Sales Festival a Smash Hit

Hurricane Ethel Blusters North, Threatens Rains

Ten Inches Near Gulf May Bring Floods but Winds Diminish

BLOXI, Miss. (AP)—Short-lived Hurricane Ethel, now only a rain storm, blustered northward from the Mississippi Gulf Coast today threatening Eastern Mississippi with heavy rains and flooding.

Up to 10 inches of rain could be expected from Ethel in some areas, with possible floods, the New Orleans Weather Bureau said. The storm's winds were expected to diminish rapidly.

Ethel, spawned rapidly in the Gulf off the Yucatan Peninsula Wednesday, became a full-fledged hurricane with winds over 75 miles per hour in the afternoon.

It moved erratically up the Gulf and west inland slightly west of Bloxi about noon Thursday.

Ethel packed 150 m.p.h. winds for a brief time Wednesday but when it slammed into the coast the winds had decreased to 75 m.p.h.

RESIDENTS LEAVE
Middle coast residents, with Hurricane Donna's devastation fresh in their minds, hurried away along a 300 mile stretch from New Orleans to St. Marks, Fla.

One Red Cross official said more than 6,000 were housed in shelters, while Civil Defense estimates of evacuees ranged near 55,000.

Officials said precautions taken against the highest winds, packed by Ethel when it struck the mainland were near 50 m.p.h. Three Mississippi coastal cities—Biloxi, Gulfport and Pascagoula—were the hardest hit.

Threat at high tides in the wake of Ethel diminished as westerly winds sprang up along the coast. Weather Bureau forecasters said the winds would help keep the tide down from running too much above normal.

As the storm hit the coast, it brought tides as high as five feet and one Weather Bureau observer estimated they were as high as eight feet in some bays. There were no reports of general flooding.

News Flashes

WASHINGTON (AP)—The first phase of President Eisenhower's annual physical checkup was completed today and one of his doctors pronounced him in excellent health.

WASHINGTON (AP)—Industrial production declined about one per cent last month despite the fact that the important auto industry fared better than expected, the Federal Reserve Board reported today.

Woman Worked at Embassy

Cuba Holds Pretty U.S. Employee

HAVANA (AP)—Fidel Castro's secret police held an attractive blonde U.S. Embassy secretary in jail today and brushed off protests by the American ambassador.

The seizure of Marjorie Lennox, 26, of San Francisco, a confidential secretary in the embassy's important economic section, was dramatic evidence of the virtual breakdown in U. S.-Cuban relations.

U. S. Ambassador Philip Bonsal called her arrest "completely illegal." Cuban authorities refused to tell him what charges, if any, they have against her.

The ambassador went personally to the Foreign Ministry to deliver a blistering oral protest Thursday after earlier written protests were ignored.

The first embassy official who tried to see Mrs. Lennox at headquarters of the Cuban Military Intelligence—DIER—was held there four hours himself and then sent away.

Later another official managed to see Mrs. Lennox for a few minutes and reported she was hysterical at the time. Two later attempts by embassy officials to

contact her Thursday night were rebuffed.

Armed agents of Castro's security forces raided Mrs. Lennox's apartment at 1:30 Thursday morning.

APARTMENT SEARCHED
She was held 10 hours while they

MRS. MARJORIE LENNOX

questioned her and searched the apartment and then was taken to DIER headquarters.

Her arrest came to light only after she failed to show up for work and U.S. officials made inquiries at her apartment building.

Mrs. Lennox, who is divorced, has worked in Cuba since last November.

Her passport does not carry diplomatic immunity but it was considered a serious breach of protocol to jail a diplomatic employee without referring the case to the embassy.

An embassy spokesman said she may have been arrested in reprisal for the recent ouster of a Cuban consular official in San Juan, Puerto Rico.

Mrs. Lennox's father, Fred Augustus, said in San Francisco that the State Department in informing him of his daughter's arrest "seemed to feel that although it is a pretty serious incident, she won't be harmed."

The Castro regime meantime made another grab of American-owned property in Cuba by taking over the plant of E. R. Squibb & Son, a chemical and drug firm.

Chairman Says Folks Buying Sidewalk Stock

Unusual Entertainment All Ready for Tonight and Saturday

By PETE LOCHBILER

The Downtown Merchants Association has, as they say on Broadway, a smash on its hands.

Jubilant over records set during yesterday's opening of the three-day Downtown Fall Festival, merchants this morning were expecting ever larger crowds today and tomorrow as festival activity moves into full swing.

"Better crowds than during the Christmas rush in the past two years," was one retailer's description of opening day.

One downtown department store reported sales up 30 per cent over opening day of the festival last year and another estimated a 10 per cent increase.

A fourth merchant reported his best retail day since 1953.

"The consensus up and down the street is that business was good—very, very good," said Norman L. Patton, festival chairman.

STREET SALES HIGH
"Especially good, was business on the street," he continued. "The sidewalk sales were high everywhere."

There was no official count on the downtown crowds, but the peak was reached by the late morning and early afternoon—thanks to the free breakfast at West Haven and Wayne streets, attended by more than 2,000 persons.

"I may have been one of the biggest morning-afternoon crowds in years," said Patton.

Merchants were primed today to handle big evening crowds as well as a daytime throng.

OPEN UNTIL 9 P.M.

Stores will remain open until 9 p.m. tonight and tomorrow.

Despite mist and chilly temperatures, the free breakfast of scrambled eggs and pancakes was packing them in again this morning.

There were 328 persons in line (Continued on Page 2, Col. 3)

State Man, Pal Vanish in Russia

BATH, Maine (UPI)—Two young men have disappeared mysteriously while touring Russia, the wife of one of them disclosed today.

Mrs. Rena Bennett of Bath said her husband Harvey and a friend of his entered the Soviet Union July 7 from Helsinki, Finland. They were due in New York Sept. 1, she said.

The Bennetts' parents of three children, are each 58 years old. Mrs. Bennett said her husband's friend, Mark Kaminsky of Ann Arbor, Mich., was about the same age.

"I don't know what's happened to them," she said. "I am very much concerned."

Mrs. Bennett, who lives with her father here, said she last heard from her husband in a letter dated Aug. 19. It was postmarked Vinnitsa, Russia.

With a Few Raindrops

Shoppers to Have a Cool 77

Shoppers may expect temperatures to rise to near 77 tomorrow with a chance of less than one-quarter inch of rain. Tonight's low will be in the low 50s.

For the next five days temperatures will average near or slightly below the normal high of 73 and normal low of 54, the weatherman said. Saturday will be somewhat warmer and Sunday a little cooler. Monday and Tuesday will show a warming trend.

Morning easterly winds at 8 miles an hour will become 10-15 late today and southeasterly tonight.

Fifty-two was the lowest recording in downtown Pontiac preceding 8 a.m. The reading at 2 p.m. was 73.

Ike's in the Pink, but Careful

CHECKS IN FOR CHECKUP — President Eisenhower arrives at Walter Reed Army Hospital last night for his routine annual checkup. He expects to leave the hospital today and spend the weekend at Camp David. The President, who

will be 70 on Oct. 14, is slated to return in a week or two for completion of the examination after which his doctor will release a report. It is a bit unusual.

No Cuban Guns on U. N. Visit

U.S. Would Disarm Fidel

From Our News Wire

WASHINGTON (AP)—Cuban Premier Fidel Castro and his gun-toting bodyguards have been warned to leave their firearms at home when they visit New York next week for the United Nations General Assembly.

American officials said today they have advised the Cuban Embassy that Castro and his entourage will not be permitted to carry their customary weapons during the bearded Cuban leader's stay in this country.

The State Department already had announced that Castro would be confined to Manhattan Island. He has been placed under the same restrictions as those imposed on Soviet Premier Nikita Khrushchev and the Hungarian and Albanian Communist leaders.

American officials advised the Cuban Embassy to advise Havana that foreigners, bodyguards or not, were not permitted to carry arms in the United States. Assurances have been given that the advice will be taken, the officials said.

The U.S. officials informed the Cubans that the American government, under the U.N. headquarters agreement, was responsible for the safety of Castro and would take every precaution to guard him while he was in New York.

So far as could be learned, a similar warning was not given the Russians regarding Khrushchev's bodyguards. Officials said the Russians know the U.S. law.

These officials have a suspicion that some of Khrushchev's bodyguards on his U.S. tour a year ago may have had small guns secreted on their persons. But if any of the Russians carried weapons, they did it so discreetly that the question never arose. They were never searched.

14-HOUR ALERT

The New York City Police Department

is going on a 24-hour alert to protect Khrushchev, Castro and other controversial foreign leaders.

Beginning at 12:01 a.m. Monday, the 25,000-member force will be mobilized for emergency duty, with all days off canceled and the basic work week 60 hours instead of 42.

Khrushchev, who is arriving Monday aboard the Soviet ship Beluga, already is in for a "brown cheer" harbor reception by members of the Longshoremen's Union, who are hiring an extensive tent for the purpose.

Police said, however, no host (Continued on Page 2, Col. 3)

Belgian King Engaged to Spanish Gal

BRUSSELS, Belgium (AP)—The engagement of Baudouin I, the 30-year-old king of the Belgians, to the 32-year-old daughter of a Spanish nobleman was announced today.

Premier Gaston Eyskens announced on a nationwide radio broadcast the impending marriage of the shy and lanky king to Dona Fabiola de Mora y Aragon, daughter of the late Don Gonzalo de Mora y Fernandez, Rivera Del Olmo, count of Mora and marquis of Casa Rivera. He died in 1957.

Asked if a date for the wedding had been set, a royal court spokesman replied: "Not yet, but royal engagements never last long." He added that the ceremony undoubtedly would take place in Brussels.

The spokesman said he did not know where or when Baudouin met his bride-to-be. Her name had never previously been linked with the king's.

Her ancestry includes members of the royal families of Aragon and Navarre, which played an important role in the history of Spain.

Hospitals Liable, Court Decides

Costs Certain to Go Up
With Higher Insurance
in the Budget

Hospital costs almost certainly will go up in Michigan—perhaps at Pontiac General Hospital as well—as a result of a state Supreme Court ruling on damage suits against hospitals, the president of the Michigan Hospital Association said today.

The court, in a 4-3 decision Thursday, wiped out a 66-year-old rule of law granting charitable, non-profit hospitals immunity at damage suits.

"It would be hard to predict in dollars and cents, but there is no question in my mind that this will lead to higher costs," said Dr. Roger B. Nelson.

"All hospitals perform well. They are not perfect," said Dr. Nelson, whose organization represents 725 hospitals.

He added that many hospitals already carry liability insurance but likely will look for broader coverage.

Pontiac General Hospital, target of several important lawsuits in the past several years, already has taken out liability insurance for protection against losses, said City Attorney William A. Ewart.

But broader coverage may be necessary now, he added.

Insurance costs, like all operating expenses, are reflected automatically in room rates, he said.

Ewart predicted "a rash of vexatious claims" against the hospital as an initial result of the Supreme Court decision.

"Because the city hospital is a public one, the question before the public now is: Should the public, as a whole, through higher hospital rates and insurance rates help bear the cost of individual grievances?"

"The high court has said yes."

The high court's decision upholds St. Clair County Circuit Court award of \$20,000 to the estate of Elizabeth Catherine Pratt, 31, a mother of four, who died 13 days after a transusion of mismatched blood.

Convocation Prelude to Opening of MSUO

FACULTY MARCHES — In a colorful array of caps and gowns, the faculty of Michigan State University Oakland marches into the Oakland Student Center for the university's annual annual freshmen convocation. Addressing some 500 students who will begin college Monday were Chancellor D. B. Varner and Dean of Faculty

Robert G. Hoopes. The convocation yesterday was watched by members of the Michigan State University Board of Trustees and school superintendents from Oakland and Macomb counties. For story see page 35.

Swindle Charge Exam Requested

**Detroit Heating Firm
Owner is Released on
\$1,000 Bond**

The owner of a Detroit heating firm has demanded examination on charges that he swindled a Pontiac firm out of \$108,000 by altering invoices on an addition to the Veterans Administration Hospital in Dearborn.

William McCracken, owner and president of the United Heat Engineering Co. Inc., of 17129 Rockdale St., yesterday surrendered to Pontiac police.

A warrant charges him with uttering and publishing a false and altered invoice and executing a fraudulent warehouse receipt.

McCracken, 33, of 2921 Powers St., Farmington Township, was released on \$1,000 bond yesterday after Municipal Judge Maurice E. Fungsten set the examination for Sept. 26.

Raymond T. Westrick, secretary-treasurer of J. A. Freedman Co., 735 S. Padlock St., said that McCracken defrauded his firm by raising the amount on invoices he presented to Freedman.

The Freedman firm is building a \$3 million addition to the hospital for a physical therapy facility in Dearborn.

Westrick in a statement to the Oakland County Prosecutor's Office, said McCracken had contracted to do \$300,000 in installing heating and air conditioning, but quit recently without completing any of the project.

The official of the Pontiac firm said, however, that McCracken had been paid \$450,000 by the stopped work, claiming he had run out of money to pay him employees.

Hospital Now Liable in Damage Suits

(Continued From Page One)
The hospital is now liable for damage suits.

Court sources emphasized the decision applied solely to hospitals. However, they conceded it would give an argument point to a person seeking to recover \$500 and \$100,000 in damages from a hospital.

The decision prompted a reaction in Pontiac's two other big hospitals.

Sister Mary Xavier, administrator of St. Joseph Mercy Hospital, said she expected a decision on more liability insurance soon from the Sisters of Mercy Detroit Province.

And Harry Whitlow, administrator of Pontiac Osteopathic Hospital, said he would suggest more liability insurance to his board of directors.

Depending on a hospital's reputation, liability insurance runs on the average between \$50 and \$100,000 for \$500,000 coverage. But the rates would soar if a hospital lost a few big cases.

Scanning Schedule for Echo Satellite

DETROIT (UPI)—Timeable for the Echo satellite over Michigan today, Saturday and Sunday:

Today: 7:19 p.m., traveling southeast; 9:30 p.m., traveling southeast.
Saturday: 7:06 p.m., traveling southeast; 9:15 p.m., traveling southeast.
Sunday: 6:42 p.m., traveling southeast; 8:52 p.m., traveling southeast.

The Weather

Full U.S. Weather Bureau Report for Detroit and Vicinity:

High 64, low 44, wind light and variable, some clouds. No rain. Partly cloudy. Mostly clear 10-15 miles away from Detroit.

SHOWN BY TORNADO—A two-family dwelling stands gaping and roofless today after an early Thursday morning visit by a tornado, which was spawned by Hurricane Ethel. The house was one of 23 in Springfield, Fla., near Panama City, damaged by a tornado which ripped through the community without warning and disappeared in about a minute. (See story on Page 1.)

Missing County Pair in Possible Swindle

(Continued From Page One)
because of insufficient funds, and signed by Ritter have been brought to the attention of his office.

He said he has already issued an order for a warrant charging Ritter with passing a bad \$300 check in a Royal Oak drug store.

Gambling was given for the Ritter's apparent financial disaster. The note from Mrs. Ritter said "Bill has lost \$60,000 gambling."

Another attorney, Arthur M. Schaefer, today was appointed receiver of the nursing home and the Ritter residence by Joseph C. Murphy, referee of the bankruptcy court.

Below he received the letter, Middleton said he received the keys to the nursing home, right across from the entrance of the Detroit Zoo, and the Ritter house, the letter came the next day.

THING IN A MESS
"Things are in such a mess that we have had to chuck everything and leave," it read in part.

Schmier, meanwhile, had filed the bankruptcy petition in an effort to resolve the situation at the nursing home where patients and employees were left with no operating funds.

The FBI said it had been notified of the family's disappearance but had not yet started any investigation, pending determination of whether any federal law might have been violated.

The bankruptcy petition was filed on behalf of three creditors, but Middleton said there possibly were more than 20 to whom the Ritters owed money, mostly for loans, many of which were obtained without collateral.

The three creditors listed in the petition were John Keill and his sister Hazel, who said they loaned the Ritters \$72,400; Pearl L. Knack with a claim of \$4,000; and Henry Becker, Royal Oak, who loaned them \$4,500.

Schmier estimated that the Ritters' debts might be as high as \$250,000.

Taylor said employees said Ritter had obtained money on the pretense he was going to use it to build a new nursing home.

The Soviet government will pick up the \$15,000 tab for refurbishing city-owned Pier 3, where Khrushchev's ship will dock. The pier has been termed "one of the oldest and most decrepit" in New York waterfront.

Evergreen-Farmington Sewer to Open on Oct. 1

The new target date for the opening of the Evergreen-Farmington sewer interceptors into Detroit has been set for Oct. 1.

The date—exactly three months later than originally expected—was arrived at after a meeting in Southfield yesterday with officials of the city, Oak Park, Detroit and Oakland County.

Yesterday was to have been the date for the removal of the bulkheads, but the date did not allow Detroit to receive and vote on the agreement for construction of the long-awaited South-Oak storm drain along Eight Mile road.

The new date will allow Detroit to take care of any legal technicalities, Alexander said.

He said the Detroit Common Council will be presented with a two-part agreement Tuesday by Glenn C. Richards, Detroit's DPO commissioner.

It will spell out that Oak Park and Southfield has agreed to re-purchase (buy back) some of the city's sewer lines.

He said the agreement will also spell out the responsibilities of each city for the construction of the sewer lines.

The new agreement will also spell out the responsibilities of each city for the construction of the sewer lines.

The new agreement will also spell out the responsibilities of each city for the construction of the sewer lines.

The new agreement will also spell out the responsibilities of each city for the construction of the sewer lines.

Downtown Festival a Big Hit (Continued From Page One)
when serving began at 9 a.m. and well over yesterday's number were served by 10:30 a.m. today.

The breakfast will be offered again tomorrow, 8:30-10 a.m. There will be free bus rides downtown again, 8:30-9:30 a.m.

Municipal cops, packed with shoppers, carried out a parade at 10 a.m., beginning at Saginaw and Auburn Avenue and ending on West Huron, a trained pet show, more weightlifting and a ramping exhibition.

Music and dancing highlighted stage entertainment last night. Featured were the Stanco National School of Music, the 104th North Side Community Club talent show, the Warren Allen Promenade, the Bonneville guitar show, and the Warren Allen Promenade.

Today's entertainment began with a 2 p.m. style show at the courthouse.

Tonight, for instance, sailors from the Gracie H. Naval Air Station will drill on West Huron Street. The YMCA will stage the first runoffs in a statewide weightlifting contest, and the women's auxiliary of the Optimist Club will present a comic talent show.

Tomorrow's special events include a sports car parade at 10 a.m., beginning at Saginaw and Auburn Avenue and ending on West Huron, a trained pet show, more weightlifting and a ramping exhibition.

The Day in Birmingham

R. W. Page Likely to Fill Vacancy on Commission

BIRMINGHAM — The City Commission said last night that it will recommend the resignation of Lance M. Page to the City Planning Board.

Page, 38, of 2401 Manchester St., has been a member of the planning board since 1953. He served a one-year term as chairman of the board last August.

He is married and has four children.

Page resigned his post Aug. 24 in a letter to the mayor, in which he stated it was "impossible" to serve the remainder of his term.

He gave no further reason.

Plans for taking further training in city planning were mentioned by members of the Birmingham-Bloomfield Hills branch of Zonta International.

The group has already received instructions in the region of travel and information phase of the trip from one of its members, Mrs. John F. Warren who is a member of the group.

Buya Queen's Carpet

MASSENA, N. Y. (AP)—A Florida dealer has purchased the 60-foot-long red carpet rolled out for Queen Elizabeth II during her visit to the St. Lawrence Seaway.

Buyer was the highest of 47 submitted.

Applications are being distributed through the schools and recreation will be accepted at the Recreation Office today.

Each series of classes includes 10 lessons. All children must be registered before attending classes. Recreation Director Donald Martin said.

Mrs. Walter A. Bragiel, Service for Mrs. Walter (Hazel) A. Bragiel, 73, of 1012 Henrietta St., will be 11 a.m. Saturday at the Chapel of the William R. Hamilton Co. Burial will be in Woodlawn Cemetery, Detroit.

Mrs. Bragiel died Wednesday at her home following a long illness. Surviving are her husband, Dr. Walter Bragiel, a son James C. of Birmingham, and three grandchildren.

Mrs. Kathleen H. DeHann, Service for former Birmingham resident Mrs. Kathleen H. DeHann, 50, of Wauwatosa, Wis., will be today at Christ Church Cranbrook with burial in White Chapel Memorial Cemetery, Troy.

Mrs. DeHann died Tuesday at her Wisconsin home.

Surviving are son William of Flint, Martin of Albuquerque, N.M., and John of Wisconsin; sisters Mrs. Lloyd E. Muller of Flint and Mrs. James K. Wainwright of Birmingham; and two grandchildren.

Funeral arrangements were made by the Bell Chapel of the William R. Hamilton Co.

IN DAD'S FOOTSTEPS — Emmett Kelly Jr., first son of the famed clown, is planning — at the age of 35 — to follow his father's footsteps in show business. Kelly Jr., who now works as a switchman in the Peru Railway yards, will make his debut Saturday in the annual Clarks City Festival parade at Peru, Ind. He plans to use much the same costume as his father, whose picture he holds.

Questions Proposal on Vote Registrars

DETROIT (UPI)—The Wayne County Republican chairman today raised the question of whether a Democratic proposal, permitting candidates to act as vote registrars might "cost a cloud on Detroit's fine reputation for clean elections."

Norman O. Stockmeyer said he had been called out of a meeting and informed that the City Election Commission had approved a plan to "have all candidates for public office deposited to register voters."

He said the plan had been proposed by the chairman of Wayne County Democrats and Paul Silvers, a union local president.

He said that neither he nor any Republicans had been invited to the meeting where the plan was approved.

Manchuria Is Flooded

HONG KONG (AP)—The biggest flood in a century swept North China's rich Liaoning Province in Manchuria, a belated official Communist report disclosed today. No mention of casualties.

Whiff, Whiff! Youth Can Be Arrested

A whiff of liquor on a minor's breath will be sufficient excuse for his arrest in Pontiac.

Police have been notified to detect persons under 21 if they detect an odor of any intoxicating beverages on the minor.

The testimony of the officers will be a "matter of evidence" in court, according to Assistant City Attorney Sherwin M. Birnkant and Municipal Judge Cecil McCallum.

"In a nutshell," Birnkant said, "our officers may arrest a minor person for possession of intoxicating beverages if the officer smells the intoxicating beverage on the minor."

"Seeing him drink it, or hold it in his hand, or carrying it in his car, is not essential."

"Of course," Birnkant said in a memorandum, these examples can constitute, "in a proper case, the same charge."

"I concur with Judge McCallum's observations in this regard," Birnkant said.

Police have been ordered to make arrests in conformance with the new ruling.

Output, Sales of Cars Rise

Now Running 10 Pct. Over Some September Period of 1959

DETROIT (UPI)—Automobile production this week totaled 53,189 units, compared with 52,635 last week and 62,716 in the same week a year ago, Ward's Automotive Reports said today.

In addition, 15,913 trucks were turned out compared with 13,171 last week and 19,903 in the same week last year.

This brought combined car-truck production for the week to 106,102, compared with 65,806 last week and 62,619 in the same week last year.

Cumulative car-truck production for the year is 5,623,850 as against 5,010,697 at this point last year.

Ward's also reported that new car sales in the Sept. 1-10 period totaled 155,846, an increase of 10 per cent over the same period last year.

The increase reversed the trend which saw August sales drop by 3.2 per cent.

The early September surge was highlighted by the compact taking 23.3 per cent of the total sales.

Sub Scorpion Quiets Fears of Trouble

LONDON (AP)—The American nuclear-powered submarine Scorpion broke a 24-hour radio silence today to quiet fears that it may have run into trouble during naval maneuvers in the Atlantic.

The 250-foot submarine, carrying a crew of 100, reported "all is well" and gave its position in response to a message from the anxious British Admiralty.

A scare developed when the Admiralty put out a precautionary "Sub Miss" signal Thursday night after failing to hear from the Scorpion. This is a precautionary alert to shipping in the area to be on the lookout.

A mixup in interpreting orders was blamed for the confusion.

Flint Soldier Drowns at Camp Pendleton

CAMP PENDLETON, Calif. (UPI)—A search is under way for the body of Marine PFC. Luther Briggs, 20, of Flint, Mich., who was presumed drowned Tuesday during a unit recreation swim.

Briggs disappeared while swimming with two companions. All were attached to the 5th Marine Regiment of the 1st Marine Division.

The ancient Egyptians were expert gardeners. Remnants of funeral wreaths found in tombs prove that people of the Nile grew such flowers as the lily, cornflower, and narcissus.

K Forecasts 'Better Times' for U.S., Russia

LONDON (AP)—Soviet Premier Nikita Khrushchev expressed confidence today that "better times will come" in relations between the Soviet Union and the United States.

He expressed this view in a message from the vessel Beluga, carrying him to New York, rejecting a lecture invitation from the forum of the Harvard University law school.

His reply, broadcast in Russian by Moscow radio's home service, said Khrushchev would be unable to accept because of the U. S. decision to confine him to the limits of Manhattan.

Foresees 35 Per Cent for U.S. Compacts

NEW YORK (UPI)—Byron J. Nichols, Chrysler Corp. vice president in charge of sales, predicted today that American-built compacts will capture at least 35 per cent of the total car market in the 1961 calendar year.

Nichols, speaking at the eighth annual marketing conference of the National Industrial Conference Board here, also said Chrysler was planning for a year in which sales would match 1960—when they are expected to reach 6.5 million units including imports.

"We are also aware," he said, "that the potential is there to make 1961 a much better year than 1960."

Adlai Opposed to Curb on K, C Leaders Together

Says It's Calculated to Throw These Red Leaders Together

NEW YORK (AP)—Adlai E. Stevenson says he is opposed to the State Department decision to confine Soviet Premier Nikita Khrushchev and Prime Minister Fidel Castro of Cuba to Manhattan Island during their attendance at the United Nations General Assembly.

"I must say that to confine Castro and Khrushchev both in Manhattan is calculated to insure that they see as much of each other as possible," Stevenson said Thursday night.

Stevenson, former Democratic presidential candidate, was interviewed on the Mutual Radio network program "The World Today."

He said he thought Khrushchev's primary objective in attending the session starting next week "is to woo the new African states."

Stevenson also expressed belief that the Soviet Union genuinely wanted to slow the armament race in order to divert more resources to producing consumer goods in its economic competition with the Western world.

New York State is the leading industrial state in the country. It has 72 per cent more factories than second-ranking California. New York producers employ one-third more people than Pennsylvania.

Six Killed in Algeria by Terrorist Violence

MOSTAGANEM, Algeria (AP)—Two persons were killed and 20 injured Thursday night by a bomb blast in a crowded theater. The explosion was blamed on Nationalist rebels.

in rebels. And in central Algeria, three men invaded a cafe at Berrouaghia and killed three Europeans and an Algerian.

