## 5,000 Workers Veto Wage Cut at Studebaker

Economy Move Voted Down Despite Union's Support of Proposal

SOUTH BEND, Ind. (AP)—Some 5,000 workers at Studebaker Corp. last night turned down a 15 per cent pay cut which International CIO United Auto Workers officials urged them to take to protect their jobs.

With only half of the firm's workers voting, a 3 to 2 margin was given against taking the decrease in a show-of-hands vote which followed a heated 2½-hour meeting.

Paul G. Hoffman, Studebaker's board chairman, previously announced salaries of top executives had been cut 20 to 30 per cent in what he called a multi-million-dollar economy drive which started last April.

He added that 12 per cent of Studebaker's executive personnel had been cut since the drive started and that the program has saved about 10 million dollars on an annual basis.

Addressing the workers at the meeting were Louis J. Horvath, president of Studebaker Local 5, and other international officials.

Most of Studebaker's departments have only been operating four days every fortnight since early this year. Employment has been cut in half.

"Most of the workers just couldn't seem to accept a pay reduction after averaging only \$35 a week for the last six months," said Horvath.

The company made no comment after the union action.

Average wages at Studebaker are estimated at \$2.37 an hour compared with \$2.07 for Ford, General Motors, and Chrysler.

Hoffman said that had the union accepted the 15 per cent cut, it would have dropped labor costs of a \$2,000 automobile by \$300 to \$75.

## Socialite Slain

MRS. PATRICIA OBERHAUS  
Socially prominent Mrs. Patricia Oberhaus was slain in Menlo Park, Calif., Thursday while her two sons looked on. A few minutes later police arrested Mrs. Doris Gloss, still holding a pistol in her hand. Police Inspector William Kiser said Mrs. Gloss admitted the shooting but could give no motive. ## McCarthy Probe May Be Public

New Senate Committee Believes in Open Talks but Wants 'No Show'

WASHINGTON (AP)—Senators picked to handle a new investigation into the conduct of Sen. McCarthy (R-Wis.) indicated today a general belief their hearings should be open to the public, but with some restraints to avoid a "vaudeville show" atmosphere.

In advance of a planned second meeting to discuss plans, most of the six members of the special committee said for the record or in private talks they did not want a repetition of the televised McCarthy-Army hearings.

The subcommittee which conducted those 36 days of stormy sessions planned a meeting of its own today to seek agreement on machinery for writing a report.

The six senators drafted to make the new study of McCarthy's behavior, including his controversial Red-hunting methods, were named yesterday by Vice President Nixon. Members had been recommended by the Republican and Democratic Policy Committees of the Senate.

The special committee was created Monday night by a Senate resolution instructing it "to act and to make a report" on a move to censure McCarthy made by Sen. Flanders (R-Vt.) and on 46 accusations, some of them overlapping, aimed at the Wisconsin senator by Flanders and Sens. Fulbright (D-Ark.) and Morse (Ind-Ore.).

The committee includes Sens. Watkins (Utah), Case (SD) and Carlson (Kan.), all Republicans, and Edwin C. Johnson (Colo.), Stennis (Miss.) and Ervin (NC), Democrats.

## LA Police Guard Rhee Against Demonstration

LOS ANGELES (AP)—Police protection was ordered today for Korean President Syngman Rhee after officials heard rumors Communists might try to stage a demonstration.

Chief of Police William H. Parker assigned detectives and uniformed officers to guard Rhee and his party, who arrived last night by plane.

## 2,000 Homeless in Fire

MANILA (AP)—A five-hour fire early today destroyed the trading district of Ialagan, capital of Isabela Province, causing damage estimated at \$1,500,000 and leaving 2,000 homeless, Philippine News Service reported.

EAST LANSING — Twenty-five hundred Michigan farmers gave Secretary of Agriculture Ezra Taft Benson a resounding ovation Thursday when he declared that a flexible support program will produce a "better balance across the board."

Speaking at the Artificial Breeders Cooperative meeting here Benson said that the national farmer's foremost problem is "promotion of his product" rather than government support.

"We have been given a large appropriation this year," said Benson, "to conduct marketing research. We must find a way to increase the consumption of farm products and when we do, this will take care of the surplus."

