### Oakland First with Five-Year Teacher Plan

Oakland will offer the first five-year teacher education program in Michigan and will require a full year of internship before certification for teaching.

The program was approved by the Board of Trustees at a special meeting August 30. The plan will begin in January. Gerald Pine, dean of the School of Human and Educational Services, says there are perhaps a dozen similar plans nationally.

Oakland began phasing out almost all of its secondary education programs several years ago while restructuring a new curriculum to include a longer, more highly structured internship, Pine explains.

Pine says students will take an academic major and minor through the College of Arts and Sciences, finishing the four years with a baccalaureate degree and some work in education. The year internship will follow. The teacher will emerge with a Bachelor of Science or Bachelor of Arts degree, a year of teaching experience and some credits toward a master's degree.

Dean Pine said the year-long internship fills a need identified in a 1989 Metropolitan Life survey of American teachers. The results showed 86 percent of the teachers favored a full-time, year-round training program to be completed prior to certification.

Some area school districts have indicated that they will give credit for the year of teaching experience in considering the Oakland teacher-applicant, Pine says. He says data from similar programs indicate that five-year graduates enter the teaching profession at higher pay rates and stay in the profession longer than four-year graduates.

"Teaching is an intense, complex and demanding profession," the dean says. "The information explosion and increasingly diverse classroom situations require more academic training and internship experiences than are currently available to secondary education students. The OU program will speak to those needs."

Pine says the fifth-year internship will be closely supervised and allow students to integrate instruction in methods with actual classroom experience. Students would be assigned as interns in 10 metropolitan Detroit school districts after completing four years of study in the College of Arts and Sciences. The districts are Birmingham, Bloomfield Hills, Ferndale, L'Anse Creuse, Oak Park, Pontiac, Rochester, Southfield, South Redford, Troy and Walled Lake.

During the first semester of the fifth year, students will visit and observe many class-

rooms at the internship site to develop an understanding of alternative teaching approaches and student learning styles. Under the supervision of master teachers, interns will then assume teaching responsibilities in their major and minor fields of study. "By the second semester," the dean explains, "it is expected that the intern will assume full teaching responsibilities."

Stringent checks will be employed as the students move through the five-year program, the dean reports, and the internship will be evaluated through conferences with supervising teachers and through the use of video critiques of the intern's classroom teaching style.

"We want students who are broadly educated in their major and minor fields and who are dedicated to being the best classroom teachers they can be. We think our program will be attractive to that kind of student and that school districts will find that student attractive," Pine adds.

The teacher plan was approved by the board on a 6-0 vote. Trustee Stephan Sharf was absent and Trustee Larry Chunovich abstained.▼

#### For Fun and Glory

More than 25,000 people, including 4,800 basketball players of all ages, turned out for the second annual Gus Macker tournament August 24-25. The games, played on parking lots all over campus in sweltering heat, benefited the athletic department. Perhaps in the players' minds the real point of the event was to have a good time and prove that one has pro potential — even if no one else recognizes it yet.

### Tuition Increase Under 7 Percent; OU Lowest Over Two Years

An average tuition and fees increase of 6.48 percent for Michigan undergraduates has gone into effect for the fall semester.

The action was approved August 16 by the university Board of Trustees. It includes an 8.62 percent increase for Michigan graduate students.

University officials say the increase will generate approximately \$1.5 million in additional funds. The university will still face a \$102,298 deficit in the 1990-91 budget that was approved on August 30.

The tuition increases follow:

- A Michigan first-year student or sophomore with 31 credits will pay \$2,208.25, an increase of \$131.75 from last fall.
- A resident sophomore or junior will pay \$2,355.50, up \$143.37 from a year ago.
- Resident graduates taking 24 credits will pay \$3,099, up \$246 from 1989-90.

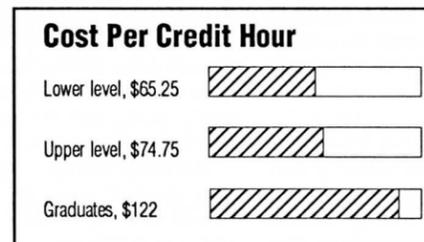

The fee schedule remains unchanged

from a year ago, at \$185.50 a year for undergraduates and \$171 a year for graduate students. The credit-hour increase for first-year students and sophomores (lower division) is \$65.25, up \$4.25; for juniors and seniors (upper division) it's \$74.75, up \$5; and for graduates, it's \$122, up \$10.25.

