UAW Eyes January GM Strike

DETROIT (AP) — The United Auto Workers union appeared today to be planning to delay possible strike against General Motors Corp. until after the Christmas and New Year's holidays.

The strategy was outlined at a closed-door session of the union's 300 member GM council, representing some 380,000 workers of the world's largest auto maker.

A source said that Leonard Woodcock, UAW vice president and director of its GM department, told the delegates Dec. 14 would be designated as a "target date" for a new three-year contract with GM.

Woodcock reportedly stressed that the target date for settlement was not the same as a strike deadline.

Observers believed that the union's strategy was aimed at keeping workers on the job until next year so they would not lose several millions dollars in holiday pay.

OBJECTIONS VOICED

Woodcock's proposal stirred several delegates to voice objections to the plan.

Newsmen standing outside the meeting room overheard some of the objections being voiced, with some of the objectors being applauded as they spoke.

UAW President Walter P. Reuther, in an attempt to quell the objections, argued that Christmas is not a good time to go on strike.

★ ★ ★

Reuther told the council members the lengthy Ford Motor Co. strike and the prolonged negotiations at Chrysler Corp. had thrown the union's timetable off balance, therefore necessitating a change in the union's strategy concerning the GM negotiations.

'DOUBLE WHAMMY'

By first setting a "target date" for a settlement and then a later "strike deadline," the union was, in effect, applying the "double whammy" against GM.

★ ★ ★

The UAW and General Motors resumed negotiations on a new contract this week for the first time since Oct. 31.

Whether or not the union makes any special demands of GM could be a key factor in causing a strike.

VANCE HARTKE

GEORGE McGOVERN

'Arrest of VC Thwarted Talks With U.S. Aide'

SAIGON (AP)—Well-informed sources said today a meeting between U.S. Ambassador Elsworth Bunker and a high-ranking representative of the Vietcong's National Liberation Front was thwarted recently when South Vietnamese police arrested the Vietcong emissary.

The U.S. Embassy issued a statement later saying: "Allegations about planned or actual meetings between high officials of the U.S. Embassy and representatives of the VC-NLF as reported by the Associated Press are false. The U.S. Embassy would, of course, not underake and such contacts without the knowledge of the GSV (Government of South Vietnam)."

The "actual meetings" referred to in the statement apparently regarded reports from other sources that a meeting between U.S. officials and Vietcong representatives did take place in a "neutral embassy" in Saigon within the last 10 days.

A Saigon newspaper said the proposed Bunker meeting was arranged by the U.S. Central Intelligence Agency without letting the Vietnamese government know about it. A member of the South Vietnamse House of Representatives also implied that the CIA tried to set up a contact with the Vietcong without advising the Saigon government.

★ ★ ★

The sources said it was believed the police did not know the purpose of the Vietcong agent's visit to Saigon, but the agent "spilled the beans" after he was questioned.

MEETING DENIED

The embassy also denied a report from other sources that Vietcong representatives did meet in a "netural embassy" in Saigon within the past 10 days with Gen. Creighton W. Abrams, the deputy U.S. military commander in Vietnam; Deputy U.S. Ambassador Eugene M. Locke; and Capt. Robert J. O'Brien, in charge of the embassy security guard.

The meeting took place while Ambassador Bunker and the U.S. military commander in Vietnam, Gen. William C. Westmoreland, were in Washington.

The presence of Abrams indicated the meeting had something to do with military matters, possibly with the coming Christmas and New Year's cease-fires, or perhaps in connection with a prisoner exchange.

★ ★ ★

The reports of the contacts between the embassy and the Vietcong come on the heels of indications from captured documents that the Vietcong may be trying to set up talks with United States to seek a coalition government for South Vietnam.

City Warned: Act Soon or Face Bleak Future

By BOB WISLER

Pontiac could be an example to the rest of the country as a model of a comprehensively planned community.

Or it could become an infamous example of haphazard, faulty development degenerating into a city with no amenities and little comfort.

The result of either choice is only a decade away, according to Dr. David Lewis, an urban designer and planner, a consultant to all levels of government and author of several books on urban problems.

Lewis spoke to the Pontiac Area Planning Council board of governors last night at the group's second meeting.

He was hired by the Pontiac Board of Education Wednesday night to help plan the district's prospective Human Resources Center which will replace three obsolete elementary schools in the southeast section of the city. Lewis also may be utilized as a consultant by the planning council.

Lewis delivered an ominous warning in outlining steps he said should be taken to save the city from massive deterioration.

Unless immediate and important steps are taken, he said, "You could have people from all over the world coming to Pontiac to see what can happen under a laissez-faire system."

In this event, he forsaw in 10 years an all but abandoned downtown area loaded with empty stores and avoided by shoppers; tracts of urban renewal land lying vacant and dormant with no hope for development; a huge Negro population locked into the city, living in deteriorating housing and imprisoned in despair.

(Continued on Page A-2, Col. 5)

New Feature on Tap

Starting next week, The Press will offer an interesting new feature, "Great Lakes Log."

The "Log" will appear once a week and provide readers with interesting facts, history and lore concerning the Great Lakes.

AP Wirephoto

CARE AND CLEANING — Gunners clean dust from ammunition on their tank at Dak To, South Vietnam. The soldier at left is cleaning 20mm cannon shells for the twin-barreled piece behind him, while the other man cleans and oils a band of M60 machine-gun rounds. During the dry season, a fine red dust settles on equipment and must be constantly removed to keep parts functioning.

2 Senate Doves May Run as Favorite Sons

WASHINGTON (AP) — Two Democratic senators who oppose U.S. war policies in Vietnam are considering favorite-son presidential primary races, campaigns which could bolster the White House bid of Sen. Eugene J. McCarthy.

★ ★ ★

Sens. Vance Hartke of Indiana and George S. McGovern of South Dakota said favorite-son campaigns are a possibility — and both added they generally agree with McCarthy's opposition to current U.S. policy in Vietnam.

But neither senator would say whether he would attempt to deliver his state's presidential support to the Minnesotan should he become a favorite son.

McCarthy listed four primaries as certain targets. They are Wisconsin, Nebraska, Oregon and California.

★ ★ ★

He said he also will enter the contests in either New Hampshire or Massachusetts — or possibly both.

'LOT OF HARD WORK'

"I just hope he stays out," said Sen. Thomas J. McIntyre, D-N.H. "It's a lot of hard work for us if he doesn't."

New Hampshire holds the nation's opening presidential primary next March 12, and McIntyre said neither he nor Democratic Gov. John W. King now plans to enter the race as a Johnson representative. Both are Johnson backers.

"Of course, we can always adjust our plans," McIntyre said, should McCarthy enter the New Hampshire race.

There were indications McCarthy may skip New Hampshire anyhow. He said it might conflict with his schedule for an overseas trip next winter, a journey that may include a stop in Vietnam.

Drizzle and Fog Possible Tonight

The U.S. Weather Bureau reports there's a chance of some drizzle and fog tonight in the Pontiac area. Here is the official weekend forecast:

TODAY — Partly cloudy and little warmer, high 38 to 41. Cloudy and not so cold with chance of drizzle and fog tonight, low 29 to 33.

TOMORROW — Cloudy and mild with light rain likely.

SUNDAY — Partly cloudy with little temperature change.

★ ★ ★

Precipitation probabilities in per cent are: today 5, tonight 20, tomorrow 50.

Twenty was the low temperature in downtown Pontiac prior to 8 a.m. The thermometer registered 33 at 2 p.m.

No Tax Hike This Year, but Maybe in '68--Mills

WASHINGTON (AP) — The American taxpayer won't pay higher income taxes this year but might in 1968 if President Johnson cuts spending enough, says Chairman Wilbur D. Mills of the House Ways and Means Committee.

Mills said yesterday it's out of the question for Congress to pass the administration's complex tax bill in the current session of Congress.

The Arkansas Democrat's remarks followed completion of his committee's hearings on Johnson's plan for a 10 per cent surcharge on income taxes, combined with an administration spending cut plan.

Presenting the plan, Treasury Secretary Henry H. Fowler said it would be unthinkable not to start work on it promptly.

But Mills let the hearings lapse without scheduling working sessions.

Mills said he assumed the next move would be for Budget Director Charles L. Schultze to discuss proposed spending cuts with the House Appropriations Committee.

Senate Asks LBJ to Try to Get U.N. Viet Peace Effort

WASHINGTON (AP) — The Senate has approved a call for United Nations action on the Vietnam war but has delayed voting on a proposal to protest Secretary of State Dean Rusk's refusal to testify publicly on the war.

The Senate voted yesterday, 82-0, for a resolution asking President Johnson to consider directing this country's U.N. representatives to seek action by the world body on the Vietnam issue.

Senate Democratic leader Mike Mansfield, who sponsored the resolution, said there is urgent need for Johnson to seek U.N. involvement in an attempt to find peace.

Chairman J. W. Fulbright, D-Ark., of the foreign relations committee, said he doesn't know whether the U.N. can be effective on Vietnam, but "the United States has no choice but to take every road that might lead to peace."

★ ★ ★

Fulbright's committee put off action yesterday on the proposal that it protest formally Rusk's refusal to discuss the war in public.

Rusk has maintained more valuable exchange would come at a closed session. The State Department said he hasn't decided whether to appear at a public session.

Fulbright said committee members were split on how far to press the issue. It was uncertain when the committee would take up the motion again.

Connally Still Says No

BALTIMORE (AP) — Gov. John Connally of Texas said today he discussed the Secretary of Defense job with President Johnson in Washington but "I am not a candidate for the job."

AP Wirephoto

EARTHQUAKE VICTIM — A woman sits on the ground and cries over the loss of her home, destroyed yesterday when an earthquake hit Debar, Yugoslavia. Some 6,000 Yugoslavs spent a rainy night in the open after the powerful quake killed at least 19 and injured 174 in southwest Yugoslavia and eastern Albania. Three more earthquakes caused new panic today but did no harm in the area around Debar. There was no report from Albania on the effect of the new quakes.

For Hobbyist, Sportsman

Unique Gifts Galore

(EDITOR'S NOTE — This is the third in a series on Christmas gift suggestions that are available in Pontiac area stores.)

By JEANNE NELSON

If that home movie buff at your house has always had a penchant for the big time, surprise him with a real star director's clapboard. It sells for $5.95. An ideal gift for the confirmed bachelor is an electric pants presser with Teflon face plate at $8.

Snowbound golf nuts will appreciate the automatic-return electric putting outfit that retails for about $10.

Are you ready for this one? A Spanish wine bag of tan goatskin trimmed in green leather. The neck-band arrangement is reminiscent of the old St. Bernard bit. It's priced at $4.

For the hunter, there is a large, completely cedar-lined portable closet. Roomy enough to hold all those bulky wool outfits and a place at the bottom for boots, it's easily transported and moves about freely on nylon casters. Cost: about $50.

A handsome item for office or home is an extra large cigarette box in a dark toned solid oak. Imported from Spain, it runs around $5. A stately looking pair of simulated brass Lincoln bust bookends is priced at $13.95.

BEER MUG

Another of the new imports is a hand-crafted pewter beer mug from England. This makes an impressive gift in its own elegant case, $18.95. Be sneaky, catch a peek at his hat size and astound him with one of the youthful-looking tame suede narrow-brimmed hats. In olive and brown, they sport natty feather brushes and cost $11.95.

★ ★ ★

In the luxury line there are semi-precious stone cuff links set in sterling for under $16. One store manager swore he sat up nights carving an unusual horse's head magazine rack (definitely a one-of-a-kind). This little conversation piece runs $49.95.

N-Arms Talks Pass Deadline

UNITED NATIONS, N.Y. (AP) — Failure of the Geneva disarmament conference to reach agreement by today on a treaty to check the spread of nuclear weapons raised prospects of a special 1968 meeting of the U.N. General Assembly.

★ ★ ★

Assembly President Cornelio Manescu had announced that the 17 nations at Geneva would have to agree on the proposed treaty by Dec. 1 if the assembly was to act on it at its present session.

★ ★ ★

A dispatch from Geneva Thursday said there appeared to be virtually no hope of completing the treaty before the 17-nation commission recesses Dec. 14 until the end of January.

★ ★ ★

Informed sources at U.N. headquarters said if the Geneva group agrees on a treaty early next year, instead of convening a special assembly meeting the United Nations might turn the draft over to the 122-nation U.N. Disarmament Commission.

COMPREHENSIVE STUDY

Some delegates would prefer this because the commission could make a comprehensive review of the whole disarmament situation and report to the regular assembly session next fall.

★ ★ ★

Completion of the treaty has been delayed by objections from the so-called nonaligned nations. But the United States and the Soviet Union are reported close to agreement on inspection procedures to check on compliance with the treaty, a provision left blank when the joint U.S.-Soviet draft was submitted to the Geneva group last August.

★ ★ ★

A panel of prominent U.S. leaders convened recently by the United Nations Association of the United States has cautioned that the atomic powers must offer more specific assurances to the nonatomic nations if the proposed treaty is to be acceptable.

★ ★ ★

The panel asserted that the United States and the Soviet Union, to satisfy the nonnuclear states that they will share in the peaceful uses of atomic energy, will have to go beyond the vague promises of the present treaty preamble.

★ ★ ★

U.S. disarmament experts are reported confident, however, that no insurmountable difficulties will be encountered in winning support of other nonnuclear states if agreement can be reached by the Geneva negotiators.

Dope Probe at High School Brings Arrest

ANN ARBOR (AP) — An Ann Arbor youth has been charged with sale of marijuana after an investigation of reported marijuana smoking by students at Whitmore Lake High School.

David M. Alexander, 20, was released on $1,000 bond and ordered to appear for Municipal Court examination next Wednesday.

Washtenaw County Sheriff Douglas J. Harvey said his department's investigation had resulted in apprehension of "the main supplier" of marijuana at Whitmore Lake High.

Harvey said the marijuana was obtained from an Ann Arbor man, then sold to two Whitmore Lake High students for about 100 per cent profit. The two students, whose names were withheld, mixed the marijuana with tobacco and sold it to other students, he said.

Marines Rout N. Viets in Fight Near DMZ

SAIGON (AP) — The Con Thien war front erupted again Thursday, with U.S. Marines driving North Vietnamese troops from their bunkers after a close-quarter battle just below the Demilitarized Zone. Meanwhile, a Red force continued to menace a U.S. infantry battalion at the Bu Dop Special Forces camp near the Cambodian border.

A company of Marines searching for Red troops 2.4 miles northeast of Con Thien ran into heavy machinegun and mortar fire from an entrenched North Vietnamese company, estimated at about 135 men.

★ ★ ★

Three more Leatherneck companies joined the battle, giving the Marines about 700 men. Maneuvering around the enemy's flank, the Americans drove the Communists out of their heavily fortified positions in a four-hour battle.

Field reports said 26 North Vietnamese and 15 Americans were killed and 54 Americans wounded in the fighting, which was at such close quarters that the Marines could not use their artillery.

DMZ LULL BROKEN

The fighting broke a lull on the DMZ front during which the Communists had concentrated on new targets, chiefly allied outposts along South Vietnam's 400-mile-long land border with Cambodia. The enemy's aim on both fronts apparently is the same—to operate close to his supply trails and to draw Americans away from protection of more populous areas where the government's pacification program has been making progress.

Thant Prepares Cyprus Appeal

UNITED NATIONS, N.Y. (AP) — U.N. Secretary General U Thant prepared a peace appeal today to Greece and Turkey, setting the stage for a face-saving agreement to close out the threats of war over Cyprus.

★ ★ ★

Thant's move was designed to lessen the prospect of adverse Greek public reaction. It was believed the Greek people would be less aroused by a positive response to an appeal to Thant than by outright capitulation to Turkey's demands.

★ ★ ★

Thant in his appeal was to call for the terms worked out by the three international peacemakers who shuttled back and forth between Athens and Ankara this week, informants said.

★ ★ ★

Major points include the withdrawal of Greek and Turkish regular army troops stationed illegally on Cyprus, Greek compensation for Turkish Cypriots killed in fighting on the island Nov. 15, and an end to Turkey's threat to invade the island 40 miles off its southern coast.

IMMEDIATE ISSUES

While disposing of the immediate issues, such an agreement would not settle the basic differences which brought the Greek Cypriot majority and the Turkish Cypriot minority to civil war in 1963 and has kept the island in a state of armed truce since a U.N. peace force intervened the next year.

The 1963 civil war was set off by the abrogation of the special political rights given the Turkish Cypriots in the 1960 agreements which freed Cyprus from British rule. Once the British were gone, President Makarios insisted on majority rule for his Greek Cypriots. Now the Turkish Cypriots have revived their demand for partition of the island between the two ethnic communities.

★ ★ ★

Before completing his appeal message, Thant planned to hear from U.N. Undersecretary Jose Rolz-Bennett, who returned to New York Thursday night from his mission as Thant's personal representative to help settle the crisis.

Grand Rapids to Fete Ford

GRAND RAPIDS (AP)—House Republican Leader Gerald R. Ford Jr. will be honored Dec. 12 by his home town where Mayor Christian Sonneveldt has proclaimed the day "Gerald R. Ford Day." It will be the first time Ford has been so honored by his native Grand Rapids.

Ford is scheduled to receive the keys to the city from Sonneveldt and address a Lions Club luncheon.

★ ★ ★

The mayor's proclamation cites Ford for his 19 years in Congress representing the 5th District "in a creditable manner, performing valuable and outstanding service to his constituents" and that his performance of duty "is worthy of the respect and support of all the citizens he represents."

9 Girls to Vie in Waterford

Junior Miss Pageant Scheduled for Dec. 9

Nine senior girls from Waterford Township, Waterford Kettering and Our Lady of the Lakes high schools will vie for the Waterford Township Junior Miss title in a Dec. 9 pageant at Mason Junior High School.

★ ★ ★

The winner of the competition will gain a $250 college scholarship and other prizes and will automatically qualify for the Michigan Junior Miss Pageant to be held Jan. 26-28 at Pontiac Northern High School.

Prizes also will be awarded to the first and second runners-up, according to the Waterford Township Jaycees who are sponsoring the contest.

Chairman of the pageant is Michael G. Patterson. The co-chairmen are Mrs. John Harrington and Mrs. Bruce Sias, members of the Waterford Township Jaycettes.

★ ★ ★

The new Junior Miss will be crowned by last year's winner Jennifer Siegwart, daughter of Mr. and Mrs. Glenn Siegwart of 3258 Wormer, Waterford Township.

NOT BEAUTY CONTEST

Miss Siegwart is now a freshman at Ferris State College in Big Rapids.

According to Waterford Jaycees, the pageant is not a beauty contest and there will be no bathing suit competition.

Contestants will be rated by a panel of three judges on scholastic achievement, poise and appearance, youth fitness, creative and performing arts and conferences with the judges.

★ ★ ★

Each entrant will be questioned by the judges for 10 minutes in the morning.

QUESTIONING SESSIONS

In the questioning sessions, the judges will consider personality, sense of values, clarity of expression, knowledge and perception, mental alertness, personal appearance and human relations.

★ ★ ★

A luncheon for the girls will follow.

The evening competition will get under way at 8.

Draft Cards Turned in Are Not All Real

WASHINGTON (AP) — Draft chief Lewis B. Hershey says he isn't getting as many draft cards as he expected from Vietnam war protestors — but he is receiving plenty of drivers' licenses.

About three of four cards he receives from protestors turn out to be drivers' licenses or other nondraft cards, Hershey said Thursday.

★ ★ ★

"I suppose I'm a trusting soul," the 74-year-old Selective Service System director said.

"When I read in the newspaper that somebody said he turned in his draft card, I suppose he did.

PLEASANT SURPRISE

"But it was surprising to me, the low number of real draft cards that were turned in," added the lieutenant general in a telephone interview. "I'm a little disillusioned, but I must say I'm happy to be disillusioned about this."

Coordination in Helping of Needy Urged

Individuals or organizations wanting to help needy families on Christmas were urged today to contact the Salvation Army Clearing House in Pontiac for information.

Mrs. James Gee, clearing house director, said that of the 470 families processed to date, only 175 have been "adopted out" for assistance.

Before the operation of the clearinghouse ends Dec. 15, Mrs. Gee said she expects the number of needy families to near the 1,000 mark of last year.

Persons who require assistance should call the clearing house so their names can be listed.

★ ★ ★

"There are probably many who have had recent disasters and feel that they aren't eligible," said Mrs. Gee. "This isn't true. They will be helped."

FOOD, CLOTHING

Those who aren't aided by some group will receive food and clothing from the Salvation Army, according to Mrs. Gee.

She said if toys aren't among gifts given by groups, the Salvation Army makes it a point that every needy child receives one plaything.

Birmingham Area News

MEA to Mull School Sanctions

BIRMINGHAM — A meeting tonight of the Michigan Education Association (MEA) executive committee will decide whether or not to apply sanctions against the Birmingham School District.

Birmingham teachers have been working since September under a court injunction with no contract settlement in sight.

The MEA executive body reportedly will review the results and recommendations of a six-member team which visited Birmingham a number of times this year and then make a decision. The Birmingham Education Association asked for sanctions.

Sanctions would mean that the MEA would designate the school district as an undesireable place for teachers to work.

The fire recently at the Wylie E. Groves High School which damaged a storage room and slightly injured one student is now suspected to have been caused by two boys who were in the room playing with a cigarette lighter.

★ ★ ★

Lt. John Reed of the Beverly Hills Fire Department said that when the investigation is complete the matter would probably be turned over to juvenile authorities.

★ ★ ★

The fire started in a room where mats used for track events are stored and was believed to have started when a bag of plastic foam one of the students was carrying burst into flames.

Fire Departments from three communities fought the blaze for an hour and 1,800 students were evacuated from the building.

Susan Greer is one of six Michigan State University coeds studying education who will earn her winter term credits while working as an assistant teacher at the American School in Guatemala City in Central America.

★ ★ ★

Miss Greer, majoring in elementary education, will pay her own way and will receive up to 15 college credits while undertaking coursework and research projects there.

Library Group Elects Officers

Mrs. Roger Reid of 6677 Manson, Waterford Township, has been elected president of the Waterford Township Friends of the Library for 1968.

★ ★ ★

Among other officers elected to one-year terms were Mrs. Leonard Cybul, first vice president; Mrs. Norman Pankner, second vice president; and Mrs. Lee Anna, corresponding secretary.

Also elected to office for one-year terms were Mrs. Gerald Lewis, secretary; and Mrs. Elmer Barker, treasure.

All terms will begin Jan. 1.

Outgoing president is Mrs. Robert Eisele of 3528 Baybrook, Waterford Township.

The group also announced it has purchased a projector for the Waterford Township Library in memory of the late Mrs. Ralph Eaton, a past president of Friends of the Library.

The money for the projector was donated by relatives and friends of Mrs. Eaton.

News Seminar for City Editor

Pontiac Press City Editor Jerry T. Robbins will be among 31 newsmen attending a two-week American Press Institute seminar at Columbia University in New York City.

ROBBINS

Newspapers from 46 states will be represented at the seminar which opens Monday.

The program will include discussions of problems relating to organization and operation of the city news department, reader interest, investigative reporting, reporting of municipal affairs and trends in education.

Pageant Hopefuls Busy Rehearsing

Pontiac's Junior Miss candidates are busy rehearsing songs, dances and skits for the pageant to be held tomorrow at 8 p.m. in Pontiac Northern High School's Little Theatre.

The sponsors of the program, Pontiac Area Jaycees, have announced that the public is invited. Admission is $1.

The winner receives $250 in scholarships, and will compete in the state Junior Miss contest in January. The runner-up will receive a $100 scholarship.

City Warned: Act Soon or Face Bleak Future

(Continued From Page One)

Lewis offered no panacea, no distinct proposal and no detailed plan to meet these problems, but, he said, there is evidence the problems can be met.

DEVELOPMENT KEY

He said the key to proper development is comprehensive planning, a determination of what the city should be, an all-out assault by the total community and the building into the city of "amenities for civilized living."

Piecemeal planning will not dictate proper solutions, he said.

Lewis said the failure of the city to attract a shopping center in the downtown area — the hoped-for catalyst to redevelopment downtown — is understandable because there is little amenity to introduce a shopping haison."

★ ★ ★

He said such amenities included but were not confined to parking, walkways, trees, resting spots, seating facilities.

Lewis said planning of any one facility must be done in relationship to everything else: educational facilities, transportation, housing demands and plans, civic centers, cultural attainments, etc.

An example of isolated planning Mayor William H. Taylor Jr. said is the recent City Commission decision to allow some 700 rent-supplement houses on Kennett adjacent to Alcott Elementary School.

"As Dr. Lewis pointed out," he said, "It's being built because of the demand for housing not necessarily because it's good planning."

★ ★ ★

Pontiac is, because of its location in the center of a high-way system and an axis-population, the deteriorating hub of an increasingly enriched Oakland County, "One of the fastest developing metropolitant regions in the country," Lewis said.

This is one of its strengths which can be capitalized on, he said.

Warning to Gardeners: November a Dry Month

Gardeners and home owners had better give their evergreens a thorough soaking with water before the hard freeze of winter hits because November fell far short of the normal amount of precipitation.

In an average November, Oakland County residents can expect between 1.77 and 2.73 inches of precipitation. Last month the accumulation totaled 48 one-hundredths of an inch plus 1½ inches of snow.

Precipitation totals for November 1965 were 3.67 inches of rain and 13 inches of snow. last month's deepest snowfall of one inch fell on the 14th. It compared to the preceding November's highest single snow accumulation of seven inches.

Temperature high for the month was 56 degrees on Nov. 1. The low of 16 degrees was hit on three separate days, Nov. 15, 28 and 29. High and low for the previous November was 60 and 21 degrees.

★ ★ ★

The month's mean was 34.7 degrees as compared to last November's 39.55 degrees and the area's average of 40.4 degrees.

SUNNY SIDE

Sunshine, however, earned a generous edge this season with a total of 14 sunny days. Only eight days of sun punctuated the cloud-filled skies last November.

★ ★ ★

No sleet storms troubled motorists during the month though area road's were slicked Nov. 6, causing the Oakland County Road Commission to marshal all its trucks for the first general road-salting of the season.

The Weather

Students Spend Day Under Communism

COLUMBIA, S.C. (UPI)—The change was subtle at first.

The American flag was missing from the pole in front of Columbia High School. Inside, the familiar pictures of George Washington had been replaced by photographs of men with a Moscow look.

But shortly after the 1,240 students arrived for school yesterday morning, the subtlety ended. A loudspeaker blared through the halls:

"Today you are liberated from the chains of capitalistic society. The dutiful lackey of Washington who has been parading as your principal will no longer hold such a position of power.

* * *

"The temporary guiding friend to whom you are responsible is the People's Director Garvin."

STRICT DISCIPLINE

Thus began a project of the faculty and student leaders of the school to illustrate what they believed life in a Communist society is like.

Tough-talking student leaders wearing hammer-and-sicle arm bans enforced a strict discipline permitting no talking in halls. Students were forced to double-time to class.

Teachers turned into strict disciplinarians, forcing students to stand at attention and salute. They spoke in strident tones about the beauty of the "new people's government."

* * *

Ramrod of the project was Miss Mary Arnold Garvin, who rallied the "people's forces" at the start of the day and ousted Kirk. Miss Garvin, an English teacher, did extensive research on Russian education.

* * *

Miss Garvin, "elected" as director of the People's party in a vote in which only one name appeared on the ballot, said in her acceptance speech "We are united in a war — a war for men's minds, a struggle against inequality and privileges for the few."

The idea originated with Rudy Ritchie, a student council leader, and was designed to illustrate for the students the loss of freedom.

Draft Is Too Late

CARTHAGE, Mo. (AP) — Redmond Granzow, 74, recently received notice from the Selective Service Board to register for military service. Granzow, of Monett, Mo., says he thinks he will ignore the notice.

'Brighty' Memorial Readied for Canyon

INDEPENDENCE TOWNSHIP — Final touches on the bronze casting of "Brighty," the shaggy, free-spirited burro who first saw the Grand Canyon 75 years ago, were taking place today in a foundry owned by Fred Petrucci at 4975 Waldon.

★ ★ ★

The statue will be installed on the south rim of the canyon Dec. 16.

The work of Peter Jepsen of Birmingham, "Brighty" was commissioned by Stephen F. Booth, producer of the motion picture, "Brighty of the Grand Canyon," based on a best seller for children by Newberry award winner Marguerite Henry.

The bronze is a Christmas gift to the national park and its thousands of visitors from the film company.

To create the sculpture, Jepsen used photographs of the original Brighty and studied the burro used in the film. He first made a small edition, one-seventh the size of the big one, then worked more than eight months on the monument, which is the actual size of a small burro, but only three-fourths as big as Brighty. The sculpture weighs approximately the same as the real burro — 600 pounds.

Pontiac Press Photo

Sculptor Peter Jepsen Puts The Finishing Touches On 'Brighty'

3 Escape Fire in Groveland

GROVELAND TOWNSHIP — A family of three escaped unharmed from their large two-story home after a fire broke out on the second floor early yesterday. Earl Simonson apparently noticed smoke about 3 a.m. and led his wife and young son out of the house at 4001 Groveland, said Brandon Fire Chief William Buckingham.

The Brandon Fire Department, assisted by the Atlas and Hadley Township departments, fought the blaze until 6:30 a.m.

Most of the interior of the second story was gutted, said the chief.

He estimated damage to the structure and contents to be about $10,000 to $11,000.

The fire appeared to have started in the walls but no cause has been determined.

17 Girls Are Seeking Orion Junior Miss Title

LAKE ORION —Seventeen teen-age girls from Lake Orion, Oxford and Dominican high schools will compete for the title of Orion Area Junior Miss.

★ ★ ★

Area Jaycees will sponsor a pageant at 8 p.m. tomorrow at the Lake Orion Junior High cafetorium.

The winner will be chosen on the basis of academic standing, poise, personality and talent.

Troy Library Group Halfway in Drive

TROY — Members of the Friends of the Troy Public Library and library trustees have reached the halfway mark in their campaign to obtain 600 signatures by Dec. 6.

At least 600 signatures are needed in order to permit the Troy City Commission to place a half-mill tax proposal on the Feb. 19 ballot.

If the vote is favorable, a $500,000 library could be built with the money, said Mrs. Calvin Blankenship, president of the Friends group. The present city commission has pledged to use the funds from the levy to build a new library, she added.

On a proposal to amend the charter to provide a half-mill tax specifically for library purposes appeared on the ballot. The proposal was defeated by a 3-2 margin. State law prevents a charter amendment from being resubmitted for two years.

★ ★ ★

If built, a new 14,000-square-foot library would be put up in the civic center area. The present rented building housing the library has 2,400 square feet of space.

COMPARISON

Mrs. Blankenship explained that the neighboring city of Clawson with a population of 15,500 has an 8,000-square-foot library. Troy's population is about 33,000.

Lapeer Hospital OKs $400,000 for Construction

Directors of the Lapeer County General Hospital have voted to proceed with finishing the third floor of the hospital even after the Nov. 7 defeat of a $2.5-million bond issue, said Administrator Colman Foote.

★ ★ ★

Finishing and furnishing the interior of the third floor patient area will be financed along with several other projects by a $400,000 depreciation fund built up by annual deductions from profits, explained Foote.

The unfinished third floor has been a controversial issue ever since it was built in 1960 in a major expansion program.

In addition to finishing the floor with part of the $400,000, the directors plan to build a second floor over the surgical wing and enlarge the recovery and emergency rooms, depending on how far the funds stretch, said Foote.

★ ★

Money from the bond issue would have been used for these projects plus many more.

Previous expansion programs were partially financed by federal aid under the Hill-Burton Act, but no federal funds were available this time, he added.

THE PONTIAC PRESS

Area News

FRIDAY, DECEMBER 1, 1967 A—4

Man Sentenced in June Murder

The second of three men involved in the murder of a 19-year-old mother of two in Stony Creek Park last June was sentenced yesterday to 10 to 20 years in jail by Macomb County Circuit Court Judge Walter P. Cynar.

★ ★ ★

Isaac Perkins, 18, of Madison Heights pleaded guilty Oct. 17 to a second-degree murder charge in the strangulation death of Mrs. Anna Sue Collins whose body was found at the park on June 17.

★ ★ ★

On Nov. 16th his brother, James G. Perkins, 35, was given a mandatory life sentence for conspiring to murder the woman, who according to police records had given evidence against him in connection with a forged check-cashing ring in Oakland and Macomb counties.

★ ★ ★

A third defendant in the case, John D. Hicks, 18, of Warren, was bound over to Macomb County Circuit Court Monday on a first degree murder charge following an examination before Justice Edmund Schmidt.

6 in Milford Eye Junior Miss Title

MILFORD — Six local teen girls compete in Milford's Junior Miss Pageant tomorrow at 8 p.m. in the Little Theater of Milford High School.

The six contestants are Candy Adam, Della Gatenby, Diana Nealer, Terrye Hord, Cheryl Wood and Ruth Ann Clay, all Milford High School students.

A scholarship of $150 will be given the winner by the Milford Jaycees.

The pageant is open to the public free of charge.

★ ★ ★

Chairman of the event is Richard Bohl, a member of the Milford Jaycees.

Planners Back Lot Rezoning on 2nd Try

WEST BLOOMFIELD TOWNSHIP — On the second time around, the Township Planning Commission gave its support to rezoning lot 40 of the Automobile Country Club for office use.

The vote at the recent meeting was 4 to 3. Previously, the commission had voted 4 to 2 after a public hearing to maintain the single family residential zoning for the parcel owned by Dr. Lawrence Finkell.

Reconsideration of the issue was requested by the Township Board, which is now to act on the commission's recommendation.

In other action, the commission raised the fee for review of preliminary plats from $150 to $300, because of the new plat act effective Jan. 1.

★ ★ ★

The commission also is recommending for approval by the Oakland County Coordinating and Zoning Committee and the Township Board the following amendments to:

- Establish an "averaged lot-size plan" permitting varied sizes for one-family residential lots on land with unusual topographical features or next to permanent open space or upon approval of the commission.
- Permit nursery schools in a single-family district.

★ ★ ★

- Permit real estate advertisement signs more than six square feet on a temporary basis in the multiple, business and industrial districts.

★ ★ ★

- Clarify that all residences must have access to a public street.
- Clarify the method for computing off-street parking requirements.
- Clarify that setback areas do not include easement areas.

★ ★ ★

- Eliminate the necessity of registering mail related to appeal board cases.

Future Building Sites Mulled by Lake Orion School Board

LAKE ORION — A discussion of possible land sites for future school needs and the requirements for a projected new elementary school in the district occupied Lake Orion Board of Education members recently.

"We need a flexible school," said Schools Supt. Lewis F. Mundy, "one with moveable partitions." He said no site purchase for the contemplated construction has been made.

James Theunick, principal of Carpenter Elementary School, was announced as the new director of the summer's elementary remedial program financed by federal funds.

A discussion of heating repairs at the high school revealed that the cost of a new heat exchanger and pipes may total more than $2,000.

★ ★ ★

The purchase of one-half of a relocateable classroom for use as transportation offices was announced.

ECONOMIC SOLUTION

Mundy said the total cost of purchase and installation at less than $6,000 had provided an economical solution to the problem of space. The wheeless trailer has been installed behind the Blanche Sims Elementary School.

Wixom Engineers Reviewing Costs of Paving Projects

WIXOM — Residents on Theodore, Flamingo and Fairbury streets will have to wait until next summer to have their roadways paved.

★ ★ ★

City engineers Pate, Hirn and Bogue, Detroit, are reviewing ways the streets can be improved at lower costs. The city is then going to advertise for construction bids for the second time.

The City Council last week rejected two bids because they were too high.

The lowest bid of $143,191 for the asphalt paving plus curb and gutter came from Holloway Construction Co. of Wixom. The second bid from Cadillac Asphalt Co., Southfield, was $147,632.

★ ★ ★

The council scheduled a public hearing for Dec. 12 at 8 p.m. on the rezoning of about 40 acres on the northwest corner of Beck and 12 Mile.

MOBILE HOMES

The request from Harry Brody and Morris Garrison calls for the rezoning from residential to mobile homes or multiple zoning.

★ ★ ★

The city planning commission and zoning board has recommended denial of the request. The attorney for Brody and Garrison has requested the hearing before the council, which has the last word.

Clarkston Board Sells $2.5 Million in School Construction Bonds

CLARKSTON — The sale of $2.5 million in school construction bonds has been awarded to Halsey-Stewart and Associates of Chicago.

The board of education accepted the lowest of three bids requiring a net interest rate of 4.6 per cent.

★ ★ ★

Mrs. Lloyd Sibley, a Municipal Advisory Council representative, told board members that while the interest rate is higher than it was a year ago, the bid was a good one for present circumstances.

The money, held up nearly a year by the Michigan Municipal Finance Commission, will be used to build a second junior high school and auxiliary buildings in the district.

OES Dinner Tomorrow

DAVISBURG — The Austin Chapter of the Order of Eastern Star No. 396 will have a roast beef dinner tomorrow at 6:30 p.m. at the Masonic Temple at Andersonville and Davisburg roads.

Ex-Southfield Doctor Joins Goodrich Staff

GOODRICH — Dr. S. C. Werch, formerly of Southfield, has joined the staff of the Goodrich Medical Center here as a specialist in internal medicine.

★ ★ ★

Dr. Werch is eligible for the American Board of Internal Medicine and is certified in the American Board of Clinical Chemistry. Prior to his appointment here he was Director of Medical Education at Highland Park General Hospital.

Outlook in Avondale Is Bright, According to Expert From U. of M.

A promising outlook for the future of the Avondale School System has been reported by Dr. Paul D. Carter of the University of Michigan in a recent evaluation of facilities and staff.

★ ★ ★

"If the population explosion doesn't outrun your capacity to plan, build, and consolidate gains, the outlook is indeed a promising one," he said.

Carter made special mention of the junior high school team-teaching project.

He noted that buildings are generally clean and cheerful, teacher morale seems high, and the student bodies were orderly and well-mannered.

★ ★ ★

He said "Although facilities are modest and space at a premium, considerable ingenuity has been demonstrated in building utilization. No usable space is unoccupied."

Wixom Meeting Slated on Sewer System Laws

WIXOM — The City Council will hold a special public meeting Jan. 2 to review ordinances governing the operation of the citywide sewer system.

The $4.6-million project is heading for a Jan. 31 completion date.

Subdivision plans calling for relatively small lots and common open areas received preliminary plat approval at a recent council meeting. Douglas Colwell is developing the subdivision on 112 acres on Loon Lake Road near Benstein.

The council also moved ahead on construction of a City Department of Public Works garage by accepting the low construction bid of Morton Buildings of Michigan, Inc., Rockford, of $10,685.

★ ★ ★

Construction is to start soon for the garage to be located off Charms Road.

4-YEAR TERMS

Appointed to the board of canvassers for four-year terms starting Jan. 1 were incumbent Billie J. Mills, Democrat, 2625 Lakeridge, and Toivo W. Rentola, Republican, 2098 Bogie Road.

★ ★ ★

City engineers Pate, Hirn and Bogue are still studying ways to lower the cost of improving Flamingo, Theodore and Fairbury streets. The council has rejected bids received because they were too high.

Wolverine Lake OKs Resignation of Police Chief

WOLVERINE LAKE — Police Chief Donald Vickery submitted his resignation, and the Village Council unanimously accepted it.

★ ★ ★

The action came after the council withdrew charges of misconduct against the 36-year-old chief at a closed-door hearing last night. Vickery had been temporarily suspended.

Vickery, who had served as chief ope-and-a-half years, will receive severance pay until Jan. 15. The village will also give him a letter of recommendation as police chief, reported Village Attorney Gene Schnelz.

The hearing was requested by Vickery who was entitled to it under village and state law.

★ ★ ★

The former chief, a village resident, was temporarily suspended and asked to resign Nov. 6 by Village Manager Clifford Cottrell and Village President Clyde Johanson.

AFFIRMING VOTE

On Nov. 13, the Village Council voted 4-2 affirming the action of the president and manager.

★ ★ ★

Although a new police chief has not been selected, the department elected Patrolman Vern Darlington senior officer earlier this month. This position imparts a supervisory capacity to Darlington, said the village manager.

Coronary Care Units Are Topic of Workshop

A problem-solving workshop on coronary care units is scheduled for 8 p.m. Tuesday at Providence Hospital, Southfield.

The workshop is being sponsored by the Oakland County Unit of the Michigan Heart Association.

★ ★ ★

Participating in a panel discussion of coronary care units will be Dr. Murray B. Levin of Pontiac General Hospital and Dr. Donald C. Overy of St. Joseph Mercy Hospital.

★ ★ ★

Moderator for the discussion will be Dr. E. J. Meuller, chairman of the heart unit's professional education committee.

Goodfellow Sale Set in Commerce

COMMERCE TOWNSHIP — A Christmas for every area child is the aim of firemen here as they participate tomorrow in the annual Goodfellow newspaper sale.

★ ★ ★

The firemen will be selling in the township area from 7 a.m. to noon.

Proceeds will go for toys, clothing and food for needy area families. Walled Lake High School students will be adding the canned goods they are collecting.

Troy Rezoning Hearing Slated

TROY — The request by the Biltmore Development Co. to rezone 313 acres of land for expansion of their huge Somerset Park apartment complex here will be discussed at a public hearing Jan. 8.

The developer's controversial plan was resubmitted to the city earlier in November for the third time.

The company desires to almost double the present 2,000-unit apartment complex plus add some commercial buildings and a golf course on land presently zoned single-residence east of Coolidge and just north of 16 Mile Road, explained Troy Planning Commissioner George Peek.

"I still have some reservations on the plan," said Peek, "but I will go along with the planning commission in supporting it."

★ ★ ★

He explained that the resubmitted plan omitted the controversial high-rise buildings originally proposed and included an 80 acre green-belt buffer zone between the planned multi-dwelling units and single-residence areas which the city desires.

A separate public hearing will be scheduled by the Troy City Commission Monday on the Planned Neighborhood Development rezoning amendment which would make it easier to adopt such large developments as Biltmore's, said Peek.

★ ★ ★

Unless the City Commission adopts the amendment before Jan. 8, however, the Biltmore request will probably be handled as an individual request, he added.

Navy to Probe F111 Engine Cost

WASHINGTON (AP)—The Navy seeks to determine if a threefold increase in the estimated production cost of engines to power the controversial F111 aircraft results from inefficiency by the prime contractor, Pratt & Whitney Division of United Aircraft Co.

A special Navy team will examine the cost records of Pratt & Whitney, the nation's largest jet engine manufacturer.

★ ★ ★

Pentagon sources said if the team uncovers what it deems inefficiencies, Pratt & Whitney, headquartered in East Hartford, Conn., will be asked to make changes.

The team will attempt to establish a firm precedent for similar cost-evaluation efforts in future large purchases.

Pentagon figures indicate that in early 1961 Pratt & Whitney, then in the early planning stages of the project, estimated the cost of each TF30 engine at $271,000.

This year, after incorporation of changes requested by the Pentagon, the firm's cost estimate had increased to $700,000 —$750,00 per engine.

Under a letter contract, the firm is to produce 2,053 engines by 1971. A final award, about to be negotiated, may amount to more than $1 billion.

Demolition Bids

LANSING (AP)—Sealed bids for removal or demolition of buildings on 16 parcels of land in Detroit will be accepted by the State Highway Commission until Dec. 13. The buildings are located on land purchased for construction of the I-96 freeway.

Nothing is politically right which is morally wrong.—Daniel O'Connell, Irish statesman.

Redistricting Bill Goes to LBJ

WASHINGTON (AP) — Hawaii and New Mexico would be the only states allowed to hold at-large elections for House members next year under a bill now before President Johnson.

★ ★ ★

The Senate sent the measure to the White House Thursday on a 54-24 vote after rejecting attempts to require that all states with more than one congressman elect their representatives by districts.

★ ★ ★

But the measure will ban at-large elections after 1968's balloting.

The Senate earlier had balked at House-approved exemptions for Hawaii and New Mexico but yielded in the face of House threats to kill the measure entirely unless the exceptions were approved.

The temperature once dropped to 81 degrees below zero in a town called Snag in the Yukon, the National Geographic says. No colder temperature has ever been recorded in Canada.

Is Upcoming Census an Inquisition?

The United States census is running amok.

Remember when you were approached by the census taker once every 10 years and asked such impersonal, predictable questions as: How many are there in your family? What are their ages?

That day was gone and past with the 1960 census when they asked such questions as whether a home had a bathtub and how often a mother had given birth.

The penalty for not answering such questions was a fine and jail sentence. If this wasn't enough, the 1970 census is shaping up as a major invasion of privacy. It will be the most personal ever undertaken, unless some intimate questions are deleted.

As currently proposed, the 1970 census will include such questions as:

Do you share your shower?

How do you enter your home?

Where did you live in October 1962?

How many babies have you had?

Have you been married more than once?

Did the first marriage end because of the death of the husband or wife?

