Do you recognize any of the names above? Some of them were your friends and neighbors in Oakland County. All of them have something in common. They are dead.

They died in Oakland County traffic accidents. All 35 of them. Many were innocently involved, out for a drive on a sunny day. Happenstance placed them at the wrong corner at the right time.

A few were disobeying speed limits, passing on curves, mixing alcohol with gasoline, or just "taking a chance."

Right or wrong, they died. Some were victims of a childlike belief that if they were on their side of the center line, they were safe.

Ten persons have died in seven head-on crashes this year.

Others failed to realize that driving 20 or 30 miles over the speed limit, running stop signs and amber traffic signals only gets them to their destination a minute or two earlier.

Those saved minutes can be pretty expensive. Figuring a life expectancy of 72 years, we've wiped out 1,132 years since January 1.

Officers Fail to Force Showdown on Straley

By PETE LOCHBILER

An attempt by disgruntled police officers to force a showdown in their battle with Police Chief Herbert W. Straley fizzled out at an anti-inaction public hearing by the City Commission last night.

Twenty-seven officers had voted to demand Straley's resignation on the basis of criticisms contained in the controversial Public Administration Service report on low police department morale and efficiency.

LISTEN IN SILENCE

Commissioners listened to their petition in silence, then heard a counter-petition signed by 28 other officers.

Observing that there apparently was a split in the depart-

ment's ranks, Mayor William W. Donaldson called an end to the hearing 20 minutes after it began.

He said that Straley was an appointee of City Manager Walter K. Willman and the commission was powerless to take any action on him, one way or the other.

ENDED HEARING

Thus ended what had been anticipated as a heated discussion of the PAS report and its appraisal of the police chief.

About 130 persons, mostly policemen and their wives, had turned out to hear what went on. Only one person in the audience had anything to say.

Lt. Donny Ashley, chairman of

the Pontiac Police Officers Association's civil service committee, submitted a resolution he said was passed at a special meeting Thursday.

It said that if Straley wouldn't resign at City Manager Walter K. Willman's request, the Commission should order Willman to file removal proceedings against the chief with the Civil Service Commission.

Asked by Willman for more details about the special meeting, Ashley said 35 policemen attended it, with 27 officers voting for the resolution, six voting against it and two abstaining.

Donaldson then had City Clerk Ada R. Evans read the other letter, which he said was turned into her office yesterday afternoon. It said it was not the business of any rank-and-file officer to suggest that anyone be dismissed.

GIVEN TO WILLMAN

The mayor turned both documents over to Willman, who said later that he would look them over.

Straley, who remained silent during the hearing, afterwards claimed a victory and said he had "no intention" of resigning.

"This was the first real chance

Navy Vanguard Fails to Orbit

20-Inch Sphere Flies 2,000 Miles in Space, Then Plunges

CAPE CANAVERAL, Fla. (U) — The second of the Navy's basketball-sized satellites wound up today like the first — at the bottom of the Atlantic Ocean.

Fired aloft shortly before midnight by the Vanguard rocket, the 20-inch ball flew 2,000 miles out into space, then plunged back to earth.

Five hours of baffling silence followed the launching before Dr. John P. Hagen, director of Project Vanguard, announced that the 21 1/2-pound sphere did not go into orbit.

The engines of the three-stage Vanguard all fired as expected, Hagen said.

But the satellite was not boosted into a horizontal direction necessary to place it in orbit. Instead, it flew out in a wide arc, then fell back into the earth's atmosphere.

It was the fourth failure in five tries since the Vanguard rocket first was fired as a complete three-stage vehicle.

The potential satellite — small in size by Soviet standards but big in scientific importance — made an impressive departure from earth in the nose of the 72-foot rocket.

No Settlement as GM Contract Deadline Nears

UAW, Firm Fighting Clock Set to Stop at Midnight Tomorrow

DETROIT (UPI) — United Auto Workers today asked the Federal Mediation and Conciliation Service to step in to end a deadlocked, final-hour bargaining with General Motors, but the company said it is opposed to mediation.

DETROIT (UPI) — The United Auto Workers and General Motors, their contract covering 325,000 workers expiring at midnight tomorrow, went into negotiations this morning with no further hints of a settlement.

The new blackout which has covered bargaining tables almost since the start of negotiations eight weeks ago was lifted, but a union spokesman said statements on the bargaining would be held up until the end of the morning session.

Negotiations also resumed at Ford and Chrysler, and the new blackout was also eliminated there. There were no statements at Ford either.

UAW Vice President Leonard Woodcock said union President Walter P. Reuther would not enter negotiations until tomorrow.

After 9:57 a.m. at General Motors, 10 a.m. at Chrysler and 10:10 a.m. (EST) at Ford, the agreement for secrecy at the bargaining tables was dissolved.

In the brief time left for settlement, the union hoped a public play-by-play of the offers and issues would budge the companies into bargaining. So the union, which asked for the news blackout, yesterday asked for full disclosure.

General Motors contracts covering about 325,000 UAW members and 18,134 members of the International Union of Electrical Workers terminate at midnight tomorrow.

