NATO Adopts Defense Based on Atom Power

Agreement Also Seen on How New Weapons May Be Used

PARIS (AP) — Leaders of the free world today adopted a new defense strategy based on atomic firepower and agreed on the way new weapons can be used in the event of an attack by the Communist bloc.

The foreign, defense and finance ministers of the 14 North Atlantic Treaty powers set the role of atomic weapons during a tightly closed session.

They promised a communique on their decision later today or tomorrow.

After adoption of defense plans drafted by the chiefs of staff of NATO members, giving nuclear firepower a place in NATO's "new look" arsenal, the ministers excluded most of their advisers from the closed meeting. Then they took up the controversial question of who can decide on a resort to atomic arms—military men or their governments.

No immediate word on this discussion leaked out, and NATO press officials would say only that the ministers had reached agreement.

The American government was known to be strongly opposed to hampering NATO's deterrent effect with a formula which might be unworkable in a major surprise assault against the West. The U.S. position has been that although only civilian authorities can "pull the trigger" and all governments concerned should be consulted as much as possible before atomic weapons are employed, that this consultation should not be made an absolute condition hampering military commanders.

Earlier, in the full NATO council session, French Premier Pierre Mendes-France told his colleagues French policy will not be modified by Russia's latest note threatening to denounce the 1946 French-Soviet treaty if the French ratify the Paris accords to rearm West Germany.

To Complete Your Christmas List

Study of Friends' Likes, Activities Yields Hints for Appropriate Gifts

By JANET ODELL

When you use your imagination to choose Christmas gifts, you are giving a part of yourself with the gift. Using your imagination sometimes saves money also.

Have you a friend who loves to sew? Buy her a length of pretty fabric, perhaps something a little nicer than usual, and present it with an appropriate pattern. You might wrap it in a piece of a discarded pattern and tie it with a tape measure.

Make up a package of fancy wrapping papers, ribbons, cards and seals for that difficult-to-please person. If the recipient is very fond of roses, for instance, make all the articles cater to that preference.

A huge roll of cellulose tape (they can be had from \$1 up) will be welcome in any household. How

The petition was delivered to the White House during the forenoon Wednesday, safe driving day.

Defense Chief Will Unveil New Training Plan Today

WASHINGTON (INS) — The Defense Department unveils today a plan designed to sweep all young men into regular or reserve military service while reducing the standing army by 100,000 or more.

The four-year program, continuing the draft but offering a modified Universal Military Training system as an alternative, eventually would make virtually all men 18 to 28 subject to immediate call in case of war.

SEC Timetable Stalls Contract

May Give Lawmakers Chance to Kill, Revise Dixon-Yates Deal

WASHINGTON (AP) — The timetable of a Securities and Exchange Commission (SEC) hearing appeared certain today to give the new Congress a chance to revise or kill the controversial Dixon-Yates private power contract before construction work is started.

A company official has said little actual work will be done before the SEC approves financing arrangements, and SEC Chairman Ralph H. Demmler indicated yesterday a decision on initial phases was made before Feb. 1.

The new Congress convenes Jan. 5 under control of Democrats, some of whom have been sharply critical of the Eisenhower administration's plan to purchase privately produced power for use in the Tennessee Valley Authority (TVA) system.

Although Congress has no direct control over terms of the contract, its control over appropriations gives it power to speak with authority.

Meanwhile, Lewis L. Strauss, chairman of the Atomic Energy Commission (AEC), promised a statement on the controversy at (Continued on Page 2, Col. 2)

Defense Secretary Charles E. Wilson and his assistant secretary for manpower, Carter Burgess, were to discuss the drastic training reorganization at a Pentagon news conference at 2 p.m. (EST).

If adopted by the coming session of Congress, where it is expected to be a controversial issue, the program would present a young man leaving high school with three choices:

1. He would sign up voluntarily for six months of military training to be followed by nine and one-half years as an active civilian reservist subject to call.

2. He could enlist for four years in the Army, Navy, or Air Force.

3. He could await the draft, almost certain to come between the ages of 18 and 21. This would keep him in the Army two years, and he would then be subject to six years of reserve duty.

Defense leaders said the number of youths in the modified UMT system is expected to average about 100,000 the first year and 200,000 the second year.

The training would be administered mainly by the Army, and the trainees would be subject to duty in case of war. The standing army therefore is to be reduced about the same amount—from 1,174,000 to about 1,000,000 in two years.

Selfridge Pilot Is Killed as Jet Crashes at Holly

Lt. John Brown Dies When Plane Hits Swamp in Routine Flight

A Sabrejet pilot died last night when his plane crashed into a swamp and burned four miles east of Holly.

Killed immediately was 1st Lt. John D. Brown, 28, of Cedarbluff, Va., who was on a routine training flight from Selfridge Air Force Base.