Tito Soils for U.N.

CHERBOURG, France (AP)—President Tito, of Yugoslavia, sailed Thursday night for New York aboard the liner Queen Elizabeth to attend the General U.N. Assembly opening next Tuesday.

Bogota Meeting Tests America's Leadership

Representatives of the American republics are meeting in Bogota, Colombia, to plan a massive development program for the Southern Hemisphere.

Undersecretary of State C. Douglas Dillon is leading the United States delegation with economic ministers and experts from the other countries. Congress recently authorized an appropriation of \$500 million to get the program started but no details have been worked out.

At a previous meeting a preliminary agenda had been submitted which would help to finance Latin-American development; ensure markets for raw materials; train experts for economic, agricultural and educational work and finance inter-American research to support industrial development.

There is great need for raising the living standards of the population which has doubled in 25 years and to provide schools, hospitals and the like. Two or three per cent of the people in these countries usually own most of the land.

Since 1956 the Latin-American economy has declined steadily. Tax reforms are a necessity. Initiative and financial assistance must come from Latin leaders themselves even of whom are interested only in personal profit.

The conferees have a tough job. But if their governments don't meet some of the needs of their peoples, they (and the U.S.) might have another Castro on their hands.

Gery Williams Follows Governor's Footsteps

"A chip off the old block" is certainly the proper designation when referring to GERY WILLIAMS, 19-year-old son of the Governor of Michigan.

Soapy's son Gery is obviously interested in politics, so much so that he is taking a year off from his studies at Princeton University to hit the campaign trails in behalf of Sen. John F. Kennedy.

During his summer recess from school he spent most of the time working in his father's office at the State Capitol. Now he has been appointed chairman of the Young Citizens for Kennedy in Michigan and will take his first official turn at emulating what Dad has been so successful at for the last 12 years.

Share of Cuba's Sugar to Make Trujillo Richer

When the Administration cut Cuba's sugar quota, Congress allotted the extra amount to other countries including the Dominican Republic.

Under that law, in addition to their basic quota of 131,000 tons, Dominicans would receive 321,857 tons formerly assigned to Cuba. The extra sugar would amount to \$35 million most of which would go to Trujillo who owns 70 per cent of the industry.

This leaves the Administration in an embarrassing position. American foreign policy condemns the TRUJILLO regime and on the other hand our government gives him an extra \$35 million sugar quota.

While Congress was willing to cut Cuba's share because of Castro's seizure of Americans' plantations and general anti-Americanism, TRUJILLO's congressional friends would not give President Eisenhower the requested legislation to enable him to cut the Dominican quota.

Congress and the sugar industry

have developed a system of subsidies, tariffs and quotas to compete with the cheaper Latin-American sugar. As a result the wholesale price of raw sugar in the U.S. is two cents a pound higher than the world price.

As the law stands, President Eisenhower is required to give to one dictator what he has taken from another. This will not make us any friends in Latin America where there is some sympathy for Castro but none at all for Trujillo.

The Man About Town

One More Week

Football Contest Now Has Only Few More Days to Go

Jack Frost: A guy who takes Jack from our growers.

One week from today at noon is the final hour for receiving entries in our 1960 football contest. After that, your chance to win that \$300 prize is gone. Don't let that happen.

Check the team which you think will win each game. If you think the game will be a tie, do not check either team. Then write your name and address on the margin.

Every member of your family can compete. The list can be written out for the others. Only one entry is allowed for each person. Here's the list of games:

Sept. 14—Osburn vs. O'Connell

Oct. 1—Michigan State vs. O'Michigan

Oct. 8—Stanford vs. O'Washington

Oct. 14—Pontiac Northern vs. O'Waterford

Oct. 15—Texas A & M vs. O'Texas Christian

Oct. 22—Colorado vs. O'Nebraska

Oct. 23—LSU vs. O'Mississippi

Oct. 24—St. Michael vs. O'St. Frederick

Nov. 6—Lions vs. O'San Francisco

Nov. 12—Iowa vs. Ohio State

Nov. 13—Pontiac Central vs. O'Pontiac Northern

Nov. 19—Harvard vs. O'Yale

Nov. 26—Army vs. O'Navy

Dec. 4—Chicago Bears vs. O'Green Bay Packers

Finalist for her state in the recent Atlantic City beauty contest was Miss Vicki Nutter

of Vandalla, Ill. She is the granddaughter of Mr. and Mrs. Lance F. Nutter of 2640 Crooks Road, Pontiac.

Finding a nest of young skunks, the family dog of Mr. and Mrs. Eugene Weisell of Waterford, brought one up to the house, but was not sent back for any more.

This is your final call for the Winner Home open house: from ten to two o'clock on Saturday. You'll be glad that you accepted the invitation.

"Our next winter's flapjacks are gone," phones Elmer Warlickson

of Commerce. That frost killed his patch of buckwheat while the grain was in the milk.

Not the Use for Which It Was Intended

David Lawrence Says:

We Must Have Equal Time With K

WASHINGTON—Will the American people have "equal time" on television and radio to reply to Nikita Khrushchev?

Moscow radio is telling the world that the Soviet premier has been "delisted" with invitations from television and broadcasting organizations in this country to speak next week while he is in New York City.

Khrushchev's movements have been restricted to Manhattan by order of the State Department, but there can be no restriction on the distance his voice may travel through the air to distribute his propaganda.

The principle of "equal time" has become a symbol of fair play in political debate in this country. In fact, Congress has by law provided that the candidate of the two major parties must be given equal time over the air.

By analogy, it is equally important that in the middle of a political campaign some visitor from a foreign country, whose words are designed to influence the course of the presidential contest, shall not be permitted to make a presentation of his views without a rebuttal from an authoritative American source.

IT MUST FOLLOW

The broadcasting and television companies naturally do not like to give up time unnecessarily, and they usually like to fit rebuttal programs into schedules at their own convenience.

But in a case as vital to the interest of the United States as an answer to the propaganda campaign carried on by Khrushchev, it is essential that the reply program be put on the same audience and immediately after the Soviet propaganda has spoken.

It is quite possible that the broadcasting and television companies may deem it desirable to invite Vice President Nixon and Sen. Kennedy to make separate replies after the Soviet premier has spoken.

Certainly there would be a big audience for such a dramatic reminder provided it followed directly after Khrushchev's appearance on the air.

It isn't important which semi-weekly program is chosen for the reply program, as each speech will be judged on its merits.

But it is necessary that the American people be told instantaneously of the deceptions and false statements the Soviet premier is bound to make judging by the line he has taken in the past and his utter disregard of factual data in discussing international affairs.

It isn't enough to arrange for unofficial persons to comment on the Soviet premier's talks.

There are large segments of the American people who will wish to get the United States Government's own point of view.

Indeed, it would be a 10-strike if the U.S. secretary of state, Christian Herter, would agree to make a rebuttal immediately after Khrushchev's speech.

One of the subjects, it is believed, that the Soviet premier will dwell upon is the demand for admission of Red China into the United Nations.

It has been reported several times that the addition of newly

countries in Africa—10 have been approved by the Security Council for admission—will tip the voting balance in favor of the Soviets, and so does Nationalist China.

There is no way by which Nationalist China can be "expelled" or forced out of the Security Council because China is designated in the U.N. charter as a permanent member.

formally recommended such a step.

The United States possesses a veto power in the Security Council, and so does Nationalist China.

Voice of the People

Merchants Pleased With Success of Fall Festival

The success of the Downtown Fall Festival, which closes Saturday, is reaching the expectations of its most optimistic supporters, and this is a lesson to be taken to heart. There is plenty of life in the heart of our city.

The next step must be a program for continuing the momentum so happily begun three years ago. This one step is an overwhelming success because of the universal cooperation along highway and Huron Streets. If that spirit can be maintained, everyone in the area will benefit.

There cannot, of course, be carnivals every month. But, there can be constant emphasis on what downtown Pontiac has to offer in shopping, civic activities and entertainment. There can be well planned occasional events to encourage family excursions.

Other cities have experimented with shopper's malls and similar devices to highlight the advantages of downtown shopping, and with the benefit of the festival experience behind, the downtown merchants would be encouraged to investigate.

The men who put this event across deserve a hearty vote of thanks and more substantially, pledges of constant support in the future.

DAVID H. HOROWITZ
Vice President of Retail Merchants Association

Students Want Facts About Communism

The students in one of my classes at a high school in this general area are very concerned about communism and its intentions of conquering the world. We have been told that Mr. Khrushchev once said that we and our future children are to live under Communist rule. The very thought of this has stirred our minds so that now we want to fight communism and its cause.

We want to know more about communism. We feel that our teachers should tell us the facts, for if they don't we may be found

Portraits

By JOHN C. METCALFE

East Berlin
An old woman in a black dress shuffling along a shadowy street . . . And a gray-haired man with stooped shoulders slowly passing . . . The silence of an empty boulevard at night . . . Stores "stuffed with costly wares" . . . And lean customers gazing at them from open doorways . . . Quiet Western newsmen, seated at a screaming Communist news conference . . . And outside, Red propaganda billboards screaming at the public . . . Red troops goose-stepping like the old Prussian army . . . Monument to 17,000 men from Moscow buried under a flower-lined garden surrounding it . . . With pale-faced women in dark dresses riding leaves under wind-worn trees . . . And on the elevated train heading for West Berlin . . . A young couple fleeing to sanity and freedom.

Thoughts For Today

That in the coming ages he might show the immeasurable riches of his grace in kindness toward us in Christ Jesus.—Ephesians 1:7.

Jesus is the true manifestation of God, and He is manifested to be the regenerating power of a divine life.—Horace Bushnell.

Case Records of a Psychologist:

Practice Golden Rule in Marriage

Never let foolish pride prevent you from following sound psychological strategy. If a husband and wife are quarreling, neither feels like paying the other a compliment. But peace and happiness will not ensue until one or the other breaks the ice and apologizes or pays an honest compliment. Prizes beguile pride, whereas sleep breeds sleep.

By DR. GEORGE W. CRANE
CASE F-47. Nancy L., aged 32, is married to a man of 48.

"Dr. Crane, Harry treats me terribly," she sobbed in my office recently. "He comes home from work and may never say a word to me all evening."

"Or if he does," he usually criticizes my cooking or calls me names because I don't have the house as clean as he would like it."

"Sometimes he awakens at night and tells me I am crazy." He often threatens that he is going to leave me.

"Last night he came home grumpy and irritable. He ate his supper in silence, then sat down to read the paper."

"As he was planning to go to bed at 8 o'clock, I asked him if he would drive me to church first, for I was late and had to pretend to attend a woman's meeting there."

"Then he growled at me for never staying at home, so I told him it was all right, for I was so late I might just as well stay home anyway."

"He finally told me to throw on my things in a hurry and he'd drive me over to church."

"Dr. Crane, he never says anything nice to me and my life is a misery."

DR. CRANE
threatened that he is going to leave me.

U.S. Congressmen Get Angry in Mexico

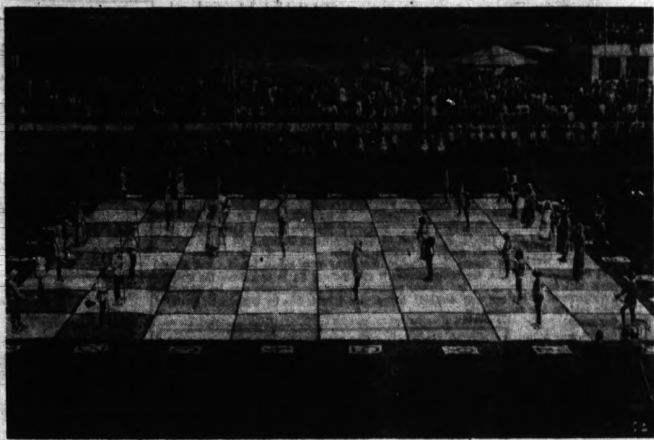

MEXICO CITY (AP)—A pro-Cuban speech by a Mexican deputy provoked three U. S. congressmen into boycotting a luncheon marking Mexico's 150th anniversary celebration.

Sen. Kenneth Keating, R-N. Y.; Sen. Thomas J. Dodd, D-Conn., and Rep. John J. Rhodes, R-Ariz., refused to attend after a speech by Deputy Emilio Sanchez Piedras before parliamentary delegates from 25 countries. The luncheon was being given by the Mexican Congress.

The U. S. legislators became annoyed when Sanchez Piedras told a special session of Congress that "justice assists the noble people of Cuba."

Sanchez Piedras several weeks ago defended Cuba. He said at that time, after the Mexican government shied away from backing him up, that he was speaking only for himself.

Vehicle Tax Receipts Up
LANING (AP)—Taxes on new motor vehicle registrations have jumped by \$2,127,911 over 1959, Secretary of State James M. Hare said today. Registrations were up 121,486 to 3,308,970.

THIS GAME IS 'LIVE'—Costumed humans are the pieces and pawns on giant chess board set up in football stadium at Eupen, Belgium. The figures moved as Belgian and German opponents during the game.

MERGER EMBLEM—This is the emblem of Erie-Lackawanna Railroad merger of Delaware, Lackawanna & Western Railroad and Erie Railroad Co. authorized Thursday by the Interstate Commerce Commission. The headquarters of the new Erie, Lackawanna Railroad Co. will be in Cleveland and will operate approximately 3,000 miles of railway lines in New York, New Jersey, Pennsylvania, Ohio, Indiana and Illinois. Prize winner for the emblem is Truman G. Knight, 23, of Stow, Ohio, an Erie locomotive fireman.

Highland Road Project to End

Widening Pavement Cost is \$230,000; Sides on Telegraph Next

A road construction project in Waterford Township totaling more than \$230,000 is nearing completion on Highland Road, according to John A. Wills, Michigan State Highway district engineer.

For the past six weeks, traffic at every major intersection from Telegraph Road to Williams Lake Road has been slowed down to 15 miles per hour for the pavement widening now in progress.

A single concrete lane and curbs on each side of Highland Road has been constructed with the exception of the Telegraph Road area. Wills said that work will begin at that point early next week.

The largest stretch of concrete is being laid at the Elizabeth Lake-Highland intersection. The paving continues on both sides of the road to the Oas Lake Road intersection on Highland.

Wills added that construction completion is set for the middle of next month.

Dr. Peale Protests Innocence

Party Chairmen Urge End to Religious Issue

By GEOFFREY GOULD
WASHINGTON (AP) — The Republican and Democratic national chairmen called anew today for an end to the religious issue in the presidential campaign, even as they accused each other's backers of trying to keep it alive. The new round of statements by Sen. Henry M. Jackson, the Democratic chairman, and Sen. Thurston B. Morton, the Republican leader, did little meanwhile to quiet the controversy concerning the Roman Catholic religion of John F. Kennedy, the Democratic presidential nominee.

Morton, noting a Jackson statement that the mails are being flooded with anti-Catholic literature, accused Jackson of "trying to keep the discussion of religion alive in the belief it will benefit the Democratic candidate."

Jackson, saying he knew of none from Republican party leaders, charged that the mailings were an effort to defeat Kennedy. Morton contended that Jackson made charges by innuendo that "he knows are wholly unfounded."

In a statement replying Thursday night, Jackson called on Vice President Richard M. Nixon "to publicly repudiate those who are carrying on a campaign of religious bigotry or forever bear the consequences."

BABE IN THE WOODS
—In other developments: Dr. Norman Vincent Peale, who became a storm center of the dispute, said he was only an innocent bystander — "a babe in the woods," in his own words — when a group of Protestant ministers and laymen met in Washington to issue a statement on the subject. Dr. Peale said he has resigned from the group.

—Kennedy himself took a crack at Dr. Peale when he told a New York Liberal party meeting "I have heard the Republican platform referred to as 'The Power of Positive Thinking.' That was the title of one of Peale's most popular inspirational books."

Morton, answering a Jackson statement of the day before, said there "seems to be a systematic campaign by highly placed Democrats" and others to "keep the religious issue inflamed."

He called on Jackson and Kennedy to accept a Nixon suggestion and "set a firm date to end this discussion of the subject right now."

Renewing his attack, Jackson said "an organization of Texans for Nixon are spending \$1,000 a

day on 34 radio stations to appeal to religious intolerance." He said this campaign is being conducted by Carr P. Collins, chairman of the Texas group.

The U. S. Bureau of Customs reports about 56 million pounds of cheese is imported annually. Yet, the United States is still the world's top cheese producer with one and one-half billion pounds annually.

Philadelphia School Rejects 4 Negroes

PHILADELPHIA (AP) — Officials of an integrated school with a 20 per cent Negro enrollment say they denied four Virginia Negro teen-agers admission because it is overcrowded.

The four, from Prince Edward County, Va., sought to enroll in the suburban Shady Grove Junior High School. They were brought here by the American Friends Service Committee. They range in age from 14 to 16.

The school board voted Thursday 4-1 to turn down the applications. The only vote for admission was cast by William G. Smith, a Negro.

BOMBER SUSPECT — Eighteen-year-old John Kurkowski struggles with detectives at a New York police station after his arrest on charges of setting off a bomb on the city's upper East Side. He is one of two youths taken into custody Thursday after an explosion shattered a phone booth Wednesday and another ripped through a hallway of an apartment building early Thursday. Police were relieved at their capture. They had feared the consequences of having a mad bomber at large in the city while Soviet Premier Nikita Khrushchev and the heads of many unfriendly nations were in New York for the U. N. meeting next week.

Machine Sales at Peak

CHICAGO — Sales by automatic vending machines in the United States rose to 2,900,000,000 last year. The industry predicts sales of four billion dollars a year by 1965.

States May Find Aged Aid Hard

U. of M. Prof Claims Program Could Cost Up to \$2½ Billion

ANN ARBOR, MI — States may find it impossible to meet their share of the financial burden under a program of medical care to the aged such as that recently enacted by Congress, a University of Michigan expert says.

Prof. Wilbur J. Cohen estimates such a program could cost between \$1½ and \$2½ billion annually, and "it is reasonably certain that the states cannot meet their share of such costs."

The program enacted by Congress differs from Social Security in that it is wholly tax-supported and is not financed by contributions from those who eventually will benefit.

Cohen made his observation in an article to be published in the October issue of Public Welfare magazine.

Radio Station to Honor Nikita With Silence

KINGSTON, N.Y. (UPI)—Radio Station WBAZ has dropped a curtain of silence on Soviet Premier Nikita Khrushchev during his stay in this country, it was announced today.

Program Director Jack Marquardt said the name of the Soviet chief will be deleted from all its national and international news dispatches while the Communist boss is in New York.

Oklahoma is the second-largest producer of winter wheat in the United States.

Portable Battle Radar Developed by Britain

LONDON (AP)—The British War Office has announced the development of a portable battlefield radar which can pinpoint enemy mortar positions.

It said the radar can track mortar shells in flight and calculate the spot from which they were fired.

Nigeria to Send Troops

LAGOS, Nigeria (AP)—It has been officially announced in Lagos that Nigerian troops are to go to the Congo in October to reinforce U.N. forces there. Nigeria becomes independent Oct. 1.

RED BANTINGS — Soviet Foreign Minister Valerian Sorin avidly delivers a resolution to the U. N. Security Council Thursday calling for the 4,000-man U. N. force to get out of the Congo. He also demanded that the force stop what the Soviets labeled intervention in the internal political affairs of the Congo.

Improved insecticides are lead- Frankfort is one of Germany's ing to a greater production of about 1,000,000 tons of insecticides.

Factories Push Cars This Week

Output to Be 86,356
Which Is 63.1 Per Cent
Above Last Period

DETROIT (AP)—Car manufacture this week in the United States is 63.1 per cent above last week with factories stepping up new 1961 model production, Automotive News said today.

The trade paper said the scheduled production this week is 86,356 passenger cars as compared to last week's production of 52,733 and 62,715 for the week ended Sept. 19 last year.

Only Ford's Lincoln and Thunderbirds have yet to get into 1961 model production.

Compact cars will make up 43.5 per cent of this week's output, Automotive News said. The Compacts' share last week of 48 per cent and a year ago it was 30.4 per cent.

Truck production is up to 20,048 this week as against 13,152 last week and 19,940 a year ago, the paper said.

Automotive News said Canadian

manufacturers also stepped up new model production this week, scheduled 2,336 cars and 1,145 trucks as compared to 1,088 cars and 291 trucks last week. For the comparable week last year Canadian production was a total 3,576 cars and trucks.

Think K Wants Dog Custody, U.N. Moved

LONDON (AP)—British diplomats express belief that Soviet Premier Nikita Khrushchev will demand two changes in the United Nations—a new location for its headquarters and a new secretary general.

These sources say that when Khrushchev goes before the U. N. General Assembly next week he is almost certain to insist on moving the headquarters off American soil, unless Washington relaxes its restrictions on visiting Red leaders' travels.

CREWMEN ON POLAR ICE—Crew members of the nuclear-powered submarine USS Seadragon walk over the ice at the North Pole Aug. 25. This photograph was released in Washington Thursday by the Department of Defense. It was made through the submarine's periscope while

she was surfaced. The Seadragon's 3,800-mile voyage took her from Portsmouth, N. H., to Honolulu, Hawaii. She was submerged 90 per cent of the time. One of the crew dressed up as Santa Claus and acted as the official greeter while the sub was at the North Pole.

AP Photos

Completely Modest

DALLAS, Tex. (UPI)—A Dallas store that obviously wanted to dress up its appearance placed a sign in the window: "Clothed for remodeling."

Flood South America by Plane

Latin Smugglers Flying High

BUENOS AIRES (UPI) — The airplane is to international smugglers in South America what the fast yacht is to their brethren in the Mediterranean.

Hardly a week passes without news of mysterious aircraft and still more mysterious cargoes dropping from the skies into remote places. Some are captured but, unlike fishermen's tales, little is ever heard of those who got away.

These unknown daredevils drop the aches with loads of stolen clothing, Swiss watches, precision tools, typewriters, cameras, and other goods in great demand.

They also go in for human contraband. Many an underground Communist agent or hunted political enemy is willing to pay the price to get in or out of a country without passing frontier guards.

SOME START IN U.S.

Some of these flights start in the U.S.A. with chartered or privately owned planes, usually from Miami, many others are between Argentina and the neighboring countries of Chile, Peru, Bolivia, Paraguay, Brazil and Uruguay.

Now that the Argentine peso is a hard currency and Brazil has a relatively soft currency, it is good business to fly out transistor pocket radios worth 2,000 cruzeros in Brazil or 1,000 pesos Argentine currency to Argentina where they can be sold for three times the price.

So great is the smuggling of Swiss watches in Argentina that the Swiss government has several times made formal representations to Argentina. President Frondizi during his visit to Switzerland recently announced a reduction in duties on Swiss watches in hopes of stemming the tide.

However the smugglers bring in watch movements and add the gold cases locally. If the gold loses luster and is not up to Swiss standards, the Swiss get the blame.

Hardly was the ink dry on the president's decree when a Brazilian owned Cessna 300 landed on a farm at General Pacheco northwest of Buenos Aires, before the curious eyes of two mounted policemen. Seeing the cops, the pilot and another man clambered out and fled, leaving a \$15,000 cargo of 10,000 Swiss watches and 50 transistor radios.

Later, it was disclosed that the plane was from Sao Paulo, Brazil, and had been making weekly trips.

Argentine antismuggling forces are now keeping watch on airplane hangars and workshops, looking for suspiciously souped-up extra tank jobs. They also have appealed to farm laborers to report to authorities if their neighbors seem rich without tilling the soil.

Plated, Which Is No Offense

Rare Coin Turns Out to Be Worth One Cent

WASHINGTON (AP)—A supposedly rare coin confiscated by the Secret Service from a Justice Department employee turned out Thursday to be a regular penny which the mint says is worth one cent and no more. The holder had disingenuously turned down a \$100 offer.

The Secret Service took the coin from Mrs. Joseph Gledier of the urban Silver Springs, Md. The service acted on a tip that Mrs. Gledier had a penny which, through a mint error, had been imprinted on metal intended for the production of dimes.

Dime blanks occasionally slip into penny-making machinery. The mint contends that the resulting rarities may be confiscated on grounds they are not legally tested.

Believing that Mrs. Gledier's penny was in this category, the Secret Service turned her coin over to Leland Howard, assistant director of the mint. Howard took it to the mint laboratory where it was weighed and examined under a powerful glass.

"It's a perfect penny," Howard said, "which has been plated with some light-colored metal. The plating isn't silver but it may be zinc. We don't want to tear up the penny to analyze the plating because we may have to return it to Mrs. Gledier."

Howard is seeking a legal opinion on whether the plated penny has "similitude" to a dime—in other words, whether its odd color makes it readily passable as a dime. If the lawyers rule it can pass as a dime, the mint will keep the coin. If not, Mrs. Gledier will get it back.

Ordinarily it is not a federal offense to plate a coin unless gold is used. Children frequently coat pennies with mercury to make

them silvery. It would be an offense, however, to coat a coin for the purpose of passing it off as a higher denomination.

In addition to the \$100 bid Mrs. Gledier got one more offer for the funny money—one cent proffered by the Secret Service agents. She turned that down too and all she got was a receipt.

Director to Wed Kim Novak as Soon as Possible

LONDON (AP)—American movie director Richard Quine says he and actress Kim Novak will marry "just as soon as ever we can."

Quine, in London for the premiere of his latest movie, "Strangers When We Meet," said Thursday night that he phones Kim every day.

"When they were both last in London, in May, Quine and Miss Novak parried questions on marriage."

"If things hadn't been so complicated—with me being so long in Hong Kong for the Sany Wong picture and Kim being in California—we would have been married already," he told a reporter.

Points Up Breweries as Example to Hospitals

SAN FRANCISCO (AP)—A Seattle physician says hospitals should take a tip from the nation's breweries in cleanliness.

Dr. Reimert T. Ravenholt told a nurses institute Thursday night hospitals should install floor drains in operating rooms, drains similar to those used in breweries.

This would make it possible to hose down the floors and rid them of bacteria much more quickly and easily, the specialist in communicable diseases said.

LED ESCAPE — Maggie Fleming, 24, (left) and Donna Gilligan, 23, of West Park, Ill., stewardesses on the American Airlines passenger plane which crashed on landing at New York's LaGuardia Airport Wednesday, helped the 70 passengers escape without serious mis-

hap after the accident. As smoke seeped through the overturned aircraft, the stewardesses freed the passengers as they hung upside down in their seats and led them to emergency exits. Miss Fleming, whose family lives in England, shares a Boston apartment with Miss Gilligan.

Open Shop Is for Union Only

Employer Can't Give Union Pact to Individual

WASHINGTON (AP) — The meaning of the statute has perked Court of Appeals ruled Thursday that an employer may not give a union shop contract to an individual. Any such arrangement requiring maintenance of membership must be with an organized union.

