

Roberts Doubts State Senate Will Reshuffle

Oakland County's senatorial stock in state government will be tripled if the legislature reapportionment along lines dictated by the Supreme Court. But will the legislature reapportion as the court wishes? Will they reapportion at all?

Republican Sen. Farrell E. Roberts, the county's voice in the senate, doubts an effective agreement can be reached.

Roberts said a two-thirds vote is needed to give any reapportionment plan immediate effect and that there is not much hope such a majority can be achieved.

Immediate effect is a necessary part of reapportionment because the Supreme Court said a plan must be drawn by Aug. 20 or else all senators will be elected state-wide.

NEEDS AT-LARGE VOTE

"We're heading for an at-large election," Roberts said.

But suppose the legislature should agree on a new plan? In that case, Roberts said, Oakland County would be entitled to three senators instead of one.

The county's 11 senatorial districts would roughly parallel existing House of Representatives districts, Roberts explained.

He said the new 1st senatorial district would take in the 1st and 2nd Representative Districts; the 2nd senatorial district would include the 3rd and 4th representative blocks, and the 3rd senatorial district would parallel the existing 5th and 6th Representative areas.

Until now, Oakland County's share of the senate has been the most disproportionate in the state.

The county's district—number 12—had a population of 400,000 in the 1960 census and senate district 32 in the upper peninsula had 55,000. Both areas were represented by one senator in the legislature.

Roberts declined to speculate on how new reapportionment would affect the senate race in Oakland, calling it "the least of our problems now."

As chairman of elections for the senate, Roberts was on his way this morning to a meeting with state election director Robert Montgomery.

MAY CHANGE LAWS

"We may have to change dozens of election laws," Roberts said. "This whole thing is one big mess."

Roberts said he and Montgomery would discuss provisions for holding an additional primary election for state senators, either on a district basis or statewide.

In a statewide primary, Roberts said, Gov. Swanson would have his problems because most of the Democratic nominees would probably come from vote-heavy Wayne County.

"This would encourage Swanson with out-state Democrats," Roberts pointed out.

The senator believes, therefore, the governor will seek to nominate Democratic candidates in the convention and "spot them" around the state.

Roberts' opinion of reapportionment as the Supreme Court wants it is that it will throw state power into the hands of a few southeastern counties, including Oakland.

"Even in Oakland County, we don't think that's fair," Roberts said.

"The speed with which the Supreme Court moved is suspicious as well as unworkable."

3 Ask Court to Hold Off

Act to Stall Reapportionment

JFK Polling Dems on Cut in Taxes Now

WASHINGTON (AP)—President Kennedy's aides are polling congressional Democrats on their attitude toward a possible immediate tax cut to cushion the economy.

Confirming that such a canvass is under way in the Senate, Democratic leader Mike Mansfield of Montana said in an interview the results thus far have been mixed.

Mansfield said he is certain Kennedy has made no decision on whether to request a reduction in taxes. But he added the President obviously is interested in knowing in advance what reception he could expect if such a request were made.

"This late in the season, it would be a difficult thing to manage," Mansfield said.

Kennedy is said to be reluctant to acknowledge any such advance trend in the economy as a tax cut would suggest.

Beyond that he is said to feel a tax cut would be a political blunder, the action could make a recession that might otherwise be avoided.

As politically incredible as it may seem in an election year, Congress appears far from ready to vote a tax cut. There prevails a feeling of uneasiness about how the voters will react to continued high spending and a ballooning deficit.

Chairman Harry E. Byrd, D-Va., stands aloof from the party of the tax-funding Senate Finance Committee, determined to fight against any reduction (Continued on Page 2, Col. 7)

Marshall Death Called Murder

Texas Rangers Claim Evidence Points Away From Suicide Ruling

From Our News Wires

AUSTIN, Tex. — The chief of the Texas Rangers said today all evidence points to murder in the mystery death of Henry Marshall, first official to point the finger of suspicion at Billie Sol Estes. A Ranger investigation will continue.

Col. Homer Garrison, chief of the Rangers and head of the Texas Department of Public Safety, said Marshall, officially ruled a suicide, could not have killed himself.

Garrison pointed to five wounds inflicted by a bolt-action rifle, carbon monoxide in the body, cuts on the head and hands, brain injury and signs of a struggle.

Garrison informed a district judge and also sent word of his decision to the FBI and the chair (Continued on Page 2, Col. 6)

GOP Senators Want Rehearing

FROM OUR NEWS WIRES

LANSING — Michigan's Supreme Court was asked today to hold off on its order directing the legislature to reapportion the State Senate, and to grant a rehearing on the controversial issue.

Attorneys for three intervening defendants asked for a stay of judgment in the court's 4-3 decision yesterday giving the legislature a month to remap Senate boundaries on a population basis.

The three intervenors are GOP Sens. John W. Fitzgerald of Grand Ledge, Frank Beadle of St. Clair and Paul Younger of Lansing.

If the rehearing is refused, they said, the matter would be appealed to the United States Supreme Court on grounds the state court's decision could cause complete chaos and confusion.

This would come about, they argued, if the federal court decided to affirm a ruling that the guidelines laid down by the Michigan Tribunal were not valid.

The court's decision has touched off a flurry of frantic activity by various Republican leaders.

The court order, if it stands, almost certainly will cut down GOP strength in the Republican-controlled Senate.

Gov. John B. Swanson said yesterday, during a brief break in late administrative board meeting, he would offer any administration plan for accomplishing the reapportionment.

Swanson promised to appear on a statewide television net (Continued on Page 2, Col. 3)

Dems Rejoice, GOP Mourns

Reaction to Verdict by Tribunal Strictly Along Party Lines

LANSING (AP)—Reaction to the State Supreme Court decision ordering reapportionment of the Senate was along strict party lines. Democrats applauded the ruling and Republicans bewailed.

Everyone convulsed, meanwhile, said they wanted a closer look at the six opinions handed down by seven justices — two concurring to agree on one opinion, and one, former Atty. Gen. Paul L. Adams, ruling himself out because he previously was involved in the case.

Donald F. Winters, clerk of the Supreme court, said telephone calls started flooding in as soon as the opinions were issued.

He also had a crowd of personal applicants and told them the complete transcript, 36 pages and costing \$25.00, wouldn't be available until some time late today.

Gov. Swanson hailed the ruling as "a great day for the people of Michigan."

"I think this decision is one of the landmark events in Michigan's history," Swanson enthused. "It means that the people of Michigan—no matter where they live—can at long last have government truly responsive and responsible to the people. It means the end to minority rule."

George Romney, Swanson's Republican opponent in the gubernatorial election, issued a statement showing his disappointment at the decision.

"It is not unexpected," he said. "The issue now is not to argue about the wisdom or fairness of the court's majority opinion, and nothing can be gained by attempting to do so."

(Continued on Page 2, Col. 3)

Arrest Leaders in Peru

LIMA, Peru (AP)—Peru's ruling military junta was reported today holding several political bigwigs in custody today after Wednesday's lightning seizure of power.

Although the cabinet publicly announced no political prisoners were taken in the overthrow of the Prado government, the news paper La Prensa reported that in addition to 73-year-old President Manuel Prado, the minister of government, Ricardo Elias Aguirre, and others are in custody.

Humors said that Prado was being held aboard a warship docked at the nearby naval base of Callao, but his whereabouts could not be pinned down officially.

Also reported under house arrest were Dr. Jose Enrique Paz, former president of the National Electoral Board, and two of its members and Radio Continental manager Juan Ramirez. Luis La Prensa said the broadcaster was seized after he went on the air to speak against the military takeover.

Lima was quiet today after demonstrations that continued into the night. Those demonstrations were broken up quickly by the junta, whose coup brought sharp rebuffs from hemispheric allies.

Sporadic demonstrations, which were sparked by students and teenagers, broke out in the capital in protest against the military takeover of the government to ouster the June 18 national elections.

Troops, firing submachine gun bursts into the air and tear gas and police, using water cannon and wielding truncheons, dispersed the demonstrations.

Three students were reported wounded during the day.

THREATEN STRIKE

A bigger threat to the junta came from the giant Confederation of Labor, whose leaders were reported considering a general strike in protest against the military seizure of power. The confederation controls 75 per cent of the nation's labor force.

The United States quickly denounced the coup, suspended diplomatic relations with Peru, and halted further Alliance for Progress aid, which has been pouring into the country at the rate of \$75 million a year.

The U.S. action stepped short of a full break in the diplomatic relations, and U.S. Ambassador James Loch was ordered to remain in Lima to report developments. Such consular relations between the two countries as to issuance of visas and commercial arrangements will continue.

U.S. aid projects already under way, such as flood control, road, water and sewerage work, and low-income housing also will continue but new U.S. help will be negotiated only if Peru gets a government in which both sides agree to destruction on each other.

Won't Be Long Now

News Flashes

WASHINGTON (AP)—The Army is planning to fire test missiles over sparsely populated areas of the United States. It was learned today. It is doing so apparently because the White Sands missile range in New Mexico has been undermined by the newer Army bombardment rockets.

DETROIT (UPI)—Members of United Auto Workers Local 155 today voted 66-12 to end a seven-week violence-marked strike at the Detroit Plastic Molding Co. in Roseville.

DETROIT (UPI)—Members of United Auto Workers Local 155 today voted 66-12 to end a seven-week violence-marked strike at the Detroit Plastic Molding Co. in Roseville.

U.S. Antimissile Missile Scores Success in Test

WASHINGTON (AP)—The United States successfully tested an antimissile missile today in a historic development of the missile age.

The Army antimissile, called the Nike Zeus, was fired from Kwajalein Island in the Pacific and intercepted an Atlas missile which had been launched from California, 4,500 miles away.

It was a demonstration that it is possible to knock down intercontinental ballistic missiles, with no new U.S. help but by having posed a threat that both sides want the United States to avoid in any great new war could rain destruction on each other.

Sunny Friday Forecast in Area; High of 85 Seen

A typical midsummer day is in store for the area on Friday. Clear skies and warm temperatures with a high of 85 are expected. Thunderstorms are possible tomorrow evening.

Fair and mild is the forecast for tonight. The expected low of 64, showers and little change in temperature is Saturday's outlook.

Winds today are mostly northerly at 4 to 8 miles per hour. They will become light and variable at night and southeasterly at 8 to 15 miles per hour on Friday.

Sixty-one was the lowest temperature in downtown Pontiac, preceding 8 a.m. The mercury reached 83 at 2 p.m.

TUNNEL TO FUN — Construction of a 60-foot-long pedestrian underpass at the Novi Township Park has reached the half-way mark with completion of the \$7,000 project scheduled for next week. The tunnel is being built under South Lake Drive as visitors to the park do not have to cross the heavily traveled road to get to and from the beach area on Walled Lake.

Swanson Day Canceled

Pontiac Democrats' dreams of a governor's day here today turned into a nightmare of endless phone calls to cancel scheduled meetings.

Jim McNeely, executive secretary of the Oakland County Democratic Party, said his staff had to notify about 150 persons after Gov. Swanson canceled campaign activities in the wake of the Supreme Court's reapportionment ruling yesterday.

The governor had been scheduled to greet workers at the GMC Truck & Coach plant this morning, have breakfast and lunch with business and civic leaders and hold a press conference.

McNeely said the party was going ahead, with plans for an afternoon reception to which 400 persons have been invited. He said he hoped Swanson would be flown here for the affair.

Another Swanson meeting with precinct workers and county candidates is still set for tonight in Oak Park.

To Outnumber Whites in Cities

Other Races Predicted to Increase Faster in 50 Top Metropolises

MADISON, Wis. (UPI) — Non-whites are well on their way to outnumbering whites in the nation's 50 largest cities, two University of Wisconsin sociologists have reported.

"If the patterns continue, our largest metropolitan areas are eventually destined of white rings surrounding nonwhite cities," professors Harry Sharp and Leo Schnore said yesterday.

The researchers said census figures showed nonwhites growing two to four times faster than the white population in the 12 largest U.S. cities. Each of the 50 largest cities showed increased proportions of nonwhites between 1950 and 1960, they said.

The professors, writing in the current "Land Economics," a university journal, said great numbers of nonwhites are migrating to the cities while whites move to the suburbs.

The term nonwhites, they said, designates mostly Negroes, but also includes Orientals, Mexicans and Indians.

Ninety per cent of all northern metropolitan areas have increasing nonwhite proportions, the report said. But only 35 per cent of southern metropolitan districts followed the same trend.

"Continuation of these trends would certainly have tremendous implications for the future of the metropolitan community," the authors said.

"There will probably be significant political repercussions. We anticipate increasing demands among white peoples for greater representation especially in local government but also in the national Congress," the team said.

Urban Renewal Grants OK'd for 4 Communities

WASHINGTON (AP) — A grant of \$7.728 to help four Michigan communities prepare plans for their economic growth was announced yesterday by the Urban Renewal Administration.

The communities are Albion, Dogeville, Ithaca and Sault Ste. Marie. The grant, supplemented by local funds, will be administered by the Michigan State Department of Administration.

Near-Record Auto Sales Ignore Wall St.

By BEN PHILEGAR Automotive Writer

DETROIT — Consumers are continuing to buy new cars at near-record rates even while Washington and Wall Street debate the economic health of the nation.

Almost seven weeks have elapsed since the sharp break in the stock market in late May, a break which caused deep concern among retailers of such big ticket items as automobiles.

But in the auto field, at least, there is no sign of a normal seasonal change in demand. Car sales traditionally slack off after July 1, yet this year's figures reported their best ever July 1-10 volume.

Chevrolet jumped more than 52 per cent from last year. Ford division was up 38 per cent and American Motors was up 33 per cent. Chevrolet erased its record of 1953. Ford topped its previous 1955 high-mark, and American Motors surpassed its 1960 peak. Industry sales of 20,220 cars daily were at the highest rate since the record year of 1955. This "second-best" pattern has held ever since January.

Analysts found the strong July rate especially significant since it was made up almost entirely of cars ordered after the stock market jolt. Many cars delivered in June had been ordered prior to the Wall Street gyrations.

Another plus factor in the early July sales was that each of the five manufacturers posted impressive gains over a year ago. General Motors was up almost 45 per cent, Ford Motor Co. 46 per cent, Chrysler 21 per cent, American Motors about 33 per cent and Studebaker more than 31 per cent.

ONLY '65 BETTER In some of the previous 10-day reporting periods the increases have been accounted for by only one or two companies, especially General Motors.

Ward's Reports, the statistical service, is forecasting total July sales in each of the past four months. Only in 1955, has July exceeded 600,000.

The longer sales remain strong, the less chance there will be for super bargains in the closing weeks of the model year. Most dealers appear to believe they can move most of their 1962 models without cutting prices much below current levels.

The accuracy of this opinion

should become evident by Aug. 1, inventory of slightly less than one sales should fall off, the inventory to unload at distress prices.

Present production schedules and million cars on July 31. This is will automatically climb and at Studebaker already has finished its 1962 model run.

will begin closing down at the end of this week. American Motors will service along the New York State Thruway each year.

About 67,000 disabled vehicles are furnished with emergency service along the New York State Thruway each year.

ORDINANCE NO. 1468
 Adopted July 17, 1962.
 Effective July 21, 1962.
 An Ordinance amending the Building Zone Map of the City of Pontiac, Michigan, to provide that the land in the building zone heretofore set forth be classified as Commercial 1.

Section 1: The Building Zone Map of the City of Pontiac, Michigan, is hereby amended to provide that the land in the building zone heretofore set forth be classified as Commercial 1.

Section 2: The change in the Building Zone Map is made pursuant to the recommendation of the City Planning Commission and said Commission is hereby authorized to make a final report upon the amendment to the City Commission before the amendment is adopted.

Section 3: That not less than fifteen (15) days notice of the time and place of the public hearing on the final passage of the amendment shall be given in this city.

Section 4: This ordinance shall take effect on the 15th day of July, 1962.

MADE AND PASSED BY THE CITY COMMISSION OF THE CITY OF PONTIAC, MICHIGAN, this 17th day of July A.D. 1962.

Dining in Paris Has Its Difficult Side

Scribe's 'Flawless' French Brings Beer, Not Butter

By BOB CONSIDINE

PARIS—Today the waiter at the restaurant on the first landing of the Tour Eiffel hove into view by accident and I summoned him in English.

We had been served the world's best bread, made only in France, but no butter. I ordered butter or at least made a stab at it.

He seemed startled as I spoke the word in French. "All around?" he asked in English looking uncertainly at our young daughter.

"Certainment," I cried in flawless Gallic. The man sighed, went off and in time came with three bottles of beer.

Well, back to that little old blackboard at Berlitz.

LEGEND
 There's a legend that a man had lunch and dinner at the Tour

Eiffel Restaurant alone every day for 25 years. One day the maitre-d' approached him and said, "sir, we appreciate your patronage very much but all of us have wondered at your daily attendance. There are so many fine restaurants in Paris, some of them finer than this. Why do you come here and only here every day?"

The guy shrugged and said, "because it's the only place where I can dine in Paris and not look at that (censored) Eiffel Tower."

MEETS LANKLETT

Ran in Art LankleTT and his wife and kids the other day. They had just arrived in Paris from Russia where he shot some film to be used in a series he's doing.

The line, to cut only during the morning and evening rush hours, would be the first major subway construction project since the Independent Division started operations in 1932.

Halsey Raines, the former MGM publicist who has been freelancing in Europe for several years, called us up to say that Bill Holden was in Paris shooting "Paris When It Sizzles" with Audrey Hepburn.

It turned out just that way.

Bill likes to talk to reporters but never about the picture he is making. Raines assured us.

There wasn't any strike.

Bill's picture opens sometime next fall or winter, or next spring.

He didn't say, and Raines didn't dare.

Bob went back to Africa to face his critics there, too. He's got guts, and, you'll see, they'll back down, particularly the ones who boasted that they'd shoot him on sight.

We've got a couple of trouble makers around Kenya who can handle them. They read Newsweek and before his retirement in 1952, died of time, and memorize what Walter

Reuther has said, then go out and stir up our employees and their hundreds of relatives who live on us.

I want to one of their strike meetings not long ago and took the floor. I said we've put five million dollars into this property, this country. Now, see these three matches? I'll burn the whole thing down if you go through with this strike. Then where will you be?

There wasn't any strike.

Bill's picture opens sometime next fall or winter, or next spring.

He didn't say, and Raines didn't dare.

Bob went back to Africa to face his critics there, too. He's got guts, and, you'll see, they'll back down, particularly the ones who boasted that they'd shoot him on sight.

Missing Heir Stirs Coast Guard Probe

SAN FRANCISCO (AP) — The Coast Guard continued today its investigation into the disappearance of the teen-age son of a Southern California millionaire sportsman and industrialist from the disabled luxury yacht Holiday.

The Coast Guard called off the search for Richard (Ricky) Steele, 18, because of darkness Wednesday night but said it would be resumed today.

Steele, of Newport Beach, Calif., is the son of Commodore Richard Steele of the Newport Harbor yacht club. His grandfather founded U.S. Electric Motors, which was sold a month ago to an eastern firm for \$66 million.

Gunnar Hug, 48-year-old skipper of the \$75,000 vessel, said Steele was washed overboard as a huge wave hit the ship Tuesday afternoon about 60 miles north of San Francisco.

Steele was last seen Tuesday afternoon about 60 miles north of San Francisco.

Kennedy's Medicare Bill Is Tabled

President JOHN F. KENNEDY sustained a crushing defeat when the U.S. Senate voted to table his medicare bill. The President had gone all out in his effort to put this measure through and his henchmen pulled out all the stops and gave it the full, adult treatment.

But it was no good.
And JFK's "mad."

★ ★ ★
The vote was not along purely party lines as the tabulation shows. Some 31 Republicans and 21 Democrats brought about the 52 votes that sounded the death knell—at least temporarily—of a pet Administration project. There were 43 Democrats who stuck with the President and five GOP members sided with him to produce the 48 votes.

★ ★ ★
The question has been sidetracked in the House, but JFK hoped to get Senatorial backing so he could cry "partisanship" and take the issue to the people in November. But the medicare issue is a gone goose for the balance of this session.

It's deadlier than a dodo.

★ ★ ★
Senator Byrd (D-Virginia) asserted this measure would cost the taxpayers another \$2 billion a year and would have done absolutely nothing towards paying doctor bills, which were not included. The bill contemplated monies for hospitals, nursing homes, certain drugs, some home care and listed incidentals.

The President was loud in his assertions that it would not compromise the private operations of physicians and that it was in no way related to the measure which has produced such a to-do in Saskatchewan. It really constitutes a stunning defeat for the Administration as the White House had backed it with "all the king's horses and all the king's men." The President asserts he isn't through and that he'll revive the issue.

But that won't be in 1962.

★ ★ ★
Critics have pronounced the medicare bill basically a vote getting measure for Democratic aspirants, but it received a sizeable brush-off from party members. This leaves Mr. KENNEDY's legislative record as a pretty dismal thing up to now.

Speculation Runs High on Red China Buildup

Ever since the Presidential fall campaigns of 1960 the islands of Quemoy and Matsu have figured more prominently in the news. Just what gives still remains a question mark.

★ ★ ★
At a recent news conference President KENNEDY said that the purpose of the military buildup of Communist forces along the Fukien coast needed some clarification. Perhaps some light will be shed from the talks between the United States and Red China now being held in Warsaw, although any information coming directly from Red China must be taken with a grain of salt.

★ ★ ★
Actually most observers believe the Communist troop movements are largely defensive in nature. President Kennedy and other U.S. officials cannot be totally candid in acknowledging this hypothesis because it would suggest that Nationalist Chiang Kai-shek is about to unleash himself.

In recent talks U. S. Ambassador to Poland, JOHN MOORS CABOT, denied that the United States was backing any Nationalist plan to invade Red China. But at almost the same time, the Nationalist government undercut the denial by talking about the

brightening prospects of fighting back to the lost mainland.

★ ★ ★
Adding to this confusion the Red China government has charged that the U. S. was supporting and encouraging Nationalist invasion plans. This double talk leaves us along with many others wondering just what the real story is.

The President for the second time recently tried to make the United States' position explicit when he said that we were opposed to the use of force in this area. He further said power arrangements are strictly defensive and that Nationalist China's 1954 pledge not to take forceful action against the mainland without the U.S. consent still governs.

We cannot help but feel that the Peking regime will not take the President's statement at face value. Should Red China continue to build up military forces in this area, the West will certainly have reason to believe that the Communists are harboring aggressive designs.

★ ★ ★
Had they been interested mainly in a show of power they could have done this years ago.

The Man About Town

Anyone for Pills?

Devotee Advocates
Tablet Gulping Meet

By HOWARD V. HELDENBRAND
A learned letter at hand from
Charles E. Hutton

of Wallad Lake in which he, just elected to Board of Education there, sheds academic light on the difficulties experienced by many in getting pills down in the regulation manner. A recent column touched on the mattering approach from a Rochester reader.

This new authority intimates that neither the MAT nor the engineer have the right approach to pilling—that we just plain don't know our pills. Though conceding that one swallow does not make a summer, he stoutly asserts that one should send a pill on its way—if not rejecting, at least in the right direction.

All you do, sez my friend, is throw one or any number of pills, capsules or any odds and ends that you want to get rid of to the back of your throat with a jerk—a jerk of the head, that is—slip whatever liquid is handy and—SWALLOW.

"If you say you can't do it," quoth he, "recall the food you bolt whole at a meal, swallowing all of it in about four unchewed mouthfuls. By comparison, your pills are like bird seed!"

My expert modestly admits the injection of a total of 25 pills and/or capsules each morning—in four swallows. He further suggests a public free-style pill-swallowing tournament.

Count me in—as soon as I figure out my handi-cap.

★ ★ ★
July 15, last Sunday, was Saint Swallow's Day named for a bishop of Winchester, England. According to belief, the weather on that date sets the pattern for the next 40 days... Well, it rained some in Detroit, was nice and sunny here. Sort of leaves us high and dry—if you can't put up with a Sunday pun.

★ ★ ★
The MAT seems to be in the disillusionment business on a big scale. Few days ago, he reported a daylily branch with nine blooms, outbloomed one previously recorded by two.

★ ★ ★
Mrs. W. Varner of Lakeville, who really rears the ante-er, parakeet—flowering score. She mails in a three-stemmed lily branch with 22 buds. Explanatory, she says that the lilies all grow a few feet from a large oak, in partial shade, are fertilized once a year in the spring, and if there isn't rain twice a week they are given a deep watering with lake water.

With a commendable area boost, she concludes that her lilies "just delight in our Lakeville atmosphere and water."

★ ★ ★
Verbal Orchids to—

Mrs. Mary Oakley of Lake Orion, 28th birthday.
Mrs. Blanche Skinner of Lake Orion, 90th birthday.

Such a Good Snipe Hunter

David Lawrence Says:

Politics Out of Place With Medicare

WASHINGTON—President Kennedy has stumbled again. He didn't recognize the roadblocks ahead. He could have gotten a program "through Congress on medical care for the aged," but he failed to size up public sentiment correctly both inside and outside of Congress.

