## OAKLAND UNIVERSITY MOTTO

The motto of Oakland University, "*Seguir Virtute E. Canoscenza*," which is incorporated in its seal, has a distinguished origin, Canto XXVI, line 120, of Dante's *Inferno*.

These are the final words of Ulysses' great speech to his men urging them to sail on and on in pursuit of knowledge and experience of the world — even beyond the pillars of Hercules, traditionally the frontier and limit of legitimate exploration.

**This is the three-line stanza:**

*Considerate la vostra semenza*

*Fatti non foste a viver come bruti*

*Ma per seguir virtute e canoscenza*

*Consider your birth*

*You were not made to live like brutes*

*But to follow courage and knowledge*

## About Oakland University

Oakland University was created in 1957, when the late Alfred and Matilda Wilson donated \$2 million and their 1,500-acre estate to Michigan State University to begin a new college in Oakland County.

Named Michigan State University-Oakland, the new campus enrolled its first 570 students in 1959. In 1963, its name changed to Oakland University as the first class graduated with 125 students receiving diplomas. In 1970, the Michigan Legislature recognized the maturity and stature of the university by granting it autonomy and the governor appointed Oakland University's first Board of Trustees.

From its beginnings, the university has emphasized academic quality, concentrating on providing a dynamic, student-focused learning environment with integration of liberal and professional studies by a faculty of dedicated scholar-teachers. The natural beauty of the campus, much of it still wooded and undeveloped, is enhanced by comprehensive recreational facilities and modern buildings that house the university's many academic and public service programs as well as more than 2,000 residential students.

Dedicated to preparing graduates to make meaningful and substantial contributions to the workplace, society and academia, the university is organized into eight academic units: the College of Arts and Sciences; the Schools of Business Administration, Education and Human Services, Engineering and Computer Science, Health Sciences, Medicine, and Nursing; and The Honors College.

Oakland has 133 bachelor degree programs and 128 graduate degree and certificate programs. Doctorates are offered in education with concentrations in educational leadership, counseling and early childhood education; biomedical sciences with specializations in medical physics, health and environmental chemistry, and biological communication; reading education; systems and mechanical engineering; physical therapy; applied mathematical sciences; nursing practice; music education; computer science and informatics; medicine, and electrical and computer engineering.

The university is continuously adapting to meet the changing needs of students and the marketplace. New programs delivered online and on campus include master's degree programs in nursing, biology, training and development, software engineering, an Executive MBA program in health care management and innovative Honors College courses. Business and industry partnerships provide unprecedented opportunities for advanced, hands-on learning.

Now, more than 19,000 students attend classes at Oakland University each year and the number of OU alumni has increased to more than 86,000 people.

## MACE AND PRESIDENT'S MEDALLION

In medieval times, a mace was used in warfare. The mace is one of the oldest traditions in academe dating back to the early 1400's when it transitioned from warfare to ceremonial use. Considered a symbol of the university itself, the scepter mace is carried by the university marshal during commencement, convocation and other ceremonial events to signify the arrival of the faculty processional. Oakland's mace, created in 1994, was crafted by jeweler and OU alumnus, Paul Haig and designer Robert Dobbie of P.R. Haig Jewelers in Rochester.

The 30-inch long, approximately 8-pound mace has a white oak handle trimmed with sterling silver ribbon. A black obsidian disk on top is ringed with silver and is inscribed with the university motto. Obsidian is a natural black glass formed by the earth. On each side of the obsidian disk, there is a 14k yellow gold sail. On the base of the handle, a gold oak tree was modeled after a live tree on campus. The clean, straightforward design of the mace reflects the fact that Oakland University is a contemporary institution.

The President's Medallion, also created in 1994 by the same jeweler, is six inches in diameter and reveals the university sail, hangs on a silver chain and is worn by the president at ceremonial events. It is a permanent part of the university's president's academic regalia.

## Mission

Oakland University has a four-fold mission. It offers instructional programs of high quality that lead to degrees at the baccalaureate, master's and doctoral levels as well as programs in continuing education; it advances knowledge and promotes the arts through research, scholarship and creative activity; it renders significant public service; and it facilitates student development. In all its activities, the university strives to exemplify educational leadership.

## ACADEMIC REGALIA

*An edifying note contributed by a certain anonymous doctor of philosophy.*

On at least two solemn occasions during the academic calendar — spring and fall commencement — the faculty of the university publicly displays its full academic regalia and participates in the liturgy of processional and recessional, that curious coming and going that symbolizes the ceremony of commencement. The purposes of commencement are well known, but the reasons for the peculiar garb of the celebrants and their odd order of march are often as obscure to the audience as they are, in fact, to the faculty itself. This note may serve to explain academic dress and the professional pecking order it costumes.