## Kefauver Keeps Senate Position; Jenkins Elected

Solon Still Presidential Possibility; Governor Is Assured of Victory

NASHVILLE, Tenn. (AP)—Sen. Estes Kefauver kept his position as a presidential possibility yesterday as he and Gov. Frank Clement won assured re-election by crushing majorities in Tennessee's Democratic primary.

The winner of the Republican senatorial primary was Ray H. Jenkins, the Army-McCarthy hearing special counsel who didn't seek the nomination and said he wouldn't run if he got it.

The figures from 2,084 of the state's 2,591 precincts tell the Democratic primary story:

Senate: Kefauver 326,424; Rep. Pat Sutton 137,398.

Governor: Clement 368,917; former Gov. Gordon Browning 151,824.

Kefauver, who won most of the Democratic primaries and lost in the convention in the 1952 presidential derby, said yesterday's victory over Sutton was a triumph of isolationism.

Sutton, who conducted a fast-paced helicopter campaign between marathon radio-television broadcasts, conceded shortly before midnight, saying he held "no ill will or malice."

Memphis political boss E. H. Crump, who sustained his first big political defeat in 1948 when Kefauver first was elected to the Senate, maintained a neutral stand in the Senate race this year, although Sutton said Crump had agreed to pass a quiet word in his behalf.

In the governor's race, however, Crump pulled out all the stops in Shelby County on Clement's behalf during the last few days of the campaign.

Nevertheless, it was a smashing personal success for Clement, who is the nation's youngest governor at the age of 34. His victory margin in the race for the state's first four-year term was impressive without the top-sided Shelby County count.

A third candidate, Judge Raulston Schofield, drew more than 20,000 votes with a pro-segregation campaign.

In the GOP primary, limited mostly to eastern Tennessee, the

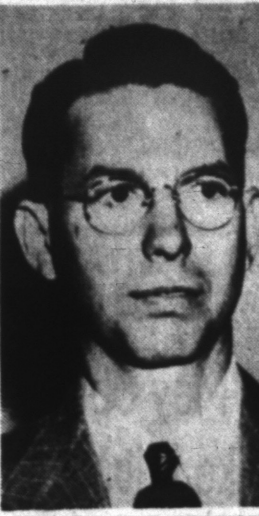

## National Guardsmen Will Cross County

warned to be on the lookout for convoys of Michigan National Guardsmen which will head for Camp Grayling tomorrow at about 5 a.m.

Michigan State Police, Oakland County sheriff's deputies and Pontiac Police will station squad cars at strategic intersections around the city to relieve any traffic congestion that might arise.

State Police said the convoys will be using Woodward avenue, Telegraph road, Dixie highway and M15 as they thread their way toward the northern part of the state. Police said the convoys are expected to be on Oakland County roads about two hours.

## Battle Typhoid

DR. ALBERT E. HEUSTICE

DR. G. D. CUMMINGS

Success in developing a drug which they say will cure typhoid fever has been announced by Dr. Albert E. Heustice, Michigan state health commissioner and Dr. G. D. Cummings, Dr. Heustice said the drug, developed in state health laboratories under Dr. Cummings' direction, is the first known cure for the disease. Dr. Cummings is in Mexico where the drug is under test on humans.

## Hart's Daughter Polio Patient

In Clinic at Petoskey; Four Brothers Confined to Summer Home

PETOSKEY (AP)—Seven-year-old Ann Clyde Hart, daughter of Philip A. Hart, the Democratic candidate for lieutenant governor, today was diagnosed as having polio.

Dr. Robert Power of the Burns Clinic in Petoskey, said the girl contracted polio and that her four brothers were immediately confined to the Hart summer residence on Mackinac Island.

The youngster was rushed to the clinic last night when she became ill. She is under the care of Dr. Thomas Kirk, a polio specialist, and has received gamma globulin injections.

## Inter-American Indians Favor Women Suffrage

LA PAZ, Bolivia (AP)—The Inter-American Indian Congress approved a Bolivian proposal last night recommending that all member states grant suffrage to women and illiterates. The United States and three other nations abstained.

Bolivia's leftist government granted universal adult suffrage two years ago to its largely illiterate population. All Bolivians 20 years old or over are entitled to vote.

