CIBRE Outreach -- CIBRE Special Programs

CIBRE provides a place where business leaders, academics, researchers, professionals and students come together to share resources, ideas and identify actions to address organizational issues, educate current and future professionals, and support economic development in the community, and the world.

One way CIBRE makes these connections is by co-sponsoring events -- on OU's campus or around the globe.

Upcoming events include:

- **Ignite Automotive** -- April 22, Oakland Center Banquet Rooms -- A fun, engaging way to open up dialog and share innovative ideas about the reinventing the automotive industry. This evening, the entire industry is up for jobs: engineering, design, human resources, transportation, manufacturing, finance, administration ... whatever. Learn more [here](#).

- **Lessons Learned: An Examination of the Toyota Situation**-- April 29, Elliott Hall, Oakland University -- A networking breakfast, presentation and discussion coordinated by Society of Automotive Analysts that examines what went well, what didn't go well and what can be learned from Toyota's recent experience. Learn more [here](#).
