# Advises Soviets to 'Walk the Path of Peace'

WASHINGTON (AP) — President Kennedy called on the Soviet Union today to "walk the path of peace" with free nations.

But he said any Western hopes raised by the increasing strains between Russia and Red China must be tempered with caution.

★ ★ ★

**In his State of the Union message the President coupled his conciliatory bid to Soviet leaders with a sober warning that "I foresee no spectacular reversal in Communist methods or goals."**

He told Congress and the nation in his review of world conditions that the "end of agony" may be in sight in the Congo, and although danger remains in the Cuban situation, "a deadly threat has been removed."

WINNING COLD WAR

Throughout his discussion of foreign policy he implied — though he never said it in so many words — that the United States and its allies are winning the cold war at this juncture in history.

**He pointed to Western success in maintaining "the frontiers of freedom from Viet Nam to West Berlin."**

The President said the winds of change are blowing more strongly than ever in the world today.

★ ★ ★

He suggested that the rift in the Communist bloc and shifting world conditions could lead to changes in Soviet policy.

**Declaring that the dispute between Russia and Red China has created disarray in "the Communist empire," Kennedy asked the leaders of the Red bloc to realize that their ambitions for world dominion "cannot succeed."**

Several times he warned that favorable developments in the global struggle must be viewed with caution. He applied this specifically to the row between Moscow and Peking.

"What comfort can we take from the increasing strains and tensions within the Communist bloc?" he said.

**"Here hope must be tempered with caution. For the Soviet-Chinese disagreement is over means, not ends.**

"A dispute over how best to bury the free world is no grounds for western rejoicing.

"Nevertheless, while a strain is not a fracture it is clear that the forces of diversity are at work inside the Communist camp . . ."

**The recent Cuban crisis and Red China's attack on India, contrasting with Western Policies for freedom in Africa and elsewhere, have helped neutralist nations, Kennedy said, "to realize more clearly that the issue in the world struggle is not communism versus capitalism, but coercion versus free choice."**

Kennedy said that Western Europe "is entering into a new phase of its long and brilliant history."

He said the Polaris rocket agreement which he and Prime Minister Harold Macmillan worked out at Nassau last month "recognizes that the security of the West is indivisible, and so must be our defense."

Under the agreement the United States will supply Polaris missiles to Britain. It has offered to do the same for France on the same terms.

PRESIDENT KENNEDY

# JFK Proposes Record Tax Slash

## Would Cut Off $13.5 Billion

WASHINGTON (AP)—President Kennedy proposed today the biggest income tax cut in history—a $13.5-billion slash to take effect in three annual steps between now and 1965.

Individual taxpayers eventually would save about $11 billion a year under the top priority program which Kennedy unveiled in his traditional State of the Union message to Congress. The rest of the benefits would go to corporations.

First-stage rate cuts proposed for 1963 would total $6 billion — roughly equivalent to the biggest tax reductions of the past.

**Kennedy said he wants individual tax rates whacked from the present range of 20 to 91 per cent "to a more sensible range of 14 to 65 per cent."**

**He asked Congress to lower the top corporate rate from 52 per cent to the pre-Korea level of 47 per cent.**

About one-fourth of the resulting revenues losses would be recouped through tax reforms, Kennedy said.

This lifting of the secrecy wraps from the long-awaited tax package was easily the high spot of the 4,500-word message, broadcast live on all national television and radio networks, in which Kennedy also:

**—Implied the United States and its allies are winning the cold war at a time when Sino-Soviet frictions reveal "the seeds of internal disintegration" in the Communist camp.**

**—Challenged the Soviet Union to make a choice between continued conflict with the West and the "path to peace." The United States is ready for either eventuality, he declared.**

**—Revealed the bare bones of a legislative program which, apart from taxes, ranges from the proposed creation of a domestic peace corps to enactment of the Medicare plan.**

Congress arranged a special joint session in the House chamber to hear the President deliver the annual pace-setting address.

'FISCALLY RESPONSIBLE'

Kennedy described his tax package as "a fiscally responsible program — the surest and soundest way of achieving in time a balanced budget in a balanced full employment economy."

Although precise details won't

JAMES F. SPENCE

## Former Mayor Succumbs at 71

James F. Spence, former city commissioner, mayor and traditional chairman of the city's tax board of review, died yesterday at St. Joseph's Hospital following a lengthy illness. He was 71.

**Born July 31, 1891 in Wilmington, Del., he has lived in Pontiac since 1925.**

Mr. Spence became secretary-manager of the Pontiac Manufacturer's Association Nov. 1, 1952, after retiring as a real estate specialist with General Motors Corp., following more than 33 years with the corporation. He retired from this post Aug. 31, 1961.

His tenure as a board of review member began in 1936. After a year's lapse, he rejoined the board in 1938 and has been a member of the three-man group ever since, usually serving as chairman.

## Millions of Teeth Chatter as Winter Veils Nation

BY THE ASSOCIATED PRESS

Winter's icy blasts enveloped the major part of the nation today. No immediate break in the severe cold weather was indicated.

The effects of the frigid weather and snow, which swept into the Rockies last weekend and snowballed across most of the country by the weekend, were widespread.

Deaths blamed on the wintry weather—exposure, fires and traffic accidents on ice and snow-covered highways — passed the 40 mark.

Property damage, including heavy loss by a rash of fires, mounted into the millions of dollars.

**The unseasonable cold in southern Texas, southern California and Arizona threatened damage to citrus and vegetable crops. Farmers started their smudge pots.**

Wide areas felt the sting of the frigid weather, which inconvenienced millions and brought misery to thousands. Stiff winds added to the discomfort. Driving conditions were hazardous in many areas. Travel was halted in some sections.

★ ★ ★

The Weather Bureau in Chicago said that only a few parts of the nation were not hit by freezing or lower temperatures.

The below-zero zone extended from the upper Great Lakes through the northern plains into the northern Rockies. Temperatures plunged to nearly 60 below in Montana over the weekend.

### Snow Burying West Michigan; No Letup Seen

By The Associated Press

Much of western Michigan shouldered into snowdrifts Monday under a continuing storm which has caused scores of schools to close and has made driving hazardous up to 30 miles inland along the length of Lake Michigan.

Elsewhere, parts of the state were numbed by subzero cold.

No immediate relief was in prospect. The U.S. Weather Bureau said severe cold would continue at least two more days.

**The Weather Bureau also said only a lack of sustained winds of 35 miles per hour or more spared a large portion of the west state area from blizzard status over the weekend.**

Grand Rapids was among the snow depth leaders with 15 inches on the ground since Friday night.

Muskegon had about one foot of new snow since midnight Jan. 12.

Temperatures for the next five days are expected to average from 12 to 14 degrees below the normal high of 30-34 and the normal low of 13-21.

Following a low of 5 this evening, the mercury will climb to a high of 12 tomorrow. Variable cloudiness and high winds are also predicted.

Precipitation will total about one quarter of an inch or less with occasional periods of snow or snow flurries tonight, tomorrow and Wednesday.

Winds today are southwesterly to westerly at 15 to 30 miles per hour, becoming westerly tonight and tomorrow.

The lowest temperature recording in downtown Pontiac before 8 a.m. was 7. The mercury reading was 13 at 2 p.m.

## Formal Bids Filed for Hikes on Insurance

### State Commissioner Notes Past Refusals of Blue Cross-Shield

LANSING (AP)—Officials of Michigan Blue Cross-Blue Shield today asked the state to approve rate increases that would total an estimated $70 million over the next two years.

Formal applications were filed in a meeting with State Insurance Commissioner Sherwood Colburn, who earlier declined to comment on the proposed increases but pointed out that in the past he has opposed "arbitrary and capricious" rate hikes for the two plans.

**Colburn also recalled that he has warned the insurance groups that permission for rate increases could depend on them making certain changes in their operations.**

The request for increases in rates was made to Colburn by William S. McNary, president of Michigan Hospital Service (Blue Cross), Dr. Sidney Adler, president, and Sumner Whittier, executive director, of Michigan Medical Service (Blue Shield).

Colburn said public hearings will be required, their time and place to be announced in a few days.

**Gov. George Romney, asked to comment on the insurance groups' proposed rate hikes, told newsmen he expects to send an observer to the public hearings.**

He said he wanted to be certain of getting the viewpoints of both the public and the insurance groups.

The hikes were expected to average 27 per cent over the period ending in March 1965.

AT DEDICATION — Four Pontiac civic leaders clasp hands at the dedication yesterday of the expanded YMCA facilities at 131 Mt. Clemens St. Shown here are (from left), W. E. C. Huthwaite, YMCA president; Robert M. Critchfield, chairman of the successful fund raising campaign for the new wing; Theron N. Slosson, YMCA general secretary; and Circuit Court Judge H. Russel Holland, principal speaker at the ceremony.

## 'Y' Officials Show 'Baby'

### Judge Holland Speaks at Dedication

Like proud parents, officials of the Pontiac YMCA showed off their new arrival yesterday.

The occasion was the dedication and open house of the enlarged and remodeled YMCA building at 131 Mt. Clemens Street.

**More than 100 persons attended the dedication ceremony at which Circuit Court Judge H. Russel Holland reminisced through the history of the movement in Pontiac.**

The addition, which nearly doubles the space at the Y, cost $550,000. The facelifting of the old structure, purchased from the Odd Fellows in 1937, cost an additional $140,000.

"Pontiac is grateful," said Judge Holland. "The goal of the Y is for improvement of mind and spirit. It is to these that this building is dedicated."

**Judge Holland told how he found the Y when he first arrived in Pontiac in June 1927.**

"It was nothing more than one small room located in the Masonic Temple. I remember walking in, asking the general secretary, Frank Ruf, where the facilities were.

★ ★ ★

"He said 'The Pontiac Y is in this small room and in the hearts and minds of a few people in Pontiac.'

"Things have changed considerably since then and you can be sure that Ted Slosson (present secretary) can have more pride in this new building," Holland said.

Those participating in the dedication program were Dr. Milton Bank, who gave the invocation and benediction; Robert M. Critchfield, chairman of the fund raising campaign; W.E.C. Huthwaite, YMCA president; and Ralph Cromis, building committee chairman.

## De Gaulle Says No to Offer of Polaris

PARIS (AP)—President Charles de Gaulle said today France cannot join the British-American agreement made at Nassau establishing a multinational Polaris missile force.

The French president, speaking to his first news conference since last May, responded to a question on whether France might accept President Kennedy's offer of Polaris missiles:

**"I do not believe that anyone thinks that we can subscribe to the accords of the Bahamas."**

De Gaulle said the U. S. offer to France following the pre-Christmas Nassau agreement had no current importance to France and added:

"We will build and employ ourselves our own atomic force.

★ ★ ★

"I have several times indicated publicly French policy on defense and the armament which France feels necessary for her own defence. I repeat that France intends to have her own national defense."

De Gaulle conceded that in modern times no nation can conduct a world war on its own.

## Sox Trade Aparicio, Smith to Baltimore

CHICAGO (AP) — Shortstop Luis Aparicio and outfielder-infielder Al Smith were traded to the Baltimore Orioles by the Chicago White Sox today for shortstop Ron Hansen, pitcher Hoyt Wilhelm, outfielder Dave Nicholson and third baseman Pete Ward.

The salary of Aparicio, 29, was chopped from a reported $43,000 to $35,000 by the Sox for 1963 and the little Venezuelan veteran had been quoted at his home as saying he would rather quit baseball than take a cut.

He had been with the Sox since 1956

## 'Nation Only Part Way to Boom'

WASHINGTON (AP) — President Kennedy said today the nation is only part way up the hill toward a booming economy and needs a new push to reach the top.

The President, in his State of the Union message to Congress, declared that the end of the recession is no time to relax but a time to forge ahead, with the aid of the tax cut he is proposing, to new economic growth and full employment.

★ ★ ★

Kennedy discarded the idea of a massive increase in federal spending as a means of creating jobs and economic growth. Favoring instead the tax cut he is proposing, the President said "In today's setting, private consumers, employers and investors should be given a full opportunity first."

There was a notable lack in Kennedy's message of any mention or program to combat the recent rash of serious labor strikes, including the present East-Gulf Coast docks and New York newspaper strikes. Nor was there any clue that he may deal with this matter in a subsequent message to Congress.

NO CUT IN WEEK?

The President expressed what appeared to be unalterable opposition to the hopes of organized labor that it may achieve a cut in the standard 40-hour work week to a 35-hour work week as a way to curb unemployment.

Instead, Kennedy pinned the hope of his administration on a substantial federal cut to achieve a fuller measure of economic growth.

★ ★ ★

"For this would mean tens of billions of dollars more each year in production, profits, wages and public revenues," he said.

"It would mean an end to the persistent slack which has kept unemployment at or above 5 per cent for 61 out of 62 months—and an end to the growing pressures for such restrictive measures as the 35-hour week, which alone could increase hourly labor costs by as much as 14 per cent, start a new wage-price spiral of inflation, and undercut our efforts to compete with other nations."

★ ★ ★

Kennedy told Congress today the military budget must go up again to ensure the United States "a defense which is suited to the sixties."

There is no choice, the President said in his State of the Union message, "the mere absence of war is not peace" and America continues to require the best defense in the world.

# Open Race Dawning for State GOP Chair

By JIM DYGERT

News Analysis

Gov. George Romney's naming of former Oakland County Republican Chairman Arthur G. Elliott Jr. as a possible choice for next GOP state chairman, turned out to be less than the clear-cut endorsement expected.

**Romney's statements at a weekend meeting of the Republican State Central Committee in Lansing appeared instead to boost chances of John A. Gibbs, 30, of Royal Oak.**

In fact, Gibbs' chances may now even be better than Elliott's, if he decides to seek the post at the party's state convention in Grand Rapids next month.

"I'm giving it some serious consideration," Gibbs said yesterday, when asked if he would be a candidate.

THREE REASONS

Currently executive assistant to the present Republican State Chairman, George Van Peursem, Gibbs gave three reasons why he may be a candidate:

**1. Van Peursem's announcement Saturday that he will not seek re-election, apparently to make way for a successor more to Romney's liking.**

2. Romney's naming of Elliott as only one of three men qualified for the job, and the governor's adding, "I do not have a selected candidate as George's successor.

★ ★ ★

**"While I consider Art Elliott a qualified candidate, I have made no commitment," indicating an open race, as interpreted by Oakland County Republicans who want Gibbs to seek the post.**

3. The governor's pinpointing of organization as the state GOP's greatest flaw and emphasis on the need for "the best organizing man we can find" to head the party in the state.

★ ★ ★

This can be interpreted as favorable to Gibbs. It was interpreted by Gibbs' supporters, in fact, as almost an invitation to seek the post.

**Although both Elliott and Gibbs are known as skillful organizers — with Elliott better known in the state — Gibbs supporters claim he has an edge in organizing ability and maintain Elliott's chief assets are inspirational leadership and political savvy.**

If Gibbs throws his hat in the ring, it is even possible that Elliott will step out of the picture.

★ ★ ★

Elliott, a former Royal Oak realtor who now lives in Bloomfield Hills, said last week he could not see "Jack and I opposing each other."

**Gibbs was Elliott's assistant when Elliott, as county chairman from 1957 to 1961, was gaining a statewide reputation for building the county's GOP into one of the most powerful Republican organizations in the state.**

Each has a high regard for the other's ability.

UNDECIDED STILL

Elliott said Saturday the governor's mention of his name did not make him an active candidate. He said he would take whatever job in which Romney and the party decided he could make the best contribution.

★ ★ ★

**Republicans who claim there is now no split in the county because neither has announced his candidacy, admit a split would come if county delegates had to choose between them.**

If only one is a candidate, however, he will no doubt get all the county's 161 convention votes, more than 10 per cent of the total to be cast by the 1,500 delegates.

★ ★ ★

Gibbs and Wendell Hobbs of Ann Arbor, well known in party circles for his organizational work as Washtenaw County Republican chairman, were thought to be the other two men Romney had in mind when he said three qualified candidates.

**The Gibbs camp sees the ideal as Gibbs in the state chairmanship and Elliott in the governor's office coordinating Gibbs' work with Romney's desires.**

This way, they say, Elliott would have more time and opportunity to keep the governor appraised of the party's progress toward becoming the "citizen's party" he wants.

BEGINNINGS EXIST

Beginnings of such a "citizen's party" already exist in Oakland and other counties, but Romney may not realize it, some Republicans contend.

★ ★ ★

**Some interpreted Romney's throwing the race open as healthy for the party as well as consistent with his philosophy of a "citizen's party" in which such choices as that of party leader should be made by party members rather than dictated from above.**

Romney said: "I know Art Elliott does not want to be chairman of this party unless it is the result of the party's making that decision."

★ ★ ★

He also said that second only to meeting the needs of the state, "is strengthening the Republican Party as the political expression of basic American principles in Michigan."

# Holly Woman Shot 4 Times

## In Critical Condition; Attack Unexplained

**A Holly mother of two was critically wounded Saturday afternoon when shot four times by a man police identified as her next-door neighbor.**

**Mrs. Ethel Truxton, 32, was shot twice in the abdomen and twice in the elbow with a 38-caliber revolver while in the bedroom of her home at 304 LeGrande St.**

She is reported in critical condition at McLaren General Hospital in Flint.

★ ★ ★

Police said Mrs. Truxton's husband, Harry, 34, narrowly escaped being hit by another bullet as the gunman emptied the contents of the five-shot revolver in their home.

**Noah Terry, 45, who rooms next door to the Truxtons at 306 LeGrande St., was being held today at the Oakland County Jail for investigation of attempted murder.**

Holly Police Chief William J. A. Wood said he was to meet today with representatives of the county prosecutor's office to discuss official charges against Terry.

Many details of the case were still unexplained today, according to Wood.

**The police chief said Terry apparently entered the Truxton home through the front door, walked back to the bedroom and began shooting at Mrs. Truxton.**

Her husband was in the bathroom and the couple's two children apparently were in the living room of the one-story home when Terry entered.

Wood said one of the five bullets was found in the bathroom, indicating that Terry also shot at the wounded woman's husband.

**Mrs. Truxton, although injured, managed to call police from her home shortly before 4:30 p.m.**

When officers arrived, Wood said Truxton was holding the revolver and shells for the gun. The police chief said Terry apparently reloaded the gun, but it was taken away from him and emptied by Truxton.

Terry offered no resistance when police arrived.

"He said he was sorry and hoped Mrs. Truxton would pull through," said Wood. "He gave no reason for the shooting."

