

Army Will Attempt to Create New Planet

By ALTON BLAKESLEE
Associated Press Science Writer
SAN ANTONIO, Tex. (AP) — The Army plans to shoot a rocket right at the moon and create a man-made planet, Dr. Werner von Braun said today.

And the German-born rocket genius predicts "it has a one in two chance of doing just that."

The rocket would never come back.

It would escape from the earth's gravity and be captured

by the sun's gravity. Falling into an orbit around the sun, it would become a 30-pound baby planet, revolving around the sun much like the Earth, Mars and Jupiter.

The first attempt probably will be made in the first week of December.

It will be the first of two moon probe shots by the Army.

The Air Force has so far launched three probes. One soared about 73,000 miles of the 239,000 to the moon in October, then was

tugged back by earth's gravity to burn up in our atmosphere.

The Army plans to shoot its probe at such high speed that it will go past the moon and forever escape from the earth. It might pass within 10 to 50 thousand miles of the moon.

It would soar millions of miles beyond earth and the moon until the sun's gravity pulled it into some yet unpredictable orbit around the sun.

Some details of the Army moon probe plane became known here

informally at a space symposium attended by 700 space and medical scientists. The symposium is sponsored by the Air Force's School of Aviation Medicine and arranged by Southwest Research Institute.

The Air Force probes were designed — and given some control — to swing them around the moon once, or into a steady orbit around the moon, or near the moon and then home again.

The Army plan is in a large sense much less difficult.

The small fourth-stage of a multi-stage rocket has to be given an initial speed of 25,500 miles an hour or better. That is the escape velocity to get it forever away from the earth.

The earth's gravity pull gets weaker and weaker the farther you go away from the earth and for practical purposes the rocket can escape from any real influence of terrestrial gravity.

The rocket would speed up when it fell under the influence of the

sun's gravity and take up its orbit around the sun.

This is presuming it doesn't hit the moon, even if aimed directly for it.

Hitting the moon without guidance control inside the probe would be fantastically difficult. That is partly why Von Braun gives it a one in two chance of escaping to become a planet.

Army experts indicated they would not be unhappy if the probe did hit the moon. It will be steril-

ized to prevent contaminating the moon with earthly germs if that did happen.

The probe will carry instruments to report particularly on the mysterious band of radiation recently discovered high above the earth. It is designed to give full reports on how far this radiation extends.

Dr. Von Braun predicted a "one in three chance the tele-metering will give useful information all the way to the moon."

The reports might be received weakly but usefully for nearly one million miles from earth. The probe's instruments will weigh about 15 pounds and the rocket case another 15.

The Russians could be first actually to hit the moon.

Experts here said the rockets which launched Sputnik III were powerful enough to launch a moon probe equipped with photo-electric eye or other guidance to steer it automatically into the moon.

Kierdorf Fighting 1 to 5-Year Sentence

New Walkout Hits Chrysler Offices

8,000 Strike Detroit Plants, Others in U.S.

80,000 May Be Idled if Quick Settlement of Grievances Lags

DETROIT (AP) — Some 8,000 Chrysler Corp. office workers and engineers struck at 10 a.m. today after failing in an all-night negotiating session to reach an agreement on a new contract.

The strikers immediately set up picket lines at 24 Chrysler plants in the Detroit area and 10 others across the nation.

It was expected the strike would idle some 80,000 other Chrysler workers shortly.

Chrysler's office workers, engineers, cafeteria workers and production workers are represented by the United Auto Workers.

The UAW and Chrysler reached settlement five weeks ago on a new three-year contract for production workers and cafeteria workers.

The office workers and engineers' contracts were left open for further negotiations and these talks ended in the strike today.

The major issues in conflict are the union's demands for adjustments of wage increases and seniority provisions for office workers.

Chrysler has 22,000 additional office workers who do not belong to any union.

UAW officials expressed hopes the office workers strike would be settled quickly so production of Chrysler's 1959 model cars would not be tied up.

Production shifts now at work in (Continued on Page 2, Col. 4)

Early Arrival Blooms

MITE NOW MIGHTY — When Lorna LaVerne Hazelwood of Hawthorne, Calif. was born 100 days prematurely last January, she was too fragile to weigh and doctors gave her only the slim-chances of surviving. She was only 1 pound, 8 ounces at 10 days, but now has earned the title of "Mighty Mite" by growing into a chubby 14½ pounder.

Giant Planes Crash at Idlewild; All Safe

From Our News Wires

NEW YORK — A huge cargo plane crashed on the take-off from Idlewild Airport on a pilot training flight yesterday.

It skidded in flames 1,000 feet and slammed into a passenger plane about to take on 40 passengers waiting nearby.

No one was killed. Officials said 10 persons were injured, none seriously. All were employees of airlines or the airport.

The cargo plane, a \$1,750,000 Seaboard and Western Airlines Super Constellation, and the passenger plane, a \$1,100,000 Trans Canada Airlines Viscount Turbo-Prop, were both destroyed.

The four-engine Constellation narrowly missed crashing into the airport's sprawling domestic terminal building, where hundreds of persons were checking in for flights, claiming baggage or milling about. The building was scorched by the flames.

Scores of airport workers fled for their lives before the careening plane as it smashed airport vehicles in its path.

Investigators picked among the flame-ravaged ruins of the giant cargo plane today for clues to the cause of its spectacular, fiery ground collision.

Capt. Ralph Neary, 38, who was in charge of the cargo plane but not at the controls, said: "We were just taking off when the airplane swerved sharply to the left. What caused it, we don't know as yet."

The cargo plane's skid was broken by the Viscount, or it would have crashed into the terminal building at a point where United Airlines has a ticket counter.

The only persons aboard the Viscount were stewardesses Karen Foch and Jean Bedard, preparing to greet the passengers. Miss Foch was uninjured. Miss Bedard hurt her ankle slightly.

All activities in the area were suspended during the height of the crisis.

UF Still Lacking \$157,288 of Goal With 1 Day Left

Tomorrow Will Reveal Pontiac Area Total in Drive for \$501,000

The Pontiac Area United Fund campaign lacked \$157,288 of its minimum \$501,000 goal, going into the last day of the drive, according to returns tabulated this morning.

"If Commercial and Industrial Divisions returns continue to come in at their present rate, it will be sometime tomorrow before an accurate figure can be tabulated on where we finally stand," stated Philip J. Monaghan, campaign chairman.

The present returns from the Industrial Division total \$498,560. Included in today's report is the final employee and firm contribution of Consumers Power Co., which totals \$3,193 and represents an 11 per cent increase over last year. The total 1957 combined employee and firm gift was \$7,421.

This year's total included \$4,193 from Consumers Power Co. area employees and a \$4,000 firm gift.

United Fund plant chairman Robert Lemke said the employees of Consumers have established a new participation record with 91 per cent contributing. Moreover, the average employee gift reached a new peak of \$11.40, an increase of \$1.62 over the average pledge of a year ago.

Increased acceptance of the Fund's "giving yardstick" as a pledge guide was cited by Lemke as the major reason for the company's fine performance.

Fund officials are counting on increased pledges from the wage earners to take up the slack caused by employment cut-backs this year.

The Commercial Division solicited (Continued on Page 2, Col. 6)

Nine Circulating Judge Petitions

By GEORGE T. TRUMBULL JR.

Petitions are being circulated by three incumbent Oakland County circuit judges and a number of attorneys hoping to win a place on the Circuit Court bench in next April's election.

Among these is Prosecutor Frederick C. Ziem, who for some time has considered a judgeship. Ziem, 42, re-elected last week to a fourth term, announced yesterday his decision to seek the new job.

Others either circulating nominating petitions or about to are Judge H. Russel Holland, Clark J. Adams, William Beer, former State Rep. Theodore F. Hughes, Circuit Court Commissioner Verne C. Hampton, Pontiac attorney Milton F. Cooney, and Royal Oak attorneys Stanton G. Dondoro and Maurice A. Merritt.

On the non-partisan judicial ballot April 6 will be seven positions, five full six-year terms beginning Jan. 1, 1960, and two short terms.

The fifth judgeship was passed by the Legislature and approved by the Governor after several attempts to lessen the case load—considered the largest in the state—on the existing four judges.

The two short terms on the ballot will include a six-month term beginning July 1, 1959 for this fifth judgeship, and another for the unexpired term of the late Judge George B. Hartwick.

Judge Beer presently occupies Judge Hartwick's old bench, and will likely hold onto the job ending Dec. 31, 1959 unless he is opposed and defeated for the unexpired term.

Judge Frank L. Doty is not eligible to seek re-election to the Oakland bench due to a state law prohibiting those over 70 years from being a candidate.

Candidates have until Dec. 29 to get their nominating petitions into the Secretary of State's office in Lansing. A primary will be held Feb. 16 for the seven positions.

Petitioners are required to get signatures equalling not less than one per cent and not more than four per cent of the total vote cast for Secretary of State in the county during the last general fall election. There were 193,048 votes cast for the two candidates for this office Nov. 4.

This morning's sunny skies will become overcast tonight with the temperature dropping to a low of 45 degrees.

Increasing cloudiness and colder is the weatherman's forecast for tomorrow, the high near 50. Winds will be northwesterly at 15-25 miles an hour.

