I Like, Respect and Need Adams, Ike Tells Press

WASHINGTON (AP)—President Eisenhower said today that Sherman Adams was imprudent in his relations with Bernard Goldfine but "I need him" to continue as top presidential aide.

Eisenhower made it plain at a news conference that he has no intention of firing Adams, although he did not say that in so many words.

In anticipation that the President would talk about the hottest Washington subject of the moment, newsmen were packed into the conference room.

Reading from typewritten large cards, Eisenhower said Adams had been imprudent, as Adams himself acknowledged in testimony yesterday before a House investigating committee.

Despite that imprudence, Eisenhower said, he has reached these personal conclusions:

"1. I believe that the presentation made by Gov. Adams to the congressional committee yesterday truthfully represents the pertinent facts.

"2. I personally like Gov. Adams.

"3. I admire his abilities.

"4. I respect him because of his personal and official integrity.

"5. I need him."

Eisenhower then went on to say: "Admitting the lack of that careful prudence in this incident that Gov. Adams yesterday referred to, I believe with my whole heart that he is an invaluable public servant, doing a difficult job efficiently, honestly and tirelessly.

"Almost without exception, everybody seeking public office accepts political contributions. These are gifts to further his political career. Yet we do not make a generality that these gifts are intended to color the later official votes, recommendations and actions of the recipients. In the general case this whole activity is understood, accepted and approved.

"Anyone who knows Sherman Adams has never had any doubt of his personal integrity and honesty; no one has believed that he could be bought. But he has been, as he stated yesterday, imprudent.

"Ladies and gentlemen, so far as I am concerned, this is all that I can, all that I shall, say."

★ ★ ★

The news conference attracted 257 reporters. It dealt, for the most part, with the controversy over Adams.

★ ★ ★

Other highlights were:

HUNGARY — Eisenhower denounced the execution of former Hungarian Premier Imre Nagy and his colleague, Maj. Gen. Pal Maleter.

LEBANON — Asked under what conditions the United States might take military action in the Lebanon crisis, Eisenhower replied he could not answer that precisely. He also said he did not care to make predictions.

Wants Goldfine Testimony Soon

Rep. Harris Says Week May Be Needed Before Calling Industrialist

WASHINGTON (AP) — Rep. Oren Harris (D-Ark) said today he intends to call for testimony from Bernard Goldfine, the Boston industrialist whose gifts put presidential aide Sherman Adams in hot water.

"It is certainly my intention" to summon Goldfine, Harris said, but he fixed no date.

He said a week or more may be needed to develop the case for testimony.

Harris heads the House subcommittee which yesterday heard President Eisenhower's top aide acknowledge he should have "acted a little more prudently" in matters involving his old friend Goldfine.

But, Adams said, he accepted expensive favors from Goldfine only innocently and contacted two federal agencies on Goldfine cases with no intent to win favored treatment for the wealthy Bostonian.

NOT CALLED YET

So far the subcommittee has made no move to summon Goldfine himself. It has tussled with him over his records, part of which finally wound up in subcommittee hands.

Harris said in an interview he would have preferred to have Adams testify at a later date. That's because the congressmen have yet to complete another chapter in the Goldfine inquiry which is said to involve Adams again.

Adams set a precedent for a presidential aide in volunteering to testify. Harris did not rule out the possibility of receiving a further explanation from Adams on questions that may still come up.

★ ★ ★

Harris said the House group also intends to get testimony from John Fox, publisher of the now defunct Boston Post, who was quoted in testimony as alleging that Goldfine got preferred federal treatment through his friendship with Adams.

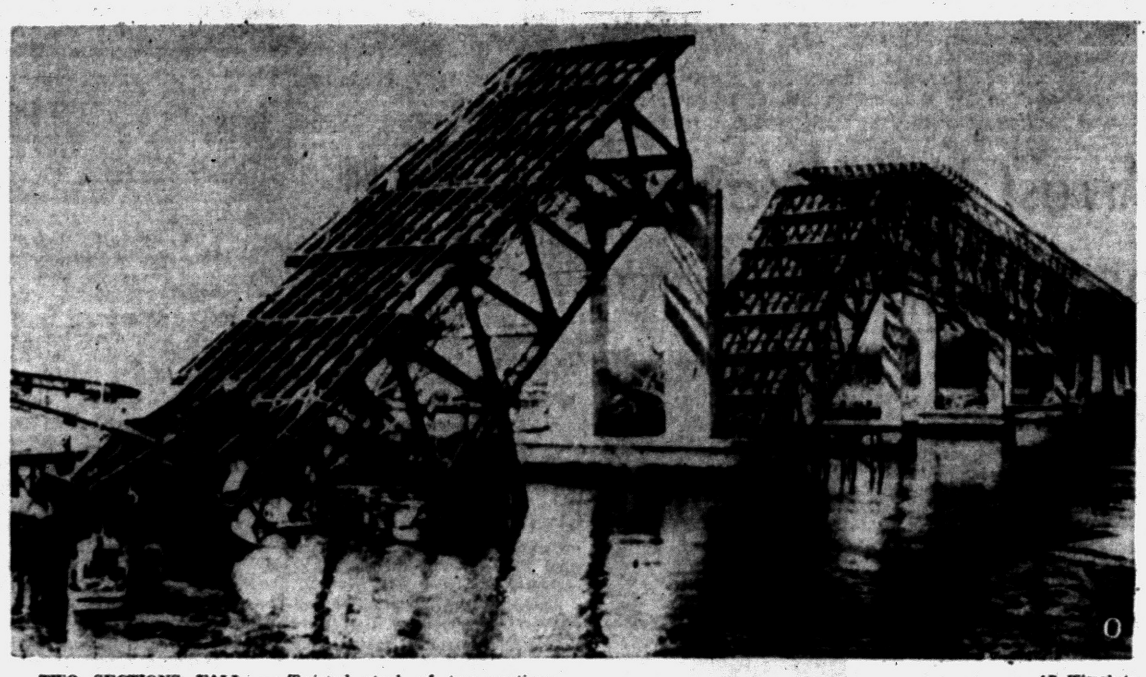
Bridge Collapse Brings Death to 16



AP Wirephoto

TWO SECTIONS FALL — Twisted steel of two sections of the nearly completed new Second Narrows Bridge near Vancouver, B. C., lies in Burrard Inlet after collapsing with a thunderous roar Tuesday and killing at least 16 workmen. Two men are missing and 22 were injured. The $16,000,000 span, replacing the old Second Narrows Bridge, was to have been completed this year.

Sixteen Killed When Bridge Collapses at Vancouver, B. C.

VANCOUVER, B. C. (AP)—Two sections of a nearly finished six-lane bridge collapsed mysteriously yesterday in a tangled mass of steel, plunging at least 16 workmen to their death.

Two others were missing and 22 injured.

Skin divers today searched among the twisted wreckage for at least two other workers still unaccounted for.

Twenty survivors of the tragedy were hospitalized but none was reported critically injured.

It was 3:42 p.m. on a hot, sunny, windless afternoon when the two end sections of the 16-million-dollar Second Narrows Bridge over Burrard Inlet gave way without warning.

Forty construction workers were on the steel lacework of the pier-supported sections.

Suddenly with a muted rumble, the temporary front supports of the foremost section crumbled and dropped the jutting end of the bridge 200 feet into the tide-churned inlet separating Vancouver and North Vancouver.

★ ★ ★

The strain jerked forward the concrete pier holding the section behind, and it nosed downward into the water. The two sections, each about 70 feet long, ended their collapse tilted crazily downward like a sagging W with their front part submerged and rear still on the supports.

An eyewitness, Edwin Leitch, said the "frightening roar of the collapse sounded like a continuous peal of thunder lasting about 15 seconds."

A huge crane which had been hoisting steel girders to the top of the bridge toppled and plummeted into the mass of tangled wreckage in the water below.

Some workmen were caught and killed in the tortured, twisted beams. Others were crushed beneath tons of steel and concrete after they dropped into the 40-foot-deep inlet.

Turn Down Ban on Sunday Beer

Sales Measure Killed by City Commissioners in 4 to 3 Vote

By a 4 to 3 vote, Pontiac City Commissioners last night turned down a proposal to end Sunday sale of beer and wine here.

Their vote ended a two-week drive, supported by the Pontiac Pastors Assn., for a city ban on sale of beer and wine in taverns, package stores and private clubs between the hours of 2 a.m. and midnight Sundays.

★ ★ ★

Mayor William W. Donaldson, who voted against the measure, suggested that interested groups could petition to put the question on the November ballot if they so desired.

Commissioners John A. Dugan, Robert A. Landry and Philip E. Rowston also voted against the ban, while Commissioners Floyd P. Miles, who first proposed it, Milton R. Henry and Wesley J. Wood voted for it.

Miles' proposal came about after a group of Pontiac tavern owners asked the city to let them open at noon on Sundays, two hours earlier than local ordinance allows.

Rowston had originally indicated he would support the measure. Last night he explained that he had changed his mind because the tavern owners had meantime withdrawn their request.

Rain May Precede a Pleasant Thursday

Partly cloudy with a chance of showers is the weather outlook for tonight with the low around 55.

The weatherman predicts Thursday will be partly cloudy but pleasant with the temperature rising to 74-78.

Friday will be cooler followed by a warming trend about Saturday or Sunday. Precipitation will average around one-quarter inch or less with showers again late Thursday or Friday.

The lowest temperature in downtown Pontiac preceding 8 a.m. was 54 degrees. At 2 p.m. the reading was 63.

City Asks Curb on Courthouse Cleaning Dust

City Commissioners last night asked City Manager Walter K. Willman to take steps to curb dust from sandblasting at the Oakland County courthouse.

"The dust that has been raised during the first two days of cleaning the outside of the courthouse has certainly been a nuisance for businessmen and shoppers in the immediate area," said Commissioner Philip E. Rowston.

He suggested that Willman ask the county to provide a canopy or curtain to keep dust from sifting over the courthouse grounds and sidewalks.

The sandblasting is part of the first cleaning performed on the outside of the courthouse since its erection in 1904.

Commissioners heartily agreed that the building was looking better as cleaning progressed.

Vicunas Gain Spotlight

WASHINGTON (UPI) — The vicuna—a goatlike animal of the high South American Andes Mountains—has emerged from relative obscurity, thanks to congressional investigators.

Presidential Assistant Sherman Adams acknowledged before a congressional subcommittee yesterday he did not receive cloth for a vicuna coat from his friend, Boston industrialist Bernard Goldfine.

Reports of the vicuna gift had been circulated for several days but were unverified until the testimony.

The vicuna, related to but smaller than a llama, is found in the high Andes in Ecuador, Peru, Bolivia and Northern Argentina.

The wool is expensive because of its scarcity.

Reports surrounding Adams' vicuna coat placed its value at $700. He told the subcommittee the material cost Goldfine only $69.

Kerbawy Forsakes Lions for $1 Million With Pistons

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Nick Kerbawy, general manager of the Detroit Lions Football Company, resigned today to join the Detroit Pistons basketball organization with probably one of the most lucrative contracts ever given in the sports world.

President Fred Zollner of the Pistons signed Kerbawy to a long-term million dollar contract with the position as general manager of the pro-basketball team and as administrative assistant to the multi-millionaire industrialist.

NICK KERBAWY

Kerbawy's resignation was announced at a press conference this morning in the Lions' offices and an hour later at another conference in a downtown hotel the Piston officials confirmed his affiliation with the basketball organization.

In announcing Kerbawy's appointment, Zollner said, "Nick will run the whole show. He will be general manager in fact."

"He shouldn't need another job the rest of his life," Zollner added.

Kerbawy's annual salary with the Detroit Lions was figured

Rebel Dems Challenge Williams' Regime

Lists for Aug. 5 Election Declared Largest Here in Several Campaigns

By GEORGE TRUMBULL JR.
Pontiac Press Writer

LANSING (UPI) — A group of rebel Democrats today promised Gov. G. Mennen Williams a "stiff" primary battle for the first time in 10 years.

With only three hours left before the deadline for filing nominating petitions fell, William L. Johnson, an Upper Peninsula radio station owner, filed petitions which, if valid, qualified him as a candidate for the Democratic nomination for governor.

★ ★ ★

Filing along with Johnson were Homer Martin, Plymouth, as a candidate for the Democratic nomination for U. S. Senator, and Michael T. Mohardt, Detroit, as a candidate for lieutenant governor.

Johnson filed 17,918 signatures from 28 counties, Martin filed 16,913 and Mohardt filed 16,399. To qualify, a candidate needs 15,300 signatures.

★ ★ ★

The trio is part of a splinter group known as the "Democratic Clubs of Michigan." They said they formed the organization in protest to "domination of the Democratic Party by the organization of Gov. G. Mennen Williams and CIO United Auto Workers President Walter Reuther."

"I hope this filing will forever dispel the doubts of those who have for several months been trying to discredit and disparage this growing Democratic organization," said Norton N. Wisok, president of the rebel group. "This filing foretells a strong and vigorous primary fight."

★ ★ ★

Wisok said the group would decide at their own convention whether to support the Williams organization if it lost the primary but he said it expected to win. The group will meet just before the State Dem. convention in August.

Johnson said campaign finances were his biggest trouble at the present time.

"We have been paying our expenses to date largely out of our own pocket," he said. "We're hoping we will be taken more seriously now and that we can get some financial support from outside groups and individuals.

"Republicans will be foolish if they don't support us in a primary fight against a common enemy," he said.

GM Stock Climbs to New '58 High

NEW YORK (UPI)—Heavy demand for automobile shares steadied the stock market today.

General Motors firmed to a new high for the year. Chrysler gained nearly 2 points. Ford met good demand at rising prices. American Motors was active.

For the first time in the history of Oakland County, voters will be nominating candidates to a new post of clerk-register of deeds.

This is the result of action by the Board of Supervisors last Friday combining the two posts.

Ten incumbents filed to retain their posts. Two former state representatives, Leslie H. Hudson of Pontiac, and Donald A. Brown, pulled out in favor of higher posts; Hudson, on the Democratic ticket, for the 18th Congressional District and Brown, on the GOP slate, for lieutenant governor.

A third former representative — Theodore F. Hughes of Berkley—originally sought the post of county clerk this year, but did not file for the combined post. Mrs. Ruth Julian, also a pre-merger candidate for register of deeds, did not refile.

★ ★ ★

The ranks of the incumbents were also narrowed by the May 31 death of Lynn D. Allen, county clerk for 25 years.

Two women are seeking posts. They are Mrs. Paul (Hope) Gorman, of 144 N. Genesee, Pontiac, for District 2 on the GOP ticket, and Mrs. Dorothy M. Rowley, of 337 E. Jarvis, Hazel Park, for District 6 on the same ticket.

On the other side of the District 2 political race are seven Democrats, including last-day entry, Linwood L. Flack Jr., of 392 Ditmar Ave.

Sen. Lodge Suggests Economy Program

Seeks to Trim State Police Funds

LANSING (AP)—The chairman of waste-hunting Senate investigators says his committee in its first day on the job turned up at least five ways of trimming State Police spending by thousands of dollars a year.

Sen. L. Harvey Lodge, Oakland County Republican came up with a suggested economy program yesterday after State Police Commissioner Joseph A. Childs and Ernest Banning, his business administrator, testified at a four-hour hearing.

Lodge heads up a committee appointed by the Senate to study inefficiency and waste in government. It got $5,000 to accomplish the assignment.

Lodge denied the hearing was aimed at gathering information to back Senate insistence on a $116,500 cut from the $11,816,500 House-approved appropriation for State Police spending in 1958-59. The Legislature returns at noon tomorrow in special session to settle a bitter Senate-House deadlock over budgets for State Police and other safety and defense agencies.

★ ★ ★

After the hearing, Lodge outlined these economy suggestions for State Police:

1. Eliminate duplication of traffic patrols on the city and county levels, setting up definite areas for city police, sheriff's men and State Police to patrol.

2. Transfer functions of the $25,000-a-year State Safety Commission to the State Police.

3. Reduce the $155,000 spent each year for janitorial services at State Police posts.

★ ★ ★

4. Check possibilities for using leased cars on patrol and wiping out the 60 per cent depreciation on State Police patrol cars in the first year of operation.

5. Use more patrol cars past the current 60,000-mile trade-in limit, especially on jobs that don't require high-speed chases.

★ ★ ★

Asserting he wanted "the chips to fall where they may," Lodge asked Childs whether legislators or others made excess demands on State Police for "taxi service."

Childs said no, assuring the committee he had "nothing to hide."

For economy reasons, he said, the State Police detail assigned to the governor had been cut down this week from four men and three cars to three men and two cars.

★ ★ ★

Banning told the five-man investigating committee State Police patrol cars number 484 and cost between $500,000 and $600,000 a year to maintain. Because auto companies are dropping special cost concessions to federal and state governments, he said, the average $1,750 paid for a new patrol car will jump about $460 this year.

Lodge said his committee would continue its work till the end of the year.

GAINESVILLE, Fla. (AP) — Windows, some of them large plate glass, were shattered by a violent shock wave that shook the downtown section yesterday. One woman received minor injuries from flying glass.

Mayor Myrl Hanes blamed a jet plane breaking through the sound barrier but where the craft was based was not established.

Police Chief W. D. Joiner said reports showed that windows were broken in 51 places of business. Four extra patrolmen were assigned to guard against looting. No estimation of property damage was available.

Keep Umbrellas, Raincoats Handy Today in U.S.

By The Associated Press

A fashion note from the weather man: keep your umbrellas and raincoats handy today.

Wet weather — ranging from booming thunderstorms to pre-summer showers — was forecast for most of the nation.

★ ★ ★

An umbrella might have been handy, but hardly practical in such a spot as Bandera County, Tex. yesterday. The 24-hour rainfall there was measured at 20 inches. Utopia, a small town on the Sabinal River, got a big storm that dumped 11 inches on the community and washed out telephone lines.

★ ★ ★

Storm-wary Texans got so edgy near Dallas that they reported clearly seeing a tornado funnel. But the Weather Bureau said it was a mirage caused by a cloud fragment dangling in front of the setting sun.

Forecasters said two major areas expected to be free of wet weather today are sections of the Pacific Coast and the Atlantic Coastal strip.

By End of Year, Say Ike's Advisers

See Economy Climbing

WASHINGTON (AP)—Prospects for a dramatic economic upturn before the end of the year are foreseen by some of President Eisenhower's top advisers.

★ ★ ★

One of them said national production might climb by the end of the year to somewhere near the record rate of 440 billion dollars a year set last summer.

Administration advisers voiced their optimism on the economy in commenting on a prediction by economist Arthur F. Burns of a vigorous and rapid business upturn.

Burns, former chairman of the President's Council of Economic Advisers and now president of the National Bureau of Economic Research in New York, made his prediction in a Newsweek magazine interview.

He declined to predict when the recovery would begin or whether it already has started. However, he said: "There's been a marked seasonal recovery—and in some important trades perhaps more than that—in the past six weeks."

Administration officials commented: "It should be remembered, however, that regaining last year's peak still would leave us far short of full employment prosperity — roughly 20 billion dollars short.

★ ★ ★

"It will take a good while longer to recover full employment."

Arrest Maid Wanted on Kidnaping Charge

TORONTO, Ont. (AP) — Police today arrested a woman they named as Greta Goede, 40-year-old blonde German, and said she is wanted in Montreal on a charge of kidnaping the 2½-year-old son of a wealthy chain store buyer.

Inspector John Nimmo said the woman was charged with attempted extortion in a case in Toronto. He said she may be taken to Montreal later.

★ ★ ★

She had denied she was the Greta Goede, a nursemaid, wanted in Montreal and declared somebody may be using her name.

★ ★ ★

Joel Reitman, son of Mr. and Mrs. Cyril Reitman, was found safe and well in Ottawa yesterday after being in the hands of a kidnaper 48 hours.

The boy disappeared with his nursemaid from his Montreal home Saturday night while his parents were at a dance.

The woman told police she wanted her name cleared in the case. She said she did not know the Reitmans and had been in Brampton with friends since May 25.

A crudely written note left in the Reitman's suburban home said both the boy and the maid would be killed unless the family left $10,000 in a downtown Montreal bus terminal.

The couple left the money and police staked out the terminal with plainclothesmen but no one appeared.

The boy turned up in the home of Edward Royer, a taxi driver in Ottawa, 100 miles west of Montreal. Royer said a blonde woman between 35 and 40 years old hailed his cab Monday.

★ ★ ★

Speaking with a thick foreign accent and identifying herself as Mrs. Greta Braun, she asked him to mind her son while she shopped.

Royer took Joel home and notified police when the woman failed to show up as agreed Monday afternoon.

Ottawa police did not identify the boy as Joel until Mrs. Reitman broadcast a radio appeal to the kidnaper yesterday.

★ ★ ★

The Reitmans brought Joel home from Ottawa last night. He rushed happily into the arms of his grandfather Sam Reitman, president of a chain of 98 women's wear stores. Cyril Reitman is a buyer for his father's stores.

Here's Listing of Cases Involving Adams' Friend

WASHINGTON (UPI)—Cases involving millionaire Bernard Goldfine before federal regulatory agencies:

FEDERAL TRADE COMMISSION

Vicuna Case—FTC investigators found in 1953 that Goldfine's Northfield Mills was manufacturing fabric labeled 90 per cent wool —10 per cent costly vicuna that contained an unmentioned 5-10 per cent nylon. FTC closed case in January, 1954, after receiving "assurances" Northfield could cease the violation.

Guanaco Case—FTC in 1956 filed a formal complaint against three Goldfine firms—Northfield, Lebanon Mills and Strathmore Woolen Co. charging them with mislabeling fabrics containing impure guanaco wool. The labels said the fabric contained costly pure guanaco.

