

8 Die in School Bus Tragedy Near Windsor

WINDSOR, Ont. (AP) — "The kids were yelling their heads off. It was pitiful. I hope I never see anything like it again."

Gerald Gemus, 31, of Oldcastle, Ont., recalled with a shudder the tragic scene when a tractor-trailer truck crushed a school bus with 30 children

aboard under tons of sand yesterday near Windsor.

Eight grade school children were killed. Most of them lived in the Oldcastle area and were on their way home from the First School in Maldstone, with one day of school left before Christmas holidays.

Thirteen children were in-

jured when the 10 tons of smothering wet sand cascaded over the bus as the trailer flipped over.

The driver of the trailer-truck, Marcel LeFrancois, 32, of Stoney Point, Ont., today was charged in Windsor Magistrate's Court with dangerous driving. He was released on personal

recognizance. Under the Canadian Criminal Code, the charge carries a maximum penalty of six months in jail, a \$500 fine or both. LeFrancois was not hurt in the accident.

Gemus said he arrived at the scene — an intersection a few miles southeast of Windsor — just after the accident occurred.

Children trapped inside the bus were screaming. Some were pinned under broken seats, others trapped by twisted metal or buried under the suffocating sand.

For nearly two hours, Gemus and others — police-men, firemen, doctors, ambulance drivers and passers-by — tore apart the wreckage

with crowbars, acetylene torches and their bare hands. "We were afraid to use shovels at first, because we might injure some of the kids we couldn't see under the sand," Gemus said.

The massive tractor-trailer rig was turning the corner when it scraped the bus, which had just discharged two children and

was waiting at the traffic signal.

The bus driver, James Levy, 40, a father of three, escaped injury but suffered shock.

The door on the driver's side was jammed shut, but the bulk of the sand poured into the bus farther back. The roof was caved in, and the frame was twisted sideways.

Talk Is Held on Mental Health Rift

Officials, meeting in a closed session yesterday on differences over mental health jurisdiction in Oakland County, said the problem was not resolved but indicated that an avenue to an agreement was uncovered.

Meeting in a four-hour session at Kingsley Inn were officials of Pontiac State Hospital, the County Community Mental Health Services Board, the State Department of Mental Health, a representative of Gov. Romney and a consultant for the National Institute of Mental Health.

The discussion issue was the lingering question of whether the board should sign an agreement to surrender to the hospital its community mental health responsibility for one-fifth of the county.

Release of an already-approved \$250,000 grant to the hospital hinges on the board and hospital reaching an agreement.

Board chairman Paul N. Averill said today that the closed session was fruitful in that it brought feelings into the open.

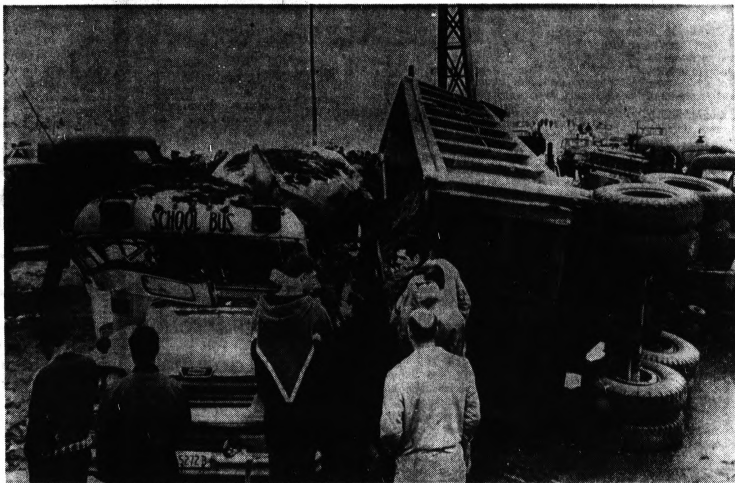

Averill and Dr. Robert E. Walden, psychiatrist director for the board, speculated that an agreement may be reached at the board's Jan. 20 meeting of modifications if the present proposals are adopted. "They indicated that the board would sign the agreement turning jurisdiction of 14 townships over to the hospital if the board was given the opportunity to provide some services to this area."

Mr. Winter Arrives, Scattering Snow

Ol' Man Winter arrived early this morning in a flurry of snowflakes for a three-month visit. Officially he was here at 2:29 a.m.

The weatherman predicts mostly cloudy and colder with occasional snow flurries tonight and tomorrow. Temperatures will bob around to a low of 8 to 18 tonight and slide up to a high near 24 tomorrow.

Twenty-seven was the low reading in downtown Pontiac preceding 8 a.m. The 2 p.m. recording was 23.

AP Wirephoto

SCENE OF TRAGEDY — This is the scene near Windsor, Ont., yesterday after a trailer-truck overturned and crushed a school bus under tons of sand, killing eight schoolchildren. Thirty children

were on their way home from Frith School in Maldstone when the crack-up occurred. Many were trapped by the flattened roof and sand.

Planners Say County Population Will Soar

Oakland County's population will soar to 1,500,000 by the year 1990, according to a population study released today by George N. Skrubbs, director of the County Planning Commission.

The 400-page report prepared by Dr. Albert J. Mayer, sociology professor at Wayne State University, was termed by Skrubbs as the most comprehensive such report ever compiled for a Detroit metropolitan community.

It will serve as the basis for the planning commission's county master plan scheduled for completion in three years.

Oakland County's last census population was 690,259 in 1960. It is approximately 650,000 now, according to county officials. Projected population figures for Oakland County, issued in June 1963 by the Detroit Metropolitan Area Regional Planning Commission, were close to Mayer's figures.

This study anticipated a 1970 county population of 900,000 and 1,200,000 in 1980.

Donald A. Kalmbach, chairman of the Oakland County

Planning Commission, six months ago predicted that the county's 1990 population would be 1,630,000.

Mayer's projection is that the population will reach 942,000 in 1970 and go to 1,230,000 in 1980. Just 66 years ago the county population was only 44,792. The largest percentage increase in a decade since 1900 was a 134.6

climb between 1920 and 1930 when the population went from 90,050 to 211,251.

Percentage increases in population between 1960 and 1970 are projected by Mayer at 35.5, with a boost of 30.6 per cent between 1970 and 1980 and 27.6 per cent between 1980 and 1990.

The report also indicates a minimum population possibility in 1990 of 1,150,000 based on the unlikely possibility that further migration from the City of Detroit would cease.

A moderate amount of out-migration from Detroit is the basis for the higher figure which

Mayer said he assumes will be the case.

Mayer points out that Oakland County by 1990 will contain enough people living at a sufficient level of density to be considered a very large city in a sociological sense.

He adds that the county will then be no collection of bedroom suburbs and will be powerfully competing with the City of Detroit for dominance of the metropolitan area.

The report also divides the population projections into meaningful age categories. The youngest group, those

Bob Hope Show Goes On for Embattled Viet GIs

(EDITOR'S NOTE — This is the fourth in a 12-part series.)

BY BOB HOPE

PLEIKU, South Vietnam (SPECIAL) — It's pretty hot here today — and I don't mean just the weather... one of the reasons is that there is always a chance that the guys flying those "Huey" security copters

overhead during our shows might get too fascinated by Joey Heather-ton's dance number.

And frankly, I hate doing a monologue when my idiot cards have bullet holes in them. I'll be going on stage in a few minutes, and I'm vibrating a little bit — no, not from fear — but from plain, simple emotion: I guess I've seen it a thousand times, but I'll never get over the sight of those GIs etched against the mountains.

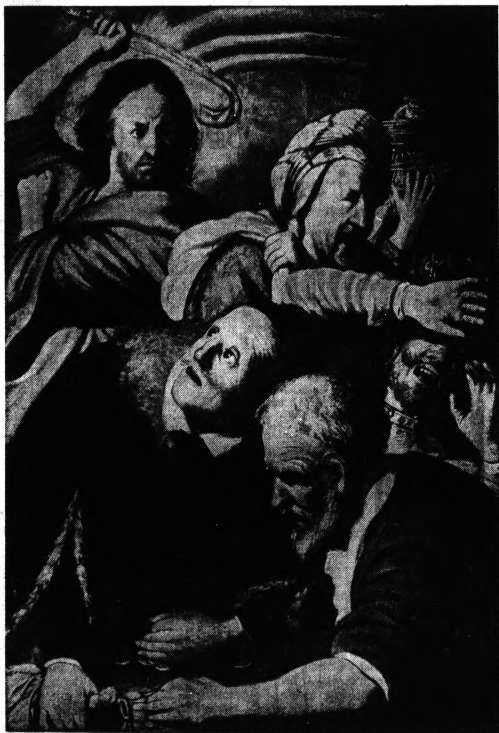

What a fantastic audience, not a critic among them. After seeing them — to hell with politics, I'm going to stay an actor...

They told me those guys began arriving at the show site around 6:00 a.m., and it's now well after noon. But you'd never know it from their applause. As

Jesus Dares the System in Temple Revolt

(EDITOR'S NOTE — Fourth article in five-part series.)

BY GEORGE W. CORNELL
AP Religion Writer

The scene churned with commerce. It had become the nation's biggest profit-making establishment, so much so that the Roman overlords would continue it even after they razed the Jerusalem Temple and replaced it with a shrine to the pagan god Jupiter.

On frequent pilgrimages there, Jesus had watched in dismay the growing economic desecration of the great sanctuary, the bartering, the animal pens, coin exchanges, the collection of head taxes from every male citizen over 19.

Today, He would not take it any longer without challenging it.

He upset the entrenched order. He dared the system. He broke traditional laws. He disturbed the dominant classes. He was a rebel. And He was not afraid.

At the Temple court, Jesus looked over the gross teeming traffic, the posted sentries, the changing utensils of wine sellers — the constant toll on the poor that upheld the whole oppressive system.

Under the military occupation, imperial Rome and the subservient Sadducean regime

Hare Calls Insurance Hike Blow to Low-Income Drivers

LANSING (AP)—Secretary of State James Hare predicted Wednesday that claims against the Motor Vehicle Accident Claims Fund would rise as a result of an auto insurance rate boost by 188 companies.

"This really hurts the low-income families and many other persons on fixed low incomes," Hare said. "The ultimate result will likely be more uninsured drivers on Michigan's roads," Hare said. The fund is designed to pro-

tect drivers involved in accidents with uninsured drivers.

The higher rates became effective Wednesday on new and renewal policies of the companies which write about 20 per cent of Michigan's auto insurance coverage. The firms are affiliated with the National Bureau of Casualty Underwriters or the National Automobile Underwriters Association, or both.

RATE OF RAISE

Liability rates were raised an average of 7.1 per cent and \$100 deductible collision rates went up an average of 4.9 per cent, in the cost of so-called comprehensive coverage.

Hare said he hoped the increase did not start another "round of general increases involving all car insurers in Michigan."

"A few years ago, Michigan's insurance rates were unrealistically low," Hare said. "But we're fast catching up to rates throughout the country."

Hare said he had read the 1966 annual roundup of Michigan's traffic toll issued by the State Police and found "the statistics are appalling."

State Police predicted this year's traffic death toll will be about 2,200 and will break the 29-year record.

"When people say that they are unaffected by Michigan's high accident toll... they had better reappraise the situation by looking at their car insurance bill from year to year and their deflated pocketbooks," Hare said.

Jesus Rebels at the Temple

(Continued From Page One)

Each spring, from Adar 25 to Nisan 1, the money booths were set up in the open Court of the Gentiles, the only place where foreigners could worship.

There, the Roman coinage was converted to Tyrian shekels and half-shekels in which the poll tax had to be paid. Jesus, realizing the grinding drain on the impoverished masses and the exploitation of the devout, was struck by the profaning of the Temple into an economic appendage, the noise and reek of sheep and fowls, and the barring of strangers from inner prayer chambers. His conscience flamed in protest.

TAKEN BY STORM

Inexorably, He moved across the wide court, overturning the coin-changing tables, blocking the freight carts, driving out the money dealers and animal vendors, seizing the place by storm.

"Is it not written, 'My house shall be called a house of prayer for all the nations'?" He cried. "But you have made it a den of robbers."

For a time, He dominated the area, Mark's gospel states, the coin-changers fled, blocking the dealers to traverse it. But He couldn't have stayed there long.

And He knew the ultimate consequences. If He had condemned Himself only to preaching of spiritual life, He might never have been hurt. But He was a reformer, a rebel. He acted openly against the vested interests of the day.

Birmingham Area News

Careful Holiday Driving Is Urged by Police Chief

BIRMINGHAM — Motorists at care and caution during the holiday season when the streets are wet and slippery and visibility is reduced.

Motorists must adjust to the hazardous driving conditions, he said, and not wait until it is too late to start stopping.

Moxley pointed out that collisions and personal injury accidents are up about 10 per cent over last year and that the personal injuries resulting from these accidents have jumped about 20 per cent.

Holiday library hours have been announced by the Baldwin Public Library.

It will close at 8 p.m. tomorrow and reopen at 9:30 a.m. Tuesday.

On New Year weekend, it will open all day Saturday, from 9:30 a.m. to 5 p.m., but will be closed Jan. 2.

A Birmingham man, Algird Ambrose, 2576 Yorkshire, was appointed to the State Wage Deviation Board yesterday by Gov. George Romney.

Ambrose, 37, succeeds Kenneth Toth of Detroit whose term has expired. He will serve as a public member of the board for a three-year term.

Breakthrough on Locating N-Blasts Told

WASHINGTON (AP) — Pentagon officials report the United States has significantly increased its ability to identify and locate underground nuclear test blasts inside the Soviet Union and is considering setting up a worldwide network of seismicographic stations.

Officials, revealing this Wednesday, said the increased U.S. capabilities amount to a breakthrough. Government scientists told Congress during hearings three years ago they had been stymied by the location and identification problems since 1961.

Defense Department officials agreed in interviews that the new U.S. information would have the effect of limiting or preventing large-scale cheating by the Soviets in case an underground test-ban treaty is signed. But they disagreed when asked what effect the developments would have on any East-West negotiations.

Some officials indicated that the findings could lead the United States to modify its demand for on-site inspection and renew its negotiations with the Soviets on a test-ban treaty.

Huge Growth Due County Population

(Continued From Page One)

under 15, will increase from about a quarter of a million children in 1960 to half a million in 1990.

Mayer says that this will result in a need to double all child-centered facilities, such as elementary schools, in capacity over the next 25 years.

An even greater percentage increase in the 15 to 24 age group is projected by 1990 and a threefold increase in the number of persons over 65 is anticipated, rising from 37,652 in 1960 to 115,370 in 1990.

The study makes no prediction of the racial proportion of the county population by 1990 but indicates an increase in the Negro population due to an expected decrease or vanishing of housing discrimination and segregation.

Changes in the occupational distribution of the county population in the future will be centered mainly in increases in the professional occupational category, the report states.

Cheyzy Lawyer Plans Motion

Circuit Judge William J. Beer will be asked tomorrow to find White Lake Township Supervisor Edward Chezy innocent of bribery.

Cheyzy's attorney, Joseph Louell, informed Beer this morning that he would make a motion for the directed judgment, rather than have the case go to the jury, alleging that insufficient evidence has been presented.

The prosecution ended its case shortly before noon.

White Lake Township Clerk Ferdinand C. Vetter was the last witness to be called by Asst. Prosecutor James Roberts.

Vetter testified to the authenticity of some of the township records accepted into evidence during the four-week trial.

Cheyzy, 38, is accused of conspiring to accept money in return for his favorable vote on a rezoning issue.

County Crash Kills Woman

Waterford Man Hurt in Crossing Crack-Up

A 66-year-old Franklin woman was killed and a 51-year-old Waterford Township man critically injured yesterday in a two-car crash in a residential area.

Dead on arrival at William Beaumont Hospital was Mrs. David J. Parkhill, 66, of 2400 N. Cromwell. Franklin, following a two-car crash in Southfield Township on Telegraph near 13 Mile Road, at 3:30 p.m.

Listed in critical condition at St. Joseph Mercy Hospital following a train-car accident in Oakland Township is Wellington R. Lewis of 131 S. Josephine, Waterford Township.

Mrs. Parkhill was a passenger in a car driven by her 69-year-old husband.

Driver of the other car was Bloomfield Township Fire Chief Valentine V. Yaruszski, 44, of 2610 Alvaston, Bloomfield Township. Yaruszski reportedly escaped injury.

Witnesses told Pontiac State Police that Parkhill's car skidded sideways, crossed the median and was struck by Yaruszski's automobile. Parkhill's vehicle then spun around and went into a ditch.

IN FAIR CONDITION

Parkhill is listed in fair condition at the hospital.

Reported in satisfactory condition is Daniel L. Miller, 27, of 1770 Beverly, Sylvan Lake, a passenger in Yaruszski's car.

Lewis was injured when his station wagon was struck broadside by a diesel engine at an Oakland Township railroad crossing, according to Oakland County sheriff's deputies.

Jack E. Widby, 38, of Taylor, engineer of the diesel switcher, said he applied the brakes and the train's whistle when he saw Lewis approaching.

The impact dragged the station wagon some 100 feet, deputies said. The mishap occurred on Gallagher near Orion Road.

Hospital Obstetrics Chief Retires After 15 Years

Another chapter in the long book on Dr. Harold A. Furlong, chief of the department of obstetrics and gynecology at Pontiac General Hospital, turns his just-presented camera on Dr. Robert L. Segula of 2755 Ayresville, Bloomfield Hills, his replacement. Members of the department presented Dr. Furlong with the new camera yesterday.

He is a certified specialist of the American Board of Obstetrics and Gynecology and a fellow of the American College of Surgeons.

At a breakfast meeting yesterday, Dr. Furlong of 2280 E. Hammond Lake, Bloomfield Township, retired from a post he has held for the past 15 years.

Dr. Robert L. Segula succeeds Dr. Furlong, who estimated he has delivered 4,500 to 5,000 babies.

Dr. Furlong intends to retain his private practice.

MEDAL OF HONOR

A Congressional Medal of Honor winner from World War I, Dr. Furlong served in both world wars. He started medical practice in 1929.

He is past president of the Oakland County Medical Society and the Michigan Society of Obstetrics and Gynecology. He is a delegate to the Michigan State Medical Society and an alternate delegate to the American Medical Association.

Independence May Get Own Police Force

INDEPENDENCE TOWNSHIP—The township may soon have its own police force. The Township Board took steps in that direction at a recent meeting when members voted unanimously not to renew an agreement with the county for extra police protection.

The Oakland County board of auditors and sheriff's department will be notified of the board's decision immediately.

For additional police service, over and above what the county would normally provide, the township was charged \$1,000 a month or \$13,200 annually.

The expenditure paid for extra sheriff's deputies and a car to patrol the township.

LIMITED AT OUTSET

However, township officials felt it was time the fast-growing community considered establishing its own police force.

Clerk Howard Altman said it may take a few months to launch a police department and even then it would be operated on a limited basis at the outset.

The county sheriff's department and Pontiac State Police post will continue to patrol township roads and answer complaints in the community.

Asked what facilities the township now has to establish a police department, Altman replied, "all we have now is the desire and three automobiles."

Area News

Fire Chief Kills Death Rumor

Rochester Truck
Overturns; 2 Unhurt

ROCHESTER — Fire Chief Lytle Buchanan was happy to deny rumors which swept the village last evening that he had been killed while on a fire run in Oakland Township.

Buchanan said the 1963 Ford pickup truck he was driving turned over when the weight of its 200-gallon water tank shifted. The truck's right side was badly damaged, he reported.

The accident occurred shortly after 4:35 p.m. on Gunn Road while he and the department's engineer, Ray Zoellner, were making a smoke investigation run to 2800 Hixon.

Buchanan said the road was a glare of ice and that he had slowed the truck to about 25 miles an hour. A curve caused loss of control and the truck landed on its side in the ditch.

Both he and Zoellner were uninjured.

A second truck reached the scene of the fire where an oil burner had exploded at 2800 Hixon, blowing the smoke stack out of the chimney. In all the confusion, Buchanan said no one thought to get the name of the home owners.

Bystander Aids in Arrest After Holdup

TROY — A bystander and four police departments—Bloomfield Township, Clawson, Birmingham and the Oakland County Sheriff's Department—combined forces to apprehend two Detroit youths after a holdup of a Shell Gas Station at Crooks and Big Beaver last night.

Troy police said youths, who obtained \$191 from the station about 9:30 p.m., were chased in a car by a bystander, 18-year-old Gerald J. Bascik of 1311 Glasser.

He forced the car into a ditch on Big Beaver at Henhawk. Both suspects ran.

Clawson police picked up Curtis M. Lewis, 18, of Detroit near the scene.

David W. Thomas, 17, also of Detroit, was tracked by the co-operating police departments and later arrested by the Birmingham police.

TIMBER-RR—Utica's 40-year-old water tower falls to the ground. Unused for the past three years since the city connected with the Detroit water system, the tower was ordered torn down by city officials. Its only purpose recently was a billboard for graduating seniors who scaled its height to proclaim their prowess to the world. No plans for the water tower site on Auburn near the dump were indicated.

Walled Lake, Commerce Twp.

Annexation Battle Looming?

By JANICE KLOUSER

WALLED LAKE—For the first time in its 132-year history, Commerce Township may be involved in an annexation struggle.

At the request of merchants and businessmen in the area, a committee of Walled Lake city councilmen is conducting an investigation into the feasibility of annexing a large chunk of the township to the city.

The committee, consisting of Mayor Wendel G. Kellogg Jr., Mrs. Margaret A. Thibideau and Frank E. Hamilton, is scheduled to report on its findings at a January meeting of the council.