## Distillery Blaze Causes Damage Over \$7 Million

Pekin, Illinois Plant to Resume Operation on Full Scale Monday

PEKIN, Ill. (AP)—Bulldozers lunged at heaps of smoldering debris today in a rush job to get the fire-scarred American Distilling Co. plant cleaned up for near full-scale resumption of whisky-making Monday.

A spectacular two-day fire that killed six persons, injured 33 and caused more than \$7,500,000 damage was brought under control last night.

The searing blue flame ate up from 90,000 to 110,000 barrels of aging whisky—enough liquor to fill more than 22 million ordinary fifth gallon whisky bottles or a half-billion standard one-ounce bar shot glasses.

This cost Uncle Sam at least \$47,500,000 in potential alcohol tax collections — whisky being taxed at the rate of \$19.50 a gallon as it is withdrawn from bonded warehouses.

However, Russell R. Brown of Greenwich, Conn., company president who hurried to the scene, said the fire loss to his firm was fully covered by insurance.

He announced plans to have production operations up to almost full scale by Monday. The fires and explosions yesterday destroyed 4 and damaged 3 of the distillery's 15 buildings, but the distillery units, power plant and bottling facilities were spared.

This will mean employment again for some 600 distillery workers who had been laid off July 1.

A providential wind shift played a big part in saving the \$25 million dollar distillery from possible complete destruction.

The dead, all distillery employees of Pekin, were identified as Lawrence Neavear, 39; Marion Garber, 53; Edward Winkler, 47; Richard Earlmood, 32; William Kohler, 35, and James Dancy, 40.

The fire started early Wednesday morning, apparently from a bolt of lightning during a thunderstorm. It was not pronounced fully under control until 42 hours later, at 8 p.m., Thursday.

## Fair, Cool Tonight; Warmer Next Week

A five-day forecast from the U. S. Weather Bureau shows little change for the Pontiac area until early next week when temperatures will rise.

Light showers late Sunday or Monday and more general showers toward the middle of the week will total ¼ to ½ inch, said forecasters.

Fair and cool weather is predicted for tonight with a low of 56 to 60. Tomorrow's forecast calls for continued pleasant weather with a high of 74 to 78.

Yesterday's low was 61 with a high of 78 in downtown Pontiac. At 8 a.m. today the mercury registered 64, rising to 78 at 1 p.m.

## Japs Call for Atomic Ban

TOKYO (AP)—All the major Japanese newspapers called for a ban on atomic weapons on today's ninth anniversary of the Hiroshima atom bombing.

## Women Voters Rap Conlin Plan

Claim State Sales Tax Revision Would Make Further Problems

LANSING (AP)—The League of Women Voters of Michigan today came out against the Conlin plan to revise the sales tax diversion amendment.

The Conlin plan was placed on the November ballot by the legislature. It seeks to put sales tax diversion payment to the schools on a current basis.

Mrs. Clifton Drury of East Lansing, League president, and Mrs. Robert O. Schulze of Ann Arbor, tax chairman, released a statement declaring that the proposed amendment "is a stop-gap measure at best and would not correct serious undesirable ham-stringing provisions of the present amendment. It would create further problems by shifting the 'tim bomb' out of the legislature and into every school house in the state."

The statement said the league believed that the legislature could solve the problem better by setting aside each year a percentage of sales tax receipts to be paid out during the lean years if sales tax revenues declined.

## Employment Holds Steady During July

WASHINGTON (INS)—The government reported today that employment in July held steady for the third consecutive month.

The monthly appraisal of the nation's employment situation was announced jointly by Commerce Secretary Sinclair Weeks and Labor Secretary James P. Mitchell.

Total employment was estimated at 62,100,000 workers and unemployment at 3,346,000 in early July.

## 4 Die as U. S. Jet Bomber Falls in Flames in England

FAIRFORD, England (INS)—A six-jet U. S. bomber burst into flames today shortly after taking off from a Royal Air Force base at Fairford and crashed in a nearby cornfield killing the four crewmen aboard.

A U. S. Air Force fire engine rushing to the burning wreckage overturned, but no casualties were reported from that accident.

Mrs. Reginald Arkell, on whose farm the speedy bomber crashed, described the accident. She said:

"I saw it take off about 8:20 this morning (3:20 a.m. EDT). Two minutes later when it was several hundred feet in the air it burst into flames and came straight down like a stone with flames pouring from its engines.