Thirty-four was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury rose to 53 at 1 p.m.

Out on Bond Attorneys Seek Another Trial on Silencer Charge

HERMAN KIERDORF

Ex-Teamster Aide, 68, Free on \$15,000 Bond in Meantime

Six hours after he had been sentenced to 1 to 5 years in prison for possessing a pistol silencer, former Teamster Union aide Herman Kierdorf was free on bond while his attorneys sought to win a new trial for him.

Attorneys Eric E. Zisman and William F. Dohany began drafting papers requesting a new trial after Oakland County Circuit Judge Clark J. Adams handed down the prison term to the 68-year-old Madison Heights man.

"Your case is unique in this court as you are the oldest man I have ever been required to sentence," declared the judge before he passed sentence.

When he asked Kierdorf and his attorneys whether they had anything to say before sentencing, Zisman asked that the judge take into account his client's heart condition and age.

Judge Adams said he had considered Kierdorf's age, the fact he had two other felonies on his record, and that he had "led an exemplary life" during the last 10 years, "at least on the surface."

Standing beside Zisman, Kierdorf dropped his head, and blinked a few times when he heard the sentence. He walked to the jury box then to await the short walk over to the county jail.

He dodged reporters' questions and tried to hide himself and another prisoner from newsmen's cameras with his overcoat as he walked handcuffed to the jail.

"I think the sentence was a little unjust," he said later. (Continued on Page 2, Col. 5)

Chinese Reds Issue Warning

May Step Up Shelling of Quemoy, Broadcast Tells Nationalists

TAIPEI, Formosa (AP) — The Communists' warned defenders of the Quemoy today that they might resume shelling every day, the Chinese Nationalists reported. Red shore guns have been silent for four even-numbered days.

The warning, broadcast by loud-speakers on the mainland, did not make clear whether the supply areas on Quemoy would be shelled on even days. Since Oct. 25 the Reds have shelled the supply areas only on odd-numbered days.

Since today was an odd day the Nationalists on the offshore islands are waiting until Wednesday to see what Red gunners would do. Nothing was heard from Radio Peiping.

Radio Peiping announced 17 days ago that the landing beaches and airstrip on the Quemoy would not be shelled on even days. It said the remainder of the offshore islands might be shelled on even days, however.

But in practice, Communist gunners have been inactive on the last four even days. The loud-speaker announcement could simply mean that areas other than the landing zones would now be bombarded on even days once more.

Or it could mean that the Communist alternate-day policy was being abandoned completely in favor of shelling the landing zones daily. Nationalist officials tended to doubt this since Peiping radio had not spoken up.

More or less, Communist gunners have been inactive on the last four even days. The loud-speaker announcement could simply mean that areas other than the landing zones would now be bombarded on even days once more.

Union Eyes Airports
WASHINGTON (UPI) — The Teamsters' Union today eyed 22 major airports as possible targets of organizing drives.

Blast Wrecks Junior High

AP Wirephoto

EXAMINE BOMBED SCHOOL — A police officer checks the damage done yesterday to an integrated junior high school in Morgantown, West Virginia, when the building was dynamited. The two-story building was damaged so badly it will have to be torn down. The blast occurred before school convened, and no one was hurt.

U. S. Honors Veterans in Rites Today

WASHINGTON (UPI) — The nation paused today to pay tribute to the American veterans—living and dead—of three major wars in this century.

Veterans' Day ceremonies here and across the land stressed the sacrifice of the 616,619 servicemen who died for their country, and the task of keeping the peace shared by America's 22,723,000 living veterans.

Focal point for the national observance was the hushed ceremony at nearby Arlington National Cemetery, solemn wreath ceremonies at the graves of fallen comrades were the order of the day.

Schools, government offices and some businesses were closed in many communities for the 40th commemoration of what was once called Armistice Day in remembrance of the end of World War I — at exactly 11 a.m. on Nov. 11, 1918.

President Eisenhower was not present for the traditional presidential wreath ceremony at the Tomb of the Unknowns in Arlington late this morning. Sumner G. Whittier, administrator of veterans' affairs, officiated on Eisenhower's behalf.

Start Integration Little Rock Told

Federal Court Orders School Board to Take Positive Steps

From Our Wire Services

ST. LOUIS — The Little Rock School Board was directed by a federal appeals court yesterday to take positive steps to achieve integration in its district, where the four public high schools have been shut down.

The court did not establish a timetable for reopening the high schools. Nor did it spell out just how the integration order should be carried out. These matters were left up to Federal District Judge John E. Miller of Arkansas and the school board itself.

Gov. Orval E. Faubus of Arkansas indicated the Little Rock Private School Corp. will continue operating a senior high school for white students in a private building with private funds.

The three-judge division of the U.S. Eighth Circuit Court of Appeals, in its unanimous opinion, also outlawed a plan for leasing the public high school buildings to the Little Rock private school group.

BOARD MEETS

The Little Rock School Board decides at a meeting today whether to resign as a group in the face of the federal court order.

If the board decides to resign, it was expected to do so Saturday, the deadline for candidates to file for the annual school elections, Dec. 6.

One of the six board members, Dr. Dale Alford, already has decided not to run for re-election. He will go to Congress as the write-in winner over Rep. Brooks Hays (D-Ark) in last week's general election.

It was considered likely that School Superintendent Virgil T. Blossom would lose his job if the mass resignation occurs. It was reported that the board was planning to buy up his contract, which has 19 months to run at \$1,100 a month.

Variety Spices Weather Menu Across Nation

By The Associated Press

A variety of weather was reported across the country today. Rain and snow and cool air covered wide areas in the West. Skies were clear and it was chilly in sections of the Southeast. Showers and snow diminished in most of the Northeast while it was fair and warmer in most of the central part of the country.

A cold front swept southeastward across the western states and drops in temperature averaged 10 to 20 degrees from Montana southwestward into central California.

Snow fell in parts of Wyoming, with more than one inch reported at Evanston, in the southwestern section.

Temperatures dropped into the 30s as far south as northern parts of Alabama and Georgia. They were mostly in the 40s from the Carolinas northward into southern New England. Mild weather continued in extreme southern Florida, with readings in the 70s.

The wet belt of showers and snow from New York and New England into West Virginia was confined mostly to northern New England, where light snow fell. Snow, which measured more than a foot in the mountain areas, was expected to end and fair weather was in prospect from the south Atlantic states northward into northern New England.

Skies were clear in most areas from the upper Great Lakes region through the Ohio Valley and middle Mississippi Valley.

Garden City Mayor Unhurt

Tierney Escapes Death When Bullet Goes Wild

DETROIT (AP)—A shot was fired at James Tierney last night only a few hours after he had been sworn in for his second two-year term as mayor of suburban Garden City. He was not hit.

The 53-year-old Tierney, who was shot and critically wounded at a meeting of city officials in 1957, told police he had parked his car in the garage at the rear of his home when a bullet zipped over his head.

JAMES CLARKSON

Executive vice president and secretary of Pontiac Federal Savings & Loan Assn., James Clarkson was elected a director of the association Monday. He succeeds the late George K. Zimmerman, Clarkson is a past president of the Detroit Chapter of the Society of Savings & Loan Controllers, and a member of the national organization's committee on methods, systems and procedures. He is chairman of the board of trustees of Pontiac General Hospital.

But Stress 'Slowing Progress'

Colombo Plan Delegates Hail Eisenhower Program

SEATTLE (AP)—Visibly buoyed by a five-point program for progress handed them by President Eisenhower, 200 delegates to the Colombo Plan conference grappled today with the grim details of bringing about a better life for one third of the human race.

The delegates—Asians in particular—expressed keen appreciation of Eisenhower's attention to detail. They hailed his five specific avenues toward improving living standards among South and Southeast Asians as encouraging take-off points for some stern work ahead. Spokesmen for the six donor countries, 12 recipient nations and three colonies, noted these points in their responses to the President's speech:

1. Although progress continued this year in developing the countries which the plan was created to help, the rate of progress slowed generally. How much was not stated. The meetings on the ministerial level are closed.

2. Implicit in the whole Asian situation is the idea that time is short.

MILLIONS HUNGRY

The President himself noted that millions of people went to bed hungry, had never had enough to eat, Pakistan delegate Mohammed Ali underscored the idea with the warning that "it is futile to talk to hungry nations of economic theories or the blessings of the Democratic way of life. . . . In Asia, the peoples seek no rhyme nor reason as to why they should remain ill fed and ill clad when God's bounties have been bestowed for all mankind."

The Ceylonese delegate R. S. S. Dunwardene, noted that trade and trade balances have fallen off, partly because of fear of an American depression.

Politely not mentioned, but well

Obliging Deer Provides Venison for Prisoners

MUSKOGON (UPI)—Although unable to go deer hunting themselves, inmates of the Muskogon County Jail will have venison anyway, Sheriff Arthur W. Davis said today.

Davis said a motorist hit a buck on a road near Lake Michigan about nine miles north of Muskogon this morning and the deer will be turned over to the jail and venison steaks will be served next Sunday, the day after deer season opens.

