg Cassini shows long-sleeved, turtle necked "sweaters" in black crepe, topping bell shaped, white satin skirts.

Turtle neck collars in contrasting knit top some of his skin-tight, daytime woolens also.

Senior Citizens Invited to Show Handicrafts

All senior citizens of Oakland County are invited to take part in the 1959 Senior Citizens Arts and Crafts Show to be held from Oct. 9 through Oct. 25 at the Detroit Historical Museum, Detroit.

The show, sponsored by Martin Kundig Guild, gives men and women of mature years an opportunity to exhibit their handicrafts.

Entries will be judged at the show and ribbons awarded in each category. After the show, exhibitors may offer their handicrafts for sale at Senior Arts and Crafts Shop, Livernois avenue, Detroit. Contact the show for further information and application forms.

Luxury Fur Class Includes Beaver

Beaver will move into the luxury-coat class in fall and winter. There are full-length white beaver coats, collared and cuffed in sable, chinchilla, or jaguar.

In black, the fur is draped with black monkey fur. Colored beavers include blue, crimson, mint green trimmed with lynx, beige, caramel, and a greyed beige.

NANCY CURTIS

Announcement is made of the engagement of Nancy Curtis to Thomas A. Davies. Parents of the couple are William Curtis of Waterford and the late Mrs. Curtis and Mr. and Mrs. Richard Davies of Waterford. Miss Curtis attended Central Michigan College. Her fiance attended Ferris Institute.

The subteener has all the fashion earmarks of her older sister this fall, especially in three-piece separates designed by Play-Pet togs. Ankle length corduroy "slim jims" and matching vestee make handsome companion pieces worn with a combed gingham, striped blouse. A matching striped belt comes with the "slim jims," and corduroy pedal pushers are part of the coordinated group, too. Colors are toast or red. Available locally.

Off for Pan-Am Games

By RUTH SAUNDERS

BIRMINGHAM — Interesting visitors spending a few days here en route to Chicago where they will attend and participate in the third Pan-American Games at Soldier Field, are Mr. and Mrs. C. T. Newberry and their daughter Jessica of Croton-on-Hudson, N.Y. and Mr. and Mrs. Fritz Linsenhoff of Frankfort, Germany.

Jessica, who is a finished pupil of Mrs. Linsenhoff in show riding and dressage, studied with her attractive instructress in Europe last year. Both will be riding next week. They are all staying at Bloomfield Hills Country Club over the weekend.

Mr. and Mrs. Philip Moses and Mr. and Mrs. Irving A. Duffy are among dinner hosts to the visitors.

Frank Duffy is secretary to one of the judges in horsemanship.

★ ★ ★

Mr. and Mrs. Thomas C. Morgan of Morningview Terrace and their son Thomas Jr. have returned from a visit with Mr. and Mrs. Harold S. Morse in Wolfboro, N.H.

At a lawn party in their home on Lake Winnipesaukee Mr. and Mrs. Morse announced the engagement of their daughter Mary Ellen to Thomas C. Morgan Jr.

Mary Ellen was graduated from Bradford Junior College and Tom attended Albion College where he was a member of Delta Tau Delta fraternity. A June wedding will be planned.

★ ★ ★

Invitations written in German bade friends of Mr. and Mrs. Fred C. Matthaei Jr. to an out-door affair Sunday.

Guests were asked to wear German costumes to the affair which will be given at the senior Matthaei's farm near Ann Arbor.

★ ★ ★

Nancy Treganza will be hostess this evening for bride-elect Judy Wood.

Gretchen Raeder was hostess at luncheon Tuesday for the bride-elect and Mrs. John F. Wood and her daughter Virginia will give a luncheon next Thursday at Oakland Hills Country Club.

Judy will be married Sept. 9 in New York to Louis O. Molella of Millbrook, N.Y. She will leave next Sunday to fly to New York with her mother Mrs. John G. Wood of Lone Pine Hill.

★ ★ ★

Mr. and Mrs. Norman F. Goeckel (Jane Dodds) announce the birth of twins, Patricia Raymond and William Frederick, Aug. 21.

LILY PONS

Star of Metropolitan Opera, concert, radio and TV, Lily Pons tells how to make a homey atmosphere while traveling.

Home Can Go Along While You're Traveling

By LILY PONS

Travel is much a part of a singer's life as vocal practice.

To the professional, the days build up a great longing for the cherished . . . and far away . . . reminders of home.

★ ★ ★

In time, one learns how to make the home away from home a part of gracious living.

It is the familiar place that I seek to make a home away from home more than just a convenient stopover, whether it be a hotel, a motel or even the confined quarters of a railroad compartment.

I truly enjoy the opportunities these transient moments give me to turn standardized, albeit quite comfortable surroundings into an atmosphere of home-like familiarity and warmth.

SENTIMENTAL LIKE MOST

Most artists are sentimental . . . and I admit that I am no exception.

My sentimental longing for my home and my own fireside is eased by the knowledge that wherever I may be, I find comfort in the personal things that always go with me on my travels.

Like so many others who spend so much time "on the road," I long for something of my own to remind me of my home and my dear ones.

When I travel a decorative and individual touch of color has its comforting aspects. I have a personal antipathy to the dull browns and greens so often used in decor in places accommodating travelers.

I like orange, for example, because its bright cheeriness gives me a lift and reminds me of the warmth and beauty of my home in California and the Riviera in France where I was born.

That is why I love a profusion of bright flowers in the hotel room. Further, I always carry two colorful silk cushions and a bright orange throw to spread over a drab hotel sofa, a Pullman chair or a berth on a train.

RECORDS GIVE LIFE

A few bright scarves, which take up as little room as handkerchiefs go far toward brightening strange quarters.

I have many favorite records. From these, I select those that have a particularly personal appeal and so I liven a "travel" evening with the solace of good music played over the portable phonograph that always accompanies me.

Good books also help in whiling away the hours. For that reason I carry a small reading light which supplements the lighting facilities of hotel rooms.

★ ★ ★

Even the occasional traveler finds homesickness a travel hazard. I firmly believe that a familiar object or a family photograph, tucked away into a suitcase, and brought out to be seen on a dressing table when arising helps assuage this longing for home and family.

If rest is a problem, solve it, as I do, by taking along a favorite pillow for sleeping.

And rest to those of us who travel helps greatly in overcoming the problems that may arise the next day.

IRON A 'MUST'

Just a few suggestions for further traveling convenience: a compact and light traveling iron is a "must" for women; two or three towels help overcome a possible laundry shortage or delay; a heating pad or an extra blanket and, of course, plenty of facial tissues should be an integral part of your luggage.

And so — happy traveling!

Dear Abby Says:

You Better Study Your History!

By ABIGAIL VAN BUREN

DEAR ABBY: I have spent 25 years learning how to get along with my neighbors but these people from Europe who are flooding the U. S. really throw me.

They say our children are "gangsters" and that our schools teach nothing. These immigrants all graduated from colleges (in Europe, of course) and everything was better there than it is here. It's impossible to win an argument with them.

ABBY

I wish I were head of the U.S. Immigration Dept. for just one day! You're an American girl, Abby. Give me a defense. BOTHERED

DEAR BOTHERED: I am an American only because my forebears migrated to this country — and so are you (unless you happen to be a full-blooded American Indian.)

May I quote the message on our Statue of Liberty: "Give me your tired, your huddled masses, yearning to breathe free. The wretched refuse of your teeming shore, send these, the homeless, tempest-tossed to me. I life my lamp beside the golden door!"

★ ★ ★

DEAR ABBY: My niece is getting married and we have an invitation to the wedding. My daughter, who is 16, also got one. Our son, who is 12, was not invited. I felt bad about this and called my niece and asked if our son could come.

She said she was sorry but no children under 14 were invited as she had to draw the line somewhere. I can't go and leave the boy at home alone, so I told her none of us was coming. My daughter is upset because she wants to go. And if we all stay at home do I still owe the bride a gift?

AUNT E.

DEAR AUNT: You were wrong in punishing your daughter because your son was not invited. (Surely he can stay with a friend for a few hours?) "Drawing the line" is necessary and the bride's decision was not unreasonable. One never "owes" a gift, but under the circumstances I think you owe the bride an apology.

★ ★ ★

DEAR ABBY: I am an American sailor who has been married 16 months to a Spanish girl. Before we were married she was very affectionate and loving. Since our marriage she is a different girl. She has no affection for me at all. For almost a year we've been living like brother and sister. I am sure she has nobody else. What should I do? MAC

DEAR MAC: Your wife should definitely consult a doctor. Long time no "Si."

★ ★ ★

CONFIDENTIAL TO MIXED UP:" From your letter I would say that you are far from ready for marriage. No girl in this day and age accepts an engagement ring because it is "forced on her." Return the ring and tell him you want to think it over.

★ ★ ★

To get ABBY's pamphlet, "What Every Teenager wants To Know," send 25c and a large, self-addressed, stamped envelope to this paper.

Have You Tried This?

Undiluted Soup Poured Over Chicken Pieces

By JANET ODELL
Pontiac Press Home Editor

There are dozens of ways to cook chicken and we're always hearing about new ones. This one from Mrs. Fred Raetzk is a simple dish you can put in the oven and forget until serving time.

Mrs. Raetzke has a real zest for living. She is interested in people, loves to read and enjoys a good bridge game. Knitting and handwork are leisure time activities. She is a member of the Saybrook group of her church.

CHICKEN A LA AGNES
By Mrs. Fred Raetzke

1 frying chicken cut in pieces
Margarine or butter
Poultry seasoning
1 can cream of chicken soup
Milk for gravy

Rub pieces of chicken with butter or margarine, salt and pepper and poultry seasoning. Put in baking dish. Cover with undiluted soup.

Bake 1 to 1½ hours in 350-degree oven. Cover for first hour with aluminum foil. Uncover to brown. Serve with milk gravy, using whatever liquid is in pan.

Parents, Don't LET Junior Assault You

By MURIEL LAWRENCE

A mother was complaining to a psychologist of her 5-year-old's defiant behavior. She said: "He pays no attention to anything I say. If I tell him to come in off the street, he runs across it. If I tell him to quit teasing his baby brother, he'll push or hit the baby. What do I do with a child like that?"

"Stop him," said the psychologist.

There was a slight pause. Then the mother of the 5-year-old said, "Suppose he assaults me?"

Now, this lady is not a midget. She is an adult of average size. She outweighs her son by many, many pounds. So in any physical struggle that might result from propelling him in from the street or restraining his attacks on the baby, she has the manifest advantage. Why then, hasn't she used it? Why do so many of us fear assault by a child when we possess the strength we need to resist his assault?

Perhaps what we fear is not physical hurt by the child, but moral hurt.

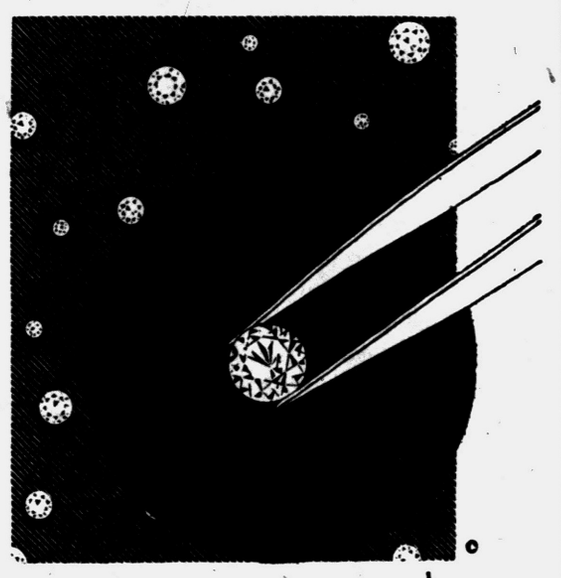
We may fear he'll stop loving us if we restrain him—that if we use our advantage or superior physical strength he'll get so mad he'll devise some awful punishment for us and disgrace us as a bad, unloved parent before other people.

★ ★ ★

Sometimes, like the mother we've just described, we're not aware we're scared of moral hurt. Sometimes, when someone suggests that we use physical restraint, we ask the question she asked the psychologist—"If I stop the child, won't I make him maladjusted?"

Today many parents think that their fear of restricting a child is devotion to his emotional health. This is, of course, their way of avoiding any interest in their own. By convincing themselves that his emotional health depends on their submission to his defiant conduct, they can remain blind to the real problem —their fear of his anger.

Much parent education has encouraged this fear in us. By threatening us with children's maladjustment if we aren't constantly "loving" and "accepting" parents, it has made us afraid not only of using our muscles to restrain children but taught us to forget that we have them. But the reality remains that we do possess adult bodies.



All Diamonds Were Not Created Equal

Outwardly, except for size, one would assume that all diamonds are alike. However, *cutting, color* and *perfection* of the stone all have an important bearing upon the diamond quality. Only through years of study and experience comes the ability to recognize the true character of a gem.

Select your diamond with confidence from the oldest Jewelry Store in Pontiac — Where only fine quality diamonds have been sold for more than sixty years.

As much for men only as the cigar, the fedora and the derby are lifted for the ladies this fall. Men's felt hats like these modeled by Ruth Copeland (left) and Inge Gruber are becoming women's wear, continuing a fashion trend that saw the ladies donning mannish straw hats during the summer.

Isn't 'Ideal Husband' Just a Little Boring

By RUTH MILLETT

An ideal husband, judging from the articles, advertisements, and fiction in women's magazines is one who—:

Takes over the children when he gets home from work, so that his worn-out wife can get a little rest at the end of a hard day. (Supposedly Papa has been loafing all day himself.)

Spends his weekends either on do-it-yourself projects which the little woman has dreamed up or on family outings. (Only a cad would look forward to a golf game or poker with the boys.)

Discusses all family problems with his wife, which is called "talking things over." (Instead of hiding behind a newspaper or sneaking off to his workshop to get away from it all.)

Pitches in to help with dishwashing, marketing, etc. (No easy chair for him, while Mama cleans up the kitchen and gets the kids to bed.)

Never makes a decision without first consulting the little woman. (How can you have complete "togetherness" if Papa is going to decide things on his own?)

Is a pal to his children. (Even though what they may need more than a pal is a father who demands and gets their respect and who is the voice of authority in his own household.)

Encourages his wife to "express herself." (That means he doesn't grumble if Mama is too busy being a do-gooder to keep up the house.)

He's something quite new in the way of husbands, this ideal as pictured by the women's magazines.

He may be easy to live with and the answer to the modern maiden's prayer. But isn't he going to be a trifle dull, once he's given up all of his masculine independence to become little helper and the kids' best pal?

Plastic mesh balls, designed to clean china and silver without scratching, also are good for scraping potatoes, carrots, beets and other root vegtables.

Gifts Shower Barbara Before Trek to Altar

Barbara Hutchings, bride-elect of James B. Knapp, was honored Wednesday evening with a miscellaneous shower given by her aunt, Mrs. Curtis E. Patton of South Tilden avenue and her cousins Denise and Beverly Patton.

★ ★ ★

Guests at the shower were the bride's mother and sister, Mrs. Margery Hutchings of Ramona terrace and Vivienne Hutchings, and the bridegroom's mother and sister, Mrs. Bruce Knapp of Sylvan Village and Carol Knapp.

Others were Mrs. William Condon, Mrs. Elna Haines, Mrs. J. C. Landon, Mrs. R. E. Kurnz, Mrs. Jess Toles, Mrs. Joseph McCarthy, Mrs. Bertil Cedarleaf, Mrs. William Brandt, Mrs. Forest Wood, Mrs. George Wetterhahn, Mrs. Robert Winowiecki and Mrs. Robinson Bronoel.

Concluding the guest list were Mrs. Harlan Boyce, Mrs. Edwin Scott, Mrs. Lois Tutor, Janice Antona, Mrs. Florence Clinton, Mrs. William Laekn, Mrs. Adam Wild, Mrs. Raymond Matheison, Mrs. A. J. Stilwell, Mrs. Charles Vlaeminck and Mrs. Jerome Stewart.

★ ★ ★

The wedding will take place Sept. 12 at All Saints Episcopal Church.

This exercise from Josephine Lowman's leaflet No. 19, "Essential Daily Routine for Beauty and Health," is called the pendulum swing.

Measurements Are Real Guide

Tape-Test Your Figure

By JOSEPHINE LOWMAN

Q. "I am beginning to gain some weight (a few pounds which I need) and I would like to take some exercises which will distribute it attractively. My measurements at present are in proportion. Will you please recommend some exercises which I could take for this?"

A. The three spots in which weight is apt to land and the three measurements women do not usually want increased are the waist, abdomen and the hips. Therefore I suggest that you do one or two slimming exercises from each category every day.

★ ★ ★

I have a short routine of exercise planned especially for women. This would be good for you because it gives you exercises for the most usual defects in figure. These, in your case, could be used preventively. If you or any of my readers would like to have this leaflet, send a stamped, self-addressed envelope with your request for leaflet No. 19. Address me in care of this newspaper.

★ ★ ★

CAN'T GAIN

Q. "Please help me. I am tired of being left out. It seems that girls who do not eat much have nice shapes while I stuff myself and cannot seem to gain. The other night I spent the night with a girl friend who has a good shape and I was stuffing myself with crackers and a coke and she said, 'That's the most I have eaten for a long time.' I try to find high calorie things to eat. I guess I do not know what they are."

A. In the first place if you are trying to gain weight you should have had crackers and a glass of whole milk or a chocolate milk instead of a coke. A coke has 85 calories and a glass of milk 160 calories. A piece or two of bread with butter and jam or jelly would also have zoomed your calories intake. The first and most important thing is to eat a well-balanced diet. After that you can build your intake with in-between meal glasses of milk, milkshakes, ice cream, cookies and such items. However, don't let this cause you to leave off fresh fruits and vegetables. Vitamin deficiency is one of the causes of underweight.

Q. "Could you tell me how old one must be to have plastic surgery on the nose? Would a sinus infection in any way affect it? This is terribly important to me for special reasons."

A. Not until the age of 17. Some surgeons prefer 18. You should consult a physician about the second part of your question.

Tomorrow: "Measurements are Real Guide to Perfect Figure."

Model's a Mechanic

Don't Run Out of Gas With Her or You'll Be Overhauled, Boys

By MARY PRIME

NEW YORK (UPI) — Blonde Rita Mueller, a TV and photographic model, once was told she was best suited to become an airplane mechanic.

The vocational counselor wasn't far wrong. She became an auto mechanic.

"I thought I'd start with cars," said Miss Mueller, 24, who measures 36-23-36 and is 5-feet, 6-inches tall.

She bought a 1926 Willys-Knight and enrolled in a vocational school in her native Milwaukee to learn mechanics. She studied for a year after leaving college, then became a pit mechanic at sports car races. She also repaired her own and her friends' cars.

Has she ever used a bobby pin for repairs?

"Bobby pins, hair pins, and occasionally nuts and bolts. I once mended a carburetor with a bandage, and I fixed a boat with a can opener. Women's intuition and a slight mechanical knowledge will do wonders," she said in an interview.

Once Miss Mueller was stopped for speeding in her antique car.

The traffic policeman was visibly shaken to find a girl at the wheel—especially a girl like Miss Mueller . . . wearing shorts. But he went ahead and filled out a ticket.

Then Miss Mueller explained that the car would not go more than 24 miles and hour, and to prove it, asked the policeman to look under the hood.

★ ★ ★

"When he saw that bandage on the carburetor, he tore up the ticket and let me go," she laughed.

Miss Mueller had to give up mechanics full time when she became an airlines stewardess to South America. She also was a script summarizer for a movie producer in Paris and a secretary. The she turned to modeling.

Today, she gets $35 an hour for posing for hosiery ads in catalogs to live fashion modeling, television and photography work. She studies acting and hopes to become both a dramatic actress and comedienne. She also has appeared as an extra in movies and TV.

★ ★ ★

An active sportswoman, she speaks Spanish and French and designs and sews her own clothes.

"I made this out of a sheet," she said, indicating her full, white skirt. With it, she wore a wide green belt and a white T-shirt.

"If I didn't have to make a living," she said, "I'd devote more time to cars again. I've always dreamed of having a large, well-equipped garage.

"But right now I can't do my favorite job — packing wheel bearings in grease. I had to quit because it's too hard on my hands — and Jack Paar wouldn't let me continue the hand commercials on his show."

But she still tinkers enough with cars so that "dates can't pull that run-out-of-gas routine."

