Professor named senior member of IEEE

Djamel Bouchaffra, assistant professor in the **School of Engineering and Computer Science**, has been named a senior member of the Institute of Electrical and Electronics Engineers Inc. (IEEE).

"I am pleased with this achievement of Djamel who joined us only a year ago," said Ishwar K. Sethi, professor and chair of the **Department of Engineering and Computer Science**. "It reflects well on our department and the high quality of the faculty that we are able to attract and retain."

Senior member is the highest professional grade and only 8 percent of 365,000 IEEE members achieve that level. The IEEE helps advance global prosperity by promoting the engineering process of creating, developing, integrating, sharing and applying knowledge about electrical and information technologies and sciences for the benefit of humanity and the profession.

SUMMARY

Djamel Bouchaffra, assistant professor in the School of Engineering and Computer Science, has been named a senior member of the Institute of Electrical and Electronics Engineers Inc. (IEEE).
