

'Take Me Home'

Postcard Photo
A LIVE CHRISTMAS PRESENT—This fat little collie is pleading for a chance to romp with youngsters. One of the many puppies and dogs available now at the Oakland County Animal Shelter, he would make an ideal Christmas present for some youngsters. (See additional photos on page 25.)

Christmas Gifts Needn't Cost Lot

By JANET ODELL

Gift exchanges when you are limited to a certain price sometimes pose a problem. It was with that in mind that we went snooping last week. We're happy to report that there are a number of items you can buy for a dollar or less.

We saw some interesting key holders, two for women and one for men. There are leather ones that have a thimble or small knife on the end opposite the keys. Others are clear plastic with flowers and a first name inside.

Dems Collected \$21,117 in Drive

County Party's Outlay Is Far Less Than That Reported by GOP

County Democrats said they spent \$17,250 and collected \$21,117 in their 1960 efforts to seat some of their party candidates in county offices.

Their expenses and receipts, as listed on a report filed four days later with County Clerk-Register Daniel T. Murphy Jr., were considerably under what Oakland County Republicans said they took in and paid out.

In a reported record-high year for contributions, Chad M. Ritchie, GOP county committee treasurer, said \$187,644 was collected.

Ritchie said \$82,185 was spent from the Aug. 2 primary through the Nov. 8 election, the bulk of which was forwarded to the Republican State Central Committee. While Ritchie filed an inch-thick report which contained 194 single-spaced pages listing contributions ranging from 20 cents to sums of four figures, Democrats made a less detailed report on four sheets. It was submitted by Louis H. Golden, Democratic committee treasurer.

Included were seven entries of receipts. They were \$3,161 from a membership drive, \$3,171 from the annual "Dollars for Dems" drive, and \$3,270 from the fall congressional dinner.

Golden's statement showed that congressional candidate James G. Kells received \$3,650 from the county committee from September through November.

The Democratic State Central Committee was sent \$3,085 from Oakland County as its quota, while \$338 was dispatched to the Democratic National Committee as the

Bus Terminals Must Serve Negroes

Urges Giant Changes in Defense Setup.

PALM BEACH, Fla. (UPI) — Sweeping changes in the American defense establishment, including abolition of the Army, Navy and Air Force secretaries, with a possible annual saving of \$8 billion, were recommended today to President-Elect John F. Kennedy.

The goal would be to give the secretary of defense instantaneous control in event of nuclear war.

After receiving the defense reorganization report from Sen. Stuart Symington, D-Mo., Kennedy said it was "an interesting and constructive study which I am sure will be carefully analyzed by the Congress and the incoming administration."

The recommendations resulted from a study requested by Kennedy during the recent campaign and conducted by Symington and a committee of five members, including four former officials of the Defense Department.

Principal aim of the recommendations, according to Symington, was to streamline the Defense Department to meet the needs of the nuclear space age by eliminating "the arbitrary and ridiculous divisions between land, sea and air."

Symington told a news conference after conferring with Kennedy that in his opinion his committee's recommendations would cut present military spending by about 20 per cent or \$8 billion annually.

FLOWING BACK LIKELY

But said this money likely would have to be plowed back for such things as new weapons development and ap arms control program.

Meanwhile, in Washington, President Eisenhower has directed his top military, diplomatic and fiscal advisers to stand by to brief Kennedy Tuesday if Kennedy wishes to see them, the White House said.

Secretary of State Christian A. Herter, Defense Secretary Thomas S. Gates Jr. and Treasury Secretary Robert B. Anderson will be waiting in the Cabinet room while Eisenhower and Kennedy confer alone in the President's office shortly after 9 a.m. (Pontiac Times)

White House Press Secretary James C. Hagerty said it would be a population of 194,980.

GRAND RAPIDS IS NO. 2
GRAND RAPIDS (AP) — Federal Census Bureau certification today gave Grand Rapids a firm grip on the title of Michigan's second largest city with an official population of 197,193. Flint was second with a population of 194,980.

Bearded Bovines Next?

Cuba Shudders at Moo-n Shot

From Our News Wires

HAVANA — Does Cuba plan to challenge India as a worshiper of the sacred cow?

Fidel Castro's followers haven't sharpened their horns over the matter yet, but a space-age accident has given them a chance to moo at the United States.

About six cows joined 250 demonstrators outside the U.S. Embassy here Sunday. They hoofed around to dramatize a Castro government charge that a fragment of a destroyed U.S. Thor-Able Star rocket committed a fatal "aggression" against a Cuban cow last week.

The picketing cows expressed their "udder" disdain by carrying anti-American signs bearing slogans like "If you keep killing us we'll call out the bulls."

"While the cows mooed, the people shouted epithets and obscenities at the scheming 'aggressors.'"

Police kept all at a distance from the mob.

When the cows — and people — saw nothing more "cud" be done, they all headed for greener pastures.

Dems Draw Up Plans for New Era in State

Staebler Sheds Tears as Williams Dynasty Nears Conclusion

LANSING (AP) — Michigan Democrats were deep in plans today for splitting the spoils and on holding the ceremonies they won title to by their victory at the polls Nov. 8.

Rallying around Gov.-Elect John B. Swainson, they searched for new candidates and leadership as party machinery began warming up for the 1961 spring election.

Swainson assumed formal command of the party Sunday and State Chairman Neil Staebler made a tearful farewell at a recent turn-out meeting of the Democratic State Central Committee.

Nearly 350 party leaders, fall election candidates and rank-and-file workers attended the standing-room-only session, mostly to congratulate each other on Nov. 8 election victories.

Tributes to those active in the campaign consumed nearly 2½ hours.

The youthful governor-elect, who will succeed G. Mennen Williams Jan. 1, drew a standing ovation as the man "Republicans were sure they could beat."

Notably absent from the meeting was Gov. Williams, who, as the newly appointed assistant secretary of state for African affairs, was attending a meeting at Princeton, N.J., to discuss creation of a new university in East Africa.

ASKS 'REAL ECONOMY'

Swainson called for party support for tax reform, more spending for education and "real economy" which does not sacrifice needed government services.

The group got no indication from Swainson on his choice, if he has made one, of a successor to Staebler, who will step down.

(Continued on Page 2, Col. 1)

Answer Questions

DISCUSS REUNION — The Rt. Rev. James A. Pike (left), Episcopal bishop of California, sits with the Rev. Dr. Eugene Blake of Philadelphia in San Francisco Sunday as they answer questions of newsmen about Dr. Blake's proposal to reunite the two main strands of American Protestantism. (See story on Page 12.)

Michigan GOP Remains Confident in Its Leaders

LANSING (AP) — Michigan Republicans met at Lansing this weekend to begin laying the groundwork for the 1961 spring election.

The GOP State Central Committee passed a resolution lauding Republican State Chairman Lawrence B. Lindemer and agreed to ask Vice President Richard M. Nixon to address the party's state convention Feb. 3-4 in Detroit.

It also set up an advisory committee to recruit Paul D. Bagwell, defeated GOP candidate for governor, and others to help in future campaigns.

The vote of confidence for Lindemer was seen partly as a slap at Sen. John P. Sweeney, who called Friday for Lindemer's resignation.

The Coldwater Republican was beaten when he battled Lindemer for the state chairman post two years ago but indicated he would make another try for the job in February.

Lindemer said he has not decided whether to bid for another term in the \$75-per-working-day assignment, but friends said he probably would run.

Reportedly ready to seek the post if Lindemer quits are Jack R. Stiles, of Grand Rapids, who worked on the Nixon campaign team, and Arthur Elliott of Pleasant Ridge, Oakland County GOP chairman.

Lindemer said he would name a chairman of the new party advisory committee, who in turn will appoint committee members from inside and outside the GOP State Central Committee.

WILL ASK BENTLEY

The group will advise party leaders on policies, financing, campaign strategy.

Supreme Court Desegregates Stopoff Cafes

7 to 2 Decision Cites Hindrance of Interstate Commerce

WASHINGTON (AP) — The Supreme Court today decided "white" restaurants in interstate bus terminals must serve Negroes making journeys across state lines. Justice Black delivered the 7-2 decision. Justice Whitaker wrote a dissenting opinion in which Justice Clark joined.

The tribunal ruled on an appeal by Bruce Boynton, a Negro who was fined \$10 for refusing to leave a "white" restaurant in the Trailways bus terminal in Richmond, Va.

Boynton, then a law student at Howard University in Washington, D.C., was en route to leave a "white" restaurant in the Trailways bus terminal in Richmond, Va.

Boynton was fined in Richmond Police Court, under a Virginia law making it a misdemeanor to refuse to leave premises on demand of person in charge. The law has a maximum penalty of \$100 and 30 days jail.

Boynton's bus stopped at the terminal for a 40-minute layover during the late evening.

The terminal, as do many department stores and stations in the South, had a restaurant for "colored" and one for "white" only.

Boynton said the restaurant for Negroes was crowded, so he entered the "white" restaurant. A waitress told him she had orders not to serve Negroes there and asked him to use the other restaurant.

Boynton refused to leave on demand of an assistant manager, who then called police.

CITES CONSTITUTION

In appealing to the Supreme Court, Boynton contended his arrest violated the due process and equal protection clauses of the U.S. Constitution. He also argued the arrest was invalid as a burden on interstate commerce.

Walter E. Rogers, special assistant attorney general of Virginia, argued before the high tribunal that the "white" restaurant was privately owned and operated, and had no affiliation with the bus company. The restaurant operated under a lease.

The restaurant operator after the incident desegregated the facilities. But Thurgood Marshall, attorney for Boynton, said that while Negroes were being served, the signs are still up, with the result of adding more confusion to the situation.

Justice Black's majority opinion said the question was decided whether an interstate bus passenger is denied a federal statutory or constitutional right when a restaurant in a bus terminal used by the carrier along its route discriminates.

(Continued on Page 2, Col. 3)

Showers Tonight and Snow Tuesday

A few showers may fall late this afternoon or evening with temperatures in the Pontiac area dropping to a low of 34, the weatherman predicts.

Tuesday will be cloudy, windy and much colder with a few snow flurries. A high of 39 is expected.

For the next five days temperatures will average near a normal high of 34 to 38 and a normal low of 28 to 32. Thursday will be warmer but colder weather is due again Friday.

The lowest temperature in downtown Pontiac preceding 8 a.m. was 11. The mercury read 42 at 2 p.m.

News Flashes

DETROIT (AP) — Chevrolet and Cadillac said today their sales of cars for November and the first 11 months of 1960 were their highest in history.

DETROIT (AP) — Five major dairies raised the price of milk a penny a quart today, and others are expected to follow suit this week.

'Santa and the Boy Fish'... A Christmas Serial for Youngsters

Little Michael Poor in Money, Rich in Dreams

HE WAS HAPPY — Michael heard secret sounds from the sea that no one else could hear. And he saw strange things no one else could see.

By LUCRETIA HUDGINS BEALE

Once upon a time, in a little village by a faraway sea, there lived a boy named Michael McBurney. His father was a fisherman but times were hard. There were many other fishermen in the little village and not many buyers of fish could be found.

Michael's mother mended nets to earn a few extra pennies and the family just managed to get along.

Michael did not mind being poor. His one great love was the sea, and that was true. Every day he played in the water that lapped the village shores.

SKIPPED STONES

He swam and rowed and skipped stones. He fished and searched for shells. All these things cost him nothing and he was very happy.

But he was happiest of all when he sat on the rocky cliffs above the village and stared across the sea, listening to secret sounds no one else could hear, and seeing

strange things no one else could see.

This may sound impossible but it was true. Nevertheless, things often happened to Michael that no one, not even his mother, would ever believe. Yet, when people scoffed at his stories, there was always something they couldn't explain.

For instance, one stormy night Michael was awakened from a deep sleep. He heard the wind racing around the eaves and the rain thrashing against the window panes.

He struggled deeper in the covers and was almost asleep again when suddenly he heard a clippety-clop, clippety-clop right over his head!

17

SHOPPING DAYS TILL CHRISTMAS

He set up in bed and his mouth

fell open as he strained to hear. There it was again—clippety-clop, clippety-clop—clear as could be.

Michael tore from his bed and raced to his parents' room.

DAD WAS ANGRY
"There's a horse! A horse of the north!"

His father was angry at being awakened and his mother told Michael it was a dream and sent him back to bed.

But the next morning he still insisted it had been so and when he went outside he found a horse shoe lying at the door.

Triumphantly he carried the shoe to his parents crying, "Look! I told you, I told you!"

Still his father scoffed. "It was

probably thrown there by someone from the road. Forget it now—it's just another of your wild ideas."

But there was a look of wonder in the old fisherman's eyes as he turned away from his son.

No one had believed Michael either when he swore he had

heard a fish playing a mouth harp in the sea and seen a bird flying a kite, that had been caught for three weeks in a tree.

Still people couldn't explain how a mouth harp had been found on the beach nor why the kite that had been so long in the tree was no longer there.

Michael spent more and more time by himself on the beach. He longed to know what lay beneath the surface of the sea.

When he opened his eyes under water he could see nothing, yet he was sure that marvelous things were there if only he could swim deep enough and see clearly enough to find them.

Then one day a wonderful thing happened. When he went to his usual place on the cliff above the village he found a diving mask and a pair of rubber flippers lying on the rocks.

"Where had they come from?" wondered Michael. "Who in the village would be rich enough to own such things?"

Suddenly, snatching up his find,

Michael rushed down to the shore. He slipped the flippers on his feet, fitted the mask over his face. Then, his heart racing with excitement, he slipped into the water to find the wonderful kingdom he knew must be there.

World's Fair Designers Quit as Plans Rejected

NEW YORK (AP)—Designers for the New York World's Fair of 1964-65 have quit the job. They claimed their designs didn't get fair treatment from fair officials. Among them were some of the country's foremost architects and industrial designers. Disclosing Friday that they had bowed out, they said their plans had been rejected and there wasn't any use staying. Their expressions ranged from mild regret to bitterness.

Gordon Bunshaft, chief designer for an architectural firm which planned several modern Manhattan office buildings, asserted: "I quit because I didn't want to participate in something I do not believe in."

"We were trying to design a plan that would be an expression of our times, Mr. Moses (fair president Robert Moses) and the board wanted a repeat of the old World's Fair plan of 1939."

"Why should architects hang around four years beating an old coat?"

The designers appeared upset chiefly over rejection of their plan for a single huge building to house all exhibits. Fair officials said this plan was impractical because it was not adaptable to trees, side walks and underground wiring.

The cabbage looper is a climbing cutworm, "which destroys cabbage. The cabbage looper is so called because it gets into cabbage by looping."

Joan Fontaine Learned Lesson of Health

Work to Live, Don't Live to Work

By HAL BOYLE
NEW YORK (AP)—You rarely find people who are grateful for a long illness.

Actress Joan Fontaine is. She thinks a long illness is the best way to cure anyone with a success fetish—and teach him true values.

"My illness led me to grow up at last," she said.

"It was my diploma to life."

Miss Fontaine is fully recovered from a two-year bout with ailments ranging from energy draining to osteoarthritis to hepatitis and undulant fever.

Looking as lovely as a yellow primrose, the blonde film star radiated health and a hazel-eyed vitality as we lunched in the old-fashioned elegance of the Edgewater Room at the Plaza. The eyes of nearby

lady diners showed envy of her fresh air.

"I hate to talk like a Pollyanna about a thing that can be as devastating as illness," said Joan, "but it's the way I really feel."

"Everyone should be so lucky—to have a pause in your life for an appraisal, and to see clearly for the first time what life really has to offer."

UNIMPORTANT!

"It's a great, great thing. All the minor worries people fret about, the problems that haunt most of us—success, financial security, personal popularity, growing older—all become so terribly unimportant."

"When the time comes again when you can dress yourself, when you can get up and walk about supported once more by your own backbone—well, it's like being born again. But better."

"I wish my illness could have happened to me when I was 12. I wasted so much of my life."

"I accomplished a lot, but I didn't enjoy it."

Tiny Animal Figures New for Christmas

NEW YORK (AP)—New for Christmas are miniature animal figures made of acetate plastic and decorated with a wood-grain effect so they look like hand-carved wood sculptures.

Horses, cattle and dogs are included in the figures, which are executed with great detail. They can easily be maintained by dusting or wiping with a damp cloth.

1776 Christmas Called 'Greatest' by Historian

ORONO, Maine (UPI)—The Christmas of 1776 was "America's greatest Christmas," according to the University of Maine Prof. George Billias.

The noted Maine historian said Washington crossed the Delaware on that bitter cold night to launch a stunning surprise attack against the Hessians who were still recovering from their holiday revelry.

Billias said, "The brilliant triumph that followed helped turn the tide of the Revolutionary War."

This victory, he concluded, "gave the nation a priceless Christmas gift—a giant step toward American independence."

Even an old joke is pretty funny, the way the boss tells it.

—The reason some women repeat gossip so quickly is that they want to tell it before they find out it's not true.—Earl Wilson.

NEW COLUMBIA-VIKING DESK ENCYCLOPEDIA, revised and enlarged for the 1960s, has 11,500 articles, many all new, new tables, figures, maps, drawings. Not a dictionary, maximum coverage up-to-date information. **\$9.95**

Winter Driving Full of Danger

Get Feel of Road by
Trying Brakes and Then
Act Accordingly

CHICAGO (UPI)—The National Safety Council says that winter need not be a dangerous time to drive if you:

1. Winterize your car, your driving techniques and your attitudes. Normal speeds often are too fast for winter conditions.

2. Use good tires, preferably snow tires. For more severe conditions, use reinforced tire chains.

3. Keep windshield and windows clear and wiper blades, heater and defroster in proper operating condition.

4. Get the feel of the road as soon as you start out (but away from the hazards of other cars). Cautiously try your brakes or gently press your accelerator to learn how slippery the road surface is. Then adjust your speed accordingly.

5. Keep well back of the vehicle ahead to give yourself plenty of room for an emergency stop.

6. Pump your brakes to maintain best steering control when braking on ice or slippery snow. Jamming on the brakes will send the car into an uncontrollable slide. The trick is to slow the car by rapid and intermittent brake applications and at the same time maintain rolling traction that gives steering control.

Berlin Officials 'Heel'

BERLIN (AP)—West Berlin's traditional mosaic sidewalks are going to be paved smooth because their small, irregular stone blocks are murderous for a woman in spike heel shoes. Officials aren't sure how much this bow to the ladies will cost.

News Agency Closed

BUENOS AIRES, Argentina (AP)—Police Friday closed the pro-Castro news agency Prensa Latina and arrested four staff members in an investigation following Wednesday's short-lived uprisings in Argentina.

Buys Ann Arbor Firm

NEW YORK (AP)—American Home Products Corp. has acquired Franklin Foods, Inc., of Ann Arbor, Mich., through an exchange of shares. Franklin Foods, a manufacturer of specially processed meats, will become a part of the American Home Foods Division.

A HANDSOME gift for Dad is pajama set of cotton. He can always look well-groomed for cotton has built-in wrinkle resistance. Fleurs-de-lis pattern is unusual.

They Provide Beards for Santa

Nylon Chin Whiskers
Are Big Business for
This New York Firm

Next time you hear of someone who wears nylons all day and rinses them out in the basin at night, don't automatically assume it's a working girl taking care of her beauty.

It may be Santa Claus washing his nylon whiskers. Toys need no longer be disillusioned by dingy, bedraggled-looking street-corner Santas with tattered-gray beards. And mothers don't have to hesitate before entrusting their youngsters to a department store Santa.

These days nylon whisker and wig sets that can be cleaned and sterilized make it possible for Santa to look as if he never went near a sooty chimney.

Probably the men who know the most about where Santa Claus whiskers come from are New York manufacturers Meyer Jacoby and his son Adolph.

Suppliers of nylon beards and wigs, they estimate that they have turned out well over 20,000 sets during the 10 years since they began using nylon.

Among their biggest customers are the Volunteers of America, traditional harbingers of Christmas whose bell-ringing Santas are on the many city streets.

Fresh, clean whiskers are issued to each Santa every morning, and every night Santa turns in his soiled beard for laundering by the Volunteers' staff.

Pearl Harbor Symbolic of 'Sneak Attack' Evils

Perhaps it seems in poor taste to remember Pearl Harbor day on Dec. 7, when the war has been over 15 years, and the Japanese are now allied with us, although somewhat loosely at times.

But there are 1,102 good reasons why this day should never be erased from the memories of generations of Americans.

There are 1,102 bodies encased in the battlewagon USS Arizona which went to the bottom that Sunday morning at Pearl Harbor.

Pearl Harbor Day is not particularly anti-Japanese in observation.

It may have been, originally, but time has distilled that somewhat. What happened that day should have a much wider significance today.

The rusting hulk that is what remains of the Arizona is a submerged testimonial to the price of survival, and the wickedness of death by surprise attack.

The minutes before those first bombs whistled down were the last moments of true peace our nation would have for 20 years — moments of peace which have yet to return.

Perhaps even before the bombs, it was not peace then. The United States was already backing England against Hitler.

When the hot war firing ended in 1945, the cold war sniping began, with an interruption in Korea, and it continues today.

The threat of surprise attack is still with us, this time from a foe much larger and better equipped.

A few walls with "shelter" stenciled on them and a civil defense program that is still aborning after many years of public indifference are not going to prevent thousands of land-locked "Arizonas" from holding the bones of generations of Americans.

The chances of an undetected "sneak attack" are much slimmer today, thanks to the expensive detection devices we employ, and also to the realization that future wars will undoubtedly be launched with surprise attacks.

But even if such an attack were detected, there would be slight possibility of saving the millions who would die.

Detection cannot be completely equated with survival. For this reason our efforts to bring about true peace must be more meaningful to average Americans.

We are convinced that we can best negotiate the continued existence of our people and our form of government by maintaining a large security force at the ready, and letting our opponents know this.

This is expensive, but it will minimize another "Arizona" and sneak attack which we observe as a reminder every Dec. 7.

Hospital Ship Medics Bring Healing to Asia

With the appointment of Dr. Harold A. Furlong to the State Physicians Committee for Project Hope, the people of Pontiac will have an even greater interest in this imaginative humanitarian undertaking.

For the past two months the floating medical school has been in Indonesia giving aid and teaching newer methods of healing to native doctors and nurses. When the big white ship docked at Jakarta, the capital city, the only

college level nurses' training school in the nation was closed for two weeks and the entire student body and staff were sent to the SS Hope for instruction.

The main object is to teach native medical workers the fundamentals of public health and medical treatment. However a limited number of patients do receive treatment on the ship if the case is urgent and time and facilities permit.

The one time Navy hospital vessel will be anchored off Bali for the next three weeks but the 15 doctors and 24 nurses will see little of that romantic island. They will be teaching the latest techniques in treatment of yaws, malaria, tuberculosis and parasitic diseases.

After four more months in Indonesian ports the Hope will move on to Viet Nam for four months and then back to the United States after a full year's service.

Dr. Furlong should have every possible assistance in his effort to secure public support for this good-will mission which is largely underwritten by contributions from U.S. corporations, labor groups and individuals.

The Man About Town

Still Do Farming Even if the Census Reports Do Indicate to the Contrary

Bachelor: A man crazy to get married—but he knows it.

The division of Oakland County's population, according to the official figures of the 1960 federal census, just released, almost ignores our rural aspect. It shows that our urban residents increased from 72.3 per cent of our total in 1950 to 88.2 per cent in 1960.

This indicates that our county is becoming more "cityfied," which is true, as the urban category now not only includes the cities and villages, but also all suburbs with 2,500 or more.

Hence, with the remaining 11.8 per cent regarded as suburban, nearly all of our farmers become suburbanites.

However, this must not be construed to indicate that Oakland County no longer has a very substantial rural area. It now is largely located in the "suburbs."

As the farmers have been pushed back by the county's industrial growth, they have resorted to better fertilization, crop rotation and other modern methods, and are keeping us among the leading agricultural counties of the state.

Don't try to minimize the appointment of Michigan's

G. Mennen Williams to the African job. It's one of the most important, an even more responsible position than some top cabinet offices. And he had it coming. As I sat in Kennedy's office for a few hours at the Chicago convention, between his nomination and that of vice president, I noticed that he gave more time to our Soapy than any other man, except Walter Reuther.

Recent suggestion award winners at Pontiac Motor Division were led at \$508 by

Ray Welch, with a close second, at \$504, by Cecil Lankford,

as 51 others each won from \$30 to \$695.

A phone call comes in from Mrs. Norma Lanzo

of Drayton Plains, stating that our "New Simple"

column already has solved her perplexing Christmas gift problem—she'll make 'em herself.

Verbal Orchids to—

Mrs. Fred Olmsby of Drayton Plains; 82nd birthday.

Mr. and Mrs. Arthur Leonard of Groveland Township; 60th wedding anniversary.

August Flinterman of Metamora; 83rd birthday.

David Lawrence Says:

Polls Confirm Catholic Vote Shift

WASHINGTON—Polls taken after the presidential election confirm the polls made prior to the election as to the big shift of Catholic voters from the Republican to the Democratic party. Likewise, there was a shift, but of lesser proportions as Protestant Democrats voted the Republican ticket.

Dr. George Gallup's organization conducted interviews in all parts of the country. Some 62 per cent of the Catholics in various states, interviewed after the election, who said they had voted Republican in 1956 declared they had voted Democratic this time.

Looking at the Catholic vote as a whole, the Democrats got 56 per cent of the total in 1952, and 51 per cent in 1956, but the figure went up by 27 percentage points to 78 in 1960. No other religious group showed a switch of that proportion.

The Republicans, who had 44 per cent of the Catholics in 1952 and 49 per cent in 1956, found themselves with only 22 per cent in 1960.

It is significant that the Republican ticket got more Catholics in the professional and business groups, where the percentage went up to 31 in 1960, whereas among the lower-income groups and farmers the Nixon percentage of Catholic voters went down to around 16 per cent.

ADDITIONAL ANALYSIS

Summing it up, the Gallup post-election polls find that 97 per cent of the Catholics who had voted for Stevenson in 1956 supported Kennedy. As for the Catholics who had voted for Eisenhower four years ago, 82 per cent went for Kennedy and only 18 per cent for Nixon.

A separate analysis has been made by John H. Fenton, professor of government at the University of Massachusetts. He was by error referred to in these dispatches recently as being the managing editor of the Gallup organization, who happens to have the same name.

Prof. Fenton has had considerable experience in election studies and is the author of a book published earlier this year titled "The Catholic Vote." In that book, written before Kennedy was nominated, the primary elections were analyzed as follows:

"The results showed clearly that Kennedy's religious faith was not a handicap but, on the contrary, a notable asset."

The higher the Catholic percentage in each state's population, the greater was the Democratic gain over 1956. The same thing happened in the counties in New York State, for which a similar compilation was made on the basis of the Catholic population in each.

Prof. Fenton points out also

No one, to the best of my knowledge, advises or recommends more than 1500 units of D-daily to prevent tetany, rickets, rheumatism, premature hardening of the arteries, softening of the bones, irritability of the nerves, spontaneity of the game, weak ankles, neuralgic headache, pseudo-sinusitis or what have you.

These common complaints are manifestations of calcium deficiency, a deficiency which is essential for the normal assimilation and utilization of calcium, whether from food or from food supplement.

