

Lift Blockade on Congo Areas

Leopoldville Is Hoping Move Will Aid Talks on Political Settlement

LEOPOLDVILLE, The Congo — The Congo central government announced today the lifting of a four-month-old blockade of rebel Oriental and Kivu provinces, as a gesture to encourage forth-coming talks on a political settlement.

Economics Minister Jean-Pierre Deroyard warned the blockade will be reimposed, however, if rebel soldiers or authorities threaten the security of goods or transport workers.

Deroyard told a news conference that two Congo River barges, carrying 800 tons of vital food supplies, will leave Leopoldville Tuesday for the rebel capital of Stanleyville.

Included in this first shipment are 300 tons of wheat flour donated by the American government, salt, rice, sugar and clothing also are being sent to relieve the growing hardship among the population of the blockaded provinces.

The blockade was imposed early in December by Gen. Joseph Mobutu, Congo army commander, to pressure the newly established rebel regime of Antoine Gizenga to return to the central government of President Joseph Kasavubu.

Informed sources said negotiations between the central government and the rebel regime are scheduled to open in the jungle village of Bundoko, on the neutral border between Oriental Province and Equateur Province.

Churchill Stops at Palm Beach on Yacht Cruise

WEST PALM BEACH, Fla. — Sir Winston Churchill, on a month-long Caribbean cruise aboard the yacht of Greek millionaire Aristotle Onassis, stopped here today on his second visit to the United States since 1953.

The former British prime minister is traveling aboard the \$25-million yacht Christina. Onassis is a close friend.

Churchill remained aboard and his secretary, Anthony Montague Brown, said the British leader probably will stay on board and leave for New York later today or early tomorrow.

"Mr. Churchill is tired but is in very good health," Brown said.

Consumer to Get Voice on Farm Committees

WASHINGTON (AP) — Sen. Philip A. Hart, D-Mich., said today he had received assurances that the Kennedy administration's farm proposals will contain a request that a consumer representative be included on farm committee advisory committees.

Hart said a letter from Secretary of Agriculture Orville Freeman called for the idea of such representation "eminently sound."

The Michigan senator said Freeman wrote that the request will be incorporated in farm proposals to be transmitted to Congress.

BOY AND DOG LOST — One-year-old James Alfred Hooks and a new pal, a dog named "The World Is Waiting for the Sunrise," were lost today. The dog was also lost and had tagged along to the police station with the child. The unnamed dog will spend time with the Hooks family until its owner can be found.

Friends Hail 'Min' Osmun

(Continued From Page One)

30-years duration there was planned by the veteran toastmaster Howard V. Heldenbrand about the approach of age 80.

Time slipped 30 years in ten performers of the old Elks Temple Band struck up their theme song, "Lebensraum," then swung into "All I Do Is Dream of You."

Osmun joined in ably at the piano in two more old favorites, "The World Is Waiting for the Sunrise" and "Nobody's Sweetheart."

The band members, included leader Larry Makony, Roy Landry, Collier Scott and Larry Houser, played saxophone, Ernie Meyer, clarinet, Ody Johnson, drums, Jim Schiller, bass, Cliff Bosch, trumpet, Manley Steinbaugh, violin; and Osmun's brother, Carroll, guitar.

Dr. Dana P. Whitmer, superintendent of schools, delivered the main tribute, describing his long-time colleague as "a man who generates a warmth to which people respond."

Murphy said he saw little likelihood of any, except possibly the vote for Osmun, being decided by drawing lots.

Murphy said he expected Oakland's canvass of its 331 voting precincts to be completed by Tuesday. It began last Tuesday.

To Be K-S Funds President Bagwell Quits University

DETROIT (AP) — Paul D. Bagwell, titular head of the Republican party in Michigan, announced today he had accepted the presidency of a gas and oil investment firm and had "no intention of running for any public office in the foreseeable future."

Bagwell was the party's unsuccessful nominee for governor in 1958 and 1960.

Bagwell resigned as scholarship director of Michigan State University to accept the presidency of K-S Funds, Inc. of Denver, Colo., a subsidiary of King-Stevenson Gas and Oil Co.

He said he expected to continue "active interest in the Republican party" but gave no indication whether he would attempt to retain leadership.

Bagwell will become a director of both K-S Funds, Inc. and King-Stevenson.

Bagwell described K-S Funds, Inc., as "a unique type investment firm which will raise funds for gas and oil exploration in the United States and Canada." He said it would be a mutual firm in which investors would have money in several instead of a single well exploration.

JFK and Macmillan Gloomy Over Future

(Continued From Page One)

Testing of nuclear weapons permanently suspended as international policy setting are making very little progress.

The Soviet Union's new demand that the agreement be administered by a three-man directorate completely unacceptable to Britain and the United States.

The directorate would be composed of one Soviet, one Western and one neutral representative who would make decisions by unanimous agreement.

IF GENEVA FAILS

2. Since the test talks at Geneva have been regarded by the West as powers as a possible first step toward disarmament, a failure at Geneva would inevitably be considered as a blow to disarmament.

The two leaders reviewed the disarmament outlook and reaffirmed their hope that the test talks would prove successful, despite the current gloomy prospect, and that disarmament negotiations would get off to a good start.

3. The chances of a new East West confrontation over West Berlin were raised high although Macmillan considered that Khrushchev may choose to exert primary pressure for Communist expansion in some of the underdeveloped countries in Africa and Asia.

Both Kennedy and Macmillan agreed that Khrushchev's repeated statement that he wants a General War is the gravest problem this year must be given very serious weight.

4. With respect to Southeast Asia Kennedy and Macmillan expressed their hope that cease-fire negotiations which the British are conducting with the Soviet foreign office in Moscow will now be successful and produce a prompt truce in the civil war in Laos while a 14-nation conference meets to negotiate a more permanent settlement.

They apparently foresaw grave difficulties within the conference in achieving their agreed objective of uniting Laos and establishing it as a completely neutral country under a coalition government.

The United States recognizes that the Communist Pathet Lao would almost certainly have to be given representation in such a government.

NATIONAL WEATHER — Snow flurries are expected tonight in parts of the Upper Lakes and most of the Lower Lakes with rain for the Lower Southeast Atlantic States and thunderstorms in parts of Florida. Scattered showers are forecast for the Southern Rockies. Warmer weather is expected west of the Mississippi, except in some of the Central Plains states. It will be cooler in Florida.

Race to Delay Local Recounts

Ballot Boxes to Stay Locked Pending Result of Wayne State Duel

Township and city clerks have been warned that any local recounts will have to await a probable one on a state level. Ballot boxes for the election of the second of two Wayne State University Board of Governors' posts on Michigan's spring ballot.

County Clerk J. Register Daniel T. Murphy Jr. issued the warning to local clerks after he had been instructed by Robert M. Montgomery, state director of elections, that ballot boxes and voting machines must be kept locked pending a possible state recount.

The final unofficial Associated Press tally shows Republican Thomas B. Adams as an advertising president from Bloomfield Hills, leading Democrat Ralph E. Richman of Holland by 310 votes for the second WSU post.

6 DAYS TO ASK RECOUNT

Assuming that Richman is the loser, he will have six days after counties certify their official canvasses to Montgomery to ask for a recount. Murphy said he expects the state tally to be finished by next Friday.

Richman said yesterday: "The official canvass shows that I can easily win. I can easily win. I will give a recount the most careful consideration."

Murphy said that there are any requests for recounts for local races they would have to proceed with it before any possible Richman-Adams recount.

Murphy said he saw little likelihood of any, except possibly the vote for Osmun, being decided by drawing lots.

Murphy said he expected Oakland's canvass of its 331 voting precincts to be completed by Tuesday. It began last Tuesday.

Morton and Fischer Survive Cutbacks

LAKELAND, Fla. (AP) — Out-flier Wylie (Bubba) Morton and pitcher William (Bill) Fischer survived final player cut today as the New York Yankees dealt down to the 25-player limit.

The Tigers purchased both Morton and Fischer from the American Association Farm Club at \$25,000.

At the same time, they optioned out to Denver pitcher Gordon Goetz and pitcher Gordon Aloush, who was the last major league holdout when he signed his Tiger contract last month.

Says Build-Up of Polaris Puts Squeeze on Navy

WASHINGTON (AP) — Secretary of the Navy John B. Connally testified today that the rapid build-up of Polaris missile submarines and a series of global tensions have put the squeeze on Navy funds and manpower.

"Whenever a crisis develops, the Navy and the Marine Corps are certainly heavily affected," Connally told the Senate Armed Services Committee. "We are the first to move to the scene and the last to leave it."

While President Kennedy's proposed additions to the Navy budget will help, Connally said for the past three years the Navy has had to stop the Polaris system by sacrificing in other areas.

Lions Announce White Cane Week April 16-22

The Lions Clubs of Pontiac and Waterford today announced plans for White Cane Week April 16-22 in conjunction with 300 Lions Clubs throughout the state.

The white cane has become a familiar tool to many citizens as denoting the user as a blind person in need of due consideration.

The purpose of White Cane Week is to draw attention to the fact that blind people can see that while cane bearers need their understanding and courteous assistance whenever possible.

To Begin Distribution of State Highway Map

Distribution of the 1961 official Michigan highway map will begin today at the end of this week, John C. Mackie, state highway commissioner, announced today.

Some 600,000 copies of the map are being printed. Copies are available free by writing: Motorist Services Division, State Highway Department, 712 W. Mason Bldg., Lansing 26.

Accused of Illegal Pressure

WASHINGTON (UPI) — The Justice Department today accused Chrysler Corp. of illegally attempting to force its dealers to stop selling competing compact cars made by Studebaker-Packard Corp.

Attorney Gen. Robert F. Kennedy said a civil suit against Chrysler Corp. is being filed in U.S. District Court in New York.

The suit charged that Chrysler refused to sell its cars to dealers unless they agreed to stop handling the Studebaker-Packard's cars.

Kennedy said Chrysler's action, aimed at replacing the Lark with Chrysler's Valiant in dealer showrooms, was "a clear attempt to force its dealers to stop selling competing compact cars made by Studebaker-Packard Corp."

Kennedy said Chrysler's action, aimed at replacing the Lark with Chrysler's Valiant in dealer showrooms, was "a clear attempt to force its dealers to stop selling competing compact cars made by Studebaker-Packard Corp."

He added that "we have made

The Day in Birmingham Applications Being Taken for Summer Day Camp

BIRMINGHAM — Applications now are being accepted for the summer day camp sponsored by Cranbrook and Kingswood schools in Bloomfield Hills.

Registration forms can be obtained by contacting Mrs. Dorothy Campbell at Cranbrook, Mrs. Campbell and Mrs. William Smith Jr. are collectors of the summer program.

Children from age 5 may be enrolled for the season which begins June 12 and continues through July 22.

Four morning courses are offered each meeting from 8:30 a.m. to 12:30 p.m. Monday through Friday. A fifth program on science for boys 9 to 11 years old will be offered in one of the morning programs.

Collects Award for Ad Address Ernest Jones Lauded for Talk on Future Media Frontier

For an address that "contributed to creative media thinking," Ernest A. Jones, president of MacManus, John & Adams, Inc., Bloomfield Hills advertising agency, has won the grand award in the third annual media awards sponsored by Media/Scope magazine.

Jones accepted the bronze plaque at a luncheon yesterday in the Waldorf-Astoria Hotel in New York.

The award was presented to Jones for a speech entitled "Take Me to Your Reader," which he delivered before the National Association of Broadcasters in New York.

He has been president of MacManus, John & Adams since 1955. Prior to joining the Bloomfield Hills agency in 1958 he was advertising manager of the Polish Daily News.

A popular speaker before advertising groups, Jones suggested that the media should be a group that be publisher-sponsored research on the "ego-involvement" of the reader with the magazine—in fact, with any vehicle which will carry the ultimate advertisement.

"The measure of emotional involvement of various media, in my opinion," Jones said, "is a major variable between successful advertising and failure. It probably is the next media frontier which we must conquer."

Jones lives at 900 Cranbrook Road, Bloomfield Hills.

A Parlatian theme will be followed by the Birmingham Newcomers Club at its dinner dance April 15 at the Roca-Roca Country Club.

The "April in Paris" meeting will be complete with hostesses costumed as can-can girls.

Soviet Proposes Congo Meeting

UNITED NATIONS, N.Y. (AP) — The Soviet Union proposed today that the U.N. Assembly seek to arrange a meeting of the Congo parliament within 21 days.

The Soviet resolution circulated to the Assembly membership also said the U.N. Command in the Congo should "ensure the safety of members of parliament."

The resolution dropped earlier Soviet proposals that Secretary General Dag Hammarskjöld be dismissed and that the U.N. Congo operations be ended within a month.

French Chef Now Cooking for Kennedys

WASHINGTON (AP) — There is someone new in the White House kitchen — a French chef to help prepare meals for visiting dignitaries of state.

Only about a month ago, the White House was vigorously denying that it had attempted to match a Vietnamese cook from the French Embassy in London. The White House claimed then that its kitchen staff "was perfectly adequate."

The recent influx of top-level visitors and increased state entertaining apparently changed the picture. And brought Rene Verdan to Washington.

Verdan, on temporary duty in the presidential mansion, regularly presides in the kitchen of the Carlyle Hotel in New York City. When President and Mrs. Kennedy visit New York they make their headquarters at the hotel.

Mayors Will Discuss Federal Participation

WASHINGTON (AP) — Michigan's 28 mayors have been invited to an all-day conference here May 5 to discuss community participation in federal programs.

Sen. Philip A. Hart, D-Mich., said he hoped "information can be exchanged which will be beneficial to all our communities and to the federal agencies as well."

Fire Destroys Store

DEARBORN (AP) — Fire destroyed a downtown Dearborn furniture store late Thursday, causing a reported \$300,000 damage. No one was injured.

He was watching from a distance when the fire broke out. He practiced the dare-devil maneuver when his plane inexplicably crashed. Capt. George A. Nial, 31, Ft. Lauderdale, Fla., also a pilot and a member of the dare-devil club, died with him.

12,000 Set to Return at Pontiac Motor

Pontiac Motor Division will resume production operations Monday, May 12, after a 10-day strike. The company said it expects to return to work.

Pontiac Motor had joined Buick and Oldsmobile divisions of General Motors Corp. in suspending production this week.

Sen. Hart Cited Toward Probe of Birch Society

WASHINGTON (AP) — Sen. Philip A. Hart, D-Mich., said today a Senate investigation of the anti-Communist John Birch Society might not be a good idea.

Hart said some of the views are "extremely offensive" to him, but that he doubts the wisdom of a congressional probe now.

He added that "we have made

Test Delegates Face Deadlock

Russia Demands Veto in N-Curb Planning but West Cries No

GENEVA (AP) — The Western powers and the Soviet Union were at another standoff in the nuclear test ban talks today, with neither side ready to take the responsibility for breaking off negotiations.

British delegate David Ormsby-Gore declared Thursday that the West has shown "monumental patience" and drew a sharp retreat from Soviet delegate Semyon K. Genshchikov, who said the Soviet Union would not accept a "test ban" unless it was a "test ban" for all nuclear powers.

U. of M. Professor Goes to Washington

WASHINGTON (AP) — The Senate has confirmed President Kennedy's nomination of William J. Cohen, a University of Michigan professor, as an assistant secretary of health, education and welfare.

Cohen, an expert on the Social Security program and one of its original drafters, will be assistant secretary for congressional relations.

Sen. Carl T. Curtis, R-Mich., spoke against confirmation before the vote was taken Thursday. Curtis said Cohen advocates increased Social Security benefits that would increase Social Security taxes.

Ethiopia Gets Vaccine to Fight Yellow Fever

GENEVA, Switzerland (AP) — Yellow fever vaccine has been flown to Addis Ababa, Ethiopia, to fight an epidemic, Red Cross spokesman announced here Thursday. The 20,000 doses of vaccine were sent on urgent appeal from the Ethiopian Red Cross, which said the epidemic has claimed several thousand lives.

Auto Firms to Close 5 Plants Next Week

DETROIT (AP) — Chrysler Corp. and the Ford Motor Co. are closing five assembly plants next week. At the same time, operations will be resumed at four of their plants.

Chrysler said 2,800 men would be idled for the week at the Imperial plant in Detroit and at plants in St. Louis and Los Angeles.

About 4,500 will be affected by a one-week shutdown of Ford Assembly operations at St. Paul and Dearborn.

Chevrolet 700 Lakewood Station Wagon

Monza Club Coupe

One of these Chevy Corvairs wants

YOU

(in a friendly way, of course)

Either of these Corvairs would make you a wonderful traveling companion. (Any of Corvair's ten budget-priced models would, for that matter.) The Lakewood Station Wagon earns its keep with a solid 68 cubic feet of cargo space, 10 of it under that lockable hood. And the Monza Club Coupe, with its bucket-type front seats, lets you in on some ultra-comfortable driving.

And they both handle and brake and perform beautifully. (Proof of the pudding is the way the '61 Corvair manhandled the recent Canadian Winter Rally, winning outright and taking the first five places in its class in this rugged 1,265-mile test.) Look 'em over at your dealer's. And if you can't decide which one you want, feel free to take both.

See the Chevy Corvairs, Chevrolet cars and the new Corvette at your local authorized Chevrolet dealer's

Candlewick Woods

ONE DIED HERE — Mrs. Bertha LEE, 81, was killed and five persons were injured in a collision at Nashville, Tenn., between the car in which she was riding and this \$15,000 custom-built sports car. The car was built by Clarence Harwood Briley III, 18, being re-

moved from the wreckage on the far side. Twins George and Perry Leascher, 17, passengers in the sports car, lie injured in the foreground. A woman and her small daughter, riding with Mrs. Lee, were also injured.

County Republicans Vacate Old Quarters

Memories — some sad, some gay — will come back to a handful of county Republicans this weekend as they pack up in preparation for their move Monday into a new headquarters.

"I've already come across a poster saying 'Vote for Unbeaten Charlie Potter,'" said Charles A. Ferry, public relations director for the Republican Committee of Oakland County.

He'll head a host of volunteers this Saturday and Sunday who will comb from attic to the basement their present headquarters at 351 N. Woodward Ave., Birmingham, in search of what is to be trashed and what is to be crated.

Monday will be moving day to new headquarters at 744 S. Adams Road, Birmingham.

While they get set to pack the valuables, such as voter indexes,

workmen are already roaming around the white, two-story frame home, their headquarters since August of 1957, in preparation to raze it to make way for public parking. Their new home is pretty much like their present headquarters — it is an old home with two stories and an attic — except that it should have more floor space, Ferry said.

They will rent it from its owners like they did their first headquarters. No rental price was disclosed.

Heater Explosion Blows Out Wall

A back wall and corner of the Latimer TV Shop, 5330 Sasabaw Road, Waterford Township, was blown out at 3 a.m. today due to an overheated electric water heater, according to the owner, Gaston McCurdy, 735 Stirling St.

A nearby resident, Jean Eumyon, 4146 Quillen St., was awakened by the explosion and notified township police and Fire Marshal Lewis Goff. There was no fire.

The heater was located in the back part of the building along with many TV sets and testing equipment. An inventory was being taken today to determine the amount of damage caused by the blast.

Begin Ex-Nazis' Trial in Murder of 500 Jews

KASSEL, Germany (U-P)—Trial began today of two ex-Nazi police officers charged with helping kill more than 500 Jews during World War II in the Soviet Union. The defendants, Franz Lechshuler, 70, and Willi Pappenkoert, 52, were arrested last year. Until that time, Pappenkoert had been a policeman in Essen.

Tito Ends Morocco Visit

CASABLANCA, Morocco (U-P)—President Tito of Yugoslavia ended a five-day state visit to Morocco Thursday and departed aboard his private yacht for Tunisia, the next stop on his African tour.

Engineer Society Schedules Meeting

The Michigan Society of Professional Engineers, Oakland Chapter, will hold its monthly meeting next Thursday at 7 p.m. in the Rotunda Inn.

Fred Pradko, chief of the Dynamic Simulations Laboratory in the research and engineering directorate of the Army Tank Ordnance Command, will be the guest speaker. His topic: "The Army's Research in Mobility and Fire Power."

Pradko is an automotive research and design engineer and a graduate of Wayne State University.

The May meeting of the group will feature an election of officers.

Civil, Criminal Court Matters Being Reviewed

Current developments in civil and criminal court matters are being reviewed at the two-day annual conference of the Michigan Association of Judges which concludes today at Michigan State University.

Pontiac Municipal Court Judge Cecil McCullum is secretary of the association.

Among the conference speakers is Gov. John B. Swainson.

A review of current traffic problems will be made to the judges by Gordon H. Sheehy, director of MSU's highway traffic safety center.

Architect to Speak at Art Teachers Meeting

William Lyman, A.I.A., of 5395 Hickory Bend, Bloomfield Township, architect with Smith & Smith, Associates of Royal Oak, will speak at the spring meeting of the Detroit Art Teachers Club at Topinka's Country House April 21. He will give an illustrated talk on the present state of contemporary architecture.

Kept Getting Away From His Captors

Foxy Eichmann Was Slippery as an Eel

Editors Note: This is the fifth in a series of articles in which the author reports from the front lines of the hunt for Adolf Eichmann, the Nazi war criminal who was captured in Argentina and is now being held in Israel.

By BOB CONSIDINE
JERUSALEM — The pursuit of Adolf Eichmann began immediately after the Allies and the Red Army uncovered, in hosts of German concentration camps, the evidence of his "final solution of the Jewish question."

The search stepped up as his name and his pitiless treatment of millions of Jews was bandied about in testimony heard at the Nuremberg trials during the winter of 1945-46.

Incredibly, the man was in the hands of American authorities from about May 1, 1946, until some time in 1949. Then he spent three years in Germany, though still one of the "most wanted" Nazis.

Still the object of one of the great manhunt in history, Eichmann was able to cross Austria in 1948, persuade the Vienna relief service into issuing him proper papers, and sail for Argentina in June, 1950.

FLOWERS CAUGHT HIM

There he worked at obscure mechanical jobs, regathered his family, aired a fourth son—and then one day he bought a bunch of flowers. His "new" wife a mistake of buying his "new" wife a bunch of flowers.

That act, a curious contradiction in the nature of a man accused of ordering the murder of six million human beings, proved the vital clue his hunters needed to cut through the new personality he had carefully created.

Let us begin with the Americans, who let him slip through their fingers.
From the best evidence available, Eichmann considered several methods of eluding justice at war's end. He told one associate that he would shoot his wife and three sons, then kill himself.

To another he said he would simply shoot himself.
To a third he pictured himself going to his grave content that he had assigned millions of Jews to their deaths.

The course he finally chose was simple and daring, inasmuch as there was tattooed under his left armpit the indelible mark that all SS officers bore.
"Eichmann's official rank was lieutenant colonel, though his power was all but absolute."

The first American patrol that picked him up, near Bad Ischl, Austria, as he walked along a road dressed in an appropriated uniform of a Luftwaffe corporal, let him go after brief questioning him.

He told the GIs his name was Barth, that he had a bellyful of war and was walking home.
The next U.S. patrol was less casual. It sent him to the nearest POW camp, along with the aide who accompanied him, 2nd Lt. Janisch.

There the tattoo was found on him. He was shipped to Oberdachstein, where 2,000 suspected war criminals were cowed.

BECAME 'EICHMANN'
Eichmann was questioned at some length there. He told his American interrogators his name actually was Eichmann, that he had been an SS lieutenant colonel, concerned with military—not political—duties.

He named as his unit the 22nd Cavalry Division. He said he was born in Breslau. He knew that city's vital statistics records had been destroyed in a bombing, and thus there would be difficulty tracing his story.

The name Eichmann was chosen, the well-known Eichmann authority Moshe Pearlman writes in "The Capture of Adolf Eichmann," because he feared

he might speak his real name accidentally, or respond if called by that name. With Eichmann as a name, he could always

EICHMANN EXERCISES
Former German SS officer Adolf Eichmann exercises during confinement while awaiting trial for war crimes against Jews during World War II. His trial starts Tuesday.

CAB Man Hits Airline Merger

Says He Supported It Reluctantly; Alleges a Violation of Policy

WASHINGTON (UPI)—Did the Civil Aeronautics Board violate its own policies by approving the merger of Capital and United Airlines?
This issue was raised Thursday by CAB member G. Joseph Minetti, who agreed with the unanimous decision but said he did so reluctantly.

Minetti's dissenting comments contained sharp criticism of the decision he said violated long-standing precedent and policy.
Minetti recalled that in a 1953 route case, the CAB said "It is vital . . . to develop the national air route structure as to tend to decrease rather than increase the gap between relative size of the big four carriers (American, United, TWA and Eastern) and the smaller trunks."

He pointed out that the TWA-Capital merger created a system from 15 to 30 per cent larger than American Airlines, which had been the largest carrier.
He said this was "contrary to the board's long-standing efforts to effect a more equitable distribution of traffic among the trunk lines."

The course he finally chose was simple and daring, inasmuch as there was tattooed under his left armpit the indelible mark that all SS officers bore.

BECAME 'EICHMANN'

Eichmann was questioned at some length there. He told his American interrogators his name actually was Eichmann, that he had been an SS lieutenant colonel, concerned with military—not political—duties.

He named as his unit the 22nd Cavalry Division. He said he was born in Breslau. He knew that city's vital statistics records had been destroyed in a bombing, and thus there would be difficulty tracing his story.

The name Eichmann was chosen, the well-known Eichmann authority Moshe Pearlman writes in "The Capture of Adolf Eichmann," because he feared

plead that he had not spoken or been heard properly.

His name and identity grew each day larger after the International Military Tribunal opened its historic hearings at Nuremberg. But to Eichmann's relief, the diligence of his American captors and inquisitors coincidentally wanted. GI guards who had been through the fighting wanted to get home. Their replacements, applecheeked kids who were in knee pants when Eichmann was consigning incredible numbers to death, were not too interested.

Eichmann began preparing to leave Oberdachstein. The Nazi cell within the camp was better organized than the camp proper. An SS doctor performed plastic surgery on the telltale tattoo.

The cell's printing press issued new papers in the name of either Otto Hoesinger or Hoesinger. Clothing was prepared for him. The man simply walked away, instead of to the prisoners' dock and the hangman's noose at Nuremberg.

In 1949, Eichmann contacted an underground organization which called itself ODESSA. It was dedicated to "running" Nazis-at-large.

Caroline Gets Jungle Gym at White House

WASHINGTON (AP)—Two new landmarks have arisen on the lawn of the White House: a gay yellow and green pond and a jungle gym.

Workers set up the new outdoor play equipment for President Kennedy's three-year-old daughter Caroline while she was away with the family on an Easter holiday in Palm Beach.

The new play gear was set up on the south lawn next to a green swing not far from the golf putting green which was installed for former President Dwight D. Eisenhower. The swing was put in by the Kennedys about a month ago.

Getting Her Buck Is All in a Day's Housework

COOPER ME. (UPI)—Mrs. Josephine Leighton didn't have to put much effort into her hunting this season to bag a 200-pound deer.

The 63-year-old housewife spotted the 10-point buck standing near the barn as she was doing the dishes. She picked up a rifle and dropped the deer with a single shot.

A patent for the first typewriter was issued to William A. Burt of Mt. Vernon, Mich., in 1830. It proved to be a failure.

It efficiently tunneled Eichmann out of Germany, saw him safely across Austria, and deposited him in Rome—where he managed to pick up papers at a Vatican agency which at the time was assisting hundreds of homeless and stateless persons.

His name by now was Richard Klement.

He sailed for Argentina in June 1950, with a list of members of that country's "German colony."

One of them, by now an industrialist, sent him to work in Tucuman, 200 miles northwest of Buenos Aires. Only then did Eichmann write his wife Veronica.

He had not been in touch with her since the spring of 1945, and now it was early in 1951.

By the time Mrs. Eichmann and their three sons arrived in Argentina and she had registered as the widow of a man of the same name who had died years before, Eichmann was back in Buenos Aires working for the Mercedes Benz assembly plant under the name of Ricardo Klement.

It is conceivable that the sons did not know "Klement's" real name. There are indications that he was called an "uncle" of this father.

Anyway, one day Mrs. Eichmann announced to her few friends that she had decided to end her widowhood and accept the pro-

posal of the quiet, dowdy, hard-working Ricardo Klement.

They were married, settled in a plumbeous house in a droll suburb of the sophisticated Argentine capital, and soon enough a fourth son was born.

The long arm of Israeli justice found them there, but hardly with assurance. We don't know exactly why the trail led to B. A., nor writer of cliff-hangers.

Little Change Expected in Belgian Government

The election in Belgium didn't change the picture very much. There will still have to be government by coalition.

In the outgoing Parliament, Prime Minister Eyskens' Social Christians had held a plurality of seats in both the Senate and Chamber of Deputies. They lost six seats in the Senate and eight in the Chamber.

Social Democrats for whom former Prime Minister Spaak had resigned from NATO and re-entered politics, gained in the popular vote. The party picked up five new seats in the Senate but owing to the proportional system of voting, its representation in the Chamber remains the same. The Liberals, on whom the government had depended for support, lost one seat.

This has been a bad year for Belgium. Loss of the Congo caused imposition of an austerity program resulting in strikes which brought on a political crisis and defeat of the government. French-speaking Walloons in the south and east led the December-January strikes while the Flemings in the north and west took no part in them.

The former Social-Christian-Liberal coalition pattern has been weakened by the election. It appears now that the two major parties—Social Christian and Social Democrats—may form a coalition headed by Dr. Spaak.

Quite apart from NATO considerations, the United States has a valid interest in Belgian affairs. Since World War II mutual aid of \$1.88 billion has gone to that country. Greater influence of Dr. Spaak's party could mean less Belgian influence in the Congo and that is desirable from Washington's point of view.

Dope Victims Need Special Hospitals

States are becoming increasingly concerned about the dope problem and many of them are favoring some sort of Federal aid to combat a scourge that persists and persists.

For as time, addicts were commonly treated almost as criminals, but society is beginning to learn that evaluating the whole horrible habit as an illness or acute sickness is more humane and more in accordance with the facts.

This newspaper thinks the State of Michigan should probably set up a more determined program of its own and seek further assistance if the matter is out of hand. The unfortunate who have been seized by this man-killing habit need supervised cures under scientific methods. Hit or miss treatment does nothing to provide a permanent cure.

Special hospitals are about the only remedial source with any lasting hope.

Proposed Youth Corps to Conserve Resources

The Administration has revived part of a Youth Conservation Corps plan advanced three years ago by Sen. HUMPHREY and Rep. BLATNIK both of Minnesota.

The original proposal would have rehabilitated our depleted natural resources at an estimated cost of \$1.2 billion a year for a 10-year period. The more modest new plan would employ some 150,000 boys aged 17 to 19 for one year's outdoor manual labor ranging from construction of retaining walls to assisting engineers and

surveyors, at an annual cost of \$400 million.

Similar to the Civilian Conservation Corps of the 1930s, the proposed corps would speed conservation of national resources, provide an educational program and attack delinquency among jobless teen-agers. A January report by the Natural Resources Advisory Committee headed by Rep. FRANK E. SMITH of Mississippi was optimistic of the feasibility of such a corps.

According to estimates some 50 million acres of forest land need replanting; another 275 million need improvement; two-thirds of Western grazing land is eroded and soil conservation measures are lacking in two-thirds of the Nation's farm lands.

This vast amount of work must be done sometime and the sooner and cheaper the better. The corps' usefulness could be tested on projects already under way and anchorless boys given an opportunity for supervised work. It would not solve the jobless nor delinquency problem, but it should be a big help.

The Man About Town

Dope on Weather

Our Readers Report Some Quite Unusual Incidents

Garden: What no man should plant more than his wife can weed.

Earliest green thumb to report is Peter Glascock

of Keego Harbor, whose radishes have leaves "as big as a quarter."

Always the first to report holly in bloom is Mrs. Almond Dwevley of Lake Orion. Seems that it should be blooming around Holly.

After keeping tab on it for many years, Jason Wiloughby

of Cass Lake says the ice went out much earlier than usual this spring.

A robin's nest with six eggs is near the home of

Mr. and Mrs. Harvey Plainwell of Pontiac Lake, which is said to be two more than the usual number.

With the assistance of a warm chimney, the daffodils of

Mrs. Alan Halliday of Waterford are in full bloom.

The time for receiving entries in our baseball contest closed this noon. They now are being tabulated, and a summary on how they voted will appear in Monday's column.

That clean sweep for another term made by Michigan State Highway Commissioner

John C. Mackie has an extra local significance. John and his beautiful wife are former Oakland County residents, living near Holly.

The wildflowers are also rushing the season, as

Mrs. Georgiana Spellman of Clarkston says the trilliums are blooming in a woods near her home.

Verbal Orchids today—

Robert Dawson

of 20 Wenonah Drive; 97th birthday.

Mr. and Mrs. Bert Feneley

of 27 Charlotte St.; 65th wedding anniversary and his 85th birthday.

Mrs. John Buckenbrough

of Birmingham; 84th birthday.

Mrs. Nellie Shiel

of Auburn Heights; 84th birthday.

Mrs. Pearl Salinger

of Keego Harbor; 83rd birthday.

Mr. and Mrs. Price Lawman

of Waterford; 52nd wedding anniversary.

Have We Forgotten Anyone?

David Lawrence Asks:

Is JFK Ready to Cope With Allies?

WASHINGTON—It is opportune to put into perspective President Kennedy's venture into personal diplomacy. His talks in Washington with Prime Minister Macmillan and Chancellor Adenauer and the later visit which Mr. Kennedy plans to make for conferences with President De Gaulle in Paris are the direct result of the American presidential election—a change in personal here and maybe in international policy.

