## 'Spring' Snarls Way Across U.S.

TWISTER ON RAMPAGE — A pile of shattered wood and household effects attests to the fury of a tornado which swooped down on this house near Roseboro, N. C., killing a woman and her four-year-old son this week.

SNOW SCENE — More fitting for December than April is this glimpse of a countryside near Cleveland, Ohio. After days of shoveling from under similar deluges, area residents might be forgiven if they raised their eyebrows over a recent U. S. Weather Bureau statement that "this year's spring weather rampage of snow . . . is unusual, but not startling."

ICEBOUND — Even the ice remains in record quantities. Above right, a Coast Guard ice breaker works to free a huge freighter (left) in Whitefish Bay, near Duluth, Minn., as a convoy of ships moved toward Lake Superior to open the 1957 navation season.

## Land Parcels' Valuations Cut by Assessor

### Buildings Not Included in Major Revisions on Saginaw Street

Land assessments in Pontiac's Saginaw central business row were sliced down $337,960 for 1957, City Assessor William R. Ransom announced today.

The major cutbacks in 94 pieces of property were generally on the west side of Saginaw from the Stewart-Glenn Co. 92 S. Saginaw north to the county office building, and on the east side from Aubrn avenue north through Robert Hall Clothiers, 200 N. Saginaw St.

Ransom emphasized that the cuts were on land assessments only, and did not include buildings (personal property).

**The total $337,960 consisted of a cutback of $200,260 by Ransom and a decrease of $137,700 by the city's Board of Tax Review.**

Harold L. Blackwood, Pontiac real estate executive, in February recommended to the City Commission reductions in this area from 10 to 50 per cent. He declared that high taxes were causing "progressive deterioration" of the area.

Ransom yesterday announced that Pontiac's 1957 assessment would total $254,146,600. This is an increase of $14,660,325 over the 1956 total.

★ ★ ★

The city official attributed the hike to a $9,700,000 increase in General Motors' personal property assessment, and new construction in the city.

**Ransom's decreases on Saginaw street ranged from 10 per cent of 1956 values up to 30 per cent. The latter was for the west side of Saginaw from Pike to Patterson. The Board of Review chopped off another 15 per cent here.**

Ransom stressed that the reductions in assessments for all 94 parcels were not the result of appeals before the board.

## Special Election Set for May 20

### To Vote on Bond Issue for Completing Hospital and New Sewage Plant

The city will vote in a special election May 20 on $4,550,000 in general obligation bonds for the city hospital and a new sewage treatment plant.

The date and general form of four questions on the ballot were set by the City Commission last night on the recommendation of Claude Stevens, the city's bond attorney.

**Property owners will vote on three proposals. $1,500,000 for completing and equipping the new hospital wing; $350,000 for a 300-unit hospital parking lot; and $2,700,000 for the sewage plant.**

Each issue must be approved by 60 per cent of those voting to pass. However, in order to finance the bonds, the city voters must approve by a majority of those balloting a one mill increase to the city's tax structure.

The increase was broken down into .35 mill for the hospital and .65 mill for the plant.

★ ★ ★

If passed, taxes probably will go up 1.5 mills, through the levying of another half-mill increase approved for the hospital in 1954. It has never been levied.

**This would mean a total increase of $1.50 to Pontiac's present $13.70 tax rate for every $1,000 in assessed valuations.**

If the plant bonds pass, the city plans to issue another $391,000 in revenue bonds to complete new construction, add improvements at the present plant and connect the two.

★ ★ ★

A maximum interest rate on the obligation bonds was set at six per cent. Other terms of the bonds, however, will remain flexible at the time of voting.

This is because the proposals are in the form of city charter amendments instead of resolutions, that would have to spell out details in advance, explained City Manager Walter K. Willman.

### Downtown Pontiac Group Elects Officers

## *Girard to Head Directors*

At a noon meeting today of the new Downtown Pontiac Assn., Alfred C. Girard, president of the Community National Bank, was elected president of the group by its 21-member Board of Directors.

Other officers elected were Harold A. Fitzgerald, publisher of The Pontiac Press, first vice president; Frank S. Lyndall, manager of Sears Roebuck & Co., second vice president; Leonard T. Lewis, president of Lewis Furniture Corp., treasurer, and Monroe M. Osmun, manager of Osmun's Men's Wear, secretary.

ALFRED C. GIRARD

**The association was established April 3 as 148 downtown property owners, business and professional men and women met and set goals aimed at the rejuvenation of the downtown area.**

Those attending the meeting approved a recommended 21-member Board of Directors.

Also taken up at today's meeting was a study of a six-point plan of action, finances of the association, possible hiring of a paid director, and the city's urban renewal program.

★ ★ ★

The objectives studied included a north-south arterial highway through Pontiac, rehabilitation of old store fronts with modern ones, improving and creating more parking facilities, a promotional program, and a study of traffic control to reduce congestion.

City Manager Walter K. Willman asked the group to support a move to prevent a proposed cutback in federal urban renewal grants to cities.

## *April Showers Due Tomorrow, With High of 50*

The Pontiac area will be a little warmer tonight, says the weatherman, with the low around 30-34 degrees.

★ ★ ★

Tomorrow will be mostly cloudy with scattered showers and a little warmer. The high will soar to near 50.

**Western and Eastern Upper Michigan will be cloudy tonight, and a little colder Thursday with showers or snow flurries.**

Friday will be generally fair and warmer, except in most of Upper Michigan where there is a chance of snow flurries.

★ ★ ★

Lowest temperature in downtown Pontiac preceding 8 a.m. was 26 degrees. The thermometer registered 45 at 2 p.m.

Friday will be a little colder but Saturday and Sunday will be warm again. Precipitation will total around one-fourth inch in showers Thursday and again Monday.

## Crash Kills Wife of Retired GM Man

The wife of a retired General Motors executive yesterday died in Marietta, Ga., of injuries she received in a two-car collision there last week as the Birmingham couple were returning from a month's vacation in Florida.

Dead is Mrs. Helen F. Kleist, 63, of 2010 Redding Rd.

Her husband, Clarence, 64, retired regional manager for General Motors, received fractured ribs in the crash and is still hospitalized. Mrs. Kleist is survived also by two daughters, Mrs. Hubert Kendall of Detroit, and Mrs. John Vass of Birmingham.

### 'No Place to Go but Up'

## State GOP Veterans Cool to Enthusiasm of Freshmen

A move yesterday by freshmen GOP members of the State House of Representatives to revitalize the headless Republican party in Michigan was received with little apparent enthusiasm today by veteran legislators.

Included in the 16 new members who voiced pleas for vigorous leadership of the party were Lloyd L. Anderson of Waterford Township, Donald A. Brown of Royal Oak, and Farrell E. Roberts of West Bloomfield Township.

The movement followed sweeping Democratic victories in the biennial spring election, and statements from a Wayne County Republican official that the Republican party "had no place to go but up."

**Apparently the newcomers felt the GOP could fall further, and were concerned lest they lose the 61-49 grip on the House.**

Yesterday the new members called for a "candid, objective evaluation of the Republican party in Michigan."

**SOUGHT ACTION**

They sought action from Legislative committee chairmen and leaders to draft a new program for the party, and urged House Speaker George M. Van Peursem (R-Zeeland) as "the highest elective office holder" left in the state, to act as chief spokesman for the movement.

**Van Peursem agreed to accept the job, provided the entire GOP membership could be rallied behind the program.**

Van Peursem yesterday promised, within a week, a statement of Republican policy outlining "exactly where the Republican party wants to go" in areas where substantial agreement can be reached.

## *Mother to Appeal for New Trial in Custody of Baby*

A British-born mother will return to circuit court Monday to continue her fight for custody of a 21-month-old child she has never seen.

Mrs. Nona Hill, 33, will appeal for a new trial that might reverse the decision that little Lauren Rae Lewis stay with the Berkley couple that adopted her.

**The hearing to consider her petition will be held by Judge H. Russel Holland, who last month ruled that the mother had legally consented to the adoption at the time of the child's birth.**

Mrs. Hill, a New York City resident, contends, however, that doctors and social workers persuaded her under duress at a time she was in poor mental and physical condition in Detroit's Woman's Hospital.

★ ★ ★

Judge Holland's ruling concluded a three-day trial in which an advisory jury, most of them parents, was unable to decide how to award the child.

The mother, whose husband was dead at the time of the child's birth, had appealed a Probate Court ruling against her.

## Louisville Aldermen Get Pleasant Surprise

LOUISVILLE, Ky. (AP) — Louisville's aldermen were dumbfounded. They opened a letter and found they were being praised "for all the things (you) have done for us."

The letter, signed by four couples, went on to list "the lovely parks and community centers, the very ample playgrounds, wonderful new swimming pools, etc." The aldermen said nothing like it had ever happened before.

## Stellato Loses Fight to Prevent Dues Increase

### Union Votes to Assess $3 Each Month Starting Next June

FROM OUR WIRE SERVICES

ATLANTIC CITY, N. J. —Walter P. Reuther was elected unanimously today to his seventh term as president of the United Automobile Workers of America.

The election was by acclamation and followed a roof-lifting demonstration among the more than 3,000 delegates attending the UAW's 16th convention, held in Atlantic City's huge Municipal Auditorium.

Following Reuther's nomination by Harry Southwell of Detroit, delegates carrying placards started parading on the stage. Balloons were unleashed, huge banners unfurled, sirens blew and a band supplied continuous music.

Reuther, an AFL-CIO vice-president, has headed the UAW since March 1946.

**Earlier the delegates approved a constitutional amendment making October the month for the convention every two years. The next regular conclave will be in October 1959.**

The convention also changed the length of term for local union officers from one year to two years.

Miss Marian Anderson sang for the delegates prior to the election and received a warm reception.

**Any possibility of a challenger vanished last night in a smashing victory by Reuther forces over a minority faction that opposed a 50-cent monthly dues increase to $3 next June.**

The opposition faction was led by Carl Stellato, president of the 44,000-member Ford River Rouge plant local.

The Stellato faction claimed the union's administration had enough money for operating expenses and salaries and that any increase should be earmarked entirely for the UAW's 23-million-dollar strike fund.

**Stellato urged the union leadership to work on a plan for a combined AFL-CIO strike fund of from 100 to 300 million dollars.**

Secretary-Treasurer Emil Mazey said operating costs had gone up since the last dues increase six years ago.

He told the delegates that most UAW members had received an

### Explains Red Nose for Newsmen

## Ike Lauds Britain for Arms Cutback

WASHINGTON (AP)—President Eisenhower said today he admires Great Britain's courage and nerve in deciding to put its military program on a new look, streamlined basis.

Eisenhower was asked at his news conference to comment on such British decisions as the conclusion that the home islands cannot be adequately defended against atomic attack.

Asked about the impact of those decisions on other North Atlantic Treaty Organization countries, Eisenhower replied there is no question that Britain's new program has disturbed some NATO nations.

But he went on to say that Britain has had a hard time in recent years—has had an heroic row to hoe in trying to keep its economic nose above water.

**Responding to another question, Eisenhower said Britain's intentions to streamline its military forces were thoroughly discussed with him when he met with Prime Minister Macmillan in Bermuda last month.**

Eisenhower noted that Britain's decision to cut back its ground forces simply means in some cases that ceremonial regiments, such as the one in Bermuda, are being eliminated.

★ ★ ★

The President also said it is an age-old truth that the security of any nation never should be measured entirely in terms of troop strength. Such things as spiritual, intellectual and economic qualities also must be taken into account.

**ACCEPTS CRITICISM**

Eisenhower told his news conference that he accepts honest criticism and ignores personal

### Dems Oppose More Mail Funds

## *GOP Helps Summerfield*

WASHINGTON (AP) — Postmaster General Summerfield has picked up new Republican support in his demand for another 47 million dollars from Congress for current postal operations.

**But vocal Democratic opposition to the request continued. Rep. Cannon (D-Mo) urged the House yesterday not to be "stampeded," and Rep. Porter (D-Ore) demanded that the postal chief resign.**

Summerfield has ordered a drastic reduction in postal services beginning Saturday unless Congress indicates the additional money is forthcoming for postal operations from now until the end of the fiscal year June 30.

### MEMO TO CAESAR

## *2 Swords Are Enough*

**(Another in a Lenten Series)**

When Pilate had finished speaking, Junius resumed his report on events at the supper . . .

As the conversation continued around the table, the apostles began to argue over who should be leader of the band after the Nazarene's death.

You see, they took his prophecy literally.

**Jesus listened to their quibbling and jealousy for a time and then stopped all the noise with a statement that seemed to stun them . . .**

He said that whereas kings exercise authority and are called benefactors, it would not be so with the greatest among his followers. He commanded that the greatest act as if he were the youngest — the most in need of training and direction, I suppose he meant — and that the chief apostle should be as a servant to the others.

★ ★ ★

He looked from one to the other of his abashed followers, until he came to Simon who is also called Peter and who seems to be the most aggressive and daring among them.

**With a kindly smile, Jesus warned Simon Peter that he would be an easy prey to temptation. He added that he had prayed for the former fisherman, asking that his faith fail not. Then he said gently: "When thou art converted, strengthen thy brethren."**

At this, Simon Peter fairly bristled. He said: "Lord, I am ready to go with thee, both into prison and to death."

★ ★ ★

Patiently Jesus replied: "The cock shall not crow this day before that thou shalt thrice deny that thou knowest me."

**Then he urged his men to arm themselves. "Here are two swords," one of them said. "It is enough," he answered . . .**

Pilate turned to his agent. "Two swords!" He exploded. "What can they do with two swords against the rabble and the authorities? Go out and keep watch."

With that he sent orders to alert his own soldiers.

# Petitions Passed for New Village

## Portion of Waterford Seeking Incorporation; Area Census Started

Petitions are being circulated for the incorporation as a village of a portion of Waterford Township centering around Dixie highway and Andersonville road, it was learned today.

Included in the area known as Waterford village, the proposed site is approximately 3.25 square miles, with some 2,000 to 3,000 residents.

★ ★ ★

A census of the area is reportedly underway to accompany the incorporation petition to the Oakland County Board of Supervisors.

**Included in the boundaries of the proposed village is the former trailer factory on Williams Lake Road. The 90-acre site is now owned by the Buick Division of the General Motors Co.**

Possible planning on a growing tax base from rumored expansion of the existing plant was quashed today, when a Buick spokesman denied there were any plans for expansion of the plant.

The 224,000-square-foot building is currently being used for parts storage. Installation of a $288,635 well and sprinkling system is now two-thirds completed.

# Pajama-Clad Man Gives Theft Alarm

DETROIT (INS) — "It had to be done," said Joseph Mesanko today.

The 50-year-old man ran into the Schaefer Station at 3 a.m. today, dressed only in his pajamas, to tell police he had just seen three men breaking into a store on Grand River.

★ ★ ★

Five minutes later police arrested Howard Freeand, 24, and John G. Peloquin, both of the Wallace Hotel in Detroit, and James J. McGowan Jr., 18, of 436 Charlotte.

They admitted breaking into three stores in the same block on Grand River. Police found burglar tools and a bag containing $168.

# James Vernor Rite Pends in Birmingham

Funeral service for James Vernor Jr., 39, of 707 W. Long Lake Rd. Bloomfield Hills, who died at Columbia Presbyterian Hospital, New York yesterday of a liver ailment, are pending from the Bell Chapel of the William R. Hamilton Co. in Birmingham.

Grandson of the founder of Vernor's Ginger Ale Co., he was widely known in Michigan social, hunting, boating and flying circles.

Vernor is survived by a son, James IV; a daughter, Grayce Shannon, and his wife Shirley Chesley.

## Boy, 7, Hospitalized After Auto Accident

Seven-year-old Donald Doyon, 1220 Scott Lake Rd., Waterford Township, is in satisfactory condition at St. Joseph Mercy Hospital where he is being treated for a broken left leg he suffered in an accident yesterday.

Waterford Township Police report the car involved in the accident at Pontiac Lake Rd. and DePaige St. was driven by Mrs. Ray Bauer, 24, of 911 Elira Rd., Pontiac.

Mrs. Bauer told police the boy waited for one car to pass going west on Pontiac Lake road and then ran into her auto, which was going east. The boy said he did not see the Bauer car.

# Bus Drivers Ask Willman to 'Sit In'

Pontiac City Manager Walter K. Willman has been asked to sit in on the "stalled" negotiations between bus drivers and the Pontiac City Bus Lines, Inc.

He said he would accept the invitation of Local 1079 of the Amalgamated Assn. of Street Electric Railway and Motor Coach Employes of America, which was issued at last night's City Commission meeting. There was no immediate report on whether the company would issue a similar invitation.

**Four members of the local appeared before the commission to state their case why they were asking a 20-cent hourly pay hike during negotiations for a new contract. A company spokesman said earlier the request would force it "out of business."**

The drivers said they requested Willman's presence at the bargaining table as an "observer" in order that the city would realize their side of the negotiations.

★ ★ ★

John Sytsma, president of the local, said, "We're practically getting nowhere in our negotiations. The company says it can't pay us any more, and we figure we can't work under present wages."

**"We get $1.65 an hour without hardly any fringe benefits except a one week vacation a year," he continued.**

Representatives of the company were out of town and could not be reached for comment. It was not known when the next company-union meeting was scheduled.

E. W. Dreasher, transportation superintendent, said last week "some progress was made" in the bargaining.

Drivers are presently operating under a day-by-day agreement, Dreasher reported, after a two-year contract expired March 31.

There has been no threat of a walkout of the 40 bus drivers.

## Resident Tosses Real Bombshell at Area Police

A Commerce Township man who lived with a bomb for five years yesterday touched off a minor alarm throughout county police forces when he decided he wanted "no part of it anymore."

★ ★ ★

Joseph Secunda, 42880 14 Mile Rd., discovered the 23-pound fragmentation bomb, "probably a war souvenir," in the basement of his home when he first moved into the place. "I came by it easy enough," said Secunda. "Getting rid of it was another matter."

**At 12:30 p.m. yesterday he called Walled Lake Police Chief Albert Decker and informed him:**

"I've been living with this bomb for five years. It was here when we moved into the house. I don't want it anymore. Why don't you come over to my place and take it away?"

**NO EQUIPMENT**

Decker, who had no knowledge or equipment for such a task, wanted no part of it either. He alerted the Sheriff's Department. They too were wary of coping with such a "dangerous assignment."

**A search for a demolition expert on one of the county police forces was to no avail.**

Finally at 4:30 p.m., Sgt. Guy Deehring, 23, of the demolition crew (Explosive Ordnance Disposal) of Selfridge Air Force Base, arrived at the scene.

★ ★ ★

It took Deehring just a few minutes to make the 24-inch shell safe. The fuse had been disconnected, but the explosives were still inside. "Intensive heat could have exploded it," he said. He took the bomb with him to explode at Selfridge Field.

## Crash Concludes Safe-Driving Poem

# Death Illustrates Prayer

NEW ORLEANS (INS) — A New Orleans father was rummaging through his son's belongings today and discovered a poem the youth never had a chance to finish.

★ ★ ★

Joseph L. Brady said the poem written by his 16-year-old son, Lawrence, was to be published in a school paper.

The poem was entitled: "Prayer for a Safe Driver." It read:

**"Lord, help me so that I will not unintentionally endanger the life of someone or damage their property.**

"Lord, give me eyes — or help my eyes — to be alert and see danger and avoid it.

"Lord, give me good hands — or help my hands — so that I will drive a steady and true course.

"And Lord, give me quick and responsive feet, so that I will be able to act accordingly in circumstances . . ."

★ ★ ★

Brady was putting his son's things in order after the youth had been killed in a four-car collision last Friday.

## UAW to Re-elect President Reuther

(Continued From Page One)

increase of 71 cents an hour in economic benefits since 1951.

He added that on June 1 about a million members will get a 6-cent hourly "improvement factor" increase under current contracts and at the same time probably get a two-cent cost-of-living increase.

**FIRM CONTROL**

Reuther, as presiding officer, kept firm control of the 3,200 delegates during the dues debate.

★ ★ ★

At one time when booing broke out he warned, "I will not tolerate booing at this convention. If anyone has such a feeling of contempt for another delegate's opinion, let him keep it inside him."

**The opposition faded to less than 200 delegates when it came to a showdown on a demand for a roll call vote. The rules required 800 to support a roll call.**

The standing vote was overwhelmingly in favor of the increase.

★ ★ ★

Delegates yesterday approved a resolution making "a shorter work week with more take-home pay" the major goal of UAW negotiations in 1958.

**SPECIAL PARLEY**

The 3,200 delegates gave almost unanimous endorsement to the resolution, which was proposed by the union's international executive board and also calls for a special UAW convention in January to spell out specific demands.

★ ★ ★

Reuther said earlier this week that most rank-and-file members favor a four-day work week rather than a five-day week with fewer hours each day.

**The UAW convention called on management of the major auto and aircraft companies to join with the union in establishing a joint study committee to explore the many problems related to reduction of the work week and the need for expanded purchasing power.**

The resolution also recommended that contracts negotiated in 1958 be for no more than two years. Present auto contracts are for three years.

★ ★ ★

Leonard Woodcock, UAW vice president and director of the union's General Motors and Aircraft Divisions, told the delegates that the first contracts to be reopened will be in the aircraft industry.

## Postpone Trial Week for Teamster Official

The trial of a Pontiac Teamsters official charged with assault and battery of a rank-and-file union member last month, was postponed yesterday until April 16 at the request of defense attorneys.

West Bloomfield Township Justice Elmer C. Dieterle granted the week's delay for Floyd Harmon, 47, business agent of Teamsters Local 614, 1410 S. Telegraph Rd.

★ ★ ★

Harmon is charged with striking Roy Smith, 33, of Keego Harbor, in a Bloomfield Township tavern as Smith reportedly attempted to take his picture. Harmon's $100 bond was continued.

William F. Dohany, one of two defense attorneys, asked the week's postponement to allow time "to secure more witnesses."

South america has an area of about 7,570,000 square miles, or equal to about 14 per cent of the total land surface of the world.

# Commissioners Act on Hospital

## Terminate Ex-Officio Position of Director on Board of Trustees

The City Commission last night approved two changes at Pontiac General Hospital but tabled a third recommendation indefinitely.

★ ★ ★

It terminated the ex-officio status of Miss Lauretta Paul, hospital director, on the hospital's board of trustees and provided that the president of the women's auxiliary become an ex-offico member.

★ ★ ★

These changes, City Manager Walter K. Willman said, are in line with recommendations of a hospital survey for greater hospital efficiency. They were further recommended by the hospital board.

**Commissioners balked, however, at limiting the tenure in office of board members, who are appointed by the commissioners themselves.**

★ ★ ★

The hospital board had recommended no more than two consecutive, four-year terms. It recommended at least a one-year interval after eight years in office, a modification of the survey's recommendation of a three-year interval.

★ ★ ★

Willman called the recommendation "a way of bringing new blood into the board," but added: "I disagree with it. We don't want to run the risk of losing good men who want to serve."

# Jury Acquits Mrs. Reagan

## Flint Mother of 4 Free After Murder Trial in Death of Elmer Korth

MIDLAND (AP) — Mrs. Virginia Reagan, 32-year-old Flint divorcee, is free today of a first degree murder charge in the death of Elmer Korth, 35-year-old father of four children.

Mrs. Reagan was acquitted by an all-male jury here yesterday.

When the jury announced its verdict after 7½ hours deliberation, Mrs. Reagan broke into sobs on the shoulder of her attorney.

"I knew God would help me," she said.

**WILL RETURN TO CHILDREN**

The attractive brunette divorcee said she planned to go immediately to her four children, whom she had not seen since the shooting Feb. 8.

★ ★ ★

Korth, of Otter Lake, was shot in a Sanford Lake cottage after Mrs. Korth and Mrs. Josephine McArthur found their husbands in the cottage with Mrs. Reagan and Mrs. Treva Jean Pearce of Greenville.

**Mrs. Reagan claimed the shooting was accidental. She said Mrs. Korth jerked her arm just before the .25 caliber pistol discharged. She said Korth had given her the gun to carry as protection against her ex-husband.**

"I wouldn't have done it for anything," Mrs. Reagan said. "I loved Elmer tremendously."

★ ★ ★

Mrs. Pearce testified that Mrs. Korth and Mrs. Reagan scuffled in the cottage and that Korth pulled them apart.

Mrs. Reagan testified she had been meeting Korth more than a year but did not know he was married until several months ago. She said she expected him to get a divorce.

Circuit Judge Donald E. Holbrook gave the jury a choice of four verdicts. They were first or second degree murder, manslaughter or acquittal.

MRS. ROY L. WILKINSON

# City Woman's Burial Thursday

## Mrs. Roy L. Wilkinson Succumbs in Home at Age of 64

Service for Mrs. Roy L. (Marjorie Struthers) Wilkinson, 64, of 153 E. Iroquois Rd. will be at 2 p.m. Thursday from the Voorhees-Siple Chapel. Dr. William H. Marbach, her pastor, will officiate with burial following in Perry Mt. Park Cemetery.

★ ★ ★

Mrs. Wilkinson, whose late husband was the founder of the Wilkinson Insurance Agency, died suddenly of a cerebral hemorrhage at her home early yesterday morning.

★ ★ ★

Pallbearers will be Robert H. Struthers, Fred Strauss, Jack Hensel, Jack Habel, Louis Cole Jr. and Charles R. Miller.

**Mrs. Wilkinson was born in Detroit on July 30, 1892 to Peter H. and Fannie Struthers. She attended Pontiac schools and worked for her father in the Struthers Dry Goods Store prior to her marriage.**

She was a member of First Presbyterian Church and the July-August Group of her church.

★ ★ ★

Surviving are two children, Ruth Wilkinson at home and James Roy Wilkinson of Pontiac; and two grandchildren, John Lindsey and Ann Kay Wilkinson.

# Wife Free on Bond in Sunday Shooting

A wife accused of shooting her husband with intent to murder pleaded innocent yesterday before Municipal Judge Maurice E. Finnegan and was released on a $500 personal bond, with trial set for April 24.

★ ★ ★

The complaint against Mrs. Mattie Mae Woods, 37, of 604 Howland Ave., was signed by Detective Sgt. Allen D. Noble after her husband, Howard, 43, refused to press charges.

Woods was in fair condition today at St. Joseph Mercy Hospital. He had been on the critical list since Sunday.

Noble said Mrs. Woods admitted she and her husband had been arguing all day Sunday. Woods was wounded three times in the foot and once in the abdomen with a .22 rifle.

## D & C Passenger Liners Sold for $90,000 Scrap

DETROIT (AP) — Three Detroit & Cleveland passenger liners, once valued in the millions, sold for $90,000 scrap, A D & C stockholder report shows.

The boats were the Greater Detroit, City of Detroit III and Eastern States, whose hulls now are tied up on the Detroit River.

The Western States, now a "flotel" at Tawas City, sold for $25,000. D & C said it took a loss on all vessels, but said the cost of retaining them was too great.

## The Day in Birmingham

# Manager Recommends Action on Access Drives

BIRMINGHAM — City Manager Harold K. Schone Monday night presented his summary of parking conditions along Hunter boulevard.

He recommended that the city begin action for the construction of access drives abutting business places.

**Schone said cars backing onto Hunter from the various stores and office buildings create a serious hazard. He cited 126 property damage and 28 personal injury mishaps, many of which were rear-end collisions due to vehicles backing onto the thoroughfare.**

Commissioners moved to begin the program at once, setting two-year deadline for its completion. Property owners will be notified and asked to cooperate.

Schone told commissioners that a letter from the Michigan Highway Dept. indicates the state's willingness to participate up to 50 per cent of the cost.

**In addition to the safety factor, it was brought out that appearances would be greatly improved through the construction of access drives.**

The several firms which installed the drives during their original construction programs were commended by officials.

★ ★ ★

Birmingham's new mayor, William Roberts, won't go to Pellston after all on Mayor's Exchange Day, May 20.

**The up-state community has notified Birmingham that it will be unable to participate this year. Roberts, on learning that, due to the change, his destination would be Battle Creek, was reminded by fellow commissioners of the breakfast foods he might receive as souvenirs.**

He remarked, "With my children, it's not the cereals that are of interest, it's the premiums!"

★ ★ ★

John S. Bugas, vice president in charge of Industrial Relations of Ford Motor Co., was elected mayor of Bloomfield Hills Tuesday night by the city commissioners.

# Taylor Official Goes on Trial

## Township Supervisor Harold Rippe Faces $6,000 Bribe Charge

DETROIT (INS) — Former Taylor Township Supervisor Harold Rippe, indicted on charges of taking a $6,000 bribe, went on trial today before Circuit Judge Robert M. Toms.

★ ★ ★

Rippe's attorney, J. W. Louisell, had tried to have the trial postponed yesterday, but the motion was denied by Judge Toms.

Judge Theodore R. Bohn's one-man grand jury charged Rippe "extorted, solicited and accepted a $6,000 bribe in 1955 from Calvin Shubow, head of several Detroit building corporations."

Shubow, granted immunity as a briber, testified at Rippe's examination that he gave the ex-supervisor the money while they rode in a police car.

★ ★ ★

Two other indictments still stand against Rippe. One charges he extorted a $6,000 bribe from another prominent builder, Irving Green.

The third indictment named Rippe and five other township officials and employes in an election fraud.

# Saginaw Business Has Assessment Cut

(Continued From Page One)

creases in valuations for three sections, the board didn't go along with the proposals. It recommended that the sections, west side of Saginaw street from county building to Huron, and east side of Saginaw from Huron north to Robert Hall's, retain 1956 valuations.

★ ★ ★

The following sections also retained 1956 land valuations: west side of Saginaw from Huron south to Cunningham Drug store, east side from Pike street to Pontiac State Bank Building, and from the building north to Huron street.

For the 1957 total city assessment, the board knocked $1,396,750 off Ransom's recommended valuation.

The final tabulation for the year is real, $136,433,400, and personal, $117,713,200.

The total 1956 city evaluation was $239,486,275.

## U. of M. Building Lost—in Annexes of Past 80 Years

ANN ARBOR (AP)—The University of Michigan says it has lost one of its buildings.

But not really, says F. Clever Bald of the Michigan Historical Collections.

**It's just that what was once the chemical laboratory, which stood in splendid isolation, has had so many additions that it's lost all identity.**

Bald says no one, no matter how long he's been at the university, can pinpoint the exact location of the original structure. It's been that well concealed, he says.

★ ★ ★

The present conglomeration of buildings, additions and annexes now is home to the Pharmacology and Economics departments.

The original building cost in the neighborhood of $3,450 and was completed in the autumn of 1865. By 1889, the new edifice had been enlarged five times and has been "lost" ever since.

Hong Kong has just held its first annual Watch and Clock Exhibition.

# Arrest of 3 Solves 26 Break-Ins, Thefts

Pontiac Police have claimed the clearing of 22 break-ins, three auto thefts and a larceny with the arrest of three teenagers.

David B. Wilson, 17, of 419 Howard McNeill St., waived examination when he appeared before Municipal Judge Maurice E. Finnegan on a larceny charge. He was freed on $100 bond.

Detective Sgt. Raymond E. Meggitt said Wilson and a 15-year-old boy admitted they committed 22 breakins, and took three autos.

One juvenile was returned to Boy's Vocational School in Lansing, the other to Oakland County Children's Home pending Juvenile Court action.

## Bright Comet to Appear, Visible to Naked Eye

ANN ARBOR (INS) — A University of Michigan astronomer said today a comet "equal to the spectacle of Halley's comet" will be visible beginning next Tuesday.