Contracts covering 100,000 UAW Ford employees and 75,000 UAW Chrysler employees expire at midnight Sunday.

UAW President Walter P. Reuther will enter bargaining at General Motors sometime before the contract expiration hour in a last-ditch union effort to reach a settlement.

All the contracts which are running will be signed in 1955. The

Gaullist Leader Votes

PARIS (U) — Jacques Soustelle, one of the leaders of the Algerian insurrection against Premier Pierre Pflimlin's government, voted in the National Assembly early today even though he's in Algiers. He voted against Pflimlin. The vote was not by individuals except when they differed from their party. The Social Republicans cast a ballot in Soustelle's name.

Slump Slowing, Says President

WASHINGTON (UPI) — President Eisenhower said today he believes the recession has largely spent its force.

But he cautioned against any optimism that a healthy economic upturn would occur in the near future.

He told a news conference that some of the economic indices point to an upturn. But he said one swallow does not make a summer.

Some parts of the national economy, such as the auto and other durable goods industries, still are not doing too well, he said. On the whole, he noted, the nation is weathering the recession well.

In other news conference remarks, the President said:

— That as of now the economic situation does not warrant anti-recession tax cuts that would greatly increase the federal budget deficit.

— He would deplore any peace-time attempt to control wages and prices. But he feels strongly that both must be held down in an effort to maintain stable living costs and a sound dollar.

He declined to comment on the crisis in France and Lebanon. But he did say he happened to like Gen. Charles De Gaulle who appears headed for control of the French government.

Because of the President's refusal to discuss the French crisis, his news conference was devoted almost entirely to domestic matters.

The President flatly refused to attempt any analysis of what effect De Gaulle's likely rise to power in France would have on French relations with the United States and other Western Powers.

In other foreign news conference (Continued on Page 2, Col. 4)

Propose to End Flight Pay for Desk Officers

WASHINGTON (AP) — The House Appropriations Committee today called for an end to the military practice of letting deskbound officers fly a few hours a month so they can get higher pay.

In a report accompanying the new military money bill, the congressmen said the extra flight pay is justly due to those who fly fast, dangerous combat planes and who must keep up their combat proficiency.

The committee said flight pay—worth from \$30 to \$165 a month—was originally provided as compensation for hazardous duty. But it reported much flying is now done just to meet the four hours a month minimum required to qualify for flight pay.

Man Cooks Best Pie

HANCOCK, Mich. (U) — After tasting 14 meat and vegetable pies baked by women in the annual pastry competition here, judges awarded the championship to James K. Allen — the only male entry.

Garden Lovers Beware

Frost Due Here Tonight

Garden lovers were warned by the Weather Bureau today to cover up those precious plants and flowers as frost and sub-freezing temperatures were predicted to settle upon the Pontiac area tonight.

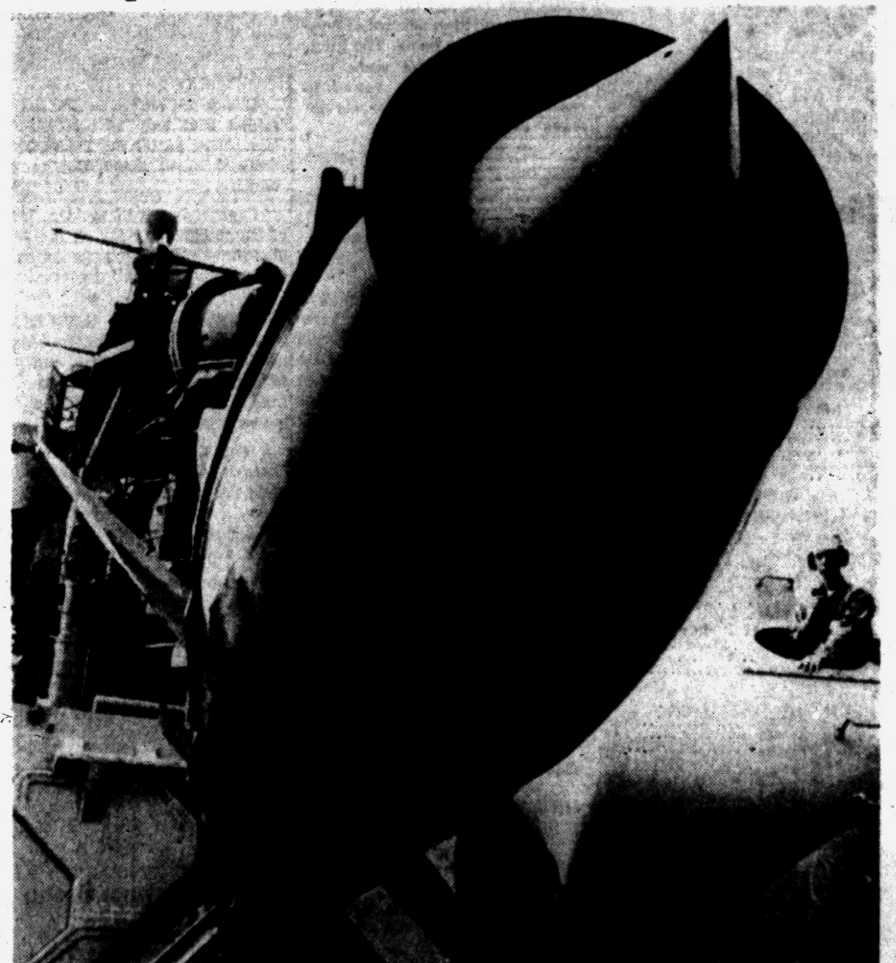

The mercury was expected to dip down to an unseasonable reading between 31 and 37 degrees in the southern part of the state. Colder readings were expected further north.

