Marchers Go to Alabama Capitol

Major OU Reorganization Before Governing Board

The Michigan State University Board of Trustees was scheduled today to approve a major reorganization plan which would reshape the administrative structure of Oakland University.

The plan, if approved, will go into effect May 1 and will establish a college of arts and sciences, and the schools of education, engineering, business and economics and performing arts.

The new plan also calls for the creation of the post of university provost, a position directly under the chancellor in the new administrative structure.

Since the university's inception in 1959 the academic departments have been organized in divisions — humanities, social science and science and engineering.

The new structure, according to Chancellor D. B. Varner, would allow the university to

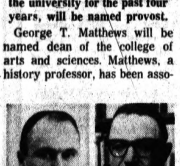

O'DOWD MATTHEWS

serve its rapidly growing student body and to provide for academic growth and development.

In addition to approving the reorganization plan the MSU trustees were scheduled to make the following appointments in connection with the realignment:

Donald D. O'Dowd, dean of the university for the past four years, will be named provost.

George T. Matthews will be named dean of the college of arts and sciences. Matthews, a history professor, has been asso-

HAMMERLE HETENYI

ciate dean for the humanities division since 1961.

Professor and chairman of teacher education since 1961, Laszlo J. Hetenyi, will be named dean of the school of education.

William G. Hammerle, professor and chairman of the engineering science department, will be named acting dean of the school of engineering science.

To be named acting chair-

China Says It's Ready to Join Cong

TOKYO (AP)—Red China declared today it is ready to send men to fight "the U.S. aggressors" in South Viet Nam if the Communist Viet Cong asks for them.

Peking coupled the offer with the announcement that it will send "all necessary material aid, including arms and all other war materials, to the heroic South Vietnamese people who are battling fearlessly."

"At the same time," it said, "we are ready to send our men, whenever the South Vietnamese people want them, to fight together with the South Vietnamese people to annihilate the U.S. aggressors."

In Hong Kong, a Western diplomatic expert on Chinese Communist affairs said Peking's latest declaration appears to go only one step beyond what it has been saying all along.

★ ★ ★

The expert, who has just returned from a visit to Communist China, pointed out that the declaration said, "We are ready to send our men."

NO COMMITMENT

"The operative word is 'ready'," he said. "There is no definite commitment that they will actually go.

"Peking has been very crafty in its phrasing of its threats on this question of sending volunteers into the Viet Nam war. It has been playing the brinkmanship game made popular by its hated enemy — the late John Foster Dulles."

The diplomat said he and other Chinese experts he has spoken with do not believe Peking will send troops into Viet Nam unless the United States sends ground forces into North Viet Nam.

"As long as the United States contents itself with air strikes, it is unlikely that Peking will unleash its army," he said.

WEAPONS INCREASE

"It is probable there will be a big increase in the supply of antiaircraft weapons. There is also the likelihood of more and better aircraft being sent in.

"A number of Chinese Communist MIG 17s are known to

1-3 Inches Snow Likely Tonight; More Tomorrow

It looks as though spring's fighting a losing battle. Winter still holds a tight grip on the weather.

One to three inches of snow is expected tonight, with occasional snow likely tomorrow.

The mercury will dip to a low of 15 to 25 tonight, then rise to a high of 24 to 30 tomorrow.

Saturday's outlook calls for occasional light snow with slightly colder temperatures. Skies will remain cloudy.

Today in Pontiac and the surrounding area, winds are northeasterly at 10 to 20 miles an hour.

A nippy 17 was this morning's low mercury reading in downtown Pontiac. The temperature at 2 p.m. was 28.

GREETING FOR SON — Mr. and Mrs. Dennis Grissom greet their astronaut son, Virgil Grissom, today, at Cape Kennedy, after he was flown in from the aircraft carrier USS Intrepid along with fellow Gemini pilot, John W. Young.

Band Blares Out Welcome to Gemini's 2-Man Crew

CAPE KENNEDY, Fla. (AP) — The two-man crew of the world's first maneuverable spaceship, the Molly Brown, returned today to the embarkation point of their history-making three-orbit flight.

The plane bringing astronauts Virgil I. Grissom and John W. Young from the recovery ship, the carrier Intrepid, touched down at 9:28 a.m.

An Air Force band blared in welcome the overture to the Broadway musical, "The Unsinkable Molly Brown," and then swang into the "Air Force Hymn" and "Anchors Aweigh."

Grissom and Young were wearing blue fatigue coveralls with NASA emblems on the left breast. They were greeted by their parents, Mr. and Mrs. William Young of Orlando, Fla., and Mr. and Mrs. Dennis Grissom of Mitchell, Ind.

★ ★ ★

Also waiting to greet them were fellow astronauts, Alan B. Shepard Jr., the nation's first man in space; Walter M. Schirra Jr, Thomas P. Stafford and Donald K. Slayton.

The wives and children of the two astronauts were waiting for them at the bioastronautics building at the Cape, where the astronauts were to undergo an extensive physical examination.

★ ★ ★

Floor May Be Unsafe

Moon Landing on Crater Rim?

PASADENA, Calif. (AP) — Scientists poring over some of the 5,814 photos taken by Ranger 9 say they indicate the moon's crater rims may provide future astronauts with safer landing areas than would crater plains.

This possibility, advanced last night by scientists at a Jet Propulsion Laboratory news conference, was based on evidence of possible volcanic activity shown in pictures televised by Ranger 9 Wednesday just before it crashed into the 60-mile wide crater Alphonsus.

Alphonsus, in a highland area near the center of the face of the moon, is the site of red flashes which some astronomers have interpreted as hot gases escaping through fissures in the lunar crust.

Dr. Gerard P. Kuiper, chief of the scientific team, said many of the thousands of craterlets seen for the first time on Alphonsus' floor were not caused by meteorite impact. "They can only be the result of volcanic activity," he said.

Count 15,000 on Streets of Montgomery

King, Ralph Bunche Head Parade; Army Guard Heavy in City

MONTGOMERY, Ala. (AP) — More than 15,000 persons led by Dr. Martin Luther King Jr. began an unprecedented march to Alabama's capitol today in a colorful, Army-escorted demonstration dramatizing a Negro voter drive.

King marched at the head of a massive column from a muddy camp behind a Roman Catholic hospital. He wore a black overcoat.

His wife, Coretta, walked beside him. She was dressed in an orange wool outfit.

Hundreds of participants from throughouot the nation joined the march. It became an international demonstration when a group of Canadians fell into the ranks.

★ ★ ★

National guardsmen and Army regulars formed a heavy guard. Army helicopters circled overhead.

JOINS MARCHERS

Ralph Bunche of the United Nations staff joined King. Bunche, like King a Nobel prize winner, had marched when the trek began five days ago at Selma, 50 miles to the west.

An overcast sky threatened rain. It was warm and humid. King was delayed briefly when sheriff's deputies from Dallas County (Selma) served him with a lawsuit seeking to halt a Negro boycott of city buses in Selma.

In the front ranks was Roy Wilkins, executive secretary of the NAACP.

★ ★ ★

The Rev. Ralph D. Abernathy, close associate of King; John Lewis, National chairman of the Student Nonviolent Coordinating Committee; and the Rev. F. D. Reese, Selma Negro lead-

'Dog-gone Stuff,' Barks Californian

By ART SCHEIFLE

Nobody ever told Tip about snow.

He was born and raised in California and has his San Diego city and county dog tags to prove it.

Tip is part poodle, but looks more like a rag mop.

Shortly after Tip came to the Pontiac area, it snowed—and snowed. That was Feb. 25—the date of Oakland County's worst blizzard in more than 30 years.

★ ★ ★

Tip had never seen snow and, when his whole world turned white, he got lost in the stuff.

WANDERS AROUND

He wandered around for about a week. Then, after apparently being hit by a car, he showed up half-starved at the home of Mr. and Mrs. Donald W. Scarbrough, 3130 Deland, Waterford Township.

The Scarbrough's called Mrs. Martin Davis of the Michigan Animal Rescue League Shelter. Mrs. Davis wrote an air mail letter to San Diego.

There was no reply and it looked as though Mrs. Davis had added another waif to her canine collection.

★ ★ ★

Since the accident, Tip

walks with a peculiar gait, and there was some doubt that anyone would adopt him. He watched and watched for a familiar face.

OWNER TELEPHONES

Then, Mrs. Larry Grabelle, Tip's owner called. San Diego police had wired her that Tip had been found, and where he was. Mrs. Grabelle had come to Clarkston in February just before the snow, to stay with relatives, Mr. and Mrs. Russell J. Cohoon, of 6280 Pine Knob.

Reunited with his family, Tip is once again a happy dog.

Romney Accepts Dem Bid to Discuss Fiscal Reform

LANSING (AP)—Gov. George Romney said today he has accepted an invitation from House Democrats to visit speaker Joseph Kowalski, D-Detroit, on the question of fiscal reform.

Romney told his news conference today he will ask Kowalski two questions:

- "Do you agree that we need fiscal reform now?
- **"Are you ready to work for a meaningful bipartisan program of fiscal reform?"**

An invitation from the speaker on behalf of the House Democratic caucus yesterday to come in and make specific proposals on fiscal reform "does not answer these two basic questions," Romney said.

★ ★ ★

"In effect they (the House Democrats) have not yet indicated they are interested in meaningful tax reform," he said.

★ ★ ★

"The letter refers to exploring the question," the Republican governor continued. "Mere exploration does not carry an indication that what is being explored is needed. It doesn't mean that you are prepared to act.

"There's no reference to the fact that on repeated occasions I've tried to start discussion but the Democratic members of the legislature said they did not yet know the position of their members on this question," Romney said.

The letter also invites specific proposals from Romney—"but I tried that in 1963 and it was opposed on the basis that they had not been consulted, although they had," he added.

★ ★ ★

Romney said he would try to meet with Kowalski today or tomorrow.

50-50

Passage of a fiscal reform program by the legislature this year, was given less than a 50-50 chance by the chairman of the House general taxation committee.

★ ★ ★

The Democratic invitation yesterday followed the first meeting of the House caucus on fiscal reform and was the third tax reform development in less than a week.

U.S. Plans to Continue Paying U.N.

WASHINGTON (AP) — The United States intends to go ahead with large contributions to the United Nations despite the failure of the General Assembly to lower the boom on its big-power delinquents, U.S. sources said today.

★ ★ ★

This means U.S. payments of about $200 million this year to the United Nations and related agencies, regardless of whether the Soviet Union, France and others in arrears pay their assessed debts.

President Johnson was urged today by Sen. George D. Aiken, R-Vt., to put "the strength of his office" behind a workable financial formula for the United Nations with which the Soviets can agree.

In a prepared Senate speech, Aiken said U.S. efforts to force Russia to pay its peacekeeping assessments have "collapsed like a punctured balloon."

★ ★ ★

The basic reason Washington plans to go ahead with its large U.N. contributions is that administration strategists rate the U.N. system too important for U.S. foreign policy interests to let it founder. A feeble United Nations, they say, is just what the Communists want.

Article 19 of the U.N. Charter states that any member owing more than the equivalent of two years' assessments shall have no vote in the General Assembly.

It is on this article that the dues-voting dispute hinges. The Soviet Union has refused to pay any part of the assessments for the U.N. peace-keeping operations in the Congo and Middle East. France has refused to pay the Congo assessment.

Workmen Removing Islands In The Auburn-Orchard Lake Crossover

Survey Aided Wide Track Plan

Plans disclosed yesterday to ease traffic problems on the city's new loop road are based on a survey of traffic flow in downtown Pontiac.

The survey, made with traffic counters all around Wide Track Drive, was conducted by the Michigan State Highway Department.

At a meeting of downtown businessmen, city and state officials, a four-point highway department plan for correcting traffic patterns in and around Wide Track was released.

Essentially, the plan calls for removal of concrete islands at the intersection of the Auburn-Orchard Lake crossover and South Saginaw.

★ ★ ★

The islands were installed to prevent complete north-south traffic movement in line with the Wide Track concept of restricting through traffic on Saginaw.

The highway department's survey pinpointed traffic patterns in the south end of the loop highway.

A traffic count at the crossover and South Saginaw disclosed that in an eight-hour period the intersection saw:

- **2,197 westbound through vehicles on the crossover.**
- **598 right-hand turns off of South Saginaw to proceed westbound.**
- **862 vehicles turn right from the crossover onto Saginaw.**
- **605 vehicles turn from the eastbound crossover onto northbound Saginaw.**
- **2,681 eastbound through vehicles on the crossover.**
- **211 vehicles from the west-**

3 Bomb Scares Fail to Halt U-M's Protest 'Teach-In'

ANN ARBOR (AP) — Despite three bomb scares, participants in an all-night "teach - in" at the University of Michigan protested American involvement in Viet Nam late Wednesday and early today.

Some 2,000 students had to evacuate four auditoriums in Angell Hall twice after police received threats. Another bomb scare was reported earlier during the screening of a Viet Cong-produced movie in a men's dormitory. Police found nothing.

The meetings were part of a 12-hour program of rallies, speeches and discussions organized by some 200 U. of M. faculty members.

★ ★ ★

After discussing U.S. policies through the night, some 400 students and faculty members disbanded today after voting to make the "teach-in" a national movement called the "Faculty and Student Committee to Stop the War in Viet Nam."

IMPROMPTU RALLY

The third bomb scare turned into an impromptu rally as students streamed out of the hall.

Reflecting on the bomb threat, Prof. William Livant told the students that deepening American involvement in Viet Nam could result in actual bomb explosions at home, just as bombs exploded in Paris during the Algerian War.

★ ★ ★

"A poisonous policy abroad will debase life at home," he said.

Arthur Waskow, of the Institute for Policy Studies, in Washington said the United States had reversed itself in Viet Nam on two previous commitments.

CITES RAIDS

Waskow cited the raids on North Viet Nam as raids across borders. This kind of action, Waskow said, was declared illegal by the U.S. during the 1956 Suez crisis.

★ ★ ★

At a press conference, several professors who had organized the "teach - in," stressed the need for changing America's policy, but said they had not reached any conclusion on specifics. They emphasized the protest action provided a forum for presenting views other than the government's.

AP Photofax

KENNEDY SCALES MOUNTAIN — Sen. Robert F. Kennedy, D-N.Y., center foreground, stands near the black memorial flag he planted yesterday after reaching the summit of 13,900-foot Mt. Kennedy in the Yugon Territory. The mountain was named by the Canadian government for the senator's brother, the late President John F. Kennedy.

OU Is Slated for Revamping

(Continued From Page One)

man of the math department until Aug. 1 is James H. McKay, associate dean for the sciences, and professor and chairman of the math department.

On Aug. 1, Philip Johnson will assume the chairmanship and McKay will continue on the staff as the faculty professor of mathematics.

Lowell R. Ecklund, associate dean of the division of continuing education will be named dean of this division.

WILL BE NAMED

J. Duncan Sells, who has been associate dean of the university for the past year, will be named assist provost.

★ ★ ★

The schools of business and economics and performing arts are not scheduled to be implemented immediately, Varner said.

Birmingham Area News

'Tasmania to Tropics' Is Subject of Travelogue

BIRMINGHAM — Australia will be the featured country when "Tasmania to the Tropics" is presented at the Community House tomorrow and Saturday nights.

The color film will be shown at 8 p.m. as part of the travel film series at the center.

Bill Dalzell, who will take the audience "down under" to the vast continent, has driven 22,000 miles in Australia.

In making his film, Dalzell visited Melbourne with its colorful sidewalk cafes, skied the Australian mountains, toured the capital city of Canberra and photographed sheep ranches, the coast, Sydney Harbor and a typical Australian pub.

★ ★ ★

The film also includes several sports scenes, including those shot at the Davis Cup tennis matches.

AUSTRALIAN DINNER

An authentic Australian dinner will be served from 6 p.m. before each showing of the film.

American food also is available. Reservations for the dinner must be made today. Tickets for the film presentation can be purchased at the door.

Entertainment for the children is slated for 1:30 p.m. Saturday at the Community House, when a children's show will be presented as part of the annual series of special activities for the younger set.

ON PROGRAM

On the program will be "Romig The Magician," "Gloria and the Busy B's," and "Mr. Twist — The Balloon Man."

Audience participation will be the keynote as Romig performs sleight of hand with colorful silk scarves and live rabbits.

Nine dogs and two monkeys are featured in the performance by "Gloria and the Busy B's," and animals, hats and unusual designs will be created from balloons by "Mr. Twist."

Adult chaperones will be on hand to supervise the young spectators.

No Strikes Against North Reported

U.S. Jets Hit Cong Positions

SAIGON, South Viet Nam (AP) — U.S. jet bombers and fighters flew heavy sorties against suspected Viet Cong positions inside South Viet Nam today. But no air strikes against North Viet Nam were reported.

Vietnamese and U.S. Air Force planes had struck against targets north of the 17th Parallel daily for the past four days.

★ ★ ★

One of today's strikes by Air Force B57s and F100s was against a suspected major headquarters of the Viet Cong in western Tay Ninh Province, 60 miles northwest of Saigon. Another was in Communist-controlled Binh Dinh Province, 290 miles northwest of the capital.

★ ★ ★

A U.S. Army officer flying as observer aboard a light plane was killed by a single shot from the ground Wednesday over Quang Ngai Province, about 390 miles north of Saigon. He was dead when the plane landed back at its base.

NOT IDENTIFIED

The officer was not identified here. But in Milwaukee, Wis., the family of Capt. J.W. Widder, 27, said they had been notified he was killed when a light plane was hit by small arms fire.

His death brought the total of American combat dead in Viet Nam since December 1961 to 305.

★ ★ ★

Authorities announced that two Americans were killed during the week of March 14-20 and 22 wounded. The South Vietnamese suffered 100 dead, 275 wounded and 95 missing or captured.

Military spokesmen said 435 Viet Cong were killed and 90 captured. No figures are available on Viet Cong who may have been wounded and carried away.

NO COMMENT

Communist China's announcement that it is ready to send "volunteers" to South Viet Nam when the Viet Cong asks for them brought no official comment in Saigon and no sign of uneasiness in official quarters here.

★ ★ ★

The possibility of another massive Chinese involvement, such as that in the Korean War, has been included in all military calculations here since 1955.

★ ★ ★

In Canberra, Australian Prime Minister Sir Robert Menzies backed the United States in its "policies and actions relating to South Viet Nam."

Menzies issued a statement replying to a letter published by several Australian Anglican Church bishops urging negotiations to achieve an "honorable and peaceful settlement."

WON'T BE BOUND

"How would the United States negotiate with the Viet Cong, well-organized but hidden; or with North Viet Nam, a country which has shown it will be bound by no agreement?" Menzies asked.

★ ★ ★

Vietnamese government authorities announced an outbreak of cholera and plague cases in several areas. The government received reports that seven persons died of plague in Quang Ngai Province, about 350 miles north of Saigon, and of seven nonfatal cases in Binh Thuan Province, about 100 miles east of Saigon.

★ ★ ★

Nine suspected cholera cases were said to be under treatment in Saigon hospitals.

The Health Ministry urged the people to take immunization shots and observe sanitation procedures.

March Starts in Montgomery

(Continued From Page One)

er, marched near the head of the column.

15,000 MARCHERS

Assistant Police Chief D. H. Lackey estimated the marchers at 15,000 before the march began and before hundreds of others had streamed steadily into the area.

Eight orange-vested marchers who walked the entire distance from Selma took the lead. The marchers walked eight abreast. Hundreds of Negro spectators lined the street and sang "Freedom, Freedom."

James Baldwin, the Negro author, was in the line.

★ ★ ★

The marchers headed slowly for the stately white capitol, once the headquarters of the confederacy. It was under heavy guard by soldiers, state troopers and city policemen.

WALLACE INSIDE

Gov. George C. Wallace was in his office. He told a reporter he would have a normal workday. He said he might issue a statement later.

King had said he would seek to hand a Negro voter-right petition to Wallace.

Members of the Alabama legislature, which was in session, stood on the front steps of the gleaming white capitol. One of them, Rep. J. J. Pierce of Montgomery, said: "This is my first time living in occupied territory."

Airport in Chicago Busiest in U. S. in 1964

WASHINGTON (UPI) — Chicago's O'Hare Airport was the nation's busiest terminal last year, according to the Federal Aviation Agency.

The agency listed 460,277 takeoffs and landings at O'Hare last year. Next in line were Long Beach, Calif., with 422,620; Van Nuys, Calif., with 386,063; and New York's Kennedy International with 367,139.

Ready to Go to Aid Cong, Say Chinese

(Continued From Page One)

be in Hanoi at present, but these would be no match for U.S. jets. Peking may send in some of its more up-to-date jets and these could offer serious resistance to U.S. aircraft."

In Washington, a State Department spokesman said the Chinese declaration was being studied. He refused to comment further. Officials in Washington have expressed the view that the Viet Cong needs military and economic supplies rather than foreign manpower.

★ ★ ★

The Chinese declaration came in response to a statement Wednesday by the Viet Cong's political arm saying it would call for international military help — "youth and army men" — if the United States continued to expand the war.

Wide Track Plan Aided by Survey

(Continued From Page One)

bound crossover lanes turn left onto southbound Saginaw.

● 45 vehicles turn right off of South Saginaw onto the eastbound lanes of the crossover.

A similar check of the intersection of West Wide Track and the crossover showed there were a total of 4,804 through vehicles east and westbound with 5,701 through vehicles on Wide Track.

Turning traffic at the intersection totaled 3,409 giving a total volume for the intersection of 13,918 vehicles.

The volume at the other end of the crossover at East Wide Track was slightly higher at 14,287 vehicles.

The extreme southern ends of the loop road contributed only 667 vehicles to the traffic flow.

HALT CONGESTION

In a letter to City Manager Joseph A. Warren, Gerald J. McCarthy, chief of design for the highway department, said the object was to prohibit Saginaw from becoming the congested traffic carrier that it previously was.

However, the removal of the islands is calculated to reduce the desire for left turns onto Wide Track from either end of the crossover.

Work on the islands began yesterday afternoon. City officials hope to handle north-south traffic through the intersection by Saturday.

★ ★ ★

Max N. Clyde, engineer of traffic operations for the traffic division of the State Highway Department, said left turns are prohibited for safety reasons.

ACCIDENT INCREASE

"Actually," explained Clyde, "we feel we would be increasing accidents to permit left turns."

Clyde cited figures (1,734) and (1,261) from the traffic survey to show that the majority of drivers were following the signs for getting onto Wide Track.

There were 1,734 left turns from West Pike onto southbound West Wide Track, while there were 1,261 similar turns from Water onto East Wide Track.

Police officers at yesterday's meeting said that Wide Track had been the site of 66 property damage and 10 personal injury accidents.

LEADING CAUSE

Police said the leading cause of accidents were illegal turns.

There have been 30 tickets issued for running red lights or stop signs, 83 for speeding and 103 for illegal turns.

★ ★ ★

The state's plan for improving traffic flow on Wide Track include removal of the islands on South Saginaw, a stop sign at the crossover-Saginaw intersection, continued surveillance of the intersection and the signing program, instituted 60 days ago, to further direct traffic.

It will be milder in Pacific Northwest and cold in northern Plains region.

Eye Order to Tire Makers on Disclosure of Hazards

WASHINGTON (AP)—The Federal Trade Commission is considering ordering the nation's tire makers to tell the public of automobile tire hazards, a government source says.

The possibility of a "disclosure of hazards" order, described by a spokesman yesterday, arose after the FTC listened to some highly explosive testimony during a two-day hearing in January.

Such an order could touch off a controversy similar to the furore over whether the tobacco industry should be required to display warnings that habitual smoking may injure health.

Sen. Gaylord Nelson, D-Wis., said in a speech prepared for the Senate today the 800-page transcript of the tire safety hearings documents a "national scandal in automobile tires," and should be made public.

★ ★ ★

Nelson said the transcript, which the FTC does not intend to print, includes expert testimony that:

● Many new cars come equipped with tires inadequate even for normal use.

● Six passenger sedans with big trunks are tested for tire purposes with only three passengers and no luggage.

● Sizes stamped on tires do not tell the actual size and were never intended to do so.

● Ply-rating labels have "no understandable meaning."

● There is no way a motorist can choose the right tire.

ON TIME BOMB

"It (the transcript) indicates that untold thousands of people are buying fine new cars, loading them up with children and baggage, and setting out across the country in the belief that they are perfectly safe.

★ ★ ★

"Actually, many of them are sitting on a time bomb."

Tire manufacturers and independent tire dealers testified at the hearing that the terms "first line," "second line" and "third line" mean something different to each manufacturer.

New U. S. Bomber Sets Two Records

EDWARDS AIR FORCE BASE, Calif. (AP) — The huge XB70A supersonic bomber broke two aviation records — heaviest weight and continuous supersonic flight — in its eighth test flight.

A spokesman for North American Aviation said the craft took off Wednesday at the heaviest weight any airplane has ever flown — more than 500,000 pounds.

* * *

During its 100-minute flight it logged a record 80 minutes at supersonic speeds ranging up to about 1,400 miles per hour.

Approximately 25.3 billion bottles a year are made in the U.S.

Foreign News Commentary

Diplomat, Lost Causes Meet Often

By PHIL NEWSOM
UPI Foreign News Analyst

The man being asked to make a last attempt at lifting the U.S. fat out of the fire in Indonesia is, by now, used to lost causes.

This time Ellsworth Bunker, a 70-year - old diplomat and retired businessman, is being sent to Indonesia to discuss what the State Department calls in a masterpiece of under-statement "current problems in Indonesian - American relations."

NEWSOM

The assignment comes when U.S. - Indonesian relations are at the lowest and are subject to still further deterioration as result of a Communist - conducted campaign of harassment to eliminate U.S. influence in Indonesia.

U.S. Ambassador Howard Jones' home has been invaded by demonstrators.

★ ★ ★

A U.S. Information Service library has been burned, culminating a series of attacks which led to abandonment of the U.S. program and withdrawal of U.S. personnel.

NO SERVICE

Electrical services to Americans have been interrupted.

Last week, the Sukarno government announced it was taking control of the American-owned Stanvac, Caltex and Pan American oil companies whose investments in Indonesia are estimated up to $300 million.

Subject to the same sort of harassment are the Goodyear and U.S. Rubber companies whose combined holdings are estimated at around $36 million.

★ ★ ★

The publication "Rubber World" estimates that Goodyear alone supports from the cradle to the grave 25,000 Indonesians, maintaining for them schools, houses, hospitals, and churches.

ACQUAINTANCE

Presumably Bunker was selected for his current task on the basis of his past acquaintance with Indonesian President Sukarno, an acquaintance which Sukarno should remember with pleasure.

In 1962, Bunker served as U.S. mediator in the negotiations by which the Dutch gave up West New Guinea to Indonesia.

At best, the deal was described as having averted a war between the Netherlands and Indonesia. At worst, it was called a sell-out of Papuans from one form of colonialism to another. Theoretically, it bound the Sukaron government to grant Papuans eventual self-determination.

★ ★ ★

No one really expected that part of the agreement to be carried out, but it was a face-saver for the Dutch.

MIDDLE EAST

A Bunker assignment in 1963 took him to the Middle East on a peace-seeking mission in Yemen.

An outgrowth was Egyptian and Saudi Arabian agreement to cease their interference on opposite sides of the Yemen civil war.

Neither side lived up to it.

★ ★ ★

In Indonesia, Bunker will be talking to a Sukarno who, of late, has seemed increasingly in retreat before the demands of his country's powerful Communist party, the largest outside the Communist bloc.

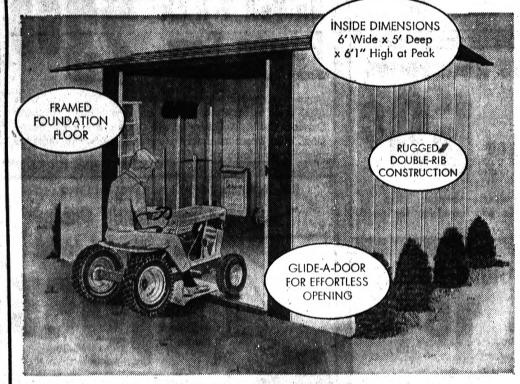

★ ★ ★

Regardless of the success or failure of the Bunker mission, the United States does not want a total break with Indonesia. But Ambassador Jones has served notice he wishes to retire and his post could be left vacant.

State Senate Fails to OK Contract Car Buying for Teen-Agers

LANSING (AP) — The Senate grudgingly gave 18-year-olds certain privileges of adulthood Wednesday but withheld others in the craziest-quilt voting pattern of the session.

Senators knocked out provisions which would have allowed 18-year-olds to acquire real estate and enter into contracts for such goods as automobiles.

* * *

Debate ranged from bitter to humorous — the latter when former auto dealers Sen. Roger Johnson, D-Marshall, and Sen. Joseph Mack, D-Ironwood, castigated fellow senators for implying that car salesmen would prey on young buyers if the original bill were passed.

Sen. Haskel Nichols, R-Jackson, and other backers of the original bill asserted that if 18-year-olds can marry and serve in the armed forces, they should be able to buy property and goods without a parent co-signing.

Opponents led by Sen. Roger Craig, D-Dearborn, said the young people would become victims of unscrupulous merchants.

Schoolmasters to Meet

ANN ARBOR (AP)—Subjects ranging from the classics to driver education will be discussed at the 78th annual meeting of the Michigan Schoolmaster's Club at the University of Michigan April 8-9, the university announced.

Sen. George Fitzgerald, D-Grosse Pointe, introduced the amendment knocking the contract and property purchase privileges out of the bill, then withdrew it when debate arose.

* * *

But Sen. John McAuley, D-Wyandotte, reintroduced the same amendment. On a show of hands it fell three votes short of passage. But a roll call was demanded and that time the amendment was approved 20-14.

After the amendment fight the bill passed 33-2 and went to the House.

The amended bill still left 18-year-olds with the privileges of executing wills, powers of attorney and assignment of guardianship of the estate of their children.

Two other bills of interest were moved into position for final passage.

* * *

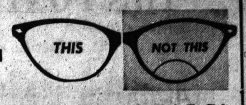

One would expand the Workmen's Compensation Appeal Board from five to seven members and split the board into rotating three-member divisions for hearing cases.

* * *

The other would allow the liquor Control Commission to waive the one-year residence requirement when issuing licenses.

A playing field is being heated experimentally with buried electric cables. The field will be available earlier in the spring and the turf will be better.

Nation's Junior Miss Given Big Hand by City

We heartily congratulate lovely PATRICE GAUNDER on being chosen America's Junior Miss.

PATRICE

Although not a local entry in the Junior Chamber of Commerce-sponsored contest held here last February, it was in that event that the Stevensville (pop. 697) beauty won the State title and qualified for the national pageant in Mobile, Ala.

★ ★ ★

If that doesn't make the young lady a territorial possession of Pontiac, we'll eat her Easter bonnet.

Needless to say, PATRICE won her crown in major league competition — the top 50 exponents of charm, poise and talent of the entire United States were vying for it.

★ ★ ★

In addition to the priceless honor of topping the field, there are many more awards in store for the 17-year-old winner — a $6,000 college scholarship, extensive travel opportunity and various prizes.

The Pontiac Jaycees also rate a congratulatory pat on the back, since the local chapter won a third place award at the national pageant for the high quality of last month's contest staged at Northern High School.

★ ★ ★

It was indeed a glamorous and wholesome time for some of Michigan's finest young people.

Groggy World's Fair Back for Second Round

The $1-billion New York World's Fair reopens on April 21 after a winter's hibernation.

But the hibernation was not marked by the deep and peaceful slumber generally associated with such comatose state.

Indeed about the only comatose feature of the fair was the layout itself. Those entrusted with awakening it put in a busy and turbulent winter.

★ ★ ★

Contrary to the history of such international bazaars in America, the one currently mounted in Flushing Meadows has been a flop. New York, long the holder of a reputation for doing things in a big way—with success pretty much taken for granted — has lived up to its billing with respect to the fair. But with a reverse twist.

Last year, the combination of unfavorable weather in the opening weeks, some pretty inept publicity regarding the scarcity of hotel accommodations, civil rights disorders, delayed completion of many attractions and unreasonably high prices in some sectors got the fair off to a crying start.

Last year's projected attendance of 40 million wound up at 27.1 million. It is hoped to boost attendance for this year to 37.5 million from the 30 million originally programmed.

★ ★ ★

With the fair corporation $17.5 million in the red and its creator and boss, the controversial ROBERT MOSES, under fire, there is much dissention among the executive group.

And to further darken the picture, hotels report that fair-related reservations are running 40 per cent behind a year ago.

But with typical Bigtown flair, another $7 million is being pumped into the ailing extravaganza for refurbishment and new attractions. And with the U.S. now in its peacetime record boom, the fair may yet present a spectacle greater than any initially conceived—lifting itself by its own bootstraps.

Study of Stars Is Urged as Guide to Top Hitter

One of the signs of the times is the outpouring of pre-season statements by the ten managers of the American League clubs involved in the Press Annual Baseball Contest.

The conclusion to be drawn from said statements of the peerless pilots is that all ten clubs could win the pennant if in each case:

(a) Another reliable southpaw pitcher can be snared.

(b) An all-around utility infielder can be produced as a fill-in in emergencies.

(c) A long-ball hitter found whose homers should mean five more wins for the season.

(d) The team is spared the injury jinx that indubitably cost it the pennant last year.

This presents some pretty momentous possibilities. If, let's say, by some miracle

the prayers of each manager were to be answered, we could end up with all ten teams in first place.

Nothing quite like this has ever occurred in our great national pastime. True, the old Brooklyn Daffiness Boys succeeded in putting three runners simultaneously on third base. But that was a mere bagatelle—not even in the same league—with our threatened contingency.

Well, the Press contest presents no such complications. You don't even have to make a statement to enter the race.

Just take a gander at the rules below, another at your horsehide horoscope, after which you fill in entry form with name of hitter you think most likely to succeed in the business of leading the league come nightfall of May 16, and guestimate of his average.

And then DON'T DELAY sending it in. As Confucius said, "Contest entry that lay too long unsent sure to lay egg."

By the way, this year an extra $50 bond will be added to the $500 winning award if the entry is submitted on a Press entry form attached to a card. This is done to effect more entry uniformity and to facilitate handling by judges.

CONTEST RULES

1. Everyone is eligible to enter contest except Press employes and members of immediate families.
2. All members of families may submit entries, but are restricted to one each.
3. LEADING BATTER must be the AMERICAN League player, officially at bat 50 or more times, who leads league when contest closes with completion of Sunday, May 16, games.
4. Deadline for entries is noon, April 12, and they must be on hand at The Press. Those arriving later, even though postmarked prior, will not be considered.
5. Affix entries or facsimiles on cards (please do not enclose in envelopes) and address to newspaper's Baseball Contest. They may be mailed or deposited in Pontiac Press Huron Street drop box.
6. Entries will not be disqualified should players change clubs after submission.
7. Decisions of judges will be final on all questions relative to contest.

David Lawrence Says:

U.S. Dictatorship Not Impossible

WASHINGTON — Will the American Constitution — now being arbitrarily transformed by Congress and the Supreme Court without regard to the customary amending process — be utilized some day by a future president to build a dictatorship within a centralized government in Washington?

LAWRENCE

All the provisions of the Constitution could be subordinated and rendered obsolete by a series of statutes passed by a majority of both houses of Congress and signed by the president.

Only three provisions of the Constitution, for instance, really need to be invoked allegedly to justify an assumption of power by the federal government which could diminish, if not altogether wipe out, virtually all the rights of the states.

★ ★ ★

The three devices which are to a large extent in use already are as follows:

1. The phrase "to regulate commerce among the several states," as written in the Constitution, has been used by Congress to pass legislation controlling the business and economic affairs of the nation, irrespective of state lines, as well as the social life of the people.

This power is not only being asserted in housing, in education and in employment practices, but is being enforced through the granting or withholding of federal funds to particular localities.

2. The phrase "equal protection of the law" in the fourteenth amendment to the Constitution has already been cited as authority for intervening in any state where a local statute happens to be disliked by any pressure group which, through demonstrations or threats of violence, is able to gain the support of a majority in Congress.

3. The Fifteenth Amendment to the Constitution, which declares that the right of citizens to vote "shall not be denied or abridged" by any state "on account of race or color," now is being construed as giving to Congress the power to control the whole election process by passing a few laws. This could mean the removal of all qualifications for voting except those which happen to suit the party in power.

IN CERTAIN RESPECTS

These epochal changes are being put into effect in certain respects already, in disregard of the amending process prescribed in the Constitution.

But the argument made is that the methods are in keeping with "the spirit of the times" and that "the end justifies the means" because the objective is a worthy one.

Today it would be relatively easy for an autocracy to emerge in America.

★ ★ ★

The power of the chief executive permits him at his discretion to allocate large sums of the taxpayers' money to states which are cooperative and to refuse those sums to states which do not go along with the will of the chief executive.

CONTROLLED BY GROUPS

Members of Congress are submissive because their own elections are controlled by pressure groups whose power is bound to be increased as all voting restrictions are about to be removed.

President Johnson has already suggested that anybody over 18 years of age should be permitted to vote, irrespective of whether he or she can read and write.

Never in American history has so much power been concentrated in the federal government which is nowadays virtually directed by the one man who occupies the highest office in the land.

★ ★ ★

He can insure his own reelection by bestowing favors on the political bosses of the large cities, especially now that electoral votes of most states can be controlled by a few persons with powerful organizations behind them.

★ ★ ★

This has been made easier by the decisions of the Supreme Court compelling a reapportionment of the states, so that power will be lodged hereafter in the big cities and their bosses. It takes only a few such cities to control a majority of the electoral votes of the country.

Does Peking Troop Offer Contain Element of Bluff?

By STEWART HENSLEY

WASHINGTON (UPI) — The United States and Red China today appeared to be on a collision course over Viet Nam which could erupt into a major war — if Peking means what it says.

Red China's offer to send "our own men" to help the Viet Cong "annihilate U.S. aggressors" was met with strong reaffirmation of the U.S. determination to press the war against Communist guerrillas in the South and air attacks on North Viet Nam.

Officials said there was no change in the U.S. policy of gradually increasing pressure on the Communists until they end their efforts to overthrow the Saigon government.

Diplomatic observers felt, however, that the situation might not be as critical as it appeared on the surface.

★ ★ ★

The State Department declined to comment immediately. But officials privately gave the impression that they felt there might be a considerable element of bluff in the Chinese statement — at least at this point.

FOLLOWED APPEAL

The statement in the official Peking People's Daily that Red China was ready to send its own forces "whenever the South Vietnamese people want them," was made late in Peking yesterday.

It followed an appeal by the South Vietnamese Liberation Front, the political arm of the Viet Cong, for worldwide support of its struggle "to drive the United States" out of Viet Nam.

American intelligence sources reported there was no evidence of any Chinese troop movements in recent weeks to bolster strength in areas near Viet Nam. Nor has there been any appreciable increase in the supply of military equipment from Peking to Hanoi, they said.

The Chinese statement, in addition to offering men, promised "all necessary material aid, including arms and all other war material" to South Viet Nam.

Taken together, the Chinese Communist and Viet Cong statements gave officials here the impression of standard Red propaganda interplay.

Voice of the People:

Disagree With Editorial on Protesting Professors

We disagree with your editorial of March 20 in which you so strongly condemn the 47 protesting professors of the University of Michigan.

★ ★ ★

We do not necessarily agree with the professors' opinions of U.S. policies in Viet Nam, but we see nothing in their contemplated action that can be labeled "irresponsible, unpatriotic, rebellious and derelict."

★ ★ ★

Everyone has a right to protest something that may affect his future, the nation's and the world's. Their demonstration was going to be orderly and peaceful, which we think is a good pattern for demonstrators to follow.

Red Rocket Power Ahead of U.S.

BY RAY CROMLEY

WASHINGTON (NEA) — The booster rocket required for the Russians to perform their man-out-of-the-satellite-into-space feat was approximately the size of the rocket the United States will have ready for space use about 18 months from now.

The step-by-step improvements in Russian rocket power over the past four years indicate their work is moving ahead at about the same pace as United States rocketry.

CROMLEY

Seven and a half years ago the United States was about one and a half to two years behind the Soviet Union in the power of its space rockets. The United States is still one and a half to two years behind.

In these seven and a half years we have not gained on the Reds in booster power—a major prerequisite in going to the moon.

Scientists interviewed here see little likelihood we will gain on the Russians in this respect in the years just ahead.

Building more and more powerful rockets is such a costly and complicated business it is unlikely that the United States can reasonably speed up the Saturn V program much faster than it is going now.

This does not mean, for sure, that the Russians will beat us to the moon. Other things than rocket thrust are involved.

Recent Russian shots aimed at Mars and other points in space have shown an apparent weakness in command and control. There are signs the United States is considerably ahead of the Reds in this tricky field, so important in the moon operation.

