Induction Brings Honors

Richard Linington

Helen Shereda-Smith

Tim Kramer

Kenneth Whiteside

Four individuals who contributed significantly to the Department of Athletics will be inducted into the department's Hall of Honor in special ceremonies Saturday, February 16 at Meadow Brook Hall.

The second annual induction ceremony will honor basketball players Tim Kramer, 1975-79, and Helen Shereda-Smith, 1976-80; soccer player Kenneth Whiteside, 1973-76; and community leader Richard Linington, president of Utley-James, a development and construction company.

Activities will begin with a homecoming luncheon for alumni and the community at 11:30 a.m. in the Oakland Center Abstemion. Tickets are \$5. Following the luncheon, the women's basketball game against Michigan Tech will begin at 1 p.m. and the men's team will take the floor at approximately 3 p.m. After the games, a reception with a cash bar will be held for alumni, Hall of Honor guests, and others at Meadow Brook Hall. The banquet will begin at 7 p.m. and tickets for it are \$17.50 per person. To order luncheon or banquet tickets, call 370-3196.

Kramer is second on the OU all-time basketball scoring list with 1,615 points, a 15.6 per game average. He is fourth on the all-time rebounding list with 745, a 7.2 per game average.

During the 1978-79 season, Kramer led the Great Lakes Intercollegiate Athletic Conference in both scoring and rebounding. He was named to the all-conference first team and to the National Association of Basketball Coaches All-Region Third Team. He was also named GLIAC Scholar-Athlete.

Kramer was an honor roll student, a resident assistant, and an Area Hall Council representative. He was a political science major and later graduated from the Detroit College of Law. He is an associate with the law firm of Prather and Harrington.

Shereda-Smith was OU's first female athlete to receive All-America honors. She finished her career as the state's all-time leading scorer with 2,338 points and 1,524 rebounds. For three seasons she had the state's top scoring average.

Shereda-Smith scored a single-game high of 43 points, set a state single-game record of 28 rebounds, and held the school record for most field goals in one game. For the season, she held the record for most points, most field goals, most free throws, and best scoring average.

She made the tournament team in every tournament her team played in and twice was the national player of the week. She was first-team all-conference for four consecutive years and most valuable player in the Central Missouri State Tournament, in which she broke scoring and rebounding records.

In 1980 Shereda-Smith was on the College Sports Information Directors of America All-America Team, an American Women's Sports Foundation All-America Team member, and a finalist for the United Foundation's Sports Woman of the Year. Previously she had been on the National Scouting Association's All-America Team and a participant in the National Select Team for players age 19 and under. She was a first-round draft pick in the Women's Basketball League.

While a student, Shereda-Smith also played volleyball and softball. She was a history and social science major and now teaches in Pueblo, Colo.

Whiteside set OU soccer records with 20 goals his freshman year and 61 for his career. He also recorded a single-game record five goals.

(Continued on page 4)

The Rochester Pep Band warms up an Oakland Center crowd to get the Winter Carnival rolling. The carnival included outdoor games, such as football and tug-of-war. With the cold wave and lots of snow, there was no doubt this year's was a "winter" carnival.

Observance Begins Of Black Achievement

Contributions by black Americans will be cited during activities sponsored by the Black Awareness Month Committee.

Speakers, exhibits, and a theatre production are among the Black Awareness Month events. The co-chairpersons of the committee's observance are students Kelly Jackson and Andrea Dean.

Of special interest will be the free lecture by Alex Haley at 2:15 p.m. Thursday, February 7. The author, best known for *Roots*, will speak in the Oakland Center Crockery. His visit is co-sponsored by the Student Program Board and the Student Life Lecture Board in cooperation with BAMC.

In honor of Haley's visit, the film version of *Roots* will be shown at noon February 1, 8 p.m. February 2, and noon and 8 p.m. February 4-6. Noon showings will be in the OC Fireside Lounge and 8 p.m. showings will be in Vandenberg Hall Multipurpose Room.

The remainder of the schedule, as released by the Office of Student Services, is as follows.

February 1. The opening ceremony will be at 7 p.m. in the Crockery. Wilma Ray-Bledsoe, vice president for student affairs, will speak. The annual Focus and Impact Awards will be presented. The event is sponsored by Alpha Phi Alpha Fraternity.

February 3-5. The Creative Players Guild will perform an original drama by Robert L. Douglas, *Adjustments*. Curtain time will be 8 p.m. in Varner Recital Hall. Tickets will be \$5 general admission and \$1 for students.

