Where 'Copter Landed

STRAYED FROM ROUTE — Broken line and arrow on map show possible route of U. S. Army helicopter which went astray and landed in hands of the Communists at Zwickau, East Germany. The 'copter was flying from Frankfurt to Grafenwoehr, West Germany, training area near Nuernberg.

Reds Refusing to Send Back 9 U.S. Soldiers

By SEYMOUR TOPPING
AP Bureau Chief in Berlin

BERLIN (AP)—The Soviet Union refused today to take responsibility for the nine U.S. Army men taken prisoner by the East German Communists Saturday when their helicopter made a forced landing inside the satellite.

Keeping up its campaign to force Western recognition of the puppet Communist government, the Soviet Embassy in East Berlin declared that the East German regime has jurisdiction over the American prisoners and their aircraft because the helicopter came down outside the three Allied air corridors to West Berlin.

The Soviets guarantee free Allied air traffic through these corridors under a 1949 Big Four agreement.

The Soviet Embassy statement indicated that the United States and Soviet Union were heading into a big diplomatic wrangle over the nine Americans.

The Soviet statement was in response to a newsman's question whether East Germany had jurisdiction over the Americans.

Earlier the East German government claimed it has the right to say what will be done with the helicopter and those aboard it.

DEMANDS PROMPT ACTION

The United States does not recognize the East German Communist regime and had demanded that the Soviets in East Berlin promptly return the eight Army officers, one sergeant and their aircraft.

★ ★ ★

The Western Allies contend that in accordance with the postwar four-power agreements on Germany, all their dealings concerning East Germany must be with the Soviet Union.

The helicopter belonged to the 3rd Armored Division and had been on a military exercise. U. S. authorities assumed the craft turned east due to a navigational error in a thunderstorm and ran out of gas.

It came down at Zwickau, 30 miles east of the border. The So-

CALCUTTA (UPI) — A heat wave coupled with drought was blamed today for at least 200 deaths in the past two weeks in the Indian state of Behar.

Union-Chrysler Truce Uneasy at Missile Plant

UAW Checks Demands for Walkout; GM, Ford Still Negotiating

DETROIT (AP) — The United Auto Workers Union checked a threatened rank and file walkout at Chrysler Corp. as auto peace talks resumed today.

Negotiations returned at General Motors, Ford and Chrysler although no new proposals have been reported on the table to replace expired contracts covering some 500,000 auto workers.

An uneasy truce was reached at the Chrysler missile plant in suburban Center Line, which makes parts for the Redstone and Jupiter missiles.

A membership meeting yesterday produced loud demands for a walkout at the plant today.

Members and UAW Local 1245 protested a 7-cent annual improvement factor and 2-cent cost of living allowance granted June 1 to non-union employes.

UAW officials sought to negotiate an agreement with management to require union membership of additional employes at the plant.

Milan Matich, local president, said the men agreed to stay on the job on a temporary basis pending a settlement.

In a union-sponsored television program yesterday, UAW officers outlined a four-point formula for new contracts.

In addition to present improvement factors and cost of living

Recreation Still Booms

WASHINGTON (UPI) — The nation is spending record amounts for recreation despite the recession, according to the U.S. Chamber of Commerce. A special survey showed sporting goods manufacturers and builders of swimming pools anticipate a record year. The American Automobile Assn. also expects domestic travel to be up 10 per cent.

Saturday's Loud Explosion Still Puzzles Pontiac

Pontiac's mysterious explosion of Saturday is still as deep a puzzle as it was then. The police department confesses it is baffled.

★ ★ ★

There have been no reports on anyone actually sighting an explosion or fire, although thousands of persons heard the blast at about 11 a.m.

A check with Air Force officials and the Air National Guard showed that the latter had six planes aloft in the area at the time, but none was capable of breaking the sound barrier.

Even Nike bases near Pontiac were checked, but reported no unusual activity.

★ ★ ★

Utility companies reported no explosions of gas lines and no home or factory blasts were discovered despite rumors to that effect.

Riots Break Out Anew on Cyprus

Turkish Woman Shot to Death Touches Off Further Clashes

NICOSIA, Cyprus (AP) — Clashes between Greek and Turkish Cypriots broke out today for the third straight day, forcing the island's British rulers to slap on a curfew only four hours after they had lifted it.

★ ★ ★

The new disturbances were touched off by the murder of a Turkish Cypriot woman and the wounding of her husband in the Greek section of this old walled city. Someone knocked at their door, asked for a glass of water and started shooting.

The woman was the first Turkish Cypriot killed since the communal strife began Saturday after a bomb was thrown at the Turkish consulate.

Turkish mobs retaliated with attacks on groups of Greek Cypriots and their establishments, in Nicosia and the southern port of Larnaca, killing four Greek Cypriots and wounding scores of others.

★ ★ ★

The Turks bitterly oppose the Greek demand for independence from Britain and union with Greece. The Turks want the island partitioned between the two communities.

The new violence aroused great indignation in Greece. The Greek Foreign Ministry announced that Greece's delegate to the North Atlantic Treaty Organization would ask for an emergency meeting of the NATO Council.

★ ★ ★

The British are believed planning to offer the island some sort of self-government but turn down Greek demands for independence as well as Turkish demands for partition.

Can't Resist Cutback

WASHINGTON (AP) — Secretary of the Army Brucker said today he still feels the Army needs a minimum of 900,000 men, but he is bound by the decision of superiors not to resist a 30,000 cutback.

Jaycees Extend a Helping Hand

Pontiac Press Photo

EXTEND CLEAN-UP CAMPAIGN — Waterford Township Junior Chamber of Commerce tackled a second major project Saturday in their annual clean-up campaign when they repaired and painted a house of an older resident unable to do the job himself. Bringing ladders, paint, brushes and putty knives the Jaycees tackled the home of E. B. Culver, 70, at 7250 Bluebird St., and soon gave it a sparkling new appearance. A week earlier the Jaycees dismantled an old barn on Dixie Highway.

Board May Set Date for Physician's Hearing

Charges against Dr. Neil H. Sullenberger will be received and made public at a special meeting of the Pontiac General Hospital Board of Trustees tonight.

Drawn up by the executive committee of the hospital's medical staff at the request of the board, the charges will be aired at a hearing to determined whether the ousted staff surgeon will be reinstated or permanently dropped from the medical staff.

A date for the hearing will probably be scheduled tonight and copies of the charges made available to all concerned, including Dr. Sullenberger, said Harold B. Euler, board member.

★ ★ ★

Dr. Sullenberger requested the hearing after his $250,000 damage suit for reinstatement was tossed out of Circuit Court on grounds he had not attended a hearing to appeal his temporary suspension last Nov. 13.

The suspension was recommended by the staff but its charges against the 42-year-old Pontiac physician have never been made public in detail.

Meantime, the surgeon has filed answer to a $100,000 damage suit brought in Circuit Court by a Pontiac factory worker who claims the

De Gaulle Meets With U.S. Envoy

Rumor 'Courtesy Visit' Prelude to Arranging Eisenhower Confab

PARIS (UPI) — Gen. Charles de Gaulle conferred for 20 minutes today with U.S. Ambassador Amory Houghton amid reports that preliminary arrangements already are being made for a possible top level meeting between President Eisenhower and the new French premier.

Houghton will fly to Washington tomorrow for a week of consultations with high officials.

An embassy spokesman termed today's visit by Houghton to De Gaulle a "courtesy visit," but its length and timing suggested much greater significance.

Houghton will be in Washington right after Eisenhower's sessions with British Prime Minister Harold Macmillan, who already has suggested Anglo-French summit talks between himself and De Gaulle.

The new premier also summoned Foreign Minister Maurice Couve de Murville back from a farewell visit to Bonn, where he has been French ambassador, to give him advice on what steps to take in connection with a possible meeting with Macmillan.

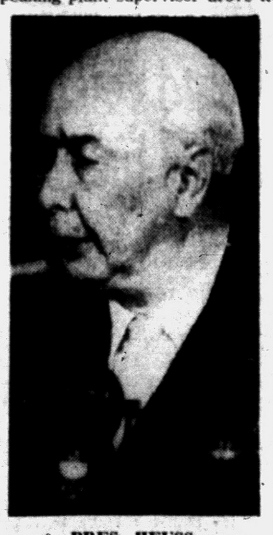
Informants said De Gaulle is anxious to meet the British prime minister soon for a sweeping review of world affairs, but that his working schedule is overwhelmingly burdened by problems connected with Algeria and reform of the French consitution.

De Gaulle today named a new prefect (governor) for Corsica with instructions to re-establish the authority of the Paris government over the Mutinuos French Mediterranean island.

West Germany's President Visits GM Tech Center

DETROIT (UPI)—Dr. Theodor Heuss, West German president, toured Detroit's auto plants today on his goodwill trip to the United States.

The German president rode through the Plymouth plant on a motor scooter built for two but carrying four. Heuss sat in the passenger seat, and a German-speaking plant supervisor drove it.



PRES. HEUSS

Chrysler President L. L. Colbert perched on a rear step, hanging on to Heuss' shoulder. Heinz Waber, the president's interpreter, hung on to the driver's shoulders.

Heuss' son, Dr. Ernst, walked alongside the scooter, followed by an entourage of approximately 100.

The president went to the Plymouth plant in a Chrysler automobile; on to the General Motors Technical Center in a Cadillac and to lunch with Henry Ford II in a Lincoln Continental.

A German-built Mercedes-Benz was in the caravan.

He receives an honorary degree from University of Michigan President Harlan Hatcher this afternoon in nearby Ann Arbor. He also was to tour the late Henry Ford's Greenfield Village.

He will leave for Chicago tomorrow morning. He is touring the United States at the invitation of President Eisenhower.

Expect Upturn Will Continue Through Day

Officials See Returns Going Way Over 2,769 Total of Last Year

The tempo of voting in the Pontiac School Board election picked up early this afternoon with as many voting between 11 a.m. and 1:30 p.m. as did between 7 and 11 a.m.

At 1:30 Bagley School reported 221 votes, while 135 voted at Washington Junior High, 19 at Willis School, 57 at LeBaron and 52 at Whitfield.

School officials expect the upturn in voting to continue through the day and to far exceed the 2,769 that voted last year.

There are 45,000 persons in the school district registered for this election, officials said, about 3,000 more than last year.

The voters will choose two out of three candidates for the school board. The two receiving the highest votes will be elected to serve four-year terms.

Candidates are Mrs. Elsie Mihalek, president of the Pontiac PTA Council; Dr. Walter Godsell, seeking a second term, and Charles M. Tucker, weekly Negro newspaper publisher and head of the Oakland County Branch of the National Assn. for the Advancement of Colored People.

Polls will remain open until 8 p.m. and those in line at that time will be able to vote.

Election Returns

Returns from the Pontiac and Waterford Board of Education elections will be available tonight by telephoning The Pontiac Press office after 9 p.m.

Two Candidates Seeking 3-Year Waterford Post

Two Waterford Township School District candidates are seeking election to a single three-year term in balloting today in the district.

Lumber Dealer Frederick J. Poole, 34, of 1238 Heitch St., is seeking a second term on the board. Opposing him is Mrs. Helen L. Sanford, 53, of 2401 Denby Dr., Drayton Plains.

Mrs. Sanford is employed in the special education department of the Oakland County Board of Education.

Detroit Brothers Drown in Lake

Skin Diver Finds Pair After Lengthy Search Which Began Sunday

The bodies of two men missing since Saturday night in West Bloomfield Township's Pine Lake, were recovered at about 12:45 p.m. today, according to Oakland County Sheriff's Deputies.

Deputies, police, firemen and local skin diving groups had searched the lake extensively Sunday for the bodies of Robert Portugal, 36, of 603 Merriman St., Detroit, and his brother Joseph, 40, of 4145 S. Dearborn St., Melvindale.

Their bodies were recovered by Deputy Bil Jackson, department skin diving expert. They were located near the center of the lake in approximately 50 feet of water, it was reported.

The two had gone out on the lake late Saturday night in a 14-foot rowboat. They were reported missing when their empty boat was found floating about 20 feet offshore early Sunday.

Police and firemen from West Bloomfield Township and Keego Harbor, and sheriff's deputies, were aided by skin divers from the West Bloomfield Boys' Club and Pontiac Aqua Squadron. A private plane also aided by scanning the area for over an hour Sunday.

More Thunderstorms to Come

Wear Your Raincoat!

Pontiac area residents have emerged from a thoroughly soggy weekend only to learn that the weather man has more drizzly weather in the offing.

Rain fell throughout southern Michigan most of Sunday and early today, extending from Grand Rapids and Bay City to Detroit.

Grand Rapids had a fall of .49 inches and Detroit .56, but Ponitac's .84 inches of rain for Sunday topped them all. Saturday's precipitation figure was .10.

Tomorrow's outlook calls for showers and thunderstorms. The mercury is expected to rise somewhat higher, however, with the high reaching 76-80 degrees. The low tomorrow night will average 48-52.

★ ★ ★

Wednesday's outlook is partly cloudy and cool. Showers are expected again Friday or Saturday.

In downtown Pontiac the lowest temperature recorded preceding 8 a.m. was 47. At 2 p.m. the mercury registered 66.

Big Freighter Riding at Detroit River Dock

DETROIT (AP) — The biggest vessel on the Great Lakes, the ore carrier Edmund Fitzgerald, rode today at her slip in the Detroit River after a spectacular launching Saturday.

★ ★ ★

Nearly 10,000 spectators watched as the eight-million-dollar vessel splashed sidewise into the water at the Great Lakes Engineering Works in River Rouge.

She sent a 2½-foot wave crashing onto the opposite Canadian shore.

The ship is 729 feet long, 13 feet more than any other lakes vessel and within a foot of the maximum able to pass through the Soo locks. The Fitzgerald will be able to carry 26,000 gross tons of iron ore and has a top speed of 16 miles an hour.

$50,000 FIRE IN BIRMINGHAM — Damages caused by a fire Saturday morning at the home of a prominent Birmingham psychiatrist and author, Dr. J. Clark Moloney, 414 Arlington Rd., were estimated today at $50,000. The blaze started in the incinerator chimney and spread to the roof, Birmingham Fire Marshal George Scott said. Three firemen were overcome by smoke while battling the fire.

Hit-Run Trio Hunted by 35-Man Posse

DETROIT (UPI)—A posse of 35 state troopers and local authorities combed a wooded area in Canton Township today for two men and a woman who ran down a state policeman with a stolen sports car.

The trio abandoned their bullet-riddled car at Michigan and Beck. Police said a 2½ mile area bounded by Geddes, Beck, Canton Center and Proctor was surrounded.

Trooper Darl Dygart of the Ypsilanti post was knocked down but not seriously injured by the trio.

Police said officer Dygart had been following the stolen car when it pulled into a gasoline station. Dygart wheeled his scout car across Michigan avenue to block the other vehicle. Witnesses said the sports car went out of control and into a ditch.

They ran down the trooper after backing out of the ditch.

Her Son Held by East German Communists

CORPUS CHRISTI, Tex. (AP)—Mrs. Edward Paul Jones of Corpus Christi said today her son, Capt. Paul E. Jones, 36, is one of the nine Army men being held by East German Communists after their helicopter made a forced landing inside the satellite Saturday.

Mrs. Jones said she has received a long-distance call from her daughter-in-law in Frankfurt, Germany, saying Jones was aboard the helicopter. Mrs. Jones said her daughter was notified by the Army.

Jones is a veteran of 18 years Army service. He and his wife have five children. They live in Frankfurt.

Bagwell to Campaign in Oakland Tomorrow

Paul D. Bagwell, Republican candidate for governor, will make his first major stop in Oakland County tomorrow night since he announced his bid for the top state executive post in the August primary.

Takes 'Big Dose' to Quiet Him

Dearborn Man Runs Amok 14½ Hours in Detroit Jail

DETROIT (AP)—Police required 14½ hours, 24 cans of ether and two full grains of morphine to overcome a prisoner who went berserk in his cell at police headquarters yesterday.

Inspector William Burke said Henry John Kruper, 36, of suburban Dearborn, awaiting return to Southern Michigan Prison as a parole violator, tore up his six by eight foot cell, ripped out plumbing fixtures and threw pieces of porcelain at officers attempting to quiet him.

In addition Kruper was armed with a heavy piece of iron used to brace the wash basin in his cell.

★ ★ ★

Kruper was subdued last night when police pulled his leg through a hole left by destruction of the wash basin and police physician Dr. Wilford C. Wood administered morphine injections. Dr. Wood said Kruper received two grains of the drug. A quarter-grain usually is sufficient to quiet a man.

Kruper, arrested Friday started his riot at 5:30 a.m. Sunday. The 6-feet 2-inch, 225-pound prisoner at first refused a doped drink offered to quiet him.

★ ★ ★

After he started hurling objects at police, 24 cans of ether were poured into his cell. Dr. Wood said a half a can of ether is usually enough to subdue a man.

Police were unable to rush Kruper because the cell door was only three feet wide and the prisoner waited with the iron bar for anyone to pass it.

Using a piece of reinforcing steel, police fashioned a shepherd's crook, pushed it through a hole in the sidewall and hooked Kruper's leg. Dr. Wood then administered the morphine and Kruper was taken to receiving hospital.

★ ★ ★

Kruper was on parole from a 1 to 15 year sentence for breaking and entering.

Rezoning Issue to Be Discussed

Waterford Board Meets Tonight; Also to Weigh Special Assessment

After being tabled since last August, the issue of rezoning a piece of Waterford Township property from residential to commercial will again be discussed when the township board meets tonight.

An oil company had requested the zoning change, but due to protests from residents at a hearing held last fall, the matter was tabled until a "green belt" could be constructed around the planned gas station.

The station was proposed for an acre and a half parcel located on Walton boulevard near Clintonville road.

★ ★ ★

Another issue that has been tabled for sometime will come up tonight. The matter concerns the establishment of a special street lighting assessment district in Indianwoods Manor Subdivision.

Other business will include the awarding of contracts for two new police cars for the township police. The seven bids submitted at last week's meeting had been referred to the township attorney for study.

The board will consider a recommendation of the Waterford Township Library Committee for a member, to fill the vacancy of Thomas Belton, who resigned in April.

CLAUDE L. ALLEN

Guard Veteran's Burial Tuesday

Claude L. Allen, Leader of Pontiac Army Unit, to Be Interred Here

Claude L. Allen, associated with the National Guard in Pontiac since the turn of the century, will be buried tomorrow in Oak Hill Cemetery following 1:30 p.m. funeral service at Donelson-Johns Funeral Home.

★ ★ ★

Allen died Saturday of a stroke at his summer home in Higgins Lake. He was in his late 70s.

Of Allen's many accomplishments in service of his country, perhaps the most outstanding was his long and faithful leadership of Pontiac's 107th Ordnance Co. during the years between World War I and World War II.

A World War I veteran, Allen founded the company in 1922 and always refused the promotion that would mean he would have to leave command over his men. He led the company on 19 straight encampments at Camp Grayling, then had to retire with the rank of Captain in 1940 as his outfit was being integrated into the national defense program.

★ ★ ★

He stayed on at Grayling, however, as a civilian in charge of the target range and rifle ranges until several years ago.

Born in Pontiac, Allen joined the National Guard here as a youth when he was employed by the old Oakland Motor Car Co.

He went with a Pontiac infantry company to the Mexican Border in 1916 and a year later was in France with the same outfit, now a machine gun company with the 32nd Red Arrow Division.

Allen lived on Norton street until the 1940's, when he began living at Higgins Lake in the summers and North Miami, Fla. in the winters.

He is survived by his widow, the former Elizabeth Benjamine, of Pontiac; a brother, B. M. Allen, of Luzerne; and a sister, Mrs. Rose Cuttrel, of Lakeland, Fla.

The Day in Birmingham

Three Letters Protesting Storm Sewer Project

BIRMINGHAM—Tonight's hearing of necessity on the installation of a storm sewer on Lakepark drive, between Raynale and Redding roads, has drawn three letters of protest.

Mr. and Mrs. Stephen F. Booth of 1295 Lakepark Dr. said they would consider moving from Birmingham if the proposed project including the sewer and concrete paving are completed. They objected to the improvements, stating that they would destroy the suburban atmosphere of their neighborhood.

Other protests were from Mr. and Mrs. Walter Teninga, 1390 Lakepark, and Frank Sammut, 1389 Lakepark.

★ ★ ★

Baldwin Library board will request allocation of funds for the enlargement of the library building.

A Birmingham man who accidentally wounded himself a week ago while taking a shotgun from the trunk of his car at his summer home near Lexington was reported in very serious condition today.

Doctors at the Port Huron Hospital said Theodore Livernois, 55, president of Greenfield Industries in Detroit, took a turn for the worse over the weekend. His condition had been fair since 24 hours after the accident.

Livernois, of 645 Arlington Rd., was shooting clay pigeons on June 1 and apparently left a shell in the shotgun by mistake. He was struck in the left side.

After 10 years at Embury Methodist Church, the Rev. Reginald E. Becker has been transferred to the Holly Methodist Church. He will assume his new duties Sunday.

Succeeding the Rev. Becker in Birmingham will be the Rev. Samuel Stout who recently completed his theological studies in Ohio.

