

Success tasted sweeter than ever today for several thousand Pontiac Area United Fund workers who pushed the drive for \$672,500 over the top—and then some.

There were congratulatory hand shakes and pats on many backs all around this noon at the Elks Temple, where Thomas F. Wiethorn, general campaign chairman, gladly announced: "We did it."

He said that during the 23-day drive the three

major divisions raised \$674,535 — making it the fourth consecutive year in 13 campaigns that the Pontiac Area United Fund had either reached or surpassed the quotas.

"I'm extremely proud of every single one of you here today, but more especially I say three cheers and heartfelt thanks to the thousands of persons and firms in this community who demonstrated again that they have big hearts when it comes to giving once for all," Wiethorn told the 200 persons gathered for the victory luncheon.

Offering his praise for the entire community and the leaders and workers of the 1961 campaign was Earl J. Hill, principal speaker. Hill is administrative assistant in public relations for the Consumers Power Co. in Jackson.

An 11th hour move in the commercial division enabled this division, which had reached 86 per cent of its \$179,876 goal at this time yesterday, to report success today at the luncheon.

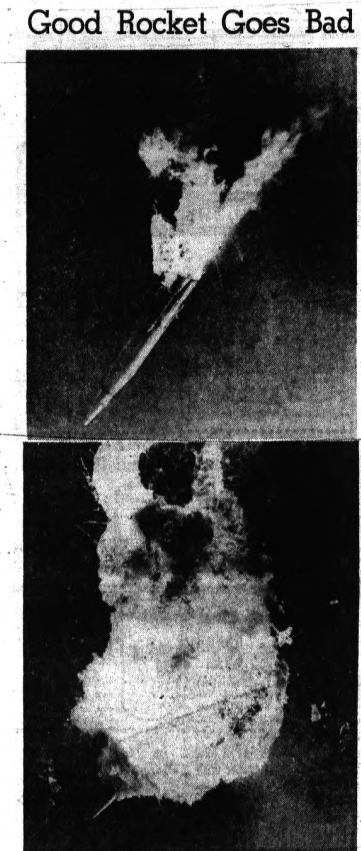

Otto Hufziger, vice chairman of the division, thanked the chairmen and contributors in the

government and professional groups in the division "for last minute efforts which made it possible to report victory today."

Hufziger, subbing for Harry J. Woodman, chairman of the commercial division, said the amount raised by the division came to \$180,427.

Under Hufziger's leadership, the contributors in the Pontiac School System reported 117 per cent of their goal.

(Continued on Page 7, Col. 6)

ATLAS MISSILE IN TROUBLE — Shortly after it was launched from Cape Canaveral today, this Atlas missile (top picture) strayed off course and exploded (bottom). A tiny squirrel monkey named Goliath gave his life to science when he died in the explosion. When the missile became erratic, the range safety officer destroyed the rocket.

Goliath Serves Mankind as Atlas Goes Haywire

CAPE CANAVERAL, Fla. (U)—A tiny squirrel monkey named Goliath gave his life to science today when he died in the blazing explosion of an Atlas missile high above Cape Canaveral.

Officials reported there was no chance the 1½-pound animal survived the holocaust which occurred 30 seconds after the Atlas lifted off on an intended 5,000-mile flight to the South Atlantic Ocean.

The Air Force said the range safety officer destroyed the missile when it became erratic.

The blast opened a boiling ball of fire several thousand feet in the air and showered burning pieces of the shattered rocket back onto the Cape area and into the Atlantic just off shore.

Seconds after the blowup, the thunder-like rumble of the blast rolled over the nearby beaches and the town of Cocoa Beach.

Goliath probably died at the instant of explosion. He was in a well-padded capsule located near the base of the 12-foot-tall nose cone and just above one of the fuel tanks.

NO ESCAPE DEVICE

There was no escape mechanism to pull the monkey capsule free in such an emergency. An escape device if provided on Project Mercury launches.

If all had gone right today, the Atlas would have hurtled the nose cone 650 miles into space before it

Doubt Concessions From K on Berlin

Pontiac 'Serves' Man Who Served Pontiac

By DICK SAUNDERS

They forgot about budgets, tax rates, urban renewal, federal aid and all that jazz at city hall yesterday.

Instead, everyone got a piece of the proposed perimeter road, or the airport terminal or the new sewage treatment plant.

It all happened at a retirement party for City Manager Walter K. Willman. Some 300 people came to the shrine room at city hall to pay their respects.

In return, the city gave them a slice of some mighty big projects. There were three big cakes. The largest was decorated with an aerial view of Pontiac's proposed perimeter road.

The others depicted the terminal building at Pontiac Municipal Airport and the proposed sewage treatment plant — all in smooth watering frosting.

Mayor Philip E. Rowston, speaking in behalf of the city hall employees and City Commission, presented Willman with a set of binoculars bought by employees.

SAYS THANK YOU

Willman thanked them for the gift and concluded "I guess I'll take up bird watching."

Flowers were also presented to Mr. and Mrs. Willman from city employees and Waterford Township Fire Chief Elmer Fangborn.

Paul A. Hoskins, water collection superintendent and "artist," presented Willman with a few cartoons he painted for the occasion.

To make it a little easier to wash down the plant, terminal and top road, female employees served ice cream and coffee. There were also candies, nuts and homemade cookies from the kitchens of city hall secretaries.

Some 30 members of the party committee, headed by Assistant City Manager Robert A. Stierer, made the event a huge success.

Among those attending were former mayors and former city commissioners.

Everyone Happy, Beautiful Fall Weekend Coming

Sports lovers will enjoy outdoor events without shaking and shivering this weekend. Temperatures will be on the cool side tonight about 35 but will shoot up to 52 Saturday.

For the next five days temperatures will average about four degrees above the normal high of 48 and low of 34.

Only minor day-to-day changes will take place with a gradual warming trend through most of the period.

Precipitation will total less than one-tenth inch in a few light snow flurries about Monday.

The low temperature prior to 8 a.m. was 29. The reading at 2 p.m. was 45.

News Flashes

SAN FRANCISCO (U)—Three gunmen, after holding families of two bank officials prisoners overnight, robbed a Bank of America branch today of around \$75,000.

DETROIT (UPI)—The Detroit Lions and the Washington Redskins today exchanged defensive halfbacks Jim Griffin and tackle Robert Whitton in a waiver deal.

\$21.5 Billion to Be Spent Foresees Top Car Year

ANN ARBOR (AP)—An all-time record year for the automotive industry, with \$21.5 billion being spent for more than 7 million cars and parts in 1962, was forecast here today.

The prediction was made by Dr. Daniel Suits, a University of Michigan economist whose studies on the nation's economy have resulted in remarkably accurate forecasts during the last 10 years.

Delivering his report to delegates at U. of M.'s ninth annual Conference on the Economic Outlook, Suits said:

"The auto industry can expect a better than seven million-car year in 1962, with a phenomenal increase of 25 per

Engines Quit ... Fuel Starvation?

RICHMOND, Va. (AP)—The pilot of the ill-fated Imperial Airlines Constellation said today two of the craft's four engines were out, a third was losing power and the nose wheel was sluggish in going down when he pulled away from an attempted emergency landing at Richmond's Byrd Field.

Moments later the plane crashed in a wooded less than two miles from the runway Wednesday night.

Seventy-four Army recruits and inductees and three crew members died in the burning airplane.

Kennedy, Nehru Agree on N-Test Ban Treaty

WASHINGTON (U)—President Kennedy and Indian Prime Minister Nehru have "agreed on the urgent need for a treaty banning nuclear tests with necessary provisions for inspection and control."

The agreement was contained in a communique issued Thursday after Nehru completed four days of talks with the President. The Indian leader flew to New York today.

Nehru's acceptance of the U.S. position on the need for controls indicated some slight modification in the Indian position.

The Indian Delegation at the United Nations had held to the line that the United States, Britain and the Soviet Union should forgo all testing, pending an agreement on an inspected test ban treaty.

At the same time, Nehru apparently has not accepted the U.S. claim that the resumption of underground testing by the United States—and perhaps of future atmospheric testing—is fully justified on the grounds of self-preservation. Nehru has said he is flatly opposed to any nuclear tests by anyone.

REDS BROKE BAN

Kennedy pointed out that the Soviet Union had broken a previous, informal test ban and "reaffirmed the United States' unwillingness to accept a further uncontrolled test moratorium."

Earlier, at a National Press Club luncheon, the Indian leader called the Soviet resumption of nuclear testing "a very harmful, disastrous thing."

Canada Expects Immigration Lag to Top Most Years

OTTAWA (UPI) — Canada appears headed for one of its poorest immigration years since the postwar influx of more than 2 million persons began in 1946.

Figures issued by the immigration department Wednesday showed that 55,588 newcomers arrived in this country in the first nine months of the year — a drop of 17.6% or about 20 per cent from a year ago.

Should the trend continue at the same slow pace the 12-month total will probably be around 70,000.

Limits Schools' Use of Installment Plan

LANSING (U.P.) — Except for school buses and pedestrian-overpasses, school boards may not purchase supplies and equipment on an installment basis, Atty. Gen. Paul L. Adams said Thursday.

The state school code also prohibits boards from entering lease agreements for supplies or equipment with option to purchase with the exception of lunchroom equipment, voting machines and pedestrian overpasses, he said.

The opinion was asked by Dr. Lynn M. Bartlett, state superintendent of public instruction.

'Please Touch' Exhibit

NEW YORK (UPI) — A unique "Please Touch" exhibit recreating the interior of a Dutch home in New Amsterdam is on display at the Museum of the City of New York. The exhibit was planned for children aged 6 to 13 years, and they are invited to handle objects in the exhibit as much as they please.

GTW Will Remove One Rapid St. Spur

The Grand Trunk Western Railroad has notified city officials it will remove a spur line track on Rapid Street early next month. The spur line is one of three crossing Rapid just west of South

Saginaw Street. A high grade there has caused several auto accidents in recent months prompting the city to ask for a change in grade or removal of the track.

The two main line tracks will remain. A temporary surface will replace the spur line until spring when the city will repave the area.

End Mercy Air Drop

LONDON (U.P.) — The Royal Air Force has completed a month-long mercy air drop to its starving subjects in Kenya, the air ministry announced Thursday.

Schedule Programs for Junior Scientists

Three Saturday morning programs for junior members of Cranbrook Institute of Science have been set for Nov. 11, 18 and 25 at 10:30 a.m. in the Institute auditorium.

The first program deals with "Exploring Math" to be followed by "Exploring Telescopes" and "Exploring Indians of North America."

Programs will consist of color films, slides, demonstrations and the use of museum material, such as displays in the Institute's new main hall, the six inch refractor telescope and Indian articles from the collection.

There is no admission for Junior members 10 years or older.

Woman Flier's Husband Files Suit for Divorce

SAN DIEGO, Calif. (AP)—Aviatrix Aileen Stenders' husband is suing for divorce.

In a complaint filed Wednesday, Walter B. Saunders, 46, charged his wife, 36, twice winner of the annual "Powder Puff Derby" had affairs with other men and taunted him with the details.

He also alleged that she had threatened him many times with a gun and requested a court order barring her from annoying, attacking or molesting him.

Korea, formerly the Hermit Kingdom, has a recorded history dating from 37 B.C. The country was united in a kingdom under the Silla dynasty in 668 A.D. Korea was at various times associated with the empire.

FAA to Conduct Collision Tests

Project to Determine Pilot's Ability to See and Evade Target

WASHINGTON (UPD) — Six "guinea pig" pilots will go through the frightening experience of an aerial near-miss 24,000 times during the next year.

They are scheduled to encounter 24,000 simulated collision courses in a special Federal Aviation Agency (FAA) study of collision-prevention techniques.

The FAA project is designed to determine a pilot's ability to detect a target, evaluate its threat and test his skill at choosing the right evasive maneuver. The pilots will use a flight simulator and an aerial gunnery trainer to create make-believe but intensely realistic collision situations. Two more pilots will be added for a second series of nearly 10,000 tests involving detection of targets that vary in size and contrast.

The Sperry Gyroscope Co. (of Great Neck, N.Y.) is conducting the 12-month study at FAA's Atlantic City, N.J., research center under an \$85,000 contract.

Drought Hurts Georgia

ATLANTA, Ga. (AP)—The U.S. Department of Agriculture has been asked to declare Georgia a drought disaster area as the state nears the end of its second month without significant rainfall.

Goldwater Says Not Thinking of GOP Nomination

WASHINGTON (AP) — Sen. Barry Goldwater, R-Ariz., denied Thursday that he is "even thinking about the Republican presidential nomination" in 1964.

By telephone from Los Angeles, he rejected a published report that he has settled on

Rep. Gerald Ford Jr., R-Mich., as his vice presidential running mate if he wins the party's top place next time.

"All my efforts and thinking now are devoted to the 1962 campaign," Goldwater told office aides here.

The senator is chairman of the Republican Senatorial Campaign committee which is helping Republican candidates for the 36 Senate seats which will be at stake in next year's election.

We Must Not Avoid War at Cost of Our Freedom

Veterans' Day has an added significance this year, when our tanks have been lined up facing the Russian machines across the narrow border in Berlin.

Many people believe we are closer to war today than we have been since 1945. Memories of the thousands who died in World War II and Korea have not faded so badly that we cannot fervently hope to avoid another world holocaust.

But avoiding it at the cost of surrendering to the Reds is equally appalling. Those who died before died for something worthwhile. We must not barter it, and them, away, merely for survival.

To survive means to live, and to live, men must be free. Life under the Communist form of government is not life, but machine-like existence.

Some Parole Board Actions Baffle Citizens

The average citizen doesn't comprehend the modern parole system too well. We confess this newspaper is in that unhappy category.

So is the New York World-Telegram.

It comments on the parole system as it works in New York State as follows:

"What's wrong with New York State's parole system is personified in WILLIAM JAMISON.

"A vicious, incorrigible criminal, JAMISON has spent more than half of his 49 years behind bars. His record includes robbery, assault, carrying guns and knives, larceny, forgery and six parole violations.

"Jameson's specialty is stabbing and robbing women. One such crime—committed in 1952 while he was on parole—put him behind bars for the eighth time.

"Last week he was out again—on parole. Four days after his release, he followed a 60-year-old woman into a self-service elevator, stabbed her of all the money she had with her—30 cents—and wantonly stabbed her.

"Did the State Parole Board know what it was doing when it let this guy out? Chairman RUSSELL G. OSWALD says yes, it did—JAMISON's full record had been reviewed. He was paroled, said Mr. OSWALD, to face another robbery charge pending against him since 1952.

"That charge, however, was thrown out—and JAMISON left the courtroom a free man, on parole.

"A parole board has two functions. One is to release prisoners whose records and behavior indicate a high probability of rehabilitation. The other is to protect society, as long as the law allows, from unregenerate types whose records and behavior mark them as dangerous.

"Last summer the parole board turned loose a convicted murderer who promptly committed two more senseless murders in Astoria. As we commented at the time, when even a freed killer knows how dumb the authorities were to let him out to kill again, that makes it unanimous.

"We said then, and we repeat now, that it's up to Gov. Rockefeller to give immediate thought to replacing stupidity with sense on the parole board."

Are Ambulance Drivers Becoming Reckless?

Screaming sirens and excessive speed of ambulances traveling our city streets might well be a subject for discussion by our city fathers if the recent findings in Flint are correct.

Investigations by officials of Hurley Hospital disclosed that of 2,500 consecutive ambulance runs

that haste was unnecessary in 98.2 per cent of the cases.

It is entirely possible that our local figures might be similar. Should this be true, we feel a little more care and caution might soothe our local blood pressures.

From the findings in Flint they concluded that ambulances should use sirens and have the right of way, but should observe local speed laws.

The Man About Town

Seeking Options

Nearby Gas Field Makes Promoters Active Here

Monkey wrench: What is thrown more than properly used.

Another oil and gas well attempt is budding in the Pontiac area. It is actuated by the finding of rich gas deposits in St. Clair County, only a few miles east of here, and the closest to Pontiac that paying deposits have ever been found.

The option men are again at large among us. They're offering anywhere from one dollar per acre upward for oil and gas rights on any property. As previous options have expired in most cases, they have good hunting.

The last attempt at sinking such a well in the Pontiac area was a few years ago when the pipe was driven a mile deep in Springfield Township, about 12 miles northwest of here.

A small vein of oil was struck, but not in paying quantities, and the well was abandoned. The pipe was driven through a strata of salt brine over 250 feet thick.

A later Oakland County attempt was made in Addison Township, near Leonard, but this also was given up, and one near Holly met the same fate.

You won't have to tickle your memory much to prove that this is an exceptional autumn in the Pontiac area. According to

Andrew Askins of Waterford, (and our own records), it was only ten years ago today that Pontiac was digging itself out of a foot of snow. Highways were blocked and some schools closed.

Word comes to me from Flint's Recreational Director,

Harold Bacon, that Pontiac was well represented at Thursday evening's annual regional square dance festivities in our sister city.

Lansing author and historian,

Mrs. Blanch B. Cogan,

has been making a study of the slavery "underground railway" activities of over 100 years ago. It is a historical fact that Pontiac was one of Michigan's "depots" through which southern slaves were enabled to escape to Canada. The cellar of a house which then stood on Williams Street was alleged to be the local hide-out.

A rather unique distinction is held by

Edson Doolittle of 2537 Desmond St. He feels that he is one of the very few people who have four aunts and uncles who are brothers and sisters, at an average age of 86 years.

We have plenty of abandoned cisterns, and

Morris Terfeld of Pontiac Lake wonders why they cannot be converted into fallout shelters.

The Farmer's Daughter Comes Home

David Lawrence Shrugs His Shoulders:

Hard to Figure Out Voting Trends

WASHINGTON—When President Franklin D. Roosevelt was asked at a press conference one day in 1938 about an off-year election in which the Democrats lost seats in Congress, he insisted that the issue was "local" and that it was not logical to try to draw from the results any inference of a national trend.

President Kennedy at his Wednesday press conference was also well aware

of the tendency to draw conclusions from election results across the country and frankly said that, if the Democrats had lost in the races for governor of New Jersey and for mayor of New York City, there would have been plenty of crying by Republicans interpreting this as a vote of disapproval of the administration and its policies.

But, leaving aside the naturally partisan viewpoints expressed by politicians on the day after an election, the fact remains that, when the statisticians in each party headquarters start examining the figures in detail, they will be telling the leaders that the 1961 election shows some discouraging factors for the Democrats and some very encouraging ones for the Republicans.

For an analysis of the statistics in congressional elections in the last three decades reveals that the party in power, with rare exceptions, loses ground in off-year elections. The trend downward, however, during the 1954 and 1958 off-year elections of the two Eisenhower terms was so marked that it has never been satisfactorily explained.

A BIGGER DROP For in some congressional districts the Republican drop-off in voting often amounted to as much as 50 per cent while the Democrats, due to intensive organization or labor union support, would rarely drop as much as 20 per cent.

Republican statisticians have been trying for years to figure out reasons for this. The results in 1951 suddenly show a reversal of the tide. Thus, in New Jersey in the gubernatorial race, the Republicans made a gain of about 15,000 votes over their vote for governor four years ago while the Democrats gained only 3,000 votes compared to 1957.

If it had not been for the predictions made by some of the Republican leaders in New Jersey that their candidate would surely win, and if instead they had spoken of a close race, the public would not have been surprised at the result when Mitchell lost.

What, it may be asked, is the basic reason for this upsurge of

the Country Parson

What happens, in brief, is a constant increase in the iron content (calcium) of the blood. As changes are noted in the eyes. There may be aching in the bones and joints; kidney function is impaired. Stones may form in the urinary tract.

Parity as a result of these complications, many physicians have abandoned the once-classic Sippy routine.

Indeed some stomach specialists have come around to the view that I have long held that patients do as well, if not better, on a "permissive" diet. By this is meant a diet that consists of foods the patient knows, by experience, "sit well" with his particular and peculiar intestinal tract.

While on a permissive diet, medication is reduced to a minimum. Discomfort and even pain are avoided or relieved by frequent feedings. And these feedings are taken again according to experience, not by the time clock.

Dr. Heman appreciates comments and questions but regrets that the heavy volume of his mail does not permit him to answer each individual letter or post card. However, he will comment in col-

Republican strength? Can it be attributed to any dissatisfaction with national policies, and can the Democratic vote be regarded as a vote of approval of the Kennedy administration?

The answer that has to be given is that in every case the issues were local and there was not the slightest connection with national policies. This doesn't mean that attempts to drag in the national situation were lacking, for the Democrats in New Jersey did try to make it a vote of confidence in the Kennedy administration.

A NEGATIVE VOTE What may really be inferred from a study of the results of local elections is that discontent with an existing mayor or governor plus a negative vote in a subsequent election.

The party in power has uniformly lost ground in off-year elections, and this was true even in the New Deal era.

Roosevelt at the top of the ticket came through with a big-

ger majority for a second term for the first, but thereafter between presidential elections the Democratic administration lost seats in both houses of Congress.

The party out of power usually benefits from mistakes made and from accumulated grievances. But there are signs sometimes that, when such emotions bring the voter to the polls in off-year elections, the total vote of the opposition is likely to be larger.

The Republicans did get their vote out in many places last Tuesday, including New York City, where they made a 42 per cent increase in their vote as compared with four years ago.

The Republicans have always claimed a large reservoir of strength. This has been regarded by them as a potential balance of power in elections, but it has never been determined conclusively by anybody whether the stay-at-home conservatives or radicals or just indifferent citizens.

Dr. Harold Hyman Says:

Permissive Diet Better

Then Sippy for Ulcers

Q—My husband has had a stomach-ache for years. Whenever it begins to bother him, he puts himself on the Sippy diet of milk and cream with the alkaline powders he was ordered to take when he was first treated.

Last week he had an attack of kidney colic and the specialist who examined him found a stone and said the stone might have formed as a result of the diet. Could that possibly be true? If it's true, he should discontinue the diet?

A—The answer to both questions is "yes." For some years now the sequence of events you describe has come to be recognized by all observant physicians.

In fact, it's become so common it's been given its own name of the "milk-alkali syndrome" or "Burr's syndrome." After the doctor who first called it to his colleagues' attention.

STONES MAY FORM What happens, in brief, is a constant increase in the iron content (calcium) of the blood. As changes are noted in the eyes. There may be aching in the bones and joints; kidney function is impaired. Stones may form in the urinary tract.

Parity as a result of these complications, many physicians have abandoned the once-classic Sippy routine.

Voice of the People:

'All Americans Must Keep Flame of Liberty Burning'

"Gen. Walker resigns military post to avoid being muffled." "Van Fleet tells Adlai where to go." "Detrouers pick the Polish Communist dancers appearing at the Masonic Temple."

Who says patriotism doesn't count? Who said that loyalty to one's country is an absolute notion that should be saluted away like an old B-29? The flame of liberty flickers, but burns brightly. Let's keep that flame going.

There are some who may say that it won't go out—I say it can—I say it will if Americans like you and me don't keep that flame fueled. Pray that it won't go out.

'Can Remedy U.S. Lag'

NEW YORK (AP)—Former President Herbert Hoover said today the United States is behind the Soviet Union in producing scientists and engineers but that the situation can be remedied.

Hoover, a former engineer, spoke at a ceremony dedicating a 20-story, \$12.5-million United Engineering Center at United Nations Plaza and 4th Street.

A joint committee of engineers raised funds for the structure. It will house 20 engineering societies and provide what Hoover called "more unity of purpose in our professions."

Hoover said the engineering professions have two major responsibilities to the American people. One, he said, was to "keep the American standard of living ahead of all the world."

"RESPONSIBILITY" "We also have a responsibility," he said, "to see that we maintain the supply of trained scientists and engineers needed by our growing economy and our national defense."

Hoover said the engineering professions have two major responsibilities to the American people. One, he said, was to "keep the American standard of living ahead of all the world."

Commenting on the center's location, Hoover said in his prepared address: "We did not decide to erect this 20-story structure in order to keep an eye on the United Nations across the street."

"But we may hope that the fallout of brevity, utility and constructive action streaming from these rooms might penetrate into their assemblies."