MARY ANN NEVILLE

Mr. and Mrs. Allan Neville of Boston street announce the engagement of their daughter, Mary Ann, to Jerry Yeacker. He is the son of Mrs. A. R. Augustine of Lakeview and the late Herman Yeacker. Miss Neville attended Madonna College. A Nov. 21 wedding is planned.

Sort and Check

Sorting clothes before sending them to the laundry is also a good time to remove pins that might tear clothes, turn pockets inside out, and check French cuffs to make sure that cuff links are removed. Be sure to remove all nonwashable trimmings and any buckles or buttons that are not colorfast or washfast.

Cotton Raincoats Can Go Anywhere

Cotton raincoats can step out in showers, attend the theater or go to sea, reports the National Cotton Council

Many coats have daytime checks, prints and styling on one side and sophisticated prints, lace, or dressy white poplin on the other. Silhouettes range from five-eighths' length to flaring great coats. One model from Lawrence of London is a leopard-print great coat with slashed pockets and high-fashion styling.

Polish Magnifies Unkempt Fingers

Polishing dirty nails destroys the illusion. Bright polish makes grubby fingers stand out.

When manicuring, soak fingers in warm soap and water. Dry carefully. Then remove old nail polish and use a cuticle lotion or cream. Wash hands again. Then apply polish.

Hot, Cold Water Applications Help

Aside from the use of an eye solution, a woman can make her eyes sparkle with water. First, dip a soft cloth in hot water and hold it to the eyes.

Follow this with a cold application. Usually, in the morning a cold compress to the eyes tightens the skin in that area, chasing away that baggy look.

To add extra glamour to your after-five appearance, try the new eyeshadow that comes in iridescent colors. It gives eyes that luminous look which is so fashionable these days. May be purchased locally.

Use Face Powder Lavishly; Let Set

Face powder is still a big part of a make-up problem. Dust on powder as lavishly as you apply it to an infant.

Let the powder set for a short time and then brush the excess away. On the cheeks, make certain the strokes are downward. In this way you won't ruffle the tiny facial hairs and will have a smoother appearance.

by Anne Adams

Fashion's shapely sheath in a beginner-easy version — no waist seams. Versatile for any hour, any day in cotton blend, wool jersey, or fluid crepe. Wear it with or without a belt. Tomorrow's pattern: Junior Miss.

Printed Pattern 4906: Misses' sizes 10, 12, 14, 16, 18. Size 16 takes 2⅞ yards 54-inch fabric.

Printed directions on each pattern part. Easier, accurate.

Mrs. Parks Ends Postal Career

By REBA HEINTZELMAN

HIGHLAND TOWNSHIP — After 23 years of faithful service as postmaster here, Mrs. Monica Parks will walk into the township's new post office building Monday and formerly retire.

This is the day that Pontiac's postmaster, Donald Woodward, will officially perform the transfer ceremony of accepting Mrs. Park's resignation and establishing Malcom McDonnell as new postmaster.

It will be a sad day for the pert little woman who has made thousands of friends with her courteous and efficient distribution of correspondence.

Patrons' complaints have been few down through the years since Mrs. Parks quit being a school teacher to sort letters.

In the wintertime for years, Monica carried coal for an old pot-bellied stove in a drafty building used as a post office here. "That stove just would not hold a fire," she recalled, "so I had to build a new blaze every morning to heat the building."

There were no water pipe freezing problems in the early post office days, because there were no water pipes. And many times the hand pump stayed frozen from December to March.

At first, there were only 35 people with postal addresses. Today, the little community post office services some 800 patrons in White Lake and Highland Townships and at Duck Lake.

Mrs. Parks has been a happy woman down through the years as postmaster. (Postmistress is a long-gone term, she said).

She and her husband have raised two children, who are now married and live within a short distance of their parents.

Mrs. Parks said she is going to miss seeing her many friends every day, but has been collecting delicious sounding recipes for years, and plans on getting down to the business of "fun-cooking for the rest of my life."

Novi Votes Incorporation Sept. 15

Blood Bank Due at Novi Monday From 1 to 7 P.M.

NOVI—A Red Cross Blood Bank is being set up for the Village of Novi. Donors will contribute pints of blood toward the first blood bank here in many years from 1 to 7 p. m. this Monday.

A staff of regular doctors and nurses will be on hand to take donations at the Novi Community Building, located on Novi road near Grand River avenue.

So far, 256 persons have made pledges to the bank. The blood, which will be reserved for use in Novi, will be stored at the Red Cross Blood Bank in Pontiac. The bank has supplied 41 pints to persons in Novi since April.

Transportation to the bank and back will be furnished free to would-be donors by the Nvi Cab Co. upon request.

Royal Oak Twp. Man Accused in Mishandling Funds

Board Demotes School Superintendent

ROYAL OAK TOWNSHIP — Demoted from superintendent of the George Washington Carver Elementary School to teacher status for alleged mishandling of school funds, Oliver A. Johnson said yesterday he has not yet decided if he will appeal the school board's action.

The board voted 4-0 in favor of the demotion, accusing Johnson of misfeasance, non-feasance and malfeasance in handling of school finances. More than 100 residents and teachers in the district attended the meeting.

The board said there was no indication Johnson had taken money unlawfully. However, it contended disbursements had been made without evidence of formal contracts, receipts or invoices.

The demotion stems from the annual report furnished by Sutherland and Robson, a Plymouth accounting firm, which stated that Johnson borrowed $3,000 from personal sources to meet teachers' pay checks during the 1957-58 school year.

Johnson, superintendent for four years, called the action a political maneuver and said he hadn't decided whether to appeal the demotion to the State Tenure Commission.

The State Department of Public Instruction has ordered the district's final 1958-59 school aid payment delayed pending further investigation.

Mrs. Adelaide Long was named acting superintendent to serve when classes resume Sept. 8.

A total of $1,243 was reported unaccounted for in the 1957-58 audit of the school's hot-lunch program. According to the report, $5,832 in food had been sold and only $4,888 had been deposited in the fund.

★ ★ ★

No formal charge has been made against Johnson.

Mrs. Long said he had been offered an opportunity by the board to resign but refused.

BERNARD L. BLAND

Bernard Bland Gets Stone Principalship

AVON TOWNSHIP—The Avondale Board of Education announces the appointment of Bernard L. Bland to the principalship of the Stone Elementary School.

Born in Oaktown, Ind., Bland, who is 31, is married and has two children.

He has both a bachelor's and a master's degree from Indiana State Teachers College and presently is working on his doctorate at Michigan State University.

The new administrator taught elementary school for several years in Lake County, Ind., and served for two years as a teaching principal in that school system.

While working on his doctor's degree at MSU, Bland also served as an instructor with the responsibility of supervising student teachers.

2 Meetings Set Before Election

Candidates for Charter Unit and Incorporation Expert to Be Heard

NOVI — Voters will go to the polls in a special election here Sept. 15 to decide whether the village should be incorporated as a city.

The public meetings on the proposed incorporation have been scheduled prior to the election.

On Sept. 8, a panel of 17 people, each of whom has filed a petition to seek one of the nine seats on a charter commission should voters approve the village's taking on city status, will answer questions on incorporation — what it would mean for the individual and the community as a whole.

It would be the commission's job to write a city charter if the issue passes at the polls.

This first meeting will be held in Novi Community Hall on Novi road near Grand River avenue at 7:30 p.m. It is being sponsored by the Willowbrook Civic Assn.

The association has not taken a formal stand on incorporation, but has called the meeting to hear views of the public on this issue.

The second meeting, scheduled for 7:30 p.m. at Orchard Hills School on Quince drive just south of 10-Mile road, will present incorporation expert William R. Gable of the University of Michigan Extension Service.

He will speak on "The Advantages of Incorporation."

EXPECT LARGE TURNOUT

A large turnout is expected at the Village Council meeting, at 8 p.m. Monday in Community Hall, when council members will go over the incorporation issue in detail.

The proposed city would take in the present limits of the village which is bordered by Haggerty, Eight Mile, Napier, 12 Mile, and Beck roads, then bordering along Walled Lake to 14-Mile road.

Pontiac Press Photo

PROMOTING SOIL CONSERVATION — First of the new stamps promoting soil conservation are being sold to Buel Starr of Springfield Township, General Manufacturing manager for Pontiac Motor Division, at the Post Office in Pontiac. Making the sale is Postmaster Robert C. Miller at right. Starr, who owns a 210-acre farm, is a staunch adherent to soil conservation practices.

Seek Rezoning for Drag Strip at White Lake

WHITE LAKE TOWNSHIP — A request for a change in zoning laws to enable construction of a drag strip on M59 will be considered by the township board at a special meeting at 8 p.m. Tuesday.

The Pontiac Speedway Race Track on M59 is seeking the change to enable construction of a quarter-mile drag strip on property adjacent to the present track site, near Cranberry Lake.

The property in question is now zoned agricultural and would have to be changed to commercial to allow the addition to the race track's facilities.

Austria has more doctors per capita than most other countries, and it draws medical students from all over the world. Vienna, whose roster includes Freud and Adler, has served as a cradle of medical genius.

Avondale Teachers to Meet

Preschool Conferences Tuesday

AVON TOWNSHIP — All teachers in the Avondale School District will meet at the high school at 9:30 a.m. Tuesday for preschool conferences preceded by a coffee hour. Refreshments will be served by the Avondale Education Assn.

★ ★ ★

Miss Margaret Rose, AEA president, will preside at the first general session which will start at 10 a.m. R. Grant Graham, Board of Education president, will welcome the teachers.

Supt. of Schools LeRoy R. Watt will introduce the guest speaker, Dr. Carl Horn, professor of education, Michigan State University. Dr. Horn's topic will be "A Different Look."

Activities of the local education association will be explained during the second general session to be held from 1 to 2 p.m. Principals will preside at separate building meetings from 2:30 to 3:30 p.m.

RECONVENE FOR DINNER

Teachers and administrators will reconvene at 6:30 for a dinner meeting in the senior high school cafeteria. The Board of Education and new teachers will be guests of the AEA.

The coffee hour at 8:30 a.m. Wednesday will be sponsored by the parent-teacher associations in the district. Supt. Watt will preside at the fourth general session slated to open at 9 a.m.

Building meetings are scheduled for both 10:30 a.m. and 1 p.m.

Students will register Thursday with buses to run on the following schedule:

8:10 a.m.: Juniors and seniors only at senior high school.

8:14 a.m.: Junior high — all students.

8:30 to 9 a.m.: Elementary schools — all students.

10 a.m.: Buses to return elementary children to their home bus stops.

10:30 a.m.: Buses to return junior high students to their bus stops.

11 a.m.: Junior and senior high school students to their home bus stops.

1 p.m.: Buses to pick up freshmen and sophomore high school students.

2:30 p.m.: Buses to return freshmen and sophomore high school students to their home bus stops.

Kindergarten, first, second and fifth grade pupils living in North Adams, Cherrylawn, Oak, N. Squirrel, Juniper, Chapel Hills, Hillview and Auburn Heights Mobile Village areas will register at Stone School.

★ ★ ★

Third and fourth graders in the same areas will register at Auburn Heights Elementary School.

On Sept. 4, the school buildings will be open for students who could not register Thursday.

Classes will be conducted on the regular schedule on Tuesday, Sept. 8, and there will only be a half-day of school Sept. 11.

MRS. GERALD M. GUERIN

Mr. and Mrs. Gerald Landall of 3621 Woodcrest Dr., Auburn Heights, announce the recent marriage of their daughter, Jerry Ann, to Gerald M. Guerin. He is the son of Mr. and Mrs. Ellsworth Guerin of 3051 Eastwood Dr., Avon Township. The ceremony was performed at St. Paul Methodist Church in Rochester, after which the newlyweds departed on a honeymoon in Northern Michigan.

State Mushroom Queen to Be Picked at Utica

UTICA — Michigan's Mushroom Queen of 1959 will be selected here Monday from a field of some 15 candidates immediately following the regular meeting of the Utica Kiwanis Club.

The judges will pick the queen and two maids of honor. The trio will be crowned at the second annual Kiwanis Mushroom Bar-B-Q Sept. 20.

The local service club and the Mushroom Growers Assn. sponsor the event, and the judges will represent both organizations.

Girls competing for the title will be from Utica, Warren, Mount Clemens, Richmond, Roseville and St. Clair Shores.

★ ★ ★

The barbecue will be held at Utica Community High School with Congressman John G. O'Hara of Utica officiating at the coronation.

Romeo Slammed by Electrical Storm

ROMEO — Yesterday's violent rain and electrical storm here kept local Department of Public Works and Detroit Edison Co. crews busy removing fallen branches, unplugging overtaxed sewers and repairing downed power lines.

The rain, which fell "in buckets," according to witnesses, caused streets to look more like rushing streams. The waters carried muck and mud along, and householders turned out with shovels to clear up the debris.

One house, at 328 N. Bailey St., was struck by lightning, but damage to the roof was slight. Power lines were down on Dickinson street and many basements were wet.

Alcohol Statistics High in South Africans

JOHANNESBURG (UPI) — At least one person out of every 30 men, women and children in the South African European population is an alcoholic, according to an estimate by officials at "Northlea," a treatment center for alcoholics located just outside Johannesburg.

A figure used by U. S. researchers is that roughly one of every 36 Americans is an alcoholic.

Sorry, Ma, No More 100s Without Pencil

MILWAUKEE (UPI)—Mrs. Roy Klein told her son James, 7, she would give him a nickel for every school paper he brought home marked 100.

For two weeks, James brought home quite a few 100's. Then James returned one day quite depressed.

"I can't get any more 100's," he said. "I lost the red pencil that grandma gave me."

Minneapolis has 152 landscaped parks, covering 6,000 acres.

Dryden School Names Dates

Opening Day Is Sept. 9; Registration to Start Next Tuesday

DRYDEN — Dryden Community School teachers will begin registering pupils Tuesday for the coming school year which opens on Sept. 9.

High school freshmen will register on Tuesday, sophomores on Wednesday, juniors on Thursday and seniors on Friday. Hours will be from 9 a.m. to noon, according to Fred W. Patterson, superintendent of schools.

Kindergarten registration will be Wednesday morning and Thursday afternoon. Children in grades one through eight will register on opening day, Sept. 9.

Class schedules, book rentals and locker fees will be handled at the time of registration.

Preschool conferences for teachers will be held Sept. 8, and the buses will operate on last year's schedule beginning Sept. 9.

Three graduates of Michigan State University have been added to the teaching staff this year, Patterson said.

Ex-West Pointer Gives Nixon Tips

Army Lt. Peter M. Dawkins of Royal Oak, former West Point football star, gave Vice President Richard M. Nixon some pointers on forward passing yesterday.

It was all done before a battery of cameramen to mark the start of the 1959 national fund appeal for the Sister Elizabeth Kenny Foundation.

★ ★ ★

A star scholar as well as a star athlete and president of his class at West Point, Dawkins underwent Kenny treatment from 1950 to 1954 after an attack of polio at the age of 11.

The 21-year-old Dawkins, who just completed parachute training at Fort Benning, Ga., after graduating from the U. S. Military Academy at West Point, N. Y., in June is the son of Dr. and Mrs. Henry E. Dawkins of 1829 Greenleaf Dr., Royal Oak.

Wants to Be Architect

British Lad to Spend Year in Orion

By LEE WINBORN

LAKE ORION — Seventeen-year-old Peter Hutcheson of Windsor, England views his forthcoming school year in the United States with an open mind.

"I haven't decided what particular activities or sports I want to take part in," he said, adding that he will try his hand at almost anything.

★ ★ ★

The young Britisher's main interest, however, is architecture, and while a foreign exchange student at Lake Orion Community High School he will take drafting as one of the prerequisites for his chosen profession.

Other courses he will sign up for are American history, American government, English and typing.

And the atmosphere in the home where he is a house guest for the coming school year should be quite conducive to concentrated study which Peter says he is already used to at home.

FROM FAMILY OF 4

His foster parents are Superintendent of Schools and Mrs. Arlie A. Reed, of 207 E. Hemingway St.

Peter is a member of a family of four including his father, mother, and an older brother David, 21, who is stationed in Germany with the Royal Navy.

His father, Alec Hutcheson, is a foreman in an English textile factory.

Since coming to Michigan, Peter already has had the opportunity to visit some of its most scenic points of interest in the Upper Peninsula.

He accompanied the Reeds on a week-long vacation to Sault Ste. Marie, Tahquamenon Falls and other Northern Michigan vacation spots.

Before coming to America, Peter attended the technical school in Slough, which is a trade center near his home.

YEAR OF BASICS

He has taken a year's course each in plumbing, brickwork and joinery which are the "basics of the building trade and the fundamentals for the study of architecture," he explained.

"Then, when I graduate from high school, I'll go to what is called a 'further education' school where you attend classes once or twice a week while working as an apprentice in your chosen profession," said Peter.

Peter has two foster brothers now, Tom Reed, 15, and Jack Reed, 18, and the three boys already have taken sides on whether rock 'n' roll is on its way out.

★ ★ ★

"I think it's through, but Tom doesn't agree," Peter asserted. "Personally I prefer the slow-type jazz and ballads to that rowdy kind of music."

In addition to music, Peter's particular interests are many and varied. He is a camera enthusiast, collects stamps, likes to play billiards, does a little sketching and enjoys hunting and fishing.

"I played rugby in England, and I think I'll go out for football here," the teenage visitor said.

'RUGBY TOUGHER'

"I believe rugby is probably tougher than football," Peter asserted. But he admitted that he has yet to see the Lake Orion gridders in action when they only have a few yards to go for a touchdown.

Pontiac Press Photo

ARDENT HOBBYIST — Seventeen-year-old Peter Hutcheson of Windsor, England, counts stamp collecting as one of his many hobbies. A foreign exchange student at Lake Orion Community High School this year, Peter is a guest of Superintendent of Schools and Mrs. Arlie A. Reed during his stay in this country.

Is Backyard Paving Smart?

Patios, Sidewalks Can Make Your Grounds More Valuable, Pretty

Busy highways and hot city concrete got you down? Like to escape to your own cool, grassy backyard?

Good idea. But a Michigan State University extension specialist in landscape architecture reminds that you shouldn't give up the idea of backyard paving—it can make the yard more attractive, usable, and interesting.

The specialist offers these suggestions for improving the back yard.

Patios, play lots enclosed with pavings, driveways, and sidewalks can make your grounds more valuable. If well designed, they can add to the attractiveness of the home, too.

A bulletin issued by the department, called "Landscape Paving for Home Grounds," lists recommendations and suggestions for aiding "do-it-yourself" work.

PAVING MATERIALS

Good and bad points of the several paving materials are discussed. Expense, color, adaptability, and ease of installation are included in the summary.

Paving materials discussed include asphalt, brick, concrete, flagstone, various aggregates, tile, and wood. The bulletin is available at the office of your county extension office, or from the university bulletin office in East Lansing.

The tips are especially timely now, for the dry fall season is an excellent time for outdoor work, says the specialist.

Pontiac Press Photo

CALIFORNIA GIANTS — Jack had his bean stalk, Mr. and Mrs. Norman Burnell of 70 S. Shirley Ave. have their zinnias. Looking more like Michigan sunflowers, these California plants are between 10 and 15 feet high, and one of the blossoms is almost 15 inches in diameter. What is considered a tall zinnia usually reaches heights of only about three feet. Mrs. Burnell, shown here with her plant, truly has a giant on her hands.

Rare, Costly Wax Responsible for Shoeshine

NEW YORK (UPI—One of the world's most expensive and rarest waxes — and one of the most difficult to obtain — is largely responsible for the shine in your shoeshine.

It's called carnauba wax; it comes from a tree called the carnauba palm; and it's found only one place in the world: Brazil.

According to researchers at the Esquire boot polish laboratories, the palms must be at least 10 years old before any wax can be obtained from them and only 20 leaves are cut from each tree annually.

The leaves are then dried in the sun three or four days and taken to a special room where they are beaten to dislodge the wax, which comes off in a fine powder that is melted in a vat, strained through a cloth and allowed to cool. Each tree yields only about three and a half ounces of the stuff annually.

Twig Measurings Give Early Clue to Tree Declines

Amateur tree docs can operate their own growth detection clinics right in the back yard. Almost anyone can accurately check annual growth. The only diagnostic "instrument" needed is a tape measure or ruler.

Examination of any tree twig discloses that the end of each year of twig growth is marked by a ring or a series of encircling rings. If you look at a twig in the Spring before growth starts, the first series of rings marks the beginning of last year's growth while the second series of rings marks the previous year's growth. Often this record can be traced back many years.

If the twig growth is vigorous the tree will be in good health and well-clothed with attractive foliage. If the twig growth is declining the tree will show a corresponding decline in vigor and in attractiveness.