During his stay in Birmingham, the Rev. Becker has been active in community, affairs, including the Birmingham Youth Council, Community Council and has served as president of the Birmingham Council of Churches.

Firemen said lightning entered through electrical wirings, scorching the carpet in one room at the home of R. D. Engle, 973 Lakepark Dr. There was no other damage.

Carter F. Henry

Service for Carter F. Henry, 73, of 2354 Pembroke Rd., Birmingham, will be held at Price Funeral Home, 2501 S. Rochester Rd., Troy, at 1:30 p.m. Wednesday. Burial will be in Oakview Cemetery, Royal Oak.

Mr. Henry, who died yesterday in Ardmore Hospital, Ferndale, was a retired employe of Hudson Motor Car Co. and a member of the Masonic Palestine Lodge 241, AF & AM, St. Charles, Mo.

Surviving are a son, Marty A. of Birmingham; three brothers, one sister and two grandchildren.

Mrs. Jennie M. Peltier

Service for Mrs. Jennie M. Peltier, 72, of 145 Bates St., Birmingham, will be held at 11 a.m. tomorrow at Pursley Funeral Home, Pontiac.

Ex-King Farouk Ordered to Pay His Royal Bills

ROME (UPI) — Egypt's Ex-King Farouk has been ordered to get up a total of about $49,000 in a suit arising from his failure to pay his royal bills.

★ ★ ★

The judgement includes a $47,000 unpaid balance, due on two rare gold cigarette cases Farouk bought before he was dethroned, and some $1,650 in costs.

The jewlery firm of Bulgari sued the ex-king, charging that a down payment of $30,000 was all it ever received for the cases, which were priced at $77,000.

Taffy Tuttle's so lazy that she eats breakfast before going to bed, so she can sleep late in the morning. . . Some gals consider a bachelor just a selfish, undeserving man who's cheating some fine woman out of a chance at alimony. —Earl Wilson.

Hydraulic Jacks Used to Free Boy Under Rock

BEAR MOUNTAIN, N. Y. (AP) — Philip Jessen, 10, Franklin Square, N. Y., was trapped for 2½ hours yesterday when one of his feet became caught under a boulder in a fall down a cliff.

A Palisades Interstate Park maintenance crew freed the Long Island boy with hydraulic jacks. The boy was taken to Cornwall Hospital for treatment of cuts and bruises.

Winston S. Churchill made his historic "Blood, Sweat and Tears" speech before Parliament in London on May 13, 1940.

Women Ask Release From Life Terms

OKLAHOMA CITY (AP)— Two prison-pale women, the widow and mother-in-law of George (Machine Gun) Kelly, plead today for release after 25 years of confinement.

★ ★ ★

Their petition to U.S. District Court alleges that they received an unfair trial and subsequent life sentences for their part in the 1933 kidnaping of Oklahoma City oilman Charles Urschel, now of San Antonio, Tex.

Mrs. Kathryn Kelly, 54, and her widowed mother Mrs. Ora Shannon, 70, were brought here Saturday night from the federal women's prison at Alderson, W.Va.

★ ★ ★

Kelly, a onetime public enemy, died in the Leavenworth, Kan., federal prison three years ago. Mrs. Shannon's husband R. G. Shannon served time in prison but was released because of ill health. He died at his farm near Paradise, Tex., where Urschel was held for $200,000 ransom and freed unharmed.

In 1957 more than 55,000 embossed Scriptures were issued to the blind by the American Bible Society.

Reduce Hell on Earth by Preaching – Graham

SAN FRANCISCO (AP) — With more preaching about hell, evangelist Billy Graham declares, there might be less hell in the community.

★ ★ ★

Hell is an unpopular subject "but that doesn't mean we should ignore it," Graham yesterday told a Cow Palace audience of 16,200.

"We are too interested in our own lives, our own pleasures, our own amusements.

★ ★ ★

"We don't want to be warned of the dangers that lie ahead," he said.

"I warn you of future retribution. I warn you the day of reckoning is coming."

He described hell as a place where the punishment of a just God is meted out to the wicked, not a sadist's torture chamber.

But hell is an extension of the private hells men make for themselves on earth when they live wrongly, and will be "a place of pangs, torment and craving lusts that cannot be satisfied."

Grant Winner Has to Speak Only French

DETROIT (AP)—A pretty coed from Sault Ste. Marie, Mich., is guarding against a slip of the tongue into English.

★ ★ ★

She is 20-year-old Beverly Keelean, who is boning up on her French this week before leaving for Laval College in Quebec, where she has a scholarship for the summer term.

A stipulation of the scholarship is that the recipient speak only French, both on and off the campus.

★ ★ ★

Beverly, a French major, has been studying the language for eight years in high school and college.

TV Station Owners Quizzed on Switch

WASHINGTON (AP)—House investigators called the owners of a St. Louis, Mo., company today to explain how they won a switch in television channels without the usual formal written application.

★ ★ ★

Harry Tenenbaum and Paul A. Peltason, principal owners of Signal Hill Telecasting Corp., were summoned for questioning by a House subcommittee checking on federal regulatory agencies.

A top subcommittee official said many complaints have poured in against the Federal Communications Commission award of Channel 2 to Signal Hill's KTVI, then operating on Channel 36. But the way the law now reads, he said, the FCC action was apparently legal.

★ ★ ★

A subcommittee staff memo criticizes what it calls the "extraordinary" FCC ruling and says Signal Hill showed "absolute confidence" in what the FCC would do — before the commissioners went through with a vote.

Pretty Brunette Uses Her Nose

Sniffs Out Contraband Being Smuggled Into West Germany

BONN, Germany (AP) — The West German government is warmly applauding one of its female customs officials for outstanding achievement in nosing out coffee smugglers.

The attractive brunette, fondly called Geisha by her colleagues, has built up a reputation as the most efficient coffee cop along the Dutch-German border.

★ ★ ★

"It is thanks to Geisha," said the official government gazette, "that almost no illicit coffee now crosses the border she patrols."

Being a specially trained 2½-year-old spaniel, Geisha just puts her wet, curious nose up in the air and follows the coffee scent.

★ ★ ★

She never fails. She has located coffee buried under loads of coal, wrapped in petrol-soaked cloths, and in all the unlikely places smugglers and unbelieving customs officials can think of. The government gazette describes her as "one of the most active and reliable customs officials in the employ of the federal republic."

★ ★ ★

With the duty on coffee about 50 cents a pound, the beverage has been one of the smugglers' favorite items. Geisha is one of only two dogs in the entire West German customs service trained to track down the fragrant contraband.

★ ★ ★

Frequently she is taken aboard border-crossing Rhine vessels and on to international freight and passenger trains. She invariably locates undeclared coffee.

Denies Taking Deborah Kerr From Husband

VIENNA, Austria (AP)—Screen writer Peter Viertel has denied that he took Deborah Kerr away from her husband.

★ ★ ★

Anthony Bartley, the British-born actress' husband, filed enticement charges against Viertel Saturday in a London court. The writer, who is working on a film here with Miss Kerr and actor Yul Brynner, termed the complaint "utterly ridiculous."

"Please leave me out of this thing," the 37-year-old writer told newsmen. Miss Kerr was unavailable for comment.

★ ★ ★

Bartley, saying he was acting to safeguard his marriage, previously had asked to have his and Miss Kerr's two children made wards of the court so they cannot be taken out of Britain.

Says Wife's Nagging Drives Him Into Jail

TUCSON, Ariz. (AP) — A man walked into the Pima County sheriff's office and asked to be locked up.

"What have you done?" Lt. Frank Barros asked.

"Nothing," the man answered. "It's my wife. She won't let me sleep."

Warns Dog Owners to Keep Pets Tied

A warning to Pontiac dog owners not to let their pets run at large has been issued by Inspector Clark Wheaton, of the police department.

Wheaton said the department has had numerous complaints that residents are letting dogs run at large, especially during the early morning hours.

"Many of the persons who complain say the dogs are ruining their shrubs and plants" the inspector said.

"I have ordered the dog warden and our officers to secure warrants immediately for owners of dogs running loose."

Jenner-Butler Measure Would Curb Freedoms

Of the 15 members of the Judiciary Committee, 10 almost equally divided between Republicans and Democrats are in favor of the Jenner-Butler bill.

Adopted without hearings this measure among other things would limit jurisdiction of the Supreme and lower Federal Courts in certain areas. It would permit the states, contrary to a Supreme Court ruling, to compete with the Federal Government in prosecuting subversive activities against the Federal Government.

★ ★ ★

The American Bar Association has found that the Jenner-Butler bill is an attempt to penalize the Supreme Court because of the disagreement of Congress with certain of its decisions. It denounces the bill as a "threat to the independence of the judiciary with substantive changes of far reaching significance."

★ ★ ★

The five Judiciary Committee members opposing the bill are Senators WILEY of Wisconsin and LANGER of North Dakota, Republicans, and Sens. KEFAUVER of Tennessee, HENNINGS of Missouri and CARROL of Colorado, Democrats. Sen. WILEY states the case for the minority in a newsletter. He says that the bill would:

★ ★ ★

1. Prohibit the Supreme Court from ruling on the pertinency of questions asked of witnesses by Congressional committees. Thus a committee could ride roughshod over the rights of you or any other citizen.

2. Withdraw jurisdiction of the court over appeals resulting from refusal by the state bar to admit an applicant to practice law.

3. Create jurisdictional overlaps between the states and the Federal Government in prosecuting acts of subversion against the United States.

4. Prohibit examination and analysis of Communism or any other abhorrent doctrine. The fact is, however, that we cannot intelligently fight Communism or other alien ideas if we are ignorant of what we are talking about.

★ ★ ★

Passage of this ill advised measure would undermine the authority of the Supreme Court and jeopardize American freedoms. It would threaten our historic tradition of separation of powers on which our Government rests.

Dr. Eisenhower Plans Central American Tour

Dr. MILTON S. EISENHOWER, president of Johns Hopkins University, is scheduled to make a good will tour of Central America beginning June 15.

Nearly five years ago following a mission to Latin America as the President's ambassador, Dr. EISENHOWER recommended many of the solutions which Vice President NIXON now is advancing. Scarcely any of the proposals have been carried out.

★ ★ ★

At that time Dr. EISENHOWER reported that his party had been greeted with friendliness and understanding and that "a few efforts by Communists to mar the cordiality of the welcome were conspicuously futile." Perhaps as Vice President NIXON recently told the National Press Club, the U.S. tendency in Latin America is to "smother burning issues with sweet words."

★ ★ ★

If Dr. Eisenhower's visit were to be called off now in view of Vice President Nixon's outrageous treatment in some South American countries, the six Central American countries which have extended the invitation would be offended. They might feel that it reflected on their ability to protect Dr. Eisenhower from hostile demonstrators. Communists, of course, would capitalize on any cancellations.

★ ★ ★

No doubt our State Department and Secret Service will check on advance reports from each country to be visited by the President's brother. Congress is showing a new awareness of the need for action in implementing Dr. EISENHOWER'S 1953 recommendations.

TRUMAN says he has been exploding all over the country and will continue to do so. The fallout from these explosions, though, are harmless except to a few sensitive Republicans who are allergic to anything that emanates from HARRY.

THE population of the United States has been increasing at the rate of about 1.7 per cent a year since 1950.

Bumper to bumper: What you encounter on the road on warm days—also on the bathing beaches.

When building lots on the shore of a former undeveloped Oakland County lake find ready buyers at $5,000 each, 'twould seem that somebody has ready money, in spite of this recession lingo. And when this new project is at a far corner of our county, it further emphasizes the fact that times are not as bad as some politicians would have us believe. David Lawrence Asks:

Was Little Rock Action Illegal?

WASHINGTON — The tragedy at Little Rock may have important legal consequences that were not foreseen when Federal troops were

LAWRENCE

used at Central High School there to enforce a court decree on the supposition that no other means was available.

Virgil T. Blossom, superintendent of schools at Little Rock, has just made a startling revelation in Federal Court. He has testified that the school board at Little Rock asked for Federal marshals to enforce the court's decree and that the request was refused by Judge Ronald Davies. This fact has never before been publicly known.

Senator John C. Stennis of Mississippi, Democrat, in a speech before the Mississippi Bar Assn. a few days ago made the point that there was no law authorizing the use of Federal troops and that U.S. marshals should have been required to perform the task of enforcing the court's decree.

Mr. Stennis now has written to Comptroller General Campbell asking him to look into the legality of payments made to Arkansas National Guardsmen during their period of Federal service. He has asked for an independent determination as to the legality of payment of such funds, because they were originally appropriated for national defense.

The comptroller general has replied that he will investigate the matter and render a decision.

★ ★ ★

The Mississippi senator, who is an eminent lawyer, says that none of the conditions set forth in the law which was cited in the President's proclamation really existed in Little Rock. He adds:

"There was no danger of invasion or rebellion and no indication that the President was unable with the regular forces to execute the laws of the United States. Moreover, this section requires that orders to call into the Federal service members of the National Guard 'shall be issued through the governors of the states.'

No order of this type was issued by the governor of Arkansas as required. Hence, the conclusion is inescapable that the calling into Federal service of the National Guard of the State of Arkansas was unauthorized and contrary to statutory requirements."

On the specific use of even Federal troops — not necessarily the state's national guard — Senator Stennis says that the resort to military force was unauthorized by law or the Constitution. He says:

"There was no real attempt to try civil remedies — much less exhaust them. There was no real effort to enforce the court decree by using the U.S. marshal's office, or by augmenting his staff through a posse comitatus.

"Governmental action taken at Little Rock follows the most disturbing pattern of our time; that is, the trend toward interpretation of law in terms of expediency.

"The present President of the United States is not a willful, nor reckless nor mischievous man. But some future President, with a less lofty regard for his post, under political pressures can well take refuge in this precedent in an attempt to rule with arbitrary power."

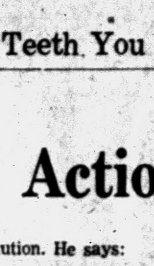
The Country Parson

"We get so many things in cans these days that we expect to get our spiritual strength the same way—but THAT we must cultivate for ourselves."

Dr. William Brady Says:

Tonsillectomy Is No Bar to Colds, Doctors Report

In the British Medical Journal, London, Jan. 18, 1958, Doctors Brimblecombe, Cruickshank, Masters and others reported results of a study of respiratory illnesses in London working class families, carried on over a period of two years. Among their findings was this:



DR. BRADY

The incidence of coryza and sore throat — "colds" to you — was the same in children who had undergone tonsillectomy as it was in other children.

But such honest observations do not cramp the style of the ever-ready operators in Yankeeland. They continue to sell their gullible customers unnecessary operations by telling them "You can't expect the child to stop having so many 'colds' until those 'bad' tonsils have been removed."

This is a standard trick of the throat-cutting trade. The operators are confident that parents will never go to law about it, and even if one should do so it would be only the parent's word against the operator's — unless the parent could prove by a witness just what the eager beaver had said, implied or promised about stopping the child's frequent "colds."

In the New England Journal of Medicine, June 23, 1955, Doctors McCorkle, Hodges, Badger, Dingle and Jordan reported results of their observations of Cleveland, Ohio, families during the period of 1948-1952 with particular regard to the relation of tonsillectomy to the incidence of common respiratory infections (cri) in children. (Incidence means frequency of occurrence.)

★ ★ ★

The Cleveland investigators concluded:

"Attack rates for the common respiratory diseases among children who had had a tonsillectomy were very similar to those among children of comparable age who had not had this operation." (Operation? I, Brady, say atrocity is a better name for it.)

NO DIFFERENCE SEEN

"There was no indication of a difference in type of common respiratory disease between the two groups of children."

★ ★ ★

"The 26 children who had tonsillectomy while under observation were found to have had a higher than expected rate of common respiratory disease" ("colds" and sore throat if you must have it so) "both before and after operation. Tonsillectomy did not materially alter this incidence."

Many studies have shown that bulbar and bulbospinal types of poliomyelitis (infantile paralysis) occur more commonly in persons whose tonsils have been removed, no matter how long since, than in persons whose tonsils are intact.

The 26 children who had had tonsillectomy (in the Cleveland study) were lucky in one respect — they survived the unnecessary major operation.

I repeat, a better name for tonsillectomy is atrocity. If you don't agree, then tell me, if you can, just one good reason for dissecting a child's throat in the attempt to remove every bit of tonsil tissue.

Truck Owner Would Like License Practice Change

I own two trucks for use in business. Licenses for each cost almost $100. Because money was a bit scarce the first of March at license renewal time, we bought half-year plates for both, paying a surcharge of $2 each for this privilege.

★ ★ ★

These expired May 14. By then business had rolled on a bit and we bought the other half-year plates, paying the second half price plus $2 each surcharge. To our dismay we discovered these expire Nov. 14, so we've paid full year price plus $4 each truck and we aren't licensed for the year period.

★ ★ ★

This is unfair and I wonder if the Secretary of State can be made to provide full year plates. If this is a general practice and no doubt it is, others need this relief, too. No one should be penalized this much because business has gone bad.

Asks Advertisers to Use Want Ads

I wish some companies advertising home improvement products would phone FE 2-8181 to place an ad instead of calling me. I try to be courteous but maybe they would get more customers that way. Although I'm especially busy in spring, even I find time to read want ads and sometime inquire about something I don't need or can't afford and sometimes buy it. I also read nearly all mail advertising and if it's printed on only one side, I use the other side for memo notes, scribbling, etc.

I'm glad to see church people are doing something about closing beer taverns on Sunday.

When we see juvenile crime at an all-time high, broken homes and appalling highway accidents, it's time we protest against schemes of these liquor places to glamorize the use of intoxicating liquors. All church people should get behind this move. And it's time we had a vote of the people about selling liquor over the bars. If people must have something stronger than beer or wine, let them go to a liquor store and get it.

We've had this liquor business with us since 1933. Let's do something about it.

Urges Intervention to Stay Execution

Chuck Starkweather is sentenced to die a week before Christmas. He would have been blind next year. It hurt him. He became mentally sick. He killed because he was afraid of seeing nothing of friends or family again.

★ ★ ★

His heart must cry to the Heavenly Father. His death won't raise the people he killed while sick. Will it help others, also sick? Who helped Chuck before he killed while yet he knew next year he wouldn't see? Did I? Did you? But do you now stand, thumbs down, and say kill him, he killed?

★ ★ ★

One week before we celebrate Jesus' birthday, Chuck will be killed. This is our Christmas gift to him. Is it asking too much to write to the court that condemned him to ask for his life so he may enjoy another Christmas, even though he won't be able to see his family, friends or loved ones? You and I hold his life in our hands. What will we do with it?

THOUGHTS FOR TODAY

The majesty of the Scriptures strikes me with admiration, as the purity of the gospel has its influence on my heart.—Rousseau.

Case Records of a Psychologist:

Fear Brings False Accusations

Nora's mother is a victim of the jealousy that often develops after the age of 40. She is now making life miserable for her entire family. And it is all because of her false notions about sex. So send for the booklet below so you can insure your home against such a tragedy.

By DR. GEORGE W. CRANE

Case Y-331: Nora M., aged 17, is a high school senior.

"My mother is our family problem," she said, ruefully, "for she is insanely jealous of my father.

★ ★ ★

"She accuses him of misconduct of the most impossible type, so anybody can quickly realize it is Mother who is wrong, not Daddy.

DR. CRANE

"I personally know he isn't guilty of the things she says about him. So why should she be so foolish in her wild charges? Is it the change of life?"

MENOPAUSAL UPSETS

Change of life is largely a psychological matter. It occurs in cows and mares and other animals, but they don't get disturbed. Why?

★ ★ ★

Because they don't think they are supposed to be upset!

But human females have developed false notions which cause them to grow neurotic, fault-finding and shrewish after age 40.

They have made the sad mistake of thinking their womb (uterus) is a primary sexual organ, of vital importance to their marital happiness.

That is not true! A wife can function ardently in marriage and be a most congenial mate with no uterus at all.

So, when young wives must have an operation for removal of their womb (hysterectomy) they need not fret about losing their physical charm.

And when wives past 40 find that their wombs no longer function on the previous monthly basis, they, too, should feel no fear or panic.

★ ★ ★

Nora's mother, however, held the old notion that a woman's sex life is through forever at the menopause, so she felt her husband couldn't possibly love her any longer.

This idea made her feel inferior to other younger girls, so she grew insanely jealous.

SUBCONSCIOUS THINKING

"I can not be physically attractive to my husband," Nora's mother subconsciously thinks.

"But he is a normal male and thus desirous of love. So he MUST be having secret affairs with other women.

"I'll accuse him till he confesses! In that way, I'll make him tell me the truth."

Thus, such a jealous wife browbeats her mate by her nightly accusations. She may keep him awake till 2 or 3 a.m. with her charges of unfaithfulness.

★ ★ ★

He may finally protest, in irritation: "Honey, you know you are the ONLY woman I ever look at!"

That mollifies her ego temporarily, for such a comment is the sweetest music in the world to the ears of a menopausal wife.

But her ego requires double doses of such praise, so she increases her nagging the next night.

Men, however, grow calloused to such fault-finding and don't react as quickly as they did the first night, so the anxious wife begins to believe her own false charges.

