Andrew Goldberg is awarded \$245,000 from the E. Matilda Ziegler Foundation for the Blind

Associate Professor of Biomedical Sciences **Andrew Goldberg** of the **Eye Research Institute** was awarded a quarter million dollar grant from the E. Matilda Ziegler Foundation for the Blind. Goldberg's **laboratory** studies the elaborate cellular architecture of retinal photoreceptors, the rods and cones, to try and understand the cellular and molecular underpinnings for several types of inherited and acquired eye disease. For more information about Goldberg's grant, see the recent **OU News article**.

SUMMARY

Associate Professor of Biomedical Sciences Andrew Goldberg of the Eye Research Institute was awarded a quarter million dollar grant from the E. Matilda Ziegler Foundation for the Blind.
