COMMISSION ENDORSES UNDERGRADUATE CHANGES

The President's Study Commission has endorsed a series of proposals for reorganization of the undergraduate curriculum at OU. Appropriate university committees will now study the proposals for possible implementation.

Supported by committees of faculty and a group broadly representative of the entire university were proposals to establish a School of Arts, a Center for the Health Sciences, and the establishment of a Bachelor of General Studies degree and a university honors college. In addition, the university's two inner colleges, New-Charter and Allport, were urged to locate within one of the university's existing organized faculty bodies.

A proposal to establish three two plus two programs with community colleges under the auspices of a Center for co-operative Education was endorsed. In it, the university would accept 62 credits or essentially the major work of community college students with associate degrees in three fields, applied science technology, labor studies, and business studies, and OU would then provide two years of training in general studies courses. A segment of the proposal that would have made the course department of the Division of Continuing Education a part of that new center was separated from the original proposal. President Donald D. O'Dowd will appoint a committee to study this aspect of the proposal.

PIPE ORGAN IS GIFT FROM MRS. ROGER M. KYES

A pipe organ, a gift to Oakland University, is to be especially designed and built for installation in Varner Recital Hall.

Announcement of the gift, a tracker-action instrument of the Baroque tradition, was made by university officials. The organ is to be created by world famous manufacturer Casavant Freres Limitee, Quebec.

The organ is the gift of Mrs. Roger M. Kyes, Charter trustee emerita of Oakland University. Her enduring efforts for the university since its inception in 1957 are well known. Mrs. Kyes, long a patroness of the arts, has expressed her wish to further the music education facilities of the university through plans for this classic instrument.

Oakland University President Donald D. O'Dowd called the gift "a thoughtful and treasured expression from a colleague of long standing and a great friend of this university. Mrs. Kyes will be remembered for her generosity for we have already named this great instrument-to-be the 'Kyes Pipe Organ'," he said. Board Chairman Otis Smith joined with the other members of the board in their wholehearted appreciation for this welcomed contribution to music education at the university.

Raynold Allvin, acting chairman of the Department of Music at Oakland with whom Mrs. Kyes worked closely on the planning for this new instrument said, "the musical vistas which open up for us are simply inspiring." He noted that music graduates should ideally have training in organ to become effective choral conductors for much of the great choral music is inseparable from the organ. "And," Allvin added, "we will now be able to teach organ on campus." Allvin also noted OU will be able to host institutes for choir directors and organists as well as to offer professional and student recitals. "We are truly indebted to Mrs. Kyes," he said.

"Varner Recital Hall is acoustically a very sophisticated and exquisite musical chamber," Allvin noted. "We are well known in this region for our ability to 'tune' this fine 500-seat hall for solo voice, chamber music or symphony. It will be my pleasure to follow the creation of this rare instrument. There are all too few of these tracker-action organs in this area," he said, "and the Kyes Pipe Organ will make superlative music here."

Some design details of the organ were noted by Allvin. It will have a (mechanical) tracker action, noted for its expressivity, and will follow the designs of traditional instruments built in the Baroque era during the time of Johann Sebastian Bach (1685-1750).

The design and installation is commissioned to Casavant Freres Limitee, Quebec, world renowned organ designers. The project is expected to take at least a year.

Mrs. Kyes' affiliation with the university began in 1957 from the time when she served on the first committee of the founding institution, Michigan State University-Oakland. She was appointed to the charter board position in 1970 by Governor Milliken when the newly named Oakland University was granted its autonomy as a state four-year institution. She reluctantly resigned in April, 1973 because of "time and geographical difficulties," but has maintained her contacts with the university and her colleagues. She now divides her time between her Bloomfield Hills residence and her activities in other states.

FUND DRIVE PROGRESS REPORT

The 1974 Alumni Association Annual Fund Drive commenced May 2, with a goal of \$10,000. Alumni have already contributed over 62% of that goal in the first four months of the Drive.

Two hundred and seventy alumni have participated, twenty-one as Pioneer Club members (\$50 or over).

The total \$6,280 consists of \$4,525 in individual contributions, \$1,400 in proceeds from the Friends of Oakland Swimming Meet, and \$355 in corporate matching gifts.

LETTER FROM THE PRESIDENT

Dear Fellow Alums:

It has been a good year, and I thank you for making my term as President a rewarding one. The successful '73 Fund Drive, the Turn of the Century Dance, the hectic days of the Friends of Oakland Swimming Meet, all point to your growing interest and work in your association.

Our laurels, however, are too young to rest on. The Alumni College, the '74 Fund Drive, the more informative Alumni Quarterly, all require your renewed participation in the Association.

