

Reactions Are Widespread on Prolonged Youth Theory

NEW YORK (AP) — A variety of reaction ranging from "great," to "contrary to nature," and "highly unlikely" came today from both young and old after a pathologist suggested that science might someday delay the aging process.

Dr. Robert H. Kohn, a pathologist at Western Reserve University in Cleveland, says

"there's no theoretical reason why we should not be able to keep people as they are at age 20 to 30 for another 40 years."

"Assuming society would want it," added Kohn. He offered the theory that aging is a normal disease and conceivably susceptible to being inhibited by chemical or other means.

Some indicated they would want it, such as baseball catcher Joe Torre, 34, of the Milwaukee Braves, who said, "It would be great." and Harold Lloyd, a comedian who starred in the silent picture era, who remarked, "I'm all for it."

Others indicated they would prefer to let nature take its own course.

Marilyn Wahl, 21, a Los Angeles airline stewardess, said: "I don't think I'd like it. There are rewards in growing older and maturing. There's pros and cons — growing old with your children and enjoying some of the things they do. But there's something wonderful about maturing. Being twice as long.

the 20 to 30 age bracket wouldn't be quite as enjoyable."

A Dallas lawyer who is approaching 80 said, "There is no need to speculate about remaining 20 to 30. That is contrary to nature, the Bible and the Lord's decree."

Ann Bittner, 47, a Chicago television assembly line supervisor, and Dr. Bonnie Strickland, 26, dean of women at Emory University, reacted differently.

"I think people from 20 to 30 are dying faster than older folks or they soon will be," said Mrs. Bittner.

LIVE TOO FAST

"The reason is they live too

fast. Bad diets and carelessness with their health in general puts them in bad shape. Why make more people get into bad shape by keeping them at a careless age?"

Dr. Strickland, one of the youngest women deans in the country, said prolonging life between the ages of 20 and 30 (Continued on Page 2, Col. 1)

Dems Back 'Stamp Act'

Fiscal Reform Dies in House

1 Tornado Hits Near Lansing

By The Associated Press
Southern Lower Michigan escaped a potential tornado on Saturday. But a twister touched down two miles west of Mason, near Lansing, uprooting trees and knocking down power lines.

The midday threat, coming from more than a score of fun-

See Stories, Page B-10

nel sightings in west Michigan, was "like none other we've seen," said chief meteorologist Fred Baughman of the U.S. Weather Bureau at Grand Rapids.

Schooled from past experience, citizens sought shelter. Schools were dismissed.

From Lansing west to Grand Rapids and beyond, the conditions were the most severe.

TAKE COVER

No storm damage was reported in Oakland County yesterday, however, there were several unconfirmed sightings of funnel shaped clouds. None of these were reported to have touched the ground.

TAKE COVER

Legislators at the Capitol ducked for cover. Approximately 20 members of the House, warned by State Police, went to the Capitol's basement. Visiting children and adults joined them.

A midafternoon cloudburst, fell on the Detroit area. Expressways were flooded.

Before the threat ended, tornado warnings had been issued for Allegan, Berrien, Cass and Van Buren counties in addition to Kent.

High winds tipped over the Clinton County trailer home of Ray Goff.

OPEN-AIR APARTMENT — This three-story Chicago apartment looks like a dollhouse after a tornado removed the roof of the building yesterday. The twister was one of five which hit the Chicago area.

Add Extra Men

Police Gird for Holiday

While most county residents are making plans for the upcoming holiday weekend, area police agencies are girding for the first mass traffic onslaught of the summer.

Both the State Police and Oakland County Sheriff's Department have scheduled extra men to work during the 78-hour holiday.

National Guardsmen will assist State Police at the Pontiac Post and posse members will join sheriff's deputies in road patrol.

Law enforcement officials estimate that the most dangerous periods during the weekend will be the Friday 3 to 8 p.m. exodus out of cities and the return home Monday 3 to 10 p.m.

Motorists are encouraged to revise travel plans to avoid driving during these hours.

During the 78-hour Memorial Day holiday last year three persons lost their lives on Oakland County highways.

While the police are putting in extra hours, most residents will enjoy a day off from work.

Although Memorial Day falls on Sunday, most stores

Board Takes Action

School Taxes May Be Boosted in City

Pontiac residents may be paying an additional \$1.10 in school taxes this year on each \$1,000 of assessed valuation.

This was revealed last night when the Pontiac Board of Education authorized the school administration to certify the school tax rate for 1965-66.

This year, a taxpayer in Pontiac will pay \$25.32 for each \$1,000 of assessed valuation.

Reaction Mild After Defeat of Home Rule

Defeat of a county home rule bill early today in the State Senate generated only a mild reaction from Oakland County officials.

The bill, which calls for reorganization of county governments, stumbled over amendments tacked on during nearly five hours of debate and fell two votes short of passage.

Delos Hamlin, chairman of the Oakland County Board of Supervisors, said that the bill as proposed would not have helped the county much.

He cited the bill's restrictive measures that would not permit enough change in flexibility to make it worthwhile.

Specifically, Hamlin was critical of the bill's provision for election of county officials rather than permitting appointive posts.

The bill's provision for an elected partisan administrative head of the county also was undesirable, according to Hamlin.

Japanese Protest Visit

SASEBO, Japan (AP) — About 4,300 demonstrators, mostly Socialists, Communists and unionists, held a rally and a street march today protesting the visit to Sasebo of an U.S. nuclear-powered submarine.

The increase was caused by a .07 hike in millage allocated by the county, an increase in the millage which will be levied for debt retirement, and a rise in the state equalization factor.

The debt retirement hike was caused by a March bond sale to finance the construction of two school additions, the purchase

of three school sites and other improvements in the school district.

New Bill Puts Levy on Real Estate Deals

Technical Difficulties Delay Vote; GOP Calls Plan Regressive

LANSING (AP) — The House staged "the funeral of fiscal reform for this year and possibly next year" yesterday as 55 Democrats opposed a move to remove from the table a package of fiscal reform bills.

The motion was defeated 59-41.

The Democrats took what they called a step toward fiscal reform but which Republicans called a "regressive nuisance tax" by considering a so-called "stamp act."

The new tax bill, delayed until today because of technical difficulties, would levy a tax of \$1.10 per \$1,000 in real estate transfers, raising an estimated \$2 million for the county in which the transfer papers were drawn up, and \$2 million for the state.

Rep. Roy Spencer, R-Albion, made the move to revive the reform bills, backed by Rep. Joseph Conrad, D-Jackson.

"This is not a pleasant subject," Spencer said. "Taxes are not pleasant, neither is the reform of anything. But it is our responsibility and an obligation. We must pay for our programs."

A vote was delayed on the stamp act when technical difficulties were pointed out toward the end of an 8½-hour day.

In other action, the House dealt heavy blows yesterday to statewide motor vehicle inspection and toll reduction at the Mackinac Bridge.

The House defeated, 70-30, a bill to establish state police-operated vehicle inspection stations and require annual inspections.

Rep. Joseph Swallow, R-Albion, failed in an attempt to discharge the House State Affairs committee from recommending a bill to eliminate the tolls on the Mackinac Bridge.

Romney Regrets Tax Reform Action

LANSING (AP)—Gov. George Romney expressed regret today at the House killing of fiscal reform but said the action "confirms my analysis of the situation—that there is not adequate understanding of the need for fiscal reform now."

He repeated at a news conference his position that if spending significantly exceeds his recommended \$78.5 million, new revenue must be found. He said \$72.4 million must be kept in the State Treasury for 1966-67.

Romney indirectly endorsed indications that the House will increase revenues to pay for school aid by replacing the business activities tax with a corporate income levy.

MIRRORED HONOR — Oakland County Treasurer Charles A. Sparks (left) in an emergency could use the highly polished plaque he received yesterday as a shaving mirror. Ronald Voorhes, president of Oakland County Association of Township, City and Village Treasurers, presented the plaque at a noon luncheon in recognition of Sparks' many years of service to the association.

City Teachers to Get Sizable Pay Raise

Pontiac teachers will receive pay raises next year of from \$400 to nearly \$1,000 as a result of a 1965-66 salary schedule adopted last night by the Board of Education.

In addition, the board adopted a five-year plan which has as its main goals making Pontiac teacher salaries comparable to those of the highest paying school districts in the Detroit metropolitan area.

The salary increases will cost the school district \$808,854 more than the amount paid instructional personnel this year.

The salary schedule, which was recommended to the board by the Supt. of Schools Dr. Dana P. Whitmer and the administration, met the demands of the Pontiac Educational Association (PEA).

The schedule calls for a beginning salary of \$5,500 for a teacher with a college degree and no experience, an increase of \$400 over this year's schedule.

The teacher with 10 year's experience and a bachelor's degree will receive \$8,800, a raise of \$742.

MASTER'S DEGREE

Salary increases for teachers with a master's degree and no experience will amount to \$428, and \$837 for the teacher with a master's degree and 10 years experience.

Teachers at the top end of the salary schedule, a doctor's degree and 10 years experience, will receive a \$856 raise to \$10,340.

The average raise a teacher will receive will amount to about \$600.

In addition, most teachers will receive fringe benefits — hospital and health insurance with a monetary value of \$100.

School officials and PEA representatives believe the five-year plan is the first of its kind in Michigan.

The plan lists several goals to be reached in the five-year period.

Foremost is that Pontiac teacher salaries and salary schedules should compare with those in school districts which rank in the top 10 per cent in pay in the Detroit area.

Other goals include consideration of extending teacher contracts beyond the normal 40 weeks to up to 48 weeks, a negativity increment in the salary (Continued on Page 2, Col. 5)

OU Receives Kellogg Grant

\$150,000 to Be Used for Counseling Center

Oakland University has received a \$150,000 grant from the Kellogg Foundation to establish a counseling center for mature women under its Division of Continuing Education.

The announcement was made today by Chancellor D. B. Varner at the last in a current series of Conferences on alternatives for women.

The Continuum Center for Women, made possible by the grant, will be located on the OU campus and will offer a four-part counseling service to women of southeastern Michigan.

Part one of this counseling service will be a psychological testing and counseling course required of all registrants at the Continuum Center.

Eighty-two women have already completed such a course under a pilot program conducted (Continued on Page 2, Col. 3)

CNB Gives \$50,000 to St. Joseph Fund

A \$50,000 gift by Community National Bank of Pontiac to the St. Joseph Mercy Hospital Building Fund was announced today by R. M. Critchfield, chairman of the fund drive's corporations committee.

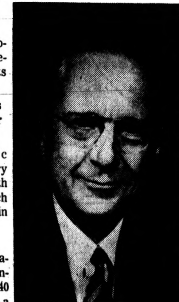

A. C. Girard, president and chairman of the bank, said the bank's contribution would build and equip a major portion of the administration department in the new construction.

The pledge, which is to be paid over three years, will provide the administrator's office, a board and conference room, nursing supervisor's office and conference room, and other administration offices.

The building fund goal is \$3,250,000.

Girard stated that members of the bank's board of directors had long been aware of the serious situation existing at St. Joseph with regard to overcrowding and advancing obsolescence.

"For this reason, we were prepared, beforehand to make a major contribution. Modern health facilities are among the most important assets a community has (Continued on Page 2, Col. 8)

R. M. CRITCHFIELD

State Hospital Will House Medical Research Center

Medical research may soon be a Pontiac product as much as the city's trucks and automobiles.

Plans are under way for creation of a Pontiac Medical Research Center to be housed at Pontiac State Hospital. Final paper work is to be out of the way by mid-June.

The center is to be "fully operational" by July 15, according to Dr. Donald Dawson, research director at Pontiac State.

The pending research program is an invention of the staffs of Pontiac State and Pontiac General Hospitals. Both hospitals have embraced the project.

Formal announcement of the center is expected next month after incorporation of a non-profit foundation to govern it.

RENOVATION UNDER WAY

Renovation is already under way of some existing facilities at Pontiac State. Dr. Dawson expects the remodeling bill to total \$22,000.

Research facilities will include three laboratories, an operating room, recovery room, office and storage space. A former barn structure is to be converted to house experimental animals.

The facilities are being equipped with surplus machines and instruments from government and drug company inventories.

Dr. Dawson estimates that the building research center has already required up to \$40,000 worth of equipment.

INITIAL RESEARCH Initial research will include infectious hepatitis, organ transplantation, the aging processes and gastric and endocrine physiology.

The center is to be autonomous, existing through private grants and gifts.

Dr. Dawson fully expects the research program to be of university caliber with working relationships and eventually formal clinical affiliation with Michigan State University's proposed medical school.

The interest of MSU was expressed last week by Dr. Andrew D. Hunt Jr., dean of the College of Human Medicine.

MSU'S SCHOOL In a visit here, Dr. Hunt detailed progress since 1962 on establishment of MSU's medical school.

Pontiac's new research center could also play provide some of the training for that school's students.

One of the benefits of the research program is that local hospitals can provide research training for young interns and residents.

Dr. Clifford Ekelund, medical director at Pontiac General, said that the research center would enhance the attitudes of interns toward Pontiac General Hospital.

INDIRECT BOOST He described it as an "indirect boost" for the hospital.

Attracting interns and residents gets more difficult every year with the increasing shortage of medical men.

The unique combination of a state mental institution with a general hospital also is expected to aid the research program.

Dr. Dawson said that the medical history — some as long as 30 years — of Pontiac State Hospital patients will also benefit research efforts.

FIRST STAGE OF JOURNEY HOME. Marines are shown scurrying toward waiting helicopters in Santo Domingo yesterday as the first group of U.S. servicemen to be removed from the Dominican Republic. They were flown to the carrier Boxer lying offshore where they will wait until the carrier and other naval vessels at the scene are loaded for departure. Six hundred men were involved in yesterday's operation.

Soviets Say China Seeks World War

MOSCOW (AP) — The Soviet Union implied today that Communist China is instigating a world war over Viet Nam as the only way to unite the divided world Communist movement.

The Soviet Communist party newspaper Pravda, in one of the sharpest attacks on Chinese policy in recent weeks, wrote: "It would be incorrect to hold that only a world war can bring about the unity of the socialist camp and of all the world Communist movement."

"Marxist-Leninists see their task not in waiting for a world war to break out, but in averting a chain of events that is liable to trigger it off by the joint actions of the progressive democratic forces."

Pravda's criticism of Chinese intractability in current East-West crises was made in an article based on Lenin's critique of hard-line leftists in his book "Left-Wing Communism, an Infantile Disorder."

SOVIET RESENTMENT Observers here said the article appeared to be an expression of the Soviets' smoldering resentment at Peking's opposition to efforts toward reaching a peaceful settlement of the Viet Nam crisis.

Condemning the refusal of the Chinese to bury their differences with Moscow despite the explosive Viet Nam crisis, Pravda said: "References to existing interparty differences can in no way justify the refusal to fight jointly against imperialist aggression."

OU Receives Kellogg Grant (Continued From Page One)

ed this year; the course was designed by OU's psychological services.

VOLUNTEER PLACEMENT Educational counseling, volunteer placement and employment counseling are the other components of the service.

Emphasis in the three counseling areas will be on helping the woman whose children have left home to find her preferred role.

This may be at home or in society and will mesh the demands of job, college or volunteer work with the continuing demands of the home and family.

Dr. Kenneth Coffman and Dr. David Lowy designed the testing and counseling course.

SERVICES AVAILABLE Beginning this fall, the Continuum Center will offer the following services to assist women in determining their own psychologically sound course into a productive place in the world outside the home:

• Psychological testing of abilities, aptitudes, interest and values and counseling by clinical psychologists to provide women with self-knowledge.

• A central hospitable site, especially created for mature women where they may talk through study and evaluate the changes in women's role and their individual adjustments to its demands.

• A permanent office, open daily, with three specialist advisers available for counseling in education, employment and volunteer placement.

• A clearing house for information on educational opportunities available to women in southeastern Michigan to qualify them for their chosen roles.

U.S. Adviser Offers Solution

'Both Dominican Leaders Should Quit'

WASHINGTON (AP) — The chiefs of two rival Dominican factions will both have to step aside if the revolt in the country is to get a government broadly acceptable to the people, Johnson administration sources said today.

Such a settlement would eliminate any key role for either Brig. Gen. Antonio Imbert Barrera, who heads the army government, or Col. Francisco Caamaño Dengo, the rebel leader.

And with no political solution yet in the deeply divided nation, the Inter-American Force now mostly U.S. troops, will have to stay on the scene for a considerable period of time, it was stated.

This view of the Dominican situation was given to newsmen in the wake of the return Wednesday of McGeorge Bundy, President Johnson's adviser on national security affairs.

Johnson said Bundy to Santo Domingo nearly two weeks ago in an effort to get the Dominicans to agree on a middle road, interim regime.

CRISIS REVIEW Secretary of State Dean Rusk scheduled a review of the Dominican crisis late today with Brazilian Foreign Minister Vasco Leitao da Cunha.

Rusk intends to join several other Western Hemisphere foreign ministers Friday to take stock of events so far and to push for creation of a standby Inter-American Force to deal with future emergencies, aides said.

The foreign ministers are coming for a special meeting of the Organization of American States.

The administration sources gave this account of the Dominican situation and the still continuing effort to find an acceptable provisional regime pending elections for a permanent government.

The Bundy mission found a fundamental, deep split between the rival forces headed by Imbert and Caamaño, and some elements in both factions are opposing any solutions except on their own terms.

In the U.S. view, it is necessary for the government that is set up to be substantially broader than a mere representation of the two sides involved in the revolt. And there is a general feeling in the country that a good answer is not possible if either leader is in the center.

Crackdown Ordered on Truck Litter

Pontiac police will crack down on truckers who scatter litter on city streets, because they have not loaded their truck properly or because the load is not covered.

Police Chief William Hanger said there is an ordinance governing the flow of debris off trucks and violators could face a 90-day jail sentence or \$100 fine or both.

Hanger said there is a particular problem in the Kennett Road area.

He said he has instructed all his men to watch for violation of the littering ordinance and to take proper steps when a violation occurs.

openly or disguised — of a new government.

The leaders of the Dominican rebel congress sent a message to non-Communist nations around the world Wednesday night asking the United States of coercion in Dominican internal affairs.

The attack on the U.S. intervention in the Dominican crisis was signed by Arevalo Cedeno Valdez and Anibal Campagna as presidents of the Chamber of Deputies and Senate dissolved by the overthrow of President Juan Bosch in 1963.

Sent to parliamentary leaders in the Western Hemisphere, Europe, the Middle East and Asia, the message asked for support of the "free and democratic parliaments" of the world. It did not go to Cuba, Haiti, the Soviet Union or Red China.

Our Lady of Lakes Picks School Board

Continuing growth of the education program at Our Lady of the Lakes School in Waterford Township has led to establishment of a school board to aid in administration and policy matters.

The recently established board is headed by chairman Albert Serra and has seven other members including Fr. J. Delaney pastor of Our Lady of the Lakes Parish.

Other members of the board are James E. Seeterlin, Joseph R. Miller, Peter Everts, Joseph Baxter, Lawrence McCulloch and Mitchell Simma.

The board of education was the second to be formed in the Archdiocese of Detroit.

Previously St. Clement in Center Line was the lone metropolitan area Catholic parish with a school board. A board at St. Alphonsus in Dearborn was just established.

Presently the Our Lady of the Lakes board is mainly occupied in organizational procedure and recruiting lay teachers for the coming school year.

EDUCATIONAL BUSINESS Other educational business earmarked for early consideration includes shared-time programs with neighboring public schools, vocational guidance, closed circuit TV, language laboratories and physical education.

The function of the board has been divided into three categories: personnel, finance and school operation.

The board members, with backgrounds in business, industry and government, were appointed by Fr. Delaney.

A parish building program that began last year and will be completed this summer will add four classrooms, a multi-purpose room and kitchen to the school plus a chapel, eight sleeping rooms and an office to the convent.

Cost of the new school construction is \$180,000 and the convent addition amounts to \$72,000.

PEA officials called it a "real stepping stone" toward gaining the professional salaries which they feel teachers deserve.

MODEL FOR OTHERS They said the five-year plan will be a model for other school districts in Southeastern Michigan.

Whitmer said the new schedule was a cooperative venture by both the school and the PEA.

The school administration had indicated last week that a salary schedule with a base of \$5,400 might be the best the administration could do this year.

PEA officials said at that time they would not accept such a schedule.

ESTIMATES UP Whitmer said last night that revenue estimates increased during the past week and that these projected increases made the higher salaries possible.

The increases included a \$24-million hike in the tax base, probable increased state aid and a small gain in the allocated millage.

Even with the increases, however, the school district will be forced to dip into an \$890,000 contingency fund to help finance the salary hikes.

Robert Bogun, executive director, will discuss the year's achievements and the progress of the 1965 fund drive.

LOCAL VOCAL GROUP Entertainment for the evening will include songs by the Grunions, a vocal group composed of talented local businessmen.

Some cherubs 3 to 5-year-old first-year ballet students will demonstrate what they have learned in their Community House classes.

An open invitation to the annual event is extended by the Community House to all area residents who care to attend.

Reservations can be made by telephone.

EXPECTED TO ATTEND Among those expected to attend will be officials of various local units of government, representatives of the Birmingham-Bloomfield Chamber of Commerce, the Baldwin Public Library Board and the Birmingham and Bloomfield Hills board of education.

Also invited are the Community House's past presidents.

Law Has Plan for Racing Fees

State Rep. Arthur J. Law, D-Pontiac, has outlined a plan to use the state's cut of the take from greyhound racing to lower tolls on the Mackinac Bridge and to build a 100,000-seat stadium at the State Fair Grounds in Detroit.

Law is sponsor of a stadium bill and a measure to allow eight greyhound race meetings a year throughout the state.

This plan would legalize greyhound racing, use 40 percent of the state tax revenue to refinance the bridge and lower tolls, use another 40 percent to finance the stadium and use the remaining 20 percent for some other cause.

The package might be appealing to enough diverse elements in the legislature to win its passage, Law said.

"I've been counting the votes and I think I'm pretty close to enough votes for passage."

The deadline for bills to be approved in their house of origin is tomorrow.

Membership Goal Posted by Chamber

"Beat 125 in '65" is the goal set yesterday by the membership committee of the Pontiac Area Chamber of Commerce.

The membership committee will attempt to sign up over 125 new members in this year's membership drive, Richard Minewasser, committee chairman, announced.

Hal Newhouse, former Detroit-Tiger pitcher and now public relations representative for Community National Bank, addressed the chamber group yesterday on "Teamwork in the Community."

Gov. Romney to Name Police Commissioner

LANSING (AP) — Gov. George Romney said today he will name a new State Police commissioner next week to succeed Joseph A. Childs who has indicated he plans to retire.

Romney declined comment on a report that he would appoint Capt. Frederick Davids, commander of the Detroit State Police post, to the \$26,000-a-year position.

Birmingham Area News

Community House Sets Annual Dinner Meeting

BIRMINGHAM — The Community House has scheduled its annual dinner meeting for June 7.

The event will begin at 7 p.m. in the Community House auditorium.

Edward Lercher, president of the activity center's board of directors, will report on the progress of expansion plans.

He also will speak briefly on the board's goals and objectives and their effect on the traditions and current image of the Community House.

Robert Bogun, executive director, will discuss the year's achievements and the progress of the 1965 fund drive.

LOCAL VOCAL GROUP Entertainment for the evening will include songs by the Grunions, a vocal group composed of talented local businessmen.

Some cherubs 3 to 5-year-old first-year ballet students will demonstrate what they have learned in their Community House classes.

An open invitation to the annual event is extended by the Community House to all area residents who care to attend.

Reservations can be made by telephone.

EXPECTED TO ATTEND Among those expected to attend will be officials of various local units of government, representatives of the Birmingham-Bloomfield Chamber of Commerce, the Baldwin Public Library Board and the Birmingham and Bloomfield Hills board of education.

Romney declined comment on a report that he would appoint Capt. Frederick Davids, commander of the Detroit State Police post, to the \$26,000-a-year position.

from the founding of the organization in 1923 to the present.

Others there will be former and present board members, the Community House staff and presidents of organizations sponsored by the facility.

'Open House' at Bank Proves Oddly Quiet

There was a strange silence in the Union Lake branch of the Community National Bank yesterday afternoon when William Hawks walked into the office.

There were no tellers, no bookkeepers, no clerks and no guards.

Hawks of 571 Crum-bourne, Commerce Township, whistled and yelled to attract attention, but to no avail.

Then he realized it was Wednesday afternoon, and the bank closes at noon Wednesdays.

Oakland County Sheriff's deputies summoned the bank manager to secure the front door, where someone had forgotten to lock.

Hospital Fund Gets \$50,000 (Continued From Page One)

munity must have; and we all have an obligation to St. Joseph, which has served our area so well," he said.

E. M. Estes, general campaign chairman, was "very pleased" and said, "It is our hope that other firms in the area served by St. Joseph will respond accordingly. This fine example of community responsibility should stimulate others to want to help."

Critchfield said the CNB gift demonstrated that the business community was behind the building campaign.

Princess Margaret to Visit U.S. in Fall

WASHINGTON (AP) — Princess Margaret, sister of Great Britain's Queen Elizabeth II, will visit the United States for about three weeks next November, the British Embassy announced today.

She will be accompanied by her husband Lord Snowden, the former Antony Armstrong-Jones.

The embassy announcement said the couple will visit San Francisco, Los Angeles, Washington and New York.

NATIONAL FORECAST — Thundershowers are predicted for all the Atlantic states except Florida tonight. A band of showers and thundershowers are expected in parts of the southern Plains, central Gulf states and the Appalachians with rain mixed with snow in the upper Lakes and Mississippi Valley. It will be cooler from the upper Midwest to the Ohio Valley and warmer in the Rockies.

Lindsay Nomination Is Tonight

NEW YORK (UPI) — Rep. John V. Lindsay who has spurred party labels and help from the Republican National Committee, tonight becomes the GOP's nominee to oppose Mayor Robert F. Wagner in November.

Lindsay is expected to get the nomination by acclamation from Republican county committeemen, who sense the possibility of victory in the mayoral race for the first time since the 1930s.

The candidate, battling a 3-to-1 Democratic registration ma-

gin, served notice yesterday he would turn down offers of outside help, even from such Republican vote-getters as Dwight D. Eisenhower.

"I'm running as Lindsay," he told newsmen in Washington. He added: "As Fiorella La Guardia said, there is no Republican way or Democratic way to clean the streets."

The first Negro to graduate from the U.S. Military Academy at West Point on June 15, 1877, was Henry O. Flipper.

PLENTY OF MAIL Julian St. Philip, a silver Persian, looks on as his mistress, Miss Katherine Evans of New Orleans, sorts through some of his mail. Julian gets more mail than anybody on the block, having wound up on several national advertising and soliciting mailing lists.

Credit Cards to Books

Feline Is Flooded by Mail

NEW ORLEANS, La. (AP)—Julian St. Philip lounged carelessly in his ivy and old-brick French quarter patio today, eyeing the sunning lizards and waiting for the postman.

The postman brings a lot for Julian. Magazines, enticing brochures, books, credit cards from loan companies, pleas from charitable organizations, advertisements.

The flow still amazes Julian's mistress, a handsome blonde who drives a sporty car named Tar Baby and likes fur rugs and kookie gags.

Julian is her cat. He is not a common cat. He is a yellow-eyed Persian of rare silver coloring. He weighs about 20 pounds, which is a lot of cat. He will drink only from a whiskey sour glass. But he can't read any better than an alley tabby.

ADDED TO LISTS

Reader or not, Julian must be on almost all the mailing lists which circulate to national advertisers, solicitors and business firms.

It started innocently enough.

"I decided that new subscribers to magazines get a cheaper rate," said Miss Katherine Evans. "My initial subscription: were about to expire. Instead of renewing, I sent in Julian's name."

There may be something mysteriously attractive in the name. In any case, Julian was soon dragging much more mail than Miss Evans.

CHANGED NAMEPLATE

She changed the nameplate outside 1022 St. Philip St. to

read, K. H. Evans and Julian St. Philip, which led to spicy rumors in the neighborhood.

Julian would rather pursue lizards but Miss Evans likes to ponder through his mail during idle moments. It often amounts to 10 items daily.

She couldn't just pitch it out unopened if she wanted to. For in addition to feminine curiosity, there is the fact that some friends have taken to writing her in Julian's name.

"It really piles up," she admitted. "I don't mind it now but it leads me to wonder—do you suppose I could ever cut it off?"

Funeral Service Today for Du Pont Heiress

GROSSE POINTE FARMS (AP)—Funeral service will be held today for Mrs. Ethel du Pont Roosevelt Warren, heiress and former wife of Franklin D. Roosevelt Jr., who took her own life.

Mrs. Warren, 49, was found hanging in a bathroom at her home in this wealthy Detroit suburb Tuesday. Her death was ruled a suicide at an inquest Wednesday.

Ex-Postmistress Dies

ST. JOSEPH (AP)—Mrs. Evelyn Evans Morton, postmistress here from 1951 to 1957, died Tuesday. She had been suffering from a heart ailment the past year. She was the widow of the late Circuit Court Judge Fremont Evans and in 1957 had married then-assistant postmaster Millard F. Morton.

It's Maverick! The long, lean brand of jeans. Picking up the beat of today's active, young way of really living! Maverick knee pants or regular jeans for her in denim blue, black, wheat, faded blue and white. 8 to 18. Maverick regular jeans for him in denim blue, black, wheat, loden green. 27 to 42. In fine fabrics Sanforized™ for shrink-resistance. \$2.98 to \$3.98. Maverick jeans for all.

Your WEST BEND Cooking Center TEFLON NEEDS NO SCOURING!

Cooks Without Sticking . . . Now Enjoy The No-Stick Cookware That Needs No Scouring

TEFLON NEEDS NO SCOURING!

Cooks Without Sticking!
11-Pc. Teflon Cook Set

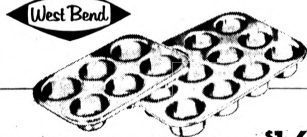

INCLUDES: 3 Saucepans with covers, 1 Dutch Oven with Cover, 1 Frypan, Spatula, Spoon

\$19.88

Today's most practical cookware set! Cooks without sticking, cleans without scouring, because the cooking surfaces are coated with DuPont's amazing non-stick Teflon. Yes, even without cooking oil. Foods cook without sticking, practically slide right off the slippery Teflon-coated surface. Cleans with just a sudsy cloth . . . no scouring needed.

Exclusives . . . Lower Level

NO-STICK, NO-SCOUR TEFLON 6 and 12 CUP MUFFIN PANS

Deep cups for generous size buns, biscuits or cupcakes . . . smooth Teflon coating makes all of them easy to remove . . . no sticking or crumbling. Seamless aluminum for smooth, even browning.

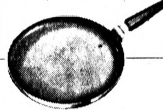

\$1.69

6-CUP

\$3.29

12-CUP

NO-STICK, NO-SCOUR 11 1/2" GRIDDLE

\$3.99

Prepare family-size quantities of eggs, hamburgers and pancakes on this 11 1/2" Teflon griddle without worries of sticking or scouring.

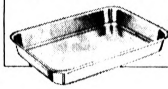

TEFLON-COATED 9" CAKE PAN

\$1.89

Making layer cakes is lots easier with Teflon pans, because sticking is eliminated, scouring is completely unnecessary. Simply wash this 1 1/2" deep aluminum pan as you would a dinner plate . . . in hot sudsy water.

13" x 9 1/2" TEFLON BAKE & ROAST PAN

\$3.29

A practical all-around pan for baking and uncovered roasting. Teflon-coating makes this big, seamless aluminum pan quick and easy to clean . . . flat headed edges are flared to serve as carrying handles.

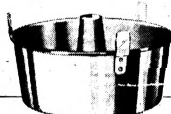

HANDY 8-inch TEFLON BRUNCHER

\$2.69

Perfect for breakfast eggs 'n' pancakes. There's no sticking or scouring, because this smooth-heating aluminum pan is Teflon-coated.

EASY-CLEANING TEFLON -coated ANGEL FOOD CAKE PAN

Teflon-coated 10" aluminum cake pan assures a perfectly browned cake that removes easily with no crumbling. Tube aids heat distribution . . . legs serve as support while cake is cooling. Four inches deep.

Pancakes, eggs, potatoes, burgers slide easily onto the spatula whether you've used shortening or not.

\$15.88

STAINLESS STEEL TEA KETTLE

- 2 1/2 qt. capacity
- quick-heating
- copper bottom

\$2.99

Heat water quickly for tea, instant or drip coffee. Push button spout allows "spill free" filling and pouring. Whistles when water boils. Rugged copper bottom is durable, quick-heating.

HANDY 5-CUP AUTOMATIC

- drip-free spout
- rugged aluminum

Brews just enough when there are two for coffee, without making extra "wasted" cups. Spout is drip-free. Polished aluminum with brown bakelite handle and base. Appliance cord included.

\$6.49

4 PIECE CANISTER SET

Brightly polished aluminum canisters with glossy black covers and silhouette motifs are gracefully styled to blend into any kitchen decor — colonial to contemporary. Recessed cover knobs allow easy stacking and storing. Seamless . . . no hard-to-clean cracks or crevices.

- seamless
- tarnish-proof

\$5.99

House-Senate Split Threatens Constitutional Amendment on Presidential Disability

WASHINGTON (AP) — Disagreement between the House and Senate is threatening to block a proposed constitutional amendment to cover presidential disability.

The hitch to a compromise agreement is a provision in the

House bill to limit the time Congress has to decide the issue when the vice president contests the right of a once-disabled president to resume office.

The House version says Congress must decide within 10 days or the president resumes

his powers automatically. The Senate bill sets no time limit.

The House provision was frankly aimed at the Senate, with its tradition of unlimited debate. Advocates of the amendment fear a Senate filibuster could keep a president from office.

Two conferences between Senate and House joint committees have failed to settle the issue. When the second one broke up Wednesday, no date was set for a third meeting. Participants said feelings on both sides were strong.

The Senate reportedly agreed to accept a 21-day limit for congressional action, but the House rejected it, arguing the nation could not afford such an interruption in the exercise of presidential power.

Aside from that difference,

the House and Senate amendments are nearly identical. The Senate amendment passed 72 to 0 in February and the House

The city of Toledo, Spain, is planning a blade museum as a showcase for its world famous old craft, swordmaking.

voted 367 to 29 in favor of its version six weeks ago.

The amendments are intended to ensure against any break in the exercise of the powers and duties of the presidency. Besides providing for a vice president to take over the duties of a dis-

abled president, they would have a vacancy in the vice presidency filled by presidential appointment.

There were 305 bank closings in September, and 522 in October, 1931, at the height of the depression.

High Court to View Remains of Red Law

A prime example of locking the juridical barn door after the horse has been stolen is the U.S. Supreme Court's condescension to review the clause in the Subversive Control Act that requires Communist members to register with the government. The judicial scrutiny was instigated by the Justice Department.