"It hit the ground with a dull thud."

The B47 Stratojet was carrying 4,000 gallons of fuel when it took off, and the burning high octane gas made the wreckage

## Oakland County 4-H Fair Opens Tuesday at 5 P.M.

Over 2,200 4-H boys and girls from Oakland County will present livestock, crop, handicraft and homemaking exhibits during the 1954 fair scheduled to open next Tuesday at 5 p. m. on the fairgrounds at Perry and Walton roads.

The 4-H Fair will run through Aug. 14. John Bray, manager of this year's event, said today that the 1954 fair promises to top all previous programs.

"Each year we have been able to add more facilities and to improve the fairgrounds. This year we will have the new horse barn located at the north end of the grounds and there will be 12 tents plus the three permanent quonsets for exhibit area," he said.

An automobile dealer's display will be held in conjunction with the fair, and for entertainment, a carnival will be presented.

Assisting Bray with this year's fair will be Jim Reed, president of the 4-H Leaders Assn.; Bob McCrory, vice president; Mrs. Thurman Bowers, secretary; and John Lessiter, treasurer.

Exhibits must be placed, said Bray, by 7 p.m. on the afternoon of Aug. 10 with the 4-H Queen to be chosen during the evening to reign at this year's event.

The 4-H Assn., said Bray, also has been able to have new lighting facilities installed for the parking area.

## Texas Boy Suffocates in Underwater Mask

FORT WORTH, Tex. (AP)—A boy suffocated last night in his rubber-and-glass swimming mask.

The body of Charles Bryan Hailey, 14, was found in three feet of water at a pool. Vacuum created by his inhaling had sucked the mask so tight over his nose and mouth it had to be cut from his face.

"If you come any closer we are going to smack you, too," Slight said he yelled to his wife, Betty, 32, to get his .38 caliber service revolver and the youths fled. He gave police the license number of the car after bandaging cuts on Penna's face.

Detectives James LaPonsie and Richard Evans said they spotted a car bearing the license number parked in front of 397 S. Jessie St. They investigated and arrested John E. Stolt, 18, of that address.

Later they apprehended Michael W. Leahy, 19, of 269 S. Jessie, and Mark J. Peck, 17, of 38 Park Pl. All are being held in the Pontiac Police Station for investigation to assault and battery.

The girl was left in custody of her parents pending further investigation.

Police said Leahy was arrested in a Pontiac tavern. The name of the tavern was turned over to members of the vice squad for a check of the reason it was selling alcohol to a minor.

Penna said he had never before seen any of the youths and could give no reason for the attack.

## Book Review

Woman Writes  
on Way to Live

Author Now Living in  
Chelsea Home, Brings  
Cheer to Old Folks

By JOYCE JACKLIN

Heart First  
By Lottie S. Kelpien

"Heart First" is the very heart  
and soul of the woman who wrote  
it, Lottie Stout Kelpien.

She has penned her innermost  
thoughts and ideals for the benefit  
of those of us who haven't stopped  
to realize just what life and the  
living of it really mean.

Mrs. Kelpien was born and  
reared on a Michigan farm, has  
resided in numerous Michigan  
communities and is now living  
in the Methodist Home for the  
Aged in Chelsea. There she  
brings a note of cheer into the  
lives of the elderly residents.

While reading this book, which  
the author has so beautifully writ-  
ten, one constantly asks oneself  
these questions:

"What am I doing with my life?  
Am I living it, always trying to  
reach the goal God set before me  
in the form of his son, Jesus  
Christ?"

"Or am I merely content to  
serve my time on earth, consider-  
ing nothing but my own selfish  
desires and personal worldly  
gains? Now is the time to take  
stock of what is happening to me  
and to do something about it!"

Mrs. Kelpien separates the heart  
into four distinct divisions: First,  
the physical heart, an organ which  
pumps blood throughout the body  
to give it physical life; second,  
the intellectual heart that she  
likens to a garden where thoughts  
take root which experiences the  
feelings of love, hate, anger and  
fear; and finally, the spiritual  
heart, which is God within us.

Without the full development  
and complete harmony of these  
four phases you cannot be a well-  
balanced person. It is how you  
cultivate and control these things  
that determines whether your life  
will be rich in contentment, a  
good example to all humanity,  
and a tribute to God.