This entire problem is unnecessary and can easily be avoided if a woman will study the booklet named below.

All wives past 40 should be familiar with its contents, both for

their own greater happiness and also to insure a happier home for their children.

SEXUAL COUNSEL

Women often obtain more pleasure in the marriage relationship after the age of 50 than they ever did as young brides.

But they must get the true facts and unravel their own mistaken superstitions.

Jealousy is a typical indication of a sexual inferiority complex, real or imagined. Nora's mother simply imagined she was below par. She wasn't.

She was a charming woman, physically attractive, but she had absorbed the wrong notion.

So send for my booklet "Sex Problems in Marriage," enclosing a stamped return envelope, plus 20 cents (non-profit).

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

Speaks at MSU Commencement

Stevenson Calls for Foreign Aid Vigor

EAST LANSING (AP) — Adlai E. Stevenson favors two steps to regenerate the free world economy and a power equality agreement with the Soviet Union to clear a path for arms reduction.

In a commencement speech at Michigan State University, he also called yesterday for United States aid to France in her present crisis and world sharing of medical research and health knowledge.

★ ★ ★

The Democratic leader suggested borrowing from the Marshall Plan approach of 10 years ago to fuse vigor into the West's "tottering economic assistance."

Stevenson proposed setting up a committee of experts comparable with the group which laid the groundwork for the Marshall Plan.

The experts, he said, should be assigned the job of preparing an agenda upon which nations can agree and act.

★ ★ ★

It would take in:

"Joint measures to secure sustained growth, joint negotiations for a low tariff of free trade period, joint undertaking of a long-term aid and investment program in the underdeveloped areas and joint agreement on adequate working capital for world trade."

Such a free world agenda "would go far to revive the conditions under which the old, unfettered, expansive system of free international trade once worked."

★ ★ ★

Stevenson said a deterioration of the old system confronts us with "a creeping crisis, not as dramtic but maybe more serious and more far reaching" than the Marshall Plan was designed to meet.

"As it recedes, we see, expanding eager to take its place, the new Communist techniques of grants, gifts, loans, trade, aid, barter, technical assistance, raw materials at cost, or plain dumping, all bent to a single political purpose — the reinforcement of Communist power," he said.

★ ★ ★

Stevenson said formal U. S.-Soviet recognition of their power equality and mutual agreement to preserve it would follow logically from the facts of what is presently keeping the peace.

This course, he said, would create confidence and open an avenue for reduction.

★ ★ ★

"If both sides are content with power equality, then to reduce forces and limit nuclear weapons become matters of arithmetic and enforcement," he said.

He acknowledged many hazards to the course but said it was preferable to current policy "of drift and confusion."

Stevenson told a news conference after the commencement that he plans to visit the Soviet Union this summer on a trip which will take him into Soviet areas previously forbidden to foreigners.

★ ★ ★

He said he considered the Soviet grant of this privilege as "an expression of good will and a desire to be friendly."

Continued Rule Assured Portugal Dictator Salazar

LISBON (AP) — Dictator-Premier Antonio Salazar today was assured of continuing his rule over Portugal after shaking off his first serious electroal challenge in 30 years.

Early returns from yesterday's election gave a lead approaching 90 per cent to the Premier's hand-picked presidential candidate, Adm. Americo Tomas. He will succeed President Higino Craveiro Lopes, who is stepping out at the end of a seven year term.

Gen. Humberto Delgado, the fiery opposition candidate who said he would fire Salazar and appoint a military government to conduct free parliamentary elections, never had any real chance of winning.

Only Tomas' name was printed on the ballots given the nation's 1,200,000 million voters. If a voter wanted to cast the ballot for Delgado, he had to write in the general's name.

★ ★ ★

Delgado, the first anti-Salazar candidate for president ever to remain in the race until election day, bitterly refused to send congratulations to "those people."

"The elections only showed," he said, "that like Hitler and Mussolini, nobody can win in Portugal against Salazar."

Interior Minister Joaquin Trigo de Negreiros told a news conference the vote indicated most of the nation wanted to continue the "peace and progress of the current regime."

★ ★ ★

He also announced that the president of Delgado's campaign committee, 70-year-old Prof. Francisco Vieira de Almeido, had been arrested on charges of issuing a manifesto inciting revolt.

The minister also said about 100 persons had been arrested during the campaign on charges of disorderly conduct.

Delgado charged that his campaign workers were arrested while distributing sample ballots bearing his name.

Delgado is minister of civil aviation in Salazar's government.

State Unemployment Drops 1st Time in '58

DETROIT (AP)—A slight drop in Michigan unemployment has been reported for the first time this year.

★ ★ ★

The Michigan Employment Security Commission said the number of jobless May 15 was 457,000, down from a peak of 460,000 on April 15.

The new total shows 15.6 per cent of the state's labor force is idle, compared with 15.7 per cent April 15.

However, the unemployment decline was only in outstate areas. Detroit still has 275,000 workers unemployed, 18 per cent of the city's labor force.

★ ★ ★

The MESC report came as the Ford Motor Co. announced it will recall 475 laid off glass workers tomorrow at its Dearborn plant. Operations had been discontinued Feb. 28. The company said additional workers will be recalled into July to rebuild inventories.

NEW YORK—Life insurance statistics indicate that virtually all dentists in the United States own policies. In 11 states, 100 per cent of the dentists are owners, and for the entire nation 98 per cent are.

In the age group from 35 to 55, ownership is 99.2 per cent.

State Spending Query Sought

Van Peursem Calling for Close Scrutiny at Highway Bond Issue

LANSING (AP) — House Speaker George M. Van Peursem today called for a legislative investigation of "irresponsible and unsound" fiscal management by the State Highway Dept.

The Republican leader said he would ask an interim legislative committee on highway problems to scrutinize handling of two bond issues by Highway Commissioner John C. Mackie, a Democrat.

One was the 100-million-dollar borrowing of May 27, which Mackie called a key part in development of the 1¼-billion-dollar, five-year road building program announced last fall.

The second borrowing was the 25-million-dollar issue floated in May 1957 for extension of Northwestern Highway in Oakland County. The bonds were issued by Charles M. Zeigler, Mackie's Republican predecessor.

After Mackie took office last July, he disapproved the extension project and decided to spend the money elsewhere within Oakland County.

In the interim, bond proceeds have been invested, first at a favorable rate of interest but lately at a maximum of 1½ per cent compared with 3.14 per cent the state is paying for use of the money.

Van Peursem said the idle money is costing the state $1,294 a day.

He called the larger issue, which bears interest of 3.3 per cent, a demonstration of "poor judgment."

"The tremendous size of this bond issue was designed for only one purpose—its publicity value," Van Peursem said.

★ ★ ★

Most of the money is not needed now, he said, but will not be expended until 1959 and 1960.

William Jennings Bryan made his famed "The Cross of Gold" speech before the Democratic National Convention at Chicago in 1896.

Claims Eskimos Came From Europe and Asia

WASHINGTON (AP) — Life wasn't always so cold for the Eskimos.

The Smithsonian Institution reported today that the Eskimos originally reached the arctic north from the warmer climates of Europe and inner Asia.

Their migration began more than 10,000 years ago in the Middle Stone Age.

★ ★ ★

Thus, said the Smithsonian, the Eskimos can claim the distinction of being the first American people whose culture has been traced to a specific time and place in the old world.

The Smithsonian's report was based on the studies of Dr. Henry B. Collins, specialist in the institution's Bureau of American Ethnology. Collins' belief that the Eskimos migrated from Euorpe and Asia was based on a close study of artifacts of the Middle Stone Age period.

★ ★ ★

In some anthropological circles a view has prevailed that the Eskimos were merely one branch of the North American Indian who went north to the icy wastelands some 2,000 years ago.

But Collins found that implements of early Eskimo culture bore strong resemblance to primitive tools found among remains of European and Asian homesites of Stone Age man.

He noted specific resemblances in specialized cutting tools, microblades and cores, and general resemblance in the small size of the implements.

Crude relics found in such places as Scandinavia, India, Ceylon and Mongolia were strikingly similar to artifacts taken from early Eskimo sites, Collins said.

Fishing Device Tells Temperature and Depth

AURORA, Ill. — A combination thermometer and depth gauge has been devised by an Aurora concern to help fishermen locate the deep, cold holes where fish abound.

The device, about the size of a fountain pen, has scales that give temperature and depth readings. It is cast out of the boat like a plug, then retrieved for the reading.

Thieves Take Cash but Are Partly Honest

CENTRAL CITY, Ky. (AP) — Thieves broke into a garage here and took an acetylene torch which they used to open a safe in an adjoining grocery.

After taking $384 in cash and checks, they returned the torch to the garage.

Eskimos Buying Up Plastic Foam Igloos

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

★ ★ ★

That professional street beggars say fat ladies give more generously than slender ones because they are more sentimental.

That half the world's population doesn't wear shoes and half has virtually no foot ailments.

That the Eskimos go in for the most advanced type of housing—waterproof igloos made of plastic foam.

That a survey of young housewives found that 92 per cent wanted ads in their newspapers, but 62 per cent would prefer TV without commercials.

★ ★ ★

That malaria, one of earth's greatest disease scourges, is rapidly being wiped out in the United States. Not a single case of locally acquired malaria has been reported here in the last three years. A decade ago 40,000 new cases were reported annually.

That one of the best ways to cut down evaporation from your storage tank is to paint it a light color—that is, if it is exposed to the sun.

That Catherine the Great of Russia regretted all her life she hadn't been born a man. On royal hunts she insisted on wearing men's clothing.

★ ★ ★

That Tschaikowsky, the Russian composer, was so terrified by electrical storms he would hide from them like a child. While conducting he always supported his chin in his left hand because of a morbid fear his head would literally fall off his shoulders into the orchestra pit.

That many drug stores, in addition to aspirin and insect lotions, also will sell you a short-term life insurance policy to cover you during your vacation.

That national defense costs the United States about $15,000 a minute.

★ ★ ★

That a poll showed 62 per cent of American men believe men are more moderate in their habits than women. Only 45 per cent of the women agreed!

Man Dies Plunging Into Grand Canyon

GRAND CANYON, Ariz. (AP)—A man plunged several hundred feet to his death from the south rim of the Grand Canyon yesterday before the horrified eyes of 75 tourists.

★ ★ ★

He was Donald Mark, 43, a Grand Canyon motel clerk.

John McLaughlin, Grand Canyon National Park superintendent, said Mark "apparently was just playfully jumping from stone to stone, slipped and fell several hundred feet."

★ ★ ★

Park rangers reached the body late yesterday.

Mark, formerly of Prescott, Ariz., had been working at the motel for about six months.

Planning to Tear Down Historic Southern Hotel

CHARLESTON, S. C. (AP) — The Charleston Hotel, 123-year-old building which housed many famous guests and where the first secession papers were drawn up before the Civil War, will be torn down.

In its place will be built a 150-room motel court with a swimming pool.

The old hotel housed such guests as Princess Louis, daughter of Britain's Queen Victoria, and Presidents Theodore Roosevelt, Calvin Coolidge and William Howard Taft.

McCone Faces Questioning Before AEC Confirmation

WASHINGTON (AP)—John A. McCone faces a wide ranging inquiry into his views on atomic policies and his business connections before the Senate acts on his nomination to the Atomic Energy Commission.

★ ★ ★

President Eisenhower last week appointed McCone, a Los Angeles business man, to succeed Lewis L. Strauss as an AE member. Strauss is stepping out June 30 as chairman of the AEC.

Sens. William F. Knowland (R-Calif) and Clinton P. Anderson (D-NM), members of the Senate-House Atomic Energy Committee, said in separate interviews they understand McCone will be named chairman of the commission if his nomination is confirmed.

★ ★ ★

Anderson added, however, he does not expect McCone to have the same broad duties as Straus who also served as President Eisenhower's atomic adviser.

Strauss, a controversial figure, will become the President's special assistant in charge of promoting the atoms-for-peace program after his current five year term expires at the end of this month.

Reaction was uniformly favorable among senators who will pass on McCone's nomination. But several senators said they want to explore McCone's views on atomic power, the halting of nuclear tests, the sharing of nuclear secrets with other countries, production of plutonium and other matters.

★ ★ ★

McCone, who was in Potsdam, N. Y., to receive an honorary degree tomorrow from Clarkson College, declined last night to discuss his views with newsmen. He said questions on basic atomic policy would have to be answered before senators considering his nomination.

Sens. Richard B. Russell (D-Ga) and Albert Gore (D-Tenn) said that to win confirmation McCone will have to divest himself of holdings in any business firms which have dealings with the AEC.

Anderson said he understands McCone already had disposed of his interest in the Bechtel-McCone Corp., Los Angeles engineering firm which has been active in the construction of atomic power installations.

"I'm not frightened by his business connections," Anderson said. "We need a competent business man to run a commission that deals in millions of dollars in contracts."

McCone, who served as under secretary of the Air Force in the Truman Administration, was listed by the White House as a Republican.

Decides to Buy Ring Stuck on Her Finger

GREENFIELD, Ind. (AP)—Young Janet Blue didn't have much choice on which ring to buy in a Greenfield jewelry store.

"I believe I'll take this one," she told the clerk.

The clerk asked if she wanted it wrapped.

"No," Janet replied casually. "I'll just wear it. As a matter of fact, I can't get it off my finger."

Last of Dog Sleds Carrying U.S. Mail

SAVOONGA, Alaska (AP) — The only remaining dog sled carrier of U.S. Mails in Alaska continues to operate on remote St. Lawrence Island in the Bering Sea. All other mails and freight are now carried by air.

★ ★ ★

Chester Noonwook, a 22-year-old Eskimo, drives his 10 huskies over the 100-mile mail route between Savoonga and Gambell about twice a week. The Post Office Department pays Noonwook $40 for each round trip. Although he has frequent troubles with "howling storms or soft snow," Noonwook consoles himself that "there are no wolves."

His most serious task, he said, was once when a new missionary came into Savoonga and had 5,000 pounds of baggage, and it was December weather. Noonwook and his dogs "delivered the mail" on that assignment, too, although it required several extra trips.

Plastic Shell Case Developed for Army

WASHINGTON (AP) — A 105-millimeter plastic shell case weighing less than half as much as metal cases has been developed for the Army.

Tube Turns Plastic, Inc., of Louisville, Ky., has been awarded a development contract to produce several hundred of the plastic cases for full-scale firing tests at the Aberdeen, Md., Proving Ground.

In research, the plastic case has withstood gas pressures as high as 35,000 pounds per square inch and a flame temperature of 4,000 degrees Fahrenheit at the instant of percussion. Weighing only 2½ pounds, the new cases are expected to ease the burden of transporting shells and handling them at gun sites.

President George Washington signed the bill to establish the U. S. Navy in 1794.

Denies Russian Bought Secrets

Menshikov Tells Panel on TV His Countrymen Forbidden Such Action

By FRED S. HOFFMAN

WASHINGTON (AP) — Soviet Ambassador Mikhail Menshikov says a junior Soviet diplomat denies trying to buy American military secrets. All Russians in this country, Menshikov says, are forbidden to do anything improper.

Menshikov told a TV panel that Nikolai I. Kurochkin, the Soviet Embassy's third secretary, has denied State Department charges that he sought to purchase secret military documents from Charles T. Beaumet, an American magazine writer.

★ ★ ★

"And I have no reason not to believe him," Menshikov said.

Kurochkin was ordered Saturday to leave the United States on grounds he paid hundreds of dollars for Army manuals and other materials and tried to get secret documents. He is expected to start for home later this week.

★ ★ ★

Beaumet, a 25-year-old magazine writer living in nearby Arlington, Va., said he never gave any classified information to the Russian. Beaumet said he furnished Kurochkin some nonsecret material, part of which "was already in the papers." For this, Beaumet said, he received $435 over a period of months, starting last year.

Justice Department officials said Beaumet cooperated with government investigators after they questioned him about his transactions with Kurochkin. Officials said Beaumet since has registered as a foreign agent and that the department planned no action against him.

★ ★ ★

The move to oust Kurochkin for "highly improper activities" came about three weeks after the Soviet Union had expelled John A. Baker Jr., second secretary of the U. S. Embassy in Moscow. Baker, 30, was accused of violating what the Soviets called "the norms of behavior" for diplomats. The United States has disputed the accusation against Baker.

He Tells Wrong Couple What His 'Duties' Are

LITTLETON, Colo. (AP)—When a 20-year-old man was found hiding behind the bar in a locked tavern, he explained: "I'm supposed to clean up the place."

But the persons he told this to were a man and wife hired for that very purpose. A district court judge put him on probation for three years.

World Situation 'Normal'

Tells Grads — Don't Be Scared

CLAREMONT, Calif. (AP) — "Don't be frightened by the international situation," says Will Durrant. "It is normal."

★ ★ ★

The 72-year-old author-philosopher also advised a prep school graduating class to marry "as soon as you can keep the wolf from the door."

"You will be too young to choose wisely, but you won't be any wiser at 40," he told 24 seniors at Webb School.

"By submitting to marriage, we can take our minds off sex and become adult."

Advising the students not to take politics too seriously, he said: "Corruption in government is natural because it is natural in man.

"Expect to reform the government only after you have reformed human nature and your own.

"Intelligent fear will keep us from international suicide. The balance of terror is making for peace."

The graduates included Durant's grandson James Easton, 16.

Asthma Claims Robert Donat

British Actor Received Academy Award in '39 as 'Mr. Chips'

LONDON (AP) — Actor Robert Donat, an Oscar winner for his performance as the gentle English schoolmaster in "Goodbye Mr. Chips," died early today after a 20-year battle against asthma.

★ ★ ★

The 53-year-old British star won Hollywood's Academy Award as 1939's best screen actor for Mr. Chips. But his wide range of successful performances included the coldly vindictive Count of Monte Cristo, the resourceful adventurer of "The 39 Steps," the polished courtroom orator of "The Winslow Boy" the dashing Scotsman of "The Ghost Goes West" and many other stage and film roles.

★ ★ ★

Only last month he finished his first feature film after five years of retirement due to illness. Following his doctors' advice to return to acting, he accepted a starring role as an autocratic Chinese mandarin in "The Inn of the Sixth Happiness" with Ingrid Bergman.

Donat suffered a severe asthma attack on the set but carried on with the aid of a nurse and a prompting board on which his lines were written in large letters.

★ ★ ★

"It's good to see life again," he said. "There have been long times during the last years when I have been so desperate, so afraid, that I could not face anybody."

He collapsed May 18, a week after the film was finished, and was taken to the hospital.

Born in Manchester, England, on March 18, 1905, Donat began acting in provincial companies at 18 and made his first London appearance in 1930.

★ ★ ★

Donat's first wife was Ella Annesley Voysey. They had two sons and a daughter and were divorced in 1946. He married actress Renee Asherson in 1953. They separated two years ago.

Great Lakes Levels Reported Very Low

TORONTO (AP)—Levels of all the Great Lakes are low and Lake Ontario levels are only 18 inches above the all-time low recorded in 1934, a Canadian hudrographic survey reports.

Cottagers at Georgian Bay on Lake Huron have complained of boat houses and docks left high and dry. One resident said water which used to be 100 feet from the cottage now is a half mile away.

Engineers said the water level depends on snowfall of the preceding winter, which has been unusually light the last few years.

There are almost 1,000 farmer co-op units in Texas.

PROTEST VIOLATION

The East German Foreign Ministry announced it had sent the U. S. State Department a note protesting that East German air space had been violated. The Foreign Ministry followed up today with a declaration that the fact it had sent its protest direct to the State Department showed the East German regime—and not the Soviets—has jurisdiction in the matter.

A Belgian jet fighter was forced down in East Germany 12 days ago. The Soviets have referred all Belgian queries to the East Germans.

Troy, Southfield to Act on Drains

Hear Proposals Tonight on $62 Million Snag in Twelve Towns Project

A snag in a $62 million of drain project construction in southeastern Oakland County might be broken tonight when the cities of Southfield and Troy act on a possible appeal of the Twelve Towns storm drain court decision.

Mayor Donald L. Swanson of Southfield and Mayor Frank Costello of Troy said today their respective commissions will hear recommendations relative to an appeal.

Although Swanson and Costello were reluctant to reveal what their recommendations will be, it was learned from County Drain Commissioner Daniel W. Berry that a long awaited appeal is forthcoming.

The appeal is the "key to five projects" totaling roughly $62,000,000, he said. They are aimed at relieving what state health officials say is an "intolerable" hazard in southeast part of the county, Barry said.

"The appeal will break sort of a log-jam of projects which we can't proceed with without the high court decision," he added.

WARNING GIVEN

State officials, including Attorney General Paul L. Adams and Health Commissioner Albert E. Houstis, warned the county Friday to solve its inadequate drain situation or the state will take action.

Barry told the officials his department would not move in this direction until an appeal of Circuit Judge H. Russel Holland's March ruling was made.

Judge Holland that month ruled in favor of the $44½ million Twelve Towns project, which will serve numerous communities in the southern part of the county.

★ ★ ★

Southfield and Troy, as well as Royal Oak Township, has protested their shares of the project. This started the legal action.

surgeon left a surgical sponge within his stomach cavity last July 31, after performing an operation.