"On our side of the street engineers do not need shelter from the radiations of Karl Marx of the segments of the United Nations."

Case Records of a Psychologist:

Girls: Don't Be 'Gullible Gerties'

By DR. GEORGE W. CRANE
CASE K-47: Marilyn G., aged 17, a beautiful high school senior.

"Dr. Crane," her family physician informed me, "I wish you could use Marilyn's case to warn other teenagers about venereal disease."

"For Marilyn comes from a fine family and is a lovely girl, but she went to a dance at the country club and they served DR. CRANE

"En route home, her escort overwhelmed her with petting and fondling of his love, so they had an affair."

"What Marilyn didn't know was that this boy had a venereal disease."

Marilyn has developed a severe case, because she didn't dare tell her parents until too late.

"As a result she will never be able to bear any babies when she marries. She will be sterile the rest of her life."

"And when she's sobered up next day, she realized she didn't care for this boy, anyway."

"So please warn young people about premarital sexual affairs."

TEENAGE POLLY
Dr. W. J. Brown, Chief of the Venereal Disease Branch, of the Atlanta Center, has sent us medical colleagues some very shocking data.

Commissioners Want to Change State Weed Law

City commissioners are disturbed about a state law restricting municipal weed cutting and they're going to let state legislators know about it.

The city will ask Rep. Arthur J. Law, D-Pontiac, to ask the legislature to revise the statute.

It requires that any subdivision must be 60 per cent occupied before the city can go in and cut weeds. This is what the commissioners object to.

"There are a lot of places in this city where weeds grow wild just because the subdivision hasn't been 60 per cent built up yet," said Dugan.

"There should be no restriction on cutting weeds."

The commission had received several complaints this summer from property owners in such areas where municipal weed cutting was not allowed under the 60 per cent ruling.

Malaria is a common disease in 13 of the United States.

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. **FASTRETH**, an improved alkaline (non-acid) powder, applied on your plate builds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get **FASTRETH** at any drug counter.

Building Permits Down in Region

Southfield, Royal Oak, Bloomfield Twp. Place in Top Ten

Southfield, Bloomfield Township and Royal Oak were among ten communities leading the area in number of residential building permits issued in the first nine months of 1961.

The Detroit Metropolitan Area Regional Planning Commission said permits in the area have continued to decline during this period — but not as rapidly as last year.

The city of Pontiac has issued a total of 179 for the period, a report shows.

Warren in Macomb County continues to lead the region with 2,689 permits granted through September.

A total of 13,351 permits were issued in the entire region through September this year.

Southfield granted 462, Bloomfield Township 355 and Royal Oak 344.

For the same period last year, only Royal Oak and Farmington Township from Oakland County placed in the top ten.

Number of permits in all of Oakland County declined from 3,164 in 1960 to 3,084 for the nine months of this year.

Can Now Replace Business District Slums

Federal Aid to Cities Has Come Long Way

By HOMER DOWDY
Pitt Journal Staff Writer
Written for the AP
Federal programs aiding cities with their redevelopment problems have come a long way since slum clearance began under Washington's sanction in the 1930s. Eradicating slums and replacing them with adequate housing are still important aspects of the government's urban renewal program. But little by little, legislative acts have broadened federal assistance to make possible such things as replacement of business district slums.

Rapidly has launched a \$16.5-million clearance and rebuilding program for the north end of its central business district. Buildings on about 40 acres will be razed. A new street-pattern is being designed. About 12 acres will be devoted to a new civic center, the rest to nonretail commercial use.

Donald W. O'Keefe, director of the city's renewal program, estimates that once the land is acquired and cleared, the part to be resold to private investors will bring \$3.3 million. This will be subtracted from the project's gross cost. Of the remaining net of \$6.3 million, the federal share will be \$4.3 million and the city's \$2.1 million.

Grand Rapids, however, does not expect to put a penny into the project cost directly. By donations of land for public buildings and street and utility construction, the city will pay for its share of the project.

the Grand River. Demolition has started, the old city market has been removed and resale of cleared land to industry is to start next year.

The city is now beginning to think in some detail about two other projects that may cost around \$20 million. Although their start, let alone completion, is some time away, the mechanics of the federal-local program demands money, even years, to launch a project.

Approve Liquidation of State Timber Firm

GRAND RAPIDS (AP) — Stockholders of Calaveras Land & Timber Corp. have approved liquidation and dissolution of the Michigan firm which holds about 60,000 acres of timberland in California. The firm has its offices in San Francisco.

R. Dale Law, attorney representative for the firm, said stockholders also voted to accept an offer by American Forest Products Corp. for purchase of all Calaveras land and timber.

Since 1939, the combined expenditures of the provincial and municipal governments in Canada have increased by about 800 per cent.

Fire Didn't Stop Stars From Usual Activities

By EARL WILSON
NEW YORK — The show must go on, and all that sort of thing . . . Peggy Lee announced to her audience at Basin St. East—including Doris Duke—that her Beverly Hills home was not damaged in the forest fire. "It did upset me at first," Peggy said; later adding, "Forget that part. Nothing ever upsets me" . . . Zsa Zsa Gabor, twisting prettily at the Arthur Murphys' party at the Four Seasons, despite the burning of her \$170,000 home, was ecstatic that her three dogs were saved . . . Comedian Dick Gregory phoned from the Beverly Hilton Hotel that fire victim Joe E. Brown trooped into the lobby in shorts: all the clothes he could find . . . and Agent Abner Greshler said he and Red Skelton had flown NY to LA to find fire was raging around their homes . . . but Greshler was elated to discover that his only loss was around what Hollywood calls "the pool area."

Janet Leigh doesn't get discouraged easily but after her children had the measles, she suffered a shoulder injury, the maid had an appendectomy and a secretary fell downstairs, she's decided to leave Argentina and come home. She'll leave Tony Curtis there with Yul Brynner and the rest to finish the picture "Taras Bulba."

THE MIDNIGHT EARL . . . Frank Sinatra postponed his Nov. 17 trip here. (Because JFK's due in California then?)

Comic Shelley Berman's father Nathan, a widower, rewed in Chicago . . . Richard Rodgers asked Lisa Kirk about her wireless mike gimmick, wants to use it in his Broadway musical, "No Strings."

Jack E. Leonard climbed out of the audience to do The Twist in Nat Cole's Copa act . . . Bob Hope wants to buy the chapel on the liner Liberté, which'll be retired after its next trip. . . Paris papers say the best Twister in town is ex-Queen Soraya.

EARL'S PEARLS: Nowadays we're divided into three groups — the haves, the have-nots, and the charge-its.— Dawson County (Ga.) News.

TODAY'S BEST LAUGH: There's a supermarket in Alaska (reports Arnold Glasow) that's selling something new—un-frozen food.

WISH I'D SAID THAT: The height of frustration is a woman with a live secret and a dead telephone. Those new Russian H-bombs are so dirty, claims Dick Gregory, that they've been banned in Boston . . . That's earl, brother.

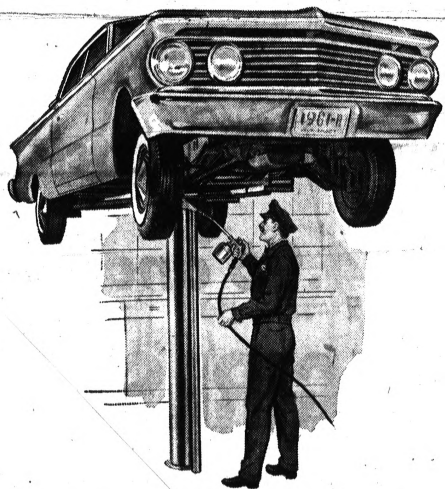

(Copyright, 1961)

Bronze or copper slabs weighing about 60 pounds and shaped in the form of an ox hide were used money in the Eastern Mediterranean from 1600 to 1000 B.C. Called talents, the pieces represented the value of an ox.

Fallout Shelter Now Becomes Status Symbol

By PHYLIS BATTELLE
NEW YORK—Americans have a Midas mentality. They want everything they

touch to glitter like gold. That is evidenced by the fact that the family fallout shelter has now become a status symbol. Many landowners are holding subterranean soirees, showing off

their digs to friends and business associates as proudly as if their survival headquarters were a new baby or, more currently impressive, a new swimming pool.

"How do you like it?" beamed an upstate New Yorker to a guest. "It is," said the other thoughtfully, "the end." But California, as usual, puts

on the grandest show of its handy-dandy new acquisitions. Latest reports from the Coast are that Lucius Beebe has a shelter equipped with champagne and caviar. A Southern California manufacturer is offering a combination fallout shelter-swimming pool. It is a large, concreted gouge in the earth, divided into two sections—one to splash in, one to dash in—when either the weather or the war, respectively, gets hot.

The swim-survival setup features a wall with windows in it, so that you can go into the fall-out and take pictures of swimmers underwater, while you're waiting around for the day of reckoning.

Fun, fun. And the whole business for only \$5,000. A West Coast magazine this month features pictures of a variety of shelters, from simple to lavish, with children scrambling merrily around them, having a ball. How nice to be a child, and not fully to understand that this latest underground doll's house is more than a toy.

WANT THE BEST
No more lucky, of course, than many of their elders who are likewise immature enough to look upon a shelter as a symbol of their financial ability to give their family the best, rather than as a true defense against annihilation.

I don't know which phase of the family shelter business is more disturbing—the emotional controversy over whether men will turn into beasts to protect the entrance to their family fall-out cellar in the event of actual attack, or the very evident fact that such a desperately basic

life-and-death commodity should be treated by some members of modern society as a symbol of ego and/or affluence.

Which type of animal do you prefer? The primitive kind which claws, or the over-civilized kind that cloy?

It's a toss-up. Which reminds me, have you heard of the fancy fallout shelter with all goldplated fixtures, including a chic, 14-karat revolver for playing an amusing round of Russian roulette?

Cassie Stinnett of Holiday magazine reports two recent incidents of Russian subversiveness:

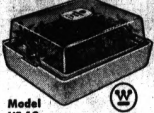

French delegates to the Moscow Trade Fair, understandably alert to the possibilities of their hotel room being bugged, cut through a maze of multicolored wires they found hidden under the carpet. The floor was thick, but not so thick that it deadened the sound of the chandelier crashing in the room beneath them.

And at the Seattle zoo, a post-mortem was performed on a dead seal. His stomach contained 221 pennies, 12 nickels, eight dimes and one German pfennig. It was "officially announced that the pennies were minted in WEST Germany, much to the relief of everyone."

19 Filipinos Die, 43 Hurt
in Election Campaign

MANILA (AP)—The official toll of political violence in the Philippines presidential campaign grew to 19 dead, 43 wounded Thursday. The Philippine News Service tallied 34 dead, 32 wounded and said it is the bloodiest campaign since 1953.

Vice President Diosdado Macapagal of the opposition Liberal party is pitted against President Carlos P. Garcia in the election next Tuesday.

Injury to Eyelid Not Too Serious

Naval Secretary Would Find Boy With Bayonet and Reassure Him

AUSTIN, Tex. (UPI)—Navy Secretary John Connally was moved today by the young man who poked him in the eye with a rifle that had a bayonet fixed on it than he was about his injury.

He said he planned to find out who the boy is today and tell him not to worry about the accident.

Doctors had to take seven stitches in his eyelid. But they said although the injury was painful, it was not too serious and would not cause any impairment of the secretary's sight.

The boy was a member of the Buccaneers, a crack naval ROTC drill team from the University of Texas.

It was on hand Thursday night at the airport when Connally flew in from Bonham, Tex., where he had visited cancer-stricken House Speaker Sam Rayburn.

He also filled in for the ailing Rayburn as guest speaker at the 10th anniversary celebration of the Bonham Veterans Administration Center.

Luxury Ship to 'Retire'

Liner No Longer Useful

That's the sad epitaph the once-proud French liner *Liberte* leaves in her wake today as she moves out of New York harbor into a future of uncertainty.

Her owners say the sleek, black-hulled luxury liner has outlived her usefulness.

On her arrival next Thursday at Le Havre, France, the 914-foot, 54,000-ton *Liberte* will be turned over to an American firm and taken to Seattle, Wash., TO SERVE AT FAIR.

She will be used as a floating hotel and dining center there during the international fair starting in May. Further plans were indefinite.

Only 550 passengers registered for the final voyage of the flag ship that boasts accommodations for 1,497 and a crew of 935.

For many, it was a sentimental journey aboard a ship that had smothered them in comfort and warmth in earlier crossings.

Lighted Dynamite Stick Taken From 8-Year-Old

PALERMO, Sicily (AP)—Down the main street in nearby Bagheria Thursday came an 8-year-old boy nonchalantly holding a lighted stick of dynamite, its fuse spattering.

A policeman grabbed it away, removed the fuse and began a search. Twelve more sticks and a detonator were found behind a doorway. The police are trying to find out where it came from.

Berlin Beckons Spellman

NEW YORK (AP)—Francis Cardinal Spellman said Thursday he will offer three Christmas masses in the Berlin area this year as part of his annual visit to American armed forces overseas.

BURNED TO GROUND — A large 60-by-80-foot barn at 460 Baldwin Road, Orion Township, was reduced to smoldering rubble by a raging fire early this morning. Four area fire

departments, from Gingellville and Orion, Independence and Oxford townships, answered the alarm. They confined their efforts mainly to saving adjacent farm buildings.

Welding 113 Resolutions Into Farm Bureau Slate

EAST LANSING (AP) — The Michigan Farm Bureau waded back into a list of 113 resolutions at Michigan State University today. The resolutions, ranging in subject matter from local government to Soviet nuclear testing, were being hammered into the bureau's 1962 platform at its 42nd annual meeting.

Delegates got as far as No. 28 Thursday. The bureau, representing some 60,748 Michigan families, called for a preservation of local government, recommended to the constitutional convention that state equalized valuation on property be limited to 50 per cent of actual cash value and upheld

Michigan's present legislative apportionment. Delegates approved a Wayne State University plan which would allow a student to pay a percentage of his tuition after graduation.

They recommended separate governing boards for all state colleges and universities now under the control of the State Board of Education.

They opposed school district reorganization that was forced "arbitrarily and in which apportionment from local people are restricted or arbitrarily disregarded."

Delegates voted down a state income tax, opposed sprawling annexations of agricultural land to cities and villages, and approved state and county civil defense committees without the bureau.

ANTI-RED PROGRAM Bureau delegates earlier had outlined for them a sweeping program for ridding the United States of Communism.

W. C. Skousen, field director for the National Security Council, recommended a "mass movement" beginning at the grass roots level, ranging through a full-scale investigation of the State Department, and including the outlawing of the Communist Party.

Two states—Arizona and Arkansas—already have outlawed the party, he said.

The United States should enlist the help of its allies in an international fight against communism, "assuming that communism is a crime—not just an ideology."

With a massive pressure program, Skousen said, "I promise you we can celebrate, by the close of the 20th century, the freedom of all men—including those enslaved in the Communist nations."

The color and sound movies were donated to the sheriff's department by The Pontiac Press for use in elementary schools.

Kraft explained that the department has shown them to about half of Oakland County's 145,000 children in the past year and hopes to complete the tour of schools this year.

The films point out the dangers to youngsters in talking to strangers.

Mrs. Gaines Greenhill is chairman of the Lake Orion association. Members of the program committee are Mrs. Frederick Egan, Mrs. Dean Ranville and Mrs. Downey.

District Superintendent to Lead Service Sunday INDEPENDENCE TOWNSHIP—District Supt. Rev. Dale Woods of the Free Methodist Church will speak and hold communion Sunday at the 11 a.m. service of the Drayton Heights Free Methodist Church.

Morning worship will be conducted by the Light and Life Men's Fellowship in the church's temporary location in the Pine Knot Elementary School, 6020 Sashabaw Road.

Shafar's father, James Sr., said that the motor was purchased from the Pontiac Sears store and that it had allegedly been repaired by a man whom the company had recommended.

She said her husband was sitting on the dock of their summer cottage when a motorboat, driven by 15-year-old James E. Shafar Jr., of 616 Long Point Drive, threw its flywheel 150 feet, striking and killing her husband.

Shafar's father, James Sr., said that the motor was purchased from the Pontiac Sears store and that it had allegedly been repaired by a man whom the company had recommended.

Shafar's father, James Sr., said that the motor was purchased from the Pontiac Sears store and that it had allegedly been repaired by a man whom the company had recommended.

To See Movies on Child Safety

Lake Orion Guidance Unit Plans to Discuss Films With Officer

LAKE ORION—Members of the Lake Orion Child Guidance Association will see two films on child safety at their meeting Tuesday. Showing the movies will be Donald Kraft, safety director of the Oakland County Sheriff's Department.

The meeting will be held at 8 p.m. at the home of Mrs. Payne Downey, 790 S. Laper Road, Orion Township.

Kraft, who has been with the sheriff's department for eight years, four of them as safety director, will lead discussion on the films, "Stranger" and "Dangerous Strangers."

The color and sound movies were donated to the sheriff's department by The Pontiac Press for use in elementary schools.

Kraft explained that the department has shown them to about half of Oakland County's 145,000 children in the past year and hopes to complete the tour of schools this year.

Alice Patricia Ray Wed

Hold Evening Rites

ROCHESTER — Church of the Nazarene here was the setting for the recent wedding of Alice Patricia Ray and Pvt. Alfred Larry Sowell. Rev. T. C. Riddle performed the evening rites.

Parents of the bride are Mr. and Mrs. William Ray Sr., 2226 Liverson Road, Avon Township. The bridegroom is the son of Mr. and Mrs. Orville Sowell of 2350 Sherwood Road, Oxford Township.

For her wedding the bride chose a floor-length gown of Chantilly lace and tulle designed with a scalloped neckline, long, tapered sleeves and a bouffant skirt.

A headpiece of Chantilly lace held her fingering veil of silk illusion. She carried a bouquet of white feathered carnations centered with a white orchid on top of a Bible.

Sharon Ray attended her sister as maid of honor. Bridesmaids were Rosalene Ray and Carolyn Nicks.

Debra Nicks was flower girl and Cary Sowell, brother of the bridegroom, the ring bearer.

BEST MAN Serving as best man was William Ray Jr., brother of the bride. The 125 guests were seated by Richard Nicks and Jerry Sowell.

The bridegroom will return to duty at San Diego, Calif. Monday. The new Mrs. Sowell will join her husband later.

MRS. ALFRED SOWELL

Following the reception held immediately after the ceremony in the township hall in Rochester, the newlyweds left on a honeymoon trip to Niagara Falls and New York City.

The bridegroom will return to duty at San Diego, Calif. Monday. The new Mrs. Sowell will join her husband later.

In Orion Township

\$20,000 Fire Razes Barn

ORION TOWNSHIP — Arson suspects in a \$20,000 fire which early this morning destroyed a large, two-story barn on the property of Lakefield Farms, once an Oakland County stock breeding showplace in the 1930s.

The building, which burned to the ground, is located at 460 Baldwin Road. Eight fire trucks were rushed to the scene about midnight.

The building contained 700 bush-

els of corn, several farm implements, a frame hay wagon and several bales of straw and hay.

The fire was reported to Gingellville Fire Station shortly before midnight by Township Supervisor John Lessiter, who lives at 501 S. Baldwin, across the road from the barn.

"Some stranger pounded at my door and yelled 'Fire, fire!'"

Lessiter said. He stated he did not know who the man was.

Fire departments from Gingellville and Orion, Independence and Oxford townships responded to the alarm.

Gingellville fireman Gerry Elmy reported most of the pieces of equipment were not needed to combat the barn blaze, but were asked to stand by in case the fire should spread.

A Gingellville pump truck was used to keep the fire from consuming a large shed behind the barn. There was no threat to anyone's life, Elmy said. There were no injuries.

Pending an investigation today by the state fire marshal's office, officials considered two possible alternatives as to the start of the fire.

1.—It may have been set deliberately by unknown persons.

2.—A cigaret thrown from a moving car on the road 25 feet away could have been the cause.

The buildings and part of the barn are rented by O. F. Foster of 570 Baldwin Road. The entire property is owned by a group of Oakland County men headed by Joseph G. Berry of Huntington Woods.

Berry said the cost of rebuilding the barn might reach \$20,000. He was unable to estimate total damage which also would include destruction of the contents.

He said he and his associates had bought the farm as an investment and that none of them were farmers.

Electricity in the barn had been shut off, Elmy said, ruling out the possibility of defective wiring causing the blaze. It also was well ventilated, according to fire department officials.

No successor has been named for Ware, who earned \$4,800 a year as head of the six-man department. He had been on the Royal Oak Township force about 15 years, four of them as chief.

NEWS OF THE AREA

Police Chief Ware Quits Post in Royal Oak Twp.

ROYAL OAK TOWNSHIP — Police Chief Captain William Ware, 45, resigned under pressure last night.

The Township Board had given him until yesterday to resign or be fired. The seven-man board accepted his resignation unanimously.

In his letter of resignation Ware asked that he be allowed to remain on the job until Dec. 29.

The controversial police chief was fired twice during the investigation of Goodfellow Fund thefts in December 1959.

REINSTITUTED IN JOB He was reinstated after his Justice Court conviction was set aside.

School CD Plan to Be Reported

Rochester Education Chief to Tell Progress at Meeting Tomorrow

Donald C. Baldwin, superintendent of the Rochester Community Schools, will report tomorrow on the progress of civil defense planning in area schools at a meeting of the Northwestern Oakland County Civil Defense Council.

The group of civil defense directors and representatives will meet at 9 a.m. in the Rochester Municipal Building, 400 Sixth St.

Basically, present plans are to care for the children if there is a blast, then to get them home as quickly as possible, Baldwin said today.

Then the school buildings will be turned over to civil defense authorities, he added.

The five school districts represented on the council are Avondale, Lake Orion, Oxford, Rochester and Troy.

For warning, each district has a short wave radio in the central office and some method of relaying the information to individual schools, according to Baldwin.

The plans of each district follow the same pattern, even though they have been developed locally, the superintendent concluded.

Wanda Welch Plans to Wed D. E. Barnhart AUBURN HEIGHTS — Mr. and Mrs. Seth J. Welch of 3709 Auburn announce the engagement of their daughter Wanda Kay to Donald E. Barnhart, son of Mrs. Ralph E. Meek of 212 Atwater St., Lake Orion, and the late Theodore Barnhart.

The wedding is planned for Dec. 16.

Time of Decision on Cuba at Hand for Latin Nations

By EUGENE MONTGOMERY
WASHINGTON—A human drama is unfolding in the Organization of American States that could affect the lives of all of us.

The diplomatic screws are slowly but surely being tightened on Cuba, the Sino-Soviet base in the Western Hemisphere.

Pera has filed a petition calling for an investigation of the Red island, and behind the scenes U.S. officials are at last spreading the word that it is time for fence-sitting Latin American states to fish or cut bait on the issue.

One of the strangest aspects of the case is the recent change in Cuba's OAS Ambassador Carlos Lechuga, whose name translates "leech." His least no longer seems to be in his work of defending the regime of Premier Fidel Castro.

Last week his secretary, a sister-in-law of Castro's foreign minister Raul Roa, defected and asked political asylum here. That same day Lechuga addressed the OAS. His only reference to his secretary's action was an apology that his speech was not as good as usual, "because I had to type it myself."

In several recent debates between Lechuga and U.S. Ambassador Dellespree Morrison, the Cuban envoy has merely read his prepared text, and made no attempt to answer Morrison's countercharges.

MAKES NO DEFENSE

Until the last few weeks Lechuga had been extremely talkative and argumentative, raising no chance to defend his country in OAS meetings. Now all is changed.

The other day he delivered a speech denying that Cuba has any alignment with Russia or Red China. Immediately afterward Morrison electrified the assembly by reading two translated documents: A Russian-Cuban and a Chinese-Cuban joint communique detailing the terms of their commitments to each other.

To the amazement of the ambassadors, Lechuga sat through the Morrison expose, but made no attempt to answer it.

This week the OAS gave Pera a full day to present its arguments in favor of a move to break relations with Cuba, and apply hemispheric sanctions against the island.

