GMC PICKUP TRUCK, ONE OF THE ATTRACTIVE NEW MODELS IN THE 1955 LINE

Senate Kills Tax Slash; Continues Excise Levies

WASHINGTON (AP)—A dramatic 50-44 Senate vote killing a Democratic-sponsored income tax cut switched back to the House today the political row over President Eisenhower's tax policies.

The Senate yesterday passed by voice vote a bill to extend present corporation and excise tax rates a year beyond April 1. The measure was in exactly the form Eisenhower asked.

Credit Union Meeting Called

Judge Picard Moves to Allow Members to Reorganize

DETROIT (AP)—A reorganization meeting for the four million dollar Ford Rouge Employees Federal Credit Union has been called by Federal Judge Frank A. Picard for next Wednesday. The credit union was seized by the government last Friday for alleged irregularities.

Judge Picard scheduled the meeting yesterday so that the credit union's 15,000 members could elect a new board of directors which would then pick new officers.

An order also was issued to examiners of the Bureau of Federal Credit Unions to give the credit union's officers access to the records.

A total of 23 specific violations of federal laws or management regulations was charged by the government.

Picard also told government examiners to give full details on the alleged mismanagement and violations of regulations to the credit union's board of directors. Robert Vezzosi, treasurer-manager of the credit union, and a Dearborn tinsmith, has been arraigned on charges of "submitting false statements." He was released on \$50,000 bond.

Two others seized with Vezzosi, Charles H. Thompson, 22, fired tinner; and Edmund Bertrand, a Detroit bar owner.

Thompson is charged with embezzlement and misapplication of \$33,000 missing from the union. Bertrand is charged with aiding and abetting him.

Disappointed Democratic leaders saw go down the drain a substitute to give low-income taxpayers a \$20 reduction in 1956, plus \$10 for each dependent other than a spouse. The cut would have gone chiefly to families earning under \$5,000.

On this crucial issue five Democrats—Byrd and Robertson of Virginia, Ellender of Louisiana, George of Georgia and Holland of Florida—joined 45 Republicans to defeat the substitute offered by Democratic Leader Lyndon B. Johnson of Texas. Sen. Langer (R-ND) lined up with 43 Democrats on the losing side.

It was a clear-cut, if preliminary, victory for Eisenhower's supporters. They contended Johnson's was an irresponsible proposal in the face of continued deficit financing.

Chairman Byrd of the Senate Finance Committee forecast a "very difficult" conference if the House refused to instruct its group. Byrd led the successful fight for the Senate bill.

Talks Continued by GM and Ford

DETROIT (AP)—General Motors and CIO-UAW officials have been meeting for two days to set up an agenda for actual negotiations on a new contract—and the union's all-important guaranteed annual wage demand.

Ford Motor Co. starts preliminary talks with the union today. Ford's five-year contract with the UAW, covering some 135,000 workers, expires June 1.

The General Motors pact runs out May 29. The union contract with Chrysler Corp., third member of the auto industry's big three, runs until Aug. 31.

Ike Outshines Posies on Visit to Flower Show

WASHINGTON (AP)—Attending a flower show was a new experience for President Eisenhower—and it caused a bit of commotion.

Only show officials knew in advance that the President was going to the National Guard Armory yesterday to take a look.

But word spread rapidly through the huge building the moment he arrived and soon he was being followed from one exhibit to the other by a milling crowd.

Parents pushed their youngsters up for a better look. One child got a presidential handshake.

The President, who described the visit as "my first jaunt in a flower show," was snubbed for Mrs. Eisenhower. She was scheduled to open the National Capital Flower and Garden Show last week but came down with the flu.

The White House said yesterday she was "almost completely recovered" but still had not ventured outdoors.

Report Eden Better

LONDON (AP)—Foreign Secretary Sir Anthony Eden was reported "somewhat better" today but still in bed with influenza.

Senate Highway Measure Aids Smaller Counties

LANSING (AP)—After weeks of debate, the Senate has passed a highway expansion program in a form which may lead to more controversy in the House.

The highway bill, a revision of the House-approved Pelts bill, was rammed through the Senate yesterday on a 19-13 vote.

Wayne County Democrats who had enthusiastically supported the "big trunk line" bloc throughout the debate bolted at the last because of an amendment hitched on by Sen. Leo H. Roy (R-Hancock).

Roy's amendment, defeated the previous day and then passed yesterday 12-11, would allow counties to receive their share of new highway taxes on the basis of their primary road mileage.

They now receive their money on a formula combining mileage, car registrations and popu-

Governor Signs Bill

Business Receipts Tax Extended Until Dec. 31

LANSING (AP)—Gov. Williams has signed a bill extending the business receipts tax until Dec. 31 of this year.

A House-Senate conference committee reached agreement on extending the tax yesterday, a few hours before it was due to expire.

Deadlocked for a week over how long the tax should be continued, Senate members of the committee yielded to House insistence on the Dec. 31 cutoff date.

The Senate had approved extension of the tax indefinitely. House members wanted a temporary extension to force consideration of a new tax program this year.

Some legislators said approval of the tax on a temporary basis boosted chances for passage of a corporations profits tax this year.

Gov. Williams has asked the legislature to enact a five per cent tax on corporations profits. Netting an estimated \$110 million a year, it would erase a \$46 million deficit in his proposed budget for the next fiscal year.

Rep. George W. Sallado (R-Ann Arbor), who deviates frequently from Republican policies, said a corporations profit tax is "inevitable—next year if not this year."

"If the alternative is to increase the business receipts tax, I certainly think a corporate profits tax should be passed," he said.

Rep. Rollo G. Conlin (R-Tipton) said the House Taxation Committee, of which he is chairman, is trying to devise some new tax program that will yield between 25 and 30 million dollars a year in "new" money.

Sons of St. Patrick Paint Street Green

GRAND RAPIDS (UP)—The Friendly Sons of St. Patrick, who asked the city commission to have yellow lines on Grand Rapids' Main Street replaced with green lines for St. Patrick's Day, have done the job themselves.

Members of the organization have painted a 25-foot green stripe on the street in front of the Rowe Hotel where the Friendly Sons will hold their annual St. Patrick's Day banquet Thursday night.

Tires in Color to Match Car Coming Soon

DETROIT (AP)—Colored tires—blue, green and brown—are in production at United States Rubber Co. They are designed to complement a variety of exterior car body finishes.

The colors are being added to white sidewall tires, extending from the outer edge of the white sidewall to the top edge of the tread. The tread itself is of conventional black. The white strip is somewhat narrower than on regular white sidewall tires.

They are limited to the premium line of tires and will cost from \$16 to \$17.50 per tire more than the regular premium line.

That means a set of tires could cost upward of \$300.