It is fair to assume that growing child or adult who follows a high calcium diet—which includes a minimum of 14 pints (3 glasses) of whole milk, skim milk or buttermilk daily—will get enough calcium from exposure to sunshine or skylight (daylight in the shade) if he or his caretakers be intelligent enough to take advantage of exposure.

One manifestation of this kind of malnutrition, calcium deficiency, that is, as hundreds of reports from readers have led me to believe, is allergy.

Readers who have long suffered one allergic trouble or another, tell me that high calcium diet and/or supplementing their regular diet

with an adequate daily ration of calcium and D have given them greater relief than they have had from anything else. So I can't help thinking, when any one complains of an allergic sensitivity, "this poor geek is paying for many years on a refined, namby-pamby diet."

Had the Democratic organizations refrained, as they did in some states, from putting on the pressure, some of these southern states would have gone Republican because of the religious issue.

As it was, Kennedy lost only Florida, Kentucky, Tennessee and Virginia whereas, when Al Smith ran in 1928, he lost also both Texas and North Carolina.

Had these two states with their total of 38 electoral votes, gone Republican this time, it would have given Nixon 261 and Kennedy 282, whereas 269 are needed for election.

The 14 "unpledged" electors in Mississippi and Alabama then would have had the balance of power.

Dr. William Brady Says:

Don't Let Calcium Deposits Scare You From Vitamin D

Tetany in infants, children and adults was the subject of the piece printed here recently. Several critics have taken me to task for giving what they consider a false impression in the article.

"Everybody—Infant, growing child, young adult or elderly persons—must get his or her DR. BRADY daily ration of calcium and vitamin D or else."

The critics say readers will get the impression that one must take physician, no research, scientific or no nutrition can give evidence indicating that growing child, mature or elderly adult can be

John F. Kennedy has exceeded FDR in his use of superb political psychology. For he faced much greater obstacles than FDR ever met in the 1932 campaign against Hoover. Kennedy also seemed fazed by the "bigotry" label which Protestants had used for 175 years to keep a Catholic out of the White House, yet he won.

By DR. GEORGE W. CRANE

CASE G-43: Sen. Wilton E. Hall, of South Carolina, was an ardent Kennedy supporter.

"Dr. Crane," he asked, "how do you rate Kennedy's psychology compared with that of FDR?"

Kennedy takes first place, in my estimation, for he met far greater obstacles.

FDR, for example, took easy advantage of a widespread depression. Kennedy had only spotty unemployment to help him.

FDR didn't face a national here like the one which placed his mantle over his proposed successor, much as Elijah did for Elisha.

But Kennedy's most unique strategy showed up when he beat Nixon to the draw as regards that "bigotry" label.

At Smith apparently never even dreamed of the clever ruse that Kennedy employed. And it caught the Protestants off guard.

Kennedy knew that Protestants would soon accuse him of being a bigot for belonging to an intolerant church that would not cooperate with other sects in interfaith meetings or even permit a Protestant wife to be buried in a Catholic cemetery beside her Catholic husband.

As it was, Kennedy lost only Florida, Kentucky, Tennessee and Virginia whereas, when Al Smith ran in 1928, he lost also both Texas and North Carolina.

Had these two states with their total of 38 electoral votes, gone Republican this time, it would have given Nixon 261 and Kennedy 282, whereas 269 are needed for election.

Voice of the People:

Dependent Cutback Plan Disturbs Military Wife

I am a dependent of the military service and my husband is from Pontiac. We are truly disturbed about President Eisenhower's plan to reduce the spending of U.S. dollars overseas by dependent cutback. Yes, we are over here with our husbands, but what of the many thousands in the U.S. who won't get over here?

The greatest factor in this is morale. It will certainly have a deterrent effect on U.S. troops. There must be other ways to save American dollars. Let us perform duties in Army hospitals, the post exchanges, etc.

There is a great deal of credit due to dependents overseas. We have contributed a relationship that these people understand. Take us from here and watch the horrible disease of communism infiltrate these countries.

We love our freedom. So do these people. Let us keep peace throughout the world.

Augsburg, Germany

Mrs. Victor Story

'Clarkston Now Has Good Bus Service'

As residents of Clarkston who like to see new and good things added to the community we wish to commend (and recommend) the very good bus service that has finally come to our town.

A town as nice as Clarkston should not be cut off from the rest of the world, and it's a wonderful feeling to know that we are all able to commute into Pontiac. The new buses are clean and comfortable, the drivers are careful and courteous and the fare is more than reasonable.

It took a great deal of courage to start this bus service when the city council didn't find it worthwhile.

The Al Valentine Family Clarkston

Reports on 'Fallout' Chemical Additives

The article on chemicals in the food supply (Nov. 30, p. 33) could be mighty persuasive in making us feel secure in the safety of food additives if we had not previously read a reliable report that Dr. Edward Teller, inventor of the H-Bomb, claims that danger of "fallout" is not nearly as great to the American people as the danger from chemical additives to our food supply.

R. C. B.

Today is Monday, Dec. 5, the 340th day of the year, with 26 more in 1960.

The morning stars are Mercury and Mars.

The evening stars are Jupiter and Saturn.

On this day in history:

In 1776, Phila Hutton was the first female citizen in America.

In 1782, Martin van Buren was born. He was the first U.S. president to be born a citizen.

In 1848, President Polk confirmed the discovery of gold in California, and the gold rush of '49 and '50 became inevitable.

In 1933, prohibition came to an end with Utah's ratification of the 21st Amendment. This repealed the 18th.

In 1934, 69 persons were executed in Russia as a follow-up to "purge" trials. All of them were charged with plotting against the Stalin regime.

Case Records of a Psychologist:

Kennedy Used Superb Psychology

He realized he had to be quicker on the draw, and "project" that bigotry label on the opposition.

So he actually made Protestants believe they would be bigots if they voted for Protestant Nixon.

In fact, a group of naive protestants at Garrett Biblical Institute (Methodist) announced they were supporting Kennedy just to prove they were NOT bigots. Lutheran ministers even ran ads in the newspapers saying the very same thing.

Then the Catholics voted almost solidly for Kennedy just because he was a Catholic. So he won the big city vote from Boston through St. Louis, with the exception of Ohio and Indiana.

Like a star quarterback who opens up his opponents as if he were throwing a forward pass, Kennedy then led his loyal Catholic followers in a block right through the center of the line for a power touchdown pass.

Knute Rockne couldn't have coached him better.

Kennedy also rates a gold star for capitalizing on the basic law of psychology that people tend to think forward, not backward.

Nixon focused on PAST deeds of Ike's administration. In effect, he kept telling voters what Santa Claus had brought them LAST Christmas.

Instead, Kennedy told them what Santa Claus would bring NEXT Christmas. Thus, he promised a \$1.32 minimum annual free medical care to those past 65, new houses for tenement folk, college education for the poor, and so on.

Such super-duper psychology always works on average voters, who are emotionally just over-grown children.

But Kennedy also had a much

His Figures Show a Deer Surplus

In answer to Mr. Hoyt's letter to the Voice of the People, let's take a look at a few figures. There are approximately 600,000 deer in Michigan divided between the lower and Upper Peninsula. Let's consider the U.P. where starvation is the greatest.

Approximately half or 120,000 of the deer there are doe. A real conservative estimate is that each doe had one fawn which would bring the deer herd up to 240,000 in 1959 (a good year).

The total legal deer kill was 39,350 in the U.P. Now assuming 10,000 are killed illegally, 10,000 die of old age and 10,000 die from sickness, accidents, cars, etc. etc. leaves 80,350 left to starve before we're even back where we started at 240,000. I would hardly call that a slaughter. It's more like a surplus.

Fred Henry

10 S. Shirley St.

The state legislature appropriated \$32.5 million for conservation in 1961. That's a lot of money for people who supposedly don't know what they're doing.

Today is Monday, Dec. 5, the 340th day of the year, with 26 more in 1960.

Union to Push Sale of Autos

Local 600 Will Seek Support of Dealers for Dearborn-Built Cars

DETROIT (AP) — A drive by Ford Motor Co. workers to push the sale of Dearborn-built Ford cars was announced Saturday by Ford Local 600 of the United Auto Workers Union.

Local 600 said union members will visit every Ford agency in the city to urge support.

The UAW local has expressed concern this year over employment at Ford's home plant in Dearborn. The local has asked Ford, that if the company is going to make another compact car, the car be built at Dearborn.

Ford never has said there is to be another such car. Ford now makes the Falcon and Comet compact cars.

Local 600's executive board said in a resolution that unemployment is the major problem before President-Elect John F. Kennedy.

The resolution called attention to what it called the effect on workers and communities of automation and the moving of jobs and plants to other states and countries.

"We have spent U.S. money," the resolution also said, "to rebuild factories in former enemy countries and today United States steel producers and other factories are operating at less than 50 per cent of capacity."

In relation to his Dearborn-built Ford car sales — help drive Local 600 said the boosting of Michigan-made products has received "insufficient attention." It said "All of us have a responsibility to move in this direction immediately."

Parachute Can't Help Pilot of Disabled Jet

DENVER, Colo. (AP) — Air Force Capt. Lawrence R. Reeves, 29, of Sterling, Colo., was killed Sunday when he ejected from his disabled F102 jet fighter 100 feet from the ground—too low for his parachute to open.

His plane crashed north of Buckley Field and burned. Reeves had just taken off for a return flight to Portland International Airport, where he was assigned to the 406th Fighter Interceptor Squadron, when his plane developed engine trouble.

NOVEL BUT useful stocking fillers are gay new paint brushes made with colored nylon filaments. They come in red, blue, pink, yellow, green and beige.

He Can Adjust Own Heart Beat With a Battery

GAINESVILLE, Fla. (UPI) — Willie Godwin can adjust his own heart beat mechanically. He generally keeps it about 75 beats a minute.

He just regulates a little electrical device attached to the right ventricle of his heart — normal for normal activity, faster (up to 100 beats a minute) for greater activity.

A year ago he came down with what doctors call the Stokes-Adams syndrome, which means that the heart sometimes beats irregularly or even not at all for short intervals.

This sometimes caused Godwin to lapse into unconsciousness — only seconds away from death. Surgeons at the University of Florida teaching hospital sewed two electrical wires to the right ventricle, attached them to a battery device, which sends impulses to the heart.

"It's just wonderful," said Godwin, who may soon go back to his job as a night watchman at a lumberyard.

Gives Political Formula

NEW BRUNSWICK, N.J. (UPI) — New Jersey Secretary of State Edward J. Patten told a group of newly-elected freeholders that to be a politician "you have to have a stomach like a nanny goat, you have to like people, and you can't have a glass jaw." "If you can't stand being called names, don't even get sworn in," Patten said.

S-P Reviews 1962 Models

Reappraisal May Cause
Firm to Stick Closer
to Current Body Styles

SOUTH BEND, Ind. (UPI)—Studebaker-Packard Corp. is revising its tooling orders for its 1962 model cars and "reappraising the styling and engineering needed in the market."

Lewis E. Minkel, vice president in charge of marketing for Studebaker-Packard, said the corporation is reviewing its original plans for its 1962 model in light of the company's policy of "continuity of design."

"We feel there is a styling reaction in the offing," Minkel said. "We feel the public wants to avoid obsolescence in cars and wants auto makers to lower year-to-year costs of a car by making only changes necessary to improve a car."

He indicated Studebaker-Packard had contemplated drastic changes in the design of its cars next year until the "reappraisal" was undertaken.

Minkel, however, refused to say whether the "reappraisal" concerned the company's Lark and Hawk lines of cars or plans to bring out a new "compact compact" car in the 1962 model year.

KENNEDY FAMILY BIBLE — This is the Bible on which President-Elect John F. Kennedy presumably will take his oath of office at the inauguration Jan. 20. Held here by Thomas A. Fitzgerald, an uncle, and his wife, the 15-pound Bible is well over 100 years old.

There are about 2,500 known species of lizard. Sound waves travel about 1,100 feet per second.

A-Raid Leader Flees Hospital

Skipper of Nuclear
Bombings on Japan
Texas Mental Patient

WACO, Tex. (AP) — The pilot who led U.S. atomic bombers to Hiroshima and Nagasaki has escaped from the Waco Veterans Administration hospital, where he was a mental patient.

Hospital officials said Claude R. Eatherly, 44, a former Air Force major, escaped from the institution Nov. 22.

Eatherly was acquitted of burglarizing two Texas post offices after pleading innocent by reason of insanity. A grocery store robbery charge at Dallas against him was dropped after he was committed to the VA hospital here last year.

A psychiatrist testified at his trial on the burglary charges in 1957 the Eatherly had a guilt complex and said he felt responsible for killing 100,000 persons at Hiroshima.

Europe Cleans Up After Raging Floods

LONDON (AP)—Northern Europe today began cleaning up after a violent weekend of raging storms and floods which spread death and destruction.

Britain bore the brunt of the storm, which sent rivers crashing out of their banks and flooded dozens of villages and miles of farmland. Property damage was heavy in London. At least two deaths were reported.

Four deaths were counted in Holland. France, Germany, Denmark and Belgium also were badly hit.

More rain is expected and many areas, especially in Britain, still face serious flood threats.

More than 21 million incorrectly addressed letters end up annually in the Post Office Department's dead letter office, undeliverable and unreturnable.

DOWNTOWN AND DRAYTON PLAINS

TRAGEDY'S AFTERMATH — Blankets cover the bodies of four girls who died in an upstairs bedroom of a Byron Center farm house Sunday. Police think the blaze started after three brothers were playing with matches. The boys escaped. The father suffered lacerations and burns on his hands as he tried to climb a side of the house to reach the girls.

Brothers Playing With Matches
Fire Kills Four Sisters in Farm Bedroom

BYRON CENTER — Four young sisters died—trapped in an upstairs bedroom—in a farm house fire here Sunday.

State police said the girls' three brothers playing with matches may have started the blaze.

One of the boys admitted lighting matches and throwing them into a cardboard box in an upstairs bedroom closet just before the fire, state police Detective Walter Burns said.

The four girls—Deanna, 11; Janna, 9; Cathy, 7; and Cheryl, 6, the daughters of Mr. and Mrs. William Seabolt—were trapped in an upstairs bedroom of the two-story farmhouse.

Seabolt, 31, a plumber, suffered lacerations and burns on his hands as he desperately tried to climb a side of the house to reach the girls' bedroom.

One of the boys, Billy, 18, suffered second degree burns on his hands and face.

The mother, Janna, 37, was treated for shock. The other two boys, Ryan, 5, and Richard, 4, were unharmed.

Mrs. Seabolt said she was awakened by screams from the upper floor and Ryan and Richard ran into the parents' ground floor bedroom yelling fire.

She and the two boys ran out of the house while Seabolt tried to get up the flaming stairwell.

Failing, he went outside and persuaded Billy to jump from a porch roof. Getting no response from the girls' room, Seabolt tried to scale the outside wall to get them.

Byron Center is about 14 miles southwest of Grand Rapids.

Protestant Reunion Plan
Gets Favorable Reaction

SAN FRANCISCO (AP)—Leading churchmen today registered a somewhat bedazzled but firmly favorable reaction to a proposal for a wide reunion among American Protestants.

The plan, said Methodist Bishop John Wesley Lord, of Boston, "is as shocking as it is Christian. It overcomes with stark simplicity many of the problems that have perplexed the separate communions over the years."

The plan, at the outset, would embrace the Episcopal, United Presbyterian, Methodist and United Church of Christ with other denominations subsequently invited to join.

The provocative formula was offered Sunday by a top-ranking Presbyterian, the Rev. Dr. Eugene Carson Blake, of Philadelphia, shortly before the start of the triennial General Assembly of the National Council of Churches.

More than 3,000 representatives of 33 Protestant and Orthodox denominations with 40 million members joined Sunday night in the stirring opening services.

Although not formally a part of their program, the proposal generated keen interest among delegates.

"It is the opening of a very significant move," said the Rt. Rev. Arthur C. Lichtenberger, of New York, presiding bishop of the Episcopal Church.

"Out of this might come a plan that would be acceptable to all the people involved," he added.

"It is a good approach. I hope it will lead to a reunion of the church."

He, like others, however, emphasized it will take time, and careful examination.

Dr. Blake, in a sermon at Grace Episcopal Cathedral detailed steps for combining credal, liturgical churches with the more informal, nonliturgical churches into a body "both reformed and catholic."

Episcopal Bishop James A. Pike, of California, called the plan the "most sound and inspiring" ever offered in this country.

The plan is patterned on the precedent-shattering establishment of the United Church of South India in 1917, uniting Presbyterians, Methodists, Episcopalians and Congregationalists.

Other officers are vice president Wayne Dever of 737 Coughlin Drive; treasurer George A. Larson, 91 Hamilton St.; corresponding secretary Mrs. Larson; and recording secretary Mrs. Laura Foster of 305 Hillier Road, West Bloomfield Township.

Purpose of the AARP is to stimulate action to help people over 55 years old, and to encourage older people to actively participate in bettering their local communities, according to Dr. Ethel P. Andrus, president of the 300,000-member society with headquarters in Washington, D. C.

In search of squid, its favorite food, a sperm whale dives 3,200 feet below the ocean surface where pressure is 1,400 pounds to the square inch. It often remains submerged for an hour.

Air-Conditioned
Buses Popular

The Demand for GMC Vehicles With Feature Passes Expectations

BELOIT, Wis. — Demand for Truck & Coach Division's new city truck & Coach Division's new city and suburban buses has surpassed all expectations, a GMC senior project engineer told the Rockford, Ill. section of the Society of Automotive Engineers here today.

Karl Schuster, air conditioning expert in GMC's Engineering Division at Pontiac, said over 35 percent of the 3,500 new city and suburban bus models built by GMC in the past 15 months have been ordered with air conditioning.

"While air conditioning is a standard item in intercity buses," he explained, "it has never before reached this level of popularity in coaches used in city service or for short suburban hauls."

He attributed much of the popularity upsurge to the advanced design of the GMC system which cools the interior of the coach with a draft-free circulation of dehumidified air, making hot weather operation exceptionally pleasant.

A pioneer in coach air conditioning, GMC Truck & Coach launched its first intensive research on the subject in 1934. Early tests revealed the feasibility of air conditioning in motor coaches, Schuster said, and in 1938 GMC brought out its first air conditioned production models.

"By the outbreak of World War II," the engineer said, "700 air conditioning units were in service in factory buses. This number increased to about 4,000 by 1953, several model changes having taken place during this period."

The famed PD 4104 intercity buses made the first wide use of air conditioning when put into production in 1953. Besides having the built-in cooling system, these units also had automatic ducting for both air conditioning and heating.

The next major breakthrough in GMC coach air conditioning, according to Schuster, occurred in 1954 when engineers developed a direct engine drive to the air conditioning compressor, eliminating the need for a separate engine to run the system. Scientists became the first to benefit from this new advancement.

Mac's Good Will Plea
Opens African Confab

LONDON (AP)—Prime Minister Harold Macmillan today opened Britain's sprawling Central Africa Conference on the future of a confederation with a plea for racial and political good will.

The ultimate aim of the delegates, he declared, should be the creation "in Central Africa of a way of life which all races may share in friendship."

Won't Resume
Police Rotation

Koren Abandons Plans
After Balloting Shows
Disfavor of Officers

Acting Pontiac Police Chief Joseph Koren has abandoned his plan to rotate the three platoons of uniformed Pontiac police officers.

Koren had announced on Nov. 21 that the rotation of shifts, which had been halted by former Public Safety Director George D. Eastman in May of 1958, would be resumed next year.

Koren reversed his stand after balloting by officers showed 63 in favor of permanent shifts, and only 13 for rotating shifts. He ordered the balloting by officers after acknowledging his plan had been received with "some disfavor."

Koren said, however, that officers will not be assigned to platoons strictly on the basis of seniority. "Consideration will be given to merit and capability as well," Koren said.

"The transfer of a patrolman from one platoon to another will be considered a promotional device. Under the new plan," Koren said, "permanent shift assignments will permit the transfer of officers to less desirable platoons as a disciplinary measure and to assure work to fit ability."

City Man Injured
When Car Hits Tree

James L. Handover, 33, 384 Ferry St., was in satisfactory condition at St. Joseph Mercy Hospital today after being injured in an auto accident Saturday.

Pontiac police said that Handover apparently lost control of his car on icy pavement on Elm west of Paddock Street. The vehicle ran into a tree.

Handover suffered head injuries and facial lacerations in the accident.

DEADLY HEDGE — More dangerous than a fence of thorns, this innocent looking hedge in Leopoldville, capital of the Congo, has a line of rifles poking menacingly from it. The weapons belong to United Nations troops on guard around the Ghana embassy, where fighting broke out briefly during the continuing strife in the Congo. UPI Photo

50,000 Stationed in Country

16th Korean Christmas for GIs

By SAMUEL KIM
United Press International
ALONG THE TRUCE LINE, Korea (UPI) — It will be a lonely Christmas this year for most of the 50,000 American GIs stationed in Korea.

This will be the 16th Christmas U.S. troops have spent in Korea and the 11th since they arrived in combat force to repel Communist invaders.

Some of the soldiers who spent Christmas of 1950 slugging across snow-covered mountains in the bloody war against the Communists are back again this year for another Christmas in Korea.

One of them in Spec. 5 Franklin R. Hamm, (West 764 Indiana St.) Spokane, Wash., who's now assigned to the U.S. 1st Corps at I Jangjeon, north of Seoul and just south of the truce line.

Baum, now only 28, was a rifleman in the 24th Infantry Division deployed on the front line near Chunchon when he spent his first Christmas in Korea.

Christmas was just like another day then," he recalled. "There were no celebrations. I don't think I heard anybody say 'Merry Christmas' once. It was cold and miserable in the foxhole."

Baum, who returned to Korea only two months ago, added, "It was really young at that time and it was the very first Christmas I spent away from home."

But this year Christmas will be a little lonelier, he said.

"This time I am married and it will be my first Christmas away from my wife and two children," he said. "Although I have no feeling of danger now as I did before, this Christmas is in no way better than the first one I spent here because I miss my family."

Sgt. Summer S. Wilson, 4127 Bentler Manor, Detroit, another veteran of the Korean fighting, felt the same way.

"I boarded an evacuation ship at Incheon on Christmas Eve, 1950, to retreat to Pusan and spent a quiet, homesick Christmas on the ship."

"It was most unusual, we were expecting a big attack from the Chinese and the people in Seoul all were fleeing south."

But that Christmas, the 43-year-old Wilson said, was "not too bad" since he had spent three Christmases overseas in Europe during World War II.

"This coming Christmas probably will be the worst one for me as far as my personal feelings

go," he said. "I will miss my little girl, Linda, who is 8 years old. But that's the way it has to be. The hot showers, running water, electric lighting, recreational facilities, permanent-type quarters and other conveniences are better than what some of the generals had during the Korean War, he said.

There's one consolation this time, however, Wilson said. "Living conditions here are much improved."

"I hope this will be the last Christmas away from home for me," he added.

There's one consolation this time, however, Wilson said. "Living conditions here are much improved."

Adrenocorticotrophic New Synthetic ACTH

PITTSBURGH (UPI) — A team of University of Pittsburgh scientists, directed by Dr. Klaus Hofman, has achieved the first successful synthesis of the cortisone-producing hormone ACTH.

The new synthetic hormone (adrenocorticotrophic hormone), which has the full biological activity of natural ACTH, represents the largest protein-like molecule yet reproduced synthetically by man.

Dr. Hofman, a native of Germany and chairman of the biochemistry department of the school of medicine, will hold a press conference Monday on the scientific breakthrough.

ACTH is a hormone produced by the pituitary gland, the body's so-called "master gland," which causes the cortex, or outer shell, of the adrenal gland to release cortisone and other steroids into the system.

North Central to Wait for Manistee Airport

WASHINGTON (AP) — North Central Airlines has been authorized to suspend service at Manistee-Ludington, Mich., until the airport there is able to accommodate its planes.

The airline said the airport currently is inadequate for use by Convair-340 aircraft which it has introduced on routes in the Northern Michigan area.

The CAB said the Federal Aviation Agency had informed it that necessary improvements, such as lengthening the runway at Manistee Blacker airport, were under way.

Latin School Band to Play for Kennedy

BOSTON (AP) — The cadet band of the nation's oldest secondary school has been asked to represent Massachusetts in the inaugural parade for President-elect John F. Kennedy.

Boston officials indicate they will honor a request by Joseph P. Kennedy that Boston Latin School band participate in the ceremonies.

Joseph P. Kennedy, father of the president-elect, and former U.S. ambassador to the Court of St. James, is a Latin School alumnus.

Latin School was founded in 1635, one year before Harvard College.

Nikita Honors Liu in Moscow Picture

MOSCOW (UPI) — Soviet Premier Nikita S. Khrushchev gave President Liu Shao-chi of Communist China the place of honor in a picture published Friday showing the 200 delegates to the Communist summit meeting here.

The picture, which appeared in the Communist party newspaper Pravda, showed Liu standing on Khrushchev's left during the meeting at which the Soviets and Chinese were believed to have debated Communist policy toward the West. The Soviet news agency Tass reported that the world's top Communist leaders reassured that they had met in "cordial and fraternal solidarity" during the meeting.

PET DOCTOR

By A. W. Moller, D.V.M.

By A. W. Moller, D.V.M.
Q. How can you tell if your dog loves respect for you and how can you regain it? Mrs. C. Keyser, Jamaica, N.Y.

A. I assume that by losing respect you mean that your dog is refusing to obey your commands. As with a child, many an obedient dog will lose respect for its master when it becomes an adolescent.

He begins to "feel his oats" as they say, and likes to assert his own will more frequently. An older dog occasionally forgets its training when subjected to a new environment or master.

Sometimes a dog will get into bad company and join up with a pack of unprincipled neighborhood dogs. Respect can only be regained by devoting a lot of time to re-training him.

Keep him away from bad company. Be firm but kind in handling him. He will soon respond and be his old self again.

PROMISE A Princess!

Let this lovely little phone light up the season for someone you love

What a wonderful, colorful telephone! The new Princess extension phone is so small you can hold it easily in your hand. It will go beautifully anywhere in the home — on the kitchen counter, bedside table or writing desk. Its dial glows softly at night (no need for a separate night light), and lights up brightly for easy dialing when you lift the receiver.

Order a Princess phone for someone special. You can include prepaid service for any period of time you wish. Choose from five Princess colors — white, beige, pink, blue or the new turquoise.

A call or visit to your Bell Telephone business office will arrange everything. Or just ask the man on the telephone truck.

Michigan Bell Telephone Company

POWERFUL NEW PLUNGER CLOGGED TOILETS in a jiffy!