The next day Cuba was scheduled to be heard in rebuttal, but Ambassador Lechuga failed to show up at the meeting. He had abruptly flown home to Havana. The United States at last seems to be taking a positive position on the Cuban problem, after months of anguished indecision following the attempted invasion debacle. Much of the credit for this goes to Dellespree Morrison, the personable former mayor of New Orleans who understands the Latin temperament and has long acquaintance with South America.

MOST BACK U.S.

By a careful counting of noses

he is convinced that 15 of the 21 sanctions against Cuba. If action step, however, until at least one of the three biggest nations—Brazil, Argentina and Mexico—can be won over to our side.

Morrison is reluctant to take the initiative in lining up support against Cuba, to avoid the charge of Yankee bullying.

Meanwhile he is encouraging the smaller member nations to take the initiative in lining up support against Cuba, to avoid the charge of Yankee bullying.

Have to Add Prizes

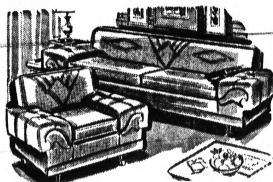

ATLANTA 48—Members of the men's garden club in Atlanta, 230 strong and the largest such club in the country, entered so many excellent specimens in their annual show that 62 prizes were awarded.

Robert Hickey Won't Talk to Taylor About Scuffle

Robert Hickey, allegedly struck in the eye by a female police officer Saturday, today refused to make a statement to Prosecutor George F. Taylor, according to Taylor.

Taylor said he visited the 22-year-old White Lake Township man at his bedside this morning at Pontiac Osteopathic Hospital.

He said that Hickey, although

physically able to do so, refused to make a statement regarding the incident which allegedly occurred after Hickey was arrested on a charge of driving under the influence of alcohol early Saturday morning.

Taylor said Hickey stated he had talked to an attorney and that the attorney had told him not to make any statement at all.

The officer who arrested Hickey was Patrolman Patrick Sullivan.

Marquis Sartell Awarded High Masonic Degree

Marquis S. Sartell, 1234 Atkinson St., has been awarded the designation of Knight of the York Cross of Honour. This honorary degree, highest in the York Rite of Free Masonry, is conferred only on those who have held the highest office in each of the four bodies of the rite.

Sartell served as Master of Pontiac Lodge of Masons in 1943; High Priest of Oakland Chapter, Royal Arch Masons in 1943; Master of Pontiac Council, Royal and Select Masters in 1948; Commander of Pontiac Commandery, Knights Templar, this year.

Elected to membership in Fred H. Pocock Priory, Sartell's election was confirmed by Convent General of the Order Wednesday.

Pontiac General Switches Funds

\$100,000 Transferred to Operating Account for Hospital's Expenses

Pontiac General Hospital had to switch \$100,000 last night to cover unpaid bills of patients.

Near the end of the budget year, hospital operating costs are more dependent on bills paid by patients.

Currently, unpaid billings to patients total \$392,000 leaving the hospital short of operating funds.

Last night the Board of Trustees approved transferring \$100,000 from the hospital's depreciation fund to the operating fund to cover the temporary deficit.

The depreciation fund, begun in January 1960, will be paid back eventually. It was the first time in the hospital's history that funds had to be transferred, said Harold E. Zoller, administrator.

"Increased business and occupancy has one drawback. It also increases the load of uncollected billings," he explained.

"As of Dec. 31, 1959, we had 354 beds, an occupancy average of 88 per cent and \$392,000 in unpaid bills," he said. "Now we have 381 beds, an occupancy of 96 per cent and a load of \$392,000 in unpaid billings."

The only alternative would have been to borrow money from an outside source.

In Fair Condition After Car Leaves Curve, Hits Ditch

A 42-year-old Washington man was listed in fair condition today after his car crashed into a ditch in Brandon Township early this morning.

John A. Mandley of 3180 26-Mile Road was taken to Pontiac General Hospital with head cuts and a possible fracture of the scalp.

He told sheriff's deputies that he lost control of the wheel on a curve in Oakwood Road. He was alone at the time.

Blaze Guts Home; Residents Escape

An unidentified family escaped a fire that gutted their home at 26 Bagley St. late yesterday.

Firemen, who brought the flames under control in little over an hour, burned the blaze on an overheated oil lamp.

They estimated damage to the two-story frame house at \$2,000 and \$1,000 to its contents. The residents were gone when the firemen arrived and could not be located afterward.

Neighbors said the family had moved in only a few days before and they had not had a chance to get acquainted.

DAV Presents 7 Flags to Local Juvenile Home

Yesterday, as part of an Americanism program currently supported by all local veterans' organizations, seven 50-star U.S. flags were presented to the elementary school at the Oakland County Juvenile Home by DAV Commander Francis Wessner.

A flag was presented to each classroom in the school.

An Air Force terminology guide containing 1,300 aerospace terms has been published.

Pontiac Area Deaths

GORDON J. CONSIDINE

Needlework Guild Harvests Fruits of Its Labor

Pouring for Mrs. Lester A. Snell of Auburn Road (left) and Mrs. Homer T. Harrison of Mohawk Road at the morning coffee at First Presbyterian Church Thursday is Mrs. George Bickley of Mechanic

Street. The occasion was the annual Ingathering of Pontiac Branch of Needlework Guild, Inc. Mrs. Snell is president of the Auburn Heights Branch and Mrs. Harrison is a new member.

Pontiac Press Photos

By MARY ANGLEMIER

Loaded with hundreds of packages filled with warm winter clothing directors of Needlework Guild of America, Inc., traipsed into First Presbyterian Church early Thursday morning.

The 49th annual Ingathering of the Pontiac Branch was under way.

Welcoming section presidents, directors, members and friends was Mrs. Charles A. Rogers, president.

Under chairman Mrs. William Isgrug, Mrs. Hart Morris and Mrs. Robert Isgrug, section presidents checked in some 5,200 articles of clothing and household linens.

Filling the dining room were tables piled high with blue jeans, corduroy pants, outing flannel pajamas, underwear, jackets, caps, sweaters, mittens, calico print shirts and socks for boys.

Warm knitted caps, snow suits, mittens, slippers, dresses, skirts, blouses, pajamas, sweaters and socks were ready for girls; and more than 100 layettes had been contributed for babies.

Knitted bed jackets, socks, sweaters and outing flannel gowns were given for the elderly as well as outing flannel sheets, blankets, sheets, pillow cases, towels and wash cloths.

The Queen Mary Section reported 478 garments made for the annual Ingathering. Members of this group sew and knit throughout the year making children's clothing and layettes.

Three hundred garments was the report of the Grace Branch in Auburn Heights.

At the business session Mrs. Rogers announced Mrs. Robert McDaniel of Onondaga Road had become a new director of the Pontiac Branch and Mrs. Cecil F. Denison of South Squirrel Road, of the Auburn Heights Branch.

Mrs. Chauncey G. Burke spoke of requests from welfare agencies and Mrs. Henry Gaubier reported on special purchases.

HELPS MANY

Needlework Guild is the charity that helps other charities. Among local agencies helped by the guild are Oakland County Tuberculosis Sanatorium, Oakland County Health Department, Oakland County Family Center, Pontiac Health Department, Pontiac and St. Joseph Mercy Hospitals.

Others are Michigan Children's Aid Society, Pontiac Visiting Nurse Association, Oakland County Children's Home, Salvation Army, Oakland Red Cross, Oakland County Juvenile Court, and Oakland County Medical Care Facility.

During the school year private cases referred to Needlework Guild are cared for confidentially.

Mrs. George Crane and Mrs. Burke were distribution chairmen.

Directors, members and friends stopped at the coffee table to sample current cakes, scones, English tea biscuits, and other British pastries made by members of the Queen Mary Section.

Mrs. George Bickley and Mrs. James G. Aldrich poured at the table covered with an Irish linen cloth in russet red. An autumn arrangement of chrysanthemums and oak leaves centered the table.

Mrs. E. L. Page and Mrs. C. J. Neplett were in charge of the coffee.

Sorority Alumnae to Meet Tuesday

The November meeting of the Kappa Delta Alumnae Association, South Oakland County, will be at 8 p.m., Tuesday, at the home of Mrs. Neill Leavens, Royal Oak.

Louis VanderBede of the United Foundation speakers' bureau will discuss "Lifeline Techniques."

Bessie L. Haddix of Hope, Ark., exchanged vows Nov. 1 with Keith A. Campbell of West Huron Street, son of the Angus Campbells of Bloomfield Hills, in Tucuman, N.M.

Admiring little girl's dresses contributed to the annual Ingathering of Needlework Guild at First Presbyterian Church Thursday are (left) Mrs. Cecil F. Denison of South Squirrel

Road, Mrs. Russell J. Williams of Oak Knoll Road and Mrs. Charles A. Rogers of Miami Road, president of the Pontiac Branch. Mrs. Denison is a new director of the Auburn Heights Branch.

Leave Her Alone—Abby

You Missed the Boat, Son

By ABIGAIL VAN BUREN

DEAR ABBY: Two years ago, when I was 21 and "M" was 16, we went steady and planned on getting married. I got her in trouble and left town. I thought it over and came back two weeks before she had the baby and offered to marry her.

She turned me down and told me she never wanted to see me again. She kept the baby, is living with her parents and is finishing school.

She said that chapter of her life is closed and I should forget her. But I can't.

She even refused child support. I begged her parents to talk her into marrying me, but they say it's her decision. How can I get her to marry me?

A FOOL

Your timing has been poor from the start. Leave her alone.

DEAR ABBY: I was glad to see that letter in your column signed RED, WHITE AND BLUE. I am not in the service and have no ax to grind but I, too, thought that the service was "no place for a decent girl" until one day an FBI agent rang my doorbell. He had come to inquire

about the reputation and character of a neighbor girl who had applied for the WAVES. I never realized that in order for a girl to get into the armed forces they made such a thorough investigation of her

These meetings are open to all Catholic women who are interested in parish organizations and offer valuable knowledge in many phases of lay Catholic activities.

Interesting speakers and workshop sessions await area women on Tuesday at the Sarah Fisher Home, 12 Mile and Inkster Roads. The registration fee includes a Continental breakfast and luncheon.

Local women working on the Institute project are Mrs. Henry Simpson, Mrs. Leslie McDonnell, Mrs. James Clark, Mrs. Chester Jarusel and Mrs. Lewis Swartz.

Women's Farm-Garden Group

To Host Master Florist

Birmingham Branch, Women's National Farm and Garden Association, will present Harry J. Miller of Dearborn, master florist, at 7:30 p.m. Monday in the Birmingham Community House.

Mr. Miller has done many seasonal flower shows at the Ford Rotunda as well as interior and exterior decorations for executives' offices and homes.

Mrs. Raymond F. Giffels is chairman of the day. Mrs. R. A. Taggart, social chairman, will be assisted by Mrs. Frank H. Burns, Mrs. W. E. Holtz, Mrs. Stanley E. Jones, Mrs. C. C. Fitchford, Mrs. Harry E. Walsh and Mrs. Roy Washburn.

Gail Anderson Is Engaged to John Daugherty

December vows in the Lloyd Douglas Chapel, Ann Arbor, are planned by Gail F. Anderson, daughter of the George Andersons of Clawson to John B. Daugherty, son of the late Mr. and Mrs. Burton P. Daugherty of Pontiac.

character. More people should know this.

MAGNOLIA STREET DEAR ABBY: A close friend of mine is getting married in the fall to one of two sisters at a double wedding. My wife and I will be invited to the wedding. Our problem: we are not acquainted with the girl he is marrying, nor the other couple. Should we send a gift to each girl, or just to our friend's bride?

WONDERING

DEAR WONDERING: Since you don't know the other couple, a gift is not in order. Send a gift to the bride of the friend who invited you.

CONFIDENTIAL TO "IN LOVE ALONE": Sorry, but it is not possible "to be in love" alone. Love is a two-handed game. You may be fired with desire to be "in love"—entranced, infatuated and full of hope. But to be "in love," you need more than a "smile" from the object of your affection.

Everybody has a problem. What's yours? For a personal reply, write to Abby in care of The Pontiac Press. Enclose a stamped, self-addressed envelope.

AOA Chapter Sets Meeting

Alpha Omega Alpha Chapter, Alpha Chi Omega Sorority, will meet for dessert 1 p.m. Tuesday in the Birmingham home of Mrs. Arthur Thornbury.

Mrs. R. W. McLean, an Alpha Chi from Grosse Pointe Farms, will present a travelogue based on her European trips, of which she recently completed her twelfth. Mrs. McLean will attempt to correct some widespread American misconceptions about Europe and foreign travel.

Mrs. Reed Dewey of Berkeley, refreshments committee chairman, will be assisted by Mrs. Donald Zill, Mrs. William Shaver of Birmingham and Mrs. H. P. Halladay of Franklin.

5 Pages Today in Women's Section

Sneezes Belong at Home

By the Emily Post Institute

Q: Don't you think it the height of ignorance for people who have colds to go and visit others, thereby infecting their germs on them? In my opinion the place for these people is at home. But do they stay there?—not at all.

I have often had neighbors come and visit me with very heavy colds saying they were feeling so miserable they had to get out and get their minds off themselves.

These people are so concerned with themselves that they can't see (or don't care) that they are subjecting others to their colds.

A: I thoroughly agree with you. It is difficult to understand how anyone can be so thoughtless as to unnecessarily expose others to their cold germs.

Q: When going to a funeral home to pay one's respects, is it not proper for a woman to wear a hat? A friend of mine insists that a hat is not necessary, but I think it is in very bad taste to go without one.

A: Even though the funeral home is not a church and a hat is not necessary, it is in much better taste to wear one.

The clothes of the bride and groom as well as those of their attendants are described in the new Emily Post Institute booklet entitled "Codes of the Bridal Party." To obtain a copy, send 10 cents in coin, to cover cost of handling, and a self-addressed, stamped envelope to The Emily Post Institute, care of The Pontiac Press.

Teachers' Group Has Professor Talk on Berlin

Dr. Gerald Straka, assistant professor of English history at Michigan State University, Oakland, was the Teachers' Exchange Club's guest speaker Thursday evening on the subject, "Berlin: The Fuse of World War III."

Dr. Straka earned his Ph.D. from the University of Wisconsin. Recipient of a Fulbright Scholarship at the London School of Economics and Political Science, he is the author of works on the Old South prior to the Civil War and the revolution of 1888 in England. He anticipates publication of two books in 1962. His forthcoming article for the English Historical Review is entitled "The Final Phase of Divine Right Theory in England 1688-1702."

Dr. Straka is acting chairman of the lecture-concert series at the university.

Mrs. Irwin Gottschalk and Mrs. Elmer Thorpe were hostesses for the dinner meeting in Hotel Waldron.

Former Pontiac residents, Mr. and Mrs. Steven J. Crnkovich (Elise LaMeau) of Mobile, Ala., are parents of a son, Stephen John, born Oct. 3 in Mobile.

Grandparents are Mrs. Florence LaMeau, Royal Oak, and Mr. and Mrs. Steve Crnkovich of Waterford.

The birth of a daughter, Stacy Lynn, on Oct. 23 at St. Joseph Mercy Hospital, is announced by the George Millers (Onalee MacQueen) of Corwin Avenue.

Grandparents are the Arthur MacQueens of Monterey Avenue and the Curtis Millers, Seattle, Washington.

Word has been received from Riverside, Calif., announcing the birth of a daughter, Kathy Ann to Mr. and Mrs. Richard H. DeWitt, former residents of Sylvan Village.

Maternal grandfather is Donald E. Hansen of East Troups Road. Mrs. Gertrude DeWitt of New York City is paternal grandmother.

Mr. and Mrs. John H. Ostrander (Jean Marie Wasserberger) of Loch Leven Drive, Waterford Township, announce the birth of a daughter, Janet Marie, on Nov. 8 in Pontiac General Hospital.

Grandparents are the George A. Wasserbergers of Illinois Avenue and the John E. Ostranders of Sylvan Lake.

Mr. and Mrs. David J. Wood (Janet Carol Alarie) of Hurondale Drive announce the birth of their third child and second son Daniel Alarie, on Oct. 15.

Sorority Sets Pledge Ritual

Xi Beta Theta Chapter, Beta Sigma Phi Sorority, plans its pledge ritual and preferential tea Nov. 20 at the Mark Avenue home of Mrs. Carl Rehm.

Mrs. K. Wayne White of Drayton Plains was hostess for the group's model meeting Monday. Attending were pledges Mrs. John Combs, Mrs. James Savva, Mrs. Lauren Little and Mrs. Ivan Baumann.

Mrs. Robert Bego spoke of John D. Rockefeller Junior's philanthropic work in the reconstruction of Colonial Williamsburg, Va.

The November meeting of the Kappa Delta Alumnae Association, South Oakland County, will be at 8 p.m., Tuesday, at the home of Mrs. Neill Leavens, Royal Oak.

Louis VanderBede of the United Foundation speakers' bureau will discuss "Lifeline Techniques."

Bessie L. Haddix of Hope, Ark., exchanged vows Nov. 1 with Keith A. Campbell of West Huron Street, son of the Angus Campbells of Bloomfield Hills, in Tucuman, N.M.

But Choose Correct Exercise

Dumbbells Can Be Helpful

BY JOSEPHINE LOWMAN

Q. "What do you think of dumbbells for firming the upper arms and the bustline?"

A. They are very good when used with the correct exercises. For instance, take a dumbbell in each hand, arms hanging at sides. Raise the arms upward with stiff elbows to the halfway, or "star" angle. Bend the elbows and touch the dumbbells to your head (Easy, don't knock yourself out). Straighten the elbows and lower arms to sides. Continue.

Another, lie on a narrow table or bench with your arms hanging down from the table, a dumbbell in each hand. Raise the arms straight out from the sides and upward. Keep arms stiff and touch the hands together. Slowly lower arms to hanging position. Continue.

Q. "I hope you can help me. I am 15 years old and my legs look like a bear's. So far my mother has not suggested that I shave them. All the girls I know shave their legs, and they are starting to make fun of me. I just can't ask my mother and I can't shave them behind her back. Please put this letter in the paper in your column so my mother will see it and realize how I feel. I am so ashamed that I don't feel like going anywhere."

A. Mothers, if any of you have a daughter whose legs "look like a bear's," better check into the matter. I can't imagine why this young woman does not want to discuss the matter with her mother. She should be removing the hair from her legs in order to banish self-consciousness.

Q. "When there are just a few gray hairs in the eyebrows, how enough to be noticed, how can these be touched up?"

A. You can have them dyed, but be sure to be tested first to find out whether you are allergic.

Tests Your Courage to Construct Shelter

By RUTH MILLETT

Newspaper Enterprise Assn.

Why are so many families who could afford to build bomb shelters absolutely nothing about preparations to protect themselves in case of an enemy attack?

The reason may well be that they don't want their friends and neighbors to think they're scared.

They prefer to take the shrug-of-the-shoulders, "I don't think I want to survive an atomic war, anyway" attitude—since that seems to be the popular one at the moment.

But if the bombs ever start falling, everyone is going to be scared. And the ones who will be panicky-scared, who won't know which way to turn or what to do, will be the ones who right now are claiming they don't want to live through the horror of a nuclear war.

So the really brave person in every neighborhood is the one who dares to build the first bomb shelter and to urge his friends and neighbors to do the same.

It takes a lot more courage to face a horror and try to prepare for it as well as possible than to say, "I'm just not going to worry about it. If it comes, it comes."

TAKES COURAGE

If that idea can be gotten across to the American people—that the brave don't give up without struggle and never have—then all those who can will get busy building bomb shelters.

Some people seem to feel that the government owes us all protection from nuclear attack. Cer-

For firming upper arms and bustline, do this dumbbell exercise, described in Josephine Lowman's column today.

For Restless Youngsters

Try Rainy Day Projects

"What can I do?"

That's a question most mothers know all too well on a dark and rainy fall day. And finding an answer is sometimes no easy job.

For variety, you might consider a few do-it-yourself projects using tissues. Temporary doll dresses, for example, can be fashioned from colored tissues, appropriately folded and pinned. Or a tissue dolly for doll tea parties can be

made by cutting out squares, diamonds or oblong shapes.

BUILD A SHIP

You can make a tissue "ship," too. Fold a tissue into a triangle, then fold the longest edge up two inches. Fold the shape in half, secure the extended ends with a pin, then stand your tissue "ship" up.

Finally, if your youngsters would like to make a contribution to the dinner table, you might start them making tissue flowers for a home-made centerpiece. Use vari-colored tissues—flame red, pink, yellow, aqua and white—for a colorful collection. Just take one folded tissue and accordion-fold the narrow width; tie at the center with thread and form into a circular shape by spreading the accordion folds; shred the edges with scissors and separate the layers. Then, hold the flower together, tie the base and fluff.

Stems can be made of pipe cleaner or wire wrapped in green crepe paper. To attach the stems to the flowers just wind this wire around both the stem and the base of the flower.

When the job's finished, place tissue flowers in a small vase. You'll have an attractive centerpiece—and the youngsters will have found something to do that occupies their time and brightens your table.

When the cane seating of your favorite chair wears out, replace with a piece of plywood cushioned in foam rubber and upholstered in your favorite color. It will last much longer than the original.

VFW Women Agree to Donate Funds

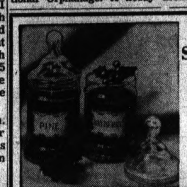

The Ladies Auxiliary of the Veterans of Foreign Wars, Post 1000, approved year-end donations at a meeting recently in the post headquarters on East Pike Street.

Assistance for Christmas parties will be given to the U.S. Veterans' Hospital, Battle Creek, and the National Orphanage. A needy area

family will receive a Thanksgiving food basket.

A social hour will follow the showing of a cancer film at 8 p.m., Nov. 20 in the post club room. The public and members of other clubs are invited.

Keep a wardrobe of four rubber-berth cushions on hand for different seasons. Use gay floral shades in the spring and the richer harvest colors mixed with jewel tones in the fall.

JANET ALICE BUNCH

There's a 'Right Way'

Launder Leather Gloves

Newspaper Enterprise Assn. If you've had the usual luck with washing expensive leather gloves, you've probably given up and sent them to a dry cleaner. But this is both expensive and time-consuming at the rate that leather gloves soil.

Fortunately, it really is possible to wash leather gloves successfully if you go at it the right way. And the right way includes these steps: Use a special glove bath formulated just for leather gloves. And use warm, not hot, water.

WEAR THEM

Wash the gloves on your hands with a regular hand-washing action. Gently massage the soiled spots with finger tips. No rinsing is necessary with the glove bath. Pat with a Turkish towel to remove excess moisture. Gently pull fingers into line,

then blow into the gloves to shape them. Dry them flat on a terry towel, away from all heat.

IMPORTANT

This last step is most important: Put the gloves on your hands before they are completely dry. The natural oils and warmth of your skin help to bring out the softness of the leather.

There are two don'ts to observe: Don't ever wash leather gloves after they have been dry cleaned. Don't allow gloves to become too soiled before cleaning.

That's all. Follow these directions faithfully and you shouldn't have any trouble.

Spruce up your dining room by making a set of tie-on foam rubber seat covers for the chairs and covering the mirth a gay fabric to match your draperies.

Women Plan Clothing Drive

The women's chorus of St. John's Lutheran Church choir opened Tuesday's Augustan Lutheran Church Women's meeting with several selections. Carol Severson accompanied at the piano.

A film strip "Around the World with Lutheran World Action" was shown by Mrs. Charles Colberg and Mrs.

Fremont Thoe. Mrs. Rudolph Larson offered devotions.

At the business meeting plans were made to participate in the annual clothing drive of Lutheran World Relief.

The group plans its annual Advent Prayer Service Dec. 5. The Christmas party is slated Dec. 18.

Mrs. John Berglund, Mrs. Carl Nelson, Martha Hoyt and Mrs. Arthur Massey were hostesses for the meeting at the church.

Philathea Class Hears Missionary

Mrs. Howard Barnett was hostess to the First Philathea Class at a meeting Tuesday in the educational building of First Baptist Church.

Leone Fletcher, missionary home on furlough from Bolivia spoke to the group about her work.

Mrs. Warren Westcott offered devotions. Vocal solos were given by Mrs. William Carl

with piano accompaniment by Mrs. Jessie Rogers. Refreshments were served by the banquet and dining room committees.