In a 2-to-1 decision, the court said the National Labor Relations Board should not have reversed a decision of its examiner that the Grand Union Co. was guilty of an unfair labor practice. The examiner had ruled against a contract to Robert E. Gray for employees of Grand Union's Waterford, N.Y., warehouse.

The court said the section of the labor relations law, providing for union security agreements applies only to labor organizations, and that individuals do not qualify.

The employees chose Gray as their bargaining representative in preference to Local 294 of the Teamsters Union in an election in 1957.

The court said that while an individual is qualified to perform certain functions for employees under other sections of the law, Congress apparently did not intend to give an individual the broad powers embodied within the union's security section.

It pointed out that under the security clause an employee must designate the labor organization as his bargaining agent and pay dues, or else have his employment terminated.

Youngsters Learn to Live in a Complex World

LEARN NEW MATH METHODS — These Webster first graders found a new course of arithmetic study and new materials awaiting when they got back to school. Their teacher, Mrs. Doris Sheppard, introduces 6-year-olds Arthur Nichelle of 55 E. Iroquois Road, Michael Andonian of 39 Ruth St., and Suzanne Bigler of 36 W. Iroquois Road to Sniff and Sniffy. Arthur needs no introduction since the two

live rabbits are his. With an abacus, cards, and other visual aids, the children learn to transfer live things to the abstract number 2. Mrs. Sheppard will be teaching them multiplication by the end of the year. "If Sniff and Sniffy don't beat me to it," she said smiling.

WORK ON SCIENCE PROJECTS — Fifth grade science projects reflect the wide range of interest fostered by modern teaching and the use of modern facilities. Cynthia Strine, 10, of 737 Menominee St., is in the midst of her project on "Robins," while across the table, Peter Elliott, 10, of 210 Oneida Road, busily constructs a radio. The projects, begun last June, are destined for entry in the forthcoming Science Fair.

ON THEIR WAY — To these kindergarten children at Webster Elementary School, school life is only four days old. They began their schooling Monday morning. By Thursday they were already entrenched in activities which they themselves selected and planned, whether making a puzzle, working with blocks

or putting the finishing touches on an artistic masterpiece. The busy little beavers are (from left) Howard Duff, 4, of 201 Draper St.; David Blum, 5, of 204 S. Tilden St.; Janet Hursey, 5, of 281 Dick St.; Anne Barsam, 5, of 300 Pioneer Dr.

IN THE SCIENCE LAB — Elementary pupils have new lab material this year. Here, Tom Culando, 10, of 172 McHawk Dr., and Christine Griffin, 10, of 136 Ogden Road, study one called

life in pond water. Tom is using a microprojector while Christine uses a new microscope. Previously these materials were limited to junior and senior high school labs.

LEARNING FRENCH — New ideas mean new techniques. With the elementary language program in full swing at Webster School, tape recorders come in handy. Here, Toni Gray, 10, of 171 N. Johnson St., listens to recordings of classroom French instruction held earlier. With headsets pupils are not distracted by other classroom activities. An innovation this year is the "listening center" (lower right). It's a board, connected to the recorder, that 82 separate headsets can be plugged into enabling a half-dozen pupils to listen to the same tape at the same time. Toni is in her second year of French.

STUDY CURRENT EVENTS — Social Studies for 11-year-old pupils at Webster is a pleasant mixture of the old and new, with traditional world areas and boundaries changing every day. The Pontiac Press is often part of the course. Here, teacher William E. Neff looks on as Steve Erickson of 83 Mark St. and Nancy Gately of 316 Draper St., locate countries that made headlines in a recent news story. The course also devotes much study to the United Nations.

READERS FIND NEW INTEREST — Social Studies will be mighty interesting to third grade pupils in Pontiac public schools this year. Already digging into their new textbook are (from left) Danyse Riemenschneider of 704 Oswego St., Kristine Thams of 551 W. Iroquois Road, and Betty Cleffman of 43 Thorpe St., all 8-year-olds at Webster School. The book, "Three Feathers — The Story of Pontiac" was written by two Pontiac teacher-consultants.

AMPLE PARKING AREA — One thing that never changes at Webster School on West Huron Street, is the good old bike rack. It's a sure sign school is back in session when the rack is filled again.

Kennedy and Nixon Burn Up Campaign Trail

Couple in Hollywood Separates After 1 Year

HOLLYWOOD — Debbie Smith-Lowe, widow of the late Tyrone Power, and her fourth husband, movie executive Arthur Lowe Jr., have separated after less than a year of marriage. Herald Express columnist Harrison Carroll said Thursday.

Carroll said Mrs. Lowe told him by phone from New York: "Arthur has been staying for several weeks with his mother. We are having some trouble but I am sure it is not permanent. Neither of us wants a divorce." They were married last Oct. 26 and have an infant son. It is Lowe's first marriage.

Dem Nominee Hits Hard on More Jobs, Top Pay

Sen. John F. Kennedy hit hard on the economic issue today as he campaigned across Pennsylvania for 23 vital electoral votes denied the Democrats since Franklin D. Roosevelt's 1944 fourth term drive.

The presidential nominee was expected to lay down in appearances at Lebanon, Reading, Lancaster, York and other state points on his way to a Baltimore, Md., night speech this pledge: That the Democrats intend to see to it that "everybody who wants to work in America has the opportunity to work and at decent wages."

This was what Kennedy was supposed to say Thursday night on a statewide television appearance, but didn't. Instead, he threw his prepared speech into the ash can and talked about what he said to Vice President Richard M. Nixon's slogan that "You never had it so good."

Kennedy said that in Pennsylvania, the home of big steel, 335,000 men and women were unemployed last month and one out of every 14 workers was "actively seeking a job and unable to find it."

"I know we can do better," he said. "It isn't 1932. We are not moving back."

"I cannot believe that a country which is faced with so many challenges at home and abroad cannot meet the problem of full employment so that our people can find work when they want it."

IGNORER TEXT

What Kennedy left out of his prepared address—and it has become a habit with him to ignore these advanced texts—was a declaration that full employment has become "a dead letter under the Republicans."

Pierre Salinger, the candidate's

press secretary, said that Kennedy on the economic issue today merely stands behind any prepared texts, issued in advance to newsmen.

Thursday was a big day for Kennedy. His crowds at various way points on a 110-mile motorcade from Jersey City to Trenton, N.J. were compared by Maj. Arthur Capella, a veteran of the New Jersey State Police, to those that Franklin D. Roosevelt used to command.

Gov. Robert B. Meyner told reporters that he had seen nothing like it in his campaigning, dating back to 1952.

CROWDS HUGE

New Jersey ranks fourth in the number of Catholics among its voters. Sharp evidence of the interest in his candidacy was furnished by the turnout of flag-waving parochial school students in such areas as Paterson, where about half of all of the city's students attend Catholic schools.

But in other areas of New Jersey Kennedy had it as good. Almost everywhere he went the crowds pressed in on him, defying police attempts to guard him. A majority of the members of the throngs were women.

Pennsylvania's particular problem for the Democrats was outlined effectively by Gov. David L. Lawrence.

2 Die as Auto Rums Side of Freight Train

KALAMAZOO in — A small auto crashed into the side of a New York Central freight train here last night, killing two persons.

Killed were James R. Simmons, 46, and Bernice Rodgers, 35, both of Kalamazoo.

The auto ran partially under the freight train. Police said Simmons was dead at the scene while Miss Rodgers died later in a hospital.

ENTHUSIASM FOR KENNEDY — Sen. John F. Kennedy, Democratic presidential nominee, is pulled off balance by an enthusiastic well-wisher who is restrained by state police as he reaches

into the car and grabs Kennedy's coat and pulls him forward. Kennedy had just arrived in Harrisburg, Pa., on his campaign tour.

Machinists Endorse Democratic Ticket

ST. LOUIS (AP)—The International Association of Machinists convention has endorsed the Democratic presidential ticket.

The action by the million-member union came by voice vote of 1,500 delegates Thursday several hours after Republican nominee Richard M. Nixon spoke to the convention.

The Democratic nominee, Sen. John F. Kennedy, addressed the convention Wednesday.

GOP Candidate Has Cure for Costly Farm Surplus

By ERNEST B. VACCARO
OMAHA, Neb. (AP)—Vice President Richard M. Nixon outlines to the Midwest farm belt today his program to get the costly agricultural surpluses "off of the backs of the farmers."

The Republican presidential candidate planned to spell out details in a major campaign speech at the 24th annual plowing contest at Guthrie Center, Iowa.

Nixon told an audience at Grand Forks, N.D., and a news conference at Pierre, S.D., Wednesday he would talk at Guthrie Center of his plans, if elected, for "getting the surpluses off the backs of the farmers."

He said that what he has in mind would require heavier spending for a few years, but prove less costly over the long run than expensive government storage. He said the approach to the surplus problem has been "too timid."

PAT WITH HIM

Nixon and his wife, Pat, flew into Omaha early today from a

speaking engagement at Roanoke, Va., his fourth foray into the South since his nomination.

There, before a crowd of close to 15,000 cheering Virginians in Victory Stadium, Nixon charged that the Democratic party "broke faith at Los Angeles with the great ideals and traditions of its founders."

Nixon did not mention the civil rights plank in the Democratic platform that has stirred Southern resentment, nor did he talk about Republican civil rights proposals. But he did say the Democrats made pledges "to special interest groups, blocs and minorities, rather than to all the American people."

Just live within your income and you'll be without worries. And without a lot of other things, too. We're approaching the time of year that's too cold to do the things you couldn't do during the summer because it was too hot.

Adults Study Car Care

SYRACUSE, N.Y. (UPI)—University College, the adult education branch of Syracuse University, recently offered a 12-week academic course on motor vehicle maintenance. The Allied Transportation Industries Association, Inc., co-sponsored the course.

It's Studying Time for Mechanics; AMC Boasts a Thorough Program

By JACK VANDENBERG

DETROIT — Auto mechanics throughout the nation will be busy during the next couple of months trying to catch up with the changes the auto companies have made in their new cars.

One of the auto industry's major problems has always been keeping its service personnel abreast of the many technical changes made in the cars each year.

And this year the problem will be more difficult than ever because the auto companies are branching out into new technical improvements faster than an allergic person starts sneezing in a field of rag weed.

The auto companies are answering the problem by putting more service representatives into the field to keep the mechanics up to date.

For example, American Motors, which puts a high degree of emphasis on service, will begin a program next week in Milwaukee to train 270 service representatives in the intricacies of new features of the 1961 Rambler.

The service representatives will be divided into three groups of 90 each and given intensive week-long "refresher" courses in the repair of American Motors cars.

Each of the service representatives will go into the field after the course and train mechanics at Rambler dealers. Each Rambler mechanic is given three two-day courses a year.

Many of the new features of the Rambler this year probably will never need a mechanic's touch. For instance, the new Rambler in some cases are equipped with aluminum engine blocks. The only thing that could go wrong with an engine block is that it could break. But a cracked block is always replaced, not repaired.

New ceramic mufflers and new plastic headlamps on the interior roof are designed to eliminate the need for service.

Still a mechanic has to be familiar with the innovations if he has to work on the car. A new heater and air flow system on the Rambler may need repair sometime in the life of the

car, so the mechanics have to be familiar with it. American Motors has a unique way of making service schools available to the mechanics of its dealers.

The service representatives travel around the country in 31-foot long trailers, which are completely equipped as service schools. Each trailer has work benches for 12 men. Actual parts, such as engines, axles, transmissions, air conditioning systems, power steering and power brake units, are worked on in the classrooms.

Each mobile unit also includes a projector for showing training films.

Following the classroom segment of the school, mechanics work on a car housed in a canopy attached to the trailer. The car has built-in multimeters which must be discovered and corrected.

When the car owners need service after the 1961 models are introduced, the mechanics will be ready. But in the meantime, the American Motors training program and others like it, will keep the mechanics busy.

County Adds 4 Measles Cases

No New Polio Reported in Past Week After 2 Before That

There were no new cases of polio reported in Oakland County last week, but four new measles cases popped up in Pontiac, according to the Oakland County Department of Health.

Two cases of polio had been reported during the week ending Sept. 3, bringing the 1960 total to three cases in the county.

Other communicable diseases reported last week were whooping cough, dysentery infections, rheumatic fever and salmonella infections.

The following is a list of new cases during the past two weeks on the County Health Department's weekly communicable disease report.

U. of M. Given Much for Social Research

ANN ARBOR (AP) — More than a quarter of a million dollars in federal funds will be spent by the University of Michigan Institute for Social Research this year in continuing studies of a wide range of subjects including juvenile delinquency and mental health.

The largest single project, of three supported by the U. S. Pub-

lic Health Service, is a \$75,000 study of community and personal relationship factors contributing to juvenile delinquency.

A \$50,000 grant from the U. S. Office of Education will be used in a study testing a theory of creative thinking among high school students.

First successful motorcycle was not built until 1898. The original two-wheeled cycle was invented in 1868 but it was propelled by steam.

State Fruit Continues Its Rapid Growth

LANSING (AP) — Michigan's fruit production outlook remained unchanged heading into the busiest part of the harvest season, state-federal crop forecasters said Thursday.

An apple yield estimated at 11 million bushels in the 46 commercial counties as of Aug. 1 was

kept at the same figure a month later.

"Fruit continued to show rapid growth during August and averaged larger than usual for Sept. 1," the state and federal agriculture departments reported.

A slight increase in grape production — to 38,000 tons — was forecast.

Over-all, the report said, the state's 1960 fruit production probably will hit 515,000 tons, or 10 per cent under last year's record tonnage.

Thought Morphine Food Seasoning

SEOUL, South Korea (AP) — An arrested Thai army captain told U.S. narcotics investigators he thought 50 pounds of morphine in his luggage was food seasoning which he had agreed to carry from Japan to Korea.

Capt. Nanong Samranit was quoted by the U.N. command to day as saying a Japanese paid him \$20 to carry the drugs aboard

a U.S. military flight from Tachikawa Air Base, near Tokyo, to "some relative in Korea."

Fifty-seven cigarette bars found in the Thaiander's luggage by a GI Inspector at Seoul Airport Sept. 13 were worth perhaps one million dollars to dope traffickers. It is believed the largest seizure of morphine ever made in this part of the world.

Beech wood decays rapidly when exposed to the air but lasts well under water. It is used often for piling and construction of dams.

Serious Crime Grows in State

FBI Cites 1959 Rise Despite Michigan Loss of Population

WASHINGTON (AP)—Serious crime increased in Michigan in 1959 despite a decrease in the state's population, the Federal Bureau of Investigation reported today.

A total of 83,749 serious crimes in seven categories was reported to the FBI for the state in 1959, compared to 82,495 in 1958.

The combination of the crime increase and population decrease boosted the serious crime rate per 100,000 residents from 1,644.3 in 1958 to 1,677.3 for 1959.

The bureau listed these 1959 and 1958 crime totals for Michigan, by category:

Murder and non-negligent manslaughter 246 and 335, forcible rape 398 and 382, robbery 4,733 and 4,714, aggravated assault 6,078 and 6,949, burglary 39,378 and 39,632, larceny \$50 and over 17,353 and 17,361, auto theft 13,789 and 13,666.

Officer Catches Mental Escapee at Rochester

A 16-year-old mental patient who escaped from Pontiac State Hospital Sunday with a vow to "get me a city" surrendered meekly to a Rochester policeman shortly after noon today.

The escapee, Cleveland Spooner, offered no resistance when apprehended by Officer Jerry Cannon in a boxcar on a siding in Rochester's Avon Park at 12:15 p.m.

Spoooner had been spotted minutes before by a group of school boys when he climbed into the boxcar, dragging a blanket behind him. They notified the village police, suspecting the youth was the missing mental patient.

He had curled up in the blanket to go to sleep when Cannon caught him. Spooner had vowed to "get me a city" when he escaped from the hospital at Pontiac once before. He was arrested with a stolen hunting knife and 12 caliber rifle when caught there.

Authorities said the youth appeared to be in good physical condition when found today, in spite of having crawled through underbrush to slip past police searching for him Monday in Bloomer State Park, Avon Township.

Oppose Carver Annexing Move

Oak Park Residents Pass Petitions, Fear Extra Taxes

Opposition to the possible annexation by Oak Park of Royal Oak Township's problem-ridden Carver School District was developing today.

Petitions being circulated in Oak Park seek to block annexation of the district.

Spokesman for the petitioners is Norman Letzer, 3111 Gardner St. He called the decision to re-evaluate petitioners spontaneous.

"We're not an organized group. We're merely home owners and parents who want to be heard," he said.

The petitions declare that the signers oppose annexation because Oak Park schools are overcrowded and because annexation of the Carver district would put additional tax burden on the city's residents.

The petitions will be turned over to William J. Emerson, Oakland County superintendent of schools. Letzer said. Emerson is currently trying to dislodge the Carver district and have it absorbed by an other.

Atlas and Polaris Successfully Fired

CAPE CANAVERAL, Fla. (AP)—The Air Force successfully fired an Atlas missile 5,000 miles down the Atlantic range early today in a test of a new nose cone designed to better protect hydrogen warheads.

The rocket reached peak speeds of 17,000 miles an hour as it raced to a target zone off the south Atlantic island of Ascension in about 25 minutes. The Air Force reported all flight objectives were achieved.

The launching came several hours after the nuclear submarine Patrick Henry successfully launched a Polaris missile from undersea, moving the rocket close to combat-readiness.

Waitress Fined \$115 for Discrimination

KALAMAZOO (UPI)—Myrtle Moyer, 44, a waitress at a local tavern, was fined \$100 and \$15 costs Thursday for violation of the state antidiscrimination laws.

The waitress was accused of refusing to serve Dr. Allen Seabolt, a Negro, on Aug. 3. The owner of the tavern involved indicated he would consider an appeal.

Crisp Fall Days Bring Out Cool, Zany High Styles

Zany fashions prevailed when Fairway Club members met for their golf outing Thursday at Pontiac Country Club. Dressed up (from left) are Mrs. George Walters of Murphy Avenue, president; Mrs.

Glenn Hickson of Tilmor Street, treasurer; Mrs. Frank Syron of Elizabeth Lake Road, vice president and chairman of the day; and Mrs. Lee Lysinger of Wellington Street.

Early fall days have inspired two local women's groups to model zany fashions.

Fairway Club held its last party of the season Thursday at Pontiac Country Club. Members and guests appeared in an assortment of costumes depicting song titles.

An "Over the Rainbow" theme prevailed in table decorations with an "Old Oakum Bucket" refreshment stand gracing the fairway.

COLORFUL COSTUME

Mrs. Guy Motts as "Chiquita Banana" received the prize for the most colorful costume.

Other award winners were Mrs. John Heisch and Mrs. Philip Sauer as Siamese kittens; and Mrs. Frederick Foster, Mrs. Robert Boles and Mrs. Ray Hoover as "The Three Little Indians."

Other costume winners were

Mrs. Delbert Hammett, Mrs. Robert Hendry, Mrs. Glenn Hickson and Mrs. Richard Vasey. Guest winners were Mrs. William Fischer and Mrs. Sidney Baer.

Season trophies were presented to Mrs. Hammett for low gross, Mrs. Hickson for low net and Mrs. Charles Barker for low putts.

RECEIVE TROPHIES

Tournament trophies were awarded to Mrs. Oswald Burke and Mrs. Richard Robertson, with Mrs. Barker and Mrs. John Benser as runners-up.

Others receiving trophies were Mrs. Gene Elkins, Mrs. Boles and Mrs. Lloyd Hampton.

Winners for the day were club members Mrs. Barker, Mrs. Foster, Mrs. Emil Ghecia and Mrs. Russell Hetzer. Guest winners were Mrs. Hoover and Mrs. Stan Savage.

Other guests were Mrs. C. W. Whitlow, Mrs. Robert Melkie, Mrs. Don Breen, Mrs. Donald H. May, Mrs. Peter Waisanen and Mrs. William Tate.

Chairman for the day was Mrs. Frank Syron. Her committee included Mrs. Sauer, Mrs. Heisch, Mrs. Jack White, Mrs. Boles, Mrs. Hammett, Mrs. Burke, Mrs. Motts, Mrs. Benser and Mrs. Kenneth Bogard.

A different kind of fashion show is being given by members of Opti-Mrs. Club during Downtown Festival Days.

Equally humorous, the costumes were given a rehearsal tryout early in the week at the East Iroquois Road home of Mrs. G. W. Stark.

Shoppers may view them on the outdoor stage at Huron and Saginaw streets.

New Members to Be Greeted by Dance Club

The first fall dinner-dance for members of the Cotillion Club of Pontiac will be at Pine Lake Country Club this evening.

Officers and members of the board of directors will be honorary hosts at a cocktail party preceding the dinner.

New members being received into the club this evening are the Vaughn S. Garrisons, the George H. Putnams, Dr. and Mrs. Philip J. Froud, the Victor M. Lindquist, Mr. and Mrs. Herbert J. Howarth, the Curtis E. Putnams and the John P. Livingstons.

Raymond Brash of St. Joseph Street, Mrs. Robert Bradley of Garland Street and Mrs. Robert Bradley Jr. of Green Street, Drayton Plains.

Imagination ran wild when Opti-Mrs. members assembled these outfits which they will model on Pontiac's main intersection. From left are Mrs.

Over at Saginaw and Huron streets during Downtown Festival Days, these Opti-Mrs. Club members are presenting a different kind of fashion show. Rehearsing in the odd outfits they model are (from left)

Mrs. Tom Hruska of North Cass Lake Road, Mrs. Charles Manz of West Square Lake Road, Mrs. Roland J. Smith of Derby Road and Mrs. Buhl Burt of Baldwin Avenue.

On the warpath at the fun day is Indian princess Mrs. Ray Hoover (right) of Pioneer Drive. Wary cat

gal Mrs. Philip Sauer of Monroe Street and Mrs. Robert Bergin of Illinois Avenue go along with the gag.

Auxiliary to Be Guest at Hospital

The Women's Auxiliary to Pontiac General Hospital will be the hospital's guest at the annual Awards Luncheon Monday.

Harold B. Euler, hospital administrator, will present the awards at the 12:30 affair in the auxiliary room of Pontiac General.

Following the invocation by the Rev. Theodore R. Albebach of Oakland Avenue United Presbyterian Church, Mayor Philip E. Rowston will speak. Phyllis Smith, student at Boston Conservatory of Music, will present two solos. A lyric soprano, she is a senior at the conservatory. She has appeared with the Boston University Glee Club, at the Statler-Hilton Hotel in Detroit and on the Fred Waring TV show.

Luncheon chairman Mrs. William Bedard of Crescent Lake Road is being assisted by Mrs. P. Eugene Miller, past president; Mrs. Robert Segula, work record chairman; Mrs. Forest R. Wood, publicity; Mrs. Charles Barrett, hospital; and Mrs. Fay Stewart, public relations director at the hospital.

Tell Wedding of Daughter

Mr. and Mrs. Beverly Davidson of West Beverly Avenue announce the marriage of their daughter Phyllis to Paul Smith, son of Mr. and Mrs. Louis Smith of East Ann Arbor Avenue, Aug. 27 in Drayton Plains.

Their attendants were Linda Taylor and John Kraus.

County Nurses Will Gather

The Oakland County District Nurses Association will meet Tuesday at 7:30 p.m. in Pontiac General Hospital.

Marguerite Murray of Detroit will moderate a panel discussion on "The Registered and the Practical Nurse in Nursing Today."

She is executive secretary of the Detroit and Tri-county League for Nursing.

Both registered and practical nurses have been invited.

Outlines Campaign for New Members

Plans for the annual membership drive in October were outlined when Pontiac Chapter of the National Secretaries Association International held its first fall meeting Wednesday at Old Mill Tavern Hotel in Waterford.

Fortcoming events include a membership tea for which the date will be announced later.

Refuse to Munch, Says Abby

Couple Can Hardly Stomach Any More Forced Feeding

By ARBAIL VAN BUREN

DEAR ABBY: I just love my mother-in-law to pieces but please tell me if it is right of her to try to force us to eat the minute we get in her house when we just got up from our dinner table?

We try to explain that we just finished a big meal but she goes right out in the kitchen and fixes sandwiches, pickles, cookies, cheese, coffee and leftovers. If we don't eat, she gets mad and says, "Look what YOU wasted! If you don't eat we'll have to throw it out!" Maybe she thinks we don't have enough to eat at our home. I was taught when a

person says, "No, thank you" it was rude to insist. We go home so stuffed we can't sleep at night. My husband says we have to eat to keep peace. What is your opinion?

OVERVED

DEAR OVERVED: If you eat to "keep the peace," your mother-in-law will think you were hungry and you'll be faced with this problem repeatedly. Her heart is bigger than your stomach, but where your health is involved, it's better to throw it OUT than to throw it IN.

DEAR ABBY: I have been going with this man for two years and everything he buys

me is jewelry and mostly rhinestones. When I am with him he wants to know why I don't have any of it on. My problem is, I don't know where you are supposed to wear rhinestones and what with. Can you help me?

A COUNTRY GIRL

DEAR GIRL: Rhinestones should be worn after five. And for very dressy occasions. And sparingly.

For Abby's pamphlet, "What Teen-agers Want to Know," send 25 cents and a large, self-addressed, stamped envelope in care of this paper.

Folks Come 'n' Go

Personal Events

Recent guests of the Leonard and Norma of E. Pike Street were her parents, former Pontiac residents, the Richard Schuberts of St. Helena, who will winter at Tampa, Fla.

The Floyd Norrns will arrive Saturday from Modesto, Calif., for visits with his brother and sister-in-law.

The J. E. Whitlocks, who have been visiting their sons Jesse of Nelson Street and Clifford of Drayton Road, have returned to their home in Galatia, Ill., with their daughter Donna Kaye.

After an absence of several weeks, Mrs. Lee W. Whitlock has returned to her home on Markle Street. She visited her son James Lee Whitlock in Marion, Ind., and a daughter, Mrs. Quay Wilkinson at Marshall, Ill. She spent some time with relatives in Chicago, Blue Island, Harrisburg and Galatia, Ill.

Mrs. Ernest Bigler of Cheboygan was a guest.

Hawthorne PTA Has Picnic for New Families

A song fest around a bonfire highlighted the annual Hawthorne School family picnic Thursday evening at Hawthorne Park. Leslie Hudson led the group in songs, accompanied by Mrs. Melvin Boersma.

Mrs. Loren Anderson was chairman of the event, designed to acquaint new families in the school. Coffee and hot chocolate were furnished by the Parent-Teacher Association.

Popcorn, donated by sixth grade mothers, was sold by sixth grade boys. Proceeds from the popcorn sale project, headed by Mrs. Theodore Schroeder, will help finance the sixth grade camping program.

Mrs. Irving H. Jackson of Michigan Avenue will be honored on her 90th birthday Saturday evening at the Veterans of Foreign Wars Club on South Saginaw Street.

