

Smog Killed Over 100 by Mr. Smoke

Engineer Has Waged 13-Year Campaign in Salt Lake City

SALT LAKE CITY (UP) — An intensive, 13-year campaign of mechanization, education and cooperation has reduced the dirty, dangerous smog over Salt Lake City by 80 per cent, but the leader of the fight says his hardest work "lies ahead."

"We've taken care of the 'cream' of the smoke producers," explained William L. Butler, energetic director of the campaign against pollution of air over the intermountain area's largest city. "From now on, every gain will be small."

Butler is called "Mr. Smoke" by most of the nearly 300,000 residents of the region. Officially he is chief engineer of the power and heating division of the city.

On the job 16 to 18 hours a day — and more when a temperature "inversion" condition keeps air in the bathtub-like valley from moving — Butler is a dedicated man.

"This has been a challenge to me since I first began what was supposed to be a brief study of the problem back in 1938," he said. "I've lived with it since, virtually forsaking all friends, family and social life. And it's still a challenge."

Butler's fight — against tough opposition, particularly in the early stages — has reduced the average density of smog during the September-to-April heating season to a level only 17.2 per cent of its pre-campaign density.

"Fall," the amount of foreign particles dropping out of the air, has been cut to 18.9 per cent of measurements during the winter of 1940-41.

The amount of suspended dust particles in the air is only 19.9 per cent of what it was 13 years ago. Suspended particles can be measured by Butler's intricate apparatus down to one-half of a micron, and he said that "few people with their naked eye can even see a particle that's 10 microns in size."

Butler declines to say how much the program has been worth because of the drastic improvement in the cleanliness of Salt Lake City's winter-time atmosphere.

"One large apartment house, though, reports it has cut cleaning costs by 90 per cent," he said.

A big test of the program came last January when an "inversion layer" — an atmospheric condition in which the upper air is warmer than the lower air — settled over Salt Lake Valley for 14 windless days. It was a similar condition that caused an estimated 4,000 deaths in London in December, 1952, and was responsible for the 1948 disaster at Donora, Penn.

Butler slept little during those two weeks. With his 10 engineers, he remained by his division's permanent and mobile instrument installations. They are so sensitive that an emission of dangerous substances can be detected within 10 minutes.

One mechanical stoker malfunctioned during the danger period — and it was turned off nine minutes after it began acting up. Otherwise, the anti-pollution program kept the atmosphere in a non-hazardous condition.

Senators' Lunch Is Dinner

WASHINGTON (UP) — Senators, saddled with night sessions in the hope of early adjournment, are unhappy about the evening menu in the Senate restaurant. The kitchen is not fixed for dinner service. As one senator put it, "we buy hash for lunch, and get it warmed over for dinner."

Contract Awarded Firm

DETROIT (UP) — A \$1,567,800 contract for a machinery storage warehouse at Grand Blanc was announced yesterday by the army. H. F. Campbell Construction Co. of Detroit, got it.

No Overtime for Help

WASHINGTON (UP) — Folks who work for the senators get no overtime pay. So to prevent grouching from the help, a lot of senators have half their folks working days and the other half nights.

Motorist Killed by Driver Unaware

BLOOMFIELD HILLS — A motorist whose car plowed into the rear of a large truck hauling an Army tank early today — without the truck driver even aware of the collision — was treated for head and abdominal injuries at St. Joseph Mercy Hospital and released.

Police said the driver, Clarence Sherer, 48, of 4096 Perry St. in Berkeley, told them at the hospital he fell asleep at the wheel and crashed into the truck's trailer.

A passing motorist took him to the hospital. Hospital authorities notified the police.

Soviets Execute Beria Assistant

Ryumin Was Blamed for 'Doctors' Plot' on Lives of Officials

MOSCOW (UP) — M. D. Ryumin, henchman of executed Soviet police boss L. P. Beria, has himself met death before a firing squad nearly 15 months after he was tagged with the blame for the "doctors' plot."

His execution was announced today by Pravda, the Soviet Communist party newspaper. Pravda said the Military Collegium of the Soviet Supreme Court tried Ryumin in July 2-7 and ordered him shot on charges of forcing the doctors to "slander themselves and other people." It also accused him of treason.

There was no explanation why the courts took so long to deal with Ryumin, who was arrested in April, 1953, as the scapegoat in the bizarre case.

The Internal Security Ministry first announced details of the doctor's plot in January 1953. It accused nine physicians, several of them Jews, of plotting to kill Soviet leaders and charged they already had done away with Politburo member Andrei Zhdanov with reverse therapy.

Three months later the ministry, which had since been taken over by Beria, announced that the nine doctors and six others had been freed and that Ryumin had been arrested. Beria was jailed himself in June 1953, on treason charges and his execution was announced last December.

Pravda said the death sentence was imposed on Ryumin because the court "took into consideration the special dangers of criminal activity . . . and the heaviness of the consequences of the crime perpetrated by him."

Uncover Relics of Tribe of Lost California Indians

REDBANK, Calif. (UP) — Archaeologists from the University of California recently uncovered the relics of a "lost tribe" of Indians who lived along the upper Sacramento River for two centuries and then vanished without a clue.

From bones, tools and jewelry found in 80 graves which were excavated, the California scientists established that the Indians belonged to the Wintu tribe. They lived in the area from around the end of the 16th century until about 1835. Why they left then, no one that only a few members of the old really knows. The scientists said the tribe are alive today.

GM Fires Red Suspect

FLINT (UP) — Chevrolet has fired another worker named as a Communist at recent House Un-American Activities hearings here. James Zarichnev, 27, was fired for unexcused absences. He was the seventh GM worker to be discharged since the hearings.

DI'S DRESS — Dress Designer Gene Drivas takes a dip near Rainbow Springs, Fla., to show there's no need to change clothes if someone wants to go swimming. Her decollete gown of nylon and silk screen dries out in a wink.