Don't Sell Old Bottles for Yuletide Cheer

WASHINGTON (AP)—Uncle Sam is concerned about your old whisky bottles. Reports have come to the Internal Revenue Service that the sale of old bottles—which is unlawful—has increased. The service said the refill boys hope to put inferior quality whisky in bottles with expensive brand labels and peddle them for Christmas gifts.

Barnard Named to Counsel Post

Troy Attorney to Fill Merritt's Place as Top County Legal Adviser

Supervisors of Oakland County yesterday appointed Norman R. Barnard, 43, of Troy as corporate counsel of the county.

The appointment followed action of the Board of Supervisors in combining Barnard's former duties as board committee clerk and legislative agent with the office of corporation counsel.

Barnard, who becomes top legal advisor for Oakland County, succeeds Harry J. Merritt, 62, who died Oct. 26 after nearly 20 years in the position.

Since April of 1956, Barnard has supervised the meetings of the board's 27 committees and served as liaison agent between the board and State Legislature in any action which might affect the county.

Joining Barnard in the newly organized counsel office will be Charles A. Davis, who will keep his old position as first assistant corporation counsel, and Robert P. Allen, moved up from his legal duties with the Drain Commission office to assistant corporation counsel.

SALARIES SET

Supervisors set Barnard's annual pay at \$12,500, Davis' at \$11,500, and Allen's at \$9,000. This will amount to a total increase of \$5,700 more than what the three men received in their former jobs.

Only objection to the appointment-consolidation came from Cyril E. Miller, Avon Township supervisor. He argued the nomination of other possible candidates for Merritt's job was never considered.

Barnard, of 5945 Livermore Rd., was Troy Township justice of the peace (1939-45), township clerk (1945-51), and township supervisor (1951-56) before he took the clerkship position. He received his law degree in 1940 from the University of Detroit and was an associate with a Detroit law firm while he was supervisor.

Davis, 46, of Pontiac Township, has been with Oakland County 12 years. He began as a court clerk with Judge Frank L. Doty and joined the corporation counsel's office in October of 1951.

Allen is 31 and lives at 509 S. Pleasant St., Royal Oak. He started with Oakland County in 1956 with the drain office.

8,000 Walking Out at Chrysler Plant

(Continued From Page One)

Chrysler plants remained on the job in the first hour of the office workers' strike. But under the UAW's traditional policy, it was not expected that any union members would cross the office workers-engineers' picket lines to enter the plants for later shifts.

The Chrysler and United Auto Workers bargainers began talking yesterday. The talks continued through the night and into the early morning hours before adjourning at 6 a.m. (EST). They resumed at 8 a.m.

UF Agency Offers Advice

Marriage Catastrophe Averted

"Frankly, I'm completely surprised," Mr. Brown said. "Why, I don't drink as much as many men I know. Just a few beers now and then, but nothing excessive or worth worrying about."

This was his first interview with a marriage counselor at the Pontiac office of Family Service of Oakland County, a United Fund agency.

The dismayed husband continued "I realize my wife and I haven't been getting along too well lately, but what does she expect? All I ask is the peace and quiet of my home, a few beers and my evening newspaper. I don't spend our money on a lot of outside activities."

According to Estelle Martin, ex-

ecutive director of Family Service, "This is very often the reaction we get from husbands. They have no idea what has been happening to their marriage. You might even call many of them innocent bystanders."

Mrs. Brown had come to the Family Service Agency for help. She told a counselor how her husband was becoming "an alcoholic" and "just sat around home drinking all the time."

Case workers pried into her testimony looking for a basis for the trouble, and when they came across the statement "he'll be a drunkard just like my father was," they had found a starting point.

Mrs. Brown had thought of a divorce, but came to this commu-

nity service agency first. It was a wise and lucky decision. She complained about her husband never taking her out, but just sitting at home becoming a drunkard.

The Browns had argued frequently. She "harped" at him about his drinking. He insisted that he was not going to cut out his "only pleasure in life."

Before beginning work on the case, counselors called in Mr. Brown for a talk. What they had suspected proved a reality.

The fault was on both sides, but most of it was on Mrs. Brown's side. She was suffering from a typical "disease" of young married couples — what one might call "over-comparison."

She had set up the model of a

2 Airlines Picketed by Capital Strikers

NEW YORK (AP)—Pickets were set up outside the employee entrances of Trans World Airlines and Eastern Airlines hangars at La Guardia field last night by striking employees of Capital Airlines.

The pickets belong to the International Assn. of Machinists, which has been striking Capital for 26 days. The other two lines are not on strike but Eastern employees have been voting on contract issues.

A spokesman for TWA at the field said that some employees had reported to work at midnight in spite of the pickets and that the airline expected no trouble.

"We're all set for flights through the morning," he added.

The union also has current contract disputes with TWA, Eastern, National, Northeast and Northwest.

Man Gets 2-4 Years for Theft in Pontiac

A sentence of 2 to 4 years in the State Prison of Southern Michigan at Jackson was handed down yesterday by Oakland County Circuit Judge Frank L. Doty for Melvin Hatchett, 22, of Pontiac, for the theft of \$55 from a Pontiac store.

Hatchett, of 180 Wessen St., was found guilty by a jury Oct. 23 for the theft of the money from a clothing store on Saginaw St.

Escapes Being Shot Down

King of Jordan Home Safe

AMMAN, Jordan (AP) — Jordanians celebrated today the safe return of King Hussein from what he charged was a United Arab Republic attempt to kill or capture him on a flight over Syria.

(U.A.R. officials in Cairo denied

United Fund Drive in Last Day Today

(Continued From Page One)

itors have set today as the target date for completing their calls. Their returns, tabulated as late as 11 p.m. this morning, amounted to \$121,744 or 67.8 per cent of the Division's \$179,371 quota.

"Our workers still have many more calls to make, and we have instructed them to complete every call on their lists before turning in their kits," stated Judge Clark J. Adams, who is sharing the chairmanship of the Commercial Division this year with Berkeley Voss.

The Women's Division completed its door-to-door residential campaign last week with all three of its geographic areas, Pontiac, Waterford and Lake Angelus, exceeding their quotas. The division as a whole collected \$23,407.86 which is \$2,617.86 in excess of quota.

The Day in Birmingham

State Reversal on Access to U. S. 10 Raises Query

BIRMINGHAM — A two-year ultimatum for the construction of access drives along U.S. 10 that will end next April has Birmingham city commissioners wondering which way to turn.

In 1957, all property owners on the highway were told by the city that they had two years in which to construct the drives. City officials believed it a necessity to have the drives installed as a traffic safety measure.

At that time the State Highway Dept. gave the project its blessing in the form of assured financial participation.

A recent change of thinking by highway officials, however, has not only removed this financial assistance but threatens the continued existence of such drives already installed, according to a report from Howard E. Hill, deputy highway commissioner.

While the construction is not prohibited by the state, a warning was sounded in Hill's report that at some future date — probably not before 1962 — a widening of U.S. 10 may mean the removal of all access drives. The cost of the removal would be paid by the city and or property owners involved.

City commissioners last night questioned the outcome of the

two-year-old ruling requiring the drives. Mayor Carl Ingram said he could not see how the city could require construction of the drives in view of the state's new stand.

A complete study of the portion of U.S. 10 within the city limits will be made, after which owners of business properties between 14-Mile road and Oakland avenue will be invited to attend a Commission meeting for open discussion.

In other business, the Commission approved the purchase of nine new automobiles from the Shalla Chevrolet Co. in Detroit.

A Chamber of Commerce proposal to permit free parking in city lots during Men's Shopping Night Dec. 8 also was okayed.

It was a bad night for burglars who attempted to break into the safe at the Michigan Automobile Assn. office, 257 S. Hunter Blvd., last night.

Birmingham Police said they not only failed to open the safe but were unable to remove a punch with which they had tried to force pins out of the lock.

Entry into the building was gained by breaking a window on the north side of the building.

Mrs. Herbert Masters, Birmingham president of the Franklin Cemetery Auxiliary, said the association's annual bazaar will be held in the Franklin Community Church basement at 12:30 p.m.

Service for Eli C. Coll, 64, of 755 Vinewood St., Birmingham, will be held at 2 p.m. Thursday at Manley Bailey Funeral Home, with burial in Acacia Park Cemetery.

Mr. Coll died yesterday at Mt. Carmel Mercy Hospital following a heart attack. He was branch manager of the Hoover Sweeper Co. of Detroit for 35 years.

Mr. Coll was a member of Shant's Lodge 377, F & AM, Rockford, Ohio.

Surviving are his wife, Hermina; a daughter, Jan at home, and two sisters.

Begin 2nd Session for World Safety

GENEVA (AP) — The second session of the 10-nation conference on ways to lessen the danger of surprise attack began today behind closed doors of the Palais des Nations.

The United States, Britain, France, Italy and Canada were speaking for the North Atlantic Alliance and Russia, Poland, Czechoslovakia, Romania and Albania for the Soviet bloc.

Meanwhile, the delegates to the three-power talks on suspension of nuclear tests decided for the second straight day to forego a formal session and meet privately this afternoon instead. They are trying to see if they can reach a compromise on their agenda.

The Americans and British want the test conference to get to work at once on an international control system to police a ban on nuclear testing. The Russians insist that the first step must be an immediate agreement by all three powers for permanent cessation of atomic and hydrogen bomb tests.