How much did you earn in 1966?

How did you get to work last week?

Also included are numerous questions about the sources of income. Right now, there are 67 subject items on the proposed 1970 census. We feel this is taking things much too far.

Legislation has been proposed to limit the census to seven simple, direct questions to meet constitutional requirements. Any other questions would be listed on a separate form, with answers on a voluntary basis.

Congressman JACK H. MCDONALD, R-19th District, has charged that to threaten an American citizen with a 60-day jail sentence or $100 fine for refusing to discuss the use or equipment of his bathroom amounts to nothing less than public harassment and invasion of privacy.

★ ★ ★

We agree. We stand squarely behind legislation to put the census back on its constitutional track.

Draft of Peace Corpsmen Economic Waste

It doesn't make much sense to spend $5,000 to train a man, including possibly hundreds of hours of study of a foreign language, spend the money to ship him to his overseas post and then have to send him home again in the middle of his two-year tour of duty to answer a draft call.

Yet this is happening to more and more Peace Corps volunteers, complains director JACK HOOD VAUGHAN.

Local draft boards, often hard-pressed to meet their quotas, are not entirely to blame. Within the past year, the Presidential Appeal Board, the final arbiter of draft deferment requests, has turned down 60 appeals from Peace Corps volunteers, says Vaughan.

There are only about 7,200 male corpsmen overseas currently, and of these between 80 and 90 per cent are eligible for the draft. That makes a maximum of 6,480 men who could be drafted in one bunch — which, of course, they wouldn't be.

★ ★ ★

In view of the universally acclaimed job the corps is doing, it would seem the Nation could get along without the military services of this relative handful of men, at least until they had completed their assignments in the cause of peace.

Longevity Seems Stuck on Biblical Life Span

Like the folks in Kansas City in the song, we seem to have gone about as far as we can go in increasing life expectancy, for the time being anyway.

Between 1900 and 1956, expected life span at birth for all persons increased by over 20 years, say statisticians at Metropolitan Life Insurance Co. Since then, it has improved by less than a year.

Average length of life in 1965, last year for which final figures are available, was 70.2 years, the same as it was in 1964 and 1961.

The change in the first half of the century was due in large part to the conquest of the once-dreaded childhood diseases. Their elimination, together with advances in every branch of medicine, had dramatic effects on the average expectation of life.

We now seem to have reached an impasse with respect to the diseases of middle and old age, particularly heart disease and cancer.

★ ★ ★

Not until these two are vanquished, and until we learn more about the process of aging itself, will there be any breakthrough much beyond the traditional three-score and ten.

Physicians Find Hiccup Remedy

By DICK SAUNDERS

One of the things about life that never ceases to amaze me is how we are constantly getting caught up in a stream of everyday business to the point that we miss the really important things in life when they come along.

SAUNDERS

Take medical science for instance.

We've become so excited about breakthroughs in cancer research, heart disease and organ transplants that we all missed a really BIG moment in the modern history of medicine.

Physicians have developed a remedy for one of mankind's major maladies — hiccups.

The new process, called pharyngeal stimulation almost always works, according to the American Medical Association.

★ ★ ★

It involves inserting a flexible tube into a nostril and stimulating nerves in the pharynx, the area back of the mouth where nasal passages join the throat.

The process worked in 84 of 85 test cases, according to a report by three physicians at the University of Chicago School of Medicine and a fourth colleague on the faculty of medicine at Cairo University, United Arab Republic.

Hiccups can be troublesome and even dangerous during surgery, so a remedy is of more than passing significance.

Everyone, of course, has his own favorite remedy for halting the horrid hiccup: holding your breath; swallowing ice; frightening the sufferer with a loud noise; drinking water backwards, or from the wrong side of the glass; drinking it through a dish towel; standing on your head and drinking the glass of water (for the athletic type); is breathing into a paper bag; doing something to take your mind off the hics.

On a more sophisticated level, doctors have tried drugs and nerve blockage.

All these, however, have produced highly unpredictable results.

With the new method, hiccups stopped immediately in 64 anesthetized and 20 conscious patients, the physicians reported.

★ ★ ★

In 10 cases, a variety of drugs had failed to stop hiccups, but they ceased almost immediately with the new method. In five cases, the hiccups returned, but stopped during retreatment.

By now, you've probably come to realize that this new method is not a home remedy. You're right. It should be used only by physicians.

But, considering the widespread occurrence of hiccups and the trend toward specializing in medicine, the development of such a foolproof remedy could lead to a whole new field of endeavor.

★ ★ ★

Imagine a shingle reading: John Doe, MD, eye, ear, nose, throat and hiccups.

Or the initiation of emergency hiccup treatment centers.

Stranger things have happened.

One Plank Makes A Platform?

David Lawrence Says:

Ike, Bradley Views Significant

WASHINGTON — It isn't often in world history that the details of military strategy become the subject of public discussion during a war.

LAWRENCE

For, with the change in the post of the secretary of defense, the North Vietnamese as well as the Soviets and Red Chinese may learn that the military minds here will have more to say in the future than heretofore about how the war in Vietnam is to be fought.

Whether by coincidence or by design, former President Eisenhower — supreme commander of Allied forces in Europe during World War II — and Gen. Omar Bradley, his right-hand man, happened to appear on television this week to discuss the Vietnam war and the strategy of waging it.

This is a most surprising development and certainly could not have taken place without the knowledge of the administration, which presumably could have objected if it so desired.

What Gens. Eisenhower and Bradley recommended is a strategy not yet employed in Vietnam — namely, to engage in "hot pursuit" of planes or ground forces to their bases, wherever they might be.

★ ★ ★

It is significant that Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff, promptly announced that "there is no intention or plan to change the character of the Vietnam War."

INVASION STUDIED

He conceded, however, that the Joint Chiefs have "studied" steps that would have involved invading North Vietnam or the northern portion of the Demilitarized Zone.

President Johnson probably knows all about the reasons for the public dialogue as well as for the subsequent softpedaling by the chairman of the Joint Chiefs of any "escalation" plan in the immediate future.

The key, however, appears to be something former President Eisenhower said in his television interview. He declared:

"If you're chasing some people and they just step over into Cambodia or Laos . . . I'd go at 'em as long as they'd come in there in the first place. And in this same way, in the air — if an airplane attacked me, and we wanted to chase him, I'd go in wherever his base was . . . including China . . .

★ ★ ★

"As a matter of fact, this was the first difference that I told 'em we would make in the Korean war — unless that armistice was promptly signed, this we were going to do. I think it's just only self-defense, that's all it is."

On the subject of demands for peace talks, Gen. Bradley said:

"I sometimes think we talk too much about trying to get them to the negotiating table. I think we should say that once, and then shut up, because they take it as a sign of weakness. They think we're in a bad way. Intelligence indicates that's what's keeping 'em going."

Gen. Eisenhower echoed the thinking of a large number of people in America when he said:

"The first principle of war is to win quickly because it's the time that you're engaged in the thing that brings about the cost and particularly in blood as well as treasure.

"And I think that if you're going to appeal to force . . . then get all the force you can as quickly as you can."

(Copyright, 1967, Publishers Hall Syndicate)

Bob Considine Says:

British Are on the Move . . . Out of Great Britain

LONDON—Back in the days when it was Britain against the whole blooming Axis, if any Briton had publicly declared that he had had it, and tried to move to some other land, he and all his kith and kin would have been dishonored.

CONSIDINE

The brave example of the blitzed, the courage of the "few," as Churchill spoke of the noble RAF, the determination of the government to carry on in a friendless world, and the eloquent organ tones of Ed Murrow and Quent Reynolds combined to purge America of its massive isolationism.

We chose our side well in advance of the bombing of Pearl Harbor.

It wasn't difficult, looking back on it. There was really no alternative for a country that revered the liberty of and spoke the language of and swore by the principles of the British people.

★ ★ ★

Hence it was a sombering experience to read the Sunday Express's story to the implied effect that Hitler and his rout of the British army at Dunkirk, and, later, his blitz, buzz-bombs and V2s, created less panic among the British than the devaluation of the pound sterling from $2.80 to $2.40.

LINE UP TO LEAVE

There was a queue in front of Australia House last Saturday, the first holiday after the devaluation decision. Most of the queue-uppers were in their late 20s or early 30s.

They were there for application forms, or information, concerning their emigration down under.

A man named Alan Turner, a 33-year-old company director who was interviewed in the line, told the Express man, when asked why in heaven's name he would be wanting to leave this hallowed land:

★ ★ ★

"I can tell you in two words why I am going. Harold Wilson." To that he added, "I have put up with more than I can stand. This last week and devaluation has finished it. I can see no hope for Britain—so I'm getting out."

A man from Australia House said:

"We open doors to everyone, but there has been a noticeable increase in inquiries from professional people, including lawyers, accountants, doctors, engineers and schoolteachers. Overall, we received just over 3,000 inquiries last week — a 30 per cent increase in recent weeks."

Some of the restless and discouraged British want to go to America. Visas are being issued at the rate of 100 a day. Inquiries are up 50 per cent.

Verbal Orchids

Mr. and Mrs. Earl Stephens of Milford; 53rd wedding anniversary.

Voice of the People:

Reader Questions Need for Additional Control

Under private enterprise, as taxpaying companies, Detroit Edison, Consumers Power and Michigan Bell Telephone have maps showing their service area and where poles, wire, switches, transformers and power stations are located. They have worked their way through interlacing governments as the necessities have required. The County has maps of every inch of drainage and sewer lines and they, too, had to work with interlacing governments.

Where and why should we be saddled with another supergovernment outside of the control of varied town and city governments and the voting public?

Readers Give Views on Open Housing Bill

An open letter to legislators: On December 12, you will reconvene to decide on one of the many versions of an open housing bill. Not one of these bills or the real principles therein has been printed in the press, to my knowledge, or presented to the public in full through other news media. If you vote for this bill, you will satisfy a power-hungry minority, some of whom helped to handcuff the police during the Detroit riots and then declared them incapable; and others who are encouraging increased Federal Government intervention and power by suggesting a 1,000-man Federal police force in Detroit.

★ ★ ★

How will you explain to your children that you legislated away their birthright, for open housing is in reality forced housing? How will you explain to those religious leaders, civic leaders and others who have promoted this bill, when the truth becomes apparent, that citizens can be accused, tried and judged by an appointed commission with no recourse but to finance their own defense? Furthermore, should the property owner win, he must collect his expenses from the State, out of the taxpayers' money.

Isn't it true, according to the Associated Press release, that Governor George Romney met behind closed doors with leaders of the legislature on November 22, and stated that he would veto any bill that did not have a provision levying fines or damages against individual home owners and landlords?

J. N. BAILEY
5127 DRIFTWOOD, MILFORD

I believe some have been misinformed on open housing. As I understand it, the advocates of open housing are in favor of letting the Government dictate to whom they can or cannot sell property. The opponents of open housing want the people who have worked to pay for their homes to have the right to sell to whomever they want.

F. A. NANCE SR.
611 CRESCENT LAKE RD.

'Streets in Our Subdivision Need Repairs'

Streets in the Cass-Sylvan subdivision off Cass Lake Road (mainly Otter and Beachland) desperately need ditching and gravel. Our roads are like washboards, and even after scraping nothing is done to the perpetually water-filled spots. There is no ditching and no drain-offs. We are trying to reach the moon, but we still can hardly get to our homes.

JOHN R. CRARY
800 OTTER

Question and Answer

Why do tire people add four cents sales tax on top of the cost of a tire plus the Federal excise tax? This is a tax on a tax. Is it legal?

J. V. BASSET
CLARKSTON

REPLY

Yes, it's legal. Mr. Cole of the Michigan Department of Revenue tells us it is a manufacturers' excise tax, and is included in the base price to the retailer. The retailer pays sales tax on the base price. If this is not clear, Mr. Cole said he would be glad to explain it further if you call the office, 332-3500.

Reviewing Other Editorial Pages

Brightest News

Asahi Shimbun, Tokyo

The marriage of Miss Margaret Elizabeth Rusk, daughter of Secretary of State Dean Rusk, to a Negro man is the brightest news from the United States in many days.

It is admirable that Margaret carried through her belief, totally oblivious to surrounding circumstances in which the hostility between the Negroes and whites is deepening.

★ ★ ★

A Negro-white marriage is not unique, but in view of her position as the daughter of the U.S. Secretary of State, there must have been complicated circumstances and opposition.

She must have been perplexed and hesitant, mindful of various things, including her father's position. Of course 18-year-old Margaret, truly worthy of the epithets, "courageous person."

It is reported that Mr. Rusk said to President Johnson that he was prepared to resign if the marriage caused trouble for the President. We envisage the profile of a father who wishes the happiness of his daughter, even at the cost of his position. Before being an able Secretary of State, Mr. Rusk is a man and a father.

★ ★ ★

We feel the greatness of the United States is that there exists such a Secretary of State.

Viet Resolution

Cincinnati Enquirer

Sen. Charles Percy's resolution directing President Johnson to enlist a greater effort in Vietnam by our Asian allies is one of those things that scarcely anyone can be against — save, perhaps those at odds with America's purpose in the Vietnam war.

★ ★ ★

Everyone would like to see fewer Americans in the field and more Thais, Filipinos, New Zealanders, and Australians bearing the brunt of resisting the communization of South Vietnam. Nothing would please President Johnson more.

★ ★ ★

What Sen. Percy conveniently omitted from his resolution was a formula for accomplishing his objective.

Merely asking the governments of southeast Asia clearly isn't the answer. That was the purpose behind President Johnson's journey to the far Pacific in October of last year.

★ ★ ★

It is a purpose that similarly guided the Eisenhower and Kennedy administrations in their concern for Vietnam's continued independence.

The only useful purpose of the Percy resolution, it seems to us, is that it permits Sen. Percy to represent himself as having "done something" to ease America's problems in Vietnam. In reality, of course, he will have done nothing.

Sen. Everett M. Dirksen, Sen. Percy's colleague from Illinois, summed it up very neatly: "This resolution is full of mischief."

Child of Poverty Faces Growing Learning Gap

(EDITOR'S NOTE — This is the first of three stories on school-children from low-income families. Today's article examines the problem.)

By DICK ROBINSON

One of the most pressing problems facing educators today is the child of poverty.

Some 14½ million "poor kids" throughout the nation, including 2,000 in Pontiac, are causing the greatest turmoil in the history of public education, experts say.

The problem is how to close the widening gap between aspiration and achievement levels of middle-class children and those from the slums.

Slum children are euphemistically described by educators as children "who do not bring specific learning skills from their home environment."

ROBINSON

Or they are labeled by a variety of terms: educationally disadvantaged, educationally deprived, culturally deprived, economically deprived, socially alienated, culturally disadvantaged and so on.

★ ★ ★

In any case, they are the victims of social misfortune.

RESTRICTED

"The disadvantaged youth comes to school from a restricted, limited home and community background," reports Thor Petersen, coordinator of Pontiac's programs for the educationally deprived.

"They know far less than middle-class children when they enter the first grade. Since they also learn less from class, they fall farther behind with every year in school and eventually may drop out."

Ghetto children are "hostile toward learning," another administrator points out, but they may have the potential for normal intelligence.

★ ★ ★

People treat the children of poverty as if they are nothing, have nothing (including brains), and will amount to nothing, school people say.

Negro slum children often ask how going to school will change prejudices concerning them in the "white man's world."

Educators agree that a squalid home life cannot prepare youngsters for school.

It does not place a value on reading, which enables people to write, think, conceptualize, analyze, reason and express themselves, or for that matter, says Peterson, even place value on school or education.

★ ★ ★

Disadvantaged children have learned that the best way to stay out of trouble is to say nothing, local psychologists explain.

WHIPPING

At home, their curiosity may result in a whipping. The speech they hear is short commands or phrases, which are not thought provoking.

Sometimes children don't even know their real names when they are called in the classroom, Petersen relates, because they are called "hey, you" or by some dirty nickname at home.

A constantly playing transistor radio teaches these children not to pay attention to words, but to tune things out.

★ ★ ★

At school, they face a totally alien environment, Petersen commented. They can't please the teachers, and they find they cannot cope with what is expected of them.

RIGHT, WRONG

"The disadvantaged have a problem of deciding what's right and what's wrong, while the middle-class child is anxious to do what's right to please his parents," said Dr. William J. Robertson, Pontiac schools supervisor of research and evaluation.

It is common knowledge that many, but not all, of the disadvantaged schoolchildren in America are Negroes.

Studies show the inequality in American education grows yearly.

★ ★ ★

In the sixth grade, the average Negro pupil (both in the United States and Pontiac) is about 1½ years behind the average white pupil and 3¼ years behind by the 12th grade.

UNIQUE PROBLEM

Schools Supt. Dr. Dana P. Whitmer had this to say about the Negro American youth:

"He faces a unique problem in his growth and development.

"Some Negro youths are disadvantaged, others have adjusted problems, and many are work-bound youths. On the other hand, there are Negro youths who do not face any of these problems.

"But all Negro youths, because of their color, face the problem of building a good self-concept, pride in their heritage and a sense of equality as human beings.

"The civil rights movement of today and the historic struggle of Negroes to enter the mainstream of American life constantly remind the Negro youths of goals not yet achieved.

SPECIAL CHALLENGE

"These problems are added to the growth problems faced by all youth and provide a special challenge to public schools and teachers.

"A public school district which today is not involved in this important and multifaceted problem is not on the field where the future of America is to be determined."

Much of the tumult over the deprived is a healthy sign, according to Dr. Ernest O. Melby, professor of education at Michigan State University.

★ ★ ★

Old myths are crumbling and fresh thinking is stirring the musty corridors of the education bureaucracy.

The parent of a poor learner, for one, no longer automatically accepts the idea that if his child fails there is something wrong with him. Instead, the parent blames the school.

An intense struggle is ahead, as attested to by Petersen:

"The road out of poverty in 1967 is a much more difficult one than it was 25, 50 or 100 years ago. The hurdles have both increased and intensified for the disadvantaged."

Pontiac's challenge is America's challenge, vows Whitmer. He said:

"The school district of the City of Pontiac is a microcosm of America. The aspirations and dreams of America for the 'good life' are those of Pontiac. And the wide-ranging human problems of America are mirrored in Pontiac.

"Thus, the challenge of Pontiac is the challenge of America, and the struggle to achieve continually higher levels of human development will be won, or lost, in the Pontiacs of America."

Buffalo Meat Your Dish? Perhaps You'd Prefer Elk

CACHE, Okla. (AP) — "It is like trying to describe the fragrance of a rose to someone who has never sniffed one. It is a very personal thing."

* * *

Thus speaks Julian Howard on the subject of buffalo meat, a matter which interests him a great deal. He has 225 buffalo that he's prepared to peddle to anyone, anywhere. If buffalo is not your dish, he also has 250 elk.

* * *

These are surplus animals from the Wichita Mountains Wildlife Refuge in southwest Oklahoma. Howard is manager of the refuge.

The U.S. Agriculture Department actually handles sales of the surplus beasts, as it has been doing for 30 years.

LIVE ON REFUGES

Thousands of buffalo roamed the prairies until Indians and white professional hunters all but wiped out the herds. Today the animals live on reservations, safe from slaughter until the time comes to sell the surplus.

* * *

"Sales of the carcasses to various regions change almost yearly," said Howard. "Last year, Oklahomans bought most of the animals and Californians were second. Illinois ranked first another time. A lot of the meat goes to the Midwest and New York State."

* * *

Buffalo carcasses sell for $18 each, but the price goes to $2.0 if they're frozen. The prices for elk are $90 and $110.

"A purchaser can get a better deal by taking an older buffalo, which is bigger and heavier, but he will sacrifice some tenderness," Howard said.

HERDS ARE CULLED

The buffalo and elk herds are culled each year, said Howard, because grassland on the refuge will support only about 1,000 buffalo and 350 elk. Last year, 200 buffalo and 225 elk were sold.

* * *

Compared to beef, buffalo meat is darker and coarser, Jacque S. Orenstein, owner of an Oklahoma City restaurant, agrees with Howard that it's good—if properly prepared.

* * *

"Buffalo meat can be very, very tasty," said Orenstein. "You might say it has a gourmet taste—if you marinate it well.

* * *

"You have to keep in mind that buffalo meat is not graded."

HOUSE SPECIALTY

Orenstein has a speciality called "buffalo steak au poivre." That means "with pepper," but it's a bit more involved than that, to wit:

For steaks of 14 to 16 ounces, prepare a marinade of one cup of olive oil, one cup of salad oil, one sliced orange, one sliced lemon and one-quarter teaspoon of garlic powder.

"Combine these ingredients in a sauce pan, bring to a boil and simmer 20 minutes. Then wipe the steaks with a damp cloth, place in a pan and pour the hot marinade over the steaks," he says.

"Cook the steaks about an hour, turn over and marinate the other side, leaving on the fire another 60 minutes.

SUIT TO TASTE

"After you remove the steaks, pat dry and coat both sides with coarse ground black pepper. Mix in a pan a quarter-inch deep mixture of butter and salad oil. Heat and saute the steaks in the mixture to your own degree of doneness.

* * *

"Remove the pan from the fire and add one ounce of brandy per steak, then place back on the fire and gradually add three ounces of heavy cream per steak to the pan, whipping with a wire whip as it simmers.

"When the sauce starts to thicken, remove from the fire, spoon over steaks—place on hot plates—and serve immediately."

After all that, buffalo or anything else should taste good.

Olympic Origin

The Olympic games were started by the ancient Greeks. They are named after the city of Olympia in Greece, where the first games took place. The events lasted for five days and were held every fourth year.

Winter Storms Take Their Toll

Over 3,000 Lives Are Lost in 30 Years

By Science Service

WASHINGTON — Just as cheery voices are beginning to be raised in hope of a white Christmas, the Environmental Science Services Administration reveals the chilling fact that more than 3,000 Americans have died, directly or indirectly, because of snowstorms in the last 30 years.

One-third of the fatalities have been due to automobile and other accidents.

About 800 were caused by heart attacks resulting from overexertion leading to exhaustion. ("Don't kill yourself by shoveling snow," the weathermen warn, if you're in "less than prime physical condition.")

Exposure and freezing took 350 lives during the period, while the rest have been due to miscellaneous causes such as home fires, carbon monoxide poisoning in stalled cars, falls on slippery walks, electrocution from downed wires and collapsing buildings.

* * *

The worst year was 1960, when there were 345 snow-related deaths, followed by 1958 with 345. About half of the deaths that have been reported since 1936 have occurred in New England, New York and Pennsylvania.

AWESOME BLIZZARD

Last March, more than 100,000 head of livestock died in an awesome blizzard that swept across the Dakotas, Minnesota and Nebraska.

Ice storms can be even more damaging in many ways, because of the great weight and driving force of the frozen water.

Telephone wires in northern Idaho were caked eight inches thick with ice in January 1961, and back in 1922, Michigan phone lines strained beneath as much as 11 pounds of ice per foot.

* * *

An evergreen tree 50 feet high — some 20 feet shorter than the one that will soon grace the White House lawn — with an average width of 20 feet, could accumulate as much as 10,000 pounds of ice during a severe ice storm, ESSA reports.

Whereas only one in three snowstorm deaths occur in automobile and other accidents, more than 85 per cent of ice-storm deaths are traffic-related.

Don't Despair, Jean!

Any Landing Is a Good One...

(EDITOR'S NOTE — Jean Saile, a Pontiac Press reporter, wife of a commercial artist and mother of six children, is learning how to fly an airplane. This is the 15th in a series on her impressions on flying.)

By JEAN SAILE

I landed the airplane.

I mean I really landed the airplane. Twice!

MRS. SAILE

And then I flubbed five succeeding attempts to get down with some semblance of smoothness and style.

It was my 13th hour of flying lessons, and for awhile it looked like it was going to be "lucky 13."

Art Trowbridge, my flying instructor, told me to ask the tower on take-off for landing pattern privileges. There was no session in the practice area, and once again it had been nine days because of bad weather since the previous flight.

OVERCONFIDENT?

The plane felt strange. I was really working at it. The first landing and even the second were all mine and were passable. The round-out—that final flutter down—got us down.

Then there was the third pass. Trowbridge said later that he thought I was overconfident. That was probably a nice way of putting it, and anyway the succeeding passes didn't get any better.

"Art," I said, "don't touch those controls. I've got to know that I'm responsible, or I won't be able to shake this."

"Okay," he said. "It's all yours. I won't touch it till we crash."

Said at a time when I was completely tensed up over a wavering runway apprpach —busily watching altimeter and tachometer and attempting to get them reading correctly—watching for other air traffic—the statement did nothing for my confidence.

That's all right. I later shied a kick in his direction once we were on the ground.

"Every approach is different," I wailed. "The round-out is never the same twice."

* * *

Trowbridge responded, "That's because you've been all over the landing pattern. One time you're high and the next time you're low.

GETTING TOUGHER

"You're really doing very well, though," he volunteered. "I'm getting tougher as you're getting better. For 13 hours you're probably doing better than I was."

I'm not fool enough to believe that completely, but it was a nice gesture, anyway.

"If we can fly tomorrow, I'll bet you do a whole string of acceptable landings," he said.

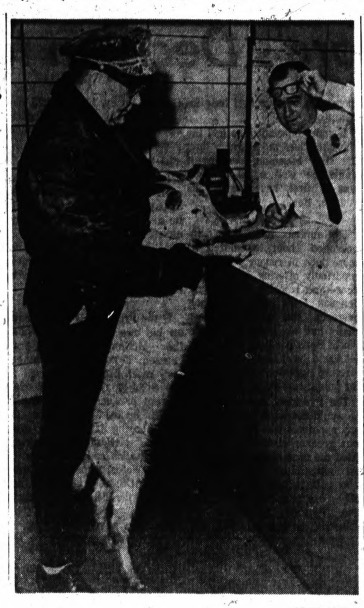

* * *

"You're really trying," he continued, "and you're learning."

I'm glad he can determine that. There are times when it seems to me that all I'm doing is just flailing around up in the air.

* * *

But there's always a next lesson, and who knows? Maybe it will be a good one.

AP Wirephoto

FRAGRANT VAGRANT — Police in Charleston, W. Va., yesterday booked Billy Boy as a fragrant vagrant before they learned he was just a kid. The goat was found on the porch of a Charleston home, herded into a patrol wagon, and whisked to headquarters. He was later taken to an animal shelter.

U.S. Shipping Munitions Aboard Commercial Planes

WASHINGTON (AP) — The Pentagon is using passenger-carrying commercial airliners on occasion to speed ammunition to Vietnam.

Defense officials said airliners have carried ordnance on an irregular basis since January to meet emergency needs in the war zone.

* * *

"There are times when all our equipment is occupied, and then we use the bellies of commercial airliners," a spokesman for the Military Airlift Command said Thursday.

"Equipment" refers to the command's more than 400 military planes plus regularly chartered commercial jet transports.

HIGH PRIORITY

The spokesman emphasized only "priorities of a high nature" were routed to Southeast Asia via commercial lines. The Air Force said this included rockets, hand grenades and ammunition for cannons.

Great care is taken to make sure the shipments pose no hazard to passengers, the Air Force said.

* * *

Since the first of the year, the Air Force said, about 600 tons of ordnance have been shipped by commercial airliner, an amount described as "minimal." Most of it is transported by ship.

So far the Pentagon has used Pan American, Trans World, American, United, Braniff and Seaboard World Airlines.

SPECIAL PACKING

The ammunition shipments require special packing, marking and labeling "over and above that normally required for movement by ship and equal to or more stringent than that required for movement by rail," the Air Force said.

* * *

The pilot of the airliner, or his representative, is briefed before takeoff on exactly what ordnance is aboard.

* * *

This information presumably would be taken into consideration any time an ammunition-loaded airliner was confronted with a possible crash landing.

* * *

The Defense Department gave the Military Airlift Command authority to charter commercial planes for ammunition flights this year "only when it is not feasible or practical" to use MAC craft.

'RED BALL' SYSTEM

The commercial hauls supplement the command's special "Red Ball" express system which gives priority to critical items needed to maintain minimal Army supplies at the battle line.

Lake Confab Planned

WASHINGTON (UPI) — Interior Secretary Stewart L. Udall yesterday announced he will hold a meeting with state and federal officials at Chicago in January to map a broad attack on pollution in Lake Michigan.

* * *

The conference, tentatively set for Jan. 31, was requested by Illinois Gov. Otto Kerner and Sen. Gaylord Nelson, D-Wis.

Udall told a news conference he had not discussed the conference with the governors of the other three states bordering the lake, but said he was hopeful they would participate.

Illinois, Michigan, Wisconsin, and Indiana border the lake which health and pollution authorities say is dangerously polluted to the point where it is a serious hazard to health, navigation and marine lives.

Use of a special diet can postpone, sometimes for several years, the fatal deterioration of health of some victims of incurable kidney disease, scientists report.

State Hopes to Halve TB by New Drug Treatment

LANSING (AP)—The Michigan Department of Public Health predicts that a new drug treatment could reduce tuberculosis cases by 50 per cent in the next 15 years — but the task won't be easy.

Health authorities say they first must identify the 1.1 million persons in Michigan estimated to be infected with tuberculosis. Most of them are unaware of their infection, the agency says.

* * *

Next will come the problem of convincing them that they should take the drug isoniazid for a full year to help safeguard against breaking down with the active form of TB.

The state agency, along with the U. S. Public Health Service, is teaming with Christmas Seal tuberculosis associations throughout the state to promote the drug's new value.

Dr. John Cowan, chief of the adult health division of the Michigan Health Department, said the first persons on the priority list for the drug treatment will be household contacts of newly discovered cases of active tuberculosis.

There also are recovered victims of active tuberculosis, who did not receive a course of drugs because they were hospitalized before the drugs were put to widespread use, Cowan said.

3 at Wisconsin Expelled After Hearing Walkout

MADISON, Wis. (AP) — Three University of Wisconsin student protesters who walked out of a disciplinary hearing in a huff Thursday were expelled a short time later.

Robert Cohen, 24, Levittown, Pa., Robert Weiland 20, Flushing, N. Y., AND William Simons, 22, Larchmont, N. Y., were expelled by a faculty panel.

The three complained that the four faculty members on the panel were in "collusion" with the university administration, which had charged them with disorderly conduct following a violent Oct. 18 antiware demonstration.

"This is a political trial," shouted Cohen, a graduate student and teaching assistant.

"I'm not going to hear your tirade," declared law school Dean George Young, the panel chairman who gaveled Cohen down and later announced the expulsions.

McNamara's Decision to Leave, Says President

AP Wirephoto

DISCUSSES McNAMARA — George D. Woods, president of the World Bank, says in an interview yesterday that reports Secretary of Defense Robert McNamara is being eased out of his post because of differences over the Vietnam war are, to his knowledge, "180 degrees wrong." World Bank directors have voted unanimously to offer the presidency to McNamara and he has accepted. McNamara would succeed Woods, who is retiring.

WASHINGTON (AP) — Both in public and in private, President Johnson is saying Defense Secretary Robert S. McNamara's shift to the presidency of the World Bank reflected McNamara's own desire—and that Johnson felt powerless to stand in his way.

Moreover, no matter what others may think, Johnson seems satisfied McNamara is content with the way the President handled the situation and will depart the Cabinet with only warm feelings and appreciation for Johnson's role in the matter.

★ ★ ★

The President portrays himself as the target of wholly unjustified charges, speculations and innuendos that somehow he eased McNamara out of the federal government for political or other purposes.

In the chief executive's view, the Pentagon boss will be shifting from first base to shortstop when he resigns to become president of the 107-nation bank.

WOULD HAVE REMAINED

And Johnson insists that, had the decision been the President's alone, McNamara would have remained on first base indefinitely.

If some baseball fans feel the shortstop has more status than the first baseman, perhaps it might be well noted Johnson was a first baseman in his younger days.

★ ★ ★

McNamara has been approached about two dozen or more jobs in recent years—one reportedly offering $1 million a year—and rejected all of them. Johnson finds this convincing evidence the Pentagon boss really had his heart set on the World Bank position, one paying $40,000 a year but presumably offering greater opportunities for public service.

The President has often said he would not stand in the way of any appointee who felt the grass was greener elsewhere. He has cited the case of one of his closest assistants, Jack Valenti, who quit to become the $150,000-a-year president of the Motion Picture Association of America, and noted that McGeorge Bundy, his original national security adviser, departed to become Ford Foundation president.

'NO ENCOURAGEMENT'

In Johnson's view, he could no more thwart McNamara's desires for other employment than he did in the Valenti and Bundy cases.

At the same time, he wants no one to think that he encouraged McNamara's decision or even hastened it.

★ ★ ★

If the President were to draw up his own chronology of how the McNamara saga progressed, it doubtless would go very much like this:

● April 18: George D. Woods, current president of the World Bank, invited McNamara to lunch, saying it was a personal matter. McNamara accepted the invitation and was sounded out by Woods, whose term was expiring Dec. 31 of this year, on whether the defense secretary might be intereted in the job. McNamara was.

McNamara subsquently reported this conversation to the President and, while expressing interest in the bank job, made it clear he would remain in the Cabinet as long as Johnson felt necessary.

★ ★ ★

● August: With no firm successor lined up, Woods worked out an arrangement to remain as bank president until Dec. 31, 1968, with a proviso that he would leave earlier if a successor were found.

● September: Directors of the bank worked out an agreement that the United States would propose, by Oct. 31, one or more candidates for the bank presidency.

● Mid-October: Johnson told McNamara that candidates would have to be proposed soon and inquired if the Cabinet member was still interested. McNamara said he was, repeating he would not leave the Pentagon until Johnson felt he could release him.

● Nov. 8: Woods, with the Oct. 31 deadline past, sought a meeting with McNamara. The secretary had a busy schedule and they arranged to confer in McNamara's limousine, which was bound for the White House. Woods reminded his host-on-wheels that time was running out.

● Nov. 13: Treasury Secretary Henry H. Fowler met with Johnson, who told him McNamara is his only choice for the bank post.

● Nov. 16: Fowler met at the Treasury with Woods and Livingston Merchant, U.S. director of the bank, and all agreed McNamara is their man.

★ ★ ★

● Nov. 19 or 20: Woods phoned McNamara and told him Johnson backed the McNamara candidacy and that his name would be placed in nomination Nov. 21.

● Nov. 21: Merchant proposed McNamara to the World Bank directors.

● Nov. 27: News of the McNamara candidacy started leaking to newsmen in foreign capitals. McNamara and Johnson conferred about the matter and the defense secretary said he would take a "no comment" stance.

● Nov. 29: Directors of the bank formally offered McNamara the presidency.

Florida Fisherman Makes Big Splash

KEY WEST, Fla. (AP) — The Overseas Highway," U.S. 1, has 42 bridges in the Florida Keys and most of them have wooden catwalks for fishermen.

★ ★ ★

So it was only natural that Frank E. Tropeano grabbed a bucket of bait and vaulted over the guardrail of Tom's Harbor bridge to do some fishing.

★ ★ ★

A passing boat pulled him out of the water 15 minutes later. Tom's Harbor is one of the few bridges without a catwalk.

Detroit Open Housing Protest

Councilmen Hung in Effigy

DETROIT (AP) — Five supporters of Detroit's newly-approved open housing ordinance were discovered hung in effigy in downtown Kennedy Square, police said Thursday.

Three of the hanging dummies bore the names of three of the four city councilmen who voted in favor of the ordinance when it was passed Tuesday, 4-2.

★ ★ ★

One of the dummies was tagged with the name of Richard V. Marks, the head of Mayor Cavanagh's Community Relations Commission. The fifth was unnamed, but it was assumed to represent Councilman Mel Ravitz.

The other councilmen who voted for the measure were Ed Carey, the Rev. Nicholas Hood and Philip Van Antwerp.

CALLED AN HONOR

"I feel it's a real honor," said Hood. "They can hang me anytime they want to as long as I feel I am supporting something that will promote good will in our community."

It was reported, meanwhile, that petitions were being prepared to halt enforcement of the ordinance. Members of the Rouge Park-Southfield Civic Association said they would begin circulating the petitions immediately.

★ ★ ★

The question of open housing could be brought to a referendum in one of two ways. If the signatures collected amount to 10 per cent of the vote in the last mayoral election—or 44,086 names—the ordinance would not be put into effect until after being approved by voters.

If the signatures collected amount to five per cent of the vote, the ordinance would remain in effect until voted on by the people.

The closest election in which the question could be considered is the primary election next August.

The newly passed ordinance was to be signed by Cavanagh Friday and go into effect 30 days later.

★ ★ ★

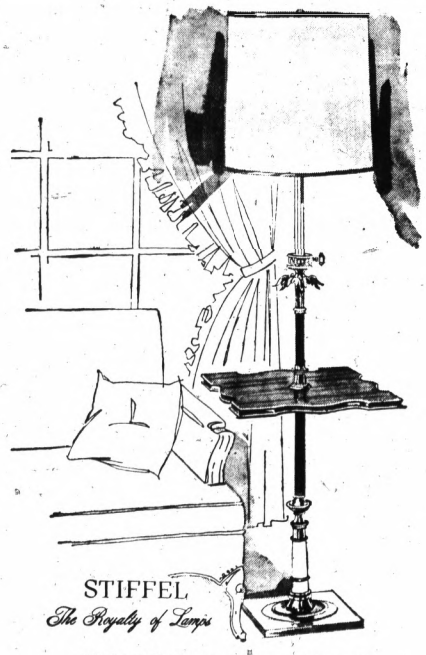

Joseph L. Hudson Jr., chairman of the New Detroit Committee, praised the city council for adopting an open housing ordinance.

★ ★ ★

Terming the action "courageous and statesmanlike," Hudson said the committee supported the council's move.

Hudson told newsmen he expected efforts would be made to have the matter of open housing sumbitted to the voters on a local as well as a statewide level.

The Legislature is considering a bill which would ban discrimination in the sale or rental of housing.

Rich in traditional design and warm with color, this excellent Stiffel floor lamp is in fine old brass with black trim. Tray in fruitwood. Attractive shade in off-white textured fabric over vinyl. 3-way lighting. 55½ in. high.

A Christmas Gift To Long Remember

Among all the Christmas gifts you can order this year, "The World in 1967" is unique.

A big, handsome volume, profusely illustrated in color and black and white, it recreates for you and for years the important news events of the year, and the ones most likely to live in your memory.

In years to come it will take on added importance as it becomes truly a memory book for you and for those you love best.

You can order it now for yourself or for anyone you wish, directing us to send a gift certificate immediately, since the book itself is to cover the full year and will not go to press until the first week in January.

"The World" is the current issue of the annual series prepared for this and other member newspapers by The Associated Press, world's largest news gathering organization.

Make sure your copy is reserved by ordering now. The cost is only $3.50. Here is a coupon for your convenience.

Livestock Virus Outbreak Worst in England's History

LONDON (AP) — The smoky reek of death rises over Britain's russet countryside this fall. The nation is burning infected livestock.

The worst epizootic of foot and mouth disease this island has ever known has brought the destruction of more than 200,000 animals—cattle, sheep, pigs, goats.

★ ★ ★

More than 1,000 farms and 14 northern counties are directly affected. The rest of the nation is in a state of virtual siege in an attempt to keep the disease from spreading.

Standstill orders prohibit the movement of cattle, sheep or pigs. The markets are silent and deserted, their stalls empty. Daisy and Bluebell, the cows which last week gave gallons of milk, are often now charred bones in a hastily dug pit.

MOST VIRULENT

The 500 veterinarians fighting the epizootic—animal version of an epidemic—say the virus is the most virulent encountered yet. They aren't sure of its origin but they believe that a farmer's boot, a truck tire or a sudden change of wind can spread it.

Since the accepted method of control is slaughter, each new outbreak means another farmer's livestock is wiped out.

★ ★ ★

The same routine is repeated.

First comes the white-coated veterinarian, then the official valuers with their calculations. Then the slaughterers with humane killers and cans of gasoline to douse the funeral pyre of carcasses. Lastly, the mopping-up squad, often composed of soldiers, with buckets and disinfectant sprays.

LEFT TO BROOD

When they go, the farmer is left to brood on his loss. He gets market value for his lost stock. He gets nothing for the consequential losses—milk yield, butter sales, the cost of building a new herd.

Harold and Sylvia Jones own Prospect Farm at Nantmawr in Shropshire. The only living animal on their 50-acre farm now is Nell the collie dog. Fifty Friesian cows, their pride and joy, will break no more county milk records. The elite of the cattle world suffers the same fate as the humblest pig.

★ ★ ★

"You just can't replace a herd like that by going out and buying cows," says Jones. "You've got to breed them, and the time and planning matter most. Meantime we've got to live."

The disease first showed at Oswestry, near the Welsh border, five weeks ago. Although 30 new outbreaks were reported Wednesday, all of them were in places where the disease already had appeared, and the spread of the infection apparently was on the wane.

Minister of Agriculture Fred Peart said that while the situation was serious, "there is no reason to despair." Britain, he said, has been losing less than one in every hundred of her 9 million cattle, 5½ million pigs and 20 million sheep.

But the blow to badly needed exports is severe. Rudi Steinberg, chairman of the Agricultural Export Council, has reported the loss of a $297,600 order from the Soviet Union for British cattle. The Hereford Herd Book Society, which officially controls the white-faced breed, talks glumly of canceled orders from Sweden and delayed shipments to South Africa and Denmark.

While many farmers are forced to live virtually isolated on their farms, windows closed against the stench from their burning stock, each countryman's life is affected.

Fox hunting, favorite winter sport of landowner and farmer alike, is completely stopped. So is horse racing.

JUST MACHINERY

The famed Smithfield Fatstock Show will have no live animals—just farm machinery. London's Christmas poultry show is off; while the disease does not affect poultry, officials discourage large meetings of farmers.

Southern England's 104 square miles of New Forest, once William the Conqueror's favored hunting ground, has been cleared of all grazing stock for the first time in 700 years. Several zoos have closed. Stately homes are barred to visitors to protect deer in their parks.

★ ★ ★

Fourteen veterinarians from Australia and 20 from Ireland have arrived to help the hard-pressed vets of Britain.

The 30,000 Irish who usually go home for a Christmas visit are asked by the republic's government to stay away this time. Those who travel have to walk through an atomizer mist of disinfectant on arriving at Dublin Airport.

Disinfectant baths for vehicles have been set up on roads at strategic points to protect southern England from possibly infected traffic from the north.

The Farmers' Union points out that the foot and mouth virus can live six months in a marrow bone and is asking people not to give their dogs bones, lest the dogs spread it further.

N-Power Standard Eyed

By Science Service

A world population of some nine billion people could probably be supported at the United States standard of living with nuclear-generated electricity, according to Dr. Harrison Brown, foreign secretary of the National Academy of Sciences.

World population now stands at 3.5 billion and could double by the end of the century.

Dr. Brown told a University of Michigan conference on world fertility that nuclear power could make it possible to place cities in arid coastal regions and supply them with desalinated water.

He called the envisioned areas "agroindustrial complexes" which would be completely powered with nuclear-generated electricity and which would possess highly mechanized agriculture.

★ ★ ★

"Such a development would open up vast areas of India, Pakistan, the Middle East and North Africa, Brazil, Chile and Peru for human habitation," says Dr. Brown, who is also a professor of geochemistry at the California Institute of Technology.

LIVING STANDARD

Theoretically, the new areas could support either 40 billion people at subsistence levels or nine billion at current U.S. levels.

These Two Diagrams Show The Pontiac-Oakland Airport As It Now Exists (Top) And How It Will Appear After 1970

Expansion Plan for Airport Is Detailed

By ED BLUNDEN

The accompanying diagrams show the Pontiac - Oakland Airport in its present state (top) and how it will look when the planned $4.5-million expansion program is completed.

* * *

It is expected that most of the additions at the county-owned airport will be completed before 1970. Of the $4.5 million, as much as two thirds could be returned to the county by state and federal grants offered to encourage just such construction to meet the growing needs of modern air traffic.

BLUNDEN

In addition, most of the added facilities will mean increased revenues for the field operation, which is meant to be self-supporting on a long-term basis. Also, the benefit to the county's commercial enterprises (tax base) will be far-reaching.

The outstanding feature of the planned expansion is extension of the west - east runway from 5,300 to 6,200 feet.

* * *

This will allow installation of the federal Instrument Landing System (ILS) to provide all-weather flying and better accommodation for intermediate-sized jets and cargo planes.

PROPERTY ACQUISITION

Key to the ILS and the runway lengthening, which will be at the eastern end of the surface, will be acquisition of property on the east side of Airport Road.

These properties are in the blocks between Tubbs and Dwight. About 18 homes and other buildings in this area will have to be purchased and removed. Acreage involved in that area is about 10 acres.

On this land will be placed a cleared - zone "green-belt." The ILS equipment will be located on the western side of Airport Road.

* * *

Another major undertaking will be construction of an entirely new runway, 3,250 - feet long, for small planes. This will run exactly parallel and north of the present west-east runway which is to be lengthened.