University officials say the undergraduate increases are slightly lower than interim increases approved

for summer only. The percentage hikes over two years rank lowest among the 15 public colleges and universities.

Trustee Ken Morris voted against the increase, saying that as tuition rises at universities throughout the country, higher education becomes priced out of the range of more students. He also noted the increases are among the many factors which contribute to increased inflation.▼

### Continuum Center Receives Grant for Older Adult Project

The Continuum Center has begun a community-based health education project for professional staff development in senior centers and adult day-care centers.

The three-year project is funded by a \$432,778 grant from the W.K. Kellogg Foundation of Battle Creek.

"This milestone training program has the potential to improve the quality of life for many older adults because of its uniqueness in addressing the needs of the elderly at opposite ends of the continuum of care," said Elinor Waters, Continuum Center director.

The training is designed both to improve the quality of service older adults will receive, and to lessen the possibility of institutionalization of the elderly.

Specifically, the project includes developing, piloting, evaluating and refining a competency-based program in three Michigan communities. Producing and disseminating relevant materials for replication purposes is also a primary focus of the project.

"This educational effort will become a

model of collaboration between university resources, senior groups, agencies and professional organizations within the community," Waters said. "It is designed to help older adults gain access to the services they

need while they maintain much of their independence."

The Continuum Center, a community service arm of Oakland, is a multifaceted university training resource. Since its founding in

### University 1990-91 Budget Tops \$61 Million Mark

Oakland's general fund operating budget for 1990-91 stands at \$61,880,800, an increase of nearly \$4 million over last year.

The Board of Trustees approved the budget at a special meeting August 30 and noted that most of the increase was traced to compensation adjustments, inflation, state-mandated line items, and staffing and programs to increase multi-cultural diversity.

State appropriations and tuition and required fees are the major portions of the new budget. The 1990-91 budget revenues are: state appropriation, \$35,110,570 (based on

an adjusted July 1-June 30 fiscal year); tuition and required fees, \$23,839,500; indirect cost recovery, \$850,000; and miscellaneous revenue, \$1,130,000. In addition, there is an \$848,432 beginning fund balance.

The totals leave the revenue and fund balance \$102,298 below the expenditures of \$61,880,800. University officials say the difference will not be difficult to erase, barring any further cuts or problems.

The budget was approved on a 7-0 vote. Trustee Stephan Sharf was absent.▼

1965 as a women's center, supported by the Kellogg Foundation, the center has evolved to meet the diverse training needs of businesses, the professions and private individuals in many communities. Foremost among its accomplishments is more than 20 years of educational services to older adults.

The W.K. Kellogg Foundation, established in 1930 to "help people help themselves," has distributed more than \$1.2 billion in support of programs in agriculture, education and health. Areas of emphasis within those broad fields include community-based, problem-focused health services; a wholesome food supply; and broadening leadership capacity of individuals. Projects in opportunities for youth are concentrated mainly in Michigan; support for economic development projects is provided only in Michigan. The foundation is today among the largest private philanthropic organizations in the world. It supports programs in the United States, Latin America, the Caribbean and southern Africa.▼

## Faculty Members Receive Chair Appointments, Tenure

Thirteen appointments or extensions as department chairs and nine reemployment and tenure decisions were approved by the Board of Trustees on August 16.

Dates and terms of the actions of the departmental appointments are listed below:

- Carlo Coppola will serve as chair, international programs, through August 14, 1991.

The following eight faculty members will serve as chairpersons through August 14, 1993:

- Gaddis J. Dillon, accounting and finance.
- Charlotte V. Stokes, art and art history.
- M. Sharon Muir, curriculum, instruction and leadership.
- Ronald L. Tracy, economics.
- Naim Kheir, electrical and systems engineering.
- Renate Gerulaitis, modern languages and literatures.
- Norman Tepley, physics.
- Lawrence G. Lilliston, psychology.

The following chairpersons will serve through August 14, 1991:

- Egbert Henry, biological sciences.
- David P. Meyer, human resources development.
- Carl R. Osthaus, history.
- Darrell P. Schmidt, mathematical sciences (acting chairperson).
- Satish K. Walia, biological sciences (early promotion).
- Mark W. Severson, chemistry.
- A. Whitney Walton, history.
- John Paul White, music.
- Manohar K. Das, electrical and systems engineering.
- Ren-Jyh Gu, mechanical engineering.
- Fatma Mili, computer science and engineering.
- Kristine S. Salomon, library.