In checking tree growth, professional tree men examine twigs from many parts of the tree to get the over-all average. A single twig might not give a true picture.

If twig growth indicates that tree health is failing, a more thorough examination of the tree and its surroundings should reveal the cause. The difficulty often results from such factors as a change in grade, poor drainage, insect infestation, disease, lack of nourishment or drought. Once the nature of the trouble is determined, corrective treatment usually can be provided.

Baltic Has Little Salt

COPENHAGEN—The Baltic is the least salty of the world's seas with a content as low as seven parts per thousand.

SANDERS FOR RENT
TRAVIS HARDWARE
[illegible] Orchard Lake Ave. FE 5-8294

Grass Mixture, Not One Variety, Is Best for Lawn

Whether you are establishing a new lawn this autumn or revitalizing an old one, there is no hard and fast rule about which kind of grass you use.

★ ★ ★

But you will be wise to stick with grass mixtures and not try a single variety, unless you are an expert with a special thumb for grass.

Certain lawn grasses are most appropriate for the various climatic zones of the United States —ranging from Kentucky bluegrass and red fescue in the North and East to Zoysia and Bermuda in the deeper South and Buffalo and Wheatgrass in certain areas in the West.

Local conditions (such as shade, slope, soil, care) often outweigh climactic generalities, however, and thus mixtures provide grass candidates for all parts of the lawn and for different methods of mowing and care.

★ ★ ★

Every homeowner should look for the ingredient listing on the seed box and demand appropriate quality species — not impermanent rye grass or other coarse hay grasses.

The amount of coverage you get depends on the seed size, that is, the number of seeds to a pound, as well as characteristic of grass spread and climate.

★ ★ ★

Most "cheap seed" is actually expensive. For example, there are over two million bluegrass seeds to the pound, but only 250,000 rye grass seeds. Plant for plant, then, bluegrass is cheaper.

It also provides such added features as greater permanence and the ability to spread by underground stems.

Find Rock Drawings by Ancient Siberians

MOSCOW (AP) — Hundreds of rock drawings depicting the life of ancient Siberian tribes have been discovered on cliffs of the Kamennye Islands, in the Angara River in southern Siberia near the Mongolian border.

The drawings are being moved to museums because the islands, near Lake Baikal, soon will be flooded by the backwaters of a power dam now being built.

★ ★ ★

The Soviet news agency Tass reported that Prof. Aleksei Okladnikov of the Soviet Academy of Sciences says the pictures are on a par with the famous cave drawings of France and Spain.

Airplane Engines Thirsty

WASHINGTON — A 1,000 horsepower airplane engine will consume about 100 gallons of high test gasoline per hour when it is operated at full throttle.

In 1952 shipping through the Suez Canal totaled 86,100,000 tons. In 1958 during the months of January through August it was 99,100,000 tons.

Elm Disease Rules Listed

Send Infected Twig Samples to New State Identification Center

EAST LANSING — Michigan's Dutch elm disease identification work has moved to a new location from its former spot on the Michigan State University campus.

The work is now being done at the Dutch Elm Disease Identification Laboratory, Michigan Department of Agriculture, Lewis Cass building, Lansing, 13. Homeowners who suspect their trees may have the disease should send samples to the laboratory, according to Forest Strong, plant pathologist at Michigan State.

★ ★ ★

"Owners should send in infected twigs right away when a few elm branches wilt and turn yellow," says Strong. "Brown, dead leaves are often found among green, healthy foliage."

"Dutch-elm infected plants also have brown streaks in the wood just beneath the bark," the pathologist points out.

He lists several steps in preparing twig and branch samples:

1. Cut six twigs or small stems about seven inches long and one-half to one inch in diameter. Try to get sample branches that have brown streaks.

★ ★ ★

2. Mark the twigs from each tree tested. You'll need to match up tree and sample when the results come back.

3. Wrap the twigs securely in a cardboard box before mailing.

4. Send in samples right away. Scientists can't accurately diagnose branches that have been dead several days.

State law requires that owners destroy infected trees, Strong emphasizes.

The Dutch-elm fungus grows in water-conducting tissue of elm trees. The growing fungus causes the tree to form a gummy substance that plugs up the water-conducting tissue. The fungus also produces a poison.

Many infected trees die within a few weeks after infection, Strong notes. Only a few trees live longer than two or three seasons with the disease.

Fall Flower Show Will Be Held Soon

The Farmington Garden Club will present an Autumn Flower show from 2-9 p.m. on Sept. 12, at the Dunckel Junior High School, 32800 W. 12 Mile Rd., Farmington Township.

The theme, "Glorified Harvest," will be displayed in flower arrangements, horticultural and conservation exhibits.

Arrangements in the show, judged by the standard system, will depict, "summer glories, natures treasures, golden moonlight, woodlands, and garden gifts."

The Farmington Junior Gardeners will also take part in the show. Besides exhibiting some of their own arrangements, they will join the senior gardeners in a horticultural and educational exhibit.

Montgomery to Attend Ike's Dinner Party

LONDON (AP) — President Eisenhower has invited Field Marshal Viscount Montgomery to a dinner party the President is giving Tuesday for a number of his wartime colleagues.

Montgomery said today he has accepted. There has been much recent speculation whether Montgomery would be present in view of his published criticism of Eisenhower's strategy as the World War II allied commander in Europe.

The President is known to have been displeased by the comments of the former commander of the British Army.

Grasses Enjoy Neutral Soil

By CYNTHIA LOWRY
AP Newsfeatures Writer

The simplest way to approach the business of lawn-making is to stop thinking of greensward as a magic carpet and start thinking of it as a mass planting of a perennial and a highly desirable one at that.

Like any other plants, grass has certain basic needs as well as preferences. Some varieties of grass enjoy sunny situations; others thrive when there is a certain amount of shade.

Some like more water than others; some tolerate cold better than others.

All of them, however, do best **with adequate supplies of nutrients, water and air. Almost all grasses** enjoy soil which is on the neutral side, either very slightly acid or very slightly alkaline.

HEALTHY GARDEN

No gardener, anticipating a handsome, healthy garden, would toss a handful of seed on uncultivated soil, walk away and expect it to produce satisfactory results. This is true also of the grass garden.

★ ★ ★

First, the grass-grower should learn something about his soil. Does it test, in terms of acidity, around the neutral mark? If it does, it does not need lime.

★ ★ ★

If it is on the acid side, apply limestone (and try to avoid hydrated lime in favor of agricultural limestone) at a rate of about eight pounds per hundred square feet.

This testing can be done easily at home with one of the soil testing kits on the market, which also make it possible to determine whether the soil lacks any of the three important chemicals involved in plant growth: nitrogen, phosphorus and potash.

These chemicals, in the order named, are contained in varying amounts in commercial plant foods and gardeners may write their own menus for their soil.

Obviously, no gardener would sow seed in a bed full of sticks, stones, builders' rubble and other debris. Similarly, no gardener would sow seed without first preparing the soil to receive it.

One of the most important and gruelling lawn-making jobs is digging up the soil, making it light enough to absorb air and water.

SMALL AREAS

Large areas may be dug over deeply with tractors; small areas may be tackled with spades and forks.

In either case, dig deeply, break up clods and treat the ground as you would if you were making a new rose garden or perennial border.

★ ★ ★

After this, give the soil a chance to settle, rake it over carefully and then sow the seed you have chosen as best for you.

Remember that grass roots dig deep into the earth in their quest for food and water. A healthy stand of grass is likely to have roots which go down at least six inches —often deeper—into the soil.

Thus, the thicker the cover of good, rich growing soil, the more luxurient the grass.

A thin covering of topsoil — and many a homeowner tries to grow grass on not more than an inch of topsoil—is bound to result in poor grass, too weak to compete with strong weeds.

★ ★ ★

One important reason for the fall sowing of grass is that the tender young seedlings have a chance to mature without competition from the strong annual weeds now on their way out.

Scientists Check New Killers

WATERVLIET—Sharp eyes and magnifying glasses were the order of the day as entomologists from industries and universities toured southwest Michigan orchards to see how newer insecticides protected apples, pears and plums from crop damaging pests.

The two-day evaluation event (Aug. 19 and 20) centered around orchards in this area. Dr. R. G. Haines, entomologist at the Michigan State University Agricultural Experiment Station conducted the tour.

The professional bug men were inspecting fruits and underside of leaves on trees to see how some 47 newer chemicals and application techniques compared with older standard pest control practices on the Michigan fruit pests.

Michigan State University does not have an orchard in which scientists may study the crop damaging pests. They rely on cooperation from commercial growers.

THREE PARTS

The pesticide evaluation program is in three parts. The first phase involves screening the materials to see if they kill enough of the pests without damaging trees to make further study worthwhile. The second phase is more detailed study of those chemicals that passed the first test.

Phase three, coming usually in the third year, involves an owner of a commercial orchard trying out the chemicals. Scientists, however, supervise the time the sprays are to be put on and amounts used.

★ ★ ★

Scientists will take a block of trees in an orchard and use several different chemicals on the trees. A few trees in the block receive no treatment; the bugs can eat all they want.

Trees receiving no treatment, called checks, are protected from drifting spray materials with huge plastic bags. During the season the scientists keep a running score on what is happening to trees.

They find out how well the different materials perform by checking the number of dead and live pests and the damage that the live pests may be doing to the tree and its fruit by comparing with the checks.

All orchard growers spray trees to control pests. They know if they don't they won't have any fruit to sell and the kids and their parents won't have any juicy apples and plump plums to eat.

The research job is to provide growers with information on newer chemicals and techniques so they can do a better job of controlling pests and protecting the crop.

CONTROL JOB

Scientists are constantly checking out the newer materials to see if they can come up with something that will do the control job easier and cheaper.

★ ★ ★

With standard materials and practices, orchard operators spray several times during the season to keep the pests in check. Some of the newer materials may let them get the same degree of control with fewer trips through the orchard with the sprayer.

Heat Wave Usually Brings Trouble to Your Garden

The present heat wave can mean as much discomfort for your plants and shrubs as it does for their owner.

Unusually high temperatures can cause scorch—sudden death and browning of large areas of leaves or fruits. Although this usually occurs outdoors, it may also be due to artificial heat in homes or greenhouses, something we don't have to worry about now.

Scorch may retard growth in young flowers and some fruits will not reach full maturity. Formation of heat cankers on stems, sun scalds on leaves, defoliation, and even premature fruit ripening are good indications that your plants are receiving too much heat.

Lettuce may show browning on the leaf margins. Sun scald of tomatoes is common and strawberries, grapes, apples and other fruits may show similar symptoms.

★ ★ ★

A long douse with water may bring temporary relief to your garden favorites, but for your prized possessions you might try producing some artificial shade.

Canvas stretched across a wooden frame placed in the way of the most intense sun rays will do an adequate job as will a large piece of plywood.

★ ★ ★

Of course, you can make your plants wait the spell out just as you have to do.

Sunny Florida Produced Here by Gardener

Florida in your own backyard is an uncommon feat for most Northerners, but Carl Voydanoff, 126 W. Huron St., has achieved this sought after effect.

He may have gone one better in fact, since he presently has a lemon tree sprouting a comparatively gigantic lemon, larger than a softball and weighing about 20 ounces.

★ ★ ★

Voydanoff doesn't have the advantage of a greenhouse, he keeps his six-year-old tree inside during the winter and lets it brave the elements from early spring until late fall.

His answer to the challenge of this garden rarity: "plenty of plant food." According to Voydanoff, you can raise about anything in this area if you use a little ingenuity and large amounts of the correct plant food.

Orlando, Fla., was the original home of the lemon tree brought to Pontiac a few years ago by Voydanoff as part of his hobby.

A lemon takes about 12 months to reach full maturity, all the while very vulnerable to weather conditions. Voydanoff's prize is nine months old, started in January and expected to be picked in October.

Lansing Milk Strike Enters Its Second Day

LANSING (AP)—A strike of some 350 milk producers against three major Lansing dairies moved into its second day today with neither side yet able to gauge its impact.

The Lansing Milk Producers Assn. (LMPA) launched the strike yesterday, calling on its members to withhold shipments of milk to the Heatherwood, Arctic Sealtest and Quality dairies.

The LMPA is seeking a 40 cents per hundredweight boost in prices received from the three dairies for Class One (drinking) milk.

To back this demand, it asked its members to divert their milk shipments to the Ovid processing plant of the Michigan Milk Producers Assn., parent body of the local group.

LIGHT HOUSEKEEPING — Lying down on the job, these prone laborers are nevertheless hard at work in Paris, France. They have to get flat on the giant man-made honeycomb to install specially-angled panes in the new 'papalumen' system. Incorporating a new method of light diffusion, papalumen canopies are being installed at the entrances of French tunnels to provide a zone of intermediate light as a safety factor. The canopy is designed to eliminate the abrupt change from bright sunlight to the glare of artificial illumination that affects daytime drivers entering tunnels.

2 Ocean Ships Collide in Lake

Detroit Worries Over Oil Tanker Exploding; No Leakage Found

SAN SOUCI (AP) — Two ocean-going ships, an American tanker and a French grain carrier, collided yesterday in Northern Lake St. Clair during a blinding rainstorm. No injuries were reported and damage was slight.

★ ★ ★

The tanker Blue Comet, carrying a liquid used in making TNT, suffered slight damage to her bow. The foreign freighter Charles L. D. escaped with no apparent damage.

Coast Guard officials allowed the French ship to continue her trip to Duluth, Minn. to pick up a load of grain. The Blue Comet was ordered to Detroit for inspection by the Coast Guard before continuing her trip to Toledo, Ohio.

The Blue Comet, en route from Sarnia, Ont. to Toledo, also was carrying a load of xylene, a chemical used as a solvent in the manufacture of dyes.

When she arrived at Detroit a worried official smelled fumes and feared the ship might explode. His fears were communicated to Mayor Louis Miriani who ordered fire department officials to "get that ship out of there."

Peiping's Production Claims Are Phony

WASHINGTON (AP) — U.S. experts have peered at Peiping's new production claims only to find that, like the old ones, the new figures are as phony as a three yuan bill.

Take steel for example.

★ ★ ★

Chinse Communist Party chiefs announced Wednesday, following a two-week strategy session, that only 8 million tons of the 11,080,000 tons of steel Red China previously claimed to have produced in 1958 were suitable for industry.

They set a 1959 goal of 12 million tons for this basic industrial item, a sharp slash from the earlier target of 18 million tons. They claimed a 5,300,000-ton output for the first half of this year.

★ ★ ★

These statistics boasted by the Communist authors of China's "Great Leap Forward" remain glorious to the point of being impossible, in the view of Washington specialists, aside from the downgrading announced by the Reds themselves.

Word here is that China's steel mills ran above capacity to reach the stated 8 million tons in 1958.

How, then, it is asked, can China expand this 50 per cent this year when it has no major new steel works announced for completion in 1959?

★ ★ ★

Peiping's grain figures, probably the most important agricultural statistic, have come under similar scrutiny.

The Communists admitted their earlier claim of 375 million tons of grain grown in 195 "a bit high." Their new is 250 million tons.

★ ★ ★

For 1959, they chopped the announced grain goal from 525 down to 275 million tons.

U.S. analysts noted the Reds compared the new statistics with amounts recorded during their first five-year plan, 1953-7. The "Great Leap Forward" planners had disdained comparison with these lower figures in past times.

★ ★ ★

The new announcement said grain output rose an average of 3.7 per cent a year under the first five-year plan. The question asked here is: Even if this figure is true, does it mean more food per person in China where the population is growing nearly as fast as this announced food supply?

★ ★ ★

One explanation advanced here for Peiping's new grain figures is that amid a chronic shortage of food which they could not conceal among their own people, the Communists had to downgrade their more extravagant claims.

Will Play Fair on Judgeships

Ike Promises to Divide Appointments 50-50 if 40 More Authorized

MIAMI BEACH, Fla. (AP) — President Eisenhower has offered to appoint as many Democrats as Republicans to more than 40 new federal judgeships if Congress creates them, says a Cabinet official.

★ ★ ★

"The President authorized me to tell congressional leaders that he would fill the new posts on a 50-50 basis from the two parties," Atty. Gen. William P. Rogers told a news conference here Thursday.

"There is great need for these judgeships," Rogers said.

★ ★ ★

Rogers, in Miami Beach for the American Bar Assn. convention, denied he might resign to manage Vice President Richard M. Nixon's campaign for the presidency if Nixon wins the nomination.

'Earn $13,000 to Annoy People Once a Week'

WASHINGTON (AP)—John Pokorny is paid $12,834 a year and almost all he does is annoy people once a week with sirens, Sen. Stephen M. Young (D-Ohio) says.

★ ★ ★

Young told the Senate that Pokorny, Civil Defense director in Cleveland, was an example of what he considers overpaid officials.

★ ★ ★

The senator opposed a suggestion by Gov. Nelson A. Rockefeller of New York that Congress restore a 12-million-dollar cut in Civil Defense appropriations.

World War II rubble in Warsaw, Poland, was so thick that new buildings were erected atop the bombed buildings. Entrances to some of the new buildings are 10 feet above sidewalk level.

3 Children Injured in Motorboat Crash

One youth suffered a broken collar bone and two others received cuts and bruises when their two motorboats collided on Bald Eagle Lake yesterday.

John Chromie, 12, 2310 Mapledale St., Ferndale was taken to Goodrich Hospital with a broken collar bone after his boat was struck in the side by another craft driven by Brian Forster, 15, 680 Vinewood St., Birmingham, according to deputies.

Forster suffered chest bruises and a passenger with Chromie, Mark Merrell, 5, 716 Orchardview St., Royal Oak, was treated for a cut forhead. The three were all treated at Goodrich Hospital and later released.

Chromie told Oakland County Sheriff's deputies that hc was pulling a water skier when he suddenly spotted Forster's boat bearing down on him in a large circle. He said he could not avoid the accident.

Forster stated that he had set his boat in a circle so he could check drainage in the stern. He glanced up and saw the other craft but could not get back to the controls in time.

CHEERS FOR NEW LEGION COMMANDER — Martin B. McKneally of Newburgh, N. Y., newly-elected commander of the American Legion, raises his arm in victory yesterday in Minneapolis as the retiring commander, Preston J. Moore of Stillwater, Okla., smiles broadly. McKneally, a lawyer, has held several Legion posts, and served as a member of its foreign relations commission. He is a 44-year-old bachelor.

Commander Post Goes to Lawyer From East

MINNEAPOLIS (AP) — A bachelor lawyer from Newburgh, N. Y., was elected commander of the American Legion yesterday in the closing session of the 41st national convention.

Martin B. McKneally, 44, was elected without opposition.

Delegates said McKneally was the first bachelor to hold the $18,000 a year office. He was drafted in 1941 and left the Army as a major at the end of World War II.

"It cannot but help make any man humble as he receives this mantle," McKneally told the cheering delegates.

"We live in gravely troubled time," he said. "We are engaged in a great struggle for the minds and souls of men, a struggle which will continue throughout our lifetime."

Rabbi Robert Kahn, Houston, Texas, was elected chaplain. Vice commanders chosen were William G. Brennan, Indianapolis; A. Laymon Harmon, Lexington, S. C.; Charles C. McGonegal, Sunol, Calif.; Nate Keller, Virginia, Minn., and Willard W. Brandt, Linton, N. D.

Mrs. Alexander Gray, Brownsville, Tenn., was named president of the Legion Auxiliary. Vice presidents were Mrs. Lester Nimon, Canton, Ohio; Mrs. Marion O'Connor, Middleton, Conn.; Mrs. H. Milton Davidson, Clovis, N. M., and Mrs. Leroy Daniel Sweeney, Larimore, N. D.

The Legion decided to accept next month's visit of Soviet Premier Khrushchev "with the dignity common only to free men." However, in deference to many delegates who earlier voiced opposition to the premier's tour, the resolution carried a reminder that "Khrushchev heads the deadliest conspiracy in world history."

A switch in the general attitude of the Legionnaires was credited to convention talks by Vice President Richard Nixon, Sen. Lyndon B. Johnson (D-Tex) and AFL-CIO President George Meany.

Death Notices

FREDRICK O. JACKSON

Word has been received of the death of Fredrick O. Jackson, who died in St. Augustine Fla. on Wednesday following a brief illness.

Born in London, England, he resided in St. Augustine for the past fourteen years, going there from Pontiac. He was a retired mechanical engineer.

A member of Trinity Episcopal Church, he is survived by his widow, Mrs. Minnie Jackson and one son, Dr. Ronald F. Jackson, both of St. Augustine; two sisters; three brothers.