The crash's impact left a crater 15 feet deep and about 30 feet across, while wreckage was scattered over a 300-yard area on the 164-acre farm of Emil Perlich, 72, 7477 Tucker Rd.

Brown crashed about 9:35 p.m., four minutes after losing radio and radar contact with Selfridge Field, according to Major Maxwell Gurman, Selfridge Public Information Officer.

The doomed pilot took off from Selfridge about 8:00 p.m., Gurman said.

Perlich said he heard the explosion when the plane crashed and looked out to see a sheet of flame shoot about 25 feet into the air. Later gun shots were heard, Perlich said. (Air Force officials said the plane was carrying six 20 caliber machineguns.)

Troopers Gerald Corey and Ralph Severance of the Michigan State Police, Flint Post, said they talked with an unidentified woman who spotted the low-flying jet while driving south on US 10. She told troopers that the plane was on fire at that time.

Another who said he saw flames before the plane crashed was Robert Farmer of 1805 Oak Hill road, Holly, who said that he heard the plane "cough" three times, and each time flames could be seen coming from the craft.

"Just before I heard the explosion (when the plane crashed) I saw a red blaze," Farmer said.

Tuna Nicholson of 9088 Kier Rd., Grosse Pointe Park, said the plane when it passed over his home was not over 1,500 feet off the ground.

First on the crash scene after Perlich were Holly firemen, and police and Pontiac Post Troopers Charles Johnson and Joseph Kendzierski. Holly Patrolman Robert Prose and Fire Chief Maynard Lowe found the body about 20 (Continued on Page 2, Col. 8)

Officers Injured in Making Arrest

Conservation Men Hit by Bullet Believed Fired Accidentally

MARQUETTE (AP) — Two conservation officers were shot and wounded, one seriously, while arresting two youths last night for suspected out-of-season deer hunting and "shining" of deer.

One rifle shot was fired from the youths' car—apparently by accident, State Police said—and it struck both men, each in the face. An investigation was pressed to day and charges were expected to be filed. Police conferred with Marquette County Prosecutor Edmund J. Thomas.

One of the men, Edwin Moor of Champion, was shot in the right side of his face, near the eye. His companion, Arthur Savitsko, 35, of Ishpeming, was grazed in the face.

The two youths, John Kroll, 20, and Richard Delvaux, 19, both of Wells, will be charged with "shining" deer and possibly also with careless use of firearms, police said.

Hunting of deer with an artificial light is a violation of the game laws.

The incident happened in southern Marquette County near Watson. Six conservation men had been sent to the area on reports of "shining."

Moore and Savitsko said they saw Kroll and Delvaux shining deer and that a shot was fired from the youths' car as they approached it.

State police said Kroll told them he had his rifle in his lap and that it discharged as he picked it up.

Judge Charges Jury in Sheppard Trial

IN CLEVELAND COURT—Common Pleas Judge Edward J. Blythin today charged the jury which has heard testimony and arguments in Dr. Sam Sheppard's trial on a charge of murdering his wife. The case was given to the jury this morning at 10:13 after Judge Blythin completed his charge.

Sheppard Awaits Verdict

Case in Jury's Hands

CLEVELAND (AP) — A jury in Common Pleas Court today began deliberating the fate of Dr. Sam Sheppard, the 30-year-old osteopath who is charged with bludgeoning to death his pregnant wife, Marilyn, 31.

Judge Edward Blythin delivered a 36-minute charge to the jury in which he gave them five possible verdicts in the charge of murder.

The five possible verdicts are:

1. Guilty of first-degree murder without recommendation of mercy, which carries a mandatory death sentence.

2. Guilty of first-degree murder with a recommendation of mercy; the penalty in this decision is mandatory life imprisonment. But, after 20 years, the State Pardon and Parole Commission must review the case to determine whether the sentence should be commuted.

3. Guilty of second-degree murder, which carries a life prison sentence with possibility of parole in 10 years.

4. Guilty of manslaughter, carrying a penalty of one to 20 years.

5. Acquittal.

During Judge Blythin's charge the seven men and five women on the jury gave him close attention.

Dr. Sheppard was seated about 12 feet away at the counsel table. He kept his eyes fixed on the jury.

In a 36-minute explanation of the law, the 70-year-old judge told the jury it is not necessary to prove motive under Ohio law. And he explained that circumstantial evidence must be considered carefully. The judge locked the doors of the small courtroom before he began his instructions.

Sheppard's two brothers and their wives were in the courtroom. The defendant gave them a small smile.

Sheppard was taken back to his cell block in the Criminal Courts building where the courtroom is located.

Before the session started a greeting card was handed to Sheppard by the bailiff. He opened it and, folded between the pages, was a four-leaf clover. A brief message was on the sheet of paper inside. Sheppard smiled and at the same time tears came to his eyes.