Mr. Macmillan is an old hand—an experienced diplomat—and Mr. De Gaulle and Mr. Adenauer have a long-time background in international politics.

The big question is how these experienced diplomats will bargain and trade in the next few months with the relatively inexperienced President of the United States.

For Mr. Kennedy has let it be known that he himself is going to handle negotiations on the big problems. He has some able advisers who have been in government for some time, but not one has the intimate knowledge of the American government's long and at times difficult negotiations with our allies that President Eisenhower and the members of the National Security Council obtained in the last eight years.

Diplomacy is, of course, often a matter of trades and reciprocal concessions. The British, for instance, know that the Red China problem is actually controversial in the United States. It isn't in Britain, and the Macmillan government can take any position it pleases on that question, advancing or retreating, but the United States cannot.

So the British diplomats will argue for something they are anxious to get from America and trade it off for a willingness to let the Red China problem ride for a while.

What do the British really want? What do the Germans want? Obviously, they want issues settled in a way that will benefit them on the economic side. The key to many a problem confronting the conservative government in Britain is increased export trade for British companies.

ALLIES MATERIALISTIC? In making a settlement in South-east Asia, benefits to British trade and maintaining friendly relations with Red China—so as to preserve territorial possession of Hong Kong for Britain—are both more important than they appear to be on the surface.

There is no definite border line between overweigh and obesity. Ordinarily superfluous or slacker flesh gets in as "plumpness" or "stoutness" until it begins to handicap the victim obviously in one way or another.

Thousands of pudgy young girls have gained 10 or 15 pounds in weight in a few months in army training camps, while their measurements, particularly the girls, diminished to something like the normal figure of youth.

This may not be the time or place to hail the revival of walking, but I beg to report that the testimonials I receive nowadays from men and women who cultivate daily walking as a pastime and exercise are so enthusiastic that I have ever received about health habits or remedies of any kind.

countries on a cooperative basis are looked upon in Europe as a desirable policy if they tend to increase the sale of European goods.

Indeed, a close look at the diplomacy of our European allies today brings out the materialistic rather than the idealistic motivation.

Thus, British spokesmen are ready to forget the 157,000 casualties suffered by the American people in the Korean War and are prepared to brush aside the idealism proclaimed by the United Nations, by formal resolution, it pronounced Red China an "aggressor."

To ignore the past is what is called "practical" and "realistic" policy. It goes along with the viewpoints expressed by some so-called "liberals" in the United States, who say that Red China must be recognized as a "fact."

But so is the aggression by Red China in Korea, a "fact," and so is the tyranny imposed today by the Communists on the Chinese people. Is America's anticolonialist zeal to be confined to Portuguese Angola and the Congo?

The real concern here is whether President Kennedy will succumb to these new doctrines called "liberal," or whether he will stand up for American idealism when he is confronted by European statesmen.

He is inexperienced in the wiles of diplomacy, though, being something of a politician himself, he may not be as naive as the Europeans think he is.

He is inexperienced in the wiles of diplomacy, though, being something of a politician himself, he may not be as naive as the Europeans think he is.

Voice of the People:

Appreciates Third Lane at Busy Intersection

The improvement on Huron Street at Telegraph Road has been appreciated by all of those that must use it every night, and those that must use Elizabeth Lake Road would welcome the thought of that third lane.

If you approach the two black long lines trying to decide which of the two would save you faster, you will know just how much of an improvement the third lane could be.

Are they studying the traffic problem at that point?

'Free Enterprise Built Our Country'

I am not a telephone converser and I am not in selling siding, remodeling or furnace installations. We have had our daily routine interrupted at inconvenient times, perhaps as much as anyone and may have been a little annoyed. But to answer "Disturbed Homeowner," I would much rather have my telephone annoy me occasionally than to stamp out the origin of free enterprise by quenching the initiative and creative pioneer that has built this country into the economic giant that it is today.

Pontiac is in dire need of more of these pioneers because of economic slumps. The salesman has made this country what it is today and will determine what this country will be tomorrow.

Don't complain about other people. Day in and day out we'll have more trouble with ourselves than any person we meet.

Paul Gallaty

92 S. East Blvd.

Portraits

By JOHN C. METCALFE

If I should ask of you in pleading tone... To come and take a walk... There is a reason why among the stars... With you I want to talk... If I should gently hold your hand... And you would nervous get... Remember that beneath the moon you can... Unconscious forget... If I should place my empty longing arms around your neck... I hope that you will not in modesty... Depart from me in haste... If I should give to you a little kiss... And it should make me cry... I'll turn each tear into a star... And blow it to the sky... And, darling, even more than all of this... A promise I shall make... That, if instead you give your heart to me... I'll buy a wedding cake.

Smiles

The popcorn business each year reaches into the millions—and that ain't peanuts.

Go ahead, men, wear a high collar if you want to—we'll split ours.

To live to be a hundred, just drink a glass of milk every day for 1200 months.

Visiting originated in China and judging from some we've seen, signatures originated, too.

Boys suggest a good tip for motorists: Be a good turn!

Interference is a great help in football except when a professor has something to do with it.

Case Records of a Psychologist:

On all diets, be sure you eat at least 60 to 800 calories worth of protein daily or you will grow weak from penalizing your muscles.

You can skip salt and sugar, for your body has plenty of those foods stored up. But the body does not store protein. So you need a fresh input thereof EVERY DAY.

So stress protein foods like cottage cheese, milk, meat, eggs, fish, etc. but not fats (100 calories apiece).

A full cup (8 oz.) of cottage cheese is quite filling. I add a teaspoonful of honey or strawberry jam to my cottage cheese, thus making my 125 calories.

LOW LIQUID INTAKE Allow yourselves only one total glass of fluids the first day; 2 glasses the 2nd, and 3 glasses from the 3rd through the 10th days.

Thus, your mouth gets dry and thirsty, as does the entire body of your stomach, as you don't feel very hungry. But you do crave water.

Housewives often find it better to pour their one glass of water in the ice cube tray and freeze it. Then they take a little ice water on their tongue at frequent periods during the day.

In my case, I drink half a cup of coffee at breakfast on the first day, and the other half at night. The second day I take half a cup at all three meals and the fourth half cup of ice water. By the 10th day you get along pretty well.

Letter About Trucks Receives Answers

I would like to inform Mr. Joseph Pirochta that regardless of trailer lengths on haulways the men driving these vehicles are champions of defensive driving and have received national awards for courtesy and safety on highways. Merit points to their credit for outstanding contributions in service on the highways. No drivers are more devoted to highway safety. Their proof is in their record.

Vernice Joswik

1371 Baldwin

Senate bill 1180 should be passed because the law stands for progress and no one wants to stand in the way of progress. Progressive states like California have had longer trucks for years.

I am a taxpayer, registered voter and consumer and I do not want to assume the taxes that have formerly been paid by trucks.

Anyone who can't drive well enough to pass a highway truck shouldn't have been issued a driver's license.

Safe Driver

The Almanac

By United Press International

Today is Friday, April 7, the 97th day of the year with 268 more in 1961.

The moon is approaching its last quarter phase.

The morning stars are Jupiter and Saturn.

The evening star is Mars.

On this day in history:

In 1776, English poet William Wordsworth was born at Cockermouth, England.

In 1927, an audience gathered in the Bell Telephone Lab Auditorium in New York to watch the first successful long distance demonstration of television.

In 1947, telephone workers in 39 states staged their first country-wide strike.

In 1953, Dag Hammarskjöld of Sweden was elected secretary general of the United Nations for a five-year term to succeed Trygve Lie.

Thought for today: William Wordsworth said: "Minds that have nothing to confer find little to perceive."

THOUGHTS FOR TODAY

They lift up their voices, they sing for joy; over the majesty of the Lord they shout from the west. — Isaiah 24:14.

Do not forget that even as "to work is to worship" so to be cheerful is to worship also, and to be happy is the first step to being pious. — Robert Louis Stevenson.

My weight dropped 12 lbs. in the first 10 days. Mrs. Crane was down 10 lbs. So you wives who are too plump might make a health wagger with your cigarette smoking habits. Challenge them to quit.

Always write to Dr. George W. Crane at least 100 to 200 words per letter. Enclose a long list of stamps, stamps and postage stamps. Do not cover your letters with too many stamps.

The Associated Press is entitled exclusively to the use of all reproduction of all news items appearing in this newspaper as well as all its editorial content.

The Pontiac Press is delivered by carrier for all areas of Pontiac, Michigan, Monday through Saturday. Outside delivery areas, the paper is delivered by mail.

Robert Kennedy Requests
Eight Laws to Curb Crime

WASHINGTON (AP) — Atty. Gen. Robert F. Kennedy, in his first Justice Department news conference, has called for eight

ROBERT F. KENNEDY

Pontiac Optimists
Elect New Prexy

The Pontiac Optimist Club yesterday elected H. Wayne Gabert its new president, succeeding Gerald "Bud" Stark, at a noon-day luncheon in the Waldron Hotel.

Other newly elected officers are Glen Russell, first vice president; Julian Galan, second vice president; George Tuson, secretary-treasurer; and Ralph Merkowitz, sergeant-at-arms.

The Optimists also elected five new members to the club's board of review. They are Ron Smith, Dick Wolfe, Glen Harding, Howard Dell and Kline Hartman.

Gabert, 34, of 18 Auburn Ave., has operated his own household appliance retail store in Pontiac for more than 30 years.

He served as vice president of the Chamber of Commerce in 1956, and was the first chairman of the Commercial Division in the Pontiac United Fund Drive the year before.

Plans New Jet
to Cut Cargo,
Passenger Rates

SANTA MONICA, Calif. (AP)—Douglas Aircraft Co. said Thursday it would build a new DC8F jet plane that could cut tourist-class fares 20 per cent and lower cargo rates by 50 per cent.

Donald W. Douglas, Jr., president of the company expressed belief the plane would increase intercontinental traffic manifold.

The new plane, identical in size with the 110-passenger DC8, will carry 34 passengers behind the wings and 32,000 pounds of cargo forward.

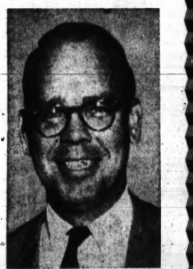

Jackie Picks Paintings
to Hang at White House

BOSTON (AP)—Some American paintings are en route to the White House at request of Mrs. John F. Kennedy, described by an expert as "the nation's No. 1 art lover."

Perry T. Rathbone, director of the Boston Museum of Fine Arts, said Thursday the President's wife has selected 11 works from the museum's collection for the White House.

Her selections include: a portrait of Daniel Webster by George P. A. Healy; New England scenes by Winslow Homer and Maurice Prendergast; watercolors by John Singer Sargent and contemporary work by Edward Hopper.

The world's largest solar telescope is to be built in Arizona. It will have a 60-inch mirror and will show the sun's image as an object 34 inches in diameter.

powerful new laws to help curb organized crime.

The youthful attorney general said he was confident that "we will get some action on these bills" from Congress.

A record 174 newsmen, tops for a Justice Department conference, overflowed Kennedy's large reception room into adjacent offices Thursday.

In a wide-ranging, sometimes humorous discussion, they heard Kennedy touch, among other matters, on: Businessmen's ethics, juvenile delinquency, the deportation of a New Orleans racketeer figure, the John Birch Society and organized crime.

NO SPECIFIC DETAILS
Kennedy, 35, a brother of the President, did not provide specific details of how he planned to operate against organized crime.

But, he asserted: "It is my firm belief that new laws are needed to give the FBI increased jurisdiction to assist local authorities in the common battle against the racketeers."

The new laws he has asked Congress to approve include five years imprisonment and \$10,000 fines for interstate travel "to advance illegal activities."

STATE TO STATE

"More and more," Kennedy said, "the bankrollers and kingpins of the racketeers live in one state, but return periodically to another state to collect from the racketeers they run by remote control."

Kennedy also called for: Punishment of persons intimidating or injuring anyone cooperating in a federal investigation. (Present law only protects witnesses called in judicial or congressional investigations.)

Expect 300 Rotarians
at Confab in Cranbrook

More than 300 Rotarians from Southeastern Michigan and Southern Ontario will be attending the annual conference of the 638th district of Rotary International on Sunday and Monday at Cranbrook in Bloomfield Hills, Clarence W. Kraft, president of the host club, Birmingham, said today.

A delegation from the Pontiac club has indicated it will attend, Kraft said.

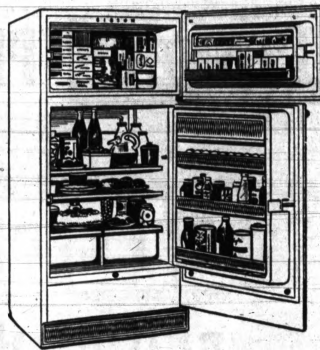

All conference sessions will be in the Cranbrook facilities in nearby Bloomfield Hills. Many visiting Rotarians are expected to bring their wives, who will be entertained at special ladies' programs.

Representing the president of Rotary International, J. Edd McLaughlin of Falls, Tex., will be Dr. J. Martin Klotsche, provost of the University of Wisconsin. He will speak at a Monday morning meeting and at the governor's banquet that evening.

There Are No Classrooms; Students in Clusters

Carson City Has an Unusual Elementary School

By ED MARKAITT
CARSON CITY (AP)—Elementary education at Carson City still is based on the three Rs.

But to keep up with pupils of grades two through six in this Montana County farm center you have to add such items as conversational Spanish, educational television and a capital M—for more.

In a giant step toward improved instruction, Carson City Community School has combined the best features of the

fast-growing team teacher technique with a modified non-graded curriculum. It takes advantage of the normal youngster's built-in restlessness.

The \$225,000 structure, three years old, eliminates the traditional separation of classrooms. Its 250 pupils attend classes in two teaching clusters.

Pupils of grades two and three are grouped in Cluster I. The rest are in Cluster II. First graders attend the old school in another part of town.

Besides the cluster areas, each of which equals the space of four self-contained classrooms, the new school includes a multipurpose area for eating, exercise and special programs.

Tables and chairs in the cluster areas replace the traditional school desk rows.

Every item of furniture is mounted on casters for easy movement as the day's program dictates. Pupils are instructed in groups of up to 130 or as few as 10—and at times—individually.

Study units change in size throughout the day.

RACKS FOR BOOKS

Plastic "tote" trays for pencil, crayon, books and other items go into special racks under the tables for each child.

As the study units shift, pupils "tote" trays and furniture may go with one group while others stay at their places. The movements create little disturbance and draw little attention.

They just get up and go—even to the bathroom—and no

one else takes notice," says Mrs. Elizabeth Martin, principal. "Each child takes pride in his behavior in the open class."

Nor is there conflict in recitations among one group while others nearby concentrate on reading or writing.

Only at first glance does the system appear helter-skelter.

Supt. Thomas J. Vaughan says the team teaching involves the school's eight professional teach-

ers, including Mrs. Martin, and three lay assistants for non-technical work.

Available, too, are part-time teachers in such fields as instrumental music, speech correction or for serving handicapped children. Community police, fire and industrial leaders often contribute their services in visits.

For each cluster, curriculum planning, supervision, pupil evaluation and coordinating is delegated to a team leader.

Each day the team convenes to plan its instructional approach. Cluster projects normally cover a three-week period. They take varied forms to which regular daily studies are tied. They culminate in school programs to which parents may be invited.

"We don't believe in exploiting the children," says Mrs. Martin. "When we put on a program, it is in line with

instruction and the result of classroom work."

Vaughan explains that the cluster leader is appointed on the basis of subject experience.

Other members of the team take supporting roles by helping with pupils in small groups. The program permits teachers with specialized backgrounds to "share their talents with all our students," says Vaughan. "This is difficult to do in self-contained classrooms," he adds.

Transfer Spade Cooley From Jail to Hospital

BAKERSFIELD, Calif. (AP)—Further bandleader Spade Cooley, 50, charged with murdering his wife, was transferred from jail to the Kern County General Hospital Thursday with a heart ailment. Physicians said his condition is not believed to be serious but that he probably should remain hospitalized for at least a week.

Lansing Eyes Bill on Strikebreakers

LANSING (AP)—A bill to prohibit the use of strikebreakers in labor disputes has been reported out by the Senate State Affairs committee on the floor.

The measure, came up once before, but was sent back to the committee after the Senate failed to reach agreement on the wording of an amendment aimed at barring so-called labor goons from picket lines.

A similar bill in the House was still being considered by the labor committee.

Asks for More Judges to Handle Large Dockets

LANSING (AP)—An Ingham County circuit court judge says that more judges are needed to handle the overcrowding on court dockets.

Judge Marvin J. Salmon, speaking at a session of the two-day Municipal Judges Conference, said a Michigan State University, said a growing number of cases are being decided by administrative quasi-judicial agencies. This, he said, was a result of the general failure of the courts to grow with the times.

Auto Output Down From Last Week

DETROIT (AP)—U.S. auto production was down this week although several car builders announced sales increases, Automotive News said today.

The trade paper estimated production this week at 92,894 units, compared with 101,698 units last week and 132,299 units during the week ended April 9 last year.

It said "the compacts will take 36.4 per cent on 33,797 cars this week, while the standards will pick up 8.4 per cent on 44,970 automobiles, the mediums 10.5 per cent on 5,732 cars and the highest-priced class 4.7 per cent on 4,385 cars."

140th Serious Warning

TOKYO (AP)—Communist China claimed a U.S. submarine and a warship intruded into waters south of Swatow in Kwangtung Province Thursday. Hsinhua (New China) News Agency said a spokesman of the Chinese Foreign Ministry issued the 140th serious warning "in relation to these military provocations by the U.S."

Scientist Says U.S. Lags in Sane Nuclear Policy

HONOLULU (AP)—Nobel Prize scientist Dr. Linus C. Pauling said Wednesday he believes the United States trails Great Britain and Japan in encouraging a "sane nuclear policy."

Dr. Pauling, of the California Institute of Technology, called disarmament a universal problem and said he was willing to support any group—even Communist—which seeks a controlled, inspected disarmament system.

In an interview with the Honolulu Star-Bulletin, Dr. Pauling said: "Communists as well as others must participate and if they should aim at a sane nuclear policy, I shall support them."

He emphasized however, he had no sympathy with the Communist cause.

Best March Sales in Kresge's History

DETROIT (AP)—S.S. Kresge Co. said Thursday sales of \$35,133,621 last month were the highest for any March in the firm's 62-year history.

Kresge said March brought sales figures for the first three months of the year to \$84,164,400—an increase of 4.8 per cent over the first quarter of 1960.

H. B. Cunningham, Kresge president, credited an earlier Easter for most of the increased March volume, but added:

"There are definite signs of improved business conditions in many parts of the country. We expect a substantial decrease in April due to last year's later Easter season, but our four-month total should be well above the comparable period of 1960."

Soviets Soften Toward That 'Evil' Jazz

MOSCOW (AP)—For years the official newspaper of Soviet youth, Komsomol Pravda, has been blasting jazz as a capitalist evil. Thursday it proposed a nationwide system of what amounts to a network of jazz night clubs.

Many foreign students in the Soviet Union from Asia, Africa and Latin America are frustrated in their search for places to let off steam. This may have influenced the change in attitude of those who control what Soviet youth may and may not do.

Komsomol Pravda said the string of new cafes should be decorated in a light and gay manner, with tables along the walls, sunken dance floors, and platforms for student jazz bands.

Files Suit When Refused

CHICAGO (AP)—A union member has sued his union and former employer for \$100,000 damages because, he alleged, he was fired for insisting on a copy of his union's contract.

An attorney for the employee said the suit is the first of its kind since the 1959 Landrum-Griffin labor law required unions to supply each member with a copy of their contract on request.

The suit was filed by attorneys for Richard Carl of Chicago, who was fired Feb. 16 from Alcon Metal Products, Inc. It names as defendants both the firm and the Metal Processors Union, Local 16, an affiliate of the International Union of Doll and Toy Workers.

Science Fair Opens at Pontiac Central Friday

More Than 200 Enter Projects

Cafeteria, Boys' Gym
Will House Students'
Exhibits April 14-15

By BARR GRIFFIN
Students from all over Oakland County have used the extended Easter vacation to put the finishing touches on projects to be entered in the Pontiac Central High School Science Fair April 14 and 15.

This annual Science Fair is sponsored by the Linnean Society, a biology club advised by Wesley Mass at Central.

In the years the club has sponsored the event, the fair has grown from a few high school projects to over 200 entries in the elementary, junior high, and senior high chemistry, biology, physics, geology, and math divisions.

The Science Fair will be held in the cafeteria and boys' gym and will be open to the public from 6 to 9:30 next Friday evening and from 10 a.m. to 4 p.m. Saturday.

Rating of the projects will be done by qualified judges from nearby schools and colleges. Each project will be given a ribbon appropriate to its quality: superior, excellent, good, or fair.

The judges will determine a grand prize winner in each division, who will receive books of his or her own choice.

Committee chairmen for the Science Fair are Dave Todd, John Hunt, and Doug Anderson, executive committee; Jim Colosset, set up; Joan Davis, operations; and Helen Ramsdell and Nancy Bain, publicity.

The 1961 Quiver has gone to press. Last Thursday the editors and Kenneth Brown, adviser, took the last sixty pages of the yearbook to the printers, Edwards Brothers of Ann Arbor.

Students are anxiously awaiting the return of the completed yearbook, expected around June 1.

Co-editors of the 1961 yearbook are Penny Batts, Carol Riley and Donna Douglas.

Other editors are Mary Stoehr, undersecretary; Kathy Calhoun, secretary; Karen Kessler, activities; Mary Shadley, faculty; Karen Allhouse, index; Laurie Nosanchuk, art; Judy Hinkley, Gary Falla, sports; Dick Zukow, photography; Janet Reed and Ann Hodges, advertising; Kay Cline, copy; and Mary Jo Whitfield, business manager.

TUNING UP—Students in the instrumental music department at Pontiac Northern High School have been polishing off the final selections this week for their big spring band concert next Wednesday evening. Under the talented baton of Eldon Rosegar, PNH instrumental music instructor, the Northern musicians will launch into an evening of musical variety at 7 p.m. One of the features

will be the saxophone quartet composed of (from left) Bob Travis, Dave Johnson, Gary Lloyd and Bill Basinger. All seniors, the boys won a first rating in the recent district solo and ensemble festival. The program also will feature an original composition to be played for the first time anywhere.

PLANNING PROJECTS—Scientific-minded students at Pontiac Central High are eagerly awaiting the school's annual Science Fair, scheduled for next Friday and Saturday. Looking over plans for some of the projects to be entered are (from left) Douglas Anderson, Joann Davis, Dave Todd and John Hunt. The boys make up the fair's executive committee, while Joann is in charge of the operations committee.

Pontiac Press Photo
On the table is one interesting exhibit, a Van De Graff Generator that produces static electricity. The fair will be open to the public from 6:30 p.m. Friday and 10 a.m. to 4 p.m. Saturday. Some 200 projects are expected to be on exhibit. Students from elementary through high school grades are eligible to enter their work.

Assembly Held at Waterford

Hi-Y Sponsors Easter
Program; GAA Loses
Game to Faculty Team

By BARR SECAN
As vacation came to a close and students at Waterford Township High returned to classes, thoughts ranged back to the events leading up to Easter vacation.

Guest speaker for the annual Easter assembly last week was Dr. Milton Bank, pastor of the Central Methodist Church in Pontiac. Dr. Bank's Easter message to the student body was followed by two selections from the W.T.H.S. A Cappella Choir.

The assembly, sponsored by the Hi-Y, was closed with the singing of the "Lord's Prayer" by soloists Don Wensten, which followed the "Argus Dei" and "Alleluia, Glorious is Thy Name." The boys' ensemble also presented several selections.

During the student-faculty basketball game last week, the Girls' Athletic Association Letter Club was defeated 25-19 by the women faculty. The Letter Club team was composed of Cecelia Darimont, Jane Tripp, Diane Clouse, Carol Bell, Lorretta Warrs, Mary Roberoy and Sue Welch.

The faculty team started Miss Vanderwall, Mrs. Nickman, Mrs. Studt, Mrs. Arnold, Miss Sawdye, Mrs. Odell, and Mrs. Losh.

Recent distribution of report cards again singled out the honor students.

Rewarding with all A's from the 10th grade were Laura Grile, Dave Patterson and David Trapp. Juniors with A honors were Diane Clark and Candy Winder.

Chap Lufury and Heidi Vogelberg were the only seniors with all A's.

Activities Blooming for St. Fred's Pupils

By MARY ELLEN DETMER
Many entertaining events are on tap during the spring season at St. Frederick High School.

Several events are slated within the coming week, while others are still in the planning stage.

The sophomores are jumping right into spring tonight with St. Fred's first spring dance.

"April Showers" is an appropriate name for the casual cook hop at 8 p.m.

The St. Fred's Parents Club is presenting a novelty dinner Saturday afternoon and evening through their endeavors and help of the Varsity club, cheerleaders, and other athletic participants they'll serve an Oriental Dinner from 2 to 8 p.m.

The price is 75 cents for children under 12 and \$1.50 for adults. All are welcome.

SENIORS ENTERTAINED
Wednesday evening the seniors were entertained by the juniors at the annual banquet. The hall was a replica of a French sidewalk cafe.

After dinner, there was dancing to music of the Garcia Band and stereo records.

Upon returning to school Thursday the students started the last quarter.

All the students now await their report cards, giving the results of tests taken just before Easter vacation and their third-quarter work.

'BULL' SESSION—That's almost what you'd have to call this rehearsal scene at West Bloomfield High School. The Junior Class is preparing for its Tuesday night production of "Bull in a China Shop." The "bull" in this case is Bonnie Pitzer. Lifting her onto a stretcher are Pete Vassler (left) and Warren Hull. The weeping actresses are Cheryl Frayling (left) and Candy Hughes. Pete is also student director of the show.

Junior Class to Produce Comedy Tuesday at W. Bloomfield High

By CAROLYN MAVIS
West Bloomfield High School students and their parents will take a trip to 500 Sycamore Street Tuesday evening to visit a boarding house for ancient females.

"At this house they can hear the following: 'I'm going to swoon, I just know I'm going to swoon! And every time I think of him it gives me chills up and down my spine. Did you see the strawberry mark on her shoulder?'"

The parter of this boarding house is the setting for the Junior Play at West Bloomfield High. The play, "Bull in a China Shop" by G. B. Gillett, will be pre-

ented April 11 at 8 p.m. The admission price is 75c.

The plot concerns the schemes of six delightful old maids to get a detective, whom they all are in love with, to come to their home.

The six old maids are Miss Hildegard, the landlady, played by Pat Sobieski; Miss Birdie, played by Candy Hughes; Miss Amanda, played by Cheryl Frayling; Miss Lucy, played by Sandy Wenk; Miss Nettie, Cheryl Frayling; and Miss Elizabeth, Bonnie Pitzer.

Some very important people behind the scenes are Gino Santini and Mike Faddy, props, and Stan Pruse, lights.

The prompters are Chris Thomson, Gayle Frost, and Sue Jenkins.

PNH Band Slates Spring Concert

By BILL RAMSEY
A treat will be presented to music lovers next Wednesday, April 12, when the Pontiac Northern Band puts on its first spring concert.

The tastefully arranged program includes band numbers of all genres: classical, religious, Latin American, military, and modern popular tunes.

One of the program's many highlights will be "Diana Overturn," composed by the brother of Robert Peterson, PNH string instructor. This will be its premiere performance.

In addition to numbers by the entire band, several excellent solos and ensembles will be featured.

Among them will be a saxophone quartet, composed of Bob Travis, Dave Johnson, Gary Lloyd and Bill Basinger.

These students won a first division rating at the District Solo and Ensemble Contest last month.

Then there will be the brass sextet that also won a "first" in the state contest two weeks ago: Perry Tyson, Roger Richards, Mike Johnson, Debra Denny, Alan Somers, and Ernest Humphreys.

Pamela Morris will be featured in a flute solo, while Perry Tyson will also perform as cornet soloist.

The concert begins at 7 p.m. Tickets are on sale from Band members, and at various music stores in Pontiac.

Music is also on tap tonight for Northern students, as the PN Varsity Club presents its first annual Varsity Club Hop.

The dance will be held from 8:11 in the cafeteria and Don Maxin's music committee has lined up disc jockey, Jerry Olson, to spin records.

Other committee chairmen are Phil Wells, refreshments; Winfred Miracle, decorations; Jerry Heard, tickets; Rich Gould, chaperones; and Dave Fox, clean-up.

Sponsors for the lettermen in this and other club activities are coaches Dave Schmidt, Dick Hall, Arnold Wilson, and Bill Rose, and Athletic Director Eldon Johnson.

Everyone is buying tickets for the Pontiac big water show April 15-16 at 8 p.m. at the Northern pool. They may be purchased from the girls in the show at 50 cents for students and 75 cents for adults.

Plans are going ahead rapidly for the annual canoe trip. The paddling of this year will be done the week of May 20-21 on Michigan's Au Sable River.

Girls interested should contact Miss Madeline McConnell as soon as possible.

Lincoln Jr. High Students All Set for Big Trip East

April 26 is only 19 days away to most people, but for some 140 Lincoln Junior High School ninth grade students it seems like a lifetime.

This is because these pupils are eagerly waiting for that date to board a bus to Washington, D. C. The pupils will leave Pontiac sharp at 6 a.m. April 26 and return home at 9 Sunday morning, April 30.

The trip will be directed and supervised by Ralph S. Forman, assistant principal.

Chaperones for the trip will include Mrs. Evelyn Allen, Mrs. Kaye Brunette, Mrs. Mary Christie, Miss Barbara Strobel, James Burke, Norbert Dant, John Keisner and Anthony Piza, all teachers at Lincoln.

This is an annual event and is entirely a Lincoln project, not connected to any other junior high trips in Pontiac.

Name Schools for AAA Trip

Baldwin One of Three
in Area to Send Patrol
Boys to Washington

The outstanding members of three Pontiac area schools will soon be named as their cities' official delegates to the 26th National AAA Safety Patrol Rally in Washington, D.C., May 13-14.

The schools are: Baldwin School, Pontiac; Stiles School, Rochester; and Schoolcraft School, Waterford Township.

This year's rally will mark the silver anniversary of the event, during which period Automobile Club of Michigan has sent thousands of youngsters to the nation's capital.

The safety patrol movement began in Detroit in 1919, and since then has spread throughout the world. Local youngsters will join over 100 other top state patrolers for the four-day, all-expenses-paid trip as guests of the Club.

"The schools earned the honor of nominating delegates through their patrol activities and efficiency during the past year," said Ernest P. Davis, Auto Club safety and traffic director.

The schools are expected to name their outstanding patrolers in about two weeks.

Patrolers representing some 90 Michigan communities will meet in Detroit May 11, where they will board a special train for Washington. During their stay in the nation's capital, they will spend two full days touring famous historical sites and meeting leading Federal officials.

The annual rally will reach a climax when 50,000 patrolers from throughout the U.S. join in the traditional march down Constitution Avenue.

'Auntie Mame' Opens Thursday

By JANET TISCH
"Auntie Mame," the rollicking, funny comedy that has been enjoyed by millions as a Broadway musical and movie, will be presented on stage by the Clarkston High School Junior Class, April 13-15.

Because of its wide appeal the play is being presented three nights in the Little Theater, under the direction of English instructor, Gene Scholler.

"Auntie Mame" is based on the best selling novel by Jerome Lawrence and Robert E. Lee, and concerns the frolics and antics of the completely uninhibited "Auntie Mame."

The play begins in the 1920's and covers nearly a thirty year span of time, with 23 scenes in settings from New York to Egypt.

Numerous colorful costumes have been created for the play and "Auntie Mame" promises to be the funniest, most colorful play ever produced in Clarkston.

Leading parts are being played by Sue Jackson, as Auntie Mame; Shirley Bauer, as Vera Charles; and Boyd Eisenlower, as Patrick when he was a young boy.

Patrick Dennis as a young man will be played by Dave Smith.

Other characters who help make the life of Auntie Mame the fun it is include Nora Muldoon, played by Judy Pike; Roy, played by Denby Smith; Ralph Devine, played by Tom North; Mr. Babcock, played by Craig Smith; and Gloria Upson, played by Janet Souther.

To complete the cast are Jim Woodward, as Beauregard Burnside; Carolyn Ruggles, as Agnes Gooch; Roger Loop, as Brian O'Bannion; Joan Payne, as Doris Upson; Melvin Smith, as Claude Upson; Michaelene Krithers, as Mother Burnside; Alice Oleson, as Sally Cato; Marvin Frick, as Cousin Jeff; Maureen O'Mara, as Cousin Fannie; Lewis Norris, as Emory MacDougal; and Judy Sourcy, as Pegreen Ryan.

But these students make only half a production. Without the many unsung heroes working as committee chairmen and crew members the show would be dark. There would be no color, no scenery, not even an audience.

Dave St. Clair will head the

Clarkston Juniors Ready

A busy and satisfying job has gone to Barb Ballard, Sherry Miller, and Carol Gill, who are on the make-up committee. Barb Buzzell is their chairman.

Jean Powell is in charge of tickets, and programs for the play. Assisting her will be Kay Federspiel, Shirley Beach, Ruth Jackson, Diane Bogner, Floy Kulaw, and Mary von Koehn.

A group of students have been given small, non-speaking parts. They are Sandy Podger, Alicia Lawrence, Mike Applegate, Jerry Powell, Bruce Brendle, Ben North, Ron Herberthson, and Wayne Holmes.