★ ★ ★

There is evidence the Russians are also behind the United States in molecular electronics and other techniques for condensing large amounts of complicated circuitry into extremely small, light packages.

The Reds have been able, because of their ability to put larger satellites in orbit, to get by with less-sophisticated electronic apparatus. In going to the moon, however, weight will be at hairline premium. The Russians presumably will not have power to spare. They may run into difficulty meeting their miniaturization requirements on schedule.

The measure of which country is winning in the moon race will come when Russia and the United States attempt to rendezvous two satellites in space and transfer astronauts from one vehicle to another.

The United States will not be ready to try this feat for several years. If the Russians perform this intricate task first or by considerably superior techniques, scientists interviewed here say Russia will be virtually certain to beat the United States to the moon.

The frightening part of all this is not that the Reds might win the moon race. It's that after seven and a half years and the spending of billions of dollars, we've apparently not been able to gain on them in the key field of rocket power.

Suppose the Russians were able by a lucky research break to gain a two-year headway in some complicated decisive war weapon—perhaps a space-based weapon. We could not afford to stay two years behind.

National security demands that some way be found to speed up U.S. defense research and the development of research findings into workable hardware.

U.S. Suffers Propaganda Loss on Use of Gas in Viet

(EDITOR'S NOTE — News that the United States had provided a nonlethal gas for use against guerrillas in South Viet Nam has stirred a tempest around the world. John M. Hightower, chief of the AP's State Department staff, covers the situation in this news analysis.)

★ ★ ★

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON — The United States has suffered a worldwide propaganda defeat on the use of nonlethal gas in the Vietnamese war, and U.S. officials doubt that their counteroffensive now under way can fully overcome the damage.

Communist propagandists are expected to try to keep the issue alive in spite of vehement denials by Secretary of State Dean Rusk that the United States has engaged or ever intended to engage in gas warfare in Viet Nam.

★ ★ ★

A more serious problem, officials here believe, is that in allied and neutral countries some residue of suspicion is likely to remain in the minds of many people because denials and explanations seldom catch up with an initial blunder.

One result of all this may be a strong reluctance on the part of military commanders in Viet

News Analysis

Nam to use nauseous gases hereafter against guerrilla-infested villages in South Viet Nam.

MORE HUMANE

The use of tear gas in such cases is officially considered more humane than bombings and gunfire, but the cost in worldwide public opinion now has to be considered.

That there was a bad blunder in the way the news initially was disclosed last Monday is generally agreed among Johnson administration leaders. An Army spokesman in Saigon said that there had been some experimental use of nonlethal gas against Red guerrillas. The gas was described as temporarily disabling. It was not sharply defined as the kind of gas sometimes used by police forces over the world against rioters.

★ ★ ★

The announcement touched off a worldwide furor which brought criticism and denunciation of the United States. Questions were raised as to whether the United States was violating a 1925 Geneva agreement outlawing gas warfare. Communist radios in Moscow and the Far East accused this country of barbarity and brutality.

The storm hit official Washington with stunning surprise. Apparently no one in high position had foreseen such an uproad or given any serious thought to the danger of raising the specter of gas warfare when various types of riot-control gas were sent to the South Vietnamese forces in mid-1962.

An initial explanation from the Pentagon began to develop the idea that riot-control gases were those actually involved, but it took more than 24 hours to mount the U.S. counteroffensive.

On Tuesday Secretary of Defense Robert S. McNamara held a news conference to say that the gases used were essentially police-type tear gas and that they had been employed to save the lives of civilians among whom guerrilla fighters had taken refuge. He emphasized that the gases had been used only on two or three occasions.

★ ★ ★

McNamara said the British had used such gases on Cyprus in 1955.

It was not until Wednesday, however, that Rusk held a news conference to come to grips with the main issue as it was finally defined here — the question whether the United States was in fact launching gas warfare against the Viet Cong.

GAS WARFARE

"The shadow of gas warfare has been raised in connection with these incidents," Rusk said. "That is not involved. We are not embarking upon gas warfare in Viet Nam."

As to future use of tear gas, Rusk said, "no new directives has been issued" to countermand authority to use it.

★ ★ ★

But he added: "The anticipation is, of course, that these weapons will be used only in those situations involving riot control or situations analagous to riot control."

Even as Rusk spoke, the U.S. effort to explain its position was beginning to show some effect. In London, three leading newspapers defended the employment of tear gas. At the Capitol here, after getting an explanation from McNamara, several senators spoke out to defend what had happened.

OVERCOME GUERRILLAS

Sen. J. W. Fulbright, chairman of the Senate Foreign Relations Committee, said use of tear gas to rescue captured Americans from the Viet Cong, or to overcome guerrillas hiding among Vietnamese civilians was justified.

Sen. Bourke B. Hickenlooper, R-Iowa, declared: "I think its use was more humane than the use of explosives in those instances and was perfectly justified."

"Any implication that our country used poison gas or intends to do so," said Sen. Frank J. Lausche, D-Ohio, "is a complete falsehood."

What caused the storm of protest?

FORCES INVOLVED

Several forces seemed to be involved:

1. A general fear in many foreign countries that the United States is expanding the conflict in Viet Nam toward a major war with Red China.

British Foreign Secretary Michael Stewart, whose government supports U.S. defense of South Viet Nam, asked President Johnson Tuesday to explain a statement attributed to U.S. Ambassador Maxwell D. Taylor in Saigon that there was no limit on escalation of the fighting. Johnson is said to have replied that U.S. actions would be measured, fitting and adequate to meet Communist aggression.

The U.S. position is that the Communists are forcing expansion of the war with their operations in South Viet Nam. But no one can give any guarantees how far the Communist operations and U.S. counterattacks on North Viet Nam will go. Each new development on the U.S. side is likely to provide a focus for protests by those who would like to have the United States make peace quickly in order to avoid greater conflict.

★ ★ ★

2. The effort of Communist countries to discredit and undermine the whole U.S. policy in Viet Nam, as a means of swinging public opinion against it. Washington officials recall that during the Korean conflict Communists accused the United States falsely of waging germ warfare. They expect Communist officials, press and radio to try to turn any American action against this country, and especially to exploit any U.S. mistake of policy or propaganda.

3. A deep-rooted horror of gas warfare, dating back at least 50 years to the use of gas by the Germans in World War I.

FIRST USE

The Germans first employed gas against French and British troops on April 22, 1915. They used chlorine gas, according to military records. Mustard gas, which was the type most commonly used in World War I, was largely responsible for one-third of the 272,000 casualties American troops suffered in the war.

A ban on Germany's possession or use of asphyxiating, poisonous or other gases for military purposes was written into the Versailles Treaty which formally ended the war. But that was not the first treaty prohibition against gas warfare. Earlier and more general provisions to outlaw gas as a weapon had been included in treaties in 1899 and 1907.

★ ★ ★

In 1925 an international conference at Geneva wrote the international agreement which stands as the main document on this subject in international law today. The agreement was defined as a "protocol for the prohibition of the uses in war of asphyxiating, poisonous, or other gases, and of bacteriological methods of warfare." The agreement was signed by the United States among others but was never ratified here and is not legally binding on this country.

U.S. officials say, however, that the treaty's prohibition of gas warfare and its statement that use of gas weapons "has been jointly condemned by the general opinion of the civilized world" has been in line with American policy on the subject. The legal argument advanced by officials in the present situation is simply that tear gas is different.

The U.S. legal case rests on the contention that the kind of gases used in piet Nam, generally classed as "tear gas," have become in modern times a common and customary police method of dealing with riots. What is common and customary in civilized countries, officials say, is generally accepted under international law as being legal. Rusk hit on this point in his news conference.

"We are not talking," he said, "about a gas that is prohibited by the Geneva Convention of 1925, or any other international understandings about the use of gas; we are talking about a gas which has been commonly adopted by the police forces of the world as riot-control agents."

Rusk also touched briefly on another point which seems to baffle officials here. That is: Why is world public opinion so sensitive to what the United States does in Viet Nam but seemingly so indifferent to what the Communists do?

★ ★ ★

While insisting that gas had been used in a few instances essentially to save lives where explosives would have taken heavy casualties, Rusk also said that during 1964 the Communists killed more than 400 South Vietnamese civilian officials and kidnaped more than 1,000. Among other civilians, he said, 1,300 were killed and more than 8,000 kidnaped.

"Those who are concerned about tear gas," he said, "I would hope would be concerned about those facts."

PAINTING BRINGS $350,000 — A painting by Rembrandt of his wife, Saskia, represented as Minerva, was sold for $350,000 at a sale of old masters at Sotheby's in London yesterday. The art was sold by the estate of the late Dr. Axel Wenner-Green, Swedish financier, to Julius Weitzner of New York and London.

News Briefs From Nation's Capital

Ball to Confer With NATO Officials in Paris

WASHINGTON (AP) — Undersecretary of State George W. Ball will spend two days in Paris next week conferring with officials of the North Atlantic Treaty Organization and representatives of other NATO countries.

The State Department, announcing Ball's trip Wednesday, said the undersecretary would go from the Paris talks to a meeting of the unofficial Bilderburg group on Atlantic community affairs at Villa d'Este, Cernobbio, Italy.

★ ★ ★

Informed sources described the Paris meetings March 31 and April 1 as one of a series of high-level Atlantic alliance conferences on problems apart from those directly in the NATO defense zone.

Among them are such things as Cyprus, Viet Nam, the Congo and the Middle East. Problems within the alliance such as nuclear strategy and the sharing of nuclear weapons are to be deferred until the spring meeting of the NATO Council of Ministers in London in May.

★ ★ ★

Ball is to leave Washington Tuesday, the department said.

WASHINGTON (AP) — The White House has announced President Johnson plans to appoint Fred M. Vinson, son of the late chief justice, as assistant attorney general in charge of the criminal division.

Wednesday's announcement also said Johnson will name Edwin L. Weisl Jr., son of New York's Democratic national committeeman, as assistant attorney general in charge of lands division.

Weisl, 35, of New York City, will succeed Ramsey Clark, who was appointed deputy attorney general recently. Clark is the son of Supreme Court Justice Tom C. Clark.

Weisl and his father both served on the staff of the Senate Preparedness subcommittee in 1957 and 1958 when it conducted hearings that led to establishment of the Senate and House Space Committee. The preparedness subcommittee was headed at that time by Sen. Lyndon B. Johnson.

Vinson, 39, of Washington will succeed Herbert J. Miller, who is returning to private practice in Washington. His father, Fred M. Vinson, was chief justice of the United States from 1946 until his death in 1953.

WASHINGTON (AP) — High school principals consider citizens and parents groups and sports-minded alumni as the most active in exerting pressure to change school programs.

★ ★ ★

This was the result of a survey of some 16,000 principals conducted by the National Association of Secondary-School Principals, a department of the National Education Association.

Church-State Argument Envelops School Aid Bill

WASHINGTON (UPI) — The House was up to its ears today in a church-state argument that could mean trouble for President Johnson's $1.3-billion school aid bill.

As the House started its second day of debate on the high priority bill, opponents felt confident they had made inroads into the apparent solid majority favoring the administration measure.

Supporters conceded nothing. Several privately bemoaned the confusion that appeared to grip the bill's managers when the hard questions started coming on the House floor.

But they insisted that they still had the votes to pass the bill.

The debate centered on the $1.06-billion portion of the bill designed to improve the education of children from poor families.

RELIGIOUS ISSUE

The religious issue also arose on the $100-million proposal to buy books and a $100-million aid plan for construction of "shared time" teaching facilities for public, private and parochial students.

Opponents said the administration's "poverty education" plan was so loosely drawn that it was impossible to tell what, if any federal aid would go to nonpublic schools or their students.

"Supporters of this bill are trying to make it appear to some persons that we are giving aid to private schools and to others that we aren't," Rep. Albert H. Quie, R-Minn., charged.

Rep. William H. Ayres, R-Ohio, said the opponents would aim their fire today at the controversial formula by which aid for poor children would be distributed.

OPPOSITE END

Ayres has charged that under the administration plan "the rich get richer and the poor get very little."

Of all the Englishmen who drink gin... how many drink Gordon's?

Most of them. And it's been that way for years. To be blunt about it, Gordon's is England's biggest selling gin—as it is America's and the world's. Why? Probably because we have always refused to tamper with a good thing. Gordon's still harks back to Alexander Gordon's original formula — conceived in London 195 years ago— so its distinctive dryness and delicate flavour remain unchanged and unchallenged to this day. Ask for Gordon's by name.

Miffed Romney Defends Guard Hearing, Denies 'Improperly Constituted' Charge

LANSING (AP)—Gov. George Romney reacted sharply Wednesday to a defense attorney's statement that his hearing for two suspended National Guard generals is "improperly constituted."

* * *

Romney, who has listened to 53 hours of proceedings thus far, also called it "a heck of a situation where a governor has to set through a hearing like this in a position with respect to the military."

He added: "I hope this hearing makes the legislature and other people see the need to revise the laws so that it won't be imposing on the governor of this state what is being imposed."

Romney is hearing gross neglect of duty charges against Maj. Gen. Ronald McDonald and Brig. Gen. Carson Neifert.

The hearing goes into its 11th day Thursday with state attorneys still presenting the charges.

His word exchange with Thomas McAllister, McDonald's attorney, began after McAllister attempted to introduce a piece of evidence which he said was aimed at discrediting testimony of a key witness.

During the exchange, McAllister said: "I have contended all along that this hearing is improperly constituted." He has maintained McDonald should have been tried in a military court-martial.

"These are not military matters," Romney replied. "The question is whether they complied with statutes and regulations in administrative actions."

PROCEDURES

On the witness stand was Lt. Col. John Brown, who has testified he warned McDonald and Neifert about violations of rules or spending procedures.

Romney has said accusations by Brown touched off the auditor general's investigation which led to dismissal of McDonald and Neifert.

* * *

Brown was dismissed by Neifert Oct. 8, 1963, and reinstated by Romney Oct. 8, 1964 — the same day McDonald and Heifert were relieved of duties. Romney said the auditor general's report substantiated about 75 per cent of the accusations Brown made.

McAllister attempted to introduce the report of a military board of inquiry which upheld Brown's dismissal.

* * *

Romney said when the board acted, the auditor general's investigation had not yet been completed.

In his call for revision of state military laws, Romney said: "The fact that the governor of this state has to conduct a hearing of this type for men serving under him on whether they should continue under him is some indication of whether there should be a reorganization of the National Guard of this state."

Soviets Orbit Cosmos

MOSCOW (AP) — The Soviet news agency Tass announced the Soviet Union launched the 64th satellite of its Cosmos series today. These are unmanned devices instrumented for space exploration.

State governments collected a total of 24.2 billion dollars in their 1964 fiscal years.

State Senator Sees Limit on Exemptions for Aged

LANSING (AP) — The Senate Taxation Committee will slap an income limit or means test on the House-approved senior citizens property tax exemption bill, Chairman George Fitzgerald, D-Grosse Pointe, said Wednesday.

Showing no inclination to rush the bill through as was done in the House, Fitzgerald scheduled a public hearing on the measure and said an investigation is necessary to determine if technically the bill is constitutional.

★ ★ ★

The committee was told by the State Revenue Department that the home-owners exemption portion of the bill would cost an estimated $17.9 million.

The committee hoped to receive today an estimate of how much the renters' exemption portion would cost.

COST GUESS

House sponsors pegged the over-all bill cost at $21 million. Other guesses ranged to $40 million.

Fitzgerald said the committee was unanimous in its belief that the exemption should be granted only to those who need it. The bill as passed by the House contains no means test or income limit.

★ ★ ★

"You've got to draw a line between the person who needs relief and the one who doesn't," said Fitzgerald. "Otherwise it's ridiculous."

He said the committee did not discuss where the line should be drawn, nor did it get into other dollar specifics of the measure.

QUESTION

The constitutional question, he explained, arises from granting both owners and renters an exemption in a property tax bill.

The constitution says that "no law shall embrace more than one object which shall be expressed in its title."

★ ★ ★

Fitzgerald said if preliminary research shows a likely conflict, he will probably seek an attorney general's opinion.

★ ★ ★

He said there would be no bar to granting the renters' exemption in a separate bill.

Any change in the measure means, however, that the bill will have to return to the House for concurrence in amendments.

SOME DECAY

This will delay its arrival on Gov. George Romney's desk. He is awaiting on about April 15 a report from his study commission on senior citizens property tax relief and has said there is no reason for the legislature to pass a bill before his report is available for consideration.

★ ★ ★

Fitzgerald set a public hearing for 11 a.m. Saturday at St. Clair Shores City Hall. He said hearings tentatively set for April 3 in Saginaw and April 5 in Mount Clemens probably would not be held.

More British Help Asked by Israel Leader

LONDON (AP) — Prime Minister Levi Eshkol of Israel today called on British government leaders for more financial support to help ease the Israeli economic strain caused by heavy defense commitments.

★ ★ ★

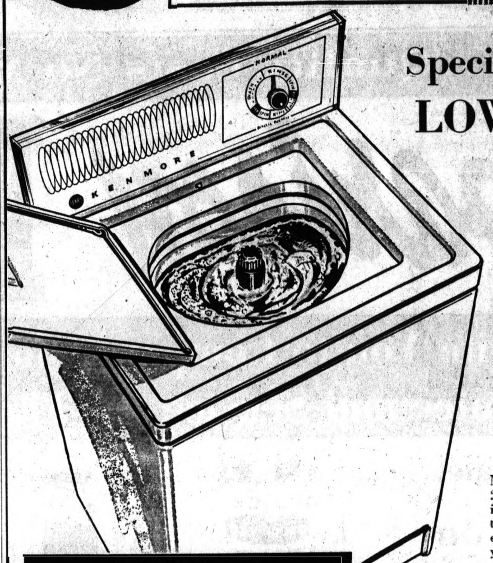

Diplomatic sources said that in his discussions with Deputy Prime Minister George Brown, Eshkol underlined that it was also up to Britain to boost imports from Israel and help redress its balance of payments deficit with this country.

People in the News

By The Associated Press

West German Mayor Willy Brandt said today he favors more intensive sports contacts with East Germany.

"Sports is an important bridge for the people of (divided) Germany . . . sports meetings between all Germans should be encouraged," Brandt said in an 11-page memorandum to a German reunification organization, the "Indivisible Germany Trust."

BRANDT

Brandt, leader of the Social-Democrat party, defended his city's agreement with East Germany whereby West Berliners are permitted to cross the Communist-built wall four times a year to visit relatives in East Berlin.

Nine out of 10 West Germans and West Berliners supported the agreement and favored continued East-West "technical talks," Brandt said.

"The German split continues, and no one can mark the day of reunification," he said.

Syngman Rhee Hospitalized for Birthday

RHEE

Syngman Rhee, the former president of the Republic of Korea, is bedridden and paralyzed in a hospital on the eve of his 90th birthday.

Rhee has been a patient at the Maunalani Hospital for more than three years. His doctor says he is immobilized and unable to take part in any physical activity at all, but "He is very well taken care of and comfortable."

Specialist on Way for 'Burma Surgeon'

A Burmese heart specialist was flying today to the hill town of Namhkam to treat Dr. Gordon Seagrave, the famed "Burma Surgeon," with special equipment flown from Bangkok.

SEAGRAVE

Seagrave was reported in a coma in his jungle hospital 800 miles north of Rangoon. It is five miles below the Red Chinese border.

Tun Shein, Seagrave's administrative assistant, told newsmen in Rangoon the 69-year-old doctor could not be moved.

"He goes into a deep coma and wakes only for a few minutes," he said.

U.S. Ambassador Henry Byroade told a news conference Seagrave was suffering from congestive heart failure. His condition worsened last Thursday after he had observed his 68th birthday.

Leftist Regime Ends in Ceylon

Pro-Western Leader Forming Government

COLOMBO, Ceylon (AP) — Mrs. Sirimavo Bandaranaike's five years of leftist rule in Ceylon ended today. Dudley Senanayake, a pro-Western conservative, began forming a new government.

* * *

Mrs. Bandaranaike, the world's only woman prime minister, resigned because of her Freedom Party's defeat in the parliamentary elections Monday. It ran second with only 41 of the 151 seats.

Although Senanayake's United Nationalist party was 10 seats short of a majority with 66, he claimed the support of 90 members today.

The new government is expected to move quickly to improve relations with the United States and other Western nations.

* * *

Its first task in this sphere is to clear up claims by American and British oil firms whose properties were expropriated by Mrs. Bandaranaike in 1962.

AID HALTED

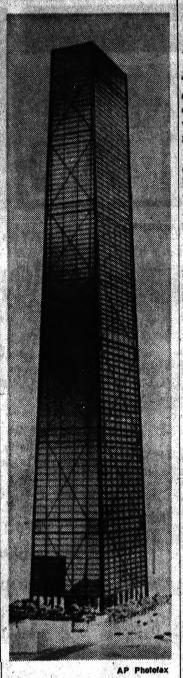

The United States halted economic aid in retaliation but now appears willing to resume if Ceylon compensates the oil firms.

Senanayake, 53, and a prime minister twice previously, promised to ensure religious freedom, one of the hottest campaign issues.

He also appealed to workers to help him take Ceylon through the "critical times" it faces.

* * *

Mrs. Bandaranaike, 49, took over the government after the assassination of her husband, Prime Minister Solomon Bandaranaike.

AP Photofax

SKYSCRAPER — This is a sketch of a proposed 100-story residential-commercial building to rise on North Michigan Avenue in Chicago. The John Hancock Center, costing $95 million, is being financed by the John Hancock Mutual Life Insurance Co. The building is scheduled to be completed in 1968.

Oranges are the most popular of the fresh fruits with bananas second and apples third. Peaches are the most popular of the canned fruits.

Electron Beam Makes Scientific History

BACKGROUND OF THE NEWS — AP SPECIAL REPORT

STANFORD, Calif. (AP) — Testers fired Stanford's big electron gun the other day when only one-fifteenth of its barrel was in place. The shot made scientific history.

The first 666-foot section generated an electron beam of 1.3 billion electron volts — BEV — the highest energy of any linear accelerator in America. It's already the longest.

* * *

When completed next summer, the new tool for exploring the nature of matter will be almost two miles long and will fire a 20-BEV beam of electrons to rip holes in the curtain of unimaginably minute subnuclear matter.

Considered as a "microscope," the accelerator will enable the physicist to study subparticles only one-thousandth of one-billionth of an inch long that exist for less than one-billionth of a second.

$114-MILLION

Its $114-million price tag makes it the most expensive piece of research apparatus ever financed by the federal government.

The Stanford Linear Accelerator Center — SLAC — will cost about $20 million a year to operate. Its electric bill alone will run about $2 million, for it will consume as much power as nearby Palo Alto, population 56,000. The complex will employ 1,000 persons.

* * *

The dime-sized beam will have no other use than research.

Stanford University's contribution to the project has been know-how and 480 acres of university land. The university team of high energy linear accelerator builders — science's most experienced — conceived and designed the machine, and is supervising its construction.

SHAKEDOWN

The accelerator will be put into continuous operation early in 1967, after a six-month shakedown, as a national facility open to physicists from all over.

* * *

A 10-member program advisory committee — only two members are from Stanford — will help director Wolfgang K.H. Panofsky screen and schedule proposed experiments.

* * *

The U.S. Atomic Energy Commission — meaning the taxpayer — is footing the bill for both construction — authorized by Congress in 1961 — and operation.

The barrel of the gun is a baffled four-inch copper pipe. Adjustable mountings will keep its 10,000-foot length in near-perfect alignment.

CONCRETE TUNNEL

The accelerator is housed in a steel-reinforced concrete tunnel buried 25 feet deep to guard against radiation.

What will be learned? Nobody really knows.

But Panofsky says:

"We cannot afford to be ignorant of the most fundamental type of structure on which everything else depends. In high energy physics you have to have bigger and bigger machines to see smaller and smaller things."

Experimentation in high energy physics, says AEC Chairman Glenn T. Seaborg, "probably will lead to some of the most important theoretical and perhaps then the most practical developments of our age."

Shipping Delayed on Great Lakes

CLEVELAND (AP)—The Great Lakes shipping season will be delayed a few days because of ice, but shippers still have a tentative opening date of from April 1-15, the Lake Carriers' Association ice committee reports.

The committee heard report Tuesday from the Weather Bureau and the Coast Guard.

Thick, snow-covered ice is a problem in the northern Great Lakes, the committee said, and the weather outlook for the next five or six days is bad.

the SILK LOOK *by famous* BOTANY

at surprisingly low prices

Great color—in a great new look for undergrads and under. A fabric with the lustrous, iridescent slub of silk, but with more vitality and bounce—and at a much more modest price. Botany—one of our leading makers—tailors it in two versions: as a suit, and as a color-coordinated duo of coat and contrasting slacks. Both are cut in a slim two-button style, with a cutaway jacket, side vents, and tapered plain-front trousers. The suits are here in jet black, antique gold, French blue, and azure blue; the duo in cherry red or canary gold, with jet black trousers. And the price? Most surprising. Sizes 6 to 14, at *$25*. Sizes 15 to 20, at *32.50*. Sizes 35 to 42 regular and long *39.95*.

GOP Progressives Quietly Shrouding Rocky, Nixon

WASHINGTON (AP) — Republican progressives are quietly trying to pool their forces in an early-bird effort to block Gov. Nelson A. Rockefeller and Richard M. Nixon from the 1968 GOP presidential nomination.

At the moment, Sen. Jacob K. Javits, R-N.Y., is taking the lead in attempts to convince fellow progressives that, unless they merge their resources, they could end up three years from now in the kind of situation they encountered in 1964 when Barry Goldwater won the nomination.

Javits has let it be known that, while he would be willing to campaign for Rockefeller's reelection next year, he will not support any bid the New York governor makes for the 1968 presidential prize.

Javits thinks Rockefeller can't win the nomination. The New York senator fears that, if the governor gets into the race, other progressives would be reluctant to split the vote with him in primaries in which a more conservative candidate was entered.

★ ★ ★

Javits and others feel that by staying in the race until almost the last moment in 1964, Rockefeller made it impossible for any other progressive to get enough traction to compete with Goldwater.

SHARES VIEW

Gov. William W. Scranton of Pennsylvania, who made a belated and futile attempt to turn the Goldwater tide, obviously shares this view. He, Javits and others don't want this particular bit of history repeated in 1968.

Among the progressives, there is general belief that Nixon, the 1960 nominee, is the heir-apparent of Goldwater's conservative strength within the party.

Goldwater himself has indicated he thinks Nixon, who campaigned for him last year when Javits and others did not, is the leading possibility at this time for the 1968 nomination.

★ ★ ★

Javits and Sen. Thomas H. Kuchel, R-Calif., have some personal political interest in getting the progressives lined up behind a candidate from their wing of the party. Presumably both will be running for reelection in 1968 and neither believes that either Rockefeller or Nixon could carry his state against President Johnson.

★ ★ ★

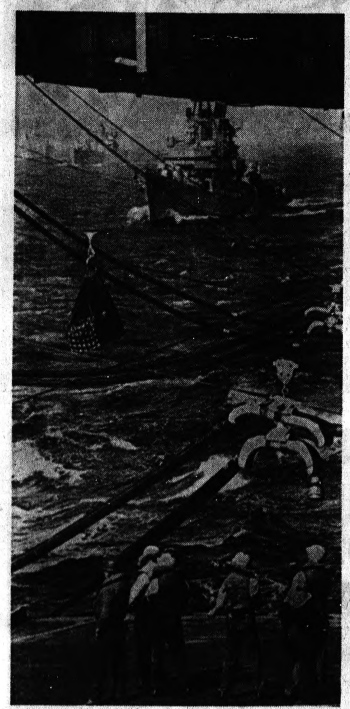

Kuchel is toying with the idea of running for governor of California. If he should win that post, his would be a major voice in deciding on the presidential nominee. But whether he is governor or senator, there is not much doubt that he would back someone other than Nixon or Rockefeller.

★ ★ ★

Javits, Kuchel, Scranton, Sen. Clifford P. Case, R-N.J., and Gov. George Romney of Michigan have talked separately and informally with each other recently about the party's future course.

★ ★ ★

It was emphasized, however, that there has been no discussion of any particular candidate. All concerned apparently agree on who they are against. But who they will be for can wait until some time in 1967.

AP Photofax

TAKING ON SUPPLIES — The carrier USS Ranger takes on fuel and supplies in the South China Sea from the USS Sacramento (out of picture, at left). The ship is part of the 7th Fleet supporting operations in Viet Nam. Moving into position is the guided missile destroyer USS Strauss and other vessels. This photo was taken earlier this month.

Ruby's Appeal Case Delayed

NEW ORLEANS (UPI) — A month-long roadblock was sitting in the route of Jack Ruby's appeal today.

The block was tossed in the way yesterday by the U.S. 5th Circuit Court of Appeals, which set an April 20 hearing date on a request by Detroit attorney Sol Dann to have Ruby's case moved from the state courts to a federal court.

Dann is the Ruby family lawyer.

The hearing will be held by a special three-judge panel of the Appeals Court in Jacksonville, Fla.

Dann's request is the second attempt to have Ruby's case moved out of the Texas courts. An attorney for the Civil Liberties Union went before U.S. Dist. Judge T. Whitfield Davidson in Dallas last week with a request to have Ruby's planned sanity trial moved to a federal court. Davidson refused.

All state action including the sanity trial, has been postponed until the appeals court makes a final ruling.

Ruby faces death for the murder of presidential assassin Lee Harvey Oswald. The first arguments before the Texas Court of Criminal Appeals were scheduled earlier this month, but they were postponed until the question of Ruby's sanity is determined.

Morocco Troops on Guard to Halt New Strike, Riots

CASABLANCA, Morocco (UPI) — Moroccan troops wearing steel helmets and supported by tanks and armored cars guarded government buildings in Casablanca today to prevent a recurrence of rioting which killed at least eight persons and injured approximately 70 others. The city was calm.

Order also was restored in Fez, where an additional 60 persons were injured yesterday, and in the capital of Rabat, where minor scuffling between police and students broke out.

The riots, which started as a student protest against cuts in some school courses, spread to unemployed workers who obeyed a call for a general strike by their union leaders yesterday.

The rioters damaged several buildings and a number of vehicles in this ancient port city during 48 hours of violence before order was restored.

Telephone communications and telecommunications between this north African country and the outside world, cut off for approximately 24 hours, resumed a little before noon (6 a.m. EST) today.

SHOPS OPEN

Life in Casablanca returned to normal, with shops and offices open for business once again. A dusk-to-dawn curfew was still in effect, however.

Several incidents were reported last night. One policemen was reported killed by soldiers in the Medina, scene of the worst rioting, when a police car failed to stop on orders.

Seven other persons were reported slightly wounded when they failed to respond to challenges by other sentries.

An earlier government communique said seven demonstrators between the ages of 30 and 60 were killed during the rioting.

NOT STUDENTS

The government apparently underscored the ages to bolster the point that the student demonstrations had been taken over by others.

Strong forces of soldiers and police were called out in Rabat yesterday to quell demonstrators who threw stones and scuffled with police. But the incidents were reported not serious.

Schools in Rabat remained closed, with students either on strike or kept home by their parents to avoid trouble.

In Casablanca, 25 rioters were fined and sentenced to prison for two months at a summary trial last night.

Schools reopened this morning, but most parents kept their children home.

Cars and buses were set afire during the height of the riots in this city. Mobs ripped paving stones out of the streets and hurled them through shop windows.

The Moroccan Embassy in Paris said last night the demonstrations started peacefully on Monday as a protest against cuts in secondary school terms designed to open up more classes.

★ ★ ★

But the embassy charged "subversive elements" took over the demonstrations Tuesday and fanned them into full-scale riots which resulted in the arrest of 168 persons.

AGITATORS RIOT

"Agitators . . . set fire to city buses, long distance buses and private cars, sacked store display windows, schools, post offices, dispensaries, nursing schools, the bank and the railroad station," the statement said.

"Troublemakers desperately tried to attack the prison in order to liberate the detainees to use them for their own purposes," it continued.

The communique reported the situation "well-in-hand" later.

AP Photofax

RESCUED BY FIREMEN — An unidentified apartment dweller is lowered to the ground by Philadelphia firemen who carried her down the ladder from the ninth floor of the blazing building. Twelve others were rescued in a similar fashion.

Too Many Viet 'Cooks' Spoiling Strike Success?

WASHINGTON (AP) — Advance tip-offs may have reduced the effectiveness of some U.S. and South Vietnamese air strikes against targets in Communist North Viet Nam, sources said today.

They said there is reason to believe that South Vietnamese Communist agents and sympathizers have been able to obtain information on impending strikes and to radio word to North Viet Nam.

★ ★ ★

One official said "there are too many hands" involved in preparing the strikes.

This makes it easier for Viet Cong adherents in the South Vietnamese government, military and communications structure to get wind of the operation being planned, he said.

CAREFUL SCREENING

Sources said U.S. authorities had been urging the South Vietnamese government to screen its personnel more carefully and stringently.

Although much official communication is conducted over military radio, safeguarded by various means, some concern was expressed here about the use of telephone lines and their vulnerability to tapping.

★ ★ ★

Security breaches have bedeviled operations inside South Viet Nam from the beginning. Big scale helicopter-borne attacks have been compromised by Viet Cong agents learning of them and warning the guerrillas.

There have been 11 announced U.S. and South Vietnamese air attacks against military targets in North Viet Nam since Feb. 7.

HEAVIER CASUALTIES

Generally, these strikes have been described as successful. Defense officials have claimed better than 70 per cent destruction of some objectives and in certain cases virtual obliteration of ammunition depots, barracks and other installations.

★ ★ ★

However, some military officials here feel that heavier casualties might have been inflicted on North Vietnamese soldiers if they had been caught by surprise.

★ ★ ★

There is little reliable information here on the number of North Vietnamese killed in the air strikes.

But many officials doubt the toll was very high. They believe the soldiers were forewarned enough to leave the barracks areas and take cover.

2-Plane Crash Kills 7 Fliers

MANILA, Philippines (AP) — Two U.S. Air Force planes collided in flight today, killing the seven men aboard, Clark Air Base reported.

The collision took place near the U.S. base north of Manila.

★ ★ ★

The twin-engine C47 and the T39, a passenger-cargo jet, crashed and burned in an uninhabited area about a mile east of the base runway.

"There were no survivors among the five officers and two enlisted men aboard the two aircraft," an Air Force spokesman said.

NAMES WITHHELD

The names of the victims were withheld until their families were notified.

★ ★ ★

The Air Force opened an investigation.

Diamonds Enlarged to Show Beauty and Detail of Design

America's last passenger pigeon died on Sept. 1, 1914, in the Cincinnati Zoological Gardens.

It is now on display with about 20 other extinct birds at the Smithsonian Institution.

The Arabian peninsula is drifting away from Africa. The drift began more than 20 million years ago and continues at a rate of two centimenters a year.

American men now average 5 feet 10 inches, 2 inches more than in 1900.

Story of Late Fanny Brice

'Funny Girl' Success Grows

By HAL BOYLE

NEW YORK (AP) — Ray Stark may become the first man in history to become a millionaire by investing in the memory of his mother-in-law.

BOYLE

"I can't think of anyone else who made money that way," said Stark, grateful son-in-law of the late comedienne, Fanny Brice.

A year ago he launched on Broadway "Funny Girl," the musical based on Miss Brice's career. Starring Barbra Streisand, it cost more than $650,000 — the largest amount up to that time ever spent on a Broadway show.

★ ★ ★

In the 12 months since then it has turned the profit corner and grossed in the neighborhood of $5 million, not including the sale of recordings.

Two road companies and a London production are planned and, of course, a film.

VICE PRESIDENT

As executive vice president of Seven Arts Productions, the 49-year-old, sandy-haired producer will supervise the shooting of 16 films here and abroad this year.

Ray entered Rutgers University at the age of 14½ and three times was thrown out for inattention to his studies.

★ ★ ★

After toiling briefly as a copy boy and cub reporter here, he drove to Hollywood, sharing his battered auto with a 67-year-old woman to save expenses. There, he worked successively as cemetery florist, vacuum cleaner salesman, studio hand, and magazine editor.

Then he became a highly successful Hollywood agent.

90 PER CENT

"But the actors were getting 90 per cent, and I was making 10 per cent," Stark recalled. "So I decided to make a stab at the 90 per cent."

The idea of building a story around his mother-in-law, Miss Brice, the famed "Baby Snooks," came to him more than 10 years ago. He is married to the comedienne's daughter, Frances. They have two children.

★ ★ ★

"I adored Fanny," he said. "She was such a strong dame. We all still miss her terribly."

The romance and marriage of the strong-willed Miss Brice and her equally strong-willed husband, gambler Nicky Arnstein, which became a tabloid saga, is the basis of "Funny Girl."

EARLY REHEARSALS

During early rehearsals Ray, who also was simultaneously making a film in Mexico, broke his leg in a skiing accident. He attended the first night on crutches.

How does he feel now about his mother-in-law?

★ ★ ★

"Well, I could have gone down the drain financially very easily," he replied. "I still wake up at night with nightmares.

"Fanny put me in one hell of a hole — but she pulled me out of it. But I like to think she'd love the show herself, and she was a real pro."

Suggestions Offered to Prolong 'Brand New' Look of Your Car

The key to receiving the top price for your automobile when you trade it in is in the care you give it from the day you bring your new car home for the first time, according to Gary B. Hogan, national used car manager for Pontiac Motor Division.

★ ★ ★

Hogan pointed out several important items which, if attended to when the car is new, will give the owner more pleasure as he drives it and will prolong the "brand new" appearance, making it move vaulable at trade-in time.

He listed these items:

● Purchase the proper color of touch-up paint and use it to cover minor scratches and nicks before they develop into possible trouble-some rust areas.

● Keep the car clean and bright by washing it every other week and waxing it periodically. Waxing is particularly important in the spring as it protects the finish against dust and abrasive dirt left over from winter.

● Take your car back to your dealer for recommended guardian maintenance and engine tune-ups.

★ ★ ★

A dry cloth or dry paper towel should not be used to lean the windshield, Hogan pointed out.

'DRY CLEANING'

Such constant "dry cleaning" will fill the windshield with minute scratches, making it look old before its time.

Several tips to keep in mind when it comes time to trade in a car were also listed by Hogan.

The entire inside of the car should be vacuumed and the trunk cleaned. Floor covering should be cleaned and torn mats replaced.

★ ★ ★

A quality cleaner, either for vinyl or cloth will remove any dirt and stains from the upholstery and the headliner or ceiling of the car.

INTERIOR METAL

All interior metal parts should be cleaned and waxed and accessories, should be in working order.

"Don't buy a set of cheap, worn tires and put them on the car just before you take it to the dealer," Hogan warned. "The tires could tell a false tale and in any event the dealer will replace them lowering your trade-in allowance."

According to Hogan, the dealer wants a presentable car that can be put on the used car lot immediately.

★ ★ ★

The longer it takes to refinish it, the more the car depreciates and in the automobile business time is money.

Winter follows summer abruptly in Antarctica, without a modifying in-between season.

The First World War

The War on the High Seas; 14

Written By PHILIP VAN DOREN STERN for Newspaper Enterprise Association — Illustrated By John Lane

In 1914 the British battle fleet was the world's biggest and most powerful.

Some German ships were technically more advanced, but the Kaiser's navy was hopelessly outnumbered by England's mighty armada.

And Germany's geographical position in the center of Europe kept most of its fleet bottled up throughout the war.

England's first lord of the Admiralty, young and vigorous Winston Churchill, went ahead on his own to prepare the British fleet for action even before the war had actually begun.

★ ★ ★

Then, in August, he had Adm. David Beatty launch a sudden, successful raid on German warships at Heligoland Bight.

The Germans struck the next blow far away in the western Pacific. There the bold sea fighter, Admiral Spee, started using some of his squadron as commerce - destroyers to prey on enemy shipping, just as Semmes had done with the Confederate ship Alabama 50 years before.

The raider Emden prowled around the Indian Ocean, sinking merchant vessels from Aug. 2 to Nov. 9, when she ended her career in a battle at sea just as the Alabama had done.

Spee moved most of his fighting ships across the Pacific to a coaling station off the coast of Chile.

There British Admiral Craddock found him. The two squadrons, bristling with guns, met near Coronel on Nov. 1, when the Germans sank two British ships and seriously damaged two others.

Spee then sailed around Cape Horn to enter the South Atlantic. At the Falkland Islands he encountered another British squadron, far stronger than his own.

The German admiral desperately tried to get away, but the British gave chase, and a running battle took place on Dec. 8.

Before the day was over, four out of the five German cruisers had been sent to the bottom: the fifth one was destroyed in the Pacific three months later.

