Supreme Court Scraps State Use Tax 5-3 Dashing Michigan Back Into Fiscal Chaos

Merchants Told: Halt Collection of Levy at Once

Official Puts Damper on Refund Hopes, Says You'll Need Proof

From Our News Wires

LANSING — Michigan was plunged back into fiscal chaos today by a 5-3 Supreme Court ruling that threw out the 120-million-dollar use (sales) tax.

Deputy Revenue Commissioner Clarence Lock said merchants should halt collections of the penny increase "immediately."

The decision to declare the tax unconstitutional means the Legislature will be back for another round of wrangling. No solid support has been lined up for any substitute plan.

Republicans reacted bitterly to the decision by the Democratic-dominated court.

"Now the state is in worse shape than ever before—90 million dollars in the red and no relief in

Related Story, Page 15

sight," said Sen. Carlton H. Morris (R-Kalamazoo).

Morris, chief author of the use (sales) tax, said it was up to Gov. G. Mennen Williams to come up with a tax program.

"Our program has been torpedoed," Morris said.

All five Democrats on the court voted to throw the tax out. Justice Talbot Smith wrote the controlling opinion. It was signed by Justices Thomas Kavanagh and George Edwards. Justice Eugene Black wrote a concurring opinion signed by Justice John Voelker, author of "Anatomy of a Murder."

Black said the tax should be rejected "unless we are to shut our eyes and see not that which all of the people of our state have clearly perceived and understood."

The tax was thrown out .pri-

Not Surprised, Lodge Claims

He and Rep. Law Take Alternative Cash Plans Under Consideration

Oakland County Sen. L. Harvey Lodge said he didn't find the Supreme Court's decision surprising.

"It went strictly along party lines," he said.

Asked what the alternative would be now to pull the state from further financial chaos, Lodge insisted that he and other Republican senators would strenuously oppose any form of state income tax.

Pontiac's Democratic Rep. Arthur J. Law, on the other hand, said he hoped the Legislature would now review his 7 per cent so-called "piggy-back" state income tax proposal, based on a flat seven per cent of what people pay in federal income tax.

Referring to the three Republican members of the Supreme Court, Law said:

"I'm surprised that even three of them thought the use tax was constitutional."

Although he was definite about Senate Republicans opposing a state income tax, Lodge was undecided what the answer might be then.

"We'll probably meet and examine the opinion and see whether we enact a wholesalers' tax or repeal the three cent sales tax," he said.

"As far as I'm concerned," he added, "Michigan is never going to have an income tax added to what citizens already pay out to the federal government."

★ ★ ★

Housewives Differ on Tax Ruling

The housewives — who've paid most of the use tax the past two months — have sharply different reactions to its death in the Michigan Supreme Court.

The old argument — use tax versus income tax — was reflected in their varying opinions.

Everyone agreed it was too bad that the state once again finds itself with no solution to its financial difficulties.

"I was for the 3 per cent sales tax, anyway, rather than the combined 4 per cent use-sales tax," said Mrs. James E. Hartley, 2669 Voorheis Rd.

If Mrs. Hartley had her way, there wouldn't be any sales tax, either.

"Other states can get along without these taxes, why can't Michigan?"

Mrs. Jack T. Coats, 1781 Warwick St., felt differently.

Opposed to a state income tax,

★ ★ ★

Local Merchants Told to Stop Use Tax Charge

Stop charging the use tax immediately, Pontiac area merchants were advised today.

Go back to the old method of charging sales tax only, sellers were advised by John W. Hirlinger, manager of the Pontiac Area Chamber of Commerce.

Hirlinger said that this was the advice of the Michigan Retailers Assn., a Lansing group that has been advising most of Michigan about the controversial use tax the past two months.

★ ★ ★

Customers who want to collect from merchants the use tax which they have been paying in the past were advised to wait a few days.

Merchants through their retail groups hoped to agree on a system to pay back use tax collections.

A systemized method, agreed on by all, would simplify the procedure and guarantee fairness, it was pointed out.

'Coordination Needed Before Summit'—Ike

Western Allies Must Agree on Vital Issues to Prevent Confusion

From Our News Wires

AUGUSTA, Ga. — President Eisenhower said today he is willing to go to an East-West summit conference whenever the Western Allies have coordinated their position.

The President told a news conference that without such prior coordination at a pre-summit session, the situation could be just a donnybrook—or confusion.

Eisenhower confirmed that he has been plugging — in private correspondence with the Western leaders — for an East-West summit meeting with Soviet Premier Nikita S. Khrushchev as early as December.

But the President said he has no strong feelings regarding the time of any such session.

The important thing, he emphasized, is that the West get together and present a united front at any summit session.

★ ★ ★

Eisenhower stressed that he is ready and willing to meet at any time with French President Charles de Gaulle, British Prime Minister Harold Macmillan and West German Chancellor Konrad Adenauer.

The Soviet ambassador to Paris said today President Eisenhower has proposed a summit conference at the end of this year and that the Soviet government is in agreement.

The statement was made by Sergei Vinogradov after an hour's talk with French Foreign Minister Maurice Couve de Murville.

De Gaulle, however, has been pressing for a delay until spring.

Ideal Fall Weather Here Till Saturday

Warm, hazy days of Indian summer will continue through Saturday with high temperatures ranging from 60 to 65 degrees.

★ ★ ★

Tonight will be warmer with a chance of showers, the low about 44.

Friday will be partly cloudy and warmer with the high near 65. Partly cloudy with little temperature change is Saturday's outlook.

This afternoon's southerly winds at 10 miles an hour at 1:15 will become southeast at 12 to 18 miles an hour tonight and shift to southwesterly Friday.

★ ★ ★

In downtown Pontiac the lowest temperature before 8 a.m. was 36 degrees. The reading was 64 at 2 p.m.

Back-to-Work Order Is Indefinitely Held Up

PHILADELPHIA (AP)—Three federal judges today granted an indefinite stay of a Taft-Hartley injunction against the striking Steelworkers.

★ ★ ★

This means a continuation of the nationwide walkout, now 100 days old, pending a circuit court of appeals ruling on the constitutionality of the 80-day injunction, granted yesterday by a U.S. district judge in Pittsburgh.

Union counsel re marshaled its arguments, declaring that the strike has created no national emergency, that indeed the economy is booming, and that the injunction violates the basic rights of labor to strike, rights that are part of the collective bargaining code.

Arthur J. Goldberg, 53, general counsel for the union, opened his appeal to dismiss the injunction at 9 a. m. E. S. T. He wound up at 11:30 p. m. and the court was recessed until 12:45 p. m.

Goldberg said the court should toss out the injunction on grounds that the Taft-Hartley law was unconstitutional and the nation was not imperiled by the strike.

George C. Doub, assistant attorney general, told the panel drawn from the U. S. 3rd Circuit Court of Appeals that he thought the government was here to argue only against the stay of the injunction, granted Wednesday in Pittsburgh.

Arthur H. Goldberg, chief counsel for the union, said he was on hand for more than that—to appeal from the final order of U. S. Dist. Judge Herbert P. Sorg in Pittsburgh.

★ ★ ★

Chief Judge John Biggs, Jr., looking at records brought from Pittsburgh, said that Goldberg apparently was right.

★ ★ ★

Doub asked for a recess to consult with Washington. About 15 minutes later he returned and said he was ready to go ahead with argument on the merit of the appeal.

★ ★ ★

The union asked the judges to permit the 100-day strike of its 500,000 members to continue pending a ruling on the constitutionality of the injunction.

Goldberg told the judges that should the 80-day injunction be upheld, "there will be tremendous damage, not only to the union, but also to the employers."

In describing what he considers great damage, Goldberg said: As for the union, its strike in which 500,000 workers have sacrificed their wages for a period of more than three months will be broken and as for the companies, they will have undertaken the very expensive task of reopening their mills and starting their furnances only to have them shut down again if the injunction is reversed.

★ ★ ★

Goldberg said the union—and President David J. McDonald of the Steelworkers listened nearby—"recognizes that there is a grave public interest in this matter and that delay in the effective date of the injunction would be unconscionable."

Ford Earnings Soar to Record

Report $339 Million in Profits for 1st 9 Months; Tops '55 High

From Our News Wires

DETROIT — Ford Motor Co.'s profits for the first nine months of 1959 were a record $339,100,000.

This topped by $13,100,000 the old nine-month record of $326,000,000 set in boom year 1955.

Ford became the first of the big three car makers yesterday to announce nine-month earnings. General Motors and Chrysler also are expected to show substantial profit increases.

Ford appeared to be in a better position than its competitors to maintain high earnings in the fourth quarter. Ford makes about half of its steel needs and its production and was believed to be less seriously affected by the steel strike than GM or Chrysler.

★ ★ ★

Ford's earnings for the first nine months this year amounted to $6. 1 a share, against two cents a share on earnings of $1,200,000 in the recession period last year.

Henry Ford II, president, said sales in the first nine months of 1959 were $3,991,200,000, compared with $2,682,900,000 in the same period a year ago.

Third quarter 1959 sales were $1,036,900,000 with earnings of $53,200,000 or 97 cents a share. In the third quarter a year ago the company lost $14,900,000 or 27 cents a share.

STATE EARNINGS

Ford's earnings in the first quarter this year were $2.46 a share and in the second quarter $2.76 a share. The company said "lower profits in the third quarter were due primarily to reduced sales resulting from model changeovers and costs of launching the 1960 models."

A week ago, Ford announced that it would pay a year-end ex-
(Continued on Page 2, Col. 1)

News Flash

PHILADELPHIA (UPI) — A panel of three federal judges today heard arguments on a back-to-work injunction appeal in the steel strike and adjourned without a decision until next Wednesday at 9:30 a.m. (EST). The judges continued the stay of execution to the back-to-work injunction until then.

See Production Halt Next Week

Expect Steel Shortage to Cause Shutdown in Pontiac

Already causing temporary layoffs, the steel shortage was expected today to bring Pontiac's industrial machine grinding to a halt by the end of next week.

★ ★ ★

UAW-CIO leaders at Pontiac Motor Division were looking for the assembly line to shut down as early as Wednesday.

A company spokesman said, however, that so far no notice of a definite date has been issued.

Temporary layoffs — caused by steel shortages in various phases of production—were occurring at all three General Motors Corp. plants here.

NO SERIOUS EFFECT

The number of layoffs has varied from day to day. At no time have they seriously affected the over-all production picture.

Spokesmen for the two big plants — Pontiac Motor and GMC Truck & Coach Division — said management officials were poised to issue announcements in a few days that would send workers home for an indefinite period of time.

How long the layoffs last depend on how soon new supplies of steel can be distributed.

★ ★ ★

It appeared to be a virtual impossibility that new supplies could arrive before existing stocks are depleted.

Even if the steel strike were temporarily halted through Taft-Hartley Act action, it would take time before steel plants are able to turn out supplies in volume again.

$647,698 Goal Cracks in Area's Historic Effort

Success Is Announced at Victory Luncheon for Drive's Workers

The Pontiac Area United Fund has topped its $647,698 goal.

The announcement was made by Robert R. Eldred, campaign chairman, at a UF victory luncheon at noon today at the Elks Temple.

"We have raised the largest amount of money — $647,776.98—in the history of the Pontiac Area United Fund," Eldred said.

He spoke to more than 250 people representing the Fund's Women's, Industrial and Commercial divisions and the four affiliated townships.

Mrs. Noel A. Buckner, Women's Division chairman, reported $26,628.87, or 105.85 per cent of her quota of $25,157.

Included in this division are the Pontiac area directed by Mrs. Roderick Taylor; the Lake Angelus area, directed by Mrs. Myron Leighton; and the Waterford area, directed by Mrs. M. G. Prosser.

★ ★ ★

Mrs. Taylor reported her Pontiac area at $15,227.04, or 98.6 per cent of the quota of $15,436.

Mrs. Prosser announced her Waterford figure at $8,572.83, or 113.23 per cent of the township's goal of $7,571. Mrs. Leighton reported $2,829, or 131.6 per cent of her Lake Angelus goal of $2,150.

Thomas F. Wiethorn, Industrial Division chairman reported $417,425.51 or 64.45 per cent of the entire campaign goal pledged. Corporate gifts from the three local General Motors plants and Jig Bushing Co., Consumers Power Co. Pontiac Varnish, Universal Oil Seal Co., Baldwin Rubber Co. and American Forging and Socket Co. totaled $134,774.

EMPLOYES GIVE $281,651

The employes of these firms gave $281,651, or 67.5 per cent, of the Industrial Division contribution.

Fred Poole, Commercial Division chairman, reported $166,274 raised, or 92.7 per cent of the unit's quota of $179,371. Poole urged his division to pick up the challenge of the other divisions.

"We still have a job to do and that's to take our division over the top. Let's not stop now. Let's

Two Children Escape From Burning Home

Two small half-naked children ran screaming from their smoke filled home in Waterford Township this morning after they had set fire to a mattress in a back bedroom.

Their mother, Mrs. Donald Gibson, 5830 Eldridge St., a waitress at a local tavern, was gone from the home when her children, Mary, 4, and Raymond, 8, fled to the Charles Burns' home across the street.

Burns summoned the fire department.

Mary, whose fingers were burned, told Waterford Township police she had been trying to light a match from several packages laying on a dresser when the entire packet caught fire.

The little girl said she became frightened and tossed the flaming mass on the bed.

The six other Gibson children were in school at the time.

According to Waterford Township fire officials, this is the second fire to be started by small Gibson children left unattended.

The two youngsters started a fire in a closet in the home last winter.

Waterford police today filed a formal complaint in Juvenile Court against the parents, charging child neglect.

Mrs. Gibson, who works on the night shift at the tavern, still was sought by police at noon today.

Her husband, who works for a trucking company, could not be located immediately.

Raymond told police an older sister told him, "It's your turn to stay home with Mary."

Both wore only underclothing when they fled the blaze.

Neighbors clothed the children and plan to meet the other Gibson youngsters when they return.

PLAYED WITH MATCHES — A Waterford Township policeman questions four-year-old Mary Gibson and her brother, Raymond, 8, to learn the whereabouts of their parents. Mary still holds one of a book of matches she was playing with that set fire to the back bedroom of their home at 5830 Eldridge St. early this morning. The two children fled half naked and screaming from the smoke filled home to a neighbor.

Democrats Out to Get Sen. Lodge

By GEORGE T. TRUMBULL JR.

Told by their state chairman that Oakland County has become one of the most important political battlegrounds in Michigan, county Democrats have marked Republican Sen. L. Harvey Lodge as their special target.

About 75 of the top county Democratic strategists went behind closed doors last night at the Roosevelt Hotel to map their campaign strategy.

However, it was learned that Neil Staebler, state Democratic chairman, pegged 1960 as the year that Oakland County could go Democratic for the first time in many years.

Earlier in a press conference, Staebler cited figures from the 1946, 1950 and 1958 elections to show, he said, that the county is getting "awfully close to an even balance" between the two parties.

He told party workers that by signing up some hundreds of unregistered voters in the county, Oakland County offices might be occupied by Democrats in 1961.

Staebler came to Pontiac for the 11th in the series of 29 meetings with county committees to start planning for coming elections.

Where Gov. Williams fits into these plans was not made known. "You'll have to wait to talk to Mennen himself," Staebler repeated when questioned.

Staebler, however, did say the governor's "interest will go in the direction of the national field." He said he is far more than a favorite son candidate but one of the lesser candidates.

Should the governor shoot for the presidency, Staebler said, he has learned during his journey around the state that Secretary of State James M. Hare is "very highly regarded" as a possible successor.

He also mentioned Lt. Gov. John B. Swainson, Atty. Gen. Paul L. Adams and Treasurer Sanford A. Brown.

Of the two-term Republican senator, Staebler said:

"Lodge's behavior in the Senate makes him a person who a great many citizens would enjoy replacing." He did not elaborate.

He did emphasize, however, that Lodge won re-election last year by but 4,403 votes.

READY TO BATTLE

Lodge, who said a politician is always running for re-election until he decides differently, said:

"If they want a battle they have just the guy to do battle with."

The search is still on for an opponent for Lodge, said Carlos Richardson, chairman of county Democrats.

Ford 9-Month Profits Set at $339,100,000

(Continued From Page One)

tra 60-cent dividend, its first extra since Ford stock went on public sale in 1956. It also declared a fourth quarter dividend of 60 cents, compared with 40 cents a year ago.

The tremendous investment Ford Motor Co. made in bringing out its 1960 model cars showed up today in a reduced third quarter earning report by the company.

Ford reported earnings of $53,200,000, or 97 cents a share, down sharply from earnings of $2.46 and $2.76 per share during the first two quarters of the year.

The earnings still looked good, however, when compared with the loss of 27 cents per share reported for the third quarter during the recession last year.

Heavy outlays of cash to restyle and improve the industry's 1960 models also was expected to cut into the third quarter earnings of the other auto companies.

Sen. Morton in Oakland County Today

GOP Leader Checks State Party 'Feud'

GRAND RAPIDS (AP)—Sen. Thruston B. Morton of Kentucky, Republican national chairman, says he is standing back of chosen party leaders in Michigan.

Before addressing a party fund-raising dinner here last night, Morton told newsmen he was checking on a reported feud between Michigan GOP liberals and Postmaster General Arthur E. Summerfield.

He said he would be in the Pontiac and Mount Clemens areas today and thought he would have a "pretty good feel" of the situation.

★ ★ ★

"If it is serious," he said, "I'll have to report it to the President but it's up to the Republicans of Michigan to make any changes."

The Republican Committee of Oakland County was host to Morton at a $50-a-plate luncheon at noon today at the Northwood Inn in Berkley. Republican women of the county were expected to hear the national chairman at a tea later at Devon Gables.

Morton was questioned about reports that Summerfield told the Republican State Finance Committee last Thursday he would bring financial support and harmony to the state party if Lawrence B. Lindemer were dropped as state chairman.

★ ★ ★

Summerfield also was said to have suggested shelving Paul D. Bagwell, Michigan State University professor who was the unsuccessful GOP nominee for governor last year and is being supported by liberal Republicans for nomination in 1960.

Summerfield was said to have withdrawn his demand that Bagwell be dropped after industrialist Henry Ford II objected strenuously.

Morton praised the showing of Bagwell in his race against Gov. Williams. He said, "I should think he would make a good candidate in 1960."

"My position is that I'm responsible to duly elected members of the committee," Sen. Morton said. "I work through the official and duly elected organization. Whatever their decision is, I, of course, will support it."

As for the reported feud, Morton said he had read only newspaper accounts.

"I don't know how deep the feud was elected by the largest majority ever. If the Republicans of Michigan want someone else, I'll work with them."

WANTS TO SEE UNITY

Morton said he wants "to see party unity when it comes time to start the campaign."

★ ★ ★

The senator said he had had no opportunity to discuss the feud reports with Summerfield who said in Washington that much of the reports were "without fact or foundation."

In a statement yesterday, Don E. Ahrens, GOP state finance chairman, and Ernest Kanzler, Wayne County finance chairman, said Summerfield attended the financial meeting in Detroit but did not call the meeting.

★ ★ ★

They said:

"Financial and political problems related to the needs of the campaign were discussed. Mr. Summerfield agreed to be as helpful as possible in furthering a unified party program.

"He made no demands nor did he issue an ultimatum that Paul Bagwell be 'dumped' as a condition of his support, as reported in the press.

"He did, however, frankly express his opinion about the problems, the need for strengthening the state organization and the need for greater party effort."

2nd Mistrial in Beating Case

Suit Against Deputies by Ionia Convict Left Out Auto Accident

A third trial will be held in a lawsuit brought against three Oakland County sheriff's deputies by a Walled Lake convict who accuses them of beating him up.

★ ★ ★

U.S. District Court Judge Clifford O'Sullivan yesterday ordered the second mistrial in two days when he discovered the bill of complaint did not mention an auto accident in which Carl E. Hess, 18, formerly of 960 Adelaide Dr., was injured five months before the alleged beating.

On Tuesday the first mistrial occurred when the judge learned a woman juror abhored violence.

Hess is in Ionia State Reformatory serving 1½ to 15 years for his part in the April theft of a safe from a Walled Lake auto dealer.

CHARGES MALTREATMENT

Prior to the theft, Hess charges Deputies Gordon Misener and Robert W. LaLonde and Turnkey Raymond E. Beason of mistreating him in December of 1957 when he was arrested on a drunk and disorderly charge. Misener has since left the department.

Hess' $30,000 damage suit is in Federal Court because he is suing the county's bonding agency, Fidelity Casualty Co. of New York.

★ ★ ★

After the first mistrial, a new jury was impaneled. Hess' attorney Kenneth C. Davies, began his opening statement again. He said the beating aggravated injuries Hess had suffered previously.

★ ★ ★

Defense attorneys objected that the original pleading contained no question of aggravation.

The judge immediately declared the second mistrial.

A third try will be made in December.

County Records Three Cases of Polio Last Week

Three cases of polio were reported last week by the Oakland County Department of Health, one each in Pontiac, Independence Township and Waterford Township.

One case was reported in the county the previous week. For the same week in 1958, six cases were found.

Number of polio victims this year is 36, compared to 46 cases over the same period last year.

Number of cases for all of 1958 was 66.

Veterans Trust Fund in Foreground Again

LANSING (AP) — When the Supreme Court struck down the use tax increase, it enhanced prospects for liquidation or other use of the 50 million dollar veterans trust fund.

Gov. Williams long has demanded that securities be cashed and the house in principle has agreed, although providing for restoration of the fund later on.

The Senate steadfastly has refused to go along. However, some Republican leaders privately admitted they saw little hope of continued resistance without a favorable use tax decision.

Guilty of Embezzling Credit Union Money

DETROIT (AP) — Allan S. Fowler, 69, was found guilty last night of embezzling $2,387 from the Telephone Employes Credit Union while he was its manager.

Fowler was convicted by a recorder's court jury after a 21-day trial.

Fowler had retired and was living in Florida when shortages of almost $125,000 were found in the credit union accounts. He was returned from Florida and charged specifically with misappropriating $2,387.

Fowler was continued on $5,000 bond, pending sentence Oct. 30. His attorney said he would seek a new trial.

He retired from his credit union post in August 1958.

Crandall Mute in Theft Charge

Bank Teller Out Under Bond; Pal Paul Carry Pleads Guilty

A 22-year-old Pontiac bank teller and his friend, accused of stealing close to $3,000 in Community National Bank funds, were arraigned yesterday in Detroit before Federal Judge Ralph M. Freeman.

★ ★ ★

The teller, Robert L. Crandall, 34 Murphy St., stood mute to a charge of misapplicating bank funds and is free under $1,500 bond.

His friend, Paul J. Carry, 21, of 114 E. Howard St., pleaded guilty to aiding and abetting the misapplication.

He was unable to furnish $2,500 bond and is being held in the Wayne County Jail pending a probation report and sentencing.

$5,000 AND 5 YEARS

Conviction on each count carries a maximum penalty of $5,000 in fines and five years in a federal penitentiary.

Crandall admitted to Pontiac police and FBI agents that he made up a story of a bank robbery after slipping $2,500 to Carry shortly before the bank closed Tuesday.

Both men admitted the plot after Carry's wife Betty Jane told authorities Wednesday morning that the bank money was at the Carry home.

The Day in Birmingham

Expanding Fall, Winter Recreation Class Plan

BIRMINGHAM — An expanded fall and winter recreation program for adults and children was announced today by the Birmingham Recreation Board.

★ ★ ★

Donald Martin, director of recreation, said that some of the recreation classes have already started but anyone wanting to join a class now opened can do so.

For the first time, on a full-time schedule, the board has started a slim-trim class for women. Last year, on a trial basis, Martin said, the class was so successful that it was decided this year to be made part of the program.

The slim-trim classes will be held each Wednesday between 7:30 and 8:30 p.m. at the Torry School, Torry and Lincoln roads. The charge is $5 for 10 classes.

★ ★ ★

Each Wednesday, between 7 p.m. and 8 p.m., therapeutic swimming classes are held at the Barnum School pool. Martin said that a permission slip signed by a doctor is needed from those who enroll so it can be filed with the recreation office. Classes will last 30 weeks.

Each Monday at 7:30 till 10 p.m., a family swimming class is held at the Seaholm High School pool. Children, Martin said, must be accompanied by an adult. There is a charge of 25 cents for children, and 75 cents for adults.

★ ★ ★

Also at the Seaholm School on Monday is a beginning swimming class for women. The charge is $1 for half an hour from 7 to 7:30 p.m. However, the admission includes the family class held the same night.

★ ★ ★

Two diving classes have been added to the Saturday morning swimming class for children of elementary school age held at three schools in the city. The 9 a.m. to noon classes are held at the Barnum, Seaholm and Derby schools. The charge is $2.50 for ten lessons.

★ ★ ★

Every Monday at the Seaholm School Gym, an adult recreation program is held. This class is for men and women over 18 years old wishing to participate in basketball, volleyball, badminton, trampoline or calisthenics.

Further information on the recreation program can be obtained from the Recreation Board by phoning MI 4-1800.

The 40th and final year of the Ruth Shain Class of International relations will begin next Tuesday, Oct. 27, at the Community House, Birmingham. The course will be held each Tuesday at 10 a.m.

Michigan State University junior, Wendy Mouw, 20, 2629 Amberly, Birmingham, will be a member of the homecoming queen's court this weekend at the MSU-Indiana football game at East Lansing.

Featured talks and films by local residents who have lived or recently toured behind the Iron Curtain will be presented in a series of Tuesday afternoon programs beginning Nov. 3 at 1:30 p.m. in the Baldwin Public Library. There will be no admission fee.

Since tickets can be obtained only by advance registration, the library asks that those interested call or visit the library as soon as possible.

A repeat performance of the Senior Men's Club of Birmingham "Home Talent Show" will be given tomorrow in the Ball Room of Community House for the benefit of the Senior Ladies Club.

Mortimor Hyde will be master of ceremonies and baseball umpire Red Jones will be the guest artist.

Report Incorrect on Income Under Social Security

In his "Congressional Record" report mailed to many persons in Oakland County, said U.S. Rep. William S. Broomfield, it was typographically stated incorrectly that the maximum one can earn and still receive social security payments was $1,800.

Broomfield emphasized that the correct limit is $1,200.

During the past session of the 86th Congress Broomfield tried again with a bill to raise the present limit from $1,200 to $3,000.

"This is a more realistic approach in the light of our high cost of living today," Broomfield said.

He said no action was taken on his bill in the House Ways and Means Committee.

However, the Republican congressman from Royal Oak said "the House is expected to consider this proposed change I have introduced early next year when revisions of the social security laws are considered."

UPI Telephoto

SHE SMILES HAPPILY — Princess Margaret, smiling happily, sports a "high puffball" hairdo reminiscent of styles circa 1920 as she visits the Bermondsey youth club here. The princess was recently the center of a storm kicked up by a French newspaper which reported she would announce her engagement to Canadian lawyer John Turner with permission of the Queen despite religious differences.

Backstairs at the White House

Imagine! Newsmen Beg Pat Boone for Autograph

By MERRIMAN SMITH
UPI White House Reporter

WASHINGTON (UPI)—The White House driveway outside President Eisenhower's offices presented a somewhat unusual picture the other day.

Over this asphalt have passed some of the truly great names of the Twentieth Century and they've passed without being asked for such things as autographs or souvenirs.

★ ★ ★

Earlier this week, however, while the President inside was wrestling with the stubborn steel strike, outside in the driveway a young man in a long haircut was coping with his own problem.

It was Pat Boone, the TV singing star, trying to apportion fairly his dwindling supply of autographed portraits of himself among the thoroughly grown men beseiging him.

The men included secret service agents and case-hardened news photographers, all forecasting dire results if they went home that night and their children discovered they had seen Pat Boone without getting some memento of the encounter.

Boone visited the President as one of the honorary chairmen for National Bible Week.

This was a solemn week for the President because of the death of his former commander, Gen. George C. Marshall. The Marshall family wanted the funeral services kept as uncrowded as possible, so the President sent word to the White House press room that he wanted absolutely no photographers or reporters trailing him when he went to the Fort Myer Chapel Tuesday for the final Marshall rites.

★ ★ ★

Members of the Augusta, Ga. National Golf Club certainly have every reason to regard themselves as close friends of the President, but not even such old Augusta golfing companions as Cliff Roberts or Charlie Yates would address Eisenhower directly in any way but "Mr. President."

When they speak of him indirectly, they call him "The Chief." This may be largely a Republican term of affection because former President Herbert Hoover was referred to as "The Chief" by members of his staff and other close associates.

Presidents Roosevelt and Truman were "The Boss" to their intimates.

In fairness to both parties, however, it should be pointed out that originality in such matters is of necessity, rather limited. It is hard to go beyond "The Boss" or "The Chief" or simply "The President" and still preserve respectful familiarity.

She's No Blabbermouth

BUFFALO, N. Y. (UPI)—Some women can't keep a secret but not 18-year-old Lorraine Pantera. She bought a new dress and told her mother she was going to a wedding. A few days later she announced her marriage to James R. Wahl, 21.

Housewives Differ on Use Tax Ruling

(Continued From Page One)

Mrs. Coats believed the 1 per cent use tax was "fair to everyone."

"It's too bad the state can't collect the tax anymore because it's fair that everyone spending money should help support the government."

★ ★ ★

Margaret A. Wilson, 12 Bloomfield terrace, is single but runs her own home. She was very disappointed in the court's decision.

'THOUGHT IT WAS GOOD'

"I thought the use tax was a good way to get the state out of debt and would be willing to vote to increase the sales tax from 3 per cent to 4 per cent, if that's the legal way to do it," she stated.

She believed that most consumers were taking the new tax for granted nowadays, as she has. "It's too bad to upset the apple cart now."

Mrs. J. O. Gould, 257 Orchard Lake Ave., says she is "glad to see it (the use tax) go," but expects to be taxed by another method.

★ ★ ★

"We are already paying enough," says Mrs. Gould. "I really felt the effect of that one cent use tax. It certainly added up.

"But these taxes seem terrific. We're taxed to death. I'm sure that the government will find some other way to get it, though."

Mrs. Robert C. Martin, 3950 Maybee Rd., was in agreement.

"The use tax wasn't a good idea in the first place," she said. "We're taxed enough. Paychecks aren't going very far.

'West Must Coordinate Views on Summit' – Ike

(Continued From Page One)

supposedly in nopes of going to the summit as head of an atomic power.

Eisenhower's news conference —attended by about 50 reporters—was held in the Georgian Room of the Richmond Hotel here, a few miles from his vacation headquarters at Augusta National Golf Club.

Eisenhower also disclosed that he plans in his budget next year to ask increased funds for the American space program.

★ ★ ★

The Chief Executive, spending this weekend in the South in an effort to relieve symptoms of what he described as chronic bronchitis, said he does not believe the American space program should be regarded purely as competition with Soviet Russia.

In the field of military missiles, he said, the progress of the United States had been remarkable and this country now has operational intercontinental ballistics missiles.

Eisenhower said he believes American self discipline rather than such laws as the Taft-Hartley act should govern our labor-management disputes.

★ ★ ★

Mr. Eisenhower said he does not think the Taft-Hartley law is necessarily the answer to critical economic situations such as that created by the long steel strike.

But the President told a news conference he does not plan at present to ask for legislation either to bolster or do away with the Taft-Hartley law.

He called "fixed" television quiz shows, as revealed in recent congressional disclosures, a terrible thing to do to the American people.

He said he had asked Atty. Gen. William P. Rogers to look into the situation to determine the proper role of the Federal Communications Commission.

★ ★ ★

Eisenhower dealt with a medical subject.

At the time he went to Palm Springs, Calif., Sept. 30 for a nine-day rest in his layman's opinion, Eisenhower said, he was suffering from an acute cold and attack of flu.

★ ★ ★

Eisenhower added that he developed bronchitis about three years ago and the condition, he believes, since has become chronic.

The Better to See You

NEW YORK (UPI) — Justice Edward F. Breslin decided in special sessions court yesterday that it was more important for the judge to see clearly than the captain of the court officers.

Breslin, who forgot his eyeglasses, then ordered Capt. Charles Nebling to lend him his. "It's my pleasure, Your Honor," Nebling said as he handed Breslin his specs.

UF Shatters Goal With Record Sum

(Continued From Page One)

redouble our efforts to complete all our calls and return all pledges to the US headquarters.

★ ★ ★

"It's up to all of you if you want this division to share in the victory."

Glenn Griffin, advance gifts chairman, announced $81,312 raised, or 8.5 per cent more than last year. This money goes to the Commercial and Women's Division and is included in figures already announced.

Solicitations from the Birmingham area and Bloomfield Township netted an additional $21,899.

★ ★ ★

The four affiliated townships, Brandon headed by Mrs. Thelma M. Bates; Independence, directed by Merle Bennett; Orion directed by Peter Hammel, and Oxford headed by John Reid, reported $15,450 collected to date with all four still in the midst of their campaigns.

Eldred expressed sincere thanks to the more than 4,000 Pontiac area people who have taken the time to help raise funds for the 52 UF-supported agencies.

"Without all of you working so hard with a sincere spirit of enthusiasm, we would not have passed our goal today," said Eldred.

Presentations were made to Joseph H. Schultz, volunteer training chairman; Ralph Norvell, chapter plan presentations; David Ewait, UF parade chairmanship; Norman Dunn, publicity and promotion chairman, and John Hirlinger, UF speaker.

Rabbi Nathan Hershfield of Temple Beth Jacob gave the invocation and benediction.

RAF in California Fires 7th Thor Successfully

VANDENBERG AIR FORCE BASE, Calif. (UPI) — A British Royal Air Force crew successfully fired a Thor Intermediate Range Ballistic Missile yesterday from this Central California coastal base.

It was the seventh Thor fired here by RAF crews. British crews are being trained here to launch the 3,500-mile range weapon which currently is operationally deployed in Britain.

Allis-Chalmers Reports 9-Months Earnings Rise

NEW YORK (UPI)—Allis-Chalmers Manufacturing Co. today reported earnings of $15,454,928, equal to $1.69 a share, for the nine months ended Sept. 30.

This compared with net income of $13,646,017 or $1.62 a share in the similar 1958 period. The gain in profit was achieved despite a decline in sales to $387,849,262 from $393,748,854.

Court Kills Use Tax in 5-3 Party-Line Vote

(Continued From Page One)

marily on grounds it was a subterfuge to get around the constitutional three-cent ceiling in the sales tax.

Smith said:

"The literal construction of the words (use tax) without regard to their obvious purpose of protection is to make the constitutional safeguard no more than a shabby fraud, a harvest of words easily destroyed by other words."

AFTER CRISIS

The penny tax increase was after an eight month deadlock that produced payless paydays and a fiscal crisis in the nation's sixth wealthiest state.

Most taxpayers might as well waft a goodbye kiss to the pennies they paid out under the use tax increase — even though the tax now has been declared unconstitutional.

The average housewife or shopper hasn't much hope of getting a refund on the extra one per cent collected on retail sales by the state since Sept. 1.

★ ★ ★

"Most of the use tax money will go to the general fund as windfall," said Clarence W. Lock, deputy state revenue commissioner. "A taxpayer will have to have pretty good proof before he can claim a refund from the state."

CAN'T KEEP MONEY

Lock said merchants absolutely won't be allowed to retain any use tax monies they have on hand. All such collections must be turned over to the state, he said.

Theoretically, Lock said, merchants are supposed to stop collecting the extra penny forthwith. Actually, there will probably be a time lag.

Lock said combined use and sales tax collections checked in so far this month on September business total about $12,900,000. September collections are only about half processed, he said.

Next month, the department still will be receiving use tax money before the levy was declared unconstitutional.

Lock said his department has not yet set up machinery for making refunds.

★ ★ ★

"It's going to be some time before any are made," he said.

He said he expected the biggest crush of applications from those who made a major purchase, such as furniture, an automobile, a refrigerator, television set or similar merchandise.

Lock said the sales slip must be produced to show the use tax was paid. It must identify the merchant the date and the purchaser, he said.

"It must have your name on it, otherwise anyone could come in with a bunch of sales slips they picked up and claim a refund," he said.

Lock said the attorney general's office probably would be asked to rule on the validity of a refund when the sales and use taxes were combined.

"Any other types of borderline cases also will be referred to the attorney general for a ruling," he said. "We can't pay out state tax money without being sure we're on firm legal ground."

The high court acted by granting an order that prohibits further collection of the new tax by the State Revenue Department.

The order was sought Sept. 2, the day after the new law became effective, by Charles C. Lockwood, Detroit attorney. His demand was supported by Atty. Gen. Paul L. Adams.

In effect, the court majority accepted the argument of Adams and Lockwood that the new enactment was a subterfuge to circumvent the state constitution's three per cent limit on the sales tax.

A Scientific Midwife?

LONDON (UPI) — Viscount Hailsham, the head of the newly created ministry of science, was asked what his new duties entailed: "I regard myself as a midwife for the scientists," he replied.

Exports Must Increase to Balance U.S. Trade

The U.S. Government is now moving to increase American exports and ease the mounting deficit in our international balance of payments. Last year the deficit was $3.4 billion and this year it is running at the rate of $4 billion.

★ ★ ★

From time to time exporters have complained that Western European governments stimulate exports by use of far easier terms than those of the Export-Import Bank. As a measure of relief the bank has agreed to lend U.S. exporters 68 per cent of their sale price instead of the present 60 per cent. This should enable them to offer more attractive terms to foreign buyers.

★ ★ ★

The Commerce Department also announces that it is "pressing forcefully" European governments to remove remaining import restrictions on American goods. There is no dollar shortage and continued restrictions certainly will encourage protectionist sentiment in this country even in strong advocates of reciprocal trade.

★ ★ ★

Some months ago in speaking to an export group, JOHN J. MCCLOY, chairman of the Chase Manhattan Bank, stated the basic problem and cure in these words:

"In many lines (we) are pricing ourselves right out of the world market. It is up to us to make clear to all that we have to keep prices and costs down. We have to make better products and we have to work longer and harder to make them.

"There is a disconcertingly large number of people in the world who are working harder and they are rapidly achieving a competitive know-how."

Through technical advice and economic aid the United States did much to build up this competition. Now steps must be taken to equalize the situation without too much dependence on Government or retreating into trade isolation.

Agreement Reached on Philippine Bases

A joint statement by Foreign Minister SERRANO and Ambassador CHARLES E. BOHLEN indicates that agreement finally has been reached on nearly all important points on the question of U.S. bases in the Philippines.

Led by Sen. Recto M. Claro, an extremely nationalist group had demanded that the base system be discarded. They argued that American outposts on the islands tended to infringe on Philippine sovereignty and to attract hostile forces.

★ ★ ★

More moderate critics claimed that the 99 year term of the agreement was too long and that the bases covered too great an area. Further, they thought that missile sites should not be built without the express permission of the Filipinos themselves. Fear also was expressed that if the bases were used for purposes outside the islands, it might involve them in a war not of their own choosing.

★ ★ ★

These important links in the Pacific defense system were constructed mostly before the islands became independent. Under a 1947 U.S.-Philippine agreement they have been maintained but this agreement was not entirely satisfactory to the Filipinos and was revised again in 1956.

An accord has now been reached reducing the lease term of the bases to 25 years subject to negotiation and renewal. The nature of their armaments also is to be a matter of agreement between the two countries. Major U. S. installations are to be limited to four with continued guarantee of aid to the Philippines in case of attack.

★ ★ ★

Disagreement still persists in the delicate matter of legal jurisdiction of the Philippine courts over civil offenses. It is to be hoped that this too will be solved amicably.

"THE higher above sea-level people live, the stronger their lungs are," says a physician. This seems to be particularly true of hill-billy singers, more's the pity!

THE admonition, "Love your enemies," is probably followed most faithfully by those who love themselves.

ONE man told the truth when he told a girl, "You're the only girl in the whole world who thrills me." That man was ADAM.

FOR every person who leaves footprints on the sands of time there are 10,000 who leave only posterior prints.

The Man About Town

Joint Affections

Are Lavished All Around in Unique Combinations

Youth: What, by the time you appreciate it, you haven't got it.

The two family cats of
Mrs. Thomas Barnes
of 84 Virginia Ave., take turns in looking after and carefully guarding a baby squirrel which she raised with a medicine dropper, but which now is able to masticate a few peanuts.

They caress and lick it and sleep with it just as they would a kitten, and the squirrel appreciates their attention, shows no fear of them, and appears confused if neglected by them in any way.

Its mother met death when struck by an automobile, and its mate was killed when it fell from the nest in a tall tree. This one was rescued when the tree was climbed and it was brought safely to the ground.

A beautiful cock pheasant who has been guiding his harem from a nearby woods to the poultry yard of
Mr. and Mrs. Gordon Jasper
of Clarkston, and fighting with the roosters, now does not allow any of his family to get within gunshot. But he comes to the edge of the woods and crows lustily.

Wondering if he isn't the buckwheat king of Oakland County is
Tom Persons
of Oxford Township, who raised two acres of that grain, formerly grown in large quantities here. He appreciated the delayed first frost, allowing his crop to mature. Buckwheat always is one of Jack Frost's most tender victims.

A card from that young fella,
Harry O. Whitfield,
comes from Daytona Beach, Fla., and says: "We're on hasty trip, hot, lots of rain."

Back from a Northern Michigan jaunt,
Louis H. Cole
tells me that he found the autumn colors quite gorgeous.

Chairman of the Oakland County Social Welfare Board
John A. MacDonald
tells me that the national average for welfare investigators is 100 cases, but has been up to 240 cases here, but now is considerably reduced. And Jack surely knows his stuff.

The family cat in the home of
Mr. and Mrs. Lance Harreman
of Auburn Heights was missing for a couple of weeks, but has returned home—with four kittens, all well cared for. She always has been a good beggar.

Verbal Orchids to—

Mrs. Ada F. Schreck
of 146 East Ruth St.: 80th birthday.

Mrs. Eugenie Parmalee
of Bloomfield Hills: 81st birthday.

Mrs. Enno Huff
of White Lake: 80th birthday.

Mr. and Mrs. Maurice Hinckley
of Metamora; 51st wedding anniversary.

Back Seat Driver

David Lawrence Asks:

Why Do Chinese Plague Nikita?

WASHINGTON — Secret diplomacy seems to be having its troubles.

President Eisenhower and Soviet Premier Khrushchev have been exchanging letters since the latter's visit here and, while Berlin was their primary concern, they have also discussed Red China's recent behavior in Tibet and India as well as its policy of force against the Nationalists in Formosa. But the world knows little about the exact status of such things.

LAWRENCE

Is Khrushchev having trouble with his ally? Is the "peaceful coexistence" medicine to be applied, or is tension in Asia to be increased?

★ ★ ★

Amidst all the speculation, Khrushchev has just announced that he supports the claim of the Red China government to Nationalist Formosa.

Does this mean he intends to keep on supplying munitions to the Chinese Communists for their war on Quemoy and Matsu and their eventual attacks on Formosa?

The Soviet Premier must know that the U. S. Congress, by joint resolution, authorized the use of American armed forces to defend Formosa and that, if the islands of Quemoy and Matsu are seized and used as a base for attacks on Formosa, the United States is in duty bound to intervene by force.

FORCE 'RENOUNCED'

To be discussing all this now seems strange, since only last month Khrushchev piously proclaimed that he and President Eisenhower had agreed that military force must be "renounced" as a means of settling international disputes.

He did imply later that he didn't mean to bar a war of "liberation," which doubtless includes Formosa but excludes a similar right for the people of Hungary.

Prime Minister Nehru of India, speaking this week at a news conference in Calcutta, charged that Communist China does not share Khrushchev's desire for a thaw in the "cold war." He said:

"I have no doubt that Khrushchev wants peace. The same eagerness for peace is not present in China."

★ ★ ★

Nehru said also that Red China is anxious for more territory and that he thinks the attack on Indian territory by the Chinese Communists was launched to counteract the Soviet Premier's peace offensive.

It is apparent that Khrushchev has his hands full regulating the conduct of a vast bureaucracy in Moscow and is not so adept at simultaneously controlling the Red China regime.

There has been considerable puzzlement throughout the world over the acts of aggression committed by the Red Chinese at the very time the Soviet Premier has been trying to "ease tensions" in the "cold war."

PEIPING PULLING AWAY?

Some observers theorize that Peiping is pulling away from Moscow, but this doesn't seem plausible because of the great need Red China has for the alliance with the Soviet Union.

A logical explanation is that two big Communist empires have had trouble coordinating their moves and desires at a time when the Soviet Premier is engaged in a complex negotiation with Britain, France and the United States with respect to Berlin and the problems of Europe.

Khrushchev naturally doesn't want to see a flareup in the Far East at a time when he is impatient to go to a "summit" conference.

★ ★ ★

President De Gaulle of France is stalling on the idea of such a meeting now, while President Eisenhower and Prime Minister Macmillan would like to go ahead with it immediately.

Certainly the Soviet Premier is anxious to have the Red Chinese behave themselves for the time being at least.

★ ★ ★

Then, if the "summit" meeting itself comes to naught, he has some cards to play by fomenting another crisis in the Far East as well as in Southeast Asia.

(Copyright 1959)

Dr. William Brady Says:

Falling Arches Are Caused by Improper Nutrition

The trouble of children and youths variously called weak ankles, potential flatfoot, falling arches or weak feet is what doctors call talipes valgus.

DR. BRADY

The mildest weakness, perhaps the early stage of flatfoot, is a tendency of the ankles to turn in, what is sometimes called pronated feet. If not corrected this may eventually become flatfoot.

I have worried more than ever about the national malnutrition since the discovery that European children can chin themselves but American children cannot.

I believe nutritional deficiency is the underlying cause of weak ankles, pronated feet, potential flatfoot, falling arches, particularly insufficient daily intake of calcium and vitamin D.

A reasonable amount of exercise is essential for assimilation and utilization of calcium, in childhood, youth, adolescence and mature age.

Most growing children today do not get enough general exercise, play, to maintain good nutrition. On one pretext or another school children manage to avoid exercise.

★ ★ ★

No recess, or if the quaint custom of recess is still observed, there is little or no opportunity for play for the majority. Misguided parents and irresponsible teachers conspire to help pupils duck gymnasium class or to make physical education a farce. School children today ride to and from school. In the golden days there were no movies, radio, television or juke boxes to keep kids vegetating after school, so they went out and played. Everybody played.

Diets then still gave us some of the vitamins and minerals that grew in the food. The namby-pamby diet of children "refined," which is to say robbed of most of the natural vitamins and minerals.

Even so, if every growing child gets a quart of milk a day, and every mature adult at least 1½ pints, this will meet the minimum nutritional requirement of calcium, and sufficient exposure to daylight (in the shade) or direct sunshine will generate enough vitamin D in the body to assure good assimilation and utilization of the calcium in milk.

★ ★ ★

One reason why so many growing children develop such weaknesses or deformities as weak ankles, falling arches, round shoulders, spinal curvature, swayback and fatigue posture is malnutrition. Children are allowed to have tea, coffee, cocoa and pop (colored, flavored, sweetened carbonated water) instead of milk. The growing child who doesn't consume a quart of milk a day usually presents these or other signs of nutritional deficiency.

★ ★ ★

Signed letters not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis or treatment, will be answered by Dr. William Brady, if a stamped, self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

Voice of the People

Urges Motorists to Watch for Children Along Road

Parents in McVittie School area are especially concerned with the safety of our children since so many were dropped from the buses last week. Now scores of youngsters from kindergarten through sixth grade are walking on Sashabaw Road, around dangerous curves and with no sidewalks.

★ ★ ★

We have only one crossing guard and no warning signs, although these children often must cross at other streets in order to walk facing traffic.

★ ★ ★

Please, if you drive Sashabaw, drive carefully and watch out for the little ones going to and from school. No matter how much safety they're taught at school and home, they will still be hurt if drivers don't remember their own safety lessons.

'Who Needs Willson With Our Pontiacs?"

Rhea E. Vietor says it is too bad Pontiac hasn't a Meredith Willson for Pontiac would be as well known as Mason City, Iowa. For Mrs. Vietor's information we have a Pontiac automobile that has made Pontiac known all over the world. Mason City isn't known even all over the Middle West, to say nothing of the United States or the world. Not ten per cent of the U.S. population ever heard of Mason City and 99 per cent know about Pontiac. Let's boost ourselves.

Loyal Pontiac Citizen

Readers Still Debate Library Proposal

Various letters decrying erection of a public library in Waterford have no counterpart in American tradition. The free, circulating, public library came into being during our country's early days because men realized illiteracy could things, but this offer is too good life.

★ ★ ★

Authors of these letters seem to contend that libraries exist primarily for school students. For nearly 70 years books, newspapers and magazines have been a necessary part of my life. I've seen the Waterford high school libraries. I can't believe anyone could honestly assert that so small a collection would adequately serve a literate public. While the libraries contain excellent titles, they are primarily for high school students. Few adults could subsist on the books which school boys and girls enjoy.

The question isn't "Can Waterford afford a public library?" Instead it must be, "Can Waterford afford not to have a public library?" A free education for every man is part of the American dream. Does learning terminate with a 12th grade diploma?

Product of the Little Red School House Age Who Never Found His Answers in the Little Red School House Library

We, too, are retired and have to watch our expenditures, but we must weigh what we're spending against what we're getting.

★ ★ ★

As we grow older we need companionship of good books and magazines. In a library, it's possible to read $50 worth of magazines each month with no charge. This doesn't touch the possibilities which lie in the books you can read.

★ ★ ★

An added tax of even $15 may seem a burden, but how few consider that amount spent for any other luxury prohibitive?

Then there's the gratitude we feel for Mr. Steere in offering us the land. To refuse it would be like refusing a beautiful cake because we didn't want to provide a plate to put it on. Get out October 27 and vote yes on the library proposition.

Mrs. A. W. Selden
5480 Cooley Lake Rd.

Forgotten Columbus Disturbs Mrs. Vogt

I heard a student in our public speaking class at MSUO give an excellent talk on Christopher Columbus and how he, with only three tiny ships, 80 indifferent, untrained seamen, and a compass that wasn't too accurate, only five short centuries ago prove the earth was not flat.

★ ★ ★

The speaker said it made him feel strange that on Columbus Day, his children didn't hear it mentioned in the schools they were attending. I went home and asked my two junior high offspring if they knew what that day stood for. They didn't. And they hadn't heard Columbus' name mentioned in the two schools they attended, one public, one private.

★ ★ ★

I, too, got a strange feeling, mixed with sadness. Perhaps too much is happening up in the skies or deep in the earth. Maybe it's the realization there are planes which travel twice the speed of sound just five centuries after Columbus' long crossing. Does poor old Columbus understand? Forgive us, brave sir, we appreciate what you did for us, but we're off to far greater things. Or are we?