The area being considered lies between 14 Mile, Oakley Park and Haggerty to the east of the city and from 14 Mile and Beck up to the village of Wolverine Lake on the west.

About 10 square miles are involved, according to township Supervisor Thomas Tiley who said he doubts that annexation, if it ever came to a vote, would pass.

13 SUBDIVISIONS

He said 13 subdivisions are in the area being discussed. He said he doesn't believe residents would approve an annexation.

Walled Lake City Manager Royce Downey said the committee studying the proposal is trying to determine if sewer and water facilities and police and fire protection could be incorporated into the township area.

He said annexation would also help straighten out a jagged boundary line between the city and township.

"We didn't initiate this on our own," he said. "We were asked by merchants and industries in the area to consider annexation because they needed the facilities we could offer."

Grade School Hours Longer

FARMINGTON TOWNSHIP—Elementary pupils in the Clarenceville School District will have a longer school day next semester while their older brothers and sisters in junior high school will have a shorter day.

Instead of five hours of classroom instruction, as has been the case for the past four years, elementary children will go to school for 5½ hours.

The junior high day will consist of seven 47-minute periods instead of seven 55-minute periods.

Schools Supt. David B. McDowell said the change is being made because elementary principals felt that the optimum school day was 5½ hours. A survey indicated that Clarenceville had the least amount of classroom time of 38 surrounding districts.

The increase amounts to 2½ hours a week, 50 hours a semester, 100 hours a year and 600 hours from the first through the sixth grade.

SEPARATE STUDY

McDowell said another study indicated that seven 55-minute classes appeared to be too long for children of junior high age.

A revised bus schedule will be distributed to parents during the week of Jan. 16.

"As in most changes there may be some frustration by parents, students and school personnel," said McDowell, "but it was the feeling of the administration and the board of education that it was important that our young people be offered a comparable school day to the surrounding school districts."

"Had the change not been made now, our students would lose approximately 50 hours of education during the second semester."

"We hope the transition can be made smoothly and effectively," he said.

Official Sworn In

DETROIT (AP)—Norman O. Stockmeyer of suburban Wayne Wednesday was sworn in as a member of the Wayne State University Board of Governors by Circuit Judge Benjamin D. Burdick, governor emeritus of WSU. Stockmeyer is a real estate and investment executive.

Annexed Farmington Land Will Be Zoned on Jan. 16

FARMINGTON — A public hearing will be held Jan. 16 to officially zone the 457 acres of former Farmington Township land recently annexed to the city.

City Manager John Dinan said the area will be zoned to conform to the master plan and to give the city control over land usage.

Two residential classifications are proposed. One would zone the area east of Drake Road for country estates with a minimum of 15,000-square-foot lots.

The area west of Drake Road in the Chatham Hills subdivision would be zoned for planned units with 1.8 units per acre. A 34-acre subdivision park and recreation site is also included.

Twenty-six acres in Chatham Hills on the south side of Grand River is to be zoned for multiple dwellings. It will be separated from the residential area by the park site.

The project is to be accomplished in four phases over a period of several years.

Ten acres east of Drake will be developed into a park in conjunction with the Long-acre School site as the first phase.

The second phase will consist of six acres of civic center property which will constitute part of the river valley flood plain.

The third and fourth phases will include 26 acres of the river valley property north and south of Grand River.

Dinan said the river valley property will be maintained as open space land for flood plain protection.

Santa and the Giant Fighter

Synopsis: Billy drops the necklace around his throat. The fire of the ruby was reflected in the mirror. The giant was bedazzled.

By LUCRICE BEALE
CHAPTER SIXTEEN
The Fight

Goko looked at himself in the mirror over the fireplace. He reached up to fasten the ruby

necklace around his throat. The fire of the ruby was reflected in the mirror. The giant was bedazzled.

He dropped his hands. "It is fit for a king," he grunted. "I shall not wear it until day after tomorrow when I marry the Fairy Queen. Then I will be a king and this stone will dazzle all who see me."

"In the meantime I shall wear the ruby as a ring for it fits my finger as well as my neck."

Billy's heart sank. He crouched behind the chair and wondered what would happen if the giant did not wear the necklace around his throat as he was supposed to do. Would its magic still work?

Goko slipped the ruby on his finger. Instantly he began to jump up and down and howl with pain. He threw his arms around trying to shake off the ring. He tore at it with his free hand and chewed at it with his teeth. The ring squeezed tighter. SCREAMED, KICKED

The giant screamed and kicked savagely at the furniture. His boot struck the chair where Billy was hiding. The chair tumbled away and there was Billy crouched on his heels.

The giant stared in astonish-

ment. He forgot the pain in his finger. "Who are you? Where did you come from?" he roared.

Billy got to his feet and pulled out his wooden sword. "I am Billy the Giant Fighter," he said. He hoped the giant wouldn't notice the tremor in his voice.

Goko blinked. He thought of his giants who had let the boy slip in. He shouted furiously, "Guards! Guards!"

NO ONE CAN HELP
"No use calling," said Billy. "Your guards have turned into pigs. No one can help you now!"

Then he lunged at the giant with his sword. He struck Goko on the breast but though the aim was true and the blow well struck the giant was unharmed. Against such a mammoth the wooden sword was as useless as the feather of a goose.

When the giant saw this he threw back his head and shouted, "You think you can destroy Goko the Great with a toy sword? We shall see!"

He snatched up his club and slammed in down on his finger. The ruby stone ring burst apart and his finger was free.

STRUCK OUT
"Now where will your magic get you?" snarled the giant and he struck out at the boy. Billy ducked under the swinging club and fled from the room. He raced through the corridors and climbed the winding stairs. He could hear Goko stamping after him laughing and thumping his club.

He came to a door at the top of the topmost stair. Gasping with terror he burst into the room and there he found the Fairy Queen.

"You've come!" she cried. "Oh, you've come at last!"

Billy threw himself in her arms. "It's no use," he sobbed. "My sword was just a toy and I'm not a giant fighter at all."

PRESSED IT TO LIPS
"Let me have your sword," said the Queen gently. He gave it to her and she pressed it softly to her lips.

"There," she said, giving it back. "It's not a toy anymore." Tomorrow: A Merry Christmas to All.

Paper Dresses:
Too Hot an Item

LOS ANGELES (AP) — The fire department has ordered a department store chain to stop selling paper dresses, priced from \$2 to \$40, because they failed to pass fire-resistance tests.

Certain other paper garments were approved, however, and tests are continuing, the department said.

"Do you think you can destroy Goko with a toy sword?"

Cancer Virus Infects Scientists

NEW YORK (UPI) — For over 30 years some scientists have been handling viruses which cause cancer in rabbits. Now, the scientists know they were infected. But lucky for them the virus in human beings proves to be a "passenger" which does no harm.

Dr. Stanfield Rogers of the Oak Ridge (Tenn.) national laboratory gave his fellow cancer scientists the news after intricate chemical studies of the blood of some 40 of them.

They had believed their laboratory precautions against infection really worked.

Rogers' proof was indirect. It had to be. The ways of viruses are infinitely subtle.

This is especially so of the "shope papilloma virus" which was one of the first cancer viruses detected in animals. (No human cancer virus has been detected so far, although many cancer scientists have no doubt they exist.)

When transferred from wild to domestic rabbits the virus loses much of its power and as a virus becomes undetectable. The consequences to their body chemistry are detectable, however.

One is a drastic decrease in the essential amino acid, arginine, in their surface tissues, from which papillomas arise.

This is due to the actions of an enzyme which splits arginine into waste products and which the virus directs the rabbit chemistry to "make."

More than half of Colombia's population are a mixture of white and Indian blood. Only about two per cent are considered pure Indian, according to a State Department report.

Pay Hike Hit City's Fiscal Status

Agreement was reached between the city administration and four groups of municipal employees on salary raises after a protracted period of negotiations.

The separate one-year pacts provide wage hikes of 10 per cent for firemen and policemen, and respective across-the-board boosts of 9 per cent and 33 cents an hour for the two other categories. Total cost of the settlement, retroactive to Nov. 1, is put at \$527,000.

Although the raises are not out of line with pay scales of other municipalities, they intensify the City's already strained fiscal position.

In order to finance them, it was necessary to commit the current surplus to the City's general fund. Actually, "surplus" is a misnomer

in this case, since it is money being accumulated to bridge the municipality's expense gap between the start of the 1967 calendar year and the mid-year receipt of the bulk of its tax revenue.

With the 1966 operating budget, exclusive of the salary raises, expected to finish \$65,000 in the red and the proposed 1967 budget neither reflecting the raises nor the crying need for additional personnel in many departments, Pontiac's immediate financial picture is not bright.

A remedy for the future, however, can be seen in a new revenue proposal under preparation by the Pontiac Finance Study Committee expected to be submitted to voters in a spring election.

Authorities Give Diet Fads Little Weight

In typically enthusiastic pursuit of an objective, Americans today are losing dollars faster than pounds in their zeal to lose weight.

According to National Better Business Bureau, Inc., the Country is on the biggest and costliest weight-reducing binge in history—a binge that drains off many millions of dollars annually for quack diets and a miscellany of phony pound-melting regimens and paraphernalia.

In quest of siph-like contours, millions of Americans are swallowing diet pills and capsules, buying low-calorie foods and drinks, joining weight-watching clubs or swaddling themselves in plastic or rubberized garments. Currently, self-hypnosis and elec-

tronic "sleep-teaching" devices that promise an effortless route to mind over matter are all the rage.

Within the last two years, several promotions of pill panaceas were halted by government agencies—but only after thousands of people paid for worthless reducing agents.

Those bent on losing weight are advised to forego the novelty of "painless" programs for the more prosaic but effective medically-prescribed regulation of food and alcohol intake coupled with exercise.

Essentially, but not completely, obesity comes from excessive caloric intake. There is no medication or food-juggling gimmicks so far known that will control weight without adherence to established dietary principles.

Proposed Tax Form Would Exude Friendliness

In the interests of enhancing its image as your friendly neighborhood tax collector and making taxpaying as easy as possible, the Internal Revenue Service is going to experiment with a friendly version of Form 1040.

This will be known as Form 1040Q (for questionnaire) and will be tried out on some 60,000 friendly folk in six southwestern states. If they like it, the rest of us will have the option of using it when we report our friendly income for 1967.

The friendly version has seven pages instead of the old, unfriendly form's two. But that's because it takes more space to ask you friendly questions as, "Do you wish this to be a joint

return?" than just to order curiously: "Check one."

The IRS doesn't say how many more man-hours will be required by its friendly personnel to process the longer friendly forms. In view of the prospect of a tax increase to finance increased Government spending, a lot of people may be moved to suggest that the best way the Government could generate friendly feelings would be to cut its operating expenses and leave taxes alone, if not lower them.

It's Hobson's choice—friendly Form 1040Q or unfriendly Form 1040. In either case, you takes your pick and you pays your money—the same unfriendly amount of money.

LBJ Acts Increasingly Strange

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON—More and more the attention of the country is being focused on the strange new world of President Johnson, a world of silence and withdrawal, to see what emerges from it in 1967.

He can't go on like this if he hopes to run for the presidency again in 1968, although up to this time he hasn't said he will.

Yesterday a group of governors conferred with him at his Texas ranch. But anyone who knows him can be sure the criticism he got from Democratic governors last week has stung him bitterly.

Some of them blamed his domestic policies and political operations for the gains the Republicans made in the November elections.

That they should have made such an attack on him, probably unprecedented, shows the depth of dissatisfaction within the Democratic party with his leadership, or rather lack of it.

They were thinking, of course, of the meager campaigning he did for his party in the last election, an extraordinary neglect for a man who is so totally political as Johnson.

One shrewd political observer tried to explain that performance to this writer: Johnson is unfamiliar with Northern politics and

politicians, was therefore unsure of himself, and thought it better to stay out.

DOESN'T ADD UP

This doesn't add up. His job in the campaigns wasn't the nuts and bolts task of putting political machines together. His job simply was to help candidates by appearing in their areas and speaking for them.

But this he backed away from and his reason has never been explained by him.

But his whole performance in recent months has almost had an air of mystery about it. He has wrapped himself in silence while criticism of him increases and his popularity goes down.

Just try to remember when you heard him make one full speech explaining to the American people this country's position in Vietnam; the problems, the progress, the reasons for being there. Why the reluctance to do even this?

CRITICS TIED

Yet, his critics in this past year have talked so much, and at such length, now at year's end they seem worn out. Yet the war in Vietnam is one of the main sources of complaint against Johnson.

He may feel that he is misunderstood, that his ideas are being rejected or not listened to, but any failures of this kind may be more of his own doing than of any one else.

—But Do Not A Prison Make—Yet!

David Lawrence Says:

Powell Ouster Uncertain at Best

WASHINGTON—It is by no means certain that Adam Clayton Powell would be expelled from the House of Representatives even if the charges that he misused congressional funds were proved in the House investigation.

The Harlem congressman has plenty of moves that he could make to delay such a proceeding indefinitely. The Constitution gives each house of Congress the right to judge the "qualifications of its own members," but this is a little-used power. It comes to the surface only when some flagrant case of irregularity in the actual election of a member emerges in public.

Again and again, according to past precedents, the House of Representatives has decided to defer final action against members under criminal charges until a "court of last resort" has finally disposed of the case one way or the other.

The litigation in New York against Powell, involving contempt charges for failure to pay an indemnity ordered by the court, is still pending. So when Powell endeavors to take his seat in the 90th Congress in January, a move could be made to require him to stand aside until the whole case is further investigated. This would deprive him temporarily of his chairmanship of the House Committee on Education and Labor.

The House itself, however, would then become involved in a highly complex issue.

There are court decisions which have held that, since the House of Representatives is not a continuing body—as is the Senate—a member-elect cannot be punished by the House for something which he may have done during his previous term. It is assumed that his constituents, when they reelected him, passed judgment upon his conduct. In the last 50 years or more no member-elect of the House has been expelled.

Rep. Powell himself has

a few pieces of political strategy that he may invoke.

He has hinted that he wants to have a complete study made of the use of funds by all committees of the House and by individual members. This would consume a lot of time.

In the absence of a comprehensive investigation of all acts allegedly similar to those of Powell, the supporters of the Harlem congressman will undoubtedly raise a fuss and

argue that he's being persecuted because he's a Negro.

There is little likelihood that any court would order that a member of Congress be reinstated once he has been expelled. So it's entirely up to the members of the House of Representatives of the 90th Congress whether any action will be taken on the charges being made currently against the chairman of one of its most important committees.

(Copyright, 1966, Publishers Newspaper Syndicate)

Bob Considine Says:

Army Starts Squawking

After GI Gets the Bird

THE SCRUTABLE EAST—There are all kinds of miscalculations in the war in Vietnam, over and above the prime one being made by Ho Chi Minh to the effect that one day the Americans will get disgusted enough to go home.

For example, not CONSIDINE long ago one of our guys saw an exhausted carrier pigeon resting on top of his tent. The sunlight glinted off the little message capsule attached to the bird's leg.

Our guy dreaming of fame, fortune and stacks of medals for capturing some vital message being sent by the enemy, fired away and killed the bird. He pounced on the intact capsule and tore it open.

"This is a test," the message said. "This is our best bird. Feed and water it after nothing."

The Army's bird people are thinking of bringing charges against the dope. Bird slaughter, of course.

One of Saigon's best restaurants, reached by climbing four flights of stairs, is Le Paprika. It somehow fits the tangled pattern of things there, where it is actually possible to watch the war while dining.

Le Paprika is a Mexican restaurant, run by a Corsican. It features Hungarian food.

Note to LBJ:

The Pakistani camel driver you were so kind to when you were vice president is having his troubles. For one thing, he doesn't have any use for that truck you arranged to have him purchased with.

He doesn't have any place to drive it, even if he knew how to drive. So, it has been up on blocks since arrival.

P. S. He's not starving. The State Department has him on a small pension. But he sure misses the good old nights when he could curl up with his camel after a good day's work. The camel left him when the truck arrived.

There was a book fair in Jakarta recently and the pretty Indonesian girl in charge of it, Miss Alimin, asked the various embassies to contribute. Most of them did, but to her astonishment, the U.S. Embassy did not.

"Why?" she asked in wonderment.

"Maybe it's because you people burned all of our books a couple of years ago," she was told.

Miss Alimin seemed on the verge of tears when she told me the story.

She hoped that the American contribution would include books and articles about her hero, John F. Kennedy. Her address is Djalun Widjasa Timur 14, Blok Q-IV, Kebajoran Baru, Jakarta.

In Washington:

Corruption Threatens Mao Rule

By RAY CROMLEY
HONG KONG (NEA)—For some time spotty reports have been arriving here from the mainland indicating a widespread breakdown of official and Communist party discipline in the Red China countryside.

It is not also a reaction to the Red Guards. It began before the Red Guards moved into operation.

There were reports of graft, moral corruption, slovenly management and "local empires."

Minor Communist government officials in the provinces reportedly have carved out small fiefdoms for themselves. They dip in the government till and build themselves beautiful offices and homes. They cooperate, for a fee, in illegal manufacture and trade.

They shake down businessmen and farmers. They use their influence to force women to their will. They embezzle government funds. They take money for giving some people larger

shares when scarce foods and other goods are distributed. They participate in hoarding.

Just how far this corruption has spread and how deep it goes isn't clear. Party reports have said it is widespread and is serious in numerous areas.

Mao Tse-tung and Lin Piao set up the youth units in part and sent them into the countryside in an attempt to stop this breakdown. (They also were organized, of course, to attack the enemies of Mao and Lin.)

Youth groups were organized for most provinces. They would move into a district with unusual authority to remove and jail officials.

Each group was given a quota of how many officials to purge in its district. It was up to the youth group to find enough culprits in its area to meet its quota.

Difficulties have arisen. In their zeal to meet quotas, some youth groups have cut the administration of some districts to pieces. Officials have been charged and purged with little or no evidence. Men have used these "tribe-

Latin Americans Want Action in Caribbean

Latin American governments believe that measures must be taken adequate to the task of eradicating the Soviet base in the Caribbean, or they will face another Vietnam. In the heartland of Latin America that will make the present conflict in Asia seem insignificant.

Our Latin American allies are impatient with the State Department's do-nothing policy with regard to Cuban subversion. Newspaper editorials in Latin America express the belief that the United States is playing fast and loose with the security of Latin America in return for an ephemeral accommodation with Russia.

The Organization of American States has scored Cuba, Russia, and Communist China for their combined efforts in subverting Latin America through the Tricontinental organization of subversion located in Havana.

OU Theater Season Ticket Sales Pass 4,000

More than 4,000 season tickets now have been sold for the first year of the John Fernald Company of Meadow Brook Theatre, indicating the venture will be a financial success.

Mr. and Mrs. Harry N. Wieting of Bloomfield Hills, general ticket chairman for the theater committee, announced the milestone.

They noted ticket sales have climbed steadily and that, at the present rate, 5,500 subscriptions can be expected by the time of the Jan. 4 opening at Oakland University.

Commenting that he was extremely pleased with sales so far Meadow Brook Theatre business manager Donald Britton said the number of tickets already sold represents about 30 per cent of the seats available.

"Ten performances already are almost completely sold out," he said.

BEGIN TUESDAY

Sale of tickets for individual performances will begin Tuesday.

The season of five plays, each running for four weeks, will open with a production of "The Caucasian Chalk Circle" by Bertolt Brecht.

This will be followed by

"Love's Labor's Lost" by William Shakespeare, Feb. 1-26; Easter play March 27-April 2. It will be followed by "You Never Can Tell" by G. B. Shaw, March 1-26; "The Waltz of the Toreadors" by Jean Anouilh, April 5-30; and "The Three Sisters" by Anton Chekhov, May 3-28.

"The Emperor's New Clothes" will be presented as a children's play, and free art exhibits during the season.

DINING, EXHIBITS

To fill out the evening for playgoers, Oakland University is offering on-campus, dining fa-

ulty dining room of Oakland day, when plays will begin at Center on the evenings of the 6:30 p.m.

The university's new art gallery is across the hall from the theatre in Matilda R. Wilson Hall.

A buffet of meat and salad dishes will be available in the

plays.

The room will be open from 6:30 to 8 p.m. on Wednesday through Saturday, when the

plays will begin at 8:30 p.m., and from 4:30 to 6 p.m. on Sun-

Reservations for dinner must be made by contacting the food service office at Oakland Center. Further ticket information is available at the Meadow Brook Theatre office at OU.

Disney Philosophy: To Amass Product

(EDITOR'S NOTE — This is the fourth of five articles about Walt Disney by AP columnist Bob Thomas.)

By BOB THOMAS

AP Movie-Television Writer
HOLLYWOOD — Walt Disney's philosophy as a film producer was summed up in his oft-repeated phrase, "We can lick 'em with product."

Lick who? The major studios with whom he competed for theater dates, the bankers who urged him to stop chasing dreams and run a more businesslike, economical operation. These were the forces, plus others, that goaded Disney on to bigger, more ambitious productions.

"Money never meant anything to me," said Walt, and he ran up deficits to prove it. But he believed that if he kept amassing product of as much quality as he could manage, the films would eventually bail him out. And they did.

Such films as "Bambi," "Pinocchio" and "Fantasia" failed to make a profit on their first release. But later they were re-released as each new wave of youngsters grew to movie-going age, and the result was a bonanza for the Disney organization.