Although the weatherman forecast a high tomorrow around 73, he issued disturbing news to Memorial Day vacationers. He said it would be continued cool Saturday and Sunday.

Scattered showers or thundershowers might hit the area Friday night, he said.

The low in downtown Pontiac preceding 8 a.m. was 49 degrees. The mercury had climbed to 62 at 1 p.m.

Navy Unveils New Guided Missile

POISED TO STRIKE — New and deadly addition to Navy's striking power is this Bendix turreted missile, poised on its launching

signed to destroy enemy aircraft at a range of more than 65 miles and at stratospheric altitudes. The ramjet missile weighs 3,000 pounds.

Father of Five Loses Leg; Ground in Cement Mixer

A Detroit father of five miraculously escaped being ground to death last evening as he lost his right leg while attempting to clean out a cement mixer at a Southfield building firm.

Listed in critical condition at Detroit Receiving Hospital is Jasper Moore, 47, of 4845 Hurlbut St. Doctors say he lost his right leg at the knee and has a badly fractured left leg.

Put Hubbies Through

EAST LANSING, Mich. (U) — Although the big cap and gown doings are 10 days off, 23 students' wives tonight will be awarded P.H.T. degrees — for Putting Hubby Through — at Michigan State University.

Memorial Day Parade Set in Pontiac

To Honor War Dead

Pontiac's Memorial Day ceremonies will begin at 10:30 a.m. Friday as Americans throughout the country pause in remembrance of the nation's wartime dead.

Local ceremonies will begin with a parade up Saginaw St. from Jackson St. to the Civil War Monument at the intersection of Saginaw and Oakland Aves.

The parade will consist of three main sections.

The first will be made up of such dignitaries as Malcolm Oswalt, president of the Pontiac Memorial Day Association, and Floyd Cremer, marshal of the day.

Included will be the Pontiac Central High Band and various Armed Forces units including the Pontiac Naval Reserve, Army Reserve, National Guard, and a color guard representing the

Army, Navy, Marine Corps, and Air Force.

The second section will be made up of delegations from the many local veterans groups. The final section will consist mainly of local mothers' clubs and women's patriotic and civic organizations.

The parade will end with the presentation of a wreath to the Civil War Monument by this year's parade marshal, Edward

City Police Arrest 5, Seek 6th Man

Believe Burglary Ring Cracked

A safe cracking and burglary ring responsible for at least 10 thefts and break-ins in the Pontiac area which netted over \$2,000 is believed to have been smashed by the burglary detail of the Pontiac police.

Headed by Sgt. Raymond Meggitt, the detail has arrested five men and is seeking a sixth fugitive.

Arrested were Eugene F. Genest, 29, of 12 McKinley St.; Herman M. Odenhoff, 26, of 501 S. Jessie St.; Gerald E. Jackson, 27, of 34 Harvey St.; Kester R. Morgan, 29, of 72 Green St.; and Cecil B. Warren, 29, of 12 McKinley St. Sought for burglary is James Harry, 32, of 33 S. Shirley St.

Genest stood mute in circuit court to a charge of safe cracking and awaits trial; Warren pleaded guilty to safe cracking; Odenhoff and Morgan will be arraigned June 3 for safe robbery; and Jackson pleaded not guilty to a charge of breaking and entering and is out on bond.

All the men, except Jackson, have prison records, and Warren is on parole for burglary, while Odenhoff is on parole for armed robbery.

WORK NEARLY MONTH

Sgt. Meggitt and Detectives James Bale, Robert Wachal and Eugene Hendren, assisted by other departments, particularly Chief Millard J. Pender of the Waterford Township Police Dept., worked almost an entire month on the case following the first break May 3.

The opening lead in the case came with the safe robbery at Banner Linn Co., 366 N. Cass Ave.

The thieves took the safe and loaded it on a Banner truck to transport it to a place where they could open it at their leisure.

They were scared off by a cruising Bloomfield Township police car as they were hiding the safe on a country road. Working from that incident, detectives gradually were led from one member of the ring to another.

Meggitt and Bale even journeyed to Pittsburgh on May 9 to arrest Warren, who had fled Pontiac.

Jobs the detectives have now marked solved include besides the Banner Linn Co.:

Dolan's Drugs, 164 Auburn, burglary Sept. 23, 1957, television set, typewriter and 2,000 tablets of narcotics taken.

FURS, PISTOL TAKEN

Burglary of the home of Lamott Felschaw, 324 Menominee Rd., March 26, furs and a pistol stolen.