There's no reason why the two political parties should divide on the question of what part government can take in assuring medical care for the aged who cannot themselves afford it or whose children cannot provide it for them.

Everybody is agreed, moreover, that a needy person should have medical care irrespective of age.

But the President played politics with the problem and came a cropper. Even in the statement he issued after the Senate voted to defer the issue until next year, Mr. Kennedy compounded his original error.

He professed to see partisanship in the result and called for political action in this autumn's congressional elections on an issue that divided his own party as well as the Republicans.

The President said: "I think the American people are going to make a decision in November as to whether they want this bill, and similar bills, to be passed, or whether they want it to be defeated. Nearly all the Republicans and a handful of Democrats joined with them to give us today's setback."

But was it just a "handful" of Democrats? Twenty-one out of 61 is a sizable opposition. Ten of the 71 Democrats are chairman of major committees in the Senate.

Does the President mean to tell the country now that the 31 Republicans alone were responsible and hence their party should be defeated in autumn?

Does he mean to enter the Democratic primaries and attempt to defeat those Democrats from the South and West who voted against his bill and are up for re-election this year?

Conversely, would the President support any one of the five Republicans who voted with him? Obviously not.

"POLITICALLY IMPOSSIBLE!"

So it is politically impossible to try to make a national issue of the November congressional elections out of the medical care bill vote.

The President seems "shocked with the political approach,"

THE Country Parson

"How you hold your mouth affects the way you see — if the corners turn up, things look brighter."

when a nonpartisan effort on a subject like medical care would seem to offer the better chance of getting a constructive bill passed.

Mr. Kennedy is rated as a good politician largely because of his manner of stressing certain issues in his previous campaigns, but his statement on Tuesday on the medical care bill revealed more anger and impetuosity than penetrating political judgment.

The President's statement indicates he is evidently counting on the votes of aged people and those in the middle-age brackets who have parents of advanced age to support.

But what he must realize, of course, is that there are many more voters among the people who would have to pay additional Social Security taxes and who already have provided some form of medical insurance to take care of aged parents.

Dr. William Brady Says:

Second Wind Lets Heart Recover From Enlargement

Without fear of contradiction, I can state that the Brady family on Capitol Street in Cambridge in the '30s and '40s was the poorest family not on relief, and yet, as I said, we were poor because we had to live (usually seven or eight of us) on \$30 a month. We were the best fed because we had an abundance of vegetables, fruit, milk, eggs, chickens, pork, ham, bacon, sausage, cream, butter, cheese...

The village streets were safe to play on as were many vacant lots. A few elderly citizens grumbled about the scavengers who were the sidewalkers or speedways. But one day I was hit by a car and never stepped even by Officer J. Mulligan.

Having plenty of room to play, we played when and as we liked. In the school yard, on the street, in front of our house. It was as though the police excluded traffic from the block whenever we wanted to play.

We developed second wind mostly running to fires, which seemed to break out down below the tracks. It came somewhere between the school and the tracks. Second wind is a wonderful experience and it is too bad that young men nowadays never have it.

PEPPER RELIEF

A runner gets second wind in about three minutes after the start. With it he feels tremendous relief of the agony of breathlessness. The diaphragm makes increased excursions for each breath. So does the belly (abdominal wall).

Thus ventilation of the lungs improves. The essential significance of second wind is that the heart has the capacity to recover from dilation (enlargement).

Dilation occurs because the quantity of blood returning through the veins from the over-worked muscles is greater than the right chamber of the heart can pump through the lungs for re-oxygenation.

The capacity of the heart to adapt itself to dilation is limited in teenagers, and therefore dilation running, endurance races and football are not for growing boys.

Moderate, regular daily exercise is generally better for one with heart disease than sedentary habit or walking on eggs, whether the particular heart trouble be valvular, myocardial or coronary disease.

Voice of the People:

Advices Administrators to Read July 14 Editorial

Your July 14 editorial, "It's Time to Be Serious About Cutting Expenses," was, in my opinion, an excellent article. If every member of our school systems and local governments would read your editorial and apply the principles and logic contained in it we would all benefit greatly.

ROCHESTER

'Proper Action Will Correct It'

On my last visit to my cousin at the State Hospital, it was hard to distinguish the patients from the psychiatrists. I feel this has just recently gotten out of hand. Proper action will soon correct this unfair situation.

GEORGIA KELLY

'Bridge Column Best in Press'

The Pontiac Press runs the best bridge column I read and I see three a day.

OLD SUBSCRIBER

'Cuba Isn't Alone in Her Misery'

Cuba is not alone in her misery. Reports from Communist China tell of virtual starvation. East Germany is gripped by a serious scarcity of food. Mother Russia has tacitly admitted that her cattle and agricultural picture is not good. Communist promises are betrayed by the presence of hunger, want, suffering and terror. Yet when the scales in the cold war can be turned in favor of the West, the free nations of the world persist in granting concession after concession to the hungry Communist giant.

CARLOS TODD

Congressman Tells of Red Aggression

The Communists believe a man killed by a bullet is useless — he can mine no coal; that a city destroyed is useless because its mills produce no cloth. The Communists seek to take intact people and their possessions so they can be put to use.

★ ★ ★
Communists dominate almost one-third of the earth and its people. How did they do it? Not so much by outward aggression but by indirect aggression and subversion.

The Soviets have entered into more than 1,000 treaties. They have flagrantly broken and violated all of those except a handful which it has suited their purpose to keep.

★ ★ ★
The only way to prevent war is to call the Soviet's bluff — to draw the line and say "This far and no farther" and mean it. We are now in a death grip with an enemy.

CONGRESSMAN GORDON SCHERER (R. Ohio)

'Don't Waste Time on Space-Women'

Hasn't Congress enough to do without cooking up that silly committee on "women-in-space"? With all the scientists and space agencies working on problems like that, it seems Congress should stay out of it and devote their time to their own untold business.

FRET ON THE GROUND

'City Leaders Are Politically Naive'

It's rather irritating to me and probably to many others to see our City Commission and Chamber of Commerce serve as an entourage for John Swainson in his campaign visit to Pontiac this week.

★ ★ ★
Swainson's whole day in Pontiac as outlined in Tuesday's Press began with handshaking at the GMC center. But it was planned by the staff and is strictly political.

★ ★ ★
For the Commission and Chamber to allow themselves to be placed in the candidate in such a way as to infer, to many people, political endorsement is quite disgusting. It only demonstrates again just how politically naive the Democrat party is and how naive our City leaders can be at times.

A. G. H.

Portraits

By JOHN C. METCALFE

Oh, I saw her blue eyes glaring. On that chartrouse summer but... For it was the only sailor... Which they had as cute as... And I would have her try the hot one... With a smile upon her face... And I knew right then no other... In her heart could take the place... But I also saw a sadness... Hovering about her eyes... For the price tag on that sailor... Seemed as lofty as the skies... And when she replaced me... With the sailor on her head... Spent a chartrouse summer... Sniffing as she sat in bed.

In Washington:

Analyzes Social Security Status

By PETER EDSON

WASHINGTON (NEA) — As the Senate considers child welfare, public assistance and medical care amendments to the Social Security System, it is worth a look to see where the country is going.

There has been some criticism lately that the aged are going broke. The old age and survivors' insurance program is formorally paying out more than it takes in. And the disability insurance program is only slightly in the black.

★ ★ ★
Social Security Administration officials who handle the trust funds covering these programs say that these precarious situations will correct themselves automatically. Present employer payroll deductions and employer payments of 3.125 per cent on the first \$4,800 of income will go up by one-half of 1 per cent on Jan. 1, 1963, 1964 and 1965.

★ ★ ★
The disability insurance trust fund is solvent on a one-half of 1 per cent payment by employer and employee on the first \$4,800 of income. It is estimated an increase of one-tenth of 1 per cent would put it on Easy Street.

★ ★ ★
These assurances are given for every conceivable projection—present employment and wage rate level.

SOCIAL SECURITY SITUATION

YEAR	RECEIPTS	DISBURSEMENTS	GAIN or LOSS	TRUST FUND
1961	\$11.4 billion	\$12.4 billion	-\$1.0 billion	\$19.7 billion
1962	\$11.4 billion	\$12.4 billion	-\$1.0 billion	\$18.7 billion
1963	\$11.4 billion	\$12.4 billion	-\$1.0 billion	\$17.7 billion
1964	\$11.4 billion	\$12.4 billion	-\$1.0 billion	\$16.7 billion
1965	\$11.4 billion	\$12.4 billion	-\$1.0 billion	\$15.7 billion

els, increased employment and wage rates during a boom, increased employment and earnings under a depression under existing legislation.

★ ★ ★
But in final analysis everything depends on what Congress does in the way of expanding the system to cover more people for greater benefits, or raising the base-pay levels on which deductions are made to build the trust funds.

★ ★ ★
In the first years of Social Security, collections were naturally much larger than benefits paid. The number of retired people receiving benefits was only 540,000 in 1934. It will pass the nine-million mark this year, hit 10 million in 1964 and 11 million in 1967.

★ ★ ★
In 1949 there were six people working and paying money into the Social Security system for every retired worker receiving old age assistance. This year there are only four people working for every retired beneficiary.

★ ★ ★
As people are living longer, they draw benefits for more years. This puts a heavier drain on the trust funds. If Congress should yield to pressures for lowering the retirement ages, the drain would be still greater.

★ ★ ★
From 1937 through 1960, payments into the old age trust fund were \$78 billion. Interest received on these funds was \$3 billion, for total receipts of \$81 billion. In this same period, benefits paid out and administrative expenses totaled \$61 billion, leaving \$20 billion in trust.

MISSISSIPPI TRAVELERS—Resuming their journey down the Mississippi River yesterday are William Bahrenburg (left) of Upper Montclair, N.J., and Bowie Duncan of San Antonio, Tex. The Dartmouth College students began their trip at Lake Itasca, Minn., June 14 and hope to reach the Gulf of Mexico by late August. They spent two days resting in St. Louis.

Local Youth, 19, Admits Assault on Teen-Ager

A 19-year-old Pontiac youth has admitted assaulting another teenage boy in a fight July 4 near Murphy Park.

Arthur D. Acord, 19, of 374 S. East Blvd., pleaded guilty in Circuit Court to aggravated assault against Terry L. Farmer, 17, of 5074 Phillips Drive, Pontiac Township.

According to a police witness, Acord struck Farmer with a cup bottle and kicked him. The victim suffered a ruptured spleen.

Acord will be sentenced Aug. 7 by Circuit Judge H. Russel Holland.

Mikoyan Leaves Today for Trip to Indonesia

MOSCOW (AP)—Soviet First Deputy Premier Anastas I. Mikoyan left Moscow early today on a goodwill mission to Indonesia.

Mikoyan is visiting Jakarta at the invitation of President Sukarno. He was accompanied by Deputy Foreign Minister N. P. Ignatyev, a specialist on Asian affairs.

Kennedy Beaten Again by House

Rejects Compromise to Tighten Up Antitrust Law Enforcement

WASHINGTON (UPI)—The House gave the administration another setback by voting yesterday to reject a compromise proposal to tighten antitrust law enforcement.

The action sent the bill back to a conference committee to make another attempt at working out a compromise between differing House and Senate versions.

The House instructed its representatives to the committee to stand fast against several provisions, particularly one to permit the Justice Department to demand records of any company.

The House wants to limit the authority to demands on companies actually suspected of antitrust violations.

A conference committee proposal to let the Justice Department share its information with the Federal Trade Commission was also sharply opposed.

Two Men, Girl Are Sentenced in Area Holdup

A teen-age girl and her two male companions were sentenced Tuesday for their part in a service station holdup in Independence Township in April.

Gloria Yager, 18, was placed on one year's probation and ordered to pay \$30 costs. She pleaded guilty to simple larceny.

The two men, who pleaded guilty to assault with intent to commit armed robbery, were handed sentences to Jackson Prison.

Ronald Wilson, 20, was ordered to serve 3 to 10 years and Clifford Johnson, 28, drew a 2½- to 10-year term.

Miss Yager and the men are from Flint. They were sentenced by Circuit Judge Stanton Dondoro. Last month another Flint youth charged with taking part in the holdup, Ronald Schumann, 18, was sentenced to serve 5 to 20 years after pleading guilty to armed robbery.

The holdup took place April 18 at the Red Fox Gas Station, 6304 Dixie Highway.

Claudette Liz's Moral Antithesis

By PHYLIS HATFIELD

NEW YORK — On the late show the other night they showed "Cleopatra" . . . the De Mille, not the debauch.

It starred Claudette Colbert, rather than Liz Taylor. And the thought occurred that no two stars of such magnitude have ever been so different.

Liz Taylor is—well, everybody knows how Liz Taylor is. Claudette Colbert, on the other hand, has been married for more than 25 years to a surgeon, Dr. Joel Freeman. She is as lovely today as she ever was.

When I interviewed Miss Colbert a couple of years ago, she

gave some advice on lengthy marriages which Miss Taylor might find interesting. Or, more likely, amusing.

"Well, I don't discount sex appeal," said Claudette with a delicious gleam in her eye. "It's number one. For a time. But after 15 years of marriage—

"This I know for sure. Of all the marriages I've seen where the husband has love for his wife after 15 years, the wife has the ability to make him laugh. She is gay when he comes home. She doesn't bore him with her petty ills."

UNCOMPLAINING WIFE

To illustrate her point, Miss Colbert said that some years ago she suffered a fractured skull.

"Did I complain about it?" she laughed with genuine delight. "No, of course not. My husband was in Philadelphia at a medical meeting.

"Wasn't that clever timing?" Trouble with Liz, she always has a man around when she gets sick.

And can you imagine Miss Taylor putting up with this?

"My husband," said Miss Colbert, whose more-than-50 years show on nothing but her birth

certificate, "has never known what picture I was in, from one year to the next, and very little interest in it.

"In fact, the last premiere I took him to—oh, it was years ago—I heard a loud snore. That was it. A surgeon has a hard day. Must be have to suffer at night too!"

We thought Claudette was wonderful as "Cleopatra," but concede Liz Taylor should be more realistic. Claudette is a good actress but (at least to those who know her) her lovely morality is showing.

In New York City, progress is our most annoying product.

We hate it. In every square block, it seems, an old building is being razed and a new building constructed. One leaves home to the sound of bulldozing and arrives at the office to the sound of riveting.

The only way to block out the noise is close the windows and turn on the air-conditioners. The air-conditioners are so loud they'd block out everything. Except the dishwashers. Ah, progress.

It reminds of a comment maestro Andre Kostelanetz made to us some time ago. "We listen

much to the telephone," he said, "and too little to nature."

"Everybody should have his personal sounds to listen to—sounds that quiet and calm. In the city there are plenty of them—bird and children-playing and wind sounds.

"But the greatest sound of them all, and to me it is distinctly a sound, is utter, complete silence. It comes occasionally."

We noticed today there is a new building going on all around poor Mr. Kostelanetz' old apartment. But there's a muffled-or-missing—maestro.

Archaeologist Succumbs

OMAHA (AP)—Paul L. Beaubien, 58, supervisory archaeologist in the Midwest region office of the National Park Service, died Wednesday after a heart attack.

AP Photos

REES NOMINATION — Las Vegas song writer-entertainer Gene Austin, 62, has filed for the Democratic nomination for governor of Nevada.

Auburn Profs Hail Oral Examinations

AUBURN, Ala. (UPI)—The oral examination not only is a better instrument to measure individual student achievement, but acts as a catalyst to provoke his thinking, according to two Auburn University professors who prepared a research paper on testing.

Dr. C. E. Tanger and T. C. Mison said their study showed a student may be able to work out assigned problems and pass conventional written tests but does not necessarily grasp the basic principles of the subject. Oral testing probes areas of understanding or lack of it which written tests do not discover, the professors said.

Inventor Dies in East

UPPER MERSEY, Pa. (AP)—Eugene J. Houdry, 70, French-born inventor of the catalytic process of producing better gasoline, died Wednesday.

Rural Political Bastions Crumbling

By **RAYMOND J. CROWLEY**
WASHINGTON (AP)—Rural blocs, long dominant in many state legislatures, are fighting with backs to the wall to retain their power. The way things are going, it looks as though they cannot win, although it may take years to take the outcome.

City dwellers and suburbanites, fortified by two historic Supreme Court decisions, are battering the ramparts of what they call unfair apportionment of seats in the legislatures.

Already they have scored one by breakthrough in Maryland where they gained control of one branch of the legislature for the first time. They appeared headed for another in Michigan, where the State Supreme Court handed down a politically explosive decision Wednesday.

The court, acting on complaints that the State Senate is unfairly unbalanced in favor of rural areas, voted 4 to 3 to call off the Aug. 7 primary election for that chamber. It directed legislators to pass "valid" reapportionment legislation by Aug. 20 or else provide for the nomination of senatorial candidates on an at-large basis at a special primary Sept. 11.

WIDESPREAD MOVE
In eight other states, federal or state courts are putting pressure on legislatures to reshape themselves more in line with the population. These states are Alabama, Georgia, Mississippi, North Dakota, Oklahoma, Tennessee, Vermont and Wisconsin.

More is yet to come. In more than 30 states, there is agitation in the form of suits, movements for state constitutional amendments, initiative petitions or study commissions.

What sparked the widespread activity was a Supreme Court decision March 26. A group of Tennesseeans complained to the tribunal that although their state constitution called for reapportionment every 10 years, nothing had been done since 1901. The result, they said, was that one-third of the voters elected two-thirds of the legislature.

The Supreme Court, reversing long-held doctrine, decided that federal courts can handle such cases. It followed up with another decision putting state courts into the picture also.

The most concrete result to date has been in Maryland. The legislature passed a reapportionment bill giving metropolitan areas control of the House of Delegates for the first time in history.

Small counties were left in control of the Maryland Senate, thus giving them veto power. Advocates of thoroughgoing reapportionment are now pressing a court fight to revamp the Senate also.

They lost a round when a state circuit judge refused to interfere with the Senate makeup. He pointed to the "federal plan" whereby the U.S. Senate is apportioned geographically and the House according to population.

The Supreme Court, in its March 26 decision, did not say whether the federal plan can be legally applied to the states. Indeed, it set up few guidelines for lower courts to follow.

PUTS UP FIGHT
An example of how hard the rural legislators are fighting is in Alabama. Three months ago a 2-judge federal court gave the legislature an ultimatum: Reapportion or have the judges do it.

The legislature came up with reapportionment plans that would leave rural areas in possession of

the balance of power they have enjoyed for over 50 years. The court is now considering whether this is legal.

In Georgia, a federal court warned July 13 that unless at least one house is revamped by Jan. 1 "to represent the people on a population basis, there will be no legally constituted legislature after that date." A special session is expected in late September to tackle the job.

Another federal court has ruled Oklahoma's apportionment laws individually discriminatory. In violation of the 14th Amendment to the U.S. Constitution, which guarantees all citizens equal protection of the laws. It judged Gov. J. Howard Edmondson to have imposed a special session this month.

but he said that would be futile, and the other according to some recognized system or pattern.

SCHOOL VICTORY
The Michigan Supreme Court decision Wednesday was a victory for August Scholle, a Democratic legislator and state AFL-CIO president. He brought the suit alleging that the present senate districts—of which the largest has about 12 times as many residents as the smallest—violate the U.S. Constitution.

Backers of the present lineup said it provides a system of checks and balances, with the House based mainly on population and the Senate partly on area. They said this guard against one house must be against a special session this month.

The Michigan Supreme Court is officially nonpartisan but the vote was along party lines, four Democrats in the majority and three Republicans in the minority.

At present Republicans control both houses of the legislature. Nebraska is unique in the nation in that its legislature has only one house. It has not been redistricted since its creation in 1855. The League of Nebraska Municipalities is going to court in a challenge of present apportionment.

The league also is trying to block a November vote on a constitutional amendment that would direct that, in any future redistricting, a weight of 20 to 30 percent shall be given to geographical area. The constitution now may take over the reapportion-

says population shall be the sole basis for determining whether guide.

SUITS IN PROGRESS
Among other states in which lawsuits are in progress or pending are Colorado, Delaware, Florida, Indiana, Kansas, Kentucky, Louisiana, New Jersey, New York, Ohio and Washington.

In Wisconsin, Democratic Gov. Gaylord Nelson is at bitter odds with the Republican-controlled legislature on how the state's political districts shall be revamped. Nelson vetoed on Tuesday a congressional reapportionment measure. He said it did not comply with "acceptable standards of population equality" and failed to meet objections he made to a previous measure vetoed July 2.

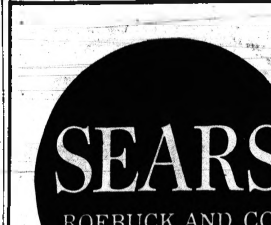

The governor and legislators also do not see eye to eye on redistricting of the state legislature. In any future redistricting, the weight of 20 to 30 percent shall be given to geographical area. The constitution now may take over the reapportion-

ment job. A special master named by the court to determine whether—and how—there should be a reapportionment this year set a final hearing on facts for today.

Boy Drowns at Flint
FLINT (AP)—Christopher Brown, 11, drowned in Kearsley Reservoir Wednesday night after he reportedly walked into the water fully clothed. A scuba diver of the Genesee County sheriff's department recovered the body.

One of every seven men in the U.S. armed forces wears eyeglasses.

Pontiac, Nearby Area Deaths

MRS. COURT O. ADAMS

Service for former Pontiac resident Mrs. Court O. (Ruth) Adams of Lansing will be at 2:30 p.m. Friday from the Gerstle-Richman Funeral Home, 900 E. Michigan Ave., Lansing.

Mrs. Adams, whose husband was pastor of First Christian Church in Pontiac in the 1940s died Tuesday evening in her home of a heart attack.

Active in the Pontiac Council of United Church Women, she was the first president of Christian Women's Fellowship of the local church.

Rev. and Mrs. Adams organized the first Inter-Church Youth Fellowship in Michigan among the Churches of Christ brotherhood.

Surviving besides her husband is a son Rev. Court O. Adams Jr. in Ohio.

RAYMOND H. ADAMS JR.

Service for Raymond H. Adams Jr. of 235 W. Fairmount was at 10:30 a.m. today at the Donelson-Johns Funeral Home. Burial was in Perry Mt. Park Cemetery. He was dead at birth Tuesday at Pontiac General Hospital.

Surviving besides his parents, Mr. and Mrs. Raymond H. Adams of Pontiac, are three sisters, Connie, Cathy, and Patricia, all at home.

BARBARA MCNEAL

Service for Barbara McNeal, 18, of 388 Howard McNeill St., will be 1 p.m. Saturday at Providence Baptist Church. Burial will be in Oak Hill Cemetery. Her body is at the Frank Carruthers Funeral Home. She died yesterday at Pontiac General Hospital.

PUBLIC SALE

HOLLY — Graveside service for former Holly resident Mrs. H. Byrne (Frances) Stanley, 85, will be 10 a.m. Saturday in Lakeside Cemetery.

Mrs. Stanley died Tuesday in California. Her body will be at the Dryer Funeral Home after noon tomorrow.

Hospital Trustees to Select Officers

The major item on the agenda for tonight's meeting of the Pontiac General Hospital Board of Trustees will be the annual election of officers.

Officers serve one-year terms. Harold S. Goldberg is the current board chairman.

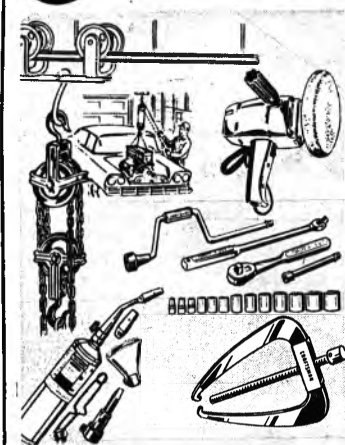

It will be the first meeting for two new trustees, John B. Maye and Robert T. Flynn, appointed by the City Commission July 3.

The meeting is at 7:30 at the hospital.

Shah Names Premier

TEHRAN, Iran (AP) — After 48 hours of study, the Shah today appointed his close friend Asadollah Alam, 42, as Iran's premier. Alam, 42, succeeds Ali Amin, who resigned Tuesday after 14 months' unsuccessful struggle to produce a balanced budget.

Midland County Dems Reinstate Ousted Officers

MIDLAND (AP) — The Midland County Democratic Committee yesterday agreed in court to reinstate two of its officers ousted in a squabble over the office of county postmaster.

Committee Vice Chairman Mrs. Irene Youmans and Treasurer George Case Jr. were removed from office after they protested the appointment of John Kilbride as postmaster.

The two filed suit for reinstatement last September.

Waterford School Unit Also to Hear Report on Building Bids

A recommended rate of 25.76 mills for the 1962 school tax spread will be considered by the Waterford Township Board of Education tonight.

The proposed millage is 36 more than last year's rate of 25.50 mills.