# Tshombe Gets Attack Threat

## Surrender of Forces Demanded by U. N.

ELISABETHVILLE, Katanga (AP)—The United Nations prepared today to send a special emissary to Kolwezi to demand that President Moise Tshombe surrender his stronghold or face U.N. attack.

★ ★ ★

Diplomatic informants said they believed the Katanga president was rallying his followers for a last-ditch stand to try to hold what remained of his secessionist domain.

**BRUSSELS, Belgium (AP)—Possibly two billion Congolese francs ($40 million) are missing from the Katanga National Bank in Elisabethville, reliable Belgian sources reported. The sources said the bank notes were removed from the bank late in December during fighting between Katangan and U.N. forces.**

WARNING GIVEN

The emissary was to warn Tshombe that if he did not peacefully surrender Kolwezi—center of Katanga's mining industry—the United Nations would fly in a Gurkha battalion to take it by force.

★ ★ ★

Tshombe also was to get notice that if his followers carried out threats to blow up the mining installations and electric power dam in the area, he might be sent to Leopoldville for trial by the central Congo government as a war criminal and saboteur.

Last reports said a U.N. ground force had advanced from Jadotville to within 50 miles of Kolwezi.

U.N. TAKEOVER

Sources at U.N. headquarters in New York reported that Indian U.N. troops have taken over Shinkolobwe, once Katanga's biggest military base, 15 miles southwest of Jadotville and about 90 miles southeast of Kolwezi.

★ ★ ★

The base, which once accommodated 2,000 to 3,000 men, was reported almost deserted. The sources said "enormous quantities of arms and ammunition" were found.

# Would-Be Leaders Seek Power After Togo Coup

LOME, Togo (AP)—A struggle for leadership of this tiny West African country appeared to be developing today in the wake of a sergeants' revolt and the assassination of President Sylvanus Olympio.

Two men emerged as possible heads of a new government—former Premier Nicolas Grunitsky 49 and Idrissou Antoine Meatchi, 27, a former opposition leader in the Togo Assembly .

★ ★ ★

A military revolutionary committee that engineered the Sunday coup reportedly appealed to Grunitsky, a brother-in-law of the slain president to return from exile in neighboring Dahomey to form a government.

Rumors spread that Meatchi was already back in Lome from exile in Ghana, which also borders Togo. He had been accused by the Olympic government of aiding exiled political conspirators.

Meatchi, a French-educated Moslem and former civil servant, had been arrested in 1960 for conspiracy. He went to Ghana after his release in mid-1961.

Gunned down on the street outside the U.S. Embassy early Sunday, Olympio apparently was the only casualty of the fast-paced revolt. Gunfire was heard in the streets around 2 a.m. The 60-year-old president's bullet-riddled body was found outside the unlocked embassy gate at dawn.

★ ★ ★

The body was taken into the embassy. Later Olympio's family removed it.

Most of the other members of his government were arrested. They were reported unharmed and held at a military camp outside Lome.

The main opposition to Olympio's government consisted of the Progress party and the Allied Juvento Movement, two groups accused of plotting against the regime with aid from Ghana.

# Finish 8 Developments in Speeded CD Plan

BIRMINGHAM — Eight major developments have been completed since the city administration was directed to accelerate Civil Defense efforts in Birmingham, according to City Administrative Aide John F. Saefke.

★ ★ ★

In a report to be presented at today's 8 p.m. City Commission meeting, Saefke listed the recent developments and cited the need of fallout protection for emergency forces as the next most important step in the city's CD program.

Major developments noted by Saefke include:

**1. All policemen and personnel in the public works and parks and forestry departments have been instructed in radiological monitoring procedures.**

**2. The DPW yard and police station have been established as daily monitoring stations in addition to those at each fire station.**

**3. Final studies to complete strengthening of water production and distribution are under way.**

**4. Establishment of the emergency engineering services organization has been completed.**

**5. Establishment of an emergency operations center in the Municipal Building basement is progressing rapidly.**

**6. Identification and marking of public fallout shelters in existing buildings has been completed and stocking of the buildings will follow soon.**

**7. Drill procedures and shelter areas were inspected and emergency plans were discussed at all public schools and some parochial schools.**

**8. The first public courses in emergency training and emergency welfare have been completed and the second courses are under way.**

Saefke said fallout shelters for emergency forces are important since "if these people are eliminated or become ineffective, there will be no emergency services and all other preparations will have been for nothing."

**John Maki**

Service for John Maki, 46, of 1765 Ward Road, Bloomfield Township, will be 3 p.m. tomorrow at Huntoon Funeral Home, Pontiac.

# Judge Overrules Order Reinstating Pontiac Teacher

Circuit Judge William J. Beer today overruled the State Tenure Commission's reinstatement order for teacher Isa M. Vogel, whose contract was not renewed by the Pontiac School District in 1960.

**Judge Beer, in a written opinion, ruled the commission had no jurisdiction in the case because Mrs. Vogel was a probationary teacher with "no right to tenure."**

The probationary period "is as its name denotes, a trial period," the judge said. "The law so regards it."

The Pontiac Board of Education appealed to Circuit Court after the tenure commission ordered the board to give Mrs. Vogel a third probationary year after the normal two-year probationary period.

Mrs. Vogel was not given a contract for 1960-61 because the board did not consider her work satisfactory.

# Urges Slash

(Continued From Page One)

be revealed until later this month, it was apparent the tax bill has been carefully tailored in an effort to meet anticipated opposition from congressional conservatives.

Besides calling for gradual rate cuts, to lessen the adverse impact on federal finances, Kennedy advanced two companion proposals that would aim in the same direction:

**1. The enactment of tax reforms recouping $3.5 billion of the revenues that would be lost through lower rates. Reforms would begin going into effect next year.**

**2. A plan to gradually speed quarterly tax payments by large corporations to boost revenues by $1.5 billion without changing corporate tax liabilities.**

Kennedy also emphasized a desire for haste in congressional consideration of tax legislation.

"Now is the time to act," he said. "We cannot afford to be timid or slow. For this is the most urgent task confronting the Congress in 1963."

★ ★ ★

The President did not specify any particular date on which he believes the initial rate cut should take effect. He merely said the first reductions should come this year.

Neither did he indicate the first-year impact on the federal budget.

Kennedy's new budget, for the 1964 fiscal year starting July 1, will go to Congress Thursday. It is expected to call for spending approaching $99 billion.

**In one of his few references to the budget, the President said it will allow for "needed rises in defense, space and fixed interest charges." But he said it will hold "total expenditures for all other purposes below this year's level."**

To do this, Kennedy said, he will call for "the reduction or postponement of many desirable programs," plus payroll and other economies.

OTHER HIGHLIGHTS

These were among other highlights of the message:

**—The state of the union is good; "the recession is behind us."**

**—The state of the world is improving; "steady progress has been made in building a world of order."**

—But we cannot be satisfied to rest here. This is the side of the hill, not the top. The mere absence of war is not peace. The mere absence of recession is not growth. We have made a beginning—but we have only begun."

—At home, Kennedy wants aid to education; help for unemployed youths; an expanded health program; strengthened guarantees of voting rights; increased competition and decreased regulation in transportation; a local mass transit program; a new farm program; more parks and recreation areas.

# Filibuster Fracas Starts Today

WASHINGTON (AP)—Senators start battling today over proposals to put a tighter curb on filibusters.

The fight was to have broken out last week at the opening of the new Congress. But all sides agreed on a truce until President Kennedy delivered his State of the Union message.

A bipartisan bloc of liberals will offer a new rule that would permit a majority of the members—51 of the 100 senators—to halt a filibuster 15 days after the filing of a debate-limitation petition.

Heading a middle-ground group, Sens. Clinton P. Anderson, D-N.M., and Thruston B. Morton, R-Ky., will propose a rule under which a time limit could be clamped on debates by three-fifths of the senators voting.

Tightly organized to resist any change in the present rule requiring a two-thirds majority of senators voting to limit debate are 19 Southern senators under the leadership of Sen. Richard B. Russell, D-Ga.

In what may be a promise to use the filibuster itself in the rules fight, Russell says: "We will take advantage of every opportunity to expose the iniquity of gag rule in the Senate."

The issue is ticketed for discussion at a morning conference of Republican senators, but they are not expected to take any party stand on it.

Senators calling for a tighter curb on filibusters contend it is necessary for the passage of meaningful civil rights legislation over Southern opposition. Russell called this "just a smoke screen" for efforts to pass big money bills.

Proponents also argue that under the present rule, threatened filibusters have forced the watering down of other controversial legislation or stymied it altogether.

Two members of the bipartisan liberal bloc, Republican Sens. Jacob K. Javits and Kenneth B. Keating of New York, urged President Kennedy to join their forces.

The fight against the filibuster is an effort "to break the stranglehold upon the Senate by its Southern bloc," Javits said in a taped television broadcast for New York stations.

In a separate broadcast for New York stations Keating urged both the President and Vice President Lyndon B. Johnson to support the liberals. Without them, "we cannot win," Keating said.

But Senate Democratic Leader Mike Mansfield of Montana says this is a Senate isue and that Kennedy should and will keep out.

# Three GOP Contenders Speak Out

By LYLE C. WILSON

WASHINGTON (UPI)—The three Republicans most mentioned as likely presidential nominees in 1964 spoke out last week in politically significant language.

WILSON

Sen. Barry Goldwater, R-Ariz., asked his conservative supporters to hold everything until next year.

He is committed thereby to state firmly in January 1964, whether he will make an all-out effort for the Republican nomination.

Goldwater is aware of the almost impossible odds against his nomination, not to mention the matter of getting elected.

★ ★ ★

The other two Republicans were Gov. Nelson A. Rockefeller of New York and Gov. George Romney of Michigan. Both submitted messages to their legislatures.

**In these messages the two governors established similar images. They are budget balancers. They are committed to holding the line on spending. And they are against tax increases.**

Thus, both governors endorsed conservative fiscal policies. Their fiscal plans and performances will be basic in any 1964 appeal for conservative votes.

Perhaps Romney spelled it out more plainly than did Rockefeller. Romney wants some basic tax changes in Michigan; an adequate and fair tax structure. He has borrowed President Kennedy's idea that the way to obtain increased revenue is to rev up the state economy so that there would be more state income without higher rates.

SOUNDS WARNING

This has not worked for President Kennedy. But Romney came up with something not in any way reflected by Kennedy administration policies. It was a warning that the state must live within its income for this reason:

**"A fervent desire to meet the needs of people through public service is disastrous if it leads to chronic spending beyond state income." That's a brand new idea in practical politics.**

It could do much for Romney among the squares, the backward folk who believe in thrift, pay-as-you-go and such derided traditions of the American way.

Romney called a long roll of welfare legislation he would like to propose to the legislature. He said he wouldn't propose any of it because Michigan couldn't afford it. Strange talk! And abandoning political caution wholly, Romney said:

"Governments are financed by taxes—and taxes are money taken from the people. Nothing from government is free; somebody pays for it. These are truths that sometimes get lost."

**Sometimes? Those truths have been lost for 30 years. Rockefeller was equally firm on old-fashioned economics. He hinted he might have been able to propose a tax reduction but for being stuck next year nearly $1 billion in increased spending by reason of state aid already committed.**

Conservatives might quarrel some but not much with Romney and Rockefeller on government finance.

But there was more. For example, both governors apparently are committed to outdoing all others in the area of civil rights. Both are committed to the concept of the welfare state.

If their fiscal ideas will appeal to conservatives, much else in their programs will not.

## Dies From Fall Injuries

QUINCY, Mass. (UPI) — Raymond E. Lentz Jr., 10, was injured fatally yesterday when he slipped on a patch of ice and fell on two glass milk bottles he was returning to a store.

## Civilian Nabs Two Marines

MOBILE, Ala. (AP) — Two Marine reservists escaped from the enemy during war maneuvers only to be captured by a shotgun-carrying civilian.

Police said Willie E. Brabner of Mobile and Artie Davis of Birmingham fled from the enemy camp Sunday and sought a hiding place in a nearby residence.

A neighbor took a dim view of the situation and held them at bay with a shotgun while police were called.

## Neither Rain Nor Sleet, but Just a Hard Head

PROVIDENCE, R.I. (AP) — Nothing stops a Providence fireman rushing to a fire unless it's another fireman.

Firemen Joseph Favali and Edwin Andrade leaped for the same brass pole in a station Sunday. They collided head-on. Favali had to go to a hospital, where he had five stitches to close a cut on the eyebrow. Andrade was unscathed.

## Junior Editors Quiz on LEAVES

QUESTION: Why do leaves fall off the trees?

★ ★ ★

ANSWER: The little hard working food factories called leaves make sugar and starch for the trees to live on. After a period of work, a leaf becomes exhausted; it must fall and give way to a new one. Even in places where the climate is warm the year round, old leaves keep falling and new ones appearing.

**But since this happens leaf by leaf throughout the year, the tree always looks green. Evergreens, too, lose their leaves in this way and yet are always green. But trees with big flat leaves such as oaks and maples need the summer warmth and are useless in the winter.**

So, in the fall, the base of the stem or "petiole" begins to grow a ring of cells which turn into cork and cut right across the stem, shutting off the tiny pipe lines which connect the leaf with the tree. Now the green chlorophyll in the leaf disappears and other chemicals are uncovered whose brilliant colors of yellow, orange and red make the blaze of autumn. As these go, too, the leaf falls to the ground.

But during the previous summer, a minute bud with a tiny rolled up leaf inside had appeared where the petiole joined the twig. This remains alive during the winter, ready to burst open in the warmth of spring.

★ ★ ★

FOR YOU TO DO: If you live in a country where leaves fall, check on the tiny "auxillary" buds which are waiting for spring. If you live further south, look out for old leaves falling and find where the new ones are coming in.

# D-Day Nearing for Meredith

## Final Exams Begin on Ole Miss Campus

OXFORD, Miss. (UPI) — Today marked what could prove the beginning of the end for Negro James Meredith at the University of Mississippi.

**This is the week for final examinations and if the 29-year-old Air Force veteran is having as much trouble with his studies as suspected, he will be lucky to slide by.**

★ ★ ★

Meredith took only a few hours out from his studies during the weekend to visit his wife, but when he returned to the campus from Memphis he came face-to-face with another problem: someone had slashed one of the tires on his car and snapped off the aerial on his car radio.

★ ★ ★

The vandalism took place only 30 feet from the military policemen who constantly stand guard at his dormitory.

**Meredith paid little attention to the damage and went directly into the dormitory where he spent most of the afternoon studying.**

He ate dinner at the school cafeteria without incident but later last night a new edition of the "Rebel Underground," a secret newspaper directed against Meredith, appeared on the campus.

★ ★ ★

The poorly-printed handbill purported to tell the inside story of a student who was suspended last week for heckling Meredith. It also attacked Atty. Gen. Robert Kennedy and mocked Sidna Brower, editor of the official campus newspaper.

Miss Brower has been nominated for a Pulitzer prize for her editorials on the "Ole Miss" crisis.

## UPI Regional Executive Still in Critical Condition

BAY CITY (UPI)—James J. Klockenkemper, 36, Detroit, United Press International regional executive for Michigan, remained in critical condition today at Bay City Mercy Hospital.

**Klockenkemper suffered head injuries Saturday near Clare, Mich., when the car in which he was riding skidded on a patch of ice and was rammed broadside by another car.**

★ ★ ★

The driver of the car, William Norkunas, 28, Detroit, UPI maintenance chief for Michigan, suffered minor injuries.

## Major Issues Before Congress Will Bring Disagreement

Congress is in session.

Important matters lie ahead.

Medicare will be one of the hotly contested items facing the Washington solons, as President KENNEDY and the American Medical Association locked horns before in a struggle which saw neither side giving an inch.

The medicos won.

★ ★ ★

**There promises to be an encore in the days ahead, and the battle may be just as unyielding, judging from the determination evinced on both sides. Some people think that vacancies on the House Ways and Means Committee may be the keynote in deciding what will eventuate.**

★ ★ ★

The question of Foreign Aid will arouse a series of stormy sessions. The Administration is convinced that a bill approaching $5 billion is a stern necessity for our best survival in many key areas. On the other hand, the Congress is lining up a stout and vocal army that will fight the present foreign aid levels.

★ ★ ★

**Much of this determination has been aroused by the rather belligerent sentiments encountered back home. Private citizens are growing vociferous over foreign aid to nations that calmly turn around and stab us squarely and vigorously in the middle of the back. Also, they're wrathy over the way too much "foreign aid" has gone to the personal aggrandizement of smug and selfish administrators of foreign governments.**

★ ★ ★

Whatever the ultimate bill may be, certainly standards and stipulations will demand that foreign governments must qualify.

This will be a "hot" subject.

★ ★ ★

**A cut in taxes is bound to come up for vigorous debate. The President is determined to put a reduction into effect now. Many of the Congressional leaders view this with disfavor and argue that you can't lower taxes when it merely guarantees a bigger deficit. They contend that any cut must be matched by an equal slash in Federal Government expenditures. Hoping for Federal administrations to limit spending is expecting too much. Apparently it isn't in the cards. Some economists want a reduction immediately, and some want it to start the last six months; others favor delaying action until 1964.**

**This promises an all-out battle.**

★ ★ ★

Federal Aid to Education is another controversial matter that may claim a lot of time and attention. President JOHN F. KENNEDY declared flatly during the campaign that if elected, he had no intention of trying to force Federal aid for parochial schools.

He has kept his promise.

But some of his "friends," (including the clergy) have taken the bit in their teeth and demanded tax money for secondary Catholic schools. This threatens again.

★ ★ ★

**Many people hope that the iniquitous filibuster will be outlawed. Here is a last-resort and dying-gasp measure that allows Southern Democrats to block all Congressional action when something arises that is directly hostile to their black-white sentiments. Also, it has been put to other selfish and reprehensible uses by such knuckle heads as Wayne Morse, the Oregon dud.**

★ ★ ★

If things run true to form, there will be a deluge of early bills. The Congressional halls will be flooded with "reforms" and "do-good" legislation that hails the approach of the millennium. Then the backstage bargaining will begin along with the plots and counterplots. It almost becomes a cloak-and-dagger proceeding without the cloak and dagger. Swapping and compromises will take place, and towards the last portion of the session, there will be frantic and madcap operations on all sides. Some of the "home consumption" measures will be "unfortunately tabled." A good bit of constructive legislation will be emasculated. Other bills will be ripped into shreds, but with it all will come the constructive and purposeful action upon which we exist so successfully.

