

Dems Offer to Meet Ike Halfway

When a Mouse Turns

SHOCKING! — When a mouse turns on his natural enemy, the results can be dreadful. This cross-eyed Siamese cat knows somebody mixed up the script. Of course, it may not have happened just this way, but photographer Gilbert Barrera, of San Antonio, Texas, refuses to reveal just how he staged the gag.

4 City Doctors Lose Suit Against General Hospital

Four Pontiac General Hospital doctors, who claim the hospital has no right to regulate their practices, lost their lawsuit today as Oakland County Circuit Judge Clark J. Adams ruled that "controlled" medical staffs are necessary for the health and welfare of a community.

Pontiac Concern Joins Syndicate

Management, Personnel Unchanged at American Forging and Socket

The American Forging & Socket Co., 150 Branch St., is now a unit of United Industrial Syndicate, Inc., of New York, it was announced today. The New York syndicate has been purchasing shares of individual stockholders and is now the majority stockholder.

Existing management and personnel of the American Forging & Socket Co. have been retained and operations in Pontiac will continue as usual.

Harry B. Frazier, who has been affiliated with United Industrial Syndicate, Inc., has become a member of the company's Board of Directors, replacing Hiland H. Thatcher, who has retired.

Continuing as members of the Board are Goodloe H. Rogers, president and general manager; William H. Graves, vice president, and Murray D. Van Wagoner and Edward P. Barrett.

Frazier has also replaced Fred G. Hawke as treasurer. Hawke, who has retired to Florida after 40 years of service to the company, resigned as secretary and treasurer. Edward P. Barrett succeeded Hawke as secretary.

In discussing the new affiliation, Goodloe H. Rogers, company president, said, "We believe that we have increased our opportunities to serve our customers and to strengthen the company."

"The United Industrial Syndicate, Inc. presently operates a number of companies throughout the United States and Canada, manufacturing widely diversified products. As a member of this group, we enjoy advantages not previously available to us."

The Pontiac firm is well known in the automotive industry as a supplier of pressed metal stampings and assemblies. Founded in 1915, it has grown with the automotive industry and pumbers among its customers all the major automobile companies.

United Fund Still \$226,000 Short

Time is running out on this year's tenth anniversary Pontiac Area United Fund appeal, which has reached the critical final three days of the campaign with \$226,000 still to be collected.

Latest reports from the Fund's three divisions tabulated this morning at campaign headquarters indicate \$275,000 or 54.8 per cent of the \$501,000 goal has been raised.

The more than 4,500 volunteer campaign workers have been urged by Campaign Chairman Philip J. Monaghan to make every effort to put the drive over the top by next Tuesday, November 11.

The giant Industrial Division, headed by Semon E. Knudsen, has collected \$165,000 thus far. This total includes the \$115,000 General Motors firm gift for its three local plants.

The largest employee group total comes from GMC Truck and Coach Division which has turned in close to \$50,000.

Pontiac Motor Division and Fisher Body Division will kick off their in-plant employee solicitations Monday.

Returns from the Commercial Division, led by Judge Clark J. Adams and Berkeley Voss continue to lag behind the other two divisions.

The Commercial Division has raised \$89,000 or just under 50 per cent of its \$179,371 quota.

The \$179,371 goal is divided into two groups. A total of \$66,371 is collected in the form of firm gifts by the Special Gifts workers under Alfred C. Girard. The remaining

The Detroit Torch Drive went over the top yesterday in its campaign to raise \$15,700,000 to finance 186 community agencies. Officials announced that \$16,281,000 was raised.

\$113,000 comes directly from the employees of Commercial Division firms. This group has managed to raise only \$29,162 or 25.8 per cent of its \$113,000 share of the Division's quota.

The poor returns of the employee groups has prompted Adams and Voss to call an emergency meeting of Commercial Division leaders next Monday noon at GMC Truck & Coach. This will give the Division's 24 leading workers an opportunity to report their progress and problems directly to the campaign chairman.

The more than 1,200 workers in the Women's Division chairmaned by Mrs. Donald E. White, continue to bring in additional returns to United Fund headquarters. The Division now stands at 112.6 per cent of its quota with \$23,407.85 raised against its quota of \$20,790.

Smog Has L.A. in Tears
LOS ANGELES (UPI) — A pall of smog hung over Los Angeles yesterday and caused the fifth smog alert of the year. Another alert was expected today. The eye-irritating dirty air had been accumulating in the Los Angeles basin for the past several days because of a high pressure system that acted like a lid and prevented air pollutants from rising.

Memories Tinged With Sadness Gets Last Ride on Iron Horse

By SYLVIA COLE

There's something about a face full of dust, smoke, soot, steam and fresh air combined with the roar of the rails and orange-red fire that really brings memories tinged with a little sadness to a 54-year-old Oxford man.

Yesterday was a milestone in Marvin Boyce's life. He traveled from Pontiac to Durand and back in a train but his ride was different. He rode with the engineer and fireman in the cab.

Boyce, who has been a machine repairman at the Pontiac Motor Division since 1936 has always had the ambition of being an engineer on a steam engine train.

Several weeks ago he read in the Pontiac Press that the railroads were going to replace all steam engines with diesels by mid-December.

He immediately wrote to the Detroit Grand Trunk railroad authorities explaining his life's ambition and requested to ride in a cab "once more."

After permission was granted on Wednesday, Boyce made arrangements to leave work 45 minutes earlier yesterday.

He didn't listen to his wife who wanted him to get "dressed up." He wore denim trousers, shirt and cap just like his ideals wear.

When the train started out from Pontiac, Marvin's eyes beamed. He immediately introduced himself to the engineer and fireman and then quietly sat down, somewhat nervous.

Normally, Boyce is a quiet-spoken man, but soon he was shouting as loud as he could to the engineer and fireman, asking them questions and relating his experiences. (Continued on Page 2, Col. 1)

FULFILLS AMBITION — Conductor William Gibb of Farndale (left) collects ticket from Marvin Boyce, 54, of 2309 W. Drahn Rd., Oxford, who fulfilled his life's ambition and had one more ride in a cab of a steam engine yesterday before they become extinct. Engineer Wayne Danton of Detroit prepares to put on his goggles for the trip from Pontiac to Durand.

Scientists Rescued From Ice

RESCUED — George Cvikanovich, of East Orange, N.J., was chief scientist with the party of airmen and scientists rescued last night after spending five days isolated on a drifting ice floe in the Arctic Ocean.

FLOATING ARCTIC BASE — This picture of the Arctic Ocean ice island, known as Drifting Station A, was released in Washington today. Twenty men were rescued, after being marooned for five days when a violent polar storm split the tiny, exposed floe. The island was 960 miles northeast of Barrow, Alaska, when the storm broke.

Rescue 20 Men Marooned on Ice Floe Adrift in Arctic

ANCHORAGE, Alaska (UPI) — Drifting Station A's 20 marooned men were snatched to safety Thursday night in a dramatic Arctic rescue carried out by the light of flares.

All 20 of the rescued scientists and airmen were reported to be in excellent condition despite five days of isolation.

They were stranded Sunday on the Arctic Ocean 300 miles from the North Pole when an unseasonal polar storm ripped their mile-square ice floe apart.

The scientific station they were maintaining was an International Geophysical Year project.

A C123 from Thule, Greenland, guided only by flares set out by

the men themselves, landed and hustled them aboard. There is no daylight during the arctic winter.

The 11 Air Force men and nine

and the home base for the Air Force personnel.

The 10-foot-thick ice floe, first manned as an IGY scientific station in the spring of 1957, was ripped into two 1,000-foot-square pieces by the storm.

The men were marooned on the campsite half. The runway used to supply the station was on the other half.

The marooned men were informed of the rescue plane's approach by radio. They made a dash by small boats across a mile and a half of open water to the runway half of the island.

The scientific station, under command of Air Force Capt. James (Continued on Page 2, Col. 1)

Michigan Man Included

FAIRBANKS, Alaska (UPI) — A Michigan airman was among the men marooned on an International Geophysical Year (IGY) ice station in the Arctic. The Ladd Air Force Base information office identified him as Airman 1-c Johnny M. Cecil, 990 Auburndale, Ypsilanti.

Civilians will be flown to Thule and then to Ladd Air Force Base, Fairbanks, Alaska, the base of operations for most of the civilians

Antitrust Action Threatens GM

Sen. Dirksen Claims Dem Proposal Based on Inaccurate Report

WASHINGTON (UPI) — Possible government antitrust action to break up General Motors Corp., the world's largest auto maker, is recommended by Senate investigators.

However, Sen. Everett M. Dirksen (R-Ill.) takes strong issue with this proposal by the Democratic majority of the antitrust and monopoly subcommittee.

He described the majority report issues yesterday as being "handicapped by errors."

Recommending that the Justice Department consider court action against General Motors, the majority said:

"The hard core of the monopoly problem in the automobile industry is in the concentration of production and power held by GM."

The report said that GM accounts for about 55 per cent of the nation's auto production and "plays the key role in setting price levels for the whole industry."

In Detroit, GM spokesmen declined immediate comment.

The report, based on extensive hearings earlier this year, contended price competition has disappeared in the industry. And it criticized what it called overemphasis on high priced styling changes, advertising expenditures and misleading auto financing practices.

Substantial price reductions could be made without any sacrifice in profits, the report said, if auto makers curbed expenditures for styling, advertising and fooling in connection with frequent model changes.

