TO VIETNAM

# The Observer

May 27, 1966

Oakland University, Rochester, Michigan

Vol. VII, No. 3

Not yet entirely beautiful, the leviathan, Vandenberg Hall, overlooks the rest of the campus from the beach of the embryonic lake.

## Water Wonderland OU to Have A Scenic Lake

Despair not, ye students whose eyes, well trained by UC 047, have long been offended by a huge, gaping mud hole across from Oakland Center. Someday, perhaps even by fall, we will have a lake.

Mr. George Karas, Director of the Physical Plant, informed us that the water for the lake will come from storm drainage. He said that the tile system which drains the campus should provide more than enough to fill the 4-5 acre lake. However, since Oakland will be switching to Detroit water in the near future, additional water could be supplied by Oakland's own well. The lake's natural clay bottom should hold the water that is pumped in. Until now, no water has remained in the lake bottom because the control gate at one

end of the lake is still open.

Mr. Appleton, Housing Director, explained that since the development of the lake is included in the contract of Dorm Six (Vandenberg Hall), its completion has been slowed by the rash of strikes which perennially plagues the construction of almost every dorm.

Unfortunately, the lake will be strictly limited in its recreational uses. Its size will prevent boating, safety considerations will prevent swimming, and there are no plans at present to stock the lake with any water life at all.

Yet this lake and the bridge across it seem to evidence a determined effort to beautify this campus. If so, the trend is a healthy and a welcome one.

## DiChiera Designs Theater Project

One of the grave problems which faces children in depressed areas is the handicap of a disastrously underdeveloped voca-

have come up with a new idea which, in the form of a proposal for federal funds, is being examined this week in Lansing. Con-

## Chancellor Gets A New Assistant

Lewis N. Pino, program director for the National Science Foundation, has been named Assistant to the Chancellor at Oakland University, according to Chancellor D.B. Varner.

Pino, who comes to the OU staff with a broad background in teaching and administration, will assist in general university development and will be responsible for maintaining liaison with government agencies and foundations supporting University research.

Since 1961 the new aide to the Chancellor has been program director for the Undergraduate Student Program of the National Science Foundation. Prior to assuming that post he was a member of the professional staff of the NSF Institutes Section for two years.

"Dr. Pino's combination of experience with a major governmental research agency and in college teaching and administration make him a valuable addition

## Vandenberg's

By Dave Black

Arthur H. Vandenberg Hall, \$4.3 million, seven floor, coed, 600 students.

The giant first floor of the dorm contains seminar rooms, offices, headmaster's office, laundry facilities and a machine shop.

The dorm's second floor is reserved for student rooms, as well as a limited amount of student lounge. The first floor will serve meals to students from Hill Hall and Vandenberg Hall.

The rest of "Dorm Six" will be used for the bulk of the student housing.

A TYPICAL ACCOMMODATION is a bedroom suite. Each suite contains a bedroom, two 7' x 8' dressing-entrances, and a resident of Vandenberg Hall will have a roommate.

James Appleton, Dean of Housing, said that if itself is large, it will be broken up into smaller units. They are trying to combine the advanced facilities (such as double rooms) that can be offered in a large building.

Contrary to the belief of many, "Dorm Six" will not be air conditioned. The building is designed so that it can be cooled by added expense air conditioning is not necessary.

Vandenberg Hall will house about 600 students. The rest of the hall's 572 residence rooms will be reserved for OU students who have already completed one year of college, entering freshmen.

THE NEW DORMITORY will be a landmark. The balconies located at the end of the building will be the students with rooms opening onto the lake.

"Dorm Six" is scheduled to be completed in the fall of 1967. According to the Physical Plant, stated, "The dormitory is scheduled to be completed in the fall of 1967. Progress has been slowed by the strikes, but it is not impossible that it will be finished by the end of the year."

FUTURE OU HOUSING PLANS include a new dormitory completed in the fall of 1967. It will be a landmark. Dean Appleton explained that the dormitory will be completed in the fall of 1967. The "Dorm Six" will be completed in the fall of 1967. The "Dorm Six" will be completed in the fall of 1967. The "Dorm Six" will be completed in the fall of 1967.

## Cavanaugh A

Mayor Jerome P. Cavanaugh, arrives on campus today. He will arrive at 3 P.M. to speak in Gold Room C. Mayor Cavanaugh will be followed by a question and answer session. Mayor Cavanaugh will be followed by a question and answer session. Mayor Cavanaugh will be followed by a question and answer session.

The primary in August will be a contest between Cavanaugh and the labor unions. Traditionally primaries are held in August. This year's contest between Cavanaugh and the labor unions will be an exciting clash. The primary will be a contest between Cavanaugh and the labor unions.