Operating millage of 13.75 is proposed compared to a rate of 18.49 a year ago.

The proposed 7.61 debt service millage is the same as in 1961.

In other business the board will hear a report from the school district's consulting architectural firm on bids received last week for school building modifications and site improvements.

The building committee is slated to make recommendations to the board on a proposed site development program at Waterford Kettering High School.

The committee met this week to review and estimate on the project aimed primarily at developing athletic facilities at the school.

The year-old high school will receive further board attention tonight.

Accreditation procedures of the North Central Association will be reviewed in an effort to acquire accreditation for the school as soon as possible.

Also scheduled for board consideration is a request from residents of Bender Street seeking action to improve traffic and road conditions.

Harmless Earthquake Terrifies Cuban Area

KEY WEST, Fla. (AP) — An earthquake shook a 75-mile area in Eastern Cuba early today, Havana radio reported.

The broadcast said the quake, which lasted seven seconds, caused no injuries but terrified residents of the district between Manzanillo and Palma Soriano in Oriente Province.

Stone Scores Direct Hit on Blasting Cap

HUNTSVILLE, Ont. (AP) — 16-year-old George Spivak of Madson Heights, Mich., was as good as doing as he is as throwing a blasting cap which blew up, and flying debris hit Spivak on the head.

He was treated in a hospital and released.

Stone Scores Direct Hit on Blasting Cap

HUNTSVILLE, Ont. (AP) — 16-year-old George Spivak of Madson Heights, Mich., was as good as doing as he is as throwing a blasting cap which blew up, and flying debris hit Spivak on the head.

He was treated in a hospital and released.

Spivak saw a shiny object in a gravel pit and threw a stone at it, hitting it squarely, police said. The object turned out to be a blasting cap which blew up, and flying debris hit Spivak on the head.

He was treated in a hospital and released.

JFK Will Be Partial to 'Friendly' Dems

By WHITNEY SHOEMAKER
WASHINGTON (AP) — Any questions about President Kennedy's zest for stumping in Senate and House campaigns this year was blown apart by defeat of his medical care program.

Kennedy previously had made clear he would take to the road, and possibly to the television screen, in an effort to enlarge the

vote loss in the Senate on Tuesday made him more determined than ever.

Aides say the President will not carry a political shotgun with him on the campaign expeditions. But he has scrutinized the roll calls carefully, not only on medical care but all the key bills—tax, urban affairs, department, debt limit, trade, atomic energy, works authority, trade, aid to higher education, U.N. bonds, foreign aid.

OUT TO GET GOP
This indicates the Chief Executive will be especially eager to knock off Republicans who have consistently opposed him. It also suggests he will be much more disposed to plump for faithful rather than contrary Democrats.

It does not suggest he will fail to endorse Democrats at large. For example, he posed for campaign pictures at the White House

Wednesday with 17 Democratic Senate candidates. Among the nine incumbent senators in the group were Sen. Carl Hayden of Arizona and Sen. J. Edwin Jr. of North Carolina who only 24 hours

earlier had voted to kill the medical care program.

Missing from the group of candidates was the President's long-time friend, Sen. George A. Smathers of Florida, who had re-

ceived Kennedy's endorsement in advance of Florida's primary election last spring. Smathers, like Hayden and Ervin, was among the "handful" of 21 Democrats whom the President observed Tuesday had voted against him on medical care. Smathers frequently opposes administration measures.

NO PROBLEM
Kennedy said at a recent news conference that he didn't anticipate much of a problem choosing among candidates in charting his personal campaign itinerary.

Asked if he intended to campaign only for Democrats who have backed his major proposals by all Democrats who wanted him, he said the question answered itself.

Those who want me to campaign for them are people who have generally supported the major part of the program," he commented.

Churchill spent another comfortable night in Middlesex Hospital and ordered a bottle of champagne with his lunch today.

The 87-year-old statesman is making such good progress in his recovery from a thigh fracture that his doctors are expected to let him go home next week.

Churchill fractured the thigh June 28 in a fall in his Montagu hotel.

He walked in a corridor with the support of nurses Wednesday.

He plans to spend a short period of convalescence either at his London residence or at his country home, Chartwell, and then return to the south of France to resume his summer holiday.

Churchill fractured the thigh June 28 in a fall in his Montagu hotel.

Kennedy's campaign schedule is slowly being worked out. Only one date—in Chicago in October—has been announced. Before making clearly political sorties, Kennedy plans one or more "nonpolitical" journeys. This means he may appear in an area where a battle looms but will not directly advocate a candidate.

Subsequent political trips are likely to take him into Pennsylvania, Connecticut, California, Michigan, Kentucky and possibly Oregon, Utah and South Dakota, among others.

Slates Antifire Week
WASHINGTON (AP) — President Kennedy yesterday proclaimed the week of Oct. 7 as Fire Prevention Week and asked every American to lend an active hand to "his effort to reduce the shameful waste caused by preventable fires."

Slates Antifire Week
WASHINGTON (AP) — President Kennedy yesterday proclaimed the week of Oct. 7 as Fire Prevention Week and asked every American to lend an active hand to "his effort to reduce the shameful waste caused by preventable fires."

Officials to Converse Via Telstar Satellite

NEW YORK (AP)—A series of transatlantic calls relayed by Telstar satellite will enable top officials in the United States and foreign cities to chat by telephone next week.

The Bell system announced Tuesday 23 American cities and universities will be linked with an equal number in 16 European countries. The calls are tentative by set for July 26.

Fidel Spanks Bus Drivers for Bad Manners

KEY WEST (AP)—Prime Minister Fidel Castro has warned Havana bus drivers they will be sent to work on collective farms if they abuse their vehicles.

His remarks to a bus drivers' meeting Tuesday night were quoted yesterday by Havana radio.

Castro also was quoted as calling for an improvement in relations between the drivers and the public.

Havana bus drivers and passengers have carried on a feud for many years with frequent exchange of insults.

Colleges Have Room for 'Well Qualified'

By RTU GKORS
Education Writer
The Saginaw News

There's happy news today for the "well-qualified" youngster who wants to go to college this fall. There's room for him.

A survey showed Michigan State University, University of Michigan, Western Michigan University, and Eastern Michigan University all saying they're still accepting applications from "well-qualified" students. Ferris Institute and Central Michigan University are filled, and both have waiting lists.

This business of colleges still accepting students in July after years of warning that college doors are going to close because they're running out of space, makes it appear as if the college presidents have been misleading the public.

They haven't. The situation this year was anticipated. High school graduation classes across the state generally were smaller this June than in previous years.

But, say college admission officers, this is just a lull before the big blow. Starting next June and the June's to follow, high school production classes go up sharply in numbers. In 1964, the year 1962 will look like paradise, they say.

But even this year, colleges with room say they are taking only the "well-qualified" student.

They don't define the term, just leave it dangling there.

What it means, is this: have no less than a C-plus average in the high school academic subjects, and preferably a B average. Otherwise chances of getting in are slim indeed.

Here's a quick rundown of Lower Michigan's public colleges:

Ferris Institute—Dr. Victor Spethell, president, said a student body of 4,200 is assured, 600 more than last year.

Hundreds have been turned away already, and there is a long waiting list. Last year, he said, Ferris turned away 2,000 students. He expects to turn away that many this year.

Central Michigan—Austin Buchanan, director of admissions, said a waiting list has developed. CMU expects to have 5,600 students on campus, 300 more than last year. Students admitted must be in the top 50 per cent of their graduating class with a C-plus or better in the academic subjects.

Western Michigan—Students still are being accepted, says Clifford Sjogren, admission counselor. The school expects a total

enrollment of 10,300, 750 more than last year.

He said the school will know for certain by August 1 whether all who have applied by then can be admitted in September.

Eastern Michigan—Ralph Gilden, dean of admissions, said students are being admitted, but only those who are qualified with a B or better in high school academics are being taken.

Some students with slightly lower average are tested, and if they test high they are admitted. The school had 5,800 enrolled last year, expects 6,800 this year.

Michigan State—applicants still being taken from well-qualified students. MSU expects a freshman class of 5,000 compared to the 4,900 enrolled last year.

have 3,300 freshmen class, none as last year.

Slam, Hail Ruling on Senate

WELCOME 4-H'ERS—Thirty-seven 4-H members and leaders from Maine arrived in the county by bus yesterday and were greeted by Oakland 4-H agent Jack Worthington (center) and Lyle McLachlan (right), 4-H Fair King.

Part of Exchange Program Maine 4-H'ers Visiting

A week-long tour of the area began today for 37 4-H'ers from Maine as part of an exchange program that will send a group of Oakland County 4-H club members to the New England state next summer.

Thirty youngsters and seven senior leaders, representing the Maine counties of Oxford and Lincoln, arrived yesterday afternoon by chartered bus at the county 4-H Fairgrounds.

Toll-Free Calls Over U.S. Seen

Retired Engineer Says Service Could Affect Nation in 25 Years

EAST LANSING — The day is coming when you will be able to pick up your telephone and call anywhere in the nation without paying a toll charge.

The trend today is toward the extension of free-service areas, explains Frederick L. Kahn, retired former chief telephone engineer for Automatic Electric Co., North Lake, Ill.

By conservative estimate, a Michigan resident may be able to call anywhere in the state without a toll charge within 15 years, he predicts.

Kahn, now serving on the staff of a Telephone Engineering Co. conference, July 120 at Michigan State University, believes that within 25 years, one should be able to call anywhere in the country without extra charge.

Another evidence of the trend toward free-service areas can be seen in the reduced rates offered at night for long distance calls.

In some states, he notes, one can now make calls after 5 p.m. — anywhere within the state for 50 cents.

Some day, he adds, it may be possible to make international phone calls to such neighbors as Canada and Mexico without toll charge.

The service will be made possible after party by new and more efficient equipment and facilities now being perfected, Kahn says, with a proportion of the cost being defrayed by slightly increased local charges.

Fire Department Donates \$50 to Aid Blaze Victims

AVON TOWNSHIP — A check for \$50 was presented by the Brooklands Fire Department today to a couple whose children lost most of their clothing in a fire Monday.

Mr. and Mrs. James Ward, 394 Gerald St., received the check from Fire Chief William Force and Howard Felton, fire department president.

The blaze, confined to the upper level of the house, caused an estimated \$2,500 damage.

Family Reunion Aug. 5

The Golt family reunion will be held Aug. 5 at the Davisburg Park in Springfield Township.

'Stupid': Ford, 'Needed': Dems

Rep. Broomfield Says Regrettable Couldn't Be Settled in Legislature

WASHINGTON — The Michigan Supreme Court's order to reappoint the State Senate drew mixed reaction today from Michigan members of Congress.

"I think this decision is stupid any way you look at it," exploded Grand Rapids Republican Gerald R. Ford Jr. on learning that the high court had called off the state's Aug. 7 primary and ordered realigning of senatorial districts.

"It's about time," countered Rep. Harold M. Ryan, Democrat and former minority leader of the Michigan Senate.

"The U.S. Supreme Court must reverse this decision," said Traverse City Republican Robert P. Griffin.

Rep. William S. Broomfield, R-Oakland, said the "regrettable" problem couldn't be worked out to the satisfaction of both parties in the regular session of the legislature. But there's no doubt the Senate needs reappointing.

Rep. James G. O'Hara, D-Utica, commented, "It's clear the malapportionment of the Michigan State Senate does deny citizens equal protection under law — the court had no choice."

These were some of the reactions filed by a reporter after yesterday's announcement of the Michigan court's 4-3 ruling that the Senate must be reappointed by Aug. 20.

Ryan, in asserting "it's about time," added:

"Our state has suffered no such because the Senate hasn't been reappointed. The Republicans in the Senate have acted as a veto group on a lot of good legislation to build up the state — a lot of our fiscal problems could now easily be settled."

Griffin said he thinks the decision would be reversed by the Supreme Court on appeal because "the present senatorial districts were established by a vote of the people in 1962."

"I think the decision is most untimely," he said, "and takes on the appearance of a political ultimatum calculated to deprive the people of their constitutional rights."

Other comment:

—Rep. John Bennett, Upper Peninsula Republican: "This is a colossal effort to concentrate the legislative power of the state in the metropolitan areas."

—Sen. Philip A. Hart, Democrat: "The Senate's reappointment... is one of the most, if not the most important steps Michigan must take if the state is to continue to grow and prosper."

Let's make sure the reapportionment assures an equality of voice in the deliberations of the Senate for all the people of the state."

Farmington Grad Given Scholarship

WEST BLOOMFIELD TOWNSHIP — Roger L. Miller, a June graduate of Farmington High School, has received a college scholarship grant from the Commercial Credit Companies Foundation.

Miller, son of Mr. and Mrs. L. G. Miller, 7180 Cottonwood Drive, plans a chemical engineering career and will enter Michigan College of Mining and Technology in September.

The scholarships are awarded to sons and daughters of employees of Commercial Credit Co. Miller's father is assistant division manager in the Detroit office of the firm.

Avon Twp. Student Wins Scholarship Abroad

AVON TOWNSHIP — Julianne E. Kruger, daughter of Mr. and Mrs. Thomas E. Kruger of 699 DeGaulle Court, was recently awarded a Mary Vance Young Scholarship for her junior year abroad by Mount Holyoke College, South Hadley, Mass.

A graduate of the Kinswood School in Bloomfield Hills, Julianne will study next year in Paris at the Sorbonne, as a member of a group sponsored by Sweet Ritz College.

Romeo Lions Sponsor Circus Visit July 26

RIMED — The circus is running in town—America's oldest, in fact—July 26 under the sponsorship of the Romeo Lions Club. Both and Gray citizens will give afternoon and evening performances on the Lions Community Field, off N. Bailey Street, to raise funds for Lions club projects.

The one-day stop will be part of the circus' 82nd annual tour.

WED 40 YEARS — Mr. and Mrs. P. A. (Ded) Rose will celebrate their golden wedding anniversary Sunday with an open house from 2 to 5 p.m. at their home, 355 Glenn St., Lake Orion. Married July 22, 1912, in Loup City, Neb., they have a son, Rev. Donald Rose of Austin, Tex.; a daughter, Mrs. Lyle Clack of Lapeer; and three grandchildren.

Will Hear Senators

Four Republican state senators will speak at Birmay School in Southfield at 8 p.m. today, giving the "moderate position" on significant issues facing Michigan.

Parrell Roberts, Oakland County; William Miliken, Traverse City; Stanley Thayer, Ann Arbor; and John Fitzgerald,

Announce Rally for Candidate

Troy Mayor Huber, in Race for State Senate, to Speak in Rochester

ROCHESTER — A "Huber for State Senate" rally at 8 p.m. Monday at Club Rochester was announced today by a committee from Avon and Oakland townships supporting the candidacy of Troy Mayor Robert J. Huber for the state legislative post representing Oakland County.

Huber will present his platform, views and qualifications at the rally, which will be open to the public.

In a letter addressed to residents of the two townships unable to attend Monday's rally, Huber said he seeks election to the State Senate because "I feel that there is a need for better representation in Lansing of the problems and desires of my Avon-Oakland township neighbors."

Huber, president of Michigan Chromo and Chemical Co. at Detroit since 1952 and a Republican, said he is opposed to a state income tax.

He added that he favors more attention to the problems of more equitable tax distribution, fiscal reform, expanded county services, the flight of industry from the state and economic waste in state governmental administration.

GIs in Thailand to Get Quarters

Commander Criticized for Low Morale, Tells of Plans to Move Men

BANGKOK (UPI)—The commander of the U.S. task force in Thailand, stung by sharp newspaper criticism, said American soldiers stationed here soon will be moving from cots and tents to beds and barracks.

Lt. Gen. James L. Richardson said troops of the 7th Infantry "Wolfhound" Battle Group would be moved into semipermanent buildings within the next 30 days.

Richardson's remark on the scheduled move came after publication of an article in the New York World Telegram and Sun by Scripps-Howard and United Features Syndicate columnist Richard Starnes, accusing Richardson of "maddening indecision and vacillation" while the troops were undergoing "unnecessary hardships."

Richardson, in a prepared statement, denied the accusations. He said the morale of the troops was "high" despite Starnes' report of widespread discontent.

The newspaper dispatch said Richardson had made no effort to move the troops to decent quarters although money for such a move was available. Richardson said this was "simply not true."

However, he added, "a new base camp has been selected and plans are proceeding for its erection."

Name Reading Attorney State Circuit Judge

LANSING —Robert W. McIntyre, 51, a Reading attorney, was appointed judge of the First Judicial Circuit of Michigan by Gov. Seawright yesterday.

He succeeds the late Judge Charles O. Arch. McIntyre, a member of the law firm of Preble and McIntyre of Hillsdale, has served as prosecutor of Hillsdale County since 1955.

He also has been a Circuit Court commissioner.

Crawford, Davis Chew the Fat

Two 'Old Pros' Liven Up 'Baby Jane' Set

By BOB THOMAS
AP Movie-News Editor
HOLLYWOOD—What fun to have Joan Crawford and Bette Davis working in the same picture. What good old-timey, real, wonderful fun.

All you have to do is sit on the set of "Whatever Happened to Baby Jane?" and watch the sparring.

Davis: Of course you know, Joan, that everybody is going to try to work up a feud between us.

Crawford: I know, dear, and isn't it ridiculous? We're much too professional for anything like that.

Davis: Exactly! And who has time for such silliness? We'll be much too busy making the picture.

Crawford: Of course.

OFFICIALS' ENDS
Davis: (guffaw) You know what the picture is all about? You know that the situation is so bad that your dressing room is on one end of the stage and mine is at the other end. No! I ask you, look at those dressing rooms! (They were about 30 feet apart, on each side of the big stage door.)

Crawford: You know the only reason I'm over there is that I like to be near the cooler. It's probably too cold for you.

Davis: Oh no! I adore it cold. I'm liable to move over there with you.

Crawford: And we'll end up the picture with our rooms side by side, fooling everyone.

Davis: I'll tell you one thing

hope this picture does. I hope it brings back women's pictures. The men have had it to themselves too long. But I must admit, we women had it pretty good for 15 years back there.

NO AUTHORITY
Crawford: I wouldn't either. There's no authority here at all. You take a script to a producer and the office boy reads it.

Davis: You're absolutely right. Nobody cares. The town is absolutely dead.

(Editor's note: Not as long as you two girls are here.)

Francisco Honors Chief of U. S. Economic Unit
MADRID (AP)—Generalissimo Franco's France bestowed today the Grand Cross of Isabel the Catholic, one of Spain's highest honors, on Richard A. Albrecht, departing chief of the U. S. Economic aid mission to Spain and a former Broadway theatrical producer.

Spain's new ambassador in Washington, Antonio Carrigues y Diaz Canabate, received the same award in the list of honorees commemorating the 36th anniversary of the beginning of the Spanish civil war.

There's just no life here at all. I'm not much of a set visitor, but I dropped in on the sets at a studio recently and everyone was just blah. No life, no spark.

Davis: Well, they handed this town over to the agents long ago. There's no direction any more. You remember how you and I used to find studios and go around to producers trying to work up

JFK to 'Tutor' at Dem 'School'

New Candidates Want to Know How to Use Medicare Issue

WASHINGTON (UPI)—Democratic congressional candidates sought advice from President Kennedy today on how to use the Medicare issue in their campaigns.

About 65 nonincumbent candidates attending a "school" here were due to meet Kennedy and Vice President Lyndon B. Johnson in the White House Rose Garden.

Rep. Michael Kilman, D-Ohio, chairman of the Democratic Congressional Campaign Committee, said the candidates attending the school will be a "star pack" and they should work from morning to night to win.

The Democrats asked party leaders how to answer Republican critics of the medical care program. The leaders gave them answers on how to answer the GOP but failed to supply reasons why 21 Democratic votes against the administration proposal Tuesday in the Senate.

One candidate asked why the Department of Health, Education and Welfare was not doing more to "outpropagandize" the American Medical Association (AMA).

P. William Lander, a Senate candidate from North Dakota, feared that unless more is done to combat the AMA "we are going to fight a losing battle."

Ivan A. Nestigen, undersecretary of health, education and welfare, said the propaganda must be done on the political trail since the department had no funds to match the AMA campaign.

During the opening session yesterday the candidates got a pep talk and advice from Speaker John W. McCormack, who said the medical care issue would be a "highlight of the campaign," separating progressives from reactionaries.

Strike Cripples N-Sub Building

11 Ships Affected as 8,700 Walk Off Job After Rejecting Pact

GROTON, Conn. (AP) — Construction of 11 nuclear submarines was tied up today by a strike of 8,700 production workers at General Dynamics' Electric Boat Division.

The walkout began after the union workers rejected the company offer of a two-year contract providing an additional 14 cents an hour in pay and improved fringe benefits.

The pioneer in its field, the shipyard has built 11 of the Navy's 24 commissioned nuclear submarines, including the world's first, the Nautilus.

Federal and state mediators scheduled a meeting today in an effort to bring about a quick settlement.

IN CRAFT UNIONS
 Involved in the dispute are 11 AELCIO craft unions who negotiate together as the Metal Trades Council of New London County.

The workers rejected management's latest offer Wednesday by a vote of 4,573-2,074, although it had been recommended by their negotiating committee.

The principal obstacle in the way of a settlement appears to be certain seniority provisions.

WOMEN CLASH WITH U.N. — A Katangan woman holds a United Nations officer by the shirt during a clash between the African women

and the U.N. troops at a roadblock in Elisabethville, capital city of the Congo Province.

Dies in Traffic Crash

VERMONTVILLE (AP) — Dean Hager, 28, of Vermontville, was killed yesterday after the farm tractor he was driving along an Eaton County road was struck by an auto.

One in 36 persons, or 5.4 million, are mentally retarded.

Transport Workers Accept Compromise

PHILADELPHIA (AP) — The President's council of the Transport Workers Union Railroad Division yesterday voted to accept a compromise agreement with the Pennsylvania Railroad.

The agreement provides for an increase of 10.28 cents hourly pay increase plus more than a dozen improvements in work rules.

national president, and Eugene V. Attreed, Railroad Division director, said the agreement "is the best possible under the circumstances."

Quill and Attreed said "an arrogant management — buttressed by a timid approach of the railroad craft unions in meekly accepting a paltry fact-finders' recommendation — forced the TWU to accept the compromise."

The \$7 million Lewistown-Queens-60 Bridge, being built by a steel company over the Niagara River, will have the world's largest hinge-less steel arch.

Dies of Crash Injuries

DOWAGIAC (AP) — A Dowagiac youth, Virgil Ridenour, 18, injured Tuesday in a Cass County traffic accident, died today.

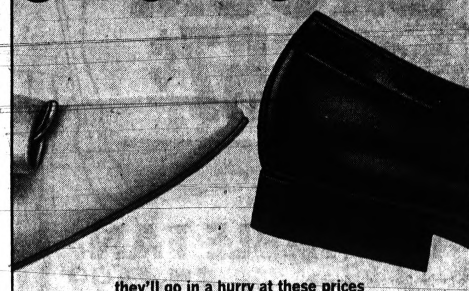

Inmate Had Weapons

JACKSON (AP) — A guard found a 4-pound blackjack and a 31-inch knife hidden on George Myers, 23, a Southern Michigan Prison inmate.

mate. Myers will face charges of carrying concealed weapons.

The Australian emu, a flightless bird related to the ostrich, is about five feet tall and a fast runner.

Invisible Mechanic in Gulf's New No-Nox constantly cleans your engine

Spark plugs! Valves! Carburetor! Combustion chambers! Everywhere New No-Nox* goes, it cleans. Think of it! Now there's a gasoline that not only powers your car but cleans the engine every mile you drive. This New No-Nox gasoline contains Agent 600—an amazing chemical discovery from Gulf that goes to work in your engine like an Invisible Mechanic. This Invisible Mechanic cleans in the carburetor, in the intake manifold, around valves. It neutralizes deposits on spark plugs, pistons, in combustion chambers. A cleaner engine saves you money on servicing and parts. It saves on gasoline. It runs smoother. It gives you full power for passing and climbing hills. So put Gulf's Invisible Mechanic to work in your engine. Fill up with the finest premium gasoline ever made—New No-Nox with Agent 600. GULF OIL CORPORATION

AP Photofax
OFF THE HOOK — William Bass, 37, a Chicago tourist, beams as he arrives at a Rome airport after his expulsion from Spain. He had been sentenced to a year in prison July 2 for tearing up a photo of Gen. Francisco Franco. He was expelled after 44 days in prison.

Aid Is Extended in Drought Area

N. J. Farmer Complains Despite Science 'They Can't Make It Rain'

By The Associated Press
As the federal government moved to extend its emergency drought program benefits to 47 counties in three northeastern states, a New Jersey farmer looked down on his six-inch tall corn and remarked:
"They can send men around the moon, but they can't make it rain."

The farmer, Edward W. Clucas, raised his hand to his chin to show how high the row of corn on his Hunterdon County farm should be by now.
Hunterdon is one of five counties in New Jersey to which Agriculture Secretary Orville L. Freeman extended federal drought program benefits Wednesday.

