JFK Charges Soviets Guilty of Atom Blackmail

FROM OUR NEWS WIRE

WASHINGTON (AP)—President Kennedy accused Russia today of "atomic blackmail," but said the United States has a supply of nuclear weapons sufficient for its own and the free world's defense.

The White House statement, issued after an urgent conference among Kennedy, his cabinet advisers and congressional leaders, avoided for the moment any com-

Reuther Again at GM Table

AMC Pact Sewn Up, Ford, Chrysler Talks Left to Simmer

DETROIT (AP)—Top negotiators for the United Auto Workers and General Motors today relieved in detail the contract offer made by the company Aug. 22. After a four-hour session, UAW President Louis F. Ronne said this was the first time GM's proposal had been discussed in depth. Ronne called it a serious discussion.

DETROIT (AP)—With a profit-sharing plan finally buttoned up from top to bottom at American Motors Corp., United Auto Workers President Walter P. Reuther

A Look at Union Pact With AMC, Page 16

renewed pressure today on General Motors Corp. to provide new worker benefits.

Reuther headed for the GM bargaining table again after going there Wednesday for the first time since contract negotiations opened June 28.

The UAW president took with him a threat to strike GM at 10 a.m. Sept. 6 if no agreement is reached by then. The union's international executive board gave GM strike authority Tuesday night.

The UAW left bargaining with Ford Motor Co. and Chrysler Corp. summary, UAW negotiators at these two worked primarily on reshaping plant-level working agreements, pending a pattern-setting national economic package at GM.

Reuther and AMC President George Romney announced Wednesday agreement in principle had been reached on plans covering AMC's plants in Kenosha and Milwaukee, Wis.

AMC's profit-sharing plan was made contingent on workers giving up some privileges they now enjoy at AMC. Romney said reduction through changes in local plant practices, but declined to put a money estimate on it.

Neither he nor Reuther would go into details about how much of 44 minutes of daily rest time had been given by the union, or

LEADERS AT NUCLEAR CONFAB—Congressional leaders who attended a conference at the White House this morning called by President Kennedy to discuss U.S. reaction to the Soviet announcement that nuclear testing would be resumed pose in the

Brazilian Forces Ordered to Subdue Goulart Backers Fleeing to West

RIO DE JANEIRO, Aug. 31.—President Juscelino Kubitschek today ordered Brazilian forces to subdue Goulart supporters in the present international scene.

In effect he chose to focus the U.S. propaganda counterattack on what he and his advisers conceive to be the most vulnerable point in the Soviet position—that is, that Russia is deliberately using terror techniques to gain its ends.

There were indications that the administration would allow time for this lesson to sink in around the world before making any announcement of U.S. intentions.

Secretary of State Dean Rusk, on the White House after today's conference, remarked to newsmen:

"This business of the Soviet Union ought to sink in hard—ought to sink in hard everywhere."

Kennedy said he is confident that the United States has nuclear weapons in sufficient numbers and of such destructive power as to be "wholly adequate" for the defense not only of this country, but of its allies and the free world.

But he said there is "little or no military justification for such a large weapon." He said "it is dangerous to think that the Soviet Union will cause more damage than one 100-megaton weapon."

Hoffstad said he expected Kennedy to make an "important announcement on this matter soon."

Assistant Press Secretary Andrew Hatcher was asked whether Kennedy's statement about the strength of the U.S. nuclear arsenal implied that the United States has decided "at least for the time being" against resuming nuclear weapons testing.

"This is an important step in the proposed perimeter highway project," said Assistant City Manager Robert A. Stierer.

PLEASED AT DATE
"We are very pleased the highway department has scheduled the hearing this early in the overall program," he added.

"The so-called downtown loop highway is a key feature in planned redevelopment of the central business district."

Purpose of the hearing will be to discuss the economic impact of the project and its influence on the community.

John W. Hirlinger, manager of the Pontiac Area Chamber of Commerce, was "happy to see the highway department moving ahead with the project plans."

"We're a one-street town right now. There's too much heavy traffic on Saginaw Street," he said.

BRUNO, AIREN, Argentina
President Juan Peron today ordered Brazilian forces to subdue Goulart supporters in the present international scene.

RIO DE JANEIRO, Brazil (AP)—Brazil's interim government today ordered army, navy and air forces to subdue Goulart supporters in the present international scene.

The nation appeared at the edge of civil war.

Military sources in Rio de Janeiro said the 2nd Army was driving on the southern state, finally ordered to accept Goulart, where the governor and command—the leftist vice president, as president.

He explained that traffic in the downtown area is expected to double in the next 20 years. The loop would encircle about 130 acres of downtown Pontiac and make extensive use of existing streets.

The city has tentatively agreed to measure at least 2 1/2 sq. miles.

"This is an important step in the proposed perimeter highway project," said Assistant City Manager Robert A. Stierer.

"We're a one-street town right now. There's too much heavy traffic on Saginaw Street," he said.

"When this perimeter highway becomes a reality, it will make many things possible in downtown Pontiac that are not possible now."

"The hearing is an indication that everyone involved is interested in seeing this become a reality without delay."

Two agreements between the city and highway department on financing the project are still being drawn up.

"The perimeter road has been in concept for that of their participation to provide more capacity must also be enclosed with

East Soldiers Fleeing to West

Count Now Reaches 56 in 19 Days as Another Swims Canal

BERLIN (AP)—Fifty-six members of the East German armed forces have fled to the West since the Communists sealed the border in Berlin 19 days ago, West Berlin police reported today.

Most bailed while building barriers of barbed wire and concrete to stop other refugees.

The latest member of the Communist police to desert was Berlin's Telow Canal Wednesday. A live-report gun fire was directed at him, but the Red gunmen missed. They had killed two others trying to swim the canal.

Believe Urgent Reasons Moved Reds to End Ban

MOSCOW (AP)—The Soviet Union's surprise canceling of the ban on nuclear testing prompted Western predictions here today that a new explosion may be set off soon in this country.

One diplomat said the Russians must have urgent reasons for the change of policy while uncommitted nations meet in Belgrade, and only three weeks before the meeting of the United Nations Assembly.

One reason advanced was perhaps the Russians had certain weapons ready to go and wanted to test them promptly while the season for observations is right.

"We suspect that it is going to be a big and impressive bang," said one westerner.

The announcement promised to affect the October congress of the Russian Communist party, called to approve plans for a great program for building homes, factories and for producing more food.

An expensive nuclear program could not heavily into Russian capital and postpone the good times even more than the 20 years announced in the party program.

In wrapping the three-year moratorium on tests the Soviet Union issued a warning to the West and pleaded for understanding from the nonaligned nations.

Premier Khrushchev gave the test ban to the scientists to test new weapons ranging up to nuclear bombs with an explosive force of 100 million tons of TNT—5,000 times more powerful than the bombs dropped on Hiroshima in World War II.

BLANK, U.S.
The Soviet Union blamed the United States and its allies for their decision to resume nuclear testing.

"It is an open secret," said a 6,000-word government statement, "that the United States is standing at the threshold of carrying out underground nuclear explosions only waits for the first suitable pretext to start them."

France has exploded some bombs, the statement said, the Soviet Union has decided to test new bombs and to add to the world-enslaving nuclear arsenal it claims it already has.

The statement linked the government's decision to the Berlin crisis as well.

The Soviet government has been compelled to take this step, whose significance it fully appreciates.

More Stories, Page 33

clates, under the pressure of the international situation created by the imperialist countries," it said.

"The policy of the leading NATO powers—the United States, Britain, France and the Federal (West) German republic—and of this aggressive bloc as a whole, against the Soviet Union no longer remains unchanged."

DEATH KNELL FOR GENEVA
The statement appeared to be the death knell for the Geneva talks.

There was no indication that Taraspin planned to return to Moscow.

There was no immediate indication from the U.S. delegation how long the talks would be postponed, or whether they would ever be resumed.

U.S. Intends to Fight for 'Test Ban'

GENEVA (UPI)—Ambassador Arthur H. Dean, chief U.S. delegate to the nuclear conference, said today that the United States still wants a test ban despite the Soviet decision to resume testing.

Shortly after it was announced that the conference had been "postponed until further notice," Dean took off to return to Washington in report to President Kennedy and Secretary of State Dean Rusk.

TO ARRIVE 7:40 TODAY
Dean left at 4:05 p.m. aboard a Swiss airliner, scheduled to arrive at New York's Idlewild Airport at 7:40 p.m. (Pontiac time).

Before leaving, he told newsmen at the airport:

"As President Kennedy said last night, the United States continues to share the view of the people of the world as to the importance of an agreement to end nuclear weapons tests under effective safeguards."

He said he did not know when he would return to Geneva. In his absence, Charles G. Steele will head the American delegation.

Dean would not comment on the future of the talks. But it was believed another meeting may be arranged next week.

The United States delegation announced that the conference was postponed, a move in which British chief delegate David Trimble (now joined) before he left for London and consultation with his government.

But chief Soviet delegate Semyon Taraspin said he had not been consulted about the postponement and was unhappy about it.

WANTS TO MEET
"I still want to meet on Friday," Taraspin said. "But I will not show up at the meeting if the other delegates do not. I have no intention of making a scene—only the Western delegates do that."

U.S. sources confirmed that the postponement decision had been communicated to Taraspin, but that he had not been consulted beforehand.

There was no indication that Taraspin planned to return to Moscow.

There was no immediate indication from the U.S. delegation how long the talks would be postponed, or whether they would ever be resumed.

Ormsby-Gore said the "verdict of the world will no doubt be clear in this."

You Good Taking Snapshots?

That "click" you just heard, the entry. Entry blanks to be All entries will become the property of this newspaper and cannot be returned. The Pontiac Press will appear soon in The Pontiac Press. Send your entries to: Pontiac Press, 530 N. Saginaw St., Pontiac, Mich. 48106.

Amateur photographers are eligible to compete for prizes totaling \$675 in U.S. Savings Bonds by submitting a black and white print of their favorite picture.

Winning photos will be picked on a basis of eye appeal, composition and clarity. Any subject held in good taste will be considered by the judges.

First prize will be a \$20 savings bond; second prize a \$100 bond; third prize a \$75 bond. There also will be 10 honorable mentions, each worth a \$25 bond.

Gun Battle Ends Bandits' Flight

One Dead, Other Held After Escape Attempt; Abducted Motorist, 17

MESICK (U) — One youth was dead and another in custody today after a gun battle with police in broad daylight on the main street of this tiny Woodford County community.

The battle erupted when Sheriff Paul Lane sought to question the two in connection with the robbery-abduction of a Cadillac motorist last night near Clarksville.

Dead was Gary Cooker, 26, Dearborn Medical examination was ordered to determine whether he died of a bullet wound from Lane's gun or from injuries sustained in the crash of the sheriff's car two miles east of here.

Elded after his capture on the Hines farm three miles north of Mesick was Thomas L. Stevens, 31, King City.

The gas battle, which brought state police, sheriff's deputies and a county guard force to the Mesick area in a hunt for the two fugitives who fled after the battle.

An alert went out last night after 17-year-old Theodore E. Legrow of Cadillac was found walking barefoot in the brush, having been taken by the gunman. They entered a car when he stopped for a traffic light near Clarksville.

Reuther Bargaining With General Motors

(Continued From Page One)

just what changes had been made in benefits and rights of seniority workers to claim jobs of less experienced men.

AWAY THEY SAID that details must await reports to local Union members and their ratification of the changes.

Louis G. Seaton, a GM vice president and chief negotiator, said after Tuesday's bargaining with Reuther: "We were not exploring the problem they say they have... we were following sections of the national agreement where they think they ought to have changes."

Seaton and other Big Three bargainers have rejected any profit-sharing approach to new agreements with the UAW.

Asked if GM could be expected to improve on its package proposal of last week, Seaton replied only that GM still is flexible.

U.N. Congo Chief Demands Ousting in Murder Plot

ELISABETHTOWN, Katanga (UPI) — U.N. Congo Chief of Mission O'Brien today demanded suspension of Katanga Interior Minister Godfred Munguho on suspicion that he was behind an alleged plot to murder U.N. personnel.

The U.N. chief's demand was made by President Mobutu Sese Seko, after a Belgian sergeant in the Katanga garrison claimed he had been given a "special mission" to kill the U.N. deputy head here, Michel Timbimbe.

closed the formation of fanatical youth squads "to keep order." These semimilitary groups are composed of members of the "Free German Youth," the organization's paper reported.

REPORTS REACHED THE WEST in recent days of the youth group ripping down television antennas in the West, beating up critics of the regime and denouncing others to the police.

East German authorities also announced a campaign to prevent their people from seeing the West on television. All sections were also ordered for East Germans who ask friends to see TV from the West.

Those who receive the programs on their sets can easily be spotted by the direction in which their antennas are pointed. For one station near Munich, special antennas must be erected.

Today the East Germans raised their hammer and compass banner on top of the Brandenburg Gate, the symbol of divided Germany.

For years, West Germans have been wearing tiny reproductions of the gate on their lapels to demonstrate against the division of their country and to show their close links with Berlin. But the same links with Berlin. But the same links with Berlin.

Lesinski to Run for Congress

Hopes to Fill Vacancy to Be Created When Machrowicz Resigns

DETROIT (AP) — Lt. Gov. T. John Lesinski said today he will seek a seat in Congress.

Lesinski said he will run as a candidate to fill the vacancy to be created when six-term veteran Congressman Machrowicz (D-Mich.) resigns to accept an appointment to the federal bench in Detroit.

Lesinski made his announcement at a brief news conference before addressing the Counter-attack anti-Communist conference at the University of Detroit.

"The people in my district have asked me to run," Lesinski said. "They feel I have the qualifications."

Published reports earlier had said Lesinski would seek Machrowicz's seat.

Lesinski said last night he was conferring with labor and business leaders on his decision.

Lesinski, who already had discussed the matter with Gov. Swanson, said the governor "has no reason why I shouldn't run if I decided to do so."

Commenting on earlier reports he had been seeking a Wayne County judgeship, Lesinski said Swanson had told him an unsuccessful bid for the congressional seat "would in no way provide me from consideration for a judgeship."

Gov. Swanson put Arthur J. Road, Bloomfield Township, in the 11th congressional district, in the 11th congressional district, in the 11th congressional district.

Other Masonic affiliated organizations to use the temple include the Birmingham Blue Lodge, Royal Arch Chapter 320, and the Eastern Star Chapter 320.

Nils J. Skrubbs, 71, of 1466 Yosemite St., will be 3 p.m. tomorrow at the Bell Chapel of the William R. Hamilton Co. Burial will be in White Chapel Memorial Cemetery, Troy.

Mr. Skrubbs died yesterday at his home following a long illness.

Set Hearing Sept. 14 for City's Loop Road

(Continued From Page One)

The highway department has recommended a minimum right-of-way of 100 feet. Traffic lanes would be 12 feet wide. The road would consist of five lanes and 15-foot shoulders on either side.

Under terms of a proposed agreement, the city would be responsible for survey, design and purchase of right-of-way for the highway of the loop between Huron and Saginaw Streets.

All traffic movement would be counter-clockwise with major eastbound movements from one side of the loop to the other on Orchard Lake Avenue and Cottage Street.

Full details on the proposed layout are to be presented at the Sept. 14 hearing.

The Day in Birmingham

Masons Planning Drive for New Temple Fund

BIRMINGHAM — Plans for a \$250,000 three-level Masonic Temple were announced today by officers of Masonic Lodge 44.

Funds to finance the construction of the proposed Masonic headquarters will be solicited during a three-month campaign of the 1,500-area Masons.

The fund drive will begin Sept. 23, according to campaign chairman James F. Fodder who added that nearly 70 per cent of the goal will have to be pledged before construction begins in the spring.

The new temple, tentatively scheduled for completion late next year, will be built on the lodge's parking lot at the rear of its present quarters at Woodward Avenue and Forest Street.

The old lodge building, in use nearly 60 years, and an adjacent service station will be razed and the properties landscaped on the new temple is completed.

The lobby, designed and furnished by L. L. A. French, Modern, will contain a bronze plaque inscribed with the names of the building fund contributors.

When not being used by Masonic affiliated organizations the temple will be available for rental to community service groups.

W. Lyle Bonar of 315 N. Adams Road, Bloomfield Township, is the 11th ward master of the 11th-ward Masonic Lodge 44.

Other Masonic affiliated organizations to use the temple include the Birmingham Blue Lodge, Royal Arch Chapter 320, and the Eastern Star Chapter 320.

Nils J. Skrubbs, 71, of 1466 Yosemite St., will be 3 p.m. tomorrow at the Bell Chapel of the William R. Hamilton Co. Burial will be in White Chapel Memorial Cemetery, Troy.

19th Discoverer Orbiting Earth

Encircles Globe Every 91.4 Minutes; Hope to Recover Capsule

VANDENBERG AIR FORCE BASE, Calif. (UPI) — The 19th Discoverer satellite whirled around the earth today in a polar orbit, the 19th of its family to go into orbit successfully.

The launching took place Wednesday at 4 p.m. EDT, and the Air Force announced two hours later that the satellite had entered orbit. Alaska and Hawaii tracking stations confirmed the orbit.

The satellite is circling the globe once every 91.4 minutes, completing 140 miles at its closest point and 346 miles at its most distant point from Earth.

"It's an average, good orbit," the Air Force said.

Officers said the recovery of a 100-pound gold-plated capsule filled with instruments, riding aboard the satellite, could be tried in from one to four days, depending upon the weather in the recovery area off Hawaii. The contents of the capsule were not revealed.

Seven capsules have been recovered from Discoverers. The successful orbit broke a losing string for the Air Force. The last Discoverer failed to orbit and the one before that blew up on launching.

Death Notices

MRS. FRED NYGAARD — Mrs. Fred (Grace E.) Nygaard, 79, of 267 N. Perry St., died yesterday after a long illness. She was a life-long resident of Oakland County.

Service will be held at 11 a. m. Friday at the Voorhees-Siple Chapel.

MRS. JAMES BRONSON CLARKSON — Service for former Clarkson resident Mrs. James (Phyllis A.) Bronson, 36, Fort Smith, Ark., will be at 11 a. m. tomorrow at the Central Home, Drayton Place. Burial will be in Lakeview Cemetery, Independence Township.

Mrs. Bronson died unexpectedly Friday in Fort Smith.

Surviving besides her father, David Cutcher, Pontiac, are two sons, James and Richard; three daughters, Edna, Sharon and Harriette, all at home; five brothers, Larry and Bruce, both of Pontiac; Palmer, Galesburg, Ill.; John, Auburn Heights; and David, Concord; and two sisters, Lillian, Pontiac, and Mrs. Charles Cuffell, Turkey.

BURTON HARRIS ROCHESTER — Burton Harris, 60, of 333 Northwood St., died last night at St. Joseph Mercy Hospital, Pontiac, after a six-week illness. His body is at the Pichey Funeral Home.

Mr. Harris, a life-long resident of Rochester, was a member of the Hamer Wing American Legion Post and the Rochester Elks Club.

Surviving besides his wife Mary are two sons, Dale and Dean; a daughter, Deborah, all at home; and two sisters, Mrs. Beryle Boushous of Rochester and Mrs. Arlene Leah of Royal Oak.

3 Generations of Same Family Start 1st Grade

KING, N.C. (AP) — Three generations of the same Stokes County family will enroll Friday in the first grade here.

Nathan G. Covington, 74, a tobacco farmer, and his second wife who is 29, will enroll their 8-year-old son, Ronnie.

Merri-Dell Hall, 6, Covington's grandchild, will be in the class. She is the daughter of Mrs. Dalbert Hall, Covington's daughter by his first wife, now deceased.

The third member, Robbie Cromer, 6, is a great-grandchild of Covington. Her mother, Mrs. Doyle Cromer, is the daughter of Alma, Covington's daughter by his first wife, Covington and his second wife also have two other boys, Philip, 3, and Douglas, 2.

Citizenship of Denmark was extended Greenland residents in 1959.

Sees Trouble in Red China

Chiang Hears of Break in Security; Expects to Return in 5 Years

TAIPEI, Formosa (UPI) — President Chiang Kai-shek said today his intelligence agencies reported a breakdown of internal security in Communist China.

He predicted that his Nationalist government would be back on the mainland within the next five years.

Chiang's forces retreated from the mainland to Formosa in 1949. Applying to the questions of more than 10 U.S. editors and publishers and their wives, Chiang said he foresees an uprising on the mainland in the near future.

He told the Americans, who are on a tour of the Far East sponsored by the National Editorial

Association, that the offshore islands of Quemoy and Matsu are as important to his government as Berlin is to West Germany.

"Like Berlin, the offshore islands are obstacles to Communist separation and aggression," Chiang said.

The American press group, which flew to Quemoy today in four separate planes, left for Hong Kong immediately after the interview with the generalissimo.

Want to Try Pay TV? — Just Send Us Money!

HOLLYWOOD (UPI) — Producers of a new TV series, the "Mystery Show," today suggested an easy way for people to see it if they would pay television. The instructions:

"First, watch the ending, not the beginning. ... Next, after each show, simply mail the producers some money so you can get the rest of pay TV. Then, we'll write you back and tell you how to get money from pay TV."

Hoover Alarmed at Increasing Attack on Police by Lawless Mobs

By The Associated Press
An alarming increase in mob attacks on police is shown in a survey of cities across the nation. FBI Director J. Edgar Hoover took note of the situation at the recent session of the FBI National Academy in Washington.

He told 80 hand-picked police officers and officials from the United States and Canada there has been "a mounting wave of civilian attacks on police in the performance of their duties."

Condition, he added, amounted to "continuing training of the mob made available by the FBI so that police everywhere will be better equipped to cope with the

rampaging forces of lawless mobs." In New York City alone 1,171 policemen have been attacked in the first six months of this year while trying to make arrests. The figures alarm New York police officials, particularly so because of an increasing public participation in the attacks, which reflect a continuation of an upward trend in the last 10 years.

EDITORIALS WRITTEN

The frequency of attacks on police inspired editorials in New York newspapers calling for judicial sternness.

Some jurists, notably Samuel S. Leibowitz in Brooklyn and Abraham D. Levy in the Bronx, served notice that convicted cop-beaters will get maximum sentences.

Records in the office of the police chief in Washington show 168 attacks on policemen making arrests in the fiscal year ended June 30. There were 216 such attacks the previous year and 227 the year before that.

The Philadelphia police department reported 1,805 policemen were hurt intentionally in the performance of their duties from January to October 1960. Fifty-seven of them later were pronounced unfit for further duty.

The Philadelphia department lacked statistics for this year, but

a spokesman said "We can be pretty certain that 1961 will be worse than last year."

ARRESTED 392

In Baltimore last year, 419 persons were charged with attacking police, 180 of whom required treatment for injuries. Figures are not available for this year. There were 392 arrests for this offense in 1959. Last month in Miami, two patrolmen were beaten and pistol-whipped as they tried to arrest two men for gambling. Another eight men jumped the police, took their guns and cut one patrolman's head with a bottle before his companion got to his radio car and summoned reinforcements.

Last January in the Florida re-

sort, a deputy sheriff was punched in the face by a woman who walked into a courtroom office, attacked a secretary and threw that deputy when he later entered.

Two months later, six Cuban exiles were fined after attacking two Miami policemen who were attempting to quiet a demonstration by opposing exile factions. In April, a bar owner was convicted of assaulting a suburban Miami police chief and his sergeant. The police had wrested a gun from the man, who then jumped them. He was shot in the leg and arrested.

Last summer in Charlotte, N. C., patrolman Johnny Reed Arnes-

was shot to death while investigating a knife fight. His companion was roughed up by a crowd but otherwise unharmed.

Los Angeles officials reported 160 aggravated assaults on police and 180 cases of simple assault and battery during the first seven months of this year.

The worst such case in recent years in the West Coast metropolis was the Griffith Park Memorial Day riot in which several officers were hurt while trying to arrest two Negro youths who had caused a disturbance. Los Angeles police have lost an average of one member a year by gunshot since 1946.

Detroit reported 170 cases in

which police have been attacked on duty during the first six months of this year. There were 157 similar incidents in the same period last year.

New London, Conn., authorities said there have been 14 incidents this summer of attacks on policemen. Most occurred at Ocean Beach Park, an amusement area, and most involved teenagers who had been drinking.

Cleveland's police chief said that attacks against policemen have been customary and there was no noticeable increase this year. A group of residents in a low-cost housing project stoned police who attempted to break up a meeting protesting heavy traf-

fic. A child had been killed in traffic.

One Cleveland patrolman was shot in the hip and slashed with a steak knife in two separate incidents. Another patrolman was gashed with a butcher's knife when he attempted to interfere in a domestic argument.

On the other hand, two large cities reported little such trouble. They were Chicago and Atlanta, Ga.

In Chicago, police reported few incidents. Atlanta police said such incidents are rare and no policeman has been hurt seriously there for several years.

New Population Trend Will Affect Country

It is interesting to note that younger adults in the over-all United States population is entering a new growth phase.

The age structure of the American population has reached a major turning point as far as the growth trend in number and proportion of younger adults in the total is concerned.

This change is bound to have a profound influence on this country's economy and its progress in the years ahead. The change has already become apparent in an upturn in the number of those in the 20 to 29-year-old age bracket, and in a few years will start to spread to those in their thirties.

It is in marked contrast with the trend of the last two decades when the Nation's population boom was dominated by unusually high growth rates of children and those in their middle and older years.

POPULATION STORY

The following table gives the numerical change in broad age groups of the population by periods since the turn of the century, with projections for the future (figures in thousands):

Period	Under 20	20-29	30-39	40-49	50-59	60-69	70-79	80-89	90-99
1900-10	5,093	1,697	3,699	2,098	1,098	1,098	1,098	1,098	1,098
1910-20	4,698	1,198	2,698	2,198	1,098	1,098	1,098	1,098	1,098
1920-30	4,298	1,098	2,598	2,098	1,098	1,098	1,098	1,098	1,098
1930-40	3,198	1,998	1,898	1,798	1,698	1,598	1,498	1,398	1,298
1940-50	6,198	1,198	2,098	2,198	2,298	2,398	2,498	2,598	2,698
1950-60 (p)	5,798	2,798	1,998	2,398	2,498	2,598	2,698	2,798	2,898
1960-70 (p)	5,398	3,298	2,498	2,898	2,998	3,098	3,198	3,298	3,398
1970-75 (p)	5,198	3,598	2,698	3,098	3,198	3,298	3,398	3,498	3,598

But mere growth in numbers, of course, is not itself a guarantee of our economic future. Jobs and opportunity will have to be provided for the rising number of younger adults in the working population as well as for its more mature members.

This adds new emphasis to the employment trends and problems which have become manifest in recent years.

The importance of the new population trend which is pointed out in the bulletin of the Institute of Life Insurance is underscored by the fact that younger adults in their twenties and thirties are in many ways the economic backbone of the Nation.

Mikoyan's Trip to Japan Was Most Unsuccessful

Dispatched to Japan for the purpose of building Russian prestige and throwing a carload of assorted bricks at the United States, Comrade ANASTAS MIKOYAN has been a rather dismal flop.

In one phase of our lingo which the Japanese are rapidly acquiring, the Red trooper's record stands as: "No hits, no runs, and a flock of errors."

He really missed the boat.

Almost at the outset, MIKOYAN suggested that the Japanese disclaim any further alliances with the dreadful United States; and furthermore, he hinted that they should order Uncle Sam's military men off the island. But the Japs had other ideas and told him so.

The slimy Soviet operator opened his campaign with flattery and cajoling. He was a Fuller Brush man on display. He suggested a trade agreement between the two countries.

The Japs yawned. Then he attacked their agreement and treaty with us. The Japs have done a bit of this just on their own. But in the current instance, they shrugged a disinterested shoulder and looked out the window.

Then he grew tough.

He referred to the fate of Hiroshima

and delicately pointed out that his noble countrymen were in a lim-dandy position to do a lot more damage than that, if the Japs didn't play ball with the Russians.

This whining-dingler also fell on cold and unsympathetic ears.

Quite obviously, the little Red was trying to stir up the people of the islands by leaping over the heads of their leaders and appealing to them directly. This lost him standing with the Government and the people seem apathetic and indifferent.

The Japanese nation is too well-acquainted with Russia's historical hostility to Japan and the wrongs she has visited upon the people in the Land of the Rising Sun to be impressed. Russia lost caste and prestige through this latest diplomatic maneuvering. International bullies remain international bullies.

The Man About Town

Finest in Country

Proposed Park Generated by Davisburg Celebration

Town knocker: Always the person who never did anything for it.

A roadside park with beautiful shade-16-foot waterfalls, sunken garden, flowing well and every other feature to make it the finest among Oakland County's many such recreation centers promises to come as the result of Davisburg's recent celebration of the 125th anniversary of its founding.

The project, born in connection with the event, is to be sponsored by the Davisburg Junior Chamber of Commerce, which did such a magnificent job in putting over the celebration, a little more organization already with a long list of accomplishments.

It is the site of the old mill in that beautiful community, around which its main street does a graceful bend. The high railway embankment completes the other side of the sunken garden and town.

The waterfalls is the highest in Oakland County, with few higher in Southern Michigan. It is where the waters of the spring-fed Shiawassee River make the plunge from the local mill pond, which for a century turned the wheels of the grist mill, abandoned and torn down.