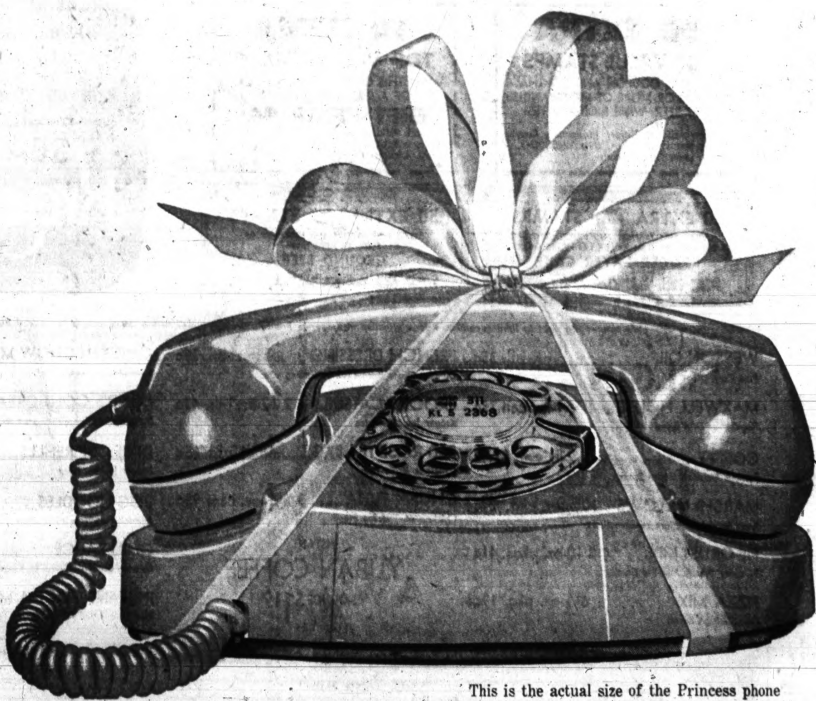

NEVER AGAIN that sick feeling when your toilet overflows
'TOILEAFLEX'
Toilet Plunger

Ordinary plungers don't seat properly, forcing air and water to splash back. This one has a seal and you lose the very pressure needed to clear the clogging mass.

With "Toileaflex," designed for toilets, no air or water can escape. The patented, tapered tail forms an air-tight fit: the full pressure plows through the obstruction and swishes it down. Can't miss!

- DOUBLE-ACTING CUP, DOUBLE-PRESSURE
- DESIGNED TO FLEX AT ANY ANGLE
- CENTERS ITSELF, CAN'T DRIFT AROUND

\$2.65 fully guaranteed AT MOST HARDWARE STORES

This is the actual size of the Princess phone

DIRECT AIR EXPRESS SERVICE comes to PONTIAC

Speed up your business with the world's fastest shipping service

With the opening of your new airport, supplies and merchandise—wherever located—are only hours away. Book Extols Horticulture

Coauthored by Resident of Birmingham; Aims at Aiding Mentally Ill

By GEMMA STRIFLER
"Therapy Through Horticulture" by Donald P. Watson and Alice W. Burlingame.

The freshness of the rain, the glory of a sunrise, the coolness of a sun-drenched lawn, the peace, health.

Such is the theme of "Therapy Through Horticulture," by Donald P. Watson and Alice W. Burlingame, a book recently published. The authors are well-known horticulturists.

Mrs. Burlingame, a Birmingham resident, is known personally to many in this area, especially for her work with Pontiac State Hospital patients.

This book, actually a textbook, will open the eyes of readers to the great need for physical and mental rehabilitation, and to this particular path—horticulture—as one way to help patients achieve at least a partial recovery.

Cases are cited, methods of handling patients outlined, and especially noted is the need for volunteers to carry on the work.

With 75,000 mental hospitals in our country, the need for therapy is great. However, the authors stress the necessity for volunteers to be objective, and that the programs must be carried on regularly.

The authors have presented program planning in great detail, and offer a glimpse of the hope and new way of life they are providing for their many fellow beings who need Green-Thumb understanding.

BACKACHE & NERVE TENSION
SECONDARY TO KIDNEY IRRITATION
Thousands are now discovering how much kidney and bladder they feel by combining ordinary kidney or bladder irritants. These irritations often occur after 25, and may make you tense and nervous from too frequent urinating or itching irritation both day and night. Wonderfully, you may lose sleep and suffer from headaches, backaches and feel old, tired, depressed. In such irritation, CRYSTEX usually brings fast, relaxing comfort by curbing irritating minerals, acids, uric acid and by giving analgesic pain relief. Safe for young or old. Get CRYSTEX at drugstores. Feel better fast.

Sales Up 7.7 Per Cent Over '59

Play Is Money to Toy Makers

By United Press International
NEW YORK (UPI) — Play is big business — something like \$1.65 billion a year — and the Christmas season is when it rings the cash registers loudest.

The toy business is up this year. The 450 members of the Toy Manufacturers of the U.S.A., Inc., a trade organization, report shipments for the first nine months of 1960 were running 7.7 per cent ahead of the same period in 1959.

At the same time, imports of toys have been cutting into the domestic market. Imports rose by 33 per cent from 1959 to 1960.

But the population increase has broadened the market, and there's no lack of customers.

Along with the population explosion goes the general rise in the standard of living — a very important factor which makes more costly toys more readily acceptable.

Not many years back practically the only costly items were the trains of electric train sets, bicycles and the other locomotion toys.

Today, there are numerous toys in the \$20 to \$30 and higher categories — and they're selling. Some of the larger dolls carry a \$25 or \$30 price tag. There's a Yukon dog sled this year big enough for a child to sit in, and equipped with a harness for dog locomotion. The price is \$29.95.

ORGAN FOR KIDS
Emence is offering the first electric chord organ on the toy market at \$29.95.

The American Flyer Stock Car Race, in which two tiny cars race around a metal track under electric power, sells for \$34.95.

And the Automani, a series of kits with precision gears and other equipment for constructing automation models, retails anywhere from \$44.95 to \$59.95.

And, for the person who wants to spend a little more, Steiff, a German maker of stuffed toys, has a life-size moose at \$750. But, like the other producers of higher price toys, it also offers low-cost items, such as a lady bird for 35 cents.

Toy Manufacturers Inc. credit the rise in the standard of living for opening the market for higher priced items.

But, here is an interesting fact. Charles S. Raiten, president of the manufacturers' group, notes that with the rising tide of sales, profits of member firms averaged under 2 cents per dollar of sales in 1959.

That compares with an average of 4.8 cents per dollar of sales earned by all U.S. manufacturing corporations in 1959.

Another thing toy manufacturers have to contend with is price cutting.

They suggest retail prices, but less than the wholesale cost.

New Liquid Adhesive Sticks Anywhere

NEW YORK (U-P) — One item which fits in with the Christmas season is a liquid adhesive which can be sprayed on a wide variety of materials so that they can be fast-

ened to most surfaces. The pres-sure-sensitive adhesive comes in a 12-ounce aerosol spray can. No moistening is required when the material is pressed on the desired surface, such as a "To Sister from Mom & Dad" tag on a Christmas present.
The adhesive is claimed to be good for bond paper, tissue, news-print, art board, plastic film, fab-

rics, cork, rice paper, upholstery, blueprints and snapshots.
They'll Dial to Sleep
HULL, England (UPI) — Children can dial 99 in the city-owned telephone service beginning Monday and hear a 3 1/2 minute bedtime story each night between 5:30 and 8:30 p.m.
About 80 per cent of the world mica supply is in India.

Foreign News Roundup

British Labor Party Gives Up Race

By PHIL NEWSON
UPI Foreign News Analyst
Top sources in Britain's Labor party say they now are taking it for granted labor will be unable to challenge Prime Minister Harold Macmillan's Conservative party at the polls for at least another year.

They believe the Labor party's "image" in the eyes of the British voters has been ruptured by the party's internal feuds over one-sided nuclear disarmament and nationalization of industry.

Their first job now, they believe, is to settle those quarrels. Both Macmillan and Labor party leader Hugh Gaitskell are anxious to establish early personal contact with U.S. President-Elect John F. Kennedy.

Vice President-Elect Lyndon Johnson came home with a "want to see you soon" message from Macmillan to Kennedy.

Communist China has taken the offensive in the quarrel with the Soviet Union over peaceful co-

existence with the West. Eastern diplomats in Berlin say the Chinese are circulating among Eastern bloc nations a long memorandum demanding the Chinese position as one part of this offensive. The Chinese oppose Nikita Khrushchev's co-existence policy.

The Communist Czechoslovakian government has figured out a way successfully to drain dollars out of the United States.

Czech efforts are forbidden to receive packages from abroad but may trade dollar gifts for coupons good at state-owned luxury shops called "lux stores."

Americans with relatives in Czechoslovakia are pouring dollars into Prague which otherwise does little trade with hard currency areas and desperately needs the dollars.

Britain quietly is dropping her original strong opposition to equipping NATO with nuclear weapons. Britain especially is expected to support American suggestions for a NATO-run small nuclear submarine force equipped with the Polaris missile. She may offer some of her own nuclear weapons to the alliance in the new year.

Scandal Principle Dies of Heart Attack
DETROIT (AP)—Barney J. Nowick, 66, a chief grand jury witness in the Wayne County police graft scandals in the 1940s while a Hamtramck police official, suffered a fatal heart attack Saturday at his St. Clair Shores home.

Nowick testified in the sensational investigation by the former judge and later U.S. senator, Homer Ferguson.

He was never a defendant and was reinstated in the Hamtramck police department after being suspended on his testimony that he paid a politician to be appointed acting police chief.

A record of 16,780,000 foreign visitors came to Italy in 1959, compared to 15,287,000 in 1958.

'Camelot' Has Plenty for the Cash Customer

BY WILLIAM GLOVER
Associated Press Drama Critic
NEW YORK (AP) — "Camelot" has a lot for the customers.
Luring songs, shimmering spectacle, wit and charm. Julie Andrews, Richard Burton, Roddy McDowall.

These are familiar assets of the much-ballyhooed musical that unfurled its banners Saturday night on the stage of the Majestic Theatre.

But about its story of good King Arthur and the days when knight-hood was in flower there's a crease of rusty armor.

A pre-opening sale of \$3 million set a Broadway record, and the plus ingredients it displays seem sufficient to keep "Camelot" a happy place for a long, long time. The charade is based on T. H. White's satire trilogy, "The Once and Future King." Some liberties have been taken with that book and the familiar roundtable legends of Malory and Tennyson by the producing-creating team of composer Frederick Loewe, author-lyricist Alan Jay Lerner and stage star Moss Hart.

Shooting for a successor to their smash hit, "My Fair Lady," the trio develop a platonic triangle of Arthur, Guinevere and Lancelot, who was "incredibly clean, with virtue to spare." Complications develop when a vile knight comes by.

Running three hours, the show exhibits boggy spots, static moments and a muted windup. Most

spectators, however, will be happy to overlook these defects in the general visual and melodic splendor of the enterprise.

Among 17 effective songs, the standouts include lovely vocalizing by Miss Andrews (Guinevere) in "The Simple Joys of Maidenhood," "Before I Gaze at You Again," "The hearty Burton (King Arthur) in "I Wonder What the King is Doing Tonight?" and "How to Handle a Woman"; and lush ensemble presentations of "The Jousts" and "Fie on Goodness."

Lancelot, who loves but never reaches ultimate woo, is Robert Gouldt, dark and stern. Roddy McDowall revels as a slinking, tricky morder. Robert Coote is a cartoon knight.

World's Fair Wants Federal Participation

NEW YORK (AP) — The New York World's Fair of 1964-65 has suggested that the U.S. government construct a \$30-million permanent science and education center at the Flushing Meadows site.

Fair President Robert Moses said Sunday that a comprehensive plan for federal participation in the fair calls for construction of the Franklin National Center of Science and Education on a seven-acre site which would house the United States fair exhibit.

U.S. Recognizes El Salvador Junta

WASHINGTON (AP) — The United States has given diplomatic recognition to the ruling junta in El Salvador.

The six-man junta overthrew President Jose Maria Lemus Oct. 26 in a bloodless coup.

State Department press officer Joseph W. Reap said Sunday the junta has given assurances it will honor El Salvador's international obligations.

TWICE IN ONE YEAR — Mrs. Kirsten Pedersen holds twins, Kirsten and Timothy Allen, who were born last Monday at Providence Hospital in Berkeley, Calif. With mother and the new arrivals are Catherine Linda (left)

and Karen Marie, who were born a year ago last Friday. Mrs. Pedersen was an ice skater and model before the first set interrupted her career. Her husband Harley is a laboratory technician.

Ghana Breaks Off Ties With Belgium

ACCRA, Ghana (AP) — Ghana broke off diplomatic relations with Belgium today, charging the Brussels government with being responsible for "the recent developments in the Congo."

Belgian Ambassador Gerard Walravens was ordered to get out of the country within 48 hours.

President Kwame Nkrumah of Ghana regards Congo President Joseph Kasavubu as pro-Belgian, if not actually directed by Belgian advisers.

Kasavubu declared Ghana's charge d'affaires, Nathaniel Welbeck, persona non grata (unwelcome) in October. Last month troops of Col. Joseph Mobutu, who works closely with Kasavubu, attacked Ghana's embassy residence and forced Welbeck to leave the Congo.

India Wants Aid From Anybody, Says Official

ST. LOUIS, Mo. (AP) — India's ambassador to the United States says his country needs foreign aid for the next 10 years and "we'll get it from any country as long as there are no strings attached. We don't discuss ideology when we borrow money."

Mahommedali Currim Changa, here to address the liberal forum, said Sunday that India had terrible poverty, a 14 per cent literacy rate and a purely agricultural economy when it gained independence from England 12 years ago. Since independence, he told newsmen, India has increased its literacy rate to 40 per cent and hopes to reach 100 per cent in five more years.

Half of America's automobiles are in nine states.

South African Liberal Loses His Passport

JOHANNESBURG, South Africa (AP) — The South African government today withdrew the passport of Alan Paton, author and Liberal party leader, which will prevent him making future trips abroad.

The passport was taken from Paton at Johannesburg's airport on his arrival from London after a trip to England and the United States.

During his tour the author made speeches criticizing the South African government's strict racial segregation policies.

A 41 caliber pistol owned by Billy the Kid, the first Colt double action gun with a short barrel, is in the Burton Saunders Gun Museum at Berryville, Ark.

New Secretary of Commerce Appointee

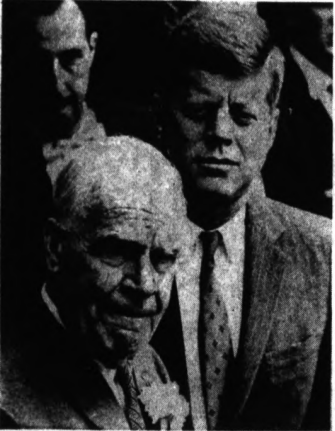

Easy to Make Money, Says Hodges

By United Press International
Luther Hartwell Hodges, President-Elect John F. Kennedy's choice for secretary of commerce, is a man who applied business principles to government with results that gave him the name: "The South's No. 1 Salesman."
As a top textile executive, Hodges won a name in the business community as a man who knew how to make money for his firm and himself. As the chief executive of North Carolina, he created a business climate in the Tarheel

State that rejuvenated its economic base.
At the age of 12, Hodges got his first job in the cotton mills at 50 cents for a 10-hour day. Thirty-three years later he was running an important segment of the state's textile industry.
Reflecting recently on his business career, the dynamic silver-haired retiring governor of North Carolina observed that "making money is about the simplest thing I know."
Hodges' prime interest during

six years as governor was to show North Carolina how to make money. His chief goal: Raising the relatively low per capita income in the state.
He quickly became known as the "Businessman Governor," and the state's economy surged during his administration. New industry, more capital, new plants and research laboratories poured into the state.
Luther Hodges was born March 9, 1898, in a four-room tenant farm house in Virginia. Just across the state line from Leaksville, N.C.

up by a North Carolina chief executive.
"Government is business," he said, and began his streamlining, slicing off fat, tightening up on all departments and agencies. He began a broad program of government reorganization.
He was dubbed "The South's No. 1 Salesman," by invading the major cities of the country and walking the streets from office to office seeking industry for North Carolina.

AP Photos

PONDERS THE QUESTION — After being named secretary of commerce Saturday by President-Elect John F. Kennedy, Gov. Luther H. Hodges of North Carolina ponders a question put to him by reporters at a press conference at the Kennedy home.

Mermaids May Replace Chemical Weed Killers

NEW YORK (UPI) — At least one mermaid in every canal and reservoir may be a feature of the wonderful new world of the future, now that science knows how very useful one of the earth's oddest animals can be to mankind.
It is the animal which woman-hungry sailors thought was fish-tailed femininity rising conveniently from the sea, and so the first name man gave it was mermaid or mermaid.
Later when sailors got closer looks, the animal was called the sea cow.

Its proper name is manatee. Its newly discovered use is in its seemingly unlimited appetite for the water grasses which choke reservoirs and canals if left alone. Exterminating these grasses is a major problem.
W. H. L. Allsopp, the scientist responsible for the discovery, reported that two manatees which were seven and a half feet long cleared a grasses-choked canal 22 feet wide and 4,800 feet long in 17 weeks.
Manatees are much more effective in this work than the best chemical weed killers, he said.
They're utterly harmless to man and fish and there's no presently apparent reason why they can't replace chemicals on a widespread basis, he added.

However, Allsopp complained of science's ignorance concerning the ways of life of this animal.
Research at the University of

Florida has revealed its anatomy, he said, but little is known of its reproductive habits which seem to be "slow."
It could be it would take a long time to get enough manatees to go around.
Easy to Make Foam 'Tree' for Yule Door

NEW YORK (UPI) — Interested in trying a do-it-yourself Christmas decoration?
A colorful 6-foot Christmas tree for the door isn't too hard to make with a couple of yards of latex foam sheeting, some colored plastic sheeting and some rubber cement.
Cut a giant cone out of the latex foam sheeting 4½ feet high and 2 feet wide at the base.
Tack it to the door, pointed end up, as the "tree." Trim with crisscrossed strips of gold ribbons cut from a sheet of plastic. Glue to the foam rubber with the rubber cement and add a row of gold bows or little gold balls.
Cut a graceful urn from the gold plastic sheeting and tack in place directly below the tree.
Pears are the most successful tree fruit that can be grown on the average farm, say horticulturists. Pears are well-adapted to less fertile soils, require no special care, and succeed quite well with little or no spraying.

Latest Tree Bulbs Usable In or Out

NEW YORK — A new style of Christmas tree bulbs, which resemble the familiar, polished tree ornaments when they're unlighted, are on the market this Christmas season.
The new bulbs are round in shape, a bit larger than a golf ball, and can be used both indoors and out.
They're available in red, blue, amber, green and fuchsia and are said to give an unusual sparkling effect when lighted, since the colors used in coating them are made of a tough transparent material.

Rockets to Stay Up in Space for Ages

BEDFORD, Mass. (UPI)—The space age is going to be with us for a long time.
The National Space Surveillance Control Center has a huge board at Hanscom Field here, listing every man-made object in space and the date it should—in theory—fall to earth.
Beside one object, the rocket that boosted the Echo balloon into space, the center listed this death date:
"August 1977."
The largest apple on record was grown in Arkansas.

The forest area of the United of France, Germany, Norway, States, exclusive of Alaska, is Italy, Sweden, Belgium and the larger than the combined areas of the Netherlands.

Shelter Has Pups and Kittens as Pals for Kiddies

HE'S MINE — Four-year-old Johnnie Holand chose this pup as his Christmas present when his father William took him to the animal shelter. There are more than 15 new puppies and as many

kittens available for the price of a license and an inoculation shot, according to veterinarian Frank Bates, Oakland County dog warden. Johnnie lives with his family at 4219 Lotus Drive.

"MY PAL" — Ever since Glen Cooper's father died three years ago, the boy has wanted a pal. When his mother Mrs. J. W. Cooper took the boy to the animal shelter he headed straight for the collie cage, and scooped up the softest, fattest pup of the litter. He

promptly named him Butch, and said "That's all I want for Christmas." Glen, 11, lives with his mother at 1231 Crescent Lake Road, Waterford Township.

GENTLE TREATMENT — The Oakland County dog warden, veterinarian Frank Bates, checks a scratch which might become infectious on the neck of a beautiful collie now housed at the ani-

mal shelter. There are hounds, spaniels, shepherds and dalmatians of every size and color, mixed and with other dogs of questionable heritage — all waiting to be given a home.

HOLLY'S FOR CHRISTMAS — Pretty little Holly Hawke (she was born on Christmas) has made her choice of a very special present named Blackie. More than 50 dogs and cats in the Oak-

land County Animal Shelter at the County Service Center on Telegraph Road are waiting for "adoption." Holly, 4, is the daughter of the Allen Hawkes, 2800 Dixie Highway, Drayton Plains.

Red China Falls in Step With Coexistence Line

MOSCOW (AP) — Communist China's president today put stamp of approval on the peaceful coexistence policy of the Soviet Union as it reportedly has been ratified by the Communist summit conference which ended last week.

In a goodbye speech at Leningrad, before continuing his tour of the Soviet Union, President Liu Shao-chi made a confession of faith in Soviet leadership.

"The great Soviet Union," he said, "has always been and is today a powerful bastion of world peace. The initiative of the Soviet government and its proposals aimed at easing international disarmament and peaceful coexistence between countries with differing social systems have the sympathy and support of all peace-loving nations and peoples."

He said further that the recent summit conference, "resulting in a still further strengthening of the cohesion of the entire Communist movement and in a still further strengthening of the solidarity between the Communist party of China and the Communist party of the Soviet Union, between the People's Republic of China and the Soviet Union."

Moscow radio broadcast Liu's speech but this dispatch was delayed in passing through censors. Pravda, the Soviet Communist party newspaper, published a long editorial a week ago in which it stated that peaceful coexistence as interpreted by Premier Khrushchev is the correct interpretation.

LAI DOWN LAW
Coming as it did near the end of the conference, after more than two weeks of debate, it sounded as if the Soviets had laid down the law as they saw it.

The speech by Liu Shao-chi was his way of saying that the man who pays the piper calls the tune.

GRAND RAPIDS — One person was killed Sunday and another suffered fatal injuries in two separate auto accidents involving the same victims.

Police reported Wayne Holtzlander, 25, of Sparta, dead on arrival at Butterworth Hospital. A companion, 17-year-old Dorothy Holtzlander, 21, of Sparta, died early today at the same hospital of crash injuries.

Police Capt. Edward Lettman detailed the report this way: Holtzlander and the girl suffered injuries earlier Sunday night in an auto crash on Nine Mile Road, just north of Grand Rapids. With them were Glen Holtzlander, 21, of Sparta, and Violet Patterson, 21, of Cedar Springs.

Motorist James Somers, 17, of Belmont, was hailed at the accident site and asked to drive the injured to a hospital. The four entered Somers' car with the older Holtzlander and the teenage girl placed in the rear seat.

Inside the city, Somers tried to pass a car and his auto went out of control, sideswiping a parked car, crashing through a construction barricade and smashing into a trailer and steamroller. All five persons were transferred to Butterworth Hospital but only Miss Patterson remains, in fair condition, for treatment. The two men were released.

Canadian Jet Falls in France Killing 2
STRASBOURG, France — A Canadian Sabre jet fighter plane went out of control at 10,000 feet today and plunged into the village of Lichtenberg, killing two people and setting several houses afire.

The pilot, Flying Officer Henry Schomer of Alton, Alta., bailed out when the plane suddenly went out of control. He was not hurt.

"He had no control over it at all," a Canadian air force spokesman said. It was a case of bailing out or simply riding the thing down.

Lichtenberg, with only 400 people, is near the German frontier.

Indonesia to Intensify Drive Against Rebels

JAKARTA, Indonesia (AP) — Gen. Abdul Harris Nasution, army chief of staff and national security minister, says military operations against die-hard rebels in the interior will be intensified soon. He says a visit to North Sumatra convinces him rebel fighting power has been reduced considerably in the last few months.

Sweetest of all forms of sugar is levulose.

U.A.R. to Give Somalia Technical, Money Aid

CAIRO, Egypt (AP) — The United Arab Republic has agreed to supply technical and economic aid to the new African nation of Somalia. A communique by U. A. R. President Gamal Abdel Nasser and Premier Abdel Rashid said all of Somalia, issued during the weekend after a "four-day visit here by the premier, also said a loan for industrial and construction projects was offered Somalia.

The silver eel is simply a common green eel grown old. When they are six to eight years old, they stop feeding and change to a silvery color for their long trip out into the ocean where they spawn and die.

aimed at easing international disarmament and peaceful coexistence between countries with differing social systems have the sympathy and support of all peace-loving nations and peoples."

He said further that the recent summit conference, "resulting in a still further strengthening of the cohesion of the entire Communist movement and in a still further strengthening of the solidarity between the Communist party of China and the Communist party of the Soviet Union, between the People's Republic of China and the Soviet Union."

Moscow radio broadcast Liu's speech but this dispatch was delayed in passing through censors. Pravda, the Soviet Communist party newspaper, published a long editorial a week ago in which it stated that peaceful coexistence as interpreted by Premier Khrushchev is the correct interpretation.

LAI DOWN LAW
Coming as it did near the end of the conference, after more than two weeks of debate, it sounded as if the Soviets had laid down the law as they saw it.

The speech by Liu Shao-chi was his way of saying that the man who pays the piper calls the tune.

GRAND RAPIDS — One person was killed Sunday and another suffered fatal injuries in two separate auto accidents involving the same victims.

Police reported Wayne Holtzlander, 25, of Sparta, dead on arrival at Butterworth Hospital. A companion, 17-year-old Dorothy Holtzlander, 21, of Sparta, died early today at the same hospital of crash injuries.

Police Capt. Edward Lettman detailed the report this way: Holtzlander and the girl suffered injuries earlier Sunday night in an auto crash on Nine Mile Road, just north of Grand Rapids. With them were Glen Holtzlander, 21, of Sparta, and Violet Patterson, 21, of Cedar Springs.

Motorist James Somers, 17, of Belmont, was hailed at the accident site and asked to drive the injured to a hospital. The four entered Somers' car with the older Holtzlander and the teenage girl placed in the rear seat.

Inside the city, Somers tried to pass a car and his auto went out of control, sideswiping a parked car, crashing through a construction barricade and smashing into a trailer and steamroller. All five persons were transferred to Butterworth Hospital but only Miss Patterson remains, in fair condition, for treatment. The two men were released.

Canadian Jet Falls in France Killing 2
STRASBOURG, France — A Canadian Sabre jet fighter plane went out of control at 10,000 feet today and plunged into the village of Lichtenberg, killing two people and setting several houses afire.

The pilot, Flying Officer Henry Schomer of Alton, Alta., bailed out when the plane suddenly went out of control. He was not hurt.

"He had no control over it at all," a Canadian air force spokesman said. It was a case of bailing out or simply riding the thing down.

Lichtenberg, with only 400 people, is near the German frontier.

Indonesia to Intensify Drive Against Rebels

JAKARTA, Indonesia (AP) — Gen. Abdul Harris Nasution, army chief of staff and national security minister, says military operations against die-hard rebels in the interior will be intensified soon. He says a visit to North Sumatra convinces him rebel fighting power has been reduced considerably in the last few months.

Sweetest of all forms of sugar is levulose.

U.A.R. to Give Somalia Technical, Money Aid

CAIRO, Egypt (AP) — The United Arab Republic has agreed to supply technical and economic aid to the new African nation of Somalia. A communique by U. A. R. President Gamal Abdel Nasser and Premier Abdel Rashid said all of Somalia, issued during the weekend after a "four-day visit here by the premier, also said a loan for industrial and construction projects was offered Somalia.

The silver eel is simply a common green eel grown old. When they are six to eight years old, they stop feeding and change to a silvery color for their long trip out into the ocean where they spawn and die.

51 S. SAGINAW ST. | TOY STORE | 4516 Dixie Hwy. | DAYTON PLAINS | OPEN DAILY 9 A.M. to 10 P.M. — SUNDAY 10 A.M. to 9 P.M.

