

How to Beat Re-Entry Heat

REALLY HOT NUMBER — Intense temperatures generated by a space ship re-entering the earth's atmosphere have prompted scientists to explore ways to beat the heat problem. This artist's drawing depicts a Republic Aviation Corp. hydraulic system, which, technicians claim, can function smoothly up to 1,000 degrees temperature.

White Collar Walkout Shuts Chrysler Plants

DETROIT (AP)—Chrysler Corp. moved today to halt all its new car production because of a strike by 8,000 salaried office workers and engineers.

The halt order, affecting all assembly plants and many company supplier plants, meant a layoff of 40,800 of Chrysler's 70,000 production workers.

Chrysler, disclosing its shut-down plans Wednesday, said it was impossible to resume normal operation because of strike

interference with production and the routing and handling of materials.

Today was the third day of the white collar workers' walkout over contract demands which were unsettled when Chrysler and the United Auto Workers reached agreement on a national contract five weeks ago.

No new negotiations were scheduled. A total of 16 plants employing 24,000 men were shut down Wednesday. These included all

eight auto and truck assembly plants in Detroit and Evansville, Ind.; Newark, Del., and Los Angeles.

The UAW international apparently was ineffective in a request to strikers to abstain from picketing at the time of shift changes so as to keep plants operating.

Main strike issues bore on seniority rights, union demands for wage equity on various jobs, and a wage progression demand.

Chrysler said the pay on the various jobs ranges from \$319 a month for messengers and mail boys up to \$903 a month for project design men. Forty per cent of the salaried force is paid more than \$500 a month, the company said.

Chrysler accused the union of demanding much more for the salaried workers than it obtained for production workers at Chrysler and other auto companies who have already agreed to new three-year contracts.

The union challenged the company to produce figures to support that claim and said it was asking for "the same degree of protection as already has been won for their fellow workers in Chrysler production and maintenance units and throughout the auto industry."

Showers and Mild, Low of 45 Tonight

Occasional showers and mild temperatures with the low near 45 are forecast for tonight by the weatherman. Today's easterly winds will become southeasterly at 8-15 miles an hour tonight, and southeasterly Friday.

Tomorrow will be cloudy and warmer with showers likely. The predicted high is 64 degrees. Cloudy and cool with a few showers is the outlook for Saturday. In downtown Pontiac the lowest recorded temperature preceding 8 a.m. was 43. The thermometer read 32 at 2 p.m.

What's in a Name?

SCARBOROUGH, England (UPI) — A Mr. Bean won top honors in the vegetable section of a horticultural show here yesterday.

Fronzizi Foils Argentine Coup

President Keeps Control in Palace Crisis Gains Oil Strike Delay

BUENOS AIRES (AP) — President Arturo Fronzizi crushed an attempted palace coup Wednesday night and oil workers postponed a nationwide strike.

The threatened strike had sparked the political crisis. The oil workers are opposing a government plan to get foreign help in developing Argentina's nationalized oil industry.

The coup was led by Vice President Alejandro Gomez, according to official reports. He denied it. Deputies and senators of the ruling Intransigent Radical party early today called for his resignation. His impeachment by Congress was threatened.

As Fronzizi struggled to solve the labor unrest which has caused a crisis endangering his 6-month-old regime, Argentina's powerful armed forces rallied to support the embattled chief executive.

Gomez, a tough politician, had claimed military and political support for a move to form a national coalition movement.

Fronzizi, weakened by a bout with flu but buoyed by a swift vote of confidence from his military forces, ordered his ministers to make a supreme effort to settle a strike of oil workers in Mendoza Province.

This strike, which started two weeks ago, is paralyzing the rich oilfields in Mendoza at the foot of the Andes Mountains.

Fronzizi called the Mendoza strike a Communist-inspired insurrection and declared Argentina under a state of siege Tuesday. Hundreds of Communists, Peronistas and others were arrested.

Fronzizi crushed the coup bid with the support of the secretaries of the army, navy and air force, and surrounded the government palace with armed guards.

Administrators Estate Setup on Way Out?

Lodge Hints at Plan to Abolish Wayne County System, Try New Idea

Public administrators in Wayne County, who handle estates of deceased persons with no known heirs, may be on the way out, according to Sen. L. Harvey Lodge (R-Oakland County), chairman of the investigating committee studying waste in government.

In hearings yesterday in Detroit where 12 of 13 public administrators testified, Lodge hinted at a plan to abolish this system and replace them with salaried attorney general's assistants.

He said the fee system presently used by public administrators was a "bonanza" to attorneys assigned by the state to handle these estates. In some instances, Lodge said, the fees appear to be exorbitant.

"They are totaling \$100,000 annually, and seem to be increasing each year," Lodge said. "The total for the first eight months of this year is \$97,606."

The highest on the list was \$67,000 in fees collected over six years by Harold R. Davis, public administrator until 1955.

"There is no question that this has been a spoils system through both the Republican and Democratic administrations," Lodge said.

"We are trying to find out if some of this money received in fees cannot revert to the state."

He suggested that cases be handled by the assistants who are paid under civil service, rather than public administrators appointed by "political patronage."

Lodge's committee was told by those who testified, and by D'Arcy O'Brien, assistant attorney general in charge of public administration, that from 1954 to 1958 the state received \$3,852,000 from estates in which no heirs were found. A total of \$417,000 was paid to heirs located by the public administrators.

Sensitive About Name

BOURNEMOUTH, England (UPI) — The Rev. Gordon Guinness, 56, told a temperance meeting yesterday he is ashamed of his name. Guinness is a member of the family that makes Guinness Stout, a favorite in taverns the world over.

SCHOOL BOARD GIVES UP — Wayne Upton, president, reads a resignation statement for himself and four other members of the Little Rock School Board. The five quit last night, leaving only Congressman-elect Dale Alford, outspoken segregationist, on the integration-troubled board.

Crisis Is Eased for West Berlin

Reds Don't Push Their Demand That Allies Clear Out of Town

BERLIN (AP) — West Berliners breathed more easily today because the Russian bear and its East German followers appeared—for the moment—to have more growl than bite.

The tipoff came in a news conference Wednesday by Premier Otto Grotewohl Communist East Germany. Several hundred correspondents attended.

Most of them expected some sort of a dramatic followup to Nikita Khrushchev's demand that the Western Allies give up West Berlin, a capitalistic thorn buried 110 miles inside Communist East Germany.

Many correspondents thought Grotewohl had been tapped by the Soviet premier to announce that the Russians were giving the East Germans control over Allied Military traffic into West Berlin.

PREFER RUSSIAN CONTROL

The Allies prefer Russian control because this permits them to avoid recognizing the East German regime.

Grotewohl strode into the conference room 10 minutes late. He said he knew the correspondents (Continued on Page 2, Col. 3)

'I Never Will Resign,' Says Chief Straley

By MAX E. SIMON
Those were the words of Pontiac Police Chief Herbert W. Straley yesterday shortly after learning that he had been relieved of command as head of the city's police force.

Public Safety Director George D. Eastman, in an hour-long conference with the chief, announced he was taking over full control of the department.

Straley, he said, will be on "special assignment" in his office. He did not make clear just what the chief's new duties would be.

Straley, outwardly calm after his talk with Eastman, admitted that the new duties were "quite a comedown."

"I've worked 12 to 14 hours a day to better the police force for several years," Straley said, "and then something like this happens."

He was appointed police chief by City Manager Walter K. Willman in November, 1951.

"I feel that I've brought the department a long way since I took over," Straley said. "When I first came to Pontiac I felt that the people were entitled to better police coverage. They have that now."

"And the police officers have better equipment and working conditions."

Sawchuk Baby Doing OK After Tasting Poison

Kathy Sawchuk, 13-month-old daughter of Detroit Red Wings goalie Terry Sawchuk, was reported in satisfactory condition today at Pontiac Osteopathic Hospital.

The baby Tuesday found a can of rat poison which had been hidden behind a refrigerator, according to the girl's mother, Mary, and put the pill in her mouth.

Mrs. Sawchuk said that the tot didn't swallow the pill, but some of it dissolved in her mouth and she swallowed the liquid.

Pontiac Osteopathic doctors said that first aid administered by Mrs. Sawchuk reduced the effects of the poison.

The Sawchuks live at 8676 Golfside Dr., Union Lake.

Must Dress for Part

LOS ANGELES (UPI) — Fred L. Edwards, 32, caught looting a Beverly Hills dress shop, told police "I needed \$350 for a court appearance on a charge of receiving stolen goods."

LITTLE ROCK, Ark. (AP) — Five members of the embattled Little Rock School Board resigned Wednesday night to clear the way for a quicker solution to the impasse in the integration situation here.

The mass resignation, subject of widespread rumor for the past several days, came as no surprise.

Before the resignations, the board paid off the contract of School Supt. Virgil T. Blossom, frequent target of segregationists and Gov. Orval E. Faubus as the author of the Little Rock plan of gradual integration.

Amis Guthridge, an attorney and member of the pro-segregation Capital Citizens Council, said he would file a suit seeking to block the action on Blossom's contract.

"That is a clear piece of collusion between the board and Vir-

Faubus Rejects Plan

LITTLE ROCK, Ark. (UPI) — Gov. Orval Faubus said people have asked him to open an integrated basis one of the four high schools he closed to prevent integration but he said he would not consider it "because the people of Little Rock voted for segregation." Faubus also told newsmen he was in favor of the resignation of the Little Rock School Board.

gil Blossom, who has always dominated that board," Guthridge said.

The resignations, effective at midnight Friday, left Dr. Dale Alford, an outspoken segregationist who has consistently voted against the board majority on integration matters, the only remaining member.

All six positions will be open in the Dec. 6 school elections since Alford's term is expiring and as a congressman-elect he will not seek another term.

Pulaski County Judge Arch Campbell is expected to appoint an interim board to serve until after the election.

The resigning members — President Wayne Upton, Harold Engstrom, Dr. W. G. Cooper, R. A. Lile and Frank Lambright—have drawn almost constant criticism from anti-integration elements since the racial crisis erupted here 14 months ago.

In a joint statement, the five pointed out that the resignations would not relieve the new board of (Continued on Page 3, Col. 2)

Dr. LaCore Resigns Post at Pontiac State Hospital

The resignation of Dr. Ivan A. LaCore as medical superintendent of Pontiac State Hospital was announced today.

The psychiatrist, who has received an outstanding fellowship award from the American Psychiatric Assn., plans to enter private practice locally.

Dr. LaCore came to Pontiac State Hospital as medical superintendent from Ypsilanti State Hospital.

During his five years of service, the hospital has been approved on two different occasions by the American Medical Society as a residential center for psychiatric training.

It also was approved by the American Psychiatric Association for this training program.

In 1955 he was certified as a mental hospital administrator and has been named chairman of the Mental Health Committee of the Michigan State Medical Society.

He is president-elect of the Michigan Society of Neurology and Psychiatry.

One of the outstanding programs started under his direction was the children's program, a department of child psychiatry with a special education school.

Polio Outbreak Casts Gloom

Total of Cases Mounting Despite Reduction in Other Diseases

WASHINGTON (UPI)—The current outbreak of polio has cast a shadow on the nation's brightening health picture, government reports show.

The U. S. Public Health Service has released a study showing a sharp reduction during 1957 in reported cases of such diseases as polio, diphtheria, encephalitis, hepatitis, malaria, tuberculosis and typhoid fever.

The report said there were 5,458 cases of polio in 1957, the lowest number since 1943 and a drop of about two-thirds from the 1956 total.

But latest figures for 1958—5,104 cases up to Nov. 1—nearly match the final figure for 1957 and para-

lytic polio is still on the rise. There were 2,510 paralytic cases in the first 10 months of this year compared with 2,499 for the whole of 1957.

Health service officials put primary blame for the rise on public apathy in getting anti-polio shots. The public health summary of reportable diseases found little change last year in cases of diphtheria, rheumatic fever, tetanus, meningococcal infections and venereal diseases.

However a substantial uptrend was noted in the number of cases of amebiasis, certain types of meningitis and streptococcal infections.

Ghana Studies Subsidy

ACCRA, Ghana — The Government of Ghana is planning to bring in an independent mining expert to make a report on the state of the country's gold-mining industry, with a view to passing legislation subsidizing marginal or low-grade mines. Legislation of this nature has been enacted in Canada and Australia.

Efficiency in Police Department Sought

Affairs in Pontiac Police Department continue to churn and thrash in different directions.

According to a current announcement, Chief HERBERT STRALEY is no longer Chief but is "on special assignment"—whatever that means.

★ ★ ★

George D. Eastman was brought here for the purpose of restoring order in a department that seemed to be tugging several ways at once.

The Police Officers' Association was gunning for the Chief—in whole or in part. And then, just to add further confusion to the general state of affairs, many local citizens were coming to the opinion that the Association itself may have sold the community a bill of goods in its civil service program. Under this confusing document, the Chief's hands along with the City Manager and Public Safety Director seemed to be tied in certain circumstances and management rendered null and void. The City Commission and City Manager sought peace through the intervention of a new office.

Eastman was selected.

The solution rests with him.

★ ★ ★

The Pontiac Press assumes that there will be some further action in connection with the present situation. It appears on the surface as though HERBERT STRALEY had merely been pushed aside—on full salary—with no place to go and little to do. If the Civil Service document is responsible for this, the thing should be re-examined and amended. The voters may have been duped in its adoption. The community acted in good faith.

The Press feels Straley should either be a definite cog in the police set up—or the money should be saved to the taxpayers. We believe the further plans of Mr. Eastman will solve the situation.

Pontiac Can Be Proud of Education Program

This week Pontiac, like the rest of the nation, is observing National Education Week. The basic purpose of the week is to re-evaluate the importance of education in a democracy.

★ ★ ★

What better guarantee could we have than giving each boy and girl the training and equipment he or she will need as future citizens in our complex world.

Pontiac is fortunate in having a modern, up-to-date school system assisting our children to develop their best potential. Playing a vital part are the 789 qualified teachers responsible for teaching our children.

★ ★ ★

Our complicated "Space Age" makes it more essential today than ever before that our children have the proper guidance and early schooling to meet the needs of a growing America.

Pontiac has been fortunate to keep up with the growing enrollment since the end of World War II. Our school system is in far better financial shape than some others in this general area. If you are in doubt, just have a brief look around.

★ ★ ★

The Board of Education, the teachers and the school planners are to be

congratulated on the splendid educational program they have made possible for the citizens of this community.

Americans Possess a Trillion in Assets

Based on a report of the Federal Reserve Board in its 1938 Survey, the Institute of Life Insurance estimates that Americans have assets of at least a trillion dollars in addition to individual investments and tangible possessions.

★ ★ ★

Financial assets of consumers are upwards of \$625 billion, says the survey, and other investments and possessions have an indicated value of \$550 billion. About \$250 billion of this is in corporate stock and \$125 billion in policy holders' savings through life insurance and Government securities. The balance of \$250 billion is in the form of checking and savings accounts and U.S. savings bonds.

★ ★ ★

The Board found that consumers had large sums invested in unincorporated businesses, farms, homes and other real estate. It also reports assets in the form of retirement programs, automobiles and other consumer goods.

The National Bureau of Economics Research values the Nation's non-farm residential structures at \$300 billion. The Department of Agriculture places a value of nearly \$170 billion on U.S. farms and their equipment. An estimated total of \$80 billion, the Institute of Life Insurance reports, has accumulated in public and private pension and retirement plans.

★ ★ ★

What is most significant is the survey's report of wide distribution of this wealth among the people, which indicates a healthy economic climate in our capitalistic country.

The Man About Town This Explains It

In as Good a Manner as Is Now Quite Prevalent

Recession: What isn't being talked about so much since Nov. 4.

About as intelligent as most of the stuff that has been talked and printed on the subject is the wording of

"An Economic Parody," which one of my main scouts noticed on the blackboard in the Waterford Township Hall. It says:

"Turning to unemployment, we find a definite decrease in the rate of increase, which clearly shows that there is a letting up of a let down.

"Of course, if the slow down should speed up, the decrease in the rate of increase in unemployment would turn into an increase in the rate of increase of unemployment.

"In other words, the deceleration would be accelerated."

My Nevada correspondent sends me a political adv. from the Las Vegas Review-Journal which says: "Attention, narcotic peddlers and pushers. Don't vote for

George L. Hansman Jr., for State Assembly. He will work for strict narcotic laws and enforcement."

A letter over the signature of

"Deer Hunter for 20 Years," and with a Pontiac postmark, says his wife will not give him her usual "Get lost" farewell this time—he's taking her along.

The Christmas tree trek started earlier than usual this year. My good friend up at West Branch

Chuck Spellman, writes me that he's taking a load to Detroit every day, mostly on advance orders from the large stores, to use them in decorations.

Verbal Orchids to—

Peter Davidson of 18 Lorraine Court; 83rd birthday.
Mr. and Mrs. Paul J. Materna of 561 Lowell St.; 51st wedding anniversary.

Mrs. Minnie Richardson of Commerce; 97th birthday.

Mrs. George Wiles of Holly; 85th birthday.

Darius Opperman of Lapeer; 83rd birthday.

Lifting One End Won't Make a Champion

David Lawrence Says:

Unions Admit Political Use of Dues

WASHINGTON — Admission in open court by 14 national labor unions that dues and assessments levied by those unions have been and are being used for political purposes is the latest sensation in the right-to-work controversy.

LAWRENCE

In a trial being held in Macon, Ga., several persons who have been compelled to join a railway labor union under a so-called "union shop" agreement are suing to have such contracts declared in violation of the Constitution of the United States and of the right-to-work laws of the State of Georgia.

Eight railroads and terminal companies, along with the 14 national and international unions in the railway industry as well as various machinists unions, are jointly made defendants, as the involuntary union members have been threatened with loss of their jobs if they fail to continue the payment of dues.

The workers contend that the purpose of the dues and assessments is not just to meet collective bargaining expenses, but to carry on campaigns of a political nature in order to elect candidates for public office and that this is at variance with their beliefs.

"Stipulations of fact" now have been entered in the trial, which means both sides concede the truth of the statement that tens of thousands of dollars of dues money have been used for political campaigns. The amounts and the contributing unions are formally listed for several days.

The "stipulations" do not name the individual senators or representatives who were among the recipients of the money as campaign contributions.

There are rumors around Washington that these names were purposely omitted to avoid embarrassment to many Democratic members of the Senate and several Democratic members of the House of Representatives.

The present civil suit does not raise any legal issue as to whether the Federal Corrupt Practices Act or any state laws forbidding political contributions by labor unions may have been violated, but it does deal with the question of involuntary tribute levied on workmen under the guise of dues and assessments for "collective bargaining" expenses.

Up to now, it has been repeatedly argued that those individuals who don't belong to a union in a shop where a majority are union members are "free riders."

But here the worker who has

joined says the dues have not been used merely for union expenses, but for political purposes, too.

The opening statement of E. Smythe Gambrell, counsel for the workers, declares "that the labor unions, through the union shop agreement, are extracting money from them (the workers) against their will."

He adds that, under the First, Fifth, Ninth and Tenth Amendments of the United States Constitution, the workers are supposed to be protected "from such unwarranted invasion of their freedom of association, freedom of thought, freedom of speech, freedom of the press, freedom to work and political freedom as the exaction of said money and its said misuse bring about."

The international unions which are defendants in the case have formed various political leagues and associations, and all the unions mentioned are members of the

AFL-CIO. These associations, according to the "stipulated" facts, have received direct contributions from labor unions.

Had this issue been fully explained to the voters of the five states which last week rejected right-to-work laws and had not many millions of dollars—some estimates run up as high as \$1,200,000 in California alone—derived in part from union dues been applied to defeat those laws, there might have been a different outcome.

THOUGHTS FOR TODAY

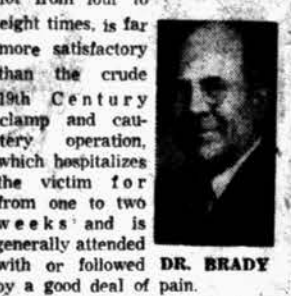

And thus did Henechiah through out all Judah, and wrought that which was good and right and truth, before the Lord his God.—II Chron. 31:20.

Sincerity is the indispensable ground of all conscientiousness, and by consequence of all heart-felt religion.—Immanuel Kant.

Dr. William Brady Says:

Choose Injection Method Rather Than Operation

Practically painless injection (ambulant, office) treatment for internal hemorrhoids (piles), which detains the patient only a few minutes, once or twice a week, for from four to

DR. BRADY

eight times, is far more satisfactory than the crude 19th Century clamp and cautery operation, which hospitalizes the victim for from one to two weeks and is generally attended with or followed by a good deal of pain.

This is the consensus of the many correspondents who have reported their experience.

I hope no reader will assume that injection treatment is the best modern treatment for any case of hemorrhoids. In my judgment it is the method of choice for internal (bleeding) piles—at least it would be if I were the patient. But injection treatment is not applicable to external (the most painful) piles.

External piles demand surgery—the surgery may be done in the doctor's office, perhaps under local anesthesia. But there is no alternative, to the best of my knowledge.

A great deal of popular misunderstanding of the question of treatment of piles is due to the fact a so-called "attack" of piles—that is, accession of or development of great pain and discomfort—naturally subsides in the course of a week, more or less, no matter whether any remedy or treatment has been used or not.

radical surgery, except that, as I have tried to explain, the modern injection method is worth trying first, unless you are a stoic.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis or treatment, will be answered by Dr. William Brady if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan. (Copyright 1938)

Case Records of a Psychologist:

Crane Gives Facts on Pregnancy

In the Bible, Sarah and Rachel and Hannah are classical twins for Goldie in today's case. Fear may have been the reason why Goldie never had a baby. Improper "timing" is another common cause, so send for the pregnancy booklet mentioned below. Thousands of wives conceive when they adopt a baby.

By DR. GEORGE W. CRANE
Case Z-370: Goldie G., aged 29, has been married for 6 years.

"Dr. Crane, I am a nervous wreck," she protested miserably, "for I am crazy to have a baby, but have never been able to get pregnant."

"Now I have a chance to adopt a little boy about 3 weeks old. My husband is not very enthusiastic about the idea, but he says he'll do what you suggest."

"Although we are both supposedly normal, I just never get pregnant so I think this may be God's answer to my daily prayers."

POSITIVE MEDICINE
Goldie and her husband were a splendid young couple, active in the same church and with a home that needed a child therein, so I gave my O.K.

And Goldie blossomed out into a wonderful mother. Her nervous tension disappeared. She began to function normally in her physiological.

For she was now thinking positively about the baby's needs, instead of worrying about her-

Voice of the People

Comments on Donor List of Those Giving Over \$50

Just a few comments regarding listing of individuals who contribute to the United Fund, especially professional people in amounts of \$50 to \$150. These people could easily do the above, being in the income bracket they are, and not miss it. They should be contributing from \$500 and up.

Take employees of large concerns. They usually donate from \$30 up, plus another \$30 if there's more than one working in the family. I'm sure most of the employees where I work donate much more in comparison and wouldn't want their names in the paper.

Just a Reader

'Alimony Dodger Lowest of Low'

Can you readers think of anything lower than a divorced husband who refuses to keep up his alimony payments? Everybody concerned seems to be so helpless and the jerk goes free but the two youngsters and I scrimp along about an inch from the poorhouse.

Wants to Vote on Lottery Bill

Newspapers have been printing big stories about U.S. winners in the Irish Sweepstakes. Why don't we have a national lottery in this country with a billion dollars going to the government? There is a bill in Congress to do this, but they don't bring it out for a vote.

Edwards

Offers Suggestion for Flag Change

So that existing flags will not become obsolete upon the official admission of Alaska as the 49th state, and so that the thousands of people who own flags will be able to convert them to the new 49-star pattern, we wish to suggest that manufacturers make available stars to match each flag they've made. These could be placed in the blue field at the bottom, one on each side, alternating with the existing line of stars.

As a timely and temporary measure, prompt recognition of the new state of Alaska with the star placed at the lower right hand corner in the displaying of all flags of our nation would thus be made possible, and we wish to recommend this proposal for immediate action.

Bessie M. Griswold
Trustee for Voluntary Service

'New Third Party Is Only Answer'

Let's have a new political party entirely. A lot of Republicans and a lot of Democrats wish they had something else to vote for.

There are too many bums in the Democrat ranks and there are too many in the GOP ranks that never want to change anything. A new, modern party could claim members fast.

Most of us want to change with the times, but we don't want socialism and party domination by crooks and union leaders.

Illa

Factory Job Reported Not Very Strenuous

By DELOS SMITH
UPI Science Editor

NEW YORK (UPI)—A scientific study has shown that typical factory workers put out only a little more energy when they're working than they do before and after working hours—or, in plain, unsentimental language, their "work" is anything but strenuous.

This was the unexpected result of a study by Dr. Amasa B. Ford and Herman K. Hellerstein of the physical energy outputs of 62 factory workers while on the job. The scientists wanted to get an idea of the physical effect of work on men with heart disease.

Their discovery that the energy outputs required by factory jobs were not much higher than the outputs required by merely living, somewhat confused this objective. It indicated heart victims might as well be working at these factory jobs as loafing. But there's much more to living with heart disease than energy output, of course.

The scientists measured on-the-job energy outputs of 36 factory workers with recognized heart disease and 26 free of it. None of the 36 had been "down-graded" to part-time or lighter work because they had heart troubles.

Energy output was measured by

measuring oxygen consumption—the more active you are, the more oxygen you consume. When at rest, the 36 put out 1.30 calories in energy per minute (on the average) and the 26 put out 1.40 calories a minute. While on the job the former put out 1.37 calories, the latter 2.13 calories. While actually working, the heart victims gave out with 2.29 calories and the healthy heart men, 2.51 calories.

You can see there was no significant difference in energy outputs between the two groups of workers—the striking thing was the small difference between energy outputs when at rest and when working. Against these outputs you can put the following: A top athlete can put out 26.5 calories per minute, but only for a few minutes. Another scientific team found that five calories a minute is the highest that can be maintained regularly without harm by workers in heavy industry.

Ford and Hellerstein are part of the faculty of Western Reserve University, Cleveland. Their subjects were employed in three Cleveland factories making light and medium-weight metal products, and their jobs ran the range of factory jobs from janitor and laundry crib supervisor to drill press operator and stationary engineer. Engineers and inspectors were included.

self and indulging in fears that she would never have a child.

So maybe you can guess what happened! Within a year, Goldie was pregnant, for the first time.

And nine months later she bore twins!

They were fraternal, not identical, which means she actually got pregnant twice within possibly two weeks.

"Dr. Crane, how do you medical men explain a case like Goldie's?" is a common question we receive.

Well, yesterday I explained the value of positive thinking as regards our body's ability to throw off disease.

HOW GET PREGNANT

Thousands of wives are apparently sterile, though all medical tests show they and their husbands may appear to be normal.

In such cases, the adoption of a baby may stop the inner tension of the wife and let her relax emotionally and chemically.

Her glandular secretions may change so she is able to conceive.

But another factor is at work, for many otherwise normal married couples simply miss the narrow ovulation date in the wife's menstrual month.

Latest research suggests that the female ovum (egg) ruptures free from the ovary about 15 days before the next menstrual period is scheduled to start.