A new rocket fuel experiment? New remedial reading class? New way of teaching physics? Could be anything. Our schools are bubbling over with new energy, new interests, new ideas. Visit them and see the excitement, during

Supreme Court 'Saves' Millions

Rules Cost of Living on Job Not Deductible From Income Tax

WASHINGTON (AP)—The Supreme Court ruled 6-3 Monday that workmen who pay board and lodging at job sites away from their established residences may not deduct the cost as business expenses on income tax returns.

The court's decision was announced in an unsigned opinion. Justice Douglas wrote a dissent joined by Justices Black and Whitaker.

The case was brought by three North Carolina workmen. Had they won it, the principle would have applied to thousands of other workers at a cost of many millions of dollars to the U.S. Treasury.

The three workmen were James E. Pourifoy, a welder with a residence at Kirtle Beach, N.C.; Paul V. Stines, a plumber; and John S. Hall, a welder, both residents of Raleigh, N.C.

In their 1953 tax returns they sought to deduct from gross income amounts spent for subsistence and quarters while they worked on construction of a Du Pont plant at Kingston, N.C.

The U.S. Tax Court approved the deductions. The U.S. Circuit Court in Richmond overruled the tax court. The workmen then appealed to the high tribunal, where the Justice Department opposed their contentions.

The government argued tax law permits such deduction only to a taxpayer who, in pursuit of his trade or business, must travel either temporarily or intermittently away from the locality which is his regular post of duty.

The Supreme Court majority said the case turned upon a narrow question of fact—whether employment of the three men was "temporary or indefinite."

The Supreme Court then said the Circuit Court made a fair assessment of the record in the case and found that the employment was not temporary.

Father, Son Accused of Inciting Thefts

PATERSON, N.J. (AP)—Police say they have broken a weird triangle of burglary—composed of an obedient 15-year-old boy who stole to satisfy the whims of a father and his son.

Victor R. Gilbert, 64, and his son, Victor F., 22, arrested Monday night, were charged with receiving stolen goods and held in \$1,000 bail each.

The boy, not identified because of his age, implicated the other two after surrendering to police. He will be turned over to juvenile authorities.

Police said that Gilbert and his son would suggest to the boy that they needed such things as radios or other items—and he would then steal them.

On one occasion, police said, the boy even looted a drug store because the Gilberts needed ice cream for a family party.

GARDEN THRILL — Bristling with waving-tailed defiance, a small white cat seems ready to tackle a vicious-looking menace in an Oxford, Miss., garden. About

as dangerous as a pussy willow, the "snake" is actually a gourd growing at the home of Mr. and Mrs. Maurice Littlejohn, who own the fearless feline.

Hal Boyle Opens His Mail

Old Days Not Half Bad for Rich Frenchmen

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

That the good old days weren't so bad in France. During the 15th century a Frenchman who kept three servants was permitted to kiss any French woman he fancied—except the relatives of his superiors.

If an acquaintance annoys you by bragging his ancestors came over in 1620 on the Mayflower, you can always squelch him by pointing out: "After all, the first cow came over in 1611."

Hollywood may lead America in ulcers, but New York has more doctors than any other state. Farm families drink an average

of 11 quarts of milk a week. City families drink nine.

Actor Walter Slezak describes his first meeting with his wife thusly: "The moment I saw her, God kissed me on the eyes." How long has it been since you told your wife something like that?

Everybody complains about the high price of food, but down in Colombia, South America, they've got a real holler. The price of toasted ants has just gone up to \$1.34 a pound.

Teen-agers have a new term for horror movies—"screen screams."

That one of the highest cities in the world, Phari in Tibet, is 14,300 feet above sea level. A tourist can't lift anything heavier than a martini for fear of getting a nose-bleed.

Feeling older? Every day 2,000 less as ever. Last year one out of five moved to a new home.

Here's a health tip your young daughter probably won't pay any attention to: Some doctors believe prolonged wearing of a pony tail may induce baldness.

Some scientific tests indicate that a man's mental powers in cold weather are up to 30 per cent higher than in warm weather. That reminds us of the old gag about the fellow who had water on the brain. In winter it froze, and everything slipped his mind.

It was Will Rogers who observed, "The income tax has made about as many liars out of the American public as golf has."

George Romney Says:

Corporations Must Avoid Labor's Political Example

CHICAGO (AP)—The president of American Motors Corp. said today it would be tragic and probably fatal to American freedom if big business corporations follow the union trail to politics.

George Romney said both the Republican and Democratic parties fail to provide the public with a choice of action on major issues that will make or break America. He asserted both parties now go into an election on the basis of how they can best serve the interests of or avoid offense to various pressure groups.

Addressing the 38th annual meeting of the American Petroleum Institute, Romney said the public should be given a thorough understanding of critical issues through distinct party positions and an opportunity to guide the nation through a verdict at the polls.

Citing several examples of what he called "make-or-break" choices, the automobile executive said these issues cannot be resolved if

neither party will take a stand on them.

"Not only have we had little choice between the two parties, but there is growing union domination of the Democratic Party, and big business domination of the Republican Party," he added.

"We need at least one party that is subject to no group but devoted to the indispensable and dynamic principles of Americanism."

Romney asserted that to meet the challenge of what he said was rapidly becoming political domination of the Democratic Party by organized labor, industry should not imitate union methods.

"They are to be deplored, not duplicated," he asserted, adding:

"One of the problems in America is the use of economic organizations for political purposes. Politically, we should express ourselves as individual citizens, as Americans, through political organizations, not as members of different economic groups. This is particularly true of big business and big labor, which wield such great power."

"It will be tragic and probably fatal to American freedom if big business corporations follow the union trail to politics."

Romney said effective limits on the responsibility and function of government, labor, and business are essential to the preservation of liberty and progress.

Crude Bomb Turns Trucker Into Torch

ATLANTA (AP)—A truck driver was turned into a flaming torch and severely burned by a home-made fire bomb tossed into the cab of his truck shortly after he drove away from a strike bound steel plant Monday.

Edwin Linwood Gossett of nearby Hampton leaped from the truck and ripped off his flaming clothes.

A passenger in the truck leaped to safety and was uninjured.

Patrolman R. L. Rhodes, who escorted the truck load of steel from the Atlantic Steel Co., said the fire bombed apparently was thrown from behind some bushes along the street.

Gossett had just driven from the plant with a load of steel for his employer, the Southern States Equipment Corp., of Hampton.

The Atlantic Steel Co., was closed Oct. 31 by a strike that idled about 1,400 workers.

Gossett was taken to his home after hospital treatment.

Belligerent Stag Challenges Auto Once Too Often

PITTSBURGH (AP)—Old Barney, a 165-pound stag has made his last challenge. He was done in by a woman motorist.

When he wasn't teasing frustrated hunters by showing the white of his tail after straying off his protected range in Allegheny County's North Park, Old Barney made sport of motorists.

Up to his usual tricks, the big animal leaped onto a park road, lowered his 10-point rack and challenged the lights of an oncoming auto.

Mrs. Lena Dunkle of Mars, Pa., was the first motorist in 10 years unable to stop in time.

Maine's production of graded dress poultry last year was 136,154,450 pounds, more than any other state in the nation and an increase of more than two million pounds over the previous 12 months.

Some From Laughter

Many Factors Affect Facial Lines

By JOSEPHINE LOWMAN

The age at which a woman begins to get lines in her face depends on many different things.

First there is the kind of skin she has, whether it is dry or oily, thin or thick. Generally speaking the fair complexioned woman has

a thinner epidermis than her brunette sister. Usually her skin is drier also. Therefore she must fight wrinkles sooner and more earnestly.

The very vicious person or the one who indulges in extreme facial mannerisms will line sooner. The gay one may have laughing crinkles at the corners of her eyes and on her nose while the facial gymnast may have wrinkles from squinting or lifting her eyebrows or frowning.

A LOT OF LAUGHING

We would hate to do away with the spirit which goes along with the laugh lines, but we could do without those which come from mannerisms which are not attractive anyway. Actually a woman can get away with a lot of laughing if the skin is given proper care.

The climate we live in also has its effect. English women have long been known for their lovely complexions because of the damp atmosphere in which they reside, while those who are constantly exposed to the sun and wind are apt to age sooner skin-wise.

Naturally our health plays an important part. The general body tone is influenced by it and we must always remember that our complexion is nourished from within by the food we eat.

Even our thoughts and emotions affect our outer coating. Worry can make us break out in a rash and an unhappy outlook pulls the corners of the mouth down with resulting lining.

The most important single factor of all is the regularity of the care we give our complexion. Many of the damaging factors mentioned can be controlled or minimized but it takes a real investment many women fail to give.

Regular cleansing and lubrication, fine nutrition and all of the habits which build health, plus a

happy outlook, will prolong a youthful appearance.

Berean Class Holds Dinner, Fetes Couple

Forty members of the Loyal Berean Class of Christian Temple met for a cooperative dinner at the church Tuesday evening.

Plans were made to send a loud speaker to the Rev. and Mrs. Charles Mason, missionaries in South Africa, as a gift from the class.

Mrs. Howard Blackburn was named program chairman for the December meeting which will include a travelogue of the Holy Land.

