

\$56,000 Brightens Future

THEY'RE HAPPY TOO — Irvin J. Carlson's family gathers after hearing the news of the \$56,000 prize. At left a daughter, Mrs. Wilda E. Reed, holds young Lila Reed, 2, while Mrs. Carlson puts an arm around Rosalie, 13, is at the left.

City Man Wins Sweepstakes

Has Ticket to His Dreams

GETS THE GOOD NEWS — A happy Irvin J. Carlson points to the letter informing him he was an Irish Sweepstakes winner. Yesterday the Pontiac Motor Division steel cutter learned his prize amounted to \$56,000.

Parcel With Bomb Inside Injures Three

NASHVILLE, Tenn. (UPI)—A hand-delivered package exploded in the face of a suburban woman and her two daughters early today, critically injuring the woman and knocking the children off the back porch.

Mrs. Francis Binkley Tate and her two daughters, ages 8 and 10, were rushed to the hospital where a spokesman said Mrs. Tate was in "very critical" condition.

"Her hands are gone. She's just completely blown up," the spokesman said.

Police said the two girls were "cut up awful bad." The hospital listed them in fair condition. Another child, an infant, was not hurt.

"Someone came up to the back door and handed the package to them," said a Madison-Ingwood police officer. "Evidently it was someone who knew them."

DETROIT (U)—Detroit's City Council agreed today to introduce a new city income tax ordinance July 6. A formal vote on the proposed tax was scheduled for Aug. 2.

NEW YORK (UPI)—The New York State Athletic Commission today suspended boxer Sugar Ray Robinson indefinitely for failure to fulfill a fight contract at Baltimore.

LONDON (U)—Russia, in a clear bid to flatter France, today proposed a new starting-point in her program for ending the world arms race, and at Geneva, she rejected safeguards offered by the United States against military uses of nuclear explosions for research purposes.

Pontiac Output Remains High

43,093 Cars Produced in May as Industry Has an Outstanding Year

Pontiac Motor Division is maintaining its high level of production. It was learned today by the automobile industry's announcement of month-end figures.

A total of 43,093 new cars rolled off Pontiac's assembly lines during May. Output for the same month last year was 43,620.

Pontiac built 43,419 cars in April 1960.

The industry as a whole is enjoying its highest rate since the record year of 1955.

Reports from the individual companies published yesterday showed a total of 3,186,398 passenger cars have been turned out in the first five months of this year. Compact cars accounted for about one-fourth of the total.

BEST IN 4 YEARS

The industry boasts its best May in five years, boosted by American Motors' claim of an all-time record for its Rambler production and strong showings by General Motors, Ford and Chrysler.

General Motors, supported by a 37,513 increase in May passenger car production over May 1959, showed a total production of 1,548,459 units for the first five months of this year.

The GM output for May this year was 291,558. The GM compact Corvair made up 131,682 of this figure.

GM announced also that it has produced 48,339 trucks during May, as compared with 49,309 units in April.

Cooler Weather Due Saturday; Cloudy Friday

Cheer up! Saturday will be fair and just a little cooler, the weatherman says.

Today's rains will bring a drop in temperature tonight, with the low near 56. Friday is expected to be partly cloudy with a chance of rain during the afternoon or evening. The high will reach about 80.

Westerly winds at three miles an hour will become southerly during thundershowers, westerly late afternoon diminishing to light rain from 10 to 11 a.m. today.

Today's rains will bring a drop in temperature tonight, with the low near 56. Friday is expected to be partly cloudy with a chance of rain during the afternoon or evening. The high will reach about 80.

Kennedy Visits Gov. Williams, Woos Delegates

'Soapy' Eyes 2nd Spot, Asks Senator to Huddle With Him at Mackinac

MACKINAC ISLAND (U)—With hat in hand, Sen. John F. Kennedy dips briefly into Michigan today to court the state's 51 delegate votes to the Democratic National Convention.

Kennedy, pushing his drive for the White House, was to huddle for an hour or two on this fashionable resort island with Democratic Gov. G. Mennen Williams and other state party leaders.

At Williams' invitation, the Massachusetts senator squeezed the party between speaking engagements in Chicago and Denver amid growing speculation that the Michigan delegation might wind up in his corner.

Williams will go to the convention next month as a favorite son candidate for the presidential nomination but has set his sights on the vice presidential spot.

The 102-member delegation, seventh largest at the convention, is pledged to support him until he releases it.

The six-term governor said the talk with Kennedy at his official summer residence would focus on campaign issues and the platform to be adopted at the Los Angeles convention.

He told newsmen there would be no political "leak" made.

Sources close to Williams, however, indicated that Kennedy might substantially bolster his standing with the delegation if he can confirm his role as a strong "liberal."

Michigan Democrats have long insisted that only an outspoken liberal could carry the party to victory in November.

The governor will meet with the delegation June 18 to talk over issues and candidates.

Kennedy forces recalled that in 1956 it was Williams, who organized a coalition of states that swung behind Adlai E. Stevenson at a critical time, pushing him to his second presidential nomination.

"Like most folks, I've been in debt all my married life. Now I and my wife can take it easy," the prospect is a pleasing one, since both Mr. and Mrs. Carlson have worked extra hard to make ends meet. He's worked two jobs sometimes — in another factory or as a cab driver — and still works Saturdays — in an automotive garage. Mrs. Carlson baby sits for the neighborhood.

A Brighton woman, Mrs. Marion Trepte, 66, won \$140,000 in the sweepstakes. She is a University of Michigan purchasing department office worker.

General Motors, supported by a 37,513 increase in May passenger car production over May 1959, showed a total production of 1,548,459 units for the first five months of this year.

The GM output for May this year was 291,558. The GM compact Corvair made up 131,682 of this figure.

GM announced also that it has produced 48,339 trucks during May, as compared with 49,309 units in April.

May of 1959 saw 47,815 trucks roll off the GM truck assembly lines.

Pontiac's GMC Truck and Coach Division accounted for 9,812 vehicles built in May this year, compared with 9,239 for the same month last year.

The total production to date in 1960 of the division here is 51,863, compared with 39,857 for the same five-month period in 1959. American Motors said its Rambler output for May was 48,339.

'We'll Have to Rush to Get Major Airport'

Pontiac Municipal Airport should find can become Southeast Michigan's second major jet airport, Homer D. Hoskins, airport manager said yesterday.

But many steps must be taken—and fast—in order for this to be realized, he added.

Appearing before Oakland County's special committee analyzing this area's future air transportation needs, Hoskins made it unmistakably clear that the city's rapidly mushrooming field has the potential to become an airport like Detroit's Metropolitan Airport.

Time is of the utmost essence, he told Pontiac Mayor Philip E. Rowston's nine-member committee which appears today on the local field.

"We have to get busy on this, right quick," Hoskins said. "It must be clinched in the near future that this will be the field."

He said if the committee doesn't move fast enough, "sawing land values and more residential subdivisions will pretty much prevent making this dream come true."

He said continued expansion of the 450-acre field on M-39 in Waterford Township should be done on a city-county basis.

"We (the city) have carried the project since 1928, and have put a considerable amount of money into it. It has reached the point now where we have to have additional help if we are to expand."

"I think the county should enter into this," Hoskins asserted. "After all, the county benefits more than the city."

CALL METRO DEVELOPERS

Taking Hoskins' cue for speed, Rowston's committee of county supervisors and officials decided to enter in two men instrumental in amounts to the U.S.

(Continued on Page 2, Col. 3)

Rah for Class of 1898 — 5 PCH Alums Reunite

Some 310 years of memories yesterday were shared by five members of the Class of 1898 at Pontiac High School who were reunited on the campus of North Central Christian College.

Four of the five answered the invitation of a fellow classmate, Professor Howard L. Schug, to have luncheon with him in the college cafeteria to observe their 62nd reunion.

Schug, 78, teaches modern languages at NCCC.

Catching up on family happenings of over half a century were Mrs. Ross Stockwell, Mrs. W. H. Lehman, John Linshury and George J. Bird, all of whom still live in or near Pontiac.

They recalled the old high school building, torn down in 1915, in which students had to work on the top floor which housed the classes. They literally "looked down" on the lower classroom.

SOME HORSED AROUND

They also reminisced about the pranks pulled by some of the more daring members of their class, such as the boy who put a horse in the bell.

The class originally had 25 members, and those attending the reunion say four or five more still are living.

Mrs. Stockwell, 81, was married to a lawyer who later became judge of probate, a position he held until his death in 1928. A great-grandmother, Mrs. Stockwell, lives at 429 W. Huron St.

Mrs. Lehman, 85, is the widow of a Pontiac dentist, and a great-grandmother. She lives in an apartment at 30 Lincoln St.

Formerly prominent as an industrialist, Linshury, 81, was a family engineer for the General Motors Corp. He designed the Pontiac, Cadillac and Buick fountains.

Tells Committee Aides Urged Ike to Take Blame

Defends Alert Called From Paris as Nikita Sabotaged Talks

WASHINGTON (U)—Secretary of Defense Thomas S. Gates Jr. testified today that so far as he knows there was never any discussion of suspending a spy plane flights over Russia as the date for the Paris summit conference approached.

In a closed door session with the Senate Foreign Relations Committee, Gates also:

1. Related that top level administration officials unanimously felt that President Eisenhower should take responsibility for the spy flights after Soviet Premier Nikita Khrushchev made a great issue of the downing of a spy plane May 1 and torpedoed the summit meeting.

2. Defended spiritedly the military alert he issued from Paris as the summit session was collapsing. Gates argued it was proper prudent and "absolutely essential."

3. Disclosed the U2 flights over the Soviet Union had produced a wide range of "vital information," including location of missile and planes and submarine and atomic production.

While Gates testified in a secret session, a censored transcript of his testimony was given to newsmen. The committee is inquiring into U.S. policy in relation to the summit meeting.

There have been contentions from some critics of the administration that the spy flights should have been suspended, that Gates erred in issuing his alert at a time of tension in Paris, and that Eisenhower should never have accepted personally responsibility for the spy flights.

Chairman J. William Fulbright (D-Ark.) of the Senate committee has for one called it unprecedented for the head of a state to assume responsibility for spying activities.

APPROVED STAND

Gates related that a meeting of high officials May 9 approved a revision later called by the President which indicated U2 spying would continue.

The meeting in the office of Secretary of State Christian A. Herter was called after U.S. representatives first had said that a U2 plane downed in Russia was on a weather flight. Subsequently they had admitted its mission was reconnaissance but had denied that the flight was made under orders from Washington.

Gates said that beside Herter and himself, Deputy Secretary of Defense James H. Douglas, Undersecretary of State C. Douglas Dillon, Charles E. Bohlen, State Department Russian expert and others were present when the May 9 statement was drafted.

"Was the question of whether or not it was wise for the President to take responsibility discussed at that meeting?" Fulbright asked.

"Yes, sir," Gates replied.

Q — What was your position?

A — My position was that he should take responsibility.

Q — Was the meeting unanimous?

A — I believe it was.

Q — They all agreed?

A — Yes, sir.

Son of Local Doctor Gets Research Funds

The son of the Oakland County Tuberculosis Sanatorium's medical director has been named the recipient of two grants totaling more than \$25,000 for biological, teaching and research.

He is Dr. Thomas C. Cheng, 27, an assistant professor of biology at Lafayette College (Easton, Pa.).

His parents are Dr. and Mrs. James T. Cheng, 7277 Sanitarium Ct., Waterford Township.

One of the grants from the National Institute of Health of the U.S. Dept. of Health, Welfare and Education, provides \$15,851 over a four-year period. The second is an Atomic Energy Commission teaching grant of \$9,403 for the 1960-61 year.

Cheng, who joined the Lafayette faculty last fall, will use the research grant to continue a study entitled "Developmental and Enzyme Studies on Endo-parasitic Trematodes" which he started more than four years ago under a National Science Foundation grant.

Trematodes are "simple parasitic worms, some of which develop within their hosts in a matter of weeks and can be used to develop at an even faster rate when affected by various chemical and physical stimulants," he said.

Through experimentation, Cheng hopes to determine why one cell can develop differently from another. "This process, called cell differentiation, is of particular interest to all cell researchers, including those doing cancer research," he added.

He began to work on the project as an instructor at the University of Virginia in 1956. He continued his research during the 1958-59 year when he taught at the University of Maryland. He was awarded a Lafayette research grant for the study this year.

The AEC teaching grant will make possible the purchase of radioactive tracer and counting equipment to be used in the instruction of advanced students in nuclear technology.

WENT TO WAYNE. Cheng graduated from Greenbrier Military School (W. Va.) and earned a B.A. degree from Wayne State University in 1952. He holds M.S. and Ph.D. degrees from the University of Virginia.

He has written 35 articles, and a book entitled "The Biology of Animal Parasites," to be published shortly.

He has recently become a member of the Society of Protozoologists and a member of the editorial committee of the Pennsylvania Academy of Science. He is also a member of the American Society of Parasitologists and the American Society of Tropical Medicine and Hygiene.

From 1952 to 1954 he served in the U.S. Army doing research on parasite-caused tropical diseases. He resides with his wife Barbara, and two sons in Easton.

Average Driver Gets One Ticket Each 4 Years

DENVER (UPI)—You're not an average motorist if you've driven the past four years without getting a moving violation ticket.

But you're getting more than your share if you've had more than one parking ticket in the past three years.

These are statistics turned up in a study by the Rocky Mountain AAA Club.

The club's portrait of Mr. Average Motorist also says that he:

—Has one chance in 33 of being involved in a fatal accident during his lifetime.

—Has one chance in seven of being charged during his lifetime of driving while under the influence of alcohol.

—Gets a speeding ticket every 15 years.

—Drives 5,337 miles a year, including 1,400 miles on vacation.

—Has one accident involving a non-fatal injury during his lifetime.

—Has a negligent property damage accident costing over \$100 once in 10 years.

Saginaw Firm to Build Bay City Dock Facility

SAGINAW (UPI)—Wicks Corp. of Saginaw has announced plans for a new half-million-dollar shipbuilding facility to be constructed on a 10-acre site on the east bank of the Saginaw River in Bay City.

The facility will include a 720-foot dock capable of handling one large and one small ocean freighter.

Completion is scheduled for October. The site formerly was occupied by the Elby Shipbuilding Co. and two warehouses now stand on the property.

They Cried: Si, Si

AUSTIN, Tex. (UPI)—With a warning to three teenagers that they may be violating the good neighbor policy, County Judge Polk Shelton fined them \$31 each for slugging vending machines with Mexican 10 centavo pieces.

Discussions Continue Despite Summit Flop

Despite the uproar caused by the collapse of the summit meeting and its aftermath, it is reassuring to know that the United States and Russia are continuing to work together in so far as cooperation is possible.

Business as usual is seen in the resumption of East-West discussions on barring nuclear bomb tests. Cultural exchanges between the U.S. and Russia are being expanded to include physicians, physicists, actors and musicians. The return from East Germany of the American cargo plane with crew and passengers was effected without fanfare.

President Eisenhower again has urged an "open skies" plan, that is, a system of aerial reconnaissance and intelligence operated by the United Nations. He has offered American aid and equipment for such a project. This should appeal to all peoples.

Officials of Allied Powers and of small nations in the U.N. as well as political leaders of both parties, have urged getting on with important international business in a sober and rational manner. Secretary of State Herter emphasized this in his appearance before the Senate Foreign Relations Committee.

Premier Khrushchev overplayed his hand in the U2 incident. He failed to split the Allies and the U.N. Security Council flatly refused to brand the flight as aggressive or a threat to peace. The Soviet leader is in trouble at home, too, with the tough Stalinist element and China is showing more signs of independence, if not hostile action.

American foreign policy undoubtedly gained something through its recent trials and tribulations. Businesslike talks with the Soviet Union on international matters should not be cut off where there is prospect of common advantage.

Holiday Brings Hopes of Traffic Toll Decline

The Memorial Day local traffic toll came as a welcome relief to those concerned with Oakland County's residents and its safety record. It was the first encouraging sign since the new year opened with a double fatality on the Dixie Highway.

Today, Oakland County notched 44 automobile deaths in 1960, compared to 28 for the same period of 1959. It's a bad record, made worse by the fact that it reverses a trend toward less fatalities, which has become evident during the past several years.

But the long holiday weekend went unmarred. In addition, there weren't any drownings or boating mishaps on the traditional day for launching and opening the swimming season.

If area drivers exercise the same caution behind the wheel on the other holidays this summer, they may remain holidays, and not "horror-days."

How Many More Years Will We Be Reminded?

News dispatches turn up the report that Adolf Eichmann has been found. Where has this butcher been spending the last 15 years?

We wonder how many more years must pass before the world ceases to be reminded from time to time, of German inhumanity in World War II and the preceding years of the Hitler era.

Latest reminder comes from Israel

and tells of the arrest of Eichmann, charged with the murder of millions of Jews in German concentration camps. He was one of the chief executioners named by the German government to carry out extermination of Jewish men, women and children, it is said.

How Eichmann escaped arrest and trial when the Allies were rounding up and trying the monsters responsible for the many crimes is a mystery.

Another facet of this unusual story is how the Israel Security Service managed to land him in an Israeli jail. The drama will make a good story when the facts are released.

A traffic engineer says that among the most dangerous drivers are serious thinkers occupied with their thoughts. Maybe so, but equally dangerous and far more numerous are merry morons who breeze around in cars.

The Man About Town

1916 Centennial

It Observed 100th Year of Coming of White Man

Optimist: The gent who deposits his old-age pension check as down payment on an engagement ring.

A program of the Oakland County Centennial and Home Coming that was held in Pontiac in 1916 has been handed me by Paul E. Tarbell of 217 North Saginaw St. It covered one week, starting with Sunday, Aug. 20. Churches throughout the county opened the week's program with special centennial services on Sunday, the whole week honoring the first white men to come to Oakland County.

Monday was Women's Day, when the fair sex had the major part of the program, with a parade and other festivities. Tuesday was Fraternal, Merchants and Industrial Day, also with a parade. Wednesday was Oratorical Day, when local, state and national dispensers of eloquence and rhetoric were allowed to strut their stuff.

Thursday was Historical Day, with a pageant of townships and a parade. (P.S.: The present architect of this column had his car in that parade, but didn't win anything.)

Friday was Automobile Day, with another parade, in which horses and buggies were not allowed. Saturday was Sylvanage Day, when the street cars ran to Sylvan Lake for the big show.

A carnival in connection with the whole week's program had such attractions as a 769-pound woman, horse with human brain, ferris wheel, palace of illusions, wrestling, freaks, cow girls, etc.

Former Pontiac resident,

Dr. Arthur Pound of Ann Arbor, who lectured in Flint last week, displayed copies of 15 of the different books he has written beneath a sign which read:

"Books by the Pound."

Manager of a Drayton Plains baseball team of 12 years old,

Oliver (Skip) Briscoe, phones that they're changing their name from Tiger to Sox, and challenge Detroit to a game. "In fact," says Skip, "we might spot them a few runs."

Feeling that our exploding population has encroached considerably on

"America the Beautiful" since that song was written, George Wasserberger thinks we are not doing enough to preserve what makes it beautiful.

Mosquitoes seem to be scarce this spring but

Mrs. Grace Haviland of Drayton Plains asserts that they were late last year, but surely made up for lost time after they arrived.

Verbal Orchids to

Mr. and Mrs. Andrew Emery of Rochester; 52nd wedding anniversary.

Mrs. Beverly Heints of Drayton Plains; 83rd birthday.

Mrs. Abner Holloway of Waterford; 81st birthday.

Mrs. William McGregor of Clarkston; 86th birthday.

Mrs. Emma E. Cain of Flint; formerly of Lapeer; 96th birthday.

Welcome Interruption

David Lawrence Says:

NATO Obligated to Retaliate at Once

WASHINGTON—Maybe Marshal Malinovsky, the Soviet defense minister, hasn't read lately the text of the North Atlantic Treaty. For, if he carries out his recent threat, it could mean a state of World War III. Malinovsky has stated publicly that if any plane—even an unarmed one—happened to stray across the Soviet border, the plane would be shot down, but the base in any country from which the plane had flown would also be destroyed by rockets.

Under the terms of the North Atlantic Treaty, the United States is obligated to regard any attack on a member country—and there are 15 countries in all—as an attack on the territory of the United States itself. Instant action can be taken without the necessity of a war resolution by Congress.

By announcing that if any plane that might be military should fly over the territory of the Soviet Union or its allies it will be shot down, and that the base in a foreign country from which the plane took off will be attacked, the Soviet Union stands before the world as a menace to international peace.

As the chief warmonger of the Communist bloc, What seems puzzling is the attitude of the Western powers since Marshal Malinovsky made his public threat. It would appear that all diplomatic notice should be taken of the statement and an explanation demanded of Moscow.

For certainly the Western powers are entitled to know what measures the Soviets will take to determine whether a plane has, for instance, lost its way due to weather conditions.

It is difficult for the Western nations to maintain normal diplomatic relations with a government that has issued this kind of threat. The exact words of the Soviet defense minister should be officially recorded.

For the news dispatches quote Malinovsky as saying that he has ordered his rocket forces to strike at any base from which a plane might violate the frontiers of the Soviet Union or its allies, and he says this is justified because a plane crossing such frontiers "might be armed with a hydrogen bomb."

To order an attack on such a flimsy basis is either a piece of bluffing for the purpose of scaring the West, or else it truly reflects the current mood of recklessness of the Soviet government. Certainly all this is a far cry from the "peaceful coexistence" talk emanating in recent years from the Kremlin.

The professor of therapeutics in Columbia University made this amazing statement in his textbook:

"Therapeutically, digitals enable the damaged heart to do more work with the same expenditure of energy."

To the best of my recollection, doing more work without expending more energy is a poser for a physicist—at any rate none has enlightened me about it.

Many poor souls who have been persuaded to believe a daily dose of digitals is necessary for "weak hearts" discover not only that they don't need digitals to stay alive but also that they regain a good deal of their former well-being when they switch from digitals to a real heart tonic—vitamin B complex.

And the richest source of vitamin B complex is plain wheat, particularly the wheat germ. Incidentally, plain wheat germ is the richest source of vitamin E also. Antioxidants in the germ give considerable protection to vitamin E against destruction by rancid fats during digestion.

It is difficult to understand why wheat germ (or certainly plain vitamin E) should ever be given in preference to whole wheat germ (say Bicknell and Prescott in their book "The Vitamins in Medicine"). It is the only food cannot contain anything not present in the parent germ and equal

ly certain that much of value may be lost."

It is quite as certain, say I (Brady), that the germ cannot contain anything not present in whole wheat flour, is milled.

While (if) you are thinking about it, send me a stamped, self-addressed envelope for my free pamphlet "What to Eat, Write me in care of The Pontiac Press at 265 E. Capitol, Beverly Hills, Calif."

Personal letters not more than one page or 100 words long, pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if it is a health tonic.

The two best heart tonics, I believe, are graduated exercise and good nutrition. Doctors with the digitals obsession generally give patients little real heart tonics.

More than ever the new threat emphasizes the importance of the North Atlantic Treaty Organization. Oddly enough, efforts to weaken this organization and to render Britain defenseless have emerged in London as various speeches from "left wingers" sound the same as if they had been written in Moscow.

There have been other suggestions that NATO exercise some kind of veto over the use by America of her nuclear weapons in an emergency.

Prime Minister Harold Macmillan scoffed at suggestions, for instance, that nuclear weapons be turned over to NATO.

He said this would place the "deterrent" in the hands of 15 nations, and perhaps weaken it by use for immediate counterattack. He said to the House of Commons on Monday:

"There might be one finger on the trigger, but there would be 15 fingers on the safety catch."

(Copyright 1960)

Dr. William Brady Says:

Exercise and Nutrition Are Best Heart Tonics

A tonic is a remedy which restores enfeebled function. It is not necessarily medicinal. Indeed, as a therapeutic skeptic, I question whether any medicine can be considered tonic.

For example, many physicians regard digitals and prescribe it as a heart tonic.

Oh, there are good heart tonics, but they are not digitals. They are good or should be used by every physician who treats heart disease, but digitals is not one of them.

The two best heart tonics, I believe, are graduated exercise and good nutrition. Doctors with the digitals obsession generally give patients little real heart tonics.

The herb foxglove (digitals) was introduced to medicine in 1775, by Dr. Wm. Withering, who obtained his knowledge of the drug from an old woman of Shropshire. It was introduced as a remedy for dropsy. In the course of the next century came to regard it as a heart tonic.

By Dr. George W. Crane
CASE E-476: Oscar L. age 11, was riding his bicycle around the village where we lived, accompanied by two pals.

They spied an apple tree in the back yard of a certain home. Parked in the back yard, they all climbed the tree and shook many of the apples.

The brave housewife pushed out and captured Oscar's bike, though he and his two companions, DR. CRANE got away. She then held the bicycle as a hostage.

Oscar didn't show up at the evening meal, so his father started searching for him. Ultimately, he found the bicycle and was told by the housewife she had captured it.

When Oscar was finally found, scared and hiding, his father gave him a tongue lashing. He then told him that he had to go to bed.

POOR PSYCHOLOGY
Oscar was scared almost to death. His face was as white as a sheet. Tears were ready to brim over.

His father sternly marched him into the house and upstairs. He made Oscar pack his suitcase for

Voice of the People

'Here Is One Democrat Who Will Get My Support'

I know who I will vote for governor and it is Edward Connor the Detroit councilman who changed his vote on the income tax. He is the only Democrat I ever heard of that changed to vote against more income taxes and so he will be the best candidate.

Tax Poor

'We Must Recognize Emotional Illness'

Now that we, the general public, are becoming so well informed as to the types of psychiatric patients who are admitted to Pontiac General Hospital, could we please have a list of types who are admitted?

Also, are we not fooling ourselves a little by refusing to admit to the fact that there are not curable within a 30 day period? Well informed people should understand that this type of medical treatment is long and slow. I feel that there are many patients who sometimes fall in a category between an out-patient visitor and institutional care patient, and the patients can best be cared for in a general hospital.

When we are going to really recognize that a very large number of illnesses are of emotional nature? Does it not seem reasonable that many patients would re-

cover faster if surrounded by normal people? We have modern drugs. Do we have modern Nurse-Housewife

'Second Division, Here We Come'

Last year Dykes established an all time record for the poorest use of pinch hitters with the lowest percentage in all baseball history. He hasn't learned a thing and he just jerked a man batting .280 to send one that hits a power ball. Second division, the Tigers will soon be with you.

Little Leamy

'That Would Mean Roaring Socialism'

If Kennedy is elected and names Adlai Stevenson as his secretary of state and that juvenile Jimmy Roosevelt as his attorney general, we'll have a vigorous socialism such as this nation has never known before. Every voter should be on guard against this movement.

J. and J.

'World Situation Requires Older Man'

With the international situation as tense as it is, Kennedy is no man for President with his lack of experience and his youth. We really need someone like Henry Cabot Lodge who would make a better President than anyone mentioned so far.

D. C. Bolkworthy

Portraits

By JOHN C. METCALFE

Oh, when you walk upon these grounds... Step very lightly as you go... Let us disturb the ghosts of dreams... Of whom you may not know... Once youthful laughter often fell... Beneath these ancient oaks... And earnest little smooth brown arms... Cared the twilight breeze... Though all these gentle joys are now... A legend from a long ago look over the memory of them lingers still... Where now these flowers grow... So when you walk upon these grounds... Step very lightly as you go... Let us disturb the ghosts of dreams... Of whom you may not know.

Copyright, 1960

The Almanac

By United Press International

Today is Thursday, June 2, the 154th day of the year, with 212 more in 1960. The moon is in its first quarter. The morning stars are Mars, Jupiter and Saturn.

On this day in history: In 1862, Robert E. Lee took over command of the Confederate armies of Eastern Virginia and North Carolina.

In 1924, Congress conferred citizenship on all American Indians. In 1946, the Italian people voted to abolish the monarchy.

In 1953, Queen Elizabeth II, 27 years old, was crowned at Westminster Abbey in London by the Archbishop of Canterbury.

Thought for today: English poet and novelist Thomas Hardy said, "In 'Spirit Smiler.' My argument is that war makes rattling good history; but peace is poor reading."

THOUGHTS FOR TODAY
And we are witnesses to these things, and so is the Holy Spirit within God has given to those who obey him. Acts 1:32.

Perfect conformity to the will of God is the sovereign and complete liberty. — Jean Henri D'Aubigne.

Case Records of a Psychologist:

Parents Should Limit Punishment

Oscar's case shows serious conflict between father and son. How would you have handled the matter? Many parents would have been guilty of ignoring such childish pranks, which is even worse in its ultimate effect than being overly stern. But it is far better to be correct and just. If you wish to be a good father to your children measure yourself by the "Parents Test" offered below.

By Dr. George W. Crane
CASE E-476: Oscar L. age 11, was riding his bicycle around the village where we lived, accompanied by two pals.

They spied an apple tree in the back yard of a certain home. Parked in the back yard, they all climbed the tree and shook many of the apples.

The brave housewife pushed out and captured Oscar's bike, though he and his two companions, DR. CRANE got away. She then held the bicycle as a hostage.

Oscar didn't show up at the evening meal, so his father started searching for him. Ultimately, he found the bicycle and was told by the housewife she had captured it.

When Oscar was finally found, scared and hiding, his father gave him a tongue lashing. He then told him that he had to go to bed.

POOR PSYCHOLOGY
Oscar was scared almost to death. His face was as white as a sheet. Tears were ready to brim over.

His father sternly marched him into the house and upstairs. He made Oscar pack his suitcase for

their trip to the jail at the county seat a dozen miles away.

His father told Oscar to kiss his mother goodbye and bid farewell to his brothers and sisters.

It was a terrifying event to Oscar, who had never been away from home, even to visit relatives, let alone a fearsome jail.

Then Oscar and his father got into the car. They drove a few miles into the country. The father finally stopped the car, and ordered Oscar to bring him a switch.

Then the father switched Oscar thoroughly, but told him he had changed his mind about the jail and would take him back home, instead.

TWO MUCH PUNISHMENT
After they reached home, the father made Oscar go to the wayward room from where he had taken the apples. Oscar had to apologize and pay \$1.00 out of his bank. But the woman graciously refused the money.

Oscar was then forbidden to leave the home yard or ride his bicycle except after his father returned home at night and gave him express permission.

I mention this case because punishment of children should be a fair and corrective procedure.

Oscar did a wrong. In our courts of law, certain fixed punishments are set for crimes of various degrees. But after the punishment is administered by the state, the victim is then a free man and is legally supposed to have acquitted himself.

LEGAL FAIRNESS
If Oscar had been forced to pay the \$1.00 for the apples, that would have been sufficient punishment, beyond possibly a parental verbal correction.

If he was whipped with the

switch, that should have squared accounts. Or the trip to jail should have been sufficient. Or the canceling of his play privileges and the chance to ride his bike.

But it isn't fair to impose all four of these punishments on the child. His father has overdone the matter, and especially so in

regard to the undue frightening of the boy with the threat of jail.

In case of doubt, perhaps it was better to punish the child and then ignore such naughtiness altogether, but it is still better to be right and just.

So send for my 200-page "TESTS FOR PARENTS," enclosing a stamped return envelope, plus 20c, and learn how to be a better parent.

Army Accepting Enlistments

Local Reserve Training Center Has Unlimited Quota to Fill

The Pontiac Army Reserve Training Center, 40 Walnut St., has announced it is accepting applicants to fill an "unlimited quota" of six-month active duty reserve enlistments now available.

Sixth Army Headquarters, Fort Benjamin Harrison, Ind., recently announced unlimited enlistments were available.

Applicants may sign up for military service through this plan and perform only six months active duty and then go into the active reserve for the remaining 2 1/2 years at their local reserve unit.

There are openings in the Artillery, Infantry, and Adjutant General's Corps branches of service. Reservists who satisfactorily fulfill their military obligations are draft deferred.

High school seniors who plan to go to college may sign up and finish their six-months active duty in time to enroll in school next January.

Full information can be obtained from Capt. Claude H. Reed, commanding officer of the Pontiac Army Reserve.

Nationalization of Press Is Sure Sign

Nasser Moves Pushing State Control

CARO (UPI)—President Gamal Abdel Nasser's nationalization of the major Egyptian newspapers last week is another sign that his United Arab Republic is moving toward increasing state control of all activities.

Nasser's avowed aim is a "socialist, democratic, cooperative society." Western diplomats have concluded that that means increasing state control of the economy but not—at least not in the foreseeable future—democracy in any Western sense. They believe everything will be subordinated to the nation's economic development.

Nasser will choose the U.A.R.'s first national assembly this summer, but it will hardly be a parliament in the Western sense. It is not expected to mean any loosening of his own control.

The nationalization of the major Egyptian newspapers on May 24 came as a surprise to the

newspapers themselves. The government has, in fact, guided their editorial policy for several years.

What Nasser did was to transfer ownership of 33 of the Arab world's most widely read newspapers and periodicals, lock, stock and barrel to the National Union, the nation's single political organization.

His decree specified that journalists must obtain working permits from the Union and that it should license all newspapers.

Only a handful of newspapers, mostly foreign language publications, were left in private hands.

The official explanation was that the press, the "means of guidance," left in private hands might threaten the structure of Nasser's "socialist, democratic, cooperative society." It added that only the "people's ownership of the fundamental means of guidance" could guarantee "real freedom of the press."

The National Union is the organization intended to take the place of political parties, which have been banned here since the 1952 revolution.

Last July, nationwide elections—in which every candidate had official clearance—selected National Union local councils. These, in turn, selected regional councils. Meeting together, the regional councils for Egypt and Syria will be the National Union General Congress.

Nasser will select the members of the national assembly

As for economy, Nasser nationalized the National Bank and the Misr Bank, which owns a system of important companies, earlier this year. Five Cairo bus lines were nationalized at the same time as the newspapers.

The most important factor in the economy is the government Economic Development Organization, which controls 75 key companies.

Population Growth Stands Out

Scouts Point to Oakland

By JOE HAAS
WASHINGTON, D. C. — The population explosion in the Pontiac area finds its way into the Golden Jubilee convention of the Boy Scouts of America, which opened here today.

Always pointed out as a rather unique example of a diversified clientele, the area included in our Clinton Valley Council shows such a population growth in the 1960 census that attention is on a national scale is now greatly ascertained.

It comprises most of the area of the counties of Oakland and Macomb, including the cities of Pontiac and Mount Clemens. It was in these two counties that the greatest gains in population were made.

Among the 550 councils represented here, covering all of the 50 states and our territories, there is none other where city, suburban and rural boys are so intermingled, or so contiguous to a large city.