Mrs. R. E. Vogt
Birmingham

Portraits

By JAMES J. METCALFE

Sometimes I wish that I controlled. . .An elevator stall. . .That carries passengers or freight. . .Or anything at all. . .I envy those who do that work. . .As they go up and down. . .Despite their need for patience as . . . They have to meet each frown. . .I envy them because while they. . .Keep going down and up. . .It is an even diet as. . .They drink their daily cup. . .While I have ups and downs each day. . . That I cannot control. . .As they are not mechanical. . .But they affect my soul. . .So many times the downs I have. . .Exceed the ups for me. . .That I feel somewhat saddled with. . .A load of misery.

Case Records of a Psychologist:

Don't Let Child Pull Bluff at Meals

Notice how Dolly has become the autocrat of the breakfast table. Parents should NEVER make a theatrical event out of eating nor permit children to browbeat them at the table. Call their bluff. To make it easier, see that they generate a hearty appetite via outdoor play and nursery school.

By DR. GEORGE W. CRANE

CASE C-476: Dolly M., aged 4, has a superior I.Q.

"But, Dr. Crane," her mother protested, "Dolly will not eat properly.

DR. CRANE

"Why, she just dawdles along for an hour or two, and even then would scarcely touch her food if her daddy and I didn't coax her to clean her plate.

"Doesn't she look too thin? I'm afraid she may contract tuberculosis or something.

"What can we do to improve her appetite? Does she need a tonic?"

SOCIAL TONICS

Yes, Dolly needs a tonic of the "social" variety.

Alone, in a modern city apartment house, she lacks proper incentive for athletics. She doesn't romp and play enough to gain a healthy appetite.

★ ★ ★

For adults, even though they think they spend a lot of time with their children, cannot equal the stimulation of other youngsters.

And Dolly should have had a baby brother or sister at least two years ago.

Space your youngsters so they are preferably within two years of each other. Then wait a few years if you wish another pair, but try to have your children two by two.

At this late date, Dolly's mother should enroll Dolly in a nursery school at once. Many churches conduct nursery schools and there are usually many private schools of such nature.

★ ★ ★

The chief virtue of a nursery school is the social give-and-take which the children obtain from mingling with others of their own age.

BRAVO, NURSERY SCHOOLS

In this age of "only" children, nursery schools are a great boon to parents, for they help offset the grandstanding tendency of "only" youngsters.

Besides, they permit a child to romp and play. Such activity strengthens his muscles and drains off surplus nervous energy via juvenile games.

As a result, his appetite improves so he devours his food with gusto.

★ ★ ★

We psychologists aren't much concerned over their writing the alphabet or the crayon drawings of children in nursery school, for they can pick up those skills later on.

But toddlers need to learn how to harmonize socially with others of their own age.

This give-and-take is a prelude to later adult happiness and even an antidote for divorce.

★ ★ ★

So launch your children into nursery school at least by the age of three years. If no such school is in your area, urge a local church to start one, with the Women's Society as sponsor.

FOOD TONICS

And you parents should NEVER let meal time degenerate into theatricals where you beg and coax or dramatize the simple matter of eating.

Otherwise, your child will soon be ruling you with an iron hand. Instead, see that your youngster has plenty of outdoor and nursery school play.

Then place the food before him. Smile and go on eating your own meal.

If the child dawdles, remind him he can't have dessert unless he

cleans his plate. And don't let him outbluff you! Stick to your guns!

If he doesn't eat, then take him from the table when you adults are finished, and don't grow sentimental about his starvation.

He will try to dominate you for one or two meals, or sometimes longer, but a healthy child will always surrender if you adults don't do so first.

NEW SPEAKER — Sir Harry B. Hylton-Foster has been elected speaker of Britain's House of Commons over objections of the Labor party. Hugh Gaitskell, Labor party leader, issued a scathing attack against what he calls steamroller tactics in the choice of Hylton-Foster. He has been solicitor general since 1954.

Mayors Blast 'Rocket Show'

Claim They Got Only Sales Talks Instead of Missile Display

PANAMA CITY, Fla. (AP) — The mayors of two Vermont cities have termed the Air Force rocketry meeting at Tyndall Air Force Base a waste of the taxpayers' money.

Mayors James E. Fitzpatrick of Burlington and Dan J. Healy of Rutland telephoned the Burlington Free Press Tuesday night to say they were outraged by what they had seen here.

★ ★ ★

"This is a damn outrage. It is an outrage being perpetrated not only on the taxpayers of Vermont but on the taxpayers of the entire United States. We are going to pay our own way home," Nealy said.

"This entire thing is a fraud. This is terrible. This is a waste of the taxpayers' money and a waste of our time," Fitzpatrick said.

★ ★ ★

"We have been here two days and we haven't seen anything since we arrived and no one has offered to show us anything. We thought we were brought down here to see demonstrations of the Air Force defensive might. If there are any demonstrations of defensive strength going on, they are mighty secret."

"All we have seen and heard have been sales talks from airplane and electronic companies. There has been a lot of salesmanship, but not much defense down here," he added.

The Air Force flew the mayors to Florida Monday for a scheduled demonstration of missile flying.

Russians Preparing Trip to South Pole

MOSCOW (AP) — Soviet polar explorers are getting ready for a big expedition across the central antarctic to the South Pole, Tass said Wednesday.

Another group, the Soviet news agency said, is heading for the geomagnetic pole, 791 miles from the geographical pole, to collect information for a map of Antarctica.

The main expedition is to travel overland on three snow vehicles from the Soviet Komsomolskaya station. Komsomolskaya is 540 miles south of the main Soviet base at Mirny.

Tass said a tractor sledge train from Mirny reached Komsomolskaya Monday night with diesel fuel, food, scientific equipment and other gear for the expedition.

★ ★ ★

The second group, it said, is based on Lazarev Station and already has pressed 120 miles southward in difficult conditions. Soviet fliers were reported looking for a convenient pass to get the expedition across the glacier cap into the antarctic heartland.

Ann Arbor Man Will Advise Small Business

DETROIT (UPI) — F. Bradley Case, Ann Arbor, has been appointed a member of the Region XV Board of Field Advisors of the Small Business Administration, it was announced today.

The announcement came from F. W. Pritchard, director of the Detroit regional office.

Case is vice president of Reim, Inc.

Steps of Buck Rogers! Serves Vitamin Tablet

NEW ORLEANS (UPI)—A New Orleans drug chain is following in the footsteps of Buck Rogers, the famous comic strip hero who dines on capsules to save time.

The drug chain features a Lunch 'n' Vitamins special at its soda foundations: hamburger, beverage and vitamin tablet, for 49 cents.

INDIANS WIN—The U.S. Court of Claims in Washington has decided that a small group of Alaskan Tlingit and Haida Indians is entitled to payment for more than 20 million acres of land taken by white men from their ancestors. Millions of dollars could be involved in payment for the land (shaded area on Newsmap). Included are the Tongass National Forest (18 million acres), appropriated by the government in 1902-07 and Glacier Bay National Monument (two millione acres) taken in 1925, and Annette Island (86,000 acres).

Reflex Brake Revolutionary

To Be Marketed in Fall, It's Faster, Safer and Almost Foolproof

DENVER (UPI) — A faster, safer, apparently foolproof way to stop an automobile is going on the market in the Denver area this fall.

Built by the Automatic Brake Corporation, employing patents held by four inventors, the Reflex Brake Control will be sold nationally within a year.

The claims made for the Reflex brake are fantastic. Its manufacturers have defied engineers, the Colorado State Patrol and a writer — an ordinary driver — to disprove any of them.

I couldn't do it. Neither, apparently, have the experts. Chief Gilbert Carrel of the Colorado Patrol wants one on his car.

Stanley Calkins, a Denver businessman who is marketing the brake, plans to sell it mainly through service stations. He will urge new car buyers to forget about power brakes — which cost one-half to three-quarters as much —and install the new kind instead.

At least for now, it can be purchased for about $100 installed, with a guarantee against all defects for three years or 18,000 miles.

It has three major components—a power unit, a "slave" valve which actuates it and a "sensor" valve which controls the slave valve.

The new brake works this way: An overlay pedal is installed on top of the accelerator pedal, with an inch and a half clearance. In that position, the brakes are fully engaged. They are disengaged by pressing down on the overlay pedal until it touches the accelerator. Then, you're off.

Calkins said a dozen test units, one of them in operation for 70,000 miles, have functioned flawlessly.

"We expect to make only one sale to a driver," he said. "This unit will be moved from car to car. We could have guaranteed it for five years or more, but didn't want to strain the buyer's credulity.

"This brakes thinks for you in emergencies," Calkins said. "Your reflex action brings it into operation. At 30 miles an hour, you will travel 12 feet during the time your foot is moving from the gas pedal to the brake pedal. Reflex saves you that 12 feet. Ask any highway patrolman—12 feet is often the difference between life and death.

At 60 miles and hour, tests have shown the difference to be more than 100 feet.

"If you fall asleep at the wheel, your foot relaxes — and Reflex wakes you up immediately with a good firm, straight-up stop. The driver who faints, or loses control for any reason, will not endanger other lives. His car will stop immediately.

Bad Axe Rewards Plug on Arthur Godfrey Show

BAD AXE (UPI) — This is "Arthur Godfrey Week" in Bad Axe, by proclamation of Mayor Crosby Clark.

The Mayor issued the proclamation because Godfrey has been publicizing the town on his television program recently by singing the song, "I Found My Baby in Bad Axe."

India Has Big Plans

NEW DELHI — India's five-year plan includes irrigation for an additional 20 million acres of productive land.

Deaths in Pontiac and Nearby Areas

JOSEPH L. CLEMENTZ

Joseph L. Clementz, 92, of 174½ W. Pike St. died yesterday after a long illness.

A retired farmer, he was a member of St. Vincent de Paul Church and the Holy Name Society of his church.

Surviving are five daughters, Sister Mary Florence of Tiffany, Ohio, Florence Clementz and Mrs. Clara N. Tuohy, both of Pontiac, Mrs. Clifford Baker and Mrs. Mary Singer, both of Defiance, Ohio; a son, Joseph of Parkridge, Ohio, and two brothers.

The Rosary will be recited at 8:15 p.m. Friday at the Brace-Smith Funeral Home.

Service will be held at 9 a.m. Saturday at St. Vincent de Paul Church. His body will be taken to the Riverside Cemetery in Defiance for burial.

MRS. MILES COLE

Mrs. Miles (Rose A.) Cole of 35 Thorpe St. died yesterday at her home after a brief illness. She was 98.

A member of the First Church of the Nazarene, she leaves a daughter, Mrs. Edith Green of Pontiac; a son, Maurice of Pontiac; four grandchildren and ten great-grandchildren.

Service will be held at 3:30 p.m. Friday at the Sparks-Griffin Chapel with burial in Oak Hill Cemetery.

EDWIN LLOYD

Word has been received of the death yesterday of Edwin Lloyd of Roseville, a former Pontiac resident.

Surviving are two sons, Richard of Port Huron and Edwin Jr. of Roseville; a daughter, Mrs. Lillis Hogan of Roseville, and several grandchildren.

Service and burial will be held Saturday in Roseville.

MRS. CARSON POFFINBARGER

Mrs. Carson (Florence) Poffinbarger, 79, of 17 Dover St., Waterford Township, died yesterday in Lapeer after a long illness.

She was a life member of Pontiac White Shrine No. 22 and the Order of Eastern Star.

★ ★ ★

Surviving are a daughter, Mrs. Lyndell Lewis of Pontiac, one grandchild, a sister and a brother.

The White Shrine will be in charge of service and burial from Sparks-Griffin Chapel at 1 p.m. Friday. Burial will be in Perry Mount Park Cemetery.

MRS. NORMAN A. STARR

Service for Mrs. Norman A. (Margaret) Starr of 2235 Webb St., Detroit, will be held at 9:30 a.m. Saturday in the Visitation Church, Detroit. Burial will be in the Evergreen Cemetery at Lansing.

Her body is at the Haley Funeral Home, Hamilton at Puritan, Detroit.

Mrs. Starr, a sister of Rose Griffin of Pontiac, died Tuesday of a heart attack.

FRANK W. BACHELOR

WEST BLOOMFIELD TOWNSHIP—Service for Frank W. Bachelor, 80, of 5701 Orchard Lake Rd., will be held at 1 p.m. Saturday at Thayer Funeral Home, Farmington. Burial will be in North Farmington Cemetery.

Mr. Bachelor died yesterday after a short illness.

★ ★ ★

Surviving are two daughters; a son; a sister, Mrs. Arthur Lamb of Farmington; a brother, Mark also of Farmington; three grandchildren and four great-grandchildren.

ROBERT H. EVERSON

LAKE ORION — Service for Robert H. Everson, 33, of 435 Kennard St., will be held at 11 a.m. Saturday from the Flumerfelt Funeral Home here. Burial will be in Eastawn Cemetery.

Mr. Everson died yesterday of a heart attack at St. Joseph Mercy Hospital.

★ ★ ★

Surviving besides his wife Lucille, are a daughter, Pauline Linda, and two sons, Robert and Rick.

Also surviving are two brothers, Ronald and Roy; and three sisters, Mrs. Marion Sumner, Mrs. Virginia Cole and Mrs. Joyce Santee, all of Lapeer.

STANLEY H. GREEN

WALLED LAKE — Stanley H. Green, 43, of 1803 Hagerty Rd. died yesterday of a tumor at St. Joseph Mercy Hospital, Pontiac, following a week's illness.

He was a bus driver for the Walled Lake Schools System.

★ ★ ★

Surviving besides his wife Mary, are two daughters, Helen and Mary, both at home.

Also surviving are his father and a brother.

Marketed by Truck

DETROIT—About 99 per cent of the U.S. tobacco crop moves to market by truck, in addition to 97 per cent of the milk, 96 per cent of poultry, eggs and cotton, and 91 per cent of grain.

VISIONARY — Dr. Paolo Nistri of Rome, Italy, shows a sketch of his "Cinebox," a machine that would enable jukebox addicts to see as well as hear their favorite singers. The machine uses 16mm sound film instead of records. There will be 40 selections on each Cinebox. Nistri has reportedly signed a contract to have the machine distributed in the United States and Canada.

State Hatchery Output Off 41 Pct. in September

LANSING (AP)—Commercial hatcheries produced 560,000 chicks last month, 41 per cent under the output in September 1958, the federal-state crop reporting service said today.

Broilers accounted for 500,000 of the total, one-third less than last year.

Total hatch for the first nine months of the year was 15,820,000, down 18 per cent

No. 2 GOP Spot Beckons Ford

Representative Is in Good Graces of Martin for Vice President Slot

GRAND RAPIDS (UPI)—Rep. Gerald Ford (R-Mich) got boomed again last night to be the vice-presidential running mate of the Republican Party's presidential nominee next year.

John B. Martin, GOP National Committeeman from Michigan, told a $100-a-plate fund raising dinner that Ford was "qualified in every way" for the office of vice president.

Martin's remarks were followed by a standing ovation for Ford from the 500 persons at the dinner sponsored by the Kent County Republican organization.

Ford had said earlier in the day that he would accept a vice-presidential candidate role if it was offered to him.

★ ★ ★

In introducing the main dinner speaker, Sen. Thruston B. Morton (R-Ky), chairman of the Republican National Committee, Ford went to bat for the present leaders of the Republican Party in Michigan.

Ford said he endorsed Martin and Lawrence Lindemer, state GOP chairman, as heads of Michigan's Republican Party. He also included his support for Paul Bagwell, the state GOP's unsuccessful candidate for governor last year.

Ford's remarks came as a feud was unfolding between Lindemer and Postmaster General Arthur Summerfield over control of the state GOP.

Minnesota's 11,877 miles of trunk highways would stretch three times across the continental U.S., and in addition would extend along both the east and west coastlines.

Torchlighters' Ball Tomorrow Night at 9

Employes of Oakland County will stage their "Torchlighters Ball" tomorrow night beginning at 9 at the Moose Lodge, 350 Mt. Clemens St.

Proceeds will go to the Pontiac Area United Fund. Tickets are $1.50.

Some 200 people are expected to dance to the music of Fenton Weaver and his orchestra.

Eye State Safety Laws as Pleasure Boats Boom

GRAND RAPIDS (AP) — Enforcement of current state laws would erase many hazards in a swiftly growing pleasure boat boom, says Michigan Water Safety Commission chairman George Clay.

The state counted 76 fatalities due to boating mishaps in its total of 223 drownings through last Sept. 15.

But Clay said at a Grand Rapids meeting last night, enforcement is hampered by lack of a central agency and a manpower shortage under the present patrol system with diversified law groups.

Secretary of State James Hare, principal speaker, saw Michigan's boating picture at the same point now as was the state highway safety problem in 1940.

He said Michigan has about 450,000 pleasure craft and more than 6,000 lakes used for boating, fishing and swimming.

Inevitably, Hare said the boating public is getting into more law and more enforcement. "It won't be the same as highway enforcement," he said, "since there is a difficulty in patrolling several kinds of water and difficulty in getting people to accept enforcement."

HAD SUGGESTIONS

The Safety Commission's 35 members are appointed by the governor to serve without pay or expenses. The meeting last night was the second of its statewide series which ends Nov. 18 at Saginaw.

A small turnout added suggestions for mandatory boat capacity charts and capable fire estinguishers to a nine-point commission questionnaire on improved safety in boating operations.

East Grand Rapids Fire Chief John Terpstra urged all motor-driven boats carry fire extinguishers equal to their potential task.

Safety Commission member Robert Davis asked an educational enforcement program making manufacturers responsible for designating each boat's net capacity in number of occupants.

The commission's original nine questions seeks public opinion on possible legislation providing for:

Life preservers for each occupant of a pleasure boat; two persons in every boat pulling a water skier; zoning of lakes for boating, swimming and fishing; a central agency to enforce boating laws; a minimum age limit on boat operators, licensing motor boat operators; "rules of the road" for boaters; motorboat speed limits, and new requirements for lights.

DORM WALK — Sophomore Peter F. Hayes is an active member of the Williams College Outing Club and he keeps in practice by scaling wall of college dormitory.

Fighting Mail Smut Now Up to Parents

Postmaster General Arthur E. Summerfield has reported that the Post Office Department drive against dealers in mail-order obscenity is making good prgress.

The post office began its intense campaign after alerting the nation's parents to the shocking fact that debauched merchants of filth, striving to expand their lucrative business, were concentrating on children as the victims.

The Post Office Department estimates that as many as one million minor children this year will receive obscene folders and letters in the mail soliciting them to buy filthy materials and photographs.

When a smut merchant "hooks" a child, he continues to poison the child's mind by persuading him to buy increasingly vile material, much as dope peddlers work, postal inspectors state.

UP TO PARENTS

"In the final analysis," says Summerfield, "the result of our efforts to stamp out this vicious crime will be determined by the action taken by the parents of America. Both prosecutors and the courts admit their actions are influenced by the number and character of public complaints."

Since the post office cannot and will not open first class mail, it must depend upon parents to let it know when obscene material appears in the family mail box. Parents who find such mail are urged to take these steps:

★ ★ ★

1. Save all the material, including the envelope and all enclosures.

2. Send or give this material to your local postmaster.

Over the past six months, the post office has received increasing numbers of complaints from indignant citizens, with the result that the number of arrests on obscene mail charges has steadily risen.

Recently, for example, complaints from citizens in 15 states led to the indictment of two Los Angeles men on obscene mail charges involving the mailing of at least 15,000 solicitations. The men were indicted by a federal grand jury at St. Paul, Minn.

★ ★ ★

Parents can also help, Summerfield points out, by: Supporting the closing of loopholes and strengthening of legislation in this field; helping to mobilize community support behind adequate law enforcement of local ordinances and state laws; and urging maximum enforcement everywhere of federal legislation covering the mailing of obscene materials to children.

"If all of us work together in these ways," says the postmaster general, "we are certain in time to win a complete victory against this violation of the decency and dignity of our homes—a victory for our children and their future in a better America."

Wants Quiet Trumpeter

DUNDEE, N. Y. (UPI)—Belle C. Gerrie recently advertised in the newspaper that he "would like to board a slightly ill musician or one seeking rest, nice home, reasonable."

Castro Mobilizes Workers Behind Threatened Regime

HAVANA (UP)—Fidel Castro mobilized Cuba's workers today for another show of strength to combat the gravest threat yet to his 10-month regime, a threat sparked by defiance of anti-Communist revolutionary army officers.

The Cuban Labor Federation called for a one-hour nationwide strike of its million and a half members today in a demonstration of loyalty to the Cuban strongman.

Castro used the same strike technique in whipping up popular support for his ouster of President Manuel Urrutia last July after the president spoke out against the Red menace.

The country rumbled with unrest before the eyes of 2,00 American travel agents holding a convention in Havana.

Two mysterious planes flew over Havana Wednesday, showering the capital with anti-Castro leaflets, and anti-government gangs carried out hit-and-run bombing raids.

Two persons were reported killed and at least 42 injured in the attacks from speeding cars and the panic generated by the aerial leaflet bombardment. All the casualties were apparently Cubans.

Planes of the Cuban air force took off in pursuit of the aerial intruders, but there was no word that they were caught. Nor was there any announcement that any of the ground attackers were arrested.

Castro himself had rushed to Camaguey, 300 miles southeast of Havana and the capital of a rich farming province, where his provincial commander, Maj. Hubert Matos, and 30 of his officers resigned in a challenge to the leftist swing of the revolution.

BRANDED TRAITOR

The Prime Minister pinned the traitor brand on the 40-year-old Matos, an old friend and hero of the fighting that overthrew Dictator Fulgencio Batista.

There was no indication of any link between the officers' action and the raids on the capital, which were believed carried out in the presence of the American travel agents to embarrass the regime's efforts to revive Cuba's slumping tourist trade.

Cuba was reported complaining to Washington that the intruding planes — a C47 transport and a B26 bomber — came from the United States, 100 miles to the north.

The popular Matos had resigned his command in a letter to the Prime Minister declaring: "Where are you going Mr. Castro? All I have done is to let you see distinctly in many instances the problems of Communism."

SURRENDERS

Matos surrendered without resistance to Maj. Camilo Cienfuegos, the army commander who accompanied Castro. Matos refused pleas of his young officers to flee when they got word his arrest was imminent.

"That would give them a chance to establish guilt on my part," he told them.

He appealed to the young officers not to resign with him but to quit and defied Castro, who confronted them personally and shouted in a tirade "go join Trujillo"—his arch enemy, Dominican Republic Dictator Rafael Trujillo.

Matos was hurriedll flown to Havana after Castro denounced him in the town square as a traitor before a crowd bolstered by 2,000 laborers hustled into the city by government trucks.

The young officers were then arrested. As they were led out of the military headquarters, they sang the Cuban national anthem and shouted "down with communism."

This argument was advanced by a team of assistant attorneys general led by Stanton S. Faville, Adams' chief assistant.

Matos, a rabid left-winger but bitterly anti-Communist, had urged Castro to go slow in carrying out land redistribution and the breakup of big estates when the agrarian reform plan was proclaimed.

He had repeatedly warned against the rising red influence in the government and accused the Prime Minister's younger brother, Raul, of Communist leanings. His resignation apparently was triggered by the elevation of Raul to cabinet rank last Friday with supreme command over all the revolutionary armed forces.

Reports Say Persian Girl to Wed Shah

TEHRAN, Iran (UPI)—Farah Dibah, a home-grown Persian society beauty, left today for Paris without saying whether she intended to marry Shah Mohammed Reza Pahlevi. Friends said she was en route to buy her trousseau.

★ ★ ★

Marriage reports were circulated by her relatives, by court social circles and in the nation's press, but the beauteous 23-year-old Farah wouldn't say yes and wouldn't say no when newsmen asked her about an impending engagement announcement.

She was accompanied today by uncle Isfandiar Tabatabai, a member of Parliament and the Shah's adjutant, his wife, and her aunt, Mrs. Bakhtiaria Ghotbi Paoa. Authorities kept newsmen and bystanders at a distance from the reported queen-to-be.

Farah was wearing a light green long-sleeved sweater and white woolen skirt. Her chestnut hair was gathered behind her head and held with a brown brooch.

The 39-year-old Shah maintained a royal silence although it was generally believed he would announce his engagement to Farah on his 40th birthday next Tuesday.

The Shah admittedly has been hunting a bride to bear him a male heir to the throne since he dissolved his marriage with former Queen Soraya.

Neither Soraya nor his first wife, Princess Fawzia of Egypt and sister of ex-King Farouk, produced a son. Princess Fawzia produced a daughter but Soraya had no children.

West Michigan Forests Burst Into Fall Glory

TRAVERSE CITY (UPI)—Forests of the Grand Traverse Bay area this weekend are expected to be at their peak of the autumn color display, observers said today.

The annual splash of fall's woodland color in west Michigan has been retarded by prolonged warm weather and is about two weeks behind schedule. However, the red maples, beeches, poplars, oaks and other hardwoods now are just a shade away from a spectacular outdoor show.

Drug Firm Admits Discussing Prices

TRENTON, N. J. (UP)—A drug company president admitted yesterday that officials of drug firms "occasionally" discussed prices and common problems.

Kenneth F. Valentine, president of Pitman-Moore Division of Allied Laboratories, Kansas City, testified on the seventh day of a trial in which five major drug firms are accused of a criminal conspiracy to rig prices of Salk antipolio vaccine.

★ ★ ★

Valentine said he had occasionally called the president of Eli Lilly Co., Indianapolis, and had talked about mutual problems with a Parke-Davis Co. representative, but he said it was "not common practice."

In addition to Lilly, Pitman-Moore and Parke-Davis of Detroit, the defendants are Wyeth Laboratories of Philadelphia and Merck, Sharp and Dohme Division of Merck Co., Rahway, N. J.

Some of the big redwood trees in California parks and forests are well over the 1,000-year-old mark.

New Milk Type Is Called Cure for Arthritis

ST. PAUL, Minn. (UPI) — A University of Minnesota professor said today he has developed a treated milk remedy for allergies and rheumatoid arthritis.

★ ★ ★

Millions of sufferers may be helped by taking one bottle a day of treated milk, according to Dr. William E. Petersen.

Petersen said the system has proved 80 per cent effective in relieving the pain of rheumatoid arthritis sufferers and 84 per cent effective in combating allergies.

The Minnesota scientist said more than 1,000 persons took part in a test designed to show the effect of the "immune milk" on rheumatoid arthritis.

★ ★ ★

Petersen, who took part in the rigorously controlled clinical tests, said those who continued to drink the milk three months after the arthritic pain disappeared showed no return of symptoms.

Brief Wildcat Strike at Chrysler Missile

DETROIT (UPI) — About 15 pickets staged a brief wildcat strike today at the Chrysler missile plant in Sterling Township, but there was no work stoppage as employes went past the pickets.

The brief siege of picketing slowed traffic on Van Dyke early this morning. The pickets broke up on their own after a few minutes.

A company spokesman said the dispute was believed to be over job classifications.

A wildcat strike, which started two days ago, continued at Chrysler's East Jefferson assembly plant. That strike began over the reassignment of a woman worker.

Nine Pencils Apiece

NEW YORK (UPI)—More than 1,500,000,000 wood-cased lead pencils are used each year in the United States, or the equivalent of nine pencils for each man, woman and child, trade sources estimate.

THE PONTIAC PRESS

THURSDAY, OCTOBER 22, 1959 — PONTIAC, MICHIGAN — FIFTEEN

Newlyweds Are Back From Smoky Mountains

OXFORD — Residing on W. Burdick street after returning from their honeymoon trip to the Smoky Mountains are newlywed Mr. and Mrs. Robert Knauf. They were married recently at First Baptist Church of Oxford.

The bride is the former Sonja E. Boose, daughter of Mr. and Mrs. Herman Boose of 28 Stanton St. The bridegroom's parents are Mr. and Mrs. Roy Knauf of Tucson, Ariz., formerly of Oxford.

The Rev. Robert Morse performed the double-ring rites.

For her wedding, the bride chose a white lace and tulle gown featuring a fitted bodice, modified Sabrina neckline and bouffant skirt designed with tiers of pleated tulle and a lace peplum ending in a chapel sweep.

MRS. ROBERT KNAUF

A crown of lace sequins and pearls held her fingertip veil of silk illusion. She carried a bouquet of bride's roses.

Matron of honor was Mrs. Tom Knauf, sister-in-law of the bridegroom. Bridesmaids were Lois Kidd and Mrs. Ray Smithling.

Flowergirl was Kerri Boose and ringbearer, Greg Wilson. Both are cousins of the bride.

Assisting his brother as best man was Tom Knauf. Another brother, Karl, and Jerry Dodds, cousin of the bride, attended the bridegroom. Seating the guests were Jay Tuggle of Almont and Lloyd Cook of Lake Oakland.

A reception in the church parlors followed the ceremony.

Owen Hotel, Area Landmark Damaged by Fire

A Farmington landmark, the Owen Hotel, was hit by fire yesterday afternoon.

★ ★ ★

Built more than 100 years ago, it is located directly across the street from the Farmington City Hall. It was used at one time as a stop-over station between Detroit and Lansing.

★ ★ ★

Joseph G. DeVriendt, Farmington public safety director, said the fire, which took nearly two hours to control, was confined to the southwest corner of the three-story unoccupied building.

DeVriendt said children playing with matches on the third floor started the fire.

The building had been occupied, he said, until recently when the property was condemned to build the parking lot.

★ ★ ★

DeVriendt said 50 firemen from three communities, Farmington, Novi Township and Farmington Township, were unable to control the fire sooner because of heavy smoke trapped in the attic by a tin and slate roof, used years ago in building construction.

★ ★ ★

Traffic on Grand River and Farmington road was held up for nearly a half hour by the fire.

Say Service Law Frees Civilians

WASHINGTON (UPI) — The Supreme Court listened today to additional arguments by government attorneys who contend that a 1957 courts-martial ruling has allowed civilians to go unpunished for crimes committed while overseas with the armed forces.

Justice Department counsel Oscar Davis took this view at the high tribunal's opening arguments yesterday on four cases dealing with the power of the military to try civilians abroad. Final oral arguments were held today.

Davis said there just isn't any "acceptable alternative" to the military trials.

Any-Deer Drawings Begin in Lansing

LANSING (AP)—The task of drawing 101,180 special deer season hunting permits from 208,420 applicants started today in Lansing.

First hunter to have his name pulled out of the hat was Joseph Zuvich of Ahmeek. He won a permit to go after deer of any sex in section one taking in part of the Keeweenaw Peninsula.

The record flood of applications forced drawings to be held for 32 of the 39 areas where hunting of any deer will be allowed in conjunction with the regular Nov. 15-30 buck season.

$10,000 Dole Revives Highway Land Probe

LANSING (AP)—A $10,000 expense authorization pumped more life today into a Senate investigation of State Highway Department land-buying activities.

Responding to a request by Sen. John H. Stahlin (R-Belding), who heads the probe, the Senate yesterday voted $9,000 to go with the 1,000 previously provided. Stahlin wanted $25,000.

The Senate authorized the investigation Aug. 12. Stahlin's committee has met once but has yet

Board Names Township Clerk

Mrs. Chamberlain to Succeed Frank Hallett in West Bloomfield

WEST BLOOMFIELD TOWNSHIP — Deputy Clerk Mrs. Harley Chamberlain was named at last night's Township Board meeting to fill the position of clerk vacated here last week by Frank Hallett. Hallett resigned Oct. 15 for health reasons.

★ ★ ★

Mrs. Chamberlain will take over immediately.

Hiland M. Thatcher, township supervisor, said, "There will be a lot of work in the future and many new problems to be faced. We need someone who has the knowledge and experience for the position. Mrs. Chamberlain has this."

She has been with the township three years as deputy clerk, working on a fee basis.

★ ★ ★

She said she had expected to be offered the job, since no applications or inquiries had been made.

"I just didn't expect it so soon after Mr. Hallett's resignation," she said.

★ ★ ★

The position carries a salary of $7,000.

Mrs. Chamberlain lives at 3525 Walnut Lake Rd. She has two boys, James, 16, and Gerald, 14.

Says Breaking of U.S. Code Brought K Here

WAUSAU, Wis. (UPI) — Soviet intelligence agents cracked the U. S. government's secret code at the time of the recent Berlin crisis, Rep. Alvin E. O'Konski (R-Wis) said last night.

★ ★ ★

O'Konski claimed in a televised interview that the breaking of the American code had forced the U. S. into a position where Soviet Premier Khrushchev had to be invited to this country.

O'Konski said, "A lot of people don't know it, but it's true. They broke our code wide open."

★ ★ ★

Earlier rumors that America's highly secret cryptographic system had been solved were started during Khrushchev's visit to the United States. He allegedly told one of his hosts during his trip, "We read the same messages you do."

Baby Girl Dies in Imlay Fire

Grandmother Fails to Save Her as Blaze Guts Home

IMLAY CITY—Despite her grandmother's efforts to save her, a four-month-old baby girl died in a fire which gutted her grandparents' home here yesterday.

The infant, Irene Jimenez, was lying on a bed in a downstairs bedroom when the fire broke out, sweeping through the two-story frame house at 370 W. Fifth St.

Both of the victim's parents, Mr. and Mrs. Frank Jimenez of 8635 Burt Rd., Imlay City, were at work at the time of the fire.

The father, 24, was at his job with the Michigan Peat Co., and his wife, Lube, 23, had taken their three children, Frank Jr., 5; Theodore, 3, and Irene to their grandparents' home on her way to work at a muck farm in the area.

The two little boys were playing downstairs when they saw the flames in the living room.

★ ★ ★

They ran to tell their grandmother, Mrs. Tom Jimenez, who was cleaning upstairs. She rushed down to the living room and was forced back by the flames when she attempted to reach the baby in the next room.

The bedroom door was only six feet from a small two-burner kerosene stove where the fire is believed to have started, according to the Romeo State Police.

Lapeer County Coroner Dr. William C. Heitsche said the baby's death was due to suffocation and burns.

★ ★ ★

The grandmother and the two boys escaped the blaze unharmed. The interior of the house was gutted and the exterior charred by the flames.

The Imlay City Fire Department brought the blaze under control.

Warns Food Chains of FTC Crackdown

WASHINGTON (UPI) — The chairman of the Federal Trade Commission (FTC) has bluntly warned the nation's food retailers that his agency is going to crack down on unfair competition.

★ ★ ★

FTC boss Earl Kintner told the convention of the National Assn. of Food Chains yesterday that grocery chains had not strictly obeyed federal antimonopoly laws.

He warned that the FTC was going to enforce these laws more strictly.

Mamie, Newswomen to Mark Birthdays

WASHINGTON (UPI)—Mrs. Mamie Eisenhower and the Women's National Press Club will swap "happy birthdays" at a luncheon party here on Oct. 29.

The celebration will mark a premature celebration of the 63rd birthday of Mrs. Eisenhower, which falls on Nov. 14, and the 40th anniversary of the club which was founded in October 1919.

Square Dance Saturday

COMMERCE — A masquerade square dance will be staged at 7:30 p.m. Saturday at the Commerce Methodist Church for young married couples.

Lindemer Blames Gov. Williams for Illegality of Michigan's Tax

News that the Michigan Supreme Court has declared the Republican-sponsored state use tax unconstitutional brought immediate reaction from GOP party leaders this morning.

They were gathered at a $50-a-plate luncheon in Berkley to hear Sen. Thurston B. Morton of Kentucky, chairman of the Republican National Committee.

Lawrence B. Lindemer, state GOP chairman, said:

"The decision points up the major error of the Democrats in refusing to allow the voters at last April's election to amend the constitution allowing a 1 per cent increase in the sales tax.

"The Republicans were for it, the Democrats thwarted it.

BLAMES GOVERNOR

"The responsibility for the failure of the state to have a program which the people want rests solely with Gov. Williams and his administration.

"I charge him now to come forth with a tax bill. He should be well aware the citizens of this state don't want an income tax."

Merritt D. Hill, Oakland GOP finance chairman and chairman of the executive committee of the Michigan Industrial Ambassadors, called a state income tax a "very remote possibility."

Hill said:

"Now we've got to develop a whole new tax program. But what are we going to do while the house is burning down?"

Congressman William S. Broomfield (R-Oakland) said:

"I felt all along that the supreme court would rule against the use tax.

★ ★ ★

"It is imperative that the Legislature stay in session, resolve its differences and come up with a tax program to meet the state's needs.

"We need a complete revision of the state's tax program and it's certainly long overdue. I hope that the Legislature can work out a program other than a personal income tax."

Don E. Ahrens, the party's state finance chairman said he was "disappointed, of course."

"I thought we had all our problems behind us."

WON'T HURT PARTY

John B. Martin Jr., national GOP committeeman, said he didn't feel the fact that the use tax was backed by the GOP would hurt the party in the next election provided "we can come up with a good alternate solution."

Martin said there were a "number of alternatives" to the solution of the state's money troubles.

Rochester Seeks to Coordinate Club Efforts

Council Steering Group Is Elected

TO DRAFT BYLAWS — A seven-man steering committee was named last night to draft the bylaws for a community council being formed to coordinate the activities of the more than 80 organizations in the Rochester area. Named to head the committee was, left, the Rev. Robert C. Young, representing church groups. Serving with him are Iver S. Johnson, representing property owners associations, center, and Kurt W. Richter of the Rochester Junior Chamber of Commerce. The remaining four members of the committee will be named by the clubs they were chosen to represent.

Pontiac Press Photo

ROCHESTER — The first move toward creation of a community council to unify the efforts of 80 clubs and organizations in the Rochester area was taken last night at a North Hill Elementary School meeting.

★ ★ ★

The 50 organizational representatives elected a seven-man steering committee to meet within five weeks and formulate council bylaws.

Heading it will be the Rev. Robert C. Young, pastor of The Fellowship of Christ Church.

To serve with him are Iver S. Johnson, representing Rochester area property owners, and Kurt W. Richter of the Rochester Junior Chamber of Commerce.

Other committee representatives will be named from the membership of the Rochester Junior Woman's Club for Women's Clubs, the PTA Coordinating Council for school groups, and the Rochester Area Chamber of Commerce and the Kiwanis Club for area and service organizations.

Jack Taylor explained the council. He said that in many cases there is duplication of effort among clubs and that a coordinating group could better achieve common goals.

Taylor said the council would not assume the activities of any one group but serve as an agency through which all could function.

Any major project planned by one club would be scheduled on a calendar of events and each organization notified so that all groups could support it and thereby improve its chances.

In a survey of the clubs, church and school groups by proponents of the plan it was found that youth and education projects head the list. They are followed by health, welfare, crippled children and others.

★ ★ ★

Those present agreed the council should start small and grow as interests are grouped.

Mentioned as possible future community projects were a community center, hospital and swimming pool.

Councilman John Boeberitz was temporary chairman of the meeting, assisted by Chamber of Commerce president Paul Williams, Jaycee president Don Rigdon and Taylor.

Joins Southfield in Fight Against Taxpayers

Oak Park Enters 8-Mile Drain Dispute

Oak Park has joined the city of Southfield in a move to head off a taxpayers' lawsuit which is holding up construction of the Eight Mile Storm Drain.

The Oak Park City Council is petitioning the South Oakland Drain Board to change its present asseessment law to allow the city to make the levy.

Adjacent Southfield filed a similar petition with the drain board last week. Both affected municipalities had to file the petitions before the board can take action.

Present financing plans for the four million dollar-plus storm drain permit the Drain Board to assess property owners directly benefitting by the drain.

★ ★ ★

The petitions seek to change the law so that the cities will decide how they will in each case assess taxpayers.

The Oak Park Council announced that it would consider spreading the tax over all property owners of the city rather than just assessing those in line to benefit directly from the drain.

★ ★ ★

The taxpayers' suit filed by Southfield property owners in Oakland County Circuit Court protests "confiscatory assessment." The suit has stalled construction of the storm drain for the past year.

Experts Gather at MSUO

Study County Home Rule

By LEE WINBORN

Would home rule government answer Oakland County's mounting service needs due to area population growth?

★ ★ ★

This question was explored by experts yesterday during a day-long symposium at Michigan State University Oakland.

Described as a constitutional grant of powers to the local unit —in this case the county—to satisfy area needs, home rule was discussed pro and con by the panelists.

Proponents of this type of government defined it as the right of counties, cities and townships to provide local government by charter with the authority to pass ordinances on local matters.

This is contrary to the present county government which functions under special and local acts of the state Legislature.

Leading the panel discussion and acting as moderator was Dr. Charles Adrian, director of the Institute for Community Development at MSU.

ADRIAN, HAMLIN SPEAK

Describing the needs of government in Oakland County was the chairman of the Oakland County Board of Supervisors, Delos Hamlin.

After Dr. Adrian traced the development of county government in the United States, Hamlin brought it into focus on the local level.

He said counties now have "very little authority to determine their own administration under the present set-up."

Hamlin pointed out that state laws set up too many limitations and restrictions, and that although the county has caused a number of laws to be passed during the past seven years to streamline local government, county administrators are more familiar with their own problems than the state government.

Presenting the affirmative side of the argument Mrs. Hope F. Lewis, Birmingham supervisor, said she favors county home rule because those administering local government and those living in the county know more about what's going on than the state legislators.

Mrs. Lewis added that there is a need to encourage and sustain participation in local government and that county officials must be granted the powers and independence to handle their own responsibilities which are "peculiar to their own situations."

★ ★ ★

Maurice Croteau, Pontiac supervisor, told the 100 county residents and officials present what he thought were the disadvantages of home rule.

He said some supervisors in the township feel the set-up under which they operate is still effective.

He added that it will be up to proponents of the plan to show where inefficiencies and inecomonies exist plus where they could be eliminated before it could be recommended as a solution.

Other township and county officials, Croteau said, have a natural fear of the unknown and would object to any sudden change without proper consideration.

Talking about how county home rule could be implemented, John L. Carey, Springfield Township supervisor, said there are three methods.

One is by a constitutional convention, the second by amending the state constitution and third through the enactment of a county home rule law by the legislature.

★ ★ ★

Carey said that under its present form of government each of the county departments has to await action by another before proceeding with its own work. Under home rule departments would be consolidated under the administration which would coordinate all activities.

The symposium was sponsored by the Greater Pontiac Community Council in cooperation with the Institute of Community Development at MSU and the Office of Continuing Education at MSUO.

AT MSUO SYMPOSIUM — Is home rule the answer to the problems of running a growing county such as Oakland? This was the subject of a symposium yesterday at MSUO. Among the panelists and officials discussing the question were (standing, left) Dr. Charles Adrian, director of the Institute for Community Development at MSU; Mrs. Hope F. Lewis, Birmingham supervisor; Philip E. Rowston (seated, left), mayor of Pontiac, and Delos Hamlin, chairman of the Oakland County Board of Supervisors.

PATRICIA ANN SIPE

Former residents of Auburn Heights, Mr. and Mrs. James Sipe of Gladwin announce the engagement of their daughter Patricia Ann to Harry Davis. He is the son of Mrs. Earl Davis of Gladwin. No wedding date has been set.

Wixom PTA Meets Tonight at School

WIXOM — The Wixom School PTA will meet at 8 p.m. tonight in the multipurpose room of the school. Teachers will meet in their rooms with the parents between 7:30 and 8 p.m.

After the business meeting Al Masini, manager of the Proud Lake Recreation Area, will discuss "Our Natural Resources."

Greater Nerve Hath . . .

TAMPA, Fla. (UPI)—City policeman Richard Del Valle reported yesterday his raincoat, leather jacket and car seat cushion were stolen from his squad car.

Use Tax Decision May Nip Soapy's Presidency Hope

LANSING (AP) — Politically, today's use tax decision probably was a blow to Gov. Williams' presidential ambitions.

The thinking in the capitol was that the resulting state financial stress, and probable continued meeting of the Legislature, would tend to tie the Democratic governor to his desk in Lansing.

★ ★ ★

Williams' national ambitions would be furthered if he were free to do considerable traveling about the country in the months leading up to next year's Democratic National Convention.

It was well known that many in the governor's inner circle were strenuously hoping for a decision upholding the use tax law, even though Williams and Democrats fought it in the Legislature.

Wayne Professor Dies of Knife Wound

ROYAL OAK — An associate professor at Wayne State University and father of two was found mortally stabbed at his home here at 217 Girard Rd. yesterday.

Dr. Charles L. Boye's wrists had been slashed with a razor and a ten-inch knife was stuck in his chest. Royal Oak police deemed his death suicide today following an investigation.

The knife grazed his heart and he bled to death, doctors said.

He was associate professor of education at WSU since 1946. Funeral arrangements are being made by Spiller Funeral Home in Clawson.

'Food for Peace' Wheat Group Eyes Joint Plan

WASHINGTON (UPI) — A five-nation "Food for Peace" wheat committee has recommended a joint plan for using surplus wheat to promote better health and economic development in needy countries.

★ ★ ★

No details of the plan were revealed in the announcement issued as the committee wound up a three-day meeting.

A spokesman for the U.S. delegation said committee members agreed to withhold details until they had been studied by the governments concerned.

Nations represented on the committee with the United States included Australia, Canada, France and Argentina.

★ ★ ★

The United Nations Food and Agriculture Organization is also a member of the committee.

The group was formed earlier this year after President Eisenhower called on administration officials to develop more effective methods of using farm surpluses in a "Food for Peace" campaign.

Speeding Baer Not Ex-Champion

HARRISBURG, Pa. (AP) — A state trooper says the reported fining of former heavyweight boxing champion Max Baer for speeding on the Pennsylvaia Turnpike "was all a mistake."

A Max Baer was halted for speeding at 75 miles an hour on the tollroad on Tuesday. He was taken before a justice of the peace and fined $20.

Trooper Robert J. Uscowskas said the man was asked whether he was the former prizefighter.

"The man just smiled and somebody took it that he was," said Uscowskas.

Baer, the former boxer, said in California yesterday that he was at his Sacramento home on Tuesday.

"In fact, I've been here constantly for three weeks and I haven't been in Harrisburg for three or four years," he said.

DISPLAYING OLD-FASHIONED BONNETS—Three members of the Whittier School PTA are shown modeling their bonnets at a dress rehearsal for an Old-Fashioned Festival which will be held at the school Friday from 6 to 9 p. m. They are (from left) Barbara Robinson, 393 Ditmar Ave., a teacher; Mrs. Jessie Whiters, 48 Pleasantview Ave., PTA president; and Mrs. Robert Gordon, 280 W. South Blvd., chairman of the fair. The fair will feature games and refreshments for children and their parents, with the highlight of the event to be an auction sale of children's toys and household articles.

Hunger Strike Against ROTC Ends at 50 Hours

BERKELEY, Calif. (AP)—The 18-year-old son of an Air Force colonel ended his hunger strike against compulsory military training five days ahead of schedule.

Faint and weakened by hunger—he lost eight pounds in his 50-hour fast—Frederick L. Moore Jr. of Arlington, Va., said he thought he had accomplished his purpose. More than 1,000 students at the University of California signed his petition to make Reserve Officers Training Corps instruction voluntary.

The boy's father disagreed with his son's position on the ROTC but said: "I have tried to raise my children to make their own decisions."

Pennsylvanians to Hold Dance Saturday Night

The Pennsylvanians Club of Pontiac will hold its annual dance Saturday night at Knights of Columbus Hall, 295 S. Saginaw St.

The four-hour affair, open to the pubic, will begin at 9. Music will be the Mello-Tones. Tickets may be obtained from the dance chairman, Thomas Coburn, 5481 Oak Park Dr., Independence Township, or any club member.

Alexander the Great founded the city of Alexandria, Egypt, in 332 B.C.

Longest U.S. Ore Boat to Be Launched Nov. 7

DETROIT (UPI) — Launching of the new 730-foot-long Arthur B. Homer, which will become the largest ore carrier under American registry on the Great Lakes, is scheduled for Nov. 7.

★ ★ ★

The new ship is being built by Great Lakes Engineering Works at River Rouge for the Bethlehem Steel Corp. It will replace the 729-foot Edmund Fitzgerald as the largest American-registered ore carrier on the Lakes.

★ ★ ★

The ship, to be launched in the Detroit River, is named for the president of Bethlehem Steel and will have a capacity of more than 25,000 tons.

Pottery is Rumania's oldest craft, and some elements of its design can be traced back to Greco-Roman times. Some pottery is made for decorative ceramics, some for useful utensils.

Halloween Is Party Time for Waterford Children

Townshipwide Halloween parties are being planned by the Waterford Recreation Department, with a "trick-or-treat" scheduled from 6 to 7 p.m. Oct. 31, according to director Tom Belton.

★ ★ ★

With the cooperation of five leading civic organizations in the township, the evenings activities have been set up by age groups at specific elementary school grounds.

This is the fourth year the department has sponsored the project, where porch lights are turned on at a specified time. The children later will go to designated areas for organized fun.

An outdoor party for Drayton Plains teen-agers of junior high school age will be held from 7 to 8:30 p.m. at the Drayton ballpark. This event is being sponsored solely by the Recreation Department.

★ ★ ★

Costumes will be judged around a big bonfire and colored movies will be shown in a "haunted house." Organized group games will be in progress in the lighted baseball field. Refreshments will be served.

Other parties will take place at the Hudson Covert School, sponsored by the Lakeland Optimist Club; at the Donelson School, by the Junior Chamber of Commerce; the Schoolcraft School, by the Waterford Lion's Club, and the Drayton Plains School, by the Waterford-Drayton Rotary Club.

Township residents have been asked to cooperate in turning off their porch lights at 7 p.m. to encourage the youngsters to go immediately to the parties.

State Police Captain Denies Knight Abuse

BRIGHTON (AP)—The prosecution planned to complete pretrial examination today of Alvin W. Knight, accused of slaying State Trooper Albert W. Souden Sept. 3.

★ ★ ★

Under cross-examination yesterday, Capt. Thomas H. Grant denied that Knight was mistreated and compelled to take police to the grave of Souden.

Grant said, "I used normal, reasonable procedures." He denied he was angry at Knight.

Knight's court-appointed defense attorney, Martin J. Lavan, asked Grant if Knight was ever left alone with Detective Lt. Howard Whaley of the Redford Post and if Knight had complained about Whaley.

★ ★ ★

Grant replied that Knight had complained of being struck and kicked. But he said he had made no inquiry about it.

The defense is expected to call the first of 20 witnesses tomorrow.

Ousted Envoy in Washington

Tells State Department of Shocking Expulsion From Moscow

WASHINGTON (AP) — Russell A. Langelle, central figure in a bizarre diplomatic incident in Moscow, returned to Washington early today for consultation with State Department officials.

Langelle, a security officer at the U.S. Embassy in Moscow, was expelled by the Soviets on espionage charges.

But his version of what happened—which is backed up by the State Department—is that he was seized by five Soviets at a bus stop near the embassy. He said he was taken to a nearby building, questioned for nearly two hours, and finally offered a bribe to spy for the Soviets. He turned it down.

Langelle, arriving in New York from Europe Wednesday night, told newsmen he thought he was seized because "I was responsible for the physical security of the embassy and for the classified documents, codes and personnel."

Langelle said Western diplomats in Moscow were shocked and amazed by the incident and "like myself, couldn't believe that such a thing happened."

In answer to a question, Langelle said he had never worked for the Central Intelligence Agency.