Since the high court has virtually emasculated this 1950 law with a series of decisions favoring the Reds, the belated consideration of one of the law's provisions promises to be about as resultful for justice as determination of a Communist's subversive actions on the asinine assumption that he would implicate himself by admitting to party membership.

It is now too late to shore up the weakened 15-year-old law. What is needed is a new one — one with teeth sharp enough to give the Justice Department's FBI the weapon it needs in its relentless and continuous war against the enemy bent on overthrow of our democratic way of life.

But, better yet, we suggest the law be in the form of a constitutional amendment to prevent Chief Justice EARL WARREN and Company from exercising the power they usurped long ago by capriciously declaring unconstitutional the Federal, state or local laws that run counter to their far-out philosophy.

Firm Principles Urged in Latin America Mess

If we were running the government, which thank heavens we're not, there are three strong convictions relating to our Dominican adventure and the turbulent Caribbean area that would guide our thoughts and actions.

The first is to turn a deaf ear to "liberals." By that is meant "liberal" Senators, Representatives, columnists, commentators, editorial writers, and so on. Rarely, and then largely by accident, is the advice of such worth the time spent listening to it.

Next would be firmly to withhold support of any close friend or former associate of the Dominican Republic's ex-President Juan Bosch. By now his image is firmly established as that of a weak and stupid administrator — a tool for Communists and communism, if nothing worse.

And finally, if still the man in charge, we'd slap a real air-sea blockade on Red Castro's Cuba as soon as feasible, with only food and medical supplies allowed to go in and only refugees allowed to come out.

It is high time that the flow of Communistic doctrine and subversive techniques to the Western Hemisphere be dammed at its source.

Plan to Share Smog Pushed by California

The state that strove mightily to impose the crackpot Townsend Plan on the Nation would now like to make its smog everybody's smog.

Even though automobile makers have cooperated splendidly in equipping cars for the California market with control equipment to minimize exhaust effect on the smog-heavy atmosphere, the state has initiated a U. S. Senate bill that would make emission control mandatory on all cars.

Nothing could be more inequitable or impractical.

In the first place, based on the

acceptable oxidant level of 0.15 parts per million, tests in comparable urban areas with Los Angeles, the smog capital of the world, show no or negative penetration of the ceiling.

Whereas the California city experienced a maximum of 195 days during 1963 when the 0.15 level was reached, Philadelphia never reached it, and San Francisco, Chicago, Cincinnati, New Orleans and Washington, D. C. recorded the level for one hour or longer not more than two to five days during the entire year.

The cost to U. S. motorists in gratifying Los Angeles' whimsy would be enormous. Automotive engineers estimate the cost per car for the necessary equipment at \$50, with a minimum annual maintenance expense of \$49.63.

The Senate bill would require exhaust control not only on new cars but those now in operation, and would set up a vast national inspection system — ye gods, another bureaucracy! — to implement the law.

We suggest that the City of Angels gratefully accept the assistance already given her toward alleviation of its smog-induced atmospheric pollution and let the rest of the Country breathe freely of its uncontaminated air.

In all too many cases the thirst most easily quenched is the thirst for knowledge.

LBJ Successes Mostly Domestic

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — President Johnson's successes so far have been just the opposite of those of Presidents Kennedy and Eisenhower, whose most notable achievements were in foreign affairs.

There Johnson has run into frustrations in the two places where he has made his biggest pitch: Viet Nam and the Dominican Republic. He has been far more successful than Kennedy or Eisenhower in dealing with Congress.

Kennedy dumped programs on Congress but MARLOW never pushed for them as Johnson has. Eisenhower's domestic record might have looked truly dismal if he had not had a cooperative Congress to help him.

Of the three men, Eisenhower by far had the worst time starting out. He inherited the Korean war and McCarthyism, and both were at their peak when he took office.

He got a truce in Korea and, after some bad months with Sen. Joseph McCarthy, the Wisconsin Communist-hunter was eliminated as a problem by the Senate which pushed McCarthy into limbo.

It was rather calm for Kennedy, starting out, but he created a disaster for himself in no time by backing a Cuban invasion which never got beyond the beaches. This was the worst mistake in Kennedy's presidency.

MADE UP FOR IT

He made up for it: by forcing the Russians to pull their missiles out of Cuba, getting them to sign a limited nuclear testing treaty and creating the best relations with them since the cold war began.

By the time of his death in 1963 Kennedy was a highly respected figure around the world. But his record with Congress remained unimpressive.

In 14 months in office following Kennedy's assassination and before he took oath of office for his own full four-year term, Johnson set a blazing record with Congress and continued it this year.

It was after his inaugural that he really moved into the foreign field, where his experience was least, although he too had inherited a war, the one in Viet Nam.

ORDERED BOMBING

When Viet Cong guerrillas blasted a U.S. air base, Johnson put this country fully into the war by ordering the bombing of North Viet Nam.

It has had apparently no effect on them. While there is no end in sight it will get immeasurably worse if the Soviet Union or Red China move in.

Then, when the Dominican Republic's revolution began, Johnson put the United States wholeheartedly into the problem. So far, this has been a frustrating ordeal.

Balanced View

House, Senate Differ on Ban

Clash Over Poll Tax Inevitable

By JOHN BECULER

WASHINGTON (AP) — Senate passage of the administration's voting rights bill has set up an eventual clash with the House over the banning of poll taxes in state and local elections.

That is the chief difference between the bill that sailed through the Senate yesterday by a 79-19 vote after five weeks of debate, and the one awaiting action in the House.

The House Judiciary Committee, overruling administration objections and wrote in a flat ban on poll taxes, plus a declaration that they have been used to discriminate against Negro voters.

The Senate adopted a similar declaration but rejected the ban by a 49-45 vote.

Despite the solid support of the Senate joint leadership and the administration for the Senate stand on poll taxes, the House intends to stand by its version.

PLEADED SUPPORT

Speaker John W. McCormack, D-Mass., has already pledged his support, and Rep. Emanuel Celler, D-N.Y., chairman of the Judiciary Committee, said yesterday he would resist all efforts to weaken the poll tax provision.

Cells's committee approved the bill May 12, but no action has been taken to clear it for debate and voting in the House. The committee's formal report will be filed Monday, and it could be another three weeks before the bill gets to the floor.

Aside from the poll tax issue, the two bills have similar provisions, closely adhering to the legislation President Johnson requested in a speech to Congress last March 15 at the height of racial unrest in several Southern cities.

The main effect would be to suspend automatically state literacy tests and other such devices in Alabama, Mississippi, Louisiana, Georgia and North Carolina and parts of North Carolina and Virginia.

VOTER SIGN-UP

Federal registrars would be authorized to sign up voters in those areas where tests are struck down.

Court action to appoint federal registrars and suspend literacy tests would be authorized in any state or country where the attorney general brought suit to enforce the 15th Amendment's guarantee of the right to vote.

The Senate's passage of the bill was never in doubt after 70 Senators voted Tuesday to limit further debate. But Southern opposition was bitter and unyielding.

Sen. Allen J. Ellender, D-La., said the measure violates the Magna Carta, the Bill of Rights, the Declaration of Independence and the Constitution.

'DIABOLICAL ATTACK'

"Not since reconstruction has the Senate permitted this union to be so perverted and subjected to such a diabolical attack," he said.

But Republican leader Ever-

ett M. Dirksen of Illinois, who helped shape the bill and steer it to passage, said he was confident it would be held constitutional by the supreme Court.

"It has taken us 100 years to catch up with this problem," he said. "This may be an epochal

day in the life of this country."

President Johnson thanked the Senate and called the vote "triumphant evidence of this nation's resolve that every citizen must and shall be able to march to a polling place and vote without fear of prejudice or obstruction."

Capital Letter:

Unheralded Upholsterer Gave JFK Rocker Style

By RUTH MONTGOMERY
WASHINGTON (NEA) — Behind those well-publicized presidential rockers — trademarks of the Kennedy and Johnson administration — is an unheralded man who gave them their individuality.

Slight, inconspicuous Larry Arata was operating a tiny upholstery shop on Cape Cod, when Mrs. Paul Mellon discovered him and recommended him to Jacqueline Kennedy, who later passed him on to Lady Bird Johnson.

During his years with the Shaw Furniture Co. in Boston, Arata helped upholster furniture for the ill-fated Morro Castle steamship, multimillionaire financier Hettie Green's house and her son's yacht.

In 1937, yearning for country life, Arata rented a \$20-a-month upholstery shop in Hyannis, and slept in the back room to save money.

The going was rough for seven years, until Mrs. Mellon's maid suggested that she have Arata do some upholstering work for her summer house at Oyster Harbor.

SO DELIGHTED

His craftsmanship so delighted the meticulous Mrs. Mellon that she recommended him to wealthy friends, including Mrs. Kennedy when the latter was preparing to refurbish the White House.

Jackie asked Arata to come for six weeks to reupholster some antiques, and provided him with sleeping quarters on the top floor of the White House.

He quickly became an indispensable man, and during the succeeding four years has recovered the furniture in the Blue, Red and Green rooms, the Yellow Oval Sitting Room in the family quarters, the Queen's Room, Lincoln Room, Monroe Treaty Room and presidential office.

A few months after President Kennedy's assassination, the Kennedy exhibit went on tour. A featured item was one of the several presidential rockers which Arata had upholstered for JFK's use in his office, family quarters, and Hyannis, Aloka and Palm Beach homes.

Vice President Johnson ordered a duplicate after trying

JFK's rocker, and it now sits in his White House office.

Lady Bird Johnson has kept Arata busy redoing the furniture in Lynda and Luci's rooms, and the upper west hall which is used as a family sitting room.

Arata's wife is now personal secretary to administrative assistant Mike Manatos, and the Aratas commute daily to the White House from their little country abode in nearby Virginia.

Who says it's a long way from Austin to Boston?

In Washington:

Soviet Vies for Lead in Revolts

By RAY CROMLEY
WASHINGTON (NEA) — In a secret meeting last November in Havana, Moscow agents, Castro aides and Central and South American Communist party leaders agreed to combine with selected terrorist groups through the hemisphere in a united front to create "Viet Cong" or "Castro"-type guerrilla forces and "South Viet Nams" or "Cubans" in strategic Latin nations.

Moscow promised Castro a free hand and strong financial backing if he worked through the Communist parties. Moscow promised the terrorists aid if they worked with Russia and not Red China's Mao Tse-tung.

Defected Red agents, reliable clandestine sources and Latin intelligence men report these concrete results in five of the six countries named as priority targets (Venezuela, Colombia, Guatemala, Haiti, Paraguay and Honduras).

Co-ordination of Fabio Vasquez Castano's Army of National Liberation in Colombia, Yon Soco's Revolutionary Armed Force in Guatemala and Alberto Llovera's Armed Forces of National Liberation in Venezuela is in the works.

Honduran guerrillas under Mariano Aguila Revaldo Oyler reportedly have set up liaison with Yon Soco's Guatemalan terrorists near the Honduran-Guatemalan border. (The Honduran Communist party is reported readying guerrilla operation along the north coast led by 70 Honduran terrorists trained in Cuba).

When completed, these actions will give the Reds a

Voice of the People:

County Lakes Pollution of Concern to Swimmer

Gov. James A. Rhodes has called a meeting of governors in states adjacent to Lake Erie to discuss pollution problems involving the Mahoning River and the Great Lakes area in general. In tentatively scheduled conference for late April or early May, Governor Rhodes stated that what we need is the same type of program as Appalachia, with the Federal government and the states cooperating. The Great Lakes pollution problem is just too big for any one state to handle.

How about the inland lakes in Oakland County?

A MOTHER OF SIX POOR CHILDREN

Dominican Intervention

U.S. Shocks Venezuela

By WILLIAM L. RYAN

AP Special Correspondent

CARACAS, Venezuela. — In a broad segment of the population of this key South American nation, U. S. intervention in the Dominican Republic produced a state of shock from which it will take a long time to recover.

Yet there is by no means unanimous ire at the United States. The more violent denunciations of what is called "the Johnson Doctrine" are heard in Caracas, the capital, but spirited defenses of the U. S. action can be heard in other areas.

The intervention has produced an awkward situation for President Rafael Leon's government, which has vigorously been withstanding extreme pressure from Castro-Communist terrorists and has been leading the nation into a new era of prosperity.

The strength of this government does not come from Caracas but from the provinces beyond the capital. Neither Leon nor his predecessor, Romulo Betancourt, carried the capital in national elections.

Newspapers supposedly representing the government's viewpoint have been extremely and sometimes violently critical of U. S. action in the Dominican Republic. The government has made clear it deplores the intervention but on the basis that Washington acted alone, without prior consultation with other members of the Organization of American States.

CARACAS FAVORED RECOGNITION

From Washington, Venezuela's ambassador indicated in comments quoted in press dispatches that Caracas favored recognition of Dominican rebel leader Francisco Caamaño Dengo. In Caracas the government represents itself as taking no sides but simply seeking a "democratic" solution which neither supports nor excludes Caamaño.

The Venezuelan government obviously is unhappy about the events in Santo Domingo.

It seems to regard them as something dangerously like a death blow to the OAS.

It seems to fear the intervention has provided Communism with a foothold in Venezuela with an injection of new life. Castroist elements in Venezuela had been defeated time and again in their attempts to sow chaos.

Informed sources expect the local extremists to lay low for a while until there is a lull in the Dominican crisis, then mount new and more violent attacks.

This apparently is why the intervention is so deeply deplored in government quarters. But in some areas outside the capital, such as Valencia and Maracay, the predominant opinion among people who make politics seems to be that the United States stopped a new Castro victory in its tracks in Santo Domingo and demonstrated that it was ready and willing to act with great power elsewhere.

Soviet Vies for Lead in Revolts

capability to time outbreaks in different Latin countries to keep anti-Communist forces off balance. Think what would have happened if U. S. troop landings in Santo Domingo had been followed by a serious outbreak in Venezuela.

In Colombia, the Communist party has joined with a local guerrilla group. Russian funds and Castro-trained organizers are being used to build a group of 50 terrorists into a "Castro" or "Viet Cong"-type Army of National Liberation.

The Venezuelan Reds (largely urban terrorists) have started all-out work on building Viet Nam-type guerrilla forces. Havana reportedly has promised financial support for a new series of bombings, strikes and demonstrations.

The Guatemalan Communist party has dropped its peace-revolutionary efforts and is now co-operating with terrorist guerrillas. Within a month of the Havana meeting, the Guatemalan underground shifted to an active campaign of terrorism similar to that in Venezuela.

On Dec. 31, five terrorists burned the U.S. aid garage in Guatemala, destroying it and 23 vehicles. On Feb. 21, 10 soldiers were killed or wounded by grenades thrown by terrorists during a parade. This violence is expected to step up.

Havana's recent Creole broadcasts feature the Che Guevara book on guerrilla war, emphasizing how to make preparations for the "first stage" of revolution.

Red China Has Been Modest About Second A-Blast

(EDITOR'S NOTE — The following dispatch has been made available to the Associated Press by the chief of the Southern News Services in Canada, who is now touring Communist China, from which U.S. reporters are barred.)

By CHARLES LYNCH

PEKING (AP) — Communist China has been indulging in very little preening or self-congratulation since her second nuclear explosion.

In fact, the most underdeveloped of the world's atomic pow-

ers might be called most modest.

In official circles as well as among the people at large the second bomb test seems to be regarded as routine — no more than could be expected of scientists working under the guidance and inspiration of Chairman Mao Tse-tung.

China's winning of the world tennis championship in Yugoslavia earlier this month caused more excitement nationwide than did the second nuclear test.

The Chinese seem to take it for granted that they are in the front rank of the world nuclear powers and in a position to exchange a nuclear attack at any time with their neighbor, North Vietnam.

There has been no discussion here whatsoever about such matters as delivery systems, second strike capability, or any of that sophisticated jargon of Western nuclear circles.

The Chinese have said in the past that any old bomber will do to deliver an atomic bomb and that remains the official position, though when asked if China intends to enter the missile and aerospace field, officials answer that she will do so if it is in her interest.

No doubts whatsoever exist about China's capabilities to do what she wants to do despite the primitive nature of some segments of the Chinese society and the fact that much of her science is in a rudimentary stage.

Perhaps another reason why the Chinese are so matter of fact about their atomic bomb is the frequent repetition of Chairman Mao's famous remark that nuclear weapons are a paper tiger and that no war will ever

be settled with them. If Mao says the bomb is a paper tiger then a paper tiger it is to the masses of the Chinese people.

Work Hampers German Traffic

HELMSTEDT, Germany (U.S.) — Construction work on the East German side of the Iron Curtain autobahn crossing to Berlin here caused a traffic pile-up today, West German customs police reported.

Cars were backed up for as much as a mile, police said, causing about an hour's wait in front of the border.

At noon, customs officials reported traffic was flowing normally.

Border officials in Berlin reported no slowdown and said traffic was moving normally. But they said traffic was heavier than normal due to the Ascension Day holiday.

The East Germans this week complained about the plans of Chancellor Ludwig Erhard and other West German politicians to come to Berlin for the queen's visit. They had previously said they had no objection to the

queen herself, who came of ficially to visit her occupation troops, but did not want her visit exploited by the West German government.

But of all the nuclear powers, China is the one least able to provide backup logistics for a sophisticated weapons system since she is the least mechanized.

Her transportation system is hitched to the steam locomotive; there is no national system of highways; the telephone system is sketchy at best; and not only has she no missile capability but her conventional airlift capability is limited.

The feel of impending hostilities is kept just below fever pitch here by constant official shouts and cries aimed at the United States policy worldwide and particularly in Viet Nam and Santo Domingo.

The thought of an atom bomb in hands as itchy as these would be cause for worldwide worry if there were reasons to believe China really regards the bomb as part of her military arsenal. As yet, it does not appear this is so.

Hail to Yale in Chinese

NEW HAVEN, Conn. (AP) — The Yale senior class ode is going to be Chinese this year, instead of the traditional Latin or Greek.

Its author is Richard G. Fabian of Dallas, Tex., who majored in Chinese studies. Fabian submitted his poem when he heard there was a dearth of entries.

The class ode is declined by its author at class day ceremonies each year.

Fabian describes his offering as a "nature poem" in two stanzas, utilizing seven-syllable verse.

He said that the class ode is traditionally humorous, but "there's no such thing as funny Chinese poetry."

Planes Hit N. Viet Targets; Destroyers Blast Cong

SAIGON, South Viet Nam (AP) — Twenty U.S. and Vietnamese war planes rained down 55 tons of bombs on a North Vietnamese army barracks and supply area 220 miles south of Hanoi today, a military spokesman announced.

Pilots reported 65 per cent of their targets destroyed and heavy damage to the remainder of the Ben Quang barracks-supply area.

A U.S. Navy pilot was believed killed when Communist ground fire brought down his F4 Phantom during another strike. Two U.S. Army men were killed the day before in ground clashes. The total of U.S. combat deaths in Viet Nam rose to 389.

SHIP BARRAGE

The spokesman said four destroyers had fired more than 370 rounds against Communist targets. The destroyer Summers was credited with thwarting an attack May 21 on Hai Long district headquarters, northeast of Saigon. The spokesman said the Summers' guns killed 12 Viet Cong and wounded 20.

The Summers suffered one casualty in the strike. Seaman Jimmy C. Smetten of Carversville, Va., was killed when the muzzle end of a 5-inch gun on the destroyer exploded.

A U.S. military spokesman said the plane shot down was one of several Crusaders flying support for eight A4 Skyhawks raiding a railroad yard at Vinh, midway between the Communist capital of Hanoi and the North Vietnamese border.

Other pilots said they saw the disabled Crusader plunge into

the target area and that the pilot failed to eject.

Radio Hanoi announced that a U.S. plane had been shot down over Vinh, but it gave no word on the fate of the pilot.

Today was the second day in succession U.S. planes had hit Vinh, a major North Vietnamese seaport and naval base, and pilots said groundfire was heavy.

The spokesman said the raiders dropped eight tons of bombs and hit the railroad yard with rockets and cannon fire, inflicting moderate damage.

YANKS KILLED

The two Americans killed Wednesday were special forces

**Reds Claim
Downed Pilot
Is Being Held**

TOKYO (UPI) — Communist North Viet Nam claimed today its forces captured a U.S. Navy pilot last April four days after his plane was shot down.

The official North Viet Nam news agency, in a report monitored here, identified the aviator as Lt. Philip J. Butler of Blackwell, Okla.

The Communist report said Butler was captured in a forest on April 24 while he was trying to find his way to Laos and Thailand after the A4 Skyhawk was downed April 20 over North Viet Nam.

The Hanoi account quoted Butler as saying he parachuted from the craft and hid in the forest where he was discovered by an old Vietnamese man who reported to Communist authorities.

advisers accompanying units sent to relieve Vietnamese troops who had been ambushed by guerrillas.

One adviser, an enlisted man, was shot when his outfit went to the aid of a four-truck convoy under Communist attack between Pleiku and Phi Do Lam, about 225 miles northeast of Saigon. There was no word of Vietnamese casualties or guerrilla losses.

The second American, an officer, was killed when his force went in to relieve a Vietnamese rock-gathering detail ambushed by the Reds. He was shot in the head as the Viet Cong opened up

Sales Confab Opens

GRAND RAPIDS (AP) — Approximately 5,000 independent distributors in the United States and Canada for Amway Corp. of Ada began gathering here Wednesday for their annual international sales conference and convention. Rep. Gerald R. Ford, R-Mich., is guest speaker Saturday.

with machinegun and small arms fire.

Four Vietnamese were killed and six wounded in this engagement, but there was no information about Viet Cong casualties.

RED AMBUSH

Another Communist ambush on Tuesday left an American

enlisted man dead and another missing on the Ben Soi-Tay Ninh road 60 miles northwest of Saigon.

The ambush is a favorite tactic of the Viet Cong who use the element of surprise to offset superiority in troop numbers and armament. The ambushes have proved effective because

Vietnamese troops persist in bunching together.

On the political front, Saigon authorities reportedly picked up at least 50 military officers for questioning. They were believed linked to Maj. Gen. Nguyen Khanh and other generals re-

moved from office in recent months.

In Wellington, New Zealand, Prime Minister Keith Holyoake announced his government has offered to send a four-gun artillery battery of 120 men to South Viet Nam to fight with the 1,000-

man Australian infantry battalion which left Sydney Wednesday for South Viet Nam.

The New Zealanders are expected to leave in a few days by plane. The Australian battalion is traveling by sea.

Police Doubt It

Early Halloween Joke?

WAGON MOUND, N.M. (AP) — Grocer Lawrence Martinez said he wondered what the practical joke was when he saw a man walking down the street yesterday clad in his undershirt, shorts, slippers and a bed-sheet over his head.

The man went into the Citizens State Bank. Martinez went to take a look just as the man emerged carrying a paper bag.

"The bank manager came running out yelling to stop him and that the bank had been robbed," the grocer said.

Martinez followed the sheet-clad man into an alley, struggled with him and held him until police arrived.

Norio Sandoval, 29, of Wagon Mound, an acquaintance of Martinez, was jailed.

Leonard Blaylock, FBI agent, said \$50 was taken in the robbery. He said the robber was not armed. The agent said charges probably would be filed today.

Washington News Roundup

Urges Merger for Space Broadcasting

WASHINGTON (AP) — David Sarnoff, board chairman of the Radio Corp. of America, suggests the United States' six giant communications companies pool their international operations under one privately owned firm.

The electronics pioneer told the Armed Forces Communications and Electronics Association in a speech Wednesday such a unified company would simplify relationships with Comsat, the government-established private satellite company.

And he said it would enable the United States to deal on an equal footing with foreign government communications monopolies.

Sarnoff warned that the Soviet Union can be expected to establish its own communications satellite system rivaling Comsat, and the Western European nations may have a system operating in five years.

Comsat, he said, has put the United States far ahead in satellite communications. But, he

added, it has failed to resolve problems of international communications procedures.

WASHINGTON (AP) — Backers of a bill to forbid states from banning union shop agreements have succeeded for the present in blocking an effort to include in it a rider to make union racial discrimination an unfair labor practice.

Leading Democrats on the House Education and Labor Committee decided to block the rider, planned by the committee chairman, Rep. Adam Clayton Powell, D-N.Y., by pushing separate legislation aimed at discrimination in unions.

Supporters of the bill, considered one of the most controversial before Congress, want to avoid adding a racial squabble to the battle.

The measure, urged by President Johnson, would repeal section 14B of the Taft-Hartley labor law. The section lets states ban union shop agreements, under which labor and management agree that all workers at a plant have to join the union.

Such bans are in effect in 19 states.

WASHINGTON (AP) — President Johnson was talking Wednesday to Dillon Ripley, secretary of the Smithsonian Institution, about possible uses of the historic old Court of Claims building when he decided they should go and inspect it.

So Johnson, Ripley and White House aide Douglas Cater strode briskly out of the White House and headed for the building, across Pennsylvania Avenue from the White House at 17th Street.

Police stopped rush hour traffic for Johnson and his companions to cross against the light. Johnson made a quick tour of vacant rooms around an upstairs balcony before the three headed back to the White House.

Hands in pockets, the President attracted only slight atten-

tion during the 15-minute outing. At one point he stopped to shake hands with some youngsters in an automobile.

WASHINGTON (AP) — The FBI National Academy, which gives 12-week training courses to the nation's law officers, is due to be expanded into what FBI Director J. Edgar Hoover calls "The West Point for law enforcement."

President Johnson has authorized the FBI to ask Congress for \$10 million needed to modernize and expand the academy's facilities at the Marine base in Quantico, Va.

Hoover and Atty. Gen. Nicholas Katzenbach discussed the plan Wednesday in talks to the 100 graduates of the academy's 75th class.

Katzenbach said the expanded academy would be able to train 1,200 men a year instead of the present 200.

Comes to a Head

Commie Cabbage Crisis

MOSCOW (UPI) — Soviet officials today belabored a group of Russian factories for turning out 200 million cans of cabbage "meant for a zinc-lined stomach."

Pravda, the official newspaper of the Soviet Communist party, called the situation "catastrophic."

A Pravda article said the canneries, in the North Caucasian area, processed cabbage without regard for how the vegetable tasted.

The crisis came to light when a group of Russian tasters made an inspection tour of the canneries.

"The tasters looked at the huge pile of cans with frightened eyes," Pravda said. "The cans provoked neither admiration nor appetite. And the tasters decided that all these products are meant for a zinc-lined stomach."

Pravda said the canneries tried to foist some of the cans on grocery stores. One store ordered 1,400 cans of cabbage and was sent 21.5 million.

"The conveyor belt is working just for the sake of quotas," Pravda said. "We need a radical change. We want our industry to work for people, not for storehouses."

Opposition From Sidelines Heard by Presbyterians

By GEORGE W. CORNELL

AP Religion Writer
COLUMBUS, Ohio — Whispers of friction trailed today in the wake of the United Presbyterian General Assembly. But it emanated mostly from the sidelines.

Generally, the representative delegates displayed a strong consensus in mapping new church plans and policies, despite eddies of debate.

"Unity in Jesus Christ does not mean uniformity," commented the Rev. Dr. Eugene Carson Blake, chief administrator of the church. "We can differ within the fellowship without it being a prelude to schism."

As the denomination's week-long legislative meeting closed Wednesday, however, fireworks came from outside it in a volley of criticism by the Rev. Dr. Edward T. Stimson, of Omaha, Neb., at current denominational trends.

'LOSS OF LIBERTIES'

He protested a new confession of faith, given preliminary backing by the assembly, and said it could lead to "loss of our liberties and the introduction of monarchial governmental forms" because it sanctions variety in them.

In an open-air news conference, swollen by bystanders, he said the confession also helps "open the way to church union," and he denounced current union talks going on among six denominations, including United Presbyterians.

"If they succeed, as they well might," he said, "we shall have to leave the church which would no longer be free and Presbyterian-reformed." He said if that "sad day" comes, many hundreds would depart with him.

However, the assembly here overwhelmingly endorsed the progress of the talks, under way for four years.

RESTATEMENT

The new confession, the first restatement of beliefs for English-speaking Presbyterians since the Westminster Confession three centuries ago, remains subject to a two-year, churchwide process of discussion and possible changes before final action on it.

It was expected to unleash a ferment of theological self-examination in the 3½-million-member church.

Dr. Stimson, a massively built man of 6-foot-7, summoned newsmen outside the meeting hall to air his objections, since he was not an elected delegate and was not accorded use of the premises.

He also criticized conduct of various church agencies in what he called the "present course of the establishment," and accused Dr. Blake of "misusing his power" in support of the church union talks.

Amounts in disaster relief ranged from \$100,000 for flood relief in West Virginia to \$17.5 million for the Alaska earthquake victims.

'Low Water May Cut Industry Investment'

CHICAGO (AP) — Low water levels in the Great Lakes may curtail future industrial investment in the area, a representative of the iron ore industry said Wednesday.

Robert W. Taber, of Cleveland, assistant to the president of Cleveland - Cliffs Iron Co., told an International Joint Commission hearing on the Great Lakes Level Study that iron ore is constituted about 38 per cent of the total tonnage of major bulk materials shipped on the Great Lakes in 1961.

He said low water levels had "forced an increase in the delivered cost of iron ore" and had been a handicap in meeting the increasing competition of imported ore.

"As the companies add up all the competitive factors to be continually evaluated on ... po-

tential new mines along the Great Lakes, low water constitutes a deterrent to future investment in this area," Taber said.

He said his company, in the past, had "enjoyed the cheapest ton-mile haulage in the world between the Lake Superior mines and the steel mills." This is no longer true, he said, because of low water levels.

"Low water catches up with most ships and puts a large dent in their earnings," he said.

The commission also heard from representatives of states bordering the Great Lakes, the Cook County (Chicago) Clean Streams Commission and several private citizens in the last in a series of public hearings on the problem.

Authentic LBJ Signature Rare

Claim 'Ghosts' Sign
Papers for President

NEW YORK (NEA) — How can Lady Bird Johnson be so sensitive about a social note while LBJ himself doesn't seem to care who signs the name of the president of the United States to important state documents?

Two Secret Service agents recently visited a New York autograph dealer who had offered a note from Jacqueline Kennedy to Lady Bird for sale.

Charles Hamilton, the dealer, expected to sell it for about \$1,000 — but that was before the Secret Service descended on him.

The note was sent back to the first lady. But like any patient husband, President Johnson may wonder what all the fuss was about.

For, according to Hamilton — a recognized expert in handwriting — the President doesn't sign his own name to many letters and other documents that most people would think genuine.

3 SIGN
The dealer says the President has at least three people signing his name to White House correspondence. Certain letters sent to important persons from the White House bear Lyndon B. Johnson signatures that are fake, he claims.

"Many a heart will be broken in years to come," says Hamilton, "when some long-treasured paper bearing what supposedly is the President's autograph turns out to be no such thing."

One of the chief executive's secretaries is even signing Johnson's name to official documents, Hamilton declares. For example, the executive order of January 24 that announced a period of official mourning for the death of Sir Winston Churchill had a signature which "is certainly not the President's," the expert claims.

Besides the human hands imitating President Johnson's penmanship, Hamilton says the White House also is using the mechanical hands of a robot machine which turns out quantities of autographs that are spurious.

PERSONALLY SIGNED
Nevertheless, he claims, "in many instances, such items are accompanied by an 'authenticating' letter from a White House aide stating that the President personally signed them!"

Although Hamilton admits that Johnson is not the first chief executive to use a "ghost" to sign his name for him, LBJ is the first president in history to let someone else handle for him "the highly important duty of signing an executive order."

Hardly a week passes that Hamilton isn't shown a John F. Kennedy autograph that isn't fake, for example.

The late president's name was signed for him by no fewer than seven different robots — and 14 secretaries. But, Hamilton declares, "Kennedy never entrusted to an underling the responsibility of signing important state documents."

So few authentic LBJ signatures have ever been discovered during Johnson's 18-month tenure as president that his handwriting may well become more valuable to collectors than Washington's or Lincoln's.

Malaysia's ten million people are a mixture of Malays, Chinese and indigenous tribes. It is rich in rubber and tin.

Weeks Of Back Pain Now Relieved

"After weeks of pain in my back and hips, I tried DeWitt's Pills—got wonderful relief," says Mrs. R. Gardner, Waterloo, Iowa.

People write in every day praising the remarkable relief they get with DeWitt's Pills.

DeWitt's Pills act fast with a proven analgesic to relieve pain of backache. Their mild diuretic action helps to eliminate retained fluids and flush out uric acid from the joints that can cause physical distress. If you cannot see your doctor, DeWitt's Pills often succeed where others fail—quickly relieve minor muscle aches and pains, too. Insist on the genuine DeWitt's Pills.

Over 14 million DeWitt's Pills are sold by drug stores day after day after day, the world over—a tribute to their amazing action!

Plans Suit Over Liuzzo Data Leak

Detroit (UPI) — The husband of slain civil rights worker Mrs. Viola Liuzzo said yesterday he plans to sue two local police officials responsible for sending a confidential report about his wife to Dallas County Sheriff James Clark of Selma, Ala.

Clark said he asked for the report after he alleged his life had been threatened by a Detroit Teamsters union worker.

Mrs. Liuzzo was shot and killed March 25 while operating a shuttle service after the Selma to Montgomery, Ala., civil rights march.

Warren Police Commissioner Marvin Lane obtained a confidential report on Mrs. Liuzzo from Detroit Police Inspector Earl Miller and sent it to Clark. Lane said he was acting on the request out of police courtesy.

Liuzzo, a Teamsters business agent, said he would file a civil suit against Lane and Miller.

POOR JUDGMENT

The report eventually landed in the hands of the Ku Klux Klan.

Miller, who was accused by Detroit Police Commissioner Ray Girardin of using poor judgment in releasing the report, has been transferred from the Criminal Investigation Bureau to another post.

He said he released the information thinking Lane needed it in his professional police work.

Liuzzo yesterday also dropped a request he made to the Common Council for a public hearing on the release of the information.

NO PURPOSE

"There is no indication at present that either of these men were representing their respective police departments and I feel that hearings of any kind would serve no worthy purpose," Liuzzo said in a telegram to the council.

"Miller and Lane have been on a private venture and frolic of their own and they should be required to answer as individuals for their indiscretions," he said.

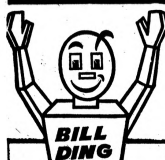

Girardin was still scheduled to appear before the council today to explain the policy of gathering information on citizens and filing it away as confidential matter.

He said the report on Mrs. Liuzzo was compiled for police information in planning security at her funeral.

FBI Probing Dixie Beating

Claim Vote Worker
Abducted in Georgia

CRAWFORDVILLE, Ga. (AP) —The FBI is investigating the reported beating of a 25-year-old white Southern Christian Leadership Conference voter registration worker.

The SCLC said the worker, Tony Scruton, Chewelah, Wash., was abducted and beaten by three white men after he, two white youths and a Negro attempted to obtain service at the Liberty Cafe Wednesday. It said the two youths, Al Luthers, 20, Chicago, and James Gibson, 20, Atlanta, were arrested and held in the Tallapoosa County Jail in lieu of \$200 bond on trespassing charges.