ADJUNCT TO RUNWAY

This new facility will not only leave the larger runway for use by larger planes, but will be an adjunct to the existing northeast - southwest runway for small planes. This latter strip will also be modified in the plan.

Running on the flanks of the afore mentioned runways will be additional apron and taxiing areas, all designed to provide the smoothest - possible flow of traffic in and around the total facility.

Of great significance to the county's small plane owners, whether private individuals or firms, is the planned construction of 400 small hangars in the area in the upper right of the diagrams.

* * *

This step is seen by airport planners as a construction item that will pay for itself. It has already been estimated that about 100 aircraft owners would take immediate occupancy if the hangars were constructed.

Thus, it is calculated, by the time all the hangars are built they will be fully occupied by renters. This situation puts airport officials in a good position to finance the construction on a separate basis.

Preliminary plans for the first construction step — for 75 hangars — are already well under way.

Other major items called for in the master plan, prepared for the county by Peckham Engineering of East Lansing, include construction of drainage and sanitary facilities.

* * *

Fire-fighting will remain partially a responsibility of Waterford Township.

NEW STATION

Officials have announced they plan to build a new station that is expected to be located at the southeast corner of the field.

The equipment based there will be part of the township's entire fire protection program and will be available for residents use also, officials pointed out.

Another factor important to Waterford Township residents is the decision by airport planners "not" to build a north-south runway at the site.

* * *

In a former master plan, prepared in 1963, it was designated that a runway should be constructed at Oakland - Pontiac that would run approximately southward from the western edge of Williams Lake (up and down from the left-hand third of the diagrams).

CONCEPT ABANDONED

The concept has since been abandoned for the site. Concerned residents along Williams Lake Road and to the north and south of the end of the formerly proposed runway will find their property is no longer in jeopardy since the county no longer will be seeking purchase rights.

The north - south runway would have placed the estimated cost of the expansion at about double the present estimate, some $9 million.

In material prepared for the county's Pontiac - Oakland Airport master plan, engineers have placed the field as it presently operates at a "capacity" level of 200,000 operations (landings, take-offs) per year. Capacity of about 425 planes based at the site has also been reached.

* * *

With the planned expansion, the field will be able to handle an extra 50 per cent of capacity —300,000 operations— plus base some 125 more planes.

* * *

However, examining present and projected usage of the facility, at the expected time of completion of the expansion program in 1970, the demand will probably surpass what the facility can supply.

* * *

Attempting to keep up with the ever-expanding demand for aircraft facilities, county airport officials have also ordered a plan for development of the former Allen Airport in Orion Township, now called Oakland-Orion Airport.

* * *

This master plan is to be revealed early in December and is expected to provide for additional needs of the county well into the future, according to officials.

SANTA and the PIGWIDGEN

By LUCRECE BEALE

(Synopsis: Children did not always celebrate Christmas as they do today. This is the story of how Santa Claus came to be. Long ago a mysterious purse was found in the home of a toymaker named Claus. When the purse was opened a strange vapor escaped.)

CHAPTER TWO

The Curse

The mysterious warm breeze swept through Claus' house, out the door, up the chimney and through the window cracks.

Now it was gone.

The villagers grinned self-consciously. They were ashamed to have been so afraid. They stared at the purse. Where before it had been heavy and bulging it was now flat and empty.

"You shouldn't have opened it!" Claus groaned. "I promised I'd never open it. Now who knows what will happen!"

★ ★ ★

"Nothing will happen," said an elder nervously. "It was all a joke!"

NO GOLD

"There never was anything in it!" scoffed an old man.

"No gold. No nothing," said another.

They laughed and shook their fingers at Claus for having fooled them. "What a prankster!" they cried. "Always having fun!"

★ ★ ★

A little boy standing at Claus' side opened his mouth wide, wider and gave a huge yawn. A little girl next to him did the same. She said, "I'm sleepy!" A second boy said, "I've NEVER been so sleepy!"

'I WANT TO SLEEP'

"I can't keep my eyes open," complained another child. "I want to go to bed," sighed another.

A moment later, all the children were yawning and rubbing their fists in their eyes.

Before anyone quite knew what was happening, the children were sound asleep on their feet.

Mothers spoke sharply. They shook the children. They said, "For goodness sake! It's only midday. No time for napping. You'll never sleep tonight."

But it did no good. Fathers lifted the sleeping children and carried them home to their beds.

All day the children slept. And all night and all the next day. Men blew horns and pounded drums and paraded in the village square making enough noise to shake the houses. Mothers banged pots and pans in the kitchens and called, "Come to dinner — we're having all your favorite things!" Fathers leaned over the sleeping children and promised to play ball or go sledding or climb trees with them if only they would wake.

SPECIAL TOY

But the children slept on.

Meanwhile Claus worked in his woodcarving shop. He made a special toy for each child. A clown. A doll with moving arms and legs. A tiny horse-drawn cart. A music box. A sled. A doll house. A checker game. A set of ten pins. Something for everyone.

While he worked, Mrs. Claus was in the kitchen mixing and baking and loading the pantry shelves with gingerbread men and raisin cakes and chocolate tortes and coconut patties and pecan pies.

"When the children wake," they told each other, "we'll feast and give gifts and make merry. What a time we will have!"

★ ★ ★

But the children would not wake and, finally, everyone knew a charm had been laid on them and they were going to sleep perhaps forever.

'MY FAULT'

"It all began when the purse was opened," moaned Claus. "It is my fault. I promised never to open it."

"You must not blame yourself," said Mrs. Claus gently. "It was not you who opened it."

"It comes to the same thing," said Claus. "The purse was in my keeping." He picked up the old black bag and shook it angrily.

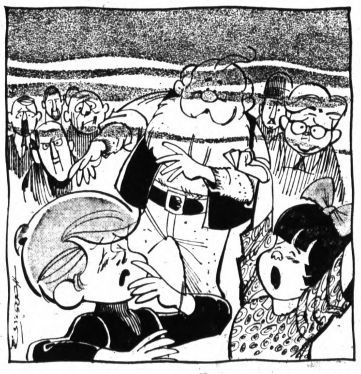

★ ★ ★

"I must find a way to break the curse!" he swore. "I will not rest until I do!"

★ ★ ★

He flung the bag against the wall. The clasp broke open and a small brass key fell out and skittered across the floor.

Tomorrow: Claus Begins a Trip

"I can't keep my eyes open!" "I'm so sleepy!"

She had eyes for him even then — ten years ago little Julie Nixon can be seen stealing a glance at young David Eisenhower, as they stand on the reviewing stand at the White House during inauguration festivities in 1957 for President Dwight D. Eisenhower. Behind David is his grandfather, the President. Vice President Richard Nixon stands behind his daughter. Julie and David last night confirmed they are engaged. They now are 19.

And here's proof — Julie Nixon beams and David Eisenhower bursts into a wide grin as she holds up her hand with the engagement ring on it, last night at Smith College in Northampton, Mass. They said they will marry after they are graduated from college. Julie attends Smith and David, Amherst College.

Eisenhower-Nixon Team Plans Lifetime Partnership

NORTHAMPTON, Mass. (AP) — Julie Nixon and David Eisenhower, whose friendship grew from childhood acquaintance to college dates, plan to marry after they graduate in 1970.

David, 19-year-old grandson of former President Dwight D. Eisenhower, has given Julie, also 19 and daughter of former Vice President Richard M. Nixon, his great-grandmother's diamond ring.

Julie said the families have known each other for a long time and their reactions to the engagement last Saturday in New York were "just perfect." They are "all excited about the engagement," she said.

★ ★ ★

The young couple appeared radiantly happy Thursday night when interviewed on the Smith College campus where Julie is a sophomore. They had dined together at the Baldwin House dormitory and then spent the evening in Amherst, a few miles away, where David is a sophomore at Amherst College.

No date has been set for the wedding, but both said they are certain the wedding will not take place until after they are graduated.

David, who is majoring in history, said he is thinking of going to law school after graduation. Julie, who has not picked a major said she will look for a job after graduation.

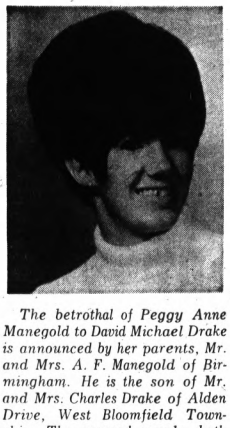

David said he had thought of becoming engaged for some time and, because he did not have enough money for a ring, offered to work at an Amherst College dining hall.

OFFERED RING

He said he mentioned the plan to his grandmother, Mamie Eisenhower, and that she offered him her late mother's ring asking, "Do you think Julie would like this?" David accepted.

The ring belonged to Mrs. John S. Doud of Denver. David is the son of retired Army Lt. Col. John S. Eisenhower, of Phoenixville, Pa.

Julie said she was surprised news of the engagement had not leaked earlier because David had the ring checked by a New York jeweler to be sure the silver setting was secure.

The betrothal of Peggy Anne Manegold to David Michael Drake is announced by her parents, Mr. and Mrs. A. F. Manegold of Birmingham. He is the son of Mr. and Mrs. Charles Drake of Alden Drive, West Bloomfield Township. The engaged couple, both graduates of Western Michigan University, are planning to be wed in March.

'Messiah' Scheduled by Detroit Symphony at Ford Auditorium

Some 300 participants will take part in a performance of George Frederic Handel's "Messiah" at the Detroit Symphony Orchestra's next Kresge Concert, Tuesday evening in Ford Auditorium.

In addition to the 103-member Detroit Symphony, the musical ensemble will include the 200-voice Rackham Symphony Choir and guest soloists Patricia Brooks, soprano, Louise Parker, contralto, William Lewis, tenor, and Ara Berberian, bass.

CONDUCTOR

Maynard Klein, director of choirs at the University of Michigan and of the Rackham Choir, will conduct the performance.

Concert time is 8:30 p.m.

The "Messiah" is the second of five Kresge Concerts planned for the Symphony's current season.

★ ★ ★

Tickets are now available at Ford Auditorium Box Ofice, all 15 metropolitan Grinnell's stores, and Hudson's.

Weavers Will Show Results of Instruction

Thirty women who have been taking instruction in grass weaving at Drayton Plains Nature Center will display their projects Sunday at the Center.

Coming from Walled Lake, Clarkston, Milford, Lake Orion, Oxford, Orchard Lake, Pontiac and Drayton Plains, the artisans will be hostesses at an open house scheduled from 3 to 5 p.m.

★ ★ ★

With Mrs. John Vanderlind of Hammond Lake as instructor, each woman has made several articles—trays, baskets, mats, handbags and other decorative pieces.

Bride elect Karen Jean Conlon and her fiance David Patrick O'Malley are planning fall 1968 vows. Their parents are the Eugene G. Conlons of Brookdale Street and the Robert J. O'Malleys of Battle Creek. The engaged couple are seniors at Michigan State University.

Boss Will Appreciate Knowing Truth

'Sorry' Flowers Win No Prizes

By ABIGAIL VAN BUREN

DEAR ABBY: Every holiday my husband's boss who lives out of state sends us a huge bouquet of roses. The box they come in bears the name of a local florist, and their truck delivers them, so it's not as though these flowers have been shipped any great distance.

Well, I have never seen sorrier flowers in all my life! It is getting to be an annual joke around here. They aren't even worth putting into a vase. I just open the box, and carry it right out to the trash.

Then I sit down and write a "thank you" note for the "beautiful" flowers. I told my husband this year I think we should tell his boss what kind of flowers he has been paying for. My husband says we should be quiet. What do you say?

MRS. M. J. L.

DEAR MRS. L.: I say a rose by any other name would smell. And so would the deal you've been getting from your florist. By all means let the sender know the kind of flowers you have been receiving. He would appreciate it.

★ ★ ★

DEAR ABBY: Mine is a problem I can't discuss with anyone. Teddy, our 12-year-old son wants to take ballet! He is slim, graceful, a very beautiful boy and not very masculine.

He's been taking ballroom and tap since he was nine, but I never dreamed he'd become interested in ballet. His father will die. He's a rugged sportsman and has a five handicap in golf. Teddy has always been a rather delicate child and never cared much for sports so I thought dancing would be good exercise for him.

I am worried because you don't see many real he-men in ballet, and I do so want our Teddy to be a real he-man, marry some nice girl and have children. I would so love to have a little granddaughter. Teddy is our only child and I was so disappointed when he was not a girl, I wept for a week.

Should I discourage his taking ballet, or do you think it's too late?

TEDDY'S MOTHER

DEAR MOTHER: First you ought to find a psychiatrist with two couches. One for you and one for Teddy. The doctor can tell you if it's "too late," and if so why. Environment plays a very important role in shaping a child's destiny. Many a mother's "dream" of having a "little girl" has created a nightmare for the unlucky boy she bore instead.

★ ★ ★

CONFIDENTIAL TO MARK: Money isn't everything. Sometimes it's not even enough.

★ ★ ★

How has the world been treating you? Unload your problems on Dear Abby, in care of The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056. For a personal, unpublished reply, inclose a self-addressed, stamped envelope.

Calendar

SATURDAY

Osage branch, Woman's National Farm and Garden Association, 6 p.m., Spring Lake Country Club. Annual "Men's Night."

North Suburban Alumnae of Chi Omega, 6:30 p.m., Rambling Way home of Mrs. John Stanley. Christmas open house for members and husbands.

SUNDAY

Alpha Pi chapter, Pi Lambda Theta, 2 p.m., chapter house on Wayne State University campus. Annual Christmas tea. The St. Jude Boys' Choir will present a program.

YWCA Annual Hanging of the Greens, 3 to 5 p.m. A family activity. Any interested families or individuals may attend.

No Details Yet on Robbs' Home

WASHINGTON (UPI) — Lynda Bird Johnson and her future husband, Marine Capt. Charles S. Robb, have found a home in the Washington area to live in after their marriage.

★ ★ ★

The location of the house is a secret for the time being, but it has to be different from the average newlyweds' hideaway — for one thing it's got to be big enough to accommodate Lynda's Secret Service guardians.

A round-the-clock guard on Lynda is a must even after she is married.

The couple is expected to live in the house at least until mid-March, when Robb is due to go to Vietnam.

VOWS SOON

With just eight days to go before the Dec. 9 White House wedding, Lynda is doing some intensive studying in the culinary arts. In other words, she's trying to learn how to cook.

★ ★ ★

The White House reports that the President's 23-year-old daughter has received at least a dozen cookbooks as wedding gifts since the word got around that she can't cook.

Today's Woman

She's a Natural Charmer

By JEANNE NELSON

When the concept for Oakland University's Continuum Center was still in its earliest stages, one of the problems facing the planning board was just the right person as orientation interviewer.

The search ended in the board's own back yard with Mrs. William F. Driver, a Birmingham resident. Eleanor has proved the wisdom of this choice with her special gifts of warmth and quick wit. There's something truly extraordinary about the way she puts even the most anxious applicant at immediate ease.

★ ★ ★

Being the mother of five boys (well, really men now, since the twins, Larry and Steve, at 16 are the youngest), Eleanor admits, has forced her into putting things in their proper perspective.

"After nine years of Cub Scouting and another six holding forth at sports dinners, a mother learns to laugh a lot."

Her three other sons are Bill, a navy pilot; Lee, another naval officer; and Rocky, a student at Western Michigan University.

SANG IN OPERA

Following her graduation from the University of Illinois as a voice major, she spent a season with the Chicago Civic Opera chorus.

Having always been tall, she developed a great interest in clothes through the years. So it followed quite naturally that during her opera stint, she designed and wrote a brochure on costumes incorporating style and fabrics into the performing roles.

Her singing is still kept alive through church choir and special activities.

★ ★ ★

In typical Eleanor Driver fashion she switches images so fast it's hard to keep up. Now meet Mrs. Driver, the athlete.

Just a few years back she was teaching swimming in area friends' pools to children from the inner city.

Then came another character change into student role at the University of Michigan's Dearborn campus where she was told to "relax, there are lots of old ladies around here."

★ ★ ★

As clubwoman, she has been active in the Birmingham League of Women Voters, United Fund, Muscular Dystrophy Association, Michigan Cancer Association and Churchwomen of Our Savior Presbyterian Church.

★ ★ ★

She loves to water and snow ski and threatens someday to buy herself a houseboat to pilot through the inland waterways down into Florida.

At this writing she is finishing up a Power Squadron course which practically changes that threat into a near realization. Permission to come aboard ma'am.?

These newspaper clips record current happenings at Oakland University's Continuum Center. Mrs. William F. Driver, the Center's orientation interviewer, keeps a steady eye on student accomplishments.

ONE COLOR

Prize-Winning Works of Art to Be Displayed at BAA Show

Seven prize-winning works of art will be on display in the tenth annual Bloomfield Art Association Members' Show, opening Sunday.

★ ★ ★

Selected by juror Donald Willett, painting instructor at Cranbrook Academy, the exhibition includes oils, waterbase paintings, prints, drawings, sculpture, jewelry, ceramics, and weaving by BAA member-artists.

★ ★ ★

Mrs. Merritt Hulburd, who has won many awards for her drawings, is chairman of the show and in charge of its installation.

★ ★ ★

More than 200 works were entered for jurying. The exhibition presents Willett's selections for the most outstanding works by the Blomfield Art Associations professional and amateur artists.

★ ★ ★

Leo Martin's iron and brass figure of a mother and child was the judge's selection for special award. Martin is from Warren. Irene Stretten, of Union Lake, received the best of show award for an acrylic entitled "Circus." Second place was awarded a lithograph by Kathleen Birch of Birmingham, and third place to Shari Brush of Bloomfield Hills for "Transcendent," an acrylic.

HONORABLE MENTIONS

Three works were selected by the juror for honorable mention. "Plaza," an acrylic by Isabel Loosemore of Detroit; an untitled charcoal by Irene Marinovich of Birmingham, and "Summertime," an acrylic by Irene Niksa of Royal Oak, were in this category.

Assisting Mrs. Hulburd in receiving, cataloging, and installing the show were: co-chairman Mrs. Elmore Fowlie with Mrs. William Collins, Mrs. Grant R. Valpey, Mrs. E. I. Glowacke, Mrs. John P. McManus, Mrs. David L. Tennent, Mrs. Darrell Roberts, Mrs. Robert P. Magnuson, Mrs. Harry Gross, and Mrs. Ernest Jones.

★ ★ ★

The Members' Show will be on exhibition until Dec. 31. Gallery hours are 2 p.m. until 5 p.m. except Monday.

Four Exhibitions on Display Now at Institute of Arts

The Detroit Institute of Arts has four exhibitions currently showing.

The 20th Exhibition for Michigan Artist-Craftsmen, a juried show of more than 120 contemporary works in textiles, ceramics, metalwork, glass and jewelry, will remain through Dec. 31 in the south wing.

★ ★ ★

Examples from the lifetime works of photographer Alfred Eisenstaedt are on display in the south wing.

Selections from the museum's permanent collection of European graphic art, and from the collections of Paul G. Lutzeier and Lydia Winston Malbin, are being shown in Gallery 48.

JAPANESE SCROLLS

Twelve fine color reproductions of scrolls by Japanese old masters are in the Education Corridor.

The latter three exhibits will remain through Dec. 10.

★ ★ ★

The museum hours are from 9 a.m. to 9 p.m. Tuesday; 9 a.m. to 6 p.m. Wednesday through Sunday. Admission is free.

Man's Parents Not Included on Invitation

By ELIZABETH L. POST

Dear Mrs. Post: I am writing this letter in the hope that in the future something possibly can be done about having the boy's parents' names on wedding invitations.

First of all, in many cases with intermarriages of different nationalities and cultures, the boy's parents get involved so far as paying half of the wedding, including dinners, etc.

Secondly, when parents are dead, the newspapers will refer to son or daughter of the late Mr. and Mrs. So and So, and you have a feeling they belong to someone, but on the wedding invitations it is lost.

If several examples are put in the Etiquette book the girl can choose the one suited for her occasion. "The Book" has no feelings, but your in-laws have feelings, and this you must cope with the rest of your life. — Mrs. D'Elia

★ ★ ★

Dear Mrs. D'Elia: Even in this day and age, the bride's parents should, and do, give the wedding if it is possible. For that reason the invitations are issued in their names as host and hostess.

In cases where both families admittedly share in the wedding expenses and arrangements, I see no reason why the bridegroom's parents should not be named below those of the bride.

Benefit on Dec. 14

GOP to See OU Play First

The Meadow Brook Theatre can Legislative District director premiere of "Charley's Aunt" will be the hosts.
on Dec. 14 will be the scene The John Fernald Company's of a benefit theatre party for production of Brandon Thomas' which Oakland County Republi- comedy classic marks the Republican Committee of Oakland County's first sponsorship of a Meadow Brook play.

★ ★ ★

Tickets are on sale and available from the district directors or Republican headquarters in Birmingham.

★ ★ ★

A slightly schizophrenic atphere surrounds the John Fernald Company these days as actors play high tragedy in the evening and low comedy during the day.

COMEDY VS. TRAGEDY

Occasioning the collective split personality is the simultaneous rehearsal of "Charley's Aunt," a hilarious slap-stick comedy, with performances of Henrik Ibsen's masterpiece, "John Gabriel Borkman," a powerful psychological drama.

★ ★ ★

Between the two shows and their normal everyday world, the actors and production staff aren't sure of exactly who they are at any given moment.

★ ★ ★

Eric Berry, for example, plays the tragic figure of John Gabriel Borkman in the Ibsen drama and portrays Stephen Spettigue, a comic roue, in the "Charley" rehearsals.

★ ★ ★

In real life, Berry is a robust cheery man with a friendly smile. He can often be seen briskly walking his dog, Pooch, on the Oakland University campus.

The problem is even stranger for Curt Dawson who plays Erhart Borkman in the Ibsen Drama.

SHE'S A HE

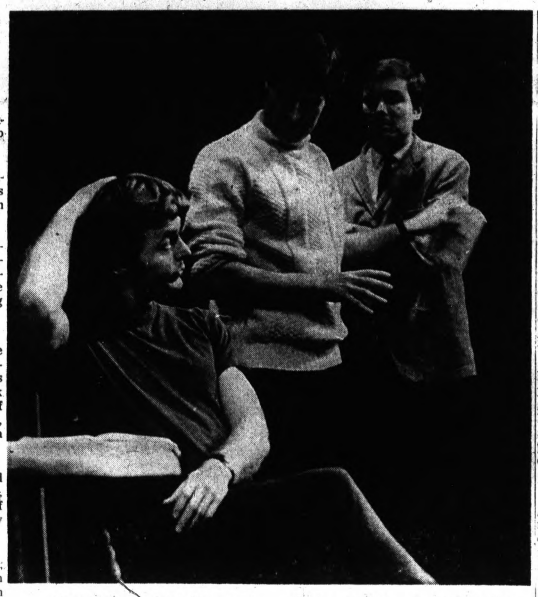

In "Charley," he is Lord Fancourt Babberley — and Babberly, in the play, plays Donna Lucia d'Alvadorez, Charley's aunt from Brazil.

★ ★ ★

The first public performance of "Charley's Aunt" opens Dec. 15 and the play continues until Jan. 14. In addition to the regular performance scheduled, special holiday matinees will be presented on Dec. 26, 27 and 28.

★ ★ ★

Information about tickets may be obtained from the box office at the Meadow Brook Theatre on the OU campus.

Curt Dawson, Neil Hunt and Victor Holchak (left to right) pause in a rehearsal of "Charley's Aunt" which opens Dec. 15 at the Meadow Brook Theatre on Oakland University campus.

The Silent Wonder

Accutron — Constant as the Northern Star

On Christmas Day, he'll be amazed to learn that all the parts that make a Regular Watch Run Fast or Slow Have Been Eliminated. Powered by a tiny battery vibrating 360 times a second, Accutron is guaranteed for accuracy within two seconds a day — Layaway his Christmas gift now.

Gardeners Slate 'Christmas Walk'

A Christmas Walk, presented by members of the Hill and Dale Garden Club of Farmington, Dec. 10 will enable them to continue their program of "Garden Therapy" for 150 handicapped children.

During the 1 to 7 p.m. "walk," 10 homes will be opened for viewing. Each will have an entirely different Christmas decoration, ranging from nostalgic old-fashioned ideas to creative contemporary.

★ ★ ★

Familes cooperating in this venture are the Warren Krugers, the B. J. Thompsons, the Richard Steigers, the Frederick Bulmans and Mr. and Mrs. David Yates.

At this last home, visitors will find a boutique with gifts made by club members, all for sale.

Others opening their homes are the George Remolds, the McDavids and the John Passfields.

The last home, that of Mr. and Mrs Vernon Vickland on Mullane Drive, will be open from 2 to 5 p.m. for refreshments.

★ ★ ★

The route to be taken on the tour is printed on the tickets. Women visitors are requested to wear low-heeled shoes.

The club's "Garden Therapy" program includes planting, growing and arranging flowers and the conservation of wild life and plants, also handicrafts.

Bi-monthly visits are made to 12 Farmington schools which enroll children from many south Oakland County areas.

The club has won a number of awards for this work.

Tickets are available in advance from Mrs. Arthur Lynn, Mrs. Earl Johnston, Mrs. W. R Wichman, Mrs. Jack Raker or Mrs. John Scapelliti, all of the Farmington area.

They are also available at the first home listed, the Warren Krugers, 7270 Cedarcroft, just north of 14 Mile Road at Middle Belt.

Big Hailstones? Dad's Golf Balls

ARVADA, Colo. (AP) — A heavy hailstorm rolled across the Arvada area. As Mrs. Ralph Moore peeked out her back door, she shouted to her husband: "Heavens, they're as big as golf balls."

★ ★ ★

Her husband investigated and found she was right. Their children had been playing in the yard and had emptied their father's bag of practice golf balls all over the backyard.

Why Grow Old?

By Josephine Lowman

There is probably nobody quite so unhappy or so unrewarding as the person who holds grudges. Half the time the things which upset such people were just due to a thoughtless moment or a tactless remark on someone's part.

★ ★ ★

There is something downright ludicrous about a grown man or woman sulking, and anyway, the person at whom they glare or the one they ignore, goes scot free, while they poison themselves.

I cannot imagine a more boring way to spend energy yet many sensitive souls waste great amounts of it in this way. Negative, bitter thoughts and attitudes not only injure happiness but are terrifically damaging to health.

AFFECT GLANDS

Our emotions affect our glands, our heart beat, our respiration and every organ in our body. Happiness is the magic medicine that lifts fatigue and promotes a sense of vibrant well being.

Then many folks who do not hold grudges have myriad things which "get their goat," or in other words, things which irritate them. Frequent secret irritation, even though it is controlled, is also damaging.

Practically everyone has a few "goats," but the fewer the better!

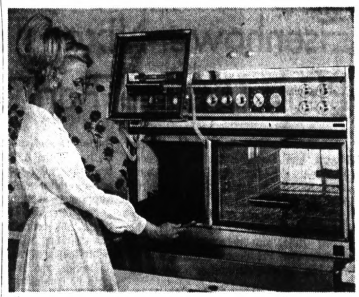

Perhaps your goat is an irritating mannerism of someone you know. It may be the habit someone has of slapping you on the back. It may be someone thumping the arm of the chair or tapping with a foot, a blaring radio or a barking dog, manner of speech or a tone of voice, or any number of things which cause you to tense up.

Many people have traffic goats. They can hardly see the cars for the goats. I must admit to one or two of these myself. One of them is the person who moves like a snail until you come to a place where it is safe to pass. Then he turns into a speed demon.

Another is when a person has been driving very slowly for a long while but when you finally pass him, he seems to take it as a personal insult and immediately breaks all records trying to pass you. I always say to myself, "Well, if his ego is in that bad a shape, let him win."

★ ★ ★

Anyway, I am trying to save my pep to spend in more pleasant ways and am trying to starve my goats to death with lack of indulgence. How about you?

Pontiac Press Photo

Grape leaves and eggplant and all sorts of interesting foods occupy the attention of Mrs. Nick Asim, Elizabeth Lake Road (left) and Mrs. Efthim Gabriel, Ottawa Drive. They are cochairmen of the kitchen for the annual 'Dining in Athens' dinner on Wednesday. Dinner by reservation will be served at St. George Greek Orthodox Church on Woodward Avenue. Luncheon is open to the public without reservations.

Greek Foods Are Featured

Greek food will be offered to the public at luncheon and dinner next Wednesday.

The Ladies Philoptophos Society of St. George Greek Orthodox Church on Woodward Avenue are presenting another "Dining in Athens."

This will be the first time they have planned the event for the new church. Entrance is from East Berkshire Road.

Luncheon will be served from 11 a.m. to 1:30 p.m. No reservations are necessary.

Two dinner hours are reserved: 5:30 and 7:30 p.m. Mrs. Gus Froumis of Rochester, Mrs. Robert Kudner of Birmingham and Mrs. Abraham Ryeson of Waterford Township are taking reservations.

The menu will include chicken and pilaf, Mousaka, Dolmathes, Tyropites, Greek salad with Feta cheese and Greek olives, homemade Greek bread and Greek pastries.

Polly's Pointers

Design Crazy Robe

DEAR POLLY—I have found another good use for odd scraps of cotton left from making clothes. I made a crazy quilt duster. I used a duster pattern with raglan sleeves. I cut the duster out of plain fabric and then sewed various-shaped cotton pieces, crazy quilt style, on to this plain background.

When all the pieces were in place, I sewed the duster together, turned the cuffs of the sleeves and the tops of the pockets over so the bands of plain material gave an interesting effect. — NAOMI.

DEAR POLLY—Perhaps you think it sounds dumb when I say "Do not throw away your old grille." We have found that a barbecue grille makes a cute flower box to beautify the yard or patio.

Paint it black or any color you wish, fill the grille part with dirt and plant your favorite flowers in it. Keep the flowers watered and they will grow and grow. Since most grilles have wheels, it can be rolled around to wherever you want it. — CAROLYN.

DEAR POLLY — My hint is for rose growers. I asked the gardener in Mineral Palace Park if the purple blooming plants among the rose bushes were chives. He said, "Yes, they keep away the bugs, red spiders, etc." — EDNA.

DEAR POLLY — I would like to do away with the old ceramic tile soap dish and tumble holder in my bathroom. I hope one of the readers can tell me how to get them off the wall without breaking the tile. — AUGUSTA.

Dads, Put Gals Straight on Femininity

By MURIEL LAWRENCE

She was 16 — and her date had stood her up the previous evening.

Stony-faced, she said to me, "I've had it. He'll never get a chance to do that to me again!"

"How long have you known him?" I asked.

She gave me an impatient glare. "Oh, about a year."

"How much do you like him?" I asked.

"A lot," she said. "But this is it. I'm through."

"Everybody who stands us up," I said, "doesn't do it to insult us. Personal emergencies can crop up that make it impossible to keep dates with us or even phone us. So, if you like this boy so much, why don't you phone him to see if he's all right?"

You would have thought I had suggested that she defect to Red China. She wanted to hit me. She didn't, of course. Instead, she yelled at me. "I am a feminine girl!" she yelled "I have never phoned a boy in my life and I never will! No boy is ever going to think of me as a chaser! No matter how much I think of him, I'd die before I'd call a boy who had stood me up!"

Do all you feminine girls feel like that?

Because, if you do, you'd better ask your fathers to define the difference for you between chasing men and concern for men. Better still, you might ask the boy friends themselves if they regard any interest in their welfare as unfeminine.

For that so feminine girl lost her boy friend. By the time she discovered that his father had dropped dead of a heart attack the night of their date, he wanted neither her concern nor her sympathy. She talked and talked about how sorry she was that she had misjudged him. But he didn't really hear her. He didn't believe her.

All that was in her was, "What do you think about ME?"

I'm writing this column because I know how you girls suffer from this notion that any expression of concern for a boy's well-being is unfeminine. It's the worse-than-death of your generation. So please talk to your fathers about it.

I hope to goodness they'll tell you that you're well rid of any boy friend who's so conceited that he's obliged to translate "Are you all right?" into "Let's get married."

Whole Operation Just Big Bust

MIAMI (UPI)—A widow who claimed her 42-inch bust was so "flattened" and scarred by plastic surgery that she lost her fiance was awarded $13,000 in damages Thursday from a Miami surgeon.

Mrs. Lavon Crawford, 54, of West Palm Beach, said in a suit that she underwent cosmetic surgery to improve the shape of her bust. She said she emerged with 38-inch measurements which she described as "flat as a pancake."

Additionally, she contended, one breast was scarred and caused her to lose her fiance.

Michael Goldwater and his fiancee, Constance Stockert, posed at San Francisco International Airport Thursday. Michael, 27, son of 1964 Republican presidential candidate Barry Goldwater, and Miss Stockert, 26, will be married Saturday in St. John's Episcopal Church in suburban Rose. Miss Stockert is the daughter of Mr. and Mrs. R. H. Stockert of Shawnee Mission, Kan. Young Goldwater is in the real estate business in nearby Mill Valley.

Slipped Away

CHICAGO (AP) — Mrs. Milfred Seekamp, a cleaning shop employe, told police the same man robbed the shop twice within about three weeks. Both times, Mrs. Seekamp reported, the robber made her take off her skirt and slip—so she couldn't give chase.

'Brolly' Makes a Fine Gift for Under Holiday Tree

By HELEN HENNESSY
NEA Women's Editor

NEW YORK (NEA) — Take a bright outlook on the weather. No matter how gloomy the forecast, umbrella creator Polan Katz has come up with a collection that will turn cloud-hopping into a matter of fun and fashion. And just in time to solve some of the problems on your Christmas list, too.

* * *

There are prints as novel as the latest in art and others that derive inspiration from treasures in an antique shop. There are psychedelic prints, classic tartans, abstracts and geomatrics.

But a sure conversation piece is his take-off on the Tiffany lampshade that hung in grandma's dining room. It took more than three years to develop this design that duplicates so faithfully the effect of the stained glass shade, the translucency, even the unique dome shape.

There are unusual combinations of umbrella and accessory items for holiday shoppers in the Polan Katz collection, too. You'll find umbrellas to match handbags and shoes, to co-ordinate with raincoats and boots.

There are matching scarves and umbrellas, Gluvumbrellas, with their own gloves that stretch to fit any size hand and the Beltbrella that unlatches its shoulder strap sling to double as a leash belt.

* * *

For gala holiday evenings in the rain there are gold and silver umbrellas, others that shimmer in colorful vinyl-coated brocade and gayest of all, the after-five "Clocktail" brolly that duplicates the clock dial on the black nylon cover with numerals and hands set in glittering rhinestones.

* * *

It's a whole new world walking between the raindrops this season.

To turn you on fair weather or foul is this psychedelic print umbrella by Polan Katz, leading brolly designers. Shock colors and eye popping lines serve to make this a razzle-drazzle accessory. Imported crook handle makes carrying easy.

Relive Courtship After 50 Years

Salina, Kan (AP)—Few couples ever get a chance on their golden wedding anniversary to ride in the car in which they "courted." But Mr. and Mrs. Jack Beverly did.

The 1912 Buick was owned by Beverly's brother, Ed, half a century ago.

Vern Pealling bought the antique car in 1954. He brought it to the Salina Country Club where a reception was being held recently for the Beverlys to honor their wedding anniversary. He took the couple for a ride.

Cellophane was invented in 1908 by Jacques Edwin Brandenberger, who was trying to make a stainproof tablecloth.

Benefit Tea Set for Fisher Home

The Seton Guild's annual Christmas benefit tea will take place Dec. 10 from 2 to 5 p.m. in the lounge of the St. Vincent Sarah Fisher home for children at 12 Mile and Inkster Roads.

Since 1939, the Seton Guild has provided for a happy Christmas for the resident children of the home.

Sets Yule Gala

Mrs. Sylvan Mikelson of Orchard Lake is chairman of Saturday's puppet show and children's party sponsored by the Wayne State University Faculty Wives.

The gala will be held at 2 p.m. in Mackenzie Hall on campus.

Case No. B-570

Wear Youth Out First

By DR. GEORGE W. CRANE

CASE B-570: Freddy B., aged 12, worries his daddy.

"Dr. Crane, I like to fish," his father began.

DR. CRANE

"And Freddy wants to go along. So I generally include him on such an outing.

"But I am old-fashioned and use a bamboo pole with worms.

"Freddy gets bored within half an hour and then begins to make a noise or throw pebbles in the water, which scare my fish.

"So what can I do to solve my problem?"

CAMARADERIE

Freddy's father deserves a gold star for trying to promote camaraderie with his boy.

But he fails to realize that children are so full of excess energy that they simply can't sit still very long.

They feel as if they will explode if they don't indulge in muscular action, which also explains their fondness for barbaric musical rhythms that permit a lot of calisthenic "Beatle" gyrations.

★ ★ ★

Freddy should be given a rod and reel, so he can keep casting while his daddy is pole fishing.

Also, let him row the boat, which usually delights such youngsters.

If the weather is warm enough, suggest that he swim at one corner of the farm pond or stream.

For I have observed fish closely and find that loud noises as well as diving and swimming at a distance of 150 feet, don't seem to disturb fish.

But any quick movement near them will make them dart away.

Thus, if Freddy stays in the boat and suddenly waves his hand, that quick movement of a white object will frighten the fish from his daddy's hook, dangling at the end of a 15-foot bamboo pole.

Whenever possible, parents should also "lean" on their youngsters for physical assistance and also for advice.

Instead of being the fountain of wisdom and always "bossing" your youngsters, profess doubt, uncertainty and then ask for suggestions.

★ ★ ★

Tell the children they may gather wood for the fire and under your careful tutelage, permit them to strike the match to start the flames.

When the picnic is over, let them carry water or sand to put the fire out before you depart.

Send them out to dig your bait or to collect catalpa worms and crickets or grasshoppers, rewarding them possibly with a penny apiece.

If you need to seine for minnows, let them handle the seine and sort out the minnows you plan to use on your hook.

Suggest that they catch frogs along the bank.

Let them run behind your car for a few hundred yards as you measure their speed, for this running wears them out much faster than merely sitting in the car or in your boat.

And, in Tom Sawyer fashion, make it seem an honor to carry the oars or other equipment. Wear 'em out and thus save your own limited adult energy!

I should know, for with five children and a flock of grandchildren to entertain, I have made a science of how to wear 'em out before they exhaust me!

Women Voters Begin Study of Youth Courts

Utilizing charts and maps, members of the Pontiac League of Women Voters held the first of a proposed two-year study on Michigan Courts in relation to the young.

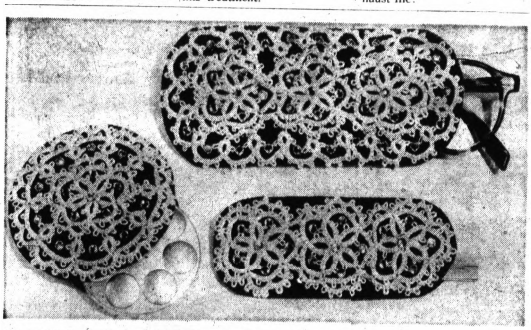

During Wednesday's meeting, in All Saints Episcopal Church, a panel of four outlined Michigan's judicial structure and its function.

The panel, moderated by Laura Belz, temporary chairman, was made up of Mrs. Jame Campoli, Mrs. T. Warren Fowler and Mrs. Claire J. Hinckley.

Mrs. Virgil L. Rehak assisted with preparation.

Lillian Davidson, Laura Belz and Mrs. George Gray set up arrangements for the coffee hour that followed.

One cup of vinegar added to one gallon of warm water cleans varnished wood beautifully. The gloss of the varnish is not impaired in the least by this treatment.

An orchestra of angels is a harmonious way to cover your Christmas table. The cloth is made of brightly colored linen and the embroidery done in six-strand floss. The pattern includes two different designs for angels and two for stars, with transfer instructions and a number-keyed stitch and color chart. Send your request for free Leaflet PE 3895 to the Needlework Editor, Dept. E-600, The Pontiac Press, P.O. Box 9, Pontiac, Mich. 48056, along with a self-addressed, stamped envelope.

Dainty handbag set will please the most fastidious lady. Tatted lace is stitched to felt backing and highlighted with rhinestones, sequins or beads. The three-piece set includes cases for your compact, comb, and eyeglasses. Free instructions are available by sending a self-addressed, stamped envelope to the Needlework Editor, Dept. E-600, The Pontiac Press, P.O. Box 9, Pontiac, Mich. 48056, along with your request for Leaflet S 919.

AP Wirephoto

James J. Kavanaugh, who renounced Roman Catholic priesthood, has announced plans to wed a San Diego nurse, Patricia Jean Walden, on Dec. 16. Kavanaugh authored best-selling book, "A Modern Priest Looks At His Outdated Church." He now is a family counselor at the Human Resources Institute in nearby La Jolla.

Father Kavanaugh Tells of Plans to Marry Dec. 16

SAN DIEGO, Calif. (AP) — The Rev. James Kavanaugh, a Roman Catholic priest, says he will be married Dec. 16 to a nurse.

★ ★ ★

Father Kavanaugh, 39, author of the best-selling "A Modern Priest Looks at His Outdated Church," told newsmen this week his wedding to Patricia Jean Walden, 35, will take place whether or not the Catholic Church grants his three-month-old request for permission to resign from the priesthood.

★ ★ ★

The priest currently works for the Human Relations Institute in La Jolla, a San Diego suburb. He said the marriage will take place in the home of his brother, Dr. Philip Kavanaugh of La Jolla.

★ ★ ★

Miss Walden is the daughter of Mr. and Mrs. Alfred J. Walden, of St. Petersburg, Fla. She is an Episcopalian, and the Rev. David Crump, an Episcopal priest from Newport Beach, Calif., will perform the ceremony.

★ ★ ★

Father Kavanaugh says he has in effect resigned as a priest but he still considers himself a Catholic.

★ ★ ★

A Catholic spokesman in San Diego said that, once ordained, a priest is forever ordained unless relieved of his duties by papal dispensation. If a priest marries, the spokesman said, the union is not considered valid and is equivalent to de facto excommunication.

★ ★ ★

"Officially, they can say I might be excommunicated," Father Kavanaugh commented. "But the primary source of any sin would be man's violation of his own personal conscience. Since I am acting in accord with my conscience, I am acting in accord with God."

★ ★ ★

Father Kavanaugh was a priest in Lansing, Michigan, before coming to the Human Resources Institute. He received an extended leave of absence from Bishop Alexander Zaleski shortly before his book was published this year.

Canada Government Hikes Taxes in War on Inflation

OTTAWA (AP) — Canada's Liberal government went to war against inflation today, raising taxes on alcohol and tobacco 10 per cent at once and slapping a 5 per cent surcharge on personal income taxes come Jan. 1.

★ ★ ★

The surcharge, announced by Finance Minister Mitchell Sharp in a budget speech to the House of Commons Thursday night, affects five of every six Canadians paying income tax.

More tax increases appear to lie ahead. Sharp said tax measures will be required to finance medical care insurance due to come into effect next July 1.

Opposition members of Commons attacked the budget measures as an attempt to get out of a bad situation brought on by past fiscal mistakes.

Presenting his fourth budget in less than two years, Sharp made clear Prime Minister Lester B. Pearson's government is more concerned about inflation than about any economic slowdown that might result from tax increases. He told a news conference after his speech that a recession is inevitable if the economy continues to suffer from inflation.

The income tax surcharge will apply only when a person's basic tax exceeds $100. The maximum additional levy is $600. Single persons making less than $2,000 a year and a married man with two children earning up to $3,600 escape.

★ ★ ★

The other taxes will mean an extra 15 cents on a 25-ounce bottle of liquor, nine cents on a 24-bottle case of beer and one cent on a 25-ounce bottle of wine. All these increases are before provincial liquor commissions add their markups and provincial sales taxes.

The tobacco tax increase will mean about two cents extra on a package of 20 cigarettes, again before provincial taxes.

★ ★ ★

Sharp estimated the surtax will add $25 million to government revenues this fiscal year, and another $185 million in the next fiscal year starting April 1.

The tobacco and alcohol increases will mean $20 million more this year and $95 million in the next fiscal year, he said.

More Security With FALSE TEETH At Any Time
Don't live in fear of false teeth loosening, wobbling or dropping just at the wrong time. For more security and more comfort, just sprinkle a little FASTEETH on your plates. FASTEETH holds false teeth firmer. Makes eating easier. No pasty, gooey taste. Helps check "denture breath." Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

Children Make Record Grades

Shop Keeper Rewards Good Report Cards

CHICAGO (AP) — For dozens of children in a deteriorating south side neighborhood, report card day means a visit to Mr. T's record shop.

Mr. T is Max Tannenbaum, 48, a shop keeper who has worked what he calls "a small miracle" among the children of the area. He has induced previously uninterested, unmotivated boys and girls to compete for good grades.

A jolly, talkative man with thinning hair and a ready smile, Mr. T began about a year ago rewarding good report cards with free records.

It all started when he saw the report card of a 15-year-old boy —"a sharp kid"—who was listening to records in his shop.

It contained mostly U's and F's (unsatisfactory or failing).

