

Ziegler Discloses Arterial Road Plan

Fisher Plant Included in GM Expansion

Program Calls for 1,840 Miles of Construction

First Priority Routes to Be Under Contract Within 9 Months

LANSING (AP) — State Highway Commissioner Charles M. Ziegler today disclosed his plans for a 10-year, \$1,213,000,000 arterial highway construction program.

The program, complete with priorities, provides for 1,440 miles of rural four-lane, divided limited-access highways at a cost of \$613,000,000 and approximately 400 miles of similar construction in urban areas at approximately \$600,000,000.

Ziegler said he would have 233 miles of first priority routes costing \$77,000,000 under contract with construction started in most instances within the next nine months.

He said he would ask for bids on some of these jobs in July and the remainder in August and September.

A second list of priorities covering 305 miles of new construction at a cost of \$124,000,000 will be contracted for by the winter of 1956 at the latest, Ziegler said. The third list of priorities covers 280 miles at a cost of \$126,000,000, the fourth list 220 miles at a cost of \$111,000,000 and the fifth list 400 miles at a cost of \$175,000,000.

If the new federal aid program now before Congress develops adequately, Ziegler said, the state's construction program will expand to \$200,000,000 a year within the next two years.

STATE SPENDING
The state is spending between \$70,000,000 and \$75,000,000 a year now. While this arterial program is progressing, Ziegler said, the state will be spending \$30,000,000 a year plus federal aid on state trunklines. (Continued on Page 2, Col. 4)

Pontiac GM Locals Vote Soon on Pact

Members of the three local General Motors UAW-CIO units will be among some 350,000 GM workers who will vote between now and June 29 on ratification of the three-year contract signed last week by the company and union.

Sunday, members of GMC Truck & Coach Division Local 594 and Fisher Body Division Local 596 will cast ballots on accepting the contract. At two meetings Tuesday, Pontiac Motor Division Local 653 members are scheduled to vote. Ratification by the rank and file members is all that remains before the contract goes into effect. If the agreement is ratified it will be retroactive to May 29.

Surrenders

DAVID P. DAWSON

David Dawson Gives Self Up

Lake Orion Car Dealer Object of Search on Embezzlement Count

Lake Orion auto dealer David P. Dawson, sought more than two weeks on an embezzlement charge, gave himself up this morning at the Oakland County Sheriff's Dept. Dawson, 31, who did not comment on his recent whereabouts, was taken immediately to Lake Orion where he was to be arraigned before Township Justice Helmar G. Stanback.

He is charged with embezzling \$28,862 from the Universal CIT Credit Corp. branch office here between Oct. 27, 1954 and May 18 of this year.

The credit firm charges that Dawson, owner of Dave Dawson Inc., a Ford dealership, sold 17 cars and trucks and a tractor without turning any funds over to them as stipulated in contracts between Ford dealers and CIT.

Under the contract, the dealer agrees to hold new cars in trust when they are delivered from the factory. When sold, the wholesale price of the cars is turned over to the credit firm.

In business at Lake Orion for the past three years, Dawson is the son of Stanley Dawson, former Detroit Chevrolet dealer.

He leases a 12-room, \$75,000 home on an 8-acre estate at 3516 E. Draher Rd., between Lake Orion and Oxford.

Dawson's firm was closed last week by civil authorities on a writ of attachment issued in Circuit Court on request of CIT officials.

Health Insurance Rises

NEW YORK (AP)—About two out of every three Americans—101,493,000 men, women and children—were covered by some form of voluntary health insurance at the last count, the health insurance council reported.

Several Bills Signed

Governor Approves Ban on Charity Horse Races

LANSING (AP)—Major bills signed into law by Gov. Williams today included those to:

1. Forbid horse race meets for charity.
2. Allow the Conservation Department to give clear titles to persons who have "squatted" on filled lake bottom lands held in trust by the state for all the people.
3. Establish a Board of State Canvassers composed of two Republicans and two Democrats.

The horse race bill, which takes effect Oct. 14, was designed to block a proposed sale of the Michigan Racing Association track at Livonia to two Texas millionaires, Clint Murchison and Sid Richardson. They proposed to devote the track to a charity, Boys, Inc.

The sale reportedly was dropped in the face of legislative hostility and opposition by church groups.

The land sale bill, also effective Oct. 14, will give 8,000 to 10,000 persons final title to land they pre-empted if they pay the state 30 per cent of the appraised value before improvement.

The Board of Canvassers' bill takes effect immediately. The two major political parties have five days in which to nominate three persons for each of their two positions.

Require dairy inspectors to identify themselves before entering private property and to maintain certain sanitary standards.

Standardize the location of traffic signals at intersections and forbid banners and decorations which interfere with clear view of traffic lights.

Require the state to make up the difference between what local units pay for the death or disability of peace officers and \$5,000.

Pontiac Traffic Survey Report Released Today

Will automobiles, the economic life-blood of Pontiac, eventually spell disaster to the city's downtown business section because of their ever-increasing numbers? Will downtown streets become so clogged with vehicles that people will avoid the heart of town and take their business to outlying shopping centers?

The answer is yes, according to a 3-month traffic study just released by the city's new traffic engineer. The only solution lies in a series of changes in street, traffic signal and parking patterns, the survey indicates.

A complete report of the survey's findings and recommendations is on Page 19 of today's Pontiac Press.

Meanwhile, City Manager Walter K. Willman is preparing to put some of the recommendations into operation — on a trial basis — as soon as possible. A meeting of city officials is set for Monday to establish a priority list.

Moving and re-spacing of parking meters probably will be the first suggestion followed, Willman said. To follow may be establishment of one-way streets, timing of traffic signals and use of police officers at busy intersections during rush hours.

"Whatever changes come about will be made on a trial basis to get the reaction before we completely decide," he emphasized.

Molotov Speech May Backfire

Blow to Soviet Peace Drive Seen in Rehash of Cold War Issues

SAN FRANCISCO (AP)—Western diplomats said privately today that Russia's V. M. Molotov may have dealt an unintentional blow to his own peace offensive by raising anew all the major cold war issues.

Some small countries were plainly disappointed, but one Western diplomat expressed the belief that the U.N.'s anniversary meeting needed something like Molotov's speech yesterday to jolt it back to reality.

As the session opened its fourth day, there still was little public comment on the Soviet foreign minister's speech and his challenge to the West to make the next move in reducing world tensions.

French Foreign Minister Antoine Pinay was second on today's list of speakers.

A later speaker, Nationalist China's Foreign Minister George Yeh, was almost certain to blast Molotov's demands that Red China be seated in the U.N. and that Formosa be handed over to the Peiping regime.

Belgian Foreign Minister Paul-Henri Spaak said of Molotov's speech:

"The entire tone was conciliatory and the speech is certainly worthy of the West's attention."

Others said privately, however, they felt Molotov would have been much more effective if he had stuck to his peace bid and omitted any reference to controversial issues. They also felt he made a mistake in blaming the West for the cold war.

Brig. Gen. Carlos P. Romulo of the Philippines said Molotov's speech was "the same old broken record." He said he thought Molotov had violated the rules of the anniversary session by raising controversial questions and criticizing other nations.

Secretary of State John Foster Dulles said:

"I will save my reactions to Mr. Molotov's speech for my own talk on Friday."

Just Wanted to Help

CHICAGO (AP)—For weeks irate motorists were complaining that they were being ticketed for over-parking although the time on parking meters had not run out. Yesterday police discovered the reason: Thomas Ponczko, 13, he said he had been slipping pennies into meters beside ticketed cars because he felt sorry for the motorists. A magistrate fined him \$2 to be inserted penny by penny in parking meters.

Peron Mops Up Revolutionaries, Rumor Bearers

Argentine Chief Plans 4th Address to People in National Crisis

BUENOS AIRES (AP) — Backed by new pledges of military and political support, President Juan Peron pushed a dual campaign today against those who tried to overthrow him in last week's bloody revolt and persons spreading rumors of upsets still to come.

Emerging with his grip on Argentina intact, Peron arranged to deliver tonight his fourth broadcast to the nation since the revolt.

To counter one persistent rumor that Army Minister Franklin Lucero had supplanted Peron as Argentina's strong man, a government spokesman predicted last night that the President soon would end Lucero's special post-revolt powers as temporary chief of all armed services.

Gen. Lucero himself in a broadcast last night saluted Peron as "the President of the nation and commander in chief of all the armed forces." The general called on the troops to "obey loyally and permanently the mandate of the sovereign people."

Statements pledging loyalty to Peron were issued yesterday by the six-million-member General Labor Confederation (CGT), the President's chief political bulwark, and by both the men's and women's Peronista parties.

FALSE REPORTS
The roundup of rumor mongers followed repeated statements by Lucero that numerous false reports were circulating and should be ignored.

Federal police announced 14 persons were arrested for spreading untruths in Buenos Aires province, which surrounds the capital city but does not include it.

The progovernment newspaper La Epoca reported at least six arrests in the capital.

Releases from the presidential press secretariat reported the President carrying on his duties normally.

Cloudy Skies, Cool Weather Seen Here

Pontiac residents may look for continued cool weather and cloudy skies, according to late forecasts from the U.S. Weather Bureau.

Temperatures will reach a low of 52-56 tonight, and tomorrow will go as high as 76 degrees. It'll be cool and cloudy Friday night, too, says the weatherman.

The mercury mounted 20 points from before 8 a.m. in downtown Pontiac today, hitting 75 degrees by 1 p.m.

Newspaper Advertising Reaches Highest Peak

NEW YORK (AP)—Newspaper advertising in May was the highest for any month on record with 260,380,913 lines, 11 per cent higher than May 1954. Media Records reported today on the basis of a 52-city survey.

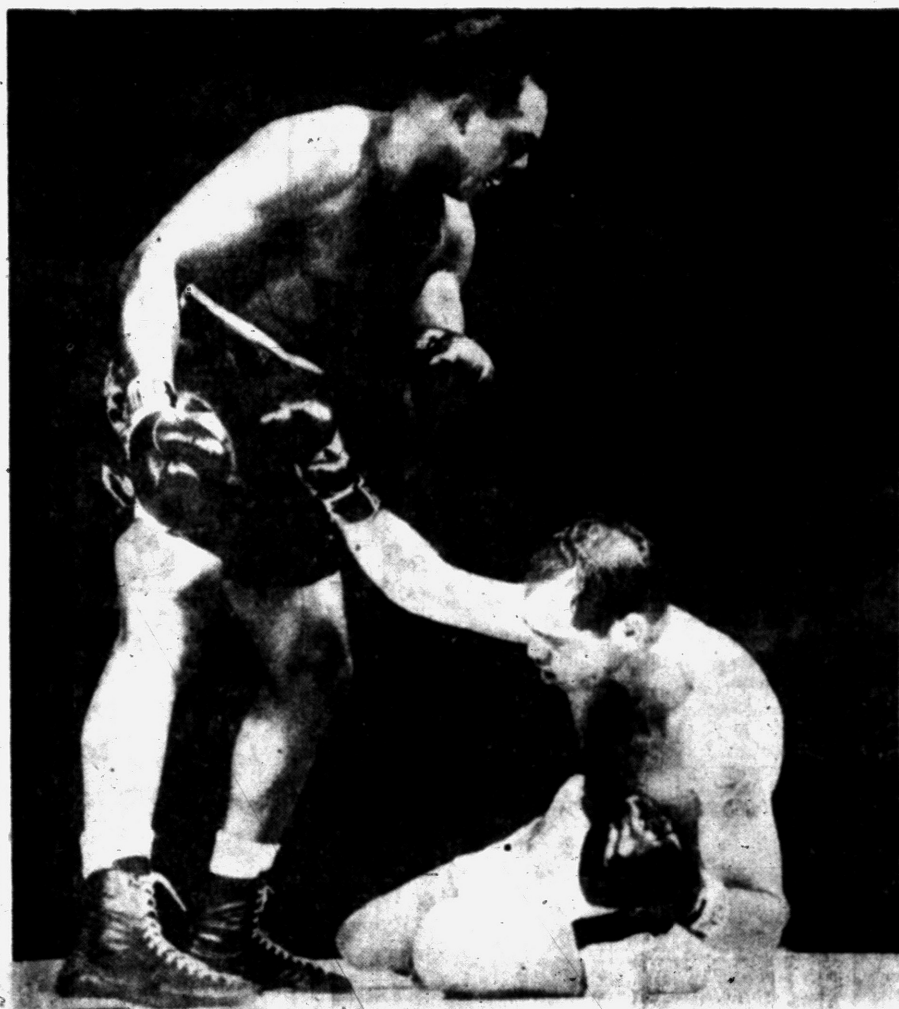

Analysis of May newspaper linage in the 52 cities shows that records were set in the following categories:

Retail—Highest May on record, 137 million lines, 8.3 per cent over last year.
Department Stores—Highest May on record, 52 million lines, 8 per cent over a year ago.
General—Highest May on record, 37 million lines, 5.2 per cent over a year ago.