Sheriff M. B. Moore refused to comment on the incidents.

The SCLC said Scruton, a minister's son and a Washington State College graduate, was held in protective custody by the sheriff for a time after the beating and later released. It said Scruton reportedly had lacerations on the head and neck from blows by a club.

PROBE STARTED

James T. Neagle, special agent in charge of the FBI's Savannah office, said the reported beating is being investigated at the request of John Doar, assistant U.S. attorney general.

An Augusta Chronicle reporter, Prentis Palmer, said he was told by Sheriff Moore that he could not guarantee Palmer's safety if the newsmen remained in Crawfordville. Palmer said that as he left the cafe, a white man told him, "get out of Crawfordville and stay out."

Scruton was quoted by the SCLC as saying the sheriff warned him to "leave town before you are killed."

Scruton is a member of the Summer Community Organization program, SCLC said. This is a branch of SCLC which is testing public accommodations.

HIS ACCOUNT

SCLC gave this account of the incident:

A group of SCOPE workers was sent to Crawfordville Wednesday morning. The group first went to Alexander H. Stephens Memorial Park, which the park superintendent said has been integrated for more than a year, and then went to an automatic laundry.

The group washed some clothes at the laundry and was attempting to dry them when the manager turned off the water.

The group then went to the Liberty Cafe where they were refused service and Luthers and Gibson were arrested. Scruton was in a car with two Negroes when a group of white men stopped them. When Scruton attempted to get out of the car, he was abducted.

SCLC said more demonstrations are scheduled today. Crawfordville is about 80 miles east of Atlanta.

By 2 Prospective Engineers

Valedictorian Honors Shared

GENE E. BOWLES JR.

BRUCE JOHNSON

LARRY BOK

WEST BLOOMFIELD TOWNSHIP — Two prospective engineers, both with perfect 4.0 academic records, will share honors as valedictorians at West Bloomfield High School.

Running close behind Bruce B. Johnson and Gene E. Bowles Jr. is class salutatorian Larry Bok, who maintained a 3.94 grade average.

Bruce, a National Merit Scholarship finalist, is a Michigan Competitive Scholarship winner and recipient of the Regents-Alumni Scholarship from the University of Michigan.

He will attend Brown University, Providence, R. I., on a scholarship.

OTHER ACTIVITIES

He also was active in the ski, photography, American Field Service and Latin clubs; the student council; and the National Honor Society.

Gene, who plans to attend the University of Michigan, received the Harvey M. Merker Award, given by the American Institute of Chemical Engineers to an outstanding southeastern Michigan student who plans to enter the field of chemical engineering.

Last summer Gene, son of Mr. and Mrs. Gene Bowles Sr., 3300 Wellington was a participant in the high school honors science

program at Michigan State University.

Editor-in-chief of the 1965 yearbook, he was a member of the varsity cross-country and track teams, the ski club, photography club, Latin club, National Honor Society and American Field Service Club.

IN ACADEMIC LEAGUE

He also participated in the academic league of the Wayne-Oakland County League.

Larry plans to major in business administration at Eastern Michigan University and has received a Detroit Edison Co. scholarship.

His parents are Mr. and Mrs. Stanley Bok, 1795 Beverly, Sylvan Lake.

Larry was a member of the varsity baseball team and National Honor Society.

Area Dairyman Wins Awards at Breeders' Confab

METAMORA — Edward E. Wilson, owner of Windrow Farm, was presented three awards for herd production recently at the annual meeting of the Ayrshire Breeders' Association at Wilmington, Del.

Wilson and his farm manager, Charles Miles, received the silver French Trophy for the herd in the 25 to 50 class with the highest average production.

They also received the President's Challenge Trophy for the herd having the highest average exceeding 600 pounds of butterfat at the annual meeting of the Ayrshire Breeders' Association.

Wilson's herd of 47 cows last year had an average of 14,800 pounds of milk, testing at 4 per cent for an average of 612 pounds of butterfat.

Pontiac Press Photo

BEAUTIES AND THE BEARD — Lewis Strigrow, among the Holly men growing beards for the June 18-20 village centennial, found himself in an enviable spot last night as the centennial queen finalists gathered around him. Flanking Strigrow are Linda Sue Howe

(left), 16, and Judy Swartz, 17. Behind him are (from left) Lyric Hewitt, 18; Gail Williams, 17; and Kathie Krause, 16. The finalists, all Holly High School students, were picked from 23 contestants last night. The queen will be named during the celebration.

Concert Set in Rochester

ROCHESTER — The vocal music department of Central Junior High School will present its spring concert at 8 o'clock tonight in the auditorium.

Included in the program will be the seventh- and eighth-grade vocal groups, the ninth-grade choir, and the girls' ensemble.

Tickets will be available at the door or may be purchased from any choir member.

'Teachers Must Vote on Agent'

UTICA — The only legal way to select a sole bargaining agent for Utica schoolteachers is an election, according to Mrs. Norma Good, president of the Utica Federation of Teachers (UFT).

"This is the only way we can decide," she said. "The school board can't designate an agent."

Mrs. Good said an election probably won't be held until next fall.

UEA PATTERN

The board has already approved a negotiations pattern with the Utica Education Association (UEA) which represents the majority of the school system's 415 teachers.

"UEA procedure is set up by the state," said Mrs. Good, "so by the time we get to ours, the board had already accepted theirs."

2 Firms Hit by Burglars in Rochester

ROCHESTER — Safe-crackers made a haul estimated between \$700 and \$1,000 from two business places here last night. The Rochester Elevator at 303 E. University reported a loss of

between \$400 and \$600, and Novels Lumber & Coal at 412 Water was robbed of \$300-\$400.

Patrolman James Hurley discovered both breaks, the first at 3:54 a.m. at the elevator and the second at 5:53 a.m. at the lumber yard.

Detective William Woehl, who is in charge of the investigation, said entrance to both places was gained by removing a rear window.

Both safes were also opened in an identical manner, Woehl said. The combination dials were knocked off and the locking mechanism "punched."

'PROFESSIONALS'

"I'm sure both jobs were done by professionals," Woehl said.

The detective said there is no connection between last night's safe-crackings and two others that have been pulled in Rochester in the past few weeks.

Suspects have been detained in connection with both of the other jobs, Woehl said.

FOR FINGERPRINTS

Woehl is being assisted in the investigation by Detective John Jurcic of the Romeo State Police post.

The detectives were checking both safes and other articles for fingerprints this morning. No clues as to the identity of the burglar or burglars were reported.

Area Woman Held in Holdup

Suspect Charged in Grand Rapids Theft

COMMERCE TOWNSHIP — A 47-year-old maid was arrested by the FBI here yesterday and charged in connection with a Tuesday bank robbery in Grand Rapids.

Hazel V. Foster was named as the red-haired woman who robbed a suburban Grand Rapids bank of \$2,100 and then made her getaway in a taxi.

Less than 24 hours after the holdup, Miss Foster was taken into custody at the home where she worked as a housekeeper.

The Burton Heights branch of Central Bank was held up by a woman who wore a polka-dot scarf over hair curlers, according to authorities.

They said she wielded an old-fashioned, pearl-handled revolver.

PICKED UP

A taxicab driver unwittingly served as her accomplice when he picked her up after the robbery, the FBI reported.

She was taken to Dutton, a suburb of Grand Rapids, and later was traced through the address given by the cab driver.

Miss Foster was being sought by Wyoming, Mich., police on a Jan. 12 warrant charging her with violation of the Michigan check law.

Assistance of the FBI had been obtained on the basis of a statute covering unlawful flight to avoid prosecution under the check law, according to Paul H. Stoddard, special agent in charge of the Detroit FBI office.

Arraigned in U.S. District Court in Detroit yesterday, Miss Foster is being held on a \$10,000 bond until a removal hearing June 7 on a bank robbery charge.

'Head Start' for Avondale Preschoolers

Project Head Start has been approved for 45 children who will enter kindergarten in the Avondale schools this fall. The eight-week program will begin in July.

Initially conceived as a minor front in the war on poverty, the project's aim is to develop a program for improving the health and physical abilities of disadvantaged children.

Consideration is given to the child's physical, mental, social and emotional growth. The federal government underwrites 90 per cent of the cost and the local district makes up 10 per cent either in cash or through the use of buildings and equipment.

The project will be staffed by a full-time director and three certificated teachers, plus teachers' aides, cooks and other workers. Volunteers are also needed.

Proposed South Lyon Budget Is Same Figure as Last Year

SOUTH LYON — The city does not plan to alter its operation costs during the next fiscal year.

The city council tonight will seek approval of a \$123,000 budget which matches this year's total.

The amount also will require the same tax rate — \$20 per \$1,000 of assessed property valuation.

Some minor alterations have been made in the breakdown of anticipated expenditures, according to City Clerk Anna B. Snell.

She noted the juggling was done to bring the figures in line with actual spending this year.

Oxford Woman's Club Will Sponsor Dance

OXFORD — The Junior Woman's Club will hold a dance from 10 p.m. to 2 a.m. Saturday at Pine Knob.

Dancing will be to the music of Neil Kimler. Tickets may be purchased from any club member. Profits from the dance will go to the Oxford library.

Notable among the salary increases the budget includes is a raise for the city's volunteer firemen.

If the budget is approved following the 7:30 p.m. hearing, the volunteers will make \$5 a run rather than the \$3 they have been receiving for several years.

Others in line for raises are Mrs. Snell and city policemen.

The total budget includes allocations for public works, \$41,000; police, \$27,000; administration, \$25,000; fire department, \$13,900; library, \$6,800; and cemetery, \$3,700.

Junior Editors Quiz on

SATURN'S RING

QUESTION: What are Saturn's rings composed of and how did they get there?

ANSWER: Saturn's rings are said to consist of many billions of small gravel-like particles, circling around the planet in a flat disk only ten miles thick.

As our illustration indicates, there are actually three rings, although all are in the same flat plane. Saturn is an extremely cold planet, with a temperature of 250 degrees below zero.

Some astronomers believe that the particles in the rings are ice, a theory which would help to explain why they reflect the light from the sun, which is a very long distance away.

But other authorities believe them to be at least partly made up of particles of earth or rock.

How the rings came to be where they are is another mystery. Some believe they represent the remains of a moon which once encircled Saturn and then broke into fragments.

Another theory is that they are leftover matter from when the planet itself was formed. Saturn is of very light material, so light, it would float if there was water to float in.

This is the idea symbolized by the impossible picture at the lower right. Saturn has nine moons. One of them, Titan, is very interesting, because it is the only moon in the solar system which has an atmosphere.

FOR YOU TO DO: Color the picture a rich yellow and you will get a better idea of this planet, which is the most wonderful thing to be seen in our solar system except for the sun itself.

School Aid Boost Hailed by Bartlett

LANSING (AP) — Helming State Superintendent of Public Instruction Lynn Bartlett has congratulated the House for passing a \$451.8 million school aid bill.

The overwhelming approval given by the House to the state school aid increase is to be commended and its members should be congratulated and thanked," Bartlett said.

The bill, approved 105-1, would

return the state's share in public school operating costs to about 50 per cent. The aid formula would increase the per-child allowance from the present \$236.50 to \$255 per child.

Grant for Lansing OK'd

WASHINGTON (AP) — The Urban Renewal Administration has approved an \$83,746 grant to aid Lansing, Mich., in preparing a community renewal program.

Threatened Legislator Protected

LANSING (AP)—Rep. James Tierney, D-Garden City, target of an alleged murder-extortion plot, wore a gun in the House chambers Wednesday.

Guards posted a watch at the legislative doors and there were other precautions.

There were no incidents, however, and the business of the house went ahead.

Tierney, 60-year-old freshman legislator and former mayor of Garden City, was making his first appearance in the legislature since felony charges were brought Saturday against three men.

Contractor Lester Ellerhorst, 60, who shot and wounded Tierney in 1967 in a dispute over a Garden City contract, and two Florida ex-convicts are charged with a plot against Tierney's life.

Ellerhorst, former mental patient, is free on \$2,500 bond. The other two men are in the Wayne County jail at Detroit, unable to post \$5,000 bond. All three stood mute to the charges.

At the time of the shooting in Garden City, Tierney was mayor.

Ellerhorst and his codefendants are accused of plotting also against Municipal Judge Russell Swarthout, 42, injured while defending Tierney in the 1967 shooting, and attorney Arthur Bichan of Detroit. Bichan represented Tierney in a lawsuit against Ellerhorst that resulted in an order to the latter to pay \$150,000 damages.

ON PROBATION
Ellerhorst has been on probation since 1963 when he pleaded guilty to a reduced charge of felonious assault in the 1967 shooting.

Legislative sergeants-at-arms were shown pictures of Ellerhorst Wednesday and were posted at the doors. State police detectives were near, though the police denied officially that any guard had been posted.

Modern Ideas for Congress

WASHINGTON (AP) — A Senate-House committee considering ways to put a more modern face on Congress was advised today to consider (1) installing an automatic voting system in the House and (2) year-long sessions in non-election years.

The first was the suggestion of Rep. Ronald Brooks Cameron, a second-term California Democrat who said in prepared testimony 68 legislative days were consumed in the last session by roll and quorum calls at a cost to the taxpayers of \$4.4 million.

The second was the suggestion of Sen. John L. McClellan, a Democrat who has represented Arkansas in the Senate since 1943 and served two House terms before that.

It takes from 30 to 40 minutes to complete a roll call in the House. No machinery is used for House—or Senate—votes.

As for the length of congressional sessions, they have been growing of late, stretching into late autumn or early winter. McClellan proposed in his prepared testimony that in non-election years Congress hold year-long sessions with June and October recesses.

U. S. Cosmetic Firm Is Target of Latin Terrorists

BUENOS AIRES (UPI)—Terrorists bombed the Max Factor Cosmetic Co.'s Buenos Aires branch last night, causing some damage but no casualties.

The bomb was planted in a side door leading to the basement of the building occupied by the American company. Several windows were broken by the blast.

The bombing was the latest of a number of recent terrorist attacks on U.S. property. Previous targets included the Buenos Aires branch of the Helena Rubinstein Cosmetic Co.

Korea President Home

SEOUL—South Korea's President Chung Hee Park returned home today after a 10-day state visit to the United States.

Western Businessmen Get Big Red Satellite Welcome

(Editor's Note: AP correspondent Preston Grover has completed a tour of most of the East European countries once labeled Soviet satellites. In this report he sums up his findings on how the barrier between these nations and the West are being broken down.)

By PRESTON GROVER
BUDAPEST, Hungary (AP) — Businessmen from the West today are breaking down barriers between Eastern Europe and the West.

Everywhere they are finding the welcome sign out in a way not dreamed of two or three years ago.

Increasing East-West trade is only one of the signs of a reviving feeling among East Europeans that they again are a part of the world and not a segregated section of it.

Budapest is exhibiting its new view by advertising itself as "the center of Europe." That is intended to mean not East Europe but the whole of it. The country is so Western-oriented that visitors are hard put to find any real evidence that they are behind the Iron Curtain.

While such evidence exists, in Hungary and elsewhere, in this city you have to hunt for it. In Budapest are a half-dozen monuments to Russian soldiers who died in the bitter battle to capture the city from the Germans. But the party slogans as ever present in East Berlin are simply not found here.

You hardly ever see a Russian. One Budapest hotel recently was full of West German, French and English businessmen and a Spanish football team.

A small Soviet delegation spent a day or so there and had to speak German to the hotel employees, who understand hardly a word of Russian. German is the prevailing foreign language here, despite 15 years of compulsory teaching of Russian.

These are among the outward signs of what appears to be a facing about of East European populations. With the exception of Bulgaria, whose people at ways had a deep sympathy for fellow Slavs in Russia, all East European states treasure and emphasize Western interests and backgrounds.

AIMED AT INDEPENDENCE
Even in Bulgaria, the most

reticent on the whole subject, the regime recently had to put down an attempted putsch apparently directed at more independence from Russia. Romania has undertaken a "de-Russification" campaign that is almost comic in its portrayal of the country has abolished compulsory teaching of Russian, suppressed Russian institutions and street names, and is pursuing an independent state politically and economically.

In Hungary, the people have taken Westernization into their own hands. It is not only Westernization, but a restoration of Hungarian nationalism and national identity so long smothered under Russian authority.

Even the leaders insist there is a difference. One party spokesman said it should be noted that the communism which grew up in Hungary, where there was a long background of culture, was different from the communism which grew up in Russia, where most of the population was peasant.

DECENTRALIZATION
In Czechoslovakia, party leaders have launched the country on an economic decentralization program, the whole atmosphere of which is western, and away from Communist-style authoritarian economy.

Of the lot, East Germany reflects the least "Westward turn." Yet old and young there make it clear they don't intend to become Russianized.

Looking back after a series of tours through most of this Eastern European area, it appears that an American seeking business should head for Romania. It is the most wide open to Western trade. Czechoslovakia is running close.

And for a lively night life, take Prague, which also has other attractions. That magnificent city, in its streets, bridges and buildings—and the ghetto graveyard—traces out the whole history of Western Europe.

TOURIST FUN
For tourist fun and a pleasant life, take easy-living Budapest

and nearby Lake Balaton, one of the most beautiful big lakes in Europe.

For salt water swimming, the Black Sea beaches in Romania and Bulgaria offer a low-cost tang of the Mediterranean, and bathers don't have to walk over people getting to the water, unlike France and Italy these days.

Anyone who still hankers for a taste of a rapidly disappearing phenomenon an Iron Curtain country, should go to East Berlin. There it is, grim, gray, depressing, and still disturbing, even if now it is not quite so frightening.

On the negative side, although all East Europe is an atmosphere that can be only described as the doldrums. There is a kind of public apathy that might be traced to political fatigue and political-economic frustration.

CLASH OF CREEDS
Economic difficulties and the

Soviet clash of creeds with China have shaken the belief of some in East European Communists that they were on the right track. Now there is doubt, and the party leaders face it at every public meeting. All of them are grudgingly aware that things are better in the West.

On top of that is a general shortage of investment capital to start new industries and to make the old ones work better.

Hungary, for instance, has stopped its economic advancement program for a year for a sort of breather.

Industrial and farm production is slowing down, but more painfully, quality of Hungarian products is such that Premier Janos Kadar said something had to be done about it. Even Socialist states, he said in effect, no longer will buy inferior products; they once snapped up for lack of other things. Better Western goods are finding their way on to shelves everywhere.

Is it a moment of opportunity for the West? Manufacturers from West Europe feel so. Every country in East Europe continues, about two-thirds of its trade with the Soviet Union and neighboring Communist states, so the thing isn't a pushover. Yet without exception all are seeking to reduce to some extent the Russian grip on them, with Romania outstanding.

Signs of the Western trade invasion are everywhere. The Skoda automobile plant near Prague is fitted out with rows and rows of presses, drills and lathes from Italy, France and

West Germany, while a British conveyor system carries the assembly line from nuts and bolts to finished automobiles.

ON MANY DESKS
Not a single piece of American machinery was seen in any of dozens of plants visited. American industrial magazines were on many desks, and officials looked hungrily at the fancy lathes and other tool machinery so difficult for them to buy under present restrictions.

"With a limitation of five years credit in which to pay for the equipment bought in America, we have almost no time to get it into use before we must complete payment for it," said Stefan Gaber, deputy planning minister in Romania.

"The new American tire and chemical factories just contracted for will take two years to build. That leaves only three years in which to make the plants pay for themselves. We

need more time than that," Gaber said.

Italy, France, West Germany and England offer longer term credit, in some cases, by report, as much as 12 years.

ONE FACTOR
Trade is only one of the factors opening the way toward more active East-West relations. Last year 200,000 Hungarians streamed out to the West on vacation, mostly to Austria and Italy, and an equal number came in from the West.

Western tourists going East can get visas often in a matter of hours in place of the weeks required two years ago. Special exchange rates are provided to make the visit cheap. In Prague a top-class hotel room with bath and breakfast will cost under \$5 a day, barely more in Bucharest, Budapest and elsewhere. In Paris, London, Rome and New York, hotel charges are four to six times as high.

'ENGINE' IN THE FRONT—When autos were banned from the island of Borkum in the North Sea to assure quiet for patients at a large sanatorium, one car owner refused to part with his vehicle. Instead, he cut it down to buggy size and equipped it as a horse-drawn two-wheeler. Now he has the world's only Volkswagen with an "engine" in the front.

Says Disfigured S. Viets Desperately Need Plastic Surgeons

WASHINGTON (AP) — Thousands of South Vietnamese are so badly disfigured by gunshot and burn wounds they'll never be able to lead useful lives, says an American plastic surgeon who recently returned from the stricken land.

Only four Vietnamese plastic surgeons are available in that country of 14 million people, a severe shortage that represents a national tragedy, said Dr. Richard B. Stark, chief of plastic surgery at St. Luke's Hospital, New York.

Stark returned recently from Saigon after spending a month training and assisting the four Vietnamese plastic surgeons who face, he said, a staggering task of treating casualty cases that includes civilians and soldiers. Stark was an emissary of MEDICO (a nongovernmental medical group that provides aid in underprivileged areas of the world).

"Many of them (the victims) need 40 to 50 operations in order to be salvaged," said the doctor in a report to MEDICO. The report was made available to a

reporter by CARE Inc., which is holding a world conference here. MEDICO is a service of CARE.

TAKE 15 YEARS

"Based on U.S. experiences in World War II and the Korean War," the report said, "it would take 15 years to perform the amount of reconstructive surgery needed to restore these people."

"MEDICO has made an important first step in tackling the problem," he said, adding that he and seven other American plastic surgeons lectured and operated under a program "calculated to upgrade the Vietnamese surgeons."

But plastic surgery is not the only medical deficiency in the area, he said.

"South Viet Nam," Stark said, "is a medical jungle. Statistics tell just part of the story."

700 PHYSICIANS

"There are only 700 physicians in the entire country. However, 400 of these are serving up to 10 years in the armed forces." That leaves 300 physicians who must care for the civilian population of 14 million.

"The casualties pouring into Saigon's crowded hospitals, to day from the country's battle fields are double what they

were on my first visit in February 1964. More than 400 weekly are sped by helicopter to the Cong Hoa and Cho Tay hospitals. These casualties include civilians as well as military. I did some 38 operations (in February) as my Vietnamese colleagues looked on."

The doctor said a new phase of the plastic surgery and other surgery training program is under way with the cooperation of St. Luke's Hospital.

"It is designed," he said, "to pave the way for Vietnamese surgeons to train in U.S. hospitals under approved internship and residency programs."

"Inadequate training in Saigon's medical school has kept its graduates from passing U.S. examinations for foreign internships. To qualify them for the house staffs of American hospitals, St. Luke's has inaugurated a unique education effort."

The program, he related, involves preparation of tape-recorded lectures at St. Luke's, covering material in all of the major surgical services. The recordings are then played for the young Vietnamese doctors at the Saigon medical facility.

Legislators Are Nearly 'Outfoxed'

LANSING (AP) — A pair of foxy Upper Peninsula legislators almost sent bounty repealer bills back to committee Wednesday before the rest of the House of Representatives saw the trap.

Rep. Einar Erlandsen, D-Escanaba, casually moved that "Items No. 57 and 58 on our calendar be returned to the committee from which they came." The first repeals the bounty on coyotes and wolves; the second repeals bounties on red foxes and bobcats.

Rep. Dominie Jacobetti, D-Negaunee, associate speaker protem, then said, "all those in favor of sending these two items back to committee say 'aye.'"

The House had cast a half-hearted affirmative vote before Rep. Joseph Snyder, D-St. Clair Shores, chairman of the conservation committee, jumped to his feet and began to fight the move.

The fox bill has amendments pending, and could not be referred to committee without first taking action on the recommended amendments.

The House voted again on the coyotes and wolves bill and the move was defeated 18-77.

French Draft Rules Eased on Assembly

PARIS (AP) — The French National Assembly passed a bill Wednesday night reducing military service from 18 to 16 months and providing for more liberal exemptions.

The bill now goes to the Senate. Final passage is expected quickly.

The first credit card issued in this country was put out by an oil company in 1924.

U. S. Accident Death Toll Up

CHICAGO (AP) — The nation's death toll from accidents in the first three months this year was 24,700 persons, an increase of 300 or 1 per cent over the same period last year, the National Safety Council reported today.

However, because of a population increase, the council said, the death rate from accidents actually dropped from 156.4 to 54.7 per 100,000 persons, a 3 per cent decrease. Accidental deaths in the home during the period rose from 8,100 to 8,300. Deaths in public places numbered 3,700, compared to 3,600 a year ago. On the job deaths were unchanged at 3,400 while motor vehicle accidents, which took 9,900 lives, caused slightly fewer fatalities than the 10,000 reported the first three months last year.

Unseen Water Pollution Proves a Tough Foe

(EDITOR'S NOTE: This is the fourth of a five-part series on water pollution. Associated Press writer Phil Brown of Lansing spent several weeks visiting areas of pollution and treatment, and talking with water pollution experts. To day: Water pollution experts.)

By PHIL BROWN
Associated Press Writer

LANSING—Water pollution sounds like an ugly mess, but generally it is invisible, hidden in the water. And that makes it harder to fight.

The Michigan Water Resources Commission (WRC), which has the job of protecting state waters against pollution, often receives complaints from persons who see rubbish floating down a river.

But floating rubbish is not true pollution. True pollution results from materials in the water which the public cannot see.

Finding it involves test tube work, where scientists check water samples for such things as "biochemical oxygen demand" and "coliform count."

DETECTIVE WORK

It also may involve detective work as the WRC tries to find out who is causing the pollution. The problem is, experts say, difficult in rivers where many sewer plant outlets are close together. The commission's chief engineer, Ralph Purdy, estimates there are more than 700 potential trouble spots in the state which need careful watching.

At most of these spots, though, the WRC is able to make a field inspection only once a year.

"We believe that the frequency of field inspections should be increased to an average of twice annually," said WRC Assistant Executive Secretary Norman Billings.

TRAILER LAB

"We have also requested budgetary approval of a trailer laboratory and staff to improve the stream quality appraisal programs, so that the effects of waste disposals can be evaluated, and a running account of water conditions can be at hand as an alert for action on impending problems," he added.

The commission, with a 40-man staff, is operating on a \$409,941 budget for fiscal 1964-65, with some \$178,000 of that in federal funds.

To go with its \$178,000 federal money, it is asking for \$489,994 from the state next fiscal year. Gov. George Romney recommended \$363,728.

The WRC receives help from the State Health Department, which spends about \$90,000 a year directly on pollution control.

WOULD BE DESIRABLE

The Public Administration Service of Chicago, in a study it made for the U.S. Public Health Service, recommended \$1,025,000 for Michigan for pollution control and said \$1.6 million would be desirable for adequate staffing.

The task of the WRC and health department is to prevent injury from pollution—injury to the public health, to fish and wildlife or to industry or business.

It has issued more than 700 orders in the last 15 years and, where necessary, gone to court to force compliance.

"Carrying out these orders has cost Michigan municipalities and industry many hundreds of millions of dollars," Billings said.

LITTLE PROTEST

"But for the most part," he added, "the commission decisions have been accepted with a minimum of protest and with virtually unanimous recognition of their merit."

"A great deal of pollution control has also been effected both by industries and municipalities on a purely voluntary basis," Billings said.

Although the commission's purpose is to halt injury situations, it doesn't necessarily have to wait for injury to occur, Billings explained. He said nine out of ten orders now are preventative.

And if any person plans a new waste disposal operation or enlargement of an old one, he must go to the WRC for permission to use a stream. If the WRC approves, it may set limits on the types and amounts of wastes.

KEEPING WATCH

The health department's role in pollution control involves keeping track on municipalities, trailer camps, schools, hospitals and nursing homes. Department engineers must inspect and approve plans for municipal

sewage treatment plants before they can be built.

Municipalities generally are slower than industry in carrying out WRC pollution abatement orders because construction of sewage treatment facilities often involves a vote on a bond issue to finance them.

Thus, while few industrial cases are taken to court, the

state must go to court fairly often to force compliance by municipalities.

In fact some municipalities wait to be taken to court as "an easy way out," Purdy explained.

Once the court orders it to go ahead on pollution control, the municipality can issue general obligation bonds without a vote

of the people. It also can ignore laws limiting the total amount of bonded indebtedness a municipality can incur.

Some key factors in pollution control enforcement are the result of Michigan Supreme Court decisions involving Port Huron in the 1940s.

The court first rejected Port

Huron's argument that a city sewage plant would not solve the problem since other cities were contributing to pollution of the St. Clair and Black rivers.

Said the court: "It is no defense to a statutory charge of river water pollution that others have or are contributing to that condition."

NO DEFENSE

The city next argued it was financially unable to comply with the order, and the court also held this was no defense. Finally, Port Huron ran into trouble trying to sell bonds since the bonds had not been submitted to voters for approval.

The court held that no vote was necessary since the city was compelled by court order to raise the money for sewage treatment.

"The order was for the protection of the people of the State of Michigan," the court said, "it transcended local purposes."

ACTIVE INTEREST

Since the time of those decisions, the public attitude toward water has changed "from one of casual indifference to very active interest," Billings said.

As a result of active interest, the WRC finds itself between representatives of two opposing philosophies.

One side wants high standards regardless of cost. The other worries about expense and the possibility that severe restrictions will drive industry away. Trying to ensure representation for various viewpoints, the

law creating the seven-man decision making commission provides that it must include representatives of municipalities, industrial management and organized sportsmen.

In addition to these three, members must include the state conservation director, health commissioner, agriculture director and state highway commissioner.

"As may be expected," Billings said, "the most vocal alarmists are not always the best informed and the actions that they recommend to forestall the alleged calamity are often unreasonable, unnecessary and even impossible."

"The challenge of water resource authorities is increasing by one of identifying and focusing public interest upon reasonable and meaningful objectives, and of securing administrative support to the realities of water resource occurrence and use," he added.

"Michigan is not running out of water," said Billings, but "Michigan does have a water problem."

(Staff: Tale of Two Cities)

59 MSU Demonstrators

Are Arraigned in Sit-In

EAST LANSING (AP)—Fifty-nine Michigan State University students were arraigned Wednesday on loitering charges in their street sit-in Tuesday night at the city hall.

The demonstrators, including both whites and Negroes, had demanded immediate approval of an open occupancy ordinance.

AP Photos

HUNT EVIDENCE OF POLLUTION—A federal task force on the Detroit River is shown taking detailed samples to determine

the extent and sources of water pollution. This is part of a 25-member federal team screening samples in the river's mouth.

Telegraph at Elizabeth Lake Rd.

Let us be content in work; to presume to fret because it's Browning, 19th century English do the thing we can; and not little. — Elizabeth Barrett post.

MARINES CHECK BUNKER—A Vietnamese mother sits on the ground holding her child as U.S. Marines check a Viet Cong bunker in Nam Yen, 10 miles northwest of Da Nang.

Marine Beachhead Within Cong Range

CHU LAI, Viet Nam (AP) — The newest Marine beachhead in Viet Nam sits within artillery range of a Viet Cong district capital and astride an area where large Communist troop concentrations once moved with ease.

There are positive indications big Viet Cong units are still in the immediate area. But as yet they have not made a strong attempt to hit the 4th Marine Regiment on Dung Quat Bay.

"I'd sure like to see them try it," says Col. Edward Dupras, the regimental commander. "With our superiority in firepower, we could easily handle them."

There have been repeated air strikes on Viet Cong troops near Chu Lai, 53 miles southeast of Da Nang. Results have been good, pilots claim.

INTELLIGENCE ESTIMATES

Intelligence estimates are that five Viet Cong battalions and a number of independent companies are in the area. These sources say the Viet Cong could mass 5,000 men to hurl at the beachhead.

So far the Viet Cong has been content to live with their new neighbors with only the nastiness of sniper fire. The Marines, acting under orders, have stayed in their own back yard and traded shots with the Viet Cong from long range or ambush.

This situation is not expected to continue long. Marines eventually will head out on longer patrols seeking out the Viet Cong, just as they have around Da Nang.

The three Marines battalions are covered to the landward by their own infantry firepower, plus batteries of 105 and 155mm artillery. The sea approach is patrolled by Vietnamese armed junks, more than half of them depending on sails for power.

LACK OF SHIPS

"It's not a conventional war, you know," says Col. Dupras of Providence, R.I., explaining the lack of warships to guard his rear.

About three miles west of the 4th Regiment's boundary sits

the Viet Cong district headquarters. Intelligence reports say the town is heavily fortified and has the elaborate tunnels, caves and trenches used in the defense of Communist strong points in this country. Marine artillery batteries could demolish the town, but the tunnels and caves are made to withstand a tremendous pounding.

If the Viet Cong plans to try a major push against any of the three Marine beachheads in Viet Nam, Chu Lai appears to be the most likely choice. Quang Tin Province has been virtually cut in two by the Communists, who outnumber regular government forces in the area considerably. Rugged hills favorable to guerrilla sneak attack extend into the Marine perimeter, and the beach is within easy mortar distance.

Although some elements favoring the Viet Cong are present at Phu Bai, 90 miles northwest, and at Da Nang, in between, neither is considered quite so open to attack by a large force.

Low Bridge Tactic Has Little Finesse

By DICK WEST
WASHINGTON (UPI) — As the author of an uncompleted book titled, "How To Succeed at Bridge Without Really Cheating," I feel a little guilty about the deplorable turn of events at the recent World Team Tournament in Buenos Aires.

I had been able to finish the book before those matches were held, it might have prevented the shocking situation which arose when two British players were accused of improperly exchanging information.

The British partners, Terence Reese and Boris Schapiro, were alleged to have used hand signals to let each other know what cards they were holding.

It so happens that this was one of the main points I had intended to discuss in my book. At present, bridge players may legally convey information to each other by means of bidding "conventions" such as Blackwood, the one-club opener, the unusual no-trump and the negative double.

Before a match begins, each partnership makes known to its opponents what conventions it intends to employ.

ALL RIGHT
This system is all right as far as it goes, but it fails to take into account the fact that human beings can make some 700,000 different and meaningful gestures through body movements and facial expressions.

The range is so great that it is virtually impossible to keep players from deliberately passing information by gesticulation if they are so inclined. They may even do it subconsciously.

My wife, for example, employs what is known as the "unusual eyebrow" convention. Any

time her left eyebrow is tilted out of its normal position, I know that I have bid the wrong suit.

I myself have rather immobile eyebrows, but I do have very expressive shoulders. Therefore, I prefer the "negative shrug" convention.

SO EASY

Since cheating along this line is so easy to get away with, I was planning to propose in my book that the World Bridge Federation amend the rules to authorize pantomimic conventions.

Before each tournament began, all the players would have to stipulate what gestures and expressions they intended to employ.

Should a player committed to the wrinkled nose convention be detected curling his lip, the other team could call the judges and severe penalties would be imposed.