Also, Meir Shillor, associate professor in mathematical sciences, was reemployed with tenure.▼

## Video Conference Explores Quality

Oakland will be one of the host sites for a live, nationwide videoconference this month concerning quality improvement in business.

*Total Quality: The Malcolm Baldrige Award Approach to Quality Management* will be presented by business leaders from AT&T, Xerox Corp. and Motorola, Inc.

The Malcolm Baldrige Award, named for the former U.S. Secretary of Commerce, is presented to the company exhibiting the highest level of quality achievement.

The videoconference will run from 11:30 a.m.-4 p.m. in Varner Recital Hall. The fee is \$125 (20 percent less for faculty and staff). Time will be included for participants to question presenters directly by telephone.

Interested persons must register by September 11 with the Division of Continuing Education, 370-3120.

Future videoconferences will cover computer graphics, October 3; simulation, November 7; and fiber-optics applications, December 5. All will run from 11:30 a.m.-4 p.m. These will be cosponsored by the School of Engineering and Computer Science in cooperation with the Michigan Technology Council.▼

## Bell Delays Dialing Change

Mandatory long-distance dialing procedures that had been announced by Michigan Bell will not take effect until next spring.

Judy Wharry, telecommunications manager, says Michigan Bell postponed its September 18 startup date for requiring callers to use the area code for long-distance calls, even if within the 313 area code.▼

Mason Ed Raymond begins restoration work on a wall in the Pegasus Garden at Meadow Brook Hall. The extensive project will restore the hall without changing its unique character. The project is funded by a Matilda R. Wilson Foundation grant.

## Our People

Send brief items about your achievements to the News Service, 104 NFH. Items run as space allows.

### PRESENTATIONS

MARY ARSHAGOUNI, English, presented a paper, *The Lazarus Motif in Donne and Rembrandt: Some Religious and Artistic Parallels*, at the American Association of Netherlandic Studies Interdisciplinary Conference in Los Angeles.

WALLIS MAY ANDERSON, rhetoric, communications and journalism, attended the conference on College Composition and Communications in Chicago. She presented *Hypertext Software and Planning by Novice Writers*. She was also one of the organizers of the Software Sampler room, a place where faculty members could try out current computer programs for composition classrooms. She gave a paper, *Hypertext Software and Planning by Novice Writers: Two Case Studies*, at the sixth Conference on Computers and Writing in Austin, Texas.

ROBERTA SCHWARTZ, rhetoric, communications and journalism, will lead a seminar at the National Conference of Editorial Writers in Orlando on September 14.

RONALD KEVERN, student affairs, addressed the National Organization of Mother of Twins Club, Inc., at its national conference in Grand Rapids. His presentation was *Educational Programs and Concerns for Parents of Twins*.

DONALD I. WARREN, sociology and anthropology, presented a research paper, *The United States in 1940*, at the World War II Fifty-Year Perspective Conference at Siena College in Loudonville, N.Y. Another paper, *The Trial of the Brooklyn Boys: Father Coughlin*

and *Interethnic Tensions in America on the Eve of World War II*, was presented at the Loudonville campus. He gave a paper, *The Displaced Majority: White Middle Americans as an Ethnic Minority*, at the workshop conference, *Dominant National Cultures and Ethnic Minorities*, at the Free University of Berlin. He was invited as a guest of the Detroit German consul to meet with officials and local organizations in Germany who deal with minority group relations and immigration policies.

MONIFA JUMANNE, special programs, gave the commencement address at Inkster High School. She was a 1961 Inkster High grad.

### PUBLICATIONS

A chapter written by JOHN K. URICE, arts and sciences, *Government Support for the Arts in the United States, 1990-2015: A Forecast*, ap-

pears in *The Future of the Arts: Public Policy and Arts Research*, published by Praeger.

### CONFERENCES

BRUCE MANN, English, chaired a panel, *Recent Developments in British Drama*, at the American Theatre Association Conference in Chicago.

### HONORS

DONALD MORSE, English, has been named the first Soros Visiting Professor of American

Studies at Louis Kossuth University in Debrecen, Hungary. The professorship is for the 1990-91 academic year. Morse was a Fulbright visiting professor at Kossuth from 1987-89. While in Hungary, Morse will teach, write and conduct research.