NO OUTSIDE CONTROL

Walt learned early to hold onto his product and allow no outside control. When a distributor spirited away the rights to the first Disney star, Oswald the Rabbit, Walt vowed never to part with the films he created. Thus when he went into television, he could draw from the vast library of Disney product, dating back to the birth of Mickey Mouse.

In one of his last interviews, Walt Disney was expounding on his philosophy of work and life, with particular regard to youth today. In his final years, he devoted a great amount of his time and energy to the California Institute of the Arts, which he hoped would become as pres-

tigious in the field of the arts as Cal Tech is in science. More than anything else, he wanted Cal Arts to be his monument.

Among his comments:

"I formed my work patterns early in life. At first I worked on my father's farm, then I delivered newspapers in Kansas City for my father, who was a dealer. At 15 I was a news butcher on trains that ran to Colorado and all over. At 16 I was night watchman in a jelly factory in Chicago.

KIDS TOO IDLE

"Kids are too idle nowadays. Their parents don't think it's good for them to work when they're young, but that's a mistake. They have too much leisure, and they don't know what to do with it. I worked hard as a youngster, but knew how to enjoy myself, too. When I did get some leisure, I used it to the utmost.

"If you keep busy, your work might lead you into paths you might not expect. I've always operated like the princes of Serendip, who went on quests not knowing what they would find. That happens in science; some of our most important discoveries have come from scientists who were searching for something else.

"I've always had a great deal of natural curiosity. Whenever I was curious about something, I'd go to the library and ask for all the books they had on that subject. I'd read about everything, and then I'd ask questions from people who were expert in their field.

ASKED OLDER ARTISTS

"When I started making cartoon films, I asked the older artists how they did things. Some of them didn't want to give me any secrets of the trade, but most of them gave me all the help I needed.

"I do the same thing today. If I'm curious about something, I pick up the phone and call someone who knows about it. I always get an answer. You'd be surprised how nice people can be when you show them you're really interested."

Note: A personal reminiscence.

AP Wirephoto

FILM SCENE GOES AWRY — Famed British actor John Mills, working in his first Hollywood Western, does some unplanned acting as an Indian's arrow fails to "kill" him on schedule. Mills, portraying a U.S. Army colonel, is about to be hit (upper left) by an arrow traveling along a thin wire fastened to his chest. He reacts (upper right) upon feeling the impact, but the arrow fails to stick and bounces back several inches from the surprised actor, as the director yells "cut."

Waterford Schools

Contract Awarding Due

The Waterford Township Board of Education is expected to award contracts tonight for construction projects which will form Township and Waterford Kettering high schools, estimated to cost \$137,000.

The projects include bleachers and tennis courts at Kettering and a track, tennis courts, softball fields, a baseball diamond and parking lot expansion at Township High School.

Slated for review are final plans for interior remodeling at Township High School. All the aforementioned projects were made possible when school district voters passed two bonding proposals in the June 13 election.

In other business, the board will conduct a grievance hearing for a school custodian who contends the district violated the contract he works under.

Alternate bids for optional additional construction also were considered by Denyes Associates, Inc., Architects of Pontiac and school officials.

Total cost for the projects, including furnishings and equipment and the architect's fee, had been estimated at \$725,000.

A Christmas Story Let Out of the Bag

By DICK WEST

United Press International
WASHINGTON — Let me relate to you the experiences of a couple of matrons who live in the suburban area where I dwell.

One morning not long ago they set out on an expedition to a neighborhood shopping center. En route, they saw a car in front of them run over and kill a cat.

Being naturally tender-hearted, they stopped their car, picked up the cat and drove it to an animal hospital. It was pronounced dead on arrival.

The ladies wanted to leave the cat there but were informed that if they did so they would have to pay a \$5 burial fee.

They put the cat back into the car, intending to dispose of it along the way. But when they reached the shopping center, it was still aboard.

One of the ladies hit upon the idea of putting the cat into a shopping bag and dropping it

into a trash receptacle. Unfortunately, when they reached the receptacle, there was a policeman standing nearby.

So they carried the bag on into a store.

They sat it on the floor while they made some purchases and when they started to leave, it was gone.

A few moments later, an am-

balance pulled up in front of the store and two men rushed in with a stretcher. They came out bearing a woman, apparently unconscious.

Just as the stretcher was being lifted into the ambulance, a small boy came running up with a shopping bag.

"That woman dropped this in the store," he told the attend-

The two ladies instantly recognized it as the bag with the dead cat inside.

Putting clues together, they were able to deduce that the woman was a shoplifter. She had snatched the bag.

Then when she peeked inside to examine the loot, she had fainted dead away.

U.S. to Counter Russia in Arms, Diplomacy

WASHINGTON (AP) — The Johnson administration plans to move ahead with initial measures to offset Soviet deployment of a new missile defense system without waiting for the results of diplomatic efforts to freeze U.S. and Soviet nuclear armaments at their present level.

Officials said today that only this double-track plan of action — taking countermeasures and diplomatic steps at the same time — would prudently protect vital U.S. security interests.

The administration program will be presented to Congress by Secretary of Defense Robert S. McNamara early next year. Indications are that details of the program have not been fully worked out but will be given final shape by decisions now in process.

Secretary of State Dean Rusk warned at a news conference Wednesday that the world's two greatest powers are on the verge of a new and costly phase in the nuclear arms race.

"We would regret very much the lifting of the arms race to wholly new and unprecedented levels of military expenditures, with perhaps no perceptible result in the total strategic situation," he said.

In plain language, officials said, the Soviet Union and the United States are threatened with having to spend perhaps \$30 billion apiece in nuclear weapons development without really changing the strategic balance in the world.

The administration's idea is that they want to freeze the Soviet Union's Texas ranch that had begun to develop a system of defensive missiles designed to destroy at Last month, McNamara said, taking missiles.

Romney Signs 4 Final Bills of Legislature

LANSING (UPI) — The business of the 73rd Michigan Legislature officially came to an end yesterday when Gov. George Romney signed into law the last four bills enacted by the Legislature in 1966.

The four measures were passed by the "lame-duck" Legislature which wound up its affairs in a three-day session earlier this month.

The new laws give women equal employment rights, return the expiration date on full-year commercial license plates and settle a conflict over city bond issue voting procedures.

Approval of the bond issue measure cleared the way for several cities to legalize bond issues voted on Nov. 8, but thrown in limbo by an error the Legislature made earlier this year.

A 1965 law changed the Home Rule Act to provide that bond issues could be approved by a majority vote rather than a three-fifths vote.

But the Legislature inadvertently wiped out the change while dealing with another matter.

The equal employment rights bill abolished an old law which limited working hours for women to nine per day or 54 hours per week.

The new condemnation law broadens the state's power to acquire property for public purposes.

Its most immediate purpose was to clear the way for state acquisition of land near Ann Arbor for the \$375 million atom smelter which Michigan hoped to secure but which was awarded to Weston, Ill.

Mayor Issues Yule Message

Extends Greetings to Pontiac Residents

Mayor William H. Taylor Jr. has issued his annual Christmas message, extending season's greetings to Pontiac residents and city employees.

Said Taylor:

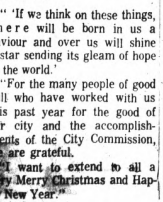

"These greetings and sincere feelings can best be expressed by a few words written by President Calvin Coolidge in his Dec. 25, 1927, Christmas letter to the American people.

"Christmas is not a time or season, but a state of mind. To cherish peace and good will, to be plentiful in mercy, is to have the real spirit of Christmas.

"If we think on these things, there will be born in us a savior and over us will shine a star sending its gleam of hope to the world."

"For the many people of good will who have worked with us this past year for the good of our city and the accomplishments of the City Commission, we are grateful.

"I want to extend to all a Merry Christmas and Happy New Year."

Nader Hits Car Firm Demurrer

WASHINGTON (UPI) — Auto safety critic Ralph Nader yesterday said the auto industry was showing its past "neglect of testing and research facilities if it needs more time to meet safety standards."

Nader was a prime mover for congressional safety legislation after authoring the best seller, "Unsafe at Any Speed," and testifying before a congressional investigating committee.

However, the man who proposed the government standards had a word of praise for the industry yesterday.

Dr. William Haddon Jr., head of the National Traffic Safety Council, said he was pleased at General Motors' initiative Monday in announcing publicly the recall of 16,245 Pontiac Tempests, LeMans and GTOs for possible steering shaft misalignments.

Fire Can't Faze This Optimist

Sees 7 Years' Work Burn; Family Safe

ST. CLAIR SHORES (AP) — Albert Libbie's optimism was tested when he watched a home he had worked seven years to restore burn to the ground just before Christmas. It survived.

"Heck, we're alive," the 40-year-old father of six children said yesterday (Wednesday). "We're not hurt. I've still got a job. We'll get it all back."

Libbie herded his wife and children from their home Tuesday when fire, apparently caused by a faulty furnace, broke out. They stood barefoot in the snow as flames gutted their home, including all their belongings and most of their Christmas gifts.

For seven years, the stocky, crew-cut Libbie had worked to restore the one-room shack house. The work was completed in time for what Libbie hoped would turn out to be a top drawer holiday season. In between, he earned his engineering degree at night school.

NOT WORRIED

"We're not worried a bit," said Libbie, an engineer at the nearby General Motors Technical Center in Warren. "The kids don't even mind losing their Christmas presents."

When the fire struck early Tuesday morning, Libbie said, "We smelled the smoke and got out as fast as we could."

"Everybody got out okay except peanuts," Mrs. Libbie said.

The pet dog perished in the flames.

KIDS' LISS HIM

"The kids will miss him," Libbie said. "We can't get another dog until we can find a house to rent."

The Libbies, including four girls and two boys 3 to 15 years, are staying with neighbors until they can find another house.

Haddon said, "We are pleased to see the public initiative this responsible step represents."

ONLY REQUIREMENT

Under the traffic safety law, manufacturers are required only to notify Haddon's office of any recalls.

However, Pontiac's decision to release the news to the public at the same time apparently signifies a switch in policy.

Haddon said this showed that auto makers are "moving energetically" to reach all of owners involved by mail and through dealers.

He said this would assure that as many as possible of the cars involved will be reached and checked out."

QUICK RESPONSE

Haddon warned car owners not to take the notices lightly. He said "It is very important" that they respond promptly "since the safety of some may well be at stake."

In its announcement, Pontiac said misalignment could cause a binding-condition in steering which, even though not noticeable, would subject the steering shaft to abnormal stresses and if continued for a long period of time could cause failure.

For the same money, Four Roses makes two kinds of Holiday gifts.

Both the regular Four Roses bottle and the beautiful holiday decanter hold the same amount of the same great whiskey for the same price. And both come handsomely gift-packaged at no extra cost. So whichever kind you give, it's kind of you to give it.

Future Bright for Soybeans

EAST LANSING (AP) — Soybeans, an important export crop, may bring \$30 million to Michigan farmers this year, and the future looks even brighter, Michigan State University crop scientists say.

They figured 1966 income on a basis of 475,000 acres producing 24 bushels an acre at a price of \$2.75 a bushel. Michigan's 1966 soybean acreage was just 343,000 acres, they added.

Clerics to Help Youths Avoid Viet War

DETROIT (AP) — An interfaith group of Detroit clergymen has invited draft eligible youths to a seminar next week on how to avoid fighting in the Vietnam war.

The seminar will be coupled Wednesday with a rally protesting the war.

"We are not advocating draft dodging," said the Rev. David M. Gracie, a member of the sponsoring committee of Citizens for Peace in Vietnam.

But he said that young men who want to stay out of the fighting should be told what stand if they decide not to choose are open to them, how serve," he said.

WHERE THEY STAND

"We want young men who are thinking of ways to avoid the fighting to know where they stand if they decide not to choose are open to them, how serve," he said.

Pope's Yule Talk Likely to Stress Peace

VATICAN CITY (AP) — Pope Paul VI's annual Christmas message tonight is expected to make another strong plea for peace talks in Vietnam.

As the Vatican completed preparations to broadcast the message around much of the world through its own radio facilities and foreign networks, sources said the Pope was certain to repeat his oft-stated desire that the Asian war be ended.

The Vatican also was making final arrangements for the Pope's historic auto trip to Florence Saturday to celebrate Christmas Eve midnight Mass and demonstrate his sympathy for the food-stricken center of Renaissance art and science.

No Pope has been in Florence at Christmas since Pope Eugene IV in the 15th Century. The last Pope to visit Florence was Pius IX, who consecrated a group of bishops in the Tuscan capital in 1857.

Pope Paul VI did not mention Vietnam by name in his Christmas message last year. But he left no doubt he had that country in mind when he called for "just and sincere negotiations to restore order and friendship."

Women's Section

It's a joint undertaking to get the tree decorated and the presents ready for the "big day." Two residents of cottage B cooperate on bringing the holiday festiveness into their "home."

Each one of these nativity scene characters was made by a child of the "Village" in ceramic classes at the Oakland County Village School. Notice the detail involved in painting these characters. The children have taken great pride in their project which stands just outside of director James VanLewen's office in the reception center.

Pontiac Press Photos by Ed Vandeweyer

The older girls in the Oakland County Children's Village reception center had fun decorating the lobby with pictures and ornaments depicting the Christmas season. Here they put finishing touches on the colorful Yule tree that stands just inside the building entrance.

Children Prepare for the Big Day

The Christmas season adds a jolly note to the goings-on of residents at the Oakland County Children's Village as they decorate their buildings.

Each child, no matter what his circumstances, realizes the meaning of Christmas as gifts pour in from area sources. Staff members have had to work many hours in order to wrap the generous donations that have come.

Mrs. Thomas Smith, James Turnbull, Mrs. Anna Williams and Harold Duggan have all expressed their thanks to the many groups who have given of their time and money.

Groups involved, besides individual volunteers, are Boy and Girl Scout troops, Camp Fire Girls, sororities, business organizations and industry, churches, schools and the Pioneer Girls.

Besides the gifts, a number of parties have been planned for each age group. Some organizations come out and completely handle the party by themselves.

Even Santa has made an appearance, taking notes on who wants what.

James VanLewen, director of the "Village" has announced that Donald Rolph, head of the boarding department, has had his staff preparing the same kind of fun for the more than 160 children in boarding homes.

Head supervisors of each building, Mrs. Thurlie Wickman,

"Tiny tots with their eyes all aglow and sizes of gifts under the tree. As a . . . Even the smallest youngsters at safety measure all trees in the cottages the "Village" want to do their part in the and main buildings are artificial and fire-Christmas goings-on by checking weights proofed. But don't they look real?"

Personals

On Christmas Eve, Mrs. Marl-on Hodges Benter will entertain the Robert Dickie family of Sylvan Lake, the Bruce Benjers and the Robert Nissleys of Lansing. Son Roger will be home from Albion College.

On Christmas Day, the Bruce Benjers, the Nissleys, Mrs. Benter and Roger will have Christmas dinner at the Clarkston home of the J. Russell Maybees.

A Christmas Eve neighborhood party that has become a 20-year tradition will be hosted by the Dean G. Beiers of Birmingham. Families present will be the G. T. Christiansens, Dr. and Mrs. Frederick Adams, Dr. and Mrs. C. F. Payton, Mrs. James Everett and the Richard Straights.

Santa is scheduled to arrive with presents for all the children. Members of the group all lived on Washington Boulevard in Birmingham at one time.

The Ralph T. Norrells of Wrenonah Drive will host Christmas Eve dinner in their home for newlyweds, the Jack Londons (nee Ginny Norrell).

Also seated around the table will be Mrs. Norrell's mother, Mrs. Russell Austin; Carol (home from Western Michigan University); and Bruce Norrell and his wife and small son, Steven.

Christmas Eve dinner guests of A. C. Girards of Bloomfield Hills will be their daughter and son-in-law the Thomas Chopes of Livonia and their children Johnny and Cynthia.

When rushing to quench the nearest make-believe blaze, the preschool fire chief pulls along his colorful Fireman Xylo. But when the danger is past and it's time for a tune, he pulls out the xylophone "ladder." A resonant full-octave range provides the scope to develop an appreciation of tone and pitch. Each of the eight keys is a different color, and the youngster learns to play simple melodies by color from a folder enclosed with the toy. All colors are non-toxic.

She Guides Student Projects

By SIGNE KARLSTROM

One of Bloomfield Hills' busiest women, Mrs. A. David Baumhart of Franklin Road in the Hills, has been active getting two of her special projects organized.

The first of these is Mrs. Baumhart's work with Bloomfield Hills' psychology students who have taken a hand in painting and redecorating

rooms in the children's wards of Detroit Receiving Hospital and at Pontiac State Hospital.

The students under Mrs. Baumhart's guidance will continue their decorating work over the Christmas holidays. They are redecorating basement facilities in the Pontiac hospital in pastel shades so that the rooms can be used by the school-age children there for recreational purposes.

PARTY TOO

In addition to the painting work which Mrs. Baumhart has been working on with the students, she helped them to organize a Christmas party for the pre-adolescent children at the hospital.

Another of this busy woman's major projects centers around her plans to take a group of 26 to Europe this summer on a 21-day tour of the British Isles, the Netherlands, and the Scandinavian countries.

Her plans which focus on a trip organized for Bloomfield Hills high school students, now include stays in Denmark, Sweden, and Norway. An extended trip will be

She Must Be Doing Something Right if Bridal Date Is Set

By ARIGAIL VAN BUREN

DEAR ABBY: My daughter, Nancy, became engaged recently so she and I have been shopping for her wedding gown and veil.

Well, you know how these young girls look nowdays with their little boy Saxon hair-cuts and that pale-faced makeup with white lipstick? When Nancy tried on those white bridal gowns and veils I didn't know whether to laugh or cry!

Should we try to get her to wear a wig for the wedding? A wedding veil looks ridiculous on a little boy hair-cut. And while you're at it, Abby, please say something to the young girls about how ugly they look in the name of fashion.

NANCY'S MOTHER

DEAR MOTHER: Nancy must

have been doing SOMETHING right or she wouldn't be shopping for a bridal outfit. But for what it's worth, I agree. Girls look much prettier with hair and make-up that suggests a living, breathing person is underneath it all. Forget the wig. Hair today and gone tomorrow.

DEAR ABBY: I am the mother of a seven-year-old boy, and my husband and I would like to adopt a little girl, but one day while I was shopping I took something from a store and was arrested. My husband knows nothing of this, and I just don't have the heart to tell him.

We are hard-working people and would have no trouble getting a child, but I am afraid to put in an application. Would they check for a record? Please put your answer in the paper.

DESPERATE
DEAR DESPERATE: Some do about a man by the way he looks. I had a 14-year-old niece who accepted a ride with a strange man, and four days later they found her beaten, lifeless body in a swamp two miles from her home.

If you don't wish to identify yourself, ask a lawyer to make the inquiry for you.
DEAR ABBY: I am a 15-year-old girl with a story to tell. Last night about 9 p.m. I was

Families Plan Festive Day

The Charles Binders of Utica with children Julie and Michelle will spend Christmas day at the home of her parents, Mr. and Mrs. Gordon McLeod of Old Orchard Drive.

Another daughter and her family, the Robert Huttons with Kristie and Scot will arrive from Rochester for the "big day."

Mrs. McLeod's mother, Mrs. George Clothier has already arrived to spend the entire holidays before returning to her home in Miami, Fla.

IN BIRMINGHAM

The Robert Calvers of Birmingham will have as their Christmas dinner guests Mrs. Calver's sister and brother and their families and her parents.

Present will be Mrs. Harry Limbicker and children, Christopher, Susan, Betsy and Deborah and Mr. and Mrs. Gerald Guinan Jr. with sons David and John. Their parents are the senior Gerald Guinans.

Another guest will be Michel Beck an exchange student from Belgium who is staying with the Calvers.

The engagement is announced of Sandra Kay Stouffer to Clifford Lahman Whitehorn, son of Mrs. Bessie Whitehorn of Elizabeth Lake Road and L. C. Whitehorn of Newberry Road. The bride-elect, daughter of Mrs. Ruth MacKinnon of West Palm Beach, Fla. and Max Stouffer Jr. of Mesa, Ariz. resides with her grandparents, Mr. and Mrs. Max Stouffer of Rochester.

Don't Forget the Big Girls on Your List

To make sure Santa doesn't forget the big girls in your family, supply them with fancy Christmas stockings made from printed cotton.

For a style-conscious teen, make a "Mod" boot stocking. Draw a simple boot shape on brown paper to use for a pattern. Make the boot from a vinyl-coated cotton in black and white houndstooth check. Use black corduroy for the boot heel and to fashion a top loop for hanging.

To please a more old-fashioned girl, stitch up a Victorian stocking with the look of a high-buttoned shoe. Make the pattern with a pointed-toe foot and a short, curved French heel.

Use red and white cotton ticking for the stocking and red velvet for the French heel. Trim the stocking top with red cotton tassel fringe, and use a piece of white lace sewing trim to make a hanging loop.

For the high-buttoned effect, sew shiny black buttons close to the edge of the stocking front from ankle to stocking top.

Ronald A. Andrews, son of Mr. and Mrs. Alexander A. Andrews of Troy graduated Tuesday from Wayne State University. He received a Ph.D. with a major in solid state physics. He is a member of Phi Beta Kappa, Sigma Xi and the American Physical Society. He will continue at Wayne as a faculty member in the physics department.

Ronald R. Wilton, son of Mr. and Mrs. Roy W. Wilton of Hammond Lake received his B.S. degree Tuesday from the Wayne State University School of Business Administration.