Belgians Busy Gossiping Over Royal Family

By WILLIAM ANDERSON

BRUSSELS (UPI) — The family just doesn't seem to get along well with each other. One son, a bachelor, hasn't been too happy since he was forced to take over the family business from his father.

Another son recently got married in the midst of a squabble over whether it should be a church or a civil ceremony. And the father is apparently having some trouble with his second wife over where they'll live.

All of which would be their own private business except these are members of Belgium's royal family.

The first son is King Baudouin I. His brother in Prince Albert. Their father is ex-King Leopold III.

The family's latest contribution to the grinding gossip mill is the fact that Leopold's wife, the beatiful Princess Liliane de Rethy, has twice gone on vacation without her husband recently and he wasn't even at the airport to greet her when she got back. Instead, he sent the 29-year-old Baudouin.

★ ★ ★

The princess is reported to be unhappy over the new home the Belgian government has proposed that she and Leopold move into, leaving Baudouin alone in the Laeken Palace.

★ ★ ★

Court sources have dismissed the reported rift between Leopold and his wife by saying the ex-king didn't go on holiday with her because she likes hunting in Austria and he doesn't.

The family hasn't been getting along too well with the people either.

This began when Leopold, who had become king in 1934 upon his father's death in a mountain-climbing accident, kept at his job during the German occupation of World War II.

After the war, the Belgian people were sharply divided over whether Leopold should still be king. In 1950, a plebiscite decided that he should stay, but after 10 days of riots and demonstrations against him, Leopold asked that his powers be transferred to Baudouin.

One thing the Belgians have long held against Leopold is the fact that he chose a commoner, Mary Liliane Baels, as his second wife and made her a princess.

FIRST WIFE DIES

His first wife, Queen Astrid, the mother of Baudouin, Albert and sister Josephine Charlotte, was killed in an auto acciden in 1935.

Baudouin has never hidden the fact that he thinks his father was wrongly deposed.

For the first years of his reign, he ruled in isolation from Laeken Palace, where he lived with his father, who continued to have a strong voice in in the country's affairs. The new king showed his attitude by rarely smiling and by giving a generally gloomy appearance in public.

★ ★ ★

But he has changed since his visit to the United States last May when the easy, frinedly approach of the Americans seemed to turn him into a smiling, relaxed and reachable monarch.

Baudouin got a tremendous welcome when he returned home. And the general atmosphere surrounding the royal family lightened further when the 26-year-old Albert announced he would marry the vivacious and beautiful Italian Princess Paola Ruffo de Calabria.

Then, suddenly, the storm clouds gathered again when it was learned that the wedding would take place at the Vatican instead of being the civil ceremony required under Belgian law.

Rumors said the Vatican marriage had been engineered partly by Leopold. In any event, public opinion forced a change in the plans and the wedding finally took place in Brussels, last July.

When the dust settled, it was learned that Leopold would be moving out of Laeken Palace with his wife and their three children.

★ ★ ★

After looking around for a suitable home for the former king, the government decided on Argenteuil Castel about 20 miles from Brussels.

★ ★ ★

Argenteuil is set in 300 acres of a beautifully wooded park. Transforming it into a home for Leopold and his family, his secretarial staff and servants will cost several million francs.

The Socialist opposition howled against spending the money which must come from government funds.

Parliament has just been forced to vote a $72,000 annual increase to the privy purse for Prince Albert and still another increase is expected since Paola is expecting a child early next year.

Parliament already appropriates one million dollars a year for the royal family's upkeep.

Before Argenteuil Castle was suggested as the future home, Leopold and his wife had drawn up plans for a new mansion on the Laeken Palace grounds.

But the plans were vetoed by the government and Leopold's wife was furious.

Some observers think most of the royal squabbling could be settled if Baudouin took a wife. But despite rumors associating him with almost every eligible princess in Europe (and even one Hollywood starlet), the young king is likely to remain a bachelor for some time.

And the royal family is likely to keep Belgian tongues wagging.

Alterations Are Extra

NEW YORK (UPI)—For every four dollars spent on new home construction, an additional dollar is spent by homeowners to alter or add to existing dwellings, according to building industry sources.

Old Boom Dangerous

BURLINGTON, Vt. (UPI)—Staff Sgt. Aubrey King, a specialist on explosives at Ethan Allen Air Force Base here, said that "if all the potentially dangerous souvenirs from the past six wars were to explode simultaneously a good portion of the U.S. population would disappear."

You May Save Money

Review Insurance Policy

By FAYE HENLE
NEA Columnist

Are you one of five million insurance holders whose policy is extra-rated? (This means you've been asked to pay more than average for your protection.)

If so, review your policy. You may be in for a big surprise.

In recent years medicine has made tremendous forward strides. For this reason, industrial occupations once considered hazardous, now no longer carry the extra-danger rating.

Or you may have changed into less dangerous work since your original policy was written.

These factors, I'm told, could make a difference in your premium payments. You might be able to save money by reviewing your policy.

Wonderful as the world of electronics may be, the Institute of Life Insurance tells me that individual companies have no way of knowing whether you are now unnecessarily carrying an extra-rated policy.

How would you know?

Well, a high percentage of policies will show clearly they are extra-rated. Or, you may recall your agent explaining to you that he, for one reason or another, was forced to write such a policy for you. If this is so, and your insurance dates back a number of years, it is time for a recheck.

★ ★ ★

I'm told there has been considerable easing of rates in the cases, for instance, of persons who have survived cancer or tuberculosis for a five or 10-year period. Or, say you have diabetes. You might still need to carry a more expensive policy, but this extra-rating might be shaded a degree.

While we are on this subject of insurance, you might wish to review any recent changes in your life in the light of a policy that you have carried for years.

As is the case with other products and services, refinements are constantly being devised both to enable companies to earn more and to give the customer more. Sometimes it is more for his money, most often it is more, but at a price.

Here is a rundown of what insurance men call "riders" — extra protection that can be added to existing policies — that might be worth considering:

For the recently married and for the new parent, a family income rider which sets up double protection for the years of greater family dependency, is worth considering.

NEW PROVISION

Quite new, and good for younger people, is the provision that allows for insuring future insurability. In such a case, you want more protection than you can now afford.

This "rider" insures that at some future date you will be able to qualify for more insurance.

For older folk — and at no extra cost — is a provision for retirement income that uses the values in your regular policy but permits the purchase of an annuity which sometimes provides a larger income than could be secured through a currently purchased annuity.

★ ★ ★

And, a reminder to those in upper tax brackets: a rider called "assignment of policy equities" which frequently is called for by lenders to cover extension of a loan. This can be used for designating a beneficiary regardless of who pays the premium and thus relieves the policyholders from estate taxes.

Choral Festival Next Thursday at Waterford

The first fall festival of the season will be presented at 8 p.m. Oct. 29 by the choral music department of Waterford Township High School.

★ ★ ★

One of the country's leading music teachers, Mrs. Amanda Baxter of Toledo, will be the guest for the program. She'll visit choral classes the next day.

Participating will be the Girl's Glee Club, the Boys Glee Club, three ensembles and the A Cappella choir. A quartet from Interlochen Music Camp will sing folk songs.

Director of vocal music at Eastern Michigan University, Robert Waterstripe, will be a guest vocal director. He'll also conduct a clinic the day after the concert.

Form 1st Dental Society

NIAGARA FALLS, N.Y. (UPI) — One hundred years ago 26 dentists got together in Niagara Falls and formed the nation's first permanent dental society.

In its centennial year, the association has grown to embrace 94,000 members — making it the world's largest dental society.

Hope for Boom Has Gone Bust

Strike Kills Prospect of Cutting Jobless Toll to Two-Year Low

WASHINGTON (UPI) — The economic boom anticipated for the last three months of this year is out the window. Government officials blame the steel strike.

The boom had been expected to whittle unemployment to the lowest level in two years. Officials also had hoped it would produce enough tax revenue to keep the federal budget in the black.

But the narrow budget surplus of 95 million dollars predicted for the current year now is in grave danger of turning into a deficit and unemployment is expected to remain above 3 million because of the 99-day steel walkout.

Earlier in the year government officials had expected that a sustained improvement in the economy in October, November and December combined with usual seasonal trends would drop unemployment in October to below three million.

★ ★ ★

Labor Secretary James P. Mitchell was so confident of this last spring he offered to eat his hat publicly if it didn't occur. With 3,230,000 persons out of work in September and layoffs in steel-using industries mounting, Mitchell is being advised to prepare to devour his fedora.

The economists, meanwhile, expect that the October-November - December boom will be stretched out. An earlier estimate of a $495 billion annual output rate of goods and services in the three months has been abandoned as out of reach.

The government will report in a day or two that total output in July, August and September slid below the 484-billion-dollar annual rate posted in the spring.

AP Wirephoto

RAMP'S THE BIG FEATURE — People stand on the ramp inside Frank Lloyd Wright's creation, the new Solomon R. Guggenheim museum on New York's Fifth avenue. The building's gallery consists of one long corkscrew corridor with only one wall. The ramp is more than a quarter of a mile long and its floor rises at a 3 per cent grade circling upward from the main central court. Pictures are hung only on the outside wall. The daring new museum opened Wednesday.

Whale Toll Heavy

Modern whalers shoot 40 to 60 whales in one day when the hunting is good.

Attorney's Comment Isn't Heaven-Sent

MILWAUKEE (AP)—The exclamation, "Oh, for heaven's sake," meant a sentence of 30 days in jail for Harold Harris, an attorney. The contempt of court sentence was ordered by District Judge Frank Gregorski when Harris blurted out the comment as one of his clients was fined $150 for drunken driving.

DON'T BE AN EASY MARK — Here are two samples from animated cartoons which will be distributed by the Securities and Exchange Commission next month to hundreds of television stations in a campaign against stock swindlers. The SEC's 'Wise Owl' urges viewers to 'investigate before you invest.' The broadcasting industry, including radio stations which will orally warn listeners to ignore stock tipsters, will donate air time.

Served Gallantly in 2 Wars

U. S. Deports Filipino Hero

SAN FRANCISCO (AP)—A Filipino hero who served with the U. S. Army in World War II and the Korean War has been ordered deported Friday.

★ ★ ★

Also ordered out of the country are his wife and three American citizens—their daughters.

The U. S. Immigration Service has charged Felix Montalban, 36, with being in the United States illegally.

Montalban was discharged from an Army ship in San Francisco in 1952 under the McCarran-Walter Act forbidding aliens to work on government ships.

His wife, Remedios, 30, whom he married here in 1952, was in San Francisco on a student's permit.

★ ★ ★

Montalban served with the U.S. Army Transport Service in World War II and the Korean War, fought as a guerrilla in the Philippines, and was a steward aboard an American transport when it was bombed and sunk off the Philippines by the Japanese in 1942.

Before the sinking, a report goes, the captain handed him $100,000 from the ship's safe.

"If you're saved," the captain said, "try to get this money into American hands."

★ ★ ★

Washed ashore on an island, Montalban turned the money over to American forces he met, then went into the jungle to fight as a guerrilla.

List Subjects for Legislature

Next State Session to Consider Tri-County College, UP Resources

LANSING (AP)—Justices of the Peace, Upper Peninsula resources and the new tri-county community college will come under quick study by legislative committees this year.

★ ★ ★

Ten new study committees, three in the Senate and seven in the House, were created yesterday in a flurry of last-minute votes before lawmakers adjourned for eight days.

The committees will make their reports to the 1960 Legislature which convenes in January.

One Senate group will look into the feasibility of developing Tri-County Community College north of Saginaw into a four-year institution. A second will study procedural problems confronting justices of the peace and a third the confusions stemming from accounting and reporting practices in state finances.

★ ★ ★

The seven Upper Peninsula representatives in the House will form a committee which will study natural resources north of the Straits and their potential benefits to the area economy.

Reported unfair trade practices in the milk industry will come under scrutiny of a four-man committee.

Other House committees will study Michigan's water resources and the need for impoundment of excess surface water, pension and retirement plans covering state and municipal employes, administration of state-owned lands, state assistance to county health and welfare programs and efficiency of claim investigations of disability benefit applications under the federal Social Security Act.

Coldwater Leaders Eye Kalamazoo Mall

COLDWATER (UPI)—More than 100 members of the retail division of the Coldwater Chamber of Commerce will go to Kalamazoo Wednesday to view that city's mall.

★ ★ ★

Chamber Manager Charles Hill said a similar project is being considered for Coldwater.

Bell Rate Hearing to Wind Up Today

LANSING (AP) — Cross-Examination today of Public Service Commission witnesses was expected to wind up the eight-months' hearing on a Michigan Bell Telephone Co. rate increase application.

Briefs then will be submitted by the commission staff and the utility. A decision on the bid for a rate hike of up to 25 million dollars is not expected before December.

Robert Demorest, commission accountant, yesterday defended his recommendation to disallow charitable contributions and club dues as business expenses.

The utility sought to deduct some $300,000 for such items. Demorest said they should be charged against stockholders rather than taxpayers.

He was supported by Commissioner James H. Lee, who said several bills to make such deductions legal have been defeated in the Legislature.

Tom Hancock, public utilities economist, said revision of the capitalization structure of the utility could save $1,123,000 annually in income tax.

Hancock said Michigan Bell could produce this result by relying on 40 per cent borrowed capital instead of the present 26 per cent, and reducing equity capital accordingly.

'Short' Sales Bode Fears by Some

Dividends Up but Profit Taking Is High

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Good and bad news came in about equal doses today in Wall Street.

Betting odds on a further drop in stock prices have risen—judged by the sharp hike in short sales.

Early reporting industrial firms in the main show gains in earnings for the summer quarter—but the steel company and railroad company reports are coming in now, to, and they show operations at a net loss.

* * *

Dividend payments this year are running nicely ahead of a year ago—but there's a belated realization in the business world that the effects of the steel strike are going to drag through much of the fourth quarter and perhaps until next year.

* * *

What this could do to fourth-quarter earnings and dividends is getting more attention from the traders in stocks.

But the steel strike gets only indirect blame for the sharpest one-month rise in the short interest in stocks since May 1958. The largest volume gains in stocks sold short are in shares that have been bid up briskly and therefore appear to some traders as over-priced.

* * *

A short sales is made by someone who has borrowed that stock. He is betting that the market price will drop so that he can buy the stock at bargain prices and return it to the owner, pocketing the profit on the deal.

* * *

Short interest on the New York Stock Exchange has jumped by 335,940 shares in the last month to a total of 3,421,641, the highest since April.

It represents the belief of the traders that prices in 955 stocks among the 1,506 listed will drop.

DIVIDENDS BRIGHT

The dividend news is much brighter than the expectations of these bears. The Commerce Department reports that cash dividend payments rose in September to bring the total for the year to Sept. 30 to nine billion dollars, a gain of 324 million over the like period in 1958.

Increased dividend payments and resumption of payments this year have far outrun decreases or omissions, a marked change from last year. This has been one of the sustaining factors in the stock market.

Recent fears that the trend may have run its course have sparked some selling.

Nigeria Well Populated

Although it covers less than a thirtieth of Africa, Nigeria contains a seventh of the continent's population.

Flags Wear Out

WASHINGTON — An average flag in daily outside use in the northern states lasts for an average of three months.

Britain produces about 40 per cent of the food it consumes each year.

IT LOOKS LIKE THIS — This is an exterior view of the new Solomon R. Guggenheim museum on New York's Fifth Avenue which was formally opened Oct. 21. The unusual looking structure, built round and round like a corkscrew, was designed by Frank Lloyd Wright. It is a memorial to the late Solomon Guggenheim, industrialist, philanthropist and patron of art. The building's diameter at the summit is 128 feet and only 100 at the base. It resembles a giant toasted popover.

AP Wirephoto

New Car Shortage Will Pinch Us in November

By BEN PHLEGAR
AP Automotive Writer

DETROIT (AP) — For the first time since the Korean War new cars may be in short supply by some time next month.

This will be true regardless of an immediate development in the steel situation.

General Motors dealers will be hardest hit. Ford, American Motors and Studebaker-Packard may skim by. It's touch and go with Chrysler.

GM builds almost one of every two cars sold in the United States. Apparently it is going to have to quit building in another 10 days because of a lack of steel. Present indications are that the big shutdown will last from three to five weeks. It would take that long to fill up the supply lines down to final assembly.

At the current rate of new car sales — about 18,000 daily — dealers will have in the neighborhood of a 30-day supply on Nov. 1.

Since the industry will continue at about 50 per cent of normal for a few weeks after that date, why the shortage?

PREFERENCES DIFFER

It could be because you might prefer a Chevrolet while your neighbor wants a Ford and your friend down the street has his eye on a Plymouth. Somebody else is looking for one of the new compact cars while a couple of the wives on the block have their hearts set on a Lark or Rambler.

Or it could be that you want an automatic transmission, power seats and air conditioning. Your friend would settle for nothing except a straight stick and economy engine.

By now you can begin to understand the tremendous inventory problems the dealers have in order to meet your needs and desires. When the flow of new cars from the factories slows down or stops you have to take what you can get, or put your name on a waiting list.

Even in normal times a dealer may have to try a number of other dealers to come up with the exact model, equipment and color you have in mind.

More and more cars are ordered special, direct from the factories. The manufacturers have done much to speed up this process in recent years. But if the factories aren't building it won't help you at the moment.

★ ★ ★

Still another problem the manufacturers face is to get the models most in demand into the regions where they are needed. Color preferences vary from area to area. So do body styles and engine preferences.

The fact that this is the very early part of a model year magnifies many of these problems.

Production plans for the model introduction period as to number, body style, engine, colors and the like are made by reviewing previous years. If there is a sudden switch in demand — possibly because of new styling — from the last model year, distribution problems are bound to develop.

The industry had planned to build about 650,000 cars this month. It will fall short 50,000 or more.

Chrysler divisions were hurt by internal labor troubles and are considerabl behind their goals. Chevrolet and Ford both will have to build faster in the final two weeks of the month than they did in the first two to meet their quotas. And in the case of Chevrolet this is virtually impossible because some assembly lines already are shut down.

GM RECOVERS

General Motors lost almost one month's production at the start of the 1959 model year because of its own labor problems. But it recovered nicely as the year progressed. On the other hand Chrysler was hard hit by a glass strike early in the year and had a hard time regaining its share of the market.

A prolonged shutdown would make the coming year rugged for everybody.

Real Hoboes Fewer

BRITT, Iowa (UPI)—Prosperity and government welfare programs are cutting into the ranks of the hoboes. This year only about 55 bona fide "professional tramps" swung off freight cars here for the 59th annual hobo convention. However, 20,000 other persons were on hand for the free stew.

There are about 25 million dairy cows in the U.S.

Widow Will Get Flynn Estate

No Mention in '54 Will of Latest Girl Friend; Her Lawyer 'Amazed'

NEW YORK (AP)—Errol Flynn left the bulk of his estate to his estranged wife, actress Patrice Wymore. Immediate reaction pointed to a court battle over the will.

The value of the estate, filed for probate Wednesday in surrogate's court, was listed simply as being "more than $20,000." Reports, however, estimated the estate at more than $100,000 but well under a million dollars.

★ ★ ★

Flynn, 50, died of a heart attack Oct. 14 at Vancouver, B.C. At his side was his 17-year-old girl friend of the past two years, Beverly Aadland.

★ ★ ★

No mention was made in the will, drawn up in 1954, of Miss Aadland. The blonde Beverly told newsmen several days after Flynn's death that it didn't matter if she was not mentioned in his will.

In San Francisco, however, her attorney, Melvin Belli said he was "utterly amazed" at lawyer Justin M. Golenbock of New York city, named executor along with Miss Wymore.

"Considering the documents Golenbock has and what we have" concerning the estate's obligations Belli said, "he (Golenbock) forces us to do something. I'm only going to do what Errol instructed Mr. Golenbock to do."

In Los Angeles, Flynn's second wife, Nora Eddington, said she is sure there is a later will.

Electronics Dropped From Waiting List

T.Sgt. Charles A. Ahnen, head of the Pontiac Air Force Recruiting Station, 53½ W. Huron St., has announced that the long standing waiting list for young men interested in electronics has been discontinued.

Under a new program adopted by the Air Force, applicants will be given an aptitude and classification test before enlisting.

The two-hour exam is given at the Pontiac office on the first and third Fridays of each month. Those who qualify may enlist, choosing from a wide field of training including guided missiles, radar repair and atomic weapons.

Denmark is reconstructing the airport at Sonder Stromfjord in Greenland to accommodate the Scandanavian Air Lines System intercontinental DC3 jets.

Debate Rages Over Prices

Inflation Booms Market for Old, New Paintings

LONDON (NEA) — An American who pays $250,000 for a painting is regarded at home as a public-spirited man of taste.

★ ★ ★

If he were French he would be hounded by the tax collector on the prowl for "hidden signs of wealth."

If he were English, he would probably be certified as a lunatic.

Despite these national differences, American, French and British collectors are competing in London to force up the price of paintings to the most fantastic levels ever.

★ ★ ★

Not only the old masters, but modern painters as well are booming in the bullish art market. A Rubens painting knocked down at auction for $770,000; $616,000 paid for a Cezanne; $155,000 for a Picasso — these are some of the record prices paid here in the past nine months.

And the end is not yet in sight. Wealthy collectors are ready to pay almost any price for pictures of international interest, I was told by a reputable dealer.

★ ★ ★

One man who does not consider today's prices excessive is Peter Wilson, senior partner of Sotheby's, the auction firm which recently fetched the world record price of $770,000 for Rubens' "Adoration of the Magi."

In fact, Wilson, a 46-year-old Etonian, thinks today's collectors may be getting bargains.

★ ★ ★

"In a few years' time, today's prices will be considered ridiculously low," says Wilson, a tall, suave man in pin-striped morning trousers.

IN MUSEUMS

"Most of the fine paintings," he adds, "have already disappeared into the world's art museums, and very few are likely to be offered for sale in the future.

"Besides, today's prices are not much higher than those paid in the 1920's. To get the true value of a painting you have to divide its price today by three, which represents money inflation."

Whether or not they are dirt cheap, some of the masterpieces now offered at auction are rather dirty. It is no secret, for example that the Rubens masterpiece was badly soiled when it was put up for sale.

★ ★ ★

The painting had hung in Eaton Hall, family seat of the Duke of Westminster, which until recently was used as a military academy. Few of the cadets who passed it on the staircase could resist the temptation of so obvious a target.

"Good God, that's the thing I used to pelt eggs at," a former cadet exclaimed when he saw the painting on auction at Sotheby's.

Egg-spattered or not, the paintings which are appearing on the market here in response to demand have made London the undisputed center of the world art market.

★ ★ ★

Sotheby's, now the world's leading art auctioneers, have doubled their sales in the past year for a record turnover of $15 million. Closest runner-up is the Parke-Bernet Galleries of New York with a $10,500,000 turnover.

Alfalfa Seed Output Up

LANSING (AP)—Michigan's alfalfa seed production this year is forecast at 800,000 pounds, up 67 per cent from last year but only two-thirds of the 10-year average. Excessive rain hurt the yield, the federal-state crop reporting service said.

Youth Kills Mother in Fit of Resentment

MANISTIQUE (AP)—Kenneth Bernier, 16, was held today for juvenile court action after police said the youth admitted killing his mother because she wanted to send him on an errand to a grocery store.

★ ★ ★

Mrs. Beatrice Bernier, 50, wife of a prominent physician and surgeon, was shot and killed at her home in Manistique yesterday afternoon.

★ ★ ★

The youth calmly reported to police he had shot his mother in the head with a .22 rifle as she was preparing to take a nap on the living room couch. He said she insisted that he go to the store and he didn't want to go.

Police said Kenneth had no juvenile record but was considered a problem child. He is in the 11th grade at Manistique High School.

At the time of the shooting, Dr. Bernier was at his office and four other children were away from home. Three are in college.

The natural gas industry of the United States is rated at more than $16 billion and ranks as sixth largest.

Children Are Problem

ROCHESTER, N.Y. (UPI) — Harold R. Clarke, 63, a man who said he was "disgusted with people" and had been "for years," recently displayed this sign on his front porch: "To whom this may concern. If your children's annoying behavior continues and causes me to have a fatal heart attack, will you consider yourselves morally guilty of manslaughter?"

About nine lead pencils are sold in the United States for every one of all other types of writing instruments.

Solon Calling Confab to Discuss School Aid

WASHINGTON (UPI) — Rep. Cleveland M. Bailey (D-W Va) sparked a new move today aimed at breaking the House impasse over school aid legislation.

★ ★ ★

Bailey said he would call his House education subcommittee into closed session Nov. 5 to discuss the possibility of a new compromise school construction bill.

He said he had discussed the matter with health, education, and welfare department officials and hoped they would offer some compromise proposal.

Bob Considine Says:

Wallace's Theories Tame Today

NEW YORK — Ran into Henry Wallace at a party at Mike Cowle's the other night and found him hale, hearty and doing as well as ever in the hybrid corn business.

One of the wonders of his life, of course, is the swift change of climate which has engulfed much of the world since his tempestuous presidential campaign in 1948.

Many things he advocated at that time—which then caused him to be damned as a hay-shaking Red—would sound pretty conservative today.

"Conservative, but not reactionary," he said with a grin. Then he added, "The main think I was trying to say then, in our relations with Russia, was that it would be a lot better to sign them up in pacts of all kinds while they were still trying to recover from World War II—and before they got the A-bomb and H-bomb."

Man named Eugene P. Kane, of Summit, N. J., has made an unnerving study of a little money-losing government bureau named the Commodity Credit Corporation. From Oct. 17, 1933, through June 30, 1959, it blew $13,400,000,000, Kane reports.

The CCC is a synonym for our farm surpluses which have been albatross around the necks of the last three presidents and will remain around the neck of the next, and next, and probably next.

Kane's great concern, other than that "we taxpayers are being bilked for the benefit of a few in the farming industry, for the enrichment of the transportatioin and warehouse and banking businesses," is that the people have become numb with numbers.

"Billion" is just another word to the growing generation.

Kane wants you to know the measures of $13,400,000,000.

If you had it all in singles, it would stack 91 miles high, more than 526 times higher than the Empire State Building. If placed end-to-end it would form a green rug reaching from Juneau, Alaska, to a point slightly beyond Honolulu.

If placed end to end in single file it would circle the globe 1,273 times, or reach to the moon and back six times. If you put it all in your pocket and started out on the town, you'd drop right through the pavement. It would weigh 1,260 tons. If you could count it at the rate of five $1 bills per second, and didn't take a coffee break or sleep, you could count $13,400,000,000 in 8,535 years. (Pardon me while I sit down a moment.)

All set for the big Sleeping Marathon? Starts Friday, rain or shine, at the Hess Department Store, Allentown, Pa., sponsored by the International Sleeping Marathon Assn. of New York.

This is the body which is sworn to keep the thing honest. No fixes in the snooze business, as in You Know What. Hess relatives and persons suffering from sleeping sickness are not eligible.

The competition will be spread like a blanket over nine days and nights. Total elapsed sleeping time is the only thing that counts. A guy is permitted not only to wake up after, say, a three-day nap, but also allowed to read himself back to sleep or listen to some sleep producing music. No drugs or booze allowed, of course.

Prizes amount to $1,500, presumably to be used paying fines on those vagrancy charges.

Edward Hunter, the foreign correspondent who invented the word "brainwash" and first explained its terrible meaning to the world, writes in "Think," the IBM publication:

"The Communist Party uses each word one way or another, as it serves the purposes of psychological warfare . . . the word good in communism means what is good for communism; bad denotes what is bad for communism. Truth is what backs up the Communist line. What contradicts it is a lie, no matter how much at variance with reality as we know it. Law in Red dialect is any regulation or order of the police or party, answerable only by the accused. The authorities can uphold it or disregard it; whichever is to the Party's advantage.

"A man can be accused and convicted of a crime that existed in no law books when it purportedly happened, perhaps generations before. This is called 'historic crime.'

"Under it, if the Reds took over the U. S. every American would be liable to punishment for failing to engage in pre-Communist activity at this very moment, or for engaging in any activity unfavorable to the Red cause in the U. S.!"

Indeed.

Civil Defense Class for Advanced Set

A new civil defense class for those who have received basic medical training in Waterford Township will begin Nov. 2, according to Mrs. Marie Rodrigues, director or training for medical emergencies in Oakland County.

Enrollment will be limited to 15 to 18 people. Sessions will be held from 8 to 10 p.m. on four consecutive Mondays.

The course will consist of advanced hospital training of volunteers for an emergency. People who have had the basic medical training are encouraged to continue the new course.

The U.S. ranks first in the manufacture of toys.

Deer Get the Goat of Mrs. Goatley

LOUSVILLE, Ky. (AP) — Mrs. Oscar Goatley has called police, the county farm agent and the county judge but nobody seems to be able to help her cope with an unusual problem.

Deer keep jumping a fence and feeding off Mrs. Goatley's soybean patch.

The wife of a U.S. President has no official title.

Once Bragged of Its Tinkering Geniuses

Auto Firms Use Electronic Brains

By JACK VANDENBERG
UPI Automotive Editor

DETROIT (UPI)—The auto industry, which once bragged about its "tinkering geniuses" and "pliers and screwdriver men" like Henry Ford and Charley Kettering, has turned to boasting of its mechanical brains.

★ ★ ★

Almost every company made some mention of time savings made in bringing advanced designs to the public through use of electronic brains when they introduced their new cars a few weeks ago.

"Giant electronic computers saved millions of man - brain hours,' said George Gibson, chief engineer for Dodge. "The new techniques give buyers a car which could not have been developed until 1962 or 1963 with former methods."

De Soto went even further.

It said some of the computations made to determine where squeaks were likely to develop in the car would have taken until 2059 A.D. if an electronic brain hadn't been used.

The new electronic brains can't as much as turn the key on to start a car but they can "try it out."

When an auto engineer gets an idea these days, he doesn't dash down to the forge shop and start pouring metal. Putting every idea into metal and running it over the road would be too time consuming and too wasteful of metal. The cost would be reflected in the price of cars.

Instead, the engineers now take their ideas to the company mathematics department.

★ ★ ★

When the engineers and mathematicians have figured out a formula which takes into account most of the conditions of operation, they run the formula through a computer.

The answer they get tells them how a certain part, or even the complete car, will react under certain conditions.

Not until the mechanical brain gives them the sign of approval, do they take the time and spend the money to build the part and test it on the road.

All of the companies have these mechanical brains, and all of them use them for varying purposes.

★ ★ ★

Ford, for example, has set up a system in its mathematics department for "trying out" combinations of new engines, transmission, axles and tires for cars of the future.

General Motors has a steering wheel on an electronic analogue computer. When the steering wheel is turned, the computer figures out how much the car will roll, yaw, pitch and skid on any given road at any given speed.

"When we spend millions of dollars, we just can't afford to put a 'dog' on the market," said mathematics supervisor R. A. Roggenbuck of Ford. "In the old days, the tinkering geniuses went by their guesses. If they guessed wrong, they might be wiped out.

"That's one reason a lot of cars disappeared from the market."

Nikita Accepts De Gaulle Call

No Date Set but It Is Reported 2 Will Meet Within 3 Weeks

PARIS (AP) — France has advised her Allies officially that President Charles de Gaulle has invited Soviet Premier Nikita Khrushchev to visit him and Khrushchev has accepted, informed Western circles said today.

★ ★ ★

Only the date remains to be fixed, these sources said. They added they thought the meeting would take place in the next few weeks.

Word of a possible meeting between Khrushchev and De Gaulle began circulating in Paris Wednesday. So far there has been no announcement by the French government. But neither has the government denied the reports.

De Gaulle's government said Wednesday it favored an East-West summit conference in principle but not until next spring. There was wide speculation that De Gaulle has had the Khrushchev invitation in mind for some time and wants to get in the visit before the top level East-West meeting.

★ ★ ★

Thus De Gaulle would have the opportunity of a pre-summit personal contact with the Soviet Premier just as President Eisenhower and Prime Minister Macmillan have had.

Two Women Are Named to Positions in Michigan

LANSING (UPI)—Mrs. Patricia Landau, St. Clair Shores, has been appointed assistant Macomb County agent, succeeding Daniel Griffin who resigned.

Acting Gov. John B. Swainson Wednesday also announced appointment of Mrs. Beatrice Campbell, Marshall, as court stenographer for the 37th Judicial Circuit Court, succeeding Mrs. Loretta Peterson who resigned. The appointment ends when a successor is named.

Rain Continues on Coastlines, Interior Dry

By The Associated Press

More rains dampened sections of the Southeast and Northwest today but dry weather prevailed in most other parts of the country.

★ ★ ★

A disturbance in the northeastern Gulf of Mexico caused the rain in Florida and from Mississippi and Alabama northeastward into southeastern Virginia.

★ ★ ★

Rainfall amounts were generally light although moderate to heavy rains hit some areas, including Glynco, on the Georgia coast with nearly three inches and Daytona Beach, Fla., with more than one inch in a six-hour period. Thundershowers were reported in extreme southern Florida.

Cooler weather moved into New England and eastern New York. The 25 degree reading at Albany, N.Y., was 15 degrees lower than 24 hours earlier and the 27 mark at Windsor Locks, Conn., was 19 degrees lower.

Delaware was settled by Swedes, Finns and Dutch. Henry Hudson explored the area in 1609.

Talks Now—Like a Duck

SAN DIEGO, Calif. (AP)—A young boy's slight lisp is almost gone after his parents took the advice of a school consultant and played a record, "Donald Duck Takes a Speech Lesson," over and over for the boy. But now, his parents say, their son talks like Donald Duck.

Mice Have Long Tails

The tail of the jumping mouse is six inches long, about two-thirds of the animal's total length.

Red China Shows No Sign of Renouncing Aggression

WASHINGTON (AP) — Red China shows no signs of renouncing the use of force to seize Formosa from the Chinese Nationalists, the State Department says.

"On the contrary," the department press officer, Lincoln White, said Wednesday, "it continues to declare its intention to seize Taiwan (Formosa). This position has recently been reiterated by the leaders of the Peiping regime."

The department issued its statement after it was learned that Soviet Premier Nikita Khrushchev had sent President Eisenhower a letter dealing with China.

Khrushchev's letter, delivered to the State Department Oct. 13, said the Soviet Union supports Communist China's view that its claim to Formosa is a domestic, not an international issue.

Department spokesmen said there was no foundation for a report that Khrushchev had forwarded word that the Red Chinese were willing to abandon force as an international instrument.

White said "the United States of course would welcome a meaningful renunciation of force by the Peiping regime.

"For the past four years, in the ambassadorial talks between the United States and Communist China at Geneva and Warsaw, it has been endeavoring without success to persuade the Chinese Communists to make such a declaration.

"The recent talks with Premier Khrushchev were, of course, another indication of the United States' desire to find peaceful solutions to world problems."

Asian Typhoon Season Is Over

7,066 Dead in Wake of Most Devastating Blows in History

TOKYO (AP)—Japan's Central Weather Bureau announced today that Asia's most devastating typhoon season on record has finally come to an end.

Japan was hardest hit, with 4,580 persons killed, 685 still missing and 35,285 injured in Typhoon Vera late in September. Other Asian countries also suffered heavily.

The agency said the Pacific gave birth to 19 typhoons from July to mid-October. Some hit populated land areas, others dissipated harmlessly over water.

★ ★ ★

Available reports place the total known dead for the season in Asia at 7,066, the missing at 1,679 and the injured at 37,312.

First came floods in Communist China in mid-June which, according to Peiping Radio, left 187 dead in Kiangsi and Kwangtung provinces.

Then came Typhoon Billie, which killed 67, left 22 missing and injured 58 in Japan, Formosa and the Philippines.

Formosa counted 669 dead, 347 missing and 852 injured after torrential rains and floods Aug. 7.

★ ★ ★

Other major typhoons of the season were Georgia, (137 dead, 108 missing, 712 injured in Japan) and Sarah (125 known dead in South Korea and another 22 in Japan).

Navy, AF in Accord on West Missile Site

WASHINGTON (AP)—The Navy and the Air Force have signed a pact designed to prevent conflicts of interest and costly duplications at the Pacific missile range in Southern California.

★ ★ ★

The agreement, made public today, was signed Sept. 22 by Adm. Arleigh Burke, chief of naval operations, and Gen. Curtis LeMay, vice chief of staff of the Air Force.

★ ★ ★

The Defense Department established the Pacific range in September 1957, and assigned its management to the Navy. There has been some bickering over control of intercontinental ballistic missile operations at Vandenberg Air Force Base which adjoins the range. In some phases of activity, Vandenberg comes within the control of the Navy commander of the range.

Insurance Firm Caught Without Theft Policy

LOUISVILLE, Ky. (AP) — Thieves stole $200 from an insurance office here which writes theft policies.

Asked if his firm was insured against the loss, manager Kenneth Rider replied, "That's an embarrassing question."

U.S. Pianist, 14, Will Be Soloist in Russ Concert

WASHINGTON (AP) — A 14-year-old American pianist will be soloist Saturday night when visiting Soviet composer Dmitri Kabalevsky conducts his third concerto in Constitution Hall here.

The National Symphony Orchestra Wednesday night announced the selection of Abbott Lee Ruskin of New York as soloist. The boy is one of the few pianists who has the Russian Concerto in his repertoire.

Kabalevsky, Dmitri Shostakovich and other Soviet composers will visit the United States this week. The concert was scheduled in their honor.

ICC Ruling on Merger of Railroads 6 Months Off

WASHINGTON (UPI) — Interstate Commerce Commission hearing examiner Hyman Blond said today the agency would not rule for at least six months on the proposed merger of the Erie Railroad and the Delaware, Lackawanna & Western.

Blond emphasized that his prediction was conservative. He spoke before he presided over the 13th hearing on the merger.

He pointed out that the commission's initial decision would be by only three of the 11 members. If an appeal were filed, he said, the case would go before all 11 commissioners.

U.N. Indirectly Condemns Communist China on Tibet

By TOM HOGE

UNITED NATIONS, N.Y. (AP) —The United Nations Wednesday night indirectly condemned Red China for violating the basic rights of Tibetans but the U.S.-backed move lacked important support from nearly one-third of the 82-nation General Assembly.

★ ★ ★

The assembly voted 45-9 to approve an Irish-Malayan resolution urging respect for the fundamental rights of the Tibetan people to determine their own way of life.

★ ★ ★

Twenty-six nations abstained from the balloting, including Great Britain, France and Belgium. The three U.S. allies voiced strong sympathy for Tibet's plight but they insisted Tibet is part of Red China, and that the U.N. has no right to interfere in the internal affairs of nations.

IGNORED BY CHINA

The Peiping regime made clear in advance that it will disregard the resolution. "We will carry on the revolution in Tibet to the end, no matter how madly the imperialists howl," declared the Panchen Lama, the Communist-appointed ruler of Tibet, in a speech in the Chineese capital Wednesday.

★ ★ ★

Only the Soviet bloc voted against the mildly worded resolution. The resolution did not mention Red China or the charges that it crushed an anti-Communist uprising in the Himalayan land last spring. But the two-day debate that preceded the vote resounded with condemnation of Peiping.

★ ★ ★

The Soviets warned at the outset that discussion of Tibet would only aggravate international tensions. The United States accused the Soviets of trying to scare off delegates from the issue by raising the specter of the cold war.

British Delegate Sir Pierson Dixon expressed distress over the events in Tibet and maintained the international body had taken the right step in discussing the matter. He added, however, that anything beyond discussion would be intervention in internal affairs of a nation.

★ ★ ★

Also abstaining was India, which has granted asylum to the Dalai Lama, Tibet's fugitive ruler, and about 13,000 of his followers. India's V. K. Krishna Menon said he hoped a reconciliation could be effected between Peiping and the Dalai Lama.

HEADS MUSEUM — James Sweeney, above, is director of the new Solomon R. Guggenheim Museum. He is pictured in New York Wednesday at the museum's opening.

100 Million Cars by 1970, Predicts GM Executive

CHICAGO — Rising standards of living and increased purchasing power will put 100 million motor vehicles on the highways by 1970, a General Motors executive predicted today.

William F. Hufstader, vice president in charge of distribution staff, told members of the National Fleet Safety Contest Victory Luncheon, meeting here, that increased traffic necessitated greater safety vigilance on America's highways.

"Our everchanging way of life is stimulating a growing dependency on personal automotive transportation," Hufstader declared. "Greater safety, convenience and economy of our new roads will obviously do much to encourage increased use of motor vehicles."

He declared that the declining death rate per mile traveled has been a notable achievement on the part of safety experts but added that new highways will create more exposure to vehicles and result in more accidents.

House Dem Leader Says:

U. N. Weak on Hungary; Reds Bold in Executions

Democratic leader John W. McCormack (Mass) said Wednesday that failure of the United Nations to keep alive the issue of Communist oppression in Hungary has cost the lives of more than 100 freedom fighters.

McCormack issued a special statement in connection with the third anniversary of the Hungarian uprising, which will be observed Friday.

He called on the administration to seek full debate on the issue in the U.N. General Assembly. If the U.N. failed to respond, he said, it "would condemn itself forever in the eyes of mankind."

The anniversary of the revolt "will be a dark one for the brave people of Hungary and their heroic freedom fighters unless the Eisenhower administration acts swiftly to keep this burning issue before the world," McCormack said.

★ ★ ★

"The puppet Budapest regime and its Soviet masters will be rewarded for their arrogant defiance of past resolutions passed by the United Nations."

McCormack said the lack of U.N. action in the ill-fated revolt has made the Budapest regime "bold enough to carry out the executions of more than 100 freedom fighters since December 1959, the time of the last United Nations resolution on Hungary."

Continued failure to bring up the issue "would indeed signify an important victory for their oppressors and, I am certain, the disheartening effect would not only be felt in Hungary, but in all the captive countries of East Central Europe," he said.

Germany to Build Defense Missiles

LONDON (AP)—West Germany was granted permission today to manufacture guided missiles for antiaircraft defense.

★ ★ ★

The Western European Union, European anti-Communist defense alignment, announced this decision was reached by the WEU Council after recommendation by the North Atlantic Treaty Organization commander, Gen. Lauris Norstad. The decision was unanimous, sources said.

★ ★ ★

The meeting here was attended by London ambassadors of member states: Britain, France, the Netherlands, Belgium, Luxembourg, Germany and Italy.

The amendment announced today will not increase the types of weapons already on German soil. Rocket weapons already included in West German army equipment were manufactured abroad.

Parents Nix Operation, Daughter Is 'Critical'

ATLANTIC CITY, N.J. (AP)—A six-year-old girl lay on a hospital bed today in critical condition after undergoing a serious brain operation without the blood transfusion doctors said she needed.

Linda Jean Yourinko didn't get the transfusion because her parents refused to grant permission for religious reasons.

★ ★ ★

Mr. and Mrs. Joseph Yourinko of nearby Absecon Highlands are Jehovah's Witnesses and they believe in the Biblical tenet: "Ye shall not eat the blood."

Freedom Fighter Paints New Land

MADISON, N.J. (AP) — Professor Gyimesy Kasas, a Hungarian freedom fighter who escaped from Budapest in the 1956 anti-Communist uprising, has begun a series of oil paintings on American historical subjects.

"I wanted to give something to my new country, not just take from it," he says.

Missing Priest Found in Daze

Driving Aimlessly Near Clinton; Apparently Hit by Memory Lapse

SOUTH BEND, Ind. (AP)—A Roman Catholic priest who vanished in Southeast Michigan after an apparent memory lapse rested here today, unable to fully account for his five-day disappearance.

The Rev. John M. Sheridan, 40, appeared dazed but in good physical condition when State Police found him yesterday on a highway near Clinton, Mich.

★ ★ ★

He apparently had been driving aimlessly since his disappearance last Saturday, said priests from the archdiocesan chancery office in Detroit who went to the Clinton State Police post to pick him up.

Father Sheridan was described as "quite confused" by the priests.

The missing priest vanished after leaving Monroe for a trip to Lincoln Park where he was to conduct a two-week mission at a church.

TRUCKER SPOTS CAR

He had driven to Monroe with two other priests from South Bend where he lives on the campus of the University of Notre Dame.

Truck driver Fred Wilkerson of Murray, Ky., spotted the priest's car parked along U.S. 112 and notified state trooper Richard Hilderly who stopped Father Sheridan further down the highway.

"He was able to identify himself, but could offer no explanation for his disappearance," State Police said. He went to bed at the police post to await the arrival of the Detroit priests.

★ ★ ★

Father Sheridan suffers from a rare malarial-type disease which causes him to black out periodically. He contracted the malady while on a missionary assignment in the Far East.

He was returned to South Bend yesterday afternoon by the chancery office.

He was clean shaven and his clothes appeared to be in good condition when he was found.

His car was sighted twice during his disappearance, once when he was involved in a minor accident west of Detroit and another time by a woman in a Detroit suburb.

Less than 10 per cent of the total land surface of Norway is cultivated.

LANZA'S DAD WEEPS — Hysterically screaming "Where is my little boy now?" Antonio Cocozza, father of singer Mario Lanza, is led from the Church of the Blessed Sacrament in Hollywood after the Funeral Mass for his son. Walking beside him is his wife, who remained relatively composed until the coffin was about to be placed in the cemetery. Then she threw herself onto it and kissed it.

Doctor Isn't Bothered by Slight Interruption

LOCKPORT, N. Y. (AP)—When Dr. Frank Crosby was called from a father-son golf tournament to deliver a baby, Lockport Country Club officials permitted the doctor's wife Peggy to play the next hole with their son David.

Dr. Crosby, meanwhile, went to the hospital, delivered the baby, and was back in time to take over on the next hole and finish the match.

Numbers Are Necessary

NEW BRITAIN, Conn. (UPI)—Central Junior High School ninth-grade class had two 14-year-old pupils named Margaret Mary Griffin, who were born five days apart in the same hospital. They are not related. Classmates call one Margo and the other Peggy or simply "one" and "two."

N.Y. Waterfront Long

New York port has 650 miles of water frontage.

Signs of the Times Extremely Premature

HOPKINSVILLE, Ky. (AP)—City officials bought an electronic speed-timing device and started to erect speed limit signs.

Someone discovered the city had no speed limit law, an omission the city council quickly corrected.

California led the United States in the number of registered motor vehicles in 1958 with 7,013,163. Vermont was last with 145,413.

Learning Long Division?

HOBOKEN, N. J. (AP)—Learning is a long, long process at Stevens Institute of Technology. Freshmen learn about the operation of the slide rule by watching faculty members manipulate an eight-foot model.

Combination Freezer-Heater Good in Space

WASHINGTON (AP)—A combination freezer-heater for foods may open the way to a new and improved way of feeding airmen on long flights.

★ ★ ★

Whirlpool Corp. of St. Joseph, Mich. says, however, the new device still is too costly for marketing.

It handles a pre-cooked pre-frozen meal in this way: It keeps the meal frozen for any period desired, and then, in response to the twisting of a dial, part of the cabinet becomes a heater, raising the temperature of the food to serving temperature in less than an hour.

Any number of individual meals can be heated without affecting other frozen meals in the cabinet, the developers said.

★ ★ ★

The new development employs the principle of "thermoelectricity." That is the use of certain chemicals which can make an electric current cause a given apparatus to be cooled or heated, depending upon which direction the electric current is made to flow.

Wonderful dinner. But you may pay for it with Acid Upset, so keep TUMS relief at hand. 3-roll pack, only 30¢.

Coffee Distinctive Flavor in Three Superb Desserts

Here are three glowing desserts. In one way, they're as different as night and day — in quite another, they're as compatible as coffee and company. And the secret of their harmony lies in that one important ingredient, Coffee.

★ ★ ★

Starting at the top, you'll see darkly delicious Java Sundaes — quick, glamorous desserts that combine rich coffee ice cream, a delicious coffee - chocolate sauce and—to make them real sundaes—proper touches of whipped cream. Then comes the unusual Pinwheel Coffee Cream, a luscious, smooth confection with a delicate coffee flavor. Lo and behold! It's ringed with slices of jelly roll!

Last of all are the French delights, Petits Fours au Cafe. Combining an excellent white cake with coffee glaze, the petits fours attain their individuality from fanciful shapes and a variety of garnishes — nutmeats, chocolate sprills, silver shot, all the pretty things that make baking fun.

While coffee is, indeed, the flavor which makes these desserts distinctive and truly delicious, it is also the **BEVERAGE** which best suits each and every one. To go with such striking desserts, the steaming coffee should be made with loving care, then served up in real style.

Java Sundae Sauce

2 squares unsweetened chocolate
6 tablespoons strong coffee
⅓ cup sugar
¼ teaspoon salt
2 tablespoons butter or margarine
1 teaspoon vanilla

Melt chocolate in coffee over low heat, stirring constantly. Add sugar and salt; stir until sugar is dissolved and mixture slightly thickened. Remove from heat. Add butter and vanilla; stir until butter melts. Makes 1 cup sauce.

★ ★ ★

Pinwheel Coffee Cream

1 envelope unflavored gelatine
¼ cup cold strong coffee
¾ cup hot strong coffee
½ cup milk
3 eggs separated
½ cup sugar
1 cup whipping cream
1 package baker's jelly roll

Soften gelatin in cold coffee; dissolve in hot coffee; stir in milk. Blend egg yolks and sugar in top of double boiler; add coffee mixture; cook and stir over hot water until mixture coats spoon. Chill until mixture begins to thicken, stirring occasionally.

Beat egg whites stiff but not dry; fold in. Whip cream; fold in. Line sides of 8-inch spring-form pan with thin slices of jelly roll. Spoon coffee mixture into center. Chill until set and unmold. Makes 8 to 10 servings.

Petits Fours au Cafe

½ cup soft shortening
1 cup very fine sugar
1½ cups sifted cake flour
1½ teaspoons baking powder
¼ teaspoon salt
½ cup milk
1 teaspoon vanilla
3 egg whites

Cream shortening and sugar. Mix and sift flour, baking powder and salt; add alternately with milk to creamed mixture, add vanilla. Beat egg whites stiff but not dry; fold in. Bake in greased and floured 9-inch square cake pan in moderate oven, 375 degrees, about 30 minutes.

Cool on cake rack. Cut in fancy shapes. Split each piece and put together with thin layer of raspberry jam. Spoon Coffee Glaze over cakes, letting it run down sides. When glaze is firm, decorate variously with nutmeats, chocolate sprills, silver shot, candied violets, etc.

To make Coffee Glaze, stir 2 tablespoons soft butter into 2 unbeaten egg yolks. Beat in 3 cups sifted confectioners' sugar, adding enough cold strong coffee to make a thin icing that will run down the sides of cakes.

Save Your Time With Short Cut

Fall days can turn cool in a hurry. When a change in the weather calls for a change in menu plans, you can bake a welcome dish of cheese rich au gratin potatoes in just 20 minutes! That's as long as it takes to bring them hot from the oven when you start with frozen French fries. The same ready-cooked, ready-peeled little strips of frozen potato you use for crisp, golden brown French fries are equally handy for other skip-a-step potato cooking.