Port Proposition Fails

DETROIT (UPI) — The Port of Detroit bonding proposition, designed to raise seven million dollars for facilities to serve ocean shipping on the St. Lawrence Seaway, did not gain the necessary 60 per cent margin and went down to defeat in the election.

Rocket Knock Causes AF to Delay Shoot for Moon

CAPE CANAVERAL, Fla. (AP) — A strange knocking noise inside the missile early today caused postponement of the latest Air Force attempt to shoot a satellite around the moon.

The huge Pioneer moon rocket glowed in the rays of floodlights for more than two hours in a driving rainstorm before the launch was called off at 12:34 a.m.

The Air Force has two more chances to shoot for the moon this month—in the early morning hours of Saturday and Sunday and then only within a critical time period of 18 to 20 minutes.

The time on a moon launching is critical because the planes of the earth and moon are in the opportune position for just brief periods each day.

If the missilemen fail to fire within the specified time, they will have to wait until early in December.

The launching was less than an hour away from zero when the noise was heard. The trouble apparently could not be pinpointed soon enough to get the rocket off during the critical time limit.

The Air Force announced only that "operations pointing toward an early flight of an experimental U.S. space exploration vehicle . . . were postponed due to technical difficulties."

Among the disappointed observers were Queen Fredrika of Greece and her daughter Princess Sophia.

The last moon rocket attempt, Oct. 11, failed to go all the way, but it did reach an amazing height of more than 90,000 statute miles, the farthest man ever has penetrated into outer space.

The first Air Force moon rocket blew up 77 seconds after launching Aug. 17.

Ready Cash in Treasury Dwindles

LANSING (UPI) — The state treasury, down to its last few million dollars, is on the verge of going flat broke as far as ready cash is concerned.

That was the report given to Gov. Williams yesterday at a special meeting of his administrative board called to consider the state's cash situation.

Williams termed the cash problem "acute."

"We'll have to get through for awhile on a hand to mouth basis," he said.

Sanford A. Brown, state treasurer, reported that at the moment the state has only 11 million dollars in cash on hand.

PAYROLL FUNDS HELD UP — Five million dollars of this, he reported, was obtained by withholding October payroll money

Johnson Says Cooperation Vital in U.S.

Senate Majority Leader Pledges Support, Maps 12-Point Program

WASHINGTON (UPI) — Sen. Lyndon B. Johnson (D-Tex.) pledged victorious Democrats today to meet President Eisenhower at least halfway to avoid partisan warfare in the two years ahead.

The Senate majority leader said that a nation "cannot exist in the field of foreign affairs and defense when it speaks with two voices."

At the same time, Johnson sketched the broad outlines of a 12-point legislative program, some parts of which are certain to draw Eisenhower's fire.

Johnson also took obvious note of Eisenhower's campaign speeches calling some Democrats spendthrifts, radicals, hoodlums and gloomdoctors, but said his party would not seek revenge.

"Every campaign, of course, produces its exaggerations and its heated remarks," said Johnson, who with House Speaker Sam Rayburn will lead the next Congress, when they see a few votes fading away—which they would never say upon reflection.

Johnson's speech was prepared for a Texas Business Education Day at Big Spring, Tex. Copies of his address, his first since Tuesday's elections greatly increased Democratic congressional strength, were given out at Johnson's Capitol office.

"The Democrats will give the President the same type of co-operation that he has received from us ever since he came into office," Johnson said.

When the Democrats agree with the President, they will try to support him, Johnson said, and when they disagree, they will try to present constructive alternatives.

Some of the proposals Johnson outlined today appeared certain to win opposition from Eisenhower, who re-emphasized at a Wednesday news conference what he called the dangers of reckless spending.

Without specifying what he had in mind, Johnson called for a new (Continued on Page 2, Col. 2)

More Brisk Weather in Store for Pontiac

Pontiac area residents can look forward to more of the brisk, fall weather they've been enjoying for the past few days. According to the weather bureau, there will be little change for the next five days.

Skies may be partly cloudy tonight and tomorrow, but temperatures will remain about the same and no rain is predicted until at least tomorrow night or Sunday, when there may be slight showers. Rain is expected again Tuesday or Wednesday. Temperatures will average slightly above normal.

Yesterday's temperatures in downtown Pontiac ranged from a low of 36 to a high of 50. The lowest temperature recorded before 8 a.m. today was 32 degrees and the thermometer rose to 52 by 1 p.m.

"We figured they'd be able to get along for a while by paying employees out of student fees," Brown said.

"They weren't too happy about it," added James W. Miller, state controller.

Brown reported that the next major outgo coming up in the state payroll due in two weeks. The payroll will take about four million dollars from general funds and roughly two million dollars from special funds.

Williams said there was no im-

Russia Fires 2 Nuclear Tests

U.S. Halt to Continue for Present, Says Ike, Despite Red Blasts

WASHINGTON (AP) — The United States announced today that the Soviet Union has fired two nuclear weapons tests since this country halted testing. President Eisenhower said, however, that the American suspension will continue for the present.

Announcement of the new nuclear explosions in the Soviet Union was made by the Atomic Energy Commission.

There was an implication in the AEC statement that the Soviets might have thought the two tests would not be detected.

Eisenhower said that "this continued testing by the Soviet Union has occurred despite the fact that negotiations for the suspension of testing of nuclear weapons have, since Oct. 31, been under way at Geneva."

The United States, he recalled, announced on Aug. 22 that concurrently with the opening of the Geneva negotiations it would suspend the testing for a year "unless testing is resumed by the Soviet Union."

The Soviet Union suspended tests March 31 and had not yet resumed them in August. Soviet scientists started a new series at the end of September, Moscow arguing that this was necessary because the United States and Britain had not accepted the Soviet proposal in March to halt all testing permanently.

Takes His Last Ride on Iron Horse Run

(Continued From Page One)

ences as a fireman "back in 1920 on a train which hauled logs from the woods to Cadillac," his home town.

The train had a half hour stop in Durand before it returned to Pontiac. In the middle of conversation, while sipping coffee, Marvin, still excited and enthused about the one hour ride, excused himself. "I want to buy those fellows some cigars," he said.

The ride back was in an open cab. Marvin had to stand all the way but from the look on his face he thought he was in his private heaven.

As he hung out of the cab opening while roaring down the track at 75 miles per hour, he seemed fascinated by the wheels. Frequently, he was on tiptoes.

"Smell them brakes?" he remarked as he took a deep breath.

Yesterday was a milestone for Boyce but it was sad as well as a happy one.

"When you get to be my age, you hate to let go of something," he explained as he referred to the passing of the steam engine.

He admitted it was progress just "like from the horse and buggy to the auto" but then, somehow it's a shame too.

20 Men Marooned on Ice Floe Saved

(Continued From Page One)

F. Smith, Oklahoma City, was engaged in a wide variety of IGY studies.

The chief scientist was George Cvikovich of Columbia University, New York. Another one of the civilians was Fath Thomas Cunningham of Barrow, Alaska, an expert on polar ice conditions.

The Air Force said there probably would be no attempt to get personnel back on the island this winter, because of the danger of carrying out such an operation in total darkness.

The Air Force said the abandoned floe or another like it would probably be manned next April.

Worst in Five Years

Quake Hits North Japan

TOKYO (AP) — A major earthquake spawned deep in the Pacific rolled over northern Japan in a thunderous wave today.

A tidal wave alert was flashed immediately across the main northern island of Hokkaido and northern Honshu but was canceled later.

The quake rumbled and jerked across Hokkaido for two terrifying minutes, beginning at 7:58 a.m. Lesser shocks surged as far south as Yokohama, a distance of some 600 miles.

The fact that the quake was born an estimated 60 miles below the ocean floor

east of Hokkaido was believed to have saved Japan from extensive loss.

It was Japan's worst earthquake in five years.

In Kushiro and Rumoi, 600 miles north of Tokyo on Hokkaido's east and west coasts, power and telephone poles tumbled down, severing communications for several hours.

It smashed windows, broke power lines, tumbled crockery and wrecked chimneys. No casualties or serious damage were reported, however.

Windows were broken. Merchandise in stores went flying off shelves. Walls of some buildings cracked.

Discuss Loss of City Sewage Bond Proposal

Pontiac city commissioners met briefly last evening to canvass the results of Tuesday's special election issue on the \$3,300,000 sewage bond issue, and analyzed what they believed caused the defeat of the issue.

After commissioners checked the "yes" and "no" vote on the issue from each of the city's 44 precincts, City Clerk Ada R. Evans confirmed that a total of 6,356 cast "yes" votes, while 5,173 voters pulled down "no" pointers.

Despite receiving a majority margin for passage, the issue still lacked by just more than 500 votes the necessary 60 per cent to pass.

After the canvass, commissioners decided to defer action on what the city's next step will be toward construction of an auxiliary sewage treatment plant until an informal meeting.

Democrats to Meet Eisenhower Halfway

(Continued From Page One)

farm program, saying, "There is something wrong when the government must spend 53 cents for every net dollar the farmer takes in."

Eisenhower told reporters Wednesday he contemplated no change in the administration's farm policy.

Johnson called for legislation to help areas of chronic unemployment. Eisenhower vetoed an area development bill passed at the last session which far exceeded his own recommended program.

And the senator called for stepped-up water development in the West, a lowering of interest rates he said are slowing down economic growth, a "bold housing program which will set its goal a home for every American family" and an expanded airport building program.

"Our country is heading into one of the greatest expansions of history," Johnson asserted. "There just won't be time for the partisan bickering and the petty political warfare that the columnists fear."