Funeral service was held 10:30 this morning at Trinity Episcopal Church. Interment was in Evergreen Cemetery, St. Augustine, Fla.

GORDON F. OLSON

Gordon F. Olson, 43, of 135½ Oakland Ave., died Wednesday at Pontiac General Hospital following an illness of one week.

Funeral service will be held 1:30 p.m. Monday at Huntoon Chapel with burial in White Chapel Cemetery. The body is a Huntoon Funeral Home.

Ward Detwiler Dies After Diving Accident

DETROIT (AP) — A Detroit construction executive, Ward Detwiler, 41, died today of injuries suffered in a swimming accident a week ago.

Detwiler's back was fractured Aug. 20 when he dived into shallow water from a boat near Peche Island in the Detroit River. He was the son of a founder of Bryand and Detwiler Co., Detroit contracting firm.

Belle Kinney, Sculptor, Dies in Home Thursday

BOICEVILLE, N. J. (AP)—Belle Kinney, sculptor, died at her home here Thursday.

Miss Kinney was best known for her statues and busts of President Andrew Jackson.

In private life she was Belle Kinney Scholz, widow of sculptor Leopold Scholz who died in 1946.

City Junk Man Mentally Ill?

Committal Action Is Under Way in Probate Court Today

Proceedings to commit a 59-year-old Pontiac junk dealer to a mental institution were begun this morning in Oakland County Probate Court.

* * *

The junk dealer, Felix Hooks, 418 Harvey St., is held in the county jail on a charge of aiming a firearm without malice.

Six counts brought against him by city health authorities are also pending.

Hooks was examined by two psychiatrists, Dr. L. Jerome Fink and Maurice E. Willis, yesterday afternoon at the jail. They found him to be psychotic and in need of hospitalization.

ARRESTED WEDNESDAY

The junk dealer was arrested Wednesday afternoon after several diseased dogs were removed from his home by Dog Warden William Schneider.

Neighbors told police that Hooks, from his front yard, aimed a rifle at them and children. One neighbor signed a complaint.

Hooks was to have been tried on the six other charges yesterday, but trial was delayed until a ruling on his mental condition.

* * *

A petition to commit Hooks was filed this morning by Patrolman James Ockerman.

A hearing on the petition will be held at 3 p.m. Monday before Probate Judge Arthur E. Moore.

Try Name Change, Bill

OCALA, Fla. (UPI)—Bill Free, of St. Pierce, Fla., found that a hitchhiker he picked up took his name too seriously. Free told police yesterday he and the hitchhiker stayed in a motel and when he woke up his car, $560 in cash, and everything but his pajamas had been stolen.

With a full-time enrollment of 43,478, the University of California is the nation's largest educational institution. Next comes the State University of New York with 29,772 full-time students; the College of the City of New York with 29,279; and the University of Minnesota with 26,568.

Dragway Hopes to Open Strip September 6th

The Pontiac dragway, located at the M-59 speedway, is expected to be ready for operation Sunday, September 6th.

The asphalt strip is now being installed running a half mile in length.

The Oakland County Timing Association will operate the strip and any dragster in the county can belong to the organization. Runs will be held Saturday and Sunday with racing on Sundays.

Meetings are currently held 3 p.m. each Sunday at which time members can join.

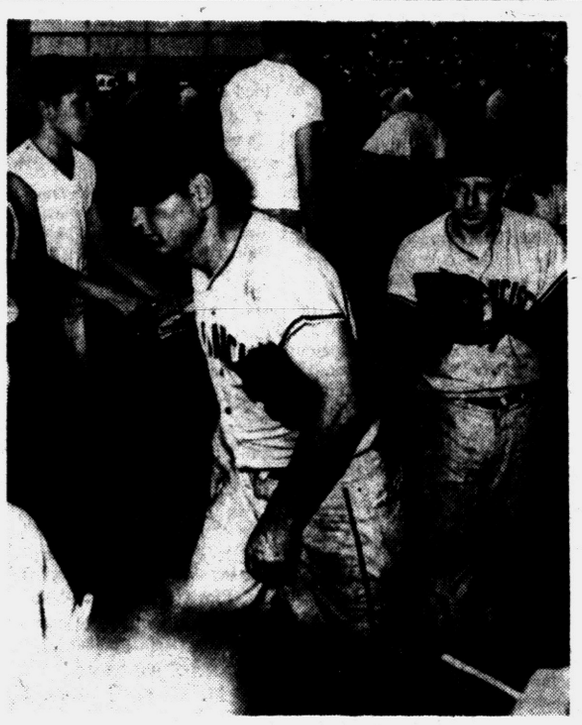
Philadelphia at Pittsburgh, 7:15 p.m.—Keegan (0-1) vs. Law (14-7).
Milwaukee at Chicago, 2:30 p.m.—Burdette (17-13) vs. Anderson (11-8)
Cincinnati at St. Louis, 8 p.m. — Newcombe (12-6) vs. Broglio (6-11) or Miller (1-2).
San Francisco at Los Angeles, 10 p.m. —S. Jones (16-12) vs. Drysdale (15-9).

TOMORROW'S GAMES

Philadelphia at Pittsburgh, 12:30 p.m.
Milwaukee at Chicago, 2:30 p.m.
Cincinnati at St. Louis, 8 p.m.
Only games scheduled.

SUNDAY'S SCHEDULE

Philadelphia at Pittsburgh 2, 12:30 p.m.
Milwaukee at Chicago, 1 p.m.
Cincinnati at St. Louis, 1:30 p.m.
San Francisco at Los Angeles 4 p.m.



AP Wirephoto

NO FAN FARE — Pleas of young autograph seeker at left go unheeded by San Francisco Giants bound for the dressing room after losing two games to the Phillies at Philadelphia yesterday. With cap pulled down over his eyes, Dusty Rhodes, who appeared as a pinch-hitter in the 2nd game, is followed by thoughtful-looking pitcher Jack Sanford. The scores were 7-2 and 2-1 cutting the 'Frisco lead to two over L. A.

Basilio 10-7 Favorite in Title Bout Tonight

SAN FRANCISCO (AP) — Carmen Basilio tries to prove again tonight that a little guy can be the middleweight boxing champion of the world.

The craggy-faced onion farmer from Chittenango, N.Y., weighing about 153, tackles Gene Fullmer of West Jordan, Utah, a bull shouldered 160-pounder, in a 15-round battle to decide the National Boxing Assn. titlist.

Basilio stepped up from the 147-pound class when he outpointed Sugar Ray Robinson for the middleweight title on Sept. 23, 1957. Carmen then weighed only 151 as an overstuffed welterweight.

★ ★ ★

On March 25, 1958, Robinson won back the championship over the 15-round route, but the NBA stripped him of his title last May 4 because he hadn't defended it. New York, Basilio's home state, still recognizes Robinson as champion, as does Massachusetts.

★ ★ ★

A crowd of about 14,000 paying $200,000 was expected at the Cow Palace for the 9 p.m. EST. battle which also counts a $175,000 stipend from NBC for the televison and radio rights. Basilio stands to collect about $140,000 with $100,000 for Fullmer. After weigh in, Fullmer will eat a steak and could enter the ring at 163.

★ ★ ★

"I expect my weight to give me the advantage in the final five rounds," Fullmer said. He's a strong boy known both for his rough boxing and as a Mormon Sunday school teacher in his home town.

Fullmer also had a taste of the middleweight championship when he outpointed Robinson in 1957, but suffered a knockout the same year in a return bout.

Almost all observers here expect a rugged fight going the full distance. Odds of about 10-7 favor Basilio. A poll of sports writers showed 13 favoring the New Yorker and four going for Fullmer.

★ ★ ★

Both are rough, tough battlers who have proved they can take punishment. The 32-year-old Basilio never has been stopped while Fullmer, 28, suffered just the Robinson fifth round knockout.

Basilio said he is aiming for a knockout but is conditioned to go the distance. Should the nationally televised fight go 15 rounds, the decision comes from the referee and two judges on the 10-point-must system. The winner of each round gets 10 points and the loser nine or less depending upon his showing. An even round gives each 10 points.

Tale of the tape for the Carmen Basilio-Gene Fullmer NBA middleweight title fight:

BASILIO		FULLMER
32	Age	28
160	Weight	160
5-7½	Height	5-8
67	Reach	69
36½	Chest (normal)	38
39	Chest (expanded)	41½
15½	Neck	17
13	Biceps	15
11½	Forearm	12½
6¾	Wrist	7½
20¾	Thigh	23
13¾	Calf	16
10	Ankle	9½
11	Fist	12
29	Waist	31½

Two State Golfers Advance in Western

CHAMPAIGN, Ill. (AP) — Dick Youngberg, medalist from Northbrook, Ill., and seven other outstanding young golfers head into the quarter-final and semifinal rounds of the Western Junior Tournament today.

★ ★ ★

Youngberg whipped Charles Courtney of La Jolla, Calif., and Jim Belmont of Champaign in yesterday's two rounds, 1-up and 3 and 1, respectively.

The other seven quarter-finalists are Steve Spray, Indianola, Iowa; Charles Newton, Ann Arbor, Mich.; Don Stickney, Columbus, Ohio; Gerald Spesia, Joliet, Ill.; Dave Leon, Tucson, Ariz.; Jerry Jackson, Kokomo, Ind., and Tom Ahern, Detroit.

Long Beach Pony King

WASHINGTON, Pa. (AP) — Long Beach, Calif., is the Pony League World Series winner despite a ruling which may have deprived the star pitcher of a no-hit game.

Jack Wells pitched a no-hitter through four innings against Greene County, Pa., last night before having to retire. The Californians went on to win the series final 8-0.

★ ★ ★

A Ponly League ruling requires that no pitcher can work more than 16 innings during any series. Wells had reached his limit of 16 by the fifth.

39-Year Reign Brought to End by Supertest III

Bob Hayward Sets New Meet Records; Maverick Conks Out

DETROIT (AP) — A Canadian who "gambled all the way" in the tradition of Gar Wood has wrested the Harmsworth Trophy from the United States.

The defending United States speedboat failed to even finish.

But few experts doubted the outcome would have been different even if Maverick, the 1959 Gold Cup champion, had hit on all 12 cylinders of her Allison powerplant over the entire 45-mile distance yesterday.

Bob Hayward, a Canadian chicken farmer got away to a record-breaking first lap of 107.495 m.p.h. in Miss Supertest III, then broke his brand new record on the second time around with 109.334 m.p.h.

He ended the race with a Harmsworth record of 104.098 for the gruelling 15-lap race designed to test handling skill and stamina of men and machines as well as speed.

★ ★ ★

Gar Wood, now 78, brought the trophy to the United States in 1920 with his Miss America I, which ran the first mile-a-minute Harmsworth.

"It (Canada's victory) is a good thing," said Wood after witnessing the United States' first defeat in 39 years.

"It will revitalize speedboat competition," Wood said. "We had held it (the trophy) too long. Competition had become more or less dormant."

★ ★ ★

Hayward, coming out of the pits, ran his 2,500-horsepower Canadian challenger far up the Detroit River; then, with a minute or so to go, he turned toward the starting line.

Maverick's Bill Stead, driving the boat with which he had won the Gold and Diamond Cup races this year, zoomed down toward the starting line on the inside.

Before they hit the starting line the Canadian challenger was out front. It stayed there, the Maverick bouncing in its wake.

★ ★ ★

Maverick owned by oilman W. T. Waggoner of Phoenix, Ariz., led 12 laps of the opening race in the best-of-three competition. But the American craft developed a broken supercharger and Miss Supertest breezed home a winner.

In the only race in which both craft functioned perfectly, Maverick set a new Harmsworth record of 102.988 Wednesday and sent the competition into a third and deciding heat. While Supertest gained the lead then, too, on the open-throttle first straightaway, Hayward lost it on the first turn when he bumped into rough water. He never regained it.

Hayward conceded he went far upriver to add to his straightaway run at the starting line, adding:

"I was gambling all the way, I knew I had to have perfect timing."

Stead, who captured the 90-mile Gold Cup with an average of 103.974 m.p.h. with Maverick, said he didn't know what went wrong with his craft. It probably will have to be torn down to determine the cause.

Colts Weed Out Halfback Crop

Oppose Redskins Tonight

BALTIMORE (AP) — Coach Weeb Ewbank of the Baltimore Colts expects to weed out his offensive halfback crop in tonight's National Football League exhibition with the Washington Redskins.

★ ★ ★

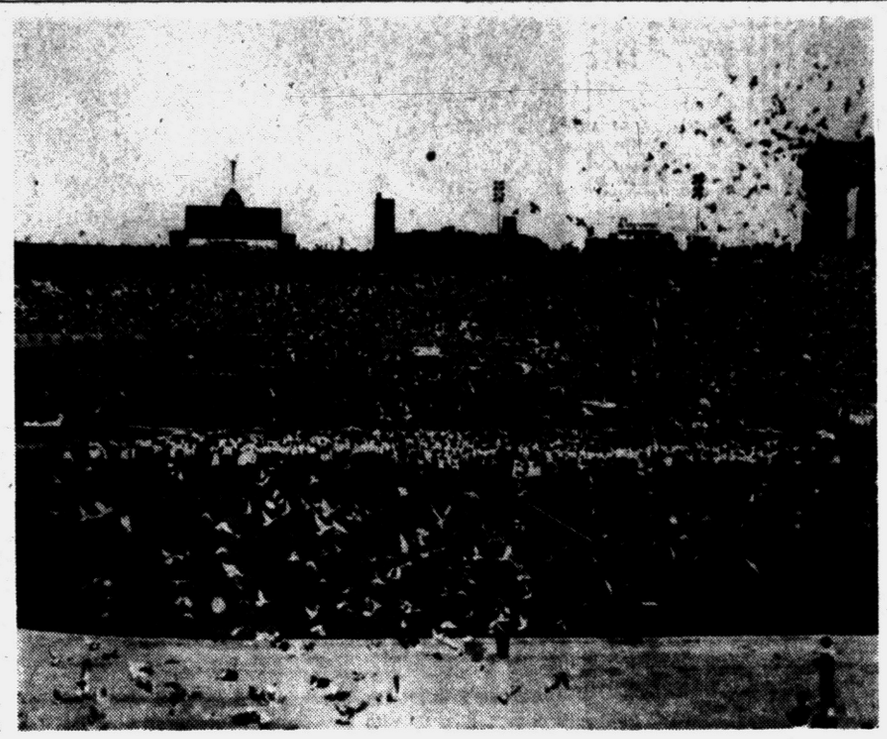
"We might as well get down to business," the coach of the champs said Thursday. "We will make our choice and then spend the rest of training time putting as much polish as possible on the ones we keep."

There are eight offensive halfbacks on the 43-man Colt roster. L. G. Dupre and Lenny Moore are set as the starters and Ewbank's problem is to select two substitutes.

Last year's reserves, Lenny Lyles and Jack Call, still are on hand. Two aspirants from Houston, Curley Johnson and Hal Lewis, are expected to give full opportunity to displace them in the Washington exhibition.

Johnson, who had previous trials with Pittsburgh and New York, also will be turned loose as a punter.

Another rookie due for a lot of action against Washington is Jerry Richardson, an end. Ray Berry, the regular, is having some leg trouble.



AP Wirephoto

JUST DOVEY — Hundreds of doves are released over Chicago's Soldier Field yesterday as part of panegyric opening Pan-American Games. Athletes are lined up in national groups in center of field.

47,000 See Opening Ceremonies at Chicago

Pan-Am Competition Begins Today

CHICAGO (AP) — The third Pan-American Games get under way today with gold medal winners apparently easy to pick in the three men's track and field finals on tap in the 12-sport program.

High jumper Charlie Dumas and hammer thrower Harold Connolly of the United States and Argentina's Osvaldo Suarez, in the 10,000-meter run, are odds-on favorites.

In addition, the evening track program at Soldier Field—where the Games officially were opened yesterday before a reported 47,000—will include 400-meter hurdles semifinals and trials in the 100-meter dash and 800-meter run.

The other competition in the kickoff round of 27 sports in this far-flung athletic carnival being held for the first time in the United States includes:

Women's track, baseball, men's and women's basketball, men's fencing, soccer, men's and women's tennis, men's volleyball, weightlifting and yachting.

Two other gold medals will go to champions in the opening session. Javelin fanals will be held in women's track and the bantamweight finals are scheduled in weightlifting.

★ ★ ★

The piecemeal schedule calls for 60-meter preliminaries through the semifinals for women; two baseball games at Comiskey Park, home of the White Sox; three basketball games for men and two for women; foil matches in fencing; two soccer matches; two men's volleyball matches; yachting competition for seven different sailing craft types and men's and women's tennis prelims.

Competition for some 2,000 athletes from 24 nations will continue through Sept. 6 at some 20 different venues. Some 132 athletes from 18 countries are represented in tonight's track events at the mammoth lakefront stadium.

Dumas, the springy 23-year-old high jumping product of Southern California, goes after the Pan-Am title backed by an Olympic championship performance in the 1956 games. His final Pan-Am tuneup best of 6-9 is well ahead of the 6-7⅛ mark with which the U.S.'s Ernie Shelton won in 1955.

★ ★ ★

Connolly, like Dumas a colorbearer for the Los Angeles Striders, has a Pan-Am test top hammer throw of 216-10, far ahead of the record toss of 180-1¾ by Bob Backus of the United States in the last games.

Tigers Hope to Tighten Grip on 4th

Lary Faces KC Tonight

KANSAS CITY (AP) — The Detroit Tigers will send reliable Frank Lary to the mound against the Kansas City Athletics tonight in hopes of tightening their grip on the first division.

The Tigers are tied for fourth place with the New York Yankees. Each club has won 62, lost 65 and is 15 games behind the league-leading Chicago White Sox.

New York meets Washington tonight and a Detroit win combined with a Yankee loss would improve Tiger chances of a first-division finish.

Lary is Detroit's winningest pitcher, with 16 victories and eight losses.

★ ★ ★

Lary last cracked the magic 20-victory barrier in 1956 when he won 21. He slipped after that, winning 11 in 1957 and 16 in 1958.

He will be opposed tonight by John Kucks, who has won seven and lost nine.

Tonight's contest will be the first of the 27 games Detroit has left before the season ends. Of these, 19 will be played on the road.

★ ★ ★

The Tigers last appeared in Briggs Stadium Wednesday when they closed out a long home stand with a 3-2 victory over the Washington Senators.

It is the first of a three-game series with the Athletics. The teams play again tomorrow night and Sunday before the Tigers leave for Chicago.

Miss McIntire in Big Upset

Drops 1958 Champion Anne Quast From U.S. Women's Amateur

WASHINGTON (AP) —"I was positive on the 19th I would lose it."

Barbara McIntire made the confession after she actually won it —the jolting upset of defending champion Anne Quast in the quarter-finals of the U.S. Women's Amateur Golf Championship.

Miss McIntire, an attractive 24-year-old tournament veteran from Lake Park, Fla., defeated Miss Quast, 21, of Marysville, Wash., 1-up on the 20th hole at Congressional Country Club yesterday.

Joining the Florida girl in today's semifinals are Mrs. Dorothy Germain Porter of Westmont, N.J., Joanne Goodwin of Haverhill, Mass., and Mrs. Paul Klinefelter of Philadelphia.

The next-to-last round will pair youth against experience, especially in the leadoff contest between Mrs. Porter and Miss Goodwin. Mrs. Porter, 35, won the National Amateur 10 years ago. Joanne is 23 and the only major title to date is the Eastern, which she captured in 1957.

Chisox Recall Five Including Jackson, Callison

CHICAGO (AP) — The Chicago White Sox Thursday recalled three players optioned to Indianapolis and purchased contracts of two of their Indianapolis teammates to aid the Chicago pennant drive.

The five will report to the American League pace-setters Sept. 10 or 11.

★ ★ ★

Recalled are outfielders John Callison and Joe Hicks and first baseman Ron Jackson. The contracts cover left-handed pitcher Gary Peters and first baseman-third baseman J. C. Martin.

Callison is hitting .290 with nine home runs and 36 RBI since his option from the Sox June 27. Hicks is batting .305. Jackson, optioned to the Indians May 13, has hit 30 home runs, driven in 93 runs and averaged .290.

Anyone for Football?

WINDTHORST, Tex. (AP)—Coach George Beaman of Windthorst High School is facing a manpower, or rather a boypower, problem.

He has only nine boys out for the football team and must get two more by Sept. 4 when Windthorst opens the season.

There were 14 boys in school originally. But five left to enter the priesthood at Fort Smith, Ark.