Burglary of the home of Circuit Judge H. Russell Holland, 117 E. Franklin St., pistol and some personal effects taken.

Bethany Baptist Church, 15 Mark St., April 7, \$300 stolen.

First Free Methodist Church, 501

Evangelist Who Changed Graham Joins Crusade

SAN FRANCISCO (AP) — Mordecai Ham, the evangelist who led Billy Graham to "decide for Christ" at a tent meeting 24 years ago, will share the spotlight with him tonight.

The 45-year-old Ham will fly from Louisville, Ky., his home, to speak at the Cow Palace on the 28th day of the Bay Area crusade. Graham was 15 when he heard Ham at Montreal, N.C.

Graham addressed a crowd of 15,000 in the 16,000-seat arena last night, asking them to "avoid deceiving pretenses."

Yesterday noon he spoke in front of the Oakland, Calif., City Hall. Police estimated 12,000 heard him.

Six persons fainted. They were taken to hospitals in ambulances.

Unemployment Seen Leveling

Federal Reserve Board Reports Slight Drop in Number of Jobless

WASHINGTON (AP)—The Federal Reserve Board said today it sees some signs of a leveling off in the unemployment situation.

The board said in its monthly Federal Reserve Bulletin that since February there has been a slight drop in the number of persons unemployed for four weeks or less. It said this may indicate that layoffs have become less frequent and that seasonally adjusted unemployment may be leveling off.

April employment figures showed an increase for the ninth straight month in the seasonally adjusted rate of unemployment. The rate was 7 1/2 per cent of the labor force. May figures will be announced next week.

Although citing some grounds for optimism, the board observed that the number of persons vainly seeking work for 15 weeks or longer has more than doubled in the past 12 months. It said the April figure was sharply higher than for any month in the previous postwar recessions.

"This high level indicates the persistently low hiring rates prevailing throughout industry," it said.

Nonfarm employment, the Bulletin said, has dropped more than in either the 1948-49 or 1953-54 slumps.

"In addition to larger reductions in manufacturing," it added, "there has been significant easing in some nonmanufacturing lines that maintained employment in the earlier recession."

Construction employment in April was 5 per cent lower than a year earlier despite the spring pickup in outdoor work, it said. Trade employment of 11,300,000 last month was down almost 350,000 from its 1957 peak, the review added.

Receivables new total \$41,650 with about \$3,100 needed for operational expenses.

Weston also said the House is "backing into" the idea of opening on Aug. 1 instead of on Labor Day as in the past.

Ending 33 years as a city employee, Grant Capling of 560 Watkins St. was honored at a dinner last night at Terry Lee's Restaurant.

Capling first was employed in 1925 in the water meter department. Six years ago he was made parking meter superintendent.

Capling said he intends to maintain his Birmingham residence but will spend much of his time at the family cottage on Saginaw Bay.

About 30 members of the Police Department and city officials turned out to bid him farewell. They presented him with a clock radio, an electric skillet and a worn-out meter money bag.

At a special meeting last night, the Bloomfield Hills City Commission approved a \$348,000 budget for the 1958-59 fiscal year. There was no public opposition. A proposed road paving program was tabled for more discussion.

Distribution of a booklet, "Know Your Town," compiled by the Birmingham League of Women Voters, is being completed.

Postal Hike to Cost State \$250,000 Year Extra

LANSING (AP)—Michigan's state government, already saddled with growing debts, faces roughly another \$250,000 yearly expense item because of postage rate increases, the Department of Administration said today.

"That's a very rough estimate of what the postage bill signed by President Eisenhower will cost the state," a department spokesman said. "We can't give a closer estimate yet, not knowing the mail volume for the 1957-58 fiscal year on which to base a prediction."

He was unable to say immediately whether the Legislature would be asked to make an additional appropriation to cover the higher costs when it returns for a two-day session June 12-13.

Contractor for City Succumbs at 82

Benjamin R. Blaylock, building contractor and former building inspector for the City of Pontiac, died this morning at his residence, 275 State Ave. He was 82.

A native of Tuscola County, Mr. Blaylock came to Pontiac in 1891. He operated a grocery store before entering the building field.

Mr. Blaylock was a life member of Masonic Lodge No. 21 F&AM and Knights Templar.

Surviving are his wife, Jennie; two sons, Galen A. and Gerald L. Blaylock, both of Pontiac; five grandchildren, and a sister.

Service will be at 2 p.m. Saturday from the DeWitt C. Davis Funeral Home with burial in White Chapel Memorial Cemetery.

MIDLAND (AP)—Dow Chemical Co. said today it plans to lay off 600 of its salaried employees by Sept. 1.

The Day in Birmingham

'Y' Secretary Resigning After 12 Years on Job

BIRMINGHAM—Edwin A. Kirbert, secretary of the Birmingham YMCA for the past 12 years, has announced his resignation.

He has accepted a position as executive manager and director of the Presbyterian Village in Redford, Mo. In so doing, he will be working with the aged instead of young people.