★ ★ ★

**It's a necessary and fascinating hurly-burly. It's a democracy in action.**

**Through Congress, the people speak.**

### 'Vital Statistics' . . . .

Here are the "vital statistics" on the Federal income and outgo as it concerns President KENNEDY (in billions of dollars):

★ ★ ★

| | Income | Outgo | Deficit |
|---|---|---|---|
| Taking Office | 77 | 81 | 4 |
| 1st Year | 81 | 87 | 6 |
| 2nd Year | 86 | 94 | 8 |
| 3rd Year Likely | 87 | 99 | 12 |

★ ★ ★

Our next fiscal year begins July 1. Supporters of the President insist this likely $12-billion deficit will be cut below $10 billion.

★ ★ ★

**Is that a peace-time triumph?**

### And in Conclusion . . . .

Jottings from the well-thumbed notebook of your peripatetic reporter:

Does smoking cigarettes play any part in that squeaky voice JIM PATTON uses when he stumbles through the Marlboro commercial? . . . . . Russia claims she bounced signals off Mercury last summer with equipment superior to ours. Wanna bet? . . . . . *Look* Magazine says teen-agers are pulling away from those dangerously early marriages and beginning to repudiate "going steady" at tender years. . . . . Overheard: "My wife's driving is getting better. For two months the repair bills have been less than the time payments." . . . . . Harvard *Business Review* casts doubts over the accuracy of those lie detector tests.

★ ★ ★

**I can't prove it but I'll bet a sugar cookie that "antidisestablishmentarianism" is the longest word in the dictionary. . . . . . Trusted scouts advise me that Jane McKinley deserves mention as one of the very attractive girls in the area. Jane, you're "in." . . . . . . Overheard: "There's an ideal couple for 1963. She's 19 and he's 63 . . . . . Hal Block says his predictions for 1963 include a forecast that Caroline Kennedy will write her memoirs entitled: "Life on the White House Lawn, or That Grassy Kid Stuff."**

★ ★ ★

Word seeps out of Cuba that CASTRO is growing uneasy over the suggestion that he'll have to face the Human Rights Commission of the United Nations on a charge of (mass) murder. The penalty is—you-know-what. . . . . Dept. of Cheers and Jeers: the C's—the Lions; the J's — those anemic, washed out five-cent stamps with a caricature of GEORGE WASHINGTON. The P. O. owes the Nation an apology.

—HAROLD A. FITZGERALD

Pitfall Boulevard

David Lawrence Says:

## Why Did GIs Die in S. Viet Nam?

WASHINGTON — For what cause have 53 Americans given their lives in South Viet Nam? What is the government here telling the unfortunate parents and relatives?

It would seem that not only is a persuasive explanation due the families of the men killed, but it is due the American people as well.

LAWRENCE

For other Americans in uniform — about 1,000,000 of them —now are stationed in 41 different lands and may any day be asked to make similar sacrifices.

An official explanation as to why the United States is risking the lives of its youth in South Viet Nam has not been forthcoming. Yet Congress alone, under the Constitution, has the right to declare war. A president who finds our national safety threatened need not wait for Congress but may in an emergency order our armed services into action because there isn't time to consult Congress.

**At the earliest practicable moment, nevertheless, a president is morally obligated to ask for a resolution of both houses of Congress to authorize the continued use of American troops. There has been plenty of time for Congress to tackle the problem of supplying military aid to South Viet Nam.**

In 1950, when President Truman overnight ordered our armed forces to help the United Nations to repel the invasion of South Korea, he called it a "police action," though it turned into a major war. Congress never authorized it explicitly but later gave the military operation validity by passing the necessary appropriations.

★ ★ ★

There have been a few cases in which Marines have been landed for brief periods in foreign countries by the United States to protect American lives and property and no resolutions have been sought from Congress. But in no case have such forces been used to carry on any operations involving military action against another country.

VERY COSTLY

Today American troops and equipment — at a cost to American taxpayers of $1,000,000 a day — are in South Viet Nam, and the official word is that all this is solely to help in defensive operations at the request of the local government.

Lately it appears that the local commanders don't want to fight the Communist-led forces and are ignoring the advice of American military officers, one of whom was killed as he pleaded with the native army commanders to fight.

The United States government today has taken the position that, under the assumed authority of the United Nations, American advisers and equipment can be used in the Congo to settle by force an internal war in a state which covers a considerable area in central Africa.

**Great Britain and France and other U.N. members disapprove of such intervention, which, though carried on ostensibly by the U.N., is really supported, encouraged and financed largely by the United States. Not a single step has been taken by Congress to authorize American military support of the U.N. in the Congo.**

Hal Boyle Says:

## Rolls-Royce Headlights Make Sharp Lamps

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

United States presidents come from large families. Nineteen of our 34 national leaders had five or more brothers and sisters. Sixteen of our presidents were the first-born son in their families. No president was an only child!

BOYLE

Prosperity Note: We now gulp down nearly $1.5 billion worth of ice cream sodas a year.

The Latest Buzz: A colony of bees produces 45 pounds or more of honey a year.

Tip to the Thrifty: If you are junking your old Rolls-Royce this year, save the headlights. They make very decorative lamps for home or terrace.

Here's good news for self-conscious bald men: A Los Angeles firm now rents hairpieces for as little as $2 a week.

Our Quotable Notables: "It is impossible to enjoy idling thoroughly unless one has plenty of work to do."—Jerome K. Jerome.

HITS YOUNG, TOO

Medical Fact: Cancer is usually thought of as an ailment of the elderly, but the truth is that it kills more children than does any other disease.

Some 136 million Americans now have some form of health insurance. If you are 35 years old, the chances are one in 10 that you will suffer a permanent disability before you are 65.

**Lush Living: The Doral Beach Hotel in Miami has a floating bar propelled by a water cycle for bathers who don't want to swim ashore for a martini.**

Footnote to History: Kathy Grant, now Mrs. Bing Crosby, was voted "Miss Fat Stock Show of 1950."

Ball point pens may come or go, but we still use up one and a half billion pencils a year.

How fast are your reflexes? Science has found that the human nervous system can transmit messages at a speed of 265 miles an hour.

LARGEST PALACE

Do you know which is the world's largest palace? It is the Louvre in Paris. Built over a period of three centuries, it covers 48.9 acres. Now an art museum, its three greatest treasures are the statues of the Winged Victory and Venus de Milo, and Da Vinci's portrait of Mona Lisa, the latter now in America.

Worth Remembering: "We all have a great deal of advice for youth because we used so little of it while we were young."

**Why public transportation systems are in trouble: Of all employed Americans, 68 per cent drive to and from their jobs by car.**

Oddities: Water is regarded as a mineral. Even acids won't dissolve a diamond. The Library of Congress has more than 36 million items. Joe E. Lewis, the night club entertainer, answers his fan mail in longhand. Sausage was common in China 4,000 years ago. People have been betting on horse races since the Olympic Games of 664 B.C.

### 'Strong Middle Class Needed in Peru'

What Peru lacks, like many of its neighbors, is a strong middle class with a radical conscience. People like Don Pedro Beltran have shown what could be done by an enlightened ruling class, but they and the moderate leaders of populous parties, such as Dr. Haya de la Torre, or his Venezuelan counterpart, President Betancourt, are under attack from the left for their moderation. Every intervention by the military makes their task more difficult.

### 'No-Hike Promise Out the Window?'

I wonder what Avondale people think now. We were promised our taxes would not go up. I feel sorry for widows and pensioners, as taxes have already gone up $12 per $1,000 and the schools are not built yet.

### Tells Type of Men Our Country Needs

A member of the United States Congress said:

"I believe that exploitation of human needs and problems for the purpose of completely centralizing and federalizing our governmental activities in this country represents a cure that is far deadlier than the existing ills."

We need men in government who believe firmly in the fundamental basis of American freedom and who practice it. The American people must have statesmen if our nation is to survive. We hope members of the United States Congress will unite in striving to save the personal freedom of America, and concern themselves with what is best for America instead of what is best for their party.

## Reviewing Other Editorial Pages

### *Time for Silence*

*The Saturday Evening Post*

Foot-in-mouth disease always has a peculiar fascination when it occurs in high places. There have been two exalted examples, involving a former Secretary of State and a United States Senator.

**Mr. Acheson, who as a former Secretary of State and head of the NATO Advisory Group said, "Great Britain has lost an empire and has not yet found a role. The attempt to play a separate power role . . . based on a special relationship with the United States, a role based on being the head of a Commonwealth which has no political structure, or unity or strength — this role is about played out." Mr. Acheson is a friend of the British, and he had some kind words for them but that part we have quoted will be remembered. It caused an uproar in Britain.**

★ ★ ★

The other case involved Sen. Allen Ellender of Louisiana, an inveterate traveler who wants to visit every country in the world.

After the 87th Congress, Sen. Ellender took off for Africa, planning to visit 36 different countries. At a press conference in Southern Rhodesia the Senator was quoted as saying, "If there is any part of Africa where the natives have built up a community on their own and made progress on their own, I have yet to see that area . . . What I mean is simply that the average African is incapable of leadership except through the assistance of Europeans."

★ ★ ★

Sen. Ellender complained that he had been quoted out of context, but a tape recorder substantiated the quote.

★ ★ ★

**His outbursts caused half a dozen African countries to declare that he was unwelcome and he acutely embarrassed his own government. Official apologists insisted that neither spoke for the U.S., but no protest could dissociate them from their country. People in high places should remember there is "a time to keep silence and a time to speak."**

### *Convention Scene*

*The Decatur Herald*

*There may be considerable competition among the larger cities for the 1964 Republican national convention, but Hyannis Port may be compelled to accept the brief, cut-and-dried Democratic party's nominating convention.*

### *Leadership*

*The Chicago Sun-Times*

Chancellor Edward H. Litchfield of the University of Pittsburgh has proposed a radical change in the concept of how college football ought to be played.

**He says, "We must discard the present method of the coach sending in every play . . . I want leadership on the field . . . The boys must learn to be leaders on their own and not to rely on the coach's judgment all the time."**

★ ★ ★

Chancellor Litchfield may have put his finger on one of the problems of modern life. In many instances our youngsters are going through school and out into the business world always taking orders from the sidelines, never encouraged to show leadership on the field, to call signals for themselves. Chancellor Litchfield wisely sees that developing initiative is one of the responsibilities of schools. And the gridiron is one place where a school can show it understands that responsibility.

★ ★ ★

**On or off the field, emphasis should be on initiative, imagination, enterprise, bright ideas. The Litchfield method should roll up a better score on a bigger scoreboard of a game that goes on long after college days.**

# Head-On Crash Takes 2 Lives

Two persons were killed Saturday in a head-on collision in Avon Township, and a Pontiac woman, injured in an accident Wednesday, died in the hospital this morning.

**Oakland Highway Toll in '63**

**Last Year To Date 3**

The two-car crash Saturday took the lives of Mrs. Betty L. Grose, 33, of 4563 13 Mile Road, Warren, and Clarence H. Tyack, 63, of 3564 Samuel St., Rochester.

* * *

The accident occurred at 12:02 p. m. on South Boulevard, just east of Dublin Fair Road, between Crooks and Adams Roads.

Mrs. Grose's husband, Glenn L., 40, told Sheriff's deputies that he was driving west on South Boulevard and as he came over a crest of a hill he saw the approaching car over the center line.

**He said he attempted to pull onto the shoulder to allow room for the other car to pass, but lost control on the ice and slid into the oncoming car.**

Grose was treated at the hospital and released.

* * *

Tyack, driving the other car, was dead on arrival at St. Joseph Mercy Hospital. He suffered a fractured skull, a broken neck and internal injuries.

**Mrs. Grose suffered a broken neck in the accident.**

Passengers in each car also were injured.

The Grose's daughter, Valerie S., 7, is in satisfactory condition at the hospital with facial lacerations.

* * *

Tyack's wife, Alice, 34, suffered multiple fractures. She is listed in good condition at the hospital.

Mrs. Lola P. Wolfe, 44, of 30 Cadillac St., died at 4:45 a.m. today at Pontiac Osteopathic Hospital. She had been injured in an accident Wednesday morning in Pontiac.

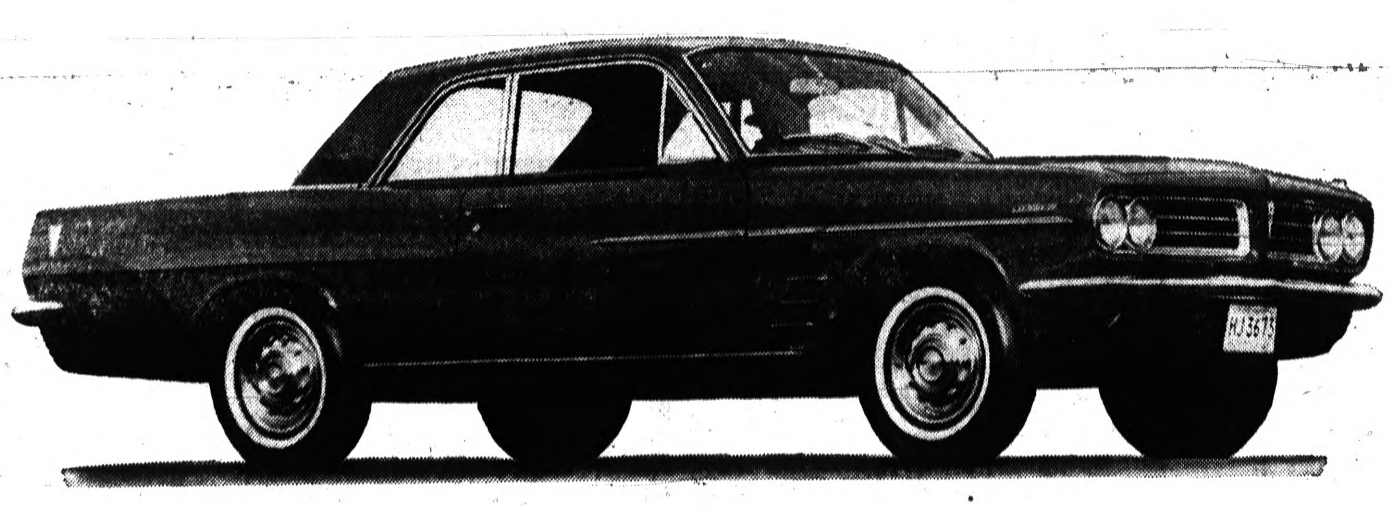
**If Wide-Track is as hot as Pontiac says, why don't they put it in their Tempest?**

**They just did.**



We can take a hint. When people are as happy with something as Pontiac owners are with Wide-Track, we're willing—nay, *eager*—to let everybody else in on it. That's why Tempest has a Wide-Track of its own this year. It's why you get to choose between a lively 4 and a 326-cu. in. V-8;* too. We aim to please—and if we do say so, we're pretty accurate.

*Either 260-hp premium fuel or 250-hp regular fuel—optional at extra cost.

# American Youth Cheated of Essentials

By PHYLLIS BATTELLE

NEW YORK — Sam Levenson has made a neat fortune by joking about his former life as a school teacher. But behind the laughs is a sincerely worried man.

He sees American youth as being cheated of these necessaries for normal adulthood — forceful direction, ethics and love.

PHYLLIS BATTELLE

"I can take any human being under 18 and guarantee he'll wind up on a psychiatrist's couch or a mental institution, and you know how? By saying to him, when he asks what he should do, 'It's up to you.'

★ ★ ★

"This progressive, permissive treatment is no good. Kids want direction and need direction, the right kind.

"I want to change the textbooks of America," says Sam, "so that starting in kindergarten, our children are taught two things, love and ethics.

★ ★ ★

**"People say about such important things, 'Oh, he's not ready for it yet.' Don't burden him with big thinking. Tell him to be a good boy and maybe he'll grow up to be an astronaut."**

So children are "spared" the talk of love for their fellow human beings and ethics, and are given TV sets and science toys.

★ ★ ★

"Science!" Levenson shakes his head. "I go to science lectures and when they're through talking I ask, 'Why is it that two-thirds of the human race goes to bed hungry?' And the scientists say, "That's not my field."

**"Some people think if you go up high, you're close to God, but I say the space to be conquered is the space between people, so science be damned until they teach me and my kids how to get along with people on Earth."**

Levenson's new school system would have teachers who were "enlightened in human relations. Our teachers today know all the best words, 'psychopath,' 'neurosis,' 'maladjusted' — but wait! How about those words 'love,' 'pity,' 'compassion?'

★ ★ ★

"Our schools are clinics. In European schools, the little children hug their teachers. That's what I'm for—the human touch.

**"Children are so anxious for love. Especially teen-agers. They'd like a teacher to put a hand on their shoulder, or muss up their hair affectionately, and say, 'Hey, what's the trouble with you and algebra?'**

"But the accent in America is on scholarship. Everybody's got to go to college now, even if a boy doesn't have the mental capacity to take advantage of it—even if a girl knows she's going to get married right away.

"If a man doesn't go to college, how can he face his fellow man? It's un-American not to go to college.

**"And that brings up another thing. I disagree with Admiral Rickover in his attitude about the 'gifted child.' Rickover wants to take the cream of every class and shoot them off into special schools and presumably later into space. What kind of humanity is that?**

"When I taught school, there were smart kids and not-so-smart ones. I appointed the smart ones as deputies to help the other ones along—told 'em it was their responsibility to see that their less-brilliant friends understood the lessons and passed the course.

★ ★ ★

"My theory was that the gifted kids have a responsibility to use their gifts to help another human being. They took the responsibility and liked it.

**"Maybe I didn't teach double-object pronouns as well as somebody else, but I taught something more important: Responsibility to other people.**

"But that's not the way it's done any more. Now they give medals to the kids with brains, and self-consciousness to the kids who don't get medals, and not enough love to anybody. And what happens?

★ ★ ★

"Well, I'm a kind of unfrocked social worker and I often make visits and put on shows for prisons," concluded Sam.

**"They have big, expensive staffs at these prisons now to analyze what made the inmates prisoners.**

"And when the staffs get finished analyzing, they find they've got to try to patch up what was done to a man who became a criminal at the age of 4, or 6, or 10.

★ ★ ★

"No man becomes a criminal at 40. He becomes one, without love or ethics, when he's a kid."

*Could Isolate Peking*

# K in Germany May Spell Red Shift

By PHIL NEWSON
UPI Foreign News Analyst

Notes from the foreign news cables:

Communist split?

★ ★ ★

Word from Moscow is that Nikita Khrushchev's trip to attend the East German party congress may mark a turning point for the Communist movement.