Heavy Showers Hit City Area

Michigan Bell Reports 500 Phones Affected by Water

Water, whipped by winds up to 45 m.p.h. put 500 Pontiac-area telephones out of commission last night, Michigan Bell Telephone Co. reported today.

A company spokesman said crews have restored service to some of the affected phones, with complete restoration due sometime during the day.

Nearly one-half inch of rain fell during the heavy showers which began in the late afternoon, catching many shoppers and downtown office workers.

The telephone company spokesman said water seeping into cables was the source of the phone failures.

The weatherman forecasts partly cloudy skies tonight and tomorrow, with colder temperatures seen for tonight. Warmer readings are expected tomorrow with the thermometer expected to rise to a high of 43-47.

At 8 a.m. today the mercury in downtown Pontiac stood at 28 degrees, rising to 40 by 1 p.m.

Lowell's Voters Back Water Fluoridation

LOWELL, Mich. (UP)—By a vote of 349 to 141, voters in this Kent County community approved fluoridation of the village water supply, Monday.

Wide Range of Vehicles Offer Power and Color

By ROBERT R. TARR
Pontiac Press Managing Editor

GMC trucks have gone all-out in glamour for 1955. Color and flowing lines to rival the sleek passenger cars of today mark the new trucks now coming off the assembly lines at the South Boulevard plant of the division.

Quality and adaptability that have kept GMC trucks in the forefront of the industry have not suffered in achieving the new look. More improvements than ever before made in a single model change are claimed for the new trucks, being announced this week.

A complete line of 128 new 1955 GMC truck models, featuring units powered by V-8 engines, a new concept in streamlined design, and some 500 major styling and engineering improvements is being announced by GMC Truck & Coach Division.

The new models will be shown locally at the Wilson GMC Company showrooms at 675 Oakland Ave.

In anticipation of an expanding truck market this year, the division has set its minimum goal at around 100,000. R. C. Woodhouse, general truck sales manager told newsmen at a press showing of the new models yesterday.

More than doubling the number of models offered in 1954, the new line brings 74 entirely new models into the GMC family of light, medium and heavy-duty vehicles to blanket trucking industry needs from half-ton pickups to 5-ton tractors.

The new models will be called GMC's "Blue Chip" trucks in the largest announcement campaign ever staged by the division.

In a two weeks period starting March 23 GMC expects to reach 50,000,000 readers through newspaper advertising of its new models, Woodhouse said Tuesday.

Other highlights of the new models include a new series of lighter weight Diesel trucks, expanded use of automatic transmissions, and a unique dual.

Dulles May Reveal Yalta Deal Papers

WASHINGTON (AP)—Sen. George (D-Ga.) predicted today Secretary of State Dulles may change his mind and make public the controversial Yalta conference documents.

George, who heads the Senate Foreign Relations Committee, said in an interview he thinks the record of the Roosevelt-Churchill-Stalin conference 10 years ago "should be made public and the State Department should do it."

Dulles was reported to have told some lawmakers he is reconsidering his decision not to make public the documents.

The British Foreign Office said Saturday a U. S. suggestion to make the Yalta papers public was rejected on grounds "it is undesirable for detailed records of important international discussions to be published so short a time after their occurrence, and in particular during the lifetime of many of the participants."

Banks Found Guilty Again

Jury Deliberates Fifty Minutes Here Tuesday in Murder Retrial

A former city factory worker faces life in prison today after a retrial jury deliberated only 50 minutes yesterday before finding him guilty of first degree murder for a second time.

Walter Banks, 45, formerly of 116 Warren St., was sentenced to life in prison Feb. 18, 1953, in the kidnapping of Alexander Bell, 33, port owner of a pool hall at 387 Madison Ave.

After serving two years, Banks was a retrial when an error was discovered in the form of the first jury's verdict.

Oakland County Prosecutor Frederick C. Ziem handled both cases. The first, as an assistant prosecutor.

Ziem's case was built mainly on circumstantial evidence. Although no one saw the actual shooting, several workers from a nearby factory testified they saw Banks in the establishment at the time the shooting occurred.

The workers' stories were borne out by comparing them with their punch-out times at the factory. The .45 automatic used in the shooting was never recovered. Neither was the stolen \$2,000.

Banks' attorney, Charles Jones, of Detroit, yesterday attempted to point out weak places in the chain of evidence which "would raise a reasonable doubt as to the defendant's guilt."

The convicted man will be sentenced March 25 by Circuit Judge George B. Hartwick. First degree murder carries a mandatory life sentence, with no parole possible.

Car Strikes Train, Two Persons Hurt

Two persons were injured last night after their auto struck a train engine on the Tregent street railroad crossing, Pontiac Police reported today.

Treated for cuts and bruises at Pontiac General Hospital were Wendell W. Walker, 46, of 78 Foster St., and his passenger, R. M. Maycock, 39, of 39 Tregent St.

Engineer Morgan Silsby of 407 Mill Lake Rd. told police the engine was traveling slowly over the crossing when the auto attempted to go over the tracks.

Police said the engine's bell and lights were operating, but no other warning signals are at the crossing except signs on either side of the tracks.

Memorial Day Parade by Circus Co. Wins OK

KALAMAZOO — Overruling objections by a score of veterans organizations, the Kalamazoo City Commission yesterday voted to permit King Brothers Circus to stage a parade here on Memorial Day.

The Sad Sacks, an Amvets fun service organization, is sponsoring the appearance of the circus, but other veterans groups contend the parade would not be in keeping with the spirit of Memorial Day. Commission members voted 4-1 to authorize the parade after they were told it would be the first opportunity in decades for Kalamazoo children to see a circus parade.

Nine-Pound Twins Born in Port Huron

PORT HURON — Twins, each tipping the scales at nine pounds, were born yesterday to Mrs. Cecil E. Harrison at Port Huron Hospital.

The 19-pound birth set a record for the hospital.

The mother, 27, and Carolyn Joan and Kevin John, were reported doing fine today.

The Harrisons have three other children, Edward, 6; Linda, 5, and James, 4. The father is a machine operator at Pressed Metals of America, Inc., in suburban Marysville.

Area Florists Prizewinners at State Show

Several area florists were prize winners at the recent state meeting of the Michigan Unit of the Telegraph Delivery Service at Ovid.

Kenneth Stephens, assistant manager and designer at Dunstan's Flowers, won two gold cups and two ribbons in the "Contest of Design."

He won the Grand Award for a brown Cymbidium wristlet corsage, second place for his bridesmaid bouquet of pink carnations and hyacinths, and third place for an Easter novelty and an arrangement of Better Times roses and white salal leaves.

Shirley Pengilly, also of Dunstan's, won third place in the contest.

The shop owner, Mrs. Oliver P. Dunstan, recently won a plaque at the Michigan State Convention. At the Ovid meeting, she was guest designer, assisted by Stephens. Dr. Paul Krone, head of the Department of Floriculture at Michigan State College was commentator for the occasion.