ANDY GLANTZMAN, athletics, received four national Citations of Excellence for sports publications from the College Sports Information Directors of America. Judged best in the nation was his men's swimming brochure; second, special publications; fourth, women's swimming brochure; and fourth, soccer brochure. The organization sponsors publication contests in 29 categories.

## For Your Benefit

### Open Enrollment Set

Faculty members have until September 28 to make changes in their health insurance.

The open enrollment period now in effect permits faculty members to change to a different health plan, to enroll for health coverage if not previously enrolled, to add dependents (spouse and eligible children) to health coverage, and to enroll for or increase group accident insurance coverage. Changes will become effective November 1.

Representatives from Blue Cross/Blue Shield, Blue Preferred Plan, SelectCare and Health Alliance Plan will be on campus for presentations from 11 a.m.-1 p.m. September 13 in 127 Oakland Center.

If you have any questions about your benefits, stop by the Staff Benefits Office in 142 NFH or call 370-3483.

### AP Funds Available

Administrative-professionals interested in attending non-job-related workshops and conferences that provide professional growth should apply for funding from the AP Professional Development Fund.

Interested persons may apply at the Employee Relations Department, 140 NFH. Funds for 1990-91 year are limited, and applications will be reviewed on a first-come, first-served basis.

Information sheets and applications are available in ERD. A notebook with details about various conferences will also be kept in ERD. Call 370-3480 for details or see any of these committee members: Tom Van Voorhis, chairperson, Marguerite Rigby, chairperson-elect, Beth Millwood and Margo King.

## Jobs

For information on position openings, call the Employee Relations Department Job Hotline at 370-4500.

- Director of major gifts and planned giving, AP-18, Oakland University Foundation and Office of Development and Alumni Affairs.
- Manager of data-base administration, AP-14, Office of Computer Services.
- Senior programmer analyst, AP-7, Office of Computer Services.
- Counselor and advising coordinator, AP-6 (part-time), Academic Services and General Studies.
- Computer facilities administrator, AP-8, School of Business Administration.
- Director, AP-16, Office of Research and Academic Development.
- Clerk II, C-4, Office of the Registrar, records.
- Senior data entry operator, C-5, Office of Computer Services.
- Accounting clerk III, C-7, Accounting Office.
- Assistant director, AP-6, Upward Bound.
- Admissions adviser, AP-6, Office of Admissions and Scholarships.
- Assistant dean of students (multicultural development), AP-10, Office of Student Life.

The *Oakland University News* is published every other Friday during the fall and winter semesters and monthly from June-August. Editorial offices are at the News Service, 104 North Foundation Hall, Oakland University, Rochester, MI 48309-4401. The telephone is 370-3180. Copy deadline is noon Friday of the week preceding the publication date.

- James Llewellyn, senior editor and news director
- Jay Jackson, staff writer
- Rick Smith, photographer

## New Faces

Additions to the university staff include the following persons:

- JANET SCHURMAN of Rochester Hills, food handler I in the Oakland Center Food Service.
- DENISE VANDENBOSSCHE of Ortonville, clerk-receptionist I in the Office of Admissions and Scholarships.
- SONJA EARLES of Rochester Hills, laboratory research technician II in the Department of Chemistry.
- TIMOTHY FRENCH of Clawson, data-base analyst in the Office of Computer Services.
- RENE LANGE of St. Clair Shores, secretary I in the Employee Relations Department.
- SANDRA MAWER of Lapeer, clerk I in the Bookcenter.
- SANDRA PRIEST of Pontiac, clerk II in the Office of Admissions and Scholarships.
- ANGELA RANKINS of Rochester Hills, counselor and advising coordinator in the Department of Academic Services and General Studies.

## In the News

Recent news coverage about the faculty and staff has included the following items.

- ROBERTA SCHWARTZ, rhetoric, communications and journalism, appeared on the WJR radio *NewsMaker* program to discuss her trip to the Middle East.

## Quote

"Can anyone remember when the times were not hard, and money not scarce?"  
— Ralph Waldo Emerson

## Bits & Pieces

### Evening Adviser Available

The Department of Academic Services and General Studies now offers evening advising at a booth in the Oakland Center.

A professional adviser is available from 5-8 p.m. Tuesdays to offer advising information and general information about Oakland for evening students. The booth is near Sweet Sensations.

### Staff Models Fashions

Members of the university staff will be decked out in the latest clothes for the annual Women of Oakland University fall fashion event.