★ ★ ★

The worker, Cecil J. Harrison, 36, of 269 Seward St., further charged that the operation was "unnecessary."

Dr. Sullenberger denied this latter charge but acknowledged the sponge was left behind unintentionally.

He said two X-rays taken while Harrison was still on the operating table failed to detect the sponge. The sponge showed up in a third X-ray on the day Harrison was to leave the hospital and another operation was performed to remove it, Dr. Sullenberger said.

★ ★ ★

He said a third operation was necessary to suture the first incision because it broke open during Harrison's recovery from the second, Dr. Sullenberger said, were up to acceptable standards.

His answer was filed by attorneys for an insurance company.

Has 4 Wives in 100 Years and Still Rarin' to Go!

OXFORD, Fla. (UPI) — Benjamin M. Jerkins has outlived four wives, and is celebrating his 100th birthday today still "ready for romance."

Jerkins, a native of Georgia, was honored in special ceremonies yesterday at the Assembly of God Church.

The centenarian is a retired truck farmer. He was born June 9, 1858, in Dooley County, Ga., and moved to Florida in 1870. He has 11 grandchildren and 25 great-grandchildren.

His health is good, and his spirits are excellent.

"I feel now that I'm ready to get married again," he confided yesterday to the Rev. G. T. Tindall.

UAW Checks Walkout at Chrysler Missile Plant

demands for improved Supplemental Unemployment Benefits; higher pensions and earlier retirement, and job or pay protection for employes affected by plant closings or movings.

Chrysler unrest had threatened the UAW's own policy of no strikes in the no-contract period existing since Big Three refusals to extend old contracts at the end of May.

★ ★ ★

However, a company spokesman said strike action scheduled for today at the plant was called off as the result of a memorandum of understanding reached with local officials. The company said it is negotiating with the union on unresolved issues. It gave no details.

★ ★ ★

Chrysler gave its salaried workers a 9-cent-an-hour raise effective June 1, the day its UAW production workers contract expired.

All the Big Three have followed this policy. Following the pattern of the old UAW contracts, the pay raise includes a cost of living increase and the annual improvement-factor pay boost. With contracts ineffective, both have been denied the UAW membership.

At issue in Chrysler plants also have been management orders bearing on grievance procedure.

Aussie Industry Expands

CANBERRA—Australia's 54,000 factories employ more than a million men and women, or 30 per cent of the country's work force. This is a proportion of industrial employment almost equal to that of the United States. Since the end of World War II, factory employment has scored an over-all increase of 25 per cent and total production figures have risen by 50 per cent.

YWCA Group Fetes 10th Year

Golden Age Club Marks Birthday

By MARGARET BROWN

Devon Gables was the setting for several hours of grand fellowship when members of the YWCA's Golden Age Group were honored at their 10th anniversary luncheon.

Golden Ager Mrs. William Todd offered the invocation at the Friday gathering. Following the luncheon Mrs. Donald Hogue led the group in singing a number of hymns and perennial favorites, among which were "The Old Rugged Cross," "In The Garden," and "Love's Old Sweet Song." Mrs. B. H. Zannoth accompanied at the piano.

Charter members introduced by Mrs. J. A. Rammes, sponsor of the group, included Mrs. Carrie Heath, Mrs. I. A. Woodward and Mrs. T. F. Lohff. Charter member Mrs. J. A. Covert was unable to attend the event.

Among guests introduced by Mrs. Rammes was Mrs. Elsie Vierlech, a former sponsor of the Golden Agers. Other visitors included Mrs. O. G. Strong, Agnes Hilton, Mrs. Lisle Echtinaw, Mrs. James H. George, Mrs. Fred Travis, Mrs. Frank Nelson, Mrs. John Adams, Mrs. W. E. Blynn, Janice Antona, Mrs. Paul Langworthy and Mrs. Alfred Coles.

A corsage for the oldest member present (excluding the charter members) went to Mrs. Elizabeth Peck, who has reached her 90th year. Special recognition was accorded Mrs. Viola Chapel, who wrote a clever poem for each Golden Ager's place-setting, and members of the fourth grade class at Daniel Whitfield School who made corsages of colored construction paper for members.

WIN OVATION

Two Golden Age members offered special numbers which brought a warm ovation from the luncheon audience. Gertrude Richardson, 76, caused many a misty eye as she sang the inspiring, "Hold Thou My Hand," by Briggs. Two delightful and yet poignant readings were given by Mrs. Carrie Heath, aged 93.

Following these presentations Mrs. Fred Stimpert, president of the YWCA Board, introduced Mrs. Reba Netzler, YWCA executive director, who expressed appreciation for the close cooperation between the United Fund and the YWCA. Mrs. Netzler then introduced Karl Bradley, head of the United Fund, who paid tribute to the group, and Robert Langer, assistant director of the Fund.

The Golden Age Group of Pontiac's YWCA was feted at a 10th anniversary luncheon Friday at Devon Gables. Mrs. J. A. Rammes, right, sponsor of the group, was presented with a bouquet of roses in appreciation of her service in Golden Age activities, by Mrs. John Doig, a Golden Age Group member.

Charter members of the Golden Age Group (left to right) Mrs. I. A. Woodard, Mrs. Carrie Heath, and Mrs. T. F. Lohff were given special recognition at Friday's gathering.

Gertrude Richardson, right, sang "Hold Thou My Hand" for Golden Age members at Friday's luncheon. Here, she pauses to chat with Mrs. William Todd, another Golden Ager, who offered the invocation.

It Takes Two to Talk!

By EMILY POST

"Dear Mrs. Post: What is the proper behavior for a guest who finds herself a stranger at a large party? I was invited to a semi-business cocktail party last week and found that I knew no one at the party but the hostess. I felt very unnecessary and after about fifteen minutes I left. I would like to know if it would have been proper for me to go up to other guests without being introduced, and start a conversation."

Answer: You can't very well walk up to two strangers who are talking together unless they speak directly to you. But you can quite properly start a conversation with either a man or woman who is seated, or standing, next to you. You must not, however, let it run on without response from your listener.

"Dear Mrs. Post: I suppose I am a very fussy eater, but I find it impossible to eat certain foods. When invited out to lunch or dinner should I take tiny portions of the foods I cannot eat and leave them untouched on my plate, or refuse them when passed around the table? I think it is less conspicuous to take a little than refuse dishes that are passed. What is your opinion?"

Answer: If you are really not going to eat the food it is pure waste to take it and leave it on your plate. You don't have to eat everything that is served, but let's hope you can eat some of the food.

"Dear Mrs. Post: If it is necessary to interrupt when persons are talking, what is the most polite way to do it?"

Answer: Say, "I'm sorry to interrupt," or "Excuse me, please, but Mrs. Brown is on the telephone," or "Mr. Jones is waiting to see you," or whatever it is that makes it necessary for you to interrupt.

Club Members at Convention

Seven members of the Woman's Literary Club attended the General Federation of Women's Clubs convention which met last week at the Ford Auditorium, Detroit.

Those attending were Mrs. Harry Vernon, incoming president; Mrs. A. O. Carmer, Mrs. Dale Moats, Mrs. Joseph Phillips, Mrs. Harry Swett, Mrs. Carl Weber and Mrs. Mabelle

Teachers Feted by Federation

Pontiac Federation of Teachers honored three retiring teachers Friday at a reception at the Beverly road home of Mr. and Mrs. John Buchanan.

Honored were Mrs. Naomi Dennis of Malkim School and a past president of the federation; Mrs. H. M. Burns of Bagley School and Loys Kader of Pontiac Central High School.

Dear Abby....

First Duty to Family

By ABIGAIL VAN BUREN

DEAR ABBY: My wife is married to the Church Auxiliary. They have church suppers about four nights a week and my wife is chief cook and bottle washer. She's got varicose veins but she puts on elastic stockings and stands on her feet all day cooking and then runs around all night serving. She is so knocked out she gives the kids money and tells them to eat at the diner. She thinks she is doing her Christian duty by neglecting her family and wearing herself out. Will you please set her straight?

NEGLECTED HUSBAND

ABBY

DEAR NEGLECTED: There must be another way to get to heaven. Cooking for church suppers is fine but a woman's first duty is to her own family. She ought to take an afternoon off and have a talk with her clergyman.

★ ★ ★

DEAR ABBY: About thirteen years ago my husband and I were living with his parents in their home. They sold their home and gave my husband the money to buy another house on his G.I. loan. We all live in the house bought with THEIR money but on my husband's G.I. loan. What I want to know is, are WE living with THEM, or are THEY living with US?

WONDERING

DEAR WONDERING: For the sake of harmony, let's say you are all living together!

★ ★ ★

DEAR ABBY: I don't know what to do with my boy who is 15. He steals cigarettes from his Dad constantly and I have noticed that he even used up a whole bottle of cough syrup (little by little) trying to sweeten his breath. He is sassy to me and his father and makes up lies to get out of the house every night, and he never says where he is going. He is driving us crazy. What have some other people done with boys (or girls) when they act like this? I hope someone will answer. HELPLESS

DEAR HELPLESS: It is very difficult (but not impossible) to gain control of a 15-year-old once you've lost it. The boy needs to spend some time with someone he admires and respects. Try a doctor, coach, clergyman or male teacher.

★ ★ ★

DEAR ABBY: I am a barber and work six days a week. My wife has nothing to do all week long. Will you please tell me why she has to wait until Sunday (my only day home) to do the canning, washing, ironing and stuff like that?

CHUCK THE BARBER

DEAR CHUCK: Think up something a little more exciting to do, and she'll put off the canning, washing, ironing and stuff like that.

★ ★ ★

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Slow Down—Eat Often

Must Follow Definite Rules to Gain Weight

By JOSEPHINE LOWMAN

Shame on you—those of you who do not read "Why Grow Old?" EVERY day. I keep getting letters from readers like the following:

"Dear Mrs. Lowman: You always help people who are too fat and want to lose weight but why not help those who are too thin and want to gain?" Another letter says, "I don't think you are being fair to us. You are always giving advice on how to keep thin. Why not have a column on how to gain weight? I'm sure I am not the only one who feels this way."

I must admit that I write a lot more about overweight than underweight, but I do periodically give the thin girls a break. Today I will give you a quick resume of the facts, because I know that the swimming season puts the pressure on you.

1. Slow down! Usually the underweight woman has lots of nervous energy which she spends with abandon. She rushes here and there and never completely relaxes even when sitting down. She drums her fingers and swings her crossed leg. Try to learn to go limp at every opportunity. Try to plan your life so that you do not have to rush.

2. Do not try to stuff yourself with three big meals. Instead eat five smaller ones. Be sure that you eat a well-balanced diet and are getting plenty of vitamins and minerals with a liberal fruit and vegetable intake. Drink whole milk with meals and also a couple of times in between meals or at night. Add some cream to the milk you drink without your meals.

★ ★ ★

3. Vitamin B complex is sometimes helpful to the woman who wishes to add poundage.

4. Exercise is helpful. Take mild exercises and breathing exercises. Swimming is a wonderful sport for you because it builds lovely curves and is also most relaxing.

5. Get plenty of sleep.

6. Whenever possible take a rest period before meals.

If you follow these few rules, I feel sure you will add those much wanted pounds!

If you would like to have my Nine-Day Gaining Diet, send a stamped, self-addressed envelope with your request for leaflet No. 41. Address Josephine Lowman in care of this newspaper.

MRS. RICHARD G. WILLIAMS

Married Saturday at Christ Church Cranbrook were Marynell Anderson and Richard G. Williams. She is the daughter of the Edwin J. Andersons of Bloomfield Hills, and he is the son of Mrs. Edgar A. Williams and the late Mr. Williams of Detroit.

Williams-Anderson Rite Solemnized at Cranbrook

Christ Church Cranbrook was the scene of the Saturday afternoon wedding of Marynell Anderson and Richard Gerken Williams. The Rev. Robert DeWitt officiated at the 5:30 p.m. ceremony.

Parents of the couple are Mr. and Mrs. Edwin J. Anderson of Bloomfield Hills and Mrs. Edgar A. Williams and the late Mr. Williams of Detroit.

IN EMBROIDERED GOWN

The bride wore a gown fashioned of embroidered white silk organza over ice blue satin. The gown was accented by a round neck and short sleeves with a chapel train.

Her illusion veil fell from a matching embroidered organza cap. She carried a bouquet of stephanotis, lilies of the valley and white phaelaenopsis orchids and a lace handkerchief carried by her mother and sister at their weddings.

★ ★ ★

The bride's sister Mrs. Harold J. Stenglein Jr. of Saginaw, was matron of honor. She wore a street-length gown of embroidered white organdy over pale blue satin with a matching sash and sweetheart neckline. A pale blue circular veil fell from a wreath of white satin leaves and she carried a bouquet of blue delphiniums and white carnations.

★ ★ ★

Bridesmaids were Patricia Eden, of Bloomfield Hills; Julie Otter of New York City; Mrs. Ronald Ballantine, Mrs. Jerrain Van Tuyl and Mrs. Richard Weir, all of Birmingham, and Mrs. Robert S. Griffith Jr., of Atlanta, Ga. All wore gowns identical to the matron of honor's. Their hats were wreaths of pale blue satin leaves and they carried bouquets of shaded blue delphiniums.

ATTENDS BRIDEGROOM

Best man was Joseph L. Hardig Jr. of Birmingham. Seating the guests were Fred Amrine, the bridegroom's brother-in-law, of Harper Woods; David Kennedy and Russell Layland, both of Birmingham, Harold J. Stenglein Jr. of Saginaw, E. A. Diddle Jr. of Murfreesboro, Tenn., and Thomas Willson of Evanston, Ill.

★ ★ ★

Following the ceremony, a reception was held at the Bloomfield Hills Country Club. To receive guests, Mrs. Anderson wore a pink raw silk sheath embroidered with white beads, and a small flowered hat. Pink orchids were pinned to her purse. The bridegroom's mother wore a pale blue lace sheath with a blue flower hat and a corsage of small orchids.

For her wedding trip, the bride was dressed in an oyster white raw silk dress and fitted jacket with turquoise and green embroidered linen blouse. She wore a small white hat accented with turquoise and green and turquoise and white accessories.

★ ★ ★

After a two-week trip to Acapulco, Mexico, the couple will live in Milwaukee.

Map Color Strategy for Home

NEW YORK (INS) — Do dramatic opposites attract you, or are you soothed by similarity?

That's the question you should ask yourself before beginning to map out the color strategy of a new home or apartment. This is what you should keep in mind:

Combinations of various colors provide different harmonies. Using colors next to each other on the color scale, such as blue, violet-blue and violet will produce a restful, pleasing effect.

Each color has a complement—its direct opposite. Green is the complement of red, violet of yellow, orange or blue.

Complementary harmonies, using color opposites, are more dramatic, but they must be handled with care.

Colors can be divided into two groups. The primary, unmixed colors are red, yellow and blue. The secondary colors are violet (a mixture of red and blue), green (composed of blue and yellow) and orange (combining yellow and red). The hundreds of shades featured by home furnishings manufacturers are variations on these basics.

Accident Fails to Mar Beauty

Suzy Parker Suffers Broken Arms; Father Dies in Collision

ST. AUGUSTINE, Fla. (AP) — Suzy Parker's physician says the 25-year-old actress is still a very beautiful girl despite injuries in a train-auto crash. Two arms were broken but her face was unmarked in the accident Saturday night.

★ ★ ★

The crash killed her father.

Miss Parker was admitted to the hospital under the name of Mrs. Pierre Lasalle of New York City. It was the first public disclosure that she was married.

Lasalle arrived in St. Augustine from New York last night to be at her side. Newsmen could not reach him for comment. A member of the family declined to say how long they had been married.

★ ★ ★

The accident occurred when Miss Parker and her father George Lofton Parker, 60, were driving to Jacksonville after visiting her mother in the hospital here. Mrs. Parker is recovering from a recent operation.

A state trooper said Parker, owner of Parker Printing Preparations in Jacksonville, apparently did not see or hear the Florida East Coast Railway train approach a crossing.

★ ★ ★

Miss Parker's physician said she will be hospitalized for several weeks.

Miss Parker, a former top New York model, has had roles in two movies, "Kiss Them for Me" with Gary Grant and Jayne Mansfield and "10 North Frederick" with Gary Cooper.

SIGN UP FOR SWIMMING — Ted Villella and Loretta Beck are first to sign up for the Rotary-Pontiac YMCA Learn-to-Swim program. Accepting their applications are Police Chief Herbert W. Straley, right, for the Rotary Club, and John T. Moreau, Y director of aquatics. The program is open to children over nine, but a parent must come to the Y to register a child. The classes are limited to 465 youngsters. Application forms have been distributed through the schools by a Rotary committee headed by Chief Straley.

His Tanker Collides With Fishing Boat

Skipper Learns of Crash 2 Hours Later

PROVINCETOWN, Mass. (AP) —A tanker and a fishing vessel collided 12 miles off the tip of Cape Cod yesterday but the skipper of the tanker was unaware of it for two hours.

The captain of the fishing trawler Yankee said the supertanker Jamestown "kept right on going after the collision."

★ ★ ★

A Coast Guard spokesman at Boston said that about two hours after the crash the Jamestown questioned by radio whether a vessel had overturned off Race Point.

The Coast Guard advised the Jamestown of the accident and asked the tanker's skipper to report the incident at his destination, Harbor Island, Tex.

★ ★ ★

Capt. Arthur Duarte, 55, skipper of the 60-foot fishing craft, battled for three hours with his two-man crew to keep the vessel afloat and bring her into port.

The Yankee's bilge pump kept just ahead of the ocean pouring into the fishing vessel's holds through a hole near the stern and through open deck seams.

The 206-foot, 1,538-gross-ton Jamestown, an Esso Oil Co. ship based at Wilmington, Del., apparently was not damaged.

★ ★ ★

Capt. Duarte and his crewmen, Arthur Joseph, 63, and Antone Henrique, 60, all of Provincetown, brought their vessel to port under her own power while a Coast Guard vessel stood by.

Capt. Duarte said, "The weather was very, very clear. We couldn't believe it when we looked up. It was like a mountain rolling down on top of us. It was only 110 feet away. I kept blowing my whistle.

★ ★ ★

"A crewman on the deck of the Jamestown looked down and yelled 'What's the matter?' But the tanker didn't even slow down."

United Fund to Open Budget Hearings Here

The Pontiac Area United Fund will launch its 1958 series of agency budget hearings at 7 P.M. today in the Waldron Hotel for its 55 participating agencies.

A twelve-man panel headed by Henry D. Price will hear the Girl Scouts present their budgetary requests for the 1959 operating year. This initial session marks the beginning of the annual three week process of budget hearings which will run this year until June 30.

Eighty-six community leaders representing business industry, labor, the professions and various civic organizations make up the membership of the eight UF budget panels.

Each panel is headed by a member of the Fund's Budget Steering Committee which is piloted by Robert S. Nelson. In addition to Nelson and Price, its members are: Andrew J. Wilson, John B. Wilson, D. B. Eames, Theodore Wiersema, Donald G. Berryman and Howard Fitzgerald II.

★ ★ ★

At the completion of the three weeks of budget hearings, the panels will present their recommendations to the Budget Steering Committee. The Fund's Board of Trustees will then base this fall's campaign goal on the recommendations it receives from the Steering Committee.

Planes Barely Miss Homes in Final Dive

MANCHESTER, N. H. (AP)— Two jet fighter planes crashed in screaming dives yesterday after both pilots successfully bailed out.

The planes landed in swamplands, narrowly missing several homes.

Second Lt. Peter Gulick, 25, Hanover, N. H., suffered a minor back injury.

Both Air National Guard pilots were returning to Grenier Air Force Base at Manchester, N. H., when their F86L jets developed engine trouble.

They were on a training mission.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne*) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository or ointment form* called *Preparation H.** Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

NOW! WONDERFULLY NEW, THRIFTIER WAY TO BUY GASOLINE!

America's six finest gasoline grades (OCTANE RATINGS) custom-blended to fit any car today

-from this one spectacular new blending pump!

© 1958, SUN OIL COMPANY

This you can have! Today's big difference—in gas costs, and performance—something 3 out of every 5 car-owners have never been able to get, up to now!

- EXACT OCTANE-STRENGTH YOUR ENGINE NEEDS
- HIGHEST-OCTANE "REGULAR" PRICE GAS ON THE MARKET
- SAVINGS UP TO $1.00 A TANKFUL OVER OTHER "PREMIUMS"
- MOST MILES PER DOLLAR...SMOOTHER, KNOCK-FREE POWER

It's the big difference, all right. You'll feel and hear it from your engine... count it in what you save on gas.

Cars are not unlike men — in what they need to do their stuff. Few men can eat, or thrive on identical food.

Two cars of the same make, model, age and even the same mileage can vary as much as 8-10 octane points in what they need to perform best!

It's hopeless to expect that *all* the cars running today can be *correctly* powered on 2 or 3 "ready made" gasoline grades. That's what Sunoco's brilliant new blending pump corrects... by custom-blending on the spot the right fuel, for every car it fills. Ready and waiting, today! Come see for yourself!

BLUE SUNOCO CUSTOM-BLENDED AT THE PUMP

In money, performance, mileage...
TODAY'S GREATEST GASOLINE VALUES...FOR YOUR CAR!