The jury took with it 214 separate exhibits—127 from the defense and 87 from the state. They ranged from the blood-stained pillow from the bed where Marilyn Sheppard died to a few grains of sand from her husband's trouser cuffs.

The Day in Birmingham

Jan. 3 Meeting Will Take Up Ice Skating Rink Bond Issue

From Our Birmingham Bureau

BIRMINGHAM — Recreation Board members last night set a Jan. 13 special meeting date out of which will probably come a recommendation for the City Commission asking that a bond issue for Birmingham's first artificial ice skating rink be placed on the April ballot.

Previously discussed in terms of a portable rink, that idea was abandoned last night in favor of a permanent type. While there is a difference in the initial cost, the board said maintenance problems on a permanent installation would be negligible by comparison. Cost of a portable rink has previously been estimated at \$75,000.

Between now and Jan. 13, Roland Reese, board member who has been investigating risks used in other areas, will work with City Manager Donald C. Eglar to determine the specific amount for a bond issue.

Elton Park would be the location of any skating rink, inasmuch as it is the larger of the city parks and is being developed for spectator activities. In size the board is considering a space comparable to four tennis courts. Ultimately the cement base could be used during summer months for tennis, roller skating and other sports.

Talent from within the Village Players group will spark the annual Christmas party to be held tomorrow. "Our Three Angels," an original musical comedy written and directed by Mrs. George Dix and Mrs. Wallace Ivers will highlight the evening. Elizabeth Boyne will be doing the choreography with Harry Wieting at the piano.

"Angels" will be played by George Green, Russell Richardson and Stanley Hood.

During an afternoon party Santa will visit the children of Village Players, with a magician and Christmas carols to add to the merriment.

First through third graders here will get their annual Christmas treat from the Chamber of Commerce tomorrow in duplicate programs from 9:30 to 11 a.m. at the Birmingham and Bloomfield Theaters. After an hour of cartoons, Santa will put in a speaking appearance and he and his helpers will pass out candy to the youngsters.

The new Beverly Hills Baptist Church will combine worship, fun and giving as it goes into its second Christmas season. Rev. Roy A. Pitts said the fun night will start at 7 tonight with family entertainment headed by Detroit television star Diane Dale.

J. J. Meyers, swimming instructor, reports excellent results from the Recreation Board's "Learn to Swim" program Saturday mornings at the Barnum School pool. Over 150 elementary grade swimmers have mastered fundamentals and gained confidence.

The second series of ten weeks will start tomorrow. Parents may enroll children by contacting the Recreation Board in Hill School building. Classes are designed to teach beginning swimming to non-swimmers or those who can only swim a few strokes.

"Our Brightest Christmas" time is here again in the third annual Christmas lighting contest sponsored by the Junior Chamber of Commerce.

This year's chairman, Harry Fike, says entry blanks are now available at the Detroit Edison Co., or the Chamber of Commerce, for the contest encouraging residents to decorate the outside of their homes using lights and other ornaments.

The Woodward - Maple intersection is used to divide the city into four sections for judging purposes, with four prize-winners plus the grand prize recipient to be announced.

McCarthy in Capital After 10-Day Holiday

WASHINGTON (INS) — Sen. Joseph R. McCarthy is back in Washington today "feeling fine" after a ten-day rest "tramping through the woods and duck shooting."

He told his friends that his injured right elbow is "almost fully recovered" but that he is still seeing a physician for further checks.

His wife, Jean, told newsmen the elbow "still is giving him some trouble but that it has healed enough for him to abandon the sling he was wearing."

The elbow was injured last month, mid-way through the Senate's censure proceedings against the Wisconsin Republican.

McCarthy left the capital on Dec. 7 — reportedly for a friend's estate in New Jersey — after firing a blast at President Eisenhower on the issues of communism at home and abroad.

Sawchuk Plans to Retire, Says Boston Report

DETROIT (INS) — Red Wings general manager Jack Adams expressed amazement and disbelief at a report from Boston that goalie Terry Sawchuk is planning to retire soon.

Adams said:

"This is a complete surprise to me. I don't believe it. I talked to Jimmy Skinner (Red Wings' manager) last night around 11:30 o'clock.

"Jimmy told me how well Terry had played. He was going good last night for us."

In the story from Boston Sawchuk said he was quitting because of trouble with his eyes. This was another surprise to Adams.

"He never has mentioned any such trouble to us. Only ailment we knew about was his complaint of stomach trouble while the team was in New York. But that's an old complaint of goallies."

Congress May Get Crack at Contract

a news conference today (3 p.m. EST).

Middle South Utilities, Inc., headed by Edgar H. Dixon, and the Southern Co., headed by Eugene Yates, have concluded a 25-year contract with AEC to furnish TVA with some of the additional power it may supply atom plants in the future. The utility group proposes building a 107-million-dollar plant at West Memphis, Ark.