This plan would go a long way toward eliminating secret codes of the type attributed to Reese and Schapiro. Too bad I didn't get it published in time.

Almost Habit-Forming

SOUTHEAST, England (UPI) — Dutch seaman Bernardus Nieuwenhuizen, 28, was ordered to be deported for the third time yesterday after he was caught trying to see his English sweetheart. Commented a police officer: "If only he would get a passport, we wouldn't have all this trouble."

Senator: 'Slandering Me to Shield Baker'

WASHINGTON (UPI) — The chief accuser in the Senate's Bobby Baker investigation claims that the Johnson administration has mounted a "diabolically clever" campaign to slander him in order to take the legal heat off Baker.

"Instead of prosecuting Baker, they are actually making a national hero of him," charged Sen. John J. Williams, R-Del., yesterday.

But, he said, "I am determined that it is not going to be covered up — I don't think it could be covered up even if we wanted to. There's more and more interesting developments to come."

Williams' accusations were

included in a speech before the Senate and they centered on an as yet unpublished draft of the Senate Rules Committee's report on its long-running Baker investigation.

He charged that the report was part of a campaign of criticism aimed at his conduct during the investigation of the former Senate aide's affairs and was designed to raise questions in the minds of federal grand jurors now considering Baker's myriad business deals.

RIPS REPORT

Williams labeled the report "one of the most damnable attempts at character assassination in the history of the U.S. Senate."

"Why is the administration so intent on criticizing me?" he asked, then answered his own question: "They are desperate."

"The decision has been made by the Great Society hierarchy that John Williams must be stopped. They are determined to have Bobby Baker from prosecution at all costs . . . and diverting attention (from Baker) by launching an attack on me."

The Delaware Republican, sometimes called the Senate's one-man FBI, said that by filling the newspapers with attacks on witnesses in the Baker investigation and with assaults on

him, "they hope to raise questions in the minds of jurors."

DECISION MADE?

"The decision has been made," he added, "Bobby Baker must be cleared at all costs."

Williams belittled the recent White House announcement that the President had instituted a code of ethics for the executive department. He said it meant nothing as long as the administration condoned the influence-peddling of people like Baker.

A former French colony, Ivory Coast, in West Africa, has an area of 127,500 square miles, or bigger than New Mexico. Population 3.4 million.

Charlevoix Club Ok's \$10,000 for Library

CHARLEVOIX (AP) — A \$10,000 appropriation from its youth fund has been approved by the local Kiwanis Club for construction of a proposed new Charlevoix public library. Federal funds are being sought on a

matching basis to underwrite the estimated \$60,000 cost of the structure.

A license was issued by Boston municipal authorities as early as 1670 to allow a woman store owner to establish a coffee house. This is believed to have been the first coffee house in America.

VOICES OBJECTION — Woman lawyer Pearl Hart objects to House Committee on Un-American Activities hearing rules at the committee inquiry in Chicago yesterday. Her objection was over refusal to permit cross-examination of a witness against her client, Louis Disken (right). In the background, a woman can be seen cupping her hands to her ears in an effort to hear the exchange better.

House Unit Winding Up Illinois Hearing on Reds

CHICAGO (AP) — The House Committee on Un-American Activities moved its hearings on communism in Illinois into its final stage today. Witnesses refused to answer questions and 12 persons were ejected in Wednesday's stormy session.

The committee heard a second witness testify of being a Communist party member while spying for the FBI.

Federal marshals charged the persons ejected from the hearing room with impeding a committee of Congress in exercise of its proper process of investigation. Eight were released on \$100 bond and the others were held in jail.

One witness, Milton Cohen, walked out. A committee member said he will urge the full committee to charge Cohen with contempt.

WAS NAMED

Cohen was one of six persons named by a witness as being active in the Communist party. Some 60 pickets paraded outside watched by 100 policemen. There were no incidents.

The pickets included three men in military uniforms with arm bands bearing the Nazi swastika. They carried placards reading "communism is treason" and "God bless HUAC."

On the witness stand, Lucious Armstrong, 65, a retired steel mill hand, told the committee that he joined the Communist party in 1931, left in 1934, rejoined it in 1937, left it again in 1948, and rejoined in 1953 at the request of the FBI.

He told a story similar to one related by Miss Lola Bell

Holmes, who testified Tuesday that she spied for the FBI while a party member. Armstrong and Miss Holmes are from Chicago.

Calling the Communist party in the United States a "frustration group," Armstrong said, "The American people better wake up."

Asked by Alfred Nittle, committee counsel, if the Communist party in the United States reflects Soviet policy, Armstrong said, "It don't reflect anything but a bunch of ignorance."

Armstrong and Miss Holmes testified that Lewis Disken, David Englestein, Cohen, Ben Friedlander, Charles Wilson and Wilberforce Cox Jones had been active in the Communist party. All have been subpoenaed.

'A LITTLE APPREHENSIVE'

The six invoked the 1st, 4th, 5th, 6th, 9th, 12th, 14th, 15th and 19th Amendments.

Jones answered all questions with the response: "As a black Afro-American, I am a little apprehensive about answering that question."

He said he included the 19th Amendment because he is part Indian and Indians aren't permitted to vote in the United States.

Attorneys for the subpoenaed persons moved to have the hearings conducted in executive session, but the committee denied the request.

Gabon, on the west coast of Africa, with an area of 102,000 square miles, has a population of 452,000, including 6,000 French settlers.

2 Killed, Several Hurt, Damage Heavy

Tornadoes, Thunderstorms Batter Nation's Midsection

By The Associated Press

Tornadoes and thunderstorms hammered eight states in the nation's midsection Wednesday, killing at least two persons, injuring several others and causing extensive property damage.

The twisters whipped across sections of Illinois, Indiana, Missouri, Wisconsin, Michigan, Iowa, Ohio and Oklahoma.

A fireman was killed in Elk Hart, Ind., when strong winds blew a dangling power line against him. He was repairing damage from the Palm Sunday tornadoes. The person was killed by lightning in Sylva, Ohio, a Toledo suburb.

The Chicago metropolitan area was lashed by violent weather including five tornadoes. At least 11 persons suffered injuries. Twisters hit some populous areas. No deaths were reported.

PULLING STRING

"I looked like someone had a string and was pulling it down to earth," said a pilot who

watched a tornado from his plane 2,000 feet up.

In suburban Skokie, high winds ripped parts of a roof from a junior high school while 850 pupils and 50 teachers huddled in the hallways. None was injured.

A tornado skipped through Addison, west of Chicago, and five patrons were injured when the window of a restaurant shattered.

At O'Hare International Airport, on Chicago's northwest side, four persons were injured when a twister blew out a glass window.

PLANES DAMAGED

Two planes were damaged and total damage to the terminal was placed at \$500,000.

A tornado struck a Roman Catholic school in Rosemont while some 350 pupils hovered in corridors. A portion of the roof was ripped off. There were no injuries.

Four passengers were bruised

when a Chicago Heights bus was blown against two utility poles.

Judith McKinney, 22, a speech therapist at a school in Addison, said she saw "a whole garage flying in the air about a block and a half from us. Then it began flying apart."

TORNADOES HIT

Tornadoes also struck in downstate Illinois. A 250-foot FM radio station tower was downed in Lawrenceville.

A tornado swept across Oklahoma City at tree-top level and damaged several buildings and airplanes. It destroyed the Church of God and Christ.

Five persons were injured when high winds battered a mobile home near Reedsburg, Wis.

Strong winds overturned house trailers in Blue Springs, Mo., and a tornado struck Madison, Mo.

LIVESTOCK KILLED

Scores of livestock were killed and farms were damaged by tornado-like winds in Iowa.

Showers and thunderstorms continued in scattered sections from the southeastern Plains across the Ohio Valley to the Lower Great Lakes. Heavy rain was reported in parts of Arkansas, Tennessee, Kentucky and Indiana. A severe wind storm

swept Simpson County, Ky. One home was flattened at Franklin, Ky.

Coast air moved slowly eastward from the northern Plains where temperatures were in the 30s in some areas. Warm or hot humid weather continued in most of the East and Gulf Coast.

Girl's Bravery Wins Honors

LANSING (AP) — Gabriels High School sent a stretcher to bring back 15-year-old Marleen Sipka Wednesday. It could honor her for shielding two youngsters during the Palm Sunday tornado which smashed their home.

Ironically, while Marleen was alert for the Lansing area. No tornado came but a Civil Defense official had to leave the presentation because of the alert.

Marleen "had the courage to do the right thing when it hurts," Rep. H. James Starr, D-Lansing, told the honors assembly.

The Gabriels sophomore, who was baby sitting at a home in DeWitt with four youngsters when the tornado hit, received an award certificate from Lansing Mayor Max Murningham, a Civil Defense plaque and a bouquet of red roses from her classmates.

LACK OF TIME

She recalled for newsmen "I didn't think there was time to get to the basement. I had Bruce and Vic (Eckler) lie on the living room floor and got on top of them. I couldn't cover Debra with my body, but I pushed her head down and held her hand."

Debra, 9, died of injuries. Vic, 7, Bruce, 3½, and Lev Ann, 1½, who was in a crib in another room at the time, recovered from injuries. Marleen suffered three pelvic fractures.

AP Photos

AWNING IS UP — A severe windstorm in Addison, Ill., near Chicago, tossed a restaurant awning over utility wires yesterday.

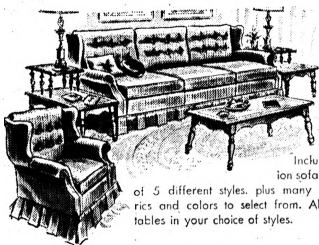

Some five tornadoes hit in the Chicago area in yesterday's outburst of windstorms and heavy rains.

Missionary's Widow Has New Mission: Tell Congo Needs

ALHAMBRA, Calif. (AP)—The widow of Dr. Paul Carlson, the medical missionary slain six months ago by Congo rebels, has a new mission. To tell the world of the Congo's need for medical and spiritual help.

Emerging from grief and seclusion, Lois Carlson now appears before church groups to speak and show colored slides of the work she and Dr. Carlson did in the Congo.

When she spoke at the White Oaks Covenant Church in the

Los Angeles suburb of Northridge, the nearby Baptist Church adjourned its service so members could attend.

"This is all new to me," says the trim, attractive blonde. "I'm not a speaker. I'm just a mother and a housewife."

"STILL A MISSIONARY"
A registered nurse, she says also: "I'm still a missionary."

Where may her calling take her: "If the Lord wants me to go back to the Congo, he will let me know."

Carlson, 36, an Evangelical Covenant Church missionary doctor, was among 29 hostages massacred in Stanleyville last Nov. 23, minutes before Belgian paratroopers arrived.

Since February his widow has kept house for his parents. Gust Carlson, 66, talks of retiring from his machine shop. His wife has recovered sufficiently from the heart attack she suffered when the rebels threatened to execute their son as a spy, to be up and around.

This summer, Lois Carlson, 36, plans to visit her parents, Mr. and Mrs. Elmer Lindholm, in

Menominee, Mich. There she will work on her husband's biography, scheduled for publication by early 1966.

NOT SAME HOUSE
In the fall she will return to live in Torrance, like Alhambra a Los Angeles suburb, but probably not in the same house she and her late husband occupied there before he went to the Congo.

Her children, Wayne, 10, and Lynette, 7, are "avid TV fans, much to their mother's disgust," she says. "I tell them,

"You got along fine without it out there in the Congo. Why can't you here?" But it doesn't work that way."

Although Mrs. Carlson is a cheerful personality, the church talks on her life with Dr. Carlson in Africa are not easy for her. There is a choke in her voice as she shows scenes of her husband's funeral and his grave at Karawa, his church's mission station.

There is no plan to return his body to this country.

"No," says his widow, "that's where he liked it, where he loved the people. I think this is what he'd want."

It means a lot to the Congolese in that area. With his body left there, they feel he is a true brother."

Each coin press in the Philadelphia Mint produces approximately 300 coins a minute. Weighing the coins is so exact that if even one coin is missing from a sack containing 5,000 it can be detected.

Refund Bill Wasn't Light

SAN FRANCISCO (AP)— day to the happy customer, the Pacific Gas & Electric Co. has demonstrated to its financial pain that it's willing to take a second look at a bill and correct a mistake.

A PG&E refund draft for \$60,684.32 was handed over Wednes-

day to the happy customer, the San Francisco Port Authority, which operates San Francisco Harbor.

The utility said it recently discovered it installed a too-

fast meter nine years ago at the ports ferry building.

Reporter Tests Computer to Be Used in Teaching

By TOM NOLAN
Newspaper Enterprise Assn.
WASHINGTON — It's 8:30 a.m. and the school bell rings and the bright-faced, eager children file to their seats.

"It's time for today's lesson," the teacher says, throwing a switch.

Each student turns to a complex array of electronic equipment in front of him and types out his number on a keyboard. The keys click his name back to him, printing it on a roll of 18-inch-wide paper in the carriage.

The lesson begins. First, a brief review. Then new material. Finally, a series of questions to make sure the point is understood.

The student bats out his answer on the keyboard. Almost instantly, he is told whether he was right or wrong.

SIDE BY SIDE
Children sitting side by side might be taking different courses.

Meanwhile, the teacher circulates.

The budding young mathematician may be solving quadratic equations. The average student may be working in fractions. The below-average pupil may be learning multiplication tables.

Stop Bad Breath
Largest selling Charcoal Comp. Tablet Swallows Mouth Stomach in 5 Minutes or your 43¢ back at drugist. Chew Best and Tablets eliminate your breath and rid of bad breath. No sugar. No Bitter. No Grogginess. N.Y. for liberal free sample.

CORNS

lates around the room, helping the confused, encouraging the slow, cheering the brilliant.

Sound fantastic? Of course. But machines of this type are already in use on an experimental basis and scientists predict that within a decade they will be commonplace.

NEW TOOL.
Key to this new educational tool is the computer — specifically, a new line of data processing systems developed by IBM.

Since a computer's reaction time is measured in microseconds (one micro-second is a millionth of one second), the machine can seemingly zip out questions and answers to thousands of students (who may be thousands of miles distant) simultaneously.

Since its electronic memory is almost infinite, it could instruct each pupil in a different subject.

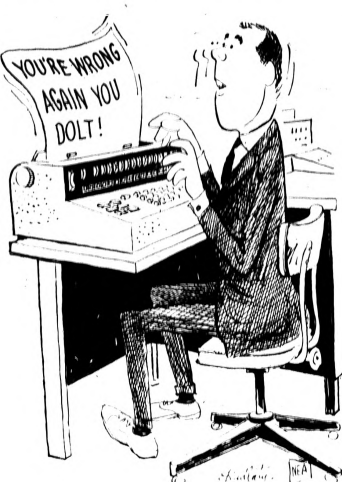

Computer-assisted instruction may be the answer to a question which has plagued teachers for years: "How do you give bright students their heads without befuddling the below-average students, and how do you educate the below average ones without boring the bright ones?"

DEVELOPING SYSTEM
IBM is currently working with several universities to develop these computerized learning systems further.

To illustrate how it works, IBM offered this reporter a chance to take an elementary computer course called "How to Square Five Digit Numbers Ending in 5." The results follow:

NOLAN: Sign on . . . No. 1562.

COMPUTER: Your name is Thomas Nolan. We are now preparing to help you learn a very quick method of squaring two

digit numbers that end in five (such as 35). However, we don't know what the successor of a number is."

NOLAN: Yes.
COMPUTER: Good. Let's see you prove it. The successor of 25 is

NOLAN: 24.
COMPUTER: No. The successor of a number is one greater than that number. Your answer is one less than that number. Now answer once more.

NOLAN: 207.
COMPUTER: WOW! You weren't even close with that reply. 24 is the successor of 23. Once more, the successor of 25 is

NOLAN: 35555.
COMPUTER: I'm sorry, but you missed that question. It obtains the successor of a number by adding 1 to that number. Don't

add 2 as you did. Try answering again.

NOLAN: 23.
COMPUTER: This is the second time you've given me a wild answer. Now try again.

NOLAN: 34.
COMPUTER: Good. The successor of 27 is

NOLAN: 84.
COMPUTER: O o p s, you missed that one. The successor of 305 is 306, therefore the successor of 27 is

COMPUTER: Come on now. The successor of 3 is 4, therefore, the successor of 27 is

NOLAN: 88.
COMPUTER: Very good. To square a two-digit number ending in 5 we can: 1. Multiply the leftmost digit by its successor. 2. Write 25 after the result of step 1. Example: The square of 25 is: 1. 2 times 3 (leftmost times successor) is 6. 2. Write 25 after the product of step 1. Answer is 625. Question: The square of 55 is

NOLAN: (I can do that, but I better "check" my answer). Sign off.

COMPUTER: You are signed off.

NOLAN: (Five minutes later): Sign on . . . number 1562.

COMPUTER: Your name is Thomas Nolan.
NOLAN: 3025.

COMPUTER: Very good. There is one more question. The square of 35 is

NOLAN: 1225.
COMPUTER: Correct. That's the end of our little program. Thank you for your attention. IBM TECHNICIAN: Let's check your results, Mr. Nolan. (Types out "data." Computer answers.) Hmm. If you need anything more, we'll be glad to put you through our program for squaring one digit numbers ending in 5.

Parties just seem to happen when friends and Schenley get together. No ordinary whisky, this! It has a taste so delightfully bland—we call it "whispering whisky." But make no mistake, Schenley brings out the party in people.

BLENDED WHISKY, 40% ALC/VOL (80 PROOF). ©1964, SCHENLEY DISTILLERS CO., N.Y.

Mrs. Robert W. Chambers, Bloomfield Hills, Mich., was hostess Wednesday at a poolside party for members of the Metropolitan Opera cast playing in Detroit this week. With her are (from

left) Ethel Greene, Philadelphia, Pa.; Dr. David DeChura of Oakland University and Dina DeSalvo, Brooklyn, New York.

Students Depend on Her

She Caters to Youthful Tastes

By MADELINE DOEREN
Three generations of Pontiac youngsters have been served their lunches during Mrs. Annie Lee's nearly 37 years with the Pontiac schools food service.

With mixed emotions, she looks forward to a good rest and perhaps a trip to Florida, come winter.

She looks backward on a very rewarding experience and possibly a bit of influence on the eating habits of the younger generation.

"Before 1928, only Pontiac Central and Eastern Junior High had cafeterias," she says. "I began as a part-time worker and in 1929 helped open the cafeteria at the Washington Junior High where my daughter, Mrs. Don McLean now teaches."

CAME IN '38
Mrs. Lee came to Central as dining-room manager. Since 1938, she has managed the entire cafeteria except for an interval from 1944-49 when she was buyer and menu-planner for all city school cafeterias.

Since 1949, school lunch programs have been managed by each building principal who hires his own general supervisor.

Since Mrs. Lee's return to Pontiac Central, the schools have been receiving surplus foods from the government.

"This may pose a problem such as how to use an excessive amount of any one food. Just how many ways are there to use prunes or peanut butter, for example?"

"Accounting for the day's receipts is also part of my job."

During the winter season, from 850 to 1,000 daily lunches are served, whereas in warmer weather the average is about 750. The student's financial status on a particular day is also a factor.

Mrs. Lee has found that teen tastes vary.

A less conscientious manager could make money by holding the menu to just hamburgers, hot dogs and barbecues. She prefers to serve

well-balanced meals, which often include these favorites:

SPANISH RICE — LIGHT

"Spanish rice is almost universally disliked and has to be offered with a super-choice dessert. Salads are one item popular with almost everyone."

"Even husky football players eat salads, sometimes two or three at one time."

The crux of the whole situation is good help.

There is an assistant, Mrs. William Gaddes and 11 other workers. They prepare and serve all the food.

In terms of service, Mrs.

Lee is the oldest employee in the city's schools and her staff's term of employment runs from two to 22 years of service.

OVERTIME

Sometimes there's an evening meal at the school. This calls for extra baking, plus all the other preparations.

After retirement, Mrs. Lee will enjoy a "change of pace" by preparing meals for her husband and herself in their home on South Johnson Avenue.

Granddaughter Ann will be a student at Central next year.

Men Take Honors

Five Pontiac area students were among those honored Monday at Michigan Technological University's 13th annual honors convocation.

John Willis, son of Mr. and Mrs. Fred Willis of Redmond Street was cited for junior class honors and for receipt of a Procon, Inc. Scholarship.

Richard Morgan, son of Mr. and Mrs. Robert Morgan of Strathdon Way was honored for receiving freshman class honors and for his membership in Phi Eta Sigma honorarium scholastic fraternity for freshmen.

Thomas Wurl, son of Victor Wurl of Churchill Street, Pontiac Township and Mrs. Nadine Jones of Lincolnshire Street, was cited for his membership in Chi Epsilon honorarium civil engineering fraternity.

Royce G. Bunce, son of Mr. and Mrs. Warren G. Bunce of Fortess Street and Daniel J. Schultz, son of Mr. and Mrs. Daniel Schultz of Kempf Street, were both cited for membership in Eta Kappa Nu, honorary electrical engineering fraternity.

A project set in motion by one Jaycee Auxiliary turned into a whirlwind of activity. Result? Draperies and chests of drawers for the girls' wing at Pontiac State Hospital make the rooms more homelike.

Last December, Mrs. John F. Radenbaugh of the Waterford Jaycee Auxiliary was made coordinator of the effort to raise approximately \$1,200. Local and county auxiliaries were contacted and by March, the windows were draped.

The Bloomfield Farms Garden Club heard of the project and sent a check. The Foundation for Emotionally Disturbed Children offered to complete the fund for purchasing the chests.

Earlier this month, the girls in the newly decorated wing gave a tea for their benefactors.

In addition to the Waterford group, other Jaycee auxiliary groups taking part in this project were Union Lake, Davisburg, Pontiac, Rochester, Howell, Orionville, Southfield, Berkeley and Hazel Park.

Girls Receive Furnishings From Jaycees

A project set in motion by one Jaycee Auxiliary turned into a whirlwind of activity.

Result? Draperies and chests of drawers for the girls' wing at Pontiac State Hospital make the rooms more homelike.

Last December, Mrs. John F. Radenbaugh of the Waterford Jaycee Auxiliary was made coordinator of the effort to raise approximately \$1,200. Local and county auxiliaries were contacted and by March, the windows were draped.

The Bloomfield Farms Garden Club heard of the project and sent a check. The Foundation for Emotionally Disturbed Children offered to complete the fund for purchasing the chests.

Earlier this month, the girls in the newly decorated wing gave a tea for their benefactors.

In addition to the Waterford group, other Jaycee auxiliary groups taking part in this project were Union Lake, Davisburg, Pontiac, Rochester, Howell, Orionville, Southfield, Berkeley and Hazel Park.

Mrs. Ball Assumes New Post Tuesday

Xi Beta Beta chapter of Beta Sigma Phi sorority installed its officers at a dinner meeting, Tuesday, in the Gold Room at Oakland University.

Mrs. Clarence Ball is incoming president; Mrs. Roderick Anderson, vice-president; Alice Jackson, recording secretary; Mrs. Edgar Arnold, treasurer, and Mrs. William Killen, corresponding secretary.

She Mails the Letter Then Waits

By The Emily Post Institute

Q When a woman is given a letter of social introduction to someone in another city, how is this properly handled?

A Upon arriving in town, does she mail the letter to the one for whom it is intended and then wait to hear from her, or does she call at the person's house and present the letter in person?

A She mails her letter of social introduction to the person's house and does nothing further until she receives an acknowledgment.

DOUBLE WEDDING

Q My sister and I are going to be married at a double wedding. We are each having two bridesmaids and a maid of honor.

A Both bridegrooms will have ushers and also a best man. Will you please tell us the correct order of the procession?

A The ushers — one hall, friends of the first groom, and the other half friends of the second bridegroom — go up the aisle together.

Then come the bridesmaids of the older sister followed by her maid of honor. The older sister follows on the right arm of her father.

Next come the bridesmaids of the younger sister, her maid of honor, and last, the younger bride on the arm of a brother, uncle or other near male relative.

FUNERAL REGISTERS

Q It is necessary to write thank-you notes to everyone who called at the funeral home and signed the register?

A I have already written to those who sent flowers and mass cards, but I did not write to these others. I was told I should.

A It is not necessary to write thank-you notes to those who did not more than sign the register.

Details concerning the announcement of an engagement are described in the Emily Post Institute booklet entitled, "Announcing the Engagement."

To obtain a copy, send ten cents in coin and a stamped, self-addressed envelope to Emily Post Institute, in care of The Pontiac Press.

The Emily Post Institute can answer personal mail, but all questions of general interest are answered in this column.

Study Group Elects Heads

Officers for the Waterford Child Study Club II were elected at the organizational meeting, Monday in the home of Mrs. Charles Murphy on Genella Street.

Mrs. William Crisp is president; Mrs. Gerald Irish, first vice-president; Mrs. Ernest Shegna, second vice-president; Mrs. Jack Worthington, recording secretary; Mrs. Ronald Koski, corresponding secretary; Mrs. Russell Johnson, treasurer and Mrs. Murphy, historian.

The list of charter members includes the officers, also Mrs. Charles Cullen, Mrs. Amos Vaughn, Mrs. Fred Barnfather, Mrs. Warren Cleven and Mrs. Marion Shepard.

Grecian Food Is Featured by Penelopes

A buffet dinner featuring Grecian foods, will be held by members of the Doris chapter No. 157 of the Daughters of Penelope.

Dinner will be served from 6:30 until 8 p.m. Saturday in the First Federal Savings of Oakland Building.

Following dinner, David Weinberg, teacher of literature and classics in the Warren school system, will narrate slides on "The Relationship Between Ancient and Modern Greece and its Effect on the Modern Western Civilization."

Working on arrangements are Mrs. Nicholas Samouris, Mrs. Carl Husted, Mrs. David Weinberg, Mrs. Socrates V. Sekles, Mrs. William P. Gregory, Mrs. Dora Giannopoulos, Mrs. Dora Williams and Mrs. Andreas Kastania.

Tickets may be purchased at the door or by contacting Mrs. Samouris.

WOMEN'S SECTION

Help Husband to See Folly in His Thinking Toward Son

By ABIGAIL VAN BUREN

DEAR ABBY: I have been happily married for over 20 years to a

self-made man who has had very little education. He is doing very well financially. Our sons are of college age, and my husband refuses to encourage them to get a higher education.

He says all you need to get

along is guts. I don't agree. Do you?

VAN NUYS
DEAR VAN: No. But if "guts" are a factor, an educated man with guts has a much better chance of succeeding than a man with guts alone.

DEAR ABBY: Last month my girl friend's brother-in-law died. I met him four years ago and didn't even know his last name. (He was my girl friend's sister's husband.) I didn't think it necessary to send any condolences because I really didn't know him that well.

Well, for about three weeks after that my girl friend was very cool to me. She never called. I was always calling her.

Then she finally told me that she was very hurt because I didn't send her or her widowed sister condolences. To tell you the truth I didn't even think of it. I've talked to different people about this and they all said he was only a brother-in-law and they wouldn't have sent condolences, either.

I would like to know your feelings on this.

WONDERING
DEAR WONDERING: Your oversight was understandable and your friend is being childish. Apologize but be on guard for her next regression.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, care of The Pontiac Press.

Troubled? Write to ABBY, care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

Fete Bride-Elect Prior to Vows

Gloria Jean Barnowsky, of East Russell Street was honored at a recent trousseau shower in the home of Mrs. Stephen Sheeran at Wolverine Lake. Cohostesses were Mrs. Ivan Arnold and Mrs. Donald Weir.

Mrs. William J. Donnelly of James K Boulevard entertained at a recent shower and luncheon in the Rotunda Country Inn.

The bride-elect's parents are the Ervin Barnowskys, and her fiancé, Michael D. Gilbert, is the son of the David Gilberts of Ogden.

St. Michael's Catholic Church has been reserved for the June 19 nuptials.

OES Honors Life Members

Porcelain yellow rose plaques marked places for 135 members and guests at a dinner for life and honorary members of Pontiac chapter 228, Order of the Eastern Star.

At the affair in the Masonic Temple, life membership certificates were presented to Mrs. Arthur Barnes, Mrs.

Arthur Cabrail, Mrs. J. H. Chummings, Mrs. Albert Games, Mrs. Clara Cronk, Mrs. Walter Kinsler and Bartlett Wager.

Recipients of 50-year pins for long and distinguished service were Mrs. E. Vern McCall, Mrs. Maud Schram and Mrs. John McCartney.

Mrs. Dallas Vancil, director of the musical therapy department of Pontiac State Hospital was in charge of a program presented by the hospital patients.

Charles Jones of Goodrich, honorary member, gave a reading.

Mrs. Samuel Smith was dinner chairman. Mrs. Kenneth Anthony and Mrs. W. T. Wiseheart planned the decorations.

Guests were present from Saginaw, Holly, Birmingham, and points in Ohio.

June Bride Is Honor Guest at Showers

Sandra Lee Sheldon will wed James Steven Anderson of Birmingham on June 5, the 53rd wedding anniversary of her grandparents, the Timman Nelseys of Pontiac Lake.

Her parents, the James Sheldons of Summer Street, Orion Township, will be hosts at the rehearsal luncheon in their home.

Mrs. George Robson of Clawson and Mrs. Ronald Rumble of Novi, honored their niece at a recent linen shower.

Other shower hostesses were Mrs. Harold Sheldon, Lake Orion and Mrs. Clare Campbell, Keego Harbor. Mrs. Bruce Loersch and Mrs. Keith Hamilton were cohostesses at a third shower.

Parents of the bridegroom-elect are the G. M. Andersons.

She Will Head Sorority Council

Mrs. Russell Perkins was installed as president of the City Council of Pontiac for Beta Sigma Phi Sorority at a recent meeting in her Sharon Street home.

Others assuming new offices were Mrs. Larry D. Eltinger, vice president; Mrs. Bradley Scott and Mrs. Jack Payne, secretaries; and Grace Courtney, treasurer.

Willhead Street, and E. C. Conwell, Woodbine Drive. A dinner dance at Airway Lanes is scheduled for June 26. Social hour at 6 p.m.; dinner at 7 p.m. Tickets available from above committee members.

A copy of Pontiac High School's Tomahawk of 1934-35 brings back old memories for reunion committee members. January and June classes of 1935. From the left are Mrs. Charles Van Trease, East Beverly Street; Mrs. Neil McCormick,

Bride-Elect Is Honored at Showers

A bridal shower and luncheon, Wednesday, in Orchard Lake Country Club, honored Lynde Sue Hartman, daughter of the William B. Hartmans of Watkins Lake. Hostesses were Mrs. Harold Howlett and Mrs. Herbert Wettlaufer.

Sharing hostess honors at another shower for the bride-elect in the Watkins Lake home of Mrs. Robert McIntosh were Mrs. Joseph Craig of Royal Oak and Mrs. Clarence Craig of Detroit.

Mrs. Gerald Davis, aunt of the future bridegroom, Bradley Robert Chase, honored Lynde at a family shower in the Davis home on Loon Lake Shores Drive.

Mrs. John A. Riley and daughter, Mrs. Ronald Downey of Detroit, entertained at a recent dessert and kitchen shower in the Riley home on Illinois Road.

On Saturday, Mrs. Ralph B. Lee of Mary Day Avenue will entertain the relatives and bridesmaids at a luncheon in Pine Lake Country Club.

Mr. Chase is the son of Mrs. Herbert Collins of Andersonville Road and the late William E. Chase.

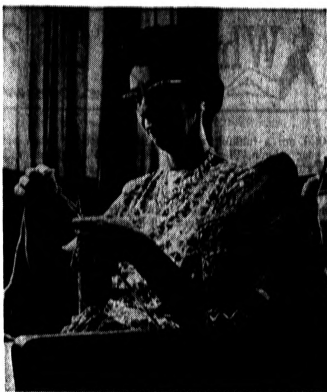

The wedding will be June 5 in All Saints Episcopal Church.

Too Much Realism in 'Touch of Mink'

KANSAS CITY, Mo. (AP) — Mr. and Mrs. Jack Kollman returned home after seeing the movie, "One Touch of Mink," to find that thieves had taken two of Mrs. Kollman's mink stoles valued at \$1,630.

A stamp collection valued at \$3,000 also had been stolen.

If you have rum extract on your pantry shelf, you may use it instead of vanilla as a flavoring for whipped cream or whipped evaporated milk to be served on a chocolate dessert.

Pontiac Press Photos

Sociologists tell us that because this is an age of mass production by machines, people need an outlet for their creative abilities. In two recent workshops, sponsored by the Oakland County Cooperative Extension Service, women have been learning new hand skills. They, in

turn, will pass them on to other adult groups and to youth organizations. At the left is Mrs. Robert Cummings, Royal Oak, who is starting a braided wool rug. Mrs. Richard Hoban (right) is learning to knit. Her knitting bag is another craft project she can teach others.

Plan Special Treat

At a children's party, youngsters will love it if you place a popcorn ball on one end of a stick and a caramelized apple on the other.

Another double treat is to build a popcorn ball around a lollipop, thus making a surprise center.

Ham Radio Enthusiasts Keep in Touch

CINCINNATI, Ohio (AP) — Mr. and Mrs. Russ Seilkop don't have to write letters to keep in touch with their family—they just get on the radio and chat.

The Seilkops share the "ham" radio hobby with six close relatives who are also licensed operators.

Two or three times a week, Ruth Seilkop talks to her daughter, Mrs. Mick Coleman, a ham since high school days, who now lives in Waukegan, Ill.

Mrs. Coleman's husband and her father-in-law are also ham operators, as are Mr. and Mrs. Seilkop's son, her brother and brother-in-law.

Heart Beats Sooth Baby

The normal human heart beat is the sound most soothing to newborn infants, according to Dr. Lee Salk of New York City.

In a study of 102 infants at Elmhurst City Hospital, Dr. Salk found that those exposed

continuously to a tape recording of the human heart at 72 beats a minute gained more weight and cried less than did a control group of 112.

In a further experiment with a group exposed to three types of sound—heartbeat, recorded lullabies and a metronome set at 72 beats—sleep came in the shortest time under the heartbeat recording.

Volcanoes can grow very rapidly, according to The Book of Knowledge. Paricutin, a volcano about 200 miles west of Mexico City, first appeared in a high, and by 1951, it had risen 1,210 feet. In February, 1953, it had risen 1,210 feet.

Why Grow Old?

by JOSEPHINE LOWMAN

Q. I am a faithful reader of your column. Please help me with my problem! I am so self-conscious because I have bow legs. Is there some kind of exercise I can do to correct the shape of my legs?

A. I judge from your letter that you are a woman, not a child. I think that the best exercise you can do is the following. Whenever you stand place your feet fairly close together. Contract your muscles so that you pull your legs as close together as possible.

Hold the contraction for a count of eight. Relax. Repeat at every opportunity during the day. You cannot change your bony structure but muscles also play a part.