If these estimates are correct, then a wife may not get pregnant except in a brief 12-hour period during the entire menstrual month.

She may thus miss pregnancy purely on the basis of chance and

continue to do so through her 10 to 25 years of marriage prior to the menopause.

For example, suppose the ovum ruptures from the ovary in the morning. If marital relations do not take place till late that night, this ovum may have degenerated in the intervening 15 hours so it cannot respond to a sperm cell.

Another barrier to pregnancy is the excessive acidity of many wives, which can often be offset by a simple alkaline douche.

So send for my booklet "Facts About Pregnancy," enclosing a stamped return envelope, plus 20 cents (non-profit).

Hundreds of previously sterile wives have reported pregnancies within 30 days after using the information in this medical booklet. Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long stamped, self-addressed envelope and the cover of the booklet and when you send for the psychological charts and pamphlets.

(Copyright, 1938)

McClellan to Offer Tougher Labor Bill

WASHINGTON (UPI) — Sen. John L. McClellan (D-Ark) is working on a new labor reform bill expected to be tougher than the Kennedy-Ives bill which was passed by the Senate, but rejected by the House this year.

McClellan, chairman of the Senate Rackets Committee, disclosed yesterday that he plans to offer a bill to the new Congress which will convene in January. He said "the need for legislation is already clear."

The rackets group tomorrow will open intensive hearings into secondary boycotts — union campaigns by picketing or other tactics against companies not direct-

ly involved in labor disputes. McClellan returned to the capital yesterday to preside over the new hearings.

General Practice Group Elects State Officers

DETROIT (U) — Dr. Howard C. Rees, of Grosse Pointe Park, has been named president-elect of the Michigan Academy of General Practice.

Other officers elected last night at the group's annual meeting here were:

E. Clarkson Long, Detroit, secretary; Lyle Korum, Detroit, treasurer.

New members named to the six-man board were Leighton O. Shantz of Flint and Harry Lamb of Sturgis.

Herman Melville, author of the classic sea tale, "Moby Dick," was born in New York City.

DOWNTOWN AND DRAYTON PLAINS

Cloak-and-Dagger Days Gone Forever

British Actually Advertise for Intelligence Agents

LONDON (UPI)—Britain is looking for military intelligence agents—and may have set some kind of a record by advertising for them in the "Situations Vacant" column of a London newspaper.

Old cloak-and-dagger hands are saying the government gave away quite a secret to the Russians if intelligence men are really that scarce.

Worse, they say, the world has not been told that it does not take a lot of brains to be an undercover agent.

As the ad itself said (under the heading "Military Intelligence"):

"Ambitious young men with qualities of personality, integrity, resourcefulness and initiative are required to train for military intelligence duties in the regular army."

Correction, Personal

HARTFORD, Conn. (UPI)—Roger B. Ladd stepped into a newspaper office here to ask whether there'd been much damage from an electrical storm. Assured that there hadn't been, Ladd went home. Ten minutes later, he telephoned the newspaper to report that his own house had been struck by lightning.

"Initial training to provide a general background in intelligence, is followed by duty in one of the following specialist fields:

"Interrogation
"Counter intelligence
"Port and travel control duties
"Air photo interpretation
"Intelligence staff

"Applicants must be between the ages of 17½ and 30 years and physically fit." It said school education is "desirable but not essential."

"For further details, write to 'The War Office (MP6/A3F) Whitehall, S.W. 1.'"

"Why," started one World War II intelligence agent with quite a

knowledge of the business, "my office boy fills those qualifications."

The darkly mysterious cloak and dagger atmosphere painstakingly built around this vocation is stripped away by the bald state-

Ban Not Unreasonable

GRAND FORKS, N. D. (UPI)—City officials here adopted a rule against accepting any more postage-due mail after they shelved out 48 cents to claim a package which turned out to contain a parking ticket and 100 pennies to pay for it.

ment of qualities that aspirants need. The required abilities are nothing extraordinary.

The ads call for male operators. On the count of mental equipment, comes the worst shock.

Britons always have imagined their secret agents to be suave, well-mannered, expensively educated gent, well at home in half a dozen obscure languages; capable of deciphering a code at half a glance.

They have seen them portrayed as experienced men of the world, moving with equal ease in international high society, discussing Einstein with eggheads or silence-

ing toughs with a judo blow in dark doorways.

But all the war office needs today is a general certificate of education. Even this run-of-the-mill scholastic attainment is not a must, just "desirable."

It Took Two Keys

MACON, Ga. (UPI)—"The Key to Successful Living" meeting of the Junior Chamber of Commerce ended on an off-key note. The 25 participants were accidentally locked in the city auditorium and had to wait 20 minutes for a caretaker to arrive and let them out.

This 4-door Hardtop Cruiser is the luxurious Park Lane by Mercury. Also available in the distinctive Montclair and the popular Monterey series.

The brand NEW '59 MERCURY shows you what NEW really means

Americans are looking at the new cars with a new look in their eyes. They're searching for the best combination of all things that count in a car. The answer in 1959 comes from this completely new 20th Anniversary Mercury.

SEE NEW CLEAN-DYNAMIC STYLING

Distinctive—because Mercury has its own exclusive body design; it is the only car in its class that does not use a dressed-up body shared by a low-priced car. Delightfully airy looking; more than 35 square feet of safety glass all around.

RELAX IN A NEW KIND OF COMFORT

No car in its price class has more usable room than this new Mercury. Examples: only Mercury has doors wider than those of the costliest cars... you'll get in and out easier (that knee-knocking windshield pillar has been moved forward). Up front... 9 inches more knee room! And, happy day!... Mercury really did something about that tunnel-hump in the middle of the floor. IT'S BEEN CUT IN HALF! Result: the man in the middle doesn't sit with his chin on his knees (as he does in other '59

cars). The lower hump makes room for thicker, softer seat cushions, too.

FEEL LIVELY NEW PERFORMANCE

Mercury has always been known as a top performer and now it's even greater. Not just high horsepower—although Mercury offers as much as 345—but a new kind of response, quiet, obedient, effortless.

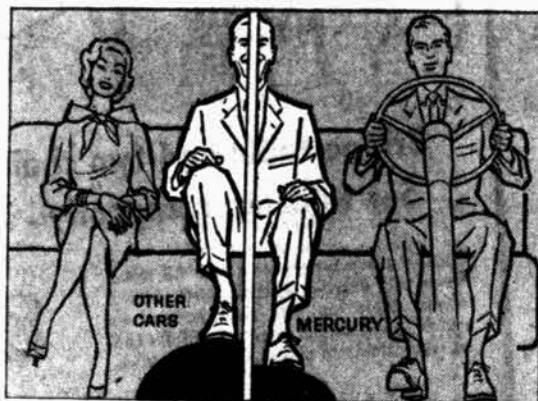

ENJOY NEW ECONOMIES

The 1959 Mercury has been priced so that 2 out of 3 new-car buyers can afford one. The big special is the Monterey which offers a new Economy Engine that gives top performance on regular (not premium) gasoline—you save 10% right there... actually ride "free" 10 miles out of every 100. And this engine squeezes more mileage out of every drop of gasoline, too.

Add it up and you get everything you want on wheels—the '59 Mercury. We invite you to see this great car today at our Mercury showroom. Built to lead—built to last—built to give you the most for your money in 1959.

MERCURY'S COUNTRY CRUISERS...NEW LUXURY FOR STATION WAGONS. Unique hardtop styling (one pillar replaces 3). Retractable rear window (no heavy liftgate). First fold-away 3rd seat that faces front. First concealed package compartment.

NEW COMFORT UP FRONT! That tunnel-hump you'll find on other '59 cars is 50 per cent smaller in the new Mercury. Three full-size riders can stretch out (including the man in the middle)... and get a better, softer ride.

MERCURY'S FIRST WITH SIDE-TO-SIDE WIPERS—You get an unobstructed view in any weather. They clear a 42% larger area—a 5-foot swath—including the center of the windshield. Only Mercury has this aid to safer driving.

Everything you want on wheels

- NEW STYLING
- NEW COMFORT
- NEW PERFORMANCE
- NEW ECONOMY

All beautifully combined in the 20th Anniversary

Remains Jailed on Theft Charge

Ex-MSU Student Held in Gun Robbery; Also Linked to Watch Job

CHARLOTTE 10 — Phillip Van Zandt, 22, of Detroit, former Michigan University student, remains in jail for the alleged theft of a collector's antique guns.

Van Zandt, also involved in the alleged theft of MSU museum watches, was unable to furnish \$5,000 bond at his arraignment on the gun charge yesterday. He was remanded to the Eaton County Jail pending examination Nov. 17.

As Van Zandt was taken into court here, the watch theft case came up in a Detroit court.

Ray O. Williams, 56, Detroit antique dealer, pleaded innocent to a charge of receiving the stolen watches. State Police say Van Zandt admitted taking them from the MSU museum and turning them over to Williams.

Williams, waiving examination, put up \$2,500 bond and was freed pending trial. No trial date was set. He appeared before Recorder's Judge John P. Scallen.

Van Zandt, charged with breaking and entering, allegedly took the antique guns from the collection in the home of Maynard Dossie in the town of Mulliken, near here. He demanded examination upon arraignment before Municipal Judge Angus MacLeod.

Radioactive Traces Give Rocket Data

SANTA MONICA, Cal. — A Santa Monica engineering concern has developed a means of obtaining information on the performance of rocket components, ranging from nose cone to tail pipe, with the aid of radioactive tracers.

The wear of engine nozzles or combustion-chamber walls can be measured, the company says, by incorporating tracers in them and measuring the rate of disappearance of the tracers as the rocket motor is fired.

The method even permits the measurement of nose-cone wear in flight through the use of radiation detectors mounted inside the cone and connected to the "birds" radio data-transmitting system.

Starkweather 'Told Me to Shut Up' Caril Says She Pleaded for Lives of Teen Couple

LINCOLN, Neb. (AP)—Caril Ann Fugate says she pleaded with killer Charles Starkweather to spare two of his 11 admitted murder victims last January.

"He told me to shut up," she recalled.

Caril's first-hand account of part of the Starkweather killing spree was delivered Wednesday to a jury hearing the 15-year-old brunette's trial for murder.

She is charged with aiding and abetting Starkweather in the slaying of Bennett, Neb., schoolboy Robert Jensen last Jan. 27. Starkweather is under death sentence for the killing.

Bodies of Jensen and his date, Carol King, were found in an old storm cave.

Caril told the jurors she expected at any time to become one of Starkweather's victims.

"Did you help Charles in any way in the death of Robert Jensen," asked defense lawyer John McArthur.

"No sir, I did not," she replied. She wanted to get away from Starkweather, she said. But "he always told me if I ever got loose my family would be killed."

Caril's mother, stepfather and half sister already had been killed by Starkweather.

Caril told how the Bennett teenagers were flagged down on a road and how Starkweather forced Jensen at gunpoint to drive to the storm cave.

"I was afraid he was going to kill us all," she said.

She said that at Starkweather's command, she pointed a shotgun at Miss King and told her to get out of the car. In a low voice so Starkweather wouldn't hear she said she told the girl "You better get out so you won't get hurt."

"I asked him again not to hurt

Rescuers Save Laborer Trapped by Cave-Ins

ALBUQUERQUE, N.M. (AP) — Laborer Ernest Ortega, 29, trapped 3½ hours by three cave-ins in the 15-foot-deep trench where he was working, was rescued Wednesday.

Twice completely buried by dirt slides, he was kept alive by rescuers who scooped dirt away from his head with their hands.

He was in a hospital today, suffering from shock and exhaustion.

Lynn Allen's Widow to Run for Office

Mrs. Florence J. Allen, whose temporary term as Oakland County Clerk is about to expire, today announced she would be a candidate for Waterford Township clerk next April on the Republican ticket.

Mrs. Allen, 61, widow of former county clerk Lynn D. Allen, said she was now circulating nominating petitions for the position which are due Dec. 29, two days before her present term expires.

It will be Mrs. Allen's first bid for a political office. Oakland Circuit Court judges appointed her to serve the remaining 6½ months of her husband's term in June. The

appointment was made with the stipulation she would not seek election to the new office of clerk-register of deeds.

Although Mrs. Allen, who lives at 4025 South Shore Dr., has never sought or held an elected political office, she was active in assisting her husband in his 25 campaigns for clerk.

Bike Is Good Exercise

RICHMOND, Va. 10 — El Estes, 43, isn't worried about the problem of keeping up two automobiles. He leaves the family car with his wife and rides a bicycle 10 miles to work every day — and thinks the 20 miles of pedaling is good exercise. Estes, YMCA membership secretary, says he also enjoys the scenery more than when riding in the car.

Plant Will Preserve Foods by Radiation

WASHINGTON (UPI) — An Ionizing Radiation Center will be built at Lathrop, Calif., as the major food preservation processing plant for the U.S. Army Quartermaster Corps.

The Atomic Energy Commission contracted with the Curtiss-Wright Corp. to develop, design, construct and test-operate the facility, where foods will be preserved through gamma irradiation processes.

The plant will be known as the High Intensity Food Irradiator (HI-FI). The cost of the project, scheduled for completion in mid-1960, will be \$1,605,000.

Pontiac City Affairs

To Ask Advice on Jobless Pay

Pontiac will ask for outside advice concerning unemployment compensation for city employees.

City Commissioners last night voted to seek opinions from the state attorney general and the Michigan Municipal League about the legality of such a step.

State law does not let cities cover their employees with compensation, said William A. Ewart, city attorney.

"It would be up to the Legislature to change the law, and a change would be difficult to accomplish with state finances as low as they are at present," said Ewart.

Commissioners decided to see if they could proceed legally with compensation without specific state sanction.

Pontiac does not have unemployed compensation nor does any other Michigan city, said Ewart.

In other business, Mayor Philip E. Rowston called for "immediate action" to replace the city's milk ordinance, which is scheduled for a court test Nov. 21.

Ewart has expressed doubts that the ordinance could stand up in court. It demands that all milk sold in Pontiac be pasteurized here. Pontiac dairy workers say that without such a restriction, outside dairies

would move competitively into the city, threatening their jobs at creameries here.

Commissioners decided to search for a substitute ordinance at an informal meeting tomorrow night.

Further steps were taken preparatory to installing sidewalks for pupils of three schools.

HEARINGS SET

Hearings were set for next week on the city's intention to begin two of the projects, one covering both sides of Orchard Lake avenue from Telegraph to the city limits for the benefit of Daniel Whitefield School; the other on the north side of Madison avenue, Perry to Arlene, for Northern High School.

There were no objections raised at last night's hearing on the third project, the south side of Linda Vista drive, Joslyn to Vernon, for Mark Twain School.

Two assessment rolls won approval at two other hearings. One covered construction of a sidewalk on the west side of East boulevard north of Michigan avenue; the other a sidewalk on the east side of Stirling, Madison to Baltimore.

Commissioners also decided to complete the sidewalks around Optimist Park by ordering a new walk constructed on Strathmore avenue, priced at \$1,000; and on

Fairmount avenue, \$1,057. The city, which owns the park, will pay the cost.

Plans were begun to install a sidewalk on Robinwood avenue, Baltimore to Pennsylvania, after 56 per cent of the residents petitioned for the work.

Building Contractors Suing Union Local

An association of building contractors has sued the Bricklayers, Masons and Plasterers Local 29 (AFL) of Pontiac, claiming the union is attempting to force its workers to join.

In a suit filed yesterday in Oakland County Circuit Court, the Southern Michigan Building Contractors Association Inc. and J. M. Weakland, a West Bloomfield Township contractor, ask a restraining order preventing Local 29 from picketing or interfering with association construction jobs.

The association says it is not interested in joining Local 29 as its workers are presently negotiating for a contract with another union.

Judge Frank L. Doty ordered Local 29, and several of its officers named as defendants in the suit, to appear in court at 1:30 tomorrow to show cause why he shouldn't issue the injunction.

Agent to Testify in Beck's Trial

Treasury Man Returns After Relating '43 Tax Case Against Leader

TACOMA, Wash. (AP) — Treasury Agent Claude Watson was expected to take the stand today in the federal court trial of Dave Beck, Sr., former Teamsters' Union president, who is charged with evading payment of \$240,000 in income taxes for the years 1930-53.

Watson testified during the final ten minutes of Wednesday's session. He had time only to relate an encounter he had with Beck in 1943 when the 64-year-old labor leader had tax troubles which were subsequently settled out of court.

Watson, 55, a onetime railroad brakeman who still holds a Brotherhood of Trainmen union card, said Beck told him he always kept \$1,500 cash on hand.

Most of the court action centered about Morse B. Lake, vice president of the Seattle First National Bank, and Beck's relations with the bank.

Lake, who has been on the witness stand since Tuesday, told the jury that Beck knew of the investigation of his financial affairs since it was begun by the Internal Revenue Service five years ago.

Beck's attorney's served a 125-

page brief at Seattle in Beck's appeal of his conviction last December on a grand larceny charge.

Beck is under sentence of up to 15 years in the Washington State Penitentiary for conviction of the misappropriation of funds from the sale of union-owned automobiles.

3 Hurt in Accident at City Intersection

Three persons were injured yesterday in a two-car accident at the intersection of East Blvd. and Featherstone Ave.

A car driven by Jason B. Inman, 45, of 482 Emerson Ave., traveling west on Featherstone, collided with one driven by George A. Harold, 29, of 131 W. High St., moving south on East Blvd.

Inman told Pontiac police he did not see a "stop" sign on Featherstone. He was treated and released at Pontiac General Hospital for contusions to the left arm and head.

A passenger in his car, Sharon Lee Inman, 13, of 482 Emerson Ave., was admitted to the hospital with a concussion, laceration to the left ear, abrasions to the right arm and face. Her condition is reported good.

Harold suffered contusions to the forehead and nose, and injured his shoulder. He was treated and released.

Door-to-door salesmen brought in about two billion dollars' worth of sales last year.

7 Children Die as Home Burns

Parents, 1 Girl Only Survivors After Blast, Fire in Ft. Wayne

FORT WAYNE, Ind. (AP) — Seven children ranging in age from 7 weeks to 11 years died today when an explosion and fire roared through a frame house in the southwest part of the city.

Mr. and Mrs. George Gammons managed to get out of the six-room dwelling, then ran back and hurried an eighth youngster, 4-year-old Connie, to safety through a window. Flames drove the parents out before they could rescue any of the other children.

Both parents and the surviving child were taken to Lutheran Hospital for treatment of burns, cuts and bruises.

Flames were shooting 40 feet high when firemen arrived.

Found in their beds, apparently overcome by smoke as they slept, were the bodies of George, 11; Chester, 9; Irene, 8; Alvis, 5; John, 3; Carolyn, 1; and Georgia Ann, 7 weeks.

The five older youngsters were sleeping in the second bedroom of the house. The rescued girl and the two youngest slept in the room with their parents.

have occurred near the oil furnace. Oil spurting from severed lines fed the flames.

Gammons, a 34-year-old truck driver for an oil company, and his 31-year-old wife were in shock and could not be questioned about details.

*Authorities believed the parents were awakened by smoke.

Check Titles Carefully

TOWSON, Md.—This year's application blanks for the MISS Baltimore County Fire Prevention Contest were different. They carried two blanks labeled "married" and "single" (check one).

2 Smith Girls Spending \$900 to Have Dance

NEW YORK—Two Smith College girls who spent a lonely Thanksgiving holiday in New York last year are making sure their excursion to the big city this year is livelier.

Priscilla Lamb, 19, of Toledo, Ohio, and her roommate, Gail Griffith, 19, of Glen Ridge, N. J., have invested \$900 of their earnings and savings in a Thanksgiving dance here for college students.

"Most of us can't get home for Thanksgiving because the weekend is too short," Priscilla said. "So we dash to New York and stay in hotels and mill around, all in the same boat—but strangers." So they have engaged a large ballroom, booked an orchestra, printed tickets and invited boys and girls as far west as the University of Michigan to their dance. They've sent tickets to various campuses and figure they'll sell more at the door. They expect as many as 2,000 other collegians to show up.

State's New Xways Keep Him on the Move

GRAND RAPIDS (AP)—Bernard Zevalkink had to sell his suburban home last April to make way for a new expressway. Before buying a new home, Zevalkink checked with state highway officials about other expressway plans. This week the state disclosed plans for a new expressway. It goes right through Zevalkink's living room.

Bermuda was an important base for British ships blockading the Atlantic coast of the U. S. during the War of 1812.

Doctor Dies in Court

MOUNT CLEMENS—Dr. Russell W. Ulrich, 65, of Mount Clemens, suffered a fatal heart attack Wednesday while testifying in an auto accident damage suit in a Macomb County courtroom. Dr.

Ulrich was a former president of the Macomb County Medical Society.

The cost of living in the U. S. went up 72 per cent between 1939 and 1950, reports the Twentieth Century Fund.

Gibson Business Good

GREENVILLE—The Gibson Refrigerator Co., citing good October business, has announced a 20 per cent increase in production and plans to increase its work force. The company said its Octo-

ber business has been the best in eight years.

The average American visitor to Mexico spends 20 days and \$265 there, according to the California State Automobile Association.

Collision Kills Woman

MONROE—Mrs. Ralph Kiger, 54, of Danville, Ill., was killed Wednesday in a car-truck collision near here. Her 58-year-old husband was seriously injured. Sheriff's officers said Kiger apparently

ran a red light and was struck in the side by the truck. The truck driver, Thomas Nocella of Monroe,

Lydia Sokolova, one of the stars of the old Russian Imperial Ballet, was an Englishwoman named Hil-da Munnings.

Hal Boyle Asks:

Which Year of Marriage Was Your Worst?

NEW YORK (AP) — Married people rarely argue about which year they were together they were the happiest.

But they will fight like tigers about which year of matrimony was the worst.

This is a favorite subject of battle-scarred survivors of matrimony.

Each member of the family corporation remembers a favorite year in which he—or she—feels that the other partner let him—or her—down.

The main guns of marriage are fired early. The artillery bombardment is at the first. Then the slow and steady infantry of love

and responsibility and duty moves in and seizes and holds.

I can well recall when my wife Frances and I were discussing the difficulties of marriage with a bunch of young fellow veterans, and we all had pretty well agreed that the seventh or eighth month was the most terrible period of

mutual adjustment.

Then up reared the head of an "elderly" lady of about 30. "You kids don't know what you are talking about. My husband and I have been married five years. And I'll tell you what's the worst. It's the sixth year!" she said.

Well, naturally this was a shocker to us comparative newlyweds. But this was an honest girl, and all she meant to say was that the next year of a marriage can always hold a more golden worst than any you have ever known before.

It is so true.

I was thinking of this only the other night on my own 21st wedding anniversary. I was going to celebrate it with a quiet gamble. I was going to bet my wife she couldn't cook a dinner on time after 21 years, and I knew I would win.

It didn't work out that way. I was bedfast with a bad back. Off to the theater galloped Frances with that globe-trotting author, Don Whitehead and his wife Marie, fresh from a trip around the world.

Eartha, our part-time maid with the whole-time heart, put a pillow behind my back. I listened to 5-year-old daughter Tracy brag that "one and one are two, two and two are four, four and four are eight, eight and eight are 16," and so on.

Somebody was riding hard for Eagle Pass on the television screen. Adn Tracy mumbled that 64 and 64 make 128 and fell asleep. Who the hell cares that plus what makes 256?

Then Eartha went home and the room was loud with silence. I listened to arthritis, and knew I would hear it again, by myself.

I felt the penalty all things feel who feel alone.

Well, then, in bounced my wife and the Whiteheads, still rich with the magic that only the theater confers, and they cooked hamburgers and we ate them into the morning and talked of old times and new times.

After so long a time I suddenly realized what the girl who had been married five years really meant when she said the sixth year was the worst.

The worst year of any marriage is the one you haven't yet shared.

Missionaries' Destination: Viet Nam

Girls to Search for Tribe Lacking Written Tongue

PASADENA, Calif. (AP) — A slim, blue-eyed New England girl plans to ride muleback into mountainous South Viet Nam and find some tribe that has no written language.

There, a few miles from the Communist North, she'll spend 10 to 15 years making a phonetic translation of the New Testament and helping the natives establish a church.

"We feel that since the Lord seems to be leading us into it, he'll take care of us," says Burdette Jean Donaldson, 26.

She and a still unselected girl companion will be sponsored by Wycliffe Bible Translators. This interdenominational group, with headquarters in nearby Glendale and 800 field workers around the world, has translated the New Testament into nearly 150 tribal languages.

In high school at Exeter, N.H., where she is still a member of the First Baptist church, Jean began thinking about missionary work.

In 1950-51 she was a staff sergeant in photography at Shaw Air Force Base, S.C. She prayed about her decision while earning a B.A. at Westmont College, Santa Barbara, Calif.

Miss Donaldson is studying Biblical languages at the non-denominational Fuller Theological Seminary before sailing next Jan. 17.

"I felt I'd like to go to a place which had no one to tell them of the Lord," she said. "There are Christian Missionary Alliance workers in Viet Nam but over 21 tribes without the Gospel."

Last summer her sponsors put Jean and 40 others through a three-month training camp in a southern Mexico jungle. They lived in mud-walled buildings with thatched roofs, studied carpentry, repaired radios, swam, canoed, hiked and even butchered a cow.

Miss Donaldson and her partner will write native sounds in basic primers, in phonetic English.

"I imagine it will take 10 to 15 years before you get a strong church in one tribe," she said. "When I finish with one, I plan to go on to another."

She said her mother, Mrs. Faith S. Donaldson, Exeter, N.H., is "very happy about it."

Jailer Disappointed by Model Prisoner

BEDFORD, Ky. (AP) — Henry Tingle, jailer, has been deceived by a prisoner for the last time. His model ward, Russian Walden, 37, had been a prisoner for 1½ years on an armed robbery charge.

Two juries failed to reach a verdict in his case. Another trial was set for January.

Tingle gave Walden the run of the jail. The prisoner raised a garden and helped with odd jobs around the courthouse.

Wednesday Tingle delivered Walden's breakfast and told Walden to meet him at the courthouse when Tingle finished his meal.

Model prisoner Walden did not keep the appointment.

Zimbalist Relatives Will Get \$500,000

HOLLYWOOD (AP) — Movie producer Sam Zimbalist, 57, who died Nov. 4 in Rome of a heart attack, left his \$500,000 estate to immediate relatives.

His will, filed in Superior Court

for probate, leave his widow, Mrs. Mary Taylor Zimbalist, the Malibu family home and half the estate's remaining assets.

There are provisions for a lifetime income for the producer's mother, Mrs. Rebecca Zimbalist, and after her death income for his brothers Harry, Max and Albert and sister Mrs. Shirley Moss.

Zoo Chief Returning With Sixty Penguins

PORTLAND, Ore. (AP) — City zoo director Jack Marks was en route home today from the Antarctic continent with 60 penguins — 30 Adelines and 30 Emperors.

Radio reports from New Zealand said Marks, who is completing his second Antarctic penguin hunting trip, is scheduled to arrive Friday by Air Force transport.

On his initial trip last year, Marks captured 67 penguins but only 30 survived.