The annual Community Christmas Concert will be presented at 3 p.m. Sunday in Pontiac Central High School's gymnasium, featuring the MacDowell Male Chorus, Pontiac Women's Chorus, Pontiac Northern's choir and 600 vocal music students of Pontiac

Central. Photographed at dress rehearsal were (from left) Northern vocalists Jerry Brabant, West Beverly Avenue; Tom Nichols, Tennyson Avenue; and Central choir members Edwina Shelley, Woodland Avenue; and Tom Murphy of West Iroquois Road.

The appearance of the City-Wide Youth Orchestra will be a new attraction at Sunday's annual festival of music. Practicing a difficult passage from the moving "Hallelujah Chorus," in which the orchestra will accompany the combined glee clubs, choruses,

vocal department, alumnae and audience, are string section members (from left) Larry Watson, North Merrimack Street; Marty Furton, Fairfax Avenue; Mario Garcia, South Merrimack Street; and Janet Reed, Lakeview Drive, Sylvan Lake.

Chorus Delights Small Gathering

By A. MICHAEL DEMPSEY

The MacDowell Male Chorus, under the direction of Melvin Larimer, presented a highly enjoyable concert Saturday evening before a small but enthusiastic audience in the Pontiac Northern High School Auditorium.

Opening the program was the familiar chorus of song and brotherhood, "Let There Be Music," by Francis Williams. The deeply moving spiritual "There is a Balm in Gilead" with Robert Martin as soloist was followed by "The Battle Hymn of the Republic," which featured the two-piano accompaniment of Karen Brunel and Joan Grubek and the solo bass voice of Kenneth Young.

Miss Brunel did a capable job throughout the concert filling in for regular MacDowell pianist Jerry Libby.

In striking contrast to the powerful and mature voices of the mens chorus, the second section featured "The Jills," a singing ensemble from Bloomfield Hills High School. "The Jills' first group of songs included "O' Lovely Hour," "The Birthday of a King," and "The Virgin's Slumber Song."

The girls displayed a pleasant tone, good blend and were well trained by director Clarence Luchman. "The Jills" returned later to present a medley of lighter Christmas songs.

Throughout the evening the program was enhanced by the attractive setting of the stage and by tasteful lighting effects. Neil Hunter, president of the chorus, was heard in the tenor solo, "Let Us Break Bread Together," as the men returned to sing their next group. Other selections included the stirring "Hymn of

the Pilgrims," "Prayer of Thanksgiving" and "Onward Christian Soldiers."

This well-known arrangement was one of the highlights of the program as the balance and blend of the chorus was particularly outstanding.

Music of the Christmas season concluded the program as the men sang a beautiful arrangement of "White Christmas," "The Summer of the In-

fant Jesus," and "Mary Had a Baby," which featured the lyrical tenor voice of Arden Sears.

The audience then joined in the singing of familiar Christmas Carols and the program was effectively closed with "Silent Night" hummed softly by the audience and chorus as the lights dimmed and the curtain slowly closed.

MR. AND MRS. IRA J. DAVIS

The golden wedding anniversary of Mr. and Mrs. Ira J. Davis of Hudson Street will be observed at open house Sunday from 3 to 6 p.m. in the First Methodist Church parlors. The couple has four children, Mrs. Oliver Dunstan of Waterford Township, Mrs. Earl Hassenzahl and Ira J. Davis Jr. of Pontiac and Mrs. Howard Schoof of Detroit. There are five grandchildren.

Celebrate Christmas at Dinner

Men's Club Host to Presbyterian Women's Group

The Men's Club, under the direction of Bradley D. Scott, prepared and served the annual Christmas dinner to the First Presbyterian Church Women's Association Friday in the church dining room. Mrs. Charles E. Galloway, social chairman, decorated the tables for the occasion.

Mrs. Earle Van Dyke presided as Mrs. Allan H. Monroe installed officers of the board of directors and the group chairman of the Women's Association for 1961.

Incoming president is Mrs. Earle Van Dyke Jr.; first vice president, Mrs. Smith Falconer; program vice president, Mrs. William S. Hildeley; World Service vice president, Mrs. Howard L. White; fellowship vice president, Mrs. E. G. Winn. Mrs. Gene Fenwick is recording secretary; Mrs. E. L. Guy, assistant recording secretary; Mrs. Louis B. West, corresponding secretary; Mrs. John Heisch, treasurer; Mrs. Roy O. Ward, auditor; and Mrs. Neil Gray, nominating committee member.

GROUPS INSTALL

Group chairmen installed were January-March, Mrs. Harry J. McGrath; February-December, Mrs. Willis Brewer; April-May, Mrs. Floyd Salow; June, Mrs. Malory Coleman; July-August, Mrs. West; September-October, Mrs. Charles Allen; November, Mrs. Clyde Herring; Leal Ems; Mrs. Edward Markham; Flora Shelly, Mrs. S. E. Minsard; Marchbach, Mrs. George Beauchamp; Yonar, Mrs. James E. Graybill; Mary-Martha, Mrs. Hildeley.

Mrs. William H. Marchbach closed the installation ceremony with prayer.

A Christmas pageant, "Candles of the Lord," was presented under the direction of Mrs. Leslie Ellis. Mrs. Robert Anderson was narrator; Mrs. L. V. Kline, voice of revelation; Mrs. Robert Irwin, voice of response.

Symbolizing Mary's faith were Mrs. Merle Voss; the shepherds' obedience, Mrs. Donald Barker; and the Wise Men's worship, Mrs. Bradley D. Scott.

Members of the chorus were Mrs. Guy, Ethel Kline, Florence and June Schlessler, Beverly Allen, Mrs. Dena Adams, Mrs. Bruce McCall and Mrs. J. E. Frankenfield. Mrs. Neil Gray was accompanist.

The group of the Women's Association was represented in a charm bracelet presented to Mrs. Marchbach by Mrs. Van Dyke in recognition of devoted service and counsel during her 20 years as the pastor's wife. Dr. Marchbach closed the service with benediction.

Exercise in Tub

(NEA) — The bathtub is a good place to try slithering your ankles. Just rotate your feet and ankles 10 to 20 times while you're in the water. It's effective and less tiring than doing the exercise anywhere else.

Prepare Holiday Music for Christmas Concert

A program of music in a holiday mood is planned for area residents at the annual Community Christmas Concert Sunday at 3 p.m. in the Pontiac Central High School gymnasium.

The MacDowell Male Chorus and Pontiac Women's Chorus will join Pontiac Northern High School's Choir and some 600 students from the Pontiac Central vocal department for the public yuletide program.

New addition to the festival of carols will be the appearance of the City Wide Youth Orchestra, composed of 48 senior and junior high school students. The group will accompany the combined glee clubs, choruses, vocal department students, alumnae and audience in singing Handel's "Hallelujah Chorus."

The orchestra also will play "Christmas Fantasy," by Grossman, under the direction of Robert Peterson. Orchestra assistants are Burton Apple and George Eckroth. Traditionally, former Pontiac Central choir and glee

club members will join in the two Bach chorals and the "Hallelujah Chorus"—a highlight of the concert.

Pontiac Northern's choir, under the direction of Melvin Larimer, will sing the Finnish folk song "Lost in the Night" and the spiritual "Go Tell It on the Mountains."

Mrs. Doreen Voltmann has prepared the PCH choir in three numbers, "Deo, Gracias," from Benjamin Britten's "A Ceremony of Carols"; "The Stable Door," by Gibbs; and "Twice The Night Before Christmas," arranged by Harry Simeone. The senior girls' ensemble will sing "It's Beginning to Look a Lot Like Christmas."

A. Michael Dempsey, PCH vocal music instructor, has selected for the songplanners an English carol "The Twelve Days of Christmas." The junior girls' ensemble will sing a French cagol "Pat a Pan."

Songs by the combined Selective Girls' Glee Club, girls' glee club and the combined boys' glee clubs are also on the program.

Vocal music students participating in the Community Christmas Concert Sunday will number over 600. These glee club members caught the holiday spirit as they posed at rehearsal festively framed with a huge wreath.

Pictured above are David Roberts (left) of Mt. Clemens Street and Ed Bradley of Spokane Drive. Below are Pat Rahja of Voorhes Road and Jill Hicks (right) of Lahser Road.

Play No Excuse to Raise Cain

Minister Shouldn't Curse

By ABIGAIL VAN BUREN

DEAR ABBY: What do you think of a minister who would direct a play and take a leading part in this play in which he portrayed a drunk who cursed and took the name of our Lord in vain?

The play was "The Caine Murky" and was open to the public to raise funds for the church. The cursing this minister did in this play was fierce. If he hadn't been purveying I wouldn't have minded so much. How can he be justifying breaking the Third Commandment? I'd like your views and also those of other clergymen, please.

WITTHOLD MY NAME: Your clergyman should have realized that first and foremost he is a minister—not an actor. If he wanted to act in a play, he should have selected one in which his role would have been in keeping with the dignity of his office. Ministers, too, are human, and sometimes err.

DEAR WITHOLD: Your clergyman should have realized that first and foremost he is a minister—not an actor. If he wanted to act in a play, he should have selected one in which his role would have been in keeping with the dignity of his office. Ministers, too, are human, and sometimes err.

DEAR ABBY: How do you get rid of a boy friend you don't care for?

HELEN: Introduce him to a girl you don't care for.

DEAR ABBY: Recently my mother-in-law, who has been a widow for six years, became "engaged." She is in her late 40s and he is in his middle 50s. He gave her an "engagement ring" of all things. I have always been under the impression that it was poor taste for a woman who has

been married before (and owns one engagement ring) to accept another. Please enlighten me and others who have this question in mind.

DISGUSTED: There is no limit to the number of engagement rings a woman may accept. It is simply the "token" that accompanies a promise to wed. If a woman accepts a proposal of marriage, she may accept the token that goes with it.

DEAR ABBY: I just found out that a woman comes to this town almost every week-end to see my husband. He is married and has children. I could tell her husband and break up her home but I hate to do that to innocent children. Please put this in the paper for my husband to see. He never misses your column.

I want him to know I am on to them. If they don't stop seeing each other I will be forced to tell her husband. I can't stand it any more.

"HAD ENOUGH!"

DEAR ABBY: I changed doctors and now I would rather have the first one. The first one knows I went to another doctor. Could I change back without having to explain anything? I have more faith in the first one than the second one. I will not go back to the second one if I can help it.

DUMMY: No explanations are necessary. Ask your first doctor for an appointment.

The Carl A. Underhills of Birmingham announce the engagement of their daughter Jane to Paul E. Gibbons, son of Dr. and Mrs. Joseph F. Gibbons of Westwood, Mass. She is a graduate of the Katherine Gibbs School in Boston and her fiancé attended Boston College.

JANE UNDERHILL

Friends Upset by Cocktails

Good Taste Today

By The Emily Post Institute
Question: The other evening, seven of us planned to have dinner together. We decided on a certain restaurant which was agreeable to all and planned to meet there at a specified time.

Three of us arrived early and went directly into the restaurant and sat down at the table we had reserved and ordered a cocktail while waiting for the others. When the others arrived, they were quite annoyed and thought us very rude for not having waited for them.

I see nothing wrong in what we did and think they are making a mountain out of a molehill. I would, very much like to have your opinion on this.

Answer: If there was a cocktail lounge at the entrance of the restaurant it would have been more polite to have had your cocktail there while waiting for your friends, but as you were all dining together and no one was host or guest, it was not wrong for you to have gone directly to your table.

Question: A friend of mine invited me to lunch with her the other day at a very nice restaurant in town. She of course paid the check which was a considerable amount.

I insisted upon leaving the tip. I thought this was the least I could do and meant it as a kindly gesture. However, she seemed to resent this. Will you please tell me if I was wrong in offering to leave the tip?

Answer: You were wrong in insisting on paying the tip which was an essential part of the lunch, to which she invited you, and it should have been paid by her.

Question: If I am unable to accept an invitation, is my obligation to the one who invited me just the same as if I had accepted? In other words, do I owe her a return invitation?

Answer: The obligation is not as definite as it would be if you had accepted, but it does, nevertheless, exist.

Dear Mrs. Post: Just what flowers am I supposed to pay for at my coming wedding? There seems to be a great difference of opinion on this score. I am the bridegroom.

Answer: It is impossible to give definite directions because customs differ in different localities. Even so, the bridegroom always buys the boutonnieres of the ushers as well as his own and that of the best man.

In many communities he also buys the bride's bouquet as well as the corsage she wears away. It is incorrect, however, and very unfair, to expect him to buy the flowers carried by the bridesmaids. And of course he never pays for the decoration of the church.

Business Unit Shown Movie by Tourist Pair

Mary Parker of Lake Orion opened her home Saturday evening for a meeting of The Business Institute Women's Club.

A film, "West of the International Date Line," taken on a world tour, was shown by H. W. Robinson and narrated by Mrs. Robinson. She wore a dress designed and made for her in Hong Kong.

Club members will present gifts to the young people at the Youth House on Cooley Lake Road.

Mrs. Walter Gingsell and her daughter Mildred were received into the club.

Nancy Walker, club president, will be hostess for the January meeting.

Kitchen exhaust fans should be removed and cleaned periodically. Life of metal snow shovels can be extended by coating them with rust-preventing aluminum coating.

Return to Vamp Look Will Be Short-Lived

By RUTH MILLETT

The vamp is going to make a comeback, more slinky, more shoe-eyed, more fur-bearing even than when she made her last appearance in the roaring '20s. The vamp setup will be complete with long beads, long cigars should be sold by the pound, facette holders, jewelry so heavy it consoled hats, pale faces and shadowed eyes.

Well, that's what the fashion writers are predicting and from the look of the latest fashion magazines the new look, sure enough, is going to be the old vamp look making a comeback.

Somewhat I have a feeling that the vamp, however enthusiastically launched, isn't going to stick around very long this time. I can't think of a single group that is going to fit into the vamp role easily and gracefully. The teen-agers are too addicted to their sweaters and skirts, jeans and loafers, and their ardent enthusiasm to find playing the world-heavy vamp anything but confining.

Young housewives are sure to feel a little silly trying to look like

vamps as they car-pool kids, attend PTA meetings, shop at supermarkets and preside over their household appliances.

Of course, they could go "vamp" in the evening at big parties. But, can you imagine a sultry-eyed, slinky vamp strolling up to her host and hostess to say, "We simply must leave. We promised the baby sitter we would be home by midnight!"

The working girl would have to confine her "vamping" to off hours—but it would be quite a switch from crisp, clear-eyed business girl to slinky, world-weary vamp and it might prove just too much trouble.

The truth is, the American woman has become such a vital, busy, energetic, enthusiastic individual that the role of vamp may seem a bit ridiculous to her.

We'll probably buy the clanking jewelry and the heavy eye shadow and the slinky clothes and the long cigarette holders and give them a whirl. But chances are they'll soon be gathering dust as we slip back into the roles that really suit us.

JUNE ANNETTE CARGAL

Mrs. Viola Cargal of Douglas Street announces the engagement of her daughter **June Annette** to **Jerry F. Fincannon**, son of Mr. and Mrs. Frank C. Fincannon of Waterford Township.

Demonstrates Wreath-Making

Shirley Friedly of Winkelman Drive was hostess to Zeta Chapter of Alpha Delta Kappa Sorority Thursday evening, assisted by Helen Voss.

Following the business meeting Mrs. Joseph Hughes of a local greens market demonstrated the art of wreath construction and assisted members in making Christmas wreaths. Mrs. Hughes is a specialist in commercial and home decorating.

Mrs. John Friedly and Mrs. Bert Winkler were guests.

A demonstration "Food For Entertaining" will highlight the January meeting at Consumer's Power Co. Hostesses will be Mrs. Eugene Carey, Mrs. Gordon Paul and Mrs. George Robbins.

Off With Bang!

(NEA) — Any gal who wears glasses should avoid wearing exaggerated bangs. Brush your hair to one side to reveal a larger forehead area. It will be more attractive.

Sorority Decorates Candy Dish Favors

Mrs. John A. Allen of Marlborough Road, Bloomfield Highlands, was hostess to members of the Beta Chapter of Beta Theta Phi Sorority Thursday evening.

The group decorated candy dish favors and completed plans for the Christmas party. A holiday food basket will be given to a needy area family.

Yule Party Set by Pi Omicron

Members of Phi Kappa Tau chapter of Pi Omicron National Sorority, meeting Thursday evening at the Roberta Drive home of Mrs. William Johnson, completed plans for the Christmas party, Dec. 15 at Fox and Hounds Inn.

Jean Cory and Cleone Evans will receive their first degree of initiation at this time.

Mrs. Robert Angel was appointed chairman of the badge-making project for the state convention May 27-28 at the Jack Tar Lansing Hotel.

Have You Tried This?

Tiny Cheese Tarts Are Filled With Jam, Nuts

By JANET ODELL
Pontiac Press Home Editor

Friends are coming and you want to prepare something sweet to serve with coffee? Cream cheese tarts are your answer. They're easily and quickly made and simply melt in your mouth.

Sharon Bradshaw, a teen-ager, is our cook of the day. She's active in Girl Scouting, likes to ice skate and is interested in art.

CREAM CHEESE TARTS

By Sharon Bradshaw
1 cup sifted flour
2-ounce package of cream cheese
1 cup shortening (margarine preferred)

Strawberry jam
Chopped nuts

Blend cheese, shortening and flour. Knead to a smooth dough. Chill several hours.

Roll out 1/4 inch thick and cut into 2-3 inch squares. Place a teaspoon of jam and some nuts on one corner of each square. Fold over other corner to cover and press down edges.

Bake at 400 degrees 12 to 15 minutes. Sprinkle with confectioners sugar while warm. Makes 12 tarts.

We have tried this recipe with apricot jam and like that combination too.

Soil Affects Dye

If you plan to tint your dyed feathers — perhaps for party costumes — be absolutely certain that they are clean before you dye them.

cause color can't penetrate through soil. Feathers can be washed safely in warm soap or detergent suds, then rinsed and air dried.

HOLIDAYS AHEAD

To make the best "headway" into the coming festive season, let our stylists create a smart new coiffure for you . . . Come in now.

Messiah Performed in Impeccable Taste

By SERVICE ROSENTHAL

An event of musical distinction took place Sunday afternoon, when Handel's "Messiah" was performed at Vespers at the Kirk in the Hills.

The work, one of the best known and loved of all oratorios, was given a mighty and moving expression.

Phillip Steinhaus, the conductor, gave the kind of performance we have come to expect from this artist, a concert in impeccable taste, true to the real intent of the composer, and filled with meaningful and creative interpretations which showed much study and thought given to the musical values of every phrase.

Twenty-five of the more than 50 sections of the "Messiah" were selected for performance with attention to contrast. Included were several sections seldom performed, while some of the more usual ones, such as "Unto Us a Child is Born," were omitted.

Since Handel wrote and rewrote many versions of the "Messiah" during his lifetime, to suit the abilities of his performers, there is no single version which is considered standard.

However, the version used by Mr. Steinhaus is rarely heard, and is full of authentic emendations and changes in cadence, especially in the solo parts which somehow sound closer to the composer's original intent than the more usual renditions.

One got the feeling, from Mr. Steinhaus' interpretations, that the familiar score was given such new seemed to hear it for the first time.

There was a freshness and a seeming simplicity, despite all the difficulties inherent in the work, that presented the oratorio with all the humility it deserves but seldom receives.

WELL-BLENDED

Perhaps the greatest accomplishment was the blending, the harmonious understanding and sympathy of chorus, organ and orchestra with conductor.

Mr. Edgar Billups, at the organ, was at one with all the

other parts, with support at all times, and made one attempt at any unaided solo. His was a delicate and difficult task, done with empathy and fine taste.

The soloists and chorus of 16 fine voices sang with clear diction, clean phrasing and a true religiosity that is rarely heard.

Dorlene McNelly, soprano, sang three recitatives and "Lo, the Angel of Death Came Upon Them" with clarity, and fine control of the long and difficult passages.

Her singing, later, of "I Know That My Redeemer Liveth" was filled with the poignance and the calm of true belief.

Ann Molloy and Joyce Van Arsdale, sopranos, sang "Rejoice Greatly" and "Come Unto Him," respectively, with ease and warmth.

"He Shall Feed His Flock,"

"He Was Despoiled," and other solo roles were sung by Alice Stead in a fine, full contralto voice with heart-warming directness.

William Morris sang the tenor solos with conviction and dramatic appeal, especially the opening recitative and the aria, "Every Valley."

Fred Burnett gave the bass solo, "This Salth the Lord," great meaning and forcefulness.

The fine accompanying orchestra consisted of John Cataldo and Stella Raicevich, first violins; Mary Alice Case and Jean Hohmeyer, second violins; Robert Peterson and Richard Brown, Violas; and Laura Blide, bass.

Sunday's performance of the "Messiah" was an outstanding event in the culture of this area, logging mountain sides.

and it is to be hoped that it will be performed many times again by Mr. Steinhaus and his inspired group.

8 Win at Bridge

The Pontiac-Bonneville Duplicate Bridge Club met Saturday evening at the Hotel Walden with six tables in play.

Winners were Melvin Small and John F. McLean Jr.; Dr. and Mrs. Maurice Willis; Mr. and Mrs. James Sweeney; Mary Madichie and Harry C. Philip.

James J. Byrne, an official of the U.S. Forest Service, predicts helicopters and dirigibles will be used to get logs out of inaccessible areas and to reduce soil damage in event in the culture of this area, logging mountain sides.

League to Hear Report

The executive board of the League of Women Voters will meet Tuesday at 7:45 p.m. at the Community Services Building on Franklin Boulevard.

The agenda will include a finance drive report by Mrs. Roy B. MacAfee and discussion of the unrealized goal.

A review of the state constitutional revisions, with discussion and taking a poll of the local league on the continuing responsibilities will highlight the meeting.

Revisions under consideration are taxation, children's services, constitutional revision, reapportionment and fair employment practices.

The LWV reviews its standards on these topics every six years, dropping those which appear to be future and revising those of greatest importance.

Further board planning will cover the Jan. 25 meeting on metropolitan problems, with Amy Krueger as chairman. League calendars may be obtained from Elizabeth Halsey.

Any member interested in the constitutional revision review is urged to attend the board meeting. There will be no membership meeting in December.

Life insurance statisticians say the accident death rate at ages 65 and over has decreased from 224 per 100,000 in 1949 to 164 in 1958.

Navy Club Sets Visit

At a meeting of the Pontiac Navy Mothers' Club Thursday evening in the Naval Training Center, plans were completed to attend a business meeting of the Past Commanders' Club of Southern Michigan Tuesday in Detroit.

Club members will exchange gifts at the family Christmas party Friday at 7 p.m. Refreshments will be served. Mrs. Vidal Gonzalez will be dining-room chairman for the League of the Blind dinner Sunday, with club members preparing and serving the meal.

Donations have been given to Veterans Hospitals in Dearborn and Battle Creek, the Detroit U.S.O. and Leander Dog School in Rochester. Thanksgiving baskets were distributed to needy area families. The next business meeting will be at the Naval Training Center on Jan. 5.

Pregnancy Won't Cost Figure

Hold Figure After Baby

By JOSEPHINE LOWMAN

When a woman is expecting her first baby she is certain to wonder "Will I lose my figure?" "Will I look older?" She would gladly sacrifice these to the wonderful event if necessary, but she fervently hopes that these are not inevitable results of pregnancy. The answer to both questions is a positive no—that is, if you take a few precautions. The bony structure does not change permanently. Your figure will be the same after the baby is born unless you become overweight.

Naturally the scales will show a gain in weight because of the

weight of your child and its surroundings, but you yourself do not have to become obese. An average pregnancy weighs about 14 pounds.

Your abdominal muscles will be stretched and your abdomen will be flabby but you can recondition those muscles with exercise about six weeks after the baby arrives. Your doctor will tell you when it is safe to begin.

SAVES FIGURE

Keeping your weight down not only saves your figure but makes pregnancy much more comfortable and both pregnancy and delivery safer. You are also less apt to get stretch marks and varicose veins.

It is important that the expectant mother have regular daily exercise. Most doctors recommend walking. It is also imperative that she have plenty of rest and relaxation.

She should take periodic rest periods, lying down during the day. Elevate the feet by placing a pillow under them or lie on the floor and put your feet on the seat of a low chair.

So far as general appearance is concerned, happiness makes a woman look younger than anything else in the world. Her newly found happiness will give her a bloom during pregnancy and afterward. Anyway, having a child is such a natural and vital experience that nature somehow seems to reward mothers with special vitality.

A pillow under them. It is important that the expectant mother have regular daily exercise.

Woman's Society Honors Newcomers

New members of the Woman's Society of Christian Service of Central Methodist Church were honored at a tea Thursday afternoon in the church parlors.

Devotions were given by Mrs. Wesley Johnson. Mrs. George Putnam and Mrs. Russell Curtis directed a program entitled "When God's Word Became Flesh."

The Jean Bagnall Circle members were hostesses and the Janette Geiger Circle served the tea, with Mrs. Colin Carson in charge.

Sandra Nelles Wed in Birmingham

Sandra Anne Nelles of Birmingham exchanged wedding vows with Robert D. McIlraith in a candlelight ceremony Friday evening in Embassy Methodist Church, Birmingham.

The Rev. Samuel F. Scott performed the rite before an altar banked with white gladioli.

Mr. and Mrs. Duane A. Nelles of Lake Park Drive, Birmingham, were hosts at their daughter's church reception.

The James H. McIlraiths of North Shirley Avenue, parents of the bridegroom, received with them, PRINCESS LINES

Styled along princess lines, the bouffant floor-length bridal gown of white chiffon velvet was styled with scoop neckline and long asper sleeves.

Fingertip veiling fell from a tiara of seed pearls.

A white orchid with white sweetheart roses, anemones and ivy rested on a white fur muff carried by the bride.

Mary Pickering of Bloomfield Township wore ballerina-length red velvet bordered with red satin accented by a wide satin bow.

Nancy Nelles and Linda McIlraith, sisters of the bride, appeared in princess-style ballerina-length dresses of red satin.

MRS. ROBERT D. MCILRAITH

raih, sisters of the bride, appeared in princess-style ballerina-length dresses of red satin.

All attendants wore drop pearl necklaces, velvet caplets and carried white fur muffs topped with garnet sweetheart roses.

James McIlraith was best man for his brother. Seating some 100 guests were Duane Nelles, brother of the bride, Philip Davis and Kyle Bess.

HONEYMOON IN NORTH

Leaving for Northern Michigan, the new Mrs. McIlraith was wearing a royal blue tweed suit with cropped jacket. The couple will be at home on Park Street, Birmingham.

Green cymbidium orchids accented Mrs. Nelles' bouffant light beige silk shantung princess-line dress.

The mother of the bridegroom, in buttercotton silk shantung with a rhinestone buckle accenting the side-drape, chose black accessories and corsage of beige cymbidium orchids.

Mrs. A. J. Abbott of Lansing attended her great-granddaughter's wedding with Elaine Abbott, the bride's aunt.

Deaths in Pontiac, Neighboring Areas

MRS. SAM ANTHONY
Service will be Wednesday at 2 p.m. at the Providence Missionary Baptist Church for Mrs. Sam (Mary) Anthony, 78, of 311 Calhoun St., who died Friday at Pontiac General Hospital after an illness of one year.