Automotive—Highest of any month on record, 18 million lines, 26.3 per cent over a year ago.
Total Display—Highest of any month on record, 195 million lines, 9.2 per cent over a year ago.

Classified—Highest of any month on record, 65 million lines, 16.6 per cent over a year ago.

Bobo Belted — Left Uppercut Did It

DOWN AND OUT—Lightweight Champion Archie Moore stands over the falling Bobo Olson after left uppercut in 1:19 of the third round of last night's scheduled 15 round bout in Polo Grounds last night.

'Give Formosa to Communist China,' Result of Bulganin-Nehru Meeting

MOSCOW (AP)—The Premiers of Russia and India came out, jointly today for the surrender of Formosa to the Chinese Reds.

They also urged a U.N. seat for Communist China and a ban on atomic weapons.

The declaration was signed last night by India's Prime Minister

Nehru and Soviet Premier Bulganin, and published this morning at the end of Nehru's 17-day visit to the Soviet Union.

The statement contained little that the two men or their governments had not said before. But it was the first time they had said it together.

Nehru and Bulganin called also for a "simultaneous and substantial reduction of conventional armaments" with "effective international control." They cited the recent Soviet disarmament proposals as a "substantial contribution to peace."

The document was published less than three hours before Nehru boarded a plane for Warsaw to spend three days before pushing on to Belgrade, Vienna, Rome and London.

The crowds which lined the streets this morning to see Nehru off numbered far less than the estimated million which turned out for his arrival.

Nehru was accompanied to the airport by Bulganin, Soviet Communist party chief Nikita S. Khrushchev, Deputy Premier Georgi Malenkov, Defense Minister Georgi Zhukov and other Soviet leaders.

Bidding the Indian leader farewell, Bulganin hailed the joint document as "a solid basis for further development between our two countries and as an example to the rest of the world of peaceful coexistence."

In Washington, the State Department said it would have no immediate comment.

Gronchi Seeks New Premier

Italian President Talks With Politicians About a Successor for Scelba

ROME (AP)—President Giovanni Gronchi began his search today for a premier to replace Mario Scelba, Italy's fourth government chief in the last two years.

The pugnacious little anti-Communist quit yesterday after 15 months in office, a victim of revolt within his own Christian Democrat party. Following parliamentary custom, the President asked Scelba and his Cabinet to stay on until a successor is found.

Gronchi scheduled a series of conferences on the crisis with leading political figures, starting with ex-President Enrico de Nicola. Next to be received was Giuseppe Pella, leader of the rebellious right wing of the Christian Democrats and one of the chief architects of Scelba's downfall.

The next Premier, almost certainly will come from the Christian Democrats—the largest single faction in the Chamber of Deputies—despite the differences between right and left wings and the personal feuds that have strained party unity.

He could be any one of several leading political figures, Pella, ex-Premier Amintore Fanfani and Budget Minister Ezio Vanoni were most frequently mentioned.

Modernization Plans Scheduled at Factory Here

New Tools, Equipment, Layout Slated in Big Expenditure Program

General Motors' Fisher Body Division plant in Pontiac will be included in the new tooling and modernization phase of the \$500,000,000 capital expenditure program announced by the corporation yesterday.

A division spokesman said plans call for new tools and equipment and revised layout at the local factory.

GM's Fisher Body Division, which has plants all over the country, will add more than 4,500,000 square feet to its present 21,000,000 square feet of facilities.

James E. Goodman, GM vice president and general manager of Fisher Body, announced the division's expansion and modernization program includes two new stamping plants.

Mansfield, Ohio, has been chosen as the site of one new plant. The other will be built at a site yet to be determined. Each plant will contain 1,776,000 square feet of floor space.

Goodman said another 970,000 square feet of new construction will be added to seven existing plants. The program also calls for extensive new tooling and modernization facilities.

TO CONVERT PLANT

Fisher Body's medium tank plant at Grand Blanc, which completes its defense contract in August, will be converted to a stamping plant. The plant now contains 1,200,000 square feet. It will be expanded by 384,000 square feet.

Fisher Body Plant No. 21 in Detroit will be converted to an assembly plant for special body lines. The plant formerly was devoted to process development activities now located in the Fisher Body facilities at the GM Technical Center.

Plants scheduled for new construction and modernization are located in Atlanta, Ga.; Baltimore, Md.; Los Angeles, Calif.; Norwood, Ohio; St. Louis, Mo.; Lansing and Grand Blanc.

Plants in Oakland, Calif.; Tarrytown, N. Y.; Pontiac and Detroit are included in the modernization program.

Goodman said this is in addition to modernization programs already completed at the Fleetwood plant in Detroit and nearing completion. (Continued on Page 2, Col. 3)

Pontiac Tot Dies in Auto Accident

Cheri Smith, 3, Killed Four Others Injured in New York

Cheri Smith, a 3-year-old Pontiac girl was killed and four other Pontiac people injured yesterday in a 2-car collision on Route 17, several miles west of Bath, N.Y.

Kenneth Smith, 38, 822 Baldwin Ave., the girl's father, was reported in serious condition at Bath Memorial Hospital with a brain concussion and shock. His wife, Beatrice, 33, was in fair condition with multiple fractures of the jaw.

Two other passengers in the Smith car also were injured. Charles Gilbert, 16, was reported in serious condition with a fractured right forearm and a punctured leg. Kay Bently, 14, suffered shock and was listed in good condition.

They were reported to have left Pontiac Saturday morning to attend the funeral of Smith's brother. The driver of the second auto, Bernice Armstrong of Avoca, N.Y., was uninjured.

Steuben County deputies said the collision occurred during a heavy rainstorm when the Armstrong vehicle, traveling east, skidded on a curve into the westbound lane, turning completely around.

Police said the Smith auto crashed into the rear of the skidding vehicle.

Highway Study Report Given

Plan Group's Engineer Submits First Half-Year Findings

Oakland County Plan Commission Highway Engineer Robert A. Larson has submitted a report covering the first half-year of work on the commission's highway study.

Traffic-volume counts for Oakland roads have been obtained from the State Highway Department and the County Road Commission. Others are being sought from local government units.

A county-wide traffic flow map has been drawn for 1954. County roads are being rated as to adequacy of pavement width, subbase, and drainage related to the number of cars they are carrying and are expected to carry.

Adjoining counties have supplied maps and data on their major road systems which will aid in designing highways to prevent bottlenecks at county lines.

Detroit city, Wayne County and Michigan Turnpike Authority plans all are being taken into account in the study.

Accident and congestion surveys are aimed at making dangerous stretches of road and heavy-accident intersections safer.

"A comprehensive, long range plan for reconstruction and new construction is the objective being sought in the study," said Larson.

Planning Director on Water Committee

The Oakland County Plan Commission has authorized its director, George N. Skrubbe, to serve as secretary of the Supervisors' water committee.

County Planner Noland R. Heiden also will work providing technical assistance to the committee. The Oakland-water group was formed to combine with similar committees in St. Clair and Macomb Counties in efforts to solve the tri-county area's long-range water problems.

British Ladies Sew Nightshirts for Ill Eskimos

SITTINGBOURNE, England (U.P.)—Ladies of the local sewing circle are making nightshirts for Eskimos of Canada's Far Northwest—where the nights are six months long.

Normally, Eskimos don't bother much with nightshirts. Fur is the fashion. But the cloth garments are needed when they go to a hospital, a missionary explained on a trip here recently from Canada.

The 12 Sittingbourne sewers set to work immediately. So far their score is 16 flannelite nightshirts and 14 pairs of pajamas, in both plain and striped material.

One problem was size, said Miss Margaret Sellen, a sewing circle leader.

"We understand that Eskimos are rather small so we've used patterns for rather large children. We hope they'll fit."

Injunction Is Asked Against 4 Strikers

An Oakland County Circuit Court injunction was asked yesterday by the F. B. Melin furniture company, 25 S. Saginaw St., against striking members of the Retail, Wholesale and Department Store Union Local 352-A (CIO).

The firm seeks an initial order stopping picketing now in progress and a further ruling declaring the strike illegal.

The company claims four employees, William Welt, Joseph Black, Ray Hayes and James Lee, are engaged in an unauthorized wild-cat strike.

Pickets also appeared yesterday and today at a Melin affiliate, the Merchandise Surplus Store, 15 E. Pike St.

ANN GOES HOME — Little Ann Hart, daughter of Lieutenant Governor and Mrs. Philip A. Hart, leaves the Sister Kenny Hospital in Detroit yesterday after a 10-month bout with polio. Ann is accompanied by Mrs. Hart (left) and a nurse who is unidentified.

Federal Farm Planners Take Slap at Mosquitoes

WASHINGTON (INS) — Federal farm-plan architects perpetrated the citronella curtain today with a detailed blueprint for extermination of that hated summer saboteur—the mosquito.

An official plan for extinction of the pesky, buzzing insect, published by the Agriculture Department, is entitled: "Mosquitoes—How to Control Them on Your Property." It is readily available to all mosquito-plagued Americans on request from the department's information office.

The pamphlet contains a series of recommendations, which—if followed to the letter—would make the mosquito as scarce around your campsite or picnic area as Democrats at a draft-Eisenhower rally.

All doubt is dispelled in the introduction to the blueprint as to where the attack should be aimed. It is not against the kindly, flower-loving male mosquito, but against his lethal, blood-thirsty spouse.

MALES HARMLESS — Only the female mosquito thrives on human blood and implants dangerous diseases in the human body. The male feeds on flower nectar and plant juices.

The evil from which the mosquito springs is standing water—be it dirty or clean, salt or fresh.

According to the department's researchers, mosquito eggs can hatch unless they are laid on water or on places that become flooded. The larva or wiggler, which is the infant form of the mosquito, must have water to live in.

The department does not, however, suggest that the earth be rid of its lakes, oceans, ponds or rivers to kill off the mosquito.

NINE WAYS — It suggests nine ways to eliminate mosquito breeding places. All pertain to draining, covering, filling in, or emptying receptacles, cesspools, rain barrels, tubs, old tires, tin cans, bird baths, rain gutters, flat roofs, swamps, pools, and other places where water can become a breeding ground for mosquitoes.

Where standing water cannot be eliminated, the department urges that it be sprayed with any of a number of insecticides that kill off the wigglers before they grow to blood-sucking adulthood.