Speedy augratin potatoes make an excellent luncheon dish, or fit right into the quickie oven menu suggested above.

Speed Au Gratin Potatoes

⅓ cup butter or margarine
⅓ cup flour
3 cups milk
1½ teaspoons salt
Dash of pepper
2 9-ounce packages Frozen French Fries (or 1 1-lb package)
8 ounces shredded American Cheese

Melt butter or margarine over low heat; stir in flour and seasonings. Blend in milk and cook over low heat until thickened, stirring constantly. Spread ½ of frozen French fries over bottom of 1½ quart flat baking dish. Cover with ½ of sauce and sprinkle with ½ of the cheese. Repeat. Bake in hot oven (400 degrees) until heated through, about 20 minutes. Yield: 4 to 6 servings.

Bargain Fruit Makes Moist Little Cakes

Take time out at your food store to price items at the fresh fruit counter . . . you'll find bananas are plentiful and quite a bargain, too! Your family will rave about Banana-Nut Cupcakes, and your food budget will feel no strain!

Cream ½ cup shortening and 1 cup sugar together until light and fluffy. Stir in 2 beaten eggs. Add 1 cup mashed ripe bananas and 1 teaspoon lemon juice. Mix well.

Sift together 2 cups sifted enriched flour, 1 tablespoon baking powder and ½ teaspoon salt. Add to creamed mixture and blend well. Add 1 cup chopped nuts.

Bake in greased muffin cups in moderate oven (375 degrees) 20 to 25 minutes. When cool, spread tops with confectioners' sugar icing and sprinkle with ¼ cup chopped nuts. Makes 18 small cakes.

Marinate Shrimp in Herb Dressing

Friends ask for this recipe when we serve the dish!

Shrimp With Basil

2 cans (4½ ounces each) cleaned large shrimp (wet pack)
4 tablespoons olive oil
4 tablespoons red wine vinegar
¼ teaspoon sugar
¼ teaspoon dry mustard
½ teaspoon dried crushed savory
2 small onions (thinly sliced and separated into rings)
1 or 2 dozen fresh whole basil leaves
Salt

Turn shrimp into a strainer to drain. In a shallow container with a fork beat together the oil, vinegar, sugar, mustard and savory. Add drained onion rings, shrimp and basil.

Mix carefully so as not to break up shrimp. Taste shrimp and add salt to taste to marinade. Cover tightly and refrigerate several hours or overnight. Makes 6 servings as an hors d'oeuvre.

Poultry Stuffing Adds Zest to Salmon Loaf

If your meals have had the "tired feeling" lately, they may lack imagination in seasoning. The use of package prepared herb-seasoned stuffing can add a tang to an ordinary Friday dish—salmon loaf—and put it in the all-together different class.

Serve hot with a white sauce studded with hard-cooked egg slices; or cold with some kind of chili or relish sauce. How about tartar sauce?

Salmon Loaf

1 tall can salmon (or 2 cups canned shrimp, crabmeat, tuna, or any flaked cooked white fish)
1 package prepared herb-seasoned stuffing
1 cup milk
½ cup salmon liquor
4 tablespoons butter, melted
2 eggs, well beaten
2 tablespoons minced parsley
1 tablespoon minced onion
1 tablespoon minced green pepper

Drain salmon, saving liquor. Flake the fish, discarding bones and skin. In large bowl, combine fish and all other ingredients. If you haven't ½ cup fish liquor, add milk to make up ½ cup. Blend mixture; pack onto greased loaf pan.

Bake in moderately hot oven (375 F.) 30-40 minutes, or until firm in center. Serve with white sauce, to which you have added two or three sliced hard-cooked eggs.

HERB-SEASONED — A package of herb-seasoned stuffing goes into the mixture for salmon loaf. This will be a welcome change from ordinary bread or cracker crumbs. Serve the loaf hot or cold.

YAM STUFFED BANANAS — Banana shells are stuffed with a rich, delicious yam mixture, ready for baking. Crisp bacon, mashed bananas, crushed pineapple and peanuts are also featured in this unusual recipe.

Yams, Peanuts Fill Banana Halves

If your dinner or special luncheon menu calls for something unique and flavorful, try Yam Stuffed Bananas. The easy recipe calls for a combination of mashed golden yams, bananas, pineapple, bacon and peanuts to be stuffed into banana skins ready for baking.

Louisiana yams are in season now and through the winter months. The stringless texture and sweet flavor of this southern vegetable are highly desirable for such recipes as Yam Stuffed Bananas. So whenever your menu calls for something unusual to accompany a meat, fish or poultry dish of any kind, try these tasty Yam Stuffed Bananas.

Yam Stuffed Bananas

6 large bananas, green tipped
2½ cups cooked yams
1 teaspoon salt
1 tablespoon brown sugar
1 can (3¾ ounces) crushed pineapple, drained
½ cup chopped salted peanuts
½ cup chopped cooked bacon

Wash bananas. Split bananas lengthwise on one side; do not cut through ends or opposite side of banana. Remove banana pulp and mash. Reserve shells. Combine bananas, yams, salt, sugar, pineapple, nuts and bacon, blend.

Fill banana shells with the yam mixture. Top with additional peanuts, if desired. Bake in moderate oven (350 degrees) 15 minutes. Makes 6 servings.

★ ★ ★

Date Nut Yams
(Makes 6 servings)

¾ cup water
3 tablespoons lemon juice
6 medium-sized yams, cooked, peeled and halved, or 2 cans (1 pound) yams, drained and halved
¾ cup chopped dates
¾ cup chopped pecans
½ teaspoon salt
Dash pepper

★ ★ ★

Combine water and lemon juice. Place yams in shallow casserole. Pour lemon mixture over yams. Combine dates, pecans and seasonings; mix well. Sprinkle over yams. Bake in moderate oven (350 degrees) 30 minutes.

Jewels in Muffin Are Cranberries

Fall is the time of the cranberry harvest. It calls for using the crimson "crane" berries in all sorts of dishes. They add an appetizing spot of color as well as tangy flavor to salads, meats, desserts and breads.

Newest recipe in the bread line comes from a national margarine manufacturer. Cranberry muffins are tender and delicious. These were served at luncheon at the Food Editors Conference with chicken mousse and a vegetable plate.

The fresh cranberries add a marvelous tart-sweet flavor that is both unusual and pleasing.

Cranberry Muffins

1 cup cranberries, halved or chopped
¼ cup sugar
2 cups flour
⅓ cup sugar
1 tablespoon baking powder
½ teaspoon salt
½ cup margarine
1 egg, beaten
¾ cup milk
1 teaspoon vanilla

★ ★ ★

Combine the cranberries and ¼ cup sugar. Sift together the flour, one-third cup sugar, baking powder and salt. Cut in the margarine until the mixture resembles coarse crumbs. Add the combined egg, milk and vanilla. Stir just until the ingredients are blended. Fold in the cranberry mixture. Fill greased muffin pans two-thirds full. Bake in a hot oven, 400 degrees, 15 to 20 minutes. Yield: 1½ dozen muffins.

Complete Meal With Fruit Cup

Delectable fruit combination.

Mandarin Fruit Cup

1 can (11 ounces) whole segments of Mandarin oranges in light syrup
1 cup cultivated blueberries
2 ripe peaches
2 tablespoons (or more) orange-flavored liqueur (cognac type)

★ ★ ★

Turn the oranges and their syrup into a serving bowl and add the blueberries. Dip peaches into boiling water; pare, halve, pit and slice thin; add to other fruit with liqueur. Chill. Makes 6 servings.

★ ★ ★

Note: The cognac type of orange-flavored liqueur is available in miniature bottles.

LAMB IN CIRCLES — Here is your opportunity to put some individuality into your everyday cooking. The recipe features ground lamb and bacon — method of cookery is panbroiling. Remember the name, Lamb and Bacon Whirls.

Bacon Holds Lamb Patties

Presenting—the newest, most up to date in ground meat fashions, Lamb and Bacon Whirls.

Ground lamb, like any of the other ground fresh meats, should be frozen immediately if it's to be used later or used fresh within one to two days from the time purchased.

Lamb and Bacon Whirls

½ pound sliced bacon
1½ pounds ground lamb
1 teaspoon salt
⅛ teaspoon pepper
¼ teaspoon marjoram
1 tablespoon Worcestershire sauce
1 cup cornflakes
3 tablespoons water

Arrange bacon slices with edges slightly overlapping on a sheet of waxed paper 8 to 10 inches long. Combine lamb and remaining ingredients. Mix thoroughly. Spread lamb mixture evenly over the bacon and roll so the ends of the slices of bacon are rolled in with the lamb.

Wrap tightly in waxed paper and chill thoroughly. Before slicing, place wooden picks through the roll at 1-inch intervals to hold the bacon in place. Cut in 1-inch slices. Brown slowly on both sides, turning frequently, until done, about 15 to 20 minutes.

Pour off fat as it accumulates. Remove picks and serve. Yield: 6 servings.

Tuna Fingers Are Deep Fried

Reports by the National Fisheries Institute that large schools of tuna have been found off the New England coast remind us that tuna really aren't born in cans, that there is such a fish as "fresh tuna." Unlike salmon, which tastes about the same whether it comes from a can or in steak form, fresh tuna has a flavor quite different from that in cans.

★ ★ ★

With its delicate flavor and firm flesh, fresh tuna is excellent for sauteing, broiling and "en goujon"—the French way of saying "cut in fingers, roll in egg and seasoned bread crumbs and fry in deep fat."

Tuna En Goujon

If tuna is frozen, let thaw on refrigerator shelf or at room temperature. Cut 1½ pounds of tuna steaks into small fingers about 3 inches long and ½ inch thick. Dry thoroughly; roll in flour, then in beaten egg to which a tablespoon of water has been added. Finally coat with fine seasoned bread crumbs.

★ ★ ★

Fry in deep hot fat (370 degrees) 2 or 3 minutes, or until golden brown. Drain on paper towels. Serve with lemon wedges and a tartar or spicy tomato sauce. Makes 4 to 5 servings.

Roll Cheese Mixture in Lettuce for Salad

If you'd like a change from run-of-the-mill salads, U. S. D. A. home economists suggest a **SWISS LETTUCE ROLL:**

Spread a combination of cottage cheese, chopped nuts, grated carrot and mayonnaise on washed and dried lettuce leaves. Roll as tightly as possible, secure with toothpicks, and chill for one hour. Cut into slanted slices with a sharp knife.

Serve as a garnish for meat, as part of a vegetable plate, or as a special salad.

Soak onion rings in ice water for about half an hour before deep-fat frying them.

Appearance of Crab Salad Tempts Eater

Nice for a group of friends.

Buffet Crabmeat Salad

3 cans (6½ ounces each) king crabmeat
½ cup mayonnaise
2 tablespoons catchup
½ of a large lemon
1 tablespoon drained capers
Romaine
1 cucumber
1 small green pepper
1 small onion (preferably red)
1 tablespoon red wine vinegar
1 teaspoon sugar

Drain crabmeat; remove cartilage; reserve some of the large pink pieces of crab for a garnish. Mix together the mayonnaise, catchup, juice from the lemon and capers; mix lightly with crab.

Arrange romaine leaves on a large shallow salad bowl; mound crab mixture in center. Top with reserved crabmeat pieces. Arrange sliced cucumber and green pepper rings on romaine around it. Peel, slice and separate onion into thin rings; marinate in vinegar and sugar.

Cover salad bowl and refrigerate until serving time; add onion rings to garnish and dribble small amount of marinade over romaine. Makes 6 to 8 servings.

Festive Foods Spell Halloween

By JANET ODELL

Pontiac Press Home Editor

What are you going to feed the goblins this year? Whether Halloween is celebrated on Friday or Saturday night, you'll have to provide food.

This year we're going to talk about food for Halloween parties instead of the kind you pass out to beggars at the door. But may we make our usual plea to **WRAP ANY FOOD YOU GIVE.** We're sure you'll agree with this need for protection.

★ ★ ★

The little girls in our picture have made a fabulous popcorn pussy cat. These not only make delightful table decorations, but good refreshments as well — if the youngsters can bear to eat them.

Popcorn Cats

5 quarts popped corn
2½ cups sugar
1 cup light corn syrup
¾ cup water
½ cup butter or margarine
1 teaspoon salt
1 teaspoon vanilla
Large licorice gum drops
Licorice jelly strips

Put popped corn in a metal bowl and keep warm in a 300-degree oven. Cook sugar, corn syrup, water, butter or margarine and salt to soft crack stage, or about 270-290 degrees on a candy thermometer. Add vanilla.

Pour in a fine stream over popped corn and mix well. While hot, press into three 8-inch foil lined layer cake pans. Let cool for a few minutes.

Turn two layers out of pans and remove foil. Press together to make one 2-layer cake. Turn the third layer out and let cool.

With a rolling pin roll out the large gum drops and cut out ears and eyes. Press onto the single layer to make a cat face. Cut the jelly strips into several pieces for whiskers.

Place several pointed wooded skewers in the double layer and mount the single layer face on it. Makes one large popcorn cat.

Pontiac Press Photo

MADE WITH POPCORN—Patty Weber (left), daughter of the Bernard Webers of Florence street, and Sharon K. Terry, daughter of Mrs. Basil Terry, also of Florence, tried their hand at making a popcorn pussy cat. Doesn't he have a rakish look? One or more of these corny cats will make an amusing centerpiece for your Halloween party.

Make amusing Jack-O-Lantern sandwiches for your guests, young or old, with a filling of Maine sardines and cucumber. Your own children will like to help you make these sandwiches.

Jack-O-Lantern Sandwiches

24 slices of white bread
1 recipe Maine sardine sandwich filling
1 package cream cheese, softened
1 tablespoon milk
Yellow and red vegetable coloring
1 can pimientos

Cut bread into rounds with cookie cutter. (Or mark by pressing small glass into bread and cut with kitchen shears). Spread half the rounds with sardine sandwich filling. Top with remaining rounds.

Mash cream cheese and milk together until soft enough to spread easily, adding additional milk if necessary. Add coloring drop by drop, mixing after each addition until desired shade of orange is achieved. Spread like frosting on each sandwich.

Cut pimiento into Jack-O-Lantern features and arrange on frosting. Yield approximately 12 sandwiches, depending on size of rounds.

Sardine-Cucumber Filling

2 cans Maine Sardines (4 oz.)
1 pkg. cream cheese, softened (3 oz.)
1 tablespoon mayonnaise
2 teaspoons lemon juice
3 tablespoons finely chopped onion
6 drops Tabasco
1 tablespoon minced chives
½ cup finely chopped cucumbers, well-drained

Drain and mash sardines. Blend next 7 ingredients together. Combine with sardines. Yield: filling — 6 large or 12 small sandwiches.

★ ★ ★

Goblins always like fruit drinks. Although this one is made with yellow and orange fruit juices, it may not be bright enough in color to suit you. We won't tell if you add some orange food coloring. Put a piece of candy corn on top of each marshmallow cloud floating in the punch.

Frosty Mar-Flip

16 marshmallows
1 cup boiling water
¼ cup lemon juice
1 cup orange juice
1 cup unsweetened pineapple juice
1 cup cold water
Ice cubes

Beat marshmallows and boiling water over low heat until the marshmallows are melted. Remove from heat and cool. Add fruit juices, cold water and ice cubes. Blend well, serve cold. Serves 4-6.

★ ★ ★

Perhaps you aren't entertaining on Halloween. Treat the family to a special dessert to mark the day. Even the name — Gleeful Goblins — is festive sounding.

Gleeful Goblins

½ cup cinnamon candies
1½ cups apple juice
½ cup brown sugar, firmly packed
1 teaspoon cinnamon
6 medium tart apples

Heat oven to 350 degrees. Heat cinnamon candies and apple juice. Stir occasionally to dissolve. Pour into baking dish. Mix sugar and cinnamon.

Core apples. Peel one-inch section from top of apple. Cut out goblin faces if desired. Place apples in baking dish. Pack centers with sugar mixture.

Bake 45 minutes or until tender. Baste frequently with juice. Just before serving, place filling in center of apples.

Filling

2 tablespoons butter or margarine
½ teaspoon cinnamon
¼ cup brown sugar, firmly packed
¼ cup coconut
1 cup bite-size shredded wheat biscuits crushed to ½ cup

Melt butter. Stir in cinnamon and sugar. Add coconut and cereal crumbs. Yield: 6 servings.

Be Very Kind to Broccoli

LINCOLN, Neb. (UPI) — Food scientists have come up with new ways to cook broccoli to retain flavor, color, texture and a high percentage of vitamin C.

Experiments at the U. S. Department of Agriculture research service dealt with three basic methods of cooking broccoli. One pound of trimmed broccoli was used in each experiment.

In the first method, the broccoli was boiled in 1¼ cups of water for 10 to 12 minutes. In the second, it was steamed for 10 minutes. The third method used a pressure saucepan, cooking the broccoli in ½ cup of water for two minutes at 15 pounds pressure.

Analysis of these methods showed that the vitamin C which was lost had dissolved in the cooking water instead of being destroyed by heat. By using steaming or pressure methods, the scientists were able to retain 65 to 80 per cent of the vitamin C.

DON'T OVERCOOK

Overcooking boiled broccoli by even five minutes increased loss of vitamin C by 10 per cent and loss of deep green color by 15 to 20 per cent. The taste panel also gave lower ratings in color and flavor to this broccoli.

To solve the problem of getting tender but not overcooked broccoli, the scientists suggested paring the raw vegetable to remove the tough outer layers. They also slit lengthwise all stalks thicker than one inch.

Canned Tuna Suits Diet of Everyone

Canned tuna bestows quite a nutritional bonanza.

Tuna is an excellent source of complete and well-balanced protein so essential to optimum nutrition . . . protein being the foundation for building and repairing body tissues. Tuna's protein is easily digested and assimilated, even by convalescents, very young children, or the senior citizen.

Tuna is an excellent source of the B vitamins. Particularly noteworthy is the high content of vitamin B-12 and of the so-called "unidentified growth factors" which help to build body protein and vital red blood cells. Tuna is also rich in vitamin A.

Tuna provides a considerable portion of iodine, fluorine, phosphorus, and calcium. Iodine is that element which prevents the development of goiter. Fluorine contributes to tooth development and helps protect against future dental decay. Calcium and phosphorus help built strong bones.

Tuna is canned in salad oil of vegetable origin . . . oils which do not increase the blood cholestrol. Furthermore, tuna itself has a very low sodium content, so it fits into the diet of people on a limited sodium intake.

Beware of Food Fads, Warns Nutritionist

CHICAGO (UPI) — Food fads founded by nutritional quacks are bilking the American housewife out of $500,000,000 a year, a Harvard University professor said last night.

These food fads have produced "quacks who distort truth, make false claims, promise youth, beauty, wisdom, health or charm—or threaten disease and premature death unless their advice is taken," Dr. Frederick J. Stare said.

Stare, chairman of the Harvard Department of Nutrition, told the 17th annual American Association of Newspaper Representatives' Food Editors Conference that the recent growth in food fadism is blocking scientific efforts.

"It is increasingly difficult for the health worker as well as for the homemaker to distinguish fact from fad and the scientific from the pseudo-scientific," he said.

From left are Carole Mihay of Trabajamas, Susan Till of Demiteens, and Joan Grahek of Les Filles Club. The Follies will be sponsored by the Woman's Auxiliary of the Pontiac General Hospital.

Compromise in Order... Abby

The Scent Doesn't Make the Man

By ABIGAIL VAN BUREN

DEAR ABBY: I am a man. A real man. Not one of those characters you see in the ads spraying himself with deodorants. When did the honest smell of a man go out of style?

ABBY

I put in a good day's work, six days a week and, naturally, I perspire, but it doesn't bother me. I am clean. I shower every morning.

At Christmas some of the people who work with me gave me some perfumed-this and perfumed-that, and a fancy kit with deodorants included. If they are hinting, they know what they can do with their hints.

Do me a favor, Abby, and state in your column that a man should smell like a man, and not like a bunch of violets. REAL MAN

DEAR REAL: I think I've heard from some of the people who have to work with you six days a week. A man shouldn't smell like a "bunch of violets." Neither should he smell like a mountain goat. There are many scent-free deodorants on the market, especially for he-men. So don't lose by a nose. Smell good. Like a man should.

★ ★ ★

DEAR ABBY: Please tell that little bird whose husband listened to the baseball game in bed after only ten months of marriage not to panic.

On my wedding night my husband put a quarter in the motel radio to hear the basketball game. We have been married eight years and have three fine children. And he STILL listens to sports in bed. SPORTS FAN'S WIFE

★ ★ ★

DEAR ABBY: We would like to know what you think about youngsters between the ages of 13 and 15 giving each other expensive gifts.

These gifts cost as much as $20 and $25. My daughter, age 13, thinks we are old-fashioned for refusing to let her accept a gift of this price from a boy. We think that children who exchange gifts like this are being pushed by their parents a little too fast. We would like your opinion in print, please. OLD-FASHIONED PARENTS

DEAR OLD-FASHIONED: Move over and make room for another "old-fashioned parent." It is my opinion that young people should be allowed to give only gifts purchased with money which they have earned and saved.

★ ★ ★

CONFIDENTIAL TO MUSIC LOVER: All jazz is NOT junk! Get "GIANTS OF JAZZ" (your public library has it) and read about the lives of twelve of the greatest jazz musicians, and how they got that way. The author is Studs Terkel, and he's hip.

★ ★ ★

What's your problem? For a personal reply, write to ABBY, care of this paper. Enclose a stamped, self-addressed envelope.

Book Fair Open Tonight at Central

The all-city book fair at Central Elementary School will be open this evening until 9 p.m. The fair started Wednesday and will be open through 5 p.m. Friday.

There are more than 1,000 books on display. Science books received from the Washington Science Foundation are of particular interest.

Once in a while there is a dress that captures the heart of the entire buying market. The stark simplicity of this one with its large, pointed collar, open throat and long sleeves makes it a wonderful "mood" dress. Of light weight wool, it takes all sorts of accessories.

100 at Scout Meeting

The fall council meeting of Northern Oakland County Girl Scout Council, an agency of the United Fund, drew about 100 adults to the CAI Building Tuesday evening.

A "Thanks Badge" was presented to Mrs. Richard Balmer, retiring chairman with eight years service on the resident camp committee. Announcement was made of Mrs. Balmer's appointment to the chairmanship of the camp development committee.

A certificate of appreciation was presented to Richard Balmer, marking his 15 years of service to the committee.

★ ★ ★

Re-elected officers were Mrs. Fred Bisballe, president, and Mrs. Kenneth Davidson, vice president.

Also re-elected to the board were Mrs. Clifford Neville and Mrs. Albert Latendresse.

Newly elected to the board were Mrs. Harry E. Foukes, secretary and Mrs. Robert C. E. Gibson, treasurer.

Others were Mrs. Lucy Whiters, Mrs. Harold Daniels, Mrs. Carlyle Bragen, Mrs. Ivan Wilcox and Mrs. William Crommett.

Mrs. Harold Millspaugh, Mrs. C. O. Babb, Mrs. Kenneth Carmen, Mrs. Leslie Fiske, Mrs. Leonard Doub, Mrs. John Evans and Mrs. Richard Flora were others.

★ ★ ★

Elected to the membership nominating committee were Mrs. Robert Girardot, Mrs. Ray Caughill, Mrs. Harmon Gillen, Mrs. Richard Scribner, Mrs. Earl C. Wilson and Mrs. Lawrence De Rycke.

Mrs. Glen Bingel was song leader.

The flag ceremony and invocation was presented by Waterford Village Girl Scouts.

Avon District received the attendance award and its members were hostesses at the social hour.

Buzz groups discussed questions on a membership survey conducted by the national Girl Scout organization.

Pioneer Sisters Hold Luncheon

Fifteen members of the Pioneer Sisters met at the home of Mrs. L. G. Kath on Pingree avenue for a cooperative luncheon Wednesday.

★ ★ ★

Mrs. Richard Raber presided at the business meeting. Mrs. Rhoda Rubey led devotions.

300 Attend Installation of Areme Unit Officers

About 300 were present when Areme Chapter 503 held installation of officers Monday evening at Roosevelt Temple.

Mrs. William C. Pfahlert was installing officer and Mrs. Harry Vernon, assisting marshal.

★ ★ ★

Mrs. Victor O. Bodamer was installed as worthy matron and Harry Eaton worthy patron.

Others installed were Mrs. G. R. Scharf Sr., associate matron; Royal Clark, associate patron; Mrs. Royal Clark, secretary; Mrs. Robert Davis, treasurer; Mrs. Harry Lunsford, conductress; Mrs. Harry Eaton, associate conductess; John Rise, chaplain; Mrs. Loren Thompson, marshal and Clayton Lovelace, organist.

★ ★ ★

Mrs. Edward Moden, Adah; Mrs. Kenneth Newlon, Ruth; Mrs. James Hampton, Esther; Mrs. Plezzy Newingham, Martha; Mrs. Mae White, Electa; Mrs. Royal Gammage, warder and Eugene Elmer, sentinel were others.

Installed as flag bearers were Mrs. Alfred Vaughn, Mrs. Robert Edward and Mrs. James Reinert.

★ ★ ★

In the Bible degree, Mrs. John Rise, conductress; Mrs. Raymond Goins, Adah; Mrs. William Koggenhop, Ruth; Mrs. Von Reynolds, Esther; Mrs. Lee Murphy, Martha; and Mrs. Ford Newcombe, Electa were installed.

Mrs. Thad Beall had charge of the guest book and Mrs. Grace Robinson and Mrs. Samuel Wiscombe, the gift table.

★ ★ ★

Past Mighty Chosen Ones of Iraq Caldron assisted Mrs. Theron Taylor with refreshments. Jane Danton and Mrs. Eva Dyer poured.

★ ★ ★

Among guests were Past Grand Esther, Mrs. Ralph Clara; Past Grand Warder, Mrs. James Mundy; and Past Grand Martha, Mrs. Roy Wilton.

They're Great Guys, However...

Bosses Pass Secretary Test

By GAY PAULEY

NEW YORK (UPI)—Any girl who's ever worked can define the perfect boss.

He's a guy with the wisdom of Solomon, the cleverness of Machiavelli, the wit of Victor Borge and the looks of Cary Grant. He's also generous with money.

Surprisingly a lot of bosses measure up pretty well, if we're to listen to some women who have an excellent vantage point for employer observation. The secretaries.

★ ★ ★

These kittens at the keys praise the old boy for giving his girl Friday responsibility and letting her use her time and ability to the best advantage. This is the majority opinion from a panel which the magazine "Today's Secretary" polled.

★ ★ ★

Just what do the girls see when they look at the executive from nine to five or six?

★ ★ ★

They agreed he remembers to say "good morning" and "good night," rarely reprimands them for lateness, dictates fairly well, works long and hard. He remembers Christmases, but forgets anniversaries and National Secretaries' Day.

★ ★ ★

His best qualities?

Here the answers from the panelists varied. Heading the list were understanding, intelligence, sense of humor, fairness and patience. One secretary said, "he likes children." Another remarked, "he can handle women, especially if they are upset."

But all was not sweetness and light. The panel listed procrastination as the average boss' major fault, followed closely by forgetfulness and tardiness.

Mentioned frequently: "He's tight with money."

★ ★ ★

Asked what habits of bosses they'd like to change, the secretaries came up with some beauts. A partial list:

—Getting ashes all over the desk after I've just dusted it;

—His manners;

—Smoking cigars;

—Keeping his store teeth in the file drawers;

—Buzzeritis.

★ ★ ★

Faults or no, most secretaries like most wives, remained true. Why?

One answered, "I've grown accustomed to his face."

Another said, "Ninety-five per cent of him is great; the other five per cent is bearable."

The clincher, "The next one could prove a real problem."

Gail Winningham, daughter of Mrs. C. C. Winningham and the late Mr. Winningham of Bloomfield Hills and Fort Lauderdale, Fla., married Nathaniel Weller Stroup, son of Col. and Mrs. James H. Bishop of Culver, Ind. The wedding took place Oct. 17 in Ann Arbor.

Lutheran Church Women Study U.N.

"You and the United Nations" was presented by Mrs. H. Erwin Gottschalk and Mrs. Phillip White at the Monday meeting of the Church Women of Ascension Lutheran Church at the parsonage.

★ ★ ★

The audience participated by reading functions of U. N. committees. A scale model of the U. N. building was displayed, along with charts and maps.

★ ★ ★

Mrs. Richard Yarger sang "In Christ There Is No East or West." Mrs. Donald Grudt spoke. Mrs. William LaFountain reported on the United Lutheran Church Women's Convention held recently in Kalamazoo.

★ ★ ★

Hostesses were Mrs. Albert Hehl, Mrs. Stanley Langdon and Mrs. Harry Langdon Jr.

Typographical Auxiliary Will Note Birthdays

The Ladies Typographical Auxiliary 129 met Tuesday evening at the home of Mrs. David Keefer, Putman street.

★ ★ ★

Mrs. Donald Barker was appointed sunshine chairman and a birthday club was started. Refreshments were served by Mrs. Keefer.

★ ★ ★

The next meeting will be at the home of Mrs. Kenneth Phare.

Four members of child study clubs discuss their parts in the luncheon Wednesday at Pine Lake Country Club. From left to right are Mrs. William Thiede, Child Culture Club, in charge of decorations; Mrs. Fred Hoenstine, Junior Child Study Club, who handled reservations; Mrs. Richard Christiansen, president of the Clarkston Senior Child Study Club, and Mrs. John Christie of the Clarkston Child Study Club, in charge of publicity and hospitality.

Smooth black silk worsted pumps in both oval and tapered toe silhouettes can be worn with transitional clothes as well as in winter.

Advice to Teen-Agers Isn't Our Line, but...

By EUGENE GILBERT

From time to time we get letters from teenaged readers across the country asking our advice on a variety of problems.

★ ★ ★

After reading our surveys on dating, allowances, curfews and other subjects, many seem to translate the findings into personal terms and seek our help in solving life's problems.

They want to know, for instance, how they should handle "old fashioned" parents or a date who is never on time, or an overbearing teacher who piles on homework.

To our astonishment, they even ask our advice on curing acne, dandruff, stuttering and a whole pharmacopia of youthful afflictions.

Here are just two letters that came in recently:

Dear Mr. Gilbert:

A boy I like very much who was taking me out a lot suddenly stopped dating me. I have asked around trying to get some information but nobody knows. I have called him, but he doesn't call back. I am so miserable. Do you think I should keep calling him or just take the hint and forget about him?

E.T.

★ ★ ★

Dear Mr. Gilbert:

I'm 15-years-old and I never know what to do when the boys I'm with tell dirty jokes. The other girls laugh but later tell me they weren't sure whether they should have. If I don't laugh, the boys may think I'm a deadhead, but if I do, they might think me fast and I don't want that. Mother says I shouldn't laugh at all and should tell the boys not to speak that way in front of me. What do you think?

S.T.

TO THE HORSE'S MOUTH

Frankly, we didn't know what tack to take. Ours is a statistical research organization, not a lovelorn column. Advice of this kind is outside our field, but still the letters pour in.

Finally, we hit on a solution. Rather than offer our personal suggestions, we decided to send copies of these two letters and several others to a sampling of teenagers across the country for their opinions.

The idea was that perhaps teenagers are better equipped to advise other teenagers on what to do in certain youthful situations than many of the so-called experts. They certainly are closer to problems of this kind, and as a group their advice should have some corporate value.

★ ★ ★

The initial response was both gratifying and revealing. Some 600 teenagers, living in cities, towns and on farms across the continent, read the letters from E.T. and S.T. and volunteered comment.

END CHASE

The consensus in E.T.'s case was that she should end the chase, either for good or just long enough to make the boy turn around and chase her.

"Forget him and get interested in others," advised 14-year-old Ann Evendorf of Wichita, Kan.

"Take the hint and drop him," urged 18-year-old Don Killian of Portland, Ore. "If he wanted to go out with you, he would. Anyway, you are ruining your chances elsewhere by pursuing a lost cause."

Some advocated ending the chase temporarily as a diversionary tactic. "Let him think you've forgotten him," urged a St. Louis lad. "If he's really interested, he'll come running back."

★ ★ ★

In S.T.'s case an overwhelming majority of the teenagers sided with mother and advised her to tell the boys that she regards off color jokes as both vulgar and insulting.

"Let them know in no uncertain terms that you disapprove and they will respect you more for it," insisted a Wichita, Kan., teenager. "You don't have to make a big scene, just a disapproving glance will do the trick."

★ ★ ★

Some urged S.T. to enlist the aid of her girl friends in boycotting dirty jokes by refusing to laugh. "This way, they'll take the hint in no time and you won't have to do any preaching," said 14-year-old Gail Greenberg of Elkins Park, Pa.

Merle Nadlin of Chicago thought the boys "were only trying to get attention. Switch the conversation to something more wholesome, like sports cars or baseball, where they can still be in the spotlight."

Is It Bad?

Just What Is Cholesterol?

By JOSEPHINE LOWMAN

For a number of years allergies and viruses have had a medical spotlight on them. Now cholesterol and overweight have taken over the star roles. We always knew what overweight did to our figures but only fairly recently have we become aware of how dangerous it is to our health. Today few people even know what cholesterol is although they read constantly about the undesirability of a high cholesterol level in their blood.

Even in medical and research circles the role of cholesterol, how it works and what part it plays in hardening of the arteries, is still unresolved and there are sharp differences in medical opinion.

However, I believe that what is already known is of importance to every one of my readers. Therefore today and later this week I will try to clarify the picture for you a bit.

WHAT IS IT?

In the first place, what is cholesterol? It is a waxy, fatty-like yellow substance. It is not a fat and it is believed to be an essential part of our physical make-up and vital to life.

The idea that this substance plays a vital part is reinforced by the fact that our bodies manufacture it when necessary. Our body can make cholesterol out of fat foods, proteins, carbohydrates and out of the fat on our abdomens and hips.

No one yet knows exactly what the ideal blood cholesterol level is This varies with individuals and many factors enter into it. When the body is functioning normally and the intake of cholesterol is not excessive, the cholesterol blood level remains the same for long periods of time, and can be suspected of being safe. However, if there is some malfunction in your system, or your intake of cholesterol is high, then the blood level will rise.

ENOUGH EVIDENCE

While it has not been proven conclusively that a high cholesterol level in the blood stream causes hardening of the arteries or leads to heart attacks, there is enough evidence that this is true to cause most physicians to cut the fat intake in the diets of their patients who have hardening of the arteries or a heart attack.

Also many doctors today feel that the cholesterol blood level should be a part of every physical examination. This is especially true from middle age on.

Some of the foods highest in cholesterol are egg yolk, cream, cheese, fat meat, butter and whole milk. I do not mean to suggest that we go on some sort of a crazy diet and avoid these foods. However, we in this country have a high intake of fat and if you find that your blood cholesterol level is high you might be wise to cut down on these items. Your physician will know best.

Tomorrow: "So You're Pregnant — You Still Can Keep Your Shape."

If you find that your blood cholesterol level is high, you might be wise to cut down on those foods highest in cholesterol.

Lewis-Stein Vows Told in East Lansing Church

Norma Louise Stein and Seaman Apprentice Edward Lee Lewis exchanged wedding vows Oct. 14 at the People's Church of East Lansing.

Parents of the couple are Professor and Mrs. Keith Stein of East Lansing and the E. F. Lewises of Bloomfield Hills.

The bride was attended by her sister, Mrs. Charles McKee. Mr. McKee was best man. Ushers were William J. Lackney of Toledo, Ohio, and Robert J. Deaver of Ottawa Lake.

A reception was held at the home of the bride's parents after the ceremony. Guests were from Detroit, Royal Oak, Bloomfield Hills, Birmingham, Pontiac, East Lansing and Toledo, Ohio.

★ ★ ★

After a trip through the eastern states, the couple will reside in Bainbridge, Md. Both are former Central Michigan University students.

Unit to Sponsor Week of Morning Prayer at Church

Beginning Sunday, a week of morning devotions in observation of "Week of Prayer and Self Denial" is to be sponsored by the WSCS of Baldwin Avenue Methodist Church.

Led by Mrs. C. Warren Wilson, spiritual life chairman, services will be at 9:30.

Program chairman is Mrs. Cordie Hereim. Mrs. Edward Hamill, president, will lead the Sunday service.

Graves, Hartley Vows at St. Michael Church

Mary Ann Hartley married Charles J. Graves Saturday at St. Michael Catholic Church. Parents of the couple are Mrs. Charles Hartley of Home street and Mr. and Mrs. Clarence Graves of Ortonville.

The bride wore a floor length rose pointe lace over satin gown with a Sabrina neckline and fingertip sleeves. A fingertip veil was worn with her pearl tiara. She carried a bouquet of white carnations and roses.

Maid of honor was the bride's twin sister, Margaret, who wore a cotillion blue ballerina length gown of nylon organdy over taffeta. The bridesmaids, Alice Graves of Ortonville and Diane Pickford of Pontiac, wore similar gowns of powder blue.

They wore tulle leaf headpieces accentuated with seed pearls and attached to circular veils. The maid of honor carried blue and white carnations and the bridesmaids yellow and white carnations.

Keith Flood of Ortonville

MRS. CHARLES GRAVES

was best man. Ushers were Francis Graves of Ortonville and Richard Bramble of Pontiac.

The bride's mother wore a rose beige lace sheath dress with mink accessories and Mrs. Graves wore a brown sheath with mink accessories.

Charles Earl Hartley, brother of the bride gave her away.

MOMS Told of Plans

MOMS of America Unit Two members were notified of coming events at a luncheon recently at the home of Mrs. Frank Emery on Elizabeth Lake road.

A smorgasbord and card party is slated 11:30 a.m. Tuesday at the VFW Hall in Royal Oak by MOMS of America, Inc. Unit Five.

Other events are a Gold Star Mothers Chapter Four 15th anniversary tea Wednesday at the DAV Hall on Auburn avenue and a reception for the national president Mrs. Howard Estes by Birmingham's Unit Three MOMS on the same date from 2 to 4 p.m. at the Birmingham Community House.

An invitation has been received from the Michigan State Board of MOMS to a presidents' discussion meeting Nov. 2 at the Veterans' Memorial Building, Detroit.

Mrs. Duncan McVean and Mrs. Edgar Thomas were guests at The Pontiac Press publicity chairmen tea at Devon Gables Tuesday.

Kay Korthaus Married to Stephan H. Ragatz

Kay Louise Korthaus, daughter of Mr. and Mrs. William Korthaus of Hatchery road, married Stephan H. Ragatz, son of Mr. and Mrs. Curtis Persinger of Waterford.

The ceremony took place Saturday at the First Free Methodist Church in Pontiac.

★ ★ ★

The bride wore a floor length gown of silk taffeta with a bow in the back and falling into a chapel train.

Her Sabrina neckline was trimmed in Alencon lace, iridescent sequins and pearls. She carried a cascade bouquet of white roses and carnations.

Mrs. John Campbell, matron of honor, wore a purple taffeta dress with a purple hat and veil and carried a cascade bouquet of orchids and white carnations.

JoAnn Seyfried, Indianapolis, Ind., the bride's cousin, and Carol Barkham of Milford, another cousin, bridesmaids, wore gold taffeta ballerina length dresses and carried gold and white carnations.

★ ★ ★

Pamela Woodard, the flower girl, wore a dress of white silk taffeta similar to the bride's and carried a basket of pale orchid rose petals.

David Ragatz, brother of the bridegroom, was best man. Ushers were Paul, Philip and Carman Ragatz, also brothers, and Rolland Korthaus, brother of the bride.

The bride's mother wore a blue tweed walking suit with black accessories and a pink rosebud corsage.

The bridegroom's mother wore a blue dress with blue accessories and a pink rosebud corsage.

MRS. STEPHAN RAGATZ

Discusses 3 Months in Asia

Henricka Beach of Ann Arbor discussed the subject "Three Months in Southeast Asia," an account of a trip from Lebanon to Japan, when PEO Sisterhood, Chapter AW met Monday evening. Mrs. Ashton Emery of Waterford was hostess.

Miss Beach, who retired at 57 from a 33 year career in the life insurance business, went to Lebanon as a teacher at Beirut Presbyterian College for Women and retired at 65.

From there she journeyed to Japan where she taught for two years at Doshisha University and Women's College in Kyoto under the American Board of the Congregational Church. She was entirely self-supporting during her years abroad. Mrs. Cora G. Bartell introduced the speaker.

Mrs. James Boaz reported on the regional college night held last week at Waterford Township High School where she represented Cottey College. Cottey is a junior college for girls in Nevada, Mo., supported by the sisterhood.

Mrs. Walter Teeuwissen of the finance committee announced a rummage sale Friday and Saturday at the Chapman Hotel in Pontiac.

Marian Emery assisted her mother with refreshments.

Parties for the pre-school child should be small, simple and short, recommend home economists at Michigan State University.

Should One Ever Notice a Bug?

By EMILY POST

"Dear Mrs. Post: The other day I went to visit a friend and while we were talking, I noticed a bug (which looked very much like a roach) crawling on her. I called this to her attention and she immediately disposed of it, exclaiming, "Where in the world did that come from?"

"She seemed quite embarrassed and I wondered afterwards whether I was wrong to have called it to her attention, or whether it were best to let it go unnoticed. What is the best thing to do in a situation of this kind?"

Answer: If the bug had been anywhere else than actually on her dress, it would have been best not to notice it, but you were right to tell her before it could crawl on to her skin.

"Dear Mrs. Post: Several of my friends and myself are taking a business course at school and in one of our classes we are studying the proper way to answer the telephone. Our teacher said that when at home we should always identify ourselves when answering the telephone and has instructed us to answer by saying, "Smith residence, Mary Smith speaking."

"My friends and I feel that this is too cold and impersonal for a house telephone. Our teacher has even called us at home to see how we answer the telephone and if we just answer "hello" we get a zero. Will you please tell us if this is correct?"

Answer: The answer your teacher wants you to use is correct in business, but "hello" is generally accepted as being correct and in best taste for use at home.

"Dear Mrs. Post: Will you please tell me if it is proper to seal an envelope before giving a letter to a friend to deliver to someone else?"

Answer: Most correctly you give the letter unsealed and the friend seals it in your presence.

"Dear Mrs. Post: Will you kindly tell me when a napkin should be unfolded—before or after grace? Or doesn't it make any difference?"

Answer: After grace, but this is not important.

Stretch jersey fabric slightly as you stitch it to get extra ease along the stitching line, recommend home economists at Michigan State University.

Here is another revival, wide wale corduroy. This costume, created by Mr. Mort, can be worn all day. With the jacket it is a perfect office dress. Without it there is a printed bare top just right for dining or dancing. Available locally.

Blast Out Frustration From Leisure Hours

By RUTH MILLETT

Do you really enjoy the leisure hours each week that are yours to do with as you please?

In a recent survey several hundred persons were asked to list the 10 leisure-time activities that consumed most of their spare hours.

Then these same persons were asked to list the 10 leisure-time activities they most enjoyed.

There was no overlapping of the two lists among the hundreds questioned. None of them were doing the things they enjoyed most.

Are you surprised at those people?

You might be even more surprised if you tried the experiment yourself. List the 10 leisure-time activities that take up most of your extra hours. Then list the 10 things you most enjoy doing.

If you come up with two entirely different lists it's time to make some changes.

Some of the leisure-time activities that you don't enjoy probably can be cut out entirely. And you can undoubtedly reduce the time you spend on some of the others.

With the time you save from cutting out and cutting down on the activities that give you little pleasure you can find time for some of the things you actually enjoy most.

THERE'S A CATCH

The catch is that you may have to give up a few things you have been doing simply because you feel they are "expected" of you. You may have to be firm about saying "No" to invitations that you know will result in boredom. You may have to dare to be "different," if what you most want to do isn't what any of your friends doing.

★ ★ ★

But with a little courage you can find the time to do at least some of the things you really want to do.

The Babylonians split up day and night into 12 hour periods. The ancient Chinese used 10.

MARY WOJCIECHOWSKI

Fellowship Bible Class Installs Slate of Officers

Officers were installed by the Fellowship Bible Class of First Baptist Church Tuesday evening in the church educational building.

The Rev. William Hakes, assistant pastor, installed Edward Luscumb president. Other officers are Warren Gray, first vice president; Earl Campbell, second vice president; Basil Vernier, secretary; Albert Degan, assistant secretary; Dale Barnett, treasurer, and Ruth Briggs, assistant treasurer.

★ ★ ★

Murray Deighton was made teacher and Mrs. Ira Davis, assistant teacher. Committee-at-large members named were Mrs. Clyde Anderson, Mrs. Harriett Seaks, and William Barron.

The Rev. and Mrs. Hakes presented a duet, followed by a talk from the book of Romans.

A cooperative dinner was served by Mr. and Mrs. John Cowe and their committee.

Mrs. Emma Malady closed the meeting.

The U.S. has 6 per cent of the world's labor force.

The mood is Edwardian in these two charming pillboxes from the Emme fall millinery collection by Adolfo, both Neiman-Marcus Fashion Award winners. The pillbox at the left is wine velvet. The other is silver pearl satin.

Engleman-White Vows Pledged by Candlelight

Sue Ellen White and John Henry Lawrence Engleman of Lake Orion were married Saturday evening at Central Methodist Church. The Rev. Milton H. Bank officiated before 200 guests at the candlelight ceremony.

The bride is the daughter of Mr. and Mrs. Royce D. White of South Francis street. Parents of the bridegroom are Mr. and Mrs. Peter J. Engleman of Lake Orion.

★ ★ ★

A floor length gown of tulle lace and satin with long lace tapered sleeves and a bateau neckline outlined in white sequins was worn by the bride. A crown of seed pearls and sequins caught her fingertip veil, and she held a cascade arrangement of white carnations and pink sweetheart roses.

★ ★ ★

Mrs. Dempsey Spillers was matron of honor and the bride's sister, Mrs. James Saunders, was bridesmaid. Both wore matching gowns of emerald green with fur trim. The honor matron carried harvest moon carnations and Mrs. Saunders carried maize carnations.

★ ★ ★

James Saunders was best man. Ushering were Arnold C. Beauchamp of Auburn Heights and Joseph Strzelecki.

Sandra Ward was soloist.

Following the ceremony a reception was held at the Union Hall on Baldwin avenue.

The new Mrs. Engleman changed to a three piece light gray suit with black accessories and a pink sweetheart rose corsage for traveling. The couple will reside on Whittemore street.

MRS. JOHN H. L. ENGLEMAN

Mrs. White wore a peacock blue lace dress with black and white accessories and a rose colored cymbidium orchid corsage for her daughter's wedding.

Mrs. Engleman chose a medium blue lace dress with black and white accessories.

Out-of-town guests were Mrs. William Cook and her family of Palmdale, Calif.

Mother of Year Will Benefit by Smorgasbord

A public smorgasbord dinner will be served 1 to 5 p.m. Sunday at the home of Mrs. Charles F. Kuhn of Waterford Township.

It is sponsored by the American Mother's Committee, Inc. Reservations should be made today.

Each year the committee has an event to raise funds to send the next year's Michigan Mother of the year to the finals at New York City.

All proceeds will be used for this purpose, Mrs. Kuhn said.

We Can Only Say: What Next?

Space Lifeboat Coming

PHILADELPHIA (AP)—You're in a space ship bound for the moon or mars.

A meteor suddenly strikes the craft.

The collision disables the rocket's mechanism.

Your air supply begins to escape.

You must abandon the ship, but how?

★ ★ ★

Two astronautical engineers here think they may have the answer in a "space lifeboat" wherein future travelers to the moon or the planets could escape in an emergency.

★ ★ ★

Robert P. Haviland and Harold L. Bloom, of the General Electric Co. said Wednesday they have drawn plans for several types of space lifeboats. They hope to submit them to the government.

One of the lifeboats would be a 30-foot rocket about six feet in diameter. It would shelter three men in space for a week.

Say a space ship carrying three men is hit by a meteor. They must abandon ship. They quickly climb into the smaller rocket, which would be fastened to the side of the mother ship or which could be launched from within it.

★ ★ ★

The smaller rocket would be equipped with most of the essentials of the mother ship such as an air purification system, food, signal generator, battery, oxygen supply and water.

Revere's 1776 Home Damaged by Flames

BOSTON (AP)—Fire broke out early today in the home which Paul Revere built and lived in with his family in the 18th century.

The blaze was confined to the kitchen where, authorities said, some woodwork, furniture and silverware hanging from walls was damaged.

Deputy Fire Chief Edward Gaughan said he could not estimate the amount of damage because of the historic value of the house and its furnishings.

UPI Telephoto

GOTTA MATCH? — Who's that gal in the unglamorous pose? It's the "glamorous" Lauren Bacall. No, she's not impersonating Groucho Marx, she's rehearsing for the new George Axelrod comedy "Goodby Charlie," which casts her in the role of a male Hollywood wolf returned to earth as a beautiful siren to pay for his sins. The play will have its pre-Broadway premier in Detroit Monday.

Jury Dismissed After 22 Hours

Fails to Reach Verdict in $125,000 Lawsuit in Parking Lot Accident

After deliberating more than 22 hours, an Oakland County Circuit Court jury yesterday was dismissed without reaching a verdict in a $125,000 lawsuit. The action was against an Oak Park couple and Northland Center.

Judge William J. Beer discharged the eight women and four men after having allowed them one more day to reach a verdict. Tuesday afternoon they had informed the judge they were stalemated. They began deliberating last Friday morning.

Yesterday's was the fourth hung jury during the present term.

Ellen and Clark Gordon of Detroit filed two suits against Mrs. Edna Altman of 15300 Miller St. and her husband Sam for injuries Mrs. Gordon received Jan. 22, 1958. Mrs. Altman's car had pinned her against another while she was walking through the Northland Center parking lot toward the shops.

The Gordons claimed the center was just as responsible for the accident as Mrs. Altman, charging that the lot was not properly supervised. The accident involved a car protruding out of a parking stall and into the traffic lane.

★ ★ ★

Judge Beer still has under advisement motions directing liability against the Altmans and dismissing the suits as they relate to the Southfield shopping center.

Hollywood Headlines:

Is in 'Huckleberry Finn' but Aims at Fight Ring

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — "My career is like a river. I would like to have it end by fulfillment, by flowing into the mighty ocean. I don't want it to dry up and die before it reaches there."

The man speaking was Archie Moore, the fistic philosopher. He was telling why he is seeking an acting career even though he is light-heavyweight champion and a vocal contender for Ingemar Johansson's heavyweight crown.

THOMAS

"I've been very lucky in the ring," Archie commented. "I've never really been hurt, although I've been knocked out a few times. I would like to quit while the river of my career is still flowing strongly. The only way I can do that is to have something else to turn to."

★ ★ ★

Acting could be it. He is now playing a plum role—the runaway slave, Jim, in a new version of "The Adventures of Huckleberry Finn." And he's going right well, according to all sources.

★ ★ ★

"I am giving it everything that I can from my heart and soul," Archie said as he relaxed in his homespun costume. "I really feel this character. He is not an educated man, but he uses his head to accomplish what he needs.