Professor Hazel M. Losh said the comet, named after its discoverers, Arend-Roland, will be visible to the naked eye from Tuesday through May 15.

★ ★ ★

Discovery of the comet was made last November in Belgium. Halley's comet was last seen in 1910 and is expected to reappear in 1986.

LOS ANGELES (AP) — There's a little detective work to be done in the police cafeteria. Squads of hungry officers at breakfast time found the syrup pitchers all had soy sauce in them. Each officer got fresh flapjacks—on the house.

## Man Against the Weather

# Robot Bares Atmospheric Secrets

(An electronic robot is helping forecasters unlock many of the secrets of the weather. The intricacies of this "mechanical weatherman" are explained in this second of a series on man's battle against the weather.)

By FRANK CAREY
AP Science Reporter

WASHINGTON (AP) — In an air-conditioned room in nearby Suitland, Md., lives "701" — a robot who may be the ancestor of a legion of mechanical weathermen of the future.

This electronic monster—a high-speed computing machine—is being employed in research and even in some limited operational use involving a new method of weather forecasting which the U. S. Weather Bureau says "holds promise of becoming the most revolutionary development in meteorology in decades."

**While even his most enthusiastic backers contend he'll never put human weathermen out of work, they predict that 701 and robots like him will help greatly in more accurate forecasts, especially on a long-range basis.**

Weather Bureau scientists also say the robots offer a potential valuable aid towards achieving improved prediction of radioactive fallout from H-Bomb explosions and storm-induced surges of water. It may even help forecast droughts with high accuracy.

**GOOD BET**

Further, they say, the robot looks like a good bet to help science solve additional secrets of the spawning of hurricanes and tornadoes — the better to cope with them — and to help in research on the dream of "weather control."

**Robot 701 is a voracious eater — subsisting on "food" gathered daily from the five billion cubic miles of air that flow around the globe in ever-changing patterns of wind and weather.**

His diet consists of temperature, pressure, humidity and wind readings taken by radio-equipped high-altitude balloons and other means from all over the earth. These hallmarks of the weather are translated into holes on punched cards which 701 gobbles like a glutton.

**BURPS RESULTS**

But he earns his groceries, for periodically he burps out a fully printed hemispheric weather map which is sent in facsimile form by teletype to 100 of the Weather Bureau's offices throughout the country and even transmitted by radio to ships at sea.

★ ★ ★

**These maps are prognostic charts of the weather outlook for a given period, say 24 to 36 hours, and are used as auxiliary guidance material by local forecasters in predicting conditions for specific areas.**

Somewhat similar charts are also prepared by hand by human forecasters at the Weather Bureau's national weather analysis center at Suitland.

★ ★ ★

It is estimated that to make a 72-hour forecast which the robot can do in a matter of hours, counting all preliminaries, it would require 35 years for a single human forecaster — and he'd have to have the aid of 64,000 desk calculators working night and day all that time!

★ ★ ★

In the present stage of development, robot weathermen do their best work in forecasting upper air conditions. They get poorer results for specific conditions at lower levels. Still, to a large extent, surface conditions are influenced by what goes on up above.

## Actor Purdom Weds

NEW YORK (AP)—Edmund Purdom, darkly handsome British actor, married a blonde art student yesterday. The 29-year-old film star and his Polish-born bride, Alicja Darr, 26, will leave shortly for London and Florence where he is making a television film series.

## TV Watches Turnstile

NEW YORK (AP) — A miniature television camera is serving as a "policeman" in a 42nd Street subway station. The camera is focused on a turnstile to watch for subway riders who try to squeeze through without paying.

## Buenos Aires Name Hit by Municipal Strike

BUENOS AIRES (INS)—Buenos Aires, which means "good airs," was a city of very bad odors Tuesday on the sixth day of a municipal workers' strike that includes garbage collectors.

Piles of uncollected garbage cluttered the sidewalks and scraps of dirty paper fluttered into the faces of pedestrians.

The workers, who want a 50 per cent pay boost, apparently ignored the mayor's agreement with the government to put strikers under martial law if they did not return to work.

Army conscripts began cleaning up some of the filth today but it will take a full week.

## Seagulls Driven Inland

WILLIAMSPORT, Pa. (AP) — A flock of seagulls turned up yesterday in central Pennsylvania, apparently driven inland by the high winds and cold weather along the East Coast or the Great Lakes. Williamsport is about 150 miles from the Atlantic and approximately 90 miles from Lake Erie.

TOKYO (AP) — Career diplomat Koichiro Asakai, present ambassador to the Philippines, is being prominently mentioned as Japan's next ambassador to the United States. Msayuki Tani is giving up the post April 14.

## Barroom Humor Brings Police on the Double

PHILADELPHIA (AP) — Patrons in Pat Cavanaugh's bar in West Philadelphia were startled to see a dozen grim-faced policemen, guns drawn, burst into the place.

Mickey Cavanaugh, manager of the place and Pat's brother, had an explanation.

Two plumbers who had done work for Pat had come in to present their bill. Mickey, with typical Irish good humor and a twinkle in his eye, told Pat's daughter to run upstairs and tell her father there were two oandits downstairs and they wanted money.

She told Pat just that. He called police.

## Selznick Kin Improves

HOLLYWOOD (AP)—The mother of movie producer David O. Selznick, Mrs. Florence A. Selznick, 78, is reported recovering at Cedars of Lebanon Hospital, where she underwent abdominal surgery yesterday.

PROTECTION
for your whole family in case of
ACCIDENTAL POISONING

EMERGENCY P·A·K
$2.50
Frightening, but true . . . Accidental Poisoning kills more children than Polio, Diphtheria and Scarlet Fever COMBINED!
When you buy your EMERGENCY PAK, first read the easy-to-understand instruction booklet (at right). Then, put the booklet back in the box, and place the entire EMERGENCY PAK in your medicine chest where it will be handy always in case of an emergency.
In any case of poisoning, contact your physician or nearby hospital quickly.
A MUST FOR EVERY MEDICINE CHEST
Dozens of poisons are probably in your home—paint, bleach, fingernail polish remover, aspirin (if taken in excess), floor waxes, lye, and possibly many, many more! Pre-School children cannot read labels, and adults often forget to!
The result is more than 200,000 hospital cases of poisoning yearly. Now, at last, you may protect your entire family from possible serious illness—yes, even death, if you keep an EMERGENCY PAK in your home and office medicine chest.
EMERGENCY PAK has been scientifically planned to fill a need . . . a vital, urgent need for a compact kit of poison antidotes that can be given as emergency first aid when immediate action is essential and every second counts! Get yours today.
EMERGENCY PAK's five clearly-numbered vials each contain a different antidote. This instruction booklet tells which of the antidotes are to be given singly, or in combination, for any given poison. Over 700 different poisons and their antidotes are listed (both by type and by brand name).

# Ike's Program Endangered Unless He Takes Command

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Eisenhower's programs might have a better chance in Congress if he stuck out his jaw more. Unless he asserts strong leadership in his second term, he's apt to be run over.

★ ★ ★

Congress is in a whittling, independent mood. Further, as a last-term president, Eisenhower naturally stands to lose some influence with Congress, even among his own Republicans.

But, so far as can be seen, he's doing pretty much what he did at the beginning of his first term. Then he seemed to think — and was criticized for it—that his job was simply to make recommendations to Congress without any hard follow-through.

This year he offered programs in keeping with what he called the New Republicanism. At his Nov. 14 news conference, the first after his re-election, he was asked how he intended to assert leadership for his modern Republicans. He replied:

"I am not one of the desk-pounding type that likes to stick out his jaw and look like he is bossing the show. . . . I would rather try to persuade a man to go along."

But some of his most important programs now either are under attack, even by Republicans, or appear to be headed nowhere. There even appears to be lack of coordination — or leadership — within his own administration.

For example: The confusion over his budget. At first he seemed to be inviting Congress to reduce it. They got this straightened out and Eisenhower got firmer on his figures.

Then Sen. Knowland of California, the Senate Republican leader, talked of cutting the budget three billion dollars. Last week Eisenhower came out against a cut of as much as two billion. And on the same day Treasury Undersecretary Randolph Burgess said he thought it would be fine if the budget could be cut two to three billion dollars.

There's hardly any doubt the budget will be slashed, with Eisenhower's Republicans joining Democrats to do it. And his four-billion-dollar foreign aid program, one of his most important, seems headed for some of the heaviest axing.

Eisenhower asked for money for federal aid to education. Its chances now look slim. And his civil rights program doesn't look like a good bet to pass either.

The President called in congressional leaders to suggest a constitutional amendment for clarifying the take-over by a vice president when a president is disabled. That one is dead already.

★ ★ ★

About the only two important things Eisenhower has won from Congress so far are approval for his Middle East program — after many weeks of delay — and continuance of the excise and corporation taxes at their higher Korean War levels.

Eisenhower may not want to stick his chin out, but Congress this year shows a willingness to belt it even when he keeps it close to his chest.

**BIRTHSTONES**
**3. Emerald and Pearl**

The green, transparent emerald is the birthstone for May. In beauty and value it is a close rival of the diamond.

Ancient emeralds came from "Cleopatra's Mines" in Egypt. Almost all of the emeralds mined today are from the Colombian Andes in South America.

Emeralds were worn by ancient Egyptians in rings or amulets to ward off evil and illness. Here is a picture of Cleopatra, the famous Egyptian queen, looking at her emerald ring.

The pearl is the birthstone for June. It is made up of deposits formed on the lining of certain shell fish, the best coming from pearl oysters. Today some pearls are cultivated by inserting a tiny bit of stone or shell into an oyster. Layers of pearl grow over this bit to form a cultivated stone.

The best natural pearls come from the Orient, where they are obtained by pearl divers like the one shown here. The diver carries a "sink stone" to help keep him under water and a basket in which to put oysters. He remains under water 50 to 80 seconds at a time and picks up oysters from the sea bed.

## Massachusetts Corrects 3-Year-Old Error

# *Puerto Rican Free; Real Slayer Confesses Crime*

BOSTON (AP)—Santos Rodriguez, 26, was a free man today after the State of Massachusetts rectified the mistake under which he was sentenced to life in prison for a murder he did not commit.

He had served 2½ years.

★ ★ ★

The Puerto Rican restaurant worker walked out of the prison colony at Norfolk last night wearing a new suit the state gave him and with $52 in cash he had earned in prison.

With a wide grin, he said: "I give my thanks to God and the people who helped. All my prayers be answered one by one. I hope God bless all the people that help me in this case, this case that was my life."

He learned his English in prison.

Gov. Foster Furcolo and his Executive Council skirted a state law to give Rodriguez quick freedom.

A pardon normally cannot be granted within a minimum of two weeks after a petition has been filed, but Rodriguez was freed within minutes. As a formality, the Executive Council again will act in two weeks.

The state acted after Lucien Peets, 34, of Springfield, confessed he and not Rodriguez killed Mrs. Mildred Hosmer, 43, in a Springfield rooming house more than three years ago.

Peets pleaded guilty to manslaughter last Friday.

A Superior Court jury in Springfield convicted, Rodriguez, one-time busboy after a "confession" he signed was read into the court record.

On his release last night, Rodriguez said of the statement he signed: "I wrote down everything they tell me to write. The police pushed me around, pushed me against a steam pipe and hit me a few times."

Police denied all of Rodriguez' assertions of brutality.

★ ★ ★

The young Puerto Rican said he was "not angry" at the state for imprisoning him. "They're all human beings," he said referring to those who prosecuted him.

The newly freed man said also he does not feel bitter toward Peets for not coming forward sooner. "God has the power to forgive him," he said.

★ ★ ★

Asked by reporters what his plans are, Rodriguez replied: "I like to sing, senor." Then he burst into the song "Learning the Blues" in English and in Spanish.

A legislative committee is considering a proposal to pay Rodriguez $60,000 for his unjust imprisonment.

## Piggins Challenges Cerf to Debate Book

DETROIT (INS) — Police Commissioner Edward S. Piggins has challenged publisher Bennett Cerf to public debate on the merits of "Ten North Frederick," a prize-winning novel barred in Detroit as obscene.

Piggins said, "I would be very pleased to debate the merits of the book with Cerf on TV or any other public forum.

**"I respect Cerf's opinion, but I recognize he is trying to sell books. My only concern is to prevent the promiscuous circulation of obscenity and to protect youth."**

At Michigan State University yesterday, Cerf called Piggins a "self appointed dictator and snoophound" for trying to "tell people of Detroit what to read."

Cerf, whose company, Random House, published the controversial novel by John O'Hara, called such censorship "un-American."

## Hubbard Pushes Bid for Florida Land

DEARBORN (AP) — Mayor Orville Hubbard is going to make another effort to get voters' approval of his plans to establish a vacation and retirement village in Florida.

★ ★ ★

The Dearborn Council voted last night to put the question on the ballot again in June 10 school election.

Voters rejected it at the April 1 general election.

Hubbard is seeking approval to name a local committee to explore development of 10,000 acres north of Miami Beach a Florida land developer has offered to give to Dearborn.

Under Hubbard's plan, the city would construct low-cost housing for use by Dearborn residents on vacations or retirement.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

WEDNESDAY, APRIL 10, 1957

## No Saturday Mail? OK; Read It Monday

Postmaster General Summerfield's decision to suspend major postal services on Saturdays to keep operating expenses within the available funds is not so drastic a step as some would have us believe.

★ ★ ★

Certainly some public utilities must operate around the clock.

We must have constant fire and police protection; telephone and electric service is vital at all hours; hospitals can never close.

But are all functions of the post office in this class?

We think not.

★ ★ ★

Mail that should be in transit over Saturday and Sundays will still be on the move to the cities of its destination;

**Perishables and special delivery letters and parcels will be handled as usual;**

Post office lobbies will be open for box holders to pick up their own mail; one complete collection from all street boxes is planned locally instead of the normal week-day collection.

Chief curtailment, so far as the average citizen is concerned, will be the loss of house-to-house delivery one day each week and closing of stamp and other service windows on Saturdays.

★ ★ ★

In a nation where the 5-day business week has become almost universal we cannot become alarmed over putting postal service on a similar schedule.

**No private business hesitates to reduce operating costs in line with income; otherwise they are not long in business.**

If the nation is sincere in wanting business methods in public affairs (as the Eisenhower endorsement in 1952 and '56 indicated) the country must be ready to accept adjustments necessary for such common-sense operations.

There is actually nothing sensational about Summerfield's move.

Perhaps it is long overdue.

## When We Needed a Spring Cleaning

These were the sulphur and molasses days of our forefathers. They were as regular as the coming of spring.

Before the modern inventions brought us year round fresh vegetables, the human system became wearied and sluggish from a several months diet of stored up, canned and dried food, and needed a renovating.

An overindulgence in salt pork and buckwheat pancakes did not serve to hasten the proper functioning of digestion.

★ ★ ★

But grandmother had what she considered an infallible panacea and general restorative. She got the idea from her grandmother, and had suffered through it herself. It was nasty and repulsive to the taste, but did things to the alimentary canal that were not so disagreeable, after it had been gulped past the sense of taste.

**It was a combination of powdered sulphur and molasses in quantities upon which no two women agreed, and in proportions filled b'guess and b'gosh.**

If a youngster needed corporal punishment, the content of sulphur was increased or water was substituted for the molasses, and the frequency of the doses was pushed up.

★ ★ ★

The molasses was taken from the family larder—it had been purchased last fall to use on the pancakes, which also were accused of creating an itching sensation that could be cured only by sulphur and molasses.

**The sulphur was bought in hunks at the corner drug store or grain elevator, and ground in the family coffee mill or pounded up with a hammer.**

But, despite the disagreeable taste, untold generations will agree that this dual concoction did as much to restore the old pep as now does the coming of the baseball season.

★ ★ ★

Since our modern ways have the human spring consumption of sulphur and molasses no longer necessary, it also has found a use to take up the slack it might cause in their production — the farmers use them for fertilizer.

## Want That $250?

### Or Would You Rather Let Your Neighbor Win Prize?

**Procrastination: What may cause you to lose $250. See below.**

That $250 in U.S. Savings Bonds may be headed your way in our baseball contest, if you get busy AT ONCE, as your entry must be received in our office by NOON on Saturday of THIS week, April 13.

It goes to the person submitting the nearest correct answer to:

**What player who has been at bat at least 25 times will be leading the American League on the night of Friday, April 26, and what will be his batting average?**

Every member of your family is eligible to compete, but each entry must be on a separate piece of paper.

People who made the several hundred entries already received took no chances on being too late. Better get your family's entries on the way NOW.

After keeping tab on the thing for over 30 years,

of Cass Lake, says the ice went out of our lakes this spring almost two weeks earlier than the average time.

Somewhat rushing the season, a forsythia bush in the yard of

at Drayton Plains, is in full bloom, and spreading its yellow glory even in a more intensive manner than in any former year.

When he returned from work the other day,

**Garner Osterman**

of Waterford, found that his dog had adopted a cocker spaniel that had a broken leg, probably secured on the Dixie Highway near their home.

Entries in this column's

**Biggest Oak Tree Contest**

must be received by April 20, and must be made in writing, giving diameter three feet above the ground and other particulars. Over 30 entries already have been received, running up to 5½ feet.

The robins that have been fed all winter by

The ten members in the family of

**Mr. and Mrs. Artemas Johnston**

of Walled Lake, parents and eight children, constitute the largest family to make a full entry in our baseball contest, to date. They favor the old time sluggers.

has some photographs of the Andersonville School in 1881, when

**Charles Dean**

was the teacher, and received $25 a month. Mr. Hillman, now 82, is one of those 42 pupils still living.

A number of our older readers have called my attention to the fact that the funeral of the

She Fits Right in

David Lawrence Says:

## Stable Year Ahead for Business

WASHINGTON—Well, the scare about business conditions is over. Analysts who were gloomy in January in predicting what kind of year 1957 would be are getting more optimistic. It looks now as if this year will be one of the best in the history of American business.

LAWRENCE

Everything is relative, of course, because unless a current year shows "gains" over the preceding year, the talk is usually of a "decline" and maybe a "recession." But what's being discovered now is that 1957, while not a record-breaking year, will be good by almost any standard.

**Within the last few days some significant surveys of the business situation have been issued which coincide in their appraisal of 1957 as a good year for business. Thus, the monthly letter of the First National City Bank says:**

**"On balance, the strong sectors in business offset the areas of weakness . . . there is no evidence that the rise in gross national product has halted; certainly, it has not turned down."**

**MAJOR FIELDS**

There are two major fields to which business surveys always give primary attention. One is the expenditures for heavy goods—plant and equipment—and the other is consumer spending. Here is what the bank's letter says on both:

**"Business men are planning to spend $37.4 billion on new plant and equipment during 1957—an increase of 6½ per cent over the record-breaking 1956 outlays . . .**

Consumers are shown by surveys to be generally optimistic, though somewhat "price conscious and cautious." But, as the bank letter says, "On the whole, it is a picture of sustained, though not expansive, consumer buying interest."

**SURVEY REPORTS**

Turning to the survey made by the economic division of U.S. News & World Report" last week, we find this appraisal for 1957:

**"Business, by almost any standards other than those of feverish boom, will be good in most lines . . . in general, business activity will be on a plateau, with a few valleys appearing in places where expansion had gone too fast . . .**

**"When it is all added up, the result is a year of spending about on a par with the spending level of late 1956. In total, 1957 promises to be a year of stability rather than a year of expansion . . .**

"All in all, the outlook is for one of the mildest adjustments on record."

**BRAKES NOT OFF**

This doesn't mean that the brakes are soon to be off and another boom is in sight. There is no justification for extremes, either of pessimism or of optimism.

**What's happening really is that the American economy is demonstrating how it can absorb a dip in auto sales and a sharp decline in home building while other fields of activity more than make up for these weak spots—all this in a country whose output this year may total $425 billion. Also, war clouds in the Middle East are receding.**

Much of the pessimism manifested in the first part of this year was due to the talk about the federal budget being "too huge." But the significance of the agitation was not in the probability that the present budget would be cut deeply and the economy upset by drastic reductions in government expenditure but in the effort to crystallize public opinion against further growth in the size of the annual budget.

**TWO METHODS**

For there are two methods talked about to achieve tax reduction—one is by cutting the present budget deeply and yielding a surplus. This contains some hazards in readjustment of business.

The other way is to hold down the present budget with reductions of a billion or so and to depend on next year to encourage an enlargement of tax receipts due to healthy business conditions. A surplus of unexpected size can emerge, and, if it isn't immediately spent by the social welfare boys in the administration and on Capitol Hill, tax relief for the American people can be realized next year.

★ ★ ★

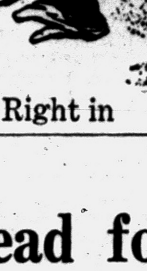

The first quarter of this year shows that business is set for 1957 on a firm course and that confidence is coming back where only a few weeks ago there was hesitation and talk of a "hair-curling depression." It was the long-range and not the short-range situation which was the real target of the secretary of the treasury's original remarks. The warning now has served its purpose and business can plan ahead on a sounder basis than ever before.

Dr. William Brady Says:

## *Wheat, Fresh From Fields, Is Key to Vibrant Health*

A North Dakota reader writes: "With wheat fields all around us here, we have the ridiculous situation of shipping our wheat to another state for processing and then having the finished product returned in the form of bleached flour."

DR. BRADY

A Michigan reader writes: "We bought five pounds of wheat. The wheat is clean — the clerk said it was washed and that they have lots of calls for it.

"We cooked some whole and had it for lunch. We also ground some and had that cooked in milk. It was delicious. Now we'll have it everyday."

A Minnesota reader writes:

**"We get wheat from the farm, about 20 pounds. We grind it in the coffee mill and cook it like oatmeal. With milk and brown sugar on it, it is very good.**

"I bake two loaves of bread each week with the flour we grind ourselves fresh. This way we get all the vitamins and minerals.

"Some people say it is too much bother, people who'd rather open a can."

Man, I could speak fervently on that, but I want to go on teaching as many as I can as much as I can about nutrition and health.

For my views on the nutritional importance of plain wheat in the everyday diet, send a stamped, self-addressed envelope for my booklet, "Wheat To Eat."

★ ★ ★

**Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.**

## 'Sentiment About Traffic Has Been Changed—Why?

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

The sentiment at the time of building Telegraph road was to keep transient traffic out of the downtown area. Now someone wants to reverse the trend and bring it back. Why?

**Back in 1927 and '28 we were going to run Cass avenue on the east side of the railroad south to Saginaw street, which to me looks as good or better than the west side of the track because it would relieve more of the Woodward traffic.**

Was this project abandoned because we could not get Federal aid or because we just lost interest in so easy a solution to our problem. Or did the railroad refuse us that little piece of ground at the south end of Cass avenue?

### Says 'Fiddlesticks' to 'Republican'

I see "Republican" says the Texas voters weren't voting for Democrats or Republicans. They elected a Democrat as a protest against Eisenhower's budget. Fiddlesticks. They voted a Democrat into office because they wanted a Democrat in office. Doesn't everyone?

**Demmy**

### Says Speed Signs Are in Plain Sight

I've been associated with AAA for 16 years and this is the first time I've had reason to disagree. I think most people can read signs and Waterford speed signs are in plain sight. A sign that reads 25 or 35 doesn't mean to go 52 or 53. My hat goes off to the police department. Too bad there aren't more like them.

If they give up now we might just as well take down the speed signs and let the public do as it pleases. Don't go to the expense of making laws and posting signs unless you enforce them. Good luck to the department in enforcing them to the best of its ability.

### 'Reduce Benefits to Slice Taxes'

Now that it's income tax time, I notice those who gripe the loudest about how much it costs them are the ones who'd be first to holler if some of the government operations were to be discontinued. You can't have sky-high unemployment compensation, vet's pensions for able-bodied ex-GIs, Federal aid to education, foreign aid to Communist sympathizers and the like without paying for it. Cut some of the unnecessary benefits and you can cut some of the taxes.

### 'Youth Is O.K.—Look in Church'

Someone commented to me the other day that more and more young people are attending church, and as I looked around my church Sunday I saw that it was really true. Teenagers and young married couples seemed to make up a good part of the congregation. When such a turnout takes place, then I think it's time we stopped worrying about "what's ever going to become of our young people?"

## Nasser Has Good Cards in Bid for Control of Suez

By JOHN H. MARTIN
INS Foreign Director

Egyptian President Gamal Abdel Nasser holds some valuable cards in his firm demand for sole control of the Suez Canal.

★ ★ ★

In a sense he appears to be doing a balancing act — holding out in the certain knowledge of the eagerness of shippers to use the canal once more, while at the same time not trying to cut himself off from valuable Western aid prospects.

**In his favor there is little immediate pressure that the United States and others can exert on him to agree quickly on an interim, or short-term, arrangement satisfactory to canal users.**

His enemies have retired from the field. Israeli troops which swept across the Sinai Peninsula and defeated his army are demobilized, back at prosaic jobs such as serving ice cream cones and clerking. The Israelis could be mobilized quickly again, but it is unlikely they will be except in case of dire emergency. The Israelis doubtlessly will shoot if they are attacked in the Gulf of Aqaba, but thus far Egypt has made no menacing move to stop Israeli shipping there.

**OLD WAR OF WORDS**

Egypt's refusal to let Israeli shipping into the Suez Canal will not likely precipitate hostilities. This question is an old war of words. Western nations ducked this Egyptian blockade of Israel, harping on it mainly after Egypt nationalized the canal.

★ ★ ★

On Nasser's side is the fact that user nations are wavering. Japanese, Italian, Greek and other shipowners already are using the canal on Egypt's terms — paying tolls in advance and in currencies dictated by Nasser (no Russian Ruble money accepted, by the way).

Case Records of a Psychologist:

## Youngsters Are Not Going to Dogs

*Herbert needed some facts to debate with his dad. Teenagers, here are some logical data with which to disprove the notion that modern youth are worse than their parents. Better scrapbook this Case Record to use in later arguments. The world is actually growing better. Churches now include 61 per cent of our people on their rosters.*

By DR. GEORGE W. CRANE

Case U-351: Herbert G., aged 18, is a college freshman.

"Dr. Crane, my dad thinks all modern kids are going to the dogs," he began during a forum that I was conducting recently in a Midwestern College.

CRANE

"He thinks juvenile delinquency is zooming. But I tell him we are probably no worse than the teenagers of his day. What do you say?"

**FALSE HALO**

One of the earliest clay tablets ever unearthed in the Tigris-Euphrates valley, contains the lament of an old man.

He also believed that the young fellows of his day were going to the dogs. He would have called them juvenile delinquents and hot rodders.

**And he lauded his own childhood as an era when men were men and boys always worked diligently and never caused any headaches for their parents.**

So we know that 5,000 years ago this same refrain was being sung by the middle-aged generation.

And you can see why we all tend to place a "halo" about our childhood.

For we tend to remember only the pleasant events and conveniently forget the painful. We recall a few outstanding examples where we worked hard. Then generalize to our children or grandchildren, hoping they will believe we always worked 10 hours per day, etc.

**Besides, childhood is a time when we don't have as many worries, for our parents than do most of the head work and render the decisions. We simply follow orders.**

And it is the rendering of decisions that breaks men down and produces mental collapse. So our distant childhood was a relatively carefree existence. We were surrounded by loving parents; hence, the halo.

**FACTS ABOUT HALO**

At the start of this 20th century, only 25 per cent of Americans belonged to any church at all, Protestant, Jewish or Catholic.

Now the figure is 61 per cent, so Herbert can use that figure to refute his dad's idea that people were better 50 years ago than now.

★ ★ ★

Before the year 1910, we had no

Boy or Girl Scouts or Camp Fire Girls.

**Churches had no gymnasiums or well organized youth programs. The YMCA and YWCA buildings. The CYO hadn't even been organized.**

Hi-Y and Tri-Hi-Y groups were not well established in high schools.

Kiwanis, Lions, Exchange, Optimist, Civitan, and other constructive men's groups hadn't been started.

★ ★ ★

Rotary was the first great service men's group and it didn't begin till 1905.

The Red Cross and Salvation Army were feeble groups in those days and Community Chest Drives were unknown.

**CRIME STORIES**

"But what about the crimes so often headlined on the front pages of our newspapers?" you may logically inquire.

**Well, they are still unusual or newspapers wouldn't place them there, for the newspaper is interested in the rare or unique events, not the routine affairs.**

Besides, our population is zooming. In 1880, when your grandparents were born, we had only 50,000,000 people in the USA.

In 1900, that had grown to almost 76,000,000. At present, it is close to 170,000,000.

Obviously, there could be far more crime cases today even if the percentage were but half.

**For example, if two per cent of the people in 1880 committed crimes and the percentage had dropped to only one per cent by 1957, we'd still have 1,700,000 criminals today against only 1,000,000 in 1880.**

Yet the percentage of criminals would be only half what it was in 1880: So use these logical data to reassure your elderly relatives.

**Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.**

## Jordan Premier Pro-Egypt, Pro-Soviet

# Nabulsi Attains Goals Set

By INTERNATIONAL NEWS SERVICE

The future of the tiny Kingdom of Jordan is clouded by war threats and the East-West struggle for the Middle East, but the 46-year-old lawyer who heads the Jordanian government knows where he's going.

Suleiman Nabulsi, the slight, chain-smoking premier, already has achieved a number of the objectives he set out last October in an interview with an International News Service correspondent.

**At that time, he called for abrogation of the 1948 Anglo-Jordan treaty, cutting off the $35,000,000 annual British subsidy which had kept Jordan alive. A short time later the British tie was cut.**

Nabulsi made it clear at that time also that he wanted closer relations with his Arab neighbors, and with the Soviet Union. In January Egypt, Syria and Saudi Arabia agreed to make up the lost British subsidy, which had constituted one-third of Jordan's annual income.

★ ★ ★

There have been strong indications that those three neighbors are prepared to slice up Jordan, a country carved out of the old Ottoman Empire by Britain in 1921.

**Nabulsi, who heads a six-months-old government that is dominated by its pro-Egyptian, pro-Soviet wing, often has clashed with Jordan's monarch, 21-year-old King Hussein. Most recently the argument was over the cabinet's decision to reorganize the Soviet Union. Another of Nabulsi's objectives had been achieved.**

Although Nabulsi has extended the hand of friendship to most of his Arab neighbors and to the Soviet Union, and there has been talk of a union with Syria, he seems to be leaning strongly in the direction of Egypt. Of Egypt's Gamal Abdel Nasser, he has said: "We respect President Nasser and we look to him as a savior of national Arab interests and welfare."

## Bats Stun Moviegoers

ELIZABETHTOWN, Ky. (AP) — Patrons of an Elizabethtown theater got a dubious treat recently while one of those "creature" movies was playing.

A prankster turned loose 30 bats in the darkness. The show had to be stopped while management and customers alike chased the furry animals out.

So household-equipment-minded are New Zealanders becoming that a special train had to be chartered to haul 41 carloads of refrigerators between Wellington and Auckland, with a cargo worth $215,000.

Hal Boyle Says:

# One-Armed Vet Tackles Anything

INDEPENDENCE, Kan. (AP) — When Dick Oliver has a job he wants to finish in a real hurry, the first thing he does is take off his left arm.

★ ★ ★

Although Dick is grateful to the government for buying him the arm, he explained:

"I can work faster without it."

He can, too. The one-armed, 38-year-old Navy veteran has just completed building his third home.

Dick, a construction clerk here for the Universal Atlas Cement Co., a subsidiary of U. S. Steel, can also answer the phone, type 65 words a minute. He drives his own car, buttons his clothing, ties his shoes and neckties, and is an expert marksman with either rifle or shotgun.