THIS IS WHAT HAPPENS: Attendant sets dial (see A) for any one of the six "custom blends" desired. This precisely controls proportions drawn from each of the two buried tanks. In one, premium quality straight Blue Sunoco '200', with higher octane than any other gasoline at "regular" price; in the other tank, Sunoco Octane Concentrate... far higher octane than any car *needs*. Meters and control valve accurately deliver the exact octane quality called for.

SOME EXAMPLES: CARS AND THEIR CUSTOM-BLEND NUMBERS:

'55 Chevrolet—6, V-8	200
'57 Chevrolet V-8 DeLuxe	220
'55 Ford—6, V-8	200
'58 Ford V-8 DeLuxe Models	240
'56 Dodge V-8 Power Pack	210
'56 Buick Special	220
'56 Buick—All Others	230
'57 Plymouth—6, V-8	200
'57 Plymouth—V-8 DeLuxe	210
'55 Oldsmobile	210
'56 Pontiac	210
'58 Edsel—Ranger, Pacer	240
'58 Cadillac	240
'58 Mercury—Power Pack	260
'58 Rambler	200
'58 Imperial	260

Get complete pocket chart at any Sunoco station... showing all cars, new and old, with their Sunoco Custom-Blend grades. It's simple... your right Sunoco grade is easy to remember by these numbers: '200'—'210'—etc., (numbers, incidentally, were picked solely for simplicity and convenience).

Special Note: You *may* discover, with the right Custom-Blend, your car needs *less* octane than you've been buying! Start with blend your pocket chart shows; then, next time, try the *next lower* Custom-Blend. Many cars *do* perform smoothly, powerfully, on a lower Sunoco Custom-Blend. Try it!

About to Retire, Mrs. Lola King Has Seen Pontiac Schools at Their Best—and Worst

By HAROLD S. COHEN

A gracious lady whose record of public service almost parallels the history of education in Pontiac for the past three decades is retiring.

Mrs. Lola B. King, of 98 S. Shirley St., on July 1 will step down from her seat on the Pontiac Board of Education after 16 years service.

★ ★ ★

Mrs. King, whose vigor belies the fact she has just passed her 61st birthday had decided to devote more time to her family — her husband Harry is retired as foreman at Fisher Body Division and they have two daughters and several grandchildren.

Mrs. King was first drawn into school activities when her eldest daughter entered McConnell School in 1924. The mother, as so many do joined the school's PTA.

As her children advanced in grades, she moved with them joining PTAs at Eastern Junior High School and then Pontiac Central.

ONE OF THE FINEST

"In the 1920's," she recalled "Pontiac had one of the finest school systems in the country."

Mrs. King was active in the PTA and worked hard to get Eastern Junior High built. It was the first such school in the city and a new idea in education.

When the depression struck in 1929, the schools fell on evil days. A money-conscious public rebelled against taxes and elected a majority of board members devoted to the keeping down of expenses.

★ ★ ★

A period of decay struck the schools, Mrs. King said, and not only were no buildings constructed but necessary repairs were ignored and the instructional level declined. Teachers' wages were unbelievably low and many uncertified persons taught in the system.

During this period Mrs. King recalled, the PTA sewed 10,000 items of clothing for needy school children with material supplied by the city.

About 1940, the system hit bottom, she said. But then the upturn began, hardly perceptible at first.

BECOMES PTA PRESIDENT

Robert French took over as superintendent and Emerson school was built by the WPA with used materials.

Mrs. King became president of the Pontiac PTA Council. She had already served as president of the McConnell, Eastern and Pontiac Central groups.

In 1942, determined that something must be done for the schools she ran for the board of education and was easily elected.

The war was on and school improvements had to mark time. Mrs. King turned her energies to the Red Cross and Civil Defense and served on the Community Chest.

MRS. LOLA KING

She was one of the founders and on the first board of directors of the Oakland County Child Guidance Clinic.

Although her children had graduated from high school, she was as actively interested in education as ever.

She was appointed by the Michigan Congress of Parents and Teachers as a district director and served three years.

She served on the MCPT committees for education and by-laws and in 1945 was elected director of district services for the state.

In 1946 she was re-elected to the Pontiac Board of Education and worked with the new superintendent, Frank DuFrain.

★ ★ ★

Under Superintendent French, the instructional program had been improved, but construction and repair of buildings was still a dead letter.

With the arrival of DuFrain, progressive elements on the board including Mrs. King began to work for plant improvements.

Mrs. King fought hard against substandard conditions at LeBaron School where children studied in shacks in their coats during the winter.

SAW PUDDLES, SNOW

Mrs. King saw the puddles of water in the corridors and the snow drifting into the classrooms.

Under her prodding the board agreed to build two new classrooms and in 1944 Mrs. King ran the steam shovel that broke ground on the first new building since 1930.

In 1950, the voters finally approved a 2.75 millage increase and the long-neglected repair work on the crumbling schools began.

★ ★ ★

Nine additions to schools were erected from 1950 to 195- and supervisors were hired to improve the instructional level in the schools.

In addition, a new school was built and books were bought for libraries. Visiting teacher programs were started and visual education came into being.

In 1954, the present superintendent, Dr. Dana P. Whitmer, was hired and additional millage voted for a real drive to make Pontiac schools outstanding.

ON STATE COMMITTEES

During this period Mrs. King was elected president of the Michigan Congress of Parents and Teachers and worked on state committees for educational policy, curriculum development, on the state Youth Commission and on the state Intergovernment Relations Committee.

★ ★ ★

She was vice president and a director of the Michigan Mental Health Committee and served on the Teachers Tenure Committee.

She also was active in Republican politics and was chosen delegate to both county state GOP conventions.

★ ★ ★

In the past four years, her fourth term on the board of education, Mrs. King has witnessed nine new schools built, including the new high school now under construction and Madison Junior High, seven additions to existing schools and nine multipurpose rooms added.

She has also seen an upgrading in the quality of teachers and vast strides in improvement of instruction and related services.

★ ★ ★

She recalls that she made the motion to hire teachers regardless of race and has voted for such improvements as written policies for the board, inservice teacher training, helping teachers aid new teachers, internships for new supervisory personnel and special education and testing programs.

STILL NEED IMPROVEMENT

"We still need improvement in our guidance and counseling services and in our health services," she added.

Widely in demand as a speaker and conference participant, Mrs. King is recognized as an authority on education.

Although she vows she will devote her time to her family ("my husband has certainly been a patient man"), her keen interest and great experience in the field of education may still cause many demands to be made on her time

GRADUATES IN WHEEL CHAIR — A crippling attack of polio a few months after completion of the ninth grade didn't prevent Anna Bader from finishing her course at Lake Orion Community High School. Daughter of Mr. and Mrs. John Bader, 3921 Bald Mountain Rd., Orion Township, Anna received her diploma along with 125 other students. She completed her course at home under the tutelage of Mrs. Stuart Williams, Oakland County homebound teacher, and came out with a "B" average. Helping her prepare for the ceremonies was her friend, Linda Andrews of 4640 Lapeer Rd., Orion Township.

THE REV. C. P. BETTENDORF

Man From Area to Be Ordained

Father Bettendorf to Celebrate First Mass Sunday in Royal Oak

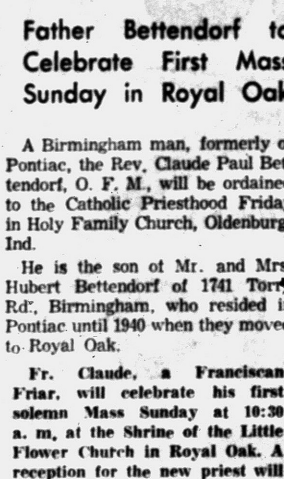
A Birmingham man, formerly of Pontiac, the Rev. Claude Paul Bettendorf, O. F. M., will be ordained to the Catholic Priesthood Friday in Holy Family Church, Oldenburg, Ind.

He is the son of Mr. and Mrs. Hubert Bettendorf of 1741 Torry Rd., Birmingham, who resided in Pontiac until 1940 when they moved to Royal Oak.

Fr. Claude, a Franciscan Friar, will celebrate his first solemn Mass Sunday at 10:30 a. m. at the Shrine of the Little Flower Church in Royal Oak. A reception for the new priest will be held from 3 to 6 p. m. the same day at the Maplewood Club House, Royal Oak.

Fr. Claude, 26, attended elementary schools in Pontiac and Royal Oak.

He was invested with the Franciscan habit at St. Anthony Novitiate, Mt. Airy, Ohio. He was graduated from Duns Scotus College, Detroit, in 1954, and for the past four years has been studying at the Franciscan House of Theology, Oldenburg, Ind.



LOUISE D. PLOE

Graduating Sunday from Marquette University in Milwaukee, Wis., was Louise D. Ploe, daughter of Mr. and Mrs. John Ploe of 3835 Lakeview St., Orchard Lake. She received a bachelor of science degree. Louise is a graduate of Shrine of the Little Flower High School in Royal Oak.

Milford High Senior Sets All A Record

MILFORD — For the first time in its history, Milford High School will graduate a student with a record of all A's for four years.

Valedictorian Patrick Kelley not only will graduate Wednesday with a perfect academic record, but with nine letters for athletic achievements in football, basketball, baseball and tennis.

He plans to attend the University of Michigan on a scholarship awarded for outstanding academic work and extra-curricular activities.

Pat participated in baccalaureate ceremonies Sunday evening along with 126 other Milford High seniors.

The Rev. William Lovejoy, pastor of the Milford Methodist Church, delivered the main address, with Rev. Maurice Dirette of the Highland Congregational Church presenting the invocation and benediction.

Main speaker for commencement exercises at 7:30 p.m. Wednesday will be Dr. Charles L. Anspach, president of Central Michigan College at Mt. Pleasant.

Salutatorian Sue Bourns will give the reading, which will be followed by the farewell address by valedictorian Kelley.

Blacks Out at Wheel; in Fair Condition Here

A Walled Lake youth, Frederick A. Larges, 18, is in fair condition today at Pontiac General Hospital after suffering a possible fractured skull in an auto accident this morning, according to Oakland County Sheriff's Deputies.

Larges, of 3389 Westwind Dr., told deputies he was going south on South Commerce Rd. just north of Watuga St., Commerce Township, when he blacked out. His car ran off the road and overturned, said deputies. The accident occurred at about 1 a.m.

Two Boys on Bikes Hit-Run Victims

Two boys on bicycles were victims of hit-run drivers in separate accidents Saturday afternoon. Neither boy was injured seriously.

Dennis Walker, 7, of 24 Euclid St., was riding his bike on the sidewalk on Johnson street, near W. Huron, when a car coming out of an alley hit him and then sped away at a high rate of speed.

Dennis was treated at Pontiac General Hospital for bruises.

Bobby Little, 12, of 158 Lincoln St., was behind a standing ice cream vendor's truck on his street when the vehicle suddenly rolled backwards hitting his bike.

Bobby was knocked to the pavement, but the truck drove away without the driver investigating, police said. The boy was not injured.

Detroit Woman Critically Injured

Husband's Car Struck by 2nd Auto on Wet Southfield Pavement

SOUTHFIELD—A Detroit woman was injured critically last night in a two-car collision at Southfield and Mt. Vernon roads.

Taken to William Beaumont Hospital, Royal Oak, with internal injuries was Mrs. Patricia Becht, 28. She was riding in a car driven by her husband James, 25, which was struck by another driven by 17-year-old William Leddy, also of Detroit.

Leddy told Southfield Police he attempted to pass a car, lost control on the wet pavement as he tried to get back into his lane and collided with the oncoming Becht auto, sending it into the ditch.

Leddy is in the hospital with a broken leg. Becht was treated for cuts on his hand and released.

No charges have been filed yet against the youth, police said.

To Stand Trial in Tokyo Killing

American Charged With Brother-in-Law's Death From Brutal Beating

TOKYO (AP)—Joseph P. Crowley of New Haven, Conn., was indicted today for the death of his brother-in-law and partner T. A. D. Jones Jr.

The indictment accused the burly, 48-year-old ex-halfback of beating Jones while under the influence of alcohol.

★ ★ ★

Crowley was charged specifically with inflicting bodily injuries resulting in death, roughly equivalent to manslaughter in America.

Prosecutor Kenjiro Furukawa presented the indictment to the Tokyo District Court. Under Japanese procedure the court sets a date for trial before three judges. There is no jury.

Trials normally extend over many months.

★ ★ ★

The charge is the same as that on which GI William S. Girard was convicted for killing a Japanese brass scavenger on an Army firing range. Conviction can carry a sentence of 2 to 15 years. Girard got a three-year suspended sentence.

Jones, 45, was president of a New Haven fuel oil firm and Crowley is vice president. Both were football stars at Yale. Jones was the son of the late T. A. D. Jones Sr., 1907 All America quarterback at Yale and later the Eli coach. Crowley is married to Jones' sister.

★ ★ ★

Crowley and Jones came to Tokyo May 5 with Frederick M. Kissinger, a Maryland accountant, to buy an oil tanker.

Jones was found dead three days later in the Imperial Hotel suite the three men shared. The body was badly bruised.

Crowley and Kissinger admitted making a night club tour with Jones the night before his death but said they had no idea what happened to him after their return to the hotel. Crowley denied any connection with his brother-in-law's death and termed his arrest May 21 "fantastic." He has been in jail ever since.

★ ★ ★

Furukawa said Saturday Kissinger had been cleared of all suspicion.

MR. & MRS. CLIFTON E. KING

To Reside in Arlington After Niagara Falls Trip

LAKE ORION — Following their honeymoon at Niagara Falls, Mr. and Mrs. Clifton E. King will make their home in Arlington, Va.

★ ★ ★

The bride is the former Dorothy Armstrong, daughter of Mr. and Mrs. Jack J. Armstrong of North Shore drive, Lake Orion. Her husband's parents are Mr. and Mrs. Claison King of Washington, D.C.

The couple was married in an evening ceremony at the First Baptist Church, Lake Orion. Performing the rite was the Rev. Walter C. Ballagh.

The bride wore a white lace, ankle length gown of nylon net with a scalloped neckline, and a finger-tip length veil. She carried a white fan, centered with an orchid.

★ ★ ★

Attending the bride were Elizabeth King, sister of the bridegroom; Shelby Reid of Stateville, N. C., and Judy Harry of Lake Orion.

Best man was David Bradley of Washington, D.C., and ushers were Ronald L. Waite of Lake Orion and Robert Armstrong of Drayton Plains.

The reception was held in the church basement.

Donna Rae Manly Weds Navy Man in Pontiac Rite

PONTIAC TOWNSHIP—Mr. and Mrs. Leon Manly of Collier road, Pontiac Township, have annuonced the marriage of their daughter, Donna Rae, to Seaman First Class Arthur S. Bridger, son of Mr. and Mrs. Ack L. Bridger of Taylor road.

The couple was married recently at the home of the bride's parents. The rite was performed by the Rev. Theodore R. Allebach of the Oakland Avenue United Presbyterian Church.

The bride wore a floor length gown of Chantilly lace and white net over satin. It featured a sweet heart neckline. Her veil was finger tip length and she carried a colonial bouquet of white rosebuds and stephanotis.

★ ★ ★

Maid of honor was Margaret Schaila of Pontiac, and the best man was Larry Beamer, the bride's cousin, also of Pontiac.

The reception was held at the home.

★ ★ ★

The honeymoon was postponed because the bridegroom's leave was cancelled. The new Mrs. Manley expected to join her husband soon.

Dallas Man Lives to Tell How It Feels to Drown

DALLAS, Tex. (AP)—A Dallas man cheated death at Lake Lavon yesterday, living to tell how it feels to "drown."

Leroy Reed, 30, was rescued and revived after leg cramps caused him to go under 30 yards off shore.

While his wife and relatives watched helplessly from shore, the husky construction worker floundered and sank. Unidentified boatmen cruising nearby rescued him, hauled him ashore, and administered artificial respiration.

Volunteer firemen and a Texas Highway patrolman, Pat Stephens, worked for half an hour before Reed began breathing.

Reed regained consciousness an hour later.

"I was swimming along fine when all of a sudden my legs began to draw up under me," Reed said later.

"I couldn't straighten them out. I was scared. I had to fight to get my head above water. I sank anyway. I fought my way up again and shouted to my wife."

Reed said a "funny feeling" routed his panic as he sank the second time.

★ ★ ★

"All of a sudden I began feeling good. I felt good all over.

"Everything seemed good. I could feel a sort of pressure all over me. And everything seemed to be drifting back away from me. The whole world was moving back—but it felt good."

Ella Mae Reed, 22, his wife, said she watched her mate fight for his way to the surface three times more, then disappear. Reed said he remembered nothing of these struggles.

To Study Low Bids for Building Bridge

Low bidders on a state trunkline construction project to widen the M150 bridge in Rochester will be determined, June 18 in Lansing, State Highway Commissioner John C. Mackie announced today.

The present bridge, which has a 28-foot-wide roadway, will be widened to 48 feet along the east edge of the present bridge. The new structure will have 14 spans and will be of reinforced concrete and rolled beam slab.

The project also calls for widening and resurfacing of six-tenths of a mile at the bridge approaches. These will be widened to 44 feet.

He insisted he felt relaxed and I was not fighting.

CHOSEN FOR HONOR — Former Pontiac resident Jack Cooke has been named the nation's disabled working father of the year. The victim of multiple sclerosis manages a pet shop.

Ex-Pontiac Man Honored

A native of Pontiac, now of Lancaster, Pa., has been chosen the Disabled Working Father of the Year.

The announcement was made today by the National Father's Day Committee in New York. They chose Jack Cooke, 31, victim of multiple sclerosis.

Cooke was stricken at 26 in Lancaster after he had graduated om college, served in the Navy and married.

He became ill and began to see double. When he learned he had multiple sclerosis, he settled down to live a life which doctors call "spiritual therapy."

Now 31, and the father of two children, he runs a pet shop and dog-boarding kennel established by his grandfather. He is active in several civic organizations.

"One of these days they'll find a cure," Jack says. "Meantime, I've got too much to do just to sit around and feel sorry for myself."

4 Escape Serious Injury in East Boulevard Flip

Four teenagers escaped with minor injuries Sunday morning when their car rolled over on East boulevard, near Featherstone Rd.

★ ★ ★

John L. English, 19, of 57 N. Sanford St., told police his car skidded off the road on the wet pavement.

English and his passengers, Ann Whiting, 17, and Kathryn Brinkman, 18, both of 73 N. Francis St., and Edward Neaves, 18, of 784 S. Scottwood Ave., were taken to St. Joseph Mercy Hospital.

★ ★ ★

English and Neaves were treated for cuts and Miss Whiting for a muscle spasm. Miss Brinkman was not hurt.

Chain-Action Crash on Highland Hurts 2

Two people were slightly injured yesterday in a chain-reaction pile up in a long column of weekend traffic backed up on Highland road in Waterford Township.

★ ★ ★

Injured were Peter F. Espinoza, 21, of 9215 Herkimer St., Detroit, and Allan R. Olson, 19, of 6928 Hatchery Rd., Waterford Township.

Police said William J. Bellante, 21, of 1916 Lawndale St., Detroit, with whom Espinoza was riding, drove into the rear of Olson's car near the intersection of Cass Lake road.

Olson's car rammed the one ahead of it, and that car struck the rear of the next one in line, police said.

★ ★ ★

Espinoza suffered a cut leg and Olson a minor neck injury. Both were treated at Pontiac General Hospital.

RANDOLPH, Utah (AP) — Steven Rex found he had more than enough heat to warm his hands after a small fire he built ignited 12 tons of baled straw.

Toothpaste Tubes to Feed Space Travelers

Hungry? Squeeze Out a Steak

CINCINNATI (AP) — Say you're making the first rocket trip to the moon.

It's your first night out and you're hungry. You'd like a good meal. Steak, say, and some apple pie for dessert.

★ ★ ★

You can have them.

But you'll squeeze the steak out of a toothpaste tube.

You'll sip the apple pie through a straw.

★ ★ ★

And you'll have to keep a gastronomic eye on colored pictures to remind you what food looks like on earth.

That's the report from a food chain foundation in Cincinnati as the result of an informal study of the predicted situation.

"Aboard a space ship, every pound of cargo is significant," says foundation director G. F. Garnatz. "Food will have to be as light and compact as possible."

★ ★ ★

It will have to be mashed, packed in tubes or cans and fed to space travelers under pressure. After all, there won't be any gravity to keep it on the spoons.

But what about the tantalising food pictures?

A study of long-range bomber crews during World War II showed that good nutrition can be provided in compact form.

"But," says Garnatz, "if you don't put in some eye appeal, the individual is not going to have the will to eat."

They Confuse Many

COLORADO SPRINGS, Colo. (AP) —Mailmen, laundrymen and telephoning boy friends have quite a time around Colorado College. The college has two coeds with the same name — Mary Grace Rogers. Both wear glasses, have the same doctor, the same dentist and belong to the same sorority, Gamma Phi Beta. One is from Englewood, Colo., the other from Littleton, Colo.

House Debates Tariff Program

Survival Fight Shapes for Reciprocal Trade 5-Year Extension Plan

WASHINGTON (AP)—President Eisenhower's beleaguered reciprocal trade program goes before the House today with its chances of survival a tossup.