The election, he said, was neither a mandate to disunite, divide or destroy nor a mandate to campaign in Congress for the 1960 election.

"Speaking for the Democrats, I can tell you that it will not be our purpose to spend the next two years preparing for 1960. It will be our purpose to carry out the will of the voters to the best of our ability."

He predicted a constructive session of men "who will put partisan differences aside."

In addition to housing, urban renewal, airport building, a new farm program, water development, depressed area help and lower interest rates, Johnson said Congress must face up to:

A review of foreign policy "so that bold, new, imaginative programs can be recommended to responsible officials."

A "consistent policy for Latin America which will help our neighbors to help themselves."

The need to breathe new life into the newly created space agency and launch a program to explore outer space.

The need for a program to develop the peaceful uses of the atom with emphasis on an atomic merchant marine.

Passage of a labor bill "to protect honest, constructive labor from the selfish schemes of the racketeers."

Charles Hamilton Dies at Age 71

Charles W. Hamilton, the former superintendent of the Oakland County Infirmary, died yesterday in Sessions Hospital following a long illness.

Mr. Hamilton, 71, who retired as secretary of the Oakland County Department of Social Welfare board in January had been employed by the county for the past 35 years.

He lived at 50577 W. 10 Mile Rd., Northville. The funeral will be at 2 p.m. Monday. The body is at the Casterline Funeral Home, Northville.

Admits \$1,400 Grand Rapids Theft

Bridegroom Tries Holdup to Pay for Wedding Ring

GRAND RAPIDS (AP) — A young newlywed took a flyer at a holdup here Thursday.

Then he chartered an airplane to Chicago, but two minutes after landing was captured by police.

The captive, Walter Molenkamp, 19, was carrying a revolver in a shoulder holster but he surrendered meekly when he saw four detectives, revolvers in hand, rush at him.

Molenkamp, astonished at the reception, quickly admitted he had obtained \$1,400 in a holdup of a Grand Rapids gas station.

JUST MARRIED
"I was desperate for money," he told Detectives James Riley and Mike McCarthy.

"I got married last Tuesday and I only make 90 cents an hour at my job as a car hop. I had just needed the money badly and thought I'd take a flyer at the holdup."

The pilot, Robert C. Gable, also was startled when the policemen surrounded the plane. He was unaware that his lone passenger, who had paid \$60 for the 200-mile flight, was a fugitive.

"The only thing we talked about was how he could get a scheduled airliner to Clovis, N. M.," Gable said.

Police said they found \$1,143 in small bills stuffed in Molenkamp's pockets.

"This is the first time I robbed

4 City Doctors Lose Suit Against Hospital

(Continued From Page One)

only the State Board of Registration in Medicine could impose any control on their practices.

The four charged medical staff bylaws violated this state control, and sought an injunction preventing the hospital from enforcing its surgical practicing rules.

Judge Adams, in denying this injunction, said he agreed with a Florida court decision which said, in effect, that a hospital has the right to know the experience of a doctor before he is granted the permission to perform any type of operation.

This, the judge ruled, is the major reason why hospitals can enact their own rules for surgery.

"They (hospitals) cannot be neglectful in their many services. In the event that hospital authorities permit surgical procedure in their institution, knowing it to be inadequate, they would in a very real sense be neglecting the best interests of their patients," Judge Adams opined.

He said the four general practitioners had failed to "exhaust all provided remedies" of the hospital's medical executive committee in seeking increased surgical privileges. For this same reason, Dr. Neil H. Sullenberger, ousted last year from Pontiac General, lost out in his Circuit Court lawsuit to win reinstatement.

Procedure is established, hospital officials say, for a member of the medical staff to follow in the event he should desire to have his surgical privileges increased, and a method of appeal is provided also.

The four doctors, who last year had taken the case to the Michigan Supreme Court when it was tossed out of the lower Oakland court, had agreed to abide with the rules they claim are illegal when they were accepted on the medical staff.

"They concede in degree that there is a need for supervision of surgical procedures, but they contend that in their individual situations they should be guided by their own consciences."

Oral Correction Group Hears MSU Expert

Dr. Ralph Leutenegger, head of the speech and hearing clinic at Michigan State University, was the guest speaker of the Oakland County Correction Assn. today.

The organization meets at 1:15 p.m. in the Birmingham Board of Education Building. He spoke on current speech correction problems in clinics and public schools.

anyone and I'm sorry I got caught," he told the detectives.

"I planned to go somewhere in Arizona. When I got there, I was going to send the money to my wife, Beverly, and then I was going to shoot myself."

Molenkamp, who said he would waive extradition, told police a finance company had threatened to repossess his wife's engagement and wedding rings. That, he said, prompted him to hold up the gas station where he took \$1,200 from the cash register and \$200 from the attendant, Ed Vanderwerf.

"Once you put a ring on a girl's finger you shouldn't have to take it off, should you?" he said.

His soft-spoken bride of one month appeared stunned today in the wake of word that her young husband was being held in connection with a \$1,400 holdup.

Mrs. Beverly Molenkamp Jr., said she was anxious for word from authorities on whether she could go to her husband at Chicago or talk with him.

"The only word I've had so far was from local police, who told me Walter was captured," she said.

Mrs. Molenkamp is employed as a surgical technician at Burton Heights Osteopathic Hospital in Grand Rapids. She is not a registered nurse and is paid \$1.35 an hour.

She corroborated her mother-in-law's statement that the youth suffered headaches as the result of an auto injury and said "I know he needs help."

Molenkamp's employer said the youth had been working as a parking attendant since last Oct. 13 at the rate of 30 cents an hour, but had not measured up to requirements and a replacement for him was being sought.

Three alert Grand Rapids teenagers were credited with aiding police pursuit of Molenkamp.

David DeHoog, 18, was in another service station when a man entered and made telephone calls to the airport and a taxi firm.

"He acted kind of funny," DeHoog said. "He misdialed the first two or three times and mumbled 'Whoops, I goofed again' or something like that."

Walking from the station minutes later, DeHoog came to the home of Dale Van Lee, a friend, and saw police checking Molenkamp's abandoned car. The two youths, along with 17-year-old Terry Peteham, discussed the state incident and reported it to police.

Officers sped to the airport when DeHoog's description of the caller answered Vanderwerf's description of the holdup man.

Few to Smile at Late 'Present'

Government Will Start Mailing Tax Forms 2 Days After Christmas

WASHINGTON (AP) — The government is going to send out a delayed Christmas present you may not appreciate — your annual income tax form.

Plans were announced yesterday to start mailing the somewhat revised forms to some 60 million taxpayers about Dec. 27. Deliveries are expected to be completed by Jan. 10.

The returns, covering income received this calendar year, must be filed by next April 15.

Internal Revenue Service officials said this mailing will be the biggest ever, with a two million increase expected over the roughly 58 million persons who filed returns for last year.

In one change, persons who make more than \$5,000 but less than \$10,000 this year may file their returns on a card about the size of a bank check. Formerly, use of such simple forms was limited to those with incomes below \$5,000 a year.

Subject to income limitations, such cards may be used by persons who wish to claim the standard 10 per cent deduction for such items as medical costs. Also, a taxpayer using this form may not have earned more than \$200 that was not subject to withholding in 1958.

The revenue service has changed the long tax form to simplify reporting of expense account money. The new form requires reporting of expense money only if the taxpayer collects more than he spends.

Previously, the law called for an accounting of expense money even if the amount collected was no more than the actual outlays. This requirement was not enforced.

Michigan's Treasury Is Nearly Flat Broke

(Continued From Page One)

mediate threat of the state not meeting its payroll.

"LAST THING OUT"

"That would be the last thing we would cut," he said.

The governor ordered state auditors to make a complete check of the situation and report within a week on the state's exact financial status. Another meeting will be held in about a week to discuss possible remedies and expedients for getting ahead of some cash.

"In the meanwhile, we'll just have to try to stuff any ratholes we can find," he said.

Williams also reported that state school aid payments are about 18 million dollars behind, but added that these come from special earmarked revenues.

Miller said the state's financial situation had been "gradually deteriorating."

Williams blamed the situation on the Republican-controlled Legislature.

NO FLEXIBILITY
"I told them last February this would happen unless they made adequate provisions for state income," he said. "But they squeezed all the flexibility out of our revenue setup."

The governor said he had ordered all state agencies to shave expenses six months ago.

"We're skinned down to our teeth now," he said, "and people already are complaining about curtailment of vital services."

The Day in Birmingham

Expanded YMCA Setup Shaped for Winter Months

BIRMINGHAM — An expanding winter program is rapidly taking shape at the new Birmingham YMCA, according to Owen Manchester, executive secretary.

The Friday family night programs will get under way next week. Through the new facilities it will be possible to hold supper at the "Y." There also will be games at the "Y" and swimming at Barnum Junior High School pool.

Under the direction of George Ewing, youth work secretary, 19 Gray-Y groups have been organized for boys in the third through sixth grades.

There also are 18 Indian guide tribes of boys 6 to 9, with a total membership of 160. Hi-Y groups have been formed at Birmingham High School, and at Troy, high school girls are active in the Tri-Hi-Y Club.

Swimming classes for the 8-13 year-old group have 26 girls and 40 boys enrolled.

On Saturday morning about 50 boys are taken to Pontiac for swimming in the YMCA pool there. Other Saturday activities include boys' crafts and archery classes at the Birmingham "Y."