Africa makes up on-fifth of the world's land mass.

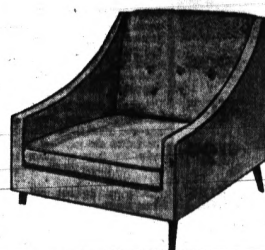

Restore Old Book

NEW YORK (UPI) — To put new life into the bindings of old leather bound books, try treating them with lacquer. Lacquer is especially useful in treating books that have become powdery and are almost ready for rebinding, the U.S. Department of Agriculture reports. First, clean the books well. Apply oil if you wish. Then spray or brush on two thin coats of lacquer, allowing the first to dry before applying the second.

Mme. Spanier Tells of Fashion 'Whirl'

By MARJORIE EICHER
Women's Editor
The Pontiac Press

When a woman loves mink, that's scarcely news. When she sweeps her beloved mink to the floor with an "I-could-care-less" gesture and lets it lay there like a rug while she lectures, it's not only news — it hurts!

This was the dramatic move Mme. Ginette Spanier of the world famous fashion house of Balmain made Wednesday morning when she spoke to Pontiac-Oakland Town Hall members at the Huron Theater. It was a vivid declaration of the fact that the fashion world "isn't all mink!"

Easy, witty, frank — Mme. Spanier took her listeners verbally behind the scenes in the world of Paris fashion. She painted an amusing picture of the little over-heated rooms in which the shape of fashion is made, calling the atmosphere "squashed, hot and hysterical."

The great names in French fashion, she said, have always been men — she called them "the boys." The reason she gave — "women design for their particular type, while men design for all women."

Couturiers do not put their heads together and decide on a "look" for a given season, she said. The frequency with which they arrive at similar looks would make it seem so, but is rather the result of what she called "natural evolution."

"It's normal that what we wear today should give birth to what we wear tomorrow," she believes. Calling herself a glorified shopgirl, Mme. Spanier sketched her background in the 31 years she has been associated with the fashion world.

The making of a fashion collection, she told her audience is a frantic and fairly crazy operation. Money is no object for the 150 new models produced for the two collections each fashion house pro-

duces yearly. Summer clothes are introduced in January and winter clothes in July. "Do you wonder that we're crazy?" she asked.

COPYING 'BIG BACKET'

There is an enormous racket in copying and the first two weeks of every opening is crucial, with visitors' credentials carefully examined. "When we find a copyist, we make a big 'chi-chi' and throw them out," she said. "It makes excitement!"

Models live a somewhat narcoleptic existence in Paris and are not paid highly as they are in America, she told her audience. "The girls are passionately interested in what they show . . . they're crazy about applause . . . love fans the most, considering them the sexiest item of woman's apparel."

Concluding her talk with amusing anecdotes of prominent women of society and the film world who are Balmain customers, she said, "Men don't notice what we have on. We dress for ourselves — to bolster our confidence, for modern life is very hard on women. It helps most to be well-dressed. For this confidence, you must spend a little more than you can afford!"

At the informal question period following the celebrity luncheon at Devoe Gables, Mme. Spanier, handsomely clad in a subtle brown plaid bias-cut suit by Balmain, delighted the women with practical evaluation of the clothes she wore. She demonstrated the freedom of stride the bias-cut skirt gives and even demonstrated the placing of her skirt zipper on the diagonal of the weave. Her mink-trimmed hat had a crown of pleated brown net. She was very much in the representative of a famous fashion house.

Club Discusses Teen Marriages

"Teen-age Marriages" was the Junior Child Study Club's discussion topic at a meeting Tuesday in the home of Mrs. Allen W. Hawke.

Guest speaker was Mrs. Margaret Stone, an extension agent for Macomb County, employed by Michigan State University. A Utah State University graduate, Mrs. Stone has an M.S. degree in child development and family life. She is affiliated with the National Council on Family Relations, the American Home Economics Association and the National Home Economics Extension Association.

Cobhostesses were Mrs. Wesley Stewart, Mrs. Arley Love, Mrs. Fred Hoestine, Mrs. Robert O'Connor and Mrs. Harold Kendrick.

Grand Canyon of the Colorado is 217 miles in length and in some places it is more than a mile in depth.

A birthday hug for his 1-year-old granddaughter is the greeting Sen. Hubert H. Humphrey, D-Minn., bestows upon his return from a five-week tour

of Europe as a member of the Senate Foreign Relations and Appropriations committees. Vicky bears a family resemblance to her famous grandfather.

Use Talents, Educator Says

Urges Women to Help Society

CHICAGO—Women may talk too much but this may be a point in their favor, reports a researcher at Michigan State University.

"Communication is a quality that is distinctly human," says Dr. Elizabeth M. Drews, associate professor of education, pointing out that women do very well in vocabulary and reading and have much to contribute in communication areas.

Addressing the closing session of the Girl Scout Regional Conference (at the Conrad Hilton), Dr. Drews underscored some of the areas where women can make major contributions on the national and international scene.

She said many of the qualities ascribed to women as weaknesses "could" be turned into strengths if given the proper guidance.

"However," she said, "society dictates that women do much that is wasteful and even foolish." She pointed to the practice of carrying "white elephants" from one place to another, and the "Madison Avenue influence" which keeps women busy changing the color of the sheets on their beds and changing the lengths of their dresses up and down.

"TRY TO CONTRIBUTE!" "In fact," she added, "I am not sure that standing in the rain ringing doorbells to collect dimes is a good way for women to use a college education."

She told the Girl Scout leaders that "women should look carefully at society and its needs and try to make a contribution fitting to their talents."

"To adequately live in one society," she said, "we have to be concerned with people who do not have advantages to develop intelligence."

"We can't turn our lives over to the military and science," Dr. Drews said as she outlined some of the goals and directions for women in the future.

Surveys have indicated, she noted, that women show more human concern than do men and are some areas where women, particularly, have a lot to offer.

She reported that half the adults in the world cannot read or write and half of the children in the world are not in school. While the average American lives to 70 or 75 years, people in many other parts of the world live only half that long. Three-fourths of the world's population do not have enough to eat and do not have proper medical care.

She was not suggesting that all women should immediately get on a boat and head for overseas. But she did stress that there is a need for people with teaching abilities, particularly women who could teach English to many people clamoring to learn it.

"And we are fully aware of the shortages in the social services, nursing and medical profession," she added.

"But women need not leave the country to make a contribution to society," she said, listing a number of problems which should command the attention of American women.

For one thing, she said, four-fifths of the countries in the United States have no psychiatric service.

There are almost no facilities for emotionally disturbed children and yet 7 to 12 per cent of the school children, she said, are in need of some psychiatric training.

"We also know that children learn, but we know little about how they learn," she said. "Too few people are experimen-

ing and trying to understand the learning processes.

"We also find we know very little about adolescents. All we know about them concerns their dating patterns and juvenile delinquency. There have been few studies on the thinking process and creativity of adolescents."

Dr. Drews called for more and better counseling for girls on ways to "both finish their education and catch the man . . . It is unrealistic to expect a girl not to get married."

She believes that "no real effort has yet been made to utilize married women to the high-level professional and technical areas where there is a need and where women can make a significant contribution."

The Michigan State educator told the Girl Scout leaders that they "might also fight a little for the cause of women."

She said half of the women employed full time in the United States earn \$3,000 or less a year and yet, in the large cities and in families where women work, a third to half of these families depend solely on the woman's salary.

Dr. Drews has conducted a number of research projects concerning the slow, average and superior students, value systems, creativity and critical thinking, gifted girls and role identification and careers.

SENIOR CLASS OFFICERS — Leading Pontiac Central High School's 1961-62 graduating senior class are (left to right) Sandy Gowen, secretary of 205 S. Tilden St., Susan Putnam, treasurer, of 369 W. Troquois Rd.; Bill Burns, vice president, of 498 W. Huron St.; and (seated) Bob Pomeroy, president, of 209 E. Boulevard S. The officers, in addition to presiding over senior class meetings, will present ideas concerning senior ski trip, senior class day, and the possibility of a senior trip, among other activities.

Leaders' Curriculums Bulging

PCH Elects Senior Class Officers

By WADE WILKISON

Pontiac Central High School's senior class officers for the 1961-62 graduating class have been elected. They are Bob Pomeroy, president; William Burns, vice president; Sandra Gowen, secretary; and Susan Putnam, treasurer.

To be nominated for an office, all students had to meet two main qualifications. They had to have at least a "C" average and

had to hand in a petition with 25 signatures from the senior class.

Class president, Bob is all around athlete. In his junior and senior years he has been active as starting quarterback on the varsity football team. He has also excelled on Pontiac Central's basketball and baseball teams.

Bill Burns, vice president, plays his electric guitar with the well known teenage band, the "Kommo".

tions" much of the time. He also plays city-league basketball.

Sandy Gowen, the class secretary, is in many school activities. She is a varsity cheerleader this year besides finding time to be on the staff of the "Pop-Globe," the American Field Service, and Play-crafters.

Besides being senior class treasurer, Sue Putnam is active in the American Field Service, the Senior Girl's Ensemble, the Songplumbers, and the a cappella choir.

The senior class officers have many duties to perform this year. Besides presiding over senior class meetings, they will present ideas to the senior class. Senior ski trip, senior class day, and the possibility of a senior trip are just a few of the many activities to be scheduled.

Among them are: Janice Strong, Rita Clinton, Jerry Martin, Jim Ferguson, and Jackie Voss. Others are Doreen Cooper, Bill Heitjan, Diane Hope, Jim Hurten and Danny Wassell.

The senior class, under the capable leadership of its president, has been making history for themselves.

It will be "deck the halls with red and white" next June when the class of 1962 proudly exposes their bright and pretty class colors of red and white. The carnation is the class flower. St. Michael is their patron saint.

They are also anxiously awaiting the arrival of their class rings in time for Thanksgiving.

23 Michaelites Beam Over Honor Roll Rating

By SHARON RODDEN

The giving of report cards is an old custom that just never seems to fade away and so, too, at St. Michael's High School, the quarterly routine has taken its course.

For 23 students it was an occasion for smiles and satisfaction as they found their names on the roll of honor. They are, seniors: Rodney Campbell, Bob Flanagan, Jim Hurten, Dana Hutsky, Stu Rindus, Shannon Donnelly, Judy Lamphear, Pam Woolfever and Sharon Rodden.

Representing the junior class are: Pat Hogan and Susan Hunt.

SOPHOMORE HONORS

Sophomores are: George Herrett, John Hurten, Dick Steinhilber, Nancy Rindus, and Joan Scheidel.

Richard Lavoie, James Stickle, Patricia D'Angelo, Carol Haddad, Sarah Raymond, Evelyn Daugherty and Nancy Low are the freshmen honor roll students.

Ten seniors were represented at the Teenage Traffic Court on Wednesday afternoon.

Bloomfield Hills Hosts 4 Debaters for Tournament

By CLARIE PERLMAN

Bloomfield Hills High School was host to four debaters participating in the "Debate Days in Detroit" tournament sponsored by the Wayne State University speech department Tuesday.

Topic chosen for debate was: "Resolved: That labor organizations should be under the jurisdiction of anti-trust legislation."

On the affirmative team from Pennsylvania State University were Ed Snyder and Dave Goodhart. From Augustana College debating on the negative side were Ralph Mawdsley and Dave Timlinson.

Members of the senior class will attend the University of Michigan versus Iowa football game at Ann Arbor Nov. 18.

Both the ski club and the ski team had organizational meetings so that when the snow comes they will be set to start skiing.

At the first meeting of ski club, Bob Clark, a senior, was elected president; and Butch Blumensfeld, junior, was elected vice president.

Along with new participants, eleven members from last year's ski team are preparing for the coming ski season under the direction of Don Gregory.

Honor Veterans at Waterford

State Military Reserve Presents Colors, Hears Taps During Assembly

By MARY KAY STREIBER
Waterford Township High School, along with every person in the United States, District of Columbia, France and England, is celebrating a quiet memorial on Veterans Day or at many still know it, Armistice Day.

Following homeroom an assembly was given in honor of Veterans Day which is Saturday. Michigan Military Reserve, made the presentation of colors after which the Pledge of Allegiance was led by Dave LaBarge.

The WTSHS band then played the "Spangled Banner." Paul O'Neill, principal; William Shuck, superintendent of schools, and a guest speaker spoke to the students.

"God Bless America" played by Don Garvin was next on the program followed by a 30 second silent memorial. Tapes played by Roger Trudgen concluded this memorial.

Recalled that the warning given to all girls next Friday at Waterford High. Why, because it is the day of the Sadie Hawkins Dance sponsored by the junior class.

Student committee chairman: decorations, Cheryl Jones; publicity, Barb Carrick; tickets and invitations, John Thornycroft; entertainment, Dave Trapp; refreshments, Sandy Soles and on cleanup, Andy Soles and

The American Field Service, known as AFS, sponsors two foreign exchange students to Pontiac Central each year.

These candidates, along with all applicants from other schools across the nation will be screened by the American Field Service headquarters in New York City. In March those students selected as finalists will be announced.

The club is now in the process of organizing and welcomes all students to join.

With the purpose in mind of giving students an opportunity to gain experience in play production, Pat Looman and Durward Chaffee will direct the group throughout the year.

On Dec. 2 she will attend a tea and receive further information. Jean will complete a questionnaire and essay on early American history, and on the basis of this, will go on to compete for the state and possibly the national award.

Student Wins With 'Kismet'

Give Free Subscription to Youth; Junior Girl Identifies 'Navigator'

By SHERYL LEHIGH

The names "Navigator" and "Kismet" now identify Waterford Kettering's two main journalism publications.

Since the school newspaper and yearbook were named, it was left up to the student body to submit suggestions. From these, the journalism department made their selections.

The "Navigator," submitted by Kristi Talbot, a junior, was selected from many suggestions to represent the school newspaper.

"Kismet," submitted by Mike Pomeroy, a sophomore, was chosen to identify the Waterford Kettering yearbook. Mike will receive a yearbook free for each year he continues to attend WKHS.

Today during the second Pep Assembly of the year, Waterford Kettering High School bade farewell to the senior members of the varsity football team, who will play their last game tonight.

Members of the junior varsity and ninth grade football teams were also introduced during the assembly, and the cheerleaders put extra emphasis on teaching the student body Kettering cheers.

To help promote school enthusiasm, Pep Club declared today "color day." The majority of the student body participated by wearing clothes of green and white, WKHS colors.

HEAVEN ON EARTH — Walled Lake Senior High School juniors will have "Heaven on Earth" tonight with their Junior Prom in the high school gymnasium. Shown preparing decorations for the formal dance are (left to right) Gary Strom, 688 W. Maple Rd., Walled Lake, Johnna McDonald, 7220 First St., Union Lake, and Peggy Sofko, 7540 Honeyuckle St., Orchard Lake. Carrying out the "heavenly" theme is a party gate, surrounded by an atmosphere of stars, clouds, and angels.

Juniors Have 'Heaven on Earth'

By JEANIE SPENGE-MAN

Walled Lake Senior High School's junior class seems to be in "Heaven on Earth" as they plan the first formal event of the year, the Junior Prom.

Each year between football and basketball seasons, it is traditional that the junior class sponsor and plan a formal dance.

Under the direction of Mary Jane Stewart, the entertainment committee has selected Neil Kinkadee, the class of 1963 has worked for weeks planning and organizing tonight's dance, to be held in the high school gymnasium.

Peggy Sofko is the Junior in charge of decorations. Carrying out the theme of "Heaven on Earth" is a party gate surrounded by an atmosphere of stars, clouds, and angels.

TO PICK QUEEN

Crowning of the Junior Prom Queen is always an important part of the evening, and this year the queen will be literally on "Cloud Nine," for Peggy's committee has planned a special cloud for the queen and her court. The pretty queen trio will be chosen by the junior class.

By ANN PICKFORD
Oxford High School can be proud of their cheerleaders wherever they appear. The varsity squad consists of five girls who are primarily interested in gaining support

for the Oxford Wildcats, not an audience for themselves.

Oxford doesn't boast of five Miss Americans, but the two seniors, Ronnie Kints and Janie Langley, two juniors, Eve "Cookie" Van Hentenryck and Audrey Mager, and one sophomore, Linda Woody, are all that cheerleaders should be.

New additions to their attire are bulky white sweaters with gold vertical stripes and navy wool bermudas.

AT CHEER CLINIC
The junior varsity squad, Sandra Cox, Marilyn Hauxwell, Rhonda Barger, and Suzie Mitosch, and the varsity squad attended state-wide cheerleading clinics at Central Michigan University and Eastern Michigan University this fall sponsored by the Michigan High School Athletic Association every two years.

Their speaker and instructor, Nest Loken, is from the University of Michigan.

At these clinics, cheerleaders are taught how to build and keep true sportsmanship in their school, how to improve pep assemblies through new cheers, songs, skits and cheering techniques.

While the hearty hunters and skit-eaters are anticipating the crisp, cold weather with ice and snow and blizzards, the Junior Class is appealing to the indoor instincts of the student body with an all-high dance Saturday night.

It's to be an Oxford version of a Hawaiian Luau, so come on the floor will be available.

A Hawaiian beverage served from a bamboo hut, tall green plants and soft music from somewhere in the distance will make non-existent sea breezes felt and artificial flower leis spell sweet.

The windows in the student center reading room from floor to ceiling will reveal a Hawaiian landscape.

Bring your date and your bongos to a Hawaiian Luau, sponsored by the Junior Class, beginning at 8:00 p.m.

'3 R's Not Same' PNH Exclaims

Open House Surprises Pupils' Parents, Guests Inside 'Glass Igloo'

By PAMELA MORRIS

"Reading," "riting," and "rhythmic" isn't like it used to be!

That's what guests were exclaiming Monday evening as they visited Open House at Pontiac Northern High School.

Everything sparkled for the occasion — bulletin boards, especially by prepared for the evening, added color and zest to classrooms in the "glass igloo."

CITE SIGHTS

Among the new sights at PNH are the Student Book Store and the classroom language laboratory of Nell Gray, instructor.

Greeting the parents for their first Open House, were three new student teachers from Michigan State University.

Sandra Somerville, who assists Melvin Larimer, plans a career in vocal music; Pamela Smith helps Edward Dauw in the history department.

NEW ADDITION

Judy Baker supplements the English department under the direction of Ann Morrow and Peter Everts.

Wednesday also served as a momentous date for Future Teachers.

Apples were polished and presented to teachers on the following day to designate Teacher's Day.

Reporters Make St. Fred News

4 Journalists Attend MSU's Discussions, Publication Lectures

By SUE POLMEAR

Journalistic endeavors highlight the news at St. Frederick's this week.

Four members of the Press Club, Sandy Rodden, Sue Polmeare, Tina LaLonde, and Lynn Post attended the annual Journalism Day at Michigan State University Saturday. Informative lectures and discussions were given on all phases of newspaper and yearbook work.

The long awaited and eagerly anticipated first issues of the Ramrod came out last week. This year's Ramrod is new and different features and articles.

Ramrod staff are also sponsoring a benefit dance. "Newspaper Night" will be held from 8 to 11 tonight in the parish hall.

Chairmen for this event are: Mary Vossburg, decorations; Sue Polmeare, chairpersons; Sandy Rodden, refreshments; Mary Rodden, door; Tina LaLonde, posters; and Lynn Post, clean-up.

Sister Charita, L.H.M., head of the history department at Marygrove, spoke to the junior and senior girls on Catholic Colleges and advanced education for women.

Several seniors served as jurors on the Teen Traffic Court, Wednesday. They were: Tom Kallish, Jim Schuchert, Roger Houck, Linda Schaffer, Tony Serra, Mary Vossburg, John Morrissey, Mary Somerville, Cindy Daery, Jeanne Landry, Roger Landry, Tim Scully.

Future Nurses attended the second in a series of field trips planned to inform them of various nursing branches and schools when they went to Henry Ford Hospital Wednesday.

Announce Staff, Annual Sponsors at W. Bloomfield

By BONNIE DESTEL

The Exodus, West Bloomfield High School's yearbook, has new staff editors: Bonnie Piser, editor-in-chief, Jeanne Simper, assistant editor-in-chief, and Pete Vassler, make-up editor.

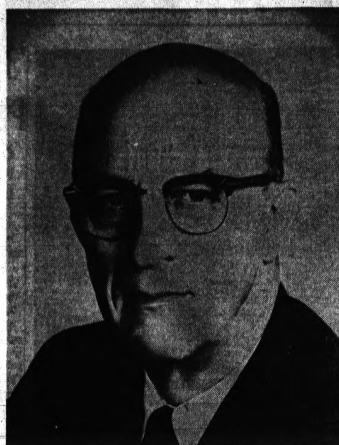

This year the staff has new sponsors, Mr. and Mrs. John Jenkins.

Staff members have been getting advertisements to display in the back of the book, mostly from the local establishments.

Comie and Bonnie Albertson are now selling subscriptions through Nov. 17. The book costs \$3.50.

Pete has designed the yearbook covers, which is completely different from any of the earlier West Bloomfield yearbooks. There are to be many snapshots — and the book is about 50 pages.

Group pictures were started Thursday and Friday of this week.

GEE COAL & OIL CO.

91 LAKE STREET TELEPHONE PE 5-8181 PONTIAC, MICH.

October 31, 1961

The Pontiac Press
48 W. Huron Street
Pontiac, Michigan

Gentlemen:

For the past 37 years Gee Coal & Oil Co. has been a constant user of The Pontiac Press as our major advertising medium. In this time, we have grown from a small coal yard with one truck to our present position of one of the largest Independent Fuel Distributors in Pontiac with seven new GMC trucks with which we service the entire Pontiac area. We honestly believe that our advertising in your paper has played a most important part in the steady growth of our company.

Despite the fact that Pontiac and the surrounding area has enjoyed a most unusual Fall during which "degree days" were very much above normal, we have had a considerable increase both in customer count and fuel oil deliveries. The excellent advertising copy prepared in your office and carried in The Pontiac Press has certainly obtained results beyond our expectation.

As you probably know, we are very interested in our customers and from surveys made by our office have found that, with very few exceptions, our customers are constant readers of your paper. In fact, I find your financial page one of the finest in Michigan with much later news than obtainable in any other paper. The Pontiac Press is a must in our home.

Kindest personal regards and a sincere thank you for a newspaper all Pontiac may be very proud.

Sincerely,
GEE COAL & OIL CO.

Dave Gee
Dave Gee
President

News of Service Personnel

Two local men completing training courses in their respective branches of the Armed Forces are Pvt. Fred E. Miller and Pvt. William E. Shell.

MILLER SHELL

Pvt. Miller, son of Mr. and Mrs. F. J. Miller, 724 Lusher Road, Birmingham, has completed the radio relay and carrier operation course at the Army Signal Training Center, Ft. Gordon, Ga.

Miller entered the Army in May 1961 and completed basic training at Ft. Knox, Ky. He is a 1956 graduate of Birmingham High School and attended Walsh Institute of Accountancy. Before entering the Army he was employed by City National Bank of Detroit.

Pvt. William E. Shell is the son of Mr. and Mrs. William Shell, 218 S. Josephine Ave. He recently completed eight weeks of military police training at the Provost Marshal General Center, Ft. Gordon, Ga.

Having entered the Army last April and completed basic training at Ft. Knox, Ky., he is a 1959 graduate of St. Frederick High School.

Sgt. Gerald M. Hubbard, son of Mr. and Mrs. Harold Hubbard of Hollywood, Calif., formerly of 1003 Huron St., is now stationed at Ft. Lewis, Tacoma, Wash. with the Army.

Having enlisted in 1948, Sergeant Hubbard took his basic training at Ft. Ord in Monterey, Calif. He is married and has four children.

Army 2nd Lt. Ronald C. Ferguson, son of Ernest C. Ferguson, 2164 Dexter Road, has completed the two-week missile security course at the Provost Marshal General School, Ft. Gordon, Ga.

Lt. Ferguson whose wife, Joan, lives in Chicago Heights, Ill., attended Cass City High School and Central Michigan University, Mt. Pleasant. He is a member of Alpha Psi Omega fraternity.