Supper to Honor

The Earl E. Morrow of Far Hill Drive will be hosts at a buffet supper this evening honoring Mr. and Mrs. James Vanhook of Portola Valley, Calif. (formerly of Birmingham) who are visiting in the area.

Newlyweds Need Budget and Savings

By MARY FEELEY
Consultant in
Money Management

Dear Miss Feeley: Like most newlyweds, my bride and I are having trouble in establishing a sound budget.

MARY FEELEY
Net income per month is \$602. Expenditures are as follows:

Car payment, \$62; Rent, \$125; phone, \$8; electric, \$7; furniture payment, \$25; insurance (includes life, car, house furnishings), \$264 per year.

Thank you for your help. We need it.

C. B., Toledo, Ohio

Dear C. B.: You're approaching a budget the right way: looking first at the expenses you must pay, no matter what, and then trying to maneuver what's left of the income.

Your total for Fixed Expenses — those bills you're going to have to pay whether it suits you or not at the time — adds up to \$249.

Now that leaves you \$353 for all the other expenses of normal living. Call them Flexible Expenses — because they're the ones you can juggle here and there:

Thai Students to Be Guests

Mr. and Mrs. Charles A. Hudson of Liberty Street will have three members of a family from Thailand as their guests this weekend.

Dill, Moses and Samuel Choi are students at Andrews University in Berrien Springs.

On Christmas day everyone will travel to Perry, Mich., for dinner with Maj. and Mrs. Calvert J. Winters.

Groceries, (this is \$100 for food, \$10 for households supplies), \$110; clothing, \$40; savings, \$34; personal allowances for both of you, \$64; gifts, contributions, \$20; medical costs, \$15; entertainment \$20; car operating, \$50. Total \$353.

Your individual budget, when you and your wife sit down and figure it out, may not look exactly like the one above. But use my figure as a guide.

Another thing to remember: when the car payment of \$62 a month comes off, don't let it get lost in "incidentals." Don't spend it yet. Use this money to fatten your savings account. Plan ahead for these savings.

Dear Miss Feeley: We three women plan a trip to the West Coast. One lady will take her new car and do most of the driving.

What do you think would be a fair deal for each of the three ladies financing the trip?

Mrs. L. M., Rochester, N.Y.

Dear Mrs. M.: Dividing the car costs evenly might prove the simplest solution. But who gets stuck with the unforeseen expenses?

For instance, does the car owner plan to make this trip anyway? If this is strictly a pleasure jaunt, arranged by all three travelers, and the ex-

penses aren't unduly high, why not share them?

The cost of gas and oil will depend, of course, on the kind of car being driven. Possibly an estimate of 8 cents a mile could be divided evenly. Or you could simply split the cost of gas and oil to cover total operation, and all parties could assume the food costs in addition.

If the car owner does all the driving, then the other passengers could buy her a meal once in a while. Or pay the toll charges. Or make it up in some special treat.

The driver should consult her insurance agent before leaving — for everybody's benefit — to see that liability insurance and other insurance protections are adequate to cover this type of trip.

Use Thought When Buying Child Books

UNIVERSITY PARK, Pa. (UPI) — Buying books for children requires thought and consideration.

Mrs. Marguerite L. Duvall, extension child development and family life specialist at Pennsylvania State University, says there are no definite standards to follow, but the primary considerations are the child's interests, the form of the book and the illustrations.

"As far as a child is concerned, illustrations are the best part of the book," Mrs. Duvall says. "A child likes clear pictures that are not too crowded, that tell a part of the story and reflect life as he sees it."

She also says that sturdy books usually last longer than glued ones.

The J. D. Valentines of Little Trail, Commerce Township, announce the engagement of their daughter, Patricia Jeanne, to John Fisher of Cleveland, Ohio, son of Smith Fisher of Morgantown, W. Va. and the late Mrs. Fisher. The bride-elect attended Oakland Community College and the Charity Hospital School of Nursing, Cleveland. Her fiancé attended West Virginia University.

The Willard S. Gerors of South Roslyn Avenue announce the engagement of their daughter, Linda Ann, to Ronald L. Chambers, son of Mr. and Mrs. Orville L. Chambers of North Perry Street. He attended Eastern Michigan University. A summer wedding is planned.

Give him Osmun's for Christmas

A hat can be more than a hat, at that. Just add Osmun's. Because Osmun's really tops off a topper. In the first place, if you come to Osmun's, you'll find just what you want in the first place. You'll find dressy hats, sporty hats, conservative hats, dashing hats, narrow-brim hats, narrower-brim hats. Hats, hats, hats, hats!

But you don't have to buy the hat. Get him a gift

certificate. Let him try to decide which one he wants. (Maybe he'd like this "Stacy" model by DOBBS in rich fur felt. It's \$17.50. Other DOBBS hats from \$14.95 to \$20.) In the second place, there's more of everything at Osmun's. Like free gift boxes, and free parking. And free advice, such as: Give him more than a hat. Give him Osmun's.

Not a dwelling is without outside holiday lights. There are 235 houses, 44 apartments and 45 trailers, all decorated, town officials say.

TUMBLEWEED SNOWMAN — The W. E. Wright family of Sacramento, Calif., would prefer to have a real snowman to decorate the front of their home. However, since Sacramento's climate is too warm for the real thing, Mrs. Wright used a little ingenuity and a lot of tumbleweed and came up with this unique snowman. Other ingredients include some white paint, black felt, a scarf and a top hat.

Arabs to Let Israelis Into Jerusalem

JERUSALEM, Jordan Sector (AP) — Despite tension along the armistice line between Jordan and Israel, Arab officials are preparing to open the barred city of Jerusalem to more than 5,000 Israelis into the holy city of Jerusalem for Christmas.

These are the Arab Christians of Israel, cut off from their relatives in the Arab world for the past 18 years of Arab-Israeli conflict.

Throughout the year the armistice lines are closed except to diplomats, U.N. officials and some tourists, and no Arab or Israeli can cross through the Mandelbaum Gate, the only authorized passage through the no-man's land. As at the Berlin Wall, anyone who tries to cross illegally runs the risk of getting shot.

U.N. AGREEMENT

Since 1950, however, under a U.N. agreement, the red-and-white striped barrier of Mandelbaum has been raised at Christmas to let a selected list of Christian Arabs cross. Each year the number has grown. No matter how high the tension between the two sides, the Christmas crossing has taken place every year.

Jordanian officials in the U.N. liaison office said 5,276 applicants would walk across the truce lines Friday morning — a record number — and stay in Jordan until Christmas night.

Christmas comes three times a year in the Holy Land, with its various religious faiths, and some 5,500 Arab Christians of Oriental churches are expected to cross from Israel for their Christmases in January.

Despite the recent crisis in Jordan, with riots and demonstrations sweeping the western part of the country, the Holy Land returned to tranquility as Christmas preparations began. Thousands of visitors were expected to converge from around the world for the sacred rites at Christ's birthplace in Bethlehem.

Gronouski Called to U.S. for Talks

WARSAW, Poland (AP) — U.S. Ambassador John A. Gronouski left for Washington today to discuss American economic relations with Poland and eastern Europe.

An embassy statement said the State Department called Gronouski home. Embassy officials said he might stop on his return trip in West Germany where his wife and children are spending Christmas at Garisch-Partenkirchen.

Junior Editors Quiz on ANTIQUES

QUESTION: How old is an antique?

ANSWER: There are differences of opinion about this. We show, above, the age periods which apply to objects like American furniture. The colonial period was the time when our country was an English colony—from the time of the Pilgrims to the Revolution. Genuine objects from this period are real antiques and are eagerly sought. The same can be said for objects made during the early American period, from 1776 to 1830.

After this, there was a change in style. During the reign of Queen Victoria of England, more flowery ornament was introduced, together with the use of plush and marble. This is called the Victorian style.

Many people like it and call Victorian pieces antiques. But most dealers agree that a genuine antique should be at least 100 years old.

For the purpose of collecting duties, the U.S. government lists only those articles made before 1830 as antiques.

People who like antiques enjoy their hand-made quality and beautiful surface luster. But many prefer the comfortable, contemporary look of modern period furniture and other objects.

FOR YOU TO DO: Visit an antique shop and see if you can detect the difference between the colonial-early American and that of the Victorian period.

Jews to Serve as Police Back-Ups on Christmas Eve

A generous offer from a Jewish men's group may enable otherwise working Pontiac policemen to spend Christmas Eve at home with their families.

Pontiac Lodge 850 B'nai B'rith has made available to Police Chief William K. Hanger the services Saturday night of 18 lodge members.

The men, according to Hanger, will work from 6 p.m. to midnight, with 13 on duty in patrol cars and at headquarters and an additional five on a standby basis.

"Inasmuch as it isn't our holiday, we thought we might be able to help," commented Arthur Kollin, Pontiac attorney and chairman of the "help" committee.

"We don't expect to 'take over' and we won't be handling guns, but I don't think any of our men are about to back away from trouble."

EX-SERVICEMEN

"Most of them are ex-service men."

Hanger said the addition of B'nai B'rith members would enable the department to place two men in normally one-man scout cars.

"I anticipate that in a situation where we might normally have to call in off-duty officers, these men will fill the breach," he said.

Hanger also cited the gesture by the Jewish lodge as an excellent example of what police leaders have been hoping for in community involvement with law enforcement.

CITY WOULD BENEFIT

"If we had other groups take a similar interest in police work — regardless of how small or how routine the task might seem — I think the whole city would benefit," Hanger commented.

Kollin said lodge members got the idea after reading of a previous volunteer effort by a group in Maine.

Included in those scheduled for duty Saturday are doctors, dentists, lawyers, accountants,

insurance executives and Rabbi Philip Berkowitz of Temple Beth Jacob. "All our men are eagerly looking forward to it," Kollin said. "I think somewhere inside them everybody wants to be a policeman."

Aussies Vow to Increase Military Help for War

CANBERRA (UPI) — Australia today pledged sharply increased aid of land, sea and air combat units for the Vietnam war.

Prime Minister Harold Holt, one of America's strongest supporters in the war, announced an additional 1,700 troops would be sent to Vietnam next year. It would bring to 6,300 the total number of Aussie fighting troops there.

Holt also said Australia would dispatch its guided-missile destroyer Hobart and eight bombers to the war zone.

Holt made the announcements at a news conference. He said earlier this week that Australia would augment its forces in Vietnam but did not reveal the details until today.

State Yule Exodus Headed for Record

DETROIT (UPI) — The Automobile Club of Michigan said today the holiday exodus from Michigan appears headed for a record year judging by air travel.

"Air travel is up 20 to 25 per cent, and all flights to popular winter resorts are at the acute stage right now," said Clarence Stanbury, Auto Club World Travel Service director.

He said, however, most would-be passengers will have a good chance of getting where they want to go, at about the time they want to go, if they put themselves up for standby seating at least 30 minutes before the departure of the flight they wish to take.

Theodore Roosevelt was the youngest president of the U.S.

Dallas vs. Packers

Title Tilt Draws Crowd

DALLAS, Tex. (AP)—They came from all over Texas and as far away as Alabama Wednesday to get a seat—any seat—in the National Football League championship game.

"I've never seen anything like it," said one rumpus but happy Dallas Cowboy official as he viewed the thousands waiting in line to pay \$10 a ticket to the Jan. 1 game with Green Bay in the Cotton Bowl.

An estimated 2,500 fans waited all night in 44-degree weather for the gates to open at 7 a.m. By then, police esti-

imated the throng to be as great as 10,000-12,000. "That's more people than sometimes used to be in the stands when the Cowboys weren't winning," said the official.

Larry Carl, Cowboys assistant general manager, said 30,000 tickets were snapped up 2½ hours after the windows opened. He said the whole 40,000-seat allotment on sale was gone in 5½ hours.

The first customer to a window was Phil Flynn of Sherman, Tex. He had formed the line at 9 a.m. Tuesday.

Northville to Invade Wolves' Den

Prep Cage Races Slate Three Key Clashes

Something has to give in the Oakland A Wayne-Oakland and Southeastern Michigan basketball races.

Contenders in the three loops are paired in action this week, and in two of the scraps, the winners will head into the new year with a slim hold on the top spot.

The Oakland A winds up its pre-Christmas schedule this evening and the key game has Warren Fitzgerald (44) outlasting Warren Cossio (4-0).

Other O-A games have Clawson (2-2) at Avondale (1-3), Rochester (2-4) at Troy (1-3) and Madison (2-2) at Lake Orion (0-4).

The showdown in the Wayne-Oakland loop pits Northville (3-4) against Clarkson (3-4) on the latter's floor.

OTHERS IDLE

The other squads in the W-O played Tuesday while Northville and Clarkson were idle.

Another game on tonight's schedule finds Royal Oak St. Mary at Detroit St. Rita in a Northwest Parochial League outing.

In the Southeastern Michigan Association, Birmingham Seaholm (1-1) will visit Southfield (2-4) Friday evening needing a victory to pull into a tie for the top spot.

Pinpointing Northville's prob-

lem is a simple task, but the solution is more difficult: the Mustangs must stop Clarkson's Dan Fife.

AIDES BETTER

The 6-2 Fife, a senior forward, has pumped in 154 points in five games for the Wolves for an average of 30.8. He hit his season high last week with 49 markers as the Wolves knocked off Clarenceville, 78-73.

AIDES BETTER

While Fife is the chief threat for the Mustangs, they'll also have to contend with Fife's teammates who are playing a better supporting role this year than they did last season.

Joining Fife at the forward post is Mark Erickson while

Mark Richard holds down the center spot and Tom Allen teams with Randy Nicolson at the guard slots.

Cossio has reeled off seven straight victories this season and will be favored to turn back Fitzgerald this evening. The Cossio attack is centered around the Papak cousins, Paul and Bob, both of whom are scoring close to the 20-point-a-game mark.

Avondale entertained better hopes for the basketball season, but the Yellow Jackets have been unimpressive in posting a 1-4 record. Despite the record, Avon rates a better-than-aver-

age chance of stopping Clawson tonight.

ALMOST WON

Rochester has won two in a row to square its record at 3-3 and the Falcons are favored to add Troy to their list of victims this evening. Troy posted its first win of the season Tuesday, downing Clawson, 64-61.

ALMOST WON

Orion, bogged down with a 0-4 record, seemingly had victory within its grasp Tuesday by taking a 38-29 lead over Rochester at halftime.

But Rochester applied a press in the second half which Orion couldn't handle and the Dragons

were saddled with a 61-50 setback.

Seaholm, nudged by Ferndale last week, 50-48, will be trying to climb back into the tie for first in the visit to Southfield.

Southfield has been a bright spot in the league, rolling up a 4-0 record, 2-0 in league play with one of the wins coming in a 69-61 nod over Ferndale.

Ice Loop Czar Fines Hornets, Quebec Coach

ROCHESTER, N.Y. (AP) — Jack Butterfield, president of the American Hockey League, fined the Pittsburgh Hornets \$1,000 Wednesday night for using an ineligible player in a game against Baltimore Dec. 9 and slapped a \$250 fine on Quebec Coach Phil Watson for making alleged inflammatory remarks on a television broadcast.

The Hornets were fined for their use of defenseman Pete Gogean against Baltimore after he had been recalled by the parent Detroit Red Wings of the National Hockey League.

"After a thorough investigation," Butterfield said, "it has been determined that said player was recalled from loan to Pittsburgh by Detroit in a period of less than 14 days."

Purdue Arrives for Rose Bowl

Boilermakers in First Trip for Big Ten

Majority of Team Seeing California for Initial Time

PASADENA, Calif. (AP) — The 44-man Purdue Rose Bowl football squad — 38 of whom were putting foot on California soil for the first time — arrived on schedule Wednesday to finish preparations for the Jan. 2 game with the University of Southern California.

Lathrop K. Leishman, chairman of the football committee of Pasadena's Tournament of Roses Association, and Athletic Director Jess Hill of Southern California were among those who greeted the Boilermakers' from Lafayette, Ind., at Los Angeles International Airport.

FIRST TRIP

It is Purdue's first trip as the Big Ten representative in the Rose Bowl.

The squad was then driven caravan style to its Pasadena hotel, where the customary welcome awaited the visitors.

Athletic Director Guy Red Mackey, one of the speakers at the poolside ceremony in Pasadena, has been a frequent visitor to the Rose Bowl festivities.

"They always said, 'Red, come out sometime and bring your team.' Well, here it is. It's a real pleasure to be here," Coach Jack Mollenkopf said, "Believe me, it's a real pleasure for me to be here and a great thrill for the team."

This team has worked hard to get here, and I'm sure they'll do a good job come Jan. 2."

Rose queen Barbara Hewitt and her six princesses concluded the reception with the tradition of tossing scores of oranges to the football players who were grouped beside the pool.

Requests Soar for Super Bowl Game Tickets

LOS ANGELES (AP) — The Super Bowl — championship of the two professional football leagues — has received 21,000 orders for tickets in two days. The first contest matching the winners of the National and American football leagues will be played Jan. 15 in the 92,000-seat Memorial Coliseum.

A spokesman said the ticket demand was the heaviest in Coliseum history for a short period of time. Possible contestants are Green Bay and Dallas, who meet for the NFL title, and Kansas City and Buffalo, who play for AFL honors.

Flint Boxer Tumbles

ZANESVILLE, Ohio (AP) — The referee stopped the fight after one minute in the third round Wednesday night and awarded Cowboy Billy Smith a technical knockout over Bob Tate of Flint, Mich., in a scheduled 10-round bout.

SPORTS

Howie Young Plays but Wings Lose, 6-4

CHICAGO (AP) — Howie Young, one time bad boy of the Detroit Red Wings, returned to National Hockey League play for the first time in three years Wednesday night. But he failed to snap the last place Wings out of their doldrums.

Nevertheless, Young's performance was satisfactory both to him and to Wings manager-coach Sid Abel.

AP Photo/Photo

MOST VALUABLE — Fullback Jim Nance of Boston has been named the Most Valuable Player in the American Football League by the Associated Press.

Pats' Fullback Gamers Award

Jim Nance Named Most Valuable

NEW YORK (AP) — Jim Nance, the bruising Boston fullback who stopped looking in the mirror for Jim Brown and started shedding weight for Mike Holbrook, was named today the Most Valuable Player in the American Football League by the Associated Press.

Nance romped off with the honor just as he did with the AFL's rushing record, polling 20 of the 27 votes cast in the AP poll by three-man committees of sport writers and sportscasters in each of the nine league cities. His only competition came from Kansas City quarterback Len Dawson, who guided the Chiefs to the Western Division crown, and his own teammate, linebacker Nick Buoniconti, Dawson received six votes and Buoniconti one.

But Nance completely outdistanced the field by easily breaking the league rushing record and finishing with a total of 1,458 yards gained on the ground — a record, unmatched by any sophomore — with the exception of Brown, who gained 1,527 yards for Cleveland of the National League.

"It took me almost half the game to get my wind and legs, but all in all I think I did pretty well," Young said after the Chicago Black Hawks defeated Detroit 6-4.

Young assisted on one goal and drew two penalties.

OTHER GAMES

In other NHL games, Montreal dumped Toronto 6-2 and New York whipped Boston 5-1.

Young, who holds the 273-minute record for penalty minutes in one season, sparked a last-ditch Detroit rally by assisting on a goal by Ted Hampson which put the Wings deficit at 5-4. But Pat Stapleton scored for Chicago to ice the Hawks' victory.

The loss was the 14th in a row on the road for Detroit. Chicago remained in a first place tie with New York.

Bobby Hull scored two goals for the Hawks. Dean Prentice had a pair for Detroit. Norm Ullmann got Detroit's other goal.

Young, acquired by the Wings last Monday from Los Angeles in the Western League, said he was surprised Detroit wanted him back.

He added: "I was just grateful to be where I was and content to play the best hockey I could and let the rest take care of itself."

"The pace is a little quicker up here, and I was kind of excited. But I finally got settled down."

MATCH GOALS

Chicago's Pierre Pilote and Ullmann matched goals in the first period. But the Stan Mikita scored for the Hawks in the second stanza and Hull followed with two quick tallies to make it 4-1.

Hull set up center Phil Esposito with another goal to make it 5-1 before Detroit caught fire and cut the margin to 5-4 on two markers by Prentice and another by Hampson.

Montreal was in command all the way in its victory over Toronto. Yvan Cournoyer scored the hat trick to spark the Canadians.

Bernie Geoffrion, making a comeback after two years of coaching, scored two goals in leading the Rangers' to victory over Boston.

Kaline Heads List in Inking '67 Pacts

DETROIT (UPI)—Al Kaline's son with a broken hand but said it has healed completely.

The veteran outfielder, who will begin his 15th season with the Detroit Tigers in 1967, became the first of the Bengals to sign a 1967 contract when he inked the document today.

Three other Tigers also came to terms for 1967. Outfielders Jim Northrup and Gates Brown, and pitcher Dave Wickersham were in line after Kaline to sign their agreements for the next season.

Kaline, who turned 32 this week, was the Tigers' top hitter and third in the American League in 1966 with a .288 average for 142 games.

His 29 home runs matched his career high and was his best four-bagger output since 1962. Northrup, 27, had a .265 season average in 1966 but missed the final nine games of the season.

Top Rookie Inks White Sox Pact

CHICAGO (UPI) — Chicago outfielder, Tommie Agee, of the 1966 American League rookie of the year signed his 1967 contract Wednesday with the White Sox.

Agee, who led the Sox in nine offensive departments in his first major league season, signed the pact before leaving for his home in Mobile, Ala., for the Christmas holidays.