With a realization of the fact that the minds and habits of boys are governed largely by their surroundings, the Clinton Valley leaders often are asked how they manage to have scouting on such a high level, with such a cosmopolitan source. The answer usually is, "We grew up with it."

The 2,000 delegates here are mostly men past middle age. A great proportion of them have been connected with scouting most of their lives. They lay the plans for carrying on the work during the coming year.

Most of them are holders of the coveted Silver Beaver award, the highest scout honor that can be granted on a local basis. It is given only for long and outstanding service in boy scout work.

Over the years, Clinton Valley Council has granted the Silver Beaver to 67 men. This is a much larger number than the average among councils over the entire nation.

The delegates here represent the three million youth in the U.S.A., the largest youth organization in existence. When the groupings actively engaged in the work are included, the number comes close to five millions.

The 12,000 scouts and those in charge of them in Clinton Valley Council also exceeds the average of the 562 councils in the nation.

Everywhere today in Washington is displayed evidence of the fulfillment of the Boy Scout Oath: "On my honor I will do my best to do my duty to God and my country, and to obey the Scout Law; to help other people at all times, to keep myself physically

Strong, mentally awake and morally straight."

This being the golden jubilee of scouting, the delegates seem to be "consulting the dozen elements of the Scout Law: trustworthiness, loyal, helpful, friendly, kind, courteous, obedient, cheerful, thrifty, brave, clean and reverent."

Formerly scoutmasters were mostly recruited from the ranks of men who had little else to do. This often was not satisfactory. They sometimes were men to whom the boys did not take a liking.

Then a few years ago Clinton Valley Council decided to get the

busiest man in the community to take the job. When he was made aware of the good he might accomplish, he would assume the position, find time to perform its duties, and almost invariably make a success of it, usually saying that he received as much benefit from the work as did any of the boys.

The biggest 1960 scouting event in the world will be the fifth National Jamboree at the Johnson Ranch near Colorado Springs, Colo., July 22 to 28. Over 50,000 scouts will attend, including 92 from our Clinton Valley Council, which also sends six leaders and six other men.

With its new Cobo Hall expected to be completed at that time, Detroit will have an assembly place large enough to accommodate the 1961 National Scout Convention. That city is making a bid for it if the new building can be made ready by next June.

No Palace There

AUSTIN, Tex. (UPI) — Aurelio G. Martinez, 29, thought he was safe from a police chase when he reached his home. But the door was locked and patrolmen arrested him on the doorstep for drunk driving. He paid a \$100 fine.

Ike Stand Criticized by Eaton in Prague

MOSCOW (AP)—American multimillionaire Cyrus Eaton was quoted today as saying he thought President Eisenhower's position at the abortive Paris summit conference was "absolutely wrong."

Eaton, now touring Communist countries in Eastern Europe, was interviewed in Prague by a correspondent of Moscow's Literary Gazette.

State Traffic Drive Gains but Still Trails '59 Mark

EAST LANSING (AP) — Michigan gained ground last month in the drive to get back on the traffic safety improvement track but after five months of 1960 still trailed the pace of the early 1959 record.

Highway accidents killed 97 persons in May, compared with 126 in the same month last year. The total is still subject to increase by delayed fatality reports.

May deaths showed the total for the year as of June 1 up to 515. In the same period of 1959, the total was 448, or 27 fewer.

State police observed that the downward trend of April and May, reversing a bad first three months, came in the face of an increase in travel.

"We are hopeful and encouraged," said Commissioner Joseph A. Childs.

The May total was swelled by 17 fatalities over the 78-hour Memorial Day weekend. The total was up slightly from the last comparable Memorial Day weekend in 1958, when 13 died.

Charleston, Ill., Paper Purchased by Rivol

CHARLESTON, Ill. (UPI) — The evening Charleston Daily Courier Wednesday purchased the morning Charleston Daily News. No price was announced.

The evening Courier began printing under the banner Courier-News. The purchasing newspaper is owned and published by Benjamin Weir.

The Daily News was founded in 1892 by James K. Rardin whose grandson John B. Rardin, published the newspaper since 1952.

The Courier was founded in 1890. The paper will continue to publish six afternoons a week.

Three-fourths of the world's total population lives on only about one-eighth of the earth's land surface.

Ignores AFL-CIO Policy

Textile Union Endorses Kennedy in Unusual Act

CHICAGO (AP) — The Textile Workers Union of America, in a move unprecedented in labor circles in recent years, has called upon Democratic National Convention delegates to nominate Sen. John F. Kennedy of Massachusetts for president.

In backing Kennedy as a "down to earth, yet far-seeing liberal who can give our nation the dedicated leadership these critical times demand," the union ignored AFL-CIO policy forbidding endorsing any candidate before he is nominated.

The union claims a membership of 220,000 workers, mostly in New England, the mid-Atlantic states and the South.

By a standing vote estimated

at about 8 to 1, the 1,200 convention delegates endorsed Kennedy's candidacy after William Pollock, union president, said he was not willing "to trust either political party" to make a decision on selecting the candidate most desirable to his union.

"Jack Kennedy is the man we want," he said.

The union took the action shortly after Sen. Hubert H. Humphrey of Minnesota who has withdrawn from the Democratic presidential race, said in a convention speech that Adlai E. Stevenson is "the greatest intellectual political leader and one of the great spokesmen for democracy throughout the world."

AP Photo: PACIFIC COMMANDER—Vice Adm. John H. Sides will become commander in chief of the Pacific Fleet Sept. 1. The White House announced Wednesday. Sides will succeed Adm. Herbert Hopwood who is retiring.

No Bugs in 'Flying Beetle'

Jet Takes Off Like Copter

LONDON (UPI)—A jet plane that takes off like a helicopter and then flies as a normal aircraft flew successfully Tuesday.

The aircraft, the SC1 and nicknamed the "Flying Beetle," was described today in the press as a pioneer development.

The plane went through its test at Bedford. With a shattering roar it lifted vertically from a square metal launching platform.

In four seconds it rose to about 40 feet, then, surged forward, accelerating to 100 m.p.h. Finally it stopped dead, then settled back, helicopter fashion.

Test pilot Tom Brooke-Smith said of the flight: "Nothing to it."

The plane is lifted vertically by four jet engines pointed downward.

40 Sheriffs in State Top 15 Years' Service

LANSING (UPI)—Michigan has 40 sheriffs with more than 15 years of experience in law enforcement, the Michigan Sheriffs' Assn. said in its annual report.

Seven sheriffs have more than 30 years of experience, and 22 have between 20 and 30 years experience.

Harley Eusign of Macomb County and Fred Power of Ogemaw, each with 37 years in enforcement work, topped the list.

'Guided Democracy' Tottering Boiling Indonesia May Put Sukarno in a Stew

JAKARTA (UPI) — Political opposition, normally considered simmering pot in most democratic countries, today is approaching the stage of a seething caldron in Indonesia.

Despite President Sukarno's "guided democracy" efforts, the country's domestic turmoil may well result in the formation of Indonesia's third parliament in less than a year, accompanied by a concerted crackdown on mushrooming Communist interests.

Early in March when Sukarno fired an elective parliament in a move to "stabilize the political situation," party leaders protested long and loud.

Even stronger complaints were heard less than a month later when Sukarno named his own handpicked parliament.

During the month and half since, parties have fought among their own ranks over the advisability of joining the infant Democratic League, which opposes an appointive parliament.

Strong indications point to behind the scenes army support of the league.

But the army cannot be termed anti-Sukarno. Army Chief of Staff Gen. A. H. Nasution and his forces appear to be as pro-Sukarno as any group in the country.

Most observers feel the league is being used as a Communist baiter by the army, and will, in the near future, be used in an all-out assault on Indonesia's Indonesians.

'Loud' Senator Won't Be Back

Poor Health Prevents
Sen. Andrews' Running
for Re-Election

LANSING (U-P) — Sen. Frank Andrews of Hillman, the man they call "the voice" in the State Senate, disclosed Wednesday that he is closing out a 12-year career in the Legislature.

Andrews, 65, had filed for reelection to a seventh term in the Senate but said poor health forced him to withdraw his name from consideration.

The Republican lawmaker said he had recently suffered a stroke, the second in a little more than a year.

"I find myself physically unable to perform properly as a candidate for re-election," he said in a letter to the State Elections Bureau.

Andrews was hospitalized for some time following the first stroke last year and was absent for most of the marathon 1959 legislative session.

State Elections Director Robert M. Montgomery said no one has filed so far to oppose Andrews in the Republican primary election. A. M. Schneider of Indian River has filed as a Democratic candidate, he said.

The 29th district, which Andrews has represented since 1949, covers Alpena, Charlevoix, Cheboygan, Emmet, Montmorency, Otsego and Presque Isle counties.

Andrews' powerful voice enabled him to open debate without use of a microphone. His booming "Mr. Chairman, I move we now adjourn" traditionally closed sessions of the upper chamber.

He is chairman of the Senate Municipalities Committee.

Supermarkets Really Impress Japanese Star

HONOLULU (AP) — Japanese film star Machiko Kyo, who is shopping here on her way home from the Cannes Film Festival, says she thinks supermarkets are the most impressive sight in America.

"Most enjoyable was my visit in the United States, especially in Los Angeles where I observed American family life," she said.

"I went to supermarkets to buy things. In fact I felt like buying everything."

"Ragi," a film in which she appeared, won an award at the French festival.

'Desert Song' Star, 72, Dies After Long Illness

HOLLYWOOD (AP) — Daisy DeLoretta, a top stage star in the days when "The Desert Song" was new, is dead, at 72, after a long illness.

For 30 years she played prominent roles in Philadelphia, Chicago and on Broadway, where she starred opposite the late Henry Armetta in "The Desert Song" and "No, No, Nanette."

She retired 20 years ago, and has been living quietly in suburban San Gabriel under her real name, Daisy Lucilla Hall. She died there Tuesday. She was the widow of William (Doc) Hall, also a well-known actor.

Drop Riot Charges Against 62 Students

SAN FRANCISCO (AP) — Municipal Court Judge Albert A. Axelrod Wednesday dismissed riot charges against 62 students arrested in demonstrations against a House Un-American Activities subcommittee hearing.

The students, he said, were merely attempting to protest what they believed to be an undemocratic hearing.

He said police reports would have justified conviction on riot charges of participating in a riot and disturbing the peace May 13. The judge declared he did not want a permanent black mark placed on the young people's records.

"I am convinced they were not engaged in subversive activity," he said.

Roll Out the Barrel

LAWRENCEBURG, Ind. (U-P) — Whiskey drinkers are causing residents of one Lawrenceburg neighborhood to lose sleep. It seems citizens are being kept awake by workmen rolling empty whiskey barrels into a local coverage factory.

Group to Protest Polaris Missiles; Opens Offices

NEW LONDON, Conn. (UPI) — A three-month protest against Polaris missile firing submarines opened here Wednesday with establishment of the headquarters for the Committee for Nonviolent Action (CNA).

The organization was on record as opposing the Polaris program because it "increases chances of war through mechanical or psychological accident."

Bradford Lytle, secretary of the CNA, said the New London-Groton area was selected because it houses the home base of the U.S. Atlantic Fleet submarine force, the Coast Guard Academy and the electric boat division of General Dynamics Corp., leading manufacturer of atomic-powered submarines.

The CNA said its activities during the three-month protest would include rallies in all cities from Boston to New York and "peace walks" in those areas. One of these "peace walks" will be held June 10 from New York City 125 miles to here. It has been labeled the "Polaris Walk."

Took the City of Chicago to Solve It

Tommy Had a Deep Problem

CHICAGO (AP) — You could hardly buy the services involved in rescuing Tommy from his predicament.

Maybe Julius Pekofsky couldn't have bought those services; maybe he wouldn't.

Tommy couldn't have bought his way out of his trouble; it looked like he didn't want to get out of it, anyway.

But Tommy the Horse, whether he enjoyed his fling into the public's eye or not, is once more a member of the diminishing horsey set that pulls a fruit and vegetable cart.

Tommy's troubles started Monday when he fell down a stairway (or walked down) or fell through rotted boards into an unused, empty wine cellar. The first floor now is used as a stable.

Pekofsky, his owner, found him Tuesday, and when his own efforts to free Tommy failed, he called the anti-cruelty society for help.

J. J. Shaffer, managing director of the society, looked over the situation and decided Tommy might be enticed out of the cellar with hay and other horse goodies. None worked.

CALLED IN ENGINEERS
So engineers were called; they looked over the problem and decided to call:

Four pieces of fire department equipment; several police and squad cars; several civil defense rescue unit trucks; an assortment of construction crew men; a tow truck, a winch, block and tackle unit.

Tommy spent most of Tuesday

and Wednesday placidly munching hay and drinking water.

A tarpaulin was stretched around his midsection and attached to a hoist; it slipped and, anyway, Tommy refused to cooperate. Tommy remained in the cellar.

Workers covered Tommy with an asbestos blanket and others widened the opening above him.

When the groundside workers encountered metal and concrete, acetylene torches and pneumatic drills were used to enlarge the opening.

With the opening above Tommy now enlarged, a civil defense truck pulled up. From its rear a winch dropped a block and tackle above Tommy; a sling was stretched around Tommy's midsection again.

Slowly, inch by inch he was hoisted out of the cellar. When he emerged, a cheer went up from the assembled workers and onlookers.

His cuts and bruises were treated by a veterinarian.

Said Pekofsky: "I'll give him a few days rest, but I can't pull the cart by myself, so he'll go back to work soon."

Plumbers 'Stay Home' to Push Pay Demands

By The Associated Press
About 370 union plumbers and steamfitters scattered over Michigan planned to stay away from work today in support of wage demands.

About 280 workers in Kalamazoo, Allegan, Van Buren, Barry and St. Joseph counties didn't work Wednesday in support of demands of a 25-cent an hour wage increase.

The old contract, with a wage rate of \$1.85 an hour, expired Tuesday midnight.

Contractors in Southwestern Michigan offered 10 cents an hour.

Youth in Brooklyn Brutally Shot Down

NEW YORK (AP) — An execution squad drove a 17-year-old youth to the flatlands section of Brooklyn today and pumped bullets into him as he lay on his back in a street screaming, "Please don't shoot me."

The victim, tentatively identified as James Graffeo, was dead by the time an ambulance arrived. He had been shot numerous times in the head and body.

Residents near the murder scene told police they heard screams from an auto which stopped there at 1:45 a.m.

Two men dragged the victim from the car, beat him and knocked him down. "Please let me alone," he pleaded.

Another man jumped from a second car. He pulled a gun and fired several shots into the youth as he lay on the ground.

One of the men from the first car then fired several more shots into the victim. Two other men remained in the car.

Police could not determine the motive for the shooting. They set up roadblocks in the area in an effort to catch the killers.

Long-Distance Phone Wedding Judged Legal

RICHMOND, Va. (AP) — Attorney General Albert Harrison says a marriage by long distance telephone apparently is legal even when the bride and groom are separated by the Atlantic Ocean.

His opinion was given to Del Garnett Moore of Pulaski who asked in behalf of an airman whose marriage to a French girl by telephone was ruled illegal by the Air Force.

Harrison found no statutory requirement that the bride and groom be in the presence of each other.

Observation floors on the 80th great throngs of visitors, estimated at one million persons during a State building normally attract year.

Election Probe Bites Deep Into Ex-Rulers

Trouble Hangs Over South Korea's Huh

SEOUL, South Korea (AP)—The specter of counterrevolution haunts the new government of South Korea.

So far there is no actual evidence of an organized plot to overthrow Acting President Huh Chung.

But there are strange stirrings. They probably were partly responsible for ex-President Syngman Rhee's sudden flight to Honolulu Sunday.

In the talk of antirevolution and counterrevolution, elements most commonly mentioned are: Rhee's Premier Lee Bum Suk's fascist-like "Blue Shirt" movement, now resurgent and renamed the National Independence League; a new reputedly leftist group, the Young Guardians of the Republic; some wealthy conservatives and perhaps some military figures.

The key to the situation is the provisional government's investigation into the rigging of the March—15 presidential election which triggered the April students' revolt that toppled Rhee.

JAILED 34 So far the investigation has jailed nine members of Rhee's last 11-man cabinet, minister from a previous cabinet, two former presidents of the Korean Reconstruction Bank, one Bank of Korea governor and a vice governor, two former national police directors, the chief of the presidential palace police, the 13 members of the election planning committee, two former provincial governors, a former mayor of Seoul and Rhee's personal bodyguard.

The probe also prompted the resignation of Lt. Gen. Song Yo-chan, the army chief of staff, who took responsibility for the army's part in the fraudulent voting. Two other top military commanders also have resigned.

2nd Try Looms for Detroit Tax

Councilman Who Voted Against Other Plan Has Own Approach

DETROIT (AP)—City Councilman William T. Patrick Jr., who twice voted against Detroit's proposed city income tax, says he will introduce a new income tax ordinance Tuesday.

Patrick said he was not against the tax—merely against the manner in which the Common Council sought to enact it.

A proposed 1 per cent levy on the earnings of all who work or live in Detroit was vetoed by Mayor Louis Miriam Tuesday and the council failed to muster the six votes needed to override the veto.

Patrick, Mrs. Blanche Wise and Edward Conrad voted against overriding Miriam's veto.

Patrick said a new plan will be worked out this week and offered at the next meeting Tuesday.

Meanwhile, Willis H. Hall, general manager of the Greater Detroit Board of Commerce, suggested to the council a Wayne County payroll tax plan.

He estimated the 1 per cent levy on all payrolls in the county would bring in 45 million dollars.

Under the plan suggested by Hall, the total operation and financial responsibility for welfare, health and hospitalization for all Wayne County residents would be transferred to the county.

A-Device Hits Right at Cancer

CHICAGO (UPI)—An atomic cancer-fighting facility, capable of destroying cancerous growths, Wednesday was put into clinical use at the University of Chicago.

The new 25-ton facility, called a microwave linear accelerator, produces an invisible pencil-thin beam of electrons traveling near the speed of light which can impinge or destroy the growth of cancer cells.

The facility is part of the U.S. Atomic Energy Commission's "Atoms for Peace" program and was built at a cost of \$500,000.

Dr. Lowell T. Coggeshall, vice president in charge of medical development and dean of the division of biological sciences of the university, described the device as "one of the most powerful weapons in the fight against cancer."

"For the first time, medicine has a high energy particle instrument that can both guide and locate the beam over the cancer treatment area," Coggeshall said, "rather than showering the area with radiation."

Taste and Smell Valued at \$5,630 by British Judge

DURHAM, England (AP)—Judge Edmund Davies Wednesday valued the senses of taste and smell at 2,011 pounds—\$5,630.

He awarded that amount of damages to Helen Dawson, 25, who claimed that she couldn't smell and that her sense of taste was seriously impaired as a result of a skull fracture she suffered when her car and a truck collided.

Miss Dawson's lawyer told the judge she couldn't smell flowers or fry fish and had given up Brussels sprouts because she couldn't taste them.

The judge commented: "I cannot bring myself to be greatly moved by the loss of her capacity to taste and appreciate Brussels sprouts, which has always seemed to me to be a faculty of doubtful value. I do not consider that one of life's major deprivations."

Appraisers Society Meets 6:30 Tonight

Oakland County Chapter 141 of the Society of Residential Appraisers will hold its last regular meeting of the season tonight at 6:30.

The meeting will be at Devon Gables and will include dinner and a demonstration appraisal by G. Gordon Walker, a member of the chapter.

There will be no further meetings until fall. Ted Koella is chairman of the dinner meeting.

Set Fluoride Treatment for Waterford Children

Plans are being made to treat approximately 1,000 Waterford Township school children in the summer topical fluoride program at Schoolcraft School according to coordinator Mrs. John Hoke.

MSU Mounts Drive to Aid Jailed Negroes

EAST LANSING (U)—A drive was underway today at the Michigan State University campus to aid southern Negro students jailed or expelled from school for demonstrating against stores which practice segregation.

Varied campus and religious groups pledge support of the fund-raising campaign organized by a committee set up by MSU student government.

Similar campaigns have been announced at the University of Michigan and the University of Wisconsin, sponsors said. Parent coordinating group is the United Negro College Fund.

Bob Eggers, Donora, Pa., senior and chairman of the drive, said aid would take the form of scholarship funds and financial help for legal assistance.

One of the committee members was Ernest Green, first Negro to graduate from Little Rock's Central High School after the integration troubles there. Green enrolled at MSU in September 1958.

Monty Backs Red Chinese

He'd Give 'Em Chiang's Formula but a Grab for Hong Kong Means War

LONDON (AP)—Field Marshal Viscount Montgomery came home from Red China Tuesday night advocating that the Communists be given Formosa, but his sympathy for Peking's aspirations did not extend to Hong Kong.

"Hong Kong is part of the British Empire," declared the 72-year-old military hero. "If anyone tried to pinch Hong Kong, that would mean war—war with a capital 'W'."

He said Hong Kong hadn't been mentioned in his talks with Premier Chou En-lai and other Red Chinese leaders.

"I believe there should be one China and not two," the former NATO deputy commander told reporters, "and that China is the one which has its government in Peking. When I survey the picture, it seems to me that Formosa should be part of China."

Montgomery, who spent three days in Peking, said he found the Communist "new" China "quite preferable" to the country when Generalissimo Chiang Kai-shek headed its government.

To a housewife a party is any place where she doesn't have to do the dishes. . . . When the average girl insists she's always very punctual, it may mean that she's always exactly 30 minutes late. —Earl Wilson.

'Live Longer' . . . Get That Weight Down

Diet Formulas Help Spare Tire

NEW YORK (UPI)—Food formulas for overweight adults, designed to appease hunger, while bringing the individual steadily downward in girth and weight, are now for the first time available in New York and certain cities of the Eastern seaboard.

The formulas, each in form of a powder to be added to water and substituted for meals, are described as nutritionally adequate, pleasant tasting and encouraging prompt effectiveness.

Release of the formula foods, several of them made by pharmaceutical companies and one by a food company, followed closely upon publication by the Society of Actuaries of Findings indicating that the "ideal weight" tables of the life insurance companies are from 30 to 30 pounds below the national average.

The charts heretofore used were in fact on an average considerably too liberal, according to *Changing Times*, the *Kiplinger* magazine.

The records of five million persons to whose estates life insurance payments had been made over a quarter of a century, were studied by the actuaries.

START DIETING
Death rates of average, fat and slim persons were compared. Here are the results, as summarized in an article entitled "Weight Average" Start Dieting" in the magazine section of the New York World-Telegram and Sun.

For men 20 pounds above the national average (this would include many who felt themselves to be exactly average-weight for height and age under previous life insurance company recommendations), the death rate was 10 per cent above average.

With 25 pounds overweight, the death rate suddenly increased to 25 per cent above the national average.

With men 50 pounds overweight, the death rate was 75 per cent above average.

This report, adopted by the Metropolitan and other life insurance companies, asserts that the best weight is approximately 50 pounds below the national average.

One of the best of the food formulas now ready for general distribution is described in the June issue of *Town and Country Magazine*, in perhaps the most complete article on the formula food development yet published.

The formula described is designed, when substituted for the businessman's luncheon, to accomplish a weight loss of something like 15 pounds in 90 days without placing any particular strain upon the will-power. The magazine's article, by Wyatt Jones, is entitled "Look Alive—Live Longer."

The formula contains wheat germ, yeast, malt and milk solids as its chief sources of calories and nutrients, and is pleasantly flavored and filling. Each two-ounce package is asserted to contain the balanced nutrients of an entire meal.

This particular new low-calorie diet, a 16-day, 1,000-calorie program and a 34-day luncheon schedule follow-up, are suggested for women because they need about 1,000 fewer calories per day on the average than do men. The less intensive program of luncheon substitution is suggested for men.

The double program was evolved by Henry Sell, who gained U.S. Navy kudos some years ago for working out an adequate diet which successfully accommodated the hunger of vigorous young sailors with the limited food storage space available aboard submarines.

N.Y. Dem Chairman Edges Toward Adlai

SUFFERN, N.Y. (U)—Michael H. Prendergast, New York Democratic chairman, signed a political petition Monday but he says that did not commit him to support Adlai E. Stevenson for the presidency.

Prendergast, here for a Rockland County party fund-raising auction, explained that the petition he signed simply noted Stevenson's qualifications for office.

"I'm against no one and I'm for no candidate," Prendergast said today. "I stand by my statement of the past several months—that we are going to the convention with open minds."

Women's Section

Members of The Village Woman's Club gathered at Orchard Lake Country Club Wednesday for their annual meeting. Mrs. Alfred G. Wilson of

Rochester, right, greeted Mrs. Willys P. Wagner of Franklin at the brunch which preceded the business meeting.

Vera Murphy, David Crawford Wed

The Rev. Daniel Wallace officiated at the double-ring nuptials of Vera Myrtle Murphy and David Earl Crawford, Saturday, at the Central Methodist Church.

The bride is the daughter of Mrs. Lawrence Murphy of Dover road and the late Mr. Murphy. The bridegroom's parents, the J. Earl Crawfords, are of Oak Knoll road, Waterford Township.

Carol Sue Murphy was her sister's maid of honor. Mrs. Robert Beach, Shirley Friedly and the bridegroom's sister Nancy served as bridesmaids.

They wore blue silk organza ballerina-length dresses and

cage and George Boone of Jackson.

At the church reception, the mother of the bride appeared in gray silk organza with pink accessories. Her corsage was of pink roses. Mrs. Crawford wore pink silk organza with pink and white accessories and a white/eyebrow orchid.

The newlyweds will live in Pontiac on their return from a brief northern honeymoon.

MRS. DAVID E. CRAWFORD

matching veiled headbands. Their modern cascade bouquets were comprised of pink painted daisies.

Susan Henderahot was flower girl at her cousin's wedding. Her brother Mark was ring bearer.

Duties of best man were performed by Terry Moore of Kenton. Ushers were Ralph Gough, Dale Newton of Chi-

Gathering Marks 25th Anniversary

A family dinner at the Plantation Restaurant marked the 25th wedding anniversary of Mr. and Mrs. Gordon Boice who live on South Edith street.

Mr. and Mrs. Clifford Waterbury and Rena Boice were hosts for the Saturday fete.

Attending were the Boices' sons David and Larry and Mary Kay LaBranch.

A group from the pediatrics ward at Pontiac General Hospital honored Mrs. Boice at a surprise coffee Tuesday in celebration of the anniversary.

BARBARA C. WALKER

Barbara Chloe Walker, daughter of the John Charles Walkers of Davisburg, and Richard Grant Stimson, son of the Winfred J. Stimsons of Drayton Plains, plan August nups. The bride-elect attended Taylor University. Her fiance is enrolled at Midwestern Baptist Seminary.

Early arrivals at Wednesday Village Woman's Club annual meeting were, from left, Mrs. Brooks Marshall and Mrs. Harvey Kresge, both of Birm-

ham, and Mrs. James J. Nance of Bloomfield Hills. The club's junior group arranged an afternoon of bridge to follow the meeting.

George Russells to Fete Area Seniors

By RUTH SAUNDERS

BLOOMFIELD HILLS—Mr. and Mrs. George Russell have solved one problem for graduating seniors of both Cranbrook and Kingswood Schools by inviting them to a supper party Friday after the Kingswood formal dance.

Their daughter Mary-Love is one of the KSC graduates and will welcome the guests (more than 150) with her parents. Strolling musicians have been engaged to play for dancing on the torchier-lighted terrace.

Some of the Cranbrook seniors will bring their guitars. We're told they are very good players.

The Cranbrook School June formal dance will take place next Thursday and June 10 the Cranbrook Annual Glee Club sing will be held in Alumni Court followed by the Awards Night program.

Kingswood Junior-Senior Banquet will take place June

10 before their formal dance. June 11 is the real day with Commencement for Cranbrook taking place at 11 in the morning and for Kingswood at 3 in the afternoon, both events in Christ Church Cranbrook.

John Warner is the new

Kappa Deltas Planning Luau

The Oakland County Alumnae of Kappa Delta Sorority will be host for the annual Kappa Delta joint picnic Wednesday.

Invited are the Detroit east and west side alumnae chapters and all graduating Kappa Deltas of Wayne State University.

Mrs. Donald Weldon of Bloomfield Hills will open her home for the 7 p.m. affair which will be Hawaiian in theme and featured a luau. Mrs. John Clark is chairman and cohostess.

president of St. Dunstan's Guild. Newly elected board members Francis Loud, Mrs. Weslau Wright, Mrs. David Raymond, John W. Sanders will assist him and current board members, serving again to complete their two-year term. These include Mrs. Albert Remington, Mrs. Tempin Lichlender and James Schneider.

Retiring members are Mrs. Winston T. Kellogg, Mrs. Zoltan Sepesky, Richard T. O'Reilly and Maurice F. Smith.

Mr. and Mrs. Jack H. Klarr will be hosts at dinner Friday evening before the opening performance of St. Dunstan's, "Merton of the Movies."

Mrs. Klarr has one of the principal roles in the show in the Greek Theater at Cranbrook.

Their guests include the Jarvis B. McMechans, he is director of the show, the Francis T. M. Lounds, the Thomas J. Kings Mr. and Mrs. Richard B. Daragh, Mr. and

Mrs. Richard O'Reilly, Mr. and Mrs. John Warner, the Waldemar H. Adamson, the Donald Hutton, Mr. and Mrs. Benjamin Brewster, Mr. and Mrs. Otis Thompson, Mr. and Mrs. Stephen F. Booth, Mr. and Mrs. Garvin Bawden and Mrs. Weslau Wright.

Mrs. John G. Wood is in North Carolina for 10 days with Mr. and Mrs. I. J. Reutter at their home near Asheville.

Jaycee Auxiliary Planning Dance

Pontiac Jaycee Auxiliary will present its annual spring dance Saturday evening at Waterford C&I Building.

Plans for the affair were completed at a picnic meeting Wednesday at the Exmoor street home of Mrs. Raymond Harris. Twelve members and one guest, Mrs. James Rahl, attended the meeting.

50 Million Teen-Agers in Country

ANN ARBOR—This is the decade of the teeming teens, says Dorothea Wyatt, counselor to women and associate professor of history at Flint College of the University of Michigan.

"One of the most striking things about our youth today is that there are so many of them," says Counselor Wyatt.

"In the United States today there are more than 50 million children 14 years old and younger, constituting 30 per cent of our population. If our population explosion continues, by 1970 we will have 63 per cent more young people between 15 and 19, and a possible 25 per cent increase in the number of babies."

If we continue to grow at the present rate, she points out, most of today's high school crop will live to see the doubling of our present population.

"There is every evidence that the population growth will continue in the cities and surrounding areas. Many people now in rural areas will move to the city, and some city people will move to suburban circles. This will make headaches in the field of mass transportation, water supply and schools.

"Economic aspects of the 1960s will be affected by the large increase in the number of 20-year-olds who will be ready to take jobs. Because the jobs they seek will require more skill, young people should be encouraged to finish high school and go on to college. Advances in science will continue."

"The next decade may see an increase in union membership though this is a debatable point. More technicians, professional persons, skilled repair workers, and operators of automatic machines may be dissatisfied as their pay increases less in proportion to that of the great bulk of unionized workers."

Cleanliness, Wise Spending Pay Off

(NEA) — If you want to attain an elegant look on a small budget, first be immaculately clean, and well-scrubbed.

Then invest in one good dress instead of several inferior ones. It can be worn and worn, even after it starts looking a bit shabby and still retain its look of elegance.

GO AHEAD, give in. Take a few moments away from those unending homemaking tasks and let Beautyrest refresh you for your busy hours yet to come. You'll soon discover the wonderful rest that can be yours, just by pausing everyday for what we like to call the Beautyrest hour.

BEAUTYREST, the mattress where comfort begins and backache ends. Because Beautyrest has separate back-supporting springs that push up under the small of your back, you enjoy true body-fitting comfort. And these same separate springs mean single-bed comfort even in a double bed — the heaviest husband can't disturb his wife's rest when he turns in his sleep. There's no rolling together. Beautyrest will never, never sag.

AND ECONOMY... it's there in Beautyrest. Every endurance test proves this is the mattress that lasts 3 times longer than ordinary connected coil mattresses.

SO COME IN TODAY. Make your selection from 24 models. Twin or full size, tufted or new quilted Beautyrest.

Local Pi Omicron Units Will Install Officers

The June banquet of the Pontiac Council of Pi Omicron National Sorority will be at 7 this evening in Edna Temple. Officers installed for Edna Chapter will be Mrs. Slig Danielson, president; Mary Dillon, vice president; Mrs. Louis Egger, recording secretary; Mrs. Joseph Cummings, corre-

sponding secretary; and Mrs. Elma Haines, treasurer.

Pi Kappa Tau Chapter members assuming office are Mrs. Gene Shell, president; Mrs. Delmer Fields, vice president; Mrs. Robert Angel, recording secretary; Mrs. Thomas Rowe, corresponding secretary; and Mrs. Earl P. Noodel, treasurer.

Pontiac Council officers to be installed are Mrs. Leon Skelley, president; Mrs. Angel vice president; Mrs. Fields, recording secretary; Mrs. Laura Danielson, corresponding secretary; and Mrs. Robert Hausman, treasurer.

The fourth degree will be conferred upon Mrs. Noodel.

A local dance studio will provide entertainment.

Honored guests are Mrs. Edward Wallen of Midland, national president; Mrs. Edward King of Flint, Michigan state president; and Petronella Sullivan of Farmington, Central District president.

Mary Dillon will offer the invocation and Mrs. Paul Hoskins will be toastmistress.

Mr. Hoskins of Iota Eta Chapter, chairman, is being assisted by Mrs. Buhl Burt, Mrs. Dudley Moore, Mrs. Egger, Mrs. Skelley, Mrs. Maynard Holmes, Mrs. Robert Scharff and Mrs. Robert Johnson.

The father of the bride, best man and ushers all dress like the bridegroom.

VIRGINIA K. DOWLING

Graduating from Albion College Monday will be Virginia Kathryn Dowling, daughter of Mr. and Mrs. Franklin J. Dowling of Bloomfield Hills. A member of Alpha Xi Delta and Sigma Gamma sororities, she will teach at James Conant School, Bloomfield Hills.

Abby Says: Get Off Your Knees and Stand Up

Do as You Please but Warn Him First

By ABIGAIL VAN BUREN

DEAR ABBY: This may be a long country, but I am living under a dictatorship. Whenever my husband and I go anywhere, he tells me what time we are going to leave before we even get there. He says, "We are going to stay 10 minutes!" (Or however long HE wants to stay.)

When the time is up, he jumps up and doesn't even ask me if I am ready to leave. He starts for the door and says, "If you're coming with me, you'd better hurry up."

