Rochester Area Man Fills Vacant Post In Employment Relations

Clair L. Magoon of Rochester has been named wage and salary administration manager at OU, replacing Dan Dany, who resigned last month.

Clair Magoon

According to Carl Westman, director of employment relations, Magoon's duties will be job classification, the development of salary plans and the analysis and reclassification of personnel policies and procedures.

Magoon was a project consultant for New Detroit, Inc. last year and served for 22 years as a specialist in salary administration for Ford Motor Company.

His experience with Ford included work with overseas subsidiaries, the Federal government, education programs and Ford projects in Detroit.

"My position here will give me an opportunity to work on things I've seen in other places and to perhaps contribute something to the general personnel service of the University," Magoon said.

Magoon earned his B.A. and M.A. from the University of Michigan.

Non-Static Art, Huge Paintings Comprise Faculty Exhibit

The non-static sculpture of Alvern Lostetter, Jr., and paintings up to 14 by 7 feet by John Beardman will be on display in Meadow Brook Art Gallery Jan. 14-Feb. 4. (Hours are listed in Campus Calendar.)

BEARDMAN, assoc. prof. of art, has been on the OU faculty for nine years and is a member of the University Senate. He was also chairman of the Spring and Summer School Committee and an elected member of the Executive Committee, College of Arts and Sciences.

His last showing at the University was in 1971, although he has since been a panel participant and speaker at the College Arts Assoc. annual conference.

Beardman studied at the Sorbonne and at Atelier 17 in Paris and was graduated from Southern Illinois University with his M.A. and M.F.A.

ALVERN LOSTETTER JR., asst. prof. of studio art, is new at OU this year. He comes to Oakland from Middlebury, Conn., where he studied under sculptor Naum Gabo.

Lostetter teaches courses in non-traditional media, painting and sculpture, and drawing and design. He studied at the Pennsylvania Academy of Fine Art in Philadelphia where he won the Thomas Eakins prize for figure painting.

After studying in Europe, Lostetter earned his B.F.A. and M.F.A. from Yale University.

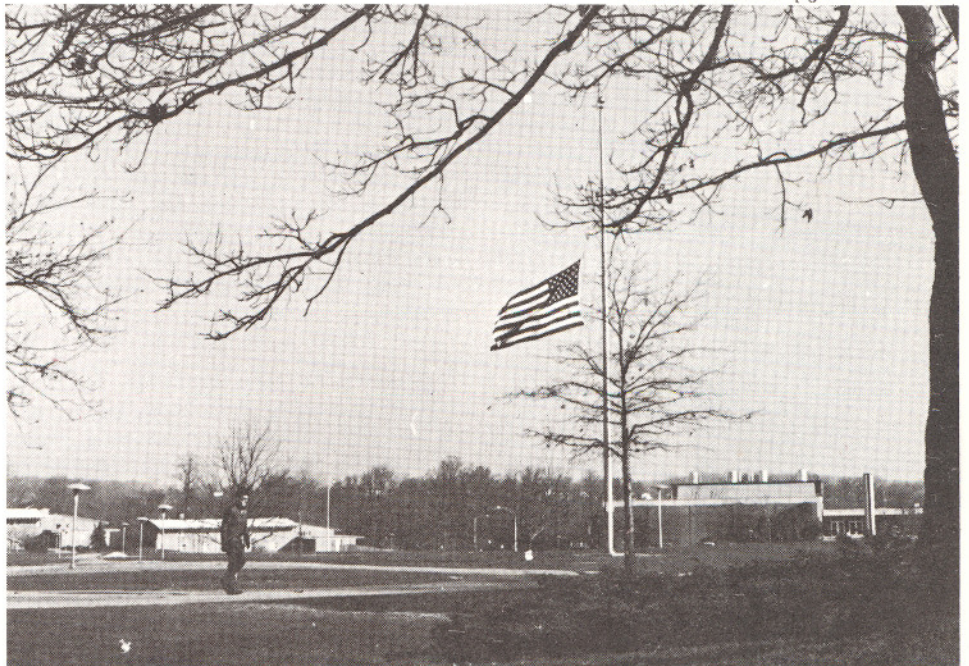

5 Students Win Alumni Assoc. Research Awards

Five OU students won \$200 research awards for 1973 from the University Research Committee. The competitive grants are sponsored through money from the OU Alumni Assoc.

