Women Firefighters Save Boy's Life

Pontiac Press Photo

AVERT TRAGEDY—The three women pictured above were credited today with saving the life of Mark Christian Kellner, three year old son of Mr. and Mrs. Conrad Kellner of 1952 Woodland Dr., West Bloomfield Township. The women gave young Mark artificial respiration after he was pulled from a Cass Lake canal unconscious yesterday by his mother. Left to right (above) are: Mrs. Bruce Knapp, of 1891 Woodland Dr., Mrs. Eldon Eroh, of 1858 Woodland Dr. and Mrs. A. J. Stilwell, of 4728 Centre Dr. The trio took turns aiding Mark until the fire department arrived with a respirator.

Three Women Firefighters Cited for Saving Boy's Life

Three women, members of the West Bloomfield Township Volunteer Fire Dept., were credited today with saving the life of a 3-year-old boy who was pulled unconscious from a Cass Lake canal near his home.

The boy, Mark Christian Kellner, son of Mr. and Mrs. Conrad Kellner of 1952 Woodland Dr., West Bloomfield Township, was taken from the icy canal yesterday by his mother, Jeanette, 24.

The three women gave him artificial respiration until the fire department arrived with a respirator.

Mrs. Kellner found her son in the canal in four feet of water. He was missing from the home of his grandmother, Mrs. Locke B. Ward, of 1811 Woodland Dr. where Mrs. Kellner had gone to visit.

Mrs. Kellner sent the grandmother, who had joined the search, for aid.

Mrs. Ward called Mrs. Edna Eroh, a neighbor who is a volunteer fireman, and asked her to call the fire department.

Mrs. Eroh turned in the alarm and notified Mrs. Emma Knapp and Mrs. Ann Stilwell, also volunteer firemen, to proceed to the Ward home.

When the three women arrived to fight what they thought was a fire, Mrs. Ward said, "How about Chris? I think he's dead."

Mrs. Eroh called the fire department for a respirator and the three women took turns giving the boy artificial respiration until the fire department arrived.

The boy was revived five minutes later and taken to Pontiac (Continued on Page 2, Col. 6)

County May Get 3rd Missile Site

Conservation Dept. OKs Lease at Proud Lake to Army Engineers

Another link in the guided missile defense chain around the metropolitan Detroit industrial area may be constructed in the Proud Lake Recreation Area near Milford.

At its meeting yesterday, the State Conservation Dept. agreed to lease to the Army a 66-acre tract in the Proud Lake region and an 86-acre site in Algonac State Park across Lake St. Clair from Selfridge Air Force Base.

Final authorization on the leases must come from the State Administrative Board.

After that, tests must be made at the sites to determine finally if they are suitable for "Nike" installations. Col. John E. Unverferth of the Detroit District Army Engineer Corps office said.

The two new locations are part of an expanding chain of missile sites extending in a rough circle around Detroit.

The Nike is an anti-aircraft guided missile operated electronically.

Two other Nike installations are now under construction in Oakland County. One is at Squirrel and Featherstone roads in Auburn Heights, the other at 11-Mile and Franklin roads in Southfield Township.

Construction on both is "relatively on schedule," Col. Unverferth said.

The Proud Lake Recreation Area is in Commerce Township, south-east of Milford.

School-Age Bill Sends Co-Signer to Doghouse

HAMMOND, Ind. (UP)—A bill to raise the minimum school age from 6 to 7 years today had its co-signer, State Sen. William Christy, in the doghouse.

"I don't understand it. I don't like it," his wife, Irene, said. "I want to talk to him."

The Christys have a 5-year-old daughter and 13-year-old twins.

Lodge Reveals Optimism About 11 Jailed Airmen

Sure Hammarckjold's Mission to Red China Made Progress

UNITED NATIONS, N. Y. (AP)—Chief U. S. Delegate Henry Cabot Lodge Jr., expressing a measure of optimism, is in Washington for high-level talks today on the problem of releasing 11 American fliers imprisoned by Red China.

After receiving a full report from U. N. Secretary Gen. Dag Hammarskjold on his mission to Peiping, Lodge said he was confident progress had been made and "that our fliers will be free."

Lodge said he would consult with Secretary of State Dulles on Hammarskjold's report as soon as possible.

"There is naturally disappointment that the immediate release of our fliers was not effected," he said, "but I am confident that progress has been made and that our fliers will be free."

"Assuredly we will not — and must not — cease our efforts until they are. The situation is delicate and we must have both patience and determination."

Hammarskjold returned here last night from a globe-circling flight to Red China seeking the release of the American airmen and other U. N. personnel held there.

He indicated he considered his talks with Chou En-lai, Red China's Premier-foreign minister, constituted only the first stage of his efforts. The next move is up to the United States after it considers Hammarskjold's report.

All details have been withheld from the public. Hammarskjold and his aides made the following points clear, however, in a series of statements:

1. Hammarskjold considered the discussions with Chou useful.
2. He felt he had made some progress toward release of the fliers.
3. The primary value of the trip was that it established contacts through which more progress might be made.
4. He felt negotiations can be kept open if all sides show a proper restraint.

Soviet Offers Data on A-Power to U.N.

MOSCOW (AP)—The Soviet government today offered to share with the rest of the world the experience it claims to have gained by operating an industrial power station with atomic energy.