February 4. A weeklong African art exhibit sponsored by Alpha Kappa Alpha Sorority will open in the OC Gold Room.

February 5. Ann Mandelbaum will show slides of the Ethiopian black Jews and the famine victims. Her talk is sponsored by the Jewish Student Organization. In conjunction, Alpha Phi Alpha Fraternity will begin a fund drive for Ethiopian hunger relief.

February 8. A fashion show with both contemporary and African clothes will be held at 8 p.m. in the Crockery. Tres Chic will show the fashions. The Pharare Modern Dance Troupe will entertain at intermission. Admission will be \$2.50 for students and faculty and \$3.50 for others.

February 10. The OU Gospel Choir will perform with a celebrity guest at 5 p.m. in the Crockery.

February 12. Delta Sigma Theta Sorority and Omega Psi Phi Fraternity will present an African culture fair from 1-5 p.m. in the Crockery. The fair will include African

foods, a dance troupe, lectures, slide presentations, an art exhibit, and an opportunity to meet African nationals dressed in their native apparel.

February 14. Alpha Kappa Alpha will sponsor poet Gwendolyn Brooks at 2 p.m. in the Crockery. The Robert L. Donald Literary Contest Awards will be announced for best prose, poetry, and short stories.

A soul-food dinner will be held in Vandenberg Hall.

February 15. Kappa Alpha Psi Fraternity will present its annual Valentine's Day dance at 9 p.m. in the Crockery. Admission will be \$2 for students and members of Greek organizations and \$3 for others.

February 18-20. The Association of Black Students will sponsor a trivia game on black Americans. Student organizations will compete for cash prizes. Monday's contest will be at 7 p.m. in Vandenberg, Tuesday's will be at noon in the OC Fireside Lounge, and Wednesday's will be at 7 p.m. in Vandenberg.

February 19. The Kappa Alpha Psi Oratorical Contest will be at 7 p.m. in the Crockery.

February 21. The Office of Special Programs and Upward Bound will present Maxie Jackson, Michigan State University director of urban affairs, and author of *The State of Black Michigan*. Discussants and co-authors will be Karl D. Gregory and Algea O. Harrison. The symposium will begin at 2 p.m. in the Crockery.

Arizona Taps Andreas For Dean

The university community was surprised to learn last week that Rosalind Andreas, dean of students, will leave OU in May.

Andreas has been named the first woman dean of students at the University of Arizona in Tucson. She assumes her new duties June 1. The University of Arizona is a state university with over 23,000 full-time students and over 9,600 part-time.

Andreas has served OU as director of commuter services, 1973-76; director of CIPD, 1976-81; and dean of students since then. Last year she received the Outstanding Administrative-Professional Award from the AP Assembly.

● Jesse R. Pitts, sociology and anthropology, attended meetings of the French section of the Tocqueville Society in Paris. Plans for the June meetings of the newly created Center for Comparative Research were completed. Pitts made a presentation at an open meeting of the Tocqueville Society, which featured many French academic and political figures on the subject: **The American Elections of 1984 and Their Possible Consequences for Europe.**

● Carl Westhoff, admissions, has been re-elected chairperson of the Graduate/Professional Studies Committee of the Michigan Association of Collegiate Registrars and Admissions Officers for the 1984-85 academic year. The election was held at the MACRAO annual meeting held in Traverse City.

● Harry T. Hahn, School of Human and Educational Services, presented the final conference in the Reading/Writing Conference Series, **Planning for Young Authors.** One hundred fifty participants heard the morning session, **The Voice of the Text**, delivered by Bill Martin, Jr. The concurrent sessions offered after lunch included information on how to incorporate the writing process in the classroom, illustrating and publishing children's writings, and organizing a conference for young authors. Speakers included Gerry Palmer of SHES and representatives from schools in Lake Orion, Royal Oak, Davison and Windsor.

● Carlo Coppola, modern languages and literatures and Center for International Programs, has signed a contract with Peter Lang Publishers, New York/Bern, to publish his study, **The Writer's Commitment, The Writer's Art: A Study of Ahmed Ali.** It will be published in either late 1985 or early 1986. Coppola has also been invited to be a scholar-in-residence at the Rockefeller Foundation's Bellagio Study and Conference Center, the Villa Serbelloni, Lake Como, Italy, next August. During his residence there he will complete his study of the Pakistani Urdu poet, Faiz Ahmed Faiz. Coppola has also been named an associate of the Center for South and Southeast Asian Studies at the University of Michigan.