Q. I have a fairly good figure except for my legs. They are fat on top. What can I do?

A. Try this exercise. Lie on the floor on your abdomen. Rest your head on your hands. Bend your left knee and raise your left leg from the floor. Now slap the thigh down on the floor, knee still bent. After slapping that leg several times, straighten it and return it to place. Do the same with the right leg.

IS IT PAINFUL?

Q. Please tell me how to use cosmetic wax. Is it painful?

A. No it is not painful. It may feel a little like pulling

adhesive tape off when you remove it. First cleanse your face. Then powder it lightly. Heat the wax. When it has melted and when it is not too hot apply the wax and leave it on until it cools and "sets" well. Then remove it.

Q. I cannot get my measurements in perfect line. I am not at all overweight and I have exercised and exercised. My bust measures 36 inches, my waist 26 inches, but my hips measure 38 inches. I don't know what else to do!

STOP WORRYING

A. Stop worrying. You have probably already hit bone because you are even a little underweight. It is just a question of build. Not all women can achieve a 36-26-38 figure. A difference of two inches between the bust and hips is allowable in the lovely silhouette range.

If you are losing weight by holding your daily carbohydrate intake to 60 grams a day my handy pocket-sized "Carbohydrate Gram Counter" booklet will be a great help to you. It gives you the number of grams in each item of food plus sample menus.

If you would like to have it, send 15 cents and a stamped, self-addressed envelope with your request to Josephine Lowman in care of The Pontiac Press.

See Lawyer Before Converting Mortgage

By MARY FEELEY
Consultant in Money
Management

Dear Miss Feeley:
Our daughter and husband have a \$14,500 FHA mortgage on their home, on which they pay 5 1/2 per cent interest.

Our savings account draws 4 1/2 per cent interest, and we have been considering taking over their mortgage at 4 1/2 per cent. We would still have adequate cash in case of emergency.

The way we see it is: we would have nothing to lose by doing this, but cannot figure how much they stand to gain. They now have a 30-year loan and we had hoped they could reduce the time period with the savings on the interest.

The question is, would the changeover be worth it?

Mrs. H.R.R., Cincinnati, Ohio
Dear Mrs. H.,

Yes, it would. Their \$14,500 mortgage on a 30-year basis at 5 1/2 per cent would put their monthly payment at \$84.62. If you took it over at 4 1/2 per

cent interest, the 30-year time period would reduce the monthly payment to \$73.47. Since cutting short the payment period is the object, however, a 25-year repayment would still cost less than they are paying now — \$60.60 a month. On a 20-year repayment basis, their monthly cost would be \$61.74.

If you decide to make this conversion, I suggest you have a lawyer set up the transaction on a strictly business basis.

Dear Miss Feeley:
Ten years ago, I bought some bonds to be paid to my daughter at my death. My daughter

died a few months ago and I want to change this arrangement and make my son the beneficiary.

I would like to know whether I have to cash the bonds and pay the tax on them at the end of the year in order to name a new beneficiary.

D. G., Brooklyn, N. Y.

Dear D. G.:

You do not have to cash these bonds unless you want to. They can be re-issued in your son's name as beneficiary.

You should fill out Form No. 1787, which your bank will give

you. Then send the bonds, this form, and your daughter's death certificate to The Federal Reserve Bank, U. S. Savings Bond Division Reissue Dept.

Your local community Federal Reserve Bank is at 33 Liberty Street, New York City. Register the bonds when you mail them. They will be returned to you.

In 1964, the retail sales volume of cosmetics in the United States amounted to \$2.5 billion.

Ten years ago retail sales were estimated at \$1 billion.

Line Hose With Nylon

NEW YORK (UPI) — Have trouble pulling on elastic hose? Line the stockings with a nylon one. First put on a nylon stocking. Then pull on the elastic one.

Dr. Eldon R. Dykes of Honolulu, reporting in the "American Journal of Surgery," offered this simple solution. "The nylon hose reduces the friction between the skin and elastic stocking," he said.

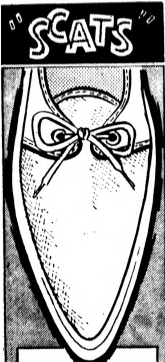

The nylon liner also makes the elastic stocking last longer.

The engagement is announced of Susan Kay Featherston daughter of Mrs. Eugene Featherston of Dwight Street and the late Mr. Featherston, to Richard H. Drake III, son of Mrs. Mary Drake of Massena Street, Commerce Township, and Richard H. Drake Jr. of Pontiac Lake Road. July vows are being planned.

LeBaron School to Hear Whitmer

Food for a Holiday Weekend

By JANET ODELL.

Pontiac Press Food Editor
Let's hope that the showers we've been having will end by this weekend. It would be nice to have three sunny days for the beginning of the picnic season.

Since we don't know whether you're going camping, having friends in for a patio supper or just staying home with the family, we're suggesting a variety of food.

If there's a cookout in order for Friday night, serve your guests barbecued halibut steaks.

Halibut is a lean fish and must be baked often during cooking. Use either melted butter, oil or this special barbecue sauce.

TEXAS-STYLE SAUCE

1/2 cup butter or margarine
1/2 cup vinegar
1/4 cup catsup
1/4 cup Worcestershire sauce
1/4 cup lemon juice
1 teaspoon Tabasco
Melt butter in saucepan. Stir in remaining ingredients and bring to boil; remove from heat.

Brush two pounds fresh or thawed frozen halibut steaks liberally with sauce and arrange on well-greased grill over hot glowing coals.

Grill about five minutes on each side, baste frequently with barbecue sauce until fish flakes

easily when tested with fork. Makes six servings.

There's something so typically American about hot dogs and baked beans. Try them baked in little foil pans that go easily to picnics for rearming.

BAKED CHEESE-FRANKS AND BEANS

Company Beans
1/2 cup molasses
1/2 cup brown sugar
1/2 teaspoon monosodium glutamate
2 teaspoons prepared mustard
2 cans baked beans
1 large onion, quartered

Baked Cheese-Franks

8 frankfurters
1/2 cup sharp cheese spread
2 tablespoons finely chopped onion
2 tablespoons finely chopped green pepper
1/2 teaspoon Worcestershire sauce
1/2 teaspoon dry mustard
8 strips thin bacon
Dash of cayenne
Combine molasses, brown sugar, monosodium glutamate and prepared mustard and stir into beans. Preheat oven to 400 degrees.

Combine cheese, chopped onion, green pepper and seasonings; blend thoroughly. Split franks lengthwise almost all the way through. Spread centers with cheese mixture

and press edges together. Wrap each frank in a strip of bacon and fasten with toothpicks.

Place beans in four buttered individual casserole dishes, with an onion-quarter tucked into each, or use heavy-duty tin foil pie plates. Place franks on top of beans. Bake 30 minutes or until beans are crisp.

For carrying to the picnic cover securely with tinfoil. Remove cover when re-warming. If lunch or Sunday night supper poses a problem, this Egg and Vegetable Salad will solve it. In fact, hard cooked eggs are good to keep on hand for the entire weekend.

EGG AND VEGETABLE SALAD

2 cups shredded red cabbage
1 cup shredded raw carrots
1/2 cup shredded radishes
1 medium cucumber, sliced
1 teaspoon salt
1/2 teaspoon pepper
8 hard-cooked eggs, quartered
French dressing

Toss cabbage, carrots, radishes and cucumber together in a large bowl. Season with salt and pepper. Serve in individual salad bowls topped with hard-cooked eggs and French dressing. Makes four servings.

For dessert, Maple Meringue Cake is ideal because it travels in its own baking pan. This cake is best eaten the day it is made.

MAPLE MERINGUE CAKE

2 cups sifted enriched flour
1 1/4 cups sugar
1 tablespoon baking powder
1/2 cup shortening
1 cup milk
1 1/4 teaspoons maple extract
1 egg
2 egg yolks
1/4 cup chopped pecans
Grease 9x13-inch pan. Preheat oven to 350 degrees.

In large mixing bowl sift together flour, sugar, baking powder and salt. Blend in shortening and 1/2 cup milk. Beat two minutes on medium speed of electric mixer or 300 strokes by hand.

Blend in remaining milk, maple extract, egg and egg yolks. Beat at medium speed two minutes or 300 strokes more. Stir in pecans.

Turn into pan and spread evenly. Bake 35 to 40 minutes, or until cake tester inserted in center comes out clean. Cool on wire rack five minutes.

Meanwhile, prepare frosting. Spread frosting on top of warm cake. Sprinkle with 1 cup pecans. Return to oven and bake

10 minutes, or until frosting is lightly browned.

Maple Frosting

2 egg whites
1/4 cup sugar
1/4 teaspoon maple extract

In small mixing bowl, beat egg whites until foamy. Gradually beat in sugar, a tablespoon at a time. Blend in maple extract. Continue beating until soft peaks form.

MAPLE MERINGUE CAKE

Marinate in Vinegar

White wine vinegar comes plain or flavored with tarragon. Wonderful for marinating cut-up

chicken that is to be dipped in lettuce mix and then fried. Drizzle the prepared chicken with lots of melted butter or margarine and turn once during the oven frying.

Buffet of Cold Cuts a Good Time-Saver

If you want to plan some eating fun for your family and at the same time save yourself precious energy, serve a cold cuts buffet supper once a week.

Set a gay table, arrange a pretty-as-a-picture platter of cold cuts, round out the menu with some other favorite foods, and ring the dinner bell. The family will enjoy these informal help yourself feasts, and you'll find that they save you time in cooking, table setting and serving.

You might serve this interesting assortment of cold cuts for one meal: New England brand sausage, bologna, spiced ham, s a l a m i, liver sausage, olive loaf and jellyed tongue.

Any leftover cold cuts will come in handy for sandwiches and snacks. Keep tightly wrapped in the refrigerator to prevent drying out. Use within a week, the American Meat Institute recommends.

If you do a lot of entertaining, provide yourself with a 4-quart casserole for combination main dishes that go in the oven.

Green Broccoli Gives Casserole Fresh Look

Just enough sauce goes in this make-ahead dish.

Chicken Broccoli

1 1/2 tablespoons each butter and flour
1 cup light cream
Salt and pepper to taste
1/2 bunch broccoli, cooked
1 cooked chicken breast (from a large broiler-fryer)
1/4 cup Parmesan cheese
In a 1-quart sauce pan, over low heat, melt the butter; stir in the flour. Add cream, salt and pepper; cook and stir until thickened.

Pour one-half the sauce into a regular or deep 8-inch pie plate. Arrange broccoli over sauce; cover with chicken slices.

Spread remaining sauce over chicken; sprinkle with Parmesan. Cover and refrigerate for a few hours or until serving time.

Heat in a moderate (350 degrees) oven until bubbly and through — 20 to 30 minutes; brown top under broiler.

For broccoli, separate into even long pieces; pare outer covering of stalks up to buds; cook in a small amount of boiling salted water.

Eggs Are Hidden in Meat Loaf

Good enough for company!

Excellent Beef Loaf

1 egg, slightly beaten
1/4 cup milk
4 thin slices bread
1 pound ground chuck beef
1 pound bulk sausage
1/4 teaspoon salt
1/4 teaspoon pepper
1 teaspoon poultry seasoning
1 small onion, finely grated
Combine egg and milk; soak bread in mixture. Mix in beef, sausage, salt, pepper, poultry seasoning and onion.

Rinse a 8 by 4 by 3 inch loaf pan with cold water; pack half of meat mixture into damp pan. Place hard-cooked eggs lengthwise down center; pack remaining mixture over eggs, covering ends.

Run a spatula around sides of meat; turn out onto an 11 by 7 by 1 1/2 inch pan. Bake in a moderate (350 degrees) oven 1 hour. Remove meat loaf from dripping. Makes 6 to 8 servings.

Basic cream sauces made with milk can be seasoned with dill, curry powder, dry mustard or pimiento to add zest and color to vegetables, meat or fish.

EGG AND VEGETABLE SALAD

Little Gourmet Touches Give Food That Extra

Rita Leinwand is a gourmet cook who shares her skills and knowledge with others through classes and demonstrations.

Mrs. Leinwand presented a demonstration of gourmet cooking for women of Oakland Hills Country Club recently. So many of her general suggestions about cooking and two recipes she used are reproduced here for Press readers.

"I always add my baking powder last because I want the action to take place in the oven, not in the bowl." She uses single action baking powder.

"When beating egg whites, always start slowly to get the bubbles in. Then add a pinch of salt and beat at higher speed.

"When you add beaten whites to a batter, stir just a bit of the egg white in first to loosen the batter. Then fold in the rest, leaving little clumps of white."

If you let sponge cakes rest for a count of 30 before turning them out of the pan, they will never slump in the middle.

Mrs. Leinwand keeps a bit of split vanilla bean in her bottle of vanilla. She scrapes the inside of the bean a bit. This gives the vanilla better flavor.

Some of this vanilla was used to make a yummy looking torte. Tortes, incidentally, never have whipped cream on the sides, only on top or between layers.

Torte de Cafe au Lait

1 cup sugar
6 eggs separated
1/2 cup flour
1 tablespoon regular coffee grounds, uncooked
1 teaspoon double acting baking powder

1 teaspoon instant coffee powder
1 teaspoon vanilla
2 tablespoons coffee liqueur
2 tablespoons strong black coffee

Beat yolks and sugar thoroughly. Sift together all dry ingredients and add to yolk mixture. Add liquid coffee, vanilla, and coffee liqueur.

Beat egg whites stiff and fold into batter. Bake 1 hour in 350 oven. It may need additional 10 minutes. Cake almost doubles itself.

Do not grease pan. Invert immediately to cool on rack. Bake in 10 inch spring form without tube.

When cake is cool, cut in thirds after marking with toothpicks as cutting guide.

Icing and Filling

1 qt. whipping cream, whipped
Jar marshmallow whip
4 tablespoons coffee liqueur
1/2 cup chocolate syrup
1/2 teaspoon instant coffee powder
1/2 square dot chocolate, shaved
1/2 teaspoon instant coffee powder
1/2 cup chopped nuts

Whip cream stiff. Add rest of ingredients except last three. Beat as stiff as possible. Spread between layers and on top and sides. Mix last three ingredients together and sprinkle on top of cake. Refrigerate overnight or until ready to serve. Makes 12 servings.

A delicious fruit salad that can be made a day ahead of a party is her, "Salade au Fruits de Creme."

You must use whole marshmallows cut into quarters; the

miniature ones have a gelatin coating and will not dissolve.

Salade au Fruits de Creme

1 medium size can pitted black cherries
1 medium size can fruits for salad
1 medium size can pineapple chunks
1 medium size can sliced peaches
16 marshmallows cut in quarters
1 1/2 cup sour cream
1/4 cup Bob's Kirchwasser
Strawberries for garnish

Drain fruit in colander for at least two hours. Very carefully combine marshmallows with fruit, add sour cream and Kirchwasser, mixing very thoroughly but carefully.

Place in serving bowl, refrigerate overnight. This must be made 24 hours in advance of serving.

May substitute 1 cup of fresh fruit for one of the canned fruits, example: 1 cup fresh blueberries, or 1 cup fresh sliced peaches in place of canned. However, half of the fruit used should be canned. About 12 servings.

Seasoning trick: marinate fish filets in French dressing; drain, then bread and fry.

OLD-FASHIONED RHUBARB PIE — Fresh rhubarb pie a real spring tonic and one of the most refreshing and colorful of spring desserts. The fruit filling is thickened with quick-cooking tapioca so that the juices stay in the pie, not in the pan.

Three Sizes Are Pickled

Did you know you can get three sizes of gherkins — very small, midget and medium? Choose the size that suits your needs.

The tiny gherkins are appropriate for teas, coffees and other such parties or for garnishing.

The midgets are fine for sandwich and salad accompaniments.

And the medium gherkins may be sliced for use in dishes or, of course, they may be served "as is."

If you are using dill in a salad, let the herb soak in the salad dressing before adding it to the other ingredients. This dosing of the dill helps develop its flavor.

Sour Cream Does Well as Cheese Cake Top

A favorite topping for cheese cake blends a cup of commercial sour cream with a couple of tablespoons of sugar and a little vanilla. The mixture goes on top of the baked cake and then cake and topping usually get about 10 minutes moderate oven heat treatment. The topping freezes as well as does cheese cake.

This Rhubarb Pie Is Still Good

It isn't always the very newest and latest that is the most fascinating (What about Marlene Dietrich?) When it comes to recipes, often the most treasured are ones we have enjoyed for years.

The recipe pictured here for Fresh Rhubarb Pie was developed 32 years ago. The method differs only slightly from the original directions (in order to conform with product changes) but the ingredients remain the same. And the results — as excellent now as then!

Even 32 years ago, homemakers who used quick-cooking

tapioca for thickening fruit pies had great success. For quick-cooking tapioca has no flavor or color of its own; therefore the fruit remains as natural and as vibrant as when freshly picked from the garden.

Those are some of the reasons why today's homemakers are every bit as enthusiastic about quick-cooking tapioca as yesterday's homemakers. One delicious bit, however, is worth a thousand words.

Old-Fashioned Rhubarb Pie
3 tablespoons quick-cooking tapioca
1½ cups sugar

¼ teaspoon salt
4 cups fresh rhubarb (cut in ½-inch pieces before measuring)

1 teaspoon grated orange rind (optional)

Pastry for two-crust 9-inch pie
1 tablespoon butter
Combine tapioca, sugar, salt, rhubarb and orange rind. Let stand about 15 minutes. Roll half the pastry ½ inch thick. Line a 9-inch pie pan and trim pastry at edge of rim.

Roll remaining pastry ½ inch thick and cut several 2-inch slits or a fancy design near center. Fill pie shell

with rhubarb mixture. Dot with butter. Moisten edge of bottom crust.

To adjust top crust, fold pastry in half or roll loosely on rolling pin; center on filling. Open slits with knife. (Well-opened slits are important to permit escape of steam during baking.)

Trim top crust, letting it extend ½ inch over rim. To seal, press top and bottom crusts together on rim. Then fold edge of top crust under bottom crust and flute.

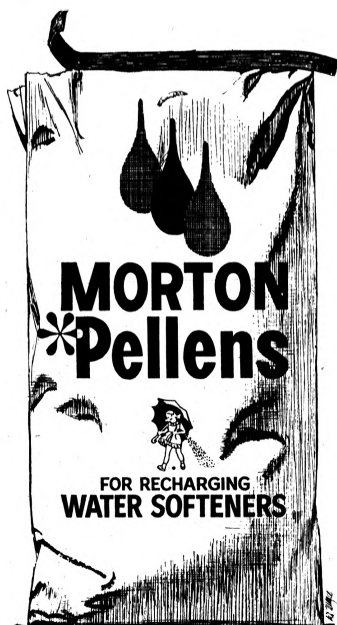

Bake at 425 degrees for 50 minutes, or until syrup boils with heavy bubbles that do not burst. Cool. Sprinkle with confectioners' sugar, if desired.

Fruit and Cheese Pie Chilled, Not Baked

There's no muss, no fuss in making this elegant pie.

Blend a 3-ounce package of cream cheese with 1 cup commercial sour cream and spread in baked 8 or 9-inch pie shell. Drain a 1 lb. 1 oz. can fruit cocktail very well and spoon over cheese mixture.

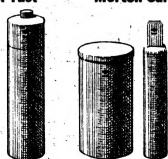

Mix ¼ cup finely granulated sugar with ¼ teaspoon cinnamon and ¼ teaspoon nutmeg. Sprinkle over fruit cocktail and chill about 30 minutes. It's best if not put together too long before serving.

Everyone in favor of rust free soft water say.....

No one likes hard water. Right? Right. And, who likes rusty water? No one. This is what makes new Morton Pellens so welcome in high iron content areas, such as yours. Pellens answer both problems at once. They recharge water softeners, just like Morton Salt Pellets do, and most effectively remove rust accumulation from your softener. Pellens contain a special patented additive that was independently tested and found most efficient for rust

removal. A water softener recharged with Pellens eliminates the nuisance of rust-stained laundry, sinks, tubs and bowls. By controlling rust, your softener gives top performance, requires fewer service calls and has a longer life. Pellens work in all softeners except those with silica gel zeolite. Get rid of rust and enjoy clear, soft water; say, "I'd like some tested, proved and patented Morton Pellens, please," when next you see your water softener salt dealer. Morton Salt Company.

PELLENS ARE EFFECTIVE IN MANUAL, SEMIAUTOMATIC AND AUTOMATIC WATER SOFTENERS.

SPRITED DESSERTS — Jewel-toned jellies in a rainbow of festive liquor colors and flavors make a delightful dessert for a buffet shower. The rainbow-striped Pousse Cafe Jell and the Strawberry Liqueur Mousse are made with fruit-flavored gelatin desserts. The Irish Coffee Jell with coffee, all are flavored with compatible liqueurs.

Spirited Desserts Are Real Gourmet Ones

It's good luck to see a rain bow, and you can bring one to your favorite bachelorette when you brighten her shower with a rainbow of spirited desserts.

These jewel-toned desserts are marvelously brilliant in flavor and in color, spectacular to eat. Liqueurs are the secret—the same bright-hued, intensely fragrant liqueurs that have inspired the magnificent dessert specialties of the world's great chefs.

The Pousse Cafe Jell is a spoonable version of a famous layered drink. To make a liquid Pousse Cafe you pour liqueurs of different densities into a slender liqueur glass so carefully that each layer floats on the heavier liqueur beneath it.

The Pousse Cafe dessert is made in much the same way, with layers of jell that you allow to set, but not to stiffen completely, before adding another.

The Irish Coffee Jell is a con-

version piece, a dessert you'll enjoy serving to true sophisticates! Fill brandy snifters with the frothy Strawberry Liqueur Mousse for dramatic serving.

You'll want to use your best crystal, matched or in different shapes and sizes, to present all these liqueur jells in suitably high-spirited style.

Pousse Cafe Jell

1 package (3 oz.) jelly gelatin dessert

1 package (3 oz.) orange gelatin dessert

1 package (3 oz.) lemon gelatin dessert

1 cup boiling water

1 cup cold water

1/4 cup cherry liqueur

1/4 cup creme de menthe

1/4 cup triple sec

1 cup brandy

Empty each package of gelatin into a separate small bowl.

Dissolve each in 1 cup boiling water. Add 1/4 cup cold water to each bowl and stir.

Add cherry liqueur to cherry gelatin; creme de menthe to lime; triple sec to orange; brandy to lemon.

Cool and chill each jell separately until it is syrupy. Divide the lime gelatin into ten parfait glasses, chill in refrigerator until set.

Fill with successive layers of the remaining gelatin mixtures, allowing each to set before adding another. Chill well.

Top with whipped cream, if desired. Makes 10 servings.

Variations for Striped Tipys Parfait: Fill glasses as above and chill a layer at a time but tip the glasses on a 45 degree angle in the refrigerator, by catching stem in space between rack bars and leaning against wall. When final layer is added, chill upright.

Irish Coffee Jell

1 envelope unflavored gelatin

1/2 cup cold strong coffee

1/2 cup sugar

1/4 teaspoon salt

1-3 cup coffee liqueur
1/2 cup heavy cream, whipped
Sprinkle gelatin on cold coffee to soften, add sugar and salt, and stir over moderate heat until gelatin dissolves. Remove from heat and add liqueur. Cool mixture and chill until syrupy.

Reserve 1/4 cup of the jell mixture and divide the rest into 4 glasses. Chill until set. Add the reserved syrupy coffee jell to the whipped cream and use as topping.

Chill well before serving. Makes 4 servings.

Strawberry Liqueur Mousse

1 package (3 oz.) strawberry gelatin dessert

1 cup boiling water

1/2 cup cold water

1/2 cup strawberry brandy or liqueur

2 egg whites

Dissolve gelatin in boiling water, add cold water and brandy, cool, and chill until the jell mixture is syrupy. Add egg whites and beat with a rotary beater

until mixture is light and fluffy and holds its shape.

Spoon mixture into 6 brandy snifters and chill until firm. Garnish with fresh berries. Makes 6 servings.

Fill Pincushion With Dry Coffee

MIAMI, Fla. — Talk about all-purpose coffee! The hints from Heloise syndicated column offered a use for coffee that has nothing to do with coffee cups.

Seems coffee, especially percolator grind, is fine for pincushions, holding the pins in place. A needle, with just oil enough to keep the pins lubricated and free from rust. A closely woven wool or felt, preferably in black or navy blue, is the recommended fabric.

Ground coffee pin cushions have one other distinct advantage that has nothing to do with holding pins. While the seamstress sews, she is never without the encouraging aroma of coffee.

NOTICE OF SPECIAL ELECTION Township of Bloomfield, Oakland County, Michigan JUNE 7, 1965 (PROPERTY OWNERS ONLY)

TO THE QUALIFIED ELECTORS OF THE TOWNSHIP OF BLOOMFIELD, OAKLAND COUNTY, MICHIGAN:

Notice is hereby given that a special Election will be held in the Township of Bloomfield, Oakland County, Michigan, on Monday, the 7th day of June, 1965, from 7:00 o'clock a. m. to 8:00 o'clock p. m., Eastern Standard Time, to vote upon the following proposition:

TOWNSHIP TAX LIMITATION

Shall the limitation on the total amount of taxes which may be assessed each year against property in the Township of Bloomfield, Oakland County, Michigan, as provided in Section 6 of Article IX of the Constitution of the State of Michigan, be increased by 1 1/2 mills (\$1.50 for each \$1,000) of the assessed valuation, as equalized, of all property within the Township, for the years 1965 and 1966, and by 3 mills (\$3.00 per \$1,000) of the assessed valuation, as equalized, of all property within the Township, for a period of 10 years, the years 1967 through 1976, both inclusive, for the purpose of continued fire, police and other public safety protection and a highway maintenance and improvement?

Notice is further given that the polling places for said election will be as follows:

- Precinct 1: Bloomfield Township Hall, 4200 Telegraph Rd.
- Precinct 2: Bloomfield Village School, on Lahser, N. of Maple Rd.
- Precinct 3: Wing Lake School, NW cor. of Wing Lake and Maple Rds.
- Precinct 4: Hickory Grove School on Lahser Rd., between Square Lake and Hickory Grove Rds.
- Precinct 5: Bloomfield Hills High School, 4200 Andover Rd.
- Precinct 6: Bloomfield Township Fire Station No. 2 on Westview Rd. between Adams and Squirrel Rds.
- Precinct 7: Marian High School, 7225 Lahser Rd., between Lincoln and 14 Mile Rds.
- Precinct 8: Bloomfield Village Fire Hall, on Broadway Blvd. E. of Lahser and N. of Maple Rds.
- Precinct 9: Westchester Elementary School, 3003 W. Maple between Westbourne and Cranbrook Cross Rd.
- Precinct 10: Bloomfield Township Fire Station No. 3, on W. Maple Rd. cor. of Woodbank.
- Precinct 11: Bloomfield Hills Junior High School on Quorton Rd. between Telegraph and Wing Lake Rds.
- Precinct 12: Washington Irving School, 1830 Square Lake Rd. W. of Telegraph Rd., 1 1/2 miles.
- Precinct 13: Harlan School on Adams Rd., between Wattles and Big Beaver Rds.
- Precinct 14: Eastover School, 1101 Westview Rd., between Adams and Squirrel Rds.
- Precinct 15: Conant School, 4100 Quorton Rds., just W. of Telegraph Rd.
- Precinct 16: Meadowlake Elementary School, 7100 Lindenmeir, between Wye Oak and Beacon Hill Dr.
- Precinct 17: Bloomfield Township Fire Station No. 4, 2398 Franklin Rd. N. of Square Lake Rd.
- Precinct 18: East Hills Junior High School, 2800 Kensington Rd. at Opdyke Rd.

Notice is further given that the following statement has been received from the County Treasurer as to previously voted increases in the tax rate limitation affecting taxable property in the Township, to-wit:

COUNTY TREASURER'S STATEMENT

I, Charles A. Sparks, County Treasurer of the County of Oakland, State of Michigan, do hereby certify that according to the records in my office, as of April 16, 1965, the total of all voted increases in the tax rate limitation above the 15 mill established by Section 6 of Article IX of the Michigan Constitution of 1963, affecting taxable property in the Township of Bloomfield in said county is as follows:

Local Unit	Voted Millage Increase	Years Effective
Township of Bloomfield	2.00	1956 to 1965 incl.
County School District of Oakland County	1.00	1963 to 1972 incl.
School District No. 10, Frc. of the Townships of Avon, Troy, Pontiac and Bloomfield	.50	1954 to 1969 incl.
Wye Oak and Beacon Hill Dr.	3.90	1961 to 1965 incl.
Pontiac and Bloomfield	3.00	1965 to 1966 incl.
School District of the City of Birmingham	6.00	1964 to 1968 incl.
	4.50	1953 to 1972 incl.
	4.00	1954 to 1973 incl.
	11.00	1962 to 1966 incl.
	7.50	1965 to 1968 incl.
Bloomfield Hills School District	10.00	1959 to 1973 incl.
No. 2 Frc. Township of Bloomfield, Troy and West Bloomfield and City of Bloomfield Hills	7.60	1962 to 1976 incl.
Former School District No. 3 Frc. Bloomfield Hills now annexed to Bloomfield Hills	3.00	1962 to 1976 incl.
School District No. 2 Frc.	3.30	1965 to 1979 incl.
School District of the City of Pontiac located in Cities of Pontiac and Sylvan Lake, the Townships of Avon, Bloomfield, Orion, Pontiac, Waterford and West Bloomfield.	10.00	1964 to 1973 incl.
Oakland Community College	8.75	1965 to 1974 incl.
	1.00	Unlimited

Inmate to Have Baby 'Outside'

FRONTIER, Calif. (AP) — State officials have granted a request by convicted murderer Lucille Miller that a child she is expecting about June 15 may be born outside prison walls.

Mrs. Miller, convicted in San Bernardino of first-degree murder in the first death of her dentist-husband, Dr. Gordon Miller, entered the California Institution for women on March 23.

She is pregnant with her fourth child.

Her wish that the baby be born in a private hospital was relayed by attorney Edward P. Foley to Walter Dunbar, director of the Department of Corrections.

Dunbar announced Wednesday that the request had been approved. His office said the law provides for such an arrangement and that it has happened previously — but not since Dunbar took office in 1961.

Mrs. Miller will be required to pay all of her own expenses, plus the cost of guards and transportation outside the prison.

AP Photo

ABANDONED? — Authorities in Seattle Wash., are seeking the unidentified mother of two children, David, 6 months (left), and John, 18 months. The children were left in a private nursery 11 days ago. The mother was supposed to pick them up a few days later but never showed up.

The man who has done his best has done nothing. The best he does everything. The late steel magnate Charles M. Schwab who has done less than his Schwab.

Election Called a Success

Poverty Vote Is Slim

PHILADELPHIA (AP) — Fewer than three per cent of the eligible voters turned out Wednesday in a self-determination election in the antipoverty program, but one leader described it as a success.

Charles W. Bower, executive director of the city antipoverty program, said, "We got over 13,000 votes. That's a significant return. It proves this kind of an election works. It proves you can get the poor out to vote."

"To get 13,000 people in an election of this type, with amateurs running, with no party loyalties at stake, to get the kind of interest and enthusiasm generated by this election is just thrilling."

Samuel L. Evans, head of a subcommittee on community action councils, said "anyone who tries to determine the impact of this election by the number of votes is missing the point," he added. "When you consider that less than 20 per cent of the registered voters turned out in the primary election (last May 18) this is a marvelous turnout."

Twelve city areas designated as poverty-pockets exercised the self-determination feature of last year's Economic Opportunity Act — the antipoverty program — by electing 144 of their residents as members of a citywide direction body. Those directors will select from among themselves, by June 4, one representative from each area, to sit on a 31-member Philadelphia Antipoverty Action Committee, which will guide the city's antipoverty effort. Its other 19 members were appointed by Mayor James H. J. Tate.

A total of 13,493 persons voted in Wednesday's election, less than three per cent of the 500,000 eligible.

Any one over 21 living within the 12 so-called "pockets of poverty" was eligible to vote, including both the poor and affluent. However, the candidates had to come from poorer families, couples making no more than \$3,000 a year, plus \$500 for each child.

The heaviest turnout, as an

icipated, appeared to be in the predominantly Negro area of North Philadelphia, where a strong campaign had been waged to arouse interest in the election.

VOTERS VARY

Those elected ran the gamut of ages and occupations.

One of them was Henry F. Gregg, 71, a retired tailor.

Explaining his reasons for wanting to participate in the program, Gregg said, "I hope we'll be able to accomplish better living conditions in our part of town, South Philadelphia. We need better housing, playgrounds, some kind of training school for boys and girls who drop out of school. We need a day nursery. Many women would be glad to go out and work if they had someone to care for the kids. To hire someone would be too expensive."

"I wouldn't consider myself poverty-stricken," he said, in answer to a question, "but I live in this area, and I'm a poor man."

Sophomore Publication

'Yale Course Critique' Rates Professors

NEW HAVEN, Conn. (AP) — If a Yale professor wants to know what his students really think of him as a teacher he can find out by buying a student publication called the "Yale Course Critique."

This 200-page volume is an inside-dope report from this year's sophomores to next

ment. But a professor who gets carried away by his own anecdotes is likely to have his lectures called "irrelevant" or even "meaningless."

The student editors don't hesitate to turn up their noses at teachers who they think talk down to them, can be drawn off

entirely a student operation, it has an unofficial "adviser," Andrew Patterson Jr., associate professor of chemistry.

Patterson has been critical, but not hostile. He has charged that previous critiques have perhaps had plenty of "sharp

and incisive writing," but were often ill-informed and one-sided. This year the student editors adopted some of his suggestions and circulated detailed questionnaires among students in each class so that a consensus, rather than one person's opinion, could be obtained.

4p SPECIAL REPORT

year's freshmen and sophomores. But it also is read by faculty members.

A senior professor with a wide reputation as a scholar might find out from the critique that his undergraduate students think he is "stale."

A young woman instructor might discover that her all-male classes think she's "unbelievably sweet."

ONE EXAMPLE

One example from the 1965 edition says a course "is invariably described as dull, 'boring with a capital B,' as one student put it, homework counts little, is graded liberally."

Occasionally the editors are more critical of students than faculty.

For instance, "Mr. Cook — Asst. Prof. Robert M. Cook — attempts through his Sociology 20 course to fight the obsessive, grade-grubbing, antieducational mentality of many Yale students. Unfortunately, many enrollees do no more than a fraction of the reading."

The ability to make a course interesting and challenging, a personal interest in students, and a sense of humor seem to be the most appreciated qualities in Yale teachers.

DRAWS COMMENT

Humor, or the lack of it, almost invariably draws com-

HARVARD CRIMSON

A similar publication, "Confidential Guide to Courses," is published by the Harvard Crimson.

Reactions to these publications seem to fall into two categories.

One side says students aren't qualified to criticize the learned, experienced men on the faculty. The other side maintains that no one knows better than students whether they're learning anything.