The body is now at the Frank Carruthers Funeral Home and after service on Wednesday will be sent to Jackson, Tenn., for service and burial on Dec. 11.

Survivors include her children, Mrs. Albert Sain, Mrs. Rockie Cobb, Mrs. Lulu Cole, Ezzie, John and Samuel, all of Pontiac, Mrs. Pearl Bond of Bell, Tenn., and Mrs. Mary Sue Sharp of Alton, Ill. Also surviving are four brothers and four sisters.

HARRISON CLARK
Service will be Tuesday at 2 p.m. at the Blackmore and Tubbs Funeral Home in Mayville for former Pontiac resident Harrison Clark, 71, of Ann Arbor, who died Friday at St. Joseph Mercy Hospital, Ann Arbor, after a short illness. Burial will follow in Mayville.

Surviving are four sons, Harold C. of Pontiac, Donald H. and Arthur A. of Ann Arbor, and Lincoln E. in Utah; four daughters, Mrs. Edward N. Ehlers of Ann Arbor, Mrs. Clarence Crowe of Keego Harbor, Mrs. James Burnett of Detroit and Mrs. Charles Richison of Florida; 16 grandchildren and 15 great-grandchildren.

Also surviving are three brothers and a sister.

PHILO R. DAVIS
PONTIAC TOWNSHIP — Service for Philo R. Davis, 50, of 2663 South Blvd., will be held today at 11 a.m. at the Moore Chapel of the Sparks-Griffin Funeral Home.

Mr. Davis died Friday at Veterans Hospital, Dearborn, after an illness of several years.

Surviving besides his mother, Mrs. Richard Davis of Pontiac, are

two brothers, Eu- and the Multi-Lake Conservation zone of Arizona and Charles of Pontiac.

LENA E. RANDALL
ROMEO — Service for Lena E. Randall, 33, of 255 E. Lafayette St., will be held Saturday at 2 p.m. at the O'Neill Funeral Home in Hancock for Charles Kratt, 84, of Winona, who died Saturday in Hancock after an illness of two years.

Mr. Kratt, a former Pontiac resident, at one time owned and operated the Lakeland Hotel on Ebel Street.

Survivors include his wife, Ethel, a daughter, Mrs. C. O. Sturdy of Louisville, Ky., and a son, Manley C. of Pontiac. Also surviving are four grandchildren and four great-grandchildren.

MRS. CLAYTON A. WARNER
Service will be Wednesday at 2 p.m. at the Grace Lutheran Church for Mrs. Clayton A. (Ida Mae) Warner, 56, of 388 Hillcliff St., who died Saturday in St. Cloud, Fla. Burial will be in Ottawa Park Cemetery.

She had been a member of Grace Lutheran Church.

Survivors include five daughters, Mrs. Richard E. Shaul, Mrs. Gerald J. Weber, Mrs. Allen Crawford, Mrs. William Sparks, all of Pontiac and Mrs. Robert Willis of Fort Lauderdale, Fla., and a son, Calvin C. of Pontiac.

Also surviving are 15 grandchildren; two sisters, Mrs. Ruth Walters of Ewart and Mrs. Herbert Zeche of Pontiac; and seven brothers, Earl McArthur of Davison, Orville of Pontiac, Leo, Robert, and Russell, all of Oxford, Lloyd of Ortonville and Roland of Metromora.

The family said memorial contributions may be made to the Michigan Heart Fund or Grace Lutheran Church.

MRS. JOHN COOK
ROCHESTER — Mrs. John (Bertha) Cook, 82, of 714 N. Main St., died Saturday after a long illness. Her body is at the Piskley Memorial Chapel.

Surviving are two sons, Edwin Steir and Melvin Steir, both of Astoria Park, N.J.; a daughter, Mrs. Elsie Hinton of Pontiac; two sisters, and a grandson.

WILLIAM R. JAMES
Service for William R. James, 57, of 60 Douglas St., will be held at 11 a.m. Tuesday at the Pursey Funeral Home, with burial in Mt. Olivet, where he is buried.

Mr. James died Saturday after an illness of two months. An employee of General Motors Truck & Coach Division, he was a member of the Pontiac Oakland County Sportsman's Club.

\$2,000 Collected by Goodfellows in Waterford

Waterford Township Goodfellows, working from dawn to dusk at major intersections in the township Saturday, collected more than \$2,000 for needy persons.

Every one of the 5,000 Pontiac Press Goodfellows newspapers was sold, and this was largely due to the ideal weather conditions, according to Fire Captain Charles Bonatracce, Goodfellow president.

The big job ahead will be to fill Christmas baskets for some 150 needy families in the township. Other civic organizations, along with the Boy and Girl Scouts, contribute items for the baskets, and the Goodfellows add last-minute perishable foods.

In 1955 the average new home contained about 80 pounds of aluminum. By 1959 the figure had almost doubled to 150 pounds.

Survivors include his wife, Ethel, a daughter, Mrs. C. O. Sturdy of Louisville, Ky., and a son, Manley C. of Pontiac. Also surviving are four grandchildren and four great-grandchildren.

She had been a member of Grace Lutheran Church.

Survivors include five daughters, Mrs. Richard E. Shaul, Mrs. Gerald J. Weber, Mrs. Allen Crawford, Mrs. William Sparks, all of Pontiac and Mrs. Robert Willis of Fort Lauderdale, Fla., and a son, Calvin C. of Pontiac.

Also surviving are 15 grandchildren; two sisters, Mrs. Ruth Walters of Ewart and Mrs. Herbert Zeche of Pontiac; and seven brothers, Earl McArthur of Davison, Orville of Pontiac, Leo, Robert, and Russell, all of Oxford, Lloyd of Ortonville and Roland of Metromora.

The family said memorial contributions may be made to the Michigan Heart Fund or Grace Lutheran Church.

DEATHS ELSEWHERE

SHEFFIELD, England (AP) — Walter Goehr, 57, conductor-composer, collapsed and died Sunday after conducting a performance of "The Messiah." Goehr, who was born in Germany, came to Britain in 1932. He had given concerts in the United States and South America as well as nearly every country in Europe.

ST. LOUIS, Mo. (AP) — Dr. Philip Anderson Shaffer, 79, often called the "dean of American biochemistry," died Sunday. He was twice dean of the School of Medicine at Washington University in St. Louis.

URBANA, Ill. (AP) — Mrs. Byron C. Vedder, 50, wife of the publisher of the Champagne-Urbana Courier, died Friday. She was the former Kathleen Fry, daughter of Edward J. Fry, late Michigan state treasurer and Democratic nominee for governor in 1944.

MADISON, Wis. (AP) — Roy L. Matson, 52, editor of the Wisconsin State Journal since 1932, died Sunday of a heart attack. Matson, who joined the Journal as a reporter in 1929, also served as a director of the Journal Publishing Co. He was born in Cloquet, Minn.

Accept Reservations for Christmas Party

Reservations are being accepted by the Michigan Chapter of the National Multiple Sclerosis Society for a Christmas party from 1-5 p.m. Dec. 10 at the Rehabilitation Institute of Metropolitan Detroit.

The party is for victims of multiple sclerosis, their families and friends in the Oakland-Wayne-Macomb county area, said Harry B. Hillner, executive director of the chapter.

The Railway Business Women's Association is in charge of arrangements.

Jordan, Israeli Men Segregated for Show

UNITED NATIONS, N.Y. (AP) — Spokesmen for Israel and Jordan appeared on the same television program Sunday — but, at weight.

Jordan's request, they were in separate rooms.

The program was CBS-TV's "U.N. in Action," recorded on tape last week. Foreign Minister Amman Nastr of Jordan was interviewed in one conference room and U.N. Ambassador Michael Comay of Israel in an adjoining room.

'Jack's Jig' Looks Big With Rock 'n' Rollers

NEW YORK (UPI)—The rock 'n' roll set may soon be hopping to "Jack's Jig," a new dance step featuring the campaign arm and hand gestures of President-Elect John F. Kennedy.

"Jack's Jig" was introduced on television Saturday when 500 teenagers jiggled to it on a dance program.

The show's producer predicted it might even become more popular than "Be's Hike," a step introduced eight years ago honoring President Eisenhower.

Moisture content of bread usually averages 36 per cent of its weight.

Lions Win Game on Last Play, 20-15

Colts' Final Touchdown Was Scored Too Soon

Morrall Passes to Gibbons for Big Touchdown

Lions Turn Apparent Defeat Into Triumph and Shock Colts

BALTIMORE (AP)—The Baltimore Colts, who have a reputation for getting things done the hard way, made the mistake yesterday of scoring the potential game-winning touchdown too soon.

Fourteen seconds remained in the game when halfback Leroy Moore made a sensational diving catch in the end zone of a 34-yard pass from John Unitas to put the Colts ahead of the Detroit Lions 20-15.

It looked like another come-from-behind victory for Baltimore.

Hundreds of the 57,888 fans rushed onto the field to mob Moore, who caught a touchdown pass in the final 40 seconds just three weeks ago to beat the Chicago Bears 24-20.

The fans again stormed the field after the Lions returned the kick-off to their own 35 and a couple of near-fights broke out among the players. They finally retreated to the sidelines, unprepared for the shock which was to follow.

The Lions turned the tables on the last play of the game when Earl Morrall threw a pass over the middle from Earl Morrall and rambled for a 60-yard touchdown pass to a 20-15 Detroit victory.

The stunning finish left the National Football League's western conference in a wild scramble with two weeks remaining.

The Colts, Green Bay Packers and San Francisco 49ers are tied for first with 6-4 records, with the Bears a half game behind at 5-5. Baltimore, which lost its first three games, is now 5-5 and still has a chance to tie for the title, and force a division playoff.

The Colts, usually invincible at home, lost their first straight in Baltimore for the first time since 1957. And by whipping the Colts this season, the Lions accomplished a feat no other team has done against Baltimore since 1956.

Unitas completed 22 of 49 passes for 333 net yards, but for the second straight week Baltimore's all-pro quarterback was picked by the defense. The Lions picked by three interceptions, deflected five other passes, and recovered a Unitas fumble.

Unitas has had 29 passes intercepted this year, breaking his personal record of 17 set in 1957. He had only 14 picked off last year.

It was the second touchdown pass of the quarter thrown by Morrall, who had spent the first three periods on the bench—his post for most of the season.

His first went to Hopalong Cassidy for 40 yards and put the Lions ahead 10-8. Martin then boosted the lead with his second field goal.

At the outset, it appeared the Colts would rule the day and avenge the earlier defeat. Lebron Shields rushed in and blocked a punt by Yale F. Ayliff. He then squirmed out of the end zone and the Colts led 2-0. However, Martin's first field goal put the Lions ahead 3-2 at the end of the first quarter.

The first touchdown of the game came in the second quarter when Moore again combined with Unitas on a 34-yard touchdown pass.

BALTIMORE (AP)—Baltimore's first touchdown pass of the season came Saturday as the Colts defeated the Detroit Lions 20-15.

The Braves, who Saturday bought veteran infielder Billy Martin from Cincinnati, have offered outfielder Billy Brown, second baseman Chuck Cottier and catcher Dick Brown for the 29-year-old star.

Bolling, an infield mainstay for the Tigers since 1954, slumped last season to 254 and drove in 59 runs. A sure-handed defensive infielder, Bolling had his best season in 1958 when he batted .281.

St. Louis (AP)—The Milwaukee Braves were reported today to be hearing a deal with Detroit for second baseman Frank Bolling.

(SIBLIE ENSTASY) — End Steve Junker (88) reaches out to grab Bob Nussbaum, assistant coach, who appears to be in ecstasy during the dramatic final seconds when the Lions scored to beat the Colts, 20-15. Coach George Wilson in the center of the picture changed from a dejected coach to an amazed one on the long TD pass from Earl Morrall to Jim Gibbons.

AP Photos
LION HERO — End Jim Gibbons holds on to his precious souvenir, the football which he carried over the goal line to beat the Baltimore Colts on the last play of the game yesterday. Gibbons took the pass from Earl Morrall and went over on a 60 yard play with no time left.

Prophetic Statement by Stadium Announcer

BALTIMORE (AP)—Detroit Lions' fans—and there are more of them by the day—are hauling out the old superstitions that've been gathered dust since 1957.

In an almost miraculous finish that couldn't have come with any more drama or excitement, the Lions pulled their second victory of the season over the Baltimore Colts 20-15.

The outcome was decided in the last 12 seconds. It was at that point that Leroy Moore made a

diving catch on a pass by Johnny Unitas to put the Colts ahead 14-13.

"Please clear the field, the game is not over yet," pleaded the public address announcer. And although he didn't know it, the words were prophetic.

The delirious Colts fans, who had clambered down to pat their heroes on the back, obeyed. Seconds later they were in shock.

The Lions' Bruce Maher took the kickoff and nearly broke away. Then, in the dying seconds, quarterback Earl Morrall, who had been supplanted by Jim Ninovali early in the season as Detroit's top passer, fired a long strike to end the game.

Jim Gibbons who rambled the rest of the way for a 60-yard touchdown and a fan-shocking victory.

When Jim Martin batted the extra point, the game was truly over. "We had no time out left," he said. "It's all over."

Coach George Wilson was nearly speechless. He spoke more about the Lions' defense, which had limited the Colts to their lowest scoring game in 24 games.

By BILL CORNWELL

There's a lot of work ahead for the Pontiac Central High School basketball team.

The Chiefs found that out the hard way Saturday night when they suffered a convincing 54-43 setback at the hands of underdog Gross Pointe in their first home game of the 1960-61 season.

A near-capacity crowd in the PCH gymnasium witnessed the spirited Blue Devils completely out-play and outshoot the favored PCH cagers in a nonconference contest.

It was Central's first defeat of the season following an opening night 71-55 triumph over Eden Ford last Tuesday at Dearborn.

The defeat also was the Chiefs' first on their own court since February of 1958 when they lost to Flint Central.

Mere 25 Yards Decides Bowl

HICKORY, N.C. (UPI)—Northern Michigan's football team missed a berth in the NAIA Holiday Bowl game by the heart-breaking margin of 25 yards.

That was the basis of decision Saturday after Northern and Lehigh-Rhyne battled to a 20-20 tie in the Eastern District playoff here.

A chance to play in the Holiday Bowl at St. Petersburg, Fla., hinged on the outcome of the Northern-Lehigh-Rhyne match, and when the game ended in a tie, the officials turned to rushing yards for the measuring stick.

Lehigh racked up 294 yards on the ground, 25 more than coach Freddy Ferraro's Wildcats.

Going into the last play of the game, Northern's rushing yardage totaled only four less than Lehigh's.

A five-yard gain on that final play would have sent the Wildcats to St. Petersburg to play Humboldt State, winner of the Western Division title playoff.

But, gambling for a last-second victory, Northern quarterback Frank Novak dropped back to pass and was thrown for a 21-yard loss.

WEBER LEADING PIN QUALIFIERS

CHICAGO (AP)—Dick Weber, one of the country's top-ranking tournament bowlers, held a slim lead today as shooting resumes in the final qualifying round in the \$48,000 World's Invitational bowling tournament.

Weber, National doubles champion of St. Louis, led runner-up Andy Marxich of Inglewood, Calif., by 19 pins as the 128 bowlers started their final six games of the 24-game qualifying round.

Weber posted a 1,238 six-game total Sunday to boost his 18-game mark to 3,586. But Marxich, listed as Southern California's bowler of the year, scored the highest six-game series of the tourney, a towering 1,372 for an 18-game total of 3,577.

Veteran Joe Joseph of Detroit was only five pins behind Marxich with 3,572 after his 1,280 score for six games. Four other keglers posted 18-game totals of 3,800 or higher.

In the women's division, Esther Woods of Burbank, Calif., paced the 64 shooters seeking the 31 berths for the semifinal competition. They will join Olga Gloer of Chicago, defending champion, for the eight-game semifinals on Tuesday.

Michigan Tech's Jerry Sullivan turned-in the three-goal hat trick as the Huskies came from behind to down North Dakota in Western Collegiate Hockey Association action over the weekend.

In other state college hockey action, Michigan shut out Toronto 4-0 and Michigan State bowed to Minnesota 6-5 in overtime.

North Dakota took a quick 3-0 lead early in the first period, only to have Michigan Tech bounce back with three in the second to go ahead for keeps. One of these goals was Sullivan's first. The other two were scored by Mike Draper.

In the final period, Sullivan started things with his second, and after the Sioux's Dave Merrifield connected, closed the scoring with his third career goal.

Michigan got off to a slow start.

What Would YOU Have Done?

Chooses Death Penalty

VACAVILLE, Calif. (UPI) — Suppose you had this choice: Be confined for the rest of your life in a state institution as insane. Or, be sent to San Quentin's death row where you would face execution unless you could win a commutation to life imprisonment with possible parole in 30 years. Which would you choose?

Erwin M. (Machinegun) Walker, 42, a graying, quiet-spoken ex-Army officer who has been under sentence of death longer than the late Caryl Chessman, chose the second course.

The former Signal Corps second lieutenant was sentenced to death June 19, 1947 for the murder of California highway Patrolman Loren Roosevelt during a year-long crime spree in the Los Angeles area.

He also admitted shooting two policemen and when captured had an arsenal of six machine guns, eight .45 caliber automatics and 2,000 rounds of ammunition.

Blaming his crimes on "war nerves," Walker pleaded insanity by reason of insanity, but was convicted of murder in a summary trial. The judge who condemned him called him "a menace to society beyond the possibility of rehabilitation."

Walker was ordered to die in the San Quentin gas chamber on Good Friday, April 15, 1949. But two days before that date he tried to strangle himself with a radio carbide cord.

He was examined by psychiatrists just 30 minutes before he was to be executed and they found that he did not know the difference between right and wrong.

A Superior Court jury subsequently ruled that Walker was legally insane. He could not be executed unless he regained his sanity.

Since then Walker has been confined as criminally insane. But

recently he was examined again by psychiatrists at the California Medical Facility here and this week was found to be sane.

A full, sanity hearing in a Marin County court in the next few weeks will determine whether he must be returned to San Quentin's death row.

Dr. William C. Keating Jr., head of the medical facility, indicated that Walker might have feigned insanity in the recent examinations if he had so desired.

"The burden of proof would be upon us to show that he is sane," Keating said. "If he had acted mule, refused to answer any questions, it would have made it very difficult for us. But Walker cooperated fully."

Keating said the sandy-haired inmate realizes he is taking "a calculated risk" of being executed in exchange for possible eventual freedom "in the twilight of his life."

He is pinning his hopes on commutation to life imprisonment by Gov. Edmund G. Brown, who is on record as opposed to capital punishment. Then, with good behavior, he might gain parole in 30 years or less. He could not seek commutation while still adjudged insane.

"Walker doesn't want to die," Keating said. "But he doesn't want to go on in the perpetual limbo he's in. He wants a decision."

ENGAGED—Lynn Carter Wilkinson Jr., a Northwestern University senior, and Miss Joan Tunney, 21-year-old daughter of the former heavyweight boxing champion Gene Tunney, are engaged, her parents announced. He is the son of Mrs. Lynn Carter Wilkinson of Whitefish Bay, Wis.

U. N. Raps Censorship
UNITED NATIONS, N. Y. (AP) — A U. N. committee Friday voted against advance censorship on news, comments and political opinions. The vote was 38-22 with 15 abstentions and 23 countries absent.

IF YOU HAD A NECK AS LONG AS THIS FELLOW AND WERE SUFFERING FROM A SORE THROAT OR COLDS, ALL YOU WOULD NEED WOULD BE TONSILINE FOR QUICK RELIEF OF A SORE THROAT.

Now Many Wear FALSE TEETH With More Comfort
FARTRETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly to the gum and adds to more comfort. Just sprinkle a little FARTRETH on your plates. No gummy, sticky, messy taste or feeling. Check FARTRETH at any drug counter.

Average 7.9 Hours

Test Self for Sleep

DETROIT (AP)—If you have to struggle mightily to get out of bed after eight hours of sleep, it doesn't necessarily mean something is wrong — chances are you just need more sleep than is generally considered adequate.

Latest medical evidence shows the right amount of sleep for one person may be too much or too little for another, according to Therapeutic Notes, a medical journal published by Parke, Davis & Co.

A simple way to determine how much sleep you need each night is outlined by the journal, which is edited by Dr. Harry E. Carnes.

All you have to do is remain in bed for as long as you wish during a 24-hour period. If you find that sleeping two or three hours more than usual makes you feel more refreshed, it might be that you are habitually depriving yourself of sleep.

Therapeutic Notes adds, however, that "among members of an Arctic expedition who were allowed to sleep as long as they wished each day, sleeping time averaged 7.9 hours daily per man."

Orchard Lake, Utica Voting on Special Issues

Will Decide Property Sale and 3 School Proposals

Special elections are slated today for Orchard Lake and the Utica Community School District. At Orchard Lake, voter approval is sought to sell 17 lots owned by the village.

The Utica School District electorate will be asked to approve three proposals, including a \$3.98-million bond issue for new schools, a proposition requesting additional operational millage and one seeking authority to construct a \$100,000 municipal building.

The 17 lots at Orchard Lake, all adjacent to the village office on Orchard Lake Road with the exception of one lot, are being sought for development by the Birmingham building firm of C. E. Raymann & Sons for \$40,000.

The only parcel included in the proposed sale that is not adjacent to the village office is next to a public fishing site on Orchard Lake.

The site is across the road from the village offices.

After the property had been subdivided, village officials had planned to sell it piecemeal but were informed by the village attorney that if this were done an election would have to be held each time a parcel was put up for sale.

Bids were taken on the entire property Oct. 14 and only the Birmingham firm submitted an offer.

Village Clerk Lucille M. Smith said that in recent years the property had been put up for sale numerous times but no one had ever submitted bids.

OPEN TILL 8 P.M.
Polls will be open until 8 p.m. today for voters in the Utica Community School District.

Only property owners may vote on the \$3.98-million bond issue requested by the Board of Education for construction of five new school buildings during the next two years.

However, all registered voters may cast ballots on the two other proposals — one a request to levy a five-mill operational tax and the other a proposition seeking approval on construction of a \$100,000 administration building.

The millage for operation, if approved, would be a two-mill increase over the present three-mill operational tax which runs out this year.

The new administration offices would be financed through a one-year tax levy of 15 cents per \$1,000 of assessed valuation.

Construction of two 20-room elementary schools, two elementary schools half that size and a full-sized, combination junior high-elementary school would be financed through a levy of 88 cents per \$1,000 of assessed valuation for 25 to 30 years.

Fight on Ruling to Be Debated

Southfield Will Decide Today Whether High Court Gets Veto Tiff

SOUTHFIELD — Council members here will decide tonight whether they will accept the Oakland County Circuit Court ruling on Mayor Donald L. Swanson's veto power or take the matter to the Michigan Supreme Court.

Judge William J. Beer ruled that Swanson had the authority to veto a 43 vote of the City Council designating the Southfield Sun, a local weekly, as the city's official newspaper.

A council majority sought to make the Sun the official newspaper, replacing the Southfield News.

Judge Beer's decision also upheld Swanson's veto of city administrator Robert J. McNutt's firing last August.

McNutt later submitted his resignation effective Dec. 31.

The name of a new city administrator will be announced sometime after tonight's council meeting, C. Hugh Dolans, council president, said today.

Three candidates for the post were interviewed at Saturday's five-hour special meeting.

This is the first time that all members of the council were present at the special session called to discuss a new administrator.

Civilian Clubs Slate Initiation Tomorrow

Members of the Union Lake and Pontiac Civilian Clubs will be initiated tomorrow at a joint meeting of the two organizations at the Edgewood Country Club, Commerce Township.

Presiding over the 7 p.m. ceremonies will be Robert Trickler, governor of the Great Lakes District Civilian International, and R. E. Marks, lieutenant governor of the organization.

Entertainment for the members' wives includes a fashion show and several dancing and baton twirling acts.

TREE PLANTING — Nelson G. O'Shaughnessy (with shovel), superintendent of the Dublin School District, digs in to plant one of three maple trees donated yesterday by Cub Scout Pack 55 to beautify the Dublin Elementary School in White Lake Township.

Looking on with the scouts are Robert Bachi, committee chairman of the cub pack; Donald Fish, school board president; Mrs. Burt Knox, president of the local Parent-Teacher Association; and Philip McCullough, secretary of the school board.

Seek School Funds in Berkley

To Vote on Tax Tuesday

BERKLEY — Voters will be asked to approve a seven-mill tax for the operation of three new school additions in a special school election here tomorrow.

A total of 48 new classrooms were built following approval of a \$1.8 million bond issue in April 1959. The additions were constructed at Berkley High School and two junior high schools in the district.

The Berkley Board of Education told voters that extra money would be needed in the near future at the time the bond issue was passed.

Although the board is asking for a seven-mill levy, the actual increase to taxpayers in the Berkley School District will total only about four mills.

Three mills of the current levy no longer are needed since 1964 and 1960 bond issues will be retired this year, school officials explained.

The total school tax rate in the district is \$23.56 per \$1,000 of assessed valuation. If tomorrow's millage request is approved, school taxes would be increased by \$3.84 per \$1,000 of assessed valuation over the present rate, they said.

The extra \$500,000 per year

Name Dentist to Clarenceville School Board

FARMINGTON TOWNSHIP — Dr. Samuel J. Frisk of 2030 Gilman St., Livonia, has been appointed to fill a vacancy created on the Clarenceville Board of Education.

He succeeds James E. Bowers who resigned after taking a job in Massachusetts.

Dr. Frisk attended Wayne State University, the University of Detroit and obtained his doctor of dentistry surgical degree from Washington University, St. Louis.

Dr. and Mrs. Frisk have two children, both attending school in the Clarenceville district, a boy in Clarenceville Junior High School and a girl attending the Edgewood Elementary School.

Romeo High School Raided by Vandals

ROMEO — Vandals broke a window, smashed furniture and scattered papers all around the principal's office at Romeo High School sometime over the weekend, it was reported yesterday to Romeo State Police.

Troopers said the break-in appeared to be a case of malicious destruction rather than larceny. Nothing was reported stolen from the school on 32-Mile Road, just west of here.

Romeo High School Principal David Olson discovered the break-in yesterday, police said. Olson reported that a window, a glass desk top and several drawers were smashed.

\$38,000 Health Aid Planned for Carver

OK PARK — The Oak Park Board of Education plans to spend some \$38,000 in an effort to improve the health standards of Royal Oak Township children from the disbanded Carver School District.

Arthur B. Parklan, president of the Oak Park board, said the board planned to give Carver students the same type of health program now available to Oak Park youngsters.

Although the former Carver School District has been dissolved and attached to the Oak Park School District, school officials here believe that the health of children in the Carver area is a community problem and not just a school problem.

Officials estimated that it would cost \$35,000 to give minimum health care to the 1,100 Carver pupils

and an additional \$3,000 to provide for them the same benefits now given Oak Park children.

Doris Tannen, school health director in Oak Park, said that health records are practically nonexistent at Royal Oak Township's George Washington Carver Elementary School.

Miss Tannen reported that the only health work done in the all-Negro township was by the Oakland County Public Health nurse who worked there two hours each week.

Of 97 Carver children entering the first grade, Miss Tannen said only 37 of them had been given the required shots for polio, tetanus, measles, whooping cough and diphtheria.