During his years here the "Y" has grown steadily under his management. It has developed from a small office site into a well-planned new building, the second stage of which has just been completed.

Kirbert commented that the basic aims of 12 years ago, the completion and activation of a YMCA building, have been accomplished and that it is time now for "new blood" and new ideas.

"My wife and I will always be interested in 'Y' activities," Kirbert says. "We will remain residents of Birmingham and will continue our activities in the community and church life. I feel this new position offers a greater challenge for me, personally, and that the YMCA will find a new director stimulating."

Another \$10,000 is needed if the Birmingham Community House is to reach its Roll Call drive goal of \$50,000, Norman Weston, house board president, said.

Receipts new total \$41,650 with about \$3,100 needed for operational expenses.

Weston also said the House is "backing into" the idea of opening on Aug. 1 instead of on Labor Day as in the past.

Ending 33 years as a city employee, Grant Capling of 560 Watkins St. was honored at a dinner last night at Terry Lee's Restaurant.

Few Delegates Filed for County Conventions

Final count at County Clerk Lynn D. Allen's office this morning showed that only 172 Democrats and 166 Republicans had filed petitions for delegates to Oakland County conventions this August.

"This represents just over half of what both parties can send to their conventions," said Allen.

One delegate from both parties is elected Aug. 5 to represent his or her voting precinct in the conventions which will be held between Aug. 13-25. There are 294 precincts in the county.

For those precincts not having a delegate submit a petition, one will be chosen at the conventions.

Yesterday at 4 p.m. was the deadline for submitting petitions.

Mr. Ennis died Monday evening at the University Hospital in Ann Arbor after a brief illness. The body will be at the Milliken Funeral Home in Utica until noon tomorrow.

A master plumber, he had been associated with his father in the

Ennis Plumbing and Heating Supply Co., Rochester.

Surviving are his wife, Eva; a son, Donald Jr.; three daughters, Janet, Maxine and Susan, all at home; his parents, Mr. and Mrs. Earl Ennis of Utica; two brothers, Earl and Raymond, both of Utica; two sisters, Mrs. Maxine Bender of Los Angeles, and Mrs. Doris Bianco of Utica.

Bank Pays Out \$3,750 on Bogus Check Here

A "certified" check that proved to be bogus cost the Pontiac State Bank \$3,750.

Turris McCully, a cashier at the bank, told the Pontiac police that a man representing himself as Pat Mann presented the check on May 24 at the branch located at 1305 Baldwin Ave.

The check was drawn on the National Bank of Detroit, payable to Mann and signed by a Roger Morris.

Human Frailty Prevents Timely Cancer Checkups

MEMPHIS, Tenn. (UPI) — Modesty, fear and stinginess are among the chief reasons both men and women fail to get cancer checkups until it is too late, American Cancer officials report.

There are many who will "spend

money for club memberships, bright skirts, a new automobile, bottles of bourbon, but will not spend the dollars necessary for a complete physical checkup," society vice president Clifton R. Read said.

About 28 million of U. S. citizens suffer some form of chronic disease or a physical disability handicapping.

Tax Limitation Waterford Issue

Voters Will Decide on Continuing Five-Mill School Assessment

In the annual school election June 9, Waterford Township voters will be asked to continue an increase of five mills in tax limitation for school operation.

Superintendent William Shunk, who has been presenting explanatory talks to various organizations, yesterday gave the Waterford-Drayton Rotary club members a comprehensive report on what it would mean to the school system if the voters turn down the proposition.

He said that the question of continuing the tax limitation of \$5 per thousand of equalized assessed valuation, is not an increase over the present tax limitation, nor is it a bond issue.

Voters approved a similar proposition in 1954. It is this tax measure which the Board of Education is asking Waterford Township residents to continue for another five years.

There are now 10,400 pupils enrolled in the school district and records show there will be some 1,200 kindergartners starting school in September. Only 300 seniors are graduating in June.

The 1958-59 school operating budget calls for \$4 million dollars, which includes the five mill tax levied in use.

If the proposition should fail, it would mean a loss of \$400,000 in school operations, Shunk said.

He explained that two alternatives remain. With the principal part of the budget earmarked for payroll operations, either the teachers would have to take a salary cut or each teacher would have to crowd more pupils in each classroom.

Memorial Day Weekend to See No Road Work

LANSING (AP)—All highway construction and maintenance operations except for emergency work will be suspended as a salute driving measure over the Memorial Day weekend, the State Highway Department said today.

Bridge and road construction work on all highways open to traffic will be halted at 12 noon Thursday until Monday morning. Contractors have been notified they will not be allowed to move any equipment on or across state highways during this period.

The department said all temporary and regular routes have been put in condition for safe travel.

Pontiac City Affairs

OK Repaving Telegraph

State Highway Department plans for repaving Telegraph road from W. Huron street to James K boulevard were approved by the City Commission last night.

The city already has set aside \$11,500 in gas and weight tax money to pay the local share of the total cost. Now it must begin setting special assessments to cover a portion of that share.

Hearings will be scheduled after City Engineer Lewis M. Wrenn submits cost estimates.

