Death of the Dangerous Cigarette Seen

PALM BEACH, Fla. (AP) — The president of the American Cancer Society predicts that, through filters and reductions in tar-nicotine content, "the really dangerous cigarette will become as extinct as the spitting."

But Dr. Ashbel C. Williams of Jacksonville, Fla., added: "If I am wrong, then I know that, to my sorrow, more

and more of my practice will be in removing cancerous lungs."

Williams, a surgeon, made the remarks last night in addressing the opening of the ninth annual seminar for science writers sponsored by the Cancer Society.

He described the present cancer-smoking controversy this way:

1. Mounting numbers of American adults have quit smoking cigarettes, but

unfortunately "youngsters in grade school and high school continue to court cigarette-caused diseases to a discouraging degree."

2. One of every three deaths in the United States in 1967 "will be from a smoking-related disease."

3. Approximately 1.5 million American youths between ages 12 and 17 started smoking last year — and certain members of that group are going to come

up in their 30's with cancer of the lung or larynx due to smoking.

He indicated that among adults at least, there has been a sharply growing tendency in the past 15 years to smoke cigarettes with filters.

But he added: "Unfortunately, however, people have a difficult time in most cases in finding out whether their cigarettes — filtered or unfiltered — are low in tar and nicotine count."

Auto Makers Go to Court Over 3 Safety Standards

DETROIT (AP) — The auto industry, which has blamed slumping sales on the auto safety furor, went to court yesterday challenging three of the safety standards ordered by the federal government for 1968 cars.

One by one, they filed suit, asking the 6th U.S. Circuit Court of Appeals in Cincinnati, to throw out the standard aimed at making the car interior safer for passengers in an accident.

American Motors also challenged two others — one requiring door latches and hinges that will keep doors from popping open in collisions, the other requiring

steering columns that can jam no more than three inches toward the driver even in head-on crashes.

No sooner had the industry struck the latest blow in the safety debate than Chrysler Corp. announced it would lay off 21,000 men this month because it is building cars faster than they are being sold.

The layoffs will be at Chrysler plants in St. Louis, Los Angeles, Newark, Del., Belvidere, Ill., Detroit and Hamtramck.

MAIN TARGET

The auto makers' main target was

the so-called passenger impact protection standard setting specifications for equipment in the area of the passenger's head, knees and legs.

It requires, in essence, that the instrument panel, seat backs, sun visors, knobs, handles and armrests be built so as to reduce the possibility of injuries.

General Motors and Ford, the two biggest auto builders, said flatly they couldn't meet it on 1968 cars.

"If the standard is not revised, Ford will be unable to produce automobiles

for sale in the United States after Dec. 31, 1967 — when the standard takes effect," Ford said.

HARM FEARED

Chrysler, which started the parade to court, said being forced to comply with the standard on 1968 cars would cause it "irreversible harm."

Next year's models were planned months ago and are only a few months from the production line.

The standard would require Chrysler to redesign completely its instrument panel and other interior parts at great difficulty and expense, the suit said.

3 Die, 280 Hurt on Japan Train

OSAKA, Japan (AP) — A railway passenger train collided with a truck at an unmanned crossing near here today, leaving three passengers dead and about 280 others injured, six of them seriously.

Police investigators said a five-coach train packed with workers on their way home from offices and excursions slammed into a truck stalled with engine trouble on the crossing near the Onosato River.

The first two coaches plunged 15 feet into the river and a third dangled from a 500-foot-long bridge.

About 500 police and railway workers struggled to rescue passengers entrapped in the coaches and within three hours all the injured had been taken to hospitals.

Officials estimated 300 passengers were aboard the train, an express on the Nankai Electric Railway Line, privately owned. It was bound for Wakayama, 40 miles south of Osaka.

PLUNGES INTO RIVER

The accident occurred at 7:25 p.m.

Witnesses reported the lead coach plunged into the river and landed in the water upside down.

The second coach dropped into the 80-yard-wide river right side up.

The last two coaches remained on the tracks. The truck also was dragged into the river, where it caught fire.

BLAST RUINS AT PRISON — A Blackman Township fireman checks the smoldering ruins of the arsenal at the State Prison of Southern Michigan which blew up last night killing two prison guards. The explosion also knocked out electric

power to the gates of the prison located at Jackson. Authorities, however, threw the gates on manual control immediately and there was no security risk. Cause of the explosion is unknown. (See story, page A-2.)

Vehicle Check by State Police Due Here Soon

The State Police vehicle checking crew is expected to be in north Oakland County soon.

The six-man police unit now operating vehicle check lanes in Detroit and slated to come to the Pontiac area is headed by Sgt. Fay Johnson of State Police headquarters in East Lansing.

Purpose of the vehicle check that will be expanded throughout the state in coming months is twofold.

First, it will offer motorists the opportunity of a thorough safety evaluation of their cars or trucks by state troopers.

Secondly, the information compiled by the check will be offered to the State Legislature as a guideline for possible legislation on compulsory vehicle inspection.

COMPLETE CHECK

State Police checking crews include a unit leader, a flagman and four checkers. They examine everything but the ash trays and wheel ornament.

Major check points include brakes, lights, steering, muffler system, turn indicators, windshield wiper and wiper systems, all windows and tires.

Also checked by the troopers will be

NFO Exec Vows to 'Dump' Cows

OWOSSO (AP) — "If we can't dump our milk, we're going to dump our cows," a National Farmer's Organization (NFO) official said in announcing the organization's newest "pressure" move.

Charles King of Owosso, who handles publicity for the NFO, said yesterday members of the striking organization would begin selling cows for slaughter Monday at three locations in Michigan.

Earlier this week, state officials warned NFO members they could no longer dump milk in streams because of pollution.

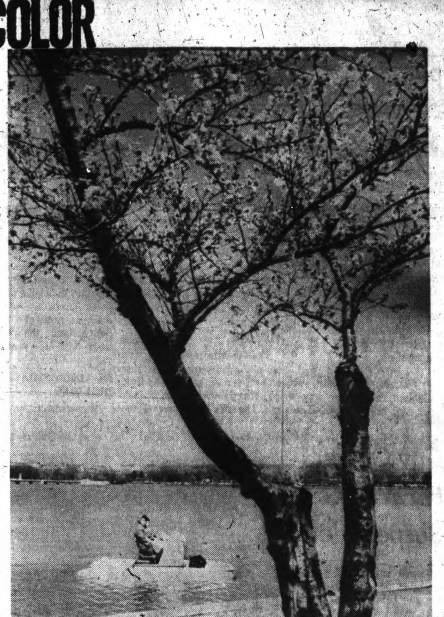

King said the dairy cows would con-

time to be slaughtered in an effort to pressure dairies to agree to an increase in milk prices of two cents a quart for farmers.

"This will shorten the supply of milk a bit," said King, when asked how the slaughtering would aid his cause.

"We're in a bind on that injunction," he added. "We can't advise other farmers."

The Justice Department sought an injunction against the NFO in Des Moines this week charging the organization with coercing nonmember farmers to join in the milk withholding action.

TREES IN BLOOM — This is a view across the Tidal Basin toward the Washington Monument as Washington's famed Japanese Cherry trees began to bloom yesterday. The blossoms are arriving just in time for the 1967 National Cherry Blossom Festival which officially opens Tuesday.

Rocky Road Ahead for Area Motorists

Motorists were given little hope today that there will be smooth riding on Oakland County roads in the months ahead.

Frazer W. Staman, chairman of the board of County Road Commissioners, said that because of the worst spring breakup in at least six years, road repairs are going to be "slow and frequently inadequate."

"We don't have enough money to make all the needed repairs," said Staman, "but if we did it would cost at least \$1.5 million just to restore the roads to their former condition."

Staman estimated at least 75 different roads are impassable in the county, in addition to hundreds of miles that are badly damaged.

"Roads in the Farmington Township

area are the worst, but the problem is general throughout the county," said Staman.

The repair of subdivision streets will be the hardest to accomplish, according to Staman. Even under normal conditions, we don't have sufficient money for maintenance of subdivision streets.

During the next few weeks, each damaged road in the county will be inspected and repair costs estimated, said Staman. In those townships where road commission funds will be inadequate to make repairs, an appeal will be made to the township board for financial assistance.

"There are several areas where substantial help from townships and local residents must be forthcoming or many roads will remain in very poor condition," he added.

More Snow Due? Joke Is on You!

April arrived at midnight shedding tears of joy just to be back again in the Pontiac area.

The weatherman predicts considerable cloudiness and a little cooler today, tonight and tomorrow with a high of 62 to 67.

Temperatures are expected to slip into the high 40s tonight. The outlook for Monday is partly sunny and a little cooler.

Morning southwesterly winds at 12 to 18 miles per hour will diminish a little tonight.

A mild 57 was the low in downtown Pontiac preceding 8 a.m. The 2 p.m. thermometer reading was 60.

L'I'L ONES

"We HAD to eat all the cookies, Mom. This was a seek-and-destroy mission."

Reporter Not Impressed by Tomfoolery

By ED BLUNDEN
The April Fool is in town today. Vowing not to be taken in by his corny routine, this reporter made the following interview:

Hello, Fool.

How did you know it was me?

I'm asking the questions. What kind of foolishness is in store for us today?

Oh, I'm going to make a lot of calls telling people they just won the Irish Sweepstakes or else their maiden aunt just died and left them a million.

Call that funny? What else?

I'm going to send a lot of guys around looking for stuff like the cannon report and the paper bag stretcher.

Ah, c'mon, you can do better than that.

How about nailing down somebody's shoes or the old billfold on a string gag or the coin imbedded so you can't pick it up... I got a million of 'em.

The same old stuff. It looks like another typical April Fool's Day to me.

Wait 'til you try and find your car.

Major Streets Lag Tied to Fund Juggling

(EDITOR'S NOTE — This is the second in a series on Pontiac's streets.)

By DICK SAUNDERS

Municipal finance is often the art of juggling available and frequently inadequate funds to handle immediate needs. The only danger is that if those im-

mediate needs stick around too long, you can juggle yourself into a corner.

That's what has happened to Pontiac's major street system.

It didn't happen yesterday, or last month or last year. It's been happening for a long time. The juggling act is currently opening its 17th season.

The problem has deep roots going back 40 years.

Land annexed by Pontiac in the late 1920s came to the city without streets, sewers and similar improvements. Most of these were on Pontiac's East and North sides.

Over a period of some 20 years, these

areas developed around a system of dirt and gravel roads.

In 1950, these areas still had a high percentage of unpaved streets. Paving these streets was one problem.

Another problem in the early 1950s was a growing need for improvements (Continued on Page A-2, Col. 6)

• The M59 freeway in Pontiac will be completed this year, but the city is saddled with "deplorable major street conditions," according to one city official.

• Motorists can look forward to gigan-

tic traffic jams on Baldwin and Joslyn.

• Downtown Pontiac's interior loop road has been shelved by lack of funds and indecision over redevelopment of the central business district north of Huron.

• Failure to increase assessment rates

for local street construction has hurt major street improvements.

• Cass will be one-way southbound and Oakland one-way northbound to Montclair by the end of this year, easing traffic movement north of Wide Track Drive.

Power to Jackson Gates Cut

Blast at Prison Kills Two

JACKSON (AP)—An explosion rocked the arsenal of the State Prison for Southern Michigan Friday night, killing two guards and knocking out electric power that controls the prison gates. The blast, amid gunpowder, tear gas and other weapons material, set off a fire and two more explosions that shattered the interior of the arsenal and its equipment. The victims were Joe D. Grate, of Jackson, the arsenal control officer on duty at the time, and Max Hinkley, also of Jackson, who was in the arsenal, too. U.S. assistant to Warden George A. Kropp. "I'd say destruction was 90 per cent, and that may be conservative." Authorities "threw the prison gates on manual control immediately after the first explosion and U.S. said there was no security risk. VICTIMS The victims were Joe D. Grate, of Jackson, the arsenal control officer on duty at the time, and Max Hinkley, also of Jackson, who was in the arsenal, too. No damage estimate was available. "There's no way to say at this point," said Louis

City Officer Hit With Gun; Suspect Held

Charged with pistol-whipping a Pontiac policeman during a near gun battle late yesterday, a city man is being held at the Oakland County Jail. Charlie E. Saunders, 24, of 381 S. Marshall was apprehended by three patrolmen at the intersection of Bagley and Brush after a fourth policeman had been knocked to the ground and struck in the face with his own revolver.

Patrolman Gerald Kolb said he stopped Saunders about 4:35 p.m. when he recognized him as a suspect named in warrants for assault and battery and for speeding.

Kolb said he had asked for Saunders' identification when Kolb was suddenly knocked to the ground and beaten about the head and face.

Kolb's radio call of "Send me a back-up—I'm bleeding and he has my gun" brought three scout cars to the scene.

HOLDING GUN

Patrolman Douglas Fortin said he arrived at the intersection and saw Saunders running towards another police car with a gun in his hand.

Fortin said Saunders whirled and aimed the weapon, first at Fortin and then at Patrolman Stanley Helgemo, before leaping behind a patrol car.

Before any shots were fired, however, Fortin said Saunders threw the gun to the ground and emerged from behind the car with hands in the air.

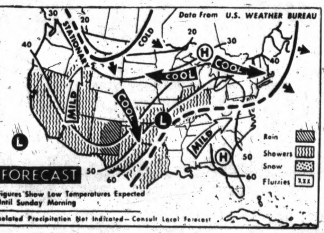

He was handcuffed and taken into custody. He faces a charge of felonious assault in addition to the previous warrants.

Kolb was taken by ambulance to Pontiac General Hospital, where stitches were required to close a cut on the left side of his face.

NATIONAL WEATHER—Showers and thunderstorms are forecast tonight in the Mississippi Valley, the central and southern Plains, the southern Plateaus and California. Snow is expected in the Rockies. It will be colder in portions of the Northeast, the Lakes region and portions of the southern Plains and Plateaus.

U.S. said cause of the explosion had not been determined, but that the fire marshal's investigation was continuing. The fire raged for more than an hour before the convict fire-fighting division extinguished it. "It probably was the first explosion to start at 6:05 p.m. Four hours later, the prison gates were still on manual control, without electric power. IN ADMINISTRATION BUILDING The arsenal is in the administration building, which houses the warden's office and several other facilities. The building is two stories, made of reinforced concrete and brick. The second floor above the arsenal was not damaged, U.S. said. "It appears that the main force of the blast went out through several grilles and barred windows on the south side, away from the rest of the building," he said.

AT EXCHANGE CLUB—Greeting State Atty. Gen. Frank J. Kelley (center) on his arrival at the Pontiac Exchange Club yesterday as the featured speaker at a luncheon are program chairman Roy Dorris (left) and Ray Ulsch, president of the Exchange Club. Kelley, in his luncheon speech, defended the existence of the state's one-man grand jury procedure but conceded it was not perfect.

Garrison Asks Arrest of 2 Possibly Tied to JFK Case

NEW ORLEANS, La. (AP)—Dist. Atty. Jim Garrison has asked Canadian and Texas anti-Communist groups to arrest two men charged in an incident which Garrison's office says "may or may not be related" to his probe of the Kennedy assassination. Garrison telegraphed arrest warrants Friday to Montreal, Quebec and to Dallas, Texas, for Sergio Arcacha Smith, based on charges of conspiring to burglarize a munitions dump in Houma, about 40 miles southwest of New Orleans.

Garrison obtained a warrant for Novel's arrest last week as a material witness in the probe of President John F. Kennedy's assassination.

The new charge accused Novel and Arcacha of conspiring with David W. Ferrie to commit simple burglary of a munitions dump in Houma, about 40 miles southwest of New Orleans.

ALLEGES PLOT Garrison has alleged that Ferrie, Lee Harvey Oswald and Clay L. Shaw plotted in mid-September 1963 to kill President Kennedy. Oswald and Ferrie are dead. Shaw, 54, a retired New Orleans executive, has been indicted on a charge of conspiring to kill the president.

\$6,000 Damage in House Fire on North Side

Fire tentatively blamed on an overloaded electrical circuit caused an estimated \$6,000 damage to a home on Pontiac's North Side this morning. Two engines and a ladder unit directed by Asst. Fire Chief J. Lee Nye responded to the blaze at the Paul Carner residence, 36 W. Colgate.

Flames at the one-story home were extinguished about 60 minutes after the fire was reported at 6:15 a.m. Damages to the house were estimated at \$4,000 and to the contents at \$2,000. No injuries were reported.

Hampton Will Participate in Florida Parley

State Rep. William P. Hampton of Birmingham has been selected to participate in a "State Legislator Seminar" in Miami, Fla., Aug. 15-19. The House Republican floor leader, Hampton is one of 36 state legislators in the country who will attend the session.

The invitation was extended by the Eagleton Institute of Politics at Rutgers University. The institute was established to advance and promote knowledge of government and public affairs.

The purpose of the seminar is to provide state legislators with a working acquaintance with the tools they can employ to strengthen the over-all state legislative function.

But, concurrence by the supervisors will not assure the demise of Egg Lake. An application must then be filed with the State Conservation Department, the final and official authority on lake name changes.

News Briefs at a Glance

SAULT STE. MARIE (AP)—Cmdr. Kenneth A. MacDonald, 36, of Hessel has been appointed commander of the Coast and Geodetic Survey vessel Mount Mitchell, under construction. The hydrographic survey ship, being built at Jacksonville, Fla., is 321 feet long and costs \$4.3 million.

TORONTO, Ont. (AP)—Several mining companies have formed a company, Coppermine River Ltd., to investigate a 160-square-mile site in Canada's Northwest Territories. Murray Watts, president of the new firm, said \$500,000 will be provided over a four-year period.

Boston (AP)—Bishop Fulton J. Sheen of Rochester, N.Y., told a meeting of the New England Conference of the Catholic Hospital Association should be asking questions about "having the view of poverty and charging a patient \$25 or \$30 a day." "We are not different in cost. We ought to be, somehow," he said.

NEW YORK (AP)—Pennsylvania Engineering Corp. of New Castle, Pa., and North Engineering Works, Detroit, have announced agreement for Penn Engineering to purchase the assets of North Engineering for an undisclosed sum. The Penn-North merger is subject to approval of North stockholders at a special meeting in late April. Penn manufactures heavy duty equipment for the steel industry. Northern is maker of overhead cranes and hoists.

CHARLEVOIX (AP)—Consumers Power Co. officials said yesterday that their Big Rock Point power plant, north of Charlevoix, has generated one billion kilowatts of electricity since opening in December. "This is one of the most economical to supply a city of 10,000 residents for 20 years," a company spokesman said. The Big Rock Point was Michigan's first nuclear-powered generating facility when it opened in 1962.

CHICAGO (AP)—John T. (Sandy) O'Brien, first vice president and chief of the Teamsters Union and a labor leader for 45 years, died yesterday at his home. He was 71. O'Brien was chief of Local 710, a group of men and a group of drivers. O'Brien, a familiar figure in union councils led by James R. Hoffa and his predecessors, had been a top local official since 1922. He long had been reported to be one of the highest salaried union officials.

WASHINGTON (AP)—The giant Teamsters Union starts taking a strike vote today in its first nationwide showdown with the trucking industry. A major segment of the industry threatened to lock out some 200,000 workers if the Teamsters carry out their strategy of striking a few companies at a time.

DETROIT (AP)—Frank A. Butler, a public relations man for American Motors Corp. for 12 years, was appointed director for the Detroit Institute of Technology yesterday.

LANDING (AP)—The State Labor Department has advised employers who plan to hire miners for summer jobs to submit applications for approval of occupation before the summer rush. Processing of such applications usually takes a week, the department said, and the minor cannot be hired during that time.

LANSING (AP)—The State Agriculture Department advises Michigan farmers that the state is free of any infections by Golden Nematodes, an insect that causes extensive damage to potato crops. The insect so far has been found in only one section of New York State, where it caused up to an 85 per cent reduction in potato yields.

GRAND RAPIDS (AP)—U.S. Sen. Charles H. Percy, R-Ill., will address a Michigan Week luncheon May 25 attended by some 1,000 Grand Rapids business, labor and government leaders and their wives. Gov. Romney and Rep. Gerald R. Ford, R-Mich., also have been invited to attend.

Birmingham Area News

4-Semester School Year Eyed

BLOOMFIELD HILLS—Let- ters will be going out next week asking some residents to join a committee to study the possibility of a four-semester school year for high school in the district. Eugene Johnson, schools principal, said the group will study all aspects of converting to the college-type semester system. He said such a system would give better use of present facilities.

He indicated a four-semester system would allow for students graduating with 22 or more credits rather than 16 or 18. He said the group would study the possibility of providing more "enrichment courses."

This would allow a college prep student to gain credits in humanities and specialized courses that the student would not otherwise have time for, he said.

BIRMINGHAM—John Saeffe, assistant city manager, has been appointed chairman of Government Day for Michigan Week celebrations.

Saeffe said highlight of the day will be the mayor exchange program. The mayor of Ypsilanti, to be elected Wednesday, will switch jobs with Birmingham's Mayor Robert Page on the day, May 22.

A recognition luncheon will be held at noon to honor past and present civic leaders.

BLOOMFIELD HILLS—Five seniors at Cranbrook School have been named to the National Cum Laude Society. They are Richard Bosley of 840 Larchlea and Roger Cummings of 1608 Norfolk Dr., both of Birmingham; Ralph Gerson of Huntington Woods; Jack Goodstein of Flint and Charles Landau of Des Moines, Iowa.

Membership in the Society is one of the highest honors Cranbrook awards.

BIRMINGHAM—Two of the school district's science teachers were speakers at a meeting of the National Science Teachers Association convention in Detroit recently.

Mrs. Margaret Decker and Willard White, teachers at Derby Junior High, described teaching a science program developed by a group at Princeton University.

Intruder Stabs City Man, 77

An elderly Pontiac man is listed in satisfactory condition at Pontiac General Hospital after being stabbed twice in the chest yesterday by a masked intruder.

Casca O. Adams, 77, of 28 N. Edith told Pontiac police his assailant came to the door about 8:30 a.m., knocked once and then came into the house, demanding Adams' money.

Adams said he showed the man his empty wallet and told him he had no money. The attacker then rifled through Adams' drawers before turning on Adams, police were told, stabbing the victim twice with a jackknife.

Adams described his assailant as white, between 25 and 40 years old, wearing a black rubber mask, with green pants and a green jacket.

Adams said he showed the man his empty wallet and told him he had no money. The attacker then rifled through Adams' drawers before turning on Adams, police were told, stabbing the victim twice with a jackknife.

GOING DOWNHILL While the drain on major street funds for local street paving has eased somewhat since 1964, the major street system is still going downhill.

"We now have deplorable major street conditions," Neely noted.