The summer has been a busy one with several committees working on some very important events. Of immediate concern is our Fifteenth Birthday Open House, September 29, (which may or may not have past when you receive your Quarterly), and our Wilson Weekend, Friday, October 25. In the future, we will be needing volunteers to work on the Alumni College, the Class of '65 Reunion and the Alumnae Luncheon. If you are interested in working on these events, or have ideas for other activities, please feel free to contact the Alumni Office.

You may have heard from us via our Fall Fund Drive Telethon. Please remember that contributions are tax deductible, and that your degree means more only if your university continues to achieve high standards and to build needed programs. Your gift and continued support help in insuring the value of your degree.

Please pay special note and return the Alumni College Questionnaire. We very much want this weekend to be for you and by you.

Plan to attend the Alumni Association get-together on Friday, October 25. We promise you much food, more entertainment, and the most in good times.

Thank you again for your time and talents this year.

Sincerely,

Mary L. Wermuth, President
Oakland University Alumni Association

JOYS OF ASSOCIATION

by A. L. Umni

Scene: A small cottage (circa 1925), late October evening, harvest moon rising, autumn leaves rustling in the breeze...(you fill in the rest).

Characters: *Anmula Prez*, a worldly, job hunting O.U. grad.

Al Woman, a suave, debonaire, political aspirant, Class of 1970.

Dom Moradot, real estate broker bent on acquiring secret hide-away, unaware that it is presently occupied, also O.U. grad.

U. D. Alumnus, brilliant, shy, open-minded, extroverted, sophisticated, down-to-earth, practical, fun-loving, sexy, conservative, scatterbrained, energetic, handsome, whimsical, liberated, aware, relative, etc., etc., Jack of all trades, class of 19 ∞

Ms. Alumnae, charming business executive mother of three college students, Class of 1972.

Act I

Synopsis: Characters arrive at cottage (circa 1925) carrying various salads, vegetable dishes, and desserts. They partake in delightful conversation and in an even more delightful repast, featuring Untidy Josephs, a gourmet entree' prepared by Anmula Prez.

Act II

Synopsis: A short act in which characters discuss the joys of association and elect new directors for their Board.

Act III

Synopsis: Characters retire to spacious comfortable living room to enjoy crackling fire, warm conversation, live folk/pop singing, and adult refreshments.

THE END

You're invited to become part of the Scene at the Annual Alumni Association Gathering, Friday, October 25, 1974, at 6:30 p.m. in the Meadow Brook Estate Clubhouse. Members and non-members should bring their favorite salad, vegetable dish, or dessert to our Gourmet Pot-Luck Supper. We will supply the main dish and beverages.

Reminder

Recently you have received an Alumni Questionnaire from the Office for Educational Research and Planning. If you have put this aside, please remember to fill it out and send it in. Your participation is needed to improve Oakland's curriculum and the services it offers to its alumni.

If you have already returned the Questionnaire, many thanks for your cooperation.

SUGGESTIONS SOUGHT FOR ALUMNI COLLEGE

Are you suffering from atrophy of the mind? Would you like to take a course in under-water belly dancing? Or perhaps spend a romantic night camped on the shores of Beer Lake? How about a casual seminar with one of your endeared former profs on the parapet of Meadow Brook Hall? Why not live in the dorms again, or perhaps for the first time?

Sound like a nightmare? Well, wake up, we need your bright, alert mind to help us design an Alumni College for *you*. In case you haven't heard, Alumni Colleges are one of the most asked for, most well attended services provided by American colleges and universities for their alumni. Commencement Forums, Mini-Universities, Weekend Seminars, and the like are bringing alumni, faculty, and staff together for informal, intensive, course work on the post-baccalaureate level. Not a continuing education program, not a degree program. The concept of an Alumni College allows you to improve your mind in a challenging, non-pressure, enjoyable atmosphere, unavailable in most other settings. The Alumni College programs that work, however, are those that provide well for the needs of their graduates. This is where you come into the picture. We have had requests for this type of program and would like to try a pilot weekend in the Summer of 1975. We need you to tell us if you like the concept, and if you would participate. We'd like to know what type of courses appeal to you, what format is desirable, and which professors you'd enjoy being with again. On top of all that we need to know how much you would be willing to invest for a non-credit weekend course.

The Alumni College Committee, Ms. Jeannine Daly, Ms. Dee Snuggs, and Ms. Mary Wermuth, Chairperson, would like to know your feelings. Indicate them by filling out the enclosed yellow post-paid card at your earliest convenience. And remember, you can help stop atrophy of the mind.

SCHOOL OF ECONOMICS & MANAGEMENT FLOURISHES

In the short time since its inception, Oakland University has developed an innovative and successful undergraduate program in management education as well as an excellent undergraduate program in economics.

The management program has developed from a broadly based general education program within the university, and in July, 1969, these activities and resources were combined to form the School of Economics and Management under the direction of Dean Norton C. Seeber.