Hostesses will be her daughter, Mrs. Joel Sandstrom with whom she makes her home, and her granddaughters, Mrs. Thomas James of Second Avenue, Mrs. Leonard Wojcik of Oak Park and Mrs. Clarence Ingervoll of Clarkston.

Mrs. Jackson's oldest grandson, Elmo James of Fort Pierce, Fla., whom she has not seen for 30 years, will arrive for his first visit to Pontiac. Currently visiting Mrs. Sandstrom are her daughters and sons-in-law, the Roy Mitchell of Los Angeles, and the Kenneth Mallmans of Escanaba.

Also staying with a brother-in-law Mr. and Mrs. Ulric Roberts of Springfield, Mass.

The Paul Sparrows of Grace

K Street, Waterford, have returned from a week's visit with their son and daughter-in-law, the Guy Sparrows of Massachusetts, Long Island, N. Y.

On their son's cruiser, the "Rockie," they visited Jones Beach, Coney Island, The Narrows, followed the Hudson to Harlem River and the East River to Governor's Island.

Mr. and Mrs. Palmer J. Strang (Beverly Leach) of West Iroquois Road are parents of Diane Marie, born Sept. 2, in Pontiac General Hospital. Grandparents are the John Leachers of Murphy Avenue and the Cyril J. Strangs of Wenonah Drive.

Mrs. George Van Kuren with the William Deavers and their family have returned from visits with Alfrim J.C. David G. Sankum at Sheppard AFB, Wichita Falls, Texas.

On their way to Texas, they were joined by Mrs. Van Kuren's nephew, Charles D. Voll, who was attending to Michigan from California.

The children of the Robert A. Landmans of Savoy Street held open house for their parents Sunday, entertaining some 60 guests. The Rev. and Mrs. J. C. Laskin of Bowling Green, Ky., parents of Mr. Landrum attended the party with others from Marion, Mich. and Illinois.

The birth of a son, Christopher Riley, Sept. 2, in Pontiac General Hospital, is announced by Mr. and Mrs. Winston Hopp (Barbara Mythen) of Exton Street, Waterford Township.

Grandparents are the Chester Mythen of Mansfield, Ohio, and the Elmer Hopp of Edgely Drive, Mrs. Augusta Hopp of Pike Street is great grandmother.

St. Benedict's to Try New Idea in Socials

Mr. and Mrs. Harold N. Lepisto (right) have been appointed general chairmen for the Mr. and Mrs. Card Party Saturday sponsored by the Rosary Altar Society and Dad's Club of St. Benedict Catholic Church.

Church. Ticket Co-chairmen Dr. and Mrs. Robert Kimmins conferred with the chairmen at a planning session this week in the Lepisto home on Wenonah Drive.

Members of St. Benedict Catholic Church will try a new idea in social activities Saturday at a Mr. and Mrs. Card Party, designed to appeal to the men of the parish.

According to the group's Publicity Chairman Mrs. F. H. Secoy, the affair at St. Benedict Hall, will be conducted "minus any fashion show or other entertainment for the female fancy."

Mr. and Mrs. Harold N. Lepisto have been named general chairmen for the 8:30 p. m. party, sponsored by the Rosary Altar Society and Dad's Club of the parish.

Committee chairmen include Dr. and Mrs. Robert Kimmins, Dr. and Mrs. William Janacek and Dr. and Mrs. William Donnelly, ticket; Mr. and Mrs. Al Cagg, Mr. and Mrs. Peter Meager, Mr. and Mrs. John T. Carole, Mr. and Mrs. Theodore R. Gibson, Mr. and Mrs. M. J. Bauman and Mr. and Mrs. W. R. Bradford, door and table prizes.

Others are Mr. and Mrs. Harold E. Hanson, Mr. and Mrs. Gerald Verno and Mr. and Mrs. Stanley A. Huestsky, refreshments; Mr. and Mrs. Donald Raymond and the Arthur Barnett, hall committee. Proceeds will go for athletic equipment through the Dad's Club and altar linen, Rosary Altar Society.

Keloa Klub Initiates

The Keloa Klub held the semi-annual formal initiation at a dinner meeting in Devon Gables Wednesday.

Lama C. Hook, honorary sponsor, read a history of the club.

New members are Jo Ann Close, Betty Douglas, Gretchen Gaens, Barbara Gaylor, Ruth Hoff, the Murphy Avenue home of Mrs. man, Marilyn Jack, Sue Johnson, Viola Hopp.

Past Grands Meet

Past Noble Grands Club of Pontiac Rebekah Lodge No. 60 met at the South Adams Road home of Mrs. Howard Smith Tuesday. The Oct. 11 meeting will be at the Murphy Avenue home of Mrs. man, Marilyn Jack, Sue Johnson, Viola Hopp.

The Question Box

Bend in Every Direction!

By JOSEPHINE LOWMAN
 Q. "I have successfully lost 45 pounds. Now I still have the problem of losing a roll of fat just above the waist. I have 10 more

pounds to lose but dieting doesn't seem to help. Do you know of an exercise which might help?"
 A. Congratulations on your loss of extra poundage! Exercise is the

answer to speeding the departure of that roll over the grille. There are many good ones for this figure fault. Do the following.

Stand tall with your feet comfortably separated. Raise your arms overhead, one arm by each ear. Keep the arms in this position and the knees stiff as you bend toward the left trying to touch your left toe with the fingertips of both hands. Raise the trunk and continue, alternating left and right. If you cannot touch the toes, go down as far in that direction as possible.

Q. "I have a round, fat face. What hair style will be most flattering to me?"
 A. Wear your hair high on top and close at the sides. Height is especially essential in order to make your face appear slimmer.

Q. "I am a boy of 16 years old. I am 6 feet tall and weigh 208 pounds. I have large bones. How much should I weigh?"
 A. You should weigh around 180 pounds.

Q. "I am 40 years old. Do you think I am too old to take exercises to develop my bust?"
 A. The exercises for increasing the bust measurements develop the pectoral (chest) muscles. You

are certainly not too old to take these. Actually, they are rather mind exercises.

Send VFW Quotas

Annual quotas were sent to the Veteran of Foreign Wars Hospital Fund and the National VFW Orphans' Home when members of the local 1008 Auxiliary met Monday.

An all-day sewing meeting is scheduled Tuesday at the home of Mrs. James Dando.

White Shrine Chapter Holds Dinner Meeting

Pontiac Shrine No. 22, Order of the White Shrine of Jerusalem, met at Roosevelt Masonic Temple Wednesday for a cooperative dinner.

Mrs. Earl Ross and her committee members Mrs. Robert Jackson, Mrs. Howard Cooley, Mrs. Richard Skarritt and Mrs. Arthur Ward served.

Final arrangements were made for the card party slated Sept. 28 at the temple.

Mrs. Wayne Reeves, worthy high priestess, announced the appointment from Supreme Shrine of Samuel E. Smith, watchman of shepherds, to chairman of membership in District No. 6.

At the close of the meeting Elizabeth Gordon showed pictures of the Shrine Patrol Team at the Supreme Shrine Session recently in Cleveland.

Newcomers' Club Dines in Royal Oak

Mrs. William Emerson was hostess at a social hour Wednesday in her home preceding the dinner meeting of the Newcomers' Club in Aunt Fanny's Restaurant, Royal Oak.

The 25 members answered roll call by giving summer-vacation highlights.

Dinner chairmen were Mrs. Richard Dohat and Mrs. Don Gause.

Floral arrangements were awarded to Mrs. Hugh Hales. Mrs. Michael Dempsey and Mrs. Dohat. Mrs. Stanton Evans was a guest.

Dr. Paul F. Thams will speak at the Sept. 28 meeting in the home of Mrs. John Holmes of Parcels Circle, Bloomfield Township, at 8 p. m.

Rite Installs President for MOMS

At a luncheon meeting Tuesday in the Lake Oakland home of Mrs. Fred Coe, Mrs. Joseph Goedeke was installed as president of MOMS of America, Unit 21.

Working with Mrs. Goedeke will be Mrs. Michael Chase, first vice president; Mrs. Charles Ferguson, second vice president; Mrs. Earl Kaul, recording and corresponding secretary; Mrs. William Craven, financial secretary; Mrs. George Sage, treasurer; Mrs. Oscar Bouck, chaplain; and Mrs. Clay Parrett, historian.

Mrs. Peggy Lewis of Hazel Park, state president of MOMS, was installing officer.

Several members of Unit 19 and state board members were guests, along with Mrs. William Marshall and Mrs. Howard Barnes, who assisted cohostess Mrs. Joe Marshall. Mrs. Ed Hopkins, a past member, also was a guest.

The unit is sponsoring a booth at Lawrence and Saginaw Streets for "Downtown Festival Days."

250 See Church Wedding
Wedding vows and rings were exchanged by Nancy Jean McReynolds of Houghton Lake and Richard L. Hamm, Saturday evening in St. Trinity Lutheran Church.
The Rev. Ralph C. Claus performed the ceremony in the presence of some 250 guests who later attended a reception in the Auburn Heights Community Club Building.
Parents of the couple are: Mr. and Mrs. John McReynolds of Houghton Lake, and the Ray Hammers of Grey Road, Auburn Heights.
The bridegroom of white rose pointed lace over satin featured a sweetheart neckline and chapel train. A chapel cap of seed pearls and sequins caught fingertip veiling of illusion.
White roses and stephanotis comprised the bridal cascade.
Sherry McReynolds of Lino, Ohio, served as honor maid. Bridesmaids were Barbara Thorpe, Lucille Hamner, Harva Lane and Sue Randall.
Cascades of raspberry feathered tulle complemented their bouffant frocks of raspberry silk organza over tulle.
Also in the wedding party were the bride's sister, Pamela, as flower girl and the bridegroom's nephew Kenny Thorpe, ring bearer.
Howard Haman was best man for his brother. Ushers were William and Gerald McReynolds, Donald Thorpe and Ronald Turbell.
After a Northern Michigan honeymoon, the couple will be at home in Pontiac.
Pink roses complemented Mrs. McReynolds' dress of brown lace over pink tulle, and the bride's lace sheath dress chosen by Mrs. Haman.

Club Discusses Rummage Sale
A Sept. 23 rummage sale at the Italian-American Club hall was discussed when the club women's auxiliary held its first fall meeting Monday. Mrs. William Demola is rummage sale chairman, assisted by Mrs. Paul Spadafora and Mrs. Joseph Spadafora.
The annual fall public breakfast is slated Oct. 4. Co-chairmen are Mrs. Robert Ranzilla, Mrs. Paul I. Spadafora, Mrs. Don Lucarelli and Mrs. Joseph Puzos.
Auxiliary members are cooperating with men's club in preparing for the public Columbus Day dance and banquet Oct. 15 at the club hall.
Cobostesses for Monday's meeting were Mrs. Rudy Mazza and Mrs. Thomas Power.

25 at Audubon Meeting
Twenty-five members of Pontiac Audubon Club met Wednesday evening in Hawthorne School.
A cooperative picnic at the home of Mrs. John Plassey in Lake Orion Sept. 24 was announced, plus a breakfast bird hike Oct. 15 at the Highland Recreation Area.

Have You Tried This?
Easy Barbecue Sauce Is Handy for Year-Round
By JANET ODELL
Pontiac Press Home Editor
There are still many days ahead this fall when you will enjoy an outdoor meal and will want to try Mrs. Don Kinker's recipe for barbecue sauce. For that matter, you can use this sauce all winter with oven and roasteric barbecues.
Mrs. Kinker is a board member of the PTO at Pine Lake School. She and her husband belong to a players' group in their church and sing in the choir. She's in the bell choir too. Her hobby is antiques.
BARBECUE SAUCE
By Mrs. Don Kinker
1 cup chopped onion
1 tablespoon drippings or oil
1 cup water
1 tablespoon vinegar
1 tablespoon Worcestershire sauce
1 cup brown sugar
1 cup chili sauce or catsup
1 teaspoon salt
Dash of pepper
Sauté chopped onion in fat until yellow. Add other ingredients and simmer 30 minutes. Use to brush-over spareribs while they are cooking or with hot dogs as a sauce.

There's a Reason
NEW YORK (UPI) — A child's failure in school frequently is traced to defects in vision or hearing.

Chorus Meets Over Tea
Pontiac Women's Chorus observed a get-acquainted tea welcoming old and new members Tuesday at Mark Twain Elementary School. Mrs. Michael Patterson and Mrs. Frank Weger presided at the refreshment table.
Aims and objectives of the organization were outlined after which George Scott, director, discussed the chorus will present this year — ranging from hit musical selections to the classics. Later in the evening the group joined in an impromptu sing.
Chorus members met on Tuesday at 8 p.m. The first rehearsal will be Sept. 20. Area women interested in joining the chorus may attend. A simple audition.

65 Attend Historical Session
Some 65 members of the Oakland County Historical Foundation attended the annual meeting Wednesday afternoon on the lawn of the Warner home.

Richard C. Poole, restoration committee chairman, discussed the extensive repairs to the building during the year and outlined plans for future work.
James L. Howlett, treasurer, gave the financial report for the past year.
Mrs. Earl Mastick described the achievements of the interior restoration committee.
MEMBERSHIP RISES
Increased membership was reported by Mrs. Charles Going. Mrs. Whitney Prall read the secretary's report.
Appointed to serve for a three-year period on the board of directors are: Mrs. Donald Adams, Jack Harris, James L. Howlett, W. E. C. Hutwaine, Harcourt Patterson, Arthur Selden, Gerald A. Terrell, Mrs. Prall, Mrs. John Windle and Mr. Poole.
Edward R. Shields, building custodian, was introduced.

Gamma Chapter Holds 1st Meeting
Mrs. Robert Clark was hostess for the first fall meeting of Gamma Chapter, Beta Theta Phi Society Tuesday. Mrs. Joshua Madden and Mrs. Terry Martin assisted.
After discussing plans for a charitable project for the year, members prepared for the next meeting at the Long Lake Shore home of Mrs. William Doerr. Mrs. Louis Colombo of the Foundation for Cerebrally Disturbed Children will be the guest speaker.
Pledge Mrs. Burt Rockwell attended the meeting.

Perfume Destroys Germs and Fungi
NEW YORK (UPI) — Perfume's pleasant scent does more than stir imagination. Long Island University scientists have discovered that perfume oils kill bacteria and fungi, both for the person who wears perfume and the one who inhales it. Dr. Jasper C. Marxzella, associate professor of biology, directed research yielding this hygienic fact.

Friendly Neighbors Learn About Herbs
The Friendly Neighbors of the Home Economics Extension Group met for a "snack luncheon" Wednesday at the Meyers Road home of Mrs. Ernest Blunka, chairman.
A lesson on the use of herbs in seasoning foods was given by Mrs. Walter DeNio. Following the talk, members sampled crackers spread with herb butter in four flavors.

Shaded Spots Can Be Colorful

Your shady lawn or garden area can be the bright spot of your garden. With a few good ideas and careful selection of the plants you can transform it.

For color in the shade, you might plant some gay primroses or tuberosa begonias. Both are relatively well suited to such areas. Primroses, especially the hybrid polyanthus strain, range from pure white and pastels to bright yellows and reds. They like soil of high humus content, well-drained, but which holds moisture. Peat moss or good compost can be added in to build better texture.

Gorgeous color is yours with brilliant tuberosa begonias. Large-flowered double ones are favorites for special plantings in pots or hanging baskets.

Green round covers are still another way to beautify shady areas, steep banks or shrub borders. Pachyandra, myrtle and ivy are the most widely preferred. All are hardy and evergreen.

Pachyandra is suitable for dense shade. It does well in moist soils. Water plentifully. An occasional top trimming encourages thicker growth.

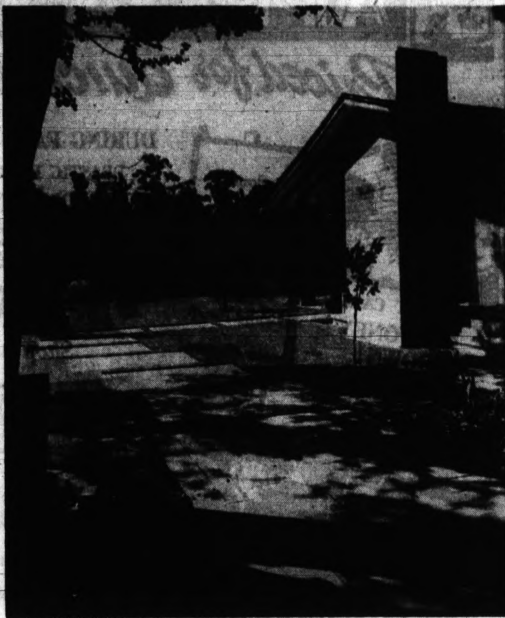

English and the hardier Balthus both make thick growing covers in shade. Other good perennials include ivy of the valley and hellebore, or ferns to set a foliage pattern.

Crocus and gilliflowers in clumps add color and natural beauty to the ground covers.

Start Now on 1961 Lawn

It may seem early to consider next year's lawn, but grass is green and healthy. To avoid a run-down look, start renovating now. In the September issue of Better Homes & Gardens magazine, Lawn Care and Maintenance, then feed and water. Turf experts will tell you that soil compaction is responsible for most lawn problems, says the magazine.

Farm and Garden News

WALK HAS INTEREST — A concrete walk can be functional and at the same time be an interesting study in design. The square of this

concrete walk were laid out with subtle feeling for spatial effect, to give variety to a flat lawn.

Concrete Walk Is Interesting

Contemporary artists and architects are making use more and more of the possibilities for beauty in simple materials and objects.

A concrete sidewalk, for instance, can become an interesting study in space. In the arrangement of separated squares shown, the landscape architect has created a composition resembling an abstract painting, that progressively changes from different vantage points. While still as functional as ever, the walk adds visual interest to the house it serves.

Allowing space between sections for grass or ground cover helps integrate a walk with the lawn, and softens the effect of large paved areas. Also, for a change of pace, smaller units of precast concrete patio block can be used.

For parts of the lawn that are overly shady or apt to get worn from foot traffic, you might want to consider a geometric arrangement of concrete alternating with sections of ivy, colored pebbles, or sand. The contrast of textures adds visual appeal to a practical arrangement.

Be Wary of Soil Without Testing It

When the man comes to your door to sell you some black dirt, don't take his word that it is good grade top soil unless you know him and have confidence in him. You can't judge good top soil merely by looking at it.

Test it. Mold a ball large enough to fill your fist. Let it dry thoroughly in the sun, or in the oven if you're in a hurry. If you can't crush it with one hand don't buy the stuff.

Plant a Tree As a Memorial

"Lafayette, we are still here." This, in effect, can be the message from grateful old veterans, trees that were planted as memorials to the gallant general here in America. The 22nd anniversary of the birth of the French marquis was observed on Tuesday, Sept. 6, and fitting ceremonies were the planting of still more trees in his honor in the back yards of America.

The planting of living landmarks is as good an idea today as it was some two centuries ago, says D. G. Yates, field representative of the Davey Tree Expert Co. With the beginning of the Fall transplanting season this month, the home owner intent upon establishing an arboreal symbol, whether to Lafayette or any other great personage, might consider the kind of tree for this honor.

Among those that will last for generations are species that are slow growing and of outstanding character, such as the sugar maple, the beech and most of the oaks; particularly the white, red and scarlet oaks. In the South, the many proud memorials worth considering include the live oak, pecan and tulip tree.

An assortment of trees that was studying fame, through association with Lafayette, include the famous Lafayette elm at Kennebunk, Me.; the Lafayette white oak at Southampton, Conn.; the Lafayette century poplar near Geneva, N. Y.; and the Lafayette sycamore near Chadis Falls, Del.

If you plant a tree to Lafayette or anyone else, a permanent marker should be part of your memorial. To thwart vandals now and in the future, anchor a rust-proof metal marker to a heavy stone base near the foot of the tree.

Teach Kids Not to Sample Plants

This time of year tends to stir up huckleberry plant tendencies in the most civilized of youngsters. Therefore, it's a good idea to remind your children not to chew on "smoke" grass heads, or to sample attractive plants and berries they find growing wild or in back yards.

Heads or any flowering parts of common grasses—such as timothy and wild rye—contain hundreds of tiny spikes, like miniature barbed fishhooks, says the September issue of Better Homes & Gardens magazine.

It is a good idea to tell one of these vicious spikes, it can burrow into the lung tissue and cause serious illness.

Other common weeds and cultivated plants have berries, stems, pods or leaves that can cause mild to serious poisoning. Among them are: Jimsonweed, common nightshade, flowering tobacco, foxglove, rhubarb leaves, taxus berries, and many other plants containing toxic material.

Positive Press Photo

QUEER EAR OF CORN — Four-year-old Denise Roderick came to The Press with this unusual ear of corn, shaped like a hand. Her father, Leslie W. Roderick, of 184 West Ypsilanti calls Denise his "right hand man" in their garden. She shares in all the chores, enjoys giving the produce away to neighbors. Pumpkins for Halloween are a specialty of the Rodericks.

Ancient Tried Ways to Induce Needed Rain

During a drought season, trees don't do much except wait for a good rain or a good watering.

But in olden days rain could be induced, it was believed, by a type of "magic" that consisted primarily of imitating rain or rain clouds. If the performance was properly staged, it was expected that rain would soon fall. According to old-time lore unearthed by the Davey Tree Expert Co.

In ancient Greece, for example, priests of Zeus dipped branches into a certain spring on Mount Lycabettus. This was supposed to summon a misty cloud to rise from which rain soon fell.

Central American Indians had their rain doctor whirl a magic wand made of lightning-stroke pine called a "bull-roarer." While he was doing this, his assistant whipped up a mixture of water and mud until he had a foamy substance symbolic of rain clouds.

The Japanese also thought that

imitation was the sincerest form of flattery, and simulated the patter of rain by brushing a coconut leaf over a heap of beetles.

In old Russia, it once was customary to have three men climb into the fir trees of a sacred grove when rain was wanted. One banged on a kettle with a hammer to imitate thunder, another smacked two tree trunks together to imitate lightning, and a third the "rain-maker" sprinkled water all around with a bunch of twigs.

All these were tested methods, perhaps not thoroughly dependable, but expected to produce rain at least occasionally.

Plant Trees That Flower

What is so rare as a day in June, In July, August and even September?

It's a day in mid-summer or Fall that gives Spring-like, true-blue effects.

By planting the right trees now, your landscape can feature effective blossoming through the entire growing season in future years, advises Willard West, field representative of the Davey Tree Expert Co. Although not usually known by home owners, there are a number of trees that flower later than the spectacular apple, cherry, peach and dogwood. Some of the choicer kinds may be well worth selecting at Lafayette nurseries now.

One of the most lovely producers of blossoms is the aptly-named Goldenrain tree (Koeleria paniculata). In early July, around the New York latitude, it offers huge panicles of tiny golden flowers.

Another July flowering display is produced by our native flower, whose tiny, white bells resemble somewhat the tiny bells of the valley. An unusually long bloomer in the Midwest or elsewhere (Abies balsamea) in areas south of Long Island or southern Ohio. It offers long pink-colored stamens in also ball-like clusters.

In late July and early August, both the Japanese Pagoda tree (Sophora japonica) and the little-known Korean Evodia (Evodia daniellii) give lowering beauty. The Pagoda tree blossoms are white and peonies, while the latter are small, white and highly fragrant. The unequalled Franklinia tree (Franklinia alabamica) first offers its white flowers with yellow stamens in August, but it continues to bloom until frost.

Trees, Shrubs Will Clear Air of Dust, Freshen It

For cleaner, fresher air around your property, plant trees and shrubs, the American Assn. of Nurserymen advises. The association says that for every pound of dust weight of trees and shrubs in your yard, 11 cubic feet of pure oxygen have been given off.

Parents of Five Killed in Crash in Front of Home

MOUNT CLEMENS — Two autos smashed into a locked entrance of twisted steel today, killing two persons and injuring two others.

The accident just north of here at Clinton Township killed Thomas Behrke, 48, and his wife Lorette, 47, both of Clinton Township.

The Behrkes left five children, none of whom ran out to the street after the crash.

Albert Noteboom Jr., 25, of Mount Clemens, driver of the other car, and Gentry Ludeman, 22, of Mount Clemens, suffered serious injuries.

Police said the accident occurred as Behrke sought to turn left into his driveway.

They said the other auto hit his roadside and forced the two cars together. Two vehicles had to be pulled to pry the autos apart.

Pontiac Boy Hit by Car, Suffers Broken Leg
A 13-year-old boy suffered a fractured leg yesterday when struck by a car on S. Saginaw Street north of Packard Street.

Sidney Herring, 263 E. Wilson Ave., was reported in satisfactory condition this morning at Pontiac General Hospital.

He was struck by a car driven by Sheldon Simon, 21, of Detroit. Simon told Pontiac police he saw the boy too late to stop. He was not held.

Deaths in Pontiac and Nearby Areas

ADINE J. DUMAR
Former Pontiac resident Adine J. Dumar, 88, of 337 Royal Ave., Bolacatelle, Que. died at his home yesterday after an illness of several years.

A retired Pontiac Motor Division employee, he was a member of St. Michael Catholic Church before moving to Bolacatelle a few years ago.

Surviving are three brothers, Joseph of Pontiac, Cyrille and Louis, both in Quebec, and a sister.

Service and burial will be in Bolacatelle.

MRS. BERT HARRY
Word has been received of the death of former Pontiac resident Mrs. Bert (Ellen) Harry. She died yesterday morning after a brief illness at her home, 3003 32nd St., Santa Monica, Calif.

Surviving are a daughter, Mrs. William McConnell of Pacific Palisades, Calif.; and three grandchildren.

ERNEST B. HULSHAPPE
ROCHESTER — Service for Ernest B. Hulshappe, 70, of 780 Eliza- beth St., will be at 1 p.m. Monday at the Piley Memorial Chapel.

Burial will be in White Chapel Memorial Cemetery, Troy.

Mr. Hulshappe died yesterday at Pontiac General Hospital after an illness of several months.

He was a life member of the Boy Scouts of America Council and a member of the Metropolitan Club of Rochester.

Surviving besides his wife Eliza- beth K. are a daughter, Betty of Berkley; two brothers, Angus

Lou Hulshappe of Rochester, and a son, Howard of Oxford.

MRS. ALBERT STEADMAN
Mrs. Albert (Ellen) Steadman, 76, formerly of Pontiac, died this morning in Oxford after a long illness.

She was a member of Central Methodist Church and the Daugh- ters of Union Veterans.

Mrs. Steadman is survived by a sister, Mrs. Flora Johnson of Pontiac; and a brother, Harry Stiles of Grand Blanc.

Service will be held at 4 p.m. Saturday at Farmer-Swover Fu- neral Home with burial in Oak Hill Cemetery.

HARVEY HAWLEY
OAKLAND TOWNSHIP—Service for Harvey Hawley, 83, of 7515 Grange Hall Road, will be at 2 p.m. Monday at the Dryer Funeral Home, Holly. Burial will be in Lakeside Cemetery, Holly.