And the outlook for any immediate relief is dim. (Next: Transition is a one-way street.)

Separate Holdups

3 Men Robbed in Pontiac

A cabdriver held up at knife- ley and Orchard Lake when a man came up from behind him and placed a knife to the back of his neck.

Then, Foster said, a second robber appeared, brandishing a pistol.

After taking Foster's wallet containing \$38, the two fled on foot, police were told.

William Shile, 24, of 849 Woodland said he was robbed of a watch and ring worth \$175, \$6 in cash and six charge plates by a hitchhiker.

Shile told police he picked up the man about 12:30 a.m. on the city's North Side.

The hitchhiker quickly produced a knife, Shile said, and forced him to drive to the intersection of Frank and Ellwood.

There, Shile said, he was robbed. The bandit fled on foot. Police said Shile and Foster were unable to identify their assailants.

He indicated a four-semester system would allow for students graduating with 22 or more credits rather than 16 or 18. He said the group would study the possibility of providing more "enrichment courses."

Radio-TV Talks Set; Mutual Settles

WASHINGTON (AP) — Union and management negotiators meet with federal mediators today in efforts to settle the

four-day strike against the three major television and radio networks.

Chet Huntley, who has remained on the air as the New York anchor man of NBC's din-

ner hour newscast, appealed personally to 40 colleagues at NBC to give up the strike.

Huntley urged formation of a union exclusively for broadcast journalists. He said he had received "100 per cent support" from 37 newsmen, including Brinkley.

Huntley said, however, that only three were willing to lend their names to his movement at the time. He said two of them are Frank McGee, who has defied the union by staying on the job, and Floyd Kalber, an NBC correspondent in Chicago.

DISCOUNT CLAIM

Officials of AFTRA, which represents announcers, per-

formers, singers and disc jockeys, discounted Huntley's claim of widespread support. They said their information "is quite the opposite."

Brinkley declined comment on Huntley's claim that he was supporting Huntley's movement.

Walter Cronkite, Huntley's counterpart at CBS, has honored the picket line and stayed off the air. Cronkite, who has a cold, said he would be on the picket line next week.

Cronkite disagreed with Huntley's position. He said Huntley telephoned him and read him a statement of renunciation of

Salary Hikes to Be Aired in Waterford

Salary increases and improved fringe benefits for Waterford Township employees will be considered Monday night by the Township Board.

Last Monday the board approved contracts with the police and fire departments that gave public service personnel a wage and fringe benefit improvement package valued at about 7 1/2 per cent.

This included full payment by the township of hospital-medical insurance premiums.

All employees other than police and firemen will be considered by the board Monday.

In other business, the board is slated to act on a resolution of intent to proceed with a special assessment district for installation of sanitary sewers in the Donelson Park-Elizabeth Lake Road area.

BANK ACCOUNT

The board will also act on a resolution to establish a new bank account for the library development fund.

First notices read at the board's last meeting are scheduled for attention Monday.

One is a request for rezoning of a parcel in Huron Gardens subdivision from residential to parking and the other is for transfer of an SDM - licensed business at 4821 W. Huron from William and Lela McNamara to Joseph and Sam Namy.

Phone Rate Cuts in Ottawa County

LANISING (UPI) — The Public Service Commission yesterday said the Allendale Telephone Company in Ottawa County will reduce its rates by a total of \$19,600.

The rate reduction in one party, four party, multiparty and extension service will affect 841 customers.

All the service rates will be reduced by 50 cents except for the extension service, which will be lowered by 25 cents.

The Mutual Broadcasting System, a radio network only, announced a settlement Friday night with Federation of Television and Radio artists. Mutual network newsmen began reporting to work immediately.

Terms of the agreement were not immediately made public.

This left CBS, NBC and ABC to bargain today in the first meetings since negotiations broke off Tuesday night. The strike was called at 5 a.m. Wednesday.

WONT RETURN

David Brinkley, of the NBC news team of Huntley-Brinkley, was quoted as saying from his home in Chevy Chase, Md., that he would not return to work until the strike is settled.

The men behind the diamond are part of what you buy

The diamond and its facets are easily measured for their worth. The men and their facets are harder to judge. Except as seen through the "loupe" of time, for more than 50 years now, the men of Connolly's have been importing and supplying diamonds for Oakland County. It is true: "The men behind the diamond are part of what you buy." And here are men who have stood the test of time, flawlessly.

Dem Brass Still Concerned Over State, Local 'Warfare'

WASHINGTON (AP) — Not different from those in other Democratic leaders, states, California Democratic President Hubert H. Humphrey while welcoming Sen. Robert F. Kennedy's latest plug for President Johnson as a boost for putting the hard work of putting the house in order.

As a result, a number of key leaders are expressing caution about the party's 1968 prospects.

"It's much too soon to tell,"

New Jersey Democratic Chairman Robert J. Burghardt said in an interview when asked if President Johnson would carry his state in 1968. Michigan's Zoltan A. Perenyi agreed, although he said he expects an upswing as the election approaches.

CITE WRANGLING

Chairmen from a number of Midwestern and far Western states said privately they feel the same way, and cited intraparty wrangling as a major problem.

"Our problems are not much

Praising Johnson and Vice President Hubert H. Humphrey as "a strong team," Kennedy said, "I know that all of you are going to work for them as I am going to work for them in 1968." As the Democrats wound up their meeting with a White House reception just before President Johnson's departure for Texas, Republican chairmen from cities and large counties moved into town for two days of discussions.

"Factionalism in our states is a luxury no party can afford," Bailey told a luncheon Friday.

"We have it," he added, "but there is no reason why we can't sit down and meditate together."

O'Brien said earlier his observations around the country since last November's election have given me deep concern.

"A number of states reflect a disunion in state and local Democratic organizations," he continued.

"Democratic disunity is the germ that produces Republican disease."

The strongest note for party unity came from Kennedy, who told a breakfast session Friday

"we are brothers together."

Status of Key State Legislation

TAX REFORM — Gov. Romney's income tax bill defeated by Senate and returned to committee with his seven other fiscal reform bills; modified proposals on general orders in House. Proposals by Reps. Roy Spencer, R-Attica, and Roy Smith, R-Ypsilanti, in House committee.

APPROPRIATIONS — Romney's executive budget bills in House and Senate committees; higher education appropriation bills totaling \$22.8 million, Rep. George F. Montgomery, D-Detroit, in House committee.

MEDICAID IMPLEMENTATION — House amended and passed Senate-approved bill sponsored by Sen. Charles O. Zollar and returned to Senate for concurrence in amendment.

COMPLUSORY MOTOR VE-

HICLE INSPECTION — Several bills in House and Senate committees.

IMPLIED CONSENT — Rep. John Bennett, D-Redford, speaks in order on general orders in House; several bills in House and Senate committees.

LOWER COURT REORGANIZATION — Several bills in House and Senate committees.

SUNDAY LIQUOR SALES — Rep. Donald R. Pears, R-Buchanan, on general orders in House. Other bills in House and Senate committees.

PUBLIC EMPLOYEE BARGAINING — Five bills in Senate committee.

STOP AND FRISK — Sen. George Kuhn, R-West Bloomfield Township, in Senate committee.

Granddad of Weather Satellites Turns 7

WASHINGTON (AP) — The space watch on the world's weather turned age seven today as a recognized working adult among satellite systems.

By July 2, 1965, 10 Tiroso satellites had been launched successfully. These have been followed Services Administration — and by four launches of the ad-administered by the Commerce vanced Tiroso operations satel- Department.

The National Aeronautics and Space Administration launched Tiroso I — for Television Infrared Observation Satellite — into orbit on April 1, 1960. In that moment, weather observation advanced more than in all the years of weather data collection by surface means, by balloons and sounding rockets and by airplanes.

Within hours of lift-off Tiroso I had sent back to earth the first television pictures ever returned from space. The grandfather of all weather satellites had proved it was feasible to photograph the earth and its cloud patterns from the lofty

vantage point of space, and thus little known as TOS until they greatly expand the capability to get into orbit.

Once they are in operation these improved Tiroso spacecraft are known as ESSA satellites — for Environmental Science

Tire Makers to Issue Speed Warning

WASHINGTON (UPI) — The nation's tire makers have agreed to caution motorists that 75 miles an hour is the top safe speed for passenger cars tires carrying maximum loads for sustained periods, it was learned yesterday.

The warning applies to virtually all tires, no matter what width or grade, when a car is loaded to top capacity and driven in a sustained-speed or turnpike situation.

It does not apply to average driving situations where tires are carrying less than maximum load.

The move was disclosed by the author of a controversial tire durability study in a letter to Warren G. Magnuson, D-Wash., chairman of the Senate Commerce Committee.

It was confirmed by the Tire and Rim Association, Akron, Ohio, which represents 15 ma-

jor tire manufacturers and 22 tire rim makers. The association issues the industry "bible" on the tire specifications followed by U.S. car makers.

NO RECOMMENDED LIMIT

Until now, there has been no recommended safe speed limit on tires that carry high-speed cars, many of which can exceed 100 miles an hour. A few states have speed limits as high as 80 miles an hour.

President Lawrence R. Sper-

berg of the Three-T Fleet Tire Testing Firm, El Paso, Tex., said the speed ceiling recommendation was an important, but limited step.

A study submitted by Sperberg at recent Commerce Committee hearings showed a high rate of premature failure when tires were carrying maximum loads at high speeds.

The speed warning will be contained in the industry's year-

book to be published later this spring. The auto industry uses the yearbook to recommend tire load and inflation in car owner manuals.

According to C. N. Dykes, executive vice president of the Tire and Rim Association, the speed warning will apply to all passenger car tires in the new yearbook. The publication lists tires which have been manufactured for a number of years.

Blast, Flames Hit Oil Depot

LONDON (AP) — At least 13 persons were injured, six seriously, today when explosions and fire swept a big oil company depot on the fringe of London's main airport.

Flames and smoke that mushroomed 300 feet were visible to crowds in airport terminals.

The roar of the explosions continued for an hour as 10 of the depot's 11 tank trucks blew

Buyer Attitude Said on Upswing

ANN ARBOR (AP) — Buyers declining in each quarter of are hearing good news, or 1966. Economists George Katona and Eva Mueller, directors of the surveys which have been conducted since 1951, said attitude improvement was most pronounced among upper income groups.

The researchers said consumer discretionary spending-buying things that aren't necessities—depends upon his income and his willingness to spend.

There were 475,878 more persons admitted to hospitals in 1965 than in the previous year.

Vote City Water for Bloomfield Hills

Monday, Bloomfield Hills voters are faced with a proposal which if passed would allow the City to provide a water system.

A water system is by no means a luxury. It is merely the modern way to live today. Old-fashioned plumbing has long since disappeared and the City of Bloomfield Hills is one of the few remaining communities without city water.

The question of municipal water has been on the ballot twice before, and each time has had a majority of voters approving the measure, but it failed because a two-thirds favorable vote is necessary.

The suburban water is fast dwindling, and for the future protection of the residents we feel the voters should approve the water proposal. Without a city water supply and fire hydrants, the fire department is helpless in fighting most fires.

It seems to us rather fundamental that a proper city water supply is essential to any community. All residents should feel it their responsibility to get out and vote for water and urge their neighbors to do the same.

Three incumbent City Commissioners are running and we strongly recommend their reelection. They are: Louis J. Colombo Jr., Edward H. Lerchen and E. R. Davies.

They have all been hard working, levelheaded commissioners. It is our opinion that they represent the best interests of the City and merit your support.

Vehicle Inspection Law Highway Safety Ally

The vehicle inspection law passed by the State Legislature last year is now in effect. It is a watershed version of the mandatory inspection regulation called for by Gov. Romney's highway safety agency and Secretary of State James Hare.

Under the new inspection law, cars of motorists will be subject to a categorical check conducted by the Michigan State Police. The inspection program began last Monday at three State locations, soon to be expanded to a statewide pattern of eight inspection points.

Owners whose vehicles are faulty in minor respects will be denied stickers of approval. To obtain them, the specified corrections must be effected and a verifying reinspection made. In cases of major defects, citations will be issued, with compliance mandatory. Failing this, owners will be subject to prosecution.

To be prepared for car inspection, motorists must be able to show a current driver's license and current vehicle registration. Vehicle registrations now indicate whether an owner carries auto insurance and, if so, expiration date of the policy. Inspectors will accept this in lieu of certificate of insurance coverage provided the expiration date is not past. When such is the case, proof of policy renewal must be available.

Until such time as a meaningful mandatory vehicle inspection law is put on the books, we commend the present measure as a constructive step toward reduction of the appalling incidence of highway casualties.

'Hot Air' Is Seen in Inflation Figures vs. Facts

Statistics and reality have a way of parting company when it comes to measuring the impact of inflation. Some authorities minimize inflation by pointing to total personal income in the United States last year of nearly \$600 billion—up some 8 percent over the year before. This, they point out, compares favorably with the rise in consumer-goods prices which was less than 4 percent.

The term personal income, as used by Government, includes a variety of payments to individuals—wages, net rents to landlords, dividends and interest received by individuals, net income of the self-employed and "transfer payments," mostly Social Security and veterans benefits.

The total income figure is meaningless in determining how all these different groups of individuals fared. Much of the rise in total personal income is accounted for by the fact that more people are at work than ever before.

Statistics notwithstanding, there is but one way to keep ahead of inflation, and that is for Government to live within the taxpaying ability of the people. As deficits mount, the value of the dollar declines. As of January, 1967, it was worth about 87 cents of the 1957-59 dollar.

This means, in spite of impressive statistics of total personal income, that millions of individuals are worse off now than they were a few years ago. This is the price of inflation.

Hanoi Did LBJ a Favor

By JAMES MARLOW
AP News Analyst

WASHINGTON — North Vietnam played it cool for years. Then suddenly it didn't. And just because it didn't, it did President Johnson and the United States a big favor. But it meant to do the opposite.

Just when Johnson's popularity was MARLOW way down and American prestige around the world was suffering because of the war in Vietnam, Hanoi on its own revealed the repeated efforts of Johnson to find some road to peace.

If Johnson had looked inflexible about making war until these revelations about his peace efforts, which Hanoi ridiculed, now it's the North Vietnamese who look bullheaded. They made Johnson look better, themselves worse.

This was the opposite of their intentions.

For years, on the canvas of the world, Hanoi had painted Johnson and the United States as berserk monsters and aggressors and, in the process, belittled all the American statements about wanting peace.

North Vietnam's leader, Ho Chi Minh, had a pat answer for American peace suggestions: Stop the bombing unconditionally, although Johnson had ordered bombing pauses to see if North Vietnam would respond. It didn't.

HARDER POSITION

Gradually, the American position hardened. Johnson laid down the preliminary condition for peace: If this country is to stop the bombing, Hanoi must show it is interested in peace by reducing some of its own war-making.

Johnson's critics, here and elsewhere, ignoring his proposal, apparently preferred to listen to Hanoi. They clubbed Johnson for not doing what Hanoi demanded: Stop the bombing unconditionally or at least indefinitely.

They skipped over the fact that North Vietnam had ignored several chances — during the bombing pauses — to show it was interested in ending the war.

At the time of the last bombing pause in February, Johnson wrote Ho Chi Minh directly, proposing peace steps. But the North Vietnamese leader didn't answer until the day after Johnson finally ordered the bombing resumed.

PAST PROCEDURE

And all Ho Chi Minh did then was what he had done before. He ridiculed Johnson's efforts. Worse still, from Washington's view, he didn't even show enough interest in peace to hint at some further correspondence.

While Johnson could have made capital out of this by publicly showing Ho Chi Minh had rejected his peace gesture, he didn't. He considered the whole business too delicate to risk wrecking it by exposure.

The POWER of FAITH

By WOODI ISHMAEL

SYMBOL OF FAITH

To the world's 400 million Moslems the beautiful prayer carpets of Islam are symbols of faith. The faithful are called to pray five times a day wherever they might be because all the earth belongs to Allah. The thing that marks off the prayer site as sacred is the prayer carpet.

The call to prayer is one of the five "pillars" or principal acts of faith of Islam. Islam means "submission" to the will of God, and a Moslem is "one who submits."

Islam, the newest of man's great universal religions, was founded early in the seventh century by Mohammed, who was inspired by the Jewish and Christian worship of one God.

Confident Living:

Guilt Causes Fear and Tension

By NORMAN VINCENT PEALE

The man really looked sick. "I'm in terrible shape. The little problems make me sick with fear. I get nervous jitters 23 times a day. I'm half sick to my stomach all the time. I feel I'm heading for a crack-up. I just don't know what to do. I'm in hell and I really mean it."

DR. PEALE

I started probing for the source of the man's fears. Had he seen a medical doctor? Yes, nothing terribly wrong physically except lack of vitality and rundown condition.

What did he think caused his fearfulness? He didn't know. He couldn't recall exactly when it had started.

I had a strong hunch and decided to follow it. "What have you been doing that would give you a guilty conscience?"

He flushed a bit but recovered and giggled said, "Nothing much I can think of."

Silence. Long silence.

"Have you a nice wife and do you love her?"

"I have a lovely wife," he answered. "And sure I love her."

"Are you faithful to her?"

"This really got into him. I hated to drive into him this way but he had to have help and this was a method that could get results."

"Well . . ." he hesitated.

Lewis Hadrill of Oxford; 92nd birthday.

C. Herbert Southy of Clarkston; 83rd birthday.

Mr. and Mrs. Charles E. Groves of 5733 Oster; 64th wedding anniversary.

Arthur Cunningham of Union Lake; 86th birthday.

Jesse Alversen of Rochester; 83rd birthday.

Mrs. Lucia Cascardi of Rochester; 87th birthday.

Mr. and Mrs. Robert E. Wallace of Lake Orion; 62nd wedding anniversary.

Mr. and Mrs. Charles Winegar of Lapeer; 62nd wedding anniversary.

"Well, you know how it is. Like all the boys, a fellow plays around a little. I have a friend in Atlanta I see when I'm there on business twice a month."

Whereupon he suddenly told the history of this entanglement. I could see he really meant it when he concluded, "Lord, how I'd like to break with this woman but I can't. She won't let me go."

"Your mind with a load of guilt is what has made you sick — this is what your neurotic fears and nervous jitters have developed from. Look, why don't you get on the telephone and just tell this woman in Atlanta you're through?"

"Oh, I can't!" he winced. "She'd go and tell my wife and everybody."

"All right. Give me the lady's name and phone number and let me talk with her." Looking at a picture of misery he complied.

When I got the woman on the line I said, "I am calling you with reference to Mr. Look, why don't you get on the telephone and just tell this woman in Atlanta you're through?"

"Oh, no, it won't," she retorted with admirable spiritiveness. "He's a poor fish. I don't know what I see in him. No, sir, his blood is on his own hands. He'd tell you to call me."

"No, I volunteered. Look, let's not wreck a man's life. Will you let him go and end this without any trouble?"

Very slowly she answered, "Does he want to go straight, really straight?"

"I feel sure that he does, or he would not have expressed himself as desperate as he has."

"Maybe I'd like to do that myself," she said with a deep sigh. "You tell him he'll never hear from me again. It's washed up for good."

"My boy," I said, turning to him after hanging up, "you have really been set free from something. You sure have. You better humbly thank God and ask forgiveness."

"Thank Him that He got you out of this one, and ask God to help you keep from getting into another one. So pray and mean it."

Well, he really did pray. And he said, "So help me, from now on I'm going to play things straight, right down the line." And so he did.

It was not long before the anxiety spells and nervous jitters dropped altogether. In fact, they were on the way out as soon as he eliminated the guilt that gave rise to them.

Guilt conscience is the root cause of not a little fear and tension. Anyone developing fears which he cannot understand might do well to examine carefully the state of his conscience.

Washington Notebook:

'Nice Try, It's Not on Record'

By DAVE BURGIN

WASHINGTON — (NEA) — On this particular day, the group protesting the war in Vietnam called itself the "Committee of Health Professionals for Peace in Vietnam."

The committee recruited most of its members from a convention of psychiatrists here, with the appeal, "Don't sublimate, participate!" So there they were, with all the usual signs, pacing up and down Pennsylvania Avenue in front of the White House.

Certainly—how could there be any doubt? — President Johnson looked out of his office window at the marching psychiatrists and asked an aide, "Now what bunch of kooks do we have demonstrated today?"

"Sorry," a White House assistant told me, "there is no record that the President made any such comment. He probably didn't even see them."

"Nice try, though. It would have been a funny line."

Rats!

Voice of the People:

'Machines Spend Money for Checkless Society'

A member of the Federal Reserve Bank forecasts that he and the banking community terms a "checkless society." The plan calls for checkless paydays. The company for which you work would contact your bank and credit to your account weekly or monthly salaries, and issue to you a cash card.

To pay rent, mortgage, phone, doctor bills, etc., you would notify the bank and computers would take care of everything. You would buy a week's groceries and order the computer to pay the bill, without one penny or a check changing hands.

What about people having no bank accounts, receiving Social Security or unemployment checks? This forecaster claims that a checkless society would be more efficient than the present day money operations. Sounds more like socialism or communism. Look out for big brother or big government controls. It's later than you think.

Letter Corrects School Surplus Figure

I wish to make a correction in Saturday's Pontiac Press. My letter should have stated that the Pontiac school board ended 1965 showing a surplus of over \$1,700,000 (not \$700,000) and in 1966 they ended the year with a surplus of over \$1,300,000 in the general fund. These figures were printed in The Press in their annual report. Why should they be talking of buying bonds with this kind of surplus which they are not even supposed to have?

W. S. DOWNES
1801 OPDYKE

Readers View Worldly Goods of Ministers

Most ministers live in the home furnished by their congregation. Many of these homes could be called "lower class" since the church cannot afford an expensive "higher class" home. Many ministers drive used cars. We have had one brand new car, a 1946 model, in over a quarter of a century in the ministry.

My husband wears inexpensive suits and purchased a nice one at a church rummage sale. We still wear hand-me-downs.

I have just quit after working many years to supplement the family income and help educate the children. The quality of time we share together as a family is more important than the quantity. Ministers and their families "make do" being good stewards of what they get.

MINISTER'S WIFE

Why direct prejudice toward the minister and his family. Most are hard working, dedicated men. People of the church often expect the minister's wife to work just as hard. A car is a daily necessity in a minister's work. How I wish my father had had fewer financial worries. How lucky we were when an unexpected wedding fee meant a new pair of shoes for one of our children. Let each walk in his own shoes and let the man called by God fill his.

A MINISTER'S DAUGHTER

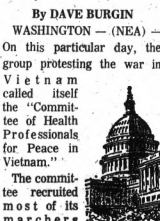

Question and Answer

Where can one find the name of the book and author of the quotation that goes something like: "If a man does not walk in the same path as his companions, perhaps he hears a different drummer, etc."?