Foreign Ministry press chief Leonid Ilyichev told a news conference the Soviet Union is "ready to hand over the scientific and technical experience piled up in the Soviet Union."

He said this information would be made public through a report to the United Nations Committee on Atomic Energy.

Adopted Daughter Meets New Mother

AP Wirephoto

TIME FOR A CHANGE—Navy Lt. Norman (Moose) Donahoe holds Roni Marie, an adopted Greek daughter, as he and his wife try to quiet her in Pennsylvania Station, New York, last night. The 28-year-old fighter pilot from Texas who made the 13,000-mile journey alone to bring the girl home raced a dwindling supply of diapers on the return aerial hitchhike. Donahoe's wife had never seen the baby until she reached New York with her foster father.

Weather Costs More to Report Than Forecast

CHICAGO (AP)—Everybody may not talk about the weather, but it still remains a popular topic, says a federal forecaster.

In 1954, he said, persons in a dozen of the nation's major cities, spent more money for telephone calls to get the automatic weather report than was spent by the federal government for the entire weather service. In Chicago alone, there were about 19 million telephone calls.

Forecaster Charles R. Johnson said the Weather Bureau's appropriation last year was approximately 24 million dollars.

Johnson, who spoke at a meeting of the Illinois committee of the Chicago Assn. of Commerce, said forecasters have attained an "accuracy batting average" of 85 to 88 per cent. Because of new techniques and studies, he said, the chances are good forecasters will hit an even higher level of perfection.

Hunt Jet Pilot in Cold Desert

Record-Holding Flier Sought After 'Chuting From 'Mighty Midget'

LOS ANGELES (AP)—Flares and planes equipped with spotlights aided a search on the vast Mojave desert early today for James B. Verdin, jet speed record holder, who vanished after radioing he was bailing out at 30,000 feet.

The 36-year-old Douglas Aircraft Corp. test pilot, who set a world's three-kilometer speed mark of 733.4 m.p.h. in 1953, did not say yesterday why he was jumping from the "Mighty Midget," called the smallest atom bomber. His one-place A4D Skyhawk crashed on the desert near Victorville, 75 miles northeast of here.

"There has been some snow on the desert and temperatures dip to subfreezing levels at night so we are concerned about Verdin's condition in the event he broke a leg and was unable to walk," a Douglas spokesman said.

An Air Force helicopter located the wreckage of the Skyhawk in a barren area 15 miles northwest of Victorville.

Verdin joined Douglas as a test pilot last June after leaving the Navy as a lieutenant commander. He served in World War II and Korea.

He is married and the father of a son, Pat, 3, a daughter, Cynthia, 1½, and another daughter, Marsha Ann, 12, born of a previous marriage.

Probers Say Costa Rican Rebels From Foreign Soil

SAN JOSE, Costa Rica (AP)—With fighting in Costa Rica's four-day-old war at a virtual standstill, an inter-American investigating commission reported today that the planes which bombed and machinegunned Costa Rican towns had come from "foreign soil."

The finding was announced as former Costa Rican President Teodoro Picado admitted in an interview in Managua, Nicaragua, that his 27-year-old son Teodoro Jr. was commanding the rebel forces. The younger Picado is a graduate of West Point and is married to a Los Angeles woman.

The commission also reported it had found "serious indications that arms and munitions have been supplied from a foreign source to rebel elements in Costa Rican territory."

The commission did not identify the "foreign soil" or the "foreign source."

The five-nation investigating group forwarded its finding to Jose Mora of Uruguay, president of the Council of the Organization of American States. The council sent the commission to the scene to probe Costa Rican charges of aggression by neighboring Nicaragua in connection with the fighting.

Nicaraguan officials have denied Costa Rican accusations that the Managua government armed, trained and equipped the rebels. They say the fighting is internal revolution.

The commission's findings will be used by the OAS Council as a guide in deciding whether action should be taken under the Rio de Janeiro Treaty. This pact provides for joint action by the American states if any of its fellows is in (Continued on Page 2, Col. 4)

PHS Team Wins Debate Tourney

Tops 6 Saginaw Valley Schools in Meet Here; 36 Events Held

Pontiac High School's debate team won first place in the Saginaw Valley conference debate tournament held here yesterday afternoon and evening.

Over 150 students from all six conference schools participated and 36 debates were held.

Flint Northern, Bay City and Arthur Hill tied for runner-up honors, with Flint Central finishing fifth and Saginaw sixth.

The question debated was "Resolved: That the United States should initiate a policy of free trade among friendly nations."

Winning local debaters were Jim Jolly, Richard Clark, Bob Everson, Walter Dodge, Jerry Richards, Dick Blacklaw, Connie Mapes and Garth Johnston. Also among the winners were Robert Anderson, Bob Bigelow, Willie Edwards, Bob McDonald, Mary Margaret Turvey, Ilene Williams, Carolyn Holland and Kay Buchner.

Pontiac teachers who judged teams from other schools were John Antisdel, Claire Kleinschmidt, Gertrude Everson and Shirley Pengilly. Debate coach, Walter Smith of the PHS faculty, was in charge of the administration of the conference tournament.

Pontiac's next debate is in the state league with Detroit University High School, Jan. 27.