HOPE FOR CHAMPIONSHIP — Led by quarterback Bobby Layne (22), the Detroit Lions trot to practice field at Ypsilanti Thursday to begin training for the 1954 season. The team is scheduled to play in the All-Star game at Chicago next month.

Alfred R. Smith, 72, Dies in Birmingham

BIRMINGHAM — Service for Alfred Rayson Smith, 72, 4300 Orchard Way, Foxcroft, will be held at 3:30 p.m. at the Bell Chapel of the William R. Hamilton Co., with cremation in White Chapel Memorial Cemetery.

Mr. Smith died Thursday at his home. He was one of the founders of Boyer Campbell Co. 50 years ago, and he retired, as president of the factory supplies firm in 1951.

He was born in Norfolk, England, and was a past president of the National Supply and Machinery Distributors Association and a director of the Arnold Home, Detroit. He had been a Birmingham resident for 28 years.

A member of Christ Church Cranbrook, Mr. Smith was a Mason and held membership in the Detroit Athletic Club, Bloomfield Hills Country Club, Recess Club and Farmers Club.

He is survived by his wife, Elsa B., and three sisters.

to Pick Administrators Cities Allowing Mayors

CHICAGO (UP) — Five cities have changed their charters to permit their mayors to appoint administrators to help them with municipal business.

The American Municipal Association listed the cities as New York, Boston, Newark, N. J., Englewood, N. J., and South Euclid, Ohio. In all cases the administrators serve as aides to the mayors.

Other large cities which have chief administrative officers appointed by the mayor under the mayor-council plan are Los Angeles, San Francisco, Philadelphia and New Orleans.

Police Nab 'Outlaw'

SAN FRANCISCO (UP) — San Francisco is proud of the beautiful flowers and shrubs that grow in its giant Golden Gate Park but the police plucked a plant Thursday they figured the park could do without — a five-foot marijuana bush.

Roll-Over Kills Driver

PORT HURON (UP) — Charles E. Bankson, 21, was killed early today when his car went out of control on a county road six miles west of here, hit an abutment and turned over. Bankson was thrown from the car which rolled on top of him. A wrecking crew had to lift the car from his body.

The Army Signal Corps established the world's first long distance commercial wireless circuit across Norton Sound, Alaska, in 1903. The Signal Corps gradually expanded its radio circuits until today they cover the entire Territory of Alaska — serving both civilians and military.

Ike Signs Bili to Restore Trio of Historic Ships

WASHINGTON (UP) — President Eisenhower today signed a bill to restore three old warships that figured in the nation's early history and in the Civil War.

They are the frigates Constitution (Old Ironsides) and Constellation, built before 1800 to fight the Barbary pirates; and the Hartford, Adm. Farragut's flagship at the Battle of Mobile Bay in the War Between the States.

The Constitution is now at Boston and is already about 90 per cent restored. It will be kept there. The Constellation also is at Boston, but will be patched up and transferred to Baltimore, where she was launched in 1798.

The Hartford, now at Norfolk, Va., will be transferred to Mobile Ala., when repaired.

Rep. Devereux (R-Md.), who as a Marine officer gallantly defended Wake Island in World War II, watched the President sign the bill. Eisenhower gave him the pen he used.

Mrs. Joseph Heitsch Dies at Age of 82

Mrs. Joseph E. (Margaret D.) Heitsch, 82, of 4190 Pontiac Lake Rd., died at her home at 2:35 p.m. Thursday after a short illness.

Born at Drayton Plains Oct. 2, 1871, she was the daughter of Peter C. and Mary Dillon Davidson. She married Mr. Heitsch May 8, 1905, and he died in 1944.

Mrs. Heitsch, who had resided at the above address for 30 years, was a member of St. Benedict Catholic Church, the Rosary Society and the League of Catholic Women.

Surviving are two daughters and a son, Mrs. Hazel Serrell of Rochester, and Mrs. Katherine Wellman and John of Pontiac. Also surviving are two sisters and a brother, Mrs. John J. O'Connor, Mrs. Leman J. Gulick and Peter C. Davidson of Pontiac; four grandchildren and 12 great grandchildren.

Rosary service will be at Donelson-Johns Funeral Home at 8 p.m. Sunday. The funeral will be Monday at 10 a.m. from St. Benedict Church with burial in Mt. Hope Cemetery.

Fred M. Batchelor

Fred M. Batchelor, 66, of 336 Auburn Ave., died at Pontiac General Hospital at 6 p.m. Thursday.

Born in Melvin Dec. 6, 1887, he was the son of George and Rosa Hilborn Batchelor. He married Evelyn Ruthenberg in Highland Park Oct. 24, 1924, and came to Pontiac to live from Srover, 25 years ago. He was a carpenter. Mr. Batchelor was a veteran of World War I.

Besides his widow he is survived by three sisters and two brothers, Mrs. Justus Smith of Shingle, Calif., Raymond Batchelor of Pontiac, Berton A. Batchelor of Drayton Plains, Mrs. Leo Dilse and Mrs. Fay McClellan of Detroit.

Funeral will be Monday at 2 p.m. from Sparks-Griffin Chapel, Dr. Milton H. Bank, pastor of Central Methodist Church, will officiate and burial will be in White Chapel Memorial Cemetery.

Mrs. Augustus A. Lull

Mrs. Augustus A. (Francis) Lull, 79, died at her residence, 131 N. Genesee Ave., at 3 a.m. today following an illness of several months.

Born in Pontiac Aug. 1, 1874, she was the daughter of John and Ornelia Bawbey Whitesell and the widow of Mr. Lull.

She had lived her entire lifetime in Pontiac and was a member of the First Presbyterian church.

Surviving are five daughters and two sons, Mrs. George Hubbard, Mrs. Bradley D. Scott, Mrs. Monroe C. Hilly and Milton H. Lull of Pontiac, Mrs. Charles N. Ball of Drayton Plains, John A. Lull of Detroit and Mrs. Fenton S. Weaver of Clarkston. Also surviving are 14 grandchildren and eight great-grandchildren.