She Advises Pension Cut, He Sets Fire to Her Car

JACKSON, Mich. (AP) — Joseph G. Ehrlich, 73, has pleaded guilty to charges of twice setting fire to the car of a social worker who recommended cutting his old age

pension from \$34 to \$25 a month. Police said Ehrlich admitted setting fire to a car belonging to Mrs. Michael Wright Jr., of the Jackson County Bureau of Social Investigation. Social aid workers said Ehrlich was paying \$6 instead of \$3 a week rent as he reported.

Airlines to Drop Gallant Carrier

DC4 Built Its Reputation for Taking Extra Loads in World War II

WASHINGTON (UPI) — Get ready to bid goodbye to a gallant old aerial workhorse—the DC4. The four-engine Douglas-built airliner never achieved the reputation nor the affection bestowed on its smaller predecessor, the DC3. But a lot of pilots are sorry to see the husky veteran disappearing from scheduled airline service.

There are still 198 DC4s being used in scheduled service throughout the world, according to the International Air Transport Association. Most of them are operated by foreign airlines; only a handful are still carrying passengers in the United States.

The DC4 was America's first four-engine transport plane, built in 1933 as the successor to the DC3. The prototype had a triple-tail similar to Lockheed's Constellation, but Douglas shifted to a single tail and sold the odd-looking prototype to the Japanese government.

Douglas went on to build about 1,200 DC4s but World War II kept the fat-fuselage transport from what would have been a leading role in commercial aviation. As the military C54, the big plane performed wartime transportation duties nobly. But, by the time the war ended, Douglas was ready with its pressurized DC6 and Lockheed collared the rest of the four-engine market with its Constellation.

Pilots regard the DC4 with a special, reserved kind of affection—like that given a loyal wife who has developed idiosyncrasies over the years.

Although most pilots will concede the DC4 handles with all the grace and effortless ease of a trailer-truck, they do praise its dependability. During the Korean War, a cargo DC4 accidentally was loaded twice before it left California for the Far East. When the cargo manifests were straightened out in Tokyo, officials discovered the plane was overloaded by five tons.

The most famous DC4 was the "Sacred Cow"—the first airliner to be used by a President of the United States. Franklin Roosevelt flew the "Cow" to overseas conferences; it was the first plane to be equipped with an elevator for boarding—because of FDR's paralysis.

Those were the days when the DC4 earned its reputation as the best freight carrier ever designed. It apparently was impossible to overload the plane, and the DC4 legend can be summed up in the load limit instructions handed a Troop Carrier Squadron in World War II:

"Cramp in as much freight as you can, check the tires and struts—and if she can taxi without collapsing, go ahead and take off."

Nixon Delivers Impromptu Talk While Asleep

MIAMI (UPI) — Vice President Richard M. Nixon, a hard-hitting political campaigner when awake, makes non-political speeches in his sleep, a dentist reported today.

Nixon was given a drug called "Nervol," described as a form of so-called "truth serum," yesterday as anesthetic for the extraction of an infected wisdom tooth.

The two dentists in attendance reported that Nixon made a speech after the extraction, while the anesthetic was wearing off.

They said he told the audience—the two dentists and three nurses—about the American way of life, discussed a variety of general topics and praised his wife for bravery in Venezuela, where Nixon was attacked by a stone-throwing mob earlier this year. The dentists said he made no partisan political remarks.

After the speech, they said, he asked when they planned to remove the tooth. The dentists said they had to show him the extracted tooth to prove the job had already been done.

Production Machines Talk Back to Man

NEW YORK — Production machines that talk back to man—in his own language—are making themselves heard in the expanding age of automation. According to the publication, Product Engineering, any number of statements, pertaining to almost any situation the machine may encounter, can be set in its "memory."

The choice of the proper statement would depend on the situation the machine met. The computer selects and prints out the phrase. The backtalk ranges from such business-like statements as "Have revised your last instruction" to "Let's not botch it up again, Bud."

Private Pools Increase

CHICAGO—There are nearly 50 times as many private swimming pools in the United States now as in 1947. The American Society of Planning Officials expects the back-yard pools to reach nearly 200,000 this year.

Not Gentle Nor Subtle

MARCH, England (AP) — The council of this Cambridgeshire community plans to use publicity to make tenants of municipally-owned houses pay their rent promptly. A list of defaulters will be posted outside the town hall at regular intervals.

Luck Comes With Lad

NORFOLK, Va. (AP) — Fishermen at Lake Smith were not having

much luck—that is until Joe Baker, 13, arrived. Joe didn't have any fishing tackle and went out with two companions just for the ride. A 2½-pound bass jumped in his boat. Mrs. Joseph Baker cooked it for his supper.

3-Year-Old Dies in Fire

DETROIT (AP)—Mitchell Jones, 3, was killed Thursday night when fire destroyed a garage apartment on Detroit's east side. The boy's mother, Mrs. Wilma Jones, 25, managed to rescue her 10-month-

old son, Richard, by dropping him from a second floor porch, but was unable to save Mitchell. Both Mrs. Jones and Richard were hospitalized for treatment of burns.

Bermuda banned automobiles until World War II.

19 Still Hospitalized

ANN ARBOR (AP)—Nineteen of 200 University of Michigan students stricken with stomach trouble over the weekend, remained in the medical center Wednesday. Uni-

versity officials said 19 others were confined to their rooms in the wake of what the U. of M. health service called food poisoning.

The Amazon River discharges more water than the world's next three largest rivers combined.

Egg Machine Latest Sign of Progress

RIPLEY, N.Y. (UPI) — A new method of merchandising eggs by using roadside vending machines has proved a boon to western New York poultrymen.

Farmer John N. Wolf said the vending machines cut down on interruptions in routine farm duties and make it possible to sell eggs at night or when the farmer and his family aren't home.

Each machine holds 100 dozen eggs of two sizes, medium and large. Quarters, dimes and nickels are used to operate it. The device has a refrigerator unit to prevent spoilage in the summer and is electrically heated in the winter to guard against breakage.

For Middle Age Sparkle:

Correct Eating Habits Insure Health

NEW YORK—The most important insurance for a healthy and vigorous middle age is a complete change of eating habits.

If you are over 25, says an article in a recent issue of a national magazine, it's time for a change—now! It is at this time that the mysterious process of aging begins. Excess weight, lack of pep, nervous irritability and miscellaneous aches and pains are all part of the middle age pattern, the article contends.

According to J. Russell Taranino, director of the New York Institute of Dietetics, middle age people no longer have the leeway in eating that they had earlier in life. Cells are unable to absorb

nourishment and convert proteins into new tissue as fast—“equipment just isn't efficient any more.”

Just what is good food for a vigorous middle age?

For one thing, it is most important to cut down on foods with a high caloric content. At 25 it is necessary to slowly decrease caloric intake and concentrate on foods rich in proteins, vitamins and minerals. Suggestions by diet experts on how to maintain steady weight are included in the feature.

Among the tips are: Avoid emotional eating which has nothing to do with the body's need for nutrition; don't eat rich desserts, fried foods, gravies and

saucers; don't eat out of habit if you are not particularly hungry.

While your needs for calories decrease during middle age, the story is quick to point out that your needs for other foods might actually rise. Loss of vitamins or minerals from a diet can mean trouble.

For instance, lack of iron from a diet tends to give you a rundown feeling; calcium is necessary to maintain healthy bones and teeth; vitamins, such as B complex must be maintained for a healthy nervous system and riboflavin must be included in a diet to keep up appearance.

These important “pep-and-appearance” vitamins are abundant in the foods adults oftentimes leave out of their diet. It is essential during middle age to give great thought to maintaining a good “vitality diet” (more vitamins and minerals, less calories and fats).

In order to continue a youthful middle age, you should plan your eating around basic foods. Among the list are:

- | | |
|------------------|--------------------|
| Milk | Meat |
| Eggs | Fish |
| Citrus Fruits | Poultry |
| Potatoes | Whole Grain Breads |
| Green Vegetables | Cheese |

To Back Up Lyndon

WASHINGTON (UPI) — Sen. William Proxmire (D-Wis.) said today he expects the Senate's big crop of freshman Democrats to close ranks behind Democratic leader Lyndon B. Johnson.

Apple a Day Keeps Dentist Away, Too

BURLINGTON, Vt. (UPI)—May be an apple a day does keep the dentist away — the dentist, too.

Nutritionist Anna Wilson of the University of Vermont said one

apple contains at least some of all the food nutrients recommended for an adequate diet.

In addition, she said the mechanical action of chewing a tart crisp apple rubs off some of the film on teeth and “doubtless carries away some of the acid-forming bacteria which cause tooth decay.”

Trust Bees, Not Wasps

HELENA, Mont. (AP) — Beeman Charles Williams arrived home after one more successful day on the job which he's pursued for years — and was stung by a wasp. Twice. The wasp flew up his trouser leg, Williams' wife, “You can depend on bees. But you can't trust wasps.”

A vinegar odor to aspirin means it has started to decompose.

Board Approves of Auto Race Track Near Utica

Curtiss-Wright Tract Involved

Amended Rezoning Law Paves Way for Building Grandstand, Facilities

SHELBY TOWNSHIP — The Shelby Township Board last night paved the way for establishment of a major automobile race track in the Utica area. The Board voted to amend the rezoning law to permit auto racing on the 675-acre tract owned by Curtiss-Wright Corp.

This move by the Township Board resulted from an advisory vote on the proposed rezoning issue, passed in the Nov. 4 election. 2,176 "yes" to 1,029 "no."

The Curtiss-Wright property lies between 32 and 23 Mile roads and Mound and Van Dyke. It has an existing track built by the Packard Motor Car Co., former owners of the site.

A Curtiss-Wright spokesman said today the company now expects to proceed with its plans for construction of a permanent grandstand to seat 20,000 spectators, bleachers for 20,000 more, comfort stations and a sports car track within the large oval.

The new facility will be used for major sanctioned national and international automobile races, according to company officials.

They said the planning stage should cover about 90 days, and that actual construction will take another 90 days after the Board's action becomes effective.

The Zoning Board deliberated only briefly before approving the rezoning amendment after the session opened. Before adjourning, however, Zoning Board members adopted one further amendment, asking that application for a building permit by Curtiss-Wright be referred to the Zoning Board for its recommendations before final approval is given.

Shortly after the Zoning Board recessed, the Township Board convened to act officially on the rezoning amendment.

The Board's unanimous approval followed a short time later.

The 2 1/2-mile track was constructed between 1928-29 and was used as a test strip by Packard. During World War II tanks were tested on it. After the war, the track was resurfaced with a 12-inch layer of concrete.

The zoning amendment restricts the track to races for only Indianapolis type cars, sports cars and late model stock cars. Night racing would be banned altogether.

M53 Car Accident Claims 2nd Life

ALMONT — An automobile accident on M53 north of here Sunday claimed its second life Tuesday night, Romeo State Police reported today.

Franklin Johnson, 67, of Harbor Beach, died at Bishop Hospital, Almont, of injuries suffered in the crash. His wife, Christina, 53, was killed instantly in the mishap.

Mrs. Johnson was driving the family car when she lost control of it on a soft shoulder and crashed into a concrete culvert on the opposite side of the road, police said.

New Unit of Measure

ANADARKO, Okla. (AP) — The School Board says it did a "beer case worth of business last year." The board's secretary was hunting a place to put old records and found they fit just right in an empty beer case.

LARGE SPEEDWAY BEING PLANNED — This is artist's conception of Curtiss-Wright race track planned near Utica. Given the go-ahead through rezoning by the Shelby Township Zoning Board, the corporation plans to construct a track for national and international auto races. Outside oval shown in photo is existing

concrete track constructed by the Packard Motor Car Co., which formerly owned the site. At upper edge are proposed permanent grandstands and building to be used for testing laboratories. Two sets of bleachers are shown at lower edge of track. Large parking areas also are included in preliminary plans.

Fire Destroys \$15,000 Barn

Investigate Brandon Blaze

BRANDON TOWNSHIP — The state fire marshal has been called in to investigate a blaze which last night destroyed a \$15,000 barn on the farm of Bert Cumins of 7350 Oakhill Rd.

Cumins said a cow and three calves perished in the fire. He estimated damage to contents at \$3,000.

Ortonville Fire Chief William Buckingham said he thought it strange the barn should catch fire at this time of the year and at 2 in the morning.

Learning that another mysterious fire had destroyed a barn yesterday afternoon near Gingellville,

he said he decided to seek assistance from arson experts.

Cumins awoke around 2 a.m. and saw the barn ablaze.

He called both Independence and Ortonville fire departments, which used six tank trucks to haul water from Bald Eagle Lake to combat the flames.

The barn was leveled but adjoining out-buildings and machinery were saved, along with other cattle, Buckingham said.

Hula Hoop Hits Bottom

TOKYO (UPI) — The hula hoop craze is reaching bottom. Twenty hoops were loaded aboard the Japanese Antarctic expedition ship Soya when she left today for South Pole regions.

Service Is Reassuring Low Rate Piecework

TOLEDO, Ohio (AP) — A telephone answering service here offers what it calls a "reassuring service" for friends or relatives of elderly persons who live alone. Subscribers can order a daily phone call made to the homes, with provision they be notified if no one answers.

College Students Help

WILLIAMSBURG, Va. (AP) — A dozen William and Mary College students are helping disturbed youngsters at Eastern State Hospital with homework, athletics and hobbies. Physicians say the youngsters are responding well to the youth treatment.

Used for Wishing Well?

HARTFORD, Conn. (UPI) — The fountain at the Wadsworth Atheneum, Connecticut's largest art museum is showered with about \$70 in coin by visitors every year.

Club Granted Liquor License

Romeo Golf, Athletic Group Petition OK'd in Washington Township

WASHINGTON TOWNSHIP — The Washington Township Board last night approved a petition of the Romeo Golf and Athletic Club for a class C liquor license.

The request for the license, which permits sale of liquor by the glass, was prompted by the near-completion of the clubhouse, Manager Hiram C. Brown said.

Remodeling of the converted farm building, located on east 32-Mile road, one mile east of Romeo, will be finished early this winter, he said.

Brown also reported the golf range is completed. The 18-hole golf course is scheduled to be opened to the public "no later than May 1, 1959."

Twenty greens, two for practice, have been installed and 18 tees have been sodded, Brown said.

Installation of the pump and irrigation system will begin within the next 10 days, the manager said.

Other business handled by the township board included final approval of the plat for Gardencrest Manor subdivision on Sisson street.

The 10-acre site is located just southwest of the village limits.

Before adjournment, R. Eugene Inwood, township supervisor, introduced the new zoning administrator, Ralph Sheldon of Washington, elected to succeed Harold Masters, who resigned earlier this month.

Train Toots in Time

RICHMOND, Va. (AP) — A diesel locomotive stole the show at Richmond's Armed Forces parade. The parade was crossing the Belt Line bridge when the train rounded the bend and the engineer began to sound his horn in marching time—toot—toot, toot, toot, toot—until the train disappeared.

SWEETHEART OF DEMOLAYS — Reigning as Sweetheart of the Michigan DeMolays is Bloomfield Hills High School senior Kay Lee. She is shown here being presented with flowers and the sweetheart trophy by Wayne K. North of Marquette, newly-elected DeMolay master counselor of Michigan. Daughter of Mr. and Mrs. Ernest Lee, 1561 Bataan St., Kay was chosen for the top title from nine other district finalists at the annual State DeMolay Convention last weekend at Grand Rapids.

Man Accused 2 After Leg Broken

Hazel Park Police Sued

HAZEL PARK — Two Hazel Park police officers have been sued by a Hazel Park resident who claims they caused his leg to be broken when they arrested him following a street disturbance involving two women.

William B. Gehrke asks \$50,000 from William J. Ryan and Edward M. Ryberg in a law suit filed yesterday in Oakland County Circuit Court. Gehrke charges the two with assault and battery and false arrest and imprisonment. He said he and his wife were

letting a friend out of their car early in the morning of June 28 when two women, one of whom Gehrke had dated before his marriage, drove alongside their car and began deriding him. Ryan and Ryberg, in a patrol car nearby, were asked by Gehrke, he said, to order the women away, but they refused. After this one of the officers informed him he was under arrest, and at the same time the second officer, Gehrke claims, knocked him down causing his leg to be broken.

Kubaskis Take Northern Trip After Wedding

LAKE ORION — Following their honeymoon trip to northern Michigan and Canada, Mr. and Mrs. Jerome C. Kubaski will make their home in Pontiac.

They were married Saturday evening at the St. John's Lutheran Church, Rochester, before members of the immediate families. Performing the rite was the Rev. Walter C. Gerken, pastor.

The former Janice Sue Chambers, the bride is the daughter of Mr. and Mrs. Samuel Chambers of 540 Casemer Rd. Parents of the bridegroom are Mr. and Mrs. George Teheringer of 44 Orchard St.

For her wedding, the bride chose a ballerina-length gown of brocade satin. Her shoulder length veil fell from a headpiece of seed pearls, and she carried a bouquet of white roses and gardenias.

Maid of honor was the bride's sister, Mary Jo Tripp of Lake Orion. Floyd Behl Jr. of Lake Orion was the best man.

The reception was held at the Gingellville Community Center.

Cleveland, Ohio, was named for one of its founders, Gen. Moses Cleveland. Somewhere the "a" was dropped from the name.

Denies He'll Quit Southfield Post

Administrator Swem Plans to Stay Until His City Contract Expires

SOUTHFIELD — Eugene M. Swem today denied rumors he would step down as Southfield's city administrator prior to termination of his contract.

It has been said this week that Swem would relinquish his post Dec. 31, four months before his one-year contract expires.

Swem was unanimously appointed the city's first administrator by the City Council soon after that portion of Southfield Township became a city April 21.

The council's vote overrode Mayor Donald L. Swanson's veto of Swem. Swanson had said the position required a younger man.

Swem, who is 73, has been the township's supervisor since 1953.

A committee was set up about six weeks ago by Council President John J. Costello to appoint a new administrator to succeed Swem when his term expires. Swem is a member of that committee.

1959's Most Dramatic Debut

The New Lincoln

Newest Edition of the Classic Lincoln Look

Classic beauty...unexcelled craftsmanship

Here indeed, is a new masterpiece in the proud Lincoln tradition. A car of commanding appearance. A car of classic beauty, realized without sacrificing an inch of interior spaciousness and comfort. A car built with unexcelled quality and craftsmanship. These are just a few of the many practical reasons that make the 1959 Lincoln the choice for those who demand the very finest in the motorcars they drive.

The Lincoln interiors are the most spacious and most comfortable of any motorcar, and Lincoln's engine is unquestionably the finest ever installed in an American automobile. Yet, for all its roominess and power, the magnificent Lincoln handles with incredible ease. Enjoy the reassuring confidence that belongs exclusively to Lincoln owners. Your nearby dealer invites you to inspect the 1959 Lincoln personally...soon.

On display tomorrow at our showroom

THE LINCOLN AND CONTINENTAL DEALER IN YOUR COMMUNITY

SECOND MYSTERIOUS BARN FIRE — For the second time within the past two months, an almost century-old barn has been destroyed by fire of an undetermined origin in the Gingellville area. This one, owned now by Village Acres, a Detroit development firm, went up in flames at 2:30 p. m. yesterday. It was located on Bald-

win road, about a quarter-mile north of Mill Lake. A couple months ago fire destroyed the former John Gingell barn a quarter-mile away. The structure burned yesterday was filled with hay. Damage was estimated at \$5,000 by owners. Gingellville firemen kept the blaze from spreading to a nearby wooded area.

True Social Security

Keep Your Independence

By RAY HENRY
AP News Writer

"Dear Mr. Henry: My father recently died and my mother who is 66 is living alone. I want her to come and live with my husband, our two teenagers and me. We have plenty of room and could look after her. She insists she is better off by herself and has, so far, paid little attention to my urgings. Don't you think she'd be a lot better off living with us? Mrs. D.L. of Cleveland, Ohio."

Probably not, if she's in good health. The answer might be different if she wanted to live with you. But, even if she did, it would depend on the circumstances.

I believe parents, in most cases, should have their own home as long as they can possibly manage it.

In urging their parents to come live with them, children often forget they're asking their parents to give up—usually, for life—a big chunk of freedom. They'd be a lot more helpful if they supported the desire for freedom than by encouraging surrender.

Independence is extremely important to all of us, young or old. A home of one's own is not only a symbol of this independence but an essential part of it.

And, taking away independence from an older person could hasten the physical decline that comes with growing old. A parent may begin to feel life is over and give up the desire to live.

Often efforts to overcome the difficulties older people meet in living alone is the very thing that keeps them active and vigorous. What would your mother do to keep active if she lived with you?

Besides the loss of independence, your mother is likely to lose self-esteem and dignity. This is bound to happen if somehow she feels she's no longer capable of supporting or caring for herself.

No doubt your desire to have your mother live with you results from good intentions.

You feel the loss of your father has been a terrific blow. And, no doubt it has. You think she needs assurance that you're trying to make her life more pleasant. You want her to know, by direct action, that you'll do everything you can—even to offering your own home for her to live in.

This is natural. But, there are other ways you can show your interest and willingness to help.

You could offer to get your mother a cleaning woman once or twice a week to do some of the heavier household chores. Maybe a man could be hired to keep up the yard, take care of outside repairs and tend the furnace.

Or, you could regularly stock her refrigerator with cooked foods. For example: If you're baking pies or cooking a roast, you could prepare enough so you could give some to her.

You probably can think of other ways of helping. This sort of help, however, should be offered casually and sincerely. Too much help, might make your mother resentful and interfere with her independence.

If and when your mother reaches an age or a physical condition where she really needs to live with you—for her own well-being—that's the time to offer your home.

Girl Smuggled Across Border Disillusioned

SAN FRANCISCO (AP)—Adela Gonzales, 16, a Mexican, allowed herself to be smuggled across the border under the hood of an automobile, thinking her lover was going to marry her in the United States. Then she found he was married.

The result: Roberto Inda, 26, a

San Jose cannery worker, was indicted Wednesday by a federal grand jury on charges of smuggling Adela into the U.S. for immoral purposes.

Asst. U.S. Atty. James B. Schnake said Inda picked up the girl in a Tepic, Nayarit, Mexico, hotel. Somehow, he managed to introduce his wife to the girl as his cousin, Schnake said.

Schnake said it was three months before Adela discovered Inda's "cousin" was his wife. Adela promptly went to the police.

Rock Slide Victim's Crushed Body Found

THOMASTON, Conn. (AP)—The crushed body of a construction worker was removed Wednesday night from under tons of rock and earth that buried him Tuesday.

Rescue workers freed the body of Matthew Pagarulo, 38, after working nearly 30 hours. Pagarulo

apparently was killed instantly, a medical examiner said. Pagarulo was operating a power shovel to help build a railroad cut at the 17-million-dollar federal Thomaston Dam project.

One Out of 62 Is French

PARIS—In a little more than 20 years France's population has increased by 4,000,000 and now exceeds 44,000,000. One of every 10 Europeans is a Frenchman, as is one of every 62 people in the world.

Prolific Tiger Gives Birth to 2 More Cubs

NEW YORK (AP)—Dacca the tigress, the Bronx Zoo's most prolific inhabitant, has given birth to her 30th and 31st offspring. The zoo announced 14-year-old Dacca had borne the cubs—a male and female—last Sunday. Mother and cubs were reported doing well.

Goethe said that "architecture is frozen music."

Midland and Odessa, Tex., are both tough cowtowns and oiltowns, 300 miles west of Fort Worth. Each supports a symphony orchestra and chorus.

Moon Volcano Reported

MOSCOW (UPI)—Soviet astronomer Nikolai Kozirev recently photographed a volcano erupting on the moon, the official Soviet Tass news agency said last night.

Kozirev took the photograph at about 4 a.m. Moscow time Nov. 3 with the 30-inch reflector of the Crimea Astrophysical Laboratory, Tass said.

Kozirev described the eruption as a reddish glow that grew in intensity after two hours.

"There was every reason to believe that it was a normal development of a volcanic process on the surface of the moon," he said.

Alexander Mikhailov, chairman of the astronomical council of the Soviet Academy of Sciences, said spectrograms left no doubt that Kozirev had seen a volcano.

"We can now regard as entirely wrong the view on the origin of the main features of the lunar landscape as being due to the impact of meteorites," he said.

"This volcanic eruption shows that the processes responsible for the formation of the surface relief apply to both the earth and the moon."

Deaths in Pontiac and Nearby Areas

MRS. MORGAN S. BIGGS
Mrs. Morgan S. (Myrtle A.) Biggs, 71, of 3340 Coventry, Drayton Plains, died suddenly yesterday in Pontiac General Hospital.

She was an active member of Waterford Community Church.

Surviving besides her husband are a son and two daughters, Robert M. Biggs, Mrs. Mary Tralet and Mrs. Freda German, all of Detroit; nine grandchildren; and two sisters.

Mrs. Biggs' body will be at the Coats Funeral Home, 3141 Sashabaw Rd. until 10 a.m. Saturday. It will be at the Waterford Community Church at noon. Service will be at 2 p.m. with burial following in the Drayton Plains Cemetery.

GINA M. HEADING
Gina Mary Heading, 24-day-old daughter of Leonard and Ruth Bond Heading died Tuesday in Henry Ford Hospital, Detroit. She had been ill with a heart ailment since birth.

Surviving are her parents; her grandmother, Mrs. Edith Bond of Pontiac; three sisters and two brothers, Mrs. Oscar Wibley of Pontiac, Edith, Georgia, Edward and Herbert, all at home.

Prayers will be offered at 2 p.m. Friday in the Donelson-Johns Funeral Home. Burial will follow in Crescent Hills Cemetery.

GEORGE MUNTEAN
George Muntean, 67, of 40 Auburn Ave. died Tuesday at his home of a heart ailment.

A native of Hungary, he had been employed as a gardener at the Cranbrook Schools in Bloomfield Hills.

Surviving are a son, George, and two daughters, Rosie and Irene. Service will be at 1 p.m. Friday from the Huntoon Funeral Home.

CPL. JAMES E. REMINGTON
A military funeral service for Cpl. James E. Remington, a graduate of Pontiac Central High School, will be conducted at 2 p.m. Friday from the Riska Funeral Home, 7100 Michigan Ave., Detroit. His body was returned from Germany yesterday.

Remington, 25, REMINGTON a former resident of Norton avenue, served as a member of the military police of the U.S. Army during the Korean War. He re-enlisted for service in Germany.

Surviving besides his wife, Sandra, are a daughter, Gail; his parents, Mrs. R. O. Patterson of Chicago and James E. Remington of Florida; a sister Mrs. Shirley Scott.

Son of W. R. Hearst Dies in Virgin Islands
NEW YORK (AP)—John Randolph Hearst, 49, publisher and son of the late publisher William Randolph Hearst, died today in the Virgin Islands, the New York Journal-American reported.

Details of the death were not immediately available.

Hearst, a native of New York City, studied at Oglethorpe University. His first editorial assignment was as assistant to the publisher of the Atlanta Georgian. He also was connected in an editorial capacity with Cosmopolitan magazine and Photoplay magazine.

He served as president of Harpers Bazaar-Cosmopolitan Book Corp., general manager of Hearst radio operations, and assistant to the general manager of the International Magazine Corp.