★ ★ ★

They were the last of the German ships operating at large on the oceans of the world.

But the captains of Allied merchant vessels were still under the threat of the submarine — and the unseen underwater craft with its deadly torpedoes was a far greater menace than any surface warship had ever been.

Pontiac Man Is Found Guilty in Fatal Shooting

A 38-year-old Pontiac man was convicted yesterday of second degree murder in a fatal shooting last fall.

An Oakland County Circuit Court jury returned the guilty verdict against Aaron White of 31 Edmund.

He had been charged with the Oct. 31 slaying of Lawrence Cleghorn, 29, of 434 S. Saginaw. The shooting occurred at Cleghorn's home during a fight.

White will be sentenced April 13 by Judge Frederick C. Ziem.

Healthy human teeth have been successfully transplanted in experiments recently.

Flint Junior College Dean Named by Board

FLINT (UPI) — Dr. Charles R. Donnelly, 44, was named yesterday as dean at Flint Junior College.

Dr. Donnelly had been acting dean since the resignation last July 1 of former dean Dr. Lewis R. Fibel. His appointment was announced by the Flint Board of Education.

He's a Diplomat Now

Policeman 'Training' Ends

NEW YORK (UPI) — Patrolman Thomas F. Gernon, whose verbal exchange with a Syrian diplomat landed him in a tough Harlem precinct, returned to his old East 51st Street precinct today.

The incident more than a month ago involved a double-parked car. Gernon had words with Rafik Asha, Syria's ambassador to the United Nations, who complained to U.S. Ambassador Adlai E. Stevenson.

★ ★ ★

A few days later, Gernon, 41, father of four and holder of a perfect police record in 14 years, was assigned to the Harlem precinct.

At the time, Deputy Police Commissioner Walter Arm said Gernon was transferred "to train him to get along with people —all kinds of people."

★ ★ ★

"He learned very well," Arm said. He said the transfer to Harlem was not punishment, but educational.

STRIPES

The smartest line between two fashion points is the stripe — reappearing this season in all sorts of fresh new ways. Hairlines that barely suggest a second color . . . tone-on-tones that add a shaded interest . . . medium stripes in subtly-introduced compatible shades including burgundy and bottle green. Quite a number of our most knowledgeable makers have rediscovered this classic, and present it with their customary good taste and fashion aplomb: GGG, Hart Schaffner & Marx, Hammonton Park, and Eagle — to name a few of the finest.

STRIPES

And how do we show our stripes? In a princely collection of midweight fabrics that make the transition from March to midsummer with maximum comfort. Luxurious mohair-worsteds, wrinkle-shedding Dacron®-worsteds, imported pure wool worsteds. You'll find them in a comprehensive range of styles: one-, two-, and three-button; high fashion styles; natural shoulder models; and the newly-heralded British "shaped" suits. For the best line on stripes this season, see what's in store at HHS. They're priced from $65 to $145.

Fighting Delays Finish of All-Weather Highway to Link Asia

WELLINGTON, New Zealand (AP) — Fighting in Burma and South Viet Nam is delaying completion of the long-dreamed-of all-weather highway from the Middle East to the Far East.

Called the Asian Highway, the land network would connect countries of one of the world's most populous regions. It would serve more than 600 million people.

* * *

When completed, the Asian Highway will be no superhighway. In many places it will be no more than an old camel caravan route that has been graded and paved.

But delegates to the annual meeting of the Economic Commission for Asia and the Far East (ECAFE) were told today the highway is a project of great importance, increasing trade and bringing the people of Asia together in better understanding.

PRESENT ROAD

The ECAFE report said it is already possible to drive from near the Turkish border to the Burma border in fine weather.

By the end of this year, this will be an all-weather road.

* * *

Because of its war with rebel bands, Burma's government has closed its frontiers to international motor traffic. Travel over the final eastern portion through South Viet Nam to Saigon also is dangerous because of the war there.

* * *

Two main roads are in the making — A-1 (A for Asia) and A-2 — that will eventually connect Europe and the Far East.

* * *

A-1 will run for 6,900 miles from the Turkish border to Saigon. A-2, a 7,500-mile stretch, follows a different route from the Iraqi border to Singapore, with an eventual ferry link to Indonesia.

TOTAL NETWORK

Subsidiary roads bring the total network to 24,000 miles.

Delegates were told that 90 per cent of the roads in this vast network are already in passable condition and that the missing links in A-1 and A-2 total only 6 per cent of their length. Most of this is in Burma, and until peace is restored there they cannot be worked on.

* * *

Special funds from the United Nations have helped finance some sections. But generally, the countries through which the roads pass are fixing their own roads.

One section, through the mountains of Afghanistan, is being built on a 50-50 basis by the Soviet Union and United States.

* * *

The report said it is costing $500 million or $600 million to bring all priority routes up to minimum standards. Cost of the entire network is estimated at $2 billion or $3 billion.

Rename State Official

LANSING (AP)—Gov. George Romney has reappointed John Gafner, state property manager, to the State Employes Retirement Fund for a term expiring July 31, 1967. The appointment does not require Senate confirmation.

Oregon has an average elevation of 3,000 feet.

HEADING HOME — Henry Ford II and his bride of one month, Cristina, arrive at New York's Kennedy International Airport yesterday, ending their European honeymoon.

Eyes Prospects for Canadian Liberal Gain

June Election Call Pondered by Pearson

AP SPECIAL REPORT

OTTAWA (AP) — After 23 months in office, Prime Minister Lester B. Pearson is weighing the possibility of calling an election in June in the hope of gaining a parliamentary majority for his Liberal party.

Although prospects for a smashing Liberal victory are not good, some party strategists see even more of a gamble to postponing the election.

* * *

In fact, the opposition might force an election by a vote of no confidence if the prime minister hesitates too long.

John G. Diefenbaker, 69, Conservative leader, appears more enthusiastic about an election than Pearson, possibly because Diefenbaker's leadership is threatened. He may not lead the Conservatives if the election is deferred.

NOT ENTHUSED

Pearson has never taken much to campaigning. He is 68 and is not overly enthusiastic about a campaign next year or the year after. Other factors, however, weigh against an early election.

Strategists of the two big parties have been somewhat shaken by the results of a recent poll which indicated both had lost ground politically since January.

* * *

A significant factor in the poll was the almost unprecedented number of voters who hadn't made up their minds. Three out of 10 reporting said they didn't know how they would vote if the election were held now.

A Montreal Star editorial commented:

JUSTIFIED

"If this country is confused, it has every justification for its confusion, and nothing that has happened recently in the two main political parties has served to lessen it."

The Montreal Gazette said it was hard to see where Pearson could hope to make gains, but the Liberal party "should give both itself and the country a chance to see what can be done."

* * *

The Liberals now hold only 129 of the 265 seats in the House of Commons. The Conservatives hold 95. Minor parties and an independent account for the others.

It generally is believed that the Liberals have been hurt by scandals which brought the resignation of one Cabinet minister and one top aide in the prime minister's office.

LOST SUPPORT

The Conservatives undoubtedly have lost some support because of the fighting inside the party over Diefenbaker's leadership and over the new maple leaf flag — approved over Diefenbaker's opposition.

It is taken for granted that the Conservatives would attempt to turn the Ottawa scandals — mainly involving influence peddling — into a major campaign issue.

* * *

On the other side of the picture is the desire of the Liberals to take full advantage of a split in the Conservative party. By waiting another year they run the risk of having to campaign against a unified party, headed by a new and perhaps popular leader.

Some political leaders are concerned that an election this summer might inflame the already aggravated feelings between English and French Canada.

Diefenbaker apparently already has written off French-speaking Quebec as a source of votes. He is expected to make a strong bid in the west, presenting himself as the defender of a strong federal government against the growing power of the provinces — especially Quebec Province.

The main selling point of the Liberals would be an appeal to return them to power with a working majority so they can get on with their program.

* * *

A leaflet of the Liberal Federation of Canada says 1964 was one of the best years in Canada's history, more people were at work, the government made confederation work, it brought peace to the Great Lakes labor struggle, and it sponsored a new pension plan.

Taxi Service Back to Normal in NY After Day of Labor Strife

NEW YORK (UPI) — Taxi service returned to normal here today following a one day union-organizing strike marked by sporadic violence.

Several cabbies were beaten and more than 100 taxis were damaged and forced off the streets allegedly by roving "goon squads."

The strike, estimated to have been 87 per cent effective, was sponsored by the taxi drivers organizing committee of the New York City Central Labor Council to press its demand for recognition as bargaining agent for all of the industry's 33,000 workers.

It was called off yesterday after a four-hour rally at Madison Square Garden attended by about 9,000 hackies and their supporters.

* * *

Mayor Robert F. Wagner, who addressed the rally to express his support for the organizing drive, was greeted with hisses and boos at several points.

COMMITTEE

Wagner told the assembled cabbies "three outstanding men" would be named to a committee to prepare proposals designed to get them the best method of representation. "We would have to come back in a certain period, one week, two weeks, or three weeks," the mayor added.

When catcalls and jeers followed, Wagner put up his hand and said, "This is not a stall. As soon as I can, I will bring the two sides together."

Harry Van Arsdale Jr., leader of the organizing drive, followed Wagner to the speakers' stand and urged the drivers to go back to work and permit their representatives to meet meet with the mayor's committee.

Outside the Garden, hundreds of mounted and foot patrolmen kept a watchful eye on pickets who carried signs and chanted, "We Too Shall Overcome."

With 20 per cent of Japan's land area, the island of Hokkaido has only 5 million people or 5.4 per cent of the nation's total.

Death Takes Owner of Pontiac Market

Theodore R. Arnold, owner of Arnold's Market, 286 E. Pike, for the past 17 years, died yesterday after a long illness. He was 63.

Service will be at 2:30 p.m. Saturday in Voorhees - Siple Chapel with burial in Perry Mount Park Cemetery. Graveside service will be conducted by the Masonic Lodge.

Mr. Arnold was a member of Pontiac Lodge No. 21, F&AM.

Surviving are his wife, Belva; a daughter, Mrs. Roy Linney of Ontario, Calif.; four sons, Harold G. Ronald E., Ivan K. and Gregory P., all of Pontiac; and five grandchildren.

Also surviving are three sisters, Mrs. Cecil Elsholz of Pontiac, Mrs. Ervin Smith of Snover and Mrs. Roy Buys of Mt. Morris; and four brothers, Frank of Sandusky, Oliver of Pontiac, Charles of Lake Orion and Vivian of Mt. Morris.

Fire Damages Pontiac Home

Fire broke out in the bedroom of a Pontiac home early today and caused an estimated $950 damage.

★ ★ ★

Firemen said the blaze was reported at 1:56 a.m. in a two-story frame home at 83 Jackson.

The building is owned and occupied by Marie May. Firemen said the cause of the fire was careless smoking.

Enlightened Decision

LONDON (UPI) — The British railroad system, anxious to improve its image as a modern, streamlined industry, recently changed its name from "British Railways" to "British Rail." Yesterday, it announced another step forward — replacement of its locomotives' 1840-style kerosene lamp with powerful electric models.

Deaths in Pontiac, Neighboring Areas

MRS. LOREN COLWELL

Mrs. Loren (Otilla) Colwell, 73, of 319 Ferry died this morning after an illness of four years. Her body is at the D. E. Pursley Funeral Home.

Surviving are her husband; two sons, Robert L. of Lake Orion and Arthur O. of Waterford Township; a daughter, Mrs. Helen Reese of Pontiac; 10 grandchildren; nine great-grandchildren; a brother; and two sisters.

JOHN W. DALTON

Prayers were to be offered this morning for John W. Dalton, infant son of Mr. and Mrs. Clarence Dalton of 581 N. East Blvd., at the William F. Davis Funeral Home with burial following in Oak Hill Cemetery.

The baby was dead at birth Tuesday.

Surviving are the parents and three brothers.

SPENCER KINARD

Service for Spencer Kinard, 51, of 399½ Prospect will be at 1 p.m. tomorrow in Liberty Baptist Church with burial in Livingston, Ala. His body is at the Frank Carruthers Funeral Home.

Mr. Kinard, an employe of GMC Truck & Coach Division, died Monday after an illness of several weeks. He was a member of Liberty Church.

Surviving are his wife, Leola; his mother, Mrs. Mattie Kinard; five children, all in Alabama; five brothers; and three sisters.

MRS. LESTER K. MARTIN

Service for Mrs. Lester (Virginia M.) Martin, 65, of 95 N. Genesee will be at 11 a.m. tomorrow at Sparks - Griffin Chapel with burial in the Payne Cemetery, Middleton.

Mrs. Martin, a retired employe of GMC Truck & Coach Division, died yesterday after a long illness.

Surviving are her husband, a sister and a brother.

CLAIRE N. MOORE

Service for Claire N. Moore, 34, of 735 Bigham will be at 10 a.m. tomorrow in the D. E. Pursley Funeral Home with burial in Perry Mount Park Cemetery.

Mr. Moore, an employe of Pontiac Motor Division, died Tuesday.

MRS. HAROLD VAN DEUSEN

Prayers will be offered for Mrs. Harold (Kathleen) Van Deusen, 74, of 3228 Coolidge, Royal Oak, a former Pontiac resident, at 10 a. m. Saturday in the William Sullivan & Sons Funeral Home, Royal Oak.

Requiem Mass will follow at 10:30 a. m. in the Shrine of the Little Flower, Royal Oak, with burial in Holy Sepulchre Cemetery, Southfield. The Rosary will be recited at 8 p. m. tomorrow in the funeral home.

Mrs. Van Deusen, a member of the Shrine of the Little Flower, Royal Oak, died yesterday after a two-month illness.

Surviving are four sons, Jack of Holland, Edward of Phoenix, Ariz., Harold Jr. of Grand Rapids and Robert, with whom she made her home, and nine grandchildren.

Also surviving are a brother, Edward Buckley of Pontiac, and a sister, Mrs. Roselind Hill of Royal Oak.

CHARLES BEAGLE

WALLED LAKE — Service for Charles Beagle, 74, of 523 Pontiac Trail will be 11 a.m. Saturday at Richardson-Bird Funeral Home. Burial will follow in Oak Grove Cemetery, Milford.

A retired truck driver, Mr. Beagle died Tuesday.

Surviving are his wife, Mayme, and three brothers, Clarence and William, both of Milford, and Albert of Detroit.

LYN B. CASKEY

WHITE LAKE TOWNSHIP—Service for Lyn B. Caskey, 69, of 5385 Lakegrove will be at 1 p. m. Saturday at the Richardson-Bird Funeral Home, Milford, with burial at White Lake Cemetery.

Mr. Caskey died yesterday after a long illness. He was employed at Pontiac Motor Division.

Surviving besides his wife, Birdie, are eight daughters, Mrs. Charles Waldrop and Mrs. Russell McDonald, both of White Lake Township, Mrs. Glen Rosell of Highland Township, Mrs. Blueford Embry of Pontiac, Mrs. Coy Bailey of California, Mrs. Nicholas Tristisis of Chicago and Sue and Barbara, both at home; three sons, John, William and Bruce, all at home; two sisters; three brothers, Kelly of Wisconsin and Winford and Beck, both of Pontiac; and nine grandchildren.

ERNEST R. CRAWFORD

ORION TOWNSHIP — Service for Ernest R. Crawford, 69, of 609 E. Flint will be 2:30 p.m. Saturday at the First Methodist Church, Lake Orion. Burial will follow in Eastlawn Cemetery, Lake Orion.

Mr. Crawford died suddenly Tuesday in Phoenix, Ariz. His body will be at Allen's Funeral Home, Lake Orion, after 8 p.m. today.

A member of the Oakland County Republican Committee, he also was on the GOP 19th District Congressional Committee.

He was active in professional, community and church affairs, including former membership on the Orion Township zoning board.

Surviving are his wife, Ila; three daughters, Mrs. Marvin Hauxwell of Lake Orion, Mrs. Cass Miller of Dearborn and Mrs. William Walter of Broomfield, Colo.; one son, E. Robert of Birmingham; three sisters; and 11 grandchildren.

MRS. MARLENE McCABE

OXFORD TOWNSHIP — Requiem Mass for Mrs. Marlene McCabe, 30, of 948 Burlingham will be 10 a. m. Saturday at St. Joseph Church, Orion Township. Burial will follow in Eastlawn Cemetery, Lake Orion.

Mrs. McCabe died yesterday.

Allen's Funeral Home, Lake Orion, is in charge of arrangements.

Surviving are three sons, Daniel, John and Dale, all at home; her mother, Mrs. Edward F. Corneail of Lake Orion; and two brothers, Daniel and Edward Corneail, both of Lake Orion.

MR. AND MRS. FLOYD J. MARSH

TROY — Service for former residents Floyd Marsh, 54, and Mrs. Floyd (Margaret H.) Marsh, 45, of St. Helen will be 1:30 p.m. tomorrow at Price Funeral Home. Burial will follow in Union Corners Cemetery.

The couple were asphyxiated in their home Saturday.

Mr. Marsh was a former justice of the peace in Au Sable Township and the owner of the St. Helen Service Center.

Surviving are two daughters, Mrs. John Truesdell of Troy and Mrs. Frank Armstrong of Detroit, and a son, Donald A. of Slidell, La.

Also surviving are his brother, Ralph Marsh of Brownsberg, Ind.; her two sisters; her brother; her father, Lynn Clark of St. Louis, Mich.; and five grandchildren.

ERNEST RUSSELL

ATTICA — Service for Ernest Russell, 78, of 4566 Attica will be 1:30 p.m. Saturday at Baird-Newton Funeral Home, Lapeer. Burial will follow in Attica Cemetery.

A retired employe of the Detroit Edison Co., Mr. Russell died yesterday after a long illness.

He was a life member of Attica Lodge No. 295, F&AM.

Masonic memorial service will be held at 8 p. m. tomorrow at the funeral home.

Surviving are a daughter, Mrs. Cleo Dennis, a son, Dean, and a brother, Clayton, all of Attica; 21 grandchildren; 39 great - grandchildren; and a great-great-grandchild.

GEORGE STEVENS

ORTONVILLE — Service for George Stevens, 88, of 380 Church will be 2 p.m. Saturday at the C. F. Sherman Funeral Home. Burial will follow in Ortonville Cemetery.

A retired custodian at Brandon High School, Mr. Stevens died yesterday after a four-day illness.

He was a member of the Ortonville Baptist Church.

Surviving is a sister, Mrs. Clark King of Ortonville.

BAZYLI TESSAK

AVON TOWNSHIP—Requiem Mass for former resident Bazyli Tessak of Elkton will be 10 a.m. Saturday at St. Francis Borgia Church, Pigeon. Burial will follow in Riverside Cemetery, Elkton.

A retired employe of Pontiac Motor Division, Mr. Tessak died yesterday.

His body is at Colgan Funeral Home, Elkton.

Several relatives survive.

MRS. JOHN R. WEISS

WHITE LAKE TOWNSHIP—Requiem mass will be offered for Mrs. John R. (Geraldine H.) Weiss, 62, of 2980 Steple Hill at 10 a.m. Saturday at St. Vincent de Paul Church, Pontiac, with burial at Lakeview Cemetery, Clarkston.

Mrs. Weiss died Tuesday after a brief illness. She was a member of Pontiac Moose Lodge 182 auxiliary.

A rosary will be said at 8 p.m. Friday at the Sharpe-Goyette Funeral Home, Clarkston. The Moose Lodge will conduct a memorial service at 7 p.m. at the funeral home.

Surviving besides her husband are a son, John Jr.; two sisters; a brother; and three grandchildren.

GORDON JAMES WEST

TROY — Service for Gordon James West, 2-year-old son of Mr. and Mrs. James H. West of 6700 John R, will be 10 a.m. Saturday at the Price Funeral Home. Burial will follow in Union Corners Cemetery.

The boy died yesterday after a long illness.

Surviving besides his parents are his grandparents, Mr. and Mrs. Gordon Tyler of Troy and Mrs. Sally Parker of Pulaski, Tenn.

ROBERT A. WILLIAMS

TROY — Robert A. Williams, 34, of 947 Rankin died today.

His body is at Price Funeral Home.

Order Marine Arrival on Okinawa Shrouded

NAHA, Okinawa (AP) — A news blackout was imposed today for the imminent arrival of a U.S. Marine brigade from Hawaii that will add more than 7,000 men to the American armed forces on Okinawa.

A spokesman for the 3rd Marine Division said plans for American newsmen and photographers to view the landings with escort officers have been canceled and no information will be made available regarding the movement.

Highway Snarled Fast

LONDON (UPI) — Britain's latest super highway was snarled by traffic jams just hours after it opened yesterday because a group of small boys threw stones at vehicles from a footpath over the highway.

Next time your car is laid up, rent a Ford from us.

(We're just a few minutes away.)

Why let a little thing like a laid-up car keep you off the road? Give us a call. We have all kinds of healthy '65 Fords for rent. We'll have the one you want ready for pickup in practically no time. We're right in the neighborhood and our prices are surprisingly low. The cost of insurance is included in the price. What's more, you can rent from us for an hour, a day, a week, or just as long as you want. So next time your car doesn't feel like going places, don't call it a day. Come in and rent a Ford from us.

HATS OFF TO MUSIC — Three key figures in the April 1 "Festival of Fashions" style show sponsored by the Rochester Tuesday Musicale take time out from fun at the grand piano to discuss some of the hats to be worn by models during the show. They are (from left), Mrs. Hazel Gessinger of 322 Taylor, the audition chairman for music scholarship contenders; Mrs. Homer Warren of 429 Parkdale, publicity chairman; and Mrs. Robert Allen of 213 Charles, who will provide piano background music for the event, to be held at Rochester Senior High School.

Rochester Fashion Event Set

ROCHESTER — Spring flowers and music will form a background for the second annual "Festival of Fashions" April 1, sponsored by the Rochester Tuesday Musicale.

★ ★ ★

The 8 p.m. affair will be held in the Student Center of Rochester Senior High School, with Mrs. Ray Lawson acting as coordinator and commentator.

The event, which supports the club's scholarship fund, will be highlighted by a showing of fashions from local shops.

Participating are Mitzelfeld's, Lucille Shoppe, Doris Hayes, R B Shop, Boys 'N Girls Shop and Richard's Boys and Girls Wear.

★ ★ ★

Background music will be provided by Mrs. Robert Allen of 213 Charles at the piano.

PROCEEDS

Proceeds from the annual show enable the Musicale to present music scholarships to promising area musicians each spring, as has been the club's custom for 15 years.

Students applying for the scholarships memorize a solo and present it before a panel of two out-of-town qualified music teachers.

Aspiring contestants will audition Sunday at the home of Mrs. Hazel Gessinger, 322 Taylor, who is serving as audition chairman for the third year.

★ ★ ★

Scholarships, which vary in number from three to six, may be used by the winners at the National Music Camp at Interlochen, the Youth Program at Michigan State University, or for private instruction.

Rezoning OK'd for Avon Plant

Construction to Start on $1-Million Factory

AVON TOWNSHIP — The final barrier to construction of a million-dollar computer research and development plant at Tienken and Rochester roads dropped last night.

The Township Board unanimously approved rezoning of nearly 13 acres north of the Rochester village limits bounded by Rochester on the west and Tienken on the north, from general farming to light industrial.

AREA NEWS

According to officials of Holley Computer Products Co., construction on the 60,000-square-foot plant should begin immediately, now that the rezoning is accomplished.

Company officials hope to occupy the new building in August. Two more additions are planned within three to five years, expanding space to 160,000 square feet.

The plant will be used by the Peripheral Equipment Group of Holley Computer Products Co., a division of Control Data Corp. of Minneapolis, Minn.

STAFF FOR PLANT

A staff of highly skilled professional engineers and eventually 100 to 150 locally hired employes will assemble, test and develop input-output units for computer systems.

Control Data Corp. is the third largest computer systems manufacturer in the nation in terms of the value of equipment now installed in the field, and is the manufacturer of the world's largest computer, used by the Atomic Energy Commission.

In Clarenceville District
Vote Monday on School Issues

FARMINGTON TOWNSHIP—Voters in the Clarenceville School District will consider both a bonding and a millage question Monday.

The answers they record on ballots will determine whether the district will undertake a $3.5-million building program and add 4 mills to the tax levy.

Neither proposition is expected to increase the tax rate.

The building bonds would be sold only when they could be financed under the present rate.

The operational request would be covered by an expected decrease in the district's allocation and by reduction of the levy for bonded indebtedness.

FUTURE NEEDS

The construction money request is aimed at providing facilities to meet all future school needs.

However, the board of education has cited an immediate need for $1,250,000 worth of construction.

Enrollment projections indicate the present figure of 3,673 will jump to 3,850 in 1965-66; 4,025 in 1966-67; and 4,250 in 1968-69.

★ ★ ★

The first phase of the proposed building program, to be completed by the fall of 1966, calls for additions to the senior high school, junior high and Edgewood Elementary School.

SCHOOL FACILITIES

The work at the high school would include an auditorium, six or eight classrooms and expansion of the library and cafeteria.

Four or five classrooms would be added to Edgewood, where construction also would cover enlargement of the multipurpose room and improvement of conference areas for teachers and the principal.

The second floor addition at the junior high school would be completed and the facility would be expanded by several classrooms, depending on how much money was left after the other projects were finished.

★ ★ ★

Specific plans for the rest of the issue have not been developed.

ANTICIPATED RISE

The proposed operational millage increase was designed to provide for the anticipated enrollment increases while expanding the educational program at the present rate.

★ ★ ★

The board expects a 2-mill cut in its operational allocation and would cover the other 2 mills by extending the district's present bonds and reducing the levy for bonded indebtedness.

★ ★ ★

Current tax rate in the district is 22.9 mills for operation and 10.05 for debt retirement.

Pontiac Press Photo

MAN PLUS MACHINE — It'll take three human judges and an infallible, $400 computer to judge the speed of entries in Saturday's annual Rochester YMCA Matchbox Derby, to be held at 1 p.m. in the West Junior High School auditorium. Examining the 48-transistor computer are (from left) T. E. Kashmerick, assistant staff engineer at GM's Chevrolet Division; Paul Neher, automotive engineer with Firestone Industrial Products Co.; and Ken Wright, general manager of design Products Co., designer of the computer. In the foreground is a matchbox derby entry from last year's race.

Initial Work Begins at Elks Lodge Site

ROCHESTER — Initial landfill work is under way toward a June construction start on a new $300,000 home for the Benevolent and Protective Order of Elks Lodge No. 2225.

The two-story building will rest on a 7½-acre parcel in the Mill Pond area, some of which will be dedicated to the village for extension of East University through the area.

When the Elks move into their new structure sometime near the end of the year, they'll have a total of 17,400 square feet of space for their activities, as well as for public use.

The building will have a 15,000-square-foot ground floor containing a dining area that will seat 600 and provide a dance floor as well.

Also on the first floor will be a large kitchen, luncheon room, executive dining room, four small meeting rooms, cocktail lounge, cloak room and rest rooms.

SECOND FLOOR

Meeting and game rooms will be located on the second floor, which will have 2,400 square feet, covering only part of the first level.

Outside the building, Paint Creek will be relocated through the Elks property, and a two-acre recreation and park area will be constructed.

The present Elks building at Walnut and Third is to be sold.

The Mill Pond site is the second chosen by the Elks in their search for a new location. The first, on Ludlow, was dropped due to objections from neighboring residents.

★ ★ ★

Adjacent to the Elks property is a 20-acre tract owned by Avon Development Co. Apartments and possibly some commercial buildings will rise on that property.

Architects of the new Elks lodge home are Robert Smitha & Associates of Rochester.

Farm Supply Show Set for 2 Days in Lapeer

LAPEER — The First Annual "Thumb-o-Michigan Farm Supply Show" will be held here Thursday and Friday. Sponsored by the Lapeer County Extension Service, the show will be held in the County Center Building, 425 N. Elm.

Featured at the affair will be displays of farm chemicals, electrical equipment, seeds, fertilizers, feeds and feed additives, and a wide variety of farm supplies and small farm equipment.

Program Is Slated on 'Shakespeare'

COMMERCE TOWNSHIP — Some of William Shakespeare's best-known heroines will hold a gab-fest tomorrow night at Clifford H. Smart Junior High School.

★ ★ ★

"When Shakespeare's Ladies Meet" will be presented at 7:30 p.m. in the school activities room at 8400 Commerce.

The bard's heroines will convene on stage to discuss the "art of love" for the Walled Lake High School Drama Club production.

They are Cleopatra, played by Michelle Velky; Ophelia, Jan Schliskey; Kate, Priscilla Yuchartz; Juliet, Diane Couture; Portia, Nora Miller; and Desdemona, played by Carole Mengel.

Revue Opens Friday Night

ROCHESTER — The curtain will rise at 8:30 tomorrow evening at Central Junior High School for the first performance of the 1965 Red Stocking Revue, sponsored by the Rochester Junior Woman's Club.

The variety show will be reported at the same time Saturday night.

Saturday's show is already a sellout, but tickets for tomorrow's opening performance are still available from members of the club and at several downtown stores.

Substantial Increase Expected in '65 Soybean, Potato Acreage

LANSING (AP) — A substantial increase is expected this year in the acreage planted to soybeans and potatoes, the Federal-State Crop Reporting Service said Wednesday.

★ ★ ★

A small increase also is expected in the acreage planted to dry beans and corn. A decline is indicated in the plantings of oats, barley and sugar beets.

Michigan's total field crop acreage for 1965 is estimated at 6.7 million acres for the 10 major field crops, about 77,000 acres less than last year.

In the cash crop acreage, a decline in wheat and sugar beets will be more than offset by increases for soybeans, dry beans and fall potatoes. The 436,000 acres planted to soybeans is expected to be the largest on record.

DRY BEANS

The acreage planted to dry beans is estimated at 628,000 acres, three per cent above last year. Farmers plan to plant 51,600 acres to potatoes this year, 12 per cent more than last year.

A new potato processing plant will start operation this fall at Greenville and a large increase in fall potato acreage is expected in Montcalm County to supply the plant.

Farmers plan to plant 2,673,00 acres to feed grains, about two per cent less than last year. A small increase in corn will be more than offset by declines in oats and barley.

Pupils Enter Competition of Craftsmen

Students from some 90 Oakland County schools today entered projects in the Michigan Industrial Education Society's Regional Craftsman Fair at Southfield High School.

★ ★ ★

The junior and senior high school students judged winners will compete at the society's state convention in Grand Rapids April 8-10.

Entries will be on display in the school's cafeteria today and tomorrow, with public viewing hours from 7 to 9 p.m. tomorrow.

Judging will be done Saturday morning by representatives of industry and industrial arts teachers. Among the judges are John Gollins, Lawrence Miller and Melvin Tindall, Birmingham teachers; Richard Oullette of Chrysler Corp.; and William Sloat, retired Birmingham teacher.

★ ★ ★

Classifications include architectural drawings and models, electronics and electrical devices, graphic arts, machine work and construction, mechanical drawing, nonarchitectural models, pattern making, plastics, wood, wrought metal and an open division.

Guard Unit in Utica to Receive Trophy

UTICA—The Michigan National Guard announced yesterday that a Utica unit operating a Nike-Hercules missile position will receive the Eisenhower Trophy for 1964.

Battery A of the 1st Missile Battalion, 117th Artillery, was selected as the outstanding Army unit of the Michigan National Guard.

The unit is part of the full-time air defense of the Detroit metropolitan area. The Nike-Hercules is a ground-to-air anti-aircraft missile.

Capt. William Shelton of Detroit is the unit commander.

Super Highlander® MAYTAG Halo-of-Heat® DRYER. Fully Automatic. Flexible timer control and three push-button temperature selectors for proper drying of all fabrics. Air Fluff setting for tumbling without heat. Low temperature heat surrounds clothes for fast, even drying. Helps fabrics last longer and retain their natural softness. Plus Big Capacity porcelain enamel drum and safety door and start switch.

Model D502

MAYTAG Halo-of-Heat® DRYER with electronic control. This Maytag Dryer fast dries your clothes at gentle, low temperatures while 72 electronic sensors constantly "feel" the moisture in the clothes. Shuts off automatically when clothes are dried just right. One setting — no guessing for time and temperature. "Wash 'n Wear" setting removes wear wrinkles from synthetics. Damp Dry and Air Fluff setting for special load cycle. Big lint filter.

State Insurance Chief OKs Blue Cross Rate Change

DETROIT (AP) — State Insurance Commissioner Allen Mayerson yesterday announced approval of a modified experience rating method of setting rates for Michigan Blue Cross.

The changes in the Blue Cross —Michigan Hospital Service — rates will be effective July 1.

The order does not change the general level of Blue Cross premiums from those established in 1963 and does not change the total income of Blue Cross, Mayerson said.

★ ★ ★

It does permit some shifting in the percentage of the total income to be collected from the various groups of subscribers.

Mayerson emphasized there will be no change in the premiums of the senior contract under which special benefits are offered at reduced rates to persons over 65.

NOT AFFECTED

Similarly, he said, the premiums of group conversion subscribers who have left their groups because of retirement, layoffs, illness or other reasons will not be affected.

A major effect of the order, Mayerson said, is to substitute a strictly limited system of experience rating for the community rating method which has been used by Blue Cross since 1939.

★ ★ ★

Under the community rating method all subscribers who were entitled to the same benefits have been paying the same monthly premium regardless of differences in the amount of hospital expenses that were actually incurred for different groups of subscribers.

The limited experience rating system will permit modifications in premiums for groups of 150 or more subscribers, based on the difference in benefits paid out for the members of each group.

CLOSE CONTROL

Such modifications will be subject to the close control of the insurance department. Some of the larger groups will be charged higher premiums under the modification and others will pay lower premiums, the insurance commissioner said.

Mayerson said he disapproved a Blue Cross request for establishment of the experience rating system for groups with 100 or more customers, raising the group number instead to 150.

A request for a pooled experience rating system for groups with fewer than 100 contracts also was rejected.

He approved the establishment of area rate groups for all groups with fewer than 150 contracts. The state will be divided into five areas according to county lines.

AREA FACTORS

The area factors, which will govern the relationship between the premium paid by small groups in each area and the base rates, will be:

Area 1 — 93 per cent; Area 2, 98 per cent; Area 3, 80 per cent; Area 4, 86 per cent, and Area 5, 90 per cent.

The area breakdowns:

Area 1 — Macomb, Oakland, Washtenaw, Wayne.

Area 2 — Antrim, Arenac, Bay, Benzie, Charlevoix, Emmet, Genesee, Grand Traverse, Iosco, Kalkaska, Leelanau, Midland, Ogemaw, Saginaw.

AREA 3

Area 3 — Alcona, Allegan, Alpena, Barry, Berrien, Branch, Calhoun, Cass, Cheboygan, Eaton, Hillsdale, Huron, Ionia, Jackson, Kalamazoo, Kent, Lake, Lapeer, Lenawee, Manistee, Mason, Monroe, Montmorency, Muskegon, Newaygo, Oceana, Oscoda, Ottawa, Presque Isle, St. Clair, St. Joseph, Sanilac, Tuscola, Van Buren.

Area 4 — Clare, Clinton, Crawford, Gladwin, Gratiot, Ingham, Isabella, Livingston, Mecosta, Shiawassee, Wexford, Missaukee, Montcalm, Osceola, Otsego, Roscommon.

Area 5 — Alger, Baraga, Chippewa, Delta, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Luce, Mackinac, Marquette, Menominee, Ontonagon, Schoolcraft.

When you make a small-size cake, use a small-size bowl; then if the ingredients have to be beaten, they'll come up higher enough to get good action from the beater.

Always use cold water to soak pans used for milk, egg, or cheese mixtures or flour batters.

Adding small white onions to a veal or beef roast? They'll taste delicious if you brown them in butter or oil in a skillet before turning them into the meat pan.

ASPARAGUS SANDWICHES — Open face sandwiches make superb Lenten lunches. On one slice of bread of your choice, arrange one of the following: cooked shrimp, crabmeat, or lobster tails; boiled flaked ocean fish; tuna or salmon salad; sardines; or strips of cheese. Garnish with asparagus cuts and tips, lettuce, tomato, green pepper, red onion slices, pimiento, watercress. Pass your favorite dressing, lemon juice or sour cream.

Cheese Sauce for Cauliflower, Beef

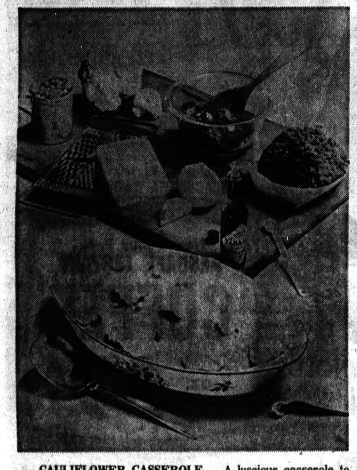

Remember when you studied algebra in school you learned (or were supposed to!) all about corollaries? If x plus y equals z, and y plus z equals x, then x plus z must equal y? (Whew!)

Well, some culinary corollaries are relatively simple, and the answers make a lot of sense.

For example, ground beef and cheese are a delicious formula, as are cheese and cauliflower.

So, if you substitute x, y and z for beef, cauliflower and cheese, the formula will equal a perfectly delicious, mouth-watering casserole, one that you will enjoy serving often to both family and guests.

As the aforementioned ingredients are so tasty in themselves, very little seasoning is needed, but a little Tabasco, the spicy liquid red pepper sauce, gives just the right amount of oomph.

Cauliflower Beef Casserole

1 medium head of cauliflower
1½ pounds ground beef
1 small onion, chopped
½ teaspoon salt
¼ teaspoon Tabasco
1 tablespoon flour
1 cup milk
1 tablespoon oil
¼ teaspoon Tabasco
½ pound cheese, grated (2 cups)
1 cup seasoned bread cubes

Separate cauliflower buds. Cook in salted water until partially tender. Saute beef with onion, salt and Tabasco.

Meanwhile, prepare cheese sauce by blending flour, milk, oil and Tabasco in small saucepan. Stir over low heat until thickened. Add cheese; heat until melted.

Put meat into 2 - quart casserole; cover with layer of bread cubes. Add cauliflower buds; pour cheese sauce over all.

Place in 375 degrees F. (moderate) oven for 30 minutes, until casserole is heated through and sauce is bubbly. Yield: 6 servings.

CAULIFLOWER CASSEROLE — A luscious casserole to quicken hearty appetites combines ground beef with tender cauliflower buds and a Tabasco-tanged cheese sauce.

Special Program Set for April Food Week

Food Information Week 1965 will be celebrated in the Greater-Detroit area, April 4 through 10, announces the Consumer Marketing Agent, Josephine Lawyer.

This special week is set aside to provide a concentration of food information for shoppers, to answer food buying questions, and to help homemakers recognize the value of using available food information.

★ ★ ★

The advisory groups of the Detroit and Pontiac Marketing Information for Consumers programs have planned to bring homemakers up-to-date facts on new developments in the food field during the Food Information Week celebration.

All forms of mass media and the total food industry are cooperating in this effort.

MALL PROGRAM

Besides the concentration of food information which will be offered through mass media, food shoppers are also invited to attend a special program at the Pontiac Mall on April 7.

"Mother Hubbard's Cupboard — 1965" will be presented by Mrs. Lawyer at 10:00 a. m., 1:00 p. m., and 7:30 p. m.

Since seating capacity is limited, homemakers are asked to make ticket reservations by writing Mrs. Lawyer at 155 North Saginaw St., Pontiac.

"Mother Hubbard's Cupboard — 1965" will give shoppers an opportunity to learn more about new foods and new food processes which make them possible.

★ ★ ★

Current food research, use of convenience foods, and modern food packaging will be included in the discussion.

Samples of products processed by new techniques will be exhibited.

★ ★ ★

Door prizes of gift certificates of food, trading stamps, and food products are being donated by the food industry.

ANNUAL FOOD FESTIVAL
"MORE FOR YOUR FOOD DOLLAR"

Fish, Cheese in a Spread

Both men and women like this interesting cheese spread.

Cheese Spread Lila

1 flat anchovies, drained
1 can (6½ ounces) tuna drained
Juice of 2 lemons
½ cup olive oil
½ pound c ream cheese, soft
Drained capers, to taste

★ ★ ★

In an electric blender, blend until creamy the anchovies, tuna, lemon juice and olive oil. Add to cream cheese and capers; mix well with a spoon. Refrigerate until firm.

When a recipe calls for "poaching" a food, cook it gently in hot liquid so it will hold its shape.

Poach Fish Fillets in Aluminum Foil to Achieve a Dish That French Cooks Excel In

The French have a way with fish that produces a dish incomparable in flavor and beautiful to look at.

★ ★ ★

First they poach the fish in a flavorful liquid. Fish fillets, steaks, or even small whole fish are given this gentle cooking.