Pat Dennis as a young man will be played by Dave Smith.

Other characters who help make the life of Auntie Mame the fun it is include Nora Muldoon, played by Judy Pike; Roy, played by Denby Smith; Ralph Devine, played by Tom North; Mr. Babcock, played by Craig Smith; and Gloria Upson, played by Janet Souther.

To complete the cast are Jim Woodward, as Beauregard Burnside; Carolyn Ruggles, as Agnes Gooch; Roger Loop, as Brian O'Bannion; Joan Payne, as Doris Upson; Melvin Smith, as Claude Upson; Michaelene Krithers, as Mother Burnside; Alice Oleson, as Sally Cato; Marvin Frick, as Cousin Jeff; Maureen O'Mara, as Cousin Fannie; Lewis Norris, as Emory MacDougal; and Judy Sourcy, as Pegreen Ryan.

But these students make only half a production. Without the many unsung heroes working as committee chairmen and crew members the show would be dark. There would be no color, no scenery, not even an audience.

Dave St. Clair will head the

LEADING ROLES—Top billing in Clarkston High's Junior Class production of "Auntie Mame" will go to (from top) Susan Jackson, Shirley Bauer and Dave Smith. Sue has the role of Auntie Mame. Shirley will play the role of Vera Charles and Dave portrays the grown-up version of Patrick Dennis. The big show is slated to run Thursday through Saturday in the high school's Little Theater. Curtain time is 8 p.m. Crew members have finished the gigantic task of building sets for 23 scenes in the production.

Stewart-Glenn Co.
 Buys Your Interests
 Glenn Interests

Furniture Man's Son Sells
 The president of one of the city's oldest furniture companies announced today the purchase of interests held by Robert Glenn.

John P. Stewart, president of the Stewart-Glenn Co., organized in 1917, said the company this week acquired the interests held by Glenn, son of one of the founders of the company.

At the same time, Stewart announced that the transaction will result in the closing of the S-G Warehouse Furniture Sales, 20 Franklin Road. An anniversary sale will begin April 8.

No purchase price was disclosed. The company will center all its business in its store located at 1600 S. Telegraph Road, and hopes to increase the floor space of the two-year-old building by at least 50 per cent, according to Addison E. Oakley, manager and secretary of the company.

Glenn said he sold his interests in the company in order to expand the operations of the Automaton Corp. of which he is president.

Jury at First Leaned to Death

Finch 'Twelve' Voted Penalty by Big Margin on Initial Ballot

LOS ANGELES (AP)—An overwhelming majority of the third Finch murder trial jury at first voted to sentence both defendants to death in the gas chamber, a juror said today.

But the jurors eventually decided that a "life sentence would be even worse than death" for Dr. R. Bernard Finch and his red-haired mistress, Carole Fugate, juror George Styer added.

Styer refused to reveal the actual vote on the death penalty. The Los Angeles Examiner, quoting an unidentified juror, said it was 11-1. Styer denied this.

GIVES ACCOUNT
He gave this account of the deliberations:

"The great majority of us at the conclusion of the trial voted to convict Carole and Finch on the murder conspiracy count on early ballots.

"Most of the 19 hours we deliberated were devoted to determining whether Carole was guilty of first- or second-degree murder.

"And when we began deliberating penalty, the overwhelming majority of the jurors were in favor of the death penalty for both her and Finch.

"None of the third trial jurors were influenced by any feeling of sympathy for Carole."

Shark-Kissing Stunt Not Lauded in Lauderdale

FORT LAUDERDALE, Fla. (AP)—Latest pastime for college boys on Easter vacation at the beach: Make the girls kiss a shark.

Patrolman Neil Doherty was on duty Wednesday night when he heard a girl scream. He traced it to a group of about 50 collegians.

Three boys had a four-foot shark and were forcing every girl who came along to kiss the shark, to the amusement of on-lookers.

When Doherty arrived, he reported, one girl had refused to kiss the shark and was on the ground, trying to get away from the boys.

When the three boys saw Doherty, they took off in three directions. Doherty caught one, but the shark disappeared. There was no report on where the boys got the shark.

MSU Prof Joins Subcommittee Staff

WASHINGTON (AP)—Dr. Walter Adams, professor of economics at Michigan State University, has temporarily joined the staff of the Senate antitrust subcommittee, Chairman Estes Kefauver D-Tenn., announced today.

Adams, on a three-month leave from the university, will assist the subcommittee particularly in preparing for hearings on the pricing policies of concentrated industries in world markets.

The subcommittee has announced an inquiry into the reason for the drain on U.S. gold supplies and whether American manufacturers are pricing themselves out of world markets.

State Parole Board Vacancy Is Filled

LANSING (AP)—The State Corrections Commission today announced the appointment of Frank G. Buchke to the State Parole Board to fill the vacancy created by the recent death of A. Ross Pascoe.

Buchke, 43, a native of Bessemer, has served as director of the corrections department reception-diagnostic center since 1955. A graduate of Western Michigan University, Buchke joined the department in 1949 as a social worker at the state prison of Southern Michigan.

Invited by Kennedy

QUITO, Ecuador (AP)—President Jose Maria Velasco Ibarra of Ecuador tentatively accepted Thursday an invitation from President Kennedy to visit the United States some time this year.

'If Jesus in World Today, He'd Seek Only the Poor'

by LOUIS CASSELL

Here is a question for Protestants to ponder:

If Jesus Christ came to an American city today, would he conduct his ministry almost exclusively among the well-dressed, white people of middle-class suburbs, and ignore the millions of less privileged human beings who live in the inner city?

That is precisely what major Protestant bodies are doing, according to the Rev. Dr. Gibson Winter, a religious sociologist on the faculty of the University of Chicago Divinity School.

Dr. Winter has written a book entitled "The Suburban Captivity of the Churches" (Doubleday, \$2.50) which should be read, and prayed over, by every Protestant pastor, lay leader and denominational official in the United States.

It tells how old-line Protestant denominations have virtually abandoned the central areas of

American cities, and in the process have become "alienated" from the great mass of Americans who don't happen to have white skins, white collar jobs and homes in the suburbs.

Unless this trend is reversed, Dr. Winter believes, Protestantism within 20 years "will be fatally weakened as a significant religious force in the United States."

He recalls that the early Christian church was distinguished by the "racial inclusiveness." It united "rich and poor, Jew and Gentile, slave and free" in a fellowship that transcended all barriers.

But in the modern metropolis, Dr. Winter says, Protestantism is emphasizing rather than bridging differences of class and color.

The major white denominations are concentrating their energies on building new suburban churches, which are quickly filled (and financed) by hom-

ogeneous congregations of middle-class white families.

These suburban congregations tend to become what Dr. Winter calls "organization churches."

They involve their members in a frantic bustle of committee meetings, bazaars and other activities, which are supposed to give everyone a feeling of "belonging."

But their spiritual life is impoverished because the organization church is "introverted." It is preoccupied with its own survival, rather than imbued with a sense of mission.

Seek Oldest Person Born in the Hospital

Who is the oldest living person born in one of 70 hospitals in Wayne, Oakland, Macomb, Monroe and Washtenaw counties?

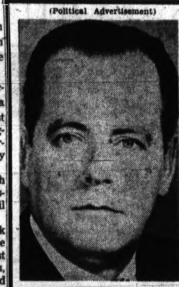

Jacques Cousin, executive director of the Greater Detroit Area Hospital Council, said the oldest "baby" will receive special recognition along with the hospital during National Hospital Week, May 7-13.

Pontiac General, St. Joseph Mercy and William Beaumont hospitals are members of the council from this area.

Cousin said individuals who think they qualify should telephone the council's office, or send a post card with their name, address, telephone number, birth date and the name of the hospital, to the

council office, 1004 Pennington Building, Detroit 26. Deadline is April 15.

About 72 per cent of the rubber consumed in the United States is in cent, footwear 6 per cent, wire for automobile tires and sundries, and cable insulation 4 per cent.

HOW DO YOU HANDLE A ROOM THAT'S HARD TO HEAT?

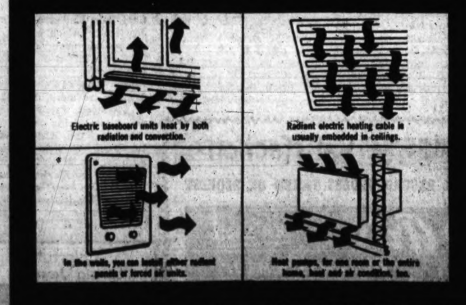

You probably have in mind one or more of these problems: A room that's too far away from the furnace. Large window areas that are chilly. Or perhaps you simply want extra warmth for a nursery or children's bedroom. The quick and economical answer is to supplement the present system with flameless electric heat located exactly where it's needed most, and independently, automatically adjustable for any degree of warmth. One of the modern, easily installed units illustrated below can end your part-time shivering for good. It can even turn a problem area into one of the warmest parts of the house!

WHAT'S THE BEST WAY TO HEAT A NEWLY FINISHED UPSTAIRS, BASEMENT, ENCLOSED PORCH OR BREEZE-WAY?

Without electric heat, you might have to overheat the rest of the house in order to make the new room livable. Electric heat can eliminate that extra burden on your present heating system and assure real comfort at all times. You can keep the room cooler when it's not in use, then feel it warm up quickly at a touch of its independent thermostat. The response is immediate, for the heat

source is right in the room. Several types of electric heating units are available, all easily installed at minimum cost and with minimum disruption of the household. You might also consider the room heat pump for maximum comfort all year round. This single unit, installed in an outside wall, gives you winter heating plus summer cooling.

WHAT IF YOU'D LIKE TO CONVERT THE WHOLE HOUSE TO MODERN FLAMELESS HEATING? Good insulation pays off with any heating system. So, first you should have adequate insulation, plus storm doors and windows. Any qualified electric heating contractor can tell you about the industry-approved insulation standards for electric heat, and about the exact type of units you should have. Then, with clean and efficient electric heat, every room will be under separate heating control—readily adjustable for the comfort of the people who are in it, when they are in it. If you have central hot air heating, you may want the ultimate in modern climate control—a central electric heat pump. An electric heat pump can supply winter heating and summer air conditioning, often through existing ducts.

June vows are planned by Alice Louise Witsell, daughter of the Cutler C. Witsells of Kingsport, Tenn., to Patrick J. Kirby, son of the Frank T. Kirby of South Anderson Street. She is a graduate of East Tennessee State College, and her fiancé, of Michigan State University.

ALICE LOUISE WITSELL

A fall wedding is planned by Mary Ann Morrow, daughter of the Edward B. Morrours of Bloomfield Hills, and Allan J. Schweitzer, son of the Benjamin J. Schweitzers of East Walton Boulevard.

MARY ANN MORROW

The L. N. Elickers of Cleveland, Ohio, announce the engagement of their daughter Joan Elaine to Harold J. Richards, son of Mrs. Harry J. Richards of Mohawk Road and the late Mr. Richards. She holds a master's degree from University of Michigan, where her fiancé attends medical school.

JOAN ELAINE ELICKER

Summer vows are planned by Karen Sue Swanson, daughter of the William Swansons of Drayton Plains to F. Bruce Ritchie, son of Mr. and Mrs. Fred J. Ritchie of Union Lake.

KAREN SUE SWANSON

Carousel Deserves Honor After Honor

By MARJORIE EICHER
Women's Editor, The Pontiac Press

Comedy, color and chorals effects elbowed one another for honors at Thursday's opening performance of "Carousel" at Pontiac Central High School. Director Stuart Packard has a hit on his hands. To be able to knit the uneven though varied talents of high school age young people into a harmonious whole requires a combination of talent, insight and unglamorous hard work. The production clearly received all three in good measure.

All of the roles were well cast. As much care and attention to detail was given to the supporting roles as to the leads. This may be Mr. Packard's secret ingredient for this type of production. From the audience's point of view, it tastes fine! Especially worth mention were the jobs done by John Hunt, Jim Bank, David Austin and Mittie Schroeder.

Sandra Jean Strauss, daughter of the Max L. Strauss of Birmingham, plans fall vows to University of Michigan medical student Ronald K. Riesz, son of Mr. and Mrs. Alfred J. Riesz also of Birmingham. The bride-elect attends Cleary College, Ypsilanti.

SANDRA JEAN STRAUSS

Mary Jean Kern of Stout Street, daughter of the Carl O. Kerns of Milford, and Jerry K. Riley, son of the Odis Rileys of Hazel Park, are planning an August wedding. Both attend Midwestern Baptist Seminary.

MARY JEAN KERN

Offer Wedding Vows in Church at Milan

Marble Memorial Methodist Church in Milan was the setting for the Friday evening March 31, nuptials of Kay L. Smith of West Huron Street and Milan, to Paul E. Pickell of Rives Junction.

The Rev. Kenneth Ouellette, assisted by the Rev. William Hughes, performed the candle-light ceremony before some 300 guests.

Parents of the newlyweds are the Harland W. Smiths of Milan, and the Kermit Pickells of Plainville, formerly of Rives Junction.

Fashioned of white Rochelle lace over tulle, the bridal gown featured a bouffant bustle-back skirt which fell into a chapel train. The fitted bodice with scalloped basque neckline extended into wrist-length sleeves.

A tiara of seed pearls caught the bride's fingertip veil of pure silk illusion. Resting on her white tulle was a white orchid and lilies of the valley. Attending their sister were Mrs. Fred Smith, matron of honor, and Judy Smith, bridesmaid, both of Milan, with Dorothy Sampson of Kinde.

On the square side were brothers of the bridal couple, Neil Pickell of Springport, best man, and Kermit Pickell Jr. of Rives Junction and Jerry Smith of Milan, ushers. Also seated guests were Fred Smith of Milan, brother-in-law of the bride, with Robert J. Squires and David Miller.

After the church reception, the couple left for a Northern Michigan honeymoon and will be at home on Francis Street.

The bride, recently graduated from the Edward W. Sparrow School of Nursing, Lansing, is staffed at Pontiac General Hospital. She will attend Midwestern Baptist Seminary where her husband is working on his master's degree in religious education. He is presently associate superintendent of the Detroit City Rescue Mission.

Do Not Ask Boys In, If Alone

By The Emily Post Institute

Q: Was it wrong to ask a boy I know well, to come to my house to help me with my homework when my parents were out? It was early in the evening.

A: When my mother and father came home they were furious with me and said that it was very improper to have a boy come into the house when they were not home, and that such behavior would surely cause gossip among the neighbors.

Will you please tell me if there was any impropriety in this situation?

A: Your parents are right. You should not have asked the boy to come in while they were out and you were alone in the house.

Q: My son is going to be married soon in another state. Several members of our immediate family are going to the wedding. The bride-to-be has written that she has made arrangements for us to stay at the houses of some of her friends as her house is not big enough to accommodate us.

I would like to know what our obligations are to those in whose homes we will be staying.

A: Your only obligation is to write bread-and-butter letters to your hostesses as soon as you return home. Should occasion arise in the future when it will be possible to return their kindness, you would of course do so.

Q: My daughter was a bridesmaid at a girl friend's wedding last year and wonders if she should ask this girl, in turn, to be one of her bridesmaids. She would rather not as she has several other close friends, but is afraid it will be ungracious not to since the girl is an old friend. What do you advise?

A: If your daughter and her married friend have grown apart and now have few common interests, it will not be necessary to ask her to be a bridesmaid.

Gen. Richardson Chapter, Daughters of the American Revolution, met Thursday afternoon at the home of Mrs. Maxwell Doerr on Ottawa Drive. Mrs. Harry F. Goring gave devotions.

Charles A. Wilson, organist and choir director at First Congregational Church, presented an organ program.

Reports on the recent DAR state conference at St. Joseph were given by Mrs. Frank Allen, regent-elect; Mrs. Lisle

Women's Section

Abby Says: Give 'Em Your Blessing

Don't Get Bowled Over

business any more than I do, and their husbands say they have to stay overnight because it's my husband's car. I would like your opinion.

BOWLER'S WIFE

DEAR WIFE: You are making quite a fuss over an outing that takes place only once a year. Driving 75 miles after a strenuous bowling tournament is neither fun nor wise.

You wives should let the boys stay overnight with your blessings. And don't worry about the "good clothes." When they win they like to get dressed up and "celebrate." And whenever they lose they need to get dressed up to console each other.

MRS. H. M.

DEAR ABBY: My husband and I have been married nine years. We have two children and one on the way. He says after 10 years a man should be entitled to trade in his wife "for a new model," just like they trade in their automobiles. What do you think?

OLD MODEL

DEAR OLD: Just because a model is "new" doesn't mean it is better. Ask your husband if he ever priced a 1959 Rolls-Royce.

DEAR ABBY: I agree with you that "punchy" men should wear elastic briefs to hold their stomachs in. I happened to be acquainted with the woman who took care of John Philip Sousa's dressing room years ago. (He was the leader of the band.) She said he always wore a corset.

MRS. H. M.

DEAR ABBY: My husband and I have been married nine years. We have two children and one on the way. He says after 10 years a man should be entitled to trade in his wife "for a new model," just like they trade in their automobiles. What do you think?

OLD MODEL

DEAR OLD: Just because a model is "new" doesn't mean it is better. Ask your husband if he ever priced a 1959 Rolls-Royce.

DEAR ABBY: I agree with you that "punchy" men should wear elastic briefs to hold their stomachs in. I happened to be acquainted with the woman who took care of John Philip Sousa's dressing room years ago. (He was the leader of the band.) She said he always wore a corset.

MRS. H. M.

Rocking Chairs Rock Forward Into Popularity

WASHINGTON (UPI) — For \$24.95 Washington residents can rock like the President.

In large newspaper advertisements, a Washington furniture store proudly advertised "the favorite chair of the New Frontier." Without actually naming President Kennedy, the store snugly pointed out that "a most prominent leader finds relaxation in the quiet, swaying motion of a rocker... this is the same, identical chair."

The cane-backed, severe-looking chair can also be had in something called "dark antique" for an extra \$10. It was revealed recently that Kennedy has been using a rocking chair, which his doctor approves.

5 Tables in Play at Bridge Session

Five tables were in play at the afternoon tournament of the Wednesday Duplicate Bridge Club at the Elks Temple.

Winners were David E. Utley and Ernest L. Guy; Mrs. Paul Potter and Mrs. John Laitinen; Mr. and Mrs. Arnold Richards; Mrs. Mildred Stoll and Mrs. Reginald Cox; Dr. Lorraine Willis and Mrs. Gordon Longstrech.

Q: My daughter was a bridesmaid at a girl friend's wedding last year and wonders if she should ask this girl, in turn, to be one of her bridesmaids. She would rather not as she has several other close friends, but is afraid it will be ungracious not to since the girl is an old friend. What do you advise?

A: If your daughter and her married friend have grown apart and now have few common interests, it will not be necessary to ask her to be a bridesmaid.

Gen. Richardson Chapter, Daughters of the American Revolution, met Thursday afternoon at the home of Mrs. Maxwell Doerr on Ottawa Drive. Mrs. Harry F. Goring gave devotions.

Charles A. Wilson, organist and choir director at First Congregational Church, presented an organ program.

Reports on the recent DAR state conference at St. Joseph were given by Mrs. Frank Allen, regent-elect; Mrs. Lisle

DAR Chapter Hears Reports on State Confab

Echlinaw, regent; Mrs. Allan H. Monroe, Mrs. Goring, Mrs. E. V. Howlett, Mrs. E. G. Clark and Mrs. Bradley D. Scott, state librarian.

Brenda Keesting of Pontiac Northern High School, one of the Good Citizens sponsored by the chapter, read her essay entitled "For What Avail if Freedom Fall?" which helped her win second place among the 337 Good Citizens of Michigan high schools.

Mrs. Charles Keesting, Brenda's mother, and Mrs. L. Raymond Sampson were also guests of the chapter.

Assisting the hostess were Dr. Sarah Van Hoesen Jones, Alice Serrell, Mrs. R. H. Wilson, Mrs. H. H. Haeberli, Mrs. Ida St. John McRoberts, Mrs. Everett Hathaway, Mrs. H. N. Stuart and Margaret Steward.

U. of M. Pianists to Team in Pontiac Recital

Two outstanding members of the University of Michigan's school of music will present the program for Pontiac Tuesday Musicale at 1:30 p.m. Tuesday in Grace Lutheran Church's Fellowship Hall.

Charles Fisher, assistant professor of piano, and Eugene Bossart, associate professor of accompanying and vocal literature, will appear in a two-piano recital.

Mr. Fisher, who has appeared as soloist with the Jackson, Ann Arbor and University of Michigan symphonies, has toured throughout the Midwest as both soloist and accompanist. He holds bachelor, master and doctorate degrees from the University, Pa. Michigan where he became a faculty member in 1954.

During his two-year tour of duty with the Army, Mr. Fisher served in Fort Sill, Okla., and Stuttgart, Germany. While in Europe he appeared as soloist and accompanist throughout Southern Germany under the auspices of the 7th Army Special Service.

Mr. Bossart's career in music began at the age of 11 when he was accompanied for a male chorus in his home town, Erie, Pa. Later he was a scholarship student in accompanying at Curtis Institute of Music in Philadelphia where he

became associated with famed leader singer, Mme. Elizabeth Schuman, who assisted in launching his career as a concert accompanist.

TOURS WITH ARTISTS
In 1946, after service in the South Pacific during World War II, Mr. Bossart embarked on a tour of America, Canada, Europe, South America and the West Indies with such outstanding personalities as Mario Lanza, Charles Kullman, James Melton and Eleanor Steber. In 1949 he became exclusive accompanist for Gladys Swarthout. He joined the U-M faculty in 1954.

In the spring of 1962 Mr. Bossart will perform the entire piano and viola sonatas of Beethoven on the U. of M. campus.

Tuesday's program will include the selections "Prelude and Gigue," by Zippoli; "Organ Prelude (Toccata)," Bach; and "Duetto Concertante," Mozart-Busoni.

Musical members also will hear the duo-pianists play "Romance," from "Second Suite, Opus 27," Rachmaninoff; "Sonata," and "L'Embarquement pour Cythere," by Poulenc.

"Variation of theme of Haydn, Opus 56 B," by Brahms and "Scaramouche," by Milhaud, will conclude the program.

CHARLES FISHER AND EUGENE BOSSART

Feneleys to Mark 65th Anniversary

Mr. and Mrs. Bert Feneley of Charlotte Street whose 65th wedding anniversary is today will celebrate the occasion at an open house Sunday.

The affair will be from 3 to 6 p.m. in the Lotus Lake Drive home of the couple's son, Homer Feneley.

Mr. and Mrs. Feneley have another son Gene who resides on Ellwood Avenue seven grandchildren and 17 great-grandchildren.

Hosts Iota Eta Chapter

Mrs. Burt Buhl was hostess for a meeting of Iota Eta Chapter, Pi Omicron National Sorority, Thursday evening in Hotel Waldron.

Members discussed coming events and appointed Mrs. Leon Skelley, Mrs. Lewis Egerer and Mrs. Elma Haines to the nominating committee.

On the group's calendar for April is a meeting of the Pontiac Council of Pi Omicron April 13 at the Young Women's Christian Association with W. Cadman Frost, friend of the court, as guest speaker.

A Michigan state board meeting of the sorority is slated April 15

in Bay City, and on April 17 Mrs. Paul Hoskins and Mrs. Burt will represent the chapter at the "Miss Centennial" contest committee meeting in Ed's Temple.

Mrs. Joseph Cummings of Illinois Avenue will be hostess for the next meeting.

Canada's official emblem is the maple leaf.

Men, Heed Dress Tips

Regular, Portly, or Stout?

By JOSEPHINE LOWMAN
Once in a while I like to write especially for the men who read this column, and I've been thinking lately about the importance of correct and attractive dress for men.

Good grooming and appropriate dress play a definite part in a man's success in business and society. These assets even can help a limping marriage and add glamor to a fine one.

Yet I feel sure that many men do not even know their right classification and size much less which styles are best. With this in mind I consulted the American Institute of Men's and Boy's Wear, an educational organization in the male apparel field.

CAN BE FITTED

It seems that a man can be fitted in every town and every city, to a ready-made suit, at a moderate price, no matter what his body proportions.

In larger cities there are men's apparel retailers who carry nothing but odd sizes, just as some women's stores specialize in clothes for the unusually tall or short or plump woman.

Even in small towns store managers will cooperate and order for you from one of the numerous manufacturers who concentrate on unusual sizes. No matter whether your husband is rotund and short, pear-shaped or a tall, beanpole size, he can be fitted. One manufacturer who specializes in odd sizes makes clothes in 253 different sizes.

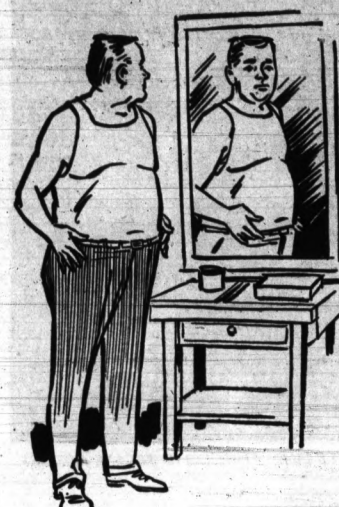

According to the Institute of Men's and Boy's Wear the clue to the basic sizes is the ratio between the waist and the chest measurements.

If a man's chest measures from 5 to 7 inches more than his waist and he is anywhere from 5 feet, 7½ inches tall to 5 feet 10 inches tall he is a "regular" size.

This 5 to 7 inch difference between chest and waist runs through all sizes from short and extra short to long, medium long, and extra long (6 feet and 5 inches).

If a man's waist is only 3 inches smaller than his chest, then he is in the "portly" class. There are portly, short portly and long portly, all distinguished by this 3-inch difference between chest and waist.

Now if a man's waist measure has caught up with his chest, he's no longer portly, he's just plain fat, or "stout." There are stout who are short, medium and tall. But

'Tis sad but true—if a man's waist measure has caught up with his chest, he's no longer portly; he's just plain fat.

again this classification depends on the ratio of chest to waist.

If you would like to graduate from a stout to a portly, or a portly to a regular, you may want my Tubby Hubby diet which gives you a loss of from seven to 12 pounds in 12 days' time. If so, send 10 cents and a stamped, self-addressed envelope with your request for the Tubby Hubby book. Address Josephine Lowman in care of The Pontiac Press.

39 Club Will Meet

The Friendly 39 and Up Club has scheduled a meeting Tuesday in the Malta Temple on Perkins Street.

Mrs. Eva Witmaker of East Pike Street, publicity chairman, has announced that guests will be welcome at the meeting. Members met Tuesday at the temple for dancing and refreshments.

Ten More Welcomed by Tipacon

Robert Templin, Pontiac's assistant prosecuting attorney, summarized his duties and described some of the cases his office handles at Wednesday's meeting of Tipacon Chapter, American Business Women's Association.

A vocational talk by Mrs. Lillian Morts, laboratory technician at the Physician's Laboratory in Pontiac was also on the program, presented in the Hotel Waldorf.

Enrollment of members concluded the evening. Joining the chapter were Mrs. James Patterson, Mrs. Elizabeth Hunt, Mrs. Donald Roscoe, Gail Hosper and Mrs. Cannel Duncan.

Louise Tucker, Mrs. Lawrence Murphy, Mrs. Virginia Dixon, Mrs. Clarence Gauthier and Mrs. James Donaldson also were received to membership.

Vera Rice and Natalie Gunther also were guests of the group. Plans have been completed for a boss night April 19 at Edgewood Country Club.

Garden Club Election Set

Officers for Bloomfield Hills Branch, Woman's National Farm and Garden Association, will be elected at the 32nd annual meeting Monday at 1:30 p.m. in the home of Mrs. Carl J. Snyder, of Pembroke Road. The program will include the lecture "Flowers of the World" by Mrs. John F. Carrick of Pleasant Ridge, well-known for her talk on "Flowers of the Bible."

Tea hostesses will be Mrs. Henry W. Van Vurst and Mrs. Lester Colman.

Complete Plans for Annual Card Party

Iraq Calderon No. 70, Daughters of Mikama, met Wednesday evening at Pontiac Federal Savings and Loan Building.

Plans were completed for the annual card party April 27 in the club room at the building.

Founders' Day will be celebrated at the May meeting and a rummage sale in Waterford's Community Center Building, is set for May 6.

Hostesses for the evening were Mrs. Russell Woodbury, Mrs. Lynn V. Sherwood and Mrs. Victor O. Bodamer.

City Women Attend Music Convention

Mrs. William Heitsch and Mrs. Lester Snell joined some 150 music teachers from private studios, colleges and universities at the Michigan Music Teachers Association annual spring convention in Kalamazoo this week.

The convention offered discussion meetings covering the study of piano, organ, voice, string and wind instruments, music theory and composition.

Mrs. Heitsch is president of the Pontiac Music Guild, and Mrs. Snell is a member of the State Board of Certification.

Bunny 'Fur' Her

The little shoulder cape made of white bunny fur is a fine solution for the teen-ager who wants an evening wrap. Good all spring long, too.

Try Understanding Parent for a Change

By MRS. MURIEL LAWRENCE

Newspaper Enterprise Assn.

Dear Mrs. Lawrence:
Our son, Earle, is 16—he is a Saturday job that pays him \$10. With his allowance, he has \$13 spending money a week.

His father thinks it is too much. Last weekend after Earle came home from seeing some friends, his father said he was cutting off

his allowance to make him pay for his good times by himself.

I've tried to make him see that this is punishing Earle for holding a job. But he seems unable to understand the boy's point of view.

ANSWER: Then maybe the boy could try to understand his. My, what a pleasant innovation that would be! Look, Earle. Parents don't hurt

children deliberately. Your father didn't sit down and think, "Now how can I best frustrate this son of mine?" What mistakes we make are made not out of hate of you but out of fear that we aren't doing better by you.

Nor does your father take this attitude toward your money the way he puts on a new hat. He takes it because he can't help it.

It was made for him by your grandparents' attitude toward his money.

YOUNG HURTS

They probably gave him very little. Do you know much about his boyhood? If he had little money, that meant humiliations, hurts and envious, didn't it? If they were really bad ones, they would have led him to the conclusion I think he's made.

To remember those young hurts without too much pain, he's concluded that they were fine—that they taught him independence, thrift and other excellent lessons. When we've been hurt more cruelly than we dare to remember, we all comfort ourselves by imagining it did as good.

Now, mistakes or misunderstandings in his idea of good, he is trying to pass on that good to you.

I have an idea. I'd like you to make your father a proposition. Why don't you go to him, not as an enemy but as someone who's trying to do you good, and offer to put aside a portion of your \$13 every week for the purchase of some other unexcusable practical item your father would ordinarily buy for you?

What he's seeking is not a victim but evidence that you can spend money for things other than fun. He hasn't had much. He doesn't know how nice it can be. Try and understand it, Earle. It shouldn't be too hard.

Bert Convy Knows Too Well

Rock 'n' Roll Idols Soon Fade

By JAMES BACON
HOLLYWOOD (AP) — Nothing in life is so short and precarious as the fame of the modern rock 'n' roll idols. They become overnight sensations at the malted milk age and topple into obscurity by voting age.

Ask Bert Convy, who is making a comeback at 26.

His first taste of fame was not strictly show business. The Philadelphia Phillies signed him as a bonus baby out of North Hollywood High School. For two seasons he played first base with Philly farm clubs in Kansas and Oklahoma.

Bert was headed toward the big leagues but the jukebox outscored the pitcher's box. He spent his winter months attending UCLA.

There, with two college friends, he organized a rock 'n' roll trio called "The Cheers."

Their first record was called "Need Your Lovin'."

"JUST LOUSY ENOUGH"

"We were just lucky enough to become a hit as rock 'n' rollers," Bert recalls.

Next came a recording of "Black Denim Trousers," a mul-

lion-seller record that provoked nationwide speeches on juvenile delinquency.

Sid Caesar burlesqued them on his TV show. "The Cheers" played top night spots at New York's Copacabana, Chicago's Chez Paree and Hollywood's Crescendo.

"The Cheers" were made, or so Bert thought. Baseball became merely a spectator sport.

THEN, OBLIVION

"My cut of the act was \$1,000 a week, and here I was barely old enough to vote," Bert says.

Then along came Bobby Darin, Fabian, Frankie Avalon, the Haircuts, the Crewcuts and a dozen other favorites the kids idolized. Suddenly, we had outgrown our fans."

Convy said within a year his money was gone and he had to take a job ushering at CBS Television City for \$3 a week—a has-been at 23.

One day while showing the TV audience to their seats for the Art Linkletter show, Bert cornered Muzzy Marcellino, Linkletter's musical director.

"I had written a song and Mus-

zy was polite enough to give me a listen. I knew he had been pressured by every employer of CBS who thought he was a song writer."

From Linkletter, Bert graduated to "The Billy Barnes Revue," which went from Hollywood to Broadway.

Bert got good critical notices—but he had learned a lesson. He studied acting during the day.

Now he has just finished his first movie, "Susan Slade," at Warner Bros. It looks as if the third-comeback may be the last.

Swainson Announces 2 Minor Appointments

LANSING (AP) — Two minor appointments were announced today by Gov. Swainson.

Ira McNeal of Grand Rapids was named to the State Public School Employees Retirement Board to succeed Jessie I. Baxter of Lincoln Park for a term expiring March 1, 1961.

Carl W. Morris of Romulus was named to the State Tenure Commission to succeed Roger E. Craig of Dearborn, resigned, for a term expiring Aug. 31, 1961.