The FTC said the guanaco contained the fur of 14 other animals. The firms agreed to sist order effective February, 1957. The case was closed, subject to periodic checkups by the FTC.

Cashmere—FTC is conducting a current investigation into the purchase of reprocessed cashmere by Northfield Mills. The agency seeks to learn whether Northfield is properly labeling the wool as "reprocessed."

Financial reports—The SEC in May 1954 filed a complaint in Federal District Court in Boston charging that East Boston Co., of which the Goldfines owned 70 per cent common stock, failed to file required annual financial reports with the commission starting with 1948.

East Boston Co. is a holding company owning half of Boston Port Development Co., which owns land and buildings in the Boston area. Goldfine personally was said to own the other half of the subsidiary.

The court directed East Boston to file all delinquent reports by Nov. 1, 1955. On Oct. 31, 1955, East Boston asked for an extension of time. The SEC countered with a motion for a finding of civil contempt.

The court found East Boston in contempt and imposed a $20,000 fine to be paid if the reports were not filed within 30 days.

The reports were filed, but in February, 1956, the SEC asked the court to collect the fine because the reports did not comply with the Securities & Exchange Act of 1934.

After a hearing, Judge Charles E. Wyzanski in April, 1956 approved a settlement by which East Boston would pay a $3,000 civil fine, and under which East Boston would have 90 days to file corrected and complete reports.

East Boston began filing corrected reports on May 4, 1956, and by June 18 it was up to date with the SEC. But on Nov. 17, 1956, the SEC filed a new petition for a finding of civil contempt charging East Boston failed to submit its report for 1956.

The commission received that report on Nov. 15 and withdrew its petition. There has been no further action since that time.

During the East Boston Company's litigation with the SEC it was involved in another suit brought by a stockholder, George Heddendorf. He charged Goldfine and other company officers and directors with financial irregularities, including loans to Goldfine.

Judge Wyzanski now is studying a proposed settlement in that case whereby Goldfine would pay Boston Port Development Co. at least $325,000 and up to $400,000.

66 Candidates File Here for August 5 Primary

(Continued From Page One)

Park Republican Thomas F. McGuire, 54, of 8832 Woodside Park.

McGuire, a manufacturer's agent, filed on the same ticket two years ago and later withdrew in favor of fellow GOP candidate George N. Higgins of Ferndale. Besides incumbent Broomfield, and McGuire, candidates for the Congressional post are Hudson and Zigmund J. Niparko, 38-year-old Hazel Park councilman. Niparko was defeated in the Democratic nomination for the same seat by Paul Sutton in 1956.

Two Republicans and two Democrats have filed for the post of Oakland County's senator in the State Senate (12th District). Incumbent L. Harvey Lodge, Drayton Plains Republican, is one of them.

On the same party ticket is Richard D. Kuhn, 28-year-old owner of a Pontiac car wash and Waterford Township resident. Kuhn too is a repeater. He lost in his primary bid two years ago for the Senate seat.

★ ★ ★

Democrats trying for this position this year are Fred Elias, Hazel Park restaurant chain owner, and Leo P. Meagher, Farmington Township real estate broker.

Charles A. Sparks, veteran county treasurer seeking his 14th term, will be pitted against Louis G. Barry, Sylvan Lake city manager and once Waterford Township clerk.

Democrats for the position of treasurer will be Ford Motor Co. employe, William K. Benson, and John W. Copple, of 2151 Kircher Ct., Pontiac Township.

Returning to the political scramble this year, is unsuccessful 1956 candidate for sheriff, George D. Hicks, on the Democratic ticket, and David E. Utley, Pontiac attorney who lost out to Prosecutor Frederick C. Ziem two years ago.

★ ★ ★

Birmingham Democrat Wallace E. Rice joins Hicks and Utley of the 1956 campaign in another bid for drain commissioner. He is opposed by incumbent Daniel W. Barry and Arthur C. Becker, Birmingham Republican.

Actor Brings Adopted Tot Home to Meet Wife

HOLLYWOOD (AP)—Actor Eddie Albert brought an adopted daughter home from Europe.

The girl is 4-year-old Maria del Carmen, whom he found in a Madrid orphanage.

Albert's wife Margo had seen pictures of the child but hadn't met her until Albert arrived from movie location work in Europe yesterday.

The Alberts have a son, Edward, 7.

Glareless Light Bulb Real Beauty Asset

BLOOMFIELD, N.J. (UPI) — Westinghouse Electric Corp. announced yesterday it has a new light bulb that ladies love to stand under.

The company says the bulb—called the "eye saving white" — smooths out harsh shadows in glareless light. "It is flattering to the complexion and to decoration," said vice president F. M. Sloan.

Labor Control Bill Sent Before House

WASHINGTON (AP)—A broad labor control bill on which the Senate spent five long days headed today toward a lukewarm reception in the House.

The Senate passed the measure 88-1 last night.

House leaders privately gave the bill little chance of passage. These sources said the House may well pass a union pension

★ ★ ★

and welfare disclosure bill which cleared the Senate in April, but that this would be the extent of action in the labor field this year.

However, Rep. Carl D. Perkins (D-Ky), chairman of the House Labor subcommittee, noted he already is going ahead with hearings on a general bill, and declared, "We are going to proceed diligently." He did not forecast his group would be able to report a bill for House action.

The Senate wrangled through three 12-hour days and an 11-hour session, and needed another seven hours to complete action on the final day. But members then praised their handiwork.

U.S. Deadlocked Over Releasing 9

Talking Fails to Bring Red-Held GIs Back to West Germany

BERLIN (AP) — The United States ran into a deadlock with Communist East Germany today in negotiations to obtain the release of nine imprisoned U.S. Army men.

The U.S. mission in Berlin announced that the third round of talks at the East Berlin Foreign Ministry was unsuccessful. No date has been set for a further meeting.

★ ★ ★

Sources said the United States refused to bow to East Germany's demands for full diplomatic negotiations and conclusion of a formal agreement on the helicopter incident.

★ ★ ★

The American prisoners—eight officers and a sergeant from the 3rd Armored Division in West Germany — were seized by the Communists when their big helicopter strayed across the Iron Curtain June 7 in a storm.

★ ★ ★

In his third meeting with Otto Winzer, East Germany's deputy foreign minister, U.S. Army Col. Robert P. McQuail spent nearly an hour in hard bargaining.

McQuail, chief liaison officer to the Soviet army in East Germany, came out grim-faced and brushed aside reporter's questions.

★ ★ ★

Allied quarters expressed fear the talks with the East Germans may be settling down into the marathon-type negotiations conducted with Red China for release of Americans held by Peiping.

★ ★ ★

The talks with the East Germans apparently stalled because the U. S. State Department is reluctant to yield any kind of significant diplomatic status to the Communists. The East German regime has been trying to wring a measure of recognition from the United States through the negotiations, insisting McQuail bring credentials showing he speaks for the State Department, not the U. S. Army.

Kerbawy Quits Lions to Go With Pistons

(Continued From Page One)

around $25,000. He is expected to draw at least $50,000 per year with the Zollner Corporation, but his pact would indicate that a million-dollar contract is a 20-year agreement.

The position as general manager of the Pistons has been vacant since the resignation of Fred DeLano several weeks ago.

DeLano reportedly resigned under fire after the Pistons had a disappointing season at the gate losing an estimated $100,000 in the first year of operation in Detroit.

★ ★ ★

Edwin J. Anderson, president of the Detroit Lions, said Kerbawy's resignation came as a surprise.

Kerbawy first approached Anderson Sunday night and said the contract with Zollner "was too wonderful an opportunity to turn down."

Anderson said the Lions accepted Kerbawy's resignation "with regret" and he also said he asked the 45-year-old general manager even this morning to reconsider.

"Nick has contributed very much to the Lions' success since taking the general manager's job in 1952," said Anderson.

The Lions have won three world titles in six seasons and have played before capacity crowds, with record breaking season tickets sales in recent years.

Kerbawy joined the Lions in 1948 as public relations director and he became assistant to the general manager two years later before taking over the post in 1952.

Considered one of the top front office executives in the National Football League, Kerbawy said he was giving up "the finest job in all football."

A graduate of Hillsdale College, Kerbawy resides in Bloomfield Hills with wife Antha and son Kyle.

Asked about Kerbawy's successor, Anderson refused to comment on the rumor that he would resign as president of a Detroit brewery and take over as full time president of the Lions and also be the general manager.

He said the Lions' board of directors would make some announcement soon, probably at a meeting early next week.

Newsman Appointed to Staff by Bagwell

LANSING (AP)—Paul D. Bagwell, Republican candidate for governor, today announced appointment of Knight D. McKesson of Lansing to his campaign staff.

McKesson, 36, will leave his job as publicity director for the Michigan Tourist Council to handle Bagwell's press relations. He has had 15 years newspaper experience, including stints on the Lansing State Journal, the Bloomington (Ind.) World and South Bend (Ind.) Tribune.

The Day in Birmingham

Little Leaguers Asking for Help With Program

BIRMINGHAM — Several members of the Babe Ruth and Little League baseball groups are asking city commissioners for immediate help with their programs as well as long-range consideration.

They point out that several conditions, such as stones, ruts and in one instance, a stump, on the diamonds are dangerous to participating youngsters. They also reported that an appeal for aid to the recreation board was turned down "because they had no money."

★ ★ ★

Commissioners explained that the recreation board is the group assigned to free-time activity programs but is governed budget-wise by the board of education and the city commission.

"It is possible," Mayor Carl Ingraham said, "that these requests do not fall under the recreation board's jurisdiction. They may be items that are the responsibility of the city or the school board. In the case of diamonds in city parks, we can assure you that corrections can be made. Those on school property must be decided by the board of education."

Commissioners promised to move forestry department personnel into trouble spots and make necessary corrections and advised contact with the school board for further work in their properties.

Birmingham Chapter's Past Matrons Club will meet June 24 at the home of Mrs. William Jones on Franklin road. Members unable to attend the meeting are asked to notify the hostess.

As a part of the summer recreation program, a Teen Center will be operated at Eton Park four nights a week.

Junior high groups will have park facilities from 7 p.m. to 10:30 p.m. Wednesday and Friday evenings. Senior high groups will use the facilities Tuesday and Saturday evenings, the same hours. Membership in the Teen Club is $1.

The program will include dancing and sports activities.

Oakland County's prosecutor, Frederick C. Ziem, will speak at the Friday meeting of the Senior Men's Club at the Birmingham Community House.

The discussion group of the club will study various phases of the city's educational facilities based on ideas presented in a recent talk by Dr. Dwight B. Ireland, school superintendent.

Mrs. Edwin Kirbert has been elected president of the Birmingham Rotary Anns.

Other officers are Mrs. Lloyd Lake and Mrs. Clarence Kraft, first and second vice presidents; Mrs. Glen Waggoner, secretary; Mrs. Wayne Stettbacker, treasurer; Mrs. George W. Averill, house chairman; Mrs. Robert Thom, programs; Mrs. Arthur Blakeslee, crippled children, and Mrs. Elmer Huston, courtesy.

Sets High Bond for 2 Officers

Federal Court Judge Decides on $100,000 Each for Detroit Pair

DETROIT (AP) — Two Detroit policemen accused of taking $100,000 in holdups in a four-year outlaw spree were held today in some of the highest bond in Michigan criminal history—$100,000 each.

★ ★ ★

The federal government's case against Patrolman James R. Burke, 33, described by a police superior as "one of my better officers," and Patrolman David R. Tapp, 26, is being held over until Thursday.

Both Burke and Tapp were brought into U.S. District Court yesterday, the day of their arrests, by the FBI and police. Judge Thomas P. Thornton set the high bond and adjourned the case when Burke asked for aid of an attorney.

★ ★ ★

Fellow police referred to Burke and Tapp as "party boys" who liked a good time. Both men, each the father of two children, were separated from their families.

The FBI and police said Burke and Tapp admitted a series of savings and loan office stickups and robberies of a bank and places of business in off-duty hours, sometimes wearing disguises including Army fatigue clothes and Halloween masks.

★ ★ ★

On duty both had relatively good records. Now broken from the force, Burke had served in uniform for nine years and Tapp since 1954.

16 Killed as Bridge Collapses in Canada

(Continued From Page One)

quickly there was little sensation of fear."

Bill Hallman, who was driving over the old Second Narrows Bridge 200 yards downstream, said, "The air was filled with shouts and cries . . . The men didn't have a chance.

"When they hit the water I could see some grasp for pieces of driftwood. It appeared about half of the men were trapped under water by the bridge sections. Others were swept away by the current."

Cause of the collapse was not known nor was a damage estimate available. Officials of the Dominion Bridge Co., the contractor, launched an immediate investigation. Atty. Gen. Robert Bonner appointed Chief Justice Sherwood Lett of the British Columbia Supreme Court to make an inquiry.

★ ★ ★

The giant two-mile bridge four miles from downtown Vancouver was more than two thirds finished and was to have been opened for travel in the autumn. Construction work began two years ago.

How long completion of the bridge will be delayed by the disaster probably will not be known for several days.

Market in Waterford Looted by Burglars

Jacobson's Market at 2416 Silver Circle, Waterford Township, was broken into last night, according to Waterford Township police.

Twenty cartons of cigarettes along with film, lipstick and other articles were stolen. Total loss has not been estimated yet. Entrance was made by a rock thrown through the front plate glass window, police said.

President Garcia in Washington

Philippines Ask No Charity

WASHINGTON (AP) — Philippine President Carlos P. Garcia asked the U.S. Congress today for understanding, encouragement and assistance—not charity—in building Philippine stability.

In an address prepared for a joint session of the Congress he said the island republic has progressed half way toward its objective and cannot turn back.

Speaking in fluent English, the 61-year-old Asian leader said his 23 million countrymen are America's best friends in Asia.

He renewed pledges of Philippine-American solidarity on the basis of equality and common democratic ideals.

British Penny-Pinchers Give Hotel Keepers Pain

By EARL WILSON

LONDON—This is the time of year that we're always reading of the unpopularity of the American tourists — but there's one slice of Europe that us damn Yankees are popular with — the bellboys, cab drivers and bartenders.

WILSON

Because we go right on tipping as though we could afford it.

Of course, one reason for our generosity is that we never quite figure out what a sixpence or 10 francs amount to in American money, so we hand the cabbie a handful of the stuff, hoping we haven't overdone it.

But if we get a reputation for doing it on too grand a scale, perhaps that's better than the other extreme. A letter to the editor of The Times is headlined, "THE ENGLISH ABROAD: Need They Behave As They Do?"

★ ★ ★

It seems according to one Erna Low, that the British travelers have developed a habit of counting their pennies "until they became the laughing stock of hotelkeepers from other countries."

Indeed, this Britisher complained that other Britishers were asking for hot water in their rooms so they could brew their own tea. "Families of four would share one bath and people would bring their own bottles of drink into a hotel bar!"

Skiers who rode cable cars found ways of managing to use a ticket over and over. The British travelers would get into huddles and participate in a new sport—bargain-hunting or "beating down the locals."

★ ★ ★

"Some British holidayists think nothing of leaving a hotel or restaurant without leaving a farthing for the staff," goes on Erna Low.

"This explains the recent reluctance of hotel keepers to make reservations for British travelers who used to be their favorite guests," concludes the complainant.

I thought you might like to hear about a Britisher knocking the British instead of the Yankees for a change.

City Playgrounds to Open Summer Activity Monday

The Pontiac Parks & Recreation Department Monday begins an eight-weeks summer playground program for children six years of age and older.

Twenty of the city's school playgrounds will be the scene of regularly-scheduled activities Monday through Friday Aug. 15, said Leonard Buzz, recreation supervisor.

★ ★ ★

Some adult programs are also included in this year's plans, Buzz said.

Activities for elementay and junior high school youngsters are scheduled during the daytime, Buzz, said, while programs for older teenagers and adults will be held at night.

A feature of this summer's program will be an open house for adults towards the end of the eight-week period, Buzz said.

★ ★ ★

The city is planning to sponsor a city-wide pet show this summer, he added.

Among the many playground activities, arts and crafts will receive additional emphasis this year, Buzz said. To meet the increasing popularity of the hobby, a second arts and crafts supervisor has been hired he said.

Other supervised activities also available for children: volleyball, picnics, music, field trips, dramatics, dancing, softball, hikes, horseshoes, kickball and many other popular games.

★ ★ ★

Adults are invited to participate in such events as tennis, physical fitness, basketball, volleyball and horseshoes.

Playground locations and their operation hours beginning Monday:

From 9 a.m. to 5 p.m.—Bagley, Baldwin, Bethune, Lincoln, McConnell, McCarroll, Webster, Wilson, Longfellow.

From 9 a.m. until nightfall—Crofoot, Emerson, Jefferson, Lakeside, Lebaron.

From 1 p.m. to 5 p.m.—Central, Malkim Mark Twain.

In addition, Washington and Wever playgrounds will operate from 1 p.m. until nightfall and Herrington Hills from 9 a.m. to noon.

★ ★ ★

The playground program at Owen school has dropped this year, Buzz said, because of school construction there.

Further information, Buzz said, is available from the department at City Hall or at the playgrounds beginning Monday.

Union Head Foregoes Increase in Wages

President DWIGHT D. EISENHOWER has received a letter which he is offering to the public for perusal.

The communication is from the President of Local 1 of The Amalgamated Lithographers of America (AFL-CIO) and it reads as follows:

"Today our local, the largest in the lithographic industry, announced an agreement with management to forego a wage raise for the forthcoming year. Our purpose is simple — to do our part in stabilizing the national economy and to help management at a time when a wage raise could only be passed on in higher prices to the consumer.

"We firmly believe in a close relationship and partnership between management and labor. On it rests the success of American industry and our nation's economy; and therefore the success of our way of life against the threat of Communism.

"In this time of economic readjustment, politics and special pleading must be forgotten. The welfare of the country is paramount.

"We have tried to demonstrate our good faith in this manner. Perhaps the American people may realize that the labor movement, despite the attacks against it and evidences of occasional human failing, is before all else concerned with the prosperity of America."

Edward Swayduck

Sec. Dulles to Confer With Latin Americans

The economic and political problems of Latin America are coming in for a lot more attention since Vice-President NIXON's unhappy experiences on his recent visit there.

President KUBITSCHEK of Brazil has taken the initiative in writing to President EISENHOWER proposing "a thorough review and comprehensive reappraisal" of inter-American relations. Out of the exchange of letters has come a decision to send Sec. DULLES to Rio de Janeiro this summer to look into the cause of South American hostility.

★ ★ ★

Latin Americans feel that too much of our aid is going to Europe. They overlook the fact of vast war devastation there and the dire necessity that prompted our action against the Communist menace.

Judging from what one hears in TV interviews with prominent South Americans, they resent our so-called support of dictators. They say we should "deal with the people." But who then represents the people?

★ ★ ★

A prominent Latin American editor thinks that what happens in other parts of the world has nothing to do with us in the Americas; that we must stick together as "one big family." Dr. GALO PLAZA, a former President of Ecuador, who sees the problem as worldwide, say underdeveloped countries must be helped to "technify" to balance their agricultural economies. While recognizing the Communist menace he feels that we place an exaggerated emphasis on it.

★ ★ ★

Money has been poured into South America by the United States and other Western governments, by the United Nations and various international agencies. The Export-Import Bank has loaned billions.

Underlying causes for their economic troubles are overproduction of coffee and the low prices for copper, lead and zinc. Industrial production is not keeping pace with vast population increases. Too much of their wealth is devoted to the military establishment.

Perhaps our aid has been inadequate but there is a limit to what we can offer. Have South American countries done all they could to help themselves? Is their attitude one of "looking for insults?"

No doubt Sec. DULLES will go into all these matters on his visit to Rio.

IT IS reported that KHRUSHCHEV has a rather serious liver ailment. Many hope the weakness will spread from his liver to his attached gall.

IF AN old person who acts his age could be found, he should be awarded an Oscar.

We Never Thought We'd See the Day

David Lawrence Says:

Supreme Court Blind to 'Cold War'

WASHINGTON — Five members of the Supreme Court of the United States have shut their eyes to the "cold war."

LAWRENCE

In effect, they say there are no American troops stationed in Western Europe today, there are no American troops now guarding the armistice line every day in Korea, and there are no conditions of emergency existent in the world at present.

Hence Communists and Communist sympathizers resident in this country are entitled to passports with the seal of the Government of the United States on them and are free to flaunt such a passport anywhere in the world!

Four members of the Supreme Court, on the other hand, say that "Were this a time of peace, there might very well be no problem for us to decide, since petitioners then would not need a passport to leave the country."

The five justices who think it is very important for an individual to travel where he pleases and do what he wishes abroad to denounce his own Government and its policies are Justices Douglas, Black, Brennan, Frankfurter and Chief Justice Warren.

The inference is plain that the individual's pleasure and desires supersede the rights of the government which represents the millions of other individuals who want their security protected.

"Travel abroad, like travel within the country," says the majority opinion, "may be necessary for a livelihood. It may be as close to the heart of the individual as the choice of what he eats, or wears, or reads. Freedom of movement is basic in our scheme of values."

But the dissenting justices — Clark, Whittaker, Burton and Harlan — think that freedom to travel must be limited by the Government that issues the passport and that in wartime or national emergency there is a risk that an individual traveling abroad may give aid and comfort to the enemy.

The five justices in the majority opinion declare that the Supreme Court in the past had decided that the movement of citizens could, of course, be restricted in wartime but that this was true only on a showing of "the gravest imminent danger to the public safety."