Funeral will be Monday at 2 p.m. from the Donelson - Johns Funeral Home. Burial will be in Oak Hill Cemetery.

Utah's coal production for 1953 amounted to about 6,390,000 tons — an increase of a quarter — million tons over 1952 — and brought Utah's total to 223,202,000 tons.

McCarthy Asks Action on Aide

Prods Pentagon to Tell Reasons for Refusing Clearance to Lavenia

WASHINGTON (UP) — The Senate Investigations subcommittee prodded the Pentagon again today to tell why one of its aides, Thomas W. Lavenia, was denied security clearance.

Sen. McCarthy (R-Wis.), who, appointed Lavenia as office manager and assistant counsel to the subcommittee, has invited both the Defense and Justice Departments to send spokesmen to a closed door subcommittee meeting for questioning.

Lavenia has said he was cleared to handle secret documents in 1952 while in another government job.

Meanwhile, Sen. Flanders (R-Vt.) announced he will give the Senate a limited "bill of particulars" in a speech on July 30 or 31 to support his resolution of censure aimed at McCarthy.

He told reporters he plans to give the Senate "just a sampling" of his accusations that McCarthy as the subcommittee's chairman has been guilty of unbecoming conduct, and he added:

"To give every item in a bill of particulars would take until Christmas."

McCarthy, who has called Flanders "senile," has not commented on the Vermonters' move to have the Senate officially censure him. William Frye, a publicity man, announced yesterday that 23 prominent citizens sent telegrams to "most Senate members" urging them to support Flanders' censure resolution.

British Plane Crashes Near Red Territory

(Continued From Page One)
Sumatra, and Paul Yong Nam Ying, a student.

The kymaster was en route from Singapore to Hong Kong via Bankok when a port engine caught fire and the pilot ditched at 9 a.m.

The captain flashed an SOS before crash landing in the sea and rescue planes and ships converged on the scene from Hong Kong and the Philippines.

For a time it was feared that rescue operations would be complicated by the proximity of Communist territory. There was no indication from the U. S. PBV that it had encountered trouble in landing and taking off.

Police, FBI Investigate Jersey Fireworks Blast

CRANBURY, N. J. (UP) — State police and FBI agents today investigated an explosion at a fireworks plant that killed two workers and injured 10 other persons.

The blast yesterday at the Unexcelled Chemical Co. rocked the rural countryside for miles around. A spokesman for the firm said it had been working exclusively in recent months on government contracts for munitions.

Hungry Thieves Take 500 Meal Tickets in Vain

If thieves expect to use some of the 500 meal tickets stolen in a restaurant break-in at 96 Bagley St. this morning, they are mistaken, according to restaurant owner Mrs. William F. Davis.

The tickets were stolen along with \$13 and an undetermined amount of money from a music box, according to Pontiac Police who said the thieves jimmied the lock on the rear door.

Mrs. Davis, of 78 Bagley St., said, "We won't have to reprint new meal tickets, because we have a way of telling which tickets were stolen. 'The thieves will have to eat somewhere else.'"

A-Energy Filibuster Now in Third Day

(Continued From Page One)
issue. The Senate approved, 45 to 41, yesterday an amendment which would authorize the AEC to erect government-owned reactors to produce electrical energy on a commercial basis.

It was approved despite charges the amendment would open the way to construction of a chain of little TVA's around the nation.

Sen. Albert M. Gore (D-Tenn.), a leader of those opposing the AEC-private power contract, was jubilant when the Senate approved the reactor authorization.

"We beat the biggest give-away in the bill today," he declared and then went home for rest.

During the second straight all-night session Thursday night, there were few spectators and few senators on the floor.

While the senators' words were recorded for posterity, not many persons heard them. At times, only the doorkeepers listened.

During the early morning hours only three senators — Edward J. Thye (R-Minn.), Andrew F. Schoepel (R-Kans.), and A. S. Mike Monroney (D-Okla.) were present in the lonely chamber while Sen. James O. Eastland (D-Miss.) held the floor.

Eastland, sipping glasses of milk, held the floor from 1:15 a.m. EDT until 5 a.m. EST. Then Sen. Warren G. Magnuson (D-Wash.) took over and was still going as the clock moved past 8 a.m. EDT.

Students Earn \$35,200 in University Factory

VALPARAISO, Ind. (UP) — Valparaíso University students working in a furniture factory operated entirely by them have been paid \$35,200 in wages during the first year of the business.

The factory, the Branco Corp. of Indiana, was founded by Paul and president of two furniture factories in Fort Worth, Texas.

It sandwiches four-hour work shifts into the university's class schedules. It provides 12 hours work a week at a dollar an hour to most of the student employees — 236 in the first year.

Thief Has the Time

DETROIT (UP) — A thief went away from Trowbridge School with time on his hands. He stole all 13 electric clocks from the schoolroom walls.

German G-Man Believed Seized

Bonn Security System Endangered as Leader Falls Into Red Hands

BERLIN (UP) — The mysterious disappearance of Dr. Otto John, West German counterpart of America's J. Edgar Hoover, jeopardized West Germany's entire security system and possibly those of several allied intelligence agencies, Western officials said today.

John, chief of the West German agency responsible for rooting out subversive Communist and neo-Nazi elements, vanished from West Berlin Tuesday night. He is believed to have been kidnapped or lured into Soviet-dominated East Germany.

Western security officials were stunned by the news of John's disappearance and expressed fears West German security policies would have to be overhauled. They made no attempt to conceal the fact that John is the richest prize ever to fall into Communist hands.

As president of the Office for the Protection of the Constitution — the nation's equivalent of the Federal Bureau of Investigation — the 44-year-old security chief was responsible for rooting out subversives, dealing with Communist infiltration into the government and keeping track of extremists of both left and right.

Although he was not directly concerned with counter-intelligence, he was in close contact with several West German counter-intelligence agencies and would be in a position to reveal their secrets to the Communists.