Nature Offered Obstacle Course
Pontiac Ventura Just Like a Duck
The 1961 Pontiac Ventura is like a duck.
That's the description a traveling correspondent of Automotive News, weekly trade publication, came up with after a 2,000-mile test trip of the Ventura through Kentucky, Tennessee and parts of Georgia.
No man-made obstacle course or test track could rival the obstacle course set up by nature to test automotive performance—five days of continuous rain and flooding, according to the correspondent, L. H. Houck.
"For all the difference it made to the 1961 Ventura, it might as well have been a duck," Houck said.
Calling the car "sporty and fast," he said, "The newly-designed Hydra-Matic transmission was so well adjusted that you hardly noticed the city streets that are suffering from hardening of the arteries."

ACCESSORIES IMPORTANT
Almost as important as engine and tires in the five-day rain, he said, were the defroster push button, two-speed electric windshield wipers, and an outside rear view mirror with remote control.
The Ventura, cruised in all

Houck stated that "some of the rigging is worth as much as the hull" in inclement weather.
The model tested was a two-door hardtop sports coupe.
The report of the Ventura's performance was one of a series of Automotive News articles designed to explore the selling features of American cars.

weather at 70 m.p.h. with just a cracked "bottle" and "it soon tells you that there's plenty more where that came from," Houck reported.
Remember when you could run a household on what a teen-ager's weekly allowance amounts to today? . . . A bachelor, according to one definition is a man who has nobody to contradict him when he's right. — Earl Wilson.

BURGLARY SUSPECTS — Overtime child film star Bobby Driscoll, 24, (left) and Mrs. Suzanne Stanbury, 24, are shown in a Malibu, Calif., police station where they were booked on suspicion of burglary. Police said a car identified through a license number as Mrs. Stanbury's was seen leaving an animal clinic where \$450 was stolen Tuesday night. Driscoll called his arrest a "bum beef."

Big Rise in Disease Made Over Easter
Easter vacation may have brought joy to many families in the area but it also brought a sharp increase in communicable diseases according to the Pontiac and Oakland County Health Departments.
Among the three leaders, mumps, measles and chicken pox, there was a total of 567 new cases reported last week as compared to 301 the preceding week.
Last week there were 218 new cases of mumps in the county including 63 in Pontiac. During the week ending March 25, the total was 126, including 35 in Pontiac.
Percentage-wise, measles increased the most in Pontiac. New cases went from 4 to two weeks ago to 18 last week. In the county they were up from 95 to 133 last week.
Chicken pox fared no better. A total of 108 new cases were reported last week. Pontiac accounted for 23 of them.
The week before, Pontiac reported 18 new cases and the county 28, for a total of only 78.
In Pontiac, there was one new case of scarlet fever reported

Week Ending April 1 March 25

Chicken pox	108	78
Mumps	218	126
Measles	24	18
Scarlet fever	7	2
Rubella	1	0
Typhoid fever	0	0

Indonesia's tobacco production increased from 55,000 tons in 1950 to 78,000 tons in 1959.

Japanese Finding Fault With 'Weak' Reactor
TOKYO (AP)—Japanese atomic experts today expressed regret at buying an atomic reactor from the American Machine & Foundry Co.
The scientists told a parliamentary committee the 10,000-kilowatt reactor was putting out only 1,000 kilowatts of power. One scientist said he thought it was capable of reaching 3,000 kilowatts.
A spokesman for the company said the problem was with the fuel which the institute purchased independently.

Brace for New
Reign of Terror
Novi Man Arrested,
Quizzed on Break-Ins

French, Algerians Both
Fear Worst as Killing,
Bombings Increase

PARIS (AP)—Frenchmen and Algerians on both sides of the Mediterranean brace for a new reign of terror today as killings and bombings increased after the collapse of hopes for immediate negotiations to end the Algerian rebellion.

Paris police hunted an Algerian execution squad that carried out the hit-and-run war between rival rebel factions into a suburban hospital Thursday, killing 2 persons and wounding 12.

In Algiers the U. S. Consulate was bombed after it closed for the day and an attempt was made to burn the U. S. Cultural Center. Both attacks were attributed to French rightists protesting U. S. moves to get peace talks started between the French and the Algerian rebels.

REFUSE TO MEET

Negotiations between the rebels and the French were to have started today in Evian-les-Bains. But the chief rebel group, the National Liberation Front (FLN), refused to meet after the French announced they would hold simultaneous negotiations with a rival rebel group, the National Liberation Movement (MNA). The French rejected the FLN demand that it be designated chief spokesman for the Algerian Nationalists.

ROKs, Reds Trade Fire

SEOUL, South Korea (AP)—Two South Korean navy patrol boats exchanged fire today with eight Communist North Korean vessels off the eastern coast, the navy reported. A navy spokesman said the South Korean ships suffered no damage or casualties and there was no information on damage to the North Korean vessels.

Red Sails Ship to Sweden,
Asks for Political Asylum

HEMSEN, Sweden (UPI)—The captain of a 20-ton Soviet submarine tender sailed his ship into Swedish waters Thursday night and asked for political asylum, police said today.

But a spokesman for Sweden's supreme command said none of the ship's nine-man crew had sought asylum with the skipper so far. They stayed aboard the "gray-painted vessel while the captain, a Lithuanian-born lieutenant about 40 years old, went ashore.

Swedish authorities did not immediately identify the defector. There was no early announcement of whether he was granted asylum.

There were reports that a Soviet submarine followed or chased the tender. But Maj. G. Westerlund of the Supreme Command said "There is nothing to confirm these reports."

The Swedish Supreme Command said the tender dropped anchor near Naer's lighthouse on Gotland at 10:45 (4:45 Pontiac time) Thursday.

The Coast Guard was immediately alerted and a customs patrol cruiser went out to the Soviet vessel, a spokesman said. Three Swedish torpedo boats were dispatched to find the submarine if possible.

END, OR BEGINNING?
Police said the tender's commander came ashore and asked political asylum. They said he spoke in German.

Admits Break-In
After Reading Up
on Lie Tests

A 20-year-old Pontiac youth admitted to Pontiac police that he broke into a beauty salon and took \$50 — after going to the Pontiac City Library and reading up on lie-detector tests.

"I guess after what I learned from books about those machines I might as well admit I did it," Lt. Raymond E. Meggit, detective, bureau commander, quoted Galen L. Randolph, 20, 230 N. Paddock St., as saying.

Randolph waived examination yesterday before Municipal Judge Cecil McCallum on a charge of breaking and entering Murray's Beauty Salon, 105 N. Saginaw St. early Thursday.

He was released pending Circuit Court arraignment April 10.

subdivision in Avon Township was reported yesterday.

Detectives also are investigating the theft of several bottles of liquor, cigars and cigarettes during a break-in at the Multi Lakes Conservation Club, 2600 Newton Road, last night.

Thieves stole a '35 Ford motor, several cartons of cigarettes and cans of oil last night during a break-in at the Cooper Shell Service Station, 1051 Highland Road in White Lake Township.

A break-in at Leon's Drive-In at 381 S. Millford Road in Holly Township netted thieves \$35 in cash and various foodstuffs.

Willard Charles of 633 Hickory Road in Highland Township reported the theft of farm equipment valued at \$100 from his property yesterday.

Area Family of Nine
Left Homeless by Fire

A Washington Township family of nine, including seven children, was left homeless today when fire gutted their two-story frame farmhouse shortly before noon.

Alfred Earles, 50, of 12550 30 Mile Road, his wife, Goldie, and their family lost all of their personal belongings and furniture in the blaze.

It was started by a defective chimney, according to Romeo state police.

Plans to Extend Gas
to Eight Communities

DETROIT (AP)—Michigan Consolidated Gas Co. said Thursday it plans to spend \$1,010,500 to extend natural gas service to eight more communities if it obtains franchises in them.

The utility said it planned to extend service to Willis, Kent City, Hart, Shelby, Grant, Paris, Maunton, and Kingsley.

Hugh C. Daly, executive vice president, said 44 miles of distribution and supply mains and 20 miles of service piping would be constructed to serve an estimated 1,500 customers in the first year of operation.

He added service was expected to begin before "the heating season begins next fall."

The first car ferry is believed to have been put into use in Scotland on the Firth of Forth in about 1849.

\$440,000 Boost Asked for Waterford Schools

The 1961-62 Waterford Township Board of Education budget, approved at a special meeting this week, calls for an operational increase of some \$440,000 over the previous fiscal year's budget of \$4,506,380.

The budget, proposed by the school board is subject to the approval of the Oakland County Allocation Board and will be returned to the township board of education sometime in May.

If approved, it would take about two mills to gain the increase.

However, Supt. of Schools William A. Shueck said, "an increase in the township's assessed valuation as equalized would reduce the two mills. This cannot be spelled out too closely at this time, until we have the allocation board's decision."

REASONS FOR HIKE

Reasons for \$443,998 hike include

Polio Shots Needed by 85 Million in U.S.

WASHINGTON (AP)—Dr. Luther L. Terry, Public Health Service surgeon general, Thursday estimated that 85 million Americans need vaccination against polio.

Terry launched the 5th annual polio vaccination campaign with a plea for local communities to take leadership in vaccination drives.

Joining Terry in a news conference to emphasize that the Salk polio vaccine is about 95 or 96 per cent effective and should be used by all who have not been vaccinated, were Dr. Edgar Martin and Basil O'Connor.

Martner is past president of the American Academy of Pediatrics and represented the American Medical Association. O'Connor is president of the National Foundation, which helped finance the work which led to the development of Salk vaccine.

To Take Postal Position

WASHINGTON (AP)—Thomas A. Dowell will be installed as acting postmaster at Battle Creek, Mich., on April 14. Sen. Patrick McNamara, D-Mich., said Friday.

the opening of two elementary, and one senior high school and pay in state aid, and the balance in state primary, distressed aid, library funds, and other revenue.

With Waterford Township's state equalized valuation set at about \$80 million, the school system this year received \$1,317,400 in current and delinquent tax collections, or 8.26 of the allocated 15 mills.

Some \$2 million was received in state aid, and the balance in state primary, distressed aid, library funds, and other revenue.

The largest item in the budget earmarked for increase is instruction, at \$3,576,362, or \$316,737 more than this year. This includes salaries for 18 new teachers, two elementary principals, a high school principal, additional clerks, textbooks, library and visual aids.

Detroit Tax Committee Agrees on 3 Points

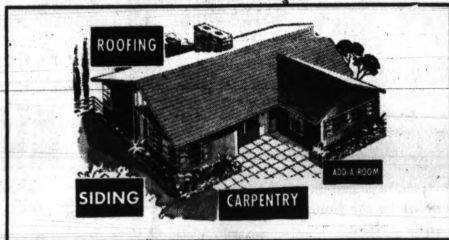

DETROIT (AP)—Detroit's City Council-appointed citizens income tax committee has agreed on three of the 14 points of a questionnaire to be used as a guide in drawing up an ordinance on a proposed city income tax.

The areas of agreement: (1) The most desirable answer to Detroit's fiscal problems would be to have them solved on a state or county level. (2) An income tax, if one becomes necessary, should be a piggy-back tax on top of the federal income tax with \$1,000 personal exemptions. (3) \$30 million additional revenue should be raised by the tax.

Serve Teen-Age Party Snacks That Are Way Out

THREE COLORS

Get out the latest popular records, ice up some soft drinks and lay in large quantities of food. You're giving a teen-age party! When you think you have enough food, double the amounts. You're not entertaining your women friends.

Let your own teen-agers prepare the food. They're sure to approve of Peppy Hamburger Pizza for a main course. It's a new way of combining two of their favorite foods.

Have large quantities of nibble food and provide a bowl of Sour Cream Onion Dip for dunking the fresh vegetables.

For dessert, what could be better than an ice cream "bar"? Surround a generous mound of vanilla ice cream with all the fixin's, including luscious butterscotch and chocolate sauces.

Have the adult members of the family retire to the far end of the house and let the adolescents take over. Suggest they do the clean-up job too.

PEPPY HAMBURGER PIZZA

Crust:
1 envelope dry yeast
1 cup warm water (110 to 115 F.)
1/2 teaspoon salt
1 1/2 cups sifted all-purpose flour

Soften yeast in warm water. Add salt. Stir in 2 cups of the flour. Turn out onto a lightly floured board and gradually knead in remaining flour. Knead until smooth.

Cranberry Date Pudding Is Nice

To really enjoy that first spring hike, take along something good to nibble on between stars.

You might follow the U.S. Department of Agriculture's suggestion and make it a package or two of those fresh California-dates that are in such plentiful supply. They are rich in energy and ready to eat right from the package.

You'll love the excellent flavor of these dates, a flavor which has been improved over the years by California's scientific culture. They are juicy too, and not sticky.

Dates are perfect for fruit bowls, gift baskets and as additions to cakes, cookies and breads. And here's a pudding that combines cranberries with dates for mighty good eating anytime.

The recipe calls for one cup each of whole cranberry sauce and chopped dates. Blend in half cup of flour, teaspoon of baking powder and a half teaspoon of salt. Separate three eggs and beat whites and yolks, adding 1/4 cup of sugar and a teaspoon of vanilla to the yolks while beating. Then stir in the fruit and flour mixture.

Pour into well greased baking pan and bake at 325 degrees for about 45 minutes. Cut into squares and serve with whipped cream.

Bacon Noodle Dish Includes Cabbage

Of the many ways to make use of the big cabbage supplies, one of the most delightful is in a CABBAGE-NOODLE POTPOURRI, prepared like this:

Beat 2 eggs, add 2 cups sifted flour, a dash of salt and 2 table-spoons of water. Knead the mixture on a lightly floured board making a smooth, stiff noodle dough. Roll it very thin, then cut each side dry a little, and cup into 1-inch squares.

Fry 1/2 pound dried bacon until crisp, then remove it to drain. Brown a small chopped onion in the bacon fat, and add 2 pounds of coarsely shredded cabbage, pepper, paprika and a bit of salt. Cover and cook until tender, about 15 to 20 minutes.

Meanwhile, cook the noodles in boiling salted water until tender; drain, and mix with the cabbage and bacon in a serving dish.

and satiny. Cover and let rise in a warm place (80 to 85 F.) until double in bulk. Punch down dough. Place on floured board and pound lightly with a rolling pin to deflate. Cover and let rise 30 minutes.

Roll and stretch dough to 1/4-inch thickness in a 12-inch circle. Place on a lightly oiled baking sheet. Bake in a preheated very hot oven (450 F.) for 10 minutes or until about half done.

Hamburger:
1 1/2 pounds ground meat
1/2 teaspoon salt
1/2 teaspoon ground black pepper
1/2 cup soft bread crumbs
2 eggs, beaten

Combine all ingredients for hamburger and shape into an 11-inch circle about 3/4-inch thick. Place broiler rack covered with foil. Punch holes in foil to permit drainage of excess fat. Broil 3 to 4 inches from the source of the heat, turning to brown both sides. Total cooking time is 10 to 12 minutes. Slide onto partially-cooked pizza crust and top with tomato sauce.

Tomato Sauce:
1 cup tomato paste
1 tablespoon tomato paste
1/2 teaspoon salt
1/2 teaspoon garlic powder
1/2 teaspoon onion powder
1/2 teaspoon oregano leaves
1/2 teaspoon ground black pepper
Olive oil

2 mushrooms, sliced and sautéed. Combine the first 8 ingredients for the sauce. Spread sauce on top of hamburger. Place in a very hot oven (450 F.) for 5 minutes. Sprinkle with Parmesan cheese and serve hot, garnished with sliced olives and sautéed mushrooms. Yield: 8 servings.

Teens Concoct Shakes With Chocolate Mix, Milk

It's reassuring to know that teen-agers have some tastes of which a parent can wholeheartedly approve. Among these is their taste for milk drinks, the chocolate milkshake outstanding among them. Teen-agers like a chocolate milkshake for good reasons: It has a rich flavor, it is cold, and there's lots of it. Parents can approve of it for equally good reasons: It provides ready energy and a good portion of the milk that every teen-ager needs.

The basic chocolate flavor of a milkshake may be varied or elaborated according to taste. Stir in marshmallow cream to make a chocolate malt milkshake, and top each serving with a spoonful of good measure.

Go Caribbean and create a calypso milkshake, with mashed ripe bananas mixed into the milk and chocolate combination. Or make a minty way milkshake, pepped up with a little peppermint flavor added to the chocolate, and a peppermint swirl stick in each glass.

Don't be alarmed if the teen-agers have a few ideas of their own about what to add to a chocolate milkshake. The ideas may sound strange to you, but bear in mind that teen-agers like nothing better than to experiment. Every experiment they make along these

ROUSE CREAM ONION DIP
2 1/2-ounce packages cream cheese
1/2 cup cream
1/2 cup onion, finely chopped
1/2 cup chives, finely chopped
1/2 cup butter, melted

Combine the first five ingredients and mix until smooth. Turn into serving dish. Garnish with chopped parsley. Serve as a dip for fresh vegetable sticks, crackers or potato chips. Yield: 1 cup.

VANILLA BUTTERSCOTCH SAUCE
3 cups light brown sugar
1/2 cup light corn syrup
1/2 cup water
1/2 teaspoon salt
1/2 cup butter or margarine
2 teaspoons pure vanilla extract

Combine sugar, corn syrup, water and salt in a saucepan. Mix well. Cook, without stirring over moderate heat, after boiling point is reached, to medium thickness, 20 to 25 minutes. Add 1/4 cup butter or margarine. Cool. Stir in pure vanilla extract. Serve over ice cream. Yield: 1 1/2 cups.

VANILLA CHOCOLATE SAUCE
3 squares unsweetened chocolate
1/2 cup butter or margarine
1/2 cup light corn syrup
1/2 cup water
1/2 teaspoon salt
1/2 cup hot water
2 teaspoons pure vanilla extract

Melt chocolate and butter or margarine over low heat in a saucepan, stirring frequently. Blend in corn syrup, sugar and salt. Gradually add water and bring to boiling point and boil slowly 4 to 5 minutes, stirring constantly. Remove from heat and stir in pure vanilla extract. Serve over ice cream. Yield: Approximately 1 1/2 cups.

lines is bound to be an experiment in good nourishment.

Dreamy Chocolate Milk Shake
1/2 cup extra chocolate-flavored mix
1/2 quart (4 cups) milk

Combine quick chocolate-flavored mix and milk in a 1 1/2-quart refrigerator container. Stir until smooth. Chill. Shake well before serving. Yield: 4 servings.

VARIATIONS: 1. Chocolate Malt Milk Shake: Measure quick chocolate-flavored mix into container. Add 1/3 cup marshmallow cream. Add 1 tablespoon of the milk; blend until smooth. Fill container with remaining milk, stirring briskly. Garnish each serving with a spoonful of additional marshmallow cream.

2. Calypso Milk Shake: Combine 2 mashed ripe bananas with chocolate milk mixture in container. Stir to blend. If desired, top each serving with banana slices.

3. Choco-Peanut Milk Shake: Blend together 3 tablespoons cream-style peanut butter and 1/4 cup of the milk. Place in container. Add remaining milk and a quick chocolate-flavored mix. Stir to blend.

4. Minty Way Milk Shake: Add 1/4 teaspoon peppermint flavoring to chocolate-milk mixture in container. If desired, stir each serving with a peppermint stick.

Grandma Never Made Ice Cream So Easily

It is an amazing thing to compare a recipe from a cookbook of 75 years ago with one of today. It gives you a good idea of how streamlined and simplified life has become for the lady in the galley.

Take an ice cream recipe, for example. Several decades ago it was a major production to make a quart of vanilla ice cream. The ingredients alone would stagger you — 8 eggs, 4 cups of sugar, 1 quart of milk, 3 pints of rich cream, 5 tablespoons of vanilla. (You could spend a small fortune right there.) Then you got out the pans and ice rock salt and after beating up all the ingredients a couple of times packed it and covered it with a heavy carpet or mat and let it be for 5 or 6 hours.

Compare the above with a magically easy modern recipe for a delicious vanilla ice cream made with sweetened condensed milk. Even a child could make this successfully. First step is to set the refrigerator control at the coldest point.

Then combine 2/3 cup of sweetened condensed milk, 1/2 cup water and 1/2 teaspoon vanilla extract. Chill. Next whip 1 cup heavy cream to custard-like consistency and fold into the chilled mixture. Then pour into freezing tray and cover with waxed paper.

Freeze to a firm mush, about 1 hour. Turn into a chilled bowl. Break up with a fork, then beat with a rotary beater until fluffy but not melted. Quickly return it to a tray, cover with waxed paper and return to freezing unit. Freeze until firm.

Chocolate Chip Ice Cream
1/2 cup (1/2 lb.-oz. can) sweetened condensed milk
1/2 cup water
1/2 teaspoon vanilla extract
1/2 cup semi-sweet chocolate pieces, chopped
1 cup heavy cream

Set refrigerator control at coldest point. Combine sweetened condensed milk, water, vanilla and chocolate. Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Pour into freezing tray. Cover tray with waxed paper.

Freeze to a firm mush, about 1 hour. Turn into chilled bowl. Break up with a fork, then beat with rotary beater until fluffy but not melted. Quickly return to tray, cover with waxed paper and return to freezing unit. Freeze until firm.

Old Scout Dessert Long Been Popular

Kids make these treats over an outdoor fire. They can be baked in a slow oven. Just remember that coconut burns easily.

Have a plate ready for guests to help themselves.

Coconut Angel Fingers
1 right-ounce unbleached cake
1 1/2-ounce can sweetened condensed milk
1 1/2-ounce package or can of shredded coconut

Rub brown crust from cake with fingers. Cut cake into 1/4-inch "finger" pieces. Dip cake fingers into condensed milk. Roll in coconut and place on greased baking sheet. Bake in a slow oven (325 degrees F.), about 20 minutes, or until lightly browned. Remove from baking sheet after a minute or two (when firm), and cool on cake racks. Makes about 4 dozen.

Coffee Ice Cream
1/2 cup (1/2 lb.-oz. can) sweetened condensed milk
1/2 cup strong black coffee
1/2 cup heavy cream

Set refrigerator control at coldest point. Combine sweetened condensed milk, coffee and vanilla. Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Pour into freezing tray. Cover tray with waxed paper.

Freeze to a firm mush, about 1 hour. Turn into chilled bowl. Break up with a fork, then beat with rotary beater until fluffy but not melted. Quickly return to tray, cover with waxed paper and return to freezing unit. Freeze until firm.

STUFFED FRANKS — Cream up a batch of relish butter for the gang to spread in split frankfurters. This tangy mixture has onions, pickle relish and herbs in it. Cradle the stuffed hot

Corn Oil Recipes Offered

A new leaflet on quick breads, all made with corn oil, is now available free from: Quick Breads, Best Foods, Division Corn Products Company, 10 East 56 Street, New York 22, New York. Leaflet includes muffins, fruit and nut breads, corn bread, waffles, pan-cakes and doughnuts.

Fruited Tea Drink

For at-home dating in the spring, serve attractive Fruited Tea. To twelve 12-ounce glasses use 1 cup mixed blueberries and raspberries, 1/2 rounded teaspoons instant tea, and 1 1/2 cups cold water. Fill the glasses with alternate layers of berries and shaved ice. Stir in instant tea and water, add sugar if desired, and pour over fruit and ice.

Sandwiches Are Hearty Fare

The word "sandwich" can be extended to include such extremes as hors d'oeuvres and amorgorsbord. And somewhere in between is that plump favorite of hearty eaters now popularly known as the "man" sandwich.

Put 3 slices of buttered and toasted bread (white, rye, whole wheat or pumpernickel) together with one of the following fillings. Use No. 1 between first and second slices, No. 2 between second and third slices. If desired, spread slices with mayonnaise or salad dressing. Cut sandwiches into quarters, hold together with wooden picks.

FILLING COMBINATIONS

1-Sliced smoked tongue, pickle relish. 2-Sliced American cheese, lettuce. Serve with olives, carrot curls, water cress; egg salad stuffed tomato.

1-Chopped egg and bacon salad. 2-Sliced tomato, sweet-onion rings. Serve with sweet pickles, celery sticks; mixed green salad.

1-Tuna, crab, shrimp or lobster salad. 2-Sliced hard-cooked eggs, lettuce. Serve with radish roses, mustard pickles, coleslaw.

1-Peanut butter, crisp bacon slices. 2-Sliced tomato, water cress. Serve with watermelon pickles; mixed vegetable salad.

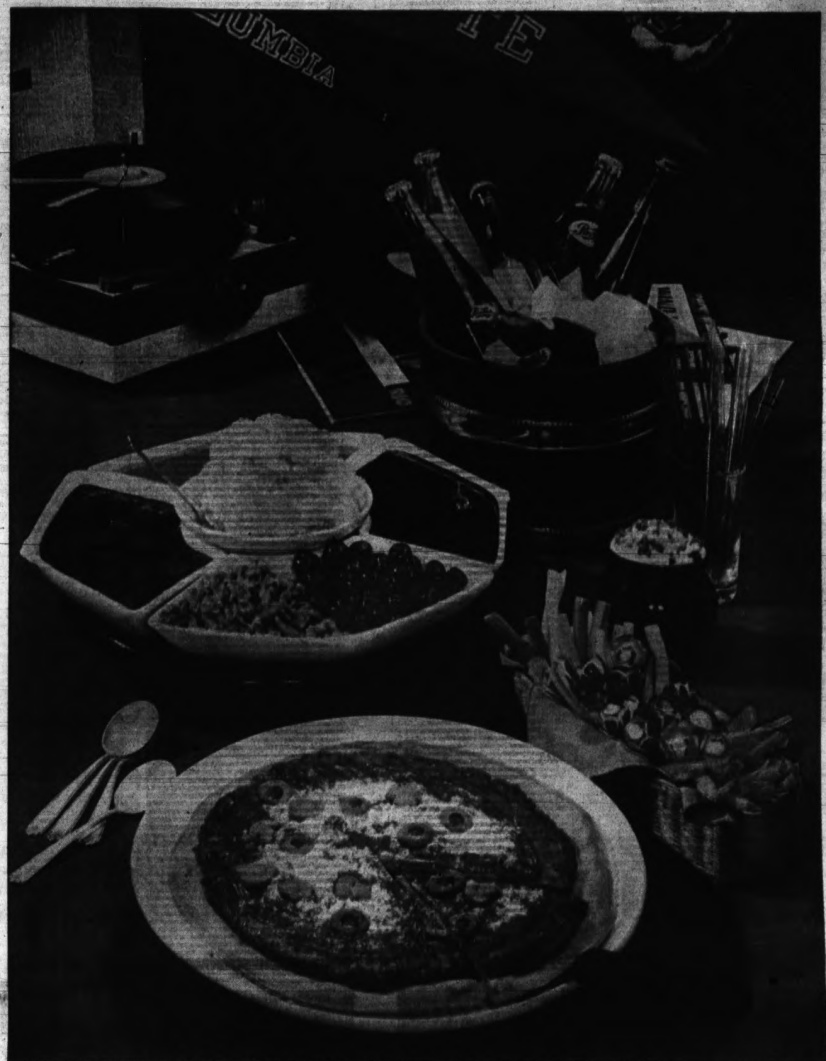

1-Sliced pork luncheon meat, mustard. 2-Smoky-cheese spread, chichory. Serve with green onions, carrot sticks; cucumbers in sour cream.

Keep Juice Covered

Frozen citrus juices will retain much of their ascorbic acid, or vitamin C content, if refrigerated in a tightly covered container. But home economists suggest quick usage after thawing.

Case for Peanut Oil

Peanut oil is ideal for frying. Because of its high smoke point (450 degrees), it does not scorch easily. It does not absorb flavors and can be used repeatedly.

PARTY FOOD FOR TEENS — Hamburger-Pizza, a novel idea that combines the best of two favorite teen-age snacks. With this, an onion dip for nutritious raw vegetables and a cold and peppy cola drink. Then, to wind up the festivities happily, give them the makings of their favorite sundae, amorgorsbord-style.

THERE'S A SONG IN THE AIR — a record on the player, musical notes on the cup cakes and a Dreamy Chocolate Milk Shake in the offering. What better way to keep the gang in a whirl than by serving the perfect combination

of food, music and a long cool drink? Let them make their own liquid combinations. You supply the quick chocolate-flavored mix, the milk and one or two extras, like bananas or peanut butter, and let them supply the melody.

NEWS OF THE AREA

To Break Ground for \$78,500 Church Building

Over 100 persons are expected to attend ground-breaking ceremonies for the Oxford Methodist Church's \$78,500 educational and social building at 12:30 p.m. Sunday.

Rev. Fred Clark, pastor, will officiate at the ceremony immediately following regular services at the church, located on East Burdick Street just east of Washington Street.

When it is completed in six months, the new two-story brick veneer structure will contain six classrooms and a utility area on the first level and a kitchen and Fellowship Hall on the second floor.

Additional educational rooms will be built as the second phase in the church's construction project after the first unit is completed.

The second unit of the facility, which is to be erected on the grounds behind the present church building, will be constructed when more funds are available. The congregation includes a membership of about 200.

Council Elects Mrs. Shafer

Davisburg Woman Will Assume Duties of Extension Chairman

Mrs. Gerald Shafer, 10323 Rattles Lake Road, Davisburg, has been elected chairman of the Oakland County Home Economics Extension Council. She will assume her duties at the annual meeting in August.

Elected with her were Mrs. Herman Trout, Troy, vice chairman; Mrs. Robert Sanford, Lake Orion, secretary; Mrs. Claire Johnson, Waterford, community chairman; Mrs. Ora Porritt, Lake Orion, safety and health chairman; Mrs. Edward Schultz, Davisburg, recreation chairman and Mrs. William Bergeman, Waterford, publicity chairman.

In other business Wednesday the council approved final plans for the first Achievement Day tea to be held May 3 at the Waterford Activities Building and for a bus tour of Midland and the Dow chemical plant on June 6 and 7.

Also favored was a new venture, called Craft Days slated for May 18 and 19 at Avon Park Pavilion, Rochester. It replaces the usual overnight camp.

A picnic for past and present council officers is scheduled for June 14. The date has been changed from June 7 because of the tour. The organization's bylaws were altered to facilitate elections of representatives in the six districts before June 30 so the council will have its full membership for the annual meeting in August.

The districts are Independence, Orion, White Lake, North Waterford, South Waterford and Southfield.

Burroughs Man Retires

DETROIT (AP) — William C. Sproull, Burroughs Corp. director of advertising for the past 35 years, has retired after more than 40 years of service with the firm.

The State Highway Department said today the four local communities are Farmington, Franklin, Milford and Utica.

The department estimated the

PLAN CARD PARTY—Making final arrangements for their Mr. and Mrs. Card Party to be held at 8 p. m. tomorrow at the Al Hanoutte showroom are four members of the Lake Orion Garden Club, sponsoring the benefit. They are

(from left standing) Mrs. A. S. McNeil, hostess chairman, and Mrs. W. J. Andrews, club president. Seated are Mrs. H. J. Angeli Sr., general chairman, (left) and Mrs. J. J. Gough, publicity chairman.

4 Area Communities Lose Vehicle Funds

Four area communities are among 46 in the state whose share of the motor vehicle highway funds for the first quarter of 1961 will be withheld because they failed to submit annual reports on the use of the money they received last year.

The State Highway Department said today the four local communities are Farmington, Franklin, Milford and Utica.

The department estimated the

total of the money withheld from the 46 communities will be \$500,000.

The funds will be released to the communities as soon as they submit their annual reports required by law, the department said.

Dr. Boyd Will Speak

HOUGHTON (AP) — Dr. James Boyd, president of Copper Range Co., will be commencement speaker at the Michigan College of Mining and Technology, June 17.

Boyd will be awarded an honorary doctor of engineering degree.

Coin Club Is Planning Election and Auction

ROCHESTER — Officers for the coming year will be nominated at the Rochester Coin Club meeting Monday at 7:30 p.m. at the Avon Township Library.

Following the nominations, there will be an auction of rare coins. This phase of the evening program is open to the public.

Refreshments will be served. The club, which invites new members, meets the second and fourth Mondays of each month at the library.

GOP On Top in Pontiac Twp.

Dems Lose Stronghold

By DON FERMYLE — Pontiac Township — This former Democratic stronghold will be controlled by a Republican-dominated Township Board for the next four years.

The political turnaround was completed here yesterday when GOP candidate M. Wayne Devor won a seat on the township board from Democrat Richard F. Avery, Jr.

Avery, 31, a four-year incumbent, tied with Devor for a

trustee vacancy on the board in Monday's election. Each candidate received 616 votes.

However, Devor won the Trusteeship and control of the township swung to the Republicans yesterday when he picked a slip of paper marked "elected" from a container held by Township Supervisor Leroy Davis.

The victory by Devor, a 64-year-old retired General Motors Truck and Coach Division foreman, gave

the Republicans an almost clean sweep in the local election.

Davis was the only Democrat to win re-election Monday. He outpolled his GOP opponent

Leonard F. Terry, by a 122-to-63 vote margin.

Prior to the election the Democrats, who made impressive showings in the township's primary balloting, held five of the seven seats on the Township Board.

The edge was now 4 to 3 in favor of the Republicans.

WILL HAVE SUPPORT — Clerk Greta V. Block and Treasurer Goldie B. Malish, both longtime incumbents who were formerly the only Republicans on the board, now will have plenty of partisan support.

In addition to Devor's victory yesterday, Republican Kenneth E. Gidley won the other vacant trustee post in Monday's election by defeating Emory L. Mitchell,

a former township board member, 650 to 378.

Mrs. Block and Mrs. Malish had little trouble retaining their offices in the township. Both won by wide margins over their Democratic challengers.

