 - a. Mr. Foe said it was on February 28th
 - B. Jerry Johnson with climate survey came in to the meeting to talk about the survey. Mr. Johnson introduced himself as a graduate assistant in the Diversity and Inclusion Center. On Tuesday, February 28th the school will be administering the survey to campus. The Diversity and Inclusion Center on campus wants to assess student and faculty input on the level of diversity they experience on campus. Mr. Johnson came to today's meeting to ask for our support. In two weeks, he will pass out flyers to us, please pass them out to others on campus.

 - a. Mr. Johnson said it will be on the website.
 - iii. Vice President Engnell talked about how this survey is really important, one went out three years ago and it helped out the Diversity and Inclusion Center address issues on campus.
 - C. Jake Semma talked about the GSA annual Drag Show and to explain the event before the bill for funding went up for approval. Last year we co-sponsored the event and covered the lighting, they are asking us to do the same this year. This is the 14th year and one of the biggest events that is held on campus, drawing around six hundred people. There will be six students performing and three professional entertainers. The event will feature lip synching, performance of gender, and visibility for LGBT community. Gold Vibrations will also be performing there. The cost this year is more than last year, Bandid did the lighting last year, but they doubled their cost. They are using a different company that is a much lower cost, but still higher than last year. Because OUSC is giving the most amount of money, we will receive four VIP seats, tabling opportunities, our logo goes on all marketing materials, it's up for negotiation if we want more. The GSC greatly appreciates our support, they really enjoyed having us last year.
 - i. Ms. Kubinski supported the bill and the event, and urged the legislature to vote yes on the bill in two weeks. Ms. Kubinski also noted that this year should be different with regards to not having to over-ride a veto in giving this event funding.
 - ii. President Thomas appreciated the background Mr. Semma gave, and promised that this year will be much smoother as he supported the bill, promising not to veto it.
 - iii. Vice President Engnell also supported the bill, stating that it's a great event and an even better way to support each other.

VII. Guest Speaker, Rob Mitchell

- A. Mr. Mitchel introduced himself as a pediatrician for more than twenty five years, and is here to tell OUSC about his organization and the volunteer opportunity it gives. Mr. Mitchel set up a non-profit to give full medical care to children without health insurance and to those who cannot afford to pay their bills. His practice is the only one in Oakland county that takes Medicare, a free sliding service, and will not turn those away who cannot pay. Mr. Mitchel spoke about his event Back to School Banaza, and the need for volunteers to help on the four hour event. The events provide all services, school supplies, haircuts, clothes, and educational materials for free. Over 600 kids come to the event on a Saturday. Mr. Mitchel explained he's trying to franchise the event to get more financial assistance to pay for the supplies. This year the event will be on August 12th and he will be passing around a sheet for those who wish to sign up.
- i. Legislator T Fox thanked Mr. Mitchel for coming in and said that there are not enough people like him that provide these kinds of services, and that he knows there will be volunteers from the Congress.
 - ii. Ms. Mishack thanked Mr. Mitchell for coming in again, and would collect the sheet of names for him. Ms. Mishack also said that it's a great event, and would highly recommend people to do it as its eye opening.

- ii. Legislator R. Fox shared his results regarding a survey he conducted for the campus wide senate committee he is on, regarding the difficulties for students on scheduling that interferes with their ability to eat lunch through the day and even being able to graduate in four years because of the lack of availability for required classes and when they are taught. for feedback about the issues that may be caused by this. The proposed parking solution was passed in the Board of Trustees meeting earlier in the day, by fall of 2017 there will be 660 additional spots. The campus life task force is coming to a close and they have several ideas and tactics and will have a completed copy by the middle of March to make campus life more fun and engaging for both commuters and residents. Regarding the spring break change, it has to be post poned for two years because of a line in the faculty contract stating that it has to be the last week in February.  - b. Mr. Engnell also replied that the main buses are still being used for the pre- arranged routes and the vans are being used for the expressed routes. If they see a large demand the main buses could

be used in the future. In regards to the election days, it would be more difficult to get time off of school where as with spring break they are just moving the dates.