The editors of Yale's course critique cautioned in their introduction that "it must be emphasized that the critique is by no means designed to be an academic bible; it is to be weighed against the opinions of professors, college deans, classmates, etc."

STUDENT OPERATION

Although the Yale critique is

HUBERT H. HUMPHREY

Humphrey Observing Birthday

WASHINGTON (AP) — Vice President Hubert H. Humphrey turns 54 today and in honor of the occasion he may not make a speech.

This in itself, for a man who has been making two or three a day, would set the date apart. But, of course, he may change his mind.

The Humphrey calendar calls for a staff party and attendance by the vice president and Mrs. Humphrey at a White House reception for congressional assistants.

After the reception, President Johnson may have some surprises of his own for the vice president.

JOKING MOOD

Humphrey joked with newsmen at a White House military reception Wednesday night and wouldn't admit he's turning 54. He told everything else about himself: his shirt size, neck 16½, sleeve 34; height, 5 feet 11½ inches; weight, 38 inches; shoes, 9½. But not his age.

He prefers everyone to think he's 37, even though the records show that he was born 54 years ago — on May 27, 1911, in Wallace, S.D.

Asked how he planned to celebrate his birthday, he said, "by work." And, "I'm going to call up my mother and congratulate her."

STANDS IN LINE

Humphrey was in a jovial mood after he stood in the receiving line along with the Johnsons.

The vice president was called on to pose for pictures and someone suggested that he and his wife kiss. Mrs. Humphrey protested with a smile and said: "I don't like kissing."

"Yes, she does," said her husband amid general laughter.

Mrs. Humphrey then corrected her statement to: "I like to kiss, but I don't like kissing pictures."

Trial Resumes in Twin's Death

PASADENA, Calif. (UPI) — The Timothy Nicholson trial resumes today with the defense expected to try to discredit testimony he offered \$10,000 to "get rid" of his twin brother, Todd.

Superior Judge H. Burton Noble recessed the trial Tuesday until today to give the defense time to study the testimony of a surprise prosecution witness, to permit himself to clear his court calendar and to preclude deliberations over the Memorial Day weekend.

The surprise witness, Arthur Sastini, 42, a Covina house painter, testified last Monday that Timothy had offered him \$5,000 and then \$10,000 to "get rid" of Todd.

He said he rejected the offer and indicated he told Timothy such a job would require \$40,000 or \$50,000.

Under preliminary defense cross-examination Monday, Sastini said he was arrested May 14, and told police then about Timothy's offer. The witness was arrested for drunkenness, disturbing the peace and fighting.

FATAL SHOOTING

Timothy was accused of fatally shooting Todd with a 22-caliber rifle last Dec. 7 in the twins' \$400,000 apartment building in Temple City.

The defense claimed Timothy shot Todd accidentally when the victim became violent during an argument.

Foreign News Commentary

Split Stirs Worries Over Belgian Future

By PHIL NEWSOM
UPI Foreign News Analyst

In Brussels, Paul Henri-Spaak sadly surveyed the wreckage of the coalition which had ruled Belgium since April 25, 1961, and declared: "I am concerned about the future of our country."

He had reason. For the differences between the French-speaking south and the Flemish-speaking north, which had plagued Belgium for more than 100 years of its 135-year independent history, finally had expressed themselves forcefully at the polls.

And Spaak, a longtime secretary general of NATO, vice premier of Belgium and a political exponent of a politically unified Europe, was in danger of seeing his own country divided.

Since 1961 the coalition of Christian Socialists and Socialists had labored manfully to compromise the antagonisms of the two language groups.

A compromise language law in 1964 had made Flemish, a Germanic tongue, the official language of the north, and French the language of the south. The law also provided that both would be official languages in Brussels, the capital.

LITTLE SATISFACTION

It failed to satisfy the extremists of either side who demand separate Flemish and Walloon (French-speaking) states loosely linked with Brussels as a federated capital.

In Sunday's elections, both coalition parties lost heavily to the extremists on the left and to the archconservative

Party for Liberty and Progress

The latter also had rejected the compromise language law in favor of total language freedom throughout the nation.

And so on Monday, Christian Socialist Premier Theo Lefevre, who stood for "one economy, one society, one Belgian nation," submitted his resignation to the king.

GO BACK

Belgium's language difficulties go back to the period between 1840 and 1850.

In 1960, economic troubles brought on by loss of the Congo and an antiquated industrial structure, began bringing them to a painful head.

In the Walloon-speaking areas, coal mines were closing and industry was finding it could not compete with the modern machinery of the West Germans and others among Belgium's neighbors.

The results were strikes and bloody rioting.

OUTDISTANCED

Leaflets demanded a "Walloon Wallonia" against the murderers of the Walloon people.

For many years, the language of the government had been French but the Flemish birth rate was outdistancing the French, the Flemish membership in parliament was greater than that of the Walloons and the latter feared that ancient positions of prestige were being endangered.

On their side the Flemish charged that the government was not truly bilingual and that the greatest economic benefits were going to the Walloons. Between the two groups, serious clashes occurred.

And so to ancient differences, an economic cause had been added.

That was the background which led Spaak to say: "We have been beaten both on our right and on our left. It will now be more difficult than ever to find moderate solutions to our problems."

Grand Old Opry Will Perform in Pontiac June 19

The second annual Grand Old Opry sponsored by the Waterford Township Police Department is scheduled June 19 at Warner Stadium.

Proceeds from the 7 p.m. program will go to the Boys Club of Waterford.

Heading the list of Nashville entertainers booked for the show is Skeeter Davis.

Tickets are available at Grinnell's and Cunningham's in the Pontiac Mall, Richardson Farm Dairy stores, the Lakeland Record Shop and Lakeland Pharmacy.

College May Include Van Buren County

BENTON HARBOR (AP) — Trustees of Lake Michigan College here, have agreed to study inclusion of neighboring Van Buren County in its program. The trustees proposed that a Florida consulting firm looking into Lake Michigan college site placement be asked the scope and extra cost of embracing Van Buren County in the study.

Age Entitles Oldster to One Free Jaywalk

LOS ANGELES (AP) — A judge refused to fine Thomas H. Carter on a jaywalking charge.

Municipal Judge Jerry Pacht, noting that Carter will be 100 next Nov. 27, told him Wednesday: "At the age of 99, you are entitled to one free jaywalk from this court. The fine is suspended."

Idea for State Bug Is Swept Under Rug

RALEIGH, N.C. (UPI) — A group of legislators, apparently with tongue in cheek, yesterday introduced a resolution that would designate the "clemex lecutularis" as the official state bug of North Carolina. Clemex lecutularis is Latin for bedbug.

The resolution was referred to a committee for extinction.

E. Germans Claim Attacks Planned on Wall

Queen Elizabeth Flies Behind Iron Curtain to Berlin

BERLIN (AP) — Queen Elizabeth II flew 116 miles behind the iron curtain today to West Berlin. East German officials claimed that West German Chancellor Ludwig Erhard's flight to West Berlin Wednesday night aboard a U.S. Air Force plane to greet the queen was a violation of East German air space.

The queen's 22-mile route through the city took her past the barbed wire-topped wall, but there were no plans for her to stop at it. British officials said this was done to spare her any anti-Western posters such as the East Germans put up for President Kennedy's visit to the wall in June 1963.

The East German Radio asserted that "terrorists" of the West German intelligence service run by Gen. Reinhard Gehlen were planning "provocations" against the border of the (East) German Democratic Republic.

The broadcast also charged that West German Chancellor Ludwig Erhard's flight to West Berlin Wednesday night aboard a U.S. Air Force plane to greet the queen was a violation of East German air space.

East Germany's head government said a month ago it had no objection to the queen's visit to West Berlin. But this week the East German Foreign Office accused Erhard, by coming to meet her, of trying to "use the visit as an aggressive demonstration" of West Germany's claims to West Berlin.

British, West German and West German intelligence service run by Gen. Reinhard Gehlen were planning "provocations" Officially the British monarch

INSPECTS HONOR GUARD Queen Elizabeth of Britain reviews a welcoming honor guard at West Berlin's Gatow Airport this morning after her arrival. The honor guard consisted of American, British, French and German troops.

given by Mayor Brandt, a drive about the city for about an hour and a speech at City Hall.

Elizabeth's visit to West Berlin was the climax of her state visit to West Germany, which began May 18 and ends when she sails for home Friday aboard the royal yacht Britannia. She is the first British monarch to visit Germany in 52 years, since her grandfather King George V came to Berlin with Queen Mary for the wedding of Kaiser Wilhelm II, daughter Victoria Louise in May 1913.

For 10 days now Elizabeth has been the center of the former enemy nation's attention. Newspapers publish pages of pictures and stories about her daily. Television stations show hours-long segments of her tour in live broadcasts. Thousands of Germans turn out to cheer.

For many Germans the royal visit is the final pardon after two world wars as Britain's enemy. They hope that this act of grace will soften anti-German feelings which have been more harshly and frequently expressed in England than in any other former enemy country in the West.

Referring to the two world wars, the queen in Bonn declared: "This tragic period of our relations is happily over."

Al Cohen recalled that Germans had once crossed the Rhine to aid the British in fighting Napoleon. In every speech she has referred to the historic ties between Germany and Britain, including those of her own family and her German ancestry.

came to the isolated city to inspect her troops who with American and French soldiers make up West Berlin's allied garrison. But West Berliners viewed her coming as an expression of British solidarity with them and arranged a big welcome.

One West Berlin newspaper said Elizabeth's visit would rank with Kennedy's among the most important events in Berlin's postwar history.

The queen's twin-engine Royal Air Force jet flew for about 15 minutes through the center of one of the three air corridors for Western traffic across Communist territory. The plane flew without an escort but was under

constant radar observation. Elizabeth and her husband, Prince Philip, landed at the British military airport in the suburb of Gatow. They were welcomed by West Berlin Mayor Willy Brandt and Chancellor Erhard.

The queen's program included a review of 1,500 British troops at the Olympic Stadium, a visit to the Commonwealth Cemetery, a reception and luncheon

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

The scene relating to this story was the New Orleans area a few years ago.

This is a comedy in two acts and the subjects in the plot include Ted Kroll, currently head pro at Franklin Hills as the lead man; Bob Gajda, Forest Lake pro; Gene Bone, Lancaster Hills pro and Tommy Cosmos, assistant pro at Oakland Hills.

Cosmos does the narrative and earns an Eddy award for his presentation for keeping the audience at Meadowbrook Country Club in hysterical laughter.

The four golfers were staying at the same motel and all competing in the New Orleans tournament.

"Ted was playing in the pro-am with a partner who had a real full head of hair," related Cosmos.

"When the pro-am was over Ted returned back to the motel, carrying a huge box he could hardly lift. It was filled with bottles of all shapes, sizes and colors."

It seems Kroll's amateur partner was a salesman of hair tonics and he assured Ted that it would do wonders for the bare spot under his golf cap.

CHECKS DOME

He had made his first application before leaving the clubhouse and when he got back to the motel Kroll was happily showing his dome and asking for observation as to whether the miracle hair restorer had already started working.

Two days later after Kroll had made the cut by shooting 78-76, he eagerly asked Gajda at the motel to make the periodic check of his head.

"I don't know about your head, but with all that hair tonic and Fuller's Earth (a scalding powder) mixed together, I think I have trees growing in the trunk of my car," replied Gajda.

For finishing 4th and winning a check over \$1,000, it was agreed that Kroll would buy the dinners for everyone at the next stop on the tour, Baton Rouge.

"We waited from Tuesday to Friday, and finally he (Kroll) decides to pay off the dinner debt," said Cosmos.

"Where does he take us, but to some fish joint in Baton Rouge. There were nine of us and we had an eight course dinner, and do you know what it cost Ted, including tip . . . \$7.98."

"And the best part of it, he takes out a \$100 bill to pay the check," Cosmos added.

By this time, unable to get a word in amid the laughter from Cosmos' tale and motions, Kroll removed his golf cap in the Meadowbrook clubhouse after his 79-71 round in USGA local qualifying Monday.

"See there, he still hasn't got a new hair on his head," pointed Gajda, "and I'm still moving the grass in my car trunk."

With this bit of razzing, he returned the cap to his head and offered to tell his side of the story, but no one was interested. They were all laughed out.

In ABC Prestige Event

Billy Welu Again Master

ST. PAUL, Minn. (AP) — Billy Welu of St. Louis defeated Don Ellis of Houston, Tex., twice Wednesday night and won his second straight American Bowling Congress Master's Tournament.

Welu lost to Ellis Tuesday in the first four games of the title series, 778-735. In the final four games Welu combined 224-201-225-132 for 832 pins, and Ellis had 188-257-195-178 for 732.

The champion pocketed \$4,500 and Ellis picked up \$3,350.

The other finalists and prize money were: Dale Searcy, Bloomfield Hills, third, \$2,400; Carl Winfield, Los Angeles, fourth, \$1,800; Dick Weber, St. Louis, fifth, \$1,450; Jerry Dutler, Mankato, Minn. sixth, \$1,400; Harry Smith, Redwood City, Calif., seventh, \$1,200; and Mike Fessler, Los Angeles, eighth, \$950.

Pros Tee Off Without Noise

INDIANAPOLIS (AP) — The roar of the Indianapolis 500-mile race warms was missing and so were crowd-luring Jack Nicklaus and Arnold Palmer as a field of 145 pros tee off today in the \$87,500 "500" festival open golf tourney.

The golfing sideshow to the big Memorial Day auto classic was shifted from the Speedway course — in the process of being remodeled — to the tougher Greentree Country Club course 10 miles from the track.

In the five previous Speedway Opens, players complained of the whine of racing cars running carburetor tests during the golf competition.

A frank exception was Juan (Chi Chi) Rodriguez, who said the switch to the more tranquil, if more exacting Greentree course, made little difference.

"For \$87,000, I'll play whether there are noisy cars or not," cracked Rodriguez, whose \$12,000 official PGA earnings this year ranks far behind Nicklaus' pace setting total of \$47,190.

Class A Game Tonight

If the field dries sufficiently, Pontiac Business Institute and Talbot Lumber will attempt to win their first Class A recreation baseball game tonight at Jaycee Park.

Yesterday's wet weather forced the postponement of their scheduled game until 7:30 p.m. today. After tonight, the league has only a Sunday night tilt until June 6th.

Sixteen Teams Paired in 4th Annual Event

Pontiac Northern '90 Will Duel Northville in First Game

By JERE CRAIG

A featured clash in the first round of the fourth annual Pontiac Invitational High School Baseball Tournament Saturday at Jaycee Park will pair Milford and Hazel Park at 1 p.m.

The latter is the Southeastern Michigan Association champion and has an 11-6 record over-all. It is one of the pre-tournament favorites to reach the final game.

Play will open tomorrow night in the fourth annual single-elimination diamond tournament co-sponsored by The Press and Pontiac Parks and Recreation Department. Northville, a former champion, will visit Pontiac Northern, a previous runner-up, at 8 p.m.

All games will be at Jaycee Park. The defending titlist is Royal Oak Kimball.

TOP INFIELD

Hazel Park has a standout pitcher in Gary Edmonds, and the Vikings will boast probably the best hitting infield in the 16-team tournament.

Bill Burke, first base, Pete Evangelista, shortstop, John Pykal, second base, and Bruce Ercell, third base, all are hitting above the 300 mark.

Milford, though, has a 10-6 mark and is the Wayne-Oakland League titlist. The Redskins have been a strong baseball school for several seasons and will give any team trouble on a given day.

Milford has one of the county's finest third basemen, John Kasper, a 400 hitter, a dangerous hitter in left fielder Jack Ward, plus diminutive Dave Motlan to handle the mound work.

The winner of the two league champions' meeting will play the survivor of the Avondale-Walled Lake tilt. These two teams have 5 p.m. Saturday encounter.

Walled Lake's Vikings (8-3) will be favored but Avondale has recovered from a slow start and may be ready to pull an upset.

The Yellow Jackets boast one of the outstanding catching prospects in the area in catcher Dick Reddaway. The pitching of Don Rickard and hitting of Terry Lehman have paired Walled Lake to several of its successes.

The four second round games will be played Monday beginning at 1 p.m. and running through that evening. Ticket sales are being handled by the recreation department.

The semifinal contests will be Tuesday and Wednesday nights at 8 o'clock; and the tournament final is set for 8 p.m. Thursday.

Aussie Netters Favored to Make French Finals

PARIS (AP) — An all-Australia final loomed today in the men's singles of the French Tennis Championships, with Roy Emerson and Fred Stolle favored to capture the final two places.

Emerson played Tony Roche of Australia in one semifinal and Stolle met Cliff Drysdale of South Africa in the other.

Victories by Emerson and Stolle would set up a rematch of last year's Wimbledon final, last year's United States final, and this year's Australian final. Emerson won all of those titles.

Three American players took the courts today in the quarterfinals of the mixed doubles.

Nancy Richey of Dallas and Frank Froehling of Miami met Jane Albert of Pebble Beach, Calif., and Owen Davidson of Australia. Francoise Durr of France and Donald Dell of Bethesda, Md., played Australians Lesley Turner and Stolle.

Miss Richey seeded No. 4, moved into the women's singles semis Wednesday with a methodical 6-4, 9-7 victory over Miss

SPORTS

NOW YOU MAY BEGIN — Referee Dwight Eisenhower, former President places ball on first tee at the Philadelphia Country to be gun exhibition golf match played for the Heart Association of Southeastern Pennsylvania.

'Ike' had agreed to play as Arnold Palmer's partner but sore arm forced change in roles. Andy Williams tonight replaced Eisenhower as player. Next to Williams is Ray Bolger who teamed with Jack Nicklaus (left).

Palmer-Andy Williams Win

'Ike' Calls Shots for Charity

PHILADELPHIA (AP) — "Can I keep the flag in, General?"

"Yes."

"Thank you, sir."

This wasn't a military maneuver, just some of the dialogue in an exhibition golf match, refereed by Gen. Dwight D. Eisenhower.

The former president, unable to play in the charity match because of a sore elbow and shoulder, went 11 holes, rested in the clubhouse for five, then came back for the 17th and 18th.

The match at the Philadelphia Country Club Wednesday was won 1-up by Arnold Palmer and singer Andy Williams — Eisenhower's replacement — over Jack Nicklaus and dancer Ray Bolger.

HOLDS LONG PUTT — Nicklaus, the Masters champion, and Bolger, who came here from California for the second straight year, deadlocked the match on the 17th as Nicklaus holed a 45-foot curving uphill putt.

But on the 18th, Palmer chipped 20 feet to within inches of the cup, and Bolger missed a four-footer, giving Palmer and Williams the match.

The real winner, of course, was the Heart Association of Southeastern Pennsylvania, which netted \$27,000 from a sell-out gallery of 1,000 spectators.

Gen. Eisenhower posed for pictures but declined to answer any questions. However, his aide, Brig. Gen. Robert Schulz, said the general's right elbow and shoulder were lame.

Schulz said, "It isn't serious," and replied negatively when asked if it was the 74-year-old Eisenhower's old bursts condition.

The repartee over the flag took place on the first hole when Bolger prepared to hit out of a trap. After the rapid fire question and answer, the dancer blasted out of the sand to within four feet of the hole and Nick-

laus canned to give them a quick 1-up lead.

Nicklaus disclosed that he was going to St. Louis Thursday to practice on the Bellevue Country Club course, site of next month's U.S. Open championship. He said Palmer might join him.

The Masters champion said he played the Bellevue several weeks ago and found it to be "very tough."

Asked which he considered the more important tournament, the Masters or the Open, Nicklaus said, "It depends upon which one you're playing."

Ailing Yanks to Meet Tigers

DETROIT (AP) — New York Yankees manager Johnny Keane will learn tonight how his team fares against this year's edition of the Detroit Tigers.

Wednesday night's scheduled game between the Tigers and Yankees was postponed because of rain. It will be replayed as part of a two night doubleheader but the date has not been decided.

Keane, making his first circuit of the American League, met informally with members of the Detroit chapter of the Baseball Writers' Association of America Wednesday.

TREATED ROUGH

He admitted that his eighth place Yankees have been treated roughly by seven of the teams they have met so far.

Keane, who resigned as manager of the world champion St. Louis Cardinals last year and later signed to manage the Yankees, had a number of ideas on the new team and differences between the two leagues.

"There is no doubt in my mind that we would have a better team if we had not suffered so many injuries," Keane said. Keane has played his starting nine as a complete unit only once on opening day.

Since then, Mickey Mantle and Roger Maris have been sidelined for lengthy periods due to assorted injuries.

And catcher Elston Howard recently underwent surgery and is not due back until June 13.

Keane said he heard a lot about the Tigers' Jim Northrup and Ray Oyler while making the rounds of the winter banquet circuit.

He termed shortstop Dick McAuliffe a "scrappy player."

Asked what he intended to pitch to Willie Horton, who is expected to return to the lineup, Keane said he didn't know.

"We'll just have to wait and see on him. And we'll ask if any of our players have a line on what weaknesses he has, if any," Keane said.

Pitchers Joe Sparna and Whitley Ford were the announced probable starters Wednesday. Keane and Tigers manager Bob Swift said they would stick with them tonight.

Cleveland arrives for a three-game weekend series Saturday. It will mark the first meeting between the Indians and Tigers this year.

State Finals in County

Southfield has been picked as the site of the state Little League baseball championship tournament this summer.

Robert B. Neuman has been appointed tournament director by Southfield officials. District No. 4 last had the state Little League finals in 1959 at Birmingham.

New in 'Jeep' Wagoneer: V-8 'Vigilante' powerhouse & famous Turbo Hydra-Matic

Teamed up with 'Jeep' 4-wheel drive.

The 'Jeep' Wagoneer is the only wagon to offer you this combination of options. A hot 250 hp V-8 engine for more zip on the highway. Turbo Hydra-Matic® automatic transmission for fast, smooth pick-ups. New power steering so gentle you can park the Wagoneer with one finger. And the big extra of 4-wheel drive traction.

To make 4-wheel drive even more effective with automatic transmission, we've added a low range to the transfer case. On the road . . . off the road — it handles just about anything nature puts in your way . . . hills, snow, mud, even deep sand. It's one of the "Unstoppables."

Cardinal Outflies Dodger Speedster

By The Associated Press
Lou Brock won the battle, but Maury Wills still is winning the war.

Brock, who has turned into Wills' shadow in a possible record-making race for the National League's stolen base championship, came out on top in their first direct confrontation Wednesday night while the St. Louis Cardinals edged the Los Angeles Dodgers 2-1.

Brock, the Cardinals' swift left fielder, stole three bases for a season total of 21 in 39 games. Wills, the Dodgers record-holder and five-time champion, settled for one steal and a total of 25 in 40 games.

Wills, who stole 53 bases last year, predicted before the season started that someone would eventually break the record of 104 he set in 1962. And he hinted that it just might be the guy who played shortstop for the Dodgers.

"I think it's possible to break

the record," Wills said. "And the way I feel I think I can go at top speed all the way. I feel better than when I was 18. Maybe I'm getting my second wind."

The Cardinals' victory pulled the defending world champions to within 1½ games of the first-place Dodgers, who stayed one game ahead of Cincinnati as the Cardinals edged the Reds 3-2 to Houston 8-3.

Elsewhere, Milwaukee belted San Francisco 10-4, Pittsburgh upended Philadelphia 5-3 and the Chicago Cubs edged the New York Mets 8-6 in 10 innings.

Curt Simmons got the victory with a five-hitter for a 3-5 record, outdueling Sandy Koufax, now 6-3.

Jim Wynn was the big gun for the Astros against the Reds, driving in four runs in support of Bob Bruce's five-hit, 13-strikeout pitching.

Wynn singled home a run in

the first, broke a 2-2 tie with a two-run triple in the third and hit his seventh homer in the fifth inning as Bill McCool was tagged with the loss in his first start.

BOMB GIANT

The Braves bombed Giant ace Juan Marichal for 11 hits and nine runs in 3½ innings, with Joe Torre and Felipe Alou each hitting a pair of homers. Torre drove in five runs and Alou three with the shots that sent Marichal down to his fourth loss against seven victories.

The Pirates snapped a 3-3 tie in the seventh inning when Andre Rodgers doubled, moved to third on a long fly and sped home on a two-out hunt by Manny Mota. Willie Stargell padded the margin with his eighth homer.

The victory extended Pittsburgh's winning streak to six games and moved the Pirates out of the NL cellar.

The Mets replaced the Pirates in 10th place when former teammate George Altman hit a two-run homer for the Cubs' victory in the 10th inning.

Cranbrook Set for Loop Meet

Interstate Trackmen
to Compete in Ohio

The Cranbrook track team will journey this weekend to Shaker Heights, Ohio, for the 35th annual Interstate Prep League Track Meet at the University School facilities.

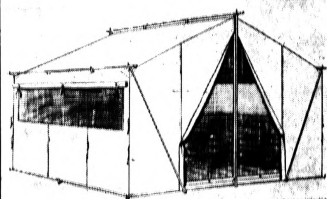

Cleveland's Western Reserve School rules as the meet favorite, and Cranbrook and Pittsburgh's Shady Side Academy are expected to have some fine individual accomplishments.

Western Reserve's track squad boasts Eric Esterberg who has the best discus toss in Ohio this spring (170-6½ feet). He also has high jumped 6-3 and put the shot 36-10.

The top Cranes include Tom Van Horn, who has done well in the field events, and middle distance runners Gary Dearth and Craig Church. The Cranbrook relay teams also have posted good times.

The Bloomfield Hills school currently is tied for third place in the all-around sports championship point battle.

U.S. Sailors Finish 1-2

NAPLES, Italy (AP) — Skippers Ernest Pay of Houston and Britton Chance of Philadelphia finished one-two in the three-day 5.5 meter yachting competition on Naples Bay, which ended Wednesday.

Pride, Fay's boat, won the event with 83.25 points and Composition, skippered by Chance and winner of Wednesday's concluding race, was runner-up with 82.50.

AP Photo/...

TELLS HIS STORY—Jersey Joe Walcott, the referee of the Liston-Clay fight, explains his version of the KO won by Clay in the first round. Fight experts feel Walcott should have started the count over when Clay failed to go into a neutral corner.

Furor Still Rages Over Clay's Kayo

LEWISTON, Maine (UPI) — Although the combatants have departed this Maine mill town with considerable amounts of greenbacks, the furor over the Cassius Clay-Sonny Liston fight continued to rage today amidst the usual demands for "sweeping" investigations.

Clay, who scored a record (was it actually a record?) one-minute knockout over Liston in his first defense of the world heavyweight title Tuesday night, headed for New York Wednesday afternoon in his private bus.

Liston, still smarting from the first knockdown and knock-out of his career, headed for his Denver home.

SMALLEST CROWD

Based on early estimates, each will net about \$50,000 for their 60 seconds at the Central Maine Youth Center before only 4,280 "live" onlookers, the

smallest turnout for a heavy-weight title fight in history.

When fast talking Clay and slow-moving Liston pulled out of town, they left behind two burning controversies and several enraged office-holders demanding probes because they smelled "fix."

The controversies involved the knockdown count and the time of the kayo.

Duncan McDonald of Bangor, a member of the Maine Boxing Commission, conceded Wednesday that referee Jersey Joe Walcott "got a little mixed up" when Clay landed his short right that sent Liston sprawling to the canvas.

McDonald wondered aloud why Walcott didn't suspend the count of knockdown timekeeper Francis McDonough when Jersey Joe was unable to get Clay to go to a neutral corner.

"Walcott could have suspended the count and started over again if he wanted to," said McDonald. "He had the power to do that. It's right in our record book."

McDonald was supported by Coley Welch, a former New England middleweight champion who served as a judge at the fight.

When Clay met the press at a midday interview he expressed hope that "they don't take my record away," referring to the kayo time.

Paper 'Cuts Up' Boxers

MANILA (AP) — The Philippines Herald carried on its front page Thursday cut-out head shots of Cassius Clay and Sonny Liston superimposed on a photo of actress holding movie Oscars.

Waterford Sports Cars Ready to Resume Races

Sports car racing will return to the Waterford Hills Road Course Saturday and Sunday for the first of five weekend events this season.

The mile-and-a-half course which has 13 right-angle turns is located on Waterford Road one-quarter mile east of Dixie.

Among the 120 expected entrants will be Jaguars, Cobras, Corvettes, Triumphs and Spitfires and there will be three classes for formula cars.

The drivers participating will include Doug Akin, H. S. Briggs, and Tom and Mary Swindell from the Pontiac area.

Seven races are planned for Saturday and nine more Sunday. Cars have been timed to reach 120 miles per hour on the straightaways.

Admission is \$1 Saturday and \$2 Sunday for adults. Children under 12 will be admitted free. The doors will open at 10 a.m. and the races will begin around 1:30 p.m. each day.

There are concessions at the course and free parking. Picnickers are welcomed.

Field of 81 in Memorial Golf Tournament

A field of 81 golfers, including five former state amateur champions, teed off this morning in the second annual Horton Smith Memorial Golf Tournament at Detroit Golf Club.

Returning to defend his title in the 18-hole event, is Bob Fife of Bloomfield Hills County Club, who surprised the field by grabbing the championship last year.

Fife was slated to leave the tee at 1:41 p.m. along with Ben Smith of Detroit, and Glen Johnson of Grosse Ile, one of the five former amateur champs in the tourney.

Other ex-state titlists are Pontiac's Mike Andonian, Dan Stevens of Plum Hollow, Melvin 'Bud' Stevens of Western and Chuck Kocsis of Red Run.

Bud Stevens won the Michigan Medal Play last week at Indianwood Country Club, and he, along with Johnson and Kocsis, qualified Monday in the local U.S.G.A. trials at Meadowbrook.

Jerry Rush to Play in June Grid Tilt

Former Pontiac Central gridder Jerry Rush, who received All-America honors at Michigan State last fall and who was the No. 2 draft choice of the Detroit Lions, will play in the All-America football game at Buffalo, N.Y. June 26th.

The 6-foot-4 and 255 pounder was a two-way player at tackle for the Spartans, but the Lions are planning to use him at defensive end.

The game is sponsored by the American Football Coaches Association and the Buffalo Evening News. He will play for the East squad coached by Ara Parseghian.

First Tryout Hindered, Collision 9 Tries Anew

M. G. Collision, making a late attempt to fill a roster in time to open its Class A recreation baseball season Sunday, had weather problems with its first tryout yesterday but will try again tomorrow.

Manager Truman Lamphere has announced the practice tomorrow will begin at 5:30 p.m. at Jaycee Park and 3 p.m. Saturday at Pontiac Northern.

Spreads Decision-Making to Local Levels

Civil Rights Group Plans Summer Projects in South and D.C.

NEW YORK (AP) — The Student Nonviolent Coordinating Committee has revamped its policy-making machinery, and plans summer projects in four Southern states and the District of Columbia.

A spokesman for the militant civil rights group said the organization has spread its decision-making power over more

staff members in an attempt to let "people in the communities participate more in making decisions affecting their lives."

This summer's emphasis will be on developing local Negro leadership in communities in Alabama, Mississippi, Arkansas and Georgia, said the spokesman, Cleveland Sellers, SNCC program director.

During the next few weeks, however, much of SNCC's energy will be spent in trying to unseat Mississippi's five congressmen.

MEMORANDUM

A SNCC memorandum has called the challenge to the congressmen by the year-old Mississippi Freedom Democratic party "the most important political event of 1965, notwithstanding efforts to get new voter legislation."

SNCC is seeking 1,000 college student volunteers, Sellers said, to lobby in Washington for the Freedom Democratic party between June 12 and July 4.

The party, organized by SNCC last spring, argues that the congressmen, four Democrats and a Republican, should be removed from office because many Negroes in their districts are denied the right to vote.

The question has been referred to the House Elections and Privileges subcommittee, headed by Rep. Robert T. Ashmore, D-S.C. The subcommittee is required by the rules to report to the full House in June.

Sellers said that several hundred students have volunteered so far. SNCC said some time ago it wanted volunteers "especially from Northern areas where the congressmen will be politically responsive to pressure."

When their two-week stints are over, many volunteers will be asked to travel South and work in SNCC projects in Georgia, Alabama, Mississippi and Arkansas.

In those states, Sellers said, staff workers and volunteers will begin the summer helping local Negro leaders cope with a variety of problems. The problems to be attacked will be determined by a five-day Southern Regional Student Conference beginning June 6 at Tuskegee, Ala., he said.

SNCC hopes the conference will draw about 400 students, mostly Negroes, to discuss programs they would like to see implemented in their own communities.

CONFERENCES

Sellers added that SNCC also hopes to hold a series of statewide "people's conferences." SNCC's program was determined by what the group calls a

"radically altered" organization under which the administrative structure is supervised by the 200-member field staff.

SNCC policy once was handed down by John Lewis or James Forman, its two top men. Now, Sellers has joined them in a secretariat. SNCC also says more responsibility has been given to lesser-known staff members.

March Slated in Mississippi

BRANDON, Miss. (AP) — Negro leaders meet tonight at the ruins of a burned rural church to map plans for a two-day, 20-mile protest march.

A spokesman for the Mississippi Freedom Democratic party said the march, winding along lonely dirt roads through the piney woods, starts Friday. It would protest the seating of the state's congressional delegation.

The march also will protest alleged violent or harsh treatment of Negroes in this central Mississippi county, the spokesman said.

After spending the night at a Negro church near Langford, the marchers will try to present a petition of grievances to city and county officials at the courthouse in Brandon.

Texas Police Guard Fan Held in Killing of Umpire

HOUSTON (UPI) — A police guard remained outside the hospital room of 59-year-old Willie Harris today, the man who police said took baseball justice into his own hands and shot an umpire.

Hospital officials said Harris was in satisfactory condition. Officers said Harris was in the stands at a semi-pro baseball game Tuesday night when he got into an argument with another spectator. The argument became so volatile that the game's umpire, Ernest Nathaniel Coleman, tried to break things up.

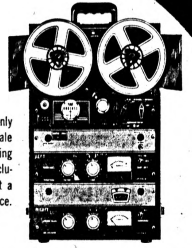

Police said Harris pulled a gun and shot Coleman three times, killing him.

The shooting enraged the spectators around Harris so that they began to stamp on him.

Harris was rushed to Ben Taub Hospital, where he was listed in critical condition. He improved slightly yesterday, however.

Judge Is Using Old Law in Family Divorce Cases

An 88-year-old state law has been dusted off and put to full use by Circuit Judge William J. Beer when granting divorces where children are involved.

"The 1887 statute allows judges to restrict the offending party from remarrying for a period of up to two years.

While Beer has invoked the law on a number of occasions in the past, he said that he will make it a general practice.

"Instead of being discretionary, I will use the maximum measure in all cases where there are youngsters," said Beer.

The idea behind Beer's action is to insure child support.

SECOND FAMILY

"As it is now, a man with a family no sooner is divorced from his wife when he turns around and starts another family," said Beer.

"His argument then is that he cannot support two families."

