

MARCINKOWSKI ATTACKS Versus the Facts

Marcinkowski Attack: ***Health Savings Accounts don't work and are only good for the wealthy.***

The Facts:

Health Savings Accounts:

- HSA eligible plans now cover at least 3 million individuals
- 37% of individual HSA policies were purchased by previously uninsured
- 27% of small employers HSA-eligible plans did not previously offer coverage to their employees
- HSA plans were found to reduce prescription drug spending by almost 30%
- HSA Premiums averaged \$7,400 for families compared to almost \$10,000 for employer-sponsored policies