NAMED FOR AID
Freeman made similar declarations for 34 counties in New York and 13 additional in Pennsylvania. Last week he had extended this aid to 22 other counties of Pennsylvania. Three other counties in New Jersey were named for such aid previously.

Under the drought program, farmers in these counties will be permitted until Aug. 31 to graze livestock and cut hay on land set aside for the soil bank. The soil bank arrangement takes some land out of production to keep crops down and prices up. These farmers also become eligible for low-interest federal loans and can obtain livestock feed from surplus government stocks.

The New York counties designated for drought program help represent more than half of the state's 13½ million acres of farm land and comprise 38,000 of the state's 80,000 farms.

PROJECTED PATH OF MARINER 1—The chart shows the relative position of the Mariner 1 space craft during its planned 3½-month journey to within 10,000 miles of the planet Venus. The 446-pound space craft is set to be

launched aboard an Atlas-Agena B rocket from Cape Canaveral, Fla., on Saturday. Its schedule will take it past the sunny side of the cloud-veiled planet sometime in early December with time varying with the exact launch date.

U.S. Spaceship Is Readied to Investigate Planet Venus

CAPE CANAVERAL, Fla. (AP)—With a successful balloon shot in the record books, the nation's space agency now takes dead aim at Venus with an interplanetary spaceship scheduled for launching Saturday.

An Atlas-Agena B rocket is set to blast off before dawn Saturday to start a Mariner 1 space craft on a 226 million mile journey to probe mysteries of the cloud-shrouded neighboring planet.

PREPARE ROCKET
Scientists and technicians labored Wednesday to ready the rocket and payload as another group launched a 135-foot diameter balloon to a point 992 miles in space to test ejection and inflation techniques for an improved Echo communications satellite.

The balloon, folded in the nose of the Thor booster on launching, separated and inflated successfully at an altitude of 230 miles and soared upward to its planned trajectory peak before falling back to burn up in the Earth's atmosphere, as planned, 23 minutes after launching.

Project officials watched the inflation, flight and burnup of the giant sphere on closed circuit tel-

evision relayed from a camera mounted in the Thor nose.

The National Aeronautics and Space Administration reported complete success of the mission and said it plans to launch one of the 12-story spheres into orbit in the fall as an experimental passive communications satellite to be named Echo II.

The balloon, largest but not heaviest manned vehicle ever launched into space, is 25 feet taller and much more rigid than the Echo I balloon placed in orbit two years ago.

Echo II will help determine whether this passive type satellite or an active repeater type like Telstar is the most feasible for an operational space communications network.

In contrast with Wednesday's brief flight, Mariner 1 is intended to make a 4½-month journey across the vastness of space before flying close to Venus in early December.

NASA hopes to send the spaceship within 10,000 miles of Venus to unravel some of the secrets hidden beneath its thick cloud mantle.

PLENTY OF INSTRUMENTS
Mariner 1 is packed with instruments to measure temperatures and study composition of the Venusian atmosphere; to determine strength of the planet's magnetic field, and record high energy radiation, cosmic dust and the rate at which charged particles lose energy in that part of the universe.

The spacecraft will take similar readings as it races the millions of miles to its target, guided by precise on-board control systems that receive commands from the ground.

After passing Venus, Mariner 1 is to whirl into orbit about the sun.

VIET CONG WOUND GI IN HELICOPTER

SAIGON (AP)—An American crewman of a U.S. Army helicopter was wounded today by Communist gunfire 28 miles north of Saigon, military sources reported.

The helicopter, flying from Saigon to Ben Cat, was hit seven times by bullets but continued to the town on the fringe of the Communist-controlled zone.

The American, believed a sergeant, was struck in the arm but his wound reportedly was not serious. His name was not made known.

The helicopter was to participate in the second stage of "Operation Summer" in which government forces are trying to secure an area north of Ben Cat for resettling peasants into a fortified hamlet.

CREW SAFE IN CRASH — South Vietnamese soldiers stand by the wreckage of a Vietnamese Air Force twin-engine B-57 fighter-bomber which crash-landed in South Viet Nam's Ban Me

Thout area. The three-man U.S. crew was not injured. American crews regularly fly Vietnamese Air Force planes because of Viet Nam's severe shortage of trained pilots.

**63,811 Flee Algeria
1st 2 Weeks of July**

PARIS — A total of 63,811 European refugees arrived from Algeria in the first two weeks of July, a cabinet spokesman reported yesterday. The cabinet heard a report on the refugee question by Robert

Boulon, repatriation minister. The spokesman said that only 50,000 of the original 200,000 Europeans or Oran remain in the city, Algeria's second largest. Another 10,000 are preparing to leave.

Burma is the world's fifth largest producer of rice. Rice provides about half of all Burma's revenue and 75 per cent of its foreign exchange.

40,000 Americans Know

Public Enemy: the Door

CHICAGO (UPI)—The old joke about "running into a door" isn't funny anymore. As many as 40,000 Americans may be injured that way each year, the National Safety Council reported today. The problem of people of all ages walking through glass doors they thought were open has become so common that the Architectural Aluminum Manufacturers Association asked the safety council to find a solution.

We just can't believe the story (or a coffee break. . . . Women field today. It's obvious they're going around now that when Scott like silent men; they think they're obeying the well-known rule: New Carpenter disappeared for those listening. . . . With all those get advice — SELL IT! For 35 minutes, he'd merely gone out counselors counseling in every Wilson

DAVIS, CRAWFORD TEAM UP — Actresses Bette Davis and Joan Crawford pose in Hollywood as they start work as co-stars in a movie named "What Ever Happened to Baby Jane?" It's the first time the two stars have worked in the same picture. They're cast as sisters in the movie.

Garbage Cans Added to List of Weapons

LOUISVILLE, Ky. (AP) — Add the garbage can to the list of dangerous weapons.

Clint Smith paid a \$25 fine for using one on his father-in-law.

Freese's Loss Has Hurt Reds

Cinci Manager Admits Club Needs Booming Bat of Infielder

CINCINNATI (AP) — Cincinnati Manager Fred Hutchinson is resigned to the fact there is little chance of getting help this year from the booming bat of injured third baseman Gene Freese.

Freese was a key figure in the Cincinnati Reds' 1961 National League pennant drive.

Freese still has hopes, however, of seeing some action with the Reds, currently fifth in the National League.

Freese, who has been on the disabled list since March 18, suffered a broken right ankle in an intra-squad spring training game in Tampa, Fla., on March 5. Last year Freese hit 26 home runs and drove in 87 runs while batting .277 in 152 games. Veterans Eddie Kasko and Don Zimmerman have filled in ably at third this year but neither has the long ball hitting power of Freese.

Freese, concerned about the ankle which also had been broken a few years earlier, has been running, betting and trying everything possible to work out the stiffness in the foot.

State Doctor to Confer in Germany on New Drug

GRAND RAPIDS (AP) — A Grand Rapids physician, Dr. Charles H. Frantz, has received an Easter Seal Foundation grant to visit Germany for conferences on the effects of thalidomide, a tranquilizer, on children.

Thalidomide recently was found to have serious birth defects on children whose mothers took the pills during pregnancy. Dr. Frantz will visit Hamburg, Munich, Bonn and Kiel.

WHO'S THE STRANGER — Seven-month-old David Nunnally turns away from his father, Sam Nunnally, and seeks the familiar arms of his mother. The scene took place Tuesday at the San Diego, Calif., Naval Station as the destroyer Tingey returned from the Western Pacific after an absence of nine months.

Georgia Police Brace for More Integration Tries

ALBANY, Ga. (AP)—Police braced today for more desegregation moves after reports of Negro youths tried to crack Albany's racial barriers on a series of fronts.

Eighty Negroes attempted to gain entrance Wednesday to the city's new swimming pool, tennis center and tennis courts after 40 others had staged sit-ins at five lunch counters.

Police ordered the Negroes to leave the park immediately or go to jail. They left, but one youth was arrested in connection with a burglary. He was identified as James Knighton, 19, alias James Knight.

When the demonstrators, in teams of eight, sat down at lunch counters in three drugstores and two variety stores, the counters were closed.

3 Sentenced to Jail for Road Sign Deals

RALEIGH, N.C. (AP)—Judge Raymond Mallard yesterday sentenced Raleigh businessman Kidd Brewer, 52, and former State Highway Engineer Robert A. Burch, 54, to prison sentences of 18 months on charges of influence peddling in highway sign purchases.

Burch's son, Robert M. Burch, 22, was sentenced to 12 months and ordered to pay a fine of \$2,500 and court costs.

Judge Mallard said Brewer and the two Burches had "fallen to the lust for money... politics has no place in the case. This is a question of misconduct."

California's annual rainfall ranges from an average of three inches in the southeast deserts to 100 inches in the north coast rain forests.

MADE FOR BARBECUES — Rock lobster tails make a barbecue meal. This picture shows a summer meal, taken doors: Barbecued South African rock lobster tails, a green salad, French bread. Dessert? A big bowl of fresh blueberries.

They Can't Tell It's Avocado

You'll please the most discriminating dinner guests when you begin the meal with "Sophisticated Soup." Its ingredients — chicken broth, clam juice, instant minced onion, salt and pureed avocado — combine to make this a true party soup.

You can prepare it in about 15 minutes, thanks to such convenience items as instant minced onion. No peeling, slicing or chopping is needed for this onion. Simply use it straight from the container to get all the fresh onion flavor required for your favorite soups, salads and main dishes.

Sophisticated Soup

- 2 cups chicken broth or consommé
 - 1 can (9 oz.) clam juice
 - 1 tablespoon instant minced onion
 - 1/2 teaspoon salt
 - 1 avocado
- Combine chicken broth, clam juice, onion and salt; simmer 15 minutes. Cut avocado into halves, remove seed and skin. Slice fruit or puree in blender, adding hot broth gradually. Mix until smooth. Serve in soup bowls with a garnish of whipped cream and chopped almonds if desired. Makes 4 servings.

No End to Delights Ice Cream Gives

Ice cream and ice milk are talented performers for quick, sure to please delights. The youngsters will love a clown cone. Arrange a "collar" of cookie halves around the edge of each plate. Place scoop of ice cream or ice milk in center. Top with sugar cone "hat." Insert candies or nuts to make clown's facial features.

More sophisticated folks enjoy sundae sauces to top and glorify their ice cream and ice milk. Chocolate syrup, marshmallow creme, chopped and toasted nuts, fresh crushed berries and concentrated fruit juices are just a few sundae-bound favorites.

For the gourmet touch serve ice cream splits in edible boats. Prepare merguez in canoe shapes. Cool and fill with assorted flavors of ice cream or ice milk, plus sliced bananas, pineapple spears, peach slices, whole berries and sweet pitted cherries. Drizzle with chocolate and pineapple sauces, add a sprinkling of chopped nuts and a whipped cream puff.

Little Preparation Needed With Rock Lobster Tails

It's been said that rock lobster tails make a barbecue. They're colorful, exciting, different, fun.

But it would almost seem that rock lobster tails were made by Nature just for barbecue. Nothing else comes to the grill neatly packaged in individual servings, designed by nature, with rock lobster tails there is no advance preparation, except degreasing. And they come out perfectly every time no matter how hot or how not to hot the fire is. The only thing to remember is that they're finished exactly at the moment the meat becomes opaque.

Where you come in on this is in the eating — and in the eating. So much discussion, always, of what is right for barbecued South African rock lobster tails. The flavor of the meat itself is so delightful, and so delicately elegant, that many insist just butter does the trick. Some purists hold, simply, to lemon. Others want the barbecue flavor, or a mayonnaise dip arrangement. You pay your money and takes your choice. It's happy eating no matter what.

Barbecued Rock Lobster

Thaw South African rock lobster tails. With kitchen shears, cut edges of this underside membrane and remove. Grasp each tail by both hands and bend backwards very firmly to crack shell in several places.

Arrange tails in broiling basket, or directly on grill, shell-side up. Grill for 5 minutes. Turn, and grill until white rock lobster meat becomes opaque — from 5 to 10 minutes, depending upon heat of coals. If desired, meat side may be basted with sauce before grilling. Use remainder for dunking.

Seasoned Oil and Vinegar Sauce

- 1/4 pound butter, melted
- 1/4 cup lemon juice
- 1 teaspoon grated lemon rind
- 1/4 teaspoon salt
- Combine all ingredients. Use to baste rock lobster during grilling. Remove for dunking.

Mayonnaise Sauce

- 1/4 cup mayonnaise
- 1/4 cup chili sauce
- 1/4 cup lemon juice
- 1 teaspoon grated onion
- Salt and pepper to taste
- Combine all ingredients and blend thoroughly.

Mold Clear Coffee Jelly in Demitasse Cups

A cup of coffee jelly, molded in regular or demitasse cups, is a refreshing snack or dessert on a hot summer's day.

In a saucepan, mix 1 envelope of unflavored gelatin with 1/4 cup of sugar, 2 tablespoons of instant coffee and 1/4 teaspoon of salt. Add 1/4 cup of water. Stir constantly over low heat until gelatin and sugar dissolve. Remove from heat. Add 1 1/4 cups of cold water, turn into cups and chill about 2 hours, or until firm.

Beer Will Make a Basting Sauce

Amber Liquid Gives Subtle Unusual Flavor to Barbecue Coating

Be original, be different — barbecue turkey with a savory sauce tinged with beer or ale. The refreshing beverages have other delicious uses besides their prime job of satisfying your thirst; they are a marvelous flavoring ingredient in barbecue sauces for meat or fowl.

Beer or ale adds subtle flavor in the following recipe for a turkey barbecue sauce which includes salad oil, salt, pepper, catchup and the herbal touch of basil.

Buy small (3 1/2 to 6 pounds) ready-to-cook turkey, cut into pieces. Remove wing tips if desired. Place turkey pieces, skin side up, over glowing coals on greased grill. Grill slowly, turning with tongs and basting with Turkey Barbecue Sauce, about 45 minutes or until tender. When turkey is done, knife cuts easily into thick part of leg.

Turkey Barbecue Sauce
1/2 cup salad oil
1/4 cup beer or ale
2 teaspoons salt
1/4 teaspoon pepper
1/4 cup catchup
2 teaspoons basil

Combine salad oil, beer, salt, pepper, catchup and basil. Beat or shake well. Brush on turkey several times during cooking on the grill. Yield: About 1 1/2 cups.

Note: Turkey may also be cooked in moderate broiler (350 degrees F.), 7 to 8 inches from heat, basting frequently with barbecue sauce.

Fresh Vegetables

For economy's sake, there is a continuing trend toward eliminating shipment of waste parts of fresh vegetables, such as carrot tops, radish tops, cauliflower jackets, celery tops and inedible parts of greens. There is also a trend toward shipping only the better quality vegetables to the fresh market. Such practices tend to give the consumer the most nutrients for the money.

TEMPTING SALAD — Make a round of tuna go round salad... for cool comfort on a warm day. Rings of diced tomatoes, shredded cabbage and cucumber slices surround the tuna, and a bowl of green dressing, aromatic with fresh herbs, adds summer sprightliness.

Mound Tuna Fish Salad in Cabbage Wreath

When you feel like having a cool dinner on a warm day, try a Tuna Go Round Salad. The salad, as cool to make as to eat, is heartier than it looks or tastes — just the thing for summer. And its alluring, cooling rings of dark and light color, with the pale tuna mounded high in the center, look inviting at table. To top it all, there's a tempting green dressing.

Tuna Go Round Salad pulls it all together. The tuna, cucumber, and onion slices, with the shredded cabbage instead. The crispness of raw cabbage is especially welcome on a warm day, and cabbage offers a good vitamin C boost, too.

Start by lining your salad bowl with the cabbage, then add the border of cooling cucumber slices — leave the peel on the cucumber for extra color. The tuna goes in the middle, surrounded by an inner circle of diced tomatoes.

The green dressing gives the salad delicious distinction. Get fresh dill, if you can; its flavor is unique. Chives add a tasty nip to the mayonnaise and lemon juice mixture, and chopped parsley performs its usual good offices.

Tuna Go Round Salad
1 small head cabbage, shredded
1 cucumber, sliced

2 cans (6 1/2 or 7 ounces each) tuna in vegetable oil
3 tomatoes, coarsely diced
3 carrots, shredded
Place cabbage in salad bowl; overlap cucumber slices vertically around cabbage to make border. Make a well in the center of cabbage and fill with tuna. Surround tuna with diced tomato. Sprinkle shredded carrots just inside cucumber border. Serve with Green Dressing. Yield: 6 servings.

Green Dressing
1 cup mayonnaise or salad dressing
2 tablespoons lemon juice
1/4 teaspoon salt
1/4 cup finely-chopped green pepper
2 tablespoons finely chopped parsley
2 tablespoons chopped chives
1 tablespoon finely chopped fresh dill

Blend together mayonnaise, lemon juice and salt. Stir in green pepper, parsley, chives and dill. Yield: 1 1/4 cups.

About 225,000 Americans a year die of strokes. An estimated 800,000 Americans, having had one stroke or more, are potential candidates for a fatal one.

Individual Salads Made With Salmon

This is a quick salmon lunch that never fails to please the men.

MISTEN SALAD
Small (7 1/2 ounce) cans salmon (1 for each 2 servings)
1 head romaine (or watercress)
Coarsely ground pepper
Large sweet onion
Good wine vinegar

Wash and shred the head of romaine finely and make a bed of the romaine on a cold serving platter. Open the cans of salmon, drain, and turn out onto bed of romaine. Slice the onion thinly and separate into rings. Garnish the salmon with onion rings and sprinkle with the coarsely ground pepper.

Raspberry Glaze Tops Open-face Peach Tart

The ancient Chinese enjoyed the delicately flavored peach over 2,000 years ago. Today this age-old favorite is enjoyed in a new and delightful dessert—Raspberry Glaze Peach Tarts.

Luscious, juicy sliced peaches are nestled in a tender, melt-in-your-mouth crust made the good and easy way with biscuit mix. Raspberry Glaze crowns the tarts with glistening, jewel-like splendor. When chilled, the tarts slice easily for serving and are a handsome, taste-tempting topper to any summer menu.

This divine dessert, fashioned in modern style of the age-old

favorite peaches, will rate raves for the cook.

Raspberry Glaze Peach Tarts
2 cups biscuit mix
1/2 cup soft butter
1/4 cup plus 2 teaspoons boiling water
2 teaspoons sugar
Fresh or frozen (thawed) peaches (two 12-oz. pkgs.)
Raspberry Glaze (below)

Heat oven to 425 degrees (hot). Blend biscuit mix and butter in a bowl. Add boiling water and stir vigorously with fork until dough forms ball and clumps. Place on baking sheet.

Divide into 3 parts and shape into "3's" oval. "Flute edge." Sprinkle each with 1 tablespoon sugar. Bake 10 to 12 minutes. (Make Raspberry Glaze while the tarts are baking.) Cool on baking sheet.

Remove carefully into two serving dishes. Top with peaches. Spread with cooled Raspberry Glaze. Refrigerate until firm, about 2 hours. Cut crosswise into serving pieces. 8 servings.

Raspberry Glaze
Simmer 1 pkg. (10 oz.) frozen raspberries* and 1/2 cup water for 3 minutes. Blend in mixture of 1/2 cup sugar, 1/2 cup water and 3 tablespoons cornstarch. Boil 1 minute, stirring constantly. Cool.
*Fresh raspberries may be used

(1 cup) but increase sugar to 1 cup.
Success Tip: Flour hands while shaping tart ovals—dough is soft.

Many Are the Ways With Hot Dogs

VIENNA LOAF FRANKFURTERS — Hot dogs or frankfurters (they're the same thing) stick out of a loaf of Vienna bread like wagon spokes. Hot cheese sauce blankets the sand-

wich. Guests pull their own portions from the

loaf. This is just one way to serve hot dogs and celebrate Hot Dog Month.

By JANET ODELL,

Pontiac Press Home Editor

Do children still say, "Hot Dog" when they are pleased or excited about something? Whether you use the term as an exclamation of delight or to designate what you want to eat, it's a happy term.

If you're the average American, you'll eat 72 hot dogs this year. In a country we'll consume about 15 billion frankfurters in 1962.

Although the origin of the hot dog is not clear, it is now a typically American food. Most youngsters get their first taste of the door-dog with hot dogs on a stick. Of course, they burn them! From that form of cooking, hot dogs climb the ladder to the highest spot. Even royalty have dined on them.

Hot dogs are one of the safest foods you can take on a picnic. First of all, they are thoroughly cooked and won't hurt anyone, even if eaten raw. If they are thoroughly chilled beforehand, they're safe. Of course, they burn them! From that form of cooking, hot dogs climb the ladder to the highest spot. Even royalty have dined on them.

move from heat. Add red color as needed to make sauce as attractive red. Remove garlic and cloves. Stir in wine. Keep warm for serving.

Thread wiener or frank places and the fruits as desired onto long skewers. Brush lightly with melted butter. Heat and brown franks and fruit over low glowing coals on hibachi or broiler or heat in oven broiler. Serve on hot buttered, seasoned thin noodles. Spoon sauce as desired, over all. Yield: 5-6 servings.

Barbecued hot dogs can be served from the simplest pot on the outdoor grill or from your prized chafing dish. Fluffy hot rice is the perfect go-with. This is a recipe to appeal to teenagers. Hokey for hot dogs.

Barbecued Franks Over Rice
4 cups cooked rice
1 can (12 oz.) tomato sauce
1 cup water
1 medium onion, finely chopped
1/2 cup chopped celery
2 tablespoons brown sugar
2 tablespoons prepared mustard
1 tablespoon Worcestershire sauce
1 teaspoon liquid smoke
2 pounds franks, sliced diagonally in 1-inch pieces
Prepare rice according to package directions.

Combine remaining ingredients except franks in a saucepan. Cover; simmer slowly until onion and celery are tender, about 30 minutes. Add franks and continue cooking 15 minutes more.

Serve over beds of hot fluffy rice. Makes 6 servings.

Vegetable Oils Handy to Use

Shortening Substitute Enricher for Sauces Help in Salad Mold

If your recipe book contains space for "tips," here are a few on vegetable fats and oils you'll want to enter. They're from the U.S. Department of Agriculture which reminds us how plentiful vegetable fats and oils are right now.

—Vegetable oils can be used interchangeably, measure for measure, as the shortening in such foods as waffles, muffins and cornbread.

If you prize the bright red color of fresh meat — one way to swamp platters and attract farmers on the reclaimed land.

Biscuit Snails Get Brush of Honey

Here's a honey of a treat for breakfast-time treat—little Biscuit Snails. For 24 biscuits, sift together 2 cups sifted enriched flour, 1 tablespoon baking powder and 1 teaspoon salt. Cut or rub in 1/4 cup shortening until mixture is crumbly. Stir in 1/2 cup milk. If necessary, add enough more milk to make a soft dough.

Turn out on lightly floured board or pastry cloth and knead gently 30 seconds. Roll out into an 8-inch square about 1/4-inch thick. Cut into 24 strips. On ungreased baking sheet coil each strip to form "snails," sealing edges well.

Brush biscuits with 3 tablespoons honey and sprinkle with 2 tablespoons chopped nuts. Bake in hot oven (450 degrees) 10 to 12 minutes. Serve hot.

Discover the old-time goodness in Silvercup

In the old days, Silvercup bread was known for natural goodness, flavor and aroma. It still is.

The bakers of Silvercup use more pure whole milk than all other bread bakers in your area combined. Silvercup is made with the finest natural ingredients... kneaded like old time homemade bread... and baked slowly and carefully. What's more, it contains no chemical preservatives.

Many breads look alike, but there is a difference. In Silvercup, the difference is old-time goodness. Yet Silvercup costs no more than ordinary bread.

Buy Silvercup. Taste the difference old-time goodness makes in every flavor filled bite.

Silvercup... the world's finest bread and buns... naturally

Parents of Bride Must Pay

By the Emily Post Institute

Q: I am going to be married soon. My mother is a widow and we are in very limited circumstances. I planned on having a very small reception but my fiance's mother is insisting upon a large reception, as she has many friends and relatives who she says must be invited.

She said that she would be willing to pay the expense of all the guests she intends to invite. Would it be proper to let her do this?

A: I'm sorry, but it would not be proper. No matter how small or simple a wedding reception may have to be, the bride's parents are the hosts and the bridegroom's parents do not share the expenses any more than any of the other guests.

They may, of course, give as large and elaborate a reception as they wish to welcome their son and his bride back from their honeymoon.

Q: It is necessary to send thank-you cards to everyone who called at the funeral home and signed the register? I have already written to those who sent flowers and had masses offered, but I did not write to these others.

A: It is not necessary to write to anyone except those who wrote long personal letters, sent flowers or had masses offered.

Q: Yesterday was my birthday and I received quite a few birthday cards. One card has a handkerchief (a very pretty one) enclosed in it.

I would like to know if it is necessary to write a thank-you note to the friend who sent it. My mother says I should but I hardly think a thank-you note is necessary for a single handkerchief. What is your opinion?