Careening Car Kills 3 Children

Doctors Study History of Driver Who Hit 5 in Buffalo Tragedy

BUFFALO, N. Y. — Doctors today continued exploring the medical history of a motorist whose wildly careening automobile brought death Monday to three little girls strolling along a sidewalk. Emil A. Decina, 33-year-old driver, told police he "blacked out" at the wheel of his 1935 automobile and could remember nothing about the tragedy that hit this city like a shock wave.

Only yesterday morning did police tell Decina that three girls were killed and two others critically injured when his car jumped the curb and rampaged about two blocks before crashing through a brick wall of a grocery store.

Decina was scheduled to be arraigned later today on a charge of criminal negligence.

Meanwhile, grieving parents and friends attended funeral today for Anita Arena, 6, and Lynn Douglas and Sandra Jean Pavel, both 11.

And at Kenmore Mercy Hospital, the verdict was "still critical" for the conditions of Iris Ascanazy, 7, and Betty Scheuer, 11. Neither had regained consciousness.

The Buffalo Courier-Express said today that Decina, according to members of the family, underwent an operation several years ago to relieve brain pressure.

The newspaper quoted the family as saying Decina suffered from "infrequent convulsions" because of his affliction, and for a long time had refused to drive his automobile.

During recent months, the newspaper quoted the family as saying, Decina's condition seemed to improve. He began driving for brief periods and gradually took his car out more and more, the paper said. The family said Decina suffered a "major" loss of his hearing when he was struck by an automobile when he was 7 years old.

State's Onion Harvest Should Decline 9 Pct.

LANSING — Planting intentions reported by onion growers as of March 1 indicate that the acreage planted in Michigan this year will be the same as the acreage harvested last year, the Federal-State Crop Reporting Service said today.

Growers intend to plant 9,000 acres, the service said, which should result in a harvest about 9 per cent less than last year.

Ambassador Chosen

HOLLAND — Neil Salm, 22, a Hope College junior from St. Anne, Ill., has been named Holland community ambassador for 1953. He will represent the city on a goodwill visit to Great Britain, sponsored by the Holland Community Ambassador Assn. Miss Salm is the first girl chosen as an ambassador in five years of association operations.

Seek to Stop Attempts to Recall Board Members

ROYAL OAK TOWNSHIP — A suit was filed yesterday in Oakland County Circuit Court to stop legal attempts at recalling two members of the George Washington Carver School Board.

Initiated by Elijah I. Burt, of 2043 Emden Ct., Oakdale Gardens, the suit names Otis C. Eaton, Lennie Cash and the Citizens Improvement Committee as defendants.

Hearings are slated to start Monday on a previous suit, backed by the improvement committee, asking that a recall election be ordered against board members Mrs. Loretta Baker and Chester Carter.

Tanker Crew Warns of Strike

Refuses to Sail Finnish Ship and Jet Fuel Load to Red China

HELSINKI, Finland — The Finnish seamen's union announced today the crew of the tanker Aruba will strike rather than sail the ship and its cargo of jet fuel to Communist China.

The union said as a result of Nationalist Chinese threats and the U.N. ban on strategic materials to the Chinese Reds, "the ship finds itself in danger of getting involved in actions of war."

It called on the tanker's Finnish owners to "direct the ship to safer waters." The union announcement said the crew has refused to sail beyond Singapore.

The eastbound tanker is believed to be somewhere in the Indian Ocean.

Finnish shipping circles suggested the owners, the Re-Re Shipping Co., might divert the Aruba to Indonesia for reloading of the 13,000 ton cargo onto other China-bound ships.

A spokesman for the shipping company said no action could be taken yet because no strike warning had been received.

The Aruba picked up its load of jet fuel from the Romanian port of Constanta, on the Black Sea. When it sailed for Red China early this month, U.S. congressmen launched a series of protests and the Chinese Nationalists on Formosa said they would intercept the tanker.

The Finnish government said it was powerless to stop the Aruba because it was privately owned and chartered "to a foreign country"—reportedly to a Hong Kong shipping firm owned by the Chinese Reds.

Three Persons Hurt in Headon Collision

Three persons were injured last night in a headon collision on M59 about five miles west of Pontiac. Listed in fair condition at Pontiac General Hospital was Edwin P. Dowd, 45, of 588 Larches, Birmingham.

He suffered severe face cuts when the car in which he was riding, driven by Arthur Rooks, 51, of 6015 Brookdale, Birmingham, collided with one driven by Francis Thompson, 17, of Brooklands. Rooks was unhurt. Thompson was reported in good condition with face cuts.

A passenger with Thompson, Paul McIntyre, 16, of Brooklands, was listed in good condition with throat cuts. Two other youths in the car were not hurt.

Thompson told Waterford Township Patrolmen Merrill Finkle and Millard Pender that he did not see Rooks' eastbound car as he (Thompson) made a left turn.

Expect 1,200 to Attend Soo Marine Banquet

SAULT STE. MARIE — Some 1,200 guests are expected Saturday at the Soo's Centennial Marine Banquet, the city's annual sendoff to sailors starting the Great Lakes navigation system.

Principal speaker at the banquet, first major event of the Soo Locks Centennial celebration, will be Donald C. Potts, president of the Pittsburgh Steamship Division of U.S. Steel Corp.

Cleveland, Detroit and other Great Lakes cities are sending representatives to the affair. Among the guests will be Adm. Lindon Spencer, president of the Lake Carriers Assn.

Potter, McNamara Split in Tax Voting

WASHINGTON — Michigan senators split on party lines yesterday in the Senate vote that defeated the substitute offered by Democratic leader Lyndon Johnson of Texas for the administration tax bill.

Sen. McNamara, Democrat, voted for the substitute. Sen. Potter, Republican, voted against it.

Sen. Potter voted for a Finance Committee amendment striking from the House-passed tax bill a \$20 reduction for each taxpayer and dependent. Sen. McNamara voted against the amendment.

Motorist Seriously Hurt in School Bus Collision

DETROIT — A motorist was seriously injured but 45 school children escaped injury today in the collision of an automobile and school bus a mile and a half south of Flat Rock on combined U.S. 24 and U.S. 25.

Theodore J. Yanowsky, 24, of Lincoln Park, suffered possible fractures of both legs and the left wrist as his car hit the rear of the bus.

The bus, operated by Brownstown Township, was taking pupils to school in Flat Rock.

Ike Declines Listing

LUDINGTON — President Eisenhower has declined an invitation to be listed among sponsors of the Pere Marquette Memorial Pageant to be held with the Mason County centennial in July. Centennial committee secretary Agnes MacLaren said a "fairly rigid White House policy" asked the President's name be withheld from the sponsors' list.

