City Hall Annex Offices Rifled

Electrical Department Files Ransacked; \$25 in Money Stolen

Pontiac Police today are hunting burglars who ransacked the city electrician's office in the City Hall annex at 35 Hill St. over the weekend.

The thieves, who forced a basement door to gain entry, took \$25 in change from a pried-open filing cabinet in the office. Miss Mary E. Knox, clerk - stenographer, said electrical installation permits in the file drawer were rifled. She said the permits were not damaged and office routine was not disturbed.

The stenographer said desks were not disturbed and the thieves overlooked a \$67 camera in one. She said she had just deposited \$151.89 in cash and checks, received from issuance of electrical installation permits.

Detective Sgt. John A. DePauw said the thieves also made an unsuccessful attempt to open a first floor safe. The building was broken into Friday night or early Saturday morning.

Besides the electrician's office, the annex contains the city assessor's, engineer's and the Parks and Recreation Dept. offices. All were entered but not ransacked, police said.

France Notes 40 Years Since War One Draft

PARIS (AP)—Forty years ago today France declared the general mobilization that emptied villages and cities of the young men who marched against Germany in World War I.

Only a few newspapers noted the anniversary. They recalled what they termed "the terrible tribute" French youths paid in the battle of the Marne one month after the mobilization order.

900,000 Voters Expected to Cast Ballots Tuesday

Officials Predict Light State Turnout Despite Last-Minute Fervor

LANSING (AP)—An estimated 900,000 voters are expected to cast their ballots in tomorrow's primary election in Michigan.

The polls will open Tuesday at 7 a. m. and remain open until 8 p. m.

The people will choose Republican and Democratic nominees for governor, U. S. senator, lieutenant governor, Congress, the legislature, and county offices.

The politicians' last-minute fervor and widespread publicity appeared to be stirring the voters a little from their hot weather lethargy, but election officials generally expected a light vote, averaging 25 to 30 per cent of the registered voters in most localities.

Tuesday is the first election day under a new legislative reapportionment ordered by the people in the 1952 elections and implemented by the legislature last year.

Legislative candidates are running in their new districts tomorrow and will take office next January in an enlarged House and Senate. In Detroit, for the first time, legislative aspirants are running in individual districts instead of in the city at large. Detroit's cumbersome bed-sheet ballots are a thing of the past although there are 559 candidates seeking office in Wayne County as a whole.

The state's attention is centered on two statewide races—the Republican contest for the nomination for governor and the Democratic campaign to choose a lieutenant governor nominee.

The Republicans must pick a man to oppose Gov. Williams from (Continued on Page 2, Col. 3)

Orion Youngster, 2, Found Dead in Lake

Robert Leon Smith, 2½, son of Mrs. Paula Smith of 1141 Elkhorn Rd., Lake Orion, drowned Sunday afternoon when he fell into Elkhorn Lake from a dock behind his home.

Oakland County sheriff's deputies said that the child, who had been in the water about an hour, was found by his mother in about three feet of water and taken from the lake by Peter Marin of Elkhorn Lake and Loyal Sundberg of Berkley.

Orion Township firemen tried for an hour to revive him. He was pronounced dead by Deputy Oakland County Coroner L. F. Cobb.

Funeral service will be Tuesday at 1 p. m. from the Allen Funeral Home, with burial in East Lawn Cemetery.

Surviving besides his mother are three brothers, Robert R., Russell and Frank, all at home, and his grandparents, Mr. and Mrs. John Hall of Lake Orion, and Mr. and Mrs. Bert Smith of Goodrich.

McClelland Proposes Action

Urges Senate Committee Draft McCarthy Charges

WASHINGTON (AP)—Sen. McClelland (D-Ark) suggested today the creation of a special Senate committee to draft formal charges against Sen. McCarthy (R-Wis) with the aim of a vote before Congress adjourns.

McClelland termed it a "better procedure" in his view than others advanced so far, but said he is not committed to it and would go along "if a better one is suggested."

McClelland made his suggestion in an interview. He is the senior Democrat on McCarthy's Senate Investigations subcommittee, and the man to whom many Democrats look for quelling McCarthy's attacks on the subcommittee.

McClelland emphasized that "it is not my thought to delay" in suggesting creation of a special committee.

McClelland, outwardly confident of a victory he could hail as a

M. J. OLSON

Moyer Gets New Fisher Body Job

Made General Factory Manager; M. J. Olson Comes to Pontiac

Carl W. Moyer, manager of the Fisher Body plant here since June of 1952, has been made general factory manager in charge of all Fisher assembly plants in Michigan.

M. J. Olson, formerly manager of the Fisher fabricating plant at Hamilton, Ohio, comes to Pontiac as manager of the plant here.

The promotions were among a number announced in the Fisher organization today by James E. Goodman, GM vice president and general manager of Fisher Division.

Moyer succeeds L. T. Dalecki who assumes special assignments under E. J. Hanson, general manufacturing manager. Moyer joined the Fisher organization in 1925 and held management positions in St. Louis, Norwood and Lansing and was general director of industrial relations before coming to Pontiac.