It is so humiliating to have him act this way in front of my friends and family. I've talked to him about it, begged and practically gotten on my knees, but he's so hard to change. What can I do?

HUMILIATED. DEAR HUMILIATED: Get off your knees and stand up for your rights. When your husband TELLS you how long he intends to stay, YOU tell HIM you might want to stay longer. If he doesn't want to come back for you later, get a ride home with a friend (and pick a nice-looking one) or take a taxi.

DEAR ABBY: I agreed to

take my block to collect for the Cancer Society. I skipped the house next door because I knew that the husband of the lady living there was in the hospital with cancer. I just couldn't ring her bell.

When my husband came home I asked him if he thought I did the right thing. He said no, I was wrong because for all I knew those people probably wanted more than anyone else to give toward conquering cancer.

I still have my doubts. Abby: Would you, had you been in my place, have had the

nerve to ring this lady's bell under the circumstances?

UNDECIDED

DEAR UNDECIDED: No. But I would have left the information in her mailbox so that she could have quietly made her decision and contributed if she wanted to.

DEAR ABBY: I read a letter in your column concerning elderly parents who were neglected by their children.

I don't want to seem heartless, but it is my experience that people usually get back

what they give. Just because people happen to be parents doesn't entitle them to kindness in their old age that they haven't earned.

I know a widow who cries all over town that her children ignore her. Actually, she is to blame. All her life she made trouble for them. Her evil imagination and wicked tongue almost broke up the homes of two of her sons. Now they want nothing to do with her.

Be fair, Abby, and print this to show the other side of it. OLD BUT NOT LONELY

ABBY

Try sleeping on your back with a very small, compact pillow. It's a splendid beauty routine.

Small One Minimizes Damage

Pillow Can Destroy Beauty

By JOSEPHINE LOWMAN

We all know that our posture when sitting or standing affects our appearance. Well even our posture while sleeping influences our looks.

Most folks spend from six to eight hours in bed each night. When the habit is to read in bed before going to sleep the time is even longer. The postures we assume while reading and sleeping therefore have a tremendous impact.

Think what happens at the back of your neck if you sleep on an average-sized pillow. If you are on your back, your head is pushed forward. If you lie on your side, your face is dug into the pillow.

After a night's sleep you may have deep creases in your cheeks. This is not very helpful in avoiding lines. Also when your eye is against the pillow this may cause puffiness.

SLEEP ON BACK I you can learn to sleep on your back without a pillow, that is a splendid beauty routine. It is corrective and preventive to a dowager's hump and round shoulders since this position straightens the spine all the way.

If this is impossible, why not try one of those very small, compact pillows? Many of them are made of foam rubber. Years ago Oriental women slept on similar pillows. These were tiring

really small wooden blocks. The reason they used these pillows was not to preserve a lovely neckline but their elaborate hairdos.

NOT FOOLISH

These small directions in a y sound foolish and extreme, but they are not since they count up to the prolongation of a youthful appearance. Any woman who is interested in this (and what woman isn't?) must realize that, day by day, we are molding our facial and neck contour, our general appearance and our minds, by our daily habits.

I myself have slept on one of these small, compact pillows for so long that the large ones seem

Time out for coffee as committee chairmen for Pontiac General Hospital Women's Auxiliary scholarship fund raising drive get together. From left are Mrs. E. A. Reimeyer, scholarship selections; Mrs. Howard Waider, gen-

eral chairman; and Mrs. Forest R. Wood, fund raising. Ten area hostesses will launch the effort by opening their homes for luncheons, desserts or brunch.

June Drive to Benefit Hospital Fund Auxiliary

Ten key hostesses will launch a June fund-raising drive for benefit of the Women's Auxiliary to Pontiac General Hospital scholarship fund.

Opening their homes for luncheons, desserts or brunch will be Mrs. Edward Elder, Mrs. Asa Drury, Mrs. William J. Dean, Mrs. William McClure, Mrs. Edward Dalton and Mrs. F. Milton Hathaway.

Others who will entertain are Mrs. Howard Waider, Mrs. Forest R. Wood, Mrs. Allen Dehaan and Miss Vera Blumet.

Many guests of the above hostesses will continue the series by entertaining in their homes throughout the month of June.

Two scholarships, one for nursing and another for medical tech-

nology, will be awarded by the auxiliary for the second annual year. Mrs. Wood, Mrs. Waider and Mrs. E. A. Reimeyer are chairmen for the project.

Members interested in joining the fund raising drive may contact one of the hostesses.

If you want to give your neck the illusion of length, wear your hair piled high on your head. And don't multiply the effect by wearing a necklace. The minute you encircle your neck, you foreshorten it.

Evening Reception Follows

Wed in Catholic Rite

Violet Ann Moriarty pledged wedding vows to Ray Lee Trusler before the Rev. Francis O'Donnell, Saturday, at a nuptial high Mass in St. Michael Church.

An evening reception in the Roosevelt Hotel was hosted by the bride's parents, Mr. and Mrs. Timothy Moriarty of Augusta avenue.

The bridegroom is the son of Mrs. Lillian M. Trusler of Tremont street and Ray Frank Trusler of Crawford street.

The ballerina-length bridal gown of white nylon and Chantilly lace over silk tulle was styled with a sweetheart neckline and long tapering sleeves. White roses and carnations rested on the bride's white Bible.

SISTER MAID OF HONOR

Sharon Moriarty attended her sister as maid of honor, with bridesmaids Carol Lozano and the bridegroom's sister Linda.

Their ballerina-length dresses of pink and white flowered nylon were worn with matching headbands. They held hand-cascades of pink roses and white carnations.

Charles Moriarty, cousin of the bride, performed the duties of best man. Guests were seated by William Schirmer and Gene Ott. After a motor trip to Niagara Falls, Ohio and Pennsylvania, the couple are at home in Pontiac.

For her daughter's wedding, Mrs. Moriarty chose pale blue lace over nylon tulle. Mrs. Trusler appeared in bouffant light gray tulle.

Both mothers wore shoulder corages of red roses and white carnations.

MRS. RAY L. TRUSLER

Be Sure Skirt Has a Lining

(NEA) — If you have the very common problem of "sitting-out" your dresses so that they become shapeless in a hurry, be practical. Don't settle for a dress that isn't lined. Increasingly, dresses are cut with linings.

Even inexpensive cottons now have skirt linings. It's the best way to make sure that a dress holds its shape rather than yours. So, before you buy, have a look at the inside of the skirt.

One jewelry firm will introduce a collection of hair ornaments for fall.

Robert Shicks Honeymooning on Windjammer

Cruising in the Bahamas on a private Swedish-type windjammer are Mr. and Mrs. Robert Lewis Shick who exchanged wedding rings and vows before the Rev. Walter J. Teeuwissen, Saturday evening in the Community United Presbyterian Church, Drayton Plains.

The former Joan Yvonne Fritelle is the daughter of Mr. and Mrs. Louis Franklin Fritelle of Farner street, Drayton Plains. They hosted the church reception following the candle-light ceremony.

The bridal gown of white silk mist tulle featured a bodice and long sleeves of Almon lace. Three flat pale pink bows accented the Empire waistline which extended into the bouffant skirt and chapel train.

A Roman wreath of simulated orange blossoms caught the shoulder-length cloud veil of illusion. Amazon lilies, white stephanotis and pale pink miniature roses comprised the bride's semi-cascade bouquet.

Pink silk organza fashioned the frock for Mrs. Dean Ely of Southfield, matron-of-honor. She wore a matching veiled caplet and held a semi-cascade of variegated pink carnations and lilies.

James Shick assisted his brother as best man. They are the sons of Mr. and Mrs. Jay B. Shick of Ojai, Calif., formerly of Davidson. Another brother, Richard, seated the guests with John Cotter, Charles Bell, Harvey Scott and Joseph Karby.

The bride attended Wayne State University and her husband's schools are Michigan State and Purdue Universities. They will live in Berkley.

Carnival to Recall Old West

The public is invited to the annual Scholarship Carnival, sponsored by the parrots of City and Country School for Gifted Children, Bloomfield Hills. Games, prizes, pony rides and a water ballet are among activities planned for the Western Jam-boree carnival, slated from 1 to 6 p.m. June 19 at the school on Woodward avenue north of Long Lake road.

Annually, the carnival raises money for scholarships to assist parents with talented children who otherwise could not afford to send their children to the school.

Other carnival features will be synchronized swimming in the school's new outdoor pool, Swedish gym exhibitions and the appearance of Cowboy Colt. Prizes will include a color television set, transistor radio, and polaroid camera.

Novelties will include panning for gold, a fish pond, a silver mine and carousel and merry-go-round rides. Puppet shows will be presented in the afternoon.

Open for adults will be the Silver Bar Saloon, with entertainment, and the general store, with gift items donated by local merchants.

An open pit barbecue will serve roast beef dinners.

A nonprofit elementary school for the education and development of gifted children, City and Country School teaches students from a cross-section of economic, social and racial backgrounds.

Waxing Floors?

(UPI) — Apply floor wax that must be polished in a thin, even coat. Buff thoroughly by hand with a bristle brush or by an electric floor polisher. Too much wax and too little buffing can make a floor slippery.

Posies for the Sun Set!

By GAY PAULEY

NEW YORK (UPI)—The summer crop of beach accessories looks like a madcap harvest of straw, flowers and feathers.

For the girl who has everything else (including a good figure), there even is a Bikini bathing suit which looks like a lost flower pot.

A look through fashions from manufacturers specializing in the non-conservative turned up these items for the sun set.

A Bikini of black stretch fabric, with the bra and shorts covered with pink silk hyacinths everywhere, except where a girl sits down. This suit is from Flower-Mode, a New York firm which pioneered artificial flower earrings and flower-trimmed bathing caps some years ago.

This year, Flower-Mode showed straw-base beach hats,

coolie shaped, and covered from crown to brim edge with large pink petals, so that the result appeared to be one giant rose.

The same firm produced flower-trimmed "wind bonnets," which are crisp nylon veiling tied under the chin to protect the hair while riding in an open car, and sun glasses which looked like something right from the greenhouse.

GLASS IS HEARTY

In the case of the latter, the dark glass itself formed the heart of the flowers, with rims surrounded by fabric rose, daisy, sweet pea, violet or sunflower petals. Some of the petals were of gingham check or polka dot fabrics.

One New York retail store revolved the pine nez shape in sunglasses, showing this 18th Century style with delicate black cords attached to nylon frames.

Beach hats for 1960 run all the way from the conservative pork pie shape, through coolies decorated with flowers, palmettes, artificial fruits or vegetables, to straw hats with brims wide enough to pass for a parasol.

Undisputed master of the wild beach hat is William J., the young New York designer who the rest of the year turns out millinery sane enough for church or a woman's club luncheon.

One group, called ice cream parlor straws, were shaped like the old-fashioned ice cream soda mugs topped with pastel-colored ostrich feathers and a couple of straws shooting upward like the ears on a television set.

Another, dubbed parrot, combined a straw base with a fluffy, marabou topping dyed pistachio, grape or peach colors. The general shape of this headgear was of a horn of plenty.

William J. also produced a combination beach umbrella-fan. A straw disc inside the parasol held this headpiece on when opened to its nearly two-yard diameter. Folded, it served as a fan. The work was trimmed in brilliantly-colored ostrich feathers.

But the milliner figured his 'lookiest' of all was the wig hat, with a mane of "hair"—strands of raw silk which he said could be combed like nature's own locks. "But don't take it to the laundromat," he warned, "Take it to your hairdresser."

The part which fitted over one's own hair, plus curlers if necessary, was cloche shaped and made of straw. Manes, dyed natural, white, turquoise and pink, ranged from waist to ankle length—to turn a bathing beauty into Godiva without a horse.

The price linen jacket bound in braid is one way to ring welcome changes on a simple summer sheath. Try it with a white print on blue or black background.

Bailey PTA Festival Set Saturday

A surprise apron lady, pony rides, wishing well and cotton candy booth will highlight the Cora Bailey PTA spring festival, from 1 to 5 p.m., Saturday, on the school grounds.

Dolph D. Wright has been named general chairman. Assisting are chairman Mrs. Edward Hoffmeister and Mrs. Ellen Sheffield, white elephants and country store; Mrs. Howard Ogden and Mrs. Gladys Hocking, baked goods and home-made candies; and Mrs. Loren Davis, Mrs. Harvey Roush and Mrs. Mary Hodges, fish pond and games table.

The country kitchen will be under supervision of Mrs. Jack Taylor and Mrs. Jeannette Hillebrand.

Helping with games will be Mrs. James Patterson, Mrs. Beulah Williams, Mrs. Lee Hastings, Mrs. Betaine Powell and Mrs. Dolph D. Wright.

Golden Agers Set Gay Night

An evening of dancing, card playing and shuffleboard has been planned for 7:30 p.m. Friday at the Community Center by the Waterford Township Golden Age Club.

The group of 50 members "past 60," has invited the Pontiac Sunset Club and Clarkston's Pioneer Club to join in the festivities, according to Mrs. Mary MacFarland, president of the local group.

The evening has been designated "pie night" and members have been asked to bring one or two pies. Music for dancing will be furnished and directed by Mr. and Mrs. Warren Allen.

Mrs. C. S. Baker was recently appointed chairman for the club, and hostesses for the Friday night affair are Mrs. Edith Thomas, Mrs. Verne Craig, Mrs. Florence Wallace and Mrs. Hazel Healy.

Veil Caps a Hit

(UPI) — The hatlet or the veiling cap is the season's most important accessory, reports Women's Wear Daily.

Several stores are showing a single, large flower hatlet that goes well with most cultures. Others feature veiling from a simple net to tiny flowers, tulle, circle bands or bows.

255 Organs, Pianos Featured at Sunday Fete

Rehearsals are in full swing for the 17th Michigan Annual Music Festival to be held Sunday at the State Fair Coliseum.

Over a thousand young musicians will take part in this spectacular mass piano concert.

Arranged in a huge fan-shape, 230 pianos and 25 organs will be played simultaneously, a sight and sound unparalleled anywhere. Conducted by Francis W. Smith, well-known Detroit music educator, this is the world's largest event of its kind.

Pianists will be divided into groups according to levels of accomplishment. Ages will range from 8 years through senior high.

Intermediate Group I will be the largest, numbering 411 children. There will be 328 in Junior Group II. Senior Group III will include 209.

In Group IV will be 88 adults, including those of college age and above. Twenty-six artist pianists will play on grand pianos.

An innovation this year will be the solo performance of Nelita Ann Tye, 1959 winner of the \$1,000 Grinnell Piano Award.

Sponsor of this unique musical event is the Festival Teachers Assn. with Mrs. Carl Beutel as chairman. All pianos and organs are furnished by Grinnell's.

Two performances will be given, at 2 and 8 p.m. Free tickets are available at all Grinnell stores.

Local students participating in Sunday's annual Michigan Music Festival at the State Fair Coliseum are Chopin Music Club members from left Nancy Parsons of Ontario road, Carol War-

gelin of Voorheis road, Joan Whims of Ouego drive and Marilyn Wagner of Woodbine drive. All are students of Mrs. Carl Clifford.

Only Way: Use Cards for Church

By EMILY POST
Dear Mrs. Post: Our church has a limited number of seats. Our guest list is long. Naturally we would like to seat a majority of the invited guests.

But as a rule, interested neighbors and acquaintances come to the church even though not invited, and slip into back seats. At my wedding even the back seats will be needed for our invited guests.

Therefore, can some sort of card be enclosed with invitations which people can present to an usher to insure them a seat? Even so, how can an usher, without discourtesy, prevent an acquaintance from going in and sitting in a back seat?

Answer: Where the church is too small to permit the general public to be admitted, an admission card about the size of a man's visiting card reading, "Please present this card at St. John Church on Tuesday, June 1st," may be enclosed with each invitation.

Then at the church entrance all who do not show this card are told, "We are very sorry, but the church is so small that only those with cards can be admitted."

Dear Mrs. Post: Would it be correct for a girl in her mid-twenties to visit a man who is a good friend, but to whom she is not engaged? Due to his work he cannot make the trip home for a vacation.

Answer: Definitely, no, unless she is going to stay with friends of hers or possibly friends of his who have invited her. But to go alone and stay in a hotel where she is unknown to the proprietors and therefore completely unchaperoned, would not do at all.

Dear Mrs. Post: Will you please tell me if it is permissible to use a coat of arms belonging to the bridegroom's family on wedding invitations that are being sent out by the bride's family?

Answer: No. If the bride's family has no coat of arms of its own, the invitations are engraved on plain paper with no device of any kind.

Rocky's Way About Attending GOP Convention

SYRACUSE, N.Y. (AP) — Gov. Nelson A. Rockefeller said Wednesday he still was awaiting assurances from Republican leaders that they would not press him to accept the nomination for vice president, if he went to the party's national convention.

Therefore, he said, he has not decided whether to attend the convention, to be held in Chicago next month. He said he would decide shortly.

Eight rooms are being held for the governor and members of his staff at the Chicago Sheraton Towers Hotel, headquarters for the New York State delegation to the nominating convention.

Guatemala has a population of about three million.

WEIGHTY MATTER—Relationship of overweight to mortality in one recent study is graphed above. "Reduced-weight cases" referred to are those of men who had paid a higher-than-standard premium before reducing made them acceptable at normal rates. "All cases" groups the mortality experience for both the men who reduced and those who remained overweight. Though incomplete, data for women indicated a similar experience. Data from a Society of Actuaries build and blood pressure study, and Metropolitan Life.

Florida's Political Chiefs in Roles at Dem Powwow

WASHINGTON (UPI) — Only Florida, among all the states, could assure its three political leaders that they will get into the act and in front of the television cameras at the National Democratic Convention.

Of the three, Gov. LeRoy Collins will have the most important role, the convention post of permanent chairman. He was chosen last week by the Democratic National Committee.

Sens. George A. Smathers and Spessard L. Holland currently are assigned to minor roles at the convention, but in Smathers' case, this could change as the convention moves along.

Smathers will go to the Los Angeles convention as the state's "favorite son" candidate.

Present plans call for him to release the delegation without instructions after the first ballot. However, he probably will endorse Senate Democratic leader Lyndon B. Johnson (Tex.) and try to take the entire delegation with him into Johnson's camp.

Most of the Florida delegates, including Holland, are favorable to Johnson.

Holland has been assigned two bit parts. The senior senator will place Smathers' name in nomination and will be a member of the Platform Committee, as he was in 1956. He can be expected to do all he can to limit any

Gary Cooper to Stay in Hospital Two Weeks

HOLLYWOOD (UPI) — Actor Gary Cooper, two-time Academy Award winner, will be hospitalized "at least a couple of weeks" following major intestinal surgery, his doctor reported today.

Condition of the 38-year-old actor was listed as good, considering the serious nature of his operation Tuesday.

55 Minutemen Set for Montana

AF Reveals Strength of First Squadron of Solid Fuel Missiles

WASHINGTON (UPI) — The Air Force disclosed Wednesday that there will be 55 missiles in the first squadron of Minutemen intercontinental ballistic weapons to be located at Malmstrom AFB, Mont. The number was mentioned in an announcement that surveys for the location of the squadron—the first of three scheduled for Malmstrom—have been completed. Land acquisition will begin next month.

This was the first official word that the squadron would contain many of the 5,500-mile range, solid fuel missiles.

The Air Force said eight of the launching sites will be in Cascade County, 24 in Judith Basin County and 23 in Fergus County.

Award of initial construction contracts for the concrete-lined, underground launching sites will be made in January and construction, scheduled for completion in from 15 to 18 months, will cost about 20 million dollars for the first squadron.

The high total of weapons in the first Minuteman squadron contrasts with the 9 to 12 missiles in the average squadron of Atlas and Titan liquid-fueled intercontinental missiles. Present plans call for the provision of 13 Atlas squadrons and 14 squadrons of Titans.

Some Minutemen will be located at fixed bases. Others will be moved around the country on rail-way cars.

The first operational Minuteman missiles are expected to have completed their development tests and acceptance by the Air Force about the time the facilities are completed at Malmstrom.

State Work Rolls Expected to Rise Strongly by '70

DETROIT (AP) — The Michigan Employment Security Commission predicts Michigan's population and work force "will increase enormously during the next 10 years."

The predictions are in a study titled "Manpower in Michigan: a Look at the 1960s."

The study said Michigan's population will increase by 23 per cent to 3,200,000 by 1970. It said the state's work force will grow from 2,872,000 to 3,700,000 by 1970.

The Commission said one and

a half million youngsters will enter the labor force during the next decade, compared with less than 900,000 during the last 10 years.

MESC director Max Horton said: "The challenge of the 1960s is to provide jobs in the face of the dramatic increase in productivity and the Gross National Product."

Projects Pay 40 Pct.

ST. PAUL, Minn. (UPI) — Flood control projects completed in the St. Paul area since 1943 cost \$16,813,000, but already they have saved an estimated \$7,000,000 in flood damages for a 40 per cent return on the investment.

Bill Would Pave Way for Great TV Debate

WASHINGTON (UPI) — The Senate Commerce Committee Wednesday approved a bill designed to let the television networks set up a great election-year debate between the two major party presidential nominees.

Only "nominees" for the office of president and vice president would be exempt from the equal time provision, and then only for the campaign period preceding November election day.

The joint resolution, which also requires House action, would suspend a section of the Federal Communications Act requiring radio and television stations and networks to give "equal time" to rival political candidates.

As a result, stations sometimes have been reluctant to grant free air time to any candidate for fear

they will be flooded with demands for air time from minor or splinter party candidates.

The proposed legislation would suspend this provision for the 1960 election, thus allowing the networks to set up a television debate between the two major party presidential nominees.

Only "nominees" for the office of president and vice president would be exempt from the equal time provision, and then only for the campaign period preceding November election day.

Students Gripe About Books ... Lack of 'Em

JACKSONVILLE, Fla. (AP)—A teacher from Lee High School was excused from class so a group of visiting educators could question the teen-agers without embarrassment.

their worst problem was a lack of books in the school library. They said they often had to go to the public library; then often the public library didn't have what they wanted; so they had to go to Jacksonville University; and finally, some said, they had to drive to the University of Florida at Gainesville 70 miles from Jacksonville.

They said, too, that teachers limit them too much. "We're seniors; we should be able to think for ourselves."

The youngsters let fly, saying:

TOP PHOTO
NEWS WAY OFF — Mrs. Heidi Trep told us her 3-year-old son Mimi is off and running for the cupids. The little kid undoubtedly holds the all-time record for manuever by runners under 6. The whole thing came to light Saturday when Mimi, on a better day to a bed, slipped it off, landed a bound against a 4-foot wire fence and lit out. It was about his 25th escape.

Corn Planting Slowed by Rain

Wet Grounds, Rotators Pastures, Hay

LANING — Corn planting continues to be slowed by wet fields in many parts of the state, the Federal-State Crop Reporting Service said today.

About 65 per cent of the corn crop had been planted compared with the usual 55 per cent for this point of season. A few months ago the corn was planted in the ground.

The ground is still wet and the corn is still in the ground. The corn is still in the ground. The corn is still in the ground.

Super bad planting passed the three-quarter mark and blocking and blocking started in early planted areas.

About 10 per cent of the points across the state have been planted. The corn is still in the ground.

The corn is still in the ground. The corn is still in the ground. The corn is still in the ground.

PET DOCTOR
By A. W. Miller, D.V.M.

Question: Our children are so excited that their pet goldfish has died. I'm afraid they're overfeeding them. Is this harmful?

Answer: The goldfish is one of the oldest pets known to man. In ancient China, it provided hours of relaxed enjoyment with its beauty of movement and mystery. The healthy goldfish has a bright color, is active and grows healthily.

Excess feeding can cause constipation, cloudy water and disagreeable odors. One meal a day is sufficient and it should always be served at the same time. Put only as much food in a feeding ring as the fish will eat in five minutes.

Dry fish food is the basic diet, but your fish will appreciate an occasional change of live food, such as earth worms. If the city dweller doesn't have any on the pantry shelf, this same gourmet touch can be achieved with the purchase of meal or white worms at the pet store.

Brooders consider live or frozen daphnia the best live food for goldfish. It is better to obtain these from a pet store rather than catching them from, as they are clean and that way.

Address your questions to Dr. Miller in care of this paper. He will answer submitted questions to his column, but cannot reply to them.

Nantucket Hurt by Boat Strike

Believes Over \$1 Million Lost in Tourist Business Last During Holiday

NANTUCKET, Mass. (AP)—With more than a million dollars in tourist business estimated last over the Memorial Day weekend, residents of this island and near-by Martha's Vineyard are mad enough to toast a harbor into the harbor from the Nantucket State in Boston.

Falls whose accounts waited four years for whole ships to return from world voyages are not with waiting the weeks for the accounts to come over from Cape Cod.

The islanders have been out of their regular summer service by a strike since April 15.

Three days serving the island is operated by a state-licensed Tourist Authority. A total of 50 officers and crewmen, represented by five unions, walked off the ships and waiting halls and other benefits.

NEW FOR CENT

Earl J. Cheney, chief owner and president of the Martha's Vineyard Chamber of Commerce, said: "The strike cost the vineyard nearly a million dollars over the week-end in unoccupied cottages, vacant hotels, half-empty stores and restaurants and a thousand other smaller losses."

John L. Hardy, Nantucket innkeeper and former legislator, estimated business was off 50 per cent on a weekend that normally would have kicked off the summer season. "The long-term damage might be close to a quarter million," he added.

The Vineyard, five miles from Nantucket, has a population of 1,000 and upwards of 4,000 in summer. Nantucket, 25 miles from Nantucket, the nearest mainland port, has a population of 1,000 and upwards of 4,000 in summer. Nantucket, 25 miles from Nantucket, the nearest mainland port, has a population of 1,000 and upwards of 4,000 in summer.

Pennsylvania Acquires Lift Tolls of Eau Claire

EAU CLAIRE, Wis. — A Pennsylvania industrialist has acquired 50 per cent of the stock in Lift Truck, Inc., of Eau Claire, Wis. The new owner, who is a Pennsylvania industrialist, has acquired 50 per cent of the stock in Lift Truck, Inc., of Eau Claire, Wis. The new owner, who is a Pennsylvania industrialist, has acquired 50 per cent of the stock in Lift Truck, Inc., of Eau Claire, Wis.

\$23 Million Job to Chrysler

DETROIT (UPI) — Chrysler Corp. has been awarded a \$23,000,000 contract for major missile parts. The award was announced yesterday by the Detroit-Dearborn Army Ordnance Command.

For First Time

Britons Lose Their Faith in Beloved Bobby Force

LONDON (UPI)—A pun, as everyone knows, is the lowest form of humor. In Britain, it is also one of the highest forms of advertising.

Britain is studded with advertising slogans using puns on words and puns which could generously be described only as atrocious.

Some are already familiar in the United States. The ex-Naval type in the big brown beard has for years been extolling "Schweppes" in U.S. newspapers and magazine ads and has been campaigning for Americans to "take the necessary Schweppes" to combat thirst.

But it is in Britain itself that the punny business reaches the heights... or is it depths? A few of the more horrible examples—

—**Smiddy's Frost Foods** brazenly claims in signs on its distributing trucks that they peddle "The Best Food You Ever Thaw."

—**The Flowers Brewing Company** advertises nature's very first throughout England to "Pick Flowers."

—**The Younger Brewing Company** has realized by urging consumers to "Get a Little Younger Every Day."

—**Wallace Heaton Ltd.** sells cameras and processes snapshots as well. Its ads boast without a hint of apology, "Our Business Is Still Growing."

What has raised the lowly pun to the dignity of high-powered advertising in Britain is difficult to say. The country is not particularly pun-struck, except perhaps in that peculiar entertainment phenomenon known as British farce.

But as any London visitor can testify, puns sprout on the looming crimson cliffs of bus signs with a frequency—and at a level—which can be excruciating to a lover of English as she should be spoke.

Beer companies, for some intoxicating reason, seem to be the worst offenders.

Guinness for years featured in its ads a contented nest of toucans, the big-beaked South American birds whose connection with stout is tenuous at best. Its shameless slogan: "See What One Or Toucan Do."

A popular brand of beer in southern England is Courage. Its makers relentlessly exploit every opportunity to exhort the drinker of low resistance to "Take Courage."

Popularizers of Fremlin's Elephant Ale, despairing of a pun about pachyderms, show a sly tippler leading an elephant with a

mouthful over the slogan, "Take Home an Elephant Tonight."

Walsey Mann Brewing Company descends to bawdy arms and well-muscled Mr. Universes to emphasize that it sells "a Man's Beer."

How all this jibes with the tradition (a wildly inaccurate one, by the way) that the British have a dry, wry sense of humor, if any at all, is again difficult to say.

But sense of humor or no, industry after industry, from cigarettes to cars to candy bars, is close behind the beer people in the fragrant production of puns that pay.

Idaho Thieves Covet Saws, Not Saddles

SALMON, Idaho (U)—The chain saw has replaced the saddle as the item most coveted by thieves in this timbered central Idaho country.

Sheriff Bill Baker says 20 of the lightweight saws vanished in Lemhi County this year. He adds that authorities across the nearby Montana border also report the compact saw is their most frequently stolen item.

Time was, says Baker, when saddles were most frequently stolen. But the gasoline-powered chain saws, which have replaced two-man crosscuts in logging and land clearing, weigh less than saddles and bring \$75 in a quick sale.

Fraternity Plans Kissing Contest; No Contestants

LAWRENCE, Kan. (UPI)—Coeds at Kansas University rejected a kissing contest proposed by Sigma Chi fraternity. Representatives of all the sororities here called the contest "in poor taste."

The contest would have had five judges, all blindfolded with hands tied behind their backs.

The contestants would walk by and "plant" a kiss on each judge. The judges would rate each contestant from one to five points.

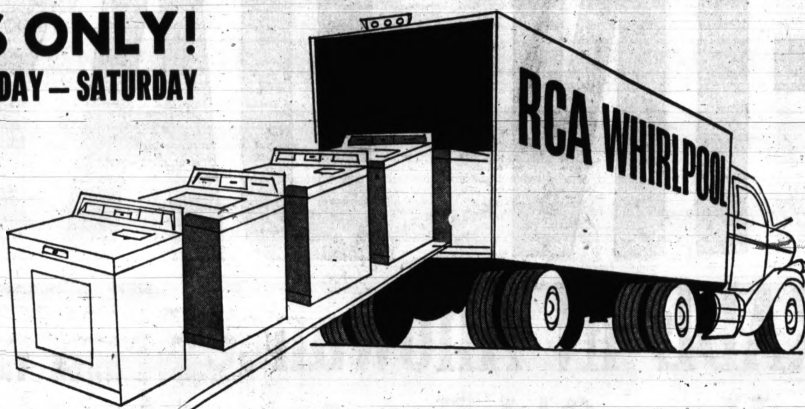

The woman with the highest point total would win. But the fraternity dropped the contest from its annual Derby Day. "Who'd want to win it anyway?" a co-ed asked indignantly.

House Uncaps Expense Files

Tighter Scrutiny Set for Trip Spending as 'Irregularities' Cited

WASHINGTON (AP) — House expense account records were ordered reopened for public inspection today as closer scrutiny on improper spending went into effect.

The short-lived secrecy order was countermanded by Speaker Sam Rayburn (D-Tex.) in the wake of disclosure of apparent irregularities and indiscretions on the part of a few members in charging for expenses of "official business" trips.

Rayburn tied several conditions to his order to House Clerk Ralph E. Roberts that the expense records again be made available to newsmen.

Hereafter, he directed, the records may not be photographed and may not be physically removed from the official files. In addition, a representative of the clerk must be present while they are being examined.

Rayburn said these precautions were taken to protect the records, to emphasize that no attempt would be made to prevent newsmen from copying the records verbatim if they wanted to.

Roberts' order, backdating the files was issued about a week ago after a weekly magazine photographer was detected photographing them.

Some of the film was seized but enough of it was retained to cause some congressional embarrassment when pictures from it were published this week in the magazine and a number of newspapers.

Until that incident, the records had been available for inspection for years.

TAXES PAY BAR BILLS — They disclosed, among other things, that House funds had sometimes been used to pay bar bills, hotel expenses for congressional wives, and the cost of parties at the expense of the taxpayers.

Some of the records showed signs that the purpose of the expenditures had been altered.

The disclosures brought from Rep. H. R. Gross (R-Iowa) a new demand for consideration of his bill to require a detailed accounting of all spending of House expense funds. The bill has been introduced in the House Administration committee.

Asks Churches Integrate

BUCKHANNON, W. Va. (AP) — West Virginia's Methodist church, largest in the state, has acted to end segregation. Its 115th annual conference unanimously passed a resolution Wednesday calling for integration of white and Negro Methodists in the state "with all reasonable speed." Although a declaration of official policy, the resolution is not binding on member churches.

FREE: AT LAST — Henry Sullivan, 55, of Loganport, Ind., examines his first pension check on being released Wednesday after 63 years in Indiana prisons and mental hospitals for a \$15 theft. Sullivan escaped two years ago and took his case to a local judge, who ruled he was being held illegally.

Vandals Cause \$1,000 Damage at Avon Mill

Vandals have caused damage estimated at \$1,000 to equipment of the Hazel Park Saw Mill Co. at Harrod street west of Emmons street in Avon Township.

Company officials told Oakland County sheriff's deputies that every piece of machinery at the site has been tampered with.

An industrial motor was run wide open, breaking parts, batteries of several other machines were run down, and machine handles were ground or broken off.

Motor parts had been taken from a truck, and its windshield was broken. The company's offices are in Utica.

Family Service Staff Acquires Member

Mrs. William Graham has joined the Pontiac staff of Family Service of Oakland County, it was announced today.

She replaces Mrs. Frederick West, who is departing for California.

Mrs. Graham comes from the Family Service Division of Monroe. She worked with Catholic Social Service of Oakland County after having obtained her master's degree in social work at Wayne State University.

School Projects Get Board OK

\$345,000 in Additions Approved for Three Waterford Facilities

At a brief meeting last night, the Waterford Township Board of Education approved additions to three schools at a cost of approximately \$345,000.

The largest project will be at the Waterford Village School, the oldest school in the district.

Board members had made a study of three different plans submitted by architects of the George D. Mason Co. and decided to alter the center of the building and add four more classrooms and a lobby-library. Cost of this project was estimated at \$135,000.

A \$37,000 addition will be made behind the Drayton Plains School.

Chrysler Union Bid Hinges on 130 Votes

DETROIT (UPI) — The United Auto Workers Union's drive to organize white collar workers at the Army-owned Chrysler missile plant was balanced today on the eligibility of 130 voters.

The National Labor Relations Board said 1,874 clerical workers voted in the election but there was a question of eligibility on 130 of the workers.