In open gatherings—such as picnics and lawn parties—the blueprint calls for the use of any of a number of insecticides.

To protect yourself against direct attack from the female mosquito, the department urges use of repellents—all of which have unpronounceable names but which give hours of protection.

GM Expansion Plan Lists Fisher Body

(Continued From Page One)

at Janesville, Wis., and Kansas City, Mo.

ADD TWO NEW PLANTS — After adding the two new plants, Fisher Body will operate 35 plants in 21 cities in 11 states. The division also supplies seven additional GM assembly plants in this country and 22 foreign plants.

GM President Harlow H. Curtis announced yesterday the half-billion dollar expansion program for the world's largest industrial firm and termed it a "measure of our faith in our country." It brings to two billion dollars the total GM expansion program announced by the corporation since January of 1954.

The latest program contemplates construction of approximately 6,300,000 square feet of additional floor space. Fisher Body Division gets a major share of this.

Curtis said most of the investment will be for new machine tools, presses and other facilities to expand passenger car production.

Scholarship Plan Set — ANN ARBOR (U.P.) — The Institute of Public Administration at the University of the Philippines, founded as a sister institution to the University of Michigan, is offering a scholarship program to develop trained civil servants.

Philippine President Ramon Mag-saysay said, "I recognize the need for employees who are especially trained in public administration." The institute is staffed by University of Michigan faculty members.

Halt Salk Shots, Doctor Urges

Polio Expert Suggests Inoculations Stop Until Serum Is Perfected

WASHINGTON (U.P.) — Dr. Albert B. Sabin, a leading polio expert, recommended yesterday that inoculations be suspended and the manufacture of Salk vaccine discontinued until, as he put it, a less dangerous preparation can be perfected.

The recommendation was made before a House investigating subcommittee.

Sabin is with the Children's Hospital Research Foundation at Cincinnati.

Sabin suggested that new polio strains be identified and substituted for the "Mahoney" strain which now goes into manufacture of the Salk vaccine.

He recommended that manufacturers stop production and that inoculations be suspended until next winter or early next year when the dangers of a summer-time polio season are past.

Ziegler Discloses Arterial Road Plan

(Continued From Page One)

not included in the arterial system. He estimated that a highway study being conducted by the Legislature will show a total highway need on the trunkline system of 3 1/2 billion dollars, at least half a million of it critically needed.

Ziegler said prompt priority has been given to routes constituting the worst traffic hazards. On many of these, surveys and construction plans are available and right-of-way has been obtained pending the acquisition of more funds.

Ziegler disclosed his program at a press conference "to give the people of the state a full and complete picture of their highway situation and what they can expect" from the 1 1/2-cent gas tax increase passed last month.

The major question mark in more specific planning, Ziegler said, is the amount of federal aid which will be available to match state money.

MUST RELAY ROADS — Ziegler disclosed that the routes on the interstate system will require relaying of entire new roads because of the federal requirement for limited access.

Thus, he said, U.S. 16 between Detroit and Muskegon will not follow the present route because it is cheaper to acquire a new route than attempt to buy up existing access points and expand the existing highway. The existing roads will go back to the counties through which they pass.

Included in the first priority list are: U.S. 23, 34 miles, Fenton to north of Clio; U.S. 12, Ann Arbor to South Belt; U.S. 16, 22 miles, Brighton to east of Farmington.

On the second priority list is U.S. 23, 16 miles from Ann Arbor north to U.S. 16, and on the third priority list, U.S. 23, 10 miles from M59 north to Fenton; M29, 15-mile extension of Edsel Ford Expressway through St. Clair Shores and north to U.S. 25.

An 11-mile project on M53, from Washington south to 17-Mile Road is on the fourth priority list, along with U.S. 12, 30 miles, Jackson to Ann Arbor; M21, 29 miles from Flint east to Imlay City.

Of the total U.S. national income, labor's share increased from about 59 per cent in 1929 to more than 67 per cent in 1949, and is still rising.

The Day in Birmingham

Former Mayor D. S. Bell Settles \$400,000 Suit

BIRMINGHAM—A \$400,000 damage suit filed against Donald S. Bell, former mayor, businessman and long-time resident here, was settled out of court Wednesday at Phoenix, Ariz., for an undisclosed amount. It was revealed today.

The suit was filed by the estate of Robert L. Lasswell, who died along with his six-month old son following an auto accident in which Bell was involved Dec. 28, 1954.

Mrs. Lasswell charged Bell, former funeral director who was mayor from 1949-1950, with careless and negligent driving at the time of the fatal accident near Benson, Ariz., where Bell now lives.

She had sought \$250,000 in compensation, and \$150,000 in exemplary and punitive damages.

The Board of Education's request to the Oakland County Road Commission that Derby road be paved has added another problem, that of storm drainage facilities to service the new Derby Junior High School.

Board members attending this week's meeting agreed to secure revised cost estimates on changes from original plans, brought on by a State Health Department ruling.

City Engineer L. R. Gare addressed the board, explaining that storm drainage from Derby must cross the school site at the southeast corner of Derby and Adams. This will not be allowed by the state until the Twelve Town Drains project, undergoing delays, shows evidence of nearing completion.

The project will ease the sewer overload in the southern portion of the county, which is already plagued by basement flooding.

Another unanticipated delay puts the board in the position of having to house Birmingham High School students elsewhere than the 11-classroom addition under construction.

Originally scheduled for a Sept. 1 completion date in time for the opening of the fall term, construction of the addition is running at least six weeks behind schedule due to unexpected ground and weather conditions.

The board's reorganization meeting will be held on July 1.

The Recreation Board has announced that the Barnum School pool will be open for adult swimming from 7 to 9 p.m. on Thursday evenings, at a small fee. The pool will be open additional nights if the need arises.

A tennis tournament, with awards presented the boy and girl winners, will be held shortly in the novice class.

Mayor Charles Renfrew almost got himself in the doghouse at this week's City Commission meeting. Renfrew turned the meeting over to Mayor pro-tem James C. Allen so that he might make a motion that funds be advanced for studies to establish a dog pound for use by communities in the southeastern portion of Oakland County. But he got no support.

A lengthy discussion had preceded his motion. Mrs. Marion LeFevre, president of the Oakland County Animal Welfare Society, pointed out the merits of an area dog pound. Other board residents, however, commended the city in its operation of Birmingham's pound.

A few openings remain in a 16-day program being offered by the YMCA for 5 to 7 1/2 year old girls and boys. Edwin Kierbit, director, will be assisted by Ethel Didier, Barbara Stinson and Judy Mikulas. Crafts, group games, boating, swimming and a few trips are

Sylvan Water System Work Starts Today

Water main installation crews were slated to begin initial operations on the city of Sylvan Lake's municipal water system today, according to Ernest L. Ethier, city manager.

Workers were scheduled to begin laying the big pipe at the east end of Garland, Ethier said yesterday.

Ethier noted that Sylvan Lake taxpayers have until next Thursday to pay in full the special assessment for the system without having interest charges added.

The manager also announced that the city council has set July 13 for a public hearing on the ap-

plication of the Grace Lumber Co. for rezoning property on Orchard Lake road "business-retail" classification to "business-wholesale."

Michigan's Prosperity Will Continue 6 Months

LANSING (U.P.) — Gov. Williams was told by his economic advisers today that Michigan appears to be headed for prosperous times for at least the next six months.

Economic analysts of state agencies, Michigan State College and the University of Michigan reported that even if unfavorable factors develop they cannot make much impact until after six months have elapsed.

The experts told Williams that the nation's economy can be disturbed only by inflation or deflation.

PONTIAC MOTOR DIVISION

Illinois Starts Fight for Purge Litter Bugs

SPRINGFIELD, Ill. (UP) — Illinois is conducting a campaign against "litterbugs" who leave trash in state parks. Conservation Director Glen D. Palmer said it is a movement

to "prevent litter from soiling the natural beauty of our landscape and actually endangering the health and safety of the people."

Terrence S. Martin, custodian at Starved Rock State Park, reported he keeps three men busy four hours every week day just

picking up bottles, tin cans and papers. Two more men operate a truck hauling away litter.

The lieutenant-governor of Ontario takes precedence over those of other Canadian provinces in respect to federal ceremonies and occasions.

Boy Shoots Up Town

GLASGOW, Mont. (AP) — A four-year-old boy shot up the town with a .22 caliber rifle. The shots went unnoticed until a passerby saw a bullet hole in the plate glass door of a store. A check showed that two other bullets had struck the

stone on the building near the door. Police found that the boy had been alone in a car parked across the street. He told them that he had no trouble firing the gun.

At certain times of the season, parasites are quite common in fish.

... Sealed and Delivered

BOON ISLAND, N. H. (UP) — Coast Guardsmen on this tiny coastal island were given some ammunition and an order for a 90-pound seal for Prof. Clark Stevens of the University of New Hampshire. Soon afterward, they turned

in a seal of the requested size — and all the ammunition. They said a two-by-four plank and a little chasir was all that was necessary.

More Bibles have been published in the past 10 years than were printed in the preceding 40 years.

Another Texas Story

DALLAS, Texas (AP) — The Rev. Terry Atkinson figures he preaches in a land of milk and honey: they had to cut down a bee tree to enlarge his church at Annona and cows wander in and out of the rural church's parking lot.

Thors' Long Career in Education Near End

By HAZEL A. TRUMBLE

Thirteen thousand, two hundred and sixty-six high school diplomas signed in the firm hand of John Thors Jr., tell a graphic life story of a man who this year climaxes a distinguished career in Pontiac public education.

Retiring from his post behind the principal's desk in Pontiac High School at the end of the summer months, he asks neither eulogy nor glorification for his quarter-century of service.

"A man who has done his job needs no praise. The opportunity to serve is compensation enough."

This is a sample of the philosophy of this direct, forthright man whose only evidence of 65 years is the statistical record.

Another important part of his philosophy hangs in three simply framed American documents on the school office wall. They, too, tell the story of the man behind the desk. Side by side are the American Creed, Lincoln's Gettysburg Address and the 10 Articles of the Bill of Rights.

John Thors took over the principalship of Pontiac High School in 1930 after five years as assistant principal. Prior to that he had been an instructor in the Pontiac Junior College for a period of nine years.

Trained to be a geologist, his interests in rocks waned, he relates, "when I met a girl and she was the finest thing that ever happened to me."

Ethyl Travis of Pontiac became Mrs. John Thors Jr. in 1920. They have one daughter, Mrs. Walter R. Eis of Bloomfield Hills.

Principal Thors was born in Bessemer—the Upper Peninsula mining region of Michigan—attended the University of Michigan and was associated with the Cheboygan schools for some time.

During World War I he served as director of the Hoover Relief Commission for the Baltics.

NO OTHER CAREER

Would he choose education again if he had an opportunity to select another career? "Absolutely," he replies.

"My father and mother told me many times that everyone has a

mission in this life which should involve service to his fellow man. What better way is there to contribute to posterity than by working with young people?"

Queried on the prevalent idea that boys and girls today are not as well educated as a few decades ago and do not have the grounding in the "3-R's" skills, a smile framed the warm blue eyes.

"I recall that each generation since time immemorial has made the same charge," he observes. "Actually," continues this man who has worked with boys and girls for 40 years "youngsters today are the same as their fathers and mothers before them. However, today there is more opportunity to develop. On the whole I would say they are just as intelligent, just as well trained as their predecessors—perhaps, even a little better."

Declaring that this new generation can do no worse job with the world than the present one, John Thors said that it is certainly a maze of problems which have been bequeathed to them to solve.

NOT DISTURBED

He says he is not too disturbed about the hue and cry raised over juvenile delinquency.