Negro Will Direct Southern Gridders

MIAMI, Fla. (AP) — A Negro quarterback will direct the South attack for the first time Monday when college all-star teams tangle in the Orange Bowl in the 19th annual North-South football game.

This will be Hank Washington, 6-foot-3, 205-pound West Texas State native who was fifth in the nation during the past season with a completion average of 58 per cent and thinks he may become the first pro quarterback of his race.

Piston Coach Has Practice for Himself

DETROIT (AP) — Dave DeBusschere, player-coach of the Detroit Pistons, sentenced himself to a two-hour workout Wednesday night.

DeBusschere, who scored 12 points in Detroit's 116-113 loss to the Boston Celtics Tuesday at Minneapolis, said he needed the extra work because his shooting was off after a two-game layoff.

"I showed the effects of missing two games and being out of action for almost a week with an infected foot," he said of his play in the loss to Boston. "It was obvious that my shooting was off and so was my running."

The Pistons, in the midst of a five-game losing streak, play their next National Basketball Association game at Chicago on Friday.

Break Off Track Talks

LOS ANGELES (AP) — Contract talks broke down Wednesday between union officials and management of Santa Anita and Bay Meadows race tracks, minimizing chances that racing will begin as scheduled Dec. 26.

AVON SPARKPLUG—Much of Avondale's hopes of ending a three-game losing streak rest with Lee Saunders (above), who has averaged 14 points a game in Avondale's (1-4) five games. He and his teammates entertain Clawson tonight.

Pontiac Press Photo

Flint Planning Grid Stadium

FLINT — The Flint Board of Education has approved preliminary plans for a new \$400,000 high school football stadium.

The Board authorized the Flint architectural firm of Sedgewick, Sellers and Associates to prepare the final plans and specifications for the new stadium which will serve Flint Northern and Northwestern High Schools. It will be built near Northwestern High.

Flint Central and Northwestern High Schools will continue to use Atwood Stadium.

The new stadium will have a seating capacity of 7,500.

Scores 38 in Easy Win

Vanderbilt Cage Star Shines

By Associated Press
Kenny Campbell probably will remember the night of Dec. 21, 1966 all his life.

Starting for the first time in his college career, Campbell threw in 38 points to lead the 10th-ranked Vanderbilt Commodores to a 116-92 basketball victory over Northwestern.

A 6-footer from Oak Ridge, Tenn., the 21-year-old Campbell hit on 1 of 26 field goal at-

tempts to tie a Vandy record in the game at Nashville.

Campbell's feat made him the Wednesday college basketball player of the night. His performance overshadowed the return to action tonight of the UCLA Bruins, top-ranked in The Associated Press poll, and Loyola, their prize 7-foot 1 1/2 sophomore.

UCLA and Alcindor play host

to the Colorado State University Rams in the Bruins' first game since routing Duke nearly two weeks ago.

Louisville, No. 2 in the AP poll, No. 5 Michigan State and No. 6 New Mexico also chalked up victories on a night replete with intersectional contests.

Playing at home, Louisville defeated St. Louis 75-68. On the

Sub Forward Guides MSU Past Tulane

NEW ORLEANS (AP)—Loyola is one thing but Tulane's Green Wave is another, and Michigan State can thank Haywood Edwards for the difference.

The Spartans, upset by New Orleans Loyola Tuesday night, came back to knock off a lesser Tulane ball club 76-66 Wednesday.

Tulane dropped its sixth game in eight starts. The victory was fifth-ranked MSU's fifth in six games.

Loyola, sporting a 6-0 record, included MSU among its victims Tuesday night in the first of a two-game series in this Louisiana city.

Reserve Edwards came off the bench and scored 18 points and took 14 rebounds as the Spartans coasted past Tulane.

Stop at Sunoco... **SUNOCO** go with confidence

ON THE BUTTON — Iowa center Huston Breedlove (15) takes it on the chin from California center Bruce Stechel (44) as he tries a steal during their game last night in Iowa City, Ia. Iowa won, 72-62.

Defensive Line Potent

Dallas Has Tough Front

DALLAS (AP) — The Dallas Cowboys' chances of beating the Green Bay Jan. 1 for the National Football League championship might well hinge on the performance of their front four.

For the information of Bart Starr, Green Bay's great quarterback, this fearsome foursome has been doing things to quarterbacks that disconcert them, to put it mildly.

Coach Tom Landry of the Cowboys does not go in for blizzards. "When you blitz, you weaken yourself for the big play," says Landry. "You have

to rely on man to man coverage in the secondary."

But the pass rush of his front four is something else.

The quartet — George Andrie and Willie Townes at ends, Bob Lilly and Jim Colvin or Jedro Pugh at tackles — set a National Football League record for trapping the quarterback this year.

They did it 60 times during the season, three times more than the record set by Baltimore in 1964.

Against Pittsburgh the front four trapped the quarterback 12 times — a single game record.

With Lilly not even in there, they took down the New York quarterback nine times last Sunday as Dallas won 17-7.

This foursome, averaging almost 280 pounds to the man, not only is the most even in the league but also about the youngest.

Colvin is the oldest at 28, Lilly is 27, Andrie 26 and Pugh and Townes 22 each.

Avon Matmen Drop Initial Bout

Avondale's first wrestling match will be one the team won't likely try to remember.

Madison Lamphere scored nine pins in downing the Yellow Jackets, 50-5.

Avondale's lone victory came in the 165-pound class with Joe Souheaver scoring a pin.

In another match, Royal Oak Dondoro handed Royal Oak Kimball a 23-15 setback.

Knee Surgery Slated

Jets' Namath Heading for Hospital

By RON RAPAPORT
Associated Press Sports Writer
NEW YORK (AP) — "I want to have it done," Joe Namath said.

Next week, the New York Jets' \$400,000 quarterback will get his wish — his right knee will be operated on for the second time and Namath will lose a lateral cartilage that was torn in August during an exhibition game.

Namath's first operation was in January, 1965, for the removal of cartilage on the inside of the knee. The forthcoming operation is for outside cartilage. Actually, the operation could be even more extensive. A team of three doctors will decide when Namath enters Lenox Hill Hospital whether to attempt more serious ligament surgery to give the knee more stability.

Assisting Jets' team physician Dr. James Nicholas in the final decision will be Dr. Philip D. Wilson, Jr., of the Hospital for Special Surgery and Dr. Frank E. Stencheff, director of the College of Physicians and Surgeons at Columbia University.

Originally, Jets' owner Sonny Werblin and Coach Webb Ewbank were against the operation, though it was obvious Namath was not in top shape. But, on Monday, a routine examination of Namath's knee revealed the torn cartilage.

"It bothers me all the time," Namath said. "It's not a constant pain, but the knee is stiff when I stand up and walk, and it takes a few steps before it loosens up."

"Just the other day in my New York apartment, for example, I made a slight body rotation and didn't watch my knee and it almost went out."

Namath said he expects to spend about two weeks in the hospital, from four to six weeks in a cast and then four or five months recuperating and exercising the knee.

Namath performed well during the season just completed — connecting on 232 of 471 passes for 3,379 yards and 19 touchdowns.

But he was hampered by lack of mobility, the inability to escape when opposing linemen broke through the Jets' pass protection. He had 27 passes intercepted.

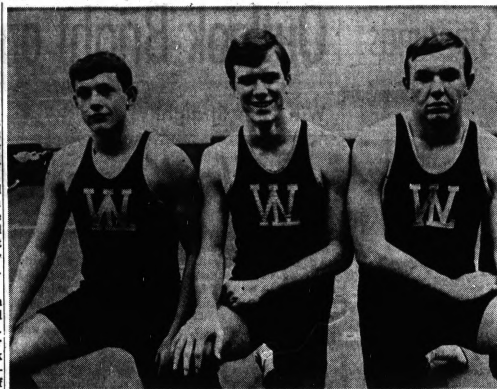

Reshuffling Near for Grid Coaches on Halas' Staff

CHICAGO (UPI)—George Halas, owner and coach of the Chicago Bears, said Wednesday he would retain his coaching staff for the 1967 National Football League season, but might reassign them to other duties.

Halas, who reaffirmed a week ago that he would remain as head coach, said he would study the possible reshuffling of his assistants before training camps open.

Russians Shake Slump

EDMONTON (AP) — The Moscow Selects ended a three-game losing streak by downing an Edmonton All-Star team 5-2 Wednesday night in an exhibition hockey game.

VIKING STARS—Three of the reasons why Walled Lake owns one of the area's top wrestling teams are pictured here. They are (l-r) Rick Hyde (138), Denis Fitzgerald (154) and Dennis Brandt (180). Fitzgerald and Brandt are cocaptains. All three will be in action next week in the Oakland County Invitational Wrestling Tournament at Oakland University.

Pontiac Press Photo

Mat Coaches to Check Progress With Tourney

Local coaches will find out a.m. Tuesday with preliminaries starting at 11:30 a.m. The pre-the best crop of wrestlers at this stage of the 1966-67 campaign.

Twenty teams will square off at Oakland University next Tuesday and Wednesday (Dec. 27-28) in the annual Oakland County Invitational Wrestling Tournament.

And 19 of those will be trying to take the title from Walled Lake, the 1965 champion.

Each team will have two entrants in each of the 12 weight classes.

Weigh-ins are slated for 8-10 a.m. Tuesday.

FLOWING UPHILL — The double rope tow at Mount Holly can expect a continuous flow of skiers during the holiday rush if the current skiing conditions prevail next week.

State's Slopes Beckon; Conditions Very Good

DETROIT (UPI)—Christmas weekend skiers should find the slopes in good shape to try out their new equipment, according to ski reports issued today by the resorts.

Skiing should range from good through excellent throughout the entire state. Most areas are reporting fresh snow building up an established base while some areas reported they are manufacturing snow.

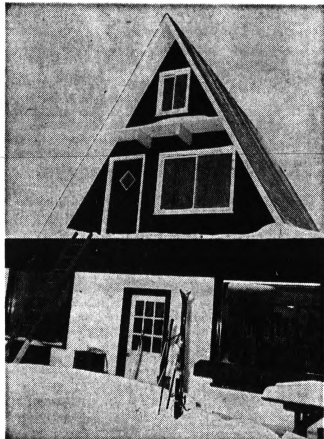

The ski report by regions:

UPPER MICHIGAN
Pine Mountain, Iron Mountain: 5-18 inch base; skiing good.
Brule Mountain, Iron River: 5-18 inch base; skiing good.
Big Powderhorn, Bassett: 10 inch base with new snow; skiing excellent.
Porcupine Mountain, Ontonagon: 3 inch base; skiing fair; open Saturday.

WESTERN MICHIGAN
Barn Mountain, Boyne City: 3 inch base; skiing fair.
Big M, Manistee: 4-6 inch base; skiing good.
Boyne Mountain Lodge, Boyne Falls: 12-14 inch base; skiing good.
Coburn, Cadillac: 15-30 inch base; skiing excellent.
Houghton, Houghton: 8 inch base; skiing good.
Cliffs Ridge, Marquette: 4-6 inch base; skiing fair.

EASTERN MICHIGAN
Sylvan Knob, Gaylord: 4 inch base; skiing good.
Snow Valley, Gaylord: 6 inch base; skiing good.
Sheridan Valley, Lawton: 2 inch base; skiing fair.
Woff Mountain, Farwell: 2-12 inch base; skiing excellent.
Ochi Ski Club, Gaylord: private; 4-10 inch base; skiing excellent.
Blitz Apple Mountain, Freeland: 4-12 inch base; skiing good.
Bear Mountain, Grayling: 22 inch base; skiing good.
Holly Lodge, Gaylord: 4-6 inch base; skiing good.
Harrison: 6 inches new snow, open Saturday; skiing fair.
Pine Lake Ski Resort, Gaylord: 10 inch base; skiing good; opens Dec. 23.
Kilbuck, Houghton: 10-18 inch base; skiing very good.

SOUTHEASTERN MICHIGAN
Alpine Valley, Pontiac: 1-4 inch base; skiing very good on beginner and intermediate slopes.
Mt. Christ, Oxford: making snow; skiing good.
Mt. Granple, Oxford: 10 inch base; skiing good on beginner and intermediate slopes.
Holly, Holly: 7 inch base; skiing very good.
Sylvan Knob, Clarkston: 4-10 inch base; skiing very good.

Pontiac Press Photo

NEW AT GRAMPIAN — Fire destroyed the equipment area and the rental equipment at Mount Grampian last winter but owner Vern Pilsworth has built a new facility and bought new skis, poles and boots.

Santa's Arrival Curbs Ski Resort Schedule

Saturday night skiing in the county this week — no matter how deep the snow — will be left almost exclusively to of Saint Nicholas and his fellow Christmas Eve travelers.

The resort owners have announced early closings Saturday and later than usual openings Sunday morning in order to permit their crew workers to observe the holiday with their families.

All agree the skiing is very good to excellent at the moment and are hoping it remains so through the holiday week.

In fact, Pine Knob manager Oldrich Vavrouch enthusiastically cited the current conditions as the past in two years. Another official of the opposite sex describes Mount Grampian's snow as "wonderful."

Leading Junior Skiers Selected for Winter Camp

TRAVERSE CITY (UPI)—The Central Division of the United States Ski Association Tuesday announced the names of 10 top junior racers from the division selected to compete at the junior national training camp Dec. 25-Jan. 1 at Aspen, Colo.

The 10 division contestants were chosen at two school camps, Boyne Mountain and Trollhaugen, St. Croix Falls, Wis.

Christine Ameal, Traverse City; Susan Fletcher, Marquette; Tom Gratsch, Walloon Lake; Chris Harty, St. Paul, Minn.; Cathy Paulos, Traverse City; Steve Owen, Escanaba, Minn.; Cathy upao, Traverse City; Bob Tilden, Sturgeon Bay, Wis.; Marty Walker, Alma; and Candy Williams, Cadillac.

Skiing will be limited, however, both Saturday and Sunday. Mount Christie will close at noon Saturday and reopen 9 a.m. Monday. All the others will be open Christmas Day although not until noon, or 1 p.m. (Alpine Valley) or 3 p.m. (Mount Brighton).

CLOSING
Alpine will shut down at 4 p.m. Saturday, Mount Brighton and Pine Knob at 5 p.m., Mount Holly at 6 p.m., while Mount Grampian has indicated it will remain open awhile Saturday night if there are enough skiers to warrant it.

Quite a few of the resorts, too, have announced plans to open a half-hour to an hour earlier almost every week. This means almost every ski resort in the area will be running by 9:30 a.m. at the latest Monday-Saturday.

The Teeple Hill natural snow ski runs in the Highland State Park recreation area will be closed all day Christmas. Ice skating, sledding and tobogganing will be permissible in the park Sunday.

Ski Official Urges State to Sell Land

IRONWOOD (UPI)—The president of the Central Ski Areas Association Tuesday called for the State Conservation Department to sell the state-owned Porcupine Mountain ski area near Ontonagon.

Jack B. English, who also operates the Indianhead Mountain ski resort in Michigan's Upper Peninsula, said Porcupine Mountain operates in direct competition with privately owned ski resorts.

He said this was unfair competition with the private ski resorts.

State Police Post: Busy and Wide-Ranging

PONTIAC POST — Built less than 10 years ago, the Pontiac post of the Michigan State Police is the work center

for 36 men presently assigned there. The building is at 1295 N. Telegraph, Waterford Township.

Pontiac Press Photos by Roll Winter

POST COMMANDER — Staff Sgt. Raymond J. Hoopengartner has been post commander of the Pontiac State Police since Aug. 21. Hoopengartner, a 19-year veteran of

the State Police, replaced Karl W. Lutz as commander of the Pontiac post when Lutz retired after 25 years service.

By HUDSON WILLSE

The Pontiac post represents only one of 59 State Police facilities in Michigan's two peninsulas. However, it takes a back seat to few posts in area covered and volume of work required.

The post's 36 men are charged with protection of life and property in 13 northern Oakland County townships and part of another, an area which encompasses 470 square miles.

The task would be impossible if it wasn't a combined effort. Local police departments, sheriff's deputies and State Police all share the burden.

"We have a tremendous volume here as far as complaint work and traffic work because of the concentration of people in Oakland County and the several main highways that pass through the county," said Staff Sgt. Raymond J. Hoopengartner, post commander.

Hoopengartner, a 19-year veteran with the State Police, assumed command of the Pontiac post Aug. 21.

REST OF COMPLEMENT

Besides Hoopengartner, the complement consists of 29 troopers, four corporals and two detectives.

Troopers are assigned to one of four patrol areas in the territory, which stretches westward to Milford, Highland and Rose townships, south to 13 Mile Road, north to Genesee County and east to Adams Road.

Troopers patrol their assigned areas for traffic control and answer complaints.

The area covered by the post consists of the townships of Holly, Groveland, Brandon, Oxford, Springfield, Independence, Orion, White Lake, Pontiac, Waterford, Commerce, West Bloomfield, Bloomfield and part of Southfield Township.

OWN FORCES

A few of the townships, like Waterford, Bloomfield and West Bloomfield, have their own police forces. The others also are served by the County Sheriff's Department.

Consequently, citizens of

northern Oakland County essentially are served by at least two police departments.

Major highways patrolled include I-75, U. S. 10, U. S. 24, M59, M15 and traffic-laden county roads.

"Our primary concern, of course, is protection of life and property," asserted Hoopengartner, who has been stationed at six different posts since joining the State Police in 1947.

RUN THE GAMUT

"We run the gamut from lost children and homicides to lost dogs and animals loose on the highways," he said.

The Pontiac post at 1295 N. Telegraph, Waterford Township, is less than 10 years old. It supplanted the defunct Keego Harbor post.

Although the bulk of state policemen stay with the organization until retirement, the manpower shortage generally approaches that of other law enforcement agencies.

State Police enlisted strength now stands at 1,406, some 170 less than the new authorized complement of 1,576 men.

RESIDENCY REQUIREMENT

Because of recruiting problems, the Civil Service Commission recently waived the six-month residency requirement for new state policemen, opening the door for out-of-staters to join the organization.

The need for additional manpower is a continual problem faced by State Police. Recruiting must keep pace with the organization's rapid growth.

In the past year, for example, three new posts were opened, including one at Lapeer.

Said Hoopengartner: "Percentage-wise, I suppose, we're on a par with other departments as far as manpower shortages are concerned."

SPECIFIC REQUIREMENTS

State Police applicants must fulfill specific requirements before being recruited. They must be 21 to 30 years old, at least 5-9 tall and high school graduates or the equivalent.

Both married and single men are eligible to join the organization.

If accepted, they undergo an intensified 11-week instruction and indoctrination course at the department's training school in East Lansing.

Following graduation, troopers spend a six-month probationary period at one of the posts. Starting pay is \$6,388. It advances to \$8,938 after seven years.

ELIGIBLE FOR PROMOTION

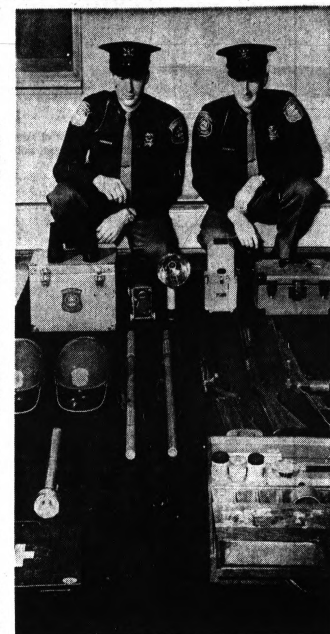

Troopers are eligible for pro-

motion to corporal after five years.

State Policemen can retire following 25 years' service. Retirement is mandatory at the age of 54.

Founded during World War I, the organization has few black marks and is generally well respected.

"Being fair and impartial to all persons" is one of the major strengths of the State Police, Hoopengartner said.

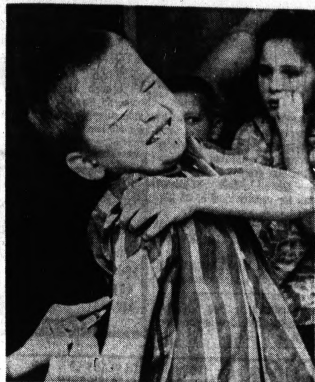

DISPLAY EQUIPMENT — Exhibiting some of the equipment used by the Michigan State Police are Troopers Robert Dyke (left) and Gary Shepley of the Pontiac post. Dyke and Shepley are two of 29 troopers stationed at the post. The complement also consists of four corporals, two detectives and a staff sergeant.

EMERGENCY TRUCK — Troopers Dyke and Shepley stand by the Pontiac post's civil defense emergency truck which is used for disasters, riots and

other emergencies. The truck is equipped with gas guns, rifles and riot equipment.

Scars Are Reminder of Forest Fire Tragedy

HE CAN'T LOOK — Nine-year-old Robert Henke of Minneapolis, Minn., is normally a brave lad, but when it comes to diphtheria shots, he finds it better to close his eyes. It really didn't hurt very much, he discovered Tuesday, but that was small comfort to the other youngsters waiting apprehensively in line.

Santa Pays Early Visit to Needy Pupils

DETROIT (AP) — Christmas came four days early for Terry Pappas, a 6-year-old with a squeaky voice and a crooked smile.

It was a warm jacket, size eight "but he'll grow into it," said a smiling Santa Claus.

Terry, one of 72 children at Hand School in the western Wayne County community of Brownstown Township, was born the year Santa first came to this underprivileged area.

In 1960, employees at Ford Motor Co.'s Body Engineering Department in nearby Dearborn, heard about the children of Hand School. Each Christmas ever since, they have donated their time, money and Robert Dowell, department supervisor, is Santa.