At the close of the meeting, Rudolph Miller, class president, and Mrs. Miller celebrated their 25th wedding anniversary. The couple repeated their marriage vows in a ceremony with the Rev. L. P. Marion officiating. Carl Newman acted as best man, with Mrs. Newman as matron of honor, and Mrs. Ralph Johnson as soloist.

Sylvanites See Film

A program on "Hawaii" was presented when 15 members of New Sylvanites Club of Sylvan Lake met Thursday at the Community Service Building. A colored sound film was shown by a representative of a national airline. Mrs. Bean Wilson was hostess.

Electric skillets come in three shapes—round, square or rectangular. Covers may be metal or glass.

The gay one may have laughing crinkles at the corners of her eyes and on her nose.

Find What We Seek in Meeting People

By RUTH MILLETT

Dorothy is always meeting the most interesting, the most amusing, the nicest, and the smartest people.

Yet Dorothy doesn't have a fascinating job that makes it possible for her to meet "interesting" people.

Dorothy is a housewife in a small city and the interesting people she is always meeting are the same people her friends meet and seldom find to be stimulating.

The reason Dorothy finds so many people unusual in one way or another is that Dorothy looks for qualities in each person she meets that set that person apart.

When she meets another housewife, for instance, she doesn't immediately put her in a mental category—about 30, husband an insurance man, rather pretty, two children, lives in such and such a neighborhood.

No, Dorothy comes away from the meeting with an entirely different picture. She didn't meet a thrifty housewife, whose husband sells insurance, whose wife is interested in art, who is taking painting lessons at the local college, and whose enthusiasm for her hobby has won Dorothy's attention and admiration.

Just hearing Dorothy describe this new acquaintance would make you anxious to meet her—for Dorothy has discovered what it is that makes her different from other housewives.

When Dorothy speaks of the persons she knows it is in terms of their intelligence, their wit, or their special talents — because that is what she looks for in the persons she meets.

So she finds interesting people everywhere. And so could the rest of us—if whenever we meet a person we would look for the thing that makes him different and sets him apart from others.

All too often we housewives tell ourselves that only women with fascinating jobs have a chance to meet fascinating people.

No gravy left over from that pot roast? Slice the leftover meat very thin and serve with cranberry sauce.

Make these gala decorations yourself — have dozens more for little money. All easy! Pin-money Christmas magic! Use glittering foil for sunburst, gift boxes to hang on tree, paper-doll cutouts for angel. Pattern 678: Pattern pieces, directions.

Send 35 cents (coins) for this pattern — add five cents for each pattern for 1st-class mailing. Send to The Pontiac Press, 124 Needlecraft Dept., P.O. Box 164, Old Chelsea Station, New York 11, N.Y. Print plainly pattern number, name, address and zone.

A new 1959 Laura Wheeler Needlecraft Book — just out — has lovely designs to order: Embroidery, crochet, knitting, weaving, quilting, toys. In the book, a special surprise to make a little girl happy—a cut-out doll, clothes to color. Send 25 cents for this book.

'Eyes' Really Have It

Did you ever see a girl with violet eyelashes? Well, this fall you're likely to be the girl with violet eyelashes and violet eye-shadow as well.

For this is the autumn of daring color in eye make-up. Emerald green. Royal blue. Violet. Or French blue and opalescent orchid blended for a soft, misty effect.

Offhand, it sounds awful. But on the lashes and the lids, it looks mysterious, sophisticated and dashing. You'll see when you try it.

Save it for late day and evening, of course. If you show up at the office or for a luncheon date battling bright blue eyelashes, you may startle onlookers.

But eye make-up keyed to its proper setting is a different matter and it can turn a plain

girl in a plain black dress into a beauty if it's handled with care and good taste.

If you feel really daring, apply royal blue to your lashes, then tip them in violet. Use orchid eye shadow on your lids and you'll get a glint in your eyes that you've never had before.

Leftover Mascara Breaks Eyelashes

To keep that fresh eyed look, remove every trace of eye make-up before retiring. Leftover bits of mascara tend to make eyelashes brittle, breakable. Here again, petroleum jelly comes in handy.

It will remove every trace of eye make-up. Tissue off excess, but reserve the residue to act as a lubricant while you sleep.

MSU Talks Over Troubles in Secret

Fatalities Down 25 Per Cent Gridiron Deaths Have Decreased This Season

LOS ANGELES (UPI) — The mid-season report on football fatalities released today showed that deaths resulting from active participation in the game have decreased 25 per cent as compared to the same period last year.

The report was released by Dr. Floyd R. Eastwood, associate dean at Los Angeles State College and chairman of the Football Fatalities Committee of the American Football Coaches Association.

Figures compiled by Dr. Eastwood recorded 12 deaths due to football play up to Nov. 6, as compared to 16 fatalities last year at the same time. He pointed out that three of this year's deaths were in sandlot play while last year at the same time there were none in that category.

"These sandlot fatalities do not occur under supervised game conditions, but are perhaps inadvisably recorded as football fatalities," he commented.

Dr. Eastwood said that of all the direct fatalities reported over the past 26 years, 23 per cent of them were sandlot deaths.

High school fatalities this year were listed as eight, as compared to 13 last year. There were no semi-pro football deaths this year up to the present time, while last year there was one. In college ranks, there was one fatality this year, while last year there were two.

Pointing to the chief factor in football deaths, Dr. Eastwood said: "All but one of the fatalities were caused by injuries to the head and neck of the players."

Dr. Eastwood said that the American Football Coaches Association had long been campaigning for more improvements in head gear to eliminate that cause of fatal injuries, especially among high school players.

"It is clear from statistics collected in the past 26 years that football as a game is mildly hazardous," he added, "Only 1.5 high school players and slightly over 2.2 in college are fatally injured per 100,000 participant exposures."

Dr. Eastwood's report to the coaches' association last winter showed the total fatalities for 1957 were 21, while in 1956 there were 22.

At that time Dr. Eastwood commented football could not be considered a hazardous activity and added, "It is more dangerous to drive a car, swim or handle firearms than to play football."

Drills Briefly After 1½ Hour Closed Session

Duffy Noncommittal, Munn Angry Over Twin 'Hangings' of Coach

EAST LANSING (AP) — Michigan State's faltering footballers passed up their usual practice session yesterday to try to talk out their troubles.

There was no workout as such after the 6-0 defeat by Indiana, the fourth straight Big Ten beating for the Spartans.

Instead, coach Duffy Daugherty was closeted in a secret dressing room session with his team for nearly an hour and a half. The squad then went through only a brief limbering up in the darkness of Spartan Stadium.

"We wanted to have a squad discussion on what we could do to improve our performance," Daugherty said. "There is no discussion on the club," he added.

Daugherty remained non-committal about the double hanging in effigy on the campus over the weekend.

"I have enough problems without worrying about that," he said.

Daugherty was the fourth Big Ten coach to get the hanging treatment this season.

Michigan's Bennie Oosterbaan, and Woody Hayes of Ohio State also have been suspended by dissident students on the local campuses.

Daugherty got a double dose. One dummy, hanging from the MSU goalposts, wore a placard reading "Goodbye Duffy, Bring Back Biggie."

Another effigy, found elsewhere on the campus, carried a sign "Duffy—Olivet Needs You." This apparently was written before word had circulated that Olivet had broken a 29-game losing streak by beating Kalamazoo College 20-13.

Michigan State Athletic director Biggie Munn was angered by the incidents.

"You can bet that those who did it never blocked or tackled anyone," Munn said. "I'd like to paddle them. Their poor sportsmanship is showing."

Feeling on the campus was that a sour grapes minority was responsible for the jibes at the popular Daugherty.

Wayne Reginald, Deerfield junior and leader of the "Spartan Spirit," athletic booster group, said he thought the effigy hanging was intended to be humorous rather than malicious.

"Most of our students still think Daugherty is one of the best coaches in the country," he said. "Just a while ago, a group of students gave him a scroll declaring they were 100 per cent behind Daugherty."

"Duffy is very popular with the students," said Dr. John W. Truitt, director of the men's division of student affairs. "I didn't think it would happen here."

7 Teams on Sugar Bowl List

Cal Leads Race for Roses

By The Associated Press

It may become hopelessly muddled later, but at the moment the Pacific Coast Conference picture shows California clearly leading the race to the Rose Bowl.

The Bears, with a 4-1 mark, are the only PCC football squad having just one conference loss. Three other schools each have two defeats but they have an outside chance to snatch the rosebuds.

California is definitely the favorite, despite the reluctance of Bear Coach Pete Elliott to accept the role. He's worried about this Saturday's contest with Washington in Seattle, with the Bears favored. If Cal goes according to form and tops the Huskies, it looks as if the Bears will meet Iowa in Pasadena New Year's Day.

After Washington, Cal takes on Stanford in the season closer, the traditional big game that can go either way, and often does. The Bears, however, undoubtedly will be the favorite.

California's three challengers, Washington State, Oregon State and Southern California, have rough going to overtake the Bears.

Seven schools are on the list from which the Cotton Bowl expects to pick its visiting team but which is the hottest prospect isn't being revealed. For that matter, the Cotton Bowl itself probably doesn't know at this stage.