Who is the better judge of when the public safety is endangered? Five justices cloistered in the chambers of a court who seem to have become blind to the Communist menace and the infiltration or subversion practiced by agents of Communist imperialism in every country in the world, or the Department of State which has available up-to-the-minute information from everywhere as to the dangers to the safety of the American people?

The majority of the justices flatly say that no condition of emergency exists at present, but the dissenting justices point out that the proclamation issued by President Truman in 1950 declaring an emergency is still in effect.

The majority of the justices concede that Congress could pass a law specifically withholding passports under conditions arising out of war but not clearly defined as yet.

★ ★ ★

Chairman Walter of the House committee on un-American activities is already planning to introduce such a measure.

There are, however, hints in the majority opinion that almost any measure to control the issuance of passports in "peacetime" may be struck down by the court.

Thus have the majority of the Supreme Court again thwarted the international policies of the United States Government in fighting communism.

★ ★ ★

They have said, in effect, that Americans who go to Soviet Russia and make speeches there denouncing the United States cannot have their passports withdrawn.

For all this apparently is part of "freedom of belief" and "freedom of association."

This is in line with previous decisions of the present Supreme Court, which has already upheld the right to preach treason as more important than the rights of millions of other Americans to be protected against the effects of treasonable activity inside and outside the United States.

Dr. William Brady Says:

It's a Matter of Principle to Expose Trick Methods

A letter, published in a fair sized U. S. newspaper, read as follows: "... this man Brady ... the unscientific opinions of a man who somehow became very antagonistic toward his own profession and uses his column as a means of retribution for some fancied slight or disciplinary action."

DR. BRADY

I confess I have some antagonistic toward the evils that have come upon my profession in recent years—notably trick specialism and the "clinic" racket. But this newspaper bleat is the only intimation I have had of any slight or disciplinary action.

I'm antagonistic toward radical tonsillectomy, on surgical principles. I say it is not an operation; it is an atrocity. The complications, accidents and sequels of tonsillectomy are fatal in far too many cases.

I contend that tonsillotomy accomplishes everything good that the major tonsillectomy operation can accomplish, without grave risk of life—with no greater risk than is involved in the extraction of a tooth. So, if surgery is necessary —and often it is—I beg you to limit it to instantaneous tonsillotomy — slicing off the obstructing portion of tonsil with the tonsillotome.

NOTHING TO IT

This minor operation may be done at home or in the doctor's office, and it requires no more anesthetic than the dentist uses for extraction of a tooth.

★ ★ ★

Doctors or trick specialists, who still insist on making a major operation out of every case of enlarged tonsils, sometimes resort to trickery and deceit to sell tonsillectomy. For example, they tell the confused or unenlightened parent or guardian that tonsillotomy is "no good," for it doesn't "get all the tonsil." They are confident that the parent or guardian thinks tonsil tissue in itself is "bad." Such doctors or "specialists" are either ignorant of pathology or they are dangerous men.

As for "getting every bit of tonsil," it has been shown by various good authorities that more or less tonsil tissue remains in the throat after most tonsillectomies. If any physician of standing questions this statement I'll cite the authorities. I have pipe dreams, but this is not one of them.

I broadcast these facts because I love my profession, and I hate to see it debauched by the merchants of medicine.

★ ★ ★

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

'It's Unfair to Give Special Recognition at Graduation'

Having taught in Michigan public schools for 20 years, I was interested in the program and the beautiful new building at Milford High School graduation exercises. I was quite surprised and disappointed at discrimination shown.

★ ★ ★

An Honors assembly had been held the week before to honor students who had maintained a high scholastic record and those who had done exceptionally well in outside activities. This is only fair and they should receive recognition.

★ ★ ★

But it seemed quite unfair that on the night that should have belonged to the whole graduating class, some were praised more than others. No mention should have been made of special awards earned by a few students. All had remained in school for 13 years and no doubt many worked diligently during that time. So many drop out that those who remain should be remembered, and I wondered how parents felt when the principal read names for special mention. I was disappointed, but congratulations to them all, honor students, too. They were a very pretty picture in their caps and gowns and I'm sure all their parents were proud of them as they walked up to get their diplomas.

'Will Keeling Be Among Signers?"

Ralph T. Keeling was one of the leaders against fluoridation in Pontiac and he doesn't even live here. He lives in Waterford.

★ ★ ★

So he helped block this constructive thing for Pontiac and in the meantime 2,400 children have "signed up" in his own home district on a trial program.

★ ★ ★

I think Pontiac residents should decide what Pontiac residents have.

I hope Mr. Keeling signs up for the course along with the children. And he can always remember he was one of those that blocked progress here in Pontiac.

Pontiac Resident

Suggests Plan for Dedication

It seems politics are going haywire as to who should be in the dedication of the Mackinac Bridge. It's a pity such things have to happen.

★ ★ ★

My idea is to have clergy from all faiths present on both ends to say short prayers, a band to play the national anthem, big American flags, someone to sing the Lord's Prayer, wives or mothers of men who lost their lives during the building of it to cut the ribbons.

★ ★ ★

This isn't a political man's bridge, but another of God's masterpieces, created by man whom He created and watched over during the long hours it took to complete. This shouldn't be a gala affair, but a sacred one. It belongs to all the people, not a chosen few. God can destroy as quickly as he can create, let us not forget that, because He is and always be the Master of the Universe.

'Ike Gets More Like Democrat'

Explains Dislike for JP Set-Up

I travel Orchard Lake Road many times a week. I'm aware of its poor condition, of the speed limit and I see motorists stopped every day and night by the Sylvan Lake police. But I never thought it would happen to me.

★ ★ ★

Within four blocks of my home, a police car roared out of the dark and I thought something terrible must have happened, so I pulled over and stopped. The officer, No. 22, asked for my license and registration, and he saw my Oakland County sheriff's deputy reserve card. He said, "The last citizen that showed me his deputy's card I took it way from him."

★ ★ ★

He told me I was speeding over 60 mph in a 35 zone and proceeded to write out a ticket. I wouldn't jeopardize my life by driving that speed on that road.

I was advised by high county officials to plead not guilty and did so in Justice Court. What a mockery the trial turned out to be. I represented myself and when I was allowed to question the officer, the judge refused to let him answer four of the five questions I asked. I was found guilty as my advisers had predicted. Under this type of fee system the court doesn't receive any money unless the defendant is found guilty.

★ ★ ★

I took an appeal to circuit court and the judge set my bond at $100.

★ ★ ★

I urge all Michigan citizens to work for a law that will abolish Justice of the Peace courts and set up a magistrate system, whereby justice is meted out on the merits of the case. I also urge all citizens who have fallen victim to this vicious racket in Sylvan Lake to contact Mr. Louis Barry, city manager. I sincerely believe he is as anxious as anyone to stamp out this type of action.

Case Records of a Psychologist:

Boy Perplexed by Girl's Excuses

Ned is ardently in love with a blonde. But she stalls him off with a vague "just because". So Ned is perplexed and frustrated. Notice the strategy recommended below by which he finally probed her inner thoughts and exploded her secret excuses. Scrapbook this case with tomorrow's follow-up.

By DR. GEORGE W. CRANE

CASE Y-339: Ned P., aged 22, is in love with an attractive blonde.

★ ★ ★

"But she stalls me off regarding marriage," Ned began.

DR. CRANE

"She says we are too young, and when I demolish that argument, then she comes up with another one.

"As fast as I refute her arguments, she sprouts new ones. Finally, she falls back on woman's 'because'.

★ ★ ★

"And when I ask her because why, she still says, 'Oh, just because.'

★ ★ ★

"Dr. Crane, what do you advise in a case like that? Why does she make such flimsy excuses? I know they aren't actual reasons."

SALES ADVICE FOR LOVERS

In my classes at Northwestern University of "Psychology of Salesmanship," I always warned my students to distinguish between excuses vs. reasons.

When a prospect comes up with an inane argument which he tries to pass off as a bona fide "reason," yet the salesman definitely sees it is not a logical objection, then there is some hidden idea that hasn't yet been stated in words.

In Ned's case, for example, maybe the girl hesitates to tell Ned that he has halitosis. Or that she thinks she is still fond of a former suitor.

★ ★ ★

There are many possible reasons why a girl defers marriage, though she might hesitate to put them into words lest she offend her present suitor and be left without any escort.

Many girls would rather have a second-rate boy friend than none at all, for it often requires a masculine companion to permit a girl to have access to various social events.

TEST FOR SWEETHEARTS

As a Chicago representative of the Psychological Corporation of New York, it was my duty to supervise monthly surveys of citizens in various economic brackets.

There were many of us representatives in key cities all over America. In 48 hours, therefore, we'd complete an economic or political survey on a nationwide basis and have the data in the New York office.

Such surveying requires specially trained interviewers and a scientific technique.

So I would also employ my staff of workers to help gather data on love and marriage problems. Some of the Rating Scales offered via this column were prepared with the aid of my staff.

★ ★ ★

Among such Rating Scales in the 200-point "Tests for Sweethearts." I urged Ned to take these and discuss them with his sweetheart.

The tests include one for the man and another for the woman. They cover the 50 most frequent virtues or "merits" which engaged men find in their fiancées, as well as the 50 most common faults of such girls.

The test for the male suitor also includes the 50 most common merits that engaged girls find in their fiances, offset by the 50 most frequent faults of young men.

The tests are very illuminating and are widely used by high school

and college youth to jolt infatuated lovers out of their hypnotic trance.

★ ★ ★

When you are ardently in love, you have difficulty viewing your sweetheart with impartiality. These Rating Scales help give you an objective approach.

They figuratively put eyes into blind Cupid. Many an unwise infatuation has been stopped because one of the parties thereto used these tests and woke up before it was too late.

Tomorrow I'll explain how Ned used these tests to analyze his own romance.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

Gold Boudoir Set Stolen by Thief, Part of Brick

SAN FRANCISCO (AP) — A magnificently wrought $4,000 gold boudoir set, stolen from a San Francisco residence, is part of a gold brick in the San Francisco mint.

★ ★ ★

Asst. Dist. Atty. Jack Berman said the collector's piece was stolen by Charles S. Visokay and later sold to the U. S. Mint for $1,600 for its gold content. Visokay, a Yale graduate, was from Bridgeport, Conn.

★ ★ ★

"When a person who has a license comes in to sell gold it's hard to tell that it might be stolen," commented Mint Supt. Arthur Carmichael.

Ben Berkowitz, a San Francisco jeweler, has been indicted on helping dispose of jewelry Visokay confessed he stole.

Adams Helped Goldfine's Son Through College

NEW YORK (AP) — Solomon Goldfine, son of Sherman Adams' friend Bernard Goldfine, says Adams helped him buckle down to study at Dartmouth College.

★ ★ ★

Goldfine's story was told in a copyrighted, Washington dispatch today in the New York Herald Tribune.

★ ★ ★

Adams, President Eisenhower's assistant, said in testifying Tuesday of his social contacts with the elder Goldfine, Boston industrialist: "I helped his younger son in a problem at one time which he had."

★ ★ ★

The younger Goldfine, now a textile executive, said in a first-person story told to Herald Tribune correspondent Rowland Evans Jr:

★ ★ ★

"It's just as simple as this. If it hadn't been for Gov. Adams, I wouldn't be where I am today.

"You say how come? Well, take Dartmouth College. Like a lot of kids, I was just having too much fun to buckle down and get to work. Dartmouth and I had even decided, kind of mutually, that I wouldn't go back for my senior year.

★ ★ ★

"Then Gov. Adams, one of the closest family friends we had, gave me a lecture, with my father standing right there.

★ ★ ★

"With the governor, you know, there's no lip. So when he was finished I told him I was going to buckle down. I moved out of my fraternity to different quarters, and I did the work necessary to assure my graduation in 1950."

★ ★ ★

The son described Adams as "the easiest touch in the world, one of the kindest men I've ever known or ever will know. I hate what they're doing to the governor now. And I hate what they're doing to my father."

Defense Rests in Hoffa Trial

Claims Teamster Boss in Seattle July 9, 1953; U.S. Charges Fought

NEW YORK (UPI)—Defense for Teamster President James R. Hoffa rested today in his federal court wire tap conspiracy trial.

★ ★ ★

His two co-defendants, Owen Brennan, president of Teamster Local 337 in Detroit, and wire tap expert Bernard Spindel have nont completed their defense. They are charged with illegally tapping Detroit Teamster phones.

★ ★ ★

Steven Riddle, 38-year-old uncle of Hoffa, who is 45, was the last witness called by defense counsel Henry G. Singer.

The government in the five week re-trial of the three has tried to establish that Hoffa and Brennan were in Detroit Teamster Union headquarters on July 9 or 10 of 1953 getting acquainted with the operation of Spindel's wire tap installations.

★ ★ ★

The defense produced a parade of witnesses who testified that Hoffa was attending a conference of western Teamsters in Seattle, Wash., from July 5 until the evening of July 10 in 1953.

★ ★ ★

Riddle, whose sister is Hoffa's mother, testified that he picked up the Teamster boss and Mrs. Hoffa at the Willow Run Airport on July 11, 1953.

The uncle did not testify at the first trial which ended in a hung jury last December.

★ ★ ★

A telegram from Hoffa in Seattle to Riddle in his home (at 15-132 Santa Anita) Livonina, Mich., was introduced into evidence. It congratulated the Riddles on the birth of a daughter on July 5.

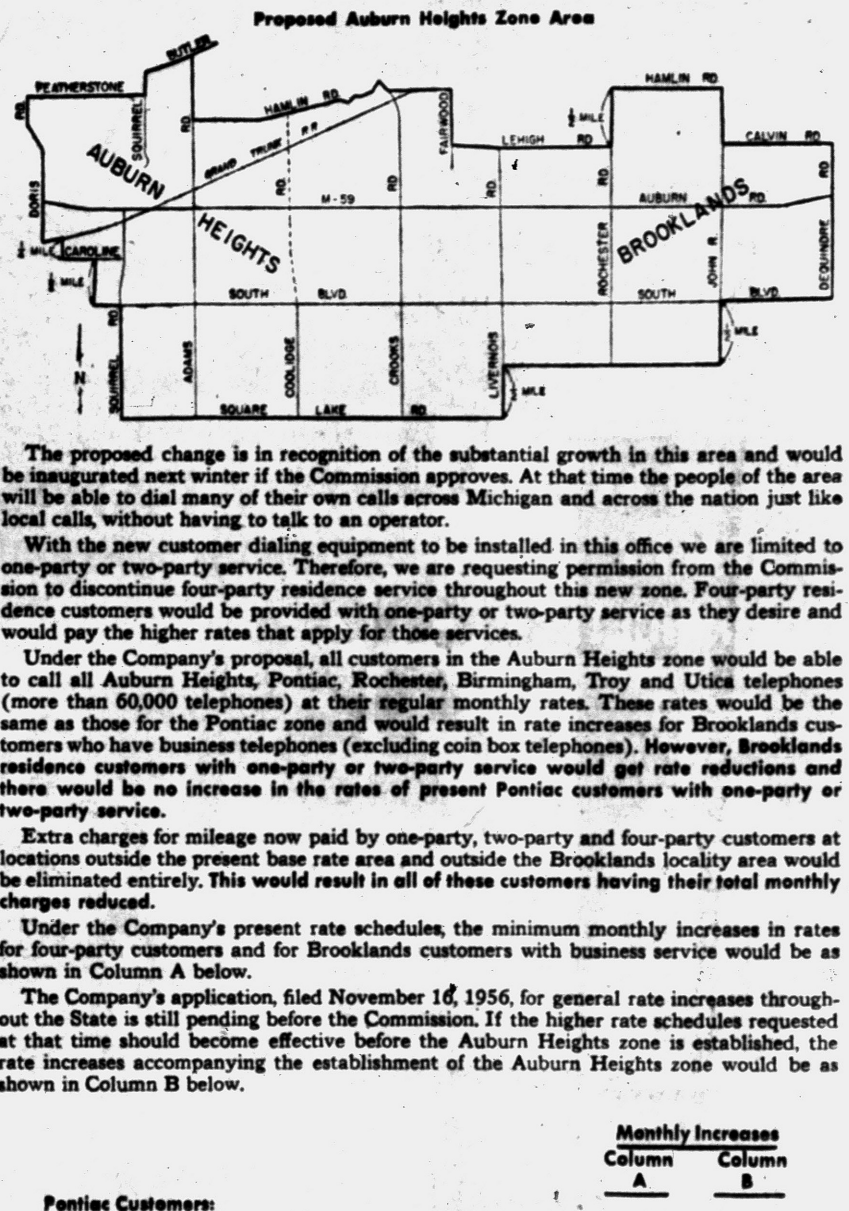
NEW TELEPHONE AREA PROPOSED FOR AUBURN HEIGHTS AND BROOKLANDS PEOPLE

The Michigan Bell Telephone Company is requesting permission from the Michigan Public Service Commission to establish an "Auburn Heights" zone (new central office equipment in a new building to serve an area with new boundaries) for its Pontiac District Exchange. The new zone would consist of that portion of the present Pontiac zone in and around Auburn Heights, and the "Brooklands" area of the present Rochester zone. The territory of the proposed new zone is shown by the map below.

Proposed Auburn Heights Zone Area



The proposed change is in recognition of the substantial growth in this area and would be inaugurated next winter if the Commission approves. At that time the people of the area will be able to dial many of their own calls across Michigan and across the nation just like local calls, without having to talk to an operator.

With the new customer dialing equipment to be installed in this office we are limited to one-party or two-party service. Therefore, we are requesting permission from the Commission to discontinue four-party residence service throughout this new zone. Four-party residence customers would be provided with one-party or two-party service as they desire and would pay the higher rates that apply for those services.

Under the Company's proposal, all customers in the Auburn Heights zone would be able to call all Auburn Heights, Pontiac, Rochester, Birmingham, Troy and Utica telephones (more than 60,000 telephones) at their regular monthly rates. These rates would be the same as those for the Pontiac zone and would result in rate increases for Brooklands customers who have business telephones (excluding coin box telephones). However, Brooklands residence customers with one-party or two-party service would get rate reductions and there would be no increase in the rates of present Pontiac customers with one-party or two-party service.

Extra charges for mileage now paid by one-party, two-party and four-party customers at locations outside the present base rate area and outside the Brooklands locality area would be eliminated entirely. This would result in all of these customers having their total monthly charges reduced.

Under the Company's present rate schedules, the minimum monthly increases in rates for four-party customers and for Brooklands customers with business service would be as shown in Column A below.

The Company's application, filed November 16, 1956, for general rate increases throughout the State is still pending before the Commission. If the higher rate schedules requested at that time should become effective before the Auburn Heights zone is established, the rate increases accompanying the establishment of the Auburn Heights zone would be as shown in Column B below.

	Monthly Increases Column A	Column B
Pontiac Customers:		
Four-party residence changing to two-party service	$ .75	$ .65
Brooklands Customers:		
Four-party residence changing to two-party service	.75	.50
One-party business retaining one-party flat rate service	.75	.75
One-party business changing to one-party message rate service ... DECREASES ➡	(2.75)*	(3.50)*
Two-party business changing to one-party flat rate service	2.50	3.00
Two-party business changing to one-party message rate service ... DECREASES ➡	(1.00)*	(1.25)*

*One-party message rate service allows 75 message units per month. Additional message units over this allowance are 4¢ each under present rate schedules and 5¢ each under schedules proposed November 16, 1956.

Calls from the new Auburn Heights zone to other zones of the Pontiac District Exchange and to other nearby communities might cost either more or less; or the charge might remain unchanged. This would depend upon the location of the place being called. Present initial period charges for calls from flat rate telephones to these communities compared with the proposed charges are shown below:

To the Adjoining Zones and Exchanges:	From Auburn Heights Present	Proposed	From Brooklands Present	Proposed
Birmingham (Midwest)	No Charge	No Charge	15¢	No Charge
Pontiac (FEderal)	No Charge	No Charge	No Charge	No Charge
Rochester (OLive)	No Charge	No Charge	No Charge	No Charge
Troy (MUlberry)	10¢	No Charge	No Charge	No Charge
Utica (REpublic)	15¢	No Charge	No Charge	No Charge
To Other Zones and Exchanges:				
Washington (STillwell)	15¢	15¢	No Charge	15¢
Royal Oak (LIncoln, LIberty, JUniper)	15¢	15¢	15¢	15¢
MAyfair	No Charge	10¢	15¢	10¢
Clarkston (MAple)	No Charge	10¢	15¢	10¢
Commerce (EMpire)	No Charge	10¢	10¢	10¢
Drayton Plains (ORlando)	No Charge	10¢	10¢	10¢

Oxford (OAkland)	No Charge	10¢	10¢	10¢
Walled Lake (MArket)	No Charge	10¢	15¢	10¢

Also, charges for long distance calls from Auburn Heights to more distant communities might be slightly higher, slightly lower or remain unchanged, depending upon the locations of the points called.

If you have any questions about the proposal, please call the Company's business office at Pontiac. Our representative will be glad to discuss it with you.

NOTE: All rates and charges shown above are subject to the 10% Federal tax.

Reuther Predicts No Auto Strikes

Says Big 3 Will Agree on New Pacts Before Arrival of Autumn

NEW YORK (AP) — Walter Reuther predicts the three big automobile firms will agree on new labor contracts before autumn.

The United Auto Workers president also said yesterday that the new pacts will come without strikes.

★ ★ ★

He spoke at an AFL-CIO conference on the union shop and then at a new conference.

Reuther accused the major car manufacturers of seeking to exploit the recession by refusing to negotiate new contracts with his union.

"Instead of bargaining in good faith," Reuther said, "they sat there and went through the motions."