S. M.

REPLY

The quotation is from Henry David Thoreau's "Walden, or Life in the Woods" published in 1854. It goes: "If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music which he hears, however measured or far away."

There's been one government-sanctioned kite-flying contest already this spring (on the grounds of the Washington Monument) and now there's to be another at ceremonies marking the official opening week (April 14) of the new Transportation Department.

Some capital cop bucking for promotion is trying to get his name in the paper could have a field day.

Kite-flying in the District of Columbia is illegal, has been by act of Congress since July 29, 1892.

The law doesn't give a reason. The same law (Title 22, Section 1116 of the D.C. Code)

also forbids any form of parachute landing on the district.

"Well, you know how laws go," a man in the District Corporation counsel's office told us, "Some we must have and some are absolutely ridiculous."

Members of the House of Representatives whose constituencies contain large universities are intensely watching political developments in the college town of Iowa City.

University of Iowa students say they are fed up with the way municipal government runs things. Campus leaders hope they can sign up 4,000 eligible voters, and such a bloc

A Junior Editors Quiz About CORK

QUESTION: Where does cork come from and why does it float?

ANSWER: Pick up an empty glass, lift it up and down, and you will feel some weight. Now fill it with water and see how much heavier it feels. This demonstrates that water is much heavier than the air the glass originally contained.

This is why a cork (upper right) bobs around on top of the top of the water. Cork comes from the outer bark of the cork tree and is composed of millions of minute cells which contain nothing but air. These cells are like water out.

Since it weighs only one-fifth as much as water, cork can't push the heavy water aside to sink down, and so it rides lightly on top.

Life jackets float and hold up the people to whom they are attached because compartments in them are filled with cork or another light substance, such as kapok, which acts in the same way.

A collar of the floating material will hold the wearer's head up in the water, but the arms of a life jacket are left free for swimming or handling boats as shown in the picture. It is a good idea for young people to wear life jackets when in small boats.

House Opens Fight in Court on Powell

By WILLIAM M. ARBOGAS (The House request to dismiss the suit, but oral arguments have been set for next week. Powell, a Democrat, was not allowed to take the oath of office with other members when the 90th Congress convened in January.)

Through special counsel, it has asked the U.S. District Court here to dismiss Powell's suit to force the House to give him back the congressional seat which it barred him from on grounds of misconduct.

In a legal brief filed late Friday, Bruce Bromley of New York, the counsel hired by the House, told the court that granting Powell's petition "would bring the judicial and legislative branches into the conflict prohibited by the (constitutional) doctrine of separation of powers."

The gist of the 73-page brief was that the House's decision to exclude Powell was none of the judiciary's business because the Constitution gives each branch of Congress sole power to decide the qualifications of members.

CAN'T BE FORCED Bromley further warned the court that it could not force the House to accept Powell, no matter what its decision on his suit.

Powell, the preacher-politician from Harlem, has said he would carry the case to the Supreme Court if necessary. He contends he has met the only constitutional qualifications—age, citizenship and residency. There was no indication when the lower court would rule on

Kitchen Crew Readies Supper

The Music Board of First Methodist Church will sponsor the April parish dinner and recital program Wednesday evening.

The dinner is scheduled for 6:30 p.m. with recital at 7:30. Both are open to the public. Reservations may be made by calling the church office.

The recital will feature Sam Chapin, baritone; and Charles Wilson, organist, assisted by Carl Grapentine on the oboe, and David Wilson, harpsichord.

A sophomore in the University of Michigan School of Music, Chapin is the son of the B. J. Chapins of Lake Orion. A voice major and student of John McCollum, he is soloist at the Ann Arbor Congregational Church.

Charles Wilson is minister of music at the First Congregational Church.

Grapentine, also a student at the University of Michigan, is the son of the Rev. and Mrs. Carl J. Grapentine of Walled Lake.

The program will include "Passacaglia and Fugue in C Minor" by Bach with Charles Wilson at the organ.

A selection for voice, oboe and harpsichord entitled "Cantata No. 56" by Bach will be presented by David Wilson, Chapin and Grapentine.

Chapin will sing "Arm, Arm, Ye Brave" by Handel and Charles Wilson will be heard in organ selections, "Pastorale" by Bach and "Dialogue (Suite Breve)" by Langlais.

Young people of the church will sponsor a pancake and sausage supper from 5 to 7 p.m. Thursday. The public is invited. CENTRAL METHODIST Friends will have an opportunity to get together for a roast beef dinner April 8 when the

the church office or tickets may be obtained at the door.

Methodist Men's Club of Central Wesleyan Guild.

Hours are from 5 to 7 p.m. Reservations may be made at

ing held today at Central Mission in Kathmandu, Nepal.

Principal speaker is Dr. Bethel Fleming, a medical missionary serving at the United Med-

TRY RECIPES — Donald Pogratt of 159 Cherokee (left) and Jerry Stanke of 2261 E. Hammond Lake, West Bloomfield Township, prepare sauces for the roast beef dinner sponsored by the Men's Club of Central Methodist Church.

The annual dinner will be between 5 and 7 p.m. on April 8. Reservations may be made with the church office and members of the club.

UFO'S? — They're not unidentified flying objects but tasty pancakes flipping through the kitchen at First Congregational Church. Mark Newman of 191 Chippewa and Molly McIntyre of 36 Cooley are trying their

hand at quick flips before making pancakes for the annual pancake and sausage supper sponsored by the youth group Thursday. Serving is from 5 to 7 p.m. The price is \$1.25 for adults and 75 cents for those 18 and under.

Begin Human Relations Program

Auxiliary Bishop Joseph M. Breitenbeck will open Project Commitment, the Roman Catholic Education Program on Race Relations for 22 parishes of Oakland County north of 14 Mile Road, at 8 p.m. Thursday in St. Michael's Catholic Church, Pontiac.

Five hundred area Catholic lay leaders and Negroes from inner city parishes are expected to take part.

The spring phase of Project Commitment will bring

the total number of parishes involved to over 220 parishes with more than 3,000 leaders taking part so far.

Besides providing information on the teaching of the Catholic Church in regard to racial justice and problems of race relations, Project Commitment attempts to establish an arena in which Negro and white Catholics can discuss mutual problems together.

Priests participating in the opening celebratory Mass will be Msgr. Eugene Paddock of

Holy Name Parish, Birmingham; Msgr. Arthur Carey of St. Joseph Parish, Lake Orion; and the Rev. Clement Esper of St. Hugo of the Hills, Bloomfield Hills.

Others are the Rev. Edward Konopa of St. Michael's Parish and the Rev. Lawrence Matiskis of Guardian Angels Parish, Clawson.

Addressing the meeting will be top level city, administrative, business, officials and human relations experts.

Academy Choir Sings at Worship

The Wheaton Academy Choir will present a concert of sacred music at the 11 a.m. worship hour of the newly organized Maranatha Baptist Church. Services are presently being held in the Owen School.

Directed by Professor Thomas G. Fulghum, the choir's selections will include "Worthy Is the Lamb That Was Slain" by Handel and "How Lovely Is Thy Dwelling Place" by Brahms. Several instrumental groups will also participate.

According to Pastor Philip W. Somers the new Maranatha Church, started seven weeks ago, has an enrollment in the Sunday School of more than 200 pupils.

Robert Crichton, chairman of the planning committee, is assisted by Nick Riddford, Dale Kareem, Oral Womack, James Wrinkle, Kenneth Garbutt and Earl Shook.

Others serving on the committee are Jerry Hayward, George Mellen, Al Tomanek, Robert Dendler, Lewis Ball, Charles Plumb, Floyd Bartley and Norris Smith.

West Bloomfield to Hear Fischer

The Rev. Robert Fischer of Wycliffe Bible Translators will speak at West Bloomfield Baptist Church, Orchard Lake Road just south of Pontiac Trail at 7 p.m. tomorrow.

The guest speaker will be remembered as an assistant to Dr. H. H. Savage, former pastor of First Baptist Church.

Presently the Rev. and Mrs. Fischer make their home in Escondido, Calif.

The missionary film entitled "O For a Thousand Tongues" depicting the Wycliffe Translators ministry will be shown. The Rev. John W. Trate is pastor.

News of Area Churches

FIRST METHODIST

Men's Fellowship of First Methodist Church will get together for a breakfast meeting at 8:30 tomorrow morning in Fellowship Hall. A business planning session and election of officers will follow.

All men are invited to attend and join the group. Pastor Clyde Smith said.

Dr. Merle D. Broyles, superintendent of East Detroit District, will preside over the Quarterly Conference after the 1 p.m. cooperative dinner. Pastor Smith will preach on "Do You Love Me?" at morning services.

TRINITY

Sunday is Christian Education Day at Trinity Baptist Church. The Rev. Lee A. Gragg will preach on "God Loves You." Pastor Gragg suggests the congregation read chapters II and III of Hosea before time of worship.

MINISTERS' FELLOWSHIP

The breakfast of Greater Pontiac Evangelical Ministers' Fellowship is scheduled for Monday, April 3, at 8:15 Thursday, United Lake at 8:15 Thursday.

According to the Rev. Theodore R. Allebach, membership chairman, ministers may bring a friend and the breakfast is free.

AUBURN HEIGHTS U.P.

The Rev. F. William Palmer, pastor of United Presbyterian Church, Auburn Heights will deliver the first in a series of messages on the "Church, Its Nature and Its Role" at 11 a.m. tomorrow.

During the 9:30 a.m. Sunday School the Christophers will meet under the direction of Mr. and Mrs. Robert Wagner.

This is a study-discussion group being formed for young adults for the purpose of relating Christianity and its teachings more closely to everyday life.

MESSIAH BAPTIST

The congregation of Messiah Missionary Baptist Church will be host to the new Mount Vernon Baptist Church, Detroit for a program at 3:30 p.m. tomorrow.

At 7 p.m. Holy Communion

will be celebrated at the Messiah Church. The Rev. Roy C. Cummings is pastor.

OAKLAND AVE. U.P.

The Sacrament of Communion will be observed tomorrow morning at Oakland Avenue United Presbyterian Church with elders assisting Pastor Theodore R. Allebach.

During April a Sunday School enlargement campaign among adults is planned. "Alert Adults in April" is the theme with eight classes competing.

The congregation will hear the Rev. Frank J. Currie of Detroit and Grand Rapids at the 7 p.m. service.

Music for the service will include a violin solo by Barbara Miller, a duet by Mr. and Mrs. Alfred Jackson, and a selection by the Ladies' Ensemble.

FIRST PRESBYTERIAN

The Rev. Chenoweth Watson, a Presbyterian minister and special service director for the Detroit Area Council of Churches, will preach at both the 9:30 and

Van Impes Speak, Sing

Evangelist Jack Van Impe will be at Sunnyvale Chapel, 5311 Pontiac Lake, Waterford Township, to conduct special meetings and play his accorgan Tuesday through April 9. Services will start at 7:30 p.m.

Mrs. Van Impe will be soloist and accompany her husband on the piano. The evangelist has conducted revival campaigns throughout the United States and in 17 foreign countries.

From Nigeria

Spring Revival to Begin

The annual spring missionary communion through Japan, In revival at First United Mission-ary Church, 149 N. East Blvd., will begin tomorrow and continue through April 9.

The Rev. Harold Brown, missionary evangelist from Nigeria, West Africa, will speak and show colored slides in each service.

The evangelist will tell of his experiences among the Benin people of the midwestern region whose history goes back 10 centuries.

After spending seven years among the warlike Yoruba tribe, the Browns moved to Sapele, Nigeria.

An outstanding feature of his work was the organization of a Bible School for the initial training of young men interested in the Christian ministry.

In a special sponsored by the Women's Missionary Society, Tuesday evening, a full color missionary film entitled "The Red Plague" will be shown. The film portrays the movement of

Prior to accepting his present position in 1960, Dr. Pease was president of La Sierra College for several years.

A contributor to several denominational journals, the guest speaker is the author of two books, "By Faith Alone" and "And Worship Him."

New Minister Arrives at Alliance

Preaching at Christian & Mis-
sionary Alliance Church to-
morrow will be the new minister,
the Rev. L. L. Brooker who
comes to Pontiac from Colum-
bus, Ohio.

Services are at 11 a.m. and
7 p.m.

The Rev. Mr. Brooker was in-
strumental in forming the
greater Columbus Evangelical
Christian Fellowship, an orga-
nization which embraces both
pastors and laymen in member-
ship. He served as first presi-
dent.

During his three years in
Columbus he worked with stu-
dents of Ohio State University
in connection with Inter-varsity

REV. L. L. BROOKER

A graduate of Trinity Col-
lege, he attended Asbury Sem-
inary. His first pastorate was
in Weirton, W. Va. After sev-
eral assignments he became
pastor of the Columbus
Church.

The Rev. Mr. Brooker was in-
strumental in forming the
greater Columbus Evangelical
Christian Fellowship, an orga-
nization which embraces both
pastors and laymen in member-
ship. He served as first presi-
dent.

During his three years in
Columbus he worked with stu-
dents of Ohio State University
in connection with Inter-varsity

Christian Fellowship, speaking
on campus and ministering
through his College Class at
church.

Pastor Brooker has been ac-
tive in the Ohio Association
of Evangelists serving as a
member of the executive com-
mittee.

Mrs. Brooker attended Bible
College and has worked on a
part time basis as a licensed
practical nurse. Her association
was mainly with Children's Hos-
pital in Columbus.

The Brookers have two daugh-
ters. Mrs. Paul Veley of Water-
loo, Ont. and Deborah De, 18,
a sophomore at Ohio State Uni-
versity.

List Coming Events

WATERFORD COMMUNITY

The 10th annual Missionary
Conference of Waterford Com-
munity Church, Airport and N
Olympic Parkway, will begin
with a missionary, banquet
Wednesday.

The Rev. John Visser, Min-
ister to Europe will show pic-
tures of his work and the Rev.
Ben Cummings, radio mission-
ary at station HCJB in Quito,
Ecuador, will also speak.

Other missionaries to be heard
during the five-day conference
will be the Rev. Fred Rieck,
director of Missionary Inter-
ship, Detroit; the Rev. and Mrs.
Lyle Legg, from Nigeria, Africa;
and the Rev. Gerald Hobart
from Home Missions Fellowship.
Here from Japan are the Rev.
and Mrs. Cal Junker; and from
Africa are Mr. and Mrs. James
Plueddemann.

Meetings will begin at 7 p.m.
Saturday will be Youth Day
with workshops at 3 p.m., fol-
lowed by a special missionary
youth banquet at 5:30 p.m.

CONCERT SATURDAY
The Choralaires, a musical
group from Grand Rapids
School of the Bible and Music,
will appear in concert at 7:30
p.m. Saturday in the Waterford
Church.

The 32-voice choir consists of
students interested in a techni-
cal training in the Bible.

Presenting an alto solo will
be Sue Hong of Suwon City,
Korea. Miss Hong was an aspir-
ing young actress.

ORCHARD LAKE
The Rev. Saul Tjerner, mod-
erator of the General Assembly
of the National Presbyterian
Church of Mexico, will be guest
of the Orchard Lake Commu-
nity Church, Presbyterian for
several days.

On April 4 and 7 he will ad-
dress two church dinner groups
on the \$50-million fund campaign
of the United Presbyterian
Church in the United States.

Pastor of El Buen Church
in Monterrey, he represented the
National Presbyterian
Church in Mexico at the World
Congress on Evangelism spon-
sored by Dr. Billy Graham in
Berlin last summer.

The Rev. M. Tjerner is in-
terested in the development of
an Evangelical Student Center
to serve students at the Tech-
nological Institute and the Uni-
versity of Nuevo Leon in Mon-
terrey.

Dr. and Mrs. Bruce Huntwork
will also be guests of the Or-
chard Lake Church.

The Huntworks spent five
years at Christian Hospital at
Mehes, Iran. Dr. Huntwork is
currently a resident at Henry
Ford Hospital. The Huntworks
expect to return to Iran later
this year.

SYLVAN LAKE

Marvin F. Bryant, minister of
Druid Hills Church of Christ in
Montgomery, Ala., will lead and
preach at special services to-
morrow through April 9 in Syl-
van Lake Church of Christ, 1900
Inverness.

Meetings will start at 7:30 p.m.
A graduate of East Tennessee
University and Columbia
Theological Seminary, Bryant
took graduate study at the Uni-
versity of Edinburgh, Scotland.

Ordained in the Presbyter-
ian ministry in 1952, he served
several pastorates in the south-
east.

While studying abroad he de-
cided to become a minister in
the Church of Christ. Since 1960
Bryant established the Druids
Hills Church in Montgomery and
the Church of Christ in Gaffney,
S.C.

Besides preaching and holding
special services, Bryant appears
on programs at most of the col-
leges owned and operated by
the churches of Christ.

How Does Your Garden Grow? ...Badly!

By DICK WEST
United Press International
WASHINGTON — Here you are, folks. An all-purpose garden column to answer the many questions that will be bugging you during the next several months.

Dear Mr. Greenthumb: The swishteria bush on the north side of my house is turning brown. What should I do? — J.V.W., Clods, Va.

Dear J.V.W.: Chances are the swishteria bush is not getting enough sunlight. This problem can usually be corrected by tearing down your house and rebuilding it 30 feet farther north.

Dear Mr. Crankpaddle: Try spraying with a mixture of two parts 24-PDS and one part of any good commercial counterfoil solution. If that doesn't do the job, add a little ferris powder, making sure it is properly dissolved.

Dear Mr. Greenthumb: My lawn is slowly being ruined by creeping rubbles, especially at night. I have tried every way I

know to get rid of them, including icy showers, but nothing seems to work. What do you suggest?—Perplexed, Mayhem, Ore.

Dear Perplexed: You will probably have to reseed your lawn, digging down about 20 feet and replacing the soil with volcanic ash. If the problem remains, plant them with spreading purple.

Dear Mr. Greenthumb: Did you mean spray the bears of the saliva plants?—J. J. Crankpaddle, Vibrant, Ohio.

Dear Mr. Crankpaddle: The question has never come up before. Suggest you proceed on a trial-and-error basis pending clarification.

Dear Mr. Greenthumb: My

folderol trees have not borne fruit since 1633. Wherein have I failed?—Alice Alabaster, East Quandry, Mont.

Dear Miss Alabaster: Hot towels may help.

Dear Mr. Greenthumb: If the question comes up again, you spray the saliva plants; not the bears.—J. J. Crankpaddle, VA Hospital, West Agony, Ohio.

REPEAT OF A SELLOUT!

Bicycle Safety Week Proclaimed for April 17-24

The National Safety Council has proclaimed April 17-24 as National Bicycle Safety Week.

The Optimist Club will present two new bicycles, one to a boy and one to a girl, whose names will be drawn April 27 from a list of youths who have participated in the licensing and safety inspections at schools earlier in the week.

Bike licenses will be available from the Pontiac Police Department Driver's License Bureau from 9 to 5, Monday through Friday, and from 9 to noon Saturday.

Police urge all bicyclists to see that their bikes are kept in safe riding condition.

"Safety in bicycle riding should begin when you have your first fun on the bike. It is then that good practices should be taught and encouraged through later years," said Chief of Police William K. Hanger.

SAFETY CHECKS
Safety checks include seeing the saddle is on tightly at the right height and with the right tilt. Grips should be neither level.

GLENWOOD PLAZA NORTH PERRY AT GLENWOOD

Nancy Williams Wed in Afternoon

Nancy Quirk Williams, daughter of former Gov. G. Mennen (Soapy) Williams, became the bride of Theodore Ketterer III in a formal wedding this afternoon.

The ceremony in the Cathedral Church of St. Paul, Detroit, was attended by politicians, labor leaders and industrialists.

Miss Williams, wearing a traditional white satin and lace gown, was attended by her only sister, Wendy, as maid of honor. Julie Ketterer, the bridegroom's sister, was the only bridesmaid. Ketterer who is the son of Mr. and Mrs. Theodore Ketterer Jr. of Pittsburgh had Louis B. Loughran of Pittsburgh as his best man.

BROTHERS USHER

Brothers of the couple, Gery Williams and William and Paul

Ketterer were among the eight ushers.

Although the father of the bride—one-time assistant secretary of state, as well as a six-term governor—wore striped trousers and morning coat, he replaced the traditional four-in-hand tie with his famous green and white polka dot bow tie.

A reception at the Grasse Pointe Farms home of the Williamses followed the wedding.

RESIDE IN EAST

The couple will live in Springfield, Mass., where Ketterer works for International Business Machines Corp.

He attended Amherst College in Amherst, Mass. Miss Williams attended Smith College, Tufts University and the Boston Museum School.

AP Wirephoto

Nancy Williams, daughter of Mr. and Mrs. G. Mennen Williams of Grasse Pointe, wore this traditional gown of satin and lace for her marriage vows this afternoon to Theodore Ketterer III of Pittsburgh, Pa., in Cathedral Church of St. Paul, Detroit.

Legislators Aren't Able to Dissuade

LANSING (UPI)—Ah, Spring! Ah, love: Ah, legislators: Where else can a fellow get an indefinite leave from his job to go on his honeymoon. Where else will they record for all time their joy and their sorrow for a brother fallen to the siren song.

The Michigan House of Representatives did it for Stanley J. Davis, a lad of 59, who at noon today wed Miss Marjorie Hosie.

'DON'T DO IT'

They begged him—with wise words and strong wine—not to do it, but it to no avail. So they passed a resolution Friday wishing the happy couple "a long lifetime of happiness together." But men take heart, the House, a man's world yet, granted Rep. Warren N. Goemaere of Roseville leave to accompany Davis to Grand Rapids, the marriage site, so their running poker game can continue uninterrupted.

Madison Avenue Ideas a Drag for Average Television Viewer

By ABIGAIL VAN BUREN

DEAR ABBY: May I say something about the idiosyncrasy of television commercials, especially those directed to the American housewife?

Do the "ad" people really believe we are impressed by flying detergent boxes, witches and wands, dishwashing powders and lotions that turn into birds, flying in and out of the windows and all over the house?

The one that irks me particularly is the filthy little boy who enters his mother's immaculate kitchen to be greeted by a loving smile and a "powerful" detergent.

Mother cuts the kid's shirt in half with a shiny scissors, washes one half the shirt in "Brand X" and the other half in the sponsor's hallowed product. Then the kid skips out of the kitchen wearing the same shirt mother just cut in half!

It is an insult to the intelligence of the American woman. Does this rub anybody else the wrong way?

NAUSEATED

DEAR NAUSEATED: It must. But keep your set on for even more nauseating commercials which promise to combat nausea!

DEAR ABBY: I am 16 and go steady with a great guy who is 17 and goes to a nearby school.