Mr. Hawley died unexpectedly yesterday at his residence of a heart attack.

Surviving are two sons, James and Harvey, both of Holly; one brother, seven grandchildren; and four great-grandchildren.

MARGARET S. MILLER
Gravestone service was held this afternoon at Perry Mount Park Cemetery for Margaret S. Miller, 4-hour-old daughter of Mr. and Mrs. Angus M. Miller III, 1133 Whitfield St., Waterford Town- ship.

Surviving besides her parents are a sister, Mrs. Frank Giordano; and a daughter, Betty of Berkley; two brothers, Angus

M. IV and Ross M. both at home; and grandparents, Mr. and Mrs. Angus M. Miller and Mr. and Mrs. A. Van Volkenburgh.

Arrangements were by the Costa Funeral Home, Drayton Plains.

MRS. JAMES NYPPAS
ORION TOWNSHIP — Service for Mrs. James (Aapaa) Nyppas, 88, of 721 Orion Road, will be at 11 a.m. tomorrow at the Allen Funeral Home, Lake Orion. Burial will be in Oakdale Cemetery, Jackson.

Mrs. Nyppas, a member of the German Lutheran Church, died yesterday at her residence after an illness of six weeks.

Surviving are a daughter, Mrs. Donald L. McFate, and a grand- son.

MRS. WESLEY STEVENS
CLARKSTON — Service for Mrs. Wesley (Harriet B.) Stevens, 82, of 5511 Pine Knoll Road, will be at 2 p.m. tomorrow at the Sash- bow Presbyterian Church. Burial will be in Sashabaw Cemetery.

Mrs. Stevens died yesterday at her residence after an illness of two months. Her body will be at the Farmer-Swover Funeral Home, Pontiac.

Surviving are her son Kenneth of Pennsylvania; a brother, William A. Windate of Union Lake; two sisters; and two grandchildren.

HARRY A. SWAIN
ARCADIA TOWNSHIP — Service for Harry A. Swain, 61, of 3542 Five Lakes Road, will be at 2 p.m. Sunday at the Muir Brothers Funeral Home, Lapeer. Burial will be in Attica Cemetery, Attica.

Mr. Swain, a member of the Lapeer Oddfellows, died yesterday at Lapeer County General Hospital after an illness of one day.

Surviving besides his wife Ella are two sons, Howard of Almont and Russell of Flint; two daughters, Mrs. James Elmer of Lapeer and Mrs. Robert Shoemaker of Hadley, three brothers; one sister; and 15 grandchildren.

DUNCAN M. THOMSON
ROCHESTER — Service for Duncan M. Thomson, 57, of 315 Red Oak Lane, will be held at 11 a.m. Saturday at St. Philip's Episcopal Church. Burial will be in Forest Lawn Cemetery, Detroit.

Mr. Thomson died unexpectedly yesterday at Palmer Park Osteo- pathic Hospital.

His body will be at the William R. Potere Funeral Home until 10:30 a.m. Saturday.

Surviving are his wife Margare- et; a son, Daniel, and a daughter, Heather, both at home; a brother, two sisters; and one grandchild.

See Farm Bloc Cut by Census

15 States Expected to Lose Total of 21 House Seats, Beginning in '62

WASHINGTON (UPI) — The 1960 census apparently will cut down the number of members of the congressional farm bloc.

The number of House members from each state, beginning with the 1962 election, will depend on the result of the 1960 census. The Census Bureau estimates that 15 states will lose a total of 21 House seats when the final figures are in.

Ten of these 15 states are in the Midwest and South.

Many of these House members, of course represent city areas. But the losses may be concentrated in rural areas. They will mean fewer members for the House farm bloc.

The 10 Midwestern and Southern states scheduled to lose one or more House members are Illinois, Iowa, Kansas, Minnesota, Nebraska, Alabama, Arkansas, Kentucky, Mississippi and North Carolina.

The five other states which also are likely to lose House members are New York, Pennsylvania, Massachusetts, Maine and West Virginia.

2,000 Real Wet, Says Wheel

Weather Tool Predicts for 250 Years; 100 Per Cent Correct—Barton

MARFA, Tex. (UPI) — Ask any weatherman what the weather is going to be like in the year 2000, and he'll say there isn't much telling.

But ask Frank Barton and he'll say it's going to be real wet according to his "Weather Wheel."

The Weather Wheel is a crossed, circular chart about four inches in diameter worked out more than 200 years ago by Spaniards in Mexico.

It predicts the weather from the year 1700 to the year 2000, and the eight years Barton has owned the wheel it has been 100 per cent correct for Presidio County, Tex., he said.

Barton, president of a Marfa bank, got the wheel from Charlie Spencer, a rancher, who evidently had pretty good luck with its forecasts.

Spencer says he will buy Barton a new hat if the chart ever proves wrong.

Spencer said he was given the Weather Wheel by his father who got it on a trip to Mexico.

The chart covers 250 years, and designates each year as either dry, very dry, wet or very wet.

The forecasting evidently was for a portion of Mexico, but it seems to work also in Presidio County, Barton said.

He claims the wheel hit the 1950-57 drought right on the nose.

But in nearby Tom Green County, the wheel is about as reliable as flipping a coin. A check of rainfall records kept by the San Angelo Standard Times since 1921 showed the wheel correct 19 times and wrong 18 times.

This year the wheel predicts a wet year, and Barton says so far it is right as far as Presidio County is concerned.

Eskimos Prefer Mail by Dog Sled to Service by Air

ANCHORAGE, Alaska (UPI) — The Eskimo natives of Kaltag village would appreciate it if the U.S. Post Office would abandon the system of delivering their mail by air and go back to the "good old days" of dog sleds.

It would be faster that way, the village council said in a letter to postal authorities, and it would also give the villagers something to do.

At present, Kaltag, which is 400 miles northwest of Anchorage, has its mail delivered by an Alaska Airlines plane that serves the village from Unalakleet, 71 miles away, on a once-a-week schedule.

However, the flight is often canceled on account of bad weather.

The Eskimos said it would be much better if letters were delivered to Nulato, which is on an air route from Fairbanks, and then brought the remaining 20 miles by sled.

That would make for quicker, more regular service, the council said, adding:

"If we are allowed to deliver our own mail, it will help us a lot. There was no job for anybody last summer and trapping is no good... We don't know what we can do for our families."

Question Result of Vote

VAN, Tex. (UPI) — Voters are still wondering if a write-in campaign to elect R. J. Mayo city attorney was a success. Mayo defeated the incumbent, J. Allen Mills by 34 votes, but Mayo isn't a lawyer.

TOP FEDERAL Civil Defense man Leo A. Hoegh and his family sit in the basement shelter of Washington home.

If We Built Shelters It Might Discourage Russia From War

(Last of Four Dispatches)

By RAY CROMLEY

WASHINGTON (NEA) — There's a chance the fallout shelters you and I build in our basements and back yards will give pause to the Communists.

If enough of us build them, it may cut down the chances of war, reduce Russia's missile-blackmail attempts.

That seems to be the prevailing opinion of strategy analysts in the Pentagon and State Department. The opinion is not universal; there's some strong disagreement.

But the leading view seems to be that if Nikita Khrushchev knows that an H-bomb Pearl Harbor would mean instant missile retaliation AND leave most Americans able to keep a war going, there might be no war.

Based on the lessons learned in World War II with Germany, Khrushchev might be willing to start a war—knowing we'd retaliate with heavy damage on the Soviet—if he figured that in the exchange we would be left weaker than Russia.

Some estimate a saturation war — without fallout protection—could mean as many as 160 million U.S. fatalities and most of U.S. industry out of commission.

U.S. FACES TROUBLE

Retaliatory U.S. raids on Russia would not be nearly so devastating. Soviet population and industry are much more dispersed.

The Reds are giving a strong push to civil defense training. Russian building since World War II has emphasized civil defense features. Rural houses are normally excellent fallout shelters with thick soil walls and very small windows.

The Russians learned in World War II that they could take heavy civilian and industrial losses and recover. They came to believe that a highly-centralized, urban economy such as Germany's could not.

Khrushchev might well feel a sneak H-bomb war would be worth that gamble if he could destroy in the first round three-fourths of our population and major industry, lose no more than half Russia's population and industry—while nullifying Europe as a threat.

Or maybe exchange a third of Russia's population for a half of ours.

(The Red Chinese seem to have an even stronger philosophy but since they don't have bombs and missiles they don't count—yet.)

But such H-bomb devastation of the U.S. is impractical if there's fallout protection. Killing enough civilians by H-bomb blasts alone would require so many bombs of such magnitude and accuracy as to be impossible.

Khrushchev also counts on missile-blackmail. He knows the U.S. reverence for human life. There's evidence he believes that if the toll of American lives in an all-out war seems likely to be extremely high, the U.S. would be very reluctant to get into a war.

Thus Khrushchev makes missile threats vis-a-vis Cuba and increases his blustering in other parts of the world.

If Khrushchev knew no sneak attacks would wipe out tens of millions of American lives, these Pentagon men reason, he'd tame down some.

And U.S. military men would worry a little less that Khrushchev would blunder his way into World War III.

Small Events Cause Child to Leave Home

COLORADO SPRINGS, Colo. (UPI) — A push in the mud, and a subsequent spanking by his mother, led 7-year-old Timmy Case to hitchhike here recently from his hometown of Pueblo, some 60 miles away.

Timmy told local police two girls, both classmates of his, pushed him and got his clothes dirty. He said his mother spanked him so he decided to leave home.

A motorist saw him on the highway and gave him a ride to Colorado Springs.

Johnson Asks Johnson: Any Old Signs Left?

RALEIGH, N.C. (AP) — Samuel Johnson, a Raleigh attorney running for president of the State Young Democratic club, has dispatched a special request to Sen. Lyndon Johnson, D-Tex.

The North Carolina Johnson wants to know if the Texas Johnson has any old signs left from his unsuccessful bid for the presidency in Los Angeles in July.

Says Sam: The wedding would be just right for his '62 campaign, a lawyer.

Wayne State U. Drops Ban on Red Speeches

DETROIT (AP) — Wayne State University has rescinded its 10-year-old ban against permitting Communists to make speeches on the campus.

The university, a state-supported institution with about 20,000 students, threw out the ban yesterday by action of its board of governors.

"We should have policies which permit us to behave as a university should behave," said Dr. Clarence B. Millery, president of the university.

He said he supported the policy change in the interest of academic freedom.

Michigan Kiwanis Convention to Open

GRAND RAPIDS (UPI) — The Michigan District of Kiwanis International will hold its 43rd annual convention here starting Sunday.

More than 300 Kiwanians and their families are expected to attend the three-day gathering.

The convention will elect a new district governor and 15 lieutenant governors for 1961, along with hearing addresses from Rep. Gerald R. Ford, R-Mich., and Dr. Kenneth McFarland of Topeka, Kan., an educational consultant for General Motors.

Baseball Camp Makes 'Big League' Citizens

CHANDLER, Okla. (AP) — On playing fields roughly hewn from a 65-acre woodland, boys are learning to be "big league" citizens through baseball.

The youngsters, 8 to 18, "live" baseball seven days a week at the Chandler Baseball Camp, but the operation embraces much more than baseball.

"Baseball like other competitive sports," Belcher says, "instills that confidence and teamwork in a youngster. Character and responsibility are the by-products."

"We try to build poise and confidence on the baseball field in a youngster. He acquires this when he knows exactly what to do in a given situation. He reaches a point where there is no tension when he plays."

Through baseball and the camp the youngsters can acquire other desirable traits.

Under guidance of a counselor, the boys are responsible for tidiness of their bunk area. A banking system adds to the younger boys' learning. Parents deposit \$5 to \$10 in the "bank" and the boys write checks for haircuts, soda pop, candy and toilet articles.

In keeping with his "big league" theme, Belcher stresses the importance of appearance of a ball club. For games, the teams use regular baseball uniforms.

"Learning how to act like a ball player really gives the kid a lift and is an essential part of our program," Belcher says.

Each boy must attend Sunday school at one of Chandler's 11 churches. They play a game on Sunday afternoon and view films of World Series games that night.

After the camp's first season of operation last summer, many parents wrote, camp director Bob Belcher that after their youngsters returned home, marked improvement was noted in their character, responsibility and getting along with others.

Belcher, a former newspaper editor, publisher and Oklahoma State Fair promotional director, launched the camp with little money but a wealth of spirit, and the aid of the Chandler Chamber of Commerce.

The camp is a \$75,000 investment consisting of seven diamonds and 11 buildings. The two main diamonds have scoreboards, public address systems, lights and concession stands. Nine cabins house the youngsters with 10 to each cabin.

Boys are divided into age divisions of 8-10, 11-12, 13-14 and 15-18. There are three 3-week sessions with about 90 in a session.

Scapio to Represent Jack in Von Steuben Parade

LANSING (AP) — Gov. Williams said today he will serve as personal representative for Democratic presidential nominee John F. Kennedy in the Von Steuben Day parade in New York City Saturday.

At Kennedy's request, Williams said he also will address a group gathered to honor Baron Von Steuben, a German general who fought in the American revolution.

For cream was first produced commercially on a large scale in Baltimore in 1851. Painters are descended from Spanish dogs imported to England in the 18th century.

Legislators Get Formal Call

Beckoned by Williams to Thursday Session on Care for Aged

LANSING (AP)—The formal call was out today for Michigan legislators to report to Lansing next Thursday for a special session on medical care for the aged.

Gov. Williams issued the summons Thursday, voicing hope the lawmakers could wind up the job in one day and return home.

Legislative leaders of both parties reached general agreement Tuesday on a program that would go into operation Oct. 1, effective date of the new federal plan of medical benefits for the aged.

The proposals, drawn up by the governor, call for enactment of a six-month, \$7 million dollar program.

HALF FEDERAL BURDEN
The federal government would shoulder half of the cost, the state about \$3 million and counties the rest.

About 60,000 persons collecting old age pensions would get additional benefits, including home nursing care.

Another 60,000 not receiving pensions would get broad hospitalization coverage and home health care and nursing home services.

Initially, the plan would be financed from existing welfare funds, leaving to the 1961 legislature the responsibility to make up the allocated amount.

"The bill, while not all many would wish, has the merits of being a satisfactory first step and a relatively simple and traditional program," said the governor in letters to the legislators.

The Burton Museum at Acworth, N. H., attracts thousands of persons to its collection of 33,000 different buttons.

Ralph Bellamy Gives Opinions

Says Pay TV Will Save Theater

NEW YORK (AP)—The American theater is in one way like a bawdy bum.

Everyone knows there is something wrong with it and nearly everyone has figured out a way to lead it to salvation.

Ralph Bellamy, president of Equity, the actors' union, has a solution, too. He sees pay television as the remedy.

To Bellamy the plight of the theater is financial rather than artistic.

"It's a result of a general economic pressure from all sides," he said.

"Even a simple play now costs \$75,000 to \$100,000 to produce. The same play 20 years ago would have cost \$25,000 at the most."

There are 75 to 80 plays brought into New York each year—and we are lucky if 25 to 30 stay awhile—but only four or five of these are real hits. Two often a play is either an instant hit, or a instant flop.

AVENUE FLOPS LASTED
"There wasn't so much money lost in the old days. Even a flop might last a season. Everybody went to the theater then. There weren't so many other distractions."

Bellamy is convinced that pay television is on the way and that it will give the theater the biggest revival it has ever seen.

"The best of Broadway—everything—will be made available almost instantly to 180 million people," he said.

"There will be no flops. Every play will recover its money in one showing. All the big movies will be shown first on television, thus creating the world's biggest box office."

"In order to compete, commercial TV will have to improve its standards, so the public will gain all around."

Certainly the theater today could well use a financial shot in the arm of some kind.

"Acting is the most hazardous, precarious pursuit there is—particularly if you are just starting out and have no savings to fall back on," said Bellamy.

AVERAGE SALARY \$2000
"The membership of Equity is roughly about 10,000, and has been since about 1930. A five-year study showed the average salary of those who worked came to only \$800 a year."

"Two years ago we reached a peak of 50 per cent employment. Now it is down to about 35 per cent."

"These are discouraging statistics to kids trying to break in, but"

U.S. Deploys Forces Off Laos

Ships, Men Cruising S. China Sea Due to Recent Trouble

WASHINGTON (UPI)—The U.S. Navy is deploying aircraft carriers, destroyers, and a battalion landing team of Marines in the South China Sea, apparently because of disturbances in the Southeast Asia kingdom of Laos, it was disclosed by military authorities Thursday.

The State Department said that forthcoming maneuvers by the U.S. 7th Fleet in the South China Sea were "not directly related" to the troubled situations in Laos and Viet Nam.

But department press officer Joseph Reap said "I would not deny" that the continued presence of the 7th Fleet in the Far East was necessary "in view of the Communist aggressions in that area."

Reap said that "the need for constant alertness on the part of the 7th Fleet in that area has been demonstrated several times during the past several years."

The disclosure of naval movements followed a warning over the weekend from the State Department, telling Communist China in effect not to meddle in the rebellion which had broken out in Laos.

The navy said a transport and a landing ship, carrying 1,100 Marines, will leave Formosa today for operations in the South China Sea off Subic Bay in the Philippines.

At the same time, the anti-submarine warfare aircraft carrier Hornet will leave Manila "for operations while en route to Hong Kong."

Some of the Hornet's airplanes have been removed to make way for a helicopter squadron of the type that could put Marines ashore in a landing operation. The Hornet is escorted by three destroyers, the Esproncy, Renshaw and Philip.

Ghana Buys 10 Russian Planes for Air Force

ACCRA, Ghana (AP)—The Ghana government has bought 10 Soviet Ilyushin turboprop aircraft for the Ghana air force, sources close to Ghana Airways said Thursday. The planes will be manned by Soviet crews until Ghana crews, to be trained in Moscow, are ready to take over.

Herter Flies South for Mexican Fete

DOLORES HIDALGO, Mexico (UPI)—Secretary of State Christian A. Herter flew here last night to take part in ceremonies marking the 750th anniversary of Mexico's independence from Spain. Herter stopped off in Mexico City on the way to this historic "cradle of revolution" to deliver President Eisenhower's "warm expression of friendship for Mexico" to Foreign Undersecretary Jose Cavazos.

President Adolfo Lopez Mateos and other top Mexican officials are observing the independence anniversary here.

The earth's crust is about five billion years old.

Kazoo Firm Purchased by Mississippi Company

NEW YORK (UPI) — Dumas Milner Corp. of Jackson, Miss., said today it has purchased Commonwealth Products, Inc., of Kal-household products.

amazon, Mich., for an undisclosed sum.

Howard S. Coburn, president of Dumas Milner Corp., said the Kal-household company's annual sales last year were more than \$1 million. Both firms manufacture household products.

Want HST to Get Hennings' Seat

Missouri Dems Said Coaxing Him to Run, and He Just May

JEFFERSON CITY, Mo. (U.S.) — Some Democrats are reported trying to persuade former President Harry S. Truman to run for the U.S. Senate seat left vacant by the death of Sen. Thomas C. Hennings Jr.

Gov. James T. Blair is regarded as a candidate for the nomination but has made no public announcement. He is expected to call a special election for Nov. 8 after Hennings' funeral today.

The Democratic State Committee is slated to meet next week to pick its nominee, probably Tuesday, with the Republican State Committee meeting later in the week.

Atty. Gen. John M. Dalton, the Democratic nominee for governor, has not publicly indicated any preference. His intimates say he would like to stay out of the election altogether.

But if Truman's name is presented to the state committee, as expected, Dalton undoubtedly would throw his support in that direction to avoid any chance of governing for four years. In that race, Blair defeated Republican Lon Hocker of St. Louis by less than 75,000 votes.

Truman, now 76, said in New York Wednesday he had no ambition to return to the senate where he served before becoming vice president in 1945. But he did not close the door to a draft movement by the state committee. And in the past he has advocated setting up some arrangement for former presidents to sit in the Senate so the nation could have the benefit of their experience.

Trickster Makes Coin Disappear; Doctors Find It

BELEVUE, Ohio (U.S.) — Dan Burke, 28, ended a display of his tricks by making a half-dollar disappear.

Surgeons at Bellevue Hospital provided the encore. They had to operate to recover the coin, which Burke inadvertently swallowed.

Sen. Johnson to Visit Michigan 'for Sure'

LANSING (U.S.) — Gov. Williams said Thursday that Sen. Lyndon Johnson, the Democratic vice presidential candidate, would visit Michigan during the campaign.

Williams said that at the request of the Democratic National Committee, the dates of Johnson's visit would not be announced yet.

"This is not a figment of the imagination—Johnson will be in Michigan campaigning," said Williams.

HIS AUTOGRAPH — Sen. Harry Goldwater (R-Ariz.) pauses to autograph a copy of his book, "The Conscience of a Conservative," for Mrs. Frederick Rutledge, one of an enthusiastic group

of Republicans which met him Wednesday at the Columbia Airport in South Carolina. Goldwater spoke later in behalf of the GOP presidential ticket in Columbia, Greenville and Spartanburg.

Burn Young Girl in Peru

Indians Appease Gods

LIMA, Peru (AP)—Primitive Macho Indians of remote South Peru burned a 16-year-old girl to death to propitiate their gods, dispatches from Cuzco said Thursday.

A medicine man and his woman companion, who counseled the human sacrifice, were arrested by a police patrol from Cuzco, ancient Inca mountain capital.

The Machos, most primitive of Peruvian Indians, live in the Paitan Valley between two ranges of the Andes in Cuzco Province. A drought has hurt their food crops and fishing in the rivers has been poor.

To appease the gods, the medicine men and his companion argued that the prettiest girl of the tribe be sacrificed at the stake and this was done while the Machos performed a frenzied ritual dance, the dispatches said.

New Hampshire has had a state system of education since 1647 when a court order required every community of 50 or more persons to have and maintain a school.

FROM WALK TO STAGE — Lylah Tiffany, 81, shown playing her accordion outside her Carnegie Hall, New York, residence, played for the coins of pleased passers-by. But chance helped her hit the key to a part in a major Broadway production. Lylah, former professional piano player with an all-girl orchestra, has just signed a \$300-a-week contract to portray a 102-year-old-great-grandmother in "All the Way Home." She says she'll continue playing her accordion until rehearsals open next week.

Claims State Triangle to Be Famed for Roads

MOUNT CLEMENS (AP)—Michigan's state highway commissioner says that by 1967 the Flint-Port Huron-Toledo triangle will be the most accessible metropolitan area in the world.

The commissioner, John C. Mackie, made the statement at a meeting of the Southeastern Michigan Intercity Highway Commission.

Mackie said some \$197 million in highway construction is planned for a six-county area in Southeast Michigan over the next 2 1/2 years.

He added that \$55 million in construction work already has been completed since July 1957 in Wayne, Oakland, Monroe, Macomb, Washtenaw and St. Clair counties.

In addition, he said, "another \$35 million in construction work is now under way in this six-county area."

"This amounts to \$285 million in state highway construction in this six-county area in the five-year period from July of 1957 to June of 1962, exclusive of right-of-way costs."

Mackie said construction planned for the coming months called for \$14 million in St. Clair County; \$11 million in Washtenaw; \$23.6 million in Macomb; \$96.5 million in Wayne County; and \$51.8 million in Oakland County.

Group Will Aid School Bonding

Louis H. Schimmel of City Heads Committee on Amendment

LANSING (AP)—A committee has been formed to push for the adoption of a school financing amendment to the State Constitution on the Nov. 8 ballot.

Backers say the amendment will supplement and strengthen existing constitutional guarantee of local school district building bonds which puts state credit behind the bonds.

Representatives of the Michigan Federation of Teachers, the American Association of University Women, the Association of School Boards, the Michigan Education Association, the Builders Association of Metropolitan Detroit, the Michigan Association of Supervisors, the Township Association and the State Grange are on the committee.

Louis H. Schimmel, director of the Municipal Advisory Council of Michigan, is chairman.

Lower Yields Expected by 7 of 13 State Crops

LANSING (UPI)—The September vegetable report by the Federal-State Crop Reporting Service predicts yields below last year for seven of the 13 crops on the list.

Reductions from last year's yields were expected in snap beans, cantaloupe, celery, sweet corn, cucumbers, mint for oil and onions.

Crops showing an increase from 1959 production included cabbage, carrots, cauliflower, head lettuce and tomatoes.

Forms McNamara Unit

DETROIT (AP) — Frances Comfort, 50, a retired Detroit public school teacher, has organized a Michigan Senior Citizens Committee to support Democratic Sen. Patrick V. McNamara's bid for re-election. Miss Comfort is chairman of the committee which is made up of 40 older citizens representing every area of the state.

Laud Guinea President

HONG KONG (AP) — Communist China has accorded the warmest welcome ever given a foreign dignitary to President Sékou Touré of Guinea. The Sept. 11 issue of the People's Daily, just reaching here, devoted six of its eight pages to Touré's visit. This was more attention than Soviet Premier Nikita Khrushchev got.

Bedley's (now Liberty) Island was selected as the site for the Statue of Liberty by Gen. William T. Sherman.

PET DOCTOR

By A. W. Muller, D.V.M.

Q. I have had my dog treated for red mange many times, but it always comes back. Is there a cure for this?

A. Red or "follicular" mange is caused by the mite "demodex." Your dog is suffering from it in one of two forms: squamous, the dry type, or pustular, which is moist.

Both are characterized by loss of hair and reddening of the skin. Although it affects all breeds, red mange seems to be more prevalent among short-haired dogs, such as dachshunds, boxers, etc. After the hair follicles are affected, another bacteria moves in and causes pus in the moist type.

This organism can also occur in the blood stream and lymph glands of the animal. Internally taken fungicides are showing great success in treating dry red mange. Antibiotic therapy will kill secondary invaders, in most cases, but external applications and careful medication are necessary to kill the mites.

I've seen many cases where the animal appeared cured on the surface, and then suddenly broke out again. Treatment for red mange requires patience.

I'm sure your veterinarian would tell you if your dog's case is hopeless, for there are some heavily infested cases that cannot be cured at this time.

Detroit Oilman Biber on Corrections Board

School Starts Sept. 28

LANING 48 — Max Biber, Detroit oilman, Thursday was named to the board of the State Corrections Commission.

Biber, who has been actively involved for a decade in prison, youth and prisoner rehabilitation work, was appointed for a term ending Oct. 1, 1963, subject to Senate confirmation.

He succeeds Saul R. Levin, who died last year. Biber graduated from Wayne University in 1935. He has practiced law for 25 years and served as president of Auto City Oil Co. which he founded in 1949.

William also directed appointment of Charles Fehrbach, Detroit, vice president of the Speedway Petroleum Corp., as a member of the State Historical Commission.

Fehrbach, widely known bibliophile, will replace Chester W. Ellison, Lansing book dealer, whose term expired. Fehrbach has one of the better private collections of Walt Whitman's work.