Of the 944 ballots cast without a question of eligibility, 412 favored the Union and 532 were against it.

Robert J. Kripka, NLRB field agent at Detroit, said the 130 questionable votes would give the UAW the majority it needed to win the right to represent the workers.

Don't Pinch or Stab — CAIRO (UPI) — A Cairo court sentenced a jealous husband to six weeks in prison for stabbing and seriously wounding a man who pinched his wife at the movies.

Robert Bryant, 41, of 137 Racine St., told Pontiac police he was robbed of \$150 at a home on Deland Court last night.

Bryant said he had been invited to the home by a casual acquaintance to drink some beer.

Another man entered, Bryant told officers, and the pair jumped him, took \$150, and threw him down the stairs of the house.

He said the two men threatened to kill him if he reported the robbery to police.

Kennedy, Johnson Poke Heads Above Other Dem Candidates

WASHINGTON (AP) — Sen. Kennedy, endorsed by the Texas Workers Union of America, and Lyndon B. Johnson of Texas appear to be making headway today in the early balloting for the Democratic presidential nomination.

Although it is not a two-man race as yet, the two senators are tightening their lines on delegates in preparation for a head-on battle in the early balloting at the Los Angeles convention.

Sen. Stuart Symington of Missouri told newsmen no political deals or Adlai E. Stevenson, twice the nominee, out of the running. But at best, the latter two appear likely to have to wait for Kennedy-Johnson deadlock before they can make their move.

Johnson, the Senate Democratic leader, got a national boost Wednesday when the Scripps-Haward newspapers endorsed him as "the ablest and strongest Democrat available" for the presidency.

Kennedy's friends say Gov. Kennedy will not try to put the Pennsylvania group under the unit rule means that the Massachusetts sets senator can pick up influence on undecided delegates at half of the state's vote.

Kennedy hopes he can persuade

Boys 12, 14 Die, as They Forecast, in Stolen Plane

POMONA, Calif. (AP) — Two young brothers who two months ago were caught trying to take off in an airplane crashed to their deaths in a stolen plane today near a heavily populated area.

The victims were tentatively identified by police as James A. McDonald, 14, and Thomas L. McDonald, 12.

Their pet dog was killed with them when a light plane stalled 10 minutes earlier plunged straight into the ground, the throttle wide open, on the campus of Emerson Junior High School.

The boys had been reported missing as runaways by their father last Tuesday.

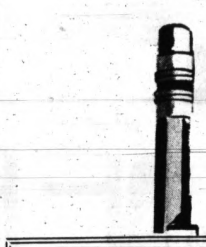

The crash occurred shortly after midnight on the school's recreation yard. Had it taken place in the daytime, officers said, scores of children might have been playing in the yard.

Cuba's most valuable mineral deposit is nickel, and next to Canada and New Caledonia, Cuba ranks third in world production of the mineral.

Dayton Chemist Claims Third Kind of Motion

DAYTON, Ohio (UPI)—An industrial chemist claims he has discovered a third dimension in motion which can "lock itself in space and produce action without apparent reaction."

John E. Wolfe, technical director for Glo-Raz, Inc., a cosmetics manufacturer, claimed that he has proved the existence of the third dimension in motion.

A two-column advertisement, in agate type and technical language, was prepared for publication in Wednesday's Dayton Daily News as Wolfe's vehicle for telling the world of science of his discovery.

Wolfe, for 10 years the chief chemist for General Motors' Delco Division here, said he had no success in getting the federal government to accept his ideas.

He contended that in addition to straight line and rotary motion, he has discovered "complete rotation about a point" able to "lock itself in space and produce action without apparent reaction."

He developed his theory with his brother Peter K. Wolfe of Indianapolis, Ind.

It's absolutely vital that we get working on this concept as quickly as we can," he told a reporter. "The long term effects will almost invalidate both the nuclear research and the space research programs."

"Someone over in Russia is

Freed in '36 Slaying by Black Legion

LANSING (AP)—Urban Lipps, 46, one of a dozen men convicted in the Black Legion slaying of Charles A. Poole 24 years ago, has been extended clemency by Gov. Williams.

The governor announced commutation of Lipps' life sentence, making him eligible for immediate parole consideration.

Lipps has served 22 years in prison, mostly at the state reformatory in Ionia.

The parole board, which recommended the commutation, reported

that Lipps lured Poole into the car in which he was driven to the death spot in 1936 but took no part in the fatal shooting.

Fluke Hits the Moose

ST. PAUL, Minn. (AP)—Conservation officials say liver fluke, a parasite picked up from plants in and near the water, may be causing illness of moose in northern Minnesota. A veterinary medical expert says there is no sure treatment for the disease, common to deer, cattle and sheep in the area.

Almost 10 million adults in the United States read with an ability equivalent to that of a normal child in the fourth grade in school.

Voice of Experience! Republican gubernatorial nomination for a fourth time. W. Arthur Simpson, 72, said "I have no political ambitions."

While tornadoes are especially common in the Mississippi valley states, they are also known in Australia and Europe.

WOLFE IN TROUBLE—Glynn Wolfe, 46, who has 12 former wives, is shown after being jailed on accusations of Peggy Spence, 29, his blonde ex-wife No. 8. She said he choked, beat and kicked her in a hotel-ownership dispute. He had been friendly with his other wives, who used to visit him and stay at the hotel. But the friendship cooled when he and three ex-wives helped another get a divorce from a new husband. Wolfe, recently ordained a minister, was booked on suspicion of making threats to obtain a signature.

All at Once, Now

WILLMAR, Minn. (UPI)—Willmar Township has voted in favor of having the tax assessor also collect for all church drives when he makes his annual rounds.

Apples Are a Natural to Serve With Lamb

Apples, noted for their agreeable affinity to pork, also add a tangy accompaniment to many other meats. Young Spring lamb, tenderly served, benefits doubly from combined mint and apple flavors — both naturally suitable to delicate lamb.

If you wish to make a banquet of a simple meal, you may serve a handsome Rack of Lamb (easily carved for individual servings) surrounded by a chain of delectable and decorative Minted Apple Rings.

To make apple rings which will keep their shape and fresh apple flavor, choose a variety of apple which is very firm-textured and full-flavored. Winesap — tart, crisp and orchard-fresh — are an ideal variety for this, as well as all other cooking purposes. They'll take to their mint-and-syrup bath, come out perfectly shaped, to festoon your favorite meat platter.

Another recipe featuring apples and lamb is our Apple-Stuffed Lamb Chops. Winesap are a good variety to select for this use, too. You could save several chops from the rack of lamb for this recipe, thereby saving double shopping effects.

Minted Apple Rings, with Rack of Lamb

4 Winesap apples
1 cup water
1 cup sugar
2 cups white corn syrup
1/2 teaspoon salt
64 drops green food coloring
1/4 teaspoon mint flavoring

Blend all ingredients in a 10-inch skillet. Simmer over medium heat for five minutes. Cut peeled, cored apples into 1/2 inch thick rings. Slide rings into skillet and sauté until apples are tender, not mushy, turning once. Lift apple rings with spatula and place around Rack of Lamb.

Allow at least two ribs per serving when purchasing rack of lamb. Ask your meat man to "French" the ends of the ribs, score the fat in a diamond pattern, and to give you frills for each rib. Wipe meat with a damp cloth or damp paper towels. Sprinkle with salt and pepper on all sides, then place ribs side down in a shallow baking pan. Roast in a constant slow oven (300 degrees) until meat thermometer inserted in center of meat, without touching a bone, registers 175 degrees — about 30 minutes per pound. Place frills on rib ends after meat is placed on platter. Surround with Minted Apple Rings.

Apple-Stuffed Lamb Chops

1 Winesap apple
1 tablespoon lemon juice
1 slice white bread
1/4 cup (1 stick) butter or margarine
1/2 cup chopped nuts

Core, peel and dice apples into 1/4 inch pieces; brush with lemon juice to prevent discoloring. Cut bread into 1/4 inch cubes. Melt butter in heavy skillet over medium heat. Toss bread cubes and nuts in butter until cubes are lightly browned. Remove from heat. Toss in apple pieces and chopped mint until evenly distributed.

Divide stuffing into 4 equal parts. Pack stuffing on the inside curve of the chops; roll the strip of meat around the stuffing; secure each chop with a toothpick.

Arrange stuffed chops on broiler pan 3 inches from heat. Broil on both sides until chops are browned and fat is crisp — about 8-10 minutes to each side of chop. Arrange the chops on a round, pre-heated serving plate. Garnish with mint sprigs.

Keep Sauce on Hand for Everyday Use

This chocolate sauce is the thick rich variety.

Chocolate Sauce

1 package (16 ounces) semi-sweet chocolate pieces
1 cup light cream
1/2 cup unsifted evaporated milk
Heat chocolate and cream syrup over hot (not boiling) water; stir occasionally until chocolate melts. Remove from heat; if not entirely smooth beat with a whisk; stir in undiluted evaporated milk; serve at once. Sauce may be reheated over hot water.

Orange Freeze

For a change of pace, a summer beverage that will bring raves... Fresh Orange Freeze. Put 1 cup fresh orange juice in each glass; add one or two scoops of orange sherbet; stir in either cold water or carbonated water. Garnish with an orange cartwheel and maraschino cherry.

Beginning of June Brings Ample Food Bargains

June is a welcome month. With spring crop brings fresh supplies. The early crop from Florida, Texas and California is expected to be 31 per cent below last year.

What about meat prices during June? Pork prices are expected to increase this month and will reach their highest point of the year in July or August. Choice steer prices are expected to decline in June.

Cattle prices this summer will be affected by feed conditions in the western ranges. Cattle numbers have built up in this area to a point where a widespread dry spell would bring large numbers of cattle to market. This would have an immediate effect of pushing cattle prices down.

Broiler prices are expected to stay about as they were in May. After the big holiday of last week, stores will emphasize small turkeys, several beef cuts, pork picnic and pork chops; this week. In order to compare price per serving one can simply divide the price per pound of small turkeys, most beef roasts, chops and picnics by two. Round steak will usually serve three portions from each pound.

What can you do with a blade chuck roast if you don't want a roast? It could be cut into 1 to 1 1/2 inch slices and broiled, if it grades U.S. Choice or better quality. Naturally it will have a coarser texture than more tender beef steak, but the price difference may be worth it to you. The top muscle of round steak is another choice for the grill or broiler if it grades U.S. Choice quality.

If you choose a small turkey, the

secret for juicy tenderness lies in the roasting temperature. Allow 3 to 4 hours at 325 degrees if the turkey weighs 4 to 5 pounds; 4 to 4 1/2 hours at 325 degrees if it weighs 8 to 12 pounds.

Breast of Turkey Divan Quick With Frozen Foods

Cook frozen asparagus tips or broccoli as directed on the package. Drain and blanch in cold water. Defrost sliced breast of turkey. Arrange asparagus or broccoli in individual or in one large casserole. Place turkey and sauce over vegetables allowing tips to show. Sprinkle generously with grated cheddar cheese and heat in a moderate oven until bubbling hot. Run under a hot broiler to brown lightly.

Fluffy Potato Cheese Dish Ideal for Meatless Menu

Running low on ideas for meatless dishes? Our Swiss Potato Bake is a handy recipe that features plentiful eggs in combination with Swiss cheese and convenient instant whipped potato flakes.

Swiss Potato Bake is an ideal recipe for suppers or luncheons. And ideal, too, are the "flavor flakes" which instantly are transformed into light delicious whipped potatoes. These tiny flakes herald the end of "K.P." duty for the American homemaker.

Peeling, boiling and mashing potatoes is no longer necessary. Just boil the measured amount of salt-water, next add milk and butter and then the "flavor flakes." Stir gently until flakes dissolve and then beat briskly with fork or wire whip.

Swiss Potato Bake

2 cups milk
1/2 cup (8 oz.) instant potato flakes
1/2 cup (4 oz.) grated natural Swiss cheese
1/4 cup (2 oz.) instant milk
1 teaspoon Worcestershire sauce
4 eggs, beaten

Scald milk. Stir in potato flakes and cheese. Add salt and Worcestershire sauce. Beat egg yolks slightly; add a small amount of the potato mixture; mix well. Add amount of air is incorporated,

egg mixture to the potatoes; blend well.
Beat egg whites until stiff but not dry. Gently fold egg whites into the potato mixture. Spoon into a 2-quart casserole. Bake in a low oven (300 degrees) for 1 hour and 15 minutes, until lightly browned. Serve immediately.

Whip Is Better

Small wire whips are inexpensive and indispensable in making many sauces; use it also when you are whipping up an envelope of instant potato granules. Interestingly enough, a whip will make the potatoes whiter than will a spoon because with it a goodly amount of air is incorporated.

USDA Defines Sausage, Includes the Wiener

About one pound in ten of our meat is sausage of some kind. Sausage includes more than the ground and spiced fresh pork which many people call "sausage." As the Department of Agriculture defines it, sausage includes almost any type of meat that is ground and flavored.

A wiener is a sausage; bologna is a sausage; so are salami and the whole array of luncheon meats you'll find at your favorite food store. Sausage made from fresh pork is a puny share of the more than two billion pounds of sausages made in the United States each year.

Q. What is the name of this cut of meat?

A. Pork Tenderloin.

Q. Where does it come from and how is it identified?

A. This is a small, very tender, boneless cut from the loin. The larger end is round and it gradually tapers to the thin flat end. The fibers run lengthwise. There is a small amount of fat within the cut and on the outer surface.

Q. How is it prepared?

A. Tenderloin may be roasted, or braised. Slices cut from the tenderloin may be flattened (Frenched), then braised or pan-fried.

Sugar Is Concentrated

Today's cured meats tend to be bland because they are smoked less, and contain less salt and sugar, than once was the case. In bacon, the relative concentration of sugar is increased as fat is lost in frying. The sugar, caramelized in frying, accounts for bacon's delectable and distinctive flavor.

NOURISHMENT FOR SALE

What do you want for your baby? Why the most nourishing foods possible, of course. Gerber Strained Vegetables (and all Gerber Baby Foods) are specially processed to retain a high degree of wholesome food values. Thorough cooking makes them easy to digest so your baby gets full nutritional benefit from them.

Important: Each and every Gerber Food is laboratory tested for nutritive values, taste-tested for flavor and texture appeal.

All Gerber Baby Foods are prepared with the care that only baby food specialists can give.

Make It at Home

June Bride Wants a Lovely Cake

By JANET ODELL
Ponitac Press Home Editor

Your daughter's getting married this month. You want her to have a lovely reception, but you can't afford to spend much money. No shame in that.

Whether the food served is simple or elaborate, you must make your plans early. Then you can prepare much of the food and freeze it — yes, even the wedding cake.

Here is the way home economists from Frigidair suggest you wrap the cake for freezing.

To wrap the decorated cake for freezing, first arrange four to six lengths of freeze cellophane cross-wise on the table. Place the cake in the center and carefully draw end of inner layer of cellophane together and secure at the top with freezer tape. Next, draw up and secure the ends of the next layer of wrapping material. Continue until the cake is completely wrapped, then freeze it. The cake should be removed from the freezer at least five hours before serving and left in the wrapper during the thawing process.

WEDDING CAKE — This three-tiered cake for the wedding has economy as well as beauty to recommend it. It will cost you under five dollars to make it at home.

Keep Various Cold Cuts for Parties, Sandwiches

Ready-to-serve meats are not only convenient, but they are also fun to serve because they can be arranged in such a variety of ways that no two meat platters never look the same. But regardless of the arrangement used, they can always be counted on to be "picture pretty" when care is taken in selection of the meat, giving special notice to contrast in color, flavor and shape.

In order to have a good selection of these meats, it is wise to plan on having at least four or five different kinds from which to choose. This represents only a small fraction of the total number of ready-to-serve meats on sale in markets today.

While an attractive arrangement is always thought of as being especially appropriate for parties, most homemakers keep at least one or two kinds of ready-to-serve meats on hand in their refrigerators at all times. Certainly these meats are the number one choice for sandwiches.

Whether these sandwiches are eaten at home or packed in a lunch, the meats retain their superior flavor and tenderness.

When ready-to-serve meats are teamed with potato or other vegetable salad, hard rolls and a vegetable, they make a complete meal. At other times, ready-to-serve meats take their place as important ingredients in a casserole or other main dish; their uses are many and varied.

In serving them as cold cuts it is wise to allow about 2 or 3 ounces for each person; stated another way, one pound will yield about 6 to 8 servings. They will be at their best if purchased no longer than 2 or 3 days before using.

Most varieties are available in the prepackaged sliced form as well as in larger pieces. They should always be stored in the coldest part of the refrigerator and to prevent drying, should be kept in their original wrapper.

When ready-to-serve meat is purchased by the piece, it should not be sliced until shortly before it is used.

City Chicken Isn't!

That interesting package of meat labeled "city chicken" isn't chicken at all! It's veal on a skewer. Sometimes the veal cubes are alternated with pork cubes. Easy to cook and easy to eat, the skewered meat needs a bit of browning in hot fat to develop a rich brown crust, then slow cooking with a small amount of liquid until tender.

double-acting baking powder, 1½ teaspoons salt, 5 egg whites, 6 tablespoons sugar, two-thirds cup shortening, one and one-third cups sugar, one and one-third cups milk, ¼ teaspoon vanilla, ¼ teaspoon almond extract.

WEDDING CAKE

Mix recipe twice. First mixing is used for 10-inch square cake; the second mixing to be divided between the two 8-inch square cakes.

PREPARATION: Let eggs and shortening stand at room temperature an hour or two. Use butter, margarine, lard or vegetable shortening. Butter gives a slightly cream-colored cake; the others a whiter cake. Line bottoms of one 10 x 10 x 2-inch square pan and two 8 x 8 x 2-inch square pans with paper. Sift flour once before measuring. Lift by spoonfuls into cup until piled high, then level off by drawing spatula or straight knife across top. Do not pack or shake down.

MEASUREMENTS: Three cups sifted cake flour, 4 teaspoons,

double-acting baking powder, 1½ teaspoons salt, 5 egg whites, 6 tablespoons sugar, two-thirds cup shortening, one and one-third cups sugar, one and one-third cups milk, ¼ teaspoon vanilla, ¼ teaspoon almond extract.

MIXING METHOD: 1. Sift flour once, then measure, add baking powder and salt, and sift together three times.

2. Beat egg whites until foamy, add 6 tablespoons sugar gradually, and continue beating until mixture will stand in soft peaks.

3. Cream shortening, add one and two-thirds cups sugar gradually, and cream together until light and fluffy.

4. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add egg whites and flavorings and beat thoroughly into batter.

BAKING: 1. Turn first mixing of batter into the prepared 10 x 10 x 2-inch square pan. Bake in moderate oven (350 degrees F.) 1 hour and 15 minutes, or until done.

2. When first cake is baked, mix second batch of cake batter as in

the first mixing. Turn batter into the two 8 x 8 x 2-inch pans. Bake in moderate oven (350 degrees F.) 45 minutes, or until done.

COOLING: Cool cakes in pans on racks 10 minutes. Then loosen from sides of pans with spatula, turn out, remove paper, and cool right-side up on racks to cool.

When thoroughly cooled, at least 1 hour, brush cakes to remove any loose crumbs. Then cut off edges of one of the 8-inch square cakes into a 5-inch square cake.

FROSTING: Prepare ornamental frosting. Then place 10-inch cake on large flat tray or plate. Frost top and sides with thin layer of ornamental frosting. Cover center of cake with extra frosting. Place 8-inch cake on top, centering evenly. Cover top and sides with thin layer of frosting. Frost center of layer with extra frosting. Adjust 5-inch cake on top and cover top and sides with thin layer of frosting. Spread more frosting on top and outside of cake; then, with a knife go over entire cake, making a smooth flat surface for decorating. Decorate cake with garlands and small roses, with a pastry tube.

CUTTING THE CAKE: Cut top layer in half and then each half in 5 slices. Divide second layer in 3 strips and slice. Divide third layer in 4 strips and slice. Serves 60.

Ornamental Frosting: One-half cup butter or margarine, ½ teaspoon salt, 12 cups sifted confectioners' sugar, 5 egg whites, unbeaten, ¼ cup cream (about), 2 teaspoons vanilla.

Cream butter or margarine. Add salt and part of the sugar gradually, blending after each addition. Add remaining sugar, alternately with the egg whites first, then with the cream, until of right consistency to spread,

beating after each addition until smooth. Add vanilla; blend. (While frosting cake, keep bowl of frosting covered with a damp cloth to prevent excessive evaporation.)

Many brides and their mothers worry about what to serve at the wedding reception. It is all right to have just the wedding cake and punch and/or coffee. Nothing more is called for. You need never feel pressured to offer the guests more.

Here is an interesting punch made with Rose wine. It will be a delightful pink color.

Hearts and Flowers Punch
2 bottles Rose wine, chilled
2 cans frozen lemonade concentrate
Punch should be made in a 1 quart raspberry sherbet

Combine wine and lemonade concentrate; stir until concentrate melts. Pour over heart-shaped mold in small punch bowl. Put a spoonful of raspberry sherbet in each punch cup before ladling punch. Makes about 24 punch cup servings.

To make ice mold: Fill aluminum-foil heart-shaped baking pan with water; freeze.

If you're going to have tiny sandwiches, do get someone to help you make them. They can be frozen (better garish them after you remove them from the freezer) or made early in the day and covered with wax paper and a damp towel.

Cut your bread into the desired shapes the day before and store in plastic bags or in a tightly closed pan. Make up your spreads and refrigerate them. Then plan on at least 15 minutes for each dozen sandwiches you make. Be sure butter is soft.

We wish every June bride a happy life. We hope her mother won't be exhausted getting ready for the occasion. Let us know if we can help.

Values in Pork

WASHINGTON (UPI)—It would provide as much protein as in a chop and 17 bowls of cereal to take 16 slices of bread to provide chop. One serving of pork liver to mashed sweet potatoes.

Michigan Vacation Trail

Lilac Festival Coming Up

(Editor's Note: One in a series of snapshots that will come through the summer vacation season detailing the special festivals and points of interest for Michigan vacationers.)

By United Press International
Lilac bushes and trees, some planted by French missionaries in the early 1800s, are expected to reach their peak of white, purple and lavender colors June 8-12 for Mackinac Island's annual Lilac Festival.

A lilac parade, featuring horse-drawn floats, on June 12 will be the highlight event of the celebration. Other festival activities will include flower tours, social events and a queen coronation.

In addition to festival events, Mackinac Island has many attractions for visitors.

There are horse and carriage rides to all points of scenic and historical interest and tours of the island's historic fort, built and used as a stronghold by the British in 1780 in their battle to retain America in the Revolution and again in the War of 1812.

Many changes have been made in historical installations on the island. In recent years under a continuing restoration program directed by the Mackinac Island State Park Commission.

Mackinac has more than 300 public fishing sites on lakes and streams to assure vacation guests access to the finest fishing waters.

The public sites are in addition to state, county and municipal parks on the shores of many lakes and along rivers, public lands in forests, game projects and other recreational areas.

In 1959, approximately 5,000,000 fish, including 4,728,000 trout, were planted in Michigan waters from state hatcheries.

The Cho-Ge-Goi Club at Traverse City will provide the proof for a fisherman's claim that he landed "a big one."

The Indian name of the club, operated by the Traverse City Chamber of Commerce, means big fish. The club was formed in 1933.

to give suitable recognition to fishermen who catch unusually large fish.

In the past 16 years well over 1,500 plaques have been awarded to anglers for catching fish which measured up to rather strict club qualifications which were verified at control points.

What! Money Has Geriatric Problem, Too

WASHINGTON (UPI) — These are the Treasury's guidelines for determining if currency is fit to continue in circulation: It must be fairly clean, so that its class, denomination and genuineness can be determined without difficulty.

It must contain a sufficient amount of "life" or "stiffness" to permit its being handled with facility.

It should not contain heavy creases which break the fiber. It should not be so badly soiled as to be offensive, or be torn, perforated or otherwise mutilated. Turned down corners do not render notes unfit.

Grand Rapids Will Ask Millage for Renewal

GRAND RAPIDS (U-P) — A proposal asking a 1.75-mill increase for increase for three years to help finance an urban renewal project has been added to the Aug. 2 ballot in Grand Rapids.

City commissioners acted to place the question before voters in a program aimed to start a new civic center and downtown rejuvenation.

The Commission also adopted a resolution urging city voters and those in the metropolitan area to support Kent County plans for a new commercial airport in nearby suburban Cascade to replace the operated by the Traverse City Chamber of Commerce, means big fish. The club was formed in 1933.

Deaths in Pontiac and Nearby Areas

JOHN B. ADAMS

Service for John B. Adams, 75, of 224 Chandler Ave., will be held at 11 a.m. Saturday at Sparks-Griffin Chapel with burial in Roseland Park Cemetery.

Mr. Adams was an employee of Borden Dairy Co., a member of First Methodist Church.

Survivors include his wife, Mary; two daughters, Mrs. E. W. Watch-

podet of Drayton Plains and Mrs. P. E. Drukenpock of Amador City, Calif.; four grandchildren; one great-grandchild; two brothers, Edward and Frederick, both of Detroit; and a sister.

Mr. Adams died unexpectedly yesterday at his home.

ROBERT C. BEATTIE II

Prayers will be offered at 10 a.m. Saturday at the Coats Funeral Home, Drayton Plains, for Robert J. Beattie II, 28-day-old son of Mr. and Mrs. J. Beattie of 6321 Hatchery Rd., Waterford Township. Burial will be in Lakeview Cemetery.

Surviving besides his parents are grandparents, Mr. and Mrs. Robert C. Beattie, of Waterford Township and Mr. and Mrs. Chester Cecil in Fenton.

The infant died early today at St. Joseph Mercy Hospital.

DOMENIC BONACCI

Domenic Bonacci, 69, of 6791 Elizabeth Lake Rd., died yesterday of a heart attack after an illness of several months.

A former employee of Fisher Body Division, he was a member of St. Michael Catholic Church.

Mr. Bonacci leaves his wife in Italy; a son, Carmine in Italy; a brother, John with whom he lived; and two sisters in Italy.

The Rosary will be recited at 8 p.m. Friday at the Brice-Smith Funeral Home.

Service will be held at 8:45 a.m. Saturday at St. Michael Catholic Church with burial in Mt. Hope Cemetery.

CHARLES M. COWAN

Word has been received of the death of former Pontiac resident Charles M. Cowan, 58, of 1119 Main St., Tucson, Ariz. He died of a heart ailment at his home Tuesday.

He was a member of the Masonic Lodge.

Mr. Cowan leaves his wife, Stella; two sons, Charles M. Jr. and David, both at home; a daughter, Mrs. Joan Harris in California; a grandson, and two sisters, Mrs. Harriet Poole of Holly and Mrs. Ralph Rethick of Detroit.

Service and burial will be from the Adair Funeral Home, Third and Dodge streets, Tucson.

MRS. MARIA C. FUCILLA

Mrs. Maria Fucilla, 88, died yesterday at the home of her daughter, Mrs. Frank Amantea of 38 Oriole Rd. with whom she made her home.

Mrs. Fucilla's body was taken from the Donelson-Johns Funeral Home to the Street Funeral Home in Racine, Wis. Wednesday evening.

Service will be held at the Sacred Heart Church in Racine Saturday with burial in the Holy Cross Cemetery.

MRS. W. S. MATTHEWS

Former Pontiac resident Mrs. Wentworth S. (Elizabeth A.) Matthews, 67, of 1085 Kader Dr., Cleveland, Ohio, died yesterday at South West Hospital in Cleveland after an illness of several years.

She was a member of St. Michael Catholic Church, the Altar Society of her church and Daughters of Isabella, all of Pontiac.

Surviving besides her husband are two sons, Robert A. of Cleveland and L. Col. Donald E. with the Air Force stationed at Scott AFB, Ill.

Also surviving are three sisters, Mrs. Mary Tunning of Pontiac, Mrs. Catherine Arley and Mrs. Christine Kellogg, both of Milford; and a brother, Joseph McGinnis of Detroit.

Service will be held at 10 a.m. Friday at the Holy Family Catholic Church with burial in the Holy Cross Cemetery in Cleveland. Her body is at the Nichols Funeral Home, 14500 Madison Ave., Cleveland.

JAMES A. WRIGHT

James A. Wright, manager of the Oakland County Credit Union, died at his home this morning of a heart ailment. He was 64.

A member of Central Methodist Church and the Optimist Club, he was formerly employed at Stapp's and Nisley's Shoe Stores.

Surviving are his wife, Ruth; a daughter, Mrs. Dorothy Bommer-schein; a granddaughter, and four brothers.

Service will be held at 1:30 p.m. Saturday at the Hutson Funeral Home with burial in White Chapel Memorial Cemetery.

WILLIAM YOST

William Yost, a retired farmer, died this morning of a heart attack at his home, 35 Williams St. He was 85.

Service will be held at 3 p.m. Friday at the Farmer-Stover Funeral Home with burial in the Saginaw Plain Cemetery.

DONALD A. HACKETT

ROCHESTER — Former resident Donald A. Hackett, 64, of Hialeah, Fla., died yesterday at his home after a long illness.

He had been employed by Fisher Body Division.

His body will be at the William R. Potere Funeral Home after 7 p.m. today.

MRS. CLYDE C. SCHUTTE

TROY — Service for Mrs. Clyde C. Schutte, 63, of 3650 Fernleigh St., will be held at 1:30 p.m. Saturday in the Price Funeral Home. Burial will be in Roseland Park Cemetery, Berkley.

Mrs. Schutte died yesterday at Ardmore Hospital, Ferndale, after a brief illness.

Surviving are her husband; a daughter, Mrs. John Gariak of Royal Oak; two sons, Jesse B. Jones of Warren and the Rev. Robert C. Jones of San Jose, Calif.; a brother, three sisters and 10 grandchildren.

MRS. JOHN R. SCOTT

MILFORD — Service for Mrs. John R. Scott, 75, of 10872 Bogie Lake Rd., will be at 1:30 p.m. Saturday at Richardson-Bird Funeral Home with burial in Oak-land Hills Memorial Cemetery.

Mrs. Scott died yesterday at Pontiac Osteopathic Hospital after a brief illness.

Surviving are her husband, a son Ralph of Milford, a sister, Marie Linder of Milford, a brother and two grandchildren.

KENNETH M. TREACY

ROCHESTER — Service for Kenneth M. Treacy, 71, of 317 Glen-dale St., will be held at 3 p.m. Saturday in the William R. Potere Funeral Home. Burial will be in Mount Avon Cemetery.

Mr. Treacy died today at his home after a short illness.

He was a retired carpenter. Surviving are a son, Kenneth of Orchard Lake, a daughter, Mrs. Carl Steens of Rochester, and four grandchildren.

Deaths Elsewhere

HOLYOKE, Mass. (AP)—Elizabeth S. Towne, 85, a leader in development of the modern religious philosophy known as New Thought, died Wednesday.

VICTORIA, B.C. (AP)—Lester Patrick, 76, whose premature gray hair earned him the title "The Silver Fox of Ice Hockey," died Wednesday after a lengthy illness. From a 13-year-old stick boy, Patrick moved up through the ranks of player, coach of the New York Rangers and an official of the Madison Square Garden in New York City.

World Assembly to Gather June 4

Moral Re-Armament Group Will Meet at Mackinac Island

The World Assembly for Moral Re-Armament begins June 4 at Mackinac Island and simultaneous at Caux, Switzerland, and will continue throughout the summer.

The theme for this year's assembly is "There Is a Cure to Crisis."

The keynote of the assembly is set by a statement issued by Dr. Need to raise a beef steer.

Frank N. D. Buchman, initiator of MRA.

"Today, nations are in convulsion. The answer lies in radical drastic dealing with the motives of men and nations. Moral Re-Armament stands as the dynamic alternative for mankind. It is the way up and the way out for all humanity. We will win the world in time."

The inauguration of a television film production studio, the only one of its kind in the world, will mark the opening of the assembly Mackinac Island and simultaneous at Mackinac. The studio will provide the weapons (films) to put the free nations on the offensive with the winning idea for the whole world, says Buchman.

About 3,750 gallons of water are needed to raise a beef steer.

Japanese Press Raps Socialists

Sees Threat to Quit Parliament Over Pact as Danger to Nation

TOKYO (AP) — Japan's major newspapers today strongly criticize the threat of Socialist members to resign from Parliament in a desperate effort to knock out the U.S.-Japan mutual security treaty.

Editorials said the resignation of the 125 opposition members of the 467-member lower house would endanger Parliamentary government in Japan.

The major papers, whose nationwide circulation each runs into the millions, previously had strongly supported the Socialist campaign to drive Prime Minister Nobusuke Kishi from office and cancel the defense pact.

The newspaper reaction was particularly significant since Socialist withdrawal from Parliament can affect the treaty only if it rallies public opinion sufficiently to force Kishi to dissolve the legislature. If that is done before June 19, when ratification of the treaty automatically takes effect, the ratification is canceled.

Socialist party leaders announced Wednesday they were assembling the resignations of their deputies and would submit them at a suitable time unless Kishi dissolved Parliament, resigned and called new elections in which the security treaty would be the chief issue.

Kishi showed no signs of wavering in his determination to put the treaty into effect June 19, the date President Eisenhower is scheduled to begin a state visit to Japan.

Kishi's Liberal-Democrats control more than 280 seats, more than enough strength to maintain a quorum without the Socialists.

The leftist student federation Zengakuren meanwhile announced plans to march 20,000 to 30,000 students on the Parliament building and Kishi's official residence Friday, demanding that Parliament and the prime minister quit.

The student march was planned as a curtain-raiser for a one-hour protest general strike called for Saturday by Sotyu, the country's largest labor federation with a membership of 3½ million.

Russ Tamblin, Bride Sorry They Married

HOLLYWOOD (AP) — Actor Russ Tamblin, who married British showgirl Elizabeth Kempson after a one-day courtship a month ago, said Wednesday they're both sorry they acted so hastily.

They became acquainted in England two years ago, but did not see each other again until they met and married in Las Vegas last May 1.

Tamblin said he and his bride are still living under the same roof at his beach house, "but we probably will separate. Maybe we will seek an annulment."

Officials Descend on Mackie

Push County Road Plans

Oakland County road officials have nine pet projects they'd like State Highway Commissioner John C. Mackie to incorporate in his next five-year state road building program.

Six officials have a 10 a.m. appointment with Mackie in Lansing tomorrow to try to sell the secret package.

Robert O. Felt, chairman of the road commission, declined to reveal details of the package until Mackie hears them.

Broadway Blackout Expected

NEW YORK (AP) — A blackout of all Broadway shows seemed certain tonight.