"I am being very careful with it, because I realize that a lot of my people are opposed to the character of Jim. I have even asked to change some of the lines that might seem offensive."

Archie is doing two songs in the movie, though he has done no previous singing. "I wouldn't be surprised if I turned into a pretty good folk singer," he remarked.

★ ★ ★

It's possible. But then, anything is possible with Archie. Such as winning his title at the age of 36 or more. (His true age is in question.) And shedding 25 pounds two and three times a year to defend his crown.

★ ★ ★

That's why you shouldn't discount Archie's intention to meet Johansson, though the champ has avoided any commitment.

He said that his choice of a fight career was as carefully thought out as everything else in his life.

"It was when I was 16 and in reform school," he related. "I had fallen in with a bad crowd and got in trouble. I thought and thought about what I could do so I could improve my lot."

He considered football but found it offered little promise.

It was the same with baseball; Satchel Paige was the only well-paid Negro in the game. Then he heard about Kid Chocolate's earnings in the fight game. That decided it.

Disposing of Kittens Is Child's Play

ST. LOUIS (AP) — Rosharon Merlin, 13, had little trouble finding homes for three stray kittens.

She took them to a department store and showed them to everyone who would listen to her adoption plea.

She disposed of the three kittens in two hours.

He Finds Living Cheaper

Europe Gets Holden

BERLIN (AP)—William Holden has moved to Europe, and he doesn't care who knows it.

A few years back press agents would have thrown up their hands if an American movie star came out with a statement like that.

Now, times have changed. The movie people are fond of saying that 55 per cent of the money American movies earn comes from other countries, where television is less widespread. A lot of American filming is now done in Europe—it cuts costs.

FINDS LIFE CHEAPER

It used to be, Holden explains, that no film star could get a big international reputation without working in Hollywood. That isn't true any more. He himself hasn't made a picture there since 1953.

★ ★ ★

"I love my country," says Holden, who was born in O'Fallon, Ill. "But I love my family too. Last year I logged about 100,000 miles in the air and spent about six weeks in the United States. After awhile I got to figuring how much it cost me for every dip I took in my own swimming pool."

Holden is the businessman type of actor, with interests as far afield as Nairobi and Hong Kong.

Next year he will be established in a house at St. Prex, near Lausanne, Switzerland, and hopes to cut 25,000 miles from his air travel.

★ ★ ★

Holden has been married 18 years to the former Brenda Marshall, who used to be an actress herself. Their sons, West, 15, and Scott, 13, have already started school near their new hme—which isn't quite ready yet.

An older daughter, Virginia, is studying and working in California but will make it to the new home for Christmas.

Familiarity Sours 'Flowering Cherry'

By JACK GAVER
UPI Drama Editor

NEW YORK—The miseries of a middle class English family constitute tepid entertainment in the case of "Flowering Cherry" which was produced at the Lyceum Theater last night.

★ ★ ★

The efforts of two players high on anyone's list of favorites, Eric Portman and Wendy Hiller, are insufficient to make absorbing Robert Bolt's study of nagging domestic problems that end, or at least enter a new phase, with the death of the man of the house.

Its success in London may have been due to the recent trend among younger British playwrights to foresake the drawing room and upper class materials to write about life in the raw, so to speak.

★ ★ ★

The novelty appeal, you might say. But plays with such background are old hat in the American theater.

Flies Bird South

NORTH WOODSTOCK, Vt. (UPI) — Mrs. Eugenia M. Moody, 75, vice president of the Woodstock Humane Society, nursed back to health a hummingbird she found half frozen. She then paid $4 to send the bird to Miami as a special passenger aboard an airliner.

Tennessee Ernie Ford said it after a bad TV rehearsal: "I'm feelin' so low I could milk a short cow standin' up . . . Sometimes the key to a youngster's happiness is the one that fits the family car. —Earl Wilson.

Copying Mr. Herter

NEW YORK (UPI)—Sales of bow ties have picked up noticeably since Christian Herter became U.S. secretary of state, reports one New York store.

Salesmen's Knowledge Isn't Encyclopedic

NORMAN, Okla. (AP) — Six peddlers reported to the police station to receive permits for door-to-door sales.

★ ★ ★

Three of them ran into difficulty spelling the name of their product. They were encyclopedia salesmen.

Hal Boyle Says:

Dave Merrick Broadway's King of Hits

NEW YORK (AP)—If Broadway has a king today, he is David Merrick, a lawyer turned producer.

On this theatrical boulevard which is so often a highway to bankruptcy, Merrick has ridden to a fabulous financial success.

BOYLE

In the last five years 10 of his 11 plays have been hits, returning seven million dollars in profit.

"I've sort of been running a 10-horse parlay. Now I'm patiently waiting for the six flops in a row that are sure to come," he says.

"But I'm not at all afraid of flops. That would be fatal. I'm not exactly looking for the sure thing. I like to be adventuresome."

★ ★ ★

With the opening tonight of "Take Me Along," Merrick again will have five shows on Broadway for the second year in a row. By the end of the season he hopes to have seven or eight running simultaneously, a record unmatched in the history of modern theater.

Stage-struck all his life, Merrick abandoned his legal career in 1946 in St Louis, Mo., after winning a big case. He began an intensive study of the theater, working at everything from press agentry to play reading.

SHUNNED ACTING

"I never wanted to be an actor," he said. "I would prefer to be a playwright, but I don't have the talent. So, being stage-struck, I put on the other fellow's plays."

★ ★ ★

Merrick has no personal explanation for his high batting average of hits in an industry where failure is the rule rather than the exception.

★ ★ ★

"If I read something I like, I simply put it on," he said.

But Merrick is known for a showman's skill rivaling that of the late Phineas T. Barnum. His promotion genius has enabled him to take shows that opened to mixed critical reviews and turn them into big hits.

"I've been able to show that critics are human and sometimes err," he remarked.

PLANS SEASONS

He plans each season as a general might plan a series of battles. He keeps a talented staff that moves on from play to play in turn. Merrick takes a direct interest in every detail of production.

He has started a custom that endears him to stars, directors and playwrights—but annoys his fellow producers no end.

★ ★ ★

"The backer usually gets 50 per cent of the profits for putting up his money," he said, "and the other 50 per cent belongs to the producer—if he can keep it.

"I never have. I always split it with the creative artists involved in the production.

"You can't take it with you, so I believe in passing it around. Besides, I didn't come into the theater to make money. That's not my motive."

He still gets a heady joy from the excitement of the theater, would like to make it even more exciting.

"There was a flamboyancy about Broadway in the 1920s it later lost," he said. "I'd like to help bring it back."

Irked by Warts? Hypnotism Will Drive Them Off

NEW YORK (UPI) — Human beings can use their own emotions to cure themselves of warts. The fact, long suspected, finally is settled.

The first requirement to be a self-remover of warts is to be under deep hypnosis. Then you receive a "suggestion" to rid yourself of them from the doctor who hypnotized you.

You won't remember any of it but the warts will be gone in a few weeks, unless you're an exception.

★ ★ ★

The authority for this claim is scientific experimentation by two scientists at the world-respected University of Aberdeen, Scotland. Their results were published in the authoritative technical journal, "The Lancet."

THE GIRLS — By Franklin Folger

"Now, dear, I hope you don't have any plans for today — I want you to help me for a second."

Water Diversion Hearings Open

Atty. Gen. Adams Says Chicago's Plan Would Hurt Lakes States

CHICAGO (AP)—Correction of an old wrong and prevention of a prospective new wrong was asked by Michigan Atty. Gen. Paul L. Adams at the opening of the Chicago water diversion hearings here yesterday.

Adams presented his arguments before Judge Albert E. Maris, appointed by the U. S. Supreme Court as a special master to hear the case.

★ ★ ★

The ancient wrong, Adams said, was committed many years ago when Chicago was permitted to use the Chicago drainage canal and the Illinois River to dispose of its sewage.

The prospective wrong, he said, would arise from the Chicago plan to divert Lake Michigan waters to three Illinois cities.

Adams contended the proposed diversion would damage the power, navigation, recreation and fisheries interests of the Great Lakes states.

"It is the hope of the Lakes states," Adams said, "that Illinois will, under Supreme Court direction, learn to join in a common sharing of the innumerable benefits of the Great Lakes."

U. of M. to Honor 12 With Degrees

ANN ARBOR (AP)—Gov. Williams of Michigan, U. S. Supreme Court Justice John M. Harlan and President Eisenhower's brother, Edgar, will be among 12 persons who will receive honorary doctor of laws degrees at the University of Michigan's law school centennial convocation Saturday.

Others who will receive the honorary degrees are:

Judge John R. Brown of the Fifth U. S. Circuit Court of Appeals; Ralph M. Carson, a New York corporation lawyer; John Dethmers, Chief Justice of the Michigan Supreme Court; Harry G. Gault, Flint attorney; Erwin N. Griswold, dean of the Harvard Law School; Edward H. Levi, dean of the University of Chicago Law School; John P. O'Hara, judge of Detroit's Recorder Court; Werner Schroeder, Chicago attorney, and Lord Shawcross, Queen's counsel of St. Helen's Court in London, England.

Birth Rate Big

NEW YORK — Free China's birth rate of 49 per thousand is about twice that of the U. S. Free China claims 10 million population, according to UN estimates.

Their Licenses Revoked or Suspended

Clamp Down on 71 County Motorists

Seventy-one Oakland County residents have had their driver licenses revoked or suspended recently, according to the Michigan Secretary of State's office.

Ordered to furnish proof of financial responsibility due to drunk driving convictions were:

Donald L. Ballard, 121 Henderson St., Pontiac
Arnold R. Larm, 3248 York St., Pontiac
Gene A. Rodden, 268 Anderson St., Pontiac
Charles C. Curry, 3360 Bradway St., Birmingham
Albert C. Burns, 1728 Hamilton St., Birmingham
Dorothy C. Anton, 13349 LaSalle St., Huntington Woods
Alton C. Wendell, 3138 Greenlawn St., Orchard Lake
John G. Williams, 5249 Marconi St., Clarkston
Clarence E. Persinger, 26660 Cousens St., Madison Heights
Colonan L. Keen, 304 Dallas St., Madison Heights
Albert N. Roome, 2503 Woodward Ave., Berkley
Claude E. Maynard, 823 Hoffman St., Royal Oak
Elias Graham, 21348 Gardenlane St., Ferndale
Philip A. Arnold, 2529 Harris St., Ferndale

Losing the right to drive due to unsatisfactory driving records were:

Richard L. Reagan, 670 Kenilworth St., Pontiac
Elsworth White, 402 Midway St., Pontiac
Cyrenus G. Darling III, 401 Lone Pine Ct., Bloomfield Hills
Charles T. White, 1632 Bolton St., Walled Lake
Gary R. Beach, 5751 M15, Independence Township
Patrick M. Connolly, 15 Cambridge Rd., Pleasant Ridge
Joseph L. Lang, 52 Sylvan St., Pleasant Ridge
Joseph E. Flamm, 1349 Shenendoah St., Clawson
Ronald L. Slimak, 13140 Ludlow St., Huntington Woods
Robert J. Angove, 2725 N. Main St., Royal Oak
James Barefoot, 28430 Brentwood St., Royal Oak
Eugene C. Hartsell, 720 N. Blair St., Royal Oak
J. D. Balch, 695 Thomas Rd., Oxford
Herbert A. Bidjofsky, 13921 Northfield St., Oak Park
Allen M. Kaufman, 21930 Morton St., Oak Park
Gerald P. Thomas, 23266 Majestic St., Oak Park
James P. Chism, 1032 Brinston St., Troy
Gale L. Lapeer, 2153 Milverton St., Troy
William J. Chaffee, 445 W. Breckenridge St., Ferndale
Paul R. Prappler, 852 LaPrarie St., Ferndale
Thomas E. Lane Jr., 32894 Shady Ridge Rd., Farmington
George L. Redilla, 28026 Middle Belt Rd., Farmington
Theodore L. Peacock, 60791 Dyster Rd., Rochester
Robert L. Muir, 1553 E. Jarvis Ave., Hazel Park

★ ★ ★

Ordered to furnish proof of financial responsibility due to unsatisfied judgments were:

Ronald L. Frier, 206 W. Fairmount St., Pontiac
John J. Laucka, 954 LaSalle St., Pontiac
Thurman L. Mason, 185 Prospect St., Pontiac
Robert Pate, 164 Dresden St., Pontiac
Robert Rivenburgh, 40 Murphy St., Pontiac
Donald Rochette, 588 DeSoto St., Pontiac
Myrtle V. Rodgers, 144 Prospect St., Pontiac
Arthur P. Sanders, 45 Park Pl., Pontiac
Glenn Harrington, 75 Oakmont St., Auburn Heights
Alden L. Lewis, 3441 Squirrel Rd., Auburn Heights
Peter E. Beardsley, 5253 Crooks Rd., Birmingham
Marion Beardsley, 5253 Crooks Rd., Birmingham
Robert E. Peterson, 18215 Gould Ct., Birmingham
Leonard Kalowski, 2806 Ardmore St., Royal Oak
William Kappas, 207 E. 13-Mile Rd., Royal Oak
John M. McDaniel, 2578 Weaverton St., Rochester
Daniel A. Prager, 23051 Kipling St., Oak Park
James H. Wilson, 440 Sparks Lane, Walled Lake
Robert S. Wilson, 440 Sparks Lane, Walled Lake
Herbert C. Damery, 1006 Alberta St., Ferndale
William Littlejohn, 20770 Arnett St., Ferndale
Earnest J. McGinnis, 21006 Barstow St., Ferndale

★ ★ ★

Losing the right to drive due to both unsatisfied judgment and drunk driving convictions were Allen Webb Jr. of 403 Franklin Rd. and William Kennedy of 208 W. Fairmount St., both of Pontiac.

Ordered to furnish proof of financial responsibility due to unlawfully driving away an auto were Ronald E. Jones of 103 Mechanic St., Pontiac; Melvin Johnson of 5640 Maybee Rd., Clarkston; Dwight L. Burgess of 1202 Hamilton St. and Sylvester Kennedy of 10557 Danvers St., both of Royal Oak; Michael J. O'Donnell of 1469 Browning St., Ferndale, and Rolland F. St. Croix of 4260 Baxa St., Leonard.

The licenses of George K. Hopper of 173 Webb St., Troy; John S. Martin of 310 Sherman St., Holly, and Matthew J. McIntyre of 525 Farmdale St., Ferndale, were revoked due to unsatisfactory driving records and for failure to appear for re-examination.

69 Infants Die in France; Parents Jam Courtroom

BORDEAUX, France (UPI) — Parents who claimed their babies died "as if dipped in boiling oil" when rubbed with a certain talcum powder jammed the biggest courtroom in the Palace of Justice today when the manufacturer went on trial.

★ ★ ★

Jacques Casenave is charged with involuntary homicide and involuntary injury. The prosecution charged the arsenic mixed by mistake in the powder killed 69 infants in the Bordeaux region and caused injuries, sickness and suffering to 234 others.

Dow Chemical Reveals New Saginaw Division

MIDLAND (UPI) — Dow Chemical Co. today announced formation of a new division, the Saginaw Bay Division, which will be dedicated Nov. 3 at Bay City.

★ ★ ★

W. H. Schuette, vice president and general manager of Dow's Midland Division, said the new division will group three separate Dow operations located in Bay City.

The three operations — petrochemicals plant, polychemicals area, and the Bay Refining Co. —will be grouped together on a 1,400-acre tract on the Saginaw River near Saginaw Bay.

Dow acquired Bay Refining in 1956. It will supply petrochemical raw materials for the new division in addition to its own sales of petroleum products.

★ ★ ★

Dr. Leland I. Doan, company president, will give the dedicatory address.

Oh, No, Says Agriculture Dept.

Wants Pretty Bull Here

WASHINGTON (UPI) — An American businessman attempted to waive red tape today so he can bring to the United States a dainty British bull whose face is its mistune.

Norman Bennett, president of the U.S. Merchandise Mart of Washington, scheduled a meeting with Agriculture Department officials to see if the cow-like bull, Brook Mandore, can be imported.

★ ★ ★

The British Ministry of Agriculture has condemned the 14-month-old bull to death, castration or banishment because it fears his cow-like appearance and gentle disposition might be passed along to his offspring and spoil the breed.

★ ★ ★

A spokesman for the Agriculture Department said last night it's not Brook Mandore's face that the department objects to. It's his hooves and mouth.

★ ★ ★

Federal law prohibits importing cloven-hoofed animals from areas where hoof-and-mouth disease prevails. This includes Britain. The spokesman said it would take an act of Congress to allow Brook Mandore to enter this country.

Sugar Cures a Thief of Swiping Gasoline

SPRINGVILLE, N. Y. (UPI)— Police chief John Barbus tells how one farmer cured a sneak thief of helping himself to motor fuel from a barnyard gas pump.

The farmer poured a cupful of granulated sugar into the nozzle of the pump hose. The next day it was learned that a youth's car "mysteriously developed engine trouble and needed an expensive overhaul."

300 Steel Firms in U.S.

There are more than 300 steel-making companies in the United States. Their total capacity is 148 million tons a year.

Few OK, but Hannah Decries Too Many

MSUO-Type Setup Alarms State

By ROBERT E. VOGES

EAST LANSING (AP)—"We're not carrying the torch for a lot of branch colleges," said Dr. John A. Hannah, Michigan State University president.

Michigan State and the University of Michigan both have expanded into the branch college business in recent years.

★ ★ ★

Some legislators have expressed alarm over the growing trend—their main concern the added drain on tax dollars.

The recent Legislative Study Committee survey of higher education in Michigan, directed by Dr. John Dale Russell, also came out in opposition to the wholesale spawning of branch colleges.

"The development of branches," said the report, "tends to foster a spirit of competitive empire-building among the major institutions, each racing to be the first to establish another branch of its own in a given community.

MSUO NEWEST

The newest and most ambitious satellite school in the state is the Michigan State University Oakland branch near Pontiac.

Many of the ivy-covered traditions have been thrown out and the emphasis is on liberal arts. There will be no compulsory physical education or military science courses and no football team.

The University of Michigan operates at Flint and Dearborn. Michigan College of Mining and Technology has set up a branch at Sault Ste. Marie.

★ ★ ★

Both U. of M. and MSU attracted record enrollments this fall.

Michigan registered 23,566 on the campus, 451 at Flint and about 100 students are expected at the Dearborn branch.

Michigan State had a fall enrollment of 20,869 including 570 at MSUO.

All educators foresee a tremendous increase in college enrollments by 1970 because of the increasing number of youngsters reaching college age, a higher level of prosperity and the requirement of an education beyond high school for a much wider variety of jobs in addition to the professions.

Grand Rapids is actively planning for a new four-year college. Both U. of M. and MSU have been approached as possible sponsors.

Already, there is rivalry between advocates of parenthood by one of the other of the two institutions—mostly from the old grads.

★ ★ ★

The Saginaw-Bay City-Midland area wants a college of its own. Other communities have similar ambitions.

Among well-established existing colleges, the trend has been to reach for university status. There has been a mushrooming of junior and community colleges.

Hannah predicted MSUO would show strong growth and have a great future as an outstanding educational institution.

He said Michigan State had no ambitions for a network of branches throughout the state.

Hannah was firm on one point. He saw no need for more than three major state universities offering courses for advanced degrees in the state.

'MOST SENSIBLE THING'

"The most sensible thing," he said, "is to have the brightest possible people think through on what kind of a program of higher education would best serve the citizens of Michigan in the next 50 years.

"So far, there has been a lot of talk but not much has been done about it."

The problems of higher education, he said, should not be settled on a piecemeal basis under emergency conditions. The first wave of increased enrollments resulting from a high birth rate in the early 1940s already has hit the campuses, Hannah said.

The main question demanding an answer, Hannah said, is how to coordinate the state's educational institutions so there will not be a duplication of effort.

Hannah said he thought it would be unhealthy for Michigan to get into a squabble over educational funds similar to a situation existing in California.

There, he said, eight universities and a host of state colleges and junior colleges all battle each other for money before the Legislature.

Hannah predicted a continued growth of junior and community colleges in Michigan and declared they should be given every encouragement to increase capacities and enrollments.

"The ideal situation," he said, "would be to have a junior or community college in every area of the state that has enough students within driving distance to support it."

Looking toward the future, Hannah predicted that within a decade or so education up to the 14th grade—two years beyond high school—would be provided locally.

The future of branch colleges, he said, probably would be decided by the Legislature or by an overall planning committee for higher education.

ANY MORE 'UNWISE'

"If the decision in Michigan is to be that existing institutions are to assume responsibility for the development of branches offering work at the junior and senior level in conjunction with locally-sponsored junior colleges where additional four year colleges are justified, we should be getting at that task," Hannah said.

The Legislative Study Committee concluded it would be "unwise" to plan for any more branch colleges of existing institutions.

It also recommended existing branches be allowed to break out on their own when fully established and in a flourishing condition.

The report cited several advantages working for the establishment of branches. These included:

1—The new branch would have the benefits of the administrative and instructional know-how of the parent institution.

2—When some kind of a physical plant is available, operations can get under way quickly.

3—Some of the major central services can be carried on at the parent institution.

ACCREDITED STATUS

4—The branch institution, from its beginning, will carry the accredited status enjoyed by the parent institution, thus avoiding a long delay in accreditation.

5—The prestige and good name of the parent institution lends confidence and glamor to the new branch immediately.

6—A feeling in the community that the branch of a state institution, being financed by state funds, will bring in a payroll and afford educational opportunities to local citizens.

Disadvantages cited included:

1—Programs in a branch rarely have the strength found in comparable programs in a parent institution.

2—The branch tends to be managed through a form of absentee landlordship.

3—There is an inevitable tendency of the administration of the parent institution to favor the operation on the central campus over those of a branch.

SERVICE PROGRAMS SUFFER

4—Service programs in the branch rarely are as broadly developed, well staffed or provided with necessary facilities as corresponding programs on the main campus.

5—In general, the branch is allowed to maintain only such programs as parallel those on the main campus.

6—It is nearly always necessary to duplicate some of the important operations on the main campus at the distant branch.

7—The development of branches tends to take away from the Legislature the authority for establishment of new institutions.

"Whatever the decision," said Hannah, "our future depends, to a greater degree than ever before, upon both the quality of higher education and an expanding opportunity for all who are qualified."

American Motors Will Add 1,000 Workmen

DETROIT (AP)—American Motors Corp announced Wednesday that 1,000 production workers are being added at its Rambler plants in Kenosha and Milwaukee, Wis. Each will get 500 additional employes.

AMC said its employment already was at a record high of 21,500 and compared with 14,600 a year ago. AMC had its best sales year in 1958.

American Motors has indicated its steel inventories will take it into December.

Muscle Fibers Small

ROCHESTER — Voluntary muscles in the human body consist of bundles of fibers about one inch long and about 1/500th of an inch in width. Each of them is the development of a single cell.

75 Died and 99 Lived to Recall Grief

Springhill to Mark Mine Tragedy

(EDITOR'S NOTE — On Oct. 23 a year ago, the earth shook in Springhill, N.S., bringing disaster to men working in the deepest mine in North America. What has happened to the mining town since? And are the stories of tragedy, heroism and miraculous survival still alive in Springhill?)

SPRINGHILL, N.S. (AP)—The coal mine is dead. And tomorrow the homes and streets of Springhill will be brimming with memories of the 75 men who died with it one year ago.

The 99 men who lived through the caprice of nature which wrecked the mine will recall the terror, the agony, the grief, and—more than anything—the miracles that occurred here.

They will talk of the future of their town, struggling for life against the economic malnutrition brought on by closure of the mine.

★ ★ ★

The mine is dead. But it was a busy, efficient place last Oct. 23 as the 174 men of the evening shift reported for work.

"We jumped on the trolleys and went down the slope the same as usual," recalls Maurice Ruddick, a rugged, happy man in his middle 40s. "We laughed and joked and I hummed a tune or two."

The evening was warm, uneventful.

At 5 minutes after 8, the whole town shook. It felt like an earthquake, but the coal-wise people of Springhill knew better. They ran to the mine.

George Calder, manager of No. 2 Colliery, telephoned the 7,800-foot level. Men there told him there had been a terrific bump farther down in the sloping depths of the mine, the deepest in North America. Phones below 7,800 were dead.

There was nothing unusual about a bump, a sudden shifting of the rock above or below the coal seam. But usually they were confined to a small area. This one was big.

★ ★ ★

Below 7,800 feet the mine had been turned from dirty efficiency into dirty confusion in a single terrifying moment.

"The floor came up and the ceiling came down," says Wilfored Hunter. "I was hurled about 15 feet along with more falling coal and rock and timber and iron than I ever saw before."

Rescue work began at once. By 5 o'clock next morning, 81 men had been brought out (one of them died later); 93 were missing. Then they began finding the dead. It seemed doubtful anyone still lived.

But in a pocket 100 feet long and three feet high, Hunter and 11 other miners were going through the torture of waiting. And 350 feet away behind a wall of coal and rock, Ruddick and seven other men also lived.

"We had a couple of lamps operating for a day or so and I crawled around to look," says Hunter. "I saw my twin brother Frank imbedded in the ceiling and just dangling there. He was dead, but I couldn't leave him."

The men found some sandwiches and a two-quart can of water in a couple of lunch pails. The water, rationed out in a tiny aspirin bottle, lasted three days.

They prayed and sang. "I'm a choir singer and they really liked it when Bowie Maddison and I would do a duet on 'Stranger of Galilee,'" says Caleb Rushton. "We sang it three or four times a day for them."

In the other pocket of survivors, Percy Rector was in agony, his arm mashed between two timbers.

"We tried to get him loose, but we had no tools," says Ruddick. He was in terrible pain so we got together all the aspirins we had and gave them to him. That seemed to help.

"Monday was Garnet Clark's birthday. He was 29. We cut a sandwich into little pieces about a quarter of an inch wide and ate them and sang 'Happy Birthday' for him."

Rector died Tuesday. He pleaded with the others to cut his arm off, but no one had a knife.

Doug Jewkes had hallucinations. "The thought of water almost drove me crazy," he says. "I'd see it in front of me, reach out and it wouldn't be there."

"We never gave up hope," says Ruddick. "I told the boys, 'The Good Lord let us live through the bump. We'll plan to live as long as possible.'"

★ ★ ★

Shortly before noon on Wednesday, Oct. 29, Gorley Kemp—who was with the group of 12—heard a noise.

"I wouldn't let myself believe it," he says. "I just lay there listening for nearly an hour, I guess. Then I heard a pick or something click on the pipe (a broken air pipe) and I hollered.

"God, how I hollered."

Springhill, anesthetized by grief, awoke with joy. Horns honked, church bells pealed. People, laughing and crying, surged to the pit mouth.

A mircale, they said.

The second miracle followed three days later. "Give me a drink of water," the indomitable Ruddick told his rescuers, "and I'll sing you a song."

There were no more survivors. The last body was recovered Nov. 6.

★ ★ ★

The disaster was the third in as many years for this town of 6,500 people. On Oct. 31, 1956, 39 men were killed in an explosion in the No. 4 Colliery. On Dec. 26, 1957, fire devastated half of the town's business district.

The town lost a $40,000 weekly payroll last year when the Cumberland Railway and Coal Co. decided not to reopen the No. 2 Colliery, the last one operating.

"How about that," says Ralph Gilroy, 13th of unlucky Springhill. "I'm mayor of a coal mining town without a coal mine."

Since the disaster, the mayor says, about 125 families have left Springhill to find work elsewhere. Many miners who have stayed are still on the disaster relief fund. Some receive up to $30 a week if they have large families.

But Gilroy says three small industries will soon open. "And by next spring we should have a fair-sized federal penitentiary (farm) in operation on the site of last year's disaster," he says.

STILL TRYING

"We're still trying to get a mine in operation. We're definitely going to have a coal mine here, sooner or later."

But even if coal mining returns to Springhill, many miners will not.

"No, sir," says Arthur Rector, who now lives in Kitchener, Ont. "The man with the black cloak doesn't usually give you a second chance. I made my mind up while down in the mine if I ever got on top again I'd stay there."

KNIGHT JUST SITS — Alvin W. Knight, 48-year-old ex-convict charged with the Sept. 3 murder of a Michigan State Trooper, sits stoically beside his attorney, Martin J. Lavan. A preliminary hearing is being held in Brighton. Lavan contends the police violated Knight's rights by questioning him for nearly 70 hours.

Eaton Co. Declares 45 Cent Cash Dividend

KALAMAZOO (AP) — Eaton Manufacturing Co. directors Wednesday declared a cash dividend of 45 cents a share on new stock, payable Nov. 25 to shareholders of record Nov. 10.

★ ★ ★

The dividend is the equivalent of the 90 cents a share paid on the company's old stock before a 2 for 1 split Sept. 30.

Eaton paid a 90 cent dividend in August. Prior to that, in each quarter back to the first quarter of 1957, the dividend had been 75 cents.

It was the first time in several years that Eaton directors met outside the firm's home city of Cleveland. They gathered here Wednesday to honor the Fuller Manufacturing Co., a subsidiary.

SPORTS

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

Which of the many candidates will replace Minneapolis' brilliant Elgin Baylor as "Rookie of the Year" in the National Basketball Association during the 1959-60 season?

In all likelihood, it will be Wilt (The Stilt) Chamberlain of Philadelphia, who has the soaring and rebounding potential to become one of the all-time NBA greats.

But Coach Red Rocha of the Detroit Pistons is keeping a foot on the ground instead of climbing on the Chamberlain bandwagon wholeheartedly.

"Sure, Stilt's the best as of this minute," Red concedes, "but's that's because the Warriors will gear their entire offense around him."

"But we've got a boy named Howell who maybe won't score as many points or get as many rebounds. Yet, in his own way, Bailey might be more valuable to us because we'll run more than ever before and we'll have a five-man offense instead of centering it around a single player."

★ ★ ★

Meanwhile, general manager Nick Kerbawy of the Pistons got on the subject of big Walter Dukes last night at Pontiac Northern.

"One team is ready to make any kind of a deal with us only for the reason that we don't trade Dukes to the Knickerbockers," said Kerbawy.

He did not mention the team, but in the Eastern Division he was without doubt referring to Syracuse.

★ ★ ★

The Pistons, however, are interested in Ray Felix of the Knicks and Larry Foust who played last night with the Lakers and Syracuse really doesn't have the player the Pistons want, unless they get George Yardley back.

★ ★ ★

Dukes wasn't missed last night and Rocha apparently isn't counting on the big 7-footer returning to the squad, even though several long distance calls last night came from his home in Newark, N.J.

If Dukes really thought he was worth more than the $12,000 he is getting he's been living in a day dream. For his size and his past performance with the Pistons we hardly think he has been worth the $1,700 a running foot from head to toe he was getting.

The rookie, Gary Alcorn performed well last night and at least showed a little fire. Dukes never even had a spark.

Pistons Beat Lakers at Northern

BLOCKED SHOT — Dick McGuire (15) of the Pistons had his shot blocked by big Jim Krebs of Minneapolis as he tried to go up last night for a two pointer. Ed Fleming (70) gets behind McGuire in successfully stopping the shot. The Pistons played the exhibition game against the Lakers at Pontiac Northern and after having a 29 point lead, they finally won, 101-98.

Pontiac Press Photo

Area Basketball Fans 'Exposed' to Pro Cagers

Crowd of 1,600 Sees Detroit Quint in 101-98 Victory

Pontiac area basketball fans, 1,600 of them, were exposed to the professional level of the sport last night at Pontiac Northern High School where the Detroit Pistons defeated the Minneapolis Lakers, 101-98 in an exhibition game sponsored by the Jaycees.

After taking the lead from the start and pushing the advantage to 29 points midway in the third quarter, the Pistons needed a free throw and a field goal in the final seconds to finally win the game.

The starting five for the Pistons, including rookies Bailey Howell and Gary Alcorn, surged to a 40 point first quarter with Howell giving an impressive performance around the boards and on the floor.

The crowd showed some disappointment as Elgin Baylor, the heralded Laker rookie failed to score a single point. Baylor saw only limited action as he started the game and started the second half.

★ ★ ★

The 1958 "rookie of the year" was troubled with blisters on the soles of both feet. Last Sunday he scored 52 points in the regular season opener against the Pistons in a losing cause and he played the entire game.

The antics of "Hot Rod" Hundley added color to the contest. Hundley scored 17 points for the Lakers and he was the "court jester" just as he was when he played at West Virginia.

In the last minute of the game Hundley scored the field goal that put the Lakers ahead for the first time 98-97, and he did a quick jig which looked more like a person who had just won the Irish sweepstakes.

But when Chuck Noble made it 99-98 with :55 seconds remaining, Hundley then missed a short shot and with :10 seconds left Shellie McMillon took a Piston rebound and dumped it for the insurance basket.

Big Archie Dees, former Indiana star was impressive for the Pistons. He and Howell each had 13 points as McMillon led with 18 and Noble with 15.

Ed Fleming whose second half shooting closed the gap for the Lakers had 21 to lead the scorers.

Tonight, the Pistons play their final exhibition at Grosse Pointe, and Saturday they get back to regular season play against the Royals in Cincinnati.

DEFENDS TITLE — Little Pat Donner will be out to defend her title in the women's division when the Pontiac Press Bowlerama finals are held Sunday afternoon at Huron Bowl. She was women's high qualifier last week.

Handicap Finals Set for 12:30 at Huron Bowl

New Actual Invitational Contest Added Feature of Big Afternoon

By CHUCK ABAIR

The chips will be on the line Sunday afternoon when the finals of the 3rd annual Pontiac Press Bowlerama are held at the new Huron Bowl.

A total of 49 bowlers will be battling for the top prizes in the championship round starting at 12:30 p.m.

The group will include 36 men and 13 women who finished in the top 10 per cent of their group at the various qualifying sites.

All finalists will roll three games as the tourney takes over 24 of the 32 alleys at the local keg showplace for the handicap battle.

★ ★ ★

The men will be dueling for such outstanding prizes as $500 and a beautiful clock-trophy for the champion, $250 and a trophy for runnerup and $125 for 3rd place.

Women's awards are featured by a $300 check and a clock-trophy for 1st place, $150 and a trophy for 2nd and $100 for the No. 3 position.

All finalists are certain to finish in the money with the prize fund returned 100 per cent to the purse.

★ ★ ★

Mike Dzuris, Les Samuel, Dan Berry and defending women's champ Pat Donner have already clinched high qualifier trophies.

Dzuris, only 15 years old, clinched his honor with a 692 total at Rochester Lanes opening day. Samuel topped that with 697 at Maple Lanes in the 2nd round and then Berry went way over with 728 at Westside. Mrs. Donner had 671 at Lakewood Lanes.

Dick Cork, the other 1958 victor, is also back for another crack. He made the grade at Rochester.

★ ★ ★

Such local stars as "Mo" Moore, Frank Spadafore, "Ski" Neal, and Jim Kirkpatrick are among the men contestants. Mrs. Donner is the top average member of the women followed by Marvel Szot.

A new feature of the Bowlerama will be the actual invitational contest held immediately after the handicap titles are settled.

Bowling fans will have an opportunity to see the top actual performers of the tournament and other high average keglers battle it out. Trophies will be presented for first and second places.

All awards will be presented in the Huron Bowl lounge following the completion of competition.

MEN'S SQUAD

Monroe Moore, Jim Kirkpatrick, "Ski" Neal, Jay Lovett.

Gene Podgoske, R. Keith, Frank Spadafore, Berj Gerjekian.

Irv Gray, Fran Bertram, Joe Kane, Harold Law.

Milt Francis, Dick Cork, Howard Weedon, Ed Oldenkamp.

Ernie Cosma, Bill Bridge, Thurlin Cloud, Frank Pavlinac.

Jim Tracy, Marvin Copenhaver, Tom Heltsley, David Mackley.

Joe Myers, Mike Dzuris, Daniel Berry, Les Samuel.

R. Moore, Clint Nicholl, George Kazarian, R. Bowden.

Leo Roy, R. Thompson, Fred McClelland, Roderick Timm.

WOMEN'S SQUAD

Pat Donner, Marvel Szot, Laura Chenoweth, Carolyn Newcomb.

Helen L. Smith, June Paddy, Erma Pierce, Jean Preston.

Marbara Childress, Jo Seavey, Catherine Smith, Lucille Lyon, Catherine Karr.

Toronto Closes In on 1st Place

Leafs Nip Rangers to Move Within Point of Wings

By The Associated Press

The Rangers still are looking for their second National Hockey League victory after seven starts and the Toronto Maple Leafs are within one point of the leading and unbeaten Detroit Red Wings as a result of the Leafs' 3-2 victory over New York.

★ ★ ★

Bert Olmstead's goal midway in the third period last night broke a 2-2 tie and thwarted the Rangers' ambition and strengthened the report the New York club is seeking a little help in the goal tending department.

The Rangers have yielded 30 goals, nine more than any other team, and 26 more than the Red Wings in their five games. Last night Gump Worsley was credited with 18 saves. The Maple Leaf goalie, Johnny Bower, had an exceptional night with 40.

★ ★ ★

The Rangers made a battle of it, twice coming from behind to tie the score. Bob Pulford scored for the Leafs midway in the first period on a short back-hander. But Larry Popein tied it up late in the same session with a close-in shot.

Johnny Wilson's point-blank rebound at 12:01 of the second period again put the Leafs in front. But at 2:05 of the final period Dean Prentice tied it with a rebound. Then came Olmstead's clincher, a 20 footer with goalie Worsley partially screened on the shot.

Andy Bathgate added a bright spot to an otherwise unhappy evening for the Rangers by assisting in both goals to boost his point output to 10, tops in the league.

Michigan Colleges Way Ahead of Outside Foes

State Gridders Needn't Apologize

By The Associated Press

The state of Michigan needn't apologize for its football teams in 1959.

The Wolverine State may not produce a single champion outside its own ranks, but Michigan teams are doing fine against out-of-state opponents.

In 48 games against out-of-state foes, Michigan teams have come out on top 29 times, lost 18 and tied one.

Eight of the 13 games on tap this weekend involve clubs from other states.

★ ★ ★

Central and Eastern Michigan will be competing against Illinois teams in Interstate Conference Competition. Western Michigan invades Ohio for a Mid-American conference struggle, Detroit goes into the state of Oklahoma to battle Tulsa. Michigan Tech hosts Northern State. Grand Rapids JC meets Joliet (Ill) JC while Michigan and Michigan State tangle with Big Ten opponents.

This is homecoming weekend at several spots. Western Michigan will try to spoil Toledo's homecoming, Central Michigan has Northern Illinois as its homecoming foe, Michigan State will try to beat Indiana for the old grads and Hillsdale figures to rake Alma in the Dales' homecoming contest.

Michigan Tech will be risking a three-game winning streak in which the Huskies have held opponents to a total of 21 points. A victory Saturday would assure Tech of finishing over the .500 mark for the season.

Albion, nursing nine injuries after last week's loss to Hillsdale, will be missing four regulars in the game at Olivet. Halfback Mike Stone suffered a concussion and a fractured cheekbone in the first period against Hillsdale and may be out for several weeks. Guard Joe Shurmur, end Monte Clute and end Rex Harkness also will miss the game. Albion has a 33-10-2 edge over the Comets in all-time competition.

Hope will be trying for its 15th win against only two defeats in all-time play against Adrian. Adrian's last win over Hope was in 1955. Since then the Bulldogs have been outscored 108 to 14 against the Dutchmen.

★ ★ ★

One of the few teams holding an edge over Hillsdale over the long haul is Alma. The Scots have a 22-19-2 Mark against the Dales, but will be the underdogs Saturday when the two teams clash at Hillsdale.

★ ★ ★

Here's the Michigan college weekend schedule:

FRIDAY NIGHT

Grand Rapids JC (3-2-1) at Joliet JC (0-4)

SATURDAY AFTERNOON

Detroit (3-2) at Tulsa (2-3)
Northern Michigan (4-1) at Wayne State (2-1)
Ferris (2-2) at Kalamazoo (1-4)
Northern Illinois (4-1) at Central Michigan (4-2)
Eastern Michigan (1-3) at Eastern Illinois (1-4)
Western Michigan (2-3) at Toledo (2-3)
Alma (3-2) at Hillsdale (5-0)
Michigan (1-3) at Minnesota (1-3)
Indiana (3-1) at Michigan State (2-2)

SATURDAY NIGHT

Northern State (3-2) at Michigan Tech (4-2)
Hope (5-0) at Adrian (1-4)
Albion (3-2) at Olivet (2-2)

Zernial Through as Tiger

'Ozark Ike' Put on Waivers

DETROIT (AP)—Gus Zernial, the big man the Detroit Tigers used to send for when they were on the spot, was on one himself today.

★ ★ ★

"Ozark Ike" has had it as a Tiger—and maybe as a major leaguer.

Placed on waivers yesterday, the 36-year-old Texan must be claimed within a week by another club or face unconditional release by the Tigers. His age and $20,000 salary weigh against chances he will be claimed.

Detroit Tiger fans will remember Zernial mainly for his pinch hitting prowess. He led the American League with a .395 average in his specialty in 1958, his first season with Detroit.

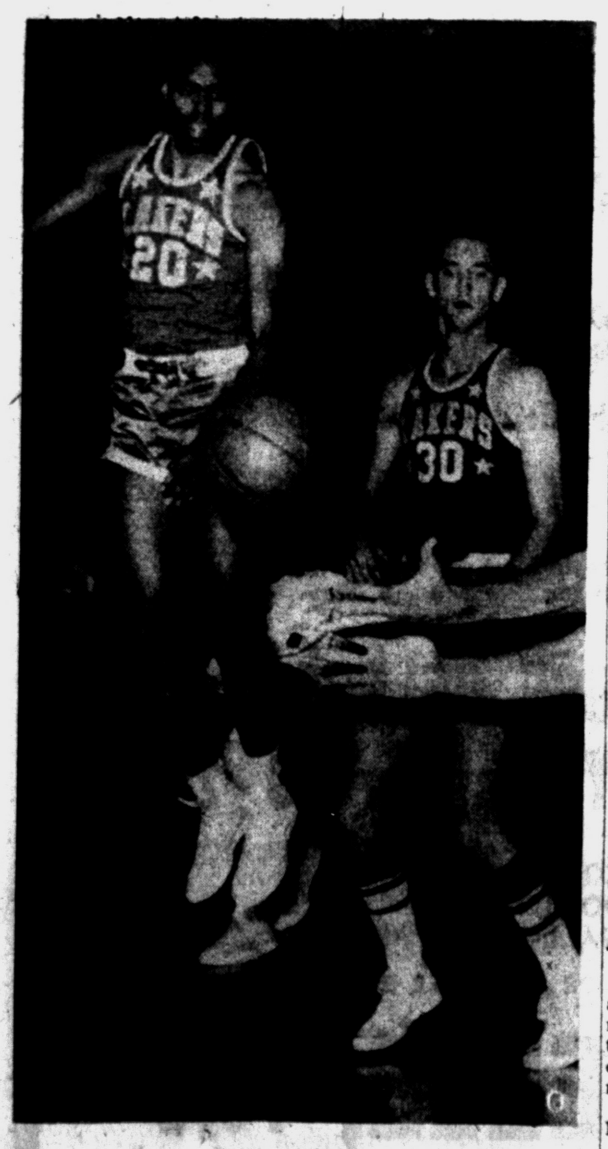
His four pinch homers in two years gave him a lifetime total of 10, which ties the league record.

Zernial came to the Tigers as part of a 13-man trade with the Kansas City Athletics. Previously, he was with the Chicago White Sox.

He saw some service in the Tiger outfield and at first base while batting .227 last season. He took part in 60 games, 27 as a pinch hitter. In 1958, his first season as a Tiger, he hit .323.

★ ★ ★

Zernial's best year was 1953 when he slammed out 42 home runs for the Athletics.



Pontiac Press Photo

OUT OF NOWHERE—It looks like a phantom hand coming out of nowhere to take the ball out of the reaches of Tom Hawkins (20) and Steve Hamilton (30) of the Minneapolis Lakers last night in the game with the Detroit Pistons at Pontiac Northern. The Pistons won the game 101-98 in the final minute of play.

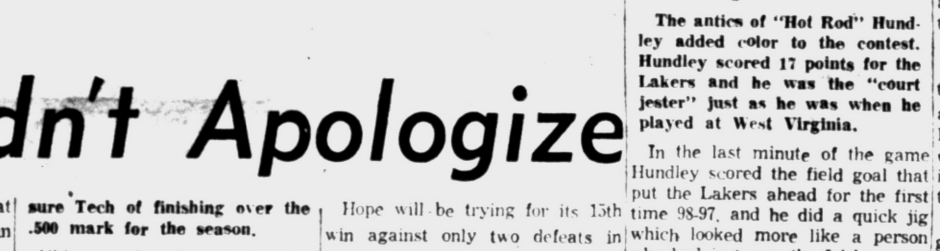
Two State Grid Teams Among 20 Rated by NAIA

KANSAS CITY (UPI)—Hillsdale and Northern Michigan were ranked among the top 20 teams in the National Association of Intercollegiate Athletics small college ratings announced today.

The Dales were ranked fifth and Northern Michigan was 16th.

Hillsdale is unbeaten in five starts. Northern Michigan's lone loss was a 29-20 setback at the hands of the Dales.

Hope, the state's only other unbeaten team, was not ranked among the top 20 in the nation.



The Sawmis have draped the Grapevine in black for West Bloomfield, Birmingham, University of Michigan and the Detroit Lions.

These were the downfall for the Swami Association last week.

The pigskin pickers gained very little ground on leader Swami Cornwell, but it was just a pretty sad day for everyone.

The choices this week go to Flint Northern over Pontiac Central, West Bloomfield over Clarkston (but lookout here for a surprise, because the Lakers may have their dobbers down), St. Mike to win the big city battle against St. Fred, and Waterford to get back to winning ways.

Rely Heavily on Sawchuk

Wings Face Boston Tonight

DETROIT (AP)— The Detroit Red Wings are counting heavily on veteran goalie Terry Sawchuk to help keep their winning streak going in tonight's game with the Boston Bruins at Olympia Stadium.

The Wings are leading the National Hockey League with four victories and a tie. The 29-year-old Sawchuk has been a big factor in getting the Wings off to a flying start.

The wily Sawchuk has tried a new technique this season. Instead of sticking close to the net, he has been moving out to stop long throw-in shots and give the puck to Wing defensemen before it hits the boards behind the net.

Gordie Howe says it has been a big help: "The hardest thing in the world is to pick up the puck coming off the boards and get it under control."

★ ★ ★

Manager Jack Adams likes the strategy. He says Sawchuk is a good skater and can get away with it.

The opposing goalie in tonight's game will be Sawchuk's old rival, Harry Lumley.

Sawchuk has yielded only four goals in five games and has two shutouts.

The question is can Sawchuk and his teammates keep up the fast pace?

★ ★ ★

The Wings' coach Sid Abel said, "I don't know how long this thing can go on but I'm all for it's going as long as it can."

"I feel," said Abel, "we have the type of club that can go places if all our young kids get the feeling that they can win.

"There's no determining how much attitude plays in winning games. Maybe attitude never won any hockey games, but it certainly never lost any."

All Is Healed Again

MILWAUKEE (AP) — Milwaukee Braves left fielder West Covington had the pins removed from his broken ankle Wednesday. Dr. Bruce Brewer pronounced the fracture "completely healed."

The big slugger broke the ankle in a slide Aug. 20.

Rodriguez Unanimous

MIAMI BEACH, Fla. (AP)—Cuban welterweight champion Luis Manuel Rodriguez ran his victory string to 25 Wednesday night by taking a unanimous 10-round decision over Isaac Logart of New York. There were no knockdowns.

Rodriguez, 22 and still unbeaten in pro competition, weighed 145½ and Logart 149½.

STYLE PAYS OFF IN SCORING
By JIM SPALDING

Bowling style is simply the way you roll the ball. Unfortunately, many bowlers roll two consecutive balls differently and this habit can prevent a good average in your game.

One of the secrets of improving your average is to "fix" your bowling style so that each time you roll the ball you duplicate your actions as exactly as possible. Once you get this down, you'll come to know what to expect each time you roll the ball.

As for a typical bowling style . . . well, I've been told that my style is about average. At the stance, I bend my body slightly from the waist because I've found that it relaxes me a bit more than standing perfectly upright.

I use a four-step delivery and start from the 12-foot mark which allows me what might be called "average sized" steps. My backswing is not especially high, nor is my arm follow-through. I don't turn the ball to give it spin; I just let it slide off my thumb and give it a lift with my fingertips for spin.

My own guess is that I probably bowl more in the style of Joe Wilman than anyone else; I don't have the crouch of Don Carter nor the leg-kick of Bill Lillard. I think Wilman would agree that avoiding exaggerations of style makes bowling easier and more comfortable.

The important point is to adopt a style which feels normal and comfortable to you. Make sure that it's a style that will let you deliver a good working ball. Then stick to that style. Practice your bowling so that each action becomes habit. Then you can duplicate your actions each time you roll a ball. Bowling the same way each time is an important way to improve your average.

Durrell Heavy Choice

MONCTON, N.B. (AP) — Yvon Durelle, British Empire light heavyweight champion, is heavily favored to defeat Young Beau Jack of Boston tonight in a 10-round non-title fight.

PERFECT STYLE is the result of perfect balance in ABC champion Jim Spalding's bowling delivery. Curled fingers of right hand are result of spin put on ball at release.

Ole Boy Is Loaded —With Surprises

By MAJOR AMOS B. HOOPLE
Father of the Forward Pass

EGAD, gentle readers, what a storehouse of surprises awaits you this weekend.

At our weekly facts and figures conference, Dr. I. M. Inorbit and Prof. Quentin Zlobotny introduced mathematical evidence indicating there will be explosive doings on the greensward come Saturday.

At first I thought the boys had mistakenly presented the plans for their new satellite, a chrome-plated conveyance named Nik-a-loon. The Nik-a-loon, not to be confused with the Lunik, will have special rates for honeymooners and regularly scheduled parachute drops over Niagara Falls.

Hak-kaff, we've strayed far afield, so back to football. A fitting farewell season for a fine gentleman will be capped for Ray Eliot when his Fighting Illini, upset conquerors of Army, trample Penn State at neutral Cleveland Stadium.

* * *

In other titanic struggles on midwestern gridirons, Iowa will prevail over Purdue, and Northwestern's air arm will prove superior to Notre Dame's.

Rarely have we had more astounding upsets on our card than these two. The Green Wave of Tulane, a slight swell up to this point, will turn into a tidal wave as it engulfs Georgia Tech. On the West Coast, California will rise Phoenix-like to clobber a good Oregon State team.

On with the forecast . . . Um, Yas!

Night Racing Considered

CHICAGO (AP)—Continued decline of revenue may bring thoroughbred night racing to the Chicago metropolitan area.