He added:

"They weren't willing to change a comma or a single word in the (old) contract. They just said, 'Here is the old agreement, take it or leave it.'

"We said we wouldn't take it and we wouldn't leave it, that we were going to get a new one."

★ ★ ★

The old contracts expired three weeks ago in a deadlock.

Emil Mazey, secretary-treasurer of the auto union, reported yesterday that it had to borrow from its 34-million-dollar strike fund to pay daily bills.

Last night, Reuther received a bronze plaque from the National Committee for Labor Israel for "fostering sympathetic understanding between the people of the United States and the people of Israel."

Reuther also was honored for encouraging Histadrut, the Israeli labor federation.

SAN FRANCISCO (AP)—Dana L. Fuller, director of the W. P. Fuller Co. paint firm and for many years a polo player of national standing, died yesterday.

★ ★ ★

DAMASCUS, Syria (AP)—Alexandros III, 90-year-old Greek Orthodox patriarch of Antioch and the Entire East, died yesterday. The church's oldest leader had been operated on last Thursday for an abcess in the region of the appendix.

Bird Cuts Loose but Won't Squeal on Zoo Thief

DENVER (AP)—The cops are disgusted with Joe the mynah bird who talks but won't squeal.

Joe was stolen May 25 from his cage in the city park zoo. Yesterday he was found in the home of a Denver man, who explained he had bought Joe for $35. He had a sales receipt.

★ ★ ★

Joe was given the third degree by detective Merle Huttenhow.

"What's your name?" Huttenhow asked. "What's yours?" Joe replied.

"What've you got to say" asked Huttenhow. "Nothing," answered Joe.

★ ★ ★

Now Joe is back in the zoo and talking a blue streak as usual—and as usual it's all irrevelant and immaterial.

Load Less Boxcars in Great Lakes Area

CLEVELAND (AP) — The Great Lakes regional advisory board today predicted freight car loadings in the Great Lakes area during the third quarter will be down 27.8 per cent from the comparable period of 1957.

Coal is expected to drop from 23,342 to 11,621 cars, a 50.2 per cent drop, while autos and trucks are expected to drop 47.9 per cent, from 7,222 cars to 3,764.

"Get rid of Spark Plug 'Miss'- greatest cause of power loss. Put your car in this spot"

TCP adds Anti-Miss to anti-knock

IF YOU'RE LOOKING for the power your engine once had on hills and on getaways, now's the time to make your move over to the white Super Shell pump.

Super Shell has an aviation "power pack" to provide the higher octane needed to prevent knock. But in today's engines anti-knock alone is not enough.

That's why there's TCP* in Super Shell to restore full power by ending today's major cause of power loss, spark plug "miss." TCP additive does this by neutralizing harmful combustion deposits—and so restores 20 to 30 lost horsepower!

What's more, Super Shell's aviation ingredients provide extra combustion energy that converts automatically to extra miles in every tankful.

Senate, House Conferees Wrap Up Foreign Aid Bill

WASHINGTON (AP) — Senate and House conferees meet today to put the finishing touches on a $3,675,400,000 foreign aid program tailored to meet virtually all President Eisenhower's specifications.

They reached a tentative agreement yesterday authorizing, among other things, $1,605,000,000 in military assistance and 810 millions in economic defense supports to allies with which the United States has defense pacts.

★ ★ ★

The totals in the bill—$3,031,400,000 in new authorizations — are 266½ millions less than Eisenhower asked. That amount will be added to 644 millions in authorizations voted last year for the fiscal year starting July 1.

Even the most enthusiastic supporters of the foreign aid program, however, agree that this $3,675,000,000 figure will be cut sharply when the two houses act on a money bill to provide the funds for which the foreign aid bill simply sets ceilings.

★ ★ ★

The Senate conferees—at House insistence—dropped a Senate policy statement declaring it is in the United States interest to join other nations in providing support to India "of the type, magnitude and duration" adequate to help her complete her second five-year plan.

The House conferees, on the other hand, dropped a provision which would have put new restrictions on aid to Yugoslavia. That country's breach with Moscow is steadily widening.

Under existing law, left intact, Eisenhower may continue to aid President Tito's government as long as he is continuously assured it is maintaining independence and is not involved in any plot of world conquest, and that such aid strengthens U.S. national security.

No military assistance is proposed in the bill for Yugoslavia and economic assistance is sharply reduced.

★ ★ ★

The House conferees agreed to Senate language under which military assistance to Latin America—scene of riots during Vice President Nixon's visit—would be limited to that needed for Western Hemisphere defense. It would specify that "internal security shall not normally be the basis" for such help. This is designed to prevent sending arms to dictators for use against their opposition at home.

19 Businessmen buy Village at Eastport, Maine

QUINCY, Mass. (AP)—A group of 19 greater Boston businessmen purchased Quoddy Village at Eastport, Maine, for $250,000.

The sale was announced last night by Sidney W. Grossman, president of L. Grossman Sons, which has owned the community since 1950.

The village, which has 200 buildings on 142 acres, was built by the federal government 20 years ago when work began on the original Passamaquoddy tidal power project.

The new owners, incorporated as Quoddy Village Corp., say they will develop the area for recreation, light industry and low-cost retirement homes.

The Roosevelt administration initiated a tidal project in Passamaquoddy Bay during the late 30s. This brought about establishment of Quoddy Village.

The tidal power project eventually was abandoned, only to be revived recently by joint action of the United States and Canada to determine if electricity can be generated economically by harnessing the bay's tremendous tides.

Farmington Officer Accidentally Shot

WOLVERINE LAKE—A Farmington policeman was accidently shot and wounded by his wife yesterday while examining a new revolver.

Arthur Forgette, 46, of 955 Aremenia St., Wolverine Lake, told Wolverine Lake police he thought he had unloaded the gun completely and let his three-year-old daughter hold it. She pulled the trigger and the gun clicked.

His wife then took the gun and did the same thing. It fired. The bullet grazed Forgette's stomach and struck him in the left arm.

He was treated at Walled Lake Clinic and then taken to St. Joseph Hospital where he is in satisfactory condition today.

"With three daughters—Ty has two and I have one—naturally, we would like to have a son," said Mrs. Power.

Power and the former Debbie Smith Minardos were married May 7.

Stops Constipation Due to "Aging Colon"

New laxative discovery re-creates 3 essentials for normal regularity.

As you grow older, the internal muscles of your colon wall also age, lose the strength that propels waste from the body. Stagnant bowel contents become so dry and shrunken that they fail to stimulate the urge to purge.

Relief, doctors say, lies in a new laxative principle. Old-style bulks and moisteners may create gas, take 3 or 4 days for relief. Old-style salts and drugs cramp and gripe the entire system. Of all laxatives, only new COLONAID gives you its special 3-way relief that works only on the lower colon (area of constipation).

(1) COLONAID moisturizes dry, hardened waste for easy passage without pain or strain. (2) COLONAID'S unequalled rebulking action helps retone flabby colon muscles. (3) And COLONAID acts gently, on the nerve reflexes that stimulate the vital "mass movement" of your lower colon.

COLONAID relieves even chronic constipation overnight; is so gentle it was hospital proved safe even for expectant mothers. And COLONAID won't interfere with absorption of vitamins or other food nutrients. Get COLONAID today! Introductory size 43¢.

Republican Leaders Divided Over Ike's Retaining Adams

By JACK BELL

WASHINGTON (AP) — President Eisenhower's decision to retain Sherman Adams as his top assistant left congressional Republicans divided today on whether Adams has cleared himself of influence charges.

★ ★ ★

The White House followed up Adams' unprecedented appearance before a House subcommittee yesterday with an announcement that Eisenhower has no intention of firing his top aide and Adams had no plans to resign.

This indicated that Republicans will have the task of defending the presidential assistant from Democratic attacks in the upcoming political campaign.

Some GOP members indicated that if they do so, it will be with reluctance. Others called outright for Adams' resignation.

Adams told a House subcommittee yesterday he had exerted no influence on government agencies in behalf of Bernard Goldfine, Boston industrialist, in return for expensive favors he had received from his millionaire friend — including the loan of a $2,400 Oriental rug and the payment of more than $2,000 of hotel bills.

One Republican member of the subcommittee which heard him, Rep. John B. Bennett of Michigan, issued a statement saying Adams "should relinquish his post."

★ ★ ★

"He may not have intended any impropriety," Bennett said, "but wittingly or unwittingly he has caused his integrity to be brought into question over circumstances of his own making."

Sen. John J. Williams (R-Del), who said he had read the statement Adams presented to the House group, told the Senate, "Mr. Adams' resignation is in order," and added: "I regret that I cannot accept his explanation as clearing up the implications involved."

Sen. William Langer (R-ND), like Williams a candidate for reelection, said in an interview: "In my judgment, he didn't clear himself. He should resign."

In the opposite corner, Sen. Everett Dirksen of Illinois, the assistant Republican leader, said in a separate interview: "I would see no reason for Gov. Adams to leave the government. There has been no evidence clearly affirming any charge that he used his influence."

★ ★ ★

To this Sen. Homer Capehart (R - Ind) added the observation that he believed "Gov. Adams did good" in his appearance before the House subcommittee on legislative oversight.

★ ★ ★

Sen. Clifford P. Case (R-NJ), a staunch Eisenhower supporter, said he had discussed with some GOP colleagues the possible issuance of a sort of "declaration of conscience" to put the party on record against the use of influence. He said nothing had jelled yet.

Wayne Morgue Clerk Refusing Lie Test

DETROIT (AP)—George I. Adams, a clerk at the Wayne County Morgue, has refused to take a lie detector test scheduled for today.

Raymond J. Deryck, chief trial attorney for the Wayne County prosecutor, said he had planned to question Adams about charges of kickbacks from favored attorneys and undertakers.

Deryck said he learned of Adams' refusal to take the test through the man's attorney, Benjamin Roth.

Deryck said Adams has admitted receiving gifts from morticians but has denied getting kickbacks for referring cases to attorneys.

Adams once was fired by Dr. Edward S. Zawadzki, county medical examiner, but was reinstated in his job by the Civil Service Commission.

The investigation was touched off when Zawadzki threatened to resign because of the activities of certain employes in his office.

Site of Old City Hall to Become Parking Lot

City Commission last night approved construction of 32-stall municipal parking lot, with meters, on the sites of the old City Hall and police garage along Mill street south of E. Pike street.

★ ★ ★

The $7,600 lot would operate similarly to those already in existence under the revenue bond program, City Manager Walter K Willman said, but would be financed independently of the bond act through surplus revenues from other metered city lots.

Included in the cost, he said, would be blacktopping of the lot and the purchase of 14 more parking meters.

Eighteen meters have already been installed during use of the northern portion of the lot on a temporary basis the past several months, he pointed out.

★ ★ ★

Construction of the lot had been held up until the recent razing of the old garage.

HEARINGS SCHEDULED

Other action on public improvements including the scheduling of four public hearings for next Tuesday night.

One is on intention to construct a combined sanitary-storm sewer on Stanley avenue, Hopkins to Yale, at an assessed cost to property owners of $120 for a 20 by 100 lot. The total assessments would be $1,284, it was estimated, and the city share $5,749.

★ ★ ★

The other hearings are on assessment rolls, one for curbs and gutters on S. Jessie street to Wilson, Prospect to Wilson for grading and graveling on Monticello avenue, Orlando to Inglewood; and the third on a sidewalk on Cherry court east of Hill street.

Two other projects met no objections at other hearings last night.

One calls for new curbs and repaving on Telegraph road, W. Huron to James K., and the other includes installation of sewer stubs on 17 vacant lots along the Perry street widening project.

★ ★ ★

Assessment rolls for eleven paving projects were confirmed. To be paid in two annual installments are assessments on E. Colgate avenue, Baldwin to University; Fairmount avenue, Baldwin to Carlisle; New York avenue, Baldwin to University; Pike street, Astor to East boulevard; Tennyson avenue, Joslyn to Highwood; Tregent street, Baldwin to Saginaw and Yale avenue, Carlisle to Stanley. To be paid in three annual installments are assessments on E. Chicago avenue, Baldwin to the Pontiac, Oxford & Northern Railroad; Homestead drive, Astor to East boulevard; Ivy street, Perry to Montcalm; and Northway drive, Astor to East boulevard.

★ ★ ★

A petition for a sanitary sewer on the north side of Montcalm street Portland to Wing, was accepted and the project placed on the improvement program. Another petition, for a sanitary sewer on Lounsbury avenue from Stanley towards Blaine, was returned to its circulator for more signatures.

Finds Cause in Animals

Woman Adds New Link Towards Cancer Cure

HONEY HARBOUR, Ont. (AP)—A major advance in cancer research was reported today by a U. S. woman scientist who said she has used a single virus to cause many types of cancer in experimental animals.

Dr. Sarah E. Stewart of the National Cancer Institute at Bethesda, Md., told the Canadian Cancer Research Congress she has induced as many as 29 different types of cancer in mice using a virus extracted from a single type of tumor-leukemia or blood cancer.

★ ★ ★

Her paper gave support to the long-held theory that cancer is transmitted by a virus. These disease-producing agents in other forms are known to be responsible for polio, influenza and measles.

While some of Dr. Stewart's colleagues had reservations about the importance of her work, Dr. Arthur W. Ham, head of biological research at the Ontario Cancer Institute in Toronto, described it as "the most stimulating thing that has happened in cancer research in years."

Dr. E. A. Mirand of the New York state-supported Roswell Park Memorial Institute at Buffalo said the cancer treatment and research center has already checked and vertified Dr. Stewart's work.

★ ★ ★

A gray-haired woman scientist's seven years of work is expected to lead to a great concentration of research on virus causation of cancer in general. She herself said she could not say how soon her findings can be applied to human cancer. She explained it will first have to be shown that a virus causes certain types of human cancer and this has not been established.

★ ★ ★

Dr. Stewart took cell-free extracts from leukemic mice and grew the virus in tissue cultures. With extracts of blood-cancer cells from one group of mice she caused cancers of the breast and of the salivary and thymus glands in other strains of mice.

She also broke through the species barrier by causing cancer with the mice extract in hamsters, rats and rabbits. Normally animals of one species will reject cancer cells from another species.

Shipping Strike Settlement Dim

Owners and Marine Engineers Union Agree Outlook Bleak

NEW YORK (AP)—Shipowners and striking marine engineers resume contact talks today with little hope of a quick settlement in sight.

★ ★ ★

After a two-hour conference yesterday, Herbert L. Daggett, national president of the striking Marine Engineers Beneficial Assn. told reporters: "We are pretty far apart as of now, and as of now there is no settlement in view. What they offered us is unacceptable from our point of view."

Ralph E. Casey, president of the American Merchant Marine Institute, who heads the shipowners committee, agreed the outlook was bleak.

★ ★ ★

"It looks to me," he said, "as if we can't meet their demands and as though they won't come down to what we are offering."

The strike entered its third day today on the East and Gulf coasts. The walkout of 1,700 engineers directly affects 294 ships.

Another 186 ships are affected because the companies that operate them follow the contract pattern set by the union and the 23 ship operators represented by the institute.

★ ★ ★

The engineers struck at midnight Sunday. They demand improved vacation benefits, wage increases, pension and welfare benefits and a job-security clause in case of ship transfers.

Present wages range from $493 to $1,052 a month.

He Winds Up in Jail for Giving Bargain

ESSEX, Md. (AP)—Amos W. Wood of High Point, N. C. treated residents of this suburban Baltimore community to a bargain in potatoes—and wound up in jail.

Wood sold 10-pound bags of potatoes for 25 cents each, some 44 cents under the market price. But the spuds didn't belong to Wood, and Baltimore County police charged the 30-year-old North Carolinian with larceny of 240 bags.

Police said Wood had hitched a ride with truck driver C. H. Pugh of Clinton, Miss. in Richmond, Va. and was left with the trailer when Pugh took the tractor to a garage for repairs.

Pugh called police when he returned 45 minutes later and found a frantic sale in progress.

Drive-In Theaters Mark 25th Birthday; More of Them Going Up Every Year

NEW YORK (UPI) — The drive-in era has something to blow its own horn about this month.

It's 25 years old.

The era of the drive-in began on June 6, 1933, when Richard M. Hollingshead opened a 400-car drive-in theater at Camden, N. J. Although the first drive-in closed after a few years, the idea lived on, as evidenced by our 4,500 drive-in theaters spread across every state in the nation. They range in car capacity from 150 to 2,500.

Drive-ins also are popping up in Australia, West Germany, France and Italy. The drive-in theater also has inspired other applications of the stay-behind-your-dashboard idea, such as drive-in eating, banking and shopping. In effect, the modern-day car hop owes her career to Hollingshead's innovation.

The drive-in theater business, unlike the four-wall indoor theater business, continues to expand. In a few years, trade sources say, their number should reach 5,000 in the United States.

All other things being equal, the drive-ins boast of a wider appeal than their indoor competition because they cater to the following:

—Factory workers who don't like to get all dressed up in the evening after a day's work.

—Stout people who are more comfortable watching a movie from a car seat than an ordinary theater chair.

—Elderly people and invalids who may find it difficult to get dressed up and travel.

—Married couples who can't afford baby sitters. This group, the mainstay of the industry, finds that the children, clad in pajamas, can sleep in the rear seat while mom and dad catch the movie up front.

★ ★ ★

Drive-ins, also called "passion pits with pictures" in some quarters, have inspired such gags as: "We didn't watch the picture. There was a better show going on in the next car."

A picnic-like atmosphere often pervades the parking lot, since they include refreshment counters and play areas for children. Most drive-ins admit children under 12 free, if accompanied by an adult.

Many provide bottle warmers for customers with infants in the car. More and more Easter dawn services are being held at drive-in theater lots around the country.

During the warm months, our drive-in theaters gross nearly seven million dollars a week, of which about two million dollars is grossed on refreshments.

One-third of the drive-ins, located in the southern states, can stay open all year while the remainder are open between 26 and 40 weeks. A new in-car heater which uses propane gas shows promise and if successful, will enable more of our outdoor theaters to stay open in colder months.

While drive-ins are here to stay, they caused some consternation at first.

Speakers were located over the screen and the sound traveled into nearby homes. This also meant the sound and action was out of synchronization for the cars at the rear of the lot, since light travels faster than sound.

Slate Meeting for Librarians

North Oakland Project to Hold First Confab at Adah Shelly Branch

About 20 librarians and trustees in the North Oakland Library Project will hold their first meeting at the Adah Shelly branch library June 25 to hear a description of the first 2,000 books being loaned to the area by the Michigan State Library.

Main speaker will be Helen Kremer, state library consultant on public library development.

Jean Johnson, project director, said the participating communities could make their first selection about the first of next month.

★ ★ ★

About 100 reference books will be kept on hand at the project headquarters in the Adah Shelly branch for circulation on specific request, she said, and another 100 will be available on scheduled loans to the various participating communities.

★ ★ ★

The State Board of Libraries project calls for circulation of most of the 2,000 books among the various communities to promote library interest.

Phyllis Pope, Pontiac librarian, is associate director of the project.

A-Test Site Tunnel Falls, 1 Worker Dies, 1 Injured

LAS VEGAS, Nev. (AP)—A tunnel cave-in at the atomic test site north of Las Vegas killed one man and injured another.

A crew was installing air conditioning vents when the ceiling collapsed 500 feet from the tunnel entrance yesterday.

Dennis B. Goins, 46, was killed by a falling boulder. Raymond Roberts, 46, suffered a bxroken leg.

Six other workers scrambled to safety.

Gadget May Create Easy Life for Pilots

WASHINGTON (AP)—General Electric Co. has developed a new kind of airborne computer which it said would make a modern fighter-bomber nearly automatic.

★ ★ ★

As described at a meeting of military electronics specialists yesterday, the digital computer can:

1. Help the pilot navigate from his base to the target.
2. Choose the particular weapon to be employed, and prepare it for firing.
3. Control the approach maneuvers of the plane as it nears the target.

★ ★ ★

4. Release a bomb or missile at the proper moment with regard to altitude, wind velocity, distance from the target and other conditions.
5. Select the best altitude and speed, from the standpoint of fuel economy, for the flight home.
6. Direct the aircraft back to its base.

★ ★ ★

The computer was developed by GE's Light Military Electronic Equipment Department at Utica, N. Y., and was described by M. R. Johnson, manager of the department's armament and control section.

GOP State Chairmen Schooled for November

WASHINGTON (AP) — Republican state chairmen from throughout the nation meet today for a three-day campaign school aimed at strengthening GOP organization for the November elections.

Among other things, the 48 state chairmen will be given demonstrations in new campaign techniques. Republican National Chairman Meade Alcorn said the school will feature demonstrations by specialists in radio and television, direct mail advertising and fund raising.

Spying Activities Costing U.S. Estimated $350,000,000 Per Year

By JOHN SCALI

(First in 2-Part Series)

WASHINGTON (AP)—A money-conscious Congress bestows an estimated 350 million dollars a year on an agency so secret only a handful of the highest officials know how the money is spent.

★ ★ ★

The hush-hush expenditures are charged off to the high cost of spying.

And the supersecret outfit is the Central Intelligence Agency.

The CIA operates a vast American espionage network in an atomic-space age when the merest scrap of information could mean the difference between survival and annihilation.

So rigid is the secrecy that when brickbats fly, when Congress grumbles over failures, real or imaginary, the CIA takes it in silence. It says simply:

"We never alibi. We never explain."

COULD BE REVEALING

To alibi or explain might reveal a source and endanger the undercover legion of men and women who gather its information throughout the world.

The CIA is unique among American governmental agencies.

Its estimated budget of 350 million dollars is little better than a reasonably good guess. No one outside the highest official circles can say for sure.