Contemporary academics are descendants of clerical schoolmen in the universities of medieval Europe. Like the clergy, members of the bench and bar, and other learned professions, medieval scholars were clothed in heavy robes to stay warm in unheated stone buildings. Like all members of a hierarchical society, the medieval faculties rejoiced in visible insignia of rank. These outward signs of accomplishment and authority were tailored into robes. Although the need for such voluminous garments to keep the scholar from freezing is long past, the use of them as emblems of dignity remains. You will observe that all caps and gowns worn by our

faculty are black, with certain disturbing exceptions. Black was the color adopted by mutual agreement among American universities at the end of the 19th century. In Europe, each university has its own distinctive gown, varying in color and cut from all others. A European academic assemblage is a far gaudier occasion than its counterpart in America. Recently, certain universities in this country rashly broke the agreement and authorized robes in their own colors: for example, the crimson of Harvard and green of Dartmouth may be seen in our ranks. This unsuitable spontaneity has been frowned on by sister institutions, yet the mavericks not only persist in their madness, but gain adherents to their ranks with each passing year.

There are three basic academic degrees: the baccalaureate or bachelor's degree, the master's degree, and the doctorate. A special style of robe is prescribed for each. The bachelor's gown is sparsely cut, neat, but a bit skimpy and unadorned, as befits apprentices. The master's gown is still simple, but fuller, sports a sleeve of extraordinary design impossible to describe, and has a hood draped from the shoulders down the back. Once used to keep the frost from the tonsured heads of medieval clerks, the hood is solely a badge of a degree of scholarly

achievement. The master's hood is small and narrow, but displays the colors of the institution that awarded the degree. If you knew the colors of American universities, you could easily identify whence came our masters. The doctoral robe is the most handsome of academic raiment. Generous of cut, of fine aristocratic stuff, it is faced with velvet chevrons on the ample sleeves. You will note that most of the velvet facings and chevrons are black, but that some are of other colors. According to personal taste, the doctor may display the color of his or her doctoral degree on the sleeves and facings: light blue for education, pink for music, apricot for nursing, orange for engineering, and many more. The royal blue of the Doctor of Philosophy (Ph.D.) is the most commonly seen in liberal arts institutions such as Oakland. The doctor's hood is the most elegant of all academic appurtenances. Large and graceful, it is lined in satin with the colors of the university that awarded the degree and is bordered with the color of the degree itself. Most academic costumes include the square cap called a mortarboard; the doctor's tassel may be either black or gold — tassels of all other degrees are black and stringy.

To instructed eyes, the order of march in the processional and recessional reveals the standing of

individuals in the institution's formal hierarchy. In the processional the order of entrance into the hall is, quite fittingly, from most junior to most senior. The baccalaureate candidates enter first, followed successively by the masters and doctoral candidates with the whole separated from the faculty by a decent interval. In the faculty order, the instructors precede the assistant professors that in turn are followed by the associate professors. The august full professors bring up the rear. After a respectful distance come the deans who in turn are separated by a significant space from the awful majesty of the platform party, the vice president, the president, and the members of the board of trustees. All remain standing until the board is seated. After the ceremony, the order of recessional is the reverse of the processional. The greatest dignitaries stream out first, with the artfully organized ranks of priority wallowing in their wake.

It is hoped that these notes may make more intelligible the spectacle you are witnessing today. A discerning intelligence may detect in it many clues to an understanding of the academic profession as it confronts the ambiguities of the future with ancient wisdom and dignified confidence.

Dear Graduates,

Congratulations!

It has been several years since I joined the Board of Directors for the Oakland University Alumni Association. During this time, I've seen pride and generosity emerge among my fellow alumni through contributions that have had an ever-increasing and beneficial impact on students, outreach and recognition for our university.

In July 2011, the alumni association reached a significant milestone by extending membership to all alumni. As a graduate of OU, you now automatically qualify to receive the benefits available through the association without membership fees. We hope that this will encourage you to continue to participate in the life of the university in a way that is meaningful for you.

Together, alumni make a difference by joining fellow alumni at events that support scholarships and programs, volunteering their time, making a gift, advocating for OU, mentoring OU students, and sharing their OU pride. One of the most important things we can continue is to support scholarships and provide opportunities that help to ensure the success of the next generation of OU graduates.

The university has enjoyed remarkable growth during your time at OU. Thank you for all that you have done during your time here as a student - you are living, breathing examples of the transformation and opportunity made possible by an Oakland University education. I encourage you to stay in touch, and remain engaged in the life of the university through the alumni association.

Best Regards,

Lynn Gross, SBS '87

Board Chair: OUAA Board of Directors