"Tell you what," Mr. T told the boy. "Next time get all E's and I'll give you $5 worth of records. You pick 'em out. Is that a deal?"

It was. Ten weeks later the boy brought in a new report card. It showed straight E's (excellent).

So Mr. T put signs in each of the 18 apartment buildings on his block announcing that he would give free records for the eight best report cards brought in next marking day.

"Ever since," he said, "kids have been coming in and saying, 'Gee, I'm studying hard so I can win some records next time.' "

"The parents come in, too," he added. "They're surprised to see the kids doing their homework and bringing home good test papers."

Mr. T was surprised, too, by the response to his contests.

"I never expected it to turn out as well as it did. It really turned me on," he said.

The contests have cost Mr. T quite a few records and quite a bit of time.

"The big thing is these kids get some incentive and work up a competitive spirit—that's something there isn't much of around here," he said.

Cuban 'Freedom Flights' Beginning 3rd Year Today

MIAMI, Fla. (AP)—A daily airlift bringing a seemingly endless stream of refugees from Communist Cuba began its third year today. The "freedom flights" have brought 90,000 Cubans to the United States.

The anniversary of the massive migration operation is observed here as Cuban-American Day. A movement began to make this observance nationwide every Dec. 1.

★ ★ ★

Two airlift flights arrive each weekday at Miami International Airport from Varadero, Cuba, a beach resort frequented by American tourists in pre-Castro days.

Routinely, buses whisk the emigres to Freedom Gate, where U.S. officials process them. Then the refugees go to Freedom House to await assignment to a new home somewhere in the United States. Nearly three-fourths of the arrivals fan out throughout the 50 states, the rest remain to swell Miami's Cuban colony of some 150,000.

50,000 APPLICANTS

U.S. officials said more than 50,000 applicants—enough to keep the sky shuttle going for another year—already have been cleared for the migration and are awaiting their turn. Exiles say more than one million —one-seventh of all the people in Cuba—would like to hop aboard. That would mean another quarter century of airlifting.

During the first two years, the airlift covered enough miles to encircle the earth 16 times. There were 1,002 flights at 400 miles per round trip.

★ ★ ★

Each flight cost U.S. taxpayers $850. That adds up to $850,000.

Exiles invited President Johnson, who permitted the airlift to start Dec. 1, 1965, to ceremonies here, but he couldn't make it.

CEREMONIES

John F. Thomas of Washington, director of the Cuban refugee program under the Health, Education and Welfare Department, and Henry Taylor, State Department Cuban affairs coordinator here, will address exiles at a meeting tonight.

Miami Mayor Stephen Clark proclaimed Cuban-American Day. He said, "We hopefully pray that these inalienable rights essential to human dignity soon may be extended to all Cubans in their homeland." In schools, Cuba was the theme in music, art and compositions.

Cheerleaders to Add Negroes

KALAMAZOO (AP) — Three Negroes will be added to the Kalamazoo Central High School cheerleaders squad despite protests by students who walked out of classes last week to picket the school administration building.

The Kalamazoo Board of Education has reaffirmed its Nov. 21 decision to place three Negroes on the 14-member cheerleaders squad.

Negro representation on the squad was among the demands presented to the board by a group called "Black Action Movement."

Four Negroes were among 43 girls who tried out for the squad which was selected by a panel of teachers and parents.

Three out of the last four years there have been Negroes on the squad. Last year's captain of the cheerleaders was a Negro.

Navy Rescues 25 S. Viets

SAIGON (AP) — U. S. Navy patrol boats rescued 25 South Vietnamese Thursday after their sampans capsized in heavy seas about seven miles southeast of Demilitarized Zone.

The Navy said a group of sampans was attempting to reach the safety of the Cua Viet River when the stormy weather overturned some of them.

Two Navy "Swift" boats rushed to the scene and began picking up persons from the water. One of the Navy boats was hit by a wave and capsized. Other Navy boats moved in and picked up the U. S. sailors and the Vietnamese.

★ ★ ★

Five Americans suffered minor injuries, the Navy said.

Dogs Bite—Far Too Often

By HUDSON WILLSE JR.

With dog bites increasing at an alarming rate in Waterford Township, animal welfare officers in the community have become greatly concerned for the safety of children.

Officer Elwyn Meredith said several children have been bitten on school grounds and at school bus stops by stray dogs.

According to Meredith, dog bites have nearly tripled since school opened this year compared to a year ago.

Just last week, two pupils of Stringham Elementary School, 4350 Elizabeth Lake, were bitten by a dog which had no identification tags.

* * *

The animal was killed by a car shortly after the incident. But because it had no identification indicating it had been innoculated against rabies, animal welfare officers were posed with quite a problem.

ANTIRABIES SHOTS

One of the youngsters even began taking the painful, costly series of antirabies shots until it was proven the dog did not have the disease.

"At least 50 per cent of the dogs in Waterford are unlicensed or don't have rabies shots," said Meredith.

"State law and township ordinance state that all dogs must be confined to their owners' property or be on a leash or under responsible control," stressed Meredith.

* * *

He reminds owners that all dogs must be licensed in Waterford Township and to be licensed a rabies shot is required.

OWNER RESPONSIBILITY

"If people who have dogs would accept the responsibility of their dogs, we would not have had the problem we had last week," Meredith said.

Township animal welfare officers urge residents to report all animal bites to the police station.

"We have been called lately on a serious bite and found through investigation that the same dog has bitten persons several times without a report being made," said Meredith.

* * *

"We have found that if a dog bites once, it will bite again," added Meredith. "And through reports of bites, we can help control the problem."

WARN CHILDREN

Meredith and Officer Henry Rosner of the animal welfare department also cautioned parents to advise their children not to approach strange dogs or attempt to catch them.

"This is when they sometimes get bit," said Meredith.

Meredith said it is important for persons who have been bitten to take note whether the dog has license tags which, he added, are always brightly colored.

* * *

This way, he said, a person knows whether the dog has had its rabies vaccine.

SCHOOL OFFICIALS

Meredith and Rosner urge school representatives to notify them when they see dogs on school property.

"Through this assistance, we hope to save a lot of children from getting bit," said Meredith.

Waterford Township 1968 dog licenses went on sale today at the treasurer's office.

* *

The new rates in Waterford Township are $2 for each male and unsexed dog and $3 for a female.

DEADLINE

Deadline for purchasing licenses without paying a penalty is Feb. 29.

Oakland County 1968 dog licenses will go on sale Dec. 15 at the animal shelter, the county treasurer's office and township treasurer's offices.

Deadline for purchasing county licenses without paying a penalty is Feb. 29.

Dog owners living in all northern Oakland County communities with the exception of Waterford Township, Pontiac, Bloomfield Township, Bloomfield Hills, Troy, Birmingham, Rochester and Beverly Hills should purchase county licenses.

These eight communities issue their own dog licenses.

Here Are Tips on Terminology

Parts for Entertainment Equipment Clarified

To shop successfully for entertainment gifts, does Santa's helper need to know a module from a model, a cassette from a cartridge?

Though the technology and terminology of modern entertainment equipment may mystify the non-technically-minded, such equipment may still be well-chosen on the basis of performance, convenience, appearance and other such factors.

A little information, however can add a lot to shopping enjoyment.

The words "modular" and "module" are due to crop up often this season, since major companies have introduced new models of modular stereo systems.

* * *

The meaning is simple. In a modular stereo setup, the amplifier and record turn-table, with their controls, are together in one unit. The speakers are usually in separate cabinets, or modules, although they may also be attached to the main cabinet.

SOLID, MAN

"Solid state" is a term heard ever more frequently, as TV sets, stereo systems, radios and tape recorders turn to this concept.

In the simplest sense, solid state means "no tubes — no tubes to burn out, no tubes to replace.

Solid state and tubes may combine, as in TV sets that are solid state except for one or two high-voltage tubes.

* * *

In the field of tape players and recorders, the terms "cassette" and "cartridge" may often be discussed.

TAPE ENCLOSURES

Both cassettes and cartridges are types of tape enclosures for easier handling of tapes.

The cartridge is compact, and the cassette is even more so.

One principal difference is that the cartridge is commonly used only for listening. Cassettes can be used for recording as well.

* * *

Cartridges, frequently used in automobile tape players, have a continuous loop of tape on a single hub. The cassette is a self-contained reel-to-reel system, consisting of two hubs and tape in a tiny plastic case.

Ultrasound Aids in Diagnosis of Kidney Problems

By Science Service

CHICAGO—The use of ultrasound to detect injuries or disease in the kidney has overcome one of the most difficult diagnostic problems in radiology, a Philadelphia X-ray expert told a meeting here.

Dr. Barry B. Goldberg of the Albert Einstein Medical Center said 22 kidney tumors and 74 cystic lesions had been correctly diagnosed by an ultrasound technique called nephrosonography.

He said it was so simple to learn that several technologists already have been trained.

Elaborate procedures previously were suggested for diagnostic use, but these methods are time-consuming, costly and potentially dangerous, Dr. Goldberg said at the convention of the Radiological Society of North America.

* * *

Ultrasound is made up of sound vibrations too high for the human ear to notice. In many medical uses it is beamed into a portion of the body. Varying echoes inform the diagnostician of the kind of tissue the sound encounters.

Marked to Die

Lincoln's assassins also intended to kill Secretary of State Charles Seward.

One of John Wilkes Booth's accomplices broke into Seward's home and wounded him. He recovered, however, and kept the office of secretary of state under President Andrew Johnson.

Suicide ranks fourth among all causes of death for American teen-agers, while for the entire population it is in tenth place.

EISENHOWER GIFT — This is the home of former President and Mrs. Dwight D. Eisenhower, which has been donated, along with the surrounding farmland, to the people of the United States for eventual development as a national historic site. The gift was announced by the White House, which said the Eisenhowers will continue to live in the house and use the farm's facilities during Gen. Eisenhower's lifetime. The 230-acre farm adjoins the Gettysburg National Military Park, which includes the site of the famed Civil War battlefield.

Help Save Santa, Boyle Asks

By HAL BOYLE

NEW YORK (AP) — Help save Santa Claus!

For some years there has been an adult conspiracy afoot to dump the Jolly Old Saint in the nearest garbage can. Extremists even would like to launch an expedition northward to Santa's workshop and lynch him and his elves from the North Pole.

BOYLE

They are the people who complain Christmas has become terribly overcommercialized, has lost its real meaning, and blame it all on the big fat fellow with the white whiskers.

A lot of people are like that. Whenever anything goes awry, they tend to pick on the nearest fat guy—because he stands out in a crowd.

★ ★ ★

"We'd be better off without Christmas," they mutter, as the seasonal sound of "Jingle Bells" begins to jangle their nerves. "The whole thing has just become a big business promotion of hypocritical sentimentality."

But none of this is any reason to dismiss poor old Santa Claus as a pious fraud or a tool of capitalism.

Naturally he has his faults. In a time of overpowering conformity he remains a stubborn old-fashioned nonconformist.

No business luncheon club would admit to membership an oddball who wears a red stocking cap, red suit, and black boots.

★ ★ ★

Production-wise, his manufacturing facilities are overcentralized, since he has worldwide distribution but only one factory—and that one in a climate fit only for polar bears.

He refuses to pay tariff or customs duties and smuggles his goods across international boundaries.

DEFIES FAA

Although he flies through the skies, he never radios his flight plan to federal aviation authorities.

He goes down chimneys asked or unasked, thereby committing the arrestable offence of breaking and entering.

★ ★ ★

On the other hand, there is much to be said in favor of Santa Claus.

He is the only grownup over 30 years of age that all children still believe and have faith in.

He is faithful to his wife. He has never had a divorce or been caught in a love nest.

SAFETY RECORD

He has a perfect safety record. He has never been in a traffic accident or dented a pedestrain. You don't find many drivers like that, old or young.

The fact is that Santa Claus is the biggest Horatio Alger success story in modern history.

TRAINEE SANTAS

Get rid of Santa Claus? Nonsense! The only real trouble is that he has strength only to make but one trip a year. What we need is to find 364 eager young executive trainees to take his place on the days he has off.

Navy Expected to Hurl Aerial Barrage Against Army

Annual Grid Clash Saturday Favors Cadets

PHILADELPHIA (AP) — Navy pits its air attack and suspect defense Saturday against a well balanced Army team which is seeking the Eastern college football championship as well as its best record since 1949.

The Middies, with a 4-4-1 record against a tougher schedule than the Cadets, are counting on quarterback John Cartwright to pass them to their first victory over Army since 1963. The Cartwright to end Rob Taylor passing combination is the chief weapon of a team which has had difficulty establishing a running game.

★ ★ ★

Navy's biggest problem in this 68th of the traditional service classics is its defense. The Middies have given up an average of 26.5 points per game. Army has held seven opponents to no more than one touchdown, with only two scoring more than 10 points.

If Navy is to win its first game in the series since 1963, and cut down Army's over-all 32-29-6 edge, it will have to shore its defense against the passing of quarterback Steve Lindell and the power running of fullback Charley Jarvis.

The Middies also must contend with a hard charging Army line which has forced 25 interceptions, eight by linebacker Jim Bevans.

★ ★ ★

Navy Coach Bill Elias obviously is concerned with his defense. He has decided to send out three green players as defensive starters against the Cadets. Jim Sheppard, Shelly Buttril and Gerry Motl are being inserted into the lineup. Motl has seen 92 minutes of action, Sheppard 10 and Buttril only a minute.

NON-WINNERS

Navy people are counting on the fact that Army has compiled its 8-1 record against comparatively soft opposition. None of the Cadets' nine opponents have had winning seasons. Middie scout Steve Belichick warned, however, not to count on that phase.

"I'm not saying Army is No. 1 in the nation," said the scout, "but they're a good football team."

Army is at least a touchdown favorite to win its ninth game of the season, a feat unaccomplished at West Point since Coach Earl Blaik's unbeaten team of 1949.

Lindell has completed 66 of 122 passes for 788 yards and two TDs. He has run for another 269 yards on 63 carries, scoring three times. Jarvis of Cornwells Heights, Pa., has reeled off 764 yards on 136 carries and eight TDs. End Terry Young has caught 39 passes for 487 yards and a touchdown.

★ ★ ★

Lindell passed for two TDs in last year's game, one to Young, while Jarvis ran 49-yards for the other in a 20-7 victory.

Anchoring the Army defense are captain Bud Neswiacheny, a 210-pound tackle, and Bevans, a linebacker.

★ ★ ★

Cartwright, who lives not too far from the John F. Kennedy Stadium where 102,000 are expected Saturday, carries the big burden for the Middies. His importance in the Navy scheme is indicated by the fact that in Navy's four victories and the 35-35 tie with Vanderbilt he threw for more than 200 yards. In games where he was under 200, the Middies lost.

★ ★ ★

He's thrown 25 TD passes this season, breaking the record of 20 set by George Welsh. Taylor, his prime receiver, has caught 55 for 726 yards and six TDs.

THE PONTIAC PRESS
SPORTS
FRIDAY, DECEMBER 1, 1967 C—1

Loss of Goaltender Hampers Wings

DETROIT (AP) — An injury to goalie Roy Edwards cost the Detroit Red Wings a victory Thursday night in what turned out to be a 3-3 National Hockey League tie with the Toronto Maple Leafs.

Edwards, fell injured to the ice after Duane Rupp's slap shot struck him in the head with less than seven minutes left in the game.

★ ★ ★

Toronto's Mike Walton slid the loose puck into the Detroit goal to tie the game at 3-3. Edwards suffered a five-stitch cut on the bridge of his nose, and right eye, but it was not expected to keep him out of Sunday's game with Pittsburgh.

"Ordinarily, officials would call the play dead after a player is injured following a goalie save," said Sid Abel, Detroit manager-coach. "But Referee John Ashley was on the other side of the ice and couldn't see the play."

Because the ruling was a judgment call, Abel cannot protest the game. But he blamed a lax Wing defense, leading to two quick Leaf goals early in the first period, as the main reason for the tie.

Gary Jarrett's fifth goal less than two minutes before Walton's tying tally had put Detroit ahead 3-2.

"I was disappointed after we went ahead like that and then gave them a tie," said Abel. "But we gave them two goals in the first period. In both cases it was the fault of Marshall and Crashley."

The Leafs scored two goals in a 34-second span to take a 2-0 lead in the first period.

Pete Stemkowski got the first after taking a pass from Brian Conacher, who skated around Crashley in the Detroit zone and set up Stemkowski with a perfect pass.

Frank Mahovlich scored 34 seconds later out of a scramble in front of the Detroit net.

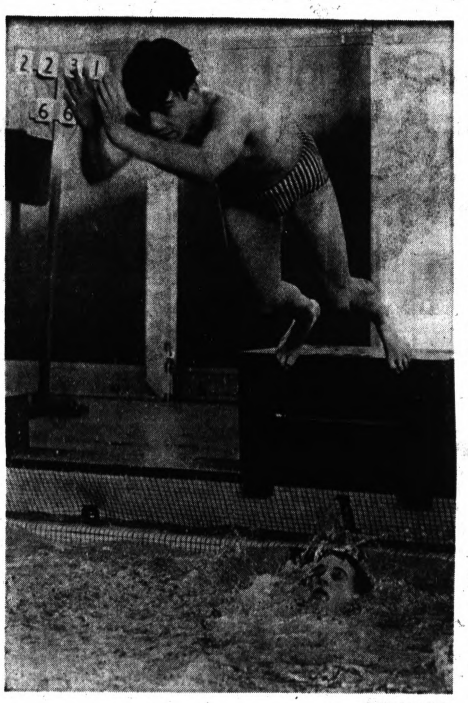

Detroit, which fired 42 shots at Leafs' goalie Bruce Gamble, fought back to tie the score at 2-2 before the end of the period.

Bert Marshall got his first regular season goal in three and one-half seasons to make it 2-1 and Dean Prentice knotted the score five minutes later when he deflected Alex Delvecchio's slap shot past Gamble. The second goal came on a power play with Detroit holding a 5-4 manpower advantage.

Pontiac Press Photo

BACKSTROKING PIONEER — Oakland University gets its 1967-68 swimming started tonight when it competes in the Notre Dame Relays at South Bend, Ind. Freshman Ed Engelhart a backstroker from Grosse Pointe is considered to be an outstanding prospect for the Pioneers, who begin their 4th season in inter-collegiate competition. This is Corey Van Fleet's third year as head coach at OU.

Pontiac Press Photo

HUSKIE CO-CAPTAINS — Pontiac Northern hopes to defend its title in the Vehicle City swim relays tomorrow and leading the returning lettermen are co-captains Gary Cotter off the starting block and Dave Pennybacker in the water. They will be part of the medley relay team for the Huskies.

DENNIS STOLTZ

Prep, Local College Tankers in Relays

Swimming on a prep and college level gets into full swing this weekend with the Royal Oak Relays, Vehicle City Relays and the Notre Dame Relays holding the spotlight.

Tonight at South Bend, Oakland University swimmers begin their 4th season of competition in the sport and their first as members of the NCAA by competing in the Notre Dame Relays.

Coach Corey Van Fleet, former coach of Birmingham Seaholm's all-state swim teams, starts his third season with the Pioneers having posted a 19-14 record at OU.

Oakland U. has a good nucleous of last year's 7-5 season, but the schedule is much stronger as well.

Rick Krogsrud, former Groves swimmer, heads the list of returning lettermen in the individual medley. The team is expected to have strength in the backstroke with freshman Ed Engelhart of Grosse Pointe and Dick Bishop of RO Dondero.

★ ★ ★

The OU swimmers will have a challenging weekend. After the Notre Dame event tonight they will compete Saturday afternoon in the Eastern Michigan Relays at Ypsilanti. They open the home dual season next Friday evening against George Williams College in the OU pool.

PREP RELAYS

At Royal Oak, the annual relays being held at Kimball pool dominate the prep attention with most county and area schools competing, led by perennial favorite Seaholm and host school Kimball.

Groves, however, considered a top challenger in the state under new coach John Wieck will be highly considered in the meet.

A total of 18 class A teams will compete in the annual relays at Kimball High with defending champion Seaholm expected to get stiffest competition from Ann Arbor, Grosse Pointe, Groves and Kimball.

Kimball won its first swim meet of the season Wednesday by defeating Fitzgerald, 58-47, with Ron Miller a double winner in the 100 and 200 freestyles.

In Flint, Pontiac Northern will be after its third straight Vehicle City Relays' crown at the Flint Junior College Durham pool.

The Huskies have co-captains David Pennybacker and Gary Cotter to lead the eight returning lettermen.

Pennybacker's best in the 400 freestyle is 4:20 while Cotter has hit 58.0 in the butterfly.

Northern begins its dual season in the intra-city splash with Pontiac Central next Tuesday evening in the PNH pool, following with a home meet Wednesday night against Livonia Stevenson.

In local dual meets, Utica is host tonight to Bishop Gallagher, while Oakland Community College swimmers from Auburn Hills visit the Windsor University freshman team Saturday night.

In a Wednesday night meet, Auburn Hills defeated Jackson CC, 53-41 with Dennis Orosz winning the 50 free in 24.1 and the 100 free in 55.3 plus a leg in the 400 freestyle relay.

Tom Hunt was also a double winner in the 200 individual medley in 2:27.1 and 200 backstroke in 2:38.4.

Resolution Asks for Navy Victory

ANNAPOLIS, Md. (AP) — Maryland's constitutional convention exhorted the Navy football team Thursday to "completely and utterly defeat" Army in the annual gridiron battle Saturday between the two service schools.

A resolution introduced by three delegates, including convention president H. Vernon Eney, noted that "there has arisen from the banks of the Hudson a potential threat to the honor and dignity of the citizens of Maryland, necessitating the elimination of such land forces . . ."

Citing the importance of "the control of the high seas and the Chesapeake Bay," the resolution offered the "best wishes and full support" of the convention to the Navy football team.

If there were any Army supporters in the convention, meeting in the state house only three blocks from the Naval Academy, they apparently felt too outnumbered to make any protest.

Ex-All County Star to Face Tomahawks

The last of a fine tradition in prep athletes at Troy High School will return to Pontiac Saturday night hoping to make life rough on the Pontiac Tomahawks.

Bud Acton — the last of four brothers to play under basketball coach Peyton Goodwin at Troy — will lead the Battle Creek Braves into their 8 p.m. encounter with the Tomahawks at Northern High School.

The 6-6, 210-pound center-forward who was an All-County star, comes into the contest as the North American Basketball League's second best rebounder.

Acton has pulled down 61 rebounds in four games in addition to posting a 20-point scoring average that puts him just outside the top 10 NABL pointmakers.

The No. 1 retrieve artist will also be on the court. Big Jim Patterson—Pontiac's 6-7, 230-pound rookie standout from Ohio — has grabbed 66 in four games.

After a poor opener, Patterson, too, has developed his scoring touch and is well up in the double figures. The Tomahawks, moreover, have another top-flight first-year man.

Slender guard Dave Gaines, 6-1 from LeMoyne College and the Harlem Globetrotters, is scoring at a 30 p.p.g. clip for three starts and is second in the league point battle.

SHARPSHOOTER

In addition, Ken Nevels has shown a sharp eye despite shooting from the outside. He ranks third in field goal percentage, making .583 on 14 of 24 and is first at the foul line, being perfect on seven charity tosses.

But Acton and his running mates — Art Crump (27 p.p.g.) and Ajac Triplett (21.5 p.p.g.) — can expect long-range scoring aid from Billy Hahn and Stan Neal who both have six three-point field goals this season.

The Tomahawks will be striving to exhibit a tighter defense against this firepower in an effort to move into a tie with the Braves for second place in the Eastern Division.

Should Pontiac prevail, both will be 2-3 in the standings with Lansing taking an unbeaten record (4-0) into its game at equally successful Grand Rapids (the Western pacesetters).

★ ★ ★

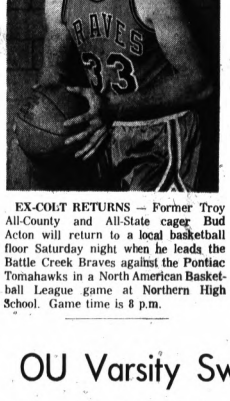

Acton was an All-County performer at Troy in 1959-60 while averaging 22.3 p.p.g. and guiding the Colts to a 13-5 mark and a berth in the state Class B quarter-finals.

★ ★ ★

Later he attended Alma and Hillsdale Colleges where he set numerous scoring marks with his jump shots. He saw limited duty with Holland last season before going to Battle Creek in a four-player trade at the start of the season.

The Braves-Pontiac contest will be preceded by an exhibition game between the Pontiac Firebirds of the Midwest Football League and the Pontiac Police Officers' Association.

That contest will begin at approximately 6:25 p.m. The game marks the Tomahawks' start of the December phase of their 21-game NABL schedule. They won't be home again, however, until Dec. 23.

EX-COLT RETURNS — Former Troy All-County and All-State cager Bud Acton will return to a local basketball floor Saturday night when he leads the Battle Creek Braves against the Pontiac Tomahawks in a North American Basketball League game at Northern High School. Game time is 8 p.m.

Alma Football Coach Picked for Top Honor in Michigan

DETROIT (AP) — Dennis Stolz, who led Alma to the MIAA football championship in his third year as a college coach, was named Michigan's small college coach of the year today by The Associated Press.

He was a unanimous choice of Michigan sportswriters who are members of the Michigan Associated Press Sports-writers Association.

★ ★ ★

Stolz, who looked on the Scots' 1967 season with "cautious optimism," may have predicted greatness of Alma in September when he said:

"The great attitude, pride and intensity of this club may be affecting my senses, but an improvement on our 5-4 record of last year, along with MIAA championship contention should be well within the realm of possibility for these youngsters."

He proved right on both counts, leading Alma to its first undefeated season since 1948 and its first MIAA title since 1951.

The 33-year-old Stolz, an all-MIAA quarterback for Alma in 1954, was an obscure assistant coach at Eastern High in Lansing four years ago when he accepted the challenge of revitalizing Scot football.

Long considered one of the weak sisters of MIAA football, Alma began a slow rise to greatness under Stoltz in 1965, winning three of eight games.

Spartan Soccer Team in Championship Tilt

ST. LOUIS (UPI) — Michigan State University has reached the finals of the NCAA soccer tournament for the second time in three years.

The Spartans blanked Long Island University 4-0 Thursday to move into the finals against St. Louis University, which got a goal with one minute to play for a 1-0 win over Navy.

Two years ago the Spartans were downed in the finals by Long Island. The game then ended in a tie but Long Island was declared the winner on the basis of corner kicks.

STRINGING ALONG — Argentina's heavyweight champion Oscar Bonavena (right) clowns with a spaghetti plate being offered him by his trainer Carlos Blanco at his Louisville training camp. Bonavena meets Jim Ellis in the city Saturday night in a heavyweight elimination bout.

Bonavena Promises Fast Finish to Fight

LOUISVILLE, Ky. (AP)—Oscar Bonavena's promise to knock out Jimmy Ellis in the second round of their semifinal bout of the World Boxing Association tournament Saturday may be partially correct — it could be a short fight.

Ellis who has used classic boxing techniques to build up a 24-5 record, has always been a fast starter, and there's been no indication from his manager Aangelo Dundee, that Ellis will do anything different Saturday.

★ ★ ★

The added ingredient that could bring the fight to a fast close is the fact that Bonavena's manager, Dr. Marvin Goldberg, says Bonavena will start fast too.

★ ★ ★

"Some people have been telling me to let Oscar start slow and let Ellis extend himself in the early rounds," Goldberg said. "But I'm not too optimistic about that.

"I want Oscar to start fast too. The first combination he lands will do the job."

ANOTHER VIEW

Dundee has a different idea about the length of the fight.

"I can visualize this fight going the route," Dundee said. "Here we have two contrasting styles, one the rough puncher, one the slick boxer. What could happen is both could nail each other early and then taper off."

Bonavena, the sturdy South American from Buenos Aires, enters the fight with a 29-3 record.

Oxford-Orion Clash, Kettering Opens

Irish 11 Feted in Full House

SOUTH BEND, Ind. (AP)—They handed Ara Parseghian the ball Thursday night but the Notre Dame football coach gave it to his players at a jam-packed banquet exemplifying the Irish winning tradition.

Notre Dame's 8-2 season of "ups and downs," was celebrated by a full house of some 1,200 supporters at $10 a plate. There were no guest speakers but Morris Frank of the Houston Chronicle served as toastmaster.

★ ★ ★

Instead of having professionals entertain the guests, it turned out to be a Notre Dame banquet for the Notre Dame football team.

"Every great operation has a great leader," said the Rev. Theodore M. Hesburgh, president of the university, "and, Ara, I would like to tell you how glad we are to have you with us."

Parseghian, who in four years has molded a 33-5-2 record and has had the Irish among the nation's top 10 teams each season, including the 1966 national championship, lauded his players.

SIX STRAIGHT

"I'm pleased with the recovery and determination of this team," said Parseghian. "We lost two of our first four games and then won the last six, three on the road. We were ranked No. 5 by the Associated Press and 4, 3, 2, and even 1 in other polls."

★ ★ ★

One of the touching facets of the dinner came when outgoing captain and halfback Bob Bleier went to the microphone on crutches to hand over the traditional shillelagh to incoming co-captains Bob Olson and George Kunz.

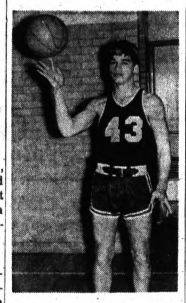

Bleier, who underwent a knee operation prior to the final victory over Miami of Florida, called it a season of "ups and downs" as he apologized for not being able to lead the Irish to a second straight national championship.

★ ★ ★

However, he thanked his fellow outgoing seniors for not letting down and helping lift the underclassmen to six straight victories following losses to Purdue and Southern California.

★ ★ ★

Several graduating seniors who never had earned game balls were awarded autographed balls by Parseghian, who noted their individual achievements.

Pontiac Press Photo

DELICATE TOUCH — Obviously not a typing student, Oxford's Darrell Marsh sometimes uses the one finger method for control. One of the few Wildcats with varsity experience, he and his mates will visit Lake Orion tonight for their season hoop debut.

Captains Face N. Farmington; Dragons Home

Other Prep Quintets Ready to Get Season Started Tonight

When the whistle blows to start a high school basketball game, many a coach has seen a sudden, shocking transformation in some of his players — particularly the younger ones.

★ ★ ★

Often it has been a disappointing experience for both the mentor and the player. Coach Joe Duby of Kettering hopes the change will be in the opposite direction tomorrow night at North Farmington.

After two regular seasons in which the Captains only lost one game, the youthful WKHS coach has a thorough turnover in talent and many new faces will appear in the lineup.

The trend is reflected by the fact Duby has seven names he's jockeying to determine the starters. Only 6-2 letterwinner Pete Evans is sure of a spot and he could rotate from forward to guard to center depending upon the maturing of his running mates.

★ ★ ★

Nor is Duby sure the Captains will be a "running" team. The WKHS quintet's style will be regulated by the game situation and the players in the lineup.

Others who'll see action are 6-3 junior Dave Powell, sophomores Butch Mondy and Rick Colona, and seniors Bob Lines, Joe O'Connor and Gene Pankner.

EXPERIENCED

North Farmington has a veteran crew returning led by Rick Knock, Ron Flutur and Mike McCoy. Jim Benya (6-4), Joel Comstock (6-6) and John Mann (6-3) are dueling for the pivot berth.

★ ★ ★

The Raiders have been consistent trouble for WKHS, especially on their home floor. Last year they bowed by four points (in overtime) and five points, and the year before they were one-point losers on their own court.

The game will be the opener for both squads. Also starting new seasons will be Oxford and Lake Orion on the latter's court.

Making their second starts in nonleague affairs will be Romeo (entertaining Lapeer), Birmingham Groves (host to Cranbrook) and Seaholm (at Port Huron).

★ ★ ★

Orion will plunge into the campaign with high hopes for a winning season. The Dragons' hopes are raised by an unusual abundance of tall players, particularly Gary Mize (6-7) and Bill Foss (6-5).

★ ★ ★

Oxford, conversely, will be short and missing the scoring punch of previous seasons.

Groves could have trouble with Cranbrook but the Falcons should have just enough to extend their regular season victory skein to 35. Lane Brown (6-5) is the Falcons' key performer.

Seaholm had trouble scoring last week in its opening loss to Groves and the Maples will be underdogs against the host Big Reds who have height, experience and scoring.

★ ★ ★

Romeo caught Marysville by surprise in its opener Tuesday, and should have no trouble with Lapeer even though the invading Panthers will be more aware of the Bulldogs' power.

College Quints Tip-Off Big Schedule Tonight

By The Associated Press

Louisville, Princeton and Davidson, three of the nation's top ranked teams help usher in the college basketball season officially tonight, but most fans are looking ahead to the UCLA at Purdue game Saturday night.

★ ★ ★

UCLA, with towering Lew Alcindor back as a junior, was an unanimous choice in the preseason Associated Press poll to again win the national collegiate championship.

★ ★ ★

The big question with most fans is: How many games can UCLA win in a row? The Bruins went unbeaten last season and will be after their 35th straight against Purdue.

The game marks the opening of Purdue's new 14,500-seat arena on the campus at Lafayette, Ind., and is in the nature of a homecoming for Johnny Wooden, UCLA coach.

★ ★ ★

A native of Martinsville, Ind., Wooden played basketball at Purdue and coached at Indiana State before going to UCLA where his teams have the national championship three times in the last four years.

PRESEASON POLL

Louisville, ranked third to UCLA in the preseason AP poll, opens at home against Georgetown, Ky. Princeton, ranked eighth, also opens at home against Army as does Davidson, No. 10, against Bucknell.

★ ★ ★

Louisville and Princeton, although playing under new coaches John Dromo and Pete Carril, respectively, are favored to win, but the Davidson Wildcats are a question mark.

★ ★ ★

The wildcats beat out Indiana and Tennessee by a narrow margin for the last spot in the preseason Top Ten on the strength of reports they have their best team since Fred Hetzel.

Southern Illinois, the NIT winner last year, will play its first game as a major power at home against Sam Houston State.

Forfeits Help WKHS Matmen; Township Wins

Helped along by three forfeits that yielded nine points, Waterford Kettering opened its wrestling season with a 30-26 victory over Rochester.

Waterford Township was more convincing in its 32-11 triumph over Utica.

Rochester was forced to forfeit three matches because it lacked personnel of the proper weight.

WELCOME OVERBOARD — Spud II is trim and Kevin Downes and Peter Dodd are strictly wet. But this pair went on to win this race and trimmed the fleet in the state sailing championships at Perth, Australia.

M-UD Play Monday

State 5's Open Slates

The four major college basketball teams in Michigan take to the courts this weekend, and the big game will take place Monday night at the U. of D. Fieldhouse where the Titans play host to the Michigan Wolverines.

★ ★ ★

Tonight, Michigan State takes the wraps off a veteran lineup along with two junior college transfers in entertaining California State of Fullerton, Calif.

Saturday afternoon at 1:30 Michigan will show off its heralded sophomore Rudy Tomjanovich of Hamtramck as the Wolverines play their first game in their new fieldhouse to host the Wildcats of Kentucky.

★ ★ ★

At U. of D., tomorrow night, the Titans will open against Aquinas College of Grand Rapid Rapids which has former Aquinas College of Grand Rapids which has former Brother Rice all-county star Paul Jaegels of Rochester as its leading scorer.

Western Michigan has state rival Central Michigan as its opponent in Kalamazoo Saturday night and the Broncos will be out to avenge last year's 77-76, double overtime loss to the Chips, who have now won three straight from Western.

Michigan State will show off two outstanding transfer students Bernard Copeland and Harris Stepter from Moberly, Mo., junior college, the same school which sent Matthew Aitch and Shannon Reading to MSU in previous years.

★ ★ ★

Copeland is a 6-6 forward who lives in Inkster.

Coach John Benington will have 6-10 Tom Lick at center, will herald Lee Lafayette, 6-6 and John Holmes, 6-4 in the lineup.

★ ★ ★

U. of D. has its entire starting lineup back from last year and this is coach Bob Calihan's 20th year as coach.

★ ★ ★

The Titans have a big and colorful home schedule this year, after an exhausting road schedule last year.

The game against Aquinas Saturday night and Michigan on Monday night will start at 8:00 p.m. in the U. of D. fieldhouse.

Central Michigan, which posted a 23-3 record last season, is led by 6-foot guard Willie Iverson, a small college All-America selection last year.

★ ★ ★

Central is again being considered among the top small college powers.

★ ★ ★

Eastern Michigan, with former Pontiac Central player Jesse Evans in the lineup, is host to Michigan Tech Saturday night. Michigan Tech is at Wayne State tonight.

Golf Lead Shared in Bahamas Meet

WEST END, Bahamas (AP) — Butch Baird of Carlton Oaks, Calif., and Bob Watson of the Wykagyl Club, New Rochelle, N.Y., shared the first day's lead in the $20,000 PGA West End Golf Classic Thursday. Both carded 67s.

★ ★ ★

A field of 92 pros and 13 amateurs teed off in warm, sunny weather.

★ ★ ★

Eight pros scored 70 or better. Seventeen were grouped at 71, including Charles Sifford, Jimmy Demaret, and Tom Nieporte.

40-Year Lease Given

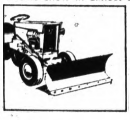

CINCINNATI (AP) — The Cincinnati Bengals, the city's new American Football League team, officially agreed to a 40-year lease to use the Riverfront Stadium here slated for completion in 1969.

Simplicity

Landlord 2110 makes short work of drifts Safe, too!

You're finished in no time on a powerful Landlord 2110 riding tractor. Rotary snow thrower attachment cuts a yard-wide swath — throws snow in almost any direction. Safe and easy — special clutch lever can be engaged and disengaged from sitting position. Or you can push snow away with a 46-inch snow plow attachment. But whether you throw snow or push it, Easy-Spin starting gets you going fast. Controlled traction and 10 big horses keep you going. Other attachments make the Landlord a year 'round work-saver.

Snow Machines Operate at 3 Pontiac Area Slopes

The cold air and snowflakes spicing the air are giving skiers the itch to head for the slopes and Pontiac area resort owners are gladly encouraging the trend.

Prospects call for skiing today and during the weekend, at least, at Mount Holly, Pine Knob and Alpine Valley. No reports have been recieved from Mount Grampian and Mount Christie.

★ ★

Mount Holly owner Mort Graddis reports that at least half of the intermediate slope is covered and was slated to be open by 3 p.m. today. Tomorrow and Sunday the resort will operate 9 a.m.-11 p.m. weather permitting.

With only the intermediate slope open, there will be a limited area tow rate in effect at Mt. Holly.

Pine Knob and Alpine both planned to begin making snow last night and will be in business Saturday morning if the cold temperatures remain through the weekend.

With the weatherman's cooperation, Pine Knob's vast snowmaking capability could enable it to have most of its area open for skiing by tomorrow afternoon.

★ ★ ★

Skiers are advised that the weather is a definite factor in the resorts' plans and advance telephone confirmation is recomended to avoid disappointment.

Spartans' Quintet to Face Transfers

EAST LANSING (AP)—Michigan State opens its basketball season Friday night against California State College of Fullerton, a team loaded with junior college transfers.

The 13-man CSC roster has eight junior college transfers, four of them scheduled to be starters, including Ron Hughes a 6-9 center, will be jumping against Tom Lick, the 6-10 Spartan center.

Michigan State also has two junior college transfers expected to see early action, both from Moberly, Mo. Bernie Copeland is a 6-6 forward and Harrison Stepter is a 6-2 guard.

Also supplying height for MSU will be Lee Lafayette, 6-6, and John Holmes, 6-4, both guards.

Lakeland Six Plays Sunday

The Lakeland Hawks' juvenile division entry in the Southeast Michigan Hockey Association will attempt to climb above .500 Sunday morning at Port Huron.

The Hawks will tangle with Warren's sextet at 9 a.m. following the Lakeland bantams' 8 a.m. outing against Fraser.

Wednesday, the Royal Oak A unit dropped the Hawks' record to 2-2 with a penalty-filled 5-1 decision. Bruce Strohn netted the lone tally for Lakeland.

Stroke Suffered by Bo Wininger

OKLAHOMA CITY (AP) — Bo Wininger, Las Vegas, Nev., professional golfer, was in an Oklahoma City hospital Thursday after suffering what his doctor described as a light stroke. He is in the intensive care unit.

Wininger, a former Oklahoma State University golf star, has been director of golf at Las Vegas' Desert Inn Country Club since 1963. He turned pro in 1952 and made his home in Oklahoma City before taking the Las Vegas job.

Texan Blazes Cajun Tourney

Montgomery Leader by Three Strokes

LAFAYETTE, La. (AP) — Jack Montgomery went into the second round of the $35,000 Cajun Classic Golf Tournament today with a three-stroke lead.

The bespectacled Texan, one of 91 players to shoot par or better Thursday, blazed a trail of birdies in carding an eight-under-par 31-33-64 over the 6,550-yard Oakbourne Country Club layout. He missed only two greens and needed 28 putts. The course played extremely short because of a month-long drought.

★ ★ ★

Deadlocked for second place with 67s were Jack Burke, the greying onetime Masters and PGA champ who is an infrequent tourist these days, and four victory-hungry youngsters — John Lotz, Laurie Hammer, Jim McPhate, and Marty Fleckman, who recently turned pro after leading the third round at the U.S. Open as an amateur last summer.

The field will be cut to the low 70 and ties after today's round.

Jack Montgomery	31-33—64

Coach at 'M' Banquet

'No Comment' From Bump

DETROIT (AP) Bump Elliott's finest hour may also have been the preview of his worst.

The Michigan football coach, under fire from alumni because of the poor showing of Wolverine teams this year, became the object of adulation Thursday night at the annual Michigan Football Bust in Detroit.

* * *

The 42-year-old coach, who has guided Michigan teams to an uninspiring 43-40-2 mark in the past nine years, declined to speculate on reports that powerful alumni groups were boosting Iowa Athletic Director Forrest Evashevski for the dual role of coach and athletic director at Michigan.

"I have not been appraised of the situation," Elliott, considered a candidate to succeed retiring Athletic Director H. O. "Fritz" Crisler himself, said. "I have no comment."

Crisler, who set up a committee of faculty, alumni and administrative people to name a successor by early January, retires Jan. 1. He has declined to comment on the situation, and has made no move to make a personal recommendation.

Evashevski, who denied any knowledge of an alumni campaign in his behalf Wednesday, did not show up at the banquet. However, he demurred when asked if he were interested in the Michigan jobs Wednesday.

Two former Michigan football greats, Bob Westfall and Ed Frutig, are co-chairmen of the Alumni for Evy Committee and say Evashevski is willing to take over the football job and athletic directorship by next fall.

They are planning a nationwide campaign to replace Elliott as coach and move Evashevski into the dual role as coach and athletic director.

ASSISTANT'S POST

Speculation, at the banquet indicated Elliott might find a niche as assistant athletic director.

Each Michigan player introduced at the banquet lauded Elliott as a "gentleman and coach" while accepting the traditional M ring.

Particularly eloquent was Dick Vidmer, former first string quarterback replaced by junior Dennis Brown at mid-season.

Vidmer spoke of the pressure which affected the whole team during a five - game losing streak early in the season.

"The pressure never effected Elliott," said Vidmer. "Even when I wasn't playing, he came up to me after every game and told me how much the team needed me."

Vidmer spoke of a particular defeat during the losing streak. "It didn't matter which game," said Vidmer, "but Mr. Elliott apologized to the team and assumed the blame for making the wrong decision."

* * *

Vidmer said he came to Michigan primarily because of Elliott's honesty. He told of discussing with Elliott his quandry between choosing Michigan and the Air Force Academy.

"He told me that Michigan could not offer the military background that the academy offered, and had only an ROTC program, which could not compare with the military school," said Vidmer. "I never came across this kind of honesty in other recruiters."

New Grid Coaches Join 'Fraternity'

By DUFFY DAUGHERTY
Head Football Coach
Michigan State University

When you've spent more than half your life in college football it's a great thrill to see the influx of aggressive young men who have joined the fraternity of head college coaches.

We've had a record rookie crop of 18 new coaches at major colleges this season. Most of them have learned first hand about the demands of a highly competitive profession. Three of them have come up as winners.

* * *

They are Chuck Fairbanks, 33, who took over at Oklahoma only last May following the death of Jim Mackenzie; Red Rust, 38, of North Texas State, and Tom Beisture, 36, of Holy Cross.

If the Crusaders turn back Boston College Saturday, Boisture will have completed a 6-4 season.

FORMER SPARTAN

Fairbanks a former Michigan State end, has put to good use the knowledge gained last year when he became the Sooners' defensive backfield coach.

Chuck's team has allowed only seven TDs in nine games and leads the nation's major colleges in defense against scoring with a 6.0 average. His Big Eight champion has a 8-1 record and will put high scoring Tennessee to the test in the Orange Bowl on New Year's night.