NEWSOM

When Khrushchev packs up to go home, he may leave behind him the gravest split in world Communism history if, as expected, he uses the East Berlin platform to launch a concerted drive to isolate Peking from the rest of the Socialist bloc.

**The Moscow betting is that Khrushchev wants to use the East German meeting as a sort of stacked - in-his-favor substitute for the world Communist conference proposed by the Chinese.**

If so, it would be expected that the Berlin talks will result in a succession of position statements by all Khrushchev's allies designed to show how little support Peking really has.

By implication, the Soviets have dared the Chinese to come and talk it out.

But the Kremlin has made clear that it is not looking for compromise but for unconditional Peking surrender.

Macmillan strategy:

**Some observers in Rome now are reading into British Prime Minister Harold Macmillan's visit to Italian Premier Amintore Fanfani next month as a move toward an Anglo-Italian "special relationship" to match the Bonn-Paris "Axis."**

The reasoning is based on Italian backing of Britain's bid to enter the Common Market, Britain's need for this support and Italian fear of being submerged in Europe by Franco-German power politics.

★ ★ ★

The Italian government has allowed word to leak out unofficially that Italy might seriously consider pulling out of the market if the British bid fails.

De Gaulle again:

French officials are expressing growing skepticism about the prospects of agreement on Britain's entry into the Common Market.

★ ★ ★

They say there is no chance of President Charles de Gaulle backing down from his position, which is that he does not care much either way but if Britain joins she must subscribe fully to the existing "club" rules.

Politics:

Britain's opposition Labor party is trying to whistle in the dark but is worried seriously about its leadership.

**Despite the soothing words, Socialist leader Hugh Gaitskell is seriously ill.**

Not since they were ousted from power in 1950 has Labor stood such a good chance of beating the conservative government of Prime Minister Harold Macmillan.

★ ★ ★

But without Gaitskell, their only well-known personality generally acceptable to right and left wing factions, the picture changes.

MIGS for Egypt:

Western intelligence sources claim that the Russians recently delivered 60 MIG fighters secretly to the Cairo government.

★ ★ ★

The planes, believed to be MIG-21's, were said to have been shipped in crates and assembled secretly at an airfield. The MIG-21, called "Fishbed" in NATO terminology, is supersonic.

## Malaya Railway Strike Settled After 3 Weeks

KUALA LUMPUR, Malaya (AP)—Malaya's biggest industrial dispute ended today when the railwaymen's union, which claims 14,000 members, called off its three-week old strike which had crippled the national economy.

The hitch had been over terms of retirement benefits. No details of the settlement were disclosed.

# Sponsor Telephone Bridge Fund Project

Telephone bridge promises to hold the attention of many area residents Jan. 30 at 2 and 8:30 p.m.

Sponsored by the University of Michigan Alumnae Association of Birmingham, the game is the organization's money-making project of the year.

★ ★ ★

Some twenty games have been played annually. Proceeds help pay tuition and other expenses for eligible University of Michigan students.

At present, the organization of some 125 members supports six students with full tuition scholarships. Two other students have also received $50 recognition grants.

Foreign students temporarily short of funds may also contact the club.

★ ★ ★

Among those hosting parties will be Mrs. Marcus Cunningham of Brady Lane. Dr. and Mrs. Cecil Conrad of West Square Lake Road, Mr. and Mrs. Richard Fischer of Lahser Road, Mrs. J. H. Murphy of Bonnie Briar Road, and Mrs. Neil Hyde of Tilbury Road.

★ ★ ★

More than 40 prizes will be awarded table winners. Two mystery prizes will also be given away.

Anyone wishing to make a contribution to the fund or desiring more information about the party, may contact Mrs. Fischer or Mrs. Fred Gould of Monterey Court.

The University of Michigan Alumnae Association of Birmingham also has an "Operation Friendship" program enabling foreign students to stay a weekend with Birmingham-Bloomfield area residents.

Last fall, more than 100 students from some 40 countries spent time with these families.

# You'll Have to Use Care in Visiting

By The Emily Post Institute

Q: Several weeks ago my mother-in-law had a stroke and is a semi-invalid.

After she became ill it was impossible for her to stay alone so her daughter and son-in-law took her to live with them.

They have a big house, whereas we have only a small apartment. My sister-in-law and I never got on very well and she made it quite plain that I am not welcome in her house.

I would like to go and visit my mother-in-law occasionally as I am very fond of her. Would it be proper for me to go to my sister-in-law's house knowing that I am not welcome there?

A: Under the circumstances, the best plan would be to have your husband arrange with his sister to call him when she will be out of the house so that you can go to visit his mother while she is not there.

★ ★ ★

Q: I am going to have some informals printed and I would like to know if it would be proper to have our names appear on them as Ethel and Henry Brown or Mr. and Mrs. Henry Brown.

These will be used mostly for writing informal invitations to parties.

A: To be correct, your names should be printed Mr. and Mrs. Henry Brown and not Ethel and Henry Brown.

★ ★ ★

Q: When two unmarried couples go to the theater together, is it correct for the two girls to sit next to each other with a man on either side or should the foursome be seated alternately?

That is, girl, man, girl, man?

A: They should be seated alternately.

★ ★ ★

Q: A friend and I have had several heated arguments as to the propriety of a young woman's accepting a valuable ring from a man.

I believe that such a present should not be accepted unless the ring is an engagement ring.

A: No young woman can properly accept a ring of value from a man except as an engagement ring.

She may wear a ring of his, as many school and college girls do, and even this means that she is his "best girl."

The actual giving and receiving of a ring has always been taken seriously.

Who pays for what at the wedding? The new Emily Post Institute booklet entitled, "Wedding Expenses," answers this question in detail. To obtain a copy, send 10 cents in coin and a self addressed, stamped envelope to the Emily Post Institute, in care of The Pontiac Press.

Five units met last week to make layettes and collect clothing for children up to 12 years of age. The clothing is to be sent to the Lutheran Social Services of Michigan, in Detroit, where the need is acute.

Sarah Unit met with Mrs. Preston Green of Forest Avenue and her cohostess, Mrs. Waino Lehto. Mrs. Tiobo Maki gave the Bible study.

Mrs. Valentine Yanuszeski was hostess to 12 members of the Naomi Unit in her home on Avery Street.

Mary Martha Unit met at the church with Mrs. John Goshen and Mrs. Bea Stevens serving as hostesses. All the members participated in the Bible study.

Mrs. Larry Benscoter gave the Bible study to Rebekah Unit in the home of Mrs. Harry Drussels.

## *It's Fitting Idea*

Last week the Pontiac Press gave you a preview of the spring fashions for 1963.

★ ★ ★

If you are planning now for your spring wardrobe, remember one thing. Those latest fashions will look only as good as the figure under them.

If your figure is not all it should be or if it is MORE than it should be, now is the time to start doing something about it.

Josephine Lowman's eight-week reducing program begins today in The Press.

DON'T WAIT TOO LONG

If you do not have a bathing suit figure, better plan on following her column.

Trying to get that figure after the suits are in season is a little like closing the stable door after the horse has been stolen.

★ ★ ★

Now is also the time to start pampering yourself.

Here are a few morale builders for the beginning dieter which are inexpensive but effective. Start taking a few minutes out of each day and devote them to a simple beauty routine.

After the family has left for work or school, take ten minutes to do some brisk exercising. Dieting alone will not make firm muscles.

BATHE FOR BEAUTY

Give yourself a pedicure. Take a bath — not just for the sake of being clean but to give yourself a real beauty treatment.

Start out by applying cleansing cream to your face. The steam from the hot water will open pores and aid cleaning.

Leave this on as you take your bath, which should be loaded with scented bubble bath.

Follow the bath with an all-over body lotion. Clean your face and apply an astringent or dry skin cream, whichever is needed.

Try out new hair styles and new make-up ideas. Don't be afraid of a change. Even the most beautiful women in the world need a little change now and then.

Complete your beauty routine with whatever purchase the budget will allow.

A new pair of gloves, new shoes, or a new hat can perk up your wardrobe and give you a lift.

BEST GUARANTEE

But the best guarantee for losing weight is to buy your Easter outfit now, in the size you plan to be by the time Easter rolls around.

Any woman with a frugal bone in her body would HAVE to lose weight to get into the Easter outfit and not waste all that money!!!!

## Tell Nurses About Role in Disaster

"Your Role in Disaster" is Tuesday evening's topic for the Oakland County District Nurses' Association meeting in William Beaumont Hospital, Royal Oak at 7:30.

Donald Millar and Mrs. Marie Rodriguez, RN are guest speakers for the slide-discussion on medical self-help.

Mr. Millar is the executive director of the Oakland County American Red Cross Unit. He was formerly with the Wayne County unit.

Mrs. Rodriguez is civil defense chairman for the District Nurses' Association. She is also chairman of the state committee on nursing and national defense and serves as nurse adviser to the state medical committee on disaster planning.

## *Class of 1958 Plans Fifth Get-Together*

Pontiac Central High School, class of 1958, will hold its fifth reunion at Hawaiian Gardens, Holly, Feb. 9.

Planning the buffet dinner and program are former class president Mrs. Charles McMahon and treasurer Mrs. Ray Oates; also, Mrs. Joseph Guinn, Mrs. Archie Flanagan, Mrs. Lynn Neeb, Marva Lowe, Mrs. Charles Law and Richard Elsholz.

Interested parties may contact the above committeemen for further information.

## *Jack Horners Are Wed at Methodist Church*

Dr. Milton H. Bank officiated at the marriage of Judith Lynn Hewett of Mohawk Road and Jack A. Horner, Saturday evening in the Central Methodist Church.

★ ★ ★

Parents of the bridal couple are Grant F. Hewett, Kalamazoo, and Mrs. Irene L. Morris, Flint; Mrs. George A. Horner, Keego Harbor and the late Mr. Horner.

For the small family ceremony, the bride chose floor-length white satin styled with Chantilly lace panels and a short veil of silk illusion with crystal tiara.

A colonial arrangement of white carnations rested on her white satin Bible.

★ ★ ★

Assisting the couple were Mrs. Horner, the bridegroom's mother, Mrs. Adelino Martins, Richard A. Martins, best man, and Ronald McDonnald, groomsman.

★ ★ ★

After a reception in the Horner home, the couple left for a honeymoon.

Mr. Horner attended the Sherwood School of Music, Chicago, and his bride is a former member of the Flint Symphony Orchestra.

They will live in Keego Harbor.

## *Hold Bible Study at Get-Together of June Group*

Some 30 members of the June Group of the First Presbyterian Church attended the January luncheon on Friday. Mrs. M. N. Benson, luncheon chairman, was assisted by Mrs. R. C. Cummings, Mrs. Elmer Reynolds and Mrs. Charles Sink.

Mrs. Asa L. Drury of Birmingham, who will be February hostess, led the Bible study from the book titled "One People of God." Mrs. Clare Cummings and Mrs. Howard Marsh gave the national missions study concerning the Korean people and their culture.

Guests of the group were Mrs. Robert Rowley and Mrs. Laura Doremus.

## Announce Birth

Mr. and Mrs. John P. Niggeman Jr., of Dobbs Ferry, N.Y., formerly of Pontiac, announce the birth of a son, Stephen John. Grandparents are Mr. and Mrs. John P. Niggeman of Pontiac and Mr. and Mrs. Gilbert Smith of Caro.

The boy was born in the Tarrytown, N.Y., hospital.

## *Teacher's Worth Plenty*

By ABIGAIL VAN BUREN

DEAR ABBY: I, too, am "Irritated" with a school teacher who punishes the entire class when she doesn't know who is guilty.

ABBY

It's time we investigated our school teachers. What other job starts at 9 a. m. and ends at 3 p.m. five days a week?

Who else gets a week's Easter vacation and two weeks at Christmas and THREE MONTHS' paid vacation in the summer? No wonder everyone wants to go into the teaching profession.

I. M. WISE

DEAR WISE: Sorry, but you are not "wise" — you are otherwise. A good teacher's working day starts well before the first bell and lasts long after her pupils (and often their parents) are snoozing.

Most are required to use summer months for added study (at considerable expense). And many teachers (of both sexes) have financial responsibilities few know about.

A good teacher is worth more than she earns. And the really poor ones don't last long at any price. You're down on what you're not up on, friend.

★ ★ ★

DEAR ABBY: Why do people charge so much for baby-sitting? It's not hard work and doesn't require any brains.

I offer to baby-sit free for some young couples who can barely scrape up enough money to go out, let alone pay a sitter.

What happened to the spirit of giving?

FREE SITTER

DEAR SITTER: That's a good question. I think it vanished about 23 years ago. That's the last time our milkman gave my mother a calendar for Christmas.

DEAR ABBY: After 10 years of marriage and four children, we were divorced. My ex-husband wanted me and the children back so I went back to him and we raised the children together.

They are all married with families of their own now. No one knows that the Mister and I never renewed our marriage vows.

So where does that leave me legally? Evertything is in both names (property and insurance) but I have not been his legal Mrs. for 25 years.

We can't get married again because a public notice would be disgraceful, as everyone took us to be married all along. Can you give me some advice?

DIVORCED BUT "MARRIED"

DEAR DIVORCED: Your clergyman can marry you privately and quietly, and file it in the church records.

This is a LEGAL marriage and no one need know that you have not been legally wed all along. Good luck and God bless you.

# Now's the Time to Reduce

By JOSEPHINE LOWMAN

A new year! A new chunk of life! A new chance! Old 1962 is gone but new 1963 is vibrating in our hands this very minute. What are we going to do with it?

**Well, I know what a lot of women are going to do with and in it. They are going to lose unwanted pounds which have been sneaking up on them for some time and really ganged up on them during the holidays.**

How many of you have recently thought of said something like this: "Now that the holidays are over, I must get busy and do something about my weight immediately"?

★ ★ ★

Immediately is now! In just eight weeks from now you can lose from 15 to 20 pounds and greatly improve your hair, complexion and health.

**Eight weeks is such a short time to invest in yourself, especially when you know you can reach certain goals by then.**

It is so easy to let time slip by, to put off from day to day things you really want to accomplish, things which are important.

We just have to learn to take time by the throat and make it do what we want.

★ ★ ★

This week I am introducing my new Eight-week beauty improvement plan. You do not have to go to a salon in order to treat yourself to a redoing. You can do it right at home.

**START TODAY**

Count to 1,200 — calories, that is.

Then stop — eating, that is.

The BIP 8-week routine starts for you when you cut to 1,200 calories a day. Then I'll give you some other suggestions.

**For the next eight days I will be giving you information you can use and directions you can follow to achieve the glad results in the next eight weeks.**

★ ★ ★

Do you want to join thousands of other women who are going to look a lot prettier and feel a lot better at the end of my plan?

**If so, all you have to do is to read what I write and put what you read into practice.**

Most of the women who join this plan wish to lose weight. My BIP (beauty improvement plan) routine gives you the direction you need for reducing and also gives you help if you are underweight, if your figure is out of proportion or if you just wish to improve generally.

Crater Lake, Ore., deepest lake in the United States, measures 1,932 feet, the National Geographic Magazine says.

PERRY PHARMACY'S
MEDICAL MIRROR
Better Health Through Knowledge

**CANCER**

***Q. I have rectal polyps. One doctor advised surgery—another said surgery wasn't necessary. Who's right?***

A. There are two schools of thought. Some doctors take the stand that noncancerous polyps of the colon and rectum are likely to become cancerous, others believe that the dangers are slight. Both views can be supported by medical evidence. Recent studies indicate, but do not prove, that rectal polyps are no more dangerous than polyps in any other location. However, one rectal specialist recently said that if he had polyps he would want them destroyed or removed — just in case. This might be best.

**VINEGAR AND HONEY**

***Q. A medical book I have recommends one tablespoonful of apple cider vinegar and one tablespoonful of honey in a glass of water three times a day as a health drink. What is this good for?***

A. We haven't the slightest idea! Not many doctors would object to a salad dressing prepared with apple cider vinegar or to honey on toast, but few indeed would attribute any special health properties to either vinegar or honey.

# How Far Can a Couple Travel for $400?

By MARY FEELEY
Consultant in Money Management

Dear Miss Feeley:

We're about to take off on $400 ride, courtesy of the Internal Revenue Service.

It's the rebate we got from our income tax return.

Just ambling about the country in our car, how far do you think we can get?

Mrs. E. L. L., Atlanta

★ ★ ★

Dear Mrs. L.:

I'd say you'll probably go broke the 13th day — so get back home the night of the twelfth.

The American Automobile Association sets up a sample travel chart for two people, based on 300 miles of daily travel, with the car averaging 15 miles per gallon. Daily items are as follows:

**$10.50 for meals and snacks; $9.50 for lodging; $7 for gas and oil; $2 for tips and miscellaneous.**

In addition, you'd better allow a minimum of $4 a day for amusements, admissions to places of interest, souvenirs, etc.

That adds up to $33 a day, or $396 for twelve days. If all goes according to plan, you should make home base with $4 to spare for the piggie bank.

★ ★ ★

Dear Miss Feeley:

My husband and I made our wills some years ago, when our financial status was considerably smaller. His will makes provision for the children.

**Now I'm told we ought to bring those wills up to date. A friend of the family mentioned something about the "Two Trust plus Gift Plan."**

Can you tell me more about this?

Mrs. Edward E., Chicago

Dear Mrs. E.:

The Two Trust plus Gift Plan calls for the establishment of two trust funds by your husband's will.

One trust, qualifying for the marital deduction should be in an amount sufficient to take full advantage of that deduction. The other trust would include the balance of the estate.

**The income from both trusts would be payable to you while you live, and, in addition, the trustee could pay principal to you if you need it.**

Upon your death the children would receive the principal of both trusts.

This plan could also include your husband's putting 25 per cent or more of his property in trusts for his children.

Depending upon pertinent facts, a gift tax might or might not be payable, but if it would be, the amount would be small compared to the estate tax savings which can be anticipated.

If the size of your husband's estate is around $100,000, savings of $8,229 could be obtained if you and he decide to change from the outright bequest plan you now have to the Two Trust plus Gift Plan.

I suggest you discuss this in more detail with the personal trust division of a commercial bank.

(You can write Mary Feeley in care of The Pontiac Press. She will answer in her column questions of widest interest.)

# Distance From Parent Isn't Independence

By MRS. MURIEL LAWRENCE

Dear Mrs. Lawrence: I'm 26 years old and have lived with my mother and aunt since my parents were divorced years ago.

**There's a girl I want to marry, but though my mother knows this she doesn't seem to understand that I want to leave home.**

She is a good woman; she has worked hard to educate me. I don't want you to think I have anything against her.

It's this house I can't stand. Sometimes I feel it is strangling me.