Doctoring Your Golf

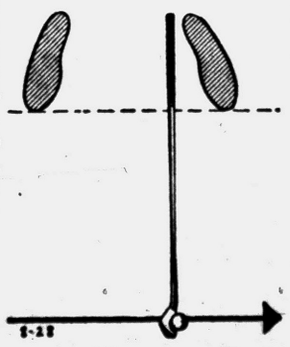
By DR. CARY MIDDLECOFF

PATIENT'S COMPLAINT: Iron shots high and weak.

DIAGNOSIS: Faulty ball positioning.

TREATMENT: If your two-iron and three-iron shots are acting like five-iron and six-iron shots—too high and sadly lacking in power—better re-examine the way you're standing to the ball.

Chances are you're playing these long-iron shots with the ball positioned out near the toe of the left foot. With the ball so positioned, you're bound to catch it on the upswing, sending it quickly up and costing yourself much distance.



What you must do is position the ball nearer the center of the feet. For the long irons, the ball should be positioned just inside the instep of the left foot —about an inch inside, as shown in today's illustration.

One trouble here is that it's easy to THINK you have the ball positioned right when actually you don't. Even the experts can fall into this fault unconsciously. So if you're having this type of trouble, get somebody else to check it for you. Or, failing that, check the point very carefully yourself.

Indians Trail White Sox by Game and Half

Dodgers Gain as Phils Beat Giants Twice in National League

(From Our Wire Services)

This is the big weekend of the year for the two Major League circuits.

The Giants and the Dodgers open the biggest baseball series in the history of Los Angeles tonight.

The town is taking it about as casually as an atomic attack.

You couldn't have picked up a box seat two weeks ago. And when those self-appointed, bugle-blowing cheerleaders summon the Dodgers to rally this evening, they should have a chorus of about 70,000 on hand for support.

★ ★ ★

In Cleveland, the well rested Indians riding an eight-game winning streak, challenge the weary Chicago White Sox for the American League lead in a four-game series opening tonight.

The series, expected to draw a crowd of more than 150,000, could settle this year's pennant chase. A sweep by Chicago would drop the Indians 5½ games off the pace, with the season rapidly drawing to an end.

Cleveland, trailing the league-leading White Sox by a game and a half, is in good shape. Catcher Russ Nixon, with a pulled groin muscle and pitcher Don Ferrarese, who has a sore arm, are the Indians' only ailing players.

★ ★ ★

And while Chicago played 11 games in the past 10 days without a break, the Indians had last Monday and yesterday off.

Although the Indians are confident and ready, they also are aware of a hard fact—the White Sox have handled them with ease so far this season. Chicago has won nine games while losing only five to the Indians.

Cleveland, however, will be facing a sub-par Billy Pierce and Early Wynn, who have three victories each over the Indians.

★ ★ ★

Pierce, Chicago's ace left-hander, hasn't pitched since injuring his hip almost two weeks ago. He was scheduled to pitch Saturday, but Manager Al Lopez said Pierce wasn't ready and nominated Dick Donovan for Saturday's pitching chores.

Wynn is slated to hurl the first game of Sunday's doubleheader.

Bob Shaw (13-4) will open the series for the White Sox and Ray Moore will take the mound in the finale.

The well-rested Dodgers have a chance to reduce or maybe even eliminate the lead of the weary San Franciscans.

The Giants blew two games to Philadelphia before flying into town early today and are just two lengths in front of the second-place Dodgers, who haven't played since Tuesday.

Attendance-wise, the series could be the biggest three-day event in major league history. The record turnout for a three-game series is 171,326, set here a year ago last June when the Milwaukee Braves were in town.

Manager Bill Rigney, angry at being forced into a make-up afternoon doubleheader that brought a double defeat at Philadelphia yesterday, picked his ace, Sam Jones (16-12), to face Giant-killer Don Drysdale (15-9) in the opener of the Friday, Sunday-Monday series.

★ ★ ★

Jones has put away seven of his victories against Milwaukee and Los Angeles. He's 2-2 against the Dodgers, with both losses by one run. Drysdale, who has lost three in a row after winning seven straight, is 5-1 against the Giants over the past year, 3-1 this season.

The Dodgers, 3-5 against San Francisco at the Coliseum but holding a 9-7 season edge, picked up a full game.

Third-place Milwaukee, 3½ games back going into a three-game series at Chicago today, gained only a half-game on San Francisco, losing 5-4 at St. Louis.

Cincinnati tied Chicago for fifth, beating the Cubs 5-0 in the only other NL game scheduled yesterday.

In the American League, the White Sox beat Boston 5-1 in the only game scheduled.

The Phils, who had lost six straight, beat lefty Mike McCormick, 11-11 for the first time in the opener. After Ed Bouchee and Daryl Spencer swapped solo home runs, the Phils put it away with five runs in the sixth, starting with homers by Joe Koppe and Gene Freese.

In the second game, Willie Mays smacked his 22nd homer in the first inning, but the Giants then were blanked on five hits by Don Cardwell (8-7) and Dick Farrell.

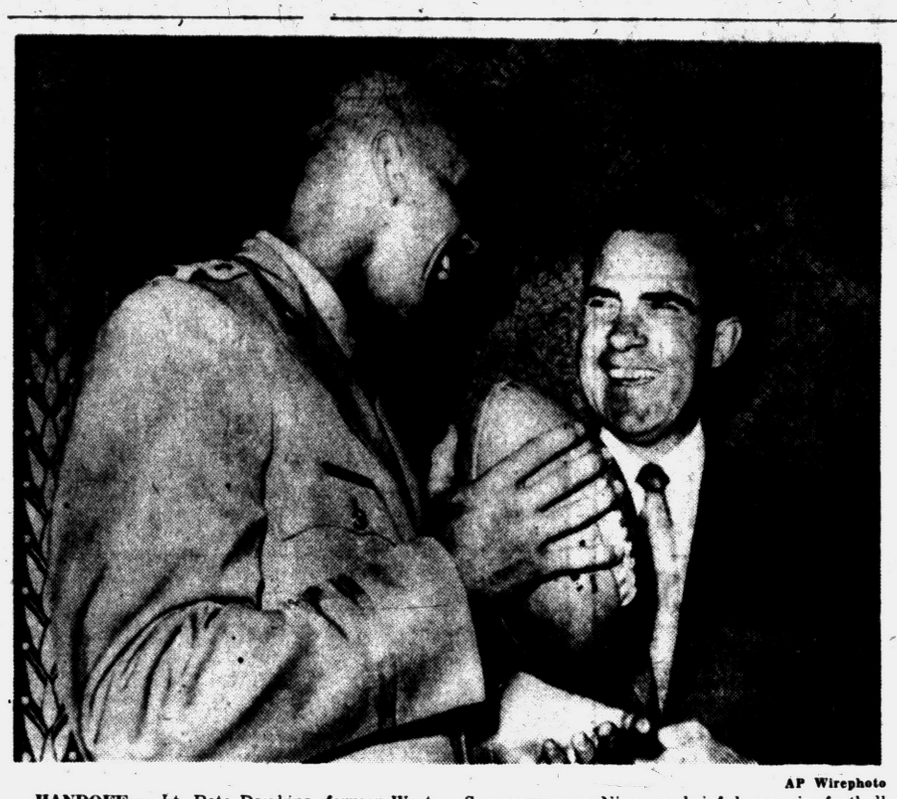
60 Teams in State Pro-Am Tourney



AP Wirephoto

HANDOFF — Lt. Pete Dawkins, former West Point star, lines up with Vice President Richard Nixon Thursday to help launch the 1959 national fund appeal for the Sister Kenny Foundation. Someone gave Nixon a brief lesson in football passing. Dawkins, who has just completed parachute training at Ft. Benning, Ga., underwent the Kenny treatment after an attack of polio.

Farmington CC Is Host Sunday to 1959 Meet

Dalrymple - Woodard Defending Champions in Tournament

Sixty teams, representing Michigan's leading professional and amateur players, will tee off this Sunday at Farmington Country Club in the 1959 State Pro-Am golf championship.

Among the pros who will be shooting for the state crown and a share of $2,000 in prize money are Chick Harbert, Al Watrous, John Barnum, Gene Bone, Joe Belfore, Horton Smith and defending champion John Dalrymple.

Wally Burkemo of Franklin Hills is the only name player missing from the field.

Dalrymple, former Keego Harbor athlete who now is head pro at Lakepointe, and his amateur partner, Gene Woodard, won the Michigan Pro-Am last year over their home Lakepointe chourse.

The state's top pros and their talented amateur partners will challenge Dalrymple and Woodard this Sunday over the 6,604-yard Farmington layout with a par of 37-35—72.

Bone, Warwick Hills pro, will have Frank Young of Flint as his teammate while Harbert of Meadowbrook has teamed with club member Tony Skover. Reggie Myles Jr. and Michigan Amateur champ Bud Stevens form another outstanding team as do the ageless Watrous and Tommy Sheehan.

The tournament begins at 7:30 a.m. and the field will start moving from both the 1st and 10th tees. Competition will be held on a medal play best ball basis over a 36-hole route. Amateur golfers cannot use their handicaps.

Farmington CC is located at 12-Mile and Haggerty roads and plenty of free parking is available, tourney officials report. Preston Meisel is host pro.

PAIRINGS, STARTING TIMES
1st Tee Starters

7:30-12:00—Tom Sullivan - Tom Draper, Paul Van Loozen - Ed Lauer.
7:37-12:07—Milt Seweard - John Leabu, Bob Waara - Dick Dawdy.
7:44-12:14—Tommy Watrous - William Holt, Chet Jawor - John Jawor.
7:51-12:21—Wayne Hendrickson - Sam Kocsis, Bob Lavacek - John Kiedis.
7:58-12:28—Larry Tomasino - B 111 Yearnd, Mac McElmurry - Harold Finney.
8:05-12:35—Eldon Briggs - Joe Grace Jr., Don Perne - Joe Murphy.
8:12-12:42—Reggie Myles Jr., - Bud Stevens, Joe Thacker - Asher Tilchin.
8:19-12:49—Tom Talkington - Bob Reynolds, Hal Whittington - Ray Palmer.
8:26-12:56—Chick Rutan - Jack Emery, Ed Gauntt - Lou Wendrow.
8:33- 1:03—Al Watrous - Tommy Sheehan, Joe Belfore Sr. - Joe Belfore Jr.
8:40- 1:10—Don Soper - Bill Golberg, Gene Bone - Frank Young.
8:47- 1:17—Horton Smith-Frank Young, Preston Meisel-Lou Marinini.
8:54- 1:24—John Dalrymple - Gene Woodard, John Barnum - Herm Miller Jr.
9:01- 1:31—Ray Maguire - Jack Geiss, Ron LaParl - Hugh Wright.
9:08- 1:38—Ben Lula - Mort Cohn, Chick Harbert - Tony Skover.

10th Tee Starters

7:30-12:00—Pat Bray - Fred Droesch, Dale Grieve - Robert Belton.
7:37-12:07—Ray Malain - Bill Breeding, Dave Gibson - John Molenda.
7:44-12:14—Jim Wells - Dick Norton, Faust Bianco - Ralph Ellstrom.
7:51-12:21—William MacDonald - Fred Ewoldt, Glen Stuart - Harold Brink.
7:58-12:28—Stan Jawor - Cass Jawor, Lowell LeClair - Keith Le Clair.
8:05-12:35—Jack Winney - Joe Peak, Barry Laur - Byron Duckwall.
8:12-12:42—Bob Dushane - Jerry Dushane, Ron Fox - Don Dykstra.
8:19-12:49—Nick Bersan - Lou Campbell, Ed Piatnik - Earl Burt.
8:26-12:56—James Howell - Bob Mager, Don Perry - Clay Lindquist.
8:33- 1:03—Bill Langnau - Don Mead, Larry Pentiuk - Sam Kolman.
8:40- 1:10—Tommy Cosmos - Clem Jensen, Gerald Prieskorn - Dick Vershure.
8:47- 1:17—Wally Lasky - John Driver, Tommy Miller - Warren Sumner.
8:54- 1:24—Thomas Ice - Chuck Hitch, Frank Jawor - Stan Setera.
9:01- 1:31—Fred Challen - Harry Martin, Roy Beattie-Jim Funston.
8:08- 1:38—Tommy Shannon - Pete Green, Emil Beck - Don Button.

Test Roberts Today

PHILADELPHIA (AP) — Veteran right-hander Robin Roberts, one of the Philadelphia Phillies all - time pitching greats, undergoes tests today to determine if he is afflicted with diabetes or some other ailment.

Teeing Off

By BILL CORNWELL

An amazing thing occurred this week in the Women's Silver Lake Golf League, also referred to as the "Looney" League—no offense intended, ladies.

Yes, it finally happened! After goodness knows how long, the Looneys were shut out in the weekly competition at the Walton Boulevard course.

The Looneys, of course, are Mrs. Elbert Looney and Mrs. Garry Looney who have made a habit of winning or sharing at least one of the three divisional prizes week after week after week.

Until this year the honors went almost exclusively to Mrs. Elbert. Then, this summer, Mrs. Garry decided to enlarge the act by earning a little glory of her own.

It was a different story this time around. The Looneys struck out.

Mrs. Albert Bornak was low net winner with 36, followed by Mrs. Louie Daniel and Mrs. Max Richardson at 37. Mrs. Daniel won putting laurels with 16 while Mrs. Bornak, Mrs. Richardson, Mrs. Fred Stimpert and Mrs. Earl Weber tied for 1st place in the blind hole event with bogey fives on No. 7.

League members elected their officers for the 1960 season. They include: Mrs. Weber, president; Mrs. John McCallum, vice president; Mrs. Daniel, secretary, and Mrs. Aubyn Coopes, treasurer.

Next year's committee heads will be: Mrs. McCallum, rules; Mrs. Floyd Foren, entertainment; Mrs. Robert Vidlund, prizes; Mrs. Wayne Harrison, publicity.

CLARKSTON WINNERS

Dr. M. E. Willis of Clarkston won Clarkston Golf Club's annual member event with a 36-hole score of 159, followed by Everett MacDougall of Royal Oak at 161.

In the women's division, Mrs. H. White captured the title with an 18-hole total of 114. Mrs. B. Zeunen took 2nd place at 120.

ELKS CHAMPIONS

Elks League golf champs for 1959 at Pontiac Country Club are: Glenn Harding and Cliff Maison, 1st division; Bob Isgrigg and Rube Wideman, 2nd division; Charley Speck and Curt Flath, 3rd division. The three teams will now hold a playoff for the overall championship.

SHORT PUTTS

The 7th hole on the Red nine at Morey's is a lucky one for Raymond Nikolai. He has aced the 135-yard hole twice. Nikolai made his 2nd hole-in-one there early this week by knocking a 7-iron shot into the cup.

★ ★ ★

Don Perne, head pro at St. Clair River CC, set a new course record over his home links last weekend. Perne rifled a 10-under-par 62 to better the old mark by two strokes, featuring an eagle, eight birdies and nine pars. He birdied the 1st five holes on the back side.

Mouw Dropped From Tourney

Birmingham Golfer Is Out of International on Scoring Discrepancy

Special to the Pontiac Press

PORTSMOUTH, Va. — Birmingham's Gary Mouw, who ranked 3rd among Michigan entries, was disqualified from the 14th International Junior Golf Tournament yesterday because of a scoring discrepancy.

He was dropped out after shooting an 87 in the 2nd round for two-day total of 169.

Willard Karl of Montague led the Wolverine boys Thursday with a 76, Dennis Golbesky had 79 but remained ahead of the Michigan group at 154 followed by Denny English's 156.

Both Golbesky and English dropped long chip shots to stay in contention with 36 holes still to play.

Fritz Leffingwell Jr., Miami Shores, Fla., continues to head the pack with 143. He had a 74 yesterday as Wright Garrett of Danville, Va., fired a 71 to total 145.

Dealers to Get Any Deer Cards

LANSING (AP)—Application cards will be sent out next week for the drawing for shooting rights during Michigan's any deer season this fall.

The state conservation commission said cards will be mailed to the 4,200 license dealers in the state.

Approximately 100,500 special permits covering 18,457 square miles in 39 food shortage areas will be available this fall.

This is nearly double the 55,265 permits issued last year.

Some 60,500 permits will permit shooting of deer of any sex in the northern Lower Peninsula and 35,000 will be distributed for the Upper Peninsula.

Indianwood Best Ball in Match Play

Weyand-Patrick Take Medal Honors

Youthful Rich Weyand of Birmingham and veteran Don Patrick of Red Run were in the driver's seat today as the annual Indianwood Invitational Best Ball golf tournament entered the opening round of match play.

Weyand, a Cornell University student who also stars at polo, and Patrick joined forces for a five-under-par 67 to take medal honors in Thursday's 18-hole qualifying rounds over the sprawling Indianwood Country Club course.

Jack Zinn and Paul Anderson, Red Run veterans who shared the 1958 title with Bud Stevens and Don Mead, shot a sparkling 68 for runnerup laurels in the field of 16 teams making up the championship flight.

Pontiac's Mike Andonian and Perry Byard of Red Run fired a 69 to divide 3rd place with Jim Schmalzriedt and Larry White, both from Indianwood CC.

★ ★ ★

Next in line at 70 were Leo Daigle and Andy Purdo, each representing the host club, and Wally Smith of Pontiac and Red Run's George Wilson.

Weyand and Patrick combined for six birdies on their round while shooting 32-35 over the 6,929-yard Indianwood course which has a par of 35-37—72.

They birdied three holes on each side. Weyand came through with "birds" on the 1st, 3rd and 15th holes, Patrick birdied 9 and 12 and both took birdie fours on the 18th. They bogied only once, the 17th where they slipped to four.

A total of 72 teams competed in the qualifiers that set up match play in five flights. Two matches are scheduled daily today through Sunday and all matches are slated to go 18 holes.

★ ★ ★

Today's 1st round pairings in the championship flight with qualifying scores in parentheses:

Rich Weyand-Don Patrick (67) vs. Pete Shubeck-Bill Pettibone (71); Mike Andonian-Perry Byard (69) vs. Spike Ruebelman-Tom Carmichael (72); Leo Daigle-Andy Purdo (70) vs. Harry Latos-Barney Cigan (72); Bob Erdelon-John Molenda (71) vs. Lou Marini-Harold Promhart (72).

Jim Schmalzriedt - Larry White (69) vs. Owen Davis-Chet Bowers (72); Wally Smith-George Wilson (70) vs. Gib Mason-George Lakotish (72); Jack Zinn-Paul Anderson (68) vs. Paul Jackson-Bob Gullette (72); D'Arcy O'Neill-Gene Eyler (71) vs. Bob Zinn-John Atelean (71).

Hearst Champ at 297

ALBANY, N. Y. (AP) — Steady John Raffaniello withstood all challenges Thursday and won the William Randolph Hearst National Junior Golf Tournament with a 72-hole score of 297.

For Visiting Softballers

Regionals Start Tonight

Pontiac and Waterford will not have a single representative in regional softball action starting here tonight at Beaudette and Northside parks.

All local teams were eliminated in district play and the field consists of outsiders in the Class A regional tournament at Beaudette and the Class C regional tourney at Northside.

Three teams are competing in each division of the double elimination event. Making up the "A" field are Ernie Grissom's of Mt. Clemens, Herrlich's of Flint and Cadillac Hotel of Port Huron. The "C" field is composed of Snover's, Port Huron; Thompson's, Flint, and the Mt. Clemens Merchants.

A doubleheader is scheduled at each diamond tonight, followed by single games in the loser's bracket on Saturday evening. Championship finals are slated Sunday night.

Flint will be host to regional activity in classes B and D this weekend. All regional winners advance to the state tournament Sept. 4-7.

Regional schedule here:

CLASS A AT BEAUDETTE

Tonight—Grissom's vs. Herrlich's, 7:00; Cadillac vs. Grissom-Herlich winner, 8:30.
Saturday—Friday's losers meet, 8:30.
Sunday—Finals, 7:00, 2nd game, if necessary, 8:30.

CLASS C AT NORTHSIDE

Tonight—Thompson's vs. Snover's, 7:00; Merchants vs. Thompson-Snover winner, 8:30.
Saturday—Friday's losers meet, 8:30.
Sunday—Finals, 7:00; 2nd game, if necessary, 8:30.

Dozen Powerful Hydros in 14th Silver Cup Test

DETROIT (AP)—A field of up to a dozen boats is expected tomorrow in the 14th annual Silver Cup race for hydroplanes on the Detroit river.