Benjamin F. Lindheimer, executive director of Arlington-Washington Parks, estimated it would cost a million dollars to install flood lights at each plant.

"I'm opposed to night racing," he said, "but if it is a case of saving thoroughbred racing in Chicago, as a last resort, our tracks will support it."

Skaters Moscow-Bound

BROCKTON, Mass. (AP)—The Brockton Hockey Club, which won the National Amateur Hockey Assn. crown last spring, will leave Nov. 12 for a 5-game series with a Russian team in Moscow.

Syracuse Tops Grid Defenses

NEW YORK (AP) — For the fourth consecutive week the Orange of Syracuse leads the nation in major college football teams overall defense, and for the third straight week the team is tops in rushing defense.

Coach Ben Schwartzwalder's huskies have allowed their four opponents an average of 98 yards overall, and an average of only 20 yards by rushing. The last team to so restrict the enemy ground attack was Penn State in 1947, the year the Nittany Lions set the all-time low by giving up an average of only 17 rushing yards throughout the season.

TOTAL DEFENSE

		Plays	Yds	Avg.
1	Syracuse	189	392	98.0

Confident PCH Invades Flint Friday

Chiefs Collide With Northern in Valley Game

Central in Fair Shape Physically for Crucial Battle at Atwood

By BILL CORNWELL

If confidence and enthusiasm mean anything, Flint Northern can expect to meet a whale of a lot of opposition Friday night at Flint's Atwood Stadium.

Of course, it helps for the opposition to have a few horses too, and the scrappy football forces at Pontiac Central High School believe they have enough of them on hand to give Northern plenty of trouble.

Gridiron victories over either Flint representative in the Saginaw Valley Conference are always highly cherished by Pontiac Central for the simple reason that there have been so few of them over the years.

The spirited Chiefs, working hard and diligently this week in practice at Wisner Stadium, are confident they can throw a roadblock in Northern's route to the Valley crown and boost their own conference stock as well.

Central's last win over the Vikings came in 1956 at Wisner when the Chiefs eked out a hard-earned 20-19 victory and Northern went on to make one of its rare finishes in the Saginaw Valley basement.

Coach Andy MacDonald's Flint squad rebounded the following year to win the Valley championship and PCH has absorbed nothing but harsh blows from the Vikings in the meantime.

Suffice it to say, Flint Northern will be a heavy favorite when the two teams line up for the 8 o'clock kickoff.

★ ★ ★

Northern, pre-season title favorite, stands 1-0 in the league and 3-2 overall with the defeats coming at the hands of a powerful Toledo DeVilbis outfit, 26-7, and the new Flint Southwestern school in a decided upset, 6-0.

The Chiefs have a 1-1 Valley mark and a 4-1 record altogether. Their lone setback was administered by Arthur Hill, 19-6, on a night when PCH won everything except the final score.

Physically, coach Jesse MacLeay's warriors are in fairly sound shape for the Flint invasion.

Joe McCauley, Pontiac's No. 1 fullback when the season began, will be suited up tomorrow evening, but he will probably see little or no action. He injured his knee in the Wyandotte game and was originally feared lost for the rest of the year.

Halfbacks Isaac Jones and Dick McCauley are nursing pains and ills, but both should see action against the Vikings. The only other banged-up member of the PCH roster is tackle Ron Jenkie, who missed last week's Saginaw game and has avoided all contact work this week. Jenkie may see limited action Friday.

Central will be facing a team that has speed to burn. Putting a stopper on Northern's breakaway backs will be the Chiefs' top problem.

Prep Gridders Start Stretch Run

★ ★ ★ ★ ★ ★ ★ ★ ★

There are few so-called "big games" but several will carry considerable interest on another full day of prep football action Friday.

League play will take up almost all of the area teams as they swing into the 2nd half of the season.

Birmingham, smarting from two successive losses despite being Eastern Michigan pre-season favorite, faces another tough obstacle in trying to keep its diminishing title hopes alive. The Seaholm eleven plays at Mt. Clemens. Unbeaten Ferndale hosts Port Huron in the other games.

East Detroit and Kimball will wait until Saturday for their tussle at Royal Oak.

★ ★ ★

The rebounding Lake Orion Dragons get a big chance to hang up another upset as guest of Avondale in the Oakland B feature. Troy goes to Clawson in a tossup struggle and Madison visits powerful Fitzgerald in the other loop action.

Northville could be on its way to a fourth straight Wayne-Oakland crown if it can win at Brighton. West Bloomfield will be trying to stay in contention with a victory at Clarkston. Bloomfield Hills entertains Holly in the afternoon and Clarenceville is at Milford in the other games.

Oxford and struggling Ortonville are on the road for South Central Conference games. The Wildcats hope to bounce back from two defeats at Millington. Ortonville, riddled by injuries all fall, goes to North Branch.

★ ★ ★

L'Anse Creuse will play at Lapeer in the only Tri-County game.

A full Southern Thumb slate will have Anchor Bay at Dryden, Almont at Armada, Memphis at home to meet Capac and Brown City traveling to New Haven.

Elsewhere, Rochester plays at Howell, Romeo attempts to snap a four-game losing streak at home against Clintondale. Wyandotte is at Royal Oak Dondero and Utica is host to Fraser.

Country Day goes to Grosse Pointe University School, Oak Park takes on Harper Woods and South Lyon meet Chelsea in other games.

Expect Rigney to Get Contract for '60 Today

SAN FRANCISCO (AP) — Horace Stoneham names his San Francisco Giant Manager for 1960 today, and it's expected to be Bill Rigney, Giant boss the past four years.

★ ★ ★

Stoneham, Giant president, was noncommittal. But he indicated he'd spring no surprises at the 3 p.m., PST, news conference.

Rigney, 41, in four campaigns has led the Giants to sixth place twice and third twice.

★ ★ ★

His two-year contract expired with the end of the 1959 season. It's expected the new pact will be for one year.

'Trade Me,' Says Unhappy Hurler of White Sox

UPPER MARLBORO, Md. (AP)—"I'm gonna be traded and I don't care if I am," pitcher Ray Moore of the Chicago White Sox was quoted Wednesday.

"I know one thing, I'm no good to anybody the way I was used this year," Moore told Jim Ellis of the Baltimore Evening Sun.

"Know how many times I started? Eight. Know how many innings I worked: Somewhere around 90. I need more work than that to be effective."

Moore was traded to the White Sox after the 1957 season by the Baltimore Orioles for whom he won 33 games in 3 seasons. He had only a 3-6 record with the American League champion White Sox the past season.

"I beat the Yankees in early September, believe it was on a 5-hitter, and that's the last start I made," Moore said. "You figure it out."

'Wahoo' 1st at Finish at Speed of 103 M.P.H.

LAS VEGAS, Nev. (AP)—Mira Slovak, Czechoslovak airman who turned hydroplane driver, is 30 years old today. He got his big present a day early.

★ ★ ★

Aided by an anxious opponent's blunder, Slovak brought the Wahoo of Seattle home first yesterday in the inaugural Lake Mead Cup Regatta. He covered the final 15-mile heat of the race at an average spee dof 103.666 miles an hour.

Bill Stead finished 300 yards ahead of the Wahoo but he had to go an extra lap because he jumped the gun and drove the Maverick of Phoenix, Ariz., over the starting line too soon.

PNH—Southfield, Two Teams of 'Misfortune'

Huskies' Title Hopes at Stake Against Jays

Walled Lake Has Key Game With Farmington in Inter-Lakes

Pontiac Northern, a surprising team which has had its share of bad breaks, and Southfield, another team of misfortune, will hope to iron out their problems Friday night at Wisner Stadium when they tangle in an important Inter-Lakes Conference game.

Northern, with a 3-2 mark, lost its two decisions by a total of nine points. In either instance the Huskies could have easily won and could be boasting a 5-0 record at this time.

Southfield, likewise is much better than its record indicates, and the Blue Jays have also been victims of errors in the late stages in losing 4 games by a TD or less.

Southfield lost to Farmington, 6-0, by via of a fumble in the third quarter. The Jays led ranked Ferndale 13-7 and the Dales took advantage of couple breaks and scored twice in the final four minutes to win 19-13.

★ ★ ★

Against Walled Lake the story was the same last week. Southfield led 14-13 going into the final period but Walled Lake hit pay dirt late in the game and came out a 19-14 winner.

"We will have only one senior in the starting lineup against Northern," said Southfield coach Monte Charles, "we have a lot of new faces since the start of the season and they are improving."

"We need a victory very badly to boost our spirit, and if we could win this one we could be tough," he added.

★ ★ ★

Out in the PNH camp, coach Ed Heikkinen is worried about the Jays.

"We've had some tough breaks in the games we've lost, but Southfield has been the hard luck team in this conference," said Heikkinen.

"We won't be able to make mistakes this week, Southfield is hungry for a victory and a team like that could easily take advantage of the breaks," he commented.

This is homecoming for Pontiac Northern, which plays only its second home contest of the season. A victory is needed to keep the Huskies in the Inter-Lakes race, as Walled Lake and Farmington square off also Friday night in a crucial game.

A win for Walled Lake would clinch at least a tie for the title as the Vikings then have only Northern before them.

Waterford and Berkley, both out of contention, will battle on the Skipper gridiron.

WEDNESDAY'S FIGHTS
MIAMI BEACH, Fla. — Luis Manuel Rodriguez, 145½, Cuba, outpointed Isaac Logart, 140½, New York, 10.

AP Wirephoto

AWAIT IRISH—Backs Ray Purdin (with ball), Mike Stock and Mark Johnston (right) of the unbeaten Northwestern Wildcats trot around the practice field in preparation for their game against Notre Dame. The Irish hope to play the role of spoilers at South Bend Saturday. This will be the first meeting of the two schools in a renewal of their rivalry after a 11 year lapse.

Only Three Extra Points Separate Christian, Stott

For the 1st time since the prep football season opened, Bob Christian of Walled Lake is being pressed for the Oakland County individual scoring lead.

★ ★ ★

Big Doug Stott of Oxford, runnerup all the way, has closed in within three points now at 66-63. Stott scored all his team's 14 points in defeat last Friday while Christian was garnering 7. "Chris" only has eight in the last two games.

Ted Barszcewski of Orchard Lake St. Mary had the biggest weekend among county boys with three TDs against St. Fred to move into a three-way deadlock with teammate Glen Hass and Jack Newton of West Bloomfield for 3rd at 48.

Hard-running Bob Hocking of Pontiac Northern is a newcomer to the top 20 list. He tallied 12 at Berkley to move up.

★ ★ ★

Around the area, Don Kurkowski of St. Rita has regained the lead from Dan Donar of St. Benedict. Kurkowski got 18 Sunday to increase his total to 56 while Donar was being blanked despite some excellent ground gaining against St. Michael.

Eastern Picks Up Two Wins Over Washington

Eastern's two Class B football teams met Washington's two "B" squads yesterday and won both games in Pontiac Junior High League action.

Paul Brown scored three touchdowns and Ted Keller tallied twice in one game to feature a 51-7 rout. Two long passes to Fred Hodge netted TDs and a 13-0 win in the other contest.

Lincoln B and Jefferson B fought to a 7-7 deadlock in another city Junior High game Wednesday.

American League Studies Expansion

NEW YORK (AP)—The American League, having vetoed another franchise shift and ignoring the National League's stand-pat attitude, today turned to the possibility of expanding to 10 teams.

An expansion committee, set up on the spot after representatives of the eight American League clubs heard a franchise plea from Minneapolis yesterday, held its first meeting here today.

Toronto reportedly will receive top consideration by the three-man committe as an expansion partner for Minneapolis. Both are staked out by the proposed Continental League.

★ ★ ★

While no announcement was expected after the initial meeting it is understood that half of the AL club owners already are in favor of expanding. League rules call for three-fourths approval.

Earlier in the week American League owners barred Calvin Griffith's bid to move his Washington Senators to Minneapolis in an informal poll by the Washington president.

That action, however, did not snub Minneapolis as a possible franchise site. Instead, it could be looked upon as appeasing some Congressmen who have, in effect, said major league baseball would be found a monopoly if it quit the capital.

Club representatives shelved the schedule-making business which had brought them to New York yesterday in favor of listening to a franchise plea made by Gerald Moore, member of Minneapolis' metropolitan sports and major league baseball committees.

Bill Dewitt, new president of the Detroit Tigers; Hank Greenberg, vice president of the Chicago White Sox, and George Weiss, general manager of the New York Yankees, comprise the expansion committee.

The National League has no such committee, although, President Warren Giles said the owners have discussed it two or three times.

"Our owners haven't shown sufficient sentiment for expansion," Giles said. "When two or three people indicate they are against it, any consideration would be a waste of time since our rules call for unaminous approval for expansion."

The American League action also came as a surprise to Baseball Commissioner Ford Frick.

★ ★ ★

"I've advocated expansion in the past," he said, "but when the two leagues did nothing about it, I then suggested we support the Continental League as a means of expansion."

Frick said he didn't know whether both the Continental and American Leagues could operate successfully in Minneapolis-St. Paul, but added that he believes there are cities which could accommodate two major league teams.

New American Football Loop Lines Up Coaches

MINNEAPOLIS, Minn. (AP)—The new American Football League is lining up an array of big name coaches that will "rock the football world" when identified, a spokesman for the Minneapolis-St. Paul entry said today.

He said four of the six charter teams have signed their coaches or have airtight commitments.

Max Winter, acting Minneapolis-St. Paul general manager, also forecast that no league announcement would be forthcoming on a conference president until league officials meet in New York next week.

He did not dispute, however, that Michigan athletic director, Fritz Crisler, has the inside track on the job. According to reports from Michigan earlier this week, Crisler is ready to make an announcement Friday.

"I am not at liberty to say which of the teams have already selected their coaches or to reveal their identities," Winter said, "but I do know that the football world will be rocked when some of the names are announced."

Minneapolis-St. Paul itself has not made a selection, Winter said. "We are seriously considering three men and this might go to five."

In the case of coaching figures with current college or pro connections, he said, no announcements would be made until after their seasons close.

"Everything should be squared away by the time we hold the player draft meetings in Minneapolis after the college season," he said.

Members of the league in addition to Minneapolis-St. Paul are New York, Dallas, Houston, Denver and Los Angeles.

NOTICE

The Sibley Coal and Supply Company has decided to discontinue business due to the decreased use of coal for heating purposes. The effective date of discontinuance shall be October 21, 1959.

The F. J. Poole Company is purchasing our inventory as of this date and will continue to serve our customers. They stand ready to take care of your requirements in the same manner as we have done in the past. The office at 140 North Cass will be open for sometime and orders still may be placed there by calling FE 5-8163. These orders will be delivered and billed by the F. J. Poole Company.

Bills due the Sibley Coal and Supply Company may be settled by coming to 140 North Cass or mailing to this address.

We wish to thank the many people who have been our customers in coal and building materials through the many years since 1907 when our company had its start.

Speedy Spartan Sophs Will See Heavy Duty Against Indiana

Duffy to Run Them Saturday When Practical

Gary Ballman Returns to Starting Position at Right Halfback

EAST LANSING (AP)—Duffy Daugherty will use his speedy sophomores against Indiana as soon as it seems practical Saturday.

There's only one yearling in the first offensive unit directed by quarterback Dean Look. But the entire second backfield, directed by junior Tommy Wilson, is made up of first year Spartans.

Gary Ballman, the Detroit sophomore, now appears sure to get the starting nod at right halfback. Ballman was running with the first unit in the workout yesterday. He even connected with a few passes although his broken finger is encased in a plastic protector.

★ ★ ★

This puts Don Stewart, Muskegon sophomore who showed so well in a starting role against Notre Dame, down to the second offensive unit. Stewart made the best ground against the Irish with his 74 yards.

John Sharp, a former Flint hurdler, is the left half for the relief unit and Carl Charon of Boyne City has been getting the nod at fullback.

Sharp has yet to score but Stewart and Charon both have touchdowns. Other sophomore reserves already in the scoring column and eager to see action are right half Larry Hudas of Detroit, left half Bob Suci of Grand Blanc and fullback Ron Hatcher of Carnegie, Pa.

★ ★ ★

Charon was running at fullback yesterday for Blanche Martin, senior starter from River Rouge who has been bothered by leg and rib bruises. Martin is expected to be ready for duty by kickoff time of the Homecoming game, however.

Dr. James Feurig, team physician, reported Jim Chastain, defensive tackle and senior from Waynesburg, Pa., probably will be missing for the rest of the season.

Chastain suffered a multiple finger fracture and will be lucky to get back for the Miami closer. Pete Kakela, 210-pound sophomore from Toledo, Ohio, has been jumped to the defensive squad.

Defensive line coach Burt Smith, immensely proud of the goal line stand of his unit against Notre Dame, worked them hard yesterday against the Indiana single wing attack. The line held the Irish for four downs after a run to the MSU two set up what looked like a sure score.

2 Oldest Players Battle Today

North - South Seniors in Quarter-Finals; State Golfer Loses

PINEHURST, N.C. (AP) — A meeting between the two oldest players in the field headed today's quarter-final pairings in the North and South senior golf tournament.

P. C. Jarboe, 70-year-old Cape Elizabeth, Maine entry met 66-year-old Tom Robbins of Pinehurst.

★ ★ ★

The next oldest pair also was down for head-to-head combat. Paul Dunkel, 65, of Hackensack, N.J., was paired against Vincent Fitzgerald of New York City, two years his junior.

Col. C. D. McAllister, retired Air Force officer from Orlando, Fla., who is 60, drew W. E. Norvell beat McAllister 3 and 2 two week's ago in the U.S. Golf Assn. senior quarter-finals at Memphis, Tenn.

The "baby" of the field, 56-year-old attorney Walter Pease of Plainfield, N.J. met executive George Frick in the other match over the 6,600-yard No. 2 course of The Country Club.

In Wednesday's second round Jarboe was even par in a 5 and 4 victory over Loyal Safford of Randolph, Mass.

Robbins was two over par in a 3 and 2 conquest of Carl Herrud of Grand Rapids, Mich.

Fitzgerald, after losing a three-hole advantage, outlasted John Roberts of Columbus, Ohio, in a 21-hole marathon.

Minnesota Record Dismal Since 1957

Gophers Seek Offense Against 'M'

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

MINNEAPOLIS (AP)—Minnesota is a football team in search of an offense.

Unable to find one again this year, the Gophers have lost three out of four games so far this season. This brings their record to a dismal 3-16 for the 19 games played since October 1957.

The pity of it, from the standpoint of Minnesota loyalists, is that any fair-to-middling offense could have given the team a winning record last year and made the Gophers one of the powers in the Big Ten conference this year. Its defense has been and is that good.

The hunt for some semblance of punch this year has prodded the Gophers into throwing 85 passes, a per-game average of 21 that most coaches in the muscle-minded Big Ten consider unhealthy if not scandalous.

The irony is that Minnesota has no really effective passer.

★ ★ ★

Sophomore Sandy Stephens, a strong and bold open field runner, is a powerful but wild thrower. His relief, Larry Johnson, is better but is used mainly in obvious passing situations where the defense has a chance to set for him.

In 85 attempts the Gophers have completed only 28. Against Illinois in a 14-6 loss Saturday they had five passes intercepted, four of them thrown by Stephens. Nebraska, a 32-12 opening game victor, intercepted three.

Against Northwestern, the Gophers tried 21 and hit only 7 although Johnson's last minute shots nearly pulled out a victory. Minnesota lost that one 6-0 despite playing the highranked 'Cats dead even.

★ ★ ★

Minnesota had a substantial statistical advantage on Illinois but failed to make a conversion kick that would have tied the game in the final three minutes. It had to give up another touchdown on the final play because it was gambling deep in its own territory.

Only against Indiana has Minnesota shown any power or diversity on the attack. Stephens, Artie Bomstad and Bill Kauth all ran impressively in that game, the first in years in which Minnesota was able to move its ball carriers wide. Minnesota won that one 24-14.

★ ★ ★

The team lacks good speed in the backfield, however, and has been hurt by injuries to Roger Hagberg, the Gophers' best running fullback. Sophomore Judge Dickson has the look of a comer and may be used more against Michigan than he has been the first four games.

Minnesota's line is strong enough to rank with the best in the Big Ten. Tom Brown, a 225-pound guard, is its hub. Guard Jerry Shetler, tackle Mike Wright, center Greg Larson and end Bob Deegan, a sophomore, rank with the top players in the conference at their positions.

★ ★ ★

They have little in the way of proven reserves behind them, however, and may be vulnerable in the late stages of a game.

Coach Murray Warmath has added some frills such as men-in-action, flankers and double reverses to his offense this year but with little noticeable effect save in the Indiana game.

Through all their troubles the Gophers have remained a spirited football team. "We'll be ready for Michigan and I think we're going to win," said assistant coach Jim Camp.

Conley 'Comeback' Player

NEW YORK (AP)—Gene Conley's basketball team won the world's professional championship last season. His baseball club finished in the cellar.

Today, the lanky Philadelphia pitcher himself came out on top in the voting for the National League Comeback Player of the Year. He received 58 of the 168 votes cast by members of the Baseball Writers' Assn. of America. Wally Moon of the Los Angeles Dodgers was second with 45 votes followed by Duke Snider, another member of the world champions, with 22.

Conley, who plays for the Boston Celtics of the National Basketball Assn., switched baseball uniforms last March 31 when the Phillies acquired him from Milwaukee in a six-player transaction.

The change worked wonders for the 29-year-old right-hander. He collected at least one victory against each club in the league, finishing with a 12-7 record and a 3.00 earned run average. He developed a sore arm in mid-August and did not pitch the rest of the year. With the Braves the previous season, Conley did not win a game and lost six, compiling a 4.88 ERA. Gene's best big league mark was 14-9 with the Braves in 1954.

Moon also benefitted from a change. After batting only .238 with seven homers and 38 runs batted in for St. Louis, the Cardinals dealt him to the Dodgers for Gino Cimoli last Dec. 8. He improved immediately, beating a steady tatoo of base hits off the close left field screen in the Los Angeles Coliseum.

Wheat Futures Ease Slightly

CHICAGO (AP)—Wheat futures were slightly easier on the Board of Trade today following yesterday's strong finish.

Transactions were rather small with scattered profit-taking accounting for small fractional declines in the nearby contracts around the opening. Short-covering and commission house buying kept early wheat losses to a minimum.

Trading in soybeans also was a quiet affair by comparison with yesterday's active market. Prices in early transactions today were mostly unchanged to fractionally lower, with the easiness attributed to weakness in soybean meal.

In corn, commission houses were on both sides of the market, with buying predominating slightly. Prices held about steady.

Near the end of the first hour wheat was unchanged to ¼ lower, December $1.99⅞; corn ⅛ higher to ⅛ lower, December $1.10⅛; oats unchanged to ¼ higher.

State Adjusters Plan Seminar on Damages

The Michigan Adjusters' Association will hold a Material Damage Seminar next Wednesday at Kellogg Center at Michigan State University, East Lansing.

The seminar is the first of a series of one-day meetings for education and benefit of the adjusting profession. The MAA is a nonprofit organization interested in promoting safety programs. Several Pontiac claims men are expected to attend the seminar.

DETROIT LIVESTOCK

DETROIT, Oct. 22 (AP) — Cattle—salable 200. Small supply slaughter steers and heifers in a cleanup affair; prices unchanged; cows steady; small lot high good around 1000 lb. steers 27.25; scattering standard and good steers and heifers 22.50-26.50; utility cows 16.50-17.50; canners and cutters 14.00-16.50. Compared last week slaughter steers and heifers steady; cows fully 50c higher, some 1.00 higher; bulls steady to strong; about four loads high choice to prime 1050-1137 lb. steers 28.75 early; small lot prime yearling steers late 28.75; most choice steers early in week 27.50-28.50; late 27.25-28.25; high choice to prime 28.50; good to low choice steers 25.50-27.25; standard to low good steers 23.00-25.00; most good to average choice heifers 24.50-26.75; few lots average to high choice 833-840 lb. heifers 27.00, few head up to 27.25; standard to low good heifers 22.00-24.50; utility heifers 20.00-21.50; utility to good lambs 15.00-29.00; cull to choice slaughter ewes 4.00-6.50; most good and choice feeder lambs 17.00-19.00.

Hogs—salable 150. Butchers under 250 lbs. 25c higher, weights over 250 lbs. and sows steady; three loads mixed No. 2 and 3 184-220 lbs. 13.75; small lot mixed No. 1 and 2 195 lbs. 14.25; mixed No. 2 and 3 250-300 lb. butchers 12.50-13.00; mixed grades sows 300-400 lbs. 11.00-12.00; No. 2 and 3 400-600 lbs. 10.00-10.75; boars 9.00-10.50. Compared week ago barrows and gilts 1.00 higher; sows 50-75c higher.

Poultry and Eggs

DETROIT POULTRY

DETROIT, Oct. 22 (AP) — Prices per pound f.o.b. Detroit for No. 1 quality live poultry:

Heavy type hens 16-17; light type hens 9; heavy type broilers and fryers 3-4 lbs. Whites 18½-19; Barred Rocks 21-22; caponettes under 5 lbs. 20; over five lbs. 25-26; ducklings 26.

DETROIT EGGS

DETROIT, Oct. 22 (AP) — Eggs f.o.b. Detroit in case lots federal state graded:

Whites—Grade A jumbo 43-44; extra large 41-42; large 37-40; medium 24-30; small 19-22; Grade B large 29-36; Browns—Grade A large 37-40; medium 23-27; small 21; checks 19-21.

Commercially graded eggs:

Whites—Grade A large 33-34; medium 24; Browns—Grade A large 32-33; medium 22-24.

About 85 per cent of airline stewardesses resign for just one important reason—to get married.

Stocks Recover in Active Trade

NEW YORK (AP)—The stock market recovered moderately in early trading today after three straight days of decline. Dealings were fairly active.

Gains of pivotal stocks went from fractions to about a point.

Electronics and other space age stocks produced gains running to 2 or 3 points.

Most steels steadied, trading unchanged to fractionally higher as an appeal was pending on the 80-day Taft-Hartley "cool-off" injunction to send the striking steelworkers back to work.

The shift of the army missile unit to the civilian space agency backgrounded the continued rise of the "glamor" stocks. Gains of about 3 points were made by Texas Instruments and Litton Industries. Thiokol picked up a couple. Zenith rose more than a point. Raytheon was about a point higher.

General Tire, which has a rocket subsidiary, gained about 2. Cessna Aircraft rose more than a point following a 3-for-1 stock split proposal linked with plans for a raised dividend.

Douglas Aircraft, which again took no dividend action, was off a fraction.

Youngstown Sheet, which has been battered down severely in recent sessions, advanced 2½ to 129 on a delayed opening block of 1,500 shares.

They Go Home . . . Will Meet Next Thursday

Legislators Sitting Out Use Tax Ruling

LANSING (AP) — Michigan lawmakers went home today to await word on validity of the use (sales) tax increase after yielding a $4,100,000 point to educators and attending to numerous odds and ends.

They agreed during a brief afternoon session yesterday, their first in a month, to meet again a week from today—hopefully, to review the expected Supreme Court verdict on the 120 million dollar use tax hike.

The educators scored when the Senate, by a 25 to 4 vote, passed a bill to qualify Michigan for benefits under the National Defense Education Act. Several senators said they were bowing to telephone and letter pressure generated by schoolmen.

The House, which previously had endorsed the program, put off until next week a vote on concurrence.

Rep. Jseoph J. Kowalski of Detroit, Democratic floor leader, said the only reason was the comparatively light attendance in the House.

Under the bill, local school districts can obtain federal money, provided they match it dollar for dollar from local revenues, to buy instructional equipment for science, mathematics and foreign language courses.

Senators refused to provide any money for the State Department of Public Instruction to administer the program.

In other legislative developments:

1. The Senate approved and referred to the House a bill to prevent threatened loss of payroll tax money to Michigan employers by bringing the State Employment Security Act into technical conformity with federal law. The bill would raise the annual salary of Max Horton, MESC director, from $16,750 to $18,000.

2. One bill was filed to repeal the reflectorized auto license plate law passed earlier this year, another to raise the surcharge on motorists for reflectorization from 35 to 60 cents a year and a third to put off its collection until the 1961 registration year.

3. Fifteen Republican senators backed a proposal to turn auto license plate sales, now handled by the Democratic-run Department of State, over to county treasurers, mostly Republican, Wayne County would be excepted.

4. A bill was introduced to exempt from the use tax increase building contractors who bid on projects prior to its effective date, Sept. 1, but received the contract award after Sept. 1.

Sen. Lynn O. Francis (R-Midland), who opposed the education bill, said he had gotten about 50 letters urging its approval — "49 from teachers and one from a taxpayer as such."

Francis argued the measure was a step down the road to federal control of education. Essentially, it was a bill for a new tax bite, he said.

Sen. Harold M. Ryan (D-Detroit), a supporter, observed that 45 other states have qualified for benefits. He said he deferred to the judgment of the schoolmen.

BUTLER AND BRIDE — Richard A. Butler, number two man in Britain, and his bride, the former Mrs. Mollie Courtauld, walk beneath an umbrella after their wedding Wednesday. The ceremony took place in the Church of St. Mary the Virgin at Ashwell, England. Mrs. Butler looks concerned at the rain. The bride is the cousin of Butler's first wife who died five years ago. He has four children, she six. Butler is Britain's home secretary and chairman of the Conservative Party.

Quintuplets Rite Set for Friday

Mother Won't Be Able to Attend Funeral for 5 Tiny Babies

SAN ANTONIO, Tex. (AP)—1st Lt. Charles G. Hannan and his pretty wife, Cecelia, prepared today for the funerals Friday for their doll-like quintuplet girls.

The mother apparently will not be able to attend, however. Doctors said it was doubtful she would be able to pose for pictures today.

The small girls were born Tuesday in 12 minutes beginning at 12:22 p.m., a 42-million to one medical rarity that had news channels of the world spinning until the quints' deaths. The father scheduled a final news conference today.

★ ★ ★

The last of the five girls died Wednesday morning at 6:40 a.m. Her tiny, toylike sisters died Tuesday at 5:40 p.m., 6:10 p.m., 9:25 p.m., and 10 p.m.

★ ★ ★

Newsmen and hospital attendants joined the parents in prayers that they might live. But despite the facilities of what is described as the Air Force's finest hospital here at Lackland Air Force Base, the tiny girls died one by one.

The parents and doctors knew beforehand that they had scant chances to live. They were born three months prematurely.

Not named while they lived, the funeral announcement Wednesday said the girls, in order of birth, had been named Deborah Lynn, Janet Lee, Karen Denise, Melissa Jane, and Suzanne Kay. Janet Lee was the first to die, Melissa Jane the last.

★ ★ ★

The funeral will be held in the hometown of the 29-year-old father, Taylor, Tex., about 95 miles north of here, where he and his wife, 27, met when they were school children at St. Mary's School.

The final rites will be Catholic. One of the physicians attending the birth baptized the girls in the Catholic faith, the religion of their parents. Such baptism, by doctors and laymen, are sanctioned by the church in emergencies.

Stricken with grief, Lieutenant Hannan and his wife were visited Wednesday by their own parents. All live at Taylor. They returned after brief talks with the bereaved couple.

One-third of Canada's workers are married women. Average age is 37.

Leftist Poet Quasimodo Awarded Nobel Prize

SALVATORE QUASIMODO

STOCKHOLM, Sweden (AP) — Italian poet Salvatore Quasimodo, 58, was awarded the 1959 Nobel Prize in literature today. He is an associate of leftist causes who says he has always fought for world peace and friendship.

The Swedish Academy cited Quasimodo for lyrical work which it said "with classical fire expresses the tragic experience of life in our times."

★ ★ ★

The poet, a onetime jack-of-all trades, now teaches history of literature at Giuseppe Verdi Musical Conservatory in Milan.

As in the four other Nobel categories this year, the monetary prize is $42,606. These prizes are the largest since the awards were begun in 1901. The money comes from income of a trust fund established by Alfred Nobel, the Swedish inventor of dynamite.

★ ★ ★

Italian newspapers had announced Wednesday night that Quasimodo had won. He welcomed the news and talked with reporters in the drawing room of his modest Milan apartment.

"I am particularly happy because it means Europe finally recognizes that the barrier of provincialism, namely of a false tradition in Italian literature, has been surmounted," he said.

IN DELICATE HEALTH

Although he is in delicate health, he said he will go to Stockholm for the awards ceremony Dec. 10, the 63rd anniversary of Nobel's death. He suffered two heart attacks last year while attending a writer's meeting in Moscow.

"Literary life in Russia develops in a normal climate, without political pressures," Quasimodo told the newsmen.

★ ★ ★

He took a slap at Boris Pasternak, the Soviet creator of "Doctor Zhivago," who turned down the 1958 literature prize under Communist political hounding.

"I think Pasternak is as far from this generation as the moon is far from us," Quasimodo said.

Expressing a liking for American literature, he cited William Faulkner and Ernest Hemingway as the best of the American writers and said he personally preferred Faulkner. Both Faulkner and Hemingway have won Nobel awards.

Quasimodo's own works are rooted in classic Greek and Italian culture, but he deals with contemporary events. He has written poems on the Auschwitz concentration camp, the execution of Italian partisans by Fascists, the bodies of Benito Mussolini and Claretta Petacci, the duce's mistress.

★ ★ ★

When the Soviets launched Sputnik I in 1957 he turned out a poem called "The New Moon" for the Italian Communist newspaper L'Unita. This said that, after billions of years, man had put into the sky "other lights equal to those which had been circling since creation of the world."

Quasimodo's woman secretary shares his apartment. He has a son Sandro, 20, and a daughter Orietta, 24. Acquaintances said they were not sure whether his wife is dead or separated from him.

Others reported in the running for the world's richest literary prize this year were Alberto Moravia, Italian novelist; Isak Dinesen, Danish woman writer of short stories; and Ivo Andric, Yugoslav diplomat-writer.

Business Briefs of State Interest

DETROIT (AP)—Rockwell Manufacturing Co. will build a 150,000-square-foot addition to its plant at Pinneberg, West Germany. The plant makes liquid meters, valves and woodworking tools.

DETROIT (AP)—Murray Corp. of America reports a net profit of $726,296, equal to 69 cents a share, for the fiscal year ended Aug. 31. This compared with a net loss of $2,082,710, equal to $1.98 a share, in the previous fiscal year.

SOUTH LYON (AP) — Michigan Seamless Tube Co. has declared a quarterly dividend of 25 cents and a year-end extra dividend of 25 cents. Both are payable Nov. 17 to stockholders of record Nov. 2.

DAYTON (AP)—The Cadillac Plastics and Chemicals Co. of Detroit, a division of Dayton Rubber Co., has purchased the plastics distribution business of Delta Products of Fort Worth, Tex. Dayton Rubber acquired Cadillac Plastics in 1957.

DETROIT (AP) — Borman Food Stores, Inc., operators of Food Fair Markets in Michigan, reported net sales of $21,905,033 for the 13-week period ending Sept. 26. This compared with $18,776,690 for the same period a year ago.

LANSING (AP)—Motor Wheel Corp. today reported net earnings of $1,016,773 or $1.20 a share for the nine month period ended Sept. 30. The firm said this compared with a loss of $224,531 or 27 cents a share for the same 1958 period.

52-Year-Old Sibley Coal Sold to F. J. Poole Co.

The Sibley Coal and Supply Co., a retail business in Pontiac since 1907, has been sold to the F. J. Poole Co., 151 Oakland Ave., it was announced today.

The Poole Co., in business since 1895, has purchased the inventories of the Sibley company at 140 N. Cass Ave.

A Sibley spokesman said the change was necessitated by "changes in the use of heating fuels."

The Poole Co. has merchandised lumber, hardware, building supplies and coal for 64 years in the same location.

NOTICE of PUBLIC HEARING

The Pontiac City Commission has scheduled public hearing for Tuesday, October 27, 1959 at 8 p. m. EST in the Commission Chamber, City Hall on Intention to construct curb, gutter, drainage, grade, gravel and related work on the following street:

East Beverly Avenue from Fuller to Arlene.

For further information see legal notice. Interested property owners are urged to appear.

By order of the City Commission.

Dated October 21, 1959

ADA R. EVANS
City Clerk

Medaris, Von Braun Approve Move to Give Space Project to NASA

WASHINGTON (AP) — The two key men in the Army's space rocket effort at Huntsville, Ala., say they thoroughly approve President Eisenhower's decision to turn it over to the civilian space agency.

Maj. Gen. John B. Medaris said he was "both pleased and relieved" by Eisenhower's decision Wednesday. He said it "will stabilize the situation and the mission of the great development organization I have had the honor to command since its activation Feb. 1, 1956."

And Wernher von Braun, German-born rocket wizard who heads the Huntsville team of 2,300 scientists and technicians, said: "The president has decided that it is in the best interest of the country that our work be continued within the framework of NASA (the National Aeronautics and Space Administration). Since NASA's establishment a year ago, we have worked closely and harmoniously with that fine organization."

★ ★ ★

"We look forward to a continuation of our efforts with NASA in a progressive space program which will make this nation second to none."

What NASA will take over is the Saturn program for development of a gigantic rocket complex taller than the Statute of Liberty. It will develop 1½ million pounds of thrust, far more than anything the Soviets now are known to have. This is enough to fling a 15 to 20-ton satellite into orbit or land a truck on the moon.

★ ★ ★

The Saturn program had struck hard times under the Army's auspices. Medaris, who is retiring Jan. 31 as chief of the Army Ordnance Missile Command, was dissatisfied. Administration critics pointed to spectacular Soviet space ventures and said in effect, what are we doing about it?

This was the situation Eisenhower had to resolve Wednesday when he called his top military and scientific advisors to the White House just before leaving for a golf vacation at Augusta, Ga.

★ ★ ★

The Pentagon, which once had its three services squabbling for control of rocketry, had come around to the view that NASA could better handle the almost purely scientific exploration of space.

The military's concentration on war missiles had tended to leave Saturn out in left field. The program's funds were cut so more defense money could be put into ballistic missiles.

★ ★ ★

The Army will continue to control some of the military rocket development at Huntsville.

A NEW SALES CAREER . .

Intelligence, good character and energy qualify you for a permanent position with a well-known sales organization, specializing in Mutual Investment Fund Shares.

Mutual Funds represent a simple plan for participating in the earnings and growth of successful American industry through Planned Investment Programs.

Public acceptance of Mutual Funds is growing rapidly . . . over $1,000,000.00 a day. This should enable you, by rendering a valuable service to others, to earn a regular above-average income, and to enter a professional lifetime career. Ages 30 to 60 desirable.

Previous investment or sales experience helpful but not required; thorough training and cooperation supplied. Saleswomen are also invited to apply.

No travel. This is not insurance but trained insurance people should be interested. Possible earnings $7,500 to $15,000 or more yearly.

INTERVIEW BY APPOINTMENT ONLY

Supervisors Proceedings

OAKLAND COUNTY
Board of Supervisors
Meeting
JUNE SESSION

June 23, 1959

Meeting called to order by Chairman pro tem Hiland M. Thatcher.

Roll Called: Allerton, Alward, Bender, Bonner, Cardon, Carey, Castle, Cheys, Christensen, Clack, Clark, Clawson, Croteau, Cummings, Davis, Dickens, Dohany, J. W. Duncan, R. Duncan, Elliott, Ewart, Fouts, Frid, Goodspeed, Hall, Heacock, Hildebrandt, Hill, Hoard, Hocking, Horkey, Horton, Huber, Hudson, Hulet, Hursfall, Ingraham, Kephart, Kiser, Knowles, Levinson, Lewis, Lilly, MacDonald, Majer, McCartney, McGovern, McPherson, Menzies, Clarence Miller, Cyril Miller, Mitchell, O'Donoghue, Oldenburg, Quinlan, Ransom, Remer, Rhinevault, Romer, Schock, Semann, Sinclair, F. Smith, W. Smith, Solley, Staman, Stevens, Swanson, Taylor, Thatcher, Tiley, Tinsman, Webber, Yockey. (74). Quorum present.

Clerk read appointment of Robert J. Huber as a member of the Southeastern Michigan Water Authority for the term expiring June 30, 1962.

Moved by Elliott supported by Clawson the appointment be approved.

A sufficient majority having voted therefor, the motion carried.

Clerk read resolution from the City of Berkley requesting that this Board make every effort to decrease the 1960 Tentative Budget. (Referred to the Ways and Means Committee)

Clerk read letter from the Michigan State Tax Commission denying the appeal of the City of Wixom from the equalization. (Placed on file)

The Board paid a silent tribute to the late Howard K. Kelley, Royal Oak City Supervisor.

Clerk read communication from the Social Service Planning Division of the Greater Pontiac Community Council, requesting that this Board conduct a study of the problem of psychiatric care for children and adults in Oakland County, and urged that this Board postpone making any decision on the future use of the Contagious Hospital until they have been able to conduct such a study. (Referred to the Ways and Means Committee and Chairman of this Board)

IN RE: ANNUAL REPORT OF COOPERATIVE EXTENSION SERVICE COMMITTEE
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

The Cooperative Extension Service Committee of the Board presents the report of activities of the Oakland County Cooperative Extension Service for the period covering July 1958 to June 1959.

The Extension Service is an educational agency which brings to and encourages people to useful and practical information on agriculture and home economics for profit, family satisfaction and community development.

The Extension workers are staff members of Michigan State University living in Oakland County. The program is financed as follows:

State funds	46%
Federal funds	23%
Oakland County	31%

The County budget for this purpose during the present year is $23,500. This amounts to 3c per capita and is 19/100ths of 1% of the total County budget.

A complete report has been distributed to each member of the Board which I hope you will read over carefully. This may answer many of the questions you have concerning this work.

Various phases of the program will be briefly discussed by other members of my Committee. I will now call upon Mr. Solley who will discuss the agricultural phases of Cooperative Extension, Mr. Clark who will discuss the 4-H Program and Mr. Dohany who will discuss the urban phases.

If members of the Board have any questions concerning the program, we have Mr. Abel, the County Agent, here this morning, who I am sure will be of great help in answering the questions.

Respectfully submitted,
LEE H. CLACK, Chairman
COOPERATIVE EXTENSION SERVICE COMMITTEE

Mr. Solley, Mr. Clark and Mr. Dohany addressed the Board. (Report placed on file)

Misc. 3541
By Mr. Heacock
IN RE: ANNUAL REPORT OF BUILDINGS AND GROUNDS COMMITTEE
Mr. Chairman, Ladies and Gentlemen:

In compliance with the By-Laws, your Buildings and Grounds Committee and the Board of Auditors have just completed an inspection of the many buildings occupied by County departments throughout the County.

We report that conditions existing in most of the buildings were found to be good or above average. Minor repairs on some of the buildings were noted by your Committee and have been brought to the attention of the Board of Auditors so that arrangements may be made to have necessary repairs made by the Maintenance Department.

Your Committee found that the Royal Oak Health Center Building needs a new roof. The Committee was advised by the Auditors that contracts are out for bids on this job at the present time. Interior repairs will also be needed as soon as this work has been completed. Drives are being blacktopped and the parking area is being extended.

The new Court Room for the Fifth Circuit Judge is nearing completion and will be ready for his occupancy on July 1. This has been located in the basement of the Court House and was accomplished by remodeling an area formerly used by the County Clerk.

Your Committee found the Youth Home on Cooley Lake Road to be in excellent condition throughout. This facility, which was turned over to the Juvenile Division by the Board on December 23, 1957, has accommodations for 36 girls and 36 boys. The fire escape from the second story dormitory area which was recommended by your Committee in its 1958 Annual Report has been installed as required by the State Fire Marshall's Office. A new hard surfaced road to the Youth Home from Cooley Lake Road has been completed and in use.

The improvements to the Tuberculosis Sanatorium, including remodeling of the kitchen and installation of a new elevator mentioned in your Committee's report last year and approved by the Board, have been completed in a very satisfactory manner. The Maintenance Department has also just completed caulking and painting all of the windows on the exterior of the building. The building and premises were found to be in excellent condition throughout. This inspection was made by your Buildings and Grounds Committee jointly with the Tuberculosis Sanatorium Committee and this report constitutes a joint report of both Committees.

New service roads at the County Service Center have been completed and are ready for blacktop. The blacktopping program will be under way in a very short time. These were approved by the Board by the adoption of Miscellaneous Resolution 3390 on June 23, 1958.

At the time of the inspection of the County Market building by the Committee on June 8, 1959, the Maintenance Department was busy painting the exterior. This building is now in good condition with the installation of a new roof as approved by the Board by the adoption of Miscellaneous Resolution No. 3370. The Committee did note, however, that the grounds around the Market building need additional maintenance and the cutting of high grass between this building and the Road Commission property. This has been referred to the Board of Auditors for immediate attention.

The parking lot at the rear of the Board of Education building has been completed. However, a very bad drainage condition exists from water which runs from the parking lot and plans have been made to complete the necessary drainage for this area.

The Children's Home and the Children's Cottages were found to be in a good general state of repair. Some minor repairs under the window sills were noted and referred to the Board of Auditors. The kitchen area in the Children's Home has been recently remodeled and is in very good functional condition. Plans should be made within the next year for a new roof on the Children's Home.

It is recommended that the items mentioned in this report which need attention be referred to the Board of Auditors.

Mr. Chairman, on behalf of the Buildings and Grounds Committee, I move that the foregoing report be accepted and made a part of the minutes of this meeting.

BUILDINGS AND GROUNDS COMMITTEE
LUTHER HEACOCK, Chairman
HARRY W. HORTON
J. WESLEY DUNCAN
MAURICE J. CROTEAU
A. TAYLOR MENZIES
PAUL W. McGOVERN
LEROY DAVIS

Moved by Heacock supported by J. W. Duncan the report be accepted.

A sufficient majority having voted therefor, the motion carried.

Misc. 3542
By Mr. Cardon
IN RE: ANNUAL REPORT OF CIVIL DEFENSE COMMITTEE
To the Honorable Board of Supervisors
Mr. Chairman, Ladies and Gentemen:

Your Civil Defense Committee is pleased to present the following report covering the period from April 1, 1958 to March 31, 1959 of Civil Defense activity in the County other than in cities of 10,000 or more population:

During this period, three local directors resigned, one because of health and the others because of lack of time. They have been replaced by persons recommended by their Township Boards.

Congress passed a law effective August 1, 1958 combining the Federal Civil Defense Administration with the office of Defense Mobilization. The department is now called the Office of Civil and Defense Mobilization and is now a part of the Executive Branch of the government and directly under the President. Civil Defense was declared to be "primarily the responsibility of the states and their political subdivisions." The new law now states that it is the joint responsibility of federal, state and local governments. It provides for the authority of Congress to appropriate matching funds for local Civil Defense personnel and administration. To date no such funds have been appropriated.

RADIOLOGICAL EQUIPMENT: The Federal Government has supplied 23 high schools in the county with radiological instrument kits for instruction in the detection and degree of radioactivity caused by the explosion of nuclear warheads so the people can be warned of the presence and danger degrees of fallout. It is hoped that this instruction will be extended to adults enrolled in the Civil Defense program.

Several thousand booklets and pamphlets covering Civil Defense subjects and tornado information and safety rules were furnished by the Federal office through the Michigan Office of Civil Defense and distributed at meetings and in the different courses of instruction.

SCHOOL WARNING SYSTEM: After more than two years of discussion and proceedings the school radio warning system mentioned in our last report has been approved for Federal Matching Funds and an order has been placed with the Motorola Corp., low bidder. The base station, located in and operated by the Sheriff's Department, will be paid for by the Oakland County Office of Civil Defense and the receiving sets will be paid for by the schools or hospitals purchasing same. We have assurance from the Motorola Corp. that delivery and installations will start this month, April 1959.

MEDICAL: In addition to the 200 bed Emergency Hospital equipment loaned to us for training purposes two more are now in storage at Milford and Lake Orion to be used only in case of emergency when authorized by the Office of Civil and Defense Mobilization. Due to the large numbers enrolled in the Emergency Medical classes in the south end of the county, a portion of the training hospital was moved to Hazel Park for the convenience of those taking training there. The cities of Berkley, Birmingham, Clawson, Ferndale, Hazel Park, Madison Heights, Oak Park, Pontiac, Royal Oak, Southfield and Troy are covering the cost of rent and utilities. This arrangement reduces the travel distance by using the Hazel Park facility instead of the C.A.I. Building in Waterford Township for the last four lessons of the course.

We must give credit to the Registered Nurses who volunteered their time as instructors where classes were held in their own communities.

Classes were attended by enrollees from Berkley, Clawson, Farmington, Ferndale, Hazel Park, Huntington Woods, Lake Orion, Madison Heights, Novi, Oak Park, Pontiac, Rochester, Southfield and Waterford. Due to the hazardous condition of roads, scheduled classes had to be revamped which disturbed our scheduling. Fourteen lectures and demonstrations were given on the subject, "The Disaster Born Baby" to fire and police departments.

The County Health Department hosted conferences in September 1958 and March 1959 of medical personnel from Area 5 of the State Civil Defense organization at which meetings a medical planning organization was formed for the area.

WELFARE. In June, 1958 the Civil Defense section of the County Welfare Department conducted an outdoor exercise for mass feeding under emergency conditions. Here were constructed different types of outdoor stoves made of available refuse and mud and fired by the use of propane gas. In addition to beans, hot dogs and cake a well accepted soup was prepared from dehydrated foods.

In conjunction with the County Board of Education, an appointed group of school superintendents from Oakland County, the Detroit Board of Education, the Detroit Civil Defense Emergency Welfare Service and County Civil Defense and Welfare Departments prepared a manual for "Civil Defense Welfare Operations in Reception Area Schools" for the Southeastern Michigan Regional Emergency Welfare Services which has been approved by the state and regional Federal Civil Defense offices. This is a pilot publication which will probably be used nationally.

The plan was put to test November 21st by the dismissal of students from Green Elementary School and the movement of students from Scotch Elementary School to Green Elementary both West Bloomfield Township. Evacuees were simulated as having come from the city of Detroit. Representatives from the state and national offices of Civil Defense as well as school people and Civil Defense people from other counties in the area attended. The exercise was declared a success and proves that the manual as written can work.

STATISTICS:
13 Civil Defense day meetings conducted—attendance 1345
34 Civil Defense night meetings conducted—attendance 637
Of the above meetings, 8 were on Saturday, Sunday or holidays.
3583 pieces of mail sent out.
Prepared stencils for the Emergency Medical Coure
452,500 sheets of mimeograph paper were used to produce the texts for the Emergency Medical Course and the Manual for Civil Defense Welfare operations in reception area schools
ENROLLEE GRADUATES:
Emergency Medical Course — approximately 700
Welfare — mass feeding, lodging, registration and inquiry — approximately 1,100
Auxiliary police—45
Auxiliary fire—20

Respectfully submitted,
CIVIL DEFENSE COMMITTEE
CHARLES E. CARDON, Chairman
FOREST BRENDEL
VANCE C. FOUTS
MARGARET E. HILL
J. LAWSON LOCKHART

The report was placed on file.