★ ★ ★

Answer: But mother thinks this house of hers is perfectly satisfying to you, doesn't she? O.K., you disagree with her.

It is now your obligation to know that you disagree with her on even more important matters.

**A young adult struggling for independence from mother often imagines that he is struggling for physical distance from her. This is not the case.**

What he is struggling for is the self-trust that will enable him to hold different opinions from hers —the freedom to question her views of right and wrong, of loyalty and disloyalty.

**If he doesn't get this clear in his head, he may never win true independence from mother. Though he leaves her, marries and has children, he will remain secretly chained to her power to declare him wrong or disloyal whenever he offends her.**

Are you brave enough to walk out on your mother's certainties of right and wrong?

★ ★ ★

That's always the test, you know. It's the test because the young person who has rejected mother's certainties has none of his own to guide him. The test is endurance of uncertainty until we have developed our own views of right and wrong.

**In this trying time of chaos and suspense, a young man like you may need support of his right to question mother.**

So, instead of rushing out to take a place of your own, I'd like you to consider using the money you'd use for rent for professional help.

★ ★ ★

Let's not pretend here. There's a big battle ahead of you. "Good" mothers who have reared children without fathers around are very appealing creatures.

They have usually made it their life's meaning to keep the children comfortable. To leave them calls on the children's deepest strengths.

Good luck.

# Figuring Deductions Time Consuming

*(Editor's Note — This is the sixth of eight articles in the Newspaper Enterprise Assn. Income Tax Primer, for readers who want more information than is supplied in the official instructions.)*

By RICHARD A. MULLENS
and
CHARLES W. SCHOENEMAN
Written for NEA

A great deal of time in filling out your return may well be spent in determining whether you are better off itemizing nonbusiness deductions on page 2 of Form 1040.

Generally speaking, the alternative to itemizing is to claim the standard deduction of 10 per cent of line 9 or $1,000, whichever is less.

**If your line 9 (adjusted gross income) is less than $5,000, then you have technically another alternative — that of using the "tax table."**

(The "tax table," usable only if you do not itemize, allows approximately the 10 per cent of the standard deduction, limited to $500 for such married taxpayer filing separate return.)

To decide whether the itemized or the standard deduction is more advantageous, know what deductions are available to you if you were to itemize.

All interest is such a deduction. Interest on your home loan is an example. Also, interest on your credit purchases is an itemized deduction.

If you are in business for yourself, business interest is deductible, but only on your Schedule C.

MUST OWN LAND

Certain specific taxes imposed on you and paid by you are deductible on page 2 — if not incurred in the operation of your business.

Real estate taxes are deductible, but they must be paid on property owned by the taxpayer claiming deduction. Special assessments paid for local benefits such as sidewalks are not deductible real estate taxes.

To be deductible, real estate taxes must be imposed on all property in the territory subject to the taxing authority.

**Federal gasoline (and jewelry, liquor and cigarette) taxes are NOT deductible as taxes. They may, however, be deducted in certain circumstances as a business expense.**

State gasoline and auto license and annual auto registration fees are deductible. But your auto title fees, auto inspection fees and, of course, fines are NOT deductible. On the other hand, your state or local poll tax is deductible. State and local sales taxes (and similar taxes) are deductible.

**Note: Special tables are available from your local Internal Revenue office for sales tax deduction.**

Medical and dental expenses may be itemized deductions, but generally are deductible only if and to the extent they exceed 3 per cent of your line 9 figure on Form 1040.

Medicines are generally deductible only and if to the extent they are more than 1 per cent of your line 9 figure. And then medicine only becomes part of a medical expense which must exceed the 3 per cent figure.

Taxpayers 65 or over, or with spouses, or dependent parents or in-laws 65 or over are exceptions to these limitations. There is a special IRS form available for use in figuring this — form 2948.

CARE DEDUCTION

One itemized deduction you may overlook is the one for care of children or disabled dependents.

If you are a woman (or a widower or divorced or legally separated man) you can claim up to a $600 deduction for care of persons for whom you are entitled to a personal exemption, and who are either less than 12 years of age, or who are physically or mentally incapable of caring for themselves regardless of age.

**This deduction is only available, if care of the child or disabled dependent is for the purpose of enabling you to be gainfully employed or actively seeking a job.**

You are limited to one such $600 deduction. You are NOT assured $600; you must have expenses of $600 or more to obtain full deduction.

Q — Is damage to your personal car from collision an itemized deduction even though you do not repair the damage?

**A — Yes, it is a casualty loss deduction which can be itemized. But reduce the amount of damage by insurance payments received.**

Deductible loss is NOT the amount of the repair cost; it is usually limited to the decrease in fair market value of the personal car. (It will not be allowed if your willful negligence caused the collision.)

Q — Can a married woman claim a $600 child care deduction?

**A — Yes. But she must file a joint return with her husband for the year. And the amount of the $600 deduction is reduced by the amount by which your line 9 income exceeds $4,500.**

Q — Can a charitable deduction be itemized?

**A — Yes. If you do not claim the standard deduction, you can deduct up to 20 per cent of adjusted gross income (line 9 of Form 1040) for a contribution to any charity or any religious or nonprofit educational, scientific or literary organization.**

You can claim another 10 per cent (of adjusted gross income) if contribution is to a church, an educational institution with a regular faculty or curriculum, a hospital, or to certain organizations engaged in medical research.

Make special efforts to keep canceled checks and other papers on charitable contributions.

## Replace Police Radio

# Only Clothes on Backs Left for Six After Fire

ORION TOWNSHIP — Fire here today leveled the Jess J. Richardson home on Lapeer Road, leaving the unemployed father, his wife and four children with only the clothes on their backs.

Starting from a defective stove chimney, the fire completely destroyed the house at 4825 Lapeer Road, just north of Brown Road.

**Lake Orion firemen brought the flames under control in about two hours, according to Fire Chief Jack Caylor.**

Damage to home and contents was estimated by the chief at $7,000. He said nothing was saved from the home.

NO SHOES

Caylor added that one of the children watched the home burn in his bare feet, his shoes left behind in the flaming structure.

**The family has been on welfare for some time. Richardson and his wife have four children living with them, three girls, ages 6, 15 and 17, and a boy, 4.**

Richardson told Oakland County sheriff's deputies that he was awakened by smoke about 3 a.m. After seeing the blaze he awoke the rest of the family and led them outside.

★ ★ ★

He said the home's contents were not insured.

**The family is now staying with a married daughter, Mrs. Bradley McKay, 4051 Quillen St., Drayton Plains.**

# Home, Restaurant Burn in Southfield

SOUTHFIELD — Two fires which broke out within 3½ hours of each other early yesterday did an estimated $20,000 damage to a restaurant here and forced a family of seven to evacuate its home.

★ ★ ★

Dressed only in nightclothes, Mrs. Carol Derrick and her five children ran outside yesterday morning while her husband called firemen after the blaze broke out in their home at 26850 Emmett St.

**Derrick's face, hair and eyebrows were singed when he opened the door to the flaming utility room.**

Firemen brought the blaze under control soon after arriving at the scene. They estimated damage at $3,500.

NEED ASSISTANCE

Earlier, Southfield fire fighters required assistance from the Franklin Fire Department when they battled the blaze at DeFrancisco's Restaurant, 28815 Northwestern Highway.

**Firemen were hampered by slippery conditions and frozen water hoses as they fought flames at the restaurant.**

They were called out at 5:15 a.m. by a passerby who noticed the restaurant in flames.

★ ★ ★

The fire gutted the dining interior and damaged a subkitchen in the one-story concrete block building.

Firemen had just returned to their station when called out again at 8:28 a.m. to the fire at the Derrick home.

Authorities were investigating the scenes today to determine causes of the fires.

# Boy, 5, Found

LANSING (UPI)—Dennis Newhardt, 5-year-old son of Mr. and Mrs. Alvin F. Newhardt, was back with his family today after nearly 24 hours of fear for his safety.

The boy was reported missing from his home Saturday afternoon. Some 2,000 volunteers searched the area through the night fearing whether the small boy could survive the below zero temperatures and snow-blowing wind.

Police found the youth locked in the closet of a house, where he was put by a 17-year-old girl who lived there.

Police withheld the girl's name because she had a background of mental and emotional disturbances. She was hospitalized under the care of her family physician.

Prosecutor Leo A. Farhat said he was studying the case to determine whether charges would be placed.

## Makes Teacher's Life Easier

# Exercise Calms Peppy School Children

BY LESLIE J. NASON, ED. D.

Some children arrive at school just bubbling over with too much physical energy.

Jim was such a boy. He was so overactive in the classroom he became a real problem for his teacher. Jim found it difficult to concentrate even on things in which he was interested.

DR. NASON

Even one or two children can cause the teacher no end of trouble. Often in desperation teachers send them to the counselor's office so they can get on with teaching the rest of the class. I have known boys and girls who have spent hours sitting in the outer office of vice principals.

In this case, the counselor thought Jim might have a physical problem irritating him and making it difficult for him to go quietly about his work.

**Following the counselor's suggestion, Jim's mother took him to the family doctor. But the doctor found nothing wrong, so the problem was still there.**

Jim was a behavior problem in school and getting more difficult for his teacher to handle.

**Actually, teachers are not in a position to solve this situation. Parents can do more than anyone else to correct such a problem.**

After all, it is the parents' responsibility to teach children courtesy, industry and respect for authority, and to send the children off to school ready to learn.

**NEEDS STRENUOUS ACTIVITY**

I suggest that a child like Jim be required to get up an hour earlier each day and spend the time in some physical activity.

**Have him punch a bag, work out on bars, chin himself a dozen times, or run around the block — anything that lets him work off his excess energy.**

With a little experimenting, parents can determine what is an acceptable amount of strenuous activity. Then let him get cleaned up and send him off to school.

**He should arrive with sufficient calm to better control his own actions.**

Also, in talking with the child, emphasize that he is responsible for behaving properly. If he misbehaves, he will have to take the consequences.

Irresponsibility is a habit of behavior and tends to persist unless firm action is taken. Breaking such a habit comes when the child wants to substitute acceptable behavior and makes a conscious effort toward that end.

**TEACH SELF CONTROL**

Instead of trying to control a child like Jim, we have to help him control himself. Sometimes a quiet talk with the child will make an impression.

**The change probably will come about more readily if accompanied by changing his pattern of activity to include early morning exercises, as I have suggested.**

The results are worth working toward, for the child will be happier.

★ ★ ★

Any child who grows up knowing that he is responsible for his own actions will have a healthier outlook as an adult.

# JACOBY ON BRIDGE

BY OSWALD JACOBY

Except for the fact that all members of the 1963 American team use the 4-3-2-1 point count, as do practically all bridge players in the world, there is slight resemblance between their systems and standard American. Leventritt and Schenken use an artificial club convention based somewhat on the early Vanderbilt Club which is a trifle too complicated for decription in these columns.

JACOBY

One of the bids used by Bobby Nail and my son, Jim, is the ACOL two bid as used by most British players. In this system two clubs is a force to game and other two bids are forces for only one round, but still show pretty good hands.

Jim's opening two spades is an example. He is a trifle too weak to force to game, but certainly has a fine hand. Bobby's three clubs was a positive response and Jim jumped to game to show that his spade suit could walk by itself.

One test of a good partner is ability to make the right bid at the right time and Bobby believed he had enough to invite a slam. He chose five spades rather than four notrump because if Jim should show two aces Bobby would not know whether to bid six.

The five spade bid was just what Jim needed. With solid round control of each unbid suit Jim went to the lay down slam.

# Slate Hearings on Waterford Zoning

By JOE MULLEN

Public hearings on Waterford Township's proposed new zoning ordinance are slated for 7:30 p.m. tomorrow and Thursday at Pierce Junior High School.

**Primary purpose of the new ordinance is to provide greater township control over land use.**

Far more detailed than the existing ordinance, the new one, prepared by township planning director Robert Dieball, is a 90-page text including more than 100 definitions.

★ ★ ★

The present 10-page ordinance contains only a few definitions.

The decision to prepare a new ordinance was made on the realization that the existing one was designed for a rural community and is no longer applicable.

★ ★ ★

Waterford Township, with a present population of nearly 50,000 residents and with prospects of continued rapid growth, has long outgrown the "rural area" label.

**The proposed ordinance is tailor-made for the mushrooming charter township.**

It offers 16 zoning districts compared to the present six to control the type of development that will occur in a given area.

They are: R-1A and R-1B, both single family dwellings; R-2, multiple family; R-3, transient residential; R-4, trailer coach park; RO-1, restricted office; C-1, local business; C-2, general business; C-3, extensive business; RA-1, public recreation.

**RA-2, commercial recreation; M-1, light industry; M-2, general industry; AG-1, general agriculture; AG-2, small farm; P-1, vehicular parking district.**

The zoning map published with the entire text of the proposed ordinance Dec. 19 shows extensive industrial zoning along the southwest side of Dixie Highway from the east part of the township up into the north central section.

★ ★ ★

Though the largest concentration of business zoning is in the Drayton Plains area, the greatest single business-zoned parcel includes the Mall on Telegraph Road and Elizabeth Lake Road.

IN WEST, PART

Most of the agriculture and farm-zoned area is in the west part of the township. However, other large parcels are so zoned, notably just west of the Mall and at the extreme northeast corner of the township.

Under the proposed zoning plan, less land is specified for commercial and industrial development than under existing zoning restrictions.

**Dieball pointed out that most early zoning plans allowed mile upon mile of strip commercial on either side of major or secondary roads in the belief that eventually every lot would be developed.**

This theary has been disproved, according to Dieball, who pointed out that in developed areas blighted land is often found in abundance along major thoroughfares.

"Another false concept employed by early zoners," Dieball said, "was that of earmarking all corners for commercial development.

★ ★ ★

"One of the main problems today is to rezone this land and put it into a classification that will allow its productive use," he added.

Each paragraph in the published zoning ordinance begins with a statement of purpose.

**The statements describe the characteristics of zoning and its specific purposes, and indicate what is intended for that particular zone by the township.**

In commenting on zoning philosophy, Dieball said that the community's health, welfare, safety and convenience are the factors considered.

"The primary purpose of zoning is to bring about orderly physical growth of the community," he said.

Following the hearings conducted by the township zoning board, the proposed zoning text and map will be submitted to the county zoning coordinating committee for review.

**A previous revised zoning ordinance was rejected by the county committee two years ago. The township had no planning director at the time.**

If approved by the coordinating committee, the proposed ordinance will be returned to the township and referred to the township board for its consideration.

Dieball is hopeful the ordinance will be adopted by April 1.

New High in Transactions

# City Banks Top Billion Mark

Commercial transactions at Pontiac banks reached a new high last year, surpassing the billion-dollar mark for the third straight year.

**Business transacted through customers' accounts was better than $100 million above the 1961 total.**

Bank debits to customers' accounts (exclusive of public funds) at Community National Bank and Pontiac State Bank totalled $1,146,305,146 during 1962, according to unofficial figures from both banks.

★ ★ ★

This compares to $1,024,406,968 in 1961 and represents a total increase of $121,898,178.

**Last year's total was highest in Pontiac history. Banks broke the billion-dollar mark first in 1960 when the total hit $1,054,007,517.**

Not only did 1962 commercial transactions set an annual record, but monthly records were broken with considerable ease.

The best month last year and any year was December when debits reached $101,895,069.

**For the first time in Pontiac's history, debits broke the $100-million mark for a single month. That happened in three months.**

**Aside from December, the other $100-million months were August ($100,271,025) and October ($100,380,386).**

The worst month last year was February when debits to customers' accounts hit only $82,751,752. Only one other month, September, was below $90 million.

★ ★ ★

Transactions totaled $90 to $94 million in two months and above $95 million in five.

**In comparison, the best month in 1961 was June ($89.9 million) and the worst, February ($78 million). During 1961, two monthly totals fell below $80 million.**

Of the remaining 10 months of 1961, seven saw transactions total $85 million or better.

★ ★ ★

The monthly average last year was some $10 million above the year before — $95.5 million for 1962 compared to $85.3 million for 1961. Totals were higher for the latter half of each year.

# Pontiac Economy Climbs to Records in December

December was a banner month in a year that saw the Pontiac area's economic climate rise to record highs.

**Business conducted through customers' accounts at Pontiac banks hit an all-time high, breaking the $101-million mark for the first time in history.**

Industrial payrolls showed a $120,000 bulge over the preceding month. Postal receipts showed a big increase over November and were nearly $10,000 over December 1961.

The dollar amount of new construction was unusually high for a midwinter month, due largely to some major alterations and repair projects on commercial establishments.

**Public utilities fared well with gas, electric and water consumption up. Airline patronage was up at Pontiac Municipal Airport.**

The lone decline was in bus riders and that was due largely to the loss of student riders during Christmas vacation.

Figures indicating business trends for December were reported by Community National Bank, Pontiac State Bank, Consumers Power Co., Detroit Edison Co., the Pontiac post office, the city water and inspections departments, Pontiac Transit Corp., North Central Airlines and the Pontiac Area Chamber of Commerce.

# Loss of Incentive Result of NCAA-AAU Feud—Jones

HAYES JONES

BOSTON (AP)—Olympian Hayes Jones of Pontiac and ex-world high jump record holder John Thomas both admitted sadly today that they had lost all desire to compete in indoor track meets because there was no incentive as the result of the NCAA-AAU feud.

★ ★ ★

The indoor season, which is being boycotted by the collegians under orders of the NCAA, opened Saturday night here with the Boston Knights of Columbus Games. A crowd of 7,233 braved foul weather to see the meet.

With the exception of the University of Maryland, which defied the ban, the collegiate boycott was 100 per cent effective. Furthermore, Maryland Coach Jim Kehoe indicated he would continue to enter teams in indoor meets "unless something happens to stop us."

**TIED RECORD**

"Honestly," said Jones, who extended his indoor victory string with a meet record-tying :05.5 victory in the 45-yard high hurdles, "I didn't feel like running. A lot of the athletes didn't feel like running, either.

"Much of the incentive is gone. I know there were a lot of New England athletes lots better than the ones I ran against. This quarrel really hurts."

Thomas, who cleared 7 feet in his first effort of the winter, has used up his eligibility at Boston University, although he has not graduated yet.

"My incentive sure was lacking," he said. "Did you see how few competitors there were? I think I would have done better if I had been pushed. This thing has the athletes caught in the middle."

This marked the 92nd time Thomas has cleared 7 feet or better in the high jump.

The fact the meet was held in spite of NCAA action and turned out some strong performances was hailed as a triumph by Col. Don Hull, executive director of he AAU.