If you fail to develop them, you  
live a discontented, immoral and  
unrestrained life.

"Heart First" is a book to read  
again and again.

Treasure Trove  
Fools Fun Bill  
Till Law Arrives

NEWARK, N.J. (AP)—Eight boys  
found a treasure trove in a vacant  
lot and had a gay time until police  
stepped in.

Like a youthful dream come  
true, the youngsters stumbled on  
several bags of silver and promp-  
tly began to toss money around,  
dashing to an amusement park  
and to the resort town of Asbury  
Park.

One suspicious mother yesterday  
said her boy seemed to have an  
unlimited supply of quarters.

Detectives talked to the boys,  
who led them to four bags of silver,  
containing \$981.65, stored between  
a bees' nest and a wasps' nest  
"to keep thieves away."

Police said the find apparently  
was part of \$3,900 which disap-  
peared from a Trenton, N.J., vend-  
ing machine firm along with one  
of the firm's employees.

Names and ages of the boys  
were not disclosed. Nor did police  
say how much they spent.

Hollywood 4-Year-Old  
Wants Cocktail Reward

NORTH HOLLYWOOD, Calif. (AP)—  
Carol Koplin, 4, sometimes gets a  
colored fruit drink as a reward for  
good behavior, with the understand-  
ing that it's a cocktail to be  
enjoyed with Mom and Dad.

When she appeared on her par-  
ents' television show to sing a  
song, they told her if she sang  
she'd get a cocktail right after the  
program.

Carol sang well and as Dad told  
the audience that Hollywood young-  
sters were really no different than  
any other Carol yelled for all to  
hear, "Daddy, I want my cocktail."

## In Chickens

## Flavor in Meat, Not Bones, Fat

WASHINGTON (INS) — Secrets of the succulent flavor of America's favorite bird, the chicken, have been picked up by federal farm researchers here—including the fact that the flavor of the dinner bird is locked up almost wholly in the meat and not in the bone, skin or fat.

Purpose of the research was to pin down the origin of chicken flavor and to discover why this flavor sometimes is lost while the bird is en route from the farm to the dinner table.

The researchers found that bone and skin yield very minor amounts of chicken flavor, and that fat yields almost none. It is the meat that holds the flavor.

Another discovery made by the scientists was that much flavor appears to be lost when raw chicken is soaked in ice water or cold water.

This point is regarded as important to the poultry industry, because it is quite common for chick-

en to be chilled in slush ice or thawed, if frozen, in cold water. Through further study the researchers hope to develop additional information that will help processors, shippers and cooks conserve the fullest possible flavor in broilers, canned chicken and other methods of processing.

In an effort to compare chicken flavor sources, the researchers tasted broth made from various portions of the chicken and served unseasoned, hot and clear.

The tests led to the following conclusions:

1. Broth tasted pretty much the same whether it was made from lean chickens or fat-rich chickens. This indicated that fat is a poor solvent for catching flavors.

2. Light meat and dark meat were equally good as flavor carriers when broth made of each separately was tasted and judged.

3. The combination of bones, skin and meat did not produce any better flavor than was derived from meat alone. In fact, broth from the mixture rated about a point lower than all-meat broth.

4. A "de-flavored" broth was derived when chicken meat was cut up, soaked in cold water, and squeezed free of water. But flavor was restored when the extracted water was put into the broth.

The study was made by E. L. Phipps, Agnes A. Campbell, and Iva Streeter of the Western Regional Laboratory of the Agricultural Research Service.

According to the scientists, their experiments were performed on birds that had been frozen and thawed.

They still must derive results from experiments conducted with unfrozen, freshly slaughtered birds.

## War Tug Concludes Fair at Imlay City

IMLAY CITY—Winding up the 56th annual Eastern Michigan Fair tonight will be a firemen's tug-of-war and Gus Sun's Revue.

Scheduled for this afternoon were a tractor hauling contest and an old-time fiddlers' contest. The judging which began with the fair opening Tuesday was concluded today.

Highlighting the fair Wednesday were a lightweight horse-pulling contest and an exhibit of 400 head of cattle at the all-breed dairy show. Caharles Roehl and Sons of Smiths Creek won first and second prizes in the pulling contest.