As the House prepared for two days of general debate, the bitterest floor battle in the 24-year history of the onetime New Deal trade promotion act was in prospect.

ASKS 5-YEAR EXTENSION

Eisenhower has asked a five-year extension of the program after it expires June 30, along with authority to lower U.S. tariffs another 25 per cent in return for trade concessions by other countries to the United States.

★ ★ ★

When it was last extended two years ago, the program escaped sudden death in the House by a single vote.

★ ★ ★

This year, with opposition to low tariff foreign imports intensified by the business recession, protectionist forces have picked up allies in both the Republican and Democratic ranks.

The strongest opposition comes from the President's own party. But the Democrats, traditionally its strongest defenders, have lost heavily as members representing coal, textiles, minerals, oil and small business interests have swung against the program.

Rep. Richard M. Simpson (R-Pa), leader of the protectionist forces, predicted the outcome will turn on as few as 20 or 30 votes.

Per Capita Food Bill Up

NEW YORK—According to the Grocery Manufacturers Assn., the nation's per capita food expenditures for 1957 totaled $440, an increase of $16 over the 1956 figure, and are expected to reach $455 this year.

Ranks of Retarded Increasing in Future

ANN ARBOR (INS) — Two of the nation's top psychologists say the total number of mentally retarded children will probably increase in the U.S. "during the foreseeable future."

Prof. Max L. Hutt, of the University of Michigan, and Robert G. Gibby, chief of the clinical psychology service at the Veterans Administration Neuropsychiatric Hospital, Marion, Ind., made the statement in their new book, "The Mentally Retarded Child."

The authors gave two main factors for the increase. They are:

—Rapid expansion of the general population, which will produce more mentally retarded children even if their proportion in the population remains constant, and,

—"Advances in medical science which enable some children to survive illnesses which may leave brain damage as an after-effect and others to live despite physical injuries which may affect mental function."

Fleet Training Could Be Real

Mediterranean Convoy May Get Rescue Call at Troubled Nations

WITH U.S. 6TH FLEET, Off Dikili, Turkey (AP)—Major units of this mighty Mediterranean fleet assembled off the Turkish coast today to train in rescuing Americans from the turbulent countries of the Middle East.

The heavily armed amphibious force of Marines, backed up by sailors and naval airmen, are practicing for duty they might face at any moment.

★ ★ ★

If the crisis deepened in Lebanon, only 12 hours steaming to the south, the U. S. could switch from training to the real thing. The fleet is currently reinforced by 18 ships over the usual 50 and by double the usual complement of 1,800 Marines.

At dawn, transports, warships and landing ships maneuvered around the Greek island off Lesbos for a landing near Dikili.

★ ★ ★

The amphibious task force was backed up by the cruiser Des Moines, the 6th Fleet's flagship, its sister ship the Salem and a screen of destroyers to give gunfire support.

Farther out to sea lay the carriers Saratoga and Essex to lend air cover with nearly 200 planes —including jets capable of carrying nuclear bombs.

★ ★ ★

A third carrier, the Wasp, was part of the reinforcements. It carried helicopters for Marine landings five miles inland.

One of the day's problems was to establish a beachhead on two miles of coast and control an area within a 25-mile radius by artillery, planes and gunfire.

After the exercise, the bulk of the fleet leaves for a visit to Greek and Turkish ports — still only about a day's forced sailing from smouldering Lebanon.

Michigan Drivers Buying Lower Priced Autos

LANSING (AP) — A state official says a study of state sales tax collections on automoiles indicates Michigan people are buying lower cost cars rather than "upgrading."

★ ★ ★

Secretary of State James M. Hare made a comparison of revenue and item turnover for the first five months in each of the last four years.

He found the sales tax per vehicle sold in the 1955 period averaged $47.97 compared with $45.55 for the first five months of this year. He said this indicated buyers were paying an average of $81 less for each car sold.

Gross tax receipts on 480,973 items sold in the 1955 period came to $23,070,212, he said, whereas in the corresponding 1958 period tax on sales of 305,512 items yielded only $13,926,136.

Macmillan Asks Closer Economy

Cites Free World Need for Independence to Combat 'Danger'

INDIANAPOLIS (AP)— British Prime Minister Harold Macmillan appealed yesterday for closer economic ties between his country and the United States.

In a nationally televised commencement address at De Pauw University at Greencastle, Ind., the Prime Minister said, "There are still too many artificial barriers to the free flow of money and trade in the free world."

★ ★ ★

Now that "we all face a common danger," Macmillan said, interdependence must be the "keynote of the second half of the 20th century if the progress of humanity is to continue."

The Prime Minister goes by plane today to Washington for an informal conference with President Eisenhower and Secretary of State John Foster Dulles.

In a 21-hour sweep through Indiana official and social affairs, Macmillan emphasized these things:

★ ★ ★

1. He considers Gen. Charles de Gaulle, France's new premier, a friend and hopes France will solve many of its problems under De Gaulle's leadership.

2. "Prosperity is not indivisible; there are too many artificial barriers to the free flow of money and trade in the free world."

3. Russians are "very intelligent people (who) will not be content forever with what is called the materialistic doctrine."

4. "In the long run, the free world will defend itself and win adherence to itself because our way of life gives a better way of living, a fuller life to the individual, security and hope."

★ ★ ★

The official reason for Macmillan's visit was to address the graduating class at De Pauw, 40 miles west of Indianapolis, and to receive an honorary doctor of laws degree.

He visited Indiana almost two years ago, before he was premier, to tour the neighborhood where his mother, the late Helen Artie Belles Macmillan, spent her girlhood.

★ ★ ★

Macmillan was greeted with affection and applause wherever he appeared in the Hoosier State.

Two-thirds of all clerical workers in the United States are women, reports the U. S. Department of Labor.

Building Dip Misses 'Luxury' Home Field

WASHINGTON — Officials of the National Assn. of Home Builders say there has been no decrease in the construction of luxury houses ($25,000 or more), although home building throughout the nation dropped about 10 per cent in 1957 from 1,100,000 new homes started the year before.

Three-quarters of the earth's surface is water.

Pick New York Woman Tops in Advertising

DALLAS (AP) — Miss Margot Sherman, the top woman in a New York advertising agency, yesterday was picked as the top advertising woman of the year at the national convention of the Advertising Federation of America.

Miss Sherman, who in private life is the wife of Charles D. Peet, a New York lawyer, and is the mother of two children, is a vice president of McCann-Erickson, Inc.

The convention's first general session was to be held today.

National Flag Week Opens With Ceremonies

BALTIMORE (AP)—Ceremonies at the Star-Spangled Banner Flag House here yesterday opened National Flag Week.

The Flag House is on the site of the home occupied by Mrs. Mary Young Pickersgill, who made the flag that inspired Francis Scott Key to write the national anthem.

The 30-by-42 foot flag contained 15 stars and 15 stripes. It flew over Fort McHenry during a bombardment by the British fleet Sept. 13-14, 1814.

Boston Sweeps Pair From Chisox

Indians Club Yanks Twice

By THE ASSOCIATED PRESS

There is a palace revolution in the American League! Three teams are over .500. The new rebels are the Boston Red Sox, who finally are making a move.

By taking a pair Sunday from Chicago—thus dumping the White Sox into a last-place tie with the Detroit Tigers — the Red Sox stretched their modest winning streak to five.

★ ★ ★

With Jackie Jensen hitting two homers, including a two-run blast in the 10th, Boston took the opener from Chicago 6-5. A pair of two-run homers by Jim Piersall and Gene Stephens boosted them to a 4-1 sweep. Boston moved within eight games of first place.

This combination of events and Cleveland's two victories over the leading New York Yankees, 14-1 and 5-4, made the league standing a bit more respectable.

Kansas City also picked up one game on the Yankees and now trail by 7½ after splitting with Baltimore. Hal Brown and George Zuverink teamed up to hand the A's their first shutout of the year in the opener 4-0. But Kansas City managed an even break winning the second 2-1 with only five hits.

Despite home runs by Gus Zernial, Frank Bolling and Billy Martin of the Tigers, Washington sneaked home with a 4-3 decision for Pedro Ramos.

★ ★ ★

The Red Sox are getting a reputation as come-from-behind-kids. They rallied in all four games against Chicago in their series sweep. Don Buddin, Dick Gernert and Jensen all had hit homers off Billy Pierce before Jensen again connected with one on in the 10th.

Boston had only five hits while Chicago had 19 in defeat, including five by Billy Goodman. Leo Kiely was the winner. Bubba Phillips, Chicago third baseman, suffered a foot fracture and will be out for three or four weeks.

★ ★ ★

Piersall and Stephens, Ted Williams' replacement, did the heavy work while Dave Sisler held Chicago to six hits in the second game to hang a seventh defeat on Dick Donovan.

Rocky Colavito was the big man for the Indians with a double, triple and homer in that 19-hit attack in the opening game with the Yanks.

★ ★ ★

Johnny Kucks, knocked out in the first inning, became a two-time loser for the day when Russ Nixon hit a home run off him on relief in the seventh inning of the second game. Colavito also hit a two-run homer in that second contest.

★ ★ ★

Ray Narleski and Dick Tomanek were the Indian winners before 40,903, the largest crowd of the year at Yankee Stadium. Among other Yankee misdeeds, Mickey Mantle dropped a fly ball for a three-base error that opened the door for Cleveland to score five times after two were out in the third inning of the weird opener.

★ ★ ★

The Orioles' Brown made his first appearance since April 23 when he fractured his right thumb. He allowed four hits in six innings before giving way to Zuverink, who slugged a two-run triple. Bob Martyn's throw cut down the potential tying run at the plate to save Kansas City's 2-1 margin in the eighth inning of the second game.

Possible Deals Mentioned With Red Sox, Tribe

Cleveland Makes Bid for Martin as Detroit Rests in Cellar

BOSTON (UPI) — The Detroit Tigers open a four-game series with the Boston Red Sox tonight and with the arrival of the Bengals came rumors of a possible trade.

General manager Johnny McHale of Detroit was scheduled to join the team at Boston this week, raising talk of a deal with the Red Sox.

The Cleveland Indians are reported bidding for the services of Billy Martin. The Tribe wanted to get Martin before, but Detroit snagged him in the 13-player trade with the Kansas City Athletics.

Reports say Cleveland is offering veteran Chico Carrasquel and one other player for Martin. However, Martin is the only regular picked up in the deal with Kansas City and the Tigers may not be willing to part with him.

★ ★ ★

In the American League race the Tigers found themselves in last place again today.

The Bengals hit three home runs yesterday but all came with the bases empty as the Washington Senators scored a 4-3 victory to tumble Detroit into a tie with Chicago in the cellar.

★ ★ ★

Detroit was trailing 2-0 when Gus Zernial hit a pinch homer in the seventh followed by another four bagger by Frank Bolling. It was Zernial's third pinch homer of the season and gave him a total of nine for his career, tying the Major League mark held by Cy Williams, Ron Northey and Bobby Hofman, all National Leaguers.

The Senators came up with two runs in their half of the seventh, then Billy Martin hit a lead-off homer in the 9th. Pedro Ramos got the victory but left after Martin's homer. Dick Hyde hit his seventh homer for Washington. Bolling hit his fifth, Zernial hit his fourth of the year and Martin his third.

George Susce started for the Tigers and gave up an earned run in the first. Herb Plews singled and Albie Pearson sacrificed. When Susce threw wild to first, Plews continued to third. He later scored on an infield out by Clint Courtney.

★ ★ ★

Lemon's homer made it 2-0 in the sixth. Then Detroit tied it up in the seventh on its two homers. In the home half, Ken Aspromonte greeted Tom Morgan with a double. Ossie Alverez ran for him and was sacrificed along. Hank Aguirre came in and walked Eddie Yost, batting for Plews, and Pearson, filling the bases. Frank Lary took over. Roy Sievers' long fly scored Alvarez. Courtney singled in Yost. Morgan was the loser.

Fires His Second Ace

Keith Kingsley, vice-president at Chrysler Motor, fired his second ace in four years at Pontiac Country Club yesterday. Playing with Dick DeWhitt, Merle Mathews and Dick Robertson he used a 6-iron on the 135 yard second hole for the ace. He had a hole-in-one three years ago on the 11th at PCC. He shot an 80 yesterday.

Pontiac Racer 3rd in 100-Mile Event

DETROIT (UPI) — Dick Carter of Breckenridge, Mich., won the 100-mile race for modified cars at the state fairgrounds yesterday with an average speed of 81.02 miles an hour.

The race was called at the end of the 97th lap, when Carter held a two lap lead, because of rain. In the 100-mile spring car race, held after the rain had passed, Johnny Roberts of Saginaw won with an average speed of 84.40 miles an hour.

Chuck Partello of Pontiac finished third behind Carter and George Roberts in the modified race.

Whip Braves Again; Drabowsky Hurls One-Hitter

Dodgers Keep Giants in First

By THE ASSOCIATED PRESS

Does anybody still think the Dodgers made a mistake moving to Los Angeles?

Walter O'Malley is so busy these days, carting money to the bank, that he doesn't even have time to stop and count it. This was the week O'Malley hit the jackpot.

★ ★ ★

Within the last seven days O'Malley has seen victory in the Chavez Ravine referendum, and a refreshing surge by his Dodger ball club. By beating Milwaukee Sunday 12-4, they made it five in a row over the Braves this year and seven straight counting their last two meetings last season.

That isn't half the story. The three-game series with the Braves drew 171,326, a National League record. In 27 home dates, the Dodgers have pulled 810,151 into the Coliseum. This is 157,379 ahead of last year's record pace at Milwaukee when the Braves played before 2,215,404 at home.

★ ★ ★

The Dodgers lent a helping hand to their old neighborhood enemies, the Giants. By beating Milwaukee, the Dodgers helped the Giants stay in first place, despite San Francisco's 6-3 defeat by Cincinnati.

Los Angeles failed to climb out of the cellar, however, when Philadelphia finally edged St. Louis 6-4 in 14 innings after dropping the opener 6-5 in 10 innings. Harry Anderson's third homer of the day with a man on in the 14th saved the Phils from the basement.

★ ★ ★

Moe Drabowsky of Chicago pitched a one-hit shutout against Pittsburgh, winning 4-0 with the help of homers by Ernie Banks and Walt Moryn. The only hit off Moe was a broken bat single by Ted Kluszewski in the second inning. This first game of a scheduled doubleheader was delayed by rain and the second was called off because of rain and darkness after a half inning.

Johnny Podres gave up 11 hits to the Braves before 57,122 at Los Angeles but it didn't matter. The Dodgers clubbed loser Gene Conley and three successors for 19. Conley now is 0-5 for the year.

Birdie Tebbetts did some fancy master-minding at San Francisco where his Cincinnati Redlegs finally pulled one out with three in the ninth.

★ ★ ★

With the score tied at 3-3, and Steve Bilko up and two strikes on him, Tebbetts sent up Smoky Burgess as a pinch hitter. Marv Grissom hit Smoky with a pitched ball, forcing in the tie-breaking run as Tebbetts charged he deliberately threw at his man. Don Hoak's single added the extra two. Willie Mays was hitless for the second straight day as Brooks Lawrence went the distance for his third victory.

★ ★ ★

Anderson hit a single, double and two homers in the first game for the Phils but St. Louis won on Del Ennis' sacrifice fly after three walks in the 10th. Anderson took matters in his own hands in the second with his two-run blast in the 14th after the Phils pulled even with two in the eighth and two in the ninth.

Banks hit his 17th homer and Moryn his 12th off loser Ronnie Kline while Drabowsky was doing a job on the Pirates. In addition to Klu's single, three others reached base, one walked and two made it on errors.

Bada-Wasik Win City Best Ball Tournament

When two city golf champions pool their talents for a best-ball tournament, the rest of the gang can expect a heap of trouble.

That's what happened Saturday at Pontiac Municipal golf course. Two champs got together and 37 other teams trying their luck had more competition than they could handle.

Paul Bada, the par-busting redhead who took the city crown last year, and Ed Wasik, city titleholder in 1955, joined forces Saturday to win the annual City Best-Ball Championship.

Bada and Wasik combined for a blistering 31-31—62, seven under Municipal's par 34-35—69, to defeat their nearest rivals by two strokes.

Dick DeWitt and Tom Thum fired a sparking 18-hole score of 32-32—64 to capture runner-up honors.

"The Bada-Wasik tandem never went over par and seven birdies were penciled on the scorecard, four on the south side. Six "birds" came in pairs—numbers 3 and 4, 9 and 10, 17 and 18.

It's the 2nd straight time that Wasik has shared best ball laurels. He teamed with Ron Rothbarth to win the title last summer.

Butler Cooper and Walt Latozas shot 31-34—65 to take 3rd place and the team of Bob Irgrigg and Rube Wideman carded 36-31—67 for 4th spot. Bill and Jim Pembroke came next with 68, followed by five teams at 69.

Trophies were awarded to the winners and runners-up while top-grade golf balls went to the 3rd and 4th place teams.

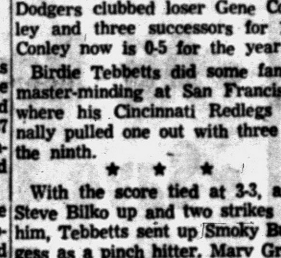
Doctoring Your Golf

By DR. CARY MIDDLECOFF

PATIENT'S COMPLAINT: Too Much Roll on Pitches.

DIAGNOSIS: Crispness Lacking.

Treatment: A crisp downward blow with the clubhead contacting the ball on the underside is the way to put backspin (underspin) on the ball and cause the shot to stop quickly after it hits.



6-9

Many players go wrong in this situation by trying to be too delicate with the shot. They try to make their hands do the job that should be left up to the clubhead — a common fault on short shots.

Backspin is put on the ball as it rolls up the clubface and makes contact with the grooves set in the face of the club. Deeper and wider grooves in the face of the club would make far more backspin, of course; but the depth and width of these grooves are regulated by USGA rule. It's illegal to make these face markings deeper or wider.

What you can do, however, is make sure that the grooves are free of dirt or grass before you attempt the shot; it will help greatly in getting backspin. A wooden tee is a handy and generally available tool for cleaning these grooves out before shooting.

Mickey Wright Ladies Winner

Earns $1,247 With 288 Score; Crocker's 294 2nd Best

PITTSBURGH (AP) — Mary "Mickey" Wright is a golfing perfectionist and she has the 1958 Ladies PGA title and a $1,247 check to prove it.

★ ★ ★

The 23-year-old streamlined blonde from San Diego, Calif., who won one of women golf's major titles yesterday with a 72-hole total of 288, wasn't satisfied with her swing though holding a four-stroke lead after 54 holes.

★ ★ ★

Fay Crocker, whose New England ancestors introduced golf in Uruguay, shot a 6-over-par 76 on the final round for 294 and second money of $961.40.

The best round of the four-day medal event was a 67 posted yesterday by Jackie Pung, a Hawaiian playing out of San Francisco, which established a women's record for the course.

Racing Near End for Tim Tam

Fractured Leg Is Found After X-Rays Taken

Mishap Costs Calumet Farms Triple Crown in Belmont Loss

By THE ASSOCIATED PRESS

Tim Tam, the Calumet Farm's Kentucky Derby and Preakness winer who suffered a bone break and lost the Belmont Stakes Saturday, may be permanently retired from racing.

★ ★ ★

That was the opinion today as the flashy son of Tom Fool rested in his barn at Belmont Park, awaiting a final decision by trainer Jimmy Jones and owner Mrs. Gene Markey, who is in Europe.

The colt, who was beaten 6 lengths by Irish-bred Cavan in the mile and one half race won't be seen for some months. Jones said X-rays of Timmy's right front leg disclosed a break in the sesamoid bone which is between the ankle and hoof.

Tim Tam's mishap, which may have cost Calumet its third Triple Crown and racing a chance to hail a ninth winner of the coveted Derby-Preakness - Belmont grand slam, was the highlight of an active day on the thoroughbred front.

Tim Tam and Cavan, owned by Joseph E. O'Connell of Boston, moved together on the final bend in the Belmont. Just as they turned into the home stretch, Tim Tam slackened speed and Cavan drew away and won easily.

★ ★ ★

Cavan, ridden by Pete Anderson, paid $11.80 and collected $73,440 from the $114,600 purse. Tim Tam, who had won two other $100,000 races in addition to the Derby and Preakness—the Flamingo and Florida Derby—was the 3 to 2 favorite. Ismael Valenzuela, who rode Tim Tam, said the injury probably occurred at the top of the stretch, about a quarter-mile from home.

Sees Dad Pitch but Then Winds Up in Hospital

SAN FRANCISCO (AP) — Bruce Grissom came to the ball game to watch his dad Marv pitch, and wound up in St. Luke's Hospital with a broken nose and black eye.

Bruce, 8½ years old, was hit on the nose by a foul off Giant Hank Sauer's bat in the last of the ninth inning of yesterday's San Francisco Giant - Cincinnati Redleg game.

Marv pitched the last 1⅓ innings and drew the loss in the 6-3 game. His wife and son were sitting behind the dugout. The boy was taken to the first aid station while Marv hurriedly changed clothes.