It was feared he may also be able to disclose some of the closely guarded secrets of Western allied intelligence agencies as well.

John was last seen in the company of Dr. Wolfgang Wohlgemuth, who has been branded by the Interior Ministry as a Communist.

West Berlin police said John had been suffering from a "severe mental depression" and may have been lured into Communist Berlin by promises of psychiatric treatment.

Wohlgemuth practiced on both sides of the Iron Curtain. He had an office in the American sector of Berlin and maintained a clinic in the charity hospital in Communist Berlin.

A note left by Wohlgemuth in his office said John had gone voluntarily to the Russian — controlled east sector and "does not want to return to the western sector" of the city. West German officials said the note was merely "camouflage" for the kidnapping.

John had come to West Berlin from Bonn to participate in July 20 ceremonies honoring the men who tried to assassinate Adolf Hitler in 1944.

Royal Oak Attorneys Like Courthouse Plan

(Continued From Page One)
enough customers so that the bus lines would follow."

Oakland County Bar Assn. Monday voted 25 to 20 to oppose the \$4,500,000 courthouse bond issue in the Aug. 3 election because the county has chosen the service center as the courthouse site.

Voters will be asked Aug. 3 to let the county issue \$4,500,000 worth of bonds to build the courthouse and spread a tax of 50 cents on each \$1,000 worth of property, as valued by the county, to pay off the debt.

In selecting the service center site, the county said it offers unlimited parking space and is easy to reach on main highways from all corner of the county. The county's ownership of the land and the heating plant there will knock those two items off building costs.

County officials say the move would bring courts, offices, the market and the county institutions (children's home, infirmary and contagious hospital) together in one spot.

Strongest objections to the service center come from Pontiac attorneys.

DR. OTTO JOHN

Builder Called in Housing Quiz

He Will Be Questioned About Projects Insured by Government Loans

WASHINGTON (UP) — Senate housing investigators today summoned a New York Builder, Samuel J. Rodman, for questioning about two apartment projects built in the nation's capital with government-insured loans.

The banking committee, headed by Sen. Capehart (R-Ind.), is in the midst of an investigation of what members term excessive profits made by builders of big apartment projects. These profits resulted from the most part from the difference between loans insured by the Federal Housing Administration and construction costs which were lower. Testimony has been that many promoters pocketed the difference.

Committee sources named Rodman's two housing projects here as Atlantic Gardens and Chesapeake Gardens.

In the hearings, due to wind up their current phase today, the banking committee has been paying particular attention to the possibility of fraud prosecution of any builders who may have filed false information with the FHA, as to estimated costs and other factors, in their applications for FHA mortgage insurance.

Acting FHA Commissioner Norman P. Mason said yesterday one such case, involving a 2-million-dollar project just across the Potomac River from Washington, was sent to the Justice Department Wednesday for possible fraud prosecution. That project, known as Arlington Towers, still is under construction.

The largest open air fruit market in the world is located at a Benton Harbor, Mich. It ships to 567 cities in 28 states.

Foreign Aid Bill Is the Docket

Use Appropriations
Cup Turns to New
Shic After Rebuff

WASHINGTON (U)—The House Appropriations Committee, fresh a shellacking at the hands of its members, turned to a multi-million-dollar foreign aid bill today of greater success.

The committee docket was identical Eisenhower's request for \$3.4 billion dollars for overseas assistance this year, and the word was the group might be able to finish up work on the measure tomorrow.

Members predicted their version would provide less than Eisenhower asked, but said the cuts wouldn't be such as to stir up White House opposition.

residential prodding was a notable factor yesterday when a coalition of Republicans and Democrats rebuffed the powerful appropriations committee by adding \$109,654,949 to the committee's figures a catchall appropriation bill. Then, by voice vote, the congressional sent to the Senate a measure appropriating \$1,303,334,628 to finance miscellaneous federal programs not taken care of in the regular money bills.

This was \$656,623,639 less than the President had requested, but \$328,400,000 was a reduction in funds for military public works construction. Instead of providing all new cash for this work, the committee had approved the use of unobligated balances of money previously appropriated. The House concurred in that plan.

But it bowed over the committee's recommendations for deep cuts in new money for ship, airport and hospital construction.

The coalition added to the bill 22 millions for additional airport construction, 71½ millions for ship construction, and \$15,900,000 to help states and municipalities build new medical facilities under a recently approved hospital program.

The foreign aid funds bill is a followup to the authorizing measure which already has won House approval and now awaits Senate action.

1,056 Polio Cases Reported in Week

WASHINGTON (U)—The Public Health Service reported today there were 1,056 new cases of polio over the nation last week, the first time this year the total has passed 1,000 for a week.

The total was nearly 200 less than the 1,245 cases in the corresponding 1953 week.

At this season the total usually jumps anywhere from 20 to 35 or more percentage points each week, reaching a peak in late August or September.

Since Jan. 1 there have been 6,320 cases, compared with 6,866 in the corresponding period last year and 6,603 in the 1952 period.

Rubirosa Seeks Permit to Work as Movie Actor

LOS ANGELES (U)—Porfirio Rubirosa, wealthy Dominican Republic playboy-diplomat, wants a work permit.

The 46-year-old husband of heiress Barbara Hutton applied yesterday to the U.S. Immigration and Naturalization Service.

He said he wants to play a gambling saloon keeper in a western movie. It will star his present heart interest, Zsa Zsa Gabor.

Rubirosa entered the United States at New York last June 29 on a visitor's visa for vacation purposes. His application was taken under consideration.

GOODWILL AMBASSADOR—J. Fred Muggs, 28-month-old chimpanzee actor is interviewed by United Press Staff correspondent H. D. Quigg. Fred is starting a round-the-world goodwill tour designed to promote goodwill between chimps, television, actors and countries. The chimp had all the travel shots for typhoid, cholera, etc., and is ready to sign autographs either by hand or by foot.