Gov. G. Mennen Williams presented the honors at the parade of winners Wednesday.

A heavyweight pulling contest was held yesterday.

## Farmers Shoot 2 Great Danes for Killing Cattle

METAMORA — Two Great Dane dogs were shot and killed near Hunters Creek early this week by a posse of farmers headed by Lapeer County Sheriff's Deputy Erwin Roy after the animals killed two heifers and caused the death of a third.

The dogs, one a 170-pound male—attacked cattle owned by Alfred Brady and Roy Best. Killed were a 700-pound two-year-old and a smaller yearling. A third animal was killed by a train while fleeing the dogs.

The dogs were owned by Mrs. W. C. Ireland of Metamora Township.

## Marlette Harvesting Top Quality Wheat

MARLETTE — A bumper crop of "extra fine quality" wheat has been reported by Kenneth Warner, manager of the Marlette Farmers Co-operative Elevator.

Warner stated that the yield is running as high as 50 bushels to the acre, "with the average probably around 38 bushels."

The report of the first carload sent out showed it ran 61 pounds at 14.4 per cent moisture.

Some area farmers say his is the best wheat year for him in 30 years.

## Timber Harvest Hits New High

## Forest Officials Mark 5 Per Cent Increase Over 1953 Production

WASHINGTON (INS) — Timber harvest in the national forests hit an all-time high in the year which ended June 30, according to the forest service.

Total harvest for the year was more than five and one-third billion board feet, an increase of nearly five per cent over the 1952-53 record of slightly more than five billion board feet.

The forest service said greatest increases in timber cut were reported in Montana and Idaho, where access roads have been built to salvage insect infested timber.

In forest service region one—comprising Montana and northern Idaho—timber harvest increased about 74 million board feet.

An increase of 41 million board feet in region four—including Utah, Nevada, western Wyoming and Southern Idaho—was due primarily to timber salvage work in southern Idaho.

The value of timber taken from the national forests showed a drop of about one dollar 50 cents per thousand board feet, reflecting lower prices throughout the nation.

The total value for 1953-54, therefore, was only 675 and one-half million dollars, compared with 70 and one-half million dollars the previous year.

The tests led to the following conclusions:

1. Broth tasted pretty much the same whether it was made from lean chickens or fat-rich chickens. This indicated that fat is a poor solvent for catching flavors.

2. Light meat and dark meat were equally good as flavor carriers when broth made of each separately was tasted and judged.

3. The combination of bones, skin and meat did not produce any better flavor than was derived from meat alone. In fact, broth from the mixture rated about a point lower than all-meat broth.

4. A "de-flavored" broth was derived when chicken meat was cut up, soaked in cold water, and squeezed free of water. But flavor was restored when the extracted water was put into the broth.

The study was made by E. L. Phippen, Agnes A. Campbell, and Iva Streeter of the Western Regional Laboratory of the Agricultural Research Service.

According to the scientists, their experiments were performed on birds that had been frozen and thawed.

They still must derive results from experiments conducted with unfrozen, freshly slaughtered birds.

## Forest Officials Mark 5 Per Cent Increase Over 1953 Production

WASHINGTON (INS) — Timber harvest in the national forests hit an all-time high in the year which ended June 30, according to the forest service.

Total harvest for the year was more than five and one-third billion board feet, an increase of nearly five per cent over the 1952-53 record of slightly more than five billion board feet.

The forest service said greatest increases in timber cut were reported in Montana and Idaho, where access roads have been built to salvage insect infested timber.

In forest service region one—comprising Montana and northern Idaho—timber harvest increased about 74 million board feet.

An increase of 41 million board feet in region four—including Utah, Nevada, western Wyoming and Southern Idaho—was due primarily to timber salvage work in southern Idaho.

The value of timber taken from the national forests showed a drop of about one dollar 50 cents per thousand board feet, reflecting lower prices throughout the nation.

The total value for 1953-54, therefore, was only 675 and one-half million dollars, compared with 70 and one-half million dollars the previous year.

## Patricia Quinn to Marry Dale Anderson Nov. 6

## Clinic Directors Receive Tickets for Benefit Ball

WALLED LAKE — Tickets for the benefit dance for the Dr. O. R. MacKenzie Memorial Clinic were distributed to officers and directors at the meeting of the board of directors this week.