The SEC is considering plans for the group to invest \$15 million dollars in the newly created Mississippi Valley Generating Co., formed to handle the project.

On this phase, Chairman Demmler announced yesterday, the commission will close hearings Dec. 23 and will file opposing lawyers until Jan. 13 to file all additional legal arguments. Demmler has said the commission may reach a decision in perhaps two weeks after that.

Delay Accords Debate in French Assembly

PARIS (INS)—The National Defense Committee of the French National Assembly approved today a recommendation that debate on the Paris accords be postponed.

The debate is scheduled to begin next Monday.

The adverse vote followed a new Russian note yesterday warning that French ratification of the accords would result in the cancellation of the 1944 Franco-Soviet Mutual Assistance Treaty.

Chou Agrees to See Secretary of U.N.

(Continued From Page One)

Red China regime desired to send to the United Nations.

As heard here, the broadcast said Chou cabled the U.N. secretary general to "please decide for yourself the date of your visit." In his cable to Chou last Friday, Hammarskjold had suggested they meet "soon after Dec. 26."

The spokesman at the U.N. said there could be no announcement of Hammarskjold's plans.

It was expected, however, that he would go ahead with previous plans to fly to Sweden tonight for the weekend and, after returning here briefly next week, would fly on to Peking.

Hammarskjold had planned his trip to Sweden originally for ceremonies installing him in his late father's seat in the Swedish Academy of Letters. Yesterday it became known he planned also to see the Red Chinese ambassador in Stockholm about his proposed trip to Peking, and it was expected he now would discuss arrangements for the trip with the envoy.

exploratory X-ray and the fact he again did some work yesterday added to the pontiff's weakness.

Among the tasks believed to weigh rather heavily on the Pope is that of preparing his 16th Christmas message to the world, which is scheduled to be delivered Christmas Eve if he is able.

Since his dangerous collapse Dec. 2, the Pope has continued to concern himself with church affairs although his doctors have cautioned him to rest as much as possible for at least a month. Three times during the past 13 days he has broadcast brief radio messages from his bedside.

LONDON (INS) — Do Marilyn Monroe's charms further the spread of culture?

Complaining that the "cultural relations division" of the British embassy in Bonn would use an American Monroe film to woo the Germans, the London Daily Express insisted the "attractions can hardly be called cultural."

Chicago in for Tidal Wave Tuesday, Doctor Warns

CHICAGO (UP) — The world is in for earthquakes, tidal waves and volcanic eruptions next Tuesday, ousted college physician Charles Laughhead said. But it won't exactly come to an end.

Laughhead, who was fired from his post with Michigan State College on grounds that he was predicting the end of the world, made this reassuring forecast here yesterday as he consulted with a fellow believer in imminent doom.

Next Tuesday, he said, will be merely a "turning point toward catastrophe in this part of the world." Chicago will be hit by a tidal wave, the ground from Hudson's Bay to the Gulf of Mexico may rise and the legendary continents of Atlantis and his may emerge from the seas, Laughhead said.

He warned that the eastern and western seaboard should also be on the lookout for "cataclysmic" upheavals.

But things won't get really bad until 1955, the tall, ascetic-looking physician said.

By that time, he said, it's quite likely that all the land masses as they now exist will sink beneath the oceans and be replaced by new continents. Men from other planets may rescue a few of the earthlings in space ships, he said.

Laughhead refused to say whether he's going to stick it out in Chicago next Tuesday or go to some drier city.

"I myself expect to be in the world in the shape I now represent on Dec. 22, he said. "But what

changes I am making in my life as a result of this prophecy are matters of my own personal conviction—not for public explanation."

Laughhead, 44, and his wife received newsmen in the home of Mrs. Dorothy E. Martin of suburban Oak Park. He gave Mrs. Martin full credit for the predictions and said she had received the news from friends in outer space.

Mrs. Martin agreed that last March she was sitting in her living room when suddenly there was a buzzing in my head, like a signal, and I picked up a pencil.

"I started writing, but there was no thought involved," she said. "The pencil just wrote messages. One of them was that there would be this tidal wave hitting Lake Michigan Dec. 21 and then spreading to other cities."

The messages, she said, came from "connoisseurs" who live on an undiscovered planet called "Clarion." "Connoisseurs" often check up on the world in flying saucers of "discs," she said.

Both Laughhead and Mrs. Martin refused to comment on the earthquakes which hit the West Coast yesterday. But Laughhead

Right-to-Work Laws Defended

National C. of C. Chief
Raps Views Expressed
by Labor Secretary

WASHINGTON, Dec. 16.—President Clem D. Johnston of the U.S. Chamber of Commerce says state laws which ban the union shop "are part of the effort to deal with" what he called a gap between federal laws and state police powers.

Between them, he said yesterday in a Chamber publication, "is a dangerous no man's land which may become the happy hunting ground of the leftists and labor racketeers."