*For Your Image* will be presented from noon-1 p.m. September 18 in the Oakland Center Gold Rooms. The event includes a presentation by Dayton Hudson on fall fashions and how to accessorize them.

Admission is free for paid members of WOU and \$5 for nonmembers. Door prizes, beverages and dessert will be provided.

To register, call Lynn Metzker, 370-3184.

### Business Directory Out

A revised *Michigan International Business Services Directory* is now available to aid the state's international business community.

The free directory is compiled by the Center for International Programs. It is available through the Michigan Export Development Authority in Lansing.

The directory lists firms, companies, institutions, and agencies throughout Michigan which provide services to the international business community, particularly exporters and foreign firms operating in the state.

Copies of the directory can be obtained by writing to MEDA, Fourth Floor, Ottawa Building North, P.O. Box 30017, Lansing, 48909. You may also call (517) 373-1054.

The Center for International Programs and the OU Center for Economic Development and Corporate Services collaborate on the directory as a public service project. MEDA publishes the document.

### Home for Sale

A four-bedroom home in the Meadow Brook (faculty) subdivision is available.

The tri-level home has two baths, a family room with fireplace, a garage and a wood deck. The home is 1,986 square-feet.

If interested, call Kate Lark, risk management and contracting, at 370-4196.

### Not Yet an Electronic Mailbox

The voice message/call processing system now available on a limited basis on campus does not include electronic mailboxes.

Judy Wharry, telecommunications manager, says a reference to electronic mail boxes in the August *Oakland University News* may confuse some individuals, especially those who regularly use computers to send electronic mail. The phone system is strictly for voice calls.

### Nursing Receives Grant

The School of Nursing has received a \$15,000 grant to purchase equipment that will help simulate a hospital laboratory.

The grant is from the Marine Midland Bank in New York City, trustee of the Helene Fuld Health Trust.

The School of Nursing has been the recipient of previous support from the trust, the nation's largest charitable trust devoted exclusively to the welfare of undergraduate student nurses.

### CE Going Places

The popularity of the Legal Assistant and Paraprofessional Accountant Programs means they will now be offered off-campus for the first time.

Beginning this month, the programs will be offered at Royal Oak Shrine High School and Rochester Adams High School. For details, call 370-3120.

Thousands of browsers descended on Meadow Brook Hall in August to view classic cars at the annual *Concours d'Elegance*. Rolls-Royces, Jaguars and numerous other prestigious nameplates were on hand, yet nary a Pinto nor Vega. Proceeds benefit the hall.

## Anibal 'Wellness' Life-Style Catches On with Students

Oakland's experiment with a "wellness community" appears to be gaining support from students.

Going into Labor Day weekend, only 17 beds remained for men in Anibal House, which is being converted into a nonsmoking, alcohol- and substance-free living environment.

"It's going very well. We are completely filled as far as women are concerned. We have 46 women signed up and 21 men," said Pat Boyer, an office assistant III in the Residence Halls office.

If demand by women outstrips that of male students for the remaining spaces, housing officials will consider allowing more women to take rooms. Unlike signing up for classes, however, there is no deadline for obtaining a residence hall contract. Once the semester begins, and as long as space is available, a student may sign a contract on a pro-rated basis.

Another factor is that students ordinarily make room changes at the beginning of the semester, which could mean the remaining slots will be filled shortly.

A Wellness Advisory Council meets regularly to plan schedules, activities and events for Anibal residents. A requirement of students living in Anibal is signing an agreement committing them to participate in a minimum of two programs per month.

The programs include such things as nutrition education, weight management, human sexuality, exercise science, personal growth and development, substance abuse, time and stress management, and vocational-occupational development.

Experts from Graham Health Center, Meadow Brook Health Enhancement Institute, the School of Nursing and the School of Health Sciences help coordinate the educational programs. Also involved in the advisory council are representatives from CIPD, athletics and Marriott Corp., plus staff and students.

Some modifications to Anibal were required to provide necessary support services. Those included making a weight room and an exercise room, plus buying some exercise equipment. All of that cost approximately \$20,000.▼

Anibal House is being converted into a nonsmoking, alcohol- and substance-free living environment.

## Virus Protection Software Available to All

The doctor is in — in the computer lab.

Campus computer experts are ready to play doctor in the community with a free diagnosis of suspected infected computer disks.

An antiviral program will identify the Joshi virus which is running through the Detroit area and more than 100 other viruses known to infect IBM and IBM-compatible personal computers.