My boyfriend (I'll call him Steve) is sweet, and I trust him with all my heart. We have gone together for six months, and he has never tried anything wrong, even when I wished he would.

Steve wants me to spend the night with him. We wouldn't go all the way or even neck. We would just be together. We don't see each other as much as we'd like to as he doesn't drive.

We care for each other a lot, Abby, and really want to spend the night together. What should I do?

SWEET SIXTEEN

DEAR SWEET: If you are looking for trouble, just go ahead and spend the night with a "great guy" for whom you care a lot. I will guarantee you more than you can handle.

DEAR ABBY: My wife insists on wearing brush rollers in her hair when she retires every night. Not only do I find this extremely repulsive looking, but occasionally I will get a brush roller in the eye.

I have told her I don't like her coming to bed with those things in her hair, but she continues to do so.

Tell me, Abby, why a woman would present herself to her husband in such hideous get-up every night in order to look good for the people at the office?

PUZZLED: Because "looking good for the people at the office" is more important to her than what her husband thinks, feels, or wants.

CONFIDENTIAL TO "LOST

FAITH" in POMPANO BEACH: Perhaps a lesson in "faith" can be best illustrated in this way:

A mother had just received word that her only son—a bright handsome young man of 23—had been killed in the war. Her pastor tried vainly to console her in her grief. "Where was your God when my only son was killed?" she cried.

"The same place He was when HIS only son was killed," the pastor quietly replied.

This Reader Tells Gripe to Column

ELIZABETH L. POST

Dear Mrs. Post: How long has it been since your children were small, if you have any? In your column a few weeks ago, you said not to take children to a restaurant unless you ordered a child's portion.

Neither of my children eat a great deal, so it is a waste to order a child's serving for them. People like you want to hide children in a closet all their lives.

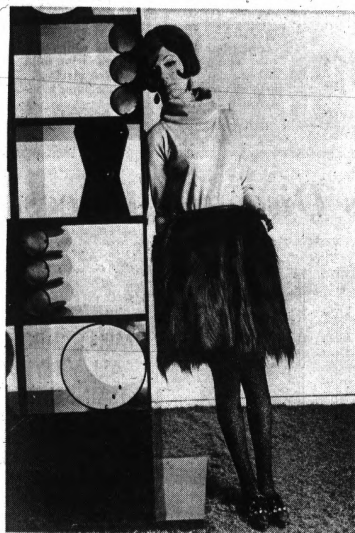

How are children to learn if they are not shown?

I dare you to answer this, if you have the nerve! — "Fed up"

Dear "Fed up": I think I'll risk an answer. I have four children, I never locked one in a closet, and I frequently took them to restaurants.

I also ordered children's portions for them so that we did not take up space in the restaurant that might have gone to a paying customer, and also because the children were happier having a plate of food like their parents, even though they couldn't always finish it.

Somebody Wore Them!

John F. Holcombs Wed in Evening Ceremony

Exchanging vows last evening in St. Stephen's Lutheran Church were Diane Elizabeth Jarvis and John Frederick Holcombs.

Their parents are Mr. and Mrs. Robert H. Jarvis of Mann Road and the Allison Holcombs of Lakeview Drive.

Choosing a gown of organza and lace with modified Sabina neckline and tapered sleeves, the bride wore a crown of pearls with elbow length illusion veil.

She carried a cascade of white roses with lilies of the valley.

Her sister, Karen Ann, was maid of honor, with bridesmaids, Janet Servoss, Constance Simpson and Lynda Holcombs, the bridegroom's sister.

A reception followed in the American Legion Hall on Lake Oakland.

MRS. JOHN F. HOLCOMB

Wet Shoes? Don't Use Heat to Dry

Shoes—especially children's—are bound to get soaked sometimes in rainy weather, but proper drying will preserve the shoes' comfort qualities and prolong wear.

If you're in a hurry to dry shoes, turn a fan on the shoes. But never use heat to force the drying of shoes, advise tannery experts.

Shoe uppers made of brushed pigskin will not be harmed by soaking. Unlike many other leathers, pigskin keeps its softness and suppleness through soakings and dryings.

But no matter what kind of leathers, uppers may crack or shrink after being subjected to high heat. Insoles and other parts also can be damaged by heat.

Stuffing the shoes with crumpled newspapers, paper towels or other absorbent paper helps to speed drying. To keep smooth uppers in good condition after soaking, apply saddle soap or polish when the shoes are dried out. With brushed pigskin, a few quick strokes with a shoe brush will restore the nappy texture.

CAROL LYNN BROOKS

July vows are slated for Carol Lynn Brooks and Richard Lucas. They are both students at Oakland Community College. Their parents are Mr. and Mrs. Thomas Brooks and Mrs. Gladys Rice, all of Novi Township.

Separates the Beer From the Kids

RUSSELL, Kan. (AP) — If the City Council here adopts an ordinance now being considered, it no longer will be possible for mothers to have their offspring in the car with them when they buy beer.

The ordinance prohibits juveniles from riding in an auto

that carries beer — even unopened containers.

Remove Oil Stain

To remove old liver oil stains from clothing, sponge with glycerin and then launder in the usual way.

Extension Group

Members of the Macedonian extension study group will meet Monday at 8 p.m. in the home of Mrs. Leo Curran of Warrington Avenue. The lesson will be "Home Repairs and Home Safety."

A good mixture for meat loaf combines 1½ pounds of ground beef with half a pound of ground pork.

Classes Are Available for Sewing Instruction

By BEA SWORDS

If you don't know how to sew or you just never tried, don't give up before you enroll in one of the many classes available locally.

A number of adult education courses include sewing instruction for beginners. There are also courses for those who want to learn tailoring or perfection of existing skills.

Coupled with these opportunities are endless booklets and books available to illustrate what problems to expect and how to manage them.

BISHOP METHOD
One of the most popular sewing approaches is the Bishop method.

Mrs. Edna Bryte Bishop is the founder of this method. She has been teaching in the Mass. and N. J. school systems for a number of years.

Her job with them involved supervising sewing lessons for city girls. The outcome of her teaching years is a sewing method that stresses perfection.

Students of the Bishop Method are taught "grain perfection, cut perfection, stitch perfection and press perfection."

All of these perfections combined should result, in perfection sewing.

Bishop sewing classes are taught at McConnell Community School. Further information about them is available from the school or from the instructor Mrs. John Denihan of Judson Street.

Spring sewing classes are also available at the YWCA. New sessions begin the week of April 10. Call the YW for further information.

If you decide to do it all yourself, first of all, good luck. You won't need quite so much luck, however, as you would have a few years ago.

Patterns are simplified and streamlined to fit the skimmer shape and a limited time budget.

The first and most difficult part of sewing is pattern buy-

ing. Dress patterns and ready-made sizes do not use the same sizing. A size 12 dress and a 12 pattern are a world apart.

Take your measurements, with foundation garments on, and write them down. The clerk in the pattern department will be able to tell you what your best size is.

If your measurements don't match those on the back of the pattern envelope, you could always add or trim down your figure to meet them. But more women learn to alter the pattern.

Any good sewing book will help you with this problem. After you get the proper pattern, just follow the directions inside. They are all written, and for the most part, clear. Remember not to read anything into them — they mean exactly what they say.

It's like following a recipe. It helps if you choose a pattern marked, "Easy to Make." Rate indeed are the times when the pattern company prints a blooper.

If you have bad nerves, the do-it-yourself method is hardly the best, especially when so much help is available to start you on your right.

Neatness Is Just Enough Storage

You can achieve neatness and get many beauty aids and tools out of sight if you add pockets to the dressing table skirt.

These storage pockets may be used to hold combs, brushes, hairpins, curlers, hairnets, powder puffs and the like. They are handy to use and do away with cluttering.

Class Preview

There will be a preview of spring classes being offered by YWCA Monday at 7:30 p.m. in the "Y." The public is invited to see "Art," "Powder Puff Mechanics" and "Up-holstery."

Dear Mrs. Housewife - - -

For a happier 1967 remember - - -

When a door-to-door salesman or telephone solicitor talks you into buying his product or service—or contributing to a 'Cause'... think twice before parting with your money.

Remember that dealing with reliable local stores is usually much more satisfactory; the stores are always here! You may never see the doorbell salesman or telephone solicitor again.

If anything is unsatisfactory with the product or service you buy, you may find it impossible to get satisfaction. And many times the 'Cause' to which you contribute actually receives only a tiny percentage of the solicitor's 'take,' or perhaps doesn't exist, except in his mind.

Don't Be High Pressured

TV Stars Use Free Time to Make Movies

By BOB THOMAS
HOLLYWOOD (AP) — What do television stars do with their free time? If they have the energy—and may be live wire agents — they make movies.

Every television star must face that time when the ratings inevitably will nosedive and he will have to seek other employment. The hope of most of them is to become attractions in feature films, as a handful of TV veterans have done—Steve McQueen, James Garner, Dick Van Dyke.

And so television people are trying their hands at big screen

movies. Barbara Parkins, member of the "Peyton Place" cast, is having a fling at her first starring movie, "Valley of the Dolls."

Raymond Burr, late of Perry Mason and soon to star in a new series "Ironside," is costarring with George Peppard and John Banner has joined cast images. Elkie Sommer and Maureen Arthur in "The Wicked Dreams of Paula Schultz."

BUSY ON PROJECT

Lucille Ball is hoping to activate her project on the "Beardsley Family of 19 Children," with Henry Fonda as co-star. Buddy Ebsen of "Beverly Hillsbillies" is ambulating through "The One and Only Genuine Family Band."

The Disney film also stars Walter Brennan, who is coming

back to TV with his third series, "The Guns of Will Sonnet."

Davis McCallum is using his vacation from "The Man from Uncle" to make another feature, "Sol Madrid." The "Virginian" lads will be busy, James Drury in "Red is the Color of Snow" and Doug McClure in "The Little Busters" — watch that spelling!

"The Road West" came to a dead end at the close of this season, and its performers are scattering to movies: Barry Sullivan to "Twist of the Knife," Brenda Scott to "Journey to Shiloh" and Andrew Prine to "The Devil's Brigade."

Brian Keith took time out from "Family Affair" to appear in "Reflections in a Golden Eye" with Elizabeth Taylor and Marlon Brando. Dean Martin

continues to work in films between his television shows, or is it vice versa? His next is another Matt Helm, "The Ambusher."

Eliem Zimbalist Jr. jumped from "The FBI" to play Audrey Hepburn's husband in "Wait Until Dark." Lee Majors left "The Big Valley" to head west with Charlton Heston in "Will Penny." Will Hutchins, late of "Hey, Landlord," is now appearing with Elvis Presley in "Clambake."

Art Identified

WARSAW (UPI) — A painting of St. Francis found in a parish house near Warsaw two years ago has been identified as a work of the 16th century painter El Greco, the Polish news agency (PAP) reported today.

Phillie, Yankee Hurlers Sharp

Pitchers Climb From Losing Rut With Exhibition Wins

By the Associated Press

Dick Ellsworth and Mel Stottlemyre probably are the only major league leaders who won't be satisfied until somebody succeeds them.

Friday, Ellsworth and Stottlemyre took early measures to make sure they don't repeat as the losingest pitchers in baseball.

Ellsworth, who dropped 22-

games for the Chicago Cubs in 1966, became the first pitcher this spring to go nine innings in hurling Philadelphia past Cincinnati 2-0 in an exhibition game.

Stottlemyre, whose 20 losses were high in the American League, pitched seven scoreless innings as the New York Yankees downed Boston 3-1 in the first major league exhibition

ever played in the Virgin Islands.

FANNED FIVE

Cleveland's Sam McDowell, another pitcher who'd like to forget 1966, fired seven shutout innings as the Indians trimmed the Cubs 6-3 at Scottsdale, Ariz. McDowell, the southpaw strikeout artist who came up with arm trouble and finished 9-8 last year after winning his first four

decisions, gave up six hits and fanned five.

Seven-run innings carried the Baltimore Orioles and Houston Astros to victories over Pittsburgh and Los Angeles in other night games.

The Orioles exploded with two out in the seventh, erased a 4-1 Pirate lead and won 8-4 at Ponce, Puerto Rico. Luis Aparicio started the rally with a double off Woody Fryman. Two walks, four singles and Dave Johnson's triple completed the seven-run burst.

Houston pummeled right-hander Don Sutton for seven runs in the second inning and went on to bury the Dodgers 13-1 in the Astrodome. Pitcher Don Wilson's bases-loaded triple keyed the big inning and Bob Aspromonte had two doubles and a single for the Astros.

A pair of two-run homers by Jim Davenport powered San Francisco to a 10-6 victory over California at Phoenix, Ariz., while the Chicago White Sox scored twice in the sixth inning on a passed ball and Ron Hansen's double for a 6-4 decision over the New York Mets at Sarasota, Fla.

The Giants, with a 14-6 record, and the White Sox, 13-6, top the exhibition standings.

Mike Shannon's grand slam homer and Lou Brock's three-run triple paced St. Louis to a 12-1 romp over Kansas City at St. Petersburg, Fla. Rickey Carter knocked in two runs with a double and triple in Atlanta's 4-2 victory over Minnesota at West Palm Beach, Fla.

Lefties Tame Bengals in Early Frames; Fred Gladding Takes Loss

By WHITEY SAWYER
Associated Press Sports Writer
LAKELAND, Fla. — Those left-handed blues are plaguing the Detroit Tigers again.

The Tigers managed a run off a right-hander, but two southpaws baffled them Friday and the Washington Senators won a Grapefruit League game 3-1 in ten innings.

Lefty Pete Richert started for Washington and worked six innings, allowing only four hits and no runs. Dave Baldwin, a right-hander, worked the next two innings. He gave up one run in the eighth on a double by Norm Cash and a single by Don Wert.

Left-hander Dick Linsley held Detroit scoreless the last two innings, although he gave up three hits.

Johnny Podres started for Detroit and pitched five strong innings, allowing four hits, no runs and no walks, and striking out three.

Johnny Klippstein took the next two and gave up a run in the sixth on a single to Tim Lincecum, a walk to Fred Valentine, a single by Frank Howard and an infield out by Cap Peterson.

LOosing HURLER

The big bear, Fred Gladding, pitched. He allowed two runs on two hits in his three innings.

In the tenth, Doug Camilli made first on a fielder's choice and Dick Nen walked. Ed Brinkman singled Camilli home and then scored on an infield out by Cullen.

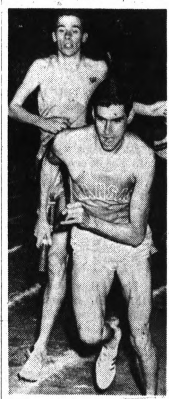

"I think we're going to be having troubles with left-handers again this year," said Tigers Manager Mayo Smith.

"If Willie Horton and Al Kaline can't hit these guys, we're in trouble. I don't think Jim Northrup and Norm Cash (who bat left-handed) will do too badly against them. I might play Jake Wood at second if Dick McAuliffe has trouble with left-handers."

Both Horton and Kaline — right-handed sluggers — sat out the game. Kaline has a sore leg and Horton has what Smith described as "a type of bursitis. Nothing serious. It's in that tendon above the heel. The doctors say it's not the same bone spur he had last winter. He may be out two or three days more. He can take batting practice, he just can't run."

The manager said Ray Oyler will miss a couple of days. Big Frank Howard slid into him at second base, and he "got a pretty bad bruise on the shin."

Smith praised Podres' pitching, and said he wasn't so concerned about the work of Klippstein and Gladding.

Tigers Having Trouble With Southpaws

Oxford Fourth in Track Meet

EAST LANSING (AP) — Defending champion Eoorse became a repeat winner, barely edging out Willow Run in the mile relay to collect 5 points. But Eoorse had an early cushion of points and was able to ease in to first on the two points awarded for fourth place in the mile relay.

Oxford, paced by Tim Kelley and Ken Marsh, picked up 15½ points and placed fourth. Kelley won the 60-yard dash and Marsh shared the top spot in the pole vault.

Final team standings in the closely contested meet were not decided until the last of the 13 events—the mile relay.

Willow Run won the mile relay to collect 5 points. But Eoorse had an early cushion of points and was able to ease in to first on the two points awarded for fourth place in the mile relay.

Erie-Mason was third with 16 points, and Detroit Lutheran West placed fifth with 14 points. River Rouge, the team champion in 1964 and 1965, took ninth with eight points.

Willow Run also took the sprint medley relay.

Ron Strang of Detroit Lutheran West showed why he is considered the most promising miler currently competing in Michigan high school ranks.

Strang, defending champ in the mile run, ended nearly half a lap ahead of the field. His winning time of 4:25.7 bettered his former meet record of 4:26.9, set last year.

Wayne Hartwick of Erie-Mason was a double winner taking and two-mile relays. His half-mile 70-yard high and low hurdles. The entry from his Monroe-area school cleared the high in 9 seconds, flat and went over the lows in :38.4—neither a meet record.

Matson, who set a new intercollegiate record in the discus with a throw of 201 feet, 1 inch Friday, goes after his own world record of 70-7 1/4 in the shot today.

Big Ray flipped the pound ball 68-4½ in the preliminaries, then followed with the great discus heave. Finals of the discus were held Friday night and Matson failed by almost three feet of hitting his preliminary throw.

Ryun was the sensation of the big track and field carnival at

Kansas Ace Ryun Anchors Record in Sprint Medley

AUSTIN, Tex. (AP) — Jim Ryun sped in with his picture stride to give his team 3:15.2-three tenths of a second under the world mark of 3:15.5 set by Santa Clara Youth Village in 1961.

Ryun vied with Randy Matson, the Texas Aggie giant, for top individual honors but will do it with stints in the four-mile and two-mile relays. His half-mile in the sprint medley relay was 1:46.1, which is 12 seconds shorter of his high in 9 seconds, flat and went over the lows in :38.4—neither a meet record.

Matson, who set a new intercollegiate record in the discus with a throw of 201 feet, 1 inch Friday, goes after his own world record of 70-7 1/4 in the shot today.

PLENTY OF HEATS

Because the crush of more than 1,000 athletes competing from 76 Class B schools, there were 10 heats each in the mile and sprint medley relay, 11 heats in the 800-yard relay and 12 heats in the shuttle hurdle relay.

The Class A schools take over Michigan State's Jensen Field house for today's afternoon preliminaries and evening finals.

(Summary on Page C-2)

DETROIT (AP) — Promoters say "prospects are very, very good" that Cassius Clay will defend his heavyweight title against Floyd Patterson in Detroit April 25.

Eddie Smith, attorney for the group that wants to bring the fight to Detroit, said Friday: "We want this thing so bad that I hesitate to say too much about it. I don't want to say something to mess it up."

"The Clay people have already agreed to our terms. All that remains is finalizing," said Michigan Boxing Commissioner Chuck Davey.

But promoter Nick Londe, operator of Olympia Stadium where the bout would be staged, put off further speculation until Monday.

"Smith's people have to come up with the money Clay's people want," he said. "They have to satisfy the Clay outfit."

Smith said the E. and J. Sports Club of Detroit made Clay an offer of \$250,000 to fight Patterson.

The manager said Ray Oyler will miss a couple of days. Big Frank Howard slid into him at second base, and he "got a pretty bad bruise on the shin."

Smith praised Podres' pitching, and said he wasn't so concerned about the work of Klippstein and Gladding.

Both Horton and Kaline — right-handed sluggers — sat out the game. Kaline has a sore leg and Horton has what Smith described as "a type of bursitis. Nothing serious. BASEBALL'S FACES — The expressions tell you what's happening on this play in the Chicago White Sox-New York Mets game yesterday in Sarasota, Fla. White Sox' Tom McCraw has his eye on home plate while

Mets' catcher Jerry Grote is looking for a throw from a teammate in an effort to catch McCraw. The throw didn't come and the White Sox ace scored. Chicago won, 6-4.

Young Bowler Wilts Steals Show as 76ers Sets 13 Marks

Stefanich Holds Lead in Firestone Tourney

AKRON, Ohio (AP) — Jim Stefanich, who has won \$2,060 in 11 tournaments this year, had the inside track today for the \$25,000 top prize in professional bowling's richest event, the \$100,000 Firestone Tournament of Champions.

The blond 26-year-old remained untouchable Friday in the final eight of 48 qualifying games. He set 13 records by rolling 12,144 for the 48 games.

Only once did the Joliet, Ill., native fall below the 200 mark, that was a 183 Friday afternoon.

Up until then he had rolled 28 consecutive games over 200. He posted a 236 average for the 48-game series.

Stefanich's best previous finish of the Professional Bowlers Association tour this year was ninth-place at St. Paul.

With him in the five-man finals are Don Johnson of Kokomo, Ind., 11,656; Mike Durbin of Costa Mesa, Calif., 11,742; Les Schlusser of Denver, Colo., 11,613, and Jack Blundin of Houston, 11,580.

Second place was worth \$12,500; third, \$6,500; fourth, \$3,500 and fifth, \$2,500.

Wilt Steals Show as 76ers Turn Back Russell, Celtics

PHILADELPHIA (UPI) — The first round went to Wilt Chamberlain — but Bill Russell isn't ready to panic.

Chamberlain, overshadowed over the past decade by Russell, who has led the Boston Celtics to a record eight straight National Basketball Association championships, played like a winner Friday night.

Although he hasn't played on a title team since he left Philadelphia's Overbrook High School in 1955, Chamberlain looked like a champion when he completely outplayed Russell in leading the Philadelphia 76ers to a 127-113 triumph over the Celtics.

It was the first game of the crucial best-of-seven Western Division finals playoffs and gave the 76ers a key edge as they prepare for the second game on national television Sunday afternoon in Boston.

Last year the 76ers lost to Boston in the playoffs after winning the regular season Eastern Division honors—and the 76ers hope to avoid that fate this year.

"Wilt's defense was great as it has been all season but I must admit he seemed to do everything defensively a little better tonight," Philadelphia coach Alex Hannum said. "In the last five minutes, I knew if Boston missed a shot, only one man was going to get the ball."

Wilt, the Celtics' player-

Opposition will be provided by the Buffalo Bills, AFL champions in 1964-65 and divisional titlists last year. The game marks the first appearance of an AFL team in Michigan.

The second home game features the Baltimore Colts at Tiger Stadium on Saturday night, Aug. 26.

LIONS' PRE-SEASON SCHEDULE
Aug. 5-Denver Broncos, away 9:00 p.m.
Aug. 12-San Francisco 49ers, home 8:00 p.m.
Aug. 19-San Diego Chargers, away 8:30 p.m.
Aug. 26-Baltimore Colts, home 8:30 p.m.
Sept. 2-Cincinnati Bengals, away 8:30 p.m.

One of the Ford Mark II models which won her last year and went on to the world sports car championship and a pair of Jim Hall's Chaparrals are the other speed cars.