**'THEY FAILED'**

"The NCAA met in Los Angeles this past week with the express purpose of wrecking this meet and the entire indoor schedule," Co. Hull said. "They have failed."

Earlier in the day, the National Indoor Track Meet Directors Association voted to continue the season under the banner of the AAU.

Air Force Lt. Ernie Cunliffe, second to Bill Crothers of Toronto who won the 1,000 yard run in the meet record time of 2:08.6, added his comment to the NCAA-AAU feud:

"It's hurting all track and particularly hurting graduates like me. We won't have any races to run. It's a senseless squeeze."

Amazing Toronto teenager Bruce Kidd turned in the third fastest two miles on the indoor record books with an 8:43.2 clocking including a 0.7 second final quarter.

"He's still two years away from his peak form," said Fred Foot, Kidd's coach.

Kidd said he was surprised he had done so well, particularly because he wasn't pressed. He planned to run about 8:48.

Dave Tork of West Virginia took the pole vault on fewest misses though his rivals Henry Wadsworth and John Belitza also cleared 15 feet 6 inches. This also was a meet record.

Other major event winners include Ira Murchison in the 50 yard dash (:05.5) Yale alumnus Jay Luck in the 600 (1:11.3) and Kansan Bill Dotson in the mile (4:09.9).

# WTHS-Kettering Cagers Clash Tuesday

## Captains Visit Skippers' Gym for 3rd Game

### Contest to Feature Defense vs. Offense in Court Series

The young, cage series between Waterford Kettering and Waterford Township high schools has not progressed to the point where one can use the old expression, "throw away the past records, they mean nothing when these two schools meet."

★ ★ ★

Only two varsity cage contests have been played in the rivalry. Waterford won the first one last year, 56-40, and Kettering bounced back to finish its regular season play with a 56-54 triumph.

**A look at this season's records for the two schools would indicate the followers of both can expect something "new" when the close foes meet tomorrow night at the WTHS gymnasium.**

Kettering, a low-scoring detensive minded quintet, has posted a 3-2 log up to date. It will oppose a high-scoring club with defensive shortcomings.

★ ★ ★

The Skippers have not held an opponent to less than 55 points a contest and are burdened with a 1-5 record as proof. On the other hand, Kettering has averaged only 46 points per game, exceeding a total of 52 only once.

**PRESSING PROBLEM**

The Skippers' offense has hit a 57 per game clip, but is overshadowed by a 64-point defensive liability. Coach Gus Eichhorn wasted no time having his squad practice against a man-to-man defense after Pontiac Northern's press had caused WTHS so much trouble in a 78-68 loss Friday.

**Waterford was on the court Saturday afternoon practicing for an expected man-to-man defense by Kettering. If the Skipper five can take advantage of its scoring threat, Bob Readler, Eichhorn may not have to worry about his defense.**

Readler, 6-4 center, is everaging over the 20 level and the Captains have no one who can match him in height.

★ ★ ★

They will bank on a two-prong offensive attack to counter Readler's scoring. Earl Hook (14) and Bob Bogert (12) have carried the burden for coach Joe Duby this season.

Kettering dropped a 52-39 decision to Rochester last Friday in what was described as its worst effort of the season.

# Howe Increases Shooting; Red Wings Skating Again

DETROIT (AP) — Coach Sid Abel must succumb to hairsplitting and head scratching before discovering any fault Gordie Howe has had in 17 seasons with the Detroit Red Wings.

**This one fault? Howe passes off too much when he should shoot himself.**

Gordie is shooting much more now," said Abel in explaining one of the hottest scoring streaks in Howe's brilliant National Hockey League career.

**SLUMP BREAKER**

Howe scored twice Sunday night —on two dazzling individual plays —as Detroit beat the New York Rangers 4-2. He has seven goals in the last four games. And his scoring has marked an abrupt turnabout in the Wings' long slump that followed their 10-game unbeaten streak at the start of the season.

"Gordie always has had a tendency not to shoot as much as he should," said Abel, Howe's former linemate. "He likes to work it in close and pass off for a better shot. I'd rather he shot more himself."

Howe blasted 11 shots—a whoping amount—at the Ranger goal.

His first goal—after stopping the puck himself and trading passes with Alex Delvecchio—wiped out a 1-0 Ranger lead in the first period.

Howe sent the Wings ahead to stay with his second goal—20th this season—in the second period. He has hit the 20-goal mark the last 14 seasons.

Jean Ratselle and Dean Prentice were the Ranger marksmen. Prentice scored midway in the third period, cutting Detroit's lead to 3-2. But Norm Ullman eased the pressure with Detroit's fourth goal 83 seconds from the end. Val Fonteyne scored the Wings' actual winning goal shortly after Howe's second.

**GOING AGAIN**

"For the last three games, I think we played the way we did at the start of the season," said Abel, whose Wings' were Sunday night's only NHL winner. "We're going again. The victory at Montreal Thursday was the first sign and we played better losing Saturday at Toronto. Sunday we were still better."

★ ★ ★

Montreal tied first-place Chicago 2-2 and Boston deadlocked Toronto 2-2 in Sunday night's other NHL games.

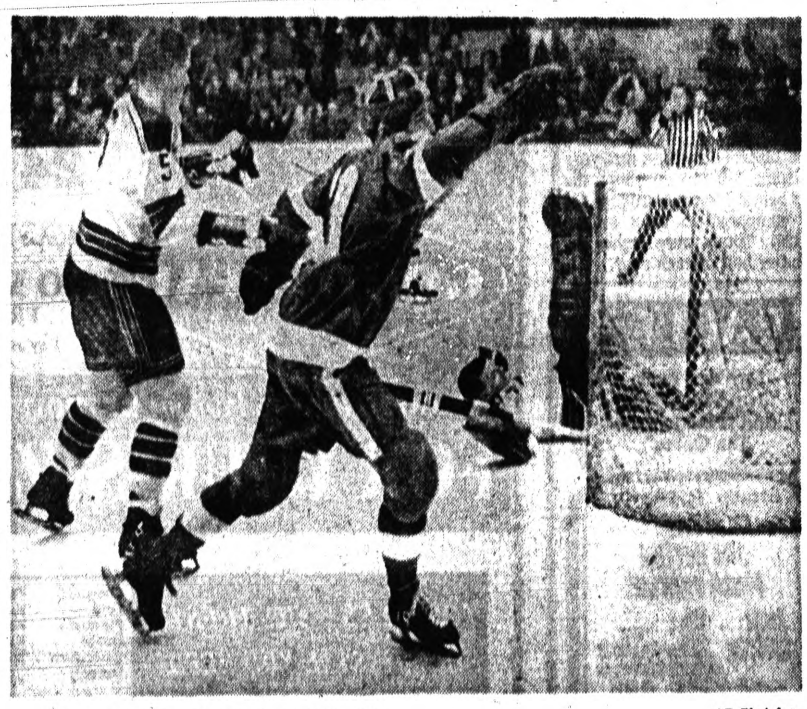
Detroit is faced with playing without goalie Terry Sawchuk for just about the rest of the regular season. Sawchuk was hurt for the third time this season in the 2-1 loss to Toronto. Two tendons in his left hand were severed by Bob Pulford's skate.

Abel said Sawchuk would be unable to move his fingers for a month and would be idle for six to eight weeks. Dennis Rigging, who made 19 saves in beating the Rangers, will continue as Sawchuk's replacement.

**RECALL GOALIE**

But Abel said Hank Bassen will be recalled from Pittsburgh of the American League by Thursday to back up Riggin.

Ab McDonald scored both Black Hawk goals in the tie with third-place Montreal, wiping out a 2-0 deficit. Jean Believeau and Gilles Tremblay scored for the Canadiens.



GUMP UPSET — Val Fonteyne (19) of the Red Wings throws up his arms after scoring a goal against the New York Rangers last night. Goalie Gump Worsley of the Rangers is upended. The Wings won, 4-2.

## Michigan Loses at OSU

# Ga. Tech 5 May Make Coach 'Wreck'

By The Associated Press

If Georgia Tech basketball coach John Hyder survives the season without developing an acute case of the screeming meemies, he should get some sort of an award—and maybe check his physician to make sure he still has a heart.

★ ★ ★

Hyder's Yellow Jackets have run up a spotless 11-0 record, the only perfect mark in the Southeastern Conference. But Alfred Hitchcock wouldn't dare write some of the scripts.

Georgia Tech, No. 7 team in the current Associated Press poll, has won seven of its 11 games by a grand total of 12 points. The Yellow Jackets got past Kentucky, Furman and VPI by one point each, Florida, Georgia and Mississippi by 2, and Alabama by 3. Their latest chiller was a 73-71 decision over Mississippi in overtime Saturday night.

**OVERTIME WIN**

Bill Eidson wrapped that one up when he popped in a field goal with less than a minute left in the overtime.

Tonight, Georgia Tech meets a real toughie in Mississippi State, the co-defending champion, at Starkville, Miss. The Yellow Jackets, with a 2-0 conference record, still trail Alabama, which shows a 3-0 mark. Alabama has a fairly easy assignment in Florida tonight.

★ ★ ★

The Big Eight, Big Ten and Atlantic Coast Conference all have important games tonight, too.

In the Big Eight, Kansas State is at Colorado, a club which has been going through the league as though it's playing a bunch of midgets. The Buffs, shooting for their second straight championship, are 3-0 after their 92-69 victory over Missouri Saturday night.

K-State, always a contender for the league crown, shows a solid 25-8 bulge over the Buffs in their series, but haven't won at Boulder since 1959.

**ILLINI WIN**

In the Big Ten, Illinois, No. 5, in the AP poll and beaten only once all season, will try to run its conference record to 4-0 against Northwestern.

The Wildcats, not one of the Big Ten powers this year, always have been trouble to the Illini at Evanston. In other Big Ten action, Minnesota is at Michigan and Wisconsin at Iowa.

The Illini clobbered Purdue 106-86, Saturday night, while Ohio State, No. 4 in the poll and Illinois' No. 1 threat for the title, had to come from behind to defeat Michigan 68-66 behind Gary Bradds' 33 points.

Wake Forest entertains Virginia in an Atlantic Coast Conference game that's important to he Deacons.

## Ex-PCH Tankers Aid OSU Triumph

Ben Donaldson and Bruce Norvell, sophomore swimmers from Pontiac, helped Ohio State open its Big Ten season Saturday with a 65-38 victory over Wisconsin at Columbus.

★ ★ ★

Donaldson won the 200-yard freestyle in 1:53.7. This distance replaces the 220 and his time will stand as an OSU pool record.

Norvell took first in the breaststroke. He was clocked in 2:13.7.

The former Pontiac Central stars will swim against Michigan at Ann Arbor Feb. 13.

ON THE BALL — Alex Karras (73) of the Detroit Lions recovers a fumble for the West in yesterday's National Football League All-Star game. John Nisby of Washington falls over the Lions' defensive tackle. The East won, 30-20.

## NFL's East Conquers West

# Sherman Defeats Lombardi

LOS ANGELES (AP) — Allie Sherman finally has a victory today over Vince Lombardi, his old New York buddy, even if it took one of Jim Brown's finest days, five fumbles, two dropped touchdown passes and a field goal by a guy with the shakes.

Sherman, young, scholarly coach of the New York Giants, got his revenge Sunday in the Eastern Conference's 30-20 victory over Lombardi's Western Conference stars in the 13th National Football League Pro Bowl All-Star game.

Sherman called it "a great team victory and a well played game under the circumstances." Lombardi, like Sherman a Giant assistant before starting his championship reign at Green Bay, called it a "comedy of errors."

**SLOPPY PLAY**

Most of the 61,374 who watched the sloppy, but exciting struggle at the Coliseum under sunny skies and 60-degree temperatures probably would agree the answer was somewhere in the middle.

On the positive side, the East had the brilliant running of Cleveland's Brown, who proved he's just as good as every by carrying 17 times for a record 141 yards, scored two touchdowns on a 50-yard gallop and a one-yard power plunge and set up a third score with a 33-yard burst through three or four would-be tacklers.

There was the clutch 19-yard touchdown pass from Y. A. Tittle to Pres Carpenter that pulled the East into a 20-20 tie early in the fourth quarter after it blew a two-touchdown lead, and the field goal by flu victim Lou Michaels that snapped the tie. And there was the tremendous defensive play of Gene (Big Daddy) Lipscomb and Jim Katcavage.

But that side of the East's first victory over the West in four years and Sherman's first over Lombardi in six tries since he became New York coach tended to be lost in the shuffle of fumbles by Abe Woodson of San Francisco that cost two touchdowns, a bobble by Johnny Unitas that led to Michaels' field goal, and sure touchdown passes dropped by Gail Cogdill and Ron Kramer of the West.

**COMEDY OF ERRORS**

"It was a comedy of errors," insisted Lombardi. "You can't win ball games on mistakes. I mean when you drop the ball three times in the open, twice when it means sure scores, then you are making mistakes."

"We just handed it to them in the fourth quarter," echoed Unitas, whose passing—including a record 87-yard completion to Cogdill—had rallied the West into the lead on a 17-point third period burst.

The key play came with 6 minutes left, the score tied, and Unitas back to pass. He was hit by Lipscomb and Katcavage, dropped the ball, and Big Daddy plopped his 6-foot-8, 290-pound frame on the football on the West 25.

Michaels, so wobbly that Sherman was reluctant to let him play, kicked a 27-yard field goal three plays later.

On the kickoff, Woodson jitterbugged looking for an opening as he headed up field. He ran smack into Cleveland's Galen Fiss, who separated him from the ball with a ferocious tackle. Dallas' Don Bishop picked it up and raced 20 yards for the clinching touchdown.

"I don't think it was sloppy," said Sherman. "There was some extra hard hitting, some of those guys like Woodson really got hit."

Happiest man was Bishop, who received the game ball while Brown was named the outstanding player for the second straight year and Lipscomb was chosen the top lineman.

Bishop had an uncomplicated explanation of his touchdown run. "Somebody hit him and I just picked up the ball and somebody yelled run," he said. "So I did."

# Tripucka Leads Win, Says He'll Retire

SAN DIEGO, Calif. (AP)—Old pro Frank Tripucka came off the bench Sunday and passed the West team to a 21-14 victory in the second annual American Football League All-Star clash—then said it was his final game.

The 35-year-old quarterback relieved Len Dawson of Dallas in the final quarter with the score 14-14. He cranked up the faltering West players and guided them 89 yards in seven plays to the winning touchdown.

The score was set up on a 49-yard toss to Tripucka's Denver Bronco teammate Lionel Taylor. The same Tripucka-Taylor combination worked on a 20-yarder two plays later for the touchdown.

**EARLY LEAD**

A crowd of more than 27,000 fans at Balboa Stadium watched the West jump off to a 14-0 halftime lead.

West scores came on a 64-yard run by Curtis McClinton of Dallas and an 11-yard pass play from Dawson to San Diego end Dave Kocourek.

McClinton, AFL rookie of the year, was also named outstanding back of the game. The 230-pound fullback was the leading rusher with 94 yards.

He broke through a hole at right tackle on the West's third play from scrimmage, threw off one defender and sprinted for the opening touchdown. McClinton also set up the second West score with a bull-like rush that moved the ball 22 yards to the East 11.

Dawson hit Kocurek on the next play for the TD.

The sputtering East offense—plagued by five intercepted passes—caught hold late in the third period. Quarterback George Blanda of Houston used only four plays to move the Easterners 68 yards to a score.

Enroute he connected with Houston flanker Charlie Hennigan on throws of 48 and 8 yards—the second going for a touchdown.

TOUCHDOWN BOUND — Jimmy Brown of Cleveland breaks away for a 56-yard touchdown run for the East. Bill Forester (71) of the Packers had his hands on the big fullback but couldn't hold him.

Out of the frying pan and into the fire.

This is what Holly's Broncos will go through this week when they attempt to defend first place in the Wayne-Oakland basketball race against two tough opponents.

★ ★ ★

The Broncos play a makeup game at Clarkston Tuesday and then return home to await Friday's invasion by second place Bloomfield Hills.

**Holly found itself in the frying pan last Friday against West Bloomfield, but managed to burn the Lakers 54-50 and gain first place.**

Clarkston's Wolves always give Holly a rough time and Tuesday's tussle should be no exception. Bloomfield Hills will be only a game behind Holly should the Broncos win over Clarkston.

Clarkston has lost by a total of five points to West Bloomfield and Bloomfield Hills. The Wolves, who lost at Milford, must win or share fourth place with Northville.

Two teams that appear ready for better things — Lake Orion and Rochester — play Tuesday at Lake Orion.

A handful of area teams are involved in Tuesday games.

The contests are Birmingham Groves at Livonia Franklin, Anchor Bay at Clintondale, Dryden at Goodrich, Chippewa Valley at L'Anse Creuse, Oak Park at Thurston and Lakeshore at Utica.

★ ★ ★

Four teams are tied for third place and two for second behind leading Ferndale. Only the Eagles will be in the same place — win or lose — after Tuesday's action.

**Birmingham Seaholm and Roseville, in the third place jam, square off at Roseville. Kimball, also third, travels to Port Huron, tied for second with Mt. Clemens.**

The Bathers will be trying to hand Ferndale its first loss at Mt. Clemens and Hazel Park, tied for third, entertains last place East Detroit.

An old jinx returned to haunt Northwest Catholic League leader Royal Oak St. Mary Saturday night when Orchard Lake St. Mary took a 42-35 decision at the RO Kimball gymnasium.

**It marked the 17th time in the last 18 cage clashes between the two schools that OLSM has emerged on top. The Irish had snapped the string with a 40-36 victory in the season's opener.**

It was the first league loss for the Irish.

★ ★ ★

OLSM took the lead at 26-25 and was never headed thereafter, although the Eaglets led only 36-35 with 3:33 left in the game. Frank Rompel and Larry Janiszewski paced the winners with 11 points each.

**Don Wells had 11 for ROSM.**

In another league clash Saturday, Farmington Our Lady of Sorrows avenged an earlier 51-43 loss by smashing Waterford Our Lady of the Lakes, 57-31.

A rash of violations and missed foul shots put the Lakers behind 28-11 at halftime and they never could catch up.

## Player Wins Open

# Positive Thinking Pays

SAN DIEGO, Calif. (AP)—Golf star Gary Player is a positive thinker and proud of it.

★ ★ ★

So today, as the American PGA Champion from South Africa led the golfing nomads to the uncertainties of the Bing Crosby tournament at Pebble Beach, he could reflect on a putt he sank. It won the $25,000 San Diego Open Sunday.