He was publisher of the New York Daily Mirror from 1932 to 1934, and president of the old New York Evening Journal, 1936-37. He had been assistant general manager of Hearst newspapers since 1941.

Hearst was married and the father of four.

Deaths Elsewhere

KANSAS CITY (AP)—Johnson Olin Couch, 53, a member of the board of directors of the Kansas City Southern Railroad, died Wednesday after an illness of two weeks. He was the son of Harvey Couch, former president and chairman of the board of the railroad. He was born in Athens, La.

PHILADELPHIA (AP)—A. Clifford Carlton, 63, director of the Franklin Institute Museum, died Wednesday. He was former curator of geology and mineral industries at the Museum of Science and Industry in Chicago. He was born in Baltimore.

CALGARY, Alta. (AP)—J. Charles Yale, 70, former general manager of the Calgary Stampede and an internationally known livestock judge for more than 50 years, died Wednesday.

of Waterford Township; and a brother, Joseph of Pontiac.

MRS. NEIL GATES
DAVISBURG — Service for Mrs. Neil (Faye) Gates, 46, of Ceres, Calif., a former Pontiac and Davisburg resident, will be held at 2 p.m. Saturday at Dryer Funeral Home, Holly. Burial will be in Lakeside Cemetery, Holly.

Mrs. Gates was fatally injured in an auto accident last Friday in Modesto, Calif.

The body will arrive at the Dryer Funeral Home tomorrow. A graduate of Pontiac High School in 1931, she served three years in the Waves during World War II.

Surviving are her husband; her father, Albert Shultz, and a brother, Harris, both of Davisburg; two sisters, Mrs. Donald (Eunice) Cooper of Detroit and Mrs. Donald (Maxine) Sterns of Pontiac.

MRS. WILLIAM H. McARTHUR
AVON TOWNSHIP—Service for Mrs. William H. (Lola M.) McArthur, 79, of 2621 Leach Rd., will be held at 2 p.m. Saturday at Moore Chapel of Sparks-Griffin Funeral Home, Auburn Heights. Burial will be in White Chapel Cemetery.

Mrs. McArthur died Wednesday following a 3½-year illness.

Surviving are a son, Merl of Avon Township; a daughter, Mrs. Henry Watson of Avon Township; four grandchildren and seven great-grandchildren.

68 on Handicap Special
CARBONDALE, Ill. (UPI)—Most of the 68 adults can't walk, but they go fishing, ride horses, hunt and play the games at a Little Grassy Lake camp designed just for them. They are handicapped and some are confined to wheelchairs. The camp is sponsored by the Southern Illinois University and the Cerebral Palsy Assn. of Illinois and Chicago.

Girl Runner Aids Team
MITCHELL, S. D. (UPI)—Marlene Overath, a pretty freshman at Augustana Academy at Canton, S. D., teamed with three male students to win the sprint medley relay here. The win provided the margin of victory for the Academy in the Interstate Academy Conference meet.

The present value of foreign investments in India is estimated at \$1,365,000,000.

Strike Leader Killed by Corporation Head
CHESTER, N.Y. (AP) — State police said the president of a company being picketed today shot and killed an organizer leading a wildcat strike.

They said Malcolm White shot Alfred F. Dugan, an organizer for the Interstate Industrial Union, an independent union affiliated with the National Independent Union supplements.

Council of Jersey City, N. J.
Circumstances of the killing at the Chester Cable Corp. were not immediately disclosed by the police.

Law Controls Peddlers
TOLEDO, Ohio (AP) — Nearby Waterville passed a peddler control law after village solicitor Harry Roebke reported that one encyclopedia crew was "no high pressure" that they gave away the encyclopedias free — then sold the 25, of Flint, pleaded guilty last

Man Gets Probation in Fire Death Case

Robert C. Guth, whose grudge burning of a Holly Township house August 30 cost a companion his life, today was placed on three years probation and assessed \$150 court costs by Oakland County Circuit Judge Frank L. Doty.

Once charged with first-degree murder in the arson fatality, Guth, 25, of Flint, pleaded guilty last month to a single charge of arson. Burned to death as a result of the fire at 1370 Gage Rd., was William Mosley, 17, also of Flint. Both he and Guth were pouring gasoline about the vacant, eight-room frame home, belonging to Lawrence Hemboldt, when it exploded, burning both. Mosley died 17 hours later.

EDUCATIONAL GROWTH HIGH SCHOOL GRADUATES AS PER CENT OF POPULATION

QUEST FOR KNOWLEDGE—The number of Americans with at least a high school education is expected to more than double in the generation from 1940 to 1975. Newchart above gives past, present and future figures, supplied by the Metropolitan Life Insurance Co. The trend is also reflected on the college level. The outlook for 1975 is for a two-thirds increase over 1957 in number of college graduates.

Rustlers Today Hard to Catch

**Cattle Spirited Away
in Pickup Trucks to
Cheap Restaurants**

SANTA FE (UPI)—Cattle rustling survives in New Mexico today but not on the grand scale that stripped the plains of their bellows herds in yesteryear.

The 20th century has added its touches — pickup trucks to speed the critters away from the corrals to cheap eateries that want the low-priced uninspected beef.

And they don't hang rustlers anymore. In fact it's almost impossible even to catch them when they use these hit-and-run tactics.

R. C. Bishop, state cattle brand inspector for several counties, says the last organized ring was rounded up a few years ago but isolated rustling cases occur now and then — especially in the mountain country of northern New Mexico.

"They work fast," Bishop said, explaining why his enforcement agency hasn't been able to make many charges stick although it hauls in a few suspects for questioning now and then.

"They usually kill the cattle on the spot and 'hog dress' them there, dump the carcass in the truck and away they go," he said.

"I can't say how many rustling cases we find a year," Bishop continued. "We had only two or three this summer, but several last fall; we expect more business when cold weather arrives."

The laws are strict enough: A cattleman must brand his livestock and register the brand with the state; he cannot even move his own cow off his land without a brand inspector's permission.

The last law is never enforced, Bishop admitted, unless the violator happens to be a cattle thief — and charges of violating the other laws are hardly ever made to stick.

"The trouble is this," Bishop complained, "some of the people don't think they're doing anything wrong. One well-respected man told me: 'If you're hungry you've violated no laws.'"

Wrong 'Honey' Lures Suspect to Police Trap

NASHVILLE, Tenn. (AP) — A Negro policeman's disguise as a shapely young girl trapped a man suspected in nine rape cases here.

Patrolman L. M. Davidson wore a skirt, padded sweater and a head scarf for two nights as he walked the dark streets in an area where the attacks had occurred.

A man walked up to what he thought was a young girl Tuesday night and asked, "Where are you going, honey?"

"Honey" didn't answer and the man lunged.

Then the policeman pulled his pistol and told the attacker he was under arrest. The assailant tried to stab him and ran, Davidson said.

Davidson fired one shot and hit Arthur Heard, 20, in the right thigh. The wounded Negro continued to run until he was tackled by another Negro patrolman, Robert Alexander, who had been following 75 feet behind the decoy. Alexander wore civilian clothes as his disguise in the trap.

The two policemen said they nabbed their prisoner at the center of a five-block radius in which nine women have been raped since Oct. 9. The method of attack was the same in all cases, they said. Heard was placed under technical arrest in a Nashville hospital. "I didn't do anything. I was only going home," he told police.

Pontiac Area Residents Penalized

27 Lose Drivers' Licenses

Twenty-seven Pontiac area residents lost their right to drive recently, according to the Michigan Secretary of State's office.

Those ordered to furnish financial responsibility because of drunk driving were:

Norman D. Aulsebrook Sr., Brandon Township;
Basil J. Curtis, Lake Orion;
Roy W. Emy, 128 E. Howard St.
Paul W. Friction, Farmington;
Irene M. Grimes, Farmington;
Washington Heister, Waterford Township;
Joel M. Rippe, 350 W. Huron St.
John E. McKenna, Waterford Township;
William A. Murray, Birmingham;
Robert L. Payne, 12 Auburn Ave.

The licenses of the following persons were taken for an unsatisfactory driving record, according to the Lansing office.

Joe Aguilera, 2000 Harbor
Cecil C. Cain, Clarkston
Russell M. Richardson Jr., Birmingham
Willis B. Sheffield Jr., 25 James St.
James C. Smith, 201
Winfred S. Smith, Birmingham
Howard E. Touchette, 11 N. Johnson
John J. Washell, Waterford Township
Robert F. Zimmerman, Rochester

Also ordered to furnish financial responsibility for unsatisfactory judgment were:

Benjamin Dorle, Walled Lake
Sam Dunn, 184 Perry St.
Vernon Gordon, 348 Reservoir St.
Allan D. Moon, Waterford
Francis A. Proffitt, 727 S. Hospital Rd.

Other residents who had their licenses taken away were Earl W. Brown, Waterford Township, and

Louis W. Cox of Lake Orion, both for unsatisfactory driving record and failure to appear for re-examination; and Robert W. Byron of 45½ E. Cornell St. for violating a license restriction.

Science Aids the Law

BLOOMINGTON, Ind. — W. Richard Adams, Indiana University archaeologist, proved in court that his field of science isn't necessarily restricted to ancient pottery and mummies. He helped convict a deer poacher by identifying bones in freshly killed meat as venison.

Group Supports Sunday Liquor

**Table Top Congress to
Circulate Petitions for
Michigan Amendments**

LANSING — The Michigan Table Top Congress will work for a constitutional amendment, to legalize Sunday sale of liquor, Earl Herbert, executive director of the organization, said today.

Herbert said the 1,500 members of the organization will help circulate petitions to get the proposal

on the ballot in 1960. Nearly 230,000 persons — 10 per cent of the vote for governor in last week's election — must sign petitions before the proposal can go on the ballot.

The contemplated change would not alter home rule power under which municipalities may ban sale of liquor by the glass, Herbert said.

He endorsed a recent statement by Detroit Mayor Louis Miriani calling for special licenses which would allow Detroit's larger hotels to sell liquor on Sundays.

"Many large conventions bypass the State of Michigan when selecting their convention sites in the event they have weekend dates," he said.

Legalizing Sunday sales, he said, would provide several million dol-

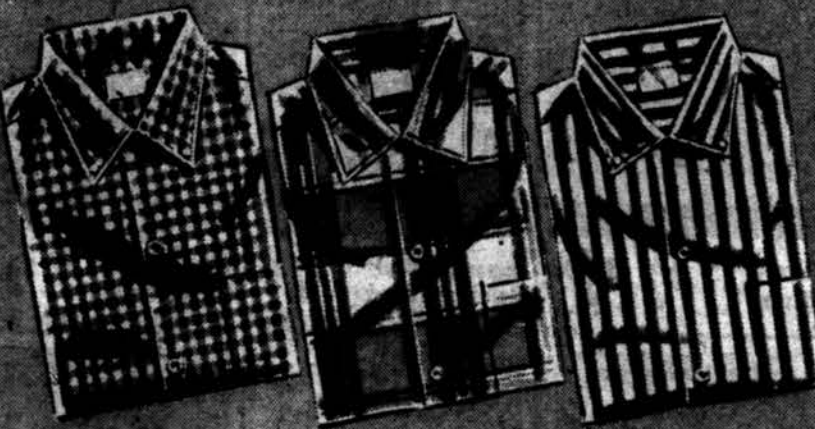

lars additional tax revenue for tourist state and discourage illegal imports from other states.

36 County Men Finish 7-Week Lighting Course

A seven-week course in new lighting equipment and techniques was recently completed by 36 Oakland County architects, electrical contractors, engineers and maintenance superintendents.

Sponsored by Detroit Edison Co.'s commercial sales division at the Pontiac service center, 1970 Orchard Lake Rd., the course was designed to cover problems involved in design of lighting systems.

Among those who received proficiency certificates were:

James K. Allen of Allen Electrical

Service, 9645 Pine Knob Rd., Clarkston; Daniel Galt, J. J. Ferguson, Wayne; Nafar and Leonard Fuller of Call-Perguson Electric Co., 855 Forest St., Birmingham; Ronald Callahan of Leslie Electric Co., 25 Oakland Ave., Van Nuys; J. H. Hamilton Electric Co., 2501 Auburn Rd., Pontiac; Donald J. Johnson of Johnson Electric Co., Lake Orion; Michael Modafferi and Kenneth Macdonald of Standard Electric Co., 175 E. Saginaw St., Harold O'Brien of O'Brien Appliances, 425 Main St., Rochester; Joseph Partney of Partney Electric Co., 434 Tilmore Dr., George Proton of Hugo Coulters Electric Co., 848 S. Adams Rd., Birmingham; Barney Sisson of Sisson Electric Co., 1300 Blawie St., Farmington; Fred Martin of Martin Electric Co., 2860 Woodbine St., Waterford Township; Roger Wainwright of Wainwright Electric Co., 1075 First St., Rochester; Roger Sherry and Richard Moore of Michigan State University Oakland and Felix Ballard and Frank Ballard of Pontiac Electric Supply Co., 2432 W. Burn St., Waterford Township.

Air Force Chief Talks to APME

Says Missile Program Advances 'Steadily and Adequately'

FRENCH LICK, Ind. (AP) — The Air Force chief at Cape Canaveral gave his assurance today that the nation's missile programs are advancing "steadily and adequately."

Maj. Gen. Donald N. Yates talked to The Associated Press Managing Editors Assn. meeting here.

Gen. Yates, commander of Patrick Air Force Base at Cape Canaveral, reviewed the pressure resulting in relaxing the secrecy on Canaveral launchings and showed pictures of many of them.

Gen. Yates told the editors the Air Force hopes to push aircraft speeds up to 3,600 miles an hour and flight altitudes above 100 miles next year.

The general explained that missile launchings which might reveal any classified information are still not opened to the press. Newsmen, however, are given confidential advance information to prepare to be on hand for launchings of satellites and other probes into space.

Samuel Lubell, syndicate political pollster, told the editors he believes Americans are losing faith in both major political parties.

"The balloting on Nov. 4 was not a vote of confidence in the Democratic party," Lubell said in a discussion on public opinion and the election. "It was more a vote of no confidence in the Republican party."

"It seems to me that we are moving into a period of increasing political instability. In the present mood of the public, landslide could follow landslide, with nothing really decisive happening."

The five-day APME convention will continue until Saturday noon, commemorating the 25th anniversary of the association's founding in French Lick.

Don't Underestimate Power of a Man

SCHWICKERSHAUSEN, Germany (UPI) — Women have the last word in this pleasant German village high in the Dom River valley. Or do they?

Schwickershausen, population 382, is run by a number of women. The mayor is Elisabeth Becker; Mrs. Gertrud Zengler is the village treasurer; Maria Becker is the town crier; Frau Maria Rau is the postmistress.

However, the village council consists of seven members — all men. And they appoint the mayor.

About one out of seven people in the United States engage in fishing as a sport. They spend nearly one billion dollars a year on this pastime.

One 'R' Was at Fault

ARAB, Ala. (UPI) — This small northeast Alabama city got its name by mistake. "Uncle Tuttle" Thompson opened the first post office here 95 years ago and was asked by the federal government for a name for the locality. Thompson became a father about that time and named the son Arab. That's the name he sent to the government which mistook the "d" for a "b" and called the settlement Arab.

Viennese Espresso for Coffee Houses

VIENNA (UPI) — This famous city, cultural mecca for central Europe, is gradually replacing its traditional coffee houses with modern espressos. Four years ago, Vienna had 45 espressos. Today, there are more than 250.

The espressos may be compared to small neighborhood bars in the United States, but the main feature is coffee. They generally include a juke box that features tunes more in the tradition of Elvis Presley than Johann Strauss.

Raw Fish Tops Snack

TOKYO — A favorite national snack in Japan is sushi. It's rice flavored with sugar, salt, and vinegar and pounded by hand into oval shapes and served with a slice of raw fish on top.

Plan Experiments to Uncover Senses

SOUTH HADLEY, Mass. — (UPI) — The Psychophysical Research Unit at Mount Holyoke College will conduct experiments on the effectiveness of visual, auditory and tactile senses as channels of communications.

The year-long work for the U.S. Naval Training Devices Center at

College Sets Fund Goal

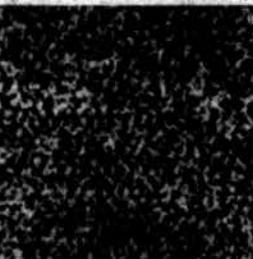

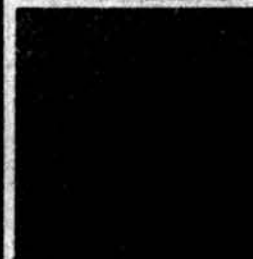

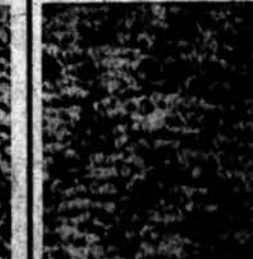

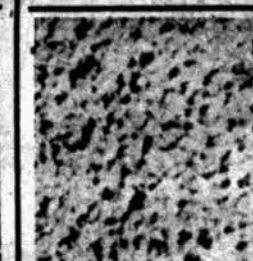

AUBURN, N.Y. (UPI) — Wells College has set a five-million-dollar goal for its 100th anniversary in 1968. President Louis J. Long said part of the campaign will be a \$2,500,000 endowment fund.

50 & 100 Proof. Distilled from grain. St. Pierre Smirnoff Co. (Inc. of New York), Hartford, Conn.

ENVOY — Richard E. Wigglesworth, 67, retiring Republican member of the House from Massachusetts, has been named by the President as ambassador to Canada.

She'll Talk in Ann Arbor

ANN ARBOR (AP) — Mrs. Eleanor Roosevelt will lecture at the University of Michigan next Tuesday. The widow of President Franklin D. Roosevelt will speak on "Is America Facing World Leadership?"

Protected Tanks to Guard Fuel

Storage Facilities Safe From Nuclear Attack Include State Site

CHICAGO (AP) — The Air Force says fuel storage facilities protected against nuclear attack will be constructed in California, North Dakota, Michigan and New York.

The storage facilities, primarily for jet plane fuel, will be located in the Cockett-Martinez area in California; the Grand Forks, N.D., area; Gladstone-Escanaba, Mich., area and near Rome, N.Y.

Officials from the directorate of air force petroleum, Olmsted Air Force Base, Pa., did not pinpoint location of the facilities. Bid forms already are in the hands of commercial supply sources, the Air Force reported in releasing the announcement in Chicago.

The types of storage called for in the specifications, the Air Force said, are above-ground floating roof tanks, buried or semi-buried tanks and washed or mined underground caverns.

The California area specifications call for storage capacity of one million barrels, Grand Forks for 835,000, Michigan for 400,000 and New York for 615,000.

Additional requirements will be announced before July 1959. Combined with the four already released for bids, the facilities will involve an expenditure of 30 million dollars, the Air Force said.

660,000 to See Europe

NEW YORK — A travel survey indicates 660,000 Americans will tour Europe this year and about half that many will visit the Pacific area. Total expenditures by United States residents on foreign travel this year are likely to reach two billion dollars.

Automobile accidents claimed the lives of 38,700 persons in 1957. And for every traffic death there were 35 disabling personal injuries, 94 disastrous property-damage accidents, and 141 minor mishaps (damage under \$25).

Ike to Turn On Chicago Lights

Main Stem Becomes Brightest Street in World Tonight

CHICAGO (AP) — Downtown State St., Chicago's main stem, becomes the world's brightest avenue tonight.

President Eisenhower and the Vanguard satellite in orbit around the earth will combine to turn on the new \$300,000 lighting system along a mile of the famous street. Before the lighting ceremony,

there'll be dancing in the street, which will be illuminated by a 50-pound light bulb that stands 42 inches high and has a diameter of 20 inches. The bulb, said to be the world's largest, will be turned on for a pageant to be staged by 100 actors, dancers and musicians at State and Madison streets.

President Eisenhower will press a golden telegraph key in the White House at 10 p.m. EST. The signal will start the recording of a Vanguard satellite "beep" which will actuate the radio controls turning on the lamps in the new fixtures.

The State St. Lighting Assn. said it will be the first lighting system to utilize radio control. Radio will turn on all lights at dusk, turn off portions of them at midnight, turn all off at dawn, and control festoon lighting for Christmas and other holiday periods.

The 70 poles in the new system, from Lake to Van Buren streets, are 36 feet high, each topped with four fluorescent lamps. The lamps will produce roughly four times as much light as fixtures installed in 1926.

Association officials say the famous shopping street will become the most brightly lighted street in the world.

All Used Malt Drinks

CAIRO — Archaeological evidence shows that every cultured society of the past 6,000 years has produced malt beverages, including Egyptian and Etruscan, Roman and Gallic, Teutonic and Sax-

Builds Plastic Home as Own Testimonial

NORTHFIELD, Minn. (UPI) — Because the G. T. Schjeldahl Co. here believes in its own product, it has built a home for itself out of plastic. The structure, a building 340 feet long and 30 feet wide, is the quonset-shaped structure has solid ends, but otherwise is made entirely of semitransparent plastic. This semitransparent "skin" will permit solar heating and reduce fuel costs considerably.

The "skin" has another feature. It can be taken off and replaced within hours at a cost comparable to a paint job for a conventional

structure. The plastic will last from five to 10 years.

Use Animals on Paper Routes

Shun Bikes for Donkeys

GRAND RAPIDS IN — Hardly in the rough-riding class, Dennis and Bryan Roberts take care of a Grand Rapids newspaper delivery route astride pet Asiatic donkeys. "It's not only lots of fun to ride, but it also is a quicker way to get the papers delivered," says Dennis.

The boys are sons of Mr. and

Mrs. Gene Roberts of northeast Grand Rapids. They deliver 45 papers a day over a 3½-mile route.

They also are the envy of neighborhood friends.

The boys asked their parents for horses more than a year ago. The elder Roberts decided upon smaller

animals their boys could handle with ease.

"So we got the donkeys from a dealer in Carson City," the father says. The animals were raised in Cheyenne, Wyo.

Bryan says the donkeys, Jack, 4, and Jill, 3, are "gentle, well-behaved and what's more, they don't balk."

The two youngsters also are caring for an offspring of Jack and Jill besides six French Alpine goats which are part of their pet herd.

Anthony Still Married to Cleopatra, Says Court

ROME (UPI) — Italy's highest court of appeals has ruled that Anthony is still married to Cleopatra. The decision ended years of litigation and appeals by Antonio Verri to get annulment from his wife, Cleopatra. Both are Italian. He claimed the Catholic ceremony in which they were married in Tangier in 1922 was not valid in Italy since they did not also go through a civil rite.

DOUBLE TIME — The watch in the right photo indicates the strange time of 16 minutes past 21 hours. It's a special time piece commemorating the entry of Alaska into the Union. Since some days have 19 hours of light and some nights 18 hours of darkness in the new state, the watch lets Alaskans easily distinguish between A. M. and P. M. The conventional 1-12 numerals, left, are transformed into 13-24, right, by an automatically regulated mainspring.

Strange Shadows Lurk Behind This Rockefeller

By LYLE C. WILSON
WASHINGTON (UPI) — In all of the looky-looky-what-happened-in-New York excitement over Nelson A. Rockefeller, there has been overlooked the fact that the governor-elect not only is a Rockefeller but an Aldrich, as well.

That is what the initial A. stands for, Aldrich. Nelson A. Rockefeller was named after his maternal grandfather, Sen. Nelson W. Aldrich of Rhode Island. You might say the Republican young man of the hour inherited a political tradition. But you would better say it with considerable qualification.

The politics and policies of the late Sen. Nelson W. Aldrich and those of his grandson are so utterly different as to make it amazing that each bears the party label.

Aldrich was a hard shell Republican U.S. senator, 1881-1911, who died in 1915 unshriven of a conservatism which could not be matched among the present day political leaders. The very old timers will connect the senator's name with the Payne-Aldrich Tariff Bill of 1909. The senator was an extreme protectionist, and it was that kind of a bill.

The dictionary of American history relates that: "The (Payne-Aldrich) tariff... led to the decisive defeat of the Republicans in the congressional elections of 1910."

It was this political trend and such conservative Republican leadership that brought Theodore Roosevelt in 1912 roaring off the bench to create the Bull Moose Party and to run for President.

That is Governor-elect Rockefeller's political heritage although the young man is at least as far removed from the political credo of his maternal grandfather as from the ruthless business practices of his more famous grandfather, John D. the first.

The fame of John Davison Rockefeller, who founded the family fortune, rests now in the States each year.

popular mind on good works, on faint mental images of a very old man giving dimes to little children, on a widely publicized graham-cracker-and-milk diet to combat stomach ulcers and on the most monumental distribution of all time of private funds for the public good.

The old man's gigantic philanthropies and a folksy way with his small change created a lasting public image under the auspices of one of the greatest public relations men of them all. His name was Ivy Lee and the socko effect of Lee's public relations counsel is proved by the fact that a Rockefeller has been elected to public office.

That would not have seemed possible 50 years ago and for some time after that. It was in January 1908 that President Theodore Roosevelt had something to say about the business tycoons of the time. Roosevelt said it in a message to Congress which Mark Sullivan describes in "Our Times" as "the most sensationally provocative utterance of his career."

The trust-busting President denounced the criminals of great wealth, pledged himself to shackle their cunning. He scorned the greed and trickery of these representatives of wealth. TR did not name his targets, but in later reference identified two as John D. Rockefeller, Standard Oil magnate, and Edward H. Harriman, railroad financier. He was Averell Harriman's pa.

Kyoto Noted for Shrines

KYOTO, Japan—Kyoto, Japan's fourth largest city, was the country's capital from 794 to 1868. It is known for its imposing shrines, temples, palaces and elaborate gardens. Kyoto has more than 200 Shinto shrines, 1,500 Buddhist temples and 15 landscaped gardens.

Accidents are fatal to about 13,000 farm residents in the United States each year.

Considers Food Biggest Industry

President of Grocery Manufacturers Group Cites Challenge

NEW YORK (AP)—The food industry is now America's largest business and should be considered the "leadership" industry, Paul S. Willis, president of Grocery Manufacturers of America, Inc., said today.

Nearly one out of every three working people gets a part of the food dollar, Willis said in a speech opening the three-day golden anniversary of the trade group, whose membership includes a great many of the nation's food processing firms.

Willis noted that the food industry has maintained a steady growth even through the past two years, when such major industries as steel, automobiles, textiles and others slumped.

The condition of such industries seemingly no longer is a representative barometer, he added, since they have gone through a two-year recession while our total economy continued to expand. The food industry has grown along with the over-all economy, he said.

One of the biggest challenges facing the industry, he said, is pleasing the consumer. This means pleasing her in new ways and pleasing her pocketbook, as well as improvement in services, packaging, labeling, recipes and more appealing advertising.

Jesse W. Tapp of Los Angeles, chairman of the Board of the Bank of America, said, the average housewife shows an ever increasing interest in grocery products, which include all sorts of "built-in maid service."

Much of the work of food preparation, formerly done in the kitchen, is now the responsibility of the food processor and his magic equipment, he said.

Dam Solves Problem

MELBOURNE, Australia — Melbourne's water storage problem has been solved with the opening of the Upper Yarra Dam, 64 miles from the city. The reservoir has a capacity of 54,000,000 gallons and cost (\$30,888,800).