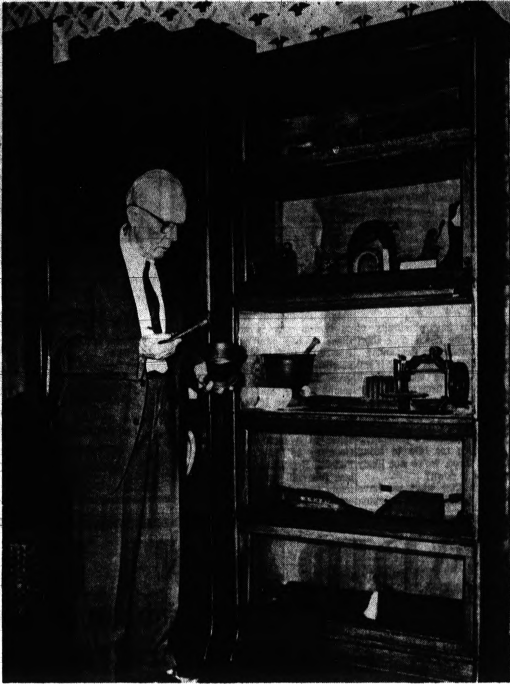

A: A present, whether it be one of great value or a mere trifle, must be thanked for.

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

'Neighbors' Group Hold Annual Picnic

The Northdale Neighbors Club of North Perry Street and their families, met at Oakland Park Monday evening for their annual picnic.

Approximately 50 adults and children chose from the large selection of foods brought by the members.

Pontiac Press Photos

Pharmacy houses in the 19th century used mortars and pestles similar to those John Linabury of East Iroquois Road displayed during Wednesday's tour of the Wisner home on Oakland Avenue.

This was the first regularly scheduled tour of the historical home. Members of the Oakland County Historical Foundation will conduct these tours weekly, 2:30 to 5:30 p.m.

Officers Announced

Bar Assn. Wives Meet

Officers for the Auxiliary to the Oakland County Bar Association were announced at a recent luncheon meeting of the board of directors in the home of Mrs. Clark J. Adams on West Walton Boulevard.

Mrs. Cecil McCallum is president-elect; Mrs. Douglas W. Booth, Bloomfield Hills, recording secretary; Mrs. C. Bryan Kinney, treasurer; Mrs. William B. Hartman, auditor; Mrs. George H. Cary, Bloomfield Hills, parliamentarian; Mrs. Forbes Hascall, Birmingham, historian; Mrs. Howard

I. Bond, Farmington and Mrs. Arthur E. Moore, Royal Oak, are directors.

Committee chairmen include Mrs. Philip E. Rowston, also Mrs. Donald E. Adams, Drayton Plains, program; Mrs. Gene Schmelz, Walled Lake, membership; Mrs. H. Russell Holland and Mrs. Jerome Muligan, hospitality; Mrs. Vern C. Thompson, Bloomfield Hills, and Mrs. Harold E. Howlett, house; Mrs. McCallum, publicity; Mrs. Jack Hutson, Royal Oak and Mrs. Joseph

Kosik, Rochester, public relations; Mrs. John McGrath, telephone.

Mrs. Richard D. Kuhn is chairman of lawyer referral service; Mrs. Robert Anderson, with Mrs. Donald Miller, Royal Oak, ways and means. Serving as delegates to the Michigan Association of Lawyers' Wives will be Mrs. David C. Pence, Farmdale, Mrs. Moore and Mrs. Bond.

Auxiliary meetings will be resumed beginning Oct. 3 with husbands as dinner guests early in December.

Wives of members of the Oakland County Bar Association are eligible for active membership and wives of non-members living in Oakland County may apply for associate membership.

Zonta Club 'Sew' Busy for Fair

Sewing machines hummed Tuesday evening in the home of the president, Mrs. Hiram H. Smith of Edgemoor Drive, Waterford Township, when the Zonta Club of Pontiac held a workshop in preparation for its annual fall fair.

A fine array of sofa pillows, washable stuffed dolls and toy animals, slippers, aprons and other articles was completed for the Oct. 21 affair in the first Federal Savings and Loan Association of Oakland Building.

Portable sewing machines travel to these workshops and knitting needles and other sewing paraphernalia are standard equipment in Zontians' tool bags.

Members of this classified service organization of executive women in business and the professions devote generous amounts of their free time to civic and social welfare. International in scope, Zonta works for the advancement of understanding, good will and peace through a world fellowship of women united in the Zonta ideal of service.

SCHOLARSHIPS Zonta contributes to the scholarship fund of Michigan State University, Oakland, Camp Oakland for Boys, Girls' Ranch, the Young Women's Christian Association and other groups serving humanity.

Mrs. Smith and Mrs. Howard Brooks reported last week in New Orleans, "The merchants of the host city staged a 'peep' Mardi Gras 'Irish Ball' for the 800 Zontians present from all parts of the world. Mrs. Beecher Faircott is chairman of the Zonta Fair and Mrs. Earl L. Clark, co-chairman. Mrs. Neal J. Scott is in charge of the arts and crafts booth.

For Tours by Public

Wisner Home Is Opened

The Moses Wisner home was opened Wednesday for the first regularly scheduled tour conducted by members of the Oakland County Historical Foundation.

Previously, the 115-year-old structure on Oakland Avenue was opened only at intervals. This is the first time a regular schedule has been tried.

The public may view the past governor of Michigan's estate between the hours of 2:30-5:30 p.m. each Wednesday.

The committee in charge of the Wisner home interior has clung to its policy of using only furnishings of the 1840-1860 era.

Moses Wisner and his wife, Angelina Hascall, moved into their newly built home in the late 1840's. Many of the home's original furnishings are still intact. The parlor is exceptional among historical houses in having the original pieces preserved and still in use in that room.

There are other period pieces on display in the other rooms, supplemented by some fine gifts of the same era. Two new improvements are currently under way. Inside the remarkably well-preserved home, a small downstairs room is being remodeled into a powder room.

Outside, the root cellar is being renovated after the roof caved in, cluttering the interior. This is all being cleared out before volunteer nations undertake the rebuilding.

Another improvement adding to the historical tone is the furnishing of a small playroom with dolls and toys of the times. A wire fence has also been constructed to enclose the property on three sides.

All these improvements were executed through the generous gifts of clubs and interested parties.

The stroller set of the 1840 to 1860 era received its daily dose of fresh air in such quaint little surreys with the fringe on top. Many original furnishings in the Wisner home were explained

by Mrs. Whitney Prall of Henderson Street to the persons visiting the Oakland Avenue residence Wednesday afternoon.

This impressive piece of furniture craftsmanship dates back to about 1850. Miss Adah Shelly of Washington Street, a member of the Oakland

County Historical Foundation, informs the members of her group touring the Wisner home on Oakland Avenue Wednesday afternoon.

Don't Fear Tantrums

Combat Child's Jealousy Now

DEAR ABBY: My daughter isn't even 2 yet but she is as smart as a whip. I can't even put my arms around my husband without her screaming and crying and she doesn't stop until he shows HER some affection. She doesn't even want us in a room together without her. If she hears that he's in the house, she kicks up a fuss until he goes to her.

How can we discourage jealousy in a child her age? Or is it natural and harmless? YOUNG MOTHER

DEAR MOTHER: It may be natural, but it's not harmless. Be sure the child gets plenty of affection (from both of you), but don't refrain from showing affection to one another in her presence for fear she'll have a tantrum. Let her know that Daddy

loves Mamma, too; or you'll be shopping around for a psychiatrist with a junior-sized couch.

DEAR ABBY: While visiting some old friends of my husband's in his home town, one of the women said something about Albert's "second wife."

I thought I was his second wife, but I didn't act surprised. When we got home I mentioned it to Albert and he said he never told me about his last two wives because they didn't play a very important part in his life.

Wife Number Two, I later learned, was married to him for three years and Wife Number Three for nine! They both divorced him. I am Wife Number Four, but was told I was Wife Number Two. What would you do?

I am beginning to wonder what kind of man I married. Can an annulment be effected 10 months after a marriage?

DECEIVED: The length of time one has been married has no bearing on

whether an annulment is possible in certain circumstances. See a lawyer for legal advice and talk to your clergyman for honest and intelligent counsel.

DEAR ABBY: My wife and I want you to settle something. We were invited to the home of one of her bridge friends for dinner.

Unfortunately the woman was a TERRIBLE cook. Her main course was a miserable, highly seasoned mess of something. I have a very sensitive stomach and one taste was enough for me.

Meanwhile, my wife was looking daggers at me. When we got home she let me have it. She said I should have choked it down to spare the hostess' feelings. Was she right?

SENSITIVE STOMACH: DEAR SENSITIVE: You could have innocently "rearranged" the mess a little and made a pretense of eating it. But I can't blame you for not choking it down. You might have choked, period.

Reunions and Births in the Area

Gumery Sgt. and Mrs. Freeman W. Stuart and children Cindy and John are visiting with his parents, the Freeman A. Stuarts of East Beverly Avenue.

Joining them at a family gathering were Sgt. Stuart's brother and sister-in-law, the Robert Stuarts of East Mansfield Avenue and their children Jeffrey, Scott and Matthew. On completion of his current leave, Sgt. Stuart will report to the U. S. Marine Corps, Camp Lejeune, N. C.

The John H. Vanderlinds of Littlefield Street, West Bloomfield Township, (Martha Turpen) announce the birth of twin sons, Edward Arles and Jay Allen, June 25, in Pontiac General Hospital.

Grandparents of the twins are Mr. and Mrs. Norman N. Turpen, Clarksville, Ga., and the Edward K. Vanderlinds of South Johnson Avenue.

A family gathering Sunday at the home of the L. L. Echlinns of Hatchery Road, Williams Lake, honored Rev. and Mrs. Percy Miller of Plainfield, Iowa, and Mrs. Farin Hilton of Lakecrest Road, Waterford Township, who was celebrating her birthday.

Others present were Mildred Chamberlain, Cleveland, Ohio; Mrs. Charles Hodge, Reading; the Hubert Hiltons of Ovid; the Page Hiltons, Saginaw; the Warrn Courtneys, Ann Arbor; the Raymond Echlinns and children Maureen, Ralph and Wayne of Rochester.

Local guests included the Paul Osbornes and sons Mark and Christopher; Mrs. L. L. Dunlap and Carolyn Dunlap; Mrs. Irving Chamberlain and daughter Jean, Mrs. Etta Hilber and Agnes Hilson.

Mrs. Edwin Ontberg, neighbor of the hosts, presented a cake to Mrs. Hilson.

Mr. and Mrs. W. E. Beattie Jr. (Barbara Neubauer) announce the birth of their son, William Elliott D. Monday in Salt Lake City, Utah.

Maternal grandparents are Mr. and Mrs. J. D. Neubauer of Louisville, Ky. Paternal grandparents are Mr. and Mrs. W. E. Beattie of West Iroquois Road.

Mr. and Mrs. Lawrence R. Quinn of Warren, announce the birth of a son, Nicholas Timko on July 5. Grandparents are Mr. and Mrs. Nicholas Timko of Bloomfield Hills and Mr. and Mrs. Lawrence E. Quinn of Birmingham.

Mr. and Mrs. Robert Curtis (Patrick Killian) announce the birth of a son, Michael Steven, born on July 6. Grandparents are Mr. and Mrs. Harry Killian of Lincoln Avenue and Mr. and Mrs. John Curtis of Livonia.

65 Per Cent Queried Looked for Jobs

Teen Folks Prefer Summer Job to Loafing

By EUGENE GIBERT
President, Gilbert Youth
Research Co., Inc.

Critics can cry about America's youth being soft, but most teenagers want to spend their summers working rather than lying around a beach.

We have just finished a nationwide survey of more than 1,200 teenagers, and 65 per cent of them said they looked for summer jobs. A healthy 73 per cent of those seeking employment found it.

As would be expected, more boys (75 per cent) than girls (51 per cent) said they pounded the pavement in search of work. The boys also had a better record of success than the girls — 76 per cent against 70 per cent.

Some of them (7 per cent) started looking as early as January, but April is the first month they turned out in numbers (19 per cent) to find employment. May was the peak month with 28 per cent knocking on doors; by June only 11 per cent were looking. About 16 per cent slipped back into their 1961 summer spots.

As for spending their earnings, said Rochelle C. Strickland, 17, of Dunbar, W. Va.: "I'm going to spend it on my girl friend."

THRIFTY HABITS

Then there's a lad — Dick Hindman, 13, of Glenwood, Iowa — who will use his funds for horse feed, and another, from Pennsylvania, who is saving for a radio tower.

Some boys and girls said they intended putting their money into investments or insurance, to bolster the family budget, or into savings for college.

Do their jobs have anything to do with the youths' planned life's work?

Yes, said Doris Griffiths, 15, of Pacific Junction, Iowa. "Baby sitting will teach me how to handle my children better."

No, countered Ronny Wheately, 17, of Indianapolis, Ind. "I don't plan to cut pizza all my life." But pizza parlors notwithstanding, many were in places where they could get valuable experience: there's a young musician playing in a symphony orchestra, a violinist teaching violin, an as-

piring pharmacist working as a druggist's assistant.

NEED WORK?

More boys than girls — 66 per cent against 58 per cent — seem

Auxiliary Discusses Program

The Pontiac Junior Chamber of Commerce Auxiliary discussed a tentative program for the coming year, following a picnic dinner Wednesday at the Clarkson home of Mrs. Raymond Harris.

Under the leadership of Mrs. Irving Merkowitz, coordinator, the group will assist at an exhibition football game sponsored by the Junior Chamber of Commerce, Aug. 4 at Warner Stadium.

Committee chairmen named include Mrs. Harris, telephone; Mrs. Cramer Partridge and Mrs. Clyde Haskell, social; Mrs. E. W. Watchpocket and Mrs. Richard Jorgensen, assistants to the Junior Chamber; Mrs. Donald E. Allen, program and publicity; Mrs. Thomas Roe, reporter.

A dinner meeting is scheduled for Aug. 1 at Rutunda Inn.

Newman Units Set Day of Fun

The Newman A. M. E. Church has scheduled a day of fun Saturday at the new site for the church located on the corner of Bagley and Brush streets. The event is open to the public.

All the auxiliaries of the church are participating. There will be games, a barbecue, baked goods and a fish fry.

The climax will be at 7:30 Saturday night when the Senior Choir and Glee Club will present the Burnadette Gospel Singers of Detroit in an "Evening of Song," featuring Mrs. Magnolia W. Atkinson, formerly of the Clara Ward Sing-

to like tolling through the hot summer months.

But there were a few from both sexes who thought the whole thing pretty silly.

"After working at school I deserve a rest," said one Pennsylvania youth. He had company — teenagers across the country who said summer is too hot to work, and they'd rather have fun.

"I'd rather go to the beach," said Lois Ogulnick, 16, of Oceanside, N. Y.

And there's the 15-year-old Detroit boy who stated: "Who needs work with welfare or unemployment compensation?"

But these are in the minority.

"You make your own money and don't have to ask for money from your parents," said 15-year-old Russell Mirabella of Pensacola, Fla., explaining his yes for a job.

More than a third of those who said they had not yet tried for a summer job indicated their plans to start — most of them before the end of June. But a few, apparently wanting to sample a little vacation time before buckling down to work, planned to wait until July, and even August.

Boys expected larger salaries

than girls, although only 4 per cent said they looked for more than \$60 a week, and none hired by the hour expected to go above \$2.

BUY CLOTHES

Only 2 per cent of the girls were expecting more than \$60, but a few optimistic ones said they could run above the \$2 an hour figure.

Clothes-conscious girls, as might be expected, will pour a lot of their hard earned money into their wardrobe closets. But some money also will go for college.

No clothes purchases for the boys. Their extra funds will go for cars — and doubtless a lot of it will be enjoyed by their girls.

Youth Groups Have a Party

Two youth groups of B'nai Israel and Temple Beth Jacob cooperated for a swimming, picnicking, and dancing get-together Saturday.

The purpose of this affair was to initiate first year members and to promote relations between the two groups.

Highlighting the entertainment was a performance by a folk group known as the Internationals. Songs from all over the world as well as an original humorous skit were performed by members, Ken Anchor, Dale Ackerman, Jack Bleinstein, accompanied by Marvin Davidson.

Always Protect

When washing costume jewelry, spread a thick towel over the edge of the basin to protect your valuables against scratching, chipping — and slipping.

His Wife Is Starved

Love a Powerful Hunger

By DR. GEORGE W. CRANE
CASE M468: Janice K., aged
33, is the active church mem-
ber whom her clergyman de-
scribed to me yesterday.

"I married
a man ten
years my
senior," she
confessed to
me later when
I had a chance
to interview
her privately.

"I was only
16. My par-
ent's forced
me into the
marriage. I
didn't love the
man. But they
thought he was
a good catch,
for he had money
and came from
an influential family.

"Well, I tried to be a good
wife to him, but he was never
affectionate. And he has never
to this day given me a penny to
spend!

"I have raised chickens and
sold them as a means of ob-
taining money for my clothes.
"When I asked him to go to
church with me, he said re-
ligion was the bunk. After
staying at home five years, I
finally decided to go to church,
even if I must attend without
him.

WHY CHEAT?

"Without the church activi-
ties and friendships, I think I
would have gone crazy long
ago.

"For the last six years, my
husband hasn't shown me one
bit of affection.

"He has always been cold,
but these past six years he
hasn't even kissed me. And
he doesn't want any children,
so I have nobody at home from
whom to receive love and af-
fection.

"Dr. Crane, a woman grows
as hungry for affection and
companionship as she does for
food. I don't mean sex, neces-
sarily, but I do mean a kiss or
other little evidences of inter-
est and admiration.

'INTOXICATION'

"A few months ago I met a
man from a neighboring town
to whom I felt greatly at-
tracted. He must have experi-
enced the same reaction, for
he paid special attention to me,
and asked for a date.

"I refused, though I confess
I was sorely tempted. But a
few weeks later he was driving
along the street in his car and
overtook me. He asked me to

get in and he'd take me where
I wanted to go.

"But he drove around the
country, instead, and parked
along a country road. Then he
kissed me. I protested, but he
kissed me again.

"I was emotionally intox-
icated. That's the only way I
can explain it, for I didn't pro-
test anymore. When he brought
me home, I told him not to see
me again, for I knew I couldn't
stand it to be near him."

DIAGNOSIS

"Time and again I have
warned you readers that the
best way to prevent an unfair
strain upon ethics, is to see

that human beings are legiti-
mately enabled to obtain the
foods which they instinctively
crave.

The gastric appetite is the
basic hunger, including water
and foodstuff. It is relatively
futile to preach honesty to peo-
ple whose stomachs are gnaw-
ing ravenously for food.

Love or affection is the sec-
ond most powerful hunger of
mankind. Many a husband is
literally starving his wife in
this regard, and an emotional
hunger can drive its victim into
immorality.

If he starved his horse or
cow for corn or hay, the Hu-
mane Society would get after

him, and his neighbors would
quickly ostracize him.

But he can starve his wife
(and often his children) for
affection, words of praise and
other evidences of interest,
with apparent impunity.

Men grow so worried over
dread of impotence that they
become self-centered after the
age of 40, and may omit the
kisses or social amenities
which their wives and children
crave. But read what Janice's
husband has to say for himself
tomorrow.

Always write to Dr. George W.
Crane in care of The Pontiac Press,
Pontiac, Michigan, enclosing a long
detailed stamped, self-addressed envel-
ope and 25 cents to cover typing and
printing cost when you send for his
psychological charts and pamphlets.

Boarding the special train to take them to the 1962 Girl Scout Senior Roundup in Button Bay, Vt., are representatives from North Oakland County. They will join the 10,000 Scouts from all over the country at the encampment on the shores of Lake Champlain from today through July 31. The Scouts are (left to right), Merrily

Weber of Windiate Drive, Waterford Township; Kathy Stoutenburg, and Ann Aldrich, both of Rochester; Sandra Bragen of Auburn Heights; Sue Ashbaugh of Ortonville; Jane Tripp of Voorheis Road, Waterford Township; Rosaleen Taunt of Silver Lake Road; and Leslie Seiss of Hillcrest Drive.

Eight to Join 10,000 at Event in Vermont

Area Girl Scouts Board Train for Roundup

Eight excited area senior girl scouts boarded a special train Wednesday to attend the 1962 Girl Scout Senior Roundup in Button Bay, Vt.

These girls from North Oakland County Girl Scout Council will join 10,000 scouts from all over the country today through Tuesday at the encampment on the shores of Lake Champlain.

The girls will meet with senior scouts from several other countries as well, to exchange traditions and characteristics of their respective regions.

Highlighting the Roundup will be the programs that each group of eight girls or patrol is expected to prepare.

During their six months of preparation the area scouts constructed a cider press and will actually make cider for the other scouts as their demonstration.

Bright red apples painted on their tents attest to their patrol name of the "Apple Lassies." The apple theme carries over into many of the "swaps" which the girls have made to exchange with the other campers. Small enough so that they can be pinned on hats, these "swaps" include such items as ceramic apple blossoms, felt apples, wood fiber apple blossoms on twigs, and even a cider press and will actually make cider for the other scouts as their demonstration.

Patrol leader Jane Tripp and her assistant Rosaleen Taunt will spend much of their time at court of honor meetings, and then relay court information to the patrol.

Kathy Stoutenburg will be writing columns for The Pontiac Press regularly during the Roundup.

Sandra Bragen will present radio interviews. Ann Aldrich will

take slides to retell the Roundup story upon the group's return.

Others with assignments are Leslie Seiss, patrol scribe; Sue Ashbaugh, equipment chief; and Merrily Weber, who will compile a daily log of activities and experiences.

Two adults from the council are on the Roundup staff, Carol Methner of Waterford, general aide; and Mrs. Percy Dunn also of Waterford, recording tent assistant.

Eight Roundup alternates will

attend a Girl Scout encampment at Camp White Deer at Three Lakes, Wis., Aug. 12 through Aug. 25.

The alternate patrol includes Janice Sheppard, Diane Harshbarger of Auburn Heights; Gail Hooversen of Orchard Lake; Merry Johnson of Rochester; Alice Kirkpatrick of Utica; Lynne Springer, Connie Simpson, and Maria Lambert, all of Waterford.

There are now two kinds of park who died with his boots on was married man is a fellow who ing in New York City—illegal and known as a "bad man"; today cleans his windshield before going no. . . . In the old days a man he's called a pedestrian. . . . A to a drive-in movie.—Earl Wilson.

More Hair Care

Hair care in summer isn't very different from any other season, except that there should be more of it! Extra perspiration attracts extra soil,

and swims tend to "dissolve" a set. So, in summertime, brush daily and shampoo at least twice a week—better still, after every swim if possible.

Be Careful of Eyes

During an evening date, if you feel that you need a fresh application of face powder, be careful not to dull your eye make-up by powdering over it.

For a quick touch-up, a noted beauty authority advises using cream-puff make-up or finishing powder, which are both in pressed powder form. Apply either requisite with a delicate, patting motion, and

take special care in blending it beneath the lower lashes and over the forehead so that your eyelashes and eyebrows remain free of powder.

If they do become dulled by any traces of the powder, renew their brilliance with a touch-up of eye make-up. Apply fresh mascara to the lashes, then wash the eyelash brush clean, dry it, and use it to their original sheen.

Area Woman Named

Elect Province Head

Mrs. Russel H. Meyer of Pine Lake Road, Orchard Lake, is the newly elected president of the Bloomfield Hills Alumnae Club.

Others attending the convention were Mrs. Carl H. Morse, past province president; Mrs. Frazer Hilder, Mrs. Jean Auchterlonie and Sally Little. During convention the regents and secretary of the Smithsonian Institute issued invitations to an exhibit of hand-woven textiles commemorating the 50th anniversary of the P. I. Beta Phi Settlement School at Gatlinburg, Tenn.

Mrs. Meyer, the former Virginia Losee, was president of the P. I. Beta Phi Chapter at the University of Michigan and was also president of Mortar Board.

She has served her sorority as president of the Toledo

April-May Unit Holds Meeting

A meeting of the April-May Group of the First Presbyterian Church of Pontiac was held with a cooperative picnic, at the home of Mrs. Lorne D. Proctor of Lake Angelus Shores.

The devotional was given by Mrs. Lyndon Salathiel. Mrs. Salathiel also showed colored slides of several anniversary occasions and special observances of the group.

Guests attending were Mrs. William Dean, Mrs. Charles P. Hunt, Mrs. William Donaldson, Mrs. Charles Galloway, Mrs. Ann Drury, Mrs. Sherwood Nye, Mrs. Gilmore Wine, Mrs. Charles Ellis and Mrs. Bertha Godfrey.

A plastic duck, wired for sound, is mothering chicks in a California project designed to find out how long the young take to identify themselves with a parent.

Sandra Haynie's right index finger and middle fingers separated (top) to compensate for thumb's poor contact. Note left knuckles out of sight at top.