Directly across the street from one of the three branches of the Oakland County Road Commission, they are being imported to purchase the property, which can be secured for a nominal sum, and to do the grading and other work in connection.

It is planned to name the park in honor of the present owner of the property, who no longer has any use for it. This column is predicting that the project meets with success, because what those Davisburg young plungers go after, they get.

Now much in the news, the fact that Mickey Mantle says he did not endorse a product whose radio and TV advertising says he did, brings to mind a couple of other like incidents. When

Hank Greenberg was at the height of his career, a corn flakes product was hawking it up that he ate nothing else for breakfast. At the time we often had breakfast with him at Lakeland, Fla., and he always took old fashioned oatmeal. A little later

Wallace Berry drove up to the studio where we were a guest in Hollywood, in a new car of another make than the one which had been proclaiming he would have nothing else but. Ho hum.

That applicants can be grown successfully in the Pontiac area is being proven by Mr. and Mrs. Russell Archmody of Commerce, who have a tree with several dozen of the ripened fruit.

That title of a story in a popular magazine about the Detroit team: "Baseball Tale with Tiger Twist," is quite unique, but in the accompanying picture.

Stormin' Norman Cash, the 1961 Cincinnati man of baseball, was omitted, a real goof.

A Day Dedicated to Turning Wheels

David Lawrence Finds Out:

Moscow Touch Creeps Into Labor

WASHINGTON—In England this writer had an opportunity in recent days to discuss with top men in the field of labor-management relations the problem of avoiding strikes.

Great Britain has made considerable progress in this area by what might be called moral suasion instead of the exchequer; Selwyn Lloyd, by what might be called moral suasion instead of the exchequer; Selwyn Lloyd, by what might be called moral suasion instead of the exchequer.

There is no question but that Moscow has recognized clearly one of the weaknesses of the free world—its labor problems—has gradually infiltrated in important unions, making disputes more and more difficult to settle.

This is all the more reason why statesmanship is so necessary nowadays to bring about the settlement of labor-management problems.

Not all is rosy in England, to be sure. At the moment, for instance, labor is protesting vociferously against the plans of the chancellor of the exchequer, Selwyn Lloyd, to bring about what is called a wage "pause."

This has thus far affected only the civil servants, whose wage increases have been halted because of the exchequer; Selwyn Lloyd, by what might be called moral suasion instead of the exchequer.

Lloyd also has proposed a national economic planning agency which, though not a part of the government, would be an independent body consisting of national representatives of the unions and the employers and probably himself.

It would provide information and statistical data about the national economy to help it "to operate."

The Trades Union Congress, the national organization of British labor unions—has frowned on the plan because of a fear it will brush aside the existing informal but effective arbitration machinery.

In Great Britain, the settling of labor disputes involves a minimum of governmental intervention. While the procedures developed separately in each industry over the years differ widely, they share one approach—to bring the national interest to bear on local disputes as a way of reaching compromises.

Approximately 2,000 disputes a year are settled at one stage or another by the procedures agreed upon by both sides. This approach began back in the 1850s and has been developing ever since.

But the thing to remember about British industrial relations is that agreements between management and labor on a national level do not have the legal status of a contract as in the United States. They are more or less in the form of "gentlemen's agreements."

This is a weakness in the system, because it has led to a large number of wildcat strikes. The influence of Communists inside labor unions in Europe is being felt more and more. Top officials of the labor unions deny that the Communists wield any such influence.

Indeed, they point proudly to the fact that a relatively small number of workers are identified with the Communist party. RESPONSIBLE!

But this is a naive approach. The Communists in Moscow have been operating through only a handful of persons in many a national organization. These agents are responsible for stirring up all kinds of antagonisms and for agitating extreme positions.

Communist influence in labor unions is small in the Scandinavian countries, but it is growing in France and in Italy. It has played a part also in British trade union affairs, though the British are not willing to admit that it has caused any considerable damage.

Recently, however, one of the largest unions, the electrical trades union, with 240,000 members, was suspended from the national organization—the Trades Union Congress—because many of its officers are Communists or are sympathetic with Communist aims.

These officials could not possibly have been elected if the members had not been indifferent and failed to attend union meetings and vote.

Voice of the People:

Actual Occupant of Berlin Writes Letter to The Press

(Editor's Note: The following letter was received from Berlin, along with the pictures above and below.)

A short while ago your publisher was in Berlin and showed interest for us here, so I feel encouraged to write.

Berlin is now a besieged city. For years about 400 fellow countrymen fled every day from the Soviet Zone to Berlin. Since the beginning of July the number increased to 8,000 in one single day and during the first week of August it was 14,000, more than half of which were young people.

Now Communist troops occupy East Berlin and barbed wire fences and trenches are drawn. The Brandenburg Gate, the symbol of German unity, is blocked with concrete posts and barbed wire. Armored cars and soldiers stand in front. I have hardly ever seen a more terrible contrast.

The rulers of the Soviet Zone have proved that their dictatorship cannot stand the contact with a world of free elections. They have morally declared their bankruptcy. The shutting-off of East Berlin is a new flagrant violation of the treaties. This violation shows once again how little the Soviet Union stands for her treaties and how little we can trust the promises.

The brutal seizure is furthermore a serious violation of the Charta of Human Rights, which was solemnly signed by the Soviet Union and all the other member nations.

We still strongly believe in the victory of the just cause. Such an obvious injustice must not continue if there are still human beings in this world who will stand up for freedom. What the German demand is that they are given their natural right to decide about their fate themselves. A free election under the care of the United Nations could with one stroke remove the dangerous division of Germany which now seriously threatens the peace of the world.

I know that you take an interest in the fate of our city and I have written also as a sign of grateful remembrance for your understanding. I am enclosing two photographs which speak for themselves.

Berlin, Germany

Smiles

Friendship gets touchy when you agree with people who say they look bad.

Deliver your words carefully and you won't have to take them back.

We're still for the old-fashioned wait. You don't have to wonder how you're going to get untangled.

Don't carry out to the family picnic and the whole family carries them back home.

We can depend on one peach crop being a big success. On the beaches.

The Almanac

By United Press International Today is Thursday, Aug. 31, the 243rd day of the year with 122 to follow in 1951.

On this day in history: In 1866, the first major earthquake recorded in the United States killed Charleston, S. C., and caused 41 deaths.

In 1935, President Franklin Roosevelt signed the Neutrality Act, prohibiting American export of arms, ammunition or implements of war to any belligerent state or any neutral port.

In 1954, 68 persons were killed when Hurricane Carol lashed New England and coastal New York and New Jersey.

Case Records of a Psychologist:

Employ 'Horn Tooting' Strategy

By DR. GEORGE W. CRANE

CASE J-482: Howard H., aged 37, is a handsome bachelor.

He registered with our Scientific Marriage Foundation 6 months ago and was soon in

troduced by mail to a couple of very attractive girls between 23 and 33.

"Dr. Crane," one of them later wrote her opinion of Howard, "he is a talented man and good looking."

"But he is as naive as a kindergarten child in some ways. He is a real live, for example, he let me know that he was writing to another girl."

"This is a common reaction of men. It is because they want to whet a girl's admiration by such indecorous boasting of their popularity with other women."

"I work in an insurance office and the salesmen are constantly trying to brag about how many women are chasing them. Why?"

PEACOCK MALPES

Why does the peacock strut its tail in front of the peahen? Apparently to attract her attention to its fine plumage and thus generate envy, plus a desire to win its favor.

This same tendency underlies a lot of male psychology. Men thus try to get themselves on the back by telling how many girls they have kissed.

They hope to promote jealousy in their present companion by mentioning other attractive women.

The male thus thinks such bragging will raise his appeal to the present girl friend by stimulating her jealousy.

Instead, it often rebuffs her as such a crude, childish display of sex egotism that she loses her original interest in the man.

HORN TOOTERS

Instead of tooting his own horn in this childish manner, a smart man toots the horn of his female companion by paying her compliments.

But most men are not deft in romance. They are awkward in use of language and very dumb as regards practical psychology.

"I want to feel important!" is the brand that is tediously tattooed across their chests.

When they first meet a girl friend, she may be shy and fail to start a eulogy of the man. So he feels he simply MUST let her know how important he is. In his kindergarten grasp of social amenities, he blurtly starts tooting his own horn.

Men, get up to psychology! If you want a girl to think you are tops and a super duper escort, TOOT HER HORN, not your own!

This means you should praise her in big ways. Ask for her advice or opinions, for then she feels so important (and thus happy) that she will want another date.

MARRIAGE FORMULA

A marriage is the end result of a pair of psychological "musicians" each of whom tooted the other's horn until they were drawn together.

If you toot your own horn, as Howard does, you drive the girl away. She thinks you are a boob and a crude egotist.

But toot her horn and she will

The Country Parson

"If Edison had reacted to failure like some of us, we'd still be without electric lights."

Dream Highway to Go Through City

Flint Freeway Under Magnifying Glass

Editor's Note: It takes a lot of planning, and cooperation by various units of government, to build a freeway that provides maximum service. Homer Dowdy, government affairs editor of the Flint metropolitan area, tells the story in this three-part installment of a five-part series on Michigan transportation problems.

By HOMER DOWDY
Flint Journal Staff Writer
Written for The AP

On the plan tables of the Michigan Highway Department is a freeway that some day will cut through the heart of Flint, touch directly on its central business district and three major auto plants and feed into other freeways bypassing the city.

Thought is being given to more than just moving cars and trucks en masse safely at high speeds on this highway.

Getting serious attention are the uses of property that will be affected by the new route and the expanded role the freeway will help give the downtown section in the life of the Flint metropolitan area.

Within such a framework, the projected new freeway is being studied from all angles. Preliminary plans call for a complex system of nearly continuous exits from the route into the downtown area.

Other cities have fast-moving freeways either in operation or being built through their center sections. But according to Highway Department officials, no city in Michigan has had its traffic needs scrutinized like Flint has had in this interstate-network project.

ONE JUST HAPPENED

A north-south freeway now being built in Grand Rapids just happened," said Robert F. Van Hoef, chief of the planning division of the Highway Department. "We are now guessing at what the re-

sults of its use will mean to the Grand Rapids traffic picture."

The planning going on for the Flint freeway reflects a new thinking in depth by the department and an unprecedented attempt at dovetailing department designs with wishes of the local community.

"We in the department want to make our contribution to making Flint the kind of city its people want to be," he said.

Its involvement in reshaping the traffic patterns in Flint—and by it refashioning many aspects of the city—and its lesser role in other cities have caused the department to ask the question, "How much responsibility should the Highway Department take in getting traffic into a city and out and distributing it while it is there?"

Without waiting for an answer, the department under Com. John C. Mackie has become more involved with local communities than under any of his predecessors.

Seek 'Officials' Telling Italians to Leave Bonn

FRANKFURT, Germany (AP)—Police in the industrial Ruhr are looking for phony officials who advised Italian workers to leave West Germany because of tension over Berlin.

The State Labor Office in Düsseldorf announced it has filed a complaint in 1951 against men who claimed to be representatives of the Rome government.

The office said there was some similarity to appeals broadcast recently by the Communist Czechoslovak radio.

"We have heard a lot recently about local communities wanting to be the exclusive designer of the highways in their area," Van Hoef said. "And, too, there have been those who insist that urban highway planning has been and should continue to be the sole responsibility of the state."

Van Hoef believes the two levels of government should work together and believe the department has taken giant strides in this direction.

Mackie says his department will construct nothing of significance in any community unless and until an urban highway plan has been adopted by the city legislative body and that group concurs with the state on specific projects.

PLAN REJECTED

Recently in Bay City, the department came up with a plan it thought would improve state trunk-line traffic in the city. The plan was rejected by the city commission.

Department representatives said they would come back with a new plan, but it would take at least a year to develop. Meanwhile, money earmarked for Bay City improvements was to be released for other communities.

The value of a traffic plan depends on the quality of over-all community planning. Van Hoef contends. Once a city has determined its goals, the highway planner then can step in and integrate its traffic picture with a regional or statewide system of roads.

Besides the mutually required between state and local community before a project is programmed, approval of the U.S. Bureau of Roads is necessary for projects tied in with the interstate system.

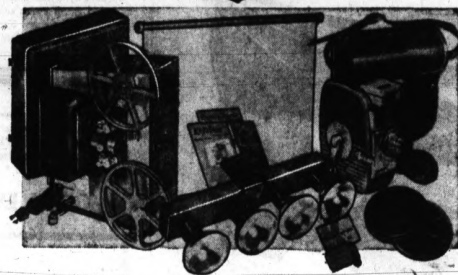

Flint's dream freeway is an in-persons up and down the line must prospects nevertheless appear start, across—maybe hundreds-of. It looks like a long haul, but! Next — Parking.

Warns of Force Unless Africa Nation Freed

ADDIS ABABA, Ethiopia (AP)—Elected South West African nationalist leader Sam Nujoma said Wednesday force will be used if the United Nations does not take

steps to end South Africa's mandate over South West Africa.

Nujoma is president of the South West African People's Organization (SWAPO). He stopped over here en route to Cairo.

"We stand for complete national independence under an African

government not later than 1963," Nujoma declared.

Of the total U.S. national income, labor's share rose from 29 per cent in 1929 to more than 60 per cent in 1960, and the ratio is

JUST A LITTLE DAHL—Actress Arlene Dahl proudly shows off her new baby daughter, Carole Christian Holmes, at the baby's first picture-taking session, but she gets only a yawn for her efforts. Carole was born by Caesarian section Aug. 14 in Santa Monica, Calif. Her father is Christian Holmes III, wealthy real estate developer and heir to a yeast fortune.

African Diplomats Hit Racial Incidents

UNITED NATIONS, N.Y. (UPI)—African delegates to the United Nations pledged an all-out campaign today to obtain "complete satisfaction" in racial incidents involving colored diplomats.

Members of the 29-nation African group planned consultations with the Asian delegations on alleged "recurrent" mistreatment of black diplomats.

There were indications that the Afro-Asians may raise the issue in the General Assembly opening Sept. 19.

This would provide a propaganda opportunity for those diplomats—notably from the Communist bloc—who have insisted that the United Nations transfer its headquarters out of the United States because of abuses against foreign delegates.

A lithograph showing the first-floor seating plan and the location of doors and stairways at Ford's Theater in Washington was uncovered early this year in the Harvard College Library Theater Collection.

Apology to Rusk for Slapping of 'Soapy' Williams

WASHINGTON (UPI)—Britain has apologized for the "disgraceful conduct" of a white settler who slapped Assistant Secretary of State G. Mennen Williams in Northern Rhodesia.

British Ambassador Sir Harold Caccia sent a message Wednesday to Secretary of State Dean Rusk, expressing regret for the Monday night incident.

He acted on orders of the British and the government of the Federation of Rhodesia and Nyasaland.

Witnesses at the Lusaka Airport, Northern Rhodesia, said a white man grabbed Williams' lapels and struck him in the face just before the U.S. official boarded a plane for Leopoldville. The assailant was held for police.

Monsoons Flood Luzon

MANILA (UPI)—Raging floods caused by three days of monsoon rains have killed at least one person on Luzon Island and caused at least \$5 million damage to crops and property, it was reported today.

PIANCEE WELCOMED—McCormick Blair, U.S. ambassador to Denmark, has a welcome kiss for his fiancée, Miss Catherine Gerlach, on her arrival at Copenhagen Airport. Miss Gerlach, 28, is a former fashion model. She is the daughter of Chicago attorney Norman Gerlach. The couple plans to wed Sept. 9. Ceremony will be held in chapel of 17th century Frederiksborg Castle at Hillerød, 30 miles from Copenhagen. President Kennedy's mother will be among the guests.

Library Usage

Increased in '61

July Book Circulation Reached 19,023, States Pontiac City Librarian

Total library circulation in Pontiac public libraries continues to increase over 1960 figures for the same period, according to Phyllis Pope, city librarian.

In July the total book circulation was 19,023. During July 1960 the circulation reached only 18,540 books, Miss Pope said.

For the months May-July this year, circulation hit 58,612. During the same three-month period last year the circulation was 55,726. In 1959 it was 55,769 for that period.

Circulation this year was 22,624 in May and 16,965 in June. The June figure was slightly lower than the June of last year, but May circulation was higher.

tion showed an increase of nearly 2,500 over 1960.

Of the city's three libraries, the new East Side branch is showing the greatest gains percentage-wise. It appears to be exceeding any previous circulation at that branch by nearly 100 per cent, Miss Pope said.

Newspapers Outstrip Other Media in Ads

NEW YORK (UPI)—Daily newspapers had more advertising revenue last year than television, radio, magazines and outdoor advertising, according to the American Newspaper Publishers Association.

The figure for newspaper revenue was \$3.7 billion. Revenue of the other four media totaled \$3.4 billion. The source of the figures is a compilation for Printers' Ink by the McCann-Erickson Advertising Agency.

Gala Parade to Launch 112th State Fair Tonight

The 112th annual Michigan State Fair opens tonight following a spectacular 3-mile, two-and-a-half-hour parade through downtown Detroit.

More than 125,000 persons are expected to view the 8 p. m. parade, the biggest in the fair's history, according to Walter Goodman, general manager of the 10-day event.

The parade, led by Gov. John B. Swainson, Detroit Mayor Louis C. Mirani, Lt. Gov. John T. Lusk and Mrs. Michigan State Fair, will move north on Woodward from Jefferson and ahead at Vermont.

Gov. Swainson will officially open the fair at 9:30 p. m. when he cuts a ribbon at the main entrance to the Fair Grounds, Woodward Avenue, between Seven and Eight Mile roads.

Music and entertainment will be featured daily at the music shell, including band concerts, drill exhibitions, shows, and the State Fair Beauty Queen Contest.

All will be free of charge. One of the top events will be the 10th NORAD Cavalcade of Music, featuring the North American Air Defense Command Band from Colorado Springs, Colo. Maj. Mark Azolina is director.

The show will take the stage twice daily except on Governor's Day, Sept. 6, when only an afternoon show will be presented.

In addition to the NORAD Band, concerts and shows are scheduled daily at the Music Shell by bands, choruses and dance groups from various high schools in the state and from other organizations. Thirty-six of these concerts are slated.

The beauty queen contest judging at 8:30 p. m. Sept. 5 and 6 will be a Music Shell highlight. Gov. Swainson will crown the queen.

Other Music Shell features during the State Fair's 10-day run: Friday — Twirling exhibitions by state champion drum majors and majorettes; girl scouts precision drill team; Detroit Area Council Boy Scout show, "Indian Lore"; dress review by models of Michigan Association of America and 4-H clubs.

Saturday — Demonstrations by veterans' drum-and-bugle corps, color guards and rifle teams.

Sunday — Sunrise service presented by the Detroit Council of Churches.

Monday — Twirling exhibitions and Lawrence Tech Glee Club.

Tuesday — Fashion review.

Wednesday, Sept. 6 — Live WJR broadcast of "Guest House," featuring Bud Guest (7 p.m.).

Thursday, Sept. 7 — Drill team from Grosse Ile naval base; shows by relatives.

Saturday, Sept. 9 — Barbershop Quartet Parade of Harmony; twirling exhibitions; square and round dancing.

Sunday, Sept. 10 — International Day Festival of Song and Dance; Square and round dancing.

Under the department's commercial leasing program, the site will be assigned to the successful bidder who will purchase the land and construct the building, according to established specifications and rent it to the Post Office Department for 10 years with four 5-year renewal options.

The department's capital investment will be limited to postal equipment, according to Postmaster General J. Edward Day. The building will remain under private ownership and will be subject to local real estate taxes.

Day said bids to build and lease the new post office building should be submitted to Paul C. Bridgman, regional real estate officer, Room 814, General Post Office Building, 1401 W. Fort St., Detroit 12.

The real estate officer will supply bidding forms, building specifications, lease provisions and all other information, according to the postmaster general.

Oct. 30 is the deadline for competitive bids.

Parade Will Start at Miller and M15

CLARKSTON — The annual Labor Day parade sponsored by the Clarkston Rotary Club will start at 10 a.m. Monday at the intersection of Miller Road and M15.

It had been reported yesterday that the parade would form at U.S. 10 and M15.

Parade participants are requested to register at the Miller Road corner a half hour before the parade begins, said Robert Jones, general chairman.

BLESSING NOVIATTE—Most Rev. John F. Dearden, archbishop of Detroit, consecrated the newly completed novitiate building yesterday on the grounds of the Dominican Academy in Oxford Township. Catholic clergy and religious from the archdiocese were guests at the dedication. The Dominican Sisters will hold an open house at the new \$400,000 novitiate building from 2 to 4 p.m. Sept. 24.

Pair Weds in Kingsford; Plans to Live in Detroit

WEST BLOOMFIELD TOWNSHIP—Patricia Anne Nelson and her sister, Bridesmaid was Dein Forrest Nolf were united in marriage recently at the Church of the American Martyrs in Kingsford. Rev. John G. Hughes performed the morning rite.

The bride is the daughter of Mr. and Mrs. Donald E. Nelson of Iron Mountain. Parents of the bridegroom are Mr. and Mrs. Dale Nolf of 2325 LaFay Drive.

Styled with a bateau neckline and short sleeves, the bridal gown had a bodice of Alencon lace and waist-length skirt of tissue organza.

A sequin and seed pearl encrusted crown of Alencon lace held an elbow-length veil. The bride carried a wedding nosegay topped with a white orchid, stephanotis and ivy.

Mrs. David Scollati of Manistowic, Wis., was matron of honor. Mrs. David Mellon of Kingsford. Nieces of the bride, Peggy M. Brown of Milwaukee, Wis., and Mary K. Gulash of Gaines were flower girls.

Serving as best man was Robert Arrington of Farmington and groomsmen, William Haps of Pontiac. Ushers were Allen Nelson of Kingsford, brother of the bride, and Thomas Brown of Milwaukee, Wis., nephew of the bride.

The Dickinson Hotel in Kingsford was the setting for the luncheon reception. After a honeymoon trip in Southern Michigan, the newlyweds will live in Detroit.

Two Area Lads Take Top Honors at 4-H Showing

Two members of the Nu Li Wy 4-H Club in the South Lyon area yesterday won top honors for their entries in the 46th annual State 4-H Show in East Lansing.

Steve Smith, 16, of 28318 Dixboro Road, Lyon Township, exhibited the grand champion Angus steer while Edward Cogger, 16, of 28338 11-Mile Road, had one of the two best entries in the poultry judging event.

Cogger's victory earned him a trip to Kansas City, Mo., for a poultry fact-finding conference which will be held there in February.

An auction of market livestock entered in the annual state show was to conclude the 4-day exhibit today on the campus of Michigan State University.

For her wedding she chose a white nylon sheer gown, styled with cap sleeves and a scoop neckline which was outlined with broad of flower design. The same trim formed tiers on the bouffant floor-length skirt.

Her butterfly veil was of nylon tulle, and she carried a cascade arrangement of gardenias.

Beverly Tarab was maid of honor. Flower girls were Paula and Lorlei Peters, nieces of the bridegroom, and Carol and Claire Salow, nieces of the bride.

Serving his brother as best man was Russell Peters of Detroit. Douglas Peters, another brother, also assisted.

After the reception held at the Mastick home, the newlyweds left on a honeymoon trip to Northern Michigan. They will live in Detroit.

Will Arraign Man for Assault

Royal Oak Fireman is Accused of Slashing His Cousin's Wife

TROY — A Royal Oak fireman accused of slashing his cousin's wife with a 5-inch kitchen knife Monday will be arraigned Tuesday in Oakland County Circuit Court on a charge of felonious assault.

The fireman, William G. Gravin, 27, of 2665 Rochester Road, was being held today at the Oakland County Jail in lieu of \$10,000 bond.

Gravin has been bound over to Circuit Court by Troy Justice of the Peace Charles H. Losey.

Gravin, the subject of a man-hunt by over 60 policemen and volunteers, was arrested five hours after he allegedly slashed Mrs. Robert Gravin in front of her home at 1038 Henrietta.

Mrs. Gravin suffered cuts on her left temple and under her chin.

She was released after treatment at William Beaumont Hospital, Royal Oak.

He was picked up walking barefoot on Rochester Road by Troy Civil Defense Director Clarence Long and Clifford Truesdell, former Troy Township clerk.

Gravin offered no explanation other than that he had been drinking, in his statement at the Oakland County Prosecutor's office.

INDEPENDENCE TOWNSHIP—A 13-week civil defense first aid course will be offered here if sufficient interest is shown in the program, Richard F. Bird, township civil defense director, said today.

"Only if enough registrations are received will the two-hour classes be scheduled in an area school," added Bird.

The course, open to men and women, is designed to teach all phases of medical treatment in case of nuclear warfare, in addition to practical first aid in the home, according to Bird.

"If the response is high civil defense authorities will make arrangements to have doctors and nurses teach the course."

The course, open to men and women, is designed to teach all phases of medical treatment in case of nuclear warfare, in addition to practical first aid in the home, according to Bird.

There will be no charge for instruction.

A similar program was sponsored in the township last fall with 42 persons graduating.

Further information about the proposed weekly classes can be obtained by contacting the Bird home, 3116 Dayton Road, OR 24336.

Highway Dept. to Offer 22 Land Parcels for Sale

LANSING (UPI) — Twenty-two parcels of surplus property in five west-central counties will be offered for sale in Grand Rapids Sept. 14 by the State Highway Department.

A minimum price of \$31,730 was set on the parcels, two of which included houses. The properties are in Kent, Ionia, Ottawa, Clinton and Montcalm counties.

WASHINGTON (AP) — Michigan's two Democratic senators, Philip A. Hart and Patrick McCann, voted in favor of suspending the rules to make possible adoption of a two-year extension of the Civil Rights Commission Wednesday.

WASHINGTON (AP) — Michigan's two Democratic senators, Philip A. Hart and Patrick McCann, voted in favor of suspending the rules to make possible adoption of a two-year extension of the Civil Rights Commission Wednesday.

Blank-Jacob Say Wedding Vows

ROMEO — The marriage of Janet Elizabeth Jacob and Charles Evans Blank was solemnized Friday evening at the First Congregational Church with Rev. Peter Vos officiating.

Parents of the bride are Mr. and Mrs. Edward A. Jacob of 11126 Wealthy Lane. The bridegroom is the son of Mr. and Mrs. Kenneth M. Blank of 101 1/2 S. Main St.

The bridal gown of hand-clipped Chantilly lace had a fitted bodice with long sleeves pointed at the wrists and a bouffant skirt.

A double pleated tulle ruffe formed a sweep train, and the ivory fingertip veil was held in place by a circlet of seed pearls and orange blossoms.

A half cascade of roses and stephanotis centered with orchids comprised the bridal bouquet.

Mrs. Frederick Rosen of Farmdale was matron of honor. Bridesmaids were Mrs. Harold Vincent of Midland and Mrs. James Riestra of Lansing, both sisters of the bride, and Karen Chamberlain of Grand Rapids and Mrs. Dale Hanson of Saginaw.

Assisting the bridegroom as best man was Clarence B. Higby. The guests were seated by John F. Heipap of Saginaw, David W. Smith of Detroit, John R. Bagley of Ann Arbor and James H. McCade of Detroit.

Little Margaret Tyrell, niece of the bridegroom, was flower girl. The rings were carried by Michael Vincent, nephew of the bride.

Following the ceremony, the reception was held at the Romeo Gold and Country Club after which the couple left for a week at the Au Sable Ranch and Ski Club, Gaylord.

Parks Department Sets Dance Classes

The Pontiac Department of Parks and Recreation is planning to sponsor several dance classes this fall.

Present plans call for courses in square dancing, novelty and intermediate and advanced levels, and circle dances and ballroom dancing.

There will be separate instructions offered at the beginning, intermediate and advanced levels. Details on the location of classes and a time schedule are still in the formative stage. Persons interested in registering may call the department.

Old Folks Leave a Whole Lost World Behind Them

The House Is Still--The Door Is Locked...

By HAL BOYLE

NEW YORK (AP)—They were two women alone in a big old house that held long memories for both.

As they reached the front door, the daughter, a stout, comfortable woman so deep in middle age her face bore no resentment of it, turned to the other.

"I know it's hard for you to leave, Mama," she said. "But I just couldn't stand the thought of you living a lonely life, all by yourself in this old house."

"We'd never be able to forgive ourselves if anything happened to you."

"You'll be happier with us. Truly you will. Jim loves you as much as he did his own mother."

The white-haired old lady smiled. She reached out a frail, blue-veined hand and patted her daughter's forehead.

"I realize it's for the best, Evelyn," she said. "Why don't you go on out and join Jim in the car? I'd like to take one more last look around just to be sure everything is right."

"That's a nice young couple that's moving in. I wouldn't want them to find anything not in place."

Her daughter sighed and said, "All right, Mama. I understand. But don't be long. We have a long way to drive."

GOODBY, GOODBY

After she had left, the old lady turned to say goodbye alone and in her own way to the home she had entered as a bride nearly 60 years before.

A hint of dusk darkened the soft summer air outdoors. But the old lady made no move to switch on the lights. The feeling of gathering twilight suited her mood.

Besides, she knew she could

walk that old house from basement to attic blindfolded and with a sick baby in her arms and never stumble once. After half a century it held no surprises for her—only certainties.

Her heart knew every nook and cranny. So did her feet. So did the hands that lovingly had wiped and polished the old-fashioned furniture she had insisted on retaining through the years.