But, if the estimate is correct, it is 130 million dollars more than the State Department spends on its 282 diplomatic outposts around the world.

ONLY HANDFUL KNOW

Only a handful of top executives in the government know exactly how many people work for the CIA.

The State Department has about 16,000 American employes. It has been estimated that the CIA has almost as many. But, again, an outsider cannot say for sure.

(The Soviet Union is believed to be spending six times as much as the CIA on espionage. And up to 45,000 Soviet agents are said to be directly engaged in spying.)

Comparisons drawn between CIA and State are particularly apt. Each is run by a man named Dulles.

CIA Director Allen Welsh Dulles, 65, brother of Secretary of State John Foster Dulles, is a heavy-set man with a bushy, white walrus-type mustache. He tells friends his sole ambition in government is to stay on as intelligence chief until he dies. He's headed the CIA for 5½ of its nearly 11 years of existence.

Allen Dulles' job is unique in at least one respect. He can write a check for a million dollars without telling even the government accounting office exactly why he is spending the money.

ONLY VAGUE IDEA

Most congressmen, who watch financial matters like a detective eyeing a pickpocket, have only a vague idea of how much the CIA spends and what it spends it for. Yet each year the agency's budget is appropriated promptly.

The exact figure is known to six senators and representatives who form the special subcommittee that handles CIA finances. They alone of Congress see the agency's detailed budget.

Why spend so much on espionage?

Like everything else, the cost of spying has shot up like the Sputniks and missiles that make it urgently necessary.

Only a small percentage of CIA funds goes to pay the salaries of its thousands of men and women employes, Stateside and overseas.

A big chunk goes for maintenance of its Washington nerve center housed in 35 buildings. Headquarters is a gray, forbidding quadrangle of three-story buildings on a hilltop in the capital's "Foggy Bottom" area.

WELL-GUARDED

Armed guards perch at each building entrance. Privileged visitors are escorted through the buildings to keep appointments.

The essence of CIA intelligence reports winds up each morning on President Eisenhower's desk. It covers the high spots of the previous 24 hours in the world's trouble spots.

The report comes to the President as a terse 500-word summary, written in short, punchy sentences. It can be digested by a busy President in about two minutes.

★ ★ ★

The streamlined, more sprightly written report has replaced a lengthier summary previously given the President. The change was made shortly after the Soviet Union beat the United States to the satellite punch.

That's only a coincidence, says Allen Dulles, whom the Soviets call "America's master spy."

But administration foes say it's more than that. They say the administration did not heed previous CIA warnings so the agency now is resorting to simple ABC language in its reports.

What kind of record has the CIA compiled in forecasting cold war events?

A newsman going to the source invariably runs into the tight secrecy surrounding the heart of the operation.

But from other sources, including congressional, it is possible to estimate the CIA record on nine important world developments of the past three years.

The scoreboard:

Soviet satellites—Excellent. The CIA warned for a year that the Soviet Union was capable of launching its first Sputnik in 1957.

Missiles—Good. But the agency was conservative in forecasting the size and thrust of Soviet rockets.

★ ★ ★

Anti-Nixon riots in Latin America—Very good. But the CIA apparently failed to foresee the dangerous disorganization of the new Venezuelan police force.

Indonesian revolt—Excellent.

Soviet nuclear test ban—Excellent.

Bulganin - Khrushchev reshuffle—Very good. The CIA not only forecast this three months earlier but it fingered Frol Kozlov as a fast-rising Kremlin newcomer.

Hunarian revolt — Fair. The CIA reported signs of mounting unrest in Hungary but even it was surprised when the people actually revolted.

Suez war—Good. The CIA predicted British and French troops would invade Egypt a few days before they did.

★ ★ ★

Suez Canal seizure—Not good. The CIA failed to estimate fully Nasser's reaction to the withdrawal of a proposed U. S. loan for construction of the Aswan dam.

Hears Protests Against School

Maxey Offers Hearing on Vocational Institute Site at Whitmore Lake

LANSING (AP) — W. J. Maxey, state social welfare director, met Monday with objectors to a Whitmore Lake site for the new Boys Vocational School, and offered to hold a hearing on demands for a site change.

Maxey said there was no immediate acceptance of the proposal, and he was told an answer would be made later.

The state building division has called for bids July 17 on first phase construction of a security unit, the first major project at the new institution.

Sen. Lewis G. Christman (R-Ann Arbor) and about 20 leaders of the opposition group attended the session, Maxey said.

The protestors presented petitions against proceeding with construction. Maxey said he was told they bore 1,800 signatures.

★ ★ ★

"I said it would be impossible for me to give an immediate answer on a new location," Maxey said today.

"In order not to appear arbitrary, I said I would be happy to have a hearing in my office, to hear the pros and cons, take testimony and then make a decision."

The protesting group addressed a plea for an audience to Gov. Williams about two weeks ago, and the Governor referred it to Maxey, whose department operates BVS.

Graham Crusade May Gross Over Million Dollars

SAN FRANCISCO (UPI)—Total receipts from Billy Graham's seven-week crusade in San Francisco may exceed one million dollars.

Crusade leaders said yesterday the receipts will be enough to meet local bills and to pay for nationwide television time.

They estimated local receipts at $400,000 and contributions from national TV audiences at more than $600,000.

Meanwhile, local crusade leaders prepared an intensive follow-up campaign. Beginning next Monday, church workers will visit homes throughout the city, and crusade leaders will maintain offices to help churches reach the 25,575 persons who made "decisions for Christ" during the campaign.

Graham began a brief vacation today in Yosemite National Park. He speaks at an outdoor rally in Seals Stadium next Sunday and at a banquet of the American Medical Assn. next Monday.

Michigan Ranks Seventh

WASHINGTON (AP)— Michigan ranked seventh among the states in trade with Japan in 1957. The U.S.-Japan Trade Council reports the water wonderland sold $54,172,000 worth of goods to the island empire last year. Included were large quantities of machinery, auto parts, iron, steel, copper and agricultural products.

12 Candidates Seeking 9 Positions on Rochester Charter Commission

ROCHESTER—Twelve men are in the running for a spot on the nine-member charter commission for the proposed city of Rochester.

When yesterday's 4 p.m. deadline had passed, nominating petitions had been submitted by all 12.

★ ★ ★

The nine will be elected at a special election Aug. 5 to be held in conjunction with the primary.

Those elected will take office only if the incorporation proposal is adopted by the electorate.

If it is, the commission will have the responsibility of drawing up a city charter to be placed before the people for final approval.

★ ★ ★

The incorporation will be of the village of Rochester and parts of Avon Township. The new city, if approved, will be a city of more than four square miles.

The following are candidates for the charter commission:

Richard L. Justice, 357 Winry Ave.; Wayne Y. Holman, 355 Rochdale St.; Edward A. Potere, 325 Charles Rd.; Max K. Mallon, 700 W. Tienken Rd.; Roy Rewold, 312 Glendale Rd.; James C. Hill, 120 Griggs St.

Others are Langley E. Smart, 330 W. Tienken Rd.; John L. Dahlmann, 265 South St.; Glenn R. Brooks, 1435 N. Rochester Rd.; Stowell A. Collins, 125 Maywood St.; Clarence M. Burr, 421 Castell St.; and William C. Chapman, 311 Walnut Blvd.

Jumps in Train's Path, Ferndale Woman Dies

FERNDALE — A woman identified as Mrs. Melba C. Borg, 36, of Ferndale, was killed by a Grand Trunk Railway passenger train yesterday in Detroit.

A witness said the woman climbed up on an enbankment and jumped in front of the train.

Honor Orion Maccabees for Ritual Work

LAKE ORION — Members of the Lake Orion Hive 281 of the MaCabees have received top honors for their ritual work.

The group now holds first place in the competition held at the Great Camp of Michigan, the 80th anniversary convention held last weekend in Saginaw.

★ ★ ★

A plaque and $100 was presented to the group by Larry Ayers, great commander of Michigan, at the banquet held at Frankenmuth.

The group of 26 women will present the memorial rites at the national convention in Detroit Aug. 18-20. They took second spot last year.

Oxford Empire Hive 69 took second place in the same competition winning $75 and a plaque. They were first place winners in 1954, '55, and '56. They will present the installation ceremony at the national convention representing Michigan.

★ ★ ★

Sylvia Schaeffer, who received her 40 year pin, was reappointed mistress-at-arms. She is fraternal director of the Oakland County association, and record keeper of the Orion unit.

Winners of Hildas, honor awards, were Margaret Noland, lieut. commander; Ethyl Schick, picket; Beatrice Raab, sergeant and the escort team, Charlotte Lamphier, Janet Sharrow, Lepha Decker, Della Hull, Pearl Bryant, Helen Wesley, Ivy Sweet, Hazel Bond, Edna Mikesell, and Ella Lortz of Lake Orion.

From Oxford, Dorothy Sweeney, commander; Louise Perry, chaplain and Della Evans past commander were honored.

Area Company Gets Big Army Contract

CLARKSTON — The Hawk Tool & Engineering Co., 20 W. Washington St., Clarkston, has been awarded a $502,073 contract to produce final drive hubs for Army tanks. The announcement was made yesterday by the Small Business Administration's Detroit Regional Office.

Allen E. Hawk, firm president, said production of the hubs will begin in about 60 days, pending the arrival of materials and tooling. The company, which is down to 25 per cent of its employes, expects to rehire about 15 men, he said.

Gets Walled Lake Contract

Company to Furnish New Classrooms

WALLED LAKE — The low bid of $26,621.75 by the University Equipment Co. of Ann Arbor to furnish the science, art and home economic rooms in the new Walled Lake junior high school has been accepted by the Walled Lake Board of Education.

★ ★ ★

The contract was awarded by the board at a special meeting Monday night after members had conferred with the administrative council composed of principals and the elementary school supervisor. Opened at last week's session, the bids had been tabled for study.

Ground was broken this week for construction of the school. It is scheduled for completion in the fall of 1959.

It also was decided by the board to have Walter T. Anicka, school architect of Ann Arbor, plan an addition of about 10 rooms to the senior high school. Cost of this project was estimated at $160,000. Members asked that the plans be prepared for the July 14 meeting.

★ ★ ★

A two million dollar bond issue to finance school construction recently was approved by voters in the school district.

MR. AND MRS. SAMUEL F. LANPHER

Waterford Girl Married to Samuel F. Lanpher

WATERFORD TOWNSHIP—Marriage vows were repeated Saturday evening at the Emmanuel Baptist Church in Pontiac by Frankie Donzell Russell and Samuel F. Lanpher. Officiating at the ceremony was Dr. Tom Malone, pastor.

★ ★ ★

The bride is the daughter of Mr. and Mrs. J. Ernest Russell of 5899 Tubbs Rd. Parents of the bridegroom are Mr. and Mrs. Caleb Lanpher of 2385 Jones Rd.

★ ★ ★

For her wedding the new Mrs. Lanpher chose a floor length gown of Chantilly type French lace, featuring a fitted bodice and Sabrina neckline. Her pure French silk illusion veil was attached to a cap of petals, and she carried a white orchid on a white Bible with streamers of stephanotis.

Matron of honor was Mrs. James R. Crowe of Pontiac, Mary Sue Hokett of Keego Harbor and Mrs. Ed Kussala of Ortonville were the bridesmaids. The bridegroom's niece, Becky Warner of Jones road, was flower girl.

Caleb E. Lanpher, brother of the bridegroom, was best man. Ushers included William Freer, James Warner and Ronald Russell. Ringbearer was the bride's cousin, Phillip Hall of Crescent drive.

The reception was held in the church following the wedding.

After their honeymoon on the East Coast, the newlyweds will make their home in Clarkston.

Predicts Deficit in First Budget

Swem Gives Way to Demands in Southfield for More Service

SOUTHFIELD — City Administrator Eugene M. Swem predicted a deficit today following adoption of the new city's first budget.

★ ★ ★

Totalling $860,000, it was about $14,000 higher than recommended by Swem earlier this week. The City Council Monday had tentatively approved Swem's proposal for a $846,000 budget for 1958-59, but last night bowed to residents demands for more public services.

★ ★ ★

It promised a public hearing last night, however, that the property tax rate would be held at $5 for every $1,000 of assessed valuation.

★ ★ ★

Swem said that the adopted budget, while high, nevertheless reflected some cuts, including $5,000 for the salaries of two firemen; $4,100 for a tree-sprayer; and $1,000 from the pay of the city engineer.

Some of the oils used by tanners in lubricating sole leathers to increase their water-resistance and flexibility cost more per pound than butter.

Village Orders Ball Diamond

Orion Council Votes to Limit Boat Speed to 5 M.P.H. at Point

LAKE ORION — The Village Council has directed Parks and Recreation Director Del Rose to prepare a fourth baseball diamond and erect another backstop at Atwater Park for the 337 youths in Orion who have become members of the Small Fry, Babe Ruth and Recreation Program leagues.

The project will be started today by members of the council and if possible, completed by Saturday.

As a safety precaution, the council also voted to limit the boat speed on Lake Orion to five miles per hour from Anderson's Point to the Village Park and gas dock.

Lavatory facilities will also be opened this year in the village park for limited use. They were closed last year.

The Lake Orion Archers Club was granted permission to hold a carnival using rubber tipped arrows in the lot behind the Royal Recreation Building Sunday, June 29.

The council also agreed to allow the Lake Orion Boat Club to use the village park for a water carnival and boat parade August 10.

In traffic business, the council voted to erect a "Deadend Street" sign at the corner of Church and North Shores streets; post a 15 mph limit on N. Shore street to west of this intersection and place a 15 mph speed limit on Bellevue street near the bridege.

Re-Make Wedding Gown

NEW YORK (NEA) — The 1958 bride is as beautiful and radiant as brides of other years, but a shade more practical.

For increasingly, brides do not feel that storage is the proper place for a wedding gown after the big day. The 1958 bride realizes that styles change so rapidly that chances are few that her daughter would want to inherit the dress.

★ ★ ★

Martha Blair, director of a large sewing institute, has a plan for altering a conventional wedding dress, one so simple that the novice seamstress can handle it.

It involves cutting the dress to cocktail length (about 12 inches from the floor), removing the marquisette at the neckline, making a cowl collar, adding a pleated cummerbund, a stole and a giant silk chiffon bow for back interest.

★ ★ ★

Cut the skirt off first, Mrs. Blair suggests, so that you won't be bothered with the extra weight of the skirt and train as you work on the neckline. Lace and satin should be the same length when cut.

Attach the hemmer foot and hem the satin. Cut the horsehair binding from the old lace hem and sew to the new, using a straight stitch.

Next, remove the appliques from the neckline. Cut off marquisette and sleeves. Remove all but one inch of both sleeves. The remaining bit of sleeve should be turned in to finish armhole.

★ ★ ★

The cowl collar is cut from the remaining bridal train. You'll need to buy silk organdy, or chiffon to make cummerbund, stole and bow. Mrs. Blair suggests that you buy it in a contrasting color.

Wayne Wilson, ticket chairman, for the Jaycees' Saturday dance, pays a call on Mrs. William L. Belaney, decorations committee cochairman, to deliver her tickets for the affair.

Depends on Their Status

By EMILY POST

"Dear Mrs. Post: A friend of ours will be in town at the time we are giving a large party. We know that he is coming on business and also to see a young woman here who is a stranger to us.

"We would like to give him the privilege of bringing this friend to our party but we are not sure whether it is sufficient to tell him without sending her an invitation. If she is the one who must be invited, how do we go about this inasmuch as we don't know her at all?"

Answer: If they're engaged, then it is very simple to send her a note and say that you're a great friend of John Smith and want her to come with him to the party you are giving on such and such a day. If they're not engaged, asking her would be assuming on your part.

If he asks you to invite her, then send her the same invitation that you have sent to everyone else without further comment. He then will explain to her that he asked for it.

"Dear Mrs. Post: My daughter has been married for some months and never told us or anybody else. She now would like us to announce her marriage but tells me that she also is expecting a child. I am wondering if any announcement would be suitable under these circumstances and, if so, what it should be."

Answer: Send out conventional announcements with the correct date. There is nothing unusual about this. Or if you prefer, you merely need tell your family and intimate friends and ask his family to do the same.

"Dear Mrs. Post: How shall I go about buying a wedding ring for the bridegroom? I suppose I buy his ring just as he buys mine. Shall we go together to get both of them or how is it generally done?"

Answer: Quite right—you go together. You buy his and he buys yours.

Check the Office Problem — Abby

Weekend Wife in Doubt

By ABIGAIL VAN BUREN

DEAR ABBY: I am a weekend wife and I don't like it. My husband could very easily come home but he says he is too tired to make it, so he stays in the city all week and comes home for the weekend. Our children hardly ever see him, and I get very lonesome too.

ABBY

"We've been married 17 years and I'm not bragging when I say people tell me I look like a girl of 25. I keep the house nice, always serve good meals, and have trained the children to be quiet and respectful. So why doesn't he come home?"

WEEKEND WIFE

DEAR WIFE: You are only two-sevenths married. Find out more about what he is doing with the other five-sevenths of his life. If necessary get a place to live nearer to his work — but if you don't put a stop to being a weekend wife, your weak end is your HEAD!

★ ★ ★

"DEAR ABBY: My grandfather is always trying to hug and kiss my grandmother while watching TV in the evening. My mother acts disgusted telling them to act their age. They are over 60 and I would like you to tell me if you think they are too old to hug and kiss."

LINDA

DEAR LINDA: I've heard of people being TOO YOUNG to hug and kiss — but never TOO OLD!

★ ★ ★

"DEAR ABBY: I think I am in love with a fellow I saw only once. He is a sailor and we happened to meet the night before he shipped out. We only spent seven hours together but we both fell in love. I promised him I'd wait for him and marry him when he gets back into port.

"He sent me a pillow case from the ship's store. It says on it "Sweetheart I love you." Is this true love and what would you do if you were me?"

SAILOR'S SWEETHEART

DEAR SWEETHEART: If this IS true love, it will last until you get to know him better. In the meantime—sleep on it!

★ ★ ★

"DEAR ABBY: We have three children under 10 and we enjoy having their little friends over to play but find that we are running a kindergarten without thanks. Our yard is the meeting place and we have 10 and 12 children here at once.

"The other mothers are out sunning themselves and my wife (who is pregnant) is bothered all day with requests from kids who want a drink or have to use the bathroom. We wouldn't mind if the youngsters would come for only a few hours a day but all day is too much. Have you a solution?"

OVER RUN

DEAR OVER: Little ones who are "turned loose" go where they feel welcome. It might be a bit of a nuisance now, but if you continue to make your home the "meeting place" for your childrens' friends, it will pay off handsomely in the years to come.

★ ★ ★

CONFIDENTIAL TO GINO: You are "soaking up" too much firewater. The police blotter also does a good job of soaking things up. Watch it!

Cleanliness First!

Teenagers Need Special Skin Care

By JOSEPHINE LOWMAN

All too often the glandular changes which accompany budding adolescence sabotage a young girl's first attempts to be pretty and feminine. It is usually somewhat painful to emerge from the Tomboy stage into the charming Junior Miss category.

Just about the time the feminine teen-ager stops playing softball with the neighborhood boys and starts regarding them as potential escorts for the next Prom or dance, her skin may break out in a rash of pimples and her hair may become suddenly oily and lank.

Miss Mary Kirk, Director of Teen-Age Activities at Central New York YWCA has special grooming classes for her young proteges. She tells them that the complexion problems connected with the skin's oversecretion of oil at this age can be cut down considerably by washing the face frequently each day with warm water and plenty of soap. This should be followed by adequate rinsing.

Miss Kirk also impresses the girls with the importance of washing their faces thoroughly when they come in from outdoors because of the soot content of city air. Between sudsings she warns them to keep "Hands Off." The habit of continually touching, or, worse, picking and squeezing at facial blemishes, not only stirs them up but may also spread infection to other pores.

Mary Kirk recommends the steam method for gently removing blackheads (which often turn into pimples) from clogged pores. First suds the face and hands thoroughly as an antiseptic measure. Then pour steaming hot water into a basin or bowl and put the face down close to the water. Put a large towel over the head to keep in the steam.

When blackheads have been loosened push them out gently with a piece of sterile gauze wrapped around the fingers. Rinse thoroughly. It is a good idea to apply alcohol afterwards.

If a teen-ager's skin becomes suddenly very oily her hair is likely to be affected in the same way. Here again more frequent washing, or shampooing is the answer. The old idea that the hair should not be shampooed more than once a week is discredited. Many movie stars have theirs washed and set every day or so, sometimes once a day.

So if your hair is extremely oily during this age, wash it twice a week. Shampooing is only damaging when the hair and scalp are very dry. Then perhaps a woman should wait for 10 or 12 days in between dunkings. However, this is seldom the case when it comes to teen-agers.

* * *

If you would like to have my leaflet "Popularity" which was written especially for teen-age girls, send a stamped, self-addressed envelope with your request for leaflet No. 58. Address Josephine Lowman in care of this newspaper.

Repressed Anger Can Be Pain in Neck

By MURIEL LAWRENCE

For her birthday Mrs. C.'s sister had sent her an expensive flowered silk blouse. She'd worn it once for lunch in town with her husband and his most important business client.

She made this point when her 16-year-old daughter asked to borrow it. But Marge's resentful disappointment at her "No" made her feel guilty.

★ ★ ★

She could almost hear Marge thinking, "As you are old and I am young, your blouse would look nicer on me than it does on you. How mean you are not to lend it to me!" So she called Marge back to the kitchen and said she'd changed her mind.

That evening after Marge had left with her date, Mrs. C. became conscious of a pain in her shoulder. "It's my bursitis again," she told Mr. C. and went upstairs to apply a heating pad.