Mississippi, Air Force Academy, Pittsburgh, Syracuse North Carolina, Army and Louisiana State are on the list. But Army is doubtful since West Point never has indicated in the past it would accept a bid anyway. The Southwest Conference champion is host team in the Cotton Bowl, with Rice the favorite.

Army played Rice last week, beating the Owls 14-7. It would be considered unlikely for Army to want to play the same team again even if it decided to go to a bowl.

Louisiana State can't be called a strong possibility in view of its closeness to the Sugar Bowl.

Reliable sources report that Pittsburgh may receive an invitation to play in the Orange Bowl game at Miami, Fla. Pitt is also considered a candidate for the Gator Bowl.

Yardley Holds Top, Arizin 2nd in NBA

NEW YORK (AP) — Pitchin' Paul Arizin, a two-time National Basketball Assn. scoring champion, spurred during the past week to move into second place behind defending titlist George Yardley of the Detroit Pistons.

The scoring leaders:

Player	Club	G	P	FG	FT	Pts.	Avg.
1. Yardley	Det.	9	77	62	216	24.9	2.77
2. Arizin	Phil.	7	65	46	190	27.1	3.87
3. Simon	Det.	9	63	48	178	24.2	2.69

Strikes and Spares

By JOE WILMAN

Adjusting your game to meet different alley conditions is the mark of a good bowler. Not only an experienced bowler, but a bowler with enough common sense to realize what adjustment is called for.

When I bowl on alleys where my hook isn't as great as normal, I have to make some changes in my game. Or, if my ball is hooking too much, that calls for other adjustments.

Here are some changes I make in the order I generally attempt them:

1. My angle. If the ball isn't going into the pocket, I change my angle. By changing my starting position, I will change the angle of delivery at the foul line. If I'm hooking too much, I will move a board or two to the left. If I'm not hooking enough, I'll move a board or two to the right.
2. My speed. By changing the speed of the ball, I can cause it to hook more or less. A faster ball will not hook as much, while a slower ball will hook more.
3. My delivery. By getting the ball farther out on the alley in delivering, I reduce its hooking action because it won't begin to roll as soon. Released closer to the foul line as illustrated, the ball will start rolling sooner and hooking more.

Pheasant Entries Close Wednesday

The 1958 Michigan pheasant season concluded yesterday. The Pontiac Press "pheasant derby" also ended at the same time. Oakland county hunters still have until Wednesday noon to file their entries in the two-division contest for \$50 and \$25 U.S. Savings Bonds.

Current leaders are: heaviest bird, 3-pounds, 12-ounces (Gene Coe), and 40½-inches long (Paul Pace).

Only full-time Oakland county residents are eligible, but birds may have been taken anywhere in the state during the regular season.

International Crisis Hinges on Krushchev Threat to Blockade Berlin

By THOMAS P. WHITNEY
AP Foreign News Analyst

It Nikita Khrushchev really means what he says about abrogating four-power rule in Berlin and freedom of transport between West Berlin and West Germany, there's going to be a new and dangerous international crisis.

The Western powers stood up to the Soviet Union 10 years ago on this issue and forced a Russian backdown with the successful airlift.

So long as the Russians and their East German satellites only talk about blockading Berlin things will be all right. But if they try actually to interfere with Western control over West Berlin or transport and communications between West Germany and West Berlin, there will be real trouble.

And this time, in contrast to the Berlin blockade, the United States, France and Britain could count on the full support of a powerful West Germany in any countermeasures.

What Khrushchev said at the Polish-Russian friendship rally in the Lenin Stadium in Moscow Monday was plain enough.

He said four-power rule in Berlin should be ended. He said the agreements under which the West has unhindered transport and West Germany and West Berlin are obsolete and that the Communists should free themselves from them. He said the West should deal with East Germany directly on questions concerning East Ber-

lin and stressed that the Soviet Union would consider an attack on East Germany as an attack on the Soviet Union.

His sounds menacing. If Khrushchev is really serious, then it would follow that the Russians will formally denounce four-power rule in Berlin and the agreements on which it is based, that the East Germans will interfere with surface and air transport into West Berlin and that the Soviet Union

would regard any action of force by the West to break a blockade as an act of war.

The catch here is that, as Khrushchev no doubt knows, this would mean World War III. It seems questionable that he intends to start the world conflagration, at least in this way.

Even if Khrushchev doesn't want a new world war, however, he still might like to have some increased international tension in

the atmosphere. The Russians are in the midst of a crackdown all along the line on malcontents, "revisionists," and intellectuals in general in the Soviet Union and the satellites. Sharply increased tension would give an excuse to press this crackdown faster and harder.

It is therefore possible that the Russians may try to jockey the Berlin question into position as a "Western Quemy." If so this will be one more in a long series of

examples of aggravation by the Communists of international tension for reasons of internal politics in Communist countries.

The West promptly let it be known that any Communist trouble over Berlin will be met with the same firmness shown at Quemoy.

The U.S. State Department bluntly rejected Khrushchev's proposal. A spokesman quoted recent U.S. statements of readiness to fight for West Berlin.

One of the U.S. statements was issued last May 8 with Britain and France. It reaffirmed their 1954 declaration of determination to preserve West Berlin's security.

In Washington and London, diplomats declared that the Soviet Union alone had no right to abrogate the four-power agreement that regulates Berlin government and access routes. But diplomats suspected Moscow might go ahead and resign as an occupying power in an effort to force the issue.

Rona Jaffe in Filmland to View Script of Novel

By BOB THOMAS
HOLLYWOOD (AP) — Do all working girls want to get married?

Yes, says Rona Jaffe, successful chronicler of the toiling lassies. She's the 26-year-old onetime office worker who wrote "The Best of Everything" and sold it to films for \$100,000. It's her first novel and it's hobbling along nicely in the middle of the top 10 sellers.

Rona, an attractive girl who speaks in tones of her native New York, is here to promote the book and look at the film script. She hedged a bit on her all-working-girls-wanna-get-married thesis with three exceptions:

"Girls who are very shy, who fear that married life will interfere with pursuit of their profession or who are disillusioned by too many unhappy romances."

But these are a minor segment

of the great feminine working mass, she claimed. The others want a man, period.

That's the theme of her book, and the reviewers state that it contains some rather racy passages. I asked how this affected her personal life.

"My parents?" she replied. "Yes, I was afraid they would be shocked. They didn't read the book until it was published. Fortunately, they liked it."

"My book is the result of working four years in an office myself and interviewing a hundred working girls. I discovered there were five basic types of working girls in New York, so I wrote a story about five girls."

Her types:

1. The well-to-do girl who works out of boredom.
2. The out-of-town girl who seeks the glamor life of an actress but fails.
3. The would-be actress who must work part-time to live.
4. The engaged girl earning enough to buy furniture, etc.
5. The divorced mother who must work to support her child.

All are seeking marriage, said Miss Jaffe, and that brought up a natural question: what about her?

"I'm always asked that," she smiled. "The answer is that I haven't found the right man yet."

C. The Hercules, successor to Nike Ajax, is a surface-to-air radio command missile capable of knocking down any manned aircraft or nonballistic missiles known. The

missile body, which can carry either a conventional or nuclear warhead, is 27 feet long and is powered by a solid fuel rocket motor. A 14-foot-long solid rocket booster provides initial impetus. Operational since July, first Hercules units are stationed in the New York, Philadelphia, Chicago and Washington-Baltimore areas.

Moon Lore Influences Farmers in All Ages

WASHINGTON—The moon has given rise to more sense and nonsense than any other unearthly object.

And the idea of getting to it is not new, the National Geographic Society notes. In A.D. 160 a Greek satirist described an imaginary trip to the moon. Ancient observers recognized the lunar effect on tides. Their serious studies of the moon helped develop astronomy.

The public was looking, too. People in every time and place have been convinced themselves, without inhibition, of numerous ways in which the moon influences far more than tides—and lovers. Why not weather, plants, animals, even man's daily affairs?

CHARM AND A CHARM

Much moon lore is whimsical. A maiden who drinks white wine and rose water, then looks at the moon through a silk scarf, for instance, will see the face of her future husband. The best of all lucky charms is the left hind paw of a rabbit killed in a graveyard, by a cross-eyed person, in the dark of the moon.

Some persons believe a sleeper will lose his sight if moonshine falls on his lids, others that sleeping in moonlight will bring insanity. Hence the words lunacy, lunatic, loony and moon-struck.

Moon lore is often taken seriously. Farmers have long been planting and harvesting according to the moon's phases.

Potatoes should be planted in the dark of the moon, preferably on Good Friday; peas, in the light of the moon. The general idea, however, is to sow root crops between the first quarter and the full moon, and leafy plants when it is waning.

To keep vines free of pests, they should be pruned when the moon is in the sign of Leo the Lion. Herbs are most efficacious if gathered before the full moon, which is the best time to give any tonic. Soap shouldn't be made in the moon's dark phase, otherwise it turns out fluffy. Bacon from hogs killed by a waning moon will curl up in the skillet. Fish bite best when tides are highest at the nearest seaport.

CLEAR MOON, FROST SOON

Weather-making, in folklore, is the moon's great forte. There are numerous rhymes of prognostication, such as:

Pale moon doth rain
Red moon doth blow,
White moon doth
Neither rain nor snow.