The Oak Park district, meanwhile, employs nine health specialists for its 6,300 students, including three social workers, three nurses, a dental technician, a hearing and vision technician and a speech therapist.

In addition, Oak Park has in operation a tuberculosis study, a polio vaccine clinic and two sodium fluoride programs, one for students and one for pre-schoolers.

However, the Oak Park district has a tax base of about \$15,000 per child while the now defunct Carver district operated on a tax base of \$5,000 per child.

Oak Park School Supt. Dr. James N. Pepper said his district intends to ask for special financial aid from the Michigan Legislature in what he terms an "emergency" situation following the annexation of the Carver district to Oak Park.

Parklan said Oak Park hopes to get "all the help possible" from county and state agencies and private foundations.

\$280, Liquor Taken From Cloverleaf Inn

KEEGO HARBOR — Thieves broke into the Cloverleaf Inn here early Sunday and stole more than \$280 in cash and an undetermined amount of liquor.

Police said the bar at 1967 Cass Lake Road was entered through a rear window.

The money taken was in a cash box and a Boys Club cashbox. Also taken were several cigarette lighters.

Another Michigan man, Bill Van Frank of Montague, was elected president of the federation's young cooperators group. Van Frank and his wife Beverly were named Michigan's outstanding young dairy couple last year.

"LET ME SEE..." — Pondering over what to ask Santa Claus for Christmas is 3-year-old Candy Stokes, daughter of Mr. and Mrs. Robert D. Stokes, 421 Lake St., Lake Orion. Candy was one of the some 450 youngsters who gathered at the railway station in Lake Orion to greet Santa on arrival Saturday morning and then waited in line at Russ Johnson's Motor Sales to tell him personally of their heart's desires.

Tradition Says Rally but . . .

Yearend Market Proves a Puzzle

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—The yearend rally in stock prices is a tradition in the market. But like so many other Wall Street traditions it doesn't always happen.
This year may be one of those exceptions. And if a rally does come in the next couple of weeks the reasons may be other than seasonal.
One thing that makes this December different is that today there actually are stock traders and experts who say—mostly privately—that they honestly don't know what's going to happen in 1961.
They aren't sure about business, about policies in Washington, about the course international problems will take.
If in the next few days President-Elect John F. Kennedy's selection of his team gives a hint to what's coming in Washington after Jan. 20, traders may respond to whatever their interpretation of this may be—bullish or bullish.
DIFFERENT THIS YEAR
But this will be different from other yearend rallies—the year's common yearend declines. True, political speculation plays a stock market role in most Decembers, even if rarely the biggest part. Usually it revolves around guesses on the upcoming federal budget, the attitude of Congress toward

Price as High as \$5,000

Black Market Baby Ring Uncovered in California

LOS ANGELES (UPI)—Three women told a county grand jury last week of their experiences as undercover agents probing a Southern California black market baby ring.
Miss Schiengold and Mary Sax testified about similar experiences before the panel. Miss Schiengold said she posed as an expectant mother. Miss Sax pretended to be searching for a child to adopt.
The district attorney's office is seeking indictments against a group of doctors and lawyers it claims operated the illegal adoption ring.
Gael Greene, 24, a reporter for the New York Post, assertedly testified that hundreds of California babies are illegally adopted each year by couples in eastern cities.
Miss Greene said Jewish babies brought "premium prices" exceeding \$5,000.
Many Jews living in New York are native Europeans who are unable to have their own children because of tortures inflicted in World War II concentration camps, she said.
Miss Greene told the panel she was in Los Angeles for five weeks last spring on special assignment for the State Department of Social Welfare. Evelyn Schiengold and Mary Sax also worked for the agency and testified.
She said the ring operated by placing ads offering homes to expectant mothers in exchange for light housekeeping duties. In each such ad she answered. Miss Greene said, she was told the position was filled and was referred to a lawyer who could help her.
The attorneys specialized in eastern adoptions, and one lawyer told her she would be paid \$1,500 for her child, but she would have to pay for hospital expenses.

MSU Scientist Reads Glaciers

Predicts Earth Will Go Through Cold Period in Next 50 Years

EAST LANSING (UPI)—While weathermen study gauges and instruments to make a forecast, Michigan State University scientist reads glaciers to predict the weather.
His prediction: The earth will be colder in the next 50 years.
Dr. Maynard M. Miller, MSU geologist, heads a study team which measures and otherwise pries into glaciers in the Far North.
Miller said his research indicated weather cycles in 90-year cycles. The high point of the current cycle was reached in the past 10 years and weather now expected to become cooler.
"Average temperatures may drop over the next 50 years to what they were in the 1800s when winters were much more severe than they are today," Miller said.
He has been leading summer expeditions to the Franz Josef field in Alaska, every summer since 1948 as part of a project of the foundation for glacier research.
"We need to study more about current effects of weather on glaciers," Miller said.
He has also studied glaciers on Mt. Rainier, Wash., and Elmerie in the Canadian Arctic.

Denies Opposition to Visiting Russians

LANSING (UPI)—Michigan Gov. G. Mennen Williams has denied he ever opposed visits to the United States by leaders of the Soviet Union.
Williams was described in a UPI story from Washington as "strongly in record as opposing such visits."
He pointed out that in a speech before the Ukrainian American Youth in Detroit in 1959 he "recommended that the entire Soviet council of ministers and the Supreme Soviet come to this country and talk with the people."

Havana U. to Get Soviet Professors

HAVANA (AP)—Soviet professors of high scientific attainments will start teaching soon at Havana University, the chairman of the government-controlled University Board announced Saturday upon returning from Moscow.
Dr. Enrique Jimenez did not tell reporters at the airport how many Soviet teachers will be added to the university faculty. He said plans also are being made for a student-exchange program between Havana and Moscow Universities.
Jimenez represented Prime Minister Fidel Castro at the inauguration of the Soviet Union's new Friendship University in Moscow last month.

show many exceptions to all these traditions.
The exceptions seem to be increasing in recent years. Some think this is because more persons have been buying stocks since the war. And the institutions—pension funds, and the like—are huge buyers who put more money by business prospects than market traditions.
The increase in individual stock owners and in the volume of institutional buying gives the net trader a smaller proportion of total sales. Tradition has it that these traders were more inclined to follow the old saws. With individuals studying the market more, the seasonal factor is given less weight than when the general public was less sophisticated.
The reasoning behind the tradition of a yearend rally runs this way:
Selling of stocks to establish losses for income tax reporting usually runs its course in late November and early December. This leaves the sellers with some cash to put in other stocks if they choose—and such buying pushes up prices and gives the over-all list a lift.
Also the tax selling may have forced some good stocks down to price levels where bargain hunters snap them up, giving prices a shove again.

One school of thought in Wall Street holds that the Christmas spirit must be reckoned with—it tends to make even stock buyers more optimistic, less fearful of the economic future, or maybe more prone to wishful thinking.
But this December a lot of people in the boardrooms and the family parlors could turn out to be just perplexed.

Missile Mishap Worth \$6 Million

**Titan Blows Up After
Fueling at Vandenberg;
Program Faces Delay**

VANDENBERG AIR FORCE BASE, Calif. (AP)—The Air Force today studied the shattered ruins of a Titan intercontinental ballistic missile, trying to learn why it exploded shortly after fueling.

Damage from the blast Saturday night was estimated at between \$4 million and \$6 million, an Air Force spokesman said. The missile is destined for a major role as an ocean-spanning nuclear weapon.

The Air Force was unable to estimate how long the Titan program will be delayed by the explosion.

FIRST ONE THERE

This was the first explosion of a Titan at this base, 170 miles northwest of Los Angeles. Similar explosions have occurred at Cape Canaveral, Fla.

The Air Force said the 97-foot long Titan was being lowered into its underground concrete silo after fueling when it exploded with a roar that shook windows 25 miles away.

There were no injuries—crews were in an underground building several hundred yards away.

California Backs Dick as GOP Head

By WILLIAM GLOVER

LOS ANGELES (AP)—California's Republican State Central Committee has pledged complete support to Vice President Richard M. Nixon as head of the Republican party.

The committee sent Nixon a telegram Sunday, congratulating the defeated GOP presidential candidate on his majority in California.

State Chairman John Krehbiel said Nixon's victory in his home state showed a clear repudiation of Democratic Gov. Edmund G. Brown's administration.

BACK IN PICTURES—Former child singing star Gloria Jean listens intently to her "benefactor" Jerry Lewis during filming of "Ladies Man," her first film in 10 years. Jerry heard that she was trying to get back into movies and decided to give her a break even without hearing her record for the part—because he likes to do things for people.

Courtesy of Jerry Lewis

Former Child Star Gloria Jean Returns

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—Everything's coming up roses for Gloria Jean, appearing in her first movie in 10 years.

But the former child singing star isn't giving up her job as hostess at a San Fernando Valley eatery.

Readers of this column will recall a report a few weeks ago that Gloria had taken the job to tide her over until she could get back into the show business she had known most of her life.

Jerry Lewis happened to read the report. He sent for Gloria. "How would you like to appear in my new movie, 'Ladies Man'?" he asked.

"Why—I'd like nothing better," she answered in amazement. "All right, you've got the part," the comedian said.

THOMAS
had known most of her life.

Seek Thief Who Killed Club Owner

SAGINAW (UPI)—State Police pressed the hunt today for a handi-slayer who shot and killed a night club owner en route home with his evening receipts.

James C. Eaton, 31, was shot once at close range in the back of the head as he was changing a flat tire in a gas station across the street from his El Morocco night club.

Eaton closed the club on 18th just outside the city limits, at about 3 a.m. Sunday. He backed his auto into the gas station, removed the flat tire and replaced it with the spare.

He was killed with a 32 caliber bullet before he could fasten the lug nuts. The body was discovered by the station attendant when he arrived to open up in the morning. The trunk of Eaton's auto, where he usually kept the receipts was open, and the bag, containing some \$300 to \$500 was missing. The bandit also took Eaton's keys.

Elevates Sleep to Avoid More Intruding Autos

HAMILTON, Ont. (UPI)—Gerald Bickerton slept at the top floor of his house Sunday night to escape any motorist who might crash into his bed.

Bickerton Sunday morning woke up to find a car sitting three feet from his bed and the driver, Gerald Warrell crawling out of the machine without a scratch.

The car had smashed through the wall of Bickerton's house. "I'm sleeping on the second floor tonight," said Gerald the house owner to Gerald the car owner.

Photographer Sees Wife Killed in Car Race Crash

DAKAR, Senegal (AP)—Monsieur Spontem, standing at a roadside curve outside Dakar to take pictures of a car race, focused on a car as it flipped off the road and plunged into a tree. Spontem rushed to the car and found that his wife, Jacqueline, 27, was the driver. She was killed.

Louisiana Lawmaker Calls for Electoral Revolt

Says Jack's Gone Wild on Integration

BATON ROUGE, La. (AP)—A Louisiana legislator today said President-elect John F. Kennedy is a "man gone wild on integration."

Rep. Wellborn Jack of Caddo Parish tried to breathe new fire into an uncertain mood to hold Louisiana's 10 electoral votes from Kennedy, should Kennedy lose Illinois' 27 votes.

Former House Speaker Robert Angelle, of St. Martin Parish, said Louisiana, angrily denounced Jack for "criticizing the man who has been elected president of the United States."

She got her break-in to the field again by doing a role on MacDonald Carey's TV series, "Look-up."

She has been written up by the two top fan magazines—"First time since I left pictures." The night she tapes Ben Alexander's TV show, "About Faces."

Despite all this activity, Gloria hasn't deserted the Tablith, the studio city spot where she has been hostess.

"I wouldn't want to quit," she declared. "But I have cut down to work up on Saturday nights only while I'm on the picture."

Norway Taxes Pour in

OSLO, Norway (AP)—Norwegians spend \$85 million a year (some \$120 million) on liquor and the state takes nearly 30 per cent in taxes, a report from the state liquor monopoly said.

JOCKO JOINS STATE POLICE—Jocko, an 85-pound, 4½-year-old German Shepherd and his handler-trainer, State Trooper Richard H. Abbott, are ready for their first assignment as a man-dog tracking team for the Michigan State Police. Jocko, the first dog owned by department, and

Hope to Hold Off Algerian Debate

African Friends Come to Aid of France

UNITED NATIONS, N. Y. (AP)—France's African friends moved today to hold off the General Assembly's annual debate on the Algerian war and give French President Charles de Gaulle more time to win support for his policies.

The debate opens today in the assembly's 59-nation political committee, but a request for a delay came from the Congo (Brazzaville) and Chad, two of the 11 nations in the French Community.

The Algerian rebels want the debate to start at once. France plans to boycott the discussion, sticking to its contention that Algeria is part of France and the United Nations therefore has no right to tell the French what to do about their internal affairs.

The postponement request could provide a test vote for the community's members—still closely linked with Paris after receiving independence in the past year—to stand up and be counted with or against the Algerian rebels who have been fighting for independence since 1954.

The 11 French Community members from Africa could provide a balance of power in the assembly on moves to set the United Nations to take a hand in bringing peace to the big North African territory.

In recent years, resolutions supported by Algerian representatives have failed by as little as one vote.

The political committee presumably will need two weeks to get to a vote on any resolution. That would take it about up to Dec. 17, the date fixed for the assembly's Christmas recess.

Only a few days delay in starting could defer the vote until the assembly resumes a session, probably in February. That would give De Gaulle time to hold a referendum and get the French people behind his program for an "Algerian Algeria."

WANT GUARANTEES
De Gaulle wants the 10 million people of Algeria to decide their own political future—especially their links to France. Algerian rebel leaders agree with this but they demand guarantees that the choice will be free. They want the United Nations to organize and supervise a final referendum among the Algerians.

Whenever the discussion takes place, it will provide a new platform for Soviet propaganda in North Africa, Sunday the Soviets cast their 31st veto in the Security Council and blocked the admission of the new African state of Mauritania. The vote was 8-2 (Soviet Union and Poland) with Ceylon abstaining.

This pleased Morocco, which lies next to Algeria and claims neighboring Mauritania as part of its territory. Morocco recently accepted a gift of about a dozen Soviet jet planes.

The Soviets had linked admission of Mauritania to admission of Outer Mongolia, a longstanding request on the Communist satellite state regularly turned down by the West. This time the Security Council turned it down by a vote of 7-4, with the Soviet Union, Tunisia, Ceylon and Poland voting yes.

When the Italians Test a Road, It's Tested
FLORENCE—Italy (AP)—More than 20,000 motorists tested the new 51-mile superhighway between Bologna and Florence Sunday. Police said there were so many collisions no one counted them. Dozens of injured motorists were treated at hospitals in three cities, and more than 100 cars ran out of gas or over-heated.

The order directed government managers of the seized companies to submit daily reports to the insurance control office on the progress of their investigation of life policy holders.

It was not clear how the government expected to enforce its orders against persons living in the United States who had notified the home office of their American insurance company of their change of address and were continuing premium payments.

The edict, dated last Monday, also nullified the claims of insurance beneficiaries who have left the country and freeze commission payments due refugee agents or brokers.

Japan Apparently Safe From Typhoon Ophelia

TOKYO (AP)—Typhoon Ophelia, apparently sparing Japan from its 115-mile center winds, swung back into the uninhabited North Pacific today on a northeast course.

The off-season typhoon, which killed two persons on Ulithi Atoll in the central Pacific, caused heavy snow and rainfall in Japan.

Castro Orders Firms to Cancel Insurance

HAVANA (UPI)—The government has ordered confiscated American insurance companies to cancel life policies held by refugees from Cuba and turn over accumulated premiums to the new "recovery fund." It was reported today.

The edict, dated last Monday, also nullified the claims of insurance beneficiaries who have left the country and freeze commission payments due refugee agents or brokers.

The order directed government managers of the seized companies to submit daily reports to the insurance control office on the progress of their investigation of life policy holders.

Grain Commodities Up Major Fractions

CHICAGO (AP)—Grain futures prices started off in a strong range today with all commodities up major fractions in spots during the first half hour of trading. Transactions on the board of trade.

Brokers said there appeared to be some commercial buying but that most of the demand had the earmarks of short covering. Trade volume, however, was not more than moderate.

It was the first general board advance in many weeks and dealers said it now felt a feeling that the market may have made a turn from a prolonged weakness.

Good Intentions Aren't Enough for Good Show

By FRED DANZIG
NEW YORK (UPI) — Reginald Rose, meet Alvin Boretz.
...my dream will become those

In addition to serving as host of the series, Disney will be active in a variety of special projects with NBC-TV. No starting date was

TV viewers will recognize those names as having been attached to some of TV's finest programs as writers. By coincidence, their latest scripts have dealt with the problem of emotionally disturbed

Mr. Rose, according to the credits, wrote last night's NBC-TV special, "Something Special," which

As a TV show, "Something Special" was simply awful. It blended unnecessary importun-

ity with unnecessary comedy and song. It was, as a result, much less effective, moving and realistic than the Boretz script, "The Hidden World," a recent "Circle Theatre" production.

The latter program was real. It didn't apologize for facts. It was positive, hopeful, but not dewy-eyed and it didn't kid with the audience or talk down to it.

★ ★ ★

Hubbell Robinson is putting together a new 60-minute film drama series for next season's ABC-TV roster.

★ ★ ★
"Something Special's" goal was a noble one — to help raise funds and public support for the work the American Child Guidance

The painful flaw in "Something Special" was its concept.

It was based on the premise that Americans still can't be moved to action or confronted with unpleasant facts unless we are simultaneously reassured,

(Advertisement)

Stop Indigestion
3 Times Faster

the seriously disturbed child will be dispelled by simply chucking them under the chin? *

Among the 'chin-chuckers' and 'egg-scoopers' last night were stars

(This is curious, too, because some recent books and articles

on the subject tell us that a portion of the problem can be traced to glamour projections of the magic movie and TV screens.)

Isn't it time we got over this idea that the really serious problems must be presented entertainingly? If there are viewers who

can't be serious about a serious topic for just one hour unless they are repeatedly comforted with chuckles, charm and music, then they aren't really going to be of

STICKY SCRIPT

I found myself feeling sorry for the celebrities who donated their

time and energy to the show. They wanted to do an effective job but were trapped by a sticky, frequently insulting script. Some of the lines: "Maybe you're ready for another *Baywatch*." "What's the deal, *Baywatch*?"

TV RENTAL
BY DAY OR WEEK

There were moments when I wasn't sure about the aim. Were we gathered to talk about helping the sad-faced children or to use their problems as springboards for

Oh, well. We can at least agree that, despite the TV show, the American Child Guidance

Foundation deserves support and contributions should be mailed to "Children, Box 1000, Washington, D. C."

★ ★ ★

Don't judge the foundation by the quality of that TV show.

Flint Hospital Director Takes Battle Creek Post

FLINT (AP) — Stephen A. Lott, director of Hurley Hospital in Flint for the past three years, resigned Saturday effective Feb. 28 to accept a position as administrator of Battle Creek Community Hospital.

His resignation leaves Hurley Hospital's two top administrative posts vacant. Patrick Fenlon resigned as assistant director last May 25 to become administrator of a hospital in Thomasville, Ga.

The Flint Civil Service Commission will attempt to fill the vacancies.

3-Cent Stamp Won't Take Card to Canada

WASHINGTON (AP) — Postmaster General Arthur E. Summerfield reminded Americans Friday Christmas cards to Canada and Mexico take 4 cents postage, whether in sealed or unsealed envelopes.

To all other countries, the surface mail rate is 8 cents for sealed envelopes, 4 cents for unsealed envelopes.

A LIVE CHRISTMAS PRESENT — This fat little collie is pleading for a chance to romp with youngsters. One of the many puppies and dogs available now at the Oakland County Animal Shelter, he would make an ideal Christmas present for some youngsters. (See additional photos on page 25.)

Christmas Gifts Needn't Cost Lot

Gift exchanges when you are limited to a certain price sometimes pose a problem. It was with that in mind that we went snooping last week. We're happy to report that there are a number of items you can buy for a dollar or less.

We saw some interesting key holders, two for women and one for men. There are leather ones that have a thimble or small knife on the end opposite the keys. Others are clear plastic with flowers and a first name inside.

One store carries a set of containers shaped like flower pots. They're tangerine on the outside and lemon yellow inside. They come in four sizes; the three smallest ones each cost less than a dollar.

Wire book holders that leave your hands free would be welcomed by students, invalids and cooks. They hold the book just the right angle for easy reading.

Young girls would like the initial necklaces with a tiny pearl set on each one. For them also are very narrow tie leather belts with medallions on each end.

Friends with fireplace enjoy getting cakes of color that make a rainbow out of the blazing wood.

Packs of miniature matches look like and have the names of popular brands of cigarettes. Match these up with his or her favorite smoke.

A combination collapsible pill box and drinking cup is made of plastic, has rhinestone stars for decoration.

While Ritchie filed an inch-thick report which contained 154 single-spaced pages listing contributions ranging from 20 cents to sums of four figures, Democrats made a less detailed report on four sheets. It was submitted by Louis H. Golden, Democratic committee treasurer.

Included were seven entries of receipts. They were \$5,104 from a membership drive, \$5,171 from the annual "Dollars for Dems" drive, and \$3,270 from the fall congressional dinner.

Golden's statement showed that congressional candidate James G. Kells received \$2,630 from the county committee from September through November.

The Democratic State Central Committee was sent \$3,085 from Oakland County as its quota, while \$938 was dispatched to the Democratic National Committee as the county's share of the congressional dinner fund.

Kells' attempt to unseat Republican incumbent Congressman William S. Broomfield, R-Oakland County, was aided by union contributions, his personal campaign expense account showed.

He said he received a total of \$5,107 and spent \$4,000. Among the contributions were \$1,403 from the County AFL-CIO Council and \$500 from the UAW Regional office in Pontiac.

Broomfield filed an account which showed he spent \$3,419 and collected \$2,090 in his successful campaign for reelection to a third term in Washington.

Dems Collected \$21,117 in Drive

County Party's Outlay Is Far Less Than That Reported by GOP

County Democrats said they spent \$17,256 and collected \$21,117 in their 1960 efforts to seat some of their party candidates in county offices.

Their expenses and receipts, as listed on a report filed four days late with County Clerk-Register Daniel T. Murphy Jr., were considerably under what Oakland County Republicans said they took in and paid out.

In a reported record-high year for contributions, Chad M. Ritchie, GOP county committee treasurer, said \$187,464 was collected.

Ritchie said \$82,185 was spent from the Aug. 2 primary through the Nov. 3 election, the bulk of which was forwarded to the Republican State Central Committee.

While Ritchie filed an inch-thick report which contained 154 single-spaced pages listing contributions ranging from 20 cents to sums of four figures, Democrats made a less detailed report on four sheets. It was submitted by Louis H. Golden, Democratic committee treasurer.

Included were seven entries of receipts. They were \$5,104 from a membership drive, \$5,171 from the annual "Dollars for Dems" drive, and \$3,270 from the fall congressional dinner.

Golden's statement showed that congressional candidate James G. Kells received \$2,630 from the county committee from September through November.

The Democratic State Central Committee was sent \$3,085 from Oakland County as its quota, while \$938 was dispatched to the Democratic National Committee as the county's share of the congressional dinner fund.

Kells' attempt to unseat Republican incumbent Congressman William S. Broomfield, R-Oakland County, was aided by union contributions, his personal campaign expense account showed.

He said he received a total of \$5,107 and spent \$4,000. Among the contributions were \$1,403 from the County AFL-CIO Council and \$500 from the UAW Regional office in Pontiac.

Broomfield filed an account which showed he spent \$3,419 and collected \$2,090 in his successful campaign for reelection to a third term in Washington.

'Santa and the Boy Fish'... A Christmas Serial for Youngsters

Little Michael Poor in Money, Rich in Dreams

By LUCRICE HUDGINS BEALE

Once upon a time, in a little village by a ferny sea, there lived a boy named Michael McBury. His father was a fisherman but times were hard. There were many other fishermen in the little village and not many boys of fish could be found.

Michael's mother needed nets to earn a few extra pennies and the family just managed to get along.

Michael did not mind being poor. His one great love was the sea and that was free. Every day he played in the water that lapped the village shores.

SKIPPED STONES

He swam and rowed and skipped stones. He fished and searched for shells. All these things cost him nothing and he was very happy.

But he was happiest of all when he sat on the rocky cliffs above the village and stared across the sea, listening to secret sounds no one else could hear, and seeing strange things no one else could see.

"This may sound impossible but it was true nevertheless. Things often happened to Michael that no one, not even his mother, would ever believe. Yet, when people scoffed at his stories, there was always something they couldn't explain.

For instance, one stormy night Michael was awakened from a deep sleep. He heard the wind racing around the eaves and the rain thrashing against the window panes.

He smugged deeper in the covers and was almost asleep again when suddenly he heard a clippety-clop right over his head!

He sat up in bed and his mouth fell open as he strained to hear. There it was again—clippety-clop—clippety-clop—clear as could be.

Michael tore from his bed and raced to his parents' room.

DAD WAS ANGRY

"There's a horse! A horse on the roof!"

His father was angry at being awakened and his mother told Michael it was a dream and sent him back to bed.

But the next morning he still insisted it had been so and when he went outside he found a horse shoe lying at the door.

Triumphantly he carried the shoe to his parents crying, "Look! I told you, I told you!"

Still his father scoffed. "It was probably thrown there by someone from the road. Forget it row—it's just another of your wild ideas."

But there was a look of wonder in the old fisherman's eyes as he turned away from his son.

No one had believed Michael either when he swore he had heard a fish playing a mouth harp in the sea and seen a bird flying a kite that had been caught for three weeks in a tree.

Still people couldn't explain how a mouth harp had been found laid on the beach nor why the kite had been so long in the tree was no longer there.

Michael spent more and more time by himself on the beach. He longed to know what lay beneath the surface of the sea.

When he opened his eyes under water he could see nothing, yet he was sure that marvelous things were there if only he could swim deep enough and see clearly enough to find them.

Then one day a wonderful thing happened. When he went to his usual place on the cliff above the village he found a pair of diving mask and found a rubber flippers lying on the rocks.

"Where had they come from?" wondered Michael. "Who in the village would be rich enough to own such things?"

Suddenly, snatching up his find,

HE WAS HAPPY — Michael heard secret sounds from the sea that no one else could hear. And he saw strange things no one else could see.

State Dems Map New Era

Urges Giant Changes in Defense Setup

PALM BEACH, Fla. (UPI) — Sweeping changes in the American defense establishment, including abolition of the Army, Navy and Air Force secretaries, with a possible annual saving of \$8 billion, were recommended today to President-Elect John F. Kennedy.

After receiving the defense reorganization report from Sen. Stuart Symington, D-Mo., Kennedy said it was "an interesting and constructive study which I am sure will be carefully analyzed by the Congress and the incoming administration."

The recommendations resulted from a study requested by Kennedy during the recent campaign and conducted by Symington and a committee of five members, including four former officials of the Defense Department.

Principal aim of the recommendations, according to Symington, was streamlining the Defense Department to meet the needs of the nuclear space age by eliminating "the arbitrary and ridiculous division between land, sea and air."

Meanwhile, in Washington, President Eisenhower has directed his top military, diplomatic and fiscal advisers to stand by to brief Kennedy Tuesday if Kennedy wishes to see them, the White House said.