The story of Dick Oliver is the story of a man who refused to be handicapped. In 1939 while on leave from the naval base at Pearl Harbor he was playfully jostling with some buddies on a railway platform at Topeka. He slipped, fell, and a passing train cut off his left arm above the elbow.

★ ★ ★

"It was on my 21st birthday—and some present," he recalled. "At first I felt lost and useless to myself. But after the first shock wore off I realized I was no different from anyone else. I still had a living to make."

★ ★ ★

Dick finished high school, and perfected his skill at typing with only one hand. But felt an odd compulsion to prove that he could do anything he turned his mind to.

He went to the Pacific Northwest and became a lumberman, felling the big trees. He worked in the farm equipment field, with an auto supply firm, even did a turn at radio announcing.

★ ★ ★

"Oh, I've done just about everything," he said. "Once I find I can do a thing well I get restless. I want to move on and try something new.

"Right now I'm studying civil engineering, and I think I'll stay with it. Engineering is something that has a changing problem every day."

Dick, happily settled in his new home with his pretty wife, Lorene, is now teaching his 10-year-old son, Gregg, how to be a baseball catcher.

"It isn't a joke to lose an arm or leg, but if anyone who does will get over his sensitivity and learn to treat it as a joke, he'll get along better," Dick says.

"People should soft-pedal sympathy and never offer help to a handicapped person except when he actually needs it.

★ ★ ★

"I don't know of anything a fellow can't do — if he really wants to.

"The main thing is for an employer to give a man a little time to work out his own technique of handling a job. Then it will work out all right.

"But it is the employer — the man who gives the handicapped fellow a chance to show what he can do—who deserves all the credit."

★ ★ ★

Dick, who built his $22,000 three-bedroom, two-bath home in about a year, figures he saved about $8,00 in labor costs by doing his own work.

In one way he feels having only one arm speeded up the job.

"I never had to worry about smashing a finger driving nails," he said, grinning.

## Picks Targets Well

DETROIT (AP)—Jesse W. Davidson was given a ticket for reckless driving after he crashed into a police car and bounced into another police car while driving past the police station. "I just lost control," he said.

# 20 Years in Congress Make Johnson No. 1 Democrat

By JACK BELL

WASHINGTON (AP) — Twenty years ago today a tall, gawky Texas farm boy won a special election to the House of Representatives and a chance to try his luck with the slick politicians in Washington.

★ ★ ★

The political luck has been good for Lyndon Baines Johnson. At 48, with silver beginning to thread his dark hair, he is senior senator from Texas, Senate Democratic leader and No. 1 behind-the-scenes operator in Congress.

The glint of presidential ambition glows but dimly in Johnson's brown eyes as he moves his 185-pound, 6-foot-3 frame quietly about the business of the Senate, of Texas and of the Democratic party.

★ ★ ★

Since suffering a heart attack July 2, 1955, he has stopped smoking. Once a chain smoker, he used to burn up three packs of cigarettes a day. These days he keeps on his desk a glass jar of candy "sour balls," containing only eight calories each.

They serve as a sort of tranquilizer for a nervous, restless man who must, with difficulty, keep slowed down.

Even at his slowed pace, he puts in 10 hours work a day. But he finds this hardly enough for keeping the Democratic party in the middle of the road, mending Texas fences and serving the nation as he believes it ought to be served.

★ ★ ★

The team of Johnson and his old friend, Speaker of the House Sam Rayburn (D-Tex), is going to come mighty close to writing the record on which the Democrats will be battling to retain control of Congress in 1958 and to win the White House in 1960.

Together, they stand as a bulwark of New Deal-softened Southern conservatism, with a strong tinge of internationalism.

Johnson asserts — but not always convincingly — that he isn't interested in the 1960 presidential nomination himself. He is yet to be convinced any Texan can get the top nomination.

LYNDON JOHNSON

★ ★ ★

Not all the Democrats love Johnson's course in the leadership job, or the record he has compiled of going along with many of President Eisenhower's proposals.

Johnson wants no personal criticism by Democrats of Eisenhower. He doesn't think it's good politics to blaze away daily at a popular president.

In conversation with friends, Johnson has summed up his attitude toward Eisenhower this way:

"When I think he is right, I support him. When I think he is wrong I oppose him. When he is wrong and I think I can beat the Devil out of him, I do it."

★ ★ ★

Johnson runs virtually a one-man show in the Senate. Where the Republicans have a different man for each post, Johnson is his party's floor leader, chairman of the Democratic conference, chairman of the party steering committee and chairman of the policy committee.

Although the situation carries its bag of troubles, he keeps relatively happy such poles-apart Democrats as Senators Harry F. Byrd of Virginia and Hubert Humphrey of Minnesota.

★ ★ ★

Johnson wants to be regarded as genuine and sincere. His reaction to criticism is heated. He boils inside when a columnist or commentator tees off on him.

Yet he has the valuable political asset of knowing when to keep his mouth shut. He seldom pops off. When he speaks — and he knows he will never be an orator — a busy staff has prepared him with a wealth of background material.

He once remarked that "90 per cent of the ambitious men who come to the Senate ruin their futures by talking too much."

Texas is large in Johnson's mind and Texas gives him troubles. Some Texans say he is too liberal. Others says he is too conservative. This has influenced him toward a middle of the road course that makes him acceptable to the Democrats on the right and on the left.

Johnson never picks a Senate fight he doesn't think he can win. No jousting at windmills for him. He hates to get beaten and he doesn't lose very often.

Medical science now offers women new freedom from much of the misery of change-of-life, thanks to an amazing new tablet developed *especially* to relieve these functionally-caused discomforts. Doctors reported sensational results using this home treatment alone . . . and no *expensive injections!*

**Relief for 8 out of 10 tested!**

Irritability, tortured nerves were calmed. Dizziness relieved. Awful hot flashes subsided. For woman after woman, a feeling of "well-being" returned!

Unlike aspirin and such "general purpose" remedies, this new tablet is a unique *combination* of special medicines...acts directly on the *cause* of these troubles... works through a woman's sympathetic nervous system to relieve tense feelings and physical distress that bring unhappiness to so many. Clinical tests prove this positive medical action.

Now you can get this amazing formula at drugstores without prescription. Ask for "Lydia Pinkham's Tablets". Don't let change-of-life rob you of joy! Get easy-to-take Pinkham's Tablets. Contain blood-building iron. See how fast you can feel your happy self again — without troublesome injections! (Also liquid Lydia E. Pinkham's Vegetable Compound.)

## No Cure for Cirrhosis; Prevention Needed

# Doctor Says High Taxes on Booze Cut Extent of Alcoholism, Allied Ailments

By FRANK CAREY
AP Science Reporter

BOSTON (AP) — Cirrhosis of the liver associated with alcoholism has "practically disappeared" in England — presumably because high taxes on booze there have cut liquor consumption, an American doctor says.

★ ★ ★

In contrast, said Dr. Robert M. Kark of the University of Illinois School of Medicine, "alcoholic" cirrhosis has more than doubled in the past 25 years in France and "remains high" in the United States.

★ ★ ★

Addressing a symposium on alcoholism at the 38th annual meeting of the American College of Physicians last Monday, he offered those international statistics to support his contention that "a cheap and ready supply" of liquor is a major factor influencing the extent of alcoholism and ailments associated with it.

★ ★ ★

He said that a generation ago, "Saturday night drunkenness was common in the streets of London," but he added:

"Through taxation, the price of hard spirits has become prohibitively dear, and only the very wealthy can afford to get drunk on spirits. Beer is also heavily taxed.

★ ★ ★

"Thus the British consume far less liquor than the French, who drink wine and who consume on the average nine gallons of absolute alcohol per person per year.

★ ★ ★

"The British also drink far less than the average American, who consumes 3.9 gallons of absolute alcohol per person per year."

Dr. Kark led up to this discussion by saying that "over the years I have become more and more pessimistic about our ability to deal effectively with well-developed cirhosis in the alcoholic, and believe we need to prevent alcoholism rather than treat cirrhosis."

★ ★ ★

And he said he saw no solution to the problem of any of the other diseases associated with alcoholism "save a reduction in the incidence of alcoholism."

## Pick Murder Trial Jury in Knife Death Case

GRAND HAVEN (AP)—A jury of 10 men and two women was selected yesterday for the trial of 17 - year - old Edward van Eenenaam, charged with first degree murder in the knife death of Gordon Boer.

Defense attorney Clarence Locker indicated in his questioning of prospective jurors that he would stress self-defense.

Boer, 18, was killed in a scuffle outside a Holland, Mich., recreation hall Feb. 18.

Brooklyn Club Lady Praises Rennel, Members Like It Too

Losing weight is a common problem for so many men and women. Some solve it privately, some make it a family project, others find a stimulant in club member competition of national scope. Mrs. Robert Gregg, R. No. 1, Brooklyn, Mich., adds her endorsement to Rennel Concentrate. She writes, "I belong to a Club that is primarily interested in proper weight and good health. Many of our members are using Rennel Concentrate, and it is gratifying to see that so many of us are getting results. It has relieved me of a painful condition in my joints and 32 pounds of my weight. When I started using Rennel I weighed 212 and now weigh 180 lbs. I feel so much better and can wear smaller dresses. I can truthfully give Rennel credit for my well being. It's the best remedy I have found."

Make Rennel work for you. If not pleased with the very first bottle return it to the manufacturer for your money back. Priced at $1.40. Insist on genuine Rennel.

## Lansing Asks MSU Payment

### Claims School Obliged to Reimburse City for Fire, Police Costs

LANSING (AP) — The Lansing city council has asked Michigan State University to reimburse the city for police and fire protection for property owned by MSU within the city limits.

★ ★ ★

Alderman Max E. Murningham, sponsor of the resolution, cited the recent fire in the W. T. Grant Co. building owned by MSU. He said it probably would cost the city $5,000 in medical fees for firemen overcome by smoke and heat while fighting the blaze.

"I think it's a moral obligation for the owners to make some contribution toward the cost of police and fire protection," he said.

Alderman Lawrence E. Heller said when he was city assessor he attempted to get some settlement from MSU on the property but was "snubbed" with the reply that state-owned institutions do not have to pay anything to the city.

★ ★ ★

Karl H. McDonel, secretary of the state board of agriculture, MSU governing body, said it was a matter that would have to come before the board.

He said in the past Michigan State had not made any such payment for protection services to the city of Lansing although it shared the cost of fire protection and sewage facilities with East Lansing.

# Report Planes Sent to Egypt

## Newspaper Says Soviets Replace Aircraft Lost During Combat

NEW YORK (AP)—The New York Herald Tribune said today it had been reliably informed that Egypt "probably" is receiving improved jet fighters from the Soviet Union to replace aircraft lost in last fall's invasion by Britain, France and Israel.

★ ★ ★

In a copyright dispatch from Washington, the newspaper quoted authoritative informants as saying Egypt probably is getting some of a "large number" of MIG17, MIG19 and Yak25 jet fighters ordered late in 1956 or early this year. All three are much better aircraft than the MIG15s supplied Egypt earlier by the Soviets.

★ ★ ★

Egypt was said to have had about 90 Soviet MIG15s and 45 IL28 twin-jet light bombers when attacked last fall. Reliable sources estimated British-French attacks on Egyptian airfields and a few aerial clashes with the Israelis knocked out a third to a half of Egypt's aircraft.

★ ★ ★

The Herald Tribune said the essence of its reports was that the Communists are helping Egypt rebuild its armed forces, which were battered badly in last fall's fighting; are helping to expand the armies of Syria and Yemen and to train the soldiers of all three nations.

## Peron Sympathizers Escape From Jail

BUENOS AIRES (AP)—Two more Peronistas have escaped from jail, again causing acute embarrassment to the government of Provisional President Pedro Aramburu.

★ ★ ★

The two, Dr. Saul Eckern and Ernesto Mena, slipped from their cells yesterday at San Salvador, near the Uruguayan border. They were arrested Dec. 24 when the car they were driving from Bolivia was involved in an accident. Police said they found pro-Peron propaganda material in the wreckage, including personal letters from the exiled former President.

★ ★ ★

Eckern and Mena were brought here last month for questioning and were returned to San Salvador only four days ago. Their escape was almost as much of a blow to authorities as the recent flight of six top Peronista prisoners from Rio Gallegos jail, in southern Argentina.

★ ★ ★

One report said the doors of the cells where Eckern and Mena were held were left unlocked. All jail employes on duty at the time of the escape were held for an investigation.

## in Appeal to British

LONDON (AP) — Japan's special envoy called on Prime Minister Macmillan today, presumably to get the British "no" to Premier Nobosuke Kishi's personal appeal that Britain postpone her forthcoming H-bomb tests in the Pacific.

The envoy, Dr. Masatoshi Matsushita, remained with Macmillan only 10 minutes. He declined to discuss his visit with newsmen.

## Canada's Trailer-Home Output Doubles Yearly

OTTAWA — Canadian production of trailer homes has more than doubled every year since 1950, when only 20 Canadian-made trailers were sold. The industry expects to sell 10,000 trailers in 1957, double the 1956 output.

Some 25,000 tons of manganese were mined in Fiji last year. There were 185 prospecting leases in force, Suva learns.

## Father Isn't Cheered by Talent of Daughter

PHILADELPHIA (AP) — A father in suburban Melrose Park wished he hadn't been eavesdropping on his seven-year-old daughter. The girl was showing a playmate some clay ashtrays she'd made at school. Her chum was so impressed she exclaimed:

★ ★ ★

"These are wonderful! When your father dies, you can make his tombstone for nothing."

## Presidents, Principals Are Feted

### Group Entertained by Girls' Ensemble From PHS

The Pontiac Council of PTA was host at the annual Presidents' Breakfast, honoring 90 incoming and outgoing presidents and principals, Tuesday morning at Hotel Waldron.

★ ★ ★

Mrs. William Mihalek, council president, introduced Mrs. Charles Neldrett, first vice president of the Michigan Congress of Parents and Teachers; Mrs. George H. Chute, Berkley area council president; Mrs. Mark Goddard, director of District Seven of Michigan Congress of Parents and Teachers, and Mrs. Harry E. King, vice president of Pontiac Board of Education.

★ ★ ★

**Dr. Dana P. Whitmer, superintendent of Pontiac schools; J. Cecil Cox, assistant superintendent in charge of personnel, and Dr. Otto C. Hufziger, assistant superintendent in charge of business, were also introduced.**

Each extended greetings in behalf of their respective positions, pointing out that the schools of today are better because of the fine relationship existing between schools and homes as brought about through the PTA.

★ ★ ★

Lester Stanley, principal of Hawthorne School, gave the invocation.

**Mrs. Wayne Weaver, program chairman introduced the Senior Girls' Ensemble from Pontiac High School who entertained with a group of songs including "Into the Night," "I Would Weave a Song For You," "I Am Joy" and "Get Happy." Lee Patterson accompanied at the piano.**

★ ★ ★

Mrs. George Gray was general chairman, assisted by Mrs. L. D. McLaughlin, decorations; Mrs. William Wright, hospitality, and Mrs. Robert Lake, reservations.

Others assisting were Mrs. Weaver, program; Mrs. William Anderson, guests, and Mrs. Russel C. Bell, publicity.

## Old Favorite on Stage at Hospital

Pontiac State Hospital Players want to help patients within the hospital, so they've planned a a benefit production of "Arsenic and Old Lace" to be staged Friday and Saturday nights in the chapel building of the hospital. The curtain will rise at 8 o'clock.

You won't want to miss Abby and Martha Brewster, the "arsenic happy" sisters portrayed by Marguerite Parrish and Mrs. Ethel Pettibone, respectively:

**Ted Panaretos as the man who thinks he's Teddy Roosevelt will cause near panic, while the audience will sympathize with Mortimer Brewster, who carries the burdens of a zany family on his shoulders.**

Jonathan, the "Frankenstein-type" brother, played by R. H. Luehmann, returns long enough to cause terror in the already unstable family.

Others in the cast include Marcus Tompkins as "the Rev. Mr. Harper," Dr. George Ross as "Mr. Gibbs," Stephen J. Becker as the alcoholic "Dr. Einstein," Sylvan Lemansid as "Officer O'Hara" and Mrs. Leland Clemence as "Elaine Harper." Mr. Becker is director of the three-act play.

### Club Entertained

Mrs. Myrtle Kath of Pingree street entertained members of the Griffin Proficiency Club, OES, with Mrs. J. C. McIlroy conducting the meeting. Mrs. Joseph E. Minton and Mrs. Charles Baynes were accepted as new members and Mrs. H. J. Brimhall was cohostess at the recent meeting.

# *Beverly Hewett Marries in First Christian Chuch*

Beverly Jean Hewett and Thomas Wade Vaughan were married Saturday in First Christian Church with the Rev. D. D. McColl officiating at the 7:30 o'clock ceremony.

* * *

The bride is the daughter of Mrs. Arvella Todd of Auburn Heights and William Hewett of Grand Blanc, and Thomas is the son of Mr. and Mrs. James R. Vaughan of Ascot road.

**The bridal gown was of Chantilly lace over satin in a princess-styled redingote. A headpiece trimmed with sequins and seed pearls held Beverly's fingertip-length veil of French silk illusion.**

A gold cross and chain, a gift of the bridegroom, was her only jewelry, and she carried a white orchid corsage on a white bible.

* * *

Ruth Ann Vaughan wore coral-colored crystalette for her duties as maid of honor. She carried a colonial bouquet of coral carnations and white rosebuds.

**OTHER ATTENDANTS**

Mrs. Bud Satterlee, Mrs. Darell Perry and Mrs. Bob Hewett wore green, yellow and aqua crystalette, respectively. They carried colonial bouquets matching their gowns.

* * *

Rene Hewett served as flower girl wearing an orchid-colored dress and carrying a basket of rosebuds.

**Curt Dempster of Bloomfield Hills was best man, and ushers were Bud Satterlee, Darell Perry and Bob Hewett.**

A reception was held in the church parlors. For her daughter's wedding Mrs. Todd chose a blue dress with beige accessories and a corsage of pink carnations. Mrs. Vaughan wore pink crystalette with pink and white accessories. Her corsage was of American beauty roses and white carnations.

* * *

The couple is honeymooning in Kentucky and the Smoky Mountains. For traveling the bride changed to a Nile green dress with white accessories. Her flowers were the white orchids from her bridal bouquet.

## Yomar Group Gathers With Mrs. Hoenstine

Mrs. H. R. Fraser, representative of the United Church Women, spoke on "The Philippines, Past and Present History of Missionary Work" at the Tuesday meeting of the Yomar Group of First Presbyterian Church.

* * *

Mrs. Fred Hoenstine opened her home on Henry Clay avenue for the evening meeting. Assisting the hostess were Mrs. Fred Turek, Mrs. Howard Wideman and Mrs. J. E. Frankenfield.

Mrs. Keen Haddad was welcomed as a new member. Guests were Mrs. Donald Robertson, Mrs. Ethel Hagen, Mrs. Verles Greenman and Mrs. Elizabeth Seelye.

* * *

Plans for the annual congregation dinner on April 24 were announced by Mrs. George Tremper, group chairman. Mr. and Mrs. Earl VanDyke will represent the Yomar Group as hosts.

### Mrs. Navarre Uses Sponge Cake Base for Cream Dessert

By JANET ODELL

**A dessert that resembles a Boston cream pie is today's recipe. This cake, however, is a richer one. It should be refrigerated before serving and if there are any leftover pieces.**

**Mrs. Arthur Navarre of Colonial Hills gave us the recipe. Living with her daughter's family, she does not cook all the time. Her daughter says this cake appears for special occasions.**

Mrs. Navarre likes to crochet and to hook rugs. She thoroughly enjoys being with any of her seven grandchildren.

**CREAM CAKE**
**By Mrs. Arthur Navarre**

**Cake:**
1 cup sugar
4 eggs
3 tablespoons water
1½ cups sifted flour
1½ tablespoons baking powder (tablespoons is correct)
½ teaspoon salt
1 teaspoon lemon extract

Beat eggs, sugar and water until light. Sift dry ingredients and add. Add flavoring. Pour into two 9-inch greased layer tins. Bake 20 minutes at 375 degrees.

**Filling:**
2½ cups milk
½ cup sugar
2 eggs
4½ tablespoons flour
Pinch salt
1 teaspoon vanilla

Scald milk. Add dry ingredients and slightly beaten eggs. Cook over hot water until custard coats spoon. Cool.

Split cake layers and fill. Sprinkle top of cake with powdered sugar or frost, if desired, with chocolate frosting.

## Beauty Hint

Very high heels may be flattering to the foot but they can cause wrinkles in the face. You'll find they tire you quickly and that this fatigue will be reflected in facial lines. Keep them for evenings when you'll be seated most of the time.

# NEW..the MOST EFFECTIVE SAFE REDUCING TABLETS EVER AVAILABLE *without prescription*

**Now Lose Weight Without Will Power! U.S. Health Authorities Release Amazing Doctor-Approved Ingredient for Sale to Public.**

**Take off pounds and pounds as excess fat disappears automatically—or pay nothing!**

**"Wonder" ingredient acclaimed by thousands of doctors, many after personal trial on themselves and their wives. Curbs appetite without will power. No hunger pangs! No special diets! No habit-forming drugs! Excess pounds disappear with amazing new automatic appetite control regulator!**

For the first time, a weight reduction aid formerly permitted only on doctor's prescriptions, has been released for sale direct to you, by the U. S. Department of Health. As a result, millions of people who found it impossible to take off unattractive fat and found it even harder keeping it off . . . now can do so with ease and utter safety!

As any doctor can tell you, ugly pounds of excess weight actually melt away when your body is forced to use up its surplus fat. You can now accomplish this quickly and joyfully with Curb-wate tablets because they contain Controlene* the magical doctor-approved "wonder ingredient" which curbs your craving for fat-making calories.

You not only can GET thinner, but STAY thinner as Curb-wate tablets continue to control your appetite, control your hunger, control your weight. Quickly and marvelously. You can lose AUTOMATICALLY . . . your own eyes, your own scales, your own mirror will show you that you lose 5 pounds, 10 pounds . . . and many pounds more if you wish . . . through the automatic appetite regulator, Curb-wate tablets with Controlene.

**JOYOUS WEIGHT LOSSES...by means of CURB-WATE WITH CONTROLENE*...or pay nothing**

FIRST DAY—The moment you start taking Curb-wate tablets something grand starts to happen. The scale tells a magic tale as Curb-wate curbs your appetite automatically.
SECOND WEEK—As fast as humanly possible Curb-wate helps you come down, down, down. Your figure becomes exciting to look at.
FOURTH WEEK—In a few short weeks you must look slimmer and trimmer . . . you must win compliments and praise from your friends . . . or you may return Curb-wate for complete refund.

Posed by professional model

**Doctors' tests show . . . Woman loses 25 lbs. in 30 days!**

U.S. doctors' tests show how easy it is now for people to lose excess fat. For the first time, Curb-wate tablets with Controlene (phenylpropanolamine hcl.) are available to you without doctor's prescription. In thousands of clinical tests this automatic weight-controlling ingredient has proved its value. For example:—

One woman lost 25 pounds in 30 days. Right from the start—within the first ten days—she simply did not want to eat excessively, because her appetite was under control.

Another woman who said she had an enormous appetite after the birth of her child, lost 20 lbs. in less than 2 months WITHOUT ANY SPECIAL DIET WHATEVER.

**LIFE EXTENSION**

There is abundant proof that Curb-wate with Controlene does control appetite and brings a weight loss *automatically*—that is through effective automatic appetite regulation. So lose no time, get Curb-wate tablets with Controlene. Start at once to lose weight, within weeks, you can amaze your friends with a lovelier figure. You'll feel more alive, and what's more important you may actually be extending your life.

**MELT AWAY YOUR STORED-UP FAT**
**INSURE YOUR ATTRACTIVENESS & HEALTH**

No matter what you've tried before—whether it be pills, diets, slenderizing treatments, baths—remember what every doctor MUST tell you—that you will lose weight ONLY when your body uses up the fat that is stored up in your hips, thighs and other parts of your body. Begin today using Curb-wate with Controlene. You'll never regret taking this first step to a beautiful, attractive body . . . with greater assurance of a happier LONGER life.

**EAT WELL . . . FOODS YOU LOVE**

With Curb-wate tablets, you lose weight as fast as it's humanly possible to do so . . . yet you can enjoy eating to the utmost. Curb-wate tablets do not kill your enjoyment of good food, but they stop that terrible craving for OVER-eating. Today, doctors know for certain that the one general cause of over-weight is OVER-eating. So your weight goes down automatically when you prevent over-eating. Thus Curb-wate with Controlene brings attractive weight loss . . . and you don't need will power!

**MONEY BACK GUARANTEE**
You must be pleased with Curb-wate or your money is refunded without question. You must be happy with your loss in weight . . . and the easy way you lose it. Every Curb-wate tablet contains Controlene*, Nutrition Product's name for the wonder ingredient phenylpropanolamine hydrochloride.

## Beauty Clinic

**TREATMENTS**

The high standards set for modern hair styles call for use of many kinds of material during the process of hair dressing.

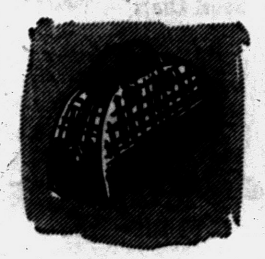

Although the hair shaft is wonderfully made and can take quite a beating, once it is damaged it cannot be restored.

It isn't alive and does not have the ability of skin to repair damage. All that can be done for the hair shaft is to artificially fortify it with products that bind the loose cells together. Oil may be applied to keep it softer and more pliable. This proceedure tides you over until the new hair is grown. The most satisfactory method is to have hair shaft treatments (these are not scalp treatments) at regular intervals. This slows down the wear and tear on the hair caused by permanent waving, use of tints, rinses, sprays and detergent shampoos.

# Entertaining Is Simplified by Protocol

## Wife of Rep. Davis Finds Rules Make Life Easier

By JANE EADS

WASHINGTON — Many wives of new members of Congress are baffled by the strange rules governing Washington society. But Mrs. Clifford Davis, wife of the Democratic congressman from Tennessee, says following protocol is the "easy way of doing things" here, once you get used to it.

★ ★ ★

"Protocol makes life much simpler," she said.

**She admitted, however, that many of the ordinary rules of society observed by folks back in their home towns are reversed here.**

For example, the husband precedes his wife in the receiving line, t's the newcomer who makes the calls, not vice versa. The honor guest leaves a party first.

★ ★ ★

And at formal dinner parties, even if you are the guest of honor, the higher ranking guests sit nearer the hosts.

**SHE'S PREPARED**

Baroness Moens de Fering, whose husband is commissioner general of the Brussels World Fair which opens in Belgium in April 1958, is prepared to entertain guests three to five times a day for 186 days in the Palace Belvedere where they will be making their home.

★ ★ ★

Sh4 expects to give daily luncheons for 24, cocktail parties for 500 or 600, and dinners for 24 during the fair's duration.

**In Washington on their current tour of the United States, the baroness explained:**

"We must do so much entertaining because with 50 participat- have to have at least one day to honor each.

★ ★ ★

"Then there are so many other dignitaries, artists, scientists and important people in all walks of life who will be received."

**NOT DISMAYED**

The chic brunette hostess is not the least dismayed at the prospect of this entertaining marathon.

"So much entertaining will require a vast new wardrobe," she said, slangint a challenging smile at her husband.

★ ★ ★

The Peruvian ambassador, Fernando Berckemeyer, calls the billiard room at his embassy residence "Fernando's Hideaway."

*The new open-necked suits show off softly draped blouses. Suit necklines go softer and so do the blouses.*

"Any" blouse will not do. Jackets worn casually open in the manner of Chanel, call for bow necklines and cowls that can be worn high or lowered and lie flat when the jacket is closed. This is the time for many changes with different blouses.

**Devotion to Children Isn't Enough**

# Mothers Need Life Outside Home

By JOSEPHINE LOWMAN

Modern women are faced with complexities and decisions which their grandmothers never had to face. In the first place many of them have jobs of some sort while single. These may be unglamorous and humdrum but they bring the woman in contact with the outside world and make her a part of a large production past the walls of her own home.

*Today a woman is on her own emotionally from middle life on, and she has at least 25 years of active life left.*

★ ★ ★

Then she marries and experiences the confinement which housekeeping and small children impose.

**The rewards in happiness she gets from her children are so much greater than any she could possible derive from any sort of work or hobby that it is silly even to compare them. Her family comes first. However, this does not mean that she may not miss the companionship and stimulation of the outside business world.**

Many women are made to feel guilty if they long for adult companionship or for some time away from their children. They are accused of "rejecting" their offspring if they hanker to "keep their hand in" or indulge some talent they have.

★ ★ ★

Sometimes their families and public opinion insist that they give their lives over entirely to their children. The same sources call them "moms" when the children are older and blame them for hanging onto their children after they are grown.

**COMPLETE WOMAN**

The Public Affairs pamphlet "The Modern Mother's Dilemma" emphasizes the fact that to be a complete mother one must also be a complete woman.

★ ★ ★

To quote from this booklet, "For the sake of children and husband as well as for herself as a person, a woman must develop more than the housewifely and maternal side of her nature. Yet, simple though this may sound, it is not an easy thing to do. It is not easy to juggle time and energy and attention in an efficient way. It is not easy to keep one's goal clearly in sight through the myriad demands of home and children."

**This need for something besides home and family is more crucial today than it once was. Women are living longer. They are staying young longer and are in the prime of life when their children leave home. Also the days of the large home with two or three generations under one roof are gone.**

Today a woman is on her own emotionally from middle life on, and she has at least 25 years of active life left. What is she to do with it if she has given herself so wholely to her children that she has lost herself as a person?

★ ★ ★

If you would like the very interesting and helpful Public Affairs pamphlet "The Modern Mother's Dilemma" send 25 cents to this non-profit, educational organization at 22 E. 38th St., New York 16, N.Y.

**Tomorrow: Modern husband helps with children and housework.**

## Teach Children Savings Habit

It's a good idea to teach a child the value of saving at an early age. A child who gets in the habit of running to a candy store very time he gets a few pennies is on his way to becoming extravagant, child psychologists tell us.

Get them interested in a bank they can build themselves, such as easy-to-make cardboard bank that may be made from a cereal box and decorated with colored paper.

When they get a good amount help them to open a savings account, perhaps by letting the youngster go to the bank with you and see you deposit the money. He could even take care of his own bankbook.

Crepe makes a return to fashion right along with chiffon. Paris shows crepes as light as chiffon itself and as heavy as very heavy silk.

## Wood Furniture Sees Best Year

The wood furniture industry may have had the best year in its history during 1957.

Preliminary estimates reported at the Grand Rapids Furniture Exposition Association and Furniture Salesman's Club showed that during the first quarter of 1956 shipments jumped some 21 per cent over the same period for 1955.

This rate of increase, however, was not maintained throughout the year. Wood furniture volume went over the $2 billion mark for the first time, topping the 1955 output by 11 per cent.

## Fun Night Enjoyed by Junior Women

Members of Junior Pontiac Women's Club enjoyed a fun night following the business meeting Monday in Pontiac Federal Savings and Loan Building.

Community singing was led by Margaret Scott accompanied by Margaret Snyder at the piano. Mrs. George Morrow and son, George Jr., conducted an auction.

Hostesses for the meeting were Mrs J. T. Engle, Mrs. N. G. Polk, Mrs. C.A. Pudney, Mrs. Willard Boardman, Mrs. A. L. MacAdams, Mrs. Leland Martin, Mrs. Harry Richards and Miss Scott.