Southeast Area Projects in '55 Total \$6 Million

New Gas and Electric Facilities to Be Added for Pontiac, Vicinity

Consumers Power Company will spend more than \$6,000,000 this year to expand and improve its natural gas service in its Southeast Division, with headquarters in Pontiac, Division Manager David H. Gerhard announced today.

Gerhard said the company will undertake hundreds of projects to extend and improve gas service in addition to improving electric service within the city.

He stated the company would invest more than \$300,000 in Pontiac and the surrounding area.

He said the Southeast Division projects are included in Consumers Power Company's record 1955 construction program, in which the company will invest close to \$73,000,000 to expand and improve its electric and gas services in the 64 counties of Michigan's Lower Peninsula where it operates.

Among important projects he listed the installation of 90 miles of new gas mains at various places in the division gas distribution system, and improvements to 70 miles of older mains, affecting 4,250 existing services.

He said the division expects to add about 19,000 new customers this year as a result of population growth of the area in which Consumers supplies gas. In Pontiac, where the company also supplies electricity, some 550 new electric customers will be added also.

Pontiac electric system projects include improvements at five underground vaults which supply the bulk of the power in mid-Pontiac, he added.

Also in Pontiac, a present 22,000 volt line connecting the Russell substation in north Pontiac with the Bloomfield substation will be replaced with a 41,600 volt line, (Continued on Page 2, Col. 2)

Colder Than Normal Is 5-Day Forecast

Despite predictions of a mercury drop to 10 degrees in this area last night, temperatures remained fairly mild with a low of 20.

In its 5-day forecast for this area, the U.S. Weather Bureau says it will be 2 to 4 degrees colder than normal, with the normal high at 33, normal low 17-19.

There will be no marked changes, with precipitation averaging .25 to .75 inches of snow Saturday, Monday and Tuesday, followed by snow flurries later in the week. No measurable snowfall is seen for Sunday.

More snow is on the way tonight with a low of 28 to 32 expected. Tomorrow's high will be 30 to 34. Tomorrow night will bring a low of 21 to 25, with snow diminishing to flurries. Sunday will see more snow flurries and colder temperatures.

Today at 8 a.m. in downtown Pontiac, the mercury stood at 23 degrees, dropping to 22 at 10 a.m. By 1 p.m. it had risen to 27 degrees.

French, German Leaders Tackle Thorny Saar Issue

BADEN-BADEN, Germany (AP)—French Premier Pierre Mendes-France and Chancellor Konrad Adenauer met in this resort city today for vital talks on issues still dividing the World War II enemies. At the top of the agenda was the troublesome Saar question.

The dynamic French Premier and the austere, 79-year-old West German leader began their conferences at 10:40 a. m. in a luxury hotel. The talks were expected to last until midnight.

West German officials said the two leaders would cover the whole range of French-German problems. Adenauer has promised his Parliament to seek from Mendes-France clarification of differing French-German interpretations of the agreement signed between the two nations on the future of the Saar Valley.

The agreement, one of the complex of pacts covering West German rearmament, would put the strategic coal-rich area under

the control of the projected Western European Union but continue its close economic ties with France.

The Saar pact has met with widespread opposition in Germany, which ruled the area before both world wars. The French, however, say they will not renegotiate the agreement, and Paris has maintained that all the German rearmament treaties must be accepted as a package.

In addition to the Saar problem, (Continued on Page 2, Col. 6)

More Dances on Tap
'54 Report Gives Glimpse at City's Recreation Plans

Development of a "more comprehensive" program for teenagers, continued improvement of areas and use of 110 acres of city-owned land as a top soil reservoir head the Parks and Recreation Dept. calendar for 1955.

The look into the immediate future is included in the Parks and Recreation Dept.'s annual report for 1954 just issued by Director David R. Ewalt.

In 1954, the department sponsored 40 dances with live music for junior high school-age boys and girls, plus an uncounted number of record dances in its 17 community centers.

"But we don't have enough programs in enough neighborhoods," Ewalt said. "We want to expand so we can hold at least one dance a week in every neighborhood."

A continuation of the past year's improvement of grounds and equipment at Pontiac parks is foreseen by Ewalt. In addition, he lists:

1. Starting development of plans for the Hawthorne School park area.
2. A rejuvenation of Aaron Perry Park, particularly the area adjacent to the new Adah Shelly Library.

Ewalt describes as "black gold" the rich top soil in the 110 acres of Avon Township land owned by the city.

Although the property has belonged to Pontiac for many years, just recently it was turned over to the parks department. It was originally purchased as a sewage treatment plant site.

Besides its top soil, the land will furnish sand and gravel for municipal park purposes and will be used for establishing a seedling nursery and sod beds for municipal use, Ewalt said.

For 1955, the department head also sees:

1. Continued development of a program for adult special interest groups.
2. An increase in the number of playgrounds and the type of program offered in the summer.
3. Development of a master plan for shade tree planting to be put into immediate effect.
4. Development of a better plan for eradication of weeds and other nuisance vegetation on city property during the summer months.
5. Enlargement and improvement of the tee-offs, clubhouse area and practice greens at the Municipal Golf Course.

In 1954, special interest group activities included dramatics, choral singing, fashion clubs, a social club for citizens over 60 and a chess and checkers club.

Court Restrains Oxford Dumping

Burkett Pair Ordered to End Garbage Hauls for Piggery in Village

The village of Oxford yesterday obtained a court order stopping two brothers from dumping garbage on land owned by the pair at 1909 Draher Rd. and "feeding said garbage to pigs."