The race is expected to match the two Harmsworth Trophy contenders again — Miss Supertest III, which won the international trophy for Canada yesterday over Maverick, defending Silver Cup champion.

Maverick won the Silver Cup last year with a heat record of 105.481 miles an hour.

Other Silver Cup entries are Miss Bardahl; Miss Buffalo; Such Crust III; Nitrogen; Miss U.S.; Miss Detroit and Miss Thriftway.

Brown Stops Cuban by 7th Round KO

BATON ROUGE, La. (AP) — World lightweight champion Joe Brown knocked out Santiago Ramirez of Havana, Cuba, Thursday night in 39 seconds of the seventh round of the non - title benefit affair.

★ ★ ★

Brown weighed 138½, Ramirez 136¾.

The champion floored the non-ranking contender for counts of eight in the first and third rounds before putting an end to the fight with two quick lefts to the body and a right to the head.

★ ★ ★

Ramirez opened a small cut over Brown's left eye in the second round, but never did any serious damage.

ERNIE (Ford) FELICE SAYS:

I MUST sell 40 cars this month in order to get my Christmas Bonus. That's why I will cut prices to the bone to make my quota. Ask for Ernie for the best deal.

Plenty of QB's in Lions-Giants Game Saturday

New York Pro Team Has Five Signal Callers

Coach Wilson to Use Two Top Rookies at Guard Posts

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

You'll need a scorecard just to identify the quarterbacks when the Detroit Lions and New York Giants tangle in an exhibition game at Briggs Stadium Saturday night.

Coach Jim Lee Howell of the Giants has five signal callers and all are top rated performers.

In addition to 38-year-old Charley Conerly, the Giants can call on such a performer as George Shaw, recently obtained from the Baltimore Colts.

There's also Frank Gifford, the movie star back who wants a fling at quarterback; Don Heinrich, a substantial veteran and highly touted Lee Grosscup of Utah, the Giants' number one draft choice.

★ ★ ★

At the same time Coach George Wilson has three quarterbacks of his own to throw against the Eastern Division champions. Each has started a pre-season game to date and they have divided the action equally.

As a group, Tobin Rote, Earl Morrall and Jerry Reichow, have hit on 28 or 63 passes for 421 yards.

Although Wilson's plans are unsettled on which of his passers will draw the starting role against New York, his offensive strategy has been worked out to use a rookie-veteran combination.

★ ★ ★

In the past two weeks, veteran guards Harley Sewell and Stan Campbell have seen limited service while rookies Mike Rabold and Bob Grottkau have been watched closely.

The newcomers passed their initial test against Cleveland last week. Wilson plans to use one of the rookies with one of the veterans rather than using them both at the same time.

Although the game will be televised nationally, there will be no local pickup.

Some 20,000 tickets still remain for the game with $3.50 and $4.50 price ranges.

AP Wirephoto

PETE TAKES A BOW — Veteran Pete Cooper doffs his straw hat Thursday firing a brilliant six-under-par 64 to take the lead among the early 1st round finishers in the $35,000 Milwaukee Open tourney.

Neapolitan Club Donates

Olympic Fund Hits $250

The Hayes Jones Olympic fund reached the $250 mark yesterday when the Neopolitan Club of Pontiac voted to donate $50.

Butler Cooper, treasurer of the club, presented the check to trustee H. Guy Moats of the Press sports department.

The fund was started to send the parents of Hayes Jones to the 1960 Olympics in Rome should the Pontiac speedster qualify for the U.S. team.

The gesture received approval of the city commission and contributions can be made by mailing them to the Jones Olympic Fund in care of the Pontiac Post Office.

The present sum is a fast start considering that the Olympics are still one year away.

NIB Adds 3 Teams

CHICAGO (AP) — The National Industrial Basketball League has added three teams to its membership for the 1959-1960 season.

The teams officially joined to the league yesterday are New York Tuck-Tapers, Cleveland Pipers and San Francisco AEL Investors.

Ten Records in Trials

BONNEVILLE SALT FLATS, Utah (AP)—Los Angeles speedster Mickey Thompson had bearing trouble Thursday and failed to set a new American auto speed record.

But while he overhauled his blue four-engine Challenger I, 10 other records were set at the Bonneville National Speed Trials on western Utah's salt flats.

Two drivers joined the 200-mile per hour club.

Thompson pushed his 1,800-horsepower car to 332.809 miles per hour in a one-way trial run earlier this week. He had hoped to break his own American land speed record of 266.866 m.p.h.

★ ★ ★

Fred Larsen, of La Mirada, Calif., on his 27th attempt, succeeded in making a two-way run for an average of 206.9575 m.p.h. for a new mark in the class A modified roadster division. He drove a model T Ford roadster powered by a 1954 Chrysler engine.

Joe Locasto of Los Angeles hit 213.8395 m.p.h. in a 1953 Studebaker coupe powered by a 1955 Chrysler engine.

★ ★ ★

Others included John Simonson, Grand Forks, N.D., 157.465, BX gas, coupe and sedan division, in a 1955 Ford sedan with 1956 Ford super charged engine; previous record 147.904, 1958.

Davis Matches Start

Cup Captains to Retire

FOREST HILLS, N.Y. (AP) — The Davis Cup challenge round, beginning today, probably will be the last for the rival captains—Perry Jones of the United States and Harry Hopman of Australia.

The matches thus will carry special importance for both of them. Each would like to bow out on a victorious note.

"This is my valedictory," says Jones, 71-year-old Los Angeles tennis executive who was persuaded to take the job last year.

"I'm turning the reins over to a younger man."

★ ★ ★

Hopman, 53, winner in eight of 11 Davis Cup campaigns, has indicated he will retire after this year to devote time to a lucrative investment broker's position in Melbourne.

Neale Fraser, 25, is the only experienced cup player on the squad and Fraser is faced with the task of beating Peruvian Alex Olmedo in the first singles match at the West Side Tennis club at 1 p.m.

Rod Laver, 21, not long out of junior ranks and never in a challenge round, plays Barry Mackay of Dayton, Ohio, in the second singles. Mackay, although just 23, is competing in his thrid tennis world series.

Other members of Hopman's squad are Roy Emerson, 23, who tams with Fraser in doubles; Bob Mark, 22, and juniors Ken Fletcher and Mike Mulligan.

★ ★ ★

"This team is not as good as last year's on a name basis," says Hopman. "But it's fitter and in a better frame of mind. I think we'll win, about 3-2."

Obedience Demonstration at Rochester North Hill

First of a series of dog obedience training demonstration, as a prelude to the beginning of training classes this fall and winter under SMOTC direction, is set for Saturday, at Rochester.

Demonstration, at the North Hill shopping center parking lot, begins at 2 p.m. (area is just north of Pontiac road in Rochester). Features will include work by Pontiac's John Eicher and his fine golden retriever, Mitzi of Judan, utility dog, and little Lorraine Mottsinger of Pontiac and her trick dog, Tiny.

Tiny, a 7-year-old dog, has been trained entirely by his 13-year-old owner, who handles him in his acts. The clever dog has been shown many times in the area by Lorraine.

Southern Michigan Obedience Training club this year will conduct training classes at four area schools, beginning the middle of September.

There is no charge for the demonstrations and all interested in dog training are invited. For information about the Rochester training classes call John McNary, OL 1-7294; for Daniel Whitfield school classes, Pontiac, Reg Armstrong, FE 2-7749; Bloomfield Hills High School classes, MI 7-0115 and Waterford CAI bldg. classes, Jim Richmond, OR 3-3810.

Cooper 6-Under for 1st Round

Veteran Pro Cards 64, Paces Miller Open by Single Stroke

MILWAUKEE (UPI) — Gray-haired Pete Cooper, a 20-year veteran who has had his ups and downs on the professional golf trail, was the first-round leader today as the $35,000 Miller Open golf tournament went into its second 18 holes.

Cooper, 44, Lakeland, Fla., who returned to pro golf in 1958 from a year and a half layoff when a try at being a golf course owner failed, shot a six-under-par 64 yesterday at the rain-swept Tripoli Country Club to lead Doug Sanders and Ken Venturi by one stroke.

Mike Dietz of Paw Paw, Mich., was in a three-way tie for third place.

Michigan golfers Dave Hill of Kalamazoo and Bob Gajda of Bloomfield Hills shot 68 and 69 respectively.

The leaders:

Pete Cooper	32-32—64
Doug Sanders	33-32—65
Ken Venturi	33-32—65
Doug Ford	33-33—66
Bo Wininger	33-33—66
Mike Dietz	34-32—66
Wally Ulrich	34-33—67
Don January	34-33—67
Julius Boros	37-30—67
Dick Knight	34-33—67
Bert Weaver	35-32—67

PYC 'Sailoffs' Set for Aug. 30 and Labor Day

Ten championship fleet title contenders were all set for the start, this weekend, of the annual fall series of races at Pontiac Yacht Club.

Seven other skippers will battle for the commodore's fleet honors, along with the championship fleet in the five races, first two of which will be sailed Sunday. Two races will be conducted Sunday, Sept. 6, and the final on Labor Day, at Cass Lake.

Championship fleet contenders include Phil Smith, with his Malfa, who emerged as winner of the recent "Nite Owl" series. Others are Johnny O'Dell (Bambi III), Clarence Holman (Knot Ours), Andy Roualet Jr. (Go-Go-Go), Chuck Buck (Buccaneer), Claude Bennett (Gizmo), Jim VanDoren (Sea Jay), Ken Raymond (Sabre), Les Huntwork (Judy-K) and Ken Bonnett (Gob-Let).

Commodore fleet contenders are Al Oberon (Gizmo Too), Fred Prince (Princess II), Burt Bouwkamp (Can Do), Carl Marr (Hawk), Jack Grigsby (G-Whiz), Ken Willett (Maggie Kate), and Dave Barton (Marlinda).

Smith just nosed out Betty Holman, with the last race the clincher. O'Dell was 3rd with Marnie Goodwin close behind.

Hollywood Headlines

Lucille and Ann Working Together Again at RKO

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — At a recent dinner party, a former coworker asked Lucille Ball and Ann Sothern if RKO Studios had changed since the days when they worked there together.

"Yes," replied Ann, "Lucille owns it."

Lucille added: "And Ann made over the wardrobe department for her dressing room."

THOMAS

Two of Hollywood's nicest success stories concern these glamourous tycoons. Two decades ago, both were struggling for roles and recognition at RKO. Today, Lucille and her husband Desi Arnez are proprietors of the lot and Ann is their biggest customer.

★ ★ ★

Though Ann and Lucille worked simultaneously at three studios—Columbia, RKO, MGM — they never appeared together until a year ago, when Ann was in a Desi-Lucy special. Now Lucille is repaying the visit by an appearance on the first Ann Sothern show of the season.

LIKE A SEWING BEE

I dropped by to see them at work. The atmosphere was as cozy as a sewing bee.

"I love Lucille, and I know she loves me," Ann remarked. "Furthermore, I'm one of the few people who call her Lucille.

★ ★ ★

"I understand her. A lot of people think she is gruff and tough. But that's just her way. She's soft inside."

Between scenes, Lucille gave her own key to the durability of their friendship: "maybe it's because I'm not demanding. Neither is Ann."

Neither could remember the occasion where they met, but their other recollections of the old RKO lot were vivid.

"My career was built on the roles that Ann turned down," Lucille claimed.

★ ★ ★

"I doubt that," Ann countered. "I wasn't that important."

At any rate, they became fast friends. Lucille recalls going to Ann with a problem: her folks were coming to California to stay and she wasn't making enough to fix up a rented house. Ann went in and decorated the place with her unerring taste, and an eye for cost.

That was unusual for Ann, for she has always been lavish.

★ ★ ★

"I've always spent money," Ann admitted. "My theory is that whatever you spend will come back to you eventually. I've spent money even when I didn't have it."

Lucille has never been able to understand this. Even though she is a millionairess, she wouldn't buy herself a new dress for her show with Ann.

Suggest New Hospital

MANISTEE (AP) — A recommendation for construction of a new Manistee County Hospital, to replace the present 90-year-old facility, is being forwarded to the County Board of Supervisors. A special supervisors' study committee decided on the move Wednesday in the wake of a state order to correct fire hazards or halt use of the present facility by next May.

Teamsters Investing Pensions in Florida

MIAMI (UPI) — Nearly one-seventh of the Teamsters' 75 million dollar pension fund is invested in Florida, union spokesman disclosed.

Investment counselor James C. Downs Jr. estimates that more than 10 million dollars from the fund is invested in the state, most of it in hotels in the Miami area.

Downs was elected chairman of the board of the Miami National Bank, of which the Teamsters recently acquired control.

He says the pension fund, which is invested mostly in stocks and bonds, is growing at the rate of two and a half million dollars a month.

A Kansas woman (relates Ima Washout) claims she's at the age where her shoes pinch her more than the men do . . . About the only thing modern brides know about cooking is how to bring a husband to a boil. —Earl Wilson.

Begin State Survey of Industrial Potential

DETROIT (UPI) — The first of a series of surveys aimed at showing industrial opportunities in certain Michigan counties will be begun in Monroe County today, the Michigan Employment Security Commission reports.

★ ★ ★

A MESC spokesman said the survey in Monroe County would be conducted in conjunction with the Monroe County Full Employment Committee.

Similar surveys will be conducted in Muskegon and Wayne Counties and perhaps others later, the spokesman said.

The MESC will mail letters to Monroe County employers asking their cooperation in making a thorough analysis of the county's current manpower resources and future requirements.

The spokesman said Monroe County was selected for the first survey because of its proximity to Detroit, its recent industrial losses and efficiency and cooperation of the Full Employment Committee.

Dr. Lawrence Forst, chairman of Full Employment Committee, said the survey is a community project, designed to better the local economy.

Chief Back to School

SAUGATUCK (UPI) — Police Chief Russell Colling has resigned to return to Michigan State University where he will continue his studies in police administration.

That McDowell Boy Near 31

Roddy Back in Pictures

By JOE FINNIGAN

HOLLYWOOD (UPI) — Roddy McDowall has returned to pictures after an absence of eight years but moviegoers won't see the one-time child star bounding across the screen accompanied by a dog, horse or some other animal.

In fact, he plays a nut in his comeback.

"I haven't made a movie in eight years and in 'The Subterraneans' I play a demented character," Roddy said over lunch in the MGM commissary.

"For years my roles in Hollywood were that of the sympathetic young fellow with animals," he admitted.

However, Roddy, who turned in top notch performances in such pictures as "How Green Was My Valley," "White Cliffs of Dover," "My Friend Flicka," and "Lassie, Come Home," deserted Hollywood for Broadway and TV in 1951.

The handsome young actor is approaching his 31st birthday but still has the boyish look and crop of hair that always had a tendency to fall over his forehead.

★ ★ ★

Milliosn of filmgoers recall the hair flopping over Roddy's brow which helped him record some of Hollywood's most memorable moments of boyish pathos on the screen.

"I was a victim of a pre-conceived notion," Roddy said analytically. "Every person becomes famous for one role and that can carry him for a decade.

JUST 12 YEARS OLD

"It's a terrifying fact that it's difficult to overcome one's success and acceptance for something you've done.

"All the parts I was playing before I left Hollywood were mentally 12 years of age and I was older. I had offers to make pictures in the last eight years but most of the roles weren't to my liking or I had stage and TV commitments that held me back.

"And, the other side of the coin is that there were parts I would like to have played but couldn't get," he said candidly.

Roddy agreed that some child stars supposedly reach a period where they're supposed to be unemployable.

★ ★ ★

"I remember when I was a kid and was supposed to be going through the awkward age," he recalled. "But, I don't know yet what the awkward age is.

"It only worried me because people kept screaming at me about it. All I know is that I kept working right up until the time I left.

"And, long before I went to New York, I realized I wasn't six-foot four and the movie hero' type. That kind of an actor is easier to cast.

"I'm not, because I want to play different parts. I'd love to be in a musical. I audition for all of them but haven't gotten any yet."

Roddy realizes that, although he's well known to Broadwayites and TV viewers, there may be a mass of picturegoers who aren't aware of him.

★ ★ ★

"I'm sure that a whole decade of the movie public doesn't know of me at all except through reruns of my old pictures," he said. "All I ask is that people have an open mind."

Congress to Receive Bill for Giant A-Smasher

WASHINGTON (AP)—The Senate-House Atomic Energy Committee said Thursday it would send to both branches next week a bill authorizing 105 million dollars for the world's largest atom smasher.

The two-mile-long linear electron accelerator is to be built at Stanford University, Palo Alto, Calif.

President Eisenhower announced plans last May to build the atom smasher as an important tool in basic atomic research.

The President submitted the request for the authorization soon after his speech but the joint committee held it up for a detailed study.

★ ★ ★

It is estimated the accelerator will take about six years to build. At present Russia has the largest atom smasher; it is in operation at Dubna near Moscow.

Naval Hero "John Paul Jones" Subject of Exciting Warner Bros. Film Epic

Although John Paul Jones is recognized as one of history's most fascinating heroes, as well as the father of the United States Navy, it has remained for producer Samuel Bronston and Warner Bros. to bring him to life on the screen for the first time in "John Paul Jones," a multi-million dollar production in Technirama and Technicolor.

Directed by John Farrow, and with Robert Stack enacting the title role, this exciting adventure drama dealing with America's early struggles for freedom and justice opens at the Blue Sky Theatre today.

The story of John Paul Jones spans seas and continents. Sea rover, friend of George Washington, protege of Benjamin Franklin, intimate of King Louis XVI and Queen Marie Antoinette, his historic life and times ranged from Scotland, where he was born, to the West Indies, from the coasts of England to Imperial Russia, from the grace of Colonial Virginia to the pomp and glitter of the French Court. In sea battles which he fought in the North Sea, the Caribbean, the Black Sea and the Mediterranean, his victories earned for him a place in history which no other American navel figure has achieved.

All of these adventures are vividly pictured in "John Paul Jones," including the engagement between The Bonhomme Richard, captained by Jones, and HMS Serapis, which took place off Flamborough Head on the east coast of England on the evening of September 23, 1779.

Shown on the screen in Technicolor, this sea battle is perhaps the most spectacular scene of its kind ever filmed. As it was in real life, the sea and sky are tinted by the bright flames of the guns and the decks become a shambles of uprooted cannon, mangled bodies and flaming junk before an explosion from a well-placed grenade sets fire to the lower deck of the Serapis and forces its captain to surrender.

There are a total of 107 speaking parts in "John Paul Jones," interpreted by stars from six nations in one of the season's largest casts. In addition to Robert Stack's portrayal of the dominant character, the roster includes Charles Coburn as Benjamin Franklin, Marisa Pavan as Aimee de Tellison, with whom Jones had his most arden love affair, Erin O'Brien as Dorothea Danders, Macdonald Carey as Patrick Henry, Jean Pierre Aumont as King Louis XVI, David Farrar as John Wilkes, Peter Cushing as Captain Pearson, Susana Canales as Marie Antoinette, Bruce Cabot, Thomas Gomez, Jorge Riviere, Tom Brannum, Basil Sydney and Bette Davis, in a guest star appearance at Catherine the Great.

Much of "John Paul Jones" was filmed against authentic backgrounds in England, France and Spain. Most spectacular of these were staged in the Royal Palace, Madrid, where its throne room served as a setting for the court of Catherine the Great and its magnificent State Dining Room backgrounded a royal banquet in the court of Louis XVI.

"John Paul Jones" stands unique in that not a single miniature or "process shot" was used in recreating the sea scenes. The full-scale replicas of The Bonhomme Richard and HMS Serapis are perhaps the most expensive "props" ever used in a motion picture. Built in Italy, at a cost of $400,000, the skill of 400 craftsmen was required to convert the seaworthy wooden hulls into the authentic square-rigged fighting frigates in the film.

The screenplay for "John Paul Jones" was written by director John Farrow and Jesse Lasky, Jr. Intensive research was devoted to this to assure an authentic depiction of this portion of America's War of Independence. In light of world events today, it gives the picture an immediacy which stamps it as one of the season's most notable films.

EYES POP OUT — Little Susan Weinkauf of Wausau, Wis. is hugging Josephine, the boxer dog, so hard that it seems as if his eyes are ready to pop out. Just a simple case of puppy love, it looks like. But still the boxer isn't remonstrating too much.

Steel Negotiators 'Think'; Will Meet Next Wednesday

NEW YORK (AP)—Negotiations in the nationwide steel strike are in recess so that leaders of both sides can think things over for a few days.

When the talks start up again Wednesday, the strike of a half million workers will be 50 days old.