"I am much more concerned over adult delinquency. Eliminate this, and we won't have to worry about the kids. The best lesson in life is still taught by example."

Under the guidance of Thors, a fine education program has been developed at Pontiac High School emphasizing academic and college preparatory training as well as a top-notch vocational department.

He is the originator and founder of a series of self-perpetuating scholarships at the University of Michigan, Michigan State College, Eastern Michigan College at Ypsilanti, Albion College and Wayne University for the graduates of Pontiac High School.

Started in 1944, an initial investment of \$6,000 was sent to each institution of higher learning to be reinvested with the proceeds to be added to the original fund. The recipients of these scholarships are picked by the college from a list of applicants sent annually from the Pontiac High School, the first school in Michigan to establish a continuous scholarship program. The Pontiac plan will grant four years of aid to a student, provided the scholastic marks have been maintained.

John Thors resolutely believes that there should be a higher "premium on brains." Irrespective of family finances, he states, a boy or girl who has the brains,

the intelligence and the willingness to work, deserves assistance.

He proposes that, if necessary, government should "subsidize brains." This complex world calls for good thinkers. It should be our business to seek them and give them a chance to develop for the good of the entire country.

RANGE OF INTERESTS

John Thors' interests range from the finest of classical music to 18 holes on the golf course.

"Now I am satisfied with 18 holes. I used to be quite enthusiastic about the second round, but I'm willing to stop at one-half of the 36 now."

He likes, too, to fish, read and smoke the blackest cigars. Living in a community, he has always believed, presupposes an interest in civic affairs of the town. He has been active in service organizations and church work and plans to continue these affiliations.

What are his plans when he hands out his last diploma following the close of summer school in August?

"They haven't jelled. I've been part of schools so long it will take a little while to find just the right niche."

Quarter-century Principal—John Thors Jr., will retire as Pontiac High School principal at the end of August after a 25-year stint in that position. Recognized as one of Michigan's outstanding educators and school administrators, he founded the self-perpetuating scholarship plan for worthy Pontiac High School graduates which is now functioning at five state institutions of higher learning.

Report Released on City Traffic Conditions

By ARNOLD S. HIRSCH

A report detailing what steps must be taken to prevent Pontiac from becoming a traffic-strangled ghost town has just been released by T. M. Vanderstempel, city traffic engineer.

The report, result of a three-month study of vehicle and pedestrian movement in the downtown area, lists four basic and a number of lesser recommendations. The four:

1. Lengthen the green-amber-red traffic light cycle on Saginaw street between Auburn and Lafayette to provide a more steady flow of traffic.
2. Delay pedestrian signals for 10 seconds after vehicular traffic receives the green light so cars can complete right or left turns, thus avoiding stagnation in the lane of traffic behind the turning car.
3. Eliminate parking or standing along the curb 50 feet back from the intersection to make turning easier.
4. Lengthen parking spaces at meters to 23 feet, making it easier to park and lessening delay to traffic behind.

Other recommendations:

1. Three one-way streets.
2. "Cloverleaf" movements to avoid left-turns at narrow intersections.
3. "Face-to-face" left-turn lanes at wider intersections.
4. New streets.

5. New traffic signal.
6. New intersection.
7. Allow right-turns at intersections where now banned.
8. Police direction of traffic at key intersections during rush hours.

Vanderstempel warns that traffic on the city's two main thoroughfares, Saginaw and Huron streets, is already operating at 25 per cent above capacity during peak periods.

"This overloading will increase gradually from year to year," he notes. "When the saturation point has been reached, it may be necessary to take further drastic steps to insure continuous flow of traffic."

"If this is not done... it is evident from past experiences that real estate values will decrease in the downtown areas and that commercial establishments will suffer from a continual decrease in the returns on their investments."

2,050-CAR CAPACITY

A capacity of 2,050 cars per hour "is considered tolerable," the report states. Peak-hour load on the two streets now is 2,573. Eliminating parking entirely would increase capacity to 4,020 per hour, according to statistics.

Busiest downtown corner, pedestrian-wise, is at Saginaw and Lawrence Sts., surveys show. There,

31,147 persons crossed in the 6 a.m.-6 p.m. period tabulated.

Heaviest-traveled intersection by autos is Saginaw-Huron, where 23,349 vehicles passed in the 12-hour period surveyed.

In explaining the recommendations, Vanderstempel's report states that during rush hours vehicles are unnecessarily delayed by the short cycles of traffic signals which do not allow the vehicles to clear the intersections.

Traffic, in the lane next to cars parked along the curb, is often delayed three or four minutes because vehicles desiring to make a right turn are often prevented from doing so by pedestrians, the report relates.

By banning parking 50 feet back from the corner, cars wishing to turn right may do so in the lane next to the curb, thus allowing through traffic to continue in the second-from-the-curb lane.

Parking spaces currently range from 18 to 23 feet, the report says, "and were originally laid out when the length of an automobile was considerably less than what it is today."

PARKING LOT NEEDED

Lengthening spaces to 23 feet and eliminating parking 50 feet from the corners would eliminate 52 meters, the report states. To make up the loss, it recommends construction of another municipal parking lot for at least 100 cars.

One-way operations are recommended for Mt. Clemens street between Saginaw and Mill (east-bound). Huron between Mill and Douglas (also eastbound) and Mill street from Huron to Lawrence (southbound).

Also advocated is abolishment of left-turns off Saginaw into Warren street, which "will benefit the smooth, rapid flow of traffic northbound along Saginaw."

SUGGESTS 'CLOVERLEAF'

"Cloverleaf" turns (three right-turns to replace a single left-turn) are suggested for southbound and northbound traffic on Perry at Huron, southbound on Perry at Mt. Clemens, and eastbound on Huron at Perry.

Where streets are wide enough, Vanderstempel urges a common left-turn lane along the center line. (The plan is used on several Detroit streets.)

Possible new thoroughfares listed are an extension of Mill through to the intersection of Perry and Milbourne. "Another possibility for through traffic may be created along Parke and Seneca from Auburn to Perry," the report states.

A new traffic signal is recommended at Mill and Huron.

A new intersection is strongly urged at Saginaw and Auburn-Orchard Lake. But for the time being, Vanderstempel recommends a new system of traffic signals at the jog.

"Ultimate solution of this complex and dangerous traffic problem will be continuance of Orchard Lake straight east across Saginaw, curving southeast into Auburn."

While not listing specific locations or action, the report states, "The flow of traffic in tributary streets is in many cases unnecessarily slowed down because of right-turn prohibitions into major thoroughfares."

Use of policemen between 2 and 6 p.m. is recommended on Saginaw at Huron, Pike and Lawrence. The report notes:

"In Pontiac, the drivers of vehicles obey traffic signals but only a very limited number of pedestrians feel compelled to do so.... The pedestrian, however, will obey the officer's traffic whistle...."

LATEST PERSONAL PLANES—Want your family to become airborne? The light plane with plastic wings in the top picture will soon go on the market in Italy for about \$1,300. Shown in Naples, the small craft weighs just over 500 pounds, reaches 90 m.p.h. and can land in a space less than 150 feet long.

In the lower photo is the French-designed Morane-Saulnier 760, a 4-place twin-jet pressurized airplane. It has a top speed of 410 m.p.h. and was unveiled by Beech Aircraft Corp. of Wichita, Kan., which has an option to manufacture and distribute the craft throughout the U.S. and Canada.

Clarkston 'Author' Gets Early Start; Produces First Book at Age of Eight

Ronald Horton is a writer. There is nothing unusual about this—except that Ronnie is only eight years old.

Asks New Gas Tax Be Paid by Month

LANSING (AP)—Sen. Creighton R. Coleman of Battle Creek, the Republican Senate floor leader, proposed today to break a cash bottleneck in Michigan's impending new road program.

Coleman, sponsor of the legislative bill which provides for a 2,000-mile arterial highway system, said he had been advised by State Highway Comm. Charles M. Ziegler that the program would go more smoothly if a 1½-cent gas tax increase could be paid to the Highway Department on a monthly rather than a quarterly basis.

Coleman said he agreed that the new law gives the additional money to the department on a quarterly basis, although the issue has been presented to Atty. Gen. Thomas M. Kavanagh for a ruling. On a quarterly basis, the Department would get no increase between July and October.

Relatives of the youth called the Pontiac Press yesterday to inquire whether there was a special school where Ronnie might learn more about writing.

"You see," explained his grandmother, Mrs. Floyd Dobson, of Clarkston, "Ronnie has written a book."

Inquiry brought out the fact that Ronnie had written the book, which is about butterflies and horses, for the benefit of other children.

As he explained to his grandmother, "I want to write for other children like Lauren (his sister who is three) so that they can understand about these things."

To ascertain the quality of his work, Ronnie and his mother, Mrs. Melvin Horton, of Clarkston, were asked to bring the book to the Press.

The book, very neatly typewritten by the boy himself, proved to be a short and rather factual one, with crayon-colored illustrations at the bottom of each page.

In one instance, the young author had even taken the trouble to catch a real butterfly and affix it to a page along with a drawing of one which had alighted on a flower.

Ronnie, who will be a third grade student next year at Andersonville School, likes spelling best and gets 'A' in that subject.

This is the first book the boy has ever written, but he intends to continue his chosen career. The next story he writes, he says, will be all about birds.

A bright lad in many other ways too, Ronnie is a regular "idea man," according to his mother and grandma.

He likes to make things. He fashions model houses of wood and also makes bird houses. And the boy has built two dog houses.

One time, his folks had a flower garden right out in front of the house, but dogs often cut through the garden, crushing the delicate flowers.

So Ronnie had an idea. He told his dad to form a sort of elevated flower box of stones, filling the inside with dirt. Thus the problem of protecting the flowers was solved.

The slight, brown-haired youth, for all his studiousness, is just like all the boys when it comes to play.

He, like others, has succumbed to the current Davy Crockett craze, and has all the attire including coon-skin cap — lacking only Davy Crockett shoes.

Lately, Ronnie has been interested in reading books leaning toward the scientific.

And the youth presently has one wish. He recently said to his mother: "Someday soon, I'd like to go to a big library, where I can just look at all the books."

Test Questions Cause Confusion

Gotham Students Flunk Regent's History Exam; Teachers Critical

NEW YORK (INS)—Know what the purpose of the Embargo Act of 1807 resembled? Or what delayed the ratification of the Articles of Confederation?

Neither did a large number of New York state high school students who recently failed the regents examination in American History. Even the teachers were critical of the exam.

The increase in deficient grades on the exam was so high that New York City Superintendent of Schools William Jansen is considering an administrative ruling to authorize academic diplomas for seniors who failed the test.

Normally, to qualify for the academic diploma, students must pass the history, English and world background regents and tests in their electives.

At one New York City School the so-called normal 15 per cent rate of failure jumped to about 27 per cent. Other schools have not computed statistics.

The answers to the two questions above:

The Embargo Act and the neutrality legislation of the 1930's were similar in purpose; cession of western lands by the states held up adoption of the Articles of Confederation.

Addresses Vermont Crowd of 25,000

Ike Urged to Run for Second Term

RUTLAND, Vt. (AP)—President Eisenhower travels into New Hampshire today after laughing off a jocular plea—with a serious undertone—that he seek a second term.

It was in New Hampshire's 1952 presidential primary that he got an early boost toward the White House.

Eisenhower, on a tour of northern New England, arranged to fly to Concord, N.H., this afternoon for an address from the steps of the State Capitol.

He arrived in Rutland from Washington yesterday. At the fairgrounds he told a crowd estimated by police at 25,000 that America always will extend "the olive branch" of peace "to all who will take it in honesty and integrity." But he stressed that the United States also intends to remain strong.