But even as the pad's warmth comforted her aching shoulder, her unfelt anger at Marge's aggression was saying to her, "You are getting arthritis like your mother. In a couple of years you'll probably be crippled and helpless. Won't that be nice for John?"

ANGER HURTS

For this is often the way unfelt anger works in grownups. It torments children who dare not tell us how mad they are with bedtime fears of lions and werewolves. But when we dare not voice our anger at someone, it will torment us with grown-up visions of punishment by disease and other disasters.

Victorian ladies didn't know anger. But Mrs. C. is not a Victorian lady and should know.

Though Elizabeth Barrett Browning had to spend years on a bed of pain experiencing the punishment she wished to give her father, we don't have to. We don't have to emulate other maidens of her time who, denied the man they wanted, expressed their unmaidenly rage by declining into imaginary diseases and retiring to the local graveyard.

Indeed when we consider the number of Victorian ladies who resorted to invalid couches, fainting spells and graveyards whenever they got mad, we should think, "Though much is wrong with this 20th Century world, thank God it permits us to know when we're furious."

★ ★ ★

The pain in Mrs. C.'s shoulder is the pain she wants to inflict on Marge.

Raising Your Son to Be Good Husband?

By RUTH MILLET

Some girl is going to hate you one day, Mom, if you let your son grow up with the kind of careless, inconsiderate habits that are a constant source of annoyance to a man's wife.

So if you want your daughter-in-law to love you, make sure that your son—

Can take a shower without leaving the bathroom looking like a hurricane had struck it.

Is neat about taking care of his clothes and personal belongings, instead of strewing them all over the house.

Writes his own thank-you notes and letters instead of expecting someone else to take care of such chores.

Is considerate about telephoning when his change of plans will affect someone else.

Knows what jobs around a house and yard are "man's work."

Can accept small annoyances without blowing his top or growing sullen.

Does the things he has to do when they need to be done instead of putting everything off.

Feels some responsibility for the happiness of those who share a home with him, instead of keeping things in a constant turmoil.

Treats others with consideration instead of thinking that he can make up for any kind of hurt he inflicts just by saying, "I'm sorry."

Does something about a problem instead of grousing about it endlessly.

Isn't irresponsible when it comes to money or financial obligations.

Perry Como Relaxed? .... Could Be Wrong!

By PHYLLIS BATTELLE

NEW YORK — So you think Perry Como's relaxed, hey, mother? You think he's the greatest thing since quinine water for cool and calm?

"I think you think wrong," droned Bob Crosby — himself resembling an Eskimo drawing enemployment.

"This is a great, studied calm. Perry's got it mastered. Brother Bing is equally adept. I try a little fake relaxation myself on occasion.

"But I don't think anybody in this business is really relaxed. You'd be deadly boring if you were. You've got to bubble inside or be nowhere."

* * *

Bob, who takes over Como's show for the summer, took on a studied slouch behind his scotch and soda. He said he would prefer not being called a summer replacement, "just say it's an attempt of mine to butter up Perry so he'll give Brother Bing his voice back."

Then he described how everybody in show business has his own method for controlling the bubbles in the beltline.

Nora Bayes always went onstage thinking, "I love them and they love me." It made the butterflies flap more sluggishly.

Art Linkletter visualizes members of his audience in their underwear. This could unnerve lesser M.C.'s, but it helps him.

"Ethel Barrymore once told me," Bob said, "that she always knows she's going to have mad butterflies—and the very realization that this is usual puts her at ease."

Ray Bolger informed Bob that stage fright is immodest, and it helps to think of it that way. "If you worry about what people think of you, that's the height of egotism—and you don't want to be an egocentric, do you?"

Bob claims he uses all four of these devices, and still comes out tense in the center with an icing of theatrical ease.

The younger brother of Harry Lillis Crosby has both a speaking and crooning voice much like Bing's. He didn't try to emulate Bing. In fact, he nearly ruined his future attempting to avoid it when he began.

"I was getting nowhere—that was back in the early '30's," he recalled, "And one night I went to a party given by my brother Everett. A little, sparrow-like woman came up to me repeatedly and said in a low voice, 'You're Bob Crosby and you stink.'

"At first I ignored her but then I got mad. I went to brother Everett and asked who is that woman. He said, 'That's the great Galli-Curci.' "

(For the young in voice, Madame Galli-Curci is a retired Metropolitan Opera prima-donna. Her language, as well as her larynx, was powerful.)

* * *

At his request, Galli-Curci told him what was wrong. She said, "You've been trying to do unnatural things. Your voice is a muscle, use it. Naturally."

Naturally, it came out sounding much like Bing.

Bob has worked hard, before bands and in front of cameras, and has never quite matched the lucrative success of the brother who came first. He thinks that's lucky. He can do things Bing can't, he can lead a more normal life, he has five kids and a wife and thinks they're the world's greatest collection.

It's as his 15-year-old son, Chris, puts it when he answers the Crosby phone. "This is Heaven. Which angel you want to talk to?"

SCOTTVILLE (AP) — Mrs. Marilyn Walker, 29, of Scottville, was killeld Tuesday in the collision of her car and a Mason County Road Commission truck on U. S. 10-31 near this Mason County community.

Device May Explain Origin of Universe

WASHINGTON (AP)—Two government scientists have scored a technological advance which may help solve one of man's most perplexing questions: How did the universe get where it is?

Rear Adm. H. Arnold Karo, director of the Coast and Geodetic Survey, said the scientists have perfected a method of measuring magnetic forces in outer space.

Instruments using a principle they worked out will be small enough to be carried in earth satellites and moon rockets, he said, and sensitive enough to measure magnetic forces which have never before been detected.

The device, perfectd by T. J. Stillman of the survey's Fredericksburg, Va., laboratory, and Dr. P. L. Bender of the National Bureau of Standards, is called a rubidium magnetometer. It is a tube containing a small quantity of vaporized rubidium, an alkali metal. A beam of light is sent through the tube and the manner in which the light is absorbed indicates the strength of the magnetic forces.

Hal Boyle Asks:

You'd Like to Be Captain of Industry?

NEW YORK (AP)—Would you like to be a captain of industry?

The idea of serving as president of a giant business firm—a firm with only five employes is a giant if the town it serves is small enough—appeals to many.

They see themselves as a glamorous big wheel surrounded by many small cogs desperately anxious to please. They see the executive life as one of endless power, plenty, prestige and leisure.

★ ★ ★

Perhaps it actually was that way in the old days when a boss didn't rate as a tycoon until after he had bought his second yacht.

But today: Ah, no. Many a modern magnate has found that achievement of the great American dream—to run a big business—has many nightmare aspects.

Let us take a typical mythical example—Mr. Alonzo Q. Quagmire, president of the Acme Tiddlywinks Co.

★ ★ ★

In an off-the-cuff interview, President Quagmire gives this picture of the private life of a captain of industry:

Q. Mr. Quagmire, do you feel any pressures in your post from stockholders, labor or government?

A. I did until I went numb.

Q. What do you think's the best thing an executive can do when he feels government is sticking its nose into his business.

A. Write 'em a hot letter on plain stationery — and forget to sign it. If you mail the letter, leave off the stamp.

Q. Are you afraid of your workers?

A. Last year yes; this year no.

Q. Are your workers afraid of you?

A. Not as afraid as I am of the stockholders.

Q. Aren't the stockholders grateful when the firm declares a dividend?

A. No. They say the dividend would've been bigger if I'd hired more men and turned out more tiddlywinks.

Q. What if the firm declares no dividend?

A. The stockholders say I hired too many men and produced too many tiddlywinks.

Q. What is the worst thing about being a boss?

A. You're so lonely. There's no one you can talk to. You can't even discuss the weather.

Q. Why?

A. Well, if you glance out the window and say to an employe, "Gee, it looks gloomy"—well, five minutes later a rumor is gong through the plant that the firm's on the skids.

★ ★ ★

Q. What do you think is your greatest reward in your post?

A. I get a free parking space in front of my office.

Q. If you had it to do all over again, Mr. Quagmire, would you?

A. Certainly!

Q. Why?

A. Because I'm the best darned tiddlywinks man this country ever saw!

Russia Accuses Britain of Stalling on Talks

LONDON (AP)—The Soviet Union brusquely accused Britain today of stalling on talks to improve British-Soviet cultural, scientific and technical relations.

★ ★

A Soviet letter to the government-sponsored British Council, broadcast by Moscow radio, said the Soviet government had approached the British with proposals for such talks three times since April 1957 but had yet to receive a clear-cut reply.

In its last reply the British Council suggested the talks should be put off until there has been a summit conference. The Soviet letter said the council's answer "in effect boils down to one single word: no."

U.S.-Japan Review of N-Tests His Goal

TOKYO (AP) — Japanese Foreign Minister Aiichiro Fujiyama said in Parliament today he hopes to fly to Washington to discuss banning nuclear tests and to resist U. S. moves to curtail imports from Japan.

★ ★ ★

The Foreign Minister said it is time to adjust U. S. and Japanese views on issues between the two countries, to keep up with changes in the world situation.

Meanwhile, the American Trade Committee, an organization of top industrialists and businessmen involved in trade with America, decided to send a mission to the United States to appeal for a halt to proposed boycotts on Japanese products. No date was announced.

Two Port Huron football players have been signed by the Sarnia, Ont., Golden Bears rugby team. They are Ray Wine, a center and linebacker who played at Michigan, and fullback Al Davis.

Detroit's double blanking of last Sunday was only the 3rd in Yankee 55-year history.

★ ★ ★

The Washington Redskins have signed halfback Ed Sutton and No. 1 draft choice Art Davis has agreed to terms with the Pittsburgh Steelers. Miami high school star Paul Higgs has signed with the White Sox for an estimated $50,000. Denver Lemaster, a California southpaw, has been inked by Milwaukee.

★ ★ ★

Catholic Central of Grand Rapids and Muskegon Heights High School have signed a two-year pact for home and home football games starting in 1959 at Muskegon. It marks renewal of football rivalry between the two Class A powers after a six-year lapse. Each team holds four victories in eight games in the 1945-52 series.

Tiger Manager Makes Home Debut as Team Rises to 4th

DETROIT (AP) — Bill Norman, who really does speak "Normanese," is on cloud No. 9 and he won't come down until the Detroit Tigers slow up.

Last night's 9-2 triumph over the Washington Senators was significant in many ways, but most important to Norman and the front office is the fact that the club that was lolling about in the American League basement a week ago now is in fourth place.

Hollywood couldn't have written a better script for the 29,794 paying customers — an unusually high turnout for a game against the Senators. It was Ozzie Virgil's debut as well as Norman's.

The lithe Negro third baseman satisfied everybody with a double and four singles for a perfect night at bat. He impressed with solid glove work and started a quick double play. Too, he impressed with the way he handled himself in post-game interviews.

★ ★ ★

And Norman — the man who has guided the Tigers to seven victories in eight games — he was tired but happy and he claimed no credit for the team's recent surge.

His batters rapped out 17 hits — Frank Bolling had four including his sixth home run and Al Kaline homered and extended his hitting streak to 15 games—his pitcher came through with a solid performance and the fielding was sharp.

The Tigers matched their biggest explosion of the season, scoring seven times while sending 13 runners to the plate in the third inning. A pair of walks, a hit batsman, four singles and Kaline's home run knocked out starter Pedro Ramos. Reliefer A. Cicotte yielded two more singles and another walk before getting the third out.

★ ★ ★

Virgil singled twice in the big inning and every man in the Tiger lineup reached base one way or another.

Charlie Maxwell, who drew three walks, was the only batter who didn't get in on the 17-hit attack.

Bill Hoeft, winning No. 6 against five losses, spaced six hits and struck out six batters. He lost his shutout in the sixth inning on an unearned run that resulted from his own error on a ball thrown back to the mound from catcher Red Wilson.

Pirates Drop Giants 2½ Behind

Burdette Wins for Braves

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

By The Associated Press

Lew Burdette, the hero of the 1957 World Series with three complete game victories in an eight-day span, now has two in four weeks, but that long sought second one had hoisted the Milwaukee Braves into a 2½-game National League lead—their biggest bulge of the season.

★ ★ ★

The crewcut right-hander went all the way for the first time in six starts since May 22 last night, staying out of serious trouble with a nine-hitter as the Braves beat the Chicago Cubs 6-3.

Second place San Francisco, the only other club to get as far as 2½ games ahead this year, was whipped 6-1 at Pittsburgh. The St. Louis Cardinals defeated Cincinnati 10-4 and joined the Pirates in jumping past the Redlegs for a third place tie, just two games behind San Francisco.

★ ★ ★

Burdette, gaining his 90th victory against 61 defeats in eight NL seasons on a 5-4 record for the year, walked but one and struck out four. He gave up a first-inning run — on singles by Tony Taylor, Al Dark and Lee Walls, who had seven of the Cubs' nine hits among them — then blanked Chicago on three hits until the eighth. Bobby Thomson tagged him for his eighth homer with two out in the ninth.

★ ★ ★

Frank Torre, Johnny Logan and Harry Hanebrink each drove in two runs for the Braves, who have won five of their last six after dropping five in a row. A bases-loaded walk and Hanebrink's two-run single bagged it in a three-run fifth against Moe Drabowsky, now 4-7 with his fourth loss to Milwaukee.

Ted Kluszewski, who was 3-for-4, Ramon Mejias and Bill Vidron each hit triples in a five-run Pirate second against loser Johnny Antonelli (6-5). Rookie Curt Raydon, who two-hit the Giants last week for his only other victory, gave up a first-pitch home run to Felipe Alou, then blanked the Giants on eight hits before giving way to Elroy Face after two singles in the ninth.

Ken Boyer smacked a pair of home runs for the Cardinals, his 14th capping a six-run ninth after the Cards had blown a 3-0 lead. Joe Cunningham's three-run triple cracked a 4-4 tie in the ninth against losing reliever Willard Schmidt. Stan Musial followed with a triple and then Boyer blasted off. Musial was 2-for-5 and scored the tying run after singling in the eighth. Reliever Phil Paine won his third of the season—and now stands 8-0 in the majors over six seasons. Curt Flood's two-run homer and Boyer's solo shot gave Jim Brosnan a 3-0 lead, but the Reds tied it on Don Hoak's three-run double in the sixth, then got another in the seventh on a bases-loaded walk by reliever Bill Wight.

The Phils scored six runs in the eighth, before the Dodgers retired a man, to over haul a 5-3 Los Angeles lead and win 9-6. The tie breaking and winning runs scored on a wild throw by losing reliever Clem Labine (3-2). Duke Snider and Harry Anderson swapped solo home runs as the Phils kept the Dodgers in the cellar. Jack Sanford, lifted for a pinch hiter in the eights, won it for a 5-5 record.

NEW TIGERS "HOME" — Al Kaline (right) "oldster" of the Tigers welcomes couple new members of the team to Briggs Stadium. Ozzie Virgil (left) and Tito Francona (center) made their first appearance in Detroit last night. The Tigers whipped the Senators, 9-2.

Mrs. Marquardt Wins Tourney

Mrs. Harold Marquardt won the weekly Women's District Golf Association tournament yesterday at Franklin Hills Country Club in a three-way playoff.

Mrs. Marquardt, Mrs. T. H. Guetthing and Helen Grinnell finished their regulation 18-hole rounds with tie score of 84.

Mrs. Guetthing eliminated herself on the 1st extra hole with a bogey as the other two golfers parred, then Mrs. Marquardt triumphed with a 15-foot putt for a par on the 2nd extra hole as Miss Grinnell missed her 10-footer to take a bogey.

Ford and Pierce Hurl Shutouts; Yanks Gain

By The Associated Press

That new born "race" in the American League still is struggling to stay alive, but with the Detroit Tigers and Chicago White Sox on the move at last, things are looking up—if you can shrug off the fact those New York Yankees have padded their lead by one game while losing eight of 14.

★ ★ ★

Southpaw Whitey Ford won his seventh in a row with a three-hitter that beat Cleveland 4-0 last night as the Yankees ended their losing slump at four and junked their shutout string at 24 innings.

The Tigers moved into fourth place with a 9-2 victory over Washington.

Southpaw Billy Pierce squared his record at 5-5 and gave the White Sox staff its third consecutive shutout with a five-hitter that beat Boston 4-0. That made it four straight for Chicago, now in sixth place, while leaving the second place Red Sox eight games behind New York. Kansas City missed a chance to take second, losing 4-1 to Baltimore.

★ ★ ★

Ford, 8-2 for the season with his sixth consecutive victory over the Indians in two years, struck out 10 and walked two while giving up singles to Mickey Vernon, Rocky Colavito and Minnie Minoso. The Yankees, dealt a double shutout by Detroit Sunday, broke loose after being blanked by Ray Narleski for five innings on one hit, Hank Bauer's bunt single.

★ ★ ★

In the sixth, Bauer again bunted safely and went to second on an error on the play. Narleski, who had won three in a row, then walked Mickey Mantle intentionally and Yogi Berra followed with a run-scoring single. Then Bill Skowron put it away with a three-run homer, his seventh. Bauer had half of the six hits off Narleski, who fanned nine. The Tribe, after winning four in a row, slipped to fifth.

★ ★ ★

Pierce, holding both Chicago victories over Boston this year, gave up only two singles over the last seven innings. Ex-Tiger Ray Boone singled home a run in his White Sox debut in the first inning against loser Dave Sisler (6-3). Billy Goodman drove in two runs and Pierce one. The Sox staff, unbeaten in five games, now has four consecutive complete games, hasn't given up a run in 33 innings and has allowed but one in the last 44 innings.

★ ★ ★

The Orioles cut their scoreless slump at 28 innings on Gus Triandos' single, two errors and Billy Gardner's sacrifice fly in a two run fifth against loser Ray Herbert (2-2). Billy O'Dell (7-7) gave up only five hits and had a two-hit shutout for six innings.

Moose Defeat Mailmen, 2-1

Consecutive singles by Irwin Scherbing, Garry Crake and Carl Beaubien handed the Moose a 2-1 victory over the Pontiac Post Office in last night's feature softball attraction at North Side Park.

★ ★ ★

Beaubien's single tallied Scherbing with the winning run in the bottom of the 7th inning and broke up a tight pitching duel between Lloyd Pearsall of the Moose and Art Weiss. Each team scored once in the 1st inning. Pearsall allowed three hits and Weiss six.

★ ★ ★

Elmo (Smokey) Burgess hurled a four-inning, three-hit shutout as the Pontiac Police trounced Spence Rambler, 11-0. Harold Risner and John Bridgewater each slammed three-run homers for the Police.

In games at Beaudette Park, Franklin Products defeated Borden's, 6-3, and Dostal Foundry walloped State Hospital, 13-2.

Date Not Settled for Title Fight

Patterson - Harris Bout Planned at Los Angeles in 2 or 3 Months

LOS ANGELES (AP) — Heavyweight champion Floyd Patterson will receive 50 per cent of the gate receipts and challenger Roy Harris a flat $100,000 but the date of their proposed title fight remained a major problem.

★ ★ ★

Co-promoter Al Weill disclosed Tuesday the purse figures, which do not include possible receipts for radio or theater television.

Weill flatly said there would be no fight unless the California Athletic Commission approved the Aug. 4 date he and Cus D'Amato, Patterson's manager, demand.

The commission has yet to vote on the Weill-Hollywood Legion co-promotion.

★ ★ ★

Dr. Dan Kilroy of Sacramento, chairman of the commission, indicated he would favor a later date, even in September, because the Aug. 4 date would conflict with several other matches already approved.

★ ★ ★

Chief of these is the Zora Folley-Pete Rademacher heavyweight bout set for July 24 by a rival promotion, the Olympic Auditorium Club. This bout is the feature of an annual charity show staged for the City of Hope at nearby Duarte.

Flesher Wins Mound Duel at Waterford

Arlo Flesher got the best of Ed Miller in a sterling mound battle last night as Nonne's Drive-In edged Lakeland Pharmacy, 2-1, in Waterford American League softball action at Drayton Plains.

★ ★ ★

Flesher had a shutout until the 7th inning when Lakeland scored its lone run. Nonne's tallied once in the 2nd and again in the 5th. Flesher hurled five-hit ball while Miller gave up six.

★ ★ ★

Spencer Floor Covering drubbed the Pontiac Lake Merchants, 10-0, in a National loop game halted in the top of the 6th inning by the 10-run rule. Jack Nelson twirled a one-hitter for the winners.

Virgil Appears Without a Care in Home Debut

DETROIT (AP) — "Me worried? What's to worry about?" Ozzie Virgil wanted to know.

There were 29,794 fans in Briggs Stadium last night and many were there because it was the first time a Negro baseball player had appeared there in a Detroit Tiger uniform.

Virgil acted like a man without a care in the world. He rapped out five base hits in as many at-bats, made a couple of dandy plays afield and drew the loudest ovation as the Tigers whipped Washington 9-2.

The young third baseman, who joined the club about 10 days ago and played every game since, said it made no difference to him that he became the team's first colored player. He said the publicity and attention he has received — especially since the red-hot Tigers returned home Sunday night — "is nice but I try not to think about it at all. It doesn't have anything to do with playing baseball."

Signs With Red Sox

SAN FRANCISCO (AP) — Bill Jensen, 18, of Brigham City, Utah, a freshman at Stanford, was signed Tuesday by the Boston Red Sox for "a substantial bonus and good salary."

That's Situation at Warwick for Flint Open

Best Field in PGA History

By BILL CORNWELL

"The greatest field in PGA history." That's the statement of Harvey Raynor, PGA tournament supervisor, on the eve of the $52,000 Flint Open, now the richest tourney offered to the touring pros.