Planning for Atomic Attack Not Adequate—Kefauver

WASHINGTON — Sen. Kefauver (D-Tenn.) said today there "has not been enough planning" by military and civil defense authorities as to what role each would play in event of an atomic attack on this country.

Kefauver said the government should plan carefully now to assure continued civilian rule wherever possible, in preference to martial law, should some disastrous attack occur.

"Each, the military and the civilian, should know what part it would play in such matters as fire fighting, evacuation of cities, restoring crippled transportation and communications, handling police duties, feeding the people," Kefauver said.

He added he believes recent public hearings before Senate Armed Services subcommittee heads have shown much more work should be done to bring the plans to a point where they could go into operation smoothly. Bad planning, he said, could result in "chaos."

Kefauver said his thinking is in terms of "preserving life and property, preserving and assuring the chance to preserve civilian government wherever possible."

Kefauver said that also is the thought behind a bill he has introduced proposing a constitutional amendment to cope with a situation which could arise in event some nuclear blast wiped out most of Congress.

Governors can fill vacancies in the office of Senator, but only a special election in the district involved can fill a vacant post in the House.

Kefauver's proposed amendment, on which a Senate Judiciary subcommittee is holding hearings under his chairmanship, would authorize governors to appoint temporary House members in cases where disaster eliminated a majority — 218 or more — of those elected.

He said the idea is to prevent a situation in which swift action at the national level would be required, and in which a huge membership loss otherwise would leave the Congress powerless to act.

128 Models Offered in GMC '55 Trucks

(Continued From Page One)

purpose series combining the advantages of cab-over-engine and conventional models.

"The 1955 GMCs represent the greatest advancements in truck engineering and styling ever achieved in a model changeover by a major truck manufacturer," said Philip J. Monaghan, vice president of GMC and general manager of the division. "GMC Truck has invested several million dollars to bring out a new product that obsolesces, from an economical standpoint, practically every truck in use today."

Entrance into the V-8 field makes GMC the first exclusive truck manufacturer to present a complete line of standard models powered by V-8, 44 in all.

Two different V-8s have been developed. The 238 cubic-inch engine for light and medium-duty trucks develops 155 horsepower, and the 324 engine for medium and heavy-duty vehicles achieves 175 horsepower.

All of GMC's 6-cylinder gasoline engines have been increased in power, ranging from 130 to 225. Number of models equipped with hydramatic transmission has been boosted from 13 in 1954 to 65 in the 1955 line.

The new styling of all GMC conventional and dual purpose trucks combines the graceful lines of passenger-car outline with functional ruggedness.

Large wrap-around windshields along with a lower cowl and hood give the driver "picture window" visibility, a "jet-stream" air scoop on the hood provides a greater entrance area for cooling air to the radiator, and a wider and lower cab with greater interior space carries out the low silhouette theme.

Thirteen exterior colors are available and optional equipment consists of such drivers' aides as electric windshield wipers, left-hand door locks, wrap-around rear windows and E-Z eye tinted glass.

New equipment has kept pace with styling and engineering improvements. In the light-duty 100 series, for instance, tubeless tires become standard equipment.

Another significant engineering improvement is the development of a "hold" position in the 8-speed hydramatic transmission for medium and heavy-duty trucks.

Featured also in the 1955 line are the dual purpose trucks which combine in one truck advantages of a cab-over-engine unit and conventional long-hood vehicle. They have an 89-inch bumper-to-back dimension.

The new cab-over-engine Diesel series will feature a new 6-71 engine.

This Diesel engine, with power in the 175-185 horsepower area, is light in weight due to the use of many aluminum parts. Although lighter, it has been engineered for even longer life and has such new features as a two-plate, 14-inch clutch.

Three other GMC engines have this rugged clutch. Engineers believe the clutch will wide acclaim in trucking circles for its strong construction and for the savings resulting from reduced clutch replacement expenses.

Another significant addition to the 1955 line is a "Beet" series light-duty truck, an economy model that has all the basic features of the "standard" and "deluxe" in the half-ton through one-ton weight class but does not have all the trim and other appearance factors of the other two.

Police Get New Hats

MUSKEGON — The Muskegon Heights police department has adopted a new sombrero-type headgear to replace the traditional officers' peaked caps. The city is the first in Michigan to change police hat styles.

Pat Ward Tells of Sin for Jelke

Resumes Story Today After Breaking Down on Witness Stand

NEW YORK — Pat Ward returns to the witness stand in the Mickey Jelke vice trial today to make another stab at telling about her life as a cafe society call girl. The slimly attractive brunette wept uncontrollably when questioned yesterday about her life with Jelke and the men who bought her favors for high fees.

Court was moved once to give her a chance to regain control. When she broke down again soon afterwards, the session was stopped for the day.

Now 21, Miss Ward repeated testimony which the public and press were not allowed to hear in Jelke's first trial in 1952.

He was convicted at that time on two counts of compulsory prostitution but the verdict was later set aside because the courtroom had been closed while the prosecution presented its case.

Miss Ward, whom Jelke is accused of inducing into a life of prostitution, seemed composed and assured as she took the stand as the state's star witness. Tall and erect, she wore a becomingly plain black dress with a green scarf tucked gently around the neck.

However, as Asst. Dist. Atty. Anthony J. Liebler drew from her the story of her life, her composure began to crack until she was finally silenced by choking sobs.

She told of meeting Jelke in 1951 and of going to live with him in his East Side apartment. She said that after a short time he told her he needed money and she could help him by taking fees from men she would meet through him.

At the time Jelke was a 21-year-old society playboy and prospective heir to a large oleomargarine fortune. The state contends he took Miss Ward's call girl earnings to finance his high living until he came into his inheritance.

Miss Ward testified that Jelke had told her they would eventually be married but could use money that other men would give her in the meantime.

She mentioned a Mr. Karshan, a Mr. Lowe, a Mr. Lewis and a Bill Cahn. None was further identified.

The only well-known men whose names have been linked with Miss Ward in the trial so far are actors Mickey Rooney and John Caradine. Both were mentioned as pre-Jelke friends of the girl in the defense counsel's opening statement, and both said she was never anything more than a casual acquaintance.

Pontiac Deaths

Burton P. Daugherty Sr.

Service for Burton P. Daugherty Sr., 59, of 14 Williams Lake Rd. will be held from the Farmer-Sover Funeral Home Friday at 2 p.m. Dr. William H. Marbach, pastor of the First Presbyterian Church, will officiate with burial following in Lakeside Cemetery, Holly.

Beside his widow and two sons, Burton P. Jr. of Lansing and John Balcom who is in service, he is survived by two sisters, Mrs. M. Daugherty died Sunday Truesdell, both of Holly. James Haddon and Mrs. Nellie following a heart attack while vacationing with his wife in Cleveland, Fla. His body will be at the funeral home after 7 p.m. tonight.