She remembered how often the children had exclaimed in exasperation: "Mama, can't you ever stand to throw anything away?" And she remembered the reply: "What's the worth loving is worth keeping. You'll know this when you're older."

The old lady wanted to go one by one through every room, but she felt it would be unfair to leave her daughter and son-in-law waiting. But there were three rooms she had to say farewell to.

WHERE ONCE WAS LIFE.

She paused briefly in the huge, high-ceilinged living room where the family had been warmed by hundreds of long winter evening fires.

Then she went out to the kitchen, where she had as a bride learned to cook on a wood-burning stove, and later bathed the children in bathtubs on the floor.

Still dry-eyed, she rested a moment with one hand on the worn walnut staircase before mounting to her bedroom. She stood silently by a great brightly gleaming old

brass bedstead, the center of her life. Here all her six children had been delivered. Here her first-born son, his eyes wide in wonder, had been strangled by diphtheria.

Here she had brought her husband his last glass of water and he had died, still holding her hand.

The remembering tears came then into the old lady's eyes. She bent and patted pillows. Then she suddenly knelt and kissed the bedspread.

"Goodbye," she whispered.

Outside Jim honked the car horn—not too impatiently.

"You know we were lucky to find a young couple willing to rent

a museum like your old home," he told his wife. "But they're fond of antiques and they liked all the pieces except one."

"What was that?" asked Evelyn.

"That old brass bedstead," said Jim.

"What do they plan to do with it?"

"Junk it," said Jim.

The old lady came out the door, carefully locked it, then walked down the front steps like a soldier smiling at a firing squad.

"I'm ready at last," she said. "Let's be on our way. Maybe we can still get home before it's too dark."

Police Called by Scorned Suitor (?)

HUTCHINSON, Kan., (AP)—The sheriff's office received a call for help Tuesday evening.

The caller, a man, screamed at

most incoherently that a man was being stabbed during a poker game.

Officers rushed to the address, barged inside and found themselves in the midst of a wedding ceremony.

They hesitated the anonymous caller must have been a disappointed suitor trying to even the score.

'He Beats Me, Judge,' She Says of Mate, 102

MEMPHIS, Tenn. (AP)—A Negro who claimed to be 102 years old has been brought into court by his 58-year-old wife who said he beat her periodically.

Mrs. Tobe Brown testified on Wednesday that her aged husband not only beat her but that last week he hung mud on her clean laundry, cut up her clothes and threatened her.

Brown denied it. The judge warned him and dismissed the malicious mischief charge.

FOR THE RECORD—Photo technician Charles E. Jebie develops an accident picture in the police department's photo lab. Pictures are taken on the scene of all major crimes and accidents, often providing clues to the solution of cases.

'I AIN'T TALKING'—Most of the lost kids waiting for their parents to claim them at the police station never talk. They're too busy having a good time, according to Sgt. Totton F. Duce, who holds 2-year-old Richard Fultz. He was relieved of his baby-sitting chores a short time later when Richard's mother, Doris Fultz, 32 Cherry Court, came in for her son.

SEIZED IN RAID—Three officers of the Special Investigations Unit, known better as the vice squad, examine drugs and hypodermic needles seized in the home of a narcotics peddler. Looking at the narcotics are (from left) Patrolman Thomas E. Larsson, Lt. William F. Nesbitt, unit commander, and Patrolman Gerald A. Navarre.

Pontiac Police Always Expect the Unexpected

By MAX E. SIMON

Sometimes he's a baby sitter . . . or a mediator in a family argument . . . or coach of a Little League baseball team.

He never knows just what his next job will be.

He expects the unexpected. He was trained that way.

He is a Pontiac police officer. Answering a call, he never knows what he's walking into.

Even the most routine assignment received by a patrolman via

his cruiser's radio may be fraught with peril.

NEVER KNOWS

As he steps into the doorway of a home where a domestic quarrel has been reported, he may be greeted by a blast from a shotgun. He never knows.

During his eight hours on patrol, he's liable to run into a youngster in pajamas wandering the streets.

Then it's back to the station where officers serve as baby sitters until the worried parents come for the child.

Sooner or later he'll race to a

home to help bring a new baby into the world. Older officers have delivered dozens.

There's a small headquarters army behind the man on the street.

Photographers who are summoned to take pictures of all major crime scenes and accidents . . . fingerprint experts whose files many times lead to the arrest of the wanted criminal.

MANY SPECIALISTS

Many others are specialists. The officer who investigates traffic accidents . . . detectives whose

responsibility may be the solution of burglaries, auto thefts.

One bureau of the department is devoted exclusively to training and research of new police methods and techniques.

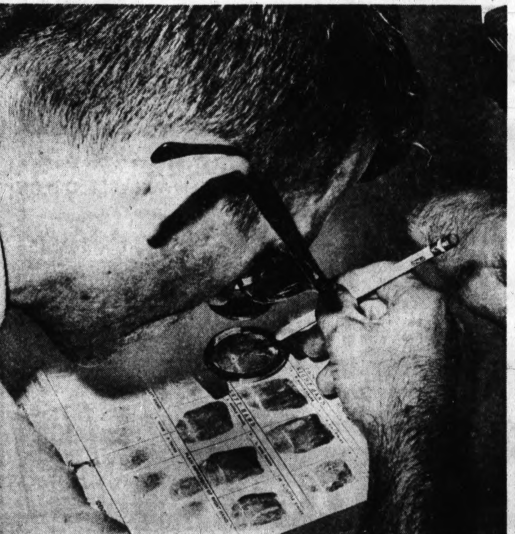

And most officers devote lots of their off-duty time to supervising the city's youth in athletic activities.

Not only do they enjoy it, but they believe they're helping in the development of tomorrow's good citizens.

The modern policeman is an officer with his eye toward Pontiac's future.

CALLING CAR NO. 7—From police headquarters in the Public Safety Building, Sgt. Eugene Hendren orders a squad car to investigate a robbery report. Radio contact with all cars is maintained by headquarters.

CLUES IN CRIME—Patrolman Robert W. Beltz checks a set of fingerprints to see if they match those found by detectives investigating the burglary of a local store. Department files contain prints of some 12,000 criminals arrested in felony cases.

Officials Recall Trouble Last Fall

Rising Gold Price Forebodes Crisis

By SAM DAWSON
AP Business News Analyst

NEW YORK — The slow but persistent rise in the price of gold is being watched closely in New York financial circles—and in Washington official circles.

They remember the dollar's troubles last fall when the gold price rose to \$40.80 on the London

market, compared to the official \$35 an ounce here.

Think of a possible devaluation of the dollar was heard—and later proved groundless. But Washington still is working at seeing that another dollar crisis doesn't arise.

This latest spurge in the price of gold coincides with a drop in U.S. exports, after their strong advance in the earlier months of 1961 had helped bring the output of dollars from this country closer in

line with the inflow of dollars. It might give the dollar some trouble in the future.

THREATENS DEFICIT

Attractiveness of gold for investors also is coming at a time when U.S. government spending is rising, bringing with it an increase in the prospective U.S. Treasury deficit.

All of this doesn't threaten the value of the dollar now. But it makes for some nervousness in

AMC Given Cost Concessions

DETROIT UP—In exchange for its profit-sharing contract settlement with the United Auto Workers Union, President George Romney of American Motors Corp. says his company got "significant cost concessions" through changes in local plant practices.

Just what reduction he got in the 1961 daily relief time of AMC auto workers in Milwaukee and Kenosha, Wis., Romney declined to say. Nor would he estimate the savings in dollars and cents.

UAW President Walter P. Reuther, however, said at a joint news conference with Romney Wednesday that AMC workers managed to keep a coffee break in local plant agreements. He said he'd go after the same thing to General Motors, Ford and Chrysler, which now have no profit-sharing agreement.

Romney also got changes in the seniority setup at Kenosha and Milwaukee. The company often has complained that it had met union demands that permitted almost indiscriminate bumping for jobs by long-time employees even when seniority workers had to be extensively retrained for jobs they claimed from less experienced men.

Industry's most stable employment since currently expiring contracts were written in 1958. The profit-sharing fund gets an immediate \$3.5-million netting from a surplus in a joint company-union insurance fund.

If the Progress-Sharing Fund were to fall below requirements, it would be supplemented as long as needed from the so-called annual improvement factor under

which workers get an automatic annual wage increase averaging seven cents hourly.

The UAW chief explained that if, for example, a cost and a half an hour was needed out of workers' pay, this would be deducted and put into the Progress-Sharing Fund.

When the fund is built back to a position to meet all requirements, the cost and a half would go back in paychecks.

AP Photos
ANNOUNCE AGREEMENT — American Motors President George Romney tells newsmen Wednesday that AMC and the UAW have reached complete agreement on a new contract built around a profit-sharing plan. UAW President Walter Reuther is at right.

The AMC relief time of 44 minutes a day for rest and washup periods was almost double that of the Big Three—GM, Ford and Chrysler—with which the UAW still is bargaining on new contracts and threatening to strike.

WORKERS WOULD PAY

Romney and Reuther also disclosed that if the so-called Progress-Sharing Fund created in their three-year agreement fails to meet all new benefit costs then workers themselves will supplement it out of paychecks.

Both Romney and Reuther professed to see no possibility of a profit-sharing plan failing to meet increases in pensions and supplemental non-employment benefits, new short-work-week pay and the health share of hospital-medical insurance now paid by workers.

American Motors has had the

Boys' Club Board Members in Dayton

Two officers of the board of directors of the Boys' Club of Pontiac are planning to attend the first annual Midwest region laymen's conference of the Boys' Clubs of America Sept. 7-8 at Dayton, Ohio.

They are Arthur C. Compton, vice president, and Edward R. Bigler, secretary.

Board members representing more than 100 clubs from 13 states will gather to discuss subjects of special interest to laymen.

Through exchanging ideas and experiences we will seek to strengthen the management and services of our own organization, as well as attempt to solve the problems of individual clubs by considering what others have done," said Harvey M. Johns, president of the club's board in Pontiac.

Some makes have been known to live for one or two years without food by absorbing the fat of their own bodies.

Louisiana School Law Means Revamped Aid

NEW ORLEANS, La. (AP)—The St. Helena decision will stop the three-judge federal court from carrying out its private school plan, but the state's grant-in-aid program may have to be revamped.

This was the opinion of two key state segregation leaders today after a three-judge federal court struck down Louisiana's local open school closing law, ruling Wednesday that the state cannot close some schools and keep others open.

It issued a temporary restraining order forbidding St. Helena Parish (County) from abandoning its public schools.

Rural St. Helena—some 60 miles north of New Orleans—voted overwhelmingly this summer to au-

28 Years With Firm Over for Bill Racine

Twenty-eight years of employment with New Dairy in Pontiac ended for William Racine, 65, of 39 Euclid Ave., last night at a party in his honor at the dairy. All the dairy's 40 employees and owner Jim Nye were present.

Follow employees presented him with an engraved wristwatch. Supervisors gave him a sport shirt to go fishing, and management presented a new suit "to wear when you get back."

Set to Arraign Salesman, 20, on Swindle Charge

A 20-year-old magazine salesman extradited from Abington, Va., in connection with a \$20,000 swindle of an Oakland Township man is slated for arraignment today.

Brought back to Michigan last night was Harry (Chew), 20, who is now in Oakland County jail charged with obtaining money under false pretenses.

Chew is the second member of a quintet sought for bilking Frank R. Cook, 68, of 1860 Dutton Road.

The first, Melvin Powers, stood mute on a similar charge when arraigned Monday. Another member of the alleged ring is in custody in California.

'Will Run in California'

WASHINGTON (AP)—The Baltimore Sun in a Washington dispatch by Howard Horton said today that former Vice President Richard M. Nixon will run for governor of California next year.

Says Congress Ready to Get Down to Business

WASHINGTON (AP)—Rep. Charles A. Halleck of Indiana, House Republican leader, said today Congress "now realizes that the people have seen enough of Christmas tree legislation."

"I think the disposition of Congress hereafter is going to be to provide every dollar needed for defense but tighten the government's belt of nonessential spending," he said.

Halleck's statement, approved in advance by GOP congressional leaders, was made at his weekly news conference with Sen. Everett M. Dirksen of Illinois, the Senate Republican leader.

As evidence of a belt-tightening mood, Halleck cited the 75-vote margin by which the House Wednesday refused to consider a bill providing \$25 million in federal contributions for school construction.

He also cited a cut by a Senate House conference committee in funds authorized for foreign development loans.

Watch School Opening

WASHINGTON (AP)—Sixty U.S. marshals have been ordered to New Orleans, La., on stand-by duty for the opening of public schools next week, the Justice Department said today.

Gerald J. Smith, 3231 Harrison Road, Avon Township, and Ronald E. Muzzy, 121 Capemill Road, Holly Township, William F. Patten, 1175 Wabasco Road, Commerce Township, and James L. Shelby, 838 E. Avon Road, Avon Township.

Draft Boards to Induct 60 From Area Sept. 6

Sixty men will be drafted into the armed forces from the Pontiac area Sept. 6, with probably more to follow later in the month, local draft boards announced today.

Included in this figure will be many who have not volunteered for the draft, board spokesmen noted.

Those inducted here during the past two months were all volunteers seeking to fulfill their military obligations as soon as possible.

There were no quotas to be filled in the Pontiac area for the first six months of this year. Last month 17 volunteers were drafted locally and 20 were called in July.

FROM CITY

The Sept. 6 call-up will draw 13 men from the city and 47 from the surrounding area.

Those to be inducted from Pontiac will be at least 18 years old with no children. From elsewhere in the county they will be in the 18-27 age bracket.

Each draft board determines which age group will be drawn from to meet its quota on the basis of available manpower.

Inducted from Pontiac last week were: Stephen M. Chamezky, 17 Orion St.; Gerald V. Cornille, 16 W. Ypsilanti St.; Willard F. Cadd, 237 Branch St.; John L. Blackwell, 365 N. Johnson Ave.; and Altona Johnson, 515 Montana St.

Also, James A. Stewart, 19 Beaudette St.; Eddie M. Bain, 168 South Blvd.; Richard E. Fisher, 263 W. Wilson St.; and Johnny Taylor, 343 Irwin St.

Inducted by Oakland County Board of Selectmen were: Dallas L. Lipincott, 7110 Deer Lake Road, Independence Township; Edward P. Druis, 338 E. Third St., Rochester Township.

Man Commits Suicide After Shooting Foreman

GLADSTONE (AP)—Clarence King, 30, Gladstone, shot and killed himself after shooting and seriously wounding a co-worker outside a machine shop Wednesday night, police said.

Robert Lewis, 33, a foreman in the Lapsley Machine Shop, was taken to St. Francis Hospital, Farmington. He had been shot three times.

Gladstone police could give no motive.

Peach Queen Wins 3 Votes

Dorothy Bilbrey Wins Georgia Men With Gift From Michigan

WASHINGTON (AP)—Three congressmen from the peach state—Georgia—approved at least one Michigan peach.

She is Dorothy Jean Bilbrey, 18, of Davison who Wednesday presented a basket of Michigan peaches—along with a challenge to match them—to Georgia Democratic Reps. John J. Flynt Jr., Phil M. Landrum and John W. Davis.

"We've seen Georgia peaches all our lives, but this is the first Michigan peach we've run into," commented Flynt, looking at Dorothy, a 5-foot-4, 115-pound immature measuring 34-34-36.

She is queen of the forthcoming Peach Festival in Romeo, which opens its three-day run tomorrow.

"We've no dispute over one variety of our peaches," Landrum said. "Don't know about the others."

While she was there, Dorothy swapped a Red Haven peach for a granddaddy kiss from House Speaker Sam Rayburn, D-Tex.

This holding one peach and looking at another," said Rayburn. Dorothy, daughter of a baker's deliveryman, finished among the top 10 girls in this year's Miss Michigan contest and plans to seek the title of Miss Michigan State Fair next week.

Ask Castro for Permits

CARACAS, Venezuela (UPI)—The diplomatic corps in Havana has demanded that Premier Fidel Castro's government grant safe conducts to the more than 800 Cuban refugees in Latin American embassies in the capital, the foreign ministry reported Wednesday night.

Gets Civil Service Post

WASHINGTON (AP)—William E. Jewell of Ann Arbor, a commerce department business analyst since a yearly salary of about \$10,500.

1960, was named field coordinator of the Area Redevelopment Administration for Michigan Wednesday. The civil service post carries every man, woman and child in about six-tenths of one per cent of the people were foreign born.

Honorable Khrushchev 'Guarantees' Free Berlin

By BOB CONSIDINE
 BERLIN — Nikita Khrushchev insists he would be most happy to join hands with the U.S., Britain and France to guarantee all rights and privileges of Berlin — if Berlin becomes a Free City.
 At first blush his offer appears to be a concession, a veering away from the harsh line. The image of his jolly cooperation with the West in the protection of an independent and united Berlin must have appeal among those Western hearts and souls which still be-

lieve this is a man capable of honorable conduct, as the West understands the word honorable.
 What would it be like, this Free City of Berlin he plugs? We put the question to a State Department man today in this tensely divided city. This is his answer:
 "In the first place the free city would not be free," he said. "The first institution in West Berlin to be demolished would be RIAS, the German Radio station we underwrite to beam

honest news, commentary and music to East Germany."
 "It would have to go off the air because the free city would be in the nature of a place leased in the midst of East Germany and therefore it would be improper for it to serve as a base for anti-East German propaganda."
 "Both West and East Germany would have to yield all the political power they now hold over Berlin proper. The present gar-

risons — the West has about 15,000 troops in the area — would be withdrawn and replaced by a ceremonial, detached four-power guard.
 "The present West German papers critical of communism in Germany would be watered down."
 "Refugee camps in West Berlin would be closed. Officials of the Free City of Berlin would be required to extradite to his home area any person who sought to use the city as an escape route to the West. Giving asylum to such a person would be an offense against the free city and punishable under free city law."

INSIDE EAST GERMANY
 Since the free city would be inside East Germany, the East German government would control all access to it, naturally, just as France would control all French roads, waterways and air corridors leading to Paris, if Paris were to be made a free city. The Free City of Berlin would have an elected mayor and other officials. Communists from the present East sector of the city would be eligible to run for such offices, of course, but unlike the Willy Brandts and other West German political figures Communist candidates would have the benefit of a solid vote.

The present West Berlin industry would remain in the realm of private enterprise. But Communist labor unions of the East, which now have no con-

nection with it, would be able to strike at will.
 To placate those unions, present West Berlin manufacturers and industrialists would agree to expand their trade with the Communist bloc, now only about 2 per cent of their total output.
 In time, the Free City of Berlin would be a blackmailed bee hive completely dominated by and dependent on East Germany and the rest of the Communist world."

JUST ONE ANGLE
 The world may little note nor long remember, but West Berlin movie owners, sports promoters and others in the entertainment field have been the first to be by the sealing off of the 1-million East Berliners.
 As a combination lure and gesture of brotherly love, West Berlin in recent years has invited East Berliners to attend events in West Berlin and pay for their seats with East marks on a parity basis.

The East mark is worth one-fourth of the West mark. A traveler from Communist Germany could buy what amounted to a dollar seat at an event in West Berlin for 25 cents.
 The Adenauer government and Willy Brandt's city administration would make up the difference to the promoter. Last year it amounted to 9-million admissions. Now — kaput.

JFK 'Coldly Realistic' Calling W. Berlin Untenable

By ELTON C. FAY
AP Military Affairs Writer
WASHINGTON — President Kennedy's statement that West Berlin would be "untenable" if it were subjected to a direct attack by the Soviet Union "objectively reflects the coldly realistic assessment of his top military advisers."

The chief executive, in his news conference Wednesday, went on to say that it is hoped Soviet awareness of U.S. determination to defend West Berlin will prevent Soviet attack.

He termed the few thousand U.S. troops in the city as "hostage to that intent."

COMMENTS DIFFERENT
Kennedy's comments were different from views expressed in his message to the nation on July 25.

In that speech the President said: "I hear it said that West Berlin is militarily untenable, and so was Stalingrad, and so, in fact, was Stalingrad. Any dangerous spot is untenable if men—brave men—will make it so."

The U.S. Army believes that it has about 6,500 brave men in West Berlin, part of the total of slightly over 13,000 American, British and French forces guarding the free part of the old German capital.

Such a force, in an isolated area 110 miles from the main Allied forces in West Germany, could not be expected to hold out against the massive weight of manpower the Soviet Union could bring to bear. There are estimates that 35 to 40 Soviet divisions are located in adjacent European Russian territory.

EAST GERMAN ARMY
Kennedy's mention of direct attack by "the Soviet Union" was

interesting in that he made no reference to East German Communist military forces. Some Bonn government officials say the East German army consists of six divisions (which they consider unreliable from the Soviet viewpoint), plus police-type units and an air force.

The defenders of West Berlin would have some basic advantages, even if temporary, including the military precept that defense is easier than attack.

Defense of West Berlin would be city-type fighting — unless of course the Communists wanted to destroy West Berlin by all-out air and ground bombardment.

In city-type fighting, some of the firepower effectiveness of modern Soviet armor could be negated, the situation coming nearer to being equalized until overwhelming masses of Soviet manpower poured in.

CAPTURE OF A CITY
The capture of a city, distinct from its destruction, doesn't require massive weapons firepower. Man-carried rocket weapons, rifles, pistols, grenades are the tools usually used in building-by-building, collector-to-collector combat.

The U.S. Army force in the city has been equipped to such combat. Could the Berlin garrison be reinforced and re-supplied after it came under attack?

It is to be assumed one of the first Communist moves would be an attempt to cut the garrison by force and seize West Berlin would be an effort to cut off the rail and highway routes from West Germany, more than 100 miles away.

Unless the Western forces wanted to shoot their way through, the closing of the highway and would be more difficult, involving would mean fighter cover for which would take the whole rail line would be simple.

Shutting off the air corridor—stopping down planes. And igniting matter to the threshold of general war.

Buildings to Perpetuate
KALAMAZOO (AP)—Three new buildings under construction at Western Michigan University will be named after four longtime faculty members, all of whom are now dead.

A \$15-million natural science building will be named after Dr. Leslie H. Wood. A residence building for men will be named after Howard F. Bigelow. A women's residence building will be named after Grace and Mary Moore.

Safety Officer Says: Let Kids Walk to School

EAST LANSING (AP)—Children should walk to school whenever possible, advises a Detroit police traffic authority.

"No child should be driven to school unless he is crippled, completely infirm, or a habitual truant, or unless the distance is more than half a mile," he told a meeting at Michigan State University.

Inspector Raymond Smith of the Detroit Police Traffic Safety Bureau made the recommendation at a conference on school safety education for police.

"This gives the child a chance to obtain vital pedestrian ability without unnecessary vehicle clutter in the school areas," he said.

The use of trained school patrol boys or responsible adults was recommended for areas where traffic is unusually heavy.

Safety officers should check the school patrol boys at least once every two weeks on the street and attend patrol meetings at least once a month, Smith said.

President Alessandri Battles to Save Her

Shattered Chile Threatened With Economic Disaster

By PHIL NEWSOM

UPI Foreign News Analyst

An heroic campaign undertaken by President Jorge Alessandri on the day of his inauguration Nov. 3, 1958, to raise Chile to prosperity through austerity is on the verge of disaster.

Also threatened is Chile's ability to participate in President Kennedy's multibillion-dollar "Alliance for Progress" designed to raise the living standard of the whole of Latin America.

The story of unevenly divided

wealth, a one-crop or industry to more than 90 per cent annually.

Alessandri took his oath in surroundings as austere as the government he promised.

But in the hot spring sunshine, the crowds cheered him wildly.

Outside the cathedral where the tall, graying industrialist and former finance minister attended a Mass, a woman shouted:

"Long live Don Jorge, our hope!"

ENORMOUS TASK Ahead of him was an enormous task. The country had a foreign debt of \$200 million, approximately equal to one year's budget. There was a shortage of foreign exchange and the country suffered from an acute lack of housing and roads.

But the country then was in a mood for change.

In a country where wage demands regularly ranged from 60 to 100 per cent increases, he clamped on a freeze permitting no increases which would raise prices. He obtained United States loans and foreign investments began pouring in.

By 1959, the foundations had been laid. The budget was balanced and no obligations were left unpaid. Then a new disaster struck.

Between May 21 and 25, 1960, three earthquakes, two tidal waves,

volcanic eruptions and landslides combined with fire and flood struck Chile with a death toll estimated at at least 10,000. Comparable destruction during World War II in Europe had taken five years. In Chile, it took less than five days.

From reconstruction of an inflation-ridden economy, Alessandri now was forced into the job of rehabilitation of hundreds of miles of shattered roads, broken bridges, ripped up railroad tracks and the reconstruction of thousands of shattered homes.

The strikes, which for a time subsided in the national interest, resumed.

To meet the crisis, Alessandri has felt compelled to admit leftists to his government.

The question is, how far left will he feel he must go?

Clarifies Visiting Rules

Many Pontiac area residents evidently are confused by visiting hours and special restrictions when visiting friends or relatives who are patients at Pontiac General Hospital.

Hospital Administrator Harold R. Eiler today clarified the hospital's visiting procedures.

"We attempt to consider the patient's best welfare and at the same time make it convenient for people to visit patients," said Eiler.

"But we must also conform to the state health regulations regarding visitors."

Limited restrictions have been placed on several new patient areas as those areas came into use during the year.

In most hospital areas, only two visitors per patient are permitted at one time.

NEED PERMISSION No children under 14 are permitted without special permission.

Visiting hours are noon to 8 p.m., seven days a week.

These are general rules.

There are four hospital areas where these rules do not apply. These areas and their special regulations are as follows:

Obstetrics: Visitors limited to father and grandparents. Hours for visiting are 3-4 p.m. and 7-8 p.m. daily.

Nixon and Ike Trod the Links at Burning Tree

WASHINGTON (AP)—Former President Dwight D. Eisenhower returned to his old home course at Burning Tree in suburban Maryland Wednesday for a round of golf with former Vice President Richard M. Nixon.

The two met at Eisenhower's farm home on the edge of Gettysburg, Pa., two days ago and arranged the golf date then.

The foursome included William P. Rogers, attorney general under Eisenhower and close friend of Nixon, and Col. John Eisenhower, son of the former President.

100 Chemists at WSU

DETROIT (AP)—More than 100 scientists from 22 nations and nearly 300 U.S. chemists are attending the 6th International Conference on coordination chemistry at Wayne State University. The conference ends Sept. 1.

MEMPHIS, FROG'S LEGS — Popoco, a kitten owned by Stuart Fox, Costa Mesa, Calif., takes a swipe at a frog that wandered into the Fox apartment and onto Popoco's dinner plate. The trespasser escaped into the night.

Met Sees Holes in '61-'62 Cast

Labor Problems Forced Release of Stars; Plan to Substitute Others

NEW YORK (UPI)—The Metropolitan Opera will have some gaps in its 1961-62 season because of stars lost to other commitments during labor troubles between the Met and its musicians.

Anthony Bliss, president of the opera company, said "Salome" was canceled because certain

stars would not be available. He also indicated that other operas would be dropped or replaced on the schedule. The season opens Oct. 23.

The Met released its star performers from their contracts when it canceled the season because of inability to reach accord with musicians on a new contract. The season was reinstated when the opera and union agreed to binding arbitration.

Labor Secretary Arthur Goldberg presided Wednesday at the first arbitration meeting. He adjourned the hearings until October after instructing both sides to submit pertinent data on their sides of the wage and benefit dispute.

Any Auto Strike Affects Ads, Prices and Supplies

By BEN PHILGAR
AP Automotive Writer
DETROIT — If the United Auto Workers and the big three auto makers fail to agree soon on a new contract for these things to happen:

1. A definite shortage of new cars.
2. A sudden firming of car prices, both new and used.
3. A rash of "scare" advertising by dealers.
4. And possibly a pickup in new car sales.

All of these will be intensified if there is a full scale strike, something that hasn't occurred in the auto industry since 1960. And it will be particularly true since the union has singled out General Motors as its strike target.

GM builds almost half of all American cars, as well as sup-

plying a minimum amount of parts to the other manufacturers.

While the Union has granted a brief extension of its strike deadline — from midnight tonight to 10 a.m. Wednesday — this will make little difference in actual production since it covers only two working days, tomorrow and Tuesday. All plants will be idle Labor Day.

Since the last major auto strike 11 years ago, against Chrysler, the whole concept of auto retailing has undergone a complete change. The emphasis now is on volume and discounting is an accepted practice the year round.

As of today there are some 650,000 to 675,000 unsold new cars available. Slightly more than 100,000 of these are 1962 models, most of which are in factory stockpiles rather than in dealer inventory.

This leaves possibly 550,000 available for immediate sale. The new car market in August has been weak, averaging about 15,000 sales daily.

With no pickup this means current stocks would last about 36 days.

However, shortages already have developed in popular models. A good share of the inventory could be called dogs — models, you wouldn't buy unless you had to.

Buyers who have grown accustomed to end-of-model-year price reductions probably will be disappointed. Dealers like to sell but they don't like to run out of stock completely. Thus the familiar "\$50 over cost" offers may suddenly vanish.

MORE EXPENSIVE

Some dealers believe the public would react to such a situation by

advancing car-buying plans, the theory being that if I don't buy now I may have a long wait and an even more expensive deal.

This wasn't the case, however, in 1960 when the auto industry was forced to a virtual standstill by the shortage of steel. Auto sales not only added sharply but they took a number of months to recover.