Olson started with the organization in Janesville and held management positions there, and in St. Louis, Flint and Baltimore before going to Hamilton.

Other changes in Fisher management positions include:

J. A. Kendall, who has been assistant manager at Hamilton, replaces Mr. Olson.

Ralph R. Nordyke, general director of industrial relations for the division, is appointed manager of Fisher's plant No. 1 in Flint, succeeding D. W. Flester who is taking a leave of absence for reasons of health.

Ray A. Boehne, who has been assistant general director of industrial relations, succeeds Nordyke.

Announcement of the offer of near-independence was generally hailed by Tunisian leaders as a step toward complete freedom, but die-hard French colonists angrily assailed it and some demanded the French national Assembly turn Mendes-France out.

Word of the promise of reforms for Tunisia touched off new violence in the sister North African protectorate of Morocco, resulting in the deaths of six persons.

In Tunisia, however, there was a lull in violent outbreaks following Mendes-France's offer Saturday to allow formation of an all-Tunisian Cabinet. The Premier's proposal would give the Tunisians control of all their own affairs except defense and foreign relations.

It was not announced how many nationalists had been freed. Bourguiba recently estimated 150 to 200 were under some form of detention.

Press Sponsors Clinic Aug. 24 for Local Fans

Nation's Two Leading Pros Will Demonstrate How They Top Field

During the last few years Michigan, and particularly the Oakland County area, has become increasingly aware of the potentialities of stocky, dark-browed, long-hitting Melvin (Chick) Harbert and blonde, equally powerfully-built Wally Burkemo.

A year ago Burkemo hit his peak with his 2-up victory over slight Felix Torza in the National PGA championship at Birmingham Country Club. He had previously gone to the final round against Sam Snead but the Slammer won that one.

Harbert had gone out in an early round, last year. He has tried many times, but only last week emerged as PGA champion, dethroning Burkemo at St. Paul, Minn., in the finals.

Harbert just missed taking the Michigan Open, Sunday, when he lost out by one stroke to Horton Smith.

Fans of the area have had opportunity to see these two fine players in many tournaments in the district, but now they will be given a much better opportunity—a real closeup.

The Pontiac Press today announces a demonstration, or clinic, and an 18-hole match between these spotlighted shotmakers, on Aug. 24, at Pontiac Country Club. Chick was signed several days ago. Wally agreed to come out here, during a weekend conference.

The clinic and match will be without cost to the golfing enthusiasts of the city and area. However, there will be opportunity for those who wish to, to secure green badges for a half dollar. Purchase of the badges is not compulsory. Funds received from the badges will be devoted to the work of the Pontiac Boys Club.

Appearance of the two stars has been set for 4:45 p. m. on the Aug. 24 date. A half hour to 45 minutes will be devoted at the start. (Continued on Page 2, Col. 4)

French Release Captive Leaders

150 to 200 Nationalists Freed as Autonomy Offer Made

TUNIS, Tunisia (AP)—The French freed a number of moderate nationalist leaders from house arrest today in the wake of French Premier Pierre Mendes-France's offer of autonomy for the North African protectorate.

There was no word of any change of status for Habib Bourguiba, top leader of the nationalist Neo-Destour party who has been confined to a farm near Paris. But Bourguiba appealed today for an end to the violence which has killed or wounded many Frenchmen and Tunisians in past months.

It was not announced how many nationalists had been freed. Bourguiba recently estimated 150 to 200 were under some form of detention.

Guatemalan Cadets Revolt; Armas Mobilizes Forces

GUATEMALA (AP)—Cadets and officers of Guatemala's military academy revolted this morning. Forces of the government of Col. Carlos Castillo Armas moved to put down the rebellion.

Troops of the Aurora Army base at the Guatemala Airport were reported to have joined the rebellious cadets. Other reports said Communist elements, defeated in a brief civil war that ousted Red supporters from the government last month, had mobilized.

Governor Calls Special Session

Williams to Ask Funds for Addition to Ionia Reformatory Aug. 18

LANSING (AP)—Gov. Williams today called a special session of the Legislature for Aug. 18 to finance an emergency prison addition in which the "Little Legislature" last week refused to provide.

The governor said he would ask again for money for a 150-man barracks at the Ionia Reformatory but that this time he will include a request for the installation of individual "cubicles" which was discussed by the "Little Legislature."

For that reason, Williams said, the original estimated cost of \$225,000 probably will have to be increased.

Last week, the "Little Legislature" or Emergency Appropriations Commission, contended it did not have authority to release the money Williams requested, and its leaders urged Williams to call the full Legislature. At that time, the governor refused, saying the attitude of Republican legislative leaders gave no promise of a successful outcome.

"During the last week," Williams said, "I have carefully weighed the matter, and it is evident that we can not safely wait for the 1955 session of the Legislature to act. We now have more than 9,450 inmates and by January we may have close to 10,000 in a prison system designed to hold safely less than 8,600."