Airman S.C. Eddie Murray, son of Mr. and Mrs. Charles E. Mur-

MURRAY KUKUK

ray Sr., of 885 Second St., is stationed at Malstrom Air Force Base, Montana.

Airman J.C. Arthur E. Kukuk, son of Mr. and Mrs. Edwin Kukuk, 209 S. Edith St., is presently stationed at Amarillo Air Force Base, Tex. for basic training.

Airman Kukuk graduated from Pontiac Central High School this year and enlisted in the service in September.

Friends may address mail: Airman S.C. Arthur E. Kukuk, AF 16716955, Box 223, 3331 School Squadron, Amarillo Air Force Base, Tex.

Airman M. J. Poet, son of Mr. and Mrs. Glenn Poet, 2960 St. Clair St., has completed his initial course of Air Force basic military training at Lackland Air Force Base, Tex.

Seeks Altitude Record Next Week

X15 Zooms Past Its Speed Goal

From Our News Wire
EDWARDS AIR FORCE BASE, Calif. — The X15 rocket ship, forerunner of the space ship that will take man to the moon in this decade, has achieved one of its two goals — record speed. Now it will be aimed at record altitude.

Flight Thursday and set a new speed mark of 4,070 miles per hour — six times the speed of sound. White's top speed, attained in level flight with the craft's throttle full forward and speed brakes off, was:

—Swift enough to fly from New York to Los Angeles in 30 minutes or around the world in less than 7 hours, if his speed could have been sustained.

—100 m.p.h. faster than the speed mark set Oct. 11 by Joe Walker.

—Faster than an Army-issue .50-cal. rifle bullet.

White said he doubted that the plane could go faster without major modifications.

Next week Walker of the National Aeronautics and Space Administration will point the X15 skyward and try for a new altitude record of 200,000 feet.

HALFWAY HOME
Four thousand miles an hour and 200,000 feet — this is what the subby-winged black Sky Dart was designed to achieve.

It already has reached 217,000 feet, last Oct. 11 with White in the cramped cockpit.

The day, as Thursday, swift temperature changes of more than 1,000 degrees in less than three minutes splintered the outer panel of his windshield.

"I expect the metal frame holding the windshield will be modified before the altitude attempt," White said after his flight.

The right side of his windshield was so badly cracked by the heat, that White could not see out of it. "Good Lord," he breathed, "I hope this one holds."

Then he radioed to the chase pilot on his right side: "Stay right there, buddy."

The chase pilot, Air Force Major Walter Daniel, did exactly that, keeping his F104 just above the X15 and radioing instructions to White all the way down.

White landed safely.

Construction Up in Waterford

2 Commercial Permits Sent Building Figure Over \$1 Million

The issuance of two major commercial building permits in October in Waterford Township last month once again sent the total monthly figure for new construction well over the \$1-million mark.

A permit for the J. L. Hudson branch store now under construction on the new Pontiac Shopping Mall on Telegraph Road totaled \$376,000.

Another department store to be built for the Arden Discount Center will be located on a 10-acre site on the southwest corner of Dixie Highway at Telegraph Road for a cost of \$650,000.

Neither of the two figures includes interior plumbing, heating or electrical work.

Less than half as many house permits were issued in October as compared to the same period last year. The 20 house permits in October totaled \$359,000 as compared to 1960's figure of 45 permits totaling \$986,510.

There were 112 permits issued totaling \$1,216,424 in October, as compared to the previous month's total of 98 permits for \$1,242,240.

A \$700,700 permit for Pontiac's new Central Methodist Church now under construction on Highland Road boosted the September building permit figure.

The building department's valuation on permits issued in Waterford township jumped almost \$15 million. In September it was \$7,973,265. In October the figure to date was \$9,189,699.

Like Questions Wisdom of Race to the Moon

CLEVELAND, Ohio (AP)—Former President Dwight D. Eisenhower has questioned the wisdom of the United States racing the Soviet Union to put a man on the moon.

Speaking Thursday night at Case Institute of Technology following an announcement that the school had been awarded an \$8 million grant by the Ford Foundation, Eisenhower told an audience of about 1,000 at a "Night with Ike" dinner: "I for one do not fully understand why, in the midst of a plethora of necessary and costly activities, our nation should be required, urgently, to develop a capacity to put men on the moon and challenge our principal opponent to a race in doing so."

State's Revenue Running Low

Tax Planning May Have to Be Changed If Sales Source Keeps Falling

LANSING (AP)—The Michigan Legislature may be forced into re-vamping the state tax structure during the next session, key legislators admit.

Legislators were told Thursday that the sales tax revenues — most important single source of state income — probably will fall \$6 to \$10 million behind the anticipated \$432 million.

Rep. Hollo G. Conlin, R-Tipton, chairman of the House Taxation Committee, gathered with the state's fiscal experts Thursday to obtain an up-to-date report on the revenue status.

Conlin said legislators have been reluctant to try to write a new overall tax program during the 1961 session — preferring to wait for recommendations from the constitutional convention.

Clarence W. Lock, state revenue commissioner, told the committee that as of the end of October, sales tax revenues were running up to \$7 million behind last year.

Sahl Paternity Suit Settled Out of Court

LOS ANGELES (AP)—A paternity suit against comedian Mort Sahl has been settled out of court.

The case was removed from the Superior Court calendar Thursday.

Terms of the settlement were not announced.

Patricia Manley, 32, a widow, alleged in her suit that Sahl, 34, fathered her son Adam, 4 months, during a vacation trip to Europe last fall and Sahl made no claim.

Mrs. Manley, a former television costume designer, had asked for \$1,000 a month for child support pending trial of the suit.

They're Very Sure
SAN DIEGO (AP)—A sign at the entrance to the garage of San Diego's largest hotel reads: "No cars or trucks not allowed in garage to deliver anything no time."

Sec. Goldberg Backs Liberalized Tariff Policies

WASHINGTON (UPI)—Secretary of Labor Arthur J. Goldberg has strongly endorsed the administration's drive for a more liberal trade and tariff policy.

Goldberg, just back from Japan, reminded American workers and unions that Japan is this country's second best customer. Canada is first.

"Many jobs of American workers depend on exports," Goldberg said in a statement to a news conference Thursday.

The United States has "much more to gain from liberalized trade with Japan than from restrictions," Goldberg said.

Crash Kills 5 on Expedition

Dr. Edw. Thiel Among 9 Aboard U.S. Plane on Antarctic Mission

CHRIST CHURCH, New Zealand (UPI)—A U.S. Navy Neptune crashed in Antarctica Thursday, killing five of nine Americans aboard.

The Navy said the dead included Dr. Edward C. Thiel of the University of Minnesota, a member of the National Science Foundation, and four crewmen. Four other crewmen were injured.

The twin-engine plane crashed on takeoff at Wilkes, the Australian Antarctic station. It was returning to McMurdo Sound from the Russian base at Mirny, where it landed American biologist Madison E. Pryor of Ohio State University.

Pryor is to spend the winter at Mirny under U.S.-Soviet exchange agreement.

The plane, a P-3V Neptune based at the Quonset Point, R.I., Naval Air Station, had been gathering data for a magnetic field map of the Antarctic. The cause of the crash was not immediately known.

Thiel, of Minneapolis, had been working on the foundation's Antarctic research program.

To Use Editorials Banned From Flint JC Paper

LANSING (AP)—Editorials banned in the student newspaper at Flint Junior College will be printed in "The Lookout," student publication at Lansing Community College.

The editorials dealt with the action of the Flint junior college student body in passing a resolution favoring abolition of the House Un-American Activities Committee.

The Flint Board of Education refused to permit publication of the editorials.

Copies of the Lansing student newspaper will be sent to Flint, a member of the editorial staff said.

Machine Gun Bullets Kill Police Official in Algiers

ALGIER (AP)—Rene Joubert, a police commissioner investigating the secret French Army Organization, was killed Thursday night by machine gun bullets while drinking in a suburban bar.

Witnesses said a car passed in front of the bar and gave several short blasts on the horn. A following car rolled slowly past the bar, with one or more persons firing machine guns from the open car windows.

U.S. Army Shuttle to Berlin Starts

BERLIN (AP)—First elements of a motorized U.S. infantry company arrived in West Berlin today, beginning a new armed shuttle across the Communist-controlled highway from West Germany.

Le. Richard F. Jennings, 25, of Cincinnati, Ohio, headed the vanguard. He reported no difficulties with the Soviets or anyone else.

The journey across the 110-mile stretch of Communist East Germany took three hours and 40 minutes. The U.S. soldiers, wearing steel helmets and full battle dress, were checked for 45 minutes at the Marienborn checkpoint. The Russians counted them, but did not force them to dismount. Twenty minutes was spent at the U.S. Babelsberg checkpoint outside Berlin.

JFK May Make Latin American Journey Soon

WASHINGTON (UPI) — President Kennedy is considering another major venture in personal diplomacy, this time to Latin America.

There were reports he might go to South America within a few weeks. Administration sources said plans were not firm, but under serious consideration.

The President had a late morning conference with Fulton Freeman, U.S. ambassador to Colombia. The White House said Freeman was home for consultation.

Work to Avoid Renewal

LA Fires Are Controlled

LOS ANGELES (AP)—A hundred men, hollow-eyed and foot-sore, patrolled still-smoking canyons today, the final stage of a five-day fire disaster in the Santa Monica Mountains.

They kept doubling firetrucks throughout the night, hoping to

avoid a renewal of Southern California's worst fire outbreak.

FIRES UNDER CONTROL

They finally controlled the 8,000-acre blaze in Topanga Canyon Thursday night but were still plagued by "hot spots"—sparks flying out of smoldering stumps and flaring into flames. The 5,750-acre fire in nearby Bel-Air was controlled Wednesday night.

Official estimates of damage remained unchanged: 456 homes destroyed; property losses that may exceed \$20 million; 14,150 acres of vital watershed ruined.

There have been no deaths reported. About 150 firemen have been injured, none seriously. Los Angeles County has been declared a disaster area by Gov. Edmund G. Brown, who is seeking federal aid.

Rocky Gets Approval of School Shelter Plan

ALBANY, N.Y. (AP)—Gov. Nelson A. Rockefeller had legislative approval today for his \$100-million program to spur construction of fallout shelters in schools. But a Republican plan for congressional redistricting encountered rough going.

The Republican-controlled legislature look up redistricting today as the final business of a special session that opened Thursday.

Grocers can thank Benjamin Franklin for the "long arm," used to pluck packages from high shelves. The device was invented by Franklin when he was 80, not for use in groceries, but in libraries.

Con-Con Finally Settles Party Fight

Dec. 1 Is Deadline for Filing Proposals

appear as if they were being persecuted.

Republicans control the convention by a margin of 99-45, but most of the work of the delegates has been carried on in an atmosphere of bipartisan harmony during the first six weeks.

A Dec. 1 compromise deadline finally was adopted by a 78-40 vote, which followed mainly along party lines, after nearly two hours of debate.

Some Democrats accused Republican delegates of trying to impose a gag rule, while a GOP leader contended that the outnumbered Democrats wanted to

Thursday's wrangle came when Democrats charged that the setting of a deadline on Nov. 22, as proposed by the rules and resolutions committee could result in minority members being cut off from submitting ideas on how the constitution should be changed.

But a Democratic-sponsored amendment to set the deadline at Jan. 1 was defeated by a 95-40 party-line vote.

After approving the establishment of the Dec. 1 deadline, the rule was amended to allow dele-

gates to file "suggestions" — but not formal proposals — with convention committees.

"Is the intent of this move to make the so-called gag rule a little more palatable?" asked Les Walker, D-Madison Heights.

Another Democrat, Samuel B. Ostrow of Detroit, said the people waited 50 years for this constitutional convention and there was no reason for rushing things through.

"This is not a legislative session where—if we fail to do something this year—we can take it up again in the next session," he said.

Richard Van Dusen, R-Birmingham, chairman of the rules committee, said that a deadline for proposals had to be set to avoid a log-jam at the end of the convention. He commented later that the Democrats wanted to appear like martyrs who were being persecuted.

Dunn, English artist who drew his exhibit of drawings at St. Mary's College at South Bend, Ind., because three drawings of the female nude were banned, stands beside one of his ceramic sculptures, a fish form. Dunn is teaching ceramics at the college under a year's contract expiring in February.

Stravinsky Reported Suffering From Fatigue

SYDNEY, Australia (UPI) — Composer-conductor Igor Stravinsky was reported ill today and remained in his hotel. The noted composer of "The Rite of Spring," "Petrouchka," and "The Firebird Suite" was said to be suffering from fatigue. Stravinsky, 79, is scheduled to fly to New Zealand Saturday.

Steel Leader's Plane Lands OK

Nosewheel Holds After 3 Anxious Hours Over Eastern Airports

NEW YORK (AP) — The president of Bethlehem Steel Corp., his wife and a crew of three spent an anxious three hours in the air Thursday before a company plane landed safely at Idlewild Airport.

The craft, a twin-engine Convair 440, took off from Allentown, Pa., airport. The pilot then discovered an apparent malfunction of the nosewheel. He circled Allentown airport for a couple of hours before being ordered to Idlewild for an emergency landing. Aboard were Arthur B. Horner, 65, his wife, and Capt. R. B. Beckner, the pilot, of Barto, Pa., and two co-pilots, R. F. White and S. P. Kaschak of Bethlehem, Pa.

As crash equipment stood by, Becker circled Idlewild for a half hour before setting down safely. The nosewheel held. What had been a scheduled trip from Allentown to Newark, N.J.—normally a 28-minute run—took three hours.

Soviet's Big Bomb 55 to 60 Megatons

WASHINGTON (AP) — The Atomic Energy Commission now estimates that the big Soviet bomb exploded in the atmosphere Oct. 30 was in the 55 to 60 megaton range.

The commission's preliminary estimate placed the bomb's energy in the range of about 50 megatons. A megaton is the equivalent in energy release to the explosion of a million tons of TNT.

The new estimate was given Thursday in response to an inquiry and was based on analysis of available data.

Flighty Aviator Gives FAA Head Shaky Moments

WASHINGTON (AP) — N. E. Halaby, administrator of the Federal Aviation Agency, passed some embarrassing minutes on Thursday at Washington National Airport.

Halaby, a pilot, was seated at the controls of the agency's new Grumman Gulfstream transport. He was ready to take off for Richmond, Va., to investigate the Imperial Airlines crash there.

Next to Halaby's plane was a Viscount airliner, also awaiting permission to take off. Halaby got a go-ahead first from the FAA control tower. But, as he moved his plane ahead, so did W. D. Mason, pilot of the Viscount, which belongs to United Air Lines.

The two planes, both in the \$1 million-plus class, brushed and a running light in the Gulfstream's wing tip was shattered. Also damaged was a wing tip of the United plane.

The Virgin Islands, formerly known as the Danish West Indies, were bought by the United States from Denmark in 1917 for \$25 million.

49ers Protest TV Scheduling

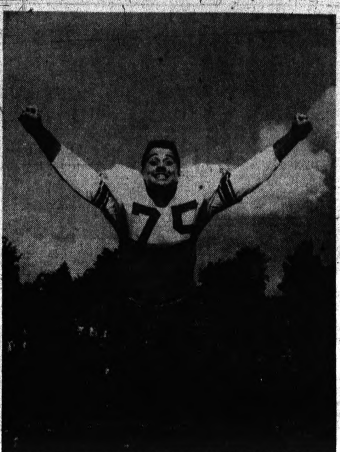

Claim Network Beams Home Games to Areas in San Francisco

SAN FRANCISCO (AP) — The San Francisco 49ers of the National Football League asked the U.S. District Court Thursday to restrain the National Broadcasting Co. from telecasting certain pro football games into the San Francisco area.

The complaint said the Baltimore Colts and Pittsburgh Steelers have contracts with NBC for telecasts and the company has been broadcasting their games into San Francisco territory from station KGBA in Sacramento.

The 49ers said the telecasts violate NFL by-laws that prohibit telecasts of any game into the home territory of any other club in the league without consent of that club on a day it is playing a home game.

The court will hear arguments on the motion for preliminary injunction Nov. 15. The 49ers also ask the court to decide the amount of damages the 49ers may have suffered as a result of the telecasts.

ATTENTION! — The Detroit Lions will be without John Gordy, offensive lineman when they play the Cardinals Sunday and probably for the next year. Gordy was called up by Uncle Sam and reports to Fort Lewis, Wash., on Tuesday. He has been in the pro ranks four years. He is 25 years old.

Northern Michigan Back Running Out of Games

By The Associated Press

Northern Michigan's Wayne Slicker has taken a commanding lead—but the race for the state's individual scoring championship is far from over. Slicker added a touchdown and three extra points in Northern's 61-6 triumph over Michigan Tech and 64 points in seven games. Second is his teammate, Mike Milecki, who has 44 points.

But the two Northern players have just one game remaining—Saturday against Tampa—in which to add to their pointmaking.

George Salmes of Michigan

New Goal Set by Schayes — 20,000 Points

PHILADELPHIA (AP) — "I'd like to reach 20,000 points and then maybe I think I might retire."

It was Dolph Schayes talking in his usual easy, affable manner.

Schayes, the all-time scoring leader in the National Basketball Association, tied the record of 682 consecutive games played as he scored 13 points Thursday night in a disappointing 151-108 loss to the Philadelphia Warriors.

Well, another milestone, someone remarked, then wanted to know what Schayes next goal would be.

His answer of 20,000 points was quick but he doubted if he could accomplish the feat this year since he now has only 17,823 and averages from 1,500 to 1,800 a year.

Hawks Lose Balfour

CHICAGO (AP) — The Stanley Cup champion Chicago Black Hawks disclosed Thursday they must play their next two road National Hockey League games without injured winger Murray Balfour.

Balfour reinjured his left wrist, fractured in last season's playoffs against Montreal, in Tuesday night's 6-0 victory over Toronto.

State and Larry Vargo of Detroit—not for third with Albion's Ray Hong at 43 points—can overtake Slicker before the season ends. Michigan State and Detroit play three more games.

Michigan State's loss to Minnesota left Albion as the only unbeaten team in Michigan. Albion can wrap up its first perfect season since 1928 and an outright MIAA title by beating Adrian in its finale Saturday.

Good Balance Seen Among ABL Quintets

By The Associated Press

They've only played 16 games in the fledgling American Basketball League, but there isn't an undefeated team left among the members.

The Pittsburgh Rens and Hawaii Chiefs were the last to fall, both beaten Thursday night in a double-header at Washington. The host Tapers edged the Chiefs 92-91 and the Chicago Majors whipped the Rens 108-97.

In the only other game, the Cleveland Pipers nipped the San Francisco Saints 103-100 and left the infant circuit with only one club above .500 and only one below the break-even mark. The remaining six are even in early season play.

Longhorns Keep Lead in Total Yardage

NEW YORK (AP)—The powerful Texas Longhorns lead the nation's major college football teams in total and rushing yardage for the third consecutive week today.

The Longhorns have an average 325 yards rushing and 431 overall while compiling an unbeaten record for seven games. They gained 431 yards—their exact season's average—in beating SMU last Saturday, according to statistics compiled by the NCAA Service Bureau.

Mississippi, which was knocked from the unbeaten ranks by Louisiana State, remained the runner-up in total offense with a 417.7 average followed by Utah State 387.6 and New Mexico State 327.9.

The Detroit Titans, who must lose to the rest of the way without their injured passing star Jerry Gross, still hold a commanding lead over Mississippi in passing.

Handy's SVC Title Hopes Wrapped Up in 1 Night

One single game can mean everything to a football team. Take the case of Bay City Handy.

Hi Becker's Wildcats have been rated Michigan's No. 1 Class A prep power for the past five weeks. Only a 13-13 tie with Flint Central mars an otherwise perfect eight-game record.

Yet all of Handy's hopes and dreams for a Saginaw Valley Conference championship in its first year of league membership can be shattered in an evening's time.

And 8 o'clock tonight is the hour of decision for undefeated Handy.

The Wildcats tangle with their bitter cross-town rival, Bay City Central, and the Saginaw Valley crown will be squarely on the line in the state's top high school gridiron attraction.

Handy, with a 6-0-1 record, must conquer or the twice-beaten Central to annex the SVC title. A loss to the Wolves will enable Midland to back into the throne room.

Midland has concluded its Valley campaign with a 7-1 mark and holds 2nd place in the loop standings. A reversal for Handy this evening would hand the championship to the Chenevis on a silver platter.

Elmer Engel's Wolves are no

longer in title contention with a circuit mark of 5-2. But they are ever dangerous and would dearly love to keep their intractable foes from winning the crown.

The Wolves, pre-season favorites in Valley forecasting, bowed out of the title picture by losing to Flint Central and Midland.

They boast a rugged line, spearheaded by All-State tackle Ken Wright, and a versatile offense directed by quarterback Bob Schafer.

Handy will be outwitted by the wolfpack, but the Wildcats have faced that handicap all season long. They have excellent team speed, a highly explosive attack and an uncanny ability to capitalize on enemy errors.

"We will have to avoid making mistakes if we're going to beat them," Engel said. "They're terrific opportunists."

The Handy-Central feud will end the 1961 season for both schools. And what a finale it should be. Midland, obviously cheering for a Central victory, goes to Alpena for a non-conference game to finish its season. In other league action tonight, Pontiac Central plays host to Flint Southwestern, Flint Northern entertains Arthur Hill and Flint Central visits Saginaw High.

Detroit has averaged 218.2 yards a game to Ole Miss' 179.4. Mississippi, however, has passed for the most touchdowns, 15, and has the lowest average of interceptions, 2.8 on only four interceptions in 145 pitches.

Duke's Blue Devils retained their lead in aerial accuracy. Their passers have connected on 70 of 117 for a 59.8 percentage. Utah State has the highest scoring average, 38.1 points a game for eight outings.

Six Drivers To Try for Speedway Mark

INDIANAPOLIS (AP) — Rodger Ward of Indianapolis and Marvin Panch of Daytona Beach, Fla., were selected Thursday to complete the list of six race car drivers who will attempt record stock car runs at the Indianapolis Motor Speedway.

Other drivers chosen earlier this week are Paul Goldsmith, Len Sutton, Joe Weatherly and Glen Fireball Roberts.

The records which they will be shooting for are one lap, 117.832 m.p.h. an hour; 500 miles, 11,916 m.p.h., and 24 hours, 21,137.5 miles, all at an average speed of 89.89 m.p.h.

MILITARY or COMMERCIAL ELECTRONIC TECHNICIANS

WANTED NOW

WORLD-WIDE ASSIGNMENTS

The Jobs:

1. The maintenance and servicing of world-wide communications and radar equipment.
2. Instruction on basic electronics.

The Requirements:

- You'll qualify if you meet any of the following:
- Tech school grad with commercial or military electronic maintenance experience.
 - 9 months' electronics schooling plus two years maintenance experience on communications and/or radar equipment.
 - Radio-TV servicemen with receiver and transmitter background.
 - Broadcast engineers.

The Pay:

\$7,000 — \$10,000 PLUS BONUSES

Locations:

World-wide or continental U.S.A. Field Engineering assignments.

Negroes, Outsiders Can Join PGA

HOLLYWOOD, Fla. (AP)—The Professional Golfers Association has opened its membership door to Negroes and to golfers from every country of the world.

Until the constitution was amended Thursday at the annual PGA convention, membership had been limited to Caucasians from North and South America. Now there are no restrictions based on race, religion or nationality.

Lou Strong of Rochester, N.Y., PGA president elected for a second two-year term, said the constitutional changes most likely would not be noticeable on the pro tournament circuit.

He noted that three Negroes have participated in PGA-sponsored tournaments, as well as players from countries outside the Western hemisphere. Now, however, these players will be able to join the PGA.

Strong said that the 85 delegates, in amending the constitution, demonstrated "a realization of changing conditions in the world situation" by enacting a constructive measure coinciding with decisions set forth by the U.S. government.

Last November the PGA voted against eliminating the Caucasian clause. As a result Stanley Mosk, attorney general of California, said that he would force the PGA to "cease all activity of any kind" in his state until the clause was removed.

The 1962 PGA Championship, originally scheduled for the Brentwood Club at Los Angeles, was shifted to the Aronson Club near Philadelphia.