The difference here is that Ferrari didn't come with either his factory team from Italy or North American racing team.

SEBRING, Fla. (AP) — If a Ford or Chaparral doesn't win the 12-hour Sebring endurance race today, the way is open for undermanned Porsche to give their bigger rivals the horsepower laugh.

A new Mark IV Ford with Mario Andretti of Nazareth, Pa., and Bruce McLaren of New Zealand sharing the driver's seat, is the fastest in the field by far.

Masters Spot Closer for Hot-Shooting Pro

GREENSBORO, N.C. (AP)—George Archer is leading the Greater Greensboro Open Golf Tournament, but he can't get Georgia off his mind.

Specifically, Augusta, Ga., and the Masters' Tournament opening next Thursday were in his thoughts as he took a two-stroke lead into today's third round of the \$125,000 GGO.

A record-matching 64 Friday gave him a record-setting 131 for 36 holes and the 6-foot-6 Californian has virtually assured himself of a place in the Masters.

Two places remain to be filled. They go to the uninvited professionals with the best winter tour performance. Archer led the top contenders as play began in this event, and his 67-64 start has about wrapped up the coveted invitation.

He became eligible for the 1964 Masters as a result of reaching the 1963 U.S. Amateur semifinals, but lost that opportunity when he turned pro in January, 1964.

Archer put together a pair of 32s Friday to equal the Greensboro Open record over the 7,000-yard, par 36-36—71 Sedgwick Country Club Course. His 11-run

der-par score for 36 holes was two under the tournament mark.

Johnny Pott, two-stroke leader after the first round, shot 68 for second place at 132, one shot ahead of Dave Stockton, who finished his second 67. Defending champion Doug Sanders, who has been making hay on the par three holes, shot 68 for 135 and fourth place. Five of the seven shots he has shaved from par have come on the par three.

Gary Player and Chi Chi Rodriguez shared fifth place at 136, a stroke ahead of Arnold

Palmer, Julius Boros and R. H. Sikes.

George Archer	67-64-131
Johnny Pott	68-65-133
Dave Stockton	68-65-133
Doug Sanders	68-65-133
Chi Chi Rodriguez	68-67-135
Arnold Palmer	69-66-135
Julius Boros	69-67-136
R. H. Sikes	69-67-136
Sam Snead	70-68-138
Ray Harney	71-69-139

Position Duels Ahead in Weekend Ice Play

By THE ASSOCIATED PRESS. The order of finish and playoff pairings of the National Hockey League's second, third and fourth place teams will be determined tonight and Sunday in the final weekend of regular season NHL action.

The Stanley Cup Playoffs begin next Thursday with only one thing certain—that one of the two semifinal series that night will open in Chicago.

The Black Hawks clinched their first NHL championship last month and will play the third place finishers in the first round of playoff action. That could be Montreal, New York or Toronto. The three clubs are separated by only two points going into tonight's play.

The Rangers, enjoying their first trip to the playoffs in five years, play at Toronto tonight and then host Chicago in a nationally televised afternoon game Sunday.

Montreal, which is second, one point ahead of New York, hosts the Black Hawks tonight and then plays at Detroit Sunday.

The second place team will open at home in the other semifinal series against the fourth place team. In addition to the advantage of playing the first two games at home as well as the odd game in a best-of-seven series, there is the incentive of extra cash for the second place club.

The runner-up berth is worth \$1,250 per man in bonus money from the league. The third place team receives \$750 per man and fourth place finishers get \$250 each.

There is a possibility of a two or three-way tie for the three spots behind Chicago and should that occur, it would be broken on the basis of most games won. If the deadlocked teams have won the same number of games, the tie-breaking factor would be goals scored.

Gibson in Hero's Role as Junior Wings Win, Tie

LAKE PLACID, N.Y. (AP)—Bob Gibson was the hero in Friday's opening round as the Detroit Junior Red Wings played to a victory and a tie in the first Junior Olympic Ice Hockey Tournament.

It was Gibson's goal with less than 24 minutes to play that lifted Detroit into a 5-5 tie with the Minnesota North Star Juniors early in the day. Then he came back with three goals and two assists, pacing Detroit's 8-2 victory over the Chicago Juniors in the final game of the day.

Chicago and the New York Young Cardinals each split their two opening round games.

Before bowing to Detroit, Chicago poured in 12 third period goals and routed Johnston, Pa., 19-1. Jim McNeerney and Matt Tschierman scored four goals apiece in the romp.

Trading Talk Bared

ST. LOUIS (UPI)—The St. Louis Cardinals and the New York Mets were reported discussing a trade today that would send the Cardinals' Jerry Buchek to the Mets for utility infielder Eddie Bressoud.

CATCHING HAZARD—One of the hazards a catcher has to contend with is the screen behind the plate. Minnesota Twins' Jerry Zimmerman has his trouble with the backdrop yesterday as he misses this foul pop off the bat of Atlanta Braves' Felipe Alou. The screen wasn't in Zimmerman's way, but his mind was on the wire and he misjudged the ball which just missed his outstretched glove. Braves won, 4-2.

Michigan Bowlers Second in Doubles

MIAMI BEACH, Fla. (AP)—Ken Tougian, Trenton, and Harvey Kromer, Wyandotte, fired 1,317 to move into second place in the regular doubles division Friday at the American Bowling Congress Tournament.

A pair of newcomers to ABC action, Paul Deter and Sam Hardy, Orlando, Fla., moved into fourth place by firing 1,312. Arley Rodberg and Paul Crickenberger, West Palm Beach, Fla., dominate the doubles with 1,326.

Steelhead Season Opens

Trout Mark May Fall

By THE ASSOCIATED PRESS. Steelhead trout fishing became legal today in Michigan, and the state conservation department experts think a record one will be caught.

The steelheads, now running upstream to spawn, became legal prey for fishermen after the stroke of midnight. Brown trout also are legal as of April 1.

"We're especially interested in size," said Steve Lievesee of the Conservation Department's fish division. "Bigger fish are being taken every year lately. We think a record one for Michigan could be caught this year."

The Michigan record is a 21-pound, seven-ounce steelhead caught on the Big Manistee River by Golmus Ladanie in 1947.

"Steelheads up to 19 pounds were caught last year," Lievesee said. "Some fishermen could top the record this year."

The steelheads and brown are legal on some 100 lakes and rivers in the northern Lower Peninsula and Upper Peninsula.

Steelheads have been making a good comeback in the Great Lakes since the lamprey eel has been brought under control. The trout feed all winter on the millions of alewives swarming in the Great Lakes.

In the spring, they come up the streams to spawn. Threats of overcast weather and possible rain were not expected to stop the fishermen or hurt fishing chances.

The best runs have been reported from Lake Michigan streams along the western side of the state. They include the Blue Devils trailing 3-0 after the first inning, but took a 6-4 lead by the end of the third.

The big bash came in the fifth inning when Duke scored five runs, two of them on a double by winning pitcher Phil Wilm. They scored on three hits, an error, three walks and a passed ball.

Michigan State meets Wesleyan in one game and Miami in another today in a double-header that ends the Spartans' spring trip to Florida.

Southern scored 189-50 points to 187-40 for runner-up Michigan. Iowa trailed with 186-30.

Parseghian Offers Plan for Grid Title Playoff

DETROIT (AP)—Notre Dame football coach Ara Parseghian said Friday Notre Dame is willing to lift its long-standing ban on post-season games to determine a national collegiate champion.

Parseghian told an audience at the Universal Notre Dame Night dinner in Detroit under what conditions his team would play in a deciding game.

"I'd like to see a committee formed of selected athletic directors, football coaches and writers," said Parseghian.

"At the end of the season, they'd meet and decide if two teams are close enough to being No. 1 to have a playoff."

STRONG DEMAND

A strong demand for such a playoff arose at the end of last season, when

Notre Dame and Michigan State played to a 10-10 standoff. But Notre Dame ended the season a few points ahead of Michigan in the football polls.

Traditionally, there is a standing ban at Notre Dame against any post-season games.

But Parseghian said he had discussed the matter with the Rev. Edmund P. Joyce, athletic director, and that they had agreed on a playoff game.

However, Parseghian said he doesn't like Michigan State coach Duffy Daugherty's proposal to have an NCAA football playoff in its basket.

"You'd have to play four or five games, and stretch the season into January. The administrators would never buy it," Parseghian said.

Most fishermen fear salmon, trout eggs or night crawlers as bait. Others stick to artificial lures.

"The fishermen has got to wait it out to get those steelies," Lievesee advised. "Remember, they don't feed when they are spawning. You have to irritate them into striking."

The regular \$2 license plus a \$2 trout stamp is required to get into this weekend's steelhead fishing action.

"The runs are not yet at their peak—too cold yet—but should

be in a week or so," said the department expert.

"Fishermen shouldn't neglect the Lake Huron side, however," said Lievesee. "The fish are starting to come in there too and some big ones have been taken."

The Two-Hearted River in the Upper Peninsula is reported still snowed in. Access also is difficult to the Big Huron River.

"The runs are not yet at their peak—too cold yet—but should

be in a week or so," said the department expert.

"Fishermen shouldn't neglect the Lake Huron side, however," said Lievesee. "The fish are starting to come in there too and some big ones have been taken."

Pension Plan NBA's Trump in Talent War

Pistons Owner Says Security Is Key; New Loop After Players

DETROIT (AP)—Detroit Pistons owner Fred Zollner said Friday that the National Basketball Association pension plan may be a trump card if the fledgling American Basketball Association tries to lure NBA teams.

"I think ballplayers with seniority will be reluctant to give up vested pension rights," he said.

Zollner's statement came only hours after reports that franchises in the ABA—particularly Indianapolis, Ind.—had made contact with NBA players.

Tom Van Arsdale, a two-year veteran guard with Detroit, went to Indianapolis this week for talks with officials of the ABA team. He had come back and reports that he had been offered \$80,000 over three years.

However, a spokesman for the Indianapolis club said, "We had some discussions in the financial area with Tom, but he definitely was not offered a \$80,000, three-year contract. We discussed his salary at Detroit and the possibility of his earnings should be come to Indianapolis, but no offer was made."

Nearly Double

"I prefer to stay in Detroit," Van Arsdale said. "But the money they offer is nearly double what I'm making here."

Zollner, contacted by telephone at his home in Golden Beach, Fla., said he had heard nothing of offers to any Pistons players.

"But I think our players will be careful not to sacrifice the security they have," he said.

The pension committee has recommended to the Board of Governors a very generous pension contract at age 65, of course with provisions for death or disability," he said.

The Indianapolis spokesman said his club had been in contact with Tom's twin brother, Dick, of the New York Knickerbockers, as well as with Terry Dischinger, former Purdue player who is under contract to play with the Pistons after the end of the Army. He said the club also has contacted Jon McClocklin and Oscar Robertson of the Cincinnati Royals.

McClocklin is in the Army. Robertson says he also has been in contact with the ABA, but he has declined to spell out what was said.

NO SPECIFICS

Dave DeBusschere, former player-coach of the Pistons and still a player, said he had been contacted by more than one ABA team. He declined to give specifics.

"I know the ABA teams have contacted a lot of players," he said.

There were also reports that Rick Barry, San Francisco's high scoring forward, had been offered \$100,000 to jump to the Oakland franchise of the ABA.

Meanwhile, in Oakland, Calif., the ABA awarded a franchise to Louisville, Ky. A 12th city is expected to be added by the ABA owners before their week-end meeting is over.

Wayne State 11th

NORTHBRIDGE, Calif. (AP)—Wayne State fell 11th place, with 35 points, Friday in the NCAA fencing championships.

Wayne State had 29 points and Michigan State had 15. New York University led the field with 51 points going into today's final competition.

TOLEDO, Ohio (AP)—Toledo golfer Glenn Ramsay has been named winner of the James Norris Memorial Trophy, emblematic of the outstanding golfer in the International Hockey League.

Driver Sets Mark in Florida Race

SEBRING, Fla. (UPI)—Lead-footed Jerry Titus tucked the four-hour Trans-Am race into his pocket the second the green flag went down. He never let it out, despite disabled steering.

Titus wheeled his Ford Mustang around the 5.2 mile Sebring course Friday to an average speed of 94.8 miles per hour, the fastest time on record for sedans. His fastest lap was 103.9 MPH, another record smasher.

The Sherman Oaks, Calif., driver was pursued over the finish line by Mark Donohue of Stony Brook, N.Y., in a Chevrolet Camaro.

MOVING IN — Gypsy Joe Harris (right) misses with an overhead right in the first round of his non-title bout with welterweight champion Curtis Cokes at Madison Square

Ring Clown Pins Loss on Champ

NEW YORK (AP) — Gypsy Joe Harris is a clown. And he can fight too, as he showed in beating welterweight champion Curtis Cokes in a non-title 10-round Friday night.

But the unbeaten 22-year-old Philadelphia oddball is not another Henry Armstrong or Beau Jack or Kid Gavilan as his admirers claimed. Not yet, anyway. Give the long-armed gnome time and he may be up with them.

The brawny, 5-foot-5½ corner made a lot of unorthodox moves, spinning like a top at times, and he apparently befuddled the seasoned, 29-year-old champion from Dallas, Tex., through the first half of the fight. In the second half, Gypsy Joe clowned more and fought less.

OLD STORY

Cokes showed some fast hands and firepower in the last half, especially in the final two blazing rounds when they stood toe-to-toe and slugged away.

For Cokes it was the old story of too little and too late, and the unanimous decision went to Harris who wound up an 8-5 favorite at fight time.

Cokes and his handlers apparently were the only ones around the ringside who thought the 149-pound champion won.

The officials had Harris, 151 pounds, the winner by the following scores by rounds: referee Pete Della 7-2-1, judge Joe Armstrong 7-3 and judge Bill Recht 4-3-3. The Associated Press scorecard had Harris in front 6-4. There were no knockdowns.

"I won the fight," said Cokes. "He's a strong guy, but I beat him."

The slender, 5-foot-9½ champion earned \$9,000 for his Madison Square Garden debut and suffered his first defeat in two years. His record is 45-9-3. He also got a strenuous workout for his title defense against Frankie's Francois Pavilla in Dallas May 19.

Houston's astrodome will show better than eight million total attendance for all events before its second birthday on April 9 . . . nearly a million showed up on guided tours just for a look at the one and only indoor baseball arena.

Professional Golfers Association has issued tournament player cards to 32 rookies for this season . . . cards give 'em the right to play on the \$5 million tour.

Oldest are 33-year-old Bruce Cudd of Portland, Ore., and Roane Puett, a practicing attorney from Austin, Tex.

U.S. Golf Association has 20 motion pictures (16 mm) available for rental . . . they range from rules of golf to "Triumph and Tragedy"—story of Billy Casper's triumph and Arnold Palmer's you know what in the 1956 U.S. Open at San Francisco.

One of the world's top fencing events will pass almost unnoticed in New York April 14-16 . . . its the New York Athletic club's annual show featuring Olympic aces from 15 nations.

Shoulder Ailing Mets' Shortstop

ST. PETERSBURG Fla. (UPI) — Veteran shortstop McMillan of the New York Mets will return to the Mets' minor league base at Homestead, Fla., for more pre season workouts.

McMillan suffered a shoulder separation last August that sprang he has suffered temporary dislocations of the same shoulder. He will work out at Homestead for several more weeks to strengthen the shoulder.

McMillan suffered a shoulder separation last August that sprang he has suffered temporary dislocations of the same shoulder. He will work out at Homestead for several more weeks to strengthen the shoulder.

Tigers May Find Relief in High Henry's Arm

LAKELAND, Fla. (AP) — Hank Aguirre was sitting in a locker room soaking his left elbow in ice water and grinning.

"That was sort of nice," he said of the victory he had just picked up in two innings of relief. The Detroit Tigers had nipped the Atlanta Braves 5-4 in a Grapefruit League game and High Henry hadn't allowed a run in his two innings.

"Apparently they want me doing the job I just did," he said.

There's one key thing the Tigers need this year in their relief. And Aguirre, a 35-year-old veteran, could provide it.

In 12 years in the majors he's won 70 games and lost 69. Last year he was 3-9. His best year was 1952, when he posted a 16-8 mark with a 2.21 ERA.

CLOSE LOOK Aguirre has been used in relief before, and this spring Manager Mayo Smith is taking a close look at his potential in that role.

"That's what we need," said Aguirre, "a guy who can come in and get them out."

"My arm feels better this spring than it did last year."

"I've been working hard this spring. All the pitchers got in good work. We had good weather."

"Pitching coach Johnny Sain has helped me a lot. He's sharpened up my curves and taught me how to move the ball."

"Every pitch I throw today moved one way or another the way he wants you to move the ball."

"He's a fine, fine instructor," Aguirre said.

Reminded that he got three hits last season to virtually double his lifetime batting average to .084, Aguirre grinned.

"I've been working on that with Wally Moses, the batting coach. If I could remember what he told me I might improve my hitting a few points."

"I sure look great until I p.m. Monday at the home of swing the bat, don't I," he laughed.

Softball Meeting Set

A meeting of all team managers interested in fielding a team in the Pontiac County Softball League is slated for 7 p.m. Monday at the home of swing the bat, don't I," he laughed.

New York Digging In

Dreary Baseball Season Predicted

By STEVE SNIDER
NEW YORK (UPI) — Sports of all sorts:

Hockey and pro basketball perked up this season but the big town is digging in for another dreary baseball season.

Yankees, 10th a year ago, shape up little if any better. . . .

Mets are a never-were club with only one thing going for 'em — an amazing set of fans.

Mets, ninth in the league standings, pulled 1,932,693 and the only one of the 30 major league teams that did better was Los Angeles.

Delay in the U.S. space program must have been a severe blow to sports promoters caught up in the current mad passion for expansion

Stalin Kin May Settle in India

BERN, Switzerland (AP) — Svetlana Stalin is still somewhere in Switzerland but diplomatic sources say India may turn out to be her permanent haven.

The sources say a return to the Soviet Union is out for religious and political reasons and Switzerland are not eager for another prickly diplomatic issue.

Since March 11 the daughter of the late Soviet dictator has been dodging from one Swiss

mountain hideaway to another, pursued by newsmen and photographers. She wound up in Switzerland after traveling from New Delhi, India, where she asked the U.S. Embassy for asylum on March 6.

Washington said it had issued her a visa for a short-term stay in America and would consider any definite request for refuge if she should decide to make one.

INDIA LIKELY
Swiss and foreign diplomats have cautiously expressed will-

Study of Patent Policy Started

By Science Service

WASHINGTON — A study of what happens to patents generated by federal research funds is under way, and currently is putting a damper on the ongoing Senate debate on the ownership of such rights.

Harbridge House, a management consulting firm, is undertaking the study for the White House. It will look at all federal funded projects, and their outcome in terms of patentable ideas and their exploitation.

Collegians Hit Hard

'Mono' Cause Unknown

By Science Service

WASHINGTON — An estimated 10,300 college students are believed to be hospitalized with infectious mononucleosis each year, a Yale University professor of epidemiology told a symposium on the disease here. But its cause is only suspected, not known.

"This is a very loose figure based on a percentage of hospitalized students," Dr. Alfred S. Evans said in an interview following his address.

"But 'mono' is obviously of great importance in a college population. Outside of the physician's fee, the cost is \$1.8 million."

Although there has been a shift upward in age susceptibility, Dr. Evans and others have shown that the greatest concentration is in the age groups from the teens to 24. This includes the military population, of course.

Teen of Week Is Junior Miss

This week's honored teenager, Johanna Lynn Yansen, a senior at Pontiac Central High School, is the daughter of Mr. and Mrs. George R. Yansen of 80 Chippewa.

Johanna, whose avid interest in her school is displayed by her many activities, presently is earning an "A" academic average.

She is captain of the varsity cheerleading squad, secretary of the senior class, secretary of the Thespian Drama Club, a member of the A Capella Choir and the Senior Girls' Ensemble and has played different roles in Pontiac Central's last three musical drama productions.

Currently Johanna is a youth representative to the Pontiac's Citizens Committee on Youth, a panel member of the weekly youth forum and is active in numerous church organizations.

Her most recent honors include the title of Pontiac's Junior Miss, the third runner-up in the Michigan Junior Miss Pageant, and a local winner of the Elks Leadership Contest.

During the past summer, Johanna participated in the Youth for Understanding program, living with a Dutch family in Hardinxveld, Holland, for two months.

Johanna's future plans are to continue her education at Albion College where she will major in music and speech, preparing for a career in music drama or music therapy.

Week for Aiding Sightless Set at End of April

For the sightless, there are 52 white cane weeks each year. For those with sight, there is only one White Cane Week, April 23-29, during which they can aid the sightless by buying a miniature white cane.

Pontiac Lions Club members will be selling canes in the city streets and at area shopping centers April 28, 29.

Fifty per cent of the money will be used to buy glasses for children in the Pontiac area who cannot afford them.

Leader Dogs for the Blind in Avon Township will receive another 35 per cent.

The rest will go toward other projects involving the blind.

The Lions Club recently gave an electric eye freezing unit to St. Joseph Mercy Hospital.

Baby Survey Points to Ills

SYDNEY, Australia — Samples of urine, collected on small pieces of absorbent paper by mothers of more than 60,000 babies in New South Wales, have led to diagnosis of hundreds of cases of hidden disease.

In the world's largest post-natal survey of infant illness, doctors and nurses got evidence from mothers attending the 420 baby health centers in the state.

Some of the cases analyzed were referred to hospitals for further check-up after the papers were returned to the Oliver Latham Laboratory at North Ryde Psychiatric Center.

Three hundred infants were suffering from proteinuria, a form of kidney trouble.

More than 200 gave positive or doubtful indications of phenylketonuria, or PKU, associated with mental defects.

A total of 226 had excess sugar in their urine showing some form of diabetes.

Eight other rare diseases were present and mothers were notified.

Pontiac Area Deaths

Stanley Buda. Service for Stanley Buda, 76, of 188 Delwood will be 1:30 p.m. Tuesday at Sparks-Griffin Funeral Home, with burial in White Chapel Cemetery, Troy.

Alfred H. DeCou. Mr. DeCou died yesterday. He was a retired Oakland County Road Commission employee and a member of the Polish Christian Church. Surviving are his wife, Tekla, a daughter, Mrs. John Miodoch of Birmingham; two sons, Joseph of Orchard Lake and Frank of Troy; six grandchildren; and two great-grandchildren.

Floyd W. Evilsizer. Service for Floyd W. Evilsizer, 71, of 4734 Kempf, Waterford Township, will be 1 p.m. Monday at Coats Funeral Home, with burial in White Chapel Cemetery, Troy.