An upright crescent moon holds no water, thus means a wet month. If the crescent lies on its back, cupping the water, there's no need to keep the mackintosh handy. A full moon gobbles up the clouds.

A ring around the moon is not to be ignored. If the halo en-

City Man Sentenced for Robbing Safe

Oakland County Circuit Judge Clark J. Adams yesterday sentenced Anthony F. Schneider, 24, of Pontiac, to 2 to 5 years in the State Prison of Southern Michigan at Jackson for the burglary of a safe at the Pontiac Municipal Golf Course.

Judge Adams said Schneider's record includes conviction of felonious assault last year and "a long record of misconduct since 1952."

A Circuit Court jury convicted Schneider, of 1257 Cherrylawn Dr., Oct. 23 for burglarizing the safe last June of \$1,600. Pontiac police said Schneider learned the combination of the safe and secured a duplicate key to the front door of the course clubhouse.

Drayton Plains Youth Gets Term in Prison

Seventeen-year-old Lowell R. Hook, of 5046 Hatchery Rd., Drayton Plains, yesterday was sentenced to 1½ to 10 years in the State Prison of Southern Michigan at Jackson for the statutory rape of a 15-year-old girl in April.

The sentence was handed down by Oakland County Circuit Judge Frank L. Doty. Hook pleaded guilty to the charge Oct. 20.

Trailer Court Explosion Seriously Burns Man

HOUGHTON LAKE (AP)—An explosion rocked a trailer court near here yesterday, causing serious burns to one man.

Howard Shepard of Houghton Lake, found dazed outside his destroyed trailer, was taken to Clare Hospital.

The explosion, at the Prudenville trailer court, was believed caused by a bottled gas tank or stove. State police began an investigation.

Ex-Miss U.S.A., Leona Gage, Set to Marry No. 3

HOLLYWOOD (AP) — Leona Gage, who lost her Miss U.S.A. title when officials found she was married, plans to wed for the third time.

Miss Gage, 22, now a show girl at the Moulin Rouge night club here, said she will marry Nick Covacevich, 22, next Monday in Las Vegas, Nev. Covacevich also dances at the club.

The statuesque brunette won the Miss U.S.A. title as Miss Maryland in the 1957 Miss Universe contest. She was deposed when she said she was married to Air Force Sgt. Gene Morris Ennis and was the mother of two sons. Later, she said she had married another airman when she was 14, but that marriage was annulled.

Miss Gage divorced Ennis last February in Las Vegas.

Widows Sue Firm to Force Meeting

MOUNT CLEMENS (UPI) — A contracting corporation owned by two men who lost their lives in a helicopter crash was sued yesterday by their widows.

Suit in Macomb County Circuit Court was filed yesterday by Mrs. Bridget Garavaglia, widow of Julie C. Garavaglia, and Mrs. Audrey Garavaglia, widow of Louis A. Garavaglia.

The widows filed suit to force the corporation to hold a special meeting of shareholders. The women own 50 per cent of the stock in the firm which their late husbands headed.

They charged they were not consulted on management changes and efforts to hold a board meeting in the past were rebuffed. A hearing was set for Dec. 1.

Cuban Partisans Seized in Florida

Federal Men Capture 22 Loading Plane With Munitions

FORT LAUDERDALE, Fla. (AP) — Federal agents surprised nearly two dozen Cuban rebel sympathizers in the act of loading munitions aboard a plane and charged 22 persons with violating the Neutrality Act.

Two women were among the group seized, with an arms-laden B18 bomber on abandoned Prospect Air Field Monday night.

Border Patrol agents blasted a fleeing auto's tire with machine gun bullets, preventing the getaway of five of their prisoners. The airplane pilot, who identified himself as Roger Steadman, 41, of Miami, a native of Huron, S.D., fled in a truck but was arrested later at a Fort Lauderdale bus station.

Agents said a big assortment of rifles, machine guns, ammunition, medical supplies, boots and field equipment were placed aboard the plane as they watched from concealment.

Some of the material was in packages marked "Fidel." Fidel Castro heads the rebel army which dominates much of Cuba's Oriente Province.

There was no immediate word on where the plane came from or who owned it. Agents said the last owner of available record was the Bank of Anchorage, Alaska.

The two-engine plane landed about dusk on the former airfield which is being developed as an industrial site by Fort Lauderdale. Residents of nearby homes telephoned Broward County authorities, Deputy sheriffs and state and local police reinforced federal officers and helped round up those arrested.

Police said the plane was almost loaded with freight taken from cars and from weeds around the field's edge when the raiders went into action.

William Wetherington, one of the agents, hastily drove an automobile in front of the plane to block its path when it looked as if the plane was about to take off.

South Florida has been the scene of numerous daring attempts to supply Castro's forces.

Romeo Man Sentenced for Burglary Attempt

A 28-year-old Romeo man, Charles Alverson, was sentenced to from 2 to 5 years in the State Prison of Southern Michigan at Jackson for the attempted burglary of a Orion Township store last month.

Oakland County Circuit Judge Clark J. Adams imposed the sentence on Alverson, of 3370 Twenty-Eight Mile Rd., who pleaded guilty to the attempted breaking and entering charge Oct. 27.

Rona Jaffe in Filmland to View Script of Novel

By BOB THOMAS

HOLLYWOOD (AP) — Do all working girls want to get married?

Yes, says Rona Jaffe, successful chronicler of the toiling lassies. She's the 26-year-old onetime office worker who wrote "The Best of Everything" and sold it to films for \$100,000. It's her first novel and it's bobbing along nicely in the middle of the top 10 sellers.

Rona, an attractive girl who speaks in tones of her native New York, is here to promote the book and look at the film script. She hedged a bit on her all-working-girls-wanna-get-married thesis with three exceptions:

"Girls who are very shy, who fear that married life will interfere with pursuit of their profession or who are disillusioned by too many unhappy romances."

But these are a minor segment

of the great feminine working mass, she claimed. The others want a man, period.

That's the theme of her book, and the reviewers state that it contains some rather racy passages. I asked how this affected her personal life.

"My parents?" she replied. "Yes, I was afraid they would be shocked. They didn't read the book until it was published. Fortunately, they liked it."

"My book is the result of working four years in an office myself and interviewing a hundred working girls. I discovered there were five basic types of working girls in New York, so I wrote a story about five girls."

Her types:

1. The well-to-do girl who works out of boredom.
 2. The out-of-town girl who seeks the glamor life of an actress but fails.
 3. The would-be actress who must work part-time to live.
 4. The engaged girl earning enough to buy furniture, etc.
 5. The divorced mother who must work to support her child.
- All are seeking marriage, said Miss Jaffe, and that brought up a natural question: what about her?
- "I'm always asked that," she smiled. "The answer is that I haven't found the right man yet."

Hope Diamond Rests Safely in Museum

WASHINGTON (AP)—The Hope diamond, a beautiful gem with a dark past, belonged to the U.S. government today.

Officials of the Smithsonian Institution hoped to build a national jewel collection, with the 44 1/2 carat stone as a nucleus.

A gift of New York gem merchant Harry Winston, the diamond arrived here by registered mail, insured for one million dollars.

After the dark blue diamond was delivered to the Smithsonian by a postman under guard, it was formally presented by Mrs. Winston. The famed Hope was accepted by Dr. Leonard Carmichael, secretary of the institution.

The Hope was smuggled out of India about 300 years ago. Since then, it has passed through many hands. A number of its owners died violently and it acquired a reputation of bringing ill fortune.

Actor's Wife Arrested on Drunk-Driving Count

BEVERLY HILLS, Calif. (AP) — Police say actor Sir Cedric Hardwicke's wife, Lady Mary Scott Hardwicke, 30, used unladylike epithets when she booked her on a drunk-driving charge.

Chief of Police Clinton Anderson said she was abusive, belligerent and uncooperative after her arrest.

Released on bail, she was told to appear in court Wednesday.

Car Thief Discovers Looks Are Deceiving

EAST ST. LOUIS, Ill. (AP) — Whoever stole Charles Sheekley's car didn't speed away in it.

The black and red auto, measuring eight feet long and three feet wide, is powered by a washing machine motor.

WINGED VICTORIES — In the final stages of assembly, numbers of America's latest operational anti-aircraft weapon, the Nike Hercules, move along a conveyor line at the Douglas Aircraft Co. plant in Charlotte, N. C. The Hercules, successor to Nike Ajax, is a surface-to-air radio command missile capable of knocking down any manned aircraft or nonballistic missiles known. The

missile body, which can carry either a conventional or nuclear warhead, is 27 feet long and is powered by a solid fuel rocket motor. A 14-foot-long solid rocket booster provides initial impetus. Operational since July, first Hercules units are stationed in the New York, Philadelphia, Chicago and Washington-Baltimore areas.

Moon Lore Influences Farmers in All Ages

WASHINGTON—The moon has given rise to more sense and nonsense than any other unearthly object.

And the idea of getting to it is not new, the National Geographic Society notes. In A.D. 160 a Greek satirist described an imaginary trip to the moon. Ancient observers recognized the lunar effect on tides. Their serious studies of the moon helped develop astronomy.

The public was looking, too. People in every time and place have been convinced themselves, without inhibition, of numerous ways in which the moon influences far more than tides—and lovers. Why not weather, plants, animals, even man's daily affairs?