● Wilma Ray-Bledsoe, student affairs, has been elected to the Metropolitan Affairs Corp. Advisory Council. She will provide advice and guidance on program activities, and comment on issues facing the organization and research and project reports. The Metropolitan Affairs Corp. is a private, non-profit organization and has launched an Urgent Issues for the '80s program.

● Roberta Schwartz, rhetoric, communications and journalism, has been nominated by the Hemingway Society to participate in the awarding of the \$50,000 Ritz Paris Hemingway Award. It will be presented for the first time March 29 in

Our People

Paris. Professor James Nagel of Northeastern University selected Schwartz "because of her expertise and outstanding reputation in the literary community." Schwartz and a group of writers, scholars, and literary critics will submit up to three nominations for novels for consideration by a jury. The award is open to authors published in English during 1984 who furthered the tradition of excellence established by Ernest Hemingway. Schwartz also attended the Hemingway Society meeting in Florida at which Patrick Hemingway and his publisher spoke.

● Milton Jenkins, economics and management, served as session chairman at the Society for Information Management's 16th annual conference in Chicago. The session was **Improved Software Development and Quality.** He presented **Transforming Research Data into Information for Decision Makers** to a panel of research scientists at a Coastal Zone Management conference sponsored by the U.S. State Department in North Carolina. Jenkins was a panelist at the 16th annual conference of the American Institute for Decision Sciences in Toronto. He presented two papers, **Development and Training of MIS Faculty for Schools of Business and Some Implications of Behavioral Decision Theory for DSS Implementation and Research** (written with Tom Lauer), at the same Toronto conference. At the Indiana University annual MIS Affiliates Seminar in Indianapolis, Jenkins presented a session entitled, **Managing the Software Maintenance Function: A \$36 Billion Problem.**

● Lowell Eklund, Division of Continuing Education, served for the fifth year on the board of visitors to the College of General Studies at the University of Pittsburgh. He also recently completed an evaluation study of the Ball State University Division of Continuing Education. The study includes how the Ball family mansion is employed as a university resource.

● Augustin K. Fosu, economics and management, presented a paper, **Explaining Post-1964 Average Earnings Gains by Black Women in the United States: Race or Sex?** at the Allied Social Science Association's annual meeting in Dallas. His review of **Industrial Labor: The Role of Industrial Wages in Business Cycles and Economic Growth**, by James E. Annable, Jr., appeared in the **Journal of Economic Literature.** The abstract of Fosu's paper written with F.R. Strobel, **International Impacts on U.S. Inflation in the 1970s**, has been published in the **Journal of Economic Literature.**

Funding Opportunities

Information about the following external funding sources is available from the Office of Research and Academic Development, 370 SFH, or by calling 370-3222. Unless noted, proposal due dates are unknown.

Public Health Service

Identify women's health issues within the Food and Drug Administration's jurisdiction, plan strategies to address priority issues, educate national, state and local networks on issues, and participate in FDA decision making.

National Heart, Lung and Blood Institute

Perform a survey of physician practices related to the prevention of lung diseases, March 1.

International Development Cooperation Agency

AID will solicit proposals for a cooperative agreement to operate and manage an intensive English language training program in Sanaa, Yemen Arab Republic.

Army Corps of Engineers

Develop and present 14 sessions of a writing course for the Navy.

NCI, Research Contracts Division

Provide computer-related support services to the diagnosis program of the Division of Cancer Biology and Diagnosis,

February 8.

Bureau of Health Care Delivery and Assistance

The Health Resources and Services Administration has budgeted \$15 million for federally funded competing grants for maternal and child health projects in fiscal year 1985. Due dates range from March 1-August 1, but most will occur in March and April.

Health and Human Services, Administrative Services

Develop and present a conference for National Service Corps physicians, dentists and nurse practitioners assigned to California, emphasizing the importance of health promotion and enhancing clinical skills used in primary care settings.

FDA Food Safety Contracts Branch

Provide support for FDA in obtaining chemical abstracts registry numbers and good chemical names required to index substances related to food additives petitions.

Social Security Administration

English language training, February 28.

Consumer Product Safety Commission

Cigarette safety, February 11.

U.S. Department of Agriculture

Nutrient analysis.

Defense Supply Service

Army history on Korean War involvement.

Bureau of Alcohol, Tobacco and Firearms

Computer training.

Kessler Air Force Base

Statistics course in late February, February 18. Contact the base contracts officer.

U.S. Department of Commerce

Minority businesses study, February 21.