The Taft-Hartley law limits the power of states to deal with labor matters, but does give them the

right to ban the union shop, under which a worker must join a union within a specified time after being hired.

Johnston said businessmen are expressing "disappointment and dismay" at Secretary of Labor Mitchell's denunciation of such laws, now operative in 17 states. These laws permit a man to work without having to become a union member.

Mitchell, addressing the CIO convention in Los Angeles, said the state laws "undermine the basic strength of labor organizations." President Eisenhower, who earlier had said Mitchell was expressing a personal view, told his news conference Wednesday he had not reached a final decision on the question.

Mrs. Beth Edwards, 47, of 290 N. Paddock St., was admitted to St. Joseph Mercy Hospital yesterday with injuries suffered in a two-

car collision at Auburn and Adams Rd., Avon Township.

The condition of Mrs. Edwards, who received chin and leg injuries, is reported as fair today. Emmett R. Neff, 64, of 225 Martin Rd., St. Clair Shores, driver

of the other car, told Oakland County sheriff's deputies that he was northbound on Adams road. He stopped at Auburn road and the crash occurred when he started to cross the intersection. Neff was not injured.

Chapter 11 — "Suspect"

Dunn Finds Woman's Body on Firewood Elevator

THE STORY: Private Detective Jim Dunn has just met most of the Carsons, a wealthy family who live in the Colorado mountains. Jim and his wife Nancy have been retained by Mrs. Elsie Carlson who wants to know what happened to her daughter, Mrs. Elsie Carlson, who was last seen on the West Coast while on a vacation. Mrs. Elsie Carlson, who is now in the hospital, is said to be in a coma. Mrs. Elsie Carlson, who is now in the hospital, is said to be in a coma. Mrs. Elsie Carlson, who is now in the hospital, is said to be in a coma.

Through the cook, Mrs. Gelstrap, Jim Dunn was informed that his client, Mrs. Elsie Carlson, had taken to her bed with the beginning of a cold. "Brought on by chill, don't you doubt it," Mrs. Gelstrap said. "I just do hope you'll be able to keep us warm tonight!"

He returned to the cabin in disgust. He had to bed too early to a night of restful nightmares in which an animated furnace pursued him through stacks of untouchable wood.

He woke up cold, just as the first sunlight touched the far side of the lake, moved across the water and seemed to pull a wispy tenuous mist with it.

Nancy had made a warm nest of all the covers and murmured sleepily as he got up. He had a momentary and almost irresistible impulse to pull the bedding away and accuse her of cover snatching.

Jim Dunn stretched and yawned. He dressed.

He started down the path toward the main house, in the belief he might still find some embers in his nemesis, the furnace.

He passed the turn in the path before he saw the car.

It was a small but highly polished coupe, parked near the lake shore.

He walked more quickly then, cursing silently at the sound of rushing water which could hide so completely the sound of a motor. He stopped suddenly, retraced the steps he had made in the car's direction.

The door to the basement was open. It stood wide, and he remembered distinctly closing and locking it the night before.

The basement was a gloomy cavern. Warm, pitch-scented air gushed past him to escape into the early morning chill.

He reached for the nearest drop-cord light, turned it on. A nagging familiarity about the small coupe churned in the back of his mind, was pushed aside in the stress of the moment.

The wood he had piled so laboriously, heavy pitch chunks and odds and ends of logs, threw a dark shadow at the far end. He reached the next light.

The elevator!

The last thing he had done the night before was to fill it with a liberal supply of wood and crank it up into the recess in the floor above. But the supporting ropes showed now, and the recess was no longer closed by the under side of the platform.

Jim moved more quickly, but with an added caution, and turned on the last light. The elevator platform held little wood now, carried a far different burden.

The skirts were dirt stained, twisted around the lax figure. An outstretched arm hung limply, stained palm exposed. Plump legs sprawled out grotesquely, and the heels of the polished, sensible shoes rested in a dark stain on the hard-packed dirt.

Unwanted recollection came to Jim Dunn in that instant. A memory of Miss Wister proudly parking her small coupe in the lot near the office, walking the rug path to take dictation in similar shoes.

Jim skirted the woodpile, moved to a point where he could see the face. He let out a long sigh both of disbelief and relief. Whoever owned the coupe outside, the dead woman was not Miss Wister.

He bent over, found no pulse in the limp wrist, touched gently the battered face of Angelica Carlson Jones.

No reason to doubt the cause of death. The matted mousey hair, the impossible indentation beginning at the bloodstained forehead, told of a crushed skull. Angelica's head and shoulders were partially propped against the wall while her body rested unnaturally on the

pieces of pitch still on the elevator floor.

The silence of the house pulled him away from further examination, sent him running up the steep stairway. The door at its head was locked. He pounded at it with the sides of his clenched fists. He waited, listened. He pounded again and shouted. He put his ear to the wooden panel.