Three station wagons loaded with clothes, toys, food and helpers pulled up to Hand School yesterday. There also was a check for \$1,000.

N. Korea Fliers Join N. Viets

WASHINGTON (AP) — North Korea has joined in the Communist world's support of North Vietnam by supplying a contingent of pilots who apparently are tutoring Hanoi's fliers in aerial operations.

U.S. Intelligence confirmed the presence of 25 to 50 North Koreans in North Vietnam in recent days, it was learned.

Sources said today the North Koreans arrived six to eight weeks ago, but are not known to have participated in any engagements with American planes.

One source categorized the Koreans as counterparts to U.S. military teams assigned to some foreign countries to provide technical training and assistance. Another, however, suggested they might be in North Vietnam for some training of their own in a combat zone.

LOS ANGELES (AP) — Some have red scars on their faces. But I was in surgery instead. Professional fire fighters said skin-grafting operations immediately. One man died five days after the fire, and three are still hope to return to college next year.

"I was supposed to be married Nov. 26," Cosgrove said. "But I was in surgery instead." In hospitals, doctors began skin-grafting operations immediately. One man died five days after the fire, and three are still hope to return to college next year.

Others are well enough to make plans. Smith and Leak said Cosgrove: "What of the Hot Shots' future?"

"We're still the best. You'd better believe it. And we're getting more applications than ever."

They are the 14 survivors of a 25-man U.S. Forest Service team called El Cariso Hot Shots — specialists in going after the hottest spots of brush fires. They wore Army-style green berets as a symbol of their reputation.

Rich Leak, 19, recalled from his bed in Los Angeles County General Hospital:

"That was my 28th fire in two years. This was a busy summer. We'd been all over the Western states. We only had about 10 days of all summer."

HOTTEST NOV. 1

Summer had ended, but on the hottest Nov. 1 in local history the Hot Shots had been called from their base in Cleveland National Forest in adjoining Riverside County. While they were fighting a nearly controlled 2,100-acre fire in Pacoima Canyon near Los Angeles, a freak fire storm flashed over them. Within seconds, the sheet of flame burned 11 of them fatally.

Ed Cosgrove, 22, an Army veteran, talked about the flames that burned his face, hands, elbows and legs and withered his right ear.

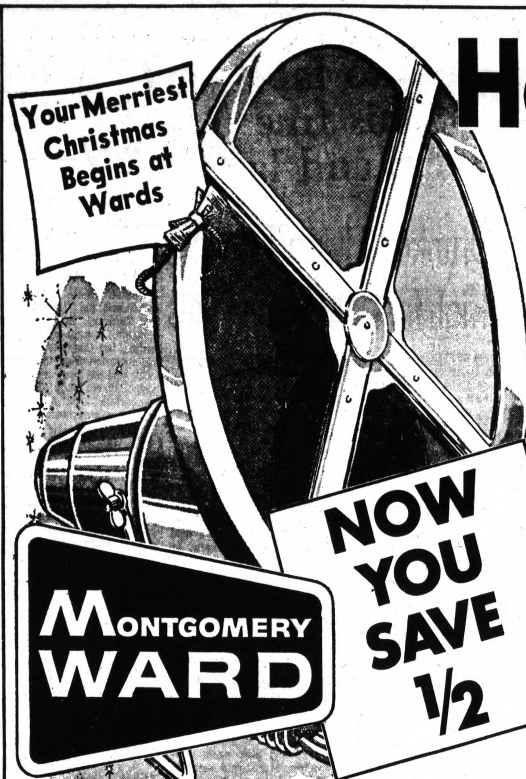

"We were strung out in a line, moving down the canyon, cutting a firebreak. All of a sudden I could hear Gordon King, the crew chief, hollering, 'Get up to the safety zone!' And here came the fire."

NO TIME

"Some of the guys tried to run, but there was no time. As soon as I felt it on my back, I just hit the ground and took real shallow breaths. It's breathing in the heat that kills you. It burns out the lungs."

"I just flattened out and covered my head. I don't know how I lived."

The men on either side of him died.

Podiatrist Ministers to Bulls and Bears

CHICAGO (AP) — When the bulls and bears of La Salle Street come to Dr. Anthony H. Arnold, they generally are as meek as lambs — and limping. Dr. Arnold, podiatrist and foot surgeon, has been ministering to the foot ailments of downtown Chicago patients for 18 years, most of the time on La Salle Street — the canyon of Chicago finance.

Dr. Arnold is one of the most popular — and most needed — men in the building of 45 floors and 500 offices. He was invited to open an office in the building, he said in an interview, by a grateful patient who works on the Street. He urged Arnold to the offer of office space because his associates and friends "need you badly."

So he came to the Board of Trade and found the reason why so many traders, floor men, commodity and grain dealers wear canvas sneakers, house slippers, cut-away dress shoes, tennis shoes, or old, beaten up shoes — preferably unlaced — during office hours on the floor of the exchange.

OCCUPATIONAL CORNS

"Many, many of them have occupational corns on their feet," he said.

The several hundred men who congregate on the floor of the Board of Trade mostly stand or walk around for about five hours a day. These occupational corns, Dr. Arnold said, are a kind of hard, seed corn imbedded on the surface of a callus. But by far the biggest hazards for the men whose duties are mainly in or around the grain pits are fractured bones in the foot or ankle. How can this happen?

"You know the grain pits are a series of stairs, two, three or four high, set in an octagon shape," he said. "The stairs lead to a three-foot platform, then go down again on the other

side to form a pit. The traders, bulls and bears of La Salle Street come to Dr. Anthony H. Arnold, they generally are as meek as lambs — and limping.

Result? A broken foot bone or fractured ankle bone followed by a hurried trip to Arnold's office. The doctor anesthetizes the foot, administers cortisone, sets the bone and puts a flexible cast around the injured foot because "these fellows want to get right back to work."

Arnold has about 15 patients a day from the Board with foot troubles. About two or three a week come in with fractured foot bones. One day he had four patients with foot fractures, two within an hour.

Arnold, 51, is a graduate of the Illinois College of Podiatry and Foot Surgery in Chicago. A native of New Haven, Conn., Arnold spent 4½ years in the armed forces as a medic.

In the 20-odd years he's been in the profession, Dr. Arnold says, he's seen "some feet that need a lot of professional attention."

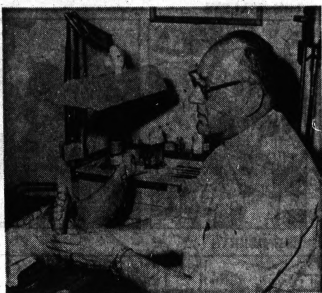

But he is convinced of one thing: "People will wear whatever kind of shoes they want — they fit their eyes, not their feet."

Big Icebreaker Is Launched

By Science Service

MONTREAL, Canada — Canada has launched a new 13,000-ton icebreaker, the Louis St. Laurent, which is described by its builder, Canadian Vickers Ltd., as the world's biggest conventionally powered ice-breaker.

The \$18-million ship has a 24,000-horsepower propulsion system, made up of four water-tube boilers to provide steam for three turbo-generating sets, which in turn power three

'Learning Transfer' in Rats Is Reported

By Science Service

DURHAM, N.C. — One of today's most heated scientific controversies is whether the brain's learning can be physically transferred from one animal to another.

Evidence that it can was presented here today by a Duke University biochemist.

While emphasizing that his results were "preliminary," Dr. William L. Byrne outlined experiments indicating that learning in untrained rats is significantly improved by injections from trained rats.

His contribution to what has been a major controversy in the scientific world came at a

meeting of the National Academy of Sciences on the Duke University campus.

Dr. Byrne noted that a number of scientists, himself included, had been skeptical of "learning transfer" experiments because they had been unable to consistently reproduce affirmative results.

However, he said that most of the inconsistent experiments had involved attempts to extract RNA, a form of nucleic acid, from brain materials of trained rats to use for injection.

Death Valley, the lowest spot in the United States, is 282 feet below sea level.

By OSWALD & JAMES JACOBY

West opened the king of diamonds and shifted to the ten of hearts. Eventually South lost a diamond, a spade and two trumps.

The damages ran to 800 points and South was hit by the whole thing. Strangely, he blamed his partner.

"How could you possibly double two diamonds without

an ace or king in your hand? How could you possibly bid three no-trump with only a singleton club? What were you doing anyway?"

North was too busy wondering if he could kill South and claim justifiable homicide to bother to answer but we will answer for North.

He doubled two diamonds because he expected to see that provided he played the hand fairly well. Expert play would not have been necessary but with really bad play he might have managed to go down.

As for the double of two diamonds promising any aces or kings, it meant quite the opposite. North might have held some of those cards but more than anything else North was telling his partner that North felt their future was in collecting penalty points and not going after game or slam.

If South had bothered to think he might have reasoned that North's bidding was designed to

stop South from going to a slam. In no sense could it have been considered to be encouraging.

A—Bid five hearts. You have signed off once. Now you can afford to show your first round heart control.

TODAY'S QUESTION

Your partner jumps to six spades. What do you do now?

Answer Tomorrow

There is no United States representation in the Spanish Sahara. The embassy at Madrid is responsible for consular services. A consular agent also is stationed in the nearby Canary Islands.

Thief's Loot Is Impractical

DURHAM, N.C. (AP) — A thief snatched from a car what may be some impractical loot — unless he's a large thief.

The loot was clothing belonging to Jim Srodes, on the staff of recently elected Congressman Nick Galifianakis in North Carolina's 51st district. Srodes was en route from Washington to his family home in Tampa, Fla.

The thief should be easy to spot if he tries to wear the suits. Srodes is a 290-pounder and wears size 48 extra long.

Welding Tests

ROBINS AIR FORCE BASE, Ga. (AP) — The Air Force Logistics Command, the buyer of tools for the Air Force, is testing a new electron beam welding machine that sends electron particles flying through a welding chamber at such speeds they can fuse two metals.

Astrological Forecast

By SYDNEY OMARR

For Friday

"The wise man controls his destiny"

ARIES (Mar. 21 - Apr. 19): Details concerning money, budget may demand time. Don't skip necessities. You may be asked to do a lot of extra work. Outlines of

TAURUS (Apr. 20 - May 20): Cycle continues high. Take initiative, welcome change. Express yourself. Remember to send special card to unusual person. Cancer is the start of something new.

GEMINI (May 21 - June 20): You may be fatigued as result of last-minute shopping. Take time to recuperate. Don't feel appearance at party or special occasion is absolutely required. Your health is more important.

CANCER (June 21 - July 22): Your temper could get out of control. Consider instead being amused by one who is eccentric. Don't try to force issues. Friend needs much but mostly sympathy.

LEO (July 23 - Aug. 22): Prestige may be on the line. Especially regarding certain people. Remember you may not like this — not in the beginning. But you may regret not obligating.

VIRGO (Aug. 23 - Sept. 22): If spirit is in conflict, you will achieve major purpose. Avoid tendency to be impatient. When male or partner makes reasonable request, grant it.

LIBRA (Sept. 23 - Oct. 22): Key is ability to organize. Applies especially to purchases, planning. Dig deep for information. Refuse superficial answers. Get to the heart of matter. You are busy.

SCORPIO (Oct. 23 - Nov. 22): Cooperation must have priority today. There is a certain tension between you and your efforts. Maintain balance. Try to be fair. Be especially considerate of male partner.

SAGITTARIUS (Nov. 23 - Dec. 22): Keynote service, understanding. Your influence is extensive today. Listen, observe. Set fine example. Applies especially to relations with young persons.

CAPRICORN (Dec. 23 - Jan. 19): You

can get your way if persistent. Associate may attempt to discourage you. If details are specified, you will overcome odds. Realize this and move with confidence.

AQUARIUS (Jan. 20 - Feb. 18): Home takes spotlight. So does security. Concentrate on greater comforts. Go ahead with gift purchases. Family members appreciate quality — but avoid extravagance.

PISCES (Feb. 19 - Mar. 20): You may be discouraged by volume of calls, correspondence. Activity, mouth. Depend upon past experience. A natural character trait, you help others to help themselves.

IF FRIDAY IS YOUR BIRTHDAY

You possess intellectual curiosity. You investigate until you find REASONS for actions, events. A natural character trait, you help others to help themselves.

GENERAL TENDENCIES: Cycle high for TAURUS, GEMINI, CANCER. Social word to AQUARIUS. You will get what you go after — but be sure you know what is required.

Sentencing of Yank May Hurt Trade Bill

MOSCOW (AP) — The sentencing of a young American to three years in a Soviet labor camp is expected in Moscow to hurt chances for U.S.-Soviet trade increases, something the Soviet want.

Buel Ray Wortham, 25, of North Little Rock, Ark., was sentenced Wednesday in Leningrad for stealing an antique statue of a bear from a Lenin hotel and charging about \$75 for black market rubles. He plans to appeal.

Wortham's congressman, Rep. Wilbur D. Mills, D-Ark., filed an affidavit to the court testifying to Wortham's good character. Mills is chairman of the House Ways and Means Committee and in a key position to affect the fate of the East-West trade bill in Congress.

The American Embassy termed Wortham's sentence "harsh and out of all proportion to the relatively minor legal infractions with which he was charged."

SATISFACTION
The embassy expressed satisfaction, however, that the court freed Wortham's friend and codefendant, Craddock M. Gilmour Jr., 24, of Salt Lake City. Gilmour was fined \$1,111 on the lesser charge of giving Wortham money to change illegally.

Four visiting U.S. congressmen warned Soviet officials last week that a harsh verdict in the trial would hurt chances for the trade bill. They stressed Mills' role.

The Soviets have long expressed interest in buying more from the United States. But American restrictions have left U. S.-Soviet trade at a small percentage of the potential. The trade bill is designed to remove some of these restrictions.

Gilmour remained in Leningrad today to arrange final details of his case. He planned to try to see Wortham. Gilmour is expected to pay his fine today or Friday and leave the country Friday night.

In North Little Rock, Wortham's father, Buel C. Wortham, said he is confident the State Department could negotiate his son's release if, its hands aren't tied.

Wortham, a vending machine operator, suggested that the United States exchange his son for Russian Igor A. Ivanov, 34, who is serving a 20-year prison sentence for espionage in the United States. Secretary of State Dean Rusk rejected the idea Wednesday.

Wortham said Rusk's rejection didn't close the door to an exchange, but "it threw a small rock in the path."

"If they (the State Department) can't handle a little job like this, what can we expect of them when something really gets big?" Wortham asked.

ACROSS COUNTRY
"I've tried everything I could and I'm going to have help from people across the country — if they'll write their senators and representatives asking to bring the boy home."

Wortham said the United States had a large sum of money invested in the training of his son, an Army lieutenant before his discharge this year, who holds pilot's and paratrooper's wings.

"To me, a pilot and paratrooper is worth more to a country than one spy who has been in jail three years," Wortham said.

He questioned why there had been no prosecution of the Soviets with whom his son testified that he exchanged currency.

WANT EXCHANGE
In Moscow, it is considered likely that the Soviets will try to exchange Ivanov for Wortham, as they have exchanged other Westerners for Soviet citizens imprisoned by the United States and Britain.

The usual procedure in such cases has been for the foreigners to write a letter to his embassy suggesting a swap. Wortham is unlikely to do this until after his appeal is decided.

DOUBLE YOUR PLEASURE — The twin towers of Chicago's Marina City, turned into gigantic candles by the rings of lights, appear to have doubled overnight. Actually the two on the right are a reflection on the black onyx wall of a building on State Street.

N. Viets Say U.S., Not Reds, Hit Hanoi

TOKYO (UPI) — North Vietnam today denounced U.S. reports that residential Hanoi was bombed by mistired Red defense missiles. The Communist nation's top military commander also pledged a fight to the bitter end against U.S. troops in South Vietnam.

A North Vietnamese government spokesman labeled the American missile reports as "an odious fabrication" and repeated charges that U.S. planes have attacked Hanoi proper "including the quarter of foreign embassies."

Yule Customs Vary Throughout World

By the Associated Press

From bustling Japanese department stores to Brazilian beaches and an Arab checkpoint in Jerusalem, people of the world are making ready to celebrate the birthday of Christ.

Some Christmas customs, such as the Polish rush to buy trees, are familiar in many lands. Others, such as street dancing in Ghana, are not. But all add up to the holiday formula: Faith, feasting the festivity.

Thousands of pilgrims will line up at Mandelbaum gate in Jerusalem to cross into Jordan for services in Bethlehem at the church of the Nativity, over the grotto where—tradition says—Jesus was born.

Depending on the country, the feasting will include roast suckling pig, carp, eel, goose, lamb or—more and more—turkey.

CHRISTMAS AT SEASHORE
In Brazil, where Christmas usually brings crowds to the seashore, you give your girl a bikini and do not have to wait six months to see her in it. The holiday comes at the beginning of the Brazilian summer.

Here is a sampling of Christmas observances around the world:

JAPAN—Christmas has no religious meaning, but store owners cashing in on an economic upswing have made it a commercial success. Sales, says the jolly, bearded version of

Christmas trees, Santa Claus and recorded carols lure Japanese to department stores in record numbers. Battery-operated monsters popularized by television are big sellers. Thousands of Christmas cakes with "Merry Xmas" written in chocolate across the top are sold at prices up to \$2.

ITALY—Few Roman Catholic priests spoke out this year against the growing use of the yule tree instead of the creche and the trend to Santa Claus instead of the Good Witch Befana, who brings children gifts on Epiphany Day, Jan. 6.

SOVIET UNION—For the first time, Father Frost, Russia's jolly, bearded version of

Santa Claus, is making house calls. So are his granddaughters, the Snow Maidens. Father Frost traditionally put gifts under yule trees as children slept Christmas morning. The Communists changed that, and now his day is New Year's. This year, Detaki Mir, Russia's biggest children's store, announced that for a 33-cent fee parents could arrange for Father Frost or a Snow Maiden to deliver presents to children in person. The response was overwhelming. By coincidence, deliveries start Dec. 25.

GREAT BRITAIN—Turkeys at 63 to 70 cents a pound are "in" for Christmas dinners instead of the traditional goose. The teddy bear remains the favorite child's gift. The Bank of England says there is more cash in circulation than ever before, despite the economic crisis, and Christmas spending promises to set a record. In County Kent, home of Charles Dickens, author of "A Christmas Carol," a man named S. Claus was fined for a traffic offense.

WEST GERMANY—A Dueseldorfer put offered a jeweled, silver Christmas tree for \$250,000 but most retailers reported a trend toward practical gifts and away from impulse buying. The big sales increases of previous years were not noted. Tabletop auto racing and Gemini capsules from the United States are popular new toys. Old favorite child's gift. The Bank of

England says there is more cash in circulation than ever before, despite the economic crisis, and Christmas spending promises to set a record. In County Kent, home of Charles Dickens, author of "A Christmas Carol," a man named S. Claus was fined for a traffic offense.

GHANA—In the first Christmas season since Kwame Nkrumah was toppled by an army revolt last February, Ghanaians are able once again to buy toys, guns, rockets and fireworks. Nkrumah banned these items after an attempt on his life in 1962. Churches have scheduled Christmas Eve services and merrymakers are expected to fill dance halls in the larger towns.

Red dye is obtained from the cochineal bug.

PINEAPPLE ANGEL CREPES—Serve as a holiday dessert or even as a brunch dish. Roll bananas in thin delicate pancakes and bake until fruit is tender. Top with a hot brandy and pineapple juice sauce.

Wrap Bananas in Pineapple Pancakes

Christmas angels love crepes for dessert when they're topped with golden canned pineapple. The sweet and sophisticated idea here is to roll tender crepes around whole bananas, then bake until the fruit is tender. Make a glossy sauce of pineapple tidbits accented with lemon juice and brandy to serve

Versatile Peanut Butter Lends Flavor to Snacks

The famous motto "Be Prepared" is especially apropos during the holiday season when the doorbell can ring unexpectedly and guests stop by unannounced. This is truly the season when "open house" can be taken literally. There's no need to panic, for, even if the stores are closed, you can serve your guests a delightful "snack" from the freezing compartment of your refrigerator. For instance, you can prepare these Peter Panstrips at your leisure, stow them in the freezer and they'll be ready for an emergency. They're a mixture of crunchy peanut butter and cheddar cheese with a pie crust mix. They can accompany anything from a cup of tea or coffee to a seasonal eggnog, which also uses peanut butter for exotic flavor without sacrificing tradition. Peter Panstrips 1/4 cup grated cheddar cheese 1/4 cup crunchy peanut butter 1 package (10 ounces) pie crust mix

PEANUT FLAVORED—Peanut Butter Strips can be stowed in the freezing compartment of the refrigerator for unexpected holiday callers. Serving a multitude of occasions, they're equally delicious with an afternoon cup of tea or as an accompaniment to a large bowl of seasonal eggnog, which uses peanut butter to impart a slightly "nut-like" flavor.

There's Nothing Fancy About This Sandwich

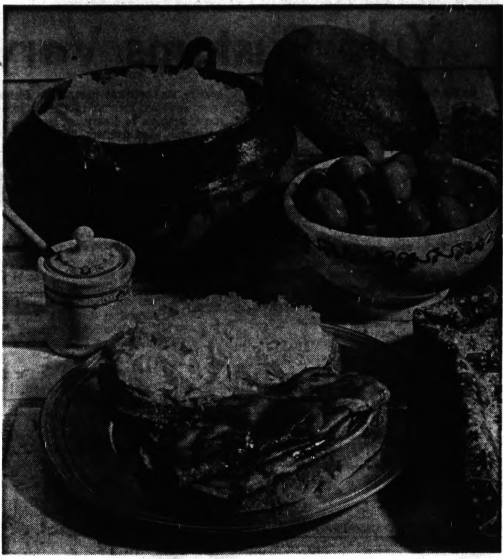

The stand-up free lunch so popular in pubs and taverns at the turn of the century has all but disappeared into infinity right along with the nickel cigar, the 5 cent beer and the triple-dip, multi-colored ice cream cone.