Gerard Joswiak, head of academic computer services, says the free program for individuals is a public service. If there is sufficient interest from industry, the university will even consider making "house calls," Joswiak says.

Persons suspecting a virus can simply call the computer center at 370-HELP or take their diskette into 129 Kresge Library for a diagnostic test. The checkup takes about 10 minutes, and is painless. No appointment is necessary, Joswiak says.

Tests can be performed from 8 a.m.-9:30 p.m., Monday-Friday. Joswiak says computer users taking a free diagnostic test for their diskettes will also be given a free paper on *Eliminating the Joshi Virus: An Introduction to Safe Computing Practices*.

Individuals not affiliated with OU who have an infected computer may obtain a copy

of the software program that will cure any of the known PC viruses. However, they must obtain a license from the maker, McAfee Associates, Inc., of Santa Clara, Calif. The license is \$35 (free to university employees dis-

### Focus: Computer Services

infecting campus computers). Updates against new viruses are included.

Individuals can also obtain a copy of the virus-killing program directly from McAfee Associates. The California number is (408) 988-3832.

Joswiak stresses that OU makes the diagnostic portion of the software program avail-

able as a public service. Computer journals are reporting extensive documentation of the Joshi virus in the Detroit area, as well as the presence of other viruses.

In late June, OU discovered 43 university personal computers to be infected with the Joshi virus, an international "bug" that is activated by the date January 5. When the computer clock becomes activated at that date, most machines ask the user to type "Happy Birthday Joshi." Until the message is typed, the virus inflicts file damage on the floppy diskette and hard drive.

Joswiak stresses that PC users should not type in that date as a test, because if the virus is present, extensive file damage will occur.▼

## Computer Center Administrator Logs In

Jean Wersching, former assistant director of university computing at Eastern Michigan University, is the new director of administrative information services at Oakland.

Wersching began her new duties July 16 after four years at EMU. She had previous experience in teaching and in industry before entering higher education.

The new director says her major goal is implementation of SCT software for student, financial, human resources and alumni de-

velopment areas. Wersching says this will be used as a base upon which to add even more administrative computing services.

Wersching says, "I look forward to the challenge of making the above projects a success for the university community."

The director received a baccalaureate degree in math from the University of Detroit, a master's in math from the University of Michigan, and an MBA from U-D.▼

## On the Road — The One Where Marco Polo Trod

Anthropologist Richard Stamps followed the footsteps of Marco Polo to study the Silk Roads, the historic trade route between the West and China.

Stamps was part of a 25-person team studying the route that linked ancient nations in trade, thought and art. He was in China from July 20-August 22.

The trip included a three-part survey of the roads, including the desert, Steppe and maritime routes. It was sponsored by UNESCO. Stamps participated in the first leg of the fabled desert route and traveled from Xian, the ancient capital of China, to Urumqi, the capital of Zingjiang province in the western-most part of China.

Other teams will be chosen later to study the remaining sections of the Silk Roads.

Stamps is coordinator of East Asian Studies and active in university exchange programs with Chengdu University of Science and Technology in China. He is also active in OU's China cross-cultural training program.

Joining Stamps on the desert route survey

were experts in history, language, fine arts, social sciences and archaeology from many regions, including the USSR, Denmark, France, Japan, Mongolia, United Kingdom, Egypt, Iran and Turkey.

UNESCO officials said this was the first integrated study of the Silk Roads, whose history can be traced more than 2000 years.

Seminars, films and expeditions will be sponsored upon completion of the project.▼

## Conference Center Ideas Sought

The university will pursue proposals for the development of a conference center complex on the east campus.

The August 16 decision by the Board of Trustees follows a survey conducted by Pannell, Kerr, Forster, an independent consultant engaged by the university to evaluate market demand for such a facility.

Consultant findings indicate sufficient demand for a center which would include an 18,000 square-foot meeting center, a 100-room housing

facility, a 350- to 400-seat auditorium, an amphitheater for 75-100 persons, and a swimming pool and other recreational facilities.

The board action authorized Frank P. Cardimen, Jr., interim vice president for university extension and public service, to pursue requests for proposals for the development of such a complex.

Board consideration of any proposals and recommendations is necessary before any other actions can be taken on the proposed facility.▼

## Student Theatre Begins Season with Emotional Choreopoem

The Department of Music, Theatre and Dance begins its 1990-91 theatre season with an encore production of *for colored girls who have considered suicide/when the rainbow is enuf*.