Then they prepare a sauce from the poaching liquid and pour it over the fish. Just this alone makes a delicious, moist and flavorful fish dish to serve the family.

Here is the basic recipe for poaching the fish with aluminum foil, making the sauce, and several suggestions for embellishments. You will find it very easy and the results superb.

Fish Poached in White Wine

1 to 1½ pounds fish fillets or steaks
1 small onion, minced
1 tablespoon butter or margarine
2 or 3 sprigs parsley
¾ cup white wine, vermouth, or ¼ cup lemon juice and ¾ cup water
salt and pepper
½ cup light or heavy cream
¼ cup grated Swiss or parmesan cheese

★ ★ ★

Place a large sheet of heavy duty Reynolds Wrap on a shallow pan. Sprinkle half the onion in the center and arrange the fish on it overlapping thin filets. Very thin filets may be rolled up, jelly-roll fashion, and secured with toothpicks.

★ ★ ★

Sprinkle remaining onion and parsley sprigs over the fish. Dot with butter. Pour over the wine or lemon and water mixed. Sprinkle with salt and pepper.

Bring the long ends of the foil up over the fish and seal with a tight double fold. Seal other ends by folding and turning them up to hold juices.

Bake in a moderately hot oven (375 degrees) for 20 minutes. Gently pour out the liquid in the package into a measuring cup. There should be a little more than 1 cup. Place package with fish on a heat proof platter or serving dish.

★ ★ ★

In a small saucepan, melt 3 tablespoons butter and blend in 3 tablespoons flour. Stir and cook 3 minutes, then add the hot fish liquid and continue stirring and cooking until smooth.

Add the cream, using just enough to make a creamy sauce of not quite medium consistency. Taste and add additional seasonings, a few drops of lemon juice, if needed.

Open and turn back the foil holding the fish. Crimp it to form a pretty border. Pour over the hot sauce. Sprinkle with the cheese and brown lightly under the broiler.

This dish may be prepared ahead all but the final browning. Reheat in the oven for a few minutes, then brown under the broiler.

Sole Bonne Femme

Start preparing fish filets as in basic recipe. Just before seasoning the fish, add ½ pound mushrooms prepared as follows: Rinse mushrooms, pat dry, slice. Saute in 3 tablespoons of butter for 3 minutes, tossing and heating them without browning. Spread over the filets. Use additional salt and pepper and continue as in basic recipe.

Fish Filets With Julienne Vegetables

Start preparing fish filets as in the basic recipe. While fish is baking, prepare vegetables cut in ¼ inch by 2½ inch match stick lengths.

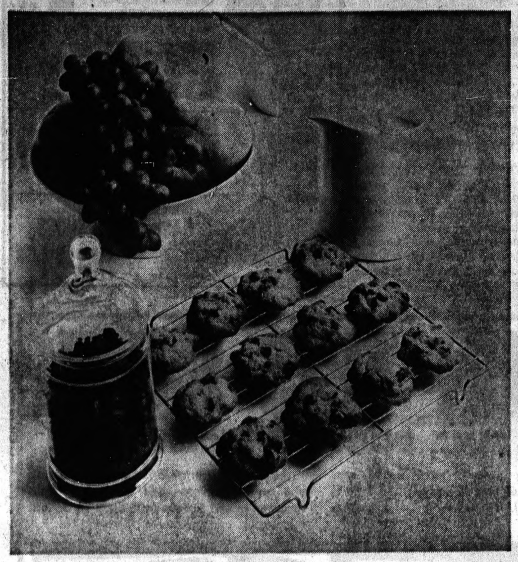

Prepare 1 cup carrots, 1 cup celery, ½ cup yellow onion, ½ cup green pepper. Simmer the vegetables in boiling salted water until just barely tender, adding the green pepper for the last 10 minutes. Drain the vegetables.

When filets are baked and foil turned back, arrange vegetables to form border. Pour over sauce and continue as in basic recipe.

Fish Filets With Shrimp Sauce

Prepare fish filets as in basic recipe. Just before seasoning fish, add ½ pound shrimps which have been shelled, deveined, and lightly sauteed in butter or margarine for 3 minutes. The shrimps may be arranged as a border around the fish. Use a little additional seasoning for the shrimps. Continue as in basic recipe.

Ever use those individual "indented" sponge cakes as the base for Baked Alaska?

FEWER CALORIES — These chocolate chip cookies are not entirely sugar-free. But thanks to the use of sucaryl in place of sugar, they are lower on calories than the usual Cookies of this kind.

Bake Chocolate Chip Cookies Made With Sugar Substitute

Just everybody loves chocolate chip cookies. The ones pictured here are golden brown and crisp, deliciously sweet, and lavishly studded with morsels of chocolate.

★ ★ ★

But these cookies have one important difference, one you can't see or taste. They're far lower in calories than the ones you usually bake.

That's because the cookies are sweetened with the calorie-free sweetener, sucaryl, rather than with sugar. Just by eliminating sugar's calories, you save 16 calories in every delicious cooky.

Fill your cookie jar with these calorie-trimmed goodies . . . and don't be surprised at how quickly they disappear.

CHOCOLATE CHIP COOKIES (Low-Calorie)

1 cup sifted flour
½ teaspoon baking soda
½ teaspoon salt
½ cup butter
4 teaspoons sucaryl solution
½ teaspoon vanilla
1 egg, beaten
½ cup semi-sweet chocolate morsels (3 ounces)

Sift together the dry ingredients. Cream butter; add sucaryl, vanilla and egg, blending well. Add flour mixture and beat well. Stir in the chocolate morsels.

Drop by level teaspoonfuls onto a lightly greased baking sheet. Bake in a moderate oven (375 degrees) 10 minutes.

Makes 36 cookies, each 48 calories; 0.5 gram protein; 3.5 grams fat; 3.5 grams carbohydrate. (With sugar 64 calories.)

Zippy Beans for Sandwich

Teenagers find a hefty, zippy sandwich like this makes a party a sure-fire success.

In saucepan, cook ¼ cup chopped celery, ¼ cup chopped green pepper, ½ clove garlic (minced), ⅛ teaspoon leaf oregano (crushed), and ½ teaspoon chili powder in 1 tablespoon butter or margarine until vegetables are tender. Add a 1-pound can beans and ground beef in barbecue sauce. Heat, stirring now and then.

Spoon beans onto 6 hamburger rolls which have been split and toasted. Sprinkle with shredded Cheddar cheese and top with shredded lettuce. Makes 6 sandwiches.

If you want that steak to taste extra special, coat it with olive oil and sprinkle it with freshly-ground pepper before broiling it.

Luncheon Buffet Features Salads

By JANET ODELL
Pontiac Press Food Editor

Many club and church groups have discovered the popularity of salad luncheons. Served buffet style, they offer guests a wide choice of interesting salads.

★ ★ ★

The molded salad appears in many shapes — literally.

★ ★ ★

Because it can be prepared a day ahead of time, cooks like to fix it. That gives them time to make the potato, chicken and tossed salads on the day of the party.

On Tuesday, the Rochester Newcomers' Club is holding a salad luncheon and card party in Avon Park Pavilion.

Mrs. John Pattison, general chairman, called us to ask if we were interested in any of the recipes they're using. Of course we were.

★ ★ ★

Promptly we received four recipes, all for unusual molded salads.

★ ★ ★

If reading these recipes makes any reader hungry enough to go to the luncheon, reservations may still be made through Friday.

APPLESAUCE SPARKLE

1 jar (9 oz.) applesauce
1 package lime gelatine
¼ teaspoon ground ginger
1 envelope unflavored gelatine
½ cup cold water
1 teaspoon finely chopped candied ginger
1 bottle (12 oz.) dry ginger ale

Heat applesauce to boiling point; add lime gelatine and ground ginger, stirring until gelatine is dissolved.

Dissolve unflavored gelatine in cold water and heat over hot water. Add to applesauce. Add candied ginger and ginger ale.

Stir until ginger ale stops fizzing. Pour into mold to chill.

MOLDED GRAPE SUPREME

1½ envelopes unflavored gelatine
¼ cup cold water
1 cup boiling water
½ cup granulated sugar
Dash of salt
1 can (6 oz.) frozen grape juice concentrate, undiluted
3 tablespoons lemon juice

Dissolve gelatine in cold water. Add hot water and stir until clear. Add rest of ingredients. Chill until consistency of egg white.

Add ¾ cup emperor or tokay grapes, quartered, and one flat can well-drained crushed pineapple. Mix and pour into mold. Chill.

ORANGE SHERBET SALAD

2 packages orange gelatine
2 cups boiling water
1 pint orange sherbet
1 can Mandarin oranges
1 small can pineapple chunks

Dissolve gelatine in boiling water. Add orange sherbet and stir until melted. Chill until mixture begins to thicken.

★ ★ ★

Add well drained fruit. Pour into ring mold or 9"x13" flat pan. Chill until set.

MOLDED SHRIMP SALAD

2 tablespoons unflavored gelatine
½ cup cold water
1 can condensed tomato soup, undiluted
1 cup mayonnaise
1 package (8 oz.) cream cheese, softened
½ cup chopped green pepper
½ cup chopped green onion
1 cup chopped celery
¾ pound cooked shrimp

Dissolve gelatine in cold water. Bring soup to boil, add to gelatine.

★ ★ ★

Combine mayonnaise and cheese and add to first mixture. Chill until mixture begins to set. Add vegetables and shrimp.

Pour into 2-quart mold or fish mold. Garnish with more fresh shrimp at serving time, if desired.

Pontiac Press Photo

TRIAL RUN — Mrs. Herbert Tucker, Cobblestone Drive, (left) and Mrs. Walter Schlegel, Sandstone Drive, both of Avon Township, prepare a molded grape juice salad. Mrs. Tucker is luncheon chairman for the Rochester Newcomers salad luncheon on Tuesday. Mrs. Schlegel is chairman for table prizes.

Puffed Rice Is Put Into Candy

The youngsters can make this easy sweet!

Sliced Candy Rolls

4 cups puffed rice
½ pound (about 28) caramels
16 large marshmallows
2 tablespoons milk
1 package (6 ounces) semi-sweet chocolate pieces
1 cup chopped pecans

★ ★ ★

Heat puffed rice in a jelly roll or other shallow baking pan in a moderate (350 degrees) oven for about 10 minutes; place in a well-greased large bowl.

Melt together the caramels, marshmallows and milk over hot water or very low heat; stir to blend; pour over puffed rice, stirring until evenly coated. With buttered hands, shape into two 11 by 2-inch rolls; chill.

Melt chocolate and spread over candy rolls; roll in pecans; chill until chocolate is firm. About 10 minutes before serving, remove from refrigerator and slice.

If you want to brighten that discolored aluminum pan, make applesauce or cranberry sauce in it.

Add Instant Coffee for New Flavor

A dessert recipe, always popular, is repeated by request.

Carmel Custard Phyllis

1 package butterscotch flavored pudding mix
1 tablespoon powdered instant coffee
1 cup each heavy cream and milk

★ ★ ★

Stir together the pudding mix and coffee; cook according to package directions using the cream and milk as liquid. Cool.

Turn into sherbet glasses; chill. Top with whipped cream. Makes 4 to 6 servings.

Orange Segments

Ever cut navel oranges this way? Pare the orange so no white membrane remains; cut segments from top to bottom, placing knife halfway between each two dividing membranes. Each of the segments will then have the thin edible membrane in the center.

"CHARGE IT" AT KRESGE'S

WOMEN'S SECTION

Pontiac Press Photo

Five city sororities are cooperating in a fashion show April 6 to raise funds for furniture at the new Children's Village. Shown here with Mrs. Thomas C. Smith, senior supervisor of the center, are Judge Norman Barnard (center) and James Van Luven. The latter is director of child care facilities for Oakland County.

Fashion and Movie Help Children

Because a group of sorority women are concerned, the children at the new Children's Village will benefit.

Eight chapters of five sororities are joining forces to sponsor a fashion show and movie premiere April 6, 7:30 p.m. at the Huron Theater.

ALVIN'S FASHIONS

Alvin's will show spring and summer fashions, preceding the movie, "The Best Man," starring Henry Fonda and Edie Adams.

All proceeds will be contributed to the Children's Village for the purchase of furniture.

Mrs. Wallace Williams is general chairman of the event.

Her committee members include the following:

Mrs. C. B. Shelton, Mrs. Ernest Paine and Mrs. Merlin McNutt, Eta Xi chapter, Beta Sigma Phi; Mrs. Carl Thomas and Mrs. Paul Drinkard, Iota Eta chapter of the same sorority;

Mrs. Joe Burgdorf and Mrs. Ward Ross, Beta chapter, Beta Theta Phi;

EPSILON SIGMA ALPHA

Mrs. A. J. Latoza, Mrs. Anthony Grand, Mrs. William Kay, Alpha Alpha Alpha chapter, Epsilon Sigma Alpha;

From Beta Chi chapter are Mrs. James Vincent, and Mrs. Edgar Plympton; and from Beta Mu chapter, Mrs. Lawrence Hartman;

Mrs. Eddie O'Brien represents Psi chapter, Sigma Beta and Mrs. Richard Bowers, Beta Omicron chapter.

Tickets are available from any committee members or at the door the night of the show.

Installation

There will be an installation of new officers at the 8 p.m. meeting Friday for members of the Esther Court No. 13, Order of the Amaranth.

Ceremonies will take place in the Roosevelt Masonic Temple on State Street.

Plans Return to Nursing

Takes Course to Update Skill

Mary Ritter is returning to her profession; she's going back to nursing.

That seems a commonplace enough statement until you know that she has been away from nursing for 25 years.

★ ★ ★

It's the reason she is taking a refresher course for professional nurses at St. Joseph's Mercy Hospital.

Starting next Tuesday, Mrs. Kevin Ritter will put on her uniform twice a week and attend classes for the next two months.

HER SCHOOL

She'll be back at her alma mater where she trained and was graduated from in 1936. She worked as a nurse until her marriage in 1940.

Now, 25 years and eight children later, she's going back.

★ ★ ★

There have been tremendous changes in a nurse's job in that time.

Take obstetrical care, for instance.

In 1940, a woman who had a baby stayed in a hospital bed for 10 days. Now, she's often out of bed on the same day the baby is born and goes home in anywhere from three to five days.

ANTIBIOTICS

Consider medicines. All of the miracle drugs have been discovered and put into common use since the days of World War II.

★ ★ ★

Operations? Techniques have been improved. Hospitals have intensive care units.

Post-operative patients are gotten out of bed shortly after surgery instead of being bedfast for days, even weeks.

There may not be any new diseases, but there are many new treatments.

And nurses now play a greater administrative role on the floor than they did a quarter of a century ago.

There are nurse's aides and general helpers to do many of the jobs Mary Ritter considered standard when she trained.

There are some 1,500 registered nurses working in Oakland County. Another 1,300 are not practicing their profession.

Many of them are no longer tied to their homes; children are grown and time sometimes hangs heavy.

There is great need. Nurses are being imported. This is the reason that Mary Owens R.N., director of nurses at St. Joseph's, is enthusiastic about this course. Other courses may follow.

THEORY AND PRACTICE

After two months of practical clinical experience, correlated with classroom lectures, the out-of-practice nurse will regain her assurance and the satisfaction that goes with professional competence.

And backing Mary Ritter all the way will be her husband, her own eight offspring who range from 9 to 23 years, plus her husband's children by a former marriage.

How can she lose?

Pontiac Press Photo

Mrs. Kevin Ritter, Edgefield Drive, presses a new uniform in preparation for the refresher course in nursing she will begin next week. One of the students in a group to be brought up to date by St. Joseph's Mercy Hospital, Mary Ritter hopes to return to her profession.

Membership Not Restricted as These Joiners Would Like

By ABIGAIL VAN BUREN

DEAR ABBY: My husband and I recently joined a club in town. You have to be a war veteran to get in. You ring a buzzer and they open the door.

ABBY

Well, my husband and I were there one night and it was hard to find a veteran in the crowd. I saw several men who could have joined the service, but they hid behind a cow during the war years. Others I knew left good selling jobs to go to work in a defense plant so they wouldn't have to go. These men were let in just like members.

My husband had to pay a big installation fee to join this club. He also has to pay a monthly membership fee.

Don't you think he should ask for his money back and quit this club inasmuch as it isn't the kind of club we thought it was?

VETERAN'S WIFE

DEAR WIFE: That's up to your husband. Assuming he joined the club of his own free will, he has no one but himself to blame for not having learned more about the club and its "membership" before joining.

★ ★ ★

DEAR ABBY: What's the matter with people who move into an expensive house in a beautiful neighborhood and who don't even own a garbage can?

This neighbor lady just sets her garbage and trash out on the pavement in boxes, bags and sacks.

By the time it is collected, it has been dragged all over the neighborhood by dogs, or carried by the wind onto everybody else's property.

This neighbor wears expensive clothes and drives a high-priced car, so we know she can afford to buy a garbage can.

How can we let her know that the next time she goes shopping, the entire neighborhood would appreciate it if she'd buy herself one?

FED UP

DEAR FED: The next time you see her (and you can make it soon by calling on her with a batch of cookies) tell her you've noticed that she hasn't bought a garbage can yet.

Then recommend the kind you use, and tell her where she can buy it. If you are really "fed up," offer to "order" one for her.

You could solve your problem and hers, too, as she probably keeps forgetting to buy one.

★ ★ ★

DEAR ABBY: Ron and I have been married for four months and already we have a problem. I can't fall asleep unless I have the radio going. I keep it very low, but my husband says it keeps him awake.

★ ★ ★

He says part of the reason he can't sleep with the radio on is because he keeps thinking of all the electricity we are wasting with the radio going all night long and nobody listening to it. I tried to tell him that it didn't cost any more than if we had an electric clock running, or even a night light, but he doesn't look at it that way.

★ ★ ★

I even told him I would find out how much it cost to run that radio all night for a month, and he could take it out of my allowance. He said no. Should I tell him to go sleep on the couch? Or should I go?

TROUBLES

DEAR TROUBLES: If your husband is kicking about the noise, use an ear-plug receiver until you're ready to sleep yourself.

But if he's squawking about the COST, your electric company can estimate it for you. (It will add up to only a few pennies a month.)

★ ★ ★

DEAR ABBY: Now you've gone and done it! All of us loyal, faithful wives are "agin" you for saying a husband can love two women at the same time. That's like giving them a license to steal!

★ ★ ★

It may be true, but do you have to advertise it? Men get enough ideas without any help from you. Now I am wondering, will my husband come home tonight?

Margery Abbink Wins Betty Crocker Award

Margery Ann Abbink, senior at the Convent of the Sacred Heart, Bloomfield Hills, ranks second in the state in the 1965 Betty Crocker Homemaker of Tomorrow for Michigan contest.

The daughter of the John Abbinks, Bloomfield Hills, she will receive a $500 scholarship from General Mills.

★ ★ ★

Besides being a National Merit finalist, Miss Abbink has won various awards for essays and for French and was selected for participation in two science symposiums.

Her hobbies include art, swimming, sailing, riding, keeping an aquarium, playing guitar and sewing.

COLLEGE PLANS

She plans to enter Cornell University to study zoology, and eventually, marine biology.

High school activities include glee club, tennis, drama, sodality and literary club.

★ ★ ★

Since the Betty Crocker Search started 11 years ago, more than three-and-a-half million girls have enrolled, and scholarships are approaching the million-and-a-quarter-dollar mark. It is the only program of its scope exclusively for high school girls.

A total of 552,704 high school senior girls in 14,235 high schools throughout the nation were enrolled for the examination in December.

FIRST PLACE

Cheryl Ann Plumer of Eaton Rapids High School, Eaton Rapids, who has been named 1965 Betty Crocker Homemaker of Tomorrow for Michigan, will receive a $1,500 scholarship.

MARGERY ABBINK

CAROL JEAN KRATT

Mr. and Mrs. William P. Kratt, Foley Street, announce the engagement of their daughter, Carol Jean to David N. Skillman, son of the Harry B. Skillmans of Oscoda. They are graduates of Kalamazoo College and Central Michigan University.

Plan Swedish Exhibit in Cranbrook Galleries

By SIGNE KARLSTROM

Invitations are in the mail from the board of trustees of the Cranbrook Academy of Art and the Detroit-Swedish Council to preview the exhibition "Swedish Design Today."

It is sponsored by The Royal Swedish Embassy for April 9 in the galleries of the Cranbrook Academy of Art.

★ ★ ★

The exhibit showing nearly 300 items of glass, ceramics, textiles, and handcraft that depict the excellence of Swedish style and craftmanship is being circulated in USA by the Smithsonian Institution.

The Galleries will be open Tuesday through Friday 2-5 p.m., and Saturday and Sunday from 1-5 p.m. The exhibit remains through May 9.

Before Mrs. George Russell left on the Bloomfield Art Association's around-the-world-tour earlier this month, she attended to arrangements for the preview.

Mr. and Mrs. Ernest A. Jones and Mr. and Mrs. Oscar Lundin are hosts for the evening preview.

Assisting will be Mr. and Mrs. John M. Booth, Mrs. Elmer Benzin, the Marvin Andersons, Mr. and Mrs. Milton Coulson Jr., the LeRoy Dahlbergs, the Lawrence R. Nelsons, Mr. and Mrs. Jesse P. Judd, the Alton L. Wheelers, Consul and Mrs. Edward Johansson and Mr. and Mrs. Charles J. Koebel.

★ ★ ★

Mr. and Mrs. Wallace Mitchell will also be in the receiving line. He is director of the Cranbrook Galleries.

Sorority Unit Has Project

The Loberta Lane home of Mrs. James Greenwood was the scene this week for the meeting of Beta Omega chapter of Lambda Chi Omega sorority.

Artificial flower arrangements were made as an Easter project for the senior citizens at the Oakland County Medical Care Facility. A TV set has been purchased for the senior citizens also.

A bake sale is scheduled in May.

Overture to Opera Is Friday Evening

An 8:15 p.m. performance of "Overture to Opera" will be held Friday in the Bloomfield Hills High School, not tonight as was previously announced.

Tickets are available at Grinnell's in Birmingham or by contacting Mrs. Ralph Fox.

A New Ticking

Fire resistant mattresses are now on the market. A new ticking incorporating a layer of incombustible asbestos material and layers of fabric and cotton batting treated with fire-retardant resins, is reportedly fire-proof.

* * *

It is claimed to be non-irritating to the skin, has improved cleanability and added resistance to rot and mildew.

A little crushed pineapple leftover? Drain it thoroughly and add it to cream cheese for a sweet sandwich filling.

June vows are being planned for Gloria Jean McAmis and Ronald Alan Dumity. She is the daughter of Mr. and Mrs. Emory P. McAmis of North Pine Grove Drive. His parents are Mr. and Mrs. Stephen Dumity of Argyle Avenue.

Frame Close

Reproductions of oil paintings and oil paintings themselves should be framed "close" after the print has been mounted, advises the Picture and Frame Institute.

This means that the edge of the frame should be brought directly to the edge of the picture.

Oyster Takes Back Seat

New Pearls Owe Beauty to Herring

NEW YORK (NEA) — A special kind of herring is taking a large chunk of the pearl business away from the oyster.

Even the ocean inhabitants seem to know that competition makes for a healthy economy.

If you find it less than esthetic to wear pearls that owe their luster to a herring, ask yourself what's so esoteric about an oyster.

* * *

Pearls, queens of the jewel box, are the most versatile of all jewelry.

They can be worn with everything from sweaters to ball gowns. But if they are beautiful, they are also costly.

EXPENSIVE

Good cultured pearls are often beyond the means of many women. And until now all simulated pearls looked exactly what they were.

So here is where we get back to the herring.

* * *

The Treza, a new simulated pearl (developed by Richelieu) takes on the true luster of a cultured pearl when dipped into a pearlescent bath partially composed of the scales from a special type of herring.

No one at the plant will divulge the species. Every trade has its secrets, it seems.

"We must have men on the spot as soon as these fish are caught," a man at the factory explained. "The scales must be put into the bath immediately or they lose their value."

Meanwhile, back to the oyster.

It takes an oyster seven years to develop the perfect cultured pearl. A glass bead is inserted into the oyster and the waters where the beds will be placed are carefully chosen.

COATS BEAD

Irritants cause the oyster to throw off a nacreous (iridescent) solution and coat the bead. A slight roughness occurs which when coated again by nacre, gives a luminous look to the pearl.

This process goes on repeatedly over the years.

If the pearl is removed after only two or three years — and often it is — it is inferior in quality to those left in the oyster for the full seven years.

* * *

The Treza pearl is an innovation in the simulated pearl industry because its development scientifically parallels the seven-year effort of the oyster in just 10 days.

First, the finest shapes of alabaster glass beads are hand selected.

These are carefully mounted, one by one, on a board of sharp-pointed picks. They are then dipped vertically into the rich pearlescent bath.

Each dip yields just the right film thickness which is uniformly distributed around the bead by intermittent hand rotation of the board.

POLISHED

At intervals between the many coatings, each pearl is hand-polished and microscopic crystals are rubbed into the pearl, they serve as separating layers to create iridescence.

* * *

For 10 days the process of dip, polish, rough, dip goes on just as it does for years in the oyster.

* * *

The temperature and humidity are rigidly controlled in the dipping room.

* * *

In fact, the room was so dry that the photographer was afraid to use electronic speed light for fear a tiny spark might cause an explosion.

Even the walls of this room are thinner than those in the rest of the plant so that should an explosion occur, they will blow outward.

* * *

This step-by-step simulation of the oyster's role in pearl-making appears to have placed a flawless imitation pearl into everyone's price range.

* * *

When you see the Treza pearl, you'll think more kindly of the herring that made it possible.

Lustrous simulated pearls for daytime and evening wear now have the look of their costly cultured sisters at a price to suit the average budget.

HURON at TELEGRAPH

Duchess of Windsor Pattern

New from The Duchess of Windsor is this figure skimmer, gently shaped by a single seam that starts high at the front to touch the waistline briefly as it extends pointedly lower at the center back.

★ ★ ★

Bias cut for mobility, it's a breeze to make with only four major pattern pieces, and is fully lined. Noteworthy is the soft roll that extends and caps the shoulder forming a gentle fold below.

A season spanner, it can be made in virtually any fabric from cottons and linens to silks and lightweight woolens.

Spadea's exclusive ready-to-wear sizes produce a better fit. See chart for size best for you.

Sizes	Bust	Waist	Hips	*Length
10	34	24	35	16½ inches
12	35	25	36	16¾ inches
14	36½	26½	37½	17 inches
16	38	28	39	17⅛ inches
18	40	30	41	17⅛ inches

Size 12 requires 3¾ yards of 36" fabric for Dress. To order Pattern No. 58, state size; send $2.00.

Pattern Books Nos. 23, 24, 25, 26, 27 and 28 are available for fifty cents each or any three for $1.25.

★ ★ ★

Duchess of Windsor Pattern Book with 55 designs is available for $1.00 or all seven books for $3.50. Add ten cents postage for each book.

★ ★ ★

Career Is Most Fitting

ALLENTOWN, Pa. (AP) — From high-button shoes to pumps with stiletto heels, Harvey T. Rabert has seen countless changes in footwear styles during the 60 years he has been fitting shoes in Lehigh County.

★ ★ ★

The 69-year-old salesman, who still works a 40-hour week, started his career working in country stores but for the past 36 years has been employed as a fitter by a local concern.

★ ★ ★

Shoe-fitters today have a considerably harder task than those in the early days of the century, Rabert declares. "Back 50 or 60 years ago, you didn't have the variety you have today," he recalls. "Why, you couldn't begin to list the types and styles of shoes now."

The Stanley S. Oscendoskys of Ortonville announce the engagement of their daughter, Karen Ann to Jack Dale Lange, son of the Clarence T. Langes of Cloverton Drive. A June wedding is being planned.

Have You Tried This?

Sour Cream and Beets

By JANET ODELL
Pontiac Press Food Editor

How to dress up beets is always a problem.

Mrs. John Keenan who lives in Bloomfield Township has one answer. She fixes beets in sour cream for her family of nine children.

BEETS IN SOUR CREAM
By Mrs. John Keenan

1 can sliced beets or 4 large cooked beets sliced
salt and MSG
1 cup sour cream
2 tablespoons flour
2 tablespoons butter
1 teaspoon dill seed

Put beets in casserole and sprinkle with salt and MSG. Mix cream, flour, butter and dill. Pour over beets and sprinkle with buttered bread crumbs.

Bake 15 minutes at 350 degrees. Makes 4-6 servings.

Just Can't Beat That Action

BOSWELL, Okla. (AP) — Mrs. Zoe McDade lost a wrist watch 18 months ago while preparing okra for the deep freeze. No searching ever brought the lost object to light.

★ ★ ★

Recently, while frying okra she turned the browning vegetables and found her watch in the boiling oil.

Figuring that 18 months in the deep freeze, climaxed by immersion in the hot fat had already ruined the watch, she just washed the grease off under the hot water tap.

She gave the stem an experimental turn, and it started ticking — keeping time perfectly.

Slip Glasses In

Here's a trick for safely sudsing fine glassware in very hot water: slip each piece into the water sideways or edge first, instead of just "plopping" it in.

F. F. Piggins to Address Church Unit

The Episcopal Churchwomen of Christ Church Cranbrook will welcome Frederic F. Piggins as guest speaker at their afternoon meeting on Tuesday.

★ ★ ★

Mr. Piggins, a native born Detroiter, has been engaged in the general practice of law in that city and is a member and elder of the Jefferson Avenue Presbyterian Church where he teaches an adult Bible class.

His subject will be "The Legal Aspects of the Arrest and Trial of Jesus Christ."

★ ★ ★

Before the noon luncheon the Rev. Mr. Michael Nesbitt will present his fifth and final lecture on the writings of St. John.

Luncheon reservations must be in the church office by Monday.

Cream cheese mixed with loads of minced pimiento-stuffed green olives makes a delightful sandwich filling; for each sandwich, use one slice of white bread and one of whole wheat.

Transform an ordinary shoe box into an attractive tote bag for heels. Two patterns of adhesive covering will make it waterproof. Cover all but sides of the box with a solid color. Apply a patterned covering to sides and as a decorative decoration on the cover. Punch holes in each end and on the cover (as shown) and thread through a leather or braid carrying strap. This will hold the lid in place.

How to show off your Kimberly knit — add a handful of glamour

And you'll come up with a crack performer. Kimberly tailors this pure wool knit 3-piece costume with a shaped jacket, short sleeve blouse and slim skirt; in crimson with white, and blue with white, 6-16, **$75.** Wear it with a black patent handbag trimmed with an oval bracelet tortoise shell handle. **$15*.**

Entertains Music Guild

Elda Sutter of West Iroquois Road was hostess this week to members of the Pontiac Music Guild. Mrs. Carl Clifford acted as cohostess.

★ ★ ★

Mrs. Richard Kern and Mrs. Rebecca Gould were guests.

Miss Sutter presented an organ program and Mrs. Don Derragon conducted a panel quiz.

The April meeting will be in the Rochester home of Mrs. Clarence Sheppard.

Remove Pulls

Before you wash window shades, remove the pull cords. Swish these through soap or detergent suds, rinse, pull them taut, and hang to dry before replacing them on the clean shades.

Queen Size in Demand

The queensize bed is closer to replacing the standard double bed than most people realize. Last year, the bedding manufacturers and leading retailers agreed to eventually replace the standard bed (54"x74") with the queen (60"x80").

★ ★ ★

Furniture manufacturers are now producing queenside bedsteads in hundreds of different designs. And leading bedding industry planners are forecasting that if you want a standard double bed five years from now, you will have to place a special order for it, because queenside beds will be regulation.

Introducing
An important name in fashion . . .

FIANCEES

Getting around anywhere is fun with Fiancees' fashionable shoes. The two styles shown here are just part of our new spring collection.

PEEK-A-BOO SIDE CUT OUT PUMP in gleaming patent. A beautiful coordinate with most every spring and summer costume. Mid-Heel scaled to your taste in black, bone or blue.

14.99

Take off this Spring in a perky, flippant sling pump in black patent or bone calf, in a high slim heel. The elastic strap guarantees perfect fit for it never slips down.

Pair Tours Virginia After Vows

The newlywed Mr. and Mrs. Mike Whitley Eddins Jr. (Nancy Ann Althouse) are touring Virginia and North Carolina following recent vows and reception in the Presbyterian Church of Utica.

Their parents are Mrs. Paul E. Prange of 24 Mile Road, Shelby Township, Arnold D. Althouse of Leonard and the Senior Mr. and Mrs. Eddins of Utica.

★ ★ ★

David Althouse of Houghton escorted his twin sister at the candlelight rite performed by Rev. Robert Kyser.

ROSE POINTE LACE

With her gown and train of rose pointe lace and white peau satin, the bride wore a lace tiara and bouffant illusion veil.

A white orchid corsage centered her bouquet of Stephanotis and ivy.

★ ★ ★

With maid of honor, Kathy Grogan were bridesmaids Linda Kabacinski and Elizabeth Schwartzkoff.

On the esquire side, were best man William Warner and ushers Albert Warner and Paul Pagozelski, all of McKees Rocks, Pa.

James Balten Jr. of Utica and Harold C. Bennett Jr. of Rochester completed the usher list.

Next time "the girls" come to lunch, you might serve Spoon Bread with bacon and broiled tomatoes. Add a tossed green salad and you'll have a wonderful menu.

Bride-Elect Is Allowed Preference

By the Emily Post Institute

Q: I am a widower in the mid-thirties and have a 10-year-old son. My fiancee has never been married before and she wants to have a large formal wedding.

My wife has been dead for two years but her parents have never quite recovered from the shock of her sudden death.

★ ★ ★

When we were married, we had a large formal wedding. Although I realize the wedding preparations are the prerogative of the bride, I am a bit embarrassed to have a second large wedding with all the fanfare.

Will you please tell me if a large wedding is proper under the circumstances?

★ ★ ★

A: As this is your fiancee's first marriage, it will be entirely proper for her to have a large formal wedding if that is what she wishes, and there is no reason why she should be deprived of this because of your previous marriage.

Your friends and relatives will surely realize that a large wedding is your fiancee's and not your choice and there is no need for you to feel embarrassed.

FLOWERS

Q: At a woman's club banquet where there is a prominent woman guest speaker and two or three other speakers of lesser importance, are all presented with corsages, or just the guest of honor, or is it not necessary to present any of them with flowers?

A: A woman guest of honor at a banquet is always presented with a corsage and when there are other women speakers, small corsages should be put at their places because it is rather slighting to see one person — no matter how prominent — covered with flowers and the others with none.

There's a wealth of cooking conveniences in this new General Electric Range—the 40-inch model has two ovens with one of them self-cleaning. No need to worry about spatters from the rotisserie. The two-shelf companion oven is ideal for small family meals, for cakes and casseroles. This complete cooking center comes in white, pink, yellow, turquoise, woodtone brown and coppertone.

Dry Suds Made Easily

An easy way to prepare "dry" suds for shampooing upholstery is to beat up a mixture of soap or detergent with a little warm water.

★ ★ ★

Make sure the lather is so stiff that no liquid remains at the bottom of the bowl.

MR. AND MRS. VERN HARTUNG

50 Years for Hartungs

On the event of their golden wedding anniversary there will be an open house honoring Mr. and Mrs. Vern Hartung of North Midland Drive.

★ ★ ★

The First Presbyterian Church will house the Sunday celebration from 2 to 5 p.m.

The Hartungs children, Glen, Mrs. Dolph Goode, Ray, Mrs. James Meredith, all of Pontiac, and Mrs. Benjamin Evans of Rochester are feting their parents. The couple's marriage on March 27, 1915 was performed in Pontiac by the late Rev. Rufus M. Traver.

★ ★ ★

They are grandparents to 22 and have six great-grandchildren.

Informative

Daily Newspaper Teaches

By DR. GEORGE W. CRANE

CASE V-438: Brad G., aged 32, is a high school teacher.

"Dr. Crane," he began, "I am a substitute carrier on a rural mail route for a few weeks in the summer to help supplement my income.

DR. CRANE

"And I have made a rough analysis that might be of interest to parents.

★ ★ ★

"Many of these farmers subscribe to a daily newspaper, which I would deliver on my route.

"And I found that the farm homes which received a daily paper contrasted very sharply with those which did not.

★ ★ ★

"For I checked back against the school records of the farm children and found that those from homes lacking a newspaper, were uniformly in the bottom third of their class.

IN UPPER THIRD

"On the contrary, those children in homes where they not only received a daily newspaper but also educational magazines, whether church journals or farm magazines or Reader's Digest, were typically in the upper one-third of their class in school marks.

"Moreover, all the high school seniors last year who then went on to college, were from homes that received a daily paper!"

★ ★ ★

"I checked and found that 40 per cent of our graduates did not try to enter college and only two of their homes received a daily paper!"

EDUCATIONAL SHERLOCKS

Such clever detective work as Brad describes should inspire all parents to "brainwash" their children with deft prodding to become swift, facile readers!

For reading is the motor of the entire educational machine.

Even if your child has a high I.Q., if he is a poor reader, he will probably drop out of high school or have little interest in going on to college.

And the time to produce a good reader is before kindergarten!

"Brainwash" your kiddies favorably toward books, magazines, reading games, etc.

START YOUNG

Let the toddlers point out various animals in their juvenile books, and then link up the sounds made by those creatures, with their pictures as well as their printed names.

You can do this even with children from two years old and onward!

★ ★ ★

Remember, the earlier you can train a child to look with joy and delight upon books, magazines and newspapers, the more likely you have raised his school marks and predisposed him to enter college!

Beware, too, that you busy college parents don't overlook this vital "brainwashing."

For many brilliant parents have children who are poor readers and who thus shun college preparatory courses in high school.

Parents, your own college degrees don't "rub off" on your youngsters!

You must "brainwash" your child early if you wish him to enter college!

For it is this early fondness for books that usually spells the difference between dropouts vs. honor students!

(Always write to Dr. Crane in care of The Pontiac Press, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

This 1965 Hotpoint hi-oven range features patented Teflon-coated oven wall panels and gleaming chrome oven floors, all removable for easy cleaning. Kitchens stay sweeter. No-scrub cleaning is coupled with a smokeless, closed door broiling system. Smoke and grease are removed by the oven vent and dissipated through the exclusive filter vent system. Smokeless surface cooking is assured by the same vacuum air filter vent. Steam and odors are directed into the filtering system behind the surface units before they can enter the kitchen.

Fine Furs Need TLC

NEW YORK (NEA) — For most of us, a good fur coat is a big investment and in order to protect that investment we should have professional advice on how to give it TLC — tender, loving care.

★ ★ ★

Michael Forrest (who selects and designs furs for Coopchik-Forrest) makes these suggestions:

- Mink is very hardy and can be subjected to more wear and tear than Russian broadtail, for example, which is delicate. The best wearing furs are mink, Alaskan seal and Persian lamb.
- Furs should never be brushed or fluffed by a layman. Longhaired furs should only be shaken out if they get wet or crushed.
- It is better to store furs in a closet with ventilation. Closed closets are generally too hot and stuffy.
- It is impossible for a layman to mend rips or tears in a fur as a special machine must be used with a "lapping" stitch for proper repair.
- A fur garment should not be reglazed every time it is subjected to rain or snow. Normal drying, away from heat will suffice. A vigorous shaking will bring back the beauty.

Look for the following points when buying furs:

- Always buy from a legitimate store with a good reputation.
- What looks good usually IS good.
- There are no miracles in the offing where price is concerned. What is sold at a cheap price will be a cheap fur.
- A natural fur will wear better than a dyed fur for the color will hold out for a longer time.
- A fine coat will have an expected lifetime of 10 to 15 years. A less expensive one will look good only for two or three years.
- The career girl would be wise to choose a fur that will be accepted for both day and evening wear.

★ ★ ★

According to Forrest, little furs, such as a muff, hat or small neckpiece lend glamor to a woman's ensemble. If you don't have the budget for a stole or cape, a smaller piece will add dash to your costume.

But whether your fur wardrobe consists of several coats or only a set of mink collar and cuffs give it the care that fine fur deserves so that it will serve you for years to come.

Not Twice for Him

EUREKA, Calif. (AP) — Municipal Judge Robert Conners was a bit startled when Deltona Pardue asked that a different judge try Mrs. Pardue's assault charges against him. Pardue reminded the judge that "You married us and got me into this and I want somebody else to get me out."

The request was granted.

Serve your youngsters their morning oatmeal with honey and sliced bananas; they'll consider this combination a treat!

Advance Pledge Is Only Worthless

By MRS. MURIEL LAWRENCE

Commenting on a bill seeking to raise New York State's drinking age from 18 to 21, the majority leader of the state Senate, Joseph Zaretski, asserted, "I don't think you can stop teenage drinking by law. The home influence is the best preventive I know."

* * *

But what if there isn't any home influence?