Republican Justice of the Peace R. Grant Graham, another incumbent, also won easily and his fellow party members took over an opening on the board of review and four constable vacancies.

If Democrats are to regain their majority in the township, they will have to wait four years to do it.

At the next election two years from now, only two trustee posts will be up for grabs. Both of these positions are now held by Democrats, Mont. D. Bodman and George E. Lyle.

Bodman and Lyle were not up for re-election Monday. The terms of the newly elected township officials do not expire until 1965.

Clarenceville Schools Plan Science Fair

There will be exhibits from all elementary schools in the district and from various grade levels.

Supt. Louis E. Schmidt said at one time the event was part of the over-all science fair in the school district but several years ago, because of the interest and participation, it was necessary to separate the elementary and secondary school fair.

The science project will be open to the public from 7 to 9 p.m. The school is on Lathers Street, just north of 7-Mile Road.

PONTIAC PRESS PHOTO

THE WINNER! — A broad grin won by M. Wayne Devor leaves no doubt as to who won the draw for the Pontiac Township trusteeship. Devor displays the small piece of paper with the word "elected" written on it which gave him the victory in the tied trustee race.

Car Kills Man in Front of Home

Shelby Resident, 70, Dies When Struck on Van Dyke

SHELBY TOWNSHIP — James H. Morrison, about 70, of 52900 Van Dyke, was killed early today when he was struck by a car in front of his home.

A witness told Romeo Police that Morrison fell into the roadway just before he was struck by an auto driven by Earl C. Johnson, 27, of 57501 Van Dyke, Washington Township.

The accident occurred at 2:03 a.m.

Johnson told police that he saw the victim when he was only 15 to 20 feet away and was unable to stop in time to avoid hitting him.

The driver was not held but is to make a statement to the Macomb County prosecutor today.

Morrison, who was dead on arrival at St. Joseph Hospital, Mount Clemens, is believed to have been living alone.

Solons in Rhubarb (It's the Edible Kind)

LANSING (AP) — Legislators took time out here yesterday to recognize rhubarb as a major industry in Macomb County.

The Michigan Hothouse Rhubarb Growers Association descended on the capitol with free rhubarb for every legislator and a rhubarb pie for Gov. Swainson.

Also along was Rhubarb Queen Carroll Keeler, 17, a senior at Utica Community High School. She regaled over the sixth annual rhubarb festival Feb. 11 in Utica.

The growers said they wanted recognition of the \$1 million industry, citing the fact that the Macomb area is the capital of the rhubarb world.

Student Vicar to Speak

BROOKLANDS — Leo Burns, student vicar of Our Shepherd Lutheran Church, Birmingham, will deliver the sermon at a 6:30 p.m. open house service Sunday at Gethsemane Lutheran Church, 1829 Auburn Road.

Following the service, the Dorchester school where Burns is a student in the Fellowship Hall, Gethsemane Evangelical Society members will call on homes in the area Sunday afternoon.

Set \$10,000 Bond in Theft at Fruit Stand With Knife

SHELBY TOWNSHIP — Bonds of \$10,000 apiece were set yesterday in Macomb County Justice Court for two youths who allegedly held up a Shelby Township woman at knifepoint Wednesday night.

Standing mute in their hearings before Justice of the Peace Francis A. Castellucci were Curtis Beatty, 21, of 30 Cottage St., Pontiac, and Richard W. Beier, 20, of 2855 Middle Bell Road, Farmington.

Beatty and Beier, who were caught about half an hour after the robbery of Luigi's Fruit Stand

at 3671 Auburn Road, failed to meet their bonds and were returned to the Macomb County Jail.

They were bound over to Circuit Court for arraignment on charges of armed robbery. No date was set for their arraignments.

Center Line state police said the pair took about \$25 from a cash register in the fruit stand while holding a knife at the throat of the owner, Mrs. Madeline Zernace.

Mrs. Zernace told police the bandits ripped the phone from the wall and forced her into living quarters in the rear of the stand after looting the till.

ABOUT 10 P.M.

Mrs. Zernace said the pair entered her store about 10:05 p.m. while she was closing for the night. She ran out of the living quarters after the two men left and notified police, she said.

Officers from the Pontiac State Police Post stopped Beatty and Beier for speeding on Auburn Road, about one-half mile east of Opdyke Road, shortly after 10:30 p.m.

In searching their car, officers found a long-bladed steak knife of the type reported in the robbery. Beatty and Beier also were carrying large amounts of change and small bills when stopped.

They were turned over to Center Line state police who took them to Macomb County Jail in Mount Clemens.

Mothers to Hold Sale to Benefit Boys' Club

KEEGO HARBOR — The Mothers' Club of the West Suburban Boys' Club will hold a bake and rummage sale tomorrow to raise funds to purchase supplies and equipment for the youth organization.

The sale will be held at the Boys' Club's new quarters at 3325 Orchard Lake Road and will begin at 9 a.m. Cochairmen of the event are Mrs. Carl O'Shaughnessy and Mrs. Gloria Bates.

Find Youth Guilty of Assault in Lake Orion

One of two youths involved in a neighborhood fight in Lake Orion March 24 has been found guilty of assault and battery by Orion Township Justice of the Peace Helmar G. Stanback.

Serving a 30-day term in the Oakland County Jail is Maurice D. Smith, 18, of 778 Central Drive, Lake Orion. He was sentenced to jail after failing to pay a \$25 fine and \$15 court costs.

A justice court hearing for the other accused assailant, Douglas R. Sayre, 18, of the Central Drive address, has been rescheduled for April 18 since he now is serving a jail term for drunk driving.

Charles Lamb of 740 Central Drive, Lake Orion, told police that Smith and Sayre scuffled with him after he caught them attempting to enter his house trailer-truck.

Lamb said Sayre came at him with a knife, but got rid of the weapon before police arrived.

Officers said Smith and Sayre had been drinking before the fight and that both had police records.

CMU Given Grant

MOUNT PLEASANT (AP) — Central Michigan University has received a \$1,000 grant from the American Association of Colleges for teacher education.

WED 50 YEARS — Mr. and Mrs. J. O. Loomis of Oxford will celebrate their 50th wedding anniversary with a family dinner tomorrow afternoon. An open house for relatives and friends also is planned for 2 to 5 p.m. Sunday at their home, 42 Park St., to mark the event. Married April 8, 1911; the couple had two sons, Donald, now deceased, and Carroll, who with his wife Ann lives in Oxford.

Pontiac Backs Democrats in Very Light Turnout

In the lightest spring vote since 1953, Pontiac voters yesterday approved a constitutional amendment and gave solid victories to Democratic candidates for state seats.

The constitutional amendment, which would change the method of electing judges, was approved by a vote of 2,800 "yes" to 1,200 "no." The amendment was approved by a vote of 2,800 "yes" to 1,200 "no."

Total votes cast, 4,000. The turnout was about 18 per cent of the registered strength and below last year's of 11,800. The turnout was about 18 per cent of the registered strength and below last year's of 11,800.

GOP Triumphs in Metamora Dryden Twp.

Metamora and Dryden townships in the northern part of the county voted overwhelmingly for the GOP in the April 6 election.

In Metamora, the GOP won 100 per cent of the vote. In Dryden, the GOP won 80 per cent of the vote.

Return Two Incumbents in Farmington Twp.

Farmington township voters returned two incumbents to office in the April 6 election.

The incumbents are John C. Adams and James E. Smith.

Heavy Margin in Wayne Puts Con-Con Over Top

Strong backing offsets votes from outstate. Senate OKs machinery for electing delegates to state convention.

DETROIT (AP)—Michigan's 52-year-old constitution, amended 69 times since 1908 — will undergo thorough scrutiny this fall by a constitutional convention.

The hotly debated amendment, which would change the method of electing judges, was approved by a vote of 2,800 "yes" to 1,200 "no."

Berkley Re-Elects Mayor George Kuhn

Berkley voters re-elected Mayor George Kuhn to a second term in the April 6 election.

Mayor Kuhn received 1,200 votes, defeating his opponent by a margin of 100 votes.

Eight Managers Claiming Pennants

NEW YORK (UPI)—The battle lines are drawn today for the opening of the major league campaign and it's rather startling to note that only eight of the 18 managers are claiming the pennants.

It is traditional, no matter how poor the talent, that the manager speaks glowing words of hope in the spring. This annually tries up the fans back home and they rush to the ticket windows with an optimism which sometimes extends even beyond the first week of the season.

Comments of the various managers indicate that there will be a three-division race in each league. The first is among those shooting at what long has been known as the pennant. The second is among those battling to reach the first

division. The third is a scrap to stay out of last place.

America league teams are fortunate this season because, with the help expanded to 18 teams, it now will be a safe easier to get into the five-team first division.

This rather interesting squabble—with the Yankees, Orioles, White Sox and Indians all intent on first place—looms as a contest among Boston, Detroit and the Minnesota Twins. A three-way bout to escape last place will involve the A's, Senators and the clipped-winged Angels of Los Angeles.

"We'll win it," chant Al Lopez of the Sox, Ralph Houk of the Yankees and Paul Richards of the Orioles while Jimmy Dykes of the Indians observes that "with luck" his benchless Braves might go all the way.

Cookie Lavagetto of the Twins, Bob Scheffing of Detroit and Mike Higgins of Boston all have announced that they hope to vault into the first division—thanks to that newly-honored fifth place.

Joe Gordon of the A's sees the addition of two clubs making him a "clutch" to get out of the basement. He'll get an argument from Mickey Vernon of Washington and Bill Blaney of Los Angeles, whose plaintive reaction to his strong attacking force is "who's going to get the other side out?"

Over in the National League it is much the same story. There it shapes up as a four-way pennant pursuit among Milwaukee, Pittsburgh, St. Louis and Los Angeles. Two clubs, San Francisco and Cincinnati, intend to compete for a first division spot should one of the top four falter. The Cubs and the Phillies with the latter an odds-on choice to remain safely ensconced in the sub basement.

"We have the best ball club and we're going to win," insists Milwaukee's Charley Dressen, never a man to mince words.

"We're the team to beat and we're going to win again," asserts Danny Muntag of the Pirates.

"We'll be stronger," knowingly hints Solly Hemus, whose Cards finished last time out.

"There are a lot of us but . . ."

winks Walt Alton of the Dodgers.

This is time-honored managerial formula. But it ends there.

Al Dark, freshman skipper of the Giants, shows optimism when considering a first-division berth, as does Freddie Hutchinson of the Reds.

After that, it's obvious that the two remaining teams are just hoping to last out the season. If the Cubs had half as much talent as there is bottled up in their coaching crew—which on some days will outnumber the attending fans—they might finish fifth. The Phillies can only pray for 1962, when the addition of two teams will give them a real-escape hatch from the cellar.

Will Fine Violators

Dykes Warns Indians Against Playing Poker

Las Vegas, Nev. (AP)—The Cleveland Indians know without any qualifications today where Manager Jimmy Dykes stands on poker playing, here and throughout the season. There will be none.

Before breaking camp at their Tucson, Ariz., training base and departing for Las Vegas where they met the Los Angeles Dodgers today, Dykes called a meeting of the players "to lay down a little law."

According to Gordon Cobbledick, Sports Editor of the Cleveland Plain Dealer who was invited to listen in, Dykes first warned the players about holding on to their money in Las Vegas. He called it a "wicked city." Then the cigar-smoking skipper, who has been in baseball since 1917, said:

"This other rule is for today, tomorrow, next week and from then on. From what I learned about this ball club last year, some of you won't like it, and that's all right with me. Just so you don't forget it."

"There's to be no poker playing—not on planes, not in hotels, nowhere. I saw some of the young players sitting in on your games last season and losing money they couldn't afford to lose. I didn't like it, and I got news for you. Any guy loses money playing poker this year is going to lose some more. I don't like to fine a ball player, but I'll do it."

"And don't tell me you play a howlmit game because I don't care if it's only two bits and a half, by the time you stand a half dozen raises you're in too deep to get out and somebody gets burned. Then he starts worrying what he's going to tell his wife."

about where the milk money went and he can't think about baseball.

"I don't care if you play cards, but stick to gin rummy and keep the stakes small and that way nobody gets hurt and everybody keeps his mind on the game."

When Dykes was told that Cleveland long ago was known as the poker-playing outfit in baseball, he shot back:

"Yeah, I heard about that bunch. Just offhand, do you recall how many pennants they won?"

Seven From Pontiac in Table Net Meet

Seven players from the Pontiac Table Tennis Association are entered in the U.S. Open championships which get under way tonight in Detroit's Cobo Hall.

The Pontiac representatives are Sid Britton, Jerry Krukle, Howard Heckman, Al Janke, Laurence Janke, Vickie Corpron and Colleen Corpron.

More than 500 players will be competing in the 18 divisions. All final events are scheduled for Sunday.

New officers of the Pontiac association are Percy Secord, president; Adolph Magnum, first vice president; John Stephens, second vice president; and Bob Cone, secretary-treasurer.

Texas Relays Get Under Way Today

AUSTIN, Tex. (AP)—The Texas Relays, with records likely in half of the 40-odd events, open today with Olympians Earl Young, Stone Johnson and Eddie Southern featured in the first session.

Preliminaries were scheduled in 20 events this afternoon with finals in a like number tonight.

Only Few Oldtimers Left Hoping to Keep Game Alive

Is Polo Now a Dying Sport in Michigan?

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

A polo match was held at the Bloomfield Open Hunt Club last night.

To refresh the memories of many sports fans, polo is a game played on ponies from which riders use mallets to hit white balls along the ground into the goal areas. This is sort of a hockey game on ponies, but without a goal tender.

Many people know of the game of polo but few really have seen it or understood it.

As much as enthusiasts of the sport have to admit it, polo has become a dying game in Michigan.

In some states it is slowly becoming very popular.

There were once outstanding polo teams in Lansing, Flint, Detroit, Saginaw and Grand Rapids. Today the only real organized form of polo is played in Grand Rapids and this is only for a select few.

There are some oldtimers like Wendell Smith, Tom Young,

George Benjamin, Chuck Grant who still play the game because they can't forsake their love for it.

But 25-year players like Young, Benjamin and Grant are first to admit that there is very little polo interest left in Michigan.

Polo was once a major sport at Michigan State. There were six polo teams there and this was mainly due to the Cavalry which the U.S. maintained right up to 1942. When the cavalry was abandoned at MSU for the mechanized army of World War II, polo was abandoned.

The life of polo was kept breathing when Jack Ivory maintained his competitive arena on Eight Mile road in Detroit.

The true organization and competition disappeared when Ivory moved his ponies out to Union Lake.

There were outstanding names in area polo like Jack Ivory, Jr., Jack Stedman, Rich Gibson, Roy Pulver, Larry and Dave Williams and others, but it's been a long

time since any prominent significance to polo has been attached to their names.

Actually, the people who are holding polo together in Michigan, to stop it from complete obscurity are those like Young, Smith and Benjamin, men over 50 who still play but really only for the sake of keeping it in the sport.

The criterion which says whether a sport will live or die is usually interest and participation and spectator interest.

Polo has lost both. A few youth names like Bob Egan, Ted McManis, Tom Young, Jr., are proportionately too few in numbers to bring polo back to productive life in Michigan.

The Bloomfield Hunt indoor polo field, one of the finest in the Midwest, stands empty most of the time except for a weekly Wednesday night schedule by which at most a few players makes use of it.

An outdoor polo field constructed at the same site yet to be used.

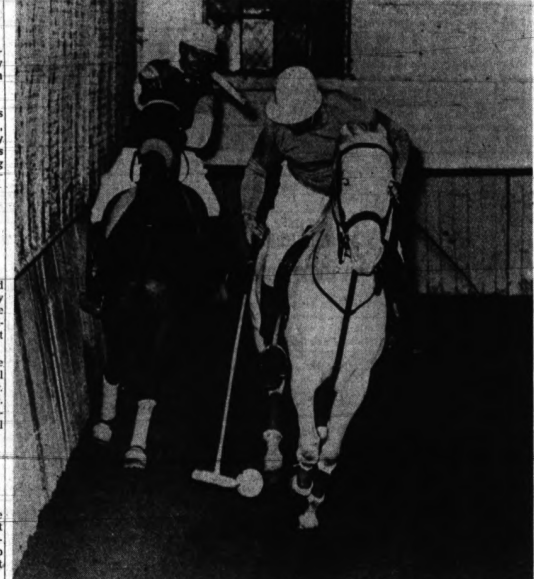

One envious distinction for the Bloomfield Hunt Club is the fact that it has the only woman polo player in this Midwest area. Phyllis Kohlmeier, a sturdy rider, started to play the game eight years ago and handles the mallet with the best of male competitors. She received her training at Ivory's former site and at Roy's Ranch in Walled Lake, playing in benefit matches. Now she concentrates her playing on Wednesdays and enjoys it.

The question presented to the veterans is—can polo be revived to regain participation among to-

day's young horse lovers and can the spectators interests be won or rejuvenated?

Realistic polo veterans sadly shake their heads.

The once-pride game of the cavaliers and horsemen, thrilling to watch and artistic to play, is dying in Michigan as the number of active players in the state has now dwindled to approximately 35.

WOMAN POLOIST — Phyllis Kohlmeier of Bloomfield Hills (left) goes after the ball with her mallet as opposing player Rich Gibson (2) of Birmingham rides to try to prevent the shot toward the goal. Phyllis is the only woman polo player in the Michigan area. She scored a goal

in the match last night at the Bloomfield Hunt Club but her part in 4-3. Players of the Hunt club take part in polo matches every Wednesday night. Last night's match was an exhibition.

Fraser Masters Net Choice; Laver Upset

ST. PETERSBURGH, Fla. (AP) — The odds are that Neale Fraser, Australia's top world ranking tennis player, will win the Masters Tennis Championship. But long-shot lovers are keeping their eyes on Jerry Moss, an Army enlisted man from Miami Beach, Fla.

Moss pulled the upset of the tournament Thursday by defeating second seeded Rod Laver of Australia 6-4, 6-4.

Moss meets Roy Emerson, No. 1 seeded from Australia, in the one semifinal today.

Emerson made the semifinals by defeating Miguel Olvera of Ecuador, 6-3, 6-4.

Daugherty Will Speak at Avon Sports Banquet

Popular Michigan State head football coach Duffy Daugherty will be the guest speaker at the annual Avondale High School All-Sports banquet May 2 at 6 p.m. at the school gymnasium.

Paul Smarick, president of the Michigan Coaches Association, will serve as toastmaster for the affair. The event will be open to public. Tickets may be purchased at Avondale High, or from any school athlete.

Settle Close Ladies All-Star Duel Tonight

The chips go on the line in the Ladies All-Star League tonight at 9 at Motor Inn with a three-way battle for the championship to be settled on the final night of league play.

Motor Inn Recreation leads with 73 points, Homer Hight Motors had 78 and Club 48 77. Lorraine Dulzo's 247 and a 601 by Opal Ward have been the high individual scores of the season.

A Hi-Lo doubles tournament and banquet will follow during April.

Area Matman Tops Field AAU Has New Champs

TOLEDO, Ohio (AP)—The AAU had eight new national freestyle wrestling champions today following the failure of three defending titlists to come through in the final round.

Only Jim Ferguson of the San Francisco Olympic Club came

close in Thursday night's closing session. He finished in a tie with teammate Russ Camilleri in the 174-pound class but lost out because Camilleri weighed three pounds less.

Dick Wilson of the University of Toledo dethroned Gil Sanchez of Colorado State in the 114 1/2-pound division and Carmen Molino of the New York AC lost his 125-pound crown to Usaku Imazumi, Japan's national champion.

Mike Rodriguez of Hazel Park, Mich., winner of the 147 1/2-pound title, was voted the outstanding wrestler of the tournament.

Other champions crowned: 191-pound, Dan Brand, San Francisco Olympic Club; 135-pound, Lee Allen, Multnomah, Ore., AC; 160 1/2-pound Steve Friedman, New York AC and heavyweight, Dale Burke of the New York AC in the semifinals. Father and son were entered in the 147 1/2-pound class.

Father, Son Mat Stars Eliminated at AAU Meet

TOLEDO, Ohio (AP) — A real sports oddity—the heralded match between father and son in the National AAU Wrestling Championships—failed to come off Thursday night.

Dr. Al Northrup, 33-year-old San Francisco physician, didn't weigh in during the morning competition and was eliminated. His son, Ben, lost a decision to James Burke of the New York AC in the semifinals. Father and son were entered in the 147 1/2-pound class.

NEW YORK (UPI) — Heliodoro Gutierrez was suspended more times during the 1960 New York season than any other jockey — four times.

Detroit Stroh's Takes ABC Classic Lead

DETROIT — Detroit Stroh's moved much nearer the classic division title at the American Bowling Congress Tournament in classic singles on a 632 set, when they finished with a 5978 six-game, total to outstrip the previous leading 5910 bowled by the Hannan's of Chicago.

The Stroh's had a 5972 block last night to go with an opening 3006 series. Included in their accomplishments the Detroiters also registered the highest team game of any club to date in the 1961 ABC with an 1102 opening blast last night.

However, after that big start the Stroh's cannons dwindled to pop-gun size the next two games as the new classic leaders struggled to 836 and 934 totals.

Bob Strampe, who paced the club in its opening block-on-a-632 set, came back last night to star again on a 632 series. Jim Schroeder added a 615, George Howard 602, Tom Harnisch 580 and anchorman Bob Crawford struggled to a 523.

The Stroh's had only four games over 200 last night and all were in the first game as Strampe rolled 257, Schroeder 232, Harnisch 222, Howard 213 and Crawford 178 to account for the 1102 start. The previous best team game was 1088 by the Amster-Kirtz club of Akron.

Roosting on the same lanes with the new classic pace-setters the national team match-game championship Falstaffs of St. Louis opened their classic play with 2251. Not one member of the Falstaffs had a 600 as Dick Hoover led with 585, Harry Smith had 583, Billy Wells 571, Steve Nagy 535 and Al Savas 524.

Earlier in the day the Stroh's did very well in minor events

Fun and Garden News

Proper Planting Insures Growth

Early Spring is a good time to landscape a new home or add shrubs and trees to established lawn and garden areas. In either case, the rules for efficient planting are the same—follow a few simple rules and use the right equipment.

Shrubs and trees which are purchased for Spring planting generally should be balled and burlapped, i.e., their root structures should be covered. This simplifies planting, because roots are packed in a tight ball and can be handled without damaging them.

An easy way to carry a small shrub or tree is to place it in a galvanized steel basket. Equipped with convenient carrying handles, the basket makes it possible for two people to share the weight of the shrub or tree. When the basket isn't being used for planting, it is a handy receptacle for leaves and grass clippings.

When digging a hole for planting, always dig one slightly larger than necessary to hold the ball of roots. Here again, good equipment is important. Digging is no fun, but it can be easy if the blade edge of the spade is sharp. A spade may be sharpened with a steel file or on a grinding wheel.

After placing the root structure of a shrub or tree into the ground, replace the dirt which was removed. If working in a clay soil, it is best to mix in a little peat moss and crumble the soil before packing it around the roots.

Immediately after planting, the tree or shrub should be soaked with water. Place the nozzle of the garden hose at the base of the tree or shrub and let a slow moving stream of water saturate the root system and surrounding ground. Water the shrub or tree frequently until its roots take hold and become established in the new location.

Resist the temptation to fertilize newly planted trees and shrubs. Too often, their roots are damaged by too much fertilizer. Let the plant become established before giving it the benefits of plant food.

Cornell Offers Home Course in Gardening

Want to take a course in gardening?

Cornell University offers a correspondence course that includes nine lessons in vegetable growing and three in flower-planting. Home owners from at least five other states and Canada already have joined New Yorkers in the home-study offered by the Department of Vegetable Crops.

The lessons begin with planning the garden and include soil tests, fertilizers, varieties, sowing seeds, starting plants in coldframes, hotbeds and greenhouses; disease and insect control, mulches, irrigation and storage of surplus.

The flower lessons cover perennials, annuals and planning borders.

Bulletins and mimeographed information prepared for students are sent with study outlines and questions. The home gardener answers the questions and returns them to the college for correction and suggestions. For information, write to the department at Cornell's East Roberts Hall, Ithaca, N.Y.

Limited Time? — Grow Perennials

Your backyard is small. You get home from work late and don't have much time. You don't care to exert yourself. Otherwise you'd like to have a garden.

You don't need much space or time. You don't have to expend much energy.

There are many perennials that require little care and provide constant color through the growing season, one at a time, or several overlapping. Some will grow in almost any type of soil.

Let's begin with early spring. The snow is hardly gone when the graceful daffodils poke through the hard ground. Tulips follow. Then come iris with their stately, beautiful forms. Early summer brings the sweet-scented peony and delphinium, and perennial poppies arrive at mid-summer. The rugged chrysanthemums adorn the autumn until heavy frost.

This collection offers varying heights and colors. The blooming calendar will differ according to the section of the country. Daffodils, a foot to 18 inches tall, are available in yellow and white. You can have almost any color tulip, including variegated. Peonies, white, pink or red, grow about three feet high.

Delphiniums are the giants, four to eight feet tall, in blue or

TWENTY TIMES FASTER — This electric grass trimmer can do a three hour trimming job in the ridiculously low time of ten minutes. The Garden Information Bureau of The Porter-Cable Machine Company points out that powered trimmers can do the job as fast as the operator can walk. Because it can be operated

from a comfortable position, it saves scuffed knees, blistered hands and aching backs that result from the wearisome hand method of trimming. Weighing only 3½ pounds, it's so light and easy to handle, the lady of the house can speedily edge 250 feet of lawn in five minutes.

Tractors Found in Home Yards

The tractor, once common only to the American farming scene, is rapidly becoming a familiar sight in the yards and gardens of suburban homes across the nation.

These new "suburban" tractors, although smaller than their counterparts, have most of their features and perform equally well in yard and garden.

According to the Garden Information Bureau of The Porter-Cable Machine Company, the new tractors provide their owners with a virtual "mechanical workhorse." They not only are equipped to cut the grass, but can tow an array of accessories that will roll the lawn, aerate it, fertilize it, and seed it, sweep it, and even carry the debris.

In addition, the spunky little tractors can do a full day's work in the field. Equipped with three brothers, they can plow virgin soil and follow up with a variety of discing and harrowing implements to meet any large garden or small farm requirements.

Porter-Cable reports that tractors are becoming a year-round mainstay of yard maintenance as they can be used to prepare the ground for seed in Spring, maintain the lawn and garden in Summer, sweep and clean in Fall, and serve as a snowplow all winter.

Gardening Takes Kink Out of Mind, Muscles

What's the trouble, friend? Are you muscle bound in the Rhomboides Major and Minor (back muscles), the Platysma Myoides (neck of the neck), or is it just that your waistline protrudes to the point where you can't see your own shoes?

Here's a tip. Get out the old rake and shovel, purchase packets of garden seed, head for the outdoors, and your worries will be over.

While your first day on a horse or covering nineteen holes of golf... may leave you a physical wreck, gardening is one hobby that will set you up, not knock you out. When your muscles notify you that they've had enough for the day, then so have you.

As you work along at your own speed in your garden, think how lucky you are that you're not involved in one of those do-or-die, see-it-through-it-kills-you battles that people are told they "win."

While you're chugging along there, turning the soil and breaking it into fine pieces preparatory to planting the seeds, feel the sun on your back warming up the old bones and helping to loosen up those tight office - desk muscles you've acquired during the week.

Try stretching your body and filling your lungs with fresh air. Get a little philosophical and take a look at and thinking of the

wonders of creation to be found in your garden.

Get close to that old soil, friend, and you'll find you have the most inexpensive, relaxing and yet powerful hobby in the world. Also, you'll have quite a time for yourself.

Windbreak Fence Has Planter Top

Would you like to have a tall fence that doesn't look like a tall fence?

To insure the yard's privacy or to block prevailing winds, fences 6 or 8 feet high are often necessary. But even with such height, that fence can be graceful. Here's how.

Build a planter about 2 feet high along the fence line and top it with a row of Douglas fir 2½" laid on edge and spaced very slightly apart to make an interesting pattern. The seat should be cantilevered several inches out from the planter's edge.

Then fill the planter with greenery, some of which should be vines trained to climb the fence. Used as a backdrop for the shrubbery and with its height broken by the strong horizontal line of the garden seat, the tall fence will become an object of beauty in the yard.

Plants Finance Students

The annual sale of over 8,000 geranium plants finances two scholarships a year for deserving students in Parma City, Ohio. Plants are delivered in clay pots to all the city's 20 schools and some 15,000 students are the "sales force," taking orders from their parents and neighbors.

Hear This!

NEW YORK (UPI) — Gardeners consider why flower pots, first used nearly 17,000 years ago, the best containers for living plants because of their porous walls. A daytime temperature of 70 degrees is suggested. The nighttime temperature should be 10 degrees lower.

Fewer Flowers May Be Result

One of Springtime's most breathtaking shows, flowering of dogwoods, may not be so spectacular this year. Blame it on Old Man Winter. Much plant life and staunch tree friends, along with the dogwoods, probably suffered extensive Winter injury.

Herbert Herrmann, field representative of the Davey Tree Expert Co., points out there were long spells of sub-zero weather in many sections of the country, particularly the East and North. These were followed by a few sunny and mild afternoons. This caused plants to give off moisture, which couldn't be replaced from the frozen soil.

In the case of dogwoods, many in affected areas will have had part or all of their flower buds blasted. Injury may be so severe individual blossoms will be reduced to spots, or in some cases distorted. Texas, Rhode Island, Arizona, and Oregon holly hedges and many other specimens will suffer in varying degrees.

Even such hardy specimens as Norway maple, London plane and hawthorn may be in distress because of the susceptibility to frost crack. Like other Winter injuries, frost crack is caused when there are extended cold spells broken by warm, sunny weather.

The widely used hedge material California privet, already expected to be a major sufferer in the North, with many thousands killed to the ground.

Week-end gardeners are urged to go easy with pruning remedies which can be premature. It is best to wait until June when new growth has been thoroughly established to get an accurate assay of damage.

Shade Tree Supply Desperately Short

Population explosions into the suburbs raise a tree problem. There is a short supply of young shade trees (4-8 years old) and up to a few inches in diameter) because of mushrooming new housing developments, increased suburban growth, and the cost of getting suitable trees. The problem is so serious in some areas that park departments have established their own nurseries.

★ ★ ★
Martin L. Davey Jr., the tree expert, says the big stress tree is in demand and the demand for smaller trees is growing. In strong favor now, he says, are flowering crab, hawthorn, callery pear, golden rain tree, and ginkgo tree.

★ ★ ★
Davey says it isn't likely that the shade tree demand will catch up with supply for a few years because of difficult growing conditions that shorten the life of street trees. These hazards include smog, spot, compacted soil, drought and vandalism.

Amateurs Able to Win Prizes for Garden Shots

Fifty prizes will be awarded to amateur photographers for winning photographs in flower and garden subjects in Popular Gardener's new Photo Contest. The contest opens May 1 and closes July 5, 1961.

Awards will be made for black and white and color photographs in each of four classes. Close-up, group, scenic and arrangements. Complete details of the contest appear in the April issue of Popular Gardening.

MUMS THE WORD — Here's an annual! Large football-type mums for the garden have finally become a reality with the introduction

of the new series of "Harvest Giants." They are but one kind of mum to grow; any one makes a garden prettier, especially next fall.

Mums Are Satisfactory Flowers in Any Garden

Garden chrysanthemums are rather hardy perennials. They are planted in late spring and early summer over most of the country. Some gardeners, in the South where May droughts are common, may prefer to plant in the fall.

There is no advantage in early planting. Soil should be warm. Mums plantings should be kept watered until well established in their new location but not soaking wet. They like proper drainage.

Mums are very healthy plants and do well with a minimum of care in any type of garden soil. For exhibition blooms, they respond to plant food and require steady growth, especially when buds begin to form in August. Mulching is preferable to cultivating, not only to preserve moisture but to keep down weed growth around their shallow roots.

New plants, from rooted cuttings or new shoots in spring, give superior plants and flowers to old root clumps. The exception may be in the extreme north, as in Montana and Canada, where old plants may bloom earlier for their short growing season with early September freezing weather.

Cushion mums, with compact mounded plant form, usually grow from about 12 to 18 inches tall, according to variety. Flowers are borne in sprays on short stems to practically cover their plants with a colorful mass of bloom. The sprays may be taken for long lasting cut-flowers.

Decorative mums, with taller and more erect plant growth, usually reach 2 feet or more in height. They are usually larger flowered and on longer stems for cutting. Still larger flowers may be obtained by disbudding upper branches, leaving perhaps 6 or 8 main shoots or long branches to produce the long stemmed terminal flowers. Preference is for many more flowers per plant.

Pinching-off the growing tips of main shoot and side branches when they are 6 to 8 inches long will force out more branches for a bushier plant and many attractive blooms.

Ceramic Mosaics Give Garden Steps Glamor

Garden steps can do much more than get you up or down a slope. If designed with care, they can extend a welcome to your guests, and lead them from one area of delight to another. One way to give garden steps a year-round "come hither" look is to surface them with ceramic mosaics. The small ceramic units are much like flowers in the variety of their color range, and their adaptability to formal or wildly carefree arrangements.

Blue grass and most other lawn grasses make their best root growth while soil temperatures are still cool if a ready supply of nutrients has been provided.

Lime for Pink

If you have a blue hydrangea and prefer pink, add lime to the soil. Not too much, just enough to make the soil test around neutral. If you can't test your soil, try a small quantity around the shrub and if it remains blue next year, increase the amount of lime.