Buyers stayed away, fearful they would be forced to pay through the nose for the few cars available.

Even sporadic interruptions in production would force the manufacturers to revise sharply their assembly plans. More than 500,000 cars have been scheduled for September and this volume can't be met if delays occur.

The 1962 models are supposed to go on sale starting the final week

of September. Regardless of what happens every manufacturer will come there could be very few for have enough cars to put models in immediate delivery.

Gov. Swainson Appoints Two to State Bodies

LANSING (AP) — Two appointments requiring Senate confirmation were announced Wednesday by Gov. Swainson.

Dr. H. E. Dunn, Traverse City, to the Board of Chiropractic Examiners to succeed himself for a term expiring June 18, 1965.

William R. Dolan, Detroit, to the Michigan Crippled Children Commission to succeed Dr. S. Neil Jacobs for a term expiring March 21, 1964.

THEY SMILE NOW—U.S. Army Capt. Paul R. Wirth (right) of Miami, Fla., returns greetings of friends who came to see him at Friedrichstrasse crossing point in Berlin after the captain and three enlisted men had their Army staff car

halted by East German police while driving in the Soviet sector of the city. Our was released after three American tanks and four armored personnel carriers took positions at edge of the border checkpoint.

Flu Outbreaks to Hit This Fall

'Get Vaccinated, It Can Be Fatal,' Warns U.S. Health Department

WASHINGTON (AP) — Outbreaks of influenza are likely to hit the United States this fall and winter, the U.S. Public Health Service predicted today.

Dr. Luther L. Terry, surgeon general, urged immediate vaccination of people with heart disease, pulmonary disease, diabetes and other chronic illnesses; persons over 65; and pregnant women.

Those groups accounted for most of the 86,000 flu-triggered deaths between September 1957, and March 1960.

"We are probably due for some Asian flu outbreaks, since they come in two- to three-year cycles," Terry's statement said, "and we are overdue for type B flu outbreaks, which come in four- to six-year cycles."

"The most tragic aspect of flu," he added, "is that it is fatal to so many people who, in spite of their age or chronic impairments, could otherwise enjoy many more years of relatively good health."

He emphasized that once flu hits a community it is too late to protect the high-risk groups. Vaccination now, ahead of the flu season, is the only safeguard, he said.

Hearts and Homes Open Up to New GIs in West Berlin

BERLIN (AP) — West Berliners have opened their homes and hearts to the U.S. soldiers rushed to this island city to defend it against Communist takeover.

Soon after the East German Communists brought down the Iron Curtain in Berlin, President Kennedy ordered a battle group of 1,500 soldiers from West Germany to bolster the U.S. garrison in the threatened city.

Since then the telephone hasn't stopped ringing in the town hall of the borough of Steglitz, the district where the battle group is quartered. Over 1,000 eager West Berliners call daily wanting to entertain the G.I. German officials said the whole thing had been spontaneous.

"There is such a rush, we had to set up an office to deal with the flood of requests," a borough official said.

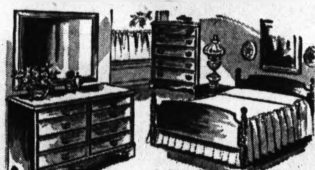

160 GET PASSES

Last weekend there were several hundred invitations from West Berlin families. Only 160 of the 1,500-man unit were given passes to accept.

Among them was Sgt. Richard Hartman, 27, of Potomac, Pa.

"Everybody spoke English," both reported.

X15 Try to Set Record Delayed Till Friday

EDWARDS AIR FORCE BASE, Calif. (UPI) — A scheduled test of the experimental X15 rocket plane was canceled Wednesday because of several minor problems and rescheduled for Friday.

The National Aeronautics and Space Administration (NASA) said instrumentation problems caused the most difficulty. The flight was scrubbed when the auxiliary power for 80 per cent of the plane's instruments went out.

Pilot Joe Walker was to have taken the craft to about 120,000 feet, flying it on a series of maneuvers simulating the return through the atmosphere of a space ship. He was to try for a speed record of 3,700 miles an hour. The current record is 3,603 m.p.h.

Waterford High to Orient 9th, 10th Graders

Orientation classes for ninth and tenth grade pupils at Waterford Township High School will be held next Wednesday, Sept. 7, according to Principal Paul O'Neill. The new pupils will start with an extended homeroom period at 7:40 a.m. and attend regular classes until 2:30 p.m.

New pupils have been registering this week and may register through the first few days of school.

Regular classes for all pupils in grades 9-12 will begin Sept. 7, with a special "welcoming" assembly slated for 8:30 that morning in the high school gymnasium. The assembly will be for the entire student body. Speakers will include O'Neill and student council officers.

TAPPED BY JFK — Stewart L. Pittman, a Washington attorney, was nominated Wednesday by President Kennedy to be assistant secretary of defense in charge of the Pentagon's Office of Civil Defense.

Our Congressmen Vote on School Aid

WASHINGTON (U) — Here is how Michigan congressmen voted Wednesday as the House refused to consider the administration's aid to education bill.

Democrats for: Diggs, Dingell, Griffin, Laskowski, Macchewitz, and O'Hara.

Republicans for: Broomfield.

Republicans against: Bennett, Coderberg, Chamberlain, Ford, Griffin, Harvey, Hoffman, Johnson and Meador.

Recorded for but not actually voting: Rahant.

Plan Opera Theater 'Preview'

The gardens of Cranbrook will be the setting Sept. 7 for the 12:30 p.m. luncheon and preview party of the Detroit Opera Theater.

"Fall Future Fashions with a Foreign Flavor" will be shown by Margi Franzel, noted Detroit fashion designer, with Marjorie Gordon as mistress of ceremonies.

Guests at the preview will receive an associate membership in the Detroit Opera Theater.

ship in the Detroit Opera Theater.

Detroit Opera Theater was formed to support local and visiting professional artists and to encourage the growing interest in opera in Detroit. The 1961-62 season's performances will take place in the main auditorium of the Detroit Institute of Arts. All operas will be sung in English.

The opera schedule includes Johann Strauss' "Die Fledermaus," a new version by James Limbach of De Ar-

born, as a spatsise Nov. 10 and evening concert Nov. 11. A double bill will be featured Jan. 26 and 27. "Callantry" by Douglas Moore and Gian-Carlo Menotti's "The Medium" are on the program.

Area women on the opera committee are Mrs. Charles Himmelfoch, Birmingham, and Mrs. Carl W. Sundberg, Bloomfield Hills.

Director Meets With Board

The music board of the Pontiac Woman's Chorus met Tuesday evening with George A. Scott, the club's director.

Chorus members assisting in choosing music for the ensuing season are Mrs. John Keirner, chairman and her committee Mrs. George A. Scott, Mrs. James Absher and Mrs. Rutherford Thomas.

Mrs. Carl Leonard, president, announced the first rehearsal for Sept. 12 at 8 p.m. in the Mark Twain School. Area women wishing to join the chorus may call Mrs. Leonard or Mrs. Ernest Morris of Victory Drive to arrange for an audition.

The Pontiac Department of Parks and Recreation sponsors the organization with Mr. Scott as director and Charles A. Wilson as accompanist.

Drawer Reminder

(UPT) Put a warning mark on the top edges of bureau drawers with red nail polish. This will keep you from pulling the drawers out too far and spilling contents.

Celebrating subscription ticket sales results for the Vanguard Playhouse season, and progress in the Women's Association's Fashion Show Oct. 3-5, are left, Mrs. Packer Avis, Grosse Pointe, and right, Mrs. E.

Milton Rogers, of Bloomfield Hills, both working with the show and promoting advance play sales, Center, Mrs. Maynard R. Andree, Bloomfield Hills, is fashion display publicity chairman.

Isn't this the new fabric Mystique by Ottavia for our fashion show, Mrs. Richard Oglesby (left), Birmingham, coordinator, asks Mrs. George T. Hall, Grosse Pointe, president of Women's

Association of Vanguard Theater. The two conferred at a patio party luncheon Wednesday at Mrs. Edward E. Wilson's Birmingham home.

Patio Party Serves Two Purposes

Finish Ticket Sale Plans; Tell About Fashion Show

The luncheon patio party at the Birmingham home of Mrs. Edward E. Wilson Wednesday afternoon served the two-fold purpose of completing plans for the final subscription play series sales ending Sept. 12 and informing members of the Women's Association of preparations for a special fashion show. On behalf of Vanguard Playhouse, the later event is set for Oct. 3, 4 and 5, in conjunction with Robinson's Furniture Co.

The Women's Association is the primary force behind the extensive campaign under way for ticket sales to Vanguard's 1961-62 theater season to six plays.

The year's program will feature "Purple Dust" by Sean O'Casey Sept. 13-14, "The Little Foxes" by Lillian Hellman on Nov. 15-Dec. 9, "The Dark of the Moon" by Howard Richardson and William Berner Dec. 29-Jan. 27, "Ardele" by Jean Anouilh Feb. 23-March 17, a current Broadway hit yet to be announced for April 11-May 5, and "The Three Penny Opera" by Kurt Weill June 6-30. Play series tickets are available at Vanguard Playhouse, located near the center of downtown Detroit, has been chosen to please a variety of tastes.

This year, the ticket holder may use season tickets in a variety of ways: One ticket at a time for each show, or two or three at a time for several shows, or all the tickets for one show—however the holder chooses.

The subscription drive is under the direction of Mrs. Lawrence Fleischman, committee chairman. Mrs. George T. Hall is association president, Mrs. William H. Breech is vice president and Mrs. Oliver E. Frey is treasurer.

Program for the fashion show will start at 1:30 each day, the first to be Oct. 3 at Vanguard and the remaining two at Robinson's Northland Store. In addition to marking the debut of a new fabric, Mystique by Ottavia, the show will also include new fashions by David-son's of Birmingham, and a short vignette highlighting Vanguard's future as Michigan's only resident professional theater.

Tickets for any of the three showings are available from members of the Women's Association. Serving as committee chairman for the fashion show are Mrs. Richard C. Oglesby, coordinator, Mrs. Frey, tickets, and Mrs. Maynard Andree, publicity.

Parents Are Boss in Home

By The Emily Post Institute Q: When my boy friend takes me home after a date, I have on occasion asked him to come in for a cup of coffee while my parents are asleep. This came to the attention of my mother and father and they caused a horrible scene, saying that no respectable girl would do such a thing.

My brother came to my defense by saying that he had been invited into a girl's home after a date many times in just such a way as I have mentioned. Don't you think they are being a little too strict about this?

A: As long as you are living under your parents' roof you must accept their rules and if they disapprove of your inviting a man friend into the house after they have gone to bed, you must certainly should not do so.

Q: I would like to give both my employer and his wife a book for a going-away present, if this would be proper. (They are going to Europe for two months). They have been very good to me personally and although our association has been strictly a business one, I believe such a personal gesture on my part would not be out of order. Or is there something other than books that you would suggest.

A: I think nothing would be more appreciated or more welcomed on a steamer than a book. Let us hope, as his secretary, you know what kind of books they like.

Q: I have noticed that at several weddings I have attended at which the bride wore a face veil, she turned it back as she reached the head of the aisle and turned to kiss her father. I always thought that the veil was turned back during the ceremony. Will you please tell me if I am right about this?

A: You are right. The tradition behind the face veil is that a maiden bride is too shy to face a congregation unveiled and reveals her face only when she is a married woman.

HAWAII comes to your party when you serve Hawaiian Punch. Rosy-red or sunshine-yellow, Hawaiian Punch brings the enchantment of the tropics right into your home. Grocers have Hawaiian Punch in big fruit-juice cans, ready for you to chill and serve. Hawaii does indeed come to your party when you serve Hawaiian Punch!

Weddings and Trips in the News

Returned from a two-week conference at Teachers College, Columbia University, are Harry T. Hahn, director of instruction of the Oakland County Board of Education, and Gerald White, coordinator of elementary education here in Pontiac.

The two were among 49 educational leaders in supervision and curriculum improvement from 30 states at the work conference which focused primarily on important new developments in school curriculums and the role and responsibilities of curriculum personnel.

The James W. Burkes of St. Joseph Road, Pine Lake Manor, visited Maine, Boston and Cape Cod while vacationing in the East and returned by way of Montreal.

Mr. and Mrs. Richard Stephens (Alice Carroll) of Farmington announce the birth of a son, Glenn Alan, Aug. 15 at St. Joseph Mercy Hospital.

The John Carrolls of Drayton Plains and Mr. and Mrs. Edward Stephens of Howell are the baby's grandparents.

The Edward L. Woolleys, with their children Frank and Janet Ann, of Fredericksburg, Va., are house guests of the Charles M. Lucases of North Marshall Street. They came for the Saturday wedding of Douglas C. Lucas to Rosemary Fellows.

Others here for the wedding are the Basil Baskervilles and daughter Mary Lou of Los Angeles, Calif., and Mrs. Burton Gibbard of Decerville who is visiting Mrs. Margaret Lucas of Charlotte Street.

A son, Robert Alvin, was born to Mr. and Mrs. William R. Esery (June Newcombe) of Centralia, Ont., on Aug. 15.

Grandparents are the Thomas A. Newcombes of Drayton Plains and the Alvin Eserys of Centralia.

Peggy Robertson was cohostess at a recent shower honoring Judith Wagner, bride-elect of Donald Robertson, at the home of Mrs. Gary Petty of Montclair Street, Waterford Township.

Announcement is made of the birth of a son, James Edgar, to Mr. and Mrs. Merida Elyffe of Jackson. The baby's mother is the former Alice Wheeler of Auburn Heights and Rome.

Mrs. Kirk Baldwin has just returned to her Harmon Road home in Birmingham from Mackinac Island after a two-week stay at the Grand Hotel. Mrs. Baldwin also traveled to Charlevoix to visit friends.

U.S. candy consumption is 18 pounds per capita a year.

Win Diplomas

Two Pontiac collegians were graduated from Central Michigan University. Mr. Pleasant, at the close of the summer session.

Recipients of bachelor of science degrees, they were Lois M. Mathers, social science major, and Norma Lee Peschel, elementary art.

Shirley E. Braun of Oxford was granted a master of arts degree.

Patricia Baker Marries

To reside in Drayton Plains are newlyweds Mr. and Mrs. Melvin E. Johnson who were united in marriage at the Drayton Plains United Presbyterian Church Friday. Rev. W. J. Teeuwissen Jr. performed the 8 p.m. ceremony.

The 24-year-old Patricia Sue Baker is the daughter of the Edward A. Bakers of Lambert Drive, Drayton Plains. Par-

ents of the bridegroom are Mr. and Mrs. Thomas Johnson of Stanley Street.

Following a reception at the VFW Hall, the couple left for a brief honeymoon at the Harlan House in Detroit.

There are 177 separate areas within the national park system comprising about 23 million acres.

Abby Says: Truth Will Out

Try Asking More Questions

By ABIGAIL VAN BUREN
DEAR ABBY: For the last four months I have been going out with a boy (I will call him "A") who is 22. When I first met "A" at the swimming pool, I noticed he had a deep scar running down his chest, and I asked him how he got it. He told me that while in the Army he was cut during combat practice.

ABBY

Recently, his younger brother told me that "A" was in a knife fight with another boy when he was 17, and that both boys were sent to an industrial school. If this story is true, I know I can't go out with "A" any more. Should I believe "A" or his brother?

"A" GIRL: Start with "A" and ask some questions. Chances are you won't get to "Z" before you find out what you want to know.

DEAR ABBY: How can I get people to mind their own business? I haven't had my hair cut in 15 years. I wear it brushed out and hanging to my waist. Almost every day

someone says, "Why don't you cut that stuff off?" Or, "Gee, isn't that mop a lot of trouble?"

To be truthful, it is a lot of trouble. But I like it this way, and I'm the one who has to take care of it. How can I get people to quit staring at me and making remarks? I am 37 years old and don't need anyone to tell me how to wear my hair.

LONG HAIR: DEAR ABBY: If you are "stared at," and almost every day someone remarks on your hair, perhaps you ought to treat yourself to a professional opinion at a smart beauty salon.

But if you are determined to wear it that way, don't be offended if folks stare and make remarks. How many other women your age sport a 15 year's growth of hair brushed out and hanging to the waist?

DEAR ABBY: I just read a letter in your column signed "A Private Affair" from a woman who was criticized because she didn't cry at her mother's funeral. I have been a nurse for nearly half a century and have witnessed many deaths and the families' reaction to them. I have observed that those who did the most work, caring for the departed during his (or her) lifetime, were usually the ones who took the death most quietly.

It is the ones who neglected

the lost one who carry on in public and go into hysterics. To say that one is callous and

unfeeling because he didn't shed tears in public is cruel and unfair.
A NURSE WHO HAS SEEN
"Are things rough?" Let Abby help you solve your problem. For a personal reply, enclose a stamped, self-addressed envelope and send to Box 336, Beverly Hills, Calif.

Sandra Gregory Is Wed

Sandra Leah Gregory exchanged nuptial vows with Roger D. Potter in a small family ceremony performed by Dr. Tom Malone at five

MRS. ROGER D. POTTER

o'clock Saturday in the Emmanuel Baptist Church.

The Clyde A. Gregorys of Pre-mont Avenue, Waterford Township, were hosts at a dinner and reception in Roosevelt Temple following their daughter's marriage.

White satin banding accented the scoop-neck bodice and three-quarter sleeves of the ballroom-length bridal gown of white Chantilly lace.

Her fingertip illusion veiling fell from a jeweled satin crown. The bridegroom's gift of pearls and a full cascade of white carnations and roses centered with pink roses completed her ensemble.

Mrs. Paul W. Page of Newport, R. I., attended her sister as matron of honor and Kenneth Backus stood as best man for the bridegroom, son of Mrs. Jean Potter of Douglas Street and the late Dean Potter.

The couple will live in Pontiac after a honeymoon in Northern Michigan. Fred accessories sparked the bride's black sheer wool suit worn for traveling.

Mrs. Gregory chose a bouffant navy organza dress for her daughter's wedding and the mother of the bridegroom appeared in a salmon-beige lace sheath dress. Both mothers had corsages of white roses.

News of Society

By RUTH SAUNDERS

BLOOMFIELD HILLS — This afternoon Mrs. Don E. Ahrens entertained at a tea in her home on Haverhill Road to introduce her new daughter-in-law to her friends. Mr. and Mrs. John J. Ahrens (the former Mary Ellen Jaeger) were married Saturday in Holy Trinity Church in Kewaskum, Wis. They are spending the holiday weekend with Mr. and Mrs. Don Ahrens before moving to Milwaukee. Mrs. James Roche and Mrs. A. F. Power will preside at the tea table and Mrs. Robert J. Byrnes Jr. will assist her mother (Mrs. Ahrens) in receiving the guests.

The Richard B. Wallace family plans to spend this weekend at the Old Club, St. Clair Flats. Margi Wallace has just come back from a summer in France where she lived with a French family near Le Havre.

Welcome back from Dayton, Ohio where they have been living recently are Mr. and Mrs. Robert N. Woodruff Jr. Their new address is in Chester Street, Birmingham.

Among those traveling in Europe this summer are Mr. and Mrs. Owen Luckenbach who will be joined by their son Carl in Paris in September. Carl has flown to tour the Scandinavian countries before joining his parents.

Mrs. J. Vinton Birch and her son Vinton P. Birch will return early next week after a motor trip through New England.

Sept. 17 is the date chosen by St. Joseph Auxiliary of the Little Sisters of the Poor for a benefit fashion show to be given at the John J. Raymonds in Trowbridge Farms.

Mrs. F. L. Petersmark is general chairman, assisted by Mrs. John Young, Mrs. Dexter Leamont, Mrs. Robert Phelan and Mrs. Louis Sayig.

Clothes Rod Hint

A little floor wax applied to clothes rods in closets makes the hangers slide back and forth easier.

Shower Fetes Colleen Killian

Mrs. Lyle Lampert and Mary Lou Austin honored bride-elect Colleen Killian at a miscellaneous shower Sunday afternoon at the Cherokee Road home of Miss Austin's grandmother, Mrs. Percy Hunt.

Miss Killian, daughter of Mr. and Mrs. Harry Killian of Lincoln Avenue will become the bride of George B. Cronan Oct. 21 at St. Michaels Church. The bridegroom-elect is the son of Mr. and Mrs. John Cronan of Union Lake.

The bride-elect has asked her sister Mrs. Robert F. Curtis to be her matron of honor. Also attending Miss Killian will be Miss Austin as bridesmaid and Denise Curtis as flower girl.

Attending the affair were Mrs. Killian, the bride-elect's aunts, Mrs. Peter Lonchante, Mrs. John Brown and Mrs. William Kinch. Mrs. Curtis, the prospective bride's sister, presided over the silver service pouring for guests, Mrs. Barbara Nealis, Mrs. Theodore Stickney, Mrs. Almon Austin, Nadene Borsvold, Mrs. Raymond Litherland, Mrs. Sally Nicely and Mrs. Richard Lucas.

Present from Detroit were Mrs. John Henrick, Mrs. Paul Nistroy, Mrs. Charles Phillips and Mrs. Donald Lansky. Also invited were Mrs. Jack Curtis of Livonia, Mrs. Douglas Campbell and Mrs. George Arnold.

Miss Killian was recently feted at showers given by Mrs. John Meyer and Mrs. Bernard Wygodski. Mrs. Fred Steinbaugh and Mrs. Harold Muldowney also have entertained at a luncheon at Mrs. Muldowney's James K Boulevard home.

For Eye Highlights

Pretty eyes should be highlighted. After applying makeup, dip a cotton pad in good quality witch hazel and pat the cheekbones to the side and just under the eyes.

Weds U.S. Navy Airman

Rev. Gerald Gibson officiated at the marriage of Patricia Ann Burch to U.S. Navy Airman Apprentice Luther B. Morris Jr. Saturday evening in Central Christian Church.

The bride is the daughter of Mrs. Norval Schlager of East Columbia Avenue and Master Sgt. Jack N. Burch of Montgomery, W. Va.

Her grandparents Mr. and Mrs. Vane Bolser of University Avenue were hosts at the wedding reception. The bridegroom's parents are Mr. and Mrs. Luther B. Morris of East Tennyson Avenue.

Ballerina-length white nylon or-

ganza over taffeta for the bride was styled with scoop neckline. Three soft fabric roses accented the back waistline. Her elbow-length veiling was attached to a crown of pearls and she carried white album lilies and ivy.

Maid of honor Nina Thompson appeared in ballerina-length pale blue chiffon over taffeta and held a hand-cascade of pink carnations.

Stephen G. Toth was best man and seating the guests were Larry Henry and Seaman Appren. Theodore L. Carter of Auburn Heights.

The newlyweds will travel to Whidbey Island, Wash., where they will live until the bridegroom leaves for active duty in Japan.

Science Teachers Taught

Two Pontiac Central High faculty-physicists institutes will adjourn Friday.

Members among 120 teachers attending summer institutes for science teachers at Michigan State University are Duane C. Steele (left in picture 1), chemistry and mathematics teacher, and David Siple (left in picture 2) physics teacher.

Mr. Steele shows a molecular model he built to Louis Panush, co-director of the fifth annual summer institute for chemistry and mathematics teachers. In the picture at the right Mr. Siple performs an experiment in the study of motion with Edwin Smith, faculty member of the institute for physics.

Sponsored by the National Science Foundation to supplement, enrich and update teacher background, the chemistry, math and

Bethel 5 Honors Sandra Schmidt; Talk Bake Sale

Job's Daughters Bethel No. 5 held their first fall business meeting this week with Sandra Schmidt presiding as honored guest.

The Bethel was opened and recorder Sandra Brunson read the minutes after which committees were chosen for Miss Schmidt's projects during term of office.

Selected for calling committee were: Carol McFarland, Donna Chambers, Marlene Kibble, Claudia Knisley and Eleanor Stuart. Serving on the sunshine committee will be Miss Brunson, and in the booster committee Miss Stuart, Sandra Ooms, Miss Chambers, Miss Kibble, Sally Ide, Pamela Tibbetts and Miss Schmidt.

The group discussed a bake sale to raise funds making possible the girls' trip to Grand Session next spring.

The meeting was adjourned after members agreed on a smorgasbord to raise funds for a new Bethel officer's robes.

Theodore Roosevelt at 42 was the youngest inaugurated as president.

Keep Distance Between You and Car Ahead

One of the most logical rules for safe motoring ever devised is the one that dictates keeping a sufficient distance between cars to avoid accidents, and thus "Bring 'Em Back Alive!"

Failure to do so is the second most broken rule of the road, and causes the second greatest toll of accidents and deaths in traffic each year, the Automobile Club of Michigan points out.

A proper (safe) distance is one that will allow you to stop without a collision, no matter how fast the driver ahead stops. Remember, when the car ahead shows signs of stopping, that driver is already braking and your foot is still on the accelerator.

Expect the unexpected and be prepared for it. A simple rule of thumb is: Stay more than one car length (30 feet) behind the car ahead for each 10 miles an hour of your speed.

Like most rules of thumb, apply this one with common sense. If you misjudge the distance, make sure you overestimate — it's much safer that way.

GM to Display Defense Mobility

Division to Exhibit Its 'New Approach' at U.S. Army Meeting, Sept. 6-8

WASHINGTON, D.C. — General Motors Defense Systems Division will exhibit a new approach to vehicular mobility during the annual meeting of the Association of the United States Army Sept. 6-8 at the Sheraton-Park Hotel, according to Harold R. Boyer, vice president of General Motors and general manager of the division.

In keeping with the theme of the meeting, "The Army's Global Frontiers," the division will, with a rotating roster of the globe, show how to attain a greater range of land operations through an analysis of soil-vehicle systems.

The study of soil-vehicle systems is being conducted in the land mobility laboratory of the division by M. G. Becker, international authority on the subject.

"Physical mobility over soil which changes character with changes in the weather must be predicted statistically by soil sampling methods," Becker said. "Military history is full of situations where armies were immobilized because their vehicles had not been designed for the soil conditions they met."

Miniature vehicles of unusual designs are a part of the GM display. They are evidence of the vehicle types that might be needed for future operations over any type of soil.

The display is a projection of the land operations division of the Defense Systems Division headed by Donald Friedman.

Other General Motors divisions exhibiting their capabilities are Allison Division, MC Spark Plug-Electronics Division, Milwaukee, Cleveland Ordnance Task Division, Delco Radio, Delco-Berry, New Departure, Packard Electric and Saginaw Steering Gear.

McKerricher New Head of Cook-Nelson Post

Robert E. McKerricher, 1519 Creston Road, Bloomfield Township, has assumed the duties of commander of the American Legion Cook-Nelson Post in Pontiac for a second term, following joint installation ceremonies with the unit's auxiliary.

Installed as auxiliary president was Mrs. David H. Warrillow, 531 Dick St.

Other newly-installed post officers are Sam Levin, senior vice commander; Victor Madden, junior vice commander; Leo R. Minewasser, finance officer; Louis C. Madden, adjutant; Frank G. Harrales, sergeant-at-arms; Ayres M. Miller, chaplain; and Elton R. Shown, historian.

Also installed as new auxiliary officers were Mrs. Clayton McCoy, vice president; Mrs. Leo Minewasser, secretary; Mrs. Florence J. Allen, treasurer; Mrs. Homer Sweeney, chaplain; Mrs. Ernest Ogden, sergeant-at-arms; and Mrs. Roger Shown, historian.

New executive board members are Mrs. Carl Shindorf and Mrs. Margaret James.

Instructor Billy Reynolds (turning front wheel) and Shell dealers check out a car at a Shell Training Center. By spotting trouble early, Shell dealers can often prevent big repair bills later on.

HOW TO SPOT TROUBLE:

Shell instructor Billy Reynolds reveals 10 trouble signals he tells Shell dealers to watch for. You should know about them too. They may help you spot trouble before it starts.

Shell Instructor Billy Reynolds

More than 12,000 Shell dealers go to Shell's 123 mobile and permanent training centers every year. Classes cover the whole gamut of service station operation. But trouble-spotting gets special emphasis.

Here are 10 trouble signals that Billy Reynolds, one of Shell's chief instructors, always stresses. If you notice any of them in your own car, check with your Shell dealer. His advice may help you head off a big repair job later on.

How to spot trouble before it starts" is the nub of Shell's dealer training program. Here are some of the most common trouble signals that Shell dealers learn to spot:

1. Mushy brakes. When your car is standing still, push your brake pedal down with a firm, steady pressure. If the pedal feels soft and sinks all the way to the floor board, you've got trouble that should be fixed right away. Could be a leaking wheel cylinder. Or, more likely, a leaky master brake cylinder.

This is a very important test, for it can reveal a dangerous condition that may not show up in normal braking.

But a leaking brake system can fail completely when you need it most. And that's really serious. A well-trained Shell dealer can track down brake troubles quickly.

2. Wandering wheels. If your front tires show more wear on one side of the tread than the other, your wheel alignment is probably at fault.

NOTE: an out-of-line wheel can increase tire wear by as much as 50 per cent.

On the road, you may notice that your car tends to wander and is hard to keep on a straight line. This is another danger sign that suggests the need of an expert wheel alignment. Be sure to discuss it with your Shell dealer.

3. Jiggle front end. Put your foot on either bumper, and shove down hard. If your car bobs

up and down for a long time before coming to rest, ask your Shell service man to check your shock absorbers.