Charles Sifford, the most prominent Negro professional, is from Los Angeles. He has played in 26 tournaments on the PGA tour this year, including one at Greensboro, N.C., last April. It marked the first time a Negro had played against white professionals in the Deep South. Sifford finished fourth, earning \$1,300, his largest single purse of the year.

EVERYBODY'S BOWLING

11-REACH
BY ANDY VAREPAPA
Member Bowling Hall of Fame

Reaching that target. Releasing the ball, the hand should come up until it passes in front of the eyes. It stays directly in line with the pins at the point you want the ball to strike. The hand should be outstretched, as though you were reaching for the target. Don't stop the follow through.

Executed properly, the smooth ball delivery is done without strain or tension.

That's one thing seniors should remember. Bowling does not impose a great strain.

I'm not quite old enough to have met the gentleman, but I'll bet if Rip Van Winkle was a good bowler when he went to sleep on that mountain top, he was only a couple of pins off his best when he woke up 20 years later. He might even have been better.

Sometimes bowlers, like rare brandy, improve with age.

up 20 years later. He might even have been better.

Hand should be outstretched.

NEXT: Dick Hoover on Junior bowling.

UCLA and TCU Clash Tonight on West Coast

Texas Risks Top Rating Against Rugged Baylor in Saturday Feature

United Press International

Rose Bowl-bound UCLA takes on Texas Christian tonight in the start of a college football weekend that may produce a repeat of last week's upsets or a clear picture of post-season bowl prospects.

The Bruins are 10-point favorites to win their sixth game in eight outings this season. They lead the Big Five conference with a perfect record of 9-0. Texas Christian, with outside hope of gaining a post-season berth, has split its schedule down the line, winning three, losing three and tying one.

Texas, the nation's No. 1 team, kicks off Saturday's key games as a 10-point favorite over Baylor. The Longhorns, one of four unbeaten and untied major powers, are moving toward a Southern Conference title and the Cotton Bowl.

But don't sell Baylor short. Last in the conference standings, the Bears have always been a threat to Texas domination.

Major Leagues Will Discuss Cutting Bonuses

NEW YORK (AP)—A new bonus rule, aimed at curbing huge bonus payouts to promising young players, will be proposed at annual winter meetings of baseball's major leagues in Miami Beach next month.

The rule, which Commissioner Ford Frick said could be the first step toward ending bonuses of \$100,000 to untied players, centers on the strengthening of the current first-year player rule.

Under the proposed rule, no major league club would be allowed to send a first-year player to the minors without first obtaining waivers from every other major league team at a price of \$5,000. And such a player could not be reacquired by the major league team until he had gone through the unrestricted \$8,000 trade rule.

Following his assignment to the minors.

Will Discuss Tourney at P.W.B.A. Meeting

Plans for the annual city tournament will be discussed at the 1st open meeting of the Pontiac Women's Bowling Association this season Sunday at 1:30 p.m. at the Elks Temple on Orchard Lake Ave.

The tourney will be held at the re-modeled Westside Recreation in that city. Competition will start there March 3.

National Show Competitors Set for Winter Fair

TORONTO (AP)—The eight-day Royal Agricultural Winter Fair opens tonight with teams from the United States, Canada, Mexico, Argentina and Ireland competing in the international riding event.

The teams are the same which competed in the New York National Horse Show, won by Argentina, the youngest member of the Argentine team, and the youngest competing in the show, is 13-year-old Carlos Damm Jr., son of team captain Carlos Damm.

Other members are Dr. Hugo Miguel Arrambide and Lt. Eduardo Castang.

Kathy Kusner, Arlington, Va., riding for the U.S. team, is the only woman riding in the international competition. Other U.S. team members, who won in Hurlingham and Washington, D.C. shows, are Billy Steinkraus and Frank Chapot.

Lema Tops Tourney; Sneed Withdraws

MEXICO CITY (AP)—Tony Lema of San Leandro, Calif., with a 4-under-par 66 in the first round, has taken over the favorite's role in the Mexican National Open Golf Tournament in the wake of the surprising withdrawal of Sam Sneed and defending champion Howie Johnson.

Sneed, in Miami, Fla., contacted tournament officials after first-round play had begun and said he would not compete. Johnson, of Cog Hill, Ill., also withdrew.

Lema, with his 66, shared the first-round lead with amateur Roberto Halpern of Mexico City. Two strokes back were Angel Miguel of Spain and Sam Reynolds of Springfield, Mo., both with 70s.

LONGHORN CO-CAPTAINS — Quarterback Mike Cotten (left) and tackle Don Talbert are co-captains of Texas University's football team, rated No. 1 in the nation. Talbert is a 228-pound senior from Texas City while Cotten, a 188-pound senior, hails from Austin.

Utah State, 'Bama, Penn

Toughest Defensive Units?

NEW YORK (U) — Utah State, Alabama and Pennsylvania are proving the sturdiest clubs against opposition attacks as the college football season heads into its final weeks, NCAA Service Bureau statistics show.

Utah State ranks No. 1 in total defense and rushing defense after throwing up a roadblock against its last three opponents. In lopsided victories over Idaho, Colorado State University and Brigham Young, the Utags yielded only 118 yards over all.

In all eight of its games, Utah State has given up 320 yards for a 16.1 average, with 330 of these yards on the ground for a 41.3 average.

Alabama is second in total defense and rushing defense and is first in scoring defense. 'Bama has held seven opponents to 911 yards, a 130.1 average, and in rushing has given up 386 yards, a 55.1 average. When it comes to holding down the enemies' scoring, the tide has been tough, permitting just 22 points in seven games. Two-oh Southern Conference powers, Mississippi and Georgia Tech, share second in scoring defense at 3.3 points per game.

Penn has lost four of its seven starts but still leads in pass defense, with a 50.7-yard average. Arizona State remains the punting leader, averaging 42.4 yards on 19 kicks.

Ty Cobb hit two singles, a double (the Detroit Tigers posted a total of three home runs in a 1925 of eight doubles, a triple and four game with the St. Louis Browns as homers.

Hunting Accidents Cut shooting accidents per 100,000 hunters — is only about half what it was in the early 1940's.

The one low-price compact that's every bit as lively as it looks—Valiant '62!

You're looking at the sports-loving compact car given an award of merit by the Society of Illustrators for design excellence! Come see it!

Unlike some compacts, Valiant will take off like a scared kitten at the drop of a "Scat!" You'd have to pay extra for an optional engine in most any other compact at Valiant's price to match Valiant's standard 101-hp Economy Six.

A modified version of this engine shot Valiant to victory over all American compacts competing in the 1960 and '61 Daytona Beach compact car competition! Yet, for all its go, Valiant-put-putty of care-free miles between gas pumps. A Valiant scored 26.13 mpg in the last Mobilgas Economy Run!

And this new Valiant has the distinctive good looks to match its gumption. America's most famous artists recently honored the 1962 Valiant. For the first time in seven years, the Awards Committee of the Society of Illustrators has bestowed its coveted citation on a car—Valiant!

That's even more proof that the 1962 Valiant is indeed the Style Leader of the Compacts!

For looks and liveliness, you just can't match Valiant at Valiant's low initial price! And this year's Valiant offers a bundle of economy extras. Like half-as-often oil changes and almost never 32,000-mile lubrication on major chassis points. See your Plymouth-Valiant dealer. Drive the low-price compact that's quality-engineered by Chrysler Corporation. Find out why...

Nobody beats VALIANT for value!

Pontiac, Mich.

DICK DUNKEL

COLLEGE FOOTBALL REPORT

EXPLANATION — A Dunkel is a comparative strength rating based on the season's record to date. It reflects average scoring margin relative to rating of opponent. Example: a 50.0 Dunkel has been 10 scoring points stronger, per game, than a 40.0 team against opponents of relatively equal ability. The system has been continuous since its origin in 1959 by Dick Dunkel.

MAJOR GAMES

FRIDAY, NOVEMBER 10

United Fund Exceeds Goal With \$674,535

Success tasted sweeter than ever today for several thousand Pontiac Area United Fund workers who pushed the drive for \$672,500 over the top—and then some.

There were congratulatory hand shakes and pats on many backs all around this noon at the Elks Temple, where Thomas F. Wiethorn, general campaign chairman, gladly announced: "We did it."

He said that during the 23-day drive the three

major divisions raised \$674,535 — making it the fourth consecutive year in 13 campaigns that the Pontiac Area United Fund had either reached or surpassed the quotas.

"I'm extremely proud of every single one of you here today, but more especially I say three cheers and heartfelt thanks to the thousands of persons and firms in this community who demonstrated again that they have big hearts when it comes to giving once for all," Wiethorn told the 200 persons gathered for the victory luncheon.

Offering his praise for the entire community and the leaders and workers of the 1961 campaign was Earl J. Hill, principal speaker. Hill is administrative assistant in public relations for the Consumers Power Co. in Jackson.

An 11th hour move in the commercial division enabled this division, which had reached 86 per cent of its \$179,876 goal at this time yesterday, to report success today at the luncheon.

Otto Hufziger, vice chairman of the division, thanked the chairmen and contributors in the

government and professional groups in the division "for last minute efforts which made it possible to report victory today."

Hufziger, subbing for Harry J. Woodman, chairman of the commercial division, said the amount raised by the division came to \$180,427.

Under Hufziger's leadership, the contributors in the Pontiac School System reported 117 per cent of their goal.

Pilots Plane 4,070 M.P.H.

HAPPY MOMENT — Maj. Bob White, center, is congratulated Thursday by Col. Charles Yeager, left, the first man to break the sound barrier, and Brig. Gen. Irving L. Branch, commander of the Air Force flight test center at Edwards Air Force Base, Calif. White had just piloted the rocket plane to a speed of 4,070 miles an hour. Half of the ship's windshield was shattered into an opaque mass, but White brought the craft in safely.

Seeks Altitude Record Next Week

X15 Zooms Past Its Speed Goal

From Our News Wires

EDWARDS AIR FORCE BASE, Calif. — The X-15 rocket ship, fore-runner of the space ship that will take man to the moon in this decade, has achieved one of its twin goals — record speed. Now it will be aimed at record altitude.

Air Force Major Bob White opened it up all the way in level flight Thursday and set a new speed mark of 4,070 miles per hour — six times the speed of sound.

White's top speed, attained in level flight with the craft's throttle

(all forward and speed brakes off, was:

—Swift enough to fly from New York to Los Angeles in 30 minutes or around the world in less than 7 hours, if its speed could have been sustained.

—150 m.p.h. faster than the speed mark set Oct. 11 by Joe Walker.

—Faster than an Army-issue 30.06 rifle bullet.

White said he doubted that the plane could go faster without major modifications.

temperature changes of more than 1,000 degrees in less than three minutes splintered the outer panel of his windshield.

"I expect the metal frame holding the windshield will be modified before the altitude attempt," White said after his flight.

The right side of his windshield was so badly cracked by the heat, that White could not see out of it. "Good Lord," he breathed, "I hope this one holds."

Then he radioed to the chase pilot on his right side: "Stay right there, buddy."

The chase pilot, Air Force Major Walter Daniel, led exactly that, keeping his F104 just above the X-15 and radioing instructions to White all the way down.

White landed safely.

Kennedy, Nehru Voice Accord on N-Test Ban Pact

Provision for Control, Inspection Included, Says Communique

WASHINGTON (U) — President Kennedy and Indian Prime Minister Nehru have "agreed on the urgent need for a treaty banning nuclear tests with necessary provisions for inspection and control."

The agreement was contained in a communique issued Thursday after Nehru completed four days of talks with the President. The Indian leader flew to New York today.

Nehru's acceptance of the U.S. position, the need for controls indicated some slight modification in the Indian position.

The Indian delegation at the United Nations had held to the view that the United States, Britain and the Soviet Union should forego all testing, pending an agreement on an inspected test ban treaty.

At the same time, Nehru apparently has not accepted the U.S. claim that the resumption of underground testing by the United States — and perhaps of future atmospheric testing — is fully justified on the grounds of self-preservation. Nehru has said he is flatly opposed to any nuclear tests by anyone.

REDS BROKE BAN

Kennedy pointed out that the Soviet Union had broken a previous informal test ban and "read-firmed the United States' unwillingness to accept a further uncontrolled test moratorium."

Earlier, at a National Press Club luncheon, the Indian leader called the Soviet resumption of nuclear testing "a very harmful, disastrous thing."

Watch for Echo at Night

The Echo I will make one appearance Saturday in the Pontiac area. The satellite can be seen in the north at 7:42 p.m., 66 to 69 degrees above the horizon, moving northeast.

\$21.5 Billion to Be Spent

Foresees Top Car Year

ANN ARBOR (AP) — An all-time record year for the automotive industry, with \$21.5 billion being spent for more than 7 million cars and parts in 1962, was forecast here today.

The prediction was made by Dr. Daniel Suits, a University of Michigan economist whose studies on the nation's economy have resulted in remarkably accurate forecasts during the last 10 years.

SEES BEST YEAR

Delivering his report to delegates at U. of M.'s ninth annual Conference on the Economic Outlook, Suits said:

"The auto industry can expect a better than seven million-car year in 1962, with a phenomenal increase of 25 per cent in the amount of money spent

for cars and parts in 1961."

Suits said his forecast agrees with others made recently, of which he admitted, "I was frankly skeptical."

OUTDOOR DISAPPOINTING

Suits said the source of the increase is largely the "liquid condition" of consumers funds — the accumulation of cash and savings, plus the fact that 1961 has been a dismal year for the auto industry.

In spite of the expected auto boom, Suits said, the outlook for the economy in general is "disappointing."

This last observation runs counter to forecasts made by other economists at the conference, who reported they expected 1962 to be a "quite favorable year" for the nation's economy.

Pontiac 'Serves' Man Nine Portuguese Who Served Pontiac Hijack Airliner

They forgot about budgets, tax rates, urban renewal, federal aid and all that jazz at city hall yesterday.

Instead, everyone got a piece of the proposed perimeter road, or the airport terminal or the new sewage treatment plant.

Monkey Killed in Explosion of Atlas Missile

CAPE CANAVERAL, Fla. (AP) — A tiny monkey named Galahad died in the flaming explosion of an Atlas missile high over the cape today.

Officials reported 20 minutes after the launching there was no chance that the small passenger had withstood the great explosion. His space capsule, trucked in the Atlas nose cone, had no escape mechanism.

Torch Drive Tops Goal

DETROIT (U) — The Detroit Torch Drive ended Thursday with a total of \$18,945,547 taken in — \$55,547 more than the goal set. The funds will be used to support 195 charities.

Where's the Roundhouse?

AN UNSCHEDULED STOP — Passenger car of an Erie Lackawanna train lies amid rubble of a house it hit at Peapack-Gladstone, N.J. The two-car train ran through a track-end

ing at the station—and crashed into the house. Three persons sitting inside holding a Bible meeting were hurt slightly.

Flowers were also presented to Mr. and Mrs. William from city employees and Waterford Township Fire Chief Elmer Fagbender.

Paul A. Hoskins, water collection superintendent and "artist," presented William with a few cartoons he painted for the occasion.

To make it a little easier to wash down the plant, terminal and loop road, female employees served ice cream and coffee. There were also candies, nuts and homemade cookies, from the kitchens of city hall secretaries.

Some 30 members of the party committee, headed by Assistant City Manager Robert A. Stiller, made the event a huge success.

Among those attending were former mayors and former city commissioners.

Williams Delays Trip

WASHINGTON (U) — G. Mennen Williams, assistant secretary of state for African affairs, has postponed his planned fourth trip to Africa. The State Department announced Thursday. The trip was to begin Nov. 27.

Galvao Backers Drop Rebel Leaflets Over City of Lisbon

LISBON, Portugal (UPI) — Nine antigovernment Portuguese rebels hijacked an airliner over Lisbon today, dropped leaflets supporting rebel leader Capt. Henrique Galvao on the city, and then forced the pilot to gunpoint to land at Tangier, Morocco.

The plane was a Portuguese TAP four-engine Superconstellation en route from Casablanca to Lisbon. Unconfirmed reports said there were about 30 passengers on board, including five Americans.

Reliable sources said the nine hijackers boarded the plane at Casablanca, and took control shortly before it reached Lisbon.

They apparently forced the pilot to fly over the city while they dropped their leaflets, then had him turn back and land at Tangier on the northern tip of Africa opposite Gibraltar.

The hijacking and leaflet-dropping came just two days before Sunday's parliamentary elections in Portugal.

It obviously was designed to dramatize the rebels' opposition to the regime of Premier Dr. Antonio de Oliveira Salazar.

Galvao and a group of insurgents pulled a similar stunt when they hijacked the Portuguese cruise liner Santa Maria off Brazil last January.

TAKEN BY POLICE

The nine men who were reported to have staged today's hijacking incident remained in Tangier. They were taken to police headquarters, but it was not known immediately whether they were under arrest.

Police surrounded the Tangier airport and refused to let newsmen near the plane while it was on the ground there. They also refused to give out any information until the nine were questioned.

News Flash

VIENNA (UPI) — Former Soviet Foreign Minister V. M. Molotov has been expelled from the Communist party and relieved of his post in Vienna. It was reported reliably today.

Soviets Making One Concession to Start Talks

Speak of 'Free' Status Between City and West, Proposals Informal

By PRESTON GROVER

MOSCOW (U) — A new Soviet proposal on Berlin and Germany was viewed by diplomatic quarters here today as making one concession to the West that might lead to negotiations.

The future of Communist-surrounded West Berlin would be discussed first under the Kremlin's new plan, reported Thursday by authoritative circles in the Soviet capital.

The questions of recognition of Communist East Germany sovereignty and writing of a German peace treaty, which Premier Khrushchev has long held to be more urgent, would follow on the agenda.

This reversal in procedure is in line with Western thought that the independence of West Berlin and Western rights there are of the most vital concern and that Khrushchev has been putting the cart before the horse.

Diplomatic informants considered the preferred switch a distinct and important change in the Soviet position.

But old snags remained evident. At no point did the Soviets indicate they had changed their basic demands to end the Allied occupation of West Berlin, which they have campaigned to convert into a "demilitarized free city."

Nor did they give ground on their demands for Western recognition of the Communist East German regime as a sovereign government and for a German peace treaty.

TO START TALKS

The Soviet proposals apparently were presented informally but definitely this week to the United States, Britain, France and West Germany through their ambassadors in Moscow. The aim was

(Continued on Page 2, Col. 5)

Veterans' Day Observances Set

Legion, DAV and VFW Programs Scheduled, Offices to Be Closed

Veterans' Day will be observed in Pontiac tomorrow with special events scheduled at local headquarters of the American Legion, Veterans of Foreign Wars and Disabled American Veterans.

All banks, savings and loan institutions and governmental agencies normally open on Saturdays will be closed in honor of the legal holiday, formerly known as Armistice Day.

A flag-raising ceremony at 7 a.m. tomorrow will start the day's activities at the Oak-Nation Post No. 20, American Legion, 206 Auburn Ave.

An annual breakfast will be held at the post from 8:30 to 9:30 a.m. followed by a round-table discussion of war-time recollections and an open house. The event is open to all veterans of World Wars I and II and of the Korean Conflict.

Floyd E. Cremer and Don R. McDonald of Oakland County's Veterans Affairs Department are co-chairmen of the breakfast.

An open house at City of Pontiac (Continued on Page 2, Col. 3)

Everyone Happy, Beautiful Fall Weekend Coming

Sports lovers will enjoy outdoor events without shaking and shivering this weekend. Temperatures will be on the cool side tonight about 36 but will shoot up to 52 Saturday.

For the next five days temperatures will average about four degrees above the normal high of 48 and low of 34.

Only minor day-to-day changes will take place with a gradual warming trend through most of the period.

Precipitation total less than one-tenth inch in a few light snow flurries about Monday.

Morning westerly winds at 2 to 5 m.p.h. will become southwesterly at 6 to 12 m.p.h. Saturday.

The low temperature prior to 8 a.m. was 29. The reading at 1 p.m. was 47.

Record Not So Good for Small Carriers

Charter Airlines Due for Probe

By ROBERT J. SEELING, UPI Aviation Editor

WASHINGTON — A sweeping investigation into safety practices of nonscheduled airlines appeared likely today following Wednesday night's Imperial Airlines crash at Richmond, Va., killing 71.

Chairman A. S. Mike Monroney, D-Okla., of the Senate aviation subcommittee urged such a probe in a telegram to the Civil Aeronautics Board (CAB).

And responsible sources at both the CAB and the Federal Aviation Agency (FAA) indicated the two agencies would take a closer look at the operations of the supplemental carriers.

Theoretically, the nonscheduled airlines operate under the same broad safety regulations as the scheduled airlines.

But a CAB spokesman said, "It may be that some of the smaller non-scheduled carriers are cutting corners when they're financially hard-pressed."

The FAA, which acts as "police-man" over the flight, maintenance and pilot training operations of all airlines, also is expected to crack down on any deficiencies.

The FAA may pay particular attention to the small non-scheduled carriers.

THEY LACK FUNDS — "The violations we've encountered in the past have been mostly those carriers with small

operations and big financial problems," an FAA official said.

The non-scheduled airlines' record in the past two years has not compared favorably with that of the scheduled carriers.

CAB records show that excluding all-cargo flights, the supplemental carriers had 10 fatal accidents killing 94.

Thus far in 1961, they have suffered three fatal crashes with fatalities totaling 151.

The scheduled airlines' fatality rate in 1960 was 0.75 for all-passenger flights, with 307 deaths in 11 crashes.

But the regular carriers flew more than 46 billion passenger miles in 1960 compared with the supplementals' estimated 2.6 million.

The CAB's accident files show the non-scheduled carriers had an up-and-down safety record since 1949.

From 1949 through 1953, their fatality rate per 100 million passenger miles was 17.87, 3.76, 2.07 and 11.21 respectively—considerably higher than the scheduled airlines.

But from 1954 through 1959, the supplementals in general surpassed the regular carriers and in three of those years—1955, '57 and '58—they did not have a single fatal crash.

The non-scheduled say that when their all-cargo operations are taken into account, their fatality rate is relatively low.

There are 25 supplemental carriers certified by the CAB. They

range from airlines whose operations are "big league" to outfits operating with two or three planes.

Some have been in repeated hot water with both CAB and FAA over various economic and safety rule violations.

Significantly, the supplementals with the poorest records are the ones with the flimsiest financial status resulting in frequent changes in ownership.

Reds in New Mood Over Berlin Status

(Continued From Page One)

clearly to permit negotiations to begin.

Authoritative circles said the Soviet proposals would set up this schedule:

1. The Big Four occupying powers should reach an agreement on a new status for West Berlin that guarantees the freedom of its people and freedom of communication between the city and the West.

2. A separate agreement should be reached between Communist East Germany and the Soviet Union by which East Germany would undertake to respect the new status of West Berlin and accept the guarantees of freedom for its people and communication.

3. The Western powers should agree to respect the sovereignty of East Germany, and West Germany should specifically accept this agreement. The measure of recognition of East German sovereignty was not defined, but the West German government is not likely to agree to anything as far-reaching as formal recognition of the division of Germany.

4. Finally a peace treaty would be worked out with Germany. This treaty would refer to the German Treaty, Khrushchev said repeatedly he would sign a peace treaty with East Germany if the all-Germany was not concluded, although he has lifted his threat to do it by Dec. 31.

UF Drive Passes Goal of \$672,500

(Continued From Page One)

Chairman Thomas E. Wilson said the many solicitors in the industrial division—which sought to raise \$447,992—had succeeded.

Wilson reported that employees in the eight major plants in the city had given \$302,972.

First to reach his goal was the women's division. Mrs. Walter Noffinger, division chairman called the women who knocked on doors and made hundreds of phone calls during their 10-day drive "the hardest working women in the world."

Today's luncheon was sponsored by the Consumers Power Co., Federal Department Store, First Federal Savings & Loan Association of Oakland, Detroit Edison Co., S.S. Kreske Co., Pontiac Retail Store, Michigan Bell Telephone Co., Osmond's and Waltes Department Store.