Julius Spivy

Julius Spivy, 73, of 34 Gingle Court died yesterday at his home after a three year illness.

Born June 30, 1881, in White Water, Mo., he was the son of Thomas and Adeline Berry Spivy. In Marble Hill, Mo., he was married to Lillie Snider Aug. 16, 1913.

Mr. Spivy was a farmer and came here four months ago from Hickory Ridge, Ark.

Besides his widow, three children survive, Roy of Goleta, Calif., Amos and Ralph, both of Pontiac and nine grandchildren. Two sisters, Mrs. Kate Dile of Los Angeles, Calif. and Mrs. Mary Otto of El Monte, Calif., also survive.

Service will be held Thursday at 2 p.m. from the Kirby Funeral Home with the Rev. Wesley R. Wiley of the First Assembly of God Church officiating. Burial will follow in White Chapel Memorial Cemetery.

Nellie Blanche Warren

Nellie Blanche Warren, 82, of 2566 Pontiac Rd. died yesterday in Flint.

Born Oct. 13, 1872, she was the daughter of J. P. and Louella Young Terrill. Mrs. Warren had lived in Pontiac and Rochester for more than 30 years.

Surviving are four sons, Grant of Puerto Rico, Harry of Seattle, Wash., Theodore R. of Ortonville and Dr. Harold P. Warren of Flint; one daughter, Mrs. Nina Martin of Rochester, nine grandchildren and one great grandchild. A brother, Milton of Winding, Mo. and a sister, Mrs. Louella White of St. Louis, Mo., also survive.

The funeral will be held from the Groves & Co. Memorial Chapel, Flint, Thursday at 10:30 a.m. with burial in Ottawa Park Cemetery, Waterford.

The Day in Birmingham Proposed School Budget Gives Teachers Pay Hike

BIRMINGHAM—Teachers were given a \$200 salary boost for the 1953-54 school year, in a tentative \$2,911,139 budget approved last night by the Board of Education.

Under the new salary schedule, starting teachers with B.S. degrees will receive \$3,500. Annual increments over a 12-year period will raise this to \$5,700. The State Department of Public Instruction now recommends \$4,000 as a starting wage.

For holders of M.A. degrees, the local schedule has been revised to a minimum of \$4,100 and a 12-year maximum of \$6,300. President and maintenance men received \$600 increases, with a \$100 raise for general office workers.

The new budget represents \$281,139 more than last year's and was termed conservative by Supt. of Schools Dwight B. Ireland.

In other action taken last night, the board reconsidered a school boundary change which would

have sent youngsters in the area bounded by Maple, Elton, Yosemite and Adams to Torry rather than Adams School.

It was recommended that the school administrative council adjust the boundaries to permit the children to continue at Adams next year, with other youngsters originally to be transported to Adams, sent to Torry instead.

Bricklayers are back on the job today, a month and a half after walking off in protest over carpenters being assigned the task of installing pre-cast concrete panels at the Adams Fire Station now under construction.

A union dispute between AFL bricklayers and carpenters has been settled, after bricklayers stopped their work on Feb. 2. The Birmingham structure was used as a test case in determining which of the labor groups should be awarded the work.

A benefit card party with proceeds going into their hospital fund, will be held by MOMS Club Unit 3 at the Mt. Vernon drive home of Mrs. John W. Walrath Jr., following a 12:30 luncheon tomorrow.

The Wing Lake summer recreational program will be discussed by William McGuire, who will direct the activities at the Wing Lake School PTA meeting at 8 tonight.

McGuire will also answer questions on the six-week program scheduled to start July 5.

Contributions to the 1953 Community House Roll Call fund drive are slowly edging the total closer to the \$55,400 goal. Since the drive's close on March 1, added funds exceeding pledges, have brought the total to \$48,546 as of yesterday.

Harold Hagen, chairman of business solicitations, said Roll Call workers are optimistic that "we're going to make it."

The possibility of sponsoring a European family under the Refugee Resettlement Act, will be taken up at a family pot luck dinner at 6:30 tonight at the Congregational Church. Two guests will speak on their own experiences since being brought to this country.

Election of officers will highlight tonight's Beverly School PTA meeting. A University of Michigan Extension division representative will also speak at the gathering at 8.

A St. Patrick's Day turkey dinner is in store for members of the Co-Ed Club meeting at 7 tonight at the YMCA.

County Births

Howard B. Edginton

ORTONVILLE—Lodge of Sorrow will be held at 7:30 p.m. Thursday by the BPOE Elks 810 for Howard B. Edginton, 55, of 385 South St., who died Monday. The funeral will be held at 2 p.m. Friday from the Pursey Funeral Home, with burial in Royal Oak Cemetery.

Surviving are a brother, Harold of Waynesville.

Mrs. Emma J. Heath

ROCHESTER—Service for Mrs. Emma J. Heath, 88, a former resident living in Iron Mountain, will be held at 2 p.m. Friday at the Freeman Funeral Home there. She died Tuesday.

Surviving are two daughters, Mrs. Rose Skillman of Iron Mountain and Mrs. Hattie Mae Jones of Jeddah, and two brothers, John Beer of Detroit and Robert Beer of Bloomington, Ill.

Fire Destroys Home

ELLSWORTH — Fire destroyed the farm home of Vernal Shooka, in nearby Central Lake Township, firemen reported Tuesday. No one was injured in the fire which caused an estimated \$5,000 damages.

Students Tour India for \$100

2 Yanks Travel From Delhi to Ceylon During 8-Week Vacation

NEW DELHI on — An eight-week tour of India for \$100? Michael Hammond, of Menasha, Wis., says he did it with Bryce Claggett, of Washington, D. C.

The two men, both 25, are in India on scholarships from Rotary International. They made their tour during the annual college vacation which, in India, is just over.

Claggett is a Princeton University student now at Allahabad University. Hammond is studying at Delhi University after graduating from Lawrence College, in Appleton, Wis. They traveled 5,000 miles from Delhi through south India to Ceylon.

"We rode third class trains and buses all the way," Hammond said. "In the heat and humidity of the South, air conditioning would have been swell; but we had to settle for third class — open windows, dust, cinders and all."

"We couldn't afford hotel rooms and in most of the places we visited there were no hotels anyway. Besides, the weather was nice and it was fine to roll out our blankets on the station platform."

"Food was all right, except we had to settle for the same menu every day, and three times a day. The Indian restaurants supplied us a plentiful — I mean a banana leaf full — of rice and curried vegetables. We washed it down with tea and topped it off with fresh fruit."

That was the menu: breakfast, lunch and dinner.

"A few people said we were the first Westerners they had ever seen traveling in third class. Getting to meet people—something we hoped to do in addition to saving money by traveling cheaply—was rather difficult. No one was hostile to us, but our fellow passengers were rude."