The fifth and final concert of the season sponsored by the Waterford Civic Music Association will be held Friday evening. The Continental-Aires will be featured on the 8:30 program at Isaac E. Crary Junior High School.

★ ★ ★

The quartet of male voices was organized in 1951 and their combined experience includes work in radio, the concert stage and the legitimate theater. Their program will feature classical and semi-classical music, sacred and folk songs and comedy and standard popular tunes.

**Members of the group also have backgrounds that include work as choir directors, orchestra leaders and soloists at several of New York's churches.**

Tuskegee Institute, Bordenton Academy, Virginia State College and Knoxville College are represented by the group, including advanced work on doctorates in fields other than music.

★ ★ ★

The director, pianist and arranger of the quartet is Julian Parrish. Born in Birmingham, Ala., he received acclaim as a child violinist and soon attained equal prominence on the piano. Since graduation from Tuskegee he has worked as a vocational teacher for nine years and has also done work as a recreational director.

**The group is known for its careful blending of voices and coordination between accompanist and singers.**

Solo work is done by tenor Clinton Holland. J. Wayland Jackson is bass, and other singers are Wanza King and Robert Bulger.

## Pair Comes to Gathering Week Early

By EMILY POST

A reader writes me as follows: "Recently my husband and I invited several friends to our house for a Saturday evening. The Saturday before our scheduled party, one of the couples arrived at our house. They had made a mistake in the date and thought that the party was for that evening.

"My husband and I were getting ready to go to another party to which we had been invited. It was rather an awkward situation and, after we explained that they had made a mistake and that the party was for the following week, they left.

**"They had brought along a large box of cookies which the wife handed to me upon her arrival. Were we wrong in not canceling our own date in order to spend the evening with them and should I, under the circumstances, have given the cookies back to her to take home?""**

Answer: Of course you were not wrong in not canceling your own date. Having accepted the invitation, you had to go. As for the cookies, you might have said, "Thank you for these. I will wrap them carefully so that they will keep fresh until next week."

"Dear Mrs. Post: If an important official is invited by personal invitation to attend a large but private celebration and accepts, when the engraved invitations are ready to be sent out, is it proper to send one to this official (in addition to the personal invitation) and enclose an R.S.V.P. card?"

**Answer: I suggest that you write on one of the engraved invitations, "Just to remind you," and send it to the official without the R.S.V.P. card.**

"Dear Mrs. Post: When you are dining in a restaurant and are served a side dish of cole slaw or other vegetable, is it proper to eat directly from the small dish or are the contents emptied onto the dinner plate?"

Answer: Whichever you prefer.

### Why Teenage Girls Run Away From Home

## Escape From Supervision, Favoritism

Why do young people get the urge to run away from their homes, particularly in their teens, asks a mother. She had that urge in her own youth so could understand when her daughter suddenly talked about leaving home.

But she'd never been able to figure out what actually makes home so repulsive at certain periods of life.

**A group of seven girls, 18 and 19-year-olds, who were asked that question confessed they'd all had the run-away feeling sometime or another, but only one had made her threat good.**

"Actually I guess it was because I knew that if I ran in that particular direction (to an aunt's house 100 miles away) my parents would look for me there. They did. And I thought I'd made them realize something by my actions—what I don't know."

Why did she run away? Because her parents wouldn't satisfy a whim of hers, she says. Her aunt always had seemed to be the type she could tell things to, so it was to her she poured out her troubles.

**MANY REASONS GIVEN**

The girls seemed to think that kids want to run away because they feel they are not understood.

A favorite reason for wanting to run away seems to be because of a lack of freedom. Two of the girls rebelled against their homes on general principles—the fact that their parents would not let them entertain boys alone in the living room and sat "like watchdogs" as one girl put it.

**"I always thought that if I could be left alone with a boy long enough under favorable romantic conditions he'd propose to me. We'd come home from a movie, play a soft record and then just when he'd look as if he was about to kiss me up would pop my mother or father."**

Another reason given for the runaway urge is family favoritism. One girl thought her mother gave her sister more of everything—affection, freedom, clothes, bigger allowance. She decided to "show them."

But she never did anything about it. "It's still that way," she says, "my mother always has favored my sister, and I've grown away from my mother because of it. But I can't understand why I thought the only solution was to run away."

The girls felt that running away was just trying to escape from a situation you just couldn't cope with in any other way. Once you give some intelligent thought to "where will I go," "what will I do," "how will I get along?" you very likely change your mind, they say.

**"I kept thinking how much I would miss family birthday parties, Thanksgiving, Christmas at home. It would be so cold and dreary without them," one girl gave as her reason for not running away as she planned.**

Did any of these girls upset their parents by threatening to run away? No. It seems none of the parents ever took them seriously.

"If parents would stop to think why their children become dissatisfied with their home," one girl said, "maybe they could help them over the hurdle more easily."

## How to Help Hubby Pick Good Suit

MADISON, Wis. (INS)—If you help your husband buy a new suit, don't just suggest a color or material.

Also check the way it is cut, advise U.S. Department of Agriculture clothing specialists.

If the material is a stripe, check or plaid, notice whether the pattern matches at the seams and pocket openings. Matched patterns are an indication of the care taken in tailoring.

**The way the sleeves hang also is important. For comfort and good appearance they should be set so the front of the sleeves come to the center of the lower pocket as the sleeves hang naturally.**

Sleeves in good quality suits are shaped and rolled without pressed-in creases. The natural folds at the bend of the arm cut across such creases and look unpressed.

The suit lining should be smooth and unwrinkled, but to provide give there should be a narrow fold at the lower edge placed high enough not to show below the coat.

While a man is trying on the suit, roll a tip of the collar or lapel. If it is permanently shaped, it flips right back into place.

### Fashion Hint

To get the most from your daily hair brushing session, be sure to brush it two ways. The first is with your head down, brushing from the scalp to the very ends for 100 strokes. The second is brushing your hair into place to polish it.

# Don't Teach Vocational Prejudice

By ANNE HEYWOOD

Sometimes it seems that vocational prejudice is even more prevalent in our society today than racial prejudice.

★ ★ ★

We think a white collar worker is on a higher plane even though his job may be routine and boring and his income small.

**We think a blue collar worker is on a much lower level even though his work may be fascinating, creative and extraotdinarily well paid.**

None of us actually says that, of course, but most of us who are parents do tend to give the idea to our children, if only indirectly.

★ ★ ★

For example, if you make it a point to be well groomed and have the house in order when the doctor comes, but do no such thing when the plumber comes, you are teaching your sons and daughters vocational prejudice.

INTERESTING STUDY

I thought of this recently, when looking over a very interesting study done by the University of Michigan for the Girl Scouts of the U.S.A.

I have long had an affectionate feeling for the Girl Scouts and a respect for their work with young girls. This study proved that they are really hep to what's going on.

**For example, only 7 per cent of the girls quieried said they would be willing to marry a boy if he were in a blue collar job—yet 25 per cent of the boys intend to enter blue collar jobs!**

Somewhere along the line, those girls have been given the wrong idea.

I hope their parents will do what they can to reeducate them, because here's what will happen: 18 per cent of those girls will — willy nilly — fall in ove with and marry blue collar boys. Then they'll spend the rest of their lives nagging their husbands to change to clerical jobs!

CREATIVE WORK

The truth is that anything man can do can be done creatively. The question is not what kind of collar you wear or what environment you work in. The question is, do you love what you do?

★ ★ ★

The carpenter or plumber who loves his work is the master of the doctor or vice president who hates his work. And both of them — if tacitly — know it. And so, alas, do their wives!

**To be married to a man who hates his job, whatever it is, is a real tragedy.**

If you are a parent, watch yourself to be sure you aren't infecting Johnny or Susie with vocational prejudice.

Help them to find activities they can put their hearts into and let them pursue whatever field they love. It will make for vocational success and personal happiness, if you do.

## Venetian Blinds Have New Look

Venetian blinds are more than practical these days—they are also decorative.

Before blinds were beautiful they were used as the most efficient way to control light, more in spite of than because of their appearance.

Today's blinds come in a wide range of colors, so they can blend with and enhance the color scheme of almost any room.

They also come in a wide variety of finishes, including spatter finishes, printed lace designs or linen and tweed textures or simulated wood grains.

Blinds can be used in other places around the room as well as at windows. They make efficient room dividers and can attactively enclose storage space.

## Keep Tots in Sight

Does your toddler go unwatched as he explores out of the way places in the home? Unless a playpen or fenced in area is provided, the child should have your vigilant attention. Accidents while unattended are the principal causes of death to small children. Protect your child constantly by observing what he does. Toddlers try something new every day. Be sure that they learn safely.

## Beauty Hint

Your hairbrush is best kept clean by soaking in hot soapsuds. However, don't put it in boiling water. This may enlarge the holes and cause the bristles to fall out.

# Martyr Drives Her Family Away

By MURIEL LAWRENCE

Mr. D.'s mother lives with him and his family.

Last summer his two youngsters got themselves jobs as camp counselors. Freed of responsibility for them, the D.'s decided to treat themselves to a South American tour. To Grandma they offered the treat of a visit to her only daughter.

★ ★ ★

She resisted the idea. Finally she said, "All right, I'll visit Milly for your sakes. I certainly don't want to stand in your way of enjoying yourselves."

**The D.'s felt awful. Without question, both swallowed Grandma's absurd suggestion that their tour doomed her to a summer of misery while they reveled in Brazilian raptures.**

It didn't occur to either of them to say, "But Mother, you can enjoy yourself too!" Just as the martyr in Grandma meant them to, they felt like brutes for claiming an experience she couldn't share.

★ ★ ★

A martyr is a person who is able to make his envy appear beautiful.

**DIRECT EXPRESSION**

When we are 3 years old and still pure of heart, we are content to let our envy appear as it is—ignoble. If we envy a belonging of somebody else, we express our feeling directly. We grab it.

But then we begin to get the going-over which psychologists call "socialization." Often we emerge from it so subdued that we don't even know when we want to grab enviously. That's when we learn to play martyr.

**Then, if we feel envy of a child's friends, his college education, his South American trip, we make our feeling sound as saintly as possible.**

We express it indirectly. We make him ashamed of his joy. We say, "All right, have fun—and leave me to suffer alone."

In the end, we get exactly what we've asked for. We get left to suffer alone.

That's why martyrizing ourselves is so silly.

No matter how loyal children try to be to us, they simply don't want to be around us if we make them ashamed of enjoying themselves. They sense that we are jealous, not saintly. And want to get away from our dishonesty as quickly as possible.

*MR. and MRS. ROBERT McDONALD*

*Celebrating their 50th wedding anniversary today are Mr. and Mrs. Robert McDonald of Thorpe street. The McDonalds were married in Pickford, coming to Pontiac in 1919. Present at a family gathering held on Sunday were their daughter, Mrs. William J. Ash, and grandchildren, Thomas and Donald Ash, of Indianapolis, Ind. Joan Ash of Chicago, their granddaughter, was also present.*

## New Beach Hat Gets Lacy Trim, Novelty Brim

Early vacationists are excited about the new beach and bathing hats. Smart women have been enjoying the costume excitement (and practical skin and hair protection) of amusing beach bonnets with matching totes for several seasons.

But the newest things under the sun are as feminine as party hats with novelty lacy and fluffy textures, soft undulating brims and pastel strippings.

Welcome news is that bathing caps have gone high style with several leading milliners creating swim caps for popular makers.

Now you can look pretty even under water in a pastel, softly draped turban, a bright beribboned "water velvet" helmet or a rubber-petalled flower cap.

With a light summer dress, Paris suggests a black fur stole. Nice for breezey evenings or air-conditioned spots.

## Men Are Usually Baffled by Feminine Sixth Sense

### Women Can't Explain How They Know Certain Things Without Being Told

By RUTH MILLETT

A woman can't explain to a man how she knows:

Within a few dollars how much a woman paid for a dress without ever having seen the price tag.

★ ★ ★

That a woman's hair is not its natural color.

**That a woman is lying about her age—even though a man would readily accept as fact the age she is going by.**

**That a married couple who are being extremely pleasant to each other in public nevertheless were having a fight before they left home.**

★ ★ ★

That the living room a woman is taking credit for having put together was actually done by a high-priced decorator.

**That a woman she has just met isn't to be trusted.**

**HOMEMADE DRESS**

**That a dress another woman is wearing was made by her own hands.**

★ ★ ★

Just what ingredients went into the dressing on a restaurant salad.

**What every woman in a crowded room is wearing, without seeming to pay any particular attention.**

What is being said in a conversation going on near her, even though she seems engrossed in the one she is in.

★ ★ ★

Whether a man is in love with his wife, even though she hardly knows the couple.

**ACTUALLY AT ODDS**

That two women who are being utterly charming to each other are actually at odds.

That the husband who has been pretending to listen to her hasn't heard a word she has been saying.

★ ★ ★

Women just seem to have a sixth sense that works in such subtle ways they can't explain it. They just know, that's all.

## Movie, Talk Heard by Gardeners

Mrs. J. J. Shoemaker spoke on "Songbirds of America" at the Tuesday meeting of Dirt Gardeners Club. The speaker accompanied her talk with colored slides and narration by Dr. Arthur A. Allen of the department of conservation of Cornell University.

★ ★ ★

Mrs. Vivian Tubbs was hostess for the meeting in her home on Tubbs road, assisted by Mrs. Charles Furler.

**Dorothy Whitehead of England, now teaching at Leggett School, was selected by the group to attend the Conservation School at Higgins Lake this summer.**

Mrs. Gerald Trissell was welcomed as a new member. Guests at the meeting were Mrs. Harold W. Hannan, Mrs. Ronald Clements, Mrs. E. James Claxton, Mrs. A. Harold Pearsall, Mrs. Samuel Ballamy, Mrs. Robert Brown and Mrs. Ernest Sadler.

### Fashion Hint

Being well-dressed is chiefly a matter of simplicity. This doesn't mean going around in all-black. It means trim lines, a neat look, no fussiness and a wise use of color.

## Orpheus Choir to Appear

The Orpheus Choir of Olivet Nazarene College in Kankakee, Ill., will present a concert of sacred music at 7:30 p.m. Thursday in the First Church of the Nazarene.

DR. WALTER B. LARSEN

Dr. Walter B. Larsen, chairman of the Division of Fine Arts at Olivet Nazarene, will direct the group of 47 voices.

**On this 26th annual tour the choir will sing numbers ranging from pre-Bach music to contemporary selections and hymn settings. In addition to the choral numbers, a 16-piece instrumental ensemble will present selections from both the brass and string sections.**

Founder and director of Orpheus Choir, Dr. Larsen has been a professor at Olivet Nazarene since 1930. An alumnus of the college, he is also a graduate of the American Conservatory of Music from which he holds a master's degree.

★ ★ ★

Dr. Larsen has studied at Western Conservatory, the McPhail School of Music, the University of Illinous and Bethany Lutheran College, where he made a special study of Handel's "Messiah."

The Rev. Kenneth Hutchinson, pastor, states the concert is open to the public without charge.

# GOP Leaders Meet in Omaha

## 'Concentrate on '58'—Slogan in 8-State Group to Study Goals, Plans

WASHINGTON (AP) — Republicans are sending national and Midwest state leaders to Omaha tomorrow to diagnose party pains and prescribe for the future.

"Concentrate on '58" is the slogan adopted for the eight-state meeting starting tomorrow night with an "open house" or get-acquainted affair.

★ ★ ★

The Omaha meeting is the first of six regional conferences which by May 25 will cover every state. It opens for business Friday morning with a message telephoned from here by President Eisenhower, who has endorsed the regional conferences.

Then five working committees will hold secret sessions on organization, plans for state-county conferences, Republican goals, Democratic weaknesses, and specific Senate and House races.

★ ★ ★

The committees will report Saturday in open session and delegates will debate the various proposals presented. The federal budget, "Modern Republicanism" and the farm question probably will be given some attention.

States participating in this first of two Midwest sessions—another will be held in Cincinnati May 17-18 — are North and South Dakota, Minnesota, Nebraska, Kansas, Iowa, Colorado and Oklahoma.

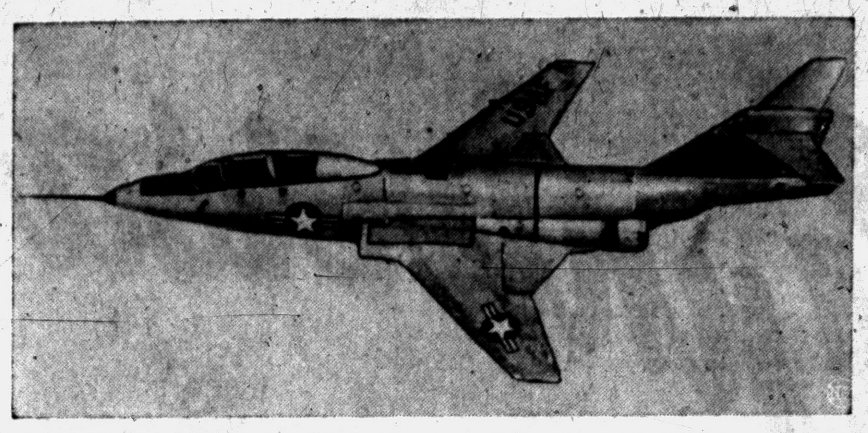

★ ★ ★

The regional meetings are being sponsored by the party's national, senatorial and congressional campaign committees. Meade Alcorn, Sen. Andrew F. Schoeppel of Kansas and Rep. Richard M. Simpson of Pennsylvania, chairmen of these groups, will fly to Omaha tomorrow.

## New Aluminum 'Skin' Protects Copper Wire

NEW YORK — A thin aluminum "skin," only one fortieth as thick as the skin on the human body, is being used to protect copper wire from oxidation.

The aluminum coating is said to increase the life, reduce the size, and raise the efficiency of electrical equipment by allowing it to operate over long periods of time at higher temperatures than are practical without such a coating.

**VOODOO'S NO HOODOO** — Traveling in fast company is the F-101B Voodoo, the third jet of the "Voodoo" class to be ordered by the nation's Air Force. The supersonic, all-weather, long-range jet interceptor can carry atomic-tipped missiles and is considered the equal of Russia's best jet bombers in climbing ability. It's a two-seat, twin-engine model, and is designed to carry a radar observer. Built by McDonnell Aircraft at its St. Louis plant, the new Voodoo's sister ships are: the F-101A, one of the largest fighters ever built for the USAF, according to the manufacturer, and the RF-101A, one of the world's fastest photo-reconnaissance planes.

### Granddaughter of F. D. R. London Favorite

# *Kate's Friendly Ways Surprise British*

LONDON (AP)—The reserved and frosty representative of the Queen who calls at the U.S. Embassy is apt to be met by a lovely young girl who says:

"Hi; I'm Kate."

From that point on British-American relations are on the upgrade, for the man hardly exists who wouldn't like Kate Roosevelt.

★ ★ ★

Miss Roosevelt is Ambassador John Hay Whitney's stepdaughter. She is 21, brown haired, and wears blue jeans three or four days a week. Recently she has been serving as embassy hostess while her mother, the former Betsey Cushing of Boston, recovered from an operation.

She is sure of herself in greeting either a diplomat or the dustman, and she's fast becoming one of London's favorite people.

Whitney is "daddy" to her and Franklin D. Roosevelt is remembered as "granddaddy." Her father is James Roosevelt, Mrs. Whitney's first husband.

★ ★ ★

When she calls herself Kate, or Katie, she gives the English a pleasant shock.

Most English people are congenitally unable to be so informal themselves, but they like to see it when it is well done.

"It has gotten me a few odd looks," she says, but every word written about her in London newspapers has been complimentary.

"I'm afraid sometimes I may be too informal for these people. They always are asking you 'How do you like London?'

★ ★ ★

"I tell them, of course I like London and that I'm going to stay over here with mother and daddy for at least six months.'

★ ★ ★

She plans to take courses in English literature and English history in part-time study at the University of London.

# Elect Montoya to Fill New Mexico Seat

ALBUQUERQUE, N.M. (AP)—Lt. Gov. Joseph M. Montoya, 41, won New Mexico's second seat in the U.S. House of Representatives yesterday.

Montoya, a Democrat, piled up a margin of some 7,00 votes over his Republican opponent, State Rep. Thomas Bolack of Farmington.

★ ★ ★

The turnout topped 130,000, well above the usual vote for a special election in New Mexico.

Montoya fills a vacancy created by the death last November of Democratic Rep. Antonio M. Fernandez a few hours his election to an unprecedented eighth term.

★ ★ ★

Unofficial returns from 582 of 681 voting divisions gave Bolack 61,382, Montoya 68,698.

There were no lively issues raised in the special campaign, which centered more on handshaking than anything else. Montoya had criticized the administration's policies on the Middle East and small business, while Bolack emphasized his interest in water resources development.

# Impaled on Pipe as Car Rams Fence

CHICAGO (AP) — Kenneth F. Brandt, 36, was impaled on a piece of two-inch pipe last night when he apparently lost control of his car and crashed into a fence in suburban Morton Grove.

★ ★ ★

Police Chief Milton Scanlon said the top rail of the fence was driven through the car and a long piece of pipe went through Brandt's left chest just above the heart.

★ ★ ★

A torch was used to cut off some of the pipe and Brandt was taken to St. Francis Hospital in Evanston. A hospital attendant said a piece of pipe about three feet long was removed from Brandt's body. His condition was reported critical.

## Area Ministers Organize New Fellowship Group

A new group known as the Waterford Township Ministerial Fellowship was organized yesterday at the United Presbyterian church in Drayton Plains.

Rev. Walter Teeuwissen, Jr. was elected president and Roy Lambert will be secretary to the monthly-meeting ministers.

The objective is to promote and discuss matters of interest to all protestant churches in the Waterford Township area, Rev. Teeuwissen said.

### Training to Go Along With Probation

# Traffic Violators to Attend School

By HARVEY ZUCKERBERG

It took a year in the making, but Oakland County will soon have the distinction of becoming the first county in the state to send traffic violators to traffic school as a provision of probation.

County law officials, beset with "red tape and legal obstacles," explained that innovations such as this don't come overnight.

**The "Violators Traffic Clinic," organized by the Sheriff's Department under the direction of Safety Director Deputy Stephen Navarre, will conduct its first class April 25 at Pontiac High School.**

Waterford Township Police Chief Frank Van Atta said his department intends to resume plans for a traffic school to be held Friday nights.

Van Atta had made arrangements to have violators sent to traffic school when the county first appointed a probation officer.

**VAN ATTA IN PERSON**

Van Atta said he would conduct classes himself at first to initiate the program.

**The clinics are a materialization of an idea born from a court decision April 22, 1956. Circuit Court Judge Clark J. Adams ruled that justice court probationary sentences were illegal without a probation officer.**

Previously, justices had issued probations but had not used probation officers. Some officials doubted they had legal authority for the move.

★ ★ ★

Justices stopped issuing probations. Action was not taken for months, said one official, because of a "general apathy and no one wanted to stick his neck out to get the ball rolling."

**Eight months later, on Jan. 2, 1957, a probation officer was hired to handle the probation of traffic offenders from justice courts in the county. The $4,300 a year position was the first to ever be created in the state.**

Gordon Pageau, 32, former Lake Orion school teacher, was appointed to tackle the job.

"Probation has quite a psychological effect on the violator," said Pageau. "It serves both as a penalty and as an educational device with the operation of the new clinic set up by the Sheriff's Department. This way we teach the violator, let him drive and practice good driving habits."

**ALLOWED TO DRIVE**

Pageau stressed that in most cases drivers placed on probation are still allowed to drive their automobiles, but must report to him once a month. Probation sentences usually run from six months to one year, he said.

**"Why wait till a man commits a serious crime before we give him remedial training?" asks Pageau. "Now we catch the bad driver when the pattern first starts."**

Pageau explained that it is up to each separate police department in the county to set up its own school. The justices and the probation officer will be informed which departments and communities have classes to offer so that the justices can provide a compulsory attendance condition as part of the probation issue.

★ ★ ★

Navarre said that the first class will consist of 15 to 20 students. There will be guest lecturers, slides and movies, aside from a planned instruction program, he said.

### Claim Violation of Panama Canal Treaty

## Reds Protest Inspections

LONDON (AP)—Russia said today it has protested to the United States that Soviet ships going through the Panama Canal were subjected to long "discriminatory" inspections.

Moscow radio said the State Department was handed a note Monday charging that since Jan. 1 American armed guards have stopped three Soviet vessels for many hours while inspectors combed through their cargos and photographed "all technical equipment."

★ ★ ★

A State Department spokesman in Washington said he knew of no such protest being delivered. He added that the Russians had "tried to make propaganda in the canal area before about such things as not being able to buy hydrographic maps there."

Waterfront sources in Panama said the Russian ships got much the same treatment as that given American ships calling at Soviet ports.

★ ★ ★

The Moscow broadcast charged the inspections "are a flagrant violation of the principle of complete equality in the use of canals under international importance to all countries proclaimed in the Panama Canal Treaty of 1901."

The note said 18 armed canal guards boarded the motorship N. Ostrovsky Jan. 2 at Balboa and inspected it for seven hours. It said the ships was held up until the following day, when it sailed with the guards still aboard and a police cutter acting as escort.

★ ★ ★

The note also charged discrimination against two other Soviet ships — the I. Babushkin and the Admiral Senyavin.

Earlier reports from Panama said the Ostrovsky and the Senyavin cleared the canal after certain "security" precautions were taken which ruffled the Russian crewmen.

### Letter Makes It Official —Lights Can Go Off

LITTLE ROCK, Ark. (AP) — The Coast Guard said in a letter that navigation lights on the two biggest bridges across the Arkansas River at Little Rock could be turned off.

★ ★ ★

The authorization from Capt. E. E. Comstock of the U. S. Coast Guard district headquarters at St. Louis was addressed to the board of commissioners of the improvement district which paid for two bridges.

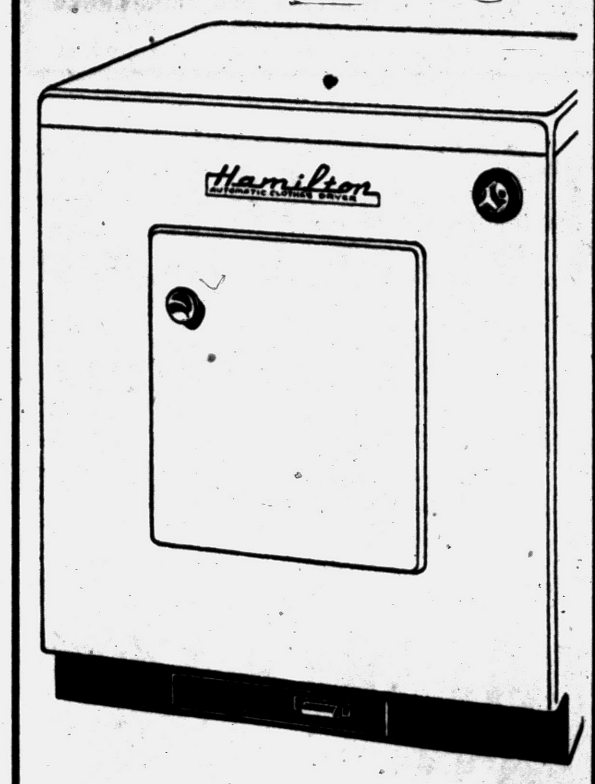

★ ★ ★

Everything was in order. Strictly official. Except that the board was dissolved in 1950, when bridge bonds were paid off. And no navigation lights ever were installed on the bridges.

Nervous Wreck?
I Recommend You Try
O-JIB-WA BITTERS

Mrs. Elsie Harting, 910 S. Woodward Ave., Royal Oak, Michigan, says "O-JIB-WA BITTERS helped me more, and quicker too, than any other medicine I ever tried."

For over a year, I tried all kinds of medicine for my nerves, but without much help. I had an upset stomach, indigestion, and was extremely nervous. When I got up in the morning, I felt dizzy, and any noise or tension at all, Mrs. Harting would cause me to sit down and bawl. Then a friend of my mothers suggested I try O-JIB-WA BITTERS, and, even bought me a bottle to make sure I would try it. I began to notice a difference in just three days, and in two weeks my nerves didn't bother me at all. I used to have a pain in my shoulders too, but that also is gone. I have my friends taking O-JIB-WA BITTERS now, and am happy to recommend it to anyone suffering with upset nerves or arthritis pains."

Australia's Traffic Record a National Problem

# Driver Training Logical Approach

By DENIS N. HAWKER
Visiting Australian Journalist

I thought I had a chance today to settle the world wide argument on whether men or women are the better car drivers.

HAWKER

I asked the opinion of a man who should know—George Stewart, head of the Pontiac High School student driver course.

But Stewart, who will oversee the training of more than 800 teenage boys and girls this year, was cagey. "There are good and bad in both sexes," he said.

**"But," he added, the problem student of this course is the youngster usually a boy—who thinks he knows how to drive before he enrolls with us. All he knows is a lot of bad driving habits."**

The Pontiac High driver training program is typical, it seems to me, of the American attitude to the problems its own progress has created. The United States leads the world in automobile production and use. It also leads the world in meeting the challenge of the automobile.

★ ★ ★

Pontiac High has a course as good as, if not better than, any in Michigan. And Michigan is among the leader states in this program.

**AUSTRALIA NEEDS PLAN**

That was why I wanted to see how the course operated. Australia badly needs such a plan to ensure that the motorists of the future will not be meeting death head-on with the monotonous regularity of today.

An impressive feature of the Pontiac program is the participation of so many sections of the community — the automobile and other industries, commerce, civic, and the people.

The program will give the Pontiac community even greater service after the establishment of Pontiac High in new premises. Then more adults, for whom there is already a big waiting list, will be able to take advantage of the facilities. Overhead lights on the driving circuit will enable training to continue at night.

**Australia has a much higher road toll in proportion to population than America—and is far from proud of it.**

Road safety campaigns, stricter police supervision, heavier penalties for traffice offenses, an da campaign for better roads are directed at cutting Australian motorists' headlong rush to the cemeteries.

But teenage driver training would seem the most realistic approach to a grave national problem.

Part of Australia's bad road record can be attributed to a large number of motorcycles. Australia's hot-rodders ride high-powered two-wheelers, and when they hit something they hit it hard without the protection offered by the steel casing of a car.

★ ★ ★

There is little doctors can do to patch a skull or body broken in contact with an immovable object like an asphalt road.

Just as immigrants "down under" are known as new Australians, motorcyclists have earned themselves the name of temporary Australians.

## Better Services Need in Hotels, Executive Says

GRAND RAPIDS (AP)—A Chicago hotel executive says hotels of the future must "stress more service accommodations" to meet competition from other tourist stopping points.

Paul Valentine, director of personnel and training for the Conrad Hilton Hotel in Chicago, listed some prime services as "a baby crib and nursery facilities for most rooms, TV and radio for every room, air conditioning and better laundry service."

Valentine was among speakers at the third annual Hotel Education Day, sponsored Saturday in Grand Rapids by Michigan State University and the Hotel Greeters of America. The event attracted about 100 delegates.

"Only about 18 to 20 per cent of the traveling public . . . stays at hotels," Valentine said, "so the hotel of the future must stress more service accommodations to keep its customers."

Other improvements he suggested included parking facilities, functional lighting, lobby shops to serve all needs, streamlined kitchens and studio-type living-bedroom accommodations.

# Britons Cut Tax by $280 Million

## Relieve Burden on Gas and Entertainment; Still Need Belt-Tightening

LONDON (AP)—Britain's Conservative government announced Tuesday a cut of 280 million dollars in the taxes Britons pay for entertainment, gasoline and some household goods. But the tax for owning a TV set went up.