C. J. Reese of Muskegon, president of Continental Motors Corp., was named a member of the State Aeronautics Commission.

Seventeen appointments and reappointments to the Detroit Area Regional Planning Commission also were announced.

New appointments were those of Earl J. Tallman, of Warren, George W. Hargreaves of Mount Clemens, Fred R. Cheek of St. Clair Shores, Carl Westman of St. Clair Shores, Ralph S. Guy Jr. of Dearborn and Mayor Clarence Lichtenberg of Allen Park.

Pontiac Adult Classes Listed

Adult education classes in the Pontiac Public Evening School are scheduled to start Sept. 28 and 29, according to Raymond J. Graff, acting director of the vocational education department.

Registration for these classes will be held in the Vocational Building at Pontiac Central High School, Monday, Sept. 19 through Thursday, Sept. 22.

Registration will be accepted each day from 8 a.m. to 4 p.m. and from 7 to 9 p.m. Thursday night.

Courses for high school credit carry a registration fee of \$20 and will meet two nights weekly for 10 weeks, but will be organized only if enough people enroll to fill the class.

Citizenship classes will meet Monday and Wednesday nights at 7:30 and Americanization classes on Thursdays at 7:30 p.m.

Registration fees vary from \$7 to \$20 depending on the type of class and number of hours.

A minimum of 12 students is required to organize any class. Courses offered this fall are as follows:

Vocational industrial classes meet Thursday, 6:30 p.m.; automotive classes are run-up, shop mathematics, drafting reading, tool and die design, metal layout, electrical maintenance and welding. Courses for civic and civility day: beginning reading—Monday and Wednesday; English, Spanish, basic economics, public speaking and first aid, Wednesday; stocks and investments

and French, Thursday, fall meet 7:30 p.m.; sewing, 7:30 p.m.; typing, 7:30 p.m.; bookkeeping, 7:30 p.m.; shorthand, 7:30 p.m.; stenography, 7:30 p.m.; and oil painting.

Classes meeting Thursday, 7:30 a.m. to 12:15 p.m.: bookkeeping, stenography, shorthand, typing, and oil painting.

Classes meeting 7:30 a.m. to 12:15 p.m.: bookkeeping, stenography, shorthand, typing, and oil painting.

Will America Let Mr. K Elect Its Next President?

By JAMES MARLOW

WASHINGTON (AP) — The American presidential campaign may take a sharp turn in these next few weeks simply because the unpredictable Premier Nikita Khrushchev is getting close to America in the midst of the contest.

On the surface it might appear he has no intention of getting involved.

He's shown contempt for President Eisenhower, without making it exclusive. He's also expressed contempt for the two candidates: Vice President Richard M. Nixon and Sen. John F. Kennedy.

"Lackey of monopoly capital," he called them, explaining he did it to put an end to talk that he favors one of the candidates over the other.

It's an amazing commentary on the rising power of Russia—and the self-consciousness of Americans about that Russian power—

'Ya Better Move United Nations'

Nikita Expected to Ask Removal of Group From American Territory

LONDON (AP)—Automotive British diplomats said today they expect Nikita S. Khrushchev to demand removal of United Nations headquarters from American territory unless Washington relaxes its curbs on Red leaders.

These British sources said they also have been given to understand the Soviet ambassador almost certainly will call for dismissal of Dag Hammarskjöld. Khrushchev is expected to contend the secretary-general exceeded his authority in the Congo crisis.

Khrushchev is believed ready to make these points when he addresses the General Assembly next week.

The Soviet Union's stance on both issues has been shaping up unmistakably in the past few days in preparation for Khrushchev's appearance before the Assembly Sept. 23.

The U.S. government has explained that security factors lie behind the order confining Khrushchev to Manhattan Island. But Khrushchev and his spokesmen have termed Washington's curbs unfriendly, illegal and unnecessary.

Stung by the evident indignity to their premier implied by the restrictions, the Russians already have demanded officially both in Washington and U.N. headquarters that the ban be scrapped.

Any Soviet demand for withdrawing U.N. headquarters from U.S. territory inevitably would be resisted by most western and neutral nations—even though the United States itself might decide to remain aloof.

Guatemala President Ends State of Siege

GUATEMALA (AP) — President Miguel Ydigoras has suspended the state of siege — a modified form of martial law — which has been in effect throughout his Central American nation since July 17 and replaced it with a "state of alarm."

The state of alarm is more moderate in its restrictions on constitutional guarantees.

The state of siege was decreed after a series of bombings and riots by leftist groups.

The state of alarm was decreed because the government has reports of an invasion force of leftists forming in Cuba, spokesman said. Ydigoras has accused Fidel Castro of encouraging a revolution in Guatemala.

The famed Grand Canal flows through Venice in the shape of a letter "S."

Females Invited to Crash Bar at Waldorf

NEW YORK (UPI) — The walls of one of man's last sanctuaries have tumbled down.

The men's bar at the Waldorf is being opened to women.

Since the 1890s, the men's bar at the Waldorf-Astoria had provided a needed refuge first from the suffragette parades, and in its last days from women shoppers' women's club luncheons and women drivers on Park Avenue.

All that ended Thursday afternoon when the bar was moved to new quarters, and the women invited in.

Perhaps in the interest of fast fading tradition, the bar, renamed the "Bull and Bear," will still be "Men Only" until 3 p.m.

The long lunch hour, at least in inviolate — for a while.

Gus Scholle Likens GOP to Khrushchev

DETROIT (UPI) — Michigan AFL-CIO President August Scholle said today Republicans were not invited to Michigan Labor Day celebrations because to invite the GOP to such affairs would "make just as much sense" as to have "Nikita Khrushchev address a Fourth of July celebration."

Republicans objected that they were cut out of Labor Day rallies here and in Pontiac which were addressed by Democratic presidential nominee John F. Kennedy and other Democratic candidates.

Scholle, writing in the AFL-CIO News, said the GOP complainers were "apocryphal critics."

4 State Firms Awarded Prime U.S. Contracts

DETROIT (UPI) — The regional office of the Small Business Administration has announced that four Michigan firms won govern-

Catfish in Zoo on Hunger Strike Finally Dies

MEMPHIS, Tenn. (AP) — There's no telling what was on the mind of Flathead the catfish, but it did want another beer he didn't get it.

The huge catfish died in his 1,700-gallon tank at the zoo Thursday of self-imposed starvation. It was his second and final hunger strike.

The first one, coming right after his capture, ended when zoo men poured a bottle of beer down his throat. That stirred Flathead into a healthy appetite that lasted six months.

But he quit eating again three weeks ago. His weight dropped from 37 to 14 pounds. The zoo is looking for a replacement that won't be so choosy.

New Guinea was the first of the south sea islands known to Europeans.

Actor Ramon Novarro Gets 5 Days and Fine

VAN NUTS, Calif. (AP) — Actor Ramon Novarro was sentenced to five days in jail for drunken driving Thursday.

The veteran actor, now 61, also was fined \$20 after a jury brought in a guilty verdict. He was arrested May 30 after his car struck a parked car in nearby North Hollywood.

Electric Autolite Plans to Acquire Iowa Firm

TOLEDO (AP) — Electric Autolite Co. has announced plans to acquire the Marshalltown Manufacturing Co., Marshalltown, Iowa.

J. M. Considine, chairman of the Marshalltown board of directors, said the board has approved the plan. Stockholders approval will be sought at a meeting Oct. 4, he said. No purchase price was announced.

The Iowa firm operates two plants at Marshalltown and produces pressure gauges, thermometers and hydrometers. Annual sales exceed \$3 million.

**'Needles' Space Try
Opposed by British**

LONDON (AP) — European scientists, led by British space expert Prof. Bernard Lovell, are asking the U.S. Air Force to cancel an experiment which would put millions of thin metal strips into orbit around the earth.

The American project, known as "Needles," is intended to find out whether the metal strips would serve instead of satellites to bounce radio signals back to earth.

Prof. Lovell, director of Britain's giant radio telescope at Jodrell Bank, said astronomers viewed the experiment with "grave concern."

It was a possible danger to astronomical research both radio and optical, Lovell told the International Scientific Radio Union Thursday.

Light Among Legal Notices

Wants World to Know

LOS ANGELES (AP) — This item appeared Thursday under the heading of "legal notices" in the classified section of the Los Angeles Evening Herald-Express:

"I am responsible for all debts and obligations of my wife Margaret both present and future and am delighted to be the provider for a woman who has borne me two fine children. I listened patiently to all my gripes and with an overabundance of love and care made the past 21 years the happiest I have ever seen. Ray Ogden."

A reporter for the paper found the slim, blonde wife being treated to breakfast in bed by her husband.

"I mean it," said Ogden, an auto agency employee. "I'm proud to express myself privately"—he poured a second cup of coffee—"and publicly."

**Court Upholds
Ferndale Board**

**Supports Street Firing,
Slaps Tenure Group
for Interference**

LANING (AP) — Ferndale's School Board stood as the winner today in a court fight touched off by a dispute over progressive education.

The State Supreme Court, in a unanimous decision Thursday, upheld the board's right to remove Scott W. Street as a school principal and reassign him to a visiting teacher post.

The court also slapped down the State Tenure Commission. The court told the tenure com-

mission it had no jurisdiction in the Street case and therefore lacked authority to order him reinstated as principal of the Paul Best School.

The opinion by Chief Justice John R. Detmeres agreed that Street could not claim tenure in his administrative post and technically was not demoted, as he claimed, since his salary was not reduced.

The board removed Street on the charge that he ignored its policy against progressive teaching methods. He left Ferndale last year and currently is working as a civilian at an Air Force school in Libya.

Flowers on the Menu

LONDON — English recipe books of the 17th and 18th centuries indicate that Europeans "once liked foods made of flowers. The books contain recipes for making a conserve of red roses, a stirup of violets, and marigold pie.

**Brewery Bottles Water,
But Only for While**

MIAMI, Fla. (AP) — A Miami brewery shut down its production line Thursday and began bottling water. The action wasn't the re-

sult of a change in drinking habits of south Floridians. It was to isolate shipments of drinking water to residents of the devastated Florida Keys, whose water supply lines were broken by Hurricane Donna. Beer production will be resumed today.

Make laundering as easy
as laundering can be—get a flameless

**ELECTRIC
CLOTHES DRYER**

WHY A FLAMELESS ELECTRIC DRYER IS BETTER FOR YOUR WASHABLES. Whites stay white, colors stay bright. There's never any sun fading or fume yellowing. Since it's electric, there are no products of combustion. Freshly washed clothes stay clean all the way. There are models which have a temperature for every fabric, from delicate synthetics and wools to the heaviest work clothes. Dewrinkling cycles make ironing unnecessary for lots of things.

TRULY A WORK-SAVING TEAM — AN ELECTRIC DRYER AND AN AUTOMATIC WASHER. Pre-selected, accurately controlled washing cycles and drying temperatures take the guesswork out of laundering. Gentle agitating and tumbling help fabrics last longer, look better and stay fluffier. Drying the electric way is fast, too, because gentle, radiant heat begins right away.

TAKE THE WORK OUT OF LAUNDERING AND THE LAUNDRY OUT OF HIDING. Electric laundry appliances are so good looking, clean, and easy to operate that you don't need to hide them any more. Many homemakers want them handy in the kitchen. It's easy when they're electric because flameless electric dryers and water heaters can be put where you want them.

Lions Play Final Exhibition Saturday

Wilson Gets Last Chance to Experiment

Series With Tigers Crucial for Chisox

Detroit Coach to Use 2-Quarterback System Against Browns

PCH, Skippers Meet Tonight

The Lions, who touch down to the Briggs Stadium A exhibition opener, one at Cleveland, the end of the six-game slate for the Lions

For Wilson, time may be running out. He has yet to solve the problem that has plagued him consistently since the team opened training camp six weeks ago and that is the quarterback situation.

The Lion coach was sharply criticized last season for utilizing two starting quarterbacks instead of sticking with one man to lead the team. And he has insisted, all along this season, that he wanted only one player in the starting quarterback slot.

But he doesn't have one. The two top candidates, Earl Morris and Jim Ninowski, have shown periodic signs of brilliance but have fizzled almost as often as they have sparked.

Little Football League Players to Sell Candy

The All-America Little Football League which in the past five years has grown to a total of 50 teams in Southeastern Michigan will be honored by its "week" Sept. 17-Sept. 24.

The newest and most local entry in the league, West Bloomfield, will stage a candy-sale drive starting today for the purpose of raising funds.

The little West Bloomfield grid-ers will canvas the entire Pontiac area with Sanders' chocolates at \$1 per box.

The things to be avoided are the use of a sweeping stroke instead of a downward stroke, and a swing so hard that you lose out on contacting the ball cleanly and solidly.

With a sweeping stroke, the clubhead has to pass through several inches of tough grass to get the ball and the clubhead will be slowed down and possibly deflected off line. If you just flail away at the ball, you will not be getting maximum use of your strength.

With a sweeping stroke, the clubhead has to pass through several inches of tough grass to get the ball, and the clubhead will be slowed down and possibly deflected off line. If you just flail away at the ball, you will not be getting maximum use of your strength.

Others in Host Roles Include Wolves, Vikings

Four Afternoon Grid
Tilts Start Season's
First Prep Round

By CHUCK ABRAHAM

Starting with four afternoon contests, the 1960 high school football season took over the local sports scene in full force today. A total of 39 games involving area teams are on tap for tonight.

There are several interesting opening night affairs highlighted by Lake Orion's invasion of Washtenaw Stadium to meet the Pontiac Northern Huskies.

A lot of attention will be focused on West Bloomfield where the highly-rated Lakers host St. Michael. Oxford will be at Clarkston and Avondale entertains Millard in some of the other top local attractions.

Northern's revamped line will be put to a good early test with Orion featuring some good, experienced backs. The Huskies possess the nucleus to have another good year led by standout quarterback Bruce Norton.

★ ★ ★
The Dragons will have a big weight advantage in a lineup which will include two sophomores and three juniors. The sophomores are tackles indicating the "greenness" of the forward wall.

St. Michael is another young team, especially in the backfield. The Shamrocks will have four underclassmen in the offensive lineup against West Bloomfield. The Lakers have been experimenting at quarterback and will open with senior Jeff Pries. Shamrock linemen must contain swift Jack Newlon to make a

A lot of big boys will be knocking heads at Clarkston as Oxford pays a visit. Both have inexperienced backfields. An interesting line battle could shape up between 255-pound Rich Valentine of the

Soph hopeful Romi Lucero makes his first start directing a veteran Avondale backfield. Milford coach Jerry Ganzel is going with younger players in a rebuilding season. He will have six juniors and three sophomores in the first unit.

PNH, West Bloomfield, Oxford and Avondale was the opener a year ago.

Coach **Cari Lemle** will spring **Steve Jacobson** and his mates loose as **Birmingham** hosts to **Edsel Ford**. **Walled Lake** goes after win No. 1 against visiting **Redford**.

Southfield, hoping to bounce back as power, starts out at home against Royal Oak Kimball. Farmington goes to Livonia Bentley and Berkeley vs. Ferndale. Lapeer is host to Mt. Pleasant.

Troy makes his debut on home grounds against Maryville. Northville goes to Plymouth. Holly meets Grand Blanc. Clarenceville vs Ypsilanti. Clawson entertains Center Line. Madison plays Royal Oak. Mt. Pleasant meets Farmington Hills. Lyon tangle. Richmond is at

Elsewhere, Ortonville lifts the lid at Goodrich trying to win one for new coach Ed Tallman, St. Clement visits Warren, Millington at Vassar, North Branch at Mariette, Imlay City and Almon have their usual battle, Mt.

This afternoon's slate had Emanuel Christian at Flint Hoover, Bloomfield Hills at Oak Park, Madison Lamphere at New Haven and Country Day entertaining at Maumee, Ohio.

Michigan Police Take Most Pistol Trophies
 GREENCASTLE, Ind. (AP)—Michigan police won most of the trophies in the Indiana State Police pistol matches ended yesterday.
 The four-man Michigan State police team won overall honors in the three-day meet. Robert Brelsner of the Michigan team won individual honors with 2,613 points out of a possible 2,700. Lester Doubleday, a teammate, took second with 2,588 points.
 Don Witte and Richard Brantner were the other members of the team.

Pirates Start Final Road Trip With 6-Game Lead
 The Pittsburgh Pirates set off on their final road trip of the season tonight with St. Louis and Milwaukee still in need of a minor miracle to bar the Bucs from their first National League pennant in 33 years.
 With 14 games left, the Pirates lead by six games and have to win 10 to clinch the flag no matter what the Cards or Braves do. Seven victories probably will be enough for the Bucs, already loaded with more wins than they've managed in any of the last 13 seasons.
 After losing two in a row, the Pirates bounced back with a 5-1 victory over Los Angeles as right-hander Bob Friend won his 16th with a six-hitter Thursday. That gave the Pirates 36 victories, their top total since finishing second with 90 in 1944, and reduced their magic number over the idle second place Cards to 10.
 Going into the opener of an eight-game trip at Cincinnati tonight, any combination of Pittsburgh victories and Cardinal losses totaling 10 wraps it up for the Pirates. The combination is right over the third place Braves who trail by 6½ after defeating the Chicago Cubs 5-1 as Lew Burdette won his 17th with a low-bit pitching job.

Mrs. Cova's Golf Game Sharp, She Wins WMGA Title
 Mrs. Midge Cova, wife of Bob O-Link's head pro, shot the greatest golf of her career Thursday to win the Women's Metropolitan Golf Association match play championship for the 3rd time.
 She fired a 75 to break the course record for women and one-potted a down green as she defeated Mrs. H. G. (Fran) Martell, 5-4, in the finals of the annual WMGA tournament at Rochester Country Club.
 The decisive victory enabled Mrs. Cova to retire the Ruth Stricker Trophy. Mrs. Cova previously won the match play tourney in 1954 and 1956.
 Even though the match ended on the 14th hole, the two women decided to complete the round. Mrs. Martell played almost as well as Mrs. Cova, shooting an 82 and one-putting 10 greens.
Red Wings Get Even
 DETROIT (AP)—The Detroit Red Wings evened things up with their Edmonton farmhands Thursday by skating to a 4-2 pre-season hockey triumph. Gary Adoreo scored twice for the parent club with Val Fonteyne and Gordie Howe getting the other goals.

Big Decisions — A pair of great athletes made crucial decisions in their respective sports yesterday. Stan Musial (left photo center), 38-year-old slugging star of the St. Louis Cardinals told manager Solly Hemus (left) and general manager Bing Devine that he would play again next season. Maurice (Rocket) Richard, also 38, (second from right in right photo) announced he was going to retire from professional hockey. With him at time of the announcement are Montreal Canadian coach Toe Blake, Hartland de M. Molson, president of the club and Frank Selke, general manager.

January's 63 Sets Tacoma Open Pace
 TACOMA, Wash. (AP)—Slim, purposeful Don January of Dallas, moved into today's second round of the \$25,000 Tacoma Open golf tournament with a four-stroke budge on a sharp-shooting field and a new course record for his collection.
 He eased around the 6,890-yard par-71 Firecrest golf course in a string of 63 strokes Thursday, unhampered by a fog that prompted tourney officials to suspend play for 15 minutes in the early morning.

Kowalczyk Plea Is Relused by Commissioner
 DETROIT (AP)—Fullback Walt Kowalczyk has lost his plea to the National Football League commission that he be allowed to remain with the Detroit Lions.
 The Lions had transferred Kowalczyk to Dallas. But he appealed to the NFL's players' association in an effort to block the transfer.
 Kowalczyk said he was fed up with being shifted about. He said he had acquired a home in Detroit after Philadelphia traded him to the Lions.
 Commissioner Pete Rozelle ruled, however, that Kowalczyk is not a hardship case and, therefore, must report to the Cowboys.

Big Yank-Oriole Series Starts Tonight

NEW YORK (AP) — Whitley Ford, the lefty with the "dead arm," and the New York Yankees get rolling tonight with the Baltimore Orioles on a four-game series in the Bronx that could settle the American League pennant race.
 If the pride of the Yankees is to be soothed, as they vowed after last year's dismal third place finish, this is the weekend for the job.
 Going into the series opener, which is expected to bring in 55,000 fans at Yankee Stadium, the Yanks have a one-percentage point edge over the Baby Birds who swept a three-game set at Baltimore two weeks ago.
 The Orioles took over first place with that sweep—then skidded to second and stayed there by winning only four of the nine games they've played since—but they'll have to win three of the four this weekend to make it back on top.
 A split (as suggested in a "beperting" letter to Baltimore Manager Paul Richards from "the mob in Chicago") would leave the Birds one game back in the decisive "last" column with nine to play. The Yankees will have 11 left.
 A split also would let the Chicago White Sox crowd into a second place tie with Baltimore—if the defending champs can sweep

a four-game series at Detroit this weekend.
 The Orioles, all even (3-3) in the season series with New York, but able to win only one of seven at Yankee Stadium, will go behind Steve Barber tonight, then pitch ace Chuck Estrada (17-9) against Bob Turley Saturday afternoon.
 It's Jack Fisher and Milt Pappas against Yankee Ralph Terry and Bill Stafford in Sunday's wrapup doubleheader.
 Ford, 31, has a 4-2 record against the Orioles in his worst season (9-9) of a nine-year career. He hasn't given up a run in 25 innings against the Birds at Yankee Stadium, pitching two three-hitters and combining with Terry for an eight-hit shutout.
 Still, Richards has tabbed Ford a dead-end guy who may not "pitch another winning game this season." The Orioles skipper claims Ford's trouble goes back to mid-August, when he made two starts in three days and won both in three hits—4-0 decisions—the second against Baltimore.
 Ford scoffs. But he's lost his only two decisions in four starts in three hits—4-0 decisions—the second against Baltimore.
 Barber, a 21-year-old southpaw with a 19-5 record, has faced the Yankees only twice this season.

It scores an extra point on taste, says MR. SMOOTH TO MR. SILK.
 Kessler's, the flavor makes you cheer!
 The fans all say it's smooth as silk, this whiskey knows no peer!

Italian Claims Invention of New Musical Rhythm

TURIN, Italy (UPI) — Municipal messenger Mario Tassinari claims to have invented a new musical rhythm different from swing, boogie,

rock 'n' roll or any other kind known today. Called "O.K. Pentatime," the three-two rhythm is one in which "the negative and positive have been united to form a melody," he explained.

Shopkeeper, 81, Says Customers Hard to Suit

LONDON (UPI) — After 66 years as a shopkeeper, Frederick Kirby, 81, says the customers are harder to please today.

But he says working conditions are better: when he started he worked from 7:30 a.m. to 8 p.m., except on Saturdays, when he worked until 10 p.m.

Columbia University was 200 years old in 1954.

Hydraulic Bean Picker

MANCHESTER, England (UPI) — The hydraulic bean picker is invading Britain's bean patches. The machine, made by Mather and Platt Ltd., of Manchester,

plucks beans off the plants by wire fingers attached to a reel in much the same way hay is picked up off the ground by the pick-up reel of a hay baler.

Great Salt Lake City was renamed Salt Lake City in 1968.

Girls Sweep Elections

WOLCOTT, N.Y. (UPI) — The girls had the best of it in recent elections at the Leavenworth Central School. Each of the four high school classes elected a girl as president.

Most children can quietly let go for an answer without letting it disturb their previous plans in the least. It's pretty certain no girl will ever star in major league baseball. Boy would she be shaving commercials? Earl Wilson.

500 New Students at 2nd Convocation

MSUO Freshmen Hear Challenge

With academic pomp and dignity, Michigan State University's second annual Freshman convocation yesterday.

Some 500 entering students, area school superintendents and members of the Michigan State University Board of Trustees and MSUO Foundation watched the colorful academic procession of the university staff.

Faculty members, attired in caps and gowns, marched from Foundation Hall to the Oakland Student Center.

Speakers at the convocation were Chancellor D. B. Varner and Dean of Faculty Robert G. Hoopes.

"WORK HARD NOW"
Varner told the entering freshmen that they will have to "work hard starting immediately" when classes begin Monday.

"This curriculum has been carefully studied, and is designed for your educational development," Varner said. "We believe

it is as good as any curriculum in the country."

Varner warned that the new students would find work at MSUO difficult, and added that each would be in competition with the others, "who are all good students."

Varner said that helping them would be a competent and exciting faculty "assembled from the great universities of the world."

"The first class at MSUO made clear that its purpose in coming here was to learn," the chancellor said.

"These traditions we shall expect you to uphold and preserve," Varner said.

LIBERAL ARTS KEY
Hoopes told the new collegians their studies would be centered about the liberal arts.

"While these subjects might not help you build either a chapel or a bridge, they will give you understandings that will provide some

meanings and purpose to life," Hoopes said.

"We are the only civilization which tells its young people at a certain age: 'From now on it will be your duty to challenge the legitimacy of the culture in which you have been brought up,'" the dean pointed out.

"No longer take for granted any of the truths you have been conditioned to believe in," Hoopes said.

"Investigate these truths and then make up your own mind. We shall not admit you to any position of responsible leadership in

our society until you have done so," he added.

CONSTRUCTION AHEAD
Within 30 days, students were told, construction will begin on the \$1.5 million Kreeger Library, and within 60 days on a \$2.5 million science-engineering building.

Varner added that in the spring the university hopes to break ground for an intramural sports building, which would house a gymnasium and swimming pool.

Students were registering for classes yesterday and today. Classes at MSUO begin Monday.

Extreme Lack of Interest Perils CD Course in City

Civil defense officials hope a bigger public turnout next week will save the current training course in medical emergencies from collapsing because of unexpectedly low enrollment.

Only 12 persons showed up when the 13-week course began last week and "considerably more" persons must show interest at the second session Monday "to warrant continuation of the course," said Robert A. Stierer, assistant city manager and deputy civil defense director.

The second session — first aid training — begins at 8 p.m. in the multipurpose room at Central Elementary School.

The course, sponsored jointly by the city and county offices of civil defense, is taught by local medical doctors and nurses and was to have run Monday nights for another 12 weeks.

USUALLY 50 TO 75
"It is possible that not enough publicity was given to the opening of the latest course," said Stierer.

"Perhaps that explains the very low initial turnout. We usually have from 50 to 75 persons in the course."

This is the fourth time in two years that the course has been offered in the city.

Other subjects on forthcoming Mondays:

Prisoners Get Kiwanis Advice

Program, a Success Elsewhere, Begins at Camp Pellston

PETOSKEY (AP) — A program of volunteer counseling advice to prisoners at nearby Camp Pellston began Thursday under sponsorship of the Kiwanis Club. It runs for 12 weeks.

Dr. Ernest V. Shelby, Michigan Department of Corrections spokesman, outlined workings of the program as experienced in other areas.

He said the volunteer counselors "gain a new perspective." The young offenders, he added, "need a fatherly type to give them a good, wholesome, mature example."