The plea that the President seek a second term was voiced by Sen. Aiken (R-Vt.), who in introducing Eisenhower referred to him as "a part-time farmer." The allusion was to his farm at Gettysburg, Pa. With a broad smile, Aiken added:

"It is my earnest hope that he will remain a part-time farmer for some time to come—say around five or six years."

That brought a big round of applause. Aiken then went on to say that much progress toward lasting world peace has been made under Eisenhower.

"Certainly we can spare one farmer to carry on this noble work," he said, touching off another burst of applause.

Eisenhower laughed heartily but in his talk a moment later gave not the slightest hint of his 1956 plans.

Within an hour after he left the flag-bedecked platform he was casting happily for trout in fast-running Furnace Brook near his overnight headquarters at Mountain Top Inn, Chittenden. He caught three in about 75 minutes but decided they were too small to keep.

Last night, at a dinner at Chittenden, Vermont's Gov. Joseph B. Johnson named the President colonel commander of the Green Mountain Boys Brigade.

Ethan Allen, Vermont hero of the Revolutionary War, headed the brigade in those days. Johnson told the guests—about 75 were activated as an honorary brigade.

"I never had a day where I really felt I had a right to say I've made more friends in a single day than I have today, I feel fine," the President said.

In his speech at the Rutland fairgrounds, Eisenhower said America must be determined in its search for peace, but "we must not sacrifice principle for mere expediency." He said further:

"We merely want to live in peace with all the world, to trade with them, to commune with them, to learn from their cultures, as they may learn from ours."

The President will drive to Laconia, N.H., tonight and make an informal address to a group of farm leaders. He will spend tomorrow and Saturday morning in New Hampshire, and go on to Maine for a weekend of fishing at Lake Umbagog. After speaking Monday at Skowhegan, Maine, the home of Sen. Margaret Chase Smith (R-Me.), he will fly back to Washington.

JUMP FOR JOY—Wearing the full gear of a paratrooper, this civilian jumper moves out of a fast-moving Hastings plane to "hit the silk" over Frensham Commons near London. He is one of the Londoners who become parachutists and "jump for joy" on weekends. During the week they are bankers, lawyers, clerks, policemen, doctors, plumbers and what-have-you. When Saturday comes, they change into the rough khaki and red beret of the parachute regiment and special air services. On Monday morning they are back in the city on their various jobs with a scratched face or a bruise here and there as the only traces of their exciting "hobby."

Work Begins on Christian Science Church at Rochester

Ground Broken for First Unit

Structure to Be Built in Two Parts at Cost of \$100,000

ROCHESTER — Construction is scheduled to begin on a \$100,000 Christian Science church, the first in Rochester. Ground was broken this week at the corner of Woodward and North Main Sts. for the first unit of the structure.

The church will be L-shaped, of contemporary design, and will be built of cedar, elongated brick and ecclesiastical glass.

Part 1 in a 2-part building program includes the immediate construction of the stem of the L which will house the Sunday School, reading room, nursery, foyer, utility room and heating plant.

Also to be built now is a section of the auditorium which will seat about 100 people. Ultimate capacity will be between 175 and 200.

ENTRANCE IS OF GLASS
The 1-story structure will feature a prow-shaped entrance way of glass, with a 15-foot overhang and a planter framing its base.

The building, which will measure 111 feet along Woodward, will have 4,300 square feet of floor space now, with 2,000 to be added as soon as the complete building fund goal has been reached.

The church will be set back 55 feet from the Main street sidewalk, and about 40 feet from the Woodward street side. A large parking area in the rear will include a sunken garden when the addition is completed.

The second unit of the building program will consist of service rooms, a readers' platform and additional auditorium area.

MEETING IN AVON HALL

Currently the church is holding its Sunday services in the Avon Township Hall. Wednesday evening meetings are held in the Avon Township Library Auditorium.

The church was formed some 25 years ago, with members meeting in the individual homes.

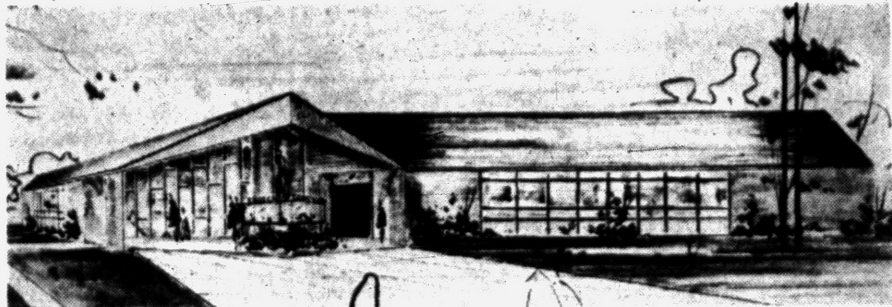

The new structure is designed by H. E. Beyster & Assoc. of Detroit. It is being built by the Bundy Construction Co. of Pontiac.

Court Action Starts to Gain School Site

MILFORD—Condemnation proceedings to acquire a 40-acre tract for the new Milford High school got under way yesterday in Oakland County Circuit Court.

A jury was selected June 8, and yesterday were brought to Milford to examine the proposed site, which is on North Milford Road, halfway between Highland and Milford.

Also examined by the jury was a similar property in the area. The school board offered approximately \$300 per acre, but owner Major G. J. Largess of Rockville, Maryland, placed the valuation of the property at \$2,000 per acre.

CONSTRUCTION STARTED — Ground breaking has been held and construction is under way for the first Christian Science Church in Rochester. The building will be located at Woodward and North

Main streets, and is scheduled to be completed in the fall. Of L-shaped, contemporary design, it will cost in excess of \$100,000, officials indicated.

Residents Attend 'Open House'

Inspect Expanded Facilities at Farmington State Bank

FARMINGTON — Residents of the Farmington area turned out to inspect new, expanded facilities at Open House festivities today at the Farmington State Bank, Grand River and Farmington Rds. Doors will remain open until 7 p.m.

The bank has enlarged its quarters by installing a new lower lobby, coordinating its loan departments into one centralized section and expanding commercial and savings departments.

Three sidewalk windows on the Grand River avenue side of the building will provide fast, convenient customer service for motorists.

Increased safety deposit facilities are provided in the spacious lower lobby. New booths will afford privacy for deposit box holders, and additional vaults will make the service available to all customers.

Lions Club Sets Pet, Doll Parade for Wednesday

ROCHESTER—The 11th annual Pet and Doll Parade sponsored by the Rochester Lions Club will be held at 1:30 p.m. Wednesday, followed by a theater party for the children of the area.

Approximately 500 children took part in the event in 1954. The affair is limited to those 12 years old and under.

Chairman Martin Stemmer said today that entry blanks are being distributed to children of the area through merchants and Lions Club members.

There will be 10 classes, including horses, bicycles, dogs, dolls, floats, costumes, unusual pets, fowl, hobbies and cats. Two prizes will be awarded in each class.

The parade will form at 12:30 p.m. at the rear of the American Legion Hall.

County Calendar
Commerce
The Commerce Gay Timers Square Dance Club will hold its June dance at Hal Brown's barn, Clarkson, at 8:30 p.m. Saturday.

Orionville
OES chapter 386 will hold a cafeteria supper and ice cream social from 5-9 p.m. Friday at the Masonic Hall.

Four Towns
The Elizabeth Russell Guild of Four Towns Methodist Church will meet at 8 p.m. today at the church for a social meeting.

MR. AND MRS. M. G. VAN GORDON

Marlene J. Muscat Wed in Morning Nuptial Mass

WALLED LAKE—A 10 a.m. Nuptial Mass united Marlene Jean Muscat and Milton Gene Van Gordon Saturday at St. William Church, before 400 guests.

Parents of the couple are Mr. and Mrs. Victor A. Muscat of 215 Wainwright St., and Mr. and Mrs. Lloyd Van Gordon, of 2600 Union Lake Road, Waterford Township.

The bride's gown was floor-length, of Chantilly lace, tiered from the bodice down. She carried white rose buds centered with a white orchid.

Carrie Aguis of Detroit was matron of honor, and bridesmaids, duties were taken by Barbara Stevens and Pat Quick.

Victor Muscat was the best man, and guests were seated by ushers Irwin Van Gordon, Melvin Van Gordon, Maurice Van Gordon, and Fred MacCallie.

A reception followed at the Amvets Hall in Wixom. A Wallied Lake residence will be home for the couple, after a trip through Northern Michigan.

Install 5 Trustees to Board of Library

WEST BLOOMFIELD TOWNSHIP—Five new trustees have been installed to membership in the West Bloomfield Township library board.

Placed in office were Mrs. Claude Sprunk, Mrs. Arthur Mowrey, Mrs. Edward Sintz, Mrs. Wendell Moore, and Mrs. Richard A. Freund.

They replace members who left the board when Keego Harbor incorporated.

Mrs. Sprunk has been named chairman of the book committee; Mrs. Freund is chairman of the program committee; Mrs. Sintz heads the housing committee, and Mrs. Arthur Mowrey was appointed chairman of public relations.

Mrs. Moore accepted the office of secretary of the board.

Marion Frances Seger Engaged to Max Wells

OXFORD—Mr. and Mrs. Wilbur J. Seger of 3146 Farrand Rd., Chgo. former Oxford residents have announced the engagement of their daughter, Marion Frances, to Max Wells.

He is the son of Mr. and Mrs. Lee Wells of Lake Orion. No date has been set for the wedding.

Stewart C. Dell Marriage Is Double-Ring Ceremony

AUBURN HEIGHTS—An 11 a.m. double-ring ceremony at St. Hugo of the Hills joined Katie Placko and Stewart C. Dell Saturday.

For the service the bride wore a fitted lace gown, Princess style, of light blue, with a veil of illusion lace, fingertip length. She carried gardenias.

MRS. STEWART C. DELL

Steve Placko of Monroe is the father of the bride. Mr. and Mrs. Saul Dell are the parents of the bridegroom.

Sister of the bride Mrs. Darold Bussell was the matron of honor, and Mrs. Herbert Knapp and Elaine Stordel were bridesmaids. Jack Frank and Ervin McDonald seated the guests, as ushers and Charles Prue assisted the bridegroom as best man.

A reception was held at the home of Lloyd Dell, brother of the bridegroom. After a two-week trip to Colorado, the couple will live in Pontiac.

Picnic Slated Tonight

NEW HUDSON—A picnic at 8 p.m. today will begin the closing of the Methodist Church Bible School, which will end Friday.

Pick Ortonville Girl for Methodist Tour

ORTONVILLE—Sally Joann Miller of Seymour Lake road is one of five young people of the district selected to take a 2,000-mile trip in the United States to see "Methodism at work."

Sally, the daughter of Mr. and Mrs. Clark Miller, will start on the tour July 5 and return July 11. The trip will cover parts of seven states and will be by chartered bus.

Sponsors of the tour are the Detroit Conference of Methodists, the WSCS, the MYF council and the Board of Missions. Sally is a member of Seymour Lake Methodist Church and president of the MYF group.

United Nations experts believe one-tenth the human race — 260 million people — live in China's Yangtze river basin.

State for India Sect

Schoolmaster Attempts to Gain Autonomy for Sikh Warriors

NEW DELHI — A fiery schoolmaster is determined to create an autonomous state for Sikhs — the "lions" of India. He is causing some anxious moments for government officials.

The six million Sikhs, a warrior sect within the Hindu religion, are concentrated in Punjab state but are a minority there. Some of the more extreme Sikh nationalists want a new state, with a Sikh majority, carved out of the Punjab and neighboring states.