Members of the Chinese delegation listen to one of the speakers during the conference at Meadow Brook Hall. The purpose of the conference was to strengthen business ties between Michigan and China.

Delegation Visits OU

A delegation from Sichuan, China was at Meadow Brook Hall on January 25 to explore increased business ventures between Michigan and China.

The Governor's Commission on China sponsored the meeting with the Michigan Office of International Development and OU. The Chinese delegation was led by Sichuan Province Vice Governor Jiang Ming Kuan. The delegation discussed proposed business ventures and encouraged Michigan companies to attend an economy-technology symposium to be held in the city of Chengdu in April.

The January 25 meeting included

presentations by business leaders and panel discussions with the Chinese delegation. A reception hosted by the Governor's Commission on China and the Office of International Development followed the official program.

The university, through its Center for International Programs, has already signed an agreement of scientific, educational and cultural cooperation with Chengdu University of Science and Technology. The OU center will coordinate student and faculty exchanges and encourage China-Michigan business ties.

Loh Gets Robotics Grant

The U.S. Department of Defense has awarded a grant to the School of Engineering and Computer Science to support a robotics and computer-vision laboratory.

Nan K. Loh, acting director of the Center for Robotics and Advanced Automation,

said the grant will be used to purchase another robot and computer-vision equipment. The \$110,000 grant is from the Department of Defense-University Research Instrumentation Program for 1984-85.

Loh said the competitive award "recognizes the caliber of research now under way at the university." Loh is John F. Dodge Professor of Engineering and known internationally for his work in robotics and advanced-vision systems. He receives extensive grant and contract support from private industry and the U.S. Army Tank Automotive Command in Warren.

Job Listings

The Employee Relations Department has information about the following job openings at the university. For details, visit 140 NFH or call 370-3480.

- Program specialist, AP-7, Ken Morris Labor Studies Center.
- Financial analyst, AP-8, Office of Finance and Administration.
- Custodian I, AFSCME, Food Service.
- Custodian I, AFSCME, Oakland Center Cleaning.
- Food service apprentice, AFSCME, Food Service.
- Publications staff writer, AP-6, University Relations Publications.
- Secretary I, C-4, Employee Relations Department.

In The News

Augustin Fosu, economics and management, was interviewed on Channel 7 about the economic recovery. Richard Stamps, anthropology and sociology, was interviewed on WMJC radio about trade with China. Gerald Compton, chemistry, was called four times in one week to provide answers for Channel 7's consumer affairs specialist. Fred Stransky, Center for Health Sciences, will be interviewed by Marketplace Magazine for a feature on the Meadow Brook Health Enhancement Center. President Joseph E. Champagne was interviewed by Oakland Business Monthly for a magazine piece on the high-tech park.

Deadlines Set

Registrar Lawrence Bartalucci reminds the university community that Monday, February 4 is the last day to drop "first-half-of-semester" courses and Tuesday, February 5 is the last day to submit "application-for-degree" forms for winter 1985 graduation. For further information, call 370-3450.

SPB Shows Films

The Student Program Board is showing films at 3, 7 and 9:30 p.m. Fridays and 3 p.m. Saturdays in Room 201 Dodge Hall. They are **Purple Rain**, February 1-2; **All of Me**, February 8-9; and **Indiana Jones and the Temple of Doom**, February 15-16. Admission is \$1.

At 8 p.m. in Room 201 Dodge, these films will be shown for a \$1 admission charge: **The Godfather, Part II**, February 6; and **A Star is Born**, February 13.

SPB is also planning a Valentine's Day dance at 9 p.m. February 16 in the Oakland Center Crockery. At 8 p.m. February 7 in the OC Abstinence, the musical group Fast Tracks will perform in a free concert.

For details about any SPB event, call 370-4290.

New Faces

Additions to the staff at OU have been announced by the Employee Relations Department. They are:

- Barbara Howes of Rochester, a secretary II in the Ken Morris Labor Studies Center.
- H. Evelyn McClellan of Waterford, a secretary for the Board of Trustees/Office of the General Counsel.
- Reginald Wright of Pontiac, a custodian I in Oakland Center Cleaning.
- Richard H. Black II of Wixom, master trades VI with Campus Facilities and Operations.
- Robert McDonald of West Bloomfield, a computer technologist in the School of Engineering and Computer Science.
- Robert Parent of Royal Oak, an instructional television producer in the Performing Arts Library and the Instructional Technology Center.