Red Rust left an assistant's job at Stanford only last January and his North Texas Eagles finished with a fine 7-1-1- record, including 4-for-4 in the Missouri Valley Conference.

A former Iowa State athlete, Rust comes naturally by his coaching talents. His dad, Orville, for many years served as a fine high school coach around Cedar Rapids, Iowa.

Tom Boisture took over only last March at Holy Cross. A Detroit native, he has outstanding credentials, have been a two-way guard at Mississippi State. He has worked under such excellent coaches as Darrell Royal, Murray Warmath and Bill Yeoman. In fact, Boisture and Fairbanks were assistants at Houston.

OLDER BROTHER

Tom's older brother Danny, a former Spartan aide, just completed a 6-3 season — his first — at Eastern Michigan, a team in the college division.

Such first year winners as these figure to be around for a long time. They have brought to the game enthusiasm, hustle, imagination and new ideas.

Add Joe Paterno, 49, of Penn State; Carm Gozza, 36, of Yale; Eddie Crowder, 35, of Colorado; John McVey, 35, of Dayton and Yeoman, 39, of Houston and you can see the college game is in good hand

All became winners this season. Paterno says the East is making a football comeback but his coaching had much to do with Penn State's 8-2 record that has him at 13-7 for two seasons.

* * *

As one of Rip Engle's top aides, Paterno for many years was recognized by fellow coaches as an astute teacher. His team lost two of its first three games by a total of three points but the Nittany Lions ended with seven straight.

They figure to make things interesting for Florida State in the Dec. 30 Gator Bowl at Jacksonville. Joe's brother, George, coaches the Merchant Marine Academy, team at Kings Point, N.Y.

Cozza, a former Johnny Pont aide, led Yale to the Ivy title and after three seasons his Eli record is 15-12.

ONE OF THESE BOLENS SNOW CASTERS IS JUST YOUR SIZE

WHICH ONE

Bolens makes a complete line of snow casters—a model for every snow handling job. And every model is loaded with features. Fact is, Bolens packs in more features as standard equipment than any other manufacturer offers as optional. Whether you have a city lot or suburban spread, one of these Bolens snow casters will match your requirements.

BOLENS LAWN KEEPER the most maneuverable unit ever built, has Center-pivot steering, 6-hp rear-mounted engine, and a 36 inch steel snow blade that makes the Lawn Keeper ideal for snow removal.

BOLENS ARTIC 60 SNOW CASTER Rugged 6-hp winterized engine. Two forward, 2 reverse speeds, separate clutches for rotor and drive. A 26-inch rotor casts 2,500 lbs. of snow per minute. ELECTRIC STARTING (optional) Plug into 110-volt outlet for easy winter starting.

BOLENS ESTATE KEEPER Most advanced compact tractor on the market. Two-section frame puts operator ahead of engine noise and exhaust. Unobstructed view of front-mounted attachments. Snow attachments include 38-inch blade and 32-inch snow caster. Fast-Switch, Direct Drive Attachment System powers a variety of attachments for year 'round use.

BOLENS HUSKY TRACTORS 7-hp to 12½-hp. Fast-Switch Attachment System. Direct-drive PTO (no belts) supplies power to attachments. Controlled differential adjusts to nearly straight axle drive for ice, snow and mud. Snow attachments include 42- or 54-inch blade, 32-inch, 36-inch and 42-inch snow casters.

Hawks Thump NBA Rockets

Small Cager Scores 34 to Lead St. Louis

By The Associated Press

Lennie Wilkens seldom is high scorer for the St. Louis Hawks of the National Basketball Association, but the former star for the Providence College Friars usually is thereabouts.

The 6-foot-1 star threw in 34 points to pace the Hawks over the San Diego Rockets 129-87 in the only NBA game scheduled Thursday night.

* * *

Denver beat Houston 98-92 and New Orleans drubbed Oakland 141-119 in the American Basketball Association. The other scheduled ABA game, Anaheim at Pittsburgh, was postponed because of a snowstorm.

The road victory for St. Louis widened the Hawks' lead in the Western Divison of the NBA to one game over San Francisco and set up a battle for first place when they play the runner-up Warriors tonight.

The Hawks took an early 19-point lead and had little trouble against San Diego as they ended a two-game losing streak. Dave Gambee led the Rockets with 20 points.

Polaris... built with confidence, sold with pride!

By JERE CRAIG

Advertising salesman Frank Benning left the pressure-filled job he had six and a half years ago for the long hours of the bowling business and he's still happy about the decision.

In the spring of 1961 Frank and Ida Benning took over the Land-O-Lakes bowling establishment along Highland Road near the Crescent Lake Road intersection.

At about the same time, they entered into a partnership with Huron Bowl backers Joe Bonfiglio and Dominic Mazza to build Airway Lanes that summer on the property behind the 10-lane Land-O-Lakes site.

The constructin began in June and the Bennings welcomed their initial customers the day after Labor Day that same summer.

★ ★ ★

Seeing the modern 40-lane establishment develop into a reality in a 90-day span is rated their biggest bowling thrill by Ida. Saturday and Sunday Airway's facilities will be host to the final weekend qualifying for this year's Pontiac Open Championships.

The clean, neat atmosphere has prospered steadily for the Bennings and their partners. Moreover, the key personnel hired when the establishment opened have remained on the job.

While the Bennings emphasize bowling as a family sport, they don't insist upon this approach to the business. Son Gary (20) bowls regularly and works parttime as a mechanic.

Teen-age daughter Patricia, however, has enough school-related duties to limit her participation strictly to open bowling and a minimum of work at the establishment.

Frank admits to enjoying the chance to meet "an awful lot of real wonderful people. A good crowd comes to this type of place," he adds.

Hopefully, they will come in record numbers this weekend, ready to try for some of the more than $2,000 guaranteed prize money in the Pontiac Open.

SPARE PINS

Pontiac Woman's Bowling Association secretary Gen Bradley has announced a week's extension of the deadline for the annual City Tournament. Entries now must be in by midnight next Saturday.

The women will compete beginning early in March at Sylvan Lanes.

Veteran local bowler (and Pontiac Open Actuals Invitational champ in 1965) Bill Johns remains out of action following a gall bladder operation last home but won't be back on the firing line for 6-8 weeks.

line for 6-8 weeks.

Two women's teams at 300

Jockey Gets 5 Wins

PAWTUCKET, R.I. (AP) — Jockey Mike Carrozzella of Meriden, Conn., booted home five winners, including Achill Island, $14, in the $5,000 Valley Falls Purse, at Narragansett Park Thursday.

Area Bowlers' Last Chance

Final Qualifying Listed for Pontiac Open

Bowlers at seven sites will pull out all stoppers in an attempt to qualify for the rich Pontiac Open Bowling Championship which concludes its qualifying Sunday.

By Sunday night an estimated 400-500 bowlers will have reached the major part of the tournament — the semifinals, Dec. 10 and finals Dec. 17. They need only to hit the target 600 total to reach the tournament proper.

With the big $1,000 added prize and handsome trophy awaiting the champion of 1967, bowlers will start qualifying at most houses on Saturday and continue through Sunday night.

Huron Bowl leads the parade of entries which are well on their way to reaching a record total this year. Highest total in the past was the 1238 hit in 1963.

BIG PRIZE LIST

Prizes of $600, $400, $300 and 250 await the top winners behind the $1,000 winning of the champion.

Airway Lanes, which enter qualifying for the first time, 300 Bowl, Lakewood Lanes, Cooley Lanes, Howe's Lanes and Fairgrounds all expect full squads.

★ ★ ★

In the Team N'Match feature, 5-bowler teams are shooting for the 3,180 total posted two weeks ago by the 300 Bowl team, and in the Mix N'Match doubles, the duo of Rose Pattison and Karl VanDeMoortell hold the lead with 1287.

These are the squads at the various houses. In several instances, the entries names were not available as of last night, however any open spots are denoted.

HURON BOWL

Sat., 1:00 p.m. — Dan Moody, Odie Miller, Ronnie Collins, Raymond Brancheau, Virginia Brancheau, Rolf Walter, Maynard Slater, Frank Garza, Ron Lundy, Jess Harl, Clare Johnson, Howard Earnest.

Sat., 2:30 p.m. — William B. Johnson, Art Harrison, Bonnie Kuzak, Tony Carr, Robert Aldrich, Jack Smiddy, Ben McKerricher, Lee Smith, Gernith Flanigan, Bud Cullens, Ray Bush, Tony Piachta, Hal Cirilla.

Sat., 4:00 p.m. — Vernon Hovis, Mathew Studenski, Lee Luenberger, Richard Slade, Marvin Copenhaver. (Open for re-entries.)

Sat., 5:30 p.m. — Edwin Thrasher. (Open for re-entries.)

Sat., 7:00 p.m. — Betty Rinderknecht, Eleanore Reene, Alfred Smith, Allen Hansen, Richard Primeau. (Open for re-entries.)

Sun., 10:00 a.m. — Jackie Lane, Tom Mayes, Leo Stamas, Marge Romanelli, Glenn Reynolds, Mike Kachanuk, Leo Nuforowski, John VanHook. (Open spots.)

Sun., 11:30 a.m. — John Stoddard, Charles Rigney, Irv Lohr, Dan Lohr, Marvin Landry, Andrew Noell, Gary Stearley, Robert Delongchamp. (Open spots.)

Sun., 1:00 p.m. — Frank Everett, Max Seile, Robert Bender, Cheryl Pointer, Fran Durso, Michael Schoch, Garry Bender, Bruce Gibson, Tim Kaul, Paul Gibson, Fran Bertram, Mark Bowers, William Hoose, Leona Hoose, Marvin Leech, Willard Hershey, Jack Brown, John Farnsworth.

Sun., 2:30 p.m. — Theresa Joyce, Chris Rochon, Charles Wood, Marilyn Wood, John Hagling, Chuck Ross, Lester Soldan, Jack Overbaugh.

Sun., 4:00 p.m. — Dorothy Drumm, William Marsino, Danny Wodd, Richard Romps, Marge Curtis, Ann Cadek, Sirete Neighbors, Olga Carpenter, Richard McIsaac, Herbert Allen, Marlene Allen, Melvin Noeker, Edward Rey, Gordon Bickner. (Open spots.)

BOWLING

There was a bowling resurgence last Friday on two fronts in Pontiac.

Jerry Perna, who annually has at least one of the leading series efforts in the local area, hit his peak for the current season with a 246-221-255—722 at West Side Lanes in the Automotive League.

This put him third on the list of 700 series reported in league action this fall.

The other return to form was at Huron Bowl where the Classic League men turned on the scoring machine for a 700, 20 series of 600 or better and 11 games of 245 or better.

A substitute led the way. Ray Keith filled in on Jim's Standard Service squad and posted a 246-201-254—701, his first sanctioned 700.

Bill Bull of the Moose Lodge had 269—683 to maintain a sparkling 209 average. Also at 683 was Bill Kirkland who had 245-246 for Pontiac Janitor Supply.

TEAM EFFORT

Making the night even more impressive, Cooley Lanes' team registered a 3,045, Twin Pines Dairy a 3,033 and Veterans' Disposal at 3,025.

The janitors came back Monday night at West Side for a 1024-1018-1016—3058 performance in that classic. Oakland Vending matched their 1024 and Atlas Market had a 1022 as Perna came through with a 246 game to nip Larry Pulanecki by one pin and Mike Stone and Joe Gavie by a pair for the best game honors.

Joe Foster of PJS had a 684 to take series honors easily. There were 22 series in the 600 category.

That same night at Wonderland, the Masters men were paced by Dave Eby's 247-221—670 as 64 games of 200 or better were rolled. Ron Hammer was next best with 219-236 — 636. Sportsmen's Bar now leads the race by less than a petersen point.

Saturday Ins & Outers
HIGH GAME — Lerue Campbell, 231. SPLIT CONVERSION — Vi Horton, 6-7.

MONTCALM BOWLING CENTER
Monday Northside Community Men
HIGH SERIES — Henry Doebler, 214-210—668 (Also Century Club patch); Rusty Lund, 205-217—619. HIGH GAMES — Jerry Zubelik, 268 (600); Richard Manning and Claude Smith, 234 each.
Saturday Marimont Mixed Baptists
HIGH GAME AND SERIES — Arnos Vaught, 230—621.

AIRWAY LANES
Tuesday Nite Owls
HIGH SERIES — Betty Boucard, 214-541; Margaret Gerbutt, 532. HIGH GAME — Barbara Purdy, 231.
Tuesday Afternoon Queens
HIGH SERIES — Jean Ward, 514; Florence Arts, 507. HIGH GAME — Marie Armstead, 200. FIRST PLACE TEAM — Now & Then.
Monday Sunnyvale Chapel Mixed
HIGH GAMES AND SERIES — Eldon Eroh, 209-227—626.
Monday Airway Comets
HIGH SERIES — Ann Robak, 605. SPLIT CONVERSION — Frank Novak, 6-7.
Monday Ladies "B" Doubles
HIGH GAME AND SERIES — Velma Gruber, 205—587; Judy Golladay, 533.
Monday Merry Mixers
HIGH SERIES — Nan Castro, 520. HIGH GAMES — Tom Schlegel, 231; Nancy Leonard, 215.
Sunday Evening Outlaws
HIGH GAMES AND SERIES — Willard Girvin, 244—606. Bill Vance, 222.
Saturday Fun-Niters
HIGH GAME AND SERIES — Doug Utter, 241—627; Mary Lou Caswell, 622; Kathy Beardsley, 222.
Friday Pontiac Motor Men
HIGH GAMES — Terry Detord, 217; Ken Hodges, 213; Bob Forge, 211; Merald DeRousha, 204.

COOLEY LANES
Wednesday Senior House Men
HIGH GAMES AND SERIES — Bob Scheuer, 218-621; Hugh Findley, 254-209—653; Bob Chamberlain, 240; Joe Morys, 218-223—680; Frank Durmen, 220-203—625; Bob Leibler, 235; Gordon Krause and Bob M. Evans, 233 each; Sid Jankovic, 231; John Nowakowski, 225-221—659.

FAIRGROUNDS BOWLING
Monday G.M. Proving Grounds Men
HIGH SERIES — John Jenson, 245—607. HIGH GAME — Cliff Shetler, 278 (Century Club Patch).
Monday Nite Mixed

LAKEWOOD LANES
Sunday Nite Pinspillers
HIGH GAMES AND SERIES — Owen Collins, 235; Kathleen Little, 210—547; Margaret Grisentrop, 203—517.

HURON BOWL
Monday Morning Blind
MOST PINS ABOVE AVERAGE — Ray Wadley (145 average), 173-167; Jim McCall (143), 66-67; Dale Vanzo (110), 168-122. TEAM POINTS — Mrs. Lohr's and Mr. Long's, 30 each; Mike Maxwell's, 28.

Bible 5 Rallies, but Falls Short

Detroit Bible College had a cold first half and a sizzling second half, but still lost a 97-83 decision to Grand Rapids JC yesterday.

Shooting only 18 per cent in the first half, the Bible school led by Pontiac's Bud Pressley hit close to 60 per cent in the second half, but could not overcome the 60-29 halftime deficit. Pressley hit 39 points in the game, with John Outlaw adding 27.

WATER HAZARD — A heavy overnight rain turned the semifinal match of the NCAA soccer tournament in St. Louis yesterday into a mud bath for the teams. A St. Louis player slides through the mud trying to take a kick at the ball in a match against Navy. St. Louis won, 1-0.

Countercharges Heard at Major Loops' Session

MEXICO CITY (UPI)—Those formerly fine relations between major league players went phf-f-f-t today with each side accusing the other of "lying."

Angered over the charges made by Maryin Miller, executive director of the Majors that the owners had given his group the brushoff and failed to keep an appointment, Paul Richards, vice president of the Atlanta Braves, said bluntly:

"Somebody's lying and I don't think it's the owners. If this guy (Miller) continues his tactics, we'll just have to get in the gutter with him."

Miller had claimed at an afternoon news conference Thursday that the owners had repeatedly postponed meetings with his group throughout the year, including the latest one Thursday, and had turned down request to meet here because they were "too busy."

Among the improvements the players are seeking a minimum salary of $12,000 compared to the present $7,000 minimum.

Several player deals were made Thursday, with the Los Angeles Dodgers dealing outfielder Lou Johnson to the Chicago Cubs for infielder Paul Popovich and outfielder Jim Williams, and the Cincinnati Reds sending righthander Sammy Ellis to the California Angeles for Kelso and Jorge Rubio.

★ ★ ★

The New York Yankees purchased light-hitting shortstop Gene Michael from the Dodgers, who aslo asked waivers on veteran infielder Dick Schofield for the purpose of giving him his unconditional release. The St. Louis Cardinals are said to be interested in Schofield.

★ ★ ★

The Boston Red Sox also traded rookie owner Bill Schlesinger to the Chicago Cubs for pitcher Ray Culp.

Medical Confab Slated

MEXICO CITY (AP) — The Mexican Federation of Sports Medicine announced Thursday night that the 17th World Congress of Sports Medicine will be held here Oct. 6-9, just prior to the 1968 Olympics.

College Junior Wins Masters Bowling Title

PARIS (AP) — Jack Connaughton headed back to his classes at La Crosse, Wis., State University today after capturing the International Masters Bowling Championship.

★ ★ ★

The 21-year-old junior from Oconomowoc, Wis., won the prestige amateur title Thursday night by defeating Kazuo Hayashi of Japan 195-172 in the one-game title match.

★ ★ ★

Connaughton's victory over the champions of 29 nations gave the United States its second straight title. John Wilcox of Williamsport, Pa., won the event last year in London. Lauri Ajante of Finland won the initial Masters in 1965.

Connaughton finished first in the semifinals Thursday to earn a certain berth in the title clash.

★ ★ ★

Hayashi, a 31-year-old contractor, finished fourth in the semifinals and had to whip France's Rene Ferrie 213-179 and Italy's Lino Braghieri 243-168 to get his shot at Connaughton.

★ ★ ★

Braghierei, a Milan salesman, finished third and Ferrie a Paris baker, was fourth.

Plan for Preventing 'Kids in Trouble' to Be Offered

By BOB WISLER

A systematic approach to spotting "kids in trouble" and preventive steps to help them before they are in difficulty with law agencies will be offered to several social agencies and private groups Wednesday.

A meeting has been arranged by the city's youth assistance department and the Pontiac school district's child accounting department.

Officials from the two departments are hopeful they can set in motion an inner-city interagency committee with handpicked "action teams" concentrating on specific target areas where juvenile behavior incidents are highest.

The approach is new, according to George P. Caronis, the city's youth assistance coordinator.

★ ★ ★

Caronis believes there will be no extra expense. The cost of preventive action is especially inexpensive in comparison with the costs of detention — often necessary when a youth has strayed too far from the path, he said.

$3,500 PER YOUTH

It costs taxpayers about $3,500 per year for each youth kept in a juvenile home, he said.

"A preventive program is far less expensive than a penal program in later years. Prisons these days cost more than $25,000 per cell," he said.

Caronis said the interagency program proposed will attempt to reach potential delinquents before they come into contact with the law and juvenile court.

★ ★ ★

This will mean concentrating on those 14 and under," he said. "By the time they get to be 16 or 17 they have developed a pattern and often we're too late to offer any real help," he added.

WORK 11-13 OFFENDERS

While juvenile offenders 14, 15 and 16 come to the attention of Pontiac police more often than other age groups there is an increase of juvenile offenders 11 to 13, he said.

Other indications of an immediate need for more systematic and intensified approach toward youths before they reach the law are:

- Of 1,500 cases serviced by the youth assistance department since 1961 less than 20 per cent have received additional special services.

★ ★ ★

- There is a growing increase in the number of school truancy cases and the number of "home incorrigibility" cases.
- A recent Supreme Court decision that calls for juveniles to have the same legal protections as adults (right to be provided legal counsel, for instance) means that the Oakland County Probate Court will be handling less juvenile cases.

★ ★ ★

- A lack of concerted effort against child abuse or neglect cases because there is no central place for referrals.
- A problem in the school district of dealing with youngsters who become truants in elementary grades.

Clark Balch, supervisor of child accounting, said there is no adequate set up for locating and dealing with elementary school truants or behavioral problems.

While there is an adequate setup for counseling of pupils in grades 7 through 12, he said there are no counselors for elementary school children.

★ ★ ★

This task usually falls to the principal who is often harried with administrative problems, he said.

EARLY IDENTIFICATION

He said "problem children" can be identified at an early age and are more flexible at the primary level.

"We could modify or improve behavior more easily at his level," he said.

He said the primary school system is not really set up to do this. Homeroom teachers are concerned primarily with education of the child and often do not have time to deal fully with all of a child's problems.

★ ★ ★

Under the plan the youth assistance department and the school child accounting department would coordinate activities of various organizations.

BRINGING UP NAMES

A name could be brought up through a school principal, a teacher, the police department, a church, the health department, or other sources.

The background and problems of the child then would be discussed by one of the "action teams" consisting of a number of representatives from service agencies.

They would then decide what agency could best help the child or parents and appropriate steps would be taken. It could be a referral to a welfare agency, the Big Brothers, the Oakland County Child Guidance Clinic, the health department or one of a number of other places, he said.

★ ★ ★

A principal asset of this type of approach is that all the agencies involved will know what is happening in each case, Caronis said.

COORDINATED EFFORT

Another is that the child being helped will have the favor of an coordinated approach instead of just that of one agency at one time, he said.

Caronis said initiating a citywide task force is an extension of a concept initiatd in Oakland County in 1957 by Probate Judge Arthur E. Moore.

Caronis said the coordinated approach is in line with recommendations for more preventive juvenile work as submitted by the President's Commission on Law Enforcement.

★ ★ ★

He stressed that the program would not mean that a family would be subjected to a swarm of social agency personnel coming to talk to parents or children.

PROFESSIONAL CONTACT

"The only contact made will be by professional persons and these will be limited," **he said.**

"We're not trying to do the parents' jobs; we're trying to help the parents," he said..

He admitted that the approach is different than in the past where a child's behavior was the parents' problem right up to the point where he became a problem to the police and court.

★ ★ ★

The team approach involves two teams that will concentrate in certain areas.

PLAN FOR TEAMS

The proposed plan calls for a team to include a school district representative, a city youth assistance staff member, a police juvenile officer, a family services case worker (county or church), a social service worker (welfare, ADC), a public health nurse, an OEO organizer, a member of the Big Brothers, a clergy representative, a juvenile court officer and some volunteers.

Areas picked for concentrated action at first are an area which includes roughly McConnell, Wilson, Franklin, Jefferson and Whittier schools and one which includes Lincoln, Baldwin, McCarroll and Twain schools.

Caronis said these areas are the ones which contain the highest number of juvenile offenders. He noted that it is more likely that juvenile offenders will come from areas where there is overcrowding and a high percentage of dilapidated homes.

★ ★ ★

Organizations asked to cooperate in the project include police, the school district, the Community Mental Health Consulting Services, the Office of Economic Opportunity and Oakland County's health department, department of social services and juvenile court.

Private agencies asked to participate include the local Urban League, Big Brothers, Family Services of Oakland County, Oakland Child Guidance Clinic, YMCA, YWCA, Council of Churches and other groups.

Growers Warned on Mice

LANSING (UPI) — If Michigan fruit farmers and Christmas tree growers are worried about mice, they should be on the lookout for foxes and hawks.

Threat was the word yesterday from the Michigan Department of Agriculture, which said unusual numbers of these predators are a "pretty good indicator" that field mice are endangering tree crops.

The department said mice are the main food of foxes, hawks and owls and that the predators "tend to concentrate where the living is good."

Each year, field mice take a heavy toll of voluable plantings by chewing off bark and roots.

★ ★ ★

The department suggested farmers with mouse problems contact the federal biologist at their Lansing office who is expert in rodent and bird control. His work is partially financed by the state in a cooperative state-federal program.

'Man Will Never Fly' Society to Get a Buzz On

KILL DEVIL HILLS, N.C. (AP) — The Man Will Never Fly Memorial Society has announced that its annual "workshop"—or cocktail party—will begin this year at 4 p.m. Dec. 15 and is scheduled to end at 10:30 a.m. the next day.

★ ★ ★

That will be on the eve of the celebration Dec. 17 of the 64th anniversary of the first airplane flight by the Wright brothers.

The motto of the society is: "Birds fly; men drink."

The society was founded nine years ago as a spoof on the Kill Devil Hills Memorial Society, which sponsors the Wright brothers observance.

In order to air-condition the Secretariat of the United Nations in New York City, 14,000 gallons of water must be pumped into the cooling system per minute.

World Communist Conference May Spell Isolation for Peking

By WILLIAM L. RYAN
AP Special Correspondent

A lackluster debate in the United Nations over Peking's claim to a seat demonstrated the extent to which Red China's regime has made itself an outcast. It may be even more of an outcast in a matter of months.

The perfunctory performance of those who professed to champion Red China's admission suggested a growing feeling that Peking is in a position to plunge the world into disaster and that the extent to which Red China's barring a change there, quarantine and even isolation may be the safest remedy.

* * *

Peking, with apparent deliberateness, has placed itself in the role of menace to all its neighbors. Chinese propaganda and subversion aid the cause of violent revolution in seven Asian nations, and the Red Chinese boast about it.

Mao Tse-tung's Regime openly and violently describes the Soviet Communist party as an enemy. Despite that, Peking, armed with nuclear weapons and missiles, conceivably could involve the Soviet Union against its will in an armed showdown with the United States. Red China at the moment still is technically tied to Moscow by the 1950 defense pact.

Moscow now is bringing its influence to bear to produce a world meeting of Communist parties. Ostensibly its purpose is to work out a common program and unification of the international movement. But since China and its Communist allies will have no part of it, any unification that is achieved will have to be without Peking. In effect, that will cast Peking out of the family, and it could provide the excuse for Moscow to regard the 1950 pact as void.

An article in the Soviet Communist newspaper Pravda last week proposed a series of preliminary consultations among Communist leaders on a regional basis to lay the groundwork for a world meeting, which Moscow appears to want within months.

* * *

Some parties, notably those in Yugoslavia, Romania, Vietnam and Cuban, fear such a meeting Yugoslavia, Romania, Vietnam and Cuban, fear such a meeting will permanently polarize the division in the international movement. They have been resisting. But supporters, such as the Czechoslovak party, say that "the conference will have to be held sooner or later." Obviously, the major reason for such a meeting is Red China.

* * *

"Today there are serious difficulties in the development of the international Communist movement," wrote Boris Ponomarev, a Soviet party secretary, in the November issue of Problems of Peace and Socialism, the international Communist journal. A meeting, he said, "could examine jointly the unfolding of the world struggle of the revolutionary forces which is more complicated and more many-sided today than ever before."

PEKING VIEW

Peking sees it all as a plot to isolate Red China. The regime professes also to see in the pressure for a conference an attempt to persuade North Vietnam to accept a scaling down of the Vietnamese war, to relieve a growing threat of direct Soviet involvement. Should the war spread to the Chinese mainland, Peking suggests, the Russians would be in a difficult position in the light of the 1950 treaty.

* * *

Moscow still claims to lead and champion the world revolutionary movement and to support "people's liberation" wars. But Red China has laid claim to those movements, particularly in Asia. Its propaganda, subversion and possibly even infiltration are aiding a guerrilla movement in Thailand. Peking is giving aid and comfort to violence-minded Communists in India, Burma, Malaysia, Indonesia and the Philippines. Until Prince Norodom Sihanouk of Cambodia raised the roof about it. Red Chinese were actively fomenting trouble in Cambodia and may still be doing so despite their protestations of good faith.

* * *

The watching world has taken some comfort from the idea that Red China speaks belligerently but acts cautiously. But Peking, as its turbulent "cultural revolution" illustrated, is unpredictable.

Orthodox Communists supporting Moscow may be anxious about safety valves to avoid the possibility of a world explosion. Many parties already have come around to Moscow's view of the need for a world conference. Even the influential Italian party appears to have changed its mind and to be supporting the idea now.

FEBRUARY CONFAB

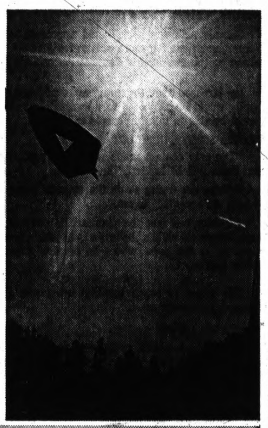

Pravda on Monday said the decision already has been taken to call a "consultative conference" in Hungary in February on plans for a world meeting. That means, in all probability, the world meeting will come to pass, and when it does, Red China will find itself virtually alone in a hostile world.

In Logging Industry

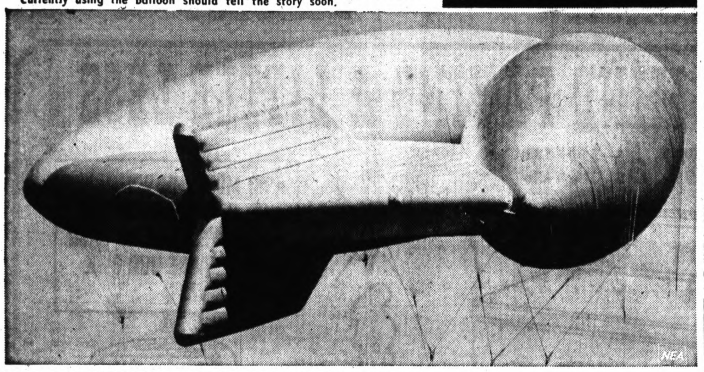

V-Balloon Idea Dawns

Since an army of Paul Bunyans would be needed to get logs out of some virgin timberland in western Oregon and Washington, an aerial balloon is being tried as a means of airlifting them across roadless tracts. Hovering at 500 feet, the V-balloon with a load of logs is pulled by cable to an off-loading area.

Principal advantages of the balloon, which is 162 feet long, include elimination of carving expensive roads out of timberland at costs of $30,000 per mile and reduction of damage to logs in transition from cutting areas. Yet critics in the logging game point out that the balloon costs $160,000 and has a life expectancy of only four years, and it can be used only when the weather is not turbulent. Cost and profit sheets of the one company currently using the balloon should tell the story soon.

Feature Films Force Small TV Revolution

By BOB THOMAS

HOLLYWOOD (AP) — Television programming, which has been wedded to fixed formulas for 15 years, is undergoing a small-scale revolution because of the popularity of feature films this season.

That is the outlook as seen from the vantage point of Herbert S. Schlosser, who as West Coast program vice president for NBC is one of the handful of men who decide what will appear on the home screen.

From the days of 12-inch screens, the half-hour program, particularly the situation comedy, has been a staple of television. This season the half-hours, particularly the new ones, have been hurting because of the competition of six nights of feature films on the networks.

THOMAS

"There will still be room for the half-hour show," observed Schlosser, "but the trend is toward fewer of them. The audience seems to be going more and more for the longer form. This means a continuation of the trend to movies, not only on regular nights but also as specials interrupting the regular programming, as was done with 'Hard Day's Night' and 'River Kwai.'"

"There will probably be more hour shows and 90-minute shows as well. We have even considered a two-hour series, but that is something that will need to be carefully planned. The economics of a two-hour continuing series would be very difficult. You would need plenty of lead time to get enough shows made before you go on the air. And you would also need a multiplicity of characters to share the work load."

Why have feature films proved so popular this season?

"Because the audience has been getting a general run of bigger pictures," Schlosser theorized. "Many of them are only two years old, and that adds to the appeal.

"Also I believe the features are popular because the country is becoming more urban all the time. This means a more sophisticated audience that is receptive to feature film entertainment. You get a better audience profile for features; more people of higher income and upper middle-class watch them than most other programs. That helps make features attractive to sponsors."

Schlosser said NBC was the first to go into the field, beginning several years ago with Saturday Night at the Movies. The move was scorned by the network's competitors, but was taken because: 1. Feature films had shown strength in local showings; 2. The two hours of entertainment could then be bought cheaply; 3. The quality of entertainment was something of which the network could be proud.

4 Agencies in State Given OEO Grants

WASHINGTON(AP) — Four Michigan Community Action agencies have been awarded $124,261 in emergency grants by the Office of Economic Opportunity, operating under a last-minute continuing resolution.

* * *

They are:

Macomb County Board of Supervisors, $7,169; Upper Peninsula Committee on Area Progress, Escanaba, $12,283; Thundercap, Alpena, $45,640, and Menominee-Delta-Schoolcraft, Escanaba, $59,169.

The awards were announced Thursday by the office of Sen. Philip A. Hart, D-Mich.

An aboretum is a place for the cultivation, study and enjoyment of trees; a nursery is a place for raising trees to use elsewhere in landscaping and forestry.

Two-Thirds of S. Viets 'Secure'

SAIGON (AP) — Two-thirds of South Vietnam's 17 million people now live in secure areas controlled by the Saigon government, U.S. mission's computers say.

The U.S. Embassy today unveiled its new computerized Hamlet Evaluation System—or HES—and said the "secure" population has increased more than a million since last January.

* * *

Ambassador Robert W. Komer, who heads the American side of the pacification program, told a news conference that HES provides a detailed monthly check on the campaign for the allegiance of the South Vietnamese living in the country's 12,600 cities and hamlets.

* * *

A check list on 18 major criteria is filled out on computer cards for each hamlet by the U.S. district adviser and put through computers in Saigon and Bangkok, he said, enabling the allies to get a good idea of where the "other war" stands.

OTHER DATA

In addition to hamlet security, the cards include information on such matters as schools available, development projects, health facilities and even whether the hamlet chief sleeps in the hamlet at night.

Pointing out that human evaluators weren't even sure how many hamlets were in South Vietnam before HES went into operation last January, Komer said the new system is "not even near perfect, but it's more objective, more systematic and it focuses on the key aspects of pacification."

* * *

"I think it's getting a pretty accurate picture," he added.

HES evaluates hamlets on an A-to-E scale, A hamlets being most secure, E the least.

Only 8,650—or 63 per cent—of South Vietnam's 12,600 hamlets can be evaluated. The rest are controlled by the Vietcong. But Komer said population figures are more important than the number of hamlets considered secure because the hamlets vary in population from 50 to 20,000 persons. Saigon and other large cities are classed as a group of hamlets.

MORE PROSPEROUS

He said government-controlled hamlets tend to be larger and more prosperous since the government gives higher priority to more heavily populated areas.

Secure hamlets are those in the A, B and C categories. They now embrace 66.6 per cent of the population. Contested, or D and E hamlets account for 16.2 per cent of the population, while another 17.2 per cent lives under Vietcong control, according to HES.

* * *

When the system was put into operation last January, Komer said, 62.1 per cent of the population lived in secure hamlets, 18.5 per cent were in contested areas and 19.4 per cent were under Vietcong control. The population then was estimated at 16.4 million.

He added that if the hamlets were evaluated only on the basis of security, and other factors such as schools and health were disregarded, the figures would show that 69 per cent of the population lives under government control.

Vietcong control is highest in the Mekong Delta, where it runs 27.6 per cent, according to HES. In the embattled 1st Military Corps area just south of the Demilitarized Zone, 26.5 per cent of the people are under Vietcong control.

D.C. Nearly Hit

So close to Washington, D.C., were the Confederate lines in Virginia during the Civil War that the unfinished dome of the Capitol could be seen through a telescope.

* * *

The spirit of man is more important than mere physical strength, and the spiritual fiber of a nation than its wealth. — Dwight D. Eisenhower.

Guard Will No Longer Accept Recruits

WASHINGTON (UPI) — National Guard units are under orders to stop accepting recruits seeking to avoid the Vietnam draft.

* * *

Until further notice, the National Guard Bureau announced yesterday, no recruits will be accepted without prior military experience. A spokesman said the order went out this week and is effective immediately.

The bureau said so many men have enlisted that National Guard strength is 17,300 more than authorized by Congress. It said drastic action was needed to trim total strength to 400,000 by June 30.

Another reason for the action was believed to be the need to make room in Guard units for waves of returning Vietnam combat veterans who were drafted during the 1966 U.S. buildup in Southeast Asia.

* * *

Draft quotas are expected to be substantially higher next year to replace these returning veterans, whose two - year hitches will be up.

Police Probe Potshots at 2 Informers

FLINT (UPI)—Genesee County Prosecutor Robert F. Leonard, local and state officials today were investigating the attempted slaying yesterday of two men identified as police informers in the November raids on a "large-scale criminal ring."

* * *

The two, whom Leonard refused to identify because of their connection with the raids that netted 31 persons Nov. 6, suffered minor injuries when two shots were fired at their car in rural Davison Township.

Leonard would not confirm the shootings were in retaliation for the informants' help in breaking up the gambling ring which grossed about $100,000 a week, according to Atty. Gen. Frank J. Kelley.

State Police said the men were driving along a rural road in Davison Township about five miles east of Flint, when they were overtaken by another car carrying two or three men. Two shots were fired and the two informants suffered minor cuts.

* * *

Police were searching for a 1964 or 1965 white Buick convertible with a black top. They said they had no other clues.

STILL CHECKING

"We're still checking into the shooting and we don't have all the information about it. We will probably have more to say about it tomorrow," Leonard said yesterday as the investigation continued.

Gentleness is a divine trait: nothing is so strong as gentleness, and nothing is so gentle as real strength — Ralph W. Sockman, American clergyman.

FRANK'S NURSERY SALES

Senate Opens Debate on Education Bill

WASHINGTON (AP) — Civil rights and religion appear the dominant issues as the Senate opens debate on a $14.2 billion federal aid to education bill.

Sponsors expressed hope the measure could be voted on today and sent to a conference with the House, which earlier passed its version.

* * *

But opposition loomed from Southern Democrats and conservatives of both parties.

Major provisions of the bill would extend for three years the 1965 Elementary and Secondary School Act, by far the biggest federal aid to education program.

NEW PROGRAMS

The measure would continue for the same period the so-called impacted areas program of grants to school districts with enrollments swollen because of federal facilities such as large military bases. It also would establish new programs intended to aid school dropouts and Spanish-speaking children and extend federal aid to adult education programs for three years.

Much of the debate is expected to center on the action of the Senate Labor and Public Welfare Committee in dropping one controversial House provision in the legislation and revamping another.

* * *

Removed from the measure in the committee was an amendment sponsored by Rep. L. H. Fountain, D-N.C., and sharply opposed by civil rights groups and the Johnson administration.

It would have barred the Health, Education and Welfare Department from deferring approval of aid applications from school districts believed to be practicing racial segregation without first undertaking lengthy, formal process.

UNDER PRESENT LAW

Under the Senate panel's bill, HEW can defer such applications 90 days as it can under present law.

Sen. Richard B. Russell, D-Ga., said he plans to lead a fight to restore a version of the Fountain provision.

The other disputed provision in the House bill would turn over to full state control all federal aid authorized under Title 3 of the Elementary and Secondary Act. It was sponsored by Rep. Edith Green, D-Ore.

Title 3 money is to be used for supplemental education centers, which can be attended by private-school children as well as those from public institutions.

* * *

The Green rider was opposed by the administration and by Catholic spokesmen, who said it could mean the end of help for parochial school children in many states.

The Senate committee revised the provision so one-third of this aid would be channeled through state education agencies in 1969, one-half in 1970, and two-thirds in 1971.

Modern Force

LANSING (AP) — The State Conservation Department reports it has upgraded 22 fire workers to area fire officers in a move to modernize its forest fire fighting forces. The department said fire fighting has changed from a manpower operation to a mechanized attack using planes and specialized equipment.

Stokely to Lose Passport

WASHINGTON (AP) — The State Department says it plans to lift the passport of Stokely Carmichael but knows of no other punishment in store for the Black Power firebrand.

* * *

Press officer Carl Bartch said the only penalty Carmichael faces is surrender of his passport for traveling to Cuba last summer without State Department validation.

Carmichael told newsmen Thursday in Oslo, Norway, that he'll be arrested on returning to the United States and jailed for up to five years.

Bartch said Carmichael would have been open to stiffer penalties had he left the country without a valid passport.

Viet Hero Cited in Pal's Note

DAK TO, Vietnam (UPI) — Pfc. William L. Jewett, 28, of Qwenton, Ky., died so that his buddies might live. One of those who lived tried to make sure Jewett would be remembered.

* * *

Jewett was in Alpha Company, 3rd Batallion, 8th Infantry of the U.S. 4th Infantry Division. He was among the first killed by the North Vietnamese in the beginning of the battle of Dak To, the longest and bloodiest battle of the Vietnam war.

Spec. 4 Benjamin Acosta, 20, of Sacramento, Calif., owes his life to Jewett. Acosta scribbled a note to his commander in the hope that Jewett would be honored posthumously. The company commander turned in the note to headquarters, which nominated Jewett for a Bronze Star.

Many who read Acosta's note were touched by its eloquence.

* * *

"We get them here two and three pages long and usually they don't say anything," an army clerk said. "This one said something."

ACOSTA'S NOTE

Here is what Acosta wrote:

"On 8 November I was with Bill Jewett when we were attacked by a large NVA (North Vietnams Army) force. They used rockets, mortars and machine guns. Bill Jewett was the first man to return the enemy fire and it allowed us to get under cover and return the enemy fire.

"Bill got hit with a mortar round and was hurt real bad but he still kept on shooting and forced the enemy to fall back. He didn't seem at all afraid and because he did fire so well, he saved all of us in the squad. He died of his wounds but I owe my life to him.

"Sp. 4 Benjamin Acosta, Co. A."

Institute Planned

MIDLAND (AP)—The Michigan Foundation for Advanced Research announced plans today for a research and study institute which it said would make Midland a world center of learning about polymers. To be called the Macromolecular Institute, the center will study the structure and behavior of macromolecule of the type found in plastics, rubber, fibers and biological systems. Research will be conducted by the institute and in collaboration with universities, according to H. B. Doan, foundation president and president of Dow Chemical Co.

Opening lead—♦ 8

By OSWALD AND JAMES JACOBY

The opening preemptive bid is designed to stir things up at the table. Sometimes it kicks right back at the man who bids it, but frequently it pays delightful dividends.

JACOBY

South could have passed over the three diamond opening, but South was not going to be shut out and we can't blame him. He didn't need to find much in the North hand to have a good shot at three spades or even more, and you can't sit around and wait for sure things.

West had his sure thing. He doubled and opened the eight of diamonds. South took the trick and tried to sneak in his singleton heart, but West went right up with the ace and led another diamond. East was in and played his five of clubs. West took two club tricks and led a third club for his partner to ruff.

East continued with the slaughter by leading a third diamond. South stuck in the ten of trumps, but West was ready with the jack. A fourth club was led and East was able to overruff dummy.

Then East led another diamond, and it didn't matter whether South ruffed high or low. If he ruffed low, West would make his nine of trumps immediately. If he ruffed high, West would discard and make two trump tricks eventually.

At this point South came up with a classic remark. He said, "My bidding wasn't that bad. I could have saved two tricks in the play and been set only 800."

Do you see how? There were two ways. One would have been to lead the king of spades at trick two. The other would have been to discard his king of clubs when the third diamond was led, instead of ruffing with the ten as he actually did.

In any event we prefer to credit East with a successful preempt and to sympathize with North and South.

♣♦ CARD Sense ♠♥

Q—The bidding has been:

West	North	East	South
		1 ♣	1 ♠
Pass	2 ♣	Pass	2 ♠
Pass	3 ♦	Pass	4 ♦
Pass	4 ♠	Pass	?

You, South, hold:

♠ A Q 10 7 6 ♥ K J 4 ♦ K 3 2 ♣ J 7

What do you do now?

A—**Your partner could have bid four spades directly. The fact that he made two other bids on the way indicates that he is slam minded. Your hand is not a slam type, but you should make some move anyway. We favor a bid of five spades.**

TODAY'S QUESTION

You bid five spades and your partner bids six clubs. What do you do now?

Answer Tomorrow

Astrological Forecast

By SYDNEY OMARR
For Saturday

"The wise man controls his destiny — Astrology points the way."

ARIES (Mar. 21 - Apr. 19): Dispute over worth of property or other possession could mar day. But if you maintain poise all turns out to your benefit. Means avoid frantic action. Take it slow, easy.

TAURUS (Apr. 20 - May 20): Some values could be upset. If single, you might find out today what member of the opposite sex really thinks, feels. If married, long overdue discussion takes place.

GEMINI (May 21 - June 20): Study legal procedures. Take time to be creative. What you take for granted could erupt into problem. Be ready. Have facts at hand. You succeed if thorough.

CANCER (June 21 - July 22): Dormant issues now become open for consideration. Involves work, relatives, messages and short journeys. Be receptive. Express yourself in creative manner.

LEO (July 23 - Aug. 22): You may have to spend more than planned in order to please loved ones. Domestic adjustment dominates scene. You cannot put off discussion, decision without causing loss. Act.

VIRGO (Aug. 23 - Sept. 22): Some phases of your activity are disrupted. But they are replaced. You go through a process today of tearing down in order to rebuild. One who makes promises may have tongue in cheek.