The father has a legal financial obligation to his first family until the children are 18 years old, according to Beer.

"I'm deeply concerned about the high divorce rate here in Oakland County, as well as in Wayne County," said Beer.

16 JUDGMENTS

"I sign an average of 16 divorce judgments a week."

Beer said he did not think the moratorium on remarrying would reduce divorces, but added that "it will give them something extra to think about."

A person who fails to obey the court order would be in contempt of court and subject to a jail term, said Beer.

FILMS BY FIRST LADY—Lady Bird Johnson operates her home movie camera from the Truman balcony of the south portico of the White House to film the reception for the military yesterday. The reception, hosted by the Johnsons, was held on the south lawn of the White House.

A 13th century fresco of Pope Urban IV establishing the feast of Corpus Christi has been discovered by workers setting up a ventilation system in the Church of St. Christine in Bohna, Italy.

Pontiac School Affairs

Pay Hike for Workers

Non instructional personnel in the Pontiac School system will get raises next year as a result of action by the school board last night.

Three-year working agreements were established with secretarial and clerical workers, operational personnel and maintenance foremen.

Maintenance workers asked for and received a one-year agreement.

Most of the three-year agreements call for a 5 per cent raise for 1965-66, and 4 per cent raises in the two following years.

In addition, personnel will be granted an extra half-day holiday during each of the next three years.

LARGER HIKE

Maintenance foremen received a larger pay hike, and a longer vacation after 10 years of service.

Maintenance workers agreed to a 5 per cent wage hike and will receive an additional half-day holiday during the year.

In other action last night, the school board accepted bids for two expenditures.

A bid of \$11,292 was accepted for acoustical tile work at Washington Junior High School and Whitfield Elementary.

NEW SEATS

An \$18,084.92 bid was accepted as the purchase price of seats for the auditorium at Lincoln Junior High School.

The board also named election inspectors for the June 14 school election, and announced that a dedication of the new school administration building at 350 W. Wide Track would be held on June 13.

Blind Lawyer Named Top Federal Attorney

WASHINGTON (AP)—The Federal Bar Association has named Charles R. Simpson, a blind attorney for the Internal Revenue Service, as the outstanding career government lawyer of the year.

Simpson, who served two terms as a Democratic member of the Illinois General Assembly, received the award from Atty. Gen. Nicholas Katzenbach at a luncheon yesterday.

The traditional Japanese diet of rice, bean paste and pickled vegetables is inclined to cause a higher rate of stomach cancer.

Laborites Escape Defeat by Single Vote

LONDON (AP) — Britain's Labor government escaped defeat in the House of Commons early today by only one vote.

When all members are present, the Laborites have a three-vote margin. But a number of members were absent for the session Wednesday night.

Throughout the night the government won a series of votes on clauses in its omnibus finance bill by razor-edge margins. Finally the margin dropped to one vote. 153-152 and Chancellor of the Exchequer James Callaghan moved for adjournment of the session.

TOKYO (AP) — The season's first typhoon, Amy, hit southern and central Japan a glancing blow today and left 5 persons dead, 9 missing and 6 injured.

After an hour of torrential rain and 75-mile per hour winds

in the Tokyo region, the storm passed out to sea and left clear skies and sunshine in its wake.

SINGAPORE (AP) — A Malaysian naval patrol boat sank a boat believed to be carrying Indonesian saboteurs 500 yards from the entrance to the Singapore Harbor Wednesday night.

One Indonesian was fished from the water, and at least two others were believed to have been aboard the boat. Four hand grenades and a time bomb were found in wreckage believed to be from the Indonesian boat.

NEW DELHI, India (AP) — India marked the first anniversary today of Jawaharlal Nehru's death with predawn mourning ceremonies and fear for the future.

There remain many problems

and the "unspeakable poverty of the Indian masses," the national newspaper The Statesman said in an editorial.

Nehru's successor, Prime Minister Lal Bahadur Shastri, and President Sarvepalli Radhakrishnan laid wreaths on Nehru's funeral pyre on the banks of the holy Jumna River outside New Delhi.

Mystery Cloaks Death of California Condor

SACRAMENTO, Calif. (UPI)

One of the few remaining California condors died mysteriously over the weekend, apparently from unnatural causes.

Ben Glading of the State Fish and Game Department said yesterday that the big bird fell suddenly from the sky last Sunday near Pinhurst in Fresno County.

VICTIM OF FIGHTING: A Bolivian in the tin mine area carries a woman wounded in the fighting between government troops and

striking workers. Sporadic clashes continued today in the Andes area.

God does not die on the day when our lives cease to be, the source of which is when we cease to believe in the illuminated by the steady radiance, renewed daily, of a won-

Bolivia Now Has Two Leaders
Tin Mine Area Strife Continues

LA PAZ, Bolivia (UPI) — Bolivia's military junta government had two heads today for the second time in six months as an unexplained byproduct of the still simmering leftist rebellion that erupted this week.

Maj. Gen. Alfredo Ovando was sworn in late yesterday as Lt. Gen. Rene Barrientos' "co-president." At the same time, it was announced that the two men will serve as co-commanders of the armed forces.

Ovando is going to the tin mine center of Oruro today to negotiate with the government's unionized opponents, whose armed "militiamen" apparently are still in control of some of the nation's mines.

Barrientos, in a speech at the inauguration of his new partner, vowed yesterday that "our principal objective will be... to restore to the national sovereignty

all Bolivian territories where feuds now exist" — an apparent reference to rebel-held areas.

Agreement between the government and its foes restored order in La Paz and in most outlying areas yesterday, but tin miners in some places were still observing this week's anti-government "general strike."

STILL STRIKING: A government spokesman said yesterday that workers in five tin centers are still on strike.

He said work had been resumed in five other centers and that meetings were being held at three more to decide on a course.

Ovando's trip to Oruro was ordered to give him a chance to address a meeting of miners, university students and factory workers — the three Communist-infiltrated groups which are the government's chief foes.

PERRY ROAD AT MONTCALM AND IN THE MIRACLE MILE SHOPPING CENTER

Dr. Wayne G. Brandstadt Says:

Drug Works Fine but Lacks Approval

Q — In a recent column, you mentioned thiazinadazole as a drug that would kill hookworm and other parasites. Our drug dealer says he never heard of it. Where can I get it?

A — Although this drug has been used for several years by veterinarians to kill animals of various worms and has been used successfully in hu-

man beings, it is still considered experimental. It must await Food and Drug Administration approval.

Q — How is infection with Staph 80 acquired? Is it dangerous? How is it treated?

A — The typing of different strains of staphylococci (including type 80) is an expensive laboratory procedure which is done for research purposes only.

The type of staphylococcus found in an infected wound or boil has no relationship to the severity of the infection it can

cause. The various strains of staphylococcus are widely disseminated in our environment.

They are commonly found on the skin and in the nose.

They cause trouble only when they gain access to a cut or bruise or become imbedded in one of the pores of the skin. Any strain of staphylococcus is dangerous in that it is likely to cause an infection.

Treatment with penicillin and other antibiotics has been highly successful but a boil or abscess must be opened so that drainage of the pus can be established.

Q — I have been taking antibiotics for years. I am allergic to several things. Most of the drugs I have used make me sleepy and depressed. Will they cause any permanent damage if I take them for a long time?

A — All antihistamines cause

the side effects you mentioned, especially in the first three days.

If the drowsiness and depression persist longer than this, an antihistamine compound that contains amphetamine should be substituted for the plain antihistamine.

Most persons who need this type of medication must take it over a long period. For this reason, periodic examination by your physician is essential.

Q — My doctor is giving me Ritalin. What is it for? Is it harmful?

A — Methyphenidate (Ritalin) is an antidepressant. It is one of the safest drugs for this purpose but it should not be taken by anyone who has high blood pressure or epilepsy.

(Written for Newspaper Enterprise Ass'n.)

The Farmer-Labor Party in 1932 nominated Gen. Jacob S. Coxey, mayor of Massillon, Ohio, for president.

 Opening lead—♠ J.

By JACOB Y. SON

In his prime, the late P. Hal Sims stood three inches over six feet and weighed 350 pounds. He stood even taller among bridge players and in the late twenties was ably the best auction bridge player in the world.

He carried this supremacy over into the first days of contract, but refused to concede that scientific bidding was necessary.

His jump to seven no-trump was typical of his slam bidding but the contract was a good one. He had 12 top tricks and could make the 13th easily if spades broke three-three. Failing that he could still fall back on a finesse for the king of hearts.

If you look at all the cards, you will see that West holds the singleton king of hearts and that spades don't break. It looks like a case of one peek being worth a lot more than two finessses but Hal plucked that king

just as easily as if he had looked in his opponent's hand.

It was all a matter of counting. He started by noting that West held exactly two spades.

Next came the parade of diamonds and when West showed out on the third diamond lead, Hal had counted exactly 12 of his cards and knew that the other one was a heart.

On the last diamond lead East had to discard down to one heart in order to hang on to the jack of spades. Hal discarded his deuce of spades and made the last two tricks with the ace and queen of hearts without caring about the location of the king.

CARD Sense

Q — The bidding has been: South-West North-East
 ♠ Pass 1 ♠ Pass
 ♠ Pass 2 ♠ Pass
 ♠ Pass 3 ♠ Pass

You, South, hold
 ♠ A K Q 3 2 ♥ A 10 2 ♦ 3 2 ♣ A 6 5 4

What do you do?
 A — Bid three hearts. Your hand warrants a try for game here. In fact if you want to overbid and jump right to four hearts you need not overbid.

TODAY'S QUESTION

Instead of bidding two hearts your partner has gone to two diamonds over your two clubs. What do you do now?

Astrological Forecast

By SYDNEY OMARR

For Friday

"The wise man controls his destiny," famous words of the ancients. Aries (Mar. 21 to Apr. 19): Be practical about special programs. Termination activity that is draining funds is indicated. Look ahead, not back, for courage, enough to make necessary adjustments.

Taurus (Apr. 20 to May 20): Don't argue with loved one. Instead, tighten ties. Display affection. You gain by giving. Attitude of suspicion gains you nothing. Act accordingly! Gemini (May 21 to June 20): Be aware of subtle nuances. Key to versatility and alert. Gain indicated through written word.

Sagittarius (Nov. 22 to Dec. 21): Financial status of one close to you may be in spotlight. Follow policy of informed skepticism. Some areas require added research. Be thorough to prevent future embarrassment.

Scorpio (Oct. 23 to Nov. 21): Some statements made should be taken with grain of salt. It might be wise to hold off on new ventures. Obtain hint from old messages. Investigate before acting.

Sagittarius (Nov. 22 to Dec. 21): Cooperate with Gemini individual. Compromise with profit. Work for better relations with associates. Much to be gained by giving. Gemini (May 21 to June 20): Be aware of subtle nuances. Key to versatility and alert. Gain indicated through written word.

Scorpio (Oct. 23 to Nov. 21): Some statements made should be taken with grain of salt. It might be wise to hold off on new ventures. Obtain hint from old messages. Investigate before acting.

Sagittarius (Nov. 22 to Dec. 21): Cooperate with Gemini individual. Compromise with profit. Work for better relations with associates. Much to be gained by giving. Gemini (May 21 to June 20): Be aware of subtle nuances. Key to versatility and alert. Gain indicated through written word.

Army Working to Develop Electronic Warfare Plan

WASHINGTON (AP) The Army is working to develop a weapons technique it calls electronic warfare — the intentional use of radio interference to balk and confuse an enemy.

The program also contemplates the use of space satellites for tactical warfare communications — but probably not until the 1970-1980 period.

Army communications experts disclosed the one-secret plan at a panel presentation before 6,000 delegates to the Armed Forces Communications and Electronics Association annual meeting ending today.

"Satellite systems are just around the corner — important strides are being made," said Maj. Gen. David P. Gibbs, the Army's chief of communications electronics.

"Satellite communication

No New Acts of Vandalism

Police Watch Home in Taylor Township

DETROIT (UPI) — Taylor Township police kept a close watch through the night on the Cecil Gray home and reported no new acts of terrorism and vandalism after two weeks of harassment against the family.

The Grays told of vandals breaking windows in the home, breaking in and slashing chair cushions and covering them with red paint, setting fire to curtains and wrecking furniture.

Some of the acts of vandalism were performed when the Grays and their four children fled the home for fear someone would set it on fire.

Gray said the terrorism began two weeks ago when he became suspicious of the loss of gas from his car.

"When I had to pay a \$30 gasoline bill I got suspicious, so I put a lock on my gas cap. Then they started slicing the tires," he said.

AT WORK

He said the destruction of property continued during the early morning hours while he was at work.

Both the Grays used a 16 gauge shotgun during two incidents to frighten the vandals away with little success. They returned the next day to continue their terrorism.

Mrs. Gray said police at first told her they did not have enough men to offer continuous protection.

However, yesterday Taylor Police Chief Raymond Quil was given assistance from the Wayne County Sheriff's Department and the Flat Rock State Police post.

The Grays have lived in their one-story frame home for seven years and fear they will be forced to move because of the vandals. They say they have no enemies.

New Insurance Plan Accepted

DETROIT (UPI) — Michigan Blue Shield officials last night accepted the merit rating plan approved earlier by State Insurance Commissioner Allen Mayerson.

Dr. Sidney Adler, president of the Michigan Medical Service, said the merit rating system would provide greater equity in rates for all groups. It goes in to effect July 1.

Under the new program, some groups will be charged higher premiums and others lower, depending upon past medical expenses and claim experience.

The maximum increase or decrease in a group's rate will not exceed 20 per cent in any one year.

In the past, the insurance premium to a similar Blue Cross adjustment approved in March.

ADJUSTABLE BASIS

In the past, the insurance rates have been fixed on a community-wide basis. Now they will be adjusted on a group-by-group basis.

In a statement when he approved the plan May 17, Mayerson said initially the base rates will be the community rates in effect June 1, 1963.

Future changes in the base rate will be submitted to the Department of Insurance for approval at least four months in advance.

There will be no change in rates for senior citizens, non-group subscribers or group conversion subscribers who have left their groups because of retirement or other reasons.

Col. Harvey J. Pence, head of the electronic systems directorate in Gibbs' office, said the future in the area of electronic warfare looks promising.

"In the past there has been a reluctance to use jammers and other types of electronic warfare during maneuvers and exercises because of interference in the operational aspects of the problem and safety factors, which we believe have been exaggerated out of their true proportions," he said.

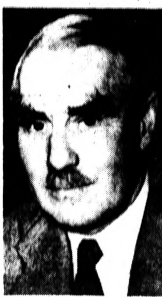

"The Army has started a program to incorporate electronic warfare play into our training exercises and maneuvers and to inform the commanders and staff officers of the value of electronic warfare as a weapon, such as artillery and missiles."

ADVANTAGES "There will be times when the advantages of electronic warfare will outweigh the disadvantages of interference."

Col. Charles A. Newlin, also of the electronic systems directorate, said that while there are many technical problems to be solved he is sure that satellite communications eventually will be used by Army tactical forces, including special forces—units involved in counter-insurgency and unconventional warfare operations.

Special forces usually operate near enemy troops, and therefore cannot use noisy power sources and high antennas that attract the enemy's attention, he explained.

Newlin said use of a satellite could make tactical forces independent of what now are known as hilltop communications. Current radio and radar equipment must be placed on hilltops for greater range, but every hilltop is a potential target and usually its map location is known to the enemy, he said.

FORMER ENVOY DIES Joseph C. Grew, 81, former U.S. ambassador to Japan, died in Manchester, Mass., Tuesday. He was envoy in Japan before World War II and had sent warnings of an impending attack on the U.S.

Terms Used by Weather Bureau Told

DETROIT (AP) What is a tornado or severe weather forecast?

The U.S. Weather Bureau at Detroit says a forecast normal is issued for a period of as much as six hours before these storms are expected to occur in the designated area. Forecasts are issued on the possibility of the storms, although the severe weather may not be happening at the moment.

Such a forecast, the Weather Bureau said, means: Don't panic. Go about your normal business.

Keep tuned to your local radio or TV station for up-to-date weather information, at the same time keeping your own eye open for developing storms, which mostly come from the west.

Be aware of all safety rules concerning such storms and have a shelter area or take necessary evasive action.

What is a tornado or severe weather "warning"?

A warning is not issued, the Weather Bureau said, until such a violent storm exists or has been positively identified either by a reliable observer or weather radar.

WARNING MEANS

The bureau said a tornado warning simply means: Take cover and do it fast. — If possible take a portable radio into shelter, with you, keeping tuned to it for news of current developments or an eventual all-clear signal.

Group Elects 2 Directors

Two new directors of the Oakland County Bar Association were elected at the annual meeting of the organization last night at Devon Gables restaurant, Bloomfield Township.

They are Richard R. Norris, 2960 W. Hickory Grove, Bloomfield Hills, and William P. Whitfield, 5420 Putnam, Birmingham. Both attorneys have their offices in Pontiac.

The seven-member board will elect new officers of the association June 14 at a 11 a.m. meeting in the county courthouse.

Area Driver Serious

After 2-Car Crash

A Milford woman is in serious condition at Pontiac General Hospital following an auto accident yesterday afternoon in Highland Township.

Berenice Wiers, 56, of 335 W. Huron, was one of the drivers involved in the two-car collision at M59 and Hill.

The other driver, Dale L. Marlowe, 20, of 2370 E. Rose, Highland Township, was treated at the hospital and released.

Deaths in Pontiac, Neighboring Areas

WILLIAM GERALD ADAMS — Service for William Gerald Adams, 31, of 61 W. Broadway, will be 11 a.m. Saturday at Sparks Griffin Chapel with burial in Perry Mount Park Cemetery.

Mr. Adams, display manager at the J.C. Penney Co., died yesterday after a long illness. He was a member of Pontiac Rotary Club.

Surviving are his wife Shirley, his parents, Mr. and Mrs. Herbert Adams of Pontiac, a son, David at home, and a brother, H. James Adams of Pontiac.

JAMES E. CARTER

Service for James E. Carter, 61, of 1325 Mount Clemens will be 2 p.m. Saturday at Sparks Griffin Chapel with burial in White Chapel Memorial Cemetery, Troy.

Mr. Carter, a supervisor at Pontiac Motor Division, died yesterday after a brief illness. He was a member of the Loyal Order of Moose.

Surviving are his wife, Dorothy, three sons, William and James Carter and Gary Truh, all of Pontiac, and three daughters, Mrs. Betty Krantz of Pontiac, Mrs. Patsy Harold of Lake Orion and Mrs. Jerry Baunum of Broken Arrow, Okla.

Also surviving are 11 grand children and a brother, William of Pontiac.

JOSEPH H. STADLER

Service for Joseph H. Stadler, 16, of 82 Eastway will be 1:30 p.m. tomorrow in Sparks Griffin Chapel with burial in Perry Mount Park Cemetery.

Joseph drowned early yesterday at a fishing site in Orion Township. He was a student at Eastern Junior High School and a member of Pontiac Boys' Club.

Surviving are his parents, Mr. and Mrs. Frank Stadler, and three sisters, Mrs. James Bates of Pontiac, Mrs. Darlene Gahm of Royal Oak and Elizabeth at home.

Also surviving are three brothers, Robert of Waterford Township and Frank and William, both of Pontiac.

MRS. MARTIN SULLIVAN

Service for Mrs. Martin (Catharine) Sullivan, 66, of 154 Coleman will be 1:30 p.m. tomorrow at the Hurdson Funeral Home with burial in Perry Mount Park Cemetery.

Mrs. Sullivan died yesterday after a three-week illness.

Surviving are a daughter, Mrs. John Wickwire of Elkhart, five grandchildren, two great children, and a sister.

DON L. CZARNECKI

Service for Don L. Czarnicki, 31, of 3812 Chesterfield will be 2 p.m. Saturday at the First Methodist Church in Clarkston. Burial will be in Lakewood Cemetery.

Mr. Czarnicki died yesterday after a long illness. A member of the First Methodist Church, he was employed by Oak Confection Co. of Royal Oak.

Surviving are his wife, Patricia; one son, Andrew, at home; his parents, Mr. and Mrs. Joseph P. Czarnicki of Walled Lake; three brothers, James, Keith and Paul, all of Walled Lake; and five sisters, Sharon, Cheryl, Myra, Bertha and Faith, also of Walled Lake.

BETHANIE ANNE LAPHAM — Graveyard service for Bethanie Anne Lapham, 3-month-old daughter of Mr. and Mrs. David Lapham 1600 Fruit will be 11 a.m. tomorrow at Highland Cemetery. Burial will be by Richardson Bird Funeral Home, Milford.

The baby died suddenly last night.

Surviving besides the parents are three sisters, Wendy, Teri and Bonnie, all at home, and grandparents, Mr. and Mrs. William of Detroit and Mrs. Carl Rebbene of Waterford Town-Jop.

MRS. HOWARD T. WALLACE

Service for Mrs. Howard T. Wallace, 74, of 10000 will be 1 p.m. Saturday at the William R. Pater Funeral Home. Burial will follow in White Chapel Memorial Cemetery, Troy.

Mrs. Wallace died yesterday after a long illness. She was a member of the First Congregational Church of Rochester.

Surviving are two sons, Oliver of Miami, Fla., and Robert of Rochester, and one grandson.

Disoriented Protest Has

Munich Police on Go

MUNICH, Germany (AP) — About 400 demonstrators kept police on the job past midnight Wednesday night with a disoriented protest of U.S. policy in Vietnam.

Police reported today that 19 of the demonstrators were arrested when they refused to end a sit-down protest in front of the Amerika Haus.

W. German-Israeli Ties

Hailed by Goldberg

TEL AVIV, Israel (AP) — Supreme Court Justice Arthur J. Goldberg today welcomed the establishment of West German-Israeli diplomatic relations. He called it an important development proving "the Germany of today" has set its face away from Nazism.

Germany also undertook by its decision to recognize its special responsibility toward the Jewish people, Goldberg said.

Notes on Hollywood Scene

Rock Continues to Shun Bedroom Films

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — Notes and comment on the Hollywood scene.

Rock Hudson continues his escape from the bedroom farces. His next film will be "Seconds," which he describes as "a stress picture. But not the Vincent Price variety, it should be added; this one will stress psychological horror."

It is being directed by John Frankenheimer, the young suspense master who made "The Manchurian Candidate" and "Seven Days in May."

Rock recently made a quick weekend trip to Munich to pick up his sixth Hamlet, symbol of his position as America's most popular male star.

"It's the fourth time I've gone to accept the award, and I tried something new. Making my speech in German," said Rock. "The airline stewardess helped me spell it out phonetically on the way over. I did it in the Bavarian dialect, which seemed to please them. In fact, I never got so many laughs."

Carroll Baker wasn't too exhausted after finishing "Harlow" to toss a wing-ding frantic Thirties party at her house. Between dances she commented that the film was the toughest she has tackled. And not only because of the virus that kept her out of the picture for two weeks.

"It was the first time I have done a picture that I planned to accept the award, and I tried something new. Making my speech in German," she said. "That meant two or three hours of being made up and then going into emotional scenes all day."

Carroll complained about the breakneck speed of the film because of the competition of the other "Harlow." Her comment: "It can't hurt as we would have done better to take our time and come into the theaters next fall." The Joseph E. Levine epic is aimed at nationwide openings next month.

Carroll's reward for her labors: Three months' rest on the Riviera. Harlow never had it so good.

There will be a Fonda reunion on the sands of Malibu this summer. Jane has a house at the beach while she's shooting "The Chase." When papa Henry finishes "Battle of the Bulge" in

Spain, he'll take a house a few doors away that Jane rented for him. He'll bring his 18-year-old daughter, whom Jane hasn't seen in two years. Also, son Peter and his family will be nearby.

After the credits of "The Assassination of J. Edgar Hoover," a cautionary message appears: "Any resemblance between this film and any other film is purely coincidental." It drew a laugh from the preview audience, as did many of the sequences. "Tom Jones" it isn't, but the Kim Novak vehicle has enough droolery to please many fans.

Gene Kelly hopes to direct a

new "Beau Geste" as his next film; he has done spectacular musicals but never a real spectacle. The project is now in the hands of the Universal bigwigs, who are deciding whether to make the \$6 million outlay.

"I want to do it right or not at all," said Gene. "That means shooting it in the Sahara with thousands of Arabs."

Soviet Scientist Dies

MOSCOW (AP) — Yegor Pavlovsky, 81, one of the Soviet Union's leading biologists and a winner of the Lenin Prize, has died in Leningrad, Tass, the Soviet news agency reported today.

NEW MSU BUILDINGS — Michigan State University will dedicate its new \$5.2 million biochemistry building (left) and its \$6.6 million chemistry building June 3-5. MSU officials said the two new buildings contain some of the most complete, most modern facilities available anywhere for teaching and research.

People in the News

By The Associated Press

David Dubinsky, 73, president of the International Ladies Garment Workers Union, AFL-CIO, was honored last night by the American Council for Nationalities Service in New York.

Dubinsky received the organization's "Golden Door" award presented annually to honor Americans of foreign birth who have made distinguished contributions to American life and culture. He was born in Poland on Feb. 22, 1892, and came to the United States in 1911.

To Ask More Help in Dollar Crisis

Secretary of Commerce John T. Connor says he plans to ask an additional 3,000 companies to help curtail the flow of U.S. dollars abroad.

The response from some 500 companies which had been asked to give a balance sheet of their international operations "can only be described as magnificent," Connor said last night.

Connor made the remark before the Harvard Business School Club of New York, which honored him with its annual Statesman Award.

CONNOR

Rose Kennedy Fills In for Her Son

The occasion was the dedication of one of the Kennedy family's charity projects in the Bronx, but the scheduled main speaker, Sen. Robert F. Kennedy, D-N.Y., couldn't make it.

So his mother, Rose Kennedy, read her son's prepared speech for ceremonies yesterday at Lt. Joseph P. Kennedy Jr. Home for Neglected Children. The senator had to rush to Washington to take part in Senate action on the voting rights bill.

'Need Reliable Peace System

NICE, France (AP) — Secretary General U Thant said today the United Nations needs to develop a more permanent and reliable system for maintaining international peace and security — one that "functions steadily in good times as well as bad."

But he cautioned against making any basic changes in the present U.N. charter, which he hailed as "the only reliable road to international peace and security which is at present open to the nations of the world."

In a speech prepared for a conference sponsored by the French Association for the Development of World Law, Thant said he believed it would be better to exercise patience, and redouble efforts to interpret and use the present U.N. charter "in ways which will make it increasingly effective, before deciding radically to change its basic design."

Thant said the U.N.'s capacity to improvise in emergencies cannot have a very serious shortcoming.

While such improvisations have proved effective, they are no substitute for a more permanent and reliable system for maintaining international peace and security, he declared.

MISLEADING

He asserted that it would be misleading to look for the sources of the many shortcomings of the United Nations in its machinery alone.

"There are numerous factors which contribute to these shortcomings," said Thant, "not the least of which is the reluctance of governments to use the available United Nations machinery for the purposes for which it was designed, and to subscribe wholeheartedly, by actions as well as by words, to the general objectives and ideals of the charter."

Goya Portrait Put on Display

Returned After Being Missing Four Years

LONDON (AP) — The celebrated Goya portrait of the Duke of Wellington was back on public show today after nearly four years in the custody of a thief.

The 140,000-pound (\$392,000) canvas went on display behind a plastic shield at London's National Gallery — the place from where it was stolen.

The painting was recovered following an anonymous letter to the tabloid Daily Mirror. The letter directed searchers to a railroad station luggage office in Birmingham. They found the picture there.

Since then, letters from a man who claims to have returned the portrait asserts he was tricked into handing it over.

One letter accused the Mirror of having "pinched it back" with a false promise to put the picture on show for charity.

SOMEWHAT ACIDLY

Somewhat acidly, the Mirror replied today that it had met whatever obligations it had to the anonymous letter writer by asking the National Gallery to agree to the charity exhibition. The gallery refused.

The writer returned to the attack this morning with another letter, couched in the same wobbly prose as its predecessors, complaining: "The Mirror is more intent on our arrest than keeping its word."

The writer also claimed he had not personally taken the picture but had merely safeguarded it for safe future return.

Offer Resolution for Scrutiny of State Lobbyists

LANSING (AP) — Lobbyists and lobbying would come under intensive scrutiny this year, under terms of a resolution reported Wednesday by the Committee on House Policy.

The resolution, sponsored by Rep. Albert Horrihan, D-Flint, chairman of the committee and House speaker pro-tem, is the result of a raft of bills dealing with lobbyists and legislative ethics referred to the committee.

After studying the bills, Horrihan said last month that he would call for a study of lobbyists.

The resolution establishes the policy committee as a special interim committee, charged with making an "adequately comprehensive study, so that authentic advisory material may be prepared for the guidance of the legislature."

The committee would be ordered to make a "full-scale study."

College Chief Sees Hope in Pupil Profests

LOS ANGELES (AP)—Dr. Norman Topping, president of the University of Southern California, sees hope for the future in student protests of the current decade.

He told an audience Wednesday that such students may be "better citizens in the long run" than their goldfish-swallowing, panty-raiding predecessors.

"We all remember the roaring '20s, the hip flask, the raccoon coat and bathtub gin," he said. "Then there were the apathetic '30s, the panty raids and goldfish-swallowing."
"In the '60s the whole atmosphere has been changed by the concern of young people about the society in which they live."

He said this concern includes "the quality of their education, civil rights, political activities. You can never tell," Dr. Topping said. "I believe they will be better citizens in the long run."

Hearing Slated on Cut in Rail Freight Service

LANSING (AP)—An immediate hearing will be held on a complaint of reduction of freight service by the Pennsylvania Railroad Co. from Grand Rapids to Mackinac Island.

The Public Service Commission said it has not yet set the date, but will probe a shipper's complaint that freight service was reduced May 24 from two to three days a week.

The U.S. Treasury Department in 1927 set up a Prohibition Bureau to handle violations of the 18th amendment.

Chase Ended With a Ball

CADILLAC (AP)—Hospitalized Gerald D. Dennis, 25, of Cadillac will face police investigation for alleged breaking and entering when he recovers from injuries suffered in a collision with a five-ton steel ball.

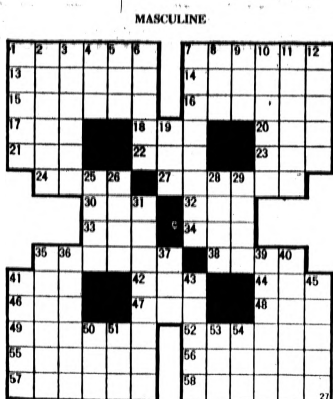

Police said they were chasing Dennis at speeds up to 100 miles an hour Wednesday when his car hit a steel ball at a construction site.

The ball, customarily used in demolition, was knuckled 30 feet, police said Dennis' car was wrecked. Dennis suffered a broken leg and other injuries.

Answer to Previous Puzzle

Film Star Staged Campaign to Win Part in 'Roberts'

By EARL WILSON
NEW YORK — Roger Smith, the young star romantically linked to Ann-Margret, is getting great satisfaction out of his contract to "Mr. Roberts" on TV—because he tried valiantly, and vainly, to get into the movie when it was filmed in Honolulu while he was stationed there in the Navy.

"I was working in a confidential file room out at Barbours Point, about 40 minutes from Waikiki," Smith recalled the other night at Sardi's.

"While not filling confidential stuff, I'd write out comedy material, then get in my car, and into my tattered pants, and race into Waikiki and play my guitar and try to attract attention of the movie stars. That reminds me of a funny story," I'd say.

"The movie stars would throw me a dollar and take off. 'I couldn't even get a job as an extra.' 'But at a party I did meet Jimmy Cagney. He told me 'If you ever get to Hollywood, phone me.' 'So when I got back to Arizona after the Navy, I told my father, 'Jimmy Cagney's waiting for me in Hollywood.' 'I drove like crazy to Hollywood and when I got on the out-skirts, I raced into a phone booth to call Jimmy Cagney.'

"What do you suppose happened? The operator said 'Jimmy Cagney isn't listed.' 'It taught me a lesson. I eventually got to Jimmy Cagney but by that time I'd been in two pictures on my own. And now . . . well . . ."

A reporter trying to ask him the other day about him and Ann-Margret getting married discovered that Roger Smith has an unlisted phone.

THE MIDNIGHT EARL . . .

The Tony Bennetts reconciled, and attended the Gordon MacCrae 24th anniversary party at Jilly's . . . Otto Preminger'll have a show . . . "Zoo" on Broadway next season . . . Is Billy Daniels quitting "Golden Boy"? An aide says Billy "can't afford the show" — salary's too low. Producer Hilly Elkins says: "No comment to anybody's comment."

Sophie Tucker gave Sammy Davis his Troupers award at the crowded Latin 94; entertainers included Steve Lawrence, Buddy Hackett, Alan King, Edie Adams and Pat Henry . . . "Cat Ballou" will turn back its entire production cost in England and France alone . . . Xavier Cugat gave his honey, Charo Baeza, a 200 emerald ring.

TODAY'S BEST LAUGH: Chuck McCann's young nephew explained what a dowry was: "That's what a girl's father gives her boy friend, like Green Stamps."

WISH I'D SAID THAT: Anybody who tells you he enjoys a cold shower every morning will lie about other things, too—Sparta (Misc.) Herald.

REMEMBERED QUOTE: "Two young parents tie up their dogs, and let their 16-year-olds run loose."—Pana (Ill.) News-Palladium.

EARL'S PEARLS: The best thing about today's popular songs is that they don't stay popular long.—Arnold Glasgow.

Do you remember, asks Bob Surlett, when a man could put his son through a year of college for what it now costs to send him to camp? That's earl, brother. (The Hall Syndicate, Inc.)

THE NEW LOOK—Clem, a champion basset hound, gives the eye to a streamlined fire hydrant just installed in Oakland, Calif. Firemen not only agreed the hydrant was better looking but better working. Clem was non-committal.

Connally Against 'Right-to-Work' Ban

WASHINGTON (UPI)—President Johnson's call for repeal of state laws banning the union shop led to a public split today between him and his political protegee, Texas Gov. John Connally.

A statement by Connally opposing repeal of so-called right-to-work laws was sent to the 23-member Texas delegation in the House of Representatives.

Hearings on the measure are now being conducted before a House Labor subcommittee.

Most observers believe that Johnson will need every vote he can get—including those from his home state's delegation—if the bill is to have a chance of passage during this session.

Connally, leader of the conservative wing of the Democratic party in Texas, was Johnson's administrative assistant when the chief executive was a senator from the Lone Star State.

The National Right to Work Committee was quick to exploit Connally's stand in a statement by its executive vice president, Reed Larson.

Larson praised the Texas governor's position as "a courageous stand on principle and a refusal to 'kowtow' before the pressures of the big labor bosses."

The AFL-CIO has placed repeal of the Taft-Hartley Law provision authorizing states to ban union shops at the top of its list of congressional priorities. Under a union shop agreement, a worker must join a union or pay dues as a condition of employment.