The **Oakland University News** is published every other Friday by the University Relations News Service, 109 North Foundation Hall, Oakland University, Rochester, MI 48063. The telephone is 370-3180. Copy deadline is 5 p.m. Friday of the week preceding the publication date.

- James Llewellyn, senior editor and news director.
- Jay Jackson, staff writer.
- Ann Straky, photographer.

Fit To Be Tied? Time To See Stransky

It comes as a shock for some. Poor nutrition, combined with little exercise, have reduced them to a state of health that may border on dangerous.

Changing a lifestyle may be difficult, but with proper guidance, those losing the battle are suddenly turned into believers of the importance of it. Many who have reformed their personal habits have Fred Stransky to thank for getting them on the right track. Stransky is director of the health maintenance/health improvement and the cardiac rehabilitation programs housed in Lepley Sports Center.

Stransky is an ardent supporter of healthy lifestyles. Faster than you can ask why serum cholesterol in the bloodstream is harmful, he can rattle off enough reasons to make you think twice about eating an egg. His firm belief in changing your lifestyle is the foundation of his program of promoting health.

Stransky studied exercise physiology at Florida State University and became convinced that there was a relationship between good health and regular exercise. Factors such as weight control, moderate use of alcohol, stress control, diet, and others contribute to health, and especially to a strong cardio-vascular system.

Stransky credits OU for the foresight in developing health maintenance programs on campus for employees and the community. Each year about 800 persons participate in the various fitness programs, including the stress tests and evaluations. Another 100 are enrolled in the cardiac rehabilitation program. Where called for, physicians review test results.

The programs' success has led to the Meadow Brook Health Enhancement Center, which should be completed by September near the Meadow Brook Golf Course. The facility will be financially self-

supporting and provide Stransky and staff with 10,000 square-feet of offices, exercise rooms and research areas. Another 30,000 square-feet adjoining the offices will be used for jogging, walking, and other exercise programs. Residents of a 12-county area will use the new center for health maintenance, cardiac rehabilitation, education, and research.

Stransky is proud that the program has expanded rapidly. He notes the added benefit of prestige for the university. "It's consistent with the Role and Mission Statement of the university. There's the service aspect and also the educational and research components as well," he says.

Physicians will refer many of their patients to the Meadow Brook Health Enhancement Center. Stransky says the center will not compete with private hospitals and clinics, but supplement them. The center will provide the education and rehabilitation services that private doctors are unable to give because of their patient loads and limited facilities.

Another benefit to the university is expanded research and training for the Center for Health Sciences and other medical programs, Stransky says.

Stransky says those who do seek advice often have one or more of these conditions: obesity, lack of conditioning, high blood pressure, diabetes, gout, and high levels of cholesterol and blood lipids. "Those are all lifestyle disorders," he says. "The benefit in changing them is living in a healthy state."

Some participants may backslide, but most comply with recommendations and seek improvement. "I'm very pleased with small steps toward progress," Stransky says. Fitness programs may include reducing smoking the first year, dropping a few pounds the second, and so on. Yearly follow-ups monitor progress.

Stransky reflects on the ever-changing attitudes toward health care by noting that only 11 years ago, physicians thought exercise for heart attack victims was unwise. "A heart attack was the end of their physical lives," he says. Now exercise is considered important to recovery. The

Fred Stransky

director adds that managing lifestyles in the first place is still the key to reducing health care costs.

Stransky's name has become synonymous with "healthy lifestyle" on campus. Good-natured jokes appear, such as the one in a letter from Meadow Brook Hall. The letter noted that visitors may partake in an ice cream sundae bar without the staff snitching to Stransky. His name also appears on "Stransky Recommends" stickers over healthy foods at the Oakland Center food services.

Stransky does not limit his efforts to educate others. Last year he gave 62 lectures and recently, in cooperation with the Cooper's Arms restaurant in Rochester, developed a menu that provides nutritional information.

As long as people need advice, Stransky is likely to be out there spreading the message.

Paula Stanovich exercises with the aerobics class at Lepley Sports Center. Aerobics classes are among the health and fitness programs offered to employees and the community.

Nominees Needed For Awards

Nominations are being sought for the Alumni Association's Outstanding Advising Awards and the AP Assembly's Outstanding Administrative-Professional Award. Anyone in the university community may place names in nomination.

The Outstanding Advising Awards consist of framed certificates and a check. They are presented each June at com-

mencement by the Alumni Association and its Arts and Sciences Affiliate to faculty members who are outstanding academic advisers.