★ ★ ★

The cut was disclosed in the House of Commons by Peter Thorneycroft, chancellor of the exchequer, in outlining the new budget.

Britain's tax burden is generally recognized as the highest in the free world, and Thorneycroft's message was greeted with cheers from Conservative benches.

★ ★ ★

He declared there was "some grounds for cheerfulness" in the country's economic outlook, but he stressed that emphasis must remain on exports at the expense of belt-tightening at home.

"Against the background of a budget nearly balanced, I can make a reduction in the burden of taxation" by around 280 million dollars, Thorneycroft said.

★ ★ ★

Before getting into the details, he told the Commons the Suez crisis "affected our commercial position less than might have been expected." The Middle East has always been a key to the British economy — with the Suez Canal often described as a lifeline.

## Elect Saginaw Mayor

SAGINAW (AP) — F. James Harvey was elected mayor of Saginaw by the City Council Monday night. Harvey, a 34-year-old attorney, defeated Charles A. Koehler 4-3.

## She Claims Males Are More Difficult to Work With

# Costume Designer Terms Men Vain

By PHYLLIS BATTELLE

NEW YORK (INS) — She is only a girl from Syracuse, but has had a lot of experience, and she says it's true: "Men are more difficult to work with than women. The chief problem is they're so vain."

★ ★ ★

This from Miss "Audre," whose real name is Audre Nethercott. She is a woman who enjoys the company of vain men, socially. ("If they have vanity, they're almost sure to be well-groomed and mannerly.")

**But, because she is a noted costume designer for Broadway, TV and the Metropolitan Opera, she is troubled by them professionally. ("When you add vanity to temperament, stature and a strong vocal range, they can be devils. You can do one lapel a dozen times and still not have it right.")**

Women in the theater and operatic world are less persnickity and certainly more tolant.

"With the exception of one big-name star who refuses to wear a girdle and yet expects you to make her a fashion plate in sheath skirts, I have had no problems with women," Audre claims.

"They make it clear to you before you go into a costume just what they WON'T wear — maybe a color that does them injustice, or a neckline that shows up a bony throat, or some such.

**MORE ASSURANCE**

"But rarely do women complain when a costume is finished. As a sex, they seem to have more assurance and less self-pride."

After designing for such hits as "Arms and the Girl" and "Happiest Millionaire" on Broadway, "Tosca" and "Die Fledermaus" at the Met, and dozens of prominent TV shows including Perry Como's, Miss Audre has numerous stories she could tell about the beauties and beasts she's designed for.

**Unfortunately — except for the fact that Billy Rose likes any design done in red, and that Boris Karloff is one of the few unfinicky men who'll wear, "anything you put on him" — the truths are all rather libelous.**

"So please," she says, "Let us be on the safe side and say that men are all wonderful except when there are mirrors in the vicinity."

★ ★ ★

Ever since she was graduated from Syracuse University and the Traphagen School of Fashion Design, the petite Audre has been learning.

★ ★ ★

Her long list of "credits" includes designs for plays and musicals of almost every period exclusive of the Neo-Neanderthal, and she consequently picked up some decided opinions on ladies' fashions.

**MARVELOUS ERA**

"I think the 1860 fashions are marvelous, and 1890 was lovely (she did the hoop-skirted styles for revival of 'Bloomer Girl'), and it distresses me that they cannot come back.

"But aside from the fact that the modern girl has to get into cars, and likes to snuggle up to her dancing partner, there's the added problem that our modern chairs are too deep for hoops to sit in, without shocking consequences, and our doorways are too narrow."

Audre sighs. So this season we're back to the 1930s fashions, and wearing splashy prints. "They are fashionalbe now, and I would hate to debunk them," she says demurely, "but prints are very tricky to use, either on camera or behind the footlights."

You see, she says, a woman in a print dress is likely to blur slightly in the eye of the beholder when she is moving.

★ ★ ★

And when she is standing still, her dress is so animated that her face is rather lost and lifeless.

## *Schary to Stage Play and Movie on Life of F.D.R.*

NEW YORK (AP)—Film producer Dorey Schary announced that he has obtained rights from the family of Franklin D. Roosevelt to do a stage play and movie about the late president.

★ ★ ★

The project will be Schary's first undertaking since he was ousted last November as production head of M-G-M studios.

★ ★ ★

The announcement said the play will be entitled "Sunrise at Campobello" and be written by Schary. It will chiefly describe the years 1921 through 1924, the period when Roosevelt was stricken with infantile paralysis, and is to conclude with his return to active life with the nomination of Alfred E. Smith as Democratic presidential candidate in 1924.

## Senate OKs Shifts in Pentagon Chiefs

WASHINGTON (AP) — The Senate approved today a series of shifts in top Pentagon posts, including the nomination of Donald A. Quarles to be deputy secretary of defense.

★ ★ ★

His nomination was confirmed by voice vote, as were these others:

Gen. Nathan F. Twining, to be chairman of the Joint Chiefs of Staff succeeding Adm. Arthur W. Radford, effective in mid-August.

James H. Douglas of Illinois, as secretary of the Air Force.

★ ★ ★

Gen. Thomas D. White to succeed Gen. Twining as Air Force chief of staff.

Adm. Arleigh A. Burke, reappointed as chief of naval operations.

Fred A. Bantz of New York, to succeed Raymond Fogler as assistant secretary of the Navy.

Congress provided a half billion dollars for relief in the U.S. drought of 1934.

DR. JAMES L. CALVER

## Ex-City Man Chosen to High Virginia Post

A former Pontiac rtsident, Dr. James Lewis Calver, has been appointed commissioner of the newly reorganized Division of Mineral Resources, in the Virginia State Conservation Department.

Calver, who attended Pontiac High School, will also serve as state geologist. Director Raymond V. Long, who made the announcement, praised Calver for his "intimate practical experience in the field of economic geology."

Since leaving Pontiac, Calver has worked for the Tennessee Valley Authority, was a member of the University of Missouri and the University of Wichita faculties, and presently is geologist with the Florida Geological Society. He will begin his duties May 1.

### Detroiter Appointed to USIA Committee

Detroiter Lawrence A. Fleischman, president of H. H. Smart Inc., 55 Oakland, has been appointed to the Advisory Committee on Cultural Information of the United States Information Agency.

Fleischman, 32, is the youngest member of the committee and will srve a four year erm. His collection of American art works is currently touring South American countries. Announcement of his appointment was made by Arthur Larson, Director of the Agency.

### Grocer Fined in Court

Charles Theodore, owner of a grocery store at 71 S. Saginaw St., yesterday pleaded guilty before Municipal Court Judge Maurice Finnegan to charges of unsanitary conditions and short weight (selling less than the quantity represented) and paid $40 in fines and court costs.

# That 'Etc.' Ought to Be Explained

NEW YORK (INS) — Once a year, whether it needs it or not, I clean off the top of my desk — and find the darndest things:

A letter from Bill Perlberg and George Seaton offers me a role in Clark Gable's new picture, which will be a newspaper story. He plays a city editor. "Your role would be that of a reporter, rewrite man, copy rewrite man copyreader, etc."

I don't budge until they tell me what etc. involves. The same letter went to 200 other reporters, out of which the Paramount producers hope to harvest 30 who won't ham it up too much.

**The U.S. Information Agency's contest, "Why I Would Like to Visit New York City and the Empire State Building," drew 5,000 essays abroad, including one from Soviet Russia.**

"I know it only by literary descriptions so far," the Russian wrote. "Gorky, Mayakovsky, my favorite authors, gave us Soviet people rather vivd pictures of the city of the 'Yellow Devil' (Gorky), and I would like to see everything with my own eyes: Brooklyn, sung by Mayakovsky, skyscrapers, praised to the skies indeed, Wall street, cursed by so many people, Coney Island."

**CONSTIPATED?**

**New laxative discovery un-locks bowel blocks**

***without gag, bloat or gripe***

Constipation is caused by what doctors call a "thrifty" colon that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and expels waste from your body.

To regain normal regularity, the dry, shrunken, constipating contents of your colon which now block your bowel must be remoistened. *Second*, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it to action; to a normal urge to purge.

And, of all laxatives, only COLONAID, the amazing new laxative discovery possesses COLONAID'S great *moisturizing* capacity, *plus* COLONAID'S *stretch-stimulating* bulk. So effective it relieves even chronic constipation overnight, COLONAID is yet so smooth, so gentle it has proved safe even for women in critical stages of pregnancy.

Superior to old style bulk, salt or drug laxatives, COLONAID neither gags, bloats nor gripes; won't interfere with absorption of vitamins and other valuable food nutrients; in clinical tests, did not cause rash or other reactions.

It's a physiological fact: Exercise tones your body! And COLONAID exercises your colon to tone it against constipation, overnight! Get COLONAID, in easy-to-take tablet form at any drug counter, today! Only 98c for the 60 tablet package, brings positive relief at less than 2c per tablet.

# Expect 25,000 to Attend Scout-O-Rama April 27

## 56 Area Units to Participate

### Earl Gruber Chairman for 4th Annual Event; at Walled Lake

Clinton Valley Boy Scout Council's Ottawa District is preparing its fourth annual "Scout-O-Rama," to be held April 27 in Walled Lake Senior High School. The event is expected to draw 25,000.

Earl Gruber of Westacres, general chairman of this public exhibition and stage show, said that 56 Scout units representing 2,500 boys and 800 adult leaders will participate in the project.

**Forty-one booths are planned for the "Scout-O-Rama," which will depict 10 years of a boy's life — including hobbies, conservation, emergency service and survival, Scoutcrafts and Scout skills, vocations and Indian lore.**

Reports Gruber, "Demonstrations of each subject are planned to show parents and the public just what Scouting does. We're scheduling what we believe will be a dynamic and dramatic exhibition of Scouting in motion. And, we're building a stage show of selected talent.

The "Scout-O-Rama" will be open from 2 to 9:30 p.m. Stage shows will be presented at 3:30 and 8:15 p.m.

Gruber also announced his staff of committee chairmen for the event. Fred Thompson of Walled Lake is associate general chairman.

**Other chairmen are John Samuelson of Union Lake, floor director; Donald Milligan of Walled Lake, physical arrangements; Albert W. Krusac of Walled Lake, public relations and promotion; Robert Newton of Orchard Lake, finance and tickets; Lloyd Lang of Milford, refreshments; Carleton Holloway of Walled Lake, safety and security; Richard Kosmensky of Farmington, stage manager; Otis N. Walton of Green Lake, show master of ceremonies; and Robert W. Merrow of Farmington, show moderator.**

Any profits from "Scout-O-Rama" will be used for purchasing visual training equipment for Ottawa District adult leadership training courses.

Tickets — 25,000 of them — are available from any Boy Scout and Explorer in Ottawa District communities. The district covers South Oakland County, south of M59, including Keego Harbor to Farmington, and Highland to South Lyon.

REHEARSE OSCAR WILDE HIT — Rehearsing for the Romeo Players twin presentation of Oscar Wilde's "The Importance of Being Earnest" this weekend are (left to right) Byron Scott, Mrs. Philip C. Stone and Mrs. Gerald Corzine. Proceeds from the play are earmarked for the proposed Romeo Community Youth Center.

### Await Comedy Curtain Time

## Youth Center Fund to Get Proceeds

ROMEO — All proceeds from the Romeo Players' presentations of "The Importance of Being Earnest" Friday and Saturday nights in the local high school auditorium will be turned into the Romeo Community Youth Center fund. Curtain time will be 8 p.m. both nights.

The cast of the popular Oscar Wilde comedy farce will feature amateur actors already well known to local playgoers, as well as several talented newcomers. Director J. Gerald McLean will be doubling as an actor in this annual spring production by the Players.

**Besides McLean, other veterans will include Mrs. Philip C. Stone, Mrs. Lester Poosch, Byron Scott, M. T. Cummiskey and Marlene Schoenherr. New to the local boards are Mrs. Gerald Corzine, William F. Dorn, Jr., and Robert Ridley.**

Behind the scenes committees have been working for about six weeks preparing for the play under the direction of Production Manager Mrs. Frederick F. Schanck. Robert G. McGuire is in charge of set design; Mrs. Ray Dembowski, tickets; Mrs. George Hill and Miss Donna Weyer, program; Mrs. McLean, properties, and Mrs. Myles Markey and Joanne West, costumes.

## Prepare Minstrel Show

OXFORD—The third annual minstrel show will be presented by the Oxford Rotary Club at 8 tonight, and tomorrow, in the high school auditorium.

Wayne Andreae will direct the group with Tom Persing as producer.

★ ★ ★

Interlocutor will be Tom Culbert and end men are Roger Oberg, Carl Buechler, Ralph Curtis and Linus Treinan. Musical background will be directed by Fred Gillam and Gordon Mathie.

**Specialty acts will include the Mello-Tones, Amy Carol Cooper, James Theunick and an accordion band.**

Pfoceeds will further the community youth activities sponsored by the Rotary club.

## 'Chicken Day' to Aid Romeo in Fund Drive

ROMEO — Thursday has been designated as "Chicken Day." A local restaurant will be serving its specialty of fried chicken to raise funds for the proposed Community Youth Center. The entire price of all meals will be turned into the Center treasury.

**Over 700 orders for dinners have already been received, with more expected today, according to restauranteur Louis Vanoff.**

Boy Scouts will deliver complete meals to families unable to leave their homes to participate in the project. So far, 60 per cent of the orders will be delivered, Vanoff said.

Several local firms have ordered meals for all their employes to be served during noon-hour tomorrow. The Romeo Rotary Club is backing "Chicken Day.

## Navy Forming Unit of Michigan Youths

The US Navy is forming the R. Thorton Brodhead Unit, to be comprised solely of Michigan recruits, Chief L. T. Harris, NCO in charge of the Naval Recruiting Station in Pontiac announced today.

The unit, named in honor of the late Captain R. Thornton Brodhead, will participate in installation ceremonies April 26 at the Brodhead Naval Armory, Detroit.

A tentative deadline of April 19 has been set for new recruits to enter the program. The unit will depart for basic training at the Naval Training Center, Great Lakes, Ill., after the formal installation.

A major requirement for enlistment into the new "Buddy" program is that the recruits be between the ages 17-31. The larger the group, the more assurance the men will have that they will undergo training together, Harris said.

## Continue Examining Rouge's Ex-Mayor

GROSSE POINTE (INS) —Examination of River Rouge ex-mayor M. Warren Duncan on charges of bribery and extortion conspiracy resumed today before Justice Douglas L. Paterson.

The hearing had been recessed Monday to permit Duncan's attorney time to study city records pertinent to the case.

Judge Theodore Bohn's one-man grand jury had indicted Duncan for "accepting $27,000 in extortion and bribe money over a period of years in the letting of asphalt contracts and the purchase of a crane for the municipal dump."

# Witnesses Balk in Music Probe

## First, Fifth Amendments Invoked by 11 in Quiz of Manhattan School

**NEW YORK (AP) —A House Un-American Activities subcommittee has encountered a parade of balky witnesses at the opening of an investigation of Communist influence in the field of music.**

**The subcommittee expects to hear more than 40 witnesses at four days of hearings here which wind up Friday.**

★ ★ ★

**Eleven witnesses yesterday invoked the First or Fifth Amendment or both to avoid answering all or some of the questions put to them. They presisted despite warnings by the chairman, Rep. Morgan M. Moulder (D-Mo), that they were laying themselves open to possible contempt citations.**

**The 11 witnesses — all from the Metropolitan Music School in Manhattan — were the school's director, president emeritus, registrar, two other officials and six teachers. They refused to answer most all questions about past or present membership in the Communist party.**

**The subcommittee produced two friendly witnesses who labeled two of the 11 as onetime Communists.**

**Miss Lilly Popper, director of the Metropolitan Music School, invoked both the First (free speech) and Fifth (self-incrimination) amendments in refusing to say whether she is now or ever has been a member of the Communist party.**

**The probers interrupted her testimony to call Leonard Cherlin, a Brooklyn Music teacher, to the witness stand.**

**Cherlin, who said he formerly was a Communist, identified Miss Popper as a party member in 1947.**

**Miss Popper refused to say whether Cherlin told the truth. She also refused to tell about any Communists among the school's directors and faculty.**

# Less Chicken Pox Reported in County

**Chicken pox, the most prevelent childhood disease at this time of the year, is declining throughout Oakland County, according to the County Health Department's report on communicable diseases.**

**The report lists 111 eases during the past week compared with 157 the week before. Measles and scarlet fever are still on the increase, and mumps is about the same.**

**Pontiac shows little change from the week before. The complete reports are as follows:**

| Pontiac | Past Week | Prev. Week | Year Ago |
|---|---|---|---|
| Chicken pox | 13 | 16 | 5 |
| Gonorrhea | 1 | 0 | 4 |
| Measles | 0 | 0 | 20 |

## Edward G. Robinson Jr. Trial Jury Selected

**HOLLYWOOD (INS) — Selection of a jury resumes today in the second felony drunk driving trial of Edward G. Robinson Jr., 24-year-old son of the actor.**

**The case, which started yesterday, follows an earlier mistrial brought about when the jury failed to agree.**

**The charge stems from an accident in which motion picture publicist Martin Barth lost an eye.**

**CHECKING THE RECORD** — Dr. Jerome Robb goes over the report on Mrs. Joseph Fouts who was operated on recently solely under hypnosis, with out any anesthetic. The reports show that during surgery she had no noticeable shock, no increase of respiration and pulse and almost no pain. Fifteen minutes after the operation, Mrs. Fouts ate lunch, and the next day was up and about.

# Teacher Amazed by Surgery Painless Through Hypnosis

By HAROLD COHEN

An amazing story of painless surgery, without anesthetic, was told today by a teacher in the Pontiac School System, Mrs. Joseph W. Fouts, 58 N. Telegraph Rd.

Mrs. Fouts, 48, underwent surgery for the correction of a hernia at the Palmer Osteopathic Hospital, Detroit, on March 21, solely under hypnosis used by her family doctor, Dr. Jerome Robb, of Pontiac.

**"It was so easy, it's hard to believe," Mrs. Fouts said. "Only at one point did I feel even the slightest twinge of pain, yet I could hear everything that was said during the operation."**

Mrs. Fouts had no advance warning she was going to be the subject of medical history at the Palmer Hospital. She was seized by sharp hernia pains after school on March 20 and was taken to the hospital the same night by her husband.

The next morning, the operation was performed by a staff doctor, C. C. Motheny, with Dr. Robb assisting.

The surgeon and her own doctor discussed the use of hypnosis with her husband without her knowledge and got his approval.

★ ★ ★

Dr. Robb wanted to try hypnosis because Mrs. Fout has a heart condition which could have been affected by the use of anesthetics.

**She was on the operating table before her doctor asked if she would like to try hypnosis. "I didn't know much about hypnosis and just half way believed in it, but I was so anxious to get the operation over with that I would have tried anything," she said.**

"Dr. Robb had me concentrate on his two fingers which he moved slowly back and forth until my eyes closed," she said, "then he told me I couldn't open my eyes and I just didn't want to even try."

**JUST RELAX**

"He told me to relax and breath deeply and that I couldn't move a muscle," Mrs. Fouts added, "so I just laid there listening to everyone with my eyes closed."

"Today I can't remember what anyone said except Dr. Robb who talked to me all during the operation."

★ ★ ★

When Dr. Robb told her to awaken, Mrs. Fouts said, she felt she could get up and walk away from the operating table. "I had no nausea or pains and I ate lunch 15 minutes after I returned to my room. The next day I was walking around the hospital."

She intends to return in a few days to her second grade class at Owen School. "I feel fit and ready to go," she smiled.

# Upper Peninsula Railroads Tangle on Trackage Deal

WASHINGTON (AP) — Ben W. Heineman, board chairman of the Chicago & North Western Railroad, testifies today on a joint trackage arrangement proposed by two other railroads serving Michigan's Upper Peninsula.

The North Western opposes the track swapping deal between the Lake Superior & Ishpeming and the Soo Line railroads. The North Western claims the plan would divert traffic from its system.

**Heineman was called as North Western's leadoff witness as an Interstate Commerce Commission hearing on the plan entered its sixth day.**

Four Soo Line officials testified yesterday. They were Joseph D. Bond, general manager; Harold McKenna, traffic representative; L. V. Johnson, chief engineer, and Thomas Rose, assistant to the general manager.

Earlier in the hearing, examiner Roberto Romero heard testimony from J. H. Kline, L.S. & I. president, and other witnesses presented by that railroad.

L.S. & I. proposes to trade a half-interest in its line between Marquette and Eben Junction for a half-interest in a 30-mile Soo segment between Eben Junction and Rapid River. L.S. & I. wants to build an iron ore dock in the Rapid River area.

Bond testified yesterday that the Soo refused to sell L.S. & I. a half interest in the Eben Junction Rapid River segment but agreed to a joint trackage arrangement because it would allow the Soo to connect at Marquette with an affiliate, the Duluth, South Shore & Altantic Railroad.

## Road Holds Hoodoo

BENTON HARBOR (AP) — There's a bad spot on that road for Charles Bujack, 25. His car missed a jog on Territorial Road here and crashed into a tree. Bujack suffered a broken leg. Two years ago the car he was riding in hit a tree 20 feet from the same spot and Bujack suffered brain concussion, a broken ankle and internal injuries.

# School Bonds Still Sought

## Bill Would Override Rejection by Voters in Detroit Election

DETROIT (AP) — The Deroit Board of Education wants to issue 100 million dollars worth of bonds without the approval of voters.

The board yesterday approved a resolution by Supt. Samuel M. Brownell urging the Michigan legislature to speed into law a bill permitting the board to issue bonds up to two per cent of its assessed valuation. That would amount to 100 million dollars.

**Definite opposition developed in the board of commerce and possible opposition was voiced by citizens committee on public issues.**

Willis H. Hall, secretary-manager of the board of commerce, said his group would oppose the pending bill. He suggested instead that the school board be authorized to issue 35 million dollars in bonds and require voter approval for further bonding.

★ ★ ★

Donald S. Kiskadden, chairman of the citizen committee on public issues, said his organization would support the board of commerce move for a 35-million-dollar issue. He said the committee would meet Friday to decide whether it approved Supt. Brownell's plan.

★ ★ ★

Under existing law the school board could issue, with the approval of common council, bonds for 33 million dollars it says it needs for classrooms by 1959.

A proposed three-mill increase to finance 33 million dollars worth of school construction was beaten soundly in the April 1 election.

## Delay Action on Ouster

MONROE (AP) — The Monroe Board of Education has delayed action until its meeting next Monday on petitions signed by 552 parents asking reinstatement of Ruth Amen, ousted principal of Boyd elementary school. One petition signed by 30 persons supports the school board action in refusing to renew Miss Amen's contract.

Apples are grown in most of the states, but the principal commercial producing states are Washington, New York, Virginia, Michigan, California.

# Bill Approved by Senate Would Alter State Board

LANSING (AP) — The senate yesterday approved and sent to the governor a bill to revise the make-up of the state board of equalization.

Replacing the auditor general and the state agriculture director on the board, the governor would be authorized to appoint one member with experience in urban property assessment and one with wide knowledge of rural property values.

**The House passed unanimously and sent to the Senate a bill to require all school bus drivers to undergo annual physical examinations prescribed by the state superintendent of public instruction.**

All drivers also would be required to fulfil specified mental and moral qualifications.

**TOWNSHIP STUDY**

A bill passed and returned to the Senate with minor amendments would include study of township government among required high school courses in civics and political science.

**The Senate spent considerable time discussing a bill to permit counties, with voter approval, to apply unexpected general fund balances for specific improvement projects, and finally sent it back to committee.**

Sen. Garland B. Lane (D-Flint) and other opponents said it was opposed by some school leaders and would "deny millage that possibly would go to schools for the purpose of building a surplus."

★ ★ ★

Also discussed at length, and finally postponed, was a bill to channel more county treasury monies collected in fines for penal law violations to county law libraries.

★ ★ ★

The annual ceilings now ranging from $750 to $1,500 a year, depending on county population, would be raised to a range of from $750 to $6,000.

Sen. George C. Steeh (R-Mt. Clemens), chief sponsor of the bill, said it proposed the first revision since 1915 in the basis for financing county law libraries.

# Eden's Condition Reported 'Good'

BOSTON (INS) — Former British Prime Minister Anthony Eden was reported in good condition today at New England Baptist Hospital where he is undergoing tests to determine the cause of a recurring fever.

The fever forced him to fly 11,000 miles to boston from New Zealand, where he had been vacationing. A bulletin issued by Dr. Richard Cattell of the Lahey Clinic said Eden was up and around his fourth floor room in the hospital's Lahey pavilion.

Lady Clarissa Eden, who accompanied the 59-year-old diplomat on the flight to Boston from New Zealand, has remained in her hotel suite, resting from the flight —except for visits to the hospital.

Dr. Cattell in 1953 performed an operation on Eden to correct a leak in the bile duct, discovered after he had undergone a gall bladder operation in England.

## Preserve Historic Site

MONROE (AP) — The Monroe County Historical Society has acquired from the board of education the deed to Little Custer school as the first documented proof of the county's history. It plans to build a park at the site, which formerly was an early French settlement on the River Raisin. St. Antoine's church was consecrated on the spot in 1788 by a bishop who traveled by canoe from Quebec. The site was sold in 1874 for the discontinued school.

# Musicians Compete in Band Festival

EAST LANSING (AP) — An estimated 4,000 musicians from Class C high schools and junior high schools will compete Saturday in Michigan State University.

The 58 bands competing during the day-long auditions are those that attained top ratings in district music festivals throughout the state.

Each band will play five selections and will be rated by a panel of judges. Ratings will range from division one — the best — to division five.

The bands are scheduled to play starting at 8 a.m. and until six p.m. at three centers, the MSU auditorium and in auditoriums at the East Lansing senior and junior high schools.

## Hauled Into Court for Back Seat Driving

SPRINGFIELD, Ill. (AP)—A 17-year-old youth, in Municipal Court on a charge of reckless driving, admitted he was attempting to drive his car while standing on the rear seat.

State policeman William Hall testified he was flabbergasted when he saw the youth, Ronald Roof, guiding the sedan along a highway from the back seat. Hall said another youth was on the floor of the auto operating the accelerator.

"It's one of the clearest cases of back seat driving I've ever seen," said the judge, who withheld a decision.

# Right Numbers Can Make You $300 Richer

Now that you're getting accustomed to the new Pot-O-Gold set-up, the judges are expecting you to come up with more and more winning solutions. If you pick the right numbers for this one, it will be worth $300 providing there isn't a winner for last week's puzzle. Just remember to write in the numbers, not the words, and get the answers in on time and on a postcard.

The new puzzle contains a series of squares which are alphabetically lettered and a corresponding list of sentences with two clue words. Each of the words is numbered. The object is to select the word which you think best fits the clue sentence. You then place the number of that word in the square which has the same letter as the clue sentence.

In other words, you will read the clue labeled A and decide which of the two words makes the most sense in the sentence. You then write the number of that word in the puzzle square marked A.

Do the same with all other squares. Read all the clues carefully and be sure the right numbers are in the right squares.

## OFFICIAL CONTEST RULES

1. Anyone is elegible to enter the POT-O-GOLD contest with the exception of Pontiac Press employes or their immediate families.

2. A contestant may submit as many entries as he or she wishes but they must be on official entry blanks printed in this newspaper.

3. To submit an entry the contestant must print his answers in the proper spaces, cut out the area enclosed by dotted lines and attach it securely to a 2-cent postcard. No entries will be accepted if they are in envelopes. Entries for Puzzle No. 45 must bear a Tuesday, April 16 postmark (or before). No entries received after that time whether mailed or delivered by hand, will be declared eligible. The Press is not responsible for entries lost or delayed in the mail.

4. Sorry, telephone calls or mail concerning details of the contest cannot be answered or acknowledged.

5. The Pontiac Press will award a cash prize of $100 a week to the winner of each weekly POT-O-GOLD contest. If more than one winning answer is received the prize will be divided equally among the winners. If any week or weeks should pass without any winners, the prize will be added weekly until a winning solution is submitted.

6. Winners will be awarded an extra cash bonus of $25 each if they are Pontiac Press subscribers of record on the day winners are announced. Only one such bonus can be awarded to each prize-winner no matter how many weekly prizes may accumulate.

7. Each week's puzzle will be published Monday Wednesday and Friday until the contest's end. Either or all will be considered as official entry blanks.

8. Winners and correct solutions will be announced each Friday of the week following individual contests. Official keeper of answers will be Frederick C. Ziem, prosecutor for Oakland County. Only the General Features Corp., originators of the puzzles, will know the solutions until after each contest is over. Answers will be delivered to the Press judges by Mr. Ziem after the final deadline.

9. There is only one correct solution to the POT-O-GOLD puzzle, and only that correct answer can win. The decision of the judges is final and all contestants agree to abide by the judges' decision. All entries becoming the property of The Pontiac Press and none can be returned.

10. Completed puzzles must be addressed to POT-O-GOLD, POST OFFICE BOX 58, Pontiac, Michigan. Winners will be notified either by telephone or in the mails.

## Hollywood Headlines

# Dana Andrews Returning to Two-Fisted Character

BY LOUELLA O. PARSONS

HOLLYWOOD (INS) — When May 6th comes around, the starting date of "Zero Hour," the first Bartlett-Champion movie, Dana Andrews will answer the roll call.

He's the very first star cast in this very new company, and his role returns him to the hard-driving, two-fisted character which won him his place in the movie sun.

**Rita Moreno is back on the 20th Century-Fox lot with a new contract in her hand and an invitation to stay at home a while. She hasn't made a picture at 20th since "The King and I," but she hasn't been exactly idle.**

Now Jerry Wald wants her for "Holiday in Monaco" and she'll unpack her suitcase and go to work. "Holiday in Monaco" is a comedy with accent on music.

Rita, by the way, has been doing a lot of TV and during the past few months she made a trip to Japan where she saw her one-time boy friend Marlon Brando. Now Buddy Bregman puts Marlon in the second choice category.

**DATE WITH STORK**

A happy Richard Burton sends word that after eight years of marriage he and Sybil have dated the stork for July. He doesn't care whether it's a boy or girl, just so it's a healthy baby.

He'd announced earlier that he is going to live in Switzerland, so I assume that the Burton heir will be born there.

**Richard, who was under contract to 20th for sometime, made any number of friends while he was in Hollywood. A son of a Welsh miner, he has had a fantastic career and has come up the hard way.**

Jimmy Stewart called from New Orleans and said: "This is the first decent weather we've run into since we started barnstorming for 'Spirit of St. Louis.' It's been awful, everything from blizzards to tornadoes.

"We've been doing something a little different on this trip," he went on. "We go into a town about a week before the picture opens instead of the opening week. We have covered 18 towns in 18 days—in spite of the weather."

Although the trip has been hard because of the assorted bad weather, Jimmy and his entourage have been traveling in great style. They are flying in the private plane of the president of United Airlines, and it is a sister ship to President Eisenhower's famed Columbine.

**TEXAS HEIRESS**

Snapshots of Hollywood collected at random: The attractive redhead with Jack Dempsey at the Merry-Go-Round Cafe was heiress Marilyn Lindsay of Texas, where the oil flows.

Leif Erickson has entered Good Samaritan Hospital for his second hospitalization since the first of the year. He picked up a bug while on location in France making "Vintage."