"We visited some 300 temples and had a good survey of Hindu art and customs."

"There was some unpleasantness on the trip — my camera was stolen, I was pushed out of a seat in a railroad compartment when I dozed off, a few other things — but on the whole it was wonderful."

All Brothers in Blue

SAN ANGELO, Tex. (AP)—The sign on alling Motorcycle Patrolman Jack Beckham's hospital door said, "No visitors except members of the family." Seven of his "brother" policemen were noted leaving.

No Violence in Chicago, but Plenty in Carolina

COLUMBIA, S. C. (AP)—Former Chicago police officer J. C. Bedenbaugh told the judge he'd toured a Windy City beat for four years and never met violence. Now an officer here, Bedenbaugh asked a cursing man what the trouble was.

"All I got was trouble," Bedenbaugh told the court.

The man was fined \$100 for attacking the officer with fists, a stick and knife, told the judge he didn't remember slugging Bedenbaugh.

Bomber Crashes After 3 Bail Out

FLORENCE, S.C. (AP)—A B-47 Air Force bomber crashed and burned near North, S.C., early today. The crew of three bailed out.

One crewman made his way to St. George, S.C., and told Air Force officials his mates had cleared the plane before it hit.

Ground crews and a Shaw Air Force Base helicopter launched a search for the two missing men.

Maj. Forrest Folles of the Civil Air Patrol here said the burned wreckage of the six-engine jet bomber was found five miles north of North. He said the plane first

sent distress signals as it flew over Charleston, where a refueling operation was scheduled.

The plane, based at Eglin Air Force Base, Fla., was on a training mission.

Baltimore Finally Set to End Gas Light Era

BALTIMORE (AP)—City officials have set aside \$325,000 as a starter to buy Baltimore's way out of the gas light era.

They estimate these funds will provide enough electric lamps to replace about half of the 10,000 gas lamps still in use.

Baltimore is one of the few American cities where the old gas lamp can still be seen.

Felon in Jail for Life After 4 Days Outside

SALT LAKE CITY (AP)—The 1956 presidential campaign will be fought out on the primary issue of general public interest versus special interests, Democratic National Chairman Paul M. Butler says.

Butler, in town for a Jefferson-Jackson Day dinner tonight, told reporters, "The Republican administration is serving the special interests in its agricultural power, fiscal and tax programs."

But Democrats, he said, "will make our appeal in the next campaign to the masses. We will fight to return government to the people."

California Sees More Emigrants to South Section

LOS ANGELES (UP)—California's 14 southern counties now have an estimated population of 7,659,000 and are expected to have a total of 10,175,000 by 1965, according to the Home Builders Institute.

The adjacent counties of Los Angeles and Orange, for example, will grow from their present 5,212,300 persons to nearly 7,600,000 in the next 11 years, the HBI said, noting that the southern area has 62 per cent of the state's population, with 40 per cent of it in Los Angeles County.

The Institute said its "guesses" were based on an expected annual growth rate of 1.66 per cent for the two counties, but it pointed out that the totals might be even larger as the yearly growth rate for metropolitan Los Angeles has been 2.30 per cent.

HBI estimators said the 14 counties grew somewhat less rapidly in 1953 than in 1952 and that of approximately 275,000 persons settling in the area last year, 200,000 chose Los Angeles County and 30,000 Orange County.

Percentage-wise, San Diego County has shown the greatest growth in the period from 1940, while Orange County has topped the annual list since 1950.

Celery Picker Built by 2 Michigan Men

BYRON CENTER (AP)—The Lubber Brothers — Garrett, Jay and Bernard — got tired of the tedious job of cutting celery, and invented what they claim is the first machine-operated celery picker. They used to harvest three-quarters of an acre a day from their 70 acres of celery. Now, Jay says, they can cover 1½ acres daily.

The Garrett machine shears the celery plants with two hydraulically operated V-shaped cutting blades. The forward motion of the machine forces the celery up into a chute. Conveyors carry the plants to workers who trim excess

foliage. The celery then is thrown to another belt which loads it on wagons.

The Garretts say they built their machine for \$2,000.

Regains Car Via Hunch

ST. LOUIS (AP)—Layman Hodges read that about 200 cars stolen in St. Louis had been sold to unsuspecting Tulsa, Okla., dealers. Playing a "hunch," Hodges spent part of his vacation there looking over recovered cars in the Tulsa Police Department parking lot. He found his 1952 Plymouth there yesterday. It had been stolen Nov. 2 from in front of his home.

U. S. Savings Bonds are one of the safest investments. Buy them regularly.

94-Year-Old Passenger Marvels at Rail Service

GREEN BAY, Wis. (UP)—The old gentleman couldn't have been more pleased with the service of the North Western railroad.

The 94-year-old man — no one thought to get his name — arrived at the station a few minutes after train number 120 had pulled out for Sheboygan.

While he still was contemplating his misfortune, he saw the train coming back into the station — backwards.

"Okay, old-time r. Here's your train," he was told.

Happy and incredulous, he got aboard. He didn't know that the diesel locomotive had failed and that the train had been backed to the Green Bay depot for repairs.

Cross-Country Call Saves Girl

Colorado Doctor Gets Poison Antidote From Philadelphia Chemist

PUEBLO, Colo. (AP)—A cross-country telephone call, with a lift from Philadelphia police, helped a Pueblo doctor save the life of a year-old toddler early today.

Somehow the small daughter of Mr. and Mrs. Robert Keller obtained and swallowed some plastic welding solvent at their home. Dr. Ted Miller, a pediatrician, was called, and he sent the child, Anita, to Corwin Hospital.

"She seemed to have a rather severe intestinal upset," the physician said later, and in addition he had no idea about the chemical content of what she had swallowed.

Dr. Miller knew only the name of the Philadelphia firm manufacturing the substance, the Postmatic Co. So he telephoned police there and asked if they could get a company chemist to tell him about it.

Back came a call within the hour, from Dr. Samuel B. Goldman the chemist. He told Dr. Miller the solvent's formula, an antidote was given little Anita and soon she was "doing fine," the pediatrician said.

"I didn't even get his name," Dr. Miller said of Goldman, "but he sure knew what he was talking about."

Nurses said blonde, curly haired Anita was sleeping soundly early this morning.

Hospital Work Shifts as Dove Hatches Eggs

SAN DIEGO, Calif. (AP)—Workers building a seven-million-dollar addition to a Naval hospital are leaving part of their job unfinished—until a dove hatches its eggs.

"What's a seven-million-dollar building to the family life of a bird?" said construction superintendent Vane Price yesterday.

The dove built her nest on one of the main concrete support columns of the addition last weekend. The men were working to add 75 more feet to the column.

