OU engineering faculty awarded grants

Five different faculty members in Oakland University's **School of Engineering and Computer Science** recently won grants to continue their research. Those receiving a grant award include Gautam Singh, Zissimos Mourelatos, Lunjin Lu, Jia Li and Qingchong Liu.

Gautam Singh received a $202,000 award from the National Science Foundation for his project titled "Integrating Bioinformatics Concepts into Computer Science Curricula: a Cognitive Assessment Driven Strategy."

Zissimos Mourelatos received a $55,000 award from the University of Michigan Automotive Research Center for his project titled "Reliability and Robustness in Optimal Design."

Lunjin Lu received a $40,000 award from the National Science Foundation for his project titled "Backward Analysis of Logic Programs."

Jia Li received a $23,115 award from the Aerospace Corporation for her project titled "Software Development for Free Space Laser Communications."

Qingchong Liu received a $14,448 award from the National Science Foundation for his project titled "REU Supplement: Multiple Level Sequences and Application in Communications Networks and Clinical Environment."