Transport Due Monday

SAN FRANCISCO (U)—The Navy Transport Gen. William Black is due here next Monday with 2,299 Marines and Navy men returning from Japan and Korea. The men

are veterans of the 1st and 3rd Marine Divisions, the 1st Marine Air Wing, and attached Navy personnel.

Frankfort is one of Germany's oldest cities, about 1,200 years old.

'World's Smallest Paper' Marks 40 Years in Print

MEARS, Mich. (UP)—The Mears News, which calls itself the smallest newspaper in the world, is 40 years old today.

Swift Lathers, colorful 65-year-old editor and founder of the paper which has brought fame to this tiny Oceana County community, put out this week's issue of the News a day early so that he could have today off.

He planned to spend the anniversary working on his second love, a desert village he built 15 years ago on the sand dunes west of here on the shores of Lake Michigan.

The News hasn't changed much since Lathers put out the first issue using an old hand press that printed one page at a time.

The paper is still 5¼ by 7¼ inches in size and has only one headline. About the only changes are that the type is no longer set by hand—it is set on a Linotype machine at nearby Hart — and Lathers is able to print two pages at a time instead of only one.

The price of a subscription is the same, too—50 cents a year; or \$1.00 for 6 months; or \$3.00 for (three months). The last line of type on the paper's masthead was dropped years ago and has never been replaced. It ends with the words "33.00 for."

Lathers, who was a reporter for the Detroit Tribune for several years after he attended Michigan State Normal at Ypsilanti, came to Mears in 1913. He was born and raised in Dearborn but left the

Detroit area because he hates big cities.

"My desire then was to get away from the treadmill life of the city into the freedom of the out-of-doors, where you may not rattle as much corn in the course of a year as your city cousins but at the end of the year you have just as much left to show for your year's work as those who worked for high wages in the mills of the cities," Lathers said. "I still feel that way about big cities."

The following year he started the News and has been "editor and bottle washer" ever since. That's just the way he identifies himself on the masthead.

Lathers spells the paper's name "News" because it's "different." Actually, he was only trying out the name spelled with a "Z" when the Post Office regulations changed and he would have had to go through a lot of red tape to change the name back to something else.

Arrest Mayor's Son After Rome Accident

ROME (U)—The son of the mayor of Rome was arrested today on a charge of negligent homicide following the collapse of a building.

Two women were killed and six persons injured yesterday when the upper floors of Rome's aged Palazzo Vitelleschi caved in.

Gaetano Rebecchini, engineer and son of Christian Democrat Mayor Salvatore Rebecchini, was directing the work of repairing the structure.

The ceilings of the top two floors of the five-story building collapsed.

Ethel Merman Is Confined

BEVERLY HILLS, Calif. (U)—Singer Ethel Merman is confined to a hotel suite with subacute appendicitis. She is receiving treatment to avoid surgery at present because she is making a movie. Miss Merman expects to return to her role next Monday.

Troops Land in Malta During NATO Exercise

VALETTA, Malta (U)—Nearly 1,000 British and French commandos under the command of a Greek admiral made an assault

on the island today. It concluded a six-nation NATO air-sea exercise in the Mediterranean watched by NATO Secretary General Lord Ismay. The exercise lasted four days.

FRIGIDAIRE Porcelain Pair

FRIGIDAIRE AUTOMATIC WASHER

It's the leisure way to launder when you own the wonderful FRIGIDAIRE automatic washer—and so easy to operate, just set one dial and walk away. Frigidaire Automatic Washer has Live-Water action—will wash your clothes clean. New Float-over Rinse—will rinse your clothes bright—then Rapidry Spin—will spin your clothes drier.

\$269⁹⁵
And Old Washer

Frigidaire Filter-Matic Clothes Dryer

The Frigidaire drier is a companion to the Frigidaire Washer and makes you completely independent of the weather. Designed to standards of women who have actually used ordinary driers. What they liked is here and improved. What they didn't like is gone—and forgotten. Does away with the objectionable moisture, lint, expensive venting or plumbing and excess heat of other driers. And it will stay beautiful because it's not only rust-proofed inside and out, but both the cabinet and drum are finished in porcelain—the ageless finish.

Ft. Dix Officer Pleads Innocent

**Prosecution Witnesses
Testify in Court-Martial
for Dereliction of Duty**

FT. DIX, N.J. (U)—The defense went ahead today in its effort to clear 1st Lt. Robert S. Morgan of a charge that he permitted his company of Army trainees to be held at attention for an hour in wily heat.

Nine prosecution witnesses took the stand yesterday at the opening of Morgan's court-martial trial on charges of "dereliction of duty."

One of them was Pvt. William Books, 20, of Hempstead, N.Y., who told the eight-member court-martial board he fainted three times during the forced attention period June 21.

Morgan, 28, of Wilkes-Barre, Pa., is accused of having allowed Company "L," 272nd Infantry Regiment, to be forced to stand at attention in 92-degree heat as punishment for a breach of discipline. Several men were said to have fainted.

As the court-martial got under way, Morgan pleaded innocent to the charge. His administrative assistant, 1st Sgt. Richard J. Witbeck, 24, of Wellington, Ohio, will be tried separately on a charge of mistreating the men in the incident.

Books testified that he was revived by splashes of cold water each time after he lost consciousness. He said that when he fainted the third time, he finally was carried to his barracks.

When the prosecution concluded its case, the defense took over by reading a deposition from a former member of the company who has since been discharged.

The deposition, from ex-Pvt. Bayard Stockton of Colorado Springs, Colo., said he did not notice any men fainting during the hour-long formation, but that he did recall seeing one man lying on the ground.

Stockton declared that the men were discouraged over the fact they received no passes after four weeks of training, but that they were not bitter against Lt. Morgan.

If found guilty, Morgan faces a possible sentence ranging from an official reprimand to forfeiture of two-thirds of his base pay for six months.

Machine Gives Service

LOS ANGELES (U)—When a worshiper enters the Faith Morningside Lutheran Church at 11th St. he passes an electric eye. This starts a recorded worship service which includes a musical selection and a short address by the pastor.