Secretary of State Christian A. Herter, Defense Secretary Thomas S. Gates Jr. and Treasury Secretary Robert B. Anderson will be waiting in the Cabinet room while Eisenhower and Kennedy confer alone in the President's office shortly after 9 a.m. (Pontiac Time).

Their discussion on transfer of power to the incoming administration also may include Maj. Gen. William A. Parsons, Eisenhower's top staff aide, and Clark Clifford, Kennedy's liaison man with the White House.

White House Press Secretary James C. Hagerty said it would be up to Eisenhower and Kennedy to decide if they want Herter, Gates and Anderson brought into their private conference.

Asked if the President and his successor would have any statement after their talk Tuesday, Hagerty replied "I think not."

Hagerty said as far as (Continued on Page 2, Col. 1)

Michigan GOP Still Confident in Current Chiefs

Acclaim for Lindemer Slaps Sen. Smeekens; Want Bagwell's Help

LANSING (P)—Michigan Republicans met at Lansing this weekend to begin laying the groundwork for the 1961 spring election.

The GOP State Central Committee passed a resolution lauding Republican State Chairman Lawrence B. Lindemer and agreed to ask Vice President Richard M. Nixon to address the party's state convention Feb. 3-4 in Detroit.

It also set up an advisory committee to recruit Paul D. Bagwell, defeated GOP candidate for governor, and others to help in future campaigns.

The vote of confidence for Lindemer was seen partly as a slap at Sen. John P. Smeekens, who called Friday for Smeekens's resignation.

The Coldwater Republican was beaten when he battled Lindemer for the state chairman post two years ago but indicated he would make another try for the job in February.

Lindemer said he has not decided whether to bid for another term in the 475-per-working day assignment, but friends said he probably would run.

Reportedly ready to seek the post of Lindemer's ally are Jack R. Sills of Grand Rapids, who served as the Nixon campaign team, and Arthur Elliott of Pleasant Ridge, Oakland County GOP chairman.

Lindemer said he would name a chairman of the new party advisory committee, who in turn will appoint committee members from inside and outside the GOP State Central Committee.

WILL ASK BENTLEY

The group will advise party leaders on policies, financing campaign (Continued on Page 2, Col. 2)

Answer Questions

DISCUSS REUNION — The Rt. Rev. James A. Pike, (left) Episcopal bishop of California, sits with the Rev. Dr. Eugene Hale of Philadelphia in San Francisco Sunday as they answer questions of newsmen about Dr. Blake's proposal to require the two main strands of American Protestantism.

Protestant Reunion Plan Gets Favorable Reaction

SAN FRANCISCO (P)—Leading churchmen today registered a somewhat bedazzled but firmly favorable reaction to a proposal for a wide reunion among American Protestants.

The plan, said Methodist Bishop John Wesley Lord, of Boston, "is as shocking as it is Christian. It overcomes with stark simplicity many of the problems that have perplexed the separate communions over the years."

The plan, at the outset, would embrace the Episcopal, United Presbyterian, Methodist, and United Church of Christ with other denominations subsequently invited to join.

The preceptive formula was offered Sunday by a top-ranking Presbyterian, the Rev. Dr. Eugene Hale, of Philadelphia, of the Philadelphia, shortly before the start of the triennial General Assembly of the National Council of Churches.

More than 3,000 representatives of 33 Protestant and Orthodox denominations with 40 million members joined Sunday night in the stirring opening services.

Although not formally a part of the program, the proposal generated keen interest among delegates.

"It is the opening of a very significant move," said the Rev. Arthur C. Liebenberg, of New York, presiding bishop of the Episcopal Church.

"Out of this might come a plan that would be acceptable to all the people involved," he added. "It is a good approach. I hope it will lead to a reunion of the church."

He, like others, however, emphasized it will take time, and careful examination,

Staebler Weeps as Saga Under Williams Ends

Swainson Camp Gets Ready to Split Spoils, Honor Victories

LANSING (P)—Michigan Democrats were deep in plans today for spitting the spoils and on holding the ceremonies they won title to by their victory at the polls Nov. 8.

Rallying around Gov.-Elect John B. Swainson, they searched for new candidates and leadership as party machinery began warming up for the 1961 spring election.

Swainson assumed formal command of the party Sunday and State Chairman Neil Staebler made a tearful farewell at a record turnout meeting of the Democratic State Central Committee.

Nearly 350 party leaders, full election candidates and rank-and-file workers attended the standing-room-only session, mostly to congratulate each other on Nov. 8 election victories.

Tributes to those active in the campaign consumed nearly 75% hours.

The youthful governor-elect, who will succeed G. Wm. Williams Jan. 1, drew a standing ovation as the mass "Republicans were sure they could lead."

Noticably absent from the meeting was Gov. Williams, who, as the newly appointed assistant secretary of state for African affairs, was attending a meeting at Princeton, N.J., to discuss creation of a new university in East Africa.

ASKS 'REAL ECONOMY'

Swainson called the party support for tax reform, more spending for education and "real economy" which does not sacrifice needed government services.

The group got no indication from Swainson on his choice, if he has made one, of a successor to Staebler, who will step down in February after 10 years as state chairman.

Heading a new entry list of possibilities is Ralph E. Richman, Holland insurance man, who has made two unsuccessful bids for the State Senate in the heavy Republican 23rd District.

Others under consideration are Alfred V. Meyer of Detroit, 17th (Continued on Page 2, Col. 4)

CLEANING WHILE YOU WADE

Ex-Beauty Operator Faces Murder Trial

Sarah Sue Lawrence, judged insane after the shooting of her husband, was today to be tried for the first-degree murder of her husband, Judge Clark J. Adams, this morning after a motion from

PIERRE LAGAILLARDE

Mrs. Lawrence's attorney to quash the 1958 murder charge. Prosecutor George F. Taylor immediately made known that he would move to have the former 34-year-old beauty operator from Berkley brought to trial during the January jury term.

First an examination of the charge must come within 10 days before Independence Township Justice William H. Stamp, Taylor said.

The case against Mrs. Lawrence, formerly of 362 Oxford St., was before Justice Stamp in April of 1959 when her attorney moved for a sanity hearing in the killing of Mrs. Donald Crenshaw, 33, of 6230 South Apple Dr., Independence Township.

Mrs. Lawrence told detectives she went to the Crenshaw home to deliver \$500 she said Mrs. Crenshaw demanded under threat she might lose custody of her nine-year-old son.

Psychiatrists ruled Mrs. Lawrence insane.

Judge Adams on May 22, 1959 ordered her committed to Ionia State Hospital until cured.

Upon a legal motion requested by her husband, Ionia Circuit Judge Morris K. Davis two weeks ago ruled Mrs. Lawrence had been restored to sanity in her 1 1/2 years in the hospital.

Her attorney James Renfrew immediately moved in Circuit Court here to dismiss the outstanding murder charge against his client when he learned Taylor was considering trying Mrs. Lawrence upon her return to Oakland County. She is now held without bond in the County Jail, Judge Adams refused to set her free upon Renfrew's request today.

Renfrew said to try Mrs. Lawrence would be "a real travesty of justice... a real miscarriage of justice."

He produced a newspaper clipping in Adams' court in which Taylor was quoted as saying persons charged with murder in Oakland County "have been averaging about two years for murder" by pleading insanity and thus avoiding trial.

With Taylor being represented by Senior Assistant Prosecutor Jerome K. Barry Jr., Renfrew said "I don't want my client to be judged by some personal feelings of Mr. Taylor."

He produced a newspaper clipping in Adams' court in which Taylor was quoted as saying persons charged with murder in Oakland County "have been averaging about two years for murder" by pleading insanity and thus avoiding trial.

Lagailarde named the rebels in Algeria in an uprising by settlers who feared De Gaulle was selling them out to the rebellious Algerian nationalists.

Five Frenchmen Scorn Trial

Lagailarde, 4 Cohorts of Algerian Uprising Branded Fugitives

PARIS (AP) — Pierre Lagailarde, leader of the French scoundrel uprising last Jan. 24, and four co-defendants failed to show up today at their trial before a military tribunal. They were promptly branded fugitives.

The ex-paratrooper's lawyer, Jean Gallot, said he had received an anonymous telephone call this morning saying Lagailarde had crossed into Spain to join Gen. Raoul Salan.

Salan, former commander in Algeria, left for Spain Oct. 30, ostensibly for a vacation, after publicly denouncing President Charles de Gaulle's policy of self-determination for rebellious Algerians.

The trial went into recess last Wednesday. Lagailarde and his wife left Paris the next day, saying they were going to visit a relative in southern France.

Lagailarde named the rebels in Algeria in an uprising by settlers who feared De Gaulle was selling them out to the rebellious Algerian nationalists.

Kennedy Appoints Hodges to Cabinet

(Continued From Page One)

he knew only Pierre Salton, press secretary, would accompany him to the White House.

Press reports in New York City said today that Kennedy is prepared to offer Adlai E. Stevenson the post of ambassador to the United Nations. The reports were carried in the Daily News and the New York Times.

This would be in line with previous reports indicating that Kennedy had firmly decided that someone other than the longtime presidential nominee would be picked for secretary of state.

"Kennedy, it was understood, has expressed an inclination to name Mr. J. William Fulbright, D-Ark., for the cabinet post, but has made no decision."

Fulbright is not named, it was understood that the choice would be between Dean Rusk, president of the Rockefeller Foundation, and a former assistant secretary of state, and David Bruce, onetime ambassador to West Germany.

UNDER ARREST — Former Congo Premier Patrice Lumumba (right) sits in a lorry with his hands tied behind his back Friday on arrival at Leopoldville Airport. Lumumba and two unidentified aides shown with him were nabbed at Port Francqui by forces of Col. Joseph Mobutu.

Lumumba's Henchmen Slap Red-Type Rein on Stanleyville

LUMUMBA — 3 c 236 Sp St

LEOPOLDVILLE, the Congo (AP) — Henchmen of Patrice Lumumba, clamped a Communist-style dictatorship on the city of Stanleyville today.

Angered at the capture of the deposed premier, they let loose their fury on whites trapped in the northeastern stronghold as a local government headed by Anpoine Gizega, vice premier in Lumumba's defunct Cabinet and a strong leftist.

Diplomats in Leopoldville were convinced that if Lumumba had succeeded in reaching Stanleyville he would have split the Congo in such a way that a Korea-type war would have followed with the Communists on Lumumba's side.

MADE ESCAPE

Lumumba, dismissed by President Joseph Kasavubu Sept. 5, escaped from his guarded residence in Leopoldville a week ago and headed for Stanleyville.

Caught 500 miles east of Leopoldville by Congolese army commander Col. Joseph Mobutu's troops, he has been brought back to face trial on charges of inciting the army to mutiny during the chaotic days after independence.

Western diplomats said they had definite information that the Soviet bloc and several Asian-African nations were planning to recognize a Lumumba administration in Stanleyville if the Congo's rightful government had not gotten away out of reach of Mobutu's troops.

The diplomats think civil war would have followed, with many of the troops in Stanleyville supporting Lumumba and the Soviet Union supplying them through Egypt and the Sudan, which borders the Congo on the north.

The provincial governments of Katanga, Oriental and Leopoldville provinces probably would have backed Lumumba. Equator, Mobutu's native province, and the southern provinces would have been behind the present pro-Western regime, probably gaining support from President Moise Tshombe's secessionist Katanga government.

Mobutu told newsmen he plans to extend the life of his provisional government of college graduate commissioners until the Congo's leading politicians can agree on a stable government.

When he installed the commissioners on Sept. 14, he said they would act as a caretaker government until the end of the year.

SECOND STAGE FAILS

The 36,600-foot, four-stage research vehicle roared aloft at 4:14 p.m. and climbed beautifully for the 44 seconds of first stage burning. But the second stage failed to ignite and the rocket plunged into the ocean.

All four stages of the Scout rocket use solid propellants, and this was the first attempt to launch a satellite with such a vehicle. No date has been set for a follow-up effort.

The experts today were studying the 22 measurements of tail fin positions, temperatures, pressures and accelerations received from the telemetry in the first stage.

What they learn will be applied to future Scout firings to develop that vehicle into the versatile and relatively inexpensive space workhorse it is designed to be.

Yule Party Set for Those With Blood Diseases

A Christmas party for children with blood diseases has been planned for Dec. 17 by the Carolyn Carr Chapter of the Oakland County Leukemia Foundation.

The party is scheduled for 1:30-4 p.m. in the multipurpose room of McCarroll School, 191 Glenview Ave.

Invitations are being extended to parents of children with blood troubles.

Before tackling April election assignments, Democrats must figure out how to wipe out a deficit of nearly \$100,000, mostly in fall campaign bills.

Stuebel assailed Republicans for what he said was extra heavy campaign spending.

He accused Rep. Alvin M. Bentley of "a brazen attempt to buy a seat" in the U.S. senate in a losing battle with Democratic Sen. Patrick V. McNamara.

"All the tribes met me," said Armstrong with a sweeping gesture out how to wipe out a deficit of nearly \$100,000, mostly in fall campaign bills.

"I didn't see any fine," said Armstrong, whose tour included the former Belgian Congo where an unofficial day off from strife was declared on the day Armstrong appeared in Leopoldville.

The Day in Birmingham

Road Assessment Review Set in Bloomfield Village

BIRMINGHAM — Special assessments for road improvements in Bloomfield Village will be reviewed Dec. 15 by the Bloomfield Township Board at an 8 p.m. meeting in the Bloomfield Village Elementary School.

More than 67 per cent of the village's 787 property owners have signed petitions requesting that improvements be made to the subdivision's streets.

Only \$6 per cent is needed to establish a special assessment district, but recently the township learned that 42 persons wanted their names canceled from the petitions.

No reason for the move was given, according to Township Supervisor Arno Hulet, so the board will take no action on the request.

The road plan calls for the paving of some 11 miles of streets at a cost of \$445,000.

The large subdivision is north of Maple Road and just west of the Birmingham city limits.

A public hearing was held on the proposal Nov. 22 and most of those residents present agreed that the improvement was essential but felt that assessments should be made on a per lot basis rather than on front-foot cost.

The proposed repaving project would be done by a private contractor under the supervision of the Oakland County Road Commission.

The work would be spread over a two-year period and funds would be obtained through the sale of bonds, if present plans materialize.

John L. Grady, 37, has been named village assessor of Beverly Hills. He succeeds Howard Palmer who resigned because of a business transfer.

Scout, Satellite Plunge Into Sea

Virginia Base Fails in First Major Rocket Shot — Won't Seek Recovery

By VERN HAUGLAND

WALPOLE ISLAND, Va. (AP) — A 72-foot Scout rocket and the inflatable satellite it was to have put into orbit lay under deep water 30 miles off the Virginia coast today after the failure of the first major space shot attempted from this test center.

Although the vehicle cost more than \$750,000, there will be no attempt to recover any part of it.

Official said it would be almost impossible to locate. Even if the bits of wreckage could be found, they would shed little additional light as to the cause of the failure.

Instead, the National Aeronautics and Space Administration planned to analyze carefully the radio telemetry information and camera and radar coverage of the few short minutes of the flight.

SECOND STAGE FAILS

The 36,600-foot, four-stage research vehicle roared aloft at 4:14 p.m. and climbed beautifully for the 44 seconds of first stage burning. But the second stage failed to ignite and the rocket plunged into the ocean.

All four stages of the Scout rocket use solid propellants, and this was the first attempt to launch a satellite with such a vehicle. No date has been set for a follow-up effort.

The experts today were studying the 22 measurements of tail fin positions, temperatures, pressures and accelerations received from the telemetry in the first stage.

What they learn will be applied to future Scout firings to develop that vehicle into the versatile and relatively inexpensive space workhorse it is designed to be.

2,800-Mile Range Goal for U.S. Polaris

WASHINGTON — American rocket experts hope to extend the range of the Polaris missile to 2,800 miles by early 1961.

Vice Adm. W. F. Raborn, head of the Polaris program, said today his schedule is being stepped up with the aim of achieving the extra range about a year sooner than originally expected.

Raborn said a 1,700-mile Polaris was reported last week for the first time. He said he expects to have a 1,700-mile Polaris in submarines by the spring of 1961.

World's Fair Designers Quit as Plans Rejected

NEW YORK (AP)—Designers for the New York World's Fair of 1964-65 have quit the job. They claimed their designs didn't get fair treatment from fair officials. Among them were some of the country's foremost architects and industrial designers.

Disclosing Friday that they had bowed out, they said their plans had been rejected and there wasn't any use staying. Their expressions ranged from mild regret to bitterness.

Gordon Brush, chief designer for an architectural firm which planned several modern Manhattan office buildings, asserted: "I quit because I didn't want to participate in something I did not believe in."

"We were trying to design a

plan that would be an expression of our times. Mr. Moses (fair president Robert Moses) and the board wanted a repeat of the old World's Fair plan of 1939.

"Why should architects hand around four years beating an old cat?"

The designers appeared upset

chiefly over rejection of their plan for a single huge building to house all exhibits. Fair officials said this plan was impractical because it was not adaptable to trees, sidewalks and underground riding sewers and water mains at the site in Flushing, where the 1939 fair was located.

The cabbage looper is a climbing caterpillar which destroys cabbage leaves. The cabbage looper is so called because it gets into cabbage leaves by looping.

Mount Clemens Principal Heads State Association

GRAND RAPIDS — Harold Jones of Mount Clemens was elected president of the Michigan Association of Secondary School Principals at the conclusion of the 4th annual convention Friday. He succeeds Gene D. Mayborn of Ann Arbor.

Lesley Lane of Niles was selected as first vice president; James W. Wolf of Detroit, second vice president; and Roland Leiber of Ann Arbor was named executive secretary.

Joan Fontaine Learned Lesson of Health

Work to Live, Don't Live to Work

BOYLE

Tiny Animal Figures New for Christmas

NEW YORK (AP)—New for Christmas are miniature animal figures made of acetate plastic and decorated with a wood-grain effect so they look like hand-carved wood sculptures.

Horses, cattle and dogs are included in the figures, which are executed with great detail. They can easily be maintained by dusting or wiping with a damp cloth.

1776 Christmas Called 'Greatest' by Historian

ORONO, Maine (UPI)—The Christmas of 1776 was "America's greatest," according to University of Maine Prof. George Billias.

The noted Maine historian said Washington crossed the Delaware on that bitter cold night to launch a stunning surprise attack against the Hessians who were still recovering from their holiday revelry.

Billias said, "The brilliant triumph that followed helped turn the tide of the Revolutionary War." This victory, he concluded, "gave the nation a priceless Christmas gift—a giant step toward American independence."

Even an old joke is pretty funny, the way the boss tells it. The reason some women repeat gossip so quickly is that they want to tell it before they find out it's not true.—Earl Wilson.

By HAL BOYLE

NEW YORK (AP)—You rarely find people who are grateful for a long illness.

Actress Joan Fontaine is. She thinks a long illness is the best way to cure anyone who is successful—and teach him true values.

"My illness led me to grow up at last," she said. "It was my diploma to life."

Miss Fontaine is fully recovered now from a two-year bout with ailments ranging from energy draining to osteoarthritis to hepatitis and undulant fever.

Looking as lovely as a yellow primrose, the blonde film star radiated health and a hazel-eyed vitality as we lunched in the old-fashioned elegance of the Edwardian Room at the Plaza. The eyes of nearby

diners showed envy of her fresh charm.

"I hate to talk like a Pollyanna about a thing that can be as devastating as illness," said Joan. "But it's the way I really feel."

"Everyone should be so lucky to have a pause in your life for an appraisal, and to see clearly for the first time what life really has to offer."

UNIMPORTANT!

"It's a great, great thing. All the minor worries people fret about, the problems that haunt most of us—success, financial security, personal popularity, growing older—all become so terribly unimportant."

"When the times come again when you can dress yourself, when you can get up and walk about supported once more by your own backbone—well, it's like being born again. But better."

"I wish my illness could have happened to me when I was 12, wasted so much of my life."

"I accomplished a lot, but I didn't enjoy it."

Miss Fontaine has made 45 films, and thrice was nominated for academy awards. She won an Oscar in 1941 for her performance in "Suspicion." She had three husbands.

But she feels now that, like many stars, she let herself be wrapped on the treadmill of Hollywood success, a treadmill of many lost values.

LIVED TO WORK

"I spent too many years in (mog) time and the second rate," said Joan. "I lived only to work. Now I want primarily to live."

Joan acts as hostess on the CBS-TV monthly show, "The Breck Family Classics," and is looking for a Broadway role. But she said she never again means to let the success treadmill be her main goal.

"I am in a fortunate position," she remarked. "I have saved my pennies. I am not afraid of the bill collector, or the wolf at the door."

"It is lovely to accomplish something in life. It is a delicious feeling."

"But the trick is not to keep wanting more. If you do, you are never satisfied."

"To be content with what you

are... not to want to scrap

it all and try to be somebody else... that is the victory of living.

"We all need to go into a de-compression chamber. We are all so ambitious to succeed—and yet we destroy ourselves."

Her recovery has given Joan a new appreciation of the role of energy in a healthy outlook.

"You need energy for any creative thing," she said. "It is the extra vigor that makes a per-

formance stellar rather than

pedestrian.

"You even need proper energy for good manners—to write a thank-you note, to say hello across a room to someone."

"I think that people who have a negative point of view probably lack energy and vitality, and when this is true they start failing friends and family."

"To spend one second on this planet being unhappy—it's incredible!"

What better Gift than a well-chosen Book?

For the well-chosen book is a flattering and considerate gift—it indicates that a little more than the usual care has gone into a gift. It has been selected, obviously, in recognition of the interests and preferences of the person to whom it is given. You will find hundreds of wonderful books reflecting every conceivable interest and taste in our Book Department.

Walt's Book Dept. and Rental Library... Magazine

CONCORDETTA BIBLE, no gift more thoughtful, more beautiful. Revised Standard Version in black leatheroid, semi-overlapping covers, round corners, red edges, with ribbon \$5.95

THE SNAKE HAS ALL THE LEMES by Jean Kerr. A collection of the funniest, wittiest, shrewdest commentaries on home life, the theater, books, by the author of Please Don't Eat the Daisies. \$3.50

THE PUBLIC YEARS by Bernard Baruch is a fascinating, factual and frequently humorously humorous book of reminiscences by our most famous elder statesman. \$4.00

ENJOY! ENJOY! Just about sums up the hours of wonderful reading in Harry Golden's newest book. Humor, satire and good old-fashioned wit, the mixture as before. \$4.00

THE WASTE MAKERS by Vance Packard whose Hidden Persuaders and Street Smarts are still being read and discussed. Every bit as controversial, the subject, "progress through planned obsolescence." \$4.50

BETWEEN YOU, ME AND THE GATPOST is Pat Boone's heart to heart message for teenagers. Touches on love, dating, petting, parents, school, grooming, careers, \$2.95 friends and the future.

LADIES' HOME JOURNAL COOK-BOOK contains over 2,000 superb recipes, 128 pages of four-color photographs, glossary and index. Everything from quick and easy to exotic dishes tested by the Journal. \$4.95 After Christmas price, \$5.95.

BLACK MARIA is a gleefully gruesome gallery of ghastly cartoons by that old master of the macabre, Charles Addams. A gladsome gift none-the-less, for admirers of the ghastly. \$3.95

THE AMERICAN COLLEGE DICTIONARY is the favorite of writers and scholars. Up-to-date, well organized and easy to use. Ideal for home, office, school. Sturdy binding and thumb indexed. \$6.00

THE JOY OF COOKING by Irma Rombauer and Marion R. Becker. Contains 4,921 tested recipes, 150 how-to-do-it illustrations, over 1,000 pages. Covers frozen foods, pressure cookers, blenders, nutrition and many exclusive features. A Bobbs-Merrill book. \$4.95

THE GENERAL FOODS KITCHEN COOKBOOK is a big, easy-to-use, easy to follow collection of hundreds upon hundreds of delicious, tested recipes gathered by the largest food concern in the world. \$4.95

Winter Driving Full of Danger

Get Feel of Road by
Trying Brakes and Then
Act Accordingly

CHICAGO (UPI)—The National Safety Council says that winter need not be a dangerous time to drive if you:

1. Winterize your car, your driving techniques and your attitudes. Normal speeds often are too fast for winter conditions.

2. Use good tires, preferably snow tires. For more severe conditions, use reinforced tire chains.

3. Keep windshield and windows clear and wiper blades, heater and defroster in proper operating condition.

4. Get the feel of the road as soon as you start out (but away from the hazards of other cars). Cautionally try your brakes or gently press your accelerator to learn how slippery the road surface is. Then adjust your speed accordingly.

5. Keep well back of the vehicle ahead to give yourself plenty of room for an emergency stop.

6. Pump your brakes to maintain best steering control when braking on ice or slippery snow. Jamming on the brakes will throw the car into an uncontrollable skid. The trick is to slow the car by rapid and intermittent brake applications and at the same time maintain rolling traction that gives steering control.

Berlin Officials 'Heel'

BERLIN (AP)—West Berlin's traditional mosaic sidewalks are going to be paved smooth because their small, irregular stone blocks are murderous for a woman in spike heel shoes. Officials aren't sure how much this bow to the ladies will cost.

News Agency Closed

BUENOS AIRES, Argentina (AP)—Police Friday closed the pro-Castro news agency Prensa Latina and arrested four staff members in an investigation following Wednesday's short-lived uprisings in Argentina.

Buys Ann Arbor Firm

NEW YORK (AP)—American Home Products Corp. has acquired Franklin Foods, Inc., of Ann Arbor, Mich., through an exchange of shares. Franklin Foods, a roaster of specially processed meat, will become a part of the American Home Food Division.

THE SPIRIT OF Christmas

The familiar jingling bells, the friendly, happy bustling crowds, thronging stores and shops, seeking gifts for their loved ones all remind us of the holiday just ahead. At this time of the year a charge account becomes especially helpful. Avail yourself of this convenience by paying your charge accounts PROMPTLY EACH MONTH and installment accounts on the due dates. Use your credit but don't abuse it. It will prove of greater value throughout the years.

They Provide Beards for Santa

Nylon Chin Whiskers
Are Big Business for
This New York Firm

Next time you hear of someone who wears nylons all day and rinses them out in the basin at night, don't automatically assume it's a working girl taking care of her hosiery.

It may be Santa Claus, washing his nylon whiskers. This need no longer be disillusioned by dingy, bedraggled-looking street-corner Santas with tattered-gray beards. And mothers don't have to hesitate before entrusting their youngsters to a department store Santa.

These days nylon whiskers and wig sets that can be cleaned and sterilized make it possible for Santa to look as if he never went near a sooty chimney.

Probably the men who know the most about where Santa Claus' whiskers come from are New York manufacturers Meyer Jacoby and his son Adolph.

Suppliers of nylon beards and wigs, they estimate that they have turned out well over 20,000 sets during the 18 years since they began selling nylons.

Among their biggest customers are the Volunteers of America, traditional harbingers of Christmas whose bell-ringing Santas are on many city streets.

Fresh, clean whiskers are issued to each Santa every morning, and every night Santa turns in his soiled beard for laundering by the Volunteers' staff.

Union to Push Sale of Autos

Local 600 Will Seek Support of Dealers for Dearborn-Built Cars

DETROIT (AP) — A drive by Ford Motor Co. workers to push the sale of Dearborn-built Ford cars was announced Saturday by Ford Local 600 of the United Auto Workers Union.