Student demand for the programs in the school have increased the enrollment to approximately 550 undergraduates and 16 master level students in the 1973-1974 academic year.

Professionally, the school is operating as close as possible to the frontiers of management education, Harvey A. Shapiro, assistant to the dean, School of Economics and Management, said. Every effort is directed toward the maintaining of flexibility, rather than toward the development of programs which are susceptible to hardening of the curricular arteries, Shapiro explained. To this end, the school limits concentrations in functional areas to those with the greatest long-term potential, instead of relying on historical precedent.

The economics department, an integral part of the school, has responsibility for the undergraduate degree in economics and for participation in the substantial economics portion of the Master of Science in Management program. The school's faculty which now numbers approximately 25 has gained a national reputation for excellence in teaching and for forward-thinking research efforts, Shapiro said.

He outlined the School of Economics and Management's three degree programs, two at the undergraduate level and one at the graduate level. The undergraduate programs are a B.A. in economics and a B.S. in management.

BACHELOR OF ARTS IN ECONOMICS

The curriculum for the liberal arts major in economics emphasizes concepts and tools of analysis and their application to problems of economic

and social policies. By learning ways of thinking in economics, students gain insight into how to approach economic questions in various applied areas, the assistant dean reported. Students are prepared for careers in industry and government or for graduate study in economics, law, management, or business administration.

BACHELOR OF SCIENCE IN MANAGEMENT

The management program provides an education for management (i.e., the effective use of resources for defined objectives) rather than an education which describes the practices in institutions of business. It aims to develop the transferrable skills which make adaptive and innovative learners, and it enables graduates to understand and manage changing situations, whether these be in profit-oriented enterprises or in private or public not-for-profit enterprises. Because education for management is a continuing process throughout a management career, the program seeks to give students the kind of experiences that will provide the foundation for adaptability within a rapidly changing modern environment.

The management major obtains the background necessary for entering industry training programs or graduate schools of management, as well as for initial entry into many positions in business, government, and administration, Shapiro maintained, and the program's emphasis on analysis and analytical tools, such as the computer, opens the way for positions in many areas characterized by rapidly developing technology and expanding employment opportunities.

MASTER OF SCIENCE IN MANAGEMENT

The Master of Science in Management (M.S.M.) program was formally inaugurated in September of 1973 following approval of the Board of Trustees. It had been under development for approximately seven years and had operated for one year prior to the formal start in an experimental mode with 15 students. Thus, in the summer of 1974, the first group of M.S.M. graduates emerged.

*Norton C. Seeber, Dean
School of Economics & Management*

*Harvey A. Shapiro
Assistant to the Dean
School of Economics & Management*

As described by Shapiro, the M.S.M. program consists of 48 semester-hours of credit and is designed primarily for students with little or no prior academic experience in management or business administration. A typical entering class may consist of substantial numbers of undergraduate majors from the social and natural sciences, engineering, and the humanities, as well as from other majors. Due to the design of the program, undergraduate majors in business administration may in some circumstances be admitted, but are not encouraged to apply.

Continued on next page

Continued from page 5

The program is organized around several course sequences, each of which is broken into modules. An important advantage of arranging the curriculum in this modular fashion is that it allows greater flexibility in the planning of individual instruction and in the combining of instructional elements. Modules range in length anywhere from three to sixteen weeks of instruction.

Students may elect to enter the program on a full-time or part-time basis. "Full-time" students take 12 credit hours in both the fall and winter terms for a period of two years. "Part-time" students take two courses in the fall, two courses in the winter, and one course in each of the spring and summer sessions for two calendar years. Thus, all students, whether full-time or part-time, can complete the program in two calendar years.

CONCENTRATIONS

Shapiro concluded with an explanation of the concentrations offered by the School of Economics and Management to its undergraduates. These are concentrations in specific areas aimed at developing special skills for students who have interests in a particular area of study. These concentrations include accounting/finance, human resources management, and public management. In addition to these concentrations which are internal to the school, students are permitted to take concentrations in other departments. Available for the 1974-75 academic year are Afro-American studies, computer and information science, environmental studies, health-medical behavioral sciences, journalism, public and societal systems, and social justice and corrections.

The school has also developed concentrations for those students who are not enrolled as management or economics majors but who wish to take concentrations in the school in conjunction with their own degree programs. These concentrations may be taken with a wide range of other majors including area studies, liberal arts, modern languages, engineering, and computer science. The concentrations available for these students are management, international management, economics, and international economics, Shapiro said.

ATTENTION

CLASS OF '65 AND FRIENDS

Do you know the whereabouts of the following fellow grads? The Alumni Office would like to invite these alumni to their ten-year Reunion in 1975. Listed below are their last-known addresses. If you have a more recent, correct address, would you kindly fill out the enclosed post-paid card and send it to us. We would be most appreciative. Thank you!