That $9,000 purse which goes to the winner is a powerful calling card and nearly all of the top-flight golfers on the professional circuit filed their entry before last Sunday's 6 p.m. curfew.

Only seven "name" players are missing from the list—Jimmy Demaret, Lloyd Mangrum, Dutch Harrison, Peter Thomson, Gardner Dickinson Jr., Dr. Cary Middlecoff and Ben Hogan, who is semi-retired and picks his spots.

Middlecoff is actually a last-minute casualty. The par-busting dentist was originally a contestant, but he was forced to withdraw from the field when X-rays revealed an injured hand.

A total of 137 pros and nine amateurs will be in the starting field Thursday when the Flint classic begins its four-day 72-hole medal play grind at gigantic Warwick Hills Golf and Country Club just south of Grand Blanc.

"It isn't just the size of this field that's impressive," Raynor said. "We've never had so many of the big names at the same time before."

"There were 92 players at Dallas, 145 in the Western Open at Red Run, 102 at Kansas City," said Raynor, "but we've never had so many stars all at one time."

★ ★ ★

Heading the field, of course, is newly-crowned National Open champion Tommy Bolt, the trigger-tempered man of many moods who bagged the greatest triumph of his colorful career last weekend at Tulsa, Okla.

Then there's Sam Snead, who flopped in the U.S. Open and failed to survive a 36-hole cut for the first time in his life. Performances like that one are rare for Snead, however, and he must always be counted upon to be somewhere near the front of the class.

Golf's "youth movement" will tackle the sprawling 7,280-yard Warwick layout in sizeable numbers, paced by Masters champion Arnold Palmer, Western Open winner Doug Sanders, Dow Finsterwald, Bill Casper, Ken Venturi, Gene Littler and South African Gary Player.

★ ★ ★

It was Player who gave Bolt his strongest run in the stretch for the Open crown and the little Johannesburg star has been playing consistently sharp golf.

Warwick Hills, less than a year old, will be a stiff challenge to the nomads of the tournament trail. No one is expected to tear the course apart and 288 has been predicted as a possible winning score.

The course is long and tough with tree hazards and deep rough bordering fairways that are often narrow. It is a course demanding power, but the touring pros will find that accuracy is also a necessity.

Admission to the tournament is $1 per day and parking is free. Eighteen holes are scheduled each day with the champion being crowned late Sunday afternoon.

Tigers' Ticket Policy Changed

DETROIT (UPI) — The Detroit baseball company today announced a new reserved-grandstand policy will take effect starting with the New York Yankee contest Friday night.

★ ★ ★

Grandstand seats for sellout Tiger games will be offered in advance on a reserved seat seat basis for the regular grandstand price.

For sellout games, the new grandstand-reserve seats will involve up to 3,600 seats.

★ ★ ★

Ticket director Billy Loll said the increased advance demand for seats prompted the move. He said the regular grandstand policy of tickets on sale the day of the game will apply for games which are not sold out.

Scalpers May Do Better to Sell Baseball Tickets

BALTIMORE (AP) — One may scalp baseball tickets in Baltimore with impunity. But it cost you a fine up to $500 for selling a ticket to a football game for a private profit.

The illogical discrimination came to the attention Tuesday of City Councilman Richard D. Byrd. It resulted from the All-Star baseball game to be played here July 8.

It was reported that persons who have bought tickets for $4 or $6 are offering them for sale at prices from $15 to $25.

Councilman Byrd will move to amend the ordinance against scalping football tickets to include baseball as well as football.

Missouri Eliminates Broncos

Western Out of Series

OMAHA (AP) — Missouri trimmed the NCAA College Baseball World Series field to two teams Tuesday night by eliminating Western Michigan, 3-1.

Missouri, unbeaten in the series, plays Southern California, beaten once, Wednesday night at 9 p. m. EST. A Missouri win will end the tourney. A Southern Cal win will bring another game Thursday night.

★ ★ ★

Doug Gulick hurled four hit ball as he beat Western Michigan for the second time. He had given the Michigan club but four hits in the first round.

★ ★ ★

Sonny Seibert, who is hitting .600 in the series, scored all of the Missouri runs. He singled in the second and scored, beat out an infield hit and scored on Hank Kuhlman's single as Missouri took a 2-1 lead in the seventh and tripled and scored on Bob Haas' double in the ninth.

Southern California in the first game eliminated Holy Cross, 6-2.

Doctoring Your Golf

By DR. CARY MIDDLECOFF

PATIENT'S COMPLAINT: Hitting Ball in Heel of Club.

DIAGNOSIS: Flying Right Elbow.

Treatment: You can't overlook it: the right elbow must remain tucked in close to the body and forward of the right hip all during the backswing and until the ball is hit. On the downswing, the right elbow should brush the right side pocket of the trousers.

Hitting the ball in the heel of the club is one major fault caused by letting the right elbow go out and up. This moves the plane of the swing outward just enough to cause striking the ball in the heel. The result is most apt to be a dinky little slice.

To avoid this fault, see that the right elbow is tucked inside the right hip at address. Then let the right hip turn freely on the backswing so as to keep it out of the way of the right elbow. One last thing: The place to work on this is the practice tee.

A four man scouting team headed by Pat Mullin will conduct a two-day baseball school at Wisner Stadium in Pontiac Thursday and Friday.

Workouts will begin each morning at 10:00 and the tryouts are open to all boys between ages 17 and 24.

★ ★ ★

The Tigers signed some 20 players who attended various schools last year.

★ ★ ★

"We want to give every boy in Michigan an opportunity to be seen by Tiger scouts," Mullin stressed. "The players who show ability of some pro level will be given an opportunity to sign with the Tigers, as we are looking for prospects from our home state," said Mullin.

The Tigers hold nine schools in Michigan plus others in Ohio, Indiana, Canada and 10 minor league farm cities.

★ ★ ★

All boys from Oakland County and area are welcome to attend the tryouts.

Other major league tryouts in the state this weekend are the Phillies' camp in Bay City Friday and Saturday, and also in Dearborn's Rotunda Field July 3-5.

Jewelers Get 5-3 Decision

Waste 3-0 Advantage, Score 2 Runs in 7th to Conquer Jets

Shaw's Jewelers squandered a 3-0 lead, then punched across two runs in the 7th inning for a 5-3 decision over Our Jets in a Class A City League baseball game Tuesday at Wisner Field.

★ ★ ★

Singles by Ken Stanick and Warren Scheibner, a double by Ernie Zubalik and a pair of bases on balls enabled the Jewelers to score twice in the 7th to break a 3-3 tie and pin defeat on pitcher Tom Estes.

Shaw's took a 3-0 lead in the 3rd stanza with another two-bagger by Zubalik accounting for two of them. The Jets rallied with a single run in the 5th and tied the score in the 6th as Louie Seay delivered a two-run triple.

★ ★ ★

Jerry Taylor, who relieved starter Jim Jones following Seay's three-base clout, was the winning pitcher. Estes hurled the route for the Jets. The Jewelers were double the Jets in hit production, 10 to 5.

Dental Golf Champ From Battle Creek

GRAND RAPIDS (AP) — A Battle Creek dentist is the Michigan golf champion of his profession.

Dr. Dominic Cannatti won the first Michigan all-dental championship with a two-day total of 150 as a tourney ended yesterday at the Cascade Hills Country Club.

On the 6,523-yard par-72 course Dr. Cannatti shot a 77 second round to go with 73 on the first round in leading a field of 133 dentists.

Dr. James Allen of Grand Rapids was second with 156. Dr. Robert Love of Detroit finished third with 157.

Teeing Off

By BILL CORNWELL

Tommy Bolt brings his newly-won National Open championship plus his "new" disposition to nearby Grand Blanc Thursday for the beginning of the $52,000 Flint Open golf tournament.

The colorful Bolt, who gained the most rewarding victory of his long career last weekend at Tulsa, Okla., has already been acclaimed the No. 1 man in the Flint tourney, which runs tomorrow through Sunday at Warwick Hills Golf and Country Club.

He has been given the No. 1 locker by Warwick president Waldo McNaught and he will also be assigned the No. 1 tag for his golf bag and caddy. Such is the courtesy extended to a U.S. Open champion.

All this is fitting and just, but it's extremely doubtful that the man of many and unpredictable moods can triumph again over the sprawling Warwick course. The odds are almost super-human against a golfer winning a big one like this on the heels of a National Open victory.

The Open is both a physically and emotionally exhausting tournament. It takes a lot out of a player, especially the winner. Bolt should be no exception to the rule.

It's our guess that Arnold Palmer, the youthful Masters champion from Latrobe, Pa., is a good bet to pocket $9,000 in first place prize money when Sunday night rolls around and the last ball has dropped into the cup.

PALMER

Palmer, the leading money winner on the PGA tour this year, earns our support through the belief that his game is best suited to the long and strenuous Warwick Hills layout.

Stretching 7,280 yards from the back tees, the longest links the pros will play this year or possibly any year for quite some time, Warwick demands all the power the stars can muster. But it also demands accuracy.

Palmer, one of the strongest young players in the business, has earned a reputation as the "straightest long hitter" on the circuit. Arnie gets great distance off the tee, yet he seldom strays very far from his target.

An example of his accuracy can be gleaned from the driving contest which served as a prelude to the recent Western Open tourney at Red Run. Palmer's three tee shots fell in a 295-to-300-yard circle and all were in the middle of the fairway.

This type of wood play could reward Palmer handsomely on the arduous Warwick course where lengthy fairways are sometimes lined with timber hazards and always bordered by dense rough.

In addition, Arnie has the short game and the putter, which may prove to be priceless ingredients in a struggle for pars instead of birdies. Besides, we think he's due for another win.

If Palmer doesn't succeed, who else do we like? Well, there's Ken Venturi, Gary Player, Mike Souchak, Gene Littler and (despite his fizzle in the U. S. Open) Slammin' Sam Snead.

We ought to land a winner with one of those six fellows. After all, there are only 139 other contestants.

Minors Now Allowed

NEW YORK (AP) — The New York Racing Assn. said Tuesday it had adopted a new policy permitting admission of minors to Belmont Park, Jamaica and Saratoga "when properly accompanied."

The pro football Browns drew more than 300,000 for the 1957 season.

Six of the Detroit Tigers' eight minor league teams finished in either first or second place in 1957.

The Cincinnati Redlegs set a major league record for pinch home runs in 1957. They hit 12.

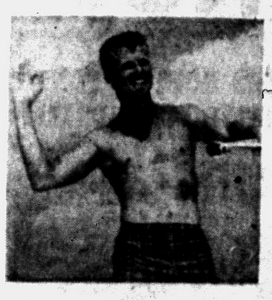
Standard Set Developed by American Water Ski Association

Hand Signals Aid to Water Skiing Safety



OKAY — Universal signal of making round "O" with forefinger and thumb is sign for everything okay.

STOP — The universal signal of raised hand with fingers outstretched.

Safe and enjoyable water skiing depends on teamwork and cooperation between the skier and the boat operator and common sense safety dictates that there be two persons in the boat, one to operate and the other to relay the signals between the operator and skier.

★ ★ ★

Communication between the skier and those in charge of the boat is essential if the greatest safety and enjoyment is to be achieved. Since the skier and boat operator are normally separated by some 50 to 75 feet, verbal communication is almost impossible.

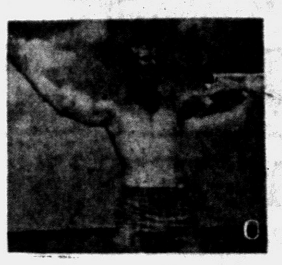
★ ★ ★

Thus, a set of hand signals has been developed by the American Water Ski Association, an organization which promotes the sport of water skiing and formulate the rules under which sanctioned tournaments may be conducted.

(Photos courtesy of Evinrude Boating Foundation)

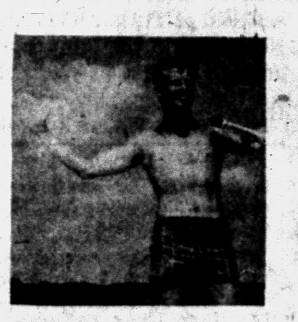
SLOW DOWN—With extended palm down, motion downward. Shake head if both hands are in use.

BACK TO DOCK — With arm straight bring extended forefinger sharply downward, or also . . .



SPEED UP — With open palm up, motion upwards or nod head if both hands are in use.

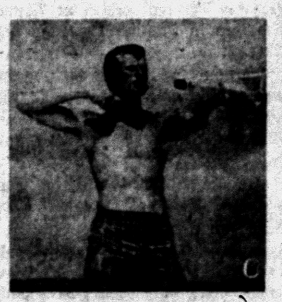
WHIP OFF — Point to director and then give quick circular motions with extended finger.



TURN — With open palm describe curve with hand in direction desired.

BACK TO DOCK — With elbow bent point sharply downward with extended forefinger.

JUMP — With open palm signify soaring motion by sweeping hand forward and up.



CUT MOTOR — Move extended forefinger across throat in cutting motion.

Archery Hunters Show Decline in '57 Season

LANSING (AP) — Popularity of hunting deer with bow and arrow appears to be declining.

Preliminary reports by the state conservation department show archery license sales dropped from 42,368 in 1956 to 37,440 last fall. The 1957 figure may go up slightly when final sales reports are tallied next month.

Bow and arrow hunters also reported less success last fall than the year before. Less than one in 20 reported a kill.

About six per cent of the archery deer hunters have been successful in recent years.

Fewer Feathered Pests

PONOKA, Alta. — Fish and game officials reported 834 pairs of magpie feet, 358 pairs of crows feet and 211 crow and magpie eggs were turned in last summer. Predator hunters are paid two cents for each egg and 10 cents for each pair of feet.

Outlook for Pheasant Crop Considered Good

LANSING — The outlook for Michigan's 1958 pheasant crop is "very good," according to current information gathered by the Conservation Department's game division.

★ ★ ★

"Barring bad weather, we can expect a crop at least as good as last year," said Victor S. Janson, in charge of pheasant research for the Department.

Good production last year resulted in a take of 1,257,000 birds by pheasant hunters — a 12 per cent increase over the 1956 bag and the most successful season since 1944.

Michigan One of Nation's Top Trout-Fishing States

Ambitious trout planting and habitat improvement programs are helping Michigan to maintain its position as one of the nation's top trout fishing states.

The exciting sport of trout angling has enjoyed a tremendous boom in popularity in recent years, adding about 10,000 new enthusiasts each year.

In 1951, Michigan had approximately 186,000 licensed trout fishermen; today the total is in the 225,000-240,000 range.

To meet the demands of these fishermen, the Michigan Conservation Department releases more than 2,000,000 hatchery - reared trout in public fishing waters annually. In 1957, plantings included 2,560,000 brook, brown and rainbow trout.

In addition, the Department's lake and stream improvement program handles the task of making fish habitat more suitable for natural reproduction. Work under this program includes stabilization of eroding stream banks, and installation of structures in streams to regulate water flow.

Snares 21-Inch Dogfish

Danny O'Connor, nine-year-old son of Mr. and Mrs. Robert O'Connor, 3067 Brookneal, Walled Lake, was a proud young angler last weekend after he snagged a 21-inch dogfish in Lower Straits Lake. Danny made the catch with a rod and reel and he used a worm as the bait. Gary King of Walled Lake was his fishing partner and the two boys had quite a battle getting the scrapper into the boat. It was the lone catch on that trip.

Fishermen Have Choice of Catch for Opening

By JACK PATTERSON

If the general-duty, all-purpose fisherman develops a split personality or other psychotic disorder between now and the weekend it will not be entirely owing to the fact that fishermen, as a class, are crazy, mixed-up kids.

Any such upper story flip will more likely be due to the fisherman's being faced with two irresistible, but incompatible, courses of action.

The opening of the bass season Saturday seems an uncomplicated reason for rejoicing, and would be, if it were not for the fact that predicted first emergence of the season's big may-fly hatches (the "caddis hatch" of enthusiastic but inaccurate Michiganians) is scheduled for roughly the same weekend.

No fisherman likes to miss an opening. No fisherman likes to take a chance on missing the "caddis hatch" either, a time of easy fishing, and bigger than average fish. The best bass fishing is not necessarily very close to the best trout fishing, hence the problem. A continous downpour from Friday afternoon until Monday would solve the problem, but to nobody's satisfaction.

Our solutions: (1) Forget the bass, which won't be going anywhere, and go trout fishing. One advantage: this is an evening proposition and the fisherman can spend the days in bed.

(2) Forget the trout; there will be other hatches later, and go after bass. Advantage: the fisherman doesn't have to go far from home, will be available for garage-cleaning and other wife-inspired duties. (Ed. This is an advantage?)

(3) Spend the days fishing for smallmouths in Great Lakes waters adjoining the trout country, evenings on the streams. Advantages: that tired feeling.

If the fisherman picks trout he'll have no special problems. If he chooses bass he might. Big problem in local lakes for predominant largemouths is whether fish have left spawning beds and moved into deep water. From observation we rather think they have not, and would confine initial efforts to fishing the shallows, and most certainly would bypass deep waters in early morning and evening hours.

If we were restricted to a single casting or spinning lure it would be a silver flatfish. If we weren't so restricted, it would probably be the same. There are few fly-rod addicts left that can consistently take bass with big wet flies, and actually there is little reason to fish wet when poppers are so effective.

★ ★ ★

Remembering that largemouths will eat anything they can encompass leaves the live bait field wide open, but crawlers and small to medium minnows are traditional.

Nightcrawlers work so well on smallmouths in coastal Great Lakes waters that it seems rather chintzy to use anything else.

Yankee rookie pitcher Jim Coates, up from Richmond, led the International League in shutouts in 1957 with six. He also led with 163 strikeouts.

Press Fishing Derby to Start

$150 in Bonds Awaits Winners in 3 Divisions

Contest Gets Started Saturday With Opening of Bass Season

Oakland County fishermen get ready, it's contest time.

The annual Pontiac Press Fishing Derby starts with the opening of the bass season Saturday, and there is $150 in savings bonds awaiting the winners of the biggest bass, pike and bluegill.

Entries are open to full-time residents of Oakland County only and the fish must be hooked in Oakland County waters.

The contest will run until September 1st and the winner in each division will receive a $50 bond.

Last year Andy Simko of Holly turned in a record entry in the bass division with a 7-pound 15½ ounce largemouth. John Nemyer of Orchard Lake took the prize with a 1-pound 2½ ounce bluegill, and Matt Grahek of Pontiac was the winner in the pike division with a 9-pound 8-ounce fish.

Popular waters for hooking bass in Oakland County are Proud, Pine, Pontiac, Spring, Williams, Cooley, Bald Eagle, Walton and Pettibone Lakes.

Entries must bring their catch to the Outdoor Editor in the Sports department to be weighed.

★ ★ ★

All major game fish will be legal catches in Michigan Saturday. Bass season runs through Sept. 14 on trout lakes and streams and through Dec. 31 on other waters.

Limit is five bass a day both inland and on Great Lakes and they must be at least 10 inches.

Among the competitors will be national lightning champions Hank Cawthra and Bonnie Crittendon, along with boat-builders Herman Nickels and Clarence Holman who specialize in building the lightning class.

Warmup races are scheduled Saturday afternoon at 2:30. Sunday racing begins at 10:30 a.m.

Kid Gavilan Fights Yama Bahama

MIAMI BEACH, Fla. (AP)—Former welterweight champion Kid Gavilan makes what may be his last middleweight appearance tonight in a 10 round encounter with Yama Bahama.

★ ★ ★

Gavilan, veteran contender from Camaguey, Cuba, is trimming down for a return to the welter ranks after a series of fights in the heavier bracket.

★ ★ ★

The 32-year-old Kid pits the experience gained in 106 victories against the comparative youth of Bahama, 25-year-old Bimini fishing guide. Bahama has won 48, lost 8 and had one draw. He's riding a current three-bout winning streak.

Glenn Ford May Return to Footlights in Brussels

By BOB THOMAS

HOLLYWOOD (AP)—Notes and comment on the Hollywood scene . . .

Glenn Ford may return to the footlights for the first time in 20 years—if an ambitious plan for the Brussels fair can be worked out.

★ ★ ★

There's a move under way to star Glenn at the American theater in the fair in "Teahouse of the August Moon." Glenn says he's willing—if producer Jean Dalrymple can come up with a top-notch cast. She's going after David Wayne, Eddie Albert and Paul Ford, who have played roles in the stage or screen versions (Paul Ford did both).

Glenn would be available from his film chores because he has been suspended by Columbia for declining "The Last Angry Man." The studio is also suing him for a pile of money, but he thinks it will be settled amicably . . .

If the Soviet Union sent us the Moiseyev dancers, the least we could do is give them the Champions. Marge and Gower say they would be willing, nay, eager to display their brand of dancing to the Soviets. They'd like to take along their Three for Tonight Show, in which they starred with Harry Belafonte. There's a trio that could make a lot of friends for the United States.

★ ★ ★

Otherwise, the Champions are carrying through with their plan to taper off on the dancing. They'll play no night clubs this year. Instead, Gower will direct Marge in a nonmusical play which they'll try out in summer theaters and perhaps take to Broadway. . . .

Groucho Marx is another summer theater convert. He'll play in the East with the show he wrote with Norman Krasna, "Time for Elizabeth."

Then he's going to England. . . .

'Twas nice to see some of the old-time Western stars out at 20th Century-Fox's preview of "The Bravados." Among the old-timers: Monte Blue, Ken Maynard, Gabby Hayes, Gary Cooper. Gabby says he has retired, feels he has earned it after 175 Westerns and 68 years in show biz.