The Fair Way

Let Hands Make Up for Grip Failings

By SANDRA HAYNIE

My grip is a perfect example of adapting to physical abilities and shortcomings.

Since I have quite large and strong hands for my size, I use the overlapping instead of 10-finger, or so-called baseball

grip, usually recommended for players with small hands.

The way I hold a club is orthodox in most respects, but I deviate from the norm in two respects for understandable reasons.

The club lies across the middle joint of my left index finger and into the palm, just touching my little finger.

The fingers of my right hand wrap around the club below the left hand with my right little finger resting in the depression between the index and middle fingers of my left hand. This part of my grip is orthodox.

The thumbs are very important in the grip, exerting the most control and closest relationship with the club.

My thumbs insist on cocking, pointing upward at their tips, when I grip the club. My right palm forces the left thumb to behave, but I can't discipline my right thumb.

To compensate for the loss of contact and control in my misbehaving right thumb, I separate my right index and middle fingers instead of having them in contact.

My left hand has a tendency to creep around to the right, causing me to hook. To overcome this tendency, I plant my left so that the knuckles are out of my sight.

This makes the V formed by my left thumb and index finger point straight up instead of over the right shoulder, as most teaching professionals say it should.

Like nie, you may find that even in the grip some little deviation from the generally accepted way may improve you.

Find Time for It

Exercise Is Necessary

By JOSEPHINE LOWMAN
Most of us feel that we have certain things we must do each day. We eat. We take a bath. We do our housework and our marketing. We fulfill our social and civic obligations and chauffeur our children. We consider these things essential.

The engagement of Sharon Elaine Wheeler to Louis K. Norberg Jr. is announced by her parents, Mr. and Mrs. Burl C. Wheeler of Ostrum Street in Waterford Township. Her fiancé is the son of the senior Louis K. Norbergs of West Brooklyn Avenue.

SHARON ELAINE WHEELER

It is too bad that more women do not think of daily exercise as a "must."

It is too bad because regular exercise does such wonderful things for us. It is beautifying and vitalizing. It rids us of minor physical discomforts and banishes fatigue.

Exercise tones the body for a more efficient performance. It stimulates the skin and the liver. It strengthens the heart. It can banish constipation. It conditions the lungs and the blood vessels. It is relaxing.

There is no denying the value of exercise. Today we are conscious of this, not only for cosmetic reasons, but for reasons of health. The medical profession has been emphasizing its importance more than ever recently.

IT'S ESSENTIAL

The point I want to make today is that unless you consider exercise an essential, like the other things you do, you just will not find time for it. Everything else will come first.

The only way you will be faithful with exercise is to make it an essential in your own mind. Put it on your list, just as you do three meals a day.

You do not have to exercise for long periods. Just 15 or 20 minutes a day will be beautifying and rejuvenating.

Have You Tried This?

Chocolate Cake Moist If Made With Bananas

By JANET O'LELL
Pontiac Press Home Editor
You've all had recipes for banana cake. We have printed a good many, both here and in the weekly food columns. But Mrs. George Kish of Walled Lake has a new twist to the banana cake she makes; hers is chocolate flavored.

The Kish family has lived in Walled Lake only a few years. There are 3 children in the family. Mrs. Kish says she loves to cook and to weave, but that there is never enough time for either one.

CHOCOLATE BANANA CAKE:
By Mrs. George Kish
½ cup shortening
1½ cups sugar
4 eggs
3 squares chocolate, melted
2¼ cups sifted cake flour
1½ teaspoons salt
1 teaspoon salt
1¼ cups buttermilk

½ cup mashed bananas
½ teaspoon peppermint flavoring
Cream shortening with the dry ingredients and half the buttermilk and bananas (mix the last two together). Add melted chocolate. Beat in eggs. Add remaining buttermilk and bananas. Add flavoring. Pour into greased 9x9 inch pan. Bake about 45 minutes in 350-degree oven.

You will scarcely taste the bananas, but they will keep the cake moist.

Frosting:
½ stick margarine
1 egg
2 squares chocolate, melted
confectioners sugar
peppermint flavoring
Cream margarine and egg. Add sugar to make frosting of right consistency. Add flavoring, then chocolate last. This will thicken the frosting somewhat.

Miss Lazenby Honored With Bridal Shower

Marlene Joyce Lazenby of Rowley Street in Drayton Plains opened bridal gifts during a shower at her home Sunday.

Hostesses for the occasion were Mrs. Thomas Studt of Waterford Township and Judith Kruger of Sturgis.

Miss Lazenby is the bride-elect of David J. Struble, son of Mr. and Mrs. Milo Struble of Waterford Township. They will marry Aug. 18 at the Christ Lutheran Church in Waterford.

The bride's attendants are Mrs. Studt, matron of honor; Miss Kruger and Mrs. Allen Padbury of Ann Arbor.

Guests for the afternoon dessert luncheon were Mrs. Royce K. Lazenby, Mrs. Struble, Mrs. James Olson, Mrs. Kenneth French and Barbara Tallyday. Others were Mrs. George Tallyday, Mrs. Wayne Lundy, Mrs. H. DeLoe Nichol and Mrs. Thomas Knight. Mrs. Winford Rogers and Mrs. William Vogt of Drayton Plains also attended along with Mrs. Don Booth of Davisburg.

2 Shower Heads

A good idea to remember in remodeling or building a bathroom is to install two shower heads—one set at 6 feet above the floor, and the other at 4 feet.

The lower one is fine when you want to enjoy a shower without drenching your hairdo. And the youngsters will feel more comfortable if that nice warm "rain" falls from not too high up.

Humanity's Sins Haven't Changed, Graham Claims

FRESNO, Calif. (UPI) — Evangelist Billy Graham told a crowd of 17,100 last night that man is as sinful today as he was 2,000 years ago when Jesus Christ died on the cross.

The North Carolina minister said the idea of the world being saved by the crucifixion of Christ was considered foolishness in Christ's day — and is still foolish today to the average person.

Graham, who begins the second half of his eight-day Fresno crusade tonight with a sermon on "Problems of the Home," warned that sin "never improves any more than a cancerous condition. It improves without medical aid."

To Build Reserve Center

DETROIT — The Detroit district of the Army Corps of Engineers said Wednesday construction of a 600-man Army Reserve center in Inland will begin this month. The 23,338-square foot structure will cost \$501,000.

House Triumphs in Prestige Fray

Joint Committee Battle Over Money Bills Ends With Senate Conceding

WASHINGTON (AP) — The three-month prestige battle between the Senate and House Appropriations Committee has ended for this year.

Settlement terms announced Wednesday add up to a victory for the House. Until the end of this session its senior Appropriations Committee members will share the chairmanship of conference sessions on money bills.

Commander to Explain Fate of Doomed Unit

DETROIT — Office of Chief of Ordnance commander Maj. Gen. H. F. Bigelow is scheduled to appear here Friday to explain disposition of functions of his soon-to-be-disbanded department.

Transfer Administrator

JACKSON — Mercy Hospital Administrator Sister Mary Magdon has been transferred to Magdon effective Aug. 15. She is a former official of Lansing St. Lawrence Hospital.

U.A.R. Refuses Liz Visa to Join Richard Burton

ROME (UPI) — Actress Elizabeth Taylor has been refused a visa to travel to the United Arab Republic where her costar, Richard Burton, is completing filming of the picture "Cleopatra," informed sources said today.

The U.A.R. embassy spokesman confirmed that Miss Taylor had applied for the visa before she left for Gstaad, Switzerland, yesterday.

He said he did not know the outcome of the application but other well-informed sources said it was turned down.

In Cairo, the newspaper Al-Ahram said the government confirmed that Miss Taylor because she is on the Arab League blacklist for "promoting the sale of Israeli bonds." An interior ministry spokesman declined to comment.

Miss Taylor, who has converted to Judaism, had had all her films banned in the U.A.R.

Sault Ste. Marie Boy Drowns in Swift River

SAULT STE. MARIE — Richard Akkanen, 14, of Sault Ste. Marie apparently exhausted by swimming in the swift current at the mouth of the St. Mary's River backwater, drowned Wednesday night.

The body was recovered by the Coast Guard. He had been swimming with two companions when he went under.

By OSWALD JACOBY

South was one of our top ranking players. His slam contract was sound, but his play careless to the point of criminal bridge negligence.

He took the ace of diamonds, led the ace of spades and got the heart suit. He did not look too hopeless yet. He led the ace and another club. East ruffed and it was "Katy, bar the door."

North murmured something about tough luck, but all South would say was "How stupid can I get?"

South had played too quickly! East must have held seven hearts for his vulnerable three heart opening bid. He also held four spades and had shown up with one diamond. That accounted for 12 of his cards. If the other card happened to be a second diamond there was nothing South could do to make the hand, but if it were

ASTROLOGICAL FORECAST

By STONEY OWENS

"The wise man controls his destiny by controlling his mind."

ARIES (Mar. 21 to Apr. 19): Temperament to "cut easily" but not inspired by common sense. Stick to details until you are sure you have all the facts. Then you can relax and enjoy peace of mind.

Taurus (Apr. 20 to May 20): Many have dreamed, but it is not to you to choose the best. Do discrimination. Stand up and be counted as an individual. Change with the crowd proves only defeat.

Gemini (May 21 to June 20): Achievement is key. But it is not to you to choose the best. Do discrimination. Stand up and be counted as an individual. Change with the crowd proves only defeat.

Cancer (June 21 to July 21): Time and "time down" are your allies. For your own personal pleasure. This should not be perturbed to "rule" you. Day when it is best to do more listening than talking. Your abilities will speak for themselves.

Leo (July 22 to Aug. 21): Those who have dreamed great victories. Flash your personal magnetism and let us know it. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Virgo (Aug. 22 to Sept. 21): Considerable made by professional associates should not be perturbed to "rule" you. Day when it is best to do more listening than talking. Your abilities will speak for themselves.

Libra (Sept. 22 to Oct. 21): No time for "radio-reading." Use your abilities for strength, making plans for future. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Scorpio (Oct. 22 to Nov. 21): Make use of your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Sagittarius (Nov. 22 to Dec. 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Capricorn (Dec. 22 to Jan. 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Aquarius (Jan. 22 to Feb. 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Pisces (Feb. 22 to Mar. 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Aries (Mar. 22 to Apr. 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Taurus (Apr. 22 to May 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Gemini (May 22 to June 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Cancer (June 22 to July 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Leo (July 22 to Aug. 21): Use your abilities. Do not discriminate. Those who can't "keep up" could be successful and turn to "radio-reading."

Iran Leader Amends Charge Against U.S.

TEHRAN, Iran (AP)—Premier Ali Aminu amended today his charge that the United States was responsible for his resignation.

Aminu said at a news conference Wednesday he had resigned because he could not balance his budget owing to a sudden cut in U.S. financial aid for the Iranian army.

The charge was denied promptly by State Department press officer Lincoln White who said that Aminu's regime got more U.S. aid than its predecessors.

At a news conference today Aminu said he had not intended to make a charge against the U.S. government but was only making a friendly complaint.

The average American family pays \$210 a year in life insurance premiums.

False Teeth Don't Help Man Prove His Identity

LOUISVILLE, Ky. (AP)—It's difficult to get a check cashed even with the best of credentials.

An out-of-town visitor tried it at the Citizens Fidelity Bank but was turned down.

In desperation, he took out his false teeth—his name was engraved on them—and offered the choppers as security.

Another refusal. The bank explained the plates were not negotiable.

Only a tiny amount of electric or magnetic force is needed to control the action of electrons at very low temperatures.

YOUR BOAT

LONG BOAT offers fishing for more anglers.

Fishing
BY TED JONES
Marine Designer

A long boat offers the advantage of being able to fish more anglers.

Elbow room may be no problem for still fishing, but when your partner winds up with a hunk of plastic brisling with treble hooks, you have cause for worry.

A 14-foot skiff will carry three passengers in complete safety, but it doesn't offer the extra insurance that an in-board motor does.

A long boat doesn't necessarily mean a big boat. Size is as dependent upon beam as it is on length.

Long boats can fall into the small-craft category.

Typical examples are canoes, the long, narrow John boats, and the slender, round-bottomed skiffs popular in Canada. All such boats are naturals for fishing. Most of them function as both displacement and planing hulls. They require a minimum horsepower at a clip.

Other advantages of the long boats for fishing use are ease of maneuverability, light weight and shallow draft.

They're built to get through tight places, to be lugged over porters and maneuvered through waters where other craft can't go.

State Inland Lakes' Control Bill Signed

LANSING — Gov. Swainson matching funds to counties for enforcement from 1-1 to 2-1. The system to control boats and other water activities on Michigan's inland lakes.

The measure puts the program into operation Aug. 1, but failure of the legislature to appropriate funds to get it going probably will delay it until next summer.

The measure raises the registration fee for motorboats, levied every three years, from \$1 to \$3 and boats the state ratio for

after conducting inquiries and public hearings.

Communities involved can reject the regulations, but cannot adopt their own.

Rep. Charles A. Boyer, R-Mank

Tork Loses Again to Finnish Vaultier

STOCKHOLM, Sweden, (AP)—World record claimant Pentti Nikula of Finland defeated U.S. 16-footer Dave Tork for the second straight time in the July track and field games at the Stockholm Olympic Stadium Wednesday.

Nikula, who has an application for a record 162 vault pending, won the event at 15.9, with Tork hours to boat speeds, but only second at 15.5.

U. S. Collegians Downed

MONTEVIDEO, Uruguay (AP)—The Uruguayan All-Stars scored an 81-78 victory Wednesday night over the combined Grahmbling La and Westminster, Pa. basketball team.

Sno-Bol Clashes With Arro 9 in Softball Feature

The City Softball League spotlight is aimed at Beaudette Park tonight where league-leading Sno-Bol and runner-up Arro 9 will clash in a crucial contest at 8:30 p.m. Sno-Bol can clinch its 2nd straight city championship by winning. Arro still has flickering title hopes.

UAW Local 594, First Presbyterian and 300 Lounge were National loop winners last night.

The Lounge defeated Motorcar Transport, 9-7, despite a three-run inside-the-park homer by Chuck Gist in the 1st inning that the Lounge fielders thought was a foul ball. But Gist's Bar hit to the UAW, 7-2, behind Bob Fraiser's four-hit pitching. Presbyterian scored a 6-4 victory over G&M construction.

In an international division contest, St. Joseph Hospital defeated Berry Door, 7-4.

Single Tickets Completely Sold for M-MSU Tilt

EAST LANSING (UPI)—In individual tickets for the Oct. 18 Michigan State-Michigan football game here are sold out, university officials said today.

Michigan State University Athletic Director Biggie Munn said the sellout was one of the earliest on record for the annual fall clash between the arch-rival Big Ten teams.

Munn said MSU season tickets, including the Spartan-Wolverines contest, will still be available.

Use Preserver Cushions in Prescribed Fashion

It's one thing to have the correct amount of life preservers of an approved style on board your boat. It's another to have every member of the family schooled in their use.

So the odds are you'll never use 'em, so what? Still not a bad idea to know how to use a fire escape, even though you aren't expecting a fire.

Consider the popular buoyant vest cushion, long the standard for most fishing boats and for

many other types. Sometimes people put them on wrong — they slip their arms through the straps and wear them on the backs, kinsack fashion. With the buoyancy centered behind their backs they would float in a face-down position, hardly recommended.

Instead, try this, with all the family watching. Put one leg through one of the loops and draw the cushion up to your chest, then stick the opposite arm through another loop. Now there's no need to struggle to retain hold of the cushion, your hands are free for swimming if necessary. The cushion supports you in such a way that your strength is conserved, and if you tire you won't lose hold of it.

When buying such cushions see that the straps are stoutly attached and are long enough so they can be worn in the prescribed fashion. If you are the Man Mountain Dean size, too big to get a buoyant cushion around you, put the cushion to your chest and your arms through both straps. It's not as desirable as the first position but it'll work.

Boaters who frequent big water enjoy their peace of mind benefit from having on board real life jackets, the type used by the Navy. They will stay with you through anything and keep you afloat, the Mercury people claim, regardless of your physical condition. Put them on before heading into a stretch of really turbulent water, or when it becomes obvious it is heading your way. Then if trouble hits everyone will be ready.

Brothers in Dead Heat
INGLEWOOD, Calif. (AP)—Brothers Henry and Pete Morano finished in a dead heat, both lasting long shots, in the fourth race at Hollywood Park Wednesday.

Sailor Beware!
Many accidents can happen to your outboard motor and boat. Fire, theft, collision, loss of the motor or overboard — all are common and costly hazards. These and many more perils, are covered by our Outboard Boat and Motor Insurance policy. Call us.

Oxford Lake is Site of Annual Michigan Meet

Competition to Start Saturday at 7:30 A.M. and End Sunday

Nothing like a cool spray early in the morning out on one of Oakland County's many lakes. At 7:30 in the morning it can be really cool.

This is the starting time for the 6th annual Michigan State Water Ski Championships which will be held at Oxford Lake Saturday and Sunday this weekend.

The program of events will continue through 5:30 each day and along with competition a daily water-ski show is planned. The show will include exhibitions in kite flying, barefoot skiing, shoe skiing, water ballet and trick skiing.

Seventy-five of the top skiers in the state will compete in the 10 events starting with men's slalom at 7:30 a.m. Saturday. Bill Bibbe, defending champion in this event, will have a new strong challenger, state triple-crown junior champion of last year, Lynn Vermuelen, as his top competitor.

Vermuelen, who swept the slalom, jumping and tricks in the state and midwest tournament and then won the national slalom title, has advanced to the men's division and will compete in all three events.

The week July 22-28 has been designated by governor Swainson as Michigan Ski Week, urging "greater participation and safety" in skiing on Michigan waterways. This is the schedule of events:

SATURDAY
7:30 a.m. Men's slalom.
8:45 a.m. Junior tricks.
9:30 a.m. Women's slalom.
10:15 a.m. Girls' tricks.
11:00 noon Men's jumping.
1:00 p.m. Junior slalom.
2:00 p.m. Women's slalom.
2:30 p.m. Girls' slalom.
3:00 p.m. Senior men's jumping.
4:00 a.m. Junior jumping.
4:30 p.m. Mixed doubles.

SUNDAY
7:30 a.m. Boys' slalom.
8:45 a.m. Senior men's tricks.
9:30 a.m. Men's tricks.
10:00 a.m. Girls' jumping.
11:00 noon Women's jumping.
1:00 p.m. Boys' tricks.
1:30 p.m. Senior men's slalom.
2:30 p.m. Men's jumping.
3:00 p.m. Water ski show.

Final Results Are Listed for Mackinac Race

MACKINAC ISLAND, Mich. (UPI)—Here are the top three finishers in each class in the Port Huron-Mackinac race, and the corrected time:

CLASS A
Falcon II, 59:50.51 (overall winner).
Zappa, 59:52.00.
Avalanche, 59:57.00.

CLASS B
Meteor III, 59:58.54 (overall runner up).
Fins Feather, 59:59.18.
Candido, 59:59.24.

CLASS C
Oliver, 59:59.41.
Basilides, 59:59.59.
Giron, 59:59.59.

CLASS D
Vader, 59:59.70.
Vesper, 59:59.72.
Tulahoma, 59:59.74.

CLASS E
Challenger, 59:59.83.
Tribulation, 59:59.82.
Second Wind, 59:59.82.

RACING CLASS
Mitsun, 59:59.82.
Rivet, 59:59.84.

All of the top finishers were registered out of the Detroit area with the exception of Gypsy, out of Milwaukee; Fins Feather, out of Sandusky, Ohio; and Mitsun, out of Holland, Mich. Crusader in Class E is owned by Jim Nye of Pontiac.

Bidding for New Advance

NEW YORK (AP)—Gains by stock "sold short," meaning the sale of borrowed stock which must be repaid in the future, chiefly by purchases made by the borrowers who hope they will profit by getting the stock at lower prices. This represents a future buying cushion under the market.

STRONGEST GAINS
The strongest gains were made by certain issues whose interest had increased considerably since a month ago.

STEELS
Steels had an irregularly low tendency. Aside from Chrysler, motors were very narrowly mixed. Oils leaned to the upside.

Bonds Narrowly Mixed

NEW YORK (AP)—The bond market was narrowly mixed at the start of trading today.

OVER-HEATED
Over-the-counter dealers in U.S. corporate trading on the New York Stock Exchange rails had the down some intermediates by 2 1/2 to 3 1/2 points since the market closed at a low level yesterday. Others were mixed.

The New York Stock Exchange

NEW YORK (AP)—Following is a list of stock prices on the New York Stock Exchange on Thursday, July 10, 1962.

Airline Issues New Deadline

End Talks at Eastern After Agreement Was Reported Near

WASHINGTON (AP)—Eastern Airlines is telling its striking flight engineers to report for work by next Tuesday or face the loss of their jobs.

AMERICAN STOCK
Prices were generally higher on the American Stock Exchange in early trading. Gains of about a point were made by Anken Chemical and Technical Operations.

TO MAKE OFFERS
Earlier in New York, Eastern said it would make its final settlement offer by letter to all striking engineers in the hope they would accept and let Eastern put its planes back in the air.

DISPUTE JOBS
The engineers and the Air Line Pilots Association are in a dispute over cockpit jobs which the airlines reduce jet crews from four to three men, as contemplated.

Grains Are Mixed in Early Dealings

CHICAGO (AP)—Grain futures prices spread over a strong to weak early trading in the general markets of activity today on the board of trade.

Grain Prices

CHICAGO GRAIN
Chicago, July 10 (AP)—Opening prices for grain futures on the Chicago Board of Trade today.

SENATE BODY OKS JFK Nomination of Celebrezze

WASHINGTON (AP)—The Senate Finance Committee today unanimously approved President Kennedy's nomination of Mayor Anthony J. Celebrezze of Cleveland to be secretary of welfare.

Treasury Position

WASHINGTON (AP)—The cash position of the Treasury compared with corresponding data a year ago.

High Court Decision May Affect Plan

More Work Ahead for Con-Con?

LANSDOWN, N.J. — What effect will the State Supreme Court's decision ordering revamping of Senate districts have on the constitutional convention's proposal on reapportionment?

Some delegates admitted privately today that the 4-3 court action may have knocked out the convention's plan for the Senate based on a formula weighted 80 per cent for population and 20 per cent for area.

If the majority of delegates agree, the convention may not wind up with a final one-day session Aug. 1. It may have more work ahead.

Legal observers pointed to key phrases in two majority opinions from the court, which ruled that the present Senate is illegal because it does not conform with the United States Constitution's equal protection guarantee.

In writing the controlling opinion, Justice Thomas M. Kavanagh said the Senate must be redistricted on a basis which does not allow for more than a 2-to-1 population disparity between the largest and smallest districts.

Present districts go as high as 12-to-1.

Under the convention's 50-50 formula, Senate districts could still vary more than 4-to-1. One population projection for 1970, for example, shows the Marquette district would have 54,000, and one senator, while Macomb would have 685,000 residents and two senators.

Kavanagh, a former attorney general, said the court was not passing on the merits of the plan that might be submitted, he added, however.

OTHER PLANS

"Other plans creating elective districts whether on an area versus population basis, or gerrymandered as to shape or want of continuity, or planned for purposes of invidious discrimination or iniquitous advantage, may some day be presented to this court for test against the national and state equality clauses."

There is no question, he said, that such programs would have to meet the 2-1 ratio test.

"Perhaps they would be required to do more, but certainly not less," he added.

In another opinion, Justice Eugene Black contended that the court had to act when it did on the reapportionment case.

"Whatever advances our effort will provide for the constitutional convention must be sent forth with dispatch," he said. "That assembled body is due for final adjournment 14 days hence, and its regular successor cannot be around until 1971."

There were indications yesterday that some GOP delegates, who outnumber Democrats at the convention 2-to-1, may make an effort to enter the Supreme Court controversy directly.

Lee Boothby, R-Niles, said he was contacting other delegates to see if they would support a move to recess until after Aug. 20, the deadline set by the court for the legislature to come up with an acceptable apportionment plan.

SOVEREIGN BODY

"If no agreement has been reached by then," Boothby said, "then I'd like to see the convention as a sovereign body make application to the U.S. Supreme Court to stay the state court decision."

Boothby said his purpose would be to prevent any at-large election, and give the convention time to propose its own plan.

We could intervene as a sovereign body which is above the legislature, above the governor and above the court—and directly responsible to the people who recently elected us," Boothby said.

Boothby said his purpose would be to prevent any at-large election, and give the convention time to propose its own plan.

We could intervene as a sovereign body which is above the legislature, above the governor and above the court—and directly responsible to the people who recently elected us," Boothby said.

Roberts Doubts State Senate Will Reshuffle

Oakland County's senatorial stock in state government will be tripled if the legislature reapportionment along lines dictated by the Supreme Court.

But will the legislature reapportion as the court wishes? Will they reapportion at all?

Republican Sen. Farrell E. Roberts, the county's voice in the senate, doubts an effective agreement can be reached.