Joseph F. Finnegan, director of the Federal Mediation and Conciliation service, announced the recess after a bargaining session Thursday.

★ ★ ★

He said top negotiators for the industry and the striking United Steelworkers Union of America told him that "it is their joint opinion that time for additional work by the respective parties is required in order for them to evaluate and restudy their positions."

★ ★ ★

A joint statement by Union President David J. McDonald and R. Conrad Cooper, chief industry negotiator, said: "The parties have reached a point where a temporary adjournment appears to be necessary. After many weeks of continuous discussion, both parties need to devote time with their own associates to review the problems that have been considered and to assess efforts to date.

"It is clear that up to now the parties have not been successful in finding a basis for mutual accommodation. It is equally clear, however, that there is considerable work to be done which cannot be carried on while joint meetings are in progress."

Chief executives of the nation's 12 largest steel companies will meet privately here today to receive a report from their four-man negotiating team.

The strike has shut down 90 per cent of the nation's steel production. About 150,000 employes in related industries have been made idle.

'Spike Was Punched,' Says Young Party-Goer

PHOENIX, Ariz. (AP) — An intoxicated 16-year-old boy was arrested by Phoenix police as he wandered around a parking lot.

"What happened to you?" police asked.

"I went to a party to celebrate the ending of school," he said, "and I didn't know the spike was punched."

Tear Gas Breaks Up Little Rock Meeting

LITTLE ROCK, Ark. (AP) — Choking fumes from tear gas bombs thrown by two white women broke up a routine meeting of the Little Rock School Board Thursday night.

★ ★ ★

Two bombs were tossed into the foyer of the downtown school headquarters while the board was meeting upstairs. Fumes and smoke spread quickly through the building and the board, a half dozen newsmen and about 20 spectators scrambled out through a rear exit. No one was hurt.

★ ★ ★

The gassing was the first physical attack on the board, which has been under verbal assault from segregationists for fostering a token plan of integration for Little Rock high schools.

Leonard Willis, a Negro janitor, said he saw the women push open the front door and toss the bombs inside.

★ ★ ★

Willis said he ran to the door and watched the women flee in a waiting car. Both women fell on the rain-slick steps. One lost both shoes, the other lost one. Police said the shoes would be impossible to trace.

The board took the gassing calmly. Members wiped away tears and walked two blocks to the offices of the Chamber of Commerce and resumed their meeting behind locked doors.

★ ★ ★

Five Negroes have attended two white high schools here since classes started Aug. 12. Police broke up a segregationist demonstration on opening day.

Cross Executive Proves Cagy About Confab Day

DETROIT (AP) — The executive vice president of the struck Cross Co. plant in Fraser has been asked again to meet with federal and state mediators to discuss the lengthy strike.

The mediators had asked Ralph E. Cross to meet with them yesterday, but the executive declined because of a "previous commitment."

Allen D. Chisholm, state mediation board chairman, wired Cross yesterday that he was "somewhat surprised and disappointed" with Cross' attitude. Chisholm said he and Harry Caton, of the Federal Mediation and Conciliation Service, still wanted to meet with Cross and asked that Cross set a date by Monday.

There was no immediate comment from Cross.

'Take Revenge' on White Race for Fight Loss

DETROIT (AP) — Wilson Johnson Jr., 19, and Robert French, 16, said they got mad when boxer Floyd Patterson, a Negro, lost the heavyweight boxing championship to challenger Ingemar Johannson last June.

The two Negroes, according to a probation report, "decided to take revenge on the white race."

Police said they beat a 76-year-old man with a broom handle, gave another victim mouth injuries and broke the glasses of a third. Three other persons suffered lesser injuries.

Johnson and French were placed on two years probation yesterday, ordered to pay court costs and to make restitution to the six assaulted persons.

Detroit Delays Shopping Mall

Experiment Will Wait for Survey of Traffic, May Be Dropped

DETROIT (AP) — Shoppers are going to have to wait awhile for a downtown mall. The idea might even be dropped.

★ ★ ★

Planners' hopes of trying out the mall this fall dimmed yesterday when the Executive Committee of the Central Business District Assn. decided to hold up the experiment until a traffic study is completed.

The Association represents 160 downtown business concerns.

Charles F. Blessing, City Plan Commission director, said previously he had hoped to have the mall in operation from Sept. 14 to Nov. 1.

City officials said the traffic study cannot be completed until at least next spring. The proposed mall would lie along Woodward avenue between Michigan avenue and State street.

★ ★ ★

The business group indicated willingness to try the experiment if the traffic study showed that vehicles diverted from closed-off Woodward could be absorbed by other north-south streets.

Asks Group to Study Hospital Labor Dispute

LANSING (AP) — A fact-finding committee has been appointed by Gov. Williams in an attempt to settle a labor dispute between the Grand Rapids Osteopathic Hospital and employes represented by the Hospital Employes Assn.

Wages, hours and working conditions are at issue.

★ ★ ★

Joseph Arsulowicz, Grand Rapids attorney, was named committee chairman. Other members appointed were Sherrill Cleland, professor of economics at Kalamazoo College, and Harry J. Kelley, industrial relations manager of the American Seating Co., Grand Rapids.

Selling Pushes Grain Decline

CHICAGO (AP) — Selling pressure increased moderately today in early activity on the Board of Trade, speeding up the recent decline in grain futures prices.

Rye and soybeans were down as much as a cent a bushel within the first several minutes. The setbacks in wheat and corn ran to major fractions on the September contract.

Traders said the selling appeared to be a continuation of evening commitments in advance of first notices Monday of intentions to make deliveries on September contracts.

The volume, however, again was small as offerings found slow acceptances even at the lower levels.

Wheat was unchanged to ½ cent a bushel lower after about an hour, September $1.90⅛; corn ⅛ to ¼ lower, September $1.16¾; oats ⅛ lower to ¼ higher, September new type contract 66⅝; rye ⅝ to 1¼ lower, September $1.30; soybeans ¾ to ⅞ lower, September $2.09½.

Diggs Quits Legion Over Race Bias

WASHINGTON (AP) — Rep. Charles C. Diggs Jr. (D-Mich), Negro Congressman from Detroit, resigned today from the American Legion in protest against what he called a shocking demonstration of racial intolerance.

Diggs protested the Legion's rejection at its Minneapolis convention of a proposal to permit voluntary racial integration in local units of the 40 & 8, the Legion's fun-making society.

In a telegram to Preston J. Moore, Legion national commander, Diggs said:

"I cannot in good conscience remain a member of the 'un'-American Legion as long as the aforementioned discrimination is the official policy of the organization."

Diggs was an army lieutenant in World War II.

Jump Into River Cools His Desire to End It All

After a fight with his wife, Frank Lucas of 425 Eton Rd., Bloomfield Township, decided to end it all today. He jumped into the Detroit River.

The idea cooled, once he hit the water, however. A former lifeguard, Lucas, 38, swam to the Canadian shore instead. He then took a bus back to Detroit via the tunnel.

When he arrived at the U. S. Customs Office in Detroit, Lucas was shirtless and without shoes. Officials there called the Detroit Police who heard his story and then took him to Receiving Hospital for observation.

Lucas said he is having domestic troubles. Maybe it's just the heat.

2-Car Accident Sends Pontiac Man to Hospital

A Pontiac man is in fair condition today at Pontiac General Hospital with a possible broken neck and ribs and a fractured left leg after he was involved in a two-car accident last night on Auburn road near Rosetta road.

Jack L. Hubble, 38, of 362 Russell St., was taken unconscious to the hospital. He was not able to make a statement to police.

The driver of the other car, Martha Laing, 58, of 2739 Auburn Rd., Pontiac Township, was uninjured. She told Oakland County Sheriff's deputies that she was stopped on Auburn road waiting to make a left turn when Hubble struck her car in the rear.

Business Notes

Everett K. Garrison, 3690 Covert Rd., assistant vice president in charge of personnel at the Pontiac State Bank, is attending the two-week residence session of the School of Banking at the University of Wisconsin in Madison.

The school, sponsored by the Central States Conference of bankers associations of 16 states, requires residence attendance for two weeks each year for three years for graduation.

Garrison will be among 367 seniors to receive their diplomas at the 1959 graduation exercises tonight. He will return to Pontiac Monday.

MARKETS

The following are top prices covering sales of locally grown produce brought to the Farmer's Market by growers and sold by them in wholesale package lots. Quotations are furnished by the Detroit Bureau of Markets, as of Wednesday.

DETROIT EGGS

DETROIT, Aug. 28 (AP)—Eggs f. o. b. Detroit in case lots federal-state grades:

Whites—Grade A extra large 41; large 40; medium 28; small 18; grade B larage 31; browns—Grade A extra large 41; large 40; medium 28; small 18; total 40; medium 28; small 18; grade B large eggs Aug. 22-28 were 9,800 cases:

Commercially graded:

Whites—Grade A large 34-35 medium 24-25; browns—Grade A large 34; medium 24.

News in Brief

Five bedspreads were stolen yesterday from the Fabric Mart, 6 N. Saginaw St., it was reported to Pontiac Police.

Someone broke into the offices of the Blair Transit Co. at 675 S. Saginaw St. and stole a camera and some photographic equipment, it was reported to Pontiac Police.

Joann Williams, 6831 Saline St., Waterford Township, reported to Pontiac Police yesterday that thieves took some clothing and tools value unknown, from her car parked at 398 S. Saginaw St.

Walter Wagner, 7118 Second St., West Bloomfield Township, told Oakland County Sheriff's Dept. that someone stole his boat valued at $100 sometime over the weekend.

Someone stole his lawnmower valued at $100 last night, Julious Wilbank, of 1022 Crosby Lake Rd., Independence Township, reported to Oakland County Sheriff's Dept.

Market Quiet in Mixed Deals

NEW YORK (AP) — The stock market settled back into a mixed pattern early today. Trading was slow after an active opening.

Key stocks registered gains or losses going mostly from fractions to a point.

Reynolds Metals advanced more than a point in continued response to stock split news.

Vick Chemical dropped more than a point in profit taking on recent strength.

Otherwise, there were few highlights. A number of leaders were unchanged at the start or showed minor changes.

Among the widely moving electronics were gains of more than a point for Zenith and Litton Industries, not expecially noteworthy for this group.

The steels, motors and aluminums were uneven and slow after their pacemaking performance of yesterday. The market as a whole figured it might follow through on the previous session, this week's best.

With the steel labor negotiations in recess and no outstanding news, Wall Street reverted to caution.

Minute Maid rose a fraction but was lightly traded following news of merger negotiations with Tenco, Inc., a coffee processor.

Dems to Start Fund Campaign September 25

LANSING (AP)—Michigan Democrats will launch a door-to-door "Dollars for Democrats" drive Sept. 25, Neil Staebler, the party's state chairman, said today.

The annual campaign will raise funds to help finance national, state and county party activities. It will wind up Oct. 4.

John F. Dodge of Dearborn, assistant secretary of state, will head the campaign, in which 30,000 Democrats took part last year. This year's goal is 40,000 participants, Dodge said.

William R. Hart, deputy state auditor general, will serve as vice chairman.

Toledo Merchants Want to Keep Malls

TOLEDO, Ohio (AP) — Seventy per cent of the merchants along Toledo's four experimental downtown pedestrian malls had an increase in sales during the first two weeks of the 45-day test, a survey showed today.

And, naturally, 70 per cent of the businessmen want to see the malls extended beyond the test period. Thirty per cent said their business decreased after the malls went in.

The survey was made through questionnaires sent out by Downtown Toledo Associates, an association of merchants. It was the first of three to be made at two-week intervals.

From downtown merchants off the immediate mall area, the response was less favorable. Fifty-six per cent reported their sales went up, 34 per cent replied that their sales were lower than a year ago and 10 per cent noted no change at all.

Of these off-the-mall merchants, 53 per cent favored a continuance of the test.

★ ★ ★

Merchants on and off the malls agreed that most of their customers like the malls.

As for parking and traffic difficulties created by the malls, the businessmen on the malls said 50 per cent of the customers they talked to complained there was more trouble. The off-the-mall merchants said only 34 per cent of their customers made such complaints.

Goodyear Co. Tells Change of Manager

A change in management has been announced at the Pontiac branch of the Goodyear Tire & Rubber Company, 30 S. Cass Ave.

Manager of the Pontiac Store for three years, Robert T. Craig Jr., has been promoted to assistant district manager at the company's Pittsburgh office. He will relocate in Pittsburgh with his wife and two children.

CRAIG CULLEY

Filling Craig's vacancy September 1 is James E. Culley, of Cincinnati, where he was store manager. Culley comes to Pontiac with his wife and four children.

Packard Ex-Official Milton Tibbetts Dies

DETROIT (AP)—A Packard Motor Car Co. vice president and patent council until his retirement in 1952, Milton Tibbetts died yesterday in Whittier, Calif., at the age of 80.

Tibbetts joined the Packard Company in 1907 and in 1916 helped to establish the Michigan Patent Law Assn. He served as president of the American Patent Law Assn. in 1948.

A former resident of Detroit, Tibbetts was a member of the Automotive Manufacturers Assn., the National Assn. of Manufacturers and the secretary of commerce's committee on patent law from 1937 to 1945.

School Bond Rate OK'd by Waterford Township

Waterford Township Board of Education last night accepted the low bid of 4.46 per cent interest rate from the Braun, Bosworth Co. of Detroit for the sale of $2,500,000 in school district bonds. Four bids were submitted.

With the sale of the bonds, the way has been cleared for one of the largest school building programs in Michigan, and already bids have been received for a new elementary school.

Of eight bids opened at last night's meeting, the Leslie Construction Co. was lowest with a bid of $240,800 for the new 14-room school to be located on Walton boulevard.

Five additional bids for a new well were opened and B. W. Layman & Son submitted a low base bid of $1,638. All of the school bids were referred to architects, the George D. Mason Co., for recommendation and presentation at a special meeting Thursday.

With awarding of a contract to the Bund Construction Co. last night work will begin immediately on a five-classroom addition to the Schoolcraft Elementary School. The company had submitted a bid of $118.900 at last week's board meeting, and board members awarded the contract after study and recommendations from the architects.

In other action, a teacher at the John Monteith School, Patricia Knudson, was named new principal of the Hudson Covert Elementary School replacing George Tramontin who has accepted a position at the University of Chicago.

Contracts also were awarded to four new teachers bringing the total teaching staff to 441 instructors in the Waterford school system.

OUT OF BUSINESS — This store on the main plaza in Jaltipan in Mexico is a jumbled mass of wreckage following the earthquake Wednesday that shook the Gulf Coast area of the Isthmus of Tehuantepec, southeast of Mexico City. The death toll now stands at 16 but many areas in the quake section still have not been heard from. All the dead are reported from Veracruz state. Officials say there were at least 60 injured in the state. Many communication lines are still out. The quake caused widespread damage and casualties in five different states.

Pressure May Speed Up School Aid Settlement

LANSING (AP)—Mounting pressure from home apparently moved legislative conferees nearer to agreement today on a level of state support for local schools.

"I guess we've all had a lot of pressure," said Rep. Raymond C. Wurzel (R-Port Huron). "I know I have."

"The school districts are getting panicky about how to meet the bills," said Rep. Charles A. Boyer (R-Manistee).

Wurzel said no agreement had been reached as yet but several compromise proposals were being talked over. The conference committee of three senators and three representatives was due to meet again this afternoon.

The Senate has been holding out for a $200 per pupil support with deductible millage pegged at three mills. The House has been urging a $210 support level and a 3½ deductible millage. (The higher the millage, the greater is the share of aid received by "poor" local districts.)

★ ★ ★

The current level is $190 and 2¾ mills.

The House proposal would cost 10 million dollars more than the Senate's.

A previous conference committee was discharged when it failed to reach agreement.

Sen. Frank D. Beadle (R-St. Clair) said he was carrying a compromise offer back to Senate Republicans. He indicated this was for $205 per pupil and 3¼ deductible millage.

Even if a compromise is reached, the legislature could not act on the school aid bill before some time next week.

★ ★ ★

Dr. Lynn M. Bartlett, state superintendent of public instruction, said an increasing number of schools were talking of not opening their doors in September unless the aid question is resolved.

Schools did not receive their August aid payment, which would have amounted to about 40 millions. In addition, they have not been able to borrow against anticipated state aid because failure of the legislature to reach agreement.

Reports $200 Theft

Two $100 bills were taken from the home of Mrs. Phyllis Bair, 25360 Devon In, Southfield Township, yesterday afternoon she reported to Oakland County Sheriff's Dept.

Ike's Visit Will Help Macmillan

LONDON (UPI) — One result of President Eisenhower's visit to Britain — unintended but inevitable—is to gain votes for Prime Minister Harold Macmillan's Conservative party.

The mere presence of the first American president to visit this country in 40 years lends prestige to the government in power and cannot help but add some votes to its columns, political observers agreed.

But it is the significance of the visit that gives real weight to Macmillan in his electoral campaign.

The hundreds of thousands who cheered Eisenhower on his arrival yesterday were in one sense cheering also for Macmillan and his initiative in starting the series of East-West talks that culminate next month in the Eisenhower - Khrushchev meetings.

Thieves Take His Tools

Two drive sets and various wrenches valued at $100 were taken from the garage of William Beaumont, 3098 York St., Avon Township, some time this week it was reported to Oakland County Sheriff's Dept. His name or initials are on each article.

Reds Develop Artificial Comet

Would Be Seen From 50 Million Miles After Releasing Gas Cloud

WASHINGTON (AP) — The Soviets claim they are close to developing new and more powerful "artificial comets" that could be seen if they reach the planet Mars, at least 50 million miles away.

★ ★ ★

The idea, a Soviet report translated here says, would be to provide a space-probing rocket with a kind of tail-light consisting of a cloud of chemical gas having high reflective powers for sunlight.

★ ★ ★

Such a device, the Soviets claim, could automatically and visually signal the arrival of the rocket in the vicinity of Mars even if radio communication at such a great distance failed.

The cloud of gas, automatically belched from the rocket, would also allow new tests of the density and temperature of the gas that fills interplanetary space, Soviet scientists say.

★ ★ ★

The Soviet report, translated and distrnbuted by the U.S. Department of Commerce, declared the new possibilities stem from initial success with a form of "artificial comet" arrangement used in the Soviet rocket Mechta launched last January.

★ ★ ★

Mechta was equipped with a device that spewed out a cloud of sodium gas which the Soviets claim they spotted.

GM Gives Grant to Study Exhaust Gas

DETROIT — A grant of $50,000 to the Sloan-Kettering Institute, New York, to determine whether or not automotive exhaust gases are related in any way to cancer in humans was announced today by General Motors.

The Institute will perform chamical analyses on samples of tars collected from automotive exhaust gases under a variety of operating conditions. Tar samples extracted from representative city atmospheres also will be studied in an effort to identify the effect of automotive exhaust gases in relation to other sources of air pollution.

★ ★ ★

Sloan - Kettering Institute will have a free hand in conducting all phases of the study during the next two years, General Motors announced.

State to Sell Seedlings

LANSING (AP) — The State Conservation Department has placed about 12½ million tree seedlings and transplants on sale for use in forest plantings, farm windbreaks and erosion control. Most are white, red and jack pine.

The Valle Grande volcanic crater, near Los Alamos, N. M., measures 16 miles in diameter and covers 176 square miles.

ADVERTISEMENT FOR BIDS

The Board of Education of Bloomfield Hills School District No. 2, Bloomfield Hills, Michigan will receive sealed bids for the construction and completion of Water Service to the Bloomfield Hills Elementary School (Quarton Road Site) and Bloomfield Hills Junior High School (4200 Quarton Road) until 8:00 p.m., E.S.T., Monday, August 31, 1959, at the office of the Board of Education, Bloomfield Hills, Michigan, at which time and place all bids will be publicly opened and read aloud.

Proposals must be on forms furnished by the Architect and be accompanied by a Bid Bond or certified check in the amount of five per cent (5%) of the proposal submitted.

Plans and specifications may be obtained on and after Monday, August 19, 1959, at the office of the Architect, Tarapata-MacMahon, Architects, 1591 Woodward Avenue, Bloomfield Hills, Michigan.

A check in the amount of $10.00 must be submitted as a deposit for each set of plans and specifications, same to be refunded upon return of plans and specifications in good condition within ten (10) days of the opening of bids.

Accepted bidders will be required to furnish satisfactory Performance Bond and Labor and Material Bond, each in the amount of 100% of the contract, the total cost of which shall be paid by the accepted bidder.

All proposals submitted shall remain firm for a period of thirty (30) days after opening of bids.