ALUMNI NOTES

1963

Elaine (Garwood) Henshon has recently completed her M.S. in Computer Science at Worcester Polytechnic Institute. She lives near Boston, Mass. with her husband Thomas, a Real Estate Developer, Matthew (5), and Suzanna (3).

1964

Dennis J. Parle has been appointed to the faculty in the area of modern foreign languages at Grinnell College, Iowa, effective August, 1974. He is a Ph.D. candidate at the University of Kansas where he had served as assistant to the Dean of Foreign Students and as an assistant instructor.

1966

Winifred (Yothers) and Rick Krogsrud '68 directed a workshop entitled, "New Physiological and Psychological Parameters of National Swimming Competition," which was presented by Corey Van Fleet, OU Physical Education and Athletics, in Oak Ridge, Tennessee, May 10 and 11. Rick Krogsrud is completing his Ph.D. in microbiology at the Oak Ridge Testing laboratories.

1967

Martin Reisig notified us of the birth of his son, Joel Paul Reisig, February 23, 1974. Marty has joined the law firm of I. Goodman Cohen, Detroit, Michigan.

1968

David A. and Anita (Moon) Meyers '70 announce the arrival of Jennifer Lynne, 10/14/73. Peter (3) is the fourth member of the Meyers' family. David has a new position with Haskins & Sells in Detroit.

1969

Edwin Johnson received the Doctor of Jurisprudence degree from Willamette University, Salem, Oregon, in May. He was planning to take the Oregon bar examination this summer.

James W. McHutchion has joined the staff of the American Chemical Society's Chemical Abstracts Service (CAS) in Columbus, Ohio. This organization is the world's principal information center for chemical science and technology. They provide indexed information to scientists throughout the world both in a weekly publication, "Chemical Abstracts", and on magnetic tape for searching by computer.

1970

Don deBeauclair notified us of his July 6, 1974, wedding. His new wife's name is Nancy.

James A. Evans is presently employed as the Associate Director of Oakland Community College Center for Drug Studies and Consortium for Human Development.

Linda E. (Pitman) Leaveck advised us of her marriage May 20, 1972. She and her husband are now residing in Flint, Michigan.

1971

Jane (Radtke) Hutchins is working for American Baptist Home Mission Societies, National Ministries, Valley Forge,

Pennsylvania. Since leaving OU, she has nearly completed her work for the M.A. degree. Her husband, Dean is presently pursuing his M.A. at Eastern Baptist Theological Seminary.

1972

Karl R. Brimner has recently resigned his position as the County Substance Abuse Council Program Coordinator. While serving as chief spokesman for the Calhoun County program, Karl resided in Battle Creek, Michigan. However, he is moving to California where he is enrolled in the Clinical Psychology Masters program at California State University this fall.

Joel Cohen has received his M.P.H. from the University of Michigan, and is now employed by the Aluminum Company of America (ALCOA) in the Health and Environment Department.

S. Jeanie (Wyllie) Ogburn recently notified us of her marriage. She and her husband are now residing in Lawrenceville, Georgia.

Gerald Persha donated the telescope for the recently dedicated Oakland University Observatory. Persha, assisted by Dan O'Dowd, son of OU President O'Dowd, built the eight-inch Newtonian-Cassagrainian reflecting model over a three-year period.

Linda (Eikhoff) Shene married Richard A. Shene of California, July 20, 1974. She will begin her third year of teaching in Utica Community Schools this fall.

1973

Graham W. Cookson has been working at MIT's Lincoln Laboratory as a Scientific Programmer-Analyst for the past year. The Laboratory is involved with the technology of the U.S. Radar Defense System.

Sue (Napper) and William J. Kehoe were recently married, and are living in Holly, Michigan.

Penelope (Hamilton) McMullin advised us of her recent marriage and move to Royal Oak, Michigan.

1974

Kevin T. Fair is one of 75 minority students throughout the nation chosen for a fellowship in a unique program for management careers in business and not-for-profit organizations. This program is called the Consortium for Graduate Study in Management, and is operated jointly by Indiana University, University of North Carolina, Washington University (St. Louis), and the University of Wisconsin. Kevin will attend the University of Wisconsin.

Richard Gurnee presented a paper on "An Application of Discriminant Analysis" in the undergraduate session of the Michigan Section of the Mathematical Association of America, held at Central Michigan University on May 3-4, 1974.

IN MEMORIAM

Matt R. Lowrey died July 3, from injuries sustained in a two-car accident June 28, near Rochester, Michigan. Matt was a teacher and co-director in OU's Toddler Center. He was a '72 graduate of O.U.