Misc. 3543
By Mr. Cardon
IN RE: ATHORIZATION FOR COMMITTEE TO DEVELOP PLANS FOR CIVIL DEFENSE CONTROL CENTER
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

Whereas this Board, did by the adoption of Miscellaneous Resolution No. 3518 on April 27, 1959, establish a Civil Defense Policy and Organization and defined the duties and responsibilities of the Director of Civil Defense and other county personnel to insure the complete and efficient utilization of all the County's facilities to combat disaster resulting from enemy attack in any form or from natural disaster; and

Whereas the Michigan Office of Civil Defense has prepared and issued a "Survival Plan" involving thirteen counties (of which Oakland County is one) based upon Detroit as being the assumed target city; and

Whereas this Survival Plan has delegated to the various County departments and responsibilities commensurate with their normal occupations in the operational phase of Civil Defense; and

Whereas in order to effectively carry out to the fullest extent the relief and activity necessary to combat disaster, it is necessary to establish an operational headquarters to direct the activities of the different County departments to render the utmost service toward preservation and relief; and

Whereas the facilities of the different departments in the County would be dependent one upon the other to perform an efficient operation, which could not be accomplished except through central control; and

Whereas such operational procedure will require a central location from which the various activities of the different departments and Civil Defense volunteers can be coordinated and directed, known in Civil Defense as a County Civil Defense Control Center;

Now therefore be it resolved that, in order to practicably and efficiently render the utmost in relief and preservation in times of emergency by the different County departments and Civil Defense volunteers, it be declared that a County Civil Defense Control Center for disaster relief operations is necessary and that the Buildings and Grounds Committee be instructed to take preliminary steps to develop plans for the construction of a County Civil Defense Control Center in conjunction with the County building program now under consideration.

Mr. Chairman, on behalf of the Civil Defense Committee, I move the adoption of the foregoing resolution.

CIVIL DEFENSE COMMITTEE
CHARLES E. CARDON, Chairman
MARGARET E. HILL
VANCE C. FOUTS
ALEX R. SOLLEY
MARSHALL E. TAYLOR

Moved by Cardon supported by Hill the resolution be adopted.

Moved by Carey supported by Ingraham the resolution be referred to the Ways and Means Committee for a report back to the Board not later than the second meeting from this date.

A sufficient majority having voted therefor, the motion carried.

Misc. 3544
By Mr F. Smith
IN RE: APPROPRIATION FOR IMPROVEMENT OF SQUIRREL ROAD — MSUO.
To the Honorable Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

Whereas the County Road Commission has prepared plans and specifications for 0.29 miles of grading, draining and hard surfacing of Squirrel Road from the main entrance of MSUO, north to Pontiac Road in Pontiac Township, which is known as "Road Commission Project No. M-330", and will take bids on the project on June 25, 1959, and

Whereas MSU Oakland will open this fall and the hard surfacing of the road is important and necessary to the success of the University; and

Whereas the County as a whole will benefit from MSU Oakland and it is therefore proper that a portion of the cost for said road improvement be paid from the County General Fund, and

Whereas the County Road Commission can legally pay only one-half of the amount required to complete the project; and

Whereas the total cost of the project is now estimated at $20,000.00 and the Board of County Road Commissioners has requested the Board of Supervisors to provide one-half of the cost.

Now therefore be it resolved that a sum not to exceed $10,000 of non-tax surplus monies, be appropriated from the 1959 Contingent Fund of the County and that the County assume one-half of the cost of the improvement on Squirrel Road known as Road Commission Project No. M-330, said share to be made available to the Board of County Road Commissioners after bids are taken and the exact cost is known.

Mr. Chairman, on behalf of the Ways and Means Committee, I move the adoption of the foregoing resolution.

WAYS AND MEANS COMMITTEE
FRED W. SMITH, Chairman
R. C. CUMMINGS
DAVID LEVINSON
HILAND M. THATCHER
FRANK J. VOLL SR.

A sufficient majority having voted therefor, the resolution was adopted.

Misc. 3545
By Mr. F. Smith
IN RE: RESERVING FORMER CONTAGIOUS HOSPITAL BUILDING FOR COUNTY GOVERNMENT PURPOSES
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

Whereas your Special Committee appointed to study future use of the former Contagious Hospital building has had under consideration several proposals for the use of the building since the first report made to the Board on October 13, 1958, and

Whereas your Committee held a joint meeting with the Ways and Means Committee on June 17, 1959, at which time it was unanimously agreed that this building should be retained by the County for governmental uses during the transition period while the new Court House is being constructed and offices being moved from the downtown Court House to the Service Center site, and

Whereas it now appears that the work of the Special Committee is completed and the Committee should be discharged:

Now therefore be it resolved that the former Contagious Hospital building at the Service Center be withheld for general County governmental uses as may be needed during the moving of the offices from the downtown Court House to the Service Center;

Be it further resolved that since the work of the Special Committee is now completed, that the Special Committee be discharged.

Mr. Chairman, on behalf of the Special Committee, and with the concurrence of the Ways and Means Committee, I move the adoption of the foregoing resolution.

SPECIAL COMMITTEE TO STUDY FUTURE USE OF CONTAGIOUS HOSPITAL
FRED W. SMITH, Chairman
HOPE F. LEWIS
ELMER KEPHART
CYRIL E. MILLER
LUTHER HEACOCK
JOHN C. AUSTIN

Moved by F. Smith supported by Kephart the resolution be adopted.

Mrs. Lewis presented the following report:

Mr. Chairman, Ladies and Gentlemen:

May I speak in regard to this resolution? Your Special Committee, which is today asking for discharge, does so on a solid foundation of long study, investigation and consultation with experts in the whole area of mental health and hospital operation. The problem given us, you may recall, was not to find space in this County for the emergency care of the mentally ill, but rather to find the best possible use for a building which was no longer needed for the original purpose.

How many of you have ever set foot in the old Contagious Hospital? I am sure that the mental image of this building in the minds of most people, is that of a fine, modern, fully equipped hospital, most wastefully standing idle. To set that record straight, the old Contagious Hospital building is not a hospital in the modern sense of the word.

We have four walls and a roof — in a reasonably sound state of repair, with some antiquated plumbing thrown in. The kitchen is far from adequate, there is no hospital equipment other than bed frames—the rooms and wards which once housed up to 85 patients, have been down-graded by new state regulations so that a maximum of 65 beds would be the present patient capacity for an accredited hospital. Not very much to start with, is it?

I am sure that many of the sincere citizens groups who are so indignant over this Committee's refusal to recommend the use of this building for mental hospital purposes, are not informed as to what we really have, a mere shell of a building, not a hospital at all.

However, your Committee felt this whole subject should be thoroughly studied. We were told by experts that any facility providing treatment for the mentally ill should only be operated in connection with a general hospital. The mentally ill person needs full surgical and medical services as well as the specialised psychiatric care which is being proposed. Obviously, the county couldn't operate a full general hospital and a psychiatric unit as well, in a limited area of 65 beds with anything like efficiency. Incidentally, one of the main criticisms leveled at St. Clair Hospital, which is currently treating some 23 of our emergency mentally ill cases, is that they have no general hospital facilities and can admit no patients needing treatment other than psychiatric.

The Committee was provided with a study of approximate costs to convert the building into such a specialised treatment center for the care of the mentally ill, and this prospectus estimated a budget of $250,000.00 a year for personnel alone, exclusive of skilled psychiatrists and other operating costs. This study stipulated that all wiring and plumbing should be replaced and considerable alteration of solid partitions was recommended.

The Pontiac Osteopathic Hospital in offering to rent these premises, told us they would spend at least $150,000.00 on the building to make it useful to them. You can easily see where these figures are leading—between four and five hundred thousand for the first year's operation.

The Committee, while recognizing the grave need for improved care for the county's mentally ill, with complete unanimity decided that the old hospital building was no answer to that problem.

If this County is to assume the housing and care of the mentally ill, then it is my feeling that it should be approached from a new angle. First, the grave responsibility of embarking upon a field of hospital and institutional care in which we have had no experience; second, the implications of undertaking a service which has always been an obligation of the state. We should not settle for a poor compromise. I am against any plan which is less than the best. We feel that the old Contagious building does not offer a real solution for these reasons:

1. Lack of adequate space.
2. Lack of General Hospital facilities.
3. Lack of County funds.

I do not need to remind you of the grave tax situation which exists in the state and in the county. If new and improved services for the citizens of this county are to be provided, then new and citizens approved tax revenues must be found.

This Board of Supervisors, I am sure, is sensitive to the will of the people but it must be the will of all the people. We have certain obligations spelled out by present law to take care of the indigent and the sick. To date, the state has reserved the right to itself to provide for the mentally ill. If all citizens would think of themselves as equally citizens of their community, their county, and their state, I am sure there is no problem which cannot be solved.

May I remind you that there are other groups of our citizens who are presently receiving little or no specialized county aid. Dr. Emerson told us there were at least 3,000 handicapped persons in our county who would materially benefit from a rehabilitation program. Dr. Monroe has repeatedly mentioned the great and growing need for improved care and perhaps a specialised housing program for our increasing number of senior citizens. I could go on with many more, but, to return to this Committee's original assignment: "To find the best use for the building on Telegraph Road"—we stand by our decision. To convert it to a limited hospital use would be very costly indeed. The County presently has no funds for such a project. To reserve the space for temporary office space during the transition period of the new building program would cost very little. No major alterations beyond ordinary repair and some temporary partitions would be required and a tidy sum in rental of outside space would be saved. This is our considered judgment.

HOPE F. LEWIS
Birmingham City Supervisor

Moved by Ingraham supported by Swanson the resolution be tabled.

A sufficient majority not having voted therefor, the motion lost.

Discussion followed

Mr. Semann moved the previous question. Supported by Mr. Cardon.

A sufficient majority having voted therefor, the motion carried.

Vote on adoption of resolution:

AYES: Alward, Bender, Bonner, Cardon, Carey, Castle, Cheyz, Christensen, Clack, Clark, Clawson, Croteau, Cummings, Davis, Dickens, J. W. Duncan, Ewart, Fouts, Hall, Heacock, Hildebrandt, Hill, Hoard, Hocking, Horkey, Horton, Hudson, Hulet, Kephart, Kiser, Levinson, Lewis, MacDonald, McGovern, McPherson, Menzies, Clarence Miller, Cyril Miller, O'Donoghue, Quinlan, Ransom, Remer, Romer, Schock, Seamann, Sinclair, F. Smith, Solley, Stevens, Taylor, Thatcher, Tiley, Tinsman, Webber, Yockey. (55)

NAYS: Allerton, R. Duncan, Elliott, Frid, Goodspeed, Huber, Hursfall, Ingraham, Lilly, Majer, McCartney, Mitchell, Oldenburg, Rhinevault, W. Smith, Staman, Swanson. (17)

A sufficient majority having voted therefor, the resolution was adopted.

Moved by Levinson supported by Yockey the Clerk mail a copy of Mrs. Lewis' report to all organizations and persons who have forwarded resolutions relative to use of the Contagious Hospital as a psychiatric short-term diagnostic hospital and clinic.

A sufficient majority having voted therefor, the motion carried.

Misc. 3546
By Mrs. Lewis
IN RE: RELEASE OF COUNTY OWNED LANDS FOR SALE
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

At a joint meeting of the County Social Welfare Board with your Welfare Committee on May 27, 1959, a motion was adopted releasing the following properties now vacant for sale by the county:

96 Virginia Street, Pontiac, Michigan (Lot 36 of Allison Subdivision)
47 Bellevue Street, Pontiac, Michigan (Lot 46 of Bellevue Addition)
1126 LaSalle Street, Waterford Township (Lot 182, Huron Gardens)

Therefore be it resolved that the three parcels of property above described be released to the Buildings and Grounds Committee for sale pursuant to the By-Laws.

Mr. Chairman, on behalf of the Welfare Committee, I move the adoption of the foregoing resolution.

WELFARE COMMITTEE
HOPE F. LEWIS, Chairman
WM. C. HUDSON
GENEVIEVE SCHOCK
PETER P. QUINLAN
MAURICE J. CROTEAU
ARTHUR G. ELLIOTT JR.

Moved by Lewis supported by Elliott the resolution be adopted.

A sufficient majority having voted therefore, the resolution was adopted.

IN RE: INDEPENDENCE DAY HOLIDAY—1959
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

Whereas Independence Day, July 4, falls on Saturday this year, and

Whereas the President of the United States has granted Friday, July 3rd off with pay for Federal employees who would not normally work Saturday, July 4th,

Now therefore be it resolved that the employees of Oakland County be granted one day off with pay in place of Saturday, July 4th, preferably Friday, July 3rd or Monday, July 6th, but that all County offices remain open on both July 3rd and July 6th with partial staffing to be determined by the Department Head.

Mr. Chairman, on behalf of the Salaries Committee, I move the adoption of the foregoing resolution.

SALARIES COMMITTEE
FRAZER W. STAMAN, Chairman
LEE H. CLACK
ELMER KEPHART
H. LLOYD CLAWSON
EARL B. RHINEVAULT
A. TAYLOR MENZIES
WILLIAM KISER

Moved by Staman supported by Dohany the resolution be adopted.

A sufficient majority having voted therefor, the resolution was adopted.

Misc 3548
By Mr. Webber
Recommended by Board of Public Works
IN RE: PINE CENTER SEWAGE DISPOSAL SYSTEM (WEST BLOOMFIELD TOWNSHIP)
Mr. Chairman, Ladies and Gentlemen:

Whereas the purpose for creation of the Department of Public Works under Act No. 185 of the Public Acts of 1957, as amended, was to provide facilities and services throughout the county when one or more units of government were unable to provide such facilities and under such services or when one or more units of government desired to have facilities provided and services rendered by such department for the benefits of its citizens, and

Whereas the Township Board of West Bloomfield Township and the owners of certain properties in said township have felt it is the best interests of the citizens to have the Water System and Sewage Disposal System in Pine Center Subdivision, operated by the Oakland County Department of Public Works, and

Whereas Section 9, Chapter 1 of Act No. 185 of the Public Acts of 1957, as amended, require the consent of the municipality must be obtained prior to the furnishing of such service to individual users within the municipality, and

Whereas the Township Board of West Bloomfield Township, by official resolution of said Board, passed April 15, 1959, has given its consent to the County of Oakland, by and through its Department of Public Works, to operate a water system and sewage disposal system in Pine Center Subdivision, and to serve individual users within said systems, and

Whereas the Oakland County Board of Supervisors did on December 22, 1958, by the passage of Miscellaneous Resolution No. 3451, establish and authorized the Board of Public Works to take any and all necessary steps to acquire, operate and maintain a water system or systems within West Bloomfield Township, and

Whereas the Director of Public Works has caused a comprehensive study to be made of the Pine Center Systems and has recommended to the Board of Public Works that said system be acquired and operated as a part of a county system under the department and

Whereas said report has been duly considered by the Board of Public Works and it is recommended that said system be established as a County system under the Department of Public Works, and

Whereas the service can be rendered to the area involved with no financial obligations to the county since all costs connected with the operation and maintenance will be borne by the individual users of the system.

Now therefore be it resolved that the Board of Supervisors of Oakland County, upon recommendation of its Board of Public Works does hereby establish the sewage disposal system in Pine Center Subdivision of West Bloomfield Township as a county system under the Board of Public Works, and

Be it further resolved that the Board of Public Works be and is hereby authorized to take any and all steps necessary to acquire, operate and maintain said system pursuant to the provisions of Act No. 185 of the Public Acts of 1957, and

Be it further resolved, that all costs in connection with the operation and maintenance of said system shall be borne from revenues of same.

Mr. Chairman, I move the adoption of this resolution.

FRANK F. WEBBER

Seconded by Mr. Tiley.

AYES: Allerton, Alward, Bender, Bonner, Cardon, Carey, Castle, Cheys, Christensen, Clack, Clark, Clawson, Croteau, Cummings, Davis, Dickens, Dohany, J. W. Duncan, R. Duncan, Elliott, Ewart, Fouts, Frid, Goodspeed, Hall, Heacock, Hildebrandt, Hill, Hoard, Hocking, Horkey, Horton, Huber, Hudson, Hulet, Hursfall, Ingraham, Kephart, Kiser, Knowles, Levinson, Lewis, Lilly, MacDonald, Majer, McCartney, McGovern, McPherson, Menzies, Clarence Miller, Cyril Miller, Mitchell, O'Donoghue, Oldenburg, Quinlan, Ransom, Remer, Rhinevault, Romer, Schock, Semann, Sinclair, F. Smith, W. Smith, Solley, Staman, Stevens, Swanson, Taylor, Thatcher, Tiley, Tinsman, Webber, Yockey, (74)

NAYS: None. (0)

A sufficient majority having voted therefor, the resolution was adopted.

Mr. Cardon inquired as to whether or not the plans for the new Court House included a shelter area for employees as recommended by the Federal Civil Defense Administration. Mr. Levinson stated that the Special County Building Committee would meet with the Civil Defense Committee to discuss this matter.

Moved by McGovern supported by Cummings the Board adjourn subject to call of the Chair.

A sufficient majority having voted therefor, the motion carried.

HILAND M. THATCHER,
Chairman pro tem

DANIEL T. MURPHY, JR.
Clerk.

AUGUST 5, 1959

Meeting called to order by Chairman Delos Hamlin.

Invocation given by Arthur G Elliott, Jr.

Roll Called: Alward, Bender, Bonner, Calhoun, Cardon, Carey, Cheyz, Christensen, Clack, Clawson, Croteau, Cummings, Davis, Dickens, Dohany, J. W. Duncan, R. Duncan, Elliott, Fouts, Frid, Goodspeed, Hall, Hamlin, Heacock, Hildebrandt, Hill, Hoard, Hocking, Holmes, Horkey, Horton, Huber, Hulet, Hursfall, Ingraham, Johnson, Kiser, Knowles, Lahti, Levinson, MacDonald, Majer, McGovern, McPherson, Menzies, Clarence Miller, Cyril Miller, Mitchell, O'Donoghue, Oldenburg, Ollar, Quinlan, Ransom, Remer, Rhinevault, Schock, Semann, Sinclair, F. Smith, W. Smith, Solley, Staman, Stevens, Swanson, Taylor, Thatcher, Tiley, Tinsman, Voll, Yockey. (70).

Absent: Allerton, Boyer, Castle, Clark, Ewart, Hudson, Kephart, Lewis, Lilly, McCartney, Romer, Webber. (12). Quorum Present

Moved by Cummings supported by Hulet the minutes of the previous meeting be approved as printed.

A sufficient majority having voted therefor, the motion carried.

Clerk read cards of thanks from Ferris B. Clark, Joe Haas, the family of Lloyd P. Ferguson and the family of Howard K. Kelley. (Placed on file.)

Clerk read appointment of the following supervisors:

Oak Park City—Donald Meichert (City Assessor)

Virgil C. Knowles (To fill vacancy created by the resignation of Richard Castle)

Royal Oak City—John B. Osgood (replaces the late Howard K. Kelley)

Clawson City—Duncan L. Gillis (replaces Robert Romer)

The Chairman appointed David R. Calhoun a member of the Supervisors Inter-County Committee to replace the late Howard K. Kelley, and Robert R. Boyer a member of the Miscellaneous Committee to replace Robert D. Romer.

The Chairman recommended the appointment of John B. Osgood as a member of the Southeastern Michigan Water Authority to replace the late Howard K. Kelley for the term expiring June 30, 1961.

Moved by Ingraham supported by Clawson the appointment be approved.

A sufficient majority having voted therefor, the motion carried.

Clerk read communication from the State Inspector of Jails commending Sheriff Irons for his efficient supervision of the jail. (Placed on file.)

Clerk read resolution from Wayne County requesting that the Huron Metropolitan Authority reduce its millage request for its 1960 budget from ½ mill to 1/5 mill upon each dollar of state equalized valuation. (Referred to Ways and Means Committee.)

Clerk read a memorial resolution for Howard K. Kelley from the City of Ferndale. (Placed on file.)

Clerk read resolution from the City of Sylvan Lake requesting that the Oakland County Budget for 1960 be decreased. (Referred to Ways and Means Committee.)

Clerk read letter of appreciation from D. B. Varner, Chancellor of Michigan State University Oakland, for the cooperation they have received from this Board, the Road Commission and the Department of Public Works. (Placed on file.)

Misc. 3549
By Mr. F. Smith
IN RE: PAYMENT OF ADVANCE BY BOARD OF PUBLIC WORKS
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

The County Department of Public Works reports the repayment of funds previously advanced on the Evergreen and Farmington Sewage Disposal Systems, as follows,

Evergreen

Advance to Drain Office	$ 20,000.00
Proportionate advance for purchase of pumping station site	6,655.04
Expenditures from budget appropriations of D.P.W.	28,810.12
Total Evergreen	$55,465.16

Farmington

Advance to Drain Office	$ 20,000.00
Proportionate advance for purchase of pumping station site	22,344.96
Expenditures from budget appropriations of D.P.W.	64,067.54
Total Farmington	$106,412.50
Evergreen	$ 55,465.16
Farmington	106,412.50
May 31, 1959 Grand Total	$161,877.66

Mr. Chairman, I move that the foregoing report be received and placed on file.

WAYS AND MEANS COMMITTEE
FRED W. SMITH, Chairman
R. C. CUMMINGS
DAVID LEVINSON
HILAND M. THATCHER
ORPH C. HOLMES
FRANK J. VOLL, SR.
JOHN L. CAREY

Moved by F. Smith supported by Cyril Miller the report be received and placed on file.

A sufficient majority having voted therefor, the motion carried.

Misc. 3550
By Mr. F. Smith
IN RE. ADVANCE OF FUNDS FOR MSUO SANITARY SEWAGE DISPOSAL SYSTEM
To the Oakland County Board of Supervisors
Mr. Chairman, Ladies and Gentlemen:

Whereas plans for construction of the M.S.U. Oakland Sanitary District are proceeding and a construction permit has been issued by the Michigan State Health Department, and

Whereas bids have been received for the project and award of the contracts for construction should be made at an early date so that the system will be made available to the University properties by the opening of the fall school term, and

Whereas funds for the project have been made available as follows:

Financial Status of M.S.U.O. Sanitary District

Costs		
Sewer Construction	$410,641.97	
3% Engr., Insp., etc.	12,319.26	
Condemnation, etc.	2,038.77	$425,000.00
Treatment plant construction	$175,000.00	
Site clearance, grading, roads	10,000.00	$185,000.00
Total requirements		$610,000.00
Available Funds		
Michigan State University	$ 90,000.00	
University Hills, Inc.	60,000.00	
Smokler-Frankel	80,000.00	$230,000.00
Sub-balance		$380,000.00
Financed by contract with J. F. Pritchard		290,000.00
Funds required		$ 90,000.00

Whereas the construction of this project in addition to benefiting the University in which the County generally has a deep interest, will also greatly benefit the County in the development of the property surrounding the University and result in substantial increased valuation and in a larger tax base for the Township of Avon and Pontiac, as well as the County,

Now therefore be it resolved that a sum not to exceed $100,000.00 be advanced to the Board of Public Works for the M.S.U. Oakland Sanitary Sewer Project from the County General Fund on a loan basis to be repaid to the County within two years.

Mr. Chairman, on behalf of the Ways and Means Committee, I move the adoption of the foregoing resolution.

WAYS AND MEANS COMMITTEE

Supervisors Proceedings

(Continued from Preceding Page)

I hereby estimate the period of usefulness of the foregoing project to be 30 years and upwards.

FRANK NAGLICH
Assistant Chief Engineer for Oakland County Department of Public Works and Registered Professional Engineer

AGREEMENT

This contract made this 14th day of July, 1959, by and between the County of Oakland, a Michigan county corporation (hereinafter called the "County") by and through its Department of Public Works, party of the first part and J. F. Pritchard and Company, a Missouri corporation of Kansas City, Missouri (hereinafter called the "Company"), party of the second part.

Witnesseth:

Whereas, the County of Oakland has heretofore established a Department of Public Works for said county pursuant to the provisions of Act No. 185 of the Michigan Public Acts of 1957, as amended; and

Whereas the Board of Supervisors of said County of Oakland by resolution No. 3538, adopted on June 3, 1959, has established the M.S.U.-Oakland Sewage Disposal System to serve the M.S.U.-Oakland Sewage Disposal District in the Townships of Avon and Pontiac in said county, the territory comprising the said district being set forth in said resolution; and

Whereas the County is desirous of entering into a contract with J. F. Pritchard and Company for the construction of said sewage disposal system;

Therefore, it is hereby agreed by and between the parties hereto as follows:

1. J. F. Pritchard and Company agrees to construct said M.S.U.-Oakland Sewage Disposal System for the County, consisting of a sewage treatment plant, sanitary sewers and a pumping station, the said treatment plant to be in accordance with plans and specifications prepared by registered engineers of the Company entitled "Treatment Plant for Michigan State University-Oakland and Adjacent Areas," and the said sanitary sewers and pumping station to be in accordance with plans and specifications prepared by Frank Naglich and entitled "Sanitary Sewers for M.S.U.-Oakland and Adjacent Areas." All of the said plans and specifications are on file in the office of the County Department of Public Works and are identified by the endorsements of Harold K. Schone, Director of the Department of Public Works and H. Arthur Martin of J. F. Pritchard and Company.

2. The County does hereby hire the said Company to construct the said sewage disposal system in accordance with the said plans and specifications and agrees to pay the Company therefor the sum of $643,400.00 at the times and in the manner hereinafter provided. Said sum includes estimated costs of insurance to be obtained by the Company (estimated at $500.00) and of taxes which may be imposed upon the Company by reason of the work to be performed hereunder (estimated at $500.00). It is agreed that said sum shall be adjusted to take into account the actual cost of said estimated items. Said sum shall also be subject to such adjustments as may be required or made under or pursuant to subcontracts between the Company and Municipal Service Company and between the Company and Northeast Construction Company, Inc.

3. It is understood that the Company has sublet that part of this contract providing for the construction of the sewers and pumping stations to Northeast Construction Company, Inc. and that part of this contract covering the sewage treatment plant to Municipal Service Company and that the above mentioned plans and specifications therefor were written for said subcontracts. The Company agrees that the said plans and specifications are also the plans and specifications for the purposes of this contract. The terms and provisions of said subcontracts are in all respects approved by the County and are incorporated herein by reference.

4. Subject to the provisions of the applicable specifications, the County agrees to pay on or about the 20th day of each month for the work performed and the materials delivered by the Company during the preceding calendar month, 90% of the estimated value thereof, up to a total sum of $290,000 and agrees to pay the balance through a revenue bond issue aggregating in principal amount the said balance. The revenue bonds shall be issued pursuant to Act No. 185 of the Public Acts of 1957, as amended, and Act 94 of the Public Acts of 1933, as amended. They shall mature in equal amounts in one, two, three, four and five years, respectively, from the first day of the month following the completion of said sewage disposal system by the Company: Provided, That if the total amount of the bonds to be issued is not divisible by $5,000 then the annual maturities may be adjusted so that the last four maturities will be in multiples of $5,000 and the first maturity will be in the odd amount. Said bonds shall bear interest at not to exceed 4½% per annum payable semi-annually. The said bonds shall be subject to redemption on any interest payment date at the option of the County at par and accrued interest. The County agrees to advertise the sale of said bonds in accordance with the Michigan statutes and the Company agrees to submit a bid for the said bonds at par and accrued interest, and if its bid shall produce the lowest net interest rate to the County, it agrees to accept the said bonds and to pay to the County the purchase price thereof. Simultaneous with the delivery of and the payment for said bonds, the County will pay to the Company the balance of the contract price for the construction of said sewage disposal system together with interest upon said unpaid balance at the rate of 4½% per annum from the first day of the month following the completion of construction by the Company. If for any reason said bonds cannot be issued or should there be any delay in the issuance thereof, then the County shall be obligated to pay to the Company from the proceeds of the bonds the balance of said contract price in installments corresponding with the maturities of said revnue bonds, with interest at 4½% per annum, payable semi-annually. The resolution or ordinance of the County Board of Supervisors authorizing issuance of said bonds shall contain such covenants and conditions as are necessary to insure prompt payment of said bonds at their maturity dates in accordance with the applicable statutes. Said bonds shall be delivered with the opinion of bond counsel to the effect that said bonds have been in all respects validly and legally issued.

5. The payments to be made under this contract are to be paid from connection charges which the County agrees to fix and collect and which shall be not less than $525.00 for each unit. The word "unit" as herein used shall mean any property from which there emanates that quantity of sanitary sewage ordinarily arising from the occupancy of a residence building by a single family of ordinary size. The number of units to be assigned to any particular parcel of property used other than for a single residence shall be determined by the Board of Public Works and its decision shall be final. The Board, if the circumstances justify, may assign more than one unit to a single family dwelling. All moneys received by the County from connection charges and other sources shall be set aside in a special fund for the purpose of paying the amount due to the Company under this contract: Provided, however, that after setting aside said sum of $290,000 for payments to the Company, the County may use not to exceed $30,000.00 to pay any expenses incurred by it in connection with the acquisition of said system over and above the amount to be paid to the Company hereunder.

6. The County agrees that it will enter into agreements with the Township of Avon and the Township of Pontiac for the furnishing of sewage disposal services to those portions of said townships within the said district and that in addition to connection charges, it will charge therefor service rates sufficient to provide for the operating expenses of the system.

7. The cost of any contractors bonds not otherwise provided for herein shall be borne by the County.

In witness whereof, the parties hereto have caused this contract to be executed by their respective duly authorized officers the day and year first above written.

M.S.U.-OAKLAND SEWAGE DISPOSAL SYSTEM AGREEMENT

This contract made this 24th day of June, 1959, by and between the County of Oakland, a Michigan county corporation (hereinafter called the "county") by and through its department of public works, party of the first part, and the Township of Avon and the Township of Pontiac, municipal corporations in the County of Oakland (hereinafter called the "municipalities"), parties of the second part.

Witnesseth:

Whereas, the board of supervisors of Oakland County, Michigan, has established a department of public works under the provisions of Act No. 185 of the Michigan Public Acts of 1957 as amended and did on the 2nd day of June 1959, adopt Miscellaneous Resolution No. 3538 by which it established under the provisions of the above mentioned act, the "M.S.U.-Oakland Sewage Disposal System" to serve the "M.S.U.-Oakland Sewage Disposal District" described in said resolution; and

Whereas, the said board of public works and said Townships of Avon and Pontiac have on file in their offices plans and specifications for the said M.S.U.-Oakland Sewage Disposal System; and

Whereas, the county contemplates entering into a contract for the construction of the said sewage disposal system, providing for the payment of the cost thereof to the extent of at least $360,000 as the work progresses and the balance by the issuance of revenue bonds payable serially over a period of 8 years from the first day of the month following the completion of said sewage disposal system; and

Whereas, the county contemplates the raising of said $360,000 and the servicing of said revenue bond issue from connection charges to be made for connections to the system; and

Whereas, the county is willing to furnish sewage disposal services to, and the said townships are desirous of obtaining said services for, properties located within the said district;

Therefore, it is agreed by and between the parties hereto as follows:

1. The county shall proceed with the construction and financing of the said system and when completed agrees to operate the same for the purpose of serving the said district.

2. Upon the completion of the system each township agrees to dispose of its sanitary sewage within the limits of said district through the county system and to pay therefor rates pursuant to the terms of this agreement.

3. Each municipality shall pay to the county as a connection charge for each unit of property directly or indirectly connected to the county system the sum $525.00, which shall be divided as follows: $225.00 for connection to the sewer and $300.00 for connection to the treatment plant. The word "unit" as herein used shall mean any property from which emanates that quantity of sanitary sewage ordinarily arising from the occupancy of a residence building by a single family of ordinary size. The number of units to be assigned to any particular parcel of property used other than for a single residential purposes shall be determined by the board of public works and its decision shall be final. The board of public works, if the circumstances justify, may assign more than one unit to a single family dwelling. Nothing herein contained shall prevent the making of an additional connection charge in the event of improvements, enlargements and/or extensions to the treatment plant or the construction of a new treatment plant if the same shall become necessary. In the case of new construction the connection charges shall be payable to the county within 30 days after the issuance of the building permit. Connection charges relating to buildings existing on the date of this contract shall be payable in 10 equal annual installments with interest at 6% per annum, said 6% to remain with the municipalities.

4. In addition to the payment of the above mentioned connection charges, each municipality shall pay to the county service charges for sewage disposal services. Such charges shall be sufficient to provide:

(a) For all costs of operating and maintaining the county system.

(b) For the establishment and maintenance of a depreciation fund in such amount as shall be fixed by the board of public works for the replacement of the physical assets of said system as required to maintain it in good working order.

(c) For setting aside such sum as the board may determine from time to time to be necessary to provide a fund to improve, enlarge and/or extend said system.

(d) For any other proper cost and expenses relating to said system.

5. Service charges by the county for sewage disposal shall be made to each municipality upon the basis of the amount of water consumed therein as measured by a master water meter or meters, if available, or where not, then as measured by individual home or business meters, and where no such meter readings are available, then said service charges shall be based upon the number of "units" served. The word "unit" as herein used, shall mean any property from which there emanates that quantity of sanitary sewage ordinarily arising from the occupancy of a residence building by a single family of ordinary size. The number of units to be assigned to any particular parcel of property used for commercial, industrial or multiple residence purposes shall be determined by the board and its decision shall be final. The board, if the circumstances justify, may assign more than one unit to a single family dwelling. The board shall fix a uniform service charge for each unit.

6. The county may elect to use the readings from sewage flowage meters instead of water meters as a basis for making its service charges: Provided, that if it shall not be feasible to install such a flowage meter or meters so as to measure the total sewage from any municipality, then the county charges for sewage disposal services to any part or parts not so measured, may be based upon the water meter readings if available, and if not, then upon the number of units served.

7. The said service charges shall be payable monthly or quarterly as shall be determined by the board. If any municipality does not pay its service charge on the date when the same becomes due, then there shall be added to such charge a penalty of one (1) per cent for each month or fraction thereof, for which the same remains unpaid. The board shall have the right to pursue any method permitted by law for the collection of any sum due it under this agreement from any municipality.

8. Each municipality shall collect connection charges and service charges from its individual users sufficient to pay the connecton and service charges to become due from the municipality to the county but this shall not prevent any municipality from fixing charges sufficient to produce additional moneys for any lawful purpose.

9. No municipality under this contract shall construct or permit the construction of any sanitary sewer in the area to be served by the county system, which does not connect to the county's system, and no municipality shall construct or permit the construction of any sewage treatment facility within such area: Provided, that in event the county is unable to serve any particular area, the board of public works may permit the construction of such a treatment facility under terms and conditions to be prescribed by said board. It shall be the obligation of each municipality to provide the necessary sewers to transport its sewage to the county system. No connection shall be made to the county system without first securing a permit from the department of public works.

9. The board shall have the right to deny the use of the county sewage disposal facilities to any municipality which shall be delinquent for a period of ninety (90) days in the payment of the charges due from it to the county, while such delinquency continues. The foregoing may be accomplished by blocking off the drains and sewers discharging, directly or indirectly, sewage into the county system, or by an other lawful means.

10. Each municipality shall be responsible for the character of the sewage originating therein and shall comply with the board's standards and regulations controlling the discharge of industrial and/or commercial type wastes into the county system. If the character of sewage contributed from any municipality shall be such that it imposes an unreasonable additional burden upon the county system, then an additional charge shall be made over and above the regular service charge, or it may be required that such sewage be treated before being emptied into the county system or the right to empty said sewage into the county system may be denied, if necessary, for the protection of the said system or the public health or safety.

11. The provisions of this agreement shall not be modified or terminated so as to impair the security of any contract or bonds issued by the county pertaining to the financing of said system. It is hereby declared that the terms of this agreement insofar as they pertain to the security of any such contract or bonds, shall be deemed to be for the benefit of the promises under such contract or the holders of such bonds.

12. This agreement shall become effective upon being approved by the legislative bodies of the municipalities and by the board of public works and board of supervisors of Oakland County and properly executed by the officers of the municipalities and of the board of public works. This contract shall terminate ten (10) years from the date hereof.

IN RE: M.S.U.-OAKLAND SEWAGE DISPOSAL SYSTEM

Mr. Thatcher offered the following resolution:

Be it resolved by the Board of Supervisors of Oakland County, Michigan, as follows:

1. That the plans and specifications for the M.S.U.-Oakland Sewage Disposal System are hereby approved and the County Clerk is hereby authorized to endorse thereon a statement of such approval and to return the same to the Board of Public Works.

2. That the estimate of $600,000 as the cost of the M.S.U.-Oakland Sewage Disposal System and 30 years and upwards as the period of usefulness thereof, as prepared by Frank Naglich be and the same are hereby approved.

3. That the contract dated July 14, 1959, between the County of Oakland and J. F. Pritchard & Company for the construction by the latter of the M.S.U.-Oakland Sewage Disposal System is hereby approved and the Chairman and Secretary of the Board of Public Works are hereby authorized to execute the same for and on behalf of the county through its Board of Public Works.

4. That the contract dated June 24, 959, between the County of Oakland and the Township of Avon and the Township of Pontiac for the furnishing by the county of sewage disposal services to those portions of said townships lying within the M.S.U.-Oakland Sewage Disposal District, is hereby approved and the Chairman and Secretary of the Board of Public Works are hereby authorized to execute the same for and on behalf of the County of Oakland through its Board of Public Works.

5. That copies of said estimates and said contracts be attached to the minutes of this meeting.

Mr. Thatcher moved the adoption of the foregoing resolution. The motion was supported by Mr. Cyril Miller.

On roll call the resolution was adopted by the following vote:

YEAS: Alward, Bender, Bonner, Cardon, Carey, Christensen, Clack, Clawson, Croteau, Cummings, Davis, Dickens, Dohany, J. W. Duncan, R. Duncan, Elliott, Fouts, Goodspeed, Hall, Hamlin, Heacock, Hildebrandt, Hoard, Hocking, Holmes, Horkey, Horton, Huber, Hulet, Hursfall, Ingraham, Johnson, Kiser, Knowles, Lahti, Levinson, MacDonald, Major, McGovern, McPherson, Melchert, Menzies, Clarence Miller, Cyril Miller, Mitchell, O'Donoghue, Oldenburg, Osgood, Quinlan, Ransom, Remer, Rhinevault, Schock, Sinclair, F. Smith, W. Smith, Solley, Staman, Stevens, Swanson, Taylor, Thatcher, Tiley, Tinsman, Voll. (65)

IN RE: M.S.U.-OAKLAND SEWAGE DISPOSAL SYSTEM

Mr. Thatcher presented the following letter:

Oakland County Board of Supervisors
Pontiac, Michigan

Gentlemen:

As Secretary of the Board of Public Works I am submitting herewith an ordinance entitled:

An Ordinance to Provide for Acquiring the M.S.U.-Oakland Sewage Disposal System to be Owned and Operated by the County of Oakland, Michigan, Acting Through its Board of Public Works; to Provide for the Issuance and Sale of Revenue Bonds to Defray a Part of the Cost thereof; to Provide for the Retirement and Security of said Bonds; and to Provide for Other Matters relative to said System and said Bonds,

for adoption by your board. This ordinance has been approved by the Board of Public Works.

The ordinance provides for the issuance of $370,000 of revenue bonds payable solely from the revenues of the system. These bonds are to mature $70,000 on November 1, 1960 and $75,000 on November 1 in each of the years 1961 thru 1964 and are to bear interest at a rate of not exceeding 4½% per annum. Under the contract dated July 14, 1959, between the County of Oakland and J. F. Pritchard & Company the latter agrees to submit a bid for these bonds bearing interest at 4½% per annum. The difference of $290,000 between the cost of the M.S.U.-Oakland Sewage Disposal System and the amount of the bond issue is to be paid from connection charges which are to be paid in advance of the construction of the project.

Respectfully submitted,
HILAND M. THATCHER
Secretary of the Board of Public Works

Misc. 3559
IN RE: M.S.U.-OAKLAND SEWAGE DISPOSAL SYSTEM

Mr. Thatcher introduced an ordinance No. 5 entitled:

An Ordinance to Provide for Acquiring the M.S.U.-Oakland Sewage Disposal System to be Owned and Operated by the County of Oakland, Michigan, Acting Through its Board of Public Works; to Provide for the Issuance and Sale of Revenue Bonds to Defray a Part of the Cost thereof; to Provide for the Retirement and Security of Said Bonds; and to Provide for Other Matters Relative to said System and said Bonds,

which ordinance was read.

Mr. Thatcher moved the adoption of the foregoing ordinance, which motion was supported by Mr. Heacock.

Upon roll call the ordinance was adopted by the following vote:

YEAS: Alward, Bender, Bonner, Cardon, Carey, Cheys, Christensen, Clack, Clawson, Croteau, Cummings, Davis, Dickens, Dohany, J. W. Duncan, R. Duncan, Elliott, Goodspeed, Hall, Hamlin, Heacock, Hildebrandt, Hoard, Holmes, Horkey, Horton, Huber, Hulet, Hursfall, Ingraham, Johnson, Kiser, Knowles, Lahti, Levinson, MacDonald, McGovern, McPherson, Melchert, Menzies, Clarence Miller, Cyril Miller, Mitchell, O'Donoghue, Oldenburg, Osgood, Quinlan, Ransom, Remer, Rhinevault, Schock, Sinclair, F. Smith, W. Smith, Solley, Staman, Stevens, Swanson, Taylor, Thatcher, Tiley, Tinsman, Voll. (63)

NAYS: Frid. (1)

ABSENT: Allerton, Boyer, Calhoun, Clark, Ewart, Fouts, Gillis, Hill, Hocking, Hudson, Kephart, Lewis, Lilly, Major, McCartney, Ollar, Semann, Webber, Yockey. (19)

The following is the ordinance as adopted:

ORDINANCE NO. 5

An Ordinance to Provide for Acquiring the M.S.U.-Oakland Sewage Disposal System to be Owned and Operated by the County of Oakland, Michigan, Acting Through its Board of Public Works; to Provide for the Issuance and Sale of Revenue Bonds to Defray a Part of the Cost Thereof; to Provide for the Retirement and Security of said Bonds; and to Provide for Other Matters Relative to said System and said Bonds.

Whereas, pursuant to the provisions of Act No. 185 of the Public Acts of 1957, as amended, the Board of Supervisors of Oakland County, Michigan, did on the 2nd day of June, 1959 adopt Miscellaneous Resolution No. 3538 approving the establishment of a sewage disposal system to be known as the "M.S.U.-Oakland Sewage Disposal System" for the purpose of disposing of sewage from the district known as the "M.S.U.-Oakland Sewage Disposal District," which district is described as follows:

Beginning at the northeast section corner, Section 21, T3N, R11E, Avon Township, Oakland County, Michigan; thence southerly along east section line 825 feet; thence westerly approximately 725 feet to center line Clinton River; thence southerly along center line Clinton River approximately 140 feet; thence westerly 1457 feet to east line Eyster's Avon Estates; thence southerly to north line, Lot 14 Eyster's Avon Estates Subdivision; Whereas, the county board of public works has secured plans and specifications for the said system which have been approved by this board of supervisors and has submitted to this board a contract with J. F. Pritchard & Company dated July 14, 1959, the execution of which has been authorized by this Board; and

Whereas the said contract provides for the construction of said system and for the financing of the same including the issuance of revenue bonds as set forth in this ordinance; and

Whereas, the county through its board of public works has entered into a contract with the Township of Avon and the Township of Pontiac whereby the county will furnish sewage disposal services to said townships for the territory within the M.S.U.-Oakland Sewage Disposal District;

Therefore, the County of Oakland, Michigan Ordains:

Section 1. Whenever used in this ordinance or in the bonds to be issued hereunder, except when otherwise indicated by the context:

(a) The term "county" shall be construed to mean the County of Oakland.

(b) The term "board of supervisors" shall be construed to mean the board of supervisors of said county, the legislative and governing body thereof.

(c) The term "board of public works" shall be deemed to mean the board of public works of said county created under Act No. 185 of the Public Acts of 1957, as amended.

(d) The term "project" shall be construed to mean the M.S.U.-Oakland Sewage Disposal System to be acquired pursuant to this ordinance.

(e) The term "acquired" shall be construed to include acquisition by purchase, construction or by any other method.

(f) The term "sewage disposal system" shall be construed to include all sanitary sewers, combined sanitary and storm sewers, plants, works, instrumentalities and properties as the same shall from time to time exist, used or useful in connection with the collection, treatment and/or disposal of sewage from the district by the county.

(g) The term "system" shall be deemed to refer to the sewage disposal system for the M.S.U.-Oakland Sewage Disposal District.

(h) The term "revenues" and "net revenues" shall be construed as defined in Section 3 of Act No. 94, Michigan Public Acts of 1933, as now amended.

Section 2. The board of supervisors hereby determines it to be advisable and necessary to acquire the said M.S.U.-Oakland Sewage Disposal System, consisting of the following:

A sewage treatment plant located in Section 15 in Avon Township approximately 1100 feet north and 2800 feet east of the intersection of Livernois and Avon Roads; a sewage pumping station located approximately 900 feet west of the southeast corner of Section 18, Avon Township; and approximately 28,407 feet of sanitary sewers ranging in size from 10 inch to 24 inches, located as follows: beginning at said sewage treatment plant, thence northwesterly approximately 1150 feet to a point on the north side of the Clinton River; thence southwesterly to the intersection of Livernois and Avon Roads; thence generally along the south line of Sections 16 17 and 18 in Avon Township approximately 14,076 feet to the said pumping station; thence northwesterly along a natural watercourse to the first unit of Michigan State University-Oakland; thence northerly in three branches along three natural watercourses to Walton Boulevard,

all substantially in accordance with maps, plans and specifications on file in the county department of public works, which maps, plans and specifications are hereby approved and adopted.

Section 3. The board of supervisors does hereby adopt the engineers' estimate of 30 years and upwards as the period of usefulness of said project and also the said engineers' estimate of Six Hundred Sixty Thousand Dollars ($660,000) as the cost of said project, including 6 months' interest upon the bonds herein authorized therefor, both of which estimates are on file in the county department of public works.

Section 4. There are hereby authorized to be issued and sold pursuant to the provisions of Act. No. 94, Michigan Public Acts of 1933, as amended, revenue bonds in the aggregate principal sum of Three Hundred Seventy Thousand Dollars ($370,000) for the purpose of defraying a part of the cost of the said project, the balance to be paid from moneys on hand. Said bonds shall be known as "M.S.U.-Oakland Sewage Disposal System Revenue Bonds"; shall be dated as of November 2, 1959; shall be numbered consecutively in the direct order of their maturities from 1 to 370 both inclusive; shall be coupon bonds in the denominations of $1,000 each; shall be registrable as to principal only, in the manner hereinafter set forth in the bond form; shall bear interest at a rate or rates to be hereafter determined not exceeding 4½% per annum, payable on May 1, 1960, and thereafter semi-anually on the first days of May and November in each year; and shall mature on November first in each year as follows: $70,000 in the year 1960 and $75,000 in each of the years 1961 thru 1964. The bonds of said issue shall be subject to redemption prior to maturity, at the option of the county, in direct numerical order, on any one or more interest payment dates at the par value thereof and accrued interest. Notice of redemption shall be given to the holders of the bonds to be redeemed by publication of such notice not less than thirty (30) days prior to the dated fixed for redemption at least once in a newspaper or publication circulated in the City of Detroit, Michigan, which carries as a part of its regular service, notices of the sale of municipal bonds: Provided, that where any bond shall be registered, then notice of the redemption thereof shall be given by registered United States mail addressed to the registered holder thereof at the address shown on the bond registration books of the board of county auditors, which notice shall be mailed not less than thirty (30) days prior to the date fixed for redemption. Bonds so called for redemption shall not bear interest after the date fixed for redemption, provided funds are on hand with the paying agent to redeem the same.

The principal of said bonds and the interest thereon shall be payable in lawful money of the United States of America at the Community National Bank in the City of Pontiac, Michigan, upon presentation and surrender of said bonds and attached coupons as they severally mature.

Section 5. The chairman of the board of supervisors and county clerk of the County of Oakland shall execute said bonds for and on behalf of the county and the county clerk shall affix the seal of the county thereto. The said chairman of the board of supervisors and county clerk shall execute the interest coupons to be attached to said bonds by causing to be affixed thereto their facsimile signatures. The treasurer of the county shall deliver said bonds and attached coupons to the purchaser thereof as hereafter determined by the board of public works, upon receipt of the purchase price therefor.

Section 6. The bonds herein authorized shall be sold in the manner provided in Section 12 of Act No. 94, Michigan Public Acts of 1933, as amended.

Section 7. Said bonds and attached coupons shall not be a general obligation of the county and shall not be an indebtedness of the county within any state constitutional provision or statutory limitation. The principal of and interest on said bonds shall be payable solely from the net revenues derived from the operation of the system, including future improvements, enlargements and extensions thereof. To secure the payment of the principal of and interest on the bonds issued hereunder, there is hereby created in favor of the holders of said bonds and the interest coupons pertaining thereto, and each of such holders, a first lien (by said Act No. 94, Michigan Public Acts of 1933, as amended, made a statutory lien) upon the net revenues from the said system, including future improvements, enlargements and extensions thereof. The net revenues so pledged shall be and remain subject to said lien until the payment in full of the principal of and interest on said bonds.

Section 8. The holder or holders of any of the bonds or interest coupons herein authorized to be issued, shall have all the rights and remedies given by law and particularly by said Act No. 94, Michigan Public Acts of 1933, as amended, for the collection and enforcement of said bonds and coupons and the security therefor, including the right to have a receiver appointed for the system in event of default on the part of the county in the performance of the terms of the bond contract.

Section 9. The system shall be operated upon the basis of a fiscal year beginning on January 1st of each year and ending on December 30th of the same year.

Section 10. The operation, maintenance and management of the system shall be under the immediate supervision and control of the board of public works.

Section 11. It is the intention that sewage disposal services will be furnished to the Township of Avon and the Township of Pontiac for the benefit of the M.S.U.-Oakland Sewage Disposal District and not directly to the individual users in said district. The charges to each township for the services and facilities of the system shall be as follows:

Connection Charge

(a) For each unit of property within the township directly or indirectly connected with the system, the sum of $525 divided as follows: $225 for connection to the sewer and $300 for connection to the treatment plant. In case of new construction the said connection charge shall be payable to the county within thirty days after the issuance of the building permit. Connection charges relating to buildings existing on October 1, 1959 shall be payable in ten equal annual installments without interest to the county but with interest at 6% per annum to the township.

Service Charge

(b) Sixty cents per 1000 cubic feet of sewage disposed of by the system from the township, computed upon the basis of the amount of water consumed as measured by a master water meter or meters, if available, or where not, as measured by individual home or business meters: Provided, that each quarterly charge to a township in respect to all units of property whose water consumption is measured by master or individual meter readings, shall be not less than a sum computed by multiplying the number of such units by $5.50. Where no such meter readings are available, then the service charge shall be based upon the number of "units" served which shall be $5.50 per unit per quarter.