Manchester said the new building, dedicated three weeks ago, is attracting many outside groups. They include square dancers, bridge classes for high school girls and women and the Toastmaster's Club.

Birmingham Lions Club and the

Bloomfield Hills Garden Club use YMCA facilities for special meetings, he said.

The Little Gallery, 915 E. Maple Rd., has announced an exhibit of new drawings by Charles Culver, Francis de Erdely and John S. de Martelly will open Sunday for a three-week showing.

Birmingham Branch of the Women's National Farm and Garden Assn., will meet Monday at the Community House at 1:30 p.m. for a program on holiday table arrangements.

Plans are being completed for the group's 21st exhibit of Christmas decorations to be held Dec. 3 and 4 at the Community House.

Bloomfield Art Association will hold a round-table discussion at 8 tonight at the association's hall on N. Woodward avenue.

Howard Preston, professor of architecture at the University of Detroit, will lead the discussion on "Artists — Why?" Also taking part will be Fred Mitchell, oil painter at Cranbrook Art Academy, and William Whitney, Birmingham silversmith and painter.

Arrest Producer of 'Twenty-One' for Perjury

NEW YORK (AP) — Albert Freedman, 36, producer of the defunct television show "Twenty-One," was arrested today on a two-count indictment charging that he lied in denying that he supplied questions and answers to contestants on the show.

Freedman, of New Rochelle, N. Y., became the first to be indicted in the probe of television shows after rigging charges were brought against them.

He is employed by Production Services, Inc., the corporate name of the firm owned by Jack Barry, a master of ceremonies; and producer Dan Enright, owners of "Twenty-One."

Williams said the state's financial situation had been "gradually deteriorating."

Williams blamed the situation on the Republican-controlled Legislature.

NO FLEXIBILITY
"I told them last February this would happen unless they made adequate provisions for state income," he said. "But they squeezed all the flexibility out of our revenue setup."

3-Year-Old Crushed Under Piano at Home

DETROIT (AP) — Three-year-old John Skrick Jr. was crushed to death yesterday when a 600-pound piano toppled on him as he played in the basement of his suburban Roseville home.

The youngster was playing in a new recreation room as his mother, Sue, 37, worked nearby. The upright piano had been placed on wooden blocks by the father who had finished tiling the floor only a few days ago.

Mrs. Skrick, who had gone upstairs for a moment, heard the crash of the falling piano.

"I seemed only a second after I came upstairs that I heard it," she said. "I ran back down and saw the piano on Johnny."

The couple has three other children. Mrs. Skrick was preparing decorations for a birthday party for the boy's sister, Susette, 8.

Reds Celebrate Revolution Day

Stress Peace at Parade Noting 41st Anniversary of Bolshevik Uprising

MOSCOW (AP)—The Soviet Union placed the accent on peace today in a Red Square parade celebrating the 41st anniversary of the Bolshevik Revolution.

The display of military equipment contained nothing new. The equipment rumbled past the reviewing stand atop the Lenin-Stalin Tomb in seven minutes.

Marshal Rodion Malinovsky called the tune in a speech hailing the "fight for peace," which he said is "meeting stubborn resistance from the ruling circles of the United States and Britain."

"Thanks to the tireless concern of our people, of the Communist party and the government," the Soviet defense minister said, "the Soviet armed forces have everything necessary to deal a destructive counterblow at the aggressors should they dare to unleash a new world war."

"Unity of the Socialist (Communist) camp makes it invincible."

The sun broke through clouds just at the start of the parade. Military academy cadets led the way.

Rocket launchers equipped with rockets, scores of motorized artillery pieces, mortars and personnel carriers swept through the square in big time before Premier Nikita Khrushchev, other Soviet leaders and the visiting Polish Communist party boss, Wladyslaw Gomulka.

Thousands upon thousands of Soviet citizens bearing flags, bouquets, banners and streamers jammed every street in the vicinity.

When the military procession ended, swarms of sportsmen in vivid blues, reds and greens strutted in front of the reviewing stand. Then came the people. They carried pictures of Lenin, Khrushchev, President Klementi Voroshilov and Presidium members.

Huge gas-filled balloons in the shapes of blimps and rockets were floated during the parade, which launched a three-day holiday.

Malinovsky's order of the day, published in Soviet papers, called for "revolutionary watchfulness"—indicating a need for alertness against espionage as well as maintenance of military security.

Damage Too Great, Heart Sufferer Dies

LOUISVILLE, Ky. (AP)—Raymond E. Van Dyke, who was massaged back to life a week ago after his heart stopped died Thursday.

"There was so much damage to his heart he just couldn't make it," a hospital physician said.

Van Dyke, a 34-year-old appliance worker, suffered a massive coronary occlusion on the job. A nurse said his breathing and heart action stopped during the ambulance trip to the hospital.

Doctors massaged his heart and used a refrigerated blanket to prevent brain damage.

Van Dyke seemed to be recovering slowly although his memory was cloudy, doctors said.

First Car Race in 1895

PARIS — A "trial" of horseless carriages was held on the Paris-Rouen road in 1894, but the first real automobile race took place in June, 1895, from Paris to Bordeaux. A Panhard-Levassor won with an average speed of 15 m.p.h.

I am calling to thank you for your vote!

SHRINKING MEN? — Hailed as the world's largest, this wooden chair on display at a Washington, D. C., furniture store makes the "occupants" appear only a few inches high. Made of solid mahogany, the piece stands 19 1/2 feet high, weighs 4,600 pounds.

Reasons Differ Sharply From State to State

Many Factors Explain Tuesday's Election Results

By ED CREEGH
WASHINGTON (AP)—A candidate's flashing smile...a lingering memory of past scandals...a workman out of a job...a boss who hated unions...a candidate who worked around the clock, another who sat on his chair cushion...split party organizations...John Foster Dulles. Put them all together, add your own reason for voting as you did, throw in a couple of other factors at random and you have the kaleidoscopic explanation for Tuesday's election results.

Unquestionably there were some tides of opinion felt throughout most of the nation: the normal midterm wish for a change; some dissatisfaction with the Eisenhower administration's leadership or lack of it; strong union activity. But in hardly any two states or congressional districts was the story the same. Sometimes identical factors produced opposite results.

This is shown by on-the-spot reports from Associated Press Bureaus in nine states which had contests of more than usual interest. The reports point to local men and local conditions more than to national issues as the determiners of victory or defeat.

(Pat) Brown is well enough liked, but no glamor boy on the Rockefeller scale. Still, he won the governorship overwhelmingly for the Democrats, in large part because (1) his opponent, Sen. William F. Knowland, favored a right-to-work law and the unions mobilized to beat him, and (2) there was widespread resentment of the political byplay which forced GOP Gov. Goodwin J. Knight to abandon reelection hopes and run for the Senate instead, Knight lost too — to Rep. Clair Engle. A Knowland-Knight feud hurt both men.

ARIZONA—Much union activity here too—against conservative Republican Sen. Barry Goldwater. But a lot of it came from outside the state and a good many voters resented it. Besides, Goldwater waged a far more vigorous campaign than his opponent, Gov. Ernest McFarland. Result: Goldwater won and the Democratic tide was washed back again.

WISCONSIN — Democratic Sen. William Proxmire, who never stops campaigning, beat Republican Roland J. Steinle, who never really started campaigning. It was almost as simple as that. Another factor: Some people just plain wanted to vote against Republicans.

OHIO—Another case of a governor, this time Republican C. William O'Neill, who antagonized too many voters. They replaced him at the first opportunity with Democrat Michael V. DiSalle. Ohio has been hard hit by unemployment and there was a widespread feeling O'Neill dragged his feet on special aid to the jobless. On top of that, O'Neill took the stump for a right-to-work amendment. The voters buried it and him too.

INDIANA—All sorts of factors: recession; unease over foreign affairs and weapon development; echoes of a highway corruption scandal in the previous Republican administration; state tax increases. A typical Hoosier GOP split. All these added up to defeat for Harold W. Handley in his bid to leave the governorship in midterm in favor of the Senate. The winner: Democrat Vance Hartke.

NEW JERSEY—The idea that one candidate can ride in on the coattails of somebody else has been disputed lately, since President Eisenhower's coattails have shown little pulling power. But it happened in New York and in some measure in New Jersey, where Democrat Harrison A. Williams benefited in his Senate fight from aggressive campaigning on his behalf by Gov. Robert Meyner. Williams' youth, he's 38, his liberal views and his personality also helped in his victory over 65-year-old Rep. Robert Kean. So did the state's strengthened Democratic organization.

MINNESOTA — Another who gained coattail support was Rep. Eugene McCarthy. His 50,000-vote margin over Sen. Edward Thye

for a Senate seat was helped along by the personal popularity of Gov. Orville Freeman, who won reelection by 125,000 votes. But McCarthy, 42, also was helped by his own 10-year record as a representative from St. Paul where he scored heavily.

Dog Lolling in Luxury After Losing Freedom

VAN NUYS, Calif. (AP) — The monsters finally got him—then it turned out they were more like angels.

That's the way it was with Maverick, the stray Doberman pinscher who eluded baited traps and nets for four years. He almost drove the dogcatcher crazy before he was shot down with a tranquilizer dart.

He went to sleep and woke up in a cage. The two-legged beings who had harassed him all those years came to look and marvel and bid for the right to own him.

One day the cage door opened and Maverick was driven away to a place that must be pretty close to a dog's idea of heaven.

He has his own bedroom, with an oil painting over his king-size bed. A veterinary prescribes his diet—all he can eat, three times a day. And he has two king-size playmates, Afghans Sheba and Sahib, to teach him the ways of civilization.