The total cost of the project is estimated at about \$45,000, with the city paying about one-fourth and the state and federal governments the rest.

When the project is completed this summer, it will mean that the three-mile stretch of Telegraph around Pontiac's western city limits has been completely improved in the past four years.

A hearing on \$168,113 in special assessments for another State Highway Department project, the widening of Perry street (MS4), has been scheduled for next Tuesday.

Commissioners received assessment rolls for Perry street last night, but held up rolls on another project.

Speedy Jet Fighter Takes Light Run

ST. LOUIS (AP)—A 56-foot two-seater jet fighter designed to fly faster than twice the speed of sound was given a light shake-down run yesterday.

The plane, built for the Navy, reportedly will fly faster and farther than any craft the Navy has. Chief test pilot Robert C. Little of the McDonnell Aircraft Corp., took the twin-jet F4H-1 to 40,000 feet in a 20-minute test and remarked, "The Navy will be proud of this one."

He didn't try any speed runs. The needle-nose plane will carry air-to-air missiles and also is capable of taking nuclear bombs on a long haul.

What's a Steamroller?

SPRINGFIELD, Mo. (AP)—Dennis Lurvey fell off his bicycle and into the path of a five-ton steamroller. The steamroller backed over the 9-year-old boy's foot before the driver could stop. Dennis was rushed to a hospital. But doctors couldn't find any injuries, other than a few scratches and bruises.

Traffic Victim's Wife Sues 2 Algonac Bars

PORT HURON (UPI)—The widow of a man killed in a traffic accident March 17 near Algonac filed a \$100,000 damage suit yesterday against two bar owners, charging they served the driver of the death car liquor before the mishap.

The victim, John Rezeppa Jr., 39, of Pearl Beach, was struck and killed by a car driven by Lawrence E. Fradette of Algonac. Mrs. Delphine Rezeppa filed a circuit court suit yesterday against two Algonac bars. Police ruled the death involuntary manslaughter.

Collegian's Ant Business Sends Him Through School

DENVER (INS) — When 21-year-old William C. Barber of Denver recently appeared on the television show "What's My Line," Arlene Francis stopped the show when she quipped: "Then, you truthfully say, my 'ants' are putting me through college."

BROUGHT LAUGHS
Miss Francis brought laughs with her pun. But young Barber

could truthfully say his ants are putting him through college—and much more.

Barber builds and sells ant houses under the copyrighted name of Anterium.

The Colorado University student sells the Anteriums in two sizes, priced at \$2.98 and \$5.

ASSISTED BY 3
With the aid of three full-time assistants, Barber is grossing more

than \$2,000 a month through outlets in Denver, New York, Chicago, Boston and other cities.

The young entrepreneur expects to gross \$40,000 this year, much of it through an expected Christmas rush with his ant houses.

Barber said he is building a giant Anterium for a New York department store to dramatize the store's "ants on Broadway" sale. Barber

said the huge anterium will contain 1,000 ants and will be the largest man-made ant hill ever built.

The standard size ant houses (3½ by 6½ and 9 by 10 inches) will be advertised in Christmas catalogs of many department stores.

The standard houses consist of two glass walls held in place by two wooden walls in such a way the customer can see the ants work in the layers of sand and sifted soil contained in the Anterium.

Barber says he drops 10 to 15 "genuine, giant red ants guaranteed to tunnel" in the ant hills.

USES RED ANTS
He uses the giant Colorado red ant (pogonomyrmex occidentalis) because it is harmless and has two definite advantages, it tunnels and doesn't have sticky feet.

"Most ants don't tunnel, and therefore would not be any good in ant houses. And if they had sticky feet, they'd walk up the glass."

Barber said his ants are guaranteed to live for months if given the proper care, and the proper care means:

"The less you do, the better off they are."

Directions come with the Anteriums, but the main rules in the upbringing of ants in an Anterium is not to put the ant house in the sun, and don't feed the occupants too much sugar and water.

Barber says the usual life-span of an ant is two years, and that he also sells replacement vials of ants.

However, he warned against mixing old ants with new ones.

"They'll fight and kill each other."

Barber's father, T. H. Barber, has been in the ant house business for 20 years, and his son has helped him for the last 10 years. Bill took over the business three years ago, about the same time he entered Colorado University as an accounting student.

And the way business is booming, young Barber will need plenty of accounting know-how. Money is coming in hand-over-fist.

He even won \$50 on "What's My Line."

He stumped the panelists.

King Olav Can't Vote

OSLO — King Olav's name has been crossed off the election reg-

ister at Asker, where he lived and voted as Crown Prince. As Norway's monarch he is not allowed to vote.

Chemical Sales Rise

NEW YORK — The chemical industry, now the nation's third

largest, reports that sales in 1937 totaled a record 24.4 billion dollars — 7 per cent over 1936 and 122 per cent above 1935.

Steel Output Higher

Iron Age Magazine estimates steel production in the Detroit area this week at 70,450 tons or 51.8 per cent of capacity.

The scheduled production is the highest since the week ended Feb. 15 when production was 52 per cent. Last week's actual production was 66,500 tons or 48.9 per cent of capacity.