4. Decrepit tail pipe. Take a look at your tail pipe. If it's rusted through in spots, it should be replaced. Same thing for your muffler. A worn-out exhaust system can make your car roar like a wounded hippo. Worst of all, you run the danger of exhaust fumes seeping into the passenger compartment. Your Shell dealer can take care of the whole problem in short order.

5. "Bloated" radiator hose. Inspect all of the rubber hoses that interconnect your cooling system. If they are cracked, swollen or worn thin in spots, they can fail at any time and cause your engine to overheat. Replacing old or damaged hoses is a simple task for any Shell dealer. But it could save you serious engine trouble on the road.

6. Marred windshield. Feel the rubber blades on your windshield wipers. If they're hard or frayed, they can do more harm than good. A ragged blade leaves streaks. A hardened blade can scratch and scar.

Ask your Shell dealer to check the spring pressure on your wiper arms too. If the blades rest too lightly against the windshield, they can blow away from the glass and let the rain swamp your view.

7. Strange noises. Listen for squeals, squeaks,

rattles and other mysterious noises. Strange noises are often warnings of trouble on the way. Violent vibrations in your car can loosen parts and cause trouble. So, don't be afraid to ask your Shell dealer about sounds you haven't heard before.

8. Under-the-hood clues. You can learn a lot just by looking at your engine. Be particularly alert for oil, fuel or water leaks. Even tiny leaks can lead to big trouble later on. You can also make a quick visual check of wiring and electrical connections. If wires are hanging loose—or insulation has worn away—see your Shell dealer.

9. Sluggish battery. If your engine turns over more slowly than usual when you start up, or if it simply balks at starting, an inspection of your electrical system is in order. A run-down battery is usually the cause of starting problems. But the real trouble may be elsewhere. Something as simple as a loose battery connection can do it. Or your voltage regulator may need a minor adjustment. Play safe and tell your Shell dealer.

10. Oil-streaked sidewalls. It may take a bit of back-bending, but it's worth the effort to check the sides of your tires you seldom see—the sides facing in. Look for signs of leaking fluid on the tire walls. A leaking brake cylinder, or faulty oil seals on the rear wheels could be causing the streaks. Both can be serious if not corrected at the first indication of trouble.

These are just a few of the danger signs that Shell dealers learn about in Shell's 123 training centers. Any trained Shell dealer knows many more. Take full advantage of his experience. Ask him to give your car a bumper-to-bumper inspection next time you stop in for a Shell lubrication—or any service job.

One last tip: when you've got your car in top condition, keep it filled with the gasoline that's made for top performance—today's Super Shell with 9 ingredients. Take a moment now to read what those 9 ingredients do.

Super Shell's 9 ingredients for top performance

- #1 is TCP®—for power, mileage, longer plug life.
- #2 is Pentane mix—for fast warm-ups.
- #3 is anti-knock mix—for knock resistance.
- #4 is Alkylate to control "high-speed knock."
- #5 is Butane—for quick starts.
- #6 is "cat-cracked" gasoline—for power.
- #7 is an "anti-icer." Added in cold weather.
- #8 is gum preventive—for clean carburetors.
- #9 is Platformate for extra mileage.

To Fix Alpine Cable; Will Take 3 Months

CHAMONIX, France (UPI) — Alpine engineers estimated today that it will take at least three months to repair the world's highest cable railway which was accidentally damaged by a jet fighter over the Mont Blanc range.

Experts agreed that the damage and death toll caused by the crash, involving three cable cars, to the glacial snowfield below. Eighty-one tourists, including two American students, were stranded.

Six persons plunged to their deaths when the French plane crashed on the aerial lift's tow cables, sending three cable cars to the glacial snowfield below. Eighty-one tourists, including two American students, were stranded.

Murder, Kidnap Suspect Sought

Find Bodies of Man and Daughter, Shot, Tied; Another Woman Held

BELLEVILLE, Ill. (UPI) — A man and his 10-year-old daughter were murdered Wednesday night and a woman was kidnapped by a "dark-haired" stranger police believed committed both crimes.

Illinois State Police, St. Louis City Police and the Missouri Highway Patrol joined local authorities in the search for the suspect.

The body of George Ballard, 47, was found Wednesday night by his wife near a pond where he and his daughter, Carol, had gone fishing. He had been shot twice in the head and was bound with a plastic chair.

Carol's body was found early today next to the railroad tracks that run near the pond. The pond is located near the new state route 13 cloverleaf west of here, about 20 miles east of St. Louis.

Police believe the person who killed Ballard and his daughter is the same dark-haired man who kidnapped Margaret Wermerick, 38, and later released her unharmed.

She was kidnapped about five blocks from the scene of the slaying. H. P. Graham, 65, told police the man, about 30, stuck a gun in the back of his head while sitting on the lawn of his home.

The man, accompanied by a woman about 20, ordered him into the house, took car keys and forced Miss Wermerick to accompany him. Miss Wermerick lived with the Grahams.

At intervals, frequently seven years, a warm current streams along Peru's coast and marine life perishes, sea birds die by the millions and hydrogen sulfide bubbles from the sea.

Maps of State All Gone; Distributed 630,000

LANSING — The State Highway Department reports it has run out of copies of its free official map of Michigan.

A total of 630,000 copies have been

distributed since the map came off the presses in April. The department said the supply was expected to last a year.

The increase in demand was almost entirely accounted for by individual requests, the department said, since there was no significant increase in the bulk distribution.

New Magazine in Cuba Has Socialist Theories

MIAMI (UPI)—A new magazine called Socialist Cuba will appear in Cuba Friday, Havana Radio announced.

The broadcast said the magazine

will be "a vibrant organ of revolutionary theory and orientation, carrying the revolutionary slogans, and reflecting the national scene and orientations of the maximum leaders of the Revolution."

There are 16 million left-handed persons in the U.S.

Bake Nippy Cheese Sandwiches in Oven

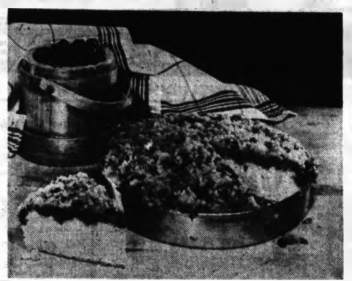

A quick luncheon or supper casserole the Nippy Cheese Sandwiches is "yours for the baking" when you prepare the cream sauce with smooth, easy-to-blend evaporated milk.

This cream sauce, flavored with creamy butter, is a cinch to make. You get such perfect creamy-smooth results every time, not a lump to your sauce and the consistency is exactly to your liking. Since evaporated milk is concentrated, it takes less cooking time and thus less thickening. To this delicious sauce add flakes of golden Cheddar cheese, sharp or mild as you wish — though the sharper Cheddar adds more piquant bite to the sauce.

Now, what to do with the sauce? First, add an egg for a bit of thickening and olive for zip, before pouring it over toast.

ed deviled ham sandwiches, this dish: succulent fresh fruits and sandwiches are easily made by hunched by a dollop of dairy soup buttering toast slices and filling cream or crisp leafy greens tossed with deviled ham from the can, with tomato wedges and your favorite or your own ham salad, if you voracious dressing.

Use the bounty of the fruit or For dessert, feature refreshing, vegetable garden to accompany homemade ice cream sodas or sun-

Beet Soup Is Cooling to Eat

A simple new version of a cold soup that has become so popular it's a summer annual.

Cold Beet Soup
1 can (1 1/2 pound) cut beets
1 can (10 1/2 ounce) condensed beef
3 cups buttermilk
1/2 cup lemon juice
1 tablespoon dark brown sugar
Salt and pepper

Drain beet juice into a container (at least 1 1/2 quart) that has a cover. Cut beets in thin strips and add with undrained consommé, buttermilk and lemon juice. Add as much of the sugar as suits your taste; add salt and pepper to taste. Mix well, cover and chill. Makes 4 servings.

Crown Quick Coffee Cake With Sugary Blueberries

Plump, juicy, delicate-flavored, those fresh blueberries now in the market can inspire a variety of good things! One that's sure to be a favorite is the Blueberry Coffee Cake. Delicious as only a home-made coffee cake can be, delicious as only fresh blueberries can make it. It includes the special touch of a crumb topping, delicately spiced with cinnamon.

The cake itself is rich and moist, the topping crunchy... so, with the blueberries, it provides an interesting and unusual texture and flavor combination. While it's a perfect choice for the experienced home baker who likes to try new ideas, the recipe is so easy that even someone who's new dreamed of making a coffee cake before can be sure of perfect success. And, made with nonfat dry milk, the cake is extra moist, extra nourishing.

As a "breakfast surprise" to tempt hot-weather appetites

Blueberry Coffee Cake
2 cups nonfat dry milk
1 cup sugar
1/2 cup melted dry milk
1/2 cup water
1 1/2 cups fresh blueberries (one quart)

Turn on oven and set at 350 (moderate). Put biscuit mix, sugar and nonfat dry milk into a 3-quart bowl. Add water and egg and beat well at medium speed. Pour into greased and floured 9-inch pan. Cover batter with blueberries.

Mix topping ingredients together and sprinkle over berries. Bake near center of oven about 50 minutes or until cake pulls from sides of pan.

Topping
2 tablespoons soft butter or margarine
1/2 cup nonfat dry milk
1/2 cup all-purpose flour
NOTE: Frozen blueberries, thawed and drained, may be used in place of fresh blueberries.

Add Sliced Zucchini to Pan of Omelet

A delicious way to serve zucchini is in an omelet. Cut 1 medium zucchini squash in very thin slices. Sauté these in a mixture of 1 teaspoon butter and 2 teaspoons Spanish olive oil until lightly browned.

Meantime, beat until frothy 4 eggs; blend in 2 tablespoons water and 1/4 teaspoon salt. Pour eggs over zucchini in pan. As egg firms on bottom, lift up omelet with spatula, allowing moist egg to run under. When firm throughout, fold over omelet and slip out of pan. Serve as entree plain or topped with well-seasoned tomato sauce. Makes 3 entree servings.

daes boasting plump off the vine berries.

Nippy Baked Cheese Sandwiches
4 slices toast, buttered
1 egg (1/2 cup) cold deviled ham
1 tablespoon butter
1/2 cup evaporated milk
1 cup shredded Cheddar cheese
1 cup finely shredded chives
1 cup sliced stuffed olives

Spread 4 slices toast with deviled ham, top with remaining toast slices. Cut sandwiches in half diagonally; place in baking dish. In saucepan melt butter; blend in flour, pepper and salt to form a smooth paste. Gradually stir in evaporated milk; cook, stirring constantly, until mixture thickens. Add cheese, continue cooking, stirring constantly, until cheese melts.

Remove from heat; stir in egg and olives. Pour over sandwiches in baking dish; bake 15-18 minutes at 350 degrees. Serve immediately. Makes 4 sandwiches.

Barbecue Slices of Leftover Beef

There are many things to be said for taking advantage of the rump roast sale at your market, not the least of which is a planned-over meal. When you buy, plan on an extra pound for Shillet Barbecue to serve later in the week. Thin slices of the roast are cooked in a spicy hot tomato sauce-catsup barbecue sauce.

Delicious served with it are individually molded Mediterranean Salads. Combine mixed vegetables and sliced cauliflower, ripe olives and green onions are molded in poppy seed lemon flavored gelatin. It's the perfect dinner in one hot day!

Shillet Barbecue
1 1/2 pound rump roast
1/2 cup catsup
1/2 cup vinegar
1/2 cup brown sugar
1/2 cup water
1/2 cup tomato catsup
1/2 cup Worcestershire sauce
1/2 cup prepared horseradish
1/2 cup pepper sauce
1 teaspoon salt

Cut meat into thin slices. Cook minced garlic and chopped onion in oil until tender. Add remaining ingredients except the meat. Simmer about 15 minutes, stirring occasionally. Add meat to sauce, mixing until meat is coated with sauce. Cover and heat 5 to 10 minutes, until flavors are blended and meat is hot. Four servings.

A pound of all-purpose flour of cake flour measures about 5 1/2 cups. A pound of granulated sugar, brown sugar (light or dark) measures about 4 cups; a pound of cups.

SCANDINAVIAN POTATO SALAD — One of the new potato mixes on the market is a Potato Salad Mix. Give a taste of Scandinavia with sour cream and dill and serve it with rosy apple wedges for a summer night's specialty. This same mix makes Hot German Potato Salad too.

Peanut Butter Is Inside Candy

This modern recipe for home-made Golden Nuggets should delight any small boy or girl of today. And it's similar enough to the old-fashioned variety to bring a nostalgic pang to any older who long ago savored "the real thing."

- Golden Nuggets**
- 1 cup sugar
 - 1/2 cup dark corn syrup
 - 1/2 cup water
 - 1/2 cup butter or margarine
 - 3 tablespoons chunk-style peanut butter

In a medium-sized saucepan, stir together the sugar, corn syrup, water and butter. Over medium heat, stirring constantly, bring to a boil. Continue cooking without stirring to hardball stage (265 degrees) on a candy thermometer or until a small amount forms a hard ball when tested in very cold water.

Remove from heat. Pour into well-greased 9-inch square pan; let stand until cool enough to handle. Pull candy with fingers just until it is uniformly light in color and holds ridges and grooves, but is still soft.

Place on large piece of waxed paper. Pull into long flat strip about 3 inches wide. Spread peanut butter in a narrow strip down the center; fold; seal edges. Gently pull into a strip 1 inch wide.

Cut into 1-inch pieces. Wrap individually in waxed paper. Makes about 34 ounces.

Notes: Recipe may be doubled. Pour syrup into two greased 9-inch square pans.

Two Kinds of Spatulas

A flexible rubber spatula is used for folding in ingredients into cake batter. A flexible wide metal spatula is excellent for turning pancakes and for removing cookies from baking sheets.

Touch of Scandinavian in Potato Salad From Mix

Another great potato feast in mixes is Potato Salad Mix, neatly packaged with its own seasonings and ready for a quick cook and chill. The added plus to this mix is that Hot German Potato Salad can be made from it, too. Just think, no more cooking, peeling and cutting potatoes for this wonderful summer treat.

There are no secret ingredients, but the success of the recipe does depend on something new... it's the Potato Salad Mix. Whether you're an expert in the kitchen or a timid cook, you'll be delighted with the fact it takes just minutes to make and the tedious job of preparing the potatoes for potato salad is gone forever. It's great!

Before we lose ourselves on the typewriter keyboard exclaiming over the wonders of this mix, here is the recipe with which we enticed you in the very beginning. One you taste the combination of the potato salad made with sour cream and dill, and crisp fat apples, you'll mark it as one of your favorite recipes.

If you plan to prepare the recipe ahead of serving time, brush the

apple with orange or lemon juice to prevent darkening.

Scandinavian Potato Salad

Follow directions on Potato Salad Mix pkg. 1 1/2 Cold Potato Salad — except instead of 1/2 cup mayonnaise, use 1/2 cup mayonnaise and 1/2 cup commercial sour cream. Add 1/2 teaspoon dill weed. Serve surrounded by crisp, tart, unpeeled apple wedges.

One Honey of a Dessert

For a nutritious ice cream dessert, mix 1/2 cup peanut butter with 6 tablespoons honey; blend into one quart of softened vanilla ice cream. Refreeze in freezer tray.

Show Contempt for World Opinion

Soviets Turning on Terror Tactics

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON — The Soviet decision to resume nuclear testing—which makes no sense at all from the viewpoint of world opinion—is the extreme example of Russian terror tactics based on naked power.

1. It shows contempt for the rest of mankind's thinking.
2. It comes at a time when Premier Khrushchev has created a crisis on Berlin and is like a savage nudge to the West that Russia means business.

3. The announcement that this gives Soviet scientists a chance to test super-bomb—equal to 100 million tons of TNT and far greater than any bomb the West possesses—is sheer, brutal, terror technique.

CONTEMPTUOUS
Even the circumstances under which the decision was announced Wednesday—while American and Russian negotiators were meeting in Geneva to discuss a test ban—makes this Russian move contemptuous of world opinion.

Three years ago the United States and Russia stopped testing, began negotiations to put a permanent ban on it. Wednesday the two sides had held their 338th

meeting and, as before, with absolutely no progress.

There had been increasing pressure in this country, inside and outside Congress, for President Kennedy to order a resumption of American testing on the grounds that the negotiations for a ban were hopeless.

If the Russians had waited a week or so more, maybe the United States would have summed. Then Moscow could have had a propaganda field-day, blaming the United States as the enemy of mankind.

MAKE ANNOUNCEMENT
And Russia then could have announced that it, too, would resume testing but only in self-defense because the United States had done so.

Instead—just as 25 neutral nations were pouring representatives into Belgrade for a meeting starting Friday—Moscow made its announcement which shocked capital cities around the world.

Yet, for years it had been assumed that Russia and the Western powers were equally anxious to avoid any action which might have had a bad reaction among neutral peoples.

Khrushchev's decision Wednesday shows this assumption is a fallacy and that Russia is relying on its own power and its own interests alone to dictate its policy. Even Khrushchev's decision is a contradiction of what he himself had said.

Last June Sen. Harry M. Jackson, Washington Democrat, said testimony before Congress by American military leaders had convinced the Joint Congressional Committee on Atomic Energy that the military view testing should be resumed.

SCIENTISTS EAGER
At the same time U.S. authorities were picking up information that Russian military men and scientists were becoming increasingly

100 Megatons Packs Plenty Mean Walkop
By The Associated Press
How much punch would a 100-megaton bomb pack?
It would unleash the equivalent force of 100 million tons of TNT. It would be 5,000 times more powerful than the U.S. atomic bomb dropped on Hiroshima at the end of World War II.

It would pulverize everything—and kill everybody—within an estimated radius of 12 miles of zero, the point of detonation.

Even Khrushchev's decision is a contradiction of what he himself had said.

tingly eager to resume tests. But June 20, at a Kremlin meeting, Khrushchev said:

"Some American leaders urge the United States to resume nuclear weapons tests if the Soviet Union does not accept the Western powers' demands for a test ban. We must warn these gentlemen:

"No sooner the United States resumes nuclear explosions than the Soviet Union (immediately) will start testing its nuclear weapons."

But Wednesday Moscow didn't even make the pretense that it had resumed testing. In-100 million tons of TNT," he said.

Instead, the Soviet announcement said: "It is an open secret that the United States is standing on the threshold of carrying out underground nuclear tests."

The evidence that Khrushchev decided to rely on power—and the threat of power—to make the West yield to him on Berlin came on Aug. 9 when he no longer talked of resuming nuclear tests only after the United States did.

WON'T CHANGE
On that date he said it prospects for peace did not improve soon he would order Soviet scientists to build a bomb "equal to 100 million tons of TNT," he said.

increase in the arms race and more radioactive fallout. But he said it would not bring war any nearer.

In Geneva, the chief British negotiator at the nuclear test ban conference, David Ormsby-Gore, said: "The verdict of the world will undoubtedly be clear on this."

Although Western delegates believed the resumption of nuclear tests by the Soviet Union would signal the death knell of the nearly 5-year-old talks in Geneva, there

was no indication from any of the three delegations that the conference had formally ended. However, Ambassador Arthur Dean, chief U.S. negotiator, was recalled to Washington.

The Soviet announcement was viewed in West Berlin as partly tied to Communist demands for a German peace treaty.

West German officials believe that the Soviets may offer to create nuclear testing if the Western powers sign a peace treaty with both East and West Germany.

In Tokyo, Japanese foreign ministry officials declined immediate comment on the Soviet Union's announcement.

Japan on Lookout for Test Explosions
TOKYO (UPI) — The Japan weather bureau today alerted its stations around the nation to be on the lookout for Soviet nuclear test explosions.

The order to the agency's network of microbarometer stations went out within the first few hours after the Soviet Union had announced its intention to resume testing of nuclear weapons.

The stations are located at eight places throughout the Japanese islands.

Cites Missile Strength
SAN ANTONIO, Tex. (UPI) — Gen. Bernard Schriever, chief of the Air Force's systems command, said Wednesday night he not only thinks the United States has caught up with the Russians, but passed them in the development of long-range ballistic missiles.

First bill before congress to change the status of Hawaii from a territory to a state was drawn in 1957.

Russia Shocks Nations Confab

Representatives of 24 Countries Jolted by Nuclear Test Move

BELGRADE, Yugoslavia (AP) — The Soviet decision to resume nuclear testing shocked representatives of 24 nonaligned nations gathered here today for a summit conference. Some called it "a slap in the face" to the Belgrade conference.

Bitter comment came over the timing of the Soviet statement on the eve of the talks here. Disarmament is one of the main issues to be discussed.

"It was astonishing — even shocking — for the Kremlin to announce such a step on the eve of our conference," said one Asian delegate. "I'm sure some of our leaders will have things to say about this from the conference platform."

INDIAN PRIME MINISTER Nehru, who has long campaigned for nuclear disarmament, is expected to be especially angry.

Nehru plans to go to Moscow Sept. 6 after the conference. Nehru said he will probably raise the question of nuclear testing with Soviet Premier Khrushchev.

The Yugoslav government newspaper Borba published the Kremlin's announcement on an inside page, without comment.

Also published President Kennedy's message to the conference, using both the text and a Washington dispatch on an inside page. It gave no editorial comment.

Red Super Bomb Fine Propaganda

WASHINGTON (AP) — Some Pentagon atomic specialists said today they believe the Soviet Union would get more propaganda mileage than military value out of any super nuclear bomb with the blast power of 100-million tons of TNT.

U.S. officials have been discussing the possibilities ever since Soviet Premier Khrushchev claimed three weeks ago that his scientists were prepared to develop such a super-bomb.

There was no sign that the United States, which is believed to have H-bombs up to 20 megatons, was being stampeded into a race with the Soviets to get the monster weapon first.

"The propaganda value is greater than anything else," one official said when told of the Soviet announcement of plans to push ahead with creation of a super-bomb.

NO PROGRESS
U.S. atomic experts stress that there is no arithmetic progression in the effectiveness of nuclear weapons — that a 100-megaton bomb such as the Soviets are talking about would not devastate a five times greater area than a 20-megaton weapon. According to some estimates, the destruction range would be about double and the total area of destruction about four times as great.

The key, they say, is the efficiency of the bomb—and they claim the American nuclear weapon.

As for radioactive fallout, the experts say the danger area would cover about 5,000 square miles for a 20-megaton bomb, and more than 20,000 miles for a 100-megaton weapon.

420 May Die Over Weekend

National Safety Council Also Expects 17,000 Will Be Injured

CHICAGO (UPI) — Traffic accidents during the 78-hour Labor Day weekend may kill 420 persons, the National Safety Council (NSC) has estimated.

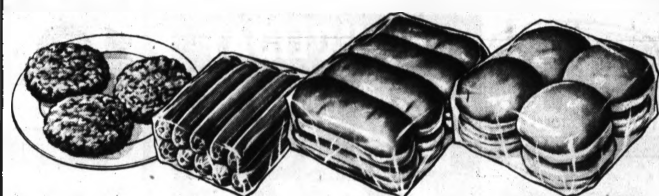

During the same period from 6 p. m. (local time) to midnight Monday, 17,000 persons may be disabled by injuries, the council said.

Lloyd D. Utter, and NSC vice president, urged defensive driving and a "conscientious effort to obey traffic laws." He defined the defensive driver and pedestrian as one who "expects reckless, illegal and clumsy behavior of everyone else on the road and adjusts his actions accordingly."

A year ago, Labor Day weekend highway accidents killed 415 persons. The all-time Labor Day weekend high was set in 1951, when United Press International counted 458 motorist and pedestrian deaths.

School Lunch Boxes Are Waiting

By JANET ODELL.

Do you count lunch boxes instead of sheep when you can't sleep? If you have lunches to pack for 3, 4 or more children each day, it would be logical.

As always, we stand ready to help with suggestions for what to put in those so-important school lunch boxes. It's only a few weeks until you'll be back on the sandwich assembly line.

We're not kidding entirely when we mention an assembly line. If you have a freezer, you can spend several hours making a quantity of sandwiches which will save time and temper during the breakfast rush hour. If you have more than one lunch to pack and no freezer, it is also a good idea to line up all the bread and the fillings for an efficient sandwich-making operation.

If you're freezing sandwiches, avoid fillings with cooked egg white; this gets rubbery when frozen. Fresh vegetables get rather soggy and mayonnaise on the bread will separate at low temperatures. But most meats, fish and cheese fillings freeze well.

Frozen sandwiches keep the rest of the lunch cool as they thaw and are fully thawed by the time the youngster opens his lunch box at noon.

If you plan a protein sandwich, some crisp ribbed food like carrot or celery strips, milk a piece of fruit and something for dessert, you'll be giving your scholar a good noon meal. His age and appetite determine how many sandwiches you include.

Later in the year we'll talk about warm foods you can send to school. The first couple of months are warm enough for sandwich meals.

Canned tuna makes a popular sandwich filling. If you buy the grated type, it is relatively inexpensive. Here is a new suggestion for a tuna sandwich filling.

Tuna-Tuna Spread
1 can tuna, drained and flaked
1/2 cup chopped walnuts
1/2 cup diced celery
1/2 cup diced onion
1/2 cup mayonnaise
1/2 cup salad dressing

Combine all ingredients; mix well. Garnish with apple wedges, if desired. Makes about 2 cups.

If you have a child who must watch his weight, make his sandwich fillings without mayonnaise. The following one is tasty and freezes well.

Frankfurter Pickle Filling
1 frankfurter ground or chopped
1/2 cup pickle relish
2 tablespoons prepared mustard
1/2 cup ketchup

Cookies make a perfect dessert for the lunchbox. They are so easy

TRIPLE JOB—School lunch boxes yawning empty on the kitchen table present a problem in any family. Multiply that by 3 or more and you see what is necessary at the Stanley Garwood home on Green Lake Road every morning. Ten-year-old Julia prepares sandwiches for her triplet siblings who will be 8 in November. At the left is Giles; Grace and Gail are on the other side of Julia. Like most youngsters, the triplets prefer peanut butter and jelly sandwiches day in and day out; their

mother says they'll choose it over ham any time. Other peanut butter combinations liked by the triplets are peanut butter, honey and nuts or peanut butter, unsulphured molasses and nuts. These sandwiches are called Comic sandwiches in the Garwood family. In addition to sandwiches, the triplets have cookies and fruit. They can buy milk at school. Stock up on peanut butter, all ye Pontiac area moms, school is about to open.

to have on hand, don't spill and can supply some important food elements — besides needed sugar calories.

Most youngsters like peanut butter cookies. The rolled oats included in this recipe make them taste a little different.

Peanut Butter Round-Ups
1 cup shortening
1/2 cup granulated sugar
1/2 cup brown sugar
2 eggs
1 cup peanut butter
2 cups sifted all-purpose flour
1/2 teaspoon salt
1 cup rolled oats (quick or old fashioned, uncooked)

Heat oven to 350 degrees. Place shortening and sugars in mixing bowl; beat until light and fluffy. Add eggs and beat well. Blend in peanut butter. Sift together flour, salt and soda; stir into peanut butter mixture. Stir in oats.

Roll dough to form small balls; place on ungreased cookie sheets. With tines of fork, press to make crisscrosses on each. (If

dough sticks to fork, dip the fork into flour occasionally.) Bake about 13 minutes. Makes 6 dozen cookies.

Cupcakes can be made in large batches, and frozen along with your sandwiches. Freeze them uncovered on a cookie sheet so that the wrapping doesn't stick to the frosting. Then wrap and store them. A frozen cupcake will thaw in the lunch box well before eating time.

These cupcakes have added nutrition in the form of some cottage cheese. Try them for an interesting variation in your cake serving.

Vanilla Cottage-Cheese Cupcakes
1 teaspoon soda
1/2 teaspoon salt
1/2 cup shortening
1/2 cup 1% milk
1/2 cup brown sugar, firmly packed
1/2 cup pure vanilla extract
2 eggs
2 cups sifted all-purpose flour
1/2 cup milk
1/2 cup 1% cream, cottage cheese
1/2 cup chopped raisins

Mix together soda, salt and shortening. Gradually blend in su-

gar and pure vanilla extract. Beat in eggs, one at a time. Add flour alternately with milk. Stir in cottage cheese and raisins.

Line cupcake pans with No. 110 spread tops (thinly with chocolate cupcake liners, into which late or maple frosting or, if de-spoon the batter, filling them 2/3 full, Bake in a preheated mod-

erate oven (375 degrees) 20 to 25 minutes or until a cake tester inserted in center comes out clean. Cool.

News of Service Personnel

Stationed near Wiesbaden, Germany, is Army Spec. 4C, E. Lee Strine, son of Mr. and Mrs. Ellis Strine, 2481 Union Lake Road, Union Lake.

A 1954 Walled Lake High School

Jan. 7, 1960, undergoing basic training at Fort Riley, Kan. He now serves with the 57th Ordnance Company. As a civilian he worked at General Motors Truck and Coach Division.

S.A. David L. Williams, son of Mrs. Edith C. Stevens, 75 Oak Hill St., recently was at the U.S. Naval Receiving Station, Norfolk, Va., undergoing precommissioning training in connection with the commissioning of the USS Enterprise (CVN 65). Sailors at the station are on their way to and from naval activities all over the world.