TRENCH DIGGER—A group of U. S. Marines from Ft. Schuyler, N. Y., tries in vain to keep up with a Jeep trench digger in a contest at Scarsdale, N. Y. After a few minutes the Marines gave up and watched the vehicle claw its way through a trench six feet deep and 800 feet long in less than an hour.

Experts say it would take over 200 men to do the same job. The military could use the machine for communication installation at front lines or for providing shelter against atomic attacks. Civilians will find it useful in excavating for pipe lines, cables and for irrigation.

Farm Bill May Close Congress

**GOP, Dem Senators
Argue About Aiken's
Charge of Delay**

WASHINGTON (U)—The political-explosive farm bill, pushed back on the Senate docket again under disputed circumstances, may be the final major business for the adjournment-bound Congress.

Sen. Aiken (R-Vt.) said today he has no intention of trying to get Senate action on the farm measure until "next midweek, probably Wednesday." Aiken, chairman of the Senate Agriculture committee, added in an interview:

"All I want to make certain is that if there is no farm legislation at this session that I'm not going to take the rap for it."

Aiken smiled away a blistering statement issued last night by Senate Democratic leader Lyndon B. Johnson of Texas which branded as "simply . . . not true" Aiken's assertion that Democrats forced a delay in Senate action on the farm bill.

Aiken called reporters to his office early yesterday and told them the Democratic leadership had served notice on him not to bring up the farm bill until next Tuesday or later.

Aiken said this might prevent any farm legislation because of plans to end the session next Saturday. Whether Congress will meet that target for adjournment is questionable.

Use Martial Law to Curb Phenix City Lawlessness

PHENIX CITY, Ala. (U)—Residents of a city long hardened to violence stood by stunned today as stern-faced National Guardsmen enforced law under an unprecedented order issued by Gov. Gordon Persons.

The armed civilian-soldiers, hurried into the city by truckloads, relieved Phenix City law enforcement officials of their weapons as well as their duties yesterday when qualified martial law was proclaimed.

The governor's action gave this once gaudy, bawdy river town of about 17,000 population the distinction of being the first municipality in Alabama history to have its entire law enforcement duties taken over by the military.

The stormy community of shady night clubs and gambling dens across the Chattahoochee River from Columbus, Ga., and sprawling Ft. Benning erupted five weeks ago when incoming Atty. Gen. A. L. Patterson was slain in an alley below his law office.

Gov. Persons said he was invoking martial law to "surpress the state of lawlessness, intimidation, tumult and fear which reigns" in Russell County. He added that Phenix City officers have either been "unable or unwilling" to control tangled affairs here.

City and county law officers as well as private citizens were ordered to turn in all firearms and other weapons to the military command headed by Adj. Gen. Walter J. Hanna.

Crowds of townspeople ringed the courthouse and police station during Thursday afternoon's steady drizzle as word spread around that the old order was changing.

Man's Suspicions Right; Bandits Rob Him Again

KANSAS CITY (U)—When a drug store employe got a telephone call to make a liquor delivery, he recalled that in the past such orders had resulted in holdups.

So Howard Goldenberg of the Highland Pharmacy decided to make a preliminary investigation before delivering the liquor. He left his billfold in the store, picked up a .38 pistol and drove to the address given by the caller.

As he got out of the car two men met him, relieved him of his keys, cigaret lighter, watch—and the pistol.

HERE'S WHY IT'S TIME FOR A CHANGE!

FRANK IRONS

ELECT FRANK IRONS REPUBLICAN CANDIDATE FOR SHERIFF

OF

OAKLAND COUNTY

HIS PLATFORM

- 1 Establish juvenile and youth departments, supervised by men and women deputies.
- 2 Abolish holding of Justice Court in the county jail.
- 3 Provide better road patrols in villages and rural areas.
- 4 Insure more efficient assignment of Patrol Cars on heavily traveled highways.
- 5 Prevent professional bondmen from soliciting business in the county jail.
- 6 Restore co-operation with other law enforcement agencies.
- 7 Stop discrimination in calling of ambulances and wreckers.
- 8 Provide convenient locations and suitable hours for the issuance of drivers' licenses throughout the county.
- 9 Prohibit deputies, while on duty, from frequenting places where intoxicating liquors are sold, except in response to official calls.
- 10 Prohibit the entrance of intoxicating liquors into the county jail except when legally seized and held as evidence.

Trade Stations in Asia Slipping From French

PARIS (U-P) — North Indochina is not all France stands to lose in Asia.

Also slipping are the first footholds of the once-great French empire on that continent—the little trading stations France has held on the Indian coast for more than 200 years.

First conquered by the French in the 17th century, they were expanded into broad inland holdings. Then they were lost to the British, retaken, lost and restored once more as tiny enclaves in British India.

For nearly a century and a half, the sleepy, primitive towns of French India remained French by sufferance of the British Empire. Their main industry reputedly was smuggling.

The Indians claim a referendum is not needed in the French-held towns because local councils al-

ready have declared for India. They also say the French wouldn't permit a fair vote.

French officials in Paris say they are not reluctant to get out, but they want to go in an orderly fashion.

Well Driller Electrocutured by High Tension Wire

OSCODA (U-P)—A well driller was electrocuted Thursday when the steel derrick of his well drilling rig touched a high tension line at Old Orchard park eight miles west of here.

A. A. Graves, 53, Hale, Mich., was killed instantly when his rig touched a 140,000-volt line of the Consumers Power Co.

Flames wrecked the rig and touched off a fire in the grass and trees which kept the Oscoda fire department from the spot for more than an hour. His body was burned beyond recognition.

Graves was cleaning out a well at the park, which is on the Au-Sable River, when the accident occurred.

McNamara Attempting to Muster Dem Factions

By THE ASSOCIATED PRESS

Patrick V. McNamara, who now alone seeks Michigan's Democratic nomination for U. S. senator, says he hopes to swing all party factions behind himself after Blair Moody's funeral tomorrow.