A hearing date will be set in Oakland County Circuit Court for David R. and J. F. Burkett to appear and attempt to show why the restraining order should not be made permanent.

Some 66 persons living in the area surrounding the Burkett's land complained of the dumping, the bill of complaint states.

The village says its court of health ordered the two to cease "maintaining a piggery so as to constitute a public nuisance" last Dec. 18. The order was not complied with, it states.

The village alleges the garbage dumping violates a zoning ordinance which says garbage can only be disposed of in a legal dump.

The village also says the Burkett's were hauling the waste from "various other municipal units."

The garbage creates "vile and objectionable odors" and attracts "maggots, flies and vermin" thus menacing health, the village charges.

Weather Tricks Warm the North, Chill the South

By THE ASSOCIATED PRESS

Winter weather played a few tricks today. It was warmer in northern North Dakota than in parts of the Gulf Coast.

Cold air spread southward across the eastern Gulf states and pushed into Florida early today. Freezing weather extended all the way to the Gulf Coast.

It was 31 at Mobile, Ala., 19 degrees lower than yesterday morning. At the same time it was a comparatively mild 35 in William and Minot, N.D. Miami reported an early morning reading of 49.

The mild winter weather extended over the Great Plains from Texas to the Canadian border. Temperatures were up from 5 to 28 degrees compared to yesterday morning. It was 66 in Brownsville, Tex.

In London, melting snow and slush following in the wake of blinding blizzards brought travel chaos.

Drifts up to 12 feet deep blocked major roads in the Midlands and around London. Rapidly melting snow flooded towns and villages in the Tamar Valley between Devon and Cornwall.

Express trains ran up to four hours late.

The Weather

JESS QUICK

MRS. REUEL BAKER

Metropolitans Installation Set

Spirit, Auxiliary Heads Will Be Seated Jan. 22 in Joint Ceremony

Pontiac Spirit 6, Metropolitan Club, and the group's auxiliary will seat new officers at joint installation ceremonies Jan. 22 in Chief Hall on Sylvan drive.

Mrs. Fred Kemp of Birmingham and Mrs. Howard Fairman of Pontiac, both past national presidents, will be installing officers for the auxiliary.

Newly elected president of Spirit 6 is Jess W. Quick, 502 E. Beverly Ave., a city policeman.

Other officers include Walter Baerwolf, first vice president; Ralph Dean, second vice president; James Carr, recording secretary; Robert Sartell, financial secretary; Charles Evans, treasurer; Park Nique, sergeant at arms; and George Stenson, John De Pauw and Arthur Carson, trustees.

Incoming auxiliary president is Mrs. Reuel Baker.

Her aides include Mrs. Ray Wilson, vice president; Mrs. Ralph Dean, recording secretary; Mrs. Merrill Petrie, financial secretary; Mrs. James DeFlorio, treasurer; Mrs. Harry Isenberg, sergeant-at-arms; Mrs. Cliff Hickmott, parliamentarian; and Mrs. Joseph Koren, Mrs. Park Nique and Mrs. Harold Wright, trustees.

Legislature Considers Regional Football TV

LANSING (INS)—The state legislature is considering a proposal that would lead to regional televising of football and other athletic events at the University of Michigan and Michigan State College.

Two Detroit Democratic representatives, John J. Fitzpatrick and David L. Lindsay, proposed that a six-man commission be empowered to accept competitive bids for home games at both Big Ten schools.

Commission would not be affected by the controversial controlled television plan of the National Collegiate Athletic Association, which is currently under fire from the Big Ten.

Water Works Employees Fined for Tubing Theft

Two City Water Works employees who pleaded guilty to stealing copper and lead tubing from the city during the past six months were fined \$50 each after they pleaded guilty to simple larceny before Pontiac Judge Maurice E. Finnegan yesterday.

Harry Sturgis, 33, of 716 E. Fourth St., and Christopher Snyder, 45, of 56 W. Strathmore Ave., were arrested and sent to court yesterday afternoon.

Joseph Gable, water works superintendent, told Pontiac Police the tubing taken was valued at about \$60.

Man's Condition Good After Skidding Mishap

George B. De Geer, 22, of 2509 W. Draher Rd., Oxford, involved in an auto accident at Draher and Coats Roads yesterday, is in good condition today at Pontiac General Hospital.

De Geer suffered rib fractures and bruises when his auto failed to climb an icy hill and slid back into the path of an auto driven by John L. St. Clair, 20, of 245 Draher Rd., according to Oakland County sheriff's deputies. St. Clair was not injured.

Thunder can occur at any time of the year, including the winter.

Veteran Pontiac Policeman Retiring After 33 Years

If you're one of Pontiac's old-timers, you will recall a young patrolman who was as much a part of the Huron-Saginaw intersection in the mid-20's as today's modern traffic signal.

You will recall, too, the many motorists who would stop around at Christmas time, leaving the policeman bundles of presents and good cheer.

That policeman now is 63 and retiring from the police force after 33 years of service to Pontiac.

Lt. Ira E. Herron today walked into Chief Herbert W. Straley's office and announced his resignation with the same smiling manner that meant warmth and friendship to Pontiac residents who used to see him directing traffic with that early American "stoplight signal," the semaphore.