Denver Sheriff Guilty

BRIGHTON, Colo. (UP)—The highest-ranking officer linked to the Denver police burglary scandal, Sheriff Robert M. Roberts, was found guilty Thursday of burglary and conspiracy.

Today's luncheon was sponsored by the Consumers Power Co., Federal Department Store, First Federal Savings & Loan Association of Oakland, Detroit Edison Co., S.S. Kreske Co., Pontiac Retail Store, Michigan Bell Telephone Co., Osmond's and Waltes Department Store.

The Day in Birmingham

Fire Protection Study Indicates Good Coverage

BIRMINGHAM — A long-range master plan study of fire protection facilities in Bloomfield Township indicates nearly complete coverage, the Township Planning Commission announced today.

Upon the completion of the fourth fire station on Franklin Road near Square Lake Road, all residential property within the township will be within a three-mile radius of a fire station. Station No. 4 is expected to be operating in 1962.

Edward A. Proctor, planning commission chairman, said the three-mile radius is a vital factor in lower residential insurance rates. With all four stations in operation, insurance rates could drop as much as 40 per cent where fire hydrants are available.

Proctor said a fifth station, near Lahser and Maple roads, is not included in the study of Township needs in that it is not credited to the Michigan Inspection Bureau as serving the entire community.

INCREASES STANDARD

The fifth station was built and operated by special assessments to serve the Bloomfield Village area. However, this station increases the standard as required

by the National Bureau of Fire Underwriters, according to Proctor.

High value commercial areas in the township generally will be within three-quarters of a mile radius from a fire station. The only exception will be small commercial sections on Woodward near Square Lake Road and the area on Woodward between Bloomfield Hills and Birmingham.

The Planning Commission reported that it would be financially impractical to supply additional fire station facilities to cover these sections.

The surrounding residential neighborhoods are within the three-mile radius of existing fire stations in the two commercial areas.

Free Ex-Premier Chang

SEOUL, Korea (AP)—Gen. Park Chung-hee's military junta today freed former Premier John M. Chang who had been under house arrest since last May when he was ousted by the military.

In 1973 New York made Memorial Day a legal holiday. Soon nearly all states followed suit.

Eye Compromise on Sanction Call

Afro-Asians Ready to Drop Drive for Boycott of South Africa

UNITED NATIONS, N.Y. (AP)—An Asian-African bloc of nations was reported today ready to drop their demand for a worldwide boycott against South Africa and concentrate on trying to get the white supremacist government thrown out of the United Nations.

The strategy switch by the 31 sponsors of the boycott proposal was disclosed as the 102-nation special political committee neared a vote on rival resolutions dealing with South Africa's race policies.

Informants said the 31 will scrap the boycott demand if the committee fails to give it the two-thirds majority it would need to clear the General Assembly. If that happens, they will move that their outer call be inserted as an amendment to the milder eight-nation resolution denouncing South Africa's apartheid policy but leaving the question of diplomatic and economic penalties up to individual member nations.

As the stormy two-week debate neared its end, South African Foreign Minister Eric Louw warned Thursday that exiles who had denounced his government had not come into court with clean hands.

Disputing the right of the United Nations to "meddle" in what his government considers South Africa's internal affairs, Louw declared that those who had denounced his government had not come into court with clean hands.

Pair to Describe Tragic Air Crash

RICHMOND, Va. (UP)—The pilot of the ill-fated Imperial Airlines Constellation said today two of the craft's four engines were out, a third was losing power and the nose wheel was sluggish in going down when he pulled away from an attempted emergency landing at Richmond's Byrd Field.

From Our News Wires

RICHMOND, Va. — The two survivors of Wednesday's fiery airline crash, which took 71 lives, arranged today to tell newsmen what they recall of events leading up to the accident.

Pilot Ronald Conway and Flight Engineer William F. Poythress, both injured but neither seriously, scheduled the news conference after federal officials took depositions from them to aid in investigation of the tragedy.

Arrangements were made to move the bodies of the victims — 74 Army recruits and three Imperial Airlines crewmembers — from the local hospital morgue to nearby Ft. Lee, Va. Authorities confined their efforts to identify the charred remains through fingerprints and dental charts.

Meanwhile, it was disclosed that recruits from the First Army will be sent to training camps by train and bus until an investigation of the Richmond crash is completed.

MADE DECISION

The Department of the Army in Washington said the decision was made by headquarters of the First Army area at Governor's Island, N.Y.

The First Army area includes

Calf Getting a Raw Deal

Youth Forced to Clean Off (Halloween) Paint; 'Happy' Is Sad

By DICK HANSON

"Happy" is a mighty sad calf today.

He itches terribly under the mason paint that a "prankster" smeared over his once glossy black and white coat.

Tearfully sharing his sorrow are the four children who love Happy as their pet.

When the youngsters of Mr. and Mrs. John Mirakian return from school to their home at 1650 Tremont Road in Oakland Township today they will resume watching a 19-year-old neighbor boy try to repair the harm he has done.

WATCH HELPLESSLY

With a stiff brush, paint remover and rags, the youth, Robert Fretlenburgh of 417 Glenwood, will continue his task, much to the added discomfort of Happy.

The Mirakian children, Jack, 6; Judy, 8; Diana, 12; and Alan, 14, will stand by watching helplessly.

Readers seeing their four-footed friend in pain they are watching their hopes for Happy fade as the hard-disappearing paint reveals a raw hide.

As 4-H Club members the two older girls proudly were going to enter their pet in competition this fall.

Now the youngsters hope only that the cheery twinkle can be returned to their friend's soulful brown eyes.

The children's father was red with anger when he discovered the bull calf standing in the barnyard Wednesday morning with his head hung low over his paint-smeared coat.

Fretlenburgh confessed the paint job was his belated Halloween prank, when questioned by Sheriff's Deputy George Eppers.

The youth agreed to pay any expenses besides cleaning his victim but this doesn't bring much solace to the four children who stand hollow-eyed, watching his dubious cleaning efforts.

Maybe, too, they feel just a little bit sorry for Fretlenburgh.

VFW members will honor their fallen comrades at a memorial service at 11 a.m. World War I movies and other films will be shown at 2:30 p.m. at the post. Both members and non-members are invited to attend. Dinner will be served continuously from noon until 6:30 p.m.

A smorgasbord dinner open to the public will be held from 5 to 8 p.m. at the DAV Chapter 16 Home, 159 Auburn Ave.

Sec. Goldberg Backs Liberalized Tariff Policies

WASHINGTON (UPI)—Secretary of Labor Arthur J. Goldberg has strongly endorsed the administration program to drive for a more liberal trade and tariff policy.

Goldberg, just back from Japan, reminded American workers and unions that Japan is this country's second best customer. Canada is first.

"Many jobs of American workers depend on exports," Goldberg said in a statement to a news conference Thursday.

The United States has "much more to gain from liberalized trade with Japan than from restrictions," Goldberg said.

Rocky Gets Approval of School Shelter Plan

ALBANY, N.Y. (AP)—Gov. Nelson A. Rockefeller held legislative approval today for the \$100-million program to spur construction of fallout shelters in schools. But a Republican plan for congressional redistricting encountered rough going.

The Republican-controlled legislature took up redistricting today as the final business of a special session that opened Thursday.

Kindiver Sees Glim, Finds Pearly Teeth

ATLANTIC CITY, N. J. (AP) — Skin diver James Baker saw something pearly glinting at the bottom of Bargaintown Lake, but it wasn't a pearl.

It was a set of false teeth that apparently had, only, been in the water a short time, Barker said. He took them home to hold for a possible claimant.

Can Now Replace Business District Slums

Federal Aid to Cities Has Come Long Way

By HOMER DOWDY
First Journal Staff Writer
Written for the AP

Federal programs aiding cities with their redevelopment problems have come a long way since slum clearance began under Washington's sanction in the 1930s. Eradicating slums and replacing them with adequate housing are still important aspects of the government's urban renewal program. But little by little, legislative acts have broadened federal assistance to make possible such things as replacement of business district slums.

Under such legislation, Grand Rapids has launched a \$10.8-million clearance and rebuilding program for the north end of its central business district.

Buildings on about 40 acres will be razed. A new street pattern is being designed. About 12 acres will be devoted to a new civic center, the rest to nonretail commercial use.

Donald W. O'Keefe, director of the city's renewal program, estimates that once the land is acquired and cleared, the part to be resold to private investors will bring \$3.3 million. This will be subtracted from the project's gross

cost. Of the remaining net of \$6.3 million, the federal share will be \$4.3 million and the city's \$2.1 million.

Grand Rapids, however, does not expect to put a penny into the project cost directly. By donations of land for public buildings and street and utility construction, the city will pay for its share of the project.

ACQUISITION IN '63
Acquisition of all parcels is expected to take into 1963. Demolition of existing structures, mostly warehouses, small stores and cheap hotels, will start next year and go into 1964. City-contributed improvements will be built while demolition goes on. Land will be sold starting in 1963. Project completion is expected by 1966.

SMALL START
Grand Rapids got its start in urban renewal through a smaller project related to the new US31 expressway running through the city.

Although far from completed, this program is clearing a former residential area squeezed between the new highway and the Grand River. Demolition has started, the old city market has been removed and resale of

cleared land to industry is to start next year.

The city is now beginning to think in some detail about other projects that may cost around \$20 million.

Although their start, let alone completion, is some time away, the mechanics of the federal-local program demand months, even years, to launch a project.

Dominion Observatory Installing Seismographs

OTTAWA (AP) — Two new instruments to measure shocks to the earth caused by quakes and nuclear bombs are being installed in a rush program at the Dominion Observatory here.

Officials announced Wednesday a \$42,000 contract has been awarded an Ottawa firm for construction of two underground seismograph vaults and a tunnel connecting them at the experimental farm. The company has been given 22 days to complete the project.

Fire Didn't Stop Stars From Usual Activities

By EARL WILSON

NEW YORK — The show must go on, and all that sort of thing... Peggy Lee announced to her audience at Basin St. East—including Doris Duke—that her Beverly Hills home was not damaged in the forest fire. "It did upset me at first," Peggy said; later adding, "Forget that part. Nothing ever upsets me."

Zsa Zsa Gabor, twisting prettily at the Arthur Murray's party at the Four Seasons, declared that her three dogs were saved.

Comedian Dick Gregory phoned from the Beverly Hilton Hotel that fire victim Joe E. Brown trooped into the lobby in shorts: all the clothes he could find.

Agent Abner Greshler said he and Red Skelton had flown NY to LA to find fire was raging around their homes... but Greshler was elated to discover that his only loss was around what Hollywood calls "the pool area."

Janet Leigh doesn't get discouraged easily but after her children had the measles, she suffered a shoulder injury, the maid had an appendectomy and a secretary fell downstairs, she's decided to leave Argentina and come home. She'll leave Tony Curtis there with Yul Brynner and the rest to finish the picture "Taras Bulba."

THE MIDNIGHT EARL...
Frank Sinatra postponed his Nov. 17 trip here. (Because JFK's due in California then?)

Comic Shelley Berman's father Nathan, a widower, rewed in Chicago... Richard Rodgers asked Lisa Kirk about her wireless mike gimmick, wants to use it in his Broadway musical, "No Strings."

Jack E. Leonard climbed out of the audience to do The Twist in Nat Cole's Copa act... Bob Hope wants to buy the chapel on the liner Liberty, which'll be retired after its next trip... Paris papers say the best Twister in town is ex-Queen Soraya.

EARL'S PEARLS: Nowadays we're divided into three groups — the haves, the have-nots, and the charge-lits—Dawson County (Ga.) News.

TODAY'S BEST LAUGH: There's a supermarket in Alaska (reports Arnold Glasow) that's selling something new—un-frozen food.

WISH I'D SAID THAT: The height of frustration is a woman with a live secret and a dead telephone.

Those new Russian H-bombs are so dirty, claims Dick Gregory, that they've been banned in Boston... That's earl, brother.

Fallout Shelter Now Becomes Status Symbol

By PHYLIS BATTELLE
NEW YORK—Americans have a Midas mentality. They want everything they

touch to glitter like gold. That is evidenced by the fact that the family fallout shelter has now become a status symbol. Many landowners are holding subterranean stores, showing off

their digs to friends and business associates as proudly as if their survival headquarters were a new baby or, more currently impressive, a new swimming pool.

"How do you like it?" beamed an upstate New Yorker. "It is," said the other thoughtfully, "the end." But California, as usual, puts

on the grandest show of its handsily-dandy new acquisitions. Latest reports from the Coast are that Lucius Beebe has a shelter equipped with champagne and caviar. A Southern California manufacturer is offering a combination fallout shelter-swimming pool. It is a large, concreted gouge in the earth, divided into two sections—one to splash in, one to dash in—when either the weather or the war, respectively, gets hot.

The swim-survival setup features a wall with windows in it, so that you can go into the fallout side and take pictures of swimmers underwater, while you're waiting around for the day of reckoning.

Fun, fun. And the whole business for only \$5,000. A West Coast magazine this month features pictures of a variety of shelters, from simple to lavish, with children scrambling merrily around them, having a ball. How nice to be a dad and not fully to understand that this latest underground doll's house is more than a toy.

WANT THE BEST
No more lucky, of course, than many of their elders who are likewise immature enough to look upon a shelter as a symbol of their financial ability to give their family the best, rather than as a true defense against annihilation.

I don't know which phase of the family shelter business is more disturbing—the emotional controversy over whether men will turn into beasts to protect the entrance to their family fallout cellar in the event of actual attack, or this very evident fact that such a desperately basic

life-and-death commodity should be treated by some members of modern society as a symbol of ego and/or affluence.

Which type of animal do you prefer? The primitive kind which claws, or the over-civilized kind that claps?

It's a toss-up. Which reminds me, have you heard of the fancy fallout shelter with all goldplated fixtures, including a chic, 14-karat revolver for playing an amusing round of Russian roulette?

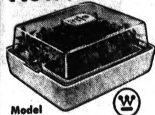

Cassie Stinnett of Holiday magazine reports two recent incidents of Russian subversiveness:

French delegates to the Moscow Trade Fair, understandably alert to the possibilities of their hotel room being bugged, cut through a maze of multicolored wires they found hidden under the carpet. The floor was thick, but not so thick that it deadened the sound of the chandelier crashing in the room beneath them.

And at the Seattle zoo, a post-mortem was performed on a dead seal. His stomach contained 321 pennies, 12 nickels, eight dimes and one German pfennig. It was "officially" announced that the pfennig was minted in WEST Germany, much to the relief of everyone.

Cake Wedges Resemble Dainty Butterfly Wings

By JANET ODELL
Pontiac Press Home Editor

One day we had a most interesting telephone conversation with an English woman who married a Pontiac man and is now an enthusiastic resident of our area. She gave us a recipe for what sounds like an attractive cake dessert.

Mrs. M. A. Strong belongs to the Pontiac Branch of English Women. She loves all kinds of handwork and is busy now with Christmas corsages and shell jewelry. The Strong's have two children.

ENGLISH BUTTERFLY WINGS
By Mrs. M. A. Strong
2 cups sifted flour
1 cup sugar
Dash of salt
2 teaspoons baking powder
2 eggs

2 tablespoons milk
1 stick margarine

Cut margarine into sifted dry ingredients as in pie crust. Add eggs and milk and beat well. Half fill cup cake pans. Bake 15 to 20 minutes, or until golden brown, at 400 degrees.

Cool cakes. Cut out a small wedge from the top of each cake and cut in half. Fill the hole with cream filling and put bits of cake back to resemble butterfly wings. Dust with confectioners sugar if desired.

Cream Filling
1/4 cup margarine
Confectioners sugar
Pinch of salt

Beat margarine very light. Add confectioners sugar and salt and beat until mixture is stiff. This filling may be flavored or colored if you desire.

Why Be Timid?

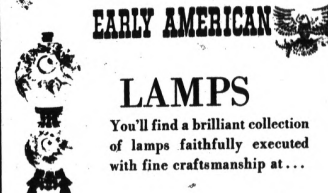

For parents who are timid about introducing the subject of God to a young child, there is a book—"God and Me"—which tactfully handles the topic with large, life-like pictures and short rhymes written on an elementary level.

This book will withstand repeated handling since it is made of washable muslin—

with story and pictures printed in non-toxic, boil-fast colors.

Worcester, Massachusetts, has 700 manufacturing concerns and the site of six universities and colleges.

Use as cushioning and mattresses in damp or semi-tropical climates. Foam rubber will never mildew, even in areas with extremely high humidity.

EARLY AMERICAN LAMPS
You'll find a brilliant collection of lamps faithfully executed with fine craftsmanship at...

Handcraft House OR 3-7144

Starch Stuck?

NEW YORK (UPI) — Here's how to clean starch from a hot iron without wasting time for it to cool: rub a damp cloth with soap, place this over several layers of paper, and run the iron back and forth over it. If necessary, the Cleanliness Bureau suggests, repeat the process. Then press over a clean damp cloth and proceed with your ironing.

Dinner Meeting

The Women's Auxiliary to the Oakland County Dental Society will attend a dinner meeting in Kingsley Inn at 6:30 Tuesday evening.

Representatives from the Park Gallery will talk on "The Art of Collecting Art Objects."

Cause of Irritation Not Always Obvious

By MRS. MURIEL LAWRENCE
Newspaper Enterprise Assn.

Dear Mrs. Lawrence:
My 3-year-old boy is so restless he is giving me a nervous breakdown. I can't make him take naps. He doesn't mind me.

ANSWER: Your little boy's dissatisfaction with his life seems pretty trivial and silly to you, doesn't it?

Perhaps they are — in comparison with yours. Perhaps your impatience with his restlessness is

entirely justified by the kind of restlessness with which you are struggling.

But if you are not going to become aware of the superior importance of your own dissatisfactions with your life, then you are going to have to continue to believe that your little boy's are the cause of your disturbed state — and won't be able to do anything to relieve the real cause.

It is conventional to scold mothers as neglectful when a child is as demanding as your little boy. I am not conventional.

I think we parents often give an appearance of neglectfulness of children when the truth is we are involved in an under-surface struggle for solutions to an unhappy situation that affects them as well as us.

It is our half-awareness of the fact that our anxiety is partially for them that makes their demanding hostility so hard to take. But if we cannot see that our anxiety is love; if we cannot credit ourselves with the responsibility it really represents, then, as you are trying to do, we will have to disown it — and blame the child for causing us our shameful restlessness and worry.

Could you, instead of fearing this sense of strain in yourself as a symptom of "nervous breakdown" begin to try and honor it as trustworthy? Could you respect it enough to ask help for it from your minister or priest?

If we are used to belittling our own importance, we are bound to belittle the value of our anxieties. If other people's feelings have always been the important ones for us, it is only too easy to think, "This child's rebelliousness is giving me a nervous breakdown."

It can't occur to us that our own rebelliousness may be the cause of our agitation because what we feel has never mattered.

Looking at us the world says, "That woman should give more attention to her child." But what is needed is more attention to ourselves.

This is a sneak preview of the David Grayson School's first Bazaar scheduled from 10 a.m. to 4 p.m. Saturday at the school. All types of booths, white elephant merchandise, portrait tinting, and an auction sale, will be in operation. Christmas aprons, candles and all

Garden Unit Is Told Fall Plans

Mrs. Andrew Dickinson of Lake Angelus Shores was hostess to Lake Angelus Branch of the Women's National Farm and Garden Association Tuesday.

Reports on the State Council Meeting were given by Mrs. Max Kerns who attended the presidents' forum; Mrs. Newton Skillman Jr., program seminar; and Mrs. Robert Lake, the civic improvement seminar conducted by Mrs. Clifford Eicklund of Pontiac.

Mrs. Arthur Dodge reported on the branch's scholarship winner who will major in mechanical science. Mr. and Mrs. Dodge will meet the winner soon at a dinner on the Michigan State University Oakland campus.

Mrs. Donald Shults demonstrated how to make a topiary tree from wild flowers, and Mrs. Mollat Gray reported on the green market, slated Dec. 7 at Waterford Community Center.

"PENNIES FOR FRIENDSHIP"
Mrs. Dodge, international co-chairman, introduced Mrs. F. G. Garrison who recently attended the triennial conference of the World in Edinburgh, Scotland. She stressed the need of "Pennies for Friendship."

In Scotland a resolution was adopted to set up the Lady Aberdeen Scholarship. Lady Aberdeen was one of the founders of the Associated Countrywomen of the World. The award will be given to women with some training in nutrition who will return to their underdeveloped countries to teach others. The worldwide association operates on "Pennies for Friendship."

Van Hefflin's Corral Turns Into Noah's Ark

Comedy Pokes Its Face Into Hollywood Fire Tragedy

AP Movie-TV Writer
HOLLYWOOD — Comedy was mixed with tragedy in this week's big story — the fire that raced through the heart of the movie colony.

Flames destroyed the homes of film figures Burt Lancaster, Joe E. Brown, Zsa Zsa Gabor, Cliff Robertson, Lavorne Andrews and Walter Wagner.

For scores of others, the fire brought hours of frantic effort and concern for their homes. As in all such tense situations, there were moments of humor.

For scores of others, the fire brought hours of frantic effort and concern for their homes. As in all such tense situations, there were moments of humor.

What do people snatch up when they are faced with total loss? The Van Hefflins took a load of paintings to her mother's house, then returned to operate a kind of Noah's Ark for burned-out

neighbors. Their corral was filled with 25 horses, an assortment of cats and dogs and other pets. Mrs. Richard Boone left her Mandeville Canyon home hurriedly, took along only her furs and jewelry, a suit for her husband and one for their son.

Morton Brando loaded a car of belongings, but an aide didn't want to specify what they were — he's been robbed so many times. The aide did mention "pictures of his children." The Brando Oscar remained in the safe keeping of the actor's father.

James Garner rushed home to get a metal box containing insurance policies and other valuables, sent his wife off with it, her wedding ring and his billfold. He

spent the night watering down the roofs of his and his neighbor's houses, while others burned to the ground.

The neighbor was so grateful she said: "When we build our bomb shelter, we'll let you and your family in."

Colleen Gray had a chance to take two carloads of belongings out before flames closed in on her house. What did she choose? "Small things of monetary value and big things of sentimental value." Among them: Her daughter's guitar and record player, house papers and insurance, baby pictures, expensive books, layers of clothing between paintings done by the family, heirloom silverware.

"I kept thinking I should get back and get my books of trading stamps, but I never did," she

said. The house was saved by holes in the roof. But the house was still standing.

Maureen O'Hara had only minutes to leave her house, but she remembered, "Make haste slowly."

"So I sat down and thought, 'How do I make my living?' she recalls. "I sent my daughter Broun for a box and filled it with legal papers and my precious collection of 16th Century Irish music."

Then she laid a sheet on the floor and lashed it with her furs (four mink stoles, three mink coats, others), expensive dresses, pairs of black, white and brown shoes, two pairs of evening shoes. She tied the sheets up like laundry bundles and filled three cars. A maid brought along the family silver and a loaf of bread.

She returned to find the landscaping, pool filter, diving board and Monday wash burned, and 10

Terms of the settlement were not announced.

Patricia Manley, 32, a widow, alleged in her suit that Sahl, 34, fathered her son Adam, 4 months, during a vacation trip she claimed she and Sahl made to Europe last fall. Sahl had denied paternity.

Mrs. Manley, a former television costume designer, had asked for \$1,005 a month for child support pending trial of the suit.

Flint JC Paper

LANSING (AP) — Editorials banned in the student newspaper at Flint Junior College will be printed in "The Lookout," student publication at Lansing Community College.

The editorials dealt with the action of the Flint Junior college student body in passing a resolution favoring abolition of the House Un-American Activities Committee.

The Flint Board of Education refused to permit publication of the editorials.

Copies of the Lansing student newspaper will be sent to Flint, a member of the editorial staff said.

Chiefs Meet Southwestern Tonight

Prep Gridders in Final Games

By CHUCK ABRAH

Sixteen games today, two Saturday and a trio on Sunday make up the final prep football schedule of any size in this area for 1961. Only the annual Pontiac North-ern-Pontiac Central clash will remain following this weekend.

Most of the local teams playing tonight will be in action away from home.

Pontiac Northern should take Kettering at the Waterford high ground but the Huskies could run into problems with Dick Shipman & Co. if they look ahead to PCH too much.