Planting Roses Early

The earlier rose bushes are planted (after soil can be worked) the more bloom they produce the first year. One tip from Cornell University: leave at least 10 inches of canes intact, if possible. Every inch you leave represents 10 per cent of the early bloom. Always hill up newly planted roses with soil to protect this valuable old wood. Remove hilling when leaf buds begin to open.

He's a Ducky Caller
GROVES, Tex. (UPI)—Mike Cheney, 12, of Groves recently won the title of world champion junior ducky caller at the 25th annual Duck Calling Championships in Stuttgart, Ark.

Cornell Wages War on Insects

T help you keep bugs out of your garden, Cornell University maintains an insect collection that contains more than 200,000 varieties. The Department of Entomology and Limnology uses the collection to assist agriculturists, scientists, students and home gardeners identify insects.

There are an estimated one million different kinds of insects in the world, including 25,000 in New York State alone.

When a bug arrives at Cornell, it makes the rounds of the specialists until it is identified by its scientific name. Then the Extension Service entomologist advises the reader of the correct name and the approved method of control, if it actually is a pest.

If you are planning to send an insect to Cornell, kill it first by dipping it in rubbing alcohol or by heat. The postal authorities frown on shipment of live insects.

If the captured enemy is important enough, it is mounted and added to the files. If it is a new one to the collection or to an area, it is checked against foreign collections, then instantaneously sent to entomologists, and control measures are initiated to prevent epidemics. This is the way Cornell rode herd on the corn-borer, the European chafer and other invaders.

Rose Society Will Send Buying Guide

Rose producing nurseries report top quality for 1961 rose bushes. To aid the home gardener in selecting the best kinds for spring planting the "1961 Guide for Buying Roses" is now available.

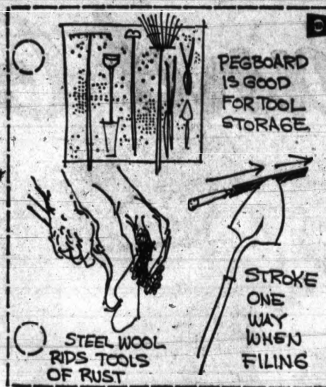

The Guide rates 455 old and new roses including hybrid tea, floribunda, climber, grandiflora and miniature. The ratings are an average of reports from more than 5,000 American Rose Society gardeners. A sliding scale is used with 10 the perfect rose score graduated to 5 "of questionable value."

Since the first Guide was published in 1950, 2 million copies have been distributed to help all gardeners select the best roses.

Write to the American Rose Society, Columbus 14, Ohio, for a free copy.

Time for Spraying

To control insects, wintering over mites and aphids, etc., dormant oil sprays are recommended. They must be applied at a time when air temperatures are above 40 degrees for several hours. Do not apply, however, after leaf buds begin to unfold.

Get Tools in Shape Now for Spring Gardening

Gardening with broken, blunt or rusted tools makes hard work of what should be fun. While you have the time this winter, tool up for easier gardening this spring.

Begin with an inventory of your garden equipment. Gather all your tools together and inspect them for needed repairs.

Rust is as damaging to tools as fungus is to plants. A rusty shovel or hoe will pick up much more dirt than a clean tool. Give rust removal first priority in tooling up. Clean tools also last longer.

A coarse wire brush or steel wool will take off most heavy rust. Chemical rust removers also are handy and fast.

Dull tools double the effort you must use even for simple jobs.

Neglect Will Result in Leaf Scorch

Some older citizens are taking a turn because of troubles caused by neglect. These are the trees which look as if they may have been burned or scorched. In extreme cases, leaf margins appear to have been actually singed by fire.

Leaf scorch is more than a symptom of unmet needs. While the condition prevails in almost all kinds of trees, the sugar maple is one of the most conspicuous victims.

Alarmed home owners are quick to dunk the soil when leaf scorching becomes evident. That's all to the good, but only part of the battle to revive ailing tree pets. Good feeding probably is an even more important part of the battle than watering.

Trees are always hungry and there's no rest reason to confine feeding to arboral ventures in the Spring. Feeding now with nutrients high in nitrogen won't have immediate effect. But you couldn't pick a better time to start the control.

Leaf scorch usually signals a complication of tree maladies since it frequently goes hand in hand with malnutrition, girdling roots, soil compaction and a variety of other problems. Finding if any or all are the mischief makers on your property is no diagnosis-it's yourself chore. Call in the professional tree man, who can find the specific troubles — and treat them.

Narcissus Want Water

The double types of narcissus particularly, and some of the singles, often blight before flowering. Hot weather and a variety of continuous moisture have been blamed. Be careful of too much time and try to keep the soil moist at all times while the plants are growing, particularly in spring.

Pursued foxes have been known to leap on the back of a sheep and ride for some distance in an attempt to break the scent left by the glands of the feet.

Bugs Are Fussy Want Familiar Food

Plant bugs have a tendency to continue eating, throughout their lives, the kinds of foods on which they were raised.

Researchers at the New York State College of Agriculture say, for instance, that bugs that hatched from eggs laid on alfalfa prefer it to other foods. Scientists are trying to determine whether there are definite races of tarnished bugs that prefer certain foods, or whether the tendency to eat certain foods is acquired after birth.

Tarnished plant bugs hit some types of fruits and vegetables harder than others. They attack beans, cabbage, apples, peaches, corn, wheat, oats, alfalfa and other crops. They can stunt, deform or kill fruit or prevent normal development of flowers.

The study indicates that the bean variety known as bountiful survives tarnished plant bug attacks better than Fordhook limas, red kidney, or California pinks, among eight varieties being tested.

Treat Azaleas Right for Best Blooms

The Kurume azalea is a showy, compact shrub. It grows 12 to 30 inches tall; blooms for several weeks and may be moved outdoors in the spring. It will be evergreen in the South, but in the North it should be treated as a house plant.

Indoors, this azalea will bloom longer in bright sun and a temperature near 60 degrees. Two rules are: keep it moist and keep it acid. This treatment stems from its ancestral habitat on leaf-covered forest floors.

If the leaves turn light, with darker veins, apply a solution of one ounce of iron sulphate in two gallons of water for a few days.

The words for rice and food are identical in many of the Asiatic languages.

"GOOD SERVICE IS A HABIT AT PONTIAC STATE BANK"

Seeks to Barter for Foreign Oil

Navy Wishes to Save Dollars While Cutting U.S. Food Surplus

WASHINGTON (AP)—The Navy is about to try to barter surplus U.S. farm products for foreign oil. The idea is to reduce the outflow of dollars from this country.

An announcement today said the Navy will accept bids starting tomorrow for 6.2 million barrels of special fuel oil worth between \$11 million and \$13 million. This is a half-year's requirements from the Eastern Seaboard.

The Navy oil for this area traditionally is acquired in Venezuela, Trinidad and other Caribbean regions, with some coming from the U.S. gulf coast.

The barter program, reduced to its simplest terms, would have the Navy contract with a U.S. company to supply a certain amount of oil, with payment to the company for oil of foreign origin to be made in government-owned surplus farm goods, like corn or wheat.

Thus a million dollars worth of oil would be swapped for a million dollars' worth of corn, for example.

Garden Patio Can Replace Lawn

Looking forward to mowing the lawn come this summer? If not, now's the time to put in a lazy man's lawn—a wide and handsome weed patio deck.

The deck can be built at the same level as interior floors to make the outdoors merely an extension of your home's living space. Paint or stain is not necessary for Douglas fir decking which will weather naturally to a delicate silver hue.

A garden atmosphere can be created by setting planters for flowers and shrubbery on the deck, and any trees in the yard can simply be enclosed with the deck, leaving a tree well about a foot bigger in diameter than the tree trunk.

When the job's done, you'll be the envy of your lawn-mowing neighbors.

Take Her a Tomato

If she has a kitchen garden your hostess will appreciate a gift of a city-potted tomato plant which she can set outdoors as soon as all danger of frost is past. Tomato plants can be easily removed from pots without damaging their roots—and planted in sunny outdoor locations.

NUNS ARE GOOD SKATES—Four nuns take to roller skates as spring weather and a paved parking lot provide an opportunity for outdoor activities at a suburban Catholic church. The nuns were part of a group belonging to the

Order of Daughters of Divine Charity from South Bend, Gary, East Chicago and other northern Indiana cities that got together for a skating party.

New Mixture Protects Roses From Disease

Three lawn-management formulas (tested in 1959 and 1960 in sections of Wisconsin, Kentucky, Ohio, New York and Connecticut): (1) A lawn food, a combination of non-burning ingredients. A 33-lb. bag will feed 100 sq. ft. by 58. (2) Crabgrass deterrent with dacthal. It should be applied before April 15 in the South and May 15 in the North to kill crabgrass seedlings before they germinate. (3) Lawn weeder-feeder, lightweight; a 25-lb. bag will cover 2,500 sq. ft. All three are tinted to facilitate even spreading.

Music's Encouraging

Keeping your clay-potted plants near the radio or Hi-Fi set may be added insurance for healthy, happy growth. Recent experiments have shown that some house plants and greenhouse plants respond favorably to either rock 'n' roll or classical sonatas, by growing more than they do without musical accompaniment.

Breaking Par Here Would Be Uphill Fight

GLASGOW, Scotland (AP)—To publicize a charity drive, four Aberdeen university students golfed up a mountain Thursday.

The students drove balls up the craggy slopes of Britain's highest mountain, the Ben Nevis in Invernesshire.

The match ended after three hours, 2,000 feet above where it had started. The winning score: 158. Lost golf balls: 63.

Can't Stomach Flight

DUBLIN, Va. (AP)—When Ralph Ray escaped from a convict road camp the other 75 prisoners took a dim view of it. Ray was the camp cook and he walked away before fixing breakfast.

85 Million Drivers in U.S.

Auto Industry Touches Everyone

BY ROBERT IRVIN
UPI Automotive Editor

DETROIT (AP)—The auto industry hits close to home for most people.

As the nation's biggest industry, its impact extends to nearly all walks of life.

For instance, the Automobile Manufacturers Association reports that one business in six is automotive and one out of every seven wage earners—a total of 10.5 million—is employed in highway transport industries.

The AMA, in a just-published booklet called "Automobile

Facts and Figures," says that 22 per cent of all retail sales in the United States are automotive. That's a total of \$45 billion a year.

The booklet reports that in a single year, people spend more than \$90 billion in automotive retail, wholesale and service businesses.

Of course, this covers a wide field. Besides car dealers, accessory dealers and gas stations, the AMA also includes motels, tourist courts, trailer parks, bulk petroleum terminals, rent-a-car firms, and parking lots, as well as several other groupings.

If your family doesn't own a car, you're in an ever-dwindling minority, according to the AMA. It reports that 77 per cent of the 53,400,000 families in the United States (about 41 million) own automobiles.

The AMA says the increase from 1950 to 1960 was two million families.

In 1950, 74 per cent of American families had cars. If you live in a metropolitan area

suburb, the chances are 87 in 100 that your family has a car.

Further, according to surveys, 76 per cent of farm families are carowners, 79 per cent of families living in smaller cities (under 50,000) and 58 per cent in big cities.

As for sections of the country, a survey shows 81 per cent of families living in the mid-west Plains region own cars, 84 per cent of families in the West, 67 per cent in the Northeast and 71 per cent in the South.

All told, there are 85 million drivers in the United States, of whom 39 per cent are women. They drive a whopping 770 billion miles last year.

Watch Out for Cheats

LANSING (AP)—Householders are warned by the state department of agriculture to watch out for short weight when buying topsoil, fertilizer, peat moss or grass seed this spring.

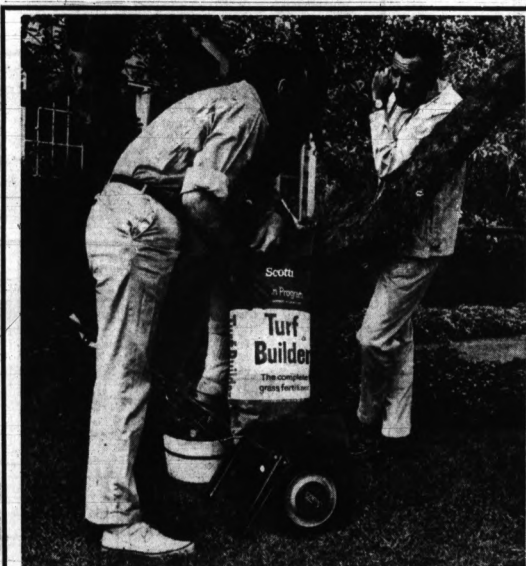

Inspectors have found some of these items as much as 30 per cent short of the correct weight, the Department said.

Why Not Push State Vacations, Council Asks

LANSING (AP)—The Michigan Tourist Council has suggested to states business firms that they offer Michigan vacations as incentive bonuses for members of their sales staffs.

Council Director Robert J. Furling said that companies with travel incentive plans offering lavish trips to foreign countries, and faraway points have found many of their sales people less than enthusiastic about them.

"We feel that nearby vacations in Michigan would be welcomed as a relaxing change from the hectic flights to distant resort and would give those who won them a chance to take their families along," Furling said.

What every lawn owner should know

No soil's too poor!

TURF BUILDER® supplies all the nutrition grass needs to thrive. That means you can easily have a greener, thicker lawn—no matter how poor your soil (yes, even if it's subsoil). And don't think it takes hard work! Clean, odorless TURF BUILDER goes on easily and quickly, with the accurate Scotts Spreader. Half an hour is all it takes to feed 5000 sq ft to greener, prouder beauty.

TURF BUILDER—for 5000 Sq. Ft. Costs Only 4.95

Man in Space

Expects Reds to Have 1st Astronaut

By JOSEPH L. MYLER
WASHINGTON (UPI) — U.S. space officials and the seven Mercury astronauts themselves, expect the first man in orbit to be a Russian.
One question likely to be raised when Russia announces she has put a man in space and got him back, can be answered now. The question: Will the United States go ahead with its costly man-in-space program? The answer: It will.

Confession May Be Used at Trial

Admission of Murder, Later Disclaimed, Might Be Heard at St. Johns

ST. JOHNS — One of the few new elements in the Anna Hengsbach murder trial — the confession of 21-year-old Richard J. Pohl of Westphalia — may be introduced today, observers said.
Pohl, who later repudiated his confession, is being tried in the 1958 slaying of the 63-year-old Westphalia widow. State police said earlier some statements in the Pohl confession do not jibe with facts in the case.

The first two days of testimony in Clinton County Circuit Court, given by a recant of the testimony given in the 1958 trial of Vincent Hengsbach, 55, stepson of the victim.

Kidnaper Gets Life in Prison

Has 10 Days to Appeal Double Sentence in Death of Pair

BALTIMORE, Md. (AP) — The convicted kidnaper of an Apple Grove, Va., mother and her 5-year-old daughter has been given 10 days in which to appeal two sentences of life imprisonment.

Mevin Davis Rees Jr., 32, of Hyattsville, Md., was sentenced in Baltimore's U.S. District Court Thursday by Judge Russell C. Thomson after the judge turned down defense motions for a retrial.

It was the maximum sentence the judge could impose on Rees, since the jury which convicted Rees on Feb. 23 did not recommend the death penalty.

Rees, a jazz musician, was convicted of kidnapping Mildred Jackson and her daughter, Susan, Jan. 11, 1959. Their bodies were found in a shallow grave near Gaithersburg, Md., in March of that year.

Mrs. Jackson's husband, Carroll V. Jackson Jr., 29, and another daughter, Janet, 14, had disappeared at the same time. They were found slain near Frederickburg, Va.

Immediately after Rees was sentenced, one of his court-appointed attorneys, William J. Evans, said his client would begin his term now, pending a possible appeal.

Alkali Men Work Without Contract

DETROIT — Union officials asked the 1,700 production employees of the Michigan Alkali Division of the Wyandotte Chemicals Corp. Thursday to continue working without a contract "until further notice."

The action by Local 11-627 of the Oil, Chemical and Atomic Workers Union averted an immediate strike but settled nothing in the men's lock.

Employees have worked without a contract since March 28 when the pact was canceled by George H. Baker, vice president of personnel at Wyandotte. Chemists, after negotiations had broken down, the contract had expired March 1.

Re-Elect All Directors at NCA Annual Meeting

All North Central Airlines directors were re-elected at the annual meeting of the company's stockholders at Wausau, Wis., Wednesday.

The shareholders also named two new directors to the board. They are D. E. Crocker, Janesville, Wis., and A. J. Mueller, Wausau.

Re-elected to the board of directors were Hal N. Carr, Minneapolis; Werner L. Christensen, Wausau; G. F. DeCoursey, Clintonville, Wis.; Arthur E. A. Mueller, Wausau; A. L. Wheeler, Washington, D. C.; and Kenneth B. Willitt, Evans Point, Wis.

Following the annual meeting, the directors met and re-elected all corporate officers of North Central.

Canada Pays U.N.

UNITED NATIONS — (AP) — Canada has come to the rescue of the hard-pressed United Nations with a contribution of \$3,780,000. The payment Thursday cleans up the Canadian debt for the U.N.'s regular 1961 budget.

Slap Lien on Esther

BOS. ANGELIS, (UPI) — Pontiac Press reporter Thomas filed a \$3,385 lien against actress Esther Williams, alleging arrears on her 1959 income. At the time Miss Williams, who presides over the International Swimming Pool Corp., a pool she later resigned.

THE FRESHENER

Judge Dismisses Charge Against Pontiac Man

Municipal Judge Cecil McCallum yesterday dismissed a drunk and disorderly charge against a 35-year-old Pontiac man who was a passenger in a car in which the driver died to avoid being placed under arrest March 18.

Freed yesterday was Eddie L. Williamson, 50, of Detroit.

The driver, W. C. Cowart, 33, 456 Montana St., faces charges of feloniously assaulting a Pontiac police officer with a motor vehicle and drunken driving.

As of now, man has discovered 102 chemical elements.

"Owner Certified" Is Something New — Nothing Is Kept From You

We invite you to call the previous owner of the car of your choice as you will get the TRUTH when you see a used car at LLOYD MOTORS. You have a certified record in WRITING from the previous owner as to the following important facts:

- Whether it was a one-owner car
- Whether it has been in a major wreck
- Condition of muffler, tires, seat covers, fan belts, etc.
- Condition of transmission, differential, universal joints, bearings, steering equipment, water pump, shock absorbers, heater-radiator, electrical system
- When it was lubricated, what kind of oil used
- How many miles per gallon it has averaged
- Whether it was used regularly to protect finish
- Delivered price of car when new

Heavy type news, light type news, and mixed type news were the main factors in the market.

May, July Soys Sell at Record Highs

CHICAGO — The May and July soybean futures contracts sold at new highs for the season today in initial dealings on the board of trade.

The grains were mixed, but mostly firm during the first several minutes of fairly active trading.

After opening as much as three cents higher, and as crop soybeans met some profit taking by dealers who were doubtful about the ability of the market to sustain a further advance, particularly since gains of well over nine cents were posted only Thursday.

Grain Prices

CHICAGO, April 4 (AP) — Opening grain prices:

Grain	Price

"Owner Certified" Is Something New — Nothing Is Kept From You

We invite you to call the previous owner of the car of your choice as you will get the TRUTH when you see a used car at LLOYD MOTORS. You have a certified record in WRITING from the previous owner as to the following important facts:

- Whether it was a one-owner car
- Whether it has been in a major wreck
- Condition of muffler, tires, seat covers, fan belts, etc.
- Condition of transmission, differential, universal joints, bearings, steering equipment, water pump, shock absorbers, heater-radiator, electrical system
- When it was lubricated, what kind of oil used
- How many miles per gallon it has averaged
- Whether it was used regularly to protect finish
- Delivered price of car when new

Oil Shares Lead Market Higher

NEW YORK — Oil-stock market prices moved upward with oil shares leading the way early this afternoon.

Trading moved along at a lively clip but was far behind the 7-million-share rate of Tuesday. The tape trailed briefly.

Volunteers, metals and rubbers led in a statement by Albert L. Nickerson, president of Socomey Oil Co., that he expects oil demand in the United States and abroad to be 10 percent in the rest of the year.

Chrysler retreated 1/4 to 4 3/4 after the Justice Department accused it of applying illegal pressure to handling Studebaker - Packard's Larks. General Motors and Ford gained fractionally.

Fears for U.S. Farmer if Crop Controls Ended
KANSAS CITY, Mo. (AP)—A free market and unrestricted production in agriculture would bankrupt farmers and weaken the nation, says Claude R. Wickard, secretary of agriculture in President Franklin D. Roosevelt's last term.
Wickard urged self-control on production and strong price supports in a speech before the Federation of Federal Land Bank Associations Thursday night.

FAMILY LINES UP FOR VACCINE

Mr. and Mrs. Robert M. Grab (in rear) of Harrisburg, Pa., along with 15 of their 18 children line up in a Harrisburg hospital as Dr. Mary Ames (bottom) administers the first Sabin-type oral polio vaccine in the Harrisburg area to Lucy, 3, by spoon. Members of the family are (clockwise) Lucy and David (twins), 3; Daniel and Kathleen (twins), 5; Peggy, 6; Patrick, 7; John, 8; Ellen, 10; Ann, 11; George, 12; Jean, 16; Joseph, 14; Tom, 15; Michael, 17; and Mr. and Mrs. Grab holding Edward, 1. The baby was given his dose through a dropper. Everybody else took it either with distilled water or a sugared mixture. The missing Grab children live out of town.

Insurance Group to Hear Speaker

The monthly meeting of the Pontiac Life Underwriters Association will be held Wednesday morning at Elks Temple. Guest speaker will be Russell H. Moore, CLU, of the National Benefit Life Insurance Co. of Newark, N. J. He is also an insurance lecturer for Michigan State University. He started his insurance career in 1921 while working on his master's degree in business administration at the University of Michigan. He has earned the National Quality Award every year since its beginning 17 years ago. He is past president of Lansing Underwriter Association and the Life Insurance Leaders of Michigan.

TV News and Reviews

Teen Audience Makes Groucho Subdued, Unsure

By FRED DANZIG
NEW YORK (UPI)—Since Dick Clark and Pat Boone appear to have tapered off on their advice-to-adolescents activities, I looked forward last night to "The Groucho Show."
In moving to fill the advice vacuum, Groucho devoted most of his NBC-TV half-hour to what might be described as his first venture into public affairs programming a discussion about teen-agers.
The audience of high school students assembled under his cigar no doubt represented the largest assemblage of non-graduate teenagers ever to visit a TV studio without the lure of rock 'n' roll's big beat.
I expected Groucho Marx to make the occasion a memorable one by possibly telling the kids to go home, stop wasting time on such nonsense but he disappointed me.
Groucho seemed subdued, unsure of his audience and the direction he wanted to take the discussion. Or maybe it was just fear.
Anyhow, he retreated to the safety of standard TV comedy comment. He said, "I never hit any of my kids except in self-defense."
To a girl who said boys were no problem, Groucho remarked, "They're not making boys the way they used to."
DIALING AND WILING: At the risk of being accused of having sold out to the enemy, I'd like to report that I came across a western that I enjoyed.
The "Outlaws" on NBC-TV last night watched an entertaining, nicely paced episode called "Outrage at Fawcett Bend."
Paul Ford portrayed a W. C. Fields-type railroad detective who was outwitted by a Laurel-and-Hardy pair of train robbers, played by Frank McHugh and Jonathan Winters.
The story faltered occasionally, mostly near the end, but still added up to a diverting hour.
ABC-TV's "My Three Sons" again succeeded with a simple story last night. Two boys, a fence that needed painting, a display of neighborhood "togetherness" and we had an episode that managed to be rewarding and unsticky.
The secret ingredient is respect for the audience.
McCann Waits in Manila for Plane to U.S.
MANILA (AP)—Robert McCann was flown to Clark Air Base today on his journey back to the United States to die after spending 10 years in a Red Chinese prison.
The former businessman from Pasadena, Calif., navigated by cancer, was rushed to the U.S. Air Force Hospital at the base north of Manila on arriving from Hong Kong. Arrangements for his flight to the United States were not complete.
McCann's wife, who traveled 9,000 miles to Tientsin to plead with the Chinese Communists for her husband's release, said the doctors in Hong Kong had given her husband "only a few days to live."
"The end can come any day," she said, "There is no hope."

A Fascinating Madness Hits Manhattan in April

By EARL WILSON
NEW YORK — There's a thing called "April in Paris" and I've been there—and it can be cold and it can be damp—and there's a madness in Manhattan in the same month that can be even more fascinating to those who claim they hear the gossipy music of this metropolis.
"Eddie Fisher's going into the Las Vegas Desert Inn May 16," one ever said he was giving up singing?" a sly voice says.
"Jack Benny's daughter Joan is here tonight," informs a friend at the Waldorf, "with young Bobby Friedman, who is rich from having money."
"Yes, I do overflow my dress," admits Denise Darcel at 21, "but where else am I going to wear me?"
"We're trying to get Jack Paar out of his NBC nighttime contracts," insists an MCA agent, "because if he did a few spots, we'd make more in commission."
"Joyce Mathews is so sick," concedes her ex-husband Milton Merie, "that I can't get her on the phone."
Gordon and Sheila Mac Rae tried out their hidden mikes in their glamorous Waldorf opening.
THE MIDNIGHT EARL . . .
Tony Bennett and his estranged wife were hand-in-hand at Basin St. East before going to court to arrange a divorce . . . Ed Ames, who quit the Ames Brothers singing fourm . . . Trio at the Satellite: Joan Crawford and her twin daughters . . . Sal Mineo invited his "Exodus" romantic interest, Jill Haworth, to the Oscar ceremonies, but she can't get out of school here . . . Zsa Zsa Gabor will get \$10,000 a week in summer stock.
Liz Taylor rejected a major magazine's bid for the story of her illness . . . Ann Sothern was offered a producers' job at Desilu . . . Petite Annie Fargy of "Angeli"—she's four-foot-eleven—is unhappy about the new Paris styles: "They're all for Amazons, girls who are five-foot-three or four." . . . There's already a hillybilly song about the Caroline Kennedy kidnapping scare, called, "Careful, Caroline."

Special Shows to Spark TV

Eichmann, Civil War and White House Set to Quicken Slowing Pace
By CYNTHIA LOWMY
AP TV Studio Writer
NEW YORK — Television's pace is slowing as the weather becomes warmer, but it will be sparked during the next few days by special shows on the Eichmann trial, on the White House, on the Civil War.
Tonight, however, the main item on the bill is ABC's "Along With Mitch" (9-10 Eastern Standard Time). Saturday's most promising special includes CBS' report on the Master's Golf Tournament (5-6 p.m.) from the Augusta National Golf Club and NBC's "Nation's Future" debate on whether the trial of Nazi Eichmann serves the cause of international justice (8:30-10:30).
SUNDAY LOOKS GOOD
Sunday, as usual, has a number of promising programs. ABC's "Directions '61" (11:30 p.m.) will tackle an abbreviated dramatization of "Doctor Zhivago." There is also the final "Young People's Concert" by the New York Philharmonic orchestra on CBS (3-4). ABC's "Issues and Answers" (4:30-5) will have the internal revenue commissioner, Mortimer Caplin, talking about the income tax laws. NBC's briefing session, "The Trial of Adolf Eichmann," will be broadcast from 6:30 to 7.
END JFK REPORT
"J. F. K. Report No. 2," NBC's special Tuesday night (11-11) will show the President and the First Lady in the White House. On Tuesday evening CBS will repeat its "Eichmann-Engelmann of Death" (10-11).
"CBS Reports" * * * Thursday (10-11 p.m.) is Carl Sandburg at Gettysburg talking about the Civil War. ABC's "Silents Please" (10:30-11) is a reprise of the film career of Will Rogers.
TV, Radio Plan Coverage on Astronaut Event
NEW YORK (AP)—Whatever happens in a few weeks when the United States attempts to shoot the first astronaut into space, the American people will be able to watch and hear the whole event. The four major television and radio networks are temporarily putting aside their rivalries to pool men and equipment for complete coverage—from the firing pad at Cape Canaveral to the Caribbean where it is expected the missile will drop with its human cargo.
Mobile equipment will follow the progress of the chosen astronaut into the missile. Five cameras, operated by remote control, will provide closeup shots of the firing itself.
Other cameras will follow the flight of the missile as far as possible. Film crews will be aboard ships and planes, assigned to recover man and missile. Other crews will be stationed at Grand Bahama Island where it is expected the astronaut will be taken.

Tax Aid for UP Iron Killed in Committee

LANSING (AP)—A bill aimed at easing the state tax on Upper Peninsula iron mines has been killed in a committee of the House of Representatives.
"There were too many 'bugs' in it," said Rep. Rollo G. Conlin, H.R. 101, chairman of the General Taxation Committee, which heard bitter pro and con arguments on the measure.
"The thing needs a lot of study," Conlin said. "There was just too much in the bill we weren't sure about."
The measure would have changed the tax on beneficiated underground iron ore from estimated value to actual tonnage mined and shipped.

WIEGAND MUSIC SPRING FEVER SALE

Clearance of All Trade-ins
ORGANS and PIANOS
GULBERGHEAN MODEL B
Trade-in on large organ. We will give a new organ warranty on this.

Discover 'Life' in Core of Kentucky Meteorite

WASHINGTON (UPI)—Something from the hard core of a meteorite that fell on Kentucky 11 years ago appears to have come alive in a government laboratory.

It is a primitive form of life which originated in space scores

of millions of miles from earth, scores of millions of years ago?

Or is it an earthly micro-organism that somehow penetrated to the dense heart of the meteorite which crash landed near Murray, Ky., in 1957?

All scientists know for certain about the matter clouding their

test tubes is that "something is there that we didn't put in."

Whatever it is, it resembles primordial organisms found in rocky cores from deep holes drilled in the earth by man. These ancient organisms have been revived in nutrient cultures after lying dormant for millions of years.

The resemblance between them and the organic material from the Murray meteorite suggests—if it suggests anything—that life can exist in extremely hostile environments, whether in outer or inner space.

Dr. Frederick D. Staser, microbiologist of the U.S. geological

Survey, and R. Walter Newton, chief of the germ-free animal laboratory of the national institutes of health, twice have put material from the Kentucky meteorite through experiments to determine whether it contained anything possessing attributes of life.

Each time they have seen in

their cultures clouds of something—tiny, twisted, round rods—which seemed under the microscope to be moving.

Whether this movement was the senseless jiggling that all molecules manifest or something more akin to the motions of living organisms, they do not know.

have been finding indications of organic substances in meteorites from space.

In recent months, a team of New York scientists, infected with modern chemical methods substances in an ancient meteorite which they felt could have been produced only by living things.

Staser and Newton do not claim that the apparently self-duplicating matter from the Kentucky meteorite came from outer space.

Terrestrial organisms have a way of penetrating into the most unlikely places—such as boiling springs, deep earth strata, and even jet aircraft fuel.

JFK, Macmillan Gloomy Red Crises Loom Up

Antitrust Suit Filed Against Chrysler Corp.

**Accuse Firm of Using
Pressure on Retailers
Who Sell S-P Cars**

WASHINGTON (UPI)—The Justice Department today accused Chrysler Corp., third-largest U.S. auto manufacturer, of applying illegal pressure on Chrysler dealers who also sell cars made by the Studebaker-Packard Corp.

Atty Gen. Robert F. Kennedy announced the filing of a civil antitrust action in U.S. District Court in Ft. Wayne, Ind., against Chrysler and its subsidiary, Chrysler Motors Corp.

Chrysler Motors distributes and sells vehicles to the parent firm.

The complaint charged that Chrysler unlawfully has required retail dealers to give up franchises for other cars—particularly Studebaker-Packard—in violation of the Sherman Anti-Trust Act, Kennedy said.

Chrysler, with 1,147,000 units sold in 1960, is approximately 10 times the size of Studebaker-Packard, smallest U.S. carmaker, which sold 106,958 vehicles last year.

Of approximately 2,258 Studebaker-Packard dealers, nearly a third also sell cars of other makes, including Chrysler products.

The principal cars involved in the complaint are Studebaker-Packard's Lark and Chrysler's Valiant. Both are compact cars.

A number of Chrysler dealers sold the Lark before Chrysler went into the compact car field.

Kennedy said that after the Valiant became available in late 1959, Chrysler representatives "in numerous occasions" told dealers that

Host of Friends Hail Monroe M. Osmun

Pontiac saluted Monroe M. Osmun last night, establishing a college scholarship fund in his name.

More than 425 friends and life-long acquaintances honored the 59-year-old Pontiac clothier and board of education president at a three-hour testimonial banquet at Elks Temple.

A beaming Osmun brushed aside the plaudits of the evening.

"I'm sure many of you deserve this honor more than I do," he said.

Re-emphasizing a serious theme of the banquet, Osmun hoped that others would receive similar honors at future banquets for the accumulation of scholarship funds.

★★★★★

Gerald W. Kehoe, president of Fisher Body Local 286, UAW, banquet chairman, was confident that proceeds from the sale of more than 600 tickets at \$5 apiece would net the \$1,000 goal of the evening.

Trustees of the Monroe M. Osmun Fund are to distribute the money in \$250 slices to aid Pontiac high school graduates to attend the college of their choice.

"The best time for the community to thank people for their civic service is while they're still with us, not after they've passed on," Kehoe said. "Let's send flowers to the living every year."

For "Min" Osmun, 100 Ogden Road, sharing the spotlight with

Could Revolutionize Undersea Warfare Navy Tests on Porpoise

WASHINGTON (AP)—A plump porpoise named "Notty" has given Navy scientists ideas that could change their concepts of torpedo design, underwater sound detection, and anti-submarine warfare.