"Not that he needs much teaching," says his mistress, Mrs. Doris Crown, who paid \$130 for Maverick at an auction last month. "It's not training that he needs, but pampering, and he's getting it."

Life with Doris and Harry Crown is quite a change for Maverick, who used to sleep in alleys and raid garbage pails.

On the other hand, life with Maverick is quite a change for the Crowns.

"It's almost grounds for divorce," says Doris, a tall, attractive blonde. She said her husband sometimes pays more attention to the dog than he does to her.

Despite some inconveniences, however, the Crowns figure Maverick is worth far more than the cost.

"We've had to give up our social life," says Doris. "You can't imagine how much money we've saved that way. And Harry has had to give up cigars because Maverick doesn't like them."

Doris and Harry have found they are healthier since Maverick came. Every morning and evening they take the dog for a stroll around their 2 1/2-acre estate. It's the only way they can get him to exercise.

Maverick has attached himself to Harry like a leech," says Doris. "He doesn't know how to play by

Running down the list of these states:

NEW YORK—Biggest single factor undoubtedly was the emergence of Nelson A. Rockefeller as a spectacularly popular figure, a millionaire with a million-dollar smile, who came down from his skyscraper office, mingled with the voters, patted babies' heads, and beat the daylight out of his Democratic opponent, Gov. Averell Harriman.

"Rocky" — a nickname that would have appalled grandfather John D.—whisked Rep. Kenneth B. Keating into the Senate on his coattails. Ample campaign funds didn't hurt, of course.

Eddie Rickenbacker Predicts:

Planet Travel in 25 Years

(This is the second of two dispatches in which one of America's most famed figures in aviation predicts what the future holds for air travel in this world and out of it.)

By JAMES L. KILGALLEN

NEW YORK (UPI)—Capt. Eddie Rickenbacker, noting that it's now only a 7-hour plane jump from the United States to Europe, said today he believes space flights to such planets as the moon, Venus and Mars will be available in the next 25 years.

"Atomic power," he said, "is going to have a tremendous effect on future flights. Some day we'll be reaching for the moon and the other planets. There must be habitation on them."

Declaring that aviation's future defies the imagination, he remarked:

"Buck Rogers is out of date. Today, he went on, aviation is applying atomic power all the time and is studying how to adapt the lessons being learned from space exploration.

It's quite likely, in his opinion, that Mr. Average American will be making space flights a quarter of a century from now.

'IN 1ST GRADE NOW'

"We're in the first grade now," said Rickenbacker. "So far, the knowledge gained about space ships and the rest of the universe, in its infancy. Now it's the universe. And there's no limit to the universe. We can hardly imagine what's in store for us."

"Today, even with jet planes, you have to use thousands of gallons of gasoline, or special fuel, to get anywhere. Atomic

power, using a handful of fuel, can go around the world a dozen times."

Asked how many passengers will be carried on future flights to cities throughout the world, Rickenbacker replied:

"That will depend entirely on the community of interest. Today the greatest density of interest, and community of peoples, is between the United States and Europe."

"Consequently, the greatest travel is between those two regions."

"But as time goes on, and as aviation progresses, this reciprocal contact between peoples will grow. It will continue to increase and widen out. In the years ahead, air transportation will be about the only transportation over oceans and land areas."

"Eventually, the big oceanic passenger ships will be passe for passenger travel. They will be used for carrying of heavy freight."

RAILROADS EVIDENCE

"You can see what's happening to the railroads in America. They are trying to get out of the passenger business. Could you imagine years ago that they'd take off the 20th Century Limited? Or that ferries would cease carrying passengers?"

"Future travel will be predominately by air. Think what this will mean as peoples of various countries begin to know and understand each other. Politics could be solved. Sure."

But Now She's Out for Count

Knows Taste of Victory

ALTADENA, Calif. (AP)—Somebody pushed the wrong button on a tabulating machine and for a few hours Rudd Brown, the granddaughter of William Jennings Bryan, thought she was a congresswoman.

But the next morning she was awakened by a reporter and informed that because of a 10,000-vote counting error she is still just Mrs. Brown, private citizen, and her Republican rival, veteran incumbent Rep. Edgar W. Hiestand, was re-elected in the 21st District.

"I'm disappointed, naturally," said Mrs. Brown with a yawn, "but I knew it was possible, even last night. I know there always can be an error."

It was suggested that she was being quite philosophical about the sudden switch in her political fortunes and she responded with a laugh: "For heaven's sakes, somebody wins and somebody loses."

Shortly before midnight, Mrs. Brown, a Democrat, went to bed thinking she had a 2,600 vote lead. But in the final election bulletin today, with all the precincts in, her tally was 116,687 to Hiestand's 124,104.

County Registrar of Voters Benjamin Hite said Hiestand should have been credited earlier with

33,000 votes at a time when he was given only 23,000.

"Somebody," said Hite sadly, "pushed a wrong digit."

Mrs. Brown was asked if she will try for public office again. "Well," she said with a sigh, "I'll have to think about that for a couple of days."

Mrs. Brown, an attractive 38-year-old brunette, is the wife of Harrison Brown, a well-known scientist at nearby California Institute of Technology. Her mother was the late Ruth Bryan Owen Roldie, who was congresswoman from Florida in 1928 and this nation's first woman envoy, appointed by President Roosevelt in 1933 as minister to Denmark.

Mrs. Brown said that during the campaign, her first for public office, she had to overcome a fear of speechmaking.

Looking for Bargains? Try Snake Bite Kits

TUCSON, Ariz. (AP)—If you're worried about snake bite, see Tucson City Purchasing Agent William Bray. He is peddling surplus snake bite kits.

The city has had the kits in stock for the last 10 years with little demand. Bray has seven left and he'll sell to the highest bidder. The kits originally were bought to aid city workers bitten by snakes while sweeping the streets.

Ike Hunts Ducks Along Lake Erie on Way West

WASHINGTON (AP)—President Eisenhower flies to Ohio today to hunt ducks after hunting first for ways to cut federal spending.

Before leaving, the President arranged to confer with Budget Director Maurice Stans on the government spending program for the fiscal year starting July 1.

At the exclusive Cedar Point Club on the Lake Erie shore near Toledo, Ohio, Eisenhower will be the guest of George M. Humphrey, his first secretary of the Treasury. The President is stopping there for an afternoon of duck shooting on the way west to Tacoma and

Seattle, Wash. He will spend the rest of the weekend at the home of his brother Edgar, an attorney in Tacoma.

On Monday, Eisenhower will address a meeting of the representatives of the Colombo Plan nations in Seattle. He intends to set forth recommendations for economic development of South and South-east Asia.

We All Make Mistakes

TOLEDO, Ohio (AP)—A thief broke into the automobile of salesman William Lutz of Mount Vernon, Ohio, stole 30 sample dresses and suits, then discarded them in downtown alleys. The garments were the backless type used by undertakers in dressing corpses.

THANK YOU

The endorsement you gave in returning me to Congress is a trust I shall do my very best to fulfill. I will continue to represent you in fostering a government that recognizes its obligation to all its people. Thank you, everyone.

Congressman
William S. Broomfield

THE PREFIX Exclusively at Lewis!

Decorator matched group

Here is a spanking new co-related group for any room in the home! All pieces are fashioned in a new warm tone, called cashmere, on carefully selected walnut!

The hardware is a new exclusive drawer pull in polished brass to add just the right accent to the warm finish! Crafted to very high quality specifications of construction both inside and out!

Double Dresser and Mirror \$149.50
Bookcase Bed \$89.50

Have You Tried This Glamor Touch to Food Takes Only Imagination

By JANET ODELL
Pontiac Press Home Editor
Mrs. N. S. Clayton of Essex, Massachusetts is one of our favorite out-of-town visitors. She has such a vivid personality that just being with her is a pleasure.

Having run a restaurant for some years, Mrs. Clayton is interested in food—and gardens—and books—and nature—and people. But it was food we set out to discuss. Here are a couple of suggestions she brought us from New England.

Chocolate Peppermint Pie
By Mrs. N. S. Clayton
Make a graham cracker crust. Bake briefly to set. Make up some plain butter frosting and flavor it with peppermint. This should be a

little stiffer than usual.

Spread the frosting over the cracker crust, saving a little for garnishing. Pour chocolate pudding into the frosted shell and garnish with dots of frosting. Rich and yummy.

SPECIAL BAKED APPLES

Pare baking apples halfway down and core. Enlarge top of the hole so that it is cone shaped. Stick cloves in the apple inside this hole; add sugar. Bake until apples are half done. Pour cranberry jelly over apples and finish baking.

Another trick with baked apples is to stuff a thin slice of unpeeled orange in the core cavity and to "pin" a second orange slice to the top with cloves. Sweeten and bake as usual.

'Do It Now' Creed Will Save You Time

By RUTH MILLETT

The best-organized woman I know, the one who seems to do things with the least fuss and bother and worry, claims there is only one trick to being a good manager of time and energy. "Do each job that has to be done just as soon as it appears that it must be done eventually."

Sticking by that simple rule, she says, keeps her ahead of her work instead of behind it. It also makes life easier in other ways.

She doesn't have time to dread the tasks she dislikes, because she never puts off doing them. So, instead of depressing herself for days with the thought, "I've got to clean closets," or "If I don't wash the windows soon, we aren't going to be able to see out of them," she gets at the job and gets it done.