Douglas Stewart, Rochester, will study the "Bioelectric Measurements in the Rabbit Lens," with his faculty sponsor Everett Kinsey, Institute of Biological Sciences.

Richard Riopelle, Rochester, will study "Working Paintings in Series,"

NICE DAY FOR A WALK?

Bleak winter days are reflected in an empty campus over the semester break. The sun did make an exception, however, and shone last Wednesday for half a day.

MSU Administrator Opens Forum on "Women: New Reflections"

What is it like to be a woman in a society where "man" and "person" are synonymous terms? This is one of the topics Dr. Laurine E. Fitzgerald, MSU associate dean of students and professor of administration and higher education, will discuss in the opening session of "Women: New Reflections," OU's 1973 Winter University Forum.

The address will be from 2-4 p.m., Tuesday, Jan. 9, in Varner Recital Hall.

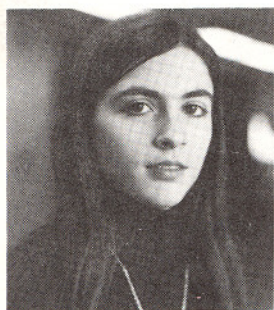

Dr. Fitzgerald will speak on "Stereotypes, Myths and Social Structures, Sex-typing Role Sets" in the first presentation of the fifteen-week forum which runs Jan. 9 - Apr. 17.

Dr. Fitzgerald joined MSU in 1963 as assistant dean of students and associate professor. She became assistant dean and professor in 1968.

Israel's Kibbutze Lifestyle Studied by New College Co-ed

Shifts in national priorities and ideology are altering the way of life in Israel's Kibbutzim.

These observations were made by Vicki Davis, an OU co-ed who spent mid-May through mid-August as a volunteer worker and a researcher into Kibbutzim life.

Vicki Davis

Miss Davis reports that the Kibbutzim are still operated on the basic principle approved by their members, "from each according to his ability and to each according to his needs." But changes are being made, she says.

For example, while individuals used to change jobs periodically ad-

and was promoted to her present position in 1970.

The MSU administrator is a member of the American Psychological Assoc., the American Personnel and Guidance Assoc., the American College Personnel Assoc., the National Assoc. of

Laurine Fitzgerald

Women Deans and Counselors, the AAUP and other professional and honorary societies.

"Women: New Reflections" is open to the University community and may be taken for

two credits (UC004). Late registration began Monday, Jan. 8.

Weekly sessions on Tuesday will include noted speakers and films while weekly Thursday sessions from 2-4 p.m. will offer discussion periods for those taking credit work.

ding to the "equalization" of everyone in the Kibbutzim, specialization in the work force is now acknowledged as desirable; and many Kibbutzim are shifting from a totally agricultural base to develop the light industry the country needs.

Miss Davis spent most of her time working as a volunteer and observing life in two settlements. One was Kibbutze Narim in Negev near the Gaza Strip, the other was Kibbutze Ma'ayan Baruch near the Lebanese border.

Members of each Kibbutze received no daily wages, but Miss Davis, as a volunteer, earned one Israeli pound (25 cents American) a day in addition to room and board.

The 20-year-old co-ed was in Israel as part of her New College "field term" of work and study. New College is one of three inner colleges at the University and the "field term" is one of the unusual study opportunities New College offers in addition to regular classroom assignments. Miss Davis received eight credits for her study-research experience.

Biology Prof Honored

Arun Roy, OU biology professor, was given the Dr. C. Walton Lillihei award Dec. 11 for research on the nuclear protein problem in cells.

Roy was given the honor at Providence Hospital in Southfield by Dr. Lillihei, a well-known cardiovascular surgeon from Cornell University in New York.

Pontiac Medical Science Laboratories sponsored the award and a talk by Dr. Lillihei.

Roy received a plaque, \$100 in cash and a free trip to visit Dr. Lillihei.

Roy was assisted in his research by two undergraduates, Donna McMinn, Romeo, and Bruce Milin, Pontiac.

The professor has just received a \$21,938 grant from the National Institutes of Health for further research on hormones.

SET Auditions Open

Auditions for SET's next production, "The Serpent," are now open to the entire University community. Faculty and staff are welcomed.

Held in the Barn Theatre, auditions are scheduled from 6-9 p.m., Jan. 9 and 10. The production will run March 16, 17, 18, 23, 24 and 25.