Dr. G. D. Delprat said Bruce would be hospitalized for several days.

Baseball Is 'Beizbol'

Even Poor Interpreter Can't Understand Casey

NEW YORK (AP) — Remember how the Russians used to claim they invented baseball?

"Beizbol," they called it.

Baseball or beizbol, four Russian engineers from Moscow put in an appearance at the Yankee Stadium yesterday to see the doubleheader between the New York Yankees and the Cleveland Indians.

Apparently they were unimpressed because they left after the first game. But since the Indians won it, 14-1, the Russians were not alone in heading for the exits.

★ ★ ★

The four — Gennady Krukov, Nickolia Elshin, Nickolia Festa and Vasili Tomachinski—all are in town for a scientific exhibition and they decided they'd like to take in a game. They were accompanied by Tomachinski's 8-year-old son, Vladik.

Before the game, they were taken on a tour by Manager Casey Stengel and he explained the game to them through an interpreter.

Now, this was indeed a sight to behold because the Yank manager Natchalnik in Russian is a tough man to understand even when speaking in his purest English. Even with an interpreter, it wasn't too long before no one knew what anyone was talking about.

★ ★ ★

The interpreter gave up, and the Russians simply kept smiling and nodding while Stengel rambled on.

It turned out that the Russian language is missing some translation for struck out, so it had to be "three staff."

Then, there was the little consideration of a dropped fly. The word for that is "oshipka." As for home runs, loaded bases and the like, no dice, so the Russians were left in the dark.

★ ★ ★

Just to add to the confusion, Stengel, always the gracious host, invited the entourage to the press room for a shot or two of vodka. They showed up as promised, but alas, there was no vodka around, so they settled for beer.

City Team Wins Amateur Opener

Shaw's Wallop Saginaw Entry 12-6 Scoring 7 in First Inning

Shaw's Jewelers got off to a good start in the reorganized Michigan State Amateur Baseball League yesterday by hammering out a 12-6 victory over Saginaw at Wisner field.

Herm Bishop and Jim Jones divided the mound chores for the Pontiac nine with starter Bishop getting credit for the triumph.

A 7-run 1st inning clinched the verdict early for Shaw's. The locals put together a double by Terry Thomas, singles by Jones and Ernie Zubilic, five walks and two wild pitches in the big rally.

Hal Trott walloped a triple and two singles to pace the 12-hit Shaw's attack. Ron Spica of Saginaw had the only home run.

Gonzales Completes Tour With 51st Win

LA JOLLA, Calif. (AP)—Pancho Gonzales wrapped up the 1958 pro tennis tour with a 6-2, 6-2, victory over Lew Hoad.

It was the 51st Gonzales win in the 100-match series. He lost 36 times to his Aussie adversary. It marked Pancho's fourth tour triumph, which ties him with promoter Jack Kramer for all-time honors.

Doubles Team Loses, Maple Netters 5th

KALAMAZOO (AP) — The Birmingham doubles team of Tom Watson and Jeff Crawford was eliminated in the semifinals by a Holland duo Saturday on the final day of the State High School Tennis Tournament.

The Maples wound up 5th in the point standings as Hamtramck won its 10th straight Class A title despite a gallant bid by Holland. Dearborn ranked 3rd and Mt. Clemens 4th.

Cranbrook finished 3rd in Class B as Kalamazoo University High repeated easily. Muskegon Christian won C-D honors.

Teeing Off

By BILL CORNWELL

Mike Andonian, the Pontiac Central High School mathematics teacher who shoots par for a hobby, hopes to occupy a unique spot in the Michigan Publinx Golf Association two weekends hence.

This weekend and next the state publinx tournament will be held at Pontiac Country Club and Mike's burning ambition is to win the championship for the third straight year.

No Michigan publinx link golfer has ever won the title three times in succession. Jay Law of Detroit annexed three crowns during the last decade, but they came on alternate years.

Only one public links player — Ziggy Zawadski — can equal Andonian's feat of winning the crown twice in a row. Zawadski won the championship in 1939 and 1940.

Art Pomy and Jack McGivern also own two titles apiece, but neither golfer could collect them on consecutive years.

Law, who returned to his native Scotland this spring to enter the British Amateur at St. Andrews, bagged state publinx championships in 1943, 1945 and 1947.

Andonian, who deals with higher numbers in his classroom at PCH but tries to avoid counting above 72 on the golf course, will have his work cut out for him over Frank Syron's 18-hole links.

ANDONIAN

The competition is bound to be strenuous and the odds against his repeating are heavy. It would be wise, however, not to count him out just yet.

Steadiness usually wins golf tournaments and steadiness is Mike's stock-in-trade. He was a pattern of consistency in 1956 and 1957 when he nailed down state honors at Saginaw's Rolling Green Golf Club.

Andonian proved his versatility, too. Two summers ago he topped the field in medal play. Last year the MPGA switched to match play and Mike responded by conquering the field again.

His victim in the 1957 title round was Pontiac's Roy Iceberg, a friend and former golfing teammate at the U. of D. Iceberg, the 1952 state champ, will be back once more, along with hordes of others eager to dethrone him.

Mike wants to invade Law's privacy as a three-time winner. Better still, he'd like to do it three times running.

SHORT PUTTS

Law, who lost in the first round of the British Amateur, had hoped to "kill two birds with one stone" during his visit to Scotland by competing in the British Open June 30-July 4 in England.

Jay was doomed to disappointment, however. Only scratch players are permitted to enter the Open and Law carries a one-stroke handicap.

The Flint Open, scheduled June 19-22 at Warwick Hills near Grand Blanc, will offer a total purse of $52,000 and a $9,000 jackpot for the champion. Needless to say, the pros will be there in strength.

Error Beats Cranes

An error let in the only run of the game as Cranbrook dropped its final baseball contest 1-0 to Taylor Center Saturday. Loser Larry Demrick allowed just three hits while his mates got six. A single and passed ball preceded the costly error. Cranbrook finished with a 10-10 record.

Bill Hyndman Takes Sunnehannah Tourney

JOHNSTOWN, Pa. (AP)—Standing off a determined challenge by Ed Brantly of Signal Mountain, Tenn., Bill Hyndman of Abington, Pa., yesterday won the Sunnehannah Amateur golf tournament by one stroke.

Hyndman, a member of the 1957 Walker Cup team, finished the 72-hole three-day grind at the Sunnehannah Country Club with 69-69-72-72—280. Brantly carded 69-70-69-73—281.

Pockets $3,500 After 4-Man Playoff

Snead Dallas Open Champ

DALLAS (AP) — Sam Snead was so anxious to get to the scene of the National Open — where he'll make his eighteenth try — that he almost went off without his check for winning the $25,000 Dallas Open yesterday.

Snead took $3,500 first money here for the second year in a row when he won a playoff with Julius Boros, Gary Player and John McMullin.

★ ★ ★

Snead was winning his second tournament of the year when he grabbed first money in the Dallas Open yesterday. Previously he had taken his own tournament—the Sam Snead Festival at White Sulphur Springs, W. Va. He has played in five tournaments this year and won $8,820, and he has the lowest stroke average in golf—a gaudy 69.20 in 20 rounds.

Snead shot a closing 1-under-par 69 to tie McMullin, from Fair Oaks, Calif.; Boros, from Mid Pines, N.C., and Player, from Johannesburg, South Africa, with 272 for 72 holes.

★ ★ ★

In the sudden death playoff, Snead made short work of his rivals. He banged in a 15-footer on the first extra hole for a birdie and Player and Boros took pars, while McMullin didn't even putt out when he saw he could get nothing better than a par.

The money-winners:

Sam Snead, $3,500 Sulphur Sp, W. Va.	67-67-69-69—272
Gary Player, $1,800 South Africa	66-66-72-68—272

Seven players got at least two hits as the Commerce Drive-In women softballers waltzed to a 24-3 decision over Costello in the only Sunday game played.

Billie Snell walloped a home run and two singles and pitcher Jackie Thrasher a triple and two singles in the 18-hit parade.

The All Stars were awarded a 7-0 forfeit triumph over Michigan Bell when the latter team failed to appear.

Cubs Recall Hurler

CHICAGO (UPI)—Right hander Johnny Briggs, with the club at the start of the season, joins the Chicago Cubs today after being recalled from the Fort Worth, Tex. farm club in the Texas League. Briggs compiled a 2-1 won-lost record with the Cats and in his two most recent starts struck out a total of 23 batters.

Pontiac, County Schools Rule Meet of Champs

Pontiac had four firsts and set a record and Farmington hurdle specialist Warren Cawley won the outstanding athlete award as Oakland County thinclads dominated the 3rd annual Champion of Champions Invitational at Kalamazoo College Saturday night.

Bob Manning beat out Lake Orion speedster Jim Drake in winning both the 100 and 200 dashes. Pontiac's 880 and medley relay teams triumph with the medley group setting a meet record and bettering the state high in 2:27.8.

Cawley won both hurdle races setting a meet record in the highs in 14.6 seconds. Tom Underhill of South Lyon won the 880 while Frank Fink of Walled Lake gained a 2nd in the pole vault reaching 12 feet, three inches before suffering a sprained ankle.

The winners were:

High hurdles—Cawley, 14.6
100—Manning, 10.1
Mile—Bashaw (Lincoln Park), 4:36.3
440—Jarroun (Det. Thurston), 52.1

Hollywood Headlines

Karl Malden Gallops Way Into Big Western Film

HOLLYWOOD (AP) — Karl Malden is going Western with a vengeance.

Not only is he learning to ride a hoss, he's even thinking of settling out hyar.

★ ★ ★

Horse riding is one thing they don't teach at the Actor's Studio, of which Karl is one of the most distinguished alumni (Oscar '51, "A Streetcar Named Desire"). So he's out on the Warner Brothers back lot daily, learning how to look convincing in the saddle.

Fact is, Karl wasn't a member of the horsey set in Gary, Ind., where he was known as Mladen Sekulovich. Nor has he felt a need to learn horsemanship until now. But he has been cast in "The Hanging Tree," a rip-snorting Western.

Karl plays the heavy. You can tell he's the heavy because he wears a mustache. Gary Cooper plays the hero. No need to explain how you can tell that.

"I was in one other Western, 'The Gunfighter,' a classic that was ahead of its time," he explained. "But I was lucky. I played the bartender and I never had to get on a horse."

Malden admitted that he and his wife are thinking of settling in Hollywood. They have been holdouts for the New York city life, but are being won over by California. The move makes sense, since Karl has sometimes averaged nine months away from home per year on picture-making assignments.

★ ★ ★

Not only is he in demand as an actor. He also made his mark as director of Richard Widmark's successful "Time Limit." I asked him about reports of dissension between him and Widmark on the film.

"I have two brothers and I've had tougher fights with them," Malden remarked. "The differences between Dick and me were the natural ones that arose over interpretation of a script. It was complicated by the fact that I was directing the star who was also the producer."

Karl has rented a Westwood house and the Maldens and their two daughters will stay here through the summer and perhaps after. There is a chance he will do another Western, this one with Marion Brando.

★ ★ ★

He added that he has had many other offers to direct movies, and most of them have been Westerns.

And for a guy who is just learning to ride a horse!

High Court Meeting to Decide Big Cases

WASHINGTON (UPI) — The Supreme Court meets today to hand down decisions on some of the 40 or more cases it is expected to rule upon before recessing for the summer.

The court originally had hoped to complete its work today. But it is unlikely now that it can recess before June 23, if then.

Important issues up for decision include:

Alabama's ouster of the National Assn. for the Advancement of Colored People for refusing to produce membership lists; the right of the Secretary of State to refuse passports because of alleged communist party membership; and the validity of "hot cargo" labor contracts, under which workers cannot be required to handle non-union or struck goods.

In the geological past, says Dr. J. Wyatt Durham of the University of California, the tropical climates of the earth extended from southern Alaska to southern Chile.

Silent Star Succumbs; Death Cause Undisclosed

HOLLYWOOD (AP) — Funeral arrangements are pending for Lloyd Hughes, a star of silent and early day talking pictures.

★ ★ ★

Hughes, 60, died unexpectedly Friday. The cause of death was not disclosed.

★ ★ ★

In the silent era, Hughes co-starred with Mary Pickford in "Tess of the Storm Country."

He leaves his widow, ex-actress Gloria Hope, a son and a daughter.

About 85 per cent of the nation's butter is produced by 15 states, the leaders being Minnesota, Iowa, Wisconsin in the midwest, and California and Washington in the far west.

Saves His Own Baby

OKLAHOMA CITY (AP)—John Eddleman, Oklahoma highway patrolman, was given a routine assignment—rush a child who had swallowed poison from Lindsay to Oklahoma City. The child turned out to be Eddleman's 13-month-old daughter, Nancy. He made the 60 mile trip in 45 minutes. Nancy, who got into some roach poison, was reported in excellent condition.

Engineering Editors Predict:

Two-Deck Highways in 2,000 A.D.

By EDWARD COWAN

WASHINGTON (UPI) — America in the year 2000: Double deck highways, urban streets reserved for pedestrians only, homes and factories deriving electricity from the sun, the skyscraper giving way to wide, low buildings with landscaped courts.

★ ★ ★

Such will be life at the turn of the 21st century as pictured today by eight editors of architectural, engineering and construction magazines.

"The nobility of the city will return, as originally conceived by the great planners of the Renaissance," one editor forecast. "No longer will the cities be 10 per cent grandeur and inspiration and 90 per cent confusion and despair, as they are at present." Instead, "spaciousness, urbane orderliness, animation and color" will prevail.

That and the other predictions will be sealed by Vice President Richard M. Nixon tomorrow in the cornerstone of the new headquarters building of the Associated General Contractors of America.

★ ★ ★

At the end of the century the documents will be removed and their authors' vision tested against the time.

Urban auto traffic and public transit facilities underground or elevated, leaving surface thoroughfares exclusively for pedestrians. Communal life will return to the streets, as in medieval times.

Inter-city highways will have two tiers—one for cars and one for trucks.

Replacing mid-20th-century suburban housing projects "that will have become slums" will be one-story houses on spacious lots, with interior lighting as bright as day. One-way glass will afford both complete privacy and a full view of the outdoors.

★ ★ ★

Electricity to run household appliances and factory machines will be generated by harnessing sunlight, which will prove to be an even cheaper source of power than atom-splitting. Each house, factory, church or other building will have its own power plant, converting sunshine in electricity.

These techniques will lead to a thousand-fold increase in the nation's consumption of electricity. The average family will use 10 times more than today, with household illumination possible in a variety of colors.

Every structure will have "blast resistant cores which will protect the inhabitants against storms, man-made blasts and other disasters."

Wants His Wife Back, Sets Her Cabin on Fire

ZEBULON, N. C. (AP)—Police said tenant farmer Albert Cheatham, hoping to win back his estranged wife, poured a gallon of oil in her cabin and set fire to it.

When Cheatham tried to flee, officers related, he caught his pants on a nail in the burning cabin. He got free minutes before it collapsed.

The wife was not home at the time. Cheatham, hospitalized with second and third degree burns, was charged yesterday with arson.

Methodist Men to Meet Friday

Vacation Bible School Classes June 16-27, Rev. Paul Hart, Leader

Laverne Cox will present "Life Adventure", when the Methodist Men hold a dinner meeting at 6:30 p.m. Friday in First Methodist Church, Judson at South Saginaw.

★ ★ ★

"An Interracial Experience" will be the topic of a talk by Gary Knaus.

Following reports by Ben Church and Chester Arnold, a film strip on the life of Albert Schweitzer will be shown.

Daily Vacation Church School will begin June 16 and continue through June 27. Classes are scheduled from 9:30 a.m. to noon. The theme is "Jesus."

The offering brought by the children will go toward the Michigan Migrant Project. A parent visitation period will be held on the closing day.

★ ★ ★

Assisting the pastor, the Rev. Paul T. Hart, will be Mrs. Norman Todd, Mrs. Ethel Proffitt, Mrs. Howard Crawford, Mrs. Paul Hart, Mrs. Thomas Humphrey, Mrs. David Livingstone and Mrs. John Trerise.

New Paging Device Called Ticklish

FLINT (AP) — General Motors AC Spark Plug Division has developed a paging device with ticklish possibilities.

★ ★ ★

It's an electronic system using a small radio receiver carried in the breast pocket of shirt or suit coat. Instead of receiving voice signals the receiver vibrates in the pocket.

AC says it is especially useful in industrial plants and large enclosures where other sounds interfere with public address systems or bell signals.

★ ★ ★

The device operates at frequencies below radio broadcasting systems. Each receiver is transistorized and battery-operated. A total of 380 receivers can be operated from each master control console.

Oils, Coppers, Rails Gainers

NEW YORK (AP)—The stock market nudged ahead in moderately active early trading today.

Leading issues were mostly up by fractions, some rising around a point. There was a broad scattering of small losers and unchanged prices.

★ ★ ★

A few oils, coppers, rails and selected issues made the best showing.

Richfield Oil jumped 1½ at 80 on an opening block of 1,200 shares. Kennecott advanced a point. Southern Railway, Illinois Central and Baltimore & Ohio gained fractions.

Weekend news was fairly good. Steel producers expect June output to reach a high for 1958 and Congress was expected to adopt legislation aiding the railroad industry.

★ ★ ★

A government report, however, reported business outlays for new plant and equipment for the first three months this year was $4,400,000,000 below the year-ago rate.

U. S. Steel, General Motors, Boeing, United Aircraft, Allied Chemical and Phillips Petroleum rose fractionally. American Telephone, Anaconda, Standard Oil (New Jersey) and Chrysler were firm.

Crocs 'on Hoof' Worth More Than Hides

PORT MORESBY, New Guinea—Plenty of money is being made by crocodile skin hunters in New Guinea, Port Moresby reports, but some people think the crocs might be worth even more "on the hoof."

A large sum recently was paid, they say, by a Louisiana zoo for a shipment late last year, of 25 fully-grown crocodiles all the way from Rhodesia. They were shipped in steel water tanks with slatted tops.

New Guinea, with plenty of crocs, has direct shipping connection with the United States it is pointed out and just the film rights of the loading operation ought to be worth something extra.

There are Washington Townships in six New Jersey counties and a Washington borough in another.

Prices on Grains Steady to Weak

CHICAGO (AP) — Grain futures prices were steady to weak today in early Board of Trade dealings with rye under heaviest pressure and a cent a bushel or more under Friday's closes.

★ ★ ★

December old crop corn slipped about a cent, but other deliveries fluctuated mostly in minor fractions.

Reports that rainfall over the weekend in some areas of the Southwest had delayed the winter wheat harvest had a steadying effect on that grain.

Trade was very slow toward the end of the first hour. Wheat at that time was ⅛ to ⅜ cent a bushel higher, July $1.83½; corn ⅞ lower to ¼ higher, July $1.29½; oats ⅛ to ⅜ lower, July 61⅝; rye ¾ to ½ lower, July $1.25; soybeans ⅛ lower to ⅝ higher, July $2.25⅞; lard 2 to 7 cents a hundred pounds lower, July $12.10.

★ ★ ★

Last week's shipments of wheat and flour amounted to about 3¾ million bushels and brought the nation's exports for the crop year starting July 1 to more than 498 million bushels.

Students to Survey Vanishing Glaciers

NAIROBI, Kenya — A party of students from the Royal Technical College in Nairobi, left recently to explore glaciers located almost on the equator. These glaciers — 15 of them — are on Mount Kenya, but not very much is known about them.

★ ★ ★

Photographs taken 25 years ago suggest that these slowly-flowing ice rivers were then longer than at present, and poles will be driven into their surfaces so that the present speed of flow may be measured later on.

★ ★ ★

Local rock formation and weather conditions will be studied at the same time, to make a busy expedition for the students.

Campground Directory Lists 1,700 Areas Open

WASHINGTON — In co-operation with the United States Forest Service, the American Automobile Assn. has prepared a Campground Directory of the principal camping areas in the national forests. It lists 1,700 areas in 33 states accessible from main highways, tells the facilities available, and gives the dates the areas are open.

House Fund Group OKs $1 Billion Projects Bill

WASHINGTON (AP) — The House Appropriations Committee, approving a one billion dollar program for building and planning water projects, today shouldered aside President Eisenhower's suggestion that no new projects be started during the year starting July 1.

★ ★ ★

In a bill sent to the House, the committee provided funds to start construction or planning of 43 new projects not in the president's budget.

Ten Michigan construction projects and one planning project were included in the measure. Construction projects, with funds approved and budget recommendation (in parenthesis), include:

★ ★ ★

Great Lakes connecting channels $23,500,000 (23,500,000); Harrisville Harbor $700,000 ($700,000); Manistique Harbor $338,000 ($338,000); Port Austin Harbor $613,000 ($613,000); St. Mary River south canal $2,000,000 ($2,000,000); Saginaw River $800,000 ($800,000); Whitefish Point Harbor $541,000 ($541,000); Battle Creek $1,200,000 ($1,200,000); Houghton Hancock Bridge $1,300,000 ($1,300,000); Big Bay Arbor $432,000 (none).

★ ★ ★

Michigan got $30,000 for planning at Little Lake Harbor.