Army Pvt. J.C. William E. Stireman, son of Mr. and Mrs. William E. Stireman, 3325 Lawrence St.,

recently was named Soldier of the Month at Richboro, N.J., where he serves with Battery C, 60th Artillery Battalion, 24th Artillery Group.

He was cited for his high degree of job proficiency, outstanding military bearing and superior knowl-

edge of military subjects. A battery clerk, he received basic training at Fort Leonard Wood, Mo.

Marine Pvt. James L. Placumbe, son of Mr. and Mrs. Leon T. Placumbe, 49 Park St., Oxford, has completed a four-week individual combat training period with the 2nd Infantry Training Regiment at the Marine Corps base, Camp Pendleton, Calif.

Michael Luchenbach, FTA 3, recently was home on leave from the Navy after being stationed in France aboard the USS Des Moines for a year. A 1960 Pontiac Central High School graduate, he is now aboard the USS Forrest Sherman leaving Sept. 16 for a six-month cruise in the South Atlantic. He may be written: Michael Luchenbach, FTA 3, USS Forrest Sher-

man DD 931, c/o Fleet Post Office, New York, N.Y.

Recently home on a 14-day leave was S.A. Michael J. Shaw who reported to Portsmouth, Va., for submarine school Aug. 27. The son

of Mr. and Mrs. H. V. Shaw, 586 Berwick Blvd., he underwent recruit training at Great Lakes Naval Training Center. A former student at Pontiac Cen-

tral High School where he was active in basketball and swimming, he worked at Tom's Market before enlisting.

Musical Seaman Recruit Charles A. Parmenter, son of Mr. and Mrs. Albert A. Parmenter, 28 N. East Blvd., completed basic training at Great Lakes Naval Training Center Aug. 29.

A 1961 Pontiac Central High School graduate, he enlisted as a musician and has been playing first cornet in the training center band. He will spend a two-week leave at home before reporting to Washington, D.C., to attend the Navy School of Music for six months. He plans later to try out for the Navy Band or an appointment as a director at the Navy School of Music.

Only 1 New Case of Communicable Disease in City

Only one new case of a communicable disease was reported in Pontiac last week.

Twelve new cases of communicable diseases — six of hepatitis — were reported in Oakland County.

The Pontiac Health Department said the lone new case in the city also was hepatitis. Three of the four new cases reported in the city for the week ending Aug. 19 were also hepatitis.

The following is a list of cases of communicable diseases reported

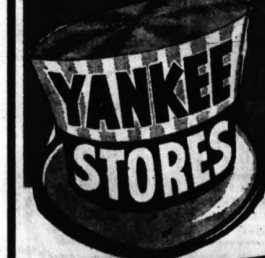

to the County Health Department the past two weeks:

	Week Ending Aug. 28	Week Ending Aug. 19
Chicken pox	1	1
Measles	1	1
Scarlet fever	1	1
Hepatitis	12	12

Geography for Warfare Still Most Essential

EAST LANSING (AP) — Nuclear weapons have not made land warfare or military geography obsolete, the Association of American Geographers was told.

The effectiveness of any armed force is still largely limited by geography, Louis C. Feltner, of the Midwest Research Institute, Kansas City, Mo., told the meeting at Michigan State University.

JFK to Reporters: West Wants Peace in Berlin

WASHINGTON (AP) — President Kennedy has assured the world that Western Allies, abhorring the risk of atomic devastation, will erect no barricade to the peaceful solution of the peril-laden Berlin crisis.

As of the moment, Kennedy said, a news conference Wednesday, he cannot be wholly optimistic about prospects for a negotiated settlement.

But the West, he asserted, is prepared to use all available channels toward a solution that will guarantee West Berliners "the right to live out their lives in a way of their own choosing."

In the meantime, he said every-thing—not excepting former Vice President Richard M. Nixon—should keep out of politics and out of foreign policy.

Kennedy met with newsmen as the government was receiving its first alerts from abroad that Moscow was planning a major announcement. When it came, the declaration that the Soviet Union would never use nuclear tests threw an ominous light on Kennedy's re-

mark at the conference that "there has been a good deal of brandishing of nuclear weapons."

BOTE KNOW

At that time Kennedy said he was conscious, and sure Soviet Premier Khrushchev was conscious, of what destruction nuclear war would bring.

Kennedy announced he was calling retired Gen. Lucius D. Clay from civilian life to serve as his

personal representative and add "to our resources of judgment and action" in Berlin.

Clay will exchange temporarily his \$150,000 job as board chairman of Continental Can Co. for the rank of ambassador on his return to his post.

He was the military commander who directed the airlift that overcame the Communist's ground blockade of the city in 1948-49. His popularity was demonstrated by the crowds that greeted him and Vice President Lyndon B. Johnson on their morale-boosting trip to West Berlin 10 days ago.

MINISTERS TO MEET

To restore to high level the West's emergency planning, Kennedy also announced that the Western Big Four foreign ministers will reconvene in Washington on Sept. 14.

In days ahead, Kennedy said the United States will be considering what new steps it may take and hoping all North Atlantic nations will contribute their utmost to the Free World alliance. As for chances of negotiating a peaceful settlement, Kennedy conceded, "I do not have information today which would make me wholly sanguine about the present prospects."

tempting to take any political advantage out of our present difficulties."

The West could not hold Berlin against a frontal Soviet assault, Kennedy said.

A record audience of 47 attended Kennedy's meeting with the press. For it, he wrote the chairman, the seat and purple tie that seem to be his regular news conference outfit.

He made these observations on other topics:

TO TRY AGAIN

School Aid—Admitted defeat in his effort to get Congress to provide funds this year for school construction but promised, "We will be back next year." School children, he maintained, and not the administration were the losers this year.

Steel Prices—Called on producers to absorb wage increases scheduled for October in order to avert another inflationary spiral. He said his economic advisers believe the steel companies can shoulder the increases without boosting prices and still show a good profit.

Auto Negotiations—Held the government aloof from talks between the United Auto Workers and General Motors, Ford and Chrysler.

Unemployment—Despite a "tremendous economic recovery," a hard core of unemployment still exists. He urged Congress to pass his bill for retraining jobless workers, but said other measures may have to be considered.

Foreign Aid—Called on Congress to appropriate as nearly as possible all the \$7.2 billion that he requested over the next five years in a compromise Senate-House Conference Committee recommendation.

Acting Vet Charles Coburn Victim of Heart Failure at 84

NEW YORK (AP)—Veteran actor Charles Coburn, whose distinguished face, gruff voice and prepared to use all available channels toward a solution that will guarantee West Berliners "the right to live out their lives in a way of their own choosing."

Lenox Hill Hospital Wednesday, shortly after undergoing minor throat surgery. He had entered the hospital Monday for a check-up for more than half a century, is dead at 84.

Coburn died of heart failure at 84, an energetic man more active than many half his age. Coburn came here after completing a 6-day run only Sunday night in an Indianapolis production of "You Can't Take It With You." The

Linda Christian and Purdom

Couple Claws to a Draw

ROKE (AP) — Linda Christian and Edmund Purdom scratched and slapped to a bloody draw in the unscheduled main event of a party two nights ago.

The background was the penthouse apartment of American actor and actress Linda Christian. Spectators included the complete cast of "The Mutiny," invited by Desny to a midnight dinner-dance.

Wine flowed. All were in a jovial mood except Purdom.

"He was in a black mood. Suddenly he whirled against the dancing Linda and shouted, 'Let's get out of here,'" said an eyewitness.

Jackie May Be Expecting Again

'Highly Placed' Sources Say She Has Shown Signs of Pregnancy

NEW YORK (UPI) — The New York Daily News said in a dispatch today's editions that authoritative sources have told the newspaper Mrs. Jacqueline Kennedy is expecting her third child.

A story from Washington signed by Frank Holman said that the President's wife appears to have shown signs of pregnancy, according to some newsmen who have covered the President's weekly visits to Hyannis Port, Mass., where Mrs. Kennedy is vacationing.

The news added, however, that a spokesman for Mrs. Kennedy in Washington said the report was "completely untrue."

The news story said that its sources for the report were outside the White House "but highly placed." The sources did not disclose when the baby was due, the news said.

The Kennedy's have a daughter, Caroline, 3, and a son, John F. Jr., who was born in November. Mrs. Kennedy had two miscarriages before giving birth to Caroline.

He began a movie career at the age of 60 and also appeared on radio and television, but he never lost his great devotion to the live theater, and he felt it was the only true training ground for actors.

Dem's Mansfield Sees Congress Quitting by Oct. 1

WASHINGTON (AP) — Democratic leader Mike Mansfield of Montana outlined a Senate program Wednesday that he said would make it possible, with full cooperation from all senators, for Congress to adjourn by Sept. 14 or 15.

But, he told his colleagues, "My guess is we'll finish closer to the first of October."

He left a fulltime career on the stage for the screen in 1937, on the death of his first wife, the former Ivah Willa. He had met her in 1935 while playing Orlando to her Rosalind in a touring company's production of "As You Like It."

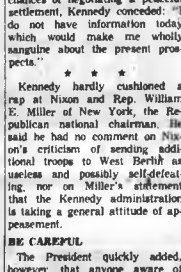

Demand Ransom of \$400,000 for Art

LONDON (UPI) — A note demanding nearly \$400,000 ransom for the Goya painting of the Duke of Wellington stolen from the National Gallery last week has been received by a news agency here, police said today.

Police are trying to determine whether it was authentic.

The note, printed on plain paper in block letters, said the ransom was to go "for charity."

Officials said the unsigned note was mailed in Northwestern London.

CHARLES COBURN

play drew the largest audiences in the Avondale Playhouse's 8-year history.

The stage performance was the last for a man who found his calling, his first success and the great love of his life on the stage.

He began a movie career at the age of 60 and also appeared on radio and television, but he never lost his great devotion to the live theater, and he felt it was the only true training ground for actors.

To Push School Aid Bill in '62

WASHINGTON (UPI)—The conservative House coalition that killed President Kennedy's public school construction bill moved today to deny him a book on effort to hang another school aid effort next year.

The House voted 242-189 Wednesday to kill the \$325-million construction bill, the key provision of the Kennedy education program. A few hours later, Kennedy told

his news conference that "although defeat today was quite clear, and although defeat today indicates it would be difficult to find a satisfactory formula, we will attempt to do so."

"Everyone is for education," Kennedy said, "but they are all for a different education bill... We will be back next year," the President promised.

In voting against the proposal Wednesday, the House also

knocked off two popular existing aid programs attached to the construction program as "sweeteners."

However, the two programs—"impacted areas" aid and portions of the national defense education program—were almost sure to be revived and approved separately.

But there was a difference of opinion on how long they should be extended.

FOR ONE YEAR ONLY
Kennedy Democrats wanted to

hold them to simple one-year extensions, presumably hoping to attach them next year to another general school aid bill.

Rep. Carroll D. Kearns, R-Pa., ranking GOP member of the House Education Committee, planned to push for action on his bill to extend the two programs for two years. This would take them out of any school aid battle next year.

The three-year "impacted areas" program pumps about \$12 million a year into 3,000 school districts in every state which claims to be crowded by the children of federal employees, servicemen and defense workers. The law providing about \$200 million of that aid expired July 1 this year.

The National Defense Education Act, in operation since 1958, distributes about \$250-\$300 million a year to college students for loans, to grade and high schools for science and other equipment purchases, and to educational guidance offices and other experts for clinics and studies.

It expires next July 1, but educators are pleading for an immediate extension to keep the program from petering out. The Kennedy bill killed Wednesday would have extended only the \$300-million-a-year student loan section.

General. 64. Has Experience

Clay is Best Troubleshooter for Berlin

WASHINGTON (AP)—Gen. Lucius Clay is a calm, tough-minded troubleshooter who works quietly behind the scenes to bring order out of chaos.

This is a major reason why President Kennedy named the soft-spoken civilian-minded general as his personal ambassador to Berlin.

KNOWS THE REINS

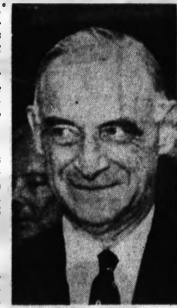

Another reason is that Clay is an expert on Germany's problems. He has been credited with knowing more about Communist tactics in that part of the world than any other Westerner.

Clay, 64, still slim but graying, served in Berlin from 1945 until 1948, first as deputy military governor and in 1947-48 as U.S. commandant at Berlin and U.S. military governor in West Germany.

He had a key role in the Berlin airlift that rescued the city from the Communist blockade of 1948-49.

He was hailed afterward by Congress as "the hero of Berlin," the man whose firmness in dealing with the Soviet Union saved Berlin for the West.

West Berliners fondly remember

GEN. LUCIUS CLAY

has been board chairman of Continental Can Co., a position worth \$150,000 a year.

Clay was born in Marietta, Ga., April 23, 1897. His father, Alexander Stephens Clay, was a U.S. senator from Georgia for 14 years and Lucius served as a Senate page for a time.

The general is a great-grandnephew of Kentucky's famous Henry Clay, U.S. senator and House speaker. He is married and has two sons.

"Not all London doctors agree that smoking is harmful!"

Segregation Charged in Highland Park

HIGHLAND PARK (UPI)—A show-cause hearing has been set for Tuesday in a suit charging that an elementary school in this Detroit suburb is "racially segregated."

Federal Judge Theodore Levin signed the show-cause order Wednesday following filing of a petition on behalf of the Massachusetts Ave. Improvement Association and four of its members who are parents of school children in the district.

Two of the parents are white, two are Negro. Their suit charges the local school board with expanding an area served by the school and eliminating a former option which would allow parents to send their children to other, unsegregated schools.

Kennedy Won't Take Hand in New York Race

NEW YORK (UPI)—New York City Democrats—fussing among themselves over nominating a candidate for mayor—will have to do without any help from President Kennedy.

Kennedy wasted no words at his Washington news conference keeping himself out of the intramural feud that has rent the party much to the delight of Republicans. He replied with one word—"no"—when asked if he favored either the insurgent faction of Mayor Robert F. Wagner or the regular organization group and its candidate, State Comptroller Arthur Levitt, in the Sept. 7 primary. Wagner himself continued his verbal assaults on his party's regular leadership, with opponent Levitt again taking a backseat.

Committee Approves Taxpayer Numbers

WASHINGTON (AP)—The Treasury's plan to assign permanent numbers to income taxpayers to speed up handling of the returns—and help catch dodgers—got the approval of the House Ways and Means Committee on Wednesday.

The Committee sent to the House a bill under which a taxpayer's Social Security number will serve as his permanent tax account number. Taxpayers who have no Social Security accounts will be assigned numbers if they later come under that system.

Cuban Workers Plan Promotion in Brazil

HAVANA (AP)—The Cuban Workers Confederation (CWC) announced Wednesday it plans to promote a world movement of solidarity with the Brazilian people against what it called "the fascist coup attempted by the servants of the monopolies and the Yankee generals."

It referred to Brazil's trouble over the presidency. The announcement said the group has contacted several labor movements.

Summer Was Hot Stuff in Good Old Days

There's no need now to be nostalgic about the good old days, especially during the hottest days of summer. Artificial refrigeration has radically changed the home-maker's lot.

In fact, one critic of modern times recently remarked that during the cook in superfluous for today's bride. "All she needs," he claimed, "is a pair of asbestos mittens to protect her hands while she delivers dinner out of the freezer and into the oven."

The luxury of refrigeration, though, was reluctantly accepted by yesterday's homemaker. She was highly suspicious of artificial ice because she believed it was unhealthy, and that any natural ice was acceptable.

She began to change her mind, however, following the unusually warm winter of 1890 (two years after the famous blizzard of '85) when the food she had stored in the pantry, cellar, spring house, and window boxes, spoiled. A serious epidemic of fever followed.

Doctors usually prescribed river or pond ice to reduce the patient's fever but since none was available they were obliged to try artificial ice. It worked fine. Homemakers decided then to try it, too.

DARING IDEA
Once artificial refrigeration was accepted by the consumer, Americans became the greatest fans of place eggs, flour, milk, salt, pepper

Fresh Corn Pudding Is Fine Summer Casserole

Plenty of fresh corn in the market and nutmeg in bowl and beat until

It's delicious on the cob smooth with rotary egg beater. Add corn, mushrooms including cornucopias. This baked corn pudding is an excellent accompaniment.

Pour into a 1½ quart baking dish. Bake in preheated 325 degree oven until sharp knife comes out clean when inserted in center, about 1 hour. Serve immediately. Makes 4 to 6 servings.

Baked Corn Pudding
1½ cups finely sliced onion
1½ cups sliced onion
2 eggs
2½ cups milk
2½ cups corn
1½ cups sugar
1½ cups butter
Dash salt
Dash pepper
Dash nutmeg

1. Sauté onion in butter until soft. 2. Add corn, sugar, salt, pepper, nutmeg. 3. Mix well. 4. Add eggs, milk, butter. 5. Bake in 325 degree oven for 1 hour.

Loved by Teenagers

Picknick teens will "take off" when they taste Angel on Wings, a toasted-over-the-coals dessert. For each "angel," toast 2 slices of loaf angel food cake (on both sides), using a long-handled wire grill, fork, or skewer.

In between the hot cake slices, sandwich these delectables: a 2-inch square of milk chocolate; 2 in. of hot, toasted marshmallows; and a second square of chocolate. Press cake slices together — the chocolate and marshmallow will combine for a heavenly meltaway filling.

because it leaves no sugar, "aftertaste."

Another dramatic chapter was added to the history of food too with the recent introduction of instant tea. Instantly soluble in water from the cold water tap, instant tea can be prepared in seconds and costs only about a 3½ cents a glass. Selling it to passersby for a nickel a glass is becoming a big — and profitable — business for small boys.

Besides complimenting any kind of menu, homemakers find instant tea takes to party touches like no other beverage. With instant tea, making punches and festive drinks is quick and easy.

Here, for example, is all there is to making "Perfect Party Punch":

Make up a quart of instant tea (4 level tablespoons to 1 quart water from the cold water tap), add a 6-oz. can of frozen lemonade concentrate, or your favorite fruit juice. Pour over-ice cubes in a punch bowl, and garnish with fruit slices. As an added touch, you may want to add beauty to the ice cubes by freezing a sweet cherry or some mint leaves inside them.

These flavorful and eye-catching punch-quenchers were impossible to resist in the "good old days" before artificial refrigeration and instant tea.

Mexico City — As late as 1900 two per cent of Mexicans owned 70 per cent of the land.

Granny's Bread Had Less Vim

CLEVELAND — Why today's loaf of enriched bread is a better buy in nutrition than grandmother's bread of yesteryears was revealed by the nutritionist Dr. Henry Borsook, California Institute of Technology recently. As he reviewed changes in eating habits over the years, he told why the hard-to-get nutrients — thiamine, iron, and niacin — were added to bread in 1941.

Dr. Borsook spoke here at a dinner meeting of food editors and educators, held in observance of the 20th anniversary of bread and flour. The American Institute of Baking, Chicago, hosted the dinner.

"Although people at the turn of the century worked harder physically," the nutritionist said, "and consumed more calories — 3,600 to 4,000 daily — often they were not as well nourished as the average person today."

The dietary characteristic of our times is to eat less food, many persons doing well on less than 2,000 calories a day, Dr. Borsook commented. With current emphasis on fewer calories and weight control, the nutritionist offered this caution: Only one of the 40 essential nutrients — calories — can be reduced and health maintained.

Under these circumstances, the

speaker concluded, the calories from bread today, unlike those provided by grandmother's bread, need to carry with them a large contribution of essential nutrients — vitamins and minerals. "This," Dr. Borsook pointed out, "has been made possible through enrichment of white bread."

Gourmet Type Dressing for Bean Salad

"Blue-Cheese Blue Lake Salad" makes a quick, but very sophisticated, dish for family or company. Tender blue lake green beans from the Pacific Northwest marinate in an herb-seasoned dressing. Dried tarragon and tarragon vinegar add subtle, distinctive flavor. Mound beans in lettuce cups for an extra-special entrée accompaniment.

Blue-Cheese Blue Lake Salad
1 (1-pound) can blue lake green beans
1 cup crumbled blue cheese
1 cup mayonnaise or salad dressing
1 cup commercial sour cream
1½ tablespoons tarragon vinegar
1½ tablespoons dried tarragon
Dash pepper

Drain beans, place in bowl. Combine remaining ingredients, pour over beans, tossing to blend. Cover and refrigerate several hours to blend flavors. Mound beans in lettuce cups to serve. Makes 4 to 5 servings.

An American farmer in 1900 raised four for himself and one-third of another. Today's farmer grows food for himself and 15 others.

PEACH ALMOND PIE — While fresh peaches are on the market, make Peach Almond Pie. Quick-cooking tapioca is the thickener for the filling, and because it has no color or flavor of its own, the fruit stays bright-colored and fresh-flavored. . . . and the pie thickens to perfection right in the oven.

Almond Flavor Brings Out Taste of Peaches

Peach Almond Pie is a summer. Press ends to edge of bottom crust. desert . . . fresh peaches, sunny Flute edge.

Bake in hot oven (425 degrees) 45 to 50 minutes, or until syrupy looking lattice crust pie shell. An extra touch of almond flavor — not burnt. Cook at least 1½ hours. ing brings out the marvelous flavor of the peaches. A garnish of cream cheese rolled in chopped almonds makes the pie pretty while it adds interesting texture and flavor.

The pie filling is thickened with quick-cooking tapioca to help keep the fresh flavor and color of the peaches. Then too, when tapioca is used there is no top-of-range cooking necessary . . . the pie thickens perfectly right in the oven. When you cut the pie, the peach slices will stay nestled in the wedge of crust . . . the juice will be clear and sparkling and a little will run onto the plate . . . that's perfect thickening. This pie is delicious served chilled with the cream cheese suggested in the recipe, but for a dessert that is irresistible, even to the most ardent of calorie counters, roll spoonfuls of very firm ice cream in chopped almonds and serve the pie a la mode.

Peach Almond Pie
2½ to 3 tablespoons quick-cooking tapioca
¾ to 1 cup sugar
4 eggs
1½ cups sliced fresh peaches
1½ cups almond extract
Pastry for two-crust 9-inch pie
1½ cups butter
Cream cheese balls (optional)

Combine tapioca, sugar, salt, peaches, lemon juice, and almond extract. Let stand about 15 minutes. Roll half the pastry thin (less than ¼ inch thick). Line a 9-inch pie pan and trim pastry at edge of rim. Roll remaining pastry thin (less than ¼ inch thick) and cut into ½-inch strips.

Fill pie shell with peach mixture. Dot with butter. Adjust pastry strips in lattice across top of pie.

Mold Creamy Soup With Vegetables

Soften 2 envelopes unflavored gelatin in ½ cup cold water. Mix two 10½-ounce cans condensed cream of celery soup with 1 soup can milk. Heat.

Add gelatin. Heat to boiling. Remove from heat and cool until slightly thickened. Stir in 1 package frozen mixed vegetables, ½ cup chopped green pepper, 1 tablespoon chopped onion and 1 teaspoon onion salt.

Turn into lightly oiled 1½-quart mold. Chill until set. To unmold, loosen edges and shake mold. Invert over serving plate. Makes 6 to 8 servings.

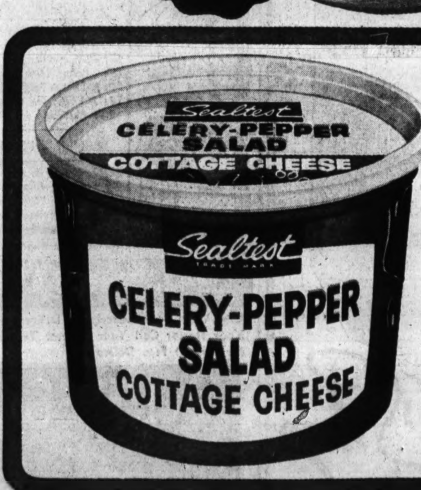

Sparkling Pies

For a satiny shine on summer fruit pies, brush the top crust with evaporated milk as it pours from the can before popping the pie in the oven to bake. A sprinkle of granulated sugar adds extra sparkle, too.

Just what you'd expect from Sealtest ...a truly inspired cottage cheese!

Sealtest
COTTAGE CHEESE

WONDERFUL FLAVOR...AND TEXTURE

SEALTEST CELERY PEPPER SALAD COTTAGE CHEESE! Perfect as only Sealtest makes it! Deliciously blended with tasty bits of celery and the fresh, zesty goodness of green and red peppers — and all with that special Sealtest touch.

A DELIGHTFUL TREAT FOR EVERYONE

You'll be sure to delight everyone at your house with this tasty Sealtest surprise. Watch how tired appetites respond to the sparkling flavor of SEALTEST CELERY PEPPER SALAD COTTAGE CHEESE.

MAKES "GOOD THINGS" EVEN BETTER

This delicious Sealtest treat adds a "just right" flavor touch to soups, sandwiches, omelets...makes a completely wonderful salad all by itself. Ask for SEALTEST CELERY PEPPER SALAD COTTAGE CHEESE...at your store or door.

MICHIGAN BELL

Pemant Jitters Not Cause of Tiger Errors, Says Scheffing

Chisox Thorn in Bengal Bid to Catch Yanks

Foytack Tries to Gain Final Game of Series Today for Detroit

DETROIT (AP) — Is pennant race tension gnawing at the error-plagued Detroit Tigers as they look ahead to their big weekend series with the New York Yankees?

"Don't you believe it," scoffed Manager Bob Scheffing. "We're not playing tensed up baseball. This Chicago team still is a good ball club and when they get pitching like they got in the last two games they're tough to beat."

The White Sox defeated the Tigers 7-4 Wednesday night behind Juan Pizarro's lurching pitching and dropped them 2½ games behind the leading Yankees.

It was the second straight loss to Chicago for the Tigers in their brief home stand before leaving Yankee Stadium for three games starting Friday night.

Scheffing expects to have Norm Cash, the league's leading batter with a .366 average, back for the Yankees—and possibly even for today's final with the White Sox.

Cash missed Wednesday night's game after he complained of blurred vision and dizziness. He was rushed to an eye specialist.

The Tigers have committed six errors in the two Chicago games and allowed three unearned runs.

"Chisox Fernandez" says Tuesday night permitted the winning run to score in the Sox's 4-3 triumph. Rocky Colavito dropped a routine fly ball Wednesday night and the Sox converted the misplay into a first-inning run. Later reliever Hank Aguirre, attempting a common pickup throw to first, tossed wildly and it fell to another Chicago tally.

"We've been making too many errors," said Scheffing. "but I don't think it's because we have the jitters."

The Tigers also had their troubles with the umpires. They screamed for 10 minutes during the ball Colavito dropped. He had possession and the ball was his to retrieve to end the glove.

Bill McKinley, umpiring at third base, originally ruled it a caught ball. But when Manager Al Lopez protested, McKinley conferred with second base umpire Hank Soar and reversed himself. It helped the Sox to their first run and was a key play in the game.

"If they rule it the other way," Scheffing said, "Jim Bunning's still pitching and the score's tied 3-3 instead of 4-3 in the seventh."

With the White Sox ahead as a result of the disputed first inning run, Scheffing was forced to lift Bunning in the seventh for a pinch-hitter.

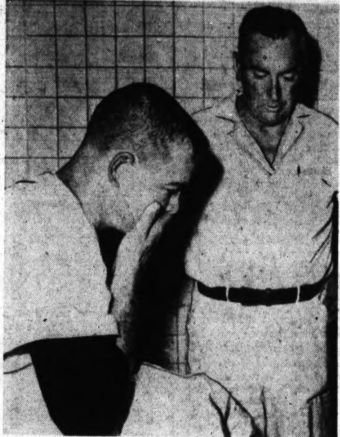

"I don't have to lift Bunning. Then the Sox don't get three runs off my bullpen in the eighth and Benji Berrios's home run wins it for us 4-3 in the ninth."

AILING SLUGGER—Norm Cash, the leading hitter in the American League with a .367 batting average, sits slumped after taking ill last night prior to the game with Chicago. He complained of dizziness and blurred vision and was taken to the hospital for a check. Trainer Jack Hamel gives him attention.

Cash Normal Again

DETROIT (UPI) — A pall of fear temporarily hung over the Detroit dugout last night when Norm Cash, the Tigers' star first baseman, was stricken prior to the Detroit-Chicago game with a "mystery" ailment that affected his vision.

However, a subsequent examination by Dr. B. J. Heelan, a Detroit eye specialist, revealed there was nothing wrong with Cash's eyes.

"We can't tell yet," Heelan said, "but it's probably flu or maybe even a touch of nervous tension."

The Tigers' team physician, Dr. Russell Wright, agreed with Heelan saying, "the ailment is outside the eye but is affecting it." Wright changed his earlier decision to hospitalize the American League's top batsman overnight and allowed him to return home.

"There's a 50-50 chance he will be able to play tomorrow (Thursday) against the White Sox," he added.

The first baseman was taking infield practice with his teammates when he suddenly began repeating: "I can't see, I can't see."

Cash's face was flushed and he was sweating heavily as he left the stadium with Wright, headed for Heelan's office. "It hit me all of a sudden," Cash said. "One minute I felt fine. Then everything became blurred, my head hurt and I started to get dizzy."

Wright said Cash told him that earlier yesterday he felt pains in his forehead.

Harlan Dean Captures Hambletonian Classic

DU QUOIN, Ill. (AP) — Frost event have been set each year at DuQuoin, climaxed Wednesday by today for Del Miller, veteran harness racing trainer-driver, if Harlan Dean, a Hambletonian director, has been in influential force in keeping the race in the stonier place surroundings of DuQuoin.