Producers began closing theaters after Actors Equity forced cancellation Wednesday night of the hit play "The Tenth Man."

A million-dollar damage suit by producers against Equity was set to be filed today.

Further negotiations were scheduled, but both sides appeared gloomy. The old contract expired Tuesday night.

The greatest stumbling block has been the union's demand for a pension plan.

The cast of "The Tenth Man" attended a union meeting at certain time instead of reporting backstage at the Booth Theater. It was part of a plan to shut down one play a night.

The producers, represented by the New York League of Theaters, said the actors' failure to appear for the performance constituted a strike.

Late Wednesday night the league said notices will be posted on bulletin boards of all 22 Broadway houses informing the casts:

"Productions are suspended until and remain suspended until Equity tells us these stoppages will cease."

The union said it was directing actors to report for work at all theaters tonight half an hour before curtain time. If the playhouses are closed, an Equity spokesman said, the actors will consider it a "lockout."

Kremlin Ignores Pasternak Burial

MOSCOW (UPI) — Nobel Prize writer Boris Pasternak went to his grave today as he had lived — loved by simple people and ignored or disliked by the Communist regime.

More than 1,000 weeping and silent persons observed the simple last rites.

His novel "Dr. Zhivago" portrayed the struggle of an individual in Russia when society is being reformed to assert the state's domination over all individuals.

It was a best seller in the Western world but was never wholly published in Russia. It won rave reviews in the West and the Kremlin's anger behind the Iron Curtain.

The Kremlin sent nobody to the funeral of the author of "Dr. Zhivago."

New Zealand observed the 100th anniversary of constitutional government eight years ago in June 1952.

Procancer Color Drugs Outlawed by Committee

WASHINGTON (AP) — The House Commerce Committee voted today to outlaw food, cosmetic and drug colors when laboratory tests show they can cause cancer in test animals or humans.

A similar prohibition already applies to food additives.

In approving a bill extending the anticancer provision to color additives, the committee beat down efforts to permit setting of tolerances that would allow questionable colors to be used in limited quantities.

Committee disagreement over this had stalled approval of the controversial bill for more than a week.

Secretary of Welfare Arthur S. Flemming, who strongly backed the bill, told the committee last month that scientists don't know enough about cancer to say flatly how much or how little of a substance that can induce cancer in test rats is safe for humans.

A committee source said several committee members, however, felt that it would be ridiculous to outlaw a color additive completely when scientists conclude that using minute quantities probably would pose no hazard.

This argument was rejected but committee members declined to give the vote margin.

Princess Grace to Stay With Family for Awhile

PHILADELPHIA (UPI) — Princess Grace of Monaco, who came here to visit her ailing millionaire sportsman father, said today she will spend more time with her family before returning to her little principality on the Mediterranean.

The princess said she found her father, John B. Kelly Sr., "looking very, very well" after a 45-minute visit at his bedside in Woman's Medical College Hospital yesterday.

Kelly, 69, a rags-to-riches contractor, was recuperating from an abdominal operation. A physician said he was in "satisfactory" condition and should be able to leave the hospital sometime next week.

Three Pontiac men accused of beating and shooting at Ernest Valderas, 27, of 50 Tregent St., demanded examination on felonious assault charges in Municipal Court yesterday.

Judge Cecil McCallum set their pretrial hearings for June 3 and set bond at \$1,000 on each of the trio. They are being held at the Oakland County Jail.

The three accused of the attack are James H. Kelly, 18, and his brother Benjamin, 19, both of 1291 Collier Dr., and Robert T. Henderson, 20, of 1661 Collier Dr.

The alleged assault took place early Wednesday.

Valderas told Pontiac police James Kelly called him from his home. Henderson hit him with a tire iron, and Benjamin Kelly fired at him with a .20 gauge shotgun.

The shot barely missed Valderas and struck a door. Valderas was not injured.

Four men were arrested. One was released when Valderas failed to identify him as one of the attackers.

About 15 billion match books are used annually in the United States.

Four men were arrested. One was released when Valderas failed to identify him as one of the attackers.

About 15 billion match books are used annually in the United States.

Three Pontiac men accused of beating and shooting at Ernest Valderas, 27, of 50 Tregent St., demanded examination on felonious assault charges in Municipal Court yesterday.

Judge Cecil McCallum set their pretrial hearings for June 3 and set bond at \$1,000 on each of the trio. They are being held at the Oakland County Jail.

The three accused of the attack are James H. Kelly, 18, and his brother Benjamin, 19, both of 1291 Collier Dr., and Robert T. Henderson, 20, of 1661 Collier Dr.

The alleged assault took place early Wednesday.

Valderas told Pontiac police James Kelly called him from his home. Henderson hit him with a tire iron, and Benjamin Kelly fired at him with a .20 gauge shotgun.

The shot barely missed Valderas and struck a door. Valderas was not injured.

Four men were arrested. One was released when Valderas failed to identify him as one of the attackers.

To Be Ann Arbor Chief

ANN ARBOR (UPI) — Deputy Chief Holland (Barney) Gainsley Tuesday night was appointed Ann Arbor police chief by the City Council. He will succeed Casper M. Enkemann who is retiring July 1.

VFW to Hear Nixon at Detroit Parley

DETROIT (AP) — Vice President Richard M. Nixon, expected to be the Republican nominee for president, will speak before the keynote speaker.

annual convention of the Veterans of Foreign Wars when it meets here Aug. 23-26. Louis G. Feldmann of Hamilton, Pa., VFW commander-in-chief, said the Democratic nominee is also expected to appear. He said Gen. Douglas MacArthur was being sought as the convention's keynote speaker.

U.S. Lauded as Chilean Airlift Ends

SANTIAGO, Chile (AP) — A huge American mercy airlift for the disaster-stricken people of Chile would up Wednesday with a harvest of good will for the United States.

More than 900 tons of food, clothing, blankets and two complete hospitals were flown here in six days aboard U.S. Air Force planes. Seven hundred U.S. relief workers came with them.

All this has touched Chileans, still in shock from the loss of several thousand fellow countrymen to earthquakes and tidal waves. Property damage is estimated at nearly one billion dollars.

In addition to diplomatic benefits for the U.S. government, Americans are receiving warm and personal thanks from ordinary people.

The U.S. military men and women are heroes here.

A soldier having his shoes shined at the airport is quickly surrounded by a dozen people who just stand and watch.

Army doctors and nurses are stopped in the streets by Chileans expressing thanks, a pilot can't pay for a drink in a bar.

"If I accept half the drinks the Chileans want to buy me, I couldn't stand up," one Air Force crewman said.

Carmakers Report 172,290-Unit Output

DETROIT (UPI) — The Automobile Manufacturers Assn. reported today that domestic motor vehicle production last week totaled 172,290 units, including 142,456 cars and 29,834 trucks and buses.

This compared with 154,975 cars and 28,382 trucks and buses in the previous week.

Total car-truck-bus production so far this year, the AMA said, was 3,779,853 through May 28, compared with 3,266,509 at the same time last year.

Man May Do More Than Talk About Weather

LOS ANGELES (AP)—The time may be coming—thanks to rockets and satellites—when man can finally do something about the weather.

So states Prof. Morris Neiburger, chairman of the department of meteorology at the University of California at Los Angeles.

He said the release of dust in the upper atmosphere or beyond might block enough radiation from the sun to counteract weather changes due to solar variations.

Neiburger, in a paper released Wednesday, told how rockets or satellites could be used for releasing the dust.

"If the particles were released in the stratosphere," he said, "the winds would quickly spread them over the earth and global effects would be attained."

Photographers, most of them amateurs, snap about five million pictures per day throughout a year. Peak season is in the summer vacation months.

U. of M. Fee Hike Applies to Summer

ANN ARBOR (UPI) — The recently announced fee increase at the University of Michigan will apply at the summer session, Dean Harold M. Dorr, director of the summer session, announced.

The fee for Michigan residents was increased from \$70 to \$80, and that for out-of-state students from \$135 to \$150.

Students at extension centers will now pay \$15 per credit hour, instead of the former fee of \$13.50.

Geerlings and Dehmel File Primary Petitions

LANSING (UPI)—Sen. Clyde H. Geerlings (R-Holland) and Arthur H. Dehmel (R-Unionville), filed petitions yesterday for the Aug. 2 primary.

Geerlings, during the heat of a 1958 tax debate on the Senate floor, announced he might not run again. He said he changed his mind at the urging of backers.

Robert F. Irwin, Allegan, filed \$100 to qualify for a spot on the 8th district GOP primary ballot for the seat now held by Sen. Edward Hutchinson (R-Fennville), a candidate for the GOP nomination for lieutenant governor. Fredrick Hilbert, Wayland, filed petitions last week for the same primary race.

There are 37,130 railway freight stations in the United States.

Bill Would Jail Those Who Abuse U.S. Flag

WASHINGTON (UPI) — Rep. Charles O. Porter (D-Ore) has introduced legislation to make abuse of the U.S. flag a misdemeanor punishable by a \$100 fine or 30 days in jail or both.

Porter drafted the bill after learning no federal law appeared to have been broken in the recent sale of 48-star flags in Haiti for use as dress goods, window curtains and duvets.

A standard passenger car tire contains about four pounds of carbon black.

Why Look Beyond America's 1st Choice Car for the things you want

This is the Kingswood 4-Door 9-Passenger Station Wagon

With wagons like this one in the lineup, it's no wonder Chevrolet is the most popular car in the whole U. S. All five Chevy wagons, 6- and 9-passenger models, are widest where wagons should be wide—with comfortable seating space that becomes up to 92-cu. ft. of cargo area by a simple adjustment. All five feature all the things that are making Chevrolet first choice, too: FULL COIL SUSPENSION cushioning all four wheels... an ECONOMY TURBO-FIRE V8 that gets up to 10% more miles to the gallon on regular gas, or that well-known saver, the HI-THRIFT 6... the shift-free smoothness of TURBOGLIDE... a wider front seat and more entrance height in Chevy's ROOMIER BODY BY FISHER than you'll find in any other car of the leading low-priced 3. Now's the best time to stop by and let your dealer list all the reasons why YOU CAN'T BUY ANY CAR FOR LESS UNLESS IT'S A LOT LESS CAR!

*Optional at extra cost

"WHO'LL GIVE ME FIVE?" — Auctioneer Paul Hillman demonstrates how he will ask for bids on some of the livestock to be sold Sunday afternoon at the Kingsbury School's annual fund fair. Also to be auctioned off are a goat, a monkey, a bicycle, farm equipment and tools. Games, fire engine and pony rides and special booths will be other featured attractions.

School to Feature Auction

Kingsbury Fair on Sunday

ADDISON TOWNSHIP — Plans are being completed for Kingsbury School's fifth annual fund fair to be held Sunday on the school grounds, Hosner and Oakwood roads, six miles northeast of Oxford.

One of the traditional highlights of the fair is the auction which this year will feature such items as a sailboat, luggage, a monkey, a goat, farm equipment, tools, livestock and a bicycle.

Auctioneers will be Bud Hickmott and Paul Hillman.

Planned on a New England country fair motif, the event will

50 Missionaries to Be at NCCC

1st World Evangelism Workshop Will Begin at School Sunday

AVON TOWNSHIP — More than 50 missionaries from Asia, Africa, Europe and America are expected to take part in the first annual World Evangelism Workshop Sunday through Thursday at North Central Christian College on East Avon road here.

Speeches on the theme of the workshop, "Into All the World in Our Generation," will be given at 8 p.m. Sunday through Thursday.

Programs will begin at 9 a.m. daily Monday through Thursday for the more than 500 persons attending.

Maurice C. Hall, assistant to the president of NCCC, will open the workshop Sunday night with a talk based on the theme of the five-day program.

His speech will be followed by one to be given by Ernest Stewart of Dearborn entitled "Return to Jerusalem."

Hugh Mingle, director of admissions and former German missionary, will open Monday night theme speeches with a report on Germany.

Other members of the NCCC administration and faculty participating will include Dean Lucien Palmer and Stephan Bilak, professor of Christianity.

Slides, progress reports and experiences will be presented from such nations as Japan, the Philippines, Formosa, Libya, Norway, Finland, Sicily, France and Africa.

Evangelist Bob Hare of Vienna, Austria, who has made recent visits to Hungary and Czechoslovakia, will report on life behind the Iron Curtain.

The dormitory and homes of members of Churches of Christ in the greater Detroit area will be available to visitors.

Children is a private school for children from kindergarten to high school age serving communities within a 20-mile radius. These include Metamora, Oxford, Lapeer, Rochester and outlying townships. Plans now are being made to add a sixth grade this year, enable Kingsbury graduates to make a natural transition into area high schools or to private secondary schools.

Linda Szczesny Weds D. R. Wagner in Rochester

MISS. DAVID R. WAGNER

ROCHESTER — Nuptial vows were repeated by Linda Elizabeth Szczesny and David R. Wagner Saturday in St. Andrew Catholic Church.

The bride is the daughter of Mr. and Mrs. Albert Szczesny of 321 W. Third St. The bridegroom's parents are Mr. and Mrs. Walter C. Wagner of Detroit.

For her wedding the bride chose a white, full-length gown of tulle with a scoop neckline and a softly pleated skirt. A pearl and orange blossom tiara secured her shoulder-length veil, and she carried a bouquet of lilacs of the valley, stephanotis and yellow roses.

Attending the bride were: Sheilene Cowan, Elizabeth Kinkaid, and Joan Taylor, Celia Ann Szczesny was flower girl.

Ronald M. Wagner of Milwaukee, Wis., served as best man. Ushers were Wayne L. Wilson of Drayton Place, and Norbert Raczkowski of Hamtramck.

Immediately following the ceremony a reception was held in the home of the bride's parents.

The newlyweds will live in Detroit following their honeymoon trip to Niagara Falls.

8 Area Students to Graduate Sunday

Eight area students will be graduated from Lawrence Institute of Technology Sunday during commencement exercises in the Ford Auditorium, Detroit, the school announced yesterday.

They are Joel W. Bailey of 2719 LeRoy Lane, Orchard Lake; Lea F. Brown Jr. of 3171 Newton Rd., Walled Lake; Keith Franklin, son of Mr. and Mrs. N. Glenn Franklin, 5185 Latimer St., Pontiac; and Fred Montgomery of 3333 Pontiac Trail, Walled Lake.

Others are Charles E. Souders Jr. of 126 1/2 E. Third St., Rochester; Robert Stoner of 312 Taylor St., Rochester; James W. Smith of 2121 S. Commerce Rd., Walled Lake; and Marvin Wilber, son of Mr. and Mrs. Howard Wilber of 880 E. Snell Rd., Rochester.

Want 'M Grid Tickets?

ANN ARBOR — Athletics Director Fritz Crisler has announced that 120,000 season ticket application blanks are being mailed out this week for the University of Michigan's 1960 home football season. Michigan will play six home games next fall.

More than 3.5 million Americans live in mobile homes or house trailers. There are about 12,500 mobile home parks located in the United States.

Firemen at Washington Plan Sunday Breakfast

WASHINGTON — All the pan-cakes and pork sausages you can eat will be offered Sunday at the annual breakfast sponsored by the Washington Fire Department.

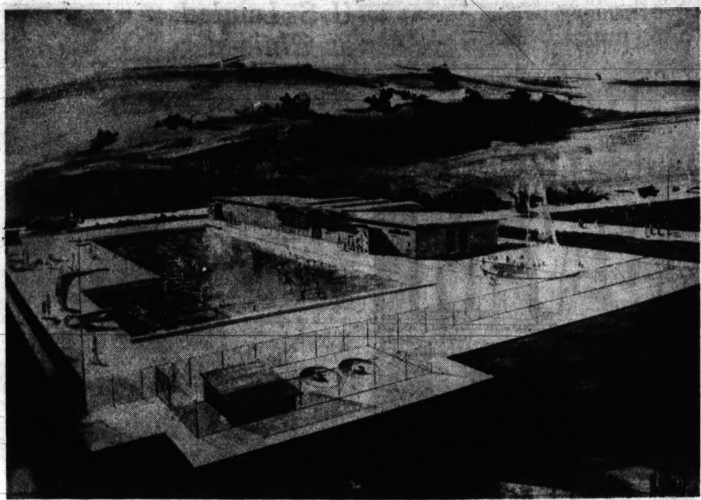

Serving will begin at 7 a.m. and "if you go to a 12 noon church service, you still can make it," Fire Chief John Sheldon announced.

Proceeds will be used to purchase new fire-fighting equipment and maintain the trucks and building. "The breakfast traditionally saves taxpayers' money," said Chief Sheldon.

ELAINE RAE ELKINS

A February wedding is planned by Elaine Rae Elkins, daughter of Mr. and Mrs. Raymond A. Elkins of 1039 Beverly Dr., Orion Township, and Paul A. Stapert. He is the son of Mr. and Mrs. Osborn Stapert of Flint.

NEW SWIM CLUB — Construction of Oakland County's newest swimming club, The Woodbrooke Hills, is scheduled to begin next week, according to club officials. The swimming facilities, to be owned by 200 members, will be built on Farmington road between 12- and 14-Mile roads at a cost of \$105,000. The pool is financed by

Death Chickens Out in Race for Life

Police raced with death from Detroit to Mariette yesterday, but death dropped out.

Covering the course at breakneck speeds were two Detroit policemen and three state troopers in a patrol car relay.

They carried four pints of blood to Mariette Community Hospital, 80 miles from Detroit, in 75 minutes.

When State Trooper Alex Schwartzkopf of the Sandusky Post ran into the hospital with the blood he was told it no longer was needed.

The patient, Joseph Senko, 69, of North Branch, hadn't lost as much blood as doctors had anticipated.

His left leg had been amputated by a corn picker earlier in the day. His condition was still listed as "poor" today.

Pool Ready for Use at Avon Twp. Motel

AVON TOWNSHIP — The Pre-Teen Club of the Clarkson YWCA will initiate the new pool at the Rochester Motor Lodge here with a swimming party Friday evening.

The new heated pool, which measures 20 by 40 feet, was completed yesterday. It has a roped-off area for nonswimmers at the shallow end of the pool and a diving board at the deep end.

It will be illuminated at night, according to Mr. and Mrs. Harold H. Brown, motel owners. The motel, at 2070 S. Rochester Rd., was opened in February 1959.

To Pick Civic Officers

WATERFORD — Election of officers will be held at the annual meeting of the Woodhull Lake Civic Assn. Inc. at 7:30 p.m. Monday in McVittie Elementary School. Residents of Eyster's Woodhull Lake Farms subdivisions 1 and 2 have been urged to attend.

Avondale Class of '60 to Hear College Head

The largest graduating class in commencement speaker next Wednesday, the history of Avondale High School, 143 members, will hear Dr. Samuel Marble, president of the new Tri-county College in the Saginaw Valley area, as their commencement speaker.

Commissioners OK Proposition for Troy Ballot

TROY — The wording of two proposals to appear on the Aug. 2 ballot here seeking authorization to borrow money for a \$4,025,000 sewage disposal plant and sewer lines was approved by the Troy City Commission last night.

The Commission will ask for authority to borrow \$2,650,000 for the new plant on one proposition and for \$1,375,000 for the lines on the second proposal.

A public hearing was set for Aug. 1 on a proposed swimming pool ordinance. It is being drafted to regulate the location, boundaries, fencing and landscaping of community and subdivision pools.

Commissioners also considered 14 applications for the city manager's position being vacated Aug. 1 by David W. Hasse, but no decision was reached.

To Pick Civic Officers

WATERFORD — Election of officers will be held at the annual meeting of the Woodhull Lake Civic Assn. Inc. at 7:30 p.m. Monday in McVittie Elementary School. Residents of Eyster's Woodhull Lake Farms subdivisions 1 and 2 have been urged to attend.

Walled Lake C. of C. to Hear John Mackie

WALLED LAKE — State Highway Commissioner John C. Mackie will be guest of honor here June 14 at a dinner-meeting of the Chamber of Commerce.

The program, at Walled Lake Methodist Church, will begin at 6:30 p.m.

Mackie is tentatively scheduled to discuss "Road Bonding" and report on the proposed extension of Northwestern highway.

His speech will be followed by a question and answer period.

Treasurer will be Superintendent of Walled Lake Schools Clifford H. Smart.

Persons wishing to attend can make reservations by contacting members of the Chamber of Commerce before June 11.

Church to Fete Grads

LAKE ORION — The Women's Society of Christian Service of the Methodist Church here will serve high school gymnasium. The Rev. A. H. Powell of Elmwood, a tea for June high school graduates, their families and friends Methodist Church will give the address after the 11 a.m. service in the church house Sunday.

'I Dumped Mail,' Says Postman

Carrier Admits Leaving Eight Bags Full in Field in Bloomfield Twp.

A Madison Heights mailman who complained that "routes were too heavy" and admitted dumping eight bags of magazines and periodicals in Bloomfield Township was arraigned yesterday in Federal Court on charges of obstructing the mails.

Stephen B. Fearn, 35, of 1680 Cadmus Rd., Troy, stood mute to his arraignment before Federal Judge Thomas P. Thornton. A hearing was set for June 22, and Fearn was released on a \$1,000 bond.

Once a postman in Keego Harbor, Fearn has admitted to Postal Inspectors in a statement that he has been throwing away second and third class mail for about two months.

"It's sure a shame that mailmen have to be loaded down with this junk," Fearn said.

He was taken into custody Tuesday by Postal Inspector Earl Wheeler after a woman found the mail abandoned in a dump in Bloomfield Township near the Miracle Mile Shopping Center.

The abandoned mail was discovered Saturday by the woman who found two children while taking a walk in the area. She called the Bloomfield Township police who turned the mail over to postal authorities.

Fearn has been a mailman in Madison Heights for five months, working under the Royal Oak Post Office.

He previously had delivered mail in Keego Harbor for four years, resigning in July 1958.

"We hired him because he had experience," Royal Oak Postmaster Grant Mandlin said.

"There has been no indication that he abandoned mail while in Keego Harbor."

Since he has been working out of the Madison Heights branch office Fearn has been serving as a swing man, filling in on four or five routes, when there is a vacancy, explained Mandlin.

It convicted, Fearn could face a maximum of five years in prison on the charge.

Sound takes five seconds to travel one mile by air.

First President of the United States to ride in an automobile was William McKinley who was taken to a hospital by motor ambulance after being wounded by an assassin.

Drunk Walking Charge Differs From Driving

DAYTON, Ohio (AP) — Drunk driving is quite a serious charge as everyone knows, but what about the drunk who wasn't driving a car?

A Dayton man recently demanded at police headquarters: "Now see here! I want to get to the bottom of this. Was I driving my car or not when I was arrested yesterday?"

The clerk checked the records and said: "No sir. You weren't driving your car. You were arrested on a walking drunk charge. Area of Guatemala is about that of Tennessee."

Now Hal Hayes Has Problems

Zsa Zsa Gabor Was No Trouble Compared to Insurance Firm, AF

LOS ANGELES (AP) — Hal B. Hayes—whose big worry once was whether Zsa Zsa Gabor would return his 20-carat engagement diamond—now has more serious disaster knocking at his mansion door.

Insurance firm has filed suit to force him into receivership. And the Air Force says that if he doesn't get to work on stalled housing projects he'll risk cancellation of contracts of other legal action.

Hayes was in seclusion at his modernistic "House of Tomorrow" high on a Beverly Hills hillside. He had no contact on the latest complications besetting his financial empire.

Work stopped last month at six military bases where Hayes was building 40 million dollars in housing units. Subcontractors charged that Hayes hadn't paid them and liens piled up against the jobs.

Continental Casualty Co. Wednesday filed suit in federal court to have a receiver appointed for Hayes' interlocking network of 51 contracting firms. Continental work performance bonds on the Hayes jobs.

Continental charged that the firm's records are being concealed, altered, defaced and destroyed, that millions in government payments have been misappropriated, and that misappropriations are continuing.

The Air Force has reportedly told Hayes that if he doesn't get on with a \$6½-million-dollar job at Beale Air Force Base, near Marysville, Calif., his contract may be canceled.

Hayes, a handsome, graying, balding man of 48, was once engaged to Zsa Zsa Gabor. She broke the engagement two months later—and returned his walnut-sized diamond, and remained, she said, his "dear friend."

Quite Fascinating Show Biz Book

Murray's 'Pogo Stick' Not Bad

By BOB THOMAS
HOLLYWOOD (AP)—The show biz books continue to flood the market. One of the better recent ones is Ken Murray's "Life as a Pogo Stick."

This is no confessional of the "How I Conquered Drink, Dope and Delinquency to Become a Star" school. It is an aptly named account of a comedian-obsessive's many ups and downs in the entertainment business. He has a natural pride in the ups, but doesn't gloss over the downs.

—he quotes a New York review describing his "Blackouts" as "long, vulgar, unwhimsical."

The most fascinating part of the Murray saga is his personal life. Ken describes his early years with his beloved mom and pop and older brother Joseph, a stern man, home only seldom. Ken was a teen-ager before he learned that mom and pop were actually his grandparents and Joseph, with whom he often argued, was his father.

Joseph was a vaudeville who didn't want it known he had a growing son. He had been divorced from Ken's mother and figured the boy would have a more normal upbringing with his grandparents acting as his real mother and father. Ken's story of his search for his mother is a poignant tale.

Railroads to Aid in Missile Test

14 Lines Probably Will Join U.S. in Minuteman Plan This Summer

OMAHA, Neb. (UPI)—Strategic Air Command headquarters has announced the names of the 14 railroads expected to participate in the Minuteman intercontinental missile test train program this summer.

Companies expected to take part in the June - through - November tests include Union Pacific, Southern Pacific, Western Pacific, Denver and Rio Grande Western, Northern Pacific and Great Northern.

Also included are Chicago Great Western, Duluth, Mesabe and Iron Range, Chicago and North Western, Soo Line, Illinois Central, Milwaukee Road, Chicago, Burlington and Quincy and The Northern Railway.

The first six planned tests will begin June 30 from Hill AFB near Ogden, Utah. Later this summer, similar tests will begin in the Des Moines, Iowa, area.

Minuteman missiles will not be carried aboard the trains since the tests are primarily designed to explore problems in communications, control, logistic support and environmental conditions.

The missile train is expected to operate in and through the following states during the test program:

Utah, Nevada, California, Oregon, Washington, Idaho, Montana, Wyoming, Nebraska, Iowa, Missouri, South Dakota, Minnesota, Wisconsin and Illinois.

The missile test train will be manned by a crew of about 30 Strategic Air Command officers and airmen. The participating railroads will furnish the locomotive, cabooses and the train operating crew.

SAC headquarters at Offutt AFB near here said the railroad missile program is designed to give the command a mobile force.

Spokesmen pointed out that stationary missile launch sites are an attractive target for aggressors.

OK Quota Cut on Cuban Sugar

Agriculture Committee Approves Ax if Castro Faults on Commitments

WASHINGTON (UPI) — The House Agriculture Committee Wednesday approved a bill to authorize cuts in Cuba's share of the U.S. sugar market only if Cuba fails to fill her U.S. quota.

The bill was approved by a near party-line vote of 20-13. Earlier, the committee rejected by a narrower 13-14 margin an administration proposal to give the President authority to cut Cuban quotas if a crisis in relations with President Fidel Castro's regime develops while Congress is not in session.

Committee Republicans, outvoted by a Democratic majority in both proposals, served notice they would seek to carry their fight for the presidential quota-cutting authority to the House floor.

The bill approved by the committee, sponsored by Chairman Harold D. Cooley (D-N.C.), extends the Federal Sugar Act for one year beyond its present expiration date of Dec. 31, 1960.

The measure makes only one change in the sugar law under which this government controls all sugar marketing in the United States and allocates shares in the market to foreign and domestic producing areas.

The single change provides that if any producing area cannot or will not fill its quota, the Agriculture Department may reduce the quota by the amount of the deficit and get the sugar from other sources.

Prior to the committee's action, Cooley charged that Eisenhower had asked the group to "commit an act of economic aggression against Cuba" which would boom and hurt the United States in Latin America.

Phone Contract Expires Tonight

Bell and Workers Talk Today About Firm's Pay Hike Offer

DETROIT (AP) — Negotiations between Michigan Bell Telephone Co. and the Communication Workers of America (CWA) went into the final round today with the present contract due to expire at midnight.

In its latest offer made yesterday, the company proposed a new three-year pact calling for pay raises ranging from \$1 to \$4, along with three fringe benefits.

The benefits include a plan covering "extraordinary" medical expenses, a fourth week of vacation after 25 years, instead of the present 30 years and a moderate increase in minimum pensions.

The CWA, which represents 16,800 Michigan Bell employees, has not yet taken a strike vote. It is expected that bargaining will continue if agreement is not reached by the deadline.

The company and Union have been negotiating in Detroit since April 28. The CWA has demanded a general wage hike, a more liberal vacation schedule and improved health insurance and pension programs.

The Union bargaining unit is composed of employees in plant, traffic and accounting departments. If a strike comes, service will be maintained by Michigan Bell's 4,000 supervisory employees.

Bill in Senate Would Help Ex-Detroiters

WASHINGTON (AP) — A Senate subcommittee was considering today a bill by Sen. Philip A. Hart (D-Mich.) which would permit the government to help a former Detroit doctor establish a hospital in French West Africa.

Hart told the Senate Government Operations subcommittee Wednesday his bill would allow the government to donate surplus property for educational and health needs abroad.

He said the measure would permit government help for Dr. Henry Archambault to carry out his plans for construction of the hospital in the upper Volta region of French West Africa.

A spokesman for a Detroit group backing the bill told the committee Dr. Archambault has been accomplishing medical wonders in Ghana since 1954, but now is handicapped by lack of facilities and support from the Ghanaian government.

WEATHER OUTLOOK — These maps, based on those issued by the U. S. Weather Bureau in Washington, show the outlook for the next 30 days. Maps show that a hot and wet June is in prospect for much of the country. Precipitation is expected to exceed normal in most of the country. It will be hotter than normal over the Great Lakes region and most of the area in the western half of the nation.

Adlai Supporters Polled en Masse—Upset His Foes

LOS ANGELES (AP) — Platoons of Adlai Stevenson supporters deployed themselves in front of California Gov. Edmund G. Brown during his sidewalk poll last week, a Democratic candidate charged.

The governor's poll showed most voters questioned favored Stevenson for the Democratic presidential nomination.

Orville T. Fry, Democratic candidate for Congress in the 29th California district, charged Wednesday "At least two platoons of Stevenson supporters had been imported in advance of the governor's stroll. Sidewalk sergeants deployed the 'supporters' in strategic positions along 5th street."

Reds May Stir Periodic Crises

West Expects 6-12-Month Stalemate

By JOHN M. HIGHTOWER
WASHINGTON (AP) — Western leaders now look for a stalemate on major issues between the Soviet Union and the Western powers for the next six to 12 months.

During this time there may be periodic crises brought on by Soviet or Red Chinese efforts to probe fit weaknesses among the Allies and throw them off balance.

Berlin and Southeast Asia are considered danger points, but the chance of a major Soviet challenge to the West at Berlin is presently believed to be remote—pending a proposal by Soviet Premier Nikita Khrushchev for a new summit conference.

In the interim British Prime Minister Harold Macmillan and French President Charles de Gaulle are expected to take the lead in trying to work out closer ties between Britain and international economic organizations on the continent. These include the European Common Market, the European Atomic Community and the Coal and Steel Community.

NEED ANOTHER LOOK

Macmillan reportedly feels that the failure of the Paris summit meeting last month, and the resulting blow to his hopes for broad improvement in relations with the Soviet Union, makes it necessary for Britain to re-examine its policy of standing largely apart from the continental allies in the economic field.

De Gaulle wants to force the nations of the European area into a new force in world affairs, as he made clear in a speech this week. The impact of the summit failure on East-West relations and the development of future allied strategy were discussed around

the dinner table Wednesday night by Secretary of State Christian A. Herter, Foreign Minister Maurice Couve de Murville of France and British Foreign Secretary Selwyn Lloyd. They met at Herter's home.

The three are attending a conference here this week of foreign ministers of the Southeast Asia Treaty Organization (SEATO). Herter told the eight-nation SEATO council Wednesday that since the summit conference breakdown new probing actions by the Communist powers must be expected, particularly in the Far East.

NCCC Prexy to Receive Honorary Degree in West

AVON TOWNSHIP — Otis Gatewood, president of North Central Christian College, Sunday will receive an honorary degree of law degree from George Pepperdine College in Los Angeles, Calif.

He will be back at the local college Monday and will speak on the "Battle for the Minds of Men" the following night in the first World Evangelism Workshop at NCCC.

More than 50 missionaries will take part in the workshop which is expected to draw over 500 persons.

A year is actually 365,242 days in length. The extra time is taken up each four years by a leap year which adds one day for a total of 366.

Brigitte Bardot's Hubby Is Sleeping Off Jitters

PARIS (UPI) — Brigitte Bardot disclosed her husband, Jacques Charrier, is taking a deep sleep treatment for a serious nervous condition in a hospital near Paris.

"He is very sick," said the actress, who received newsmen with her latest director, Georges Clouzot.

not on the set of a new movie they are filming.

Charrier has suffered from a nervous disorder ever since he had a bad fall from a ladder while he was in the army last fall.

Manufacture of automobiles and parts is carried on in more than 1,900 plants in the United States, mostly in the general vicinity of the Great Lakes.

Gold in Them Thar Hills; Idaho Invites 'Miners'

BOISE, Idaho (U) — Mention gold left in the bottom. In two hard times, and 41-year-old Robert L. Romig's blue eyes twinkle. Romig, president of the Golden Sunrise Mining Co., owns gold — maybe a million dollars worth.

But at today's mining costs, he says, "It would take two million to get it out of the ground."

No Romig and hundreds of other gold men like him in the West are hiding their time. "In hard times," Romig says, "if I couldn't get a job and if prices descended, I could support myself indefinitely off gold."

Even a stranger can find gold in Idaho — scattered among the bedrock and black sand of Boise National Forest streams, or imbedded in quartz ore.

At the old gold town of Idaho City, residents like to amaze tourists by panning gold from the sand in the street.

But it's still too difficult to mine enough to turn a profit. Romig, a school teacher at Grand View, Idaho, now is working with the Idaho Historical Society on popularizing gold mining for fun.

Gold-seeking visitors could bring new life to the old boom towns that lived and died in the bonanzas of the late 19th Century.

Romig, working two days, illustrated what a typical amateur gold hunter could do. He went about it much as a fisherman would look for a spot to fish; he asked an old timer to direct him to a likely spot.

From earlier workings a half-century ago, little bits of gold had filtered into the surface of bedrock.

Shoveling away the shallow top earth — and scraping the time-worn surface of the bedrock, Romig filled wheelbarrows full of gold-bearing material.

