Chairman Rogers Launches 2014 Securing Our Future Summer Speaking Series

Washington, DC – Today, House Permanent Select Committee on Intelligence (HPSCI) Chairman Mike Rogers announced a summer speaking series addressing current and future threats facing the United States and the policies needed to confront those threats. Chairman Rogers also will challenge the growing strand of isolationism in America and highlight the pitfalls of such a policy to U.S. national and economic security. In concert with the series, HPSCI will release speech text and video when available to engage with Americans around the country on these key national security policy issues.

Chairman Rogers' 2014 Securing Our Future Summer Speaking Series will include the following:
