## Workshop offered for counseling professionals

Oakland University's **School of Education and Human Services** (SEHS) is offering "Experiential Counseling Methods," a participative seminar using games, low- and high-challenge rope course activities, and group experiences.

The four-day seminar, designed for counselors, social workers, psychologists and other therapeutic professionals who work with groups, is July 9 through 12 from 9 a.m. to 5 p.m. each day at Seaholm High School in Birmingham. Most of the course's activities will be held outdoors and are experiential. Participants will identify and develop their own personal leadership skills during the program.

Dennis D. Rozema, LPC, will lead the workshop. He has received training and certification through Project Adventure in Hamilton, Massachusetts. With more than 25 years of experience, Rozema is well known for his work in experiential education and counseling.

The cost of the workshop is \$295, if enrolled for continuing education units (CEUs). There is an option to take the course for two university graduate credits.

For more information on the workshop and earning graduate credit visit the **Department of Professional Development and Education Outreach** Web site. To enroll, contact Professional Development at (248) 370-3033 or e-mail [professionaldevelopment@oakland.edu](mailto:professionaldevelopment@oakland.edu). The deadline to register is Friday, June 28.
