OAKLAND UNIVERSITY SENATE

Fourth Meeting

Thursday, 11 February 1988

3:10 p.m.

Oakland Center, Rooms 128, 129, 130

AGENDA

Respectfully submitted by Keith R. Kleckner for the Steering Committee.

A. Old Business

None.

B. New Business

At this time there are no items to come before the Senate for legislative action. There is, however, a major issue before the University--enrollment levels and their relationship to available revenues. The Provost will present to the Senate the historical evolution of the enrollment/funding dilemma, Oakland's actions and reactions to deal with a changing financial and political environment, and our current options. Following this background information there will be an open- forum session of the Senate to discuss our situation and its implications for planning. The guidance of the Senate will be helpful both to short-term policy on enrollment management and to the long-term institutional development being studied by the Academic Policy and Planning Committee.

C. Good and Welfare

Private Resolutions.

D. Other Information Items