The putt measured 18 feet from the edge of the 18th green and Gary had to make it or go into a sudden death playoff with Tony Lema.

★ ★ ★

Player collected $3,500 for his rounds of 65-65-70-70—270 and missed Mike Souchak's tournament record by one stroke.

He won by one stroke over Lema, with Bill Casper Jr. and Charlie Sifford tied for third at 272.

It was an exacting round for Player. He managed to subdue the always tough Casper in a head-and-head struggle as members of the same threesome.

★ ★ ★

And he did it when Casper finally dropped back with a bogey on the 16th hole.

Still threatening were Sifford and Miller Barber and the all but overlooked Lema, who played well ahead of the others and came in with a 67.

## Church Loop Showdown This Friday

Some of the glamour connected with this week's battle of the unbeatens in the YMCA senior division's church league basketball race was almost tarnished Friday night when All Saints Episcopal extended Macedonia Baptists before losing, 40-39.

★ ★ ★

Macedonia, tied with Trinity Baptist for first place with 6-0, needed two foul shots by Linworth Miner in the last two seconds of play to stay unblemished.

**Bernard Danzie and Roy Hudson with 15 points each helped repel All Saints' bid to move into a tie with Macedonia.**

The other undefeated team, Trinity Baptist, romped past Central Methodist, 41-17, in preparation for the 9:45 p. m. meeting with Macedonia Friday at the YMCA court.

In other activity last week, First Congregational moved into the loop's fourth spot by trimming First Baptist, 56-42. St. Paul Methodist's Roger Wotila hit 20 points to lead his mates to their first win, a 69-15 victory at Oakland Park Methodist's expense.

★ ★ ★

Preceding the Trinity-Macedonia clash this Friday, there will be three other clashes at the YMCA that night. At 6 o'clock, St. Paul will meet Central, at 7:15 First Congregational will tangle with Oakland Park and at 8:30 First Baptist will play All Saints.

# Four Records Broken as Nats Rip Pistons

SYRACUSE, N. Y. (AP) — Syracuse broke four of its all time scoring records in a 148-114 National Basketball Assciation victory over the Detroit Pistons yesterday.

The defeat cost the Pistons one-half game in their battle with the San Francisco Warriors for third place. The Warriors were idle yesterday.

**In other games, the defending champion Boston Celtics toyed with the Chicago Zephyrs, 143-99; St. Louis eked out a 105-104 triumph over Cincinnati, and Los Angeles clipped New York 108-102.**

Records set by Syracuse were their 91 points made in the last half, 52 in the final quarter, making 40 field goals in the second half, and 22 field goals in the fourth period.

The Nats hit of 22 of 32 field goal attempts in the final quarter for .688 per cent.

**HOWELL HIGH**

Seven Syracuse players scored in double figures with Lee Shaffer leading the way with 32 points. Bailey Howell was hit for Detroit with 26 points.

The Pistons led only once in the game, that late in the first period and at the end of the quarter when the Pistons held a 28-25 edge.

## Market Advances Irregularly

NEW YORK (AP)—The stock market continued to advance irregularly in heavy trading early this afternoon.

Gains of most key stocks were fractional. A scattering of specially situated issues made wider advances.

The momentum of the market's four-week rise was still carrying it upward. President Kennedy's State of the Union message was looked upon as providing further incentive to buyers, although some Wall Streeters felt the market has been anticipating it for some time.

**MOTORS STRONG**

Motors were strong, with Chrysler making another new high for 1962-63. Steels, chemicals, utilities, rubbers, and mail order-retails moved up narrowly.

Rails, nonferrous metals, and oils were mixed.

The list was mixed at the opening, then began to move forward even though there was a continued disposition to take profits because of the relatively high level of the market and its prolonged advance.

Chrysler touched a new 1962-63 high of 81½ as it rose well over a point. All other auto stocks made fractional gains. American Motors touching a new 1962-63 high of 19.

**AEROSPACE ISSUES**

Boeing was outstanding among the aerospace issues, gaining well over a point in active trading. Other stocks in the group were unchanged to slightly higher.

## Opening Bond Prices Mixed

NEW YORK (AP) — Bond prices opened the week's trading on a mixed note.

The U.S. government list had a sprinkling of small minus signs and rail bonds showed slight gains among corporates in early transactions.

Over the counter dealers in Treasury securities said that intermediate maturities were mostly unchanged. The minus signs appeared on the long end of the list. Activity was at a minimum.

Industrials and utilities were narrowly mixed in corporate trading on the New York Stock Exchange.

**KILLS ATTENDANT** — Jet, a 125-pound leopard, paces in its cage at the San Diego zoo after having killed attendant James Tuttle. The animal fatally clawed Tuttle, 35, after the man threw the wrong lever while feeding the animals. This permited the leopard to squeeze through its cage door and attack Tuttle from behind.

# Soldier Saved at Sea

NEWPORT BEACH, Calif. (UPI) — A few nautical facts gleaned from casual reading probably saved the life of a soldier adrift three days and two nights in an open, 14-foot boat in gale force winds and towering seas.

**Spec. 3 Gregory S. Morrison, 21, Oakland, Calif., was without food, water or shelter in weather so violent the Coast Guard expressed surprise he was able to survive.**

Morrison was spotted yesterday by a Canadian warship at about the same time a search was being launched by the Coast Guard. He had rented the boat Friday but was not reported missing until Sunday when the owner of the rental firm noted the craft missing.

★ ★ ★

"There were lots of times when I didn't think I'd make it," the slim bespectacled serviceman said. "I'm just grateful to the Canadian ship, the captain and crew. They gave me excellent service."

**Morrison was picked up by the Royal Canadian Navy frigate Beacon Hill, 40 miles off shore between Santa Catalina and San Clemente Islands.**

After a short rest and some of "the best soup I ever remember eating," he was transferred to a Coast Guard cutter for the trip back to shore.

Relating his experience in the open boat Morrison said:

**"I couldn't go to sleep. I had to stay awake to keep the boat pointed into the wind. That was the only way to keep from getting swamped."**

Morrison, an armor specialist, said he had practically no sailing experience "but I did know to keep it pointing into the wind. I knew that from reading."

★ ★ ★

He said he improvised a sea anchor in an effort to halt the drift seaward.

**"I used the live bait tank and a bucket. I drug anchor and even though it didn't hit bottom, it did keep me pointed the right way and helped to meet the waves."**

Morrison's lips were puffed, his eyes bleary and his face marked from exposure, but otherwise he appeared in good condition even though he had nothing to eat.

"I wasn't hungry," he said. "The heavy seas took care of that."

# Syria Closes Two Borders

## To Shut Out Lebanon, Jordan After Riots

DAMASCUS, Syria (UPI) — Syria closed its borders with Lebanon and Jordan today following weekend riots in two Syrian towns.

**Syrian officials blamed supporters of United Arab Republic President Gamal Abdel Nasser for the riots.**

Damascus newslapers said one person was killed and 13 injured yesterday in rioting in the south Syrian village of Alsanamin.

The reports said 11 others were hurt in riots Saturday in the nearby town of Dera.

★ ★ ★

The border closing was ordered after weekend sessions of the Syrian National Security Council under President Nazem Kudsi.

**Syrian Interior Minister Aziz Abdul Karim said 16 persons were arrested in yesterday's rioting.**

He said the government would put down any riots incited by Nasser supporters.

In Cairo, the newspaper Al Akhbar said the Syrian army declared a state of emergency following pro-Nasser riots in which "tens of persons" were killed or wounded in street battles with police.

## Wants More Red Pigs to Honor Party Congress

BERLIN (AP)—Charlotte Buerger, master pig breeder on a Baltic island collective farm, says she is going to make her sows produce at least one piglet more per litter in honor of the East German Communist party's sixth congress.

ADN, the East German news agency, said Charlotte's sows usually produce at least 19 piglets at a time. The agency didn't explain how she would increase production.

The wall fell on a fire truck, and two firemen were reported buried in the debris. Flying bricks and glass reportedly injured several spectators. The blaze destroyed the St. Elizabeth's parochial grammar school.

No Papers, Customers Vanish

## Blackout Clouts NY Business

*(Editor's Note — Phil Simon owns a luncheonette, typical of thousands of such small stores in the New York City area. They lean heavily on daily newspaper sales and the newspaper blackout has been a costly blow.)*

By ED DENNEHY

NEW YORK (AP)—"My business is off $600 to $700 weekly. "Because I have almost no evening papers, most of my regular customers have lost the habit of dropping in afternoons and evenings. Cigars, cigarettes, candy, soda fountain, short order meals—all these are off.

★ ★ ★

"You can say I'm singing the blackout blues, the newspaper blackout, that is. I've had a month-long headache, and I'm not kidding. Some of the stores like this have had a 50 per cent drop in business. Luckily, I haven't been hit that bad."

Phil Simon is proprietor of a small luncheonette located in the Queens section of New York City. He usually has a quick smile and a bright quip. A frown often creases his face these days as he tries to cope with the effects of the newspaper strike. Like other dealers he has been able to get deliveries of Newark and Philadelphia papers and this helps.

The luncheonette is in an excellent business location at the eastern end of the 6th and 8th Avenue subway system that traverses the city. Thousands of commuters come by car or bus from scores of suburban Long Island communities to get the subway for the boring, jolting ride into Manhattan.

"Before the strike, they would buy a New York paper or two to make the 30 to 45 minutes spent on the subway an interesting period," Simon said. "Many would break the trip from Long Island by having breakfast or a cup of coffee here. On the way out they'd get their smokes for the day. Many people now dash right into the subway without stopping."

Simon was interrupted by a well-dressed man who picked up the Newark Star-Ledger and handed him a nickel.

"Star-Ledger's a dime," Simon said.

"A dime? What are you doing—profiteering?"

"Listen, go someplace else. They'll charge you 15 cents. I make no profit selling out-of-state papers for 10 cents. I'm doing my customers a favor," Simon said.

"Aggravations like this all day long," Simon sighed. "I'm only able to get a limited number of out-of-state papers from these guys who buy them at the plants and bring them into the city.

"Some of my customers already they're experts on editions of the Philadelphia Inquirer, the Newark Evening News, the Star-Ledger. They'll say, 'Hey, that's an early edition. I want a later one.' I tell 'em, 'Brother, take it or leave it. It'll go fast.' People are so hungry for good papers that I think the Boston, Chicago or West Coast dailies would move quickly, if I could get them.

Simon's spot is only a few blocks from the Long Island Press building. Ironically, he can't get deliveries of this daily paper. The Press is publishing editions only for Nassau and Suffolk counties out on Long Island. Newsday, published in suburban Garden City, is delivered to the store. But Simon is able to get only the same amount he received daily before the strike started.

What's his biggest single problem?

"The loss of the New York afternoon papers. I sold 700 copies of the Journal-American, Post, Press and World Telegram & Sun nightly. Now I get 50 copies of the Newark Evening News from the dealer. The store often is as quiet as a morgue from 3 p.m. on. To cut the overhead, I've had to lay off one man, reduce another man's hours and close up earlier."

## Actress Gives Suggestions for Keeping Hubby Happy

By EARL WILSON

NEW YORK — Should an American wife be willing to bathe her husband's back — as the Japanese wives do so cheerfully?

Miss Martha Hyer, once of Fort Worth and Dallas, now of Hollywood and the world, says they should. Furthermore, the American wives should also be like the European wives — they should not be "over-possessive," and when a husband stays out late at night, they should not even ask, "Where have you been until this hour, darling?"

WILSON

"American wives," says Miss Hyer, "should absorb some of the fine qualities of wives in other parts of the world.

**"Neither the Japanese nor the European wives are too inquisitive," she maintains, "They have found that you hold the tightest control with the loosest rein. If a husband must prove to you that you're not going to control him, he will!"**

★ ★ ★

Miss Hyer, who's traveled around the world making films, is embarking on a campaign. She learned about the Japanese backwashing while doing "A Girl Named Tamiko" in Tokyo and Nikko.

**"This is quite a mixed-up wife you're going to get," I suggested.**

**"She SHOULD be a combination!" said Miss Hyer, who, herself, is not a wife.**

**"I'm looking for just the right man," she says. "I haven't found one — but I'm having a lot of fun looking."**

"And the type of man you are looking for . . . ?"

"I like my wines foreign and my men domestic," she said.

"Domestic?" I inquired.

"Not domestic in the sense that they wash the dishes for you," she shouted. From this country — ALL AMERICAN!"

★ ★ ★

**WISH I'D SAID THAT:** "Any man who thinks he is an average man is above the average."

**EARL'S PEARLS:** "There used to be the white lie — and now there's the Red one."

"Television was going to replace radio but it didn't. What it replaced," says the Fredonia, Kan., Herald, "was housework" . . . **That's earl, brother.**

Weekend Toll Widespread

## 4 Die in Major U.S. Fires

NEW YORK (AP) — Major weekend fires caused at least four death and did widespread damage in the nation.

Two firemen died in Philadelphia when a wall of St. Elizabeth's School, a parochial institution, collapsed and crushed them as they tried to extend a ladder.

**One man was killed and four other persons were injured as fire swept through a two-story frame house in Arlington, Va., a suburb of Washington, D.C.**

At Pine Bluff, Ark., a construction worker was killed and another was reported missing in a fire at the International Paper Co. plant.

At Peoria, Ill., fire destroyed laboratories, a theater, records and other facilities in Bradley Hall, a building on the Bradley University campus. The building was closed at the time the fire broke out, and no one was injured.

★ ★ ★

At Salt Lake City, Utah, fire destroyed one of the nation's largest collections of theatrical costumes, at the Salt Lake Costume Co. Among the lost treasures were said to be a dozen Civil War cavalry uniforms and personal possessions of Brigham Young, Mormon leader.

**At Shenandoah, Va., three 2-story buildings were burned out in what officials called the Page County community's worst fire in 35 years. An exploding oil stove was believed to have touched off the fire, which did damage estimated at $100,000.**

At Tuscola, Ill., three firemen were injured in a fire that destroyed three 2-story brick buildings in the business district. Estimates of damage ranged up to $300,000.

★ ★ ★

At Medina, N.Y., fire did an estimated $125,000 in damage to a six-lane bowling center.

At Norman, Okla., fire destroyed the Pi Lambda Phi fraternity house and students' personal belongings. **Fifty-eight University of Oklahoma students were driven from the ultramodern, two-story building. The loss was estimated at $250,000.**

## Kennedy Checks New Home on Short Weekend

WASHINGTON (AP)—President Kennedy spent a short weekend relaxing in the Virginia hunt country and, with Mrs. Kennedy, checked on the progress of construction of their new home on Rattlesnake Mountain.

★ ★ ★

After attending Mass Sunday in weather so raw the President wore a topcoat, the Kennedys went to inspect their new rambler-type house, about five miles from the rented estate they occupy while at Middleburg.

★ ★ ★

The President, Mrs. Kennedy and their children returned to Washington by helicopter Sunday night.

## Dixie Negro Solon to Attend Festivities

ATLANTA (UPI) — **The first Negro elected to the Georgia Legislature in more than 50 years said yesterday he plans to attend a formal ball Tuesday night as well as other inaugural activities of the incoming state administration.**

**Leroy R. Johnson, 34-year-old Atlanta lawyer elected to the state senate, also said he hopes his presence as a Negro in the upper chamber will open up lines of communications between the races.**

About 8,000 invitations to the ball at an Atlanta hotel have been sent out, along with a six-page inaugural program in white and gold.

## Printers Support Leaders on Continuation of Strike

NEW YORK (AP) — Mediators met with newspaper publishers and striking printers rallied in support of their leaders Sunday in the 37th day of the city's costliest newspaper strike.

★ ★ ★

There was no clue to what the publishers of the nine shut-down dailies and federal mediators said.

The strikers at a mass meeting gave loud approval to continuance of the strike.

They loudly booed the name of retired federal Judge Harold R. Medina, head of a three-man "board of accountability" which last Friday turned in a report blaming the lengthy shutdown mostly on the printers' union.

**SLIGHT CHANGE**

During negotiation sessions Saturday both sides changed positions slightly for the first time since the printers struck four newspapers Dec. 8.

The printers lowered their two-year wage increase demand from $19 to $18 a week, and the publishers moved up from a two-year package offer of $9.20 weekly to one of slightly more than $10, including $8 in wages.

Mediators said they would meet with the printers today, and hoped to set up a joint bargaining session Tuesday.

Meanwhile, the printers union and the mailers union voted $30,000 and $5,000, respectively, to assist "less fortunate" unions affected by the shutdown.

Bertram A. Powers, president of striking Local 6 of the AFL-CIO International Typographical Union, said those attending the mass meeting Sunday voted unanimously to "remain on strike indefinitely until a just contract is achieved."

Powers said the dispute could be settled in three hours of "real negotiations."

**TALK IN CLEVELAND**

In the Cleveland newspaper shutdown, negotiations between the publishers and the AFL-CIO Cleveland Newspaper Guild resume today. Negotiations with Local 473 of the independent Teamsters Union resume Tuesday.

The strike shutdown of Cleveland's two newspapers—the Plain Dealer and the Press & News—is in its seventh week. Wages, working conditions and union security are main issues.

# Advises Soviets to 'Walk the Path of Peace'

WASHINGTON (AP) — President Kennedy called on the Soviet Union today to "walk the path of peace" with free nations.

But he said any Western hopes raised by the increasing strains between Russia and Red China must be tempered with caution.

★ ★ ★

**In his State of the Union message the President coupled his conciliatory bid to Soviet leaders with a sober warning that "I foresee no spectacular reversal in Communist methods or goals."**

He told Congress and the nation in his review of world conditions that the "end of agony" may be in sight in the Congo, and although danger remains in the Cuban situation, "a deadly threat has been removed."

**WINNING COLD WAR**

Throughout his discussion of foreign policy he implied — though he never said it in so many words — that the United States and its allies are winning the cold war at this juncture in history.

**He pointed to Western success in maintaining "the frontiers of freedom from Viet Nam to West Berlin."**

The President said the winds of change are blowing more strongly than ever in the world today.

★ ★ ★

He suggested that the rift in the Communist bloc and shifting world conditions could lead to changes in Soviet policy.

**Declaring that the dispute between Russia and Red China as created disarray in "the Communist empire," Kennedy asked the leaders of the Red bloc to realize that their ambitions for world dominion "cannot succeed."**

Several times he warned that favorable developments in the global struggle must be viewed with caution. He applied this specifically to the row between Moscow and Peking.

"What comfort can we take from the increasing strains and tensions within the Communist bloc?" he said.