The present contract expires after 1962.

Miller, 46-year-old baron of Meadowlands Farm in Pennsylvania, is part owner of Harlan Dean with Max Hempel and Royal Cleveland.

Harlan Dean, driven by Miller's long-time assistant, Jimmy Arthur, Wednesday won the Hambletonian with a record performance of successive mile heats in 1:58.25 and 1:59.

Miller today will head a behind-the-scenes fight to keep an Eastern brood of Hambletonian directors from voting to move the premier grand circuit event from DuQuoin to the pari-mutuel windows of Vernon Downs in upstate New York.

The Hambletonian has been held at the DuQuoin State fairgrounds since 1957, when it was shifted from Goshen, N.Y.

Attendance records for the

Mickey and Stafford Star as Yanks Beat Twins, 4-0

MINNEAPOLIS, ST. PAUL (AP) — Mickey Mantle had just swatted his 47th home run, but there was little talk in the New York Yankee dressing room about that. Everyone was more concerned over how second place Detroit came out with Chicago, 1967.

Most of the Yankees had left when the final score was posted: Chicago 7, Detroit 4.

That, coupled with New York's 4-0 victory over the Minnesota Twins behind the four-hit pitching of Bill Stafford Wednesday night, put the Yanks 2½ games ahead of the Tigers.

"There isn't much talk about the home runs," explained Yankee Manager Ralph Houk. "The boys are more interested in winning the pennant."

That feeling carries even to statistician Bill Kane, who makes no mention in his press sheet of how close Mantle and Roger Maris, who has 51, are to Babe Ruth's record 60 homers.

The pennant fever was best exhibited by Maris, who risked an injury sliding hard into Minnesota second baseman Billy Martin when Martin was attempting to complete a double play. The ball sailed into the Twins' dugout and resulted in the Yanks' first run.

GENTLE RED HOT

The hottest home run slugger of the moment, Jim Gentile, belted his 43rd as third place Baltimore walloped five homers and crushed Los Angeles 11-4. There were six home runs in the game, upping the total hit at Wrigley Field to 204, a one-season record for an AL park. It was Gentile's seventh home run in nine games, but he's six behind Ruth's pace for 136 games.

Cleveland clobbered Washington, 9-0 for the Senators' 12th straight defeat, and Boston whipped Kansas City 9-3.

Gentile had three hits and drove in four runs, snatching the RBI lead from Maris with 124, for the Orioles, who picked up their other home runs from Jackie Brandt, Earl Robinson, Ron Hansen and Jerry Adair in support of Jack Fisher (6-11). Don Moeller (4-8) was the loser.

Ted Kuszewski homered for the Angels who have totaled 59 home runs to 105 by the opposition at

Haggarty, 59, Wins Again

Bloomfield Hills Crown Stays With Left-Hander

By BILL CORNWELL

It took quite a spell for south-paw George Haggarty to win his first club championship at Bloomfield Hills Country Club.

But once he nailed down that first one, he must have decided he didn't want to give it up.

Haggarty claimed his first men's title a year ago at the age of 58. This year he repeated as club champ at the Hills by shooting a 58 victory over George Webb.

Golfing crowds seem to be rarities among portlanders, but Haggarty proved his successful title defense was no fluke by shooting an excellent two-under-par golf against Webb in their scheduled 36-hole match.

Mrs. J. S. Kerr won her first women's club crown at Bloomfield Hills by defeating Mrs. C. H. Whitlaw 6-5 in an 18-hole final.

Robert Prymusk of Birmingham won the club championship at Stonycroft with a 5-2 triumph over Elliott Arkes of Royal Oak in their 36-hole battle.

Prymusk seized a 1-up advantage on the 17th hole and led Arkes the rest of the way.

The women's crown at Stonycroft went to Gerry Hengel of Bloomfield Hills, who sank a 5-foot putt on the 18th hole to edge Jean Perkins of Birmingham, 1 up.

Chuck Granader won the men's title at Birmingham C.C. with a 5-1 victory over Gale Stringer.

Mrs. Gale Stringer made up for her husband's misfortune by winning the women's crown with a 5-0 hole medal total of 55-58-270.

Joe Greenberg retained his championship at Knollwood with a 1-03 rout of Dick Fynke while Mrs. J. G. Israel continued her domination of the women players by winning the title for the 10th straight year.

Mrs. Lew Smead totaled 84-87-261 to annex the women's crown at Oakland Hills. The men's title at Franklin Hills went to Harry Huber for the 6th time. Huber's 72-hole score of 312 was eight

strokes better than runnerup David Rose.

Orchard Lake's 1961 club titles went to James Sheridan and Mrs. W. L. Mosher Jr. The women's title at Plum Hollow was won by Mrs. David Grant Harper over a 5-hole match.

Chuck Helek won the men's club championship at Farmington C.C. while top honors in the women's division went to Mrs. Betty Leonard.

Other top honors will be decided over the Labor Day weekend at seven private Oakland County clubs — Tam O'Shanter, Edgewood, Oakland Hills, Red Run, Pine Lake, Indianwood and Plum Hollow.

Club titles at Forest Lake and Twin Beach will be decided a week or so later.

Award Trophies as Silver Lakers End '61 Season

A day of golf, a luncheon and the awarding of trophies at Morey's Country Club climaxed the end of another year for the members of the Women's Silver Lake Golf League.

End-of-season awards were presented to the following players: Most points — Mrs. Pat Hoover; low putts — Mrs. Irene Daniel; most improved — Mrs. Margaret Wood; low gross — Mrs. Jean Leoney; Macdonald traveling trophy — Mrs. Shirley Frederickson and Mrs. Daniel.

In the golf outing at Morey's, Mrs. Leoney and Mrs. Fran Martz each shot 48 to share low gross honors. Mrs. Katie Freeman was the best putter with 13 and Mrs. Natalie Potter won the "blind hole" event with a par 3 at No. 5.

The league also held its annual 3-day tournament at Silver Lake to officially close the 1961 schedule there and flight winners included:

First flight — Mrs. Audrey Stimpert; 2nd flight — Mrs. Mildred Gegoux; 3rd flight — Mrs. Margaret Lally.

Ex-City Man Bags Ace

A former Pontiac resident, Walter Bakeman, scored a hole-in-one Wednesday at Springdale Park, Birmingham's municipal golf course.

Bakeman, who now lives at

1981 Tenth in Royal Oak, and Springdale's 187 yards 7th hole with a 4-iron. He carded a three-over-par 71 for the round.

Witnessing Bakeman's ace were Bob Finler of Southfield, Tom Durie of Warren and Ray Arnold of Royal Oak.

U.S. Women Swimmers Lose Two in Germany

DUESSELDORF, Germany (U.S. women's swimming team failed to live up to its usual standards Wednesday night, winning two and losing two events in points respectively.

an international meet. Surprise of the evening was the victory of Germany's diving star, Ingeborg Busch, who scored 125.27 points and beat America's Joil Dina Letz and Barbara McAllister, who had 122.52 and 118.59 points respectively.

Holiday Horseshoes

The Pontiac Parks and Recreation Department's annual Labor Day horseshoe tournament will be held Monday at Oakland Park. Singles competition starts at 9 a.m. and doubles at 3 p.m. Trophies will be awarded.

Southfield High Is County Site for 8 Classes

Detroit Power Squadron to Award Certificates Upon Completion

Registration dates for the free courses in Boating for new boat owners were announced today by the Detroit Power Squadron.

Classes will start at 7:00 p.m. at these locations:

September 11th, Eastland Center, September 12th, Southfield High School, September 13th, Highland Park High School.

Classes meet once a week for eight weeks and cover such subjects as rules of the road, boat handling, safety, equipment, charts and compass, aids to navigation and many other subjects.

On completion of the course, a certificate is awarded by the U.S. Power Squadron. In addition, the Michigan State Waterways Commission will issue a second certificate.

New boat owners, prospective owners and old hands will find the free course worthwhile. Among the subjects covered are: rules of the road, boat handling, safety, equipment, charts and compass, aids to navigation and many other subjects.

Many families take the course, learning good boating practices together.

Plastic Sandwich Box Is 'Kit for Killjoys'

Does your boat have one of the "kit for killjoys" recommended by the Mercury outboard people? Kept aboard your boat, the kit takes little space and will ensure many a frown during the season.

One family managed to cram all this into a dime store plastic sandwich box: eight cigarettes in foil, a book of matches, two tea bags, two bouillon cubes, two sugar cubes, small roll of plastic tape, small roll of fishing reel grease, cement, two threaded needles, several buttons, cotton pins, safety pins, tacks, rubber bands, fish hooks, postage stamps in wadded paper, several feet of fishing line, vials of insect repellent and sunburn lotion, midge container of talcum powder, aspirin, pencil, fly net, paper, sandpaper, bottle of size cake of soap, toothpicks, single-edge razor blades, and chap stick.

Bbed the box with several feet of friction tape and wrap the entire container with several layers of aluminum foil, both of which might also come in handy.

Nicks Steal Power

Take Good Look at Prop

When did you last take a good look at your propeller, not just to see if it was still there, but to check it for nicks and cracks? On a fast boat, for example, even a moderate nick in the leading edge of the propeller can cause cavitation, or loss of grip on the water. Battered leading edges can steal a lot of power.

Many nicks can be filed smooth, then polished with fine abrasive paper. Take care to remove no more metal than needed to round out the nick. A battered leading edge can be smoothed off with a file or sandpaper, and then polished with fine abrasive paper. Take care to remove no more metal than needed to round out the nick.

Un-numbered Boats Irk Secretary of State Hare

LANSING (UPI)—Secretary of State James M. Hare expressed surprise today at a report boats in Oceana and Mason counties in Ohio are in trouble because they did not have their vehicles numbered as required.

"We don't have any backlog of requests for numbers now although requests for registration transactions are coming in steadily at a rate of about 625 a day," Hare said.

The secretary of state said the report from the Lansing area that a number of people were arrested for failure to have boat registrations was the first he heard.

"We generally urge all sheriffs and local authorities to give boaters time to get their numbers from us if they can show a receipt that they have applied for them," he said. "Of course we cannot force them to accept the receipts but they generally do."

Horace E. Bradshaw, director of the secretary of state's administrative office, said all officials accepted the pre-numbered permit and many accepted other proof.

Boaters Should Be Conscious of Good Ropes

Are you rope-conscious, Mr. Outboarder?

You should be, says the Mercury outboard people, because the proper selection and care of rope is one of the most important factors in the safe operation of your outboard rig.

An outboard's anchor line, for example, can be an all-purpose piece of equipment. It has many other uses besides connecting the anchor to the boat and should be chosen with care.

The anchor line should be strong enough not only to withstand the pull of the anchor but also to have enough reserve strength for emergencies. You might want to use it some day to tow a crippled boat to safety, or to secure your craft midway between piers so that a storm will not bang it against the piling.

Shun cheap ropes. Yacht grade manilla or nylon are the most durable and reliable and are sold in a wide variety of sizes. Choose at least five-sixteenths-inch rope; three-eighths is even better. Larger sizes require a choice between strength and bulk—rope that's awkward to stow is a nuisance aboard.

Outboard Marine Corp., Waukegan, Ill., will manufacture a line of 17-foot inboard pleasure boats of reinforced plastic construction powered by the company's new 30-horsepower stern drive unit, W. C. Scott, president of OMC, made the announcement. Boat construction will be done early in 1962 by OMC's Special Products Division, in Waukegan, under general manager Harris O. Ewald.

Watkins Lake Sailor Wins at Port Huron

Guy Duffield, Frank Fleck and Ray Franklin were the mile winners of the Watkins Lake weekly Sunday races while Karl Kreitz, Norm Ledwin and Harmon Gilles took the honors in triathlon.

Five members of the club trailed their boats to the Port Huron Yacht Club Invitational Regatta last Saturday and Bruce Breda captured a first place trophy.

Dave and Jo Ann Green took second place.

Grain Prices Firm 1st Time This Week

CHICAGO (AP) — The grain futures market turned generally firm today, the first movement in that direction this week on the board of trade.

Wheat moved up major fractions of a cent a bushel during the first several minutes. Corn and soybeans eased in spots. Brokers said the support included both short covering and reinstatement of long positions and that it may have been linked in part to the Soviet Union's decision to resume nuclear testing.

Fast Tide Drowns Two

PEACEHAVEN, England (U-P)—A fast tide swept in and cut off a group of holidaymakers on the beach here Wednesday, drowning a man and a boy. Eight people were rescued by ropes and ladders

suspended from a cliff top as the water lapped higher.

About 100 pounds of separated milk are needed to produce nine pounds of nodal dry milk solids, a man and a boy. Eight people were rescued by ropes and ladders

Soviet Citizen to Be Shot

MOSCOW (U-P)—A Soviet citizen has been sentenced to be shot for stealing cloth from railway freight containers, the Soviet press reported Wednesday.

It said A. V. Goryshkov and

11 accomplices stole goods valued at about \$200,000 by using phony documents. What happened to the accomplices was not reported.

The trial took place last week in "The House of Culture" of a Moscow ball-bearing factory.

State Freeway Mileage Doubles in Ten Years

GRAND RAPIDS (U-P)—Freeway mileage in Michigan, now at a total of 585, has nearly doubled in less than two years, according to

State Highway Department Chief Engineer John E. Meyer.

He also said Michigan's freeway system will double in length again within another two years. Meyer spoke in Grand Rapids Wednesday at the opening of a new

single strip road between Grand Rapids and Detroit.

One major life insurance firm now estimates there are no less than 8.5 million widows in the U.S., based on 1960 census figures.

To Attend Finance Parley

LONDON (U-P)—Chancellor of the Exchequer Selwyn Lloyd will lead a British delegation to a meeting of Commonwealth finance ministers at Accra, Ghana, opening Sept. 12, it was announced Wednesday.

U.S. Bides Time Before Making Move

WASHINGTON (UPI)—The White House today described the Soviet decision to resume nuclear testing as "a form of atomic blackmail, designed to substitute terror for reason."

From Our News Wire
WASHINGTON—The United States will let the full impact of Russia's plan to test monster nuclear bombs sink in around the world before it announces any decision on U.S. tests.

President Kennedy arranged that the Soviet move to end a

urgent meeting with Cabinet and congressional leaders today and Friday, but has ordered there will be no "shooting from the hip" in response to the Kremlin decision to resume Soviet nuclear weapons tests.

Congressional leaders from both parties were among those who gathered at the White House for today's emergency session. Most of them endorsed by a side door and did not talk to newsmen.

Kennedy said Wednesday night that the Soviet move to end a

Reuther, GM Talking; AMC Contract Done

DETROIT (AP)—With a profit-sharing plan finally buttoned up from top to bottom at American Motors Corp., United Auto Workers President Walter P. Reuther renewed pressure today on General Motors Corp. to provide new worker benefits.

Reuther headed for the GM bargaining table again after going there Wednesday for the first time since contract negotiations opened June 28.

The UAW president took with him a threat to strike GM at 10 a.m. Sept. 6 if no agreement is reached by then. The Union's international executive board gave him GM strike authority Tuesday night.

Reuther and AMC President George Romney announced

East Soldiers Fleeing to West

Count Now Reaches 56 in 19 Days as Another Swims Canal

BERLIN (AP)—Fifty-six members of the German armed forces have fled to the West since the Communists sealed the border in Berlin 19 days ago, West Berlin police reported today.

Most bailed while building barges of barbed wire and concrete to stop other refugees.

The UAW let bargaining with Ford Motor Co. and Chrysler Corp. simmer. UAW negotiators at three two-week sessions on reshaping plant-level wage agreements, pending a pattern-setting national economic pact at GM.

Reuther and AMC President George Romney announced

A Look at Union Pact With AMC, Page 16

Wednesday agreement in principle had been reached on local terms covering AMC's plants in Kenosha and Milwaukee. Wis.

AMC's profit-sharing plan was made contingent on workers giving up some privileges they now enjoy at AMC. Romney said there had been "significant cost reduction through changes in local plant practices" but declined to put a money estimate on it.

Neither he nor Reuther would go into details about how much of 44 minutes of daily rest time had been given up by the union, or just what changes had been made in heretofore rigid rights of seniority workers to claim jobs of less experienced men.

AWAIT OKAY

They said details must await reports to local Union members and their ratification of the changes.

Louis G. Steiner, a GM vice president and child negotiator, said after Tuesday's bargaining with Reuther: "We were exploring the problems they say they have... we were following sections of the national agreement where they think they ought to have changes."

Seaton and other Big Three bargainers have rejected any profit-sharing approach to new agreements with the UAW.

Asked if GM could be expected to improve on its package proposal of last week, Steiner replied only that GM still is flexible.

You Good Taking Snapshots?

Turn In Photo, Win Bond

That "click" you just heard can be worth \$250 if the finished picture wins first prize in a photo contest being sponsored by The Pontiac Press Sept. 5-30.

Amateur photographers are eligible to compete for prizes totaling \$75 in U.S. Savings Bonds by submitting a black and white print of their favorite picture.

Winning photos will be picked on a basis of eye appeal, composition and clarity. Any subject held in good taste will be considered by the judges.

First prize will be a \$250 savings bond; second prize a \$100 bond; third prize a \$75 bond. There also will be 10 honorable mentions, each worth a \$25 bond.

Not eligible to enter the contest are professional photographers, employees of The Pontiac Press, or members of their families.

Photographs being entered must measure at least 2 1/2 x 3 1/2 inches. They must be accompanied by the name and address of the photographer and the identity of the picture subject printed legibly.

In cases where persons are shown in the picture, their written consent or that of their parents must also be enclosed with

three-year-old moratorium on nuclear tests "leaves the United States under the necessity of deciding what its own national interests require."

It was toward this end that he arranged a series of meetings today.

OFFICIALS ARRIVE
Vice President Lyndon Johnson entered the White House at 10 a.m. The limousines of Secretary of State Dean Rusk and Atty. Gen. Robert F. Kennedy were seen near the side entrance even earlier.

Administration officials believe there is time to sit back for the moment and let the public opinion against Russia's proposed 100-megaton superbomb—5,000 times the size of Hiroshima A-bomb—mount all over the world.

It was a foregone conclusion the United States could not let Russia alone build her nuclear arsenal, without U.S. testing. But tests could not be launched immediately in any case.

It appeared possible Kennedy might eventually announce tests were being prepared for a future date and that meanwhile he would call for United Nations condemnation of Russia.

Sen. Hubert H. Humphrey, D-Minn., chairman of the Senate Defense Committee subcommittee, urged Kennedy, personally or through Ambassador Adlai Stevenson, to lay before the U. N. the full story of the three-year futile effort to sign a test treaty with Russia. State Department experts saw in the Soviet announcement, made by the Tass news agency, a grim new Kremlin policy of toughness in total disregard for world opinion.

SENATE ANGRY

The announcement was met in the Senate by sner and sner. Kennedy, personally or through Ambassador Adlai Stevenson, to lay before the U. N. the full story of the three-year futile effort to sign a test treaty with Russia.

Several said the Soviet move underscored a need for the United States to drop its self-imposed restrictions and begin testing again.

Administration reaction came quickly after Moscow broadcast the decision which apparently caught Washington and other world capitals by surprise.

Kennedy issued a statement denouncing the Soviet step as a blow to the hopes for disarmament and a "threat to the entire world by increasing the dangers of a thermo-nuclear holocaust."

He called Ambassador Arthur R. Schlesinger Jr. home from earlier test has treaty negotiations with the Soviet Union at Geneva.

And word went out from the White House that in the next 24 hours the President wanted policy meetings with his defense, atomic energy and State Department advisers and with congressional chairmen.

The Communists began whipping up enthusiasm for Friday's visit by Soviet communist Gherman Titov. East Berliners were ordered to put out flags on their homes, in the streets and on factories.

Calm Before the Storm?

GOULART HEADS HOME — Brazilian President Joao Goulart prepares for a ride in an airport hotel at Idlewild Airport in New York after his arrival en route to Brazil. He claims the

presidency of his country but is having some trouble making the claim stick. It is reported that Brazilian aircraft have been ordered to intercept Goulart's plane at the border.

Brazilian Forces Ordered to Subdue Goulart Backers

RIO DE JANEIRO, Brazil — Brazil's interim government today ordered army, navy and air forces to subdue Joao Goulart's supporters in his stronghold state of Rio Grande do Sul.

The nation appeared at the edge of civil war.

Military sources in Rio de Janeiro said the 2nd Army was driving on the southern state, where the governor and commander have declared their support of Goulart in defiance of Brazil's military ministers.

But best available information from Sao Paulo, right hours after the government's order was that the 2nd Army had not moved. Sao Paulo, headquarters of the 2nd Army, is 600 miles northeast of Rio Grande do Sul.

Gen. Osvaldo Arango Porto, 2nd Army commander, issued a manifesto appealing for confidence of his men and said war minister Marshal Odilio Denys would "respect and obey" the supreme decision of congress.

Congress after much wavering finally voted to accept Goulart, the leftist vice president, as president. It had not yet taken a stand on how much power he would have as the successor of President Janio Quadros.

Goulart, who claims he is the rightful president, was seen South by air, with the supposed intention of returning to Brazil. He reached Lima, Peru, in his air ministry sources asserted air craft loyal to the government were ordered to patrol Brazil's border and intercept him.

Moscow Ends Bomb Ban With a Warning to West

MOSCOW (AP)—The Soviet Union today scrapped the three year moratorium on nuclear testing with a threatening warning to the West and a plea for understanding from the nonaligned nations the Kremlin is wooing.

Premier Khrushchev gave the go-ahead to his scientists to test new weapons ranging up to monster bombs with an explosive force of 100 million tons of TNT—5,000 times more powerful than the bomb dropped on Hiroshima in World War II.

The Soviets blamed the United States and its Allies for their decision to resume nuclear testing.

"It is an open secret," said a 6,000-word government statement, "that the United States is standing at the threshold of carrying out underground nuclear explosions and only waits for the first suitable pretext to start them."

France has exploded some bombs the statement said. The Soviet Union has decided to test new bombs and to add to the world-crushing nuclear arsenal it claims it already has.

The statement linked the government's decision to the Berlin crisis as well.

"The Soviet government has been compelled to take this step, whose significance it fully appreciates."

The United States was scheduled to provide at the next meeting which had been scheduled for Friday, and U.S. Ambassador Arthur H. Dean proposed today that the conference be postponed.

Dean was returning to Washington to talk with President Kennedy and Secretary of State Dean Rusk on the Soviet's latest action.

The British delegation headed by David Ormsby Gore agreed to the postponement and it was assumed in well-informed quarters the Soviet delegation was in favor of it, too. But the Western votes made postponement an accomplished fact anyway.

There was no immediate indication from the U.S. delegation how long the talks would be postponed, or whether they would ever be resumed.

Ormsby Gore said the "verdict of the world will no doubt be clear on this."

ASSURANCE 'A FRAUD'

In a statement before his departure, Dean said the Soviet's assurance that they would accept a nuclear test ban treaty after disarmament "is of course a fraud."

Dean said the Soviets clearly indicated they no longer were interested in a test ban treaty and were not negotiating in good faith.

Contrary to earlier reports, U.S. sources here said the Soviet decision to resume testing was not a complete surprise.

"In view of the announcement by the Soviet Union that it intends to resume nuclear weapons tests, I have been recalled to Washington to report to President Kennedy and Secretary of State Dean Rusk and consult on a future test-ban commitment," Dean said in his statement.

Dean said Russian Delegate Senyov Tatarskikh gave him no indication of such a move following the Soviet official's visit to Moscow.

clashes, under the pressure of the international situation created by the imperialist countries," it said.

"The policy of the leading NATO powers—the United States, Britain, France and the Federal (West) German republic—and of this aggressive bloc as a whole, leaves the Soviet Union no other choice."

DEATHS ENELL FOR GENOVA

The statement appeared to be the death knell for the Geneva talks after 33 sessions began in October, 1958.

President Kennedy charged the Soviets with endangering everyone on earth by resuming atomic testing. He called emergency conferences to consider whether the United States would follow suit.

Arthur H. Dean, chief U.S. delegate at Geneva, said Soviet negotiator Genovik A. Tatarskikh has never given any indication at all that this was coming.

British delegate David Ormsby Gore said "the verdict of the world will no doubt be clear on this."

Public Hearing Sept. 14 for Pontiac's Loop Road

Civil and business leaders were optimistic today at news that the State Highway Department has scheduled a public hearing on Sept. 14 for discussing the proposed perimeter highway around downtown Pontiac.

The hearing, required under state law, is slated for 8 p.m. on that date in the City Commission chambers at City Hall, announced State Highway Commissioner John C. Mackie.

The hearing date was set after discussions with City Manager Walter K. Willman last week.

The estimated \$3.5-million project has an Oct. 1, 1962 target date for starting construction, two years earlier than originally planned.

"This is an important step in the proposed perimeter highway project," said Assistant City Manager Robert A. Stierer.

PEASED AT DATE
"We are very pleased the highway department has scheduled the hearing this early in the overall program," he added. "The so-called downtown loop highway is a key feature in planned redevelopment of the central business district."

Purpose of the hearing will be to discuss the economic impact of the project and its influence on the community.

John W. Hurlinger, manager of the Pontiac Area Chamber of Commerce and Rensselaer, said the highway department moving ahead with the project plans.

"We're a street town right now. There's too much heavy traffic on Saginaw Street," he said.

Farmer Nabs Escaping Bandit

Gunman Who Helped Abductee Seized; Companion Killed

MENCKEN — One of two gunmen who abducted a motorist last night and fled in a sheriff's patrol car, was captured today by a farmer three miles north of here. His companion was killed earlier in a police chase.

Wielded by police was Thomas L. Stevens, 17, Detroit.

He was captured by a farmer, Bob Hawkins, who held him until police arrived. Stevens was unarmed and offered no resistance.

Police said Stevens' companion, identified as Gary Cooke, 20, Dearborn, was killed while attempting a getaway.

The sheriff's patrol car, with Cooke's driver's license, was smashed up. Police said they did not know whether the gunman had been shot to death by Sheriff Paul L. Lemoine or by the crash.

The motorist, Theodore E. LeGrow, 17, Cadillac, was released unharmed by the gunmen shortly after his abduction. The pair took his keys and fled in his 1960 Ford. He had been driving toward Cadillac from an auction at Flint.

ENTERED CAR — The men entered LeGrow's car at a traffic signal at the intersection of M-44 and M-105.

Police said the gunmen forced LeGrow to drive to Menck, but him out of the car and finally abandoned the auto when it ran out of gas two miles north of here.

Lance sighted the two men early today near Menck. After he stopped them, Lance said, Cooke jumped into the sheriff's patrol car and fled. Lance fired into the car which crashed north of here. An automatic revolver was found in the car.

Names Safety Weeks

LANSING — Gov. Swanson has proclaimed Sept. 1-8 as Labor Safety Week and Sept. 13-20 as Seat Belt Week. The governor urged on-the-job safety, safe driving and the wearing of auto seat belts.

Long Hot Spell Shows No Signs of Breaking Up

By The Associated Press — One of the summer season's longest spells of hot and humid weather in most of the eastern half of the nation didn't show much sign of a general break-up today.

However, some cool air slipped into western portions of Ohio Valley and northwestern part of New England. Showers also gave some spots temporary relief from the muggy weather.

The warm humid air spread over the South Atlantic and Gulf regions and reached far northward toward the Plains and Mississippi Valley to the Canadian border areas of Minnesota, Wisconsin and Michigan. The mercury climbed to an unseasonably high 90 in Detroit, Minn., and 90 at Marquette, Mich. Wednesday. It hit 100 degrees at Pierre, S.D., today.

The Weather

Full U.S. Weather Bureau Report — PONTIAC AND VICINITY — Fair and warm today and tomorrow with chance of thunderstorms tonight becoming heavy showers tomorrow. High today near 90, low tonight 63. Southwesterly winds 15 to 20 miles today, tonight and tomorrow.

Today in Pontiac — Highest temperature predicted 88 a.m. At 8 a.m. Wind velocity 8 m.p.h. Rain starts Thursday at 7:00 p.m. Sun starts Friday at 1:15 p.m. Moon starts Thursday at 10:40 p.m.

Deviation Temperatures — At Detroit: 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, JUST A LITTLE DAHL—Actress Ariane Dahl proudly shows off her new baby daughter, Carole Christian Holmes, at the baby's first picture-taking session, but she gets only a yawn for her efforts. Carole was born by Caesarian section Aug. 14 in Santa Monica, Calif. Her father is Christian Holmes III, wealthy real estate developer and heir to a yeast fortune.

African Diplomats Hit Racial Incidents

UNITED NATIONS, N.Y. (UPI)—African delegates to the United Nations pledged an all-out campaign today to obtain "complete satisfaction" in racial incidents involving colored diplomats.

Members of the 23-nation African group planned consultations with the Asian delegations on alleged "recurrent" mistreatment of black diplomats.

There were indications that the Afro-Asians may raise the issue in the General Assembly opening Sept. 19.

This would provide a propaganda opportunity for those diplomats—notably from the Communist bloc—who have insisted that the United Nations transfer its headquarters out of the United States because of abuses against foreign delegates.