The Board of Education reserves the right to reject any or all bids in whole or in part, and to waive any informalities therein.

BOARD OF EDUCATION
Bloomfield Hills School District No. 2
Bloomfield Hills, Michigan

Death Notices

OATES, AUG. 26, 1959, DAVID R., 30 Spokane; age 2 months; beloved son of Glen R. and Eugenia Oates. Funeral service will be held Saturday, Aug. 29, at 10:30 a.m. from Donelson-Johns Funeral Home.

OLSON, AUG. 26, 1959, GORDON F., 135½ Oakland Ave.; age 43; dear son of Delia B. Olson; dear brother of Raymond K. Olson, Mrs. Jerry Biggs, Mrs. Martha Frisk, Mrs. William Nelson and Mrs. Bud Teiglund. Funeral service will be held Monday, August 31, 1959 at 1:30 p.m. from Huntoon Chapel with Dr. Tom Malone officiating. Interment in White Chapel Cemetery. Unit No. 19 of MOMS will have service Sunday afternoon at 3:00 p.m. at Huntoon Funeral Home.

Card of Thanks 1

WE WISH TO THANK OUR MANY friends, neighbors and relatives and Local 594 for their kindness and floral offering during our recent bereavement in the loss of our dear father, John Swartz. Special thanks to Rev. D. B. Fawley the Huntoon Funeral Home, and the pallbearers. The family of John Swartz.

WE WISH TO EXTEND OUR heartfelt thanks and appreciation for the acts of kindness, messages of sympathy, and beautiful floral offerings received from our kind friends and neighbors during our recent bereavement. We especially thank the Rev. James Luther and the Pursley Funeral Home. M. and Mrs. Orry Ritter, Mr. and Mrs. R. G. Mulchahey, and Mr. and Mrs. Wm. Dunkeld.

WOODHULL LAKEFRONT —60 ft. of beautiful sand beach; never a weed! Cedar shakes. 3 bedrooms plus heated sun room. The paneled living room features a log burning fireplace. Family dining room. Big, modern kitchen. Full basement, auto. heat, extra lavatory. 2 car garage. Plenty of shade. An excellent, good, close-in lakefront.

IT'S HARD to find a 4 bedroom home and especially difficult to locate in a good school district and with shopping close at hand 1 bedroom down; 3 up. Basement, gas heat. Near St. Benedict's and Donelson schools. A very modest dwn. payment will get you started with immediate possession. If you wish. We have the key!

U.S. to Aid Laos With Arms Cargoes

WASHINGTON (AP) — American planes will fly small military equipment to Laos in the next few days to help the little kingdom battle Communist rebels.

★ ★ ★

Based in the Philippines and, perhaps, Japan, the cargo planes will bring arms, ammunition, tents and jeep-type vehicles to Laos. The equipment will come out of U.S. stocks in the Western Pacific.

★ ★ ★

American aid to the Southeast Asian nation has been running at about 30 million dollars a year. The State Department has not disclosed how much this will be increased.

Conferees to Attack Labor Bill Again

WASHINGTON (AP) — Weary conferees conceded they drew blanks Thursday in trying to solve the tough problems on secondary boycotts which are preventing a final agreement on a labor bill.

They'll try again today — the ninth day of their sessions.

★ ★ ★

Sen. John F. Kennedy (D-Mass), had said originally he thought the House - Senate conference would end with a bill or in deadlock by noon today.

Three items now causing the impasse concern traditional union practices in the garment and construction industries and in so-called consumer picketing of retail stores.

Laborers Quit Picket Line at Own Local

DETROIT (AP) — Andrew McFarlane can stop running his union local from under a tree—at least for the present.

Dissident members of Laborers Union Local 334 agreed yesterday to remove their picket line from Union headquarters and go back to work.

McFarlane, Local president, carried on union business under a nearby tree rather than cross the picket line when it was set up 10 days ago. The union is made up of construction workers.

The rebels said they were protesting against the hiring of part time workers by contractors while union members were jobless.

The union said a change in methods of job assignment brought the settlement. Officials did not elaborate.

The union also agreed to set up a committee to hear grievances from members.

Tires Wear on Curves

AKRON—Automobile tire wear on curves is said to be 1200 per cent greater than the wear on straightaways.

Gwen Verdon Moves Into Lush Penthouse

By EARL WILSON

NEW YORK—Gwen Verdon had just moved into a lushly-terraced penthouse high over Central Park West which in the good old days was William Randolph Hearst's and recently was Charles Van Doren's.

WILSON

"Did you find any of Van Doren's old quiz questions?" I eagerly asked Gwen.

"No," answered Gwen, with a slight smile, "but I found out that he was so brillant that everyday living escaped him."

To explain that, Gwen had to sit down. She had followed the modern admonition for apartment-hunters, "Go West Side, young woman, go West Side," and had been limping about in the moving mess—with one-foot bandaged because a sprain had put her out of "Redhed" for a week.

"He did wiring which had to come out or I'd have been electrocuted," Gwen said, putting the bandaged foot up on a coffee table.

"Where he'd taken pictures down, he'd left open wiring. Even I know you're supposed to cover it up with tape."

GWEN

But with a laugh, Gwen said maybe Van Doren hadn't done this himself, maybe it was somebody who had meant to electrocute her — then she hobbled out onto the tremendous terrace where she would have built a Hollywood-type swimming pool in the sky, except that the weight of the water might have brought a cloudburst on a couple hundred other tenants below.

The dedicated little dynamo who attained this luxury just by taking dancing lessons was showing it all off for the first time. "I'm having an Italian tent here—and awning there—some trees will be moved in there . . ."

Gwen looked over the terrace wall, down into Central Park itself. "I watched the 'Redhead' softball team play down there yesterday," she said. "And look at all those little penthouse roofs down there . . ."

Gwen's son Jimmy, 16, has gone to live with his father, Jim Henaghan, in California, and will soon be proceeding with his father to Japan.

"Japan will be good for him," Gwen thought. "He'll suddenly see children who have respect for their parents. Here, well, you're sort of a deadbeat if you're polite to your parents.

"These kids today are so casual—like a roomful of Fred Astaires."

So Gwen will be pretty much alone in the rambling penthouse except for her guests. Does she maybe plan marriage, or is she maybe married? She and Bob Fosse, the director, will admit nothing.

★ ★ ★

Gwen'll be looked after by a devoted Negro maid who's so shy that she crawled out a window from a bedroom onto the terrace to avoid coming through the living room when I was there.

"I always have to tell my guests not to sit too long," Gwen said, "or she'll scrub them with a Brillo pad. She cleans everything!"

★ ★ ★

TODAY'S BEST LAUGH: Some men who object to their wives spending $5 for a parakeet think nothing of spending $100 on a lark.

WISH I'D SAID THAT—An old-timer remembers when you could buy a nickel's worth of candy and pass it around . . . That's earl, brother.

Extend Walkout at Atomic City

Sympathy for Janitor Puts 600 Housekeepers Out at Los Alamos

LOS ALAMOS, N.M. (AP) — A walkout by 600 workers at this atomic energy laboratory city, started as a sympathy action for a janitor, continued today.

★ ★ ★

No talks were scheduled between labor and management. One official said he expected no negotiaions before Monday.

The strike by members of the various unions of the Zia Co., housekeeping firm for the city, stemmed from a claim brought by a janitor, Genaro Martinez, recently transferred to another job. Martinez contended the company discriminated against him for his activities in attempting to organize janitors into a union.

★ ★ ★

The Zia Co. is responsible for all utilities, maintenance and custodial work in the laboratory and for all government-owned real estate at Los Alamos.

Thursday routine services were offered on an emergency basis by crafts workers and other responsibilities were carried out by Zia's supervisory personnel.

Joe Bermudez, business agent for the union, said the strike would end as soon as Martinez is restored to his former job and his loss of earnings while on a lesser scale made up.

Japan to Negotiate Repayment of Debt

TOKYO (AP)—Japan is reported ready to negotiate repayment to the United States of part of an estimated two billion dollars in special aid extended after World War II.

Some sources report the government hopes the debt will be reduced to about 600 million dollars. They point out that West Germany, in settling a similar account, got a reduction and easy repayment terms.

LEADS LAOS — Crown Prince Savang Vathana, 52, has taken over the powers of monarchy in embattled Laos, with consent of his ailing, 74-year-old father, King Sisavang Vong.

Makes Algae Work

LANSING (AP)—Biologists for the State Conservation Department are using a new approach in providing more plant food for fish in inland lakes. They have found out that by adding a chemical solution plus ordinary garden fertilizer to lake waters, the lake's algae manufacture organic matter 60 times faster than before.

Goodrich built the first rubber factory in Akron, Ohio, in 1870.

Amvets Study Draft Change

Resolution Asks That Army Rejects Be Used in Civil Defense

GRAND RAPIDS (AP) — A proposal to draft civil defense workers from among men without previous armed forces duty comes before th 15th national Amvets convention today.

The resolution was submitted by the Amvets' Kentucky department. It asks federal legislation ordering civil defense duty for men under 26 who have not served in U.S. armed forces.

Sponsors noted that 2,250,000 of the five million men under 26 without past military service will be rejected military service Selective Service standards. Their resolution adds that 3 million already have been rejected and 275,000 deferred.

The resolution aska Congress to amend the Universal Military Training and Service Act to provide as follows: "Every person liable for training and service under that act and who has not previously rendered military service shall be liable for service in any civil defense activity deemed appropriate by his local (draft) board."

It emphasizes "the survival of the nation following a nuclear attack will depend largely upon an existing civil defense capability composed of trained people in sufficient number."

Another resolution expected to meet convention approval is one urging courtesy to Soviet Premier Nikita Khrushchev on his forthcoming U.S. visit.

Still another censures the international Olympic committee for denying permission for Nationalist Chinese athletes to compete under that name.

The first oil well in West Virginia was drilled on the banks of the Hughes River in 1859.

Ike's Europe Travels to Light Up TV Hours

By HUGH A. MULLIGAN

NEW YORK (AP) — President Eisenhower's trip to Europe to explore avenues of peace highlights the television scene in the coming week.

★ ★ ★

CBS' new "Eyewitness to History" series will cover the President's visit to England an Scotland at 7:30 p.m. Sunday and his visit to Paris at 7:30 p.m. Thursday. With Walter Cronkite as anchor man, the series will devote four programs to the Eisenhower tip and 10 to Soviet Premier Khushchev's American trek. The 14-part series is sponsored by Firestone.

★ ★ ★

Other top programs on tap for next week:

The Yankees meet the home run-happy Washington Senators at 1:55 p.m. Saturday on NBC. The same network will broadcast the Davis Cup doubles matches from Forest Hills, N.Y., at 5. Winding up a big sports day, th Detroit Lions meet the New York Giants in a pro football game at 10 on ABC.

On Sunday at 12:55 on NBC the Philadelphia Phillies battle the Pittsburgh Pirates.

★ ★ ★

Poet Carl Sandburg and photographer Edward Steichen "Meet the Press" at 6 on NBC.

Peter Duchin, Eddy Duchin's son who was brought up in W. Averell Harriman's household, will appear on the Ed Sullivan show at 8 on CBS, playing Chopin's "Nocturne in E Flat," his father's old theme song.

Howie Morris and Pat Carroll, the embattled commuters of the old Sid Caesar troupe, are reunited at 9 on NBC's "Chevy Show," Raitt.

★ ★ ★

Undefeated middleweight Gene Armstrong of Elizabeth, N.J., takes on British empire champ Dick Tiger of Nigeria on ABC's "Wednesday Night Fights" at 10. At the same hour on NBC, opera star Lauritz Melchior gets the "This is Your Life" treatment.

Friday at 10 on NBC, Cavalcade of Sports presents lightweight Len Matthews of Philadelphia and Rolando "Chico" Morales of Havana in a 10-rounder from Atlantic City, N. J.

Pencil Processes Many

TOLEDO—It requires 40 materials and 125 processes to make an average lead pencil. Yellow colors are still preferred.

Tokyo, the capital of Japan, covers a territory of 828 square miles.

TV News and Reviews

Ike-Nik Shows to Replace Peter Gunn, Ed Sullivan?

By FRED DANZIG

NEW YORK (UPI) — Two new shows with one cast of characters were unveiled on TV last night.

★ ★ ★

The Columbia Broadcasting system and National Broadcasting Company launched the first of many news shows that are dedicated to massive television techniques aimed at bringing world problems right into our homes.

Specifically, the shows will try to help Americans better understand the significance of President Eisenhower's trip to Europe and his exchange of visits with Nikita Khrushchev.

Since these shows—25 scheduled by NBC and 14 by CBS—come during hours ordinarily devoted to "entertainment" aimed at shutting out world problems, the experiment may be a factor in shaping future programming attitudes. Imagine having a trend toward news shows on nighttime TV!

★ ★ ★

Anyone seriously seeking information on Eisenhower's trip would have benefitted more from the NBC-TV half-hour, "Journey to Understanding: The Eisenhower trip," than from CBS-TV's "Eyewitness to History: Eisenhower in Germany."

The NBC-TV program, with Frank McGee as anchor man, did not let itself get bogged down in meaningless ceremonial fluff or wasteful "stage waits," whcih the CBS-TV cameras captured in great detail.

Also, the NBC-TV show gave us fewer newsreel pictures of the statesmen and more pithy statements about the "why" of their meeting.

★ ★ ★

Interesting man-in-the-street interviews were presented by NBC from London and Berlin.

The show concluded with comment from Paris and Washington, which again advanced the general sum of information. CBS-TV ignored the "grass roots" interviews and the opinion wrapups.

THE CHANNEL SWIM:

David Wayne returns to TV opposite Janet Blair in the Sunday, Oct. 18 NBC-TV special, "The Strawberry Blonde" . . . Henry Cabot Lodge, United States Ambassador to the U.N., will help CBS-TV's U.N. in action launch its 11th season on Sunday, Sept. 13 . . . Trish Dwelley, the singer Jack Paar "rediscovered" two years ago, returns to his show next Thursday night.

★ ★ ★

The season's second Bell Telephone Hour musical, set for NBC-TV on Friday, Oct. 23, will use an old West theme. The talent roster includes Burl Ives, Dolores Gray, Art Lund, Patrice Munsel, Brian Sullivan, Janis Paige and Johnny Cash.

Engle Proposing Drastic Changes

Senator Would Set Up Defense With Single Chief of Staff

WASHINGTON (AP) — Elimination of a separate Army, Navy, Air Force and Marine Corps in a drastic overhaul of the nation's defenses was proposed today by Sen. Clair Engle (D-Calif).

"The missile race is one we must win if we are to stop Communist domination of the world," Engle said in a speech prepared for Senate delivery. He is a member of the Senate Armed Services Committee.

★ ★ ★

"My suggestion is that the present organization structure of the Defense Department be abolished," he said, "that we eliminate the designations of the Army, the Navy, the Air Force, and the Marine Corps as service designations, and that the Defense Department be reorganized on the basis of functions and missions."

★ ★ ★

Engle proposed instead "a retaliatory striking force; a limited war force; a continental defense; and a logistic command."

He also proposed far-reaching upheavals in Pentagon organization, including replacement of the present Joint Chiefs of Staff with a single military chief of staff aided by a general staff.

Jet Lands Safely After Fire Warning

PHOENIX, Ariz. (AP) — An American Airlines 707 jet, en route from Los Angeles to Baltimore, made an emergency landing in Phoenix Thursday when a heating control system jammed.

Aboard were eight crewmen and 111 passengers, including FBI Chief J. Edgar Hoover.

★ ★ ★

The pilot, Capt. W. H. Records of Los Angeles, said a failure in the cockpit heating system caused a fire warning light to flash on. The huge jet was then flying at 27,000 feet over Prescott, Ariz., about 90 miles north of Phoenix.

The plane landed safely. American officials said later there was no sign of fire.

Bank Runs Out of Supposedly Valuable Pennies

CHARLOTTE, N.C. (AP) — The Federal Reserve Bank here, which serves the Carolinas, has run out of pennies. Citizens got the mistaken idea that a new design contained an error, making the penny a collector's item.

The new design bears the legend "United States of America". The small "o" in the word "of" started the rumor of an error. But the sculptor who designed the penny said the small "o" was just to relieve monotony.

★ ★ ★

Fifteen tons of pennies — 670 pounds equal $1,000 — are being rushed here, but they are not expected to arrive until Monday.

Waterford Organizing a Little Theater Group

A new Little Theater group is in the process of organization in Waterford Township, and all interested residents have been urged to attend a meeting at 8 p.m. Tuesday at the Community Activities Building on Williams Lake Rd.

The group has been meeting, and co-chairmen are John Pribble and Mrs. William Aebersold.

UPI Telephoto

DEBUTANTE AT ZOO — Plenty of people were on hand, at the coming out party for the daughter of "Vicki" the koala bear at the San Francisco Zoo recently. The koala bear is a marsupial which retains the young in its pouch after birth.

High School Girls Stronger Than College Sisters

STANFORD, Calif. (AP)—Tests by Dr. Marian Williams indicate high school girls have stronger muscles than college girls.

Dr. Williams, a Stanford Medical School physical therapist, tested 25 high school seniors and 25 college girls, using an apparatus which measures arm and leg pull.

Dr. Williams calculated the college group was 3.6 per cent weaker than the high school group. She offered no explanation.

1,000 Go From State

LANSING (AP)—About 1,000 delegates from Michigan will attend the 60th annual Veterans of Foreign Wars convention Aug. 30-Sept. 4 at Los Angeles. General Chairman Walter O. (Spike) Briggs of the VFW convention committee will attend as an observer. The 1960 convention will be held in Detroit.

Elected to Head Group

LANSING (AP)—Charles J. Gaa, professor of accounting at Michigan State University, has been elected president of the American Accounting Assn. effective Jan. 1.

School Starts Soon

South Faces Another 'Critical Period'

By The Associated Press

Another critical period is at hand for the school children of the South where federal integration regulations sometimes clash sharply with traditional patterns and state laws.

The youngsters are about to start the fall term—the sixth since the U.S. Supreme Court's 1954 decision outlawing segregation in the nation's public schools.

★ ★ ★

Some children already are attending classes in an atmosphere marked by less tension than in the past. Other thousands are preparing to resume their educations.

A half-dozen schools are expected to be desegregated for the first time. Four Negroes have been assigned to the Orchard Villa School in Miami and if they attend classes Sept. 8 it will mark the start of integration at the public school level in Florida.

★ ★ ★

Other initial desegregation attempts will occur in states which now have at least token integration in some cities. Elsewhere legal battles are continuing and court rulings may take effect at later dates.

There is no indication what will happen in the next few days. But the reopening of the public high schools in Little Rock, Ark., and the end of Virginia's massive resistance have had an appreciable effect.

★ ★ ★

The voice of the moderate has been heard more often in recent months. Some citizens have formed organizations designed to keep the public schools open even if it means token integration. Groups of ministers and professional persons have issued statements along similar lines.

Integration advances generally have occurred in the upper and middle South. The five Deep South states of Alabama, Georgia, Louisiana, Mississippi and South Carolina have permitted no public school integration.

The number of Negroes in desegregated situations has gone up from 256,020 in March 1955, to 447,022 in May 1959. Most of the changes have taken place in the boder states.

The Southern Regional Council, an organization working for improvement in race relations, reported recently that with the exception of Texas, only 206 Negroes were in attendance with white pupils during the past year in 11 Southern states. In Texas, an estimated 3,250 Negroes were in desegregated classes.

The Orchard Villa School at Miami heads the public schools where initial desegregation may take place shortly.

A second public high school already has been integrated at Little Rock and the Dollarway School District near Pine Bluff, Ark., has been ordered to desegreate. The Dollarway case may be considered Monday by an appellate court at St. Louis.

Noted Scientist to Teach Physics to High Schoolers

DENVER (AP)—Select students at Wheat Ridge High School will study advanced physics starting this fall under Dr. Frank F. Oppenheimer, noted scientist and brother of Dr. J. Robert Oppenheimer.

★ ★ ★

Dr. Oppenheimer is known as the father of the atomic bomb.

Dr. Frank Oppenheimer holds degrees from Johns Hopkins University and California Institute of Technology. He has taught at the University of Minnesota and at Stanford.

He resigned his faculty post at Minnesota in 1949, after he admitted to the House Un-American Activities Committee that he had been a Communist Party member for 3½ years.

He claimed he left the party in 1940 or 1941, before he became engaged in defense work during World War II. He also worked on development of the atomic bomb at Oak Ridge, Tenn., and at Los Alamos, N.M.