FOCUS: **Student Events**

The emotionally charged choreopoem by Ntozake Shange played to standing room audiences last February when the Association of Black Students presented it during Black Awareness Month. Additional performances by the students at a Flint theatre last spring met with equal success, and their planned two-night run was extended to three. The ABS sponsors this production in cooperation with the Department of Music, Theatre

and Dance of the College of Arts and Sciences.

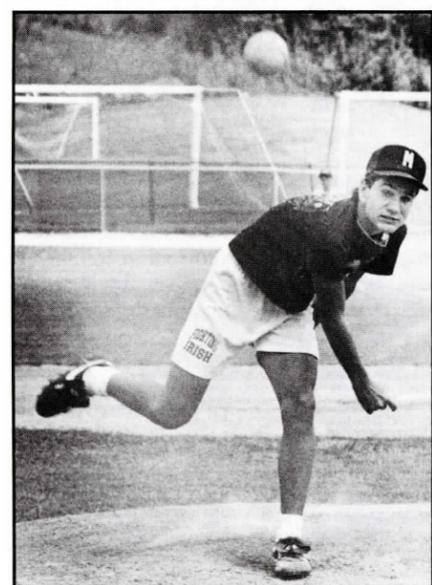

The choreopoem explores the experiences of black women growing up in America. It deals with such issues as love, abortion, abuse and, in particular, their relationships with men. In the end, the women celebrate their sisterhood.

The eight-woman cast, directed by Michael Gillespie, includes Pamela Anne Jackson, Tonja Lawrence, Daphne Briggs, Demeasa Heard, Monica Lane Jones, Carrol Reaser, Khia Smith and Kristie Walton.

Performances will be at 8 p.m. September 14-15 and 21-22 and at 2 p.m. September 16 and 23 in Varner Studio Theatre. Tickets are \$8 general admission, \$4 for students and senior citizens, and \$3 for OU students. Call 370-3013.▼

Past productions of 'for colored girls...' have quickly sold out.

### Duck!

A new summer camp this year brought young baseball players to campus to sharpen their skills.

## Nobel Laureate Speaking at Sigma Xi Dinner

Reservations are being accepted through September 7 for the September 14 lecture by the winner of the 1977 Nobel Prize in physiology or medicine.

Rosalyn S. Yalow will be on campus for the annual Sigma Xi lecture. Yalow is the pioneer of radioimmunoassay and will talk about *Radiation and Society*. Her invention is used by laboratories throughout the world to measure hundreds of substances of biologic interest in blood and other body fluids.

Yalow's visit is sponsored by Sigma Xi, a scientific research society.

In her talk, Yalow will explain that radiation exposure is a much weaker carcinogen than the general public believes it to be. "The public must be educated to appreciate that natural radiation exposure has been with us since the beginning of time, and that there are groups of people who have been exposed to 10 times the natural background that most of us receive with no detectable harmful effects," she says.

Yalow is Solomon A. Berson Distinguished Professor-at-Large of the Mount Sinai School of Medicine, City University of New York, and emeritus distinguished professor-at-large of the Albert Einstein College of Medicine, Yeshiva University of New York. She holds a doctorate in nuclear physics from the University of Illinois and 45 honorary doctorates from universities in the United States and abroad. In addition, she received the National Medal of Science in 1988, plus more than 50 other awards and prizes for her research.

The program begins with a reception at 6 p.m. in the Oakland Center Fireside Lounge. A formal dinner will follow at 7 p.m. in the Gold Rooms, and the lecture will begin about 8. Tickets are \$20 a person.

For reservations, call either Virinder K. Moudgil, president of the Sigma Xi chapter, 370-3553; Kathleen Moore, 370-2338; or William Wallace, 370-3409.▼

## Music Professor Raynold Allvin: A Pioneer in Computer Field

Associate Professor Raynold Allvin will be remembered for his work in promoting computers and music.

Dr. Allvin, 59, died August 17 while on a business trip to Rye, N.Y. In addition to his teaching at Oakland, he was president and creative director of ATF Entertainment, Ltd., in Auburn Hills. ATF arranged for musicians to appear on cruise ships and at theme parks.

Robert Facko, chairperson of the Department of Music, Theatre and Dance, remembered Dr. Allvin as a man who "had a very

active mind, always moving, always going. One of his great talents was his ability to field new ideas."