The Sikh demands carry potential dynamite in an India where religious tensions sometimes explode into bloody rioting. The Sikh nationalist agitation last year resulted in riots in Amritsar and Ludhiana. This spring Punjab officials banned the shouting of slogans in organized processions.

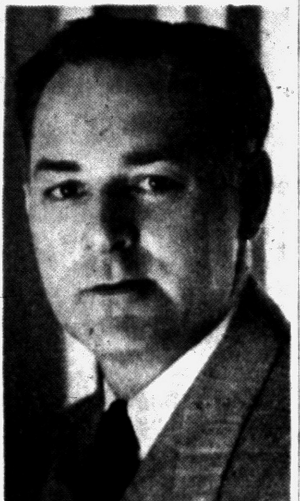

The ban was a signal for the Sikh extremist organization, the Shiromani Akali Dal, to launch a "morchas" — literally, an agitation. It started with Sikhs first going to their temples, then walking into the streets shouting slogans in open defiance of the government ban. The "morchas" still is going strong although thousands of Sikhs have been arrested, including the Akali Dal leader, Master Tara Singh.

His title of "master" derives from his former schoolmaster career. His flowing white beard matches his white robes and white turban. He does not hesitate to talk in terms of revolution, bloodshed and "direct action" to achieve his objective.

The word "Singh," meaning lion, is part of every Sikh's name. It designates him as a fearless warrior. The Sikh was established in 1675, partly as a reform movement within Hinduism, partly as

Orthodox Sikhs do not cut their hair or beards, for they refuse to let a knife touch their skin—unless it happens in battle. Turbans cover their long hair. Their religion requires each to carry a dagger.

Orthodox Sikhs do not cut their hair or beards, for they refuse to let a knife touch their skin—unless it happens in battle. Turbans cover their long hair. Their religion requires each to carry a dagger.

LYNDON SALATHIEL

Organist to Stage Recital on Sunday

As part of the all-day program at Oakland Avenue United Presbyterian Church Sunday, Lyndon Salathiel will present an organ recital at 3:30 p.m.

Salathiel is organist and choir-master at First Presbyterian Church here.

The services Sunday mark the thirty-fifth anniversary of the founding of the Sunday School.

This program will include: "Fantasy in 'A' Minor," Bach; "The Musical Clock," Haydn; "Prelude in 'D'," Clerambault; "The Fountain," Fletcher; "The Music Box," Lladow; "Psalm Ninetien," Marcello; "The Filers," d'Andreau and "Reganon in 'A'" by Canpra.

To Question Ex-Red on Bridges Testimony

SAN FRANCISCO — Ex-Communist John Schomaker was called for cross-examination today on his testimony that he persuaded Harry Bridges to sign into the Communist party in 1933. Schomaker testified at the gov-

ernment's civil suit seeking cancellation of Bridges' U. S. citizenship, contending he got it in 1945 by lying about Communist party connections.

Schomaker, a 6-foot-6, said he is unemployed except for occasional work with the Immigration Department on the Bridges case. He has held jobs as hodcarrier, mental hospital attendant and Communist party worker and organizer.

Try Junior Police

DETROIT — The suburb of Roseville has set up a Junior Police Force. Boys and girls 12 to 18 are pledged to help in traffic patrol work, protect public buildings against vandalism and promote good citizenship. They will wear special badges.

The tapir is the largest land animal in South America.

Rutgers Prof Freed of Auto Death Count

NEW BRUNSWICK, N. J. — Dr. Norman F. Childers, a Rutgers University professor, whose car struck a young mother and dragged her four miles, was freed today on death-by-auto charges. A Middlesex County jury found

the 45-year-old professor, who lives in Milltown, innocent in connection with the death of Mrs. Grace S. Frank, 23, of New Brunswick.

Childers, who also is a Milltown councilman, testified he was unaware his car hit Mrs. Frank, and that he didn't realize her body was being dragged until a motorist stopped him. Childers was with his secretary

at Rutgers, Miss Helen Januszewski of Sayreville, in the car. Police testified at the trial that neither Childers nor his secretary was intoxicated.

New York Harbor boasts 24,000 annual arrivals and departures of ocean-going vessels discharging and picking up cargo and passengers, more than any other port in the world. Each month 1,000 ships sail away.

New Plastic Food Wrap Provides Airtight Seal

By JANET ODELL

Pontiac Press Food Editor
You'll find a new skin on some of the meat, poultry and cheese you buy nowadays. This skin is a wonderful plastic material that keeps flavor and juices in and air out. It's called Cryovac.

Air is the number one enemy of all refrigerated or frozen meats, poultry and cheese. It dries out the food, robbing it of its flavor and in some cases turning the food moldy or rancid.

Developed for storing frozen meats and bread in the Maginot line, this saran plastic wrap came to America from France. The name comes from the Greek, "kryos" for cold and the Latin "vacuus" for empty.

Cryovac has the peculiar characteristic of shrinking when it is dipped in water heated to 200 degrees. This means that it clings to the product inside like the second skin we mentioned in the beginning of this article.

A chicken, for instance, is slipped into a loose fitting Cryovac bag. The air is sucked out mechanically and the bag is sealed with a metal clip. It is then dipped into the hot water for just a minute. When it emerges, the plastic bag follows every contour of the poultry. It is absolutely airtight.

The first nationally distributed product to be packaged in Cryovac was frozen turkey in 1947. Liking the results, packers went on to experiment with other foods. Corned beef has returned to popularity.

Before the advent of the leak proof package, corned beef taken from the brine lost its bright red color. Now it looks good, keeps well and carries easily.

Meat and poultry may be cooked

Cheese Sparks Vegetable Bake

If you like to collect meatless main dish recipes that are really unusual, here's one for you to try. It's a medley of vegetables... glamorized with broiled mushrooms and pepped up with sharp cheese.

Cucumber-Cheese Casserole
1 1/2 cups milk
1-3 cup quick-cooking rice cereal
1 quart diced cucumber, unpeeled
1 cup finely diced green pepper
1 cup finely diced celery
1 cup finely diced onion
1 ounce can chopped broiled mushrooms
1 ounce sharp process American cheese
2 tablespoons melted butter
1/2 teaspoon salt
1-16 teaspoon pepper

Scald milk in top of double boiler over boiling water. Add rice cereal and stir until smooth. Cover and allow to cook for 10 minutes. Meanwhile, cook cucumber, green pepper, celery and onion in tightly closed saucepan until just tender, about 10 minutes, using broth from mushrooms for liquid. Drain broth from cooked vegetables into cooked rice; there should be about one-fourth cup.

Stir in cheese, which has been cut into half-inch cubes. Add butter, salt and pepper.

Place vegetables and mushrooms in lightly oiled baking dish, about 10 x 6 inches, and top with cooked rice. Mix together lightly. Bake in moderate oven, 350 degrees, until golden brown, about 25 to 30 minutes. Serve immediately. Yield: Four to six servings.

Hints to Homemakers

Cream one-half cup butter or margarine. Gradually beat in one-third cup of apple juice. Wonderful over pancakes or waffles!

Doing any train traveling? When you have a meal in the diner, a tip of 15 to 20 per cent of the bill will be right.

Dice cooked beets and mix with cream-style cottage cheese; mound on salad greens and serve with crisp crackers.

right in the plastic wrappings. Tuesday we tasted stuffed frozen turkey that had been roasted in the Cryovac. It was delicious. When you roast poultry in this way, slit the wrapper half an hour before it is done, brush it with butter and let it brown.

More and more food will be wrapped in this modern material. Watch for it in your favorite store. You can identify it by the metal clamp which seals the open end of the bag and by the way the saran adheres to the food inside. It's your guarantee of freshness and good flavor.

likes—such as a fine chicken salad—is used as the starting point. Put a mound of it in the center of a platter or chop plate. Then fill in the picture with small mounds of several vegetables and/or fruits, so that each person may serve himself exactly to his liking.

ALMOST ANYTHING GOES!

So many cooked or raw vegetables and many fresh and some cooked fruits just naturally team with chicken salad. Usually, just drawing on what is in the refrigerator or on the emergency shelf, it will be easy to choose at least three or four of each to intrigue the self server.

For instance, your salad centerpiece might be trimmed with any of these: Tomatoes, green peas, asparagus, cucumber, green pepper, carrots or radishes.

For nice accompanying fruits consider: Sliced avocados, pine-

apple chunks, spiced crabapples, white grapes, sliced oranges or bananas.

And for other pass-arounds you might have cranberry jelly, a

Pineapple Cooler Spells Refreshment

Here's a pleasant, refreshing cool drink.

Pineapple Cooler
2 cans (1 pint and 2 fluid ounces each) pineapple juice
1 bottle (12 ounces) carbonated water
Marshmallow cherries
Mint sprigs

Chill pineapple juice and carbonated water. Divide pineapple juice among tall glasses; add ice cubes. Fill with carbonated water. Stir gently.

Garnish with cherries and mint. Makes six servings.

Baste fish steaks with your favorite barbecue sauce when you broil them. Savory fare!

plate of cheese and crackers, some crisp pickle slices and a small dish of chopped or ground nuts for sprinkling on the salad.

If you choose sandwiches (instead of the crackers) make small simple ones of thin bread put together with relish sandwich spread.

Chicken Salad

1/2 cup real mayonnaise
1/4 cup (2 ounces) cream cheese
3 tablespoons milk
1/2 cup finely diced celery
Dash of tabasco sauce
3 to 4 cups cooked chicken, diced
1/2 cup small stuffed olives, halved
Salt and pepper
Salad greens

Blend real mayonnaise and cream cheese thoroughly. Add milk and stir until smooth and creamy. Add tabasco sauce and celery. Let stand in refrigerator while preparing chicken and olives. Toss these with mayonnaise mixture and season to taste. Chill and mound on salad greens. This will serve six generously.

TIPS FOR PARTY

This "chicken salad plus" idea

adjusts wonderfully to a larger picture when you want to serve a most attractive buffet for 18 or 20.

Simply make three times the quantity of chicken salad and use all or nearly all the suggested accompanying fruits and vegetables. Arrange the vegetables in a semicircle around one side of a circular tray and the fruits in the same fashion around the other.

One hostess who painted this party picture had an old tote tray about 30 inches in diameter. Its floral decor was wearing off. Its black background a bit depressing.

She covered it first with one coat of hard white enamel, the kind used on outdoor metal furniture. The scalloped edges she covered with a washable gold paint. Everyone admired the white and gold background of her picture salad and, naturally, no one had ever seen another like it!

Theater Enrolls Students

With registration for the summer term well under way, Will-O-Way Playhouse Apprentice Theater has announced there are still openings in several of its classes. There are several openings in classes for children and a few in classes for adults.

This is the first term since the opening of the playhouse in 1949 that children have been accepted during the summer. This summer there will be classes in age groups from 7 to 9 years old, 9 to 11 years old, 11 to 13 years old, and 14 to 16 years old, as well as adult classes.

There will be two 1-hour sessions for each class for seven weeks, which will begin Tuesday and will run through Aug. 9. Classes will be held mornings, afternoons and evenings on Tuesdays, Wednesdays, Thursdays and Fridays.

Since Mrs. Celia Merrill Turner, director, realizes that family vacations or illness may interfere with class attendance during this time of summer, she has arranged for the students affected to make up any classes they miss, just as is done during the winter term.

This permits the student to keep up with his class and take part in the final public performance that is given at the end of each term.

OUTDOORS CLASSES

Classes will be held out of doors on the grounds surrounding the playhouse as often as weather permits. The Apprentice Theater has its own classrooms, one of which is dubbed the Pig Pen. The Pig

Pen is a complete small theater with its own stage and facilities complete enough to give performances to limited audiences.