Last year the winners were the Honors College, Donald Hildum of the Department of Rhetoric, Communications and Journalism, and R. Douglas Hunter of the Department of Biological Sciences.

Recipients are selected by a committee of two Alumni Association representatives, a previous winner, and an associate dean from the College of Arts and Sciences.

This is an opportunity for students to help recognize the contributions of faculty advisers who have been helpful to them during their academic careers at OU. Nominations may be made by letter to Sheldon Appleton, 220 Varner Hall, or by phone at 370-4569.

The Outstanding Administrative-Professional Award will be given to an AP who has demonstrated outstanding achievement in his or her professional role. Criteria used in the selection are spirit of cooperation, extraordinary effort, support of institutional mission, and community and university service. The recipient will receive a \$1,000 stipend that has been donated by the university community at large.

Nomination forms have been sent to academic units and other departments and are also available from the CIPO Office, 49 Oakland Center, and upon request from Rosalind Andreas, 144 OC.

A more detailed description of the criteria appears on the nomination form along with instructions on how to nominate. The deadline for nominations is February 4. If you have any questions, call Andreas at 370-3352.

Gregory Allar spoke to faculty members and students at a reception, giving them an insider's look at the Soviet Union.

Allar Outlines Life In Russia

Gregory Allar, a 1971 OU graduate with a bachelor's degree in Russian, and resident director of Middlebury College's Russian Language School at the Pushkin Institute in Moscow, visited OU on January 25.

Allar and his wife, Nancy, shared firsthand insight into Russian lifestyles and attitudes with approximately 20 faculty and staff members during an informal discussion hour in the Oakland Center Gold Room.

"The American press stands on one end, the Soviet on the other. The truth is probably somewhere in between," Allar said. "The people have access to the information their government presents and also listen to the Voice of America. They read between the lines . . . and get a fairly realistic picture of America."

After graduating from OU, Allar received a master's degree in guidance and counseling, and a master's and a doctorate in Slavic languages and literatures from the University of Michigan.

Faculty Receive Grants

Nine faculty members will share in \$20,740 in Biomedical Research Support Grants made available through funds from the National Institutes of Health.

The competitive awards were made by the university BRSF Committee and have the purpose of strengthening and enhancing the research environment of institutions engaged in health-related research.

The NIH awards the BRSF funds each year. To qualify, a university must have a minimum of three Public Health Service Research Grants whose direct costs totaled at least \$200,000.

Department of Chemistry winners were:

- Mark K. Severson, **Vibrational Spectroscopic Study of the Interaction of Metal Ions with DNA**, \$1,000.
- Bandana Chatterjee, **The Role of Insulin in mRNA Transport**, \$1,000.

Department of Biological Sciences winners were:

- Satish K. Walia, **Identification and Differentiation of Pseudomonas Aeruginosa by Bacterial Restriction Endonuclease DNA Analysis (Brenda)**, \$4,500.
- Asish C. Nag, **Culture and Characterization of Adult Mammalian Cardiac Muscle Cells**, \$3,000.
- Esther M. Goudsmit, **Characterization of Galactogen Synthesis: UDP Gal-B1 6D-Galactosyl-transferase**, \$3,000.
- Frank Butterworth, **Cell Biology of Aging in the Fat Body of Drosophila**, \$1,760.
- John Reddan, **A Determination of the Environmental Factors that Regulate Cell Division in the Mammalian Lens In Vivo**, \$4,000.

Center for Health Sciences winners were:

- John Stevenson and Mary Sherman, **Effects of Cigarette Smoking on Carboxyhemoglobin Levels and Their Relationship to Pulmonary and Cardiovascular Function During Exercise**, \$2,000.

Chinese Art Now At Gallery

The Meadow Brook Art Gallery is exhibiting **Chinese Art from Private Collections in Michigan** now through March 3.

The 101 art works include a bronze ritual vessel from the Shang Dynasty, stone and gilt bronze sculpture from the T'ang Dynasty, ceramics from the Sung Dynasty, and examples of paintings and calligraphy from the Ming and Ch'ing periods.

The exhibition was organized through collaboration among the Michigan Oriental Art Society, the Chinese-American Educational and Cultural Center of Michigan, and Meadow Brook Art Gallery. The exhibition is funded by the Michigan Council for the Arts.

Gallery hours are 1-5 p.m. Tuesday-Friday, 2-6:30 p.m. Saturday and Sunday, and 7 p.m. through the first intermission during Meadow Brook Theatre performances.