LIBRA (Sept. 23 - Oct. 22): What brews behind-the-scenes is more powerful than you might imagine. What is in sight is apt to be trivial. Don't waste time, emotions. Conditions due to change, abruptly.

SCORPIO (Oct. 23 - Nov. 21): Finish rather than begin projects. Some friends, associates are more than a little restless. Don't prolong difficult task. Check money going out, coming in.

SAGITTARIUS (Nov. 22 - Dec. 21): Higher-ups announce revision of plans. You appear to be directly affected. Lunar cycle is high. You land on your feet. New assignment proves beneficial. Accept with enthusiasm.

CAPRICORN (Dec. 22 - Jan. 19): Some around you choose indirect methods. You appear caught in quandry, wondering which course to follow. Key is to be informed, aware and neutral. Don't judge by outward appearances.

AQUARIUS (Jan. 20 - Feb. 18): Friend comes up with plan. But if appears to lack solid base. Don't throw good money after bad. Call a halt to wasteful activities who squabble could try to involve you. Stand firm.

PISCES (Feb. 19 - Mar. 20): Agitation appears, boils to surface due to long-time disagreement. Can actually work out in favorable manner. Important thing is to come out in open. Be frank, fair.

IF TOMORROW IS YOUR BIRTHDAY you are a person of principle, subject to moods, emotional, dedicated to fight for what is right. You started something new. Now you become more familiar with surroundings. Take your time. Don't rush, rush or force. You're gaining, even if the pace appears slow.

GENERAL TENDENCIES: Cycle high for SAGITTARIUS, CAPRICORN, AQUARIUS. Special word to GEMINI: Do more listening than talking.

Daily Almanac

United Press International

Today is Friday, Dec. 1, the 335th day of 1967 with 30 to follow.

The moon is new.

The morning stars are Venus and Jupiter.

The evening stars are Mars and Saturn.

On this day in history:

In 1917, the Rev Edward Flannagan founded Boys Town in Omaha, Neb.

★ ★ ★

In 1953, the New York Stock Exchange announced for the first time in history investors could buy stocks on the installment plan.

In 1958, fire swept through the Chicago school of Our Lady of the Angels, killing 93 children and three nuns.

★ ★ ★

In 1965, the Havana to Miami airlift began after an agreement was reached with Cuban Premier Castro. Up to 4,000 Cuban refugees per month were to be flown to Florida.

Treasurer Quits

ZEELAND (AP)—City Treasurer Ted VandenBrink, 31, Thursday announced his resignation effective Dec. 31 to enter private industry. VandenBrink had been city treasurer for 2½ years. His term would have expired next June.

Body Painting

Many Choco Indians of Darien Province, Panama, still follow the once-universal practice of painting their entire bodies with a permanent blue dye. The dye is obtained from the edible fruit of the jagua tree.

Migrating bats, blown off course by strong North Atlantic storms, have landed on the coast of Iceland, where no bats are native.

THE BETTER HALF

"Since I'm laying out the money to run this household, don't you think I'm entitled to see the butler and maid you must have hired."

BERRY'S WORLD—By Jim Berry

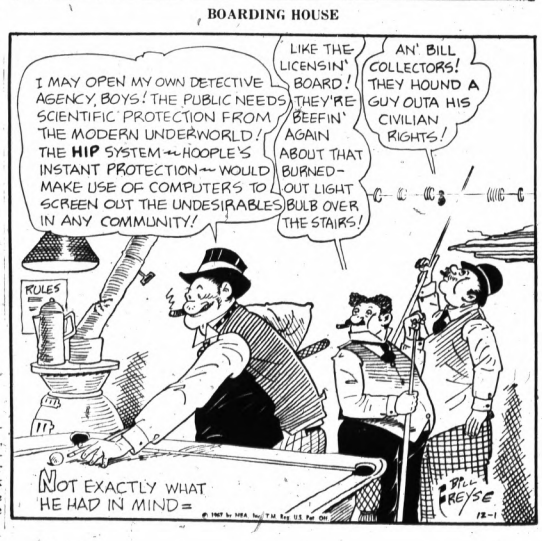

"What's the story on this business trip deal where you can take wives along at a reduced rate?"

Parks Planner

LANSING (AP)—Jack Butterfield, former district parks supervisor at Cadillac, has been named to head the new programming section of the State Conservation Department Parks Division at Lansing. Butterfield will supervise programs and budgets for the long range land acquisition and capital development of state parks.

Royal Welcome Awaits Queen Mary

LONG BEACH, Calif. (AP) — A great welcome awaits this resort and convention city's newest queen—even though officials haven't decided yet exactly what they're going to do with her.

The queen is the 33-year-old British liner Queen Mary, bought by Long Beach for conversion into a tourist-attracting museum and hotel. The buying price was almost $3.5 million.

That was last July, and there still is no master plan showing how the 81,000-ton ship is going to be remodeled. Officials say this is understandable—that the men assigned to draw up the plans are doing so on board as she makes her final voyage, from Southampton to Long Beach.

* * *

Meantime they're feverishly occupied with arrangements for the Queen Mary's arrival Dec. 9.

More than 10,000 small craft are expected to jam the harbor for a sight of the three-block long ship steaming down a "reception line" of 100 Coast Guard vessels to its temporary berth.

"Every charter boat from San Diego to Santa Barbara has been hired by private groups for the day," says a spokesman, "and all the pleasure boat clubs have indicated they'll be here en masse."

* * *

Navy and city fireboats saluting with sirens and hoses, five bands blaring on shore, and the cheering voices of more than 100,000 spectators lining beaches and bluffs around the bay are expected to generate a festival atmosphere unrivaled here since V-J Day signaled the end of World War II.

After the ship's arrival lies a year of hard work before the Queen Mary is opened to the public as an attraction city officials hope will rival Disneyland in nearby Anaheim. Only then will they know whether the proud old liner is to be a queen-size headache or a king-size bonanza.

BERTH READIED

The Queen's first berth, where she will disembark her 1,200 passengers and a crew of 600 through a 30,000-square-foot blue-and-white striped circus tent set up for customs, has been readied on Pier E.

The Queen will remain at Pier E three months while a cleanup crew removes fire and health hazards and engineers make conversion cost estimates. In March she goes to a drydock for a two-month paint job on her hull, then returns to Pier E where workmen will start tearing out her giant boilers to make room for a maritime museum and remodeling her 400 staterooms and 27 public gathering places.

* * *

Next December she will be towed to her permanent berth off Pier J—soon to be turned into a 5,000-boat marina—where the Queen will reign as a Mother Goose surrounded by more goslings than she can count.

Her gleaming white majesty, brightly lighted, will turn the harbor at night into a fairyland of color—a fairyland chained to reality by the presence in the bay of four manmade islands where derricks disguised as apartment towers are pumping up the billion barrels of undersea oil that, by way of royalties, made the Queen Mary Project possible.

New Games Fun, Clever

Fun with games this Christmas extends to ingenious new areas, for extra dividends of competitive excitement, laughs and family participation. Many games provide subtle by-products of learning as well as enjoyment.

One trend is to the use of unusually adventurous occupations, such as trapping wild animals for zoos or building and launching missiles, as the basis for competition that gives players practical knowledge in the process of play.

Challenging brain teasers are keyed to new math and spelling. There's a strong revival of chess, accompanied by the use of modern science to create Renaissance chessmen that closely resemble 15th-century hand-carved playing pieces.

In the real life career category of games is Wild Life, where the object of play is to capture "wild animals" alive and sell them to zoos. Competitive action re-enacts the real life problems of animal collectors.

* * *

Competition in the space category is provided by Count Down, a game version of Project Apollo, which bases action on documentary pictures and simplified explanations of operations in building the super rocket, supplied by NASA.

FUN GAMES

New laugh-provokers include such novelties as Hats and Cats. Players score by flipping small plastic hats into a numbered score board. Another game, Scamper, bases play on maneuvering small plastic mice.

A variety of special sets illustrates the resurgence of chess interest. There's Chess Tutor, to aid mastery of the game. Chessmaster appeals to the experienced player.

8 Americans Are Listed as Killed in Viet

WASHINGTON (AP) — Names of eight men killed in action were on the latest Vietnam casualty list released by the Pentagon.

They included:

ARMY

CALIFORNIA — 2nd Lt. Ronald N. Rodreick, Hanford.

GEORGIA — CWO Curtis W. Hutto, Savannah.

MARINE CORPS

ALABAMA — Lance Cpl. Jimmy D. Youngblood, Birmingham.

CALIFORNIA — Cpl. Ervin G. Aschenbrener Jr., Fresno.

GEORGIA — Pfc. Gerald T. Dobbs, Rossville.

LOUISIANA — Pfc. Cleveland Keal Jr., New Iberia.

OHIO—Pvt. John D. Flanigan, Warren.

OREGON—Lance Cpl. Marvin R. Smith, Powers.

Changed from missing to dead, hostile:

ARMY

WEST VIRGINIA — Pfc. Hubert J. Payne, Webster Springs.

Missing as a result of hostile action:

AIR FORCE

Capt. William W. Butler.

Died not as a result of hostile action:

ARMY

INDIANA — WO Terry R. Clark, Richmond.

NEW JERSEY — 1st Lt. John T. Coll Jr., Madison.

Changed from missing to dead, nonhostile:

ARMY

OHIO — Spec. 4 Keith A. Feltz, Kettering.

PENNSYLVANIA — Staff Sgt. Richard L. Scaduto, New Castle.

MARINE CORPS

SOUTH CAROLINA—Lance Cpl. Marlon L. Meggs, Florence.

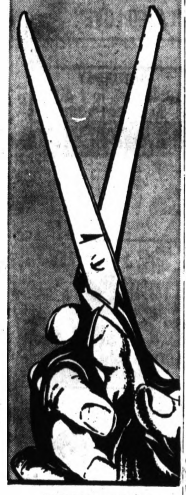

Federal Libraries

The Congressional Library is not our only national library.

There are, in addition, the National Library of Medicine and the Agriculture Department Library, each of which has a million or more items and each of which probably is the largest of its kind in the world.

There are some 12,000 firms in the business of moving household furniture and associated items.

CUTTING YOUR FUEL OIL BILLS IS JUST ABOUT THIS EASY...

WHEN YOU SWITCH TO Superheat

■ It's true! When you switch to Superheat, you get more heat, better heat, and lower heating bills for the season. That's because Superheat is "electrofined" to give you more heat per gallon, more heat per dollar. Make the switch now — and save money all next winter. Call us today... and let us tell you about our Superheat service. You'll be glad you did!

Season's First Snowstorm Hits Eastern Seaboard

By The Associated Press

Residents of the heavily populated belt from Washington to New York manned shovels, brooms and plows today as they began to dig out from the first heavy snowfall of the season.

The storm swirled across the Eastern Seaboard Thursday and dumped up to 12 inches of snow on the string of cities stretching from Virginia, through Marland, Pennsylvania and New Jersey into New York.

★ ★ ★

The nation's capital was buried under a half-foot of snow, and as much as 12 inches fell in suburban areas in Virginia and Maryland.

Government agencies remained open but some of them allowed workers to leave early. Many schools closed and sent their charges home for the day. Downtown stores that planned to stay open until 9 p.m. closed at 6.

FLIGHT CANCELED

The snow forced cancellation of flights to and from Washington National Airport and Friendship International Airport, between Washington and Baltimore. But Dulles International Airport at Chantilly, Va., continued to operate as crews alternately cleared one runway and then another.

Today's racing program at Laurel Race Course at Laruel, Md., was canceled because of snow on the track. Officials canceled Thursday's nine-race program early in the day.

★ ★ ★

Snow fall of 8.2 inches at College Park, Md., home of the University of Maryland, set a record for November. The previous high mark for the month was 6 inches, set Nov. 26, 1938.

Snow-laden tree limbs snapped power lines throughout Washington's suburbs in Virginia and Maryland. Phone service was cut off in Alexandria and Arlington, Va. Power was expected to be restored in most areas today.

MARYLAND

Baltimore got 6 inches of snow, Frederick in western Maryland got 5 and Salisbury on the Eastern shore got 3. Schools in several Maryland counties were closed today. Only two of the 12 ships scheduled to leave the Baltimore Maritime Exchange were able to do so.

AP Wirephoto

PROUD GRANDFATHER—President Johnson displayed a photo of his grandson, Patrick Lyndon Nugent, yesterday at the White House. Johnson's grandson is wearing a shirt imprinted with "Longhorns — '87." The University of Texas uses "Longhorns" as its nickname.

Michigan Legislators Run Up Travel Bills

LANSING (UPI) — At least one-third of the 148 members of the Michigan Legislature are out of the state or in the midst of making winter study trips to sunny California, the South Central America and other areas.

The trips by about 50 lawmakers, a few secretaries and aides are being taken during the current 26-day recess of the Legislature as other lawmakers contact voters in their areas over a controversial statewide open housing proposal.

The Legislature recessed Nov. 16 for a "cooling-off period" from pressure being brought against it to act on an open housing law.

Since then, Gov. George Romney and a committee of key legislators have recommended changes in the bill in hopes it will meet approval when the Legislature returns for action Dec. 12.

★ ★ ★

The Legislature was criticized for going home without acting on the open housing proposal, particularly in view of the fact Romney will leave on a world tour Dec. 7 and will not be around to use his influence during the pre-Christmas rush to pass the bill.

COURT BILL DELAYED

A proposal to reorganize the state's lower court system also was pushed back by the recess and controversy over open housing.

Most of the study trips by legislators are for about one week in length except for the Central America trip of four legislators which began Nov. 16 and is scheduled to end Dec. 8.

House Speaker Robert Waldron, R-Grosse Pointe, said the trips were authorized to allow the lawmakers to gather information for pending legislation and other proposals which might be introduced in the legislature.

★ ★ ★

The biggest exodus of lawmakers is to California, particularly San Francisco.

LEADERSHIP CONFAB

Legislative leaders from the Senate and House of Representatives are attending the Nov. 29-Dec. 3 National Legislative Leadership Conference in San Francisco, including two legislative secretaries. The secretaries are working at the conference.

At least three legislators have signed up for trips to Tampa, and Tallahassee, Fla., and New Orleans to study dog racing and chiropractic practices. A secretary also was scheduled to make the trip, which is set for Dec. 5-10.

Four House members are on a 21-day trip to Mexico, Guatemala, Honduras, Nicaragua, Costa Rica and Panama to look into possible common market connections between Michigan and the Central American nations.

★ ★ ★

The Central American trip, as outlined in an advance plan, probably will prove the most costly.

COSTS PER COUPLE

Anticipated costs per couple by air was estimated at $660 and $330 per person. A memo on the trip also estimated food, lodging and other items to cost about $50 per day which "would include some spending money."

Round trip air fare to San Francisco, including 20 House members and nine state senators, most of them for the legislative leadership conference.

Committees to study insurance, data processing and branch banking practices and youth facilities in California also were authorized.

★ ★ ★

The House State Affairs Committee authorized a housing study trip Dec. 3-10 to Indianapolis, Boston, New York and Washington, D.C. The legislators hope to meet with key housing spokesmen in each city, including federal governement officials from the Department of Urban Planning.

One legislator and a state attorney plan a trip to Dallas Dec. 4-9 for a conference at Southern Methodist University on legal problems involved in trying to change the weather by scientific means.

Traffic fatalities in the first two months of 1967 rose by 10 per cent over the total for the same period last year.

People in the News

Matt Cimber, last husband of the late Jayne Mansfield, applied yesterday in Santa Monica, Calif., for a license to marry 23-year-old dress designer Christy Hilliard Hanak.

It will be the first marriage for Miss Hanak, the second for Cimber, 31.

Admiral Succeeds Retiring Commander

HYLAND

Adm. John J. Hyland has relieved retiring Adm. Roy L. Johnson as commander of the Pacific fleet.

The change of command ceremony took place yesterday aboard the aircraft carrier Kitty Hawk in Pearl Harbor.

Johnson, looking well despite recent hospitalization for ulcers, received the gold star in lieu of a second distinguished service medal.

In his farewell speech, he said he wished those Americans critical of the Vietnam war could see what the U. S. combat forces are doing.

Opera Star Gets Swedish Medal

Swedish Consul General Tore Tallroth had to pin a medal from King Gustav VI Adolf on the right shoulder of retired Metropolitan Opera star Karin Branzell yesterday in New York. The proper left shoulder already held so many there wasn't room for another.

The medal named Madame Branzell "Singer to the Royal Court" and was supposed to have been presented by Swedish diva Birgitt Nilsson. But the new Metropolitan star was snowbound in Raleigh, N.C.

New Zealand Governor Sworn In

New Zealand's first native-born governor general, Sir Arthur Porritt, was given his oath of office and sworn in at a colorful ceremony on the steps of the New Zealand Parliament building in Wellington today by the country's chief justice, Sir Richard Wild.

Sir Arthur is a former surgeon to the queen and past president of the Royal Collegé of Surgeons. He is also a member of the International Olympic Committee.

Crowds of New Zealanders watched in bright sunshine as Sir Arthur signed his oath of office to a fanfare of trumpets and a 21-gun salute. A flight of Royal New Zealand Air Force Vampire jets flashed overhead.

Peace Corps Test Monday

Pontiac area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps Placement Test at 3 p.m. Monday in the Federal Building, Room 1 East Huron at Perry.

★ ★ ★

Volunteers do not need a college degree. A broad range of skills is needed to fill the overseas programs in agriculture, public health, community development, education and cooperative development.

The placement test, which takes about an hour and a half, determines how an applicant can best be utilized overseas. It measures general aptitude and ability to learn a language, not eduction or present knowledge of a foreign language.

The test requires no preparation and is noncompetitive — an applicant can neither pass nor fail.

★ ★ ★

Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so.

Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C., 20525.

New Span in U.P.

LANSING (AP) — A new bridge carrying M35 over the Escanaba River at Gwinn will be opened to traffic Dec. 8, the State Highway Department reports. The new bridge, built at a cost of $289,693, will replace a one-lane steel structure built in the early part of the century.

Top Tea Drinkers

The natives of Tibet are among the world's greatest tea drinkers.

The average Tibetan drinks 30 to 50 cups a day of the beverage, according to the Encyclopaedia Britannica.

Yuletide Shoppers Flood Area Stores; Sales Surge

The Christmas season is well under way, shoppers are out in force in the Pontiac area.

"Traffic in the Mall is up about 25 per cent," reported Mrs. Ruth McCarthy resident manager of the Pontiac Mall. "Business looks good."

Pat Atchison, President of the Tel-Huron Merchants Association, agreed: "As long as there is snow on the ground and it's this time of year, people buy," he said.

A spokesman for Miracle Mile also spoke favorably of the upsurge in sales brought by the Christmas shopping season.

Ivan Houchens, president of the Downtown Pontiac Business Association, was less enthusiastic about the general level of business in downtown Pontiac. However, the general feeling everywhere as usual is that the holiday season is good for sales.

A number of individual stores were surveyed, including Federal's and Sears in downtown Pontiac; Osmun's Town and Country at Tel-Huron; Kresge's, Ward's at the Mall; and Penny and Peggy's at Miracle Mile.

All reported an increase in volume of sales for the Friday and Saturday following Thanksgiving compared to the Friday and Saturday of the week before. On the average, business was up 20 per cent.

To deal with the increase, store managers enlarge their sales staffs 25 to 100 per cent, and they have regular employes work overtime.

* * *

Stores are more crowded, but they're equipped to handle the influx. Salespeople are ready with suggestions and Santa is present in all parts of town to make children feel that shopping expeditions are arranged just for them.

Audio System Pact for Jets Awarded

SEATTLE, Wash. (AP) — The Boeing Co. has awarded a contract for the manufacture of passenger entertainment and service multiplexing systems for its 747 superjetliner.

* * *

Ten audio channels for music or information, two audio channels for each passenger compartment's visual entertainment system and a master override channel for announcements from the captain or flight crew are included.

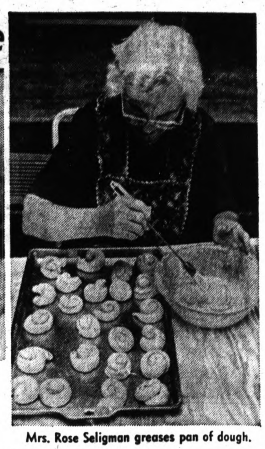

* * *

The $20-million contract went to Instrument Systems Corp., Long Island, N.Y. The 747 is due to start flying late in 1968.

Even when laws have been written down, they ought not always to remain unaltered. — Aristotle, ancient Greek philosopher.

Old Hands, New Purpose

Skills acquired over a lifetime, often wasted among the old, have been awakened to a new purpose in a Jewish rest home at Atlanta, Ga. Women residents spend Friday of each week baking "challah," a braided bread eaten by Jewish families at dinner on the Sabbath.

Mrs. Rose Seligman greases pan of dough.

Success of the weekly baking is evident in the enthusiasm with which it is done. The sense of dependency and futility which so many rest home residents feel is eased by the feeling of usefulness among the ladies, who prepare the bread for their families outside. The bakers include Mrs. Kate Weinberg, 102, who bakes for her "boy," who is in his 80's. Some do the work at the table while sitting in wheel chairs. "Come Friday they're ready and anxious," says George Landsman, director of program and development. "It's like being at home again, baking on Fridays," chortles one of the ladies, while another says nothing, just sings and smiles as she braids the dough.

Rain Cycle Sets Pattern for Monkeys

By Science Service

Reproduction in the New World squirrel monkey follows a rain calendar, with mating during the dry season and bearing during the wet season, two Florida researchers report.

In addition, the team notes prominent yearly sexual changes in the male squirrel monkey on a scale not seen in Old World primates.

During the mating season, the male monkey becomes heavy and fluffy around upper torso, shoulders and arms. Simultaneously, males establish a dominance hierarchy which lasts until the birth season. Then both fatted appearance and masculine behavior disappear. "Males become virtually rejected neuters" during this period.

They discovered the rain calendar cycle by comparing squirrel monkeys from Peru, Colombia and Florida in the Florida Monkey Jungle colony.

Mexican Staples Going Instant

MEXICO CITY (AP) — Meet the instant fried bean. Or its supermarket cousins, the plastic-bagged tortilla and chilled tamale.

* * *

These time-saving specialties are helping take the manana out of Mexican cooking.

* * *

Not too long ago cooking beans was almost a half-day job that began after an overnight soaking. Tortillas, the thin, round patties made of cornmeal dough, meant hours of stoveside labor. Turning out a batch of tamales was an even more heroic production.

* * *

Today, Mexican supermarkets offer canned beans in all varieties, including fried and refried. They also come in a powdered mixture, like instant whipped potatoes—add water and cook. Ready-made tamales are available at cheese counters and the once lowly tortilla, staple food of the poor, sits proudly among the breads, wrapped in clear plastic inked with the date of manufacture.

NATURAL SWITCH

Mexicans have taken to supermarketing as naturally as if it had been an ancient Indian culture all along.

Some of the markets are larger and better stocked than their American counterparts. Could you buy a live alligator, a pelican or a pair of spider monkeys in your supermarket pet shop?

* * *

The merchandise is very nearly all Mexican-grown or produced but the packaging and promotion are American hard sell, designed to ease the last loose peso out of the customer.

* * *

The stores are surrounded with all the usual complementary conveniences, huge parking lots, auto repair shops and carnival-type entertainment—Ferris wheels and carousels—for the kiddies.

OUT OF REACH

Prices are out of reach of the poorer classes who make up the majority of Mexico City's four million-plus population. Thus, the labor-saving enterprise is making it easy mostly for the upper class maids, the foreign colony and lower middle-income families who cannot afford hired domestic help, even at $30 a month.

* * *

Traditionalists, maids among them, look disapprovingly on the precooked specialities.

"They save time," says Mrs. Hermelinda Solache, a cook, "But they taste awful and the prices are ridiculous." A 10-ounce box of instant beans sells for 18 cents. Dried beans cost roughly 17 cents a pound, plus some four hours' cooking time.

The poorer folk, the bargain-hunting affluent and the gourmets usually shop in huge fresh fruit and vegetable markets of such abundance as to make hunger seem a stranger to Mexicans. Some of them, housed in blocks-long structures, are like assembly line plants for gastronomes, almost self-contained communities, alive with the color and fragrance of fruits and spices.

SUCH VARIETY

"Outside of Paris and possibly the Bronx in New York," says Ernst Mueller, buyer for a U.S. hotel chain, "I cannot recall markets with such a wide-ranging variety of fresh produce."

Even here, where the canned bean is an intruder, labor saving is a consideration. The earthen cooking "olla" or jar has been replaced by the steel pot and pressure cooker. Some basic ingredients in cooking are sold ready-made, for except among the very poor in remote villages, certain traditional foods are not being made in the old manner.

Take tortillas. To make the dough, corn kernels must be cooked in lime for hours until the skins come off. Then, after a thorough washing, to the grinder to make the meal and dough. Ready-made dough is now available in most stores. Rolled or hand-patted into thin, round cakes and cooked on a hot flat surface, it becomes a tortilla.

Tamales are most complicated; lard, broth, salt and a solution based on coarse saltpeter and the membranes of green tomatoes are added to corn meal dough.

There are many varieties of filling. One of the most popular is chicken with mole sauce. The chicken is a cinch, but the mole — rhymes with the bullring ole —is a bird of another feather.

* * *

Three different kinds of chili are toasted, cleaned, soaked in hot water and ground finely. Bits of tortilla and small quantities of peanuts, almonds and shelled pumpkin seeds are fried in lard. The seeds of sesame, anise and chili are toasted in a separate pan. Fried ingredients and toasted seeds are then combined and ground with onion and garlic. The mixture is sauted in lard, then ground chilis, cooked and shredded chicken, some broth, salt and pepper are added. After simmering and thickening, the filling is ready.

The stuffed dough is wrapped in soft cornhusks and arranged on a rack inside a pot. An hour or so of steaming and the tamales are done.

TRADITIONAL DISHES

Around the Christmas holidays, some families like to do the traditional dishes the old way. Most of the time it's the quickie variety in the supermarket.

"They may not taste as good," says one housewife, "But I'm no longer married to the stove."

Junior Editors Quiz on— GRIFFINS

Question: What is the story of the griffin?

* * *

Answer: Ancient peoples lacked the knowledge we have today and so invented mythological creatures and stories to explain the wonders of nature. They seemed to enjoy using their imagination to combine several actual animals into one mythical one. And they gave to such an animal a part to play, sometimes in sculptured form, sometimes in a legendary story.

Think of a lion which could also fly like an eagle — what a fearful creature that would be! Such a combination was the griffin, or griffon, which was being pictured in western Asia by 1500 B.C. and which seems to have originated as a symbol of fierceness and power.

Sculptured griffins were shown guarding tombs and palaces, apparently to score robbers away. In one of the Greek myths, griffins are spoken of as guarding a great horde of gold. Later, in the days of knights in armor, the picturesque griffin came to be used as a heraldic symbol.

Perhaps the funniest pictures of griffins ever made were those drawn by John Tenniel for "Alice's Adventures in Wonderland." Our picture is based on one of these, showing a griffin dancing the Lobster-Quadrille. Check chapter X of Louis Carroll's immortal book.

In New 'Pollsmanship,' Everybody's 100 Pct.

By DICK WEST

WASHINGTON (UPI) — Rep. Thomas R. Rees, D-Calif., recently favored his constituents and other interested parties with a thesis on "pollsmanship."

WEST

He developed the theme that almost any point of view can be supported with some sort of survey, and frequently is.

Then Rees proceeded to support his own point of view with some sort of survey.

He published a survey showing that for the second straight year all members of the U.S. House of Representatives are 100 per cent.

Acting on behalf of Americans for good habits AGH — pronounced "aaagh!", Rees analyzed 14 key roll call votes taken in the House this year.

* * *

In each case, the vote was unanimous. Which, under the mathematical system commonly used in the Western Hemisphere, figures out to 100 per cent.

PEACEFUL UNITY

On the basis of this finding, AGH gave each lawmaker a 100 per cent rating.

"AGH stresses the peaceful unity of purpose which has enveloped this first session of the 90th Congress," Rees explained.

It may be argued that the AGH survey did not take into account all of the roll calls taken in the House this year.

* * *

Well, heavens to Betsy! What survey does?

BASED ON SAMPLES

Polls and surveys are customarily based on samples. Any fool knows that.

If Rees wants to use unanimous votes for the AGH survey, which is often spoken of as "the rating system with a heart," I say he's entitled.

The important thing to consider here is that the results are identical to last year's AGH survey.

* * *

In 1966, when the political complexion of the House was a good bit different from what it is now, the unanimous roll call votes nevertheless averaged out to 100 per cent.

COMFORTING

Thus the survey is both comforting and reassuring as we faced up to the prospect of another congressional election next year.

The law of probability leads us to expect that no matter who wins, in the AGH survey he will pan out 100 per cent.

* * *

Considering what the law of probability leads us to expect in the way of election winners, this is no small consolation.

SAMPLING—Officers of the Pontiac Northern High School Varsity Club, (from left) Mike Harroun, vice president; Dana Coin, president; John Willson, treasurer; Robert Wright, sergeant-at-arms; and Gary Cotter, secretary, take time out from selling their wares at the concession stand to sample a few. Richard Hall is sponsor of the letter club.

PNH Club Stresses Service

By BETTY ATWELL

Pontiac Northern's Varsity Club puts its emphasis on service.

For example, during varsity games, club members man the concession stand, selling popcorn, soft drinks, candy bars and other goodies.

This year club officers are Dana Coin, president; Mike Harroun, vice president; Gary Cotter, secretary; John Willson, treasurer; and Robert Wright, sergeant-at-arms.

To be a club member an applicant must have a varsity letter, must be eligible to be a member of an athletic team at Northern and must have high moral and ethical standards and scholastic achievement.

★ ★ ★

Under the direction of club sponsor Richard Hall, members work throughout the year to benefit the school.

VALENTINE DANCE

In February, the organization sponsors a Valentine dance. At homecoming, the Varsity Club awards a trophy to the most attractive float.

The Ugly Athlete Contest is also sponsored by the club.

Christmas time is near and Varsity Club members will give Northern students an opportunity to tell Santa their innermost wishes in his cafeteria workshop.

Club members are now undergoing the task of restoring the PNH bell to its traditional Northern colors of red and white. It was "borrowed" by Central where it was painted orange and black.

Activities are also planned for club members and their dates.

These include a hayride, a swim night every two weeks or so, and a reserved "pep section" at varsity games.

Although the sole purpose of the Varsity Club is to serve others, the 75 members have an opportunity to help themselves, too.

★ ★ ★

College scholarships are awarded members who prove outstanding athletically as well as scholastically.

★ ★ ★

"The boys also benefit through the experience of accepting responsiblities and experiencing the good feeling of donating their time and profits to others," stated Coach Hall.

It's the Real Thing!

Excitement Added to Groves Fire Drill

By BENITA ROSEN

Fire drills are a relatively routine occurence at Wylie E. Groves High School. The intermittent "beeps" that warn the students to clear the building in a drill are more than welcome during warm weather or in the middle of a geometry test.

However, when a fire alarm was sounded Nov. 14, Groves students groaned as they shuffled down the halls to the outside to stand the prescribed distance from the building.

The ground was slushy and a light snow was beginning to fall. After standing outside for a brief time, more for ceremony than anything else, the shivering students went back to their classrooms.

A few moments later these same students were ordered to go back outside. It seems that the fire drill had an extra added attraction, a real honest-to-goodness fire!

★ ★ ★

"Those fire trucks aren't fooling around. There's a real fire!" exclaimed a surprised world history teacher.

RUMORS

Modern day Paul Reveres had a field day as they ran from hall to hall spreading rumors concerning the source of the fire. Fortunately, the stories were quite exaggerated and far more destructive-sounding than the actual fire.

The fire started in a storeroom near the boys' auxiliary gym where two sophomore boys were sacking foam used in wrestling mats.

According to the boys, the fire started unexplainably when the foam burst suddenly into flames. The blaze was said to have started by spontaneous combustion or perhaps by a spark from a nearby heater.

★ ★ ★

The fire is still being investigated and a definite cause has not yet been determined.

FIRE DAMAGE

Damage was most extensive in the roof area, which included the heating and electrical systems for that wing of the building. Football equipment in the storeroom was scorched and charred.

Water seeped through the walls and caused the floor of the main gym to warp. The curtains and the piano on the stage will also have to be repaired.

An estimate of the total damage has not yet been determined.

Student reactions to the fire were widely varied.

★ ★ ★

One disapointed student was heard to complain, "The one day I get to go to the library from auxiliary study hall, something exciting happens over there."

'SILVER LINING'

Some students tried to look for the silver lining in the clouds of smoke. Refering to the fact that the school had been quite cold lately, one student quipped, "Hey, they finally got the heat working!"

There were many local and national political remarks. "I'm sure this was a communist-inspired plot!" said one tight-lipped junior. "Let's see if Seaholm can top this!" squealed an exuberant sophomore.

One statement from a philosophic student was particularly profound. "Groves is cold 'cause all the heat stays in the walls and closets. So when some sophomore opened a closet, it blew up."

★ ★ ★

All the chatter was quickly summed up by one person who said, "Boy, are we spreading the neatest rumors."

Mott Election Results

By JOAN EDGINTON

Waterford Mott's newly elected Student Council officers were presented to the student body Monday morning by Daniel Hogan, principal.

★ ★ ★

Jim Durnbaugh is chairman, Larry Gibons, vice chairman; Mari Lynn Hutson, recording secretary; Cindy Ewer, corresponding secretary; and Rita Rodriguez, treasurer. They began their duties Monday, at the regular meeting of the student government.

Drama Club, under the direction of Harriet Davidson, has cast and started work on its first production. The group chose Charles Dicken's "Christmas Carol" to be presented Dec. 21 for the Mott student body.

The Foreign Exchange Club, is busy making plans for its summer adventures to various European countries.

★ ★ ★

The club recently elected Ann Edwards, president; Cinda White, vice president; Marta Karwas, recording secretary; Sandy Jarred, corresponding secretary; and Jean Barton, treasurer.

Lake Orion Juniors Selling Candles

By DIANE CHAMBERLAIN

The flame of ingenuity burns brightly at Lake Orion High School as the junior class raises money for its senior trip next school year.

★ ★ ★

Under the direction of class adviser A. A. Schilling, members of the class of '69 are vigorously selling Christmas candles door-to-door.

The candles sell for a nominal sum and are constructed of reusable brandy glasses filled with scented candle wax of bayberry or pine.

The sparkling glitter which coats the exterior of the glass is available in a variety of colors. A snow-dappled miniature pine cone and a bright sprig of holly decorate the stem of each glass.

Pep Club was busy making sure spirits soared today as basketball season officially began. Booster Badges went on sale as well as "shu shu" wands to enliven students' spirits. A pep assembly during school hours was also held.

WTHS Class Readies Play for Area Schools

By MARY JERGOVICH

Waterford Township High School play production class will present "Toad of Toad Hall," by A. A. Milne, at area schools.

"Toad of Toad Hall" is a story of the adventures of a very mischievous toad who is always finding himself in trouble.

The play will be given tomorrow at Mason Junior High at 10 a.m. and 1 p. m. Wednesday at Cherokee Hills; Thursday, Fourtowns; Dec. 8, Della Lutes; and Dec. 12, Lotus Lake.

Final performances will be made Dec. 13 at Pontiac Lake; Dec. 14 at Beaumont, and Dec. 15 at Silver Lake elementary schools.

★ ★ ★

Tom Whaley and Dan Ellenbrook will portray the toad; Mary Reynolds and Harriet Mansfield, mole; Carol Schaad and Sally Nelson, rat; and John Neff and Mike Moore, badger.

THREE CHIEFS

Chief ferret will be JoAnn Reid with Sherry Pilet, chief weasel; Judi Gaines, chief stoat; Paula Welch, first field mouse; and Carla Model, second field mouse.

Others are: Dan Sherman, policeman; Duane Williams, usher; John Gaines and Jim Main, judge; Linda Gronsky and Geni Thurston, Phoebe; and Carol Conture and Sherri Hyde, washerwoman.

Concluding the cast is: Diane Fitzhenry and Tom Whaley, ferrets; Harriet Mansfield and Liz Patrick, stoats; John Neff, Mike Moore and Cindy Heming, weasles; and Diane Greenthal, Rick Sherman, Dave Beaudry and Linda Craig, mice.

★ ★ ★

Anne Hobart, speech teacher, will direct the play aided by Liz Patrick, assistant director, and speech teachers Michael Job and Hoyt Byrum, producers.

BEHIND-THE-SCENES

Committee chairmen for the play are: Pat Tedder, props; Debbie Kahn, costumes; Jay Dalton, sets; Nanci Clay and Marti McAllister, publicity; and Bob Griffin and Dave Bowmaster, lights and sound.

The sophomore class will present "The Purple Haze" tonight from 7-10 p.m. in the school gymnasium.

School clothes will be the attire for the dance which is open to both Township and Mott students.

Entertainment will be provided by the Inventions and the Tribe.

WTHS Fall sports award banquet was held earlier this week to honor all Waterford fall sports participants.

Awards were given to members of the football teams, cross country, girls' tennis, Girls Athletic Association and cheerleaders.

The football team elected Steve Goit most valuable player and named Greg Ballard, honorary captain.

Dave Galloway was chosen most valuable runner on the cross-country team, while Jim Way was voted most improved runner and Bill Martin, most spirited.

Pontiac Press Photo

FROM HERE, WHERE?—West Bloomfield High School Chess Club sponsor William Porter ponders the next move as senior Linda McLean moves her bishop into place. New this semester, the club is cosponsored by A. A. Ruggers.

Chess Club Is on the Move at West Bloomfield High

By BOB BROWNE

Many a "battle royal" has been waged at West Bloomfield during the past few weeks as members of the Chess Club challenged each other in the ancient game of skill and strategy.

★ ★ ★

The club, in existence for six weeks, is organized on an informal basis. However, sponsors William Porter and A. A. Ruggers feel that with time and seasoning, members may be able to challenge other area schools to matches with some hope of success.

The club is meeting every week with members taking on all comers.

Tuesday was highlighted by the second round of Wayne-Oakland League's debate, with affirmative and negative teams from Waterford Kettering, Bloomfield Hills, Clarkston, Northville and West Bloomfield participating.

★ ★ ★

This year's topic deals with the crime problem in the United States, "Resolved: That Congress should establish uniform criminal investigation procedures."

The debate team traveled to Birmingham Groves High School Wednesday for its first contest in the newly formed Oakland "B" League.

This week was "Gripe Week" at WBHS as the Student Council attempts to bring the students closer to the Council by airing complaints.

Suggestions for the improvement of the school have been flowing into the suggestion box all week. They are now being studied by the council committee.

★ ★ ★

A special assembly will soon present the problems to the students and the administration and try to find workable solutions.

★ ★ ★

Today the Varsity Club held its first organizational meeting.

Firemen Talk on Detroit Riots

By PENNY McMILLEN

Four area firemen spoke to the Adlai E. Stevenson High School student body Monday about their role in the Detroit riots.

★ ★ ★

Bernard Calka, assistant chief of the Sterling Township Fire Department, gave his interpretation of the riots.

Calka and his colleagues not only battled the extensive heat and danger involved in any fire, but they also had to cope with flying glass and rocks and snipers' bullets.

The squad had fought fires for 12 consecutive hours before relief arrived.

★ ★ ★

Fire-fighters Stanley Poterek, Larry Crawford and Ronald Atkinson contributed to the discussion.

FILM ON WATTS

SHS students were shown a film on the August 1965 Watts riot in Los Angeles.

It will take a very active student to keep the pace with tonight's activities. Basketball fans will be able to watch their varsity Titans meet their first opponents.

Others may spend the night watching the SHS swimming team open its first season.

★ ★ ★

And still others may prefer to witness the antics on stage during "Everybody Loves Opal," which will be presented Saturday also.

★ ★ ★

A Student Council dance at the school later that evening will serve as a fitting end to a busy day.

CAN ATTEND

Seniors and juniors can attend the Ibsen play "John Gabriel Borkman" Tuesday at the Meadow Brook Theatre.

★ ★ ★

All SHS students will be granted leave from daily schools hours on Wednesday, which has been designated an in-service day for teachers.

★ ★ ★

SHS's Student Council has designated six best-dressed students: Sue Hendricks and John Betrand, seniors; Janice Adams and Sam Madden, juniors; and Corky Priehs and Tim Baruth, sophomores.

Five Troy Students Start Class in Biochemistry

By LINDA SWEET

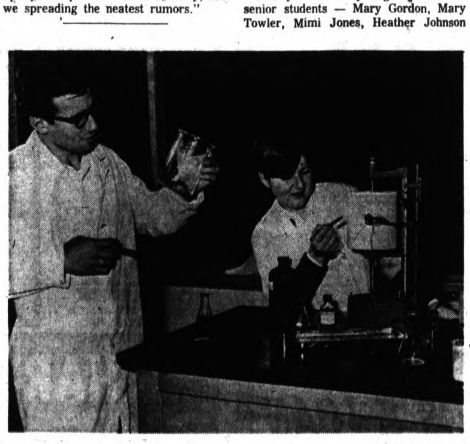

This year at Troy High School five senior students — Mary Gordon, Mary Towler, Mimi Jones, Heather Johnson and Larry Geno — have formed a biochemistry class instructed by chemistry teacher Mrs. A. A. Mitchell. Prerequisites of the course are two years of biology and one year of chemistry.

Rather than the usual curriculum, individual projects are selected according to interest. The projects involve independent research under Mrs. Mitchell's supervision.

Grading takes into consideration a class recitation and a scientifically written research paper on the chosen topic. A new project is chosen each marking period.

Larry Geno's project tests the effect of intravenous stimulant and depressant drugs on the cardiac cycle of the grass frog and Mary Gordon's tests the effects of certain drugs on euglena and tetrahymena.

The projects involve such basic scientific devices as the kymograph and common drugs such as caffeine and codeine.

Pontiac Press Photo

NEW COURSE—Larry Geno and Mary Gordon, seniors at Troy High School, continue their experiments in the new biochemistry class. Mrs. A. A. Mitchell guides the students' independent research. Enrollees must have a minimum of two years of biology and one of chemistry.

DAR AWARD

Seniors voted secretary of the class, Nancy Peski, as the recipient of the Daughters of the American Revolution award. She is now eligible for the group's scholarship competition.

Monday evening the Troy High School Marching Band presented a concert in the gym. Highlight of the program was installation of the 1968 drum major, Ron Barnard. This year's drum major, Greg Charney, bestowed the honor.

ECHS Gets 'Lancer'

By JOHN SINER

A massive 9-by-12 foot painting of a mounted, "Lancer," Emmanuel Christian High School's symbol, is framed on the gym's north wall.

It was painted in maroon and white, ECHS colors, by senior Jon Synar.

★ ★ ★

Painted on canvas in oil and fresco paints, it will serve as a pep booster at all future pregame assemblies and replace a smaller painting used during last year's basketball season.

SCHOOL NEWS ROUNDUP

Oxford

By CLARA CALLAHAN

What's six feet tall, eats money and lives at Oxford High School?

★ ★ ★

It is the new Coke machine recently installed in the student center by the Student Council. Coke may be purchased until 8:20 a.m. and right after school.

Swinging Home Economists, the OHS version of a home economics club, is collecting presweetened powdered soft drinks to send to Vietnam for the armed forces.

Saturday, the senior class is holding a bake sale at the Oxford Bank.

★ ★ ★

Last Saturday, the high school band performed one of its many duties as it led the Christmas parade through downtown Oxford.

Dominican

By ANDI BARNES

Each Dominican Academy class is striving to build its treasury, and the freshmen are no exception.

★ ★ ★

The frosh have haunted every homeroom for the past week selling raffle tickets. Today they raffled off three stuffed animals and a huge Raggedy Ann doll.

Avondale

By JAN MALANE

Next week is Spirit Week at Avondale High School. Sponsored by the Spirit Risers in observance of the beginning of basketball season, each day will feature a different activity.

★ ★ ★

Monday, there will be a room decorating contest for the teachers. Tuesday, the four classes will compete for the title of "The Most Spirited Class."

Every student and teacher is to wear a crazy tie on Wednesday. Thursday is team recognition day.

Every student and teacher will sign a victory scroll that will be presented to the team. Also, Loraine Anderson of the home economics department is preparing a spaghetti dinner for the team.

★ ★ ★

Friday will bring an eventful climax to the week-long activities with an hour-long assembly featuring root beer chugging contest and a skit. Everyone is to dress-up and wear a booster badge.

SOCK HOP

Following the basketball game Friday night, the Future Teachers of America will sponsor a sock hop.

★ ★ ★

The AHS Yellow Jacket Marching Band will march tomorrow in the Rochester's annual Christmas parade.

★ ★ ★

Sally Tompkins, AHS's Daughters of the American Revolution representative, will attend a luncheon for all the area representatives on Thursday. Sally was selected by the senior class.

Novi

By THOM HOLMES

Novi High School will present a three-act play entitled "Dino" by Reginald Rose tonight at 8. A second performance will be presented tomorrow.