CHARMER AND A CHARM

Much moon lore is whimsical. A maiden who drinks white wine and rose water, then looks at the moon through a silk scarf, for instance, will see the face of her future husband. The best of all lucky charms is the left hind paw of a rabbit killed in a graveyard, by a cross-eyed person, in the dark of the moon.

Some persons believe a sleeper will lose his sight if moonshine falls on his lids, others that sleeping in moonlight will bring insanity. Hence the words lunacy, lunatic, loony and moonstruck.

Moon lore is often taken seriously. Farmers have long been planting and harvesting according to the moon's phases.

Potatoes should be planted in the dark of the moon, preferably on Good Friday; peas, in the light of the moon. The general idea, however, is to sow root crops between the first quarter and the full moon, and leafy plants when it is waning.

To keep vines free of pests, they should be pruned when the moon is in the sign of Leo the Lion. Herbs are most efficacious if gathered before the full moon, which is the best time to give any tonic. Soap shouldn't be made in the moon's dark phase, otherwise it turns out fluffy. Bacon from hogs killed by a waning moon will curl up in the skillet. Fish bite best when tides are highest at the nearest seaport.

CLEAR MOON, FROST SOON

Weather-making, in folklore, is the moon's great forte. There are numerous rhymes of prognostication, such as:

Pale moon doth rain
Red moon doth blow,
White moon doth
Neither rain nor snow.

An upright crescent moon holds no water, thus means a wet month. If the crescent lies on its back, cupping the water, there's no need to keep the mackintosh handy. A full moon gobbles up the clouds.

A ring around the moon is not to be ignored. If the halo en-

City Patrolman Hurt in 2-Car Collision

A Pontiac Police officer was treated for minor cuts at Pontiac General Hospital and released early this morning after the patrol car in which he was riding was involved in a collision.

Officer Raymond Dickinson, 23, of 536 Granada St., was injured while riding in a car driven by Officer James A. Teal Jr., 26, of 26 Spokane St.

The driver of the other car, Thomas Farquharson, 52, of 8 Miller St., was arrested on a charge of drunk driving, said police.

Officers said Farquharson, driving west on Nebraska Ave. failed to heed a "Yield Right Of Way" sign and smashed into the patrol car at Earlmore street. A passenger in the Farquharson auto, Benjamin Acosta, 24, of 597 California St., suffered a slight head cut but refused medical treatment, police said.

Lola Albright Freed From Jack Carson

LOS ANGELES (AP) — Comedian Jack Carson was divorced Monday by actress Lola Albright. She testified he falsely accused her of infidelities and called her a "bun."

Carson, 48, and Miss Albright, 34, were married in 1952. He was formerly wed to Mrs. Betty Lynn Carson and to singer Kay St. Germain.

Miss Albright co-stars with Craig Stevens on the "Peter Gunn" television show.

Napoleon Bonaparte had cannon taken at the Battle of Austerlitz melted down to provide bronze for the sculptured sheathing of a 144-foot monument erected in honor of his soldiers in the Place Vendôme in Paris.

NO SURGERY NEEDED TO HEAL SWOLLEN PILE TISSUES while you shrink them!

To stop nagging discomfort of swollen piles in minutes, thousands use Stainless Piles. Not only reduces tissue swelling but stops pain at once, promotes healing of inflamed tissues too—all without surgery! Preparations that just act to "shrink" piles can't offer complete symptomatic relief. For real comfort, fast, you need this more complete medication. In doctors' tests, patients had immediate relief. That's because

City Man Sentenced for Robbing Safe

Oakland County Circuit Judge Clark J. Adams yesterday sentenced Anthony F. Schneider, 24, of Pontiac, to 2 to 5 years in the State Prison of Southern Michigan at Jackson for the burglary of a safe at the Pontiac Municipal Golf Course.

Judge Adams said Schneider's record includes conviction of felonious assault last year and "a long record of misconduct since 1952."

A Circuit Court jury convicted Schneider, of 1257 Cherrylawn Dr., Oct. 23 for burglarizing the safe last June of \$1,600. Pontiac police said Schneider learned the combination of the safe and secured a duplicate key to the front door of the course clubhouse.

Drayton Plains Youth Gets Term in Prison

Seventeen-year-old Lowell R. Hook, of 5046 Hatchery Rd., Drayton Plains, yesterday was sentenced to 1 1/2 to 10 years in the State Prison of Southern Michigan at Jackson for the statutory rape of a 15-year-old girl in April.

The sentence was handed down by Oakland County Circuit Judge Frank L. Doty. Hook pleaded guilty to the charge Oct. 20.

Trailer Court Explosion Seriously Burns Man

HOUGHTON LAKE (AP)—An explosion rocked a trailer court near here yesterday, causing serious burns to one man.

Howard Shepard of Houghton Lake, found dazed outside his destroyed trailer, was taken to Clare Hospital.

The explosion, at the Prudenville trailer court, was believed caused by a bottled gas tank or stove. State police began an investigation.

Ex-Miss U.S.A., Leona Gage, Set to Marry No. 3

HOLLYWOOD (AP) — Leona Gage, who lost her Miss U.S.A. title when officials found she was married, plans to wed for the third time.

Miss Gage, 22, now a show girl at the Moulin Rouge night club here, said she will marry Nick Covacevich, 22, next Monday in Las Vegas, Nev. Covacevich also dances at the club.

The statuesque brunette won the Miss U.S.A. title as Miss Maryland in the 1957 Miss Universe contest. She was deposed when she said she was married to Air Force Sgt. Gene Morris Ennis and was the mother of two sons. Later, she said she had married another airman when she was 14, but that marriage was annulled.

Miss Gage divorced Ennis last February in Las Vegas.

Widows Sue Firm to Force Meeting

MOUNT CLEMENS (UPI) — A contracting corporation owned by two men who lost their lives in a helicopter crash was sued yesterday by their widows.

Suit in Macomb County Circuit Court was filed yesterday by Mrs. Bridget Garavaglia, widow of Jule C. Garavaglia, and Mrs. Audrey Garavaglia, widow of Louis A. Garavaglia.

The widows filed suit to force the corporation to hold a special meeting of shareholders. The women own 50 per cent of the stock in the firm which their late husbands headed.

They charged they were not consulted on management changes and efforts to hold a board meeting in the past were rebuffed. A hearing was set for Dec. 1.

Cuban Partisans Seized in Florida

Federal Men Capture 22 Loading Plane With Munitions

FORT LAUDERDALE, Fla. (AP) — Federal agents surprised nearly two dozen Cuban rebel sympathizers in the act of loading munitions aboard a plane and charged 22 persons with violating the Neutrality Act.

Two women were among the group seized, with an arms-laden B18 bomber on abandoned Prospect Air Field Monday night.

Border Patrol agents blasted a fleeing auto's tire with machine gun bullets, preventing the getaway of five of their prisoners. The airplane pilot, who identified himself as Rodger Steadman, 41, of Miami, a native of Huron, S.D., fled in a truck but was arrested later at a Fort Lauderdale bus station.

Agents said a big assortment of rifles, machine guns, ammunition, medical supplies, boots and field equipment were placed aboard the plane as they watched from concealment.

Some of the material was in packages marked "Fidel." Fidel Castro heads the rebel army which dominates much of Cuba's Oriente Province.

There was no immediate word on where the plane came from or who owned it. Agents said the last owner of available record was the Bank of Anchorage, Alaska.

The two-engine plane landed about dusk on the former airfield which is being developed as an industrial site by Fort Lauderdale. Residents of nearby homes telephoned Broward County authorities. Deputy sheriffs and state and local police reinforced federal officers and helped round up those arrested.

Police said the plane was almost loaded with freight taken from cars and from weeds around the field's edge when the raiders went into action.

William Wetherington, one of the agents, hastily drove an automobile in front of the plane to block its path when it looked as if the plane was about to take off.

South Florida has been the scene of numerous daring attempts to supply Castro's forces.

Romeo Man Sentenced for Burglary Attempt

A 28-year-old Romeo man, Charles Alverson, was sentenced to from 2 to 5 years in the State Prison of Southern Michigan at Jackson for the attempted burglary of a Orion Township store last month.

Oakland County Circuit Judge Clark J. Adams imposed the sentence on Alverson, of 3370 Twenty-Eight Mile Rd., who pleaded guilty to the attempted breaking and entering charge Oct. 27.

Near the end of the first hour wheat was unchanged to $\frac{1}{4}$ cent a bushel higher, December $\$1.94\frac{1}{4}$; corn $\frac{1}{4}$ higher to $\frac{1}{4}$ lower, December old type contract $\$1.12\frac{1}{2}$; oats $\frac{1}{4}$ lower to $\frac{1}{4}$ higher, December 65%; rye unchanged to $\frac{1}{4}$ higher, December $\$1.30\frac{1}{2}$; soybeans un-

in 1931. The year before it sold for $\$274.25$.

Back in 1929 however, just before the stock market crash, it set an all-time peak of $\$310.25$ a share.

The rise today came on renewed speculation by some brokers of a possible increase in AT&T's annual dividend, paid without a break since 1921.

A spokesman for the company declined to comment. It is a traditional policy of the company, he said, never to take any notice of Wall Street rumors or stock market letters.