McNamara, onetime AFL man, Detroit school board member, and former Detroit city councilman, said Thursday he intends to make such a proposal to Gov. Williams and others.

He said he will put it this way: "What do you say to us all trying to work to get all Democrats together in a united party drive to defeat Sen. Ferguson? Isn't this an opportunity to wipe out the last vestiges of factionalism in the party by joining hands?"

Sylvan Lake Moves Forward on City Water System

Young Anglers Vie for 'Big Fish' Prizes

FIRST PLACE WINNERS—John A. Benson, president of the Pontiac Junior Chamber of Commerce, presented prizes to the first-place winners in yesterday's Fishing Rodeo sponsored at Beaudette Park by the city Parks and Recreation Department. The winners in the boys' and girls' divisions were (left to right) Carol Horton, 11, of 10 Stockwell St., biggest fish, Robert McAllister, 12, of 616 W. Huron St., biggest fish, Brenda Voynar, 14, of 777 Third Ave., most fish and Harold Gilbert, 13, of 66 Edison St., most fish. The winners each received a complete casting outfit from Better Fishing Inc. The Jaycees provided 61 other awards. Second-place winners, who received canopole outfits, were Donald Jenkinson, 7, of 83 McKinley Dr., Joan Voynar, 10, Brenda's sister, Gordon Noren, 12, of 717 E. Pike St. and Sue Ann Brown, 10, of 400 E. Wilson Ave.

TACKLE REPAIRS—Barbara Heflin, 20, of 72 Tregent St., an assistant playground director, repairs a homemade bobber for Rose Lloyd, 13, of 38 N. Midland Dr. (right). Charlen Wiegert, 11, of 232

Expect Service Early Next Year

2 Test Wells May Be Source of Supply; State Location of Mains

Sylvan Lake may be supplying water to homes from its own municipal water system in from six to nine months, according to City Manager Ernest Ethier.

On June 24 city property owners approved issuance of \$225,000 in general obligation and special assessment bonds to finance construction of a system.

Plans for locations of mains and hydrants are scheduled for completion in August, said Ethier. "It is hoped that two test wells, one in the northeast and one in the southwest section of the city will be successful," he added.

In other announcements, Ethier said 36 per cent of 1954 city taxes had been paid at the City Hall through July 15. A 2 per cent penalty on unpaid taxes will be added Aug. 1 and another 1/2 per cent each month after that.

The City Council has denied a formal request to erect a drive-in theater on Orchard Lake Ave. between Iverness Ave. and the Whitfield School.

The intersection of Garland Ave. and Telegraph Rd. has been blacktopped through a cooperative effort by Sylvan Lake and Pontiac.

City Plumbing Inspector Albert Kohn has been assigned building inspection duties as an additional job. "It is felt that combining these two positions will permit better operation..." said Ethier.

"All requests for building permits must be approved by the building inspector before being issued at the city clerk's office," Ethier added.

Some 173 youngsters have enrolled in the swimming classes being conducted through Aug. 6 under city sponsorship.

The police Ethier warned, are enforcing the city ordinance requiring that dogs be kept on their owner's property.

Delinquency Rising in State, Forum Warned

Juvenile delinquency is increasing faster in Michigan than in the nation as a whole, the Michigan State College Government Forum was told yesterday in East Lansing.

But Oakland County Probate Judge Arthur E. Moore warned that the increase can be very misleading.

The judge said gains in population, informal and formal cases, repeated offenses and other factors should be taken into consideration.

In reporting on the rise in juvenile delinquency, Sam Rabinovitz, executive secretary of the Michigan Youth Commission, said an increasing number of the juvenile crimes involve violence.

"We still don't think our kids are going to the dogs," said Rabinovitz. "A vast number grow into good citizens and the majority of parents are doing a good job."

One reason for the numerical increase in juvenile cases is that courts now are sending in more complete reports on the cases, the speaker said.

Still another reason is that more delinquents are coming to the attention of law enforcement agencies and other groups, Rabinovitz added.

Female Senators Draw Male Praise

WASHINGTON (INS) — The two lady members on the U. S. Senate, fresh and bright-eyed after 40 hours of the talkathon on atomic energy, won bipartisan praise today from their weary male colleagues.

Majority Leader William F. Knowland declared in the midst of a heated discussion on closing off debate:

"The ladies of the Senate have stayed with us all during the night sessions and the Republican party is very proud of them."

Sen. Hubert Humphrey (D-Minn.) quickly added: "So are the Democrats."

The tribute was acknowledged by faint smiles from Sen. Eva Bowring (R-Neb.) and Sen. Margaret Chase Smith (R-Maine).

Sen. Bowring was loath to leave the Senate chamber for a minute, although she admitted: "I don't know if we are making any progress or standing still. But I want to be present if things start popping."

Quiz Handyman on Hospital Fire

Officials Are Trying to Determine the Cause of Bloomfield Blaze

A Bloomfield Hospital handyman was to undergo questioning today by state and local authorities probing the Wednesday fire in the hospital.

Roosevelt Head, 45, of Detroit, who earlier denied using a blowtorch to remove paint from the right-front section of the building, faces questioning.

Bloomfield Township Fire Chief Ralph W. Hemmerley and State Fire Marshal Arnold C. Renner are conducting the investigation.

Detective Glen E. Tanner, of the Redford State Police Post fire division, said his investigation shows "the fire was accidental."

Tanner said authorities decided to question Head, whose wife is a nurse at the hospital, after one of the patients said that Head was using the blowtorch just before the fire started.

However, Head told firemen after the flames were under control that he was painting near the top of the building, and had not used the blowtorch for a week.

Authorities added that their investigation is not intended to fix the blame on any particular person, "but solely to determine the cause for future fire prevention work."

Forty-two patients were removed from the hospital when fire broke out in the upper section of the 2½-story structure at Woodward Ave. and Square Lake Rd. All were returned to undamaged wards in less than 12 hours after the fire was extinguished.