Dressed in the blue, high collar uniform and white gloves, Herron was known for his courtesy and the way he liked people. Capt. Clark M. Wheaton said, "Herron's resignation leaves Wheaton senior man in the department with 22 years."

Herron came to Pontiac after his discharge from World War I in 1919. He has lived here ever since. The veteran policeman, who joined the force April 20, 1922, was born in Evergreen Township, near Cass City in Sanilac County. Married, he lives at 335 Auburn Ave.

Since police retirement is compulsory at the age of 62, Herron had received three 6-month extensions in the past, said Straley. His last duties were performed in the department's juvenile bureau with Sgt. Henry Hoyt.

Formerly a desk lieutenant, he also served as a detective and patrolman. He was promoted to his present rank in 1951 by former Director of Public Safety Milton F. Cooney.

Police officials explained that Herron's retirement becomes effective March 1, but that he chose to leave the department immediately to take advantage of accumulated leave days and vacation time.

LT. IRA E. HERRON

Motorist Makes Not Guilty Plea

Denies Recklessness; Is Charged With Engaging in Fatal Road Race

A Pontiac motorist yesterday pleaded not guilty to a reckless driving charge which stemmed from a fatal accident Jan. 4.

Police said Truman Davis, 24, of 431 N. Saginaw St. was racing with Carol E. Queen, 23, of 6115 Tipico Lake Rd., when Queen's car went out of control on M59 just east of Elizabeth Lake road and overturned several times, fatally injuring Queen.

"It was due to Davis' negligence that George Taylor (chief assistant Oakland County prosecutor) issued a warrant against Davis Wednesday," Waterford Police chief Frank Van Atta said.

Davis was arrested at his home early yesterday by Patrolmen William Stokes and John Forbush. Waterford Township Justice Willis D. Lefurgy, who arraigned Davis yesterday, freed the defendant on \$100 bond and set trial for Jan. 27.

Official reports said the warplanes bombed Tienao military installations and harried Communist shipping along a 50-mile stretch off the China mainland. There was no aircraft fire but no Red air-craft, the report said, and all planes returned.

Communist shipping was attacked near Yushan Island, 30 miles northeast of the Nationalist-held Tachen islands, and in the vicinity of Chiku Island, 16 miles southwest of the Tachens.

Costa Rica Rebels From Foreign Soil

(Continued From Page One)

vaded. But already the arrival of the OAS mission and the promise of observation flights by U.S. planes appeared to have had a calming effect on the fracas.

The Costa Rican general staff reported that a rebel force of 200 to 300 men apparently was stalled around La Cruz, in the northwest of the country just south of the Nicaraguan border. A spokesman said no contact had yet been made with this force, although government troops were developing a movement to defeat it.

The rest of the country was reported quiet with the government in control.

GOP Hits Governor for Ignoring Taxation

LANSING (AP)—Republican legislative leaders today criticized Gov. Williams for, as they said, proposing expensive programs but ignoring the taxes which must follow.

Top men in the House and Senate agreed that Williams' message to the Legislature yesterday was unsound because he promised better highways and other advances without additional taxes to pay for them.

Williams had contended that a 500 million dollar highway construction bond issue could be paid off without raising the gasoline tax.

County Deaths

John Hall

CASS CITY — Service for John Hall, 82, will be held at the Little Funeral Home Sunday, with burial in Elkland Cemetery. He died Tuesday.

Surviving are two brothers, Frank of Cass City and Leo of Lockhart, Fla., and a sister, Mrs. Roy Reishell of Jackson.

Mrs. James Jones

HOLLY—Service for Mrs. James (Mary E.) Jones, 94, of 6075 Labring Rd., a lifelong resident of Holly, will be held at 2 p.m. Saturday from Bendle Funeral Home, with burial in Ortonville Cemetery. She died Wednesday night.

She is survived by one daughter, Mrs. Leila Liscom of Goodrich; one son, J. D. Mitchell of Holly; four grandchildren and 12 great-grandchildren.

Walter F. Heidt

WALLED LAKE — Service for Walter F. Heidt, 60, of 2011 Austin Dr., will be held at 2 p.m. Saturday at the Thayer Funeral Home, Farmington, with burial in Southfield Cemetery. He died Thursday.

Surviving besides his widow, Ida, are three daughters, Mrs. Essie Clarke of Ferndale, Mrs. Irene Neski of Detroit, Mrs. Marie Jay of Southfield Township, three brothers, Frederick of South Lyon and William and George of Detroit, four grandchildren and one great-grandchild.

Mrs. Evelyn Jane Miller

LAPEER — Service for Mrs. Evelyn Jane Miller, 82, of 153 First St. Metamora, will be held at 2 p.m. Saturday at the Muir Brothers Funeral Home, with burial in Thornville Cemetery. She died Wednesday.

Surviving is a nephew, Earl Kennedy.

Pontiac Deaths

Donald Roy Johnson

Funeral arrangements will be announced later for Donald Roy Johnson, 10-month-old son of David O. and Geraldine Seatt Johnson, 1210 Union Lake Rd.

He died this morning in Highland Park Osteopathic Hospital after an illness of five days.

Surviving besides his parents are two brothers, David C. and Daniel C., both at home.

Donelson-Johns Funeral Home is handling arrangements.