Mr. Evilsizer died Tuesday. He had been a plant protection employee at Pontiac Motor Division and was a member of Aldersgate Methodist Church. Surviving are his wife, Goldie; two sons, Floyd R. and Howard W., both of Waterford Township; a sister; and six grandchildren.

Arthur Gustafson. Service for Arthur Gustafson, 67, of R.N. Edin will be 1 p.m. Monday at Donelson-Johns Funeral Home, with burial in Perry Mount Park Cemetery.

Mr. Gustafson died yesterday. He was a retired grader, and attended Grace Lutheran Church. Surviving is his wife, Lila M.

Mrs. Sam Samuilow. Requiem Mass for former Pontiac resident Mrs. Sam (Natalie) Samuilow, 70, of River Rouge will be 10 a.m. Monday at SS Peter and Paul Russian Catholic Church, Detroit.

Mr. Weber died yesterday. He was a stone mason. Surviving are his wife, Katherine, three sons, Edward, John and Henry, all of Wall Lake, and a daughter, Mrs. Thomas Bahorovich, also of Wall Lake.

Also surviving are two brothers, Walter and Karl of Wall Lake; two sisters, Mrs. Thomas Boleyn of Wall Lake and Mrs. Leo Baumgartner of Waterford Township; and eight grandchildren.

Crash Injures 2 in Oxford Twp. A two-car collision shortly after midnight at an Oxford Township intersection hospitalized a pair of youths early today.

Reported in fair condition at Pontiac General Hospital are James E. Jackson Jr. of 1540 Rapier, Oxford Township; and James R. Coomer, 19, of 305 South.

Oakland County sheriff's deputies said both youths were passengers in a car driven by Gerald F. Cook, 19, also of 1540 Rapier.

James F. Gark, 20, of 8 Center, Oxford, told deputies he was eastbound on Drahter, stopped for the Lapeer intersection, but didn't see the Cook automobile.

The two collided, deputies said, when Gark attempted to cross the intersection. Gark and Cook escaped serious injury.

Woman Hurt in Troy Crash. A Detroit woman was hospitalized yesterday with injuries suffered when her car collided with another at John R and Waverly, Troy.

Reported in satisfactory condition at Beaumont Hospital is Daisy Curran, 44, Police said that her car, headed west on Waverly, struck an auto driven by Mrs. Angelo Merlow, 41, of 2115 E. Long Lake, Troy.

Mrs. Merlow, who was driving South on John R, was not injured.

News in Brief. Theft of a 32-caliber revolver from a glove compartment of his truck was reported by Pontiac police yesterday by William J. Dinardi, 38, owner of Billy D. Inc., 685 Auburn.

Maoists Scent Victory in Red Chinese Purge

By WILLIAM L. RYAN, AP Special Correspondent. The forces in China supporting the Mao Tse-tung view of Chinese and world revolution appear to scent total victory over their opponents in the Communist party and to be headed for the showdown phase of the purge which goes by the name of "Great Proletarian Cultural Revolution."

For the first time they have displayed enough strength to attack the powerful opposition through one of the most important organs of the party press, the theoretical journal Red Flag.

A total Maoist victory would have meaningful repercussions inside China it probably would lead a long period of austerity under a regime akin to a military dictatorship. Outside, it would mean continued isolation of China and the end for the foreseeable future of any chance of reconciliation with the Soviet Communist party. It could even lead to a formal rupture.

The battle is not over, at least in many of the hinterland provinces, particularly those in the north bordering on the Soviet Union. Powerful men remain at large who have been vilified by the cultural revolution and who continue to have, evidently, important support.

SIGNS OF CONFIDENCE. But in Peking, the dominant Mao group shows signs of rising confidence. It has struck openly, publicly and officially the chief foe, President Liu Shao-chi.

Heretofore he had been attacked only by bad posters of the teen-age Red Guards who spearheaded the Maoist terror campaign. He had not been denounced officially by the press or radio.

The attack took the form of a denunciation of "How to be a Good Communist," a 1959 lecture issued as a primer for Communists. It has been revised and reissued a number of times since, most recently to reflect anti-Moscow views and "national" Chinese, communist.

Trio Sought in Theft of Adding Machine. Pontiac police are looking for three men who may be linked to the reported theft yesterday of an adding machine valued at \$255.

Employees of Consumers Power Co. told investigators they saw three men lurking near the doorway of the company's service building on Wessan Street shortly before the machine was discovered missing.

157 Die in India Famine Area. NEW DELHI (UPI) — A spokesman for the government of drought-decimated Bihar State said today that 157 persons had died in the state's central Gaya district, one of India's worst famine areas.

The candidate, Ryokichi Minawa, who is seeking the governorship of Tokyo, was not in the car. The sniper escaped.

North Viet Artillery Outgunned by U.S., Says Marine Chief

By BOB GASSWAY. American bombing raids against North Vietnam were halted.

"This brings out the importance of the bombing out north and the severing of their supply lines," he said. "They couldn't do it while we were bombing."

Wall said the shelling has caused small personnel losses and virtually no damage to equipment at Gio Linh. American officers say U.S. and South Vietnamese defenses have been revised to meet the new artillery threat.

The Communists are firing 122mm shells with a range of about 13 miles and 160mm shells with a 12.4-mile range, Lt. Gen. Lewis W. Wall said in an interview Friday.

Wall said the North Vietnamese artillery has "much better range than their mortars" but American 175mm guns, the heaviest field pieces in the war, reach farther than anything they've got. The American guns can shoot 20 miles.

The North Vietnamese fired artillery at American forces for the first time March 20. Their target was the U.S. artillery battery at Gio Linh, about two miles south of the demilitarized zone between North and South Vietnam.

LOCATED IN DMZ. Wall said the enemy guns are located in southern North Vietnam and the demilitarized zone. He said the introduction of weapons at Hanoi indicates how much American bombing and shelling is hurting North Vietnam.

"We are firing artillery into their home territory up there, what they have been building up as a base of operation," he said. "There are close to 5,000 rounds a day going in there. I think they will do everything they can to stop that."

Wall said the North Vietnamese have fired more than 10,000 mortar and rocket rounds and 300 artillery shells, mostly at U.S. artillery installations just south of the demilitarized zone, since the lunar new year celebration seven weeks ago.

LOSE SECURITY. "They don't have security up there any more," he said. "North Vietnamese forces operating within and just north of the demilitarized zone."

"The fact that they have fired over 2,000 rounds at Gio Linh since Tet — lunar new year — indicates the seriousness of their situation."

The general said the northern artillery pieces and ammunition were among the 35,000 tons of supplies the enemy moved south during the Tet cease-fire, when

Waterford Boy, 3, Is Struck by Auto. A 3-year-old Waterford Township boy is in satisfactory condition at Pontiac General Hospital with injuries suffered when he was struck by a car yesterday.

Hospitalized with multiple abrasions was Donald O'Berry, of 2804 Bender.

Verdeane Marriot, 51, of 840 E. Dartmouth, West Bloomfield Township, told police that the boy darted in front of her car as she was driving south on Bender

Governor, Thant Talk. ANN ARBOR (UPI) — Gov. Romney, currently planning his first major speech on the Vietnam war, picked up some added information on the subject from United Nations Secretary General U Thant yesterday.

"Practically all of the time we talked about Southeast Asia," said Romney of a 90-minute meeting with Thant.

He termed the meeting "very interesting and as far as I am concerned a helpful exchange" of comments.

In his speech at a University of Michigan honors convocation, Thant avoided direct mention of the war.

But he did warn of the "real danger" of a nuclear holocaust due to the international situation.

3 Youths Face Arraignment

Three Pontiac youths await arraignment on attempted burglary charges following their arrest by city police last night.

Held at the Oakland County Jail are Willie Arnett, 20, of 303 Prospect; Morris H. Johnson, 17, of 476 S. Paddock; and Curtis Harsten, 18, of 491 Nevada.

The three were apprehended by Patrolman Travis A. Lively about 10:15 p.m. shortly after an apparent break-in attempt at Lucky Auto Sales, 1940 West Wide Track.

Three patrol units were called to the scene when a burglar alarm at the car firm was triggered by a broken window.

An employee of an adjacent store told police he heard the sound of glass breaking and then saw a youth running from the rear of the building.

Acting on a description of the suspects, Lively arrested the three youths at the intersection of Wessan and Alley.

Air Crash Toll Climbs to 19. KENNER, La. (UPI) — The death toll from Thursday's Delta DC8 crash outside New Orleans International Airport has risen to 19 with the discovery of the body of an 18-year-old dishwasher.

It is the introduction of a new victim to the body count that has been climbing since the plane crashed and skidded across the street.

Johnson, who had begun working at the motel March 22, was killed while hitchhiking along a street adjacent to the motel when the plane crashed and skidded across the street.

He had stayed late to work at a party given for the Juda, Wis., High School senior class which was on its annual trip.

Nine girls of the 32-member vacationing class were killed in their motel rooms.

FLOWN HOME. A Delta transport flew their bodies to Madison, Wis., last night.

The other victims included an assistant engineer at the motel, a mother and son in a house a block from the motel and six persons aboard the airplane.

The plane was on a training flight to check out a 109 pilot and an engineer on the larger DC8.

A Delta instructor and a Federal Aviation Agency official were aboard to check out the pilot and two Delta engineers were checking out the engineer.

EVERYTHING FINE. The Delta instructor, Maurice Edwards (Bud) Watson, told the tower yesterday was fine as the 135-passenger airliner came in for a landing.

David Breeding, a 10-year veteran with the FAA, told Watson from the tower:

"Delta 9877 clear touch-and-go (landing) or cleared to land Runway."

"Okay. We'll land straight in. We'll make another takeoff," Watson said.

"Okay. You want to take off south?" Breeding asked.

"Be fine," Watson said, the last words spoken from the tower.

That was 2 1/2 minutes and five miles from the airport. Watson was in the cockpit's seat and James H. Morrison, making his final checkout flight, was the pilot.

City Youth Is Hit by Car on Saginaw. Hit by a car on South Saginaw late yesterday, a Pontiac youth is reported in satisfactory condition at Pontiac General Hospital.

Anthony Pilgrim, 17, of 950 Warner was injured, according to Pontiac police, when he attempted to run across the street between lanes of traffic near Rapid about 3:55 p.m.

Driver of the car, Clarence Poust, 65, of 239 W. Rutgers, told police he was unable to avoid hitting the youth. He was not cited.

Prostitution Charges Face 4 After Raid. Four women face arraignment on prostitution charges following their arrest last night by Pontiac police vice squad officers.

Held at the Oakland County Jail are Betty Hall, 47; Geraldine Adams, 25; Rose King, 25; and Barbara Johnson, 21.

All gave their address as 268 Hughes, where raiders led by Sgt. Robert C. Gaines struck about 10:45 p.m.

Police said they arrested the four women after an undercover patrolman gained entrance to the house.

The Hall woman is charged with maintaining and operating a house of prostitution. The other three suspects are accused of being inmates of the house.

LOW COST CAR LOANS. GMC EMPLOYEES FEDERAL CREDIT UNION 939 Woodward — Pontiac

Reflections. The Only Day It is surprising how many people live as if yesterday or tomorrow were the only time worthy of their attention. Those who turn toward yesterday often live in a dream world trying to recapture "what might have been."

There becomes tiresome to listen to. It becomes tedious the passing of the "good old days," when they imagine that good has gone from them beyond recall.

There are also those who see tomorrow as their only day. But today is our day! It is the only day worth living! Give your attention to it. It is within our grasp, moldable to our will.

quality & economy with Stran-Steel buildings

You get economy with Stran-Steel buildings because economy is literally designed and built into every steel component. It is the natural result of quality planning, mass production techniques that are not only better, but also economical. The savings are passed along to you.

Before you build any building, discover why a Stran-Steel building is a better investment. Find out why Stran-Steel is able to offer varying guarantees to backstop the performance of the steel components. Lower heating and cooling bills are the direct result of exclusive insulated wall systems. Faster construction, often 10 to 30 days, will get you in business sooner. Call us for a free estimate or a copy of our brochure "10 Costly Mistakes to Avoid Before You Build." We are able to handle your complete turn-key project. Arrangements can be made for financing.

Japanese Silk Screen Hangs Above Spanish Oak Buffet In Foyer

'Fillmorian' Theme Followed

By JODY HEADLEE
Home Editor, The Pontiac Press

Call the decorating scheme eclectic, "Fillmorian" as the designer (Mrs. Donald Fillmore) does, or by any other name; as long as the terminology implies an exciting, different and dramatic approach it's semantically opportune. Mrs. Fillmore has the ingenious faculty of marrying furnishings and appointments from many countries, periods and styles in a complementary blend designed to please the eye and imagination without sacrificing comfort.

Paneled in walnut and floored in slate, the entrance with its rice paper hanging fixture and Japanese silk screens give a flavor somewhat oriental. Modifying this Far Eastern

mode are matching black horsehair covered Biedermeier chairs, a Spanish oak buffet and a contemporary octagonal rug in blue and green.

A dado-high planter with open vertical slats separates the adjoining cathedral-ceilinged living and dining area, also paneled in rich walnut.

NEUTRAL SETTING

Beige sculptured carpeting and off-white antique satin draperies provide a neutral background.

Above the Italian Provincial sofa covered in gold antique satin are collector's pieces.

The bas relief of a Magi is mounted on olive green leather. It came from Mexico," said Mrs. Fillmore. "I put

new prints in the antique frames. The black angels are from Mexico, the brass mirror is Dutch and the iron and ruby glass rod came from an old weather vane."

A floral oil, a hammered metal candle holder and a square framed medallion complete the grouping.

Gently curved slate interrupts the flow of carpeting to create the dining area.

A wall-hung buffet in walnut and cane is highlighted by a copper samovar and carnival glass.

Injecting a Victorian accent on the nearby wall is a marble-topped commode.

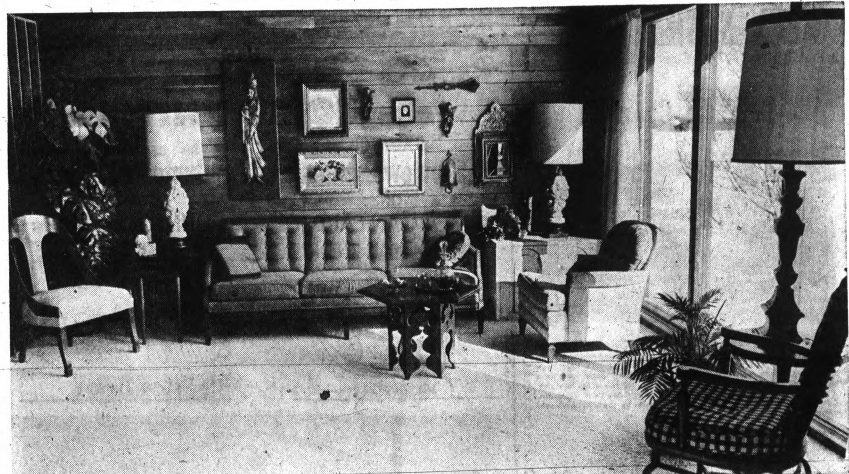

"The hand-carved clock above the chest," said Mrs. Fillmore, "was once a mirror in the old Detroit Music Hall."

How to Plan a Home Well

More than 900,000 private water systems will be installed by the end of the year, according to industry sources.

If you're considering the installation of a private water system, Joseph R. Schmitt, director of marketing, A. Y. McDonald Mfg. Co., Dubuque, Ia., advises the following:

• Although hand-dug wells used for thousands of years were as much as three and four feet in diameter, today's wells can be as little as two inches in diameter.

However, recommended width is a minimum of 4 inches.

• The cost of installing a private water system varies widely.

For the average home, it's largely dependent on the depth of the water table.

Well drillers usually charge from \$2 to \$5 per foot of drilling, depending on the diameter of the well and the material they must drill through.

Equipment costs for the water system also vary from a little under \$100 to over \$400, depending on the water volume you need, water pressure you desire, the diameter of your well and the depth of the water table.

• Well drillers and contractors familiar with the geological strata of their areas can usually give you a fairly accurate estimate beforehand, but there is still no ironclad method of determining where water is, except drilling to find out.

• If the well is less than 25 feet deep, a shallow well pump may be used. This pump creates a vacuum in a pipe stuck into the water, and like a soda straw, brings water to the surface.

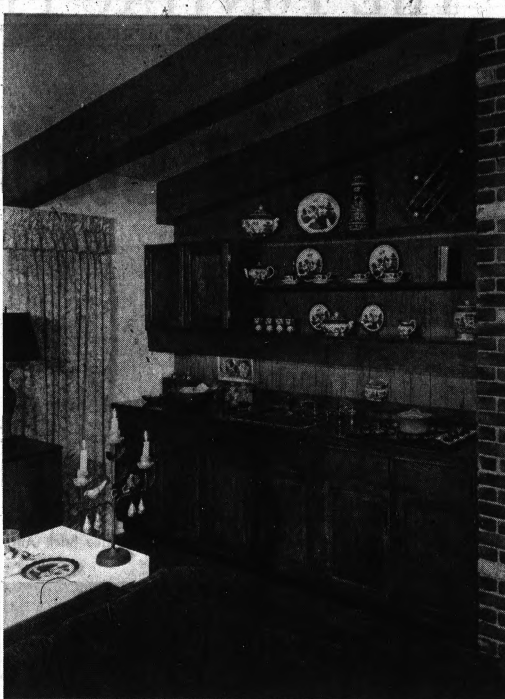

• Basically, a jet pump recirculates water down from the pump to the water table and up again in a continuous cycle.

However, at the bottom of the piping an opening is provided. Like a garden sprayer, a vacuum is created at the opening, bringing in water from the well.

This water is brought to the surface with the recirculating water.

• A submersible pump, the most modern available, needs a well at least 4 inches in diameter.

It is actually installed in the well, below the water table, and merely pushes the water to the surface.

CAPSULE KITCHEN—Charm and convenience are blended tastefully in this compact kitchen-dining area of a weekend house. All food preparation and storage facilities are located along one well-planned wall. The table is just a few steps away, yet the area

can be separated with a portable folding screen, if desired. An informal atmosphere is created by the adjacent brick fireplace and hardboard wormy chestnut paneling on the back wall and exposed beams.

There's Logic in Coin-Ops

Estimates indicate that well over 68 per cent of customers at coin-op laundries have washing machines at home.

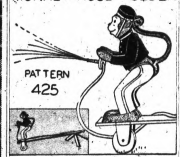

There are many reasons for this "typically feminine" behavior.

For example, one mother of six occasionally uses 18 machines simultaneously, and this finishes in an hour what would take her own washer and dryer set a full day to accomplish.

Many women love the social angle of the self-service laundries.

Also, home-makers who have to conserve water from private wells may prefer to use the coin-op's supply of that precious commodity.

MONKEY HOSE HOLDER

THIS GLEEFUL MONKEY in his brightly painted jacket and cap will be tireless in holding the hose. He is mounted on a roller base that is easy to move. So put him to work while you take it easy. Pattern 425, which gives actual size cutting and painting guides and directions, is 35c. This pattern also is one of four in the Gardeners' Helpers Packet No. 27 — all for \$1.

Much Material in New Homes

It takes a heap o' material to make an American home.

According to building economists at Allied Chemical Corp., materials used in residential construction account for 30 per cent of the nation's production of lumber, 65 per cent of its bricks and 80 per cent of all gypsum products.

Bugs with black and white vertical stripes mark the mid-channel.

Etiquette experts have dealt little, if at all, with rules for entertaining in kitchens. Perhaps they should.

Except for very formal occasions, the tendency has always been for the family and guests to gather in the kitchen.

This tendency is even stronger today, he said, with family rooms and kitchens built side-by-side.

So why not be sure your kitchen is as attractive to guests as your living room?

You'll be a happier hostess when you're not constantly apologizing for the way things look.

Several ways you can make yours more sociable include:

• Begin with the dining furniture, checking to see whether it is scuffed, wobbly and worn.

If the finish is marred and the upholstery split, make a bright new set your first step toward a more attractive kitchen.

• Provide adequate lighting

A glare-free light above the dining table is important, especially if you use the area for homework, sewing, games, etc.

• Vent away kitchen odors. So many types of range hoods and fans are available, there's no excuse for odors to linger.

• Check the flooring. Is the pattern worn through? Are tiles popping loose?

Kitchen flooring takes constant abuse, so look for durability as well as good looks in new floor covering.

• Dress up the windows. Try shutters instead of curtains for a change, or hang a bright valance across the top if there's a view.

• Camouflage unattractive things like pipes under a sink (a fabric skirt, perhaps) waste can (in a base cabinet or below sink), and unattractive dishes (with a folding screen or room divider).

• Consider the wonders paint can do. Surfaces that accumulate grease soon become worn from frequent washing, so kitchen walls and cabinets may need painting more often than other rooms do.

FARMHOUSE COMFORT: Modern version of the New England farmhouse has all the inviting exterior charms of the old colonial home, plus all the present-day interior con-

veniences that provide good living with minimum work and maintenance.

Image of Coziness Found in Farmhouse

The exterior of a house creates the "image" by which it is known to those who never see the inside of it.

When the artist's rendering of this house was presented to us, there was an immediate impression of warmth and friendliness.

Architect Samuel Paul obviously had caught the character of neighborliness and hospitality so evident in the New England farmhouse.

A study of the interior plans showed that the cozy atmosphere of the exterior had been

combined with all the comforts of modern living on the inside.

This is a compactly-planned house — only 1666 square feet on the ground level, yet with rooms that are generous in size and convenient in disposition.

EXPANSION ATTIC

By utilizing the expansion attic for two additional bedrooms, a fairly large family would have adequate space to enjoy a good life without the necessity of owning an oversize house.

The family requiring only the two bedrooms on the ground floor could leave the expansion area unfinished or use it for other purposes, perhaps for studying, sewing or hobby activities.

To the left of the ample entry foyer is the fully-equipped efficiency kitchen, with a dinette for informal family meals.

Adjacent to this is the family room and the laundry, making it easy for mother to keep an eye on the children as she does her chores.

A lavatory in the laundry room is just a few steps from a side entry, helping to prevent traffic through the house and providing a convenient wash-up area.

The rear of the family room leads to a patio — an outdoor room with built-in barbecue, sheltered on two sides so that it can be used most of the year.

The more formal living room and dining room sections can be entered directly from the main foyer past a conveniently-located closet for guests' outer clothing.

FIREPLACE

An attractive fireplace in the

living room contributes to the friendly atmosphere.

The dining room is so situated that it could be combined with the living room to form one large space for entertaining. It is directly accessible to the kitchen for ease of serving.

The two bedrooms on the ground floor retain their privacy from the rest of the house, yet are located off the main foyer.

They share a large bath containing two lavatories, a full tub and a stall shower and are served by an oversized linen closet. Both rooms have cross-ventilation.