Zsa Zsa Hunts New Wife for Gen. Trujillo

LOS ANGELES (AP)—Rafeael Trujillo Jr., the Dominican Republic playboy general, is back in town. And who wants to find him a new wife?

Zsa Zsa Gabor.

"What would be nicer than to have him marry a nice American girl?" Miss Gabor asked an interviewer yesterday. "Think what this would do for friendly relations between his country and the United States."

★ ★ ★

She didn't mention anyone in particular.

Trujillo has filed suit for a Mexican divorce from Octavia Adolfina Ricart de Trujillo. Married 10 years, they have six children.

Miss Gabor was asked about actress Kim Novak, the general's steady date on his last Hollywood visit.

"He likes Kim," replied Zsa Zsa, "but this love business is so much nonsense. I wouldn't call her a passing fancy, but it was not a permanent affair.

★ ★ ★

"About the nice things he gave her, it's a man's privilege, even his duty, to make girls happy."

Miss Novak is in New York.

Trujillo rolled into town yesterday in a private railroad car and went into seclusion at his rented Bel-Air mansion. He said he plans to spend 15 days here before leaving on the Trujillo family yacht, now anchored in Los Angeles harbor.

On his last visit Trujillo made international headlines through gifts of expensive foreign cars to actresses Novak and Gabor.

★ ★ ★

Trujillo has been in this country attending the U. S. Army Command and General Staff School at Ft. Leavenworth, Kan. He failed to graduate but will receive a certificate of attendance.

Miss Gabor said the general told her he isn't mad at the Army or anyone in Washington, except Congressman Wayne Hays (D-Ohio).

"And that's because he compared me with Mme. Pompadour and called me an international courtesan. But I take it as a compliment. Mme. Pompadour ran France for 20 years with Louis XV.

★ ★ ★

"That was using her head, not sex."

Trujillo, Zsa Zsa acknowledged, likes to spend money. "But that isn't the reason I like the darling boy.

"A man doesn't have to be rich for me to like him. He just has to think rich."

McElroy Opposes Sections of Proposal

By EDWIN B. HAAKINSON

WASHINGTON (AP) — Secretary of Defense McElroy, urging adoption of President Eisenhower's defense reorganization plan, says some provisions of a House-passed bill would hurt rather than help Pentagon streamlining.

★ ★ ★

Testifying before the Senate Armed Services Committee, McElroy criticized particularly a House provision restricting the power Eisenhower asked to transfer, reassign, abolish or consolidate functions established by law.

Under the bill passed by the House last week, the secretary or chief of staff of the Army, Navy or Air Force may appeal to Congress an order abolishing combatant functions. Congress could reverse the order without possibility of a White House veto.

★ ★ ★

McElroy told the committee this would amount to "an effective military veto over civilian authority instead of clarifying and enhancing civilian control."

He contended that missiles and other new weapons systems may make changes in functions necessary without delays that could result from appeals to Congress.

Making Service Units for 2-Wheel Vehicles

PARIS — So many Europeans are driving motorbikes, motorcycles, and motor scooters that French technicians have developed new service-station equipment specially for two-wheel vehicles.

One such device, made of steel tubing, is a mobile unit that includes a compressor, two oil-pressure pumps, a high-pressure grease pump, a catch basin for oil changes, and a tool shelf.

Which No Citizen Should Receive

Goldfine Given Special Treatment

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Bernard Goldfine, millionaire friend of Sherman Adams, got special treatment which, under the law, no citizen is entitled to. That's the main point disclosed so far in the Adams-Goldfine case.

The White House—through presidential press secretary James Hagerty—said June 13 the real issue is whether the wealthy businessman got preferential treatment from a government agency as a result of his friendship with Adams.

★ ★ ★

There is no evidence that any agency ruled in favor of Goldfine because he was Adams' friend, but there is evidence he got confidential government information he could not have hoped to get without Adams' help.

The Goldfine and Adams families have been friends for years, at quite some expense to Goldfine. He paid more than $2,000 hotel bills for Adams, gave him a vicuna coat cloth worth $69, and lent him a very expensive Oriental rug.

★ ★ ★

Goldfine, a textile manufacturer, got into trouble with the Federal Trade Commission for alleged mislabeling of his product. He went to see Adams, President Eisenhower's No. 1 assistant.

Adams—in a letter to a House subcommittee investigating government agencies—said on June 12 that Goldfine came to him in 1953 with a letter from the Federal Trade Commission and asked what prompted it.

(Why Goldfine, if he didn't want special treatment, didn't go directly to the FTC and ask that question hasn't been revealed yet because he has not been called before the committee to testify. He will be.)

Adams said he called FTC Chairman Edward F. Howrey and asked if the information Goldfine wanted could be made available. Then Adams in his letter said Howry sent him a memorandum which he turned over to Goldfine.

But when Adams himself went before the committee yesterday, this is what the committee counsel, Robert Lishman, told him:

Howrey, in his memorandum to Adams, revealed the name of the company which had filed a complaint with the FTC against Goldfine. Lishman said disclosing such information was a double violation of:

★ ★ ★

1. The FTC's rules which require that the names of complainants in a case be kept confidential.

2. Federal law which prohibits revealing information in the FTC's files not already public.

Since both an FTC rule and federal law were roadblocks to giving such information to a private individual—particularly a defendant in a case, like Goldfine—it seems certain he couldn't have gotten the information from the FTC himself.

★ ★ ★

Adams said he was unaware of both the rule and the law when he passed on Howrey's memorandum to Goldfine.

He said that if he committed errors they were perhaps the result of "inexperience." Adams, in politics since 1941, because of his job with Eisenhower is one of the most important men in the government.

Bank Loans City Hospital Funds

$137,000 Advanced on 1959 Taxes at Low Interest Rate

Community National Bank again has loaned Pontiac money for its hospital, this time at an even lower interest rate than four months ago.

The bank's bid to loan the city $317,000 in anticipation of 1959 taxes at an interest rate of 1¼ per cent was accepted last night by the City Commission.

Its gesture was seen as a financial boon, since under its terms the city will get the money for 14 months at a cost of only about $4,700.

The bank loaned the city $317,000 on 1958 taxes in February at the low rate of 1¼ per cent.

The Pontiac bank's bid carried the lowest interest rate of four that were submitted to the Commission for consideration and was the only one offered by a local institution.

The money is for furnishings and equipment in the new addition and the remodeled original building. The city intends to borrow another $316,000 next year on 1960 taxes for the same purpose.

All the loans are to be repaid out of tax funds that otherwise would have been earmarked for capital improvements. Last night's loan will run from July 1 through Sept. 1, 1959, when it is redeemable.

U.S. Reports Victory Over Swine Disease

WASHINGTON — Agriculture Department researchers report that they scored an outstanding triumph in animal-disease control during 1957. For the first time since 1939, they say, not a single case of vesicular exanthema, a dreaded swine disease, was found in the United States.

At the height of its outbreak in 1953-54 this disease was prevalent in 42 states.

California grows about 90 per cent of the U. S. grape crop.

BRYAN, Tex. (AP)—Gene Hart is going to have to wait a bit for the gas bill to his furniture store. Charles Munday, meter reader, discovered a swarm of bees had built a honeycomb between the meter lid and its glass face.

Grains Weak in Early Deals

CHICAGO (AP) — Most grain futures prices were weak in early transactions today on the Board of Trade. Rye, however, held about steady.

Traders said the selling of wheat appeared to reflect generally favorable conditions for the harvest of the winter crop. Commission houses were major sellers of corn with processors good buyers.

★ ★ ★

Toward the end of the first hour wheat was ⅜ cent a bushel lower to ⅛ higher, July $1.83⅝; corn ¼ to ⅝ lower, July $1.31⅝; oats ⅛ higher to ⅛ lower, July 62⅛; rye unchanged to ¾ higher, July $1.27; soybeans ⅛ to ¾ lower, July $2.23½; lard unchanged to 5 cents a hundred lbs higher, July $12.30.

The Commodity Credit Corp. reported it had sold another 598,827 bushels of soybeans yesterday on midwest markets, bringing the total of such sales from surplus stocks to more than 5¼ million bushels since June 1.

★ ★ ★

The only wheat export business reported overnight were sales of 5,700 tons of hard and 13,000 tons of western white to Korea for July shipment.

Waterford Thief Building Up Fancy Garden?

Waterford Township police today considered the possibility that only a garden lover would have gone to as much trouble as the burglar who raided the Town & Country Garden Center, 5812 Highland Rd. last night.

He lugged off three burdensome cement garden fixtures — a bird bath; a sundial and an urn of flowers—then returned to filch 30 rose bushes.

Arthur Sihlutow, who owns the shop, said the stolen items had an $82 value. The loot may be reposing in the thief's yard today, since their value as stolen goods was questionable.

Crowded Off Road, Crashes Into Tree, Pole

Crowded off the road by another car, Theodore L. Stickney, 26, of 185 Chippewa Rd., drove into a tree, a utility pole and a retaining cable.

The accident occurred at 1 a.m. today on Voorheis at Orchard Lake Ave. Stickney was treated at St Joseph Mercy Hospital for lacerations of the back and released.

Stock Market Prices Dipping

NEW YORK (AP) — The Stock Market was irregular with a lower tendency in active early trading today.

Fractional gains and losses prevailed among key stocks. Some declines went to about a point.

The market was continuing the backward tendency it showed in late trading yesterday when a fairly sharp early rise was blunted. After four days of attaining fresh highs for 1958 profit taking was in order.

For 3 Street Paving Projects

Walled Lake Confirms Special Assessment Role

WALLED LAKE — The city council met last night and confirmed the special assessment role for three street paving projects: Leon road from East Walled Lake drive to Decker road, North Quinif from South Commerce and Commodore from North Quinif to Pontiac Trail.

★ ★ ★

They then passed a bonding resolution permitting the city to issue $22,000 in special assessment bonds.

Two other projects, the blacktopping and drainage of Decker road, were cabled indefinitely due to unsuccessful attempts to obtain easements for storm-drainage. The council also ordered the paving of three other streets: Common, Nicolet, and Angle.

A delegation was present from the Morecrest Subdivision regarding the paving of their streets since the developer of subdivision has not posted bond. Efforts to get him to pay for the streets have been unsuccessful. The council instructed Albert T. Herzog, city attorney, to get the developer to fulfill his obligation.

Mayor Joe Stadnik of Wixom was present to discuss fire protection. He asked if Walled Lake Fire Department could supply full protection for Wixom. The council did not feel they could guarantee complete protection but did agree to assist in emergencies.

★ ★ ★

A resolution was passed that positive tests be made to determine if any pollution or contamination is getting into the Greenway drain and if any is found to take steps to eliminate it.

More Station Wagons in Offing

Another Price Increase Expected for '59 Autos

By DAVID J. WILKIE
(AP) Automotive Editor

DETROIT — There probably will be 350 different body designs in the 1959 line of automobiles. There will be even more different price tags.

A larger percentage of next year's output will be station wagons. More two and four door hardtops will mean fewer standard type coupes and sedans. There will be more price tags than body styles because of the many optional equipment items.

★ ★ ★

There probably never has been a time when the car makers have been under as much pressure to reduce suggested list prices. What their 1959 pricing plans are probably will not be disclosed until a few days before new model introductions.

Right now chances favor another increase when 1959 cars are announced. But some extra cost items probably will be reduced; some of this year's extras may even be made standard on some 1959 models.

Most standard equipment items on today's cars began as extra cost installations. Even windshields started out as extra cost items in the industry's early days. Some experts have said that eventually automatic transmissions will become standard equipment.

★ ★ ★

That may be still in the remote future, however. Continuing improvements are being made in transmissions. The research runs into a lot of money.

But the trend toward standardizing engineering advances points up the difficulty of fairly evaluating price advances from year to year. It can be said that this year's model X carries a suggested list price $50 or $100 more than last year's like car with the same designation.

In many instances, however, the manufacturer can show that if equipment is compared there has been only a small price increase, or none.

★ ★ ★

Some retailers have said a modest cut in the suggested list price will stimulate demand for new cars. Of course, a cut in the suggested list price will mean a reduction in the price the dealer pays the manufacturer.

The dealer is not bound by the suggested list price. His normal markup enables him to cut prices at his discretion. Similarly, he is bound by no regulation concerning the allowance he makes on traded in cars.

These factors are among reasons why many car retailers lost heavily on this year's operations.

★ ★ ★

Engineering and styling always are factors in the sales appeal of new autos. There are many among industry analysts, however, who say price tags will be given even greater consideration by 1959 car buyers.

At the same time it is one of the anomalies of car merchandising that after the car buyer has haggled long about the base price he will then buy most of the extra equipment items.

Airport Group Seeks Support

Will Send Question of Creating Authority Back to 6 Southeast Counties

Before a study committee looking into the possibility of an airport authority moves any further, members want to know if they will get support from six Southeastern Michigan counties.

★ ★ ★

They also want to know if the act authorizing creation of an authority is adequate to meet the needs of the area.

They decided yesterday that the subject of an authority should be taken back to the Board of Supervisors of Oakland, Macomb, Wayne, Washtenaw, St. Clair and Monroe Counties.

James D. Ramsey, director of the Michigan Dept. of Aeronautics, reported that surveys indicate that in 1975 there will be 4,000 air passengers during the peak hours. Today there are 700.

★ ★ ★

Bernard A. Kalahar, chairman of the Macomb County Board of Supervisors, raised the question about the newly-amended law allowing establishment of an authority.

"It's quite contradictory and kind of a hodge-podge," he said. He called for a review of it before attempting to sell the authority proposition to the people of the six counties.

★ ★ ★

The study committee, headed by Delos Hamlin, chairman of the Oakland County Board of Supervisors, was established by the Supervisors Inter-County Committee in January to look into regional aviation problems.

Tool Engineers in County to Fete GM Anniversary

Oakland Chapter of the American Society of Tool Engineers will mark General Motors Corp.'s 50th anniversary Thursday night at Indianwood Country Club. Officials from Pontiac Motor, General Motors Truck, and Fisher Body will be in attendance.

★ ★ ★

Emphasis will be placed on the theme of "Youth and Science," with sections of the GM Preview of Progress demonstrating the latest marvels of science to an audience composed of tool engineers and their sons. Chairman Ervin Richards announces that golf will be played during the afternoon.

New Car Sales May Hit 400,000 for June

DETROIT (AP) — Sales of new cars may hit 400,000 this month, best monthly total for the year though well below June of last year.

Ward's Automotive Reports makes this estimate. Ward's said that May sales of 394,500 cars was the previous high monthly total of this year.

The statistical agency said that with production running below the rate of car sales the inventory of new cars will fall below the 660,000 mark.

June sales of 400,000 would compare with the 544,000 sales for the same month last year.

★ ★ ★

A total of 2,224,500 sales for the first six months of this year, as indicated, would be 758,400 behind the more than 3,000,000 sales for that period last year.

2 Schools Entered, but Nothing Taken

Two Pontiac Schools were broken into yesterday, but nothing is reported missing.

Bethune School, 154 Lake St., was ransacked and books and papers scattered about.

Will Rogers School, 2600 Dexter Rd., was also entered by breaking a window, but the "thieves" took nothing. They mixed a washing solution and proceeded to mop the corridor floors, splashing the walls.

S-P President Denies Rumor He'll Be Replaced

SOUTH BEND, Ind., (AP) — Harold E. Churchill says rumors that he is going to be replaced as president of Studebaker-Packard Corp. are not true.

Churchill issued an announcement yesterday refuting rumors that he was about to be succeeded by Roy T. Hurley, board chairman of Curtiss-Wright Corp., the firm now managing Studebaker-Packard.

His company is going ahead with plans announced in April, Churchill said, to produce a full-size economy model car that he said the public is demanding. Production is expected to begin in mid-autumn, Churchill added.

France Braces for Red Rioting

De Gaulle Leads Nation on 18th Anniversary of Wartime Rally Call

PARIS (UPI) — Gen. Charles De Gaulle led nationwide ceremonies today marking the 18th anniversary of his wartime rallying call.

But Communist orders for "anti-Fascist demonstrations" threatened to mar the day with street rioting.

★ ★ ★

Heavy police reinforcements were stationed along the Champs Elysee to head off any possible violence between leftwing and rightwing extremists.

Thirty motorcycle members of the Republic Guard were assigned to accompany him on a triumphal drive up the Champs Elysee to the tomb of the unknown soldier and to suburban Mont Valerien where members of the resistance movement shot by the Germans are buried.

The ceremonies commemorated the message of June 18, 1940, when De Gaulle stood in a blacked out radio studio in London and spoke new words of hope to his countrymen, humiliated and confused by their crushing defeat at the hands of the German army.

★ ★ ★

"France has lost a battle, France has not lost the war," he declared.

For the past week the Communist Party has passed out instructions to its members to "assemble and carry out work stoppages" this afternoon in Paris and the other major French cities in protest not only against De Gaulle but his policies and friends.

The Communists said De Gaulle had invited "paratroopers, Vichyites and notorious collaborators" to join him in the celebrations today of rekindling the flame at the tomb of France's unknown soldier.

★ ★ ★

This, said the Communists, "insults the memory of the French resistance heroes.

It boasted that numerous "committees of vigilance" were ready for action.

Today was De Gaulle's 18th day in office as premier. There were celebrations in Algeria where a rightwing group of generals and colonists swept him to power.

Police Officers Vote to Retain Dissenters

By the narrow vote of 38 to 37, the Pontiac Police Officers Assn. voted to retain a 14-member rebel group within the association.

The vote, by secret ballot, was completed and tallied yesterday. At issue was whether to expel from membership 14 officers who sent a letter to the City Commission opposing an official stand of the organization.

★ ★ ★

By resolution, the PPOA had requested the commission to instruct the city manager to fire Chief Herbert W. Straley.

The rebels wrote the commission that they did not feel it was their place to comment on the hiring or firing of any police personnel.

★ ★ ★

Both the resolution of the PPOA and the letter were read at a public hearing before the commission last month. This led to a movement to oust the rebel group.

The company said the contract brings to 66 the number of data processing systems it has been ordered to build for the SAGE system of air defense.

SWORD CONQUERS — Guy Williams has discovered that the sword is a mighty weapon in conquering young television fans. Guy, who portrays the swashbuckling Zorro on ABC-TV Thursdays at 8 p. m., believes that children find swordplay more romantic than gunfighting, and thus have made Zorro their latest hero.

Children Flock to Guy Williams

Sword Seems Mightier Than Gun in Attracting Video Viewers

By CHARLES MERCER

NEW YORK (AP) — A handsome young actor named Guy Williams recently went for a stroll in Central Park where he used to walk in leaner days.

★ ★ ★

Before he'd gone very far he was engulfed by swarms of children who shouted, "Hey, Zorro! . . . Where's your horse, Zorro? . . . How about a duel?"

Astonished at being so widely recognized out of costume and a continent distant from the stomping grounds of his weekly television program (ABC, Thursday, 8 p. m.), Guy "Zorro" Williams signed autographs and retreated.

Drinking coffee in his hotel dining room with a reporter, he was constantly interrupted by children and parents who wanted to meet him and sought his autograph.

★ ★ ★

The reporter remarked that he had never met a TV performer who was so widely and admiringly recognized by the younger generation. Why?

"Perhaps," said Williams, "the sword is more romantic than the gun to children. Perhaps Zorro does what every child wants to do.

"He never walks around a table; he always vaults over it — for no motivated reason except that he's Zorro and wants to vault over the table."

One local husband complains that his wife is leading a double life—hers and his . . . The really plush suburbs are where the station wagons are sometimes bigger than the station . . . Playground Program Set in Waterford Township

Summer playground programs of supervised play for Waterford Township area children, will begin Monday, under the direction of the Recreation department.

Eight elementary school playgrounds have been selected for the activities, for one-half day programs each week.

These include Montieth, Covert, Four Towns, Stringham, Waterford Center, and Burt. Drayton Plains and Donelson will have full day programs.

According to director Tom Belton, the uppermost questions asked by parents sending children to playgrounds are, who can come, how will they get there, what will there be for them to do, how well trained are the leaders, and is there any cost?

In answer to these inquiries, "all township and school district children, six to fourteen years, are eligible to participate," Belton said.

★ ★ ★

He added that parents have been requested to provide transportation. Programs will feature, arts, crafts, quiet games, athletics, special activities and trips to various places of interest.

The playground leadership personnel are qualified and experienced, with an adult leader and high school or college assistant present on each playground.

There will be no charge for the summer playground program, with the exception of arts and crafts materials, Belton said. A schedule of the program is available at the Community Activities building on Williams Lake Rd.

Oklahoma Man Unhappy as Oil Found in Yard

TULSA, Okla. (AP) — "But I don't want an oil well, all I want is a water well," a Tulsan complained as oil oozed over his back yard.

★ ★ ★

The unwanted discovery touched off excitement among the drillers and neighbors, but George Sharp exclaimed, "Oh, no." His wife concurred:

"There does't seem to be enough oil to amount to anything, and even if there were, I can't wash my dishes in oil."

Workers drilled deeper and water was found at 200 feet.

Delays Vote on Ban for Fires on Washday

Pontiac housewives will have to wait a few weeks before the City Commission takes action on an ordinance aimed at making washday easier for them.

The ordinance, to prevent burning of rubbish between the hours of 8 a.m. and 3 p.m., was tabled by commissioners last night until the next informal meeting, as yet unscheduled.

Commissioner Philip E. Rowston questioned whether the law should apply seven days a week, or only on Mondays, "when most housewives seem to do their wash," he observed.

Fire Marshall Charles E. Metz originally recommended the law, saying that his office received more than 300 complaints last year from women who said that smoke from rubbish fires damaged their wash while it was on the line to dry.