Charles Van Buskirk

Service will be held Saturday at 2 p.m. from the Brace-Smith Funeral Home for Charles Van Buskirk, 86, of 56 Cottage St., who died in Pontiac General Hospital Wednesday after a three-week illness. Dr. William H. Marbach, pastor of the First Presbyterian Church, will officiate. Burial will follow in Oak Hill Cemetery.

Born in Janesville, Wis., Jan. 11, 1869, he was the son of Isaac and Eunice Caswell Van Buskirk and married Catherine Crawford Sept. 26, 1900.

Mr. Van Buskirk had lived in Pontiac since he was a youngster. He attended school here and was a member of the First Presbyterian Church.

An avid member of the Oakland County Sportsmen's Club and the Oakland County Gun Club, he also belonged to the Knights of Pythias. He had retired as a foreman in the Department of Public Works in Pontiac.

He is survived by a nephew and two nieces.

Palbearers will be Floyd Baker, Angus Campbell, Byron French, Morse Whitfield, Harry Merritt and Jake Cottrell.

Richard Henry Will

Service will be held Saturday at 11 a.m. from Pursley Funeral Home for Richard Henry Will, 74, of 19 N. Roselawn Dr.

The Rev. LeRoy W. Shafer, pastor of the First Church of the Brethren, will officiate, and burial will be in Ottawa Park Cemetery.

Surviving, besides his widow, are a son, Dr. Clarence Will, and a daughter, Mrs. Vera Colburn, both of Pontiac. Two grandchildren also survive.

Mr. Will died yesterday at the Pontiac General Hospital after an illness of two years.

Mendes, Adenauer Tackle Saar Issue

(Continued From Page One)

Mendes-France and Adenauer are expected to cover:

1. Mendes-France's controversial European arms pool plan, designed to curb any runaway German rearmament.
2. Possible West German participation in the economic development of North Africa.
3. Broader French-German trade relations and closer economic cooperation in general.
4. Prospects for big power talks, including the Soviet Union, on German reunification.
5. The outlook for ratification by the West German Parliament of the still pending Paris treaties.

3 Women Credited With Saving Life

(Continued From Page One)

General Hospital where his condition is reported as fair. He was in an oxygen tent today as a precautionary measure.

Fire Chief Ben Moshier said that if it hadn't been for the action of the three women, the boy would have died.

The Greek philosopher, Socrates, left no writings of his own. His philosophy is known only through writings of his pupil Plato.

The Day in Birmingham Recreation Board Seeking Artificial Ice Skating Rink

From Our Birmingham Bureau

BIRMINGHAM — A Community-felt need for boosting recreation was climaxed at a special meeting last night when the recreation board passed a formal resolution asking that the city commission put a \$110,000 revenue bond issue to a public vote in April.

This would finance construction of an artificial ice skating rink in time for next winter.

Converted to summer time usage, the Eton Park rink, 115x215 feet overall, could be transformed into removable tennis and basketball courts.

Skating and hockey boards, fencing, lighting and sound equipment would all be included in the facility. Construction of a shelter house for Eton Park, has already been approved by the city commission.

A 15 cent charge for children and a higher fee for adults would offset maintenance and supervisory costs.

Board members theorized that 5,000 8 - 19-year-old Birmingham youths alone could benefit from the skating rink, which would operate from mid-November through March.

The board believes such an activity would alleviate the rising juvenile problem, and offer many family-sharing ventures.

Clawson Widow Granted \$15,000

Court Rules Sum Due in Woman's Suit Over Husband's Road Death

A Clawson woman, who sued for damages after her husband died from injuries received when hit by a truck, was granted \$15,000 in a ruling filed yesterday by Oakland County Circuit Judge Frank L. Doty.

Mrs. Myrtle P. Vincent, of 144 Lincoln brought suit against Eldon D. Quigg of Birmingham. She alleged that Quigg was driving a truck which struck her husband, Charles, Feb. 11, 1954, on Woodward avenue near Benjamin street, in Royal Oak Township.

Vincent, an employee of the county road commission, was waving a flag to divert traffic when hit.

Mrs. Vincent charged that Quigg was guilty of negligence. She said she had lost benefits of money her husband would have earned had he lived, plus incurring heavy expense in hospital and other bills resulting from the accident. Quigg denied that he was driving in a negligent manner.

Druggists estimate that 90 per cent of the prescriptions written by doctors today could not have been filled 20 years ago because the drugs they called for did not exist.

Birmingham Town Hall's guest speaker today was Dwight Long, who filmed the Academy Award winning movie, "The Fighting Lady," and atom bomb tests at Bikini. "Pacific Adventures," the colored film he showed, included excerpts from "The Fighting Lady," "Tanga Tika" and "Seven Seas on a Shoestring."

Members and friends of the Congregational Church are invited to a supper hour and square dance sponsored by the Supper Club at 6:45 tonight.

"The Lad Who Went to the North Wind" and "Eben Ashblower" will be read by Kathleen Piket, Baldwin.

Druggists estimate that 90 per cent of the prescriptions written by doctors today could not have been filled 20 years ago because the drugs they called for did not exist.

NAME'S THE SAME—Pvt. Alvin C. York, right, nephew of the famous World War I hero, Sergeant York, is congratulated by Maj. Gen. W. C. Farrell, after receiving his parachutist's wings at Ft. Bragg, N. C. Private York is a member of the 82nd Airborne Division.