The other extra dividend she gets from never putting off a job is that when unexpected demands on her time come along, or when she has to meet an emergency, she isn't bogged down by a lot of things she could have done last week or last month—but which finally can be put off no longer.

The woman who passed along her philosophy for making house-keeping as light as possible has kept house for a good many years.

With a large family her load has been heavier than most women carry, but she's managed it not only well but happily—thanks, she says, to sticking firmly by that one rule.

So if you are sitting right now thinking of all the things you have to do and wondering how in the

world you'll ever get them done, quit worrying and get at the job that should be done first.

Keep at those nagging jobs until you are caught up—or as caught up as a housewife is ever allowed to get. And then make it a rule never to put off until tomorrow what could have been done last week.

Permanents AT A LOW, LOW PRICE!

FEATURING THE LATEST FASHIONS IN EYEWEAR

4541
SIZES
10-18

by Anne Adams

Not all the excitement's on stage when you enter the theater in this curving sheath with the new, high-rise Empire waist. Dashing cape collar accents the elegant shape. Tomorrow's pattern: Misses' culottes.

Printed Pattern 4541: Misses' sizes 10, 12, 14, 16, 18. Size 16 takes 2 3/4 yards 54-inch fabric.

Printed directions on each pattern part. Easier, accurate.

Send 50 cents in coins for this pattern — add 10 cents for each pattern for 1st-class mailing. Send to "Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Girl Scouts Hold Court of Awards

Wisner-Lincoln area Girl Scouts held a Court of Awards Wednesday afternoon at Lincoln Junior High School. Five troops took part in the program. Mrs. Kenneth Carman was chairman.

General Richardson Chapter of Daughters of the American Revolution presented the American Flags. The presentation was made by chapter regent Mrs. Lloyd Porter. She spoke to the girls about the writing of "The Star Spangled Banner."

Troop 355, under the direction of Mrs. George DeGuise, co-leader, gave a song and skit, and Mrs. Carman's Troop 312 gave a dance.

Pins were awarded to Troop 23 by Mrs. John McNeely. Mrs. Clifford Neville, district director, received a 10-year pin for loyal service from Mrs. Vern L. McCracken.

Child Culture Club Gets Tips on Decorating

A discussion on how to use color in walls, rugs, drapes and furniture decor was given by Luella Nault, Oakland County extension agent, when the Child Culture Club met Thursday at the home of Mrs. Floyd Blazny on Ledgestone drive.

Members responded to roll call with an answer to the question, "Do You Have a Decorating Problem?"

Mrs. William Wagner was a guest. Mrs. Erwin Humbaugh will be hostess for the next meeting at her Elizabeth Lake road home, with Mrs. Helen Harding as guest speaker.

... at WIGGS there's a gift for everyone on your Christmas list!

Yale Scholarship Meant as Parody Gets Gift of Cash

NEW HAVEN, Conn. (UPI)—A fanciful scholarship at Yale providing funds for "any student who shall possess an elephant of good character and unquestioned need, with qualities of leadership, outstanding ability and promise of future usefulness" has received an unexpected endowment.
The endowment came from a vested interest group of Darien, Conn., mothers whose children have come into possession of an elephant. The elephant, named Shakuntala, was a gift from the children of Mercara, India.
Mrs. Joel Brooke of Darien

wrote Yale that she had heard of the F. Wells Hodges Scholarship Fund. She was told that the fund had been dreamed up but not endowed as a parody on several legitimate scholarships.
Thereupon, Mrs. Brooke passed the hat and came up with an English shilling, an Indian piece, a New York subway token, five green stamps and \$2.68 in American currency.
The National Park System was established in 1872, two years after a group of prominent campers saw Old Faithful geyser in what is now Yellowstone National Park and recommended to Congress that the area be preserved by the Federal Government.

Earl Learns Business of Song Writing—Fast

By EARL WILSON

NEW YORK — Irving Berlin's a pretty good song-writer, too... and as for Rodgers and Hammerstein... well, some people like them.

WILSON

But I'm going to be everybody's favorite composer, sort of an international idol, the pet of three continents, a talented Cole Porter, as soon as my first song gets moving. To put it plithily, I'll be Tin Pan Alley's "latest Cinderella."

"First thing you gotta do is cut a demo," they told me at Brighton Music after my son Sluggie, Leonard Whitcup and I dashed off a sure-fire ballad with a beat titled, "It Happened Last Night."

"A demo," they patiently added, "is a demonstration record."

Of all the crazy businesses! You don't mail in sheep music. You bring your demo record to the record companies. They give it a listen. It's any good, they ask an artist to "make a master" with a full orchestra.

Inasmuch as millions of people are trying to write songs today and mostly doing it wrong, I thought I would try to show how they do it in Tin Pan Alley—how much work is done by experts to get a song recorded and to start it "making noise."

So one recent afternoon I went nervously to the Dick Charles Recording Studios on 7th Av. and tremblingly shook hands with Jerry Wayne who was going to sing the demo—the Jerry Wayne of the London "Guys and Dolls."

"My son likes your song very much," he said.

"So d-oes m-my s-on," I stuttered. "He helped write it."

"Well, let's put one down!" yelled Dick Charles from the control booth. They were off—Jerry singing, Gloria Shayne pianoing, Eddie O'Connor guttaring, Irv Rothman drumming. It was flawlessly beautiful if I do say so myself and it looks like I've got to.

"You're playing it too pretty," somebody said. "It should be more rock 'n' roll."

"That's right—a little more beat, you cats," I said, as I had learned the business very fast.

These pros perspired for half an hour making little changes and then—wondrous moment—a girl typed my name on the label of a demo.

I played it maybe a dozen times. A porter looked in and said, "Hey, that's cool, man. I dig that. What is it?"

"Merely the next two-million record," I replied.

"Don't kid about this—you've got a good song," the secretary said.

"Who's kidding?" I retorted. I wonder what the royalties would be on 2,000,000 records. If they give you a gold record for 1,000,000, what do you get for 2,000,000—platinum or diamonds? And then I wrote—

THE MIDNIGHT EARL...

Frank Sinatra's dates here included Louise O'Brien, the singer, and Nan Whitney, the model... Joe E. Lewis bet \$5,000 on Harriman... Starlet June Blair's ready to wed but Lindsay Crosby isn't... Lady Docker got stares at the Forum restaurant by casually dragging her 9 grand ermine coat on the floor... Grace Metalious' publisher complains he hasn't seen any of her new novel yet (despite reports of a movie sale).

EARL'S PEARLS: A man is never so weak as when a pretty girl is telling him how strong he looks.—Ham Park.

TODAY'S BEST LAUGH: Many a child is spoiled because it isn't nice to spank grandparents — L. S. McCandless... That's earl, brother. (Copyright 1958)

Family Reunited After Long Wait

Parents Who Escaped
Hungary Greet 2 Girls
at Windsor Airport

WINDSOR, Ont. (AP)—Two young girls clutching dolls ran down an aircraft ramp at Windsor Airport into the arms of parents they had last seen during the freedom fighting in Budapest nearly two years ago.

For Mr. and Mrs. Joseph Rezbanay it was the day they had been longing for ever since they eluded the border patrols and slipped into Austria to escape Russian retribution for their part in the uprising.

Far behind at the Budapest home of their grandmother, they had to leave daughters, Gabrielle, 9, and Katalin, 5.

"Five times the government refused to let them out," said Rezbanay, who is continuing his engineering studies at Assumption University. "We got in touch with a Hungarian politician and he helped to get permission. The sixth time they said 'yes,' and here they are."

The Hungarian government's reluctance to please the wishes of the Rezbanays is understandable—side-by-side they helped fight Russian tanks in the bullet-whining streets of Budapest.

"We fought hard alright," said Rezbanay. "But it was too much. My wife went into hiding and I was put in jail. Later I was released and I slipped over the border into Austria."

"But the youngsters had to stay behind. Once the Communists tried to take them into custody. 'But my mother,' said Mrs. Rezbanay, 'she was too strong for them. She wouldn't let them go.'"

Right-to-Work Outlaw Asked

AFL-CIO Demands End of Issue, Overhaul of Taft-Hartley Act

WASHINGTON (AP)—The AFL-CIO today demanded that Congress repeal the federal sanction for state right-to-work laws and give the Taft-Hartley Act a general overhaul.

The federation's Executive Council also said it will press the Congress to pass "the necessary and needed social welfare legislative improvements for which the voters of America spoke so strongly on Tuesday."

President George Meany said the AFL-CIO will seek high priority for a major revision of the Taft-Hartley Act and "adoption of constructive labor reform legislation."

Meany declined to comment in any detail on the election results but said there will be fewer, at least, of what he called "cynical politicians" in the next Congress. Meany told a news conference that the large voter turnout Tuesday was partly due to balloting on the right-to-work issue in six states.

Voters in Kansas approved a right-to-work law but the same proposal was defeated in California, Ohio, Colorado, Washington and Idaho.

Kansas joined 13 other states already having right-to-work laws, which ban arrangements that require workers to be union members.

Crowds Watch Tidal Wave Hit Hawaii Beaches

HONOLULU (AP)—Authorities called off a tidal wave alert Thursday night about an hour and a half after a weak wave hit Hawaii beaches. There was no report of major damage.

Foot-high waves hit Oahu and Kauai islands about 7:30 p.m., observers said.

Residents and tourists, flocking to Waikiki Beach to watch the wave, created traffic jams.