A-Missile Ship Ready for Navy

Talos Armed Cruiser Goes Into Commission Today at Philadelphia

PHILADELPHIA (AP)—The Navy commissions its first missile warship today, a cruiser that carries an atomic weapon capable of destroying unseen planes or surface vessels more than 65 miles away.

The cruiser Galveston, freshly painted and its brass shining, officially goes into service 13 years after it was launched. Sponsoring the commissioning is Mrs. Clark W. Thompson of Galveston, wife of a Democratic congressman from Texas' 9th Dist.

Principal armament of this first of the Navy's new fleet of missile cruisers is the deadly Talos, a 20-foot-long rocket-shaped missile that can reach into the stratosphere for a kill. It, too, was 13 years in the making. Two powerful launchers on public view for the first time today.

The 1½-ton Talos was produced by the Bendix Aviation Corp. It is powered by a 40,000 horsepower ramjet, travels faster than a bullet, farther than the biggest Navy guns and higher than any bomber.

It can be fired in less than a minute after the target is spotted on radar, bearing either a nuclear or conventional warhead.

The Galveston was launched in 1945 but was placed in reserve without being commissioned.

Conversion to a missile cruiser began 20 months ago. It will be completed by September for a shakedown cruise to the Caribbean.

Clergymen outnumber bartenders about three to one in the state of Texas.

Freight Train Without Tracks Used by Army

NEW YORK (UPI)—The Army Transportation Corps is now operating a trackless freight train high above the Arctic Circle which is capable of carrying nearly 100,000 pounds of military supplies across the deep snows.

Steelways, official publication of American Iron and Steel Institute, says there are only three of these trackless steel trains in existence. One serves as a cross-country freighter in Alaska and the other is used for desert haulage by R. G. LeTourneau, Inc., Longwood, Texas, which manufactures the vehicles.

The Arctic train consists of a 29.5 ton "locomotive" equipped with tires ten feet high and four feet wide plus several 15-ton flatbed trailers and is manned by a crew of six. The train, which measures a city block in length, is powered by a 600 horsepower diesel engine with a fuel tank that holds 500 gallons.

Insurance Benefits Rise

DETROIT (AP)—The Institute of Life Insurance says Michigan families received \$32,710,000 in death benefit payments under 17,851 policies during the first three months of 1958. The institute says this compared with \$29,794,000 under 16,269 policies in the corresponding 1957 period.

To Honor Dr. Hatcher

DETROIT (AP)—Dr. Harlan Hatcher, president of the University of Michigan, will receive an honorary doctoral degree June 15 at Lawrence Institute of Technology's annual commencement exercises. Hatcher will make the commencement address to more than 250 graduates.

Ohio and Pennsylvania lead the U.S. in the production of lime.

French Youth Favoring Love

Survey Held by Paris Weekly Reveals Most Feel They're Happy

PARIS (UPI)—Most of France's new generation feel happy and 80 per cent of them consider love a thing of some importance.

Such are some conclusions of a survey conducted by the French Institute of Public Opinion for the Paris weekly "L'Express."

The survey began with a query more fundamental and more crucial than a dozen \$64,000 questions: "Are you happy?"

To this, 24 per cent of the young men and women answered, "Yes, very happy." Sixty-one per cent said they were fairly happy, only 14 per cent submitted a "not very happy." One per cent—perhaps struck dumb by the enormity of the question—made no response.

The institute polled representative members of a generation now aged 18-30 and totaling 8,000,000—nearly 20 per cent of France's population.

It found that the new generation carries on, in at least one important sense, the grand French tradition. For when asked if love were important to them, the youths responded:

Very important... 48 per cent
Rather important... 32 per cent
Slightly important... 13 per cent
No importance... 5 per cent
No opinion... 2 per cent
"Love is as important as life," said a 28-year-old schoolteacher. "When you stop to think about it, it's about the only luxury available."

An 18-year-old secretary said, "Love? I don't know what it is, but it must be important if people talk about it so much."

Loyalty in love was considered

essential by 91 per cent of those polled. Only five per cent felt that fidelity was not essential. Four per cent had no opinion.

Eighty-two per cent felt that faithfulness applied equally to both sexes, while nine per cent answered that it was especially important for women.

Senators Pushing Jobless Pay Bill

WASHINGTON (AP)—The Senate drove today toward passage of an emergency jobless pay bill after overwhelming rejection of an effort to make basic revisions in the system.

The measure, already passed by the House and endorsed by the Eisenhower administration, would authorize federal advances to the states for a temporary extension of unemployment benefit payments.

A major issue still to be settled is whether the extended payments will be optional with each state, as the House voted, or whether they will be made mandatory, as President Eisenhower originally asked.

Senators seeking to strengthen the bill contend it is virtually useless, but on the first test vote yesterday they were defeated 63-21.

Four ounces of dehydrated potatoes equal two pounds of fresh potatoes.