National Toll Road System Offered as Substitute Plan

WASHINGTON (AP)—A national toll highway network was proposed today as a substitute for a presidential commission's recommendation that the federal government build strategic roads.

H. E. Bailey, recently resigned as general manager of the Old-Dominion Turnpike Authority, said the government financing plan would be used by "forces of reaction . . . to pass the buck to the federal government for responsibility for all classes of highways."

In an address prepared for a national road conference sponsored by the U.S. Chamber of Commerce, he said that a 1939 report of the Bureau of Public Roads opposing toll financing had "delayed the development of a national toll highway system for 15 years."

Gen. Lucius D. Clay, chairman of President Eisenhower's commission, told the conference at its opening session yesterday that "toll roads are here to stay" but that he didn't think very much of toll financing.

Robert T. Jones Jr., president of the Houston Chronicle, said the Clay commission plan would end any need for further toll roads.

The Clay commission called for a total federal-state highway program of 101 billion dollars over the next 10 years. It suggested that the federal government pay 25 billion of the cost of a proposed 27-billion-dollar network of 40,000 miles of interstate highways through revenue bonds floated by a new highway corporation. Clay said gasoline tax revenues over the next 30 years would be more than enough to pay for this program.

Bailey, instead, called for repeal of the 2-cent-a-gallon federal gasoline tax. He suggested "that source of revenue be left entirely to the states."

He asked that the federal government set up a national turn-

Eleanor Says U.S. Must Lead in Ideals

DENVER (AP)—Military and economic leadership are not enough for the United States to meet its world challenge, Mrs. Eleanor Roosevelt declared yesterday.

"There is a challenge in the world today—from Russia, from its satellites and recently from Red China," she said. "That challenge is military and economic, but it also is a challenge of ideals and ideas—and we must meet them with ideals and ideas."

The former First Lady addressed a \$17.50-a-plate charity luncheon sponsored by the Denver Hadassah chapter.

She said development of atomic energy for peacetime use "will present us with serious problems," even should the world be spared an atomic war.

Panty-Modeling Monkey Nurses Hangover Today

SOUTHEND, England (AP)—A panty-clad monkey was arrested for drunkenness yesterday, proving that Benedictine is hardly a proper potion for primates.

Jokko found a bottle of the liqueur while prowling around the house in the absence of his owner Mrs. Molly Jones. Several drinks later, he rummaged through a drawer and turned up a pair of pink nylon panties. He donned these and staggered out of the house.

He soon attracted a large audience of homebound schoolchildren. They laughed merrily, never having seen a drunken monkey in nylon panties before.

In due course, the rumpus attracted a policeman, who took the tiny beast to the station house. Upon arrival, Jokko, now in a bad humor, threw papers about and attempted to bite the desk sergeant. Police finally had to lock him in a cell.

Mrs. Jones was found at last and took Jokko home. He meekly closed his bloodshot little eyes and went to bed to nurse a severe hangover.

Transit Strike Looms in Philly

Workers Plan Citywide Walkout Tonight Over 17-Cent Pay Hike

PHILADELPHIA (AP)—Transportation workers made last-minute plans today for a citywide transit strike at midnight.

Negotiators for the CIO Transport Workers Union last night rejected a 6-cent-an-hour wage increase over a two-year period proposed by the Philadelphia Transportation Co. for its 9,000 employees.

The PTC is the only major public carrier in the city. It provides trolley, bus and subway service to an estimated two million persons daily.

The union rejection of the company offer came in a seven-hour session in the City Hall reception room of Mayor Joseph S. Clark Jr. The TWU is asking a 17-cent hourly increase over the present average wage of \$1.87 an hour. Other benefits are sought but the wage issue is the key one.

Michael J. Quill, international TWU president, described the company offer as a "wage increase of 3-cents next year in addition to the 3-cents they offered us on Tuesday."

A company spokesman said of the PTC offer, "That's all there is, there isn't any more." He implied the PTC couldn't afford a greater increase.

Further negotiations were scheduled for today.

Panicky Airmen Dies; Jumped on Takeoff

EL PASO, Tex. (AP)—A 24-year-old airman apparently panicked during a B50 simulated takeoff last night and leaped to his death through the bomb bay doors while the craft was still on the ground.

Biggs Air Force Base spokesmen said the takeoffs, under simulated adverse conditions, are used to condition airmen to the nerve-racking experience of flying in combat.

"Apparently the program backfired this time," a base spokesman said.

Maj. Robert P. Nelson, Biggs public information officer, said the bomb bay doors were open—a normal procedure in the exercise. The B50, traveling about 60 miles an hour, was one-third down the runway when the airman apparently jumped from the plane, Nelson said. His name was withheld.

Reds Hung Over Again

MOSCOW (AP)—Russians celebrated New Year's Eve all over again last night. This time they set the holiday by the prerevolutionary calendar, which ran two weeks behind the Western calendar now in use.

To keep wicker furniture from turning yellow, scrub it with a stiff brush moistened with warm water.

FROM PLANNERS—Busy making last minute arrangements for their senior prom, "Ecstasy in Blue," tomorrow night are, left to right, Carol Young, 355 Nelson, John Moreau, 22 E. Iroquois, and Gail Barber, 184 Cherokee.