The Coast and Geodetic Survey alerted the islanders three hours after a heavy earthquake rocked northern Japan and after unusual wave action reports came from Wake Island, about 1,000 miles west of here.

British Credit Buying Spree Worries Dealers

LONDON (AP)—Britain's stampede to buy on the cuff has businessmen worried.

Government relaxation of controls on credit buying Oct. 29 started a nationwide rush for washing machines, autos, television sets and similar items.

In just five days, retail auto and household appliance sales rose 30 to 50 per cent.

One of London's biggest auto dealers slashed terms to 5 per cent down, 50 months to pay—a far cry from old restrictions requiring a third to a half down and a maximum of two years to pay it off.

War Babies to Cause Building Boom in '60s

NEW YORK (AP) — Statisticians figure that the crop of war babies of the 1940s will cause a building boom in the '60s.

cal's Barrett Division say the army of more than 13,700,000 children will reach the home-buying stage between 1965 and 1970. During that period, builders will be completing more than 1½ million homes a year.

Hollywood Headlines

Carroll Baker and Mate Buy Novel for Screen

By LOUELLA O. PARSONS
HOLLYWOOD — The manner in which so many newcomers to this industry are looking out for their own future is very intelligent. Take Carroll Baker, for instance, who certainly got off on the wrong foot through no fault of her own with "Baby Doll." Carroll then went into "The Big Country," and is now in "The Miracle" at Warner Bros.

She does a bit of everything — comedy, tragedy, song and dance, and all excellently. My admiration for her is the enterprise that she and her husband, stage director Jack Garfin, are revealing.

They have purchased all rights to a new novel "Miss America," which tells the story of what happens to a beauty contest winner after the contest is over. Carroll and Jack leave for New York soon where Jack will stage the new Sean O'Casey play "Shadow of a Gunman." Once they get that launched, they return here to put "Miss America" into work, probably at Warner Bros.

This I know is true, Frank Sinatra is kicking up his heels about doing "Paris by Night," in Paris, with Brigitte Bardot. Raoul Levy, who has produced most of her pictures, is here now conferring with Columbia.

If Frankie does the picture he will only spend 10 days at the most on location in France. He is not eager to go to Europe again, so Levy is having conferences with Columbia executives to see what can be done about it.

Much as Sinatra hates to go to Paris, just that much does Bardot hate to come to Hollywood. So how are they going to make a picture with La Belle Bardot in France and La Belle Frankie in Hollywood?

It is very seldom that a man obtains great prominence in this or any other business without making enemies. But Sam Zimbalist, who died suddenly in Rome last Tuesday of a heart attack, was one of them. Sam had the record of many fine films behind him all the way from "Boom Town" to the current "Ben Hur." Yet he was always able to combine both force and kindness. He was never too busy to be courteous, never too preoccupied to be thoughtful of others.

Winthrop Rockefeller, whose brother Nelson just landed into the governorship of New York, is in town at the Bel Air Hotel.

Although visitors are forbidden to see Jerry Lewis at Mt. Sinai Hospital, Y. Frank Freeman and Cecil B. De Mille, both of whom had bouts with illnesses were able to get in to cheer Jerry.

Geraldine Gleason, Jackie's 18-year-old daughter, is a talented chip off the old block. She'll star in the Marymount College presentation of "Song of Norway."

Rita Hayworth turned cook on the "They Came to Cordura" set and cooked a Spanish dinner.

2 Escape, 2 Die in Rock Slide

Oregon Crew Trapped Clearing Debris From Earlier Downfall

SILETZ, Ore. (AP) — A hillside covered with logs and huge rocks tumbled down Thursday on four men clearing an earlier slide from a mountain logging road.

Two workmen were caught and killed by the slide. Another was buried but dug his way out. The fourth was pelted with rocks but scrambled to safety.

The giant slide — 300 feet wide and 800 feet long — buried and killed Harley Norton, 50, and Peter Jacobs, 44, under three feet of mud and debris.

Ronnie Olman, about 30, jumped under his tractor. The tractor was buried, but he dug his way out.

Jim Bergen, about 30, was working when he saw the slide. "I slapped Jacobs on the shoulder and said 'Let's go — run,'" Bergen said. Bergen said he, Jacobs and Norton began running along the road.

Grid Fireworks Start in Big Ten

By The Associated Press

The weekend football activity begins tonight on a paradoxical note with Syracuse up and Miami down. Syracuse, an eastern independent not picked to do much before the season, meets Boston University in another step up the ladder to a bowl bid. The Orange is ranked 12th in the current Associated Press poll of sportswriters and broadcasters on the basis of its 5-1 record, and last week's 16-13 victory over Pitt.

Boston (3-3) has been up and down all year and faces the nation's seventh ranked team in rushing defense and top scoring outfit with 26.7 points per game.

Down south, Miami University, ranked 15th before the season, has won only once in five starts and has scored a meager 31 points. The Hurricanes play a tough Florida State team, with a 6-2 record.

Alabama, winner of its last two and 3-3 for the season, plays Tulane at New Orleans in a South-eastern Conference game to wind up Friday's major activity.

But tomorrow, the fireworks begin in the Big Ten, while the rest of the conferences are comparatively quiet, with a number of inter-sectional games occupying the stalwarts.

The top game in the Big Ten pits fourth-ranked Northwestern against Wisconsin (No. 7) on the Badgers' homecoming day. Dick Dick Thornton and Ron Burton, who led the Wildcats to their 21-0 victory over Ohio State last week, will face a Wisconsin defense that has allowed only 6.7 points a game in running up a 4-1-1 record. Northwestern is 5-1.

Iowa conceivably can take all the Big Ten marbles and a spot in the Rose Bowl if it defeats winless Minnesota, if Ohio State loses to Purdue, and Wisconsin beats Northwestern.

Iowa, second-ranked, has a 4-0 conference record and sends the nation's second-ranked team in

total offense against a Gopher team that hasn't won in nine games, going back to November, 1957. It is the longest current losing streak among major colleges.

Purdue (No. 8) meets Ohio State's potent offense with a defense ranked second overall, but which is third in rushing and first in pass defense. The Buckeyes, 16th ranked, have ace halfback Don Clark for duty while the Bollier-makers star fullback Bob Jarius is hobbled by a twisted knee.

Top-ranked Louisiana State sends Billy Cannon & Co. against Duke of the Atlantic Coast Conference as the Tigers from the SEC are just three games away from a perfect season. They have a 7-0 record.

Third-ranked Army travels to the southwest for the first time,

Detroit Hopes
to Pull Upset

Pass-Run Combination
Needed by Titans at
Boston College

BOSTON (UPI) — If Lou Faoro and Bruce Maher can get together tomorrow, the University of Detroit might spring an upset on Boston College.

The Eagles are favored by 13 over the Titans to take their eighth victory in the 13-game series.

Faoro and Maher hold the key to the Titans' chances. Maher, who will become Detroit's best back since 1945 with two more rushing attempts, is the nation's 11th leading rusher.

Faoro, while not among the country's top passers, is better than the average. But the Titans just haven't been able to put together both phases of their attack for one big afternoon.

In the loss to Villanova, Detroit gained 215 yards rushing but only 43 passing. The next week, while beating Xavier, the Titans passed for 224 yards and gained only 88 on the ground.

The inconsistency has led to Detroit's 3-3-1 record, still best among Michigan's three major colleges, but off last year's pace of six victories and three losses.

NO. 8 BOSTON MONDAY

to meet Rice (No. 13) in the top inter-sectional game.

The nation's top defensive team, Auburn (No. 5) has an SEC game with Mississippi State, which has lost two in a row but ranks 10th in total defense. Oklahoma (No. 6) has a Big Eight conference date with Iowa State, a team ranked second in total defense. The Sooners go after their 69th straight conference game without a loss.

Ninth-ranked Mississippi plays non-SEC member Houston, but the

Didn't Rap Ewbank on Unitas' Injury

Bell Denies Criticism

WASHINGTON (AP) — The Washington Post reported Thursday what it called an "oral rebuke" by pro football's commissioner to the admission by Coach Weeb Ewbank of the Baltimore Colts that he wanted to keep quiet the extent of an injury to his star quarterback, John Unitas.

However, Commissioner Bert Bell said in Philadelphia Thursday that he hadn't rapped Ewbank. "I have never criticized Ewbank or the Colts," Bell told a reporter.

Bell added that under league rules a club doesn't have to disclose injuries to players until the Friday before a game. He said that rule is "to protect the public against going to a game to see a star and then being disappointed when the star doesn't play because of an injury known beforehand by the club."

The Post's story, published this morning, said it had reached Bell by telephone and that he had called "ridiculous" a statement by Ewbank of hopes that news wouldn't leak out of the injuries to Unitas.

News did come out Tuesday that Unitas suffered several fractured ribs in the Colts' game last Sunday with the Green Bay Packers. Unitas will be out of action for three or four weeks.

West Side Classic
Loop Strong as Ever

The boys at the West Side Recreation went on a pin spilling rampage Monday night. This was the first position night of the season and only two teams failed to split points.

Led by the high scoring 11th Frame Bar team who rolled games of 1004-1110-1043-3157 there was a total of 12 games over 1000 pins each.

High scorer for the night was Joe Nickell who had games of 227-249-242 for 715 and Lou Koprince had high single game of 270. There were a total of 20 series over 600 and a total of 70 games over 200.

Among the high scorers were Bob Liebier at 638, Mike Samardzija Jr. 638, Don Martell 625, Carl Harris 625, Cliff Thompson 633 and Koprince 677.