Why do you suppose that so many politicians feel obliged to talk like Rip Van Winkles?

Doesn't the majority leader read the papers? Has he never heard of "permissiveness" — that theory of child training which has substituted protoplasm for the backbone of the formerly vertebrate American parent?

* * *

Has nobody ever told him about the invention of the automobile — that vehicle so admirably adapted to distance-making between "home influence" on the young and the more indulgent influence of a fifth of whisky?

How long has he been asleep to be so unaware that teenage America not only controls "home influence" but much of this country's economy — the profits of recording companies, the careers of disc jockeys, rock 'n' roll singers, the sponsorship of radio and television programs? Doesn't he know that teen-age America speaks its own language, wears specialized clothing, chooses its own hours and goes its own way — in short, that it operates what sociologists call a "sub-culture." Too often that sub-culture is a foreign country as irresponsible and undisciplined as the darkest Africa.

The majority leader ought to get around a little more.

I wouldn't dream of asking him to spend a couple of days in a slum ghetto where the latent violence of idle, frustrated teen-age America hits you like a blow in the face. I was just thinking about a visit to one of those nice, suburban high schools where the nice, suburban kids take drugs.

* * *

It's awfully hard on parents to be made responsible for it in this affluent society where one marriage out of three ends in divorce, where college officials romanticize student sexual license in the name of "relationship" and where the automobile speeds our children away from our "home influence" every night in the week. If may not be possible to ever recover it in this so prosperous world whose chief purpose often seems "Give me fun now. I'll buy and pay later."

Frozen Pans for Cookies

The aluminum foil pans which frozen foods come in can be used for baking cookies.

* * *

Cookies bake quickly in them, and the pans require no greasing and are easily cleaned.

Malnutrition

A survey by the Food and Agriculture Organization of the United Nations shows that 10 to 15 per cent of the world's people "are undernourished and up to a half suffer from hunger or malnutrition or both."

Electrically charged gold leaf is being used by surgeons to prevent post - operative adhesions and to patch blood vessels.

The Frank Keeltys of Silver Berry Street, Commerce Township, announce the engagement of their daughter, Bonnie Louise to Frank Lawrence Bader Jr., son of the senior Baders of Whittemore Street. The couple plans to wed in July.

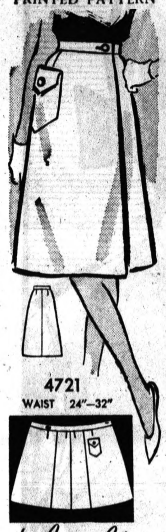

The engagement of Carol Lynn Norris to James H. Higgins is announced by her mother, Mrs. Mary A. Norris of Waukegon Street, Pontiac Township. She is also the daughter of the late Guy L. Norris. Mr. and Mrs. Robert H. Higgins of Yale are her fiance's parents. Wedding vows are set for July 10.

The Alger R. Parents of Walled Lake, announce the engagement of their daughter, Shirley Ann to Carl Henry Martin, son of the John R. Martins of Davison. Her fiance attended Miramar College, Duxbury, Mass., and is currently a junior at the University of Detroit. June vows are planned.

Question Two in Strangling

Mother Is Murdered in Suburb of Detroit

DETROIT (UPI) — Two men in the life of a young mother found strangled in Highland Park, were questioned yesterday about her death.

One, a Pennsylvania insurance man, said he gave Mrs. Janet Sue Benson, 20, between $20,000 and $35,000 in cash and gifts during the past month.

The other, a 31-year-old graduate student at Wayne State University, said he was Mrs. Benson's boyfriend, and it was he who had notified the apartment house manager that he could not reach her by phone, and was with the manager when he opened the door and found the woman dead.

The student told police that he "got scared and ran" when he saw the body of Mrs. Benson lying on the floor. He also told police he made bank deposits for the woman with the money she had received from the insurance man.

★ ★ ★

The body of Mrs. Benson was found Monday night. She had been strangled with her blouse. The blouse was wrapped tightly around her neck.

MAN TRACED

The Pennsylvania man was located through the registration of a new automobile found parked in the apartment building lot.

He flew to Detroit at the request of police, and said he had given her the car, two diamond rings, $10,000 worth of furniture, two coats and other clothing along with cash.

Mrs. Benson was the mother of two small boys. She lived in an apartment in St. Clair Shores.

★ ★ ★

The apartment where she was found had been leased to Mrs. Ruth Fennmore, 21, but police located her at another address and she told them she had moved out of the apartment a month ago and turned it over to Mrs. Benson.

She said she had met Mrs. Benson about a week before that, and had not seen her since turning over the apartment to her.

Six Fliers Killed in C125 Crash

EASTON, Md. (UPI) — Air Force investigators today sifted through the wreckage of a giant C125 Globemaster which crashed and burned in a wooded area near here, killing all six crew members.

A spokesman said the investigation would probably continue for several days at the scene of the crash, which occurred yesterday about half an hour after the plane had taken off from Dover Air Force Base, Del., on a training flight.

The four-engine plane, assigned to the 9th Troop Carrier Squadron at Dover, plowed into a wooded area about three miles east of the small shore community of Cordova, Md., strewing fragments over an area of five or six acres. The fuselage burrowed a hole deep in the earth.

One wing of the propeller-driven transport was found half a mile from the main body of the wreckage. Eyewitnesses said the wing had fallen from the plane following an explosion, causing it to plummet to the ground.

★ ★ ★

Firemen from four surrounding communities fought flames that shot a dozen feet high for several hours after the crash.

"It was engulfed in flames," said one eyewitness, V. T. Linzey of Timonium, Md., "it was all ablaze when it came down in the woods and exploded."

VICTIMS IDENTIFIED

The Air Force identified the victims as Lt. Col. William C. McCamy, 44, pilot, of Miami, Fla.; Maj. Ricard A. Davis, 44, pilot, of Seattle, Wash.; Maj. Joseph E. Malkiewicz, 39, flight pilot examiner, of Dover; Capt. Garland J. Isiminger, 33, pilot, of Woodruff, W. Va.; M. Sgt. Joseph E. Tal, 35, flight engineer examiner, of East Paterson, N. J.; and S. Sgt. John R. Wilsford, 31, flight engineer, of McEwen, Tenn.

Red China Students in Moscow Pressing for Protest

MOSCOW (AP) — Chinese students in Moscow are trying to organize another attack on the American Embassy in defiance of Soviet warnings that they will be punished.

Under Peking's orders, they are seeking a showdown on the angry turn in Soviet - Chinese relations caused by the last stone - throwing demonstration against U.S. policy in Viet Nam.

Red army infantrymen quelled that demonstration March 4 after Chinese-led students fought off police attempts to restore order. Moscow and Peking have been exchanging heated accusations over it since then.

Student sources said today the Chinese have been asking other foreign students in Moscow to join them in another demonstration at the U.S. Embassy.

The Chinese apparently are also trying to incite African students to demonstrate over the unexplained death last week of a student from Ghana.

★ ★ ★

When a Ghanaian student died mysteriously in the Soviet Union in December 1963, about 500 angry Africans demonstrated in Red Square against Soviet authorities.

STOCKHOLM, Sweden (AP) — The Swedish government has refused to let U.S. military helicopters fly across Sweden to NATO maneuvers in Norway, the newspaper Dagens Nyheter said today.

The helicopters, based in West Germany, were to fly to Bardufoss in northern Norway to take part in war games with 10,000 troops of the North Atlantic Treaty Organization.

The U.S. Embassy asked permission for the aircraft to pass over western Sweden and make a short stop, the paper said.

★ ★ ★

No official reason was given for the rejection. Normally military aircraft are allowed to pass over neutral Sweden if they are unarmed and do not carry cameras.

VIENTIANE, Laos (AP) — An army post in southern Laos was captured and burned Tuesday by a Communist force of 500 soldiers, an army spokesman announced today.

Col. Sisamouth Sananikone said Communist troops from North Viet Nam attacked Keng Sin, 18 miles northwest of Saravane.

Sananikone said the Laotian garrison withdrew under attack, losing some equipment. He said the Communists then burned the post, the entire village and some rice fields before withdrawing.

★ ★ ★

The army also announced that Lt. Phoumano Nosavan, eldest son of ousted Vice Premier Phoumi Nosavan, escaped last night from the military camp near Vientiane where he had been held hostage.

Steels Show Strength

Stock Mart Irregularly Higher

NEW YORK (AP) — A show of strength by steels and selected issues featured an irregularly higher stock market early this afternoon. Trading was fairly active.

The steels seemed to be bolstered by record sales of their best customer, the auto industry, brokers said.

★ ★ ★

Gains of most steels were fractional, some going to a point or so, but activity in some of the leaders was fairly heavy.

The Street seemed to be taking in stride the verbal threat of stepped-up Communist activity in Viet Nam. Aerospace defense issues were somewhat higher on balance but there was nothing of the "war scare" complexion about the market.

A higher trend prevailed among rails, utilities, chemicals and nonferrous metals. Autos were mixed, as were airlines and drugs. Tobaccos declined.

The Associated Press average of 60 stocks at noon was up .6 at 337.0 with industrials up .5, rails up .5 and utilities up .3.

★ ★ ★

Ford, up nearly a point, was the strongest in its group, based on a sharp rise in sales. General Motors sank nearly a point. Chrysler rose a fraction. American Motors eased. Studebaker was active but unchanged.

Du Pont was up about a point. Prices were generally higher in active trading on the American Stock Exchange. Up about 2 were National Video "A", and A.C. Gilbert and Statham Instruments.

★ ★ ★

Corporate and U.S. Government bonds showed scant change.

Catholics Split on Birth Curbs?

Papal Study Group Is Meeting in Secrecy

ROME (AP) — A special papal commission reviewing birth control questions, including the new contraceptive pills, met here today in secrecy to draft its first report to Pope Paul VI.

Informants said the commission is deeply divided on the use of the pills.

Vatican officials imposed special secrecy on the commission's work, refusing even to name the 40 members.

Their three-day meeting was set up at the secluded Spanish College on the old Aurelian Way.

★ ★ ★

Priests and seminarians at the college were bound to the same rules of secrecy as the commission members.

COMPLETE STUDY

The commission was set up by Pope Paul last June, when he said he wanted a complete study of all aspects of birth control in view of modern developments, an apparent reference to the pill and the population explosion.

He said practical and theoretical aspects should be examined, with conclusions reported to him as soon as possible.

Sources said the commission was divided into three camps:

● One felt Roman Catholic opposition to any birth control measure except the rhythm method must remain unchanged

● A second group was said to favor restricted use of the pill, presumably in connection with the rhythm system;

● A third group advocated liberal use of the pills with few limitations.

★ ★ ★

There was no indication which view might prevail.

WALKS OF LIFE

Commission members are said to come from several nations. They are moral theologians, psychiatrists, physicians and other experts. Some are said to be professors at Roman Catholic religious colleges and universities in Italy.

★ ★ ★

The Roman Catholic Church has opposed all forms of contraception except for continence or periodic continence in the rhythm system, but even in allowing the rhythm system, church teaching has been that couples must use it only if they feel they have valid reasons for limiting the size of their families.

Soybeans Continue in Market Advance

CHICAGO (AP)—Prices were generally steady to firm in the grain futures market today with soybeans extending their gains for about 2 cents a bushel in early dealings on the Board of Trade.

Soybeans were ¼ to 1¾ cents a bushel higher shortly before the end of the first hour, May $2.97; wheat ⅛ to ⅛ lower, May $1.49¾; corn ¼ to ½ higher, May $1.32¾; oats ¼ to ½ higher, May 69⅝ cents; rye unchanged to ½ higher, May $1.21⅞.

As 1st Quarter Ends

Economy Zooms Ahead

By SAM DAWSON
AP Business News Analyst

NEW YORK—The final days of the year's first quarter are seeing a spurt that is pushing the nation's economy to an unexpectedly high level. It is making this spectacular gain with the help of some unusual incentives, such as fear of a steel strike, but also in the face of some setbacks that normally would have dragged it down.

DAWSON

First estimates put the gain in the first three months of 1965 as perhaps the largest since World War II.

★ ★ ★

This was accomplished despite:

Blizzards that cut factory production, notably of autos, at times in the industrial Midwest and Northeast;

DOCK STRIKES

Dock strikes that for weeks paralyzed traffic in and out of Atlantic and Gulf ports and stymied production of export goods, and an up and down stock market that reflected investor — and business — concern over international developments and over the very age of the present business upswing, now into its fifth year.

The economy admittedly has been helped by nervousness over a steel strike deadline May 1 which has led users to try to build up inventories as a hedge and record auto production and sales with much of the demand, at least in the first weeks of the year, traceable to catching up after the auto strikes of last fall.

★ ★ ★

But steel's record production now is due to other things besides just strike hedging. Use of the steel has risen so high that purchasing agents haven't been able to build up the inventories they set as goals.

Auto sales are running far above a year ago, with last fall's strikes almost forgotten. Latest sales figures show some models running ahead of this time last year by from 19 to 36 per cent.

NEW CONSTRUCTION

Spending for new construction, despite lagging housing demand, is now running well above the first year as well as far above year ago figures.

The economy's big upward surge thus seems tied to other things than just nervousness over labor troubles in the offing or effects of past strikes.

★ ★ ★

Commerce Secretary John T. Connor says the first three months are seeing "one of the largest quarterly increases of the postwar period" in that measure of private and government output of goods and services, the Gross National Product.

The biggest jump since World War II was the $18.8-billion annual rate gain in the third quarter of 1950, just after the start of the Korean War set off a firecracker under the economy.

FINAL 3 MONTHS

In the final three months of 1964 GNP was at a record annual rate of $634.6 billion. An upsurge in the current three months as big as that previous record jump would bring GNP to $653.4 billion. This is far above predictions at the start of the year.

Connor says consumers may be the key to the better-than-expected performance of the economy just now. He notes that after-tax personal income now is running at a record high. In the last four years it has increased, on a per capita basis, by almost 20 per cent. Allowing for price increases, the gain is 14 per cent.

★ ★ ★

The commerce secretary thinks further boosts this year in disposable income is leading consumers to buy and buy, and industry to produce and produce.

Meany Urges Voting Rights Bill Expansion

WASHINGTON (UPI) — AFL-CIO President George Meany said today President Johnson's voting rights bill should be expanded to prevent "the night stick or night riders" from depriving Negroes of the ballot.

In testimony prepared for a House Judiciary subcommittee, Meany supported the bill's objectives but he called for strengthening amendments.

"It is quite evident that a bill aimed solely at literacy tests and other formal legalistic barriers to registration will not do the whole job," Meany said.

The labor leader said that fear and intimidation also might be used to keep Negroes from voting. For that reason, he said, "We therefore urge that the bill be broadened.

★ ★ ★

"We think its remedies should be available in any situation where there is widespread abridgement of the right to vote in violation of the Constitution, whether that deprivation is effected by the fountain pen or the night stick or night rider," Meany said.

MORE QUESTIONS

As Meany testified at the House hearing, Atty. Gen. Nicholas Katzenbach was recalled for his third day of questioning by the Senate judiciary committee on the voting rights measure.

Senate Republican leader Everett M. Dirksen, Ill., said he expected the committee to vote changes in the bill that would make it "more acceptable" to the Senate and speed its passage.

Dirksen said he planned to offer one change that would shorten to less than 10 years the period a state or locality must be free of discrimination to get out from under the proposed new law.

★ ★ ★

He said that Sen. John J. Williams, R-Del., also would make a proposal to broaden the bill so that it would cover bribery and related offenses designed to deprive a person of voting rights.

BROADEN BILL

Sen. Jacob K. Javits, R-N.Y., said he would fight to broaden the legislation to include counties where less than 25 per cent of Negroes are registered to vote.

Javits said he would take his proposal to the Senate floor if the committee refused to approve it. Katzenbach agreed with Javits in principle yesterday on the plan, but said it would not be workable.

Meany told the House subcommittee that the proposed standard on percentage of residents registered or voting in last fall's election should be revised to take into account the percentage of nonwhite voters registered.

★ ★ ★

Otherwise, he said, many areas that now discriminate against Negroes would be excluded.

Opening lead—♥K

By JACOBY & SON

When two overbidders get together they are likely to bid in a way that would make strong men cower in fear, but if the overbidder who gets to be declarer happens to be a good card player he will bring home quite a few of these over-optimistic contracts.

JACOBY

South's diamond opening was sound and he was not going to sell out at two diamonds. Hence his two spade rebid. Overbidder North was distinctly worried about his two diamond bid. He had 11 high card points and five diamonds and had really wanted to jump to three diamonds. Therefore, when his partner bid two spades, North felt that he had to take strong action. He ignored the fact that his queen of hearts was just so much waste material and that his partner would probably hold only four spades and jumped right to the spade game.

West opened the king of hearts and continued the suit. South ruffed the second heart and noted that while the contract wasn't one to cause bells to ring that there was a play to make it provided that every suit broke perfectly for him and that the one thing he could not afford to do would be to pull trumps.

Therefore, South proceeded to knock out the ace of diamonds. West made his best defensive play by leading a third heart.

South ruffed this in dummy and still could not do anything about the trumps. He had to knock out the ace of clubs first.

East got in with the ace of clubs and led a fourth round of hearts. South ruffed this in dummy also. Then he overtook dummy's king of trumps with the ace and led out his last two trumps. When both opponents had to follow to the third trump lead South was able to claim the rest of the tricks.

CARD Sense

Q—The bidding has been:

East	South	West	North
1♥	2♠	4♥	Pass
Pass	4♠	5♥	Dble
Pass	?		

You, South, hold: ♠AQ1084 ♥2 ♦2 ♣KQJ986

What do you do?

A—Pass. Your partner has said that he thinks you can beat five hearts and you have just about what your bidding has indicated.

TODAY'S QUESTION

West redoubles and North and East pass. What do you do now?

Answer Tomorrow

Astrological Forecast

By SYDNEY OMARR
For Friday

"The wise man controls his destiny . . . Astrology points the way."

ARIES (Mar. 21 to Apr. 19): Tremendous urge evident to express yourself. Be wary of associates who are envious. Be sure meanings are clear. Be specific. Don't permit others to twist interpretations.

TAURUS (Apr. 20 to May 20): Face news, information, facts—strive for MATURITY. Don't attempt to deceive yourself. Others will rally to your cause. If you are willing to accept added responsibility—you succeed.

GEMINI (May 21 to June 20): Friend due to service you by repaying past favor, debt. Be gracious. Don't revive past annoyance. Advice received yesterday should not be put into effect. Go to it!

CANCER (June 21 to July 22): Accent originality of thought, action. Obstacles are merely challenges. Maintain this attitude. Don't be discouraged by delay. Set your own pace. Be aware—and brilliant!

LEO (July 23 to Aug. 22): Word may reach you concerning employment. Be cautious! Don't jump at first offer. You have numerous assets to EVALUATE THEM. May not be really necessary to make radical change.

VIRGO (Aug. 23 to Sept. 22): Tendency exists to scatter forces. You are ambitious, adventurous today. Permit logic to rule emotions. Then you get what you need. Otherwise, time and energy are wasted.

LIBRA (Sept. 23 to Oct. 22): Discussion in your home would be constructive. But stick to facts. Avoid self-deception. Facing reality is healthy indication. Set example. Tackle chores with enthusiasm, imagination.

SCORPIO (Oct. 23 to Nov. 21): Communications dominate day. Necessary to DELIVER MESSAGES PERSONALLY. Stress simplicity, honesty. Others will respond. Don't put up with unnecessary complications.

SAGITTARIUS (Nov. 22 to Dec. 21): Check possessions. Need advice of one who advises concerning bargain. Pay special attention to budget. Involving collecting. Day to add BEAUTY to surroundings.

CAPRICORN (Dec. 22 to Jan. 19): Check yourself if tempted to make unkind statements. Be especially considerate of loved ones. Many around you are supersensitive today. Highlight ACTS.

AQUARIUS (Jan. 20 to Feb. 18): Discard stories based on rumor. Be example by adhering to highest principles. Say YES to opportunity. Be charitable. Give loved one benefit of doubt.

PISCES (Feb. 19 to Mar. 20): Friendships mean much. Degree of UNDERSTANDING is increased. Fine for helping others to help themselves. Be a sympathetic listener. Best to complete romantic projects. Attend to details.

★ ★ ★

IF FRIDAY IS YOUR BIRTHDAY . . . you have uncanny talent for doing right thing at right time. Have confidence in your decisions. Then you succeed in materialistic way. You could be a very prosperous individual.

★ ★ ★

GENERAL TENDENCIES: Cycle high for AQUARIUS, PISCES. Special word to LIBRA. Read between the lines. Be aware of tendency toward exaggeration.

Unless Situation Improves for the Turkish Cypriots

Latest Moves in Ankara Strongly Indicate Turkey May Go to War Over Cyprus

By HAL McCLURE

ANKARA, Turkey (AP) — Will Turkey really go to war over Cyprus, that perpetual trouble spot in the eastern Mediterranean?

Latest moves in this capital give every indication of an armed clash unless, in Ankara's eyes, the situation improves for the Turkish Cypriots.

There is no doubt the latest crisis — the fifth since the island was torn by communal warfare at Christmas 1963 — is different.

* * *

There is a new, seemingly tougher Turkish government in power. Ex-Premier Ismet Inonu, a former general, no longer has his restraining hand on the military.

HEAVY ARMS

The reported importation into Cyprus of heavy arms — much of it of Soviet origin—had sharply heightened the concern of the United States and other North Atlantic Treaty Organization nations.

American officials here find the United States does not have the same official contacts it had in Inonu's regime.

* * *

Formerly American officials here were filled in on most developments and were able to apply pressure to keep the Turks a step short of invasion.

But the peacemaker role won few friends for America in Turkey.

NEW PREMIER

The new premier, Suat Hayri Urguplu, an independent, heads a four-party coalition that replaced Inonu's Republican People's party last month. He indicated a lack of much personal power when he told the Americans he follows coalition order as "I am only chairman of the board."

When the politicians of the coalition were in opposition to Inonu they were highly critical of his Cyprus policy.

Now they have a chance to show what they can do.

Intelligence sources say there is no doubt that heavy arms from the Soviet Union have been arriving in Cyprus for the Greek Cypriots via the United Arab Republic. This equipment reportedly includes tanks, torpedo boats and a number of ground-to-air missiles.

GREECE RESPONSIBLE

The NATO nations and Washington hold Greece responsible for the imports and have made representations to Athens.

* * *

What is Turkey after?

Urguplu has stated he is willing to sit down and talk with the Greeks at any time and without any advance conditions.

* * *

Of immediate concern, say Ankara officials, are the conditions of the Turkish minority community on the island.

Ankara wants alleged harassing of the Turkish Cypriots halted.

TROOP ROTATION

Another immediate problem is rotation of more than 300 regular Turkish army troops in Cyprus.

* * *

Rotation was delayed at the request of Greek Cypriot President Markarios, but now the Turks say they will land replacements on the island Sunday. They don't expect trouble but, coincidentally, naval maneuvers are scheduled for the same period. Makarios said Wednesday he would not oppose the rotation.

Junior Editors Quiz on MOON'S SURFACE

QUESTION: Why can't we see the other side of the moon?

* * *

ANSWER: Our artist shows three young people posing as if they were members of our solar system. Edna-the-earth would take a full year to circle around Sam-the-sun.

But in the meantime, Mickey-the-moon is rotating around Edna and it takes him just about a month to do this.

Notice that he goes around, he is always facing Edna. This is because that while he rotates around Edna, he himself turns once around (these two movements are suggested at lower left.)

The result is that while Mickey is turning around Edna, his own rotation keeps him always facing her.

However, the two movements of the moon—rotation around the earth and its own spin—do not exactly coincide, with the result that although we can only see 41 per cent of its surface all the time, there is another 18 per cent we can see at certain times.

What does the moon's other side look like? In 1959, the Russians sent their Lunik III satellite around the moon. Our last drawing is from a photograph said to have been taken on this trip, showing the hidden side of the moon for the first time.

FOR YOU TO DO: Save your Junior Editor articles and drawings and put them in a scrapbook. Refer to it from time to time.

License Is Overparked but Automobile Isn't

JACKSONVILLE, Fla. (AP)—Police mailed a parking violation ticket to a junkyard for one of the weary automobiles on its lot.

Told the car hadn't been off the lot since it was bought for junk last spring, officers decided its license tag had been stolen for use on another auto.

Two Glynns Named to Chaplain's Duty

HONOLULU (AP) — When Fleet Marine Force Pacific Catholic chaplain J. E. Ryan left for a tour of the Far East, he named Chaplain John J. Glynn and Chaplain John J. Glynn to relieve him.

One of the Glynns is a Navy lieutenant stationed at Pearl Harbor; the other is an Army major at Tripler Army Hospital. They aren't related.

CITY OF BIRMINGHAM, MICHIGAN

LEGAL ADVERTISEMENT

The City of Birmingham invites sealed bids endorsed "Property Proposal" for the purchase of approximately 70 acres of industrial zoned land located in the City of Troy, Michigan, fronting on 15 Mile Road between Coolidge and Crooks Roads.

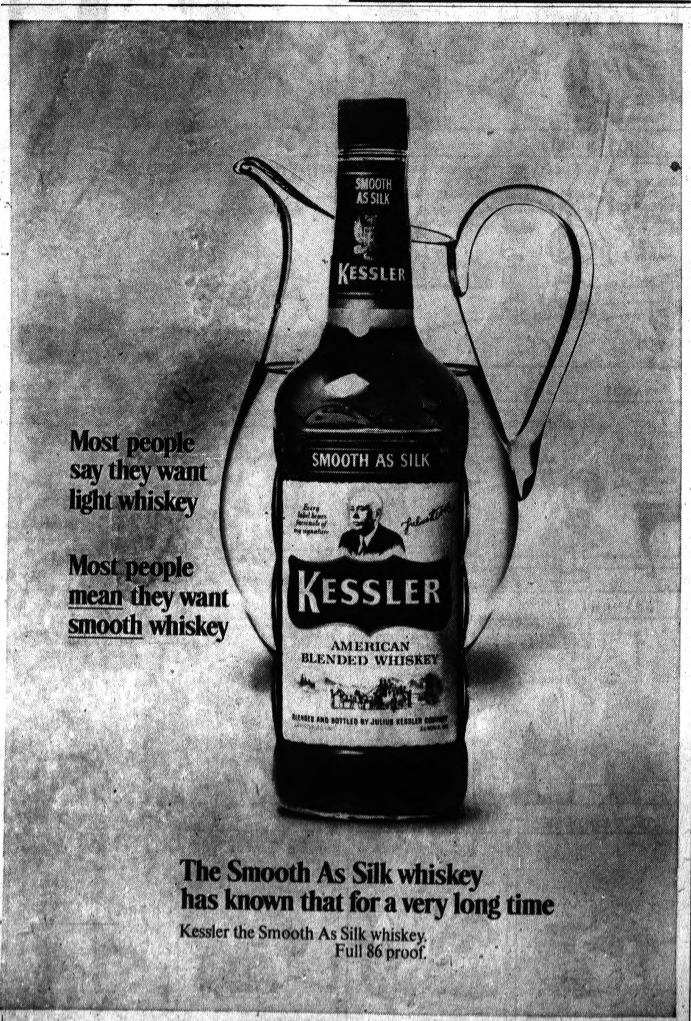

Bids will be accepted at the office of the City Clerk, 151 Martin Street, Birmingham, Michigan 48012, until 2:00 p. m., EST, Wednesday, April 21, 1965, at which time they will be publicly opened and read aloud.

NOW: a sure-fire way to remove RED IRON STAINS from your wash, wash bowls, toilet bowls, tubs and kitchen sink...

Diamond Crystal REDOUT* NUGGETS

next time you recharge your water conditioner... use new Diamond Crystal RED*OUT* nuggets!

*TM and Pat. Applied For

Your water conditioner often needs extra help to remove *all* the iron from your home water supply. Iron stains plumbing and laundry fixtures, is harsh to your skin, and spoils the taste of tea and coffee. To help your water conditioner work at peak efficiency, Diamond Crystal developed RED*OUT* nuggets—a new, exclusive salt-base product (patent applied for) that recharges your conditioner and completely removes iron deposits from the resin bed. In addition RED*OUT* gives you and your family these important benefits:

- Easily replaces ordinary salt, at no extra effort.
- No need to backwash your conditioner before laundering. RED*OUT* keeps the conditioner in top shape, ready for action at all times.
- No neutralization of chlorine in your water supply. Chlorine is added to your water as a special protection—some iron-removing agents destroy its usefulness. RED*OUT* preserves the effectiveness of the chlorine.
- No professional help needed in restoring an iron-fouled conditioner—RED*OUT* will clean the resin bed automatically and easily. Used regularly, RED*OUT* will keep it clean.
- Longer life for your water conditioner — because RED*OUT* keeps the unit operating smoothly and efficiently.

Treat your family to a better way of living, starting right now. RED*OUT* nuggets cost a few cents more, but are well worth it. Once the red iron stains have disappeared from your home, you'll be glad you got acquainted with this amazing new product.

25¢ STORE COUPON 25¢

WORTH 25¢ ON A 50 POUND BAG OF REDOUT

TO GROCER: If you allow 25c toward the purchase price of the above product when this coupon is presented to you by a retail customer, issuing manufacturer will redeem for 25c plus 2c handling cost, providing you surrender coupon to manufacturer's salesman. Limit one coupon per purchase. Invoices proving sufficient purchase of product to cover coupons presented for redemption must be shown upon request. Void unless initially acquired in the manner provided above or where prohibited, taxed or otherwise restricted or abused. Good only in U.S.A. Cash value 1/20c. Offer expires September 30, 1965.

Including Bankrupt NY Line in Rail Merger Wouldn't Be Commuter Service Solution

WASHINGTON (AP) — The smart money is saying that the Interstate Commerce Commission will approve a merger of the Pennsylvania and New York Central Railroads — and wrap the bankrupt New Haven into the same package.

A ruling from an ICC examiner is expected in a week or two, but the commission probably won't act before summer.

While the ICC may save the New Haven, the 19,000 commuters who ride its travel-weary cars into New York City daily won't necessarily benefit.

Nor would the expected merger decision be any help to the five other New York-area railroads which also want to dump their losing commuter service. And it wouldn't point to a solution for other big cities across the country to whom New York's problems reflect their own in a larger scale.

GLIMMER OF HOPE

For those 19,000 who work in New York and ride the New Haven to and from their homes in Westchester County and Connecticut, there's one glimmer of hope: That Washington will release modest grants of already authorized mass transit funds to keep the trains running. No new legislation would be required.

No one is sure the grants would suffice, or if they merely would postpone inevitable disaster for a couple of years.

* * *

When it comes to helping the commuter, everybody points to somebody else. In the case of the New Haven's New York to Boston passenger service — which is typical, only more so — it goes like this:

— The Johnson administration firmly notified Congress this month it will not approve federal subsidies for rail passenger service. This apparently has killed subsidy bills introduced by New England senators.

— Since Uncle Sam pays up to 90 per cent of the cost of new auto freeways, the states find it a better bargain to put their own money into the freeways instead of rail transit systems.

— Most railroads would prefer to get rid of commuter service because its losses cut into profits from freight and long-haul passenger service. They shy away from putting their money into modernization.

— The viewpoint of the states — as voiced this month by New York Gov. Nelson A. Rockefeller in the New Haven situation — is that the federal government should subsidize long-haul rail passenger service, if anyone is going to. But unless someone does, it appears that more railroads will fall — long-hauls, commuter service and all.

* * *

— State legislatures are reluctant — as Rockefeller also has noted — to approve any multistate rail compacts which involve "picking up localized commuter costs."

— The states are suspicious of each other. New Jersey — which has New York City commuter problems of its own — is leery of joining a pending three-state transportation commission. That's because its legislature fears New Jersey might have to bear part of the costs of preserving commuter service on the New Haven or other New York-Connecticut problems.

So what are the answers?

So far, they are fuzzy, complicated and incomplete.

Starting from the assumption that the New Haven will be saved from oblivion by hitching it onto the proposed Pennsy-N.Y. Central system, the proposed rescue measures involve:

First, persuading the Housing and Home Finance Agency that a mass transit "demonstration project" can be made of the New Haven's commuter service. This would qualify it for a $3 million grant from already authorized funds. It would have to be matched by $1.5 million of state money.

* * *

Second, designating a public authority — the state of New York, for instance, or a regional agency — with whom HHFA can legally make the contract.

Third, making the demonstration successful enough to justify a further $10 million grant to buy modern cars and equipment. New York and Connecticut would have to put up $5 million each to match.

INVASION — Latest craze to hit England is the Dalek which was featured on a television series and at the British Toy Fair at Brighton. Model Christine Healy is the wearer of this newly marketed "space age" outfit.

Chinese Red Premier Plans Visit to Albania

VIENNA, Austria (AP) — Communist Chinese Premier Chou En-lai is going to visit Albania, Peking's East European ally in the Soviet-Chinese dispute.

Radio Tirana reported today the Chinese premier and his delegation will arrive in Albania "in the next few days" from Bucharest, Romania, where he attended the funeral of the Romanian President Gheorghe Gheorghiu-Dej.

Maple Leafs Give Red Wings an Assist

Toronto Posts 3-2 Decision in Montreal

Detroit Squad Can Grab Piece of Title With Win Tonight

By The Associated Press

The Detroit Red Wings, given a big assist by the Toronto Maple Leafs, can just about wrap up the National Hockey League championship by beating the New York Rangers tonight.

A victory for the Red Wings on their home ice over the Rangers would give them 85 points and assure them of at least a tie in the season that ends Sunday.

Second place Montreal was beaten Wednesday night by the Toronto Maple Leafs 3-2 and kept from tying the Red Wings for first place.

TWO GAMES LEFT

The Red Wings and Canadiens each will have two games to play after tonight's New York at Detroit contest. Both Detroit games are against the tough fourth place Maple Leafs while Montreal meets Boston and New York, the last two clubs in the league against which they already have chalked up 19 victories this season.

★ ★ ★

Montreal had a first place tie in its grasp when Ralph Backstrom broke a 1-1 tie with his 25th goal of the season at 16:35 of the second period.

But two goals within 27 seconds early in the third period ended such Montreal's hopes. Big Frank Mahovlich tied it at 7:44 and Ron Ellis rapped home the winning goal at 8:11. Rookie center Pete Stemkowski assisted on both goals.

★ ★ ★

A Toronto turnout of 14331 cheered Johnny Bower, the Leaf Goalie, on his great stop of Yvan Cournoyer's penalty shot with six minutes left in the third period.

Bower skated right out from the net to meet Cournoyer coming in and simply smothered the shot in his pads.

Referee Frank Udvari had awarded Montreal the penalty shot when Toronto defenseman Carl Brewer grabbed the loose puck as it lay unprotected near the Toronto goal with Bower sprawled helplessly at the side of the net.

Gus Cifelli, 38-year-old former Notre Dame All - American tackle and ex-Detroit Lion, is considering the job of head coach of the Grand Rapids Blazers.

SPORTS

TAKES OU POST — Corey Van Fleet (left), who guided Birmingham Seaholm to four state high school swimming championships in five years, is welcomed by Hollie Lepley, physical director at Oakland University where Van Fleet will assume the duties as swim coach and assist in the physical education department.

Maple Coach Moves to OU

Corey Van Fleet, Birmingham Seaholm swimming coach who has compiled one of the most successful records in Michigan high school ranks, is leaving Seaholm to accept a position with Oakland University, it was learned today.

Van Fleet, a former Wayne State swimmer who took over the Maples' swimming job in 1960, succeeding Jay Meyers, has coached Seaholm to three outright state championships and a tie for the title in his five seasons.

During this time Maple swim teams have won their league championships each year and have posted a dual record of 75 wins and three losses.

While studying at Wayne, Van Fleet was aquatic director at Northern YMCA in Highland Park where his teams had a dual record of 96 wins and one loss.

The past season, Seaholm suffered its first dual defeat in 46 swim meets since 1962, having lost a 54-51 decision to Battle Creek Central.

Two weeks ago, Seaholm won the state high school swimming crown by rolling up 160 points, ahead of Battle Creek Central which had 126 points.

★ ★ ★

Confirmation came today from the Michigan State Board of Trustees on Van Fleet's appointment as swim coach and assistant in the physical education department.

Hollie Lepley, Athletic and Physical director at Oakland University said Van Fleet would coordinate all aquatic activities, including coaching of competitive swimming, teaching of swimming and water safety courses and assisting in other athletics such as soccer and track.

FIRST TEAM

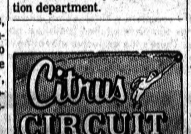

Oakland University embarked on an inter-collegiate athletic program for the first time during the 1964-65 school year and its swimming team under Dick Robinson posted a commendable first season record of 6 wins, one loss and a tie.

★ ★ ★

The Oakland University pool is regarded as one of the finest natatoriums in Michigan.

The team the past season included only six swimmers, all of whom are expected to return next season.

Among some of the outstanding swimmers tutored by Van Fleet at Seaholm were such former prep stars as Bob Wolf, Don Spencer, Tom Fritz, Tom Coupe and Pete Adams all of whom have become members of collegiate swim teams.

Bengals' Swift Raps McLain

LAKELAND, Fla. (AP) — Denny McLain, who said only last week he felt he had a good chance to become a starting pitcher, was reeling today from a Bob Swift tongue lashing.

"He'll have to learn to do what he is told or he won't be around here very long," said Swift, who is filling in for ailing Detroit Tigers manager Charlie Dressen.

★ ★ ★

The world champion St. Louis Cardinals raked McLain for three runs and eight hits in four innings as the Tigers dropped a 3-2 exhibition game at St. Petersburg Wednesday. It was the fifth straight loss for Detroit and its sixth by a one-run margin.

WANTED WIN

"I wanted to win the game and McLain wasn't pitching well," said Swift. "I told McLain before the game he can't come in with a high fast ball when the count is two and nothing.

"You can get away with that kind of stuff in the minors but not up here, not against these kind of hitters."

Swift later asked McLain: "Did you learn anything out there today?"

"Yes, sir," said McLain.

"Good," replied Swift. "don't ever forget it."

★ ★ ★

Swift said he was happier with the work of left-hander Ron Nischwitz and rookie righthander Billy Graham. He said both would get another assignment before final decisions on minor league assignments are made.

George Smith drove in both Detroit runs with a two-run pinch-hit single in the fifth inning.

★ ★ ★

Al Kaline was hitless in three trips to the plate. As a leadoff batter, a move Swift says is designed to give him more hitting time, Kaline is 4 for 19 with no RBIs. Kaline will be moved to the No. 4 cleanup slot when the season begins.

Other strategy Swift is thinking over would put righthander Don Wert leading off against lefthanded pitchers and southpaw swinging Dick McAuliffe No. 1 against righthanders.

The Tigers were to meet the Baltimore Orioles today at Lakeland.

Pair Posts Golf Win

TEL AVIV, Israel (AP) — Barney Feldman of Los Angeles and Wellesley Aron of Israel won the better ball against par foursome competition in the Israel International Golf Tournament today.

Their score was nine-under-par 135 for 36 holes over the par 72 course.

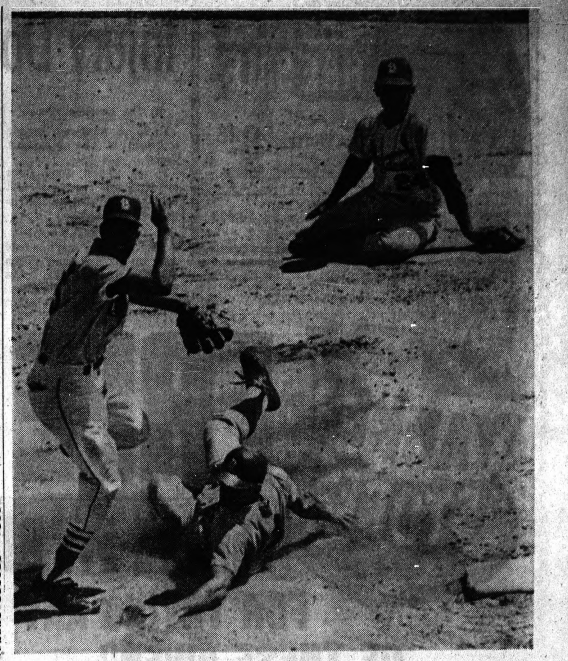

World Games Were Costly for Japanese

TOKYO (AP) — The 1964 Tokyo olympiad cost Japan an estimated $2,748,600,000, State Minister Ichiro Kono told the Upper House Budget Committee of Parliament Thursday.

Kono, who was in charge of the first Olympic Games held in Asia Oct. 10-24, said direct expenses totaled $81.9 million and indirect expenses $2,666,700,000.