He washed 40 loads of it through an eight-foot-long sluice box, patiently panning out the res-

ults. America's truck fleet has more than doubled since 1940.

A car knocked over a mailbox and a fireplug and the scattered mail floated off in the man-made flood.

He retrieved the soggy letters and delivered them to the post office.

Mail Must Go Through
Even Though It's Soggy

Tigers Keeping Baumann in American League

Chicago Lefty Beats Detroit Sixth Straight

Bunning Hurls Well Again in 6-0 Defeat; Colavito Down to .153

From Our Wire Services
DETROIT — The Detroit Tigers — along with all their other troubles — ran into an old fox last night. His name is Frank Baumann.

Baumann, a mediocre hurler against all the other clubs in the American League, whipped Detroit for the sixth consecutive time in his career last night, 6-0. The White Sox pitcher has never lost to the Tigers, who dropped their fifth in a row last night.

In fact, the crafty southpaw has justified his existence in the American League by the strange spell he casts over the Tigers.

Against all other clubs Baumann has a 5-0 record. But his unimpressive win of six wins over Detroit gives him a creditable record of 15-10. Last night's effort was his first major league shut-out.

Baumann emerged from the bullpen, where he had been wallowing in obscurity, to handcuff the Tigers on four hits.

He didn't permit a Detroit runner to reach third base.

It was the second triumph in four decisions for Baumann and both have been over the Tigers.

He came on in relief against them May 17 and hurled 8½ innings of shutout ball.

Last night's contest was a tight duel between Baumann and Jim Bunning for the first eight innings.

Bunning, the Tiger hard-luck pitcher who suffered his third loss in four decisions, allowed Chicago only three hits during the eight innings he worked.

But the White Sox bunched three in the fifth when they scored twice on Minnie Minoso's single, Sherm Lollar's double and a single by Gene Freese.

Chicago scored its other four runs in the ninth off reliever Tom Morgan on a bases-empty homer by Earl Torgeson. His second of the year, and the first home run by Freese, his third of the season.

Detroit got only one extra base off Baumann and that was a double by Steve Bilko, who was installed in the Tiger lineup after being benched for 15 games.

Rocky Colavito, also benched for light hitting, joined Bilko in returning to the lineup last night and turned in a dismal performance.

In three trips to the plate Colavito toppled to the second baseman twice and hit into a double play.

It will be Don Mossé against Dick Donovan in today's finale of the two-game series.

The Tigers leave tomorrow morning for Cleveland where they play a four-game series over the weekend. They then head East and will not return to Briggs Stadium until June 14.

CHICAGO (AP) — Jimmie Dykes, son of five straight triumphs, shut out the Detroit Tigers 6-0 last night.

Dykes, 23, pitched a four-hitter, allowing only three hits and one run in six innings.

He struck out seven batters and walked only one.

Chicago scored four runs in the ninth on homers by Earl Torgeson and Steve Bilko.

DETROIT (AP) — Frank Baumann blanked the Detroit Tigers 6-0 last night.

Baumann, 34, pitched a four-hitter, allowing only three hits and one run in six innings.

He struck out seven batters and walked only one.

Baumann, 34, pitched a four-hitter, allowing only three hits and one run in six innings.

MINOSO SCORES — Chicago outfielder Minnie Minoso slides into home plate under the legs of Detroit catcher Lou Berberet as he scores from first following Sherm Lollar's double and Gene Freese's single. The White Sox beat the Tigers, 6-0, at Briggs Stadium.

KISS FOR LUCK — Shortstop Ron Hansen (left) and pitcher Skinny Brown of the Baltimore Orioles kiss the bat that sunk the Yankees, 4-1, last night, giving the Orioles a 2½ game lead over rained-out Cleveland. Brown pitched a one-hitter and Hansen hit a three-run homer.

SPORTS

Dig Those Orioles, Still Rolling Along

By United Press International

A pitcher Paul Richards once scored as "line drive Brown" as he makes the Baltimore Orioles' leader look like the manager 6-0.

His full name is Hector Harold (Skinny) Brown and he's traveled the hamburger circuit for much of his 13-year career. But along with the rest of Richards' kids and cousins he's caught a severe case of early-season pennant fever and Wednesday night he came within one pitch of no-hit fame.

The 35-year-old native of Greensboro, N.C., yielded a first-inning homer to Mickey Vernon and then went on to beat the New York Yankees 4-1, without allowing another hit. The victory

boosted the Orioles' American League lead over the rained-out Cleveland Indians to 7½ games and was their sixth triumph in seven games and their 10th in 12.

Brown, tagged "line drive" when Richards okayed his trade by Chicago to Boston in 1952, has compiled a 4-1 record and permitted only eight walks in 46 innings. He's beaten the Yankees twice and the Indians and Red Sox once each while suffering only a 2-0 loss in New York.

Washington's two-nighter at Boston was rained out.

The Pittsburgh Pirates retained their game and a half grip as first place when Bob Friend shut out the Cincinnati Reds, 5-0, the San Francisco Giants shaded the Chicago Cubs, 2-1, the Milwaukee Braves beat the Philadelphia Phillies, 6-3, and the St. Louis Cardinals scored a 2-1 win over the Los Angeles Dodgers in the National League.

Rookie shortstop Ronnie Hansen hit a three-run homer off Duke Maas to give the Orioles the lead in the fifth inning and Brown took it from there as he retired the last 16 Yankees in order. Rookie second-baseman Mary Breeding singled home the Orioles' insurance run in the seventh.

Friend pitched a five-hitter for his third shutout and sixth win of the season as the Pirates ran their winning streak to five games and their season record at home to 15-6. Don Hoak, Dick Groat, Bob Skinner and Rocky Nelson had two hits each and Roberto Clemente hit a two-run double to lead the Pirates' 11-hit attack.

Sam Jones pitched a five-hitter and doubled home the winning run in the ninth inning to tie his sixth game. Jones' 400th double scored Bob Schmidt's first base to tie Don Ellisworth with his second loss. Jones

By the latest batting than Jim Bunning. The veteran right hander has yielded only 29 earned runs in 77 innings — and in that time the Tigers have supported him with only 18 runs, or an average of one every four innings.

Despite a sparkling 2.50 earned run mark, Bunning has only one triumph to show for nine starts, and he lost three. Three times the club has failed to score behind him and twice he pitched 10 innings without getting a run.

"I might have blown my stack in other years," he said after losing last night's game although he yielded only two runs and three hits in eight innings. "But I've learned to control my temper. After all, the players are doing their best. They're trying to hit."

"Things will even themselves out. The club has given me enough runs in other years to win quite a few games and the boys will start hitting and I still might win 15 or 20. I'll admit, it's tough winning when you're not getting any runs. But I'm not going to let it get me down, because I'm pitching better this year than ever before. Things will be all right."

Dykes is 35 years Bunning's senior and he, too, has learned to have patience. But right now, the streaky Tigers are wearing it a little thin.

The pitching has been as good, perhaps better, than the club expected. The staff earned run average is an outstanding 3.28. Eight of the 10 pitchers have earned run averages of less than four runs a game.

No pitcher has been hurt more.

At Kalene is hitting only .238. Steve Bilko .155, Lou Berberet .178, Charlie Maxwell .195 and Frank Bolling .200.

"In all my years in baseball I can't recall an entire team floundering like this — just quitting all at once and not one guy to perk the others up," Dykes said.

The Tigers are hitting only .212 as a team. Not a single regular is hitting as much as .280. The

club has scored only three runs in 36 innings.

Rogers Colavito, the slugger the Tigers got for batting champion Harvey Kuenn, last night ended a 14-day exile on the bench but popped up twice and grounded into a double play and his average dipped to .153.

"Now we're on the skids again," sighed the Detroit manager. "I thought we were through with this stuff. I watched it for 10 games and now I'm watching it again. It's just a good thing I don't drink."

One-Scene Comedy

What Happens When 2 Old Golf Pros Meet?

By BRUNO L. KEARNS
Sports Editor, Pontiac Press
INTRODUCTION

This isn't a short story.
It isn't even a story.

It could be classed as a sort of dogmatic comedy and compared to the famed friendly feud between Bing Crosby and Bob Hope.

The Crosby-Hope feud often carried from the microphone to the golf course where both are known to shoot respectable games.

Just this, we parallel the Frank Syron-Al Watrous feud, too as friendly but much more adherent to golf. The latest and most hilarious scene out of the Syron-Watrous series with dialogue of high comedy took place when the two veteran golf pros sat opposite each other at a dining table recently.

ACT I, SCENE I
THE SCENE: Pontiac Country Club Dining Room
THE TIME: 8:00 p.m., May 31, 1960
MAIN CHARACTERS: Frank Syron, Pontiac Country Club pro; Al Watrous, Oakland Hills Country Club pro.
CHARACTERS PRESENT FOR AUDIENCE REACTION: Beverly Hanson and Joyce Ziske, members of the Ladies Professional Golf Association; members of the Press and other guests.

SYRON speaking: "My, that was a fine steak, I . . ."
SYRON interrupting: "You enjoyed it, Al, because it was for nothing, just like you enjoyed our trip to Hillside last year because it cost you nothing."

WATROUS: "Boy, that was some trip to Hillside. I got a call from a group in Hillside to play a match and take part in a golf clinic. They told me I could bring someone to play against. 'I wanted to find someone I could beat, so I called Frank Syron.'"

SYRON: "Yes, but I outdrew you on that first hole."
WATROUS: "You sure did, but only because my prayers were answered."

(To the guests) — "I stood there when Frank approached, the tee and said a prayer to myself. I hadn't seen Frank play for many years, and I thought to myself, 'Please, let him make some kind of contact with the ball.'"

"As luck would have it, he did, and do you know who was most surprised? Frank was."

SYRON: "Wasn't that a great drive, I sure outdrew you."

WATROUS: "Yes, that was a great drive, but what bothered me was anytime I told Frank that he said 'I know it.'"

"For three holes he played beautiful golf, much to my surprise. He even started talking about Dunedin and winning the Senior's tournament. 'But then he got cocky, and he shanked one right out onto the road. After that everything went wrong.'"

"Then I knew he was the same Syron I had known before."

SYRON: "Yes, and I knew you were the same old Watrous too."

(To the guests) — "We stopped at a church along the way to Hillside, and after we sat down in the pew, Watrous nudged me and said he left his wallet in the car."

"He wanted a quarter for the collection. We just got out of church when Al said he was hungry. I knew I was in for it again."

WATROUS: "What do you mean, I offered to buy your lunch, didn't I?"

SYRON: "Yes, you offered to buy when you found out the club at Hillside was paying for it."

WATROUS: "You know I did spend something somewhere along the way on that trip."

SYRON: "How could you, you kept leaving your wallet in the car. Besides, you made sure I drove my car."

WATROUS: "Well, you just got yourself a brand new Pontiac and I knew you wanted to show it off. Besides, I don't buy lunches for millionaires."

SYRON: "For millionaires? Why, you'd turn Alcoholic Anonymous so as not to buy a beer."

WATROUS: "You had enough beer that day. You sounded like Khrushchev in that talk you made after the dinner to guests there."

(To the guests) — "He leaned on the podium, just like he knew what he was doing, and he was pointing to everything, and . . ."

SYRON: (Interrupting) "Yes, but I didn't get up and say, I haven't been paid yet."

(To the guests) — "He wouldn't talk after dinner till he got his 50 bucks. I gave him mine and he kept his."

WATROUS: "If I was a millionaire I'd give him back too." (To the guests) — "All the way home Frank kept telling me about how he outdrew me on the first hole. After 50, 60 and 90 miles I reminded him of the shot that went out onto the road. I didn't even mention the word shank."

SYRON: "But didn't I beat you on the first nine."

WATROUS: "If you had beaten me, I would have quit playing golf and wouldn't be playing today."

SYRON: (To the guests) "Oh well, Al is still a fine old gentleman that night."

(Scene ends, guests leave table with tears from excessive laughter. Main characters shake hands and all depart.)

'Phony' Causes Most Commotion

Purkey and Nuxhall Fined

PITTSBURGH, Pa. (AP) — Cincinnati Reds' pitcher Curt Purkey and Oakland Athletics' pitcher Nuxhall were fined \$25 each for throwing a tantrum during a game Wednesday.

Manager Fred Hutchinson finally had to tell the violently protesting Dettmer it was all a fake in order to get him dressed in time for Wednesday night's game.

Purkey, Nuxhall and Dettmer were among eight Reds benched from the game. Purkey was fined \$25 for throwing a tantrum, immediately and Nuxhall for his remarks to Secory.

It advised him he had been

Vote Will Decide Hockey Franchises

INDIANAPOLIS (AP) — International Hockey League club representatives will vote this week-end whether to grant franchises in St. Paul, Minn., Windsor, Ont., and Columbus, Ohio.

Howard Newstate, league secretary, said the IHL's annual meeting in St. Paul June 4-5 also will consider who shall operate a franchise already allocated to Muskegon, Mich.

Looking troubles forced Louisville out of the league, which now includes Indianapolis, Fort Wayne, Toledo, St. Paul, Minneapolis, Milwaukee and Omaha.

Krishnon Surprised

MANILA (AP) — Veteran Pelichio Ampon of the Philippines upset Indian ace Ramesh Babu Krishnan today, 6-3, 8-6, 6-1, to give the Philippines a 2-0 lead in the Eastern zone Davis Cup tennis final.

Doctoring Your Golf

By DR. CARY MIDDLECOFF

Ike Frees Certain Guns From High Tax Rates

WASHINGTON (AP) — President Eisenhower signed Wednesday a bill exempting some types of sporting guns from the high taxes imposed on weapons often used by criminals.

The bill rewords definitions so

as to make the stiff taxes and transfer regulations clearly apply to weapons of the sawed-off shotgun type.

Record Stands at 886

MILWAUKEE — A record which still stands is a 3-game series count of 886 by Allie Brown in 1939, who had games of 297, 289 and a perfect 300.

Big Homer Year in '58

NEW YORK — Only once in history did all 16 major league clubs hit 100 or more home runs in a single season. That feat occurred in the campaign in 1958.

CHICAGO — During a 14 year span Eino Slaughter had compiled a .385 average for a lifetime batting mark.

Fay Crocker Wolverine Open Choice

U.S. Girl Leads in British Finals

HARLEIGH, Wales (AP) — Barbara McIntire of Lake Park, Fla., took a commanding 6-hole lead over Philomena Garvey of Ireland today after the first 18 holes of their 36-hole battle for the British Women's Amateur Golf Championship.

The U.S. champion, seeking a little slam in women's golf, won the first hole with a birdie, and moved steadily ahead.

She played the 6,590-yard Royal St. David's course in even par 72 while Miss Garvey, a 38-year-old veteran of international competition, took a 79.

The Irish woman, trying for her second British title, lacked accuracy with her iron shots. In her approach, she didn't give herself much chance for birdie putts.

Miss Garvey three-putted the first hole, bunkered her tee shot on the second and missed a seven-foot putt at the fourth. She never recovered from this shaky start.

Miss McIntire lost only two of the first 18 holes—the seventh and the 11th.

Miss Garvey ran down a 35-foot putt for a birdie at the par-five seventh and a 15-footer for another at the 11th.

Brilliant recovery shots by Miss McIntire took some of the heat out of her Irish rival.

The pretty, bronzette Florida girl managed to halve the par-five third after coming from seemingly nowhere. She was in the sand with her tee shot, barely got the ball out into the rough, still 215 yards away. She hit a tremendous shot to just in front of the green, pitched within three feet and sank it.

At the par-three ninth, Miss McIntire hit into a deep sand trap where she was forced to play her second from a difficult downhill position. She blasted to within three feet and won the hole with a short chip.

Miss Garvey saved a half with a difficult nine-foot putt at the 12th, but went four-down again when she missed the green at the

14th and failed on a four-foot putt. Three finishing holes. Miss McIntire took both with steady pars.

Miss McIntire used 21 putts on the first 18 holes. Miss Garvey used 33.

"Silver Fox" of Hockey Lester Patrick is Dead

VICTORIA, B.C. (AP) — The Silver Fox of ice hockey is dead. Lester Patrick died today at his home in Victoria.

Patrick, whose mop of hair early turned to silver, died in a hospital Wednesday after being in failing health for several months. He was 76.

From a 13-year-old stick boy for Ottawa's famed Silver Seven, he rapidly moved upward as a star defenseman, coach of the New York Rangers and finally vice president in charge of hockey for New York's Madison Square Garden.

He inaugurated the game's first major farm system, devised with his brother Frank the profitable playoff system still used; sponsored dozens of rule changes and helped introduced professional hockey to British Columbia.

Lester and Frank also launched the Pacific Coast League in 1911.

Ranger goalie Lorne Chabot suffered an eye injury halfway through the second game of the Stanley Cup playoff. Lester had no previous experience in the nets, but he donned the pads and allowed Montreal only one goal in the first game.

Barry MacKay Advances in Spanish Tournament

BARCELONA, Spain, (AP) — Barry MacKay, American Davis Cup star from Dayton, Ohio, eliminated Bob Siska, 17, of San Francisco, 6-2, 8-6, Wednesday in the second round of the Count of Godo Trophy Tennis Tournament.

Siska is a member of the Junior Davis Cup team.

Jack Frost of Monterey, Calif., the only other American in men's tennis, was beaten by Australia's Roy Emerson, 6-1, 6-4.

Mickey Wright Only Headliner Not in Tourney

Women's 72-Hole Test Gets Under Way Today at Hillcrest C.C.

MOUNT CLEMENS (UP) — Fay Crocker, whose victory in the 1955 Wolverine Open saved her career in professional golf, was favored to win the women's Michigan tournament again this year as she played today at the Hillcrest Country Club.

Miss Crocker, the leading money winner and front-runner for the 1959 Vare Trophy, heads a field of 45 in the \$7,500, 72-hole tournament which runs through Sunday.

Top challengers for the \$1,500 first prize money include such seasoned pros as Betty Rouse, Lesley Huggs, Patty Berg, Joyce Ziske, Mary Lena Faulk, Beverly Hanson, Kathy Cornelius, Marlene Bauer Hage, Barbara Rossmore and Jean Lee.

With Smith of St. Clair Shores.

The only headliner missing from the field is Mickey Wright who won the tournament in 1958, the last time it was held.

Miss Crocker regards the Wolverine Open as her lucky tournament.

The husky little pro from Montevideo, Uruguay was in dire financial straits when she came to Michigan for the 1955 Wolverine event.

After a highly successful amateur career, she had turned pro in 1954 but was having a rough go of it among the gals who play for dough.

Fay was, in fact, on the verge of quitting the tour and returning to Montevideo to take a position there as a club pro.

But those plans were scotched when she scored a seven-stroke victory over the former Miss Bauer in the Wolverine that year.

Since then, Miss Crocker has been one of the most consistent winners on the women's golf tour, averaging more than \$11,000 a year.

She leads the field so far this season with \$6,700.47 already pocketed and is in front in the Vare Trophy competition with a 73.56 average.

The ladies have been giving the 6,544-yard Hillcrest course the once-over all week and are finding it "a little long," according to club pro Jack Hoffmann.

The lowest score recorded so far is a 76. Ladies' par is 73. The field includes 14 amateurs.

Wasted Energy in City League

There was a lot of wasted energy Wednesday in the Class A City Baseball League.

Oxford and the Jets struggled for eight innings at Wisner Field, then darkness called a halt to the whole affair with the two teams tangled in a 7-7 knot.

It was a different story, however, in Class B action at Jaycee Park. The issue was never in doubt in that contest as Talbot Lumber collected 10 hits and breezed to a 13-1 victory over Don Nicholas.

Del Norman pitched for the Lumbermen and gave up only one hit, a 4th-inning double by losing hurler Greg Meadows. Frank Johnson and Frank Borgon each made three hits for Talbot, which tallied all of its runs in the first four innings. Norman struck out 12.

Oxford bled a 7-4 lead. The Jets scored six times in the 4th and tied the count with a single run in the 6th, then they battled unsuccessfully to break the deadlock. Darkness was the winner in this game.

Step Forward Quickly

LOS ANGELES — The Dodgers were the first team to rocket from seventh place one year to a world championship in the succeeding

MILWAUKEE — Bob Buhl of the Braves hasn't lost to the Dodgers in Milwaukee's home park in four seasons.

Maples Win 6th Straight

Track Crown to Seaholm

Like Old Man River, Birmingham Seaholm kept rolling along yesterday as the track power of the Eastern Michigan League.

The Maples, led again by Steve Jacobson, romped to their sixth straight loop crown at Kimball totaling 76 points.

Ferrdale was the only other school to show anything with 50 1/2 points. Hazel Park had 18, East Detroit and Kimball 15 each, Mt. Clemens 14 1/2, and Port Huron 14.

Five records were broken and another tied in the meet as Seaholm took seven 1sts and the Dales four.

Jacobson set one new mark and helped in another. His broad jump of 22 feet, 1/4 inch was one of the highlights. His anchor job on the 880 relay team led to a 1:31.1 to snap EML and school records. Dick Zaino, Scotty Purvis and Paul Simmons completed the unit.

The latter pair had a hand in a 3rd mark set for the champs. They teamed with Pete Henderson and Tom Sweeney for 2:31.9 in the medley relay.

Speedster Doris Reid of Ferrdale broke the best 220 time in 21.8 and equalled the 100 record in 10 seconds. A 1:38.5 half mile by Bob

Fulcher of Hazel Park accounted for the other new top time. A sweep of the hurdles by Paul Robertson and Dan Reid's 4:31.6 mile helped make it easy for Seaholm.

SQUEEZE FIZZLES—There's a road block at home plate in the 9th inning as Ernie Banks of Chicago is caught in a suicide squeeze play. Giant catcher Bob Schmidt, pitcher Sam Jones (19) and Don Zimmer (17) of the Cubs who missed the bunt try all are in the picture. The Giants won, 2-1.

For Disciplining Cage Stars

Burn President in Effigy

BATESVILLE, Ark. (AP)—Dr. Paul McCain, president of Arkansas College, was burned in effigy Tuesday night by a group of students protesting disciplinary action against three basketball players.

Police broke up the demonstration minutes after it began on the lawn of McCain's home. There were no arrests. McCain was away.

About 50 students were involved in the demonstration. They carried signs proclaiming, "Down with McCain," "We Want our Team," and "Impeach the President."

McCain confirmed Wednesday that the players, Max Lay of Mount Vernon, Ark., Don Sinko of Rector, Ark., and Sharrill Jones of Marianna, Ark., would not be permitted to return to the Presbyterian college next year.

He would not disclose the nature of the disciplinary problem. He had no comment on the demonstration.

The three players were starters on a team which finished fourth in the Arkansas Intercollegiate Conference basketball race and took runnerup honors in the NAIA district tournament last season.

Sinko and Jones are juniors. Lay a sophomore.

Sub-Par Scores, Rain Predicted

MEMPHIS (AP)—Low scores and frequent showers were predicted for the opening of the \$30,000 Memphis invitational open golf tournament today.

The big field of 144 pros and amateurs battled it out over the 6,500-yard, 34-36-70 Colonial Country Club course. Top prize for the pros was \$4,300.

Other than for the weatherman's gloomy prediction, conditions were considered good. In pre-tournament play several pros hit in the 60s and 25 of them broke par.

Lowest pre-tournament score was Gene Littler's 64. He was followed by Ted Kroll with a 65.

Ben Hogan, who with Art Wall and Doug Ford practiced instead of playing in the pro-am, commented that some pros soon will be down in the 50s.

"I think these fellows are going to keep hitting lower scores. They start out with a lot of golf knowledge that wasn't available to us," said Ben.

Wally Post Not Happy on Bench—Wants Traded

PHILADELPHIA (AP)—Disgruntled Wally Post, benched this year in the Philadelphia Phillies' youth movement, has asked to be traded so he can play regularly.

"I want to play," Post said Wednesday. "But it's pretty clear that I'm not going to get the chance here. I'd like to stay with this club but not if I'm going to sit on the bench. I'm only 30 and I think I've got several good years left."

The veteran Post hit .254 with 22 homers and 94 runs batted in in 132 games with the Phillies last year.

Pastrano an Easy Winner Over Ray

CHICAGO (AP)—Despite Willie Pastrano's rumbleness, he still hasn't been fast enough to catch up with the man he wants most—light-heavyweight champion Archie Moore.

The jogging, jabbing Miami boxer, No. 3 by the National Boxing Assn., registered his fourth straight victory of the year with ease Wednesday night. He took a lop-sided 10-round decision over Chicago's bewildered Sonny Ray, who chased and chased the flitting Pastrano like a man with a bug net.

"I'm going to stay in the light-heavy ranks," said Pastrano afterwards. "I'll do as much fighting as I can, but I hope someday I can catch Moore for a title shot."

Pontiac Man Shoots Ace

Silver Lake Golf Club has reported its first hole-in-one of the year. The lucky golfer was Lewis C. Koop, 682 Kentilworth, Pontiac. Using a 2-iron, Koop scored Silver Lake's 200-yard fth hole in the presence of Sam Storey, Al Behnke and Jim McEwerson. It was the first ace for Koop, an 11-handicap player who has been golfing three years.

A total of 196 horses were nominated for the Kentucky Derby in 1958 but only 22 actually ran in the race. It was the Derby's largest starting field.

Jet Powered Hydro Blows Up in Saginaw Bay

Lombardo Craft Beyond Repair After Sinking

Tempo Alcoa Attempt for World Mark Ends in Disaster

BAY CITY (UPI) — A jet-powered hydroplane built specifically in an effort to crack the world speed record was damaged beyond repair when it sank in 12 feet of water in Saginaw Bay yesterday.

Les Staudacher of Kawkawin said he would probably start from scratch on another craft rather than attempt to repair the 31-foot Tempo Alcoa.

The boat, owned by handiwerker Guy Lombardo and the Aluminum Co. of America, sank yesterday during its third high speed trial run.

Dick Branstner, president of Branstner, Inc., Detroit, which designed a remote control device which was in use when the boat sank, said the boat was traveling about 175 miles per hour when it appeared to explode. It had averaged 125-150 miles per hour on previous trial runs.

Branstner said the craft was responding perfectly to remote control signals immediately prior to the time it sank. Staudacher told him to "let 'er out," he said, "and five seconds later it was all over."

Skin divers attached a heavy tow line to the boat late yesterday and the coast guard towed it to Staudacher's home dock in nearby Kawkawin.

He said the jet engine was completely lost, the rear was heavily damaged and only the left front was anywhere near intact. It was not known what caused the accident.

Lombardo planned to use the Tempo Alcoa in an attempt to break the world speed record in a run this summer. Last summer Staudacher narrowly escaped injury when he piloted the craft at speeds up to 260 miles per hour, an unofficial record, at Pyramid Lake, Nev. The boat struck a reef. The boat had been undergoing tests since repairs were made after the first accident.

Sailing Trials Get Started in Gulf of Mexico

CLEARWATER, Fla. (AP) — A New Jersey industrial engineer held a slim lead today as the final two of seven Olympic trials sailing races got underway on the Gulf of Mexico.

Harry Sindler of Little Falls, N.J., with Bob Wood of Red Bank, N.J., as crew, took one race and finished second in two others Wednesday. Pat Duane of Delray Beach, Fla., moved up from third place in total points to come within 125 points of tying Sindler for the lead.

Winner of the trials will represent the United States in the Olympics at Naples, Italy, this summer. Sailors are using sloop-rigged 18-foot boats of the flying-dutchman class.

120 Boats Available

Kensington Park has 120 twelve foot aluminum row boats which rent for 75 cents an hour with a minimum charge of \$1.50.

Boat Renting Starts

Boat rental service at Kensington Park began Saturday, May 21st, and presently there is construction of a new boat rental building.

7 Maintenance Hints for Sailboat Engine

NEW YORK — Like a child, your sailboat engine will usually perform at its best if you leave it alone.

But also like a child, the engine does need occasional care and attention to prevent it from going out of whack.

While you should not be a slave to your sailboat engine, advises the current magazine of Popular Boating, there are several things you can and should do to keep it working properly. These are:

1. Start the engine before leaving the dock or mooring, even though you'll be getting away under sail.

2. For any testing have the boat made fast to a dock so you can operate the engine in gear or under load.

3. Check the engine's alignment in the early part of the season.

4. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

5. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

6. Try to maintain that adjustment which permits the gland to leak a few drops while running.

7. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

8. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

9. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

10. Try to maintain that adjustment which permits the gland to leak a few drops while running.

11. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

12. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

13. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

14. Try to maintain that adjustment which permits the gland to leak a few drops while running.

15. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

16. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

17. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

18. Try to maintain that adjustment which permits the gland to leak a few drops while running.

19. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

20. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

21. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

22. Try to maintain that adjustment which permits the gland to leak a few drops while running.

23. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

24. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

25. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

26. Try to maintain that adjustment which permits the gland to leak a few drops while running.

27. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

28. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

29. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

30. Try to maintain that adjustment which permits the gland to leak a few drops while running.

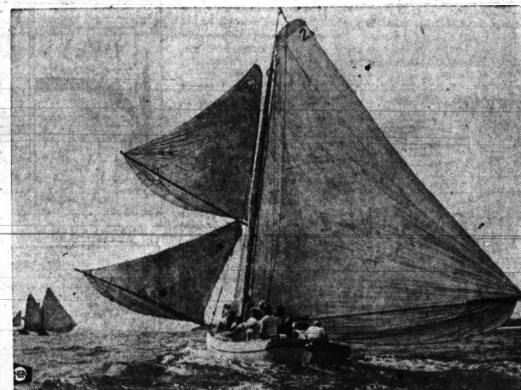

31. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

32. Check the reverse gear adjustment, seeing that it clicks into the different positions and sticks there.

33. Oil the generator and starter motor at regular intervals, giving each time you start, the water pump's grease cup a twist and replenishing its supply as necessary.

34. Try to maintain that adjustment which permits the gland to leak a few drops while running.

35. Have enough engine oil aboard so that you can keep going should a serious oil leak develop, states Popular Boating magazine.

EVERY INCH — Native fishing boats pile on all sail, and some borrowed dinghy sail beside, competing for the Bahama Workboat Championship at George Town, Exuma, in annual regatta.

No Regatta Like Bahama Workboat

GEORGE TOWN, Bahamas (NEA)—From the 70,000 square miles of vivid blue-green seas of the Bahama Islands, 50 sailing workboats gathered off George Town for the annual Out Island Regatta.

This is the only event of its kind. It is a series of races for native sailors, men who fish and travel hundreds of miles of these waters under wind power.

The boats, all island built by hand, range from 20-foot sloop rigged fishing smacks down to 10-foot dinghy boats that are scuttled along with one long oar over the stern.

On the larger boats, crew and passengers eat and sleep on deck, while below will be a cargo of fish, lobsters and conch, vegetables and freight.

The races maintain the wonderful relaxed and carefree spirit of native sailing. A crew of up to 15—almost the entire male population of a village—may be aboard.

When a turning mark is reached there is a scramble as the loose-footed sail is lifted over the cabin top and the boat comes about on a new tack, the foredeck, a boy may be

scoping up water and splashing it on the sail to make it set.

Even with the big crew aboard a small craft, these workboats are responsive and the racing is keen.

Rules are kept to a minimum. Course marks must be rounded without striking them. When there is danger of collision, both boats must tack. That's it.

Technicalities are omitted, and both boats and spectators seem to have more fun as a result.

The only sophistication is aboard the spectator fleet.

Yachtsmen from many countries look forward to the pleasant cruise down to Nassau with the sailing championship of the islands.

At Staniel Cay, when "Lady Muriel" sailed home with her crew of nine in second place, bonfires were built to tune up the bongo drums and calypso dancing all night celebrated a windjammer victory in the Out Islands.

Protect Boat Metals

A mixture of beeswax and petroleum jelly in equal parts, makes a good, tough coating for metal parts of boats which must be protected from weather but which cannot be painted.

Sales Peak for Boats

CHICAGO — Retail sales of outboard motors, boats and trailer rigs during 1959 amounted to \$465 million. In 1958 the total was \$419 million.

Boat 'Future' Is Here

NEW YORK — For many years it has been predicted that yachtsmen of the future will sail in plastic and glass boats. The future is now here.

An estimated 150,000 plastic boats will be built in 1960, according to the current issue of the Ziff-Davis magazine Popular Boating.

This is nearly 40 per cent of all boats built in the United States. In addition, states the magazine, a majority of the cruising auxiliaries being sold in this country now are of fiberglass construction.

"This quiet but significant revolution has suddenly made the sailing boat the leader in the use of new materials," the magazine adds.

Here are some of the things that have happened already:

1. Wooden hulls have been improved with fiberglass-coated decks.

2. New synthetic glues are being used for strip-built boats, for plywood construction, and for masts.

3. Being used along with wooden hulls, states Popular Boating, are marine plywood, plastic deck coverings, epoxy paints, chemical preservatives, improved varnishes and bottom paints, laminated hull parts, Formica counters, stainless steel and Monel tanks and fittings.

When a turning mark is reached there is a scramble as the loose-footed sail is lifted over the cabin top and the boat comes about on a new tack, the foredeck, a boy may be

scoping up water and splashing it on the sail to make it set.

Even with the big crew aboard a small craft, these workboats are responsive and the racing is keen.

Rules are kept to a minimum. Course marks must be rounded without striking them. When there is danger of collision, both boats must tack. That's it.

Technicalities are omitted, and both boats and spectators seem to have more fun as a result.

The only sophistication is aboard the spectator fleet.

Yachtsmen from many countries look forward to the pleasant cruise down to Nassau with the sailing championship of the islands.

At Staniel Cay, when "Lady Muriel" sailed home with her crew of nine in second place, bonfires were built to tune up the bongo drums and calypso dancing all night celebrated a windjammer victory in the Out Islands.

Protect Boat Metals

A mixture of beeswax and petroleum jelly in equal parts, makes a good, tough coating for metal parts of boats which must be protected from weather but which cannot be painted.

Sales Peak for Boats

CHICAGO — Retail sales of outboard motors, boats and trailer rigs during 1959 amounted to \$465 million. In 1958 the total was \$419 million.

Perry Shows 'Em Again: Good, Guestless Finale

By FRED DANZIG
NEW YORK (UPI)—Down with high-priced, frisky-guest stars. Perry Como's final show of the season proved that guest stars are not an essential ingredient when it comes to whipping up superior TV entertainment.

Last night's NBC-TV color show was a ball... all the way. It gave us more production and directorial daring, more spontaneity and clean fun than anything Perry has done since, well, last year's finale.

USES REGULARS
Again, he called upon the unheralded regulars on the show—the singers, idiot-board boys, choreographer Louis Da Pron and others—to perform.