163 Pontiac Residents Cast Absentee Ballots

A total of 163 Pontiac residents had cast absentee ballots through Saturday, City Clerk Ada R. Evans said today.

No more applications for absentee ballots will be issued, Mrs. Evans stated, although persons who obtained applications previously may still return them and get ballots. Marked ballots will be accepted until the polls close tomorrow, the city clerk added.

Truck Load of Nails Overturns on Highway

Vote in County May Be Heavier Than '52 Primary

No Opposition Offered Many Candidates for Party Nominations

Oakland County electors are expected to cast a slightly heavier vote in Tuesday's primary than was cast in the 1952 primary, according to Lynn D. Allen, county clerk. The 1952 ballot totalled 59,883.

Many county candidates are without opposition for nomination, but interest in the race for the gubernatorial nomination on the Republican ticket, and several other contests of more than usual interest are offered the voters.

Approximately 229,000 voters are eligible to cast ballots, in a population which has gained substantially in the past two years. However, 1952 was a presidential year, which always generates maximum interest.

Of the county's 208 precincts, 141 are now equipped with voting machines.

Polls will open at 7 a. m. and remain open to 8 p. m. All voters

In line at closing hour will be permitted to cast ballots.

Electorates will be asked to decide on a proposed \$4,500,000 bond issue for a new court house, and a 50 cent tax (per \$1,000 valuation increase to pay for the bonds. Any person who is assessed for taxes may vote on the bond ballot; all qualified electors on the tax.

Voters will select nominees for seven county offices, six state representatives' posts, state senator and U. S. Congress.

Republicans trying for nomination as state senator are William S. Broomfield; Frank M. Granger; Anthony Renne; Edward Morey; Howard K. Kelley and Richard D. Kuhn.

In the state legislature, Fred G. Beardsley, incumbent, and Louis Dorman Jr. are seeking to represent the first district; Richard C. VanDusen, incumbent, and Wallace R. Furber, third district; Robert A. Burns, Charles Trickey Jr. and Theodore F. Hughes, fourth district; Vernald F. Horn; William F. Voelbel and Oscar A. Gorelick, fifth district; and Bruce P. Wheeler and Gordon D. Haupt, sixth district.

Opposed is Ernest Huthwaite in the second district.

George A. Dondoro is unopposed in his bid for Republican nomination as U. S. Congress. (Continued on Page 2, Col. 2)

Bond Set at \$100,000 Each for 'Reds' Nabbed Out West

DENVER (AP)—U. S. Commissioner Joseph D. Neff set bond at \$100,000 each early today for four top Communists nabbed together only one block from the Colorado Capitol Building by FBI agents. A fifth was arrested in Los Angeles.

Three men and a woman were taken by FBI agents to city jail here for fingerprinting, then to the county jail. Commissioner Neff said a preliminary hearing would be held Aug. 16.

The arrest of the four, along with that of Mrs. Patricia Blau in Los Angeles, was announced in Washington by FBI Director J. Edgar Hoover.

U. S. Atty. Donald E. Kelley said all were arrested on warrants issued here and charged them with violation of the Smith Act.

Two Property Owners Ask Birmingham Council for Well Right Protection

From Our Birmingham Bureau
BIRMINGHAM — Although cool weather and showers have eased the water pinch here, repercussions of it will be felt by the City Commission at its meeting tonight.

Two property owners who live just beyond the eastern city limits have written the commission stating that the Walker well, one of the city's eight municipal wells has deprived them of water from their own private wells—especially during the recent dry spell.

The two, Charles E. Brownell of 3239 Dorchester, and John T. White Jr. of 2728 Yorkshire, have asked that pumping from the Walker well be "drastically curtailed so as to discontinue the infringement of our water rights."

Also on the agenda is a communication from the Oakland County Department of Health urging the city's cooperation in "developing a uniform approach" in combating the rabies problem in South Oakland County.

Street improvements in the Quanton Lake Estates also will be up for discussion as a result of a letter from Mrs. Howard Willett, Mrs. Willett, a leading figure in the drive to get that area streets paved, urged in the letter that the streets be repaired this fall.

The commissioners will get a chance to view the equipment of the new Birmingham Ambulance Service, Inc. before the meeting. Owner Michael J. O'Hara plans to have the new ambulances parked in front of the Municipal Bldg.

O'Hara has stated a desire to negotiate with the commission regarding ambulance service for the

Judge Refuses to Free Doctor

Sheppard's Attorney to Appeal Court's Refusal to Grant Writ

CLEVELAND — Common Pleas Judge Frank J. Merrick today refused to grant a writ of habeas corpus that would have given temporary freedom to Dr. Samuel H. Sheppard.

William J. Corrigan, attorney for the 30-year-old physician held in the murder of his wife, immediately announced he would appeal the decision.

Judge Merrick ordered the osteopath returned to the county jail, where he has been held since his arrest Friday.

Under Ohio law, the president of a city council in such a municipality as Bay Village—scene of the crime—has full authority to act for the mayor, if for any reason at all the mayor cannot act, Judge Merrick said.