In the telegram to the Texas congressmen, as made public by Larson, Connally said that Texas has had a "right-to-work" law for the past 18 years. He added:

"It guarantees and protects the right to join unions as well as the right to refuse to join a union. Unions have expanded

their membership and influence under this law and repeal is not necessary to protect the right of working men to join together in unions for their mutual protection and benefit."

Connally strongly urged the congressmen to vote against the Johnson-backed measure to knock out such laws.

There was no immediate reaction from the White House on Connally's stand.

Rear on Warm Beer

SITTINGBOURNE, England (UPI)—The beer-cooling system at a tavern here has been switched off—while a blackbird rears five chicks in a nest on top of one of the freezer's generating motors.

President Franklin D. Roosevelt first used the word "New Deal" in his speech accepting nomination for the presidency on July 2, 1932, in Chicago.

Dead Viet Chief's Palace Site Now a Training Camp

By HAL BOYLE

KHAM DUC, Viet Nam (AP)—Men in power often like to have a hideaway from the world where, in a proper setting, they can brood on their greatness.

The late President Ngo Dinh Diem of South Viet Nam had plans for a summer palace here 43 miles southwest of DaNang.

A site was cleared atop one of the peaks that tower up to 6,000 feet in wild and lonely green beauty. As there are no good roads, everything had to be flown in.

At a cost of \$4 to \$5 million dollars, an airstrip was built on a 1,600-foot high plateau. Construction was begun on the foundations for the

palace. Then Diem was killed during a political coup, and his unfinished palace hideaway now stands as a mute memorial to his vanished dream.

TRAINING CAMP

On the plateau now is a training camp for civilian irregular defense groups, quasi-soldier volunteers whose job is to protect isolated villages from Viet Cong raids.

Some of the volunteers once fought against the French in these same hills. Most are quite young, some only 16 years old. But after six weeks of training here they are deemed ready to be thrown against the guerrillas.

"We've got a pretty good set up here," said 1st Lt. Niel Davidson, 24, Chicago, member of a small U.S. Army Special Forces team which helps train the Vietnamese and Montan guard tribesmen volunteers.

"It's pretty much like garrison life anywhere except when we go out on operations against the Viet Cong. But I'll say one thing—these are the most miserable mountains and Godawful jungles anyone on a patrol ever saw."

HOMESICKNESS

Davidson could be forgiven a bit of homesickness. He was married only three months ago, and a month later had to leave his bride to come to this isolated outpost in a strange land.

To an outsider these lonely circles of security in a lowly sea seem terribly vulnerable to mass attacks. The airstrikes are their only lifeline to the outside world.

"We could be overrun," acknowledged the unvarnished lieutenant, "but they'd have to spend an awful lot of people to

do it—more people than they can afford.

"We were mortared once, but they quit as soon as we returned their fire."

PRETTY WELL DEFENDED

"After all, this place is pretty well defended with prepared positions, concrete bunkers and miles of barbed wire and mine fields."

Aside from the guerrillas, the mountains and plateaus abound in many forms of wild game, including elephants and tigers. None of the Americans here has had a chance to go hunting for them, however.

"One of our perimeter posts did report a tiger prowling around it one night," said Davidson. But judging from the pawprints the beast left, it was either an ordinary housecat, or

the most shunted tiger in the history of the world.

"In any case, we weren't overwhelmed."

2 Planes Collide; 4 Men Are Killed

GRANITE, Md. (AP)—Four men were killed Wednesday when two single-engine airplanes collided near this community about 10 miles west of Baltimore.

Baltimore county police said the planes, which disintegrated, had taken off shortly before the accident from Rutherford Field, a private airport.

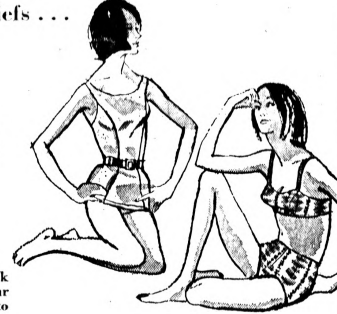

Police said one plane was a Piper Cherokee 140, the other a Piper Cub.

Reactions Are Widespread on Prolonged Youth Theory

NEW YORK (AP)—A variety of reaction ranging from "great," to "contrary to nature," and "highly unlikely" came today from both young and old after a pathologist suggested that science might someday delay the aging process.

Dr. Robert H. Kohn, a pathologist at Western Reserve University in Cleveland, says

"there's no theoretical reason why we should not be able to keep people as they are at age 20 to 30 for another 40 years."

"Assuming society would want it," added Kohn. He offered the theory that aging is a normal disease and conceivably susceptible to being inhibited by chemical or other means.

Some indicated they would want it, such as baseball catcher Joe Torre, 24, of the Milwaukee Braves, who said, "It would be great," and Harold Lloyd, a comedian who starred in the silent picture era, who remarked, "I'm all for it."

Others indicated they would prefer to let nature take its own course.

Marilyn Wahl, 21, a Los Angeles airline stewardess, said: "I don't think I'd like it. There are rewards in growing older and maturing. There's pros and cons — growing old with your children and enjoying some of the things they do. But there's something wonderful about maturing. Being twice as long,

the 20 to 30 age bracket wouldn't be quite as enjoyable."

A Dallas lawyer who is approaching 80 said, "There is no need to speculate about remaining 20 to 30. That is contrary to nature, the Bible and the Lord's decree."

Ann Bittner, 47, a Chicago television assembly line supervisor, and Dr. Bonnie Strickland, 26, dean of women at Emory University, reacted differently.

"I think people from 20 to 30 are dying faster than older folks or they soon will be," said Mrs. Bittner.

LIVE TOO FAST

"The reason is they live too

fast. Bad diets and carelessness with their health in general puts them in bad shape. Why make more people get into bad shape by keeping them at a careless age?"

Dr. Strickland, one of the youngest women deans in the country, said prolonging life between the ages of 20 and 30 (Continued on Page 2, Col. 1)

MIRRORED HONOR — Oakland County Treasurer Charles A. Sparks (left) in an emergency could use the highly polished plaque he received yesterday as a shaving mirror. Ronald Voorhes, president of Oak-

land County Association of Township, City and Village Treasurers, presented the plaque at a noon luncheon in recognition of Sparks' many years of service to the association.

OU Receives Kellogg Grant

\$150,000 to Be Used for Counseling Center

Oakland University has received a \$150,000 grant from the Kellogg Foundation to establish a counseling center for mature women under its Division of Continuing Education.

The announcement was made today by Chancellor D. B. Varner at the last in a current series of Conferences on alternatives for women.

The Continuum Center for Women, made possible by the grant, will be located on the OU campus and will offer a four-part counseling service to women of southeastern Michigan.

Part one of this counseling service will be a psychological testing and counseling course required of all registrants at the Continuum Center.

Eighty-two women have already completed such a course under a pilot program conducted this year; the course was designed by OU's psychological services.

City Teachers to Get Sizable Pay Raise

Pontiac teachers will receive pay raises next year of from \$400 to nearly \$1,000 as a result of a 1965-66 salary schedule adopted last night by the Board of Education.

In addition, the board adopted a five-year plan which has as its main goals making Pontiac teacher salaries comparable to those of the highest paying school districts in the Detroit metropolitan area.

The salary increases will cost the school district \$808,854 more than the amount paid instructional personnel this year.

The salary schedule, which was recommended to the board by the Sup't. of Schools Dr. Donna P. Whitmer and the administration, met the demands of the Pontiac Educational Association (PEA).

The schedule calls for a beginning salary of \$5,500 for a teacher with a college degree and no experience, an increase of \$400 over this year's schedule.

The teacher with 10 year's experience and a bachelor's degree will receive \$9,800, a raise of \$742.

MASTER'S DEGREE

Salary increases for teachers with a master's degree and no experience will amount to \$426, and \$837 for the teacher with a master's degree and 10 years experience.

Teachers at the top end of the salary schedule, a doctor's degree and 10 years experience, will receive a \$956 raise to \$10,240.

The average raise a teacher will receive will amount to about \$600.

In addition, most teachers will receive fringe benefits — hospital and health insurance with a monetary value of \$100.

IST IN MICHIGAN

School officials and PEA representatives believe the five-year plan is the first of its kind in Michigan.

The plan lists several goals to be reached in the five-year period.

Foremost is that Pontiac teacher salaries and salary schedules should compare with those in school districts which rank in the top-10 per cent in pay in the Detroit area.

Other goals include consideration of extending teacher contracts beyond the normal 40 weeks to up to 48 weeks, a longevity increment in the salary.

Dies in State House

Fiscal Reform Killed

No Stir on Loss of Home Rule

Would Have Aided Only Slightly—Hamlin

Defeat of a county home rule bill early today in the State Senate generated only a mild reaction from Oakland County officials.

The bill, which calls for reorganization of county governments, stumbled over amendments tacked on during nearly five hours of debate and fell two votes short of passage.

Delos Hamlin, chairman of the Oakland County Board of Supervisors, said that the bill as proposed would not have helped the county much.

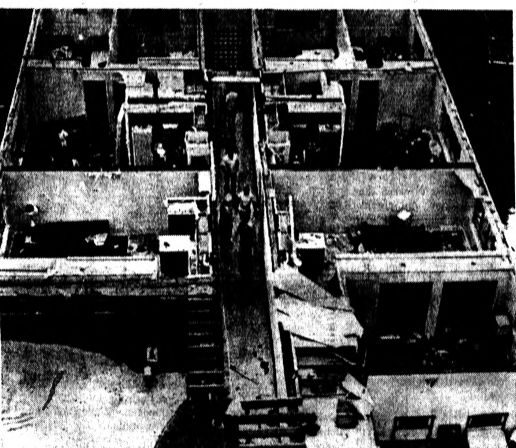

He cited the bill's restrictive measures that would not permit enough change in flexibility to make it worthwhile.

Specifically, Hamlin was critical of the bill's provision for election of county officials rather than permitting appointive posts.

DRAIN OFFICE

"The drain office, for example, ideally should be an appointive post, and this function should be combined with the County Department of Public Works, Hamlin said.

The bill's provision for an elected partisan administrative head of the county also was undesirable, according to Hamlin. Presently, the chairman of the board of auditors in effect is the administrative head of the county and serves on a non-partisan basis.

OPEN-AIR APARTMENT — This three-story Chicago apartment looks like a doll-house after a tornado removed the roof of the building yesterday. The twister was one of five which hit the Chicago area.

1 Tornado Hits Near Lansing

By The Associated Press

Southern Lower Michigan escaped a potential tornado onslaught yesterday. But a twist-er touched down two miles west of Mason, near Lansing, uprooting trees and knocking down power lines.

The midday threat, coming from more than a score of fun-

Add Extra Men Police Gird for Holiday

While most county residents are making plans for the upcoming holiday weekend, area police agencies are girding for the first mass traffic onslaught of the summer.

Both the State Police and Oakland County Sheriff's Department have scheduled extra men to work during the 78-hour holiday.

National Guardsmen will assist State Police at the Pontiac Post and posse members will join sheriff's deputies in road patrol.

Law enforcement officials estimate that the most dangerous periods during the weekend will be the Friday 3 to 8 p.m. exodus out of cities and the return home Monday 3 to 10 p.m.

Motorists are encouraged to revise travel plans to avoid driving during these hours.

EXTRA HOURS

While the police are putting in extra hours, most residents will enjoy a day off from work.

Although Memorial Day

Japanese Protest Visit

SASEBO, Japan (AP) — About 4,300 demonstrators, mostly Socialists, Communists and unionists, held a rally and a street march today protesting the visit to Sasebo of the U.S. nuclear-powered submarine Snook.

Board Takes Action

Legislators at the Capitol ducked for cover. Approximately 20 members of the House, warned by State Police, went to the Capitol's basement. Visiting children and adults joined them.

A midafternoon cloudburst fell on the Detroit area. Expressways were flooded.

Before the threat ended, tornado warnings had been issued for Allegan, Berrien, Cass and Van Buren counties in addition to Kent.

High winds tipped over the Clinton County trailer home of Ray Goff.

This year, a taxpayer in Pontiac will pay \$25.32 for

Move to Bring Bills to Floor Loses, 59-41

Dems Back Levy on Real Estate Dealings; Plan Hit by GOP

LANSING (AP) — The House staged "the funeral of fiscal reform for this year and possibly next year" yesterday as 55 Democrats opposed a move to remove from the table a package of fiscal reform bills.

The motion was defeated 59-41.

The Democrats took what they called a step toward fiscal reform but which Republicans called a "regressive nuisance tax" by considering a so-called "stamp act."

The new tax bill, delayed until today because of technical difficulties, would levy a tax of \$1.10 per \$1,000 in real estate transfers, raising an estimated \$2 million for the county in which the transfer papers were drawn up, and \$2 million for the state.

Rep. Roy Spencer, R-Albion, made the move to revive the reform bills, backed by Rep. Joseph Conrad, D-Jackson.

NOT PLEASANT

"This is not a pleasant subject," Spencer said. "Taxes are not pleasant, neither is the reform of anything. But it is our responsibility and obligation. We must pay for our programs."

Rep. George Montgomery, D-Detroit, said he and others have "been taking the pulse of the House all winter and spring, and it is our opinion fiscal reform is not particularly gaining ground in finding members with the courage to stand up and solve our fiscal problems this year."

A vote was delayed on the stamp act when technical difficulties were pointed out toward the end of an 8½-hour day.

In other action, the House dealt heavy blows yesterday to statewide motor vehicle inspection and toll reduction at the Mackinac Bridge.

The House defeated, 70-30, a bill to establish state police-operated vehicle inspection stations and require annual inspections.

CNB Gives \$50,000 to St. Joseph Fund

A \$50,000 gift by Community National Bank of Pontiac to the St. Joseph Mercy Hospital Building Fund was announced today by R. M. Critchfield, chairman of the fund drive's corporations committee.

A. C. Girard, president and chairman of the bank said the bank's contribution would build and equip

a major portion of the administration department in the new construction.

Girard stated that members of the bank's board of directors had long been aware of the serious situation existing at St. Joseph with regard to overcrowding and advancing obsolescence.

"For this reason, we were prepared beforehand to make a major contribution. Modern health facilities are among the most important assets a community must have; and we all have an obligation to St. Joseph, which has served our area so well," he said.

E. M. Estes, general campaign chairman, was "very pleased" and said, "It is our hope that other firms in the area served by St. Joseph will respond accordingly."

School Taxes May Be Boosted in City

Pontiac residents may be paying an additional \$1.10 in school taxes this year on each \$1,000 of assessed valuation.

This was revealed last night when the Pontiac Board of Education authorized the school administration to certify the school tax rate for 1963-64.

This year, a taxpayer in Pontiac will pay \$24.22 for each \$1,000 of assessed valuation. Last year the figure was \$23.12.

The increase was caused by a .07 hike in millage allocated by the county, an increase in the millage which will be levied for debt retirement, and a rise in the state equalization factor.

The debt retirement hike was caused by a March bond sale to finance the construction of two school additions, the purchase of three school sites and other improvements in the school district.

The equalization factor which is established by the state to correct valuation imbalances to assessed valuation was raised.

A \$50,000 gift by Community National Bank of Pontiac to the St. Joseph Mercy Hospital Building Fund was announced today by R. M. Critchfield, chairman of the fund drive's corporations committee.

A. C. Girard, president and chairman of the bank, said the bank's contribution would build and equip a major portion of the administration department in the new construction.

Girard stated that members of the bank's board of directors had long been aware of the serious situation existing at St. Joseph with regard to overcrowding and advancing obsolescence.

"For this reason, we were prepared beforehand to make a major contribution. Modern health facilities are among the most important assets a community must have; and we all have an obligation to St. Joseph, which has served our area so well," he said.

E. M. Estes, general campaign chairman, was "very pleased" and said, "It is our hope that other firms in the area served by St. Joseph will respond accordingly."

Says Disfigured S. Viets Desperately Need Plastic Surgeons

WASHINGTON (AP) — Thousands of South Vietnamese are so badly disfigured by gunshot and burn wounds they'll never be able to lead useful lives, says an American plastic surgeon who recently returned from the stricken land.

Only four Vietnamese plastic surgeons are available in that country of 14 million people, a severe shortage that represents a national tragedy, said Dr. Richard B. Stark, chief of plastic surgery at St. Luke's Hospital, New York.

Stark returned recently from Saigon after spending a month training and assisting the four Vietnamese plastic surgeons who face, he said, a staggering task of treating casualty cases that includes civilians and soldiers. Stark was an emissary of MEDICO (a nongovernmental medical group that provides aid in underprivileged areas of the world).

"Many of them (the victims) need 40 to 50 operations in order to be salvaged," said the doctor in a report to MEDICO. The report was made available to a reporter by CARE Inc., which is holding a world conference here. MEDICO is a service of CARE.

TAKE 15 YEARS

"Based on U.S. experiences in World War II and the Korean War," the report said, "it would take 15 years to perform the amount of reconstructive surgery needed to restore these people."

"MEDICO has made an important first step in tackling the problem," he said, adding that he and seven other American plastic surgeons lectured and operated under a program "calculated to upgrade the Vietnamese surgeons."

But plastic surgery is not the only medical deficiency in the area, he said.

"South Viet Nam," Stark said, "is a medical jungle. Statistics tell just part of the story."

700 PHYSICIANS

"There are only 700 physicians in the entire country. However, 400 of these are serving up to 10 years in the armed forces. That leaves 300 physicians who must care for the civilian population of 14 million."

"The casualties pouring into Saigon's crowded hospitals today from the country's battlefields are double what they

were on my first visit in February 1964. More than 400 weekly are sped by helicopter, to the Cong Hoa and Cho Ray hospitals. These casualties include civilians as well as military. I did some 38 operations (in February) as my Vietnamese colleagues looked on."

The doctor said a new phase of the plastic surgery and other surgery training program is under way with the cooperation of St. Luke's Hospital.

"It is designed," he said, "to pave the way for Vietnamese surgeons to train in U.S. hospitals under approved internship and residency programs."

"Inadequate training in Saigon's medical school has kept its graduates from passing U.S. examinations for foreign internships. To qualify them for the house staffs of American hospitals, St. Luke's has inaugurated a unique education effort."

The program, he related, involves preparation of tape-recorded lectures at St. Luke's, covering material in all of the major surgical services. The recordings are then played for the young Vietnamese doctors at the Saigon medical facility.

Legislators Are Nearly 'Outfoxed'

LANSING (AP) — A pair of foxey Upper Peninsula legislators almost sent bounty repealer bills back to committee Wednesday before the rest of the House of Representatives saw the trap.

Rep. Einar Erlandsen, D-Escanaba, casually moved that "Items No. 57 and 58 on our calendar be returned to the committee from which they came." The first repeals the bounty on coyotes and wolves; the second repeals bounties on red foxes and bobcats.

Rep. Dominic Jacobetti, D-Negaunee, associate speaker pro-tem, then said, "all those in favor of sending these two items back to committee say 'aye.'"

The House had cast a half-hearted affirmative vote before Rep. Joseph Snyder, D-St. Clair Shores, chairman of the conservation committee, jumped to his feet and began to fight the move.

The fox bill has amendments pending, and could not be referred to committee without first taking action on the recommended amendments.

The House voted again on the coyotes and wolves bill and the move was defeated 18-77.

French Draft Rules Eased on Assembly

PARIS (AP) — The French National Assembly passed a bill Wednesday night reducing military service from 18 to 16 months and providing for more liberal exemptions.

The bill now goes to the Senate. Final passage is expected quickly.

The first credit card issued in this country was put out by an oil company in 1924.

U.S. Accident Death Toll Up

CHICAGO (AP) — The nation's death toll from accidents in the first three months this year was 24,700 persons, an increase of 300 or 1 per cent over the same period last year, the National Safety Council reported today.

However, because of a population increase, the council said, the death rate from accidents actually dropped from

56.4 to 54.7 per 100,000 persons, a 3 per cent decrease.

Accidental deaths in the home during the period rose from 8,100 to 8,300. Deaths in public places numbered 3,700, compared to 3,600 a year ago. On-the-job deaths were unchanged at 3,400 while motor vehicle accidents, which took 9,900 lives, caused slightly fewer fatalities than the 10,000 reported the first three months last year.

SPRITED DESSERTS — Jewel-toned jell, in a rainbow of festive liqueur colors and flavors, make a delightful dessert for a bridal shower. The rainbow-striped Pousse Cafe

Spirited Desserts Are Real Gourmet Ones

It's good luck to see a rainbow, and you can bring one to your favorite bride-to-be when you brighten her shower with a rainbow of spirited desserts.

These jewel-toned desserts are marvelously brilliant in flavor and in color, spectacular to eat.

Liqueurs are the secret — the same bright-hued, intensely fragrant liqueurs that have inspired the magnificent dessert specialties of the world's greatest chefs.

The Pousse Cafe Jell is a spoonable version of a famous layered drink. To make a liquid Pousse Cafe you pour liqueurs of different densities into a slender liqueur glass so carefully that each layer floats on the heavier liqueur beneath it.

The Pousse Cafe dessert is made in much the same way, with layers of jell that you allow to set, but not to stiffen completely, before adding another.

The Irish Coffee Jell is a con-

version piece, a dessert you'll enjoy serving to true sophisticates! Fill brandy snifters with the frothy Strawberry Liqueur Mousse for dramatic serving.

You'll want to use your best crystal, matched or in different shapes and sizes, to present all these liqueur jells in suitably high-spirited style.

Pousse Cafe Jell

- 1 package (3 oz.) cherry gelatin dessert
 - 1 package (3 oz.) lime gelatin dessert
 - 1 package (3 oz.) orange gelatin dessert
 - 1 package (3 oz.) lemon gelatin dessert
 - 4 cups boiling water
 - 3 cups cold water
 - 1/2 cup cherry liqueur
 - 1/2 cup creme de menthe
 - 1/4 cup triple sec
 - 1/4 cup brandy
- Empty each package of gelatin into a separate small bowl. Dissolve each in 1 cup boiling water. Add 1/4 cup cold water to each bowl and stir.

Add cherry liqueur to cherry gelatin; creme de menthe to lime; triple sec to orange; brandy to lemon.

Cool and chill each jell separately until it is syrupy. Divide the lime gelatin into ten parfait glasses, chill in refrigerator until set.

Fill with successive layers of the remaining gelatin mixtures, allowing each to set before adding another. Chill well.

Top with whipped cream, if desired. Makes 10 servings.

Variations for Striped Topsy Parfait: Fill glasses as above and chill a layer at a time but tip the glasses on a 45 degree angle in the refrigerator, by catching stem in space between rack bars and leaning against wall. When final layer is added, chill upright.

Irish Coffee Jell

- 1 envelope unflavored gelatin
- 1/2 cup cold strong coffee
- 1/2 cup sugar
- 1/2 teaspoon salt

1-3 cup-coffee liqueur
1/2 cup heavy cream, whipped
Sprinkle gelatin on cold coffee to soften, add sugar and salt, and stir over moderate heat until gelatin dissolves. Remove from heat and add liqueur. Cool mixture and chill until syrupy.

Reserve 1/4 cup of the jell mixture and divide the rest into 4 glasses. Chill until set. Add the reserved syrupy coffee jell to the whipped cream and use as topping.

Chill well before serving. Makes 4 servings.

Strawberry Liqueur Mousse

- 1 package (3 oz.) strawberry gelatin dessert
- 1 cup boiling water
- 1/2 cup cold water
- 1/2 cup strawberry brandy or liqueur
- 2 egg whites

Dissolve gelatin in boiling water, add cold water and brandy, cool, and chill until the jell mixture is syrupy. Add egg whites and beat with a rotary beater

until mixture is light and fluffy and holds its shape.
Spoon mixture into 4 brandy snifters and chill until firm. Garnish with fresh berries. Makes 6 servings.

Fill Pincushion With Dry Coffee

MIAMI, Fla. — Talk about all-purpose coffee! The Hints from Heloise syndicated column offered a use for coffee that has nothing to do with coffee cups. Seems coffee, especially percolator grind, is fine for pin cushions, holding the pins in place handily, with just enough to keep the pins lubricated and free from rust. A closely woven wool or felt, preferably in black or navy blue, is the recommended fabric.

Ground coffee pin cushions have one other distinct advantage that has nothing to do with holding pins. While the seamstress sews, she is never without the encouraging aroma of coffee.

NOTICE OF SPECIAL ELECTION Township of Bloomfield, Oakland County, Michigan JUNE 7, 1965 (PROPERTY OWNERS ONLY)

TO THE QUALIFIED ELECTORS OF THE TOWNSHIP OF BLOOMFIELD, OAKLAND COUNTY, MICHIGAN:

Notice is hereby given that a special Election will be held in the Township of Bloomfield, Oakland County, Michigan, on Monday, the 7th day of June, 1965, from 7:00 o'clock a.m. to 8:00 o'clock p.m., Eastern Standard Time, to vote upon the following proposition:

TOWNSHIP TAX LIMITATION

Shall the limitation on the total amount of taxes which may be assessed each year against property in the Township of Bloomfield, Oakland County, Michigan, as provided in Section 6 of Article IX of the Constitution of the State of Michigan, be increased by 1 1/2 mills (\$1.50 for each \$1,000) of the assessed valuation, as equalized, of all property within the Township, for the years 1965 and 1966, and by 3 mills (\$3.00 per \$1,000) of the assessed valuation, as equalized, of all property within the Township, for a period of 10 years, the years 1967 through 1976, both inclusive, for the purpose of continued fire, police and other public safety protection and highway maintenance and improvement?

Notice is further given that the polling places for said election will be as follows:

- Precinct 1: Bloomfield Township Hall, 4200 Telegraph Rd.
- Precinct 2: Bloomfield Village School, on Lahser, N. of Maple Rd.
- Precinct 3: Wing Lake School, NW cor. of Wing Lake and Maple Rds.
- Precinct 4: Hickory Grove School on Lahser Rd., between Square Lake and Hickory Grove Rds.
- Precinct 5: Bloomfield Hills High School, 4200 Andover Rd.
- Precinct 6: Bloomfield Township Fire Station No. 2 on Westview Rd. between Adams and Squirrel Rds.
- Precinct 7: Marian High School, 7225 Lahser Rd., between Lincoln and 14 Mile Rds.
- Precinct 8: Bloomfield Village Fire Hall, on Broadway Blvd. E. of Lahser and N. of Maple Rds.
- Precinct 9: Westchester Elementary School, 3003 W. Maple between Westbourne and Cranbrook Cross Rd.
- Precinct 10: Bloomfield Township Fire Station No. 3, on W. Maple Rd. cor. of Woodbank.
- Precinct 11: Bloomfield Hills Junior High School on Quarton Rd. between Telegraph and Wing Lake Rds.
- Precinct 12: Washington Irving School, 1830 Square Lake Rd. W. of Telegraph Rd., 1 1/2 miles.
- Precinct 13: Harlan School on Adams Rd., between Wattles and Big Beaver Rds.
- Precinct 14: Eastover School, 1101 Westview Rd., between Adams and Squirrel Rds.
- Precinct 15: Conant School, 4100 Quarton Rds., just W. of Telegraph Rd.
- Precinct 16: Meadowlake Elementary School, 7100 Lindenmere, between Wye Oak and Beacon Hill Dr.
- Precinct 17: Bloomfield Township Fire Station No. 4, 2398 Franklin Rd. N. of Square Lake Rd.
- Precinct 18: East Hills Junior High School, 2800 Kensington Rd. at Opdyke Rd.

Notice is further given that the following statement has been received from the County Treasurer as to previously voted increases in the tax rate limitation affecting taxable property in the Township, to-wit:

COUNTY TREASURER'S STATEMENT

I, Charles A. Sparks, County Treasurer of the County of Oakland, State of Michigan, do hereby certify that according to the records in my office, as of April 16, 1965, the total of all voted increases in the tax rate limitation above the 15 mill established by Section 6 of Article IX of the Michigan Constitution of 1963, affecting taxable property in the Township of Bloomfield in said county is as follows:

Local Unit	Yoted Millage Increase	Years Effective
Township of Bloomfield	1.00	1956 to 1965 incl.
	1.00	1963 to 1972 incl.
County School District of Oakland County	.50	1954 to 1969 incl.
School District No. 10 Frc. of the Townships of Avon, Troy, Pontiac and Bloomfield	3.50	1961 to 1965 incl.
	3.00	1965 to 1966 incl.
School District of the City of Birmingham	6.00	1964 to 1969 incl.
	4.50	1953 to 1972 incl.
	4.00	1954 to 1973 incl.
	11.00	1962 to 1966 incl.
	7.50	1965 to 1968 incl.
	10.00	1959 to 1973 incl.
	7.50	1962 to 1976 incl.
	3.00	1962 to 1976 incl.
	3.30	1965 to 1979 incl.
Former School District No. 3 Frc. Bloomfield Hills now annexed to Bloomfield Hills		
School District No. 2 Frc.	10.00	1964 to 1973 incl.
School District of the City of Pontiac located in Cities of Pontiac and Sylvan Lake, the Townships of Avon, Bloomfield, Orion, Pontiac, Waterford and West Bloomfield	8.75	1965 to 1974 incl.

Sophomore Publication

'Yale Course Critique' Rates Professors

NEW HAVEN, Conn. (AP) — If a Yale professor wants to know what his students really think of him as a teacher he can find out by buying a student publication called the "Yale Course Critique."

This 20-page volume is an inside-dope report from this year's sophomores to next

entirely a student operation, it has an unofficial "adviser," Andrew Paterson Jr., associate professor of chemistry.

Patterson has been critical, but not hostile. He has charged that previous critiques have perhaps had plenty of "sharp and incisive writing," but were often ill-informed and one-sided. This year the student editors adopted some of his suggestions and circulated detailed questionnaires among students in each class so that a consensus, rather than one person's opinion, could be obtained.

SPECIAL REPORT

year's freshmen and sophomores. But it also is read by faculty members.

A senior professor with a wide reputation as a scholar might find out from the critique that his undergraduate students think he is "stale."

A young woman instructor might discover that her all-male classes think she's "unbelievably sweet."

ONE EXAMPLE

One example from the 1965 edition says a course "is invariably described as dull — 'boring with a capital B'; as one student put it, homework counts little, is graded liberally."

Occasionally the editors are more critical of students than faculty.

For instance:

"Mr. Cook — Asst. Prof. Robert M. Cook — attempts through his Sociology 20 course to fight the obsessive, grade-grubbing, antieducational mentality of many Yale students. Unfortunately, many enrollees do no more than a fraction of the reading."

The ability to make a course interesting and challenging, a personal interest in students, and a sense of humor seem to be the most appreciated qualities in Yale teachers.

DRAWN COMMENT

Humor, or the lack of it, almost invariably draws com-

ment. But a professor who gets carried away by his own anecdotes is likely to have his lectures called "irrelevant" or even "meaningless."

The student editors don't hesitate to turn up their noses at teachers who they think talk down to them, can be drawn off

the subject, or are fooled by the parroting of pet phrases.

Yale's course critique is a money-making project of the Yale Daily News, the student newspaper. The 1965 edition, the most ambitious yet, sells for \$1.95 a copy.

According to a Daily News editor, the critique has always been "pretty much a sophomore project" primarily designed to inform students who are new on campus.

HARVARD CRIMSON

A similar publication, "Confidential Guide to Courses," is published by the Harvard Crimson.

Reactions to these publications seem to fall into two categories.

STUDENT OPERATION

Although the Yale critique is

NO HELP WANTED — Chicago Cubs catcher Vic Roznovsky and third baseman Ron Santo camp under a high pop in front of the plate which Roznovsky managed to hang onto despite colliding with Santo. New York Mets' pinch-hitter Danny Napoleon hit the pop in fourth inning of last night's game in New York. Cubs won, 8-6, in 10 innings.

Cardinal Outflies Dodger Speedster

By The Associated Press

Lou Brock won the battle, but Maury Wills still is winning the war.

Brock, who has turned into Wills' shadow in a possible record-making race for the National League's stolen base championship, came out on top in their first direct confrontation Wednesday night while the St. Louis Cardinals edged the Los Angeles Dodgers 2-1.

Brock, the Cardinals' swift left fielder, stole three bases for a season total of 21 in 39 games. Wills, the Dodgers record-holder and five-time champion, settled for one steal and a total of 25 in 40 games.

Wills, who stole 53 bases last year, predicted before the season started that someone would eventually break the record of 104 he set in 1962. And he hinted that it just might be the guy who played shortstop for the Dodgers.

"I think it's possible to break

the record," Wills said. "And the way I feel I think I can go at top speed all the way. I feel better than when I was 18. Maybe I'm getting my second wind."

The Cardinals' victory pulled the defending world champions to within 1½ games of the first-place Dodgers, who stayed one game ahead of Cincinnati in the tightening NL struggle as the Reds bowed to Houston 8-3.

Elsewhere, Milwaukee belted San Francisco 10-4, Pittsburgh upended Philadelphia 5-3 and the Chicago Cubs edged the New York Mets 8-6 in 10 innings.

Curt Simmons got the victory with a five-hitter for a 3-5 record, outdueling Sandy Koufax, now 6-3.

Jim Wynn was the big gun for the Astros against the Reds, driving in four runs in support of Bob Bruce's five-hit, 13-strikeout pitching.

Wynn singled home a run in

the first, broke a 2-2 tie with a two-run triple in the third and hit his seventh homer in the fifth inning as Bill McCool was tagged with the loss in his first start.

BOMB GIANT

The Braves bombed Giant ace Juan Marichal for 11 hits and nine runs in 3½ innings, with Joe Torre and Felipe Alou each hitting a pair of homers. Torre drove in five runs and Alou three with the shots that sent Marichal down to his fourth loss against seven victories.

The Pirates snapped a 3-3 tie in the seventh inning when Andre Rodgers doubled, moved to third on a long fly and sped home on a two-out hunt by Manny Mota. Willie Stargell padded the margin with his eighth homer.

The victory extended Pittsburgh's winning streak to six games and moved the Pirates out of the NL cellar.

The Mets replaced the Pirates in 10th place when former teammate George Altman hit a two-run homer for the Cubs' victory in the 10th inning.

Cranbrook Set for Loop Meet

Interstate Trackmen to Compete in Ohio

The Cranbrook track team will journey this weekend to Shaker Heights, Ohio, for the 35th annual Interstate Prep League Track Meet at the University School facilities.

Cleveland's Western Reserve School rules as the meet favorite; and Cranbrook and Pittsburgh's Shady Side Academy are expected to have some fine individual accomplishments.

Western Reserve's track squad boasts Eric Esterhazy who has the best discus toss in Ohio this spring (170-6½ feet). He also has high jumped 6-3 and put the shot 36-10.

The top Cranes include Tom Van Horn, who has done well in the field events, and middle distance runners Gary Dearth and Craig Church. The Cranbrook relay teams also have posted good times.

The Bloomfield Hills school currently is tied for third place in the all-around sports championship point battle.