TED SMITH'S PRESENT REFRIGERATOR

Clark Kimball, manager of The Good Housekeeping Shop of Pontiac presented Mr. and Mrs. Ted Smith of 51 S. Anderson Street a new General Electric Automatic Refrigerator in connection with the activities of our First "Appliance Fair". The Fair ran from May 1 through May 10. It was an exceptionally good day for the Smiths because Mr. Kimball made the presentation on the Smiths' Wedding Anniversary date.

Boy, 11, Killed by Car

MONROE (AP) — Thomas Benton, 11, of nearby Temperance, was killed Tuesday when struck by a car while delivering newspapers near his home eight miles north of the Ohio state line.

Push-Button Stripper Could Shock Taxpayers

PITTSBURGH (AP) — Chief Clerk Murray W. Snyder of Allegheny County appeared before the county commissioners and read a request for an "all-purpose push-button stripper."

"What will the taxpayers think," said Commissioner Howard B. Stewart. "Read that again."

Snyder then said the request was for an "all-purpose push-button stripper." It's an \$8,600 machine used to paint traffic stripes on roads.

Main Issue of Our Time, Says Dulles A-Bombs or Ministers?

NEW YORK (AP)—Which of two types of plants is to survive—the kind that turns out ministers or the kind that turns out atom bombs?

This, John Foster Dulles said last night, is the issue of our time, perhaps the issue of all time.

The secretary of state addressed

a dinner of the Board of Directors of Union Theological Seminary. Afterward he and Mrs. Dulles saw their only daughter, Mrs. Lillias Hineshaw, receive her bachelor of divinity degree from the seminary.

"Out in Tennessee there is a plant which turns out bombs," Dulles said at the dinner.

"Here is a plant which turns out ministers of the Gospel."

"The two seem remote and unrelated."

"Actually, the issue of our time, perhaps the issue of all our human time, is which of the two outputs will prevail."

Dulles, a former member of the seminary board, is the son of a Presbyterian minister. The secretary is also a ruling elder of the Brick Presbyterian Church here.

"Our great theological seminaries, more than any other institutions, are the mainsprings of the spiritual life of our people," Dulles said.

"They are in reality the central power plants upon which men must, above all, depend not merely for their spiritual salvation, but for their material safety."

Mrs. Hineshaw, 43-year-old mother of four, follows her father's faith. Her husband, Robert, is a Quaker.

She has already passed her ordination examinations and hopes to get a part-time job as an assistant minister and be ordained in the fall.

School Gives Diplomas, Then Gets Them Back

PARIS, Ky. (AP)—North Middletown High School handed out diplomas to 22 seniors, then took them back.

The next day the class returned for final examinations. It wasn't an oversight.

Bad weather and a flu epidemic forced North Middletown to extend the school term, but it couldn't work out a satisfactory date for commencement exercises after final examinations.

Officials decided to give out the diplomas—unsigned.

Seniors who pass will get their back—signed—in an informal ceremony Friday.

New Industry Prospects Arrive With Summer

MARSHALL (AP) — Michigan communities interested in attracting new industries should look for them during the next three months on their own streets.

Don Weeks, director of the State Economic Development Department, told an industrial workshop that communities should search for industrial prospects among their summer visitors.

"There will be scores and scores of industrial prospects among the thousands and thousands of summer visitors," he said. "The community that wants new industry can find some of them by looking hard and selling hard."

Two Ask Reduction of Prison Sentences

ST. LOUIS (AP) — T. Lamar Caudle and Matthew J. Connelly, former Truman administration officials, have asked for probation or reduction of their prison sentences.

Both were convicted in June 1956 by a U.S. District Court jury for conspiracy in an income tax case. They were sentenced to two years in prison and fined \$2,500 each.

The U.S. Supreme Court last week refused for the second time to act on their appeals.

In the petition to District Court here, Connelly claimed his family has no other source of support outside of his income as a public relations consultant. He listed former President Harry Truman and former Secretary of State Dean Acheson as character references.

Caudle's plea, said he was a "victim of circumstances."

Highway Bonds Sale Approved

\$100 Million Loan Will Add 250 Miles of Roads in Michigan

LANSING (AP) — Sale of 100 million dollars in state highway bonds bearing an average interest rate of 3.30732 has been approved by the State Administrative Board.

The board at a special meeting yesterday acted after the Highway Department received a single bid from a syndicate headed by Blythe & Co., Inc., and including six other bond houses.

Alfred H. Lawrence, chief of the department's finance division, described the interest rate on the 25 year bonds as "very favorable under the circumstances."

The huge borrowing, largest for highway purposes in state history, will permit a speedup in road work under the state's one and one quarter billion dollar, five year road construction program.

It will finance 245 miles of new highways to be placed under contract this year and in 1959, including some 180 miles of four lane divided construction.

Lawrence said the bond market had softened in recent days, largely because of reported plans of the federal government to refund several billion dollars in outstanding issues.

The issue will be distributed by Blythe and associate investment firms through 267 dealers across the country. The bonds carry an "A" rating. Through maturity, their interest yield will amount to nearly 45 million dollars.

Automobiles used by the White|presidents. They are leased to the|at nominal rates because of the House are not the property of the|government by the manufacturers|publicity value.