That was the point on which Corrigan had asked the writ. He contended Gershon M. Barber, the council president who issued the warrant and committed Dr. Sheppard to jail, had no authority to act.

Barber acted because Mayor J. Spencer Houk, a friend and neighbor of the doctor, is expected to be a material witness. Houk was the first person Dr. Sheppard telephoned on the morning of July 4, when Mrs. Marilyn Sheppard's bloody body was found.

It was Corrigan's contention that a mayor cannot delegate his authority.

The courtroom drama took little more than half an hour. Dr. Sheppard was wearing the neck brace which he has used much of the time since the slaying. He says the intruder who killed his wife hurt him in a struggle.

Witnesses at the hearing were Barber, Houk and two arresting officers, Lt. Clifford Mercer and Patrolman Fred J. Drenkhan.

Dr. Sheppard's return to jail presumably opened the way for further questioning by detectives who talked with him about six hours yesterday. They indicated they had not learned much.

5 Hurt Falling From Vehicles

Three Children Among Victims Injured in Rash of Accidents

At least five persons, including three 2-year-olds fell from moving automobiles over the weekend when the vehicles' doors flew open.

All were taken to Pontiac General Hospital. One was admitted and the others were treated and released.

The 2-year-olds who fell from their father's cars were Linda Smith, daughter of Mr. and Mrs. Donald Smith of 91 N. Cass Ave.; Mark J. Cuchetti, son of Mr. and Mrs. Joseph Cuchetti of 2658 Buckingham, Berkeley; and Debrah Lucas, daughter of Mr. and Mrs. Gene A. Lucas of 4771 Dixie Hwy., Drayton Plains.

Adults injured were Mrs. Julie Blavins, 61, of 292 Huron St., and Mrs. Joyce Taylor, 25, of 5516 Gratiot, Richmond. Mrs. Blavins was admitted to the hospital and is reported in good condition today with a fractured pelvis.

All except the Blavins accident occurred on Sunday. Mrs. Blavins was injured Saturday.

Linda fell from her father's car at Huron St. and Tilden Ave. The Cuchetti accident occurred on M15 north of Clarkston. Debrah was injured on U. S. 10 near Walton Blvd.

Oakland County sheriff's deputies said Mrs. Blavins fell from a car driven by her son, Emmett, park. They were motoring on 36, of a Pontiac Township trailer Rochester road near Buell road.

Mrs. Taylor was injured when she fell from an auto driven by her husband, Ivo, on Haggerty road south of Richardson road, reported deputies.

900,000 Expected at Polls Tuesday

State Treas. D. Hale Brake, Sec. of State Owen J. Cleary, former Lt. Gov. Eugene C. Keyes and Donald S. Leonard, former Detroit and state police commissioner.

The lieutenant governor candidates on the Democratic ballot are George S. Fitzgerald of Detroit, favorite of a strong wing of the American Federation of Labor, and Philip A. Hart of Birmingham, Gov. Williams' own choice for the job.

Williams is unopposed for an unprecedented fourth term race.

U.S. Senator Homer Ferguson and Lt. Gov. Clarence A. Reid of Detroit are unopposed on the Republican ballot.

Also of major interest is the outcome of the Democratic nomination for U.S. senator. Patrick V. McNamara of Detroit, member of the Detroit Board of education and a labor union officer, was left unopposed on the ballot by the death of former U.S. Sen. Blair Moody, but some segments of the CIO and the Democratic Party have advocated a "memorial" vote for Moody and the state watches to see whether it might be large enough to defeat McNamara.

Voters tomorrow will receive a ballot with the Republican candidates on one side and the Democratic candidates on the other. They may not vote on both sides.

Police Yank Down 25 Political Signs

Twenty-five more political campaign signs were removed from city property over the week end as Pontiac Police continued to enforce a 1935 city ordinance prohibiting the posters on public land.

About 650 political signs have been torn down so far in Pontiac, according to Police Chief Herbert W. Straley who issued the order recently following complaints by citizens.

"I don't believe that we have missed any of the illegally posted signs," said Straley. "We believe the city is clean now; but citizens should call the police department if some signs are seen in their community," he added.

Straley said his order will remain as an "enforcement measure since citizens expressed displeasure with the illegally posted signs."

SOS for Blood Sent Out Here

Donors Urged to Visit Bloodmobile Tuesday at Donelson School

Milo J. Cross, Pontiac Chamber of Commerce president, today urged local people to give blood at Tuesday's emergency Bloodmobile visit to Pontiac.

The Red Cross Bloodmobile will take donations from 2 until 8 p.m. at Donelson School, 1200 W. Huron St., in a special effort to help fill Detroit Regional Blood Center shelves.

The blood "drought" has become so severe that it forced Pontiac General Hospital to seek its own blood donors for two patients this week.

"There's no vacation from the need for blood," Cross said today. "I think a citizen has almost as much a responsibility to maintain a supply of blood as to exercise his right to vote. We hope local people will shoulder both responsibilities Tuesday—I don't know what would happen if we had any disaster here and didn't have whole blood on hand."