**Sylvania Rampanini, Italian star, will marry Rome reporter Vittorio Foshini in June. The romance started when he went to Capri to interview her.**

Pretty Carole Michelson, chosen "Miss National Press Photographer of 1957," will test at Columbia. She was at the Sands in Las Vegas with her mother and father, who look like teenagers themselves.

Any day, Jean Pierre Aumont and Marisa Pavan return from Europe. Marisa will stay here until her baby is born in August.

Alan Lerner leaves tomorrow for London to confer with Leslie Caron and Cecil Beaton on "Gigi." Beaton, who designed the costumes for "My Fair Lady," will also do them for "Gigi."

# Tranquilizing Drugs Give Notable Results

KALAMAZOO (AP) — The use of tranquilizing drugs has had "notable results" in cutting operating costs at Kalamazoo State Hospital, Dr. Clarence M. Schrier, medical superintendent, reports.

Dr. Schrier said "disturbed" wards have become quieter with a resulting reduction of window breakage and plumbing damage.

Electro-shock treatments have been cut down from 140 a month to about 30, he said, and prefrontal lobotomies, surgery on the brain, all but eliminated.

Patients once regarded as hopeless have recovered, Dr. Schrier said. However, he added, an increase in admissions just about balances the gain in releases.

# Student Acquitted of Acid Throwing

FORT WAYNE, Ind. (AP) — A 23-year-old former Indiana Technical College student was acquitted yesterday of charges of throwing acid on a Michigan girl who had spurned him.

Circuit Judge William H. Schannen found James W. Sprouse, 23, innocent after three psychiatrists testified he was "mentally incompetent" at the time of the offense Feb. 12.

He ordered Sprouse confined to Beatty State Hospital because of what he terms "A possible re-occurance of the mental state."

Sprouse was accused of throwing acid on two 18-year-old waitresses, Carol Ann Clark of Reading, Mich., and Constance Moore of Camden, Mich. He told authorities Miss Clark had ignored his attentions.

# Van Doren Doesn't Always Clean Up

WASHINGTON (AP)—Charles Van Doren, Columbia University English instructor who cleaned up in a big way on television quiz show, didn't do so well in a brief stint as a federal employe.

★ ★ ★

Van Doren won $129,000 on television, but for writing an article on "What Is American Culture?" for the United States Information Agency he was paid only $75 in January 1956.

★ ★ ★

The payment was one of hundreds, ranging from $5 to $600, made by USIA for free-lance services.

A list of the payments was given to the House Appropriations Committee during hearings on the 1958 USIA budget. The committee made them public today.

# New Baltimore Gets Its City Manager

NEW BALTIMORE (AP) — This southeast Michigan town, whose mayor and city council waived their salaries to help pay a city manager, has got one now.

★ ★ ★

Warren Millard, 34, of White Pine, will take over as water plant superintendent May 1 at a salary of $7,500 a year. July 1 he will combine the city manager's job with the water plant superintendent post at a salary of $8,500. He was hired Monday night.

★ ★ ★

Mayor John F. Paul, who gets a city salary of $250 a year, and the six city councilmen, who each get $200 a year, voted last fall to forego salaries for two years to provide $2,900 to help defray the expenses of a city manager.

## Michigan Is 6th Best

COLUMBUS, Orio (AP) — Michigan is the sixth-ranking state in the production of harness horse foals. Michigan produced 195 in 1956 to rate behind Ohio's 670, Illinois, New York, Pennsylvania and Indiana.

# Boy Vocalist's Aged Grandma Is Penniless

ALBANY, N. Y. (AP)—The 70-year old grandmother of the boy who popularized the song, "I'm Gettin' Nuttin' for Christmas," has been getting almost nothing, herself, for a long time.

Mrs. Celia Swartz, grandmother of singer Barry Gordon, is on relief, the Albany County Welfare Department said today.

★ ★ ★

The department said it had been seeking Barry's mother, Mrs. Samuel Gordon of Hollywood, for months. The department wants to compel her to contribute to her mother's support, officials said.

Commissioner Robert P. Whalen said the county would bring court action against Mrs. Gordon, who, he said, is legally required to contribute to her mother's support if financially capable.

Barry's father is listed as Samuel Gordon, formerly a disc jockey here. Department records show him last employed in Jersey City at $66 a week.

Whalen said letters were written to Mrs. Gordon about her mother on July 3, July 24 and Oct. 1 in 1956, and on March 19 this year. He said one of the letters concerned life insurance policies on Mrs. Swartz' life that the department said were held by the daughter.

# Student Unrest Seen in Russia

## Information Agency Chief Also Reports Pressure for Freedom

WASHINGTON (AP) — Reports of "unrest and demand for greater freedom among students" in Russia have been received by the United States Information Agency.

Arthur Larson, director of the agency which operates the Voice of America and other propaganda programs, told the House Appropriations Committee about the reports during recent hearings on his 1958 budget. The committee made his testimony public today.

★ ★ ★

"There is a new class building up in Russia too," Larson said. "You have the engineers, the managers, all these people who are getting a sort of prestige. They live in a comparatively good house, they have a car, they go to the south of Russia in the winter for warm weather vacations.

"They are forming a class of people who are not anxious for anything to break out. They want a degree of freedom of thought and expression they have never had before."

★ ★ ★

A student riot in Tiflis in March 1956, Larson said, demonstrated unrest among 30 younger people. There have been other demonstrations among students, he added.

# 4 Youngsters Killed by Careening Truck

SAFFORD, Ariz. (AP)—A careening truck mowed down and killed four youngsters last night as they were on their way to a movie.

Sheriff's officers booked Antonio Olivas, 63, for investigation of negligent homicide and driving under the influence of alcohol.

The four victims were Virgie Bracamontez, 12, Andy, 9, Patsy, 7, and Avelina, 5, Roberto Bracamontez, 8, and Ray Arrellin, 14, were hurt critically.

# 8 Pontiac Men Enlist in Navy; 12 in County

Eight men from Pontiac and 12 from the county have enlisted in the Navy during the month of March, Chief L. T. Harris, NCO in charge of the Pontiac Naval Recruiting Station announced today.

The new sailors from Pontiac are Kenneth Hovis, 137 Calvert St.; Wallace Ice, 132 Hershey St.; Michael Pearson, 460 S. Edith St.; Joseph Soriano, 380 Ferry St.; Edward Wak, 4610 Lynnwood Dr.; Bill Wilbanks, 60 W. Tennyson Ave.; Bobby Borum, 15 Pinegrove Ave.; and Douglas Shafer, 38 N. Hilldale.

The county contingent of Navy men includes Gerald Priestley, Milford; Donald Pounds, Orchard Lake; Arthur Talbot, Ortonville; John Varga, Rochester; Robert Inch, Oak Park; James Roll, James Russ and Norman Winchell, of Madison Heights.

Also in this group are Michael Rydock, Royal Oak; Albert Smith, Royal Oak; Wilbur Wort, Southfield Township; aand Earl Cardiff, Hazel Park.

# 2 Pontiac Osteopaths to Hold State Offices

The Michigan Society of Osteopathic General Practitioners recently elected two Pontiac doctors to their board of officers for the 1957-1958 term.

Dr. M. C. Worster was elected secretary and Dr. Bernard A. Horowitz was elected educational commissioner.

Dr. Benjamin Bragg of Milford was elected treasurer. The new president is Dr. W. C. Andreen of Wyandotte.

## Shadows Quite Alive

HOUGHTON (AP) — Aroused by shadowy figures in the unoccupied house next door, William H. Brinkman of nearby Redridge tiptoed over to investigate. He was bowled over by a number of fleeing deer which had invaded the building. Brinkman found hoof prints in the kitchen, living room and dining room and on steps leading to second story bedrooms.

# *Pleads Guilty to Taking Cash but Goes Free*

YORK, Pa. (AP)—A chef from nearby Spring Grove, Pa. is a free man today despite pleading guilty to stealing $1,700. No one can find the man the cook says he robbed.

Burnell L. Freed, 36, was picked up by police when he went from tavern to tavern here buying drinks for all hands. Freed handed over $1,310, saying it was the unspent balance of $1,700 he had stolen nine days earlier from a coat in the Veterans of Foreign Wars' post in Spring Grove.

He was arrested on a larceny charge. Local police, state police and the FBI tried to find the owner of the coat. They failed.

Monday Freed pleaded guilty in York County Court. However, Judge Walter I. Anderson said since the state couldn't prove ownership of the money he was ordering the guilty plea withdrawn and discharging Freed.

# Apartment Damaged by Water, Not Fire

The apartment of Mr. and Mrs. Harry Barnes, 49 James St., was not damaged by flames in a $4,000 fire early Sunday, as previously reported in The Pontiac Press.

★ ★ ★

The couple's first floor apartment suffered water damage, Mrs. Barnes said, however. Fire broke out on the second floor.

## THE POWERHOUSE
By JIMMY POWERS

Ken Bartholomew, speed skating champ who has shattered more records in 26 years of competition than any other male American skater, has had it . . . "Under our unrealistic amateur rules, harsher than any other nations, I'd starve to death. I can't put any more money into the sport or take any more time off from work. Avery Brundage would not be so much against expense payments for amateurs if he had to live on the paychecks we receive and support a wife and five daughters!" Bartholomew is a telephone lineman at Minneapolis.

**Skiers are holding raffles to aid Jack Bye in a Burlington, Vt., hospital, paralyzed from the neck down after a Stowe accident. . .**

Cal Keyler at Brown, Bill Lenskold at Manhattan, Len Dramis at Syracuse, and Tom Moritz at Cornell, have been starring on the winter boards and have made their old coach, Pete Wilson, very proud. At one time the quartet was rated No. 2 in the scholastic nationals.

★ ★ ★

Best way to get a Hot Stove debate rolling is to ask: Were the hitters of '29 better than they are today? In '29 the Cubs had Rogers Hornsby hitting .380, Riggs Stephenson, .362; Kiki Cuyler, 360, and Hack Wilson, .345. They were only four of 34 National Leaguers who batted over .300 in 100 games or more. Hank Aaron won the 1956 batting championship with .328. In 1929, 17 players hit more than .328!

FRISCH INDORSES NEW UNIFORMS

Frank Frisch says so far as he personally is concerned the greatest improvement in baseball is not the air conditioned dugouts and streamlined equipment, but the new lightweight uniforms scientifically tailored . . . "When I was playing we wore heavy flannel that was usually weighed down with dirt and mud from sliding. Why if I hadn't had to carry around those heavily embroidered redbirds on my heavy suits with the Cards when I was a young squirt, I'd have stolen 80 bases a season!"

### Play 5 Times on Trip North

# Tigers-Pirates Begin Series

ATLANTA, Ga. (AP) — The Detroit Tigers are out of Florida and playing their way north with only a few reasons for optimism about the coming American League season.

The possessors of a dismal 8-15 record in Florida, including 10 losses by one run, the Tigers swing today in a five-game series with the Pittsburgh Pirates. The first game on the trip home is scheduled for Atlanta.

**The Florida phase of the Tigers' training season showed a lack of pitching strength and the inability to get the one run needed to knot up a close game.**

On the brighter side was the hitting of Charley Maxwell and the pitching of Don Lee.

★ ★ ★

Maxwell, an outfielder who appeared in 141 games last year, led the Tiger hitters in spring training hitting with a .467 average. Recurring attacks of boils troubled him, however, and he appeared in only 13 of the Tigers' 23 games. He hit .326 last year.

★ ★ ★

Lee, a rookie with one year of minor league pitching behind him, looked strong in the midst of a host of pitching shortcomings. His earned run average of 2.37 during the Florida season probably was enough to sew up a berth with the Tigers.

**None of the Tiger pitchers worked the full nine innings in an exhibition game. Frank Lary looked good, but that was no surprise after he was the American League's leading winner last year. Billy Hoeft saw only sparse action because of arm trouble. Paul Foytack had trouble getting opposing batters out. Jim Bunning and Duke Maas were erratic.**

★ ★ ★

The Tigers' 8-15 record in Florida almost matched last spring's Florida mark of 8-16. The team went from there to a 5th-place finish in the American League after a slow start. The Tigers won seven and lost 11 in Florida in 1955.

★ ★ ★

In their 23 games the Tigers hit .279, the same figure that put them atop the American League in team batting last season.

The Tigers, with 29 players on the roster, will play the Pirates at Augusta tomorrow; at Charlotte, N.C., Friday, and at Charleston, W. Va., Saturday and Sunday.

## His 2nd Period Goal Puts Habs 2-Up on Bruins

### Plante Blanks Boston in Stanley Cup Feud; Bruins Try Home Ice

MONTREAL (AP) — Montreal's Flying Frenchmen, defending champions, today were prohibitive favorites to capture their ninth trophy after all but crushing the Cinderella hopes of the underdog Boston Bruins.

★ ★ ★

A Bernie (Boom Boom) Geoffrion pass, and a deceptive piece of stick work by Jean Beliveau accounted for the only goal last night as the Canadiens defeated the Bruins 1-0 to take a substantial 2-0 lead in the best-of-7 final National Hockey League playoff series.

★ ★ ★

The scene shifts to Boston Thursday for the third game with the Bruins who hope they will rebound on home ice. The fourth game also will be played in Boston Sunday.

★ ★ ★

Boston Coach Milt Schmidt stated the plight of his Bruins simply. "We lost because we couldn't get a goal," he said.

★ ★ ★

It was Montreal goalie Jacques Plante who accomplished the feat of shutting out the Bruins for the first time since Chicago managed it Oct. 30, 1956.

★ ★ ★

Plante turned aside 24 shots and Coach Toe Blake was loud in praise of his netminder, especially on a save against Cal Gardner in the third period that prevented the Bruins from tying the score.

"Gardner faked to the outside about 15 feet out," said Plante. "I didn't move, then he shot from about four feet out. I got the puck with the back of my glove."

★ ★ ★

Plante said he wasn't "any more nervous towards the end of the game than I was at the start. I'll admit I was looking at the clock during stops in play. Our team usually plays offensive hockey. This time we played more defensive."

★ ★ ★

Rookie Boston goalie Don Simmons turned in a neat performance for the Bruins and forced the Canadiens to abandon their forceful offense for a deliberate defense, but Beliveau slipped through for the clincher.

Telling about the goal in the happy Montreal dressing room, the 25-year-old Beliveau said:

★ ★ ★

"When I started in on the Boomer's (Geoffrion's) pass, I was going to shoot. But Simmons moved out to meet me and then moved back again. I knew I had him beat. Then he moved to my right and I put the puck in on his right."

The goal came at 2:27 of the second period.

## Chance to Score Fight Tonight

MIAMI, Fla. (AP) — Television viewers across the country may be able to keep an official round-by-round tab tonight on progress of the Davey Moore-Gil Cadilli featherweight bout in Miami's Biscayne Arena. The seventh-ranked Cadilli is a 9-5 favorite.

★ ★ ★

The Miami Boxing Commission said it would make round-by-round scores available to broadcasters if the International Boxing Club didn't object. IBC director Harry Markson in New York said the matter was up to the Miami board. Use of the scores, if supplied, would be optional with the broadcasters and sponsors.

★ ★ ★

The 10-round bout at 10 p.m., EST, carried over ABC television and radio networks, will be the first TV action for Moore who turned pro after winning the 1952 National AAU title and qualified for the Olympics.

## Green Bay Coach Says Big Trade Is in Wind

MILWAUKEE (AP) — Lisle "Liz" Blackbourn, coach of the Green Bay Packers, said last night there is a trade in the wind "probably as sensational as any ever completed in the National Football League."

He told more than 200 members of "Second Guessers, Inc.," a men's group, that the deal may have been all but completed by now. The coach said he expected an announcement would be made in about two weeks.

**He declined to reveal any of the players involved, but it was learned that two Packers, linebacker Roger Zatkoff and quarterback Bobby Garrett, probably figured in the trade.**

Zatkoff, former University of Michigan player, who has "retired" and now is working in Detroit, is said to be interested in playing for the Lions. Garrett is one of four quarterbacks available to the Packers this year and could be used as trading material.

★ ★ ★

Blackbourn denied printed reports that the Cleveland Browns have made an offer for Tobin Rote, the Packers veteran signal caller, who has said that he is retiring, but is having trouble convincing the Packers that he means it.

**"There is no deal underway at the present time involving Rote," Blackbourn said.**

If the Packers do make a deal it will be to strengthen their defensive platoon.

## Old MSU Stars in Grid Classic

### Pro Talent, Spartans Collide on May 4 at Macklin Stadium

EAST LANSING (AP)—Some of the State's football past will make a playing appearance again the first Saturday in May.

The occasion will be the 1st annual old timers classic scheduled for Macklin Stadium on May 4.

**Michigan State's top varsity talent, hardened and sharpened by four weeks of spring drills, will go against a squad of former Spartan players, including many big-money pro stars.**

Some of the pro players already signed up include Al Dorow, quarterback for the Washington Redskins; Earl Morrall, quarterback for the San Francisco 49'ers; Lynn Chandnois, halfback with the Pittsburgh Steelers, and Dorne Dibble, Detroit Lions end.

One of the first worries for promoters was insuring the several hundred thousand dollars worth of talent that will be appearing.

Lloyd's of London, the outfit that will gamble on almost anything, finally agreed to underwrite the insurance. So if a pro passer breaks his arm or an out-of-shape old timer gets knocked into a wheel chair, the hospital bills will be paid.

## Lions Schedule Cleveland Game for Exhibition

DETROIT (AP) — The Detroit Lions, runnersup in the Western Conference of the National Football League last season, will play the Cleveland Browns in a pre-season game at Cleveland's Municipal Stadium Sept. 14.

**The Lions have won 10 of their 12 contests played with the Browns, who have finished out of the champion's circle only once since joining the NFL.**

Gen. Mgr. Nick Kerbawy said the Lions' pre-season date with Washington at Birmingham has been changed from Sunday, Sept. 1, to Saturday night, Aug. 31.

## Sparrow Seeks Position on U.S. Cage Team

Guy Sparrow of Pontiac is one of the 22 outstanding ex-college payers who is a candidate for a position with the Army basketball team in Wiesbaden, Germany. A team will be selected to play in an Armed Forces International tourney to be held April 20-28 at Istanbul, Turkey.

**Other nations participating in the tourney known as the Conseil International du Sport Militaire, are Belgium, France, Luxembourg, Netherlands, Sweden, Italy, Argentina, Egypt, Greece, Turkey, Spain and Norway.**

Competing for positions on the U. S. team are such names as Frank Selvy, Bob Patterson, Bill Hull, Charles Kraak, Jerry Mullen, Bill Warden and other prominent ex-collegians.

## Ford Tries Out Greensboro Links

GREENSBORO, N. C. (AP)—Doug Ford, the new Masters champ, planned to get in a practice round here today in preparation for a stab at Sam Snead's stranglehold on the greater Greensboro open golf title.

★ ★ ★

Ford, Snead and a field of more than 100, including the nation's top pros, will start the three-day, 72-hole grind over the 6,720-yard Sedgefield Country Club course Thursday for $15,000 in prize money.

## Bow-Arrow Champs

Waterford Recreation Association archers are looking forward to an active and interesting summer period, now that the indoor season has ended. Schedule will be announced soon.

Indoor champions for WAL are the Sheriffs team (compiled 36 points for the 11-week campaign); Richard Bentley high for season's instinctive, with 258; William Giles top free-style with 247; high instinctive, for women, Joan Lawson, 128; Dorothy France, free-style, 156. There were 10 teams in the adult league.

## Vacancies Abound as Opener Nears

By THE ASSOCIATED PRESS

Who's going to play second base for Brooklyn? Third base for the Boston Red Sox and Cleveland Indians? First base for Detroit? Catch for the Chicago Cubs?

Probably never have so many major league clubs closed in on baseball's opening day with as many vacancies still to be filled. At least 10 managers will have to come up with decisions before the wraps are taken off the 1957 campaign next week.

Junior Gilliam, Brooklyn's regular second baseman last season, is a cinch to be in the opening day line-up. But he may start at third base with Charley Neal at second and Gino Cimoli in left field.

★ ★ ★

Neal, in his second season with the Dodgers, and Neeman, the No. 1 choice on last fall's draft list, did themselves the most good in yesterday's exhibition games.

★ ★ ★

Neal slapped a two-run double off Corky Valentine with one out in the ninth inning to give the Dodgers a 5-4 victory over the Milwaukee Braves. Brooklyn went into the final frame trailing 4-1 when Gilliam and PeeWee Reese each walked. Cimoli's single loaded the bases and brought in Valentine in relief of Carlton Willey. A sacrifice fly by Carl Furillo and Roy Campanella's single sent home two runs and another base on balls was followed by Neal's winning two-bagger.

★ ★ ★

Neeman and righthanded pitcher Moe Drabowsky combined to lead the Cubs to an 8-3 triumph over Baltimore. Neeman knocked in four runs with a home run and two doubles. Drabowsky went the distance and permitted only five singles. The game was called after eight innings to allow the clubs to catch a train.

★ ★ ★

The New York Giants evened their series against Cleveland after 16 games by producing a 4-2 triumph behind the combined five-hit hurling of Allan Worthington and Je Margoneiri. Indian relief ace Ray Narleski made his first appearance since breaking a finger four weeks ago and held the Giants hitless over the last two innings.

★ ★ ★

The Cincinnati Redlegs powered five home runs to down the Washington Senators 9-7. Wally Post had two of the Redlegs' circuits with Ted Kluszewski, Gus Bell and Jerry Lynch getting one apiece. Eddie Yost homered for the Senators.

## Albion High Names New Football Coach

ALBION, Mich. (AP) — Ellsworth Anderson, assistant coach at Albion High School since 1951, has been named head football coach.

**He succeeds Dan Goldsmith, who resigned to take the job of backfield coach at Hillsdale College. Anderson, 40, is a graduate of Eastern Michigan College and coached at Scottsville High from 1941 to 1951.**

Albion high still is seeking a new head basketball coach to succeed Basil Mason, head coach since 1951. He is leaving the job to devote full time to his duties as junior high school principal.

## Ortiz TKO's Filippo

HOLLYWOOD (AP) — New York's Carlos Ortiz, who stopped Lou Filippo on a foul last month, scored again last night with a seventh-round technical knockout over the game Los Angeles boxer in a scheduled 10-rounder. Ortiz weighed 137¼, Filippo 139.

## John Holman Beats Huge Heavyweight

PORTLAND, Ore. (AP) — Johnny Holman found an open path to Ewart Potgieter's ample stomach and pounded out a unanimous 10-round decision over the huge South African heavyweight fighter here last night.

★ ★ ★

The 7-foot, 3-inch Potgieter weighed 325 pounds. Holman, who fights out of Chicago, tipped the scales at 203.

★ ★ ★

There were no knockdowns, but Holman staggered Potgieter in the first round with a sharp right to the head. Potgieter stumbled backward several steps, spun to the right and half fell over the ropes. But he recovered and the two fighters clinched the rest of the round.

## Ford Club Joins Mat Show

There will be an extra added attraction Thursday night at Southfield High School when the touring Japanese wrestling team faces the Michigan All-Stars in a dual meet.

Besides the scheduled Olympic free-style bouts between the Japanese and a handpicked group of Michigan collegians, the Japs have agreed to wrestle Greco Roman style with the powerful Ford Recreation Club of Dearborn.

**The Ford grapplers won the Greco-Roman style championship last Saturday at the National AAU meet in Waynesburg, Pa.**

Leading the Ford team is 160-pound Khalil Taha, who took 2nd place in the 1952 Olympic Games for his native Lebanon. He came to the United States in 1955 and climaxed his career by winning the National AAU title last week.

Other star members of the Dearborn squad are Frank Szeczi, a Hungarian refugee, and heavyweight Flenoid Martin, a 275-pound giant.

The Japanese-Ford match will follow the bouts between the Michigan wrestlers and the Japs. Starting time is 8 p.m.

## Wiffi Cards 73 in Tuneup at Dallas

DALLAS (AP) — Most of the nation's top lady professionals toured the Glen Lakes Country Club course here today in a pro-amateur meet as a tuneup for the $7,500 Dallas open women's golf tournament starting tomorrow.

★ ★ ★

Wiffie Smith of Orange, Tex., fired a 2-over-par 73 on the 6,200 yard course yesterday to lead the practice rounds. Others in the field include Louise Suggs, Mickey Wright, Faye Crocker and Betty Jameson.

## 'M' Hockey Coach Quits

ANN ARBOR (AP) — Vic Heyliger, 41, veteran University of Michigan hockey coach, today announced his resignation.

Heyliger said he was entering private business in Colorado Springs, Colo.

★ ★ ★

During his 13 years as hockey coach, Michigan teams participated in all 10 NCAA playoffs, winning the NCAA title six times.

**Michigan finished second in this year's tournament and second in the 1956-57 Western Intercollegiate Hockey League race.**

Heyliger won three letters in collegiate hockey at Michigan in 1935-36-37. He played professional hockey with the Chicago Blackhawks of the National Hockey League.

★ ★ ★

He was instrumental in the formation of the Western Intercollegiate hockey league and in the formation of the NCAA championship series.

## Detroit Team Hits 2nd Spot

### Stroh's 3119 Is Lead by Fazio With a 677 Individual, in ABC

FORT WORTH, Tex. (AP) — A Detroit team rammed into second place in the open division standings last night in the American Bowling Congress tournament and two other teams moved into the top 10.

★ ★ ★

Strohs Beer rolled a three-game total of 3119, only seven pins short of the 3126 posted March 18 by the open division leader, Peter Hand Reserve Beer of Chicago.

Team captain Buzz Fazio paced the team to games of 1088, 1022 and 1009. He shot a 677 individual series.

★ ★ ★

The Hesperia team of Los Angeles, Calif., swept into third place with 3087. The California team had 1034, 1074 and 979.

Helin Tackle of Detroit took eighth place with 3049.

Stan Williams of Dayton, Ohio, shot a 299 game earlier yesterday, the highest single game in the ABC since Myron Erickson, Racine, Wis., shot a perfect 300 in the 1955 tourney.

After piling up 11 straight strikes Williams left the five pin on his last roll. He had a 621 series.

## PHS Thinclads Win Track Opener

By H. GUY MOATS

Up to the halfway mark in yesterday's frost-bitten track and field outdoor opener for Pontiac High's thinclads, the Dean Wilson coached squad appeared to be in for a licking. But the chilly Chiefs came up with a rush to rack up five straight wins (sweeps in two events), to more than offset Flint Central's victories in the two relays, final events of the afternoon at Wisner field.

**Despite the freezing cold winds that swept the field (maybe because of it) one field record was broken. Husky Mike Hardiman of PHS tossed the shot 50 feet for the new mark.**

The Valley and state champs had a lot of depth to bolster the first places taken by Roger Coates in the mile (5:05), Jim Hawkins in the 180-yard low sticks (22: flat), Larry Beamer in the 880 (2:07.3), Bill Jamison in the vault (10 feet), and Hudson Ray in the high jump and broad jump (5-6 and 19-3). Ray was the meet's only double winner.

Best race of the event was the 440, Indians' Ken Baxter and Chiefs' Archie Brooks fought right down to the finish line in a real battle, with Baxter hitting the tape a scant step ahead of Brooks.

120-yard high hurdles — won by Capus Robinson (FC); 2nd Lessie Watkins (P); 3rd Jim Hawkins (P). Time: 16 seconds.
100-yard dash — won by Henry Young (FC); 2nd Ken Watkins (FC); 3rd Joe Hill (P). Time: 10.4.
Mile — won by Roger Coates (P); 2nd Bill Millium (FC); 3rd George Fredreichson (FC). Time: 5:05.
440-yard dash — won by Baxter (FC); 2nd A. Brooks (P); 3rd Dick Hessel (P). Time: 55.8.
180-yard low hurdles — won by Hawkins (P); 2nd Keller (P); 3rd Ray Metcalfe (FC). Time: 22.0.
220-yard dash — won by Watkins (FC); 2nd Young (FC); 3rd Hill (P). Time: 24.5.
880-yard run — won by Beamer (P); 2nd Wylie Rogers (FC); 3rd Olin Miley (FC). Time: 2:07.3.
Pole vault — won by Jamieson (P); 2nd (tie) Mike McClusky and Bob Finley (P) and Burt Szabo (FC). Height 10 feet.
High jump — won by Ray, Alex Barge, Fred Brooks, all tied at 5-6.
Broad jump — won by Ray; 2nd Art Thrash (FC); 3rd Young (FC). Distance: 19 feet 2 inches.
Shot — won by Hardiman; 2nd Ponte Brown (FC); 3rd Dan McKay (P). Distance: 50 feet (field record).
880-yard relay — won by Central. Time: 1:40.8.
Medley relay — won by Central. Time: 2:45.4.

## Total of 233 Bowl Saturday at Three Sites

### 108 Ladies Included in Final Qualifying Day of Bowlerama

Pontiac and area women bowlers get into the swing of the Press Bowlerama Saturday when 108 ladies enter qualifying play at three alleys.

★ ★ ★

Some of the outstanding scores among Pontiac women at the state tourney in Flint are among the Bowlerama entries vying for the top prize of $200 in the ladies division.

**Gen Bradley whose 638 actual effort at Flint, along with Eva Miller, Sally Hoffman, Martha Foster and others who turned in fine scores in the state tourney will be among the list of qualifiers.**

Along with the 108 women there will be 125 men also completing qualifying rounds.

★ ★ ★

Last weekend 261 men qualified at the three alleys.

At least 50 bowlers will go into ends of qualifying will be combined and the top 10 per cent of bowlers at each alley will then compete in the finals to be held Saturday, April 20th at the Huron Bowl.

**The list of this week's qualifying times and places will be printed tomorrow in the Press. All men and women are requested to report to their respective scenes of action at least 30 minutes before bowling time.**

At least 50 bowers will go into the finals with the men's champion taking home more than $400 and a desk calendar-pen set as the top prize.

★ ★ ★

The leading qualifiers at each alley are assured of at least five dollars of the prize list, with trophies going to the top scorer in each division at each house.

**Some of the leading handicap scores posted last weekend include Howard Compton's 694 at Dixie, Frank Pavlinac's 683 at Land-O-Lakes, and Lee Miller's actual 615 and 687 handicap at Auburn Lanes.**

Other top scores were turned in by Lester Smith with 683, Bob Pickett with 680, a pair of 664 series by Gene Shell and Bob Postal, R. K. Bone with 662, Jerry Stoll with 660, plus others in the 600 group.

★ ★ ★

Qualifying Saturday at the three alleys will take place at noon, 1:30 p.m., 2:30 p.m., 3:30 p.m. and 8:00 p.m.

★ ★ ★

Tomorrow's Press will list exact time for each qualifier.

### Weather Halts Game

Cold weather and wet grounds combined to prevent Pontiac High School baseball club from getting its 1957 season under way yesterday.

★ ★ ★

Chiefs and Cranbrook were slated to meet at Wisner field but the surface was unplayable after the weekend rains. Game will be rescheduled later in the season, Coach Ed Heikkinen said.

### Secret Weapon!

## Fullmer Has New Bag for Title Training

CHICAGO (AP)—A thing that looks like an overstuffed, leather easy-chair is Gene Fullmer's secret training weapon.

★ ★ ★

It's a new punching bag designed by the middleweight champion's manager, Marv Jensen. The patent is pending.

Jensen calls it a "combination bag."

Fullmer, training for his title defense against Sugar Ray Robinson May 1 in Chicago Stadium, can plow into it with upper-cuts, rights, left hooks, bolo punches — just about everything.

Jensen is treating his brainchild like a mystery.

★ ★ ★

When it arrived at Fullmer's Tam O'Shanter Country Club camp, it was covered with canvas and treated like the Venus de Milo statue being stolen from France.