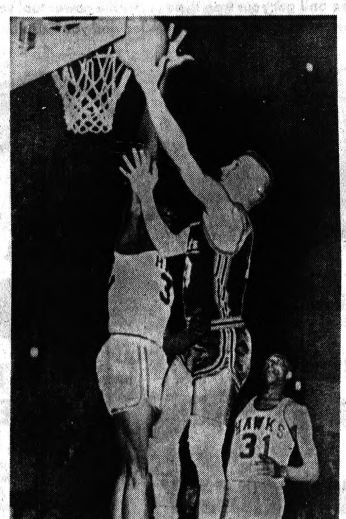

Direct expenses, Kono said, included the cost of building sports facilities, operation of the Tokyo Olympic Organizing Committee, and training of Japanese athletes.

Indirect expenses consisted of the construction cost of roads and sewers, improvement of hotels and building of the new 500-kilometer Tokyo - Osaka super express railway.

AP Photofax

SITTING IT OUT — St. Louis Cardinal shortstop Dick Groat sits on the ground (background) as he watches teammate Julian Javier throw to first after Detroit Tigers' Dick McAuliffe was forced at second in the third inning of game in St. Petersburg, Fla., yesterday. Groat went into a sitting position while fielding Don Wert's grounder and tossing it to second baseman Javier. The throw to first was too late. Cards won, 3-2.

AP Photofax

SHOT BLOCKED — Bill Bridges (left) of the St. Louis Hawks leaves the floor to stop a shot by Baltimore Bullets' Don Ohl in an NBA playoff game at St. Louis last night. Zelmo Beaty (31) of the Hawks watches the action. Bridges picked up a foul on the play and Ohl sank two free throws. Baltimore won, 108-105.

76ers, Bullets Post Pro Playoff Victories

By The Associated Press

Big Wilt Chamberlain has the reputation of being a poor foul shooter in the National Basketball Association.

The Big Dipper, as Wilt likes to be called, made only 408 of 880 free throws during the regular NBA season that ended last Sunday.

He made only six of 18 in the opening game of the Eastern Division semifinal playoffs at Cincinnati Wednesday night, but two of the six came in succession in an overtime period and gave the Philadelphia 76ers a 119-117 victory over the Royals.

NO HOME ADVANTAGE

The home court advantage didn't stand up in the opening of the Western Division semifinals, either, as the Baltimore Bullets edged the St. Louis Hawks 108-105.

Two free throws by Walt Bellamy in the last 17 seconds clinched the triumph for the Bullets on the Hawks' hardwood.

The second game in each of the best-of-five semifinals will be played Friday with Cincinnati at Philadelphia and Baltimore again at St. Louis.

★ ★ ★

Chamberlain's stomach ailment "definitely affected his playing" in the opinion of Philadelphia Coach Dolph Schayes.

Nevertheless, the Big Dipper was a key factor as the 76ers rallied to win after trailing by 10 points at the half 64-54. He scored 19 points in the regulation game that ended 108-108 then added seven points in the overtime including his two vital free throws with seven seconds on the clock.

HITS 37

Hal Greer's 37 points and Al Bianchi's basket that forced the extra period also were big factors for Philadelphia. Jack Twyman got 25, Jerry Lucas 22 and Oscar Robertson 21 for the Royals.

★ ★ ★

A 12-point burst with Kevin Loughery and Bailey Howell each getting six points, brought Baltimore from behind a 92-89 score and gave the Bullets sufficient margin to withstand a late St. Louis rush.

The Hawks crept to within one point at 106-105 before Bellamy's two free throws iced it for the Bullets.

"I guess we can be considered the favorites now," said Howell, who led the Bullets with 25 points. Len Wilkens topped the Hawks with the same total.

Azalea Open Starts Today

Golf Pros Bidding for $28,750 Purse

WILMINGTON, N.C. (AP) — The $28,750 Azalea Open, a golf tournament without a solid favorite, opened today over the sandy stretches of the 6,700-yard, par 72 Cape Fear Country Club course.

Thus far, this year 10 major tournaments have been held on the PGA tour and three have been won by men who never had registered a major victory. Last year eight of the 43 major events were won by first-timers.

The three who recently recorded their first tour victory are in the 144-man field here. They include George Archer, winner at San Francisco; Rod Funseth, victor at Phoenix, and Bert Weaver, who won at Jacksonville, Fla., last Sunday.

Bowlers Bidding for Rich Purse

ST. PAUL, Minn. (AP) — The American Bowling Congress Tournament, termed by its sponsors the world's largest participant sports event, opens a 68-day run today in the Municipal Auditorium.

★ ★ ★

Until the ABC meet ends May 31, some 5,472 teams and more than 27,000 bowlers from 46 states will test 40 new lanes for more than $490,000 in prize money. Entries also have been received from bowlers in Canada, Mexico, Puerto Rico, Saudi Arabia and West Germany.

CHAMPS RETURN

All of last year's champions will return to defend their titles won at Oakland, Calif.

★ ★ ★

Les Zikes of Chicago, a member of championship teams in 1962 and 1963 and the 1964 regular all-events titlist, will bowl May 20-21.

Bill Hardwick of San Mateo Calif., the 1964 bowler of the year in the Bowling Writers Association annals, and winner of last year's classic division singles and all-events titles, will bowl May 15-16.

★ ★ ★

The prize format in the classic division, which is for professional bowlers, has been revised this year. In the past, ABC prize money had been paid to champions in the team, doubles, singles and all-events divisions.

Although champions will be crowned this year in each classic division, prize money will be distributed only in the all-events. The classic all-events champion will get a $4,000 prize, the largest in ABC history to an individual.

★ ★ ★

In addition to the prize distribution, all champions will represent the United States in Guatemala at the fourth Inter America tournament.

Little League Meeting Set

A Little League roundup for boys ages 9-12 in the Walled Lake Consolidated School District will be held tomorrow at 7:30 p. m. at the Walled Lake Junior High School.

A movie of Walt Disney's Goofy on "How to Play Baseball" will be shown, and all major and minor league managers will be on hand to answer questions.

Registration for the baseball program is set for the first week in April. The season is slated to open May 2.

Handy Signs Two Coaches

Two new coaches have been named to the athletic staff at Bay City Handy High School.

George Davidson, 40, basketball coach at Marine City for the past eight years, has been named head basketball coach, and Joe Smith, 31, of Lancaster, Ohio, is moving in as wrestling coach.

Both are graduates of Eastern Michigan University.

Davidson replaces Mike Budge who guided the team for the last two seasons. Budge is moving into a counseling position with the school.

Injury Doesn't Slow Minnesota's Oliva

By The Associated Press

Memo to American League opposition of the Minnesota Twins:

If you thought Tony Oliva murdered you last year, wait until you see what he can do with 10 good fingers.

* * *

That apparently won't be until 1966, but the intervening season will give the other nine teams time to worry about the Cuban who won the league batting championship and Rookie of the Year honors.

The Twins are worrying right now. They discovered Wednesday that Oliva played all but the first month of last baseball season with a bone chip in the middle finger of his right hand.

X rays, the first taken since the right fielder injured the finger in Boston last May 15, revealed the bone chip. To alleviate the swelling and the pain that have plagued him the past 10 months, the Twins have given Oliva various shots.

NOT HANDICAPPED

The injury, however, hasn't slowed him down this spring any more than it affected him last season. The 23-year-old left-handed hitter drilled a double and three singles in five times at bat Wednesday in the Twins' 6-4 loss to Philadelphia, raising his spring average to .384.

Oliva has missed only one of 12 exhibition contests, sitting out that one to let the swelling go down. He missed only one game all of last year when he batted .323 and also led the league in hits, doubles, total bases, runs scored and times at bat.

While Oliva was belting Phillie pitching, the Los Angeles Dodgers were mauling Whitey Ford for the second time in five days. In trouncing the New York Yankees 12-2, the Dodgers rocked Ford for 11 runs and 12 hits in five innings. That gave the Dodgers 15 runs and 20 hits against the veteran southpaw in nine innings.

* * *

Several other pitchers turned in notable performances. Veteran Robin Roberts gave up only one run and three hits in five innings as Baltimore nipped the Chicago White Sox 5-4 while young Sam McDowell limited the Los Angeles Angels to two hits in seven innings in Cleveland's 4-2 victory.

The New York Mets downed Milwaukee 5-1 behind the combined six-hit pitching of Al Jackson and Tom Parson.

Billy Williams drove in five runs, hitting one homer but losing another when he passed Doug Clemens on the bases, sparking the Chicago Cubs to an 8-7 victory over another Angel squad. Bob Bailey hit his third homer in two days as Pittsburgh stopped Houston's five-game winning streak 5-3.

* * *

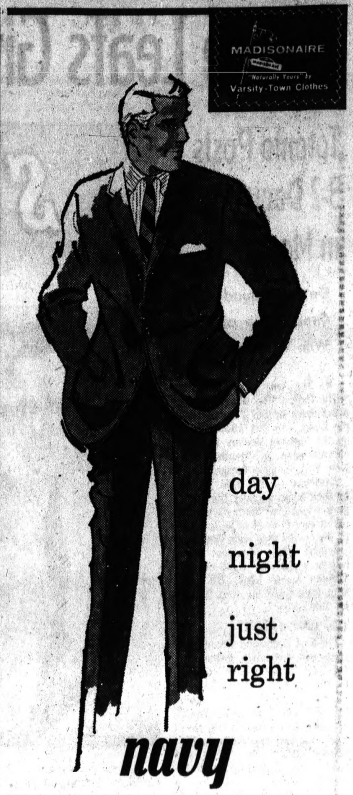

Boston outslugged San Francisco 11-7 with Carl Yastrzemski knocking in four runs on two doubles and a single while Chuck Cottier and Ken McMullen each rapped three hits in Washington's 12-2 mauling of Kansas City.

Cincinnati trampled Detroit's B team 19-2. Mel Queen socked a grand slam homer and Tony Perez drove in six runs in that contest.

Women Golfers Grab Partners for Pro-Am

JACKSON, Miss. (AP) — Thirty-two women pros team with amateurs today in a tune-up for the $8,500 Jackson Women's Invitational Golf Tournament.

Competition in the 54-hole tourney begins Friday on the par 72 Colonial Country Club course. Most of the nation's top women golfers are competing in the tourney — second stop on the 1965 LPGA circuit.

'M,' Indiana Challenge Swim Champ

AMES, Iowa (AP) — Two Big Ten opponents with strong team balance renewed their swimming rivalry today, and the winner could win the national collegiate title.

Both Indiana and Michigan rate as strong challengers to defending champion Southern California as the three-day meet got under way.

The Big Ten threats were helped by a scoring change which for the first time will give points to the top 12 finishers in each event.

In previous years only six places won points and a team with a few individual stars could win the title.

TWO RETURNEES

Indiana has two 1964 titlists back in diver Rick Gilbert and Fred Schmidt in the 200-yard butterfly.

It also has the only 1964 Olympic champion in the field in diver Kent Sitzberger, who trailed Gilbert in the Big Ten meet.

* * *

A year ago 18 Hoosiers scored as Indiana finished second to Southern California. Fifteen of those point winners are back.

Despite that depth, Indiana lost a dual meet to Michigan during the season before shading the Wolverines for the conference title.

Leading Michigan's bid will be Carl Robie, a freestyle and individual medley threat, and freestyler Bill Farley.

Southern California Coach Peter Daland contends that the two Michigan swimmers could win a total of five individual titles.

That would match the production of Roy Saari and Bill Craig for Southern California a year ago.

However, Saari will defend titles in three events where Robie and Farley would have to score upsets to keep Michigan's hopes alive.

Ring Champion Back to Defend Amateur Title

TOLEDO, Ohio (AP) — With military fighters absent, only one defending champion will be around to repeat in the AAU Boxing Championships starting today.

But the one defender is a dandy — 147-pound Jesse Valdez of Houston, Tex., voted the outstanding fighter of last year's tournament at Las Vegas, Nev.

A rule eliminating headguards in this year's bouts cut the field slightly as no members of the armed forces were entered. Even servicemen who were members of civilian AAU teams dropped out because of elimination of headguards required under college and Olympic rules.

AAU bouts used headguards, too, last year, an Olympic year.

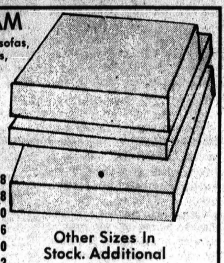

Also absent this year is one of the more colorful amateur boxers, 300-pound Buster Mathis of Grand Rapids, Mich. Mathis, heavyweight titlist last year, decided not to defend his title.

Finals are scheduled Saturday night.

To Coach U. S. Squad

LOS ANGELES (AP) — Coach John Wooden of the two-time national collegiate champion UCLA basketball team will guide the United States All-Star team when it clashes with a touring Soviet Union national squad here April 25.

AP Panel Picks Team

Playmakers Dominate State 'B' Five

By The Associated Press

Three guards who excel in playmaking, defense and outcourt shooting feature the Michigan Class B High School All-State team announced today by The Associated Press.

Jim Lawson of Tecumseh, Tom Klingel of Three Rivers and Tom Deur of Holland Christian were all selected by the AP's panel of sports writers and sportscasters for their all-around play.

★ ★ ★

Lawson and Klingel are the only sub-six-footers on the 10 man squad.

Others named were Sam Campbell of Champion River Rouge, Al Dishmon of Willow Run, Herb Humphrey of Tawas area, Dave Page of Jackson St. John and Al Werbish of St. Johns. All are seniors.

Juniors Ken Parrish of Cheboygan and Terry Walker of Fenton complete the dream squad.

TEAM LEADER

Lawson hit 46.7 per cent of his shots in averaging 17 points a game for Huron League champion Tecumseh. He also led the team in assists and defense was one reason why Tecumseh was able to hold its opponents to an average of 51 points a game.

Klingel, who holds all Three Rivers scoring records, averaged 27.8 points a game, hitting on 48.8 per cent of his shots from the floor and 75 per cent from the foul line.

★ ★ ★

Deur, regarded as the finest guard in the class in western Michigan.

Oakland county cagers who were given honorable mention honors were John Stolnicki of Orchard Lake St. Mary; Lynn Thorpe of Avondale; John Bailey of Cranbrook and Chris Beacham of Troy.

Campbell, another in a long line of standouts for River Rouge's exceptional teams, averaged 13 points and 15 rebounds. At 215 pounds, he is the heaviest man on the All-State team.

SCORING RECORD

Dishmon, who missed three games because of a knee injury suffered during the football season, tied his own school scoring record with 42 points against Ypsilanti Lincoln. He also had 30 points against River Rouge and averaged 12.5 rebounds for the season.

Humphrey, a repeater from last year's AP All-State team, averaged 23 points and was a unanimous choice for all-conference honors.

★ ★ ★

Page also turned in his best individual effort of the season against River Rouge, scoring 25 points and grabbing 10 rebounds. He averaged 18.4 points a game.

Werbish was another excellent shooter, hitting 54 per cent of his shots in averaging 21 points. His high game was against Ionia when he tallied 36 points.

★ ★ ★

Parrish used his 170 pounds over a 6-foot-1 frame to good advantage, as he was cited for his work under the boards as well as a 28 point scoring average.

Walker was another outstanding player used by his coach primarily to guard the high scoring star of the opposing team. In each case he held the player to fewer points than his usual per-game average. He averaged 17 points himself and paced Fenton to its first unbeaten season since 1946.

Class B All-State Team			
Name, School	Hgt.	Wgt.	Class
Sam Campbell, River Rouge	6-5	215	Sr.
Tom Deur, Holland Christian	6-2	195	Sr.
Al Dishmon, Willow Run	6-1	190	Sr.
Herb Humphrey, Tawas Area	6-4	195	Sr.
Tom Klingel, Three Rivers	5-10	185	Sr.
Jim Lawson, Tecumseh	5-11	170	Sr.
Ken Parrish, Cheboygan	6-5	170	Jr.
Dave Page, Jackson St. John	6-5	175	Sr.
Terry Walker, Fenton	6-3	195	Jr.
Al Werbish, St. Johns	6-3	180	Sr.

Honorable Mention

Gellein, St. Clair; Stolnicki, Orchard Lake St. Mary; Bird, Fraser; Thorpe, Avondale; Sumbera, Chesaning; Rossell, Clio; Gibbons, Blissfield; Filip, Jackson St. Mary; Rennie, Monroe Catholic; Johnston, Charleton Airport; Turner, West Branch; Paradise, Rogers City.

New Wrinkle in Mat Bout

Promoter Paul Parks has promised that the Saturday night wrestling bout between Mr. Kleen and The Student will be clean.

The Student's manager, Gary Hart, often enters the ring to give his grappler some assistance.

But not this time. Parks said that while The Student is in the ring, Hart will be handcuffed to the Great Mephisto at ringside.

The Mr. Kleen-Student bout is one of four on the slate which opens at 8:30 p.m. at the National Guard Armory on Water Street.

Other matches have Mephisto meeting Francois Renault, Fred Curry battling Hart and in a women's duel, Cora Combs meets The Nurse.

Eastern Michigan Unit Sets Two Track Marks

MOUNT PLEASANT (AP) — Two fieldhouse records were broken by Eastern Michigan's track team Wednesday as it defeated Central Michigan 58-46 in a dual meet.

Terrence Norman ran the mile in 4:13.8, bettering the old record of 4:15.1. The mile relay team of Rich Gordon, Larry Andrews, Joe Grasley and Jim Mason finished in 3:22.3, knocking 4.3 seconds off the old mark.

Dayton Sextet Wins

DAYTON, Ohio (AP)—Dayton rallied from behind with four third-period goals and defeated the Toledo Blades 6-3 in an International Hockey League game Wednesday.

NAMED MVP — Willie Merriweather, high scoring forward for the Pontiac Nationals, has been named the North American Professional Basketball League's most valuable player.

Local Cager Loop's MVP

Merriweather Gets Pro Award

Willie Merriweather of the Pontiac Nationals has been selected the most valuable player in the North American Professional Basketball League.

The 6-4 former Purdue star edged Grand Rapids' Nick Mantis for the honor in voting among the league coaches. Mantis was MVP last season in the now defunct Midwest League.

★ ★ ★

Merriweather sparked Pontiac to third place with a strong showing during the second half of the campaign.

He finished second in the scoring race with a 26.4 average — his cousin Porter Merriweather of Chicago was first with 28.1.

Willie was second in league free throw shooting with 99 of 113 for 87.6 per cent; third in field goal accuracy with 147 of 299 for 49.1 per cent; and set the following league records:

—Most free throws made in a game, 15.

—Most free throws made in a season, 99.

He also posted 25 assists and grabbed 130 rebounds.

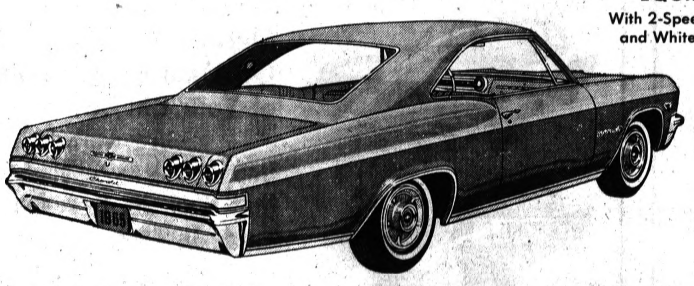

Fort Wayne Blanked

FORT WAYNE, Ind. (AP)—Des Moines goalie Ray Mikulan made 50 stops and handed Fort Wayne its first shutout of the season 1-0 Wednesday night in an International Hockey League game.

Cold Snap, Snow Good News for State's Skiers

By the Associated Press

The cold snap and snowfall these early days of spring has given Michigan skiers top-notch conditions for the sport.

Most state resorts reported excellent skiing conditions. The weather bureau added a cheery word for a prolonged season.

Its five-day forecast called for temperatures 15 to 25 degrees below the normal highs of 35 to 45 and snow flurries across the state beginning Friday night.

EAST MICHIGAN

Mio Mountain, Mio—8-10 inch base, skiing excellent.
Skyline, Roscommon—15 base, excellent.
Apple Mountain, Freeland—6 base, excellent.
New Au Sable Lodge, Gaylord—12-14 base, excellent.
Mott Mountain, Farwell—4-6 base, 3 new snow, excellent.
Snow Valley, Gaylord—4 base, good.
Houghton Lake—5 base, excellent.
Sylvan Knob, Gaylord—10-12 base, excellent.
Mt. Frederick, Frederic—8-10 base, 4-5 new, excellent.
Fonro Ski Lodge, Cummins—6-7 base, excellent.
Ogemaw Hills, West Branch—6-8 base, excellent.
Sheridan Valley, Lewiston—10 base, excellent.
Mt. Maria, Hubbard Lake—10-14 base, excellent.
Grayling Winter Sports Park, Grayling—6-10 base, 6 new, excellent.

WEST MICHIGAN

Big M., Manistee—8-12 inches base, skiing very good to excellent.
Boyne Highlands, Harbor Springs—20-35 base, 35, new, excellent.
Boyne Mountain Lodge, Boyne Falls—40 base, 35 new, excellent.
Brady's Hills, Lakeview—8-16 base, 5 powder, excellent.
Caberfae, Cadillac—lots of snow, best skiing of the season.
Carousel Mountain, Holland—18 base, 2-3 powder, excellent.
Crystal Mountain, Thompsonville—10-30 base, 5 new, excellent.
Esker Ski Slopes, Middleville—10-12 base, 8 new, excellent.
Maple Hurst Lodge, Kewadin—6-10 base, 4 new, excellent.
Missaukee Mountain, Lake City—8-10 base, 2 new, excellent.
Moon Ridge, Lakeview—4-20 base, 2 new, excellent.
Nub's Nob, Harbor Springs—30 base, 16 new, excellent.
Shanty Creek Lodge, Bellaire—6-18 base, 3 new, excellent.
Sugar Loaf Mountain, Traverse City—15-40 base, 8-10 new, excellent.
Swiss Valley, Three Rivers—2-8 base, very good.
Thunder Mountain, Boyne Falls—10-20 base, 2 new, excellent.
Timber Ridge, Alamo—6 base, 8 powder, excellent.
Walloon Hills, Walloon Lake—12-20 base, excellent.

Raiders Sign Linemen

OAKLAND, Calif. (AP) — Two big linemen have been signed by the Oakland Raiders of the American Football League — John Dugan of Holy Cross and Pat Russ, formerly of Purdue.

French Lass Skis Past U. S. Hopeful

SUN VALLEY, Idaho (AP) — The Harriman Cup ski races would have added to our balance-of-payments deficit if we'd had to fork over cash instead of cups.

Austria's Karl Schranz placed first in the men's combined standings. And France's Marielle Goitschel became the new women's champion.

★ ★ ★

Jean Saubert of McCall, Idaho, turned over the cup to Miss Goitschel after the 19 year-old French lass — nicknamed Tiger because of her unashamedly determined effort to win — won the slalom Wednesday in 85.92 seconds.

Miss Saubert, whose determination is just as strong but more subdued in appearance — she knits between races — came in second in 86.95.

WINS DOWNHILL

Miss Goitschel won the downhill. Miss Saubert came in eighth. So combined standings gave the women's Harriman Cup to the French girl.

NEW JAYVEE'S BY WRIGHT, FOR THE YOUNG MAN WHO WANTS TO GO A BIG STEP FARTHER THAN 24.95 USUALLY TAKES HIM

The only thing budget-minded about Jayvees is the price. For when Wright Arch Preservers decided to make a shoe for the young man who's going places, they went right along with him. In styling that's clean and classic: whether it's the traditional plain toe (left) or the handsomely detailed wing-tip (right). In the kind of craftsmanship Wright is famous for: choice grained calf, fully lined in leather, with a storm welt around the leather sole. And in the kind of comfort that makes a brand new Wright feel as if you'd been wearing it for months. Try one on. Seeing's believing, and wearing's proof.

ADMIRING TROPHY — Sister Mary Paulette, O. P., coordinator of the physical education program at St. Benedict's School, Waterford Township, and Carol Taylor, captain of the cheerleader team, admire the team's first place trophy. It was in competition with cheerleader groups from 50 elementary schools in the Archdiocese of Detroit.

Man Admits Burglaries of 35 Homes in Area

A Macomb County man whose taste runs the gambit from trading stamps to pearls has confessed stealing an estimated $100,000 worth of items from 35 area homes, according to police.

Charles L. Voakes, 22, of Clinton Township, who has implicated two others, will be arraigned Tuesday in Oakland County Circuit Court.

Voakes has been charged with breaking and entering and safe robbery, according to Capt. Walter Sluiter of the Bloomfield Hills Police Department.

Sluiter said Voakes was charged in connection with the largest of the jobs, in which two strands of Oriental pearls valued at $50,000 were taken from the Louis Morse home at 674 Rudgate.

Voakes was apprehended Jan. 9 as he was crawling through a window of a Grosse Pointe Woods home.

ADMITS BURGLARIES

Turned over to Bloomfield Hills police for questioning, Voakes reportedly admitted burglarizing three homes in that city, 11 in Bloomfield Township, 11 in Southfield, seven in Beverly Hills and three in West Bloomfield Township.

Voakes told police that a partner, Carl Bishop, 26, of Detroit, had the pearls and was headed toward California, where he now is being sought by the FBI.

Voakes, Bishop and Charles T. Ayres, 25, of Detroit are accused in 15 burglaries in Macomb County.

Voakes is being held in Oakland County jail in lieu of a $1,000 bond and Ayres in the Macomb County jail on a $3,000 bond.

The Macomb man waived examination last week before Bloomfield Township Justice of the Peace Alice Gilbert.

Trial Is Friday in Farmington Libel Case

A Farmington man accused of criminally libeling the Negro race goes on trial tomorrow.

Charged with the misdemeanor is Russell Roberts, 64, described by the Oakland County Prosecutor's Office as the self-styled leader of the American Nazi party in Michigan.

He will appear before Farmington Municipal Judge Sylvester J. Pheney at 10 a. m.

Roberts was charged after an alleged attempt to have a 14-year-old newsboy circulate "degrading" leaflets.

Roberts of 32710 Grand River pleaded innocent at his arraignment.

FACES JAIL

Later, he told newsmen in the court, "I'm guilty of being a white man in a world of niggers and Jews."

If convicted, Roberts faces a 90-day jail term or a $100 fine, or both.

In June 1963, Roberts was host to George Lincoln Rockwell, head of the American Nazi party.

* * *

A speech by Rockwell was halted by police when a stone was hurled at him by someone in the crowd.

State Tax Plan Will Ease Community Revenue Loss

LANSING (AP) — The State Tax Commission moved today to grant local governments relief from accelerated business depreciation schedules after reaching an 11th-hour compromise with legislators.

The agreement, okayed by Gov. George Romney, means local governments will lose only half or less of the $10.5 million which legislators said the new schedules would have cost.

★ ★ ★

In return, the Senate scrapped a bill which would have rescinded the new 1965 depreciation formulas.

The tax commission planned to notify some 1,800 local assessors by Friday that it would entertain their appeals on implementation of the schedules.

APPEAL DATE

Commission Chairman Robert Purnell said appeals must be filed by Wednesday. He said the commission would in general allow local officials to assess business personal property halfway between rates based on 1964 formulas and rates based on the new schedules.

Most of the appeals are expected from Macomb and Oakland Counties which had fought the schedules because of an estimated $2-million loss each.

★ ★ ★

Purnell said the agreement would expand to appealing jurisdictions the special consideration previously given to Kent and Genesee counties. He emphasized that the new schedules would take full effect everywhere in 1966.

Sen. Sander Levin, D - Berkley, coauthor with Rep. Joseph Snyder, D - St. Clair Shores, of the schedule - rescinding bill, said assessments of no other forms of property would be increased as a result of the agreement.

'NOAH'S ARK' — Animals in pairs walk up the ramp to board "Noah's Ark" on the film set of the movie, "The Bible," being shot on location near Rome. American actor-director John Huston is playing the role of Noah, as well as directing.

Nation Is Still in Winter Grip

Below-Normal Cold in Nearly All Sections

By The Associated Press

The nation's weather pattern remained mostly on the wintry side today, with more unseasonably cold, snow, sleet and rain.

The winter season ended last Friday but temperatures were below normal in nearly all sections of the country. They ranged up to more than 20 degrees below seasonal levels in northern parts of the Midwest where the mercury dropped to 20 below zero again today. Seasonal marks were reported in the Gulf Coast region, the far Southwest and along the Pacific Coast.

★ ★ ★

In Alaska, Fairbanks reported temperatures of 45 Wednesday compared to the average normal high of 10. It was 55 in Juneau and today's 40 at Anchorage was higher than in some Southern cities. Snow was scarce at Ft. Wainwright. The annual ski review scheduled for Saturday was canceled because of no snow.

A collision of warm moist air from the Gulf and cold air from the North set off rain storms from the Carolinas to Kentucky and Arkansas. North of the rain belt freezing rain pelted along the Ohio River.

★ ★ ★

Light snow fell on the snow covered sections of the southern Great Lakes and in the north central region. A disturbance along the Colorado-New Mexico border caused snow from the central Plains to southern Utah and northern Arizona. Three inches of snow fell in a two-hour period at Flagstaff, Ariz.

Much of the Midwest is blanketed with heavy snow, with snowfalls daily for about a week.

State Income, Outgo

LANSING (AP)—State Treasury income during the past week was $35.2 million and outgo was $26.7 million. The treasury balance at the end of the week was $227.25 million.

Execution Dropped

'Slattery' Awarded a Reprieve

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — Richard Crenna had the air of a death-row inmate who had just been told the governor was on the phone.

THOMAS

The last-minute reprieve had saved Crenna's show, "Slattery's People," after it apparently had been slated for execution by the high powers of CBS.

★ ★ ★

In Hollywood this week, programming chief Michael Dann admitted that a few weeks ago he didn't expect the state-legislature series to survive.

★ ★ ★

In the last major rating, "Slattery's People" placed third in its time slot, usually an invitation to death.

PROTESTS

But, said Dann, a great outpouring of critical and viewer protest convinced CBS otherwise. "It was our responsibility as broadcasters to give this show an opportunity to survive," said he.

★ ★ ★

To which Crenna might add, "Hallelujah."

★ ★ ★

The escapee from "Our Miss Brooks" and "The Real McCoys" had treasured "Slattery's" as his golden chance to grow up into a no-nonsense role. But even last week, the show seemed to have gone a-glimmering.

★ ★ ★

"I had been told by everyone, 'You're off'," he recalled, "so there really wasn't much grounds for hope. I had finished my work, but I returned on the last day's shooting and stayed until it was over at 11:30 p.m.

'PIRATES'

"You see, the crew had been named 'Slattery's Pirates,' and every time I came on the set they would raise a black flag. Well, I had to be the last one to leave the ship."

★ ★ ★

Crenna credits Dann with making the pitch to the CBS board to give the series a go at a second season. He also commends the critics for stirring up letter-writers and the sponsors for not leaving what had all the for not leaving what had all the aspects of a sinking ship.

★ ★ ★

"I said when we started the show that it would be the kind that would take a while to build its audience," the actor said. "We got clobbered on Monday night (opposite "Ben Casey" and Alfred Hitchcock), then things began to pick up a little when we moved to Friday. Still it didn't seem enough."

CONFIDENT

Far from being discouraged by the apparent failure of "Slattery's," he viewed the future with confidence. He had accomplished what he set out to do: to break out of his typing as an all-American mugger.

"And with the show close to folding, I received some marvelous offers," he added. Among them was a deal at MGM for various services, including costarring with Ann-Margret in "Made in Paris." He hopes to be able to make the film before resuming the series.

Bill to Allow Amish Schools

LANSING (AP)—A new bill to allow noncertified teachers to teach in Amish schools was introduced in the House Wednesday by Rep. Donald Holbrook Jr., R-Clare.

Holbrook's measure would allow the State Superintendent of Public Instruction to grant permission for the hiring of noncertified teachers in private schools in the first through eighth grades under certain specified conditions not contained in previous legislative proposals.

★ ★ ★

Among the conditions are that such permission could be granted only to schools conducted and attended solely by persons of a single faith. The religious beliefs of the faith also must require that children of members be taught only by those of the same faith.

A group of Amish have threatened to leave the state if they are not allowed to conduct their school at Camden.

Order Nightly Curfew Along Malaysia Coast

KUALA Lumpur (AP) — The Malaysian government ordered a 12-hour nightly curfew along the west coast of Johore State, beginning tonight.

No reason was given for the ban, which will be in force until further notice. It applies to ship movements within three miles of the shore. The area faces Sumatra and has been the site of most landings by Indonesian guerrillas.

Nasser Takes Oath as U. A. R. President

CAIRO (AP) — President Gamal Abdel Nasser took the oath of office today as head of state for a new six-year term.

He was reelected last week by a 99.999 per cent vote. There was no opposing candidate. This is the third presidential term for Nasser.

Trial of Former Solon Adjourned Until May 5

DETROIT (AP) — Recorder's Judge Joseph A. Gillis Wednesday adjourned until May 5 the trial of former State Rep. Daniel W. West on charges involving illegal registration of voters and city income tax fraud.

★ ★ ★

West, who received a majority of votes in his reelection bid last Nov. 3 only to be refused his seat by the House, also has been accused of federal income tax irregularities and of masquerading as a noted New York attorney.

G. Marshall) receives anonymous letter from juror saying verdict was improperly reached.

Silver Dilemma Faces Fowler

1st Big Decision for Treasury Appointee

WASHINGTON (UPI) — The federal government faces a dilemma: Should it or shouldn't it take the silver out of its silver money?

The final decision will be up to Congress, but the Treasury Department has to decide whether to ask the lawmakers for authorization to begin making coins out of other metals.

The problem will probably be the first big decision for the new Treasury Secretary, Henry H. Fowler, who is scheduled to take over next week from Douglas Dillon.

Behind the problem is a shortage of silver in the federal government's vaults at West Point, N.Y.

★ ★ ★

Even if the administration decides to go on using silver for making coins, the percentage in each coin will be sharply cut below the present 90 per cent.

ALREADY IN USE

If the government makes up its mind to stop using silver, dimes, quarters and half dollars probably will be made of copper with a coating of shiny copper-nickel, the substance that is already used for nickels.

Whatever Fowler decides, he will be sure to check with the White House first. The decision is certain to cause a flurry among silver producers and silver users who can muster votes on Capitol Hill.

Advocates of a complete break with silver argue this way: The government has only about one billion ounces of silver left. Every month, coin presses in the Philadelphia and Denver mints gobble up about 30 million ounces. Coinage alone could use up all the silver in about three years.

★ ★ ★

The government is also selling silver to industry in order to keep the price from breaking through the point where it would pay silver users to buy up coins and melt them down.

COIN SHORTAGE

If this happened — and it would happen if the government ran out of silver or stopped selling it — officials fear there would be a coin shortage that would dwarf the present one.

★ ★ ★

The government can't buy any silver because not enough is being mined to go around. If it tried, the price swiftly would zoom up to the "melting point."

Special Observances Are Planned in May

WASHINGTON (UPI) — President Johnson yesterday issued proclamations setting aside dates in May for the observance of World Trade Week, Small Business Week and National Maritime Day.

★ ★ ★

Johnson urged special ceremonies during the week of May 16 to point up the importance of international trade to the nation's economy. He designated the week of May 23 as Small Business Week and set May 22 for National Maritime Day.

Wilson Chews the Brag Over Capital's Wow Chow

By EARL WILSON

NEW YORK — Washington's become an eating capital—"D.C." now stands for Delicious Cuisine.

The Kennedys' French chef started it, LBJ brought in the Texas barbecue . . . now Conrad Hilton's added a luscious German flavor at the beautiful new Washington Hilton Hotel.

WILSON

"I'm having that Suzy Wong sandwich," I said to a friend in the Hilton Colonials restaurant.

Suzy Wong! I wonder where the German cook got the name: Hot bread, rolled and fried in egg batter, together with fried Kentucky ham and aged Cheddar cheese. That Cheddar cheese gave it a dramatic zing. You darlings can whip up one for Pop tonight.

Now I don't write poetry about minute steak sandwiches.

But when Room Service brought one on a beautiful and delicous slice of rye bread (plain, not toasted), I cried in ecstasy "Why didn't some chef think of rye bread before?"

I suppose many have. The newly-opened Hilton will be praised for its cozy little icebox in every clothes closet, its large pool, its curving design giving every room an outside exposure. But for gustatory me the sweetest memory will be of Cheddar cheese . . . and rye bread.

★ ★ ★

Sammy Davis, m-c'ing a tribute to the great talent of composer Harold Arlen at Philharmonic Hall, apologized for having to read the lyric of one song. "We have a new baby in our house—so there's no studying possible," explained Sammy.

★ ★ ★

THE MIDNIGHT EARL . . .

Ann-Margret and Roger Smith ended their NY rendezwoo, she flying off to Tokyo, he back to LA . . . **Jacqueline Kennedy** had midnight supper at El Morocco's Champagne Room with **Andre Meyer** the cosmopolite . . . **Kitty Kandell** remembered this: "She was only a bootlegger's daughter but I love her still," and **George Zelnicker:** "She was only a carpenter's daughter but I saw her first" . . . "She was a Russian delegate's daughter and she kept saying 'Nyet'" (**Mrs. Frances Dellins**, Wilson St., Brooklyn.

"Funny Girl" understudy, busty **Lainie Kazan**, is quitting the show to do a cafe tour . . . **Dorothy Kilgallen's** at NYU Hosp.—tripped on a rug at home and broke her arm . . . **Xavier Cugat's** 19-year-old fiancee, **Charo Baeza**, coaxed him into doing a Frug at Trude Heller's . . . The son of one of Hollywood's wealthiest stars is being dunned for unpaid bills.

Ancient Egyptian Alabaster Art Piece Now Has Reason to Grin

NEW YORK (AP) — About 2,500 years ago an Egyptian chiseled an alabaster statue of Sema-Tawytefnakht, a power in the court of King Psamtik I.

★ ★ ★

Now we know he depicted the handsome gent sitting cross-legged, erect but relaxed, his hands resting on the calves of his legs, and wearing a big grin on his face.

★ ★ ★

We wouldn't have the whole picture without years of detective work by Bernard Bothmer of the Brooklyn Museum.

★ ★ ★

Sometime in antiquity the statue was broken in half at the abdomen and elbows.

SEPARATED FOR CENTURIES

The two halves were separated for centuries. But Bothmer got Sema-Tawytefnakht back together again.

The top half was purchased in 1951 by the Virginia Museum of Fine Arts in Richmond, on Bothmer's advice. He told them he'd keep an eye out for the lower half.

★ ★ ★

In 1952, while looking through some old pictures in a Paris library, his eyes lit up when he spotted a picture of some alabaster crossed legs.

★ ★ ★

He figured it might be what he was seeking. But the photo was taken in 1934, and where were the crossed legs now?

CHECKED DEALERS

Bothmer looked in Egypt and checked dealers and collectors for a half dozen years. Finally a woman egyptologist told him she had seen alabaster legs in a home in Luxor, Egypt.

★ ★ ★

She was right. But it took four years of bargaining with the owner, Egyptian dealers and the Egyptian government before the legs could be purchased and shipped to New York.

★ ★ ★

Bothmer still wasn't certain the two halves would fit.

★ ★ ★

He put them together, and now he's grinning as broadly as Sema-Tawytefnakht.

The restored statues go on exhibit in Richmond, April 2.

Possibly even more than the British, the French have become a nation of beef eaters. Cattle now account for half of France's livestock, the number having increased 25 per cent in the last 10 years.

Lack of Snow Cancels Alaskan Ski Review

FAIRBANKS, Alaska (AP) — The annual ski review scheduled at Ft. Wainwright Saturday has been canceled. No snow.

★ ★ ★

The temperature at Fairbanks rose to 45 degrees Wednesday. The average normally at this time of the year is 12 above. The unseasonal, springlike weather has persisted for the past 10 days.

Navy Ship Stranded in Arizona Desert

GILA BEND, Ariz. (UPI) — A Navy ship got stranded in the desert this week.

The small vessel was en route to the Pima County Fair in Tucson aboard a tractor-trailer which had a flat tire. The truck driver hitchhiked 20 miles to telephone Navy officials in Tucson and Los Angeles for permission to buy a new tire to complete the journey.

'Dog-gone Stuff,' Barks Californian

By ART SCHEIFLE

Nobody ever told Tip about snow.

He was born and raised in California and has his San Diego city and county dog tags to prove it.

Tip is part poodle, but looks more like a rag mop.

Shortly after Tip came to the Pontiac area, it snowed—and snowed. That was Feb. 25—the date of Oakland County's worst blizzard in more than 30 years.

★ ★ ★

Tip had never seen snow and, when his whole world turned white, he got lost in the stuff.