Meanwhile, several community groups turned to help make Tuesday's blood drive a success.

Pontiac Urban League Guild manned telephones at Red Cross offices, F.E.R.A. 4-5775, last night taking calls from donors.

Junior Women's Club and Pontiac Y-Teens will man Red Cross phones from 9 a.m. until 5 p.m. Sunday. General Motors Girls Club is helping line up donors, Baldwin Rubber Local 125, UAW-CIO and several other Pontiac industries and unions have promised to send donors to Tuesday's blood clinic.

Pontiac Area Girl Scouts will help welcome donors and serve refreshments Tuesday.

Anyone who can give blood at Tuesday's mobile visit is urged to call Red Cross offices for an appointment. Free rides to and from the clinic will be given donors if needed.

Committee Proposed in McCarthy Issue

(Continued From Page One)

sion of his brief resolution bearing only an allegation that McCarthy's conduct has tended to "bring the Senate into disrepute." The resolution includes no specific charges, but Flanders has been highly critical of McCarthy's investigative methods.

Knowland won a Senate order Saturday for a roll call vote on the Flanders proposal. Senate parliamentarians said that meant the original could be amended only by unanimous consent or by a majority vote of the Senate. Sen. Dirksen (R-Ill.) said he would block any unanimous consent request.

Dirksen disclosed the strategy of McCarthy supporters when he said in an interview that he will oppose any amendment to the Flanders proposal or any substitute for it.

"I want this thing settled," he said. "The Senate should take the Flanders proposal straight, without the ginger ale of amendments or substitutes. This issue ought not be left hanging in the air."

Sen. Goldwater (R-Ariz.) said this represented substantially the attitude of a large majority of the Senate's 48 Republicans. On the opposite side, Flanders also called for a showdown vote.

Knowland said last night he anticipates another day or two of debate and then, probably, a Senate decision to turn the whole issue over to some committee for study. Any such result would delay action at least until after the November elections.

Whether McCarthy could get a vote on the unadorned Flanders proposal—which even such critics of the Wisconsin senator as Sen. Jackson (D-Wash.) predicted wouldn't pass—seemed to depend on what sort of a substitute could be found that would appeal widely to the Democrats and to a few Republicans critical of McCarthy.

FBI Arrests 4 'Reds' in City of Denver

(Continued From Page One)

Montana, Utah and New Mexico; Anna Correa Bary, 29, his wife and former organizer of the Communist party in Denver; Harold Zepelin, Colorado; and Lewis Martin Johnson, 28, Communist party organizer for Colorado, and Lewis Martin Johnson, 34, head of the Communist party in Utah.

Charles Brown, agent in charge of the Denver FBI office, gave no details of the arrests other than to say that all were arrested while standing on the sidewalk near the Capitol.

He said the arrests climaxed "a lengthy investigation." Kelley said he was aware of the investigation "some time ago." He said Mrs. Blau probably would be returned here for preliminary hearing on the same date as the other four.

Mrs. Blau, who the FBI said has been associated with Communist party activities since 1943, was arrested at her Los Angeles home where she lived with her husband. She had been working in a bakery for several months without public attention, the FBI said.

Real Russian Reel Bid Gets Filed in WPB

PHILADELPHIA (UP)—A Russian firm indicated it would be interested in learning the art of bourgeois fishing trips, but it got no help from the Ocean City Manufacturing Co.

The firm, which manufactures fishing reels, received a request from Moscow for sales literature and a "sample copy of your advertising poster."

The general manager, Edward B. Maguire, filed the request in a wastepaper basket.

"Our fishing reels are not for catching red herring, he said."

Model Has Teeth to Suit Each Mood

CLEVELAND, O. — (UP) — Most models have dozens of changes of clothing, hats, shoes and the like, but how many can boast of a set of teeth for every occasion? Louis Clarkbower can!

The 55-year-old Clarkbower is custodian at Western Reserve's Dental School. He also doubles as a demonstration model for dentures, and, to equip him properly for this latter role, the school has provided him with eight sets of false teeth over the years.

By 1958, Clarkbower figures he'll have a dozen sets, but for now he's content.

"I rarely smile with the same teeth two days running," he said. "It's sort of luxurious to be able to change them like ties."

Hi-Point Farms Holds First Sale

2 Other Auctions Slated at 2,500-Acre Place Sold to Ford Motor Co.

ROMEO—The first of three dispersal sales was held at E. F. Fisher's Hi-Point Farms, northwest of here, Saturday.

This 2,500 acre farm was the major parcel of land purchased recently by the Ford Motor Co. for its new Michigan Proving Ground.

The final annual Hi-Point sale of Herefords, a regular yearly event, is scheduled for October, with the farm equipment to be auctioned at a later date.

All of the tenant families will have moved, cattle will have been auctioned and machinery sold by next March.

Some 80 head of registered Guernsey cattle and a number of Holsteins were put on the block by auctioneer C. B. Smith of Williamston, who managed the sale with Alden P. Cole.