Roberts said a two-thirds vote is needed to give any reapportionment plan immediate effect

and that there is not much hope such a majority can be achieved.

Immediate effect is a necessary part of reapportionment because the Supreme Court said a plan must be drawn by Aug. 20 or else all senators will be elected state-wide.

SIZES AT-LARGE VOTE:

"We're heading for an at-large election," Roberts said.

But suppose the legislature should agree on a new plan?

In that case, Roberts said, Oak-

land County would be entitled to three senators instead of one.

The county's new senatorial districts would roughly parallel existing House of Representatives districts, Roberts explained.

He said the new 1st senatorial district would take in the 1st and 2nd Representative Districts, the 3rd and 4th Representative Districts, the 2nd senatorial area would include the 5th and 6th Representative Districts, and the 3rd senatorial district would parallel the existing 3rd and 4th Representative areas.

Until now, Oakland County's share of the senate has been the most disproportionate in the state.

The county's district—number 12—had a population of 690,883 in the 1960 census and senate district 32 in the upper peninsula had 38,000. Both areas were represented by one senator in the legislature.

Roberts declined to speculate on how new reapportionment would affect the senate race in Oakland County.

He said he "felt the best of our problems now."

As chairman of elections for his state, Roberts was on the way this morning to a meeting with state elections director Robert Montgomery.

MAY CHANGE LAWS

"We may have to change dozens of election laws," Roberts said. "This whole thing is one great big mess."

Roberts said he and Montgomery would discuss provisions for holding an additional primary election for state senators.

either on a district basis or statewide.

In a statewide primary, Roberts said, Gov. Swanson would have his problems because most of the Democratic nominees would probably come from over-heavy Wayne County.

This would embarrass Swanson with out-state Democrats, Roberts pointed out.

The senator believes, therefore, the governor will seek to nominate Democratic candidates in the convention and "beat them" around the state.

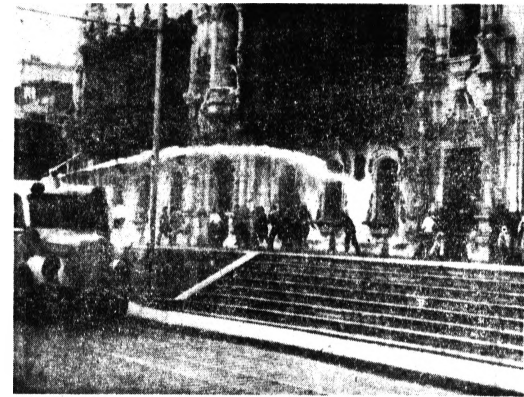

Roberts' opinion of reapportionment as the Supreme Court wants it is that it will throw state power into the hands of a few southeastern counties, including Oakland.

"Even in Oakland County, we don't think that's fair," Roberts said.

The story was which the Supreme Court moved is suspicious as well as unwelcome.

Ask Court to Hold Off on Remapping

Police Spray Demonstrators

FLUX WATER CANNON — Pontiac police use a mobile water cannon against demonstrators in Lincoln park yesterday when the Government Palace where a military unit

JFK Polling Dems on Cut in Taxes Now

WASHINGTON (AP) — President Kennedy's aides are polling congressional Democrats on their attitude toward a possible immediate tax cut to cushion the economy.

Confirming that such a canvass is under way in the Senate, Democratic leader Mike Mansfield of Montana said in an interview the results thus far have been mixed.

Mansfield said he is certain Kennedy has made no decision on whether to request a reduction in taxes. But he added the President obviously is interested in knowing an advance what reaction he could expect if such a request were made.

"This late in the session, it would be a difficult thing to manage," Mansfield said.

Kennedy is said to be reluctant to ask for such a tax cut because of the political risk it would entail. He is also said to be concerned about the effect on the economy of a sudden change in tax policy.

Rules Against Union Officials

'Can't Use Treasury to Finance Defense on Fraud Charges'

WASHINGTON (AP) — The U.S. Court of Appeals ruled today that labor unions may not use money to finance defense on fraud charges.

The court's decision would limit the ability of unions to raise money for defense attorneys in certain federal courts.

Gal Falls Half Mile ... and Lives!

LOS ANGELES (AP) — A man who fell half a mile from a cliff yesterday survived and was taken to a hospital.

The man, identified as a 40-year-old man, was found by a hiker on a trail near the Griffith Observatory.

LOS ANGELES — Reaction to the Supreme Court decision on reapportionment of the Senate was along street parties lines.

Foes of Ruling Want Rehearing

LANING — Michigan's Supreme Court was asked today to hold off on its order directing the legislature to reapportion the State Senate, and to grant a rehearing on the controversial issue.

Attorneys for three intervening defendants asked for a stay of judgment in the court's 4-3 decision yesterday giving the legislature a month to remap Senate boundaries on a population basis.

If the rehearing is refused, they said, the matter would be appealed to the United States Supreme Court on grounds the state court's decision would cause complete chaos and confusion.

This would come about, they argued, if the federal court decided at a future date that the guidelines laid down by the Michigan decision have been violated.

The court's decision has touched off a flurry of frantic activity among Senate Republican leaders. They are now trying to get the court to rehear its decision.

Allies Attack Takeover

Peru Crowds Broken Up

LIMA, Peru (AP) — Demonstrations continued in Lima Wednesday night but were broken up quickly by the military police, whose use of power brought sharp rebuffs from transport unions.

The armed forces claimed an attempt to break up the demonstration and appeared in counter-attacks at least for the moment after overhauling the central government of President Manuel Prado.

Spontaneous demonstrations, which were sparked by students and teenagers, broke out in the capital in protest against the military takeover of the government to nullify the June 10 national elections.

Troops, firing submachine guns, broke into the air and tear gas, and police used water cannon and snarling truncheons, dispersed the demonstrators.

Three students were reported wounded during the day.

THREATEN STRIKE:

A bigger threat to the military came from the giant Confederation of Labor, whose leaders were reported considering a general strike in protest against the military takeover.

Rules Against Union Officials

'Can't Use Treasury to Finance Defense on Fraud Charges'

WASHINGTON (AP) — The U.S. Court of Appeals ruled today that labor unions may not use money to finance defense on fraud charges.

The court's decision would limit the ability of unions to raise money for defense attorneys in certain federal courts.

Gal Falls Half Mile ... and Lives!

Man Falls Half Mile ... and Lives!

LOS ANGELES (AP) — A man who fell half a mile from a cliff yesterday survived and was taken to a hospital.

The man, identified as a 40-year-old man, was found by a hiker on a trail near the Griffith Observatory.

Related Stories, Pages 10, 15, 55

certainly will cut down GOP strength in the Republican-held Senate.

Los Angeles said yesterday that the state court's decision would cause complete chaos and confusion.

This would come about, they argued, if the federal court decided at a future date that the guidelines laid down by the Michigan decision have been violated.

The court's decision has touched off a flurry of frantic activity among Senate Republican leaders. They are now trying to get the court to rehear its decision.

Rome Hospital Doctors Begin Four-Day Strike

ROME (UPI) — More than 3,000 hospital doctors began a four-day strike in Rome today despite government promises their demands for more pay and job security would be fulfilled.

The walkout involved about a third of the city's 9,000 physicians but provision was made to handle any serious or emergency cases.

A nationwide strike of hospital doctors had been scheduled to start midnight Tuesday but a government promise that they would get the benefits they sought resulted in a postponement.

However, Rome hospital physicians were not satisfied and went ahead with the strike last night.

The physicians who work in government-run hospitals around the city.

RELIANCE: Northern Ireland on — Family doctors who run Britain's state medical service demanded pay raises today, claiming some of them earn little more than unskilled workers.

Many of the hospitals are set up by the government in small towns, particularly in the south, that are too poor to support a hospital.

Won't Be Long Now

Won't Be Long Now

When she was asked to the hospital in Haines, attendees were astounded to discover that — apart from facial lacerations — she apparently had suffered no more than severe body bruises and hysteria.

Her hysteria quieted, she slept under sedation today.

Yesterday afternoon was cloudy with a breath of rain in the air when the small plane carrying Miss Frothen left the airport.

She struck the water first, as a parachuting instructor, flew from the air ship near Marston Mills. The object was to parachute onto the field.

At about 2,000 feet, she bailed out and landed safely in a bush at the field's edge. Today, she is recovering from her injuries.

News Flashes

AUSTIN, Tex. (AP) — The Texas Department of Public Safety said today its investigation indicates the death of Henry Marshall near a Franklin on June 3, 1961, was murder, not suicide. Marshall at the time was investigating Billie Sol Estes' cotton allotments.

MIAMI, Fla. (AP) — The Miami Herald-Sentinel, a 42-year-old morning newspaper that has not published since it was struck by the American Newspaper Guild May 27 in a contract dispute, was purchased from the Herald-Sentinel by its long-time owner, the Miami Herald.

DETROIT (AP) — Gov. George Romney said he was pleased by the decision, "The decision," he said, and "it is comparable to man's recent advances in the space field. The court has made a decision that is a great day for the people of Michigan."

DETROIT (AP) — George Romney, Swanson's Republican opponent in the gubernatorial election, issued a statement showing his disappointment at the decision.

"It is not unexpected," he said. "The issue now is not to argue about the wisdom or fairness of the court's majority opinion, and neither can be gained by attempting to substitute my judgment for that of the justices."

DETROIT (AP) — Romney said he believed the court should have government to decide how the Senate could be reapportioned.

DETROIT (AP) — Gov. T. John Lewis said he was pleased by the decision, "The decision," he said, and "it is comparable to man's recent advances in the space field. The court has made a decision that is a great day for the people of Michigan."

Court Ruling Explodes Plans

Pontiac Democrats' dreams of a governor's day in the state turned into a nightmare of endless phone calls in canceled meetings.

Jim McNeely, executive secretary of the Oakland County Democratic Party, said his staff had to notify about 140 persons after Gov. Swanson canceled campaign activities in the wake of the Supreme Court's reapportionment ruling yesterday.

The governor had been scheduled to greet workers at the GMC Truck & Coach plant this morning, have breakfast and lunch with business and civic leaders and hold a press conference.

McNeely said the party was going ahead with plans for an afternoon reception to which 400 persons have been invited. He said he hoped Swanson would be flown here for the affair.

Another Swanson meeting with precinct workers and county candidates is still set for tonight in Oak Park.

Good humor helps your VACATION

RENEWAL GRANT Received by City

City officials have received a federal grant of \$20,000 to cover operation and relocation costs in the R20 urban renewal project.

The capital grant payment is the second received to date as part of the federal government's two-thirds share of the total project cost.

Of the total grant, \$22,248 will be used to cover the cost of relocating persons displaced by urban renewal and \$38,756 will be used for redrawing, outstanding notes issued to finance R20 operations last December.

The city's first federal grant, received last January, was \$607,439 for operations and \$12,327 for relocation.

Pontiac General Occupancy High

The demand for beds at Pontiac General Hospital has reached an all-time high for a normally low demand period.

"Occupancy last week exceeded 100 per cent," said Harold B. Euler, administrator, today. "This is very unusual because this is normally one of the lowest occupancy periods of the year."

"For the seventh anniversary period, ending July 14, we averaged 93 per cent. Aside from the first period each year, this is usually our lowest occupancy figure."

Occupancy averaged 86 per cent for the same period last year.

"We are cancelling some scheduled admissions almost daily because of lack of beds," Euler noted.

The hospital's emergency department has also been busy, treating patients in the first week of July, an average of about 100 per day.

Fair Weather Covers Large Portion of U. S.

By The Associated Press

Mostly fair weather prevailed over a large portion of the country Thursday and where there were exceptions it rained.

There were some widely scattered thundershowers in the Carolinas, Florida, the east coast of Louisiana, over southern Oklahoma, southeastern Arizona, New Mexico, North Dakota and Minnesota.

In a six-hour period starting late Wednesday, nearly two inches of rain fell at Jamestown, N.D., about an inch fell during the same period at Fargo, N.D., and Alexandria, Minn. About 1 1/2 inches fell at Fort Mill, S.C.

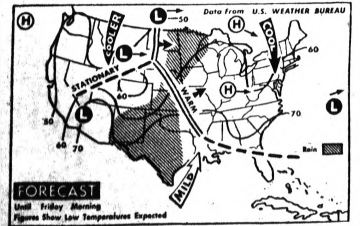

When nitroglycerine explodes, the volume of gas released is said to be 10,000 times greater than the original explosive agent.

It will be cooler in the northern Plains. Cool weather will continue in the northeast quadrant of the nation and warm weather will continue in the deep South from the southern Plains to the Carolinas.

Estes Lawyers Were Warned'

Ex-Ike Administration Official Claims Pair Knew Scheme Illegal

WASHINGTON (UPI) — An Eisenhower administration farm official said in sworn testimony today that lawyers for Billie Lee Estes were told that the Texas financier's transfer of cotton allotments was an illegal scheme in January, 1961.

30 SECONDS TO DEATH—Plane piloted by Jim Gerber, 44, of the Swiss Air Force service is shown flying and burning after crashing 30 seconds later near Lukmanar Pass, Switzerland killing Gerber. The plane went down after coming in contact with a high voltage cable (top photo). It was carrying fuel supplies for a helicopter that was taking part in rescue operations of a crashed German air taxi.

Ask Court to Hold Off on Remapping

(Continued From Page One)

Supreme Court decision was handed down. He learned of it when he doctored and his wife was waiting to greet him with the news.

"I think the legislature has the machinery now to go about the task of setting up new districts," he said. "And I feel that my contention there should be a restoration of equality at the ballot box is now completely vindicated by the courts."

First to react in Lansing was Sen. Carl H. Morris, Republican from Kalamazoo, who summoned his Senate Judiciary Committee into emergency session to consider the impact of the ruling.

"This makes a monumental mess of things in Michigan," he declared.

All are the outgrowth of complaints that fast-growing urban areas are not fairly represented in state legislatures.

TRUMP FOR SCHOLLE: Yesterday's decision, following strict party lines, was a triumph for August Scholle, Michigan AFL-CIO president and a power in state Democratic party circles.

It upheld his contention that the wide disparity in the population of Senate districts violates the equal protection of the laws guaranteed in the U. S. Constitution.

Scholle said today he was "elated" by his victory.

Scholle, in Casewell with his family for a vacation, didn't want to hide his glee over the ruling.

"Naturally I'm happy with the way things went," he said. "I feel the court has vindicated my judgment."

Scholle was out boating when the ruling came.

At least two members of the House of Representatives, unaffected by the court order, are at work mapping out a reapportionment plan of their own.

Sen. John W. Fitzgerald, one of three Republican senators who intervened as defendants in the two-year-old Scholle suit, said an appeal might be made to the U.S. Supreme Court.

Sen. John W. Fitzgerald, one of three Republican senators who intervened as defendants in the two-year-old Scholle suit, said an appeal might be made to the U.S. Supreme Court.

Parties Take Turns Hailing, Hitting Court

(Continued From Page One)

now will allow us to move forward.

"Staleness may no longer be the order of the day," Lesinski added. "Michigan will be able to have a representative government."

Sen. Carl H. Morris, R-Skillewauke, chairman of the Senate Judiciary Committee, was outspoken and bitter. His committee will have the job of recommending any reapportionment bill to the legislature.

"It makes a monumental mess of things in Michigan," Morris said of the decision. This legislator has been presented with a terrible problem, I cannot too harshly condemn the decision."

Morris complained that his committee had not been given the complete transcript of all the rulings.

"But I know right now I don't like the decision," he announced.

ANGRY BLAST

Sen. Lynn O. Francis, R-Midland, issued an angry blast at Gus Scholle and the court.

"I'm fully convinced that Gus Scholle has completely taken over the entire government of Michigan," he said. "We have now seen the governor, the Supreme Court and the legislature — and it begins to look like they own the people too," he said.

Francis, retiring as Senate Republican majority leader, declared: "I think there'll be the dammedest reaction we've ever had in Michigan."

Rockwell T. Gust, R-Grosse Pointe Farms, constitutional convention delegate and candidate for lieutenant governor, was equally bitter.

Gust termed the decision "an insult to the treasury of Pearl Harbor."

Sen. John W. Fitzgerald, one of three Republican senators who intervened as defendants in the two-year-old Scholle suit, said an appeal might be made to the U.S. Supreme Court.

The Day in Birmingham Promoted to Top Position in YMCA Organization

BIRMINGHAM — William H. Beck, program extension secretary of the Birmingham YMCA, has been named to head the local organization.

The appointment of the new executive secretary, announced today by R. Stanley Pratt, president of the Birmingham YMCA, became effective Sept. 1.

At that time, Beck, 35, succeeded Owen Manchester, who had accepted a state-level administrative position in Chicago with the Illinois Area Council of YMCAs.

Beck joined the staff of the local "Y" in November, 1960 and since then has been responsible for establishing branches in the Wall Lake and Troy areas.

A graduate of George Williams College, a YMCA institution in Chicago, Beck has been active in YMCA work for eight years, serving in branches in Minneapolis, Minn., and Fargo, N.D.

The new director and his wife, Mrs. Beck, will be charged with the task of promoting the YMCA's program in Birmingham. Beck has been active in the Birmingham YMCA since 1950, when he was elected to the position of executive director of the Birmingham YMCA.

The ratings are published in the League's Bulletin and are distributed free of charge.

The membership drive committee is headed by Ward Ourskirk, executive director of the Community House. Committee members are William T. Arlund, Frederick C. Nash, W. Laurence Shaffner, Charles W. Taylor, Richard J. Wallace and McCaughey.

'Election to Cost County \$30,000'

Additional Primary for State Senator Met With Apprehension

An additional primary election for state senator in Oakland County will cost about \$30,000, according to a "conservative" estimate by Clerk-Register Daniel T. Murphy.

A third of the cost, Murphy said, would be charged to the county and the rest would be paid by local precincts administering the election.

"I don't know where the money's going to come from," Murphy said. "There's no budget for an extra election."

The additional primary was ordered yesterday by the Supreme Court in its ruling that the state's senatorial districts must be reapportioned.

Nominations for all other county and state offices will be made in the original Aug. 7 primary election.

Murphy said he is awaiting instructions from State Elections Director Robert Murphy on what to do with absentee and proxy ballots for the Aug. 7 election which have already been printed and which list senatorial candidates.

BALLOTS DISTRIBUTED

About 100,000 absentee ballots plus 1,800 proxy ballots for non-voting precincts are being distributed throughout the county, Murphy said.

Murphy speculated that local precinct workers would be instructed to block out the senatorial section of each absentee ballot.

He said the 1800 ballots for "proxy" precincts would probably be reprinted at a cost of \$500 to \$600. Machine ballots have not yet been prepared.

He said the 1800 ballots for "proxy" precincts would probably be reprinted at a cost of \$500 to \$600. Machine ballots have not yet been prepared.

Will Be Married Today

NEW YORK, (AP)—Anna M. Rosenberg, former assistant secretary of defense, and Paul G. Hoffman, managing director of the United Nations special fund, will be married today.

Both sides stated their positions Wednesday before a convention of the ruling Socialist party, the Cooperative Commonwealth Federation (CCF).

The doctors reported the demand that the Socialist government suspend the Medical Care Insurance Act before they would consider a merger with the CCF. It is financed through direct assessments and general tax revenues. Doctors' fees are fixed.

Almost all the provinces' 700 doctors are refusing to practice under it, but about 200 are providing free medical care at 40 emergency centers. The doctors contend the program will lead to government control of the medical profession. The program's supporters contend the doctors are worried only about their pocket books.

Jockey for Medicare Pact

SASKATOON, Sask. (AP)—Opposing sides in the controversy over Saskatchewan's compulsory medical care program are talking compromise. But obstacles remain and the strike of most of the province's doctors continued.

MAKE OVER PAIRS To Outnumber Whites in Cities'

Other Races Predicted to Increase Faster in 30 Top Metropolises

MADISON, Wis. (UPI) — Non-whites are well on their way to outnumbering whites in the nation's 50 largest cities, two University of Wisconsin sociologists have reported.

"If the pattern continues, our largest metropolitan areas may eventually consist of white Negroes, nonwhite cities," professors Harry Sharp and Leo Schreier said yesterday.

The researchers said census figures showed nonwhites growing two to four times faster than the white population in the 12 largest U.S. cities. Each of the 50 largest cities showed increased proportions of nonwhites between 1950 and 1960, they said.

The professors, writing in the current "Land Economics," a university journal, said great numbers of nonwhites are migrating to the cities while whites move to the suburbs.

The term nonwhites, they said, designated mostly Negroes, but also includes Orientals, Mexicans and Indians.

Ninety per cent of all northern metropolitan areas have increasing nonwhite proportions, the report said. But only 35 per cent of southern metropolitan districts followed the same trend.

"Continuation of these trends would certainly have tremendous implications for the future of the metropolitan community," the authors said.

"There will probably be significant political repercussions. We anticipate increasing demands among nonwhite peoples for greater representation especially in local government but also in the national congress," the team said.

Urban Renewal Grants OK'd for 4 Communities

WASHINGTON (AP) — A grant of \$37,728 to help four Michigan communities prepare plans for their economic growth was announced yesterday by the Urban Renewal Administration.

The communities are Albion, Cheboygan, Ithaca and Sault Ste. Marie. The grant, supplemented by local funds, will be administered by the Michigan State Department of Administration.

By BEN PREGAR Automotive Writer

DETROIT—Consumers are continuing to buy new cars at near record rates even while Washington and Wall Street debate the economic health of the nation. Almost seven weeks have elapsed since the sharp break in the stock market in late May, a break which caused deep concern among retailers of such big ticket items as automobiles.

But in the auto field, at least, there so far has been nothing unusual about a normal seasonal change in demand. Car sales traditionally slack off after July 1, yet three major divisions reported their best ever July 1-18 volume.

Chevrolet jumped more than 52 per cent from last year. Ford division was up 38 per cent and American Motors was up 33 per cent. Chevrolet erased its record of 1953. Ford topped its previous 1955 high mark and American Motors surpassed its 1960 peak. Industry sales of 20,250 cars daily were at the highest rate since 1953. Ford topped its previous 1955 high mark and American Motors surpassed its 1960 peak.

Industry sales of 20,250 cars daily were at the highest rate since 1953. Ford topped its previous 1955 high mark and American Motors surpassed its 1960 peak.

Another plus factor in the early July sales was that each of the five manufacturers posted impressive gains over a year ago. General Motors was up almost 45 per cent, Ford Motor Co. 45 per cent, Chrysler 21 per cent, American Motors about 33 per cent and Studebaker more than 33 per cent.

ONLY '62 BETTER

In some of the previous 10-day reporting periods the increases have been accounted for by only one or two companies, especially General Motors.

Ward's Reports, the statistical service, is forecasting total July sales in each of the past four months. Only in 1958, has July exceeded 600,000.

The longer sales remain strong, the less chance there will be for super bargains in the closing weeks of the model year. Most dealers appear to believe they can move most of their 1962 models without cutting prices much below current levels.

The accuracy of this opinion

should become evident by Aug. 1, inventory of slightly less than one million cars should fall off, the inventory to unload at distress prices. Present production schedules and million cars on July 3. This is not automatically climb and at Studebaker already has finished of this week. American Motors will sales forecast will result in an in-not regarded as unwieldy. But if least some dealers will be forced to its 1962 model run. Chrysler Corp. runs in August, as will Ford and

will begin closing down at the end of this week. American Motors will service along the New York State Thruway each year.

most General Motors divisions. The 1963 models will begin appearing in showrooms about the third week in September.

About 67,000 disabled vehicles are furnished with emergency service along the New York State Thruway each year.

Two Year Urban Renewal Grant Received by City

City officials have received federal grant of \$391,014 to cover operation and relocation costs in the R20 urban renewal project.

The capital grant payment is the second received to date as part of the federal government's two-thirds share of the total project cost.

Of the total grant, \$22,249 will be used to cover the cost of relocating persons displaced by urban renewal and \$368,765 will go toward retiring outstanding notes issued to finance R20 operations last December.

The city's first federal grant, received last January, was \$607,499 for operations and \$12,327 for relocation.

PAID \$276,264

The tally sheet to date shows the federal government has paid \$276,264 of \$2,293,317 available in capital grants for the R20 project, and \$34,576 of the \$127,245 earmarked for relocation grants.

Latest progress report issued this week by urban renewal officials shows "substantial progress in both acquisition and demolition," according to David S. Teel, assistant city manager.

Although condemnation proceedings are currently stalled awaiting a judge's decision on the constitutionality of urban renewal, only 61 parcels in the R20 area remain to be acquired from 313 marked for purchase by the city.

"To date, 229 properties have been acquired by deed and 13 more are under option," Teel said.

Some 90 parcels were originally earmarked for condemnation proceedings.

This was narrowed to 73 through negotiations before the hearings began and the city has since reached out-of-court settlements on 10 others.

The city has completed testimony in condemnation cases and preliminary orders have begun to present their cases.

Indications are that the hearing will be recessed in August, resumed in September and finished in October.