"The Serpent," by Jean-Claude van Itallie, was originally produced by the Open Theatre of New York City. It is a fascinating tour de force in contemporary improvisational theatre that explores the Book of Genesis and relates it to our modern experience.

Faculty Win Research Awards

The University Research Committee gives competitive awards twice a year to assist faculty members for services and supplies needed for their research. The next deadline for these awards is Feb. 15.

Robert N. Blockovich and Gary Klein, Dept. of Psychology, will use their \$500 award for work on "Creativity as a Function of Impulsivity-Reflection."

P. Michael Brakke, Dept. of Art and Art History, received \$500 to

work on "The Development of a Post-Cubistic Space."

John B. Cameron, Dept. of Art and Art History, received \$450 for work on "Xlc Sculpture in Burgundy."

Allen K. Hess, Dept. of Psychology, will study "Perceptual Augmentation and Reduction in Two Types of Criminal Offenders," aided by a \$500 award.

Donald C. Hildum, Dept. of Speech Communication, received \$1,150 to

After Placing Third in Shaw Classic, Pioneers End '72 Schedule With 6-3 Record

Although decided underdogs, the Pioneers finished the 1972 portion of the basketball schedule with a third-place showing in the Shaw Classic, Dec. 22-23 at the State Fair Colliseum.

After a week's layoff following their 80-76 victory over Wayne State, the Pioneers put together two excellent performances against their taller opponents. Oakland's "big man" is 6 foot 6 center Ron Brown. In both of their tournament games, the Pioneers went up against seven-footers.

In the opening round Oakland bowed to the eventual champion, Morgan State, by a score of 83-79 in double overtime. After piling up a 39-28 half time lead, the Pioneers hit a cold streak and Morgan tied the score at 45-45. The first overtime ended 71-71, before Morgan State ran up a six point lead in the second extra period to sew up the game.

Oakland's Carvin Melson and Morgan's Pat Edwards shared scoring honors with 24 points each. Morgan State won the game on the strength of its rebounding, with a 56-35 advantage over Oakland in that category. Morgan State went on to win the championship with a 76-73 victory over Shaw in the finals.

The consolation game pitted Oakland against Alabama State, another team with superior height. This time the Pioneers walked off with a 72-65 victory. Holding onto a slim 28-23 half time advantage, the Pioneers rolled up a 50-33 lead in the second half and coasted to a third place finish in the tourney.

Senior forward Carvin Melson continued to pace Oakland's attack with 26 points and 12 rebounds. Four men finished in double figures for Alabama State, led by Larry Jackson's 14.

From The Faculty Pen

OLOFSON GIVES PAPER

Harold Olofson, Dept. of Sociology and Anthropology, gave a paper at the African Studies Assoc. meetings in Philadelphia, Nov. 7 - Nov. 10. His paper was "Yawon dandi: A Category of Migration Among the Hausa of Nigeria."

FALKENBURG, HEEREN PRESENT PAPER

Professors Donald R. Falkenburg and Robert G. Heeren, School of Engineering, presented a paper entitled "Pre-Engineering Topics: A Beginning Course Sequence for Inner City Freshmen at Oakland University" at the Institute of Electrical and Electronics Engineers Conference on Frontiers in Education held at Tucson, Ariz.

FITZSIMMONS PUBLISHES POEM

Prof. Thomas Fitzsimmons, Dept. of English, has published a poem in Vol. 15 of *Ghost Dance*.

DER HOVANESIAN CO-AUTHORS PAPER

Prof. Joseph Der Hovanesian, School of Engineering, co-authored a paper entitled "Full-field Surface-strain and Displacement Analysis of Three-dimensional Objects by Speckle Interferometry" published in the October issue of *Experimental Mechanics*.

HUGHES WORKS IN NEPAL

James W. Hughes spent the summer in Nepal at the request of the National Education Assoc. and the USAID as part of a volunteer team of curriculum workers. They assisted the Ministry of Education, Nepal, with implementation of their new 5 Year Plan for Education. While in Nepal, Dr. Hughes worked with the Institute of Education-Birgunj.

HASKELL PUBLISHES BOOK

"Introduction to Vectors and Cartesian Tensors," by Prof. Richard E. Haskell, School of Engineering, is a comprehensive treatment of vector algebra and vector calculus in a programmed format. The textbook was announced in Prentice-Hall's fall 1972 bulletin.