Delaware was the first state to ratify the U.S. Constitution.

Allspice From Berry

KINGSTON, Jamaica — Although it tastes like a combination of cloves, cinnamon, and nutmeg, allspice is actually the product of a

single type of evergreen berry that grows on the island of Jamaica.

The Paris Metro, the subway, also has connecting bus tours for tourists.

1st Memorial Day 1866

COLUMBUS, Miss. — The first observance of Memorial Day was at Columbus Friendship Cemetery in April, 1866.

GALLIC TOUCH — "Dawn Number One" is name given by its creator, Paris artist Bert Lardera, to huge futuristic metal monument in Berlin's Hansaviertel section.

Retired Workers Pensions Fixed

GM, Ford Spokesmen Say UAW Agrees Not to Go Backward Again

DETROIT (U) — Spokesmen for General Motors Corp. and Ford Motor Co. state the United Auto Workers Union has agreed never again to bargain for higher pensions for already retired employees of the companies.

They said the agreement is contained in letters which supplement new three-year contracts with the UAW and is binding "for all time."

Under the new contracts, Ford and GM employees already retired get \$2.55 a month in pension for each year of service. They formerly got \$2.25.

Malcolm L. Denise, Ford manager of labor relations, first reported the pensions agreement in a conference sponsored by Wayne State University's institute of labor and industrial relations Monday.

Denise emphasized the freeze applies to pensions of workers already retired, not to future bargaining on future pension rights of workers on the job.

A General Motors spokesman who declined use of his name said the UAW and GM had a similar perpetual letter agreement regarding retired workers. UAW officials were not available immediately for comment.

New contracts give currently employed workers \$2.40 a month pension credit for previous service and \$2.50 a month for each year of future service.

Mill Reduces Pollution

BERLIN, N. H. (UPI) — The Brown Co. pulp and paper mill has converted to an anti-pollution process designed to keep the mill operating at capacity year-round. The mill in past years has had to curtail production on occasion during summer months because of the pollution problem when the water level dropped in the Androscoggin River.

College Student Now Suffers From Ulcers

ANN ARBOR (U) — The life of a college student is no cinch.

There's more to it than football games, dates, hi-jinks and, of course, studying. Some students even come down with stomach ulcers.

Dr. Charles J. Tupper of the University of Michigan Medical Center said 41 university students were found to have ulcers during an 18-month period.

He said the youngest sufferer was 17 and the average age was 23. Only two of the patients were women students.

"We teach that ulcers are characterized by a long history of indigestion and stomach trouble," Dr. Tupper said. "But in these 41 cases, the patients often had no previous difficulty."

"They all respond rapidly to treatment, and in one case the acute stage lasted only six days. This quick recovery made us wonder how often an ulcer, in its early stages, may be overlooked by both the patient and his physician."

Detroit Notes Rise in House Trade-Ins

SAN FRANCISCO (U) — A boom in house trade-ins has been reported at the convention of the National Assn. of Real Estate Boards. A Detroit, W. Gordon Johnstone, said that any broker who can't make a house trade-in deal is as obsolete as a car dealer trying to sell automobiles without trade-ins.

Johnstone said a house transaction in the Detroit area likely would involve an upgrading in the new home wanted by the customer. He said a broker with a chance to sell a \$40,000 house will guarantee \$18,000 on an old house for which the customer hopes to get \$20,000. He said the trade-in guarantee makes possible a quick deal on the \$40,000 property.

Approximately 66,000 privately-owned airplanes are registered in the United States, more than the combined air forces of the U. S. and Russia.

Georgia Crash Probe Starts

Air Force Hunts Cause for Flaming Crackup Killing 11 Men

SAVANNAH, Ga. (AP) — A team of Air Force investigators sifted through charred bits of metal today as they sought to find out what caused the fiery crash of a KC-97 refueling tanker.

Eleven airmen perished Wednesday afternoon when the giant four-engine plane crashed and exploded in a residential area on the Isle of Hope, 10 miles southeast of Savannah.

The dead and their hometowns: Lt. William I. Bowles, 25, Warwick, Va.; the pilot, Lt. Harold G. Lassen, 26, New York City; Lt. Freddie Levine, 25, Charleston, S.C.; Sgt. Warren E. Martin, 29, Yakima, Wash.; Sgt. Curtis W. King, 37, Waycross, Ga.; Airman Malcolm Rogers, 22, Prattville, Ala.; Sgt. Lonnie E. Owens, 25, Moultrie, Ga.; Airman Douglas A. Cole, 23, Washington, Iowa; Airman John A. Boyer, 20, South River, N.J.; Airman Joseph P. Turner, 21, Moultrie, Ga.; and Airman John M. Scerbak, 21, Wallington, N.J.

Officials said most of the men were married and lived in Savannah with their families.

The plane crashed a few minutes after taking off from Hunter Air Force Base. Two houses were wrecked and a civilian was seriously burned.

Frightened witnesses thought the plane would hit a school or a nearby playground, but it crashed half a mile away.

Maj. Robert H. Reed, Hunter public relations officer, said the plane apparently lost an engine.

RESCUE WORK CITED — Presenting awards to representatives of area garages for their Automobile Club of Michigan Service is Arthur Bogue, center, manager of the Pontiac AAA office. Citations went to Schroeder's, represented by Louis LaBarge, 603 E. Tennyson, left, and Raymond O. Davis, 315 Voorheis Rd., representing Davis Texaco garage.

AAA Honors 4 Garages for Emergency Service

Four garages were honored today by Automobile Club of Michigan for their service to Pontiac-area motorists. Auto Club made the awards to commemorate its 10 millionth emergency road service call since that service was established in 1922.

The stations were presented with their citations during an informal ceremony at Auto Club's Pontiac division office.

Area garages honored and their years of service were: Schroeder's Service Station, 11; Davis Texaco, 11; Adler's Super Service, 7 and Jim's Service, 7.

Seventeen other stations in surrounding communities also won citations.

Making the awards was Arthur Bogue, manager of the Club's Pontiac office.

The local servicemen were among 372 in Michigan who received awards for five or more years' service to 6,000,000 AAA members in the U. S. Having 15 or more years' service were 110 stations. There are 683 AAA-franchised stations in Michigan.

In 1922, the Club handled fewer than 1,000 road service calls. Most of these were for flat tires. Last year, it answered 667,000 calls, mostly for battery and ignition failure.

The Club aided its 10 millionth motorist November 6 in Detroit.

U.S. Planes Ready if Airlift Needed

WASHINGTON (UPI)—American officials said the United States has more than 600 four-engine aircraft available "almost immediately" to start a massive airlift to Berlin if the Communists again try to impose a blockade there.

The officials declined to predict what would happen if the Reds also tried to stop air traffic into Communist-surrounded West Berlin. The Communists made little effort to interfere with it during their blockade in 1948.

State and defense department officials were keeping a close watch on the situation in the wake of Soviet Premier Nikita Khrushchev's announcement that he would turn over the Soviet's remaining occupation functions in Berlin to Communist East Germany. The United States and its Western allies refused to deal with or recognize the East German regime.

Couple to Visit 75 'Children' in Kentucky

FRANKFORT, Ky. (AP) — A Detroit couple will be able to spend Thanksgiving with their 75 "adopted" children in Kentucky—thanks to two round-trip bus tickets sent by Gov. A. B. Chandler.

Mr. and Mrs. Otis Tabor, in their 70s, have given food, clothing and other items to children at the Bethany Children's Home in Wolfe County for four years.

They have not been able to save enough money for a trip to Kentucky.

After reading an article about the Tabors, a Detroit woman wrote Chandler he could do a good deed by enabling them to visit the Kentucky children.

The governor wrote the Tabors: "Your generosity has brought happiness to many children. . . I am sending two round-trip tickets in recognition of the service which you have given to Kentucky children in need."

Tabor tends his orchards and gardens while his wife cans fruit and vegetables. Their daughter does missionary work in eastern Kentucky.

U.S. Iron Ore Output Up

WASHINGTON — The nation's iron mines produced 118,000,000 tons of ore during 1957, an increase of 8,000,000 tons over 1956 and the fourth highest production year in history. About 80 per cent of the output was in the Lake Superior region.

Technical Difficulty Halts Missile Firing

CAPE CANAVERAL, Fla. (AP) — Launching of a powerful Atlas intercontinental ballistic missile was called off early today when the firing crew ran into technical trouble during the countdown.

The 85-foot Atlas, biggest missile in the U.S. arsenal, sparked in the rays of floodlights for several hours before the scrub was called.

The Air Force declined to elaborate on the technical difficulties encountered, but announced the shoot probably would be rescheduled soon.

The 100-ton Atlas blew up on its last launching Sept. 19. That was the first attempt to shoot the two-million-dollar rocket the complete 6,325-mile intercontinental range.

Billy Sunday said it a long time ago but the thing is still good. her waist" . . . A wit is a fellow I got out of it." And then he says, "How much?" —Earl Wilson. The total assets of life insurance companies in the U.S. passed the 100-billion-dollar mark in 1957.

Alabama Ready for Vote Talks

Clash Between State, Civil Rights Board May Erupt in December

By STANLEY MEISLER
WASHINGTON (AP) — A clash between the Civil Rights Commission and the state of Alabama may erupt next month at an open hearing on Negro voting.

The commission says it will subpoena all the witnesses and records it needs for a Dec. 8 hearing in Montgomery, Ala.

But Atty. Gen. John Patterson, Alabama's governor-elect, has told the state's vote registrars they do not have to turn over registration records to federal representatives. Patterson has added he will resist any move by the commission to get the records.

The hearing will be the first held by the new commission, which announced plans for it and other activities after a closed meeting here Wednesday.

A national conference, focusing on school integration problems in the border states and the South, was scheduled for Nashville, Tenn., in February.

The commission said it also

65 and Older Figure Rises 25 Per Cent

Aged Group Soars in State

ANN ARBOR (AP) — Within less than a decade the number of Michigan residents 65 years old or more has risen 25 per cent.

A new report of the Legislative Advisory Council on Aging makes the estimate in a report today.

The estimated number of persons 65 or older, as of the 1957 population, is 568,000.

That's a 23 per cent increase since 1950, the report says. The 23 per cent matches the increase in the state's total population, according to the figures.

However, a decrease in the rate of growth of this age group is predicted.

Anthony Lenzer, executive secretary of the council, said that while the actual number will increase, present data indicates a "definite slowing down" in the rate for the group as a whole.

The council said the rate of increase in the 65-and-older group is less in rural counties with lesser populations. However, a county-by-county analysis showed "great differences" in trends. Macomb and Osgood had 50 per cent increases between 1950 and 1957.

Year Shows Rise in Syphilis Cases

WASHINGTON (AP) — The number of syphilis cases in this country rose again last year.

The Public Health Service today said the increase from 131,763 in 1956 to 136,039 was the second successive annual rise in syphilis cases after a steady 10-year decline.

One county in California re-

ported more than 10,000 syphilis cases during 1957 among migrant farm workers.

The number of cases of gonorrhea in 1957 was 222,048, down from 233,995 in 1956. This continued the decrease of about 5 per cent shown between the 1955 and 1956 totals.

Coffee Goes Further

BOSTON — The average coffee maker gets 63.9 cups out of a pound of coffee today compared with 49 cups in 1949.

Personality Key to Election, Says Claire Luce

PHOENIX, Ariz. (AP) — Colorful Democrats plowed under "nice, amiable gentlemen" in her home state, says former GOP congresswoman Claire Boothe Luce of Connecticut.

Personalities and party organizations, in the absence of local issues, are dominant factors in elections, she said Wednesday in an interview.

"I don't know what the answer is in other states," added the vacationing former ambassador to Italy. "But I suspect the same thing that brought about defeat in Connecticut brought Republican victories in Arizona and New York."

Mrs. Luce said Gov.-elect Nelson Rockefeller of New York is the only candidate who could defeat Vice President Nixon for the GOP presidential nomination. Asked to comment about Harold Stassen's "dump Nixon" drive, she replied: "Mr. Stassen has managed to dump poor Mr. Stassen with astonishing regularity."

Smallest turnpike in the United States is the Denver-Boulder road in California. It is 17.3 miles in length.

Reds Resume Spotty Shelling

Chinese Continue to Follow Alternate Day Schedule for Quemoy

TAIPEI, Formosa (AP) — The Communists resumed sporadic shelling of the Quemoy Islands today, continuing their day-on, day-off schedule.

The Chinese Nationalist Defense Ministry said Red coastal batteries around Amoy lobbed 239 shells at the Quemoy islands up to noon.

This followed the pattern of Communist firing on odd-numbered days of the month and no shelling on even days. Wednesday was the sixth even day without shelling.

In Taipei, Adm. Herbert G. Hopwood, commander in chief of the U.S. Pacific Fleet, called on President Chiang Kai-shek, Gen. Wang Shu-ming, Nationalist chief of staff, attended.

Hopwood arrived Tuesday for a week-long inspection of American and Chinese naval installations and a trip to the U.S. 7th Fleet guarding Formosa waters.

The Defense Ministry continued to report intense Communist military preparations in coastal areas facing the Quemoy.

PRUNE 'N' SPICE BREAD— Easy to make, make your reputation as a cook. You can't fail! delightful to serve, this new batter bread will

Sliced Prune Bread Delicious as Toast

Fall is a wonderful and invigorating time of the year. But on a crisp Fall morning, "how they hate to get out of bed!" We think our Prune 'n' Spice Bread will do the trick, though.

All mom has to do is pop flavorful slices of this home-made bread into the toaster . . . and the fragrant aroma will have them scurrying to breakfast in no time. (It's delicious served with honey and as a sandwich companion for cream cheese, too.)

And more good news is the fact that even a "first-timer" can bake Prune 'n' Spice Bread.

Today, so many women are hesitant to bake yeast-breads (although many of them secretly

long to), and they shy away from recipes that call for yeast . . . because they think they're too hard or take too long.

For these reasons a quick, easy "Better-Way" method of baking with yeast has been developed. This method eliminates the hard, time-consuming steps . . . there's no kneading or shaping of dough. It's as easy as mixing a cake!

"Better-Way" Recipe for Prune 'n' Spice Bread

3 cups sifted all-purpose flour
1/2 teaspoon sugar
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon nutmeg or allspice
1/2 teaspoon cloves
1/2 cup softened, drained, cooked prunes
1 cup warm water (110°-115°)
1 pkg. special active dry yeast
1 egg (room temperature)

Blend the first seven ingredients in a bowl. Pour the warm water into another bowl, or use the mixer bowl. Sprinkle the yeast on top. Let stand a few minutes, then stir. Blend in the egg.

Add about 2/3 the flour-mixture and the prunes to the yeast-mixture. Start the mixer on medium speed, or beat by hand. Beat 2 minutes, or until smooth. Beating in this recipe takes the place of kneading. Stop mixer. Pour in all the rest of the ingredients and beat again with a spoon until smooth — 1 to 1 1/2 minutes. Sprinkle batter down from sides of bowl.

Cover and let rise in warm place** until doubled — about 45 minutes. Meanwhile, grease bread pan, 4 1/2 x 8 1/2 inches or 9 x 5 x 3 inches.

Best raised batters hard—50 strokes. Pour into the pan—it will be a thick, somewhat sticky batter. Tap pan on table to settle the batter.

Let rise in warm place** until doubled, about 30 minutes. Batter will come to within 1/2-inch from the top of the smaller pan, 1-inch from the top of the larger one. Preheat oven to quick-moderate (375 degrees).

Bake loaf 40 to 50 minutes, or until well browned on sides and top.

Remove from pan and cool on rack or crosswise on top of pan.
**For a cozy warm place, place bowl or pan on a rack over a bowl half full of hot water. Keep water hot.

You get a temporary emulsion every time you beat or shake. French dressing (made from oil, vinegar and seasonings).

When a custard is over-baked, the protein in the mixture shrinks and squeezes out liquid, resulting in a watery dessert.
Drain a can of minced clams, blend the clams into cream cheese and serve on crackers or rounds of toast for taste-tempting appetizers.
Must Have Grease Trap
A grease trap is an essential part of a septic tank system for a

rural or suburban home. If grease goes down the drain to the point where it is allowed to flow directly into the septic tank itself, the Plumbing-Septic tank system for a or waterproof the soil in the dis-reau explains.

Stuff Lamb With Crackers

Here's thrifty good news for homemakers with an eye on the food budget: A hearty meat dish that can be prepared for less than 50 cents per bountiful serving! It's called "Crispy Stuffed Breast of Lamb." A deliciously seasoned stuffing, made of low-cost crispy saltine crackers and canned mushroom slices, adds extra good flavor—and extra servings, too—to an inexpensive cut of lamb.

This tasty budget-stretcher is a wonderful menu choice for cool fall weather. Here's how to make it:

Crispy Stuffed Breast of Lamb
1 1/2- to 3-lb. breast of lamb
1 cup finely crushed saltine crackers
1/2 cup margarine
1 large onion, chopped
3-oz. cans sliced mushrooms
2 tablespoons chopped parsley
1 teaspoon salt
Have butcher cut a pocket in

the lamb for stuffing. Sprinkle the inside of the pocket with salt. Measure crumbs into a large bowl. Heat margarine and cook onion in it until transparent. Combine onion, undrained mushrooms, parsley, salt and crumbs. Toss to blend.

Heat oven to 325 degrees (slow oven). Stuff crumb mixture into pocket in lamb. Close opening with skewers. Roast at 325 degrees for 1 1/2 hours. Makes 4 servings. Serve, if desired, with carrots and onions roasted along with lamb.

Soda Keeps Dough Sweet

When mixing yeast doughs to refrigerate for 2 or 3 days, add 1/4 teaspoon soda to the dry ingredients. Soda keeps the dough from souring and preserves the sweet, nutty flavor of freshly made bread. Dough may be stored in the refrigerator for 2 or 3 days—so plan to make your rolls for Thanksgiving dinner on Monday or Tuesday and you'll have minutes to spare on that busy morning.

Freezer Can Store Holiday Goodies

By JANET ODELL
Pontiac Press Home Editor

"Please tell us some things we can get ready for the holidays ahead of time and put in the freezer." In answer to that request this article is being written.

Last week we talked about making your fruit cake. Once that is done and stored away, you can turn your thoughts to other things.

Christmas cookies we shall deal with more fully in December. However, it is possible for you to make some now and store them in the freezer. If you don't want to take up so much room with the finished cookies, you can at least get some of the doughs ready for later use. We have one batch of nutmeg cookies put away like that.

Please refrain from doing one thing. Please don't stuff either your Thanksgiving or Christmas turkey and try to freeze it. That is NOT a safe thing to do. You MAY mix up the stuffing ahead of time and freeze that alone if you think it will save you time later. But not in the bird! Be sure to put the stuffing into the freezer as soon as it is mixed; don't let it set out in your warm kitchen.

You may make up cranberry-orange relish and freeze that. You may make your mince pies and freeze them unbaked. You may make up such things as mashed sweet potato patties and freeze them. Roll them in cornflake crumbs. Oven heating on a buttered pan will make them table ready.

You may freeze any of your Christmas coffee cakes. We have done that for years. If we can eat enough out of the freezer in the next three weeks, we'll do it again this year. But our bumper crop of strawberries is still taking up a lot of freezer space.

When you freeze coffee cake, it is a good idea to frost and decorate it after you remove it from the freezer. You can make a production of decorating a batch of them at once. They just look nicer done that way.

You may get your squash cooked, mashed and put in the dish you intend to use on the holiday. You may get your dinner rolls ready to bake. It is all right to freeze unbaked yeast doughs, but baking first is recommended for most items.

You may make canapes and freeze them. One way to insure their staying attractive looking is to freeze them on a cookie sheet. As soon as they are solid, package them with several layers of waxed paper between each layer of food. Don't use hard cooked eggs for any of these. Meat, fish and cheese freeze very well.

Another way to make your freezer work for you over the holidays is to make it help you with meal planning. Decide what your menus will be the last days before Thanksgiving and Christmas. Then prepare as much as you can ahead of time. Some women like to package an entire meal in one wrapping. It can be a great help on unusually busy days.

Here is a recipe for frozen Chicken Crepes. Prepare these now for your own use or for a delightful Christmas gift.

Frozen Chicken Crepes
1/2 cup sifted flour
1/2 teaspoon salt
2 eggs, well beaten
1/2 cup milk
1 tablespoon melted shortening
Sift flour and salt together. Com-

bine eggs, milk and shortening. Add flour and beat until smooth. Lightly grease small heavy skillet already heated. Use 1/2 tablespoon of batter for each crepe. Tilt skillet so crepe is as thin as possible. Bake until brown, then brown on other side. Cool.

Filling:
3 tablespoons melted chicken fat
3 tablespoons chopped mushrooms
2 tablespoons flour
1 cup chicken broth
Salt and pepper to taste
1/2 cup cooked chicken, cut fine
3 tablespoons chopped toasted almonds

In small saucepan saute mushrooms in fat until tender. Add flour and mix well. Add chicken broth slowly, stirring constantly. Cook and stir over medium heat until thick. Remove from heat. Add salt, pepper, chicken and almonds. Mix well. Cool.

Place a half tablespoon of filling on each cooled crepe and roll up. Place in freezer containers in layers separated by sheets of waxed paper. Seal and place at once in freezer.

To serve, defrost for around 1 hour. Place on baking sheets and put in moderate oven for 10 minutes. Serve hot.

Leftover Broccoli Fine in Rich Creamy Soup

LOS ANGELES (UPI) — When the weather calls for soup, how about this new recipe? It's cream of broccoli soup.

Melt 2 tablespoons butter or margarine, add 1 tablespoon chopped onion and saute until golden. Add 1 tablespoon flour, 1 1/2 teaspoons salt and a dash pepper, and blend.

Stir in 3 cups milk gradually and cook until smooth and thick. Add 1 cup chopped cooked broccoli and heat well. Serves 4.

Spices Pep Up Potatoes
Next time you whi mashed sweet potatoes with butter, cream and salt, add a dash of ground allspice. Or substitute orange juice for the cream and add grated orange rind and a dash of ground nutmeg.

ROMAN BLEACH is BEST for NYLON

WHITE NYLON, rayon, dacron lingerie and blouses are whiter when you wash them with Roman Bleach. Roman Bleach is softener, extra gentle on fine fabrics. Directions on label.

WIN! 50 BIG PRIZES!

Hekman's "Love that Grocery" CONTEST
(Limited to residents of Wayne, Oakland, Macomb, Washtenaw and Monroe counties in Michigan)

LOOK! 50 lucky winners get their choice of...

700WATT PORTABLE TV SET RETAIL VALUE **\$139.95**
New 1958 Model. Trim, modern styling. 104 sq. inches of rectangular picture area. Rated best of the sets tested by leading independent testing laboratory.

Portable Hi-Fi Phonograph RETAIL VALUE **\$139.95**
Ultra-deluxe model made by the world's largest manufacturer of phonographs and record changers. 4-speed record changer. 45 r.p.m. spindle included.

Get entry blank in every 1-pound package of Hekman SALTINES

Enter often . . . as many times as you like!

Hekman's Saltines

It's easy! It's fun! Here's all you do!

On an official Hekman entry blank, tell us in your own words the name of the grocery or supermarket where you shop, and why you prefer to shop there . . . and enclose the red Hekman oval from either end of a one-pound Hekman Saltine package wrapper with each entry.

Example: "I can always count on fresh fruits and vegetables, quality meats, and friendly courteous service that makes shopping more fun."
(Don't send in this example. The idea is to think of your own reasons.)

This is Not a National Contest! This contest is easier for you to win because it is yours and yours alone. Open only to residents of Wayne, Oakland, Macomb, Washtenaw and Monroe counties in Michigan. You and your Detroit area neighbors are the only ones who can enter. Enter often. The more entries you send in, the greater the opportunity of winning.

Supply of Lamb, Citrus Fruits Increases

If you are among the thousands that trek to the north woods this weekend, your market order will be a bit different than usual. Because of the ease and speed with which you can prepare them, canned foods may take priority. The list may run the gamut from canned soups, vegetables and fruits to canned meats, including ham. And don't forget instant foods, mixes and nonfat dry milk.

If you stay home you can have more variety by using meats and other foods in ample supply this

time. According to the marketing information agent, November brings large pork and turkey supplies. Lamb supplies are at their peak for the year during November. There are good supplies of stews and fryers.

PROTEIN FOODS—Careful planning before going to market, then comparing different cuts in the market can help you keep meat costs in line. Most urban families spend about 33 cents of each food dollar for meat.

If you wish to spend no more than 20 cents per person you may choose canned tuna, lamb breast, liver, frankfurters or hamburger. Some pork steak, Boston butt, rib-end roast, picnics; toni turkey; lamb shoulder and perch filets are about 20 cents a serving. If you want to spend up to 25 cents for each person your list may include smoked ham, large canned hams; hen turkeys; veal leg; stewing and roasting chicken.

Ever heard of "orphan meats," those cuts that very few people use? They are usually priced low. A good cookbook will tell how to prepare tasty dishes from beef plate, neck bones, kidneys, lamb or veal breast, lamb shanks.

An egg a day is an easy health rule to follow when medium size eggs are 39 to 51 cents a dozen. That's 30 to 39 cents a pound. Large size eggs are 39 to 43 cents per pound.

FRUITS AND VEGETABLES—Most fresh vegetables and fruits

in the November market arrive from warmer climates. Weather conditions there contribute to the quantity and quality from week to week.

Citrus supplies are increasing, quality is improving and prices are lowering slightly. Marsh seedless, Ruby Red and Duncan grapefruit varieties are available. In five pound bags the number 30 size grapefruit is ten cents a pound.

Orange prices are related to size. Size 252 Florida oranges (which means that 252 fit into the standard box) are two cents a pound less than the number 176 size. Notice that green color on oranges

at this season? This does not affect the quality or flavor inside the skin.

Michigan's apple crop is now in storage. As of November 1, approximately five million bushels were in cold storage, five thousand bushels in common storage and 540,000 bushels in controlled atmosphere storage. Apples in controlled atmosphere storage will be used next year after other supplies are exhausted.

Lettuce supplies are good, prices reasonable and heads are generally very solid.

You may find slightly higher tomato prices. California's crop is finished, Florida's not in full

volume and hothouse supplies not large. Hothouse or greenhouse tomatoes have the green calyx or stem attached.

Michigan potatoes, squash, cabbage and carrots will stretch the dollars you spend for fresh vegetables.

The 1938 peach crop was about 15 per cent larger than last year; canned supplies are much larger. For these reasons you are finding very reasonable prices for canned peaches this fall.

Other canned items rating attention this week: corn, green beans, peas, tomatoes, spinach.

Creamy Applesauce Freezes Into Sherbet

You'll want to take advantage of the abundance of apples. One way to do it is to stir up a batch of Apple Sherbet.

Chill 2 cups of applesauce. Add 1 tablespoon lemon juice. Whip ½ cup of heavy cream. Add applesauce slowly and continue beating until stiff. Pour into refrigerator trays and chill until firm but not hard. Fluff with fork. Serve in sherbet glasses with red cherry on top.

It takes 900,000 poppy seeds to make up a pound.