Fisher, of the famous automotive family, was on hand to greet the buyers. He told them how reluctant he was to retire from farming, but added "only once in a lifetime could one dispose of 2,500 acres in one parcel."

Soldiers Love New Air Force Waitresses

ENID, Okla. (AP)—A GI's dream—waitresses dressed in trim, white uniforms—greeted Vance Air Force Base airmen as they went to chow this morning.

It was only the second day of the Air Force's experiment at turning kitchen police duty over to a catering service. But the trial, due to continue for 11 months, was immediately pronounced a tremendous success.

"Everyone was very enthusiastic, especially the enlisted men who ordinarily pull KP every 15 or 20 days," said Lt. Joseph A. Hays, public information officer. The girls loved it too.

Sharon Ruch, a stenographer for the catering firm who helped in the kitchen the first day, said she liked it so well she's thinking of discarding her typewriter for an apron.

"The girls were overwhelmed by the reception," said Jack McGaha, southwest division manager for the Nationwide Food Service, Inc., of Chicago.

Asked if there was any chow-line flirting, he replied: "Yes, there was some of that going on—you know soldiers."

Here's what the men thought of girl KPs:

"It's more appetizing—the food, I mean."

Youth League in Red Listing

Control Board Finds
Group Formed, Run to
Aid Commies

WASHINGTON (INS)—The Labor Youth League was officially described today as an outright Communist-front organization formed by the Reds to promote class struggle and "a Soviet America."

The finding against the nationwide youth group was issued after extensive hearings by Harry P. Cain, a member of the Subversive Activities Control Board.

Cain, a former Republican senator from Washington state, declared: "The policies, programs, positions and activities of the (league) have been formulated, adopted, and carried out for the primary purpose of aiding and supporting the Communist Party."

If Cain's ruling that the group is a Communist front is upheld by the full control board, the league's officers would have to register with the government and bare its financial affairs.

Similar proceedings have already been completed against the Communist Party and are in various stages for 10 other front groups. The party itself has defied the order and has taken its case to the courts.

The case against the league was based upon testimony at a parade of Justice Department witnesses including ex-members, former Communists and FBI undercover agents.

The league attacked most of the witnesses as "paid informants"

and based its chief defense on the issue of "McCarthyism" as the "clear and present danger" which, it argued, "threatens American society."

Pour First Cement for Straits Bridge

ST. IGNACE (AP)—The first cement-pouring operations in caissons of the huge Straits of Mackinac bridge got under way today. Grover C. Denny, project manager for Merritt, Chapman and Scott, the contractors for the sub-

structure of the bridge, announced last night that the pouring operations would begin following the arrival of the first caisson. The dolomite arrived from Drummond Island, near De Tour, aboard the self-unloading freighter, J. L. Reiss. The first caisson to be sunk will

be a support pier for the giant bridge.

Quaint Little Play House 'Fixed Up' by Children

Green Lawn, Vines, Mail Box Highlight Exterior of Tiny White Dream Dwelling in Corner of R. Y. Moore Back Yard

By MARILYN SHETTER

I was pleasantly surprised recently when I answered the phone and Mary Johnson, 10, enthusiastically told me that she and her sister, Janet, 8, and brother Jimmy, 11, had helped their neighbor, Susan Moore, 7, "fix up" her play house.

They are the children of the Willard V. Johnsons and the Robert Y. Moores of Shoreview drive.

After accepting their gracious invitation, I went out to see their little dream-house which is located on a terraced corner of the lawn in the Moores' back yard.

As you approach the playhouse you can't help but notice the mail box and even an American flag which is displayed above the entrance.

The quaint little white house is partially covered with grape vines which wind through open strips down each side of the house. These serve as windows. The vines most conveniently support large bunches of grapes, not quite ripe, near the cupboard which holds several cans of food. Part of a rose bush has also found its way into the charming house, eliminating the need for the planters grown-ups find so necessary in their decorating schemes.

Jimmy, as the man of the house, artistically arranged badminton equipment on the wall following an example he had seen in a magazine. Pictures which grace the walls were also taken care of by young Mr. Johnson.

When asked about the lawn in front of this little house he informed me that he does the job and it could use a trim at the present time, but it wouldn't take him long.

Using just a little imagination you could see the fluffy toy puppy just inside the door lapping up a bowl of water. (I was requested not to tell the dog catcher that their playhouse pet does not wear a collar and what's more important, a license.)

As I noticed the color scheme of pink, blue and white accented with orange and black, Janet said, "I think the orange could be removed." Mary hastily informed both Janet and myself that, "For a playhouse you want it decorated brightly." The house even has an attic which is used for storage purposes.

A fibre rug is laid wall to wall

and books and magazines are available for guests who wish to read. It was easy to see that the dolls find their musical cradle quite comfortable.

The small dining table was "set for lunch" and centered with a pretty arrangement of garden flowers.

Miss Moore proudly explained that their small washing machine not only takes care of soiled doll clothes but serves efficiently as a dish washer.

As we concluded our talk there was no doubt in my mind that these ambitious children, who work their imaginations over time, will find no end to their pleasures.