★★★★★

"If present theories on the porpoise's secret of speed are correct, future subs and torpedoes may have heated skins that can ripple," said an article in the current issue of Naval Research Reviews.

This is an official Navy publication reporting highlights of technical progress in research by Navy laboratories and contractors.

The article discussed observations on the 6-foot, 180-pound female porpoise as conducted by scientists of the Naval Ordnance Test Station, China Lake, Calif. Notty, described as a "superbly intelligent animal," draws its name from the first letters of the station's title.

★★★★★

Last spring, the station commissioned Marineland of the Pacific at Palos

Verdes, Calif., to catch and train a porpoise — and Notty was the mammal it caught.

★★★★★

"One theory of the porpoise's speed is its control of its skin to reduce drag," the report said.

Around its nose, where there is a smooth water flow, the skin is nearly bloodless. But toward the tail, where turbulence and drag normally build up, the animal has a progressively increasing amount of blood vessels.

Scientists say this greater circulation toward the tail could produce a smoother flow either through wrinkling the skin.

The porpoise swims primarily with vertical movements of the tail. The fins are used only as stabilizers. It also is capable of jumping 15 feet out of the water and going as deep as 1,000 feet.

"An explanation of all this," the research report said, "may lead to the development of techniques enabling men to dive deeper and to escape from submarines without long periods of decompression."

Cool Weather in No Hurry to Say Goodbye

Temperatures will continue cool until Tuesday and Wednesday when the weatherman says the mercury will do a little climbing. Tonight's low will drop to near 28.

Saturday will continue partly cloudy and cold, the high about 47.

Morning northwesterly winds at 10 miles per hour will become west to northwest at 5 to 15 m.p.h. tonight.

Thirty was the lowest recording in downtown Pontiac preceding 8 a.m. The reading was 42 at 1 p.m.

Red Sails Ship to Sweden, Asks for Political Asylum

HEMSEN, Sweden (UPI)—The captain of a 20-ton Soviet submarine tender sailed his ship into Swedish waters Thursday night and asked for political asylum, police said today.

But a spokesman for Sweden's supreme command said none of the ship's nine-man crew had sought asylum with the skipper so far. They stayed aboard the gray-painted vessel while the captain a Lithuanian-born lieutenant about 40 years old, went ashore.

Swedish authorities did not immediately identify the defector. There was no early announcement of whether he was granted asylum.

★★★★★

There were reports that a Soviet submarine followed or chased the tender. But Maj. G. Westerlund of the Supreme Command said "There is nothing to confirm these reports."

The Swedish Supreme Command said the tender dropped

anchor near Naer's Lighthouse on Gotland at 10:45 (4:45 Pontiac time) Thursday.

The Coast Guard was immediately alerted and a customs patrol cruiser went out to the Soviet vessel, a spokesman said. Three Swedish torpedo boats were dispatched to find the submarine if possible.

END, OR BEGINNING?

Police said the tender's commander came ashore and asked political asylum. They said he spoke in German.

Hopeful on Laos but Both Fear Berlin, N-Tests

**Will Issue Statement
After Saturday Morning
Final Conference**

WASHINGTON (AP)—President Kennedy and British Prime Minister Harold Macmillan reportedly fear the development of a series of crises between the Western powers and the Soviet Union this year.

These views are reported to prevail in spite of encouraging progress recently made toward agreement on a cease fire in the civil war in Laos.

A generally somber outlook for East-West relations emerges from information made available by U.S. and British officials on the discussions of the two allied leaders here during the past two days.

The talks were recessed today while Macmillan flies to Boston for an address at the Massachusetts Institute of Technology.

A final session of the two men and their advisers will be held at the White House Saturday morning after which they plan to issue what one official called a businesslike statement on the range of their discussions.

PICTURE UNFOLDS

Meanwhile, from authorities who participated in the meetings, the following picture of immediate and potential cold war trouble in Geneva and over Berlin shapes up:

1. The U.S.—British negotiations with the Soviet Union for an agreement to prohibit the testing of nuclear weapons permanently under an international policing system are making very little progress.

The Soviet Union's new demand that the agreement be administered by a three-man directorate completely unacceptable to Britain and the United States.

The directorate would be controlled by the Soviet Union.

(Continued on Page 2, Col. 3)

Flash

LANSING (UPI)—Appropriations chiefs in the Legislature today said Michigan colleges and universities they must either increase their tuition charges to students or cut back their services. (Earlier story, Page 2.)

PUSHING OFF — A sailor keeps the presidential yacht "Honey Fitz" away from the dock as President Kennedy and British Prime Minister Macmillan leave for a cruise down the Potomac River to Mount Vernon and back. During the cruise Thursday afternoon they held a conference on world problems around an oval table in the dining salon.

Senator Appeals to Kennedy

WASHINGTON (UPI)—Sen. Mike Mansfield, D-Mont., called on the Kennedy administration today to strengthen South Viet Nam's

Viet Nam Army 'Must Get Help'

WASHINGTON (AP)—The United States does not intend to let down the people of South Viet Nam "in the dangerous situation they are now facing," the State Department said today.

Mansfield, D-Mont., called on the Kennedy administration today to strengthen South Viet Nam's

They noted that as a result of Communist raids more persons are being killed in South Viet Nam than in Laos.

★★★★★

Mansfield, the Senate Democratic leader, said all of South-east Asia may be threatened if the Communists are permitted to gather sufficient strength to take over the country.

"The danger in free Viet Nam could be far more significant and therefore more critical to all of Southeast Asia and to the United States than the present difficulties in Laos," Mansfield said.

He said in an interview he thought consideration should be given to a request of President Ngo Dinh Diem for additional aid to enlarge his 150,000-man army to fight growing terrorism of the Communist Viet Cong.

U.S. OFFICIAL WOUNDED

In Saigon a terrorist's hand grenade today wounded an American aide official. He was the first American victim of a terrorist in South Viet Nam since November.

The attack was also the first violence in South Viet Nam's capital since the Viet Cong rebels stepped up their terror campaign in an effort to scare spaces away from the polls at the presidential election Sunday.

The American, Howard C. Thomas, 47, of Fort Myers, Fla., was wounded in the right eye and his face was pierced by fragments of the grenade.

U.S. officials said the injuries were not critical, but Thomas, whose vision in his left eye was impaired, was flown to the Philippines for treatment at the U.S. Air Force Hospital at Clark Field.

In Laos, four Soviet planes have dropped more rebel soldiers, and material near the royal army headquarters at Yang Vieng north of the capital, Viengxay, a government spokesman said today.

The announcement contradicted earlier reports that the Communists

not Pathet Lao had given up an attempt to seize the headquarters, 80 miles from Viengxay.

Acting Information Minister Tiao Sopsatsana said he was unable to say how many rebels were dropped near Yang Vieng.

WILL STAY PUT

The new airdrop by Soviet planes indicated the rebels intend to stay put despite reinforcement of royal troops by a parachute drop earlier this week.

The sudden paratrooper activity on both sides appeared to be an attempt to consolidate positions and gain new ground before an expected cease-fire halts the struggle.

Sue Lawrence Jury Still Out

**Deliberations on Fate
of Berkley Beautician
Enter Second Day**

Mrs. Sarah Sue Lawrence waited while an all-woman Circuit Court jury was deliberating her fate for a second day.

The 33-year-old former Berkley beautician faces a maximum of life in prison, if convicted, in the slaying nearly two years ago of an Independence Township woman who had married Mrs. Lawrence's

Circuit Judge Clark J. Adams sent the 11-woman jury out to begin deliberations at mid-afternoon Thursday. They deliberated an hour before they were dismissed to return home.

They returned to begin deliberations at 9 a.m. today.

In his charge to the jury, Judge Adams said the jury could return one of four verdicts, guilty of first-degree, second-degree murder, or manslaughter, or not guilty by reason of insanity.

Mrs. Lawrence's attorney, James R. Renfrew, used insanity as a defense in the April 18, 1959 shooting of Mrs. Wyvona Delores Crenshaw, 33, of 6309 Snow Apple Drive.

Renfrew produced witnesses during the five days of testimony to show that Mrs. Lawrence, a former beautician at a Pleasant Ridge beauty salon, suffered head injuries in a three-car accident New Year's Eve 1957.

After the shooting of Mrs. Crenshaw, who had been married only four months to the man that Mrs. Lawrence once dated, Mrs. Lawrence was judged criminally insane and committed to Iowa State Hospital.

She was released from the mental institution last November. A first-degree murder warrant awaited her.

FRIENDS HONOR "MIN" — A beaming Monroe M. Osmun and his wife Alice (left) pose with some of the main speakers at last night's scholarship fund-raising testimonial dinner. With the honored couple (from left) are Mayor Philip E. Rowston; Dr. Dana P. Whitmer, superintendent of schools; Howard V. Heldenbrand; and Ken Morris, UAW regional director. More than 425 persons, many of them life-long friends, honored "Min" Osmun for outstanding service to his city.

Adlai Stevenson U.N. Congo talk

He and Cypriot Envoy Withdraw in Effort to Conclude Debate

UNITED NATIONS, N.Y. (UPI) — U.S. Ambassador Adlai E. Stevenson decided today to speak in the General Assembly's Congo debate. The Assembly sought to wind up the Congo debate and Cypriot Ambassador Zoua Rousides both withdrew from the speakers' list.

From Our News Wire
UNITED NATIONS, N.Y. — Ambassador Adlai E. Stevenson today spoke in the General Assembly's Congo debate. The Assembly sought to wind up the Congo debate and Cypriot Ambassador Zoua Rousides both withdrew from the speakers' list.

BOY AND DOG LOST — One-year-old James Alfred Hooks and his dog, a year-old boy, were found by the Dallas Police. Both were lost. It didn't take police long to find where the toddler belonged. The police, who thought the dog belonged to the youngster, discovered the dog was also lost and had tagged along to the police station with the child. The unnamed dog will spend time with the Hooks family until its owner can be found.

Friends Hail 'Min' Osmun

(Continued From Page One)
his wife Alice at the head table, there were moments of laughter, surprise, nostalgia and pride.

Friends described him as a loyal son of Pontiac, combining the common touch with a rare record of public service.

For friends of 30- and even 40-years duration there was genial ribbing by the veteran toastmaster Howard V. Heidenbrand about the approach of age 40.

Race to Delay Local Recounts

Ballot Boxes to Stay Locked Pending Result of Wayne State Duel

Township and city clerks have been warned that any local recounts will have to await a probable one on a state level to determine the winner of the second of two Wayne State University Board of Governors' posts on Michigan's spring ballot.

County Clerk Register Daniel T. Murphy Jr. issued the warning to local clerks after he had been instructed by Robert M. Montgomery, state director of elections, that ballot boxes and voting machines must be kept locked pending a possible state recount.

The final unofficial Associated Press tally shows Republican Thomas B. Adams, an advertising company president from Bloomfield Hills, leading Democrat Ralph E. Richmond by 30 votes for the second MSU board position.

Collects Award for Ad Address

Ernest Jones Lauded for Talk on Future Media Frontier

For an address that "contributed to creative media thinking," Ernest A. Jones, president of MacManus, Jones & Adams, Inc., Bloomfield Hills, advertising agency, has won the grand award in the third annual media awards sponsored by Media/scope magazine.

The award was presented to Jones by a special committee "Take Me to Your Reader," which he delivered before the Magazine Promotion Group in New York.

He has been president of MacManus, Jones & Adams since 1955. Prior to joining the Bloomfield Hills agency in 1958 he was advertising manager of the Polish Daily News.

A popular speaker before advertising groups, Jones suggested in his talk before the magazine group that there be publisher-sponsored research on the "ego-involvement of the reader with the magazine—or in fact, with any vehicle which will carry the ultimate advertisement."

The measure of emotional involvement of various media, in his opinion, Jones said, "is a major variable between successful advertising and failure. It probably is the next media frontier which we must conquer."

Jones lives at 999 Cranbrook Road, Bloomfield Hills.

Applications Being Taken for Summer Day Camp

French art gallery with paintings done by members, and a cafe de la Paix orchestra arranged.

French art gallery with paintings done by members, and a cafe de la Paix orchestra arranged. Mrs. John Rust of 1568 Kirkshire Road is the general chairman of the event. She said more than 250 couples are expected to attend.

The rooms at the country club will be named the Rue de la Paix, Moulins Rouge and Arc de Triomphe. French lamp posts will be placed at the entrance to each room.

Children from age 6 may be enrolled for the season which begins June 19 and continues through July 7.

Four morning courses are offered each meeting from 9:30 a.m. to 12:30 p.m. Monday through Friday. A fifth program on science for boys 9 to 11 years old will be offered in one of the morning programs.

All courses are held swimming at Cranbrook's Joseph Pool and in the smaller adjoining pools. The swimming classes will be supervised by Red Cross certified instructors.

Three new directors of the Birmingham Chamber of Commerce will be named at the organization's annual dinner party April 19 at Devon Gables.

The directors whose terms are expiring April 30 are Richard J. Jones, Thomas Monahan and Eugene Parmenter.

A six-member nominating committee is currently preparing a slate of six candidates. Ballots will be mailed to all members.

The three elected will meet with the other six directors on May 1 to select officers for next fiscal year.

Guest speaker for this year's annual party will be Dr. Richard C. Bates of Lansing. Dinner will be served at 6:30 p.m.

A Parisian theme will be followed by the Birmingham Newcomers Club at its dinner dance April 15 at the Rochester Country Club.

The "April in Paris" setting will be complete with hostesses costumed as can-can girls.

See Scramble to Cut Up Congo

Future Government of Country is Uncertain May Be Many States

LEOPOLDVILLE, the Congo, (AP)—The Congo's future government announced today the lifting of a four-month-old blockade of rebel Orinoko and Kivu provinces, as a gesture to encourage forthcoming talks on a political settlement.

From Our News Wire
LEOPOLDVILLE, the Congo, (AP)—The Congo's future government announced today the lifting of a four-month-old blockade of rebel Orinoko and Kivu provinces, as a gesture to encourage forthcoming talks on a political settlement.

Every politician in the Congo wants to be a premier or at least a minister.

The U.N. leader in Elizabethville, however, has said that little fresh food today.

With months of maneuvering and talks still in the offing, it is difficult to predict when the Congo finally will emerge.

BOUNDARIES A PROBLEM
But if, as appears likely now, it will be some form of federation or confederation, the hardest part will be to draw the boundaries.

Test Delegates Face Deadlock

Russia Demands Veto in N-Curb Planning but West Cries No

GENEVA (AP) — The Western powers and the Soviet Union were at another standoff in the nuclear test ban talks today with neither side ready to take the responsibility for breaking off negotiations.

British delegate David Ormsby-Gore declared Thursday that the West has shown "monumental patience" and drew a short curtain over Soviet delegate Semyon K. Tsarapkin that "our patience certainly matches yours."

Despite the Soviet refusal to come an inch toward the Western position, Ormsby-Gore told Tsarapkin British and the United States have no intention "at this time" of quitting the talks.

The representatives of the three powers met for less than three minutes today, put out a stinging communiqué, and adjourned their deadlocked negotiations until Monday.

Some Western diplomats are talking about another recess in the negotiations, that resumed March 21 after a suspension of 316 months.

VETO BLOCKS IT
The West in a package plan has accepted several Soviet proposals for joint nuclear experimentation but Tsarapkin countered the Western insistence on independent control machinery to police any test ban with a demand for what in effect would be a veto power over the control apparatus.

He proposed that the control apparatus be headed by a three-man directorate representing the Communist bloc, the Western nations and the neutral nations. Unanimity would be required for any action.

Ormsby-Gore and U.S. delegate Arthur H. Dean repeatedly declared such an arrangement was unacceptable and appealed to him to withdraw his demand.

But Tsarapkin told newsmen Thursday his government has no intention of backing down.

If the Geneva talks do fail, President Kennedy will be faced with an almost immediate decision on whether to order a resumption of nuclear testing which has been suspended since the Geneva conference started 2½ years ago.

Leader of Famed Stunt Team Dies in Crash

LAS VEGAS, Nev. (UPI) — Maj. Robert S. Fitzgerald, leader of the famed Thunderbolt stunt team, died as he leaped by the airplane.

Whether in an old Aerona that carried him on his first flight when he was 7 or the Thunderbolt he flew in his last flight, Fitzgerald was at home in the air.

He was watching from a distance Thursday as other pilots practiced the daredevil maneuvers over his base, unexplainably crashed, Capt. George A. Nial, 31, Ft. Lauderdale, Fla., also a pilot and new narrator for the globe-circling team, died with him.

12,000 Set to Return at Pontiac Motor

Pontiac Motor Division will resume production operations Monday, with 12,000 Pontiac Motor Division employees returning to work.

Pontiac Motor had halted Buick and Oldsmobile divisions of General Motors Corp. in suspending production this week.

To Lift Frost Restrictions From All County Roads

The Oakland County Road Commission announced today a lifting of frost restrictions on all county roads.

Nation's Weather Sprinkled Over With Snow, Rain

By The Associated Press
More wet, cold and dreary weather dampened wide areas of the nation today. There were a few clear spots to brighten the spring weather scene.

Rain and snow continued in most of the Lower Great Lakes region, the Upper Ohio Valley, the Southern New England, the Northern Plains and the eastern end of Lake Superior.

Light showers, with snow in mountain areas, sprinkled scattered sections of New England.

In the West, it was much the same, with a rain-snow belt east of the Continental Divide in Colorado and New Mexico and in the Panhandle regions of Texas and Oklahoma.

Widely scattered showers fell in parts of Nevada, Utah and extreme northern Arizona and light rain sprayed the California-Mexico border.

J. of M. Professor
Joins to Washington

WASHINGTON (AP) — The Senate has confirmed President Kennedy's nomination of William J. Cohen, a University of Michigan professor, as an assistant secretary of health, education and welfare.

Cohen, an expert on the Social Security program and one of its original drafters, will be assistant secretary for congressional relations.

Sen. Carl T. Curtis, R-Mich., spoke against confirmation before the vote was taken Thursday.

Cohen said Cohen advocates increased Social Security benefits that would increase Social Security taxes.

WANTED BY FBI — William Terry Nichols was added Thursday to the FBI's list of 10 most wanted fugitives. He was described as a dangerous armed robber.

Denmark sold the Virgin Islands to the United States in 1917.

Auto Firms to Close
5 Plants Next Week

DETROIT (AP) — Chrysler Corp. and the Ford Motor Co. are closing five assembly plants next week. At the same time, operations will be resumed at four of their plants.

Chrysler said 2,800 men would be idled for the week at the Imperial plant in Detroit and at plants in St. Louis and Los Angeles.

About 4,500 will be affected by a one-week shutdown of Ford assembly operations at St. Paul and Dearborn.

Expect 4,000 to Attend
State Dental Gathering

The 10th annual meeting of the Michigan State Dental Association will open Monday for three days at the Statler Hilton Hotel in Detroit with an expected attendance of more than 4,000 dentists from all sections of the state. Many from the Pontiac area are expected to attend.

Simultaneously, the Women's Auxiliary will hold its silver anniversary meeting at the Statler Hilton Hotel, and there will be annual meetings at the Statler Hotel of the Michigan State Dental Hygienists Association and the Michigan State Dental Assistants Association.

Ethiopia Gets Vaccine
to Fight Yellow Fever

GENEVA, Switzerland (AP) — Yellow fever vaccine has been flown to Addis Ababa, Ethiopia, to fight an epidemic. Red Cross spokesman announced here Thursday. The 20,000 doses of vaccine were sent on urgent appeal from the Ethiopian Red Cross, which said the epidemic has claimed several thousand lives.

Chevrolet 700 Lakewood Station Wagon

Monza Club Coupe

One of these Chevy Corvairs wants

YOU

(in a friendly way, of course)

Either of these Corvairs would make you a wonderful traveling companion. (Any of Corvair's ten budget-priced models would, for that matter.) The Lakewood Station Wagon earns its keep with a solid 68 cubic feet of cargo space, 10 of it under that lockable hood. And the Monza Club Coupe, with its bucket-type front seats, lets you in on some ultra-comfortable driving.

And they both handle and brake and perform beautifully. (Proof of the pudding is the way the '61 Corvair manhandled the recent Canadian Winter Rally, winning outright and taking the first five places in its class in this rugged 1,265-mile test.) Look 'em over at your dealer's. And if you can't decide which one you want, feel free to take both.

See the Chevy Corvairs, Chevrolet cars and the new Corvette at your local authorized Chevrolet dealer's

MATTHEWS-HARGREAVES, INC.

631 OAKLAND at CASS PONTIAC, MICHIGAN FE 5-4161

ONE DIED HERE — Mrs. Bertha Lee, 81, was killed and five persons were injured in a collision at Nashville, Tenn., between the car in which she was riding and this \$15,000 custom-built sports car. The car was built by Clarence Harwood Briley III, 18, being re-

moved from the wreckage on the far side. Twins George and Perry Lescher, 17, passengers in the sports car, lie injured in the foreground. A woman and her small daughter, riding with Mrs. Lee, were also injured.

County Republicans Vacate Old Quarters

Memories — some sad, some gay — will come back to a handful of County Republicans this weekend as they pack up in preparation for their move Monday into a new headquarters.

"I've already come across a poster saying 'Vote for Unlabeled Charlie Potter,'" said Charles A. Ferry, public relations director for the Republican Committee of Oakland County.

He'll head a host of volunteers this Saturday and Sunday who will come from attic to the basement their present headquarters at 331 N. Woodward Ave., Birmingham, in search of what is to be trashed and what is to be erased.

Monday will be moving day to new headquarters at 744 S. Adams Road, Birmingham.

While they get set to pack the valuables, such as voter indexes,

workmen are already roaming around the white, two-story frame home, their headquarters since August of 1957, in preparation to raze it to make way for public parking.

Their new home is pretty much like their present headquarters — it is an old house with two stories and an attic — except that it should have more floor space, Ferry said.

They will rent it from its owners like they did their first headquarters. No rental price was disclosed.

Heater Explosion Blows Out Wall

A back wall and corner of the Latimer TV Shop, 3330 Sasabaw Road, Waterford Township, was blown out at 3 a.m. today due to an overheated electric water heater, according to the owner, Gaston McCurdy, 735 Stirling St.

A nearby resident, Jean Runyon, 4166 Quillen St., was awakened by the explosion and notified township police and Fire Marshal Lewis Gott. There was no fire.

The heater was located in the back part of the building along with many TV sets and testing equipment. An inventory was being taken today to determine the amount of damage caused by the blast.

Begin Ex-Nazis' Trial in Murder of 500 Jews

KASSEL, Germany (U-P) — Trial began here today of two ex-Nazi police officers charged with helping kill more than 500 Jews during World War II in the Soviet Union. The defendants, Franz Lechthaler, 70, and Willi Papenkort, 52, were arrested last year. Until that time, Papenkort had been a policeman in Essen.

Tito Ends Morocco Visit

CASABLANCA, Morocco (U-P) — President Tito of Yugoslavia ended a five-day state visit to Morocco Thursday and departed aboard his private yacht for Tunis, the next stop on his African tour.

Engineer Society Schedules Meeting

The Michigan Society of Professional Engineers, Oakland Chapter, will hold its monthly meeting next Thursday at 7 p.m. in the Rotunda Inn.

Fred Pradko, chief of the Dynamic Simulations Laboratory in the research and engineering directorate of the Army Tank Ordnance Command, will be the guest speaker. His topic: "The Army's Research in Mobility and Fire Power."

Pradko is an automotive research and design engineer and a graduate of Wayne State University.

The May meeting of the group will feature an election of officers.

Civil, Criminal Court Matters Being Reviewed

Current developments in civil and criminal court matters are being reviewed at the two-day annual conference of the Michigan Association of Judges which concludes today at Michigan State University.

Pontiac Municipal Court Judge Cecil McCallum is secretary of the association.

Among the conference speakers is Gov. John B. Swainson. A review of current traffic problems will be made to the judges by Gordon H. Sheehy, director of MSU's highway traffic safety center.

Architect to Speak at Art Teachers Meeting

William Lyman, A.I.A., of 5395 Hickory Bend, Bloomfield Township, architect with Smith & Smith, Associates of Royal Oak, will speak at the spring meeting of the Detroit Art Teachers Club at Topinka's Country House April 21. He will give an illustrated talk on the present state of contemporary architecture.

• PRIVATE DINING ROOMS FOR BANQUETS, luncheons, wedding receptions and business meetings.

• COCKTAIL HOUR 4 TO 7 P. M. DAILY.

the University of Michigan's school of music will present the program for Pontiac Tuesday Musicales at 1:30 p.m. Tuesday in Grace Lutheran Church's Fellowship Hall.

Charles Fisher, assistant professor of piano, and Eugene Bossart, associate professor of accompanying and vocal literature, will appear in a two-piano recital.

Mr. Fisher, who has appeared as soloist with the Jackson, Ann Arbor and University of Michigan symphonies, has toured throughout the Midwest as both soloist and accompanist. He holds bachelor, master and doctorate degrees from the University of Michigan where he became a faculty member in 1954.

During his two-year tour of duty with the Army, Mr. Fisher served in Fort Sill, Okla., and Stuttgart, Germany. While in Europe he appeared as soloist and accompanist throughout Southern Germany under the auspices of the 7th Army Special Service.

Mr. Bossart's career in music began at the age of 11 when he was accompanist for a male chorus in his home town, Erie, Pa. Later he was a scholarship student in accompanying at Curtis Institute of Music in Philadelphia where he became associated with famed leader singer, Mme. Elizabeth Schuman, who assisted in launching his career as a concert accompanist.

TOURS WITH ARTISTS

In 1946, after service in the South Pacific during World War II, Mr. Bossart embarked on a tour of America, Canada, Europe, South America and the West Indies with as Mario Lanza, Charles Kallman, James Melton and Eleanor Steber. In 1949 he became exclusive accompanist for Gladys Swarthout. He joined the U-M faculty in 1954.

In the spring of 1961 Mr. Bossart will perform the entire piano and violin sonatas of Beethoven on the U. of M. campus.

Tuesday's program will include the selections "Prelude and Gigue," by Egidio; "Organ Prelude (Toccata)," Bach; and "Duetto Concertante," Mozart-Bosoni.

Musicale members also will hear the duo-pianists play "Romance," from "Second Suite, Opus 27," Rachmaninoff; "Sonata," and "L'Embarquement pour Cythere," by Poulenc.

"Variation on theme for Haydn, Opus 56 B," by Brahms and "Scaramouche," by Milhaud, will conclude the program.

CHARLES FISHER AND EUGENE BOSSART

Church Women to Meet

April Schedule Is Set

Women's organizations at First Presbyterian Church have scheduled meetings for April.

At 8 p.m. Wednesday Mrs. Richard Marsh of North Astor Street will be hostess to the November Group of the Women's Association. Her cohostess will be Mrs. Frank Gates.

April 14 at 12:30 p.m. women's groups will meet simultaneously in the homes of Mrs. J. C. Covert of Scott Lake Road, Mrs. D. B. Eames of Cherokee Road, Mrs. Lyndon Salathiel of Shore View Drive and Mrs. Robert Heitsch, West Iroquois Road.

Assisting with the gatherings will be Mrs. Harold Sneed, Mrs. Leslie P. Ellis, Mrs. Paul J. Rich, Mrs. Nora Vanderworp, Mrs. Donald Bos and Mrs. Floyd Short.

Mrs. Ralph Coia, Mrs. Francis Olmstead, Mrs. F. R. Wood and Mrs. H. H. Pratt also will assist the hostesses.

Mrs. Elaine Malone and Mrs. Charles Allen will be hostesses to the September-October Group in the church at 12:30 April 14.

The Mary-Martha Group will meet for a luncheon in the church April 18. Hostesses will be Mrs. Edson Doolittle and Mrs. James Sutton.

Exchange Pupil Talks to Opti-Mrs.

Rusli Maiza of Indonesia, exchange student at Pontiac Central High School, addressed the Opti-Mrs. Club Tuesday evening in the West Iroquois Road home of Mrs. Fred Coleman.

Rusli, who resides with the Wilbur Crawford family on Mark Avenue, is the only student from the island of Sumatra to study in this country under the American Field Service program.

Before the talk Mrs. W. C. Crawford traced the history of the AFV and outlined its objectives. Beginning with 22 young people, mostly from Germany, after World War II, the organization has brought 1,800 foreign students to the United States this year and hopes to have 2,000 studying here next fall.

Mrs. Orrin Hutton, program chairman, introduced the speakers.

Mrs. Roland Smith, president, welcomed two new members, Mrs. Glenn Russell of Clarkston and Mrs. William Whitlow.

Mrs. Gay Herrington and Mrs. Russell Woodbury assisted the hostess.

Back in Style

(UPI)—Ribbon dresses have made a big comeback in Paris. These are in a variety of colors. Some have full skirts. Their tops can be worked either vertically on or on the bias.

Feneleys to Mark 65th Anniversary

Mr. and Mrs. Bert Feneley of Charlotte Street whose 65th wedding anniversary is today will celebrate the occasion at an open house Sunday.

The affair will be from 3 to 6 p.m. in the Lotus Lake Drive home of the couple's son, Homer Feneley.

Mr. and Mrs. Feneley have another son Gene who resides on Ellwood Avenue seven grandchildren and 17 great-grandchildren.

Mrs. Buhl Burt was hostess for a meeting of Iota Eta Chapter, Pi Omicron National Sorority, Thursday evening in Hotel Waldron.

Members discussed coming events and appointed Mrs. Leon Shelley, Mrs. Lewis Egever and Mrs. Elma Haines to the nominating committee.

On the group's calendar for April is a meeting of the Pontiac Council of Pi Omicron April 13 at the Young Women's Christian Association with W. Cudman Frost, friend of the court, as guest speaker.

A Michigan state board meeting of the sorority is slated April 16

in Bay City, and on April 17 Mrs. Paul Hoskins and Mrs. Burt will represent the chapter at the "Miss Centennial" contest committee meeting in Elk's Temple.

Mrs. Joseph Cummings of Illinois Avenue will be hostess for the next meeting.

Canada's official emblem is the maple leaf.

PONTIAC NATIONAL GUARD ARMY

Reds Fighting Quito Meeting

President Ibarra Hopes for Good Conference but It May Blow Up

By WILLIAM L. RYAN

AP News Analyst

An inter-American conference is scheduled for Quito, Ecuador, next month to examine Latin-American problems. It may create new ones, wind up or provide an excuse for violent attacks on the United States.

Organized Communists and followers of Cuba's Castro are planning to disrupt the May 24 meeting, sponsored by the Organization of American States.

Ecuador's President Jose Velasco Ibarra, is battling all attempts to postpone the meeting, even though it may blow up in his face. He has even ousted one of his ministers for advising against Quito as the site for the meeting.

The Communists and Castristas, led by wily Pedro Saez, general secretary of the Ecuadorian Communist party, are seemingly intent on turning the conference into a fiasco. It could be as violent as the one that exploded at Bogota in the presence of Secretary of State George C. Marshall in 1948.

Anti-Yankee sentiment exists in Quito, Guayaquil and other Ecuadorian cities, especially among university students, intellectuals and members of trade unions. Capitalizing on this, the Communist-Castrista combine is demanding that "Latin Americans" replace Pan-Americanism. In a word: Keep the Yankees out.

The U.N.-sponsored organization said drivers with an "unconscious neurotic tendency to hurt or be hurt" are a major cause of traffic accidents that claim 1,000 lives throughout the world every day.

For that reason, the report said, accident prevention is often a matter of "mental health care," although drinking and inadequate physical and mental reactions are the most common causes.

Many Drivers Want to Crash, Claims WHO

GENEVA (UPI)—Many motorists are potential killers because of a deep-seated desire to wreck their cars, the World Health Organization reported Thursday.

The U.N.-sponsored organization said drivers with an "unconscious neurotic tendency to hurt or be hurt" are a major cause of traffic accidents that claim 1,000 lives throughout the world every day.

For that reason, the report said, accident prevention is often a matter of "mental health care," although drinking and inadequate physical and mental reactions are the most common causes.

Garbo, Chaplin, Astaire

Oscar Losers Rate Great, Too

By BOB THOMAS

AP Movie-TV Writer

HOLLYWOOD—The ballots are cast, campaigning has ceased, and now begins the hushed wait for the 1960 Academy awards.

Ten days hence, a new set will be added to the Motion Picture Academy's 33-year records. There will be much hoopla about the winners. I've always felt the losers deserved some notice, too.

What about Cary Grant? He remains Oscarless. Irene Dunne, Deborah Kerr, Rosalind Russell, Barbara Stanwyck, Charles Boyer, Fred MacMurray, William Powell, Henry Fonda and John Barrymore are among the other distinguished performers who never won the big prize.

And what about the winners? Five have won the best-actress award twice—Bette Davis, Olivia de Havilland, Luise Rainer, Ingrid Bergman, and Vivien Leigh. There have doubled for the best actor honor—Freddie March, Gary Cooper and Spencer Tracy.

Walter Brennan is the only triple winner among the acting contenders; he got his in the supporting category. Anthony Quinn scored in support twice. No supporting actress has been able to win more than a single Oscar.

Bette Davis has two other distinctions besides her double win. She was the only woman president of the Academy. And she owns the most acting nominations—nine.

Following her are Katharine Hepburn with eight nominations and Greer Garson with seven. Norma Shearer and Deborah Kerr have six apiece. Five-timers are Irene Dunne, Susan Hayward, Ingrid Bergman, Olivia de Havilland and Jennifer Jones. The latter two include one support nomination apiece.