Whether the second floor were finished at the time of

the original construction or a later time, it can accommodate two large bedrooms, a bath and considerable storage space, as architect Paul's plans show.

Each of the two bedrooms has two spacious closets. There are two lavatories in the bathroom, and two linen closets in the hall.

A special room next to the two-car garage provides a sizable area for storing garden tools.

There is direct access from the garage into the house, always a convenience for carrying packages.

The use of barn shakes along with brick helps to maintain the New England farmhouse look of this warm, informal residence.

Buy Proper, Quality Tools to Do Jobs Around House

You need more than one screwdriver, a pair of pliers that slip and a battered hammer to take care of a house.

You need an assortment of tools. You don't have to get them all at once, nor do you need everything that appears on a typical list of tools recommended for every householder.

Take screwdrivers, for example. The one that came with your wife's sewing machine is not enough.

Nor is the one and only that you bought the day you had to get something out in the garage.

Screwdrivers are not only one of the most frequently used tools around the house but they are one of the most abused as well.

NOT PRY BAR

A screwdriver is not a pry bar. Apply leverage with it and it will snap. It is designed to withstand twisting, not lifting.

You should have several sizes, both in length and width and thickness of blade. Too big a screwdriver will not fit the screw slot.

One too small will turn within the slot and damage the head of the screw.

In addition, to the common type of screwdriver you will need a Phillips screwdriver. This fits screws with cross slots.

You will find these screws on appliances, radios, television sets, autos. There is less likelihood of the blade slipping out of the screw and marring the surrounding surface.

Hold the Phillips screwdriver straight and with a steady pressure. If it does slip it will hurt only the head of the screw.

Do not use any screwdriver as a chisel, ice pick, pry bar, can opener, paint mixer or anything else except for turning screws. And get several so that you have a variety of sizes.

VERSATILE HAMMER

A 16-ounce claw hammer is a

good all-around tool. The weight refers to the weight of the head. The claw is opposite the head and is used for pulling nails.

Get a hammer that has a head with a flat face, not rounded. It's less likely to slip.

Do not use your claw hammer for breaking rocks or driving fence posts. There are special hammers for special jobs.

What other tools should you get? Buy a couple of chisels — 1/2- and 3/4-inch. Get a pair of slip joint pliers. Later add a pair of side cutters.

For cutting wood get a crosscut saw, eight points to the inch. Fewer points indicates a saw for ripping.

For metal work you will need a hacksaw. Get one with an insulated handle. You never can tell when you may brush over a wire with one.

Get a 10-inch adjustable wrench (commonly called Crescent), though that's a trade name.

LOOSEEN NUTS

This will loosen nuts, can be used to take apart faucets when replacing washers.

Later you may want a pipe wrench but that's for more advanced plumbing.

Get a flat file for metal, a rasp for wood.

Drills? You can get a hand drill, a brace and bit or a simple push drill. Or you can purchase your first power tool — an electric drill.

The quarter-inch drill is a common tool and with attachments it serves as a variety of tools — sander, polisher, grinder even a saw.

Do not get a light-duty drill if you intend using many attachments.

When buying tools, buy quality. They work better when new and are more economical in the long run because they are less likely to need replacing.

G-82 STATISTICS

Design G-82 has a living room, dining room, kitchen, dinette, family room, laundry, foyer, two bedrooms and a bath on the ground floor, with a total habitable area of 1666 square feet, which does not include the two-car garage, outside storage room and rear patio. There are 710 square feet in the upstairs expansion area, which has been divided into two bedrooms, a bath, balcony and storage space. The over-all dimensions of 89' by 55' 5" include the garage.

Easy to Make Sliding Doors

It's easy to make good-looking sliding doors for built-in units by simply cutting panels of 1/4-inch thick hardboard paneling to the desired size.

This plastic finished paneling, which comes in plain colors, woodgrains and decorator patterns, can be damp-wiped clean.

With this technique, it is simple to face built-in units with the same paneling as used on the main walls.

Floor Closets With Light Color

To avoid a hard-to-clean ridge at a closet doorway, extend resilient floor tiles into the closet when installing an asphalt or vinyl asbestos tile floor in their room.

Tile in a light color inside the closet will also make it easier to find missing shoes and other items.

When boating in strange waters, make certain you have the proper charts.

How to Build, Buy or Sell Your Home

WHAT IS KLINGELHUT FACE BRICK SIDING?
It is the Multi-Purpose Brick Siding that does so many jobs — BETTER

Klingelhut brick is genuine, individually made, kiln-fired brick of standard dimension except that it is 1/2 inch thick. It is bonded to 1/2 inch insulation by Klingelhut. This produces an insulating combination equal to 4 inches of blown-in insulation, 4 feet of solid brick.

- Gives year-round insulation
- Reduces fuel costs
- Beautifies your home, increases its value
- Resists fire — lowers insurance rates
- Ends repair and maintenance bills — no painting
- Economical to install...

KLINGELHUT Since 1928

LONG-TERM INVESTMENT — A distinctive-looking roof can individualize your house, and become the focal point of exterior decor. Modern heavyweight asphalt shingle roofs now come in a variety of colors, tones and blends that complement

the architectural style of the house and enhance the home's good looks. A quality roof such as this is a good investment because it is backed by the manufacturer for up to 25 years of service.

Individualize Home, Install a New Roof

Tired of living in a house go well with contemporary design that looks like all the others on the block? This may be the complement more traditional type to improve and individual-house design.

One way to do this is with a new roof. Although the roof is the largest exterior expanse of a house, it is often overlooked as a design high-light. Yet, with a little imagination, the roof can become the focal point of your house decor.

Time was when all roofs had to look pretty much alike because the choice of roof colors was limited. Today, modern roofing materials, such as asphalt shingles, come in a wide range of colors, tones and blends.

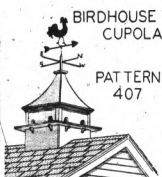

In asphalt shingles, the colors are contained in a coating of the shingle surface. This shingle surface produces non-fade tint, heavyweight asphalt colors that are free from glare, and, in addition, helps to seal the shingles from drying and stronger horizontal shadow out in the heat of the sun.

A few rules to keep in mind when selecting roof colors are:

- Pick a basic color that will serve as a background for other colors on the house exterior.
- Since a good roof will last a long time, you want a color that will blend well with the tones that are apt to change periodically: siding, shutters, doors and window frames.
- Use roof color to emphasize the architectural design of the house. White and pastel shingles

Clean With Care

Do not use excessive dry-cleaning solvents on latex or rubber-backed carpet, as they may deteriorate the backing.

MAKE CUPOLA for your garage or breezeway and top it with a weathervane. The whole project, right up to setting them in place may be done right on your workbench. Pattern 407 for the cupola shows every step including a device for shaping the bottom to follow the line of your roof. The weathervane shown is made with Pattern 241. These patterns are 50c each.

The Pontiac Press Pattern Dept., P.O. Box 50, New Windsor, N.Y. 12550

Housing Spurt Gains Speed

A spokesman for the building materials industry predicted today that a new U. S. home construction boom, already starting after months of depression, will reach record levels by the end of this year and should set new records starting in 1968.

William H. Hunt, executive vice president of Georgia-Pacific Corp., said that demand will result in 1.3 to 1.4 million new units this year despite a slow start.

He predicted an adjusted annual rate of 1.8 million by year-end with a sustained level of over 2 million annually beginning in 1968. Good previous years have been at the 1.5 million level.

The international forest and gypsum products executive said the new boom "can be even greater, filling demand for up to 2.6 million units a year if all those involved accept the challenge."

Declaring that 2 million units a year already is a "sure thing," he listed specific action that "can expand this into an even larger super-boom." They include:

- Sustained government policies that allow the industry to fill housing needs, elimination of "cracker box" construction, more remodeling of good older homes for low-cost housing, and improved design, construction methods, materials, merchandising and research.

Hunt cited recent declines in mortgage interest rates as helpful, but pointed out that "even at the peak, rates were below what many paid 35 years ago."

Housing Starts Show Strong Rally

Brighter days are ahead for the hard-hit housing industry. Fortune's semiannual survey of builders reveals that they expect a 10 percent gain in housing starts for the year 1967.

This would put the year's total above 1,300,000.

Because the early-1967 rate was still only about 1,100,000 and because the freeing of mortgage money may be slower than builders expect, Fortune's economists suggest that the survey forecast may be somewhat over-optimistic.

Full recovery of the housing market to 1965 levels, they say, may not come until early next year.

Seldom-used luggage is a good place to store blankets if short on storage space.

Defects Put Auto Makers on Defensive

EDITOR'S NOTE — Detroit's dealers' garages across the country to check for potentially dangerous defects. That is more than one in every five rolling off the assembly lines. Thousands of others have required repairs. Foreign cars, even Buicks, also have been recalled.

DETROIT — It is doubt chilling the American motorist's love affair with his automobile. Once he heard rumors about playful assembly line workers sealing loose parts into car doors to rattle forever. A nuisance perhaps, but hardly perilous.

But now his air-conditioned, gadget-loaded baby is making front-page news. They say she may be dangerously defective. Her brakes may fail or her steering column may crack while he is parking. The door won't stay shut, or the stop light doesn't work.

Since last September, more than one million cars, trucks and buses have been recalled to dealers' garages across the country to check for potentially dangerous defects. That is more than one in every five rolling off the assembly lines. Thousands of others have required repairs. Foreign cars, even Buicks, also have been recalled.

21% SALES DROP

Since Jan. 1, automobile sales have plunged 21.2 per cent lower than a year ago, and Detroit is on the defensive.

Officially, automakers blame bad winter weather, the war in Vietnam and tight money. Privately they say the national debate over auto safety and the publicity given recent recalls of defective vehicles also have hurt.

But the industry does have its defenders.

"They make 9 million or 10 million vehicles a year, and a few parts are bound to get by," said Lawrence Patrick, a Wayne State University professor.

One of the defects caught could have caused brake failure on 12 Chevrolet school buses. The buses were in use, carrying children, when General Motors recalled them.

General Motors also recalled 269,000 cars to replace their collapsible steering columns after eight of them cracked under stress — the sort of thing that happens while parking. It will cost GM more than \$6 million to replace them, industry sources estimate.

For its part, the automobile industry is throwing everything at the public to win attention when you yell, "said William E. Burdett, Ford executive engineer.

"They just don't get alarmed like they should."

For its part, the automobile industry is throwing everything at the public to win attention when you yell, "said William E. Burdett, Ford executive engineer.

"They just don't get alarmed like they should."

Assist by Phone Slated in Oregon

PORTLAND, Ore. (AP) — Portland area residents soon will be able to dial F-I-S-H on the telephone and get immediate volunteer help for emergencies.

The United Church Women of Portland plan to hire an executive secretary and pay for two telephone lines.

Volunteers will baby-sit, take people to the doctor, clean their homes and perform other emergency services.

St. Trin's Is Chilly to Trin's Craving for Mexican Chili

By EARL WILSON

NEW YORK — We were about to have Sunday brunch in Trin's luxurious suite at the St. Regis, when Trin suddenly said to Lopez, "Bullets" Durgom, talking to Room Service, "What Mexican food have you got?"

"What Mexican food have you got?" Manager Durgom inquired of Room Service. A pause. "None, huh?"

That would be about all getting Cripes Sazette at a hamburger stand, but it didn't deter Mexican by Trin.

"I want some chili," groaned Trin. "I haven't had any chili in four weeks." He had been on tour in South Africa, then to London, and as is well known, there are no large Mexican restaurants in London or even Johannesburg.

"You could call the J&T Chili parlor on 48th St.," I said. "They could send you some chili."

Trin's mouth could be seen to water. A phone call was made. Trin's helper, Miguel, a Peruvian, was sent to fetch the chili. When it arrived all hot and steamy, Trin's eyes shone and he said, "Bullets, look-at that! Bullets, you're gonna help me with this!"

"My goul!" said "Bullets," who forgot his goul a moment later.

"Thank you for the idea," Trin said to me. "That's the best idea anybody has had today. It will be the best anybody has had all day." Trin then called out, "Miguel! My Tabasco Sauce!"

Miguel came hustling in with a small bottle.

THE WEEKEND WINDUP

Richard Burton, filming "The Comedians," says that now he's a producer himself, he won't stand for actors' phantasies: "It's frightening how much everything in this business costs!"

The European version of Tony Curtis' "On My Way to the Crusades" will show the harem girls undressed; U.S. audiences'll have to do without.

Paul Grossinger, of the famed vacation resort, is vacationing in the Bahamas. ... Van Rapoport of the Spindletop will fly two of his horses to London for a show. ... Bobby Darin, now at the Copacabana, Jerry Lewis' Hollywood offices for his new film company.

TODAY'S BEST LAUGH: Nowadays if you can't say something nice about a person — write down something nasty and it may be a best-seller. — Angie Papadakis.

Now, regardless of your age or occupation...

**COLLECT \$52.50 ... \$105 ... OR \$157.50 A WEEK,
JUST LIKE WAGES, WHILE IN THE HOSPITAL**

Whether you are under 65 and have regular hospital insurance—or over 65 and eligible for Medicare—it will pay you to read the facts now about the new "1-2-3 Direct Cash Plan."

Discover how you could go to the hospital and come out with money left over.

What if you should wake up to find yourself flat on your back in a hospital bed—and be there for weeks or even months? Think of all the things that \$2,000 or \$5,000 or \$8,000 in extra spendable cash, over and above your hospital insurance, could mean.

Cash to pay the mortgage. Cash to buy food. Cash to meet car payments—pay for child care—buy gasoline—buy school clothing—pay a tax bill.

Your regular health care insurance is not intended to help with family living needs. The "high cost of living" is apart from hospital costs. Household bills go on just the same. Your family still has to eat three meals a day. The landlord or the bank still wants the money when it is due.

Just a few weeks of this kind of financial pressure—with nothing coming in, everything going out—could plunge your loved ones into actual want. No husband or father, hospitalized or healthy, wants his family to go into debt.

A New Service of Americare®

It is to meet this kind of personal and family emergency that American Republic has developed the new "1-2-3 Direct Cash Plan"—a service of Americare. Here, specifically, is what this new plan can do for you:

This plan can pay you \$157.50 per week actual cash (at the rate of \$22.50 per day) for every week you spend in the hospital due to accident or illness. It gives you the right to collect this \$157.50 per week for any number of weeks up to ONE FULL YEAR. This extra cash income is paid directly to you. You don't have to pay one penny of it to the hospital. It is yours to spend as you wish.

In fact, you can collect a total of as much as \$8,212.50 extra personal cash if you are in the hospital for as long as a year.

What's more, this is LifeGuarded Protection.® This means it is Guaranteed Renewable. It can be yours for LIFE as long as you make timely payment of your current

premium. It can NEVER be cancelled by the Company because of age, health or number of claims.

Check All These Advantages

- Pays whether you are in the hospital for injury OR sickness.
- Pays in cash directly to you. It's yours to spend any way you like.
- Benefits are increased 10% if premium is paid annually in advance, or increased 5% if paid semi-annually in advance.
- Pays in addition to any other insurance carried with American Republic or any other company. Even pays in addition to Workmen's Compensation or Medicare.
- You are covered during any hospital confinement for any accident from the date your policy is issued, and for any sickness that begins after 30 days from date of issue. Unless, of course, your hospital care is due to war, mental disorder, maternity, dental work, or when you are in a U.S. Government or Veterans Hospital.
- NO MEDICAL EXAMINATION, regardless of your age—and there is NO AGE LIMIT.

Easy As 1... 2... 3...

Protection under the new American Republic "1-2-3 Direct Cash Plan" is available in individual protection "units."

You simply decide how many of these units you need for your particular coverage requirements—and put them together like building blocks. For example:

The "1-UNIT" PLAN pays you \$52.50 per week actual cash (at the rate of \$7.50 a day) for every week you spend in the hospital due to accident or illness. This plan can pay you as much as \$2,737.50 if you are hospitalized for a full year.

The "2-UNIT" PLAN pays you \$105.00 per week (at the rate of \$15.00 a day) for each week you are in the hospital—up to as much as \$5,475.00 if you should be in the hospital a full year.

The "3-UNIT" PLAN pays you \$157.50 per week (at the rate of \$22.50 a day) for each week you are in the hospital—up to a total of \$8,212.50 if you are hospitalized for a full year.

Your decision is easy. Just choose the plan that fits your needs best. Best of all, no matter which plan you choose, you get...

Protection That PAYS

According to latest 5-year figures, American Republic returned a greater percent of premium dollars to policyholders in claim benefits than any of the other Top 40 insurance companies offering individual accident and health insurance. So, when you own this policy, you have protection that PAYS. This is another important advantage of Americare.

Why not send for full information today? Why put it off and risk missing this exceptional new protection opportunity that can be worth up to \$8,000.00 and more to you? Get the facts and make your own decision. It's easy. Next to this page is a postage-free airmail card. Fill out the card and mail it today, or write to American Republic Insurance Company, Des Moines, Iowa 50301.

SPECIAL OFFER: If you send now for information about the American Republic "1-2-3 Direct Cash Plan", you will also receive a complimentary copy of the Better Homes and Gardens FIRST AID Book. This valuable 118-page, hard-cover book is written in simple language, and tells you how to take life-saving measures in an emergency. This book is yours without charge or obligation. Fill but and mail card today.

Death of the Dangerous Cigarette Seen

PALM BEACH, Fla. (AP) — The president of the American Cancer Society predicts that, through filters and reductions in tar-nicotine content, "the really dangerous cigarette will become as extinct as the spilloon."

But Dr. Ashbel C. Williams of Jacksonville, Fla., added: "If I am wrong, then I know that, to my sorrow, more and more of my practice will be in removing cancerous lungs."

Williams, a surgeon, made the remarks last night in addressing the opening of the ninth annual seminar for science writers sponsored by the Cancer Society.

He described the present cancer-smoking controversy this way:

1. Mounting numbers of American adults have quit smoking cigarettes, but

unfortunately "youngsters in grade school and high school continue to court cigarette-caused diseases to a discouraging degree."

2. One of every three deaths in the United States in 1967 "will be from a smoking-related disease."

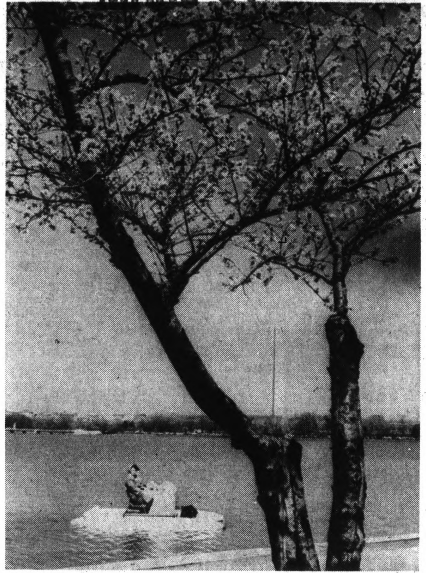

3. Approximately 1.5 million American youths between ages 12 and 17 started smoking last year — and certain members of that group are going to come up in their 30's with cancer of the lung or larynx due to smoking.

He indicated that among adults at least, there has been a sharply growing tendency in the past 15 years to smoke cigarettes with filters.

But he added: "Unfortunately, however, people have a difficult time in most cases in finding out whether their cigarettes — filtered or unfiltered — are low in tar and nicotine count."

Auto Makers Go to Court Over 3 Safety Standards

DETROIT (AP) — The auto industry, which has blamed slumping sales on the auto safety furor, went to court yesterday challenging three of the safety standards ordered by the federal government for 1968 cars.

One by one, they filed suit, asking the 6th U.S. Circuit Court of Appeals in Cincinnati, to throw out the standard aimed at making the car interior safer for passengers in an accident.

American Motors also challenged two others — one requiring door latches and hinges that will keep doors from popping open in collisions, the other requiring

steering columns that can jam no more than three inches toward the driver even in head-on crashes.

No sooner had the industry struck the latest blow in the safety debate than Chrysler Corp., announced it would lay off 21,000 men this month because it is building cars faster than they are being sold.

The layoffs will be at Chrysler plants in St. Louis, Los Angeles, Newark, Del., Belvedere, Ill., Detroit and Hamtramck.

MAIN TARGET
The auto makers' main target was

the so-called passenger impact protection standard setting specifications for equipment in the area of the passenger's head, knees and legs.

It requires, in essence, that the instrument panel, seat backs, sun visors, knobs, handles and armrests be built so as to reduce the possibility of injuries.

General Motors and Ford, the two biggest auto builders, said flatly they couldn't meet it on 1968 cars.

"If the standard is not revised, Ford will be unable to produce automobiles

for sale in the United States after Dec. 31, 1967 — when the standard takes effect," Ford said.

HARM FEARED
Chrysler, which started the parade to court, said being forced to comply with the standard on 1968 cars would cause it "irrevocable harm."

Next year's models were planned months ago and are only a few months from the production line.

The standard would require Chrysler to redesign completely its instrument panel and other interior parts at great difficulty and expense, the suit said.

Rocky Road Ahead for Area Motorists

Motorists were given little hope today that there will be smooth riding on Oakland County roads in the months ahead.

Frazer W. Staman, chairman of the board of County Road Commissioners, said that because of the worst spring breakup in at least six years, road repairs are going to be "slow and frequently inadequate."

"We don't have enough money to make all the needed repairs," said Staman, "but if we did it would cost at least \$1.5 million just to restore the roads to their former condition."

Staman estimated at least 75 different roads are impassable in the county, in addition to hundreds of miles that are badly damaged.

"Roads in the Farmington Township

area are the worst, but the problem is general throughout the country," said Staman.

The repair of subdivision streets will be the hardest to accomplish, according to Staman. Even under normal conditions, we don't have sufficient money for maintenance of subdivision streets.

During the next few weeks, each damaged road in the county will be inspected and repair costs estimated, said Staman. In those townships where road commission funds will be inadequate to make repairs, an appeal will be made to the township board for financial assistance.

"There are several areas where substantial help from townships and local residents must be forthcoming or many roads will remain in very poor condition," he added.

2 Die, 270 Hurt on Japan Train

TOKYO (AP) — A five-coach passenger train collided today with a truck at an unmanned crossing, near Osaka, central Japan. The first two coaches were derailed on the bridge ahead and plunged into the Onosato River 15 feet below.

Osaka police reported two passengers confirmed dead and about 270 persons injured, many seriously.

Officials estimated 300 passengers were aboard the train, an express on the Nankai Electric Railway Line, privately owned. It was bound for Wakayama, 40 miles south of Osaka.

The accident occurred at 7:25 p.m.

Witnesses reported the lead coach plunged into the river and landed in the water upside down. The second coach dropped into the 80-yard wide river right side up.