The word "unit" as herein used shall mean any property from which there emanates that quantity of sanitary sewage ordinarily arising from the occupancy of a residence building by a single family of ordinary size. The number of units to be assigned to any particular parcel of property used for other than single residential purposes shall be determined by the board of public works and its decision shall be final. The board of public works, if the circumstances justify, may assign more than one unit to a single family dwelling.

The charges to each township shall be billed quarterly and shall be payable to the county within 30 days after the rendition of the bill therefore. If any municipality fails to pay the above mentioned charges on or before the final payment date, then there shall be added thereto a penalty of 1% for each month or fraction thereof for which the same remains unpaid. The county shall have the right to pursue any method permitted by law for the collection of any sum due it from the township. The board of public works shall have the right to deny the use of the county sewage disposal facilities to any township which shall be delinquent for a period of ninety days in the payment of the charges due from it to the county while such delinquency continues.

If the character of sewage contributed from any township shall be such that it imposes an unreasonable additional burden upon the county's system, then an additional charge shall be made over and above the regular service charge, or it may be required that such sewage be treated before being emptied into the county's system or the right to empty said sewage into the county's system may be denied, if necessary, for the protection of said system or the public health or safety.

No free service shall be furnished by the system to the county or to any person, firm or corporation, public or private, or to any public agency or instrumentality.

Section 12. The rates hereinbefore established are estimated to be sufficient to provide for the payment of the expenses of administration and operation of the system and such expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order; to provide for the payment of the interest upon and the principal of all bonds payable therefrom, as and when the same become due and payable; and to provide for such other expenditures and funds for the system as are required by this ordinance. Rates shall be fixed and revised from time to time by the county board of supervisors so as to produce the foregoing amounts, and the county covenants and agrees to maintain at all times such rates for services furnished by the system as shall be sufficient to provide for the foregoing.

Section 13. The revenues of the system are hereby pledged for the purpose of the following funds, and as collected shall be set aside into a fund to be known as the "Receiving Fund" of the system, and shall be transferred therefrom periodically into separate and special funds, as follows:

1. Operation and Maintenance Fund. Out of the revenues in the Receiving Fund, there shall be first set aside in each quarter (3 months) into a fund to be designated "Operation and Maintenance Fund," a sum sufficient to provide for the payment for the next quarter of all current expenses of administration and operation of the system and such current expenses for the maintenance thereof as may be necessary to preserve the system in good repair and working order.

2. Bonds and Interest Redemption Fund. Out of the remaining revenues in the Receiving Fund, there shall be next set aside each quarter into a fund to be designated "Bond and Interest Redemption Fund," a sum proportionately sufficient to provide for the payment as the same become due of the next maturing principal and interest on each issue of bonds then payable from the revenues of the system and if there shall be any deficiency in the amount previously set aside, then the amount of such deficiency shall be added to the current requirement: Provided, that the amount so set aside in each quarter shall not be less than the amount received during such quarter in payment of connection charges. Subject to statutory limitations thereon, moneys in said Bond and Interest Redemption Fund may be used for the redemption of bonds.

3. Replacement Fund. Out of the remaining revenues in the Receiving Fund, there shall be next set aside in equal quarterly installments in a fund to be designated "Replacement Fund," a sum not less than $1,000 per year commencing with the fiscal year beginning January 1, 1961, until such fund shall reach at least $5,000.00 to build up a reserve for any replacements to the system which may become necessary from time to time. Whenever moneys shall be used from said fund to make such replacements, the amount taken from said fund shall be restored as soon as possible thereafter.

4. Improvement Fund. Out of the remaining revenues in the Receiving Fund, there may be set aside in any quarter, after meeting the requirements for the foregoing funds for such quarter, in a fund to be designated "Improvement Fund," such sum as the board of public works may deem advisable, to be used for improvements, enlargements, extensions and repairs to the system.

5. Surplus Fund. Revenues remaining in said Receiving Fund at the end of any fiscal year after all periodical transfers have been made therefrom as above required, shall be deemed to be surplus and may be left in the Receiving Fund or may be transferred to a fund to be designated "Surplus Fund." Moneys in said Surplus Fund from time to time may be transferred to one or more of the foreging funds or may be used for any purpose pertaining to the system: Provided, however, that it at any time there shall exist any default in making any periodical transfer to any of the above mentioned funds, then such default shall be rectified so far as possible by the transfer of moneys from said Surplus Fund. If any such default shall exist as to more than one fund at any one time, then such transfers shall be made in the order in which such funds are listed above.

No disbursements shall be made from said Receiving Fund except to the special funds as above provided.

Section 14. In the event that moneys in the Receiving Fund are insufficient to provide for the current requirements of the Operation and Maintenance Fund or the Bond and Interest Redemption Fund, any moneys and/or securities in other funds of the system shall be transferred, first, to the Operations and Maintenance Fund, and, second, to the Bond and Interest Redemption Fund, to the extent of any deficits therein. Any amount so transferred from the Replacement Fund shall be replaced as soon as possible.

Section 15. All moneys in the several funds of the system except those in the Bond and Interest Redemption Fund, shall be deposited with the Community National Bank in the City of Pontiac, Michigan. All moneys from time to time in the Bond and Interest Redemption Fund shall be kept on hand with the bank or trust company at which the principal and intdrest on the herein authorized bonds are currently payable. The moneys in the Receiving Fund, in the Operation and Maintenance Fund and in the Bond and Interest Redemption Fund, shall each be kept in a separate depository account. Moneys in the Bond and Interest Redemption Fund, over and above those being accumulated for the payment of the next maturing principal and interest, and moneys in any other fund except the Receiving Fund and the Operation and Maintenance Fund

Supervisors Proceedings

(Continued from Preceding Page)

arrange to get such information for you.

Transfer of Duties of Drain Commissioner to DPW. Legislation to accomplish the transfer of all duties and responsibilities of the County Drain Commissioner to the Department of Public Works through the Board of Public Works was carefully drafted and approved by your Committee for introduction to the Legislature in the present session. Several meetings were held with our State Senator and the six members of the House representing Oakland County as well as other key legislators and chairmen of various legislative committees. During most of the present legislative session a suit was pending in the Supreme Court testing the validity of the DPW Act. After the Supreme Court upheld the constitutionality of the Act, the DPW immediately proceeded with its plans for the Evergreen and Farmington Interceptors. However, actual construction had not begun at the time that the deadline for introduction of bills had passed. Therefore our County legislators advised your Committee that it would be in the best interests of the County not to press for passage of this Act this year but rather retain it for submission next year after the DPW had had opportunity to complete construction of the Evergreen and Farmington Interceptors and have them actually in operation. It is therefore the recommendation of your Committee that this legislation be proposed at the 1960 session of the State Legislature.

Amendments to State Dog Laws. The Legislature adopted an amendment to the State Dog Law at the present session (Public Act No. 211) which permits a township in a county of 150,000 population or more to adopt an ordinance regulating the licensing of dogs, payment of claims and providing for the enforcement of such ordinances. Also approved was another amendment (Public Act No. 91) which extends the effective period for vaccination to two years when a dog is vaccinated with modified live rabies virus of chick embryo origin. Both of these amendments were sought by several of the townships of the County and had the approval of the Health Committee.

Annexation of Township Area Where There Are No Local Officials: Legislation intended to correct the Troy Township situation where there are no local officials to levy or collect taxes was approved this year by the enactment of Public Act No. 92. Under this amendment to the City Home Rule Act, the owners of the real property in the portion of a township where there are no residents and no local officials may petition for annexation to an adjacent city and such annexation may be completed by approval of a city and the County Board of Supervisors.

Township Planning Act. The Legislature enacted into law Public Act No. 168 which authorizes township boards to create a township planning commission. The several townships of the County had approved the form of this new legislation and it is believed that this new Act will prove of great benefit to the townships in planning their future development.

Township Housing Act. In order to assist Royal Oak Township to complete its urban renewal program, this Board recommended and the State Legislature enacted into law an amendment to the State Housing Law which permits townships to own and operate public housing facilities. This Act (Public Act 143) was given immediate effect in order to permit Royal Oak Township to proceed with its program without further delay.

Amendments to Drain Code. At the suggestion of the County Drain Commissioner, and with the approval of this Board, legislation was adopted by the State Legislature this year (Public Act No. 70) which sets the limitation of the amount which may be expended each year by the Drain Commissioner for maintenance of County drains at $300 per mile or fraction thereof, or 1% of the original cost of the drain. Previously the Drain Commissioner was permitted to expend $800 regardless of the length or size of the drain. This amendment met general support througout the State and was endorsed by the Supervisors Inter-County Committee. Because of the health matters involved, the Legislature gave the Act immediate effect.

Amendment to Plat Act. For several years an amendment to the Plat Act to add the County Drain Commissioner to the County Plat Board was sought. This year the Legislature approved Public Act No. 73 and gave it immediate effect, thus making the Drain Commissioner a member of the Plat Board.

Amendment to Lake Level Act. Under the supervision of your Legislative Committee, proposed amendments to the Lake Level Act were prepared which would clarify the methods of financing the cost of the projects by setting up in the bill a workable special assessment procedure. The amendment would also clarify the condemnation procedures. Until such time as the Act is amended, it is doubtful if the larger lake level projects which would be more costly can be constructed under the existing lake level laws. Unfortunately the Drainage Committee of the House of Representatives, where the bill originated, did not have time to fully study this complicated legislation this year and so the bill died in Committee. Your Legislative Committee recommends that this item also be held for consideration in the 1960 Legislative Program of the County.

Amendment to City Home Rule Act to Provide for Separate Votes in Village and Township Area. This legislation, which was proposed by the Supervisor of Avon Township and endorsed by the Board as part of the County's Legislative Program, was never reported out of the Committee on City Corporations. Hearings were held in Lansing when Supervisors Miller appeared with Mr. Semann, as Chairman of your Committee, to explain the purpose of the legislation. Representatives of the Village of Rochester who appeared at the hearing opposed the legislation. The House of Representatives Committee, therefore, decided not to report the bill out.

Amendment to 1895 Village Act. When the County's 1959 Legislative Program was being developed, it was suggested that amendments be sought to the 1895 Village Act which would provide for an election in setting up new villages similar to the later act (Act 278 of the Public Acts of 1909). The proposed legislation met with approval of the House of Representatives when they voted 94-0 in favor of the amendment, but on reaching the Senate the act was killed in the Committee on Municipalities.

Township 15 Mill Limitation on Drain and Public Works Projects. As the result of the Michigan Supreme Court decision in the Cohen vs. County of Oakland case, it was necessary to obtain an amendment to the Public Works Act to clarify the question as to whether or not the township might possibly exceed the 15 mill constitutional limitation. An amendment was approved by the Legislature (Public Act No. 34) and given immediate effect which provides that any township may agree to raise all or any part of its contract obligation to a county in connection with the financing of water supply or sewage disposal systems by use of the various methods provided in the DPW Act but that such contract would be subject to the constitutional tax limitation or any lawful increase thereof. In order to expedite plans for the Twelve Towns Drain, your Committee sought and obtained a similar amendment to the Drain Code (Public Act No. 77). This was also given immediate effect by the Legislature. These two amendments have resulted in a clarification of the legal questions involved as to the extent of the townships' liability.

In addition to the County's Legislative Program, several legislative proposals advanced by the Supervisors Inter-County Committee were endorsed. These were presented to and approved by the Board on December 22, 1958, by the adoption of Miscellaneous Resolution No. 3457.

Perhaps the most important of these legislative proposals was the plan to restore the State Welfare formula to a 50/50 matching provision. While a formula of 51/49 was approved by the House of Representatives, it received only 15 votes in the Senate or three short of the necessary number for adoption. The Senator from Oakland County, Honorable L. Harvey Lodge, arranged to have the amended formula referred to the Senate Appropriations Committee, hoping that it might be revived when and if the new State tax plan is finally settled. Until the Legislature reconvenes on September 16, 1959, and possibly until there is a decision from the Supreme Court on the new State use tax, there is very slight possibility of any action being taken on the welfare formula.

Other proposals of the Supervisors Inter-County Committee which have been enacted into law are as follows:

Legislation requiring Inter-County pipelines to be laid at levels which will not block, obstruct or interfere with established drains or potential public drains (Public Act No. 261).

Legislation to permit the Register of Deeds to eliminate marginal references when deeds, mortgages and other instruments are microphotographed. (Public Act No. 22)

Legislation amending the Veterans Burial Act to define "estate" (within the meaning of the Act and as a basis for determination of eligibility for payment of burial expenses) as meaning the owner of realty or personalty at the time of death, the title to which property was held either in the sole name of the decedent or by the entireties, tenancy in common, or joint tenancy with the spouse, child or parent of the decedent. (Public Act 235).

Several other new acts were approved by the Legislature which, although not a part of the County's program, were actively supported by your Committee and its representatives in Lansing which will benefit the County and its various units of government. These are as follows:

Public Act 18, which clarifies the question as to the right of members of Boards of Supervisors to be members of the Board of Public Works.

Public Act 46, which authorizes townships to appoint a deputy treasurer when needed.

Public Act 55, which permits townships to enact ordinances regulating public peace and safety.

Public Act 67 which authorizes townships to construct pedestrian overpasses.

Public Act 78 which is an amendment to the municipal finance act and permits special assessments for improvements, including parking lots.

Public Act 88 which removes from the property tax limitation act the proviso that the minimum rate for a local unit of government will be the average of the last three years if below the minimum amount.

Public Act 100 which increases certain fees in Justice Court.

Public Acts 178 and 196 which permit townships to agree to pay a portion of the cost of special assessments on corner lots.

Public Act 192 which permits boundaries between cities to be relocated where they divide platted lots.

Public Act 304 which clarifies certain procedures before a township zoning board.

Your Committee plans to continue to follow up on several other legislative proposals which may still have a chance of adoption at the present session of the Legislature. These have to do with legislation to broaden the county tax base which was considered by the Board on June 2, 1959. Under the provisions of Miscellaneous Resolution 3539 your Committee was authorized to study such legislation and report back to the Board for approval before taking any action. Two proposals were advanced—the first would provide for the retention of a portion of any new State tax in the county of origin. The other would impose a property transfer tax to be collected and used by the county. Both of the proposals are designed to increase the county's tax base. However, to date neither of the proposals has been submitted to the Legislature in bill form. Therefore your Committee is not in a position to make a recommendation.

Mr. Chairman, on behalf of the Legislative Committee, I move that the foregoing report be received and placed on file.

LEGISLATIVE COMMITTEE
JOHN G. SEMANN, Chairman
WILLIAM A. EWART
CARL F. INGRAHAM
WILLIAM C. HUDSON
ARNO L. HULET

Moved by Semann supported by Ingraham the report be received and placed on file.

A sufficient majority having voted therefor, the motion carried.

Misc. 3564
By Mr. Hoard
IN RE: DRAIN ASSESSMENTS—1959
To the Oakland County Board of Supervisors

Mr. Chairman, Ladies and Gentlemen:

Your Drain Committee met in the office of the Drain Commissioner on September 10, 1959 and went over the 1959 Assessment Rolls as prepared by the Drain Commissioner and concurred in the figures as set up by the Drain Commissioner, a copy of which is attached hereto, indicating the several amounts to be assessed against the various drains in the County, the detail of which appears in the schedule attached and the summary of which is as follows:

1932 and Prior Years

at Large	$ 47,952.41
1932 and Prior Years Property	21,265.19
Current Year at Large	36,235.37
Current Year Property	115,910.88
	$221,363.85

Wherefore on behalf of the Drain Committee, I respectfully offer the following resolution:

Be it resolved by the Board of Supervisors for the County of Oakland and State of Michigan, that there be assessed, levied and collected for the year 1959 for the purpose of locating, establishing, constructing, maintaining, cleaning out, deepening and extending county drains in Oakland County, within and by the several political subdivisions, the aggregate sum of $221,363.85, which sum represents the total assessments for said year and which are contained in the several Drain Assessment Rolls as heretofore determined by the Oakland County Drain Commissioner.

Mr. Chairman, on behalf of the Drain Committee, I move the adoption of the foregoing resolution.

DRAIN COMMITTEE
MAYON HOARD, Chairman
WM. K. SMITH
DONALD N. McPHERSON
LUTHER HEACOCK
DAVID R. CALHOUN
T. H. O'DONOGHUE

(Detailed report entitled "Oakland County Drain Assessments for the year 1959" filed in the records of the Board of Supervisors)

Moved by Hoard supported by Heacock the resolution be laid on the table until Monday, September 21, 1959.

A sufficient majority having voted therefor, the motion carried.

Mr. Staman presented the Salary Budget for the year 1960.

Moved by Staman supported by Kephart the Salary Budget be laid on the table until 10:00 A.M., Monday, September 21, 1959.

A sufficient majority having voted therefor, the motion carried.

Mr. Kephart presented the annual report of the Oakland County Tuberculosis Sanatorium.

Moved by Kephart supported by Voll the report be approved and placed on file.

A sufficient majority having voted therefor, the motion carried.

Moved by Frid supported by Hursfall that the Salaries Committee supply the members of this Board with a detailed report showing the amount of increase in the 1960 Salaries Report, for each employee.

A sufficient majority not having voted therefor, the motion lost.

Mr. F. Smith presented the proposed budget for the year 1960.

Moved by F. Smith supported by Cummings the budget be tabled and made a special order of business at 10:00 A.M. Monday, September 21, 1959.

A sufficient majority having voted therefor, the motion carried.

Misc. 3565
By Mr. F. Smith
IN RE: REQUEST OF ROAD COMMISSION FOR FUNDS FOR CONSTRUCTION PROGRAM
To the Oakland County Board of Supervisors

Mr. Chairman, Ladies and Gentlemen:

Whereas previous to this date the Board of County Road Commissioners of Oakland County has filed with the County Clerk a resolution requesting an appropriation of $143,200 from the 1960 non-tax surplus funds of the County budget to finance the construction of new drainage structures on the county local road system, and

Whereas the Board of County Road Commissioners has requested aid from the Board of Supervisors and has submitted a detailed list of its construction projects to replace inadequate drainage structures on the county local road system and further has represented that replacement of such damaged or inadequate drainage structures is dependent on appropriation of funds from the Board of Supervisors, and

Whereas said resolution of the Board of County Road Commissioners has been reviewed by your Ways and Means Committee, and

Whereas your Committee recommends than an appropriation for this purpose be considered from non-tax surplus funds of the County in accordance with the provisions of Act 253 of the Michigan Public Acts of 1917 after the end of the fiscal year and when the books for the year are closed and it is determined that there is an actual surplus which may be legally appropriated for this purpose.

Mr. Chairman, on behalf of the Ways and Means Committee, I move that the foregoing report be placed on file and spread upon the minutes of this meeting to afford opportunity to this Board to review this request at the close of the fiscal year.

WAYS AND MEANS COMMITTEE
FRED W. SMITH, Chairman
R. C. CUMMINGS
DAVID LEVINSON
HILAND M. THATCHER
ORPH C. HOLMES
FRANK J. VOLL SR.
JOHN L. CAREY

Moved by F. Smith supported by Cyril Miller the resolution be adopted.

A sufficient majority having voted therefor, the resolution was adopted.

Misc. 3566
By Mrs. Lewis
IN RE: RELEASE OF COUNTY OWNED LANDS FOR SALE
To the Oakland County Board of Supervisors

Mr. Chairman, Ladies and Gentlemen:

At a joint meeting of the County Social Welfare Board with your Welfare Committee on August 13, 1959, a motion was adopted releasing the following properties for sale by the County:

VACANT:

Lot No. 281 Buena Vista Heights Subdivision, City of Pontiac
Lot No. 293 Buena Vista Heights Subdivision, City of Pontiac
Lot No. 293 Buena Vista Heights Subdivision, City of Pontiac
Lot No. 294 Buena Vista Heights Subdivision, City of Pontiac
Lot No. 295 Buena Vista Heights Subdivision, City of Pontiac

IMPROVED:

Lot No. 382 Crystal Lake Subdivision, City of Pontiac
Lot No. 149 Marjorie Vesta Park Subdivision, White Lake Township

all in Oakland County, Michigan

Now therefore be it resolved that the seven parcels of property above described be released to the Buildings and Grounds Committee for sale pursuant to the By-Laws.

Mr. Chairman, on behalf of the Welfare Committee, I move the adoption of the foregoing resolution.

WELFARE COMMITTEE
HOPE P. LEWIS, Chairman
WILLIAM C. HUDSON
GENEVIEVE C. SCHOCK
PETER P. QUINLAN
MAURICE J. CROTEAU
R. W. LAHTI
ARTHUR G. ELLIOTT, JR.

Moved by Lewis supported by Schock the resolution be adopted.

A sufficient majority having voted therefor, the motion carried.

Misc. 3567
By Mrs. Lewis
IN RE: REPORT ON STUDY MADE OF SOCIAL WELFARE DEPARTMENT
To the Oakland County Board of Supervisors

Mr. Chairman, Ladies and Gentlemen:

The report which follows is in many ways unique. Last January, when the rapidly mounting welfare rolls threatened to swamp an already overworked and undermanned Direct Relief Section, it seemed wise to cast a critical eye on all operations to see where we stood.

Rather than ask for an outside source of paid appraisal, the Welfare Committee itself undertook to make such a survey. A sub-committee consisting of our able Committee members, Maurice Croteau and William Hudson, plus the Chairman of the Ways and Means Committee, Fred Smith, consented to study the day to day operations of the Welfare Department. I cannot emphasize too strongly to this Board of Supervisors how fortunate the citizens of Oakland County are to have the devoted services of such men as these. You should know that Mr. Croteau shouldered a daily burden for many weeks of study, investigation, home visits with case workers, trips to other counties, etc. which would have cost many hundreds of dollars if outside talent had been employed. Mr. Croteau served without compensation for the good of the whole County.

As Chairman of the Welfare Committee, I wish to express my deep appreciation and my heartfelt gratitude to Mr. Croteau for this outstanding example of unselfish service to the cause of good government. Mr. Hudson and Mr. Smith acted as consulting members of this Committee. Their long experience and wise counsel made valuable contributions to this study and they too deserve our sincere thanks and their interest and efforts.

In the cause of better information for all Supervisors, we are today presenting the findings of this thoroughgoing and conscientious study committee.

It gives me great pleasure to ask Mr. Croteau to read the report to which he has contributed so much. With your permission, Mr. Chairman, Mr. Croteau

HOPE P. LEWIS, Chairman
Welfare Committee

Ladies and Gentlemen:

At the January 29, 1959 meeting of the combined Supervisors Committee of the Oakland County Department of Social Welfare Commissioners, Mr. Maurice J. Croteau was appointed chairman of a Special Committee to make an evaluation and analysis of the Oakland County Department of Social Welfare. Mr. Fred Smith and Mr. William Hudson were appointed members of this Committee.

At this time the Committee was aware of the tremendous influx of clients covering a two year period. In January, 1956, there were approximately 1300 active welfare cases. In February 1959, this had increased to 3200 cases. The fact that the people of Oakland County were as well cared for during this period speaks well for the morale of the Department. The Commissioners and personnel are to be commended for the excellent manner in which they shared the additional burden during this trying period.

A complete study of methods of operations were made, resulting in recommended changes in tending to streamline the department. These changes were discussed with the three Commissioners and supervisory personnel, the result being the adoption of a uniform code. A complete and thorough investigation of all chronic and doubtful cases resulted in a better working relation between case workers and clients.

The main objectives of the evaluation were, (1) To give better service to the people of Oakland County, and (2) To explore the possibility of lowering the caseload.

As regards to the first, all the complaints were handled personally by Mr. Croteau. These were numerous and varied and resulted in most instances through misunderstanding. At no time were there any indications of abuse, discrimination or partiality shown.

We found many clients with a belligerant, and in some cases, abusive attitude toward their case workers because of the amount of aid given. Much of this feeling was overcome through talking and explaining to them the limitation in the Statute the department operates under. We believe that Oakland County has been very fair and impartial in their treatment of these clients. We also believe that some of the results of this evaluation have resulted in greater efficiency in the operation of this most difficult problem.

At the time of this evaluation, a program was in effect whereby the clients who were physically able were allowed to work for the assistance received at the rate of $1.50 per hour. As an example, a family receiving a budgetary allowance of $180.00 per month would work 120 hours and be paid by check rather than voucher. His working period would be 30 hours weekly, allowing him time to explore the possibility of private employment.

Several abuses resulted from this program, one being that many, not too aggressive or ambitious, sought to make this a way of life. To discourage this, the program was changed. The work schedule was the same, but the method of payment was changed back to being paid by voucher instead of cash. This created much dissention from the perennial client who makes welfare a way of life. This Committee is old-fashioned enough to believe that a person should work for their self-sustenance. Some who have refused to work have been interviewed and told that they would be prosecuted on a refusal to work.

After an exhaustive and thorough study of the Social Welfare operations in this County, and comparing them with similar operations in neighboring communities, it is our belief that the people of Oakland County have been very fortunate in having a clean and efficient Welfare Commission and administration. In checking over 200 individual cases and discussing these with the individual workers, we have found very few inadequacies.

One of our most vital social problems is the alarming birth rate of illegitimate children. This is not a problem to be solved by our Welfare Department but is the concern of the entire state.

We have records of many cases which have been checked by our investigators and closed. It is not our intention to burden you with the tremendous amount of detail involved.

It is our belief that the basic structure and operation of the Department of Social Welfare in Oakland County has been excellent.

The national average case load per worker for welfare investigators is 100. In February 1959, the average load per caseworker in the department was 240 cases. The present caseload has been reduced to approximately 100. The Record Department is very well organized. All cases are posted up to date.

To balance the caseload, it was recommended that Farmington Township and Novi Township be transferred to the Royal Oak office. Mr. Burt checked the mileage maps and made this change.

The Supervisor and personnel of the Royal Oak Office are to be commended for a very efficient operation. Some problem cases were checked, interviewed and closed.

Conducting this evaluation has been a very liberal education for the members of this Committee. We wish to thank the Welfare Commissions, supervisors and staff for their complete cooperation.

This report is presented by your Special Committee.

MAURICE J. CROTEAU, Chairman
WILLIAM C. HUDSON
FRED W. SMITH

The report was placed on file.

Misc. 3568
By Mr. Levinson
IN RE: CONTRACTS FOR FIRST UNIT OF OAKLAND COUNTY COURT HOUSE
To the Oakland County Board of Supervisors

Mr. Chairman, Ladies and Gentlemen:

Pursuant to Miscellaneous Resolution No. 3556, your Special County Building, Ways and Means and Buildings and Grounds Committee and the Board of Auditors met in joint session on September 9, 1959 to receive and tabulate bids for the General Architectural and Mechanical Contracts on the proposed First Unit, Oakland County Court House, Oakland County, Michigan, to be constructed at the County Service Center.

Bids were received and tabulated as per tabulation attached, details of which have been previously furnished each member of the Board present at the bid opening. Proper bid bonds have been filed by all bidders and O'Dell, Hewlett and Luckenbach, the architects, report that all low bidders are responsible firms.

The joint Committees recommend that the Mechanical and Electrical Contracts be assigned to the General Architectural Contractor and the percentage fee stated in its bid be paid for such assumption. The Contract for the electrical work was awarded to Schults Electric Service by Miscellaneous Resolution 3536 adopted by the Board of Supervisors on June 2, 1959, and reaffirmed by Miscellaneous Resolution No. 3555.

Your joint Committees recommend that contracts be awarded as follows:

General Architectural Trades—O. W. Burke Company—$2,061,000.00
Mechanical — R. L. Spitsley Company $679,800.00

Now therefore be it resolved:

1. That the foregoing recommendations be approved.

2. That the "General Contract" be awarded to the O. W. Burke Company of Detroit, Michigan, at the base figure of $2,061,000.00; and the "Mechanical Contract" to R. L. Spitsley Company of Detroit, Michigan at the base figure of $679,800.00, (before deduction of bond security).

3. That since the grand total of the bids (including the Electrical Contract previously awarded to Schults Electric Service in the sum of $308,900.00, before deduction of bond security, by Miscellaneous Resolution No. 3536) is $3,049,700.00 and presently the County can only guarantee payments up to $2,044,599.04 which is the amount set aside and appropriated in the Building Fund for this purpose, the execution of a contract or contracts, not to exceed a total of $3,049,700.00 with total guaranteed payments up to a total of $2,044 599.04 be authorized.

4. That the contracts be awarded, reserving to the Special County Building, Buildings and Grounds, Ways and Means Committee and Board of Auditors the acceptance of any or all alternates and/or substitutes or changes in the performance or labor bond securities, to a later decision by the three joint committees and the Board of Auditors.

5. That the issuance of a letter of intent to the successful bidders by the Board of Auditors be authorized.

6. That the Board of Auditors be authorized to execute the Contracts on behalf of the County of Oakland, said contracts to be prepared by the architects and approved by the Corporation Counsel.

Mr. Chairman, on behalf of the Special County Building, Ways and Means, Buildings and Grounds Committees and the Board of Auditors, I move the adoption of the foregoing resolution.

SPECIAL COUNTY BUILDING COMMITTEE
DAVID LEVINSON, Chairman
H. LLOYD CLAWSON
R. C. CUMMINGS
HARRY W. HORTON
FRED L. YOCKEY
FRAZER W. STAMAN

NOTICE OF REVIEW OF SPECIAL assessment roll for the Township of Bloomfield.

To the owners or other persons interested in the following described lots and parcels of land:

Lots 1 thru 9 inclusive; Lots 11 thru 110 inclusive of Charing Cross Estates, Section 24, Bloomfield Township, Oakland County, Michigan.

Please take notice that a Special Assessment Roll has been prepared and is on file in the office of the Township Clerk for public examination. Said special assessment roll has been prepared for the purpose of assessing the cost of the following described improvement to the property benefited therefrom:

For the proposed improvement to the existing water system in Charing Cross Estates, including the construction of 1725 lineal feet of 6" C. I. Water Mains; 19 Hydrants; and such other necessary equipment for this improvement, in Charing Cross Estates, Section 24, Bloomfield Township;

Take further notice that the Township Board will meet at the Township Hall in the Township at 8:00 o'clock p.m., on Monday, October 26, 1959, for the purpose of reviewing said special assessment roll and hearing any objections thereto.

ROBERT H. DUDLEY, Township Clerk
Oct. 15, 22, '59.

NOTICE OF SPECIAL ASSESSMENT. Water main on Walton Boulevard.

To: Ernest Little, C. Leslie Turner, Norman Fralick and to all persons interested, take notice: That the roll of the Special Assessment heretofore made by the City Assessor for the purpose of defraying that part of the cost which the Commission decided should be paid and borne by special assessment for the construction of water main on south side of West Walton Boulevard from east line of Lot 10 Walton Subdivision to a point 525 feet west is now on file in my office for public inspection.

Notice is also hereby given that the Commission and the Assessor of the City of Pontiac, will meet in the Commission Chamber in said City, on the 27th day of October A.D. 1959 at 8:00 o'clock p.m. to review said assessment, at which time and place opportunity will be given all persons interested to be heard.

Dated October 21, 1959.

ADA R. EVANS, City Clerk
Oct. 22, '59.

Auditor General Will Be Negro

State Senate Confirms Williams' Appointment of Otis M. Smith

LANSING (AP) — The way has been cleared for Otis M. Smith, Flint attorney, to become possibly the first Negro in the nation since reconstruction days to occupy full time, elective statewide office.

The Senate yesterday unanimously confirmed his appointment by Gov. Williams to fill out the unexpired term of Frank S. Szymanski as state auditor general. Szymanski resigned to become a Wayne County judge.

Smith, a Democrat, has served since July 1, 1957 as chairman of the State Public Service Commission. He is 37.

His approval will take Smith off the three-man PSC, currently nearing the end of hearings on a multi-million dollar rate increase sought by Michigan Bell Telephone Co.

This will leave the rate decision, due in December, to commissioners James H. Lee and Thomas H. Burns, plus whoever is picked by Williams as Smith's replacement and approved by the Senate.

★ ★ ★

As auditor general, Smith's salary will be $12,500 a year, or $1,000 more.

Also confirmed by the Senate were reappointments of Dr. Albert E. Heustis as State Health Commissioner, Earnest C. Brooks to the State Corrections Commission and R. Gerald Barr to the State Tax Commission.

Walter Campbell of Muskegon was okayed as a member of the Michigan Employment Security Commission, succeeding the late Morton Zimmerman.

Tooth Decay 'Cut in Half' Because of Water Fluorine

WINSTON-SALEM, N.C. (AP) — Tooth decay in Winston-Salem children is off 50 per cent or more because of fluoridation of the city's drinking water, says the county dental officer.

★ ★ ★

The city began adding fluorine to its water eight years ago. Dr. A. C. Jent, Forsyth County dental officer, said Wednesday he compared the teeth of second graders in the city schools and in the county schools where the water is not flouridated.

He said the second grade city youngsters, most of them 8 years old, began drinking the fluoridated water as infants.

He said there are far less cavities in the teeth of city school children than in the county children.

★ ★ ★

"The evidence is definite. From looking into the mouths of 12,000 children—both county and city—we have found that tooth decay in the Winston-Salem child is 50 per cent or more less than in the child living in the county," he observed.

Alarm Clock Sets Off Furor Among Neighbors

LOCKPORT, N.Y. (AP) — Police located an alarm clock that really deserved the name. It was the flasher type that blinks a light on and off, and it went off while residents of the house were away.

Seeing flashes of light in the unoccupied house, neighbors summoned the law. Officers found an unlocked door and, eventually, the blinking clock.

NOTICE OF INTENTION TO CONSTRUCT CURB, GUTTER, DRAINAGE, GRADE, GRAVEL AND RELATED WORK ON EAST BEVERLY AVENUE.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan, held October 20, 1959, by resolution it was declared to be the intention of the City Commission to construct curb, gutter, drainage, grade and gravel and related work on East Beverly Avenue from Fuller Street to Arlene Avenue at an estimated cost of $17,966.96, and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of East Beverly Avenue from Fuller Street to Arlene Avenue shall constitute the special assessment district to defray $8,366.00 of the estimated cost and expenses thereof and that $8,376.96 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund and that $1,224.00 the estimated cost of sewer stubs shall be defrayed by special assessment against Lots 1213 thru 1224 both incl., Lots 1226, 1307, 1308, 1313 and 1316 LeBaron Farms No. 1 Subdivision.

NOTICE IS HEREBY GIVEN

That the Commission of the City of Pontiac, Michigan, will meet in the Commission Chamber on October 27, 1959, at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

SYLVAN VILLAGE BRICK—Decorated beautifully and maintained with greatest pride. A 1½ story bungalow with a completely finished 3rd bedroom and den in attic. Extra-nice kitchen. Ceramic bath. Sunbeam gas heat. You'll surely appreciate the gorgeous shade trees and fencing too. Near the beach with privileges. It would be hard to beat this value at $12,900.

MELLOW with a few years growth on the shrubs and trees, yet more lovely than new. Live well in a large 3 bedroom Cape Cod. Aluminum for appearance, insulated for economy. Living and dining rooms carpeted wall-to-wall. Finished rumpus room in the grand basement, auto. heat naturally. A gas incinerator eliminates messy garbage and trash. 2 car garage plus a heated workshop. You'll love the 3 lots; the nearness to a new grade school, and the lake privileges. See this one and compare with the others under $8,000.

WATKINS - PONTIAC ESTATES—3 bedroom 1-floor aluminum. Extra-good floor plan featuring 2-way island fireplace opening into living and dining room. One of the best kitchens we have seen. Lots of turquoise formica and solid Birch cabinets. Full tiled basement. You'll be pleased at the size and quality of this house. May be seen anytime.

$600 DOWN and only $62 per mo. including property taxes and insurance. Cute 2 bedroom bungalow with attached garage. 3 nice lots. Blacktop street. Easy walking distance to Fisher Body —Why rent another day?

There's at Least One Cruel Joke in This Story

HOLLYWOOD (UPI) — There's a Sammy Mandell in Chicago and there's a Sammy Mandell in Hollywood — and both claim to be the 55-year-old former lightweight boxing champion of the world.

★ ★ ★

The real Sammy Mandell might be heir to a two-million-dollar fortune or the brunt of a cruel hoax.

But associates of the two men seemed uncertain which was the real Sammy Mandell — much less whether the alleged two-million-dollar fortune even existed.

Broadcasters Ready to Set Up Fix Code

BOSTON (AP)—Harold E. Fellows, president of the National Assn. of Broadcasters, said today the industry is prepared to set up additional safeguards in its television code if necessary to prevent rigging of quiz shows.

★ ★ ★

Fellows, in a speech prepared for an NAB fall conference, said Washington testimony about rigged quizzes may result in "a challenge to our system of voluntary self-regulation."

"This industry has proved, in its four decades of service, it can clean its own house when necessary," Fellows said.

Freights Are Slow

The average speed of freight trains in the United States is 19 miles an hour. This includes stops for switching, unloading, etc.

U.S. Financiers Watch England

Hope Americans Won't Invest Too Heavily and Lower Gold Outflow

WASHINGTON (AP) — Government financial leaders are keeping a close watch to see if the conservative victory in the British elections inspires a new wave of American investment in Britain and continental Europe.

International finance experts at the Department of Commerce and federal reserve board said today they have no evidence yet that this is happening. However, they are watching the situation because such a trend might weaken this country's international financial position.

★ ★ ★

Should more American private capital go abroad, the deficit in the United States' balance of international payments would increase in proportion. Secretary of the Treasury Robert B. Anderson and other top officials are concerned about this deficit because it could lead to a heavier outflow of gold.

After the conservative victory, stock prices in London soared to new highs. However, reports from Britain indicated that American investors sold to take profits during the rise.

A reserve board technician said profit-taking would be the natural reaction to the price spurt. He said any significant influx of American money into the London stocks might be postponed by investors hopeful of lower prices later.

U.S. Refuses Visa to William Z. Foster

NEW YORK (AP)—William Z. Foster, former head of the Communist Party in this country, has been refused permission to go to the Soviet Union and Czechoslovakia for medical treatment.

Foster, 78, who resides in the Bronx, was indicted with other Communist leaders in 1948 for conspiracy to overthrow the government. His case was postponed because of a heart condition and never tried. He still is free in $5,000 bail.

He asked permission to leave the country in order to obtain cheaper medical treatment.

U.S. District Judge David N. Edelstein Wednesday denied the application, saying Foster's plea for travel rights do "not outweigh the government's interest in his continued presence" in this jurisdiction.

DIAMOND LILS — Mae West suffered another setback Tuesday in her fight to gain sole right to perform under the name "Diamond Lil." In denying Miss West, right above, a temporary injunction, Judge Thomas Foley in his San Francisco court, ruled that the name "Diamond Lil" is public domain and available to anyone. Marie Lind had billed herself as "Lil." Miss West claims she wrote the book and play of that name.

TV News and Reviews

Staleness Takes Glitter From Sid Caesar Show

By FRED DANZIG

NEW YORK (UPI)—This has been quite a week for the TV tube.

★ ★ ★

Monday night we had Frank Sinatra, Bing Crosby and Dean Martin; Tuesday night, Ingrid Berman; and last night, comedy with Sid Caesar and his guests, Tony Randall, Audrey Meadows and Gisele Mackenzie.

It was nice to have Sid back. There were a number of solid laughs during the CBS-TV hour, but frankly, I was disappointed. The major effort of the evening was a half-hour sketch about an immigrant who becomes a great automobile maker.

Basically, this sketch, with Caesar playing Anton Polka, the immigrant, and Tony Randall his American-born son, was warmed-over Caesar skits of TV shows gone by. The inventiveness we've come to expect from Caesar was generally absent.

★ ★ ★

The opening sketch had more laughs in it. Caesar, as the driver on a cross-country trip, was widely funny portraying a man siphoning gasoline and eating while driving. Randall was excellent in his sketch and all evening long.

DIALING AND FILING: Wasn't Charley Weaver's Hobby Lobby, on ABC-TV last night, risking a "riggin' " investigation when Weaver (Cliff Arquette) went flying over the stage attached to the mechanical aids of guest Peter Foy? Weaver's show is at its best when Charley gets a chance to comment on the props his guests bring along.

★ ★ ★

A touching contrast on NBC-TV's Perry Como show: guest Rosemary Clooney came on in a full-length mink coat, bearing a French poodle and a flashing ring. A few minutes later, Rosie went into her song "I Got Plenty of Nothin'."

THE CHANNEL SWIM: Debbie Reynolds has signed a three-year exclusive contract with ABC-TV. She'll star in three hour-long specials, one a year, and appear as a guest star on at least one other ABC-TV special.

Ray Bolger will costar with Jimmy Durante, Jane Powell and Eddie Hodges in NBC-TV's special, "Give My Regards to Broadway," on Sunday, Dec. 6. Actor Hal Holbrook, who specializes in impersonating Mark Twain, is videotaping an adaptation of Twain's "Roughing It" for Robert Saudek Associates for possible network use next spring.

It will be Masquerade Party, with Bert Parks as emcee, into the Monday night CBS-TV slot vacated by Name That Tune.

Brando Says Ex-Wife Won't Let Him Visit Son

SANTA MONICA, Calif. (AP)—Marlon Brando says his former wife won't let him visit their 17-month-old son.

The actor filed a contempt affidavit Wednesday in Superior Court against actress Anna Kashfi, who divorced him last April. He asks the court to enforce divorce terms that entitle him to visit Christian Devi Brando.

Razz Night at Friars Is Insult After Insult

By EARL WILSON

NEW YORK — I'll never forget the night that Toots Shor turned master of ceremonies—but I'll try to.

★ ★ ★

Actually, when he m.c.'d a razz night for Joe E. Lewis at the Friars, he was eloquent. "I've got a new quiz show," he announced. "It's called 'It Pays to Be Arrogant.' "

WILSON

After which, the insults flew. "We need you like Sophie Tucker needs another birthday," Joe E. snarled. Toots replied that he was always a friend in need. "A friend in need is a pest," cracked Joe E. Jack Barry, of Barry & Enright, then got such a round of applause, that Barry himself asked: "Who said 'Crime does not pay?' "

When even Mrs. Shor (they celebrate 25 years on Nov. 2) greeted the m.c.'s remark with shouts of "Toot, Toot, Tootsie, goodby," Toots kept on. He introduced "Ignore Johansson" who proved to be Tony Canzoneri. (The latter had spoken for a full minute when Friar Robert Gordon said, "Tony, you forgot to take your mouthpiece out." Toots said, "Every saloon should have a customer like me" and Joe E. agreed, saying Toots was starting a program called "What's My Name?"

★ ★ ★

My Gorgeous Mother-in-Law loved the quiz shows and still does—maybe some were rigged, but as she approaches 75, TV is her best friend, and she's not a bit sorry that some of them fooled her a little. Because she enjoyed them enormously at the time.

In fact, she was remembering how Daisy, our hired girl, upbraided her for watching the giveaways, and wanted her to dial in the wrestling matches.

"The wrestling matches!" exclaimed my G-M-I-L. "They're FIXED!

The B.W. and Roxanne Arlen were launching and discussing my crazy ambition — to have an apartment with a terrace. Being fair-skinned, both thought I was an idiot to dream of sunning myself. "As a girl," said Roxanne, "I have never cared for the sun after I learned that it took a grape and turned it into a prune."

ROXANNE

THE MIDNIGHT EARL . . .

Liz Taylor told the Waldorf's **Clyde Harris** she'll be there "at least three times a week" when **Eddie Fisher** opens at the **Empire Room . . . Eva Gabor** rooted loudly for husband **Dick Brown's** horse to win at Aqueduct—and it did.

Kathy Grant Crosby may retire till the kids are old enough for school . . . **Bobo Rockefeller** finished her book for children . . . **Dmitri Nabokov**, son of the "Lolita" author, is hoping for a Met opera audition here . . .

Arms Boat Incident Splits Cyprus Again

NICOSIA, Cyprus (AP) — A serious rift between Greek and Turkish Cypriot leaders today threatened to wreck the agreement for an independent Cyprus.

Archbishop Makarios, head of the Greek Cypriots suspended Constitutional Committee meeting with the Turkish Cypriot leaders Wednesday and accused them of insincerity.

★ ★ ★

He apparently referred to the capture last Sunday of an ammunition-laden Turk fishing boat by a British minesweeper and the arrest of its three-man crew on charges of arms smuggling.

The Constitutional Committee is responsible for most of the work involved in carrying out the agreement last February in London to give the British island colony independence. The committee has been negotiating on the framework of the Greek-majority, Turk-minority government scheduled to take over rule of the island next year.

U.S., Russian Film Exchange to Start Nov. 10

WASHINGTON (UPI) — The premieres of the first U. S. and Soviet films to be shown under an exchange agreement will be held in Washington and Moscow Nov. 10.

★ ★ ★

The award-winning Hollywood film "Marty" will be shown in the Soviet Union. The Soviet feature "The Cranes Are Flying" will open in Washington at the same time.

★ ★ ★

Actors Gary Cooper and Edward G. Robinson will attend the Moscow opening along with the producer of "Marty," Harold Hecht, and its director, Delbert Mann. A group of Soviet film personalities will attend the Washington premiere.

Sperm whales, which breathe air, can stay under water for an hour or more.

'The Big Party' . . . a Live Show

Greer on TV Tonight

By DOC QUIGG

NEW YORK (UPI) — After all, as Greer Garson remarks, this nation is divided into two groups — "Those who are making television and those who are watching it, and we might as well get along."

Proposal accepted. This is one watcher who is willing to get along, as long as the entertainer is named Greer Garson.

★ ★ ★

A striking figure of a woman, precise of speech, conversant with a myriad of topics, from archeology to Khrushchev to tick-resistant cows, she sat for an interview in her dressing room during rehearsal for her role as hostess on tonight's "The Big Party" on CBS-TV.

How does she like working for 90 minutes straight on live TV?

"Anything can happen," said Miss Garson. "There is a big double staircase, and I may cannon right down to the bottom. I've asked if there are going to be any nets below.

"I'm a Texan by adoption, and this thing has got to be informal. I may take a notion to elbow myself right to the front.

"I've been through some terrifying moments on the stage. Once during my run in "Auntie Mame" on Broadway an actor couldn't come onstage because he had been given the wrong pair of pants and they wouldn't fit. I ad libbed for four minutes while he got another pair in a quick switch with a stagehand."

THINGS CAN HAPPEN

Miss Garson likes the idea of a big informal party on TV because she's had a lot of parties of her own where things happened. Like:

—**The late Ronald Colman trying to act out the part of a dish of food named Chicken Maryland.**

—Artur Rubinstein at one piano and Oscar Levant at another, dueling out a couple of concertos.

—Van Johnson, wearing bright red socks, snatching up a table cloth and performing a flamenco dance.

★ ★ ★

Miss Garson's interest in archeology and cattle comes from 10 years of summering on her husband's New Mexico ranch, a place named "Forked Lightning" at the headwaters of the Pecos Valley where you can go digging into the leavings of ages past.

When the spirit moves her, she mounts her horse, a sweet-tempered steed that she calls Ho Hum Silver, takes shovel and digging spoons and goes puttering among the artifacts.

She said, though, that the only really outstanding find she's made is the beauty of the New Mexican sky and earth. She gets lyrical describing them:

"Right now, the cottonwoods and aspens are bright gold against the pines. There are flaming sunsets, and out on the flat plains comes a mauve light, with clouds like solitary islands."

Although she has played such wild roles as Auntie Mame, Miss Garson is one Academy Award winner who is stuck forever with being identified with her winning role, Mrs. Miniver.

"When I go abroad, I'm still Mrs. Miniver," she said. "The last time I was in France, a headline said: 'Madame Miniver est arrivee.' And in Spain, people greet me on the street: 'Ah, Senora Miniver.' "

She's grown philosophical about her plight and even says: "I think Mrs. Miniver and Auntie Mame would get along very well together.

Summit Parley to Be No Help

Ex-Ambassador Kennan Sees Our Berlin Plan as 'Inflexible'

WASHINGTON (AP) — Former ambassador George F. Kennan today described Allied proposals toward Germany as "stilted, cramped and inflexible." He said there is no sign a summit conference will ease dangerous East-West quarrels.

The former envoy to Moscow in the Truman administration coupled this criticism with a scathing attack on present defense strategy of basing American power on atomic-hydrogen weapons.

★ ★ ★

"This unthinking readiness to wreck destruction on millions of innocent and helpless people for no other purpose than to assure that the adversary suffers no less than we do," Kennan said, "reflects the hideous self-centeredness on the part of ourselves as a generation."

★ ★ ★

Kennan, former State Department policy planning chief, spoke out in an address prepared for a Woman's National Democratic Club luncheon. He quit the department some six years ago to join the Institute for Advanced Study at Princeton, N. J.

Kennan, a frequent critic of administration foreign policy, offered no new proposal for settling the Berlin problem and the dispute with the Soviet Union over Germany's future.

But he flayed proposals put forward by the West to safeguard Berlin as nothing more than "a defensive, delaying action" after the Soviet Union demanded that the Allies leave the divided former German capital.

U.S. Patent Office Cryingly Needs Electronic Brain

WASHINGTON (UPI)—The U.S. Patent Office is a patient, painstaking place but mostly because no one around there has yet invented "instant patents."

Authorities acknowledge they are having a rough time coping with a flood of space age inventions because their examiners still must check each application with old-fashioned methods.

The crying need, they say, is for an electronic brain that could do in minutes the work it now takes a human examiner a day and a half to complete.

One electronics expert predicts it can be done.

Industry leaders and patent officials discussed the matter at the opening of a Commerce Department exhibit, "Science, Industry, Invention and the U.S. Patent System." The exhibit later will be shown around the country.

There were 4,599,000 business firms in the U.S. at the beginning of 1959, according to the Commerce Department, an increase of about 55,000 or one and a quarter per cent over 1958.

U. S. Mint in Denver on Overtime for Coins

DENVER (UPI)—New and increased state sales taxes, vending machines, parking meters and just plain inflation are forcing the U.S. Mint here to work overtime.

So far this year the "factory" has shipped out more than a billion coins — pennies, nickels, dimes, quarters and half-dollars — or nearly double the volume of a year ago.

Only 11 Persons Left in Colony of Shakers

CANTERBURY, N. H. (UPI)—One of America's last Shaker colonies, located here, has only 11 surviving members.

Founded by the religious sect in 1782, this colony had about 300 men and women members at its peak.

The sect was introduced into America prior to the War of the Revolution. Converts were required to pay all debts and turn their remaining property over to the sect. They lived in groups on a communistic basis, stressing celibacy, non-resistance and public confession.

U.S. Stockpile Reduced

WASHINGTON (UPI)—Some of the items in the government's $8.1 billion stockpile of strategic materials recently declared unessential and to be disposed of are: 18 million carats of sapphires and rubies, 12 million ounces of quinine, 51,000 pounds of poppy seeds and nearly 2 million pounds of hog bristles.

Montreal is known as the second largest French-speaking city in the world.