Given their moments in the spotlight, all hands served up some exciting, delightful sounds, dances and informal party-type nonsense.

It's a shame this sort of show comes but once a year. If I have any reservations about this hour, it is that Perry should let his choral director Ray Charles sing.

Charles stopped the show last year and I guess Perry's only protecting himself. Looking back on Como's first season in this Wednesday time slot, I'd say of his finale and that superb show with Bing Crosby March 16—these were his finest hours.

"Game of Hearts," the Steel Hour play on CBS-TV last night, had a big ace up its sleeve: No happy ending.

TALK SELVES INTO LOVE
This was a story about two lonely adults—he, a square, she, an rebel—both of whom meet in an museum and talk themselves into believing they're in love.

After setting a date for the wedding, they realize it's not really a good match and the girl, played by Jeff Donnell, finds the courage to call the whole thing off.

Through this sad experience, she learned to be herself and not pretend she's someone else.

An adaptation by Philip Lewis of a story by Douglas Rae, the play required much greater insight and subtle shading of character, a calmer sensitivity, to develop its unique impact.

The dialogue was just a few degrees too obvious.

Although Miss Donnell and Arthur Hill, as her boy friend, occasionally conveyed the torments they were going through, the production failed to help them overcome the daytime serial patina.

THE CHANNEL SWIM: Playwright Rod Serling is reported to be preparing a script about Argentina's late "first lady," Eva Peron. Vivien Leigh is mentioned as the star of this CBS-TV dramatic special.

Richard Long, a member of the "Bourbon-Street Beat" cast, is joining ABC-TV's "77 Sunset Strip" team next season. Red Buttons will portray a British detective in

Mr. Z Tells of Plans to Convert Hotel Taft

By EARL WILSON
NEW YORK — Big Bill (Million-a-Minute) Zerkendorf gave me one of his golden hours—and while that was all he gave me, I left convinced that he doesn't need lunch money.

"Do you resent those jokes?" I asked him.
"Sure—because what they're saying isn't true."

He had just this minute swung a little \$3,000,000 his called "loans" in banking circles) to complete purchase of the Roxy theater. He was now working on a whole new dream—conversion of the Hotel Taft into a motel.

"A motel!" I said. "The Taft!"
"We were going to build several hundred hotel rooms," he nodded. "Now a major oil company wants to build a 2,000-car parking garage. A parking garage next door would make the Taft a marvelous motel."

"But," added Mr. Money, "we don't know which way the cat's going to jump. —two companies want to put up an office building, too."

"All we can say is that we're going to tear down the Roxy immediately—in side of 60 or 90 days."

As for the cracks about needing money: he spoke of the 51st St. excavation for the "Big Z" Hotel.
"In that hole we have \$8,000,000 of our own money."

"It's rumored you might sell that site to Hilton?"
"NO. It's not for sale or lease," he insisted. "Just today we started construction on the foundation."

"Do you own any hotels, or just operate them?"
"We're hotel lessees," he said.
"Is 1960 your toughest year?"
"Fifty-nine was. But for '59, we're in the black. I've never known any easier years. The only guys having easy years are six feet under or atrophied in their stupor of inactivity."

"Can you say what you're worth?"
"It's a matter of indifference to me. People who count their chips all the time are avaricious."

Hotel men predict a Miami Beach rate war next season. Danny Kaye wanted a role written into his next movie for his cousin, singer- pianist Frances Faye. It was Sir Laurence Olivier, starring in "The Rhinoceros" in London, who recommended E.H. Wallack for the role on Broadway. The Broadway Theater—whose houses "Gypsy"—has Manhattan's only female theater manager.

EARL'S PEARLS: Quick philosophy: "Biscuits and sermon are improved by shortening."
TODAY'S BEST LAUGH: "There are plenty of people in the Middle East," claims Jack E. Leonard, "who would rather be in the Middle West."
WISH I'D SAID THAT: Home cooking is what a lot of modern women snarl.
Tony Curtis, playing a hick in "Rat Race," asks the hotel clerk if the room rate is really \$7 a day. "No," sneers the clerk. "It's \$7 a night—we throw in the day free." That's earl, brother.

DIVORCEE FORTHUS.
BAND—Screen actress Myrna Loy is shown on her arrival at New York's International Airport Tuesday night from Juarez, Mexico, where she ended her fourth marriage with a quickie divorce. The action was not contested by producer-husband Howard Sargeant, a former assistant deputy secretary of state.

To Let Freeway Bids on 2 Parts of U.S. 23

LANSING (UPI) — An initial step to add 13.5 freeway miles to U.S. 23 will come June 22 when the State Highway Department lets bids on two chunks of the highway. One project will extend the Ann Arbor-Whitmore Lake stretch of expressway 4.6 miles to U.S. 16. The other will tack 8.9 miles onto the southern end from Fenton.

This will mean freeway driving on U.S. 23 from M59 west of Pontiac to U.S. 10 north of Flint. Bids for two other state freeway projects, totaling 4.8 miles, will be let at the same time.

The boundary between Canada and the United States is about 3,866 miles in length with about 1,788 miles of dry land and 2,188 miles in which the border lies in water.

Expelled Student Is Eying Boston

But Negro Is Hoping to Return to Vanderbilt; Two Return Degrees

NASHVILLE, Tenn. (UPI) — A Negro ministerial student expelled from the Vanderbilt University Divinity School for taking part in sit-down demonstrations may enter Boston University next week.

"If there is no chance of returning to Vanderbilt," said the Rev. James Lawson Jr., "then I expect to enroll at Boston. I'm not going to wait too long because I expect to finish this summer."

Vanderbilt Chancellor Harvie Branscomb's decision not to readmit Lawson touched off the resignations of 10 divinity school faculty members, including the school's dean, J. Robert Nelson.

Two graduates of the divinity school Tuesday returned the degrees they had just received Sunday. Three Negro students at the university also withdrew, and the faculty council of Princeton Theological Seminary adopted a resolution supporting the Vanderbilt faculty members' action in resigning.

The council at the New Jersey school sent Nelson a telegram which read:

"The faculty council (all of the full professors) of the Princeton Theological Seminary supports you and your colleagues in your stand for Christian brotherhood and for academic integrity. You may count on our active support and prayers as you struggle for these ends."

The sit-down demonstrations led to the integration of six downtown Nashville lunch counters.

Richard F. Dickinson of Glendora, Calif., and Wilson T. Boone of Ellwood City, Pa., handed in their diplomas to Branscomb Tuesday afternoon. They said another recent graduate, G. Richard Dulin of Dallas, Tex., who has signed their statement protesting the Lawson ouster, would mail in his diploma.

Detroit Marine Terminal Dock Facilities Dedicated

DETROIT (UPI) — Dedication ceremonies were held Wednesday for the newly expanded dock facilities of the Detroit Marine Terminals Co. The expansion program cost two million dollars.

Company President David C. Lowe said the new facilities were "performing beyond our fondest expectations."

Crane Appeals Ruling Against Move on Briggs

DETROIT (AP) — The Crane Co., a Detroit plumbingware firm, has today appealed a Federal Court order granting a temporary injunction Saturday preventing the company from soliciting proxies for a June 17 annual meeting of the company.

The injunction also prevented Crane from voting its Briggs Co., a Detroit plumbingware firm, stock at the June 17 meeting. U.S. Dist. Judge Theodore Levin, U.S. Court for the Eastern District of Michigan, said the appeal was filed with the Sixth U.S. Circuit Court of Appeals at Cincinnati. A hearing was requested for Saturday.

Alcoholics Anonymous to Convene in Jackson

JACKSON (UPI) — The 1960 state conference of Alcoholics Anonymous will be held here on Sept. 23-25, it was announced. More than 1500 recovered alcoholics are expected to attend the conference, Michigan's eighth successive statewide gathering of AA members.

The Arab population of the world is now estimated at about 30 million.

\$56,000 Brightens Future

THEY'RE HAPPY TOO — Irvin J. Carlson's family glows after hearing the news of the \$56,000 prize. At left a daughter, Mrs. Wilda E. Carlson, holds young Lila Reed, 2, while Mrs. Carlson puts an arm around Rossie, 6, Viletta, 13, is at the left.

City Man Wins Sweepstakes

Has Ticket to His Dreams

By PETE LOCHBLER

A new home and car, a four-week vacation and no more big debts — that's what \$56,000 in the Irish Sweepstakes means to a Pontiac factory worker and his family.

A \$3 ticket brought the prize to Irvin J. Carlson, 45, of 313 31st St.

Income taxes will cut Carlson's take to about \$32,000 — but that's still plenty for the dreams he and his wife, Lila, 42, have in mind.

The Carlsons live in a small bungalow, just a stone's throw from Pontiac Motor Division, where Carlson has worked 26 years. He's a steel cutter.

Their children are Viletta, 13, a seventh grade student at Madison Junior High School; Rossie, 6, who goes to kindergarten at LeBaron School; and a daughter, Mrs. Wilda E. Reed, 19, a secretary. Mrs. Reed has a daughter, Lila, 2.

Carlson, the whole family will pile into the new car — it may be a station wagon — and take off for their first extended vacation.

They probably will head west with a new house trailer tagging along behind.

"With a trailer we could save money on food and lodging," explains Carlson, who already is carefully husbanding his prize money.

The Carlsons figure on spending no more than \$1,000 on the trip, the first in their 31 years of married life.

Carlson hasn't decided yet to sell or keep the third street home he's been buying the past four years. But there are definite plans for a new house in the Pontiac area — this one with a basement and garage, facilities the Carlsons never have had.

But what pleases Carlson most is that he will have cash to pay for the car and home and could be free of big debts.

"Like most folks, I've been in debt all my married life. Now I can pay my wife can take it easy."

The prospect is a pleasing one, since both Mr. and Mrs. Carlson have worked extra hard to make ends meet. He's worked two jobs sometimes — in another factory or as a cab driver — and still works Saturdays in an automotive garage. Mrs. Carlson baby sits for the neighborhood.

Cuban AF Purge Snags Nearly All Its Jet Pilots

HAVANA (AP)—The cream of Cuba's air force including most of its jet pilots has been arrested in a purge ordered by Premier Fidel Castro, it was learned today.

Suspects of loyalty of the pilots and others developed after discovery of an anti-Communist counter-revolutionary plot, informants said.

At least 16 military pilots are being detained, sources said. All of them were holdovers from the regular Cuban air force under ousted President Fulgencio Batista.

Radioactivity 'Safe'

WASHINGTON (UPI)—Amounts of radioactivity in milk and water in various parts of the country appear to be holding steady at levels considered safe, the U.S. Public Health Service reported Wednesday.

Sam Rayburn Reopens House Expense Files

Closer Tabs Ordered on Spending in Wake of Abuse Expose

WASHINGTON (AP)—House expense account records were ordered reopened for public inspection today as closer scrutiny on improper spending went into effect.

The short-lived secrecy order was countermanded by Speaker Sam Rayburn (D-Tex) in the wake of disclosure of apparent irregularities and indiscretions on the part of a few members in charging for expenses of "official business" trips.

Rayburn cited several conditions in his order to House Clerk Ralph R. Roberts that the expense records again be made available to newsmen.

Hereafter, he directed, the records may not be photographed and may not be physically removed from the official files. In addition, a representative of the press must be present while they are being examined.

Rayburn said these precautions were taken to protect the records. He emphasized that no attempt would be made to prevent newsmen from copying the records verbatim if they wanted to.

Roberts' order padlocking the files was issued about a week ago after a weekly magazine photographer was detected photographing them.

Some of the film was seized but enough of it was retained to cause some congressional embarrassment when pictures from it were published this week in the magazine and a number of newspapers.

Until that incident, the records had been available for inspection for years.

TAXES PAY BAR BILLS

They disclosed, among other things, that House funds had sometimes been used to pay bar bills, hotel expenses for congressional wives, and the cost of parties at the expense of the taxpayers.

Some of the records showed the expenditures had been altered.

The disclosures brought from Rep. H. R. Gross (R-Iowa) a new demand for consideration of his bill to require a detailed accounting of all spending of House expense funds. The bill has been tacked up in the House Administration committee.

Sixty-two was the lowest temperature in downtown Pontiac preceding 8 a.m. At 1 p.m. the reading was 60.

Cooler Weather Due Saturday; Cloudy Friday

Cheer up! Saturday will be fair and just a little cooler, the weatherman says.

Today's rains will bring a drop in temperature tonight, with the low near 56. Friday is expected to be partly cloudy with a chance of rain during the afternoon or evening. The high will reach about 80.

Westerly winds at three miles an hour will become westerly during thundershowers, signaling late this afternoon diminishing to light. Rainfall from 10-15 a.m. yesterday until the same hour today registered 1.1 inches.

Sixty-two was the lowest temperature in downtown Pontiac preceding 8 a.m. At 1 p.m. the reading was 60.

Pontiac Output Remains High

43,093 Cars Produced in May as Industry Has an Outstanding Year

Pontiac Motor Division is maintaining its high level of production, it was learned today by the automobile industry's announcement of month-end figures.

A total of 43,093 new cars rolled off Pontiac's assembly lines during May. Output for the same month last year was 43,620. Pontiac built 43,419 cars in April 1959.

The industry as a whole is enjoying its highest rate since the record year of 1955.

Reports from the individual companies published yesterday showed a total of 3,186,308 passenger cars have been turned out in the first five months of this year. Compact cars accounted for about one-fourth of the total.

BEST IN 5 YEARS

The industry boasts its best May in five years, boosted by American Motors' claim of an all-time record for its Rambler production and strong showings by General Motors, Ford and Chrysler.

General Motors, supported by a 37,313 increase in May passenger car production over May 1959, showed a total production of 1,036,340 units for the first five months this year.

The GM output for May this year was 291,838. The GM compact Corvair made up 121,692 of this figure.

GM announced also that it has produced 48,359 trucks during May, as compared with 49,398 units in April.

May of 1959 saw 47,815 trucks roll off the GM truck assembly lines.

Pontiac's GMC Truck and Coach Division assembled for 6,312 vehicles built in May this year, compared with 6,199 for the same month last year.

The total production to date in 1960 of the division here is 31,893, compared with 28,527 for the same five-month period in 1959. American Motors said its Rambler output was 291,838.

UF Advance Gift Head Named

Bank President Cross Active in Multitude of Community Groups

The appointment of Milo J. Cross, president of the Pontiac State Bank, as advance gifts chairman of the 1960 Pontiac Area United Fund drive was announced today by Senon E. Knudsen, campaign chairman.

Cross is a member of the UF Board of Trustees, treasurer of the Pontiac YMCA, a member of the Salvation Army Advisory Board, past president of the Pontiac Area Chamber of Commerce and an active Rotarian.

Advance gifts contributed totaled \$80,715 for 1959, an increase of 7.5 per cent over 1958. The Advanced Gifts Division is comprised of community leaders who solicit funds four weeks prior to the regular campaign from individuals and businessmen who yearly contribute substantial amounts to the UF.

Earl Long Recovering

NEW ORLEANS, La. (AP)—Former Gov. Earl K. Long, 64, was recovering after having undergone surgery for an undisclosed ailment.

Rah for Class of 1898 — 5 PHS Alums Reunite

Some 310 years of memories yesterday were shared by five members of the Class of 1898 at Pontiac High School who were reunited on the campus of North Central Christian College.

Four of the five answered the invitation of a fellow classmate, Professor Howard L. Schug, to have luncheon with him in the college cafeteria to observe their 62nd reunion.

Schug, at 78, teaches modern languages at NCCC.

Catching up on family happenings of over half a century were Mrs. Ross Stockwell, Mrs. W. B. Lehman, John Libany and George L. Bird, all of whom still live in or near Pontiac.

They recalled the old high school building, torn down in 1915, in which students had to work up to the top floor which housed the classes. They literally "looked down" on the lower classroom.

Some HOBSED AROUND

They also reminisced about the pranks pulled by some of the more daring members of their class, such as the boy who put a horse in the bellify.

The class originally had 35 members, and those attending the reunion say four or five more still are living.

Mrs. Stockwell, 81, was married to a lawyer who later became judge of probate, a position he held until his death in 1928. A great-grandmother, Mrs. Stockwell, lives at 129 W. Huron St.

Mrs. Lehman, also 81, is the widow of a Pontiac dentist, and a great-grandmother, too. She lives in an apartment at 20 Lincoln St.

Formerly prominent as an industrialist, Libany, 81, was a founding engineer for the General Motors Corp. He designed the Pontiac, Cadillac and Buick divisions at the college. His four classmates are 81.

(Continued on Page 2, Col. 4)

'We'll Have to Rush to Get Major Airport'

By GEORGE T. TRUMBULL JR.

Pontiac Municipal Airport should and can become Southeast Michigan's second major jet airport, Homer D. Hoskins, airport manager said yesterday.

But many steps must be taken—and fast—in order for this to be realized, he added.

Appearing before Oakland County's special committee analyzing this area's future air transportation needs, Hoskins made it unmistakably clear that the city's rapidly mushrooming field has the potential to become an airport like Detroit's Metropolitan Airport.

Time is of the utmost essence, he told Pontiac Mayor Philip E. Rowston's nine-member committee, which appears solid on the local field.

"We have to get busy on this right quick," Hoskins said. "It must be clinched in the near future that this will be the field."

He said if the committee doesn't move fast enough, soaring land values and more residential subdivisions will pretty much prevent making this dream come true.

He said continued expansion of the 430-acre field on M-38 in Waterford Township should be done on a city-county basis.

"We (the city) have carried the project since 1928, and have put a considerable amount of money into it. It has reached the point now where we have to have additional help if we are to expand."

"I think the county should enter into this," Hoskins asserted. "After all, the county benefits."

CALL METRO DEVELOPERS

Rowston's committee of county supervisors and officials decided to call in two men instrumental in the growth of Detroit's Metropolitan Airport.

They've tentatively decided on a luncheon meeting for June 15 with Harry Gross, airport manager (Continued on Page 2, Col. 2)

Governor Asks Dem Hopeful Up to Mackinac

'Sooey' Setting Sights on Second Place but Says 'No Deals'

MACKINAC ISLAND (AP)—With hat in hand, Sen. John F. Kennedy dips briefly into Michigan today to court the state's 51 delegate votes to the Democratic National Convention.

Kennedy, pushing his drive for the White House, was to huddle for an hour or two on this fashionable resort island with Democratic Gov. G. Mennen Williams and other state party leaders.

At Williams' invitation, the Massachusetts senator squeezed the party between speaking engagements in Chicago and Denver amid growing speculation that the Michigan delegation might wind up in his corner.

Williams will go to the convention next month as a favorite son candidate for the presidential nomination but has set his sights on the vice presidential slot.

The 102-member delegation, seventh largest at the convention, is pledged to support him until he releases it.

The six-term governor said the bulk with Kennedy at his official summer residential would focus chiefly on campaign issues and the platform to be adopted at the Los Angeles convention.

He told newsmen there would be no political "deals" made.

Williams, however, indicated that Kennedy might substantially bolster his standing with the delegation if he can confirm his role as a strong "liberal."

Michigan Democrats have long insisted that only an outspoken liberal could carry the party to victory in November.

The Governor will meet with the delegation June 18 to talk over issues and candidates.

Kennedy forces recalled that in 1956 it was Williams who organized a coalition of states that swung behind Adlai E. Stevenson in his second presidential nomination.

Broadway Blackout Expected

NEW YORK (AP)—A blackout of all Broadway shows seemed certain tonight.

Producers began closing theaters after Actors Equity forced cancellation Wednesday night of the hit play "The Tenth Man." A million-dollar damage suit by producers against Equity was set to be filed today.

Further negotiations were scheduled, but both sides appeared gloomy. The old contract expired Tuesday night.

The greatest stumbling block has been the union's demand for a pension plan.

The cast of "The Tenth Man" attended a union meeting at curtain time instead of reporting backstage at the Booth Theatre. It was part of a plan to shut down one play a night.

The producers, represented by the New York League of Theaters, said the actors' failure to appear for the performance constituted a strike.

Late Wednesday night the league said notices will be posted on bulletin boards of all 22 Broadway houses informing the cast.

"Productions are suspended, and will remain suspended until Equity tells us these stoppages will cease."

The union said it was directing actors to report for work at all theaters tonight half an hour before curtain time. If they play houses are closed, an Equity spokesman said, the actors will consider it a "lockout."

Japanese Press Raps Socialists

Sees Threat to Quit Parliament Over Pact as Danger to Nation

TOKYO (AP)—Japan's major newspapers today strongly criticized the threat of Socialist members to resign from Parliament in a desperate effort to knock out the U.S.-Japan mutual security government in Japan.

Editorials said the resignation of the 125 opposition members of the 467-member lower house would endanger Parliamentary government.

The major papers, whose nationwide circulation each runs into the millions, previously had strongly supported the Socialist campaign to drive Prime Minister Nobusuke Kishi from office and cancel the defense pact.

The newspaper reaction was particularly significant since Socialist withdrawal from Parliament can affect the treaty only if it rallies public opinion sufficiently to force Kishi to dissolve the legislature. If that is done before June 18, when ratification of the treaty automatically takes effect, the ratification is canceled.

Socialist party leaders announced Wednesday they were assembling the resignations of their deputies and would submit them at a suitable time unless Kishi dissolved Parliament, resigned and called new elections in which chief issue.

Kishi showed no signs of wavering in his determination to put the treaty into effect June 18, the date President Eisenhower is scheduled to begin a state visit to Japan.

Kishi's Liberal-Democrats control more than 280 seats, more than enough strength to initiate a quorum without the Socialists.

The leftist student federation Zengakuren meanwhile announced plans to march 20,000 to 30,000 students on the Parliament building and Kishi's official residence Friday, demanding that Parliament and the prime minister quit.

The student march was planned as a curtain-raiser for a one-hour protest general strike called for Saturday by Sdkyo, the country's largest labor federation with a membership of 3½ million.

Khushchev Lays Disarmament Plans

MOSCOW (AP)—Premier Nikita Khrushchev made new disarmament proposals today to all nations, East and West.

The text of a letter carrying the proposals was to be given out later but it was understood to contain more precise details for staging disarmament year by year than were given last fall by Khrushchev at the United Nations.

At that time, concluding his American visit, he proposed that complete disarmament be accomplished in a space of four years.

Set Fluoride Treatment for Waterford Children

Plans are being made to treat approximately 1,000 Waterford Township school children in the summer topical fluoride program at Schoolcraft School according to coordinator Mrs. John Hoke.

MSU Mounts Drive to Aid Jailed Negroes

EAST LANSING (U-A) drive was underway today at the Michigan State University campus to aid southern Negro students jailed or expelled from school for demonstrating against stores which practice segregation.

Varied campus and religious groups pledge support of the fund-raising campaign organized by a committee set up by MSU student government.

Similar campaigns have been announced at the University of Michigan and the University of Wisconsin, sponsors said. Parent coordinating group at the United Negro College Fund.

Bob Epperson, Donora, Pa., senior and chairman of the drive, said aid would take the form of scholarship funds and financial help for legal assistance.

One of the committee members was Ernest Green, first Negro to graduate from Little Rock's Central High School after the integration troubles there. Green enrolled at MSU in September 1958.

Monty Backs Red Chinese

He'd Give 'Em Chong's Formosa but a Grab for Hong Kong Means War

LONDON (AP)—Field Marshal Viscount Montgomery came home from Red China Tuesday night, advocating that the Communists be given Formosa. But his sympathy for Peking's aspirations did not extend to Hong Kong.

"Hong Kong is part of the British Empire," declared the 72-year-old military hero. "If anyone tried to pinch Hong Kong, that would mean war—war with a capital 'W'."

He said Hong Kong hadn't been mentioned in his talks with Premier Chou En-lai and other Red Chinese leaders.

"I believe there should be one China and not two," the former NATO deputy commander told reporters. "and that China is the one which has its government in Peking. When I survey the picture, it seems to me that Formosa should be part of China."

Montgomery, who spent three days in Peking, said he found the Communist "new" China "quite preferable" to the country when Generalissimo Chiang Kai-shek headed its government.

'Live Longer' . . . Get That Weight Down

Diet Formulas Help Spare Tire

NEW YORK (UPI)—Food formulas for overweight adults, designed to suppress hunger while bringing the individual steadily downward in girth and weight, are now for the first time available in New York and certain cities of the Eastern seaboard.

The formulas, each in form of a powder to be added to water and substituted for meals, are described as palatable and encouragingly prompt in effectiveness.

Release of the formula foods, several of them made by pharmaceutical companies and one by a food company, will be followed by publication by the Society of Actuaries of findings indicating that the "ideal weight" tables of the life insurance companies are from 20 to 30 pounds below the national average.

The charts heretofore used were in fact on an average considerably too liberal, according to Changing Times, the Kiplinger magazine.

The records of five million persons to which estates life insurance payments had been made over a quarter of a century, were studied by the actuaries.

Death rates of average, fat adult persons were compared. Here are the results, as summarized in an article entitled "Weight Average" Start Dieting!" in the magazine section of the New York Times-Telegram and Sun.

For men 20 pounds above the na-

tional average (this would include many who felt themselves to be exactly average weight for height and age under previous life insurance company recommendations), the death rate was 10 per cent above average.

With 25 pounds overweight, the death rate suddenly increased to 25 per cent above the national average.

With men 50 pounds overweight the death rate was 75 per cent above average.

This report, adopted by the Metropolitan and other life insurance companies, asserts that the best weight is approximately 20 pounds below the national average.

One of the best of the food for-

mulas now ready for general distribution is described in the June issue of Town and Country Magazine, in perhaps the most complete article on the formula food development yet published.

The formula described is designed, when substituted for the businessman's luncheon, to accomplish a weight loss of something like 15 pounds in 30 days without placing any particular strain upon the will-power. The magazine's article, by Wyatt Jones, is entitled "Look Alive—Live Longer."

The formula contains wheat germ, yeast, malt and milk solids as its chief sources of calories and nutrients, and is pleasantly flavored and filling. Each

two-ounce package is asserted to contain the balanced nutrients of an entire meal.

This particular new low-calorie diet, a 16-day, 1,000-calorie program and a 24-day luncheon schedule follow-up, are suggested for women because they need about 1,000 fewer calories per day on the average than do men. The less intensive program of luncheon substitution is suggested for men.

The double program was evolved by Henry Sell, who gained U.S. Navy kudos some years ago for working out an adequate diet which successfully accommodated the hunger of vigorous young sailors with the limited food storage space available aboard submarines.

N.Y. Dem Chairman Edges Toward Adlai

SUFFERN, N.Y. (U)—Michael H. Prendergast, New York Democratic chairman signed a political petition Monday but he says that did not commit him to support Adlai E. Stevenson for the presidency.

Prendergast, here for a Rockland County party fund-raising auction, explained that the petition he signed simply noted Stevenson's qualifications for office.

"I'm against no one and I'm for no candidate," Prendergast said today. "I stand by my statement of the past several months—that we are going to the convention with open minds."

BIGGER THAN FIVE HAMBURGERS

KING SIZE COKE HAS MORE FOR YOU LET VALUE LIFT REFRESHMENT TOO!

Time out for coffee as committee chairmen for Pontiac General Hospital Women's Auxiliary scholarship fund raising drive get together. From left are Mrs. E. A. Reimeyer, scholarship selections; Mrs. Howard Walder, gen-

eral chairman; and Mrs. Forest R. Wood, fund raising. Ten area hostesses will launch the effort by opening their homes for luncheons, desserts or brunch.

June Drive to Benefit Hospital Fund Auxiliary

Ten key hostesses will launch a June fund-raising drive for benefit of the Women's Auxiliary to Pontiac General Hospital scholarship fund.

Opening their homes for luncheons, desserts or brunch will be Mrs. Edward Elder, Mrs. Asa Drury, Mrs. William J. Dean, Mrs. William McCune, Mrs. Edward Dalton and Mrs. F. Milton Hathaway.

Others who will entertain are Mrs. Howard Walder, Mrs. Forest R. Wood, Mrs. Allen Denham and Miss Vera Bassett.

Many guests of the above hostesses will continue the series by entertaining in their homes throughout the month of June.

Two scholarships, one for nursing and another for medical technology, will be awarded by the auxiliary for the second annual year. Mrs. Wood, Mrs. Walder and Mrs. E. A. Reimeyer are chairmen for the project.

Members interested in joining the fund raising drive may contact one of the hostesses.

If you want to give your neck the illusion of length, wear your hair piled high on your head. And don't nullify the effect by wearing a necklace. The minute you encircle your neck, you foreshorten it.

Evening Reception Follows

Wed in Catholic Rite

Violet Ann Moriarty pledged wedding vows to Ray Lee Trusler before the Rev. Francis O'Donnell, Saturday, at a nuptial high Mass in St. Michael Church.

An evening reception in the Roosevelt Hotel was hosted by the bride's parents, Mr. and Mrs. Timothy Moriarty of Augusta avenue.

The bridegroom is the son of Mrs. Lydia M. Trusler of Tregent street and Ray Frank Trusler of Crawford street.

The ballerina-length bridal gown of white nylon and Chantilly lace over silk taffeta was styled with a sweetheart neckline and long tapering sleeves. White roses and carnations rested on the bride's white Bible.

SISTER MAID OF HONOR

Sharon Moriarty attended her sister as maid of honor, with bridesmaids Carol Lozano and the bridegroom's sister Linda.

Their ballerina-length dresses of pink and white flowered nylon were worn with matching headbands. They held hand-cascades of pink roses and white carnations.

Charles Moriarty, cousin of the bride, performed the duties of best man. Guests were seated by William Scribner and Gene Cen. After a motor trip to Niagara Falls, Ohio and Pennsylvania, the couple are at home in Pontiac.

For her daughter's wedding, Mrs. Moriarty chose pale blue lace over nylon taffeta. Mrs. Trusler appeared in bouffant light gray taffeta.

Both mothers wore shoulder corages of red roses and white carnations.

Carnival to Recall Old West

The public is invited to the annual Scholarship Carnival, sponsored by the parents of City and Country School for Gifted Children, Bloomfield Hills.

Games, prizes, pony rides and a water ballet are among activities planned for the Western Jam-boree carnival, slated from 1 to 6 p.m. June 19 at the school on Woodward-avenue north of Long Lake road.

Annually, the carnival raises money for scholarships to assist parents with talented children who otherwise could not afford to send their children in the school.

Other carnival features will be synchronized swimming in the school's new outdoor pool, Swedish gym exhibitions and the appearance of Cowboy Colt. Prizes will include a color television set, transistor radio, and polaroid camera.

Novelties will include panning for gold, a fish pond, a silver mine and carousel and merry-go-round rides. Puppet shows will be presented in the afternoon.

Open for adults will be the Silver Bar Saloon, with entertainment, and the general store, with gift items donated by local merchants.

An open pit barbecue will serve roast beef dinners.

A nonprofit elementary school for the education and development of gifted children, City and Country School teaches students from a cross-section of economic, social and racial backgrounds.

Waxing Floors?

(UPI) — Apply floor wax that must be polished in a thin, even coat. Buff thoroughly by hand with a bristle brush or by an electric floor polisher. Too much wax and too little buffing can make a floor slippery.

MRS. RAY L. TRUSLER

Be Sure Skirt Has a Lining

(NEA) — If you have the very common problem of "sitting-out" your dresses so that they become shapeless in a hurry, be practical. Don't settle for a dress that isn't lined. Increasingly, dresses are cut with linings.

Even inexpensive cottons now have skirt linings. It's the best way to make sure that a dress holds its shape rather than yours. So, before you buy, have a look at the inside of the skirt.

One jewelry firm will introduce a collection of hair ornaments for fall.

Robert Shicks Honeymooning on Windjammer

Cruising in the Bahamas on a private Swedish-type windjammer are Mr. and Mrs. Robert Lewis Shick who exchanged wedding rings and vows before the Rev. Walter J. Teeuwissen, Saturday evening in the Community United Presbyterian Church, Drayton Plains.

The former Jean Yvonne Fritelle is the daughter of Mr. and Mrs. Louis Franklin Fritelle of Farney street, Drayton Plains. They hosted the church reception following the candle-light ceremony.

The bridal gown of white silk mist taffeta featured a bodice and long sleeves of Alencon lace. Three flat pale pink bows accented the Empire waistline which extended into the bouffant skirt and chapel train.

A Roman wreath of simulated orange blossoms caught the shoulder-length cloud veil of illusion. Amazon lilies, white stephanotis and pale pink miniature roses comprised the bride's semi-cascade bouquet.

Pink silk organza fashioned the frock for Mrs. Dean Eby of Southfield, matron-of-honor. She wore a matching veiled caplet and held a semi-cascade of variegated pink carnations and ivy.

James Shick assisted his brother, as best man. They are the sons of Mr. and Mrs. Jay B. Shick of Ojai, Calif., formerly of Division. Another brother, Robert, seated the guests with John Cottee, Charles Bell, Harvey Scott and Joseph Kirby.

The bride attended Wayne State University and her husband's schools are Michigan State and Purdue Universities. They will live in Berkeley.

Posies for the Sun Set!

By GAY PAULEY

NEW YORK (UPI)—The summer crop of beach accessories looks like a madcap harvest of straw, flowers and feathers.

For the girl who has everything else (including a good figure), there even is a Bikini bathing suit which looks like a lost flower pot.

A look through fashions from manufacturers specializing in the non-conservative turned up these items for the sun set.

A Bikini of black stretch fabric, with the bra and shorts covered with pink silk hyacinths everywhere, except where a girl sits down. This suit is from Flower-Mode, a New York firm which pioneered artificial flower earrings and flower-trimmed bathing caps some years ago.

This year, Flower-Mode showed straw-base beach hats,

coolie shaped, and covered from crown to brim edge with large pink petals, so that the result appeared to be one giant rose.

The same firm produced flower-trimmed "wind bonnets," which are crisp nylon veiling tied under the chin to protect the hair while riding in an open car, and sun glasses which looked like something right from the greenhouse.

GLASS IS HEARTY

In the case of the latter, the dark glass itself formed the heart of the flowers, with rims surrounded by fabric rose, daisy, sweet pea, violet or sunflower petals. Some of the petals were of gingham check or polka dot fabrics.

One New York retail store revived the pince nez shape in sunglasses, showing this 18th Century style with delicate black cords attached to nylon frames.

Beach hats for 1960 run all the way from the conservative pork pie shape, through cooies decorated with flowers, paillettes, artificial fruits or vegetables, to straws with brims wide enough to pass for a parasol.

Undisputed master of the wild beach hat is William J., the young New York designer who the rest of the year turns out millinery sane enough for church or a woman's club luncheon.

One group, called ice cream parlor straws, were shaped like the old-fashioned ice cream soda mugs topped with pastel-colored ostrich feathers and a couple of straws shooting upward like the ears on a television set.