On hand to join in on the fun are Janet Johnson (left) and her sister, Mary. They are the daughters of the Willard V. Johnsons, also of Shore View drive.

Designer Is Quiet, Balding Man

Paris Applauding the Flat Form

By MARC FURDUE

PARIS (AP)—Christian Dior, with his conservative, double-breasted suits, sober ties and impassive face, looks just like the man behind the mahogany desk in the loan department of a big bank.

Yet this quiet, balding, slightly paunchy onetime farmer is "fashion's creative genius," the man who's tossed another bomb into Paris fashions an H-line bomb.

It's called H-line because that's what the new form is supposed to resemble: narrow shoulders, flattened busts, waistlines at the hip. Skirts are full, pleated or tight.

There was no cheering for his idea in the United States, where women seven years earlier had enthusiastically adopted his "New Look." But curves are more important in America than in France, and there was loud applause at his showings here. If that's an indication, the ideas might win acceptance and start another fashion era.

It wouldn't be the first time for the 49-year-old Dior, the unchallenged leader of the French fashion world.

He burst into this bitterly competitive trade in 1947, immediately setting it on its ear with the revolutionary "New Look."

In one season he became dictator of high style and never since has anyone come near topping him from that profitable pinnacle.

Dior denies any intention of making fashion sensations.

In a book he wrote about three years ago he said styles go in cycles with a complete revolution about every seven years.

The "New Look" now is seven years old. So we come to the current question: Is he trying to effect a change singlehandedly or just get out in front of an inevitability?

"Changes just come about and many things contribute when everybody is ready for them," he has said. "They are not forced by any one designer. They can't be."

This year Dior left skirt lengths alone. He already had his fling at hemlines: lengthening them in the "New Look" and shortening them last year to 16 inches from the floor.

He has little patience, however, with the people who keep measuring the distance between skirts and floor.

"Too many fashion writers seem to think there is a fixed standard for skirt lengths—so many inches this way or that. We designers are not scientists working with statistics. We work with the eye and by feeling."

Christian Dior's father, a wealthy chemicals manufacturer,

Extension Group Meets in Clarkston

Mrs. Charles O. Lanning of Clarkston entertained members of the West Side Extension Group in her home Thursday for an all day meeting.

The lesson of the day was on decorating wooden trays. In charge were Mrs. Warren Fitzgerald and Mrs. Don C. Milbourn who attended the camp craft session at Waldenwoods in June.

Future craft projects discussed included etching metal trays and weaving chair seats.

A cooperative picnic will be held by the group on Aug. 25 in the home of Mrs. Glen H. Arthur.

planned a career in diplomacy for him, but the family fortune was wiped out in the depression and Christian had to leave the school of political science. He opened an art gallery in Paris, but a serious illness forced him to give it up and retire to the country.

At 30, he returned to Paris without work or money, but one of the paintings from the gallery saved him. He sold a picture by Raoul Dufy and lived on the proceeds.

He stayed with a friend who was sketching designs for hats and dresses. He persuaded Dior to do some. They sold, and "with the presumption of ignorance," Dior settled on designing as his livelihood.

He connected with a smart fa-

shion magazine as an artist, then went to work for the House of Piquet as a "modelist." When the war came, he was mobilized as a private. After it ended he worked as a farmer until he could get back to Paris and a job with Lelong.

In 1947, Marcel Boussac, a plutocratic cotton manufacturer and racehorse owner, put up the money for Dior to open his own establishment. Success came overnight.

GA's Prexy Finally Bags Michigan Open Title

Adcock Not Made Ages After Being Beaten Sunday

TROIT — PGA president in Smith, who has captured Masters titles and a host of other titles, has added to his list one more title today by winning the Michigan Open championship. A 46-year-old former Michigan PGA king, had never been to win the Michigan open until today.

well have thought he had missed again. But 20 minutes later, the Detroit learned that his 276 total, four under par for the Lakepointe Country Club's par 70, 6,515-yard layout, was good enough to beat defending champion Chick Harbert, Northville's PGA champ, by a single stroke.

Smith had been four strokes behind Harbert going into yesterday's 36 holes. But long-hitting Harbert slipped to a 74 on the final round after matching par in the morning.

That single stroke cost Harbert his 5th Michigan Open crown. Harbert, although losing the title, still had the satisfaction of holding off Wally Burkemo, Franklin, again.

Harbert whipped Burkemo in the finals of the recent PGA championship, and in the open Burkemo still trailed the Northville slammer in 4th place with a 287 total.

On his 2nd time around yesterday, Harbert fired a two over par on the 16th. That left him needing a birdie and a par on the last two holes to clinch the title. He got the par on the 17th after dubbing a wood shot. But a 20-foot putt on the final hole failed to fall for a birdie and Harbert walked off the final green in the runnerup spot.

Last three holes were the most important of the tourney for both Smith and Harbert. Smith was leading Harbert

and was looking forward to a sub-par round when he stepped up to the 16th tee. From there on out Smith wasted shots by the bunch.