Vegetable Dish Pleases the Eye

Flower arrangements add a nice, gay touch to any buffet table. But when you stop to think about it, they're not nearly as important as the attractiveness of the food itself. So, for your next buffet, here's a suggestion for the prettiest vegetable dish of the year. And one of the best your friends have ever tasted, too!

The golden egg sauce is a pleasing and flavorful combination of butter, milk, celery, onion, paprika and chopped eggs. All tasty sauces are made with butter. You can just count on this sauce having a real rich flavor. And what smooth creamy sauce you'll have too, when you use both butter and milk. It takes only a few minutes to make.

For this vegetable medley, arrange piping hot, bright green broccoli spears on two sides of a large snowy white head of cooked cauliflower. Or around it, if you prefer.

Spoon a generous amount of the golden egg sauce over the hot vegetables. Add egg slices and strips of pimiento for garnish, if you like. Your guests will take it from there.

Vegetable Medley with Golden Egg Sauce

1 large head cauliflower, cooked
1 bunch broccoli, cooked
1/2 cup butter
1/2 cup finely chopped celery
1/2 cup chopped onion
2 tablespoons flour
1/2 teaspoon salt
1/2 teaspoon paprika
2 cups milk
2 eggs, hard-cooked and chopped
Melt butter in fry pan. Add celery and onion. Cover and cook slowly for 5 minutes. Stir in flour.

VEGETABLE MEDLEY—Please the eye as well as the appetite with this colorful vegetable dish. Spoon golden egg sauce over the top and garnish with pimiento.

salt and paprika. Gradually add milk. Cook over low heat, stirring constantly, until thickened. Add eggs.

Arrange cauliflower and broccoli on serving platter. Spoon sauce over hot vegetables. Garnish with egg slices and pimiento, if desired. Makes 8 servings.

Tomatoes Are Vegetable, Says Supreme Court

It's surprising that tomatoes even bother to speak to other vegetables. Tomatoes have been to the Supreme Court of the United States, a distinction no other vegetables has achieved.

It happened way back when Grandmother was helping to make the Gay 90's famous.

A firm in New York City imported some tomatoes from the West Indies. The Government collector of customs said, "There's an import duty of 10 per cent on vegetables. Please pay." The men who imported the tomatoes said, "But Mr. Customs Officer, tomatoes are fruit. And fruit comes in free. We should not have to pay."

"Vegetable," said the Government man.

"Fruit," said the importers.

"Vegetable," said the Government man.

"We're going to court," said the importers. And they did. The lower court decided tomatoes were vegetables. The importers took the case to the Supreme Court.

In May, 1893, came the big decision. Most people, said the Supreme Court, think of tomatoes as vegetables; most people use them as vegetables; therefore, for purposes of the tariff, tomatoes ARE vegetables.

Trio of Pumpkin Pies Pleases

PUMPKIN SOUFFLE PIE—New, different and decidedly delicious is Pumpkin Souffle Pie! Spicy canned pumpkin filling has a new look and flavor when combined with gelatine and ice cream. Toasted almonds sprinkled over the top, if you have them on hand, give nice crunchiness and dressiness.

By JANET ODELL

Pontiac Press Home Editor

Not all the pumpkins were used as jack o'lanterns at Halloween time. A good many are left to provide one of the season's nicest desserts—pumpkin pie.

Back in the old days they didn't bother to make pies. They just took the seeds out of the pumpkin, filled it with maple sugar and whatever spices they had and baked it that way. The crust is a refinement of modern living.

There are always some who want no changes in their traditional dishes. Others delight in new versions of old favorites. The latter will take to Pumpkin Souffle Pie as a duck to water.

Souffle pies are not new, but the idea of using pumpkin in one is. Try this out on your evening card group first. We'll wager everyone will want the recipe.

PUMPKIN SOUFFLE PIE

1 envelope unflavored gelatine
1/2 cup brown sugar, firmly packed
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon ginger
1/2 cup water
1 pint vanilla ice cream
1 cup canned pumpkin
Baked 9-inch pastry shell
Toasted halved almonds (optional)
Combine gelatine, brown sugar,

salt and spices in saucepan; add water. Heat to boiling, stirring. Remove from heat; stir ice cream into hot mixture by spoonfuls. Add pumpkin, mixing until smooth. Chill until filling mounds slightly. Pour into pastry shell; sprinkle with almonds, if desired. Chill until firm. One 9-inch pie.

There are many homemakers who will be serving their first Thanksgiving dinner this month. We think they should have a recipe for old-fashioned pumpkin pie. The spices "make" this pie.

SPICED OLD-FASHIONED PUMPKIN PIE

1 cup sugar
1/2 tablespoon flour
1/2 teaspoon salt
1/2 teaspoon ground ginger
1/2 teaspoon ground cinnamon
1/2 teaspoon ground nutmeg
1/2 teaspoon ground cloves
2 eggs
1 1/2 cups cooked mashed pumpkin
1 cup light cream or milk
Pastry for 1-trust 9-inch pie
Mix together sugar, flour, salt, ginger, cinnamon, nutmeg and cloves. Beat in eggs. Stir in pumpkin and cream or milk. Mix well. Pour mixture into 9-inch pie shell lined with unbaked pastry.

Bake in a preheated hot oven (400 degrees) 50 minutes or until a knife inserted in center

comes out clean. Cool. Decorate top with baked pastry pumpkins or as desired. Yield: 6 servings.

This last recipe is for a chiffon pumpkin pie. Its main distinction comes from the crisp, buttery crust that sets off the delicate filling.

PUMPKIN CHIFFON PIE

Butter-Cream Cheese Pastry
1 1/2 cups sifted all-purpose flour
1/2 teaspoon salt
1 3-ounce package cream cheese
1/2 cup butter

Combine and sift flour and salt into mixing bowl. Mix cream cheese and butter together thoroughly. Blend cheese-butter mixture into dry ingredients until it forms a dough. Shape mixture into a flat round patty. Chill in refrigerator until firm.

Roll approximately 1/8-inch thick on a lightly floured board or pastry cloth. Fit into 9-inch pie pan, trim edge 1-inch beyond edge of pan. Fold crust under and flute edge. Prick bottom and sides of crust with fork. Chill. Bake in hot oven, 325 degrees F., until crisp and brown, 12 to 15 minutes.

Cool and fill with Pumpkin Chiffon Pie filling. Makes one 9-inch pie shell.

Pumpkin Chiffon Filling

1 package plain gelatine
1/2 cup cold water
2 eggs, separated
2 cups pumpkin
1/2 cup brown sugar
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon ginger
1/2 teaspoon cloves
1 1/2 cups thin cream or half and half
1/2 cup brown sugar

Soak gelatine in cold water. Beat egg yolks. Combine pumpkin, firm. Top with whipped cream or 1/2 cup of sugar, salt and spices.

Add cream and beaten egg yolk. Cook over low heat until slightly thickened. Add gelatine mixture and stir until dissolved. Chill until mixture begins to thicken.

Beat egg whites with 1/4 cup sugar until stiff and fold into chilled pumpkin mixture. Pour into 9-inch baked crust and chill until firm. Top with whipped cream or 1/2 cup of sugar, salt and spices.

Luncheon Sardines

For luncheon in a hurry, drain a couple of cans of Maine sardines and place them in a shallow pan which has been rubbed with a clove of garlic. Whisk under the broiler for 5 minutes or so, until the fish are hot and bubbly. Serve on slices of well buttered toast, sprinkle with lemon juice and finely chopped stuffed olives. A crisp green salad and the delectable luncheon is complete.

Cream leftover flaked fish and serve over hot baked potatoes.

Hills Art Group Plans 2nd Show

BLOOMFIELD HILLS — Bloomfield Art Association closed its successful Members Show last Sunday and is opening another show—"Design"—with a reception this coming Sunday.

Hostesses, under the social chairman Mrs. Don Ahrens, will be Mrs. Carl Caris and Mrs. Ralph Williams. Mrs. R. Elmore Wollering and Mrs. Roy Mitchell Jr. will greet members and their guests Dec. 5 when the Eames movies in color are presented.

A Round Table of discussion of entries offered in the Design Show will be moderated by Gere Kavanaugh, Hugh Acton and Dick Jennings.

One of the nicest and earliest Christmas parties every year (this will be the fourth) is the "brunch" given by Mr. and Mrs. John L. McQuigg and Mr. and Mrs. Norman Strouse.

Clever red and white invitations will soon be in the mail to invite friends to open the holiday season with them Dec. 7 at Bloomfield Hills Country Club.

Although the Strouses moved to New York after the first affair, they come back to be joint hosts every year.

The red and white color scheme of the invitations will be carried out in every attractive way.

Mrs. Walter J. Bem will be one of the many hosts at the opening Gourmet Dinner this evening at Orchard Lake Country Club.

Dr. and Mrs. C. G. Darling of Lone Pine court will be hosts

at a supper party Thanksgiving Eve.

Their sons, Gary and David, will be home that weekend—Gary from Michigan State University and David from the University of Michigan.

Mary Elizabeth Turner and James Russell Lovell will be married Nov. 28 in St. Dunstan's Chapel of Christ Church Cranbrook. A reception will follow at Forest Lake Country Club.

The bride-elect, daughter of Austin Turner and Mrs. Margaret Melanthy Turner, both of Wahiauw, Hawaii, has been with her future parents-in-law, Mr. and Mrs. Robert Lovell of Clifton drive, since August. Her mother is expected to arrive this weekend. Mrs. Turner will stay with her friends, Mr. and Mrs. John A. Gilray of Avondale road.

Mr. and Mrs. W. A. Haist will give a dinner for the engaged couple Saturday evening and Mrs. C. E. Dalton will be hostess at a luncheon for Miss Turner next Wednesday.

Phoebe Otter left Tuesday for a visit with the Harold Holmyards in New Canaan, Conn. She will go to New York next week to visit her sister, Julie Otter, at her apartment.

For Smoked Meat

For a heavy smoke flavor on barbecued meat, add hardwood chips to the fire near the end of the cooking time. The chips should be soaked in water before using.

Dance chairman Mrs. John McCormick (left) and Mrs. Donald Peterson, cochairman, were kept busy listing those so-important last minute details at the recent meeting.

Shower at Hodge Home Honors Sandra Wampfler

Sandra Wampfler, daughter of Mr. and Mrs. Carl Wampfler of Clarkston, announced attendants Wednesday evening at a shower given by Mrs. Ronald Hodge and Mrs. Ann Schneider at the Hodge home on Neome drive.

Matron of honor will be Mrs. Robert Jones. Mrs. Larry Sands will attend as bridesmaid, and Harriett Glasman has been asked to be junior bridesmaid.

Guests present at the shower were Mrs. Wampfler, Mrs. Robert Jones, Mrs. William

Adams, Mrs. Ross, Mrs. Alex Kokins, Dee Brim, Mrs. Robert J. Lenz, Mrs. Kal Blankenship, Mrs. Eugene Swaney and Mrs. Nuella Moore.

Also attending were Mrs. John Gardiner, Mrs. Hugh Bigsby, Mrs. Leon D. Baumgardner, Georgeanna Block, Mrs. Hargus Slak, Rosemary Cole, Mrs. Keith VanKleeck and Mrs. Sam Glassman.

Buy Big Buttons

Big buttons are the fashion this season—buttons as big as platters. When you shop for your home sewing, be sure to insist on washable buttons, bindings, thread, interfacings, shoulder pads, and other "findings."

To Benefit St. Joseph Hospital

Fall Frolic Set Saturday

Mrs. Robert Sirbaugh (right) is in charge of decorations for the Saturday alumnae dance. Here, she joins Mrs.

John Myers, committee worker, for refreshments.

Glen Oaks Country Club will be the setting for a dance, "Fall Frolic," Saturday night, sponsored by St. Joseph Mercy Hospital Alumnae.

Mrs. John McCormick is chairman of the dance. Co-chairman is Mrs. Donald Peterson.

Committee heads include Mrs. Edward Omans and Mrs. Robert Myers, publicity; Mrs. Charles Fernald, music; Mrs. Robert Sirbaugh, decorations; Mrs. Robert Stoner and Mrs. Thomas Timmreck, tickets.

Doctors of St. Joseph Mercy and Pontiac General Hospitals will be patrons.

Dancing will be from 9 p.m. to 1 a.m. with a local orchestra playing. Tickets may be purchased at the door.

Proceeds will benefit St. Joseph Hospital's building fund.

Given Bridal Shower

Marjorie Stuk was honored at a bridal shower Wednesday evening at the home of Mrs. Andrew L. Adams of Williams Lake. Cohostesses were Mrs. N. R. Bartell and Mrs. Carl Putnam.

Miss Stuk will become the bride of Daniel Siegman Nov. 28. Parents of the couple are Walter J. Stuk of Richwood avenue and Mrs. O. L. Siegman of Orange Grove avenue.

ATTENDANTS NAMED
Annabell Vaverek has been selected as maid of honor, with Mrs. Jeanette Larson and Mrs. Horace Horton as bridesmaids. Best man is to be the bridegroom's brother, Michael Siegman, and Richard Gorman and Ronald Bartell will be ushers.

Guests attending the shower were Mrs. Kenneth Valentine, Mrs. Ronald Bartell, Mrs. John F. Naz, Mrs. H. L. Bartram, Mrs. C. A. Holton, Mrs. O. H. Fargher, Mrs. Dalton Ettinger and Mrs. Jack Read.

Others were Mrs. Ralph Eaton, Mrs. Arthur Arnold, Mrs. Richard Gorman, Mrs. Mark Stewart, Mrs. Richard Gorman Jr., and Mrs. William Eddy.

Takes More Than Shunning Make-Up

There is no virtue at all in looking frumpy and in going without make-up, as some mature women seem to think.

There is no connection between character and an absence of cosmetics. This notion went out with the Victorians.

Clyde Haskill Is Speaker

Homemakers Club Hears Safety Talk

Clyde Haskill, president of the Pontiac Area Junior Chamber of Commerce, spoke to the Professional Homemakers Extension Club Tuesday evening at the home of Mrs. Thomas Skaggs on Orchid street. Mrs. Marcus Bower Jr. was chairman for the program.

Mr. Haskill stated that 11 billion dollars each year are "wasted on so-called accidents," and pointed out that one life every minute is snuffed out by carelessness. The club will donate to the Junior Chamber of Commerce Safety Committee program.

Mrs. Lois Jones displayed a sample of Thanksgiving tray

favours on which members began to work for the Oakland County Convalescent Hospital.

Guests for the evening were Luella Nault, home demonstration agent; Mrs. Hollis Doherty, Mrs. Margaret Curvin, Mrs. Charles Richards and Marge Skaggs.

Mrs. Lawrence Denham was welcomed as a new member.

Owen PTA Features Safety Talk

The Girls Service Squad and Boys Safety Patrol attended the Owen School PTA meeting held Wednesday afternoon in the multi-purpose room of the school.

Joseph Zabelski of the American Automobile Association spoke on "Safety Education in the Schools." He played the piano and led group singing of safety songs. He then showed a comic film entitled, "I'm No Fool with the Bicycle."

Tributes were paid to Mrs. Cora Scott and Raymond Young, sponsors of Service Squad and Safety Patrol at Owen School.

American Education Week will be observed tonight with an open house from 7 to 8:30 p.m. Classrooms will be open and parents will have an opportunity to visit teachers.

Dinner Dance, Fur Show Set at Oakland Hills

On Nov. 21, Oakland Hills Country Club will hold a fur fashion show during the cocktail hour to begin at 6:30 p.m. followed by a dinner dance with music by a local orchestra. Furs, to be shown by professional models, are by Ditt-rich.

Mrs. William F. Thomas is chairman of the affair. On her committee are Mr. and Mrs. John M. Howling, Mr. and Mrs. Gordon J. McMullen, Mr. and Mrs. Thomas E. Sheehan and Mrs. Thomas. Mrs. John L. Fralick is the club's social chairman.

Pontiac WCTU Members Guests of Mrs. Little

Members of units of Pontiac Federation of WCTU were guests of the Dora B. Whitney group Tuesday afternoon at the Franklin road home of Mrs. John Little. Units represented were Anna Gordon, Pontiac WCTU, Frances Wilford, Emor L. Calkins and Mary Morton.

Chairmen appointed by president, Mrs. Little, are Mrs. Eleah Patten, Christian citizenship; Mrs. Alma Fremed, flower and missions; Mrs. John McCormick, devotional and Mrs. Lena Philpott, calling committee. Serving on the calling committee are Mrs. Edith Green, Mrs. Glenford Haviland, Mrs. Fremed and Mrs. Arthur Brockie.

Mrs. L. G. Rowley, national vice president spoke to the group on "Check Your Loyalties."

Mrs. Lalonde Installed by Gold Star Unit

Mrs. Hilda Lalonde was installed as Americanism chairman at the Tuesday evening meeting of American Gold Star Mothers Chapter No. 9, held at the DAV Home.

Mrs. Lola Erb, president, announced that there will be a board meeting and luncheon in Lansing Dec. 2.

On Nov. 19, Mrs. Edna Olmsted will be hostess at her Telegraph road home to the group. Cancer dressings for the American Cancer Society will be made.

Saute strips of green pepper in olive oil with a clove of garlic and serve with veal.

MRS. HARRY GAVRILIDES

Sophie Cosma Becomes Bride of Harry Gavrilides

St. George Greek Orthodox Church was the scene of the Sunday afternoon wedding of Sophie Cosma and Harry Gavrilides. The Rev. Achilles Siagris officiated at the ceremony before 350 guests.

Parents of the couple are Mr. and Mrs. Ernest Cosma of Ogemaw road and Mr. and Mrs. Achilles Gavrilides of Grand Rapids.

The bride wore a princess-styled floor-length gown of silk taffeta with a bodice of Chantilly lace accented with seed pearls. The bell shaped skirt with rose-detailed coachman back formed a chapel train that converted into a bustle for the reception.

A lace crown held her fingertip veil of silk illusion and she carried a bouquet of stephanotis, pink roses and ivy centered by two white orchids.

ATTEND BRIDE

Maria Cosma was her sister's maid of honor. Bridesmaids were Bessie Samerly of Grand Rapids, Beth Gregory and Helen Iliades. All wore pale green satin dresses with flared skirts and they carried cascade bouquets of bronze fugi chrysanthemums with croton leaves and wheat.

Junior bridesmaids were Kay Cosma, another of the bride's sisters, and Ann Afendoulis. They carried bouquets of orchid colored fugi chrysanthemums with croton leaves and wheat. Flower girl was Jeanie Gemolis.

Attending the bridegroom was Nick Afendoulis of Grand Rapids, the bridegroom's godfather. Ushers were Spiros Gavrilides of Boston, the bridegroom's brother, and Samuel, Ernest and Abe Cosma, brothers of the bride. Junior ushers were Steven Gabriel and Demetri Aslan.

Ringbearer was John Afendoulis of Grand Rapids and bearer of the Stefana was Michael Aslan. A reception at Elks Temple followed the ceremony.

Before leaving for a Florida honeymoon, the bride changed to a beige two-piece wool suit accented with pink and dark brown accessories and she wore the corsage from her bridal bouquet.

The couple will live on Seminole avenue.

The bridegroom attended Grand Rapids Junior College.

Sophie Cosma and Harry Gavrilides were married Sunday afternoon at St. George Greek Orthodox Church. Parents of the couple are Mr. and Mrs. Ernest Cosma and Mr. and Mrs. Achilles Gavrilides.

Dear Abby...

Non-Smoking Grandpa EATS Cigars Then Fondly Kisses Baby on Mouth

By ABIGAIL VAN BUREN

"DEAR ABBY: Please tell me if I am wrong to do what I did! My father-in-law is a very affectionate and sometimes overbearing man. He doesn't SMOKE cigars — he EATS them! He actually chews up a cigar and heaven knows what he does with the tobacco juice. Anyway he smells terrible and his teeth are stained and he is repulsive.

"He insists on kissing my child who is 13 months old, full on the mouth. I have asked my husband to tell him I don't like it and I have told him to stop it, too. Last night he came over and picked up the child and kissed her on the mouth. I lost my temper and told him he wasn't to touch the baby again. He left in a bad mood and my husband hasn't spoken to me since."

SANITARY MOTHER
DEAR SANITARY: You were too severe. Apologize to your father-in-law and explain that NO ONE should kiss a child on the mouth for the sake of the baby's health.

"DEAR ABBY: We are writing about our sorority sister. She is very cute looking and has a nice personality but the fellows say she is a walking iceberg. She wants to be popular but she won't warm up to a boy even after the third or fourth date. They say it is like pulling teeth to get a kiss out of her. Any suggestions?"

SORORITY SISTERS
DEAR SISTERS: Line her up a date with a few dental students.

"DEAR ABBY: I was an elevator operator up until yesterday when I lost my job be-

cause an old maid who lives in the building told the superintendent that I got the elevator stuck between floors on purpose. She was the only one in the elevator at the time and she started to scream and holler and went into hysterics. I didn't even touch her but she

told the superintendent that I tried to kiss her. I wouldn't kiss her if she was made of honey. How can I get my job back?"

JOBLESS
DEAR JOBLESS: It's up to you to convince the superintendent that the lady's charges

are false. Perhaps others in the building will vouch for your character. You can't keep a good elevator man down. Good luck!

"DEAR ABBY: What do you think of five children who served their mother breakfast at 7:30 Saturday morning because her birthday is on the following Tuesday and they will be in school? They had no money for presents because they have no father.

"When I came downstairs they had the dishes all done and had cooked their own breakfast, too. As I sit here writing to you, they brought me a cup of tea. This is the most wonderful birthday I have ever had. I just had to tell someone how happy I am. I am so proud I could bust."

MARY
DEAR MARY: Only children who have been treated with love and respect could honor their mother the way yours have. The love you have given them is coming back to you. God bless you!

Panel Talk Slated

District Nurses to Meet

Mae Edna Doyle of the Ann Arbor School of Practical Nursing will address members of the Oakland County District Nurses Association when they meet Tuesday at the McAuley School of Practical Nursing. "The Practical Nurse Program" will be Miss Doyle's subject.

Panel chairman will be Nettie Jane Penwell, R.N. Members of the group will include Irene McCormick, R.N.; Josephine Peterson, R.N.; Elva Warner, R.N.; L. E. Bildeau, D.O.; A. R. Larson, M.D.; and Clarence Patterson.

A social hour will be observed from 7:30 to 8 p.m. Mrs. H. V. Harcourt, R.N., will be hospitality chairman. Hostesses will include Mrs. Jack Casey, Mrs. M. A. Pardee, and Sister Mary Niceta, R.S.M.R.N.

Tips for Child's Room

Larger families inevitably mean more interest in children's rooms. More children mean more work for mother, so the rooms must be furnished efficiently for her housekeeping as well as the youngsters' comfort.

Take the floors, for instance. Hard surfaces are easier to clean than rugs when you consider the amount of sand, mud, milk and cookie crumbs that finds its way on to them.

Bedspreads are sat on, slept on, played on. They should be of quick-laundering variety.

Toys are meant mainly to be left in the middle of the room, so barked shins and falls can be avoided by a proper storage chest. Nicks, scratches, and crayon marks on tables and chairs can more easily be covered if the furniture has a painted finish.

Any wise mother can think

of other ideas for her own convenience. But she should not overlook the fact that the room must be designed primarily for the child's sleeping comfort. It should be possible to darken it for naps, keep it properly ventilated, and have a firm mattress and spring so that junior will get proper skeletal support during the hours he's abed.

Use a light back-and-forth stroke with your carpet sweeper, according to a home cleaning advisor. Pressing down is tiresome and hampers effective cleaning.

Coeds Agree, Sweaters Go Almost Everywhere

What's the difference between "freshman fog" and "senior superiority?"

As far as coeds are concerned, it's a matter of fashions. Clothes are the clue to the collegiate's class standing . . . because the right outfit at the right time indicates a certain savoir faire.

If you want to be up to the minute your first semester, be

sure that your wardrobe trunk contains plenty of sweaters.

Sweaters go everywhere . . . to class, for dorm lounging, informal dates . . . over ski suits.

Now chemise-cut sweaters come down over the hips in any one of a dozen different styles. Popular this fall is the shaggy mohair look. In one such sweater, tiny, matching

bows anchor the dropped, ribbed waist, and a longer string bow pulls the neckline.

The Perry Como sweater, alias, Henry Higgins vest, is featured for gals in a two-tone cable knit.

Another favorite this fall is the bulky-knit pullover. One pretty one has a shoulder-spanning cowl collar with two large pockets at the dropped waist.

Next to cashmere, a shetland or lambswool sweater is universally coveted by college girls. One pretty shetland is

fashioned along polo shirt lines, with a long, narrow, ribbed sleeve and four buttons down a collar opening.

Looped mohair, a variation on the shaggy look, forms a dramatic scoop-necked sweater in pumpkin and other pretty colors.

Keep Atomizer at Its Distance

An important tip when using an atomizer is to hold it at least twelve inches from you or the article you are spraying, according to the type of atomizer.

When holding it too close, the liquid will often come out in wet droplets instead of the necessary fine mist.

What Young People Think

Vote Bad Companions as 'Worst Influence'

By EUGENE GILBERT
Gilbert Youth Research Co.

Bad companions — not rock 'n' roll — are adjudged by the teenagers themselves to be the worst single influence on the lives of American youth.

Replying to one of our nationwide surveys, they concentrated their fire on the companions, and gave the music a clean bill of health.

Boys apparently have even more trouble resisting poor examples set by their friends than do girls.

The boys voted 76 per cent that bad companions are the worst in-

fluence, as compared with 64 per cent of the girls.

"Most teenagers of today are not leaders, but followers," explained 17-year-old George Thomas of St. Louis.

FEW TAKE STAND

"Very few teenagers will stand up for what they think is right if they're called 'chicken,'" said 17-year-old Nancy Berneath of Denver.

"The teenager will do anything to win acceptance from his group," agreed Paul Federson of San Francisco.

Oddly enough, less than half of the youngsters listed good com-

panions as the best influence in their lives.

Apparently boys pay more attention to their elders than girls do.

The boys voted 22 per cent that examples set by adults are the worst influence. Then they turned around and gave adults a 41 per cent vote of confidence as the best influence. A quarter listed parents as their best guide.

The girls took a less enthusiastic view — 39 per cent of them listed adult examples as their best influence and only 15 per cent felt their parents were the top influence for good.

AFFECTED BY TV

Boys seem especially affected by tales of violence on television and news of crime and violence in the newspapers. Girls seem more disturbed by uneasy world affairs and the threat of atomic warfare.

In the survey, 68 per cent of the young people said that crime news in newspapers does have an effect on teenage behavior, and 49 per cent said that TV sketches affect youngsters. The question was whether the news and sketches had any effect at all, not whether the effect was good or bad. In the previous question on "worst influences," TV rated only 3 per cent.

Just half of the girls listed the threat of atomic warfare as influencing teenage behavior while 40 per cent of the boys felt it had an effect. Thirty per cent of the girls felt uneasy world affairs affected teenagers and 28 per cent of the boys thought so.

Half the teenagers questioned took the gloom view that nothing can be done about these situations.

THEY'RE BITTER

Through their answers ran a thread of bitterness.