Only vestigial remnants are to be found in today's taverns... bowls of soggy peanuts and potato chips... an innocuous cheese mixture or two... a few limp pretzels.

In its heyday, the free lunch was something to see. Massive mahogany or oak bars groined under huge platters of sliced hot and cold meats, hard-boiled eggs, bowls of various relishes, slabs of bread, tubs of clam wedges of golden yellow cheeses and lots of other hearty fare.

The food was apt to be salty, quite highly seasoned or both to stimulate the thirst... which, of course, was the whole point.

This sandwich of Olive Barbecued Pork on slices of dark pumpernickel bread served with a healthy mound of kraut is typical pub lunch fare which you can duplicate for your family for lunch or supper. Leftover pork is just fine for the barbecue.

MAN-SIZE SANDWICH—A glimpse of the good ol' days... the stand-up free lunch. Slices of pork barbecued in a tangy olive sauce and served on pumpernickel with a mound of crisp kraut. Set 'em up, Joe!

Ring out the old year with THE BEST OF DEAR ABBY!

A choice selection of the best letters
Abigail Van Buren received in 1966!

Abby, a unique combination of pungent
wit and sympathetic understanding,
offers these sparkling gems for your
holiday enjoyment and a taste of
what's coming in '67.

DEAR ABBY: In 1955 I married Bob (not his real name) in the Catholic church. I was born a Catholic and Bob was a convert. We had two boys. For reasons which I shall not go into, we were divorced in 1961. I then married Bill (also not his real name) at a civil ceremony by a Justice of the Peace, but we lived together only seven months and were divorced. Bob has started to come around again.

We have a lot to talk about because of the boys, etc. so sometimes he stays all night, or for the week-end. The neighbors' mouths are going a mile a minute. Since our religion does not recognize divorce, we are still married in the eyes of the church. Right? So, are we doing anything wrong?

TALKED ABOUT

DEAR TALKED ABOUT: It's not the "eyes of the church" you are concerned about—it's the mouths of your neighbors. Talk to your priest. He will tell you what's wrong with using your religion to suit your own convenience.

DEAR ABBY: I hate alcohol and my sons know it. Yet when we go to their homes for parties, the boys and their wives and their guests drink hard liquor right in front of us. One boy is 32 and the other is 35, so they don't need our permission to drink, but it wouldn't hurt them to abstain when we are present.

My husband is on the boys' side. He says the younger generation is living in an entirely different world. Should I tell the boys that as far as I am concerned, they can live in their world and I will live in mine?

BLOOMINGTON, ILL.

DEAR BLOOMINGTON: If you want to remain on speaking terms with your sons, I suggest you stop fighting the battle of the bottle and try living in the same world as long as possible. You'll be living in different worlds soon enough.

DEAR ABBY: I work on one of the newspapers that publishes your column. In a story I wrote, the term "horse serum" was changed to "equine serum." I have never heard anyone refer to horse serum as equine serum, and I doubt if anyone else has. What do you suppose the editor was trying to accomplish?

ANNOYED

DEAR ANNOYED: Nothing. But he was probably having one of his "technical" days and objected to using a noun as an adjective, which it's a common practice. Forget it. It's just a lot of equine feathers anyway.

DEAR ABBY: I am a high school senior and I plan to become a nurse. I also have another ambition. I want to marry a member of the Royal Canadian Mounted Police. Please don't laugh at me, Abby, I am serious.

I am not pretty, but I do have plenty of friends and I've been told I have a good personality. I've dated guys from school, but they don't satisfy this feeling I have. I have read everything about the R. C. M. P. and am more determined than ever to marry one. How can I meet one?

FROM VIRGINIA

DEAR FROM: You could take a trip to Canada and get "lost" in the Rockies, but there is always a chance that the bloodhounds might find you first. Get your R. N., then apply for a job in Canada. And in the meantime, keep repeating the motto of the Royal Canadian Mounted Police: "We always get our man." And maybe you'll get yours. Lotsa luck.

DEAR ABBY: "LOVE-STARVED" has my sympathy. He's the man whose wife won't let him kiss her because she's afraid he might mess her hair-do or smear her make-up.

I have been married for nearly four years, and I have never seen my wife with curlers in her hair or go all over her face. She says, "I can do all the construction work during the day time. I don't care if the mailman, milkman or delivery boys see me looking like a spook. But when my man comes home, I like to be as fresh and pretty as I can be."

LUCKY LENNY

DEAR LUCKY: Cover her up. She might get pneumonia.

DEAR ABBY: I am a 47-year-old woman who has been married for nearly 30 years to a 56-year-old railroad man. We have nine grown children.

You may not believe this, but my husband has left me for a 62-year-old woman. Will you please tell me what this old lady could possibly offer him that I can't?

VERA

DEAR VERA: Social security, maybe.

DEAR ABBY: Married women are expected to wear wedding rings. I think all married men should wear something to indicate that THEY are married.

WILMA

DEAR WILMA: Isn't a five-year-old suit and a worried look sufficient?

DEAR ABBY: I wrote to you once before about this problem, but I turned chicken and tore up the letter. The problem has come up again, and this time I've made up my mind to mail it. My husband has been interested in nudism for some time, and has tried to get me to go to a nudist camp. I have nothing against camps like that, but I am just not the type who could strip down naked in front of so many people.

We have had a lot of arguments about this, and have even come close to getting a divorce over it. I don't see how normal people could go to a place like that without getting a few "evil" thoughts. Am I wrong to think this way, or am I evil minded? And do you think a man who really loved his wife could bear to see her walking naked in front of other men?

ANTI-NUDIST

DEAR ANTI: One's attitudes about nudity are based on his early training, acquired inhibitions, and the customs and culture of the society in which he exists. Some people adopt unconventional beliefs that are not, necessarily, "evil minded." I believe, however, that everything has its place. Including the fig leaf.

DEAR ABBY: I stopped by my husband's place of business just before closing time to get a lift home. When I walked in, he had the gullest look on his face, and the back door of his office was wide open. There was a chair drawn up right next to his. I felt the seat, and it was still warm.

We have been married 33 years, and I never worried about his taking an interest in other women because for the last 10 years he has had no interest in me. Now I am beginning to wonder if maybe the reason he had no interest in me was because he was all worn out from his interest in others. I would like your opinion.

SUSPICIOUS

DEAR SUSPICIOUS: It could be that the hot seat you're worrying about results from your cold shoulder. Warm up one and watch the other cool off.

DEAR ABBY: What do you think of a 44-year-old man who meets his girl (she is 37) on street corners because he's afraid if someone sees his car stop in front of her house they might tell his mother? I have put up with this for 10 years and I am sick of it. Bud's mother has a regular detective ring working for her to find out every move her son makes. If I want to call Bud at home I have to ask my brother or some other man to ask for him because his mother won't call him to the phone if it's a woman's voice. He is scared to death of her. He's an only son and she's a widow. It's not that she doesn't like me. She's never even MET me. As I understand it, there is a lot of money there and Bud will get it all when his mother dies. But she's not yet 65 and is healthy as a horse. I love him, Abby, but I can't take much more of this hiding. Any ideas?

BUDDY'S GIRL

DEAR GIRL: A 44-year-old "boy" who meets his girl on street corners has a lot of growing up to do. And so has the 37-year-old "girl" who meets him. Hide and seek is for children. Tell Bud either to present you to his mother as his fiancée, or find another playmate.

DEAR ABBY: I enjoy going to bridal showers. But not for a 44-year-old "bride" who has shed three husbands! I can't get out of going because of family obligations, but I feel certain that a woman who has been married off and on for 20 years doesn't need to be set up in housekeeping. I think showering a bride under these circumstances is in the worst possible taste. Who is to blame? The future sister-in-law who is putting on the shower? Or the bride who is permitting it?

"PICKLE FORK"

DEAR PICKLE-FORK: I'd say it's a joint venture. And between the two of them they hope to fill the joint with gifts.

DEAR ABBY: My children are just average, but they are good kids. I have no outstanding beauties among my daughters, and while they do have friends, none of them is wildly popular. My boys are average students, just fair in sports, but none of them ever made the team. A relative of mine has outstanding children. They are popular, good looking, and get lots of honors. And he doesn't let me forget it for a moment. What can I say when he collars me and brags on and on about his kids?

STUCK FOR WORDS

DEAR STUCK: Nothing. Just because a jackass brays doesn't mean you have to answer him.

DEAR ABBY: We are two girls, both 12, and we each have a different problem. One of us is overweight and the other one is flat. Every day one of us gets insulted about our looks. My girl friend has tried every diet in the book, and she can't lose a pound. And I would like to have a padded bra, but I'm afraid to ask my mother for one. Please don't tell us we have plenty of time to have good figures. We want them NOW. Answer soon as we are desperate.

FATTY AND FLATTY

DEAR F AND F: Reading a diet won't lose your friend an ounce unless she substitutes READING for EATING. And as for the bra: a twelve-year-old girl's figure is usually adequate for her age. However, if later on, you've clearly been cheated, "what Nature's forgotten, stuff with cotton."

DEAR ABBY: You advised my husband and me against buying a boat with another couple. If the other couple were relatives would your advice be the same?

WONDERING

DEAR WONDERING: With relatives, I'd have added "politely."

DEAR ABBY: I hope to marry a nice girl someday, one who doesn't drink or smoke, but while I'm still single, I prefer to date girls who do. Girls who drink and smoke are cheaper to date because they don't mind eating cheap food in a low-class diner. Take them to a cheap dive and give them some drinks and cigarettes and they are contented. Also girls who drink and smoke usually lack self respect, so they don't expect a fellow to respect them, and he can usually get away with anything he wants on the first date.

I am not a bum, I'm just an average guy, but so many people push the sweet, innocent-type girls, I thought someone should explain why so many men prefer the cheap kind. We don't want to MARRY them, just DATE them.

JOHN Q. PUBLIC

DEAR JOHN: Speak for yourself, John! The fellow who has dated nothing but willing women can have his choice of any tramp he's dated when selecting a wife. Men who do their shopping at a rummage sale are unlikely to find a jewel from Cartier.

DEAR ABBY: I'm 22 years old, which is over 21, right? So why don't people leave me alone? I get so much advice I could write your DEAR ABBY column for you. I happen to be very much in love with a married man.

Although they have no children, his wife refuses to give him a divorce because she's too lazy to work and he's a good meal ticket. Everyone tells me I'm wasting the best years of my life on him, but it's my life, and I'm satisfied with things as they are. He tells me that marriage is for the birds, that it takes all the romance out of a relationship, and from most of the marriages I've seen, I believe him. Why don't people just leave me alone? This man really sends me.

"SENT" IN SILVER SPRINGS

DEAR SENT: This man should send you all right—to a head shrinker. I don't know what your friend does for a living, but if he isn't selling, he should be. Eventually you'll get your wish and everyone will leave you alone. Including your married friend.

DEAR ABBY: Here is a suggestion for parents to help safeguard their daughters during their courting days. First, make a rule that your daughter cannot go out with a young man unless he comes to the house for you to meet.

When he shows up, the mother should entertain him while the father goes outside and takes down his license number and a good description of his car. Color, model, etc. During the evening, if the daughter has any trouble with him, she could say, "My father took down your license number and will call the police if I am not home at the time they specified." This is foolproof protection for any girl.

DAD

DEAR DAD: And what happens if Jack The Ripper shows up in a taxi?

DEAR ABBY: My doctor told me some months ago that I should have a little surgery. It's nothing serious and need not be done immediately, but he advised me not to put it off too long. I find myself postponing it for the silliest reason. Please don't laugh at me when I tell you why. I am afraid of what I might say while I'm under the anesthetic. The doctor belongs to our club and we have many mutual friends, and it could get very embarrassing if I talked too much. Can you help me?

AFRAID OF THE TRUTH

DEAR AFRAID: Go ahead and have the surgery and don't worry. Most doctors listen attentively to their patients' babbling during their conscious moments, but will happily tune them out when they're under. Besides, the chances are he'll be much too occupied at the time to recall what he hears.

She 'Brushes' Film Opening After Brush With Co-Star

By EARL WILSON

NEW YORK — Sophia Loren, expecting a baby in June, will skip the London Jan. 5 premiere of the Charles Chaplin-directed movie, "A Countess From Hong Kong," because she doesn't wish to risk running into her co-star Marlon Brando.

They didn't get along on the picture. When Brando was ill, he told a friend he was afraid "if I die, Sophie will show up at my funeral and get into all the photographs."

Sophia's husband, Carlo Ponti, acknowledged the pregnancy at a premiere of his film, "The Blow-Up." With a smile, he said, "Yes, finally... now Sophia must rest."

Quite an individualist, Ponti left an after-premiere supper at the Plaza after noticing beef Stroganoff and spaghetti were served. He left a message: "I'm going around the corner to get something to eat."

"It's getting very chic to give President Johnson a kick," said his ex-adviser Jack Valenti, now Movie Czar, at a tribute to Louis Nizer at the Hilton.

"I miss him and miss being with him. I'd like to be with him when everybody's kicking at him," Valenti went on. "I am confident that he will run again for the Presidency—and will win. But his real greatness will not be recorded until after he's gone."

Harry Hershfield tells it: Sam Schwartz went to an analyst who said, "What can I do for you?" Sam Schwartz replied, "What can I do for you?" Sam Schwartz said, "I have my army ready, we're going to attack France — again! I have you can do nothing for me. It's my wife, Josephine. She keeps telling people her name is Mrs. Schwartz."

THE MIDNIGHT EARL

Marlon Brando's having health flow from Rome (where he's filming "Reflections in a Golden Eye") to the French Riviera (of "Grand Prix") cut short a stay at Grossingers—her boyfriend arrived from Paris... Sidney Poitier and Diana Carroll once very romantic, were at the Village Gate—with different parties.

Lionel Bart, writing the "Oliver" film, wants Barbara Streisand to play Nancy... Interviewers are amused by some of Steve McQueen's midwest expressions, such as "Today's kids don't know their elbow from apple butter!"

TODAY'S BEST LAUGH: A young girl described her very strict upbringing: "My parents would let me go to a drive-in theater only in the daytime."

WISH I'D SAID THAT: The reason so many college freshmen are required to take English courses (explains Jim Kelly) is to teach them a language other than their own.

EARL'S PEARLS: With the football season over, the week-end sports buff becomes just another lush again.
Bob Orben reports he'll spend a typical American Christmas: "My tree comes from Canada. The ornaments come from Hong Kong. The lights come from Japan. The idea comes from Bethlehem." That's carol, brother.

Rights Group Calls for Help

DETROIT (AP) — The State Civil Rights Commission, faced with a growing backlog of cases, issued an appeal for help Wednesday.

The commission, with 700 unresolved cases on file, said it has asked for an increase in its budget to provide for extra personnel to help handle the backlog.

The Michigan Constitution gives the commission authority to act against discrimination on the basis of race, religion, color or national origin.

Interested persons may apply to the commission's Detroit office for applications for Civil Service examinations. Deadline Jan. 10.

Cuban Mother of 16 Arrives on Airlift

MIAMI, Fla. (AP) — A mother of 16 has arrived by refugee airlift from Cuba, accompanied by seven of her children, aged from 13. She said four are prisoners in Cuba, and the others live in New York.

"May God care for my children in the prisons. I have saved the others from the Communist inferno," said the mother, Ercilia Tamayo De Mosquera, a 50-year-old peasant from the Guantanamo area.

Her husband, Abraham, said, works at the U.S. Naval Base at Guantanamo and cannot leave for fear of arrest by Cuban authorities.

ADRIAN (AP) — Employees at Harvey Atkinson Co.-selected 273-10 representation by the U.S. Steelworkers union in an election conducted by the National Labor Relations Board Wednesday. Two years ago, workers at Harvey turned down representation by the United Auto Workers union. The firm makes aluminum parts for the building industry.

Union Rejected

DETROIT (AP) — A state health official said Wednesday 68 positive cases of scarlet fever have been confirmed in this Westford County community.

Dr. George Agate made the announcement in Lansing.

Dr. Georgia Mills, director of health for Westford, Crawford, Misaukee and Kalkaska counties, warned parents to keep children coming down with a sore throat and fever away from public meetings and large groups.

Earlier Wednesday, a scarlet fever outbreak at Warren, a Detroit suburb, was reported under control by Macomb County health officials.

ALL SMILES—Things have changed for Sam Romano since he left Communist Cuba five years ago and his expression shows it. He'll complete his work at Oakland Community College this week, then continue toward a business administration and business law degree at the University of Michigan, Dearborn Campus.

Dream of Ex-Cuban Step Nearer Reality

Samuel Romano wants to own a business — "a big business," in his words.

Not an unusual goal for a young man in this country, but for Sam, as his friends and instructors know him, the gap between dream and reality has been a wide one. It's a long way from Castro's Cuba to private enterprise.

Sam, now 21, fled Cuba five years ago, along with his brother, David, 22. First his grandparents, then his mother and stepfather, Mr. and Mrs. Guillermo Hernandez, followed some months later.

An "A" average student, his studies at Oakland Community College (Auburn Hills Campus) will be completed this week, just 18 months after enrolling in what is normally a two-year curriculum.

He will then continue toward a degree in business administration and business law at the University of Michigan, Dearborn Campus, either on scholarship or by working his way through.

WOULD HELP

A scholarship would help, allowing him to attend semester by semester rather than alternating full-time work with full-time schooling.

If no scholarship is forthcoming, he'll just have to keep plugging away."

This is nothing new for Sam.

"I've had a lot of different jobs," he said, "from factories and grocery stores to a junk yard."

TOOK DETERMINATION

It took determination simply to get out of Cuba.

His parents, no Castroites to begin with, became more and more convinced that Cuba

Shutdown Near for Accelerator

WASHINGTON — At midnight Friday a switch will be pulled to halt, after 15 years, operation of Brookhaven National Laboratory's Cosmotron, once the most powerful accelerator in the world.

Hopefully, the shutdown will be temporary, not permanent, because scientists have found that the Cosmotron may be used to probe nuclear structure with a precision not available with other machines.

When the Atomic Energy Commission announces its decision to stop operating the Cosmotron three years ago, no protests were heard.

Now there is much unhappiness among the scientific community that this facility will no longer be available for experiments by chemists and physicists, who did not have a chance to use the precision accelerator until the 30-billion-electron-volt machine known as the Alternate Gradient Synchrotron became available for experiments in high-energy physics.

was no place for their sons to plan a future. At first, Sam merely took their word for it.

"I was only a kid then," he said, "and my parents made the decisions for me. Later, I began to dislike the regimentation and government influence."

While authorities spent three years holding up passport papers on a variety of minute details, Sam completed his secondary education, roughly equivalent to a junior high school diploma under the Cuban system.

PERSONAL REASON

He was then given a personal reason to emigrate.

"Under Castro's plan to educate the underprivileged peasants, young boys, including myself, were ordered to become teachers."

He refused to comply and resultant pressures made leaving the country more desirable.

At this time, HIAS, a Jewish organization, intervened and arranged for Sam and David to leave Cuba via Jamaica.

FOSTER HOME

The brothers lived in a foster home in Maywood, Ill., until their grandparents arrived.

Foremost in Sam's mind was the need to learn the English language, so he could continue his education and "learn more about America."

His previous knowledge of this country was limited.

"All I had to go by was schoolwork, various publications and American movies. Like other immigrants, I expected to find gold in the streets."

NO ACCENT

He did learn the language and now speaks with no accent. Thus, he was able to advance his education and learn where the "gold" really lies.

"Here," he said, "are all the opportunities I could imagine. I'm going to take advantage of them."

When his parents arrived, the family moved to Oak Park and Sam graduated from high school there.

Since starting at OCC, he has worked an average of 15 hours a week as an assistant in the language lab.

STUDENT LOAN

It hasn't been a one-man show, though. The government has helped in the form of the Cuban Student Loan and other aid has been offered.

But it's not easy for Sam or his family to accept help.

"Maybe it's just Latin pride," he said, "but I don't like accepting charity. I'll make it on my own."

Would he like to someday channel this determination into trying life in Cuba again? "No young man who left Cuba under the same circumstances as I did would ever want to go back."

"My future is here," he said.

An estimated 8,500,000 Americans play tennis.

FCC Okay of ITT-ABC Union Starts Expansion

WASHINGTON (AP) — Federal Communications Commission approval of the merger of American Broadcasting Co. into International Telephone & Telegraph Co. signals the start of a \$140-million expansion campaign for ABC, with heavy emphasis on local television.

The 4-3 approval was voted only 16 hours after the Justice Department said anticompetitive consequences could result from the merger. The department said, however, it would not now bring antitrust action.

Assistant Atty. Gen. Donald F. Turner, who signed the Justice Department's findings, said the department would comment on the approval today after studying FCC opinions.

Asked if the timing of the decision surprised him, Turner said, "You ordinarily expect a little more delay than that."

WANTS INVESTIGATION

Sen. Wayne Morse, D-Ore., who had criticized the merger plans, said he would ask the Senate Small Business Committee to investigate the merger

because of what he called ITT's dependence "upon foreign government contracts for most of its business."