The last two coaches remained on the tracks. The truck also was dragged into the river, where it caught fire.

BLAST RUINS AT PRISON — A Blackman Township fireman checks the smoldering ruins of the arsenal at the State Prison of Southern Michigan which blew up last night killing two prison guards. The explosion also knocked out electric

power to the gates of the prison located at Jackson. Authorities, however, threw the gates on manual control immediately and there was no security risk. Cause of the explosion is unknown. (See story, page A-2.)

power to the gates of the prison located at Jackson. Authorities, however, threw the gates on manual control immediately and there was no security risk. Cause of the explosion is unknown. (See story, page A-2.)

More Snow Due? Joke Is on You!

April arrived at midnight shedding tears of joy just to be back again in the Pontiac area.

The weatherman predicts considerable cloudiness and a little cooler today, night and tomorrow with a high of 62 to 67.

Temperatures are expected to slip into the high 40s tonight. The outlook for Monday is partly sunny and a little cooler.

Morning southwesterly winds at 12 to 18 miles per hour will diminish a little tonight.

A mild 57 was the low in downtown Pontiac preceding 8 a.m. The 1 p.m. thermometer reading was 66.

Reporter Not Impressed by Tomfoolery

By ED BLUNDEN
The April Fool is in town today. Vowing not to be taken in by his corny routine, this reporter made the following interview:

Hello, Fool.

How did you know it was me?

I'm asking the questions. What kind of foolishness is in store for us today?

Oh, I'm going to make a lot of calls telling people they just won the Irish Sweepstakes or else their maiden aunt just died and left them a million.

Call that funny? What else?

I'm going to send a lot of guys around looking for stuff like the cannon report and the paper bag stretcher.

Ah, c'mon, you can do better than that.

How about nailing down somebody's shoes or the old billfold on a string gag or the coin imbued so you can't pick it up ... I got a million of 'em.

The same old stuff. It looks like another typical April Fool's Day to me. Wait 'til you try and find your car.

Sad Class Reunion

JUDA, Wis. (AP) — Juda High School's class of '67 returned home Friday, 23 at noon, nine at midnight.

A school bus delivered survivors of a senior class trip for a somber reunion in front of the village fire station.

Vehicle Check by State Police Due Here Soon

The State Police vehicle checking crew is expected to be in north Oakland County soon.

The six-man police unit now operating vehicle check lanes in Detroit and slated to come to the Pontiac area is headed by Sgt. Fay Johnson of State Police headquarters in East Lansing.

Purpose of the vehicle check that will be expanded throughout the state in coming months is twofold.

First, it will offer motorists the opportunity of a thorough safety evaluation of their cars or trucks by state troopers.

Secondly, the information compiled by the check will be offered to the State Legislature as a guideline for possible legislation on compulsory vehicle inspection.

State Police checking crews include a unit leader, a flagman and four checkers. They examine everything but the ash trays and hood ornaments.

Major check points include brakes, lights, steering, muffler system, turn indicators, windshield washer and wiper systems, all windows and tires.

Also checked by the troopers will be

NFO Exec Vows to 'Dump' Cows

OWOSSO (AP) — "If we can't dump our milk, we're going to dump our cows," a National Farmer's Organization (NFO) official said in announcing the organization's newest "pressure" move.

Charles King of Owosso, who handles publicity for the NFO, said yesterday members of the striking organization would begin selling cows for slaughter Monday at three locations in Michigan.

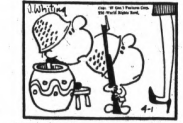

Earlier this week, state officials warned NFO members they could no longer dump milk in streams because of pollution.

King said the dairy cows would continue to be slaughtered in an effort to pressure dairies to agree to an increase in milk prices of two cents a quart for farmers.

"This will shorten the supply of milk a bit," said King, when asked how the slaughterings would aid his cause.

"We're in a bind on that injunction," he added. "We can't advise other farmers." The Justice Department sought an injunction against the NFO in Des Moines this week charging the organization with coercing nonmember farmers to join in the milk withholding action.

Major Streets Lag Tied to Fund Juggling

(EDITOR'S NOTE — This is the second in a series on Pontiac's streets.)

By DICK SAUNDERS
Municipal finance is often the art of juggling available and frequently inadequate funds to handle immediate needs. The only danger is that if those immediate needs stick around too long, you can juggle yourself into a corner.

That's what has happened to Pontiac's major street system.

It didn't happen yesterday, or last month or last year. It's been happening for a long time. The juggling act is currently opening its 17th season.

The problem has deep roots going back 40 years.

Lands annexed by Pontiac in the late 1920s came to the city without streets, sewers and similar improvements. Most of these were on Pontiac's East and North sides.

Over a period of some 20 years, these areas developed around a system of dirt and gravel roads.

In 1950, these areas still had a high percentage of unpaved streets. Paving these streets was one problem.

Another problem in the early 1950s was a growing need for improvements (Continued on Page A-2, Col. 6)

for local street construction has hurt major street improvements.

Cases will be one-way southbound and Oakland one-way northbound to Moultrie by the end of this year, easing traffic movement north of Wide Track Drive.

gantic traffic jams on Baldwin and Joslyn.

Downtown Pontiac's interior loop road has been shelved by lack of funds and indecision over redevelopment of the central business district north of Huron.

Failure to increase assessment rates.

Motorists can look forward to gi-

How Does Your Garden Grow? ...Badly!

By DICK WEST
United Press International
WASHINGTON — Here you are, folks. An all-purpose garden column to answer the many questions that will be bugging you during the next several months.

Dear Mr. Green thumb: The swishiteria bush on the north side of my house is turning brown. What should I do? — J.V.W., WEST Clods, Va.

Dear J.V.W.: Chances are the swishiteria bush is not getting enough sunlight. This problem can usually be corrected by tearing down your house and rebuilding it 50 feet farther north.

Dear Mr. Greenthumb: Is there any quick, easy way to keep the bears from trampling down my saliva plants?—J.D. Crankpaddle, Vibrant, Ohio.

Dear Mr. Crankpaddle: Try spraying with a mixture of two parts 24-PDQ-5 and one part of any good commercial counterfoil solution. If that doesn't do the job, add a little ferris powder, making sure it is properly dissolved.

Dear Mr. Greenthumb: My lawn is slowly being ruined by creeping nubles, especially at night. I have tried every way I

know to get rid of them, including icy showers, but nothing seems to work. What do you suggest?—Perplexed, Mayhem, Ore.

Dear Perplexed: You will probably have to reseed your lawn, digging down about 20 feet and replacing the soil with volcanic ash. If the problem remains, plant them with spreading purple.

Dear Mr. Greenthumb: Did you mean spray the bears or the saliva plants?—J. J. Crankpaddle, Vibrant, Ohio.

Dear Mr. Crankpaddle: The question has never come up before. Suggest you proceed on a trial-and-error basis pending clarification.

Dear Mr. Greenthumb: My

foldorl trees have not borne fruit since 1839. Wherein have I failed?—Alice Alabaster, East Quandy, Mont.

Dear Miss Alabaster: Hot towels may help.

Dear Mr. Greenthumb: If the question comes up again, you spray the saliva plants; not the bears.—J. J. Crankpaddle, VA Hospital, West Agony, Ohio.

TV Stars Use Free Time to Make Movies

By BOB THOMAS

HOLLYWOOD (AP) — What do television stars do with their free time? If they have the energy—and may—live agents—they make movies.

Every television star must face that time when the ratings inevitably will nosedive and he will have to seek other employment. The hope of most of them is to become attractions in feature films, as a handful of TV veterans have done—Steve McQueen, James Garner, Dick Van Dyke, etc.

And so television people are trying their hands at big screen

movies. Barbara Parkins, member of the "Peyton Place" cast, is having a fling at her first starring movie, "Valley of the Dolls."

Raymond Burr, late of Perry Mason and soon to star in a new series "Ironside," is costarring with George Peppard and John Banner has joined sex images Elke Sommer and Maureen Arthur in "The Wicked Dreams of Paula Schultz."

BUSY ON PROJECT

Lucille Ball is hoping to activate her project on the "Beardsley Family of 19 Children," with Henry Fonda as co-star. Buddy Ebsen of "Beverly Hillsbillies" is ambling through "The One and Only Genuine Family Band."

The Disney film also stars Walter Brennan, who is coming

back to TV with his third series, "The Guns of Will Sonnet."

Davis McCallum is using his vacation from "The Man from Uncle" to make another feature, "Sol Madrid." The "Vigilante" Jads will be busy. James Drury in "Red is the Color of Snow" and Doug McClure in "The Little Bustedard" watch that spelling!

"The Road West" came to a dead end at the close of this season, and its performers are scattering to movies: Barry Sullivan to "Twist of the Knife," Brenda Scott to "Journey to Shiloh" and Andrew Prince to "The Devil's Brigade."

Brian Keith took time out from "Family Affair" to appear in "Reflections in a Golden Eye" with Elizabeth Taylor and Marlon Brando. Dean Martin

continues to work in films between his television shows, or is at vice versa? His next is another Matt Helm, "The Ambush."

Efrem Zimbalist Jr. jumped from "The FBI" to play Audrey Hepburn's husband in "Wait Until Dark." Lee Majors left "The Big Valley" to head west with Charlton Heston in "Will Penny." Will Hutchins, late of "Hey, Landlord," is now appearing with Elvis Presley in "Clambake."

Art Identified

WARSAW (UPI) — A painting of St. Francis found in a parish house near Warsaw two years ago has been identified as a work of the 16th century painter El Greco, the Polish news agency (PAP) reported today.

Pitchers Climb From Losing Rut With Exhibition Wins

By the Associated Press
Dick Ellsworth and Mel Stottlemyre probably are the only major league leaders who won't be satisfied until somebody succeeds them.

Friday, Ellsworth and Stottlemyre took early measures to make sure they don't repeat as the losingest pitchers in baseball. Ellsworth, who dropped 22

games for the Chicago Cubs in 1966, became the first pitcher this spring to go nine innings in hurling Philadelphia past Cincinnati 2-0 in an exhibition game.

Stottlemyre, whose 20 losses were high in the American League, pitched seven scoreless innings as the New York Yankees downed Boston 3-1 in the first major league exhibition

ever played in the Virgin Islands.

FANNED FIVE
Cleveland's Sam McDowell, another pitcher who'd like to forget 1966, fired seven shutout innings as the Indians trimmed the Cubs 6-3 at Scottsdale, Ariz. McDowell, the southpaw strikeout artist who came up with arm trouble and finished 9-1 last year after winning his first four

decisions, gave up six hits and fanned five.
Seven-run innings carried the Baltimore Orioles and Houston Astros to victories over Pittsburgh and Los Angeles in other night games.

The Orioles exploded with two in the seventh, erased a 4-1 Pirate lead and won 8-4 at Ponce, Puerto Rico. Luis Aparicio started the rally with a double off Woody Fryman. Two walks, four singles and Dave Johnson's triple completed the seven-run burst.

Houston pummeled right-hander Don Sutton for seven runs in the second inning and went on to bury the Dodgers 13-1 in the Astrodome. Pitcher Don Wilson's bases-loaded triple keyed the big inning and Bob Aspromonte had two doubles and a single for the Astros.

A pair of two-run homers by Jim Davenport powered San Francisco to a 10-6 victory over California at Phoenix, Ariz., while the Chicago White Sox scored twice in the sixth inning on a passed ball and Ron Hansen's double for a 6-4 decision over the New York Mets at Sarasota, Fla.

The Giants, with a 14-6 record, and the White Sox, 13-6 top the exhibition standings.
Mike Shannon's grand slam homer and Lou Brock's three-run triple paced St. Louis to a 12-2 romp over Kansas City at St. Petersburg, Fla. Rico Carty knocked in two runs with a double and triple in Atlanta's 4-2 victory over Minnesota at West Palm Beach, Fla.

BASEBALL'S FACES — The expressions tell you what's happening on this play in the Chicago White Sox-New York Mets game yesterday in Sarasota, Fla. White Sox' Tom McCraw has his eye on home plate while

Mets' catcher Jerry Grote is looking for a throw from a teammate in an effort to catch McCraw. The throw didn't come and the White Sox ace scored. Chicago won, 6-4.

Tigers Having Trouble With Southpaws

Oxford Fourth in Track Meet

EAST LANSING (AP) — Defending champion Ecorse became a repeat winner, barely edging out Willow Run by one-half point in the Class B finals of the Lansing State Journal-Spartan relays Friday night. Ecorse posted 17 1/2 points. Oxford, paced by Tim Kelley and Ken Marsh, picked up 15 1/2 points and placed fourth. Kelley won the 80-yard dash and Marsh shared the top spot in the pole vault.

Final standings in the closely contested meet were not

decided until the last of the 13 events—the mile relay.

Willow Run won the mile relay to collect 5 points. But Ecorse had an early cushion of points and was able to ease in to first on the two points awarded for fourth place in the mile relay.

Ecorse previously had won the 800-yard relay, placed second in the 70-yard high hurdles and shot put and picked up a few other scattered points.

Erie-Mason was third with 16 points, and Detroit Lutheran West placed fifth with 14 points.

River Rouge, the team champion in 1964 and 1965, took ninth with eight points.

Willow Run also took the sprint medley relay.

Ron Strang of Detroit Lutheran West showed why he is considered the most promising miler currently competing in Michigan high school relays.

Strang, defending champion of a West show, ended nearly half in the lap ahead of the field. His winning time of 4:25.7 bettered his former meet record of 4:26.3, set last year.

Strang said he is shooting for at least a 4:15 mile in outdoor competition this spring.

The only other meet record set was the winning time of 8:24.8 by Detroit St. Anthony in the two-mile relay. The Detroit four, new heights to climb today in some of Bob Karkowski, Jim Moritz, Gary Powers and John Lasky erased the old meet mark of 8:25.0 by Dearborn Heights for Riverside last year.

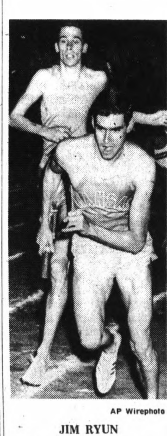

Wayne Hartwick of Erie-Mason was a double winner taking both the 70-yard high and low hurdles. The entry from the Monroe-area school cleared the highs in 9 seconds flat and went over the lows in :08.4—neither a meet record.

PLENTY OF HEATS
Because the crush of more than 1,000 athletes competing from 76 Class B schools, there were 10 heats each in the mile and sprint medley relay, 11 heats in the 800-yard relay and 12 heats in the shuttle hurdle relay.

The Class A schools take over Michigan State's Jensen Fieldhouse for today's afternoon preliminaries and evening finals.

Senators Trim Detroiters, 3-1, in 10 Innings

Lefties Tame Bengals in Early Frames; Fred Gladding Takes Loss

By WHITEY SAWYER
Associated Press Sports Writer
LAKELAND, Fla. — Those left-handers blues are plaguing the Detroit Tigers again.

The Tigers managed a run off a right-hander, but two southpaws baffled them Friday and the Washington Senators won a Grapefruit League game 3-1 in ten innings.

Lefty Pete Richter started for Washington and worked six innings, allowing only four hits and no runs. Dave Feldwin, a right-hander, worked the next two innings. He gave up one run in the eighth on a double by Norm Cass and a single by Don Wert.

Left-hander Dick Lines held Detroit scoreless the last two innings, although he gave up three hits.

Johnny Podres started for Detroit and pitched five strong innings, allowing four hits, no runs and no walks, and striking out three.

Johnny Klippstein took the next two and gave up a run in the sixth on a single to Tim Cullen, a walk to Fred Valentine, a single by Frank Howard and an infield out by Cap Peterson.

LOSING HURLER
The big bear, Fred Gladding, missed. He allowed two runs on two hits in his three innings.

In the tenth, Doug Camilli made first on a fielder's choice and Dick Nen walked. Ed Brinkman singled Camilli home and scored on an infield out by Cullen.

"I think we're going to be having troubles with left-handers again this year," said Tigers Manager Mayo Smith.

If Willie Horton and Al Kaline can't hit them, then we're in trouble. I don't think Jim Northrup and Norm Cass (who bat left-handed) will do too badly against them. I might play Jake Wood at second if Dick McAuliffe has trouble with left-handers."

Both Horton and Kaline — right-handed sluggers — sat out the game. Kaline has a sore leg and Horton has what Smith described as "a type of neuritis. Nothing serious. It's in the tendon above the heel. The doctors say it's not the same bone spur he had last winter. He may be out for three days more. He can take batting practice, he just can't run."

The manager said Ray Oyler will miss a couple of days. Big Frank Howard slid into him at second base, and he "got a pretty bad bruise on the shin."

Smith praised Podres' pitching, and said he wasn't so concerned about the work of Klippstein and Gladding.

CRANBROOK BLANKED BY NORWOOD TEAM
Special to the Press
CINCINNATI — Two-hit pitching by junior left-hander Jack Bouldin carried Norwood High to a 6-0 triumph over Cranbrook School here yesterday.

The crafty lefty, who fashioned a no-hitter last year, fanned 12 and walked only three.

The losers, 1-2 on their spring tour, got six-hit pitching from Robert Cummings, who was rocked by a shaky start.

TIGER TUMBLES—Detroit Tigers' shortstop Ray Oyler (1), a 150-pounder, is no match for Washington's 250-pound Frank Howard who upends Oyler as he slides into second base in their game in Lakeland, Fla., yesterday. Howard was forced at second on

the play after Cap Peterson hit a grounder to first baseman Norman Cass. Cash tossed to Oyler for the force on the 6-7 Howard and the shortstop pegged it back to first for a doubleplay moments before the collision. Washington won, 3-1.

AP Wirephoto

Young Bowler Sets 13 Marks

Stafanich Holds Lead in Firestone Tourney

AKRON, Ohio (AP) — Jim Stafanich, who has won \$2,050 in 11 tournaments this year, had the inside track today for the \$25,000 top prize in professional bowling's richest event, the \$100,000 Firestone Tournament of Champions.

The blond 26-year-old remained untouchable Friday in the final eighth of 48 qualifying games. He set 13 records by rolling 12,144 for the 48 games.

Only once did the Joliet, Ill., native fall below the 200 mark. That was a 183 Friday afternoon.

Up until then he had rolled 25 consecutive games over 200. He posted a 236 average for the 48-game series.

Stafanich's best previous finish of the Professional Bowlers Association tour this year was ninth-place at St. Paul.

With him in the five-man finals are Don Johnson of Kokomo, Ind., 11,858; Mike Durbin of Costa Mesa, Calif., 11,742; Les Schieler of Denver, Colo., 11,613, and Jack Blondolillo of Houston, 11,580.

Second place was worth \$12,500; third, \$6,500; fourth, \$3,500 and fifth, \$2,500.

Wind Hits Course; Golf Scores Soar

DELRAY BEACH, Fla. (AP) — Judy Toruemeke of St. Louis and Susie Maxwell of Pasadena, Calif., shot windblown 75s Friday and shared the lead after the opening round of the \$10,000 Louise Suggs Open Golf Tournament.

Gusts up to 25 miles an hour were recorded on the par-72, 6,400-yard Cypress Creek Country Club course, causing scores to soar.

Judy Toruemeke 75-78-75
Susie Maxwell 75-78-75
Max, Pete Dye 38-39-75
Sandra Haynie 39-39-75
Mickey Wright 39-39-75
Peggy Wilson 40-37-77
Louise Suggs 40-37-77
Marilyn Smith 40-37-77

Appendectomy for Hill

ST. PETERSBURG, Fla. (UPI) — Former world champion driver Phil Hill was flown here from Sebring, Fla., Friday to undergo an appendectomy.

Wilt Steals Show as 76ers Turn Back Russell, Celtics

PHILADELPHIA (UPI) — The first round went to Wilt Chamberlain — but Bill Russell isn't ready to panic.

Chamberlain, overshadowed over the past decade by Russell, who has led the Boston Celtics to a record eight straight National Basketball Association championships, played like a winner Friday night.

Although he hasn't played on a title team since he left Philadelphia's Overbrook High School in 1955, Chamberlain looked like a champion when he completely outplayed Russell in leading the Philadelphia 76ers to a 127-113 triumph over the Celtics.

It was the first game of the crucial first-of-seven Western Division finals playoffs and gave the 76ers a key edge as they prepare for the second game on national television Sunday afternoon in Boston.

Last year the 76ers lost to Boston in the playoffs after winning the regular season Eastern Division honors—and the 76ers hope to avoid that fate this year.

"Wilt's defense was great as it has been all season but I must admit he seemed to do everything defensively a little better tonight," Philadelphia coach Alex Hannum said. "In the last five minutes, I knew if Boston missed a shot, only one man was going to get the ball."

Will, the Celtics' player-

coach who is attempting to lead the club to a ninth straight crown, admitted Wilt was the difference in the opening game of their tough series.

ONE SHOT
"Wilt broke it open. He was their whole defense, giving us only one shot when he wasn't blocking our shots," Russell admitted.

But Russell, who met with his

coach who is attempting to lead the club to a ninth straight crown, admitted Wilt was the difference in the opening game of their tough series.

Local fans get their first chance to see the new crop of Lion rookies — paced by All-American running backs Mel Farr and Nick Eddy — on Monday night, Aug. 14.

Opposition will be provided by the Buffalo Bills, AFL champions in 1964-65 and divisional titlists last year. The game marks the first appearance of an AFL team in Michigan.

The second home game features the Baltimore Colts at Tiger Stadium on Saturday night, Aug. 26.

LIONS 1967 PRE-SEASON SCHEDULE
Aug. 5—Denver Broncos, away 9:00 p.m.
Aug. 12—Buffalo Bills, home 8:00 p.m.
Aug. 20—San Diego Chargers, away 3:30 p.m.
Aug. 26—Baltimore Colts, home 8:00 p.m.
Sept. 3—St. Louis Cardinals, away 8:30 p.m.

5 Pre-Season Tilts for Lions

Three AFL Opponents Are Scheduled

The Detroit Lions will play a five-game pre-season schedule this year featuring three tests with teams in the American Football League and highlighted by the appearance of the Baltimore Colts and Buffalo Bills at Tiger Stadium.

Aussie Yacht Wins 1st in Trial Series
SYDNEY, Australia (AP) — Gretel won her first race against Dame Pattie Friday in their America's Cup trials as rough seas damaged both and went on to the world sports yacht, swept two crewmen overboard and injured another.

Gretel, now behind 5-1, captured the race by 1 minute, 9 seconds after Dame Pattie lost three Genoa jibs and Gretel one in seas whipped by wind gusts that reached 40 miles an hour.

Gretel, now behind 5-1, captured the race by 1 minute, 9 seconds after Dame Pattie lost three Genoa jibs and Gretel one in seas whipped by wind gusts that reached 40 miles an hour.