"We live in the world, yet we have no say as to what should or shouldn't happen," said Jean Bayles of San Francisco.

"After all," sighed Marcia Wilson of Bayshore, N. Y., "the kids feel they have nothing to lose. We'll all be blown to bits anyway."

Judging from the answers on this poll, churches are not reaching young people too effectively. Only 15 per cent — a few more girls than boys — felt the church was the best influence for good in their lives.

The teenagers stood sturdily in defense of their beloved rock and roll and comics. No teenager listed the music as a bad influence and a few said it was good. Only a handful of girls scowled at comics. Movies and progressive education also got off practically scot free.

The teenagers took a fairly placid view of corruption in government — only 12 per cent felt it had any effect on teenage behavior.

Many of the youngsters indicated a what-you-don't-know

won't-hurt-you attitude on crime news. This group felt newspapers should cut down on crime news, apparently on the theory that if violence were ignored, it might go away.

"Cut out the headlines and wipe out juvenile delinquency," suggested 15-year-old Sandra Cohen of Brooklyn.

This viewpoint fits with an earlier survey which found that a third of the teenagers then questioned believed that censorship was a good idea.

It would seem that an alarming number of teenagers are ready to surrender their parents' hard-won freedom of press and information to keep things pleasant.

Unwise to Take City Trip

By EMILY POST

"Dear Mrs. Post: I am a girl sixteen years of age and a senior in high school. My girl friend and I would like to go to Washington for a weekend. We would leave Friday evening and return home Sunday evening. My mother objects to my going on the grounds that we are too young to be traveling alone and staying in a hotel. My mother respects your judgment and I feel sure that if you say there is no impropriety in our going, she will give her consent."

Answer: There is no impropriety in the trip you wish to go on, but I agree with your mother that it is unwise for two girls only sixteen years old to go alone to a city for a weekend. It might only too easily lead to a very uncomfortable situation.

"Dear Mrs. Post: I have been invited to a sorority dance by a girl friend. I am wondering what the custom is in regard to paying for the tickets. Am I expected to pay for them, or at least offer to do so, or is it her obligation to pay for them?"

Answer: If she invited you to go with her, it is up to her to provide the tickets. Correctly, she should buy them in advance because to buy them with you standing beside her would put you in an embarrassing position.

Remove Red Ink

When small fry spill red ink on a desk or a floor, wash the spot first with sudsy water, then rinse with vinegar diluted with water.

by Anne Adams

Divine line for holiday prints, fluid crepe or wool. You'll love the way this sheath is shaped to you, and to every facet of your day and night life. Note curving collar, back flare. Tomorrow's pattern: Girls' separates outfit.

Printed Pattern 4563: Misses' sizes 12, 14, 16, 18, 20. Size 16 takes 3½ yards 39-inch fabric. Printed directions on each pattern part. Easier, accurate.

Send 50 cents in coins for this pattern — add 10 cents for each pattern for 1st-class mailing. Send to Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Sticking Drawers

Sticking cabinet drawers are irritating. Often if you rub them with soap the problem is solved. For extremely stubborn cases, sand the edges and tracks, seal with a coat of shellac and then soap.

Buying Beauty Tools in Pairs Good Practice

What shape are your beauty tools in? Are they clean, spruce and well-tended?

If they aren't, they can't do a good job for you. Wave nets, brushes, combs, bobby pins and hand brushes should all be in mint condition.

The best way to guarantee this is to own more than one of everything, including tooth-brushes.

This gives you a chance to give your beauty tools a rest, and get them cleaned up in between jobs.

Best Calcium Source

You're Never Too Old for Milk

By JOSEPHINE LOWMAN

Yesterday I wrote about the fairly new daily food guide of the United States Department of Agriculture. Foods are placed in four groups, The Milk Group, The Meat Group, The Vegetable-Fruit Group and the Bread-Cereal Group.

Many people feel that milk is not an important food for adults. To the contrary, it brings us many valuable elements. It is our best source of calcium, that important mineral, and is also a fine source of protein. It contributes to our vitamin intake too.

It is recommended that a child should have at least three or four, is two cups. A pregnant woman eight-ounce cups, of milk daily, should have at least four and a Teenagers should have at least nursing mother six or more.

Milk is our best source of calcium, that important mineral, and is also a fine source of protein.

If you do not like milk especially, you can substitute cheese or ice cream for part of your milk intake. According to the government leaflet one one-inch cube of cheese (cheddar type) equals two-thirds of a cup of milk.

One-half cup of cottage cheese equals one-third cup of milk. Two tablespoons of cream cheese equals one-fourth cup of milk. One-half cup of ice cream is equal to one-fourth cup of milk. Don't leave off your daily milk ration just because you are a big girl now.

In the preparation and seasoning of your food you will naturally use fats (butter or margarine, oils) and sugar.

So here is the skeleton about which you should build your meals for best health; at least two glasses of milk or equal substitutes (more for children, teenagers, pregnant women and nursing mothers), two or more servings of foods from the meat group (meat, fish, fowl, eggs, seafood).

In choosing two servings from this group you can sometimes substitute one cup of dried beans or peas or four tablespoons of peanut butter.

FOUR SERVINGS

You also should have at least four servings from the Vegetable-Fruit Group. Be sure that one of them is a good source of vitamin C (citrus fruits are richest) and that one is a fine source of vitamin A (dark green and deep yellow ones).

Do not neglect the Bread-Cereal Group. From this choose at least four servings each day.

Your family needs these same foods also in varying amounts, depending on their calorie requirements. If you stick to this as a pattern, you can add any other foods you like — just stay within the calories allowable in order to maintain your correct weight.

WITH BERMUDAS

Girls will be wearing them this winter with their beloved Bermuda shorts as well as skirts. And their mothers will be wearing high-style boots on shopping trips or to the theater.

Colorful basket handbags are the latest craze in staid old London. Large baskets can carry shopping as well as feminine essentials.

She Needs More Than Chic Suit

The lady was tall, slim, well-groomed and mature. She wore an expensive suit, a becoming hat and carried a handsome handbag. At first glance, it added up to an attractive picture.

Then, suddenly, the picture fell apart. For there were some things badly wrong with it. Her hair, under the chic hat, was streaked and frizzy. Her shoes were shabby with run-down heels. They had not seen polish in many weeks. And her white gloves were soiled.

Little things, and probably she was unaware of them. But because of them, the money spent on suit, hat and handbag was very nearly canceled out.

The unkempt hair, worn shoes and grubby gloves made the lady appear careless, sloppy and indifferent. Her clothes indicated that she was not, but that she simply failed to check on herself.

A little care, a thoughtful glance at herself in the mirror and she could have been wearing trim, polished shoes, neat with white gloves and well-coiffed hair. She could have been a picture of elegance.

Baptist Group Hears Reports at Meeting

Mrs. Harold Hays and Mrs. Kenneth Rounding reported on a Christmas Candy project of the Women's Fellowship of Faith Baptist Church when the group met Tuesday at the home of president Mrs. Robert Surra on Lanman drive. Forty pounds of candy have been donated thus far.

Betty Dickinson reported on the Fellowship's achievements last year, and letters of thanks from seminary students who received Halloween boxes from the group were read. Members voted to send the students funds for Thanksgiving.

Next month members will exchange names for secret pals. All have been asked to bring a Christmas gift to the meeting.

Actress Gene Tierney appears happy as she occupies herself by knitting at her Westport, Conn., home. Gene is attempting a comeback on the movie screens. For most of the past three years she has been a patient in two mental hospitals. Before her illness, she made some 30 films—1940 to 1954.

Gene Tierney Comes Back

Mental Illness Not End of Road

(Editor's Note: Few film stars have been so dogged by tragedy and misfortune as lovely Gene Tierney, who is now starting on the comeback trail. This is the first of three articles.)

By CYNTHIA LOWRY

WESTPORT, Conn. (P)—"When I was ill, I thought that my emotional life was over for good," says Gene Tierney. "That was not true. I'm well now, with plenty of hope and plenty of chance to find happiness."

Happiness to this beautiful green-eyed woman means the opportunity to resume her acting career, to bring up her 10-year-old daughter in peace and security and, if the right man comes along, to fall in love and marry again.

3-YEAR SIEGE

For most of the past three years, Gene Tierney has been a patient in two mental institutions. For six or seven years before that, she had been ill and because she determinedly ignored the symptoms, grew constantly worse.

But at the end of the summer, Miss Tierney, with passport of health and visas to a new world in good order, emerged from the Menninger Clinic in Topeka, Kan., ready and eager to return to the nation's motion picture and television screens and to pick up her functions as mother and breadwinner.

Behind her are almost 20 years of personal tragedy—heartbreak, crisis and, curiously for a famous and successful motion picture star, failure. Ahead of her, she feels strongly, lie the serene, productive years of her life. She is now 38.

A STAR AT 20

Gene's sultry, exotic beauty shot her to stardom before she was 20. In the 14 years between 1940 and 1954, she made some 30 films, was rated one of Hollywood's top box office names. Her mental breakdown, however, cannot be scored as another black mark against the West Coast film city.

"My doctors say that my career had absolutely nothing to do with my illness," says Miss Tierney. "They tell me I handled it as a mature person."

"Perhaps the most important lesson I had to learn was to admit and accept defeat," she explains. "In the other days I felt I had to stand up to any situation and take it. I felt I had to put up with the impossible and try to resolve it. I had to learn to say, 'I can't solve that; I give up.'"

Hollywood, however, pro-

vided the dramatic background against which Gene silently had secretly fought a losing battle against the steadily worsening illness. When she finally surrendered, it was after a series of emotional blows which, in succession, involved her close relationship with her beloved father, her first-born child and her husband.

ELOPED WITH DESIGNER

Still under age, but an important film star, Gene met, fell in love and eloped to Las Vegas with Oleg Cassini, now a famous New York dressmaker but then a struggling studio designer. An unknown then, Cassini was notable for an obsolete White Russian title inherited from his mother's family and the fact that he had briefly been the fourth husband of a rich patent medicine heiress.

The elopement precipitated a family crisis. The Tierneys had been a well-to-do New York and Connecticut family of some social standing.

The marriage ended the guardianship of Tierney pere, and quarrels about this and other matters permanently alienated Gene from him.

Soon after Gene's own marriage, her parents were divorced after 25 years of marriage.

"I loved my father," says Gene in a level voice. "So when I was disillusioned in him, I was heartbroken."

Two years later came a second, stunning blow: her daughter Daria was born mentally retarded due to a bout with German measles Gene suffered during her pregnancy.

(Tomorrow: Motherhood and broken marriage.)

Small Earrings Not in Vogue, Says Designer

A jewelry designer predicts a long-time change in earrings—clips which completely cover the ear. No more small types or long, narrow pendants.

The large earring makes the ear look smaller, more graceful and frames the face, she said.

For women with large ears, she recommends a scroll shape which edges the ear, creating an illusion of daintiness.

Look for individually-opening dust pans when buying a carpet sweeper, a manufacturing company advises. Dirt and dust can be easily emptied without soiling hands, a problem with older sweepers.

Boots Set Fashion Pace

Boots will be seen in the best circles this fall, worn by fashionable women not only at football games and for country hikes, but also in dressed-up versions for formal evenings.

The boot craze, which started on college campuses, has spread to the adult high-fashion world.

SHOCKING PINK

Most sensational dress-up boot of the season is made of shocking pink suede, with a glittering rhinestone heel and comes well above the ankle.

Another city boot, designed for street wear, is made of a shadow-striped suede in tones of green, yellow and brown, with a curved Louis heel and a drawstring at the ankle.

Boots come in all colors of the rainbow this fall, with high heels and fancy trimmings. The college versions are just as varied in color, sometimes come clear to the knee, but have flat heels.

WITH BERMUDAS

Girls will be wearing them this winter with their beloved Bermuda shorts as well as skirts. And their mothers will be wearing high-style boots on shopping trips or to the theater.

Colorful basket handbags are the latest craze in staid old London. Large baskets can carry shopping as well as feminine essentials.

Cherish Her Desire to Be Independent

By RUTH MILLETT

Her husband died a year ago. And ever since his death her children have been trying to persuade her to sell her home and move in with one of them.

So far she has refused to give up her independence, but feels a little guilty because she hates to have the children worry about her.

A little worry won't hurt the children. It won't hurt them nearly as much as giving up her independence would hurt her.

And, while trying to do the right thing, the children are bound to feel respect for her independent spirit and admiration for her courage in refusing to become dependent.

Furthermore, in holding on to her own home and her place in her community she is protecting her identity as a person.

She is insisting on remaining the person she has always been — instead of trading her independence to become just somebody's mother in somebody else's home.

It isn't always easy for an older woman to maintain her independence — especially when she has to buck the wishes of her well-meaning children to do it.

But in the end it is much easier than it would be for her to learn to adjust herself to the routine of another household — a household in which she is no longer "mistress."

And it is easier for an older woman to overcome loneliness than to adjust herself to living in the midst of a busy young family.

Children mean well when they try to get a lone parent to trade independence for dependence. But parents know best when they insist on being independent just as long as they can.

In Demand as Skilled Workers

Eskimos Take to Civilization

By MORTON FUNER
Ex-Editor of The Anchorage
(Alaska) Daily Times

In Arctic Alaska, the Eskimo seems to have made the best adjustment of all natives to the onrush of the white man's brand of civilization. Eskimos are in demand as skilled workers in the Far North; the climate doesn't bother them as it does others and they have shown an amazing ingenuity at mechanical work and repairs.

Today's Alaskan Eskimos almost never live in igloos; they live in frame houses and log cabins. They may still use dog sleds (although they prefer airplane travel) but the kayak is a thing of the past. Their boats are more apt to be made of plywood and carry an outboard motor. Eskimos often buy their parkas from mail order houses in the States.

Despite the opportunity of Alaska — in hunting, fishing, oil, timber, mining, and farming — jobs for ordinary, unskilled workers are in short supply. Entrepreneurs and people with investment capital are making new fortunes every day — and there are men who can barely raise the fare for the boat trip back to the States.

Unskilled workers from the States are frequently thrown in to direct economic competition with Aleut and Indian natives. They tend to look down upon the natives and will not mingle with them socially.

But employment discrimination does not particularly bother the natives. Even without Alaska's fair employment practices law, a salmon cannery owner, say, is more apt to hire a native he knows than a footloose man from "Outside" looking for a grubstake.

Alaska has a separate school system for some of its natives — but its system is hardly one of segregation. Natives who live within school districts and other

areas coming under the office of the Alaskan commissioner of education go to schools with whites. Since 1917, the Territory of Alaska has been responsible for education of the white population while the federal government — through its Bureau of Indian Affairs — has been charged with education of the natives.

Today, every community has its own grade school; in the Indian and Eskimo villages they are still run by the Indian Affairs Bureau. (For students in smaller communities without high schools, the territorial government pays tuition to city high schools.)

About 33,000 students were enrolled in elementary and secondary schools in 1956-57. Of these, more than 6,000 were native or part native children who lived in areas accessible to these schools. For most of the other native children, the Alaskan Native Service operated 80 day schools with an enrollment of 3,659. A native child who moves into a territorial school district is immediately enrolled without any fuss.

It is unlikely that prejudice against natives will increase in Alaska under statehood. It is unlikely if only for the reason that while the native population, in 1939, was about 32,500, the white population 72,500, today the native population has increased by less than 10 per cent, the white population by about 250 per cent. Thus the native appears to be a smaller and smaller factor in Alaskan life.

The bulk of Alaska's white population is close to being a cross-section of Americans from the other 48 states. There is far more than the usual smattering of Americans with Scandinavian names, however — for some years Sven Petersen was the John Smith of Alaska.

Among all the whites of Alaska, there has always been a healthy state of democracy, among rich and poor, among people of many

religious and ethnic backgrounds. Democratic traditions developed naturally in a long undeveloped country where the skills and talents of all people were needed.

For example, through the years, Jews have always found Alaska hospitable. Few in number, they have managed to prosper while making unusual contributions to the territory.

The names of some of Alaska's Jews are prominent in local history. Lewis Gerstle came to Alaska in the last century — from Bavaria by way of San Francisco — and with his brother-in-law, Louis Sloss, founded the important Alaska Commercial Company as well as trading posts, schools, and churches throughout the territory. Robert Bloom came from Ireland

sixty years ago to become one of Fairbanks' first citizens. Edward Seldenberg was mayor of Nome in 1936 and 1938; Isadore Goldstein was six times mayor of Juneau; Z. J. Loussac, who started out as a prospector and trader, became a mayor of Anchorage, president of its chamber of commerce, and chairman of its war bond drives, among other civic posts.

Ernest Gruening was for many years governor of Alaska and a moving force in bringing Alaska to statehood. Now, at the age of 71, he is a candidate for the United States Senate.

All its people, Christian and Jew, native and non-native, have a stake in Alaska's future. This is a unique society which, despite its ranch houses and television sets, tiled baths and swimming pools, is still in a pioneer state. And, for all of them, the important history of Alaska is still to be lived before it can be written.

(From the ADL Bulletin of the Anti-Defamation League of B'nai B'rith.)

BOARDING HOUSE

OUT OUR WAY

Novels Written 25 Years Apart

'Christ in Concrete' Author Plans to Keep on as Bricklayer

By CLAIRE COX
NEW YORK (UPI) — Pietro di Donato is back on the literary scene — just 25 years after writing his first novel, the best-selling "Christ in Concrete."

He spent the first five years of his spectacular depression days' success on what he called a "wine, women and song" spree.

By 1938, every cent of his \$100,000 literary fortune was gone. With publication next month of his second novel, "This Woman," Di Donato hopes to ride the crest of literary fame again.

He also plans to stick to his trade of bricklaying.

"It's a great satisfaction to be able to do something with your hands and at the same time mould ideas with your brain," an older and wiser Di Donato told United Press International in an interview.

He was a carefree young bachelor of 22 when he wrote "Christ in Concrete," an autobiographical novel about the construction industry.

Today he is a ruggedly handsome man of 47, who has settled down to life in suburbia with a wife and three children. Novel No. 3 will be ready to roll soon after Ballantine Books brings out "This Woman" on Dec. 9.

Di Donato said that after his playboy days came to an abrupt end, he had a difficult time getting established again in the bricklaying trade he had entered at 12 when his father died in a construction accident.

Now that Di Donato has his union card back, he plans to hang onto it, no matter how well his novels sell. Working as a day laborer keeps him in good physical and mental shape, he said.

"The man in overalls will always be much more interesting than the man in the gray flannel suit, because he lives directly. The man in the gray flannel suit is too much of a conformist. The working man has great freedom. He is not ashamed of what others call vulgarity. He is not ashamed to express himself."

"I can tell you this, if this book is a success, a lot of girls will be wanting to marry bricklayers."

A Broken Heel Cause of Crash —Kathy Crosby

HOLLYWOOD (AP)—Bing Crosby's wife blames a broken high heel for an auto collision that hurt her and sent another motorist to a hospital Wednesday.

A few hours earlier the crooner's son, Gary, was involved in a similar rear-end smashup. Police said Mrs. Crosby's powder blue sports car struck the rear of a car stopped at a traffic light and knocked it 75 feet.

Mrs. Crosby — actress Kathryn Grant, 23, who presented Bing with a son three months ago — suffered a cut chin, other minor injuries and shock. Another motorist took her to a doctor.

She told police that when she tried to apply the brakes, the heel of her shoe broke and she pushed the accelerator.

The driver of the other car, Herman Magad, 60, Los Angeles, complained of back and head injuries. He was taken to Hollywood Receiving Hospital.

A car driven by Gary, 25, eldest of Bing's five sons, was in a collision in Beverly Hills Tuesday night. He was not hurt.

Marie McDonald's Ex to Wed Cohn Widow

HOLLYWOOD (AP)—Movie producer Harry Cohn's widow, Joan, and millionaire shoe manufacturer Harry Karl are going to be married in January.

Mrs. Cohn disclosed the date Wednesday. Cohn died last Feb. 27, leaving his widow a fortune. Karl formerly was married to actress Marie McDonald.

WINS OVER HANDICAP — Losing all his limbs save his right arm in an accident with a corn picking machine, courageous Earl Wilkerson didn't lose his spirit. Aided by the state vocational rehabilitation program, he now holds down two jobs in Memphis, Tenn. Wilkerson operates a radio and TV repair shop and also helps out at a nearby service station.

Latest Coldwater Report Rules Out Mistreatment

LANSING (AP)—Investigation of a patient's death at Coldwater State Home and Training School uncovered no evidence of abuse or mistreatment, the State Mental Health Commission reported today.

The five-member commission, headed by Dr. Harry E. August of Detroit, issued its findings in a 14-page report on the Oct. 8 death of Joseph Kibloski, 45, of Bronson.

The death touched off an investigation by a House committee, headed by Rep. Harry J. Phillips (R-Port Huron), which is checking into operation of Michigan's mental hospital system.

Phillips said his three-day probe indicated Kibloski had been badly abused. He died less than two weeks after admission to the institution for mental retardation.

The commission cited results of an autopsy which showed the patient died of a long-standing kidney condition. It was performed by Dr. Arthur A. Humphrey of Battle Creek and Dr. Robert C. Hendrix, associate professor of pathology at the University of Michigan.

The commission acknowledged it was "quite appropriate" for the Phillips committee to conduct its investigation. But it criticized its methods.

"Those who conduct such reviews and investigations have a responsibility to do so in a calm, objective and thorough manner, but premature accusations based on emotionalism rather than fact is the essential difference between destructive as opposed to constructive investigation," it said.

"It is tragic to frighten the public and undermine its confidence in our mental hospitals by overpublicizing those instances where mistreatment is alleged and not confirmed. The very great distress, even panic, that such action creates in the families and relatives of our more

than 30,000 patients is both unwarranted and inexcusable."

Kibloski, who had trouble walking, was assigned to a bed in the second-floor of a patient cottage soon after admittance. On several occasions, the commission's report

Kennedy in Hollywood
for Godfather Role

LOS ANGELES (AP)—Sen. John F. Kennedy (D-Mass.) is here to act as godfather of the daughter of his sister, Patricia, and actor Peter Lawford.

The Lawford's baby, Victoria, was born on election day, Nov. 4, and was named in honor of the senator's re-election.

Kennedy flew in Wednesday night from Alaska, where he had been campaigning for Democratic candidates in Alaska's Nov. 25 election.

Constable Sentenced
in Gambling Cleanup

SPRINGFIELD, Mass. (AP) — Mayor Thomas J. O'Connor Jr. ordered police to crack down on gambling activities.

One of the first men arrested was Pasquale C. Calabrese, 25, a city constable.

He was convicted in district court of registering and accepting bets and sentenced to a month in the House of Correction.

11 Muscle Men Up a Tree Hoping to Be Tarzan XIX

By BOB THOMAS
AP Motion Picture Writer

HOLLYWOOD (AP) — Eleven movie muscle men are up a tree fretting over which one will be elected the screen's Tarzan XIX.

I mean literally up a tree. At least they were the other day when the 11 hopefuls reported to the World Jungle Compound to pose for photos and movie tests.

Another fellow who's fretting is Sy Weintraub. He's the new producer of the longest-running movie series; he has to decide which fellow wins the job, before he took off for Europe to see three foreign possibilities. "I sat with him while he watched the screen tests."

One by one, the lads stalked through the brush, peered around furtively, stopped to pick up a piece of evidence and then uttered the famed Tarzan yell.

Weintraub cited three or four who will be in the final running.

Canada Recalls 1st Plane Flight

Aircraft Industry Plans
Golden Anniversary
Celebration in 1959

WASHINGTON — It was a cold, gray morning on frozen Baddeck Bay, Nova Scotia. The 150 persons who had come out to see the marvel were wrapped in wool and anticipation.

A horse towed into position a flimsy-looking contraption resting on three wheels. It was the Silver Dart, a biplane that was to attempt the first airplane flight in Canada.

While the skaters tried to keep pace, the machine rolled forward, lifted itself, and flew half a mile across the ice.

WITNESSED BY BELL

Following in a horse-drawn sleigh was a figure that resembled Santa Claus, his white beard flowing in the wind. He was Alexander Graham Bell, inventor of the telephone, and a pioneer in powered flight. The Silver Dart was a product of the Aerial Experiment Association, formed by Dr. Bell and four young associates—F. W. Baldwin, John A. D. McCurdy, Glenn H. Curtiss, and Lieutenant Thomas E. Selfridge.

McCurdy was at the controls when the Silver Dart achieved its history-making flight. The date was February 23, 1909, six years after the Wright brothers skidded aloft from a sand dune in North Carolina.

From the biplane's start has grown an industry that now adds more than a half billion dollars a year to Canada's national product. In 1959, the aircraft industry will mark its golden anniversary with a year-long celebration.

Nine types of planes are currently produced, and three more are being tested. Among them is the delta-wing Avro Arrow, a supersonic interceptor in the prototype stage.

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

Michigan and Michigan State are in disagreement over the proposed round robin schedule for the Big 10 conference.

This comes as a surprise in-as-much as athletic director Biggie Munn told football writers at the start of the season that MSU would hardly favor a conference round robin as was suggested and supported by Iowa.

Munn said at the time he would favor possibly a 7-game round robin with conference schools plus three additional games with inter-sectional rivals.

This naturally would mean playing 10 games instead of the nine played by the conference schools at this time.

However, just recently the MSU athletic council instructed faculty representative Dr. Harold Tukey to vote for the round robin when it comes up for a vote in December.

This would mean MSU favors playing all nine conference foes. The question is — could the athletic council and Biggie Munn be at odds?

It seems strange that Munn would publicly voice an opinion against the proposal and suddenly the athletic council makes public its decision in favor of it.

Over at Ann Arbor, Prof. Marcus L. Plant, Michigan's faculty representative is known to have sharply criticized the round robin proposal.

Plant said in a printed story that the round robin in such conferences as the Ivy League and Pacific Coast Conference "has been a major cause of current disintegration."

Under present rules Big 10 conference members are entitled to play at least six games with other league members.

"The proposed change would mean giving up our football contacts with the rest of the country," said Plant, "such provincialism would be most unfortunate for Michigan."

We agree with Professor Plant. Adding a 10th game, thereby leaving only one game to be played by each team intersectionally could be disastrous for the Big 10.

Right now the Big 10 proves each year it is the number one football conference in the country, and much of the basis for the claims lies in the showing conference teams make against East, West, Southwest, Southeast and other conferences.

Many top inter-sectional games and traditional rivalries with Army, Navy, Notre Dame and other schools would fall by the wayside.

One can see the logic of having each team play the same number of league games. This is not the point of argument.

If the Big Ten pushes itself strictly into Midwest section it would certainly be waiving its prestige nationally.

A seven or eight team conference could apply the round robin more easily with each team getting from two to four non-conference schools on the schedule.

But for the Big 10, it could be a downfall. Should the proposal pass, it would go into effect in 1965.

200 Wrestling Fans Chase 'Villain'

SAN JOSE, Calif. (AP)—When Fritz von Goering plays a bad guy, he plays a bad guy. Fritz is a wrestler—the kind they love to boo. But last night the fans in San Jose Civic Auditorium did more than that. They chased "the villain" right into the street.