PHS Prom Steals High School Scene

Sports highlights and club activities seem to be the main points of interest to high school students this week, according to our correspondents. A dance here and there, including the PHS senior prom, round out the social side of things.

St. Frederick

Representatives for the newly established Student Council were named this week.

Senior representatives are Alice Riveria, Sharon Wolf, Don Cox and Ross Moody. Representing the juniors are Kathleen Kinch, Sally Crake, Aaron Koenig, and Joe Israel.

Heading the sophomore class are Betty Jo Fitzpatrick, Eleanor Arno, Ed Cast and William Price. Freshmen boast Julia Ann Slowik, Ellen Schachern, Brian Payette and Dick Powe as their representatives.

Basketball captain Jean McHugh's Lambs came home defeated Sunday from St. Mary's of Mount Clemens, but the girls hope for a victory this week as they face their cross-town rivals, St. Michael, who have yet to beat the Lambs in three years.

Senior English students are not hard to distinguish these days, as some walk down the halls with their noses deep in the novel, "The Scarlet Letter," while others are keeping busy with research on term papers.

Many chemistry students were seen coming out of the lab with bloody noses this week. No brawl, but the class were making hydrochloric acid, better known as HCL, which causes the nose to bleed when inhaled into the nostrils.

Seniors are brushing up on facts and figures in order to apply for the Edison Scholarship. This would give the students \$300 to apply to any college of their choice.

One thing is certain, what the senior girls can't think of the senior boys will. When the girls came to school wearing knee length argyles, the boys retaliated by showing up in red cowboy hats decorated with white tassels, and the next day shocked everyone by wearing suits, smart sport jackets, and white shirts. (Just to start a fad, say the boys.)

Pontiac High

Seniors this week completed plans for their prom which will be held tomorrow night. They also picked up senior announcements. Juniors are awaiting the arrival of class rings and pins.

Radio Workshop will begin broadcasting again next Monday with the show, "More Wonderful Than Magic."

Wednesday 13 Future Teachers with club advisor, Mrs. Ann Morrow, went to the Future Teachers Conference at Wayne University.

This weekend the band and vocal students will represent Pontiac High at the Midwest Music Conference. Harold Jones, Joel Thome, James Erwin, Kurt Lauckner and Roland Williams will play in the All-State band, and students Greta Phipps, Jackie Spratt, Raymond Freebury, James Stevens and Philip Twitchel of the Acapella Choir will sing in the All-State Chorus concert.

Movies and slides highlighted meetings of two PHS clubs at recent meetings. The Camera Club viewed slides entitled "Filters and Their Use."

Members of the Chem-Physics Club witnessed the movie "The First One Hundred Years," the story of a young student who falls asleep in 1854 and wakes up 100 years later.

St. Michael

Everyone at St. Mike's this week was anticipating the annual St. Mike's St. Fred's basketball game tomorrow night in the PHS gym. As Coach Bob Mineweaver would say, "This is ulcer week."

Girls' basketball team played their first game Sunday, beating St. James 34 to 17.

With quarterly exams drawing near, students really began to hit the books this week. Also on the scholastic horizon is news that senior English class is digging into the Shakespearean tragedies to study "Macbeth."

Announcement that Sister M. Callista has returned to the staff came as a pleasant surprise to students.

Extra-curricular activities stole the scene this week as field trips were on the agenda for many students. The Future Nurses Club traveled to a Flint hospital to get an inside slant on what their future profession is really like.

The social side of the ledger was well-rounded this week. Fr. Immel announced the first post-Christmas CYO activity, a sock-hop tonight in the hall. The Crock-a-dolls held a meeting at Fran Hayes' home and accepted new members Gloria Vizza, Pat Schertzer and Jeanette

Takes 3 Months, but Cop Tracks Radio Jammer

SALT LAKE CITY (U)—It took three months of tracking, but Police Lt. Wilford Young has finally found what's been causing interference on the Police Department's short-wave communications system.

Armed with an interference detector, Young had narrowed his quarry to one building—half a block from police headquarters. Finally, after more checking, he knocked on the door of an apartment in the building. To the lady who responded to his knock, he said:

"You went out Sunday." Yes, she had.

"You came home Saturday about 8 p.m." That was right too.

Then Young turned on the television set in the apartment. He called headquarters and learned that the radio was jamming again. He turned it off. The communications room reported all clear.

Young said the set was reflecting radio waves onto the frequency used by police. He said the set's owner has promised to stop watching TV until the set is fixed.

Refloated Submarine Gets Inspection Today

NORFOLK, Va. (U)—An inspection was on tap here today for the Navy submarine Tench, which ran aground off Cape Henry last night and then refloated herself with the aid of high winds and heavy seas.

A spokesman for the Atlantic Fleet said it was not known how the sub, which carried a crew of eight officers and 64 men, ran aground. She was stranded from 9 to 10:30 p.m.

SEAMSTRESSES—St. Michael sophomores Margaret Rose and Mary Ann Hartly twins. (Left to right), compare results of sewing classes with Dorothy Allen and Carol Simpson (kneeling). Skirts of corduroy with matching weskits and hats, pajamas and aprons of various designs have all been made by the beginners' class this semester.

The X-ray was so called because its inventor Wilhelm Roentgen, could think of no better name for what he felt was an unknown quantity.