At Tam O'Shanter, it is kept in a locked room. When the champ wants to punch it, it is brought out, ceremoniously unveiled and then carted back to the vault when Fullmer is finished.

★ ★ ★

The thing is cut on an angle, with an attachment at the top that looks like a giant-sized jelly roll encased in leather. This stimulates the noggin of an opponent. Fullmer can hit a left or an uppercut into the angular side. As it swings around under the jolt, he can throw a right cross to the "jelly roll."

"It does everything but hit back" Jensen said.

## Worst Far Ahead of Billiards Foe

CHICAGO (AP) — Harold Worst, the world champion from Grand Rapids, Mich., swept both blocks from challenger Joe Chamaco of Mexico City yesterday in their 1,200 point title match.

**Worst defeated Chamaco 60-56 in 67 innings and then took the evening block, 60-50 in 53 innings when he had his match high run of 12 billiards.**

Worst now leads 1080-897 points with the last two blocks scheduled today.

The Cleveland Barons hold the American Hockey League record for consecutive victories with 11. They were turned in during the 1943-44 season.

# Two in AAU Semi-Finals

BOSTON (AP) — Three classy teenagers, two of them still in high school, and two defending champions lead the way into the wind-up of the 69th National AAU boxing championships tonight at the Boston Garden.

★ ★ ★

The three young battlers captured the cheers from 1956 titlists Albert Pell, New York flyweight, and Jim McCarter, Seattle heavyweight, last night as the tournament was cut to the final round in three classes and the semi-final stage in the seven other divisions.

Blasting their way into the semi-finals with impressive victories were Vincent Shomo, 16, a New York high school junior; Denny Moyer, 17, high school senior from Portland, Ore., and Willie Moran, 19, a Louisville, Ky., wood chopper also employed as a steel worker.

Shomo, a 139-pound class entry, Moyer, a middleweight, and Moran, a welterweight, showed plenty of punching power and boxing ability in registering easy victories in quarter-final tests.

Pell, clever 21-year-old southpaw, bombed his way through a semifinal match for a unanimous decision over willing Cyril Woodland of Philadelphia.

Moyer, who as a welterweight was defeated in the semifinals last year, floored hard-punching Ward Sullivan of Little Rock, Ark., for a nine count in the second round while earning an easy decision.

Moran, runner-up for the national Golden Gloves 147-pound title, won his 54th bout in 60 amateur starts by outpointing Sidney Drayton of Boston, the outstanding battler in the recent New England AAU tourney.

★ ★ ★

Ernest Hill, a classy performer in the 156-pound division, was one of three Detroit survivors left in the competition. He figures to give Moyer plenty of trouble if they meet.

# Boston Leads NBA Playoffs

## Celtics Defeat Hawks for 3-2 Series Edge; St. Louis Next Site

BOSTON (AP) — The comeback Boston Celtics, leading the National Basketball Assn. finals at last, agree with St. Louis Coach Alex Hannum that rebounds will decide the championship.

★ ★ ★

The teams are headed West for what could be the concluding game tomorrow night after Boston downed the Hawks 124-109 last night to take a 3-2 edge in the best-of-7 series.

After twice coming from behind to deadlock the competition, the favored Celtics finally moved ahead.

★ ★ ★

Several days earlier Hannum had said "rebounding will be the deciding factor in the series."

As if to prove the point, Boston pulled the ball off the boards 73 times to 60 for St. Louis last night as a major contribution to the outcome.

St. Louis ace Bob Pettit got only one rebound in the second half after hauling in 14 before intermission.

## Banquet for Archers; Hold Shoot on Sunday

Oakland County Sportsmen's Club Archery club will hold its annual banquet Saturday evening, April 13, at the OCSC clubhouse. Banquet is scheduled on the eve of the archer's first field shoot, Sunday morning, at the Sportsmen's Club in Waterford.

Public is invited to attend both activities.

Registration for the first field shoot is set for 9 a.m. Sunday with shooting beginning at 10 o'clock.

BOSTON—The Bruins won 14 in a row in the 1929-30 hockey season streak in the National Hockey League's history.

## Trotters Defeat Stars to Take 8-2 Advantage

KANSAS CITY (AP) — The Harlem Globetrotters and the College All-Stars resume their cross-country basketball series in Seattle tonight with the professional team nursing an 8-2 advantage.

The Trotters laced the sluggish Collegians 72-63 before a sparse gathering of about 3,500 in Kansas City's Municipal Auditorium last night. Willie Gardner was the sharpest Trotter with 18 points. Gerome Dommeyer, University of Minnesota star, and Dick Heise of DePaul scored 16 and 15, respectively, for the Collegians.

IN THE FAMILY — Former President Herbert Hoover's fondness for bonefishing has been inherited by his granddaughter, Louise. The first she ever caught, taken off Key Largo, Fla., weighed nine and three-quarter pounds, and was entered in the Metropolitan Miami Tournament.

# No Sports Legislation Seen This Year

WASHINGTON (AP) — Most signs pointed today to the likelihood that Congress will pass no legislation this season affecting the status of baseball, football and other professional sports.

★ ★ ★

Chairman Celler (D-N.Y.) of the House Judiciary Committee said it may be months before he calls hearings on a variety of proposals either to blanket organized sports under federal anti-trust law or to exempt them.

"Let's let the situation jell," Celler said in an interview. "Let's allow it to take its own course for a little while without any legislative interference."

★ ★ ★

Celler himself has put in a bill to apply the anti-trust statutes to major league baseball. This was one of a number of sports measures introduced after the Supreme Court held in February that pro football, under present law, is a business subject to anti-trust regulation.

That decision did not disturb the anti-trust exemption baseball has enjoyed for many years as a result of an earlier high court decision. So baseball, in the view of club owners and others who favor the way the majors currently operate, would benefit from any postponement of Congressional action.

From the same standpoint it would amount to a setback for the National Football League, which would like Congress to pass a law declaring pro football immune to anti-trust regulation.

★ ★ ★

Sen. Kefauver (D-Tenn.) said he would check Celler's intentions before asking his anti-monopoly subcommittee to consider hearings. With no bills yet filed in the Senate, Kefauver has been inclined to let the House act first. But he told a reporter: "I do believe there should be some opportunity for public consideration of the problem."

★ ★ ★

Even if hearings get under way within the next few months, there would be practically no time left for Congress to pass legislation before adjourning this summer.

# 265 Report at Boys' Club

More than 265 baseball anxious boys crammed Pontiac Boy's Club gymnasium, for the opening call for 1957. There were 160 between the ages of 9 and 12, who will take part in the Federal Savings Midget league action.

★ ★ ★

"This number represents approximately 60 per cent of the total number that will eventually sign up," says executive director Bill Coulacos. Baseball at the club is open to members only, with registrations continuing until all interested in the game are assigned to teams.

# State Maps New Lakes in Oakland and Lapeer

LANSING—Maps of 26 Michigan lakes were completed during the past winter by Conservation Department workers from the Department's institute for fisheries research at Ann Arbor.

More thana 2400 inland lakes now have been mapped under the Department program.

**Two crews worked during the winter on lakes in several counties, including Cheboygan, Otsego, Mecosta, Newaygo, Osceola, Calhoun, Lapeer, Oakland and Tuscola.**

Six lakes were remapped because older charts lacked some important details.

Maps of inland lakes are available to the public through the institute and are listed by counties. Persons requesting maps should indicate the specific county desired. All requests and inquiries should be addressed to: Institute for Fisheries Research, University Museums Annex, Ann Arbor.

# Laker Thinclads Down Clarkston

Team balance paid off for West Bloomfield yesterday as the Lakers defeated Clarkston, 58½-50½, in a dual track meet at Clarkston. It was the season opener for both schools.

**Larry Hollister won both hurdles, placed 2nd in the broad jump and anchored the winning 880-yard relay team to pace West Bloomfield with 14¼ points.**

Clarkston had two double winners. George Lang won the 100-yard dash and the broad jump while Chuck Sayler took the pole vault and the 220.

The Wolves captured seven out of 13 events, but the Lakers dominated the 2nd and 3rd positions to win the meet. Times and distances were hindered by damp, chilly weather.

# Fight, Dispute Mark Overtime AHL Contest

CLEVELAND (AP) — A fist fight and disputed goal kept 4,818 hockey fans in a frenzy here last night as the Cleveland Barons scored in the opening seconds of an overtime period to defeat the Rochester Americans, 2-1, in the first game of the American Hockey League's Calder Cup finals.

★ ★ ★

The game winning shot was fired by the Barons' Ron Ingram from just inside the blue line.

★ ★ ★

In the overtime, the Barons jammed in immediately and Ingram fired his long shot into the Rochester nets. Goalie Perrault, whose vision was partially obscured by the press of players, apparently failed to see Ingram's shot.

# Fred DeLano Gets Job With Pistons

DETROIT (AP) — Fred DeLano, 41-year-old sports publicist for the University of Detroit, will be the new general manager of the Detroit Pistons of the National Basketball Assn.

DeLano, a newspaperman and public relations man for 18 years, will take over his new duties May 1.

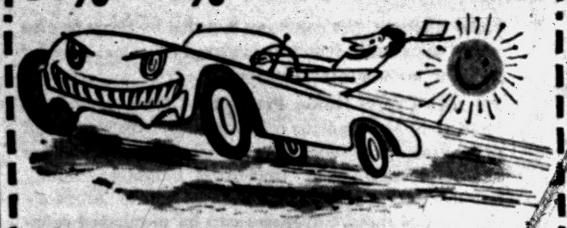

Announcement of his appointment was made yesterday by Fred Zollner of Fort Wayne, Ind., president of the Pistons.

Zollner moved the Pistons' franchise to Detroit several weeks ago. The team suffered financial losses at Fort Wayne.

## 'Skinny' Gets Call

## Mild Weather May Cut Loss

LANSING—Deer ranged out freely from winter yarding areas in most of the Upper Peninsula as early April brought mild weather.

Conservation Department field workers believe starvation losses will not be heavy if mild weather continues, except in the western quarter of the peninsula. It is estimated that winter losses have been heavy in the Baraga district, particularly in the Keweenaw peninsula and west along the Lake Superior shore through Houghton, Ontonagon and Gogebic counties.

Meanwhile, whitetails are unrestricted in the northern Lower Peninsula where snow virtually has disappeared.

Springtime Shooting

## Wily Crow a Good Target

By JACK PATTERSON

PATTERSON

Since the passing of springtime waterfowling nearly a half century ago gunners have generally regarded spring as merely a further demonstration of the long distance between Octobers. A pity in itself, this attitude engenders follies such as gardening and lawn care in this season's lengthening days—harmless enough pursuits, perhaps, but worthless for sharpening the eye and practicing the solution of lead angles. Besides, no wan spring flower, however tediously nurtured, ever had the heady fragrance of a nicely balanced mixture of gun oil, seasoned walnut and burning nitro.

**Before we dissolve into a teary chronicler of the good old days we should hasten to mention that the pleasant and virtuous custom of springtime blood-letting is still a potent possibility.**

Not with wildfowl, of course, whose thinning ranks in autumnal migration are scarcely able to provide what Johnnies-come-lately to the sport are pleased to regard as duck hunting. But there's a substitute, and a good one, too, in the numberless legions of crows that surround us everywhere.

In spite of the reams of material popularizing the crow that have been written in recent years many a hunter still finds himself unable to accept the crow as a sporting bird. We don't see why. Crows are smart and devious in thought and deed. They fly well and fast enough and respond to decoy and call. They collapse most completely when intercepted by a charge of shot.

**They are also edible, if one so desires, falling somewhat short of pheasant Eugenie but surpassing a lot of southern cooking. What more need a bird be to rate the title of sporting?**

In this area there are as many ways to hunt crows as there are individuals to hunt them. Two general methods stand out. First, and good most any time of day, is the informal method of driving about the countryside until birds are spotted. Then it is just a matter of getting to work on the call (an owl or other decoy helps here) until action starts.

★ ★ ★

The best way, like most "best" things requires somewhat more preparation. It involves some late afternoon cruising to spot a line of flight of crows heading to a roost. The earthbound driver, zigzaging along section roads quickly learns the true meaning of "as the crow flies" but perseverence will lead him to the patch of woods which forms the roost.

**A blind built a mile or so away from the roost, in a line of intercept will set the stage for the next day's fun. Shooting too close to a roost may move the birds elsewhere, and a day or two a week is enough on any roost, otherwise the birds may catch on to the gimmick.**

A good location upflight of a roost, a decoy and basic proficiency on a call will assure a fair shot a whopping big score.

## Solunar Tables

For fishing on legal waters in this area, anglers can get some help in selecting the best periods for the coming week by consulting the John Alden Knight solunar tables below. They were prepared especially for this section.

## Spring Fire Damage Mounting in State

Michigan's mounting spring fire damage on state and private forests and grasslands totaled 1284 acres through the month of March, conservation department reports.

Forty-four fires during the last week of March burned 401 acres, mostly in the lower peninsula.

The first Upper Peninsula fire damage of the year was recorded during the week as three fires burned eight acres.

In the northern Lower Peninsula, 28 spring fires burned 207 acres; another 13 fires damaged 186 acres in the southern half of the peninsula.

STAY-AT-HOME DUCK — A female mallard, one of Michigan's year-round waterfowl residents, gives a Conservation Department photographer a quizzical look while posing for this picture. About 198,000 ducks, geese and swans made their winter quarters in the state this year — the second highest winter concentration in the last nine years.

Most Frustrating Sport

## That's What Many Say About Fishing for Pike

ALL OUTDOORS (INS) — Pike fishing in Michigan is listed by many fishermen as the most frustrating sport.

Some anglers profess that "it's hard to be a good Christian and a pike fisherman too."

The fish is the same — a northern pike — no matter where it is found. But note the references when hauled in by different people.

**When the President of the United States catches one it's a "golden muskie." When the ace pitcher of the Milwaukee Braves catches one it's also called a "golden muskie."**

When the mayor of a 2nd class city reels a pike in, it's a "great northern," with capital letters. When a little boy drags a lunker home after catching it on green cotton string it's a "snake fish."

Pike are unpredictable. Sometimes they won't even flick a fin at the most expensive lure worked with supreme angling talent while at other times, this saw-toothed predator will strike a beer can, a shotgun shell or a duck decoy.

Fishermen have reported pike hitting a discarded cigar stub, a carrot, a shackle bolt and even cotton candy thrown from a boat by a little boy.

Last summer in Canada, one angler who was dangling his white pinkies in shallow water to cool them suffered a serious slashing bite "probably inflicted by a hungry pike."

## Rifle Trophy Honors Brusha

Multi-Lakes Conservation association and Oakland County Sportsmen's club riflemen Sunday will engage in the first annual shootoff for the new Frank Brusha Memorial Trophy. The shoot is set for the Multi-Lake range at noon.

Brusha was for years an active member of the two outdoors organizations. He died in August of 1956. He was a member of the Multi-Lakes rifle team since 1952.

Trophy will go to the winner for a year's possession.

## Soil Bank Will Aid in Conservation, Too

Designed to help reduce excess production of certain farm crops, the recently announced soil bank program also will be of help to conservation, it is pointed out.

Acreages added to the soil bank program is expected to also provide something in the way of cover and food sources for wildlife that inhabits farmlands. That's the belief of E. C. Sackrider, state conservationist with the Soil Conservation Service.

## Pointer Trials Set for Highland Area

Annual spring field trials for the German Shorthaired Pointer club is set for Saturday and Sunday at Highland Recreation area, with one event, the gundog stake, open to all pointing breeds.

This is a shoot-to-kill trial in which official gunners will shoot planted pheasants over the dogs. Entries closed yesterday, and a fast field is anticipated.

Other events of the two-day trials include a puppy stake Saturday, Derby stake (Saturday), also the gundog stake. Open all-age stake begins Sunday morning at 8 o'clock and the limited all-age stake will follow at its close. A junior handling stake is set for Sunday at 1 p.m.

CHAMPS — This five-man (one woman) archery team from the Waterford Recreation Assn. is the current champion — at least between OCSC and the suburban bowmen. The Sheriffs (all but Mrs. Bentley) are deputies attached to the county department. They defeated the OCSC team in a recent match. From left are Richard Bentley, high man at the WAL (258 instinctive), Dave Roberts, Mrs. Bentley, Doug Arthurs and Charles Blake. The team won a fine traveling trophy which will be at stake in the future, as the match will become an annual affair.

## Fisherman Lands Pike

GERALDTON, Ont. (AP)—Harry Lee reported today that he caught a fish that wouldn't let him get away.

★ ★ ★

The four-foot pike first bit his thumb, and when he shook it off, it grabbed his sleeve.

The bite of the short-tailed shrew is poisonous, owing to a secretion in the salivary glands.

## Bill Is Designed to Help Build Waterfowl Refuges

By THE ASSOCIATED PRESS

If wetlands for federal waterfowl refuges purchased with duck stamp funds continue to be acquired in the future at the same rate as they have in the past 20-odd years, it would take 333 years to secure the 4 million acres long ago set as the minimum needed.

**By then, observes a congressman who has interested himself in the problem, the last wild duck will be long vanished from the North American continent.**

Rep. Henry Reuss (D-Wis.) introduced last week a bill (HR6691) that would set up a 10-year land and water acreage program for the Department of the Interior.

The part of the bill that caught the public eye was a provision that the migratory bird hunting stamp be increased from $2 to $3 to help finance the project.

There are, however, considerably more meaningful provisions in the measure.

Reuss's bill would provide for the federal government's share of the needed continental refuge area of 12½ million acres. The government now has 3,370,000 acreas. That would leave another 5 million acres to be acquired by the states.

### Blame Bobcat, Lynx

## Predator Kills 7 Deer

Seven deer found dead in a hardwood cutting 18 miles south of Sault Ste. Marie show "unmistakable" evidence of being killed by a predator which left obvious claw and tooth marks and was "almost certainly" a bobcat of a Canada lynx.

The deer were found in the Keldon deeryard near the village of Pickford. They were trucked to Lansing for autopsy which showed that each was killed by an animal that leaped on their backs and clawed and bit both back and neck.

Conservation Department biologists said the deer had all been killed in late March.

The seven "cat-killed deer" were six fawns and one doe carrying two fawns.

# Now's the Time to Ready Boats for Summer's Use

By H. GUY MOATS

Despite the still chilly weather, Spring isn't far away. And in this land of many lakes, it's the time to get at the job of readying the family rowboat, the scores of outboard craft and the many and diverse types of inboards and pleasure craft. The lads with the faster types are also getting ready their motors for the planned races of the busy vacation season.

**The Oakland County area is really a boat-lovers paradise. Most every kind of craft, except the big ones and the cabin cruisers can be seen on the hundreds of lakes during the season. Its fishing popularity attracts hundreds of anglers with car-drawn boat trailers, on weekends. Most of these craft are outboard powered.**

Orchard, Pine, Cass, Sylvan and Watkins lakes are the home waters of lively, competitive boat clubs, with summer-long activities that include big-time sail and power racing events. Pontiac Yacht Club on Cass Lake, Oakland County Boat Club on Sylvan are the veterans in the area. OCBC is the only large powerboat outfit in the section and its mid-summer APB-approved races have long been a big feature in the vacation period. PYC has set a late July date (19-20-21) for the Michigan District Lightning Regatta, one of the big events for these fast craft. A PYC sailor, Mack Goodwin, will defend his title won a year ago.

★ ★ ★

Here are a few suggestions on getting a boat ready for the summer months (from boat people who know):

Remove detachable objects (seats, hatch-covers etc.).

★ ★ ★

Clean accumulated dirt, grease and other materials with a putty knife and steel wool, then wash inside and out with good warm-water suds.

★ ★ ★

Check hull for gouges and dents. Fill spots with good marine "dough." Sandpaper when dry.

**Several coats of a marine liquid plastic is suggested to provide a hard, wear-resistant "skin". It's a quick job, too. You can put on several coats in a day. Comes in colors, too.**

The area has many top-notch establishments handling boats of all kinds, accessories, equipment, supplies. They offer craft in all sizes, styles, colors, with or without power, from canoes to fast runabouts. Any one will be glad to help prospective owners select the right boat for family or personal use.

## Champagne Production Is Specialized Industry

PARIS — Champagne production is so specialized it is the only French wine not made by the man who grows the grapes.

The handling of the grapejuice through fermentation, clarification, blending, bottling, aging, and shipping requires such specialized equipment and personnel that it has become a completely separate enterprise.

## Workers 45 or Over Hired for 1 Job in 5

WASHINGTON—A study by the Department of Labor in seven major cities has established that workers 45 years old and over represent an average of 22 per cent of all persons hire dover a one-year period in all major industries and occupations.

★ ★ ★

Older workers, however, represented more than one third of the employed and 40 per cent of the job seekers at local employment offices in these seven cities.

## 950,000 Hold Jobs in Science, Engineering

NEW YORK — The National Science Foundation estimates that the nation is now employing about 250,000 scientists and 700,000 engineers at the professional level. Nearly 70 per cent of this technical force is in industry, with the balance in education and government.

# Jim Farley Supports Postal Rate Increase

WASHINGTON (INS) — Former Postmaster General James A. Farley endorses the administration's postal rate increase proposal and says Uncle Sam should stop subsidizing mail users.

Farley wrote the House Post Office Committee that a four-cent first-class rate "is both practical and logical." He added: "Higher rates for second and third-class mail also are eminently fair and necessary."

As magazines and direct-mail users increase the use of the mails for profit, he said, the post office department losses increase proportionately.

Noting fears of the administration that the postal deficit — expected to be 651 million dollars in the coming year — may reach a billion dollars a year soon, Farley said increased rates are "obviously essential if we are to reverse this alarming deficit."

# Grain Futures Drift Lower

CHICAGO (AP) — Grain futures drifted a little lower today in featureless dealings on the Chicago board of trade.

★ ★ ★

Most of the selling was by local traders, and apparently was profit taking because of the good price advances in the previous session.

Many dealers remained on the sidelines awaiting the government's crop estimate, due after the close of trading today. It is believed the winter wheat estimate will be considerably higher than the 625 million bushels estimated Dec. 1.

★ ★ ★

Near the end of the first hour wheat was ⅛ to ½ lower, May $2.25¾, corn was ⅛ to ½ lower, May $1.29⅝, oats were ⅛ to ¼ lower, May 71⅜, rye was ¼ to ¾ lower, May $1.31¾, soybeans were ⅛ to ¾ lower, May $2.43¾, and lard was 8 to 10 cents a hundred pounds lower, May $14.82.

# Ike Lauds Britain for Arms Cutback

(Continued From Page One)

criticism. He said criticism does not affect his health.

★ ★ ★

The President was asked if he was aware that Sen. Goldwater (R-Ariz) had characterized Eisenhower's $71,800,000,000 budget as a betrayal of Republican trust.

Eisenhower said members of Congress have a right to their opinions. He said historically there has always been a clash of ideas and of methods of promoting those ideas.

★ ★ ★

He said the government must adapt the principles of the Constitution to the inescapable industrial conditions of today.

Eisenhower said he believes profoundly in the programs he has proposed to Congress.

**NOTES LOW BUDGET**

A reporter noted that Eisenhower's budget represents only 18 per cent of the national income. The reporter said this is the lowest percentage since World War II.

Eisenhower replied that business friends have told him their own budgets are going up 6, 8 or 10 per cent a year. He said they are astonished that the federal government's budget has increased only 3½ per cent.

★ ★ ★

Nevertheless, Eisenhower said, 72 billion dollars is a terrific amount of money to be put to purposes that will not provide new jobs. He said it is all right with him if some cuts can be made, but he added the outlay cannot be reduced to any great extent except by elimination of some of the programs.

★ ★ ★

Outwardly, at least, there was no indication in the news conference that Eisenhower was ready to come out fighting hard personally for his legislative program. Advice that he take that course was reported to have been given him by GOP congressional leaders.

**NOSE RED-TIPPED**

Eisenhower turned up at the news conference with the tip of his nose quite red and with a tiny scab.

Last week, he had only a pimple there.

With a smile, Eisenhower volunteered that his press secretary, James C. Hagerty, had insisted he explain things to the newsmen.

The sore on his nose, he went on, resulted from an ultra violet ray lamp which the doctors had been using in an effort to get rid of a cold.

★ ★ ★

Displaying amusement, Eisenhower said that so far as he knows no personal criticism fired at him has had any adverse effect on his health. He made that remark after a reporter said the President has been criticized recently with respect to White House acquisition of helicopters for his use, and for what the newsman termed speeding on the highways.

★ ★ ★

The newsman said there had been reports the White House staff tries to protect Eisenhower from personal criticism on the ground such criticism is a menace to his health.

With a grin, Eisenhower replied it's a puzzle to him how such notions get abroad.

If he has been protected from criticism by his staff, then he certainly is not aware of it, Eisenhower added.

For that matter, he said, his staff always makes sure that he does learn about criticism.

In his opinion, the President said, honest and fair criticism never hurt anyone. And criticism of public figures, he said, is a good thing. He drew a laugh by adding quickly that he was not by any means admitting the truth of all the things said about him.

## Adlai Accepts Position as Film Board Head

CHICAGO (INS) — Adlai E. Stevenson, twice defeated Democratic candidate for president, has accepted the chairmanship of the advisory board of Encyclopaedia Britannica Firms, Inc., effective July 1.

He said yesterday he took the position because it offers unusual opportunities to lend his influence to the rapid growth of audio-visual education in the country's schools.

# Steels Carry On Upward Trend

NEW YORK (AP)—Steels continued to forge ahead in an active and higher stock market early today.

The high-speed ticker tape fell behind floor transactions in the initial burst of orders as the market followed-through from its strength before the close yesterday.

Leading issues advanced from fractions to around a point and some gains went well beyond that.

Lukens Steel, yesterday's most active stock, was up 5⅛ at 81½ on an opening block of 20,000 shares. It rose 8 points yesterday on good news about earnings and dividends.

It pared this gain in gyrations following the first sale.

Bethlehem Steel, which spurred the steel group yesterday on reports of its capacity operations and excellent backlog, was up ⅜ at 45⅜ on a huge opening block of 50,000 shares. This gain also was trimmed later.

# Israeli Takes Rest, War Rumors Fade

JERUSALEM (AP)—Prime Minister David Ben-Gurion began today a much-postponed vacation amid appearances of a general relaxation of the atmosphere in Israel as it prepared for the Passover holidays.

★ ★ ★

This news tended to dissipate rumors, printed abroad, which, until yesterday were picturing Israel as ready to begin an attack on her Arab neighbor, Jordan.

★ ★ ★

Ben-Gurion, 70, will take probably two weeks of rest in an undisclosed retreat, and be away from his post over the Passover holidays which begin at sundown Monday. Apparently he felt the crisis has eased enough for him to take a vacation.

# Suez Impasse on Dead Center

## Fawzi Summons Hare to Get Egypt's Reaction on U.S. Proposals

CAIRO (AP) — U. S. Ambassador Raymond A. Hare and Foreign Minister Mahmoud Fawzi conferred again today for over two hours in an effort to break the impasse on use of the Suez Canal.

Fawzi summoned Hare to the conference, and was reported to have handed him Egypt's reaction to the latest U.S. proposals for a greater voice by user nations in operation of the waterway, now open to almost normal shipping.

Negotiations, which had been on a dead center for several days, were resumed yesterday when Hare called on Fawzi and talked with him for an hour. Neither side has made any comment on the talks.

Efforts to break the deadlock were resumed as Britain and several other user nations were reported convinced that direct U.S. negotiations to get Egypt to make concessions were getting nowhere. Britain was reported in Washington to be urging the United States to throw the dispute back to the U.N. Security Council.

Irate Arab states here are reported thinking of protesting to Washington because an American tanker sailed through the disputed Gulf of Aqaba with oil for Israel.

The semiofficial Middle East News Agency said the anti-Israeli nations felt the United States had violated Arab territory by permitting the tanker Kern Hills to pass through the disputed Tiran Strait en route to the southern Israeli port of Eilat.

The State Department denied it sent out the tanker to demonstrate U. S. belief in all nations' right of free passage through the strait. But a department spokesman acknowledged the United States could have stopped the Kern Hills had it wanted to.

The 10,441-ton tanker — under charter to Israel — went through the Gulf of Aqaba Saturday to deliver 16,500 tons of crude oil and fuel to Eilat. It was the first cargo of oil ever brought to the Jewish nation through the gulf.

## Hunt Father of 4, Lost in Boat Off Mackinaw

MACKINAC ISLAND (AP) — The Coast Guard searched today for a 33-year-old father of four, missing since Friday on a 12-mile boat ride from Mackinac Island to his home on Bois Blanc Island.

★ ★ ★

He is Harry Feely, a carpenter on the Moral Re-Armament building project on Mackinac. He set off in foggy, windy weather in his 14-foot outboard motorboat for a weekend at home.

A Coast Guard plane cruised over the water today but found no trace of Feely. Boats also patrolled the area.

# Police, Firemen Under One Law

## Pontiac City Officials Refuse Police Chief Plea for Own Board

City firemen and policemen should exist under the same civil service board, despite objections by Police Chief Herbert W. Straley, the City Commission heard last night.

The issue came up as a result of the recent election placing policemen, including Straley, under the civil service laws that have governed firemen 16 years.

★ ★ ★

Straley, who opposed civil service, argued that the three incumbent civil service commissioners on the fire board should not take over governing of the police department, but that a separate police board should be established.

**City Attorney William A. Ewart, however, stated there is no provision in the law for two separate boards, and added that "one, unified board is the only logical course the city can follow."**

Commissioners heard Ewart's explanation and took no action on Straley's objections.

★ ★ ★

They then passed a resolution commending the trial board that had governed policemen up to the April 1 election.

The resolution cited the "gratuitous services and the long hours given" by the seven board members.

# Hoffa Saves Case 'for the Courtroom'

CHICAGO (AP) — James F. Hoffa, a vice president of the Teamsters Union under indictment on charges of conspiracy and bribery, says the case "is for the courtroom, not a matter of public debate."

★ ★ ★

Hoffa, of Detroit, discussed the charges in a speech yesterday before the union's Chicago Joint Council No. 25. He was indicted recently by a federal grand jury in Washington, accused of bribery and conspiracy after he allegedly attempted to buy secret papers and records of a Senate subcommittee investigating labor racketeering.

Hoffa was joined by William A. Lee of Chicago, also a Teamster vice president, in declaring the union will fight efforts to kick the Teamsters out of the AFL-CIO.

★ ★ ★

The AFL-CIO Ethical Practices Committee has ordered a hearing May 6 of charges the Teamsters are "dominated, controlled or substantially influenced by corrupt influences."

# Kavanagh to Stay as Attorney General

LANSING (AP) — Atty. Gen. Thomas M. Kavanagh, who was elected April 1 as a state Supreme Court justice, says he expects to serve out the remainder of 1957 as attorney general.

Kavanagh, a Democrat, will not take his seat on the high court until the end of this year. He was re-elected to a two-year term as attorney general last November.

"I certainly expect to. I see no reason for anything else," Kavanagh said in response to a reporter's question.

★ ★ ★

Rep. George W. Sallade (R-Ann Arbor) in a pre-election letter had questioned the advisability of Kavanagh's staying on in his present post, assuming his election as a Supreme Court justice.

He said that as attorney general Kavanagh probably would be ruling on issues that later would come before him on the high court, thus making it necessary for Kavanagh to disqualify himself from considering them.

# Probe to Spotlight Strong-Arm Tactics

WASHINGTON (AP) — Chairman McClellan (D-Ark) says the Senate Rackets Investigating Committee will hold hearings for about three days, beginning next Tuesday, on practices in the Scranton, Pa., area.