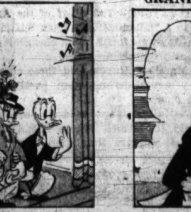

Camp Pellston houses about 100 men. Dr. Shelby said it cost the state \$85,000 to build and equip—equal to \$250 per man—while state costs go to \$7,000 per man to build a minimum security prison and \$12,000 for a maximum security facility such as Southern Michigan Prison.

The Corrections Department authority said the Kiwanis volunteer counseling program in some areas showed a cut of up to 50 per cent in the rate of parole failures.

Estate Left to Widow

LOS ANGELES (U) — Most of an estate valued at \$750,000 was left by Benjamin F. Hornell to his widow, Wilma, 82, probably of his will disclosed. Hornell, one of the founders of the packing company, died Aug. 9 at 82.

Earl's News and Notes
Make Interesting Story

NEW YORK — TV star Nick Adams was doing a fight scene in his "Rebel" series with ex-boxer Dick Bakalian, whose swings were supposed to miss Nick—but didn't.

Finally Nick said, "Are you trying to kill me?"

Bakalian replied, "I love you, but I've fought professionally and been trained to connect. I'm trying to miss you, but I don't know how to miss and . . . BOKE!" And he didn't miss him again.

I was congratulating James Thurber on his realistic acting in "A Thurber Carnival"—in a sketch in which he ridicules book publishers. Jim explained, "I kept myself mad at them by remembering that when I first wanted to bring out 'A Thurber Album,' one publisher said, 'Mr. Thurber, you shouldn't allow any part of your life to be published until after you die.'"

Betty Hutton traveled light flying in from Hollywood to open at the Basin St. East last Thursday night—only 559 lbs. of excess baggage, only \$119.94 excess charges, paid with great joy and delight by this safe management.

A woman fan came up to Peggy Cass and said, "I just wanted to hear you talk." Peggy talked—and the fan said, "My God, that's your real voice, isn't it?" Peggy smiled and sweetly replied, "Sorry you don't like it but the doctor couldn't do a thing with it."

Rita Gam was just finishing up "The King of Kings" in Spain when her husband Publisher Tom Gutzberg wrote to her, "I was thinking it would be nice after you finish to go somewhere in Europe for a month's vacation," he wrote him. "I was thinking it would be nice after I finished to go somewhere in America for a month's vacation." (She's due home this week).

THE MIDNIGHT EARL . . .

Sammy Davis Jr.'s "negotiating" with Frank Sinatra to best-man his wedding to May Britt. Frank may be in Honolulu filming . . . Marlon Brando was out of "Sound of Music" due to fallen trees around her Mt. Kilimanjaro home. Karen Shepard subbed . . . Ricky Nelson, heading for an Australian personal appearance tour, will be body-guarded by ex-footballer Paul Cameron and Jack Elzea . . . Ann Sothern's daughter, Fish, 16, will act in her make TV show just long enough to make enough dough to buy a Jaguar . . .

EARL'S PEARLS: A man's library consists of all the books he owns that nobody wants to borrow.

TODAY'S BEST LAUGH: We spend \$10,000 for a school bus so the kids won't have to walk, then spend \$100,000 for a gym so they can get some exercise.

WISH I'D SAID THAT: Definition of alimony: That's when a divorce keeps getting wedding presents.

"My wife and I have one thing in common," says a local fellow. "We both keep dreaming that she's Marilyn Monroe."

That's earl, brother.

TV News and Reviews

Star Actually Grumbles
on a Happy-Happy Show

By FRED DANZIG
 NEW YORK (UPI) — What is happening to TV?
 I found out on "The Donna Reed Show" last night to watch this popular half-hour family comedy series launch its third season. Season, seasonal season. The TV, and what did I find? A touch of realism, that's what.

As the curtain went up, Donna stood around and, yes, grumbled. No smiling. No kidding. Then she went to bed early and just tossed and turned. It was obvious that she was troubled.

A commercial helped build up the show and when we returned to Donna, she was complaining her husband, played by Earl Bick, "What's wrong with me? I've been nervous and uncoordinated all day and I'm impatient with the children," she said.

I was stunned by this speech, for it is generally verboten in such happy-go-lucky series. Yet, Donna, Had Donna, let Tennessee Williams write the script? Or had I accidentally stumbled across a long asprin commercial? This couldn't be "The Donna Reed Show."

Betz quickly put his finger on the trouble. "We're out of sorts because we miss each other," he said. He remembered a long weekend in the country together. They would leave the two kids behind for a couple of days. Another upheaval as "togetherness" tottered.

The recent time change turned out to be miserable. Donna Reed was tipped off about the great hunting and fishing spots nearby. Exasperated, she said again.

At the finish, Donna was her old smiling self. Her hubby was smiling. And so were the kids. The recent owners, "The Donna Reed Show" was back with us again after an unimpressive start. I tell you the experience left me edgy and impatient.

"Bachelor Father" also began a new season last night. The NBC-TV half-hour was a decreased first-run episode. It dealt with dogs, just as the opening episode did last year.

Bentley Gregg, played by John Forsythe, was voting never to own another dog because of the pangs of sorrow he felt when Jasper departed for that well-stocked boarder up yonder. Jasper was last year's dog.

FILM USED AGAIN
 Gregg's teen-age niece, played by Noreen Corcoran, and his houseboy, played by Sammie Tong, began coming to get the host in trouble in another dog. They put a shaggy, kind-looking pooch in the house — temporarily — and staged a fake burglary.

That dog was supposed to be the hero and impress Bentley. Well, the stunt backfired. Before time ran out, though, Bentley was shaking out \$500 for the privilege of owning the animal he could have had for nothing.

It was uninspired stuff. Some of the film used last night also helped kick off last season's opener. Last season, Bentley used the dog to help him get acquainted with a pretty neighbor and last night's episode ended on that note, too. I think it was the same neighbor.

They tell me this is a new season, though.

Robert Sander Associates has announced it will cancel the Oct. 16 "Hour of Great Mysteries" production of "The Suicide Club," scheduled to be the third offering of the season for the series.

Voter Interest

Just One Pre-Election Show After Another Moderation Needed

By CYNTHIA LOWRY
 NEW YORK (AP) — Television is a young medium, so it probably will be a while before it learns the mature virtue of moderation. But at the moment, its habit is to go whole hog on whatever it tackles.

Last season, the three networks went overboard on specials, summit sessions and Khrushchev visit. This season it's action in any form.

And by the time weary voters manage to stagger to the polls we'll be heartily sick of political, political, and political forms and faces on television. Network executives will be shaking their heads over their show's low ratings, the campaigns will be worried by the public's inattention, and we citizens will be criticized for our lack of concern with vital affairs.

CBS has a weekly series already started called "Presidential Countdown," and has already scheduled Nixon, the Men, in a Walter Cronkite interview and will do soon the same thing with Kennedy. As if that were not enough of the men, CBS' "Person to Person" will kick off its season Sept. 28 with a half-hour visit with the Kennedy, followed the next week with a visit to the Nixon.

NBC has a series starting Saturday night (in old World Wide 90 min) called "The Campaigns and The Candidates." ABC has a

A full-hour all-star special aimed at combating juvenile delinquency "The House Next Door" is set for NBC-TV on Sunday, Dec. 4, under the auspices of the American Child Guidance Foundation.

Michael Rennie, Maureen O'Hara, and Zachary Scott will star in "The Scariff Pimpirel," a CBS-TV two-part set for Friday and Saturday, Oct. 28-29. A CBS-TV special on Sunday, Oct. 16 will feature the 1961-model automobiles.

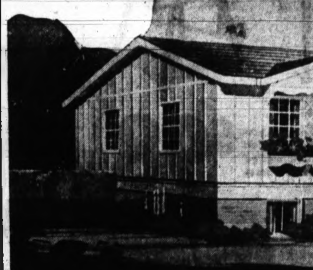

ABC-TV is producing a one-hour special based on the life of the backwoods physician, Dr. Kate Palham Newcomb, heroine of the "Dr. Kate" best-seller. Jane Wyman will star.

Would You Like Swimsuit Usable at Cocktail Hour?

ALLENTOWN, Pa. (UPI) — A world-wide contest to determine articles' most versatile in design and use has come up with a host of entries ranging from a combination binocular-whisky flask to a folding plywood boat.

The annual contest, conducted by a department store here (Hess

Brothers), also produced these entries:
A home utility cart which can be used for laundry, for lawn work and as a beverage cooler.
A pen which the writer fills with water but writes with ink.
A combination sewing and pressing machine.
An umbrella with a flashlight in the handle.
A swimsuit that becomes a cocktail dress.
A combination car radio and rear view mirror.
A musical pocketbook.
A combination plane and file.

City Dump Caretaker Bemoans Today's Thrift

MONTPELIER, Vt. (UPI) — City dump caretaker Everett Santor says that "people don't throw away what they used to."
He explained: "A few years ago I was able to make from \$5 to \$15 a week on things I could salvage. Now I'm lucky to make a nickel."

Convex Mirrors Cut Shoplifting by Exposing Aisles

CLEVELAND (UPI) — Shoplifting, a retailing headache in need of an aspirin, may be cured with mirrors.
The mirrors, of a wide-angle-view convex design manufactured by Norman Industries, Inc., Chicago, have been installed in over 300 drug, hardware, grocery and

supermarkets here in recent months.
Mounted on walls and counters, the convex mirrors expose aisles which normally would be hidden from view of store personnel. They eliminate the privacy which shoplifters dearly love and need to operate.
"Since we installed seven mirrors, pilfering has been cut at least 35 per cent," said the manager of one supermarket. "And the mirrors have halved price label

Some Pills Cut the Cash Balance — Not the Weight

NEW YORK (UPI) — Reducing pills may have a pronounced effect upon your cash balance, but little upon your weight.
This is the conclusion of Dr. Louis M. Orr, president of the American Medical Association.
In attacking pill quackery, Dr. Orr

has stated: "The multi-million dollar traffic in . . . reducing preparations is deplorable from a medical and a public-health point of view."
"Clinical tests have repeatedly shown up these items as a complete waste of money; each individual's weight problem is unique and will be solved . . . by his following the recommendations of his own doctor on diet and exercise or medication, if indicated."
Nine of 10 forest fires are man caused.

Doctor Takes Up Law as an Added Challenge

SAN JOSE, Calif. (UPI) — Dr. Ralph J. Campbell has mastered two professions. After building up a successful practice as a physician, he decided to become an attorney.
"Medicine pays me a good living," he said, "but the law gives me a chance to match my wit against others. I like them both." He recently won his first case.

No Cuban Guns on U. N. Visit

U.S. Would Disarm Fidel

From Our News Wire

WASHINGTON — Cuban Premier Fidel Castro and his gun-toting bodyguards have been warned to leave their firearms at home when they come to New York next week for the United Nations General Assembly. American officials said today they have advised the Cuban Embassy that Castro and his entourage

will not be permitted to carry their customary weapons during the bearded Cuban leader's stay in this country.

The State Department already had announced that Castro would be confined to Manhattan Island. He has been placed under the same restrictions as those imposed on Soviet Premier Nik-

kita Khrushchev and the Hungarian and Albanian Communist leaders.

American officials advised the Cuban Embassy to advise Havana that foreigners; bodyguards; or not, were not permitted to carry arms in the United States. Assurances have been given that the advice will be taken, the officials said.

The U.S. officials informed the Cubans that the American government, under the U.N. headquarters agreement, was a responsible for the safety of Castro and would take every precaution to guard him while he was in New York.

So far as could be learned, a similar warning was not given the Russians regarding Khrushchev's visit.

These officials have a suspicion that some of Khrushchev's bodyguards on his U.S. tour a year ago may have had small guns secreted on their persons. But if any of the Russians carried weapons, they did it so discreetly that the question never arose. They were never searched.

24-HOUR ALERT

The New York City Police Department is going on a 24-hour alert to protect Khrushchev, Castro and other controversial foreign leaders.

Beginning at 12:01 a.m. Monday, the 25,000-member force will be mobilized for emergency duty, with all days off canceled and the basic work week 60 hours instead of 42.

Khrushchev, who is arriving Monday aboard the Soviet ship *Batiska*, already is in for a "brown cheer" harbor reception by members of the Longshoremen's Union, who are hiring an excursion boat for the purpose.

Police said, however, no boat (Continued on Page 2, Col. 1)

Festival in Full Swing

Hurricane Ethel Blusters North, Threatens Rains

Ten Inches Near Gulf May Bring Floods but Winds Diminish

BILOXI, Miss. (AP)—Short-lived Hurricane Ethel, now only a rain storm, blustered northward from the Mississippi Gulf Coast to day threatening Eastern Mississippi and Western Alabama with heavy rains and flooding.

Up to 10 inches of rain could be expected from Ethel in some areas, with possible floods, the New Orleans Weather Bureau said. The storm's winds were expected to diminish rapidly.

Ethel, spawned rapidly in the Gulf of the Yucatan Peninsula Wednesday, became a full-fledged hurricane with winds over 75 miles per hour in the afternoon.

It moved erratically up the Gulf and went inland slightly west of Biloxi about noon Thursday.

Ethel peaked 150 m.p.h. winds for a brief time Wednesday but when it slammed into the coast the winds had decreased to 75 m.p.h.

RESIDENTS LEAVE

Middle coast residents, with Hurricane Donna's devastation fresh in their minds, hurried away along a 500 mile stretch from New Orleans to St. Marks, Fla.

One Red Cross official said more than 48,000 were housed in shelters, while Civil Defense estimates of evacuees ranged near 85,000.

Officials said precautions taken last week for Donna proved a dress rehearsal for Ethel. No monetary estimate of damage was yet available but it was expected to be minimal.

Unofficial reports indicated the highest winds packed by Ethel when it struck the mainland were near 80 m.p.h. Three Mississippi coastal cities — Biloxi, Gulfport and Pascagoula — were the hardest hit.

With a Few Raindrops

Shoppers may expect temperatures to rise to near 77 tomorrow with a chance of less than one-quarter inch of rain. Tonight's low will be in the low 50s.

For the next five days temperatures will average near or slightly below the normal high of 73 and normal low of 54, the weatherman said. Saturday will be somewhat warmer and Sunday a little cooler. Monday and Tuesday will show a warming trend.

Morning easterly winds at 6 miles an hour will become 10-15 late today and southeasterly tonight. Fifty-two was the lowest recording in downtown Pontiac preceding 8 a.m. The reading at 1 p.m. was 66.

Woman Worked at Embassy

Cuba Holds Pretty U.S. Employee

HAVANA (AP)—Fidel Castro's secret police held an attractive blonde U.S. Embassy secretary in jail today and brushed off protests by the American ambassador.

The seizure of Marjorie Lennox, 31, of San Francisco, a confidential secretary in the embassy's important economic section, was dramatic evidence of the virtual breakdown in U. S.-Cuban relations.

U. S. Ambassador Philip R. Bast called her arrest "completely illegal." Cuban authorities refused to tell him what charges— if any—they have against her.

The ambassador went personally to the Foreign Ministry to deliver a blistering oral protest Thursday after earlier written protests were ignored.

The first embassy official who tried to see Mrs. Lennox at headquarters of the Cuban Military Intelligence—DIER—was held there four hours himself and then sent away.

Later another official managed

to see Mrs. Lennox for a few minutes and reported she was hysterical at the time. Two later attempts by embassy officials to contact her Thursday night were rebuffed.

Armed agents of Castro's security forces raided Mrs. Lennox's apartment at 1:30 Thursday morning.

APARTMENT SEARCHED

She was held 10 hours while they questioned her and searched the apartment and then was taken to DIER headquarters.

Her arrest came to light only after she failed to show up for work and U.S. officials made inquiries at her apartment building. Mrs. Lennox, who is divorced, has worked in Cuba since last November.

Her passport does not carry diplomatic immunity but it was considered a serious breach of protocol to jail a diplomatic employee without referring the case to the embassy.

An embassy spokesman said she may have been arrested in reprisal for the recent ouster of a Cuban consular official in San Juan, Puerto Rico.

Mrs. Lennox's father, Fred Augustus, said in San Francisco that the State Department in informing him of his daughter's arrest "seemed to feel that although it is a pretty serious incident, she won't be harmed."

The Castro regime meantime made another grab of American-owned property in Cuba by taking over the plant of E. R. Squibb & Son, a chemical and drug firm.

Whiff, Whiff! Youth Can Be Arrested

A whiff of liquor on a minor's breath will be sufficient excuse for his arrest in Pontiac.

Police have been notified to arrest persons under 21 if they detect an odor of any intoxicating beverage on the minor.

The testimony of the officers will be a "matter of evidence" in court, according to American City Attorney Sherwin M. Binkrant and Municipal Judge Cecil McCullum.

"In a nutshell," Binkrant said, "our officers may arrest a minor person for possession of intoxicating beverage if the officer smells the intoxicating beverage on the minor."

"Seeing him drink it, or hold it in his hand, or carrying it in his car, is not essential."

"Of course," Binkrant said in a memorandum, these examples can constitute "in a proper case," the same charge.

"I concur with Judge McCullum's observations in this regard," Binkrant said.

Police have been ordered to make arrests in conformance with the new ruling.

Princess Is Robbed

PARIS (AP)—Jewelry worth more than \$500,000 was reported stolen Wednesday from Princess Laila Sobh, Lebanese fiancée of Prince Moulay Abdallah of Morocco.

Hospitals Liable, Court Decides

Costs Certain to Go Up With Higher Insurance in the Budget

Hospital costs almost certainly will go up in Michigan — perhaps at Pontiac General Hospital as well — as a result of a state Supreme Court ruling on damage suits against hospitals, the president of the Michigan Hospital Association said today.

The court, in a 4-3 decision Thursday, wiped out a 68-year-old rule of law granting charitable, nonprofit hospitals immunity in damage suits.

"It would be hard to predict in dollars and cents, but there is no question in my mind that this will lead to higher costs," said Dr. Roger B. Nelson.

"All hospitals' performance will now be expected to provide for liability insurance, and this is expensive," said Dr. Nelson, whose organization represents 725 hospitals.

He added that many hospitals already carry liability insurance but likely will look for broader coverage.

Pontiac General Hospital, target of several important lawsuits in the past several years, already has taken out liability insurance for protection against losses, said City Attorney William A. Ewart. But broader coverage may be necessary now, he added.

Insurance costs, like all operating expenses, are reflected ultimately in room rates, he emphasized.

Ewart predicted "a rash of vexatious claims" against the hospital as an initial result of the Supreme Court decision.

"Because the city hospital is a public one, the question before the public now is: Should the public, as a whole, through higher hospital rates and insurance rates, (Continued on Page 2, Col. 3)

'Business Good'; Crowds Bigger Than Christmas

Unusual Entertainment All Ready for Tonight and Saturday

By PETE LOCHMILLER

The Downtown Merchants Association has, as they say on Broadway, a smash on its hands.

Jubilant over records set during yesterday's opening of the three-day Downtown Fall Festival, merchants this morning were expecting even larger crowds to day and tomorrow as festival activity moved into fall swing.

"Better crowds than during Christmas rush in the past two years," was one retailer's description of opening day.

One downtown department store reported sales up 20 percent over opening day of the festival last year and another estimated a 10 percent increase.

A fourth merchant reported his best retail day since 1955.

"The consensus up and down the street is that business was good — very, very good," said Norman L. Pattison, festival chairman.

STREET SALES HIGH

"Especially good was business on the street," he continued. "The sidewalk sales were high every where."

There was no official count on the downtown crowds, but the push was reached in the late morning and early afternoon — thanks to the free breakfast at West Haven and Wayne streets, attended by more than 3,000 persons.

"It may have been one of the biggest morning-afternoon crowds in town," said Pattison.

Merchants were primed today to handle big evening crowds as well as a daytime throng.

OPEN UNTIL 9 P.M.

Stores will remain open until 9 p.m. tonight and tomorrow. Despite mist and chilly temperatures, the free breakfast at scrambled eggs and pancakes was packing them in again this morning.

There were 900 persons in line when serving began at 9 a.m. and well over yesterday's number were served by 10:30 a.m. closing.

The breakfast will be offered again tomorrow, 9:30-10:30 a.m. There will be free bus rides downtown again, 8:30-10:30 a.m.

Municipal lots, packed with shops "cars most yesterday," are free again tonight and tomorrow.

Besides the colorful shops (Continued on Page 2, Col. 3)

Festival Impresses Visitors

The Downtown Fall Festival was host yesterday to a couple all the way from Amsterdam who were overwhelmed by the colorful celebration.

"Never saw anything like this before," said Mr. and Mrs. Bert DeGraff, visiting here at the home of Mrs. DeGraff's sister and brother-in-law, Mr. and Mrs. Jacobus C. Koester, 3831 Lakeside Avenue.

The street bazaar was a new experience for the European couple.

What about the European sidewalk cafes? "They don't match breakfast in the outdoors in Pontiac," was the answer.

Another item fascinated the visitors — the cowboy hats which many downtown sales persons are wearing.

The hats were the DeGraffs' first taste of the American West.

Irish Congo Troops Ruin Witch Doctor's Magic

MANONO, the Congo (AP)—Irish U.N. troops matched wit against an African witch doctor today in an attempt to bring peace to this terror-ridden mining center.

And the Irish appeared to be winning.

Primitive armed Baluba tribesmen roaming the streets agreed to let the Irish open a mile-long stretch of road to the airport as an escape route for 73 frightened Belgian settlers huddled in a tin mine company's guest house.

The Belgians—13 women and 60 men—were trapped as hundreds of tribesmen armed with old rifles, spears and bows and arrows swarmed into the town Tuesday and attacked African police led by white officers.

(A refugee aboard a U.N. plane arriving in Elisabethville Thursday night said only 27 Belgians remained in Manono.)

The Belgians, who in this area side with Congo Premier Patrice Lumumba in his feud with Katanga Premier Moise Tshombe, were inflamed by a witch doctor who said then a magic formula he chanted made them immune to "white men's bullets."

The outnumbered police retreated to seek U.N. protection after bloody fighting in which 35 Belgians were slain and 14 wounded.

POLICEMEN DIE

Two African policemen were killed and one of their two Bel-

FACULTY MARCHES — In a colorful array of caps and gowns, the faculty of Michigan State University Oakland marches into the Oakland Student Center for the university's second annual freshman convocation. Addressing some 300 students who will begin college Monday were Chancellor D. B. Varner and Dean of Faculty Robert G. Hoopes. The convocation yesterday was watched by members of the Michigan State University Board of Trustees and school superintendents from Oakland and Macomb counties.

STEP SAVER — This is not a flat escalator. It is a moving sidewalk, something cities have used for years. This Speedwalk passenger conveyor system is installed in Freedland, a new amusement park in Bronx, N. Y.

Six Killed in Algeria by Terrorist Violence

MOSTAGANEM, Algeria (AP)—Two persons were killed and 20 injured Thursday night by a bomb blast in a crowded theater. The explosion was blamed on National-bacco rebels. And in central Algeria, three men invaded a cafe at Berrouaghia and killed three Europeans and an Algerian.

Tito Soils for U.N. — President Tito of Yugoslavia sailed Thursday night for New York aboard the liner Queen Elizabeth to attend the General U.N. Assembly opening next Tuesday.

CHERBOURG, France (AP) — President Tito of Yugoslavia sailed Thursday night for New York aboard the liner Queen Elizabeth to attend the General U.N. Assembly opening next Tuesday.

2 Nabbed in Attempted \$20-Million Swindle

NEW YORK (UPI)—A fantastic scheme to swindle \$20 million from the Bank of America International has been aborted with the arrest by FBI agents of two men, one in New York and the other in Rosenberg, Tex.

The New Yorker, alleged mastermind of the plot, was identified as Walter J. Sarnitz, 37, a self-employed broker in the export-import business. His alleged accomplice, picked up by FBI agents during the night of Rosenberg as he was returning to the United States by auto from Mexico City, was identified as James Reilly Crowe, 47, a native of Louisiana who has spent considerable time in South America.

Harvey G. Foster, agent-in-charge of the New York office of the FBI, said the scheme involved two real banks, the Bank of America International here and Banco de Brazil in Rio de Janeiro, and a fictitious bank, the "Banco de Nayuh."

Sarnitz allegedly cashed the Brazil bank last Aug. 16, implied he had \$20 million on deposit with the New York branch of the Banco de Brazil for investment purposes. The Brazil bank, thinking it a legitimate transaction, set about to arrange for a transfer of funds built in 1950.

through the Bank of America International, but officials of the bank became suspicious and called in federal agents.

The FBI said Sarnitz was working against time, hoping the transfer would be made before anyone checked and found out the Banco de Napoli was only a "dummy" name.

Sarnitz, a native of Austria who has been in the United States since 1953, was formerly president of the Green Corp., foreign auto importing firm and vice president of global imports in Fort Lauderdale, Fla.

Personal Incomes Rise to Record High
With HCL Creeping Up... but Slower

By SAM DAWSON

NEW YORK (AP) — Perhaps you are surprised to read that personal income has risen to a record high. Particularly so if you haven't noticed any such trend. Perhaps downright resentful if your own salary has taken the opposite tack.

But the government says that the total of personal income has risen again and is now \$407.5 billion a year. This persistent rise has been a comfort in recent months when many other economic statistics have been disappointing or disquieting.

The government's report on personal income as of August is less comforting than in previous months for several reasons.

The monthly rise was the smallest since February. And the \$300-million increase over July, at an annual rate, was the exact amount by which federal pay checks rose as a result of the pay hike ordered by Congress. Adding in increases by state and local authorities, the total of government paychecks was up \$300 million to \$48 billion a year.

Running second to government payrolls was a gain in federal transfer payments, chiefly from a rise in unemployment benefits of \$400 million to \$281 billion a year.

Other types of income shopping modest rises were those from the service industries, dividends and personal interest payments.

Even more important perhaps are the items that declined. The drop in personal income from other types of paychecks gives the economists little comfort as they view immediate prospects.

In manufacturing wages and salary payments dropped by \$1.2 billion a year to \$27.5 billion. Farm income was off by \$300 million to \$11.5 billion a year.

OTHER STATISTICS
Professional income and rental payments were unchanged.

There are other ways of slapping up government statistics on pay. The government's report on personal income besides that of just what kind of endeavor is bringing in more and what is paying less.

One is the effect of the cost of

But if the cost of services goes on creeping higher, and especially if the price of goods should take a forward spurt — which seems unlikely now — the slowdown in rise of personal incomes will show up quickly in consumer spending habits.

Another factor, in judging income statistics is regional. In fast-growing communities the total of personal incomes has boomed, while in other regions it has fallen behind.

In many cases it matters where you live as well as what kind of work you are doing if your own income has kept pace with the national rising trend.

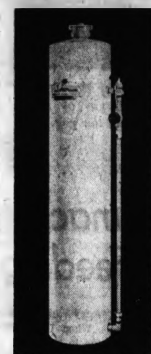

And the steady growth of population also boosts the national totals, both in more persons at work and in more persons drawing retirement benefits of various kinds.

The government figures on total personal income are important to businessmen in deciding how the economy is doing and is likely to do.

For the individual it's still a purely personal question. Often you can't make national statistics fit your own case.

AP Photo:
INDOVED — Retired Rear Adm. William L. Erdmann, indicted by the Justice Department Wednesday on charges of smuggling 42 cases of untaxed liquor into the United States, has posted \$1,000 bail. The 57-year-old former officer, heavily decorated, once was Navy commander at Guam.

DETROIT (UPI) — Little is at stake for the Tigers but everything could be at stake for the White Sox tonight when Chicago moves into Briggs Stadium to open a four-game series with Detroit.

The defending American League champion White Sox are two games behind New York and Baltimore — the co-leaders in the torrid pennant race.

And New York and Baltimore hook up in a four-game weekend series at Yankee Stadium.

Hence, the series with the Tigers is a "must."

The best the White Sox could do by sweeping four from the Tigers would be to move into a first place tie. That would be possible only if New York and Baltimore split.

But a poor showing against the Tigers would just about strike Chicago from the pennant race.

For instance, if the Sox lost three to Detroit and either New York or Baltimore won three, Chicago would be four games back.

That would be practically fatal to Chicago since the White Sox will have only nine games remaining after this weekend.

Manager Al Lopez was undecided on his pitching choice for tonight's series opener. The Chicago pilot will call upon either Billy Pierce, the Detroit native who was traded to the White Sox more than a decade ago, or ageless Ray Wynn.

Pierce has a record of 13 wins and 7 defeats while Wynn has won 12 and lost 10.

Joe Gordon of the Tigers will counter with Frank Lary, who has dropped 15 decisions against 12 triumphs.

Gordon won't be using any of the younger players recalled from the Minors in the series with the

the only thing the Tigers can strive for is a good finish to keep from dropping into seventh place.

Boston currently is seventh, three games back of the Tigers.

The Tigers are hopelessly buried in sixth place, 19 games behind New York and Baltimore. About

By BILL CORNWELL

Pontiac Central and Waterford collide on the football field for the last time tonight in the 1960 season opener for both schools.

A capacity crowd is expected to file into the Waterford High School gridiron arena to watch the two squads square off for the 5th and final time. Kickoff hour is 8 p.m.

Pontiac Central, under new head coach Paul Deliberia, is favored to win and make a clean sweep of the brief series.

Waterford, coached by Dave Freeman, is trying to snap out of the pipkin doldrums. The Skip-pers have only six wins and a tie to their credit in their last 27 games.

Halling Central's better team speed will be the No. 1 challenge for the Skippers.

Central backs like Dick Mc-Causley, Roy Cramer and Andy Blum give the Chiefs explosive

breakaway scoring punch from any spot on the field.

Both coaches are starting un-tested quarterbacks. Bob Pomeroy, a junior, is the likely starting signal-caller for PCH while senior Bob Newman is expected to get the call

Pirates Start Final Road Trip With 6-Game Lead

The Pittsburgh Pirates set off on their final road trip of the season tonight with St. Louis and Milwaukee still in need of a minor miracle to bar the Bucs from their first National League pennant in 33 years.
With 14 games left, the Pirates lead by six games and have to win 10 to clinch the flag no matter what the Cards or Braves do. Seven victories probably will be enough for the Bucs, already loaded with more wins than they've managed in any of the last 15 years.
After losing two in a row, the Pirates bounced back with a 3-1 victory over Los Angeles as right-hander Bob Friend won his 16th with a six-hitter Thursday. That gave the Pirates 86 victories, their top total since finishing second with 90 in 1944, and reduced their magic number over the life second place Cards to 10.
Going into the opener of an eight-game trip at Cincinnati tonight, any combination of Pittsburgh victories and Cardinal losses totaling 10 wraps it up for the Pirates. The combination is eight over the third place Braves, who trail by 6½ after defeating the Chicago Cubs 3-1 as Lew Burdette won his 17th with a two-hit pitching job.

San Francisco defeated Philadelphia 6-6 in 11 innings in the only other game scheduled in the NL.
No games were scheduled in the American League. New York, holding a one-percentage point edge, and second place Baltimore open a four-game showdown at Yankee Stadium tonight.

Even by splitting their remaining 14 games, the Pirates wouldn't be sidetracked unless the Cardinals won 15 of their remaining 16 games. The Braves would have to sweep their 15 remaining games, even to force a playoff

with the Pirates should the Bucs strike out five for his first complete game against the Dodgers in 17 starts going back to April 28, 1958. Bob Scinner helped Friend to his third straight victory by hitting a two-run home run, his 15th, in the first inning and then scoring the other run when he singled in the eighth and Dick Stuart followed with a double by Ron Fairly.

The Cardinals start a three-game series with the Giants at St. Louis tonight while the Braves are home for the first of three with Philadelphia. Warren Spahn shoots for his 11th 20-victory season for the Braves.

Friend (16-11) walked one and struck out five for his first complete game against the Dodgers in 17 starts going back to April 28, 1958. Bob Scinner helped Friend to his third straight victory by hitting a two-run home run, his 15th, in the first inning and then scoring the other run when he singled in the eighth and Dick Stuart followed with a double by Ron Fairly.

Willie Mays' fifth hit and third triple broke a 6-6 tie for the Giants in the 11th against losing reliever Dick Farrell (8-4). Johnny Antonelli (6-7) was the winner in relief.

Burdette (17-11) retired the first

BIG DECISIONS—A pair of great athletes made crucial decisions in their respective sports yesterday. Stan Musial (left photo center), 39-year-old slugger star of the St. Louis Cardinals told manager Solly Hemus (left) and general manager Bing Devine that he would play again next season. Maurice (Rocket) Richard, also 39, (second from right in right photo) announced he was going to retire from professional hockey. With him at time of the announcement are Montreal Canadian coach Ted Blake, Hartland de M. Molson, president of the club and Frank Selke, general manager.

Mrs. Cova's Golf Game Sharp, She Wins WMGA Title

Mrs. Milge Cova, wife of Bob O-Link's head pro, shot the greatest golf of her career Thursday to win the Women's Metropolitan Golf Association match play championship for the 3rd time.
She fired a 75 to break the course record for women and one scored a dozen greens as she defeated Mrs. R. G. (Fran) Martell, 5-4, in the finale of the annual WMGA tournament at Rochester Country Club.
The decisive victory enabled Mrs. Cova to retire the Ruth Stricker Trophy. Mrs. Cova previously won the match play tournament in 1954 and 1956.
Even though the match ended on the 14th hole, the two women decided to complete the round. Mrs. Martell played almost as well as Mrs. Cova, shooting an 82 and one-putting 10 greens.

Red Wings Get Even
DETROIT (AP) — The Detroit Red Wings evened things up with their Edmonton farmhands Thursday by skating to a 4-2 pre-season hockey triumph. Gary Alderson scored Poulson and Gordie Howe getting the other goals.

January's 63 Sets Tacoma Open Pace

TACOMA, Wash. (AP) — Slim, purposeful Don January of Dallas, moved into today's second round of the \$25,000 Tacoma Open golf tournament with a four-stroke bulge on a sharp-shooting field and a new course record for his collection.
He eased around the 6,480-yard par-71, Fircrest golf course in a slippy 62 strokes Thursday, unhampered by a fog that prompted tournament officials to suspend play for 15 minutes in the early morning.
The leaderboard:
Don January, 62
Dave Matney, 63
Bill Blythe, 63
Bill Capper, 63
Loren Beckett, 63
Mason Rudolph, 63
Steve Johnson, 63
Eddie Draper, 63-67

Kowalczyk Plea Is Refused by Commissioner

DETROIT (AP) — Fullback Walt Kowalczyk has lost his plea to the National Football League commission that he be allowed to remain with the Detroit Lions.
The Lions had transferred Kowalczyk to Dallas. But he appealed to the NFL's players' association in an effort to block the transfer. Kowalczyk said he was fed up with being shifted about. He said he had acquired a home in Detroit after Philadelphia traded him to the Lions.
Commissioner Pete Rozelle ruled, however, that Kowalczyk is not a hardship case and, therefore, must report to the Cowboys.

Big Yank-Oriole Series Starts Tonight

NEW YORK (AP) — Whitey Ford, the lefty with the "dead" arm, and the New York Yankees are getting tonight with the Baltimore Orioles on a four-game series at Yankee Stadium, which could settle the American League pennant race.

If the pride of the Yankees is to be soothed, as they vowed after last year's dismal third place finish, this is the weekend for the job.

Going into the series opener, which is expected to bring in 55,000 fans at Yankee Stadium, the Yankees have a one-percentage point edge over the Baby Birds, who swept a three-game set at Baltimore two weeks ago.

The Orioles took over first place with that sweep—then skidded to second and stayed there by winning only four of the nine games they've played since—but they'll have to win three of the four this weekend to make it back on top.
A split also was suggested in "threatening" letter to Baltimore Manager Paul Richards from the "mob in Chicago" would leave the Birds one game back in the decisive "lost" column with nine to play. The Yankees will have 11 left.
A split also would let the Chicago White Sox crowd into a second place tie with Baltimore—the defending champs can sweep the Yankees only twice this season.

Both shots were in relief, for a total of three innings, and neither resulted in a decision.

The Orioles worked out at Yankee Stadium Thursday, when no games were scheduled in the AL, and Richards discounted the possibility that his Birds, 20-1 shots for the pennant in the spring line, might be losing sleep under the pressure.

"I don't mean they're oblivious to the importance of these games. But I don't believe they're worried about them or that they'll bend under the strain."

Any straining of late has been done by the Yankees, who left 20 men on base while dropping a two-game series at Kansas City to the last place A's. They're "homer-happy," says Manager Casey Stengel. "My men are overwinning, passing up singles."
"Well, we know what we have to do. The job's there in front of us, and we have to beat them."

U.S. to Launch New Rocket

Going Over the Pacific Next Week in Different Radiation Study

WASHINGTON (AP)—The United States plans to launch a new 60-foot rocket 1,200 miles high over the Pacific next week in a new study of radiation belts that could impend manned space flight.

This became known today as the National Academy of Sciences announced that U.S. scientists plan to launch 23 research rockets to various altitudes between 15 and 1,200 miles from Sept. 18 to 27. None is designed to go into orbit.

The occasion will be an "International Rocket Interval" in which various countries will carry out space research as a kind of follow-up to the recent International Geophysical Year.

Firemen 'Flee' Site

NEW YORK (AP)—The 25 firemen of Ladder Co. 5 in Greenwich Village have been forced to evacuate their station—apparently from flames 200 feet high.

Court Date Set on Liquor Sale

Clarkston Golf Course Operators Charged in Sheriff's Raid

Charges against the operators of the Clarkston Golf Course that they were illegally serving intoxicants to the public after a sheriff's raid of the clubhouse at 5241 East Road, Independence Township, will be heard in Justice Court Sept. 27.

The operators, Mr. and Mrs. Paul Frechette, demand examination when arraigned before Judge of the Peace Helmer G. Staebach Thursday evening.

They are being released on \$1,000 bond each for the examination.

County Sheriff Frank Irons led five of his deputies on the raid Thursday afternoon. They confiscated two truckloads of intoxicants, including 24 cases of beer, a variety of liquors and gin, and three bottles of champagne.

Deputies said Mrs. Frechette had just served liquor to two customers when they arrived.

She denied that she was selling drinks, and said the liquor belonged to club members.

State Still Seeking President for WMU

LANSING (UP)—The \$25,000-a-year presidency of Western Michigan University still beckoned the right man today.

The State Board of Education which has the duty of filling the post failed again Thursday. It was unable to choose whether the four-member agency will meet again before Oct. 1.

Lynn M. Bartlett, board secretary, said the board will have a day-long session that the board never got around to discussing the vacancy at Kalamazoo last July 1 by retired Paul V. Starnes, two former state controllers, Robert Steadman and James W. Miller, are leading contenders for the post being filled temporarily by Gerald Osborn, dean of arts and sciences.

Scanning Schedule for Echo Satellite

DETROIT (UPI)—Timetable for the Echo satellite over Michigan today, Saturday and Sunday:

Today: 7:30 p.m., traveling southeast; 7:30 p.m., traveling southeast; 7:30 p.m., traveling southeast.

Saturday: 7:00 p.m., traveling southeast; 7:30 p.m., traveling southeast; 7:30 p.m., traveling southeast.

Sunday: 6:45 p.m., traveling southeast; 7:30 p.m., traveling southeast; 7:30 p.m., traveling southeast.

News in Brief

George Rector of 3005 Metamora Road, Addison Township, reported to sheriff's deputies Thursday that 20 bushels of corn and a pack of tomatoes were stolen from his back yard the night before. He estimated his loss at \$20.

Burglars stole \$40 from the Oakland Mill Supply Co., 318 Irwin St. It was reported to Pontiac police yesterday.

Annual Fall Banquet and Banquet, Sept. 17 and 18, at the Pontiac Country Club, 11500 E. 14th St., Pontiac, Mich. Tickets \$1.00. Tickets \$1.00. Tickets \$1.00.

Burglars stole \$40 from the Oakland Mill Supply Co., 318 Irwin St. It was reported to Pontiac police yesterday.

Mart Hovers Above '60 Low

NEW YORK (UP)—The stock market early today moved unevenly at a critical point just above the 1960 lows. Trading was moderate. Gains and losses of fractions to about a point peppered the list of key stocks.

The market was mixed from the start when the ticker tape lagged briefly in the opening flurry. Then trading slackened.

A pickup in retail auto sales and a cheerful forecast on machine tool orders provided a sense of optimism but there was no particular response from the stocks concerned.

The market slumped sharply yesterday, making a partial recovery just above the level which has provided support three previously this year. Analysts felt a true test of this level still must be faced.

Steels, autos and nonferrous metals were unchanged to a bit lower.

Rails showed an upside trend, helped somewhat by government approval of the merger of Erie and Lackawanna, the biggest railroad deal of the year.

Lackawanna rose 1/4 to 69 1/2 on an opening block of 1,000 shares. Erie rose 1/4 to 54 on an opening of 3,500 shares. Each stock ended its rise to a full point in later trades.

XV Capsule Pulls Trick, Disappears

VANDENBERG AIR FORCE BASE, Calif. (AP)—Search is being renewed today in the Pacific for the Discoverer XV satellite's now-it's-there, now-it-isn't capsule.

Circling planes lost visual and instrument contact with the capsule late Thursday as tropical rain squalls struck the rough ocean where it floated.

It had been almost given up for lost after it parachuted 1,000 miles off course, into the sea Wednesday about 200 miles north of Christmas Island.

Computers told search planes where to look. Wednesday night they found it, signal lights flashing, a radio transmitter beeping, 700 miles south of Hawaii. An amphibian plane tried to land to recover it but a heavy swell kept the amphibian from alighting.

New York Stocks

DETROIT (AP)—New York stock prices today were mixed, with gains in some sectors and losses in others.

Industrial stocks were generally higher, while government bonds were lower.

The Dow Jones Industrial Average closed at 68 1/2, up 1/2 point from yesterday's close.

Poultry and Eggs

DETROIT (AP)—Big price paid for eggs today, with a record for the week.

White eggs were 40 cents a dozen, and brown eggs were 38 cents a dozen.

Chicken prices were also high, with some areas reaching 12 cents a pound.

Livestock

DETROIT (AP)—Livestock prices were mixed today, with some gains and some losses.

Cattle prices were generally higher, while hogs were lower.

Sheep prices were also mixed, with some gains and some losses.

Candidates Tear Apart

Democratic nominees for governor, including the 85-point payoff to be launched from Point Arguel, Calif., possibly next Monday morning.

The Democratic nominees for governor, including the 85-point payoff to be launched from Point Arguel, Calif., possibly next Monday morning.

Swainson to Speak in Area Tomorrow

County Democrats will converge on Walled Lake Amusement Park tomorrow to hear Lt. Gov. John B. Swainson, special guest and speaker at an old-fashioned corn roast and picnic being staged by the Oakland County Democratic Club.

Swainson, gubernatorial candidate, will be accompanied to the afternoon picnic by Otis Smith, candidate for reelection as auditor general, and James Kellis, 1960 Congressional District candidate.

The picnic will be held from noon to 5 p.m. The speakers program will begin at 2 p.m.

A ticket will entitle the bearer to all the corn and ice cream he can consume, according to William Manger, picnic chairman. There will be also five rides and prizes.

Nixon Has Friend Always There With a Raincoat

ROANOKE, Va. (UP)—Republican presidential candidate Richard M. Nixon was in the state today, can pick up the votes in Virginia, but he knows where he can get a raincoat.

Eight years ago when Nixon was campaigning in Danville, a Roanoke man, L. V. Hovis, loaned him a raincoat in an emergency.

The coat was never returned. With threatening skies here Thursday, Hovis thought Nixon might be surprised again.

Hovis said he had the raincoat in his closet since Nixon left the airport and loaned him a new raincoat.

Retrieve Stolen Mail in Commerce Field

Stolen mail, including several letters, was recovered from a field in Commerce Township Thursday by sheriff's deputies.

A 5-year-old neighborhood boy, Gary Achman of 2577 Melmore Street, spotted the mail just as it lay on the road near his home. He told his father, who notified the sheriff's department.

The letters and checks, all belonging to Kenneth Chaffetz of 2548 Ormside Road, Commerce Township, were torn to shreds.

He had placed them in his rural mailbox on Commerce Road the day before.

The mailbox is two blocks from his home in a row with about 12 others.

Deputies are investigating the case.

Seven out of every 10 workers covered by insurance programs under collective bargaining receive part of their salary when they are off the job because of illness or injury not connected with their work.

But Less This Year Than Last

Pontiac industrial payrolls dipped more than \$4 million between July 31 and Aug. 31, but the seasonal downsizing was not as great as last year's.

Layoffs due to model changes and annual inventories contributed to an August payroll of \$13,993,415, compared with a 1959 high of \$18,192,563 in July, according to the Pontiac Manufacturers' Association.

August Payrolls Slump

	August 1960	July 1960	August 1959
Total building permits	168	121	177
New dwellings	14	17	33
Gas consumption (cu. ft.)	105,047,600	148,181,300	110,765,500

Water consumption (gals.)	301,355,000	394,005,000	334,116,000
Bus patronage	64,107	62,570	

DETROIT (UPI)—The chief of the Army Medical Corps foresees as a "milestone in human relationships" possible future one-day wars fought with chemicals which would kill no persons and destroy no cities.

Maj. Gen. Marshall Stubbs said these chemical agents cause temporary mental derangement, paralysis or fainting. But the victims recover.

"The incapacitating agent holds a promise of a new concept," he told the Armed Forces Chemical Association Thursday. "Now it appears that there may be a weapon which can conquer any enemy without killing him."

Stubbs said nations with a chance to win would be glad to fight such a war, because "the objective is not to kill or destroy, but rather to impose your will on the enemy."

Army Medical Chief Sees Deathless Wars in Future

WASHINGTON (UPI)—The chief of the Army Medical Corps foresees as a "milestone in human relationships" possible future one-day wars fought with chemicals which would kill no persons and destroy no cities.

Maj. Gen. Marshall Stubbs said these chemical agents cause temporary mental derangement, paralysis or fainting. But the victims recover.

But Definitely—No Compacts

DETROIT (UP)—Cadillac for 1961 will drop its most expensive car—the \$13,000 Eldorado Brougham—and will introduce one model seven inches shorter than the rest of its line.

General Manager Harold G. Warner said the new shorter sedan will have identical interior dimensions with other Cadillacs. The length will be cut from the rear end. This sedan will not be put on the market until later in the model year.

At the same time, Warner told a national news preview audience that Cadillac plans only standard size cars—no compacts—for this year and for the future.

Nixon Has Friend Always There With a Raincoat

ROANOKE, Va. (UP)—Republican presidential candidate Richard M. Nixon was in the state today, can pick up the votes in Virginia, but he knows where he can get a raincoat.

Eight years ago when Nixon was campaigning in Danville, a Roanoke man, L. V. Hovis, loaned him a raincoat in an emergency.

The coat was never returned. With threatening skies here Thursday, Hovis thought Nixon might be surprised again.

Hovis said he had the raincoat in his closet since Nixon left the airport and loaned him a new raincoat.

Retrieve Stolen Mail in Commerce Field

Stolen mail, including several letters, was recovered from a field in Commerce Township Thursday by sheriff's deputies.

A 5-year-old neighborhood boy, Gary Achman of 2577 Melmore Street, spotted the mail just as it lay on the road near his home. He told his father, who notified the sheriff's department.

The letters and checks, all belonging to Kenneth Chaffetz of 2548 Ormside Road, Commerce Township, were torn to shreds.

He had placed them in his rural mailbox on Commerce Road the day before.

The mailbox is two blocks from his home in a row with about 12 others.

Deputies are investigating the case.

Seven out of every 10 workers covered by insurance programs under collective bargaining receive part of their salary when they are off the job because of illness or injury not connected with their work.

But Less This Year Than Last

Pontiac industrial payrolls dipped more than \$4 million between July 31 and Aug. 31, but the seasonal downsizing was not as great as last year's.

Layoffs due to model changes and annual inventories contributed to an August payroll of \$13,993,415, compared with a 1959 high of \$18,192,563 in July, according to the Pontiac Manufacturers' Association.

August Payrolls Slump

	August 1960	July 1960	August 1959
Total building permits	168	121	177
New dwellings	14	17	33
Gas consumption (cu. ft.)	105,047,600	148,181,300	110,765,500
Electrical energy (KWH)	30,001,609	34,835,632	28,895,730
Water consumption (gals.)	301,355,000	394,005,000	334,116,000
Bus patronage	64,107	62,570	

DETROIT (UPI)—The chief of the Army Medical Corps foresees as a "milestone in human relationships" possible future one-day wars fought with chemicals which would kill no persons and destroy no cities.

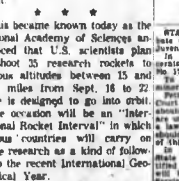

Maj. Gen. Marshall Stubbs said these chemical agents cause temporary mental derangement, paralysis or fainting. But the victims recover.

"The incapacitating agent holds a promise of a new concept," he told the Armed Forces Chemical Association Thursday. "Now it appears that there may be a weapon which can conquer any enemy without killing him."

Stubbs said nations with a chance to win would be glad to fight such a war, because "the objective is not to kill or destroy, but rather to impose your will on the enemy."

Firemen 'Flee' Site

NEW YORK (AP)—The 25 firemen of Ladder Co. 5 in Greenwich Village have been forced to evacuate their station—apparently from flames 200 feet high.

Firemen flee their station in New York City after a fire broke out in the building.

U.S. to Launch New Rocket

Going Over the Pacific Next Week in Different Radiation Study

WASHINGTON (AP)—The United States plans to launch a new 60-foot rocket 1,200 miles high over the Pacific next week in a new study of radiation belts that could impend manned space flight.

This became known today as the National Academy of Sciences announced that U.S. scientists plan to launch 23 research rockets to various altitudes between 15 and 1,200 miles from Sept. 18 to 27. None is designed to go into orbit.

The occasion will be an "International Rocket Interval" in which various countries will carry out space research as a kind of follow-up to the recent International Geophysical Year.

Swainson to Speak in Area Tomorrow

County Democrats will converge on Walled Lake Amusement Park tomorrow to hear Lt. Gov. John B. Swainson, special guest and speaker at an old-fashioned corn roast and picnic being staged by the Oakland County Democratic Club.

Changing Face of Michigan

Area Engineer Builds a Lake

State's Newest Body of Water Has 9 Miles of Shoreline

By JIM LONG

Michigan is getting an asset in living up to its descriptive title of the nation's Water Wonderland.

In fact, state maps may have to undergo some revision if a young Oakland County civil engineer continues doing what he knows best — building lakes, big lakes that spread their water over hundreds of acres.

The engineer is Jim Cole and his latest project is Lake Shannon, a 50-acre lake with 9 miles of shoreline in Livingston County.

The same area that was occupied by dairy cows ten months ago has been taken over by water.

The man-made lake is located in heavily wooded section of Tyrone and Deerfield townships, just three miles south of Fenton and a mile west of U.S. 23.

To realize his project, Cole, 37, of 3813 E. Commerce Road, Fenton, has been working for a year with 37 farmers in the area for the purchase of 1,000 acres of property.

"Had just one of them refused to sell me their property," Cole revealed, "the lake could not have been started."

The lake was named Shannon, Cole said, because the farmers and the lake are in the same family.

The Romeo Board of Education has already gone so far as to engage a Detroit architectural firm to assist with preliminary planning for additional facilities.

Eberle M. Smith Associates, Inc., has been hired to work with the board on proposed additions to three schools and plans for a new elementary school.

The Romeo board has agreed to get an estimate of the cost of the whole package which includes 27 new classrooms and other facilities.

Until Lake Shannon was built, Lake Sherwood had been his big project.

However, Cole explained that whereas Lake Sherwood took nearly a year to fill, Lake Shannon, because of its natural valley setting, only required three weeks.

But before the water hit could even begin, trees, thousands of them, had to be cut down.

Cole said that 20,000 trees of all kinds were cut down in 5 1/2 weeks by continuous feeding.

The 18-foot deep lake, Cole said, are numerous underground natural springs and the main source, Dry Creek.

In building Lake Shannon, which is approximately the same size as Union Lake in Oakland County, Cole didn't forget to leave his trademark.

As in all his lake projects, he has built into the new lake seven islands, which someday he hopes will be used for recreation areas.

To keep the water level at all times, the young engineer has built two spillways, one of them a reverse should heavy rains raise the water.

He said when the project is complete with homes, the total value of the area will be about \$7 million.

Club Has Ace Climbers

CONCORD, N. H. (UPI) — The White Mountains of New Hampshire have 46 peaks more than 4,000 feet high. The Appalachian Mountain Club has started a subdivision composed of climbers who have reached all 46 of them.

MAN-MADE LAKE — A natural valley in Livingston County, just a few miles south of Fenton, was the site chosen by Oakland County engineer Jim Cole for his latest lake building venture.

Man-made Lake Shannon covers 500 acres and has 9 miles of shoreline, to be used for housing developments. Total value of the project got under way in January.

One-time heavily wooded area will be about \$7 million when completed, Cole said. Twelve miles of roads have already been constructed in the lake area. Some 20,000 trees were cut down before the project got under way in January.

Romeo, Utica School Districts

Eye Classroom Needs, Bonds Conclave

Officials in both the Romeo and Utica school districts are discussing the need for more classrooms with a view to slating bond issues in the near future.

MR. AND MRS. BERT FRANK

WED 40 YEARS — An open house from 2 to 5 p. m. Sunday will be held at the home of Mr. and Mrs. Bert Frank of 765 Bloomer Road, Avon Township, who will be honored on the eve of their 40th wedding anniversary. The Franks, who were married in Avon Township on Sept. 16, 1920, have 3 sons, 3 daughters, 13 grandchildren and 9 great-grandchildren.