The approval sent ABC stock on the New York Stock Exchange soaring 4 1/2 points to a close of \$85. Trading had been held up most of the day because of the pending decision. Two weeks ago the stock was selling at 73 1/2.

which will be formed as a part of ITT.

The merger, announced publicly Dec. 8, 1965, involves a stock transaction of between \$350 million and \$400 million and creates a concern that ranks 20th among the nation's corporations, with assets exceeding \$2 billion.

Big Families Are Rapped in India

NEW DELHI (AP) — A member of India's ruling Congress party has said that any Congressman with more than four children should be denied a ticket in the 1967 national elections.

Dr. Sripati Chandrasekhar, a member of Parliament, told the Upper House that family planning was vital in India. He said anyone who had married since 1960 and already had three children should be branded "traitors."

Stockholders have already approved the merger. Sources said the final steps of the merger should be wrapped up in about 30 days. Top ABC personnel go into the new organization with long-term contracts, it was said.

The \$140 million or more capital investment plan was brought out during two days of FCC hearings on the merger. ABC was in position to borrow only \$6 million, but ITT was shown to have \$170 million in bank credit and cash on hand, said Wednesday's decision.

Osteopath Effort 'Rival for Funds'

Pontiac's projected osteopathic college was characterized yesterday as a financial rival to expansion of Michigan State University's medical curriculum to a four-year college.

The eight-member State Board of Education, meeting for the last time this year, tied 4-4 on the question of adopting recommendations of the Citizens' Committee on Education for Health Care.

Mental Health Dispute Aired

Officials, meeting in a closed session yesterday on differences over mental health jurisdiction in Oakland County, said the problem was not resolved but indicated that an avenue to an agreement was uncovered.

Meeting in a four-hour session at Kingsley Inn where officials of Pontiac State Hospital, the County Community Mental Health Services Board, the State Department of Mental Health, a representative of Gov. Romney and a consultant for the National Institute of Mental Health.

The discussion issue was the lingering question of whether the board should sign an agreement to surrender to the hospital its community mental health responsibility for one-fifth of the county.

Release of an already-approved \$250,000 grant to the hospital hinges on the board and hospital reaching an agreement. Board chairman Paul N. Averill said today that the closed session was fruitful in that it brought feelings into the open.

Averill and Dr. Robert E. Walden, psychiatrist director for the board, speculated that an agreement may be reached at the board's Jan. 20 meeting of modifications if the present proposal are adopted.

They indicated that the board would sign the agreement turning jurisdiction of 14 townships over to the hospital if the board was given the opportunity to provide some services to this area.

Truck, Sand Crush Vehicle Carrying 31

13 Children Injured in Accident at Site Southeast of Windsor

WINDSOR, Ont. (AP) — "The kids were yelling their heads off. It was pitiful. I hope I never see anything like it again."

Gerald Gemus, 31, of Oldcastle, Ont., recalled with a shudder the tragic scene when a tractor-trailer truck crushed a school bus with 30 children aboard under tons of sand yesterday near Windsor.

Eight grade school children were killed. Most of them lived in the Oldcastle area and were on their way home from the Frith School in Maidstone, with one day of school left before Christmas holidays.

Thirteen children were injured when the 10 tons of smothering wet sand cascaded over the bus as the trailer flipped over.

Gemus said he arrived at the scene — an intersection a few miles southeast of Windsor — just after the accident occurred.

Children trapped inside the bus were screaming. Some were pinned under broken seats, others trapped by twisted metal or buried under the suffocating sand.

For nearly two hours, Gemus and others — policemen, firemen, doctors, ambulance drivers and passers-by — tore apart the wreckage with crowbars, acetylene torches and their bare hands.

"We were afraid to use shovels at first, because we might injure some of the kids we couldn't see under the sand," Gemus said.

The massive tractor-trailer rig was turning the corner when it scraped the bus, which had just discharged two children and was waiting at the traffic signal.

Provincial police identified the truck driver as Marcel LeFrancois of Stoney Point, Ont., who was being detained pending results of an investigation. He was not hurt.

SCENE OF TRAGEDY — This is the scene near Windsor, Ont., yesterday after a trailer-truck overturned and crushed a school bus under tons of sand, killing eight schoolchildren. Thirty children

were on their way home from Frith School in Maidstone when the crack-up occurred. Many were trapped by the flattened roof and sand.

Says Planning Study

County's Population to Soar

Oakland County's population will soar to 1,569,000 by the year 1990, according to a population study released today by George N. Skrubbs, director of the County Planning Commission.

The 400-page report prepared by Dr. Albert J. Mayer, sociology professor at Wayne State University, was termed by Skrubbs as the most comprehensive such report ever compiled for a Detroit metropolitan community.

It will serve as the basis for the planning commission's county master plan scheduled for completion in three years.

Oakland County's last census population was 680,259 in 1960. It is approximately 850,000 now, according to county officials.

Mayer's projection is that the population will reach 942,000 in 1970 and go to 1,230,000 in 1980. Just 66 years ago the county population was only 44,792. The largest percentage increase in a

decade since 1900 was a 134.6 climb between 1920 and 1930 when the population went from 90,660 to 211,251.

Percentage increases in population between 1960 and 1970 are projected by Mayer at 35.5, with a boost of 30.6 per cent between 1970 and 1980

and 27.6 per cent between 1980 and 1990.

The report also indicates a minimum population possibility in 1990 of 1,183,000 based on the unlikely possibility that further migration from the City of Detroit would cease.

A moderate amount of out-migration from Detroit is the basis for the higher figure which Mayer said he assumes will be the case.

ACTUAL CITY

Mayer points out that Oakland County by 1990 will contain enough people living at a sufficient level of density to be considered a very large city in a sociological sense.

He adds that the county will then be no collection of bedroom suburbs and will be powerfully competing with the City of Detroit for dominance of the metropolitan area.

The report also divides the population projections into meaningful age categories.

The youngest group, those under 15, will increase from about a quarter of a million children in 1960 to half a million in 1990.

Mayer says that this will result in a need to double all child-centered facilities, such as

(Continued on Page 2, Col. 1)

Search Begun for Spacecraft

Lost in Pacific After California Launching

VANDENBERG AIR FORCE BASE, Calif. (AP) — The Air Force searched the Pacific near Eniwetok atoll today for a missing experimental spacecraft, lost at sea after a successful launch from this missile base.

The Air Force says the dart-like craft, about 6 feet long and weighing less than 900 pounds, is the prototype of spacecraft designed to commute between earth and orbiting spacecraft or to rescue astronauts stranded in orbit.

It was boosted into the atmosphere by an Atlas missile, an Air Force spokesman said, but was "not immediately recovered" after impact.

The spokesman said that preliminary telemetry indicates it reentered in the planned area. "But, this being so, the spokesman declined to speculate why the craft wasn't found or what might have happened to it. He also declined to disclose the extent of the search under way.

The spacecraft is made of aluminum and looks like a flatiron with fins. It is coated with a honeycomb substance to keep it from burning up upon reentry.

Winter's Here, Tossing Snow

Ol' Man Winter arrived early this morning in a flurry of snowflakes for a three-month visit. Officially he was here at 2:29 a.m.

The weatherman predicts mostly cloudy and colder with occasional snow flurries tonight and tomorrow. Temperatures will toboggan to a low of 16 to 24 tonight and slide up to a high near 32 tomorrow.

A chance of snow flurries and cold is the outlook for Saturday.

Morning northwest to north winds will continue at 8 to 16 miles per hour.

Twenty-seven was the low reading in downtown Pontiac preceding 8 a.m. The 1 p.m. recording was 25.

Jesus Dares the System in Temple Revolt

(EDITOR'S NOTE — Fourth article in five-part series.)

By GEORGE W. CORNELL
AP Religion Writer

The scene churned with commerce. It had become the nation's biggest profit-making establishment, so much so that the Roman overlords would continue it even after they razed the Jerusalem Temple and replaced it with a shrine to the pagan god Jupiter.

On frequent pilgrimages there, Jesus had watched in dismay the growing economic desecration of the great sanctuary, the bartering, the animal pens, coin exchanges, the collection of head taxes from every male citizen over 19.

Today, He would not take it any longer without challenging it.

He upset the entrenched order. He dared the system. He broke traditional laws. He disturbed the dominant classes. He was a rebel. And He was not afraid.

At the Temple court, Jesus looked over the gross teeming traffic, the posted sentries, the clanging utensils of wine sellers — the constant toll on the poor that upheld the whole oppressive system.

Under the military occupation, imperial Rome and the subservient Sadducean regime

Bob Hope Show Goes On for Embattled Viet GIs

(EDITOR'S NOTE — This is the fourth in a 12-part series.)

BY BOB HOPE
PLEIKU, South Vietnam (SPECIAL) — It's pretty hot here today — and I don't mean just the weather. . . . one of the reasons is that there is always a chance that the guys lying those "Huey" security copters overhead during our shows might get too fascinated by Joey Heather-ton's dance number.

And frankly, I hate doing HOPE a monologue when my idiot cards have bullet holes in them. I'll be going on stage in a few minutes, and I'm vibrating a little bit — no, not from fear — but from plain, simple emotion: I guess I've seen it a thousand times, but I'll never get over the sight of those GIs etched against the mountains.

Young, tough, hardened fighting men — some of them just back from bitter battle — yet waiting eagerly, like kids, in the murderous heat for the touch of home and Christmas spirit we're here to bring them.

What a fantastic audience, not a critic among them. After seeing them — to hell with politics, I'm going to stay an actor. . . .

They told me those guys began arriving at the show site around 8:00 a.m., and it's now well after noon. But you'd never know it from their applause. As

Hare Calls Insurance Hike Blow to Low-Income Drivers

LANSING (AP)—Secretary of State James Hare predicted Wednesday that claims against the Motor Vehicle Accident Claims Fund would rise as a result of an auto insurance rate boost by 186 companies.

Huge Growth Due County Population

(Continued From Page One)

elementary schools, in capacity over the next 25 years.

An even greater percentage increase in the 15 to 24 age group is projected by 1990 and a threefold increase in the number of persons over 65 is anticipated, rising from 37,642 in 1960 to 113,570 by 1990.

The study makes no prediction of the racial proportion of the county population by 1990, but indicates an increase in the Negro population due to an expected decrease or vanishing of housing discrimination and segregation.

Changes in the occupational distribution of the county's population in the future will be determined mainly in increases in the professional occupational category, the report states.

No One to Mourn GI Killed in Battle

SAN FRANCISCO (UPI)—A metal coffin containing the body of Sgt. Richard F. Campos, 26, lies at the Oakland Army Terminal with no relatives to claim it.

The infantryman was cut down by Vietcong gunfire during a combat patrol in South Vietnam.

When word of his death reached Washington, D. C., Defense Department officials began the usual procedure of searching for the next of kin. They found none.

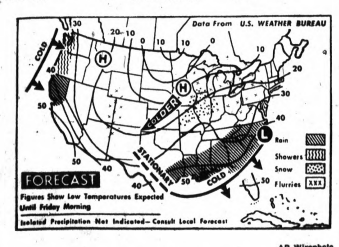

Trial Is Ordered

WINDSOR, Ont. (AP)—Daniel Savely, 28, of Windsor, was ordered to stand trial Wednesday in the alleged Nov. 24 abduction of Ian Berks, 17, son of a Windsor physician. No trial date was set. Savely is accused of picking up Berks as the youth was hitchhiking and holding him captive at a nearby cottage, then phoning Berks' father, Dr. Gerald Berks, and allegedly asking for ransom. Young Berks escaped during the night, police said.

NATIONAL WEATHER — Snow and snow flurries are forecast for the Great Lakes area, Ohio Valley and southern Rockies tonight. Rain is predicted for the north Pacific states and the Gulf Coast region. It will be warmer in portions of the northern plateau region and Florida.

Jesus Rebels at the Temple

(Continued From Page One)

extracted combined revenues amounting to almost 40 per cent of Israel's produce.

Each spring, from Adar 25 to Nisan 1, the money boys were set up in the open Court of the Gentiles, the only place where foreigners could worship.

There, the Roman coinage was converted to Tyrian shekels and half-shekels in which the poll tax had to be paid.

Jesus, realizing the grinding drain on the impoverished masses and the exploitation of the devout, was struck by the profaning of the Temple into an economic appendage, the noise and reek of sheep and fowls, and the barring of strangers from inner prayer chambers. His conscience flamed in protest.

Bob Hope Show Arrives in Vietnam

(Continued From Page One)

EYES CHIEF — Dr. Harold A. Furlong, outgoing chief of the department of obstetrics and gynecology at Pontiac General Hospital, turns his just-presented camera on Dr. Robert L. Segula of 2755 Ayreshire, Bloomfield Hills, his replacement. Members of the department presented Dr. Furlong with the new camera yesterday.

Hospital Obstetrics Chief Retires After 15 Years

Another chapter in the long book of Dr. Harold A. Furlong has been completed.

Ending more than a decade of service, the 71-year-old Dr. Furlong stepped down earlier this week as chief of department of obstetrics and gynecology at Pontiac General Hospital.

At a breakfast meeting yesterday, Dr. Furlong of 2260 E. Hammond Lake, Bloomfield Township, retired from a post he has held for the past 15 years.

Dr. Robert L. Segula succeeds Dr. Furlong, who estimated he has delivered 4,500 to 5,000 babies.

Dr. Furlong intends to retain his private practice.

MEDAL OF HONOR — A Congressional Medal of Honor winner from World War I, Dr. Furlong served in both world wars. He started medical practice in 1929.

He is past president of the Oakland County Medical Society and the Michigan Society of Obstetrics and Gynecology. He is a delegate to the Michigan State Medical Society and an alternate delegate to the American Medical Association.

Breakthrough on Locating N-Blasts Told

WASHINGTON (AP) — Pentagon officials report the United States has significantly increased its ability to identify and locate underground nuclear test blasts inside the Soviet Union and is considering setting up a worldwide network of seismicographic stations.

Officials, revealing this Wednesday, said the increased U.S. capabilities amount to a breakthrough. Government scientists told Congress during hearings three years ago they had been stymied by the location and identification problems since 1961.

Defense Department officials agreed in interviews that the new U.S. information would have the effect of limiting or preventing large-scale cheating by the Soviets in case an underground test-ban treaty is signed. But they disagreed when asked what effect the developments would have on any East-West negotiations.

Some officials indicated that the findings could lead the United States to modify its demand for on-site inspection and renew its negotiations with the Soviets on a test-ban treaty.

2 Area Safes Yield \$1,200

Some \$1,200 in cash was reported missing after safe robberies yesterday and early today at a Pontiac business firm and a Commerce Township school.

About \$600 was reported stolen sometime this morning from the Banner Linn Co., 306 N. Cass, by burglars who drilled a hole in the back of the safe, according to city police.

A small safe, containing an estimated total of more than \$800, was removed from a wall in junior in the Clifford S. Mart Junior High School office early yesterday, it was reported to Oakland County sheriff's deputies.

A sled was used to transport the loot across the playground, according to deputies.

Subscription Sales Climb

Theatre's Year Assured

The success for the first year of the John Fernald Company of the Meadow Brook Theatre appears to be assured by advance subscription sales which have climbed steadily to more than 4,000 season tickets.

Mr. and Mrs. Harry N. Wieting, general ticket chairman for the theatre committee, recently announced the season ticket milestone along with a reminder that those planning to attend should get their subscriptions in now.

If ticket sales continue at their present rate, it is expected that 5,500 will be sold by the time of the Jan. 4 opening. The season of five plays, each running for four weeks, will open with a production of "The Caucasian Chalk Circle" by Bertolt Brecht.

Arrangements are being made to provide players a full evening of entertainment at Oakland University for the premiere season of The John Fernald Company, Michigan's only resident professional theatre group.

CONVENIENT

The "package" will include ample and free parking convenient to the theatre in Magdala R. Wilson Hall, a chance to dine in the nearby faculty dining room and a free exhibition of contemporary art in the University's new Art Gallery.

The gallery, directly across the hall from the theatre, will be open before the plays and during the intermission.

Season tickets for the five plays run \$20, \$15 and \$10 for evening performances on Wednesday through Sunday

and \$15, \$10 and \$6 for Saturday matinees.

Gift certificates also are available for both season tickets and individual performances. For ticket orders and information, call the Meadow Brook Theatre box office.

For those wishing to make a full evening of it, the University plans to convert its faculty dining room in the nearby Oakland Center into a cozy restaurant for dining by candlelight.

A buffet of meat and salad dishes will be available at a cost of \$2.75 per person from 6:30 to 8 p.m. on Wednesday through Saturday, when the plays will begin at 8:30, and from 4:30 to 6 p.m. on Sunday, when the plays will begin at 6:30.

Because of limited facilities, advance reservations must be made by calling OU.

Supper to Honor

The Earl E. Morrises of Far Hill Drive will be hosts at a buffet supper this evening honoring Mr. and Mrs. James VanHook of Portola Valley, Calif. (formerly of Birmingham) who are visiting in the area.

GE Weakness Continues

Stock Market Rally Rolls On

NEW YORK (AP)—The stock market rallied on early today. Trading was fairly active.

Key stocks went up fractions to a point or better on a fairly broad base although there was a good representation of losers.

General Electric was unable to overcome the weakness which has sent it down every day this week following a forecast of lower earnings. GE was off around a point.

Du Pont, Union Carbide and Ford spun.

Air Reduction climbed nearly 3 points in further response to its raised dividend and proposed stock split.

American Broadcasting rose 1 to 86 on 6,000 shares in late trading of strength. Late Wednesday the Federal Communications Commission gave a green light to merger of ABC with International Telephone. IT&T common stock was unchanged.

Rails and airlines posted a string of fractional gains.

Singer Co. dipped 1/4 to 44 1/2 on 50,000 shares.

OPENING BLOCKS
Opening blocks included:

Standard Oil (New Jersey), up 1/4 at 62 1/2 on 5,000 shares; General Motors, off 1/4 at 68 on 4,000; and American Telephone, unchanged at 54 on 7,000.

On Wednesday, the Associated Press average of 60 stocks rose 1.6 to 294.7.

Prices were irregularly higher on the American Stock exchange. Fractional gains were made by Barnes Engineering, Giannini Controls, General Plywood and Aerojet-General.

Molybdenum lost about a point. Pyle National a fraction.

Probe to Hear Ship Survivor

Another Lawsuit Filed in Morrell Disaster

CLEVELAND, Ohio (AP)—Dennis Hale, sole survivor of the war carrier Daniel J. Morrell, will testify Friday from a hospital bed about the sinking of the ship.

Meanwhile, another in a series of lawsuits was filed against the owners of the Morrell. The \$150,000 suit was filed in Buffalo, N.Y., by the mother of a sailor who died in the sinking.

Twenty-eight crewmen died when the Morrell went down Nov. 29.

Hale, 25, of Ashtabula, Ohio, is convalescing at Ashtabula General Hospital. The Coast Guard Board of Inquiry will there today hear his testimony.

EX-THIRD MATE
Thomas Burns, 51, a former third mate on the Morrell, told the five-man board Wednesday that he was in good condition when he left it in August.

The Morrell took a little water through her hull but "that's common with all the lakers," Burns said.

Burns said he also sailed on the Morrell in 1965 when he worked for Bethlehem Steel Corp., operator of the Morrell, for two seasons.

Burns told the board the company decides if a ship is to sail and he has no say in the matter.

He said the Morrell's captain, Arthur I. Crawley, had a "good reputation."

LEGAL ACTION
The new legal action was started Wednesday in U.S. District Court at Buffalo by Mrs. Catherine Witkowski of nearby Buffalo.

Burns told the board the company decides if a ship is to sail and he has no say in the matter.

He said the Morrell's captain, Arthur I. Crawley, had a "good reputation."

By JOHN CUNIFF
AP Business News Analyst

NEW YORK — A company wishing to withdraw its stock from trading on a major stock exchange may find the delisting requirements tougher than the listing standards.

The various exchanges frequently exempt delisting companies that do not meet their standards, CUNIFF generally believes the company has a very poor earnings record, is too closely held or because its shares are too inactive.

For a company to seek delisting is rare. Even more rare is the accomplishment of the wish.

When Rockwell-Standard Corp. was reported this week as considering the idea of leaving the New York Stock Exchange for the over-the-counter market, researchers at the big board went through records for pre-their delistings.

They found that the most recent voluntary withdrawal was in 1958, when Dunham Securities decided it could better promote its Canadian activity by delisting.

For a listed company to leave the "top" to "take the House" is rare.

Rockwell-Standard Corp. was reported this week as considering the idea of leaving the New York Stock Exchange for the over-the-counter market, researchers at the big board went through records for pre-their delistings.

Judge Orders Steelworkers Back to Jobs

WASHINGTON (AP) — A federal judge has ordered 1,800 striking steelworkers back to work at a Kokomo, Ind., factory vital to manufacture of warplanes for Vietnam.

But U.S. District Judge Leonard P. Ward said the union must give the union time to appeal to higher court.

Thus, whether the strikers must return to work for 80 days under the provisions of the Taft-Hartley Act is up to the U.S. Court of Appeals. If the order is upheld the strikers must go back to work while bargaining is resumed. They have closed the factory of Union Carbide Corp. since Sept. 30. It is the nation's source of a vital metal alloy.

A presidential board of inquiry, appointed Monday, found that the primary issue in the strike is a union desire for coordinated bargaining by three unions — the United Steelworkers of America, Oil, Chemical & Atomic Workers, and International Brotherhood of Teamsters — at 11 company plants.