McClellan, in announcing the starting date yesterday, did not indicate the matters to be taken up, nor would he name witnesses to be called. Earlier, committee sources had said the inquiry would go into alleged "strong arm" tactics by some unions.

The committee has indicated its staff was looking into affairs of some building trades unions and the Teamsters Union.

# *Festivity Greets Queen*

PARIS (AP)—Queen Elizabeth got the third day of her state visit to France off to an early start today despite a late night that saw Paris put on its biggest celebration since the liberation and V-E Day.

Nor did last night's spectacular river bank pageantry, fireworks and parties all over town in the visiting British monarch's honor keep the Parisians in bed this morning. The crowds again were out in force when the smiling, radiant Queen and Prince Philip arrived 10 minutes ahead of schedule at the British Embassy for a tree planting ceremony.

★ ★ ★

Last night's celebration, public highlight of the Queen's four-day visit, was one of Paris' gayest nights.

★ ★ ★

The evening-gowned Queen, Philip and President Rene Coty made an hourlong fairy-tale voyage on the Seine seated in a bullet-proof glass observation lounge of the river boat Borde Freitgny. An estimated half million Parisians lined the banks to applaud and cheer as the vessel circled the two islands which form the heart of the city. Five thousand searchlights along the river banks turned the pageant route into a brilliant path of color.

Unfolded before the waterborne guests was a display of French life down through history. In the background, the 985-foot-high Eiffel Tower, flying the British and French flags, was floodlighted against the velvety blue sky.

★ ★ ★

The river boats glided past Paris' famed landmarks — the Quai d'Orsay, the National Parliament, the Louvre, Notre Dame. . .

★ ★ ★

At Notre Dame, where soft light streamed through the stained glass windows, hundreds of white-robed choirboys sang a medieval chant.

As the boats moved on, the Queen saw French folklore groups jugglers, and peasants from the marshy lands dancing on stilts.

During the trip back up the Seine, a display of fireworks that the French claimed was the biggest ever seen anywhere erupted against the sky.

★ ★ ★

The final salute came from massed barges moored near the river bank starting point. At a signal, the barges sounded their fog horns in one deafening roar.

★ ★ ★

A moment later the roar was taken up ashore. Thousands of motorists, caught in one of the worst traffic jams the city has ever known, leaned on their horns to vent their impatience.

After the boat ride, the royal party went to a gala reception at the British Embassy. All over town Parisians danced and drank until the early hours at "Queen's parties" celebrating Elizabeth's visit.

# Steamship Co. Sells Entire Freighter Fleet

CLEVELAND (AP) — Great Lakes Steamship Co. yesterday sold its entire fleet of 16 iron ore and coal freighters for more than $17 million. Wilson Marine Transit Co. of Cleveland bought 13 and Northwestern Mutual Life Insurance Co. bought the three largest ones.

Wilson Marine Transit Co., which until last Friday was known as Wilson Transit Co., intimated in its announcement of the purchase that it was about to sell 10 of its enlarged fleet to other interests.

★ ★ ★

This further sale presumably would include at least some of the Great Lakes steamship vessels. To organizations were reported to be negotiating for the 10.

Wilson Marine Transit has been operating 14 vessels, all of which it owns. It said it would operate the three which are being purchased by Northwestern Mutual. The combined fleets of 30 vessels soon will be cut to 20 by "negotiations currently under way," the announcement said.

# *Less Americans Now Employed in Foreign Plants*

NEW YORK (INS)—A Dun's Review and Modern Industry Survey of 93 U. S. companies with a $3,800,000,000 overseas plant investment showed that fewer Americans and more foreign personnel are staffing overseas plants than ever before.

The 93 firms have a total overseas payroll of 614,973 (including only 4,955 Americans) in 70 companies. The ratio of foreign nationals over Americans managers and technicians is 125 to 1.

★ ★ ★

The survey also showed that more than 41 per cent of the companies realized from 1 to 10 per cent of their net profit from overseas operations; more than 13 per cent got 11 to 20 per cent of net profit; and 17 per cent, more than 75 per cent of their net profit.

### Main Arteries to Get Fund Preference

# Williams, House Leaders Agree on Highway Issues

LANSING (AP) — Likelihood of a major legislative scrap over a proposed overhaul of Michigan road construction financing was greatly diminished today.

The brightened outlook followed an apparent meeting of minds yesterday between Gov. Williams and House leaders on highway questions, including Rep. Emil A. Peltz (R-Rogers City).

**The conference in the governor's office appeared to have dissolved a threatened conflict over whether main arterial highways would be guaranteed preferential treatment under a pending bill.**

Williams told newsmen the question had been answered in the affirmative by agreement of the legislators to establish a priority in spending of road funds on the so-called "designated routes."

**SET UP IN 1955**

These were set up in a 1955 enactment that boosted the state gasoline tax from four and one-half to six cents a gallon, and earmarked the bulk of the increased revenue for four laning enumerated highways.

★ ★ ★

The pending legislation, now before the Roads and Bridges Committee headed by Peltz, in effect supersedes Act 87 of 1955 by merging it into the state's basic highway financing law.

**One of the principal changes proposed, and which thus far has generated little controversy, would divert 12 million dollars a year in revenue now received for state road purposes to counties and cities.**

It would set up a ratio for distribution of monies received from the gas tax and vehicle license fees of 44 per cent to the state, 37 per cent to counties and 19 per cent to cities.

★ ★ ★

A second change in the bill agreed to at the conference yesterday would answer Williams' request for giving the state highway commissioner a freer hand in bonding for road construction.

The lawmakers, Williams said, said they had no objection providing what the governor had in mind was acceptable to firms that would market the bonds.

★ ★ ★

John C. Mackie, Flint Democrat who will become commissioner on July 1, and Lt. Gov. Philip A. Hart were assigned to work out the exact language that would be added to the bill, and consult bond houses.

## Waives Examination in Purse Snatching

Accused purse -snatcher Edward Johnson, 23, of 44 Murray St., waived examination yesterday when he appeared before Municipal Judge Maurice E. Finnegan on charges of unarmed robbery.

He was bound over to Oakland County Circuit Court for arraignment Monday, and returned to Oakland County Jail when he failed to post $2,000 bond.

Pontiac Police Inspector Clark M. Wheaton said today that six women have identified Johnson as the man who grabbed their purses during the last month.

He was arrested Saturday night shortly after Dorothy S. Lavender of Milford told police a man grabbed her purse as she was unlocking her car at the rear of 141 Wayne St. Her purse, containing $200, was recovered.

## Actor Olivier Drops Dignity, Wins Huzzahs

LONDON (INS) — Sir Laurence Oliver won critical huzzahs today for his singing and tap-dancing role in a London play, "The Entertainer."

The dignified Shakespearean actor jauntily danced and gagged his way through the role of a beer-drinking girl-chasing music hall comic.

Japan's fast industrial growth has brought a steel and iron shortage to Tokyo.

# Deputies Eye Civil Service

### Pair to Attend Caucus to Petition Legislation Changing Status

Deputies Harry Jones and Jesse Whitlock, president and secretary, respectively, of the Oakland County Sheriff's Department Deputies Club, tonight will appear at a committee caucus in the House of Representatives, Lansing, to petition for the passing of a bill to provide for civil service in Sheriff's departments.

★ ★ ★

House Bill 303, sponsored by the Michigan Fraternal Order of Police, should be voted on shortly after this hearing of lobbying groups, according to State Senator L. Harvey Lodge.

**The Town and County Committee will conduct the hearing tonight on the "referendum bill which does not violate home rule principles."**

Two basic arguments for Sheriff's Department civil service listed are job security and a 40-hour week.

**SAME PAY**

Deputies contend they receive the same pay as city police departments but put in a 48-hour week for it. Most city police departments, they say, work a 40-hour week and receive extra pay for overtime.

**Also, all employes of the Sheriff's Department are subject to removal with the possible election of a new sheriff every two years.**

Lobbyist groups both for and against the civil service bill will present their view at tonight's meeting.

★ ★ ★

Oakland County Sheriff Frank Irons, will not make the trip.

★ ★ ★

"I'm all for the security for the men," said Irons. "I'll do everything I can to help them. However, the bill as it stands now could also be a hindrance and a problem both to the men and the administration. It needs amending."

### Study Retardation of Cancer in Mice

# MSU Scientist Reports on Hormone Experiments

EAST LANSING (AP) — A Michigan State University scientist reported today that certain hormones administered to mice made cells less resistant or more resistant to tumors.

The experiments are aimed at finding the relation of hormones to cancer.

**The hormones, Thyroxine and hydrocortisone, were found to have opposite effects, depending on whether they were given before or after the cancer-producing agent was applied, reported Dr. Joseph Meites, Professor of Physiology and Pharmacology.**

This means that the cells were apparently modified so they became more resistant or less resistant to the tumor agent, he said.

"If it can be found out the way in which hormones influence production of tumors, then perhaps a way can be found to prevent them from developing," Dr. Meites said.

★ ★ ★

"Since it is known that hormones have a profound effect on normal growth, it is only reasonable to assume they would also have a great effect on abnormal growth," he said.

**In one set of tests, a strong derivative of coal tar was applied to the backs of all mice as the initial cancer-producing agent. Croton oil was applied weekly after that to develop the cancer growth.**

In the group given no hormone treatment, skin tumors developed in 53 per cent of the mice after 12 days.

★ ★ ★

When Thyroxine was administered 10 days before the cancer-producing agent, 73 per cent of the mice developed visible skin tumors. In those given hydrocortisone, 95 per cent developed tumors.

When the same hormones were given after the cancer agent, thyroxine held down skin tumors to 13 per cent and hydrocortisone to 32 per cent.

# City Approves Water Main Bid

### Other Action Speeds Plans for Improvement Within Pontiac

A big step in the 1957 public improvement program was taken last night as the City Commission approved a low bid of $50,956.80 for construction of three new water mains.

The contract went to Louis Kovorkain, a Pontiac contractor, lowest of 11 bidders.

**City Engineer Louis M. Wrenn said the approved price was "about $12,000" under engineers preliminary estimates.**

In addition, public hearings on 14 new street and sidewalk improvements were scheduled for April 16 and four for April 23.

**ALLOWS BUILDING**

Rezoning of a Baldwin avenue parcel will allow construction of an office by the Fisher Body Credit Union, City Manager Walter K. Willman said. It was rezoned from residential to commercial last night.

★ ★ ★

At the same time, the city agreed to bear 25 per cent of the cost of widening Orchard Lake avenue two blocks from Berkley avenue to Telegraph road.

★ ★ ★

The agreement was with the state to facilitate traffic over the Orchard Lake — Telegraph underpass now under construction.

Willman said the cost of the widening has not yet been announced by the state.

# Lynn M. Bartlett Studies Duties

### New State School Head Spends Day in Lansing; to Take Over July 1

LANSING (AP)—Lynn M. Bartlett, newly elected state superintendent of public instruction, has begun to familiarize himself with the duties of the office he will assume July 1.

★ ★ ★

Bartlett, assistant superintendent of schools at Grosse Pointe, spent most of yesterday in the Capitol visiting with Clair L. Taylor, retiring state school chief. Bartlett is a Democrat, Taylor a Republican.

★ ★ ★

Bartlett spent some time with Gov. Williams and in the evening visited with legislators at a reception in honor of himself and others on the slate of Democrats elected to statewide office April 1.

**He told newsmen he has not settled yet on a choice for deputy superintendent, and that he expects to be able to spend a fair amount of time in Lansing before his inauguration.**

He dodged a question whether he would favor supplementation of state aid to schools, financed by an increase in the state tax on beer and a new state tax on whisky.

★ ★ ★

After the session with Williams, the governor said Bartlett told him he intended to carry out his campaign pledge to work for a payout at 100 per cent of the 1956 school aid formula for the present fiscal year.

This would require an additional appropriation of an estimated 20 million dollars.

★ ★ ★

Republicans generally have opposed any such appropriation, although some are willing to provide some extra money provided it is tied in with approval of more revenue from beer and whisky on a continuing basis.

The Gold Coast's new $4,000,000 rail line from Achaisi to Kotoku will open up a productive area never before served by a railroad.

## U.S. Holds Position

WASHINGTON (INS) — The Eisenhower administration has assured key congressmen that the U.S. will maintain the ban on trade with Red China even though restrictions on similar East-West trade by free world allies may be eased slightly.

**NOTICE TO BIDDERS**

Sealed proposals will be received by the Board of County Road Commissioners of the County of Oakland at their offices, 950 S. Telegraph Road, Pontiac, Michigan, until 2:00 o'clock, p.m., Eastern Standard Time, Tuesday, April 16, 1957, at which time and place they will be publicly opened and read for furnishing the following:

5 Reference Desks
5 Plan File Cabinets
Steel Shelving

Information and specifications may be obtained upon request.

All proposals must be plainly marked as to their contents.

The Board reserves the right to reject any or all proposals or to waive defects and to accept the proposals that, in the opinion of the Board, is in the best interest and to the advantage of the Board of County Road Commissioners of the County of Oakland, Michigan, and of the County of Oakland, Michigan.

**INVITATION TO BID**

Sealed proposal will be received by the Purchasing Division of the Oakland County Board of Auditors at its offices located in the County Office Building, No. 1 Lafayette St., Pontiac, Michigan, until 10:00 a.m., Thursday, April 18, 1957. Proposals to cover the following equipment:

Nine (9) Mobile Radio Transmitters and Receivers, similar in design, construction, and of equal quality as Motorola units. Operation in the 152-162 megacycle band. Each must be complete with all accessories, ready for installation, and arranged for ready adaption to 6 or 12-volt car batteries. Such equipment must meet all the requirements of the Federal Communications Commission as set forth in FCC Part 10.

One (1) Remote Control Console. This piece of equipment shall be similar in design, construction, and of equal quality to the "Motorola Model PA-8270-J."

Bids only from accredited and directly employed representatives of equipment manufacturer will be considered.

When submitting your bid, please plainly mark all proposal envelopes as to their contents.

Federal excise taxes should be omitted from the prices quoted and exemption certificates will be furnished to the successful bidder.

The Board reserves to itself the right to accept or reject any or all bids submitted, or to waive defects and to accept the proposals that, in the opinion of the Board, is in the best interest and to the advantage of the County of Oakland, Michigan.

## Langley Faces 4 Court Actions

### Portland DA Involved in Wiretap Case, Failing to Enforce Laws

PORTLAND, Ore. (AP) — Dist. Atty. William Langley had a busy day in court yesterday. He was involved in four legal actions, all stemming directly or indirectly from grand jury investigations of vice and corruption in Portland.

Langley, 41, the highest legal officer of Multnomah County (Portland), started off the day as a witness in a hearing before U.S. Dist. Judge William G. East in the federal wiretap case against Portland gambler Big Jim Elkins and his henchman Raymond Clark.

★ ★ ★

Then his attorneys appeared before Judge East to hear the judge dismiss Langley's two-million-dollar suit against the Oregonian Publishing Co. and others. The suit was filed shortly after the Oregonian published stories which touched off the vice probe.

Then Langley made his first appearance at the criminal trial where he is charged with failing to enforce gambling laws.

★ ★ ★

And finally, he was served with two more indictments by the vice-probing grand jury—charging him with perjury and malicious issuance of a search warrant.

The federal case against Elkins and Clark is based upon a set of tape recordings seized by Langley last year in a raid on the Clark home. The raid was later declared illegal. Subsequently, the tapes were seized by the FBI and used as evidence by a federal grand jury summoned to investigate charges of illegal tapping of telephone lines.

★ ★ ★

Selection of a jury of six men and six women to try Langley on the charge that he failed to prosecute gamblers was completed yesterday. The charge is a misdemeanor and carries penalty of a fine ranging from $50 to $500 and removal from office.

Langley also has been indicted on charges of conspiring to take a bribe, conspiring to obstruct justice and malfeasance. Trial dates for these charges have not yet been set.

★ ★ ★

This is the first major trial of the more than 30 persons under indictment accusing them of corruption or vice activities. Many of those indicted appeared last month before the Senate committee investigating labor racketeering.

## Rubber Band Spells Trouble to One Dog

KANSAS CITY, Kan. (AP) — Sir Riginald had a hangdog look. He was strangely quiet and wouldn't eat or drink.

★ ★ ★

Mr. and Mrs. Norman Humphreys started with the 10-year-old cocker spaniel to a veterinarian's office. On the way Mrs. Humphrey rubbed the dog's head and patted his jaw.

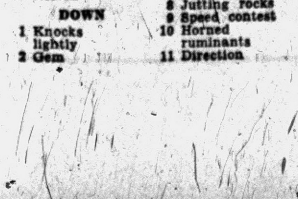

★ ★ ★

"I have diagnosed the case," she suddenly told her husband.

She removed a rubber band which had slipped around Sir Reginald's jaw and held it fast. The band apparently had come from a newspaper the dog had lugged into the house.

Sir Reginald recovered quickly.

## Will Duchess and Elsa Finally Declare Truce?

By EARL WILSON

NEW YORK — The Duchess of Windsor's sold several thousand dollars worth of chances for the April in Paris Ball—which Elsa Maxwell invented—so some folks think the feudin' gals'll make up at next Thursday's society wingding. They both live in the Waldorf Towers (a low-income housing project with tenants like Herbert Hoover, Douglas A. MacArthur, James A. Farley, Henry Cabot Lodge and Harvey Firestone Jr.). One day they gotta meet in an elevator and smile—and then, Hallelujah! Peace in Our Time!

★ ★ ★

Sophia Loren's "Boy On A Dolphin" opens Wednesday—there's talk of sneaking her into town. As a student of her cheesecake pictures, I don't believe they'll be able to do it . . . Fellah just called outa breath, sez Joe DiMaggio, and ex-wife Dorothy Arnold talking reconciliation. Crazy!

★ ★ ★

Steve Allen picked Joy Harmon, Westport, Conn.'s body beautiful, to tote the program book on his program . . . Ava Gardner's love is still Miguel, the bullfighter . . . Harry Belafonte, divorced from wife Marguerite, a child psychologist, to marry model Julie Robinson, gave his wife $20,000 in jewels, a white mink, $78,000 Los Angeles home, big chunk of record royalties, and a five-figure settlement.

JOY

★ ★ ★

Tony Bennett was on a plane forced to land in a Texas tornado. As debris flew through the air, Tony got at least a smile from terrified passengers when he exclaimed, "Man, when they don't like you in Texas, they really throw things at you!"

★ ★ ★

Groucho Marx was offered a six-figure sum to play Las Vegas but he declined. He told the hotel, "There's too much crabgrass on the golf course. It's so big you have to play the Las Vegas courses with machetes."

### THE MIDNIGHT EARL . . .

Pamela Perry, queen of the Artists Equity Ball, is the daughter of a former Nashville newspaperman. A woman objecting to her costume said, "He should've covered her instead of stories."

★ ★ ★

Mary Martin has houses in Brazil, Conn., and N.Y.—and now one across the Golden Gate from San Francisco in beautiful Marin County for her "South Pacific" and "Annie Get Your Gun" runs next summer. It has a pool, a Danish couple and a French poodle. She and John Rait'll do "Annie" as a two-hour Thanksgiving spec. Ernie Kovacs phoned from H'wood and had Edie ("Li'l Abner") Adams mail him special cigars . . .

★ ★ ★

EARL'S PEARL'S: Advice to husbands, via Ima Washout: "Interrupt your wife now and then, just to show her you're listening."

★ ★ ★

TODAY'S BEST LAUGH: Eddie Condon overheard this H'wood producerism: "I'll make that girl an overnight sensation if it takes me five years!"

★ ★ ★

WISH I'D SAID THAT: Why it is a woman braves wintry winds in nylons—but grabs 80 per cent of the blanket at night? That's earl, brother.

## Deep Run Church Moving to Deep Run

DOYLESTOWN, Pa. (AP)—For the first time in over a century the Deep Run Presbyterian Church will be situated in Deep Run.

It was founded in that community, a few miles north of here, in 1725. But it merged with a bigger church established in Doylestown in 1804. The newer church took over its name.

★ ★ ★

Now a 50-member congregation is setting up a church in Deep Run. The Doylestown church is giving back the name.

## School PTA to Elect Officers at Pontiac Lake

There will be an election of officers at the Pontiac Lake School PTA at 8 p.m. Thursday.

William Shunck, Waterford Township school superintendent, will lead a panel discussion on "Child Behavior Problems."

## Building Permits Total $437,650

### Grants for 31 Homes, Convent, Dental Clinic Issued, Report States

Close to a half million dollars in building permits were issued at the Waterford Township hall last week, according to a report from Emil Grischow, chief building inspector.

Permits were issued for 31 new homes, totaling $311,860 last week, compared to 12 permits totaling $121,520 for March 22-29. Total for all building permits last week was $437,650.

A permit for a convent for Our Lady of the Lakes Church was issued for $75,000, and a new dental clinic permit on Dixie Highway near Andersonville Rd. for $14,000 were two of the highest permits requested.

The biggest portion of home permits issued, was for the Lorraine Manor subdivision located on Elizabeth Lake road near Scott Lake Rd. There will be 13 new homes in the $10,500 bracket started in the near future.

Six new homes in the $9,000 class will be constructed in the Ramseyer Subdivision, located on Erwin St. near M59.

Ten additions and remodeling permits were released totaling $13,540.

★ ★ ★

Nine garage permits totaling $13,250 and an apartment remodeling permit for $9,600 was issued last week.

## Dismiss Charge Against Officers

### Suit Accused Two City Patrolmen of Beating Man Severely

Charges involving brutality by two Pontiac patrolmen were dismissed yesterday by Circuit Judge Frank L. Doty.

He dismissed as unfounded a suit seeking damages from Patrolman Patrick J. Weaver arising from an incident Sept. 3, 1955.

A similar suit against Patrolman Wayne E. Long was dismissed, Judge Doty said, after Long reached an outf-of-court settlement with Clifford A. Mero.

Mero, 21, of 34 W. Columbia Ave. had sought $15,000 damages from both officers. His attorney, William John Beer, declined to disclose the amount of settlement.

★ ★ ★

Mero claimed the officers forced him into their patrol car on the pretext he "was in the wrong part of town," then verbally abused him and "severely" beat him.

He suffered shock, Mero claimed and nervous anxiety as a result.

No charges were brought against Mero at the time.

## Michigan Beauty Featured in Film by Dennis Cooper

Waterford Township residents planning to vacation in upper Michigan this year, may get a preview of the state's beauty at 7:30 p.m. Thursday at the Isaac Crary Junior High school.

Dennis Glen Cooper, world traveler and photographer will present "Touring Glorious Michigan."

The film features the Holland Tulip Festival, Tahquamenon Falls, the Hartwick Pines, Mackinac Island and ride in a "dune-scooter" over the Lake Michigan sand dunes.

The Drayton Plains PTA is sponsoring the event.

## Evidence Easy to Spot

WACO, Tex. (AP) — While Nelson Porter was fishing, someone drove off with his vehicle — a horse and buggy. A theft charge was filed later against a man caught driving the rig down the road.

## Plenty of Shows Will Disappear

### Industry Sweeping Out Old Programs to Make Room for New

By CHARLES DENTON

HOLLYWOOD (INS) — The television networks are manning brooms for their annual spring housecleaning, and this year the renovation promises to fill the ashcans to overflowing.

★ ★ ★

The most thorough pruning job is being done at NBC, where "Hiram Holiday," "Bengal Lancers," Jane Wyman, Jonathan Winters and "The Big Surprise" already have been written off entirely.

"Blondie," "Circus Boy," "Hold That Note" and the Goodyear-Alcoa setup appear headed the same route, while Dinah Shore is dropping her 15-minute spots and Tennessee Ernie Ford is relinquishing his daytime show because both want to concentrate on their larger video ventures.

The demise of 15-minute shows generally bodes no good for Nat (King) Cole, and Producers' Showcase is due for some sort of reformation.

Sid Caesar is definitely out of his regular Saturday night time slot—Emmies and all—and where he goes from there is wide open to question.

GEORGE AND EDDIE

Under the pressure of falling ratings, George Gobel is surrendering his independence to team with Eddie Fisher in a series of hour-long weekly shows for next season, and Loretta Young is dickering to slash her TV toils in half.

CBS has decapitated "The Brothers," "Do You Trust Your Wife?" "Gerald McBoing Boing" and "Mama" and may be sharpening its ax for Jackie Gleason and "Hey, Jeannie," which has been in trouble from the start.

"Air Power" has run its course, and a decision has yet to be made on whether "Private Secretary" will continue as a network show. It will go on as a syndicated offering to individual stations, however.

Lucy and Desi are in an odd and none too enviable position. Desi is standing as fast as a Bunker Hill defender by his decision to drop out of the weekly race next season in favor of more spectacular once-a-month shows, but thus far no sponsor has been found to foot the astronomical bills he envisions.

★ ★ ★

ABC is canceling out "Crossroads," Ray Anthony and the DuPont and Ford Theaters, and Danny Thomas has exited the network for CBS.

Walt Disney's "Mickey Mouse Club" will be trimmed to 30 minutes next season. Bishop Fulton J. Sheen has lost his customary time slot but is being offered another—if he wants it.

## TV Winners Run Close Race; Boy Champ, 10, Leads

NEW YORK (AP) — Schoolboy quiz whiz Robert Strom parlayed his TV winnings to $160,000 last night and became the new champion money winner for a single program.

★ ★ ★

The 10-year-old Bronx science expert deposed Theodore Nadler of St. Louis as top money winner for one show. Nadler had boosted his winnings to $152,000 on another program last Sunday.

Strom will return to CBS-TV's The $64,000 Question next week to try for $192,000. If he doesn't stumble, he eventually can win $256,000.

Another boy, 11-year-old Leonard Ross of California, still holds the title for the most money won. But his winnings of $164,000 came on two different quiz shows.

Last night Strom correctly answered a complex four-part question dealing with physics, aerodynamics, astronomy, mathematics, meteorology and electronics. That brought him $32,000.

## Seoul Students Protest Entry of Rhee's Son

SEOUL (AP)—Seoul National University law college students struck today to protest what they termed the "illegitimate" admittance of President Syngman Rhee's adopted son.

Lee Kang Suk, 20, the son of National Assembly Chairman Lee Ki Poong, was adopted by Rhee March 26, on his 82nd birthday.

The 250 students charged Kang Suk was given regular student status April 6 without the required examination.

Best Documented in History

## Many See Tornado

DALLAS (AP)—The Dallas tornado April 2 was seen by more people than any other in history, two Weather Bureau executives said today.

It also was the best documented and for these reasons may answer questions which someday may lead to tornado control, they said.

★ ★ ★

Robert G. Beebe, research forecaster for the Severe Weather Forecast Unit, Kansas City, said preliminary findings already have upset some ancient tornado theories.

"One theory," he said, "was that all air and debris flowed inward to the funnel and upward.

"That definitely was not the case in Dallas."

Instead, debris and even people are lifted from around the outside edge of the funnel, he said.

★ ★ ★

"The winds around the tornado were of sonic speed—somewhere between 500 and 700 miles an hour," said P. H. Kutschenreuter, assistant chief of the U.S. Weather Bureau, Washington.

"It was strong enough to pick up, or at least turn over, boxcars containing bricks."

It killed 10 people, injured nearly 200 and caused damage estimated up to four million dollars.

★ ★ ★

Beebe said the Dallas tornado confirmed that when a tornado is first formed, it has a very wide, stubby funnel. When it grows thin and tall, it probably is about to lift from the ground.

"However," said Kutschenreuter, "that doesn't mean that another funnel will not form immediately in front of it, or that it will not strike the ground again miles away.

"And when the tornado doesn't appear to be moving but appears to be growing larger, watch out. It's coming right at you."

Still unsolved, they said, are two questions which must be answered before tornadoes can be controlled:

1. How can forecasters pinpoint the very localized area in which tornadoes will occur?

2. What is the triggering mechanism which sets them off?

Once the answers are found, the Weather Bureau can begin seeking ways to spread the tornado's energy over a much wider area and to expend the energy over a longer time period.

★ ★ ★

The tornado here was seen by possibly 100,000 persons in sharp detail.

It remained on the ground 40 minutes or more, and cut a path 21 miles long.

## Budget Cutters Past $1 Billion

### House Members Trim Commerce Cash, Turn to State Department

WASHINGTON (AP)—House budget cutters were working on their second billion dollars today.

They went beyond the billion-dollar mark yesterday when the House passed and sent to the Senate the seventh annual appropriation bill of the session, boosting to $1,039,325,740 the aggregate amount chopped from presidential money requests for the coming fiscal year.

The latest bill allotted $653,685,060 to the Commerce Department and several related agencies and was passed in almost the identical form recommended by the Appropriations Committee. Its total was $217,827,940 less than the President requested and $68,950,076 less than the same agencies received for the present year.

★ ★ ★

Next target is the annual appropriation for the State Department and the United States Information Agency, whose new money requests total around 350 million dollars.

The House already has passed seven departmental money bills this year, all of them sharply cut. They finance the Treasury, Post Office, Interior, Labor, Welfare and Commerce departments and a group of miscellaneous agencies, including the District of Columbia.

★ ★ ★

None of the bills has cleared the Senate, which frequently restores some of the cuts voted by the House.

Still to be considered by the House are some of the session's biggest bills, including defense, farm and foreign aid appropriations.

## 'New Directive Shackles Public'

### Rep. Moss Says Rules Fuzzy, Allow Pentagon to Withhold All Data

WASHINGTON (AP) — Rep. Moss (D-Calif) said today Secretary of Defense Wilson's new information directives allow a clampdown on all Pentagon information, whether it is secret or not.

"It is my conviction," Moss said, "that additional shackles have been forged on the public's right to know by the Defense Department's action."

Moss' House Information subcommittee called top defense officials for questioning today on the new orders.

★ ★ ★

At issue were four directives Wilson issued March 28.

Moss said in a statement that instead of drawing a tight line between genuine military secrets and nonsecret "working papers," the directives provide for a broad and fuzzy "for official use only" classification for nonsecret material and for a stiff crackdown on any official who makes this material public.

Moss said that "under the new directives, the Defense Department claims authority to withhold all information. . . except what the Pentagon concedes is an 'official act.' . . .

★ ★ ★

"Where an official is threatened with investigation and discipline for releasing nonsecurity information which his superior may decide at a later date was improper, the official is virtually forced to play it safe and release nothing."

Moss said only one of the Wilson directives was aimed at stripping away unnecessary secrecy. That is an order setting up a declassification office. But the directive lacks teeth, Moss said, because it doesn't give the declassifier any power or tell him specifically what he's supposed to do.

## Boy, 4, Unhurt in Fall From Fast Moving Car

WILMINGTON, Del. (AP) — Four-year-old Michael Sanders fell from his father's car as it was going 45 miles an hour along the main route from Baltimore to New York yesterday, but the youngster was virtually unhurt.

Police said he opened the rear door while riding with his father, Marion, 28, of Smoaks, S.C., fell out, rolled "like a ball" and jumped to his feet with nothing worse than bruises.

## Farm Bureau Federation Asks Large Budget Cut

CHICAGO (AP) — The American Farm Bureau Federation proposes cuts of $6,200,000,000 in what it calls the "excessively large" 1958 federal budget of 72 billion dollars.

Starting the cuts at home, the federation yesterday recommended that the five billion dollars earmarked for agriculture be pruned by 300 millions.

Among other cuts recommended: Two billions from the Department of Defense, $1,200,000,000 from military assistance in foreign aid and 800 million from economic assistance.

The fountain pen was invented in about 1884.