All students are eligible to be cast in parts in the playhouse's summer and winter season of professional plays. They are chosen for these parts as the opportunities occur, by William W. Merrill, director, on the basis of merit and ability.

Many apprentices have earned more than the cost of their tuition in a surprisingly short time after being given parts in the summer shows.

In addition to a thorough background in theater, students gain a great deal of poise and confidence, through appearing before their classmates and the public.

Many of their parents and teachers have told of students' improvement in regular schoolwork after training at Will-O-Way's Apprentice Theater because of gaining more poise, confidence and ability to express themselves.

Every effort is made to give a great deal of individual attention to each student. Classes are kept to a limit of 10 for this reason. Where necessary, additional work in remedial speech is given.

Registration for the summer term can be made until the beginning of classes Tuesday by calling Celia Merrill Turner at the playhouse.

Nursing Group Attends Dinner

The Oakland County District Practical Nurses Association met Tuesday evening at Devon Gables for the annual dinner with 29 nurses and three guests present.

Nellie Koster, R. N., administrator of Oaklawn Hospital, Marshall, was the featured speaker.

Mrs. Merrick Conroy, toastmistress, introduced the outgoing president, Mrs. Bethel McAuley, who spoke and presented the new president, Mrs. Allen Dennis.

Other officers include Mrs. Warren Wilson, first vice president; Mrs. Grace Rajah, second vice president; Beatrice Keller, corresponding secretary; Beulah Eisenberger, recording secretary, and Marjorie Dodes, treasurer.

Delma Stricklin accompanied the group for singing. Mrs. William Beske is adviser of the association.

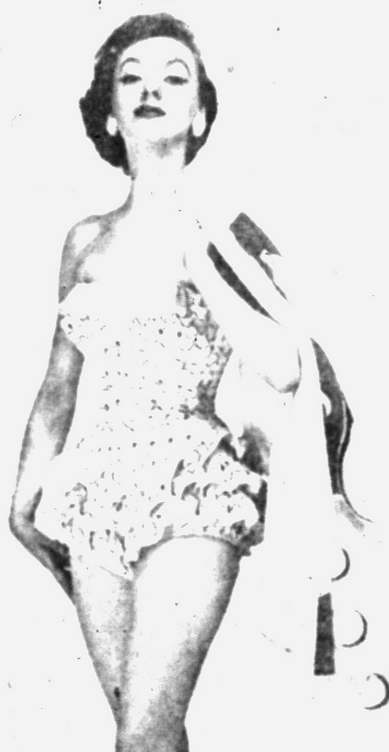

Birthday Party Held by Past Presidents

Mrs. L. B. Arnold had as her cohostess Mrs. Frank Polasek when Zone Eight Past Presidents Club of MOMS of America, Inc., met at the Auburn Heights Fire Hall.

The 18 members and two guests present held a birthday party honoring Mrs. L. R. Naugle. Plans were discussed for a money-making project, with Mrs. Joe T. Marshall as chairman.

Several members are making plans to attend the state board card party to be held Thursday at the Alfred Wilson estate, "Meadowbrook Hall," near Rochester.

Members will entertain their husbands at a picnic during July.

This gingerbread may point cotton dress-piece flatter suit by Catalina has three lace ruffles edged in solid color. It has an elastic shirred front, puckerette back and there is a matching towel.

Members of DUV Attend Convention

Members of Frances C. Butterfield Tent 9, Daughters of Union Veterans of the Civil War from 1861-1865, were well represented at a GAR Convention held recently at Hotel Olds in Lansing.

Attending were Mrs. Velma Baynes, Mrs. Claud Kline, Mrs. Walter Egge, Mrs. Ralph Mills, Mrs. John Beachum, and Mrs.

Foster Baker, past department president of Walied Lake.

Others attending were Mr. Ed ward Dubey of Metamora, Mrs. John Adams, Mrs. Dossa Quinlan, Mrs. Blanch O'Neil, Mrs. William Partow and Mrs. William Van Druska.

Pretty accent for white or black wig and a deep summer tan is a rope of coral to be worn as a necklace or wrapped around one wrist.

Pros Begin Shooting in Western Open

Horse Show Is Started

The 38th annual Detroit Horse Show got under way this morning at the Bloomfield Open Hunt Club, East Long Lake Road, Bloomfield Hills.

Competition in 25 classes is listed today to inaugurate the 11-event, 82-class program, which continues both day and night through Sunday. Honors are sought in three divisions—Hunters, Jumpers, and Western-horses.

Feature events scheduled this morning were the Model Hunter class, with over 20 horses entered, and the American Society for the Prevention of Cruelty to Animals Horsemanship class, listing more than 50 contestants, for riders under 17 years of age.

Over 50 riders were slated to bid for the Gloria Joan Coulson Memorial trophy, in Junior Working Hunters group, at the afternoon session. Miss Lynn Belnap of Barrington, Illinois, defending champion, was entered.

A high point of tonight's show will be the competition for the Midwest United States Equestrian Team Challenge trophy, with more than 20 horses entered. Plenty, owned by P. T. Cheff of Holland, won last year.

Another highlight this evening is the battle for the Sheull Memorial trophy in the Michigan-Bred Hunt class.

Three miniature silver-gray French poodles will be exhibited at the show by members of the Oakland County Animal Welfare Society.

Half the proceeds from the sale

of 50 or more box seats at the Detroit Horse Show will go to the society as a gift from the Bloomfield Open Hunt Club.

Tonight's program starts at 7:30 p.m. Friday's shows are scheduled at 8:30 a.m., 1 p.m., and 7:30 p.m.

Clarkston Wins in 'D', BC, Cass Ponts Victors

Clarkston served notice it will be a strong entry in the Class D City Junior League this season by winning, another practice game Wednesday, 10-4, over Rosebud Market.

Art Caverly pitched 5-hit ball and got hitting support from Larry Leak, who had a perfect day with a double, 2 singles and a walk.

In Class E, Boys Club dumped Dublin Community Center, 3-1, behind the 2-hit pitching of Jerry Orr, who fanned 12, and Cass Ponts shutout Keego Harbor, 3-0, with Terry Lancaster and Terry Zellhart sharing a 2-hitter.

In Class F, a pair of one-sided games were played with Boys Club drubbing Don Nicholite, 22-2, and Dick & Wes thrashing North Side Indians, 17-5.

As usual, the Knott-hole leaguers came up with the wildest games. The Red Sox edged the Whitfield

Cubs in a 15-14 marathon, and the White Sox outlasted the North Side Aces, 11-9.

Tigers routed the A's, 27-1, in 2 innings, and Jim Pittman pitched 3 no-hit innings as GMC shut out Lytle-Colgrove, 20-0.

CLASS D
Clarkston 10, Rosebud Market 4

66 Named for Michigan Mile

Most of Nation's Top Stakes Horses Selected for July 9 Classic

DETROIT—Sixty-six thoroughbreds, comprising most of the horse aristocracy of the nation, have been nominated for the 1955 Michigan Mile, the \$50,000-added classic to be run at the Detroit Race Course, July 9.

Included in the whopping list of nominees is virtually every older Stakes horse who has enjoyed any degree of success in the east or middle-west this season.

Such winners as High Gun, Helioscope, Mark Ye-Well, Artismo, Sea O'Erin, Mister Black, Black Metal, Joe Jones and Duc de Fer have been listed.

And also on the list released by the Detroit Race Course are two former Michigan Mile champions, Spur On (1954) and Second Avenue (1953). With them are the two horses who ran second, Precious Stone (1954) and Eljay (1953).

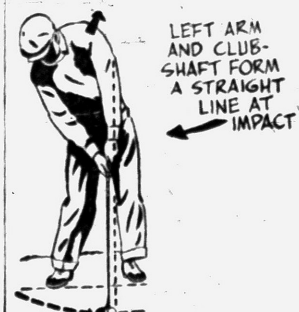

The Michigan Mile, richest race of the season in Michigan, is for horses three-years-old and older at a distance of a flat mile. Weights are assigned under allowance conditions, with top weight 128 pounds.

The 1955 nomination lists Mr. Turf, Artismo, Commonwealth, Ballydam, Second Avenue, Jilted Job, Betty's Beauty, Happy Go Lucky, Mark Ye-Well, Fire Bird, Greatest Arab Actress, Precious Stone, Arson, Mr. Prosecutor, By Far, Money, Broke, My Fault, Queens Beeches, Our Hines, Fabulist, Sea O'Erin, Mister Black, Platan, Rhur Prince, Near, Helioscope, Martini, Montenegro, Joe Jones, Paper Tiger, World Series, High Gun, Spurt On, Two Pined, Sonic, Lychius, Foxy Pilot, Secret Pious, Fly Wheel, Black Metal, Jet Action, Jerry's Gem, Ray Bloom, Tilt King, Best Fleet, Rommel, Mr. Paradise, Ring King, Sneak Free, Duc de Fer, Flay Smoke Screen, Smokehouse, Daylight Express, Hancover, Bright Show, Bronn Knight, Reward, Vantage, Trip Lightly, Speed, O' Light Princess, Trace, Trim Destiny, and Clamor.

Sam Snead's Golf Clinic

Once the downswing is under way, good golfers have their weight forward, as pictured. With the weight forward, hitting leverage is provided.

Notice here, that, at impact, the left side is virtually a straight line; that the left shoulder is rising, thus permitting the

right shoulder to follow under and after the ball; that the left arm and club shaft form a straight line and that the hands, which have now poured in their whip-lash force, are just above the clubhead at impact.

Note that the hands are very slightly in front of the clubhead. This will not cause a slice, because the club designer sets the shaft into the clubhead so that the handle is slightly forward of the clubhead, but even with the clubface.

The purpose is to bring the clubface into the ball with the correct loft and still have the hands even with the clubface at impact.

Snead Favored to Win \$15,000 Portland Test

Both 'Slammer,' Tommy Bolt Record 64s for Practice Rounds

PORTLAND, Ore. (AP) — Most of America's top golfers were expected to resume their par-smashing habits with the start of the Western Open championship today after a week of frustration in the National Open at San Francisco. The field of some 175 which begins teeing off at 7 a.m. includes nearly all of the leading professionals who played on the narrow, rough fairways of San Francisco's Olympic Club course. No one matched the 72-hole par there.

So the pros were happy when they reached the straight, well-groomed 6,604-yard Portland Golf Club layout. The par is 72 here but in practice sessions many have been several strokes under. In one round Sam Snead, the long-driving West Virginian who is ranking favorite in this tournament, blasted out a 64. So did Tommy Bolt, the Houston, Tex., shotmaker.

The 72-hole club record, 261, was set by Ben Hogan in 1945. Snead holds the Western Open record, a 269, scored at St. Paul in 1949. Among favorites are Snead, Bolt, Cary Middlecoff, the 1955 Masters champion, and Julius Boros, the 1953 U.S. Open titlist.

This is a \$15,000 event. There will be \$2,400 for the winner and \$1,800 for the runner-up. Local golfers will make up this morning's starting three-somes. The widely known players will not begin play until afternoon.

Viridon, Boyer Give Cards 2 Rookie Threats

Lary, Maas Are Rated Among Best 1st Year Players in AL

NEW YORK (UP)—The talented one-two punch of Bill Viridon and Ken Boyer put the St. Louis Cardinals in front in the race for National League pookie of the year honors but in the American League it was a wide-open pitchers' battle.

Herb Score of the Cleveland Indians for a while apparently had the laurels wrapped up in the American League with his awe-inspiring fast ball. But lately he has taken a few lumps.