The silence was a desolate thing. He kicked at the door with a booted foot, drew back as far as possible and lunged against the door with his shoulder. It held firm, and Jim was almost catapulted down the steep stairs. There was no purchase for his feet, no room for movement necessary for the sustained effort to break down the door.

He clattered down the stairs, hurried through the basement, closed and locked the outer door behind him. Bright sunlight touched the ground of the triangle. The breeze sent ripple patterns across the lake's surface, bringing color change. Small wavelets added their shore-splashing to the background of rushing creek water. The sun gleamed from polished

chrome on the small coupe. Jim moved quickly, wrenched open an unlocked door. The registration and insurance papers on the steering column told him his memory had not played him false. It was Miss Wister's car.

Don't Discard Old Container

Throwing a lipstick away—even when it's impossible to use any more — is one thing a woman hates to do. She thinks the case is pretty, and maybe she will get a refill someday, or just simply leaves it around "just in case."

If you fit into this category, you can create a new lipstick shade out of the lipstick left over in these old cases.

Take a small utensil you won't want to use for any other purpose — pottery is fine — and put all your bits and dabs of lipstick in it. Melt them over slow heat and pour carefully into the lipstick cases. Let them cool and then twist the stem. This will release lipstick from the side of the case and it's ready for use.

And the color you get from mixing various shades may be a very pleasant surprise.

Guild 3 Has Election and Yuletide Party

New officers were chosen by Guild Three of All Saints Episcopal Church when the group met for their annual Christmas party and gift exchange Tuesday in the Woodland avenue home of Mrs. Martin Parker.

Mrs. Bruce Hubbard was named president; Mrs. Curtis Patton, vice president; Mrs. Lynn Davies, treasurer and Mrs. Robinson Brown, secretary.

The birthday party was held in honor of Mrs. Herveat. Prizes for the evening were awarded to Mrs. Robert Smith, Mrs. Harold Faida, Mrs. Edward Omsa, Mrs. Ralph Walton and Mrs. Albert Lowe. Mrs. Nellie Georges will present a talk on handicraft at the Dec. 21 meeting.

Culture Club Meets

Child Culture Club heard Mrs. Joseph L. Bennett tell "A Polish Christmas Story" when it held its annual holiday party in the home of Mrs. Frank Grosse on Auburn avenue.

Mrs. Bennett told how a poor family gave a Christmas puppet play depicting the birth of Christ in order to earn money for Christmas necessities.

At the story's ending, the family, overwhelmed by the spirit of the Christ Child, gave its money to a mother and her new baby who needed it more. Mrs. Bennett led a Christmas carol sing that followed the story.

Civitan Club Will Sponsor Musical

'Vagabond King' to Be Presented Jan. 15 at High School

The Jan. 15 performance of Vagabond King, sponsored locally by Civitan Club will be held in Pontiac High School auditorium. Proceeds from the production will go to Pontiac Camp Fire Girls.

This performance will mark another milestone in the number of audiences that have seen the production. During its two year run on Broadway, "Vagabond King," given by a national company has played to over 650,000 people.

After the first year of its new engagement, a second company was sent to Chicago, Philadelphia, Boston, Dallas, Los Angeles, San Francisco and other cities from coast to coast.

At the same time, another company opened in London. Subsequently, the rights to produce the musical were leased in France, Australia, Holland, Sweden and Denmark.

During the past summer, "Vagabond King" was performed by a touring company in 85 summer theaters.

It was also given showing by established musical groups such as the St. Louis Municipal Opera Company, the Music Circus at Lansdowne, N. J., Cape Cod Melody Faire in Massachusetts, Musical Tens Theater of Toronto, Canada, and Dallas Starlight Park.

If the production receives community support as anticipated, it will pave the way for future theatrical attractions in this city, both musical and dramatic.

All the flavor, verve and beauty of the original New York production have been retained; the audience will hear the complete score and scenery will create an illusion of the 16th century settings wherein action takes place.

Colorful ballet numbers have been staged by Marcelle Dodge who is assistant choreographer to Agnes De Mille, creator of the dance routines for "Oklahoma," "Brigadoon," "Can Can" and other musicals.

All seats for the production will be reserved. Tickets may be purchased from several downtown stores.

Toes Need Maximum of Care

Long gloomy memories of a mother's admonishing — "be sure to dry between your toes" — seem to have made many women all the more stubborn about it. They stamp their feet on a fluffy bath mat and let it go at that.

No one needs a textbook to know that mother was right. For health and cleanliness, the toes need their drying and care. Particularly for the woman who takes a shower in the tub, the importance of the soap film that settled on the bottom of the tub settled on her feet, too.