Apology to Rusk for Slapping of 'Soapy' Williams

WASHINGTON (UPI)—Britain has apologized for the "disgraceful conduct" of a white settler who slapped Assistant Secretary of State G. Mennen Williams in Northern Rhodesia.

British Ambassador Sir Harold Caccia sent a message Wednesday to Secretary of State Dean Rusk expressing regret for the Monday night incident.

He acted on orders of the British and the government of the Federation of Rhodesia and Nyasaland.

Witnesses at the Lusaka Airport, Northern Rhodesia, said a white man grabbed Williams' lapels and struck him in the face just before the U.S. official boarded a plane for Leopoldville. The assailant was held for police.

Monsoons Flood Luzon

MANILA (UPI)—Raging floods caused by three days of monsoon rains have killed at least one person on Luzon Island and caused at least \$5 million damage to crops and property, it was reported today.

PENNEY'S

FOR THE RECORD—Photo technician Charles E. Jehle develops an accident picture in the police department's photo lab. Pictures are taken on the scene of all major crimes and accidents, often providing clues to the solution of cases.

'I AIN'T TALKING'—Most of the lost kids waiting for their parents to claim them at the police station never talk. They're too busy having a good time, according to Sgt. Telford E. Rogg, who holds 2-year-old Richard Fultz. He was relieved of his babysitting chores a short time later when Richard's mother, Doris Fultz, 32 Cherry Court, came in for her son.

SEIZED IN RAID—Three officers of the Special Investigations Unit, known better as the vice squad, examine drugs and hypodermic needles seized in the home of a narcotics peddler. Looking at the narcotics are (from left) Patrolman Thomas E. Larrison, Lt. William F. Nesbitt, unit commander, and Patrolman Gerald A. Navarre.

Pontiac Police Always Expect the Unexpected

By MAX E. SIMON

Sometimes he's a baby sitter . . . or a mediator in a family argument . . . or coach of a Little League baseball team.

He never knows just what his next job will be.

He expects the unexpected. He was trained that way.

He is a Pontiac police officer. Answering a call, he never knows what he's walking into.

Even the most routine assignment received by a patrolman via

his cruiser's radio may be fraught with peril.

NEVER KNOWS

As he steps into the doorway of a home where a domestic quarrel has been reported, he may be greeted by a blast from a shotgun. He never knows.

During his eight hours on patrol, he's liable to run into a youngster in pajamas wandering the streets.

Then it's back to the station where officers serve as baby sitters until the worried parents come for the child.

Sooner or later he'll race to a

home to help bring a new baby into the world. Older officers have delivered dozens.

There's a small headquarters army behind the man on the street.

Photographers who are summoned to take pictures of all major crime scenes and accidents . . . fingerprint experts whose files many times lead to the arrest of the wanted criminal.

MANY SPECIALISTS

Many others are specialists. The officer who investigates traffic accidents . . . detectives whose

responsibility may be the solution of burglaries, auto thefts.

One bureau of the department is devoted exclusively to training and research of new police methods and techniques.

And most officers devote lots of their off-duty time to supervising the city's youth in athletic activities.

Not only do they enjoy it, but they believe they're helping in the development of tomorrow's good citizens.

The modern policeman is an officer with his eye toward Pontiac's future.

CALLING CAR NO. 7—From police headquarters in the Public Safety Building, Sgt. Eugene Hendren orders a squad car to investigate a robbery report. Radio contact with all cars is maintained by headquarters.

CLUES IN CRIME—Patrolman Robert W. Beltz checks a set of fingerprints to see if they match those found by detectives investigating the burglary of a local store. Department files contain prints of some 13,000 criminals arrested in felony cases.

Kennedy, Nixon Not Too Friendly

Presidential Comments Reveal Hostility Similar to Ike-Truman Feud

By JACK BELL

WASHINGTON (AP)—Signs are appearing that there is developing between President Kennedy and Richard M. Nixon the kind of hostility that froze relations between Dwight D. Eisenhower and Harry S. Truman.

Kennedy's polemic rebuke Wednesday to his 1960 presidential opponent and to GOP National Chairman William F. Miller for criticizing his foreign policy actions was regarded by some as a safety valve operation letting off only a little of the steam in the President.

Associates have made no secret of the fact that Kennedy was greatly irked when Nixon got off some oblique criticisms of the chief executive's handling of the Cuban invasion fiasco after Kennedy had invited him to the White House to give him the full background.

NOT CONSULTED SINCE
Nixon told reporters he hasn't been consulted by Kennedy since. The President's temper reportedly has mounted as Nixon has continued to fire away at the White House. The boiling point may have been reached when the former vice president said that Kennedy's action in sending additional U.S. troops to Berlin was a "useless gesture and might be interpreted by Soviet Premier Khrushchev as a sign of weakness."

Given an opportunity to reply at his news conference, Kennedy said with apparent restraint that anybody who is familiar with the dangerous situation in Berlin ought to be "careful in attempting to take political advantage out of our present difficulties."

Senator Lashes at Bickering Over Anti-Red Methods

DETROIT (AP)—Liberals and conservatives spend too much time debating how to fight communism when they should join with each other to fight the threat, Sen. Thomas J. Dodd, D-Conn., said Wednesday night.

"We can no longer afford the luxury of exaggerating our political differences, of racial or religious bigotry, of emotional extremism on the right of emotional extremism on the left," Dodd said at Counterattack, an anti-communist conference at the University of Detroit.

The conference is sponsored by Education for American Freedom, Inc., a Michigan group organized last year.

MINUTEMAN EXPLODES—A cloud of smoke marks the blowup of a Minuteman ICBM Wednesday in an underground launching silo at Cape Canaveral. Scientists today examined high-speed photographs in an attempt to find out what went

wrong. The upper section of the 60-foot missile cleared the top of the pit, but the booster section blew up inside the chamber. Officials feel the mishap will not hold up the tight Minuteman testing schedule.

Wisconsin GM Workers Vote Solidly for Strike

JANESVILLE, Wis. (AP)—United Auto Workers officials said Wednesday that production workers at the two General Motors plants here have voted overwhelmingly to authorize strike action in support of contract demands.

Officers of Local 127 at the Chevrolet assembly plant said the vote, taken Monday and Tuesday, was 95 per cent in favor of strike authorization.

The vote at the Fisher Body works was 74 per cent in favor, according to Local 15 officials.

Louisiana School Law Means Revamped Aid

NEW ORLEANS, La. (AP)—to permit students to accept the St. Helena decision won't stop them from going to private schools from carrying out its segregated schools rather than to in private school plan, but the state's segregated schools.

It issued a temporary restraining order forbidding St. Helena Parish (County) from abandoning its public schools.

Rural St. Helena—some 60 miles north of New Orleans—voted overwhelmingly this summer to oust their school closing rather than accept integration. Some 1,000 white voters were registered and just over 100 Negroes.

"This sort of election," said the court, "is like having only the rats vote on a program for kittens and young mice."

Chairman Frank Voelker Jr. of the State Sovereignty Commission said the court's decision was, in part, "inaccurate, misleading and highly insulting."

But, he said, grants-in-aid are apparently entirely legal so long as public schools are not closed. "They are not closed in Louisiana and the state is making no effort to close them," Voelker said. "I do feel, however, our present grant-in-aid program needs considerable revision."

Louisiana has set up machinery

This Process Server Won't Be Unwarranted

DECATUR, Ill. (AP)—Local officials are conducting a drive to collect delinquent property taxes and have filed 1,000 suits.

To help serve warrants, Constable John R. Garner deputized William J. Gordy.

Wednesday the county clerk's office listed Gordy as one of the delinquents.

3 Children Die in Sand

SPOKANE, Wash. (AP)—Three small children were suffocated as a sand bank caved in on them as they were playing in a vacant lot Wednesday.

JOBS WHICH PAY MORE!

Will I be qualified for a job soon?

Your business courses in high school (if any), your career goal, and your talent and ambition will be decisive factors in setting your graduation date. A few months may be enough, at most, less than two years.

Is there a recession in business jobs? Definitely not. We have many more job offers than we have graduates. These positions pay excellent salaries, offer fine chances for promotion.

Hearts and Homes Open Up to New GIs in West Berlin

BERLIN (AP)—West Berliners have opened their homes and hearts to the U.S. soldiers stationed to this island city to defend it against Communist takeover.

Soon after the East German Communists brought down the Iron Curtain in Berlin, President Kennedy ordered a battle group of 1,500 soldiers from West Germany to bolster the U.S. garrison in the threatened city.

Since then the telephone hasn't stopped ringing in the town hall of the borough of Steglitz, the district where the battle group is quartered. Over 1,000 eager West Berliners call daily wanting to entertain the GIs. German officials said the whole thing had been spontaneous.

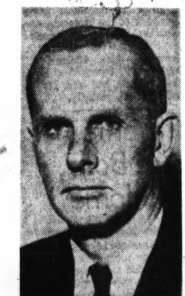

"There is such a rush, we had to set up an office to deal with the flood of requests," a borough official said.

150 GUEST PASSES

Last weekend there were several hundred invitations from West Berlin families. Only 150 of the 1,500-man unit were given passes to accept.

One them was Sgt. Richard

Wirth, 27, of Pottstown, Pa.

TAPPED BY JFK—Stewart L. Pittman, a Washington attorney, was nominated Wednesday by President Kennedy to be assistant secretary of defense in charge of the Pentagon's Office of Civil Defense.

Our Congressmen Vote on School Aid

WASHINGTON UP—Here is how Michigan congressmen voted Wednesday as the House returned to consider the administration's aid to education bill.

Democrats for: Duggs, Dingell, Griffiths, Leinick, Machrowitz, and O'Hara.

Republicans for: Brownfield.

Republicans against: Bennett, Cedarberg, Chamberlain, Ford, Griffin, Harvey, Hoffman, Johnson and Meader.

Recorded for but not actually voting: Rabast.

and Pfc. Michael Fitzsimmons, 22, of Troy, N.Y.

Hartman went to the pleasant apartment of the Krebs family in the Wilmsdorf district.

"It was a grand day and I've been around to the Krebses every night I could pick up a pass," he said.

COFFEE AND CAKE

Fitzsimmons went to the home of a local judge named Loch, his wife and sons 2 and 4. After a turkey lunch they drove out to a garden restaurant at Pfaueninsel (Peacock Island), a peninsula on the Havel River, for coffee and cake and then back to the Lochs for dinner.

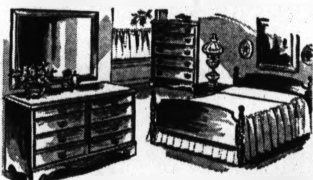

The Lochs told him they invited him to show their appreciation for the presence of American soldiers in West Berlin at the present critical time.

"I was overwhelmed by their hospitality," said Fitzsimmons. Neither Hartman nor Fitzsimmons had any language difficulties.

Flu Outbreaks to Hit This Fall

'Get Vaccinated, It Can Be Fatal,' Warns U.S. Health Department

WASHINGTON (AP)—Outbreaks of influenza are likely to hit the United States this fall and winter, the U.S. Public Health Service predicted today.

Dr. Luther L. Terry, surgeon general, urged immediate vaccination of people with heart disease, pulmonary disease, diabetes and other chronic illnesses; persons over 65; and pregnant women.

Those groups accounted for most of the 86,000 flu-triggered deaths between September 1957, and March 1958.

"We are probably due for some Asian flu outbreaks, since they come in two- to three-year cycles," Terry's statement said, "and we are overdue for type B flu outbreaks, which come in four- to six-year cycles."

"The most tragic aspect of flu," he added, "is that it is fatal to so many people who, in spite of their age or chronic impairments, could otherwise enjoy many more years of relatively good health."

He emphasized that once flu hits a community it is too late to protect the high-risk groups. Vaccination now, ahead of the flu season, is the only safeguard, he said.

X15 Try to Set Record Delayed Till Friday

EDWARDS AIR FORCE BASE, Calif. (UPI)—A scheduled test of the experimental X15 rocket plane was canceled Wednesday because of several minor problems and reset for Friday.

The National Aeronautics and Space Administration (NASA) said instrumentation problems caused the most difficulty. The flight was scrubbed when the auxiliary power for 80 per cent of the plane's instruments went out.

Pilot Joe Walker was to have taken the craft to about 120,000 feet, flying it on a series of maneuvers simulating the return through the atmosphere of a space ship. He was to try for a speed record of 3,700 miles an hour. The current record is 3,693 m.p.h.

SCANDINAVIAN POTATO SALAD — One of the new potato mixes on the market is a Potato Salad Mix. Give a taste of Scandinavia with sour

cream and dill and serve it with rosy apple wedges for a summer night's specialty. This same mix makes Hot German Potato Salad too.

Peanut Butter Is Inside Candy

This modern recipe for home-made Golden Nuggets should delight any small boy or girl of today. And it's similar enough to the old-fashioned variety to bring a nostalgic pang to any older who long ago savored "the real thing."

Golden Nuggets
1 cup sugar
1 cup butter
1 cup milk
1 cup peanut butter
1/2 cup brown sugar
1/2 cup corn syrup
1/2 cup vanilla
1/2 cup salt
1/2 cup baking soda
1/2 cup cream of tartar
1/2 cup flour

In a medium-sized saucepan, stir together the sugar, corn syrup, water and butter. Over medium heat, stirring constantly, bring to a boil. Continue cooking without stirring to hardball stage (235 degrees on a candy thermometer) or until a small amount forms a hard ball when tested in very cold water.

Remove from heat. Pour into well-greased 8-inch square pan; let stand until cool enough to handle. Pull bravely with fingers. Just until light is uniformly light in color and holds ridges and grooves, but is still soft.

Place on large piece of waxed paper. Pull into a long flat strip about 3 inches wide. Spread peanut butter in a narrow strip down the center; fold; seal edges. Gently pull into a strip 1 inch wide.

Cut into 1-inch pieces. Wrap individually in waxed paper. Makes about 14 ounces.
Note: Recipe may be doubled. Pour syrup into two greased 8-inch square pans.

Two Kinds of Spatulas

A flexible rubber spatula is used for folding in ingredients into cake batter. A flexible wide metal spatula is excellent for turning pancakes and for removing cookies from baking sheets.

Touch of Scandinavian in Potato Salad From Mix

Another great potato feat in apple with orange or lemon juice mixes is Potato Salad Mix, newly packaged with its own seasonings and ready for a quick cook and chill. The added plus to this mix is that Hot German Potato Salad can be made from it, too. Just think, no more cooking, peeling and cutting potatoes for this wonderful summer treat.

Follow directions on Potato Salad Mix pkg. for Cold Potato Salad — except instead of 1/2 cup mayonnaise, use 1/4 cup mayonnaise and 1/4 cup commercial sour cream. Add 1/2 teaspoon dill weed. Serve surrounded by crisp, tart, unpeeled apple wedges.

There are no secret ingredients, but the success of the recipe does depend on something new... it's the Potato Salad Mix. Whether you're an expert in the kitchen or a timid cook, you'll be delighted with the fact it takes just minutes to make and the tedious job of preparing the potatoes for potato salad is gone forever. It's great!

Before we lose ourselves on the typewriter keyboard exclaiming over the wonders of this mix, here is the recipe with which we enticed you in the very beginning. One you taste the combination of the potato salad made with sour cream and dill, and crisp tart apples, you'll mark it as one of your favorite recipes.

If you plan to prepare the recipe ahead of serving time, brush the

Scandinavian Potato Salad

For a nutritious ice cream dessert, mix 1/4 cup peanut butter with the fact it takes just minutes to make and the tedious job of preparing the potatoes for potato salad is gone forever. It's great!

Before we lose ourselves on the typewriter keyboard exclaiming over the wonders of this mix, here is the recipe with which we enticed you in the very beginning. One you taste the combination of the potato salad made with sour cream and dill, and crisp tart apples, you'll mark it as one of your favorite recipes.

If you plan to prepare the recipe ahead of serving time, brush the

News of Service Personnel

Stationed near Wiesbaden, Germany, is Army Spc. A.C. E. Lee Strine, son of Mr. and Mrs. E. Lee Strine, 3481 Union Lake Road, Union Lake.

A 1964 Walled Lake High School

Jan. 7, 1960, undergoing basic training at Fort Riley, Kan. He now serves with the 579th Ordnance Company. As a civilian he worked at General Motors Truck and Coach Division.

S.A. David L. Williams, son of Mrs. Edith C. Stevens, 75 Oak Hill St., recently was at the U.S. Naval Receiving Station, Norfolk, Va., undergoing precommissioning training in connection with the commissioning of the USS Enterprise, CVA (N) 65. Sailors at the station are on their way to and from naval activities all over the world.

Army Pvt. J.C. William E. Stireman, son of Mr. and Mrs. William E. Stireman, 3325 Lawrence St.,

recently was named Soldier of the Month at Richboro, N.J., where he serves with Battery C, 60th Artillery Battalion, 24th Artillery Group, 1st Cavalry Division.

Michael Luchenbach, FTA 3, recently was home on leave from the Navy after being stationed in France aboard the USS Den Holms for a year. A 1960 Pontiac Central High School graduate, he is now aboard the USS Forrest Sherman leaving Sept. 16 for a six-month cruise in the South Atlantic. He cruised training at Great Lakes Naval Training Center.

He was cited for his high degree of job proficiency, outstanding military bearing and superior knowl-

edge of military subjects. A battery clerk, he received basic training at Fort Leonard Wood, Mo.

Marine Pvt. James L. Pincombe, son of Mr. and Mrs. Leon T. Pincombe, 49 Park St., Oxford, has completed a four-week individual combat training period with the 2nd Infantry Training Regiment at the Marine Corps base, Camp Pendleton, Calif.

Michael Luchenbach, FTA 3, recently was home on leave from the Navy after being stationed in France aboard the USS Den Holms for a year. A 1960 Pontiac Central High School graduate, he is now aboard the USS Forrest Sherman leaving Sept. 16 for a six-month cruise in the South Atlantic. He cruised training at Great Lakes Naval Training Center.

man DD-831, c/o Fleet Post Office, New York, N.Y.

Recently home on a 16-day leave was S.A. Michael J. Shaw who reported to Portsmouth, Va., for submarine school Aug. 27. The son

of Mr. and Mrs. H. V. Shaw, 806 Berwick Blvd., is under training at Great Lakes Naval Training Center.

A former student at Pontiac Central High School where he was active in basketball and swimming, he worked at Tom's Market before enlisting.

Musician Seaman Recruit Charles A. Parmenter, son of Mr. and Mrs. Albert A. Parmenter, 28 N. East Blvd., completed basic training at Great Lakes Naval Training Center Aug. 29.

A 1961 Pontiac Central High School graduate, he enlisted as a musician and has been playing first cornet in the training center band. He will spend a two-week leave at home before reporting to Washington, D.C., to attend the Navy School of Music for six months. He plans later to try out for the Navy Band or an appointment as a director at the Navy School of Music.

Only 1 New Case of Communicable Disease in City

Only one new case of a communicable disease was reported in Pontiac last week.

Twelve new cases of communicable diseases — six of hepatitis — were reported in Oakland County.

The Pontiac Health Department said the lone new case in the city also was hepatitis. Three of the four new cases reported in the city for the week ending Aug. 19 were also hepatitis.

The following is a list of cases of communicable diseases reported

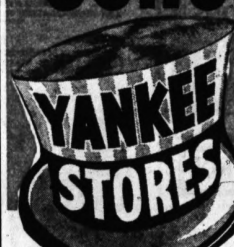

to the County Health Department the past two weeks:

	Week Aug. 14-20	Week Aug. 21-27
Diphtheria	0	1
Hepatitis	6	1
Scarlet Fever	0	1
Measles	0	1

Geography for Warfare Still Most Essential

EAST LANSING — Nuclear weapons have not made land warfare or military geography obsolete, the Association of American Geographers was told.

The effectiveness of any armed force is still largely limited by geography, Louis C. Peltier, of the Midwest Research Institute, Kansas City, Mo., told the meeting at Michigan State University.

JFK to Reporters: West Wants Peace in Berlin

WASHINGTON (AP) — President Kennedy has assured the world that Western Allies, absorbing the risk of atomic devastation, will erect no barricade to the peaceful solution of the peril-laden Berlin crisis.

At the moment, Kennedy said, he cannot be wholly optimistic about prospects for a negotiated settlement.

But the West, he asserted, is prepared to use all available channels toward a solution that will guarantee West Berliners "the right to live out their lives in the way of their own choosing."

In the meantime, he said every one—not excepting former Vice President Richard M. Nixon—should keep out of politics and out of foreign policy.

Kennedy met with newsmen as the government was receiving its first alerts from abroad that Moscow was planning a major announcement. When it came, the declaration that the Soviet Union might throw nuclear tests there would be an ominous light on Kennedy's remarks at the conference that there has been a good deal of brandishing of nuclear weapons.

BOTH KNOW

At that time Kennedy said he was conscious, and sure Soviet Premier Khrushchev was conscious, of what destruction nuclear war would bring.

Kennedy announced he was calling retired Gen. Lucius D. Clay from civilian life to serve as his personal representative and attempting to take any political advantage out of our present difficulties.

The West could not hold Berlin against a frontal Soviet assault, Kennedy said.

A record audience of 67 attended Kennedy's meeting with the press. For it, he wore the charcoal blue suit and purple tie that seem to be his regular news conference outfit.

He made these observations on other topics:

TO TRY AGAIN

School Aid—Admitted defeat in his effort to get Congress to provide funds this year for school construction but promised, "We will be back next year." School children, he maintained, and not the administration were the losers this year.

Steel Prices — Called on producers, he asserted, to increase schedules for October in order to avert another inflationary spiral. He said his economic advisers believe the steel companies can shoulder the increase without boosting prices and still show a good profit.

Auto Negotiations — Held the government's position in talks between the United Auto Workers and General Motors, Ford and Chrysler.

Politics — prompted a laugh when he said he had an opinion as to whether Nixon should run for governor of California. He didn't say what his opinion was, but offered to give it if Nixon requested.

Desegregation — Congratulated officials, parents and pupils for the "responsible, just, abiding manner" in which Atlanta desegregated four high schools Wednesday. Other communities facing "this difficult transition" could follow Atlanta's example, he said.

Neutrality—Read a message to the conference of uncommitted nations opening at Belgrade, Friday, saying the United States believes they are committed to a world society of self-determination and pledging U.S. influence to abolish exploitation.

HOWARD JOHNSON'S

Acting Vet Charles Coburn Victim of Heart Failure at 84

NEW YORK (AP)—Veteran actor Charles Coburn, whose disfigurement by World War I was not excepting former Vice President Richard M. Nixon, died of heart failure at 84.

Coburn died of heart failure at 84.

MINISTERS TO MEET

To restore to high level the West's emergency planning, Kennedy also announced that the Western Big Four foreign ministers will convene in Washington on Sept. 11.

In days ahead, Kennedy said, the United States will be considering what new steps it may take and hoping all North Atlantic nations will contribute their utmost to the Free World alliance. As for the possibility of a peaceful settlement, Kennedy conceded, "I do not have information today which would make me wholly sanguine about the present prospects."

UNEMPLOYMENT—Despite a "tremendous economic recovery," a hard core of unemployment still exists. He urged Congress to pass his bill for retraining jobless workers, but said other measures may have to be considered.

Foreign Aid—Called on Congress to appropriate as nearly as possible all the \$7.2 billion that would be authorized over the next five years in a compromise Senate House conference committee recommendation.

BE CAREFUL

The President quickly added, however, that anyone aware of the vast power that could be triggered by either side in the Berlin dispute should be "careful in all

Linda Christian and Purdom Couple Claws to a Draw

ROME (AP)—Linda Christian, housewife apartment of American actor and Edmund Purdom, scratched Ivan Denby.

and slumped to a bloody draw in the unscheduled main event of a party two nights ago.

The background was the penitence.

STORY TOLD

Others told to interview. But Linda burst herself against Purdom, slapping him and sinking her fingernails into his face so that it bled. Then, they were separated.

Purdom appeared on the set

Wednesday with his face plastered with tape.

The scrap was reported by witnesses and the Italian press.

Jackie May Be Expecting Again

'Highly Placed' Sources Say She Has Shown Signs of Pregnancy

NEW YORK (UPI)—The New York Daily News said in a dispatch in today's editions that authoritative sources have told the newspaper Mrs. Jacqueline Kennedy is expecting her third child.

A story from Washington signed by Frank Holsman said that the President's wife appears to have shown signs of pregnancy, according to some newsmen who have covered the President's work visits to Hyannis Port, Mass., where Mrs. Kennedy is vacationing.

The news added, however, that a spokesman for Mrs. Kennedy in Washington said the report was "completely untrue."

The news story said that the sources for the report were inside the White House "but highly placed." The sources did not disclose when the baby was due, the news story said.

The Kennedy's have a daughter, Caroline, 3, and a son, John F. Jr., who was born in November, Mrs. Kennedy had two miscarriages before giving birth to Caroline.

Demand Ransom of \$400,000 for Art

LONDON (UPI)—A note demanding nearly \$400,000 ransom for the Gray painting of the Duke of Wellington stolen from the National Gallery last week has been received by a news agency here, police said today.

Police are trying to determine whether it was authentic.

The note, printed on plain paper in block letters, said the ransom was to go "for charity."

Officials said the unsigned note was mailed in Northwestern London.

STORY TOLD

Others told to interview. But Linda burst herself against Purdom, slapping him and sinking her fingernails into his face so that it bled. Then, they were separated.

Purdom appeared on the set

Wednesday with his face plastered with tape.

The scrap was reported by witnesses and the Italian press.

Dem's Mansfield Sees Congress Quitting by Oct. 1

WASHINGTON (AP)—Democratic leader Mike Mansfield of Montana, outlined a Senate program Wednesday that he said would make it possible, with full cooperation from all senators, for Congress to adjourn by Sept. 11 or 15.

But he told his colleagues, "My guess is we'll finish closer to the first of October."

ANTI-GAMBLING LECTURE — Florida state attorney Richard Gerstein gave the first lecture when the University of Miami's football squad reported for practice today. Gerstein's lecture was about the dangers of gambling in amateur athletics and the seriousness of players becoming involved in scandals such as happened a few months ago in college basketball.

State College Gridders 'Pose' Today

By The Associated Press
The college football season gets underway today in Michigan, Michigan State, Michigan and Detroit — the state's three big powers — back off their training grounds along with a host of other schools. On most campuses, the first day will be for the benefit of newsmen and photographers with practice starting in earnest Friday.

Jim Miller will have to rebuild his offensive line on a Detroit club by the best quarterback in the state.

Hillsdale opens a new era as an independent after its withdrawal under fire from the MIAA. Coach Muddy Waters starts practice with 90 players, the largest squad in the state.

Merley Fraser expects another strong team at Albion, their apparent to Hillsdale as MIAA ruler, and will have 19 lettermen around when his practice starts Friday.

About 65 players report today to coach Bill Kelley at Central Michigan, which will kickoff the Michigan College season Sept. 3 against Northern Michigan at Saginaw.

Northern, with Frosty Ferencz, the state's coach of the year, back at the helm, opens practice Friday. The Wildcats had their best record, 8-1-1, last fall and went to the Holiday

Sno-Bol Too Much for Waterford Nine

Pontiac American League champion Sno-Bol won a doubleheader over the Waterford American League All-Stars 2-0 and 2-1 last night at Drayton Plains.

Floyd Hicks fired a no-hitter, fanning 11 in the opener. "Wimpy" Johnson and Harry Aveson won a combined four-hitter in the nightcap. Loner John Herrington also allowed just four safeties but one along with three errors produced the run in the opening inning.

Big Ten Elevens Start Drills Friday

CHICAGO (AP) — With Iowa and Ohio State established as co-favorites, Big Ten football practice officially starts tomorrow. Some 657 candidates plunge into preparations for the 1961 campaign.

The army of stripping aspirants includes some 715 lettermen, lead by Ohio State, Michigan State and Indiana with 26 apiece.

Other lettermen groups include 25 at Purdue; 22 at Northwestern and Michigan; 20 at Wisconsin and Minnesota; 19 at Iowa, and 11 at Illinois.

Minnesota, last year's conference co-champion with Iowa — each with a 5-1-0 record — leads in total candidates with 71. However, the Gophers are expected to find a much rougher path than last year when they won top laurels in the national AP poll and then wilted before Washington in the Rose Bowl game.

Iowa has the one new coach as Jerry Burns succeeds his former top coach, Forrest Evashevski, now Hawkeye athletic director. Burns has inherited eight returning starters from Evashevski, whose whirling winged-T attack will continue to operate under Burns.

Iowa's splendid nucleus includes quarterback Wilburn Hollis, halfback Larry Ferguson and fullback Joe Williams, plus five stalwart linemen.

Ohio State, loomed by some as potential national champion, still must come up with a quarterback to replace versatile Tom Matte. However, coach Woody Hayes admits he has "our best speed in several years" and Buckeye fullback Bob Ferguson may be one of the nation's great performers.

Northwestern faces its biggest rebuilding task since 1958, particularly after tackle Jerry Beabout, partly missing, and virtually an entire starting backfield, including "rain" quarterback Bernie Allen and Murray Romney, no count conference status. However, 23 lettermen last season, but 26 of last season's 49 lettermen back. Coach son's 49 lettermen back. Coach son's 49 lettermen back.

Wisconsin, like Michigan, could Phil Dickens said "We'll be in a sleeper, if for no other reason, but the question is, how soon this brilliant passing coach."