Big Bay Harbor is on Lake Superior midway between Marquette and Keweenaw Bay. Little Lake Harbor is about 30 miles west of Whitefish Point just off Lake Superior and it is proposed to connect it with the lake via a 100-foot canal and breakwater, making it a harbor of refuge.

While ignoring the President's no-new-starts recommendation, the committee did remain generally within his monetary recommendations.

It approved a total of $1,018,462,500 for Army engineers and the Reclamation Bureau to plan, build or maintain water projects, compared with $1,020,371,000 recommended by the President.

★ ★ ★

The total in the bill is 181 million dollars above last year's appropriations.

Of the total, $772,723,300 is for projects built by Army engineers and $245,739,200 is for Reclamation Bureau projects.

The Army Engineer figure compares with $751,270p000 recommended by the President and $636,643,100 voted a year ago.

The amount approved for the Reclamation Bureau projects compares with $269,101,000 in the budget and $199,974,223 voted last year.

In discussing its actions on Army engineer projects the committee said it had provided funds for 39 unbudgeted projects.

Some of these 39, it said, lack authorization but are included in a new compromise authorization bill now pending in Congress. It said if the authorization bill is not passed—it was vetoed earlier in the year—then the funds involved are not to be used.

The committee also said it wished to call attention of the authorizing committees of the House to "inconsistencies" in local contributions for water projects. Some localities, it said, contribute heavily while others contribute little or nothing.

"Failure to require equitable local contributions on such projects only penalizes unfairly those who are willing to help themselves," said the committee.

News in Brief

Business Notes

Vincent F. Aiello has joined the advertising agency of MacManus, John & Adams, Inc., as a senior vice president and director of vice president and director of creative planning, effective July 1.

AIELLO

Aiello, 46, will function on all agency accounts, according to firm president Ernest A. Jones. He was previously with the Kudner Agency.

"He is assigned to the agency's New York offices, but will spend considerable time in the Bloomfield Hills headquarters," Jones said.

Norbert J. Delville has been named assistant to the director of the International Department of MacManus, John & Adams, Inc. He formerly was in charge of the international advertising of Allied Chemical and Dye Corp.

Seasonal Work Gains in Area

But Increase Is Less Than Industrial Drop Through Mid-May

Seasonal gains in non-industrial fields were reported in the Pontiac area for the month ending in mid-May by the Michigan Employment Security Commission.

These were not sufficient to exceed further decline in induustrial employment, however. Job increases included 200 in the construction field, 200 in personal services and 100 each in retail trades and government.

★ ★ ★

An estimated 1,800 layoffs in manufacturing plants brought the the area to 14,500 in mid-May, when automotive employment stood at 19,000, about 7,100 less than a year ago.

While an additional 500 seasonal jobs are expected to open for the summer, June graduates and students seeking summer employment will bring a boost in the labor supply.

During May Pontiac branch of the MESC paid out $1,318,791 in unemployment claims as against $1,425,360 in April, and $395,130 a year ago. Average weekly payment for full unemployment in April was $37.54.

★ ★ ★

In May 596 unemployment claims were exhausted. So far this year 2,163 unemployed persons have used up their available insurance.

Three Persons Injured in Two-Car Collision

Three persons were injured in a two-car collision early Sunday morning on M59, White Lake Township, according to Oakland County Sheriff's Deputies.

Injured were Patricia C. Fomook, 21, of 5583 Harold St., Detroit; Orval G. Dale, 28, 118 Detroit St., South Lyon; and Hurley C. Smith, 34, of 212 Liberty St., South Lyon. All three were treated at Pontiac General Hospital and released.

Deputies said Smith was making a U turn when struck by a car driven by Mrs. Fomook's husband, John, 24. Dale was reported riding in Smith's car.

Another Woman in 'Yak' Contest Worth $1,500

FAYETTEVILLE, N.C. (AP) — The last of six women in a talking contest for $1,500 worth of household appliances started her chatterbox routine early today.

She was a 24-year-old housewife, Mrs. Frank Williams, who had a rugged task ahead of her.

★ ★ ★

All five previous contestants had broken the record of 26½ hours set by a college girl on a recent television network show.

No. 5, Miss Vi Brewer, 20-year-old clothing store clerk, had the best time so far, 38 hours, 21 minutes and 2 seconds, before quitting shortly after 1 a.m. today. Miss Brewer, who wore Bermuda shorts and bobby sox, said after she finished that she felt fine and might even go in to work.

★ ★ ★

The women had a 2½-minute rest period every hour as they continued the talkfest one by one in the window of a household appliance store.

Waiting to challenge the winner was Ernie Eye, Fayetteville woman television personality who thought up the contest.

The historic Longhorn cattle of Texas are not yet extinct. Rancher Emil Marks of Barker, Tex., still has about 100 of these razor-flanked tough, durable breed among his herds. The Longhorns can live on little grass and water.

City Mayor Attends Jobless Pay Meeting

A new unemployment compensation program for Michigan was to be talked over in a meeting between Gov. G. Mennen Williams and 14 mayors today, including belatedly invited Pontiac Mayor William Donaldson.

The mayors represent the state's major labor market cities. Williams is seeking support for his plan to participate in the federal program extending unemployment compensation benefits.

Donaldson, who was not invited until Saturday, canceled other engagements to attend the session today. A governor's aide explained that the Pontiac area was considered represented by the Detroit area.

There's a Broadway actress from Long Branch, N. J., named Fiddle Viracola. She got that first name because, as a baby, she wouldn't turn loose of her father's violin.

A home anyone could be proud to own. Over 1600 square ft. of living space. Immaculate three bedroom brick featuring two baths, kitchen by Yorktown, expensive carpeting and draperies, 47 ft. recreation room, gas heat, two fireplaces, attached garage, hundreds of dollars worth of shrubbery and landscaping and overlooking Sylvan Lake. Owner leaving city makes this an unusual offering.

NEW . . .

3 bedroom ranch home. Full basement with rear exposure, ceramic tile bath, custom kitchen and a (you will love) floor plan. Located on 69 ft. wide city lot; city sewers, water, etc. and close to new school. Builder will duplicate in frame or brick on your lot at a price much less than you would expect to pay.

NO DOWN PAYMENT

A truly dream home for some qualifying veteran. Large family room, wall to wall carpet, aluminum awnings and storms and screens — One of the most beautiful landscaped yards in the city. We can only describe this home by showing it to you. There is only one so call now. No money down except mortgage costs with low monthly payments. Only $10,950.

Soggy Nation Braces for More Moisture

By THE ASSOCIATED PRESS

More wet weather was the outlook for broad areas of the country today in the wake of yesterday's violent storms in sections of the Midwest.

★ ★ ★

Tornadic winds lashed areas in Iowa, Illinois, Indiana and Kansas as heavy rain and hail swept the central Plains states eastward into the lower Great Lakes region.

★ ★ ★

A tornado struck the southeast edge of New Castle, Ind., causing an estimated $75,000 damage to property. No injuries were reported. Twisters also damaged some houses at La Porte City, Iowa. Most severe storms in Illinois were in the northwestern part of the state.

Physical Exams Cut Town's Insurance Bill

SAN JOSE, Cal.—A requirement that regular, comprehensive medical examinations be given to San Jose municipal employes appears to have reduced sick leave and has resulted in a $26,000 refund to the city on its health insurance.

In regular examinations of employes over 44, which is one part of the program, physicians have uncovered several illnesses before they became serious, including diabetes, low blood pressure, and ulcers.

Singer Stayed to Get Degree

Despite His TV Show Ratings, Records, Star 'Doesn't Have It Made'

By PAT BOONE

NEW YORK (AP) — When you get a television show of your own, as it happened to me this year, there's a question refrain that comes with it: "How's it doing?" meaning, What's the rating?

★ ★ ★

In my case there was a second refrain that went with the first like a Siamese twin: "Why do you do it?" Meaning, Why with all the load of rehearsing and performing the weekly show, making recordings, personal appearances, filming and the rest, did you decide to continue at Columbia University until you got your degree?

What good will a college degree do you or your show? Or maybe it's just a publicity stunt?

You don't make the Dean's list by just showing up at class with a bright smile. Man, I just don't dig that college degree business. What'll it do for you? Man, right now, you've got it made.

★ ★ ★

I've tried answering, explaining. And sometimes I think I've made my point. But I'm not sure. So I just have to go on doing my days in the way that feels right for me and my family — a wife and four daughters.

I know what they mean when they say, "You've got it made."

But I don't believe I've got it made by things outside me — by name or fame or ratings or possessions or even a college degree. Finally, you only "have it made" by what you are, by what you have in you.

WANTS TO TEACH

Long before I found I could make my way as a singer, I wanted to teach. Working with youngsters was my ambition when I started at North Texas State college. It still is.

Maybe someday I'll be able to do it directly in the classroom. Right now, in every way I can — through the show, through talks with youth groups, through correspondence.

Doing this is a responsibility. Just as being a father is a responsibility. Just as being a citizen. To handle these responsibilities and to handle them maturely, I need to know as much as I can learn and keep on learning. College was one of the preparations to meet this constant responsibility.

FULL HOUSE — Television singing star Pat Boone relaxes in one of his rare leisure moments. He's surrounded by his four daughters (left to right) Linda Lee, 2½; Laura Gene, 6 months; Deborah Ann, almost 2; and Cheryl Lynn, nearly 4. Besides his TV show and recording sessions the past season, he completed his work for a degree at Columbia University.

Nine Burglaries Occur in Pontiac

Thieves, Police Busy on Weekend as Businesses, Homes, Schools Looted

Burglars were busy over the weekend in Pontiac looting homes, businesses and a school.

On Saturday, reports to the police included a burglary at Frayer's Appliance Store, 589 Orchard Lake Ave., where a portable television set, a phonograph a radio and other items were stolen.

Also reported was the burglarizing of the Ruel Jones home, 238 Russell St., where two watches were taken, plus $6.50 in cash.

Another Saturday report was from Tasty Foods Restaurant, 22 S. Saginaw St., where someone stole an electric toaster valued at $120 and a waffle iron valued at $80.

★ ★ ★

Sunday, a semi-trailer parked at the White Owl Express Co. 212 Osmun St., was entered by thieves who took a box of portable radio batteries.

An employe surprised three men carrying the box and they dropped it and fled.

Another burglary occurred at Cutting Tool and Supply Co., 88 S. Cass St., where a large number of precision tools were taken.

An automobile, belonging to Ronald Grover, of 72 Douglas St., was burglarized and two men's jackets stolen. The car was parked in a lot at the rear of his home.

★ ★ ★

This morning, three burglaries were reported to the police. Tom's Hardware, 905 Orchard Lake Ave.; Bernard Cleaners, 485 S. Sanford St.; and Whittier Elementary School, 600 Motor St., were all entered last night. Police have not determined what is missing as yet.

Population Density of Java Tops World

JAKARTA, Indonesia — The tropical island of Java has the highest population density in the world — more than 1,000 persons per square mile (the United States average is 57). Some 55,000,000 persons now live on the island, which is about the size of New York State, compared with 42,000,000 in 1930.

Ocean Trip Becomes Sleep on the Deep

By EARL WILSON

DECK CHAIR 319, S. S. LIBERTE—French Revolution or no French revolution, I accomplished one thing on this Atlantic voyage. I accomplished about five and one-half days of sleeping.

WILSON

★ ★ ★

Your intrepid war correspondent wouldn't have believed such luxurious loafing possible. There was a movie every day at 5 p.m. and at first the passengers managed to get up in time for that.

But about the last day they were grumbling about the French Line starting their movies before a guy had a chance to brush his teeth and get his breakfast coffee.

It's old stuff to you who've done it but amazing to us middlewestern landlubbers—how the lazy roll of the boat quickly makes the most nervous person as relaxed as Perry Como (puts them in a Como, so to speak.)

So you soon decide not to do anything. Except deciding not to do something you were going to do.

I had planned to interview all hands about the French revolution, go swimming, watch the clay pigeon shooting, play deck tennis, and read several French novels in addition to seeing Andy Griffith's new movie, "No Time for Sergeants."

But upon thinking this over it seemed much too strenuous and I decided to save my strength for covering the war from a sidewalk cafe.

★ ★ ★

Naturally when you're loafing you feel guilty. I was most conscience-stricken because every time I passed one suite I heard a tap-tap-tapping and I knew somebody was in there typing madly.

I told columnist Jack O'Brian, who was also aboard, that we should form a party consisting of Tom O'Neill, the RKO-General Tire tycoon; Atty. Florence Shientag, Chicago restaurateur Rick Riccardo and other brave souls and plead with the guy to quit spoiling our rest with his confounded typing at all hours.

But first I called on the slob myself.

Well, it wasn't a typewriter at all—but some kind of a clattering electrical instrument.

After which I rested in peace.

Rehabilitation Institute Moves Today in Detroit

DETROIT (UPI)—It was moving day for 30 patients from the Rehabilitation Institute of Metropolitan Detroit today. Ambulances and station wagons will carry the patients to the new three million dollar institute next to Harper Hospital in the medical center.

Established in 1952, the first institute used an auxiliary building at Herman Keifer Hospital. The institute, Detroit's first specializing in rehabilitation, took patients who could be helped by special treatments.

Kerry Shillelaghs Sold to Americans

COUNTY KERRY, Eire — Dollars grow in hedges, the young people of County Kerry, Eire, are saying. There's no catch in it, they really do, for those who are prepared to work a little.

★ ★ ★

The dollars are in the form of blackthorn sticks and there's a great demand for good blackthorn canes from tourists, particularly Americans. Some of the enterprising people live in Kerry's famed Gap of Dunloe, near Killarney.

★ ★ ★

Besides walking sticks they are making models of jaunting cars, turf houses, plaques in native oak and models in papier mache. On Friday afternoons pupils at the local school turn out shillelaghs.

Weekend Fatal for 13 in State

Six Killed in Traffic; Fear Same Number Perished in Waters

By THE ASSOCIATED PRESS

Michigan today counted six persons killed in weekend traffic.

In addition, two presumed drownings and four deaths by drowning along with a freak bicycle accident pushed the state's total accidental death toll to 13.

★ ★ ★

The Associated Press fatality count is taken from 6 p.m. Friday to midnight Sunday.

Two brothers, Joseph Portugal, 40, Melvindale, and Robert Portugal, 36, Nankin Township, were drowned in Pine Lake.

Edward Anderson, 69, Gladstone, was killed Sunday when he stepped in front of a car at Gladstone.

★ ★ ★

Reaford Maynard, 24, Detroit, was killed Sunday when his car hit the rear of another and careened into a pole.

Frank Hock, 20, Belleville, was killed Saturday when his car hit a tree near New Boston.

Don Leroy King, 24, Edmore, was killed Saturday when his car crashed into a bridge abutment west of Mt. Pleasant.

★ ★ ★

A 7-year-old Paducah, Ky., boy, Jerry L. Youngblood, was injured fatally Saturday in Detroit when he fell from his bicycle and was struck in the stomach by the handlebars.

A 4-year-old Union City boy, James A. Burgett, drowned Saturday in the Coldwater River.

William H. Thompson Jr., 27, Coldwater, drowned Saturday while swimming in Coldwater Lake.

★ ★ ★

Gilbert Ellis Jr., 30, of Benton Harbor was killed Sunday when his car upset.

Edwin Hahn, 23, St. Ignace, died Saturday of injuries he suffered Friday night when his car collided with another about 15 miles northeast of St. Ignace.

Ultramodern Airport Opens Near London

GATWICK, England (AP) — Queen Elizabeth today opened what the builders described as the world's most modern airport, a 20-million-dollar project designed to take the overflow from London Airport.

★ ★ ★

The new site, named Gatwick Airport, is 30 miles south of London.

★ ★ ★

What makes it particularly impressive is its easy transport links to the capital. Instead of the hour-long bus trip to London airport, a 40-minute rail trip will shuttle passengers from the capital to Gatwick.

Drinking 'Buddies' Rob Him of $20, Wallet Here

Two drinking companions beat and robbed Walter Doyle, of 30 Williams St., he told Pontiac police Sunday.

Doyle said he had met two strangers in a bar and was drinking with them when they suggested he accompany them to another bar.

Doyle told officers the men strongarmed him at the corner of E. Columbia road and Arlene St., and took his billfold containing $20 and personal papers. The pair fled in a car.

Better Deal Planned for British Wives

LONDON — Under a new British law, employers must withhold from a worker's wages any arrears that he may owe for wife and child maintenance.

The government made haste to reassure workers that it will not allow a man's ordinary debts to be docked from his wages. The purpose of the new law is to get at some 5,000 husbands and fathers who go to jail every year rather than pay what they owe for family maintenance, it was explained.

Employers and trade union leaders had feared this would open the way for deduction of other debts.

Pigeon Hatches Chicken Egg in Relish Dish

NEWARK, Ohio (AP) — Mrs. Violet Handel's pet pigeon hatched a Bantam chicken egg yesterday after sitting on it for 21 days in a relish dish in the bedroom of Mrs. Handel's home here.

The pigeon nuzzles the chick around just like a mother hen. And the chick sleeps under the pigeon's wings.

Two other Bantam eggs placed in the dish did not hatch and are not expected to. Mrs. Handel put the three eggs in the dish when the pigeon showed signs of wanting to do some egg-seting.

States Sign Up for Jobless Pay

Pennsylvania Already Accepts Federal Plan; New York to Follow

WASHINGTON (AP)—One state has signed up and another has set a date to start payments under the new federal government plan for extending the period of jobless benefits.

Others are considering action but still others indicated they need—or want—no part of the federal advances they could get now subject to later repayment. Some say no extension is needed. Some are barred by constitutional or other provisions.

★ ★ ★

Pensylvania signed up for the program Friday, the first state to do so. New York already has set a June 23 date for the start of the extra payments, under a standby law passed by its legislature even before Congress completed action.

Rhode Island votes in a referendum tomorrow. Other action has been or probably soon will be taken in Michigan, Massachusetts, Maryland, Minnesota and Indiana.

★ ★ ★

States have the right to accept or reject the federal advances. These are designed to permit each state to extend by 50 per cent the period in which it pays jobless benefits to workers who have used up their rights. In more than half the states, this would mean another 13 weeks of payments.

Conecticut already has extended its payment period without federal help, and Ohio and Illinois may follow this course. Michigan is another possibility, depending on what its Legislature decides.

★ ★ ★

In many states special sessions of the legislature will be needed to make the new program effective. But at least two governors say they have no intention of calling special sessions.

Gov. J. Lindsay Almond Jr. of Virginia and Gov. Leroy Collins of Florida say economic conditions in their states are improving and no such help is needed.

Other reports of lessened unemployment came from North Carolina, Utah, New Hampshire and Missouri. Kansas reported a lower level of jobless than at the same time last year.

★ ★ ★

Nebraska, Oklahoma and Kentucky have constitutional restrictions on borrowing.

Japan is a country that is mostly seacoats with more than 17,000 miles of bays, beaches and placid lagoons. Back of these are imposing mountain scenes.

HIGH VOLTAGE—Top of this gigantic bushing will be no place to cling to when it becomes part of the hottest full-scale experimental transmission system in existence. When in operation at Pittsfield, Mass., it will eventually carry power at a maximum of some 750,000 volts, more than any other electrical system in the world. That's enough juice to supply the needs of an area like Cleveland, Ohio, with a population of more than one million. It's a project of General Electric's power transmission department.

Utah gets its name from the Utes, an Indian tribe.

Congress Cold on Ike Changes

Plans for Revision in Defense Reorganization Bill Not Favored

WASHINGTON (AP) — President Eisenhower's demand for changes in a defense reorganization bill has met a cold reception from two Democratic senators.

Chairman Richard B. Russell (D-Ga) of the Senate Armed Services Committee said yesterday that "so far as I am concerned, Congress is not going to surrender" its constitutional powers over the nation's military forces.

★ ★ ★

Other criticism of Eisenhower's position came from Sen. Mike Mansfield (D-Mont).

The Senate Armed Services Committee will consider the bill after the House acts on it, possibly this week.

Eisenhower, although accepting the bill in large part, has asked for changes in three provisions written by the House Armed Services Committee.

One of these provisions would give Congress final say over any changes in the functions of an armed service, without the possibility of a presidential veto.

A second which Eisenhower finds objectionable would require the secretary of defense to exercise his authority over the individual services through their own secretaries.

★ ★ ★

A third controversial section would permit the secretaries and members of the Joint Chiefs of Staff to take appeals directly to Congress.

Farmer Lyle Spankie in Alberta, Canada, recently had a busy night. He delivered 48 piglets from three of his sows.

Honor Allied War Dead in Japanese Dedication

KYOTO, Japan (AP)—A marble monument to the Allied soldiers who died on Japanese soil in World War II was dedicated yesterday at the base of the Buddhist statue to Japan's own war dead.

★ ★ ★

Drenched by a rainstorm, 200 Buddhist monks with gongs, horns and drums chanted prayers for the spirits of 48,148 Allied troops who died in captivity or on Japanese soil. The Japanese list 10,020 of them as Americans.

★ ★ ★

The white marble table to the "world's unknown soldiers" lies inside the base of the 80-foot statue of Kwannon, the Buddhist goddess of mercy.

Industrialist Hirosuke Ishikawa, who with several friends donated the million-dollar memorial, said it was dedicated to the idea of eternal peace.