Proceeds from the advance ticket sales are being donated to the clinic fund by Elmer and Albert Tolletene, owners of the Wall Lake Casino, where the dance will be held Aug. 21.

Ernie Rudy's orchestra (formerly Sammy Kaye's orchestra) will furnish the music for the affair.

Tickets are on sale in business stores throughout the area, according to Mrs. Frank Murray Jr., publicity chairman.

## Ferndale Motorist Killed in Car Crash

FERNDALE—A Ferndale motorist was killed in a collision yesterday near Fort Wayne, Ind.

According to witnesses John O. Hunter, 24, of 2147 Pilgrim attempted to pass a truck when he lost control of his car. The auto ramed another car driven by DeWayne Cobbum of Bluffton, Ind.

Cobbum died instantly and Hunter died five hours later in Parkview Hospital, Fort Wayne.

## Reform Sweeps Phenix City

### Martial Law Brings War on Corruption and Vice After Murder

PHENIX CITY, Ala. (AP)—The gunman who murdered crime-fighter Albert L. Patterson on the fateful night of June 18 is still a wanted fugitive despite seven weeks of the greatest manhunt in Alabama history.

But the three shots fired into Patterson's body have exploded again and again in an unrelenting war on vice and racketeering that has made this storied city of sin a virtual ghost town.

The brightly lighted cafes and honky-tonks where carefree soldiers from nearby Ft. Benning, Ga., spent millions of dollars a year on gambling, prostitution and other lurid frolics have been closed outright or put on short rations.

Their liquor and beer licenses have been suspended. Many of the gaudy night spots have been padlocked by raiding National Guardsmen who found hundreds of slot machines, lottery tickets, crooked dice, and telltale hypodermic needles and vials which gave evidence of narcotics traffic.

The troops have taken over all law enforcement functions in Phenix City and most of Russell County, stripping the civilian police of even the right to carry guns. That was done under an unprecedented limited martial law proclaimed by Gov. Gordon Persons.

Except for police duties, however, other civilian offices—including the courts—were left untouched by military rule.

In almost daily arrests, the steel-helmeted troops and reinforced squads of state highway patrolmen have brought more than 50 persons into custody, including two public officials, two civilian deputy sheriffs and one of the reputed vice lords.

Other gambling big shots have been called in for questioning.

Phenix City's Mayor Elmer Reese was arrested on charges of wilful neglect of duty because of the gambling which went on.

Circuit Solicitor Arch Ferrell, the county's ousted criminal prosecutor, was jailed for drunkenness, fined \$100 for drunk driving and his driver's license suspended.

Ferrell, who already had been relieved of duty, also is under indictment along with two others on charges of vote manipulation in an effort to defeat the anti-vice crusading Patterson in the June 1 Democratic primary runoff election.

### Public Workers Fired

DOVER, N. H. (AP)—City officials recently agreed to fire six veteran Public Works Department employees in an economy move. Machines can do the job faster, they said. Harry, Jary, Cindy, Dolly, Prince and Nell will return to pasture, where old work horses should spend their remaining days.

MONTEREY PARK, Calif. (AP)—You got trouble here, you get help.

A fire started yesterday in the living room of Mrs. C. G. Grote's home. She phoned the fire department. Three trucks arrived promptly, followed by a police car, the city's public safety director, the city manager, the city budget officer and a fire department rescue unit.

The fire caused about \$1,100 damage before it was extinguished.

## Anglican Bishop Hits Segregation

Sees Church as One of Few Places in Africa Native Has Freedom

MINNEAPOLIS (AP)—The Anglican diocesan synod is one of the few places in South Africa where natives freely can express their opinions, said the Rt. Rev. Richard A. Reeves, Bishop of Johannesburg.

"Natives carry 42 per cent of the voting power in the synod and I know of no Anglican church where they would be excluded from services," Bishop Reeves, a delegate to the World Anglican

Congress, said in an interview Thursday.

His statement came as the 600 delegates from 14 churches on every continent held a closed session today on church policies.

Referring to South African Prime Minister Malan's policy of apartheid (segregation), Bishop Reeves said it has reached the point where "the government hasn't achieved segregation and we haven't won integration."