Local 600 said union members will visit every Ford agency in the city to urge support.

The UAW local has expressed concern this year over employment at Ford's home plant in Dearborn. The local has asked Ford, that if the company is going to make another compact car, the car be built at Dearborn.

Ford never has said there is to be another such car. Ford now makes the Falcon and Comet compact cars.

Local 600's executive board said in a resolution that unemployment is the major problem before President-Elect John F. Kennedy.

The resolution called attention to what it called the effect on workers and communities of automation and the moving of "jobs and plants to other states and countries."

"We have spent U.S. money," the resolution also said, "to rebuild factories in former enemy countries and today United States steel producers and other factories are operating at less than 50 per cent of capacity."

In relation to its Dearborn-built Ford car sales — help drive local 600 said the boosting of Michigan-made products has received "insufficient attention." It said "All of us have a responsibility to move in this direction immediately."

Parachute Can't Help Pilot of Disabled Jet

DENVER, Colo. (AP) — Air Force Capt. Lawrence R. Reeves, 33, of Sterling, Colo., was killed Sunday when he ejected from his disabled F102 jet fighter 100 feet from the ground—too low for his parachute to open.

His plane crashed north of Buckley Field and burned.

Reeves had just taken off for a return flight to Portland International Airport, where he was assigned to the 409th Fighter-Interceptor Squadron, when his plane developed engine trouble.

NOVEL BUT useful stocking fillers are gay new paint brushes made with colored nylon filaments. They come in red, blue, pink, yellow, green and beige.

He Can Adjust Own Heart Beat With a Battery

GAINESVILLE, Fla. (UPI) — Willie Godwin can adjust his own heart beat mechanically. He generally keeps it about 75 beats a minute.

He just regulates a little electrical device attached to the right ventricle of his heart — normal for normal activity, faster (up to 100 beats a minute) for greater activity.

A year ago he came down with what doctors call the Stokes-Adams syndrome, which means that the heart sometimes beats irregularly or even not at all for short intervals.

This sometimes caused Godwin to lapse into unconsciousness — only seconds away from death. Surgeons at the University of Florida teaching hospital sewed two electrical wires to the right ventricle, attached them to a battery device, which sends impulses to the heart.

"It's just wonderful," said Godwin, who may soon go back to his job as a night watchman at a lumberyard.

Gives Political Formula

NEW BRUNSWICK, N.J. (UPI) — New Jersey Secretary of State Edward J. Patten told a group of newly-elected freeholders that to be a politician "you have to have a stomach like a nanny goat, you have to like people, and you can't have a glass jaw." "If you can't stand being called names, don't even get sworn in," Patten said.

S-P Reviews 1962 Models

Reappraisal May Cause Firm to Stick Closer to Current Body Styles

SOUTH BEND, Ind. (UPI)—Studebaker-Packard Corp. is revising its tooling orders for its 1962 model cars and "reappraising the styling and engineering needed in the market."

Lewis E. Minkel, vice president in charge of marketing for Studebaker-Packard, said the corporation is reviewing its original plans for its 1962 model in light of the company's policy of "continuity of design."

"We feel there is a styling reaction in the office," Minkel said. "We feel the public wants to avoid obsolescence in cars and wants auto makers to lower year-to-year costs of a car by making only changes necessary to improve a car."

He indicated Studebaker-Packard had contemplated drastic changes in the design of its cars next year until the "reappraisal" was undertaken.

Minkel, however, refused to say whether the "reappraisal" concerned the company's Lark and Hawk lines of cars or plans to bring out a new "compact compact" car in the 1962 model year.

KENNEDY FAMILY BIBLE — This is the Bible on which President-Elect John F. Kennedy presumably will take his oath of office at the inauguration Jan. 20. Held here by Thomas A. Fitzgerald, an uncle, and his wife, the 15-pound Bible is well over 100 years old.

There are about 2,500 known species of lizard. Sound waves travel about 1,100 feet per second.

A-Raid Leader Flees Hospital

Skipper of Nuclear Bombings on Japan Texas Mental Patient

WACO, Tex. (AP)—The pilot who led U.S. atomic bombers to Hiroshima and Nagasaki has escaped from the Waco Veterans Administration hospital, where he was a mental patient.

Hospital officials said Claude R. Eatherly, 44, a former Air Force major, escaped from the institution Nov. 22.

Eatherly was acquitted of burglarizing two Texas post offices after pleading innocent by reason of insanity. A grocery store robbery charge at Dallas against him was dropped after he was committed to the VA hospital here last year.

A psychiatrist testified at his trial on the burglary charges in 1957 the Eatherly had a guilt complex and said he felt responsible for killing 100,000 persons at Hiroshima.

Europe Cleans Up After Raging Floods

LONDON (AP)—Northern Europe today began cleaning up after a violent weekend of raging storms and floods which spread death and destruction.

Britain bore the brunt of the storm, which sent rivers crashing out of their banks and flooded dozens of villages and miles of farmland. Property damage was heavy in London. At least two deaths were reported.

Four deaths were counted in Holland. France, Germany, Denmark and Belgium also were badly hit.

More rain is expected and many areas, especially in Britain, still face serious flood threats.

More than 21 million incorrectly addressed letters and up annually in the Post Office Department's dead letter offices, undeliverable and unreturnable.

TRAGEDY'S AFTERMATH — Blankets cover the bodies of four girls who died in an upstairs bedroom of a Byron Center farm house Sunday. Police think the blaze started after three brothers were playing with matches. The boys escaped. The father suffered lacerations and burns on his hands as he tried to climb a side of the house to reach the girls.

**Brothers Playing With Matches
Fire Kills Four Sisters in Farm Bedroom**

BYRON CENTER (AP) — Four young sisters died—trapped in an upstairs bedroom—in a farm house fire here Sunday.

State police said the girls' three brothers playing with matches may have started the blaze.

One of the boys admitted lighting matches and throwing them into a cardboard box in an upstairs bedroom closet just before the fire, state police Detective Walter Burns said.

The four girls—Deanna, 14; Janna, 9; Cathy, 7; and Cheryl, 6; the daughters of Mr. and Mrs. William Seabolt—were trapped in an upstairs bedroom of the two-story farmhouse.

Seabolt, 31, a plumber, suffered lacerations and burns on his hands as he desperately tried to climb a side of the house to reach the girls' bedroom.

One of the boys, Billy, 10, suffered second degree burns on his hands and face.

The mother, Janna, 37, was treated for shock. The other two boys, Ryan, 5, and Richard, 4, were unharmed.

Mrs. Seabolt said she was awakened by screams from the upper floor and Ryan and Richard ran into the parents' ground floor bedroom yelling fire.

She and the two boys ran out of the house while Seabolt tried to get up the flaming stairwell.

Failing, he went outside and persuaded Billy to jump from a porch roof. Getting no response from the girls' room, Seabolt tried to scull the outside wall to get them.

Byron Center is about 14 miles southwest of Grand Rapids.

At Least, Panel Says So

Income Tax Constitution Change Needed by State

ANN ARBOR (AP)—Michigan, can solve its fiscal problems with a personal income tax and constitutional revision, according to a panel of economic experts from other states.

The nine panelists studied Michigan's economic picture under the committee on Michigan's economic future (COMEF).

Their report, "Taxes and Economic Growth in Michigan," was published by the W. E. Upjohn Institute for employment research, Kalamazoo.

Dr. Paul W. McCracken, University of Michigan business expert, estimated that Michigan, in order to provide full employment in the 1960s, must grow at twice the national rate.

"Michigan's people have been increasing their purchase of public goods and services more rapidly than private goods and services. It is not surprising that they now stop and ask: 'Do we want this trend to continue?'"

"If expenditures are going to increase, it follows that Michigan's revenue system must be strengthened and rationalized to cover these outlays," McCracken said.

The panelists substantially agreed that a personal income tax would be the best answer. "It commands itself on an equity basis and is less regressive than other broad-based taxes," McCracken said.

The panelists gave top priority to a revamping of the state constitution and the removal of fiscal matters from it, so future adjustments to meet changing conditions can be made through legislative action.

One panelist, Prof. Carl S. Shoup of Columbia University said Michigan cannot have a tax climate attractive to business as long as it is forced to "muddle through" one crisis after another because of constitutional restrictions.

In general, the panelists favor a graduated system of personal income tax, supported an increase in the sales tax but recommended excluding certain items, such as food and drugs. Several urged that the sales tax be applied to services, however.

Baudouin Gets Gift

BRUSSELS, Belgium (AP)—President Moise Tshombe of the Congo province of Katanga arrived here today to give King Baudouin a wedding present. It was officially denied here Tshombe's visit had any official or political character.

BACKYARD CRASH — A twin-engine Beechcraft airplane crashed and burned Sunday in the back yard of a suburban Parma, Ohio, residence. Two occupants of the plane were killed, but no one in the surrounding homes was hurt. Victims of the crash were Clay J. Donges, 42, and John J. Duffy, 35, both of Cleveland.

Highway Dept. to Hold Public Land Sale in UP

LANSING (UPI)—The highway department will hold its first public sale of surplus land in the Upper Peninsula at Crystal Falls Dec. 13.

Ten parcels of property in Baraga, Gogebic, Houghton, Marquette and Menominee will be offered, the department said.

The State of Missouri's name derives from that of a tribe of Sioux Indians who were called Missouris.

Salk Vaccine to Japan

TOKYO (AP)—Enough Salk polio vaccine to inoculate 700,000 persons, was flown here today from the United States aboard a specially refrigerated Japan Airlines cargo plane.

Yugoslavs Plan Money Reform

Hopes to Finish in Year to Meet Foreign Trade Challenge of 2 Blocs

BELGRADE (AP)—Yugoslavia hopes to work out a monetary reform by the end of this year as a first step toward meeting foreign trade problems posed by the two West European economic blocs.

Nearly 75 per cent of Yugoslavia's foreign trade is with countries of the West. This has been endangered by the situation European Common Market and the seven-nation Free Trade Association.

Yugoslav trade experts believe that to meet this competition Yugoslavia must become a full member of the General Agreement of Trade and Tariffs (GATT). At present it is an associate member.

For full membership, GATT experts have informed Yugoslavia that regular customs system must be introduced to replace the present arrangement of "coefficients," actually a state subsidy on imports and exports, and Yugoslavia's monetary system must be reformed.

Plans are well along to accomplish both changes.

There is an official rate of 200 dinars to the dollar. The free market rate is 400. Yugoslavia is receiving money from the International Monetary Fund and to receive from several Western nations.

Yugoslav sources said the United States was agreed to the plan. But with the new administration new steps may have to be taken.

Charges U.S. Road Swindle

Investigator Hits at 'Graft, Incompetence' in Highway Program

WASHINGTON (UPI)—A House investigator charged today that there were signs of widespread corruption, graft and incompetence in the nation's highway construction program.

Chairman John A. Blatnik, D-Minn., of a House investigating subcommittee told United Press International it was beginning to look like the giant, federally subsidized road system now being built might be riddled with mismanagement and graft.

"It seems that almost every time we punch through the crust," he declared, "we find the pudding of either corruption or mismanagement."

Blatnik's group called seven witnesses from Florida today to explain why officials in that state allegedly received "cash and other things of value" from contractors hired to build highways.

On tap for the hearing were three former first district officials of the Florida Road Department, discharged after a state investigation, two employees of Tampa's Cone Brothers Contracting Co. and two of the firm's former employees.

The subcommittee has made tentative investigations into assorted highway problems in Massachusetts, Georgia, West Virginia, Montana, New Mexico and Oklahoma.

Castro-Church Feud at Breaking Point

HAVANA (AP)—Relations between the Roman Catholic Church and Prime Minister Fidel Castro today were at the most critical level yet after the church angrily denied Castro's charge that priests took bribes to preach against his revolution.

Adding to the increased tension among Catholics were persistent but unconfirmed reports that Archbishop Enrique Perez Serantes of Santiago was detained briefly by authorities in Camaguey Saturday and told to leave Cuba.

The 77-year-old archbishop was returning from a meeting of Catholic prelates in Havana. The reports said he replied firmly that he would stay in Cuba and take the consequences.

Archbishop Perez Serantes, who once saved Castro from a Batista firing squad but now is his most outspoken critic in Cuba, said by telephone from Santiago: "I am an old man and suffer from loss of memory. I do not recall any such thing happening to me."

Nationalists Claim Reds Kill 30 Million in China

TAIPEI, Formosa (U)—The official Chinese Nationalist Central Daily News of Taipei said today the Chinese Communists had killed more than 30 million people on the China mainland since the beginning of 1950. In addition, the newspaper asserted, the Communists had consigned 50 million people to labor camps.

Adenauer Out of Bed After Bronchial Attack

BONN, Germany (U)—A government spokesman said that Chancellor Konrad Adenauer was able to get out of bed today but that it was not yet known when he would return to work. The 84-year-old chancellor has been confined to his home with a bronchial attack for more than a week.

Out-of-state visitors to Arkansas in 1959, spent an average of two days and spent an average of \$6.24 per day.

JEERS FOR MINISTER — New Orleans Methodist minister the Rev. Lloyd Foreman (far right) preached on forgiveness at his church Sunday morning. But forgiveness was apparently the last thing on the mind of the finger-waving man on the left who challenged the Rev. Mr. Foreman to come out of his church and fight. The preacher has attracted the animosity of school segregationists. At times, his daughter Pamela, 5, has been the only white girl in class at newly integrated William Frantz School.

Other white pupils since have returned to classes. Demonstrations like Sunday's, where segregationists screamed at the Rev. Mr. Foreman after both his morning services, haven't caused his efforts against segregation. Nor have similar incidents at his home and when he has taken Pamela to school. The clergyman vowed Pamela would maintain her perfect school attendance record today. There was no disorder after the church's evening service.

Louisiana Legislature Provides Segregation Funds

Both Sides Rigid in School Hassle

NEW ORLEANS, La. (AP)—A Negro girl, holding the hand of a U.S. marshal and guarded by 100 or more policemen, returns today to a white school.

The lone Negro student at the William Frantz School and three Negro girls at McDonogh No. 19 symbolize the firm stand of federal authorities that New Orleans schools must be desegregated.

The Louisiana Legislature, intent on preserving school segregation, speedily approved an emergency bill in a Sunday session, providing state aid for pupils who prefer attending private schools.

All of the approximately 500 white students at McDonogh have boycotted the school since a federal court ordered integration, effective Nov. 14. Only 10 white students out of 500 enrolled at the Frantz school on Sunday by a small group as he conducted services at two churches.

Four women walked out of services conducted by the Rev. Lloyd A. Foreman at the Church of the Redeemer. One told an usher "He's a nigger lover."

The minister conducted services later in the morning at St. Mark's Methodist church. A man standing outside the building was led away by companions after he shouted, "I'll challenge that louse, the rat!"

Foreman did not mention the school demonstrations in his sermons. At the evening service he prayed for guidance for state and city officials in "these days of crisis."

WOULD BLOCK FUNDS

In addition to providing an alternate school system the legislature approved resolutions designed to prevent banks from handling over school funds to the New Orleans School Board.

The lawmakers earlier tried to oust the board but U.S. Dist. Judge J. Shelly Wright overturned that action and numerous segregation measures.

Wright set a hearing for today for the banks to show cause why they should not be enjoined for refusing to honor school board checks.

One of the latest legislative resolutions sets up a new school board with authority to borrow each year until school tax money becomes available. Gov. Jimmie Davis signed the resolution Saturday.

Spacecasts Switch to Higher Frequency

WALLOPS ISLAND, Va. (AP)—The nation's space communications are switching over to a higher frequency to avoid interference with television.

This was disclosed here with the attempted launching of a 12-foot balloon satellite Sunday.

Previous launchings used frequencies in the range of 108 megacycles. The new satellite was to be broadcast at about 135 mc.

William J. O'Sullivan Jr., space vehicles expert for the National Aeronautics and Space Administration, told newsmen the Federal Communications Commission had asked that the spacecast frequency be changed because of interference from — and with — television.

Cuban Rebels Bomb Cars

HAVANA (AP)—Reports from Santiago said today counterrevolutionaries threw bottled gasoline bombs at vehicles in that eastern city and damaged them. The bombs seemed to be aimed at police and other government transport.

U. of M. Receives Microfilm Copy of Old Red Paper

ANN ARBOR (UPI)—The University of Michigan has received in its Asia library a microfilm reproduction of the "Liberation Daily," the newspaper published by the Chinese Communist party from 1941-47.

The newspaper was published at Yenan in Northwest China, where the Chinese Communists were then bottled up by the Chinese Nationalist government.

The available copies of the newspaper were gathered and flown out in 1947 and were acquired by the Hoover Library of Standard University.

Shortly afterwards, Yenan was burned and it is doubted that another complete record of the newspaper exists even on the Chinese mainland.

Soviet Gets Invitation to 1964 World's Fair

MOSCOW (UPI)—A delegation of New Yorkers arrived here Sunday night to extend an official invitation to the Soviet Union to participate in the 1964 World's Fair in New York.

The delegation was to meet today with American Ambassador Llewellyn Thompson and to meet with members of the Soviet Chamber of Commerce Tuesday.

Beginning Today You Will Get A COUPON LIKE THIS...

FREE DOWNTOWN PARK-SHOP

Present This Coupon Tonight When Making Purchases

Members of the Downtown Pontiac Park and Shop Association will give you a

CASH REFUND 35¢

When properly stamped on the back by parking for one hour, and upon presentation when making a purchase of two dollars or more, a cash refund of 35¢ will be given you. Coupon good only at stores of members displaying the coupon above in left top corner.

Coupon must show time stamp to be valid.

FREE BUS TOKENS TOO!

Good at:

- AIRPORT BUS
- BEE LINES BUS
- PONTIAC TRANSIT LINES

One token given with a \$2 purchase or more.

When You Shop Downtown Evenings!

Evenings when you park in the lots with the BIG BLUE DISC the attendant will give you one of the CASH REFUND COUPONS. He will validate it by stamping the date and time on the back... then you take it to any of the stores listed below and when making a two dollar purchase we will refund the money you paid for parking. Merry Christmas is nearer when your shopping is easier... we hope this helps to make it so.

OPEN NIGHTS 'til 9 P.M.

Chairs

of Comfort, Style and Quality

You will find the chair of your choice among the many chairs, rockers, swivel rockers and swivel chairs as well as reclining chairs and La-Z-Boys. Modern... Contemporary... and Early American styles. Chairs and rockers of all sizes in your choice of colors and covers.

Missile Mishap Worth \$6 Million

**Titan Blows Up After
Fueling at Vandenberg;
Program Faces Delay**

VANDENBERG AIR FORCE BASE, Calif. (AP)—The Air Force today studied the shattered ruins of a Titan intercontinental ballistic missile, trying to learn why it exploded shortly after fueling.

Damage from the blast Saturday night was estimated at between \$4 million and \$6 million, an Air Force spokesman said. The missile is destined for a major role as an ocean-spanning nuclear weapon.

The Air Force was unable to estimate how long the Titan program will be delayed by the explosion.

FIRST ONE THERE

This was the first explosion of a Titan at this base, 170 miles northwest of Los Angeles. Similar explosions have occurred at Cape Canaveral, Fla.

The Air Force said the 97-foot long Titan was being lowered into its underground concrete silo after fueling when it exploded with a roar that shook windows, 25 miles away.

There were no injuries—crews were in an underground building several hundred yards away.

California Backs Dick as GOP Head

LOS ANGELES (AP)—California's Republican State Committee has pledged complete support to Vice President Richard M. Nixon as head of the Republican party.

The committee sent Nixon a telegram Sunday, congratulating the defeated GOP presidential candidate on his majority in California.

State Chairman John Krehbiel said Nixon's victory in his home state showed a clear repudiation of Democratic Gov. Edmund G. Brown's administration.

Seek Thief Who Killed Club Owner

SAGINAW (UPI)—State Police pressed the hunt today for a handily-slayer who shot and killed a night club owner en route home with his evening receipts.

James C. Eaton, 34, was shot once at close range in the back of the head as he was changing a flat tire in a gas station across the street from his El Morocco night club.

Eaton closed the club on MSU just outside the city limits, at about 3 a.m. Sunday. He backed his auto into the gas station, removed the flat tire and replaced it with the spare.

He was killed with a .32 caliber bullet before he could fasten the lug nuts. The body was discovered by the station attendant when he arrived to open up in the morning.

The trunk of Eaton's auto, where he usually kept the receipts was open, and the bag, containing some \$300 to \$500 was missing. The bandit also took Eaton's keys.

Elevates Sleep To Avoid More Intruding Autos

HAMILTON, Ont. (UPI)—Gerald Bickerton slept at the top floor of his house Sunday night to escape any motorist who might crash into his bed.

Bickerton Sunday morning woke up to find a car sitting three feet from his bed and the driver, Gerald Warrell, crawling out of the machine without a scratch.

The car had smashed through the wall of Bickerton's house. "I'm sleeping on the second floor tonight," said Gerald, the house owner to Gerald the car owner.

Photographer Sees Wife Killed in Car Race Crash

DAKAR, Senegal (AP)—Monsieur Sponon, standing at a roadside curve outside Dakar to take pictures of a car race, focused on a car as it flipped off the road.

He saw his wife, a French woman, rush to the car and found that his wife, Jacqueline, 37, was the driver. She was killed.

Louisiana Lawmaker Calls for Electoral Revolt

Says Jack's Gone Wild on Integration

BATON ROUGE, La. (AP)—A Louisiana legislator in a House speech Sunday night called President-elect John F. Kennedy a "man gone wild on integration."

Rep. William Jack of Calcasieu Parish tried to breathe new life into an uncertain move to withhold Louisiana's 10 electoral votes from Kennedy, should Kennedy lose Illinois' 27 votes.

Former House Speaker Robert Angelle, of St. Martin Parish, in south Louisiana, strongly denounced Jack for "criticizing the man who has been elected president of the United States."

Jack made no effort to introduce an electoral proposal at this time.

Last Monday, the House killed Rep. Parey Branton's resolution to knock out the electoral votes pledged to Kennedy.

In the Senate, Sen. Howard Jones of St. Joseph is still holding his proposed resolution, pending outcome of the Illinois situation, which would ask Louisiana's Kennedy electors to hold up until the state's fight for school segregation.

NOT FOR NIXON
"Illinois may not go for Kennedy," Jack told the House. "But that doesn't mean I'm for Mr. Nixon."

Kennedy has promised support of total integration by 1963, he warned, "and his state went to Sammie Davis' wedding."

"If Mr. Kennedy does what he said, I will support him."

JOCKO JOINS STATE POLICE—Jocko, an 85-pound, 4½-year-old German Shepherd and his handler-trainer, State Trooper Richard H. Abbott, are ready for their first assignment as a man-dog tracking team for the Michigan State Police.

Jocko, the first dog owned by department, and Abbott recently completed a 14-week training course at the police dog training school in St. Louis, Mo. The dog, based at East Lansing, will be used to track missing persons and escaped criminals.

Hope to Hold Off Algerian Debate

African Friends Come to Aid of France

UNITED NATIONS, N. Y. (AP)—France's African friends moved today to hold off the General Assembly's annual debate on the Algerian war and give French President Charles de Gaulle more time to win support for his policies to end the fighting.

The debate opens today in the assembly's 9th annual political committee, but a request for a delay came from the Congo (Brazzaville) and Chad, two of the 11 nations in the French Community.

The Algerian rebels want the debate to start at once. France plans to boycott the discussion, sticking to its contention that Algeria is part of France and the United Nations therefore has no right to tell the French what to do about their internal affairs.

The postponement request could provide a first vote for the community's members — still closely linked with Paris after receiving independence in the past year — to stand up and be counted with or against the Algerian rebels who have been fighting for independence since 1954.

The 11 French Community members from Africa could provide a balance of power in the assembly on moves to set the United Nations to take a hand in bringing peace to the big North African territory.

In recent years, resolutions supported by Algerian representatives have failed by as little as one vote.

The political committee presumably will need two weeks to get to a vote on any resolution. That would take it about up to Dec. 17, the date fixed for the assembly's Christmas recess.

Only a few days delay in starting could defer the vote until the assembly resumes its session, probably in February. That would give de Gaulle time to hold a referendum and get the French people behind his program for the "Algerian Algeria."

WANT GUARANTEES
De Gaulle wants the 10 million people of Algeria to decide their own political future — especially their links to France. Algerian rebel leaders agree with this but they demand guarantees that the choice will be free. They want the United Nations to organize and supervise a final referendum among the Algerians.

Whenever the discussion takes place, it will provide a new platform for Soviet propaganda in North Africa. Sunday the Soviets cast their 31st veto in the Security Council and blocked the admission of the new African state of Mauritania to the United Nations. The vote was 8-2 (Soviet Union and Poland), with Ceylon abstaining.

This pleased Morocco, which lies next to Algeria and claims neighboring Mauritania as part of its territory. Morocco recently accepted a gift of about a dozen Soviet jet planes.

The Soviets had linked admission of Mauritania to admission of Outer Mongolia, a longstanding request on the Communist satellite state regularly turned down by the West. This time the Security Council turned it down by a vote of 7-4, with the Soviet Union, Tunisia, Ceylon and Poland voting yes.

When the Italians Test a Road, It's Tested
FLORENCE, Italy (AP)—More than 20,000 motorists tested the new 51-mile superhighway between Bologna and Florence Sunday. Police said there were so many collisions that no one counted them; dozens of injured motorists were treated at hospitals in three cities, and more than 100 cars ran out of gas or over-heated.

The edict, dated last Monday, also nullified the claims of insurance beneficiaries who have left the country and from compensation payments due refugee agents or brokers.

The order directed government managers of the seized companies to submit daily reports to the insurance control office on the progress of their investigation of life policy holders.

It was not clear how the government expected to enforce its orders against persons living in the United States who had notified the home office of their American insurance company of their change of address and were continuing premium payments.

Japan Apparently Safe From Typhoon Ophelia
TOKYO (AP)—Typhoon Ophelia, apparently spared Japan from its 115-mile center winds, swung back into the uninhabited Pacific today on a northeast course.

The off-season typhoon, which killed two persons on Ulithi Atoll in the central Pacific, caused heavy snow and rainfall in Japan.

Ex-Little Rock School Official's Daughter Queen
DALLAS, Tex. (AP)—The daughter of the Little Rock superintendent of schools during the 1957-58 integration troubles will reign as queen of the 1961 Cotton Bowl game.

The queen, Gail Blossom, is a junior at the University of Arkansas, whose team will play Duke in the Jan. 2 football game.

The brown-haired, brown-eyed Miss Blossom is the daughter of Mr. and Mrs. Virgil Blossom. Her father is now superintendent of the San Antonio, Tex., North East Independent School District.

Castro Orders Firms to Cancel Insurance

HAVANA (UPI)—The government has ordered confiscated American insurance companies to cancel life policies held by refugees from Cuba and turn over accumulated premiums to the new "recovery fund." It was reported today.

The edict, dated last Monday, also nullified the claims of insurance beneficiaries who have left the country and from compensation payments due refugee agents or brokers.

The order directed government managers of the seized companies to submit daily reports to the insurance control office on the progress of their investigation of life policy holders.

It was not clear how the government expected to enforce its orders against persons living in the United States who had notified the home office of their American insurance company of their change of address and were continuing premium payments.