Directing the cast is Calvin Schmucker, English teacher.

The Student Council's Cooperative Dinner Dance, held Wednesday, made a profit of about $45.

★ ★ ★

"Willy," our stuffed wildcat mascot, was awarded to the freshman class this month, for the largest attendance at the event.

★ ★ ★

The Student Council has approved a bid to start a Spanish Club which would be open to new and old Spanish students.

Our Lady

Cheerleaders at Our Lady of the Lakes have been relaxing for the last three weeks. Now, with basketball season upon us, they are back on the job.

★ ★ ★

On the varsity squad this year are Captain Joyce Puddy, Rosie Mauro, Anna May McAllistet, Diane Green, seniors; and Kathy Budnik and Anna Marie Matzelle, juniors.

The cheerleaders under their coach, Mrs. Michael Boyd, bought new uniforms with a blue sweater instead of the traditional white one. Their skirts are blue with white inserts.

They have also purchased varsity jackets which is also something new at Lakes. The squad was cut down from eight girls to six as was the junior varsity.

★ ★ ★

The junior varsity, coached by Lynne Springer, also has new uniforms this year. Their sweater is white and their skirt is also blue with white inserts.

★ ★ ★

Sophomore Colleen O'Malley is captain. Others on the squad are Sue Budnik, Kathy Soave, Judy Mauro, Mary Stevenson and Ann Hoffman.

Brandon

By MICHAEL COOPER

Several groups sponsored by Kenneth Stubblefield have scheduled activities for Brandon High School this week.

★ ★ ★

Stubblefield's debate team, which includes Sandy Tilton, Sigrid Medlen, Debbie Ball and Ray Geeck opened the new debate season against Clarkston yesterday. The Oakland "C" League includes Clarkston, Taylor Center, Lincoln Park and Brandon.

The contemporary history club, which is also under Stubblefield's direction has a record hop scheduled for tonight after the opening basketball game against Flint's Holy Rosary. It will be held in the BHS cafeteria.

Stubblefield has announced that his speech class will present a play entitled "No Boys Allowed." The play will be presented Dec. 9.

★ ★ ★

Student directors are Lisa Troyer and Vicki Hitchcock. The major roles are held by Marge Wideman, Gary Barns, Bill McDonald, Carol Wright and Gregg Schultz.

★ ★ ★

Supporting cast is Ed Rexford, Sheryl Sellers, Sharon Lundquist, Peggy Shepard, Ray Geeck, Terry Smith, Leanne Hoffman, Duane Stowell and Debbie Pacer.

Holly

By MARCIA CLARK

Holly High School music department will present its annual Christmas concert Dec. 17. Darrell Burget will direct.

★ ★ ★

Fred Ohlmacher, biology teacher, had the 10-point buck he shot on display at the school.

★ ★ ★

The girls' volleyball tournaments are under way.

The team winning the elimination tournament will receive the championship.

First Yearbook Assembly Held at Pontiac Catholic

By DEBBIE ROCHON

Pontiac Catholic High School held its first yearbook assembly this week. The entire student body met with the yearbook staff who presented a program and discussed plans to raise money for the annual publication.

After the assembly, a pep rally roused spirit for tonight's game against Our Lady of Sorrows.

Freshmen on the honor roll at PC are Paulette Bochnig, Joyce Chambers, Kathy Christian, Teresa Daly, Bridget Denihan, Denise Deuman, Pam Groleau, Mike Lavoie, Jim Lindsay, Phil Maitalski, Cecilia Skubick, Marie Slavin, Marilyn Swiscicki and May Wiley.

Sophomore honor students are Marilyn Albrecht, Debbie Campbell, Carmen Guillean, Herb Larson, Mary Lopez, John Parle, Rich Polmear, Susan Schmansky, Adel Biallas, Tom Bleau, Mike Couture, Tom Jamnik, Mary Lafave and Mary Lepisto.

★ ★ ★

Honor roll members in the junior class are Geri Blanzy, Debbie Deuman, Karen Fuller, Linda Guzman, Sharon Hurren, Rebecca Spurck, Joanne Cook, Geriann Klinkhamer, Jane Staszkiewicz and Jim LaLonde.

Completing the list are seniors Mary Denihan, Gretchen Gallagher, Rick Land, Frank Olesky, Judy Pepples, Mark Staszkiewicz, Barb Tewksbury, Maria Bora, Buddy Cook, Maurice Finnegan, Beth Garland, Elaine Nevells, Kathy Slabinski, Noreen Spanski, Don Taylor, Atwood Lynn and Joseph Nurek.

★ ★ ★

The cheerleaders, sponsoring the sale of school jackets to the student body, plan to use the profits to attend a cheerleading camp next summer.

★ ★ ★

The girls hope to profit by seeing other cheerleading squads in action.

Teens Nix Peace Corps Legislation

On March 1, 1961, President John F. Kennedy issued executive order No. 10924 creating the United States Peace Corps to promote world peace and friendship "by making available to interested nations Americans willing to serve overseas and help people of various countries meet their needs for trained manpower."

★ ★ ★

Since its inception, many commentators have favored legislation making Peace Corps Service a substitute for Armed Forces duty, but nothing has come of it.

Since any such decision would affect teen-agers, we asked over a thousand boys and girls for their views on the subject.

Our conservative teens surprised us again. Only 41 per cent of all the boys and girls polled favored legislation offering the Peace Corps as an alternative to the draft. The largest group, 50 per cent, opposed the idea; nine per cent were undecided. It was the girls, who don't face compulsory military service, who led the opposition.

★ ★ ★

Sixty-two per cent of them, contrasting with only 34 per cent of the males, opposed legislation which would give youths a choice of Peace Corps duty or enlistment in the armed services.

DRAFT-DODGER THREAT

Most of the teen-agers who vetoed the possibility of any substitution voiced the fear that many draft-dodgers would take the easy way out.

Ann Schneider, 16, of Louisville, Ky. is afraid that "If everybody joined the Peace Corps, who would be left to protect our country?"

Some reflective young people saw a possible reduction in the Peace Corp's effectiveness if service in this organization were made inter-changeable with military duty.

Trading Fairly Active

Market Shows a Small Loss

NEW YORK (AP) — The stock market showed a little loss on average early this afternoon. Trading was fairly active.

The Dow Jones industrial average at noon was down 2.43 at 873.38.

A few more stocks rose than fell on the New York Stock Exchange.

Selective weakness in blue chips accounted for the drop on average even though a number of the most actively traded issues attracted speculative buying and moved ahead nicely.

Wall Street was cautious following Thursday's sharp drop. The apparent shelving of the income surtax proposal for this year tended to dampen the optimism of those who looked to that measure, combined with cost-cutting in government, to bring about more stable monetary conditions.

The Associated Press average of 60 stocks at noon was off 4 at 314.3 with industrials off 1.0, rails up .3 and utilities off .3.

The rails average was firmed by a rise of 4 or 5 points by tories.

Great Northern which was encouraged by news that the Interstate Commerce Commission had approved the Northern Lines Railroad merger.

Among actively traded issues, Stelma and LTV Aerospace gained 2 or more while Desert Pharmaceutical dropped 2 points. Gains of a point or more were made by Gale Industries, Ryan Consolidated Petroleum, Scurry Rainbow Oil, American Safety Equipment, Nytronics, AM KCorp. and Tyco Laboratories.

ORDINANCE NO. 944-63
Adopted November 28, 1967
Effective December 8, 1967

An Ordinance to Amend the Building Zone Map of Ordinance No. 944, known as "The Building Zone Ordinance."

The City of Pontiac Ordains:

Section 1:

The Building Zone Map of the Building Zone Ordinance is hereby amended to provide that the land in the description hereinafter set forth be classified as Commercial 1.

Lot 10 Assessor's Plat No. 6, City of Pontiac, Oakland County, Michigan.

Section 2:

The change in the Building Zone Map in the above area to Commercial 1 is made pursuant to the recommendation of the City Plan Commission and said Commission is hereby appointed to make a final report upon this amendment to this Commission previous to the public hearing to be held before this amendment is adopted, pursuant to Section 4 of Act No. 207 of the Public Acts of 1921, as amended.

Section 3:

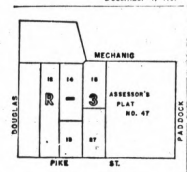

That not less than fifteen (15) days notice of the time and place of the public hearing on the final passage of this amendment shall be given in a newspaper of general circulation in this city; that such public hearing is hereby fixed at November 28, 1967.

Section 4:

This ordinance shall take effect ten (10) days from and after the date of its passage by the City Commission of the City of Pontiac.

Made and passed by the City Commission of the City of Pontiac, this 28th day of November, A.D. 1967.

WILLIAM H. TAYLOR JR.
Mayor
OLGA BARKELEY
City Clerk
December 1, 1967

ORDINANCE NO. 944-65
Adopted November 28, 1967
Effective December 8, 1967

An Ordinance to Amend the Building Zone Map of Ordinance No. 944, known as "The Building Zone Ordinance."

The City of Pontiac Ordains:

Section 1:

The Building Zone Map of the Building Zone Ordinance is hereby amended to provide that the land in the description hereinafter set forth be classified as Residential 3.

Lots 12, 13, 14, 15, and 27 Assessor's Plat No. 47, City of Pontiac, Oakland County, Michigan.

Section 2:

The change in the Building Zone Map in the above area to Residential 3 is made pursuant to the recommendation of the City Plan Commission and said Commission is hereby appointed to make a final report upon this amendment to this Commission previous to the public hearing to be held before this amendment is adopted, pursuant to Section 4 of Act No. 207 of the Public Acts of 1921, as amended.

Section 3:

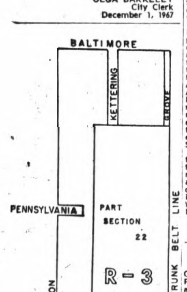

That not less than fifteen (15) days notice of the time and place of the public hearing on the final passage of this amendment shall be given in a newspaper of general circulation in this city; that such public hearing is hereby fixed at November 28, 1967.

Section 4:

This ordinance shall take effect ten (10) days from and after the date of its passage by the City Commission of the City of Pontiac.

Made and passed by the City Commission of the City of Pontiac, this 28th day of November, A.D. 1967.

WILLIAM H. TAYLOR JR.
Mayor

Chase Case in Circuit Court

A White Lake Township man, arrested Oct. 24 for allegedly fleeing a Waterford Township police officer in a high-speed automobile chase, was bound over to Oakland County Circuit Court yesterday following his preliminary examination before Waterford Township Justice Kenneth Hempstead.

William F. Phillips, 21, of 9136 Buckingham is scheduled to be arraigned before Circuit Judge Clark Adams Dec. 20 on a charge of "disobedience of a police signal." He has been released on $100 bond.

Patrolman Glenn Luehmann arrested Phillips after he allegedly clocked the suspect traveling 85 miles per hour in a 40 m.p.h. speed zone on Pontiac Lake Road near Cass Lake Road.

A five-mile chase followed, in which speeds reached 120 miles an hour, according to Luehmann.

The suspect was arrested in a driveway at 5663 M59 after he encountered a roadblock at M59 and Dundee.

NOTICE OF SPECIAL ASSESSMENT
Sidewalk on Bennett Court.

TO: Charles McPhearson and to all persons interested, take notice: That the roll of the Special Assessment heretofore made by the City Assessor for the purpose of defraying that part of the cost which the Commission decided should be paid and borne by special assessment for the construction of sidewalk on south side of Bennett Court from Baldwin Avenue to 119 feet West is now on file in my office for public inspection.

ORDINANCE NO. 944-62
Adopted November 28, 1967
Effective December 8, 1967

An Ordinance to Amend the Building Zone Map of Ordinance No. 944, known as "The Building Zone Ordinance."

The City of Pontiac Ordains:

Section 1:

The Building Zone Map of the Building Zone Ordinance is hereby amended to provide that the land in the description hereinafter set forth be classified as Personal Service.

Lots 397-400 both inclusive, Seminole Hills Subdivision, City of Pontiac, Oakland County, Michigan.

Section 2:

The change in the Building Zone Map in the above area to Personal Service is made pursuant to the recommendation of the City Plan Commission and said Commission is hereby appointed to make a final report upon this amendment to this Commission previous to the public hearing to be held before this amendment is adopted, pursuant to Section 4 of Act No. 207 of the Public Acts of 1921, as amended.

Section 3:

That not less than fifteen (15) days notice of the time and place of the public hearing on the final passage of this amendment shall be given in a newspaper of general circulation in this city; that such public hearing is hereby fixed at November 28, 1967.

Section 4:

This ordinance shall take effect ten (10) days from and after the date of its passage by the City Commission of the City of Pontiac.

Made and passed by the City Commission of the City of Pontiac, this 28th day of November, A.D. 1967.

THEY'LL BE AWAY — Mrs. William Stillwell's husband and three sons — Billy, 21, Bobby, 20, and Jack, 18 — will miss Christmas at their rural home near Goldsboro, N.C., this year. The father, a technical sergeant in the Air Force, is with the oldest son in Vietnam, while the younger two are on their way. The three sons are in the Army.

Father, Brother Already in Viet

Last of 3 Sons Enters Army

GOLDSBORO, N.C. (AP) — T. Sgt. William R. Stillwell retired from the Air Force in 1963 after 23 years service. He reenlisted and volunteered for combat duty as the Vietnam war escalated and after his two oldest sons were drafted into the Army last year.

Julia Stillwell's husband and three sons will miss Christmas at their North Carolina home this year because all four are in the armed services—two in Vietnam and another on his way to the combat zone.

Billy Stillwell, 21, has been serving in Vietnam since March and Bobby Stillwell, 20, received orders this week to depart for the combat zone.

Jack Stillwell, 18, enlisted in the Army Monday.

HE DIDN'T KNOW

Mrs. Stillwell, who makes her home at Rt. 2, Goldsboro, said her husband told her in a recent letter: "Maybe Billy and I can be together for Christmas, since you will have the other two boys." He had not learned of Bobby's orders or Jack's enlistment.

Mrs. Stillwell says she has occasional pangs of loneliness but refuses to complain. Her sacrifice, she says, is small when compared to the sacrifices made by her husband and sons and other Americans fighting in Southeast Asia.

Deaths in Pontiac Area

Wilbur K. Powell

Service for Wilbur K. Powell, 52, of 1229 Orchid, Waterford Township, will be 1:30 p.m. Monday at Waterford Community Church with burial in Lakeview Cemetery, Independence Township, by the Donelson-Johns Funeral Home.

Mr. Powell, a supervisor at GMC Truck & Coach Division, died Wednesday. He was a member of the Waterford Community Church.

Surviving are his wife, Mary L.; four children, Mrs. Martha Revoir and Mrs. Carolyn Lenschmidt, both of Pontiac and Dixie L. and Charles L., both at home; two sisters, including Mrs. Anna Stack of Holly; and three grandchildren.

William L. Taylor

Service for William L. Taylor, 59, of 974 Argle will be 11 a.m. tomorrow at Sparks-Griffin Chapel with burial in White Chapel Memorial Cemetery, Troy.

Mr. Taylor, a member of First Methodist Church, died Wednesday. He was employed at Clinton Junior High School, Oak Park.

Surviving are his wife, Kathleen; his stepmother, Mrs. Elizabeth Taylor of Troy; three daughters, Mrs. Jean Hall, Mrs. Noreen Rice and Shirley Taylor, all of Pontiac; three grandchildren; a stepsister, Mrs. Helen Willcock of Troy; two sisters; and two brothers.

Mrs. Silas Thick

Service for former Pontiac resident Mrs. Silas (Nellie) Thick, 86, of Fort Lauderdale, Fla., will be at the Jennings Funeral Home there.

Mrs. Thick, a member of the First Assembly of God Church in Pontiac, died Wednesday.

Surviving are two sons, Roy Logan of Fort Lauderdale and Lowell Logan of Terre Haute, Ind.; two daughters, Mrs. Glenford Thick of Pontiac and Mrs. Walter Oldfield of Fort Lauderdale; two stepsons, Glenford Thick of Pontiac and Duane Thick of Walled Lake; one stepdaughter, Mrs. Roy Logan of Fort Lauderdale; seven grandchildren; and 10 great-grandchildren.

Peter E. Voorheis

Service and burial for former Waterford Township resident Peter E. Voorheis of Denver, Colo., will be in Denver tomorrow.

Mr. Voorheis, 79, died yesterday. He was a retired employe of Gates Rubber Co.

Surviving are his wife, Myrtle; a daughter, Mrs. Martha Garrett of Denver; two sons, Howard and Peter Jr., both of Denver; and nine grandchildren.

Orie Hathaway

LAPEER TOWNSHIP — Service for Orie Hathaway, 82, of 948 Turrill will be 1 p.m. tomorrow at Muir Brothers Funeral Home, Lapeer. Burial will be in Mount Hope Cemetery, Lapeer.

Mr. Hathaway, a retired gardener for the Lapeer State Home died Wednesday.

Surviving are a daughter, Mrs. Delbert Beard of Lapeer; three grandchildren; four great-grandchildren; and a sister.

William H. Looney

BIRMINGHAM — Service for William H. Looney, of 1415 E. Maple will be 10:30 Monday at LaFave Funeral Home Stambaugh. Burial will be in Stambaugh Cemetery. Local arrangements are by Donelson-Johns Funeral Home, Pontiac.

Mr. Looney, retired superintendent of production for International Salt Co. and a civil engineer, died yesterday.

He was a member of the Iron River Presbyterian Church, American Legion Post No. 21 of Stambaugh, Lodge No. 457, F&AM, of Iron River and Elks Lodge No. 1945, Dearborn.

Surviving are a son, Derril F. of Birmingham; two brothers; a sister; and a graddaughter.

Memorials may be made to the Michigan Cancer Foundation, 64 W. Lawrence, Pontiac.

Floyd G. Townsend

METAMORA — Service for Floyd G. Townsend, 67, of 4081 Center will be 3 p.m. tomorrow at Muir Brothers Funeral Home, Lapeer. Burial will be in Greens Corners Cemetery, Hadley Township.

Mr. Townsend, a retired carpenter, died Wednesday.

Surviving are his wife, Hazel; three sons, Robert of Dryden, Kenneth of Oxford and George of Metamora; two daughters, Mrs. Donald Hardwick and Mrs. Billy Skellenger, both of Metamora; 15 grandchildren; and four great-grandchildren.

Roy A. Tyranski

COMMERCE TOWNSHIP — Service for Roy A. Tyranski, 41, of 6036 Brockway will be 2 p.m. Sunday at Shepherd of the Lakes Evangelical Lutheran Church, Walled Lake. Burial will be in Commerce Cemetery.

A Veterans of Foreigns Wars memorial service will be 8 p.m. tomorrow at the Elton Black Funeral Home, Union Lake.

Mr. Tyranski, employed at Haggerty Lumber Co., died yesterday. He belonged to the Veterans of Foreign Wars Oxbow Post No. 4156.

Surviving besides his wife, Jean, are two sons, Larry and Ronald and a daughter, Jill, all at home; his mother, Mrs. Paul StCyr of L'Anse; a sister; and a brother.

Memorials may be made to the Shepherd of the Lakes Evangelical Lutheran Church, Walled Lake.

The death rate for leukemia among the white population of the United States declined for the first time during the years from 1961 to 1965.

Perjury Trial Goes to Jury

Royal Oak JP Case Heard for 6 Weeks

An Oakland County Circuit Court jury today will begin considering six weeks of testimony heard during the perjury trial of Royal Oak Township Justice of the Peace Lonnie C. Cash.

The lengthly trial ended yesterday afternoon with Assistant Prosecutor James Roberts and defense attorney Thomas A. Howard of Detroit resting their cases.

Cash, 43, is accused of making four false statements when he appeared before Grand Juror Philip Pratt during a year-long investigation into vice and corruption in Royal Oak Township. Cash was suspended from performing his duties pending outcome of the trial.

One other count of perjury was dismissed at the outset of the trial by Circuit Jdge James S. Thorburn.

* * *

At the completion of the trial, Howard moved to have charges dismissed against Cash, but Thorburn denied the request, saying sufficient evidence had been produced to allow the jury to decide the case.

CONSPIRACY CHARGED

Cash contends there is a conspiracy between police and grand jury officials to "frame" him.

Pratt charged Cash lied when he testified in July 1965, and April 1966, that money had never been set aside for him by numbers men; that he had never given money to members of the township board to vote on a matter in which he had an interest; that i had never kicked back trai... ines to the then township police and fire coordinator Ernest Wilson; that he had been with state police man John Aird while Aird is alleged to have consorted with a prostitute.

Aird initiated the grand jury when he filed a petition asking for the investigation in June 1965.

* * *

When the inquiry ended the following June, Pratt had issued 21 indictments involving 23 defendants.

Fire Hits Home in Waterford

Fire broke out at the Henry Tilson home at 4035 Woodmere, Waterford Township, yesterday afternoon, causing an estimated $5,000 damage.

* * *

Township firemen, who used three pieces of equipment in bringing the fire under control in 15 minutes, estimated damage at $3,500 to the building and $1,500 to the contents.

The one-story ranch home was valued at $20,000.

Firemen said the fire was caused by faulty wiring in a living room table lamp. The fire was confined to the living room. However, extensive heat and smoke damage resulted throughout the house.

Firemen were summoned at 2:32 p.m. by Tilson, who returned home and found it in flames. The fire fighters returned to their stations at 3:24 p. m.

Detroit Man Arraigned in Area Break-In

When a 32-year-old man was arrested in Farmington Township for a traffic light offense, police found in his car four office machines allegedly taken from the West Hills Junior High, 2601 Lone Pine, West Bloomfield Township.

* * *

Bobby G. Dowdy, Detroit, pleaded innocent to charges of breaking and entering at his arraignment yesterday before West Bloomfield Township Justice Christian Powell. The suspect is in the Oakland County Jail in lieu of $1,000 bond.

His preliminary examination is Tuesday before Powell.

Dowdy had been put in the county jail for two days and fined for running the red blinking light, according to Farmington Township police who apprehended the suspect.

* * *

Farmington Township police found three electric typewriters and an adding machine in Dowdy's car.

City Woman Is Guilty in Drugs Case

A Pontiac woman arrested in a narcotics raid Aug. 29 was found guilty of one of four charges stemming from the raid and not guilty of two others at her trial in Municipal Court yesterday.

Sentenced to 90 days in Oakland County Jail on one count of illegal possession of hypnotic drugs was Gayle Soles, 23, of 697 Franklin Road.

She was remanded to jail in lieu of $500 appeal bond set by Municipal Judge Cecil B. McCallum.

Miss Soles was found not guilty of charges of illegal sale of drugs and keeping barbiturates in an illegal container.

* * *

She faces decision Dec. 13 on a second count of illegal possession.

PAIR ARRESTED

She and Oscar Lee Morgan, about 38, were arrested by Pontiac police vice officers at the Franklin Road address, where they both reportedly lived.

Morgan is charged with two counts of conspiracy to violate the hypnotic drug law.

Fire at Home and Garage Tied to Arson

Pontiac Fire Department officials today labeled as arson a fire late Wednesday at an occupied dwelling and a nearby garage.

Firemen responded to an alarm at 221½ Prospect about 11:30 p.m. and were at the scene about an hour.

Three vehicles under the command of Asst. Chief Albert Rayner were used to extinguish the blaze and another at the garage at 215 Prospect.

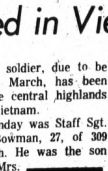

A spokesman for the fire marshall's office said both fires were set by piling up old papers and igniting them.

Damage was estimated at $2,000 to the one-story block construction home and $200 to the garage.

GI, Soon to Be Father, Killed in Viet Highlands

A Pontiac soldier, due to be a father in March, has been killed in the central highlands fighting in Vietnam.

Killed Monday was Staff Sgt. David F. Bowman, 27, of 309 S. Telegraph. He was the son of Mr. and Mrs. Frank L. Bowman of 3194 Eastwood, Avon Township.

BOWMAN

His wife, Eleapor, who is expecting a child, said Bowman left for Vietnam early, in October. He had been in the Army over six years and was considering a career in the service, she said.

Bowman had attended Avondale High School and was married 11 months ago. He met his wife, who is from Pineville, La., while serving at Ft. Polk, La.

Bowman had served as a drill instructor and prior to serving in Vietnam with the 1st Cavalry Division had taken jungle warfare training in Panama, his wife said.

The sergeant was killed by a booby trap while on a scouting mission against the Vietcong, according to the Army.

His body will be shipped to Harold Davis Funeral Home.

Surviving besides his wife and parents are two brothers, Bill of Rochester and Steve, at home; three sisters, Gayle, at home, and Mrs. Jane Roberts and Mrs. Robert Barnett, both of Pontiac.

Kidnap Suspect Is Arraigned

Charge He Abducted Dancer, Musician

An Avon Township man who allegedly kidnaped a nightclub belly dancer and a musician from a Detroit bar and released them unharmed in Macomb County was arraigned on the kidnaping charge yesterday.

Dennis Lee Eisenhardt, 27, of 2411 Emmons, an unemployed construction worker, appeared before Detroit Recorder's Judge Vincent J. Brennan and was scheduled for examination on Monday.

He is being held in Wayne County Jail in lieu of $50,000 bond.

The kidnap victims, 27-year-old Veronica Sendacki and Peter Uznajewicz, both of Detroit, told Romeo State Police they were released in the vicinity of 26 Mile Road and Dequindre, Shelby Township, at about 5:30 a.m. Wednesday following a four-hour drive after being abducted from the Wabash Bar on East Jefferson in Detroit earlier.

* * *

Eisenhardt was arrested after Romeo State Police received an anonymous telephone call that he was in the vicinity of a girlfriend's house in Rochester.

Police said they spotted him riding by in a car and arrested him.

Eisenhardt was later identified by the victims in a police lineup.

4 Appointed to Committee on Education

Four new members were appointed to Oakland Schools Board of Education's Citizens Advisory Committee on Special Education yesterday.

The new appointees on the board on the needs of special education in the county are:

Edward Collins, Royal Oak Board of Education; William Nance, 2183 Cobblestone, Birmingham and president of the Lost Decibles parents group; Mrs. Howard Davis, 5176 Echo, Bloomfield Township, of the Michigan Association of Emotionally Disturbed Children; and John Dickey, superintendent of Avondale Schools.

2nd Fair Housing Hearing Slated in Walled Lake

The second in a series of public hearings on the state's proposed fair housing law will be held Tuesday at 7:30 p.m. at the Walled Lake Senior High School, South Commerce and Oakley Park Roads.

* * *

The meeting was scheduled by State Representatives Clifford H. Smart, R-Walled Lake, and Loren D. Anderson, R-Waterford Township, to obtain opinions.

The controversial bill came under heavy attack at the first meeting conducted by the two legislators earlier this week in Waterford Township.

THE IMPOSSIBLE DREAM
The Vesely Company has done it again. Each year when the trailers arrive, we say to ourselves, "It can't be", however the 1968 Apaches are even better than ever. Featuring 4" cushions, stoves, and sinks at waist height, exterior water fill, collapsible dinette. These are only a few of the features that Apache offers you for 1968. Come in and browse around.

Answer to Previous Puzzle

Peer's Travel Standard Cut by Cut in the British Pound

By EARL WILSON

NEW YORK — Oh, that devaluation of the pound, my word! Lord Snowdon on his return to London from N.Y. will travel tourist class, setting a jolly good example.

The plan cherished by 20th Century-Fox to make screen lovers of Frank Sinatra and Mia Farrow (into a team like Liz Taylor and Richard Burton) has been scuttled since the Frank and Mia bustup . . . now Mia is definitely out of "The Detective" with Frank . . . and Faye Dunaway's a possibility to replace her. Jane Fonda, Yvette Mimieux, Suzanne Pleshette and Tuesday Weld are also being considered . . . Since Mia's breakup with Frank, Laurence Harvey's increasingly attentive to her.

WILSON

Cary Grant phoned the Colony Record Shop and asked for some George Shearing records, explaining that his host, Bob Taplinger, has some very dull, unimaginative records . . . "How do we know you're really Cary Grant?" asked co-owner Sid Turk . . . "What'm I supposed to do?" asked Grant . . . "Say 'Judy, Judy, Judy,'" Suggested Turk . . . Grant did, and got the records.

* * *

Howard Hughes now has four Las Vegas hotels since the Frontier board of directors approved the sale of that hotel to him (Desert Inn, Sands and Castaways are the others). It gives point to the comedians' gag about Hughes being seen walking on Lake Mead singing "This Land Is Mine."

THE MIDNIGHT EARL . . .

Hotelier **Morris Lansburgh, has Sammy Davis** under five year contract at his Miami Beach Deauville, and when **Sammy's reps asked** permission for him to appear occasionally with **Frank Sinatra** at the rival Fontainebleau, **Lansburgh** refused . . . The **H'wood** winds and rains collapsed the roof of **Jack Carter's** home. He says, "I now have the only indoor pool in the neighborhood."

TODAY'S BEST LAUGH: Al Gottlieb overheard this dialogue: "I called off my wedding at the last minute" . . . "Oh, lost your nerve?" . . . "No, found it."

WISH I'D SAID THAT: Remember, it's not really the size of the gift that counts — but whether it's deductible.—Wayne Kline, Evansville, Ind.

REMEMBERED QUOTE: "Life is like a bank account. You only get back what you put in. Experience is the interest."

EARL'S PEARLS: A certain former MGM actor's having trouble breaking into politics. He can't start a speech till he hears a lion roar.

Comic London Lee described a local hippie: "He's one of the Flower Children — in fact, the only way he'll travel is by Florists Telegraph Delivery." . . . That's earl, brother.

Car Insurers Cut Cancellation Grounds

NEW YORK (UPI) —Nonpayment of premiums or suspension of a driver's license will be the only reasons for cancellation of automobile insurance under a plan announced by two nationwide insurance firms.

The plan, slated to go into effect Jan. 1, was revealed this week by the National Underwriters Association and the National Bureau of Casualty Underwriters.

The insurance companies that will take part in the plan represent about 40 per cent of insured automobile owners in the United States.

Presently, there are seven reasons for which the companies can cancel a policy, including failure to report an auto accident, the use of a car while committing a felony, and various traffic violations of a serious nature.

School Given Antidraft Data

WICHITA, Kan. (AP) — An anti-Vietnam war committee has sent literature to Wichita High School counselors describing procedures available to conscientious objectors to the draft.

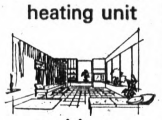

Dave Bills, minister of Christian education at University Friends church of Wichita, said Wednesday that permission to send the packets of material to counselors had been obtained from school administrators.

* * *

Bills said the packet originally contained one item referring to Vietnam and administrators "suggested this be removed to avoid stirring up emotionalism over this issue, and we did."

Atomic Age Was Born in U.S. 25 Years Ago Tomorrow

CHICAGO (UPI) — The west stands of Stagg Field at the University of Chicago are gone, but there's a reminder that a new age — the Atomic Age — was born in a squash court there 25 years ago tomorrow. A plaque says:

"On Dec. 2, 1942, man achieved here the first self-sustaining chain reaction and thereby initiated the controlled release of nuclear energy."

That day, years of scientific speculation became fact. A new energy source was created that would eventually light homes and power huge ships . . . and give man the ability to destroy his world with awesome weapons.

All was done in utmost secrecy. At about 8:30 in the morning, 42 scientists crowded into the 30-by-60-foot squash court under the west stands. In the center of the room stood a pile of black graphite bricks and timbers shrouded with a gray balloon cloth.

* * *

Square at the bottom and flattened like a beehive on top, the world's first atomic reactor looked like a glorified barbecue pit. It was literally an atomic "pile."

NEAR-PERFECT PREDICTION

Nobel Prize winner Enrico Fermi —he was to die of cancer in 1954 — had predicted alomst precisely at which brick the reaction would be self-sustaining.

There were three sets of rods to control the reaction. One set was automatic. Another was an energy rod tied to a rope which could be cut by an ax. The third rod, operated by George Weil, was the one which actually held the reaction in check until withdrawn the proper distance.

Since no one knew exactly what to expect, a "liquid control squad" stood on a platform above the pile, ready to flood it with a cadmium-salt solution to stop the reaction in case the mechanically controlled rods failed.

* * *

At 9:45 a.m. Fermi ordered the electrically controlled rods withdrawn. A small motor whined. The counters keeping track of activity in the pile clicked faster. The pen on a graph recorder began to trace the activity.

CLICKING INCREASED

Shortly after 10 a.m. Fermi ordered the emergency rod called "zip" partially pulled out and tied. The clicking of the counters increased, then leveled off.

"This is not it," Fermi said.

After seven minutes Fermi ordered the rod pulled out another foot. The activity again leveled off. The pile was not yet self-sustaining.

Four more times the rod was inched out. Fermi knew the time was near, but each time the activity in the pile increased, then leveled off.

GRAPH PEN CLIMBED

At 11:35 the automatic safety rod was withdrawn and set, the control rod adjusted and zip withdrawn altogether. Up went the counter. The graph pen climbed.

Suddenly there was a bang. Everyone froze. Then they realized that the automatic control rod had slammed home. Its safety point had been set too low.

"I'm hungry," Fermi said. "Let's go to lunch."

While they ate, the scientists talked about everything except the fateful game of feet and inches they had played all morning.

At 2 p.m. they were back on the squash court.

NOT YET TIME

At 2:50 p.m. the control rod came out another foot. The clicking of the counters was so furious the machines almost jammed. The pen headed off the graph paper. But Fermi knew it was not yet time.

"Move it six inches," Fermi ordered at 3:20.

The activity increased, but leveled off.

Five minutes later Fermi told Weil to pull the rod out another foot.

"This is going to do it," Fermi said. "It will not level off. Now it will become self-sustaining."

The clicking had changed to a steady whirr. Fermi checked the rate of rise with his slide rule.

* * *

"The reaction is self-sustaining," he announced as he slammed his slide rule shut. It was 3:25 p.m.

For 28 minutes the scientists watched the world's first reactor work.

UAW Eying GM Strike

DETROIT (AP) — The United Auto Workers union appeared today to be planning to delay a possible strike against General Motors Corp. until after the Christmas and New York holidays.

DETROIT (AP) — The United Auto Workers General Motors Council meeting today was called to set a date for a GM strike if one is necessary, a UAW spokesman says.

The UAW and General Motors resumed negotiations on a new contract this week for the first time since Oct. 31.

General Motors has indicated it is willing to write a contract with the union that is within the limits of the record economic agreements won for the union's 160,000 members at Ford Motor Co. and 103,000 at Chrysler Corp.

Whether or not the union makes any special demands of GM could be a key factor in causing a strike.

The union told the company Monday that what it called "erosion of the bargaining unit" by moving automated jobs out of union jurisdiction will be an important issue.

Representation, specifically the company requirement that union committeemen work at least an hour a day on their regular jobs, is also expected to cause trouble.

A strike at the Detroit universal division of Chrysler was averted last night with a tentative agreement on local issues.

The 26-member UAW executive board emerged from a 5½-hour meeting yesterday with "not a word" of comment on what had happened at the gathering at the union's Detroit headquarters.

There have been reports that a UAW boycott of the AFL-CIO convention at Miami Beach, Fla. next week would be the next step in a running feud between UAW President Walter P. Reuther and federation President George Meany.

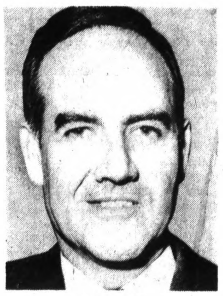

AN EXCUSE

Reuther is expected to use the GM negotiations as an excuse for not attending the convention.

Reuther has not been to General Motors since July 10, when the 1967 bargaining began, but he usually participates in the final bargaining.

HARTKE

McGOVERN

Arrest of VC Thwarted Talks With U.S. Aide'

SAIGON (AP)—Well-informed sources said today a meeting between U.S. Ambassador Elsworth Bunker and a high-ranking representative of the Vietcong's National Liberation Front was thwarted recently when South Vietnamese police arrested the Vietcong emissary.

The U.S. Embassy issued a statement later saying: "Allegations about planned or actual meetings between high officials of the U.S. Embassy and representatives of the VC-NLF as reported by the Associated Press are false. The U.S. Embassy would, of course, not undertake and such contacts without the knowledge of the GVN (Government of South Vietnam)."

The "actual meetings" referred to in the statement apparently regarded reports from other sources that a meeting between U.S. officials and Vietcong representatives did take place in a "neutral embassy" in Saigon within the last 10 days.

A Saigon newspaper said the proposed Bunker meeting was arranged by the U.S. Central Intelligence Agency without letting the Vietnamese government know about it. A member of the South Vietnamese House of Representatives also implied that the CIA tried to set up a contact with the Vietcong without advising the Saigon government.

★ ★ ★

The sources said it was believed the police did not know the purpose of the Vietcong agent's visit to Saigon, but the agent "spilled the beans" after he was questioned.

MEETING DENIED

The embassy also denied a report from other sources that Vietcong representatives did meet in a "neutral embassy" in Saigon within the past 10 days with Gen. Creighton W. Abrams, the deputy U.S. military commander in Vietnam; Deputy U.S. Ambassador Eugene M. Locke; and Capt. Robert J. O'Brien, in charge of the embassy security guard.

The meeting took place while Ambassador Bunker and the U.S. military commander in Vietnam, Gen. William C. Westmoreland, were in Washington.

The presence of Abrams indicated the meeting had something to do with military matters, possibly with the coming Christmas and New Year's cease-fires, or perhaps in connection with a prisoner exchange.

★ ★ ★

The reports of the contacts between the embassy and the Vietcong come on the heels of indications from captured documents that the Vietcong may be trying to set up talks with United States to seek a coalition government for South Vietnam.

City Warned: Act Soon or Face Bleak Future

By BOB WISLER

Pontiac could be an example to the rest of the country as a model of a comprehensively planned community.

Or it could become an infamous example of haphazard, faulty development degenerating into a city with no amenities and little comfort.

The result of either choice is only a decade away, according to Dr. David Lewis, an urban designer and planner, a consultant to all levels of government and author of several books on urban problems.

Lewis spoke to the Pontiac Area Planning Council board of governors last night at the group's second meeting.

He was hired by the Pontiac Board of Education Wednesday night to help plan the district's prospective Human Resources Center which will replace three obsolete elementary schools in the southeast section of the city. Lewis also may be utilized as a consultant by the planning council.

Lewis delivered an ominous warning in outlining steps he said should be taken to save the city from massive deterioration.

Unless immediate and important steps are taken, he said, "You could have people from all over the world coming to Pontiac to see what can happen under a laissez-faire system."

In this event, he forsaw in 10 years an all but abandoned downtown area loaded with empty stores and avoided by shoppers; tracts of urban renewal land lying vacant and dormant with no hope for development; a huge Negro population locked into the city, living in deteriorating housing and imprisoned in despair.

(Continued on Page A-2, Col. 5)

CARE AND CLEANING — Gunners clean dust from ammunition on their tank at Dak To, South Vietnam. The soldier at left is cleaning 20mm cannon shells for the twin-barreled piece behind him, while the other man cleans and oil a band of M60 machine gun rounds. During the dry season, a fine, red dust settles on equipment and must be constantly removed to keep parts functioning.

2 Senate Doves May Run as Favorite Sons

WASHINGTON (AP) — Two Democratic senators who oppose U.S. war policies in Vietnam are considering favorite-son presidential primary races, campaigns which could bolster the White House bid of Sen. Eugene J. McCarthy.

★ ★ ★

Sens. Vance Hartke of Indiana and George S. McGovern of South Dakota said favorite-son campaigns are a possibility — and both added they generally agree with McCarthy's opposition to current U.S. policy in Vietnam.

But neither senator would say whether he would attempt to deliver his state's presidential support to the Minnesotan should he become a favorite son.

McCarthy listed four primaries as certain targets. They are Wisconsin, Nebraska, Oregon and California.

★ ★ ★

He said he also will enter the contests in either New Hampshire or Massachusetts — or possibly both.

'LOT OF HARD WORK'

"I just hope he stays out," said Sen. Thomas J. McIntyre, D-N.H. "It's a lot of hard work for us if he doesn't."

New Hampshire holds the nation's opening presidential primary next March 12, and McIntyre said neither he nor Democratic Gov. John W. King now plans to enter the race as a Johnson representative. Both are Johnson backers.

"Of course, we can always adjust our plans," McIntyre said, should McCarthy enter the New Hampshire race.

There were indications McCarthy may skip New Hampshire anyhow. He said it might conflict with his schedule for an overseas trip next winter, a journey that may include a stop in Vietnam.

Drizzle and Fog Possible Tonight

The U.S. Weather Bureau reports there's a chance of some drizzle and fog tonight in the Pontiac Area. Here is the official weekend forecast:

TODAY — Partly cloudy and little warmer, high 38 to 41. Cloudy and not so cold with chance of drizzle and fog tonight, low 29 to 33.

TOMORROW — Cloudy and mild with light rain likely.

SUNDAY — Partly cloudy with little temperature change.

★ ★ ★

Precipitation probabilities in per cent are: today 5, tonight 20, tomorrow 50.

Twenty was the low temperature in downtown Pontiac prior to 8 a.m. The thermometer registered 31 at 12:30 p.m.

No Tax Hike This Year, but Maybe in '68---Mills

WASHINGTON (AP) — The American taxpayer won't pay higher income taxes this year but might in 1968 if President Johnson cuts spending enough, says Chairman Wilbur D. Mills of the House Ways and Means Committee.

Mills said yesterday it's out of the question for Congress to pass the administration's complex tax bill in the current session of Congress.

The Arkansas Democrat's remarks followed completion of his committee's hearings on Johnson's plan for a 10 per cent surcharge on income taxes, combined with an administration spending cut plan.

Presenting the plan, Treasury Secretary Henry H. Fowler said it would be unthinkable not to start work on it promptly.

But Mills let the hearings lapse without scheduling working sessions.

Mills said he assumed the next move would be for Budget Director Charles L. Schultze to discuss proposed spending cuts with the House Appropriations Committee.

Senate Asks LBJ to Try to Get U.N. Viet Peace Effort

WASHINGTON (AP) — The Senate has approved a call for United Nations action on the Vietnam war but has delayed voting on a proposal to protest Secretary of State Dean Rusk's refusal to testify publicly on the war.

The Senate voted yesterday, 82-0, for a resolution asking President Johnson to consider directing this country's U.N. representatives to seek action by the world body on the Vietnam issue.

Senate Democratic leader Mike Mansfield, who sponsored the resolution, said there is urgent need for Johnson to seek U.N. involvement in an attempt to find peace.

Chairman J. W. Fulbright, D-Ark., of the foreign relations committee, said he doesn't know whether the U.N. can be effective on Vietnam but "the United States has no choice but to take every road that migh lead to peace."

★ ★ ★

Fulbright's committee put off action yesterday on the proposal that it protest formally Rusk's refusal to discuss the war in public.

Rusk has maintained more valuable exchange would come at a closed session. The State Department said he hasn't decided whether to appear at a public session.

Fulbright said committee members were split on how far to press the issue. It was uncertain when the committee would take up the motion again.

Connally Still Says No

BALTIMORE (AP) — Gov. John Connally of Texas said today he discussed the Secretary of Defense job with President Johnson in Washington but "I am not a candidate for the job."

New Feature on Tap

Unique Gifts Galore

(EDITOR'S NOTE — This is the third in a series on Christmas gift suggestions that are available in Pontiac area stores.)

By JEANNE NELSON

If that home movie buff at your house has always had a penchant for the big time, surprise him with a real star director's clapboard. It sells for $5.95. An ideal gift for the confirmed bachelor is an electric pants presser with Teflon face plate at $8.

Snowbound golf nuts will appreciate the automatic-return electric putting outfit that retails for about $10.

Are you ready for this one? A Spanish wineskin of tan goatskin trimmed in green leather. The neck band arrangement is reminiscent of the old St. Bernard bit. It's priced at $4.

For the hunter, there is a large, completely cedar-lined portable closet. Roomy enough to hold all those bulky wool outfits and a place at the bottom for boots, it's easily transported and moves about freely on nylon casters. Cost: about $50.

A handsome item for office or home is an extralarge cigarette box in a dark-toned solid oak. Imported from Spain, it runs around $5. A stately looking pair of simulated brass Lincoln bust bookends is priced at $13.95.

BEER MUG

Another of the new imports is a handcrafted pewter beer mug from England. This makes an impressive gift in its own elegant case. $18.95. Be sneaky, catch a peek at his hat size and astound him with one of the youthful-looking tame suede narrow-brimmed hats. In olive and brown, they sport natty feather brushes and cost $11.95.

★ ★ ★

In the luxury line there are semi-precious stone cuff links set in sterling for under $16. One store manager swore he sat up nights carving an unusual horse's head magazine rack (definitely a one-of-a-kind). This little conversation piece runs $49.95.