They tried to move the bird by shouting and by using a fire hose aimed from the ground at the next 25 feet up. But the maternal instinct was too strong. The dove wouldn't budge off her two eggs.

Vane finally ordered the men to another phase of the job.

Gets Novel Sentence

POUGHKEEPSIE, N.Y. (AP)—Justice of the Peace George Dietz gave William B. Johnson, 22, a 30-day sentence and fined him \$75 for 11 traffic citations, including one for reckless driving. Then the justice suspended the sentence on the condition that Johnson attend church every Sunday for a year. He appointed a local minister to see that he does.

ENDS 55 YEARS AT SEA — After a half-century ship, a duplicate of the vessel he sailed on as a boy at sea, Capt. F. A. Brytz of Ferrysburg, Mich., has cook 51 years ago from his native Sweden. He commanded ships on the Great Lakes for the past 16 years.

Precise Effect of Changing Climate Not Yet Calculated

NEW YORK—For about 40 years now the temperate and arctic regions have been getting warmer. What it means could be very important to us. But 22 scientists, learned in the many complexities which go into climate changes, can't be sure of just what it does mean.

Dr. Harlow Shapley, famous Harvard astronomer, one of the 22 and their spokesman, said it might well be the first beginnings of a new Ice Age. On the other hand, it could be the continuing retreat of the last one.

But it might be that the upper atmosphere is, at last, getting clear of the dust which gigantic volcanic eruptions of the past 100 years hurled into it.

To get your teeth into how and why climate changes you have to consult many sciences, such as physics, astronomy, biology, meteorology, oceanography, paleontology, geology, geography, and demography. The American Academy of Arts and Sciences assembled the 22 scholars versed in these fields, for a two-day attempt at hard and fast answers.

But those kinds of answers are rarely to be had, and certainly are not presently available as regards climate changes. Which isn't to say that much knowledge doesn't exist. Contrarily, the knowledge chewed over during the two days made a 310-page book, "Climatic Change," which Shapley edited and which Harvard University Press is publishing.

The 22 recognized man as a climate changer—but a puny one. He pours smoke into the atmosphere and cuts down forests. But volcanic action flings mountain chains up from the earth's surface and these change the routing of air currents. Even more important is that the strength of the radiations of the sun is not constant. Those radiations can be hotter or cooler for hundreds and thousands of years.

Speaking of the possibility that we are living in the first moments (if a moment is considered to be a year or a decade) of a new Ice Age, Shapley said science was beginning to understand how Ice Ages came about. He outlined the steps, thus:

"First, the sun must get hotter and radiate more energy than at present into the earth's atmosphere, and especially into the water bodies on its surface. A few degrees rise in temperature will suffice.

"The increased evaporation and atmospheric circulation leads to

increased precipitation, and snow accumulates in the higher latitudes, increasing the temperature contrasts on the earth's surface. "Concurrently with the heavier snows of winter, there must be heavier cloudiness and cooler temperatures in the summers so that the snow will not melt away.

"We keep this machinery going for a century or two. Glaciers will begin to appear at favored locations in higher middle latitudes and, at least in the Temperate Arctic Zones, the earth's surface will cool.

"But there must also be high land if glaciers are to prosper and leave records for deciphering by future glaciologists. From the Silurian, Mississippian, and Jurassic periods, when the land was low, we have no glacial records."

Thus, the present changing climate "may be an early stage, in that increased solar radiation pre- sages enhanced evaporation and precipitation, which in turn go along with the beginning of a new ice age."

Registrations in American colleges during the fall of 1934 continued an upward trend, following the pattern indicated in the preceding year.

FAST RELIEF
HEADACHE

When you suffer from pain of Headache, Neuralgia or Muscular aches you want relief and you want it fast! That's Bayer Aspirin! A tablet starts dissolving almost the instant you take it—there's no need to go to work with amazing speed.

BAYER
ASPIRIN

YOU MAY HAVE
AND NOT KNOW IT!

Pinworms, nose-picking and a tormenting rectal itch are often tell-tale signs of Pinworms... tiny parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it.

To get rid of Pinworms, these pills must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P.W. tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredients go right to work—kill Pinworms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. At the first sign of Pinworms, ask your druggist for Jayne's P.W. Tablets. For the small, easy-to-take tablets promoted by famous Dr. D. Jayne & Son, specialists in venereal diseases for over 100 years.

JAYNE'S P.W.
for Pinworms

Hal Boyle Says:

Volkswagon Sales Zooming in U.S.

NEW YORK — Whoever thought Adolf Hitler would solve America's traffic problems? But in a small way he is — nearly 10 years after his death. All because of "The Beetle."

That is the nickname for the Volkswagen, the small mass-produced motor car which Hitler once promised every German family would soon be able to afford.

Most German families can't buy one yet. But last year more Americans bought Volkswagens than any other kind of imported automobile.

"Some 29,151 foreign-made cars were sold in the United States in 1954," said Arthur Stanton, "and 6,341 were Volkswagens."

Stanton, a tall, lean 37-year-old ex-Navy officer and husband of TV panelist Joan Alexander, is president of World-Wide Automobiles Corp. He distributes the Volkswagens in five eastern states.

He and four partners went into the import-export field after the last war with \$48,000 they borrowed. Now they do a 20-million-dollar-a-year business here and in Paris, French Morocco, and Tokyo. They deal in Cuban sugar and Japanese toys as well as in German and American automobiles and electrical products.

But Stanton's pet project right now is the Volkswagen.

"Since January they've been selling at the rate of 2,000 a month," he said. "In another couple of years they'll have an annual sale of 50,000 here. Then Detroit will start taking a long hard look at the small car market."

The "Beetle" holds four passengers (five, if one is a child) and is only 13 feet long. The 30-horsepower motor is in the rear. Under the front hood is a spare tire, the gas tank, and luggage space.

The car, which sells for about \$1495, goes 33 miles on a gallon of gas in the city, 40 in the country, can reach a speed of 65-70 miles an hour.

"The motor is air-cooled," said Stanton, "so it doesn't heat up in summer or freeze in winter."

"There's nothing really new about it. It was basically created in 1929 by Ferdinand Porsche, the famous Austrian designer."

"Hitler seized on the idea of selling it to the German masses at \$400 a car, but never got around to it. The Volkswagen was used

as a German jeep in the war. Field Marshal Rommel found it was a good military vehicle in his desert campaign because it had no trouble pushing through sand."

The civilian Volkswagens, made in a factory held in protective trust by the German government, got into real mass production late in the 1940s. Last year the factory turned out 240,000. This year it will gear up to 330,000 of which 55 per cent will be exported. A Volkswagen factory branch in Canada is planned.

"The cars are popular in this country with two classes of people," said Stanton, "wealthy people who buy them as a second car, and working people who want a low-priced car that is cheaper to operate and easier to park than a standard size automobile."