Another, dubbed parafit, combined a straw base with a fluffy, mahogany topped dyed pistachio, grape or peach colors. The general shape of this headgear was of a horn of plenty.

William J. also produced a combination beach umbrella-fan. A straw disc inside the parasol held this headpiece on when opened to its nearly two-yard diameter. Folded, it served as a fan. The work was trimmed in brilliantly-colored ostrich feathers.

But the milliner figured his "lookiest" of all was the wig hat, with a mane of "hair"—strands of raw silk which he said could be combed like nature's own locks. "But don't take it to the laundromat," he warned, "Take it to your hairdresser."

The part which fitted over one's own hair, plus curlers if necessary, was cloche shaped and made of straw. Manes, dyed natural, white, turquoise and pink; ranged from waist to ankle length—to turn a bathing beauty into Godiva without a horse.

The larger that heads become, the lighter they get. So don't let those great, big, hirsute frighten you. They're practically weightless.

Bailey PTA Festival Set Saturday

A surprise apron lady, pony rides, wishing well and cotton candy booth will highlight the Corn Bailey PTA spring festival, from 1 to 5 p.m. Saturday, on the school grounds.

Dolph D. Wright has been named general chairman. Assisting are chairmen Mrs. Edward Hoffmaster and Mrs. Ellen Sheffield, white elephants and country store: Mrs. Howard Ogden and Mrs. Gladys Hocking, baked goods and home-made candies; and Mrs. Loren Davis, Mrs. Harvey Roush and Mrs. Mary Hodges, fish pond and games table.

The country kitchen will be under supervision of Mrs. Jack Taylor and Mrs. Jeannette Hillebrand.

Helping with games will be Mrs. James Patterson, Mrs. Beulah Williams, Mrs. Lee Hastings, Mrs. Bernice Powell and Mrs. Dolph D. Wright.

Golden Agers Set Gay Night

An evening of dancing, card playing and shuffleboard has been planned for 7:30 p.m. Friday at the Community Center by the Waterloo Township Golden Age Club.

The group of 50 members "past 60," has invited the Pontiac Sub-Set Club and Clarkson's Pioneer Club to join in the festivities, according to Mrs. Mary MacFarland, president of the local group.

The evening has been designated "pie night" and members have been asked to bring one or two pies. Music for dancing will be furnished and directed by Mr. and Mrs. Warren Allen.

Mrs. C. S. Baker was recently appointed chairman for the Friday night affair are Mrs. Edith Thomas, Mrs. Vernie Craig, Mrs. Florence Wallace and Mrs. Hazel Healy.

The print linen jacket bound in braid is one way to ring welcome changes on a simple summer sheath. Try it with a white print on blue or black background.

SHE'S FOR GOP — Shirley Jean Haves, 21, a housewife from Arvada, Colo., has decided to join the Republican Party after writing both President Eisenhower and ex-President Harry Truman to get their views. Eisenhower talked to her over a closed-circuit television circuit from a Jan. 27 dinner at Los Angeles. Truman told her to go to the history books then make up her own mind. Shirley Jean is shown with her husband Bill, 4, and their two children, Cindy, 3, and Bill, 4.

Far East Goes All Out to Guard Ike

Orders Bulletproof Sedan

TOKYO (UPI)—The Far Eastern countries President Eisenhower will visit planned unprecedented security measures today—from stopped-up air and seal patrols in the Formosa Strait to a bulletproof sedan in Tokyo.

There have been weeks of anti-American demonstrations in Tokyo in protest against the new U. S.-Japan Defense Treaty and in recent days violently left-wing students have demanded that Eisenhower cancel his visit.

The Imperial Palace in Tokyo said Eisenhower and Emperor Hirohito would ride through the streets of Tokyo in a bulletproof sedan when Eisenhower arrives June 19 instead of the open convertible originally planned.

The trip from the airport to the Imperial Palace grounds in the heart of Tokyo is 12 miles and the extreme left-wing Zengakuren students organization has threatened major demonstrations.

Massive police reserves have been alerted to keep order during the visit especially since June 19 is the day the U. S.-Japan security treaty becomes effective.

Military sources in Taipei said the United States and nationalist sources will mobilize maximum air and sea patrols to guard Formosa during Eisenhower's 24-hour visit June 18-19 before he goes to Japan.

The same precautions also will be taken during his stopover in Okinawa, and his eight-hour visit to Korea which is only a few seconds flying time by jet plane from the Communist north.

It was reported from Taipei that Communist Chinese activities were likely to be increased by the Eisenhower visit.

It was recalled that in October 1958, Peiping broke its own announced cease-fire at Quemoy with an 11,000-shell barrage the day before the late Sec. of State John Foster Dulles arrived in Taipei.

Preparations in Manila were less spectacular and the only possible threat seen was by the Communist Hukbs but in recent years they have been driven into the mountains and rarely act in the cities.

By coincidence the first planes of a U. S. composite air strike force for Southeast Asia will arrive at Clark Air Base, Philippines, on Saturday, the Air Force announced.

The movement was described in Washington as a training exercise but it means a strike force of 120 planes will arrive just 10 days before Eisenhower.

Thirty of the planes will be sent to Don Muang Air Field near Bangkok and others will fly to Formosa.

The last such flight came in the fall of 1958 when Communist China created a crisis in the Formosa Strait by heavy bombardments of Quemoy.

Asks Shake-Up of Drug Agency

Doctor With FDA Quits to Be Free to Criticize Questionable Policies

WASHINGTON (AP)—A former food and drug administration (FDA) official today advocated a shake-up of the agency staff and new laws to drive dangerous or untested medicines off the market.

Dr. Barbara Moulton, in testimony prepared for the Senate Antitrust and Monopoly subcommittee, charged that some FDA officials are too friendly with the drug manufacturers whose products they are supposed to police. She is a practicing physician now in Charles Town, W.Va.

The woman doctor said she was shifted from one FDA post to another with an explanation that "I was not sufficiently polite to members of the pharmaceutical industry." She said Dr. Albert H. Holland Jr., FDA medical director, arranged the transfer and told her why.

Dr. Moulton said she resigned last Feb. 19 so she could be free to fight for "a housecleaning within the administration." She had served for five years in the agency.

George P. Latrick, FDA com-

missioner, and Arthur S. Fleming, secretary of health, education and welfare, will have a chance to reply to her allegations when they testify Friday. FDA is a branch of the Welfare Department.

The subcommittee, which is investigating drug industry practices and pricing, also is looking into outside activities of Dr. Henry Welch, former head of the FDA's antibiotic division.

Fleming demanded and received Dr. Welch's resignation May 18 after the subcommittee heard testimony that Welch had received \$27,142 from medical publishing firms doing business with drug firms under his supervision.

Should Have Listened to Their Press Agents

LOS ANGELES (AP)—Two years ago actress Andrea Martin and cowboy actor Ty Hardin were warned not to marry. Marriage might hurt their careers, agents and publicity experts said.

They married anyway. And their careers flourished—the won starring film roles, he was briefly "Cheyenne" of the TV series, then moved to the lead in the "Bronco" series.

But their marriage failed. Wednesday she filed suit for divorce, charging extreme cruelty. She said she was convinced Hardin no longer loved her.

He is 39, she 24. They have twin sons, John and Jeff, seven months old. She asked support for them but only token alimony.

Babs Walks to Discredit Meat, Coffee

KANSAS CITY, Mo. (AP)—Dr. Barbara Moore massaged her aching feet and explained Wednesday night why she's taking that long walk from California to New York.

"The primary purpose of my walk is to prove that Americans are killing themselves by eating too much meat and drinking too much coffee," she said.

Dr. Moore, a 36-year-old Britisher, attributes her hardness to a vegetarian diet.

"I could go out right now and walk another 40 miles as I did today," she said.

Asked if she noticed the stockyards, Kansas City's pride, as she walked through Wednesday, she grimaced and said:

"Was that the awful smell I encountered? My word, how could anything be good for you that comes from a place with an odor like that?"

Dr. Moore then sat down to a dinner of nut loaf and assorted vegetables.

Land areas of the world have an average population of about 40 persons per square mile. Some regions, of course, are much more heavily populated while some are less.

Dayton Chemist Claims Third Kind of Motion

DAYTON, Ohio (UPI)—An industrial chemist claims he has discovered a third dimension in motion which can "lock itself in space and produce action without apparent reaction."

John E. Wolfe, technical director for Glotz, Inc., a cosmetics manufacturer, claimed that he has proved the existence of the "third dimension in motion."

A two-column advertisement, in agate type and technical language, was prepared for publication in Wednesday's Dayton Daily News as Wolfe's vehicle for telling the world of science of his discovery.

Wolfe, for 10 years the chief chemist for General Motors' Delco Division here, said he had no success in getting the federal government to accept his ideas.

He contended that in addition to straight line and rotary motion, he has discovered "complete rotation about a point" able to "lock itself in space and produce action without apparent reaction."

He developed his theory with his brother Peter E. Wolfe, of Indianapolis, Ind.

It's absolutely vital that we get working on this concept as quickly as we can," he told a reporter. "The long term effects will almost inevitably be the nuclear research and the space research programs."

"Someone over in Russia is

Freed in '36 Slaying by Black Legion

LANSING, Mich.—Urban Lipps, 46, one of a dozen men convicted in the Black Legion slaying of Charles A. Poole 24 years ago, has been extended clemency by Gov. Williams.

The governor announced commutation of Lipps' life sentence, making him eligible for immediate parole consideration.

Lipps has served 23 years in prison, mostly at the state reformatory in Ionia.

The parole board, which recommended the commutation, reported

that Lipps lured Poole into the car in which he was driven to the death spot in 1936 but took no part in the fatal shooting.

Fluke Hits the Moose

ST. PAUL, Minn.—Conservation officials say liver fluke, a parasite picked up from plants in and near the water, may be causing illness of moose in northern Minnesota. A veterinary medical expert says there is no sure treatment for the disease, common to deer, cattle and sheep in the area.

Almost 10 million adults in the United States read with an ability equivalent to that of a normal child in the fourth grade in school.

Voice of Experience!

MONTPELIER, Vt. (UPI)—

Republican international nomination for a fourth time, W. Arthur Simpson, 72, said "I have no political ambitions."

While hurricanes are frequent and common in the Mississippi valley states, they are also known in Australia and Europe.

Apples Are a Natural to Serve With Lamb

Apples, noted for their agreeable affinity to pork, also add a tangy accompaniment to many other meats. Young, Spring lamb, tasty however served, benefits doubly from combined mint and apple flavors — both naturally suitable to delicate lamb.

If you wish to make a banquet of a simple meal, you may serve a handsome Rack of Lamb (easily carved for individual servings) surrounded with a chain of delectable and decorative Minted Apple Rings.

Blend all ingredients in a 10-inch skillet. Simmer over medium heat for five minutes. Cut peeled, cored apples into 1/4 inch thick rings. Slide rings into skillet and simmer until apples are tender, not mushy, turning once. Lift apple rings with spatula and place around Rack of Lamb.

Allow at least two ribs per serving when purchasing rack of lamb.

lamb. Ask your meat man to "French" the ends of the ribs, score the fat in a diamond pattern, and to give you frills for each rib. Wipe meat with a damp cloth or damp paper towels. Sprinkle with salt and pepper on all sides, then place rib side down in a shallow baking pan. Roast in a constant slow oven (300 degrees) until meat thermometer inserted in center of meat without touching a bone, registers 115 degrees — about 30 minutes per pound. Place frills on rib ends after meat is placed on platter. Surround with Minted Apple Rings.

Apple-Stuffed Lamb Chops

3 Winesap apples
1 tablespoon lemon juice
2 slices white bread
1/2 cup (1 stick) butter or margarine
1/2 cup chopped nuts

1/2 teaspoon salt
1/2 teaspoon ground white pepper
2 tablespoons chopped mint
1/4 lb. lamb chops (French ends)
8 mint sprigs, for garnish

Core, peel and dice apples into 1/4 inch pieces; brush with lemon juice to prevent discoloring. Cut bread into 1/2 inch cubes. Melt butter in heavy skillet over medium heat. Toast bread cubes and nuts in butter until cubes are lightly browned. Remove from heat. Toss in apple pieces and chopped mint until evenly distributed.

Divide stuffing into 4 equal parts. Pack stuffing on the inside curve of the chops; pull the strip of meat around the stuffing; secure each chop with a toothpick.

parts. Pack stuffing on the inside curve of the chops; pull the strip of meat around the stuffing; secure each chop with a toothpick.

Arrange stuffed chops on broiler pan 3 inches from heat. Broil on both sides until chops are browned and fat is crisp — about 10 minutes to each side of chop. Arrange the chops on a round pre-heated serving plate. Garnish with mint sprigs.

Keep Sauce on Hand for Everyday Use

This chocolate sauce is the thick rich variety.

Chocolate Sauce

1 package (8 ounces) semi-sweet chocolate pieces
1/2 cup light corn syrup
1/2 cup undiluted evaporated milk

Heat chocolate and corn syrup over hot (not boiling) water; stir occasionally until chocolate melts. Remove from heat; if not en-

tirely smooth beat with a whisk; stir in undiluted evaporated milk; serve at once. Sauce may be reheated over hot water.

Orange Freeze

For a change of pace, a summer beverage that will bring raves... fresh Orange Freeze. Put 1/2 cup fresh orange juice in each glass; add one or two scoops of orange sherbet; stir in either cold water or carbonated water. Garnish with an orange cartwheel and maraschino cherry.

To make apple rings which will keep their shape and fresh-apple flavor, choose a variety of apple which is very firm-textured and full-flavored. Winesaps — tart, crisp and orchard-fresh from carefully controlled storage — are an ideal variety for this, as well as all other cooking purposes. They'll take to their mint-and-syrup bath, come out perfectly shaped, to fashion your favorite meat platter.

Another recipe featuring apples and lamb is our Apple-Stuffed Lamb Chops. Winesaps are a good variety to select for this use, too. You could save several chops from the rack of lamb for this recipe, thereby saving double shopping efforts.

Minted Apple Rings with Rack of Lamb

4 Winesap apples
1 cup water
1 cup sugar
1/2 cup white corn syrup
Seasonings: lemon juice
6 drops green food coloring
1/2 teaspoon mint flavoring

Make It at Home

June Bride Wants a Lovely Cake

By JANET ODELL

Pontiac Press Home Editor

Your daughter's getting married this month. You want her to have a lovely reception, but you can't afford to spend much money. No shame in that.

Whether the food served is simple or elaborate, you must make your plans early. Then you can prepare much of the food and freeze it — yes, even the wedding cake.

Here is the way home economists from Frigidare suggest you wrap the cake for freezing:

To wrap the decorated cake for freezing, first arrange four to six lengths of freezer cellophane cross-wise on the table. Place the cake in the center and carefully draw end of inner layer of cellophane together and secure at the top with freezer tape. Next, draw up and secure the ends of the next layer of wrapping material. Continue until the cake is completely wrapped, then freeze it. The cake should be removed from the freezer at least five hours be-

fore serving and left in the wrapping during the thawing process.

Now for a wedding cake that will serve 60 people and will cost you under five dollars. You'll need a pastry tube for decorating, but that is the only special equipment necessary.

WEDDING CAKE

Mix recipe twice. First mixing is used for 10-inch square cake; the second mixing to be divided between the two 8-inch square cakes.

PREPARATION: Let eggs and shortening stand at room temperature an hour or two. Use butter, margarine, lard or vegetable shortening. Butter gives a slightly cream-colored cake; the others a whiter cake. Line bottoms of one 10 x 10 x 2-inch square pan and two 8 x 8 x 2-inch square pans with paper. Sift flour once before measuring. Lift by spoonfuls into cup until piled high, then level off by drawing spatula or straight knife across top. Do not pack or shake down.

MEASUREMENTS: Three cups sifted cake flour, 4 teaspoons

double-acting baking powder, $\frac{3}{4}$ teaspoon salt, 5 egg whites, 6 tablespoons sugar, two-thirds cup shortening, one and one-third cups milk, $\frac{1}{4}$ teaspoon vanilla, $\frac{1}{4}$ teaspoon almond extract.

MIXING METHOD: 1. Sift flour once, then measure, add baking powder and salt, and sift together three times.

2. Beat egg whites until foamy, add 6 tablespoons sugar gradually, and continue beating only until mixture will stand in soft peaks.

3. Cream shortening, add one and two-thirds cups sugar gradually, and cream together until light and fluffy.

4. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add egg whites and flavorings and beat thoroughly into batter.

BAKING: 1. Turn first mixing of batter into the prepared 10 x 10 x 2-inch square pan. Bake in moderate oven (350 degrees F.) 1 hour and 15 minutes, or until done.

2. When first cake is baked, mix second batch of cake batter as in

the first mixing. Turn batter into the two 8 x 8 x 2-inch pans. Bake moderate oven (350 degrees F.) 45 minutes, or until done.

COOLING: Cool cakes in pans on racks 10 minutes. Then loosen from sides of pans with spatula, turn out, remove paper, and turn right-side up on racks to cool. When thoroughly cooled, at least 1 hour, brush cakes to remove any loose crumbs. Then cut off edges of one of the 8-inch square cakes into a 4-inch square cake.

FROSTING: Prepare ornamental frosting. Then place 10-inch cake on large flat tray or plate. Frost top and sides with thin layer of cake with extra frosting. Place 8-inch cake on top, centering evenly. Cover top and sides with thin layer of frosting. Frost center of layer with extra frosting. Adjust 5-inch cake on top and cover top and sides with thin layer of frosting. Spread more frosting on top and outside of cake; then, with a knife go over entire cake, making a smooth flat surface for decorating. Decorate cake with garlands and small roses, with a pastry tube.

CUTTING THE CAKE: Cut top layer in half and then each half in 5 slices. Divide second layer in 3 strips and slice. Divide third layer in 4 strips and slice. Serves 60.

Ornamental Frosting: One-half cup butter or margarine, $\frac{1}{4}$ teaspoon salt, 12 cups sifted confectioners' sugar, 5 egg whites, unbeaten, $\frac{1}{4}$ cup cream (about), 2 teaspoons vanilla.

Cream butter or margarine. Add salt and part of the sugar gradually, blending after each addition. Add remaining sugar, alternately with the egg whites first, then with the cream, until of right consistency to spread.

beating after each addition until smooth. Add vanilla; blend. (While frosting cake, keep bowl of frosting covered with a damp cloth to prevent excessive evaporation).

Many brides and their mothers worry about what to serve at the wedding reception. It is all right to have just the wedding cake and punch and/or coffee. Nothing more is called for. You need never feel pressured to offer the guests more. Here is an interesting punch made with Rose wine. It will be a delightful pink color.

Hearts and Flowers Punch
2 bottles Rose wine, chilled
2 cans frozen lemonade concentrate
Heart-shaped ice mold
1 can Raspberry sherbet

Combine wine and lemonade concentrate; stir until concentrate melts. Pour over heart-shaped mold in small punch bowl. Put a spoonful of raspberry sherbet in each punch cup before ladling punch. Makes about 24 punch cup servings.

To make ice mold: Fill aluminum-foil heart-shaped baking pan with water; freeze.

If you're going to have tiny sandwiches, do get someone to help you make them. They can be frozen (better garish them after you remove them from the freezer) or made early in the day and covered with wax paper and a damp towel.

Cut your bread into the desired shapes the day before and store in plastic bags or in a tightly closed pan. Make up your spreads and refrigerate them. Then plan on at least 15 minutes for each dozen sandwiches you make. Be sure butter is soft.

We wish every June bride a happy life. We hope her mother won't be exhausted getting ready for the occasion. Let us know if we can help.

WEDDING CAKE—This three-tiered cake for the wedding has economy as well as beauty to

recommend it. It will cost you under five dollars to make it at home.

Keep Various Cold Cuts for Parties, Sandwiches

Ready-to-serve meats are not only convenient, but they are also fun to serve because they can be arranged in such a variety of ways that no two meat platters need ever look the same. But regardless of the arrangement used, they can always be counted on to be "picture pretty" when care is taken in selection of the meat, giving special notice to contrast in color, flavor and shape.

In order to have a good selection of these meats, it is wise to plan on having at least four or five different kinds from which to choose. This represents only a very small fraction of the total number of ready-to-serve meats on sale in markets today.

While an attractive arrangement is always thought of as being especially appropriate for parties, most homemakers keep

at least one or two kinds of ready-to-serve meats on hand in their refrigerators at all times. Certainly these meats are the number one choice for sandwiches.

Whether these sandwiches are eaten at home or packed in a lunch, the meats retain their superior flavor and freshness.

When ready-to-serve meats are teamed with potato or other vegetable salad, hard rolls and a vegetable, they make a complete meal. At other times, ready-to-serve meats take their place as important ingredients in a case on role or other main dish; their uses are many and varied.

In serving them as cold cuts it is wise to allow about 2 or 3 ounces for each person; stated another way, one pound will yield

about 6 to 8 servings. They will be at their best if purchased no longer than 2 or 3 days before using.

Most varieties are available in the prepackaged sliced form as well as in larger pieces. They should always be stored in the coldest part of the refrigerator and to prevent drying, should be kept in their original wrapper. When ready-to-serve meat is purchased by the piece, it should not be sliced until shortly before it is used.

City Chicken Isn't!

That interesting package of meat labeled "city chicken" isn't chicken at all! It's veal on a skewer. Sometimes the veal cubes are alternated with pork cubes. Easy to cook and easy to eat, the skewered meat needs a bit of browning in hot fat to develop a rich brown crust, then slow cooking with a small amount of liquid until tender.

WEALTH UNDERFOOT — Robert L. Romig demonstrates how anyone can pan gold and find it in Idaho. It isn't a get-rich quick proposition, however.

Gold in Them Thar Hills; Idaho Invites 'Miners'

BOISE, Idaho (AP) — Mention the word "gold" and you are reminded of the hard times, and 41-year-old Robert L. Romig's blue eyes twinkle. Romig, president of the Golden Sunrise Mining Co., owns gold — maybe a million dollars worth.

But at today's mining costs, he says, "It would take two million to get it out of the ground."

So Romig and hundreds of other gold men like him in the West are biding their time. "In hard times," Romig says, "if I couldn't get a job and if prices descended, I could support myself indefinitely off gold."

Even a stranger can find gold in Idaho — scattered among the black and black sand of Boise National Forest streams, or imbedded in quartz ore. At the old gold town of Idaho City, residents like to amaze tourists by panning gold from the sand in the street.

But it's still too difficult to mine enough to turn a profit. Romig, a school teacher at Grand View, Idaho, now is working with the Idaho Historical Society on popularizing gold mining for fun.

Gold-seeking visitors could benefit from new life to the old boom towns that lived and died in the bonanzas of the late 19th Century.

Romig, working two days, illustrated what a typical amateur gold hunter could do. He went about it much as a fisherman would look for a spot to fish — he asked an old timer to direct him to a likely spot.

From earlier workings a half century ago, little bits of gold had filtered into the surface of bedrock. And scraping the time weathered surface of the bedrock, Romig filled wheelbarrows full of gold-bearing material.

He washed 40 loads of it through an eight-foot-long sluice box, patiently panning out the silver.

Pontiac Skaters Take State Honors

Major League Boxes

Detroit Star Tops State Records in 100 and 220

DETROIT (AP) — Henry Carr, 17, a Detroit Northwestern high school junior blazed to a :09.4 100-yard dash and a :20.8 time in the 220 yesterday.

Carr smashed Detroit City League records in both events. The 220-yard time was just short of the :20.6 national high school mark set by Mel Slipper of Pasadena, Calif., in 1958.

Both times were the fastest ever turned in by a Michigan schoolboy. The existing state records are :09.8 and :21.4. Carr broke his own city league marks.

British Title at Stake

EDMONTON (AP)—Dick Tiger of Nigeria and Will Greaves of Edmontan will meet here June 22 in a 15-rounder for the British Empire middleweight title, promoter Morris Gundersen announced today. Tiger now holds the championship.

PAIR OF CHAMPS—Joe Louis (left) former heavyweight champion who has been tutoring Floyd Patterson on how to beat Ingemar Johansson, shakes hands with Ingo at the Swede's training camp in Grossinger, N. Y. Louis watched Johansson box four rounds in a tuneup for the June title defense.

Trials at Stanford Next Month

U.S. Olympic Team Has 315 Aspirants

NEW YORK (AP)—A total of 315 U.S. Olympic team aspirants has qualified or surpassed the qualifying standards in 17 of the 19 events in which such qualification is necessary. Only the 10,000-meter run and the 3,000-meter steeplechase have been elusive.

The Olympic committee, with the final trials at Stanford University Stadium only a month away, is busy sifting the performances to get an idea of just how well the American stars will stack up against their world rivals.

Recent listings have enhanced the prospects of medal winners. The 3:58 miles by Jim Beatty of Santa Clara Youth Village — the best mark for the distance by an American citizen — is highly encouraging. Dyrrol Burleson, Ore-

gon U. sophomore who covered the distance in 3:58.6 a few weeks ago, was timed in 3:59.2 in finishing second to Beatty.

Also encouraging was the qualification of Tom Murphy of the New York Athletic Club and Tom Carroll of Yale in the 800-yard run in the East. Four athletes also qualified on the West Coast in that event.

Al Hall, Pan-American champion, turned in a noteworthy performance in the hammer throw with a heave of 208 feet 5 1/2 inches.

Four more women qualified in members of the 1956 Olympic team. Mrs. Earlene Brown, already qualified in the shot put, tossed the discus 170 feet 2 1/2 inches for an American record.

Pamela Kurrell also qualified with a toss of 150 feet 4 inches, and Mrs. Karen Anderson Oldham came out of retirement to qualify in the javelin with a throw of 161 feet 9 1/2 inches.

Joan Gaetner leaped 5 feet 6 inches to be the first qualifier in the high jump.

A total of seven women have reached qualifying standards in five events.

Forty-three names have been added to the list of male qualifiers since the last committee report, and three previous qualifiers improved on their performances. Jim Brewer of Southern California pole vaulted 15 feet 3/4 inch. Willie Atterberry of Michigan State ran the 400 meters in :46.9; and Tom Michels of the University of Florida was timed in :41.1 for the 110-meter hurdles.

24 Firsts Won by Rolladium in 4-Day Meet

Michigan Championship High Point Trophy in Local Hands

Pontiac Rolladium skaters scored smashing wins in the Michigan State Championships which concluded yesterday in Detroit after a 4-day stand.

The local skaters took 26 out of 54 first places, and included with numerous seconds and thirds the Rolladium won the High Point trophy and the overall team High Point Trophy for state honors.

A brother-sister combination scored victories in yesterday's finals. Skipper Darlington took first place in the novice men's figures and Cecilia was the victor in intermediate ladies figures.

Janet Ford scored a win in junior girls speed plus second place honors as member of the ladies relay and mixed relay teams.

Some of the other first place winners included: Donald Keeley in intermediate men's speed; Rolland Lane and Robyn White in juvenile pairs; Jerry Charter and Cheryl Leneke in Junior Dancer; Gerry Keely in the Five Girls Race; Robyn White in Juvenile Girls Singles free-style and Pat Bergh in Juvenile Boy's Singles free-style.

In Senior fours, Sylvia Ritchie, Lewis Parker, Sue Welch and Rick Martons; in Junior pairs, Edward Guida and Gail Enslinger; in Senior Ladies Figures, Viria London; in Senior Men's Figures, Tom Gregory; Intermediate Ladies trophy and the overall team high point. Singles, Sue Welch, Junior Fours, Diane Grose, Dennis Harrell, Regina Sroder and Dave Downing; Senior Pairs, Sue Welch and Rick Martons and Intermediate Pairs, Sue Welch, Andrew Marchewka.

Tigers Sign Valparaiso Catcher for \$25,000

DETROIT (AP)—Tom Orton, a 21-year-old catcher from Valparaiso University, has signed a \$25,000 bonus contract with the Detroit Tigers.

Orton is a 6-foot-2 Detroit senior who batted .303, .353 and .365 in three years of varsity baseball at the Indiana school. He signed a Birmingham (Southern Assn.) contract.

Indians Sign Collegian

CLEMSON, S. C. (AP)—Clemson outfielder Ty Cline has signed a bonus contract with the Cleveland Indians and will be assigned to Mobile of the Class AA Southern Assn. He will report June 8.

Willie May of the San Francisco Giants is the only active major league player to have hit more than 50 home runs in a single season. He did it in 1955.

Softball Hurlers Toss 4 Shutouts

"I've got plenty of nothing" was the theme song of numerous City Softball League hurlers today following last night's action which saw American loop pitchers toss four sparkling shutouts at Beaudette and Northside parks.

Gene Shell of Sno-Bal, Jerry Thomas of the Pontiac Merchants, Jake Jacobs of Smith Silo and Art Welles of Arro Really threw nothing but goose-eggs at the men with the clubs in their hands.

Shell twirled a one-hit shutout at Sno-Bal defeated the CIO 2-0. Thomas allowed three hits in the Merchants' 2-0 whitewashing of Stadium Inn and Welles also spun a three-hitter in Arro's 1-0 victory over the Moose.

Jacobs hurled four-hit ball to get the better of Dale Badger in a stout pitching battle as the Silo team tossed out Dave's Redwings 1-0. Badger gave up only six hits, but three singles and an outfield error brought Silo the run it needed to win in the bottom of the 6th inning.

Pacers Open 3-Race Series at Yonkers

YONKERS, N.Y., (AP) — The pick of the top pacers from Australia, the United States and Canada open a three-race series tonight at Yonkers Raceway when they match strides at 1 1/4 miles.

The second of the series, at 1 1/4 miles, will be raced June 9 and third, at one mile, June 23. Each race of the international series carries a purse of \$50,000.

The U.S. entry is comprised of Bye Bye Byrd, Widower Creed, Brian Hanover and Speedy Pick. Canada will be represented by Champ Volo and Mighty Dudley. Bye Bye Byrd, 1959 horse of the year, is the probable 8-5 choice although he'll start from the outside position. Widower Creed, who has bowed to Bye Bye Byrd in three of five clashes this year, is the 5-2 second choice with Caduceus third at 7-2.

Murchison in Field

COMPTON, Calif., (AP)—Sprinter Ira Murchison, co-holder of the world's 100-meter dash record of 10.1 seconds, has been added to the field for Friday night's Compton Relays.

Called U.S. Alert as K Swung Ax

WASHINGTON (AP) — Secretary of Defense Thomas S. Gates Jr. said today he called a military alert from Paris after he became aware Soviet Premier Nikita Khrushchev intended to wreck the summit conference.

Gates told the Senate Foreign Relations Committee, investigating the collapse of the summit session, that he regarded his action as "prudent."

"I consider the order proper," Gates said.

NOTICE OF SPECIAL ASSEMBLY. The following is a copy of the order of the Special Assembly of the Township of Bloomfield, Michigan, held on Monday, June 1, 1960, at 8:00 p.m. at the Township Office, 1000 N. Main St., Pontiac, Michigan.

Present: Mayor, Walter D. Woods, Michael Muller, William McLellan, Charles P. Pomeroy, Andrew Hinkle, Louis and Mary J. Hinkle, William McLellan, J. Sullivan, Victor Vergosen, C. Eberhart, William W. Wilson, L. J. MacDonald, Mrs. E. A. Bannister, Fred M. Purr and 10 persons interested.

The roll of the Special Assembly was read and the following were present: Mayor, Walter D. Woods, Michael Muller, William McLellan, Charles P. Pomeroy, Andrew Hinkle, Louis and Mary J. Hinkle, William McLellan, J. Sullivan, Victor Vergosen, C. Eberhart, William W. Wilson, L. J. MacDonald, Mrs. E. A. Bannister, Fred M. Purr and 10 persons interested.

Grain Prices Falter as Selling Increases

CHICAGO (AP) — Selling became a little more general in the grain futures market today and prices turned weak all along the line.

A few contracts in oats, rye and soybeans were down major fractions of a cent within the first several minutes, the broadest fluctuations of the week.

Dealers said the pressure appeared to reflect disappointment among the trade over failure of the market to show any rallying power. The selling was described simply as liquidation.

"The conditions which he had set for his participation in the conference made it appear even at the time that he deliberately intended to wreck the conference," Gates said.

"This communications alert was not an act that was either offensive or defensive in character. It was a sound precautionary measure."

ADA R. EVANS, City Clerk, June 2, 1960.

Say Eichmann Was Kidnapped

BUENOS AIRES, Argentina (AP) — The hollow-cheeked, drooping man with the haunted look of fear stepped from a bus in a Buenos Aires street today.

He was one of a crowd of early evening commuters, on his way home from work to his wife and family. He never arrived.

Suddenly a car darted out of traffic. The man was dragged in and whisked off.

Information said that was the end of the 15-year hunt across the world for Adolf Eichmann, accused Jew-killer of the Hitler era.

Israel has claimed a cover of secrecy on how its agents tracked down the man. The general accepted story is that he was trapped in Argentina and rushed out of the country May 12 or 13 on the plane that had brought Israel's delegation to the Argentine independence anniversary celebrations.

Foreign Minister Diogenes Taborda said an investigation is under way and a formal protest will be made to Israel if it is found out that Eichmann was kidnapped in Argentina.

Reliable sources said that the fugitive Nazi had lived a life of fear on the run after Germany's defeat in World War II. They said he spent the last eight years in Latin America.

Eichmann was probably frightened inadvertently by his wife, Vera. Vienna reports she turned up in Linz, Austria, in 1958 to renew her Austrian passport and Israeli agents followed her to her husband's hideout in Latin America.

IDENTITY HIDDEN. Eichmann kept his identity from his own son, Klaus, 25, who is a student at the University of Vienna.

He has been charged with bad judgment in dealing with pupils and parents and incompetence in accepting professional assistance.

A bill of particulars to support the charges was aired at last week's hearing by the testimony of Mrs. Elice Mitchell, Herrington principal, and Dr. Philip J. Proud, assistant superintendent of the school in charge of personnel.

A number of parents of Mrs. Voge's pupils have signed a petition in opposition to her dismissal. Some are expected to testify in her behalf this evening.

Richard C. Dyke, 5333 Drayton Rd., Independence Township, reported the theft of a \$20 space heater from his car at Pontiac police station.

The theft of a money changer containing \$15 from his taxi was reported to Pontiac police last night by Richard Fleming, 125 N. Perry St.

Rummage Sale, Bloomfield Hills. The following are the items for sale at the Rummage Sale, Bloomfield Hills, Michigan, held on Monday, June 1, 1960, at 8:00 p.m. at the Bloomfield Hills Community Center, 1000 N. Main St., Bloomfield Hills, Michigan.