High games included B. Liebier 256, Nickell 249, C. Thompson 238 and Chuck Beach at 234.

LOS ANGELES — Mauro Vasquez, 133½, knocked out Armando Savote, 135, Montreal, 1-1.

WICHITA, Kan. — Dan Hodge, 188, Wichita, knocked out Ted Poole, 178, New York.

RICHMOND, Calif. — Luke Easter, 126, San Francisco, stopped Johnny Wells, 139, Oakland, Calif., 6-0.

game is counted in the SEC standings since Ole Miss could not schedule the required minimum of five conference games.

The Air Force Academy (No. 10), with only a tie against five victories, plays Denver (3-5), Texas Christian (No. 11), winner of its last four, plays Marquette in an inter-sectional tilt, while Notre Dame (No. 14) has an inter-sectional date with Pitt (4-2-1) in Pittsburgh.

Jim Tatum goes after his 100th victory as a head coach when North Carolina (No. 15) plays Vir-

ginia in the day's only ACC game. The Tarheels have won five in a row, while Virginia has lost its last five.

The day's television attractions find Illinois at Michigan in the midwest regional telecast, Nebraska at Kansas in a Big 8 telecast and Stanford at Oregon in the far west regional telecast.

The Pacific Coast Conference also has its leader, Oregon State (5-2) meeting Washington State (4-3) while runnerup California (4-3) faces UCLA (2-5). Cornell (5-1) attempts to remain atop the Ivy League against Brown (3-3), with Princeton meeting Harvard in the first of the Big Three games.

Me 'Spender'? Solon Denies It

Senator Moss (D-Utah) Calls for Fiscal Sanity as 'Liberal'

SALT LAKE CITY (AP)—Frank E. Moss, who upset a loyal Eisenhower Republican in Utah's Senate race, says sure, he's a liberal. But one of those Democrats President Eisenhower calls "spenders."

Hardly, says Moss. He believes in "fiscal sanity" — another pet Eisenhower term.

The President told his news conference Wednesday many persons he would call spenders were elected to the new Democratic-controlled Congress.

Moss, 47, beat highly respected Sen. Arthur V. Watkins, 71, Tuesday in a three-man race that also included Maverick Republican J. Bracken Lee, a former governor. Before that, Moss was a political unknown not only nationally but in much of his home state as well.

He calls himself "a liberal tinged with a measure of caution and care" who believes, "certainly, in progressive legislative measures."

But he says such measures "must accompany fiscal responsibility and fiscal sanity."

There may be a difference in definition of fiscal sanity between Moss and the Republicans, but one of the points pushed by Moss during his campaign was that deficit financing must come to a halt.

Moss, Salt Lake County attorney the past eight years, says a liberal is primarily dedicated to freedom.

This means, he says, that sometimes the government must regulate business so that small firms can operate in a market that is free of control by large corporations.

FUNSTERS ON THE RANGE—Comedians Hank Mann, Snub Pollard and Matthew McEue surround Audrey Totter with whom they will appear in "The Medicine Man" episode of the NBC-TV series "Cimarron City," 9:30-10:30 p. m., Saturday. These comedians have taken to appearing in many "Westerns" and feel as "at home" there as they did in the old pie-throwing comedies that were their fare not too long ago.

Woman Fasts Self to Death Before Mate

GLENDAL, Calif. (AP)—"We fast when God tells us to," said a retired newspaperman whose wife collapsed and died in the 14th day of one of their fasting periods. Wright Welker, 50, told police that he and his wife Frances, 38, entered a hot bath at their home Thursday as part of a religious ritual. "She said, 'I am very tired,'" Welker told officers. "and slumped forward in the tub." An autopsy did not disclose the cause of death.

Welker said he and his wife frequently fasted, taking "nothing more than water and juice." Two years ago, he said, they went without food 40 days.

Welker said his wife began her latest fast two weeks ago after quitting her clerical job and telling him: "The adherence to the principles of making money is destroying me."

Welker said he fasted to combat "the sin engulfing the world." He and his wife belonged to the West Ward of the Church of Jesus Christ of Latter-Day Saints here.

A Mormon spokesman said the church advocates a day of fasting each month but does not permit longer fasts.

The Welkers had four children, ranging in age from 2 to 13. Police said the family ice box was full and the children apparently were eating normally. Welker said they didn't take part in the feasts.

Await Final Voting Count

California Dems Hoping to Get All 6 State Posts

SAN FRANCISCO (AP)—Democrats, riding the crest of the biggest voting turnout in California's history, still held hope today for an unprecedented sweep of all six state elective offices.

Five-governor, lieutenant governor, attorney general, controller and treasurer — were in the bag.

The only Republican incumbent left with a chance to survive the record deluge of more than five million ballots was Secretary of

State Frank M. Jordan. He led by nearly 15,000 in the unofficial count of 26,611 out of 26,896 precincts over Democrat Henry Lopez, a Los Angeles attorney.

The bulk of the precincts still out—and not to be counted before Monday—were in Orange County, a Jordan stronghold. But still to be reckoned were some 80,000 absentee ballots.

"This is going to be the greatest political finish that ever happened," Jordan said.

The 80,000 absentee ballots put the vote total of Tuesday's off-year election beyond 5,100,000. That is better by 8,000 than the previous record vote cast in the 1956 presidential battle of Eisenhower and Stevenson.

How well Democrats rode the crest Tuesday is best illustrated by this before-and-after picture: Before—Republicans held five of the six elective state offices.

After — State Treasurer Ronald Butten conceded Thursday night to Democrat Bert A. Betts, Lemon Grove public accountant, making it five for sure.

Before—The State Senate was tied at 20-20; the Assembly was Republican by 43-37.

After—The State Senate was either 27-13 or 26-14 Democratic, the Assembly either 50-30 or 52-28 Democratic.

Before—Both U.S. Senate seats were Republican; the House delegation was 17-13 Republican.

After — Democrat Rep. Clair Engle won by more than 700,000 over Republican Gov. Goodwin J. Knight for the Senate; the House delegation was 16-14 Democratic.

With only a scattering of the state's 26,896 precincts uncounted, the victory margin of Democratic Atty. Gen. Edmund G. (Pat) Brown for governor over Republican Sen. William F. Knowland was 1,012,127. The vote for 26,611 precincts: Brown 3,031,407; Knowland 2,019,280.

Ballad Singer Rarely on TV

To Perform 20 Minutes Uninterrupted — Shuns Lesser Engagements

By CHARLES MERCER

NEW YORK (AP) — Harry Belafonte, that superb singer of folk songs, will make his first American television appearance in more than a year Sunday on the Steve Allen Show NBC.

Allen will turn over an uninterrupted 20 minutes of his program to Belafonte, who returned recently from a successful concert tour of Europe. In the past year Belafonte has turned down numerous television offers.

"I simply won't consider going on television for three or four minutes," Belafonte said the other day. "I'm not a singer pushing my latest hit recordings. I have to have an opening, build to a climax, and tie up what I have to say."

Belafonte was delighted with two half hour programs he did for BBC television in England—and BBC was so delighted with his performance that it wants him to do three TV engagements annually for the next four years.

"BBC has the advantage of not being under pressure to please so many diversified opinions as television in our country," Belafonte said.

"There's no froth about ratings and worrying about whether you'll be on next season. Television, as presented by BBC, is mature and meaningful."

"If it takes me four minutes to tell something I don't want somebody to insist on cutting 30 seconds out of it. The artist should not be butchered to meet the needs of the organization. This is the way I work."

Belafonte's last appearance on American television was in August, 1957 when he did a brief stint with Nat "King" Cole, a fellow Negro artist who had an excellent program for several months. No Negro now has a regular program on network television.

"If it were offered to me I wouldn't take a regular weekly television program," Belafonte said.

"It's impossible for an artist—or at least this artist—to go on for 26 consecutive weeks singing and performing and maintaining anything above the standard of mediocrity. A master of ceremonies can do it, of course, but a performer cannot."

Will Request Repeal of Presidential Limit

PROVIDENCE, R.I. (AP)—Sen. John O. Pastore (D-R.I.) says he will ask the new Congress to repeal the 22nd Amendment, which limits presidents to two terms.

He said he is convinced the "lame-duck strait jacket" in which the amendment encased President Eisenhower was partly responsible for Tuesday's Democratic landslide.

Pastore, who was re-elected Tuesday, also said in an interview: "The only Republicans elected to the Senate were anti-Eisenhower Republicans like Barry Goldwater. Nixon even went to Boston and advocated a tax cut. The President can't keep anybody in line. Everybody's jockeying for power. A week before the election the whole Republican organization was in a state of confusion."

Voters Insist on Man Who Won't Serve

CADILLAC (AP)—Wexford County Prosecutor James Herrington believes his post "pays too little and carries too much work" at \$3,400 a year. But he's having a hard time convincing the public he intends to quit.

Herrington told voters before Tuesday's election that he wouldn't serve if reelected. They voted him into office again anyway. And once again he quit yesterday.

A few weeks back, the prosecutor's pay was boosted to \$4,000. Came a squabble and it was reduced back to \$3,400.

Herrington, 29, says he's working for 62 cents an hour after expenses. "It just isn't a good deal" for a man with a wife and child, he contends.

Herrington's decision to withdraw from office came after the election ballots were printed. Voters apparently didn't believe him.

The vacancy will be filled by appointment by Circuit Judge Howard L. Campbell.

The judge says he still hopes Herrington will change his mind. Herrington insists he won't.
