RECORD SPRING TOTALS HELP ENROLLMENT FOR YEAR The spring session enrollment is a record 3,472 students (headcount) compared with the previous high of 2,773 set in spring, 1972. The figure includes 160 undergraduates enrolled in evening credit courses in Royal Oak and Pontiac.

For the 1972-73 fiscal year, OU had the equivalent of 7,403 full-time students based on an average of 31 credits per undergraduate and 24 credits per graduate compared with 6,982 last year. The 7,403 student figure includes 28 full-time equivalent students through credits delivered in the Royal Oak and Pontiac programs.

The growth in full-time equivalent students from 1971-72 to 1972-73 is attributed to increases in the graduate credits delivered and to the new on-campus, credit evening program. Regular daytime undergraduate enrollment fell this year to 5,754 from 5,761 in 1971-72.

Headcount enrollments for the 1972-73 academic periods and the full-time equivalent student enrollment produced in each period follows: summer, 2,453 headcount (511 full-time); fall, 8,335 headcount (3,156 full-time); winter, 8,335 headcount (3,009 full-time); and spring 3,212 headcount, excluding the 160 off-campus undergraduates, for (699 full-time). Two hundred-and-five students in the Royal Oak and Pontiac evening programs generated the equivalent of 28 full-time students for the fiscal year for the 7,403 total.