As of the moment, Score's chief threats are Dick Donovan of the White Sox, Johnny Kucks of the Yankees and Detroit huskies Larry and Duke Maas.

Cleveland's Hank Foiles and New York's Elston Howard seem to be playing too infrequently at this time to merit deserved recognition.

Viridon and Boyer's closest National League rivals include teammate Louis Arroyo, the Cubs' Bob Speake, Pittsburgh's Roberto Clemente and Brooklyn's Ed Roebuck.

Wolverines to Start Grid Tests at 1:30

ANN ARBOR — The University of Michigan will begin all 7 of its home football games next fall at 1:30 p.m.

For some years Michigan has begun its home games at 2 p.m. except those late in the season.

Athletic director Fritz Crisler said most alumni indicated they favored the earlier start.

Michigan State athletic director Clarence (Biggie) Munn said "ISC plans to start October games at 2 p.m. and November games at 1:30 p.m."

Raccoon Makes Stand Against Bow and Arrow

NEWPORT, Pa. (UP) — In the best tradition of sportsmanship, Gerald Clouse decided to try his luck with a bow and arrow during the archery season in nearby Perry County forests.

Spotting a raccoon, Clouse raised his bow to shoot, only to have the 'coon jump at him in a surprise attack.

Clouse chose to retreat, dropping his weapon. Looking back, he saw the triumphant animal standing over the bow and arrow.

Michigan State football tackle Norman Masters wasn't allowed to play Detroit grade school football — his then 155 pounds were 20 over the weight limit.

Kelly Victor in Gay-Day Hardtop Race

Rusty Kelly won the 25-lap mid-week hardtop feature at Gay-Day Speedway Wednesday night in the leading event on the 10-race program.

Kelly finished ahead of runnerup Ken Schon and Joe Doyle in 9 minutes, 35.99 seconds. E. Riley was the winner of the 15-lap semi-final and pursuit victors were Doyle and R. Wright.

Heat winners included Benny Howell, Jerry Lafner, C. Powers, Len Macabe and Schon.

Birches Fall Prey to Bark Vandals

LANSING—Bark peeling from birch trees is a growing problem in vandalism.

Conservation Department field workers say many of the white-trees are losing their hides to vandals.

"I don't know how to stop it," says Arthur C. Elmer, chief of the state park system, "but peeling sure changes a beautiful tree into an unsightly mess in a hurry."

The problem has been most noticeable in parks and game areas in the southern lower peninsula.

Barber Chair Interloper Puts Mr. Tycoon in Place

By EARL WILSON

OFF FOR ATHENS—Got time for a short-shortie that I picked up over here?

It's one of those true little tales of Hollywood and Broadway that my wife's always telling me I should write for prosperity.

Yeah, prosperity. To make money out of.

A Hollywood celebrity spun me the story on our Istanbul Hilton trip, so...

Call the fellow "Mr. T"—for Tycoon. He got very rich in a legit business, having been helped a little by his wealthy father dying. He married a beautiful movie star who hated money like bon-bons.

"He's got a lot going for him," as they say.

Don't try to figure out his name. But if you are, well... one little hint. It was recent.

"I'm pretty important," he began thinking—and he was.

He got to telling headwaiters and clerks, "I'm Mr. T"—rather sharply—and before long he was yelling, "Do you know who I am?"

It worked. Pretty soon everybody did know who he was. They may not have cared, but they knew.

One day he was busted into a Hollywood hotel barber shop and hustled to the first chair. A short, squat, unimportant-looking, middle-aged fellow was in it.

"I'm ready!" he announced, glaring at his watch.

"Would you mind waiting 2 minutes?" apologized the barber.

"I'm not quite done with this gentleman."

"Yes, I would mind," snapped the Tycoon. "I had an appointment. Do you know who I am?"

"Oh, I know who you are," gulped the barber. "But..."

"Mr. T" swung upon the obnoxious customer who had the effrontery to just sit there. "Get up!" he commanded. "If you don't... Do you know who I am?"

The little guy ripped the towel from his own neck, wiped off the lather, bounced out of the chair, and walked up and down, scowling, and then he left.

That night, when it was dark "Mr. T" just happened to find the little middle-aged guy out in the driveway desiring to chat.

"Get out of my way!" thundered the Tycoon. "Do you know who I am?"

"Do you know who I am?" replied the little man.

"Who cares?" screamed "Mr. T."

"I used to be with Al Capone," the little man said.

"Mr. T" will be in Europe several months. He suffered a little skiing accident in Switzerland.

THE MIDNIGHT EARL...

Judy Garland may work at The Sands in Las Vegas this Christmas, if they'll build her a new stage... Are the Mickey Jekes expecting?... Marion Brando's newest interest is former N. Y. showgirl Toni Parker... The Mariners, dumped by Godfrey, just signed a three-year, \$100,000 deal with a Vegas hotel.

Donna Reed will play Mrs. G. in "The Benny Goodman Story," with Steve Allen... Toby Gerard is one of the honeys entered in the Miss Tamarack Lodge beauty contest.

Buckingham Palace won't be air-conditioned, after all—the \$850,000 tab is too beastly high... Sammy Davis Jr. bought a new home in Beverly Hills and is hunting an apartment here.

Gloria Vanderbilt Stokowska's newest steady is Dick Cowell... Gloria de Haven's not talking much, saving her voice for her "Seventh-Heaven" role.

Earl's Pearls: A modern country is one which can ban fire-works and produce the H-bomb. That's earl, brother. (Copyright 1955, Post-Hall Syndicate, Inc.)

Gettysburg Site Gets New Usage

Battlefield Lookout Post Offers Eisenhower Farm View to Gaping Tourists

GETTYSBURG, Pa. (UP)—Tourists visiting this historic battle area are all excited about the Eisenhowers and their new farm, but the long-time residents take the presidential couple pretty much as a matter of course.

Tourists frequently ask battlefield guides and local citizens right off, "Where is Ike's farm?" The only thing they used to ask about was the battlefield.

"I hadn't thought much about it, but I guess business is picking up right along," one shopkeeper said. "It doesn't seem possible, but that farm may become more famous than our battlefield."

Everyone here is curious about the Eisenhowers, but they don't get to see them much.

Mr. Eisenhower's devotion to golf gives a few members of the community a glimpse of the President from time to time. But crowds are not permitted to gather at the local country club where he is there.

From the road passing the Eisenhower farm, the curious get only an end view of the barn. But

CHARLESTON DOCKS RAVAGED BY FIRE—(mineral docks and warehouses in Charleston, S. C. Navy and civilian tugboats, aided by Coast Guard Fire-is believed to have caused damage estimated at one million dollars.

a good many people are getting a glimpse of the house as well by climbing a high tower that used to be used solely for battlefield watching.

State Rosery Display

GRAND RAPIDS (UP)—More than 10,000 roses were on display Wednesday at civic auditorium in the state's biggest rose show of the year. The sponsoring Grand Valley Rose Society has received entries from Muskegon, Kalamazoo, Benton Harbor, Detroit, Lansing and other Michigan rose-growing enthusiasts.

Drink Law Overruled After Voters OK'd It

ST. PAUL (UP)—Minnesota's first prohibition law was invalidated — because it had been approved by the people.

The State Historical Society, in a review of temperance fights, reported that the state's first prohibition law was voted by the legislature in 1852 and submitted to the people for a popular vote.

It was approved April 5, 1852, by a vote of 853 to 662.

A short time later two "bootleggers" were arrested for sale of liquor. They appealed their convictions and the law was declared unconstitutional.

The judge ruled that the power for making laws rested with the legislature and the governor and that the requirement for a popular referendum on the prohibition act invalidated it.

About one-fifth of the nation's salad ingredients come from the irrigated farmlands near Phoenix and Yuma.

Memphis Plans Fire-Fighting Items for U.S.

MEMPHIS, Tenn. (UP)—Two odd-looking fire-fighting devices dubbed cellarpipes and stream-master probably will be squelching major fires throughout the nation in a year or two.

The Memphis Fire Department, which pioneered the mobile deck gun, developed new devices and demonstrated them here to 1,500 of the nation's top fire-fighters.

The cellarpipes is a 6-foot long iron pipe especially designed for fighting basement fires. It is used by knocking a hole in the floor and lowering one end into the hole.

Four hoses are connected at the

upper end, running to fog or straight stream nozzles in the bottom part. Double prongs on the bottom rest the device on the floor.

The stream-master operates like a giant stationary lawn sprayer. It permits firemen to aim the hose at close range, then walk away, leaving the stream unattended.

The stream-master holds hose that would take up to six men to control. With one type of nozzle, it discharges 800 gallons of water a minute; with another, up to 400 gallons a minute.

Kiwanis in Detroit

DETROIT — Charles Cowdin, Harry Young and Donald A. Johnston, all of Detroit and all founders of Kiwanis International, will attend the 40th annual convention in Cleveland, beginning Sunday.

Landmark of Teamwork!

Lee Anderson (left) and Al Hahoute personify the teamwork that goes around L. C. Anderson, Inc.—teamwork by a large and skilled staff who have won fame for this organization as America's Greatest Smalltown Dealership.

A CHALLENGE TO THE BOOTLEGGERS

Not long ago we advertised that you, our 12,000 customers, have given the boot to the bootleggers—that because of the volume you give us, making possible the savings we give you, a bootlegger couldn't stand up to this sort of competition. It's a sort of teamwork in automobile buying and selling built up over the years. We wish, now, to reaffirm that advertisement. We are definitely headed for the biggest car-selling year in our history. That means bargain prices for you. It means that we will meet any legitimate competition in the sale of our cars and make it tough for bootleggers, as well. And it is all to your advantage.

AN INVITATION TO YOU, OUR CUSTOMERS

Why not cash in on this advantage! With you as with us, it's the deal that counts—the money difference between your trade-in and the new car of your selection. Come in now! Choose your model, the color and the accessories. We'll have a deal for you on your used car trade-in that you could never get if you were to sell it yourself. That's the way we are fighting for new car business in this area. The only effective weapon at our command is the deal—the minimum dollar difference that your teamwork and our teamwork can achieve to move your old car to your advantage and put you into a sparkling new 1955.

NOW! FESTIVAL OF NEW CAR SUMMER BARGAINS...

The Summer Season has officially started. At L. C. Anderson, Inc., we are observing that Calendar Landmark with a Festival of New Car Summer Bargains. With new contracts settled, and labor peace assured in the automobile industry, every figure on the economic score board of America points today to a summer boom in business, manufacturing and retail trade. We are giving that economic swing an extra pick-up in this area by offering you very special Summer Deals in all our three lines of new cars—Chevrolet, Pontiac and Buick. Come to the Festival today and choose your new car. You'll find us mighty cooperative.

Grains Logy; Rye Declines

CHICAGO (U-P) — Except for rye, grains had difficulty getting off dead center in either direction on the Board of Trade today. Rye declined.

Soybeans and hard declined at the start reflecting action in related markets, then slowly beat their way back uphill to around previous closing levels.

The decline in soy beans resulted from additional weakness in oil and meal while hard suffered under the pressure of 50 to 75-cent declines on live hogs.

Toward the end of the first hour wheat was unchanged to 1/4 cent higher, July 1955; corn was unchanged to 3/4 cent higher, July 1955; oats were 1/4 higher to 1/2 lower, July 1955; soybeans were 1/2 cent lower to 1/4 higher, July 1955; and hard was 7 to 12 cents a hundred pounds lower, July 1955.

Corn had the best of it in early trading. Overnight export news was a bolstering factor. Ireland reportedly bought 340,000 bushels and the United Kingdom and France accounted for moderate smaller quantities.