Beauty Title Hopefuls Pass Initial Judging

LONG BEACH, Calif. — All's quiet on the international front today—final day of the Miss Universe contest—although many contestants come from nations which have been warring for centuries.

Beauties from 33 nations went through preliminary judging last night for the sought-after title of Miss Universe, the world's most beautiful woman.

Favorites Miss Brazil, Miss Germany, Miss Thailand and Miss U.S.A. got much applause. Miss Sweden, a tall redhead, also drew loud bursts of spontaneous applause.

NO LUCK, AND LUCK—"We're not having any luck," said Juanita Pottr, 15, of 514 Going St. and her sister, Luella, 13, in top photo. The fish were biting on their gear made from a tree branch, they said, "but they just nibble and take the worm." But Billy Hutse, 9, of 127 Euclid St. (in lower photo) proudly displayed a string of fish.

HUCK FINN—Glenn Porter, 8, of 27 Florence Ave., was one of 500 youngsters who dropped lines into said, "Take a picture of me and my fish." Glenn Dawson's Mill Pond to catch fish ranging from two stated that the "lunker" gave him quite a battle. He to seven inches in length.

Sixth International Congress on Cancer Draws Scientists From 54 Countries

SAO PAULO, Brazil (AP)—Scientists from 54 nations on both sides of the Iron Curtain launched a new joint assault today against cancer, which kills someone in the world every 10 seconds.

The nations include Russia, the United States, Britain, Korea, Poland, Brazil, Chile, Greece, Hungary—in fact almost any country you can name.

Nearly 1,000 physicians, chemists, physicists, biologists and other scientists are conferring here and exchanging their latest knowledge to mobilize better answers to the death and suffering from cancer.

Their meeting ground is the Sixth International Cancer Congress, which opened today in this booming Brazilian metropolis. The congress last met in Paris in 1950.

In the next week the delegates will listen to some 500 reports dealing with treatment, detection, new scientific research and public education concerning cancer.

They also will meet informally, seeking from or telling to other men and women scientists the findings which might supply keys to the answers they and the people of their nations want.

liver—75 to 80 per cent of the organ—had been removed by new surgical techniques. After such operations, Dr. Pack said, the left lobe regenerates and expands until the liver becomes nearly its original size.

Six of these operations have been performed in the past two years, he said. The first patient to undergo the new surgery is living and well today.

Prior to the opening session, Dr. George T. Pack, of New York's Memorial Hospital, told yesterday of a bold new operation to cure cancer of the liver. In some cases he said, the whole right lobe of the

Governor Williams Cancels Visit Here

Gov. G. Mennen Williams today cancelled his scheduled Sunday appearance at a meeting of Pontiac Democratic Club because of the death of Bglair Moody.

Club president Norman Bolton made the announcement today but said the meeting will be held as planned at 2 p. m. in Fisher Body Local 506 Hall at 821 Baldwin Ave.

Appoint First Negro Boy as Supreme Court Page

WASHINGTON (AP)—A Negro youngster has been named a page boy to the U.S. Supreme Court. He's the first of his race ever to be so honored.

The 14-year-old boy, Charles Vernon Bush, will begin his duties as one of the court's four page boys for the term starting Oct. 4.

Wants Dutch Windmill

GRAND RAPIDS (AP)—City Manager George W. Welsh has asked the Netherlands government for assistance in transporting a genuine Dutch windmill to a city park on the Grand River. Welsh said he wants the windmill as a scenic attraction in Grand Rapids, a city boasting a large ratio of citizens of Dutch ancestry.

Tonsil Removal Cited as Cause for Bulbar Polio

CHICAGO (AP)—Polio victims who have had their tonsils removed are four times as likely as other polio patients to develop the serious bulbar type that often requires iron lung treatment, two Minnesota doctors reported today.

They said this is probably the reason why a higher percentage of adult victims than child victims develop the more serious bulbar type.

Writing in the Journal of the American Medical Assn. they said: "This tendency for older persons to have a bulbar type of disease is due to the fact that they are more likely to have had their tonsils removed than are children and it is the absence of tonsils rather than the age that conditions the bulbar type of response to infection."

They said it is probable that a tonsillectomy removes some "natural barrier" which would have prevented the spread of polio virus from the throat to the nerve centers in the brain.

The doctors found that aside from the first month after tonsils are removed, when bulbar involvement is lower than in later months, it makes no difference how long before the polio attack the tonsillectomy was performed.

They said almost everyone gets polio but the infection is too light to be diagnosed in the vast majority of cases.

CinemaScope Improvements Demonstrated

Revealing the latest technical progress of CinemaScope, a film specially prepared by Darryl F. Zanuck of 20th Century-Fox was shown this week to a large group of motion picture leaders and the Press at the Roxy Theater, New York.

The film unfolded a thrilling new range, flexibility and depth of field made possible by the newly perfected designs of CinemaScope camera, lenses. It also provided graphic illustration of the operation of the four-track high fidelity magnetic stereo-phonetic sound system.

Sequences from a half-dozen new 20th Century-Fox CinemaScope productions contained in the film were:

"Broken Lance" starring Spencer Tracy, Robert Wagner, Jean Peters and Richard Widmark.

"A Woman's World" starring Clifton Webb, June Allyson, Van Heflin, Lauren Bacall, Fred McMurray, Arlene Dahl, and Cornel Wilde.

"Untamed" starring Susan Hayward.

Irving Berlin's "There's No Business Like Show Business" starring Ethel Merman, Donald O'Connor, Marilyn Monroe, Dan Dailey, Mitzel Gaynor and Johnnie Ray.

"Garden of Evil" starring Gary Cooper, Susan Hayward and Richard Widmark and Hugh Marlowe and Cameron Mitchell.

Darryl F. Zanuck's production of "The Egyptian" starring Edmund Purdom, Jean Simmons, Victor Mature, Gene Tierney, Bella Darvi and Michael Wilding.