Many American tourists buy the cars in Germany, where the price is only \$1130, drive them around Europe on their vacations, and then ship them home.

But the irony of Hitler's "dream car" for the German masses is that, while an American working man can easily afford one, few German workers can.

"In terms of their own currency"

said Stanton, "a Volkswagen would cost them the equivalent of \$4,500." That isn't a dream price to an average German. It's an impossible nightmare.

Radios Aid Parking

HEMPSTEAD, N. Y. (U. P.) — A department store has inaugurated a radio-controlled parking system for its customers. A traffic control director on the roof of the four-story store keeps an eye on the parking lot. Information on available space is radio to parking-lot attendants equipped with portable receivers.

Incoming cars are directed to the nearest space.

Six of every 10 automobiles purchased by Americans during 1953 were to be paid for on the installment plan.

IN MEMORY OF EVA PERON—Above is the sculptor's model of the sarcophagus which will hold the remains of Eva Peron, the late First Lady of Argentina. It will be placed inside a 450-foot-high monument in Buenos Aires. The memorial, scheduled for completion in 1958 at an estimated \$3,000,000, will be topped by a 200-foot statue of an Argentine workman.

See Few Michigan Ports Prospering From Seaway

DETROIT (UP)—The St. Lawrence Seaway will directly benefit only three or four Michigan ports, and all other Michigan cities along the Great Lakes coast "can forget about it," a high state official warns.

"Too many Michigan points are overly optimistic about what the seaway will do for them," the official said. "The seaway can benefit the Michigan economy as a whole, but the number of cities themselves to feel the direct benefit of the seaway will be very limited."

The official denied permission to use his name.

He predicted that only Detroit, Bay City-Saginaw area and Muskegon will directly benefit by the waterway—at least for "several decades."

"At lot of other cities, including Escanaba and Menominee (on the west side of Lake Michigan), can forget about it," he commented. The views of the Michigan official were supported in part by J. H. Bailey, vice-consul and as-

sistant trade commissioner of Canada.

At a recent meeting of the Greater Muskegon Chamber of Commerce, Bailey said that the fact a city has a port located on the seaway route—even those with deep-water harbor access—is no guarantee that any immediate benefit to them will result from completion of the seaway development.

Bailey and the Michigan official agreed that only those ports able to muster enough export cargo from their manufacturing districts to warrant regular calls from foreign ship lines will realize any seaway benefits.

The Michigan Authority cited Holland as one of Michigan's "overly-optimistic" cities.

"Holland has made some progress with preliminary plans in working out some program to prepare for an influx of ocean-going vessels," he said. "But it's a sad fact that Holland is in a bad position, geographically and industrially."

Grand Haven Mayor Claude Ver-

duin recently warned that Holland, St. Joseph and Grand Haven cannot expect to feel the effects of the seaway improvements "overnight."

"This tremendous opportunity for business expansion won't mean a thing to us unless we have the business for the vessels to carry," Ver Duin told a Lions Club meeting in Holland.

He proposed reactivation of Holland's port authority to "provide continuity in this city's approach to harbor development and control."

Ver Duin, Canadian Vice-Consul Bailey and the unidentified state official agreed today that it may take "decades" before many Michigan Great Lakes ports are in a position to take full advantage of increased foreign trade by the oldest trade route in the world—water.

Dissatisfied Viewer

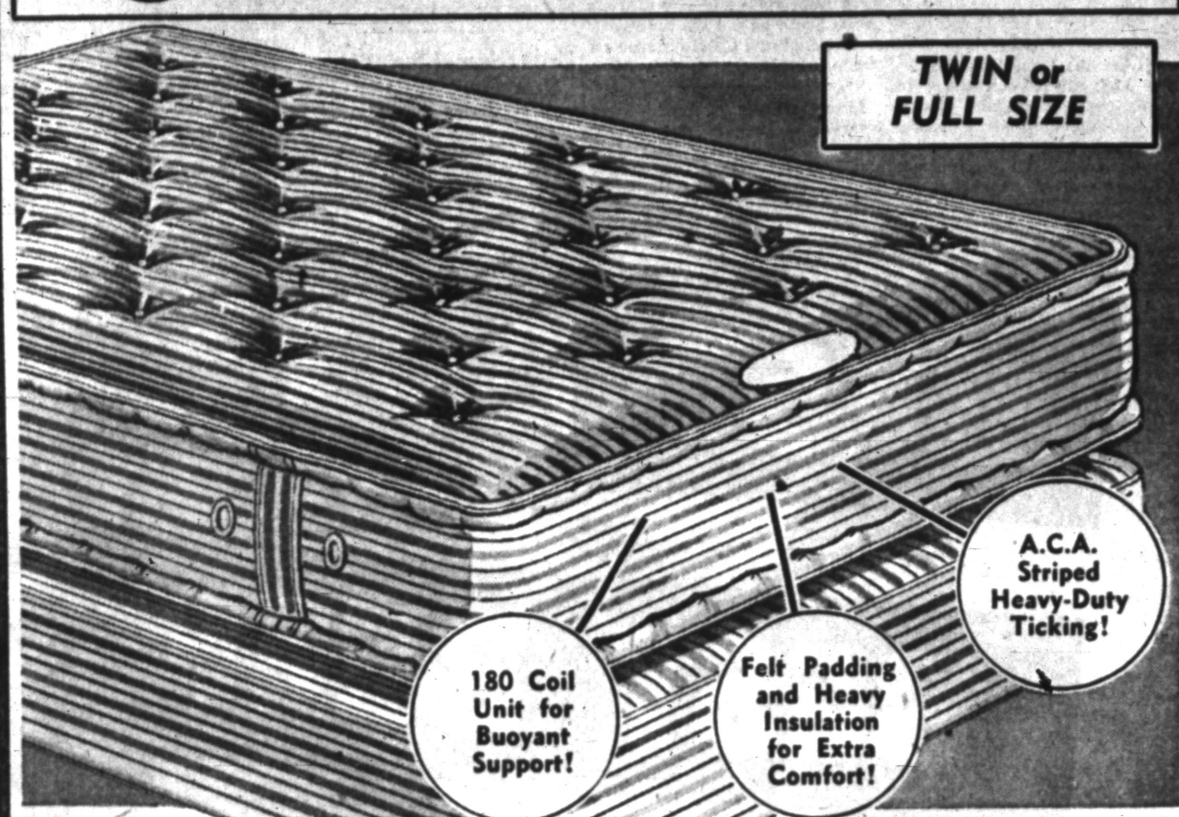

WILLIAMSPORT, Pa. (P)—An unknown thief was either very particular about the television set he stole from a store or was dissatisfied with a TV program. Police found the set abandoned on a nearby road.