An added extra for the so-important toes is a beauty treatment all their own. After they're tenderly dried, give the nails a trim while they're easy to deal with. Powder or cream is a treat for them. If you're coping with athlete's foot, the powder you select, of course, will be a medical one. If your feet are healthy, pick a soft bath powder. If they're dry, try a soothing cream.

Application is important. Don't just shake the powder from above. It won't get to where it's needed, between the toes where they rub together. Try application with a sterilized cotton-tipped swab. Powder, with care, will go on as smoothly as glazed china. Cream will get into all the areas you want with the use of a swab. Smoot either the cream or powder up over the toes, in the wrinkles and around the nails.

Mend Knitwear

Loosely-knit garments are easier to mend if they are placed over a brush instead of the usual darning egg.

Best Wishes for the Holidays From High Schools

With the coming of Christmas and a long awaited vacation, correspondents from all three high schools wish you a Merry Christmas and a pleasant New Year. They'll be back again in January.

St. Frederick
Girls' basketball captain Jean McHugh finally got those uniforms out of moth balls with help of teammates last Friday, as Coach Joan Mazza called the first practice session.

Predictions of taking the championship again as they did two years ago are being made by returning letter winners Jean McHugh, Carolyn Robichaud, Ida Jane Arcand, Mary Barnett, Gail Dean, Marilyn Ashby, Margie McHugh, Sharon Neville and Margaret Drake.

The student body has been dodging Margaret Carry in the hall this week, as she is pestering everyone to buy a match box holder. "If you don't smoke, maybe you will later. You'll regret it if you don't buy one now," she says. It's very noticeable that Margaret is an enthusiastic Junior achievement worker.

Starting Wednesday, the student body took a breather with half-day sessions. This enables job-holders to work at Christmas.

Junior biology students are finding it hard to put the human anatomy together correctly. When Kay Smith was asked why she thought she hadn't done so well on her test, she remarked, "I think I put a couple livers where the kidneys belonged."

Choral groups arrived this week along with the costumes for the Christmas play, which starts Sunday.

Sister Teresina's art classes have been busy this week giving the

school that winter look. Her artists have painted the doors of every room in the school in colors of the traditional Christmas season. Every design is different and done very well.

Since this is the last column until after the busy holidays, we want to wish everyone a very Merry Christmas. Be good and take care of yourselves.

St. Michael

As if he didn't have enough troubles, St. Mike coach, Bob Mine-weiser, took on the extra burden of English classes this week as Sister Vlamney was at the dress rehearsal of the Christmas play.

Cheerleader Captain Gwen Herald announced that on days of basketball games everyone who can should wear his or her school sweater.

These days have been dubbed School Sweater Days and all the students enjoy participating in the event which adds to the color of the game.

Last Friday evening, CYO director, Fr. Immel, boarded the school bus along with his students and headed for the hayride at Holiday Park, after which everyone enjoyed dancing, donuts and hot chocolate in the recreation room.

Sister Gerald and her seniors discussed the schedule for Christmas caroling. This year it was decided that seniors would visit various local institutions and sing carols for the aged and infirm. The decision was reached that the Oakland County Infirmary and Menzies would be entertained.

Members of Junior Achievement groups are selling everything from planters to plastic fish-bowl holders, and playing all their classmates with a "How

would you like to buy . . . ?" routine all week.

Seniors have announced their choice for the senior play as "The Curious Savage." Tryouts will be held Sunday afternoon.

Pontiac High

Students are planning to attend the big basketball game tonight with Flint Central, hoping to repeat last Friday's win and make up for Tuesday's loss. The New Year's dance sponsored by the City Recreation Department at the YMCA and Pontiac High Gymnasium is sharing the spotlight this week, too. The affair, which is semi-formal, promises to be the highlight of holiday festivities.

Sunday is the day for the annual Combined Vocal Groups Concert. The concert will be at 3 p. m. and will present the Pontiac High Vocal Department, MacDowell Male Chorus and the Pontiac Women's Chorus.

Tuesday evening the Projectionists Club, along with their Latin Club guests, attended a skating party. Highlight of the evening was club advisor, Marion Lehnier, on roller skates.

Members of John Youngpeter's Linnean Society recently elected Jim Smith president. Other officers are Irene Kamachos, vice president, Barbara Kenny, secretary and Mary Kennedy, treasurer. The club took a field trip to the University of Michigan Botanical Gardens Sunday.

With the coming of Christmas, students and faculty of PHS are donating money for CARE packages to be sent overseas.

Members of the Quiver staff are completing plans for their banquet Monday which will honor past and present Quiver editors.

Lama Hook and her Latin classes announced the Christmas issue of the Epistolae Scholae, edited \$143.56, with Pontiac High contributing \$74.84.

The Chem-Physics club held its Christmas party Thursday, keeping in the spirit of chemistry by roasting marshmallows over Bunsen burners.

Georgianna Schult's art classes are displaying jewelry they made. Made of silver, the jewelry includes pins, cuff links, earrings and pendants in the first floor show case.