WANDERS AROUND

He wandered around for about a week. Then, after apparently being hit by a car, he showed up half-starved at the home of Mr. and Mrs. Donald W. Scarbrough, 3130 Deland, Waterford Township.

The Scarbrough's called Mrs. Martin Davis of the Michigan Animal Rescue League Shelter. Mrs. Davis wrote an air mail letter to San Diego.

There was no reply and it looked as though Mrs. Davis had added another waif to her canine collection.

★ ★ ★

Since the accident, Tip walks with a peculiar gait, and there was some doubt that anyone would adopt him. He watched and watched for a familiar face.

OWNER TELEPHONES

Then, Mrs. Larry Grabelle, Tip's owner called. San Diego police had wired her that Tip had been found, and where he was. Mrs. Grabelle had come to Clarkston in February just before the snow, to stay with relatives, Mr. and Mrs. Russell J. Conoon, of 1/2280 Pine Knob.

Reunited with his family, Tip is once again a happy dog.

Ready to Fight in S. Viet Nam, Say Chinese

Threat Not Greatly Increased, According to Diplomatic Expert

TOKYO (AP)—Red China declared today it is ready to send men to fight "the U.S. aggressors" in South Viet Nam if the Communist Viet Cong asks for them.

Peking coupled the offer with the announcement that it will send "all necessary material aid, including arms and all other war materials, to the heroic South Vietnamese people who are battling fearlessly."

"At the same time," it said, "we are ready to send our men, whenever the South Vietnamese people want them, to fight together with the South Vietnamese people to annihilate the U.S. aggressors."

In Hong Kong, a Western diplomatic expert on Chinese Communist affairs said Peking's latest declaration appears to go only one step beyond what it has been saying all along.

★ ★ ★

The expert, who has just returned from a visit to Communist China, pointed out that the declaration said, "We are ready to send our men."

NO COMMITMENT

"The operative word is 'ready'," he said. "There is no definite commitment that they will actually go.

"Peking has been very crafty in its phrasing of its threats on this question of sending volunteers into the Viet Nam war. It has been playing the brinkmanship game made popular by its hated enemy — the late John Foster Dulles."

The diplomat said he and other Chinese experts he has spoken with do not believe Peking will send troops into Viet Nam unless the United States sends ground forces into North Viet Nam.

★ ★ ★

"As long as the United States contents itself with air strikes,

(Continued on Page 2, Col. 1)

Light Snow Is Predicted, With Rain to Follow

It looks as though spring's fighting a losing battle. Winter still holds a tight grip on the weather.

Light snow tonight, becoming mixed with rain tomorrow is the forecast. The mercury will dip to a low of 20 to 27 tonight, then rise to a high of 30 to 37 tomorrow.

Saturday's outlook calls for occasional light snow with slightly colder temperatures. Skies will remain cloudy.

Today in Pontiac and the surrounding area, winds are northeasterly at 10 to 20 miles an hour.

A nippy 17 was this morning's low mercury reading in downtown Pontiac. The temperature at 1 p.m. was 26.

Romney Plans to Talk Taxes

OKs Dem Invitation on Fiscal Reform

LANSING (AP)—Gov. George Romney said today he has accepted an invitation from House Democrats to visit speaker Joseph Kowalski, D-Detroit, on the question of fiscal reform.

Romney told his news conference today he will ask Kowalski two questions:

- **"Do you agree that we need fiscal reform now?**
- **"Are you ready to work for a meaningful bipartisan program of fiscal reform?"**

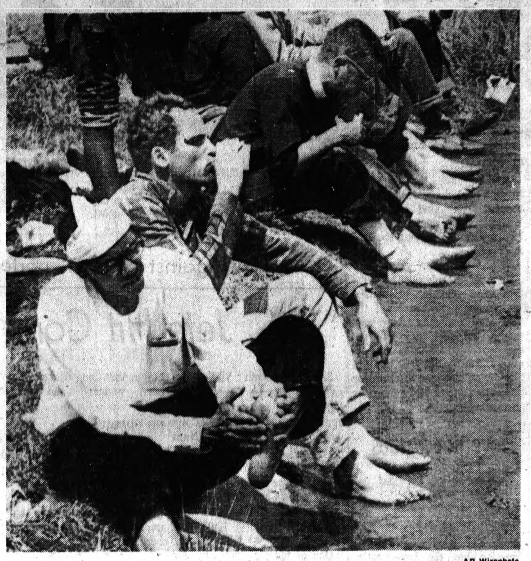

An invitation from the speaker on behalf of the House Democratic caucus yesterday to come in and make specific proposals on fiscal reform "does not answer these two basic questions," Romney said.

"In effect they (the House Democrats) have not yet indicated they are interested in meaningful tax reform," he said.

"The letter refers to exploring the question," the Republican governor continued. "Mere exploration does not carry an indication that what is being explored is needed. It doesn't mean that you are prepared to act.

"There's no reference to the fact that on repeated occa-

Weary Alabama Marchers Cool Aching Feet In Stream

Rights Camp Under Federal Troop Guard

Await King Arrival in Montgomery to Start Last Vote Drive Step

MONTGOMERY, Ala. (AP)—Fifteen thousand persons massed today at a muddy civil rights camp under guard by hundreds of federal troops for an unprecedented march to Alabama's capitol.

More participants streamed steadily into the huge area behind a Roman Catholic church. Army helicopters clattered overhead. Two military planes circled the scene.

The mass of humanity, mostly Negro, began forming into ranks awaiting the arrival of Dr. Martin Luther King Jr. to lead the final step of a voter-right march. The trek began Sunday at Selma, 50 miles to the west.

This old capital of the Confederacy looked like an occupied military zone. Hundreds of battle-ready national guardsmen and Army regulars, carbines draped from their shoulders, patrolled broad Dexter Avenue leading to the gleaming white capitol.

★ ★ ★

Soldiers were stationed atop buildings.

Military police, their green helmets gleaming, stood guard around the capitol itself.

NEGRO MP

One of the MPs standing at the end of a driveway was a Negro.

It was warm and humid. A few drops of rain spattered down.

Gov. George C. Wallace was in his office on the first floor in the northeastern corner of the capitol. His windows offered a view of the long, wide steps, the setting for King's civil rights rally.

★ ★ ★

A plywood covering lay over the big bronze star on the marble portico where Jefferson Davis took the oath as president of the Confederacy.

Wallace stood on the star when he was sworn in — the only governor known to have done so.

His executive secretary, Cecil Jackson, said that women employes of the state would not be required to report to their jobs because of the march.

Highway patrolmen arrested eight Negroes and one white person on the street in front of the governor's mansion last night after one of them pointed an unloaded gun at a car containing a family of three.

★ ★ ★

State trooper E. E. Flanagan, who was on duty at the mansion, said they claimed to be participants in the civil rights march.

INTO THE CITY

The demonstrators tramped into the city yesterday about 4,000 strong. They were singing "The Battle Hymn of The Republic" and waving flags from nearly every state.

It was raining. Negro school children cheered when they moved past and Negro motorists shouted "freedom."

They celebrated after nightfall. The Justice Department estimated 30,000 persons packed an athletic field at the City of St. Jude, a Roman Catholic complex containing a school, hospital and church, to see and hear many nationally known entertainers.

There were these other developments on the racial scene:

Roy Wilkins, executive director of the NAACP, told a House Judiciary subcommittee that Congress should strengthen the right to vote bill "to sweep the last vestiges of voting restrictions in to the sea."

Parents and Astronauts Welcome Grissom, Young

CAPE KENNEDY, Fla. (AP) — The two-man crew of the world's first maneuverable spaceship, the Molly Brown, returned today to the embarkation point of their history-making, three-orbit flight.

The plane bringing astronauts Virgil I. Grissom and John W. Young from the recovery ship, the carrier Intrepid, touched down at 9:28 a.m.

An Air Force band blared in welcome the overture to the Broadway musical, "The Unsinkable Molly Brown," and then swang into the "Air Force Hymn" and "Anchors Aweigh."

Grissom and Young were wearing blue fatigue coveralls with NASA emblems on the left breast. They were greeted by their parents, Mr. and Mrs. William Young of Orlando, Fla., and Mr. and Mrs. Dennis Grissom of Mitchell, Ind.

Also waiting to greet them were fellow astronauts, Alan B. Shepard Jr., the nation's first man in space; Walter M. Schirra Jr, Thomas P. Stafford and Donald K. Slayton.

2 PLANES

The astronauts arrived in two planes. Each sat in the copilot's seat of his plane.

Grissom had his right arm around his father as he walked from the plane to the bank of microphones. His mother walked on his other side.

Young displayed a happy, boyish grin.

★ ★ ★

"I'm ready for the next flight," Young said.

WIVES WAIT

The wives and children of the two astronauts were waiting for them at the bioastronautics building at the Cape, where the astronauts were to undergo an extensive physical examination.

A National Aeronautics and Space Administration public information officer said, "Mrs. Grissom did not wish to appear here in public."

He said Mrs. Young agreed to the plan to meet her husband later, in private.

★ ★ ★

The astronauts' plane set down at Cape Kennedy almost exactly 48 hours after the time when a Titan rocket launched them on an 81,000-mile flight in the world's first proven maneuverable spacecraft.

★ ★ ★

Moon Landing on Crater Rim?

Scientists Indicate Floor May Be Unsafe

PASADENA, Calif. (AP) — Scientists poring over some of the 5,814 photos taken by Ranger 9 say they indicate the moon's crater rims may provide future astronauts with safer landing areas than would crater plains.

★ ★ ★

This possibility, advanced last night by scientists at a Jet Propulsion Laboratory news conference, was based on evidence of possible volcanic activity shown in pictures televised by Ranger 9 Wednesday, just before it crashed into the 60-mile wide crater Alphonsus.

Alphonsus, in a highland area near the center of the face of the moon, is the site of red flashes which some astronomers have interpreted as hot gases escaping through fissures in the lunar crust.

Dr. Gerard P. Kuiper, chief of the scientific team, said many of the thousands of craterlets seen for the first time on Alphonsus' floor were not caused by meteorite impact. "They can only be the result of volcanic activity," he said.

★ ★ ★

Surprisingly, the smoothest and hardest areas on the moon seem to be crater rims — where there are spots apparently level enough for landings — and ridges found on crater floors, Kuiper said.

FROTHY LAVA

Kuiper said he believes the floors of large craters and many of the moon's broad plains are composed of solidified frothy lava which might collapse under the weight of explorers.

"It might well be better to look to the crater walls for potential landing sites," Kuiper said.

Major OU Reorganization Before Governing Board

The Michigan State University Board of Trustees was scheduled today to approve a major reorganization plan which would reshape the administrative structure of Oakland University.

The plan, if approved, will go into effect May 1 and will establish a college of arts and sciences, and the schools of education, engineering, business and economics and performing arts.

The new plan also calls for the creation of the post of university provost, a position directly under the chancellor in the new administrative structure.

O'DOWD

MATTHEWS

Since the university's inception in 1959 the academic departments have been or

U.S. Plans to Continue Paying U.N.

WASHINGTON (AP) — The United States intends to go ahead with large contributions to the United Nations despite the failure of the General Assembly to lower the boom on its big-power delinquents, U.S. sources said today.

This means U.S. payments of about $200 million this year to the United Nations and related agencies, regardless of whether the Soviet Union, France and others in arrears pay their assessed debts.

President Johnson was urged today by Sen. George D. Aiken, R-Vt., to put "the strength of his office" behind a workable financial formula for the United Nations with which the Soviets can agree.

In a prepared Senate speech, Aiken said U.S. efforts to force Russia to pay its peacekeeping assessments have "collapsed like a punctured balloon."

★ ★ ★

The basic reason Washington plans to go ahead with its large U.N. contributions is that administration strategists rate the U.N. system too important for U.S. foreign policy interests to let it founder. A feeble United Nations, they say, is just what the Communists want.

BIGGER SAY

The United States wants a bigger say in how the taxes voted by the General Assembly are spent — and this, too, regardless of whether the backsliders pay up.

Article 19 of the U.N. Charter states that any member owing more than the equivalent of two years' assessments shall have no vote in the General Assembly.

Workmen Removing Islands In The Auburn-Orchard Lake Crossover

Plan to Ease Wide Track Flow

Plans disclosed yesterday to ease traffic problems on the city's new loop road are based on a survey of traffic flow in downtown Pontiac.

The survey, made with traffic counters all around Wide Track Drive, was conducted by the Michigan State Highway Department.

At a meeting of downtown businessmen, city and state officials, a four-point highway department plan for correcting traffic patterns in and around Wide Track was released.

Essentially, the plan calls for removal of concrete islands at the intersection of the Auburn-Orchard Lake crossover and South Saginaw.

★ ★ ★

The islands were installed to prevent complete north-south traffic movement in line with the Wide Track concept of restricting through traffic on Saginaw.

The highway department's survey pinpointed traffic patterns in the south end of the loop highway.

A traffic count at the crossover and South Saginaw disclosed that in an eight-hour period the intersection saw:

- **2,197 westbound through vehicles on the crossover.**
- **598 right-hand turns off of South Saginaw to proceed westbound.**
- **862 vehicles turn right from the crossover onto Saginaw.**
- **605 vehicles turn from the eastbound crossover onto northbound Saginaw.**
- **2,681 eastbound through vehicles on the crossover.**
- **211 vehicles from the west-**

Thousands Mass for March

'Dog-gone Stuff,' Barks Californian

By ART SCHEIFLE

Nobody ever told Tip about snow.

He was born and raised in California and has his San Diego city and county dog tags to prove it.

Tip is part poodle, but looks more like a rag mop.

Shortly after Tip came to the Pontiac area, it snowed—and snowed. That was Feb. 25—the date of Oakland County's worst blizzard in more than 30 years.

★ ★ ★

Tip had never seen snow and, when his whole world turned white, he got lost in the stuff.

WANDERS AROUND

He wandered around for about a week. Then, after apparently being hit by a car, he showed up half-starved at the home of Mr. and Mrs. Donald W. Scarbrough, 3130 Deland, Waterford Township.

The Scarbrough's called Mrs. Martin Davis of the Michigan Animal Rescue League Shelter. Mrs. Davis wrote an air mail letter to San Diego.

There was no reply and it looked as though Mrs. Davis had added another waif to her canine collection.

★ ★ ★

Since the accident, Tip walks with a peculiar gait, and there was some doubt that anyone would adopt him. He watched and watched for a familiar face.

OWNER TELEPHONES

Then, Mrs. Larry Grabelle, Tip's owner called. San Diego police had wired her that Tip had been found, and where he was. Mrs. Grabelle had come to Clarkston in February just before the snow, to stay with relatives, Mr. and Mrs. Russell J. Conoon, of ½280 Pine Knob.

Reunited with his family, Tip is once again a happy dog.

Ready to Fight in S. Viet Nam, Say Chinese

Threat Not Greatly Increased, According to Diplomatic Expert

TOKYO (AP)—Red China declared today it is ready to send men to fight "the U.S. aggressors" in South Viet Nam if the Communist Viet Cong asks for them.

Peking coupled the offer with the announcement that it will send "all necessary material aid, including arms and all other war materials, to the heroic South Vietnamese people who are battling fearlessly."

"At the same time," it said, "we are ready to send our men, whenever the South Vietnamese people want them, to fight together with the South Vietnamese people to annihilate the U.S. aggressors."

In Hong Kong, a Western diplomatic expert on Chinese Communist affairs said Peking's latest declaration appears to go only one step beyond what it has been saying all along.

★ ★ ★

The expert, who has just returned from a visit to Communist China, pointed out that the declaration said, "We are ready to send our men."

NO COMMITMENT

"The operative word is 'ready'," he said. "There is no definite commitment that they will actually go.

"Peking has been very crafty in its phrasing of its threats on this question of sending volunteers into the Viet Nam war. It has been playing the brinkmanship game made popular by its hated enemy — the late John Foster Dulles."

The diplomat said he and other Chinese experts he has spoken with do not believe Peking will send troops into Viet Nam unless the United States sends ground forces into North Viet Nam.

★ ★ ★

"As long as the United States contents itself with air strikes,

Light Snow Is Predicted, With Rain to Follow

It looks as though spring's fighting a losing battle. Winter still holds a tight grip on the weather.

Light snow tonight, becoming mixed with rain tomorrow is the forecast. The mercury will dip to a low of 20 to 27 tonight, then rise to a high of 30 to 37 tomorrow.

Saturday's outlook calls for occasional light snow with slightly colder temperatures. Skies will remain cloudy.

Today in Pontiac and the surrounding area, winds are northeasterly at 10 to 20 miles an hour.

A nippy 17 was this morning's low mercury reading in downtown Pontiac. The temperature at 1 p.m. was 26.

Romney Plans to Talk Taxes

OKs Dem Invitation on Fiscal Reform

LANSING (AP)—Gov. George Romney said today he has accepted an invitation from House Democrats to visit speaker Joseph Kowalski, D-Detroit, on the question of fiscal reform.

Romney told his news conference today he will ask Kowalski two questions:

- **"Do you agree that we need fiscal reform now?**
- **"Are you ready to work for a meaningful bipartisan program of fiscal reform?"**

An invitation from the speaker on behalf of the House Democratic caucus yesterday to come in and make specific proposals on fiscal reform "does not answer these two basic questions," Romney said.

"In effect they (the House Democrats) have not yet indicated they are interested in meaningful tax reform," he said.

"The letter refers to exploring the question," the Republican governor continued. "Mere exploration does not carry an indication that what is being explored is needed. It doesn't mean that you are prepared to act.

"There's no reference to the fact that on repeated occa-

Weary Alabama Marchers Cool Aching Feet In Stream

Parents and Astronauts Welcome Grissom, Young

CAPE KENNEDY, Fla. (AP) — The two-man crew of the world's first maneuverable spaceship, the Molly Brown, returned today to the embarkation point of their history-making three-orbit flight.

The plane bringing astronauts Virgil I. Grissom and John W. Young from the recovery ship, the carrier Intrepid, touched down at 9:28 a.m.

An Air Force band blared in welcome the overture to the Broadway musical, "The Unsinkable Molly Brown," and then swang into the "Air Force Hymn" and "Anchors Aweigh."

Grissom and Young were wearing blue fatigue coveralls with NASA emblems on the left breast. They were greeted by their parents, Mr. and Mrs. William Young of Orlando, Fla., and Mr. and Mrs. Dennis Grissom of Mitchell, Ind.

Also waiting to greet them were fellow astronauts, Alan B. Shepard Jr., the nation's first man in space; Walter M. Schirra Jr., Thomas P. Stafford and Donald K. Slayton.

2 PLANES

The astronauts arrived in two planes. Each sat in the copilot's seat of his plane.

Grissom had his right arm around his father as he walked from the plane to the bank of microphones. His mother walked on his other side.

Young displayed a happy, boyish grin.

★ ★ ★

"I'm ready for the next flight," Young said.

WIVES WAIT

The wives and children of the two astronauts were waiting for them at the bioastronautics building at the Cape, where the astronauts were to undergo an extensive physical examination.

A National Aeronautics and Space Administration public information officer said, "Mrs. Grissom did not wish to appear here in public."

He said Mrs. Young agreed to the plan to meet her husband later, in private.

★ ★ ★

The astronauts' plane set down at Cape Kennedy almost exactly 48 hours after the time when a Titan rocket launched them on an 81,000-mile flight in the world's first proven maneuverable spacecraft.

★ ★ ★

Moon Landing on Crater Rim?

Scientists Indicate Floor May Be Unsafe

PASADENA, Calif. (AP) — Scientists poring over some of the 5,814 photos taken by Ranger 9 say they indicate the moon's crater rims may provide future astronauts with safer landing areas than would crater plains.

★ ★ ★

This possibility, advanced last night by scientists at a Jet Propulsion Laboratory news conference, was based on evidence of possible volcanic activity shown in pictures televised by Ranger 9 Wednesday just before it crashed into the 60-mile wide crater Alphonsus.

Alphonsus, in a highland area near the center of the face of the moon, is the site of red flashes which some astronomers have interpreted as hot gases escaping through fissures in the lunar crust.

Dr. Gerard P. Kuiper, chief of the scientific team, said many of the thousands of craterlets seen for the first time on Alphonsus' floor were not caused by meteorite impact. "They can only be the result of volcanic activity," he said.

★ ★ ★

Surprisingly, the smoothest and hardest areas on the moon seem to be crater rims — where there are spots apparently level enough for landings — and ridges found on crater floors, Kuiper said.

FROTHY LAVA

Kuiper said he believes the floors of large craters and many of the moon's broad plains are composed of solidified frothy lava which might collapse under the weight of explorers.

"It might well be better to look to the crater walls for potential landing sites," Kuiper said.

Rights Camp Under Federal Troop Guard

Await King Arrival in Montgomery to Start Last Vote Drive Step

MONTGOMERY, Ala. (AP)—Fifteen thousand persons massed today at a muddy civil rights camp under guard by hundreds of federal troops for an unprecedented march to Alabama's capitol.

More participants streamed steadily into the huge area behind a Roman Catholic church. Army helicopters clattered overhead. Two military planes circled the scene.

The mass of humanity, mostly Negro, began forming into ranks awaiting the arrival of Dr. Martin Luther King Jr. to lead the final step of a voter-right march. The trek began Sunday at Selma, 50 miles to the west.

This old capital of the Confederacy looked like an occupied military zone. Hundreds of battle-ready national guardsmen and Army regulars, carbines draped from their shoulders, patrolled broad Dexter Avenue leading to the gleaming white capitol.

★ ★ ★

Soldiers were stationed atop buildings.

Military police, their green helmets gleaming, stood guard around the capitol itself.

NEGRO MP

One of the MPs standing at the end of a driveway was a Negro.

It was warm and humid. A few drops of rain spattered down.

Gov. George C. Wallace was in his office on the first floor in the northeastern corner of the capitol. His windows offered a view of the long, wide steps, the setting for King's civil rights rally.

★ ★ ★

A plywood covering lay over the big bronze star on the marble portico where Jefferson Davis took the oath as president of the Confederacy.

Wallace stood on the star when he was sworn in — the only governor known to have done so.

His executive secretary, Cecil Jackson, said that women employes of the state would not be required to report to their jobs because of the march.

Highway patrolmen arrested eight Negroes and one white person on the street in front of the governor's mansion last night after one of them pointed an unloaded gun at a car containing a family of three.

★ ★ ★

State trooper E. E. Flanagan, who was on duty at the mansion, said they claimed to be participants in the civil rights march.

INTO THE CITY

The demonstrators tramped into the city yesterday about 4,000 strong. They were singing "The Battle Hymn of The Republic" and waving flags from nearly every state.

It was raining. Negro school children cheered when they moved past and Negro motorists shouted "freedom."

They celebrated after nightfall. The Justice Department estimated 30,000 persons packed an athletic field at the City of St. Jude, a Roman Catholic complex containing a school, hospital and church, to see and hear many nationally known entertainers.

There were these other developments on the racial scene:

Roy Wilkins, executive director of the NAACP, told a House Judiciary subcommittee that Congress should strengthen the right to vote bill "to sweep the last vestiges of voting restrictions in to the sea."

Major OU Reorganization Before Governing Board

The Michigan State University Board of Trustees was scheduled today to approve a major reorganization plan which would reshape the administrative structure of Oakland University.

The plan, if approved, will go into effect May 1 and will establish a college of arts and sciences, and the schools of education, engineering, business and economics and performing arts.

The new plan also calls for the creation of the post of university provost, a position directly under the chancellor in the new administrative structure.

3 Bomb Scares Fail to Halt U-M's Protest 'Teach-In'

ANN ARBOR (AP) — Despite three bomb scares, participants in an all-night "teach - in" at the University of Michigan protested American involvement in Viet Nam late Wednesday and early today.

Some 2,000 students had to evacuate four auditoriums in Angell Hall twice after police received threats. Another bomb scare was reported earlier during the screening of a Viet Cong-produced movie in a men's dormitory. Police found nothing.

The meetings were part of a 12-hour program of rallies, speeches and discussions organized by some 200 U. of M. faculty members.

★ ★ ★

After discussing U.S. policies through the night, some 400 students and faculty members disbanded today after voting to make the "teach-in" a national movement called the "Faculty and Student Committee to Stop the War in Viet Nam."

IMPROMPTU RALLY

The third bomb scare turned into an impromptu rally as students streamed out of the hall.

Reflecting on the bomb threat, Prof. William Livant told the students that deepening American involvement in Viet Nam could result in actual bomb explosions at home, just as bombs exploded in Paris during the Algerian War.

★ ★ ★

"A poisonous policy abroad will debase life at home," he said.

Arthur Waskow, of the Institute for Policy Studies, in Washington said the United States had reversed itself in Viet Nam on two previous commitments.

CITES RAIDS

Waskow cited the raids on North Viet Nam as raids across borders. This kind of action, Waskow said, was declared illegal by the U.S. during the 1956 Suez crisis.

★ ★ ★

At a press conference, several professors who had organized the "teach - in," stressed the need for changing America's policy, but said they had not reached any conclusion on specifics. They emphasized the protest action provided a forum for presenting views other than the government's.

AP Photofax

KENNEDY CLIMBS MOUNTAIN — Sen. Robert F. Kennedy, D-N.Y., stands near the black memorial flag he planted yesterday after reaching the summit of 13,900-foot Mt. Kennedy, named by the Canadian government for his brother, the late President John F. Kennedy. The senator is in the center foreground.

No Strikes Against North Reported

U.S. Jets Hit Cong Positions

SAIGON, South Viet Nam (AP) — U.S. jet bombers and fighters flew heavy sorties against suspected Viet Cong positions inside South Viet Nam today. But no air strikes against North Viet Nam were reported.

Vietnamese and U.S. Air Force planes had struck against targets north of the 17th Parallel daily for the past four days.

★ ★ ★

One of today's strikes by Air Force B57s and F100s was against a suspected major headquarters of the Viet Cong in western Tay Ninh Province, 60 miles northwest of Saigon. Another was in Communist-controlled Binh Dinh Province, 290 miles northwest of the capital.

★ ★ ★

A U.S. Army officer flying as observer aboard a light plane was killed by a single shot from the ground Wednesday over Quang Ngai Province, about 390 miles north of Saigon. He was dead when the plane landed back at its base.

NOT IDENTIFIED

The officer was not identified here. But in Milwaukee, Wis., the family of Capt. J.W. Widder, 27, said they had been notified he was killed when a light plane was hit by small arms fire.

His death brought the total of American combat dead in Viet Nam since December 1961 to 305.

★ ★ ★

Authorities announced that two Americans were killed during the week of March 14-20 and 22 wounded. The South Vietnamese suffered 100 dead, 275 wounded and 95 missing or captured.

Military spokesmen said 435 Viet Cong were killed and 90 captured. No figures are available on Viet Cong who may have been wounded and carried away.

NO COMMENT

Communist China's announcement that it is ready to send "volunteers" to South Viet Nam when the Viet Cong asks for them brought no official comment in Saigon and no sign of uneasiness in official quarters here.

★ ★ ★

The possibility of another massive Chinese involvement, such as that in the Korean War, has been included in all military calculations here since 1955.

★ ★ ★

In Canberra, Australian Prime Minister Sir Robert Menzies backed the United States in its "policies and actions relating to South Viet Nam."

Menzies issued a statement replying to a letter published by several Australian Anglican Church bishops urging negotiations to achieve an "honorable and peaceful settlement."

WON'T BE BOUND

"How would the United States negotiate with the Viet Cong, well-organized but hidden; or with North Viet Nam, a country which has shown it will be bound by no agreement?" Menzies asked.

★ ★ ★

Vietnamese government authorities announced an outbreak of cholera and plague cases in several areas. The government received reports that seven persons died of plague in Quang Ngai Province, about 350 miles north of Saigon, and of seven nonfatal cases in Binh Thuan Province, about 100 miles east of Saigon.

★ ★ ★

Nine suspected cholera cases were said to be under treatment in Saigon hospitals.

The Health Ministry urged the people to take immunization shots and observe sanitation procedures.

Ready to Go to Aid Cong, Say Chinese

(Continued From Page One)

it is unlikely that Peking will unleash its army," he said.

WEAPONS INCREASE

"It is probable there will be a big increase in the supply of antiaircraft weapons. There is also the likelihood of more and better aircraft being sent in.

"A number of Chinese Communist MIG 17s are known to be in Hanoi at present, but these would be no match for U.S. jets. Peking may send in some of its more up-to-date jets and these could offer serious resistance to U.S. aircraft."

In Washington, a State Department spokesman said the Chinese declaration was being studied. He refused to comment further. Officials in Washington have expressed the view that the Viet Cong needs military and economic supplies rather than foreign manpower.

★ ★ ★

The Chinese declaration came in response to a statement Wednesday by the Viet Cong's political arm saying it would call for international military help — "youth and army men" — if the United States continued to expand the war.

Governor Agrees to Discuss Taxes

(Continued From Page One)

sions I've tried to start discussion but the Democratic members of the legislature said they did not yet know the position of their members on this question," Romney said.

The letter also invites specific proposals from Romney—"but I tried that in 1963 and it was opposed on the basis that they had not been consulted, although they had," he added.

★ ★ ★

Romney said he would try to meet with Kowalski today or tomorrow.

50-50

Passage of a fiscal reform program by the legislature this year, was given less than a 50-50 chance by the chairman of the House general taxation committee.

Chairman George Montgomery, D-Detroit, said the committee has, or soon will have, ready a battery of fiscal reform bills to serve as vehicles for Romney's—or anyone else's program.

The Democratic invitation yesterday followed the first meeting of the House caucus on fiscal reform and was the third tax reform development in less than a week.

It will be milder in Pacific Northwest and cold in northern Plains region.

Eye Order to Tire Makers on Disclosure of Hazards

WASHINGTON (AP)—The Federal Trade Commission is considering ordering the nation's tire makers to tell the public of automobile tire hazards, a government source says.

The possibility of a "disclosure of hazards" order, described by a spokesman yesterday, arose after the FTC listened to some highly explosive testimony during a two-day hearing in January.

Such an order could touch off a controversy similar to the furore over whether the tobacco industry should be required to display warnings that habitual smoking may injure health.

Sen. Gaylord Nelson, D-Wis., said in a speech prepared for the Senate today the 800-page transcript of the tire safety hearings documents a "national scandal in automobile tires," and should be made public.

★

Nelson said the transcript, which the FTC does not intend to print, includes expert testimony that:

- **Many new cars come equipped with tires inadequate even for normal use.**
- **Six passenger sedans with big trunks are tested for tire purposes with only three passengers and no luggage.**
- **Sizes stamped on tires do not tell the actual size and were never intended to do so.**
- **Ply-rating labels have "no understandable meaning."**
- **There is no way a motorist can choose the right tire.**

ON TIME BOMB

"It (the transcript) indicates that untold thousands of people are buying fine new cars, loading them up with children and baggage, and setting out across the country in the belief that they are perfectly safe.

★ ★ ★

"Actually, many of them are sitting on a time bomb."

Tire manufacturers and independent tire dealers testified at the hearing that the terms "first line," "second line" and "third line" mean something different to each manufacturer.

Revision Plans for Wide Track

(Continued From Page One)

bound crossover lanes turn left onto southbound Saginaw.

- 45 vehicles turn right off of South Saginaw onto the eastbound lanes of the crossover.

A similar check of the intersection of West Wide Track and the crossover showed there were a total of 4,804 through vehicles east and westbound with 5,701 through vehicles on Wide Track.

Turning traffic at the intersection totaled 3,409 giving a total volume for the intersection of 13,918 vehicles.

The volume at the other end of the crossover at East Wide Track was slightly higher at 14,287 vehicles.

The extreme southern ends of the loop road contributed only 667 vehicles to the traffic flow.

HALT CONGESTION

In a letter to City Manager Joseph A. Warren, Gerald J. McCarthy, chief of design for the highway department, said the object was to prohibit Saginaw from becoming the congested traffic carrier that it previously was.

However, the removal of the islands is calculated to reduce the desire for left turns onto Wide Track from either end of the crossover.

Work on the islands began yesterday afternoon. City officials hope to handle north-south traffic through the intersection by Saturday.

★ ★ ★

Max N. Clyde, engineer of traffic operations for the traffic division of the State Highway Department, said left turns are prohibited for safety reasons.

ACCIDENT INCREASE

"Actually," explained Clyde, "we feel we would be increasing accidents to permit left turns."

Clyde cited figures (1,734) and (1,261) from the traffic survey to show that the majority of drivers were following the signs for getting onto Wide Track.

There were 1,734 left turns from West Pike onto southbound West Wide Track, while there were 1,261 similar turns from Water onto East Wide Track.

Police officers at yesterday's meeting said that Wide Track had been the site of 66 property damage and 10 personal injury accidents.

LEADING CAUSE

Police said the leading cause of accidents were illegal turns.

There have been 30 tickets issued for running red lights or stop signs, 63 for speeding and 103 for illegal turns.

★ ★ ★

The state's plan for improving traffic flow on Wide Track include removal of the islands on South Saginaw, a stop sign at the crossover-Saginaw intersection, continued surveillance of the intersection and the signing program, instituted 60 days ago, to further direct traffic.

OU Is Slated for Revamping

(Continued From Page One)

ganized in divisions — humanities, social science and science and engineering.

The new structure, according to Chancellor D. B. Varner, would allow the university to serve its rapidly growing student body and to provide for academic growth and development.

In addition to approving the reorganization plan the MSU trustees were scheduled to make the following appointments in connection with the realignment:

Donald D. O'Dowd, dean of the university for the past four years, will be named provost.

George T. Matthews will be named dean of the college of arts and sciences. Matthews, a history professor, has been associate dean for the humanities division since 1961.

Professor and chairman of teacher education since 1961, Laszlo J. Hetenyi, will be named dean of the school of education.

William G. Hammerle, professor and chairman of the engineering science department, will be named acting dean of the school of engineering science.

To be named acting chairman of the math department until Aug. 1 is James H. McKay, associate dean for the sciences, and professor and chairman of the math department.

'Tasmania to Tropics' Is Subject of Travelogue

BIRMINGHAM — Australia will be the featured country when "Tasmania to the Tropics" is presented at the Community House tomorrow and Saturday nights.

The color film will be shown at 8 p.m. as part of the travel film series at the center.

Bill Dalzell, who will take the audience "down under" to the vast continent, has driven 22,000 miles in Australia.

In making his film, Dalzell visited Melbourne with its colorful sidewalk cafes, skied the Australian mountains, toured the capital city of Canberra and photographed sheep ranches, the coast, Sydney Harbor and a typical Australian pub.

★ ★ ★

The film also includes several sports scenes, including those shot at the Davis Cup tennis matches.

AUSTRALIAN DINNER

An authentic Australian dinner will be served from 6 p.m. before each showing of the film. American food also is available. Reservations for the dinner must be made today. Tickets for the film presentation can be purchased at the door.

Entertainment for the children is slated for 1:30 p.m. Saturday at the Community House, when a children's show will be presented as part of the annual series of special activities for the younger set.

ON PROGRAM

On the program will be "Romig The Magician," "Gloria and the Busy B's," and "Mr. Twist — The Balloon Man."

Audience participation will be the keynote as Romig performs sleight of hand with colorful silk scarves and live rabbits.

Nine dogs and two monkeys are featured in the performance by "Gloria and the Busy B's," and animals, hats and unusual designs will be created from balloons by "Mr. Twist."

Adult chaperones will be on hand to supervise the young spectators.

New U. S. Bomber Sets Two Records

EDWARDS AIR FORCE BASE, Calif. (AP) — The huge XB70A supersonic bomber broke two aviation records — heaviest weight and continuous supersonic flight — in its eighth test flight.

A spokesman for North American Aviation said the craft took off Wednesday at the heaviest weight any airplane has ever flown — more than 500,000 pounds.

★ ★ ★

During its 100-minute flight it logged a record 80 minutes at supersonic speeds ranging up to about 1,400 miles per hour.

Approximately 25.3 billion bottles a year are made in the U.S.

Trial Is Friday in Farmington Libel Case

A Farmington man accused of criminally libeling the Negro race goes on trial tomorrow.

Charged with the misdemeanor is Russell Roberts, 64, described by the Oakland County Prosecutor's Office as the self-styled leader of the American Nazi party in Michigan.

He will appear before Farmington Municipal Judge Sylvester J. Pheney at 10 a. m.

Roberts was charged after an alleged attempt to have a 14-year-old newsboy circulate "degrading" leaflets.

Roberts of 32710 Grand River pleaded innocent at his arraignment.

FACES JAIL

Later, he told newsmen in the court, "I'm guilty of being a white man in a world of niggers and Jews."

If convicted, Roberts faces a 90-day jail term or a $100 fine, or both.

In June 1963, Roberts was host to George Lincoln Rockwell, head of the American Nazi party.

★ ★ ★

A speech by Rockwell was halted by police when a stone was hurled at him by someone in the crowd.

Fire Damages Pontiac Home

Fire broke out in the bedroom of a Pontiac home early today and caused an estimated $950 damage.

Firemen said the blaze was reported at 1:56 a.m. in a two-story frame home at 83 Jackson.

The building is owned and occupied by Marie May. Firemen said the cause of the fire was careless smoking.

Deaths in Pontiac, Neighboring Areas

LYN B. CASKEY

WHITE LAKE TOWNSHIP—Service for Lyn B. Caskey, 69, of 5385 Lakegrove will be at 1 p. m. Saturday at the Richardson-Bird Funeral Home, Milford, with burial at White Lake Cemetery.

Mr. Caskey died yesterday after a long illness. He was employed at Pontiac Motor Division.

Surviving besides his wife, Birdie, are eight daughters, Mrs. Charles Waldrop and Mrs. Russell McDonald, both of White Lake Township, Mrs. Glen Rosell of Highland Township, Mrs. Blueford Embry of Pontiac, Mrs. Coy Bailey of California, Mrs. Nicholas Tristisis of Chicago and Sue and Barbara, both at home; three sons, John, William and Bruce, all at home; two sisters; three brothers, Kelly of Wisconsin and Winford and Beck, both of Pontiac; and nine grandchildren.

MRS. LOREN COLWELL

Mrs. Loren (Otilia) Colwell, 73, of 319 Ferry died this morning after an illness of four years. Her body is at the D. E. Pursley Funeral Home.

Surviving are her husband; two sons, Robert L. of Lake Orion and Arthur O. of Waterford Township; a daughter, Mrs. Helen Reese of Pontiac; 10 grandchildren; nine great-grandchildren; a brother; and two sisters.

JOHN W. DALTON

Prayers were to be offered this morning for John W. Dalton, infant son of Mr. and Mrs. Clarence Dalton of 581 N. East Blvd., at the William F. Davis Funeral Home with burial following in Oak Hill Cemetery.

The baby was dead at birth Tuesday.

Surviving are the parents and three brothers.

SPENCER KINARD

Service for Spencer Kinard, 51, of 399½ Prospect will be at 1 p.m. tomorrow in Liberty Baptist Church with burial in Livingston, Ala. His body is at the Frank Carruthers Funeral Home.

Mr. Kinard, an employe of GMC Truck & Coach Division, died Monday after an illness of several weeks. He was a member of Liberty Church.

Surviving are his wife, Leola; his mother, Mrs. Mattie Kinard; five children, all in Alabama; five brothers; and three sisters.

MRS. LESTER K. MARTIN

Service for Mrs. Lester (Virginia M.) Martin, 65, of 95 N. Genesee will be at 11 a.m. tomorrow at Sparks - Griffin Chapel with burial in the Payne Cemetery, Middleton.

Mrs. Martin, a retired employe of GMC Truck & Coach Division, died yesterday after a long illness.

Surviving are her husband, a sister and a brother.

CLAIRE N. MOORE

Service for Claire N. Moore, 34, of 735 Bigham will be at 10 a.m. tomorrow in the D. E. Pursley Funeral Home with burial in Perry Mount Park Cemetery.

Mr. Moore, an employe of Pontiac Motor Division, died Tuesday.

MRS. HAROLD VAN DEUSEN

Prayers will be offered for Mrs. Harold (Kathleen) Van Deusen, 74, of 3228 Coolidge, Royal Oak, a former Pontiac resident, at 10 a. m. Saturday in the William Sullivan & Sons Funeral Home, Royal Oak.

Requiem Mass will follow at 10:30 a. m. in the Shrine of the Little Flower, Royal Oak, with burial in Holy Sepulchre Cemetery, Southfield. The Rosary will be recited at 8 p. m. tomorrow in the funeral home.

Mrs. Van Deusen, a member of the Shrine of the Little Flower, Royal Oak, died yesterday after a two-month illness.

Surviving are four sons, Jack of Holland, Edward of Phoenix, Ariz., Harold Jr. of Grand Rapids and Robert, with whom she made her home, and nine grandchildren.

Also surviving are a brother, Edward Buckley of Pontiac, and a sister, Mrs. Roselind Hill of Royal Oak.