When he walked off the tee after finishing a mediocre round—his poorest showing of tournament—Smith could

not have thought he had missed again.

Cleaners Win First Playoff Test Sunday

Beat C-V Team, 8-4, to Advance in Men's League Tourney

Drive-In Cleaners, the last-place team in regular-season standings with a 2-16 record, won their opening test in the City Men's Softball League playoffs yesterday, 8-4, over Champagne-Velvet.

Cleaners scored five runs in the 6th inning to overcome an earlier 4-2 deficit. Ron McGinnis and Poppy paced the winners with two hits apiece.

Forster Tool was forced to forfeit its playoff game to CJO No. 204 when it was discovered that Forster had played the game with ineligible players.

Aircrafts Turn Part Upward

NEW YORK—Demand for aircrafts turned the stock market upward today though price changes were generally small.

Steels and motors were also active but irregular. Chemicals and distillers found ready buyers. Utilities held firm but railroads eased. Trading was moderately active.

Missouri Pacific preferred opened up 3 1/4 points at 5 1/4 on a block of 4,700 shares. During the session, however, the gain diminished. After the close of the market last week, the Interstate Commerce Commission approved a new reorganization plan for the bankrupt road.

Along with the aircrafts, General Dynamics was a strong issue. The company expects to participate in both the government's aircraft and shipbuilding programs, which will be stepped-up according to a statement by Commerce Secretary Weeks over the weekend.

Can Furnish Shots for Many Scenic Places to Illustrate Songs

NEW YORK—Film libraries are as important to stations, agencies and TV producers today as newspapers are to newspapers. Newspapers use their filed data to fill out news stories; sometimes compiling entire features from morgue notes, while in TV, stock shot libraries are the mainstay of their events and play an increasingly vital role in most other video programming.

Besides their obvious value as time and money savers, there are many scenes made available which would be impossible to duplicate.

Many TV shows use the stock film library on a regular or part-time basis. Among items supplied are fashion and food shots for women's shows; scenic background for musical productions; round-the-world coverage for travel programs; animal and human interest material for children's shows; and endless news and special events shots for documentaries, quiz shows and educational programs.

Now the film library is available to local stations and outside producers to provide a solution to many of their programming and production problems.

To maintain this good service, the Film Library is open from 9 a.m. to 1 a.m. and librarians are on call at all other hours.

Examples of demands made on the library are calls for such shots as a fadeout to parades to illustrate martial music on Voice of Firestone, various scenic backgrounds for Your Hit Parade, shrimp boats for the song of that name, zany shots of flagpole-sitters and a spaghetti-eating contest for comedian Bob and Ray.

TV Film Library staffers are encouraged to use individual imagination to create the desired effects. One request called for a stampede sequence which was one of the few shots not on file.

However, the request was adequately filled by combining shots of two horses fighting and a herd of horses racing past the camera.

Recent orders were for corseat ride on a roller coaster.

Quinoa Might Replace Spinach

Andes Mountain Plant Reportedly Has High Nutritive Value

WASHINGTON— "Junior, eat your quinoa!" may one day supersede parental pleas for spinach consumption at America's dining tables.

U.S. food manufacturers have been experimenting recently with the thin leaves of the quinoa plant, an import from the lofty Andes, says the National Geographic Society. It appears to have possibilities as a substitute for much-maligned spinach.

For centuries quinoa has been the staff of life for millions of South American natives. It grows only in the cold, thin atmosphere 10,000 to 15,000 feet high in Peru, Bolivia and Ecuador—where neither wheat nor barley will ripen.

Hardy, easy to cultivate, and resistant to pests and disease, quinoa is one of the world's most versatile plants.

Its seeds are eaten raw, boiled, roasted, or ground into flour. They are used also in making beer, for medicinal purposes, and as a poultry and livestock feed. Tender young shoots serve as salad greens.

Dried stems make a quick, hot fire—an important element in a land where fuel of any sort is hard to come by, and the derath of oxygen hampers fire-building. The ash helps flavor the coca leaves which Andean Indians chew.

To the layman, quinoa resembles nothing so much as a large weed. It grows three to five feet high with a stout, much-angled stem, triangular leaves, inconspicuous flowers and a multitude of tiny, vari-colored seeds.

Quinoa cultivation goes on today much as it did when Pizarro first entered Peru in 1537. Indians sow the seed in the autumn. Seedlings emerge a week after planting, and a heavy head of seed matures in five or six months. Then the whole plant is cut and left to dry in the sun for several days. It is threshed by flailing with a stick. A quarter to a half ton of seed per acre is the average yield.

Experiments in quinoa growing have been conducted in both Europe and the United States, but results were not encouraging. To produce grain of high nutritive value requires intense heat. But night frosts are also essential to insure complete ripening.

Technologists of the Food and Agriculture Organization of the United Nations believe the plant has commercial possibilities. Their tests show that 100 grams of seed—a very small meal—contain more starch, proteins and vitamins than a plate of eggs, a fresh fish, a side dish of assorted vegetables, and a generous helping of condensed milk.