Upon arriving at Oakland in 1969, Dr. Allvin taught elementary music education. He later became chairperson of the department. Most recently he taught choral conducting and rudiments of music theory.

Dr. Allvin was among the leaders in the field of computers and music education, and wrote a textbook, *Basic Musicianship*, which addressed computer-assisted instruction. He

served as a consultant to several businesses that developed computer-assisted music programs. His doctoral dissertation at Stanford University on using computers with piano instruction, done in cooperation with IBM, was considered a pioneering study.

Dr. Allvin will also be remembered for establishing the commercial music program and the Meadow Brook Estate show ensemble.

His survivors include his widow Leslie, a daughter and two sons.▼

## Kellogg Fellowship Program Seeks Applicants

Persons interested in the Kellogg National Fellowship Program may now apply for 1991 awards.

The program, sponsored by the W.K. Kellogg Foundation, is designed to prepare leaders to effectively and knowledgeably deal with complex problems. The fellowship program seeks to involve professional men and women in the earlier years of their careers who are interested in developing interdisciplinary and cross-cultural perspectives in contemporary human and social problems.

KNFP awards will be made to approximately 50 individuals of exceptional merit and competence who have exhibited leadership potential in their community, organization or profession. To be eligible for the three-year program, an applicant must be a

U.S. citizen, agree to participate in all required activities related to KNFP, and receive 25 percent release-time from his or her em-

### Apply Soon for Rhodes Funding

If you've got what it takes to become a Rhodes Scholar, then hurry on over to see Ronald Kevern.

Materials pertaining to the 1990 competition for the Rhodes scholarship are now available for review. Kevern, assistant vice president for student affairs, says applications must be postmarked no later than October 22.

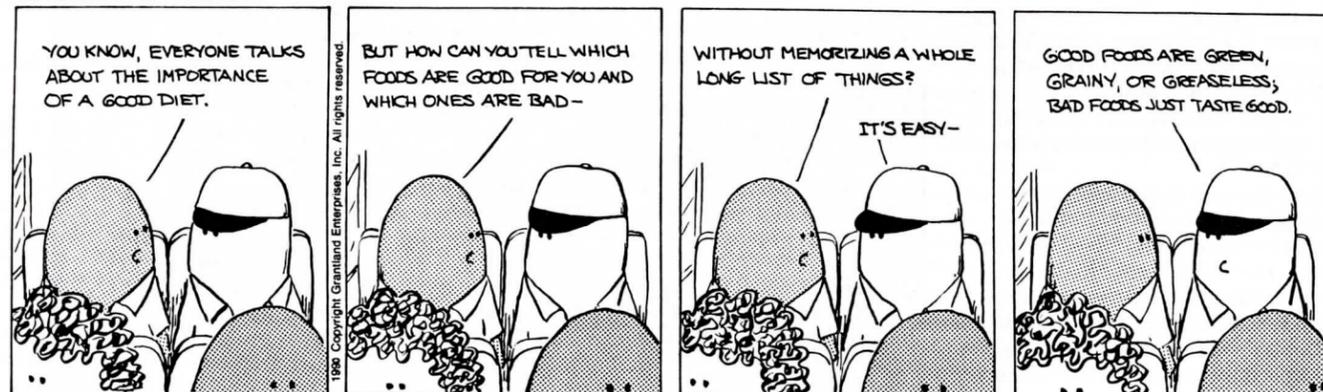

Interested persons may pick up applications in 364 SFH.▼

ployer to carry out a nondegree, self-directed learning plan.

Fellows must attend seven seminars at various locations, one of which is a two-week seminar in Latin America. The award includes \$35,000 for the development and completion of the learning plan and \$6,000 to be used only for travel expenses incurred while participating in required seminars. For persons employed at nonprofit organizations, the foundation will support 12.5 percent of their salary, not to exceed a maximum to be determined by a KNFP formula.

Individuals who qualify and are interested in applying should call Maxine L. Perry, director of corporate and foundation programs, 104 NFH, or call 370-4247. The application deadline is December 14.▼

### GRANTBAND®

### It's Been a Trilling Experience

Vocal meister John Dovaras must like the OU Community Chorus: He's coming back for his 25th season as conductor.

The 150-voice chorus begins rehearsals on September 11 with Dovaras, an associate professor of music, at the helm. The chorus is one of the university's longest-running community programs. It includes university students as well as voices from the community.

The chorus, now entering its 28th season, performs large, standard choral works by the masters. Call 370-3120 to join.▼