Waterford could complete a good finish by coming out victorious at Wayne in a battle of losing teams. The Skippers are fresh from a romp at L'Anse Creuse.

Red-hot Birmingham Seaholm invades Southfield seeking its fourth straight triumph after a had start. The Jays have a long way to bounce back on the heels of a belting by Grosse Pointe.

Rochester goes to Avondale for their annual wrapup game with both going all out to complete good seasons.

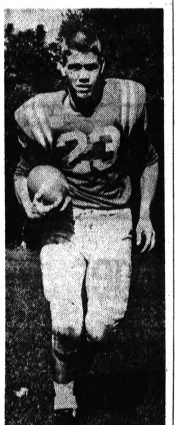

Holly is at Fenton, Northville tries for an unbeaten record at Howell, Lake Orion and Luper tangle, Romeo goes to Utica, Kimball meets Dondoro, Emmanuel Christian travels to Hamtramck to face Immaculate Conception, and Country Day vs. Grosse Pointe U.S.

There was considerable interest in the Graves-Southgate Division game this afternoon at Birmingham with Art Schueler of Groves hoping for a big day in a final bid for the Oakland County scoring title. He trails leader Dorie Reid by only four points. Schueler's 24 points last Saturday did not make The Press scoring list this week because the game

was not reported until Wednesday.

In league play, Ferndale can get a share of the Eastern Michigan crown by downing Hazel Park. Port Huron vs. East Detroit. There's nothing but final records at stake in the South Central with Imlay at Millington and Oxford guest of North Branch.

The final Suburban Catholic

FACES FENTON - Jim Ray will be trying to help Holly finish its grid season on a happy note with a victory at Fenton tonight. He has scored 47 points thus far.

schedule gets under way Saturday night when St. Frederick and Our Lady of the Lakes come to grips at St. Wisner Stadium.

Sunday's play will have St. Michael taking over Wisner to meet strong St. James, Orchard Lake St. Mary at home against St. Mary of Royal Oak and St. Benedict at St. Rita.

Pressure Applied for Tulane Change

NEW ORLEANS (AP)—A group of Tulane alumni and former football players is asking that Coach Andy Pilney be removed as a step toward putting the Green Wave back on winning rails.

About 350 alumni and "friends" of Tulane met Thursday night and passed a resolution calling for the departure of Pilney and most of his assistants. Tulane has won only one of seven games this season. Pilney's record for his eight years as head man is 23 victories, 41 losses and 6 ties.

The resolution said the Tulane athletic advisory committee should share some blame for the football team's poor showing. It suggested Tulane have a full-time athletic director with experience in scheduling.

Dallas Smith Moves

PITTSBURGH (AP)—The Pittsburgh Hornets of the American Hockey League Thursday purchased the contract of Dallas Smith from the Montreal Canadiens of the National Hockey League.

Pro Basketball at A. Glens THURSDAY'S RESULTS

Detroit 116, Boston 110
Washington 92, Hawaii 91
Chicago 100, Pittsburgh 97
Cleveland 100, San Francisco 100

Prep Front

By DON VOGEL

Oakland Western has just scored a touchdown in the final minutes of play to pull within one point of Oakland Southern, 13-12, in the battle for the county championship.

Coach John Smith paces the sidelines. He has less than 30 seconds to make a decision. Should he order a kick to tie the game or should he send in a two-point conversion play.

Smith decides to go for broke. He instructs his quarterback to try a pass. Western lines up in running formation, Southern's defense adjusts, the fans cheer. The pass is in the air. It is knocked from the arms of a would-be Western receiver.

Two plays later the gun sounds and Southern wins 13-12.

Under present Michigan High School Athletic Assn. rules this hypothetical situation would never become a reality—at least this fall. Teams get one extra point after a touchdown whether they kick, run or pass.

The situation is different in Ohio prep and national collegiate play. Games have been won, lost or tied in the waning minutes because of a coach's decision to try for two points or settle for one.

The opportunity to gain two points with a running or passing play adds tremendous interest to football, particularly late in the game. Some coaches are not in favor of the two-point play. Others go along with the idea. Fans generally have accepted it.

In Michigan prep circles, more noticeably among schools lower than Class A, running or passing for the PAT is a common occurrence. Even if a team has a better-than-average placekicker, coaches are prone to go with a ground maneuver on the conversion if it means a victory, loss or deadlock.

When two evenly matched teams are doing battle, the running play has less than a 50 per cent chance of succeeding. A placekicker has a 90 per cent chance of clearing the on-rushing defenders. The biggest hole in this theory is that most high school kickers are inconsistent.

The larger schools seem to use the dropkick, or even the dropkick, much more. The biggest reason being that these schools have more coaches. One coach can take time working with the kickers, while the others are drilling players in other specialties.

Smaller schools have fewer coaches, hence less time for the kicking game.

In lopsided contests, the winning team can score PATs by running, just about as easily as for touchdowns. But in the close battles, this isn't the case. A kicker has a better chance.

If the booter has the percentages on his side, why not a two-point conversion rule in Michigan prep play to liven up the games. It's true that the fans are on the edge of the bleachers even now when an extra point means the difference between a loss, tie or win. They will be standing up if a team can win or lose on the try for two points.

The placekick is secondary in football. Otherwise, more teams would try field goals when down close in an undecided game and confronted with a fourth down.

Occasionally, a high school tussle is won by a field goal.

This neglect of kicking in state high school play raises another point. Why not give two points for a place kick and one for a run or pass?

49ers Protest TV Scheduling

Claim Network Beams Home Games to Areas in San Francisco

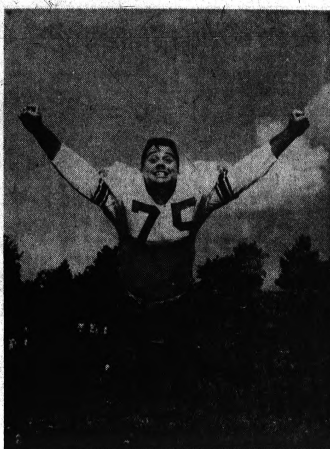

SAN FRANCISCO (AP) — The San Francisco 49ers of the National Football League asked the U.S. District Court Thursday to restrain the National Broadcasting Co. from telecasting certain pro football games into the San Francisco area.

The complaint said the Baltimore Colts and Pittsburgh Steelers have contracts with NBC for telecasts and the company has been broadcasting their games into San Francisco territory from station KRCR in Sacramento.

The 49ers said the telecasts violate NFL by-laws that prohibit telecasts of any game into the home territory of any other club in the league without consent of that club on a day it is playing a home game.

The court will hear arguments on the motion for preliminary injunction Nov. 16.

The 49ers also ask the court to decide the amount of damages the 49ers may have suffered as a result of the telecasts.

ATTENTION! — The Detroit Lions will be without John Gordy, offensive lineman when they play the Cardinals Sunday and probably for the next year. Gordy was called up by Uncle Sam and reports to Fort Lewis, Wash., on Tuesday. He has been in the pro ranks four years. He is 25 years old.

Northern Michigan Back Running Out of Games

By The Associated Press

Northern Michigan's Wayne Slicker has taken a commanding lead—but the race for the state's individual scoring championship is far from over. Slicker added a touchdown and three extra points in Northern's 61-6 triumph over Michigan Tech and has 64 points in seven games. Second is his teammate, Mike Mileski, who has 44 points.

But the two Northern players have just one game remaining—Saturday against Tampa—in which to add to their pointmaking.

George Salines of Michigan

New Goal Set by Schayes — 20,000 Points

PHILADELPHIA (AP) — "I like to reach 20,000 points and then maybe I think I might retire."

It was Dolph Schayes talking in his usual easy, affable manner. Schayes, the all-time scoring leader in the National Basketball Association, tied the record of 682 consecutive games played as he scored 13 points Thursday night in a disappointing 151-108 loss to the Philadelphia Warriors.

Well, another milestone, someone remarked, then wanted to know what Schayes next goal would be.

His answer of 20,000 points was quick but he doubted if he could accomplish the feat this year, since he now has only 17,823 and averages from 1,500 to 1,800 a year.

Hawks Lose Balfour

CHICAGO (AP) — The Stanley Cup champion Chicago Black Hawks disclosed Thursday they must play their next two road National Hockey League games with injured winger Murray Balfour.

Balfour re-injured his left wrist, fractured in last season's playoffs against Montreal, in Tuesday night's 6-0 victory over Toronto.

State and Larry Vargo of Detroit—tied for third with Albion's Ray Hoag at 42 points—can overtake Slicker before the season ends. Michigan State and Detroit play three more games.

Michigan State's loss to Minnesota left Albion as the only unbeaten team in Michigan. Albion can wrap up its first perfect season since 1928 and an outright MIAA title by beating Adrian in its finale Saturday.

MAKE OVER THE MAIN FACTORY TO CLOSE; Eastern Town Stunned

Says Drug Suit Unwarranted

Examiner Urges FTC to Dismiss Monopoly Charges Against Firms

WASHINGTON (AP) — A Federal Trade Commission examiner recommended today the dismissal of price fixing and monopoly charges against six major manufacturers and distributors of "wonder drugs."

The examiner, Robert L. Piper, said the companies "have not engaged in any of the violations alleged" in a complaint filed by the FTC on July 28, 1958.

The case now goes to the full commission, which may accept, reject or amend Piper's recommendations.

Piper said the FTC failed to prove charges that the six firms tried to monopolize the antibiotics industry through questionable licensing arrangements and through a conspiracy to fix prices and eliminate competition. The companies are:

American Cyanamid Co., Bristol-Myers Co., Chas. Pfizer & Co., Inc., and Olin Mathieson Chemical Corp., all of New York City; Bristol Laboratories Inc., Syracuse, N.Y.; and the Upjohn Co., Kalamazoo, Mich.

Grain Prices

CHICAGO, Nov. 10 (AP) — Opening grain prices were steady to slightly higher today.

Wheat, 2 1/2 to 2 3/4; corn, 1 1/2 to 1 3/4; soybeans, 1 1/2 to 1 3/4.

Approve Liquidation of State Timber Firm

GRAND RAPIDS (AP) — Stockholders of Calaveras Land & Timber Co. have approved liquidation of the firm.

The firm has offices in San Francisco.

R. Dale Law, attorney representing the firm, said stockholders also voted to accept an offer by the American Forest Products Corp. for purchase of all Calaveras land and timber.

BEIRWICK, Pa. (AP) — An

unhappy officials to Washington to discuss with government officials the possibility of persuading the firm to keep the plant in Berwick or of getting some other firm to move in.

"We're the (union) willing to go all out to keep the plant here," said Simon. "We plan to set up a meeting with ACF officials in New York next week."

A LAST STAND
"We want to go to New York to hear officials tell us personally," said Schuyler. "There may be a few loopholes, a feather floating, somewhere a slight ray of hope."

"It's the greatest tragedy ever to befall the community," said the Democratic mayor-elect, Wayne Schuyler. "The reaction? Everyone is stunned."

"There had been talk off and on for 20 years that if the plant didn't make profits it would pull out but no one ever believed it was a conspiracy to fix prices and eliminate competition. The companies are:

American Cyanamid Co., Bristol-Myers Co., Chas. Pfizer & Co., Inc., and Olin Mathieson Chemical Corp., all of New York City; Bristol Laboratories Inc., Syracuse, N.Y.; and the Upjohn Co., Kalamazoo, Mich.

"It will take roughly 50 percent of the spending power from the community at the time of closing. It will hurt merchants in Bloomsburg, Hazleton and Wilkes-Barre too because residents from the nearby areas work at the plant."

Schuyler, who will take office Jan. 1, is also an employee of the plant. He works as a buyer in the purchasing department.

What will he do should the plant close?

"I don't know," he said, adding, "unemployment is a very embarrassing factor around selling apples."

Then, to the serious side again, he said: "As long as God gave me home and a living, I'll stay in school, I'll find some way even if I have to commute."

Paul G. Simon, president of the Berwick Chamber of Commerce, says that Thursday the workers' spirit was at a very low ebb.

They didn't feel like doing a day's work, but they didn't have their hearts in it. They were moping around. Three or four would gather and talk, trying to build hopes.

George Gump, who has worked at the plant 46 years, said, "Everybody feels bad. Sure. A lot of folks are making a living by their hands and their brains. They have their homes and children here. What are they going to do when they can't do anything?"

But enough officials are doing everything they can.

Simon said the union has dispatched officials to Washington to discuss with government officials the possibility of persuading the firm to keep the plant in Berwick or of getting some other firm to move in.

"We're the (union) willing to go all out to keep the plant here," said Simon. "We plan to set up a meeting with ACF officials in New York next week."

Bond Prices Edge Upward

NEW YORK (AP) — Corporate bond prices edged upward at the start of trading today. U.S. government issues were all unchanged.

Over the counter dealers in Treasury securities said the market was quiet upon completion of the Treasury's nearly \$7 billion refunding of World War II 2 1/2% due Nov. 15.

Bills came slightly as the result of the special sale of \$80 million in bills Thursday.

Stocks Active, Uneven

NEW YORK (AP) — An active stock market moved unevenly early today.

Minor gains and losses were the general rule for most key stocks.

A fractional gain for Ford, however, was enough to put that stock up to a new high.

General Motors also continued to meet investment demand and moved slightly higher.

Automotive stocks were mixed, however, with steel, non-ferrous metals and most rubbers were off.

American Motors ran into some heavy profit taking and slipped about a point. Chrysler dipped fractionally.

Industrials and utilities headed the corporate rise in New York Stock Exchange trading. Rails held mixed.

Moves amounting to a point or more included: Pennsylvania Railroad 4 1/2 up to 1 3/4; New York Central 1 1/2 up to 1 3/4; Pennsylvania Power & Light 3 1/2 up to 1 3/4; and Southern Railway Memphis Division 5 1/2 off to 1 3/4.

Says Drug Suit Unwarranted

WASHINGTON (AP) — A Federal Trade Commission examiner recommended today the dismissal of price fixing and monopoly charges against six major manufacturers and distributors of "wonder drugs."

The examiner, Robert L. Piper, said the companies "have not engaged in any of the violations alleged" in a complaint filed by the FTC on July 28, 1958.

The case now goes to the full commission, which may accept, reject or amend Piper's recommendations.

Piper said the FTC failed to prove charges that the six firms tried to monopolize the antibiotics industry through questionable licensing arrangements and through a conspiracy to fix prices and eliminate competition. The companies are:

American Cyanamid Co., Bristol-Myers Co., Chas. Pfizer & Co., Inc., and Olin Mathieson Chemical Corp., all of New York City; Bristol Laboratories Inc., Syracuse, N.Y.; and the Upjohn Co., Kalamazoo, Mich.

"It will take roughly 50 percent of the spending power from the community at the time of closing. It will hurt merchants in Bloomsburg, Hazleton and Wilkes-Barre too because residents from the nearby areas work at the plant."

Schuyler, who will take office Jan. 1, is also an employee of the plant. He works as a buyer in the purchasing department.

What will he do should the plant close?

"I don't know," he said, adding, "unemployment is a very embarrassing factor around selling apples."

Then, to the serious side again, he said: "As long as God gave me home and a living, I'll stay in school, I'll find some way even if I have to commute."

Paul G. Simon, president of the Berwick Chamber of Commerce, says that Thursday the workers' spirit was at a very low ebb.

They didn't feel like doing a day's work, but they didn't have their hearts in it. They were moping around. Three or four would gather and talk, trying to build hopes.

George Gump, who has worked at the plant 46 years, said, "Everybody feels bad. Sure. A lot of folks are making a living by their hands and their brains. They have their homes and children here. What are they going to do when they can't do anything?"

But enough officials are doing everything they can.

Simon said the union has dispatched officials to Washington to discuss with government officials the possibility of persuading the firm to keep the plant in Berwick or of getting some other firm to move in.

"We're the (union) willing to go all out to keep the plant here," said Simon. "We plan to set

Warns Members of Saving Clubs

Pontiac Detective Says Theft of Checks From Mailboxes Possible

A warning to members of Christian savings clubs who receive their checks through the mail was issued today by Det. Robert A. Emery of the Pontiac Police Department.

Emery, who charged the forgery detail for the department, said there were several cases last year in which the savings checks were stolen from mailboxes and cashed illegally.

He said persons who belong to Christmas savings clubs, especially those with rural or apartment mailboxes, should check their mailboxes to find out the dates the checks are mailed.

If the check has not been received within one week after it was mailed, the savings club member should notify the bank or the local police department immediately, Emery said.

The detective pointed out that forgery carries a maximum sentence of 14 years in prison. Mail theft, a federal offense, carries a fine of \$2,000 or a five-year maximum sentence or both, he said.

Can Survive Attack—No. 5

Radio, Meter Musts for Fallout Shelters

Editor's Note: A Nobel prize winner who is America's best known author on fallout and radiation has written for The Pontiac Press a vital article on what you can do to survive nuclear war. The press is a vital article on what you can do to survive nuclear war. The press is a vital article on what you can do to survive nuclear war.

By PROF. WILLARD F. LIBBY

How can you know when it's safe to leave your shelter, on quick sorties to find food or help others, or to depart permanently yet safely?

Or how can you know you're not foolishly hiding in a hole when there's no danger?

Your fundamental guides must be a transistor radio, a radiation meter and an understanding of the danger.

Civil defense has set up an emergency radio broadcasting system, transmitting on 640 and 1240 kilocycles, called CONELRAD to supply national and local information and advice to guide your actions.

Experts will gather information near and far beyond the scene, and report fallout patterns. Part of the advice about the hazard you personally face, and how long you should stay inside depends upon the size of the bomb and also where—on ground or air—it was detonated.

We all need to know some of the fundamentals as to why attitude of the explosion is important.

SURFACE BLAST WORST

First, a bomb explodes high in the air, as in a nuclear test produces radioactive ashes just from the device itself.

This fallout becomes widely distributed over a long period of time. It is too fine to fall quickly. It's the kind of fallout at issue in discussions of nuclear testing.

So far, it has amounted to a few per cent of the normal, unavoidable radiation we receive daily all our lives from cosmic rays, the earth, and naturally radioactive elements in the bodies.

In war, a bomb could be exploded over a city with the main intent of blasting down buildings, and setting fires. This happened in Hiroshima and Nagasaki. Those bombs did not produce local fallout.

Nor was the ground beneath made dangerously radioactive and uninhabitable.

But a bomb exploded on the ground, or close to it, can suck up thousands and millions of tons of dirt and make it all radioactive to produce the widespread shower of intensive fallout which we are concerned here about. This is dirt that "shines" lethally, but it cannot be distinguished from ordinary dirt by sight, smell, taste or touch.

An enemy could choose to explode bombs on contact with the ground particularly to knock out underground missile bases, cities or industrial complexes. Such bombs would dig huge craters.

The most intensive fallout would come in an area of several hundred square miles, downwind after waiting long distances beyond the bombing site.

Exploded in air, but near the ground, the bomb could suck up dirt to spread radioactivity in stretches of hundreds of miles, with diminishing intensity as it fell hours later.

Don't assume you're safe from fallout because you are upwind from a blast, so far as surface winds go. Fallout is sucked 10 to 25 miles high, and varying and strong winds at these altitudes will produce unpredictable fallout patterns.

Maybe you have nothing to worry about. But stay inside until compilations can establish the pattern of actual fallout.

A transistor radio is the only way of getting these reports.

But local conditions enter in.

Suppose the report is that houses in your general area received fairly heavy dust. Local rains could wash off enough dust to make rooms in your house habitable. Only your radiation meter could measure this for you.

Taylor Warns Manufacturers of Shelter Rule

Unlicensed firms selling fallout shelters face prosecution, Prosecutor George F. Taylor warns today.

The Better Business Bureau in Detroit, Taylor said, called him yesterday to refer complaints from two purchasers of shelters living in Oakland County.

"One purchaser of a \$1,700 shelter living in Madison Heights said his shelter on the second day filled completely with water," the prosecutor said.

State law requires that firms building the shelters be licensed by the Michigan Securities Commission. If not they are guilty of a misdemeanor and face a penalty of \$100 fine or 90 days in the county jail if convicted.

"Before the people of Oakland County go out and purchase these shelters they should be sure they are buying from a reputable and licensed firm," Taylor said.

Features

By United Press International

INTERNATIONAL SHOWTIME, 7:30 p.m. (4). Don Ameche introduces the "Circus Krone" from Wilhelmshaven, Germany. Performers include Toni and the Hightop act; Chris and her dancing horse act; Four Storms, acrobats; Pierre Alize, trapeze artist.

ROUTE 68, 8:30 p.m. (7). The Mod Men stars Betty Field and Ron Chaney in a story of Bud McDuck's (George Maharis) search for a woman whose background leads him to believe she is his mother. A chance stop at a rural gasoline station in Maryland starts the chain of events. Chaney portrays Miss Field's father. Also in the cast are three members of the Mod Men: Peter Brothers, Paul and Harold, and a sister, Cleo.

FLINTSTONES, 8:30 p.m. (7). The "Rock Island" Fred uses his "sick" friends to escape to get out of the house into a poker game. The \$200 he wins then becomes a problem.

TENNESSEE, 9 p.m. (7). "Cold-Cat" story. The provision with which a \$500,000 payroll robbery was staged leads Stu Bailey (Efrem Zimbalist Jr.) to suspect an employee who once was a command.

FATHER OF THE BRIDE, 9:30 p.m. (2). The guest list for Kay's (Myrna Fahey) wedding keeps getting longer and she considers eloping with Buckley (Burt Reynolds).

TELEPHONE HOUR, 9:30 p.m. (4). "A Music of Richard Rodgers." Ray Bolger, host, with Dolores Gray, Martha Wright, Howard K. Stern, Helen Gallagher and members of "The Sound of Music" cast. (Color)

TWILIGHT ZONE, 10 p.m. (2). "Double-Edged Revolution." Joseph Schildkraut stars as Becker in a story about a Nazi officer's return to the Dachau concentration camp.

TARGET: THE COMBATORS, 10:30 p.m. (7). "Tomb Raider." Newsmen Paul Marino (Stephen McNally) investigates the fixing of basketball games by big-time gamblers. Guest star: Ray Walston.

EXTREMES, 10:30 p.m. (2). A special report on Ghana and its leader, Kwame Nkrumah, with scenes of Queen Elizabeth II's arrival.

BEST OF PARK, 11:30 p.m. (4). Rerun, with Betty Johnson, Mr. and Mrs. Alex King, Nipsey Russell. (Color)

Advice Columnist Expected at Next Town Hall Talk

A capacity audience is anticipated Thursday and Friday of next week when Ann Landers addresses the Birmingham Town Hall.

Two 11 o'clock appearances at the Birmingham Theater are scheduled for the advice columnist followed by a question-answer session at the Birmingham Country Club.

Dr. Kenneth Gass, rector of St. James Episcopal Church, Birmingham, will introduce the Landers to her audiences before both lectures.

Army Recruits Sent by Train

While Awaiting Plane Crash Probe, Newark Is Grounded

NEWARK, N.J. (UPI) — The Army canceled a flight of recruits from Newark Airport to Ft. Jackson, S.C. Thursday night and sent the men by train instead.

Major William Spier, in charge of the Newark office, said all inductees and volunteers from the New Jersey area would be sent by rail to training camp until military and federal authorities complete their investigation into Wednesday night's crash of a four-engine Constellation near Richmond, Va.

The plane which went down had been en route to South Carolina with recruits from New Jersey, Pennsylvania and Maryland. Seventy-four recruits perished, including 26 from New Jersey.

"Spie said the results of switch trials were the result of orders issued by 1st Army Headquarters on Governor's Island, N.Y. He said about 20 recruits were shipped out Thursday night."

Dr. Mayor of Sylvan Lake To Open Practice Nov. 15

Dr. Raymond L. Mayor will begin his private practice in obstetrics and gynecology Nov. 15, in association with Dr. Robert L. Segula and Dr. Charles R. Semper, both in Pontiac.

Dr. Mayor resides at 1743 Beverly Road, Sylvan Lake, and wife Wilma and two children, David, 6, and Laura, 4.

Coal is the largest single source of energy and heat.