"Of 130 clergy in the Johannesburg diocese, 35 are Africans," the Bishop continued. "While natives and whites do worship in separate churches, this is brought about by geographic and linguistic demands rather than by any thought of discrimination."

## 'Dead' Man Handles Nagging Problem

NILES, Ohio (UP)—One harried husband may have the answer to the old problem of the nagging wife.

Police found him curled up in the front seat of his automobile when answering a call about a "dead man in a parked car."

He was far from dead. It was just his way of handling his wife, as he explained it to officers: "My wife is a shrew. When she

raises a fuss, I leave the house. I drive around awhile until I'm sleepy. I park and fall asleep. Meanwhile, she worries about where I am. Then she makes up her mind I'm probably getting drunk. That makes her madder, gives her a chance to bawl me out some more. But I surprise her, when I go out I stay sober, meanwhile, she worries some more. Finally, I come home. She smells my breath and puts her conscience to work over-time. She welcomes me with open arms. I go to sleep. No fight. No lost sleep."

The springs of Bath, England, were the center of a Roman resort city which was developed during the first four centuries A. D.

**Bob Considine Says:****Hitchcock's New Thriller  
Leaves Audience Chilled**

NEW YORK (INS)—The passing show—

Bothered by Old Sol, as we baseball writers must call the sun under pain of having our cards picked up? Well then just look in on Hitchcock's new movie, "Rear Window." It's a good 80 degrees chiller inside Hitchcock. People come out too chilled to talk.

With the help of Jimmy Stewart, Grace Kelly, (who is the third champion in that family), Thelma Ritter, Wendell Corey and one of the most menacing heavies movie audiences will ever shrink from, Raymond Burr, Hitchcock has told the tensest, tightest story of the year through the pinched sight of a pair of binoculars and a Leica's telephoto lens.

Cornell Woolrich's short story about a photographer with a broken leg who sweats out his long weeks in a cast by playing the part of a reflective Peeping Tom has been woven into a fine script by John Michael Hayes. Hayes apparently doesn't believe that canard about the 12-year-old mental age of the average moviegoer.

Stewart, Mr. Peeper, viewing his neighbors through the rear window of his West 12th street (NY) room, comes to the stunned conclusion that the man across the court (Burr) has murdered his nagging and invalid wife, dined her, and distribute 'her about the city. Nobody will believe him. Until

Well, that's why Paramount made it. To pry you away from those dreary TV summer replacements.

Here's what the perfection of atomic energy (for destruction and for power) would mean in the airfield:

One bomber of today, carrying a single H-bomb, could carry 1,000,000 times as much destroying force as all (and I repeat all) the B-17 flying fortresses that bombed Berlin in World War II.

When the ideal atomic airplane engine comes along (several of the major companies and the Atomic Energy Commission are at work on this) a single pound of uranium or plutonium will produce the present power of 2,000,000 pounds of high octane gasoline.

The world of the inner atom makes reason totter. At the General Electric-operated plant at

Saturday State Primary Will Set Off Campaigns for Barkley, Cooper

FRANKFORT, Ky. (AP)—Voters of this border state tomorrow will nominate 10 congressional candidates in a quiet prelude to a keen U.S. senatorial race expected to match names—Cooper and Barkley—regarded by some Kentuckians as having political magic.

Sen. John Sherman Cooper, Somerset Republican seeking reelection and former Vice President Alben W. Barkley, Paducah Democrat running to regain the senatorial post he had before being elected "Veep" in 1948, are without strong opposition in their primaries. Each is backed by his state party organization.

The 76-year-old Barkley and 52-year-old Cooper have been speaking for some time—although doing little formal campaigning—and leaders of both parties anticipate one of the most heated races in Kentucky history between the pair before the Nov. 2 general election.

In District primaries tomorrow, eight nominees for the U.S. House

Hanford, Wash., certain special materials are sealed in aluminum cans before being placed in the atomic piles. When "cooked" the trouble begins.

The cans are moved by remote control to rooms heavily sealed to prevent the escape of radiation. Strange steel "arms" and "claws" reach from the ceiling, operated from perhaps a quarter of a mile away by a man or woman whose eyes are the TV set inside the poisoned room and the receiver in the distant control room. The claws are made to seize the can and a \$1,900 can opener. In a brisk hour and 15 minutes the can is open.