The male stars don't seem to repeat as frequently. Tracy is tops with seven nominations. Laurence Olivier has been up six times. Fredric March, Paul Muni, James Stewart, Marlon Brando and Gary Cooper made it five times.

Serve Teen-Age Party Snacks That Are Way Out

THREE COLORS

Get out the latest popular records, ice up some soft drinks and lay in large quantities of food. You're giving a teen-age party! When you think you have enough food, double the amounts. You're not entertaining your women friends.

Let your own teen-agers prepare the food. They're sure to approve of Peppy Hamburger Pizza for a main course. It's a new way of combining two of their favorite foods.

Have large quantities of nibble food and provide a bowl of Sour Cream Onion Dip for dunking the fresh vegetables.

For dessert, what could be better than an ice cream "bar"? Surround a generous mound of vanilla ice cream with all the fixin's, including luscious butterscotch and chocolate sauces.

Have the adult members of the family retire to the far end of the house and let the adolescents take over. Suggest they do the clean-up job too.

PEPPY HAMBURGER PIZZA

Crust:
1 envelope dry yeast
1 cup warm water (110 to 115 F.)
1/2 teaspoon salt
1 1/2 cups sifted all-purpose flour

Soften yeast in warm water. Add salt. Stir in 2 cups of the flour. Turn out onto a lightly floured board and gradually knead in remaining flour. Knead until smooth.

and sauté. Cover and let rise in a warm place (80 to 85 F.) until double in bulk. Push down dough. Place on floured board and pound lightly with a rolling pin to deflate. Cover and let rise 30 minutes.

Roll and stretch dough to 14-inch (thickness in a 12-inch circle. Place on a lightly oiled baking sheet. Bake in a preheated very hot oven (450 F.) for 10 minutes or until about half done.

SOUP CREAM ONION DIP

Two 3-ounce packages cream cheese
1 tablespoon sour cream
3 tablespoons dried fresh onion
1/2 teaspoon salt
Dash ground white pepper
Fresh parsley, chopped

Combine the first five ingredients and mix until smooth. Turn into serving dish. Garnish with chopped parsley. Serve as a dip for fresh vegetable sticks, crackers or potato chips. Yield: 1 cup.

Cranberry Date Pudding Is Nice

To really enjoy that first spring hike, take along something good to nibble on between meals.

You might follow the U.S. Department of Agriculture's suggestion and make it a package or two of these fresh California dates that are in such plentiful supply. They are rich in energy and ready to eat right from the package.

Hamburger

1 1/2 pounds ground meat
1/2 teaspoon onion powder
1/2 teaspoon ground black pepper
1/2 cup bread crumbs
2 eggs, beaten

Combine all ingredients for hamburger and shape into an 11-inch circle about 1/2-inch thick. Place broiler rack covered with foil. Punch holes in foil to permit drainage of excess fat. Broil 3 to 4 inches from the source of the heat, turning to brown both sides. Total cooking time is 10 to 12 minutes. Slide onto partially cooked pizza crust and top with tomato sauce.

VANILLA BUTTERSCOTCH SAUCE

2 cups light brown sugar
1/2 cup light corn syrup
1/2 cup water
1/2 teaspoon salt
1/2 cup butter or margarine
3 teaspoons pure vanilla extract

Combine sugar, corn syrup, water and salt in a saucepan. Mix well. Cook, without stirring over moderate heat after boiling point is reached, to medium thickness, 20 to 25 minutes. Add 1/2 cup butter or margarine. Cool. Stir in pure vanilla extract. Serve over ice cream. Yield: 1 1/2 cups.

VANILLA CHOCOLATE SAUCE

2 squares unsweetened chocolate
2 tablespoons butter or margarine
1/2 cup light corn syrup
1/2 cup sugar
1/2 teaspoon salt
1/2 cup hot water
3 teaspoons pure vanilla extract

Melt chocolate and butter or margarine over low heat in a saucepan, stirring frequently. Blend in corn syrup, sugar and salt. Gradually add water and bring to boiling point and boil slowly 4 to 5 minutes, stirring constantly. Remove from heat and stir in pure vanilla extract. Serve over ice cream. Yield: Approximately 1 1/2 cups.

Tunalet Sauce

1 cup Italian tomatoes
1 tablespoon tomato paste
1/2 teaspoon salt
1/2 teaspoon garlic powder
1/2 teaspoon onion powder
1/2 teaspoon oregano leaves
1/2 teaspoon sugar
1/2 cup Parmesan cheese

Combine first 8 ingredients for the sauce. Spread sauce on top of hamburger. Place in a very hot oven (450 F.) for 5 minutes. Sprinkle with Parmesan cheese and serve hot garnished with sliced olives and sautéed mushrooms. Yield: 8 servings.

Teens Concoct Shakes With Chocolate Mix, Milk

It's reassuring to know that teen-agers have some tastes of which a parent can wholeheartedly approve. Among these is their taste for milk drinks, the chocolate milkshake outstanding among them. Teen-agers like a chocolate milkshake for good reasons: it has a rich flavor, it is cold, and there's lots of it. Parents can approve of it for equally good reasons: it provides ready energy and a good portion of the milk that every teenager needs.

The basic chocolate flavor of a milkshake may be varied or elaborated according to taste. Stir in marshmallow cream to make a chocolate mallow milkshake, and top each serving with a spoonful of good measure.

Go Caribbean and create a calypso milkshake with mashed ripe bananas mixed into the milk and chocolate combination. Or make a minty way milkshake, peppered up with a little peppermint flavor added to the chocolate, and a peppermint swizzle stick in each glass.

Don't be alarmed if the teen-agers have a few ideas of their own about what to add to a chocolate milkshake. The ideas may sound strange to you, but bear in mind that teen-agers like nothing better than to experiment. Every experiment they make along these

Bacon Noodle Dish Includes Cabbage

Of the many ways to make use of the big cabbage supplies, one of the most delightful is in a CABBAGE-NODDLE POTPOURRI, prepared like this:

Beat 2 eggs, add 2 cups sifted flour, a dash of salt and 2 tablespoons of water. Knead the mixture on a lightly floured board making a smooth, stiff noodle dough. Roll it very thin, let each side dry 1/4 hour, and cut into 1-inch squares.

Fry 1/2 pound diced bacon until crisp, then remove it to drain. Brown a small chopped onion in the bacon fat, and add 2 pounds of coarsely shredded cabbage, pepper, paprika and a bit of salt. Cover and cook until tender, about 5 to 10 minutes.

Meanwhile, cook the noodles in boiling salted water until tender; drain, and mix with the cabbage and bacon in a serving dish.

THERE'S A SONG IN THE AIR—a record on the player, musical notes on the cup sides and a Dreamy Chocolate Milk Shake in the offering. What better way to keep the gang in a whirl than by serving the perfect combination

of food, music and a long cool drink? Let them make their own liquid chocolate mix, the milk and the quick chocolate-flavored mix, the milk and one or two extras, like bananas or peanut butter, and let them supply the ingenuity.

Dreamy Chocolate Milk Shake

1/2 cup quick chocolate-flavored mix
1/2 quart (4 cups) milk

Combine quick chocolate-flavored mix and milk in a 1 1/2-quart refrigerator container. Stir to blend. Cover and chill. Shake well before serving. Yield: 4 servings.

VARIATIONS: 1. Chocolate Mallow Milk Shake

Measure quick chocolate-flavored mix into container. Add 1/3 cup marshmallow cream. Add 1 tablespoon of the milk; blend until smooth. Fill container with remaining milk, stirring briskly. Marinate each serving with a spoonful of additional marshmallow cream.

2. Calypso Milk Shake

Combine 2 mashed ripe bananas with chocolate mix and milk in a 1 1/2-quart refrigerator container. Stir to blend. Cover and chill. Shake well before serving with banana slices.

3. Choco-Peanut Milk Shake

Blend together 2 tablespoons cream-style peanut butter and 1/2 cup of the milk. Place in container. Add remaining milk and a quick chocolate-flavored mix. Stir to blend.

4. Minty Way Milk Shake

Add 1/4 teaspoon peppermint flavoring to chocolate-milk mixture in container. If desired, stir each serving with a peppermint stick.

Waxed Paper. Return to freezing unit and freeze until firm.

Coffee Ice Cream

1/2 cup (1/4 lb.) can sweetened condensed milk
1/2 cup strong black coffee
1/2 teaspoon vanilla extract
1 cup heavy cream

Set refrigerator control at coldest point. Combine sweetened condensed milk, coffee and vanilla. Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Pour into freezing tray. Cover tray with waxed paper.

Freeze to a firm mush, about 1 hour. Turn into chilled bowl. Break up with fork, then beat with rotary beater until fluffy but not melted. Quickly return to tray, cover tray with waxed paper. Return to freezing unit. Freeze until firm.

Chocolate Chip Ice Cream

1/2 cup (1/4 lb.) can sweetened condensed milk
1/2 cup water
1/2 teaspoon vanilla extract
1/2 cup semi-sweet chocolate pieces, finely chopped
1 cup heavy cream

Set refrigerator control at coldest point. Combine sweetened condensed milk, water, vanilla and chocolate. Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Pour into freezing tray. Cover tray with waxed paper. Freeze to a firm mush, about 1 hour. Turn into chilled bowl. Break up with fork, then beat with rotary beater until fluffy but not melted. Quickly return to tray, cover with waxed paper. Return to freezing unit. Freeze until firm.

Stuffed Franks

Cream up a batch of relish butter for the gang to spread in split frankfurters. This tangy mixture has onions, pickle relish and herbs in it. Cradle the stuffed hot

Grandma Never Made Ice Cream So Easily

It is an amazing thing to compare a recipe from a cookbook of 75 years ago with one of today. It gives you a good idea of how streamlined and simplified life has become for the lady in the galley.

Take an ice cream recipe, for example. Several decades ago it was a major production to make a quart of vanilla ice cream. The ingredients alone would stagger you—8 eggs, 4 cups of sugar, 1 quart of milk, 2 pints of rich cream, 5 tablespoons of vanilla. (You could spend a small fortune right there.) Then you put out the pans and ice and rock salt and after beating up all the ingredients a couple of times, packed it and covered it with a heavy carpet of mat and let it be for 3 or 6 hours.

Compare the above with a marginally easy modern recipe for a delicious vanilla ice cream made with sweetened condensed milk. Even a child could make this successfully. First step is to set the refrigerator control at the coldest point.

Then combine 2 1/2 cups of sweetened condensed milk, 1/2 cup water and 1 1/2 teaspoons vanilla extract. Chill. Next whip 1 cup heavy cream to custard-like consistency and fold into chilled mixture. Pour into freezing tray. Cover tray with waxed paper. Freeze to a firm mush, about 1 hour. Turn into chilled bowl. Break up with a fork, then beat with a rotary beater until fluffy but not melted. Quickly return it to a tray, cover with waxed paper and return to freezing unit. Freeze until firm.

Cocunut Angel Fingers

1 eight-ounce unbleached angel cake
1/2 cup strong black coffee
1/2 cup heavy cream
1 1/2-ounce package or can of shredded coconut

Rub brown crust from cake with fingers. Cut cake into 1/4-inch "finger" pieces. Dip cake fingers into condensed milk. Roll in coconut and place on greased baking sheet. Bake in a slow oven (325 degrees F.), about 20 minutes, or until lightly browned. Remove from baking sheet after a minute or two (when firm), and cool on cake racks. Makes about 4 dozen.

Fruited Tea Drink

For at-home dating in the spring, serve attractive Fruited Tea. Two 12-ounce glasses use 1 cup mixed blueberries and raspberries, 1 1/4 rounded teaspoons instant tea, and 1 1/4 cups cold water. Fill the glasses with alternate layers of berries and shaved ice. Stir in-stant tea and water, add sugar if desired, and pour over fruit and ice.

Corn Oil Recipes Offered

A new leaflet on quick breads, all made with corn oil, is now available free from: Quick Breads, Best Foods, Division Corn Products Company, 10 East 56 Street, New York 22, New York. Leaflet includes muffins, fruit and nut breads, corn bread, waffles, pancakes and doughnuts.

Sandwiches Are Hearty Fare

The word "sandwich" can be extended to include such extremes as hors d'oeuvres and smorgasbord. And somewhere in between is that slump favorite of hearty eaters now popularly known as the "he-man" sandwich.

Put 3 slices of buttered and toasted bread (white, rye, whole wheat or pumpernickel) together with one of the following fillings. Use No. 1 between first and second slices, No. 2 between second and third slices. If desired, spread slices with mayonnaise or salad dressing. Cut sandwiches into quarters, held together with wooden picks.

FILLING COMBINATIONS

- 1-Sliced smoked tongue, pickle relish, 2-Sliced American cheese, lettuce. Serve with olives, carrot curls, water cress; egg salad-stuffed tomato.
- 1-Chopped egg and bacon salad, 2-Sliced tomato, sweet-onion relish. Serve with sweet pickles, celery sticks; mixed green salad.
- 1-Tuna, crab, shrimp or lobster salad, 2-Sliced hard-cooked eggs, lettuce. Serve with radish roses, mustard pickles, coleslaw.
- 1-Peanut butter, crisp bacon slices, 2-Sliced tomato, water cress. Serve with watermelon pickles; mixed vegetable salad.
- 1-Sliced pork luncheon meat, mustard, 2-Smoky-cheese spread, chichory. Serve with green onions, carrot sticks; cucumbers in sour cream.

Keep Juice Covered

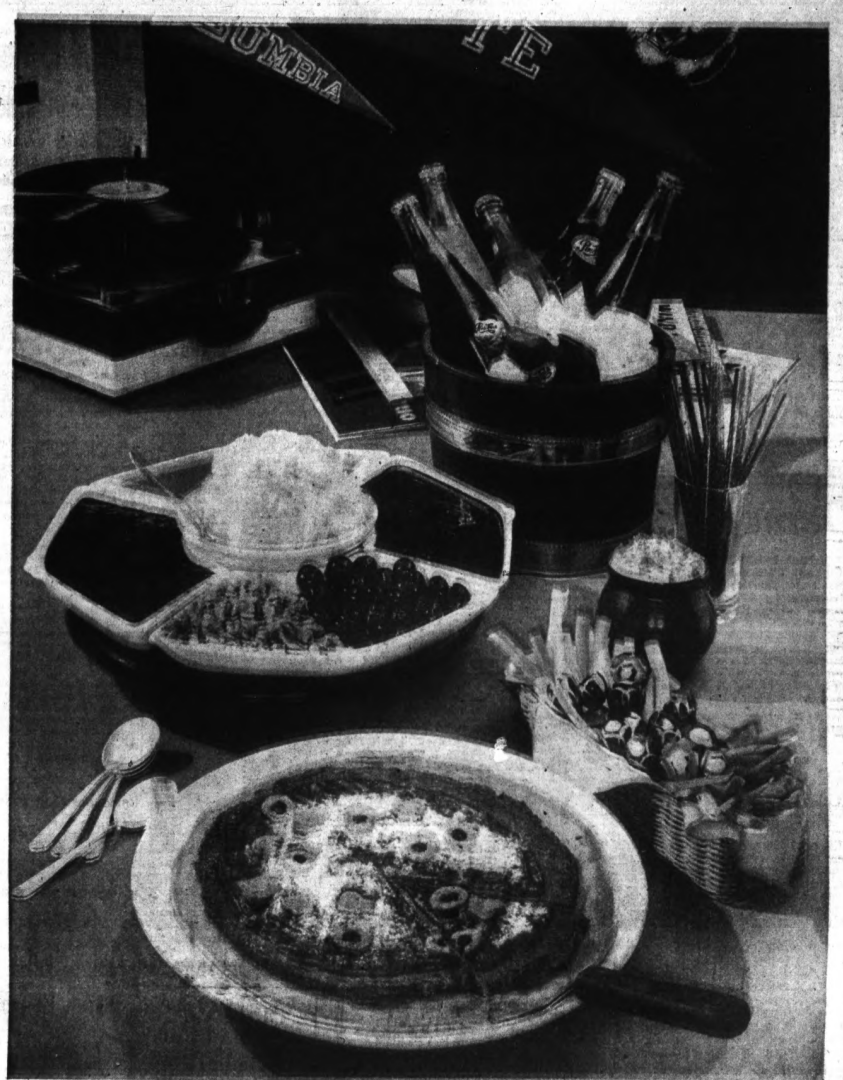

Frozen citrus juices will retain much of their ascorbic acid, or vitamin C content, if refrigerated in a tightly covered container. But home economists suggest quick usage after thawing.

Case for Peanut Oil

Peanut oil is ideal for frying. Because of its high smoke point, 450 degrees, it does not scorch easily. It does not absorb flavors and can be used repeatedly.

PARTY FOOD FOR TEENS — Hamburger-Pizza, a novel idea that combines the best of two favorite teen-age snacks. With this, an onion dip for nutritious raw

vegetables and a cold and peppy cola drink. Then, to wind up the festivities happily, give them the makings of their favorite sundaes, smorgasbord-style.

NEWS OF THE AREA

To Break Ground for \$78,500 Church Building

Over 100 persons are expected to attend ground-breaking ceremonies for the Oxford Methodist Church's \$78,500 educational and social building at 12:30 p.m. Sunday.

Rev. Fred Clark, pastor, will officiate at the ceremony immediately following regular services at the church, located on East Burdick Street just east of Washington Street.

When it is completed in six months, the new two-story brick veneer structure will contain six classrooms and a utility area on the first level and a kitchen and Fellowship Hall on the second floor.

Additional educational rooms will be built as the second phase in the church's construction project after the first unit is completed.

The second unit of the facility which is to be erected on the grounds behind the present church building, will be constructed when more funds are available.

The congregation includes a membership of about 200.

Named to Head Extension Club

Mrs. Shafer to Assume Duties This Summer as Davisburg Unit Meets

Mrs. Gerald Shafer, 10123 Rattles Lake Road, Davisburg, has been elected chairman of the Oakland County Home Economics Extension Council. She will assume her duties at the annual meeting in August.

Elected with her were Mrs. Herman Trost, Troy, vice chairman; Mrs. Robert Sanford, Lake Orion, secretary; Mrs. Claire Johnson, Waterford, community chairman; Mrs. Ora Porritt, Lake Orion, safety and health chairman; Mrs. Edward Schultz, Davisburg, recreation chairman and Mrs. William Bergeman, Waterford, publicity chairman.

In other business Wednesday the council approved final plans for the first Achievement Day tea to be held May 3 at the Waterford Activities Building and for a bus tour of Midland and Dearborn chemical plant on June 6 and 7.

Also favored was a new venture, called Craft Days slated for May 18 and 19 at Avon Park Pavilion, Rochester. It replaces the usual overnight camp.

A picnic for past and present council officers is scheduled for June 14. The date has been changed from June 7 because of the tour.

The organization's bylaws were altered to facilitate elections of representatives in the six districts before June 30 so the council will have its full membership for the annual meeting in August.

The districts are Independence, Orion, White Lake, North Waterford, South Waterford and Southfield.

Boroughs Man Retires

DETROIT (AP) — William C. Spruill, Burroughs Corp. director of advertising for the past 35 years, has retired after more than 40 years of service with the firm.

PLAN CARD PARTY—Making final arrangements for their Mr. and Mrs. Card Party to be held at 8 p. m. tomorrow at the Al Hanoutte showroom are four members of the Lake Orion Garden Club, sponsoring the benefit. They are (from left standing) Mrs. A. S. McNeill, hostess chairman, and Mrs. W. J. Andrews, club president. Seated are Mrs. H. J. Angeli Sr., general chairman, (left) and Mrs. I. J. Gouin, publicity chairman.

4 Area Communities Lose Vehicle Funds

Four area communities are among 46 in the state whose share of the motor vehicle highway funds for the first quarter of 1961 will be withheld because they failed to submit annual reports on the use of the money they received last year.

The State Highway Department said today the four local communities are Farmington, Franklin, Milford and Utica.

The department estimated the

total of the money withheld from the 46 communities will be \$500,000.

The funds will be released to the communities as soon as they submit their annual reports required by law, the department said.

Dr. Boyd Will Speak

HOUGHTON (AP) — Dr. James Boyd, president of Copper Range Co., will be commencement speaker at the Michigan College of Mining and Technology, June 17. Boyd will be awarded an honorary doctor of engineering degree.

Coin Club Is Planning Election and Auction

ROCHESTER — Officers for the coming year will be nominated at the Rochester Coin Club meeting Monday at 7:30 p.m. at the Avon Township Library.

Following the nominations, there will be an auction of rare coins. This phase of the evening program is open to the public.

Refreshments will be served. The club, which invites new members, meets the second and fourth Mondays of each month at the library.

Dem's Lose Stronghold

By DON FERNOLLE

PONTIAC TOWNSHIP — This former Democratic stronghold will be controlled by a Republican-dominated Township Board for the next four years.

The political turnout was completed here yesterday when GOP candidate M. Wayne Devor won a seat on the Township Board from Democrat Richard F. Avery in a draw.

Avery, 51, a four-year incumbent, trustee vacancy on the board in

Monday's election. Each candidate received 616 votes.

However, Devor won the Trusteeship and control of the township swing to the Republicans yesterday when he picked a slip of paper marked "elected" from a container held by Township Supervisor Leroy Davis.

The victory by Devor, a 64-year-old retired General Motors Truck and Coach Division foreman, gave the Republicans an almost clean sweep in the local election.

Monday's election. Each candidate received 616 votes.

However, Devor won the Trusteeship and control of the township swing to the Republicans yesterday when he picked a slip of paper marked "elected" from a container held by Township Supervisor Leroy Davis.

The victory by Devor, a 64-year-old retired General Motors Truck and Coach Division foreman, gave the Republicans an almost clean sweep in the local election.

Set \$10,000 Bond in Theft at Fruit Stand With Knife

SHELBY TOWNSHIP — Bonds of \$10,000 apiece were set yesterday in Macomb County Justice Court for two youths who allegedly held up a Shelby Township woman at knifepoint Wednesday night.

Standing mute in their hearings before Justice of the Peace Francis A. Castellucci were Curtis Beatty, 21, of 90 Cottage St., Pontiac, 2875 Middle Belt Road, Farmington.

Beatty and Beier, who were caught about half an hour after the robbery of Luigi's Fruit Stand at 3671 Auburn Road, failed to

meet their bonds and were returned to the Macomb County Jail.

They were bound over to Circuit Court for arraignment on charges of armed robbery. No date was set for their arraignments.

Center Line state police said the pair took about \$25 from a cash register in the fruit stand while holding a knife at the throat of the owner, Mrs. Madeline Zernasco.

Mrs. Zernasco told police the bandits ripped the phone from the wall and forced her into living quarters in the rear of the stand after looting the till.

ABOUT 10 P.M.

Mrs. Zernasco said the pair entered her store about 10:05 p.m. while she was closing for the night. She ran out of the living quarters after the two men left and notified police, she said.

Officers from the Pontiac State Police stopped Beatty and Beier for speeding on Auburn Road, about one-half mile east of Opdyke Road, shortly after 10:30 p.m.

In searching their car, officers found a long-bladed steak knife of the type reported in the robbery. Beatty and Beier also were carrying large amounts of change and small bills when stopped.

They were turned over to Center Line state police who took them to the Oakland County Jail in Mount Clemens.

Mothers to Hold Sale to Benefit Boys' Club

KEDGO HARBOR — The Mothers' Club of the West Suburban Boys' Club will hold a bake and rummage sale tomorrow to raise funds to purchase supplies and equipment for the youth organization.

The sale will be held at the Boys' Club's new quarters at 3325 Orchard Lake Road and will begin at 9 a.m. Co-chairmen of the event are Mrs. Carl O'Shaughnessy and Mrs. Gloria Bates.

A justice court hearing for the other accused assailant, Douglas E. Sayre, 18, of the Central Drive address, has been rescheduled for April 18 since he now is serving a jail term for drunk driving.

Charles Lamb of 740 Central Drive, Lake Orion, told police that Smith and Sayre scuffled with him after he caught them attempting to enter his house trailer-truck.

Lamb said Sayre came at him with a knife, but got rid of the weapon before police arrived.

Officers said Smith and Sayre had been drinking before the fight and that both had police records.

CMU Given Grant

MOUNT PLEASANT (AP) — Central Michigan University has received a \$1,000 grant from the American Association of Colleges for teacher education.

Davis was the only Democrat to win re-election Monday. He outpolled his GOP opponent, Leonard F. Terry, by a 723-633 vote margin.

Prior to the election the Democrats, who made impressive showings in the township's primary balloting, held five of the seven seats on the Township Board.

THE EDGE IS NOW 4 TO 3 IN FAVOR OF THE REPUBLICANS

WILL HAVE SUPPORT

Clerk Greta V. Block and Treasurer Goldie B. Mallah, both long-time incumbents who were formerly the only Republicans on the board, now will have plenty of partisan support.

In addition to Devor's victory yesterday, Republican Kenneth E. Gidley won the other vacant trustee post in Monday's election by defeating Emory L. Mitchell, a former township board member, 650 to 576.

Mrs. Block and Mrs. Mallah had little trouble retaining their offices in the township. Both won by wide margins over their Democratic challengers.

Republican Justice of the Peace R. Grant Graham, another incumbent, also won easily and his fellow party members took over an opening on the board of review and four constable vacancies.

If Democrats are to regain their majority in the township, they will have to wait four years to do it.

At the next election two years from now, only two trustee posts will be up for grabs. Both of these two positions are now held by Democrats, Mont D. Bodman and George E. Lyle.

Bodman and Lyle were not up for re-election Monday. The terms of the newly elected township officials do not expire until 1965.

Clarenceville Schools Plan Science Fair

FARMINGTON TOWNSHIP — The Clarenceville Elementary schools will hold their annual Science Fair Thursday at the Botsford Elementary School.

There will be exhibits from all elementary schools in the district and from various grade levels.

Supr. Louis E. Schmidt said at one time the event was part of the over-all science fair in the school district but several years ago, because of the interest and participation, it was necessary to separate the elementary and secondary school fair.

The science project will be open to the public from 7 to 9 p.m. The school is on Lathers Street, just north of 7-Mile Road.

The Michigan Hothouse Rhubarb Growers Association descended on the capitol with free rhubarb for every legislator and a rhubarb pie for Gov. Swainson.

Also along was Rhubarb Queen Carole Kreier, 17, a senior at Utica Community High School. She reigned over the sixth annual rhubarb festival Feb. 11 in Utica.

The growers said they wanted recognition of the \$1. million industry citing the fact that the Macomb area is the capital of the rhubarb world.

Student Vicar to Speak

BROOKLANDS — Leo Burns, student vicar of Our Shepherd Lutheran Church, Birmingham, will deliver the sermon at a 6:30 p.m. open house service Sunday at Gethsemane Lutheran Church, 1829 Auburn Road.

Following the service, the Discus Society will serve refreshments in the Fellowship Hall. Gethsemane Evangelism Society members will call on homes in the area Sunday afternoon.

THE WINNER! — A broad grin worn by M. Wayne Devor leaves no doubt as to who won the draw for the Pontiac Township trusteeship. Devor displays the small piece of paper with the word "elected" written on it which gave him the victory in the tied trustee race.

Car Kills Man in Front of Home

Shelby Resident, 70, Dies When Struck on Van Dyke

SHELBY TOWNSHIP — James H. Morrison, about 70, of 5260 Van Dyke, was killed early today when he was struck by a car in front of his home.

A witness told Romeo Police that Morrison fell into the roadway just before he was struck by an auto driven by Earl C. Johnson, 27, of 5501 Van Dyke, Washington Township.

The accident occurred at 2:03 a.m.

Johnson told police that he saw the victim when he was only 15 to 20 feet away and was unable to stop in time to avoid hitting him.

The driver was not held but is to make a statement to the Macomb County prosecutor today.

Morrison, who was dead on arrival at St. Joseph Hospital, Mount Clemens, is believed to have been living alone.

Solons in Rhubarb (It's the Edible Kind)

LANSING (U)—Legislators took time out here yesterday to recognize rhubarb as a major industry in Macomb County.

The Michigan Hothouse Rhubarb Growers Association descended on the capitol with free rhubarb for every legislator and a rhubarb pie for Gov. Swainson.

Also along was Rhubarb Queen Carole Kreier, 17, a senior at Utica Community High School. She reigned over the sixth annual rhubarb festival Feb. 11 in Utica.

The growers said they wanted recognition of the \$1. million industry citing the fact that the Macomb area is the capital of the rhubarb world.

Student Vicar to Speak

BROOKLANDS — Leo Burns, student vicar of Our Shepherd Lutheran Church, Birmingham, will deliver the sermon at a 6:30 p.m. open house service Sunday at Gethsemane Lutheran Church, 1829 Auburn Road.

Following the service, the Discus Society will serve refreshments in the Fellowship Hall. Gethsemane Evangelism Society members will call on homes in the area Sunday afternoon.

Eight Managers Claiming Pennants

NEW YORK (UPI) — The battles are drawn today for the opening of the major league campaign and it's rather startling to note that only eight of the 18 managers are claiming the pennants.

It is traditional, no matter how poor the talent, that the manager speaks glowing words of hope in the spring. This annually fires up the fans back home and they rush to the ticket windows with an optimism which sometimes extends even beyond the first week of the season.

Will Fine Violators Dykes Warns Indians Against Playing Poker

Las Vegas, Nev. (AP) — The Cleveland Indians know without any qualifications today where Manager Jimmy Dykes stands on poker playing, here and throughout the season. There will be none.

Before breaking camp at their Tucson, Ariz., training base and departing for Las Vegas where they met the Los Angeles Dodgers today, Dykes called a meeting of the players "to lay down a little law."

According to Gordon Cobbledick, Sports Editor of the Cleveland Plain Dealer who was invited to listen in, Dykes first warned the players about holding on to their money in Las Vegas. He called it a "wicked city." Then the cigar-smoking skipper, who has been in baseball since 1917, said:

"This other rule is for today, tomorrow, next week and from then on. From what I learned about this 'ball club' last year some of you won't like it, and that's all right with me. Just so you don't forget it."

"There's to be no poker playing—not on planes, not in hotels, not anywhere. I saw some of the young players sitting in on your games last season and losing money they couldn't afford to lose. I didn't like it, and I got news for you. Any guy loses money playing poker this year is going to lose some more. I don't like to fine a ball player, but I'll do it."

"And don't tell me you play a low-limit game because I don't care if it's only two bits and a half, by the time you stand a half dozen raises you're in too deep to get out and somebody gets burned. Then he starts worrying what he's going to tell his wife."

This rather interesting squabble with the Yanks, Orioles, White Sox and Indians all intent on first place—looks as a contest among Boston, Detroit and the Minnesota Twins. A three-way bout to escape last place will involve the A's, Senators and the clipped-winged Angels of Los Angeles.

"We'll win it," chant Al Lopez of the Sox, Ralph Houk of the Yanks and Paul Richards of the Orioles while Jimmy Dykes of the Indians observes that "with luck" his benchless Braves might go all the way.

Cookie Lavagetto of the Twins, Bob Scheffing of Detroit and Mike Higgins of Boston all have announced that they hope to vault into the first division—thanks to that newly-honored fifth place.

Joe Gordon of the A's sees the addition of two clubs making him a "clash" to get out of the basement. He'll get an argument from Mickey Vernon of Washington and Bill Rigney of Los Angeles, whose plaintive reaction to his strong attacking force is "who's going to get the other side out?"

Over in the National League it is much the same story. There it shapes up as a four-way pennant pursuit among Milwaukee, Pittsburgh, St. Louis and Los Angeles. Two clubs, San Francisco and Cincinnati, intend to compete for a first division spot should one of the top four falter. The Cubs and the Phillies with the latter an odd choice to remain safely encooped in the sub basement.

"We have the best ball club and we're going to win," insists Milwaukee's Charley Dreesen, never a man to mince words.

"We're the team to beat and we're going to win again," asserts Danny Mortangh of the Pirates.

"We'll be stronger," knowingly hints Solly Hemus, whose Cards finished third last time out.

"There are a lot of its but . . . thinks Walt Alston of the Dodgers."

This is time-honored managerial formula. But it ends there.

Al Dark, freshman skipper of the Giants, shows optimism when considering a first division berth, as does Freddie Hutchinson of the Reds.

After that, it's obvious that the two remaining teams are just hoping to last out the season. If the Cubs had half as much talent as there is bottled up in their coaching crew—which on some days will outnumber the attending fans—they might finish fifth. The Phillies can only pray for 1962, when the addition of two teams will give them a real escape hatch from the cellar.

AUSTIN, Tex. (AP) — The Texas Relays, with records likely in half of the 40-odd events, open today with Olympians Earl Young, Stone Johnson and Eddie Southern featured in the first session.

Preliminaries were scheduled in 20 events this afternoon with finals in a like number tonight.

"300" BOWL PROGRESS REPORT

Watch this thermometer for a continuous report on our building. The "300" Bowl office is on the site. Visitors are welcome to watch all phases of construction from the April 5 beginning until the September 1st opening.

Ground Breaking

APRIL

Waterford Township Treasurer Dorothy Olsen is shown breaking ground for the "300" Bowl. Looking on as this initial step is taken are left to right, Duane Royard, Architect; James E. Sorensen, Waterford Twp. Clerk; Joseph Pueritas, Owner; Mrs. Joseph Pueritas and Mr. Ralph Pueritas.

Pictured above is some of the equipment that began moving the earth as construction began on the new "300" Bowl. The new structure will boast 40 lanes, a Cocktail Lounge, Restaurant, Banquet and Meeting Rooms.

Construction on the "300" Bowl began April 5th. Owner Joseph Pueritas named Sep. 1, 1961 as the opening date for the project that promises to be one of the area's finest bowling establishments.