The art classes are also helping the Student Council make decorations to place in the halls for Christmas and are creating their own silk screen Christmas cards.

Hitchhike Slayer Starts Life Term

CHARLOTTE (UP) — Paul R. Spinner, 26-year-old Lansing hitchhiker who pleaded guilty to the slaying of a fellow Lansing resident who had given him a lift, today began a sentence of life imprisonment.

Spinner was sentenced yesterday by Circuit Judge Archie McDonaid.

He pleaded guilty to slaying Niles Liscomb, 36, after Liscomb had picked him up on the outskirts of Lansing last Aug. 4.

An official of the Iowa State Hospital for the criminally insane testified that Spinner had been a patient at the hospital for four years and was treated as a psychopath. He had been sent to the hospital after an attempted holdup in Flint.

Niagara Quintet Is Pointing for Another Shot at Top-Rated LaSalle Club in NY Cage Festival

BY THE ASSOCIATED PRESS
Niagara University's Purple Eagles, rated No. 19 nationally in college basketball circles, headed into the Midwest today for a Saturday night date with Toledo, but it won't be until after Christmas that a definite line can be drawn on Coach Taps Gallagher's fine club.

The Eagles made it 5-1 for the young season last night by mauling Syracuse 99-74 at Niagara Falls, N.Y., and they have only the Toledo engagement before zooming into the Holiday Festival Tournament starting Dec. 27 at New York's Madison Square Garden.

That's the one Niagara is waiting for, because it possibly will afford the Eagles another crack at LaSalle, currently rated No. 1 in the AP poll. Last Saturday LaSalle's NCAA champions edged Niagara 76-75 in the final six seconds of an overtime period.

Center Ed Fleming again was Niagara's big man last night with 26 points. He played less than half the game as the Eagles rolled up a 54-31 halftime lead.

There was little action on the college courts last night. At the Garden, the Temple Owls proved they will be tough. They upset St. John's of Brooklyn 77-69. Temple, with a 5-1 record, has only a 70-65 defeat by North Carolina State marring its record.

Florida registered its fifth straight victory by defeating Miami (Fla.) 70-61.

Western Kentucky outscored Colorado State 27-17 as the foul line for a 75-67 victory. Oklahoma City sent out five sophomores to down Texas Christian 63-44. It was

OC's first victory in four starts. Fordham ended a two-game losing streak by defeating Colgate 55-51, and Harvard's foul shooting beat Middlebury 54-51.

The NAIA Tipoff Tournament opened at Kansas City, and two former champions were knocked out. Arkansas Tech eliminated St.

Benedict's of Kansas, 1954 champions, 87-50, while Springfield (Mo.) State, the 1952-53 tourney winners, got it from Tennessee A&I 77-57.

In other NAIA games Gustavus Adolphus (Minn.) defeated East Texas State 59-51, and Rockhurst won from Western Illinois 72-65.

More Pushing in NY Than on the Gridiron

SOUTH HAVEN (UP) — Art Walker, South Haven's contribution to college football, said he found "more crowding and pushing" in New York than he ever did on a football field.

Walker, who starred for the University of Michigan this year, went to New York to accept an award from a national magazine which named him to its All-America team.

Goode, Stits on Pro-Bowl 11s

Lions' Rookie Rounds
Out Western Division
All Stars

LOS ANGELES, Dec. 17 (U) — Selection of Bob Goode of the Washington Redskins for the East squad and Bill Stits of the Detroit Lions by the West today completed teams for the annual charity Pro-Bowl Game Jan. 16.

The coaches of the two National Football League squads were assigned an all-star team of 29 and given the chance to pick the 30th man.

Jim Trimble of Philadelphia, the East coach, selected the 230-pound fullback Goode to alternate with Eddie Price of the New York Giants, the only fullback name to his squad.

Buck Shaw, the West mentor, picked Stits, a stellar rookie defensive halfback. Stits played at UCLA last year.

Lane Predicts Majors to Reach Coast in Year

NEW YORK (INS) — Chicago White Sox general manager Frank Lane predicts that major league baseball may reach the West Coast "within a year."

Lane told Harry Wismer on the INS television TV film, "This Week in Sports," yesterday that "the finger is pointing westward and it would not surprise me a bit if within a year the Pacific Coast league or at least the Pacific Coast were represented in the American League in the cities of Los Angeles and San Francisco."

Ben Lulu Named to Monroe Club Pro Job

Monroe Golf and Country Club says Bernard (Ben) Lulu, 29, of Tam O'Shanter, has signed a one-year contract to take over Jan. 1 as head pro at Monroe.

A former Detroit Publinox star, Lulu, succeeds Joseph Stolarick who went to Monroe last season.

The champion Detroit Red Wings are the lightest team in the National Hockey League. They average 167 pounds.