**"Here hope must be tempered with caution. For the Soviet-Chinese disagreement is over means, not ends.**

"A dispute over how best to bury the free world is no grounds for western rejoicing.

"Nevertheless, while a strain is not a fracture it is clear that the forces of diversity are at work inside the Communist camp . . ."

**The recent Cuban crisis and Red China's attack on India, contrasting with Western Policies for freedom in Africa and elsewhere, have helped neutralist nations, Kennedy said, "to realize more clearly that the issue in the world struggle is not comunism versus capitalism, but coercion versus free choice."**

Kennedy said that Western Europe "is entering into a new phase of its long and brilliant history."

He said the Polaris rocket agreement which he and Prime Minister Harold Macmillan worked out at Nassau last month "recognizes that the security of the West is indivisible, and so must be our defense."

PRESIDENT KENNEDY

## Asks Record $13.5 Billion

WASHINGTON (AP)—President Kennedy proposed today the biggest income tax cut in history—a $13.5-billion slash to take effect in three annual steps between now and 1965.

Individual taxpayers eventually would save about $11 billion a year under the top priority program which Kennedy unveiled in his traditional State of the Union message to Congress. The rest of the benefits would go to corporations.

First-stage rate cuts proposed for 1963 would total $6 billion — roughly equivalent to the biggest tax reductions of the past.

**Kennedy said he wants individual tax rates whacked from the present range of 20 to 91 per cent "to a more sensible range of 14 to 65 per cent."**

He asked Congress to lower the top corporate rate from 52 per cent to the pre-Korea level of 47 per cent.

★ ★ ★

About one-fourth of the resulting revenues losses would be recouped through tax reforms, Kennedy said.

This lifting of the secrecy wraps from the long-awaited tax package was easily the high spot of the 4,500-word message, broadcast live on all national television and radio networks, in which Kennedy also:

**—Implied the United States and its allies are winning the cold war at a time when Sino-Soviet frictions reveal "the seeds of internal disintegration" in the Communist camp.**

**—Challenged the Soviet Union to make a choice between continued conflict with the West and the "path to peace." The United States is ready for either eventuality, he declared.**

**—Revealed the bare bones of a legislative program which, apart from taxes, ranges from the proposed creation of a domestic peace corps to enactment of the Medicare plan.**

Congress arranged a special joint session in the House chamber to hear the President deliver the annual pace-setting address.

**'FISCALLY RESPONSIBLE'**

Kennedy described his tax package as "a fiscally responsible program — the surest and soundest way of achieving in time a balanced budget in a balanced full employment economy."

Although precise details won't be revealed until later this month, it was apparent the tax bill has been carefully tailored in an effort to meet anticipated opposition from congressional conservatives.

★ ★ ★

Besides calling for gradual rate cuts, to lessen the adverse impact on federal finances, Kennedy advanced two companion proposals that would aim in the same direction:

**1. The enactment of tax reforms recouping $3.5 billion of the revenues that would be lost through lower rates. Reforms would begin going into effect next year.**

**2. A plan to gradually speed quarterly tax payments by large corporations to boost revenues by $1.5 billion without**

## State to Hear Insurance Hike Pleas Today

**Blue Cross-Shield Try for $70-Million Rise; Past Refusals Noted**

LANSING (AP)—Michigan Blue Cross-Blue Shield makes a pitch to the state insurance commissioners today for rate increases totaling an estimated $70 million over the next two years.

State Insurance Commissioner Sherwood Colburn said he was scheduled to meet today with officials of Blue Cross-Blue Shield.

**Colburn declined official comment but pointed out that in the past he has gone on record against "arbitrary or capricious" rate increases for the two plans, and has warned the insurance companies to make certain changes in their operations if they want rate hikes.**

The prepaid health insurance plans were to file formal applications for the increases today.

★ ★ ★

The hikes were expected to average 27 per cent over the period ending in March 1965.

**Blue Cross said it did about $150 million in business a year and Blue Shield reported about $110 million.**

William S. McNary, Blue Cross president, and Sumner G. Whittier, executive director of Blue Shield, said the health insurance plans need new income in the face of rising operating costs.

★ ★ ★

**'OPERATING IN RED'**

Spokesmen said both plans currently are operating in the red and that the proposed rate increases are calculated to keep the plans on a firm financial basis through March 1965.

## 'Y' Officials Show Their 'Baby'

Like proud parents, officials of the Pontiac YMCA showed off their new arrival yesterday.

The occasion was the dedication and open house of the enlarged and remodeled YMCA building at 131 Mt. Clemens Street.

**More than 100 persons attended the dedication ceremony at which Circuit Court Judge H. Russel Holland reminisced through the history of the movement in Pontiac.**

During the day, several hundred persons, many of them families, toured the new wing and renovated old building.

The addition, which nearly doubles the space at the Y, cost $550,000. The facelifting of the old structure, purchased from the Odd Fellows in 1937, cost an additional $140,000.

"Pontiac is grateful," said Judge Holland. "The goal of the Y is for improvement of mind and spirit. It is to these that this building is dedicated."

**Judge Holland told how he found the Y when he first arrived in Pontiac in June 1927.**

"It was nothing more than one small room located in the Masonic Temple. I remember walking in, asking the general secretary, Frank Ruf, where the facilities were.

★ ★ ★

"He said 'The Pontiac Y is in this small room and in the hearts and minds of a few people in Pontiac.'"

★ ★ ★

Those participating in the dedication program were Dr. Milton Bank, who gave the invocation and benediction; Robert M. Critchfield, chairman of the fund raising campaign; W.E.C. Huthwaite, YMCA president; and Ralph Cromis, building committee chairman.

## Millions of Teeth Chatter as Winter Veils Nation

BY THE ASSOCIATED PRESS

Winter's icy blasts enveloped the major part of the nation today. No immediate break in the severe cold weather was indicated.

The effects of the frigid weather and snow, which swept into the Rockies last weekend and snowballed across most of the country by the weekend, were widespread.

Deaths blamed on the wintry weather—exposure, fires and traffic accidents on ice and snow-covered highways — passed the 40 mark.

Property damage, including heavy loss by a rash of fires, mounted into the millions of dollars.

**The unseasonable cold in southern Texas, southern California and Arizona threatened damage to citrus and vegetable crops. Farmers started their smudge pots.**

Wide areas felt the sting of the frigid weather which inconvenienced millions and brought misery to thousands. Stiff winds added to the discomfort. Driving conditions were hazardous in many areas. Travel was halted in some sections.

The Weather Bureau in Chicago said that only a few parts of the nation were not hit by freezing or lower temperatures.

The below-zero zone extended from the upper Great Lakes through the northern plains into the northern Rockies. Temperatures plunged to nearly 60 below in Montana over the weekend.

## Snow Burying West Michigan; No Letup Seen

By The Associated Press

Much of western Michigan shouldered into snowdrifts Monday under a continuing storm which has caused scores of schools to close and has made driving hazardous up to 30 miles inland along the length of Lake Michigan.

Elsewhere, parts of the state were numbed by subzero cold.

No immediate relief was in prospect. The U.S. Weather Bureau said severe cold would continue at least two more days.

**The Weather Bureau also said only a lack of sustained winds of 35 miles per hour or more spared a large portion of the west state area from blizzard status over the weekend.**

Grand Rapids was among the snow depth leaders with 15 inches on the ground since Friday night.

Muskegon had about one foot of new snow since midnight Jan. 12.

## De Gaulle Puts Chill on Polaris

**France Can't Join British-U. S. Accord**

PARIS, (AP)—President Charles De Gaulle said today France cannot join the British-American agreement made at Nassau establishing a multinational Polaris missle force.

★ ★ ★

The French president, speaking to his first news conference since last May, responded to a question on whether France might accept President Kennedy's offer of Polaris missiles:

**"I do not believe that anyone thinks that we can subscribe to the accords of the Bahamas."**

De Gaulle said the U. S. offer to France following the pre-Christmas Nassau agreement had no current importance to France and added:

"We will build and employ ourselves our own atomic force.

"I have several times indicated publicly French policy on defense and the armament which France feels necessary for her own defence. I repeat that France intends to have her own national defense."

De Gaulle conceded that in modern times no nation can conduct a world war on its own.

# Open Race Dawning for State GOP Chair

By JIM DYGERT

Gov. George Romney's naming of former Oakland County Republican Chairman Arthur G. Elliott Jr. as a possible choice for next GOP state chairman, turned out to be less clear-cut than had been expected.

News Analysis

**Romney's statements at a weekend meeting of the Republican State Central Committee in Lansing appeared instead to boost chances of John A. Gibbs, 30, of Royal Oak.**

In fact, Gibbs' chances may now even be better than Elliott's, if he decides to seek the post at the party's state convention in Grand Rapids next month.

★ ★ ★

"I'm giving it some serious consideration," Gibbs said yesterday, when asked if he would be a candidate.

**THREE REASONS**

Currently executive assistant to the present Republican State Chairman, George Van Peursem, Gibbs gave three reasons why he may be a candidate:

1. Van Peursem's announcement Saturday that he will not seek re-election, apparently to make way for a successor more to Romney's liking.

2. Romney's naming of Elliott as only one of three men qualified for the job, and the governor's adding, "I do not have a selected candidate as George's successor.

"While I consider Art Elliott a qualified candidate, I have made no commitment," indicating an open race, as interpreted by Oakland County Republicans who want Gibbs to seek the post.

3. The governor's pinpointing of organization as the state GOP's greatest flaw and emphasis on the need for "the best organizing man we can find" to head the party in the state.

★ ★ ★

This can be interpreted as favorable to Gibbs. It was interpreted by Gibbs' supporters, in fact, as almost an invitation to seek the post.

**Although both Elliott and Gibbs are known as skillful organizers — with Elliott better known in the state — Gibbs supporters claim he has an edge in organizing ability and maintain Elliott's chief assets are inspirational leadership and political savvy.**

If Gibbs throws his hat in the ring, it is even possible that Elliott will step out of the picture.

★ ★ ★

Elliott, a former Royal Oak realtor who now lives in Bloomfield Hills, said last week he could not see "Jack and I opposing each other."

**Gibbs was Elliott's assistant when Elliott, as county chairman from 1957 to 1961, was gaining a statewide reputation for building the county's GOP into one of the most powerful Republican organizations in the state.**

Each has a high regard for the other's ability.

**UNDECIDED STILL**

Elliott said Saturday the governor's mention of his name did not make him an active candidate. He said he would take whatever job in which Romney and the party decided he could make the best contribution.

**Republicans who claim there is now no split in the county because neither has announced his candidacy, admit a split would come if county delegates had to choose between them.**

If only one is a candidate, however, he will no doubt get all the county's 161 convention votes, more than 10 per cent of the total to be cast by the 1,500 delegates.

★ ★ ★

Gibbs and Wendell Hobbs of Ann Arbor, well known in party circles for his organizational work as Washtenaw County Republican chairman, were thought to be the other two men Romney had in mind when he said three qualified candidates.

**The Gibbs camp sees the ideal as Gibbs in the state chairmanship and Elliott in the governor's office coordinating Gibbs' work with Romney's desires.**

This way, they say, Elliott would have more time and opportunity to keep the governor appraised of the party's progress toward becoming the "citizen's party" he wants.

**BEGINNINGS EXIST**

Beginnings of such a "citizen's party" already exist in Oakland and other counties, but Romney may not realize it, some Republicans contend.

**Some interpreted Romney's throwing the race open as healthy for the party as well as consistent with his philosophy of a "citizen's party" in which such choices as that of party leader should be made by party members rather than dictated from above.**

Romney said: "I know Art Elliott does not want to be chairman of this party unless it is the result of the party's making that decision."

★ ★ ★

He also said that second only to meeting the needs of the state, "is strengthening the Republican Party as the political expression of basic American principles in Michigan."

still unexplained today, according to Wood.

**The police chief said Terry apparently entered the Truxton home through the front door, walked back to the bedroom and began shooting at Mrs. Truxton.**

Her husband was in the bathroom and the couple's two children apparently were in the living room of the one-story home when Terry entered.

★ ★ ★

Wood said one of the five bullets was found in the bathroom, indicating that Terry also shot at the wounded woman's husband.

**Mrs. Truxton, although injured, managed to call police from her home shortly before 4:30 p.m.**

When officers arrived, Wood said Truxton was holding the revolver and shells for the gun. The police chief said Terry apparently reloaded the gun, but it was taken away from him and emptied by Truxton.

Terry offered no resistance when police arrived.

"He said he was sorry and hoped Mrs. Truxton would pull through," said Wood. "He gave no reason for the shooting."

**TOGO: SCENE OF COUP** — Map locates the west African country of Togo where President Sylvanus Olympio was shot to death yesterday in a successful coup d'etat. He was killed in the street outside the U.S. Embassy Building in Lome.

# Would-Be Leaders Seek Power After Togo Coup

LOME, Togo (AP)—A struggle for leadership of this tiny West African country appeared to be developing today in the wake of a sergeants' revolt and the assassination of President Sylvanus Olympio.

Two men emerged as possible heads of a new government—former Premier Nicolas Grunitsky 49 and Idrissou Antoine Meatchi, 27, a former opposition leader in the Togo Assembly.

★ ★ ★

A military revolutionary committee that engineered the Sunday coup reportedly appealed to Grunitsky, a brother-in-law of the slain president to return from exile in neighboring Dahomey to form a government.

Rumors spread that Meatchi was already back in Lome from exile in Ghana, which also borders Togo. He had been accused by the Olympic government of aiding exiled political conspirators.

**ARRESTED IN '60**

Meatchi, a French-educated Moslem and former civil servant, had been arrested in 1960 for conspiracy. He went to Ghana after his release in mid-1961.

Gunned down on the street outside the U.S. Embassy early Sunday, Olympio apparently was the only casualty of the fast-paced revolt. Gunfire was heard in the streets around 2 a.m. The 60-year-old president's bullet-riddled body was found outside the unlocked embassy gate at dawn.

★ ★ ★

The body was taken into the embassy. Later Olympio's family removed it.

Most of the other members of his government were arrested. They were reported unharmed and held at a military camp outside Lome.

The main opposition to Olympio's government consisted of the Progress party and the Allied Juvento Movement, two groups accused of plotting against the regime with aid from Ghana.

President Kwame Nkrumah of Ghana has been the target of several bomb plots and his government had accused Togo of harboring Ghanaian conspirators.

**changing corporate tax liabilities.**

Kennedy also emphasized a desire for haste in congressional consideration of tax legislation.

"Now is the time to act," he said. "We cannot afford to be timid or slow. For this is the most urgent task confronting the Congress in 1963."

★ ★ ★

The President did not specify any particular date on which he believes the initial rate cut should take effect. He merely said the first reductions should come this year.

Neither did he indicate the first-year impact on the federal budget.

Kennedy's new budget, for the 1964 fiscal year starting July 1, will go to Congress Thursday. It is expected to call for spending approaching $99 billion.

**In one of his few references to the budget, the President said it will allow for "needed rises in defense, space and fixed interest charges." But he said it will hold "total expenditures for all other purposes below this year's level."**

To do this, Kennedy said, he will call for "the reduction or postponement of many desirable programs," plus payroll and other economies.

**OTHER HIGHLIGHTS**

These were among other highlights of the message:

**—The state of the union is good; 'the recession is behind us."**

**—The state of the world is improving; "steady progress has been made in building a world of order."**

—But we cannot be satisfied to rest here. This is the side of the hill, not the top. The mere absence of war is not peace. The mere absence of recession is not growth. We have made a beginning—but we have only begun."

—At home, Kennedy wants aid to education; help for unemployed youths; an expanded health program; strengthened guarantees of voting rights; increased competition and decreased regulation in transportation; a local mass transit program; a new farm program; more parks and recreation areas.

Diplomatic informants said they believed the Katanga president was rallying his followers for a last-ditch stand to try to hold what remained of his secessionist domain.

**WARNING GIVEN**

The emissary was to warn Tshombe that if he did not peacefully surrender Kolwezi—center of Katanga's mining industry—the United Nations would fly in a Gurkha battalion to take it by force.

★ ★ ★

Tshombe also was to get notice that if his followers carried out threats to blow up the mining installations and electric power dam in the area, he might be sent to Leopoldville for trial by the central Congo government as a war criminal and saboteur.

Last reports said a U.N. ground force had advanced from Jadotville to within 50 miles of Kolwezi.

# Finish 8 Developments in Speeded CD Plan

BIRMINGHAM — Eight major developments have been completed since the city administration was directed to accelerate Civil Defense efforts in Birmingham, according to City Administrative Aide John F. Saefke.

★ ★ ★

In a report to be presented at today's 8 p.m. City Commission meeting, Saefke listed the recent developments and cited the need of fallout protection for emergency forces as the next most important step in the city's CD program.

Major developments noted by Saefke include:

**1. All policemen and personnel in the public works and parks and forestry departments have been instructed in radiological monitoring procedures.**

**2. The DPW yard and police station have been established as daily monitoring stations in addition to those at each fire station.**

**3. Final studies to complete strengthening of water production and distribution are under way.**

**4. Establishment of the emergency engineering services organization has been completed.**

**5. Establishment of an emergency operations center in the Municipal Building basement is progressing rapidly.**

**6. Identification and marking of public fallout shelters in existing buildings has been completed and stocking of the buildings will follow soon.**

**7. Drill procedures and shelter areas were inspected and emergency plans were discussed at all public schools and some parochial schools.**

**8. The first public courses in emergency training and emergency welfare have been completed and the second courses are under way.**

Saefke said fallout shelters for emergency forces are important since "if these people are eliminated or become ineffective, there will be no emergency services and all other preparations will have been for nothing."

Frank Griffin, 200 Raeburn St., was apprehended by Pontiac police shortly after James C. Hunt, 36, of 381 S. Edith St. received a chest wound during a street fight at the corner of Midway and S. Jessie streets.

**Police found Griffin covered with blood. At the hospital, he is listed in satisfactory condition with multiple cuts of the face.**

If Wide-Track is as hot as Pontiac says, why don't they put it in their Tempest?

They just did.

We can take a hint. When people are as happy with something as Pontiac owners are with Wide-Track, we're willing—nay, *eager*—to let everybody else in on it. That's why Tempest has a Wide-Track of its own this year. It's why you get to choose between a lively 4 and a 326-cu. in. V-8; too. We aim to please—and if we do say so, we're pretty accurate.

*Either 260-hp premium fuel or 250-hp regular fuel—optional at extra cost.

Now there are two kinds of Wide-Track cars . . . Pontiac and Tempest