OVER HALF WAY

Demolition in R20 is now more than 50 per cent completed," Teel added. "About 146 residential and 9 commercial buildings have been demolished."

Housing and Home Finance Agency officials completed the annual federal audit of urban renewal books last week and our records were found to be in excellent condition."

Local officials are now awaiting final federal approval of plans for the city's second urban renewal project, R-44.

Expected by the end of the month will signal the beginning of negotiations to buy parcels in the R44 area.

Since less than 50 parcels are marked for acquisition in R44, officials expect it to move faster than the first project.

Pontiac General Occupancy High

Rate is 100 Per Cent for Last Week During Normally Slack Period

The demand for beds at Pontiac General Hospital has reached an all-time high for a normally low demand period.

"Occupancy last week exceeded 100 per cent," said Harold B. Euler, administrator, today. "This is very unusual because this is normally one of the lowest occupancy periods of the year."

"For the seventh consecutive period, ending July 14, we averaged 95 per cent. Aside from the final period each year, this is usually our lowest occupancy figure."

Occupancy averaged 96 per cent for the same period last year. "We are cancelling some scheduled admissions almost daily because of lack of beds," Euler noted.

The hospital's emergency department has also been busy, treating patients in the first week of July, an average of about 100 per day.

Fair Weather Covers Large Portion of U.S.

By The Associated Press

Mostly fair weather prevailed over a large portion of the country Thursday and there were few exceptions it rained.

There were some widely scattered thunderstorms in the Carolinas, Florida, the east coast of Louisiana, over southern Oklahoma, southeastern Arizona, New Mexico, North Dakota and Minnesota.

In a six-hour period starting late Wednesday, nearly two inches of rain fell at Jamestown, N.D., about an inch fell during the same period at Fargo, N.D., Alexandria, Minn. About 1 1/2 inches fell at Fort St. Vrain, Colo.

Gal Falls Half-Mile and She's Alive

(Continued From Page One)

Froten jumped. Something went wrong.

Her thoughts in her tumbling fall apparently were to correct her error — if any. For among her first words after the rescue was the question, "What did I do wrong?"

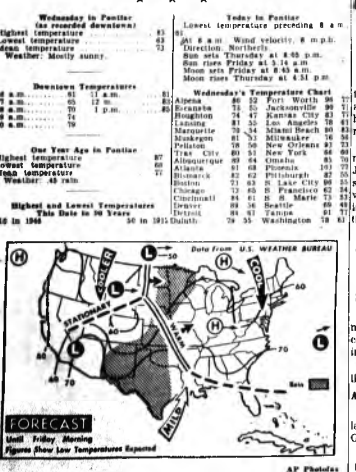

She was wearing an emergency pack but failed to pull the emergency rip cord.

When nitroglycerine explodes, the volume of gas released is said to be 10,000 times greater than the original explosive agency.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Sunny and warm today, high 84. Fair and mild tonight, low 64. Friday fair and warm, high 85. Mostly northerly winds 4 to 8 miles today becoming light variable tonight and southeasterly 8 to 15 miles Friday.

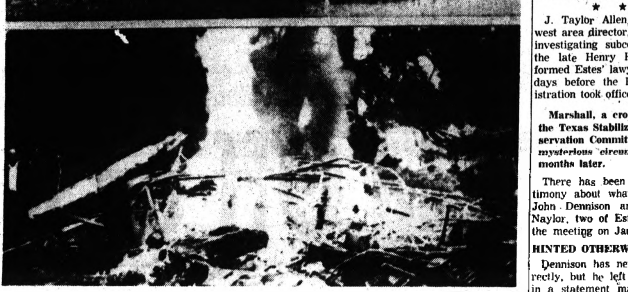

NATIONAL WEATHER — Showers and thunderstorms are due tonight in a band from the upper Mississippi Valley and eastern section of the northern Plains through the central and southern Plains to the southern Rockies. It will be cooler in the northern Plains. Cool weather will continue in the northeast quadrant of the nation and warm weather will continue in the deep South from the southern Plains to the Carolinas.

'Estes' Lawyers Were Warned

Ex-Like Administration Official Claims Pair Knew Scheme Illegal

WASHINGTON (UPI) — An Eisenhower administration official said in sworn testimony today that lawyers for Billie Sol Estes were told that the Texas financier's transfer of cotton allotments was an illegal scheme in January, 1961.

30 SECONDS TO DEATH—Plane piloted by Jim Gerber, 44, of the Swiss Air Rescue service is shown flying and burning after crashing 30 seconds later near Lukmanar Pass, Switzerland killing Gerber. The plane went down after coming in contact with a high voltage cable (top photo). It was carrying fuel supplies for a helicopter that was taking part in rescue operations of a crashed German air taxi.

Ask Court to Hold Off on Remapping

(Continued From Page One)

Supreme Court decision was handed down. He learned of it when he docked and his wife was waiting to greet him with the news.

'INDIVIDUAL'

"I think the legislature has the machinery to go about the task of setting up new districts," he said. "And, I feel that my contention there should be a restoration of equality at the ballot box is now completely vindicated by the courts."

First to react in Lansing was Sen. Carlton H. Morris, Republican from Kalamazoo, who summoned his Senate Judiciary Committee into emergency session to consider the impact of the ruling.

"This makes a monumental mess of things in Michigan," he declared.

Morris suggested calling the legislature into session Tuesday, two days before it is scheduled to meet to take care of clean-up chores of the regular 1962 session.

He said lawmakers might consider enacting a reapportionment plan approved by the state's constitutional convention, which is slated to wind up its deliberations Aug. 1.

The convention, dominated by Republicans, drew up a reapportionment plan based 80 per cent on population and 20 per cent on area, although it failed to meet the 2-1 formula stipulated by the Supreme Court.

At least two members of the House of Representatives, unaffected by the court order, are at work mapping out reapportionment plans of their own.

Sen. John W. Fitzgerald, one of three Republican senators who intervened as defendants in the two-year-old Scholle suit, said an appeal might be made to the U.S. Supreme Court.

Reapportionment on a first population basis, he said, would turn control at both legislative chambers over to Detroit and other heavily populated areas in southeastern Michigan.

Romney proposed to give voters a chance to say whether they want a plan based strictly on population or the constitutional convention blueprint allowing for "sparsity as well as density of population in establishing Senate district lines."

CON-CON VEEP

The automaker is a vice president of the constitutional convention and spearheaded the adoption of the 80-20 plan.

The court's ruling, throwing out 1962 amendments to the state constitution favoring the boundaries of the 34 Senate districts, did not surprise legislators or judicial party leaders.

But its directive for Senate revision in a little more than four weeks seemed many.

Some legislators talked last month of starting impeachment proceedings against the eight justices if they called off the primary election of senatorial candidates and ordered an at-large election in the fall.

Rep. Allison Green of Kingston, House Republican floor leader, had branded it a "meat-ax approach" and indicated he was ready to move for impeachment if that would occur.

Green was vacationing in Michigan's north woods today and was unavailable for comment.

Canada Strike Continues

SASKATCHEWAN, Sask. (AP)—Opposing sides in the controversy over Saskatchewan's compulsory medical care program are talking.

The doctors dropped their demand that the Social Credit government suspend the Medical Care Insurance Act before they would consider a settlement. The doctors' union said it would remain firm on its demand for major changes in the act before returning to normal practice.

The government, however, limited modifications to the act to the doctors' return to their offices. But it moved to placate the doctors on one key point by declaring it considers them free to practice outside the program.

FRENK ARE FIXED

The medical care program which went into effect July 1 covers everyone in the province not covered by a federal program. It is financed through direct assessments and general tax revenues. Doctors' fees are fixed.

Almost all the province's 700 doctors are refusing to practice under it, but about 200 are providing free medical care at 40 emergency clinics. The doctors contend the program will lead to government control of the medical profession. The program's supporters contend the doctors are worried only about their pocket books.

Parties Take Turns Hailing, Hitting Court

(Continued From Page One)

now will allow us to move forward.

"Stalemates will no longer be the order of the day," Luskovich added. "Michigan will be able to have a representative government."

Sen. Carlton H. Morris, R-Kalamazoo, chairman of the Senate Judiciary Committee, was out spoken and bitter. His committee will have the job of recommending any reapportionment bills to the legislature.

"It makes a monumental mess of things in Michigan," Morris said of the decision. This legislature has made government of Michigan a terrible problem. I cannot too harshly condemn the decision."

Morris complained that his committee had not been given the complete transcript of all the rulings.

"But I know right now I don't like the decision," he announced.

ANGRY BLAST

Sen. Lynn O. Francis, R-Midland, issued an angry blast at Gus Scholle and the court.

"I'm fully convinced that Gus Scholle has completely taken over the entire government of Michigan," he said. "I feel the court has vindicated my judgment."

Scholle was out boasting when the ruling came.

Sen. Lynn O. Francis, R-Midland, issued an angry blast at Gus Scholle and the court.

"I'm fully convinced that Gus Scholle has completely taken over the entire government of Michigan," he said. "I feel the court has vindicated my judgment."

Scholle was out boasting when the ruling came.

722 Killed in Traffic

EAST LANSING — Traffic accidents have killed 722 persons in Michigan so far this year, provisional figures compiled by state police showed today. The toll at this date last year was 779.

Higher speed limits on controlled access highways have been proposed in 17 states.

COME IN TWOS—Pete Christy Benjamin is 2 years old, has two broken arms and can handle two poppies. The daughter of Mr. and Mrs. Joseph Benjamin of Gary, Ind., broke both arms in a fall from a swing set in her back yard.

The Day in Birmingham Promoted to Top Position in YMCA Organization

BIRMINGHAM — William H. Beck, program extension secretary of the Birmingham YMCA, has been named to head the local organization.

The appointment of the new executive secretary, announced today by H. Stanley Pratt, chairman of the board of management, becomes effective Sept. 1.

At that time Beck, 35, succeeds Owen Manchester, who has accepted a state-level administrative position in Chicago with the Illinois Area Council of YMCAs.

Beck joined the staff of the local YMCA in November 1950 and since then has been responsible for establishing branches in the Wallis Lake and Troy areas.

A graduate of George Williams College, a YMCA institution in Chicago, Beck has been active in YMCA work for eight years, serving in the Minneapolis, Minnesota, and Fargo, N.D. The new director and his wife.

Beck joined the staff of the local YMCA in November 1950 and since then has been responsible for establishing branches in the Wallis Lake and Troy areas.

Election to Cost County \$30,000

Additional Primary for State Senator Met With Apprehension

An additional primary election for state senator in Oakland County will cost about \$30,000, according to a "conservative" estimate by Clerk-Register Daniel T. Murphy.

A third of the cost, Murphy said, would be charged to the county and the rest would be paid by local precinct administrators.

"I don't know where the money's going to come from," Murphy said. "There's no budget for an extra election."

The additional primary was ordered yesterday by the Supreme Court in its ruling that the state's senatorial districts must be reapportioned.

Murphy said he is awaiting instructions from State Elections Director Robert Murphy, who will do with absentee and paper ballots for the Aug. 7 election which have already been printed and which list senatorial candidates.

Boy Critically Hurt in Bike-Car Crash

A 13-year-old Berkley boy was critically injured in Bloomfield Township yesterday when his bicycle and a car collided.

Russell Weitzel, son of Mrs. Ernest Weitzel of 3533 Wakefield, was riding his bicycle on Maple Road, a quiet residential street, when he was struck by a car.

The youngster was thrown from his bike after he careened off the side of a car driven by Mrs. William Boudreau, 5400 Maple Road, Bloomfield Hills, according to Township police.

Medical aid was given to the boy at the scene by the doctor on duty. He was taken to the hospital.

The accident occurred on Lahser Road, about a quarter mile south of Maple Road, at 3 p.m.

Nunn, in a statement to the Oakland County police, said he saw the boy and moved over to help him on the left when the bike hit the right side of his car.

Echo to Pay Some Calls

Sailing out of the north tonight at 9:22 and 11:25 the Echo 1 television satellite will make two quick passes over Pontiac skies.

You can spot it at 65 to 69 and 82 degrees over the horizon, respectively, moving northeast on the initial run and south on the next time. Two hours later at 1:31 a.m. night owls can crane their necks to see it again, this time at 46 to 48 degrees above the horizon, heading southeast.

Will Be Married Today

NEW YORK (AP)—Anna Rosenberg, former assistant secretary of defense, and Paul G. Hoffman, managing director of the United Nations special fund, will be married today.

Jockey for Medicare Pact

Both sides stated their positions Wednesday before a convention of the ruling Socialist party, the Cooperative Commonwealth Federation (CCF).

The doctors dropped their demand that the Social Credit government suspend the Medical Care Insurance Act before they would consider a settlement. The doctors' union said it would remain firm on its demand for major changes in the act before returning to normal practice.

The government, however, limited modifications to the act to the doctors' return to their offices. But it moved to placate the doctors on one key point by declaring it considers them free to practice outside the program.

FRENK ARE FIXED

The medical care program which went into effect July 1 covers everyone in the province not covered by a federal program. It is financed through direct assessments and general tax revenues. Doctors' fees are fixed.

Almost all the province's 700 doctors are refusing to practice under it, but about 200 are providing free medical care at 40 emergency clinics. SPREAD NEWS To Outnumber Whites in Cities'

Other Races Predicted
to Increase Faster in
50 Top Metropolises

MADISON, Wis. (UPI) — Non-whites are well on their way to outnumbering whites in the nation's 50 largest cities, two University of Wisconsin sociologists have reported.

"If the patterns continue, our largest metropolitan areas may eventually consist of white rings surrounding nonwhite cities," professors Harry Sharp and Leo Schuman said yesterday.

The researchers said census figures showed nonwhites growing two to four times faster than the white population in the 12 largest U.S. cities. Each of the 50 largest cities showed increased proportions of nonwhites between 1950 and 1960, they said.

The professors, writing in the current "Land Economics," a university journal, said great numbers of nonwhites are migrating to the cities while whites move to the suburbs.

The term nonwhites, they said, designated mostly Negroes, but also includes Orientals, Mexicans and Indians.

Ninety per cent of all northern metropolitan areas have increasing nonwhite proportions, the report said. But only 35 per cent of southern metropolitan districts followed the same trend.

"Continuation of these trends would certainly have tremendous implications for the future of the metropolitan community," the authors said.

"There will probably be significant political repercussions. We anticipate increasing demands among nonwhite people for greater representation especially in local government but also in the national congress," the team said.

Urban Renewal Grants OK'd for 4 Communities

WASHINGTON (AP) — A grant of \$37.78 to help four Michigan communities prepare plans for their economic growth was announced yesterday by the Urban Renewal Administration.

The communities are Albion, Coopersville, Ithaca and Sault Ste. Marie. The grant, supplemented by local funds, will be administered by the Michigan State Department of Administration.

Near-Record Auto Sales Ignore Wall St.

By BEN PHILGAR
Automotive Writer

DETROIT—Consumers are cool, but the new cars at near-record rates even while Washington and Wall Street debate the economic health of the nation.

Almost seven weeks have elapsed since the sharp break in the stock market in late May, a break which caused deep concern among retailers of such big ticket items as automobiles.

But in the auto field, at least, there so far has been nothing other than a normal seasonal change in demand. Car sales traditionally slack off after July 1, yet three major divisions reported their best ever July 1-18 volume.

Chevrolet jumped more than 52 per cent from last year. Ford division was up 38 per cent and American Motors was up 33 per cent. Chevrolet erased its record of 1953, Ford topped its previous 1955 high mark and American Motors surpassed its 1960 peak.

Industry sales of 20,230 cars daily were at the highest rate since the record year of 1955. This "second-best" pattern has held ever since January.

Analysis found the strong July rate especially significant since it was made up almost entirely of cars ordered after the stock market jolt. Many cars delivered in June had been ordered prior to the Wall Street gyrations.

Another plus factor in the early July sales was that each of the five manufacturers posted impressive gains over a year ago. General Motors was up almost 45 per cent, Ford Motor Co. 46 per cent, Chrysler 21 per cent, American Motors about 33 per cent and Studebaker more than 53 per cent.

ONLY 35 BETTER
In some of the previous 10-day reporting periods the increases have been accounted for by only one or two companies, especially General Motors.

Ward's Reports, the statistical service, is forecasting total July sales in each of the past four months. Only in 1955, was July exceeded 600,000.

The longer sales remain strong, the less chance there will be for super-bumping in the closing weeks of the model year. Most dealers appear to believe they can move most of their 1962 models without cutting prices much below current levels.

The accuracy of this opinion

should become evident by Aug. 1, inventory of slightly less than one sales should fall off, the inventory to unload at distress prices. Present production schedules and million cars on July 1. This will automatically climb and at Studebaker already has finished its 1962 model run. Chrysler Corp. run into August, as will Ford and

will begin closing down at the end of this week. American Motors will serve along the New York State Thruway each year.

nist General Motors divisions. The 1963 models will begin appearing in showrooms about the third week in September.

About 67,000 disabled vehicles are furnished with emergency service along the New York State Thruway each year.

A recent survey of motorists' fuel buying habits disclosed that 70 per cent of those interviewed usually buy gasoline by the tank. Some 25 per cent buy by the gallon and 5 per cent by the national newspaper advertising in 1960 to let the public know about manufacturers of gasolines and their products.

Find Time for It

Exercise Is Necessary

By JOSEPHINE LOWMAN
Most of us feel that we have certain things we must do each day. We eat. We take a bath. We do our housework and our marketing. We fulfill our social and civic obligations and chauffeur our children. We consider these things essential.

It is too bad that more women do not think of daily exercise as a "must."

It is too bad because regular exercise does such wonderful things for us. It is beautifying and vitalizing. It rids us of minor physical discomforts and banishes fatigue.

Exercise tones the body for a more efficient performance. It stimulates the skin and the liver. It strengthens the heart. It can banish constipation. It conditions the lungs and the blood vessels. It is relaxing.

There is no denying the value of exercise. Today we are conscious of this, not only for cosmetic reasons, but for reasons of health. The medical profession has been emphasizing its importance more than ever recently.

IT'S ESSENTIAL

The point I want to make today is that unless you consider exercise an essential, like the other things you do, you just will not find time for it. Everything else will come first.

The only way you will be faithful with exercise is to make it an essential in your own mind. Put it on your list, just as you do three meals a day.

You do not have to exercise for long periods. Just 15 or 20 minutes a day will be beautifying and rejuvenating.

The engagement of Sharon Elaine Wheeler to Louis K. Norberg Jr. is announced by her parents, Mr. and Mrs. Burl G. Wheeler of Ostrum Street in Waterford Township. Her fiancé is the son of the senior Louis K. Norbergs of West Brooklyn Avenue.

SHARON ELAINE WHEELER

Have You Tried This?

Chocolate Cake Moist If Made With Bananas

By JANET OUELL
Pontiac Press Home Editor
You've all had recipes for banana cake. We have printed a good many, both here and in the weekly food columns. But Mrs. George Kish of Walled Lake has a new twist to the banana cake she makes; hers is chocolate flavored.

The Kish family has lived in Walled Lake only a few years. There are 3 children in the family. Mrs. Kish says she loves to cook and to weave, but that there is never enough time for either one.

CHOCOLATE BANANA CAKE:

By Mrs. George Kish
2½ cup shortening
1½ cups sugar
4 eggs
3 squares chocolate, melted
2½ cups sifted cake flour
1½ teaspoons soda
1 teaspoon salt
1½ cups buttermilk

¾ cup mashed bananas
½ teaspoon peppermint flavoring.

Cream shortening with the dry ingredients and half the buttermilk and a bananas (mix the last two together). Add melted chocolate. Beat in eggs. Add remaining buttermilk and bananas. Add flavoring. Pour into greased 9x9 or 9x13-inch pan. Bake about 45 minutes in 350-degree oven.

You will scarcely taste the bananas, but they will keep the cake moist.

Frosting:
½ stick margarine
1 egg
2 squares chocolate, melted
confectioners sugar
peppermint flavoring
Cream margarine and egg. Add sugar to make frosting of right consistency. Add flavoring, then chocolate last. This will thicken the frosting somewhat.

Miss Lazenby Honored With Bridal Shower

Marlene Joyce Lazenby of Rowley Street in Drayton Plains opened bridal gifts during a shower at her home Sunday.

Hostesses for the occasion were Mrs. Thomas Struble of Waterford Township and Judith Kruger of Sturgis.

Miss Lazenby is the bride-elect of David J. Struble, son of Mr. and Mrs. Milo Struble of Waterford Township. They will marry Aug. 18 at the Christ Lutheran Church in Waterford.

The bride's attendants are Mrs. Struble, matron of honor; Miss Kruger and Mrs. Alana Padbury of Ann Arbor.

Guests for the afternoon dessert luncheon were Mrs. Royce K. Lazenby, Mrs. Struble, Mrs. James Olson, Mrs. Kenneth French and Barbara Talladay. Others were Mrs. George Talladay, Mrs. Wayne Lundy, Mrs. H. Delos Nicholle and Mrs. Thomas Knight. Mrs. Winford Rogers and Mrs. William Vogt of Drayton Plains also attended along with Mrs. Don Booth of Davisburg.

Shower Heads
A head for modernizing or bathroom: room is to install two shower heads—one set at 6 feet above the floor, and the other at 4 feet.

The lower one is fine when you want to enjoy a shower without drenching your hair. And the youngsters will feel more comfortable if that nice warm "rain" falls from not too high up.

Glowaz Blanks League Leaders

Don Glowaz of the R. T. Clippers continued his brilliant hurling in the Class A City Baseball League last night as he scattered eight hits to blank league-leading Huron-Airway, 2-0, at Jaycee Park.

Glowaz was in trouble in nearly every inning, but he kept closing the door on Huron's heavy hitters. John Flosser, Ed Estes and John Shanks each made two safeties off Glowaz.

The 19-year-old southpaw had his greatest difficulty in the 7th when Huron loaded the sacks with two out. Estes lined the first pitch to second baseman Dave Diehm to end the game.

Birmingham Invitational Underway This Weekend

The 17th annual Birmingham Invitational best ball tournament will start Friday after today's qualifying, without the defending champion team of Tom Draper and Harry Niederlander.

Draper and Niederlander are both entered in the Western Amateur to take part in the Birmingham Invitational with Jack Andrews, realtor from Birmingham.

ANDONIAN ENTERED
Last year, Andonian teamed with Sam Greenwall took runner-up honors in the tournament. About 30 teams went through qualifying yesterday and the remainder of the 96 teams entered are expected to complete their qualifying today.

The low 10 teams will enter the championship fight for the match play portion which will begin at 8:00 a.m. Friday and continue through Sunday. In yesterday's qualifying, Jack Geiss and Chuck Granader took the honors with 68. Dr. John Sigler and Chuck Kocis were among the top contenders qualifying today. Ben Smith and Dr. Fritz Adams, 1959 winners are not entered as they are also competing in the Western.

In 1960, the tourney was not held because of repairs being made to the course.

Pontiac Tennis Is Boosted by New Net Club

The newly organized Pontiac Tennis Club elected officers yesterday and listed its goals and schedule for the current season.

Ralph Alce was elected president, Leon Hibbs vice-president and Dick Mallory, secretary-treasurer.

The club, backed by the city recreation department, will cooperate with the rec department in promoting its tennis program. Intra-club singles matches will be held each Wednesday evening and doubles matches on Sunday afternoons. Matches with tennis clubs from other cities have been arranged. Last week, the PTC lost a 5-3 decision to East Detroit Tennis Club in its first outing. Return match with East Detroit and home matches with Flint, Port Huron and Birmingham are on a tentative schedule.

Anyone can join the club at Oak and Park each Wednesday evening.

Spencer Nips Stroh in 8 Innings, 3-2

Defending champion Spencer Floor Covering moved within one game of league-leading Stroh's in the Waterford Class B softball race last night by rallying for a 2-2 eighth-inning victory over the brewery team at Drayton Plains.

Spencer tallied twice in the top of the 7th to tie the score on doubles by John Studt and Harry Dearborn and a single by Ed McNamara. Wanting pitcher Jack Nelson scored the deciding run in the 8th as he walked and came all the way home on three wild pitches by losing hurler Jim McClellan.

Jockey Change Was All That Jaipur Needed

NEW YORK (AP)—Trainer Bert Mulholland hoped Wednesday he had found the solution to the daily behavior of Jaipur, winner of the Belmont Stakes. Jaipur hasn't started since he won the Belmont June 9 because Mulholland couldn't get him on the track for his workouts. He even sent him to owner George D. Widener's Kentucky farm near Philadelphia for a change in scenery.

Mulholland borrowed Richard Villareal, former jockey, from trainer Bob Robertson Wednesday morning and popped the stranger on Jaipur's saddle. Jaipur, who had tossed his regular boy on other occasions, went to the Belmont Park main track like a little gentleman.

Name Street for Mickey

DETROIT (AP)—A street running alongside Tiger Stadium here will be named Cochrane Ave. in honor of the late Mickey Cochrane, one-time great Detroit Tiger catcher. The city plan commission has approved renaming National Avenue.