CHARLES BEAGLE

WALLED LAKE — Service for Charles Beagle, 74, of 523 Pontiac Trail will be 11 a.m. Saturday at Richardson-Bird Funeral Home. Burial will follow in Oak Grove Cemetery, Milford.

A retired truck driver, Mr. Beagle died Tuesday.

Surviving are his wife, Mayme, and three brothers, Clarence and William, both of Milford, and Albert of Detroit.

ERNEST R. CRAWFORD

ORION TOWNSHIP — Service for Ernest R. Crawford, 69, of 609 E. Flint will be 2:30 p.m. Saturday at the First Methodist Church, Lake Orion. Burial will follow in Eastlawn Cemetery, Lake Orion.

Mr. Crawford died suddenly Tuesday in Phoenix, Ariz. His body will be at Allen's Funeral Home, Lake Orion, after 8 p.m. today.

A member of the Oakland County Republican Committee, he also was on the GOP 19th District Congressional Committee.

He was active in professional, community and church affairs, including former membership on the Orion Township zoning board.

Surviving are his wife, Ila; three daughters, Mrs. Marvin Hauxwell of Lake Orion, Mrs. Cass Miller of Dearborn and Mrs. William Walter of Broomfield, Colo.; one son, E. Robert of Birmingham; three sisters; and 11 grandchildren.

MRS. MARLENE McCABE

OXFORD TOWNSHIP — Requiem Mass for Mrs. Marlene McCabe, 30, of 948 Burlingham will be 10 a. m. Saturday at St. Joseph Church, Orion Township. Burial will follow in Eastlawn Cemetery, Lake Orion.

Mrs. McCabe died yesterday. Allen's Funeral Home, Lake Orion, is in charge of arrangements.

Surviving are three sons, Daniel, John and Dale, all at home; her mother, Mrs. Edward F. Corneail of Lake Orion; and two brothers, Daniel and Edward Corneail, both of Lake Orion.

MR. AND MRS. FLOYD J. MARSH

TROY — Service for former residents Floyd Marsh, 54, and Mrs. Floyd (Margaret H.) Marsh, 45, of St. Helen will be 1:30 p.m. tomorrow at Price Funeral Home. Burial will follow in Union Corners Cemetery.

The couple were asphyxiated in their home Saturday.

Mr. Marsh was a former justice of the peace in Au Sable Township and the owner of the St. Helen Service Center.

Surviving are two daughters, Mrs. John Truesdell of Troy and Mrs. Frank Armstrong of Detroit, and a son, Donald A. of Slidell, La.

Also surviving are his brother, Ralph Marsh of Brownsberg, Ind.; her two sisters; her brother; her father, Lynn Clark of St. Louis, Mich.; and five grandchildren.

ERNEST RUSSELL

ATTICA — Service for Ernest Russell, 78, of 4566 Attica will be 1:30 p. m. Saturday at Baird-Newton Funeral Home, Lapeer. Burial will follow in Attica Cemetery.

A retired employe of the Detroit Edison Co., Mr. Russell died yesterday after a long illness.

He was a life member of Attica Lodge No. 295, F&AM.

Masonic memorial service will be held at 8 p. m. tomorrow at the funeral home.

Surviving are a daughter, Mrs. Cleo Dennis, a son, Dean, and a brother, Clayton, all of Attica; 21 grandchildren; 39 great - grandchildren; and a great-great-grandchild.

GEORGE STEVENS

ORTONVILLE — Service for George Stevens, 88, of 380 Church will be 2 p.m. Saturday at the C. F. Sherman Funeral Home. Burial will follow in Ortonville Cemetery.

A retired custodian at Brandon High School, Mr. Stevens died yesterday after a four-day illness.

He was a member of the Ortonville Baptist Church.

Surviving is a sister, Mrs. Clark King of Ortonville.

BAZYLI TESSAK

AVON TOWNSHIP—Requiem Mass for former resident Bazyli Tessak of Elkton will be 10 a.m. Saturday at St. Francis Borgia Church, Pigeon. Burial will follow in Riverside Cemetery, Elkton.

A retired employe of Pontiac Motor Division, Mr. Tessak died yesterday.

His body is at Colgan Funeral Home, Elkton.

Several relatives survive.

MRS. JOHN R. WEISS

WHITE LAKE TOWNSHIP—Requiem mass will be offered for Mrs. John R. (Geraldine H.) Weiss, 62, of 2980 Steple Hill at 10 a.m. Saturday at St. Vincent de Paul Church, Pontiac, with burial at Lakeview Cemetery, Clarkston.

Mrs. Weiss died Tuesday after a brief illness. She was a member of Pontiac Moose Lodge 182 auxiliary.

A rosary will be said at 8 p.m. Friday at the Sharpe-Goyette Funeral Home, Clarkston. The Moose Lodge will conduct a memorial service at 7 p.m. at the funeral home.

Surviving besides her husband are a son, John Jr.; two sisters; a brother; and three grandchildren.

GORDON JAMES WEST

TROY — Service for Gordon James West, 2-year-old son of Mr. and Mrs. James H. West of 6700 John R, will be 10 a.m. Saturday at the Price Funeral Home. Burial will follow in Union Corners Cemetery.

The boy died yesterday after a long illness.

Surviving besides his parents are his grandparents, Mr. and Mrs. Gordon Tyler of Troy and Mrs. Sally Parker of Pulaski, Tenn.

ROBERT A. WILLIAMS

TROY — Robert A. Williams, 34, of 947 Rankin died today.

His body is at Price Funeral Home.

Order Marine Arrival on Okinawa Shrouded

NAHA, Okinawa (AP) — A news blackout was imposed today for the imminent arrival of a U.S. Marine brigade from Hawaii that will add more than 7,000 men to the American armed forces on Okinawa.

A spokesman for the 3rd Marine Division said plans for American newsmen and photographers to view the landings with escort officers have been canceled and no information will be made available regarding the movement.

Highway Snarled Fast

LONDON (UPI) — Britain's latest super highway was snarled by traffic jams just hours after it opened yesterday because a group of small boys threw stones at vehicles from a footpath over the highway.

Next time your car is laid up, rent a Ford from us.

(We're just a few minutes away.)

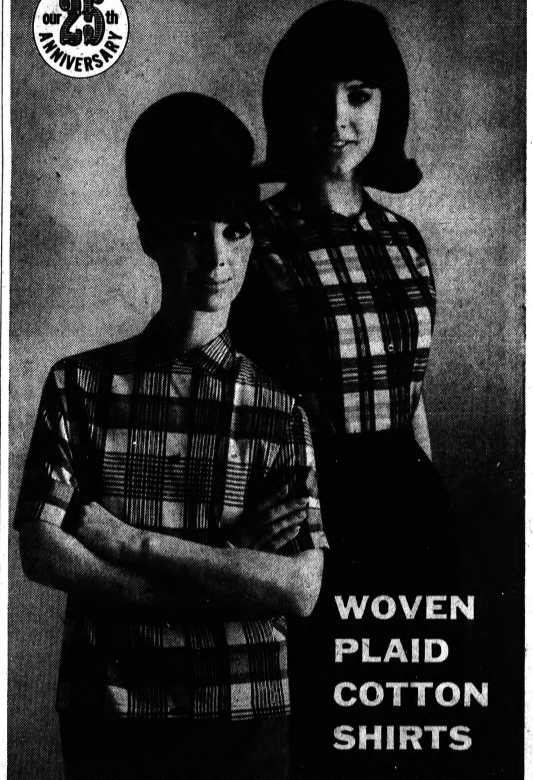

Why let a little thing like a laid-up car keep you off the road? Give us a call. We have all kinds of healthy '65 Fords for rent. We'll have the one you want ready for pickup in practically no time. We're right in the neighborhood and our prices are surprisingly low. The cost of insurance is included in the price. What's more, you can rent from us for an hour, a day, a week, or just as long as you want. So next time your car doesn't feel like going places, don't call it a day. Come in and rent a Ford from us.

HATS OFF TO MUSIC — Three key figures in the April 1 "Festival of Fashions" style show sponsored by the Rochester Tuesday Musicale take time out from fun at the grand piano to discuss some of the hats to be worn by models during the show. They are (from left), Mrs. Hazel Gessinger of 322 Taylor, the audition chairman for music scholarship contenders; Mrs. Homer Warren of 429 Parkdale, publicity chairman; and Mrs. Robert Allen of 213 Charles, who will provide piano background music for the event, to be held at Rochester Senior High School.

Rochester Fashion Event Set

ROCHESTER — Spring flowers and music will form a background for the second annual "Festival of Fashions" April 1, sponsored by the Rochester Tuesday Musicale.

★ ★ ★

The 8 p.m. affair will be held in the Student Center of Rochester Senior High School, with Mrs. Ray Lawson acting as coordinator and commentator.

The event, which supports the club's scholarship fund, will be highlighted by a showing of fashions from local shops.

Participating are Mitzelfeld's, Lucille Shoppe, Doris Hayes, R B Shop, Boys 'N Girls Shop and Richard's Boys and Girls Wear.

★ ★ ★

Background music will be provided by Mrs. Robert Allen of 213 Charles at the piano.

PROCEEDS

Proceeds from the annual show enable the Musicale to present music scholarships to promising area musicians each spring, as has been the club's custom for 15 years.

Students applying for the scholarships memorize a solo and present it before a panel of two out-of-town qualified music teachers.

Aspiring contestants will audition Sunday at the home of Mrs. Hazel Gessinger, 322 Taylor, who is serving as audition chairman for the third year.

★ ★ ★

Scholarships, which vary in number from three to six, may be used by the winners at the National Music Camp at Interlochen, the Youth Program at Michigan State University, or for private instruction.

Rezoning OK'd for Avon Plant

Construction to Start on $1-Million Factory

AVON TOWNSHIP — The final barrier to construction of a million-dollar computer research and development plant at Tienken and Rochester roads dropped last night.

The Township Board unanimously approved rezoning of nearly 13 acres north of the Rochester village limits bound-

AREA NEWS

ed by Rochester on the west and Tienken on the north, from general farming to light industrial.

According to officials of Holley Computer Products Co., construction on the 60,000-square-foot plant should begin immediately, now that the rezoning is accomplished.

Company officials hope to occupy the new building in August. Two more additions are planned within three to five years, expanding space to 160,000 square feet.

The plant will be used by the Peripheral Equipment Group of Holley Computer Products Co., a division of Control Data Corp. of Minneapolis, Minn.

STAFF FOR PLANT

A staff of highly skilled professional engineers and eventually 100 to 150 locally hired employes will assemble, test and develop input-output units for computer systems.

Control Data Corp. is the third largest computer systems manufacturer in the nation in terms of the value of equipment now installed in the field, and is the manufacturer of the world's largest computer, used by the Atomic Energy Commission.

In Clarenceville District
Vote Monday on School Issues

FARMINGTON TOWNSHIP—Voters in the Clarenceville School District will consider both a bonding and a millage question Monday.

The answers they record on ballots will determine whether the district will undertake a $3.5-million building program and add 4 mills to the tax levy.

Neither proposition is expected to increase the tax rate.

The building bonds would be sold only when they could be financed under the present rate.

The operational request would be covered by an expected decrease in the district's allocation and by reduction of the levy for bonded indebtedness.

FUTURE NEEDS

The construction money request is aimed at providing facilities to meet all future school needs.

However, the board of education has cited an immediate need for $1,250,000 worth of construction.

Enrollment projections indicate the present figure of 3,673 will jump to 3,850 in 1965-66; 4,025 in 1966-67; and 4,250 in 1968-69.

★ ★ ★

The first phase of the proposed building program, to be completed by the fall of 1966, calls for additions to the senior high school, junior high and Edgewood Elementary School.

SCHOOL FACILITIES

The work at the high school would include an auditorium, six or eight classrooms and expansion of the library and cafeteria.

Four or five classrooms would be added to Edgewood, where construction also would cover enlargement of the multipurpose room and improvement of conference areas for teachers and the principal.

The second floor addition at the junior high school would be completed and the facility would be expanded by several classrooms, depending on how much money was left after the other projects were finished.

★ ★ ★

Specific plans for the rest of the issue have not been developed.

ANTICIPATED RISE

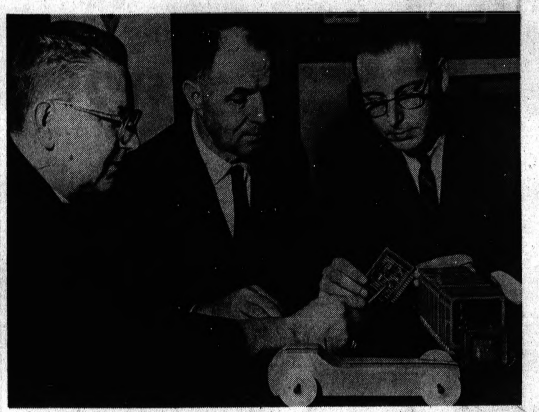

The proposed operational millage increase was designed to provide for the anticipated enrollment increases while expanding the educational program at the present rate.

★ ★ ★

The board expects a 2-mill cut in its operational allocation and would cover the other 2 mills by extending the district's present bonds and reducing the levy for bonded indebtedness.

★ ★ ★

Current tax rate in the district is 22.9 mills for operation and 10.05 for debt retirement.

Pontiac Press Photo

MAN PLUS MACHINE — It'll take three human judges and an infallible, $400 computer to judge the speed of entries in Saturday's annual Rochester YMCA Matchbox Derby, to be held at 1 p.m. in the West Junior High School auditorium. Examining the 48-transistor computer are (from left) T. E. Kashmerick, assistant staff engineer at GM's Chevrolet Division; Paul Neher, automotive engineer with Firestone Industrial Products Co.; and Ken Wright, general manager of design Products Co., designer of the computer. In the foreground is a matchbox derby entry from last year's race.

Initial Work Begins at Elks Lodge Site

ROCHESTER — Initial landfill work is under way toward a June construction start on a new $300,000 home for the Benevolent and Protective Order of Elks Lodge No. 2225.

The two-story building will rest on a 7½-acre parcel in the Mill Pond area, some of which will be dedicated to the village for extension of East University through the area.

When the Elks move into their new structure sometime near the end of the year, they'll have a total of 17,400 square feet of space for their activities, as well as for public use.

The building will have a 15,000-square-foot ground floor containing a dining area that will seat 600 and provide a dance floor as well.

Also on the first floor will be a large kitchen, luncheon room, executive dining room, four small meeting rooms, cocktail lounge, cloak room and rest rooms.

SECOND FLOOR

Meeting and game rooms will be located on the second floor, which will have 2,400 square feet, covering only part of the first level.

Outside the building, Paint Creek will be relocated through the Elks property, and a two-acre recreation and park area will be constructed.

The present Elks building at Walnut and Third is to be sold.

The Mill Pond site is the second chosen by the Elks in their search for a new location. The first, on Ludlow, was dropped due to objections from neighboring residents.

★ ★ ★

Adjacent to the Elks property is a 20-acre tract owned by Avon Development Co. Apartments and possibly some commercial buildings will rise on that property.

Architects of the new Elks lodge home are Robert Smitha & Associates of Rochester.

Farm Supply Show Set for 2 Days in Lapeer

LAPEER — The First Annual "Thumb-o-Michigan Farm Supply Show" will be held here Thursday and Friday. Sponsored by the Lapeer County Extension Service, the show will be held in the County Center Building, 425 N. Elm.

Featured at the affair will be displays of farm chemicals, electrical equipment, seeds, fertilizers, feeds and feed additives, and a wide variety of farm supplies and small farm equipment.

Program Is Slated on 'Shakespeare'

COMMERCE TOWNSHIP — Some of William Shakespeare's best-known heroines will hold a gab-fest tomorrow night at Clifford H. Smart, Junior High School.

★ ★ ★

"When Shakespeare's Ladies Meet" will be presented at 7:30 p.m. in the school activities room at 8400 Commerce.

The bard's heroines will convene on stage to discuss the "art of love" for the Walled Lake High School Drama Club production.

They are Cleopatra, played by Michelle Velky; Ophelia, Jan Schliskey; Kate, Priscilla Yuchartz; Juliet, Diane Couture; Portia, Nora Miller; and Desdemona, played by Carole Mengel.

Revue Opens Friday Night

ROCHESTER — The curtain will rise at 8:30 tomorrow evening at Central Junior High School for the first performance of the 1965 Red Stocking Revue, sponsored by the Rochester Junior Woman's Club.

The variety show will be reported at the same time Saturday night.

Saturday's show is already a sellout, but tickets for tomorrow's opening performance are still available from members of the club and at several downtown stores.

Substantial Increase Expected in '65 Soybean, Potato Acreage

LANSING (AP) — A substantial increase is expected this year in the acreage planted to soybeans and potatoes, the Federal-State Crop Reporting Service said Wednesday.

★ ★ ★

A small increase also is expected in the acreage planted to dry beans and corn. A decline is indicated in the plant

Pupils Enter Competition of Craftsmen

Students from some 90 Oakland County schools today entered projects in the Michigan Industrial Education Society's Regional Craftsman Fair at Southfield High School.

★ ★ ★

The junior and senior high school students judged winners will compete at the society's state convention in Grand Rapids April 8-10.

Entries will be on display in the school's cafeteria today and tomorrow, with public viewing hours from 7 to 9 p.m. tomorrow.

Judging will be done Saturday morning by representatives of industry and industrial arts teachers. Among the judges are John Collins, Lawrence Miller and Melvin Tindall, Birmingham teachers; Richard Ouillette of Chrysler Corp.; and William Sloat, retired Birmingham teacher.

★ ★ ★

Classifications include architectural drawings and models, electronics and electrical devices, graphic arts, machine work and construction, mechanical drawing, nonarchitectural models, pattern making, plastics, wood, wrought metal and an open division.

Guard Unit in Utica to Receive Trophy

UTICA—The Michigan National Guard announced yesterday that a Utica unit operating a Nike-Hercules missile position will receive the Eisenhower Trophy for 1964.

Battery A of the 1st Missile Battalion, 117th Artillery, was selected as the outstanding Army unit of the Michigan National Guard.

The unit is part of the full-time air defense of the Detroit metropolitan area. The Nike-Hercules is a ground-to-air anti-aircraft missile.

Capt. William Shelton of Detroit is the unit commander.

Just Can't Beat That Action

BOSWELL, Okla. (AP) — Mrs. Zoe McDade lost a wrist watch 18 months ago while preparing okra for the deep freeze. No searching ever brought the lost object to light.

★ ★ ★

Recently, while frying okra she turned the browning vegetables and found her watch in the boiling oil.

Figuring that 18 months in the deep freeze, climaxed by immersion in the hot fat had already ruined the watch, she just washed the grease off under the hot water tap.

She gave the stem an experimental turn, and it started ticking — keeping time perfectly.

Slip Glasses In

Here's a trick for safely sudsing fine glassware in very hot water: slip each piece into the water sideways or edge first, instead of just "plopping" it in.

F. F. Piggins to Address Church Unit

The Episcopal Churchwomen of Christ Church Cranbrook will welcome Frederic F. Piggins as guest speaker at their afternoon meeting on Tuesday.

★ ★ ★

Mr. Piggins, a native born Detroiter, has been engaged in the general practice of law in that city and is a member and elder of the Jefferson Avenue Presbyterian Church where he teaches an adult Bible class.

His subject will be "The Legal Aspects of the Arrest and Trial of Jesus Christ."

★ ★ ★

Before the noon luncheon the Rev. Mr. Michael Nesbitt will present his fifth and final lecture on the writings of St. John.

Luncheon reservations must be in the church office by Monday.

Cream cheese mixed with loads of minced pimiento-stuffed green olives makes a delightful sandwich filling; for each sandwich, use one slice of white bread and one of whole wheat.

Transform an ordinary shoe box into an attractive tote bag for heels. Two patterns of adhesive covering will make it waterproof. Cover all but sides of the box with a solid color. Apply a patterned covering to sides and as a decorative decoration on the cover. Punch holes in each end and on the cover (as shown) and thread through a leather or braid carrying strap. This will hold the lid in place.

How to show off your Kimberly knit — add a handful of glamour

And you'll come up with a crack performer. Kimberly tailors this pure wool knit 3-piece costume with a shaped jacket, short sleeve blouse and slim skirt; in crimson with white, and blue with white, 6-16, **$75.** Wear it with a black patent handbag trimmed with an oval bracelet tortoise shell handle. **$15*.**

Entertains Music Guild

Elda Sutter of West Iroquois Road was hostess this week to members of the Pontiac Music Guild. Mrs. Carl Clifford acted as cohostess.

★ ★

Mrs. Richard Kern and Mrs. Rebecca Gould were guests.

Miss Sutter presented an organ program and Mrs. Don Derragon conducted a panel quiz.

The April meeting will be in the Rochester home of Mrs. Clarence Sheppard.

Remove Pulls

Before you wash window shades, remove the pull cords. Swish these through soap or detergent suds, rinse, pull them taut, and hang to dry before replacing them on the clean shades.

Queen Size in Demand

The queensize bed is closer to replacing the standard double bed than most people realize. Last year, the bedding manufacturers and leading retailers agreed to eventually replace the standard bed (54"x74") with the queen (60"x80").

★ ★ ★

Furniture manufacturers are now producing queenside bedsteads in hundreds of different designs. And leading bedding industry planners are forecasting that if you want a standard double bed five years from now, you will have to place a special order for it, because queenside beds will be regulation.

Introducing

An important name in fashion . . .

FIANCEES

Getting around anywhere is fun with Fiancees' fashionable shoes. The two styles shown here are just part of our new spring collection.

PEEK-A-BOO SIDE CUT OUT PUMP in gleaming patent. A beautiful coordinate with most every spring and summer costume. Mid-Heel scaled to your taste in black, bone or blue.

14.99

Take off this Spring in a perky, flippant sling pump in black patent or bone calf, in a high slim heel. The elastic strap guarantees perfect fit for it never slips down.

Key Gains Fractional

Stock Mart Generally Higher

NEW YORK (AP)—The stock market continued generally higher early today. Trading was moderately active.

Gains of most key stocks were fractional.

★ ★ ★

Eastern Air Lines leaped nearly 2 points following a report that it earned $1.90 a share for two months ending Feb. 28, compared with eight cents a share for the year-ago period.

Other airlines were irregularly higher with most changes small.

Illinois Central, up more than a point, continued a strong factor among the rails which nudged ahead on balance despite some profit taking.

TOP STEELMAKERS

All the top steelmakers were fractional gainers. Motors were a little higher on balance, with Ford up nearly a point in a continued show of strength.

Chemicals, nonferrous metals, utilities and electrical equipments were mostly higher.

The trend was a little lower among oils and tobaccos.

Studebaker, Wednesday's most active stock, opened unchanged at 6 on 21,000 shares. Erie-Lackawanna, Wednesday's second most active issue, was unchanged at 10¼ on a block of 8,000 shares.

Opening blocks included

Ford, up ⅝ at 56⅝ on 9,000 shares; General Motors, unchanged at 101¾ on 4,600; and Consolidated Edison, up ¼ at 45⅝ on 3,000.

★ ★ ★

Wednesday, the Associated Press Average of 60 stocks rose .8 to 336.4.

A generally higher trend prevailed on the American Stock Exchange.

Maple Leafs Give Red Wings an Assist

Toronto Posts 3-2 Decision in Montreal

Detroit Squad Can Grab Piece of Title With Win Tonight

By The Associated Press

The Detroit Red Wings, given a big assist by the Toronto Maple Leafs, can just about wrap up the National Hockey League championship by beating the New York Rangers tonight.

A victory for the Red Wings on their home ice over the Rangers would give them 85 points and assure them of at least a tie in the season that ends Sunday.

Second place Montreal was beaten Wednesday night by the Toronto Maple Leafs 3-2 and kept from tying the Red Wings for first place.

TWO GAMES LEFT

The Red Wings and Canadiens each will have two games to play after tonight's New York at Detroit contest. Both Detroit games are against the tough fourth place Maple Leafs while Montreal meets Boston and New York, the last two clubs in the league against which they already have chalked up 19 victories this season.

★ ★ ★

Montreal had a first place tie in its grasp when Ralph Backstrom broke a 1-1 tie with his 25th goal of the season at 16:35 of the second period.

But two goals within 27 seconds early in the third period ended such Montreal's hopes. Big Frank Mahovlich tied it at 7:44 and Ron Ellis rapped home the winning goal at 8:11. Rookie center Pete Stemkowski assisted on both goals.

★ ★ ★

A Toronto turnout of 14331 cheered Johnny Bower, the Leaf Goalie, on his great stop of Yvan Cournoyer's penalty shot with six minutes left in the third period.

Bower skated right out from the net to meet Cournoyer coming in and simply smothered the shot in his pads.

Referee Frank Udvari had awarded Montreal the penalty shot when Toronto defenseman Carl Brewer grabbed the loose puck as it lay unprotected near the Toronto goal with Bower sprawled helplessly at the side of the net.

Gus Cifelli, 38-year-old former Notre Dame All - American tackle and ex-Detroit Lion, is considering the job of head coach of the Grand Rapids Blazers.

SPORTS

TAKES OU POST — Corey Van Fleet, who guided Birmingham Seaholm to four state high school swimming championships in five years, is welcomed by Hollie Lepley, physical director at Oakland University where Van Fleet will assume the duties as swim coach and assistant in the physical education department.

Maple Coach Moves to OU

Corey Van Fleet, Birmingham Seaholm swimming coach who has compiled one of the most successful records in Michigan high school ranks, was leaving Seaholm to accept a position with Oakland University, it was learned today.

Van Fleet, a former Wayne State swimmer who took over the Maples' swimming job in 1960, succeeding Jay Meyers, has coached Seaholm to three outright state championships and a tie for the title in his five seasons.

During this time Maple swim teams have won their league championships each year and have posted a dual record of 75 wins and three losses.

While studying at Wayne, Van Fleet was aquatic director at Northern YMCA in Highland Park where his teams had a dual record of 96 wins and one loss.

The past season, Seaholm suffered its first dual defeat in 46 swim meets since 1962, having lost a 54-51 decision to Battle Creek Central.

Two weeks ago, Seaholm won the state high school swimming crown by rolling up 160 points, ahead of Battle Creek Central which had 126 points.

★ ★ ★

Confirmation was expected today from Michigan State Board of Trustees on Van Fleet's appointment as swim coach and assistant in the physical education department.

Hollie Lepley, Athletic and Physical director at Oakland University said Van Fleet would coordinate all aquatic activities, including coaching of competitive swimming, teaching of swimming and water safety courses and assisting in other athletics such as soccer and track.

FIRST TEAM

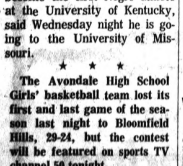

Oakland University embarked on an inter-collegiate athletic program for the first time during the 1964-65 school year and its swimming team under Dick Robinson posted a commendable first season record of 6 wins, one loss and a tie.

★ ★ ★

The Oakland University pool is regarded as one of the finest natatoriums in Michigan.

The team the past season included only six swimmers, all of whom are expected to return next season.

Among some of the outstanding swimmers tutored by Van Fleet at Seaholm were such former prep stars as Bob Wolf, Don Spencer, Tom Fritz, Tom Coupe and Pete Adams all of whom have become members of collegiate swim teams.

Bengals' Swift Raps McLain

LAKELAND, Fla. (AP) — Denny McLain, who said only last week he felt he had a good chance to become a starting pitcher, was reeling today from a Bob Swift tongue lashing.

"He'll have to learn to do what he is told or he won't be around here very long," said Swift, who is filling in for ailing Detroit Tigers manager Charlie Dressen.

★ ★ ★

The world champion St. Louis Cardinals raked McLain for three runs and eight hits in four innings as the Tigers dropped a 3-2 exhibition game at St. Petersburg Wednesday. It was the fifth straight loss for Detroit and its sixth by a one-run margin.

WANTED WIN

"I wanted to win the game and McLain wasn't pitching well," said Swift. "I told McLain before the game he can't come in with a high fast ball when the count is two and nothing.

"You can get away with that kind of stuff in the minors but not up here, not against these kind of hitters."

Swift later asked McLain: "Did you learn anything out there today?"

"Yes, sir," said McLain.

"Good," replied Swift. "don't ever forget it."

★ ★ ★

Swift said he was happier with the work of lefthander Ron Nischwitz and rookie righthander Billy Graham. He said both would get another assignment before final decisions on minor league assignments are made.

George Smith drove in both Detroit runs with a two-run pinch-hit single in the fifth inning.

★ ★ ★

Al Kaline was hitless in three trips to the plate. As a leadoff batter, a move Swift says is designed to give him more hitting time, Kaline is 4 for 19 with no RBIs. Kaline will be moved to the No. 4 cleanup slot when the season begins.

Other strategy Swift is thinking over would put righthander Don Wert leading off against lefthanded pitchers and southpaw swinging Dick McAuliffe No. 1 against righthanders.

The Tigers were to meet the Baltimore Orioles today at Lakeland.

SITTING IT OUT — St. Louis Cardinal shortstop Dick Groat sits on the ground (background) as he watches teammate Julian Javier throw to first after Detroit Tigers' Dick McAuliffe was forced at second in the third inning of game in St. Petersburg, Fla., yesterday. Groat went into a sitting position while fielding Don Wert's grounder and tossing it to second baseman Javier. The throw to first was too late. Cards won, 3-2.

AP Photofax

SHOT BLOCKED — Bill Bridges (left) of the St. Louis Hawks leaves the floor to stop a shot by Baltimore Bullets' Don Ohl in an NBA playoff game at St. Louis last night. Zelmo Beaty (31) of the Hawks watches the action. Bridges picked up a foul on the play and Ohl sank two free throws. Baltimore won, 108-105.

Pair Posts Golf Win

TEL AVIV, Israel (AP) — Barney Feldman of Los Angeles and Wellesley Aron of Israel won the better ball against par foursome competition in the Israel International Golf Tournament today.

Their score was nine-under-par 135 for 36 holes over the par 72 course.

World Games Were Costly for Japanese

TOKYO (AP) — The 1964 Tokyo olympiad cost Japan an estimated $2,748,600,000, State Minister Ichiro Kono told the Upper House Budget Committee of Parliament Thursday.

Kono, who was in charge of the first Olympic Games held in Asia Oct. 10-24, said direct expenses totaled $81.9 million and indirect expenses $2,666,700,000.

Direct expenses, Kono said, included the cost of building sports facilities, operation of the Tokyo Olympic Organizing Committee, and training of Japanese athletes.

Indirect expenses consisted of the construction cost of roads and sewers, improvement of hotels and building of the new 500-kilometer Tokyo-Osaka super express railway.

76ers, Bullets Post Pro Playoff Victories

By The Associated Press

Big Wilt Chamberlain has the reputation of being a poor foul shooter in the National Basketball Association.

The Big Dipper, as Wilt likes to be called, made only 408 of 880 free throws during the regular NBA season that ended last Sunday.

He made only six of 18 in the opening game of the Eastern Division semifinal playoffs at Cincinnati Wednesday night, but two of the six came in succession in an overtime period and gave the Philadelphia 76ers a 119-117 victory over the Royals.

NO HOME ADVANTAGE

The home court advantage didn't stand up in the opening of the Western Division semifinals, either, as the Baltimore Bullets edged the St. Louis Hawks 108-105.

Two free throws by Walt Bellamy in the last 17 seconds clinched the triumph for the Bullets on the Hawks' hardwood.

The second game in each of the best-of-five semifinals will be played Friday with Cincinnati at Philadelphia and Baltimore again at St. Louis.

★ ★ ★

Chamberlain's stomach ailment "definitely affected his playing" in the opinion of Philadelphia Coach Dolph Schayes.

Nevertheless, the Big Dipper was a key factor as the 76ers rallied to win after trailing by 10 points at the half 64-54. He scored 19 points in the regulation game that ended 108-108 then added seven points in the overtime including his two vital free throws with seven seconds on the clock.

HITS 37

Hal Greer's 37 points and Al Bianchi's basket that forced the extra period also were big factors for Philadelphia. Jack Twyman got 25, Jerry Lucas 22 and Oscar Robertson 21 for the Royals.

★ ★ ★

A 12-point burst with Kevin Loughery and Bailey Howell each getting six points, brought Baltimore from behind a 92-89 score and gave the Bullets sufficient margin to withstand a late St. Louis rush.

The Hawks crept to within one point at 106-105 before Bellamy's two free throws iced it for the Bullets.

"I guess we can be considered the favorites now," said Howell, who led the Bullets with 25 points. Len Wilkens topped the Hawks with the same total.

Bowlers Bidding for Rich Purse

ST. PAUL, Minn. (AP) — The American Bowling Congress Tournament, termed by its sponsors the world's largest participant sports event, opens a 68-day run today in the Municipal Auditorium.

★ ★ ★

Until the ABC meet ends May 31, some 5,472 teams and more than 27,000 bowlers from 46 states will test 40 new lanes for more than $490,000 in prize money. Entries also have been received from bowlers in Canada, Mexico, Puerto Rico, Saudi Arabia and West Germany.

CHAMPS RETURN

All of last year's champions will return to defend their titles won at Oakland, Calif.

★ ★ ★

Les Zikes of Chicago, a member of championship teams in 1962 and 1963 and the 1964 regular all-events titlist, will bowl May 20-21.

Bill Hardwick of San Mateo Calif., the 1964 bowler of the year in the Bowling Writers Association annals, and winner of last year's classic division singles and all-events titles, will bowl May 15-16.

★ ★ ★

The prize format in the classic division, which is for professional bowlers, has been revised this year. In the past, ABC prize money had been paid to champions in the team, doubles, singles and all-events divisions.

Although champions will be crowned this year in each classic division, prize money will be distributed only in the all-events. The classic all-events champion will get a $4,000 prize, the largest in ABC history to an individual.

★ ★ ★

In addition to the prize distribution, all champions will represent the United States in Guatemala at the fourth Inter America tournament.

Little League Meeting Set

A Little League roundup for boys ages 9-12 in the Walled Lake Consolidated School District will be held tomorrow at 7:30 p. m. at the Walled Lake Junior High School.

A movie of Walt Disney's Goofy on "How to Play Baseball" will be shown, and all major and minor league managers will be on hand to answer questions.

Registration for the baseball program is set for the first week in April. The season is slated to open May 2.

Azalea Open Starts Today

Golf Pros Bidding for $28,750 Purse

WILMINGTON, N.C. (AP) — The $28,750 Azalea Open, a golf tournament without a solid favorite, opened today over the sandy stretches of the 6,700-yard, par 72 Cape Fear Country Club course.

Thus far, this year 10 major tournaments have been held on the PGA tour and three have been won by men who never had registered a major victory. Last year eight of the 43 major events were won by first-timers.

The three who recently recorded their first tour victory are in the 144-man field here. They include George Archer, winner at San Francisco; Rod Funseth, victor at Phoenix, and Bert Weaver, who won at Jacksonville, Fla., last Sunday.

Handy Signs Two Coaches

Two new coaches have been named to the athletic staff at Bay City Handy High School.

George Davidson, 40, basketball coach at Marine City for the past eight years, has been named head basketball coach, and Joe Smith, 31, of Lancaster, Ohio, is moving in as wrestling coach.

Both are graduates of Eastern Michigan University.

Davidson replaces Mike Budge who guided the team for the last two seasons. Budge is moving into a counseling position with the school.

'M,' Indiana Challenge Swim Champ

AMES, Iowa (AP) — Two Big Ten opponents with strong team balance renewed their swimming rivalry today, and the winner could win the national collegiate title.

Both Indiana and Michigan rate as strong challengers to defending champion Southern California as the three-day meet got under way.

The Big Ten threats were helped by a scoring change which for the first time will give points to the top 12 finishers in each event.

In previous years only six places won points and a team with a few individual stars could win the title.

TWO RETURNEES

Indiana has two 1964 titlists back in diver Rick Gilbert and Fred Schmidt in the 200-yard butterfly.

It also has the only 1964 Olympic champion in the field in diver Kent Sitzberger, who trailed Gilbert in the Big Ten meet.

* * *

A year ago 18 Hoosiers scored as Indiana finished second to Southern California. Fifteen of those point winners are back.

Despite that depth, Indiana lost a dual meet to Michigan during the season before shading the Wolverines for the conference title.

Leading Michigan's bid will be Carl Robie, a freestyle and individual medley threat, and freestyler Bill Farley.

Southern California Coach Peter Daland contends that the two Michigan swimmers could win a total of five individual titles.

That would match the production of Roy Saari and Bill Craig for Southern California a year ago.

However, Saari will defend titles in three events where Robie and Farley would have to score upsets to keep Michigan's hopes alive.

Ring Champion Back to Defend Amateur Title

TOLEDO, Ohio (AP) — With military fighters absent, only one defending champion will be around to repeat in the AAU Boxing Championships starting today.

But the one defender is a dandy — 147-pound Jesse Valdez of Houston, Tex., voted the outstanding fighter of last year's tournament at Las Vegas, Nev.

A rule eliminating headguards in this year's bouts cut the field slightly as no members of the armed forces were entered. Even servicemen who were members of civilian AAU teams dropped out because of elimination of headguards required under college and Olympic rules.

AAU bouts used headguards, too, last year, an Olympic year.

Also absent this year is one of the more colorful amateur boxers, 300-pound Buster Mathis of Grand Rapids, Mich. Mathis, heavyweight titlist last year, decided not to defend his title.

Finals are scheduled Saturday night.

To Coach U. S. Squad

LOS ANGELES (AP) — Coach John Wooden of the two-time national collegiate champion UCLA basketball team will guide the United States All-Star team when it clashes with a touring Soviet Union national squad here April 25.

ADMIRING TROPHY — Sister Mary Paulette, O. P., coordinator of the physical education program at St. Benedict's School, Waterford Township, and Carol Taylor, captain of the cheerleader team, admire the team's first place trophy. It was in competition with cheerleader groups from 50 elementary schools in the Archdiocese of Detroit.

Man Admits Burglaries of 35 Homes in Area

A Macomb County man whose taste runs the gambit from trading stamps to pearls has confessed stealing an estimated $100,000 worth of items from 35 area homes, according to police.

Charles L. Voakes, 22, of Clinton Township, who has implicated two other men in the break-ins, will be arraigned Tuesday in Oakland County Circuit Court.

Voakes has been charged with breaking and entering and safe robbery, according to Capt. Walter Sluiter of the Bloomfield Hills Police Department.

Sluiter said Voakes was charged in connection with the largest of the jobs, in which two strands of Oriental pearls valued at $50,000 were taken from the Louis Morse home at 674 Rudgate.

* * *

Voakes was apprehended Jan. 9 as he was crawling through a window of a Grosse Pointe Woods home.

ADMITS BURGLARIES

Turned over to Bloomfield Hills police for questioning, Voakes reportedly admitted burglarizing three homes in that city, 11 in Southfield, seven in Beverly Hills and three in West Bloomfield Township.

Voakes told police that a partner, Carl Bishop, 26, of Detroit, had the pearls and was headed toward California, where he now is being sought by the FBI.

Voakes, Bishop and Charles T. Ayres, 25, of Detroit are accused in 15 burglaries in Macomb County.

* * *

Voakes is being held in Oakland County jail in lieu of a $1,000 bond and Ayres in the Macomb County jail on a $3,000 bond.

* * *

The Macomb man waived examination last week before Bloomfield Township Justice of the Peace Alice Gilbert.

Death Claims Market Owner

Theodore R. Arnold, owner of Arnold's Market, 266 E. Pike, for the past 17 years, died yesterday after a long illness. He was 63.

Service will be at 2:30 p.m. Saturday in Voorhees - Siple Chapel with burial in Perry Mount Park Cemetery. Graveside service will be conducted by the Masonic Lodge.

Mr. Arnold was a member of Pontiac Lodge No. 21, F&AM.

Surviving are his wife, Belva; a daughter, Mrs. Roy Linney of Ontario, Calif.; four sons, Harold G. Ronald E., Ivan K. and Gregory P., all of Pontiac; and five grandchildren.

* * *

Also surviving are three sisters, Mrs. Cecil Elsholz of Pontiac, Mrs. Ervin Smith of Snover and Mrs. Roy Boys of Mt. Morris; and four brothers, Frank of Sandusky, Oliver of Pontiac, Charles of Lake Orion and Vivian of Mt. Morris.

Vietnamese Boy Born With Head in Cloud

SAIGON, South Viet Nam (AP) — A 5-pound Vietnamese boy was born today at an altitude of 2,000 feet in the cramped confines of a U.S. helicopter.

The parents, a Vietnamese soldier and his wife, were being evacuated from a post about 40 miles southeast of Saigon. An Army medic on the aircraft, Staff Sgt. Charles K. Allen, 30, of Fort Stewart, Ga., delivered the baby.