AP Wirephoto

EARTHQUAKE VICTIM — A woman sits on the ground and cries over the loss of her home, destroyed yesterday when an earthquake hit Debar, Yugoslavia. Some 6,000 Yugoslavs spent a rainy night in the open after the powerful quake killed at least 19 and injured 174 in southwest Yugoslavia and eastern Albania. Three more earthquakes caused new panic today but did no harm in the area around Debar. There was no report from Albania on the effect of the new quakes.

N-Arms Talks Pass Deadline

UNITED NATIONS, N.Y. (AP) — Failure of the Geneva disarmament conference to reach agreement by today on a treaty to check the spread of nuclear weapons raised prospects of a special 1968 meeting of the U.N. General Assembly.

★ ★ ★

Assembly President Corneliu Manescu had announced that the 17 nations at Geneva would have to agree on the proposed treaty by Dec. 1 if the assembly was to act on it at its present session.

★ ★ ★

A dispatch from Geneva Thursday said there appeared to be virtually no hope of completing the treaty before the 17-nation commission recesses Dec. 14 until the end of January.

★ ★ ★

Informed sources at U.N. headquarters said if the Geneva group agrees on a treaty early next year, instead of convening a special assembly meeting the United Nations might turn the draft over to the 122-nation U.N. Disarmament Commission.

COMPREHENSIVE STUDY

Some delegates would prefer this because the commission could make a comprehensive review of the whole disarmament situation and report to the regular assembly session next fall.

★ ★ ★

Completion of the treaty has been delayed by objections from the so-called nonaligned nations. But the United States and the Soviet Union are reported close to agreement on inspection procedures to check on compliance with the treaty, a provision left blank when the joint U.S.-Soviet draft was submitted to the Geneva group last August.

★ ★ ★

A panel of prominent U.S. leaders convened recently by the United Nations Association of the United States has cautioned that the atomic powers must offer more specific assurances to the nonatomic nations if the proposed treaty is to be acceptable.

★ ★ ★

The panel asserted that the United States and the Soviet Union, to satisfy the nonnuclear states that they will share in the peaceful uses of atomic energy, will have to go beyond the vague promises of the present treaty preamble.

★ ★ ★

U.S. disarmament experts are reported confident, however, that no insurmountable difficulties will be encountered in winning support of other nonnuclear states if agreement can be reached by the Geneva negotiators.

Dope Probe at High School Brings Arrest

ANN ARBOR (AP) — An Ann Arbor youth has been charged with sale of marijuana after an investigation of reported marijuana smoking by students at Whitmore Lake High School.

David M. Alexander, 20, was released on $1,000 bond and ordered to appear for Municipal Court examination next Wednesday.

Washtenaw County Sheriff Douglas J. Harvey said his department's investigation had resulted in apprehension of "the main supplier" of marijuana at Whitmore Lake High.

Harvey said the marijuana was obtained from an Ann Arbor man, then sold to two Whitmore Lake High students for about 100 per cent profit. The two students, whose names were withheld, mixed the marijuana with tobacco and sold it to other students, he said.

Marines Rout N. Viets in Fight Near DMZ

SAIGON (AP) — The Con Thien war front erupted again Thursday, with U.S. Marines driving North Vietnamese troops from their bunkers after a close-quarter battle just below the Demilitarized Zone. Meanwhile, a Red force continued to menace a U.S. infantry battalion at the Bu Dop Special Forces camp near the Cambodian border.

A company of Marines searching for Red troops 2.4 miles northeast of Con Thien ran into heavy machinegun and mortar fire from an entrenched North Vietnamese company, estimated at about 135 men.

★ ★ ★

Three more Leatherneck companies joined the battle, giving the Marines about 700 men. Maneuvering around the enemy's flank, the Americans drove the Communists out of their heavily fortified positions in a four-hour battle.

Field reports said 26 North Vietnamese and 15 Americans were killed and 54 Americans wounded in the fighting, which was at such close quarters that the Marines could not use their artillery.

DMZ LULL BROKEN

The fighting broke a lull on the DMZ front during which the Communists had concentrated on new targets, chiefly allied outposts along South Vietnam's 400-mile-long land border with Cambodia. The enemy's aim on both fronts apparently is the same—to operate close to his supply trails and to draw Americans away from protection of more populous areas where the government's pacification program has been making progress.

Thant Prepares Cyprus Appeal

UNITED NATIONS, N.Y. (AP) — U.N. Secretary General U Thant prepared a peace appeal today to Greece and Turkey, setting the stage for a face-saving agreement to close out the threats of war over Cyprus.

★ ★ ★

Thant's move was designed to lessen the prospect of adverse Greek public reaction. It was believed the Greek people would be less aroused by a positive response to an appeal to Thant than by outright capitulation to Turkey's demands.

★ ★ ★

Thant in his appeal was to call for the terms worked out by the three international peacemakers who shuttled back and forth between Athens and Ankara this week, informants said.

★ ★ ★

Major points include the withdrawal of Greek and Turkish regular army troops stationed illegally on Cyprus, Greek compensation for Turkish Cypriots killed in fighting on the island Nov. 15, and an end to Turkey's threat to invade the island 40 miles off its southern coast.

IMMEDIATE ISSUES

While disposing of the immediate issues, such an agreement would not settle the basic differences which brought the Greek Cypriot majority and the Turkish Cypriot minority to civil war in 1963 and has kept the island in a state of armed truce since a U.N. peace force intervened the next year.

The 1963 civil war was set off by the abrogation of the special political rights given the Turkish Cypriots in the 1960 agreements which freed Cyprus from British rule. Once the British were gone, President Makarios insisted on majority rule for his Greek Cypriots. Now the Turkish Cypriots have revived their demand for partition of the island between the two ethnic communities.

★ ★ ★

Before completing his appeal message, Thant planned to hear from U.N. Undersecretary Jose Rolz-Bennett, who returned to New York Thursday night from his mission as Thant's personal representative to help settle the crisis.

Grand Rapids to Fete Ford

GRAND RAPIDS (AP) — House Republican Leader Gerald R. Ford Jr. will be honored Dec. 12 by his home town where Mayor Christian Sonneveldt has proclaimed the day "Gerald R. Ford Day." It will be the first time Ford has been so honored by his native Grand Rapids.

Ford is scheduled to receive the keys to the city from Sonneveldt and address a Lions Club luncheon.

★ ★ ★

The mayor's proclamation cites Ford for his 19 years in Congress representing the 5th District "in a creditable manner, performing valuable and outstanding service to his constituents" and that his performance of duty "is worthy of the respect and support of all the citizens he represents."

Warning to Gardeners: November a Dry Month

Gardeners and home owners had better give their evergreens a thorough soaking with water before the hard freeze of winter hits because November fell far short of the normal amount of precipitation.

In an average November, Oakland County residents can expect between 1.77 and 2.73 inches of precipitation. Last month the accumulation totaled 48 one-hundredths of an inch plus 1½ inches of snow.

Precipitation totals for November 1965 were 2.57 inches of rain and 13 inches of snow. Last month's deepest snowfall of one inch fell on the 14th. It compared to the preceding November's highest single snow accumulation of seven inches.

Temperature high for the month was 56 degrees on Nov. 1. The low of 16 degrees was hit on three separate days, Nov. 15, 28 and 29. High and low for the previous November was 60 and 21 degrees.

★ ★ ★

The month's mean was 34.7 degrees as compared to last November's 39.55 degrees and the area's average of 40.4 degrees.

SUNNY SIDE

Sunshine, however, earned a generous edge this season with a total of 14 sunny days. Only eight days of sun punctuated the cloud-filled skies last November.

★ ★ ★

No sleet storms troubled motorists during the month though area road's were slicked Nov. 6, causing the Oakland County Road Commission to marshal all its trucks for the first general road-salting of the season.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Partly cloudy and little warmer today. High 38 to 41. Cloudy and not so cold with chance of some drizzle and fog tonight. Low 29 to 33. NATIONAL WEATHER—Snow is forecast tonight for the northern intermountain states. Rain is due in the Pacific Northwest and the middle Mississippi Valley. Showers are expected from southern Missouri to southern Texas. Colder weather is slated for the Plains states and portions of the intermountain region.

9 Girls to Vie in Waterford

Junior Miss Pageant Scheduled for Dec. 9

Nine senior girls from Waterford Township, Waterford Kettering and Our Lady of the Lakes high schools will vie for the Waterford Township Junior Miss title in a Dec. 9 pageant at Mason Junior High School.

★ ★ ★

The winner of the competition will gain a $250 college scholarship and other prizes and will automatically qualify for the Michigan Junior Miss Pageant to be held Jan. 26-28 at Pontiac Northern High School.

Prizes also will be awarded to the first and second runners-up, according to the Waterford Township Jaycees who are sponsoring the contest.

Chairman of the pageant is Michael G. Patterson. The co-chairmen are Mrs. John Harrington and Mrs. Bruce Sias, members of the Waterford Township Jaycettes.

★ ★ ★

The new Junior Miss will be crowned by last year's winner Jennifer Siegwart, daughter of Mr. and Mrs. Glenn Siegwart of 3258 Wormer, Waterford Township.

NOT BEAUTY CONTEST

Miss Siegwart is now a freshman at Ferris State College in Big Rapids.

According to Waterford Jaycees, the pageant is not a beauty contest and there will be no bathing suit competition.

Contestants will be rated by a panel of three judges on scholastic achievement, poise and appearance, youth fitness, creative and performing arts and conferences with the judges.

★ ★ ★

Each entrant will be questioned by the judges for 10 minutes in the morning.

QUESTIONING SESSIONS

In the questioning sessions, the judges will consider personality, sense of values, clarity of expression, knowledge and perception, mental alertness, personal appearance and human relations.

★ ★ ★

A luncheon for the girls will follow.

The evening competition will get under way at 8.

Draft Cards Turned in Are Not All Real

WASHINGTON (AP) — Draft chief Lewis B. Hershey says he isn't getting as many draft cards as he expected from Vietnam war protestors — but he is receiving plenty of drivers' licenses.

About three of four cards he receives from protestors turn out to be drivers' licenses or other nondraft cards, Hershey said Thursday.

★ ★ ★

"I suppose I'm a trusting soul," the 74-year-old Selective Service System director said.

"When I read in the newspaper that somebody said he turned in his draft card, I suppose he did.

PLEASANT SURPRISE

"But it was surprising to me, the low number of real draft cards that were turned in," added the lieutenant general in a telephone interview. "I'm a little disillusioned, but I must say I'm happy to be disillusioned about this."

Coordination in Helping of Needy Urged

Individuals or organizations wanting to help needy families on Christmas were urged today to contact the Salvation Army Clearing House in Pontiac for information.

Mrs. James Gee, clearing house director, said that of the 470 families processed to date, only 175 have been "adopted out" for assistance.

Before the operation of the clearinghouse ends Dec. 15, Mrs. Gee said she expects the number of needy families to near the 1,000 mark of last year.

Persons who require assistance should call the clearing house so their names can be listed.

★ ★ ★

"There are probably many who have had recent disasters and feel that they aren't eligible," said Mrs. Gee. "This isn't true. They will be helped."

FOOD, CLOTHING

Those who aren't aided by some group will receive food and clothing from the Salvation Army, according to Mrs. Gee.

She said if toys aren't among gifts given by groups, the Salvation Army makes it a point that every needy child receives one plaything.

News Seminar for City Editor

Pontiac Press City Editor Jerry T. Robbins will be among 31 newsmen attending a two-week American Press Institute seminar at Columbia University in New York City.

ROBBINS

Newspapers from 21 states will be represented at the seminar which opens Monday.

The program will include discussions of problems relating to organization and operation of the city news department, reader interest, investigative reporting, reporting of municipal affairs and trends in education.

Pageant Hopefuls Busy Rehearsing

Pontiac's Junior Miss candidates the busy rehearsing songs, dances and skits for the pageant to be held tomorrow at 8 p.m. in Pontiac Northern High School's Little Theatre.

The sponsors of the program, Pontiac Area Jaycees, have announced that the public is invited. Admission is $1.

The winner receives $250 in scholarships, and will compete in the state Junior Miss contest in January. The runner-up will receive a $100 scholarship.

City Warned: Act Soon or Face Bleak Future

(Continued From Page One)

Lewis offered no panacea, no distinct proposal and no detailed plan to meet these problems, but, he said, there is evidence the problems can be met.

DEVELOPMENT KEY

He said the key to proper development is comprehensive planning, a determination of what the city should be, an all-out assault by the total community and the building into the city of "amenities for civilized living."

Piecemeal planning will not dictate proper solutions, he said.

Lewis said the failure of the city to attract a shopping center in the downtown area — the hoped for catalyst to redevelopment downtown — is understandable "because there is little amenity to introduce a shopping liason."

★ ★ ★

He said such amenities included but were not confined to parking, walkways, trees, resting spots, seating facilities.

Lewis said planning of any one facility must be done in relationship to everything else: educational facilities, transportation, housing demands and plans, civic centers, cultural attainments, etc.

An example of isolated planning Mayor William H. Taylor Jr. said is the recent City Commission decision to allow some 700 rent-supplement houses on Kennett adjacent to Alcott Elementary School.

"As Dr. Lewis pointed out," he said, "It's being built because of the demand for housing not necessarily because it's good planning."

★ ★ ★

Pontiac is, because of its location in the center of a highway system and an axis population, the deteriorating hub of an increasingly enriched Oakland County, "One of the fastest developing metropolitan regions in the country."

This is one of its strengths which can be capitalized on, he said.

Birmingham Area News

MEA to Mull School Sanctions

BIRMINGHAM — A meeting tonight of the Michigan Education Association (MEA) executive committee will decide whether or not to apply sanctions against the Birmingham School District.

Birmingham teachers have been working since September under a court injunction with no contract settlement in sight.

The MEA executive body reportedly will review the results and recommendations of a six-member team which visited Birmingham a number of times this year and then make a decision. The Birmingham Education Association asked for sanctions.

Sanctions would mean that the MEA would designate the school district as an undesireable place for teachers to work.

The fire recently at the Wylie E. Groves High School which damaged a storage room and slightly injured one student is now suspected to have been caused by two boys who were in the room playing with a cigarette lighter.

★ ★ ★

Lt. John Reed of the Beverly Hills Fire Department said that when the investigation is complete the matter would probably be turned over to juvenile authorities.

★ ★ ★

The fire started in a room where mats used for track events are stored and was believed to have started when a bag of plastic foam one of the students was carrying burst into flames.

Fire Departments from three communities fought the blaze for an hour and 1,800 students were evacuated from the building.

Susan Greer is one of six Michigan State University coeds studying education who will earn her winter term credits while working as an assistant teacher at the American School in Guatemala City in Central America.

★ ★ ★

Miss Greer, majoring in elementary education, will pay her own way and will receive up to 15 college credits while undertaking coursework and research projects there.

Library Group Elects Officers

Mrs. Roger Reid of 6677 Manson, Waterford Township, has been elected president of the Waterford Township Friends of the Library for 1968.

★ ★ ★

Among other officers elected to one-year terms were Mrs. Leonard Cybul, first vice president; Mrs. Norman Pankner, second vice president; and Mrs. Lee Anna, corresponding secretary.

Also elected to office for one-year terms were Mrs. Gerald Lewis, secretary; and Mrs. Elmer Barker, treasure.

All terms will begin Jan. 1.

★ ★ ★

Outgoing president is Mrs. Robert Eisele of 3528 Baybrook, Waterford Township.

PROJECTOR

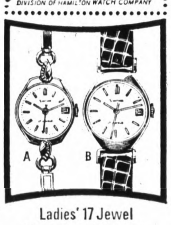

The group also announced it has purchased a projector for the Waterford Township Library in memory of the late Mrs. Ralph Eaton, a past president of Friends of the Library.

★ ★ ★

The money for the projector was donated by relatives and friends of Mrs. Eaton.

Students Spend Day Under Communism

COLUMBIA, S.C. (UPI)—The change was subtle at first.

The American flag was missing from the pole in front of Columbia High School. Inside, the familiar pictures of George Washington had been replaced by photographs of men with a Moscow look.

But shortly after the 1,240 students arrived for school yesterday morning, the subtlety ended. A loudspeaker blared through the halls:

"Today you are liberated from the chains of capitalistic society. The dutiful lackey of Washington who has been parading as your principal will no longer hold such a position of power."

* * *

"The temporary guiding friend to whom you are responsible is the People's Director Garvin."

STRICT DISCIPLINE

Thus began a project of the faculty and student leaders of the school to illustrate what they believed life in a Communist society is like.

Tough-talking student leaders wearing hammer-and-sicle arm bans enforced a strict discipline permitting no talking in halls. Students were forced to double-time to class.

Teachers turned into strict disciplinarians, forcing students to stand at attention and salute. They spoke in strident tones about the beauty of the "new people's government."

* * *

Ramrod of the project was Miss Mary Arnold Garvin, who rallied the "people's forces" at the start of the day and ousted Kirk. Miss Garvin, an English teacher, did extensive research on Russian education.

* * *

Miss Garvin, "elected" as director of the People's party in a vote in which only one name appeared on the ballot, said in her acceptance speech "We are united in a war — a war for men's minds, a struggle against inequality and privileges for the few."

The idea originated with Rudy Ritchie, a student council leader, and was designed to illustrate for the students the loss of freedom.

Draft Is Too Late

CARTHAGE, Mo. (AP) — Redmond Granzow, 74, recently received notice from the Selective Service Board to register for military service. Granzow, of Monett, Mo., says he thinks he will ignore the notice.

'Brighty' Memorial Readied for Canyon

INDEPENDENCE TOWNSHIP — Final touches on the bronze casting of "Brighty," the shaggy, free-spirited burro who first saw the Grand Canyon 75 years ago, were taking place today in a foundry owned by Fred Petrucci at 4975 Waldon.

★ ★ ★

The statue will be installed on the south rim of the canyon Dec. 16.

The work of Peter Jepsen of Birmingham, "Brighty" was commissioned by Stephen F. Booth, producer of the motion picture, "Brighty of the Grand Canyon," based on a best seller for children by Newberry award winner Marguerite Henry.

The bronze is a Christmas gift to the national park and its thousands of visitors from the film company.

To create the sculpture, Jepsen used photographs of the original Brighty and studied the burro used in the film. He first made a small edition, one-seventh the size of the big one, then worked more than eight months on the monument, which is the actual size of a small burro, but only three-fourths as big as Brighty. The sculpture weighs approximately the same as the real burro — 600 pounds.

Pontiac Press Photo

Sculptor Peter Jepsen Puts The Finishing Touches On "Brighty"

3 Escape Fire in Groveland

GROVELAND TOWNSHIP — A family of three escaped unharmed from their large two-story home after a fire broke out on the second floor early yesterday. Earl Simonson apparently noticed smoke about 3 a.m. and led his wife and young son out of the house at 4001 Groveland, said Brandon Fire Chief William Buckingham.

The Brandon Fire Department, assisted by the Atlas and Hadley Township departments, fought the blaze until 6:30 a. m.

Most of the interior of the second story was gutted, said the chief.

He estimated damage to the structure and contents to be about $10,000 to $11,000.

The fire appeared to have started in the walls but no cause has been determined.

17 Girls Are Seeking Orion Junior Miss Title

LAKE ORION —Seventeen teen-age girls from Lake Orion, Oxford and Dominican high schools will compete for the title of Orion Area Junior Miss.

★ ★ ★

Area Jaycees will sponsor a pageant at 8 p.m. tomorrow at the Lake Orion Junior High cafetorium.

The winner will be chosen on the basis of academic standing, poise, personality and talent.

Troy Library Group Halfway in Drive

TROY —The request by the Biltmore Development Co. to rezone 313 acres of land for expansion of their huge Somerset Park apartment complex here will be discussed at a public hearing Jan. 8.

The developer's controversial plan was resubmitted to the city earlier in November for the third time.

The company desires to almost double the present 2,000 unit apartment complex plus add some commercial buildings and a golf course on land presently zoned single-residence east of Coolidge and just north of 16 Mile Road, explained Troy Planning Commissioner George Peek.

"I still have some reservations on the plan," said Peek, "but I will go along with the planning commission in supporting it."

★ ★ ★

He explained that the resubmitted plan omitted the controversial high-rise buildings originally proposed and included an 80 acre green-belt buffer zone between the planned multi-dwelling units and single-residence areas which the city desires.

SEPARATE HEARING

A separate public hearing will be scheduled by the Troy City Commission Monday on the Planned Neighborhood Development rezoning amendment which would make it easier to adopt such large develpments as Biltmore's, said Peek.

★ ★ ★

Unless the City Commission adopts the amendment before Jan. 8, however, the Biltmore request will probably be handled as an individual request, he added.

Lapeer Hospital OKs $400,000 for Construction

Directors of the Lapper County General Hospital have voted to proceed with finishing the third floor of the hospital even after the Nov. 7 defeat of a $2.5-million bond issue, said Administrator Colman Foote.

Finishing and furnishing the interior of the third floor patient area will be financed along with several other projects by a $400,000 depreciation fund built up by annual deductions from profits, explained Foote.

The unfinished third floor has been a controversial issue ever since it was built in 1960 in a major expansion program.

In addition to finishing the floor with part of the $400,000, the directors plan to build a second floor over the surgical wing and enlarge the recovery and emergency rooms, depending on how far the funds stretch, said Foote.

★ ★ ★

Money from the bond issue would have been used for these projects plus many more.

Previous expansion programs were partially financed by federal aid under the Hill-Burton Act, but no federal funds were available this time, he added.

Man Sentenced in June Murder

The second of three men involved in the murder of a 19-year-old mother of two in Stony Creek Park last June was sentenced yesterday to 10 to 20 years in jail by Macomb County Circuit Court Judge Walter P. Cynar.

★ ★ ★

Isaac Perkins, 18, of Madison Heights pleaded guilty Oct. 17 to a second-degree murder charge in the strangulation death of Mrs. Anna Sue Collins whose body was found at the park on June 17.

★ ★ ★

On Nov. 16th his brother, James G. Perkins, 35, was given a mandatory life sentence for conspiring to murder the woman, who according to police records had given evidence against him in connection with a forged check-cashing ring in Oakland and Macomb counties.

★ ★ ★

A third defendant in the case, John D. Hicks, 18, of Warren, was bound over to Macomb County Circuit Court Monday on a first degree murder charge following an examination before Justice Edmund Schmidt.

Wixom Engineers Reviewing Costs of Paving Projects

WIXOM — Residents on Theodore, Flamingo and Fairbury streets will have to wait until next summer to have their roadways paved.

★ ★ ★

City engineers Pate, Hirn and Bogue, Detroit, are reviewing ways the streets can be improved at lower costs. The city is then going to advertise for construction bids for the second time.

The City Council last week rejected two bids because they were too high.

The lowest bid of $143,191 for the asphalt paving plus curb and gutter came from Holloway Construction Co. of Wixom. The second bid from Cadillac Asphalt Co., Southfield, was $147,632.

★ ★ ★

The council scheduled a public hearing for Dec. 12 at 8 p.m. on the rezoning of about 40 acres on the northwest corner of Beck and 12 Mile.

MOBILE HOMES

The request from Harry Brody and Morris Garrison calls for the rezoning from residential to mobile homes or multiple zoning.

★ ★ ★

The city planning commission and zoning board has recommended denial of the request. The attorney for Brody and Garrison has requested the hearing before the council, which has the last word.

6 in Milford Eye Junior Miss Title

MILFORD — Six local teen girls compete in Milford's Junior Miss Pageant tomorrow at 8 p.m. in the Little Theater of Milford High School.

The six contestants are Candy Adam, Della Gatenby, Diana Nealer, Terrye Hord, Cheryl Wood and Ruth Ann Clay, all Milford High School students.

A scholarship of $150 will be given the winner by the Milford Jaycees.

The pageant is open to the public free of charge.

★ ★ ★

Chairman of the event is Richard Bohl, a member of the Milford Jaycees.

Clarkston Board Sells $2.5 Million in School Construction Bonds

CLARKSTON — The sale of $2.5 million in school construction bonds has been awarded to Halsey-Stewart and Associates of Chicago.

The board of education accepted the lowest of three bids requiring a net interest rate of 4.6 per cent.

★ ★ ★

Mrs. Lloyd Sibley, a Municipal Advisory Council representative, told board members that while the interest rate is higher than it was a year ago, the bid was a good one for present circumstances.

The money, held up nearly a year by the Michigan Municipal Finance Commission, will be used to build a second junior high school and auxiliary buildings in the district.

OES Dinner Tomorrow

DAVISBURG — The Austin Chapter of the Order of Eastern Star No. 396 will have a roast beef dinner tomorrow at 6:30 p.m. at the Masonic Temple at Andersonville and Davisburg roads.

Planners Back Lot Rezoning on 2nd Try

WEST BLOOMFIELD TOWNSHIP — On the second time around, the Township Planning Commission gave its support to rezoning lot 40 of the Automobile Country Club for office use.

The vote at the recent meeting was 4 to 3. Previously, the commission had voted 4 to 2 after a public hearing to maintain the single family residential zoning for the parcel owned by Dr. Lawrence Finkell.

Reconsideration of the issue was requested by the Township Board, which is now to act on the commission's recommendation.

In other action, the commission raised the fee for review of preliminary plats from $150 to $300, because of the new plat act effective Jan. 1.

★ ★ ★

The commission also is recommending for approval by the Oakland County Coordinating and Zoning Committee and the Township Board the following amendments to:

- Establish an "averaged lot-size plan" permitting varied sizes for one-family residential lots on land with unusual topographical features or next to permanent open space or upon approval of the commission.
- Permit nursery schools in a single-family district.

★ ★ ★

- Permit real estate advertisement signs more than six square feet on a temporary basis in the multiple, business and industrial districts.

★ ★ ★

- Clarify that all residences must have access to a public street.
- Clarify the method for computing off-street parking requirements.
- Clarify that setback areas do not include easement areas.

★ ★ ★

- Eliminate the necessity of registering mail related to appeal board cases.

Future Building Sites Mulled by Lake Orion School Board

LAKE ORION — A discussion of possible land sites for future school needs and the requirements for a projected new elementary school in the district occupied Lake Orion Board of Education members recently.

"We need a flexible school," said Schools Supt. Lewis F. Mundy, "one with moveable partitions." He said no site purchase for the contemplated construction has been made.

James Theunick, principal of Carpenter Elementary School, was announced as the new director of the summer's elementary remedial program financed by federal funds.

A discussion of heating repairs at the high school revealed that the cost of a new heat exchanger and pipes may total more than $2,000.

★ ★ ★

The purchase of one-half of a relocateable classroom for use as transportation offices was announced.

ECONOMIC SOLUTION

Mundy said the total cost of purchase and installation at less than $6,000 had provided an economical solution to the problem of space. The wheeless trailer has been installed behind the Blanche Sims Elementary School.

Ex-Southfield Doctor Joins Goodrich Staff

GOODRICH — Dr. S. C. Werch, formerly of Southfield, has joined the staff of the Goodrich Medical Center here as a specialist in internal medicine.

★ ★ ★

Dr. Werch is eligible for the American Board of Internal Medicine and is certified in the American Board of Clinical Chemistry. Prior to his appointment here he was Director of Medical Education at Highland Park General Hospital.

Outlook in Avondale Is Bright, According to Expert From U. of M.

A promising outlook for the future of the Avondale School System has been reported by Dr. Paul D. Carter of the University of Michigan in a recent evaluation of facilities and staff.

★ ★ ★

"If the population explosion doen't outrun your capacity to plan, build, and consolidate gains, the outlook is indeed a promising one," he said.

Carter made special mention of the junior high school team-teaching project.

He noted that buildings are generally clean and cheerful, teacher morale seems high, and the student bodies were orderly and well-mannered.

★ ★ ★

He said "Although facilities are modest and space at a premium, considerable ingenuity has been demonstrated in building utilization. No usable space is unoccupied."

Wixom Meeting Slated on Sewer System Laws

WIXOM — The City Council will hold a special public meeting Jan. 2 to review ordinances governing the operation of the citywide sewer system.

The $4.6-million project is heading for a Jan. 31 completion date.

Subdivision plans calling for relatively small lots and common open areas received preliminary plat approval at a recent council meeting. Douglas Colwell is developing the subdivision on 112 acres on Loon Lake Road near Benstein.

The council also moved ahead on construction of a City Department of Public Works garage by accepting the low construction bid of Morton Buildings of Michigan Inc., Rockford, of $10,685.

★ ★ ★

Construction is to start soon for the garage to be located off Charms Road.

4-YEAR TERMS

Appointed to the board of canvassers for four-year terms starting Jan. 1 were incumbent Billie J. Mills, Democrat, 2625 Lakeridge, and Toivo W. Rentola, Republican, 2098 Bogie Road.

★ ★ ★

City engineers Pate, Hirn and Bogue are still studying ways to lower the cost of improving Flamingo, Theodore and Fairbury streets. The council has rejected bids received because they were too high.

Wolverine Lake OKs Resignation of Police Chief

WOLVERINE LAKE — Police Chief Donald Vickery submitted his resignation, and the Village Council unanimously accepted it.

The action came after the council withdrew charges of misconduct against the 36-year-old chief at a closed-door hearing last night. Vickery had been temporarily suspended.

Vickery, who had served as chief one-and-a-half years, will receive severance pay until Jan. 15. The village will also give him a letter of recommendation as police chief, reported Village Attorney Gene Schnelz.

The hearing was requested by Vickery who was entitled to it under village and state law.

★ ★ ★

The former chief, a village resident, was temporarily suspended and asked to resign Nov. 6 by Village Manager Clifford Cottrell and Village President Clyde Johanson.

AFFIRMING VOTE

On Nov. 13, the Village Council voted 4-2 affirming the action of the president and manager.

★ ★ ★

Although a new police chief has not been selected, the department elected Patrolman Vern Darlington senior officer earlier this month. This position imparts a supervisory capacity to Darlington, said the village manager.

Coronary Care Units Are Topic of Workshop

A problem-solving workshop on coronary care units is scheduled for 8 p.m. Tuesday at Providence Hospital, Southfield.

The workshop is being sponsored by the Oakland County Unit of the Michigan Heart Association.

★ ★ ★

Participating in a panel discussion of coronary care units will be Dr. Murray B. Levin of Pontiac General Hospital and Dr. Donald C. Overy of St. Joseph Mercy Hospital.

Moderator for the discussion will be Dr. E. J. Meuller, chairman of the heart unit's professional education committee.

Goodfellow Sale Set in Commerce

COMMERCE TOWNSHIP — A Christmas for every area child is the aim of firemen here as they participate tomorrow in the annual Goodfellow newspaper sale.

★ ★ ★

The firemen will be selling in the township area from 7 a.m. to noon.

Proceeds will go for toys, clothing and food for needy area families. Walled Lake High School students will be adding the canned goods they are collecting.

Troy Rezoning Hearing Slated

TROY — Members of the Friends of the Troy Public Library and library trustees have reached the halfway mark in their campaign to obtain 600 signatures by Dec. 6.

At least 600 signatures are needed in order to permit the Troy City Commission to place a half-mill tax proposal on the Feb. 19 ballot.

If the vote is favorable, a $500,000 library could be built with the money, said Mrs. Calvin Blankenship, president of the Friends group. The present city commission has pledged to use the funds from the levy to build a new library, she added.

On a proposal to amend the charter to provide a half-mill tax specifically for library purposes appeared on the ballot. The proposal was defeated by a 3-2 margin. State law prevents a charter amendment from being resubmitted for two years.

If built, a new 14,000-square-foot library would be put up in the civic center area. The present rented building housing the library has 2,400 square feet of space.

COMPARISON

Mrs. Blankenship explained that the neighboring city of Clawson with a population of 15,500 has an 8,000-square-foot library. Troy's population is about 33,000.

Navy to Probe Fill Engine Cost

WASHINGTON (AP)—The Navy will examine the cost records of Pratt & Whitney, the nation's largest jet engine manufacturer, in an effort to determine if a threefold increase in the estimated production cost of engines to power the controversial F111 aircraft results from inefficiency by the prime contractor, Pratt & Whitney Division of United Aircraft Co.

A special Navy team will examine the cost records of Pratt & Whitney, the nation's largest jet engine manufacturer.

★ ★ ★

Pentagon sources said if the team uncovers what it deems inefficiencies, Pratt & Whitney headquartered in East Hartford, Conn., will be asked to make changes.

The team will attempt to establish a firm precedent for similar cost-evaluation efforts in future large purchases.

Pentagon figures indicate that in early 1961 Pratt & Whitney, then in the early planning stages of the project, estimated the cost of each TF30 engine at $271,000.

This year, after incorporation of changes requested by the Pentagon, the firm's cost estimate had increased to $700,000—$750,00 per engine.

Under a letter contract, the firm is to produce 2,053 engines by 1971. A final award, about to be negotiated, may amount to more than $1 billion.

Demolition Bids

LANSING (AP)—Sealed bids for removal or demolition of buildings on 16 parcels of land in Detroit will be accepted by the State Highway Commission until Dec. 13. The buildings are located on land purchased for construction of the I-96 freeway.

Nothing is politically right which is morally wrong.—Daniel O'Connell, Irish statesman.

Redistricting Bill Goes to LBJ

WASHINGTON (AP) — Hawaii and New Mexico would be the only states allowed to hold at-large elections for House members next year under a bill now before President Johnson.

★ ★ ★

The Senate sent the measure to the White House Thursday on a 54-24 vote after rejecting attempts to require that all states with more than one congressman elect their representatives by districts.

★ ★ ★

But the measure will ban at-large elections after 1968's balloting.

The Senate earlier had balked at House-approved exemptions for Hawaii and New Mexico but yielded in the face of House threats to kill the measure entirely unless the exceptions were approved.

The temperature once dropped to 81 degrees below zero in a town called Snag in the Yukon, the National Geographic says. No colder temperature has ever been recorded in Canada.

Child of Poverty Faces Growing Learning Gap

(EDITOR'S NOTE — This is the first of three stories on school-children from low-income families. Today's article examines the problem.)

By DICK ROBINSON

One of the most pressing problems facing educators today is the child of poverty.

ROBINSON

Some 145 million "poor kids" throughout the nation, including 2,000 in Pontiac, are causing the greatest turmoil in the history of public education, experts say.

The problem is how to close the widening gap between aspiration and achievement levels of middle-class children and those from the slums.

Slum children are euphemistically described by educators as children "who do not bring specific learning skills from their home environment."

Or they are labeled by a variety of terms: educationally disadvantaged, culturally deprived, economically deprived, socially alienated, culturally disadvantaged and so on.

★ ★ ★

In any case, they are the victims of social misfortune.

RESTRICTED

"The disadvantaged youth comes to school from a restricted, limited home and community background," reports Thor Petersen, coordinator of Pontiac's programs for the educationally deprived.

"They know far less than middle-class children when they enter the first grade. Since they also learn less from class, they fall farther behind with every year in school and eventually may drop out."

Ghetto children are "hostile toward learning," another administrator points out, but they may have the potential for normal intelligence.

★ ★ ★

People treat the children of poverty as if they are nothing, have nothing (including brains), and will amount to nothing, school people say.

Negro slum children often ask how going to school will change prejudices concerning them in the "white man's world."

Educators agree that a squalid home life cannot prepare youngsters for school.

It does not place a value on reading, which enables people to write, think, conceptualize, analyze, reason and express themselves, or for that matter, says Peterson, even place value on school or education.

★ ★ ★

Disadvantaged children have learned that the best way to stay out of trouble is to say nothing, local psychologists explain.

WHIPPING

At home, their curiosity may result in a whipping. The speech they hear is short commands or phrases, which are not thought provoking.

Sometimes children don't even know their real names when they are called in the classroom, Petersen relates, because they are called "hey, you" or by some dirty nickname at home.

A constantly playing transistor radio teaches these children not to pay attention to words, but to tune things out.

★ ★ ★

At school, they face a totally alien environment, Petersen commented. They can't please the teachers, and they find they cannot cope with what is expected of them.

RIGHT, WRONG

"The disadvantaged have a problem of deciding what's right and what's wrong, while the middle-class child is anxious to do what's right to please his parents," said Dr. William J. Robertson, Pontiac schools supervisor of research and evaluation.

It is common knowledge that many, but not all, of the disadvantaged schoolchildren in America are Negroes.

Studies show the inequality in American education grows yearly.

★ ★ ★

In the sixth grade, the average Negro pupil (both in the United States and Pontiac) is about 1½ years behind the average white pupil and 3¼ years behind by the 12th grade.

UNIQUE PROBLEM

Schools Supt. Dr. Dana P. Whitmer had this to say about the Negro American youth:

"He faces a unique problem in his growth and development.

"Some Negro youths are disadvantaged, others have adjusted problems, and many are work-bound youths. On the other hand, there are Negro youths who do not face any of these problems.

"But all Negro youths, because of their color, face the problem of building a good self-concept, pride in their heritage and a sense of equality as human beings.

"The civil rights movement of today and the historic struggle of Negroes to enter the mainstream of American life constantly remind the Negro youths of goals not yet achieved.

SPECIAL CHALLENGE

"These problems are added to the growth problems faced by all youth and provide a special challenge to public schools and teachers.

"A public school district which today is not involved in this important and multifaceted problem is not on the field where the future of America is to be determined."

Much of the tumult over the deprived is a healthy sign, according to Dr. Ernest O. Melby, professor of education at Michigan State University.

★ ★ ★

Old myths are crumbling and fresh thinking is stirring the musty corridors of the education bureaucracy.

The parent of a poor learner, for one, no longer automatically accepts the idea that if his child fails there is something wrong with him. Instead, the parent blames the school.

An intense struggle is ahead, as attested to by Petersen:

"The road out of poverty in 1967 is a much more difficult one than it was 25, 50 or 100 years ago. The hurdles have both increased and intensified for the disadvantaged."

Pontiac's challenge is America's challenge, vows Whitmer. He said:

"The school district of the City of Pontiac is a microcosm of America. The aspirations and dreams of America for the 'good life' are those of Pontiac. And the wide-ranging human problems of America are mirrored in Pontiac.

"Thus, the challenge of Pontiac is the challenge of America, and the struggle to achieve continually higher levels of human development will be won, or lost, in the Pontiacs of America."

(NEXT: The School Program.)

Hudson's is open nights till Christmas: Pontiac, Northland, Eastland, Westland open Monday through Saturday till 9:00 p.m.; Downtown open Monday through Friday till 8:30, Saturday till 5:30

Dogs Bite—Far Too Often

By HUDSON WILLSE JR.

With dog bites increasing at an alarming rate in Waterford Township, animal welfare officers in the community have become greatly concerned for the safety of children.

Officer Elwyn Meredith said several children have been bitten on school grounds and at school bus stops by stray dogs.

According to Meredith, dog bites have nearly tripled since school opened this year compared to a year ago.

Just last week, two pupils of Stringham Elementary School, 4350 Elizabeth Lake, were bitten by a dog which had no identification tags.

* * *

The animal was killed by a car shortly after the incident. But because it had no identification indicating it had been innoculated against rabies, animal welfare officers were posed with quite a problem.

ANTIRABIES SHOTS

One of the youngsters even began taking the painful, costly series of antirabies shots until it was proven the dog did not have the disease.

"At least 50 per cent of the dogs in Waterford are unlicensed or don't have rabies shots," said Meredith.

"State law and township ordinance state that all dogs must be confined to their owners' property or be on a leash or under responsible control," stressed Meredith.

* * *

He reminds owners that all dogs must be licensed in Waterford Township and to be licensed a rabies shot is required.

OWNER RESPONSIBILITY

"If people who have dogs would accept the responsibility of their dogs, we would not have had the problem we had last week," Meredith said.

Township animal welfare officers urge residents to report all animal bites to the police station.

"We have been called lately on a serious bite and found through investigation that the same dog has bitten persons several times without a report being made," said Meredith.

* * *

"We have found that if a dog bites once, it will bite again," added Meredith. "And through reports of bites, we can help control the problem."

WARN CHILDREN

Meredith and Officer Henry Rosner of the animal welfare department also cautioned parents to advise their children not to approach strange dogs or attempt to catch them.

"This is when they sometimes get bit," said Meredith.

Meredith said it is important for persons who have been bit to take note whether the dog has license tags which, he added, are always brightly colored.

* * *

This way, he said, a person knows whether the dog has had its rabies vaccine.

SCHOOL OFFICIALS

Meredith and Rosner urge school representatives to notify them when they see dogs on school property.

"Through this assistance, we hope to save a lot of children from getting bit," said Meredith.

Waterford Township 1968 dog licenses went on sale today at the treasurer's office.

* *

The new rates in Waterford Township are $2 for each male and unsexed dog and $4 for a female.

DEADLINE

Deadline for purchasing licenses without paying a penalty is Feb. 29.

Oakland County 1968 dog licenses will go on sale Dec. 15 at the animal shelter, the county treasurer's office and township treasurer's offices.

Deadline for purchasing county licenses without paying a penalty is Feb. 29.

Dog owners living in all northern Oakland County communities with the exception of Waterford Township, Pontiac, Bloomfield Township, Bloomfield Hills, Troy, Birmingham, Rochester and Beverly Hills should purchase county licenses.

These eight communities issue their own dog licenses.

Marked to Die

Lincoln's assassins also intended to kill Secretary of State Charles Seward.

One of John Wilkes Booth's accomplices broke into Seward's home and wounded him. He recovered, however, and kept the office of secretary of state under President Andrew Johnson.

Suicide ranks fourth among all causes of death for American teen-agers, while for the entire population it is in tenth place.

Here Are Tips on Terminology

Parts for Entertainment Equipment Clarified

To shop successfully for entertainment gifts, does Santa's helper need to know a module from a model, a cassette from a cartridge?

Though the technology and terminology of modern entertainment equipment may mystify the non-technically-minded, such equipment may still be well-chosen on the basis of performance, convenience, appearance and other such factors.

A little information, however can add a lot to shopping enjoyment.

The words "modular" and "module" are due to crop up often this season, since major companies have introduced new models of modular stereo systems.

* * *

The meaning is simple. In a modular stereo setup, the amplifier and record turn-table with their controls, are together in one unit. The speakers are usually in separate cabinets, or modules, although they may also be attached to the main cabinet.

SOLID, MAN

"Solid state" is a term heard ever more frequently, as TV sets, stereo systems, radios and tape recorders turn to this concept.

In the simplest sense, solid state means "no tubes — no tubes to burn out, no tubes to replace.

Solid state and tubes may combine, as in TV sets that are solid state except for one or two high-voltage tubes.

* * *

In the field of tape players and recorders, the terms "cassette" and "cartridge" may often be discussed.

TAPE ENCLOSURES

Both cassettes and cartridges are types of tape enclosures for easier handling of tapes.

The cartridge is compact, and the cassette is even more so.

One principal difference is that the cartridge is commonly used only for listening. Cassettes can be used for recording as well.

* * *

Cartridges, frequently used in automobile tape players, have a continuous loop of tape on a single hub. The cassette is a self-contained reel-to-reel system, consisting of two hubs and tape in a tiny plastic case.

Ultrasound Aids in Diagnosis of Kidney Problems

By Science Service

CHICAGO—The use of ultrasound to detect injuries or disease in the kidney has overcome one of the most difficult diagnostic problems in radiology, a Philadelphia X-ray expert told a meeting here.

Dr. Barry B. Goldberg of the Albert Einstein Medical Center said 22 kidney tumors and 74 cystic lesions had been correctly diagnosed by an ultrasound technique called nephrosonography.

He said it was so simple to learn that several technologists already have been trained.

Elaborate procedures previously were suggested for diagnostic use, but these methods are time-consuming, costly and potentially dangerous, Dr. Goldberg said at the convention of the Radiological Society of North America.

* * *

Ultrasound is made up of sound vibrations too high for the human ear to notice. In many medical uses it is beamed into a portion of the body. Varying echoes inform the diagnostician of the kind of tissue the sound encounters.

Great Northern Railway Soars

Mart Moves Unevenly Lower

NEW YORK (AP)—The stock market moved unevenly lower early today following the sharp setback of Thursday.

Gains and losses were about even. Softness in some blue chips depressed industrials.

★ ★ ★

The Dow Jones Industrial Average lost 2.2 at 873.56.

Great Northern Railway was up 5 points on favorable news about its proposed merger.

Gains of a point or so were made by Control Data, Polaroid and Schering.

Losses of around a point were taken by American Investment Co., Avnet and Standard Oil of California.

Fractional gains on heavy volume were made by Nalco Chemical, Corn Products, Ford and Occidental Petroleum.

Little group leadership was apparent. Steels, rubbers and motors were narrowly mixed. Oils were a little lower on balance.

Colorado Interstate Gas opened on 25,000 shares, unchanged at 42. American Telephone was off ⅛ at 50⅝ on a block of 10,000 shares.

Analysts said the market's "consolidation" of the recent sharp recovery drive probably had further to go but some thought the reaction might be brief.

The apparent shelving of the income surtax for this year indicated that "nothing much has changed since two months ago," in the words of Bache & Co.

Prices were irregularly higher on the American Stock Exchange.