The bad guy had one friend, fellow grunt and growler Clyde Steeves, who was slashed in the arm while protecting his buddy from a knife-wielding fan.

The troubles of Fritz—and Clyde—began when von Goering and his good guy opponent, Nature Boy Rogers, started chasing the referee down the aisle.

Up strode an unidentified fan, a sneer on

his face and a knife in his hand. Steeves, sitting in the audience, jumped up to block the knife thrust. He got it in the arm.

Then about 200 of the 2,000 or so spectators took out after von Goering. Nature Boy, taking no chances, decided to sprint too. Steeves trotted to a hospital.

Unable to catch the villain—or even the hero—fans started bashing each other in a wild melee in the parking lot. Police broke it up before any damage was done.

They are still looking for a man with a knife and two wrestlers, a good guy and a bad guy.

The grapevine is getting more slender each week, but Swami Cornwell keeps pushing his lead to the presidency by bigger margins.

Swami Kearns tried a desperation move by going with all the underdogs last week but even that didn't help. Seems when you pick an underdog to be a favorite he stays an underdog, but when you favor a favorite it turns out he's not a favorite after he gets walloped by the underdog. Understand? Nope, we can't even repeat it.

So as the season dwindles our list becomes full of strange names.

PCH Must Contain Flint's Speed

2 Area Boys Listed 12 Hillsdale Gridders Dismissed From Squad

HILLSDALE (AP)—Hillsdale College coach Frank (Muddy) Waters today dropped 12 players, three of them starters, from the football squad on charges of drinking.

Waters said the players voluntarily turned in their uniforms when he told the team he understood some of the players had broken training.

He indicated other dismissals may follow.

The Dales, co-champions with Hope and Albion of the Michigan Inter-Collegiate Athletic Assn., have one remaining game, a non-conference contest with Northern Michigan.

The Dales, 6-2 for the season so far, clinched a share of the MIAA crown last week with a 32-6 triumph over Adrian.

They were champions of the MIAA the four previous seasons. The three starters dropped from the team were tackle Jerry Snyder, a junior from Redford; guard Paul Christo, a sophomore from Grosse Pointe, and end Jerry Taylor, a junior from Walled Lake.

Others dropped from the squad were: Tackle Ben Schapanick, a freshman from Larchmont, N.Y.; guard M. D. O'Meara, a junior from Hillsdale; guard Bill Kendall, a sophomore from St. Charles; tackle Doug Hales, a freshman from Waterford; back Frank Stawinski, a junior from Detroit; back Ron Hughes, a freshman from Bay City; back Mike McClintic, a freshman from Tecumseh; back Jerry Baunier, a sophomore from Saginaw, and back Dick Maurer, a freshman from Battle Creek.

Waters said Murdo MacLean would replace Snyder, Gene McFadden would replace Christo and Clay Roth would replace Taylor in the starting lineup against Northern Michigan.

Northern Michigan has a 5-4 record.

Waters said: "Several players came to me yesterday and told me this drinking has been going on. They didn't tell me any names, just that it was happening."

"At practice I told the team what I'd heard and asked the players who had been drinking to turn in their uniforms voluntarily."

"These 12 came to me after practice and turned in their uniforms."

"The drinking was individual, I think — I mean there wasn't a drinking party that led to the dismissals."

"Some of the violations were pretty slight. One player turned in his uniform and said he had had only one glass of beer."

The dismissals left the Dales with a squad of 41 players.

BASEBALL IN SEASON — In South America baseball is still in season. Here touring Major League players including Gus Triandos of Baltimore, Elston Howard of the Yankees and Bob Friend of the Pirates give a few baseball pointers to American kids in Caracas, Venezuela.

Swift Indians Are Explosive and Versatile

Chiefs Conclude Season Friday Against Central at Wisner Stadium

PCH (4-4)	FLINT CENTRAL (4-4-1)
26 Waterford	0
40 Wyandotte	13
19 Ferndale	13
0 Arthur Hill	27
12 Saginaw	13
6 Northern	33
6 Melvindale	13
7 Bay City	34
117	148

By BILL CORNWELL

Speed and plenty of it will be the major problem for Pontiac Central's football team when undefeated Flint Central comes to town Friday.

The Chiefs collide with the fleet-footed Indians tomorrow night at 8 o'clock in a Saginaw Valley Conference game at Wisner Stadium in their final grid outing of the 1958 season.

Central brings to this city an exceptionally swift squad and the highest scoring unit in the school's modern history, which dates back to 1928 when Saginaw Valley competition began.

Pontiac, a giant underdog, must contain a corps of fast-stepping backs to realize any small chance for one of the year's greatest prep upsets.

The Indians, with only a tie to mar their record in seven games, are both explosive and versatile. They have amassed 41 touchdowns this fall, 30 of them on the ground.

Their high-powered attack has netted them an average of 421 yards per game in total offense with the running assault averaging 205.8 a contest.

Some of Central's individual facts and figures are almost frightening.

Halfback Ron Watkins, who has been clocked at 9.9 in the 100-yard dash, has gained 862 yards in 82 attempts for a phenomenal 10.5 average. Watkins is the Valley's leading scorer with seven touchdowns and 16 altogether and he has caught three TD passes.

Art Thrash, the other halfback and another speedster, has juggled the ball 68 times and picked up 471 yards for an average of nearly seven a carry. Thrash has scored nine TDs overall and five in the SVC.

Jerry Jellis, Central's No. 1 quarterback, has thrown the pigskin 33 times and completed 16 for 353 yards and five touchdowns. He seldom carries the ball, but has accounted for 55 yards in 14 tries.

Carl Jackson, who was the 1st string quarterback when the season started, has completed 17 out of 35 passes for 491 yards. Six of his aerials have gone for TDs.

Jackson was injured early in the 13-13 deadlock against Bay City Central and he has been unable to regain the starting quarterback position from Jellis.

The high-scoring Indians have tallied a total of 265 points, more than any previous Flint Central team.

Central's top point production prior to this season came in 1947 when the Indians compiled 218 while posting a 9-0 record and winning the mythical state Class A title. Don Coleman, later an All-America tackle at MSU and now an assistant coach for the Indians, was a member of that squad.

Turley Named Pitcher-of-Year

Yankee Hurler Wins Cy Young Pitching Award

Bullet Bob Is Winner Despite Only 5 Votes for First Place

BOSTON (UPI)—Bob Turley of the New York Yankees won the 1958 Cy Young award as the Major League pitcher of the year by virtue of a split ballot.

Ten of the 15 voting members of the Baseball Writers Association of America voted against the New York hurler but failed to get together on a single candidate.

As a result, Turley wound up with five votes while the other 10 votes were divided among three National League pitchers. Warren Spahn of the Milwaukee Braves, last year's winner, received four votes to finish second. Lew Burdette, another Milwaukee pitcher, and Bob Friend of the Pittsburgh Pirates, attracted three votes each.

When notified he had won the award, Turley broke his usual midwestern calmness to say, "Hey, that's wonderful news. You always like to win an award like that one."

Turley, a native of Troy, Ill., who now lives at Lutherville, Md., hinted that the award may be used to better his financial position. "This should sound pretty good when I come to New York to talk contract," he said.

The award paid tribute to the 215-pounder's greatest season in baseball, which reached its high tide in the World Series when he kept the Yankees "alive" with a fifth game, five-hit 7-0 shutout.

He stroled from the bullpen in the sixth game to wipe out the last Brave batter for a 4-3 victory and pitched 6 2/3 innings of two-hit relief in winning the series-deciding seventh game.

But the quiet Turley won the award for his regular season play, in which he won 21 games and lost seven. He started 31 games and completed 19. He pitched two one-litters and six shutouts.

The Yankees acquired Turley in their controversial 18-player trade with the Baltimore Orioles in November 1954. That was the trade that also sent World Series perfect game pitcher Don Larsen to the Yanks. Yankee general manager George Weiss labeled it his best deal in a decade.

But it was not until the 1958 season when Turley acquired a sharp-breaking curve to accompany his striking speed. Credit for the "new Turley" is freely given by Bob to Harry Brecheen, his coach with the Orioles, and Yankee pitching coach Jim Turner.

"Brecheen taught me how to live like a big leaguer and Turner taught me how to pitch like one," he said recently.

Previous winners of the Cy Young award were 27-game winner Dodger Don Newcombe in 1956 and 21-game winner Spahn in 1957.

SPORTS

Perry in Form for 49ers

Lions Are Favorites

DETROIT (AP)—The San Francisco 49ers and the Detroit Lions, looking none like the two teams who met last December for the Western Division football championship, clash again here Sunday.

The 49ers have a 3-4 record and the Lions are 2-4-1, but the Lions have one advantage gained over the past week: They have started to look like a good-ball club.

The 49ers have gone the other way, losing last Sunday 56-7 to the Los Angeles Rams in the worst defeat in 49er history.

But Joe (The Jet) Perry, who rushed for better than 150 yards against Detroit in the two clubs' last meeting two weeks ago, had a respectable day against the Rams, rushing for 91 yards in 11 carries.

"He looks like the Perry of old," said Frisco publicist Dan McGuire. "He reported 13 pounds lighter this year and he's been tremendous. Right now he's only 13 yards short of his total yardage for last season."

Another fine Frisco back is Jim Pace, the rookie from Michigan.

"In the last two or three games he has started to look like the player we thought he was when we made him our No. 1 draft choice," said McGuire.

Pace wrecked the Lions with Perry's help two weeks ago. The score was 24-21.

The 49ers have not won a game in Briggs Stadium since 1953.

Wings on Road in 7 Contests

DETROIT (AP)—The Detroit Red Wings are in fifth place in the National Hockey League and must play seven of their next eight games on foreign ice.

They meet the Boston Bruins tonight, play Toronto on Saturday and in Chicago on Sunday.

The Wings return home for a Tuesday night game against Boston then go back to the road for four games. On this trip, longest of the season, Sid Abel's team will visit every city except Chicago.

Detroit has only two victories away from Olympia Stadium this year.

Capt. Gordie Howe has been hobbling on an injured right ankle, but worked out yesterday and made the trip. General manager Jack Adams said Howe will be able to play, but not at full speed.

Battle Looming in Gator Bowl

JACKSONVILLE, Fla. (AP)—The Gator Bowl selection committee is leaning toward a game between a Southeastern Conference team and one from the East, chairman Sam Wolfson said yesterday.

That could mean Georgia Tech vs. Pittsburgh in the Dec. 27 football game. They met two years ago in one of the best Gator Bowl games ever played. Both have won 5, lost 2 and tied 1 with two more to play.

Football Team Reveals Speed

ATCHISON, Kan. (P) — The undefeated and untied football team of St. Benedict's (8-0) scored again yesterday when they turned firemen and saved the home of John Savory.

Near the end of practice and with darkness closing in, the players heard a couple of students yell "fire." They saw flames and smoke coming from the first floor of the Savory's home a block away.

Rushing to the house — the family was away — they quickly extinguished the fire.

One player quoted St. Benedict's Coach Ivan Schottel: "Best team speed you guys have shown all season."

No Dodger Players Have Signed Pacts

LOS ANGELES (P) — Not a single Dodger player has signed a 1959 baseball contract, the club disclosed Wednesday, because Vice President Buzzie Bavasi wanted a cooling off period after the dismal 1958 season.

Bavasi said that ordinarily he'd have at least 15 players signed by this date, "but after we finished seventh I was so mad that I didn't dare discuss contracts until I cooled off."

"I was so mad," he added, "that I was ready to cut a couple of guys' salaries by 25 per cent, which is as much as the law allows. And some other fellows would have been hurt, too."

Several Old Rivals Tangle Friday

By CHUCK ABRAHAM

Friday will be the final big football day of the 1938 prep season and it could develop into one of the most interesting.

Although the Eastern Michigan League is the only unsettled loop, tomorrow's many battles between old rivals are certain to make more than make up for the lack of big crucial title duels.

Avondale at Rochester, Southfield at Birmingham, Royal Oak Kimball vs. Dondoro, Wayne at Waterford, Holly at Lake Orion, Orionville at Clarkston, Utica at Romeo and Bloomfield Hills at Oak Park are some of the top attractions on tap around the Oakland County area.

Port Huron is expected to clinch the EML flag by beating winless Hazel Park at home while East Detroit attempts to wrap up 2nd place by downing Ferndale at home. Birmingham could gain a share of the crown with Port Huron should the Big Reds and East Detroit lose.

It is impossible to pick any one top game tomorrow with so many of the foes evenly matched plus the fact that records mean so little in rivalries.

Rochester is rated a slim choice over Avondale despite an up-and-down season. The Falcons defeated Romeo which tripped Avondale early in the season before the Yellowjackets got rolling. Both lost to unbeaten Lapeer with Rochester more im-

pressive. Avondale has won four straight and the Oakland B crown since that setback.

Southfield and Birmingham have had good seasons although the Bluejays dropped out of the Inter-Lakes race early. Each school figures a Friday triumph would make it a big year. They have had two common foes. Southfield tied RO Kimball which downed Birmingham last week but the Maples defeated Ferndale by a wider margin.

The Kimball-Dondoro tussle certainly rates in the tossup class as do Utica-Romeo and Bloomfield Hills-Oak Park.

Identical 6-1-1 records help make the Royal Oak clash a dilly. The absence of identical foes for comparing scores adds to the confusion there.

Romeo and Utica will be going all out to finish at .500 or better besides the chance to close with a prestige triumph over a familiar opponent. Each has played strong football at times during the past two months but not consistently.

Bloomfield Hills can climax a fine comeback year by dumping Oak Park. The Barons have lost only to West Bloomfield in five starts since losing their 1st two. Ray Kovachevich and his Oak Park mates need a victory to finish at .500.

Waterford could avoid a completely disastrous slate by whipping traditional final game rival

Wayne. A victory would better the 1937 record and a tie would match it.

Clarkston is another eleven hoping to save face somewhat by winning a final against a nearby school. A healthy Bob Forritt should make the Wolves the pick for their 3rd victory.

Lake Orion has been the flop of the county winning only one of seven following an unbeaten year but Holly has not been too much better despite three wins.

The 1st Central Suburban championship will be decided tomorrow afternoon with Country Day host-

ing Lutheran East. Lapeer should add some icing to its Tri-County championship cake by walloping L'Anse Creuse.

Other games will have Center Line at Van Dyke, Roseville guest of Fitzgerald, Howell at Northville and Swartz Creek visiting Im-lay City.

The Wayne-Oakland championship will actually not be determined until Nov. 21 when Northville is at home against Clarenceville in the last grid game of the year involving area teams. A Clarenceville upset, which is very unlikely, would give West Bloomfield a tie for the top place.

Snead Favorite at Havana

HAVANA, Cuba (UPI) — Sam Snead was listed as the man to beat as 40 professional golfers started matching strokes today in the \$45,000 Havana Open — the world's wildest betting golf tournament.

Because gambling is legal on this sun-drenched island, the swank Villa Real Club looked more like a race track than a golf club for this unique 72-hole event.

A betting board was set up on the grounds and listed the odds of all the competitors. The minimum bet was \$5 and it was possible to back a player to finish first, second, third or fourth. An "across the board" wager cost \$20.

Snead, although now 46 years old, earned the favorite's role on the basis of several good practice rounds over the par-70 course. The West Virginia shotmaker was 4-1 to win, 2-1 to finish second, even-money to finish third, and 1-2 to finish fourth.

Bill Casper Jr. of Chula Vista, Calif., was the second choice at 6-1 and Dow Finsterwald of Tequesta, Fla., was the third choice at 8-1. Julius Boros of Mid Pines, N.C., winner of last week's Carling Open at Atlanta, Ga., and Tommy Bolt of Houston, Tex., both were pegged at 10-1.

The longshot bettors were offered 50-1 on the chances of five other American pros—Low Worsham, Claude Harmon, Howie Johnson, Chick Harbert and Mike Fetchick.

Snead, in addition to being installed the betting favorite, also attracted the highest bid of \$5,500 in the Calcutta pool. Bolt was sold

for \$4,000 and Finsterwald attracted a \$3,500 bid.

A Pro-Amateur event will be conducted during the first two days of the tournament, with the professional scores counting toward the championship proper.

Imperial League Women Hit 2642

The league-leading women's Huron Bowl entry in the Imperial loop came up with a 916 game and 2642 series paced by Shirley Pointer and S. Marlon.

Pointer had the top series of 538 featuring a 211 game. Marlon rolled a 219 game. M. Young hit 218 and M. Reynolds 209. Roches-ter Lanes turned in a 2541 series.

U.S., Japanese Share Net Wins

TOKYO (AP) — Japanese Davis Cuppers for the first time split sets with America's 1958 doubles champions in an exhibition good-will tennis match Wednesday.

Japan's Atsushi Miyagi and Yoshihisa Shibata lost the first set 6-4 against American Davis Cuppers Hamilton Richardson and Alex Olmedo, and won the last 10-8.

The Yankee pair last Saturday trimmed the Miyagi-Shibata team 6-2, 6-3, to cap the doubles championship in the All-Japan Tennis Tournament.

Army Will Not Play in Bowl

WEST POINT, N.Y. (AP) — Army is not going to play in any post-season football bowl games regardless of its record.

Lieut. Gen. Gar Davidson, superintendent of the U.S. Military Academy and former head football coach at West Point, yesterday put a firm and official stamp of disapproval on post-season games by the Cadets.

The Cadets were under consideration by several bowl selection committees.

In statement very much like the one he issued a year ago, Gen. Davidson said:

"The superintendent cannot view with favor any post-season game for the Army football team, under any conditions. The regular nine-game schedule produces all the benefits which can reasonably be sought from the playing of inter-collegiate football and keep the game within normal proportions."

Cardinals Take 11-2 Lead Against Japan

MITO, Japan (AP) — The St. Louis Cardinals, sparked by outfielder Wally Moon's two-run homer, crushed the Japan All-Stars 5-1 before 20,000 today to take a 11-2 lead in their 16-game tour.

The Cards pounded three Japanese pitchers for eight hits, including four singles by second baseman Don Blasingame. Right-hander Bob Blaylock, who went the distance, yielded only six scattered hits and fanned five.

Blaylock held the Japanese scoreless until the ninth when he yielded a run on a walk, single and a double. Catcher Gene Green also homered for the Cards.

Ottawa Dumps Alouettes

MONTREAL (AP) — Ottawa came up with a magnificent ground display Wednesday behind the superb quarterbacking of Russ Jackson and smacked down the Montreal Alouettes 26-12 in a Big Four pro football semifinal game.

The Riders now will meet the Hamilton Tigers-Cats in the final, a home — and — home, total — point series.

Minnesota Was Last Spartan Big 10 Victim

Both Coaches to Gamble on Sophomores in Try for Victory

EAST LANSING (AP) — Answer real quick! When was the last time Michigan State won a Big Ten football game?

If you didn't come up with the answer right away, don't feel bad about it.

It was quite a while ago. Just about a year ago, on Nov. 15 to be exact, when the Spartans beat Minnesota here 42-13.

The year has swung through its full cycle. Michigan State is going into its last Big Ten game of 1958, still looking for another conference win.

Once again Minnesota is the opponent, this time at Memorial Stadium in Minneapolis. The Gophers, meanwhile, have dropped eight in a row in the league. The last Minnesota conference victory was against Indiana mid-way in the 1957 season.

Minnesota hasn't won a game all season. Michigan State, after beating California and Pittsburgh, tied Michigan then lost its next four conference games.

Both Michigan State and Minnesota have lost some close ones and insist they are not as bad as the records might indicate.

Both have been plagued by injuries and hurt by lack of a quarterback able to move the team consistently.

The loser of this one will go to the cellar spot in the conference standings.

Both Minnesota's Murray Warmath and Duffy Daugherty of Michigan State are gambling heavily on sophomores — not only because the regulars have failed to come through but also trying to develop game experience for a better year in 1959.

Minnesota plans to start a sophomore quarterback led by quarterback Larry Johnson. Sophomore Tommy Wilson is slated to start at quarterback for Michigan State.

In another series of position shifts, Daugherty has moved Greg Montgomery from quarterback to left half. Montgomery was number two quarterback most of the season and started a couple of games.

Montgomery now is being alternated at second string left half-back with Al Luplow and may see action to spell starter Dean Look.

Waterford Jayvees Complete 3-2-2 Year

Finishing up with an impressive 19-2 conquest of Lapeer, the Waterford High junior varsity football team compiled a 3-2-2 season record.

The young skippers defeated InterLakes foes Farmington and Berkley by wide margins, lost to Walled Lake and Southfield and tied Pontiac and Van Dyke. Waterford scored a total of 96 points while allowing 46.

'M'-Indiana Last in Statistics

Michigan 10th With Weakest Defensive Unit

Hoosiers Show Poorest Offense but Still Own 3 Straight Wins

ANN ARBOR, 10 — The Big Ten's weakest defense encounters the conference's weakest offense when Michigan takes on Indiana Saturday.

Michigan is ranked 10th in conference defensive statistics. Indiana is last in Big Ten offensive statistics.

"But Indiana's offense is aggressive," said Michigan's coach Bennie Oosterbaan. "It's better than it looks. It's more diversified than it has been in years."

The Hoosiers' sputtering single wing has averaged only 135 yards rushing in each of their four conference games. Their passing yield has been a paltry 36.5 yards.

"We don't have a passer," said Indiana advance man Tom Miller. "Last week we threw only twice against Michigan State."

The Indiana offense did little in the 6-0 victory over MSU. The Hoosiers' touchdown was scored on Earl Fison's 32 yard run with a blocked field goal attempt.

But Indiana is thrilled by its football comeback — three straight victories. In only one has an opponent crossed the Hoosier goal line.

"For the first time in years people down there weren't talking about basketball by the first week of October," Miller said.

The Wolverines, despite their decline and the Hoosiers have won three, two of them by shutouts in the last two weeks. Indiana hadn't blanked two straight opponents since 1937.

"We're in our worst shape of the season," Oosterbaan said yesterday. "It doesn't look now that Darrell Harper can play Saturday."

Harper's pulled leg muscle has been slow to come around. Brad Myers now is a definite starter at left halfback with Reid Bushong also shelved.

Bloomfield Jayvees Finish Unbeaten

A 7-6 victory over Clarkston Tuesday enabled the Bloomfield Hills High school Jayvee football team to finish unbeaten in seven games.

Fred Jaynes scored the touchdown and Ron Gilchrist ran the extra point that clinched the final triumph.

The Little Barons averaged three touchdowns a game with a total of 21 while downing six other Wayne-Oakland League schools and South Lyon. Clarkston's TD was only the 3rd given up by the charges of Hal Trott.

'DERBY' CHAMPS — Here are the 1938 "pheasant derby" champions and their winning entries. Left is Paul Pace, Bloomfield Hills, whose 40 1/4-inch bird was the longest. Final con-

test entry, that of Leonard Skaggs, right, of Pontiac was the heaviest at 4 pounds, 2 ounces. Pace wins a \$25 U. S. bond, Skaggs a \$50 bond.

Last Pheasant Entry Wins 'Derby'

By H. GUY MOATS

The last entry for the Pontiac Press "big pheasant derby" pushed the first entry of the 1938 contest clear out of the picture yesterday, as deadline for entries was reached.

Fifteen-year-old Gene Coe, 2360 Joy road, entered a 3-pound 12-ounce rooster opening day. The Pontiac Northern High youngster's pheasant hung on to the leadership until Wednesday morning. No entry has come closer than three on four ounces of challenging.

Then along came Leonard Skaggs, 38 North Jessie, Pontiac, with a 4-pound 2-ounce husky ringneck. Skaggs, this year's city horseshoes champion and a former winner of The Press-

"derby," downed his bird near Highland late Monday afternoon, closing day of the season.

Skaggs' entry was the last received by closing time.

A U. S. Savings Bond for \$50 will be presented the new champion.

Winner of the "long bird" award is Paul Pace, 5060 Lone Pine road, Bloomfield Hills. Pace's 40 1/4-inch had to stave off some hot competition on the last few days of the contest. Darrell Bordin of Rochester entered a 40-inch first of the week, just missing a share of the honors.

Pace will receive a \$25 bond. His winning ringneck was taken on a weekend trip Oct. 25-26,

near Mariette. He was this year's Michigan shotgun champion, winning the title at the annual all-around shoot at the Williams Gun club.

There were many birds entered in the contest, but the average weight fell considerably below other years.

Grain Setbacks Mostly Small

CHICAGO (AP)—Weakness seeped through the grain futures market today in early dealings on the board of trade.

Except for a few contracts, notably corn, the setbacks were mostly in small fractions of a cent and reflected more a limited commercial demand than a significant bearishness.

However, some traders said the new government estimate of corn production did cause at least some small liquidation.

Soybeans firmed up a bit after the initial weakness. Near the end of the first hour wheat was unchanged to 1/4 cent a bushel lower, December \$1.95 1/2; corn 1/4 to 1/2 lower, December old type contract \$1.12 1/2; oats 1/4 to 1/2 lower, December 65 1/2; rye 1/4 higher to 1/2 lower, December \$1.30 1/2; soybeans 1/4 to 1/2 higher, November \$2.12 1/2.

High School Building Trend Noted in State

LANSING (AP) — There is a definite trend toward high school construction over elementary school construction in Michigan, Lynn M. Bartlett, state superintendent of public instruction, said today.

About one-third of the high school districts in the Lower Peninsula have built new high schools in the last five years or are building them now, he said.

Despite erection of 3,750 classrooms by public school districts in the fiscal year ended last July 1, he said, Michigan needs about 11,000 more classrooms to furnish adequate facilities for all its school children.

State Survey Shows Water Laws Need Revision

ANN ARBOR (AP) — The water what constitutes reasonable use of waterland of Michigan is behind the times in water use laws, say three University of Michigan legislative analysts.

Dominic B. King, Theodore Laurer and Wilbur L. Ziegler list several shortcomings of Michigan's water laws in a chapter of "Water Resources and the Law," published by the university's legislative research center.

Among the shortcomings cited were:

1. Shifting interpretations of
2. Artificial legal barriers limiting water use to those owning property adjacent to or over water supplies.
3. Failure of the courts to furnish unified direction in water law or engage in any comprehensive planning for the future.
4. No answer to the legal question of whether municipalities can use water supplies over the protest of private owners.
5. No answer to the question of who can add polluting matter to streams, rivers and underground water supplies.

Cornell Authorities Expel 3-Legged Dog

ITHACA, N.Y. (UPI) — A three-legged husky owned by a Cornell fraternity has been banished from the campus for snapping at students.

The dog, named Tripod, was expelled despite a plea by the student newspaper, the Cornell Daily Sun, that he be kept.

Members of the Kappa Delta Rho fraternity, where Tripod lived, feted the dog at a banquet before turning him over to his original owner, Roger Burgraff, a former student, who plans to bring Tripod back to his birthplace in Alaska.

Cripple Calls for Help but Wife Can't Reply

DETROIT (AP) — Raymond P. Hebert, 81, a cripple, called vainly to his wife, Harriet, 76, when he slipped and fell helpless on the living room floor yesterday on their basement apartment home.

Police broke in through the locked door after a neighbor reported Hebert's cries.

Mrs. Hebert was found dead in her bed of a heart attack.

Sad Story Unfolded by Private Eye Peek

VENTURA, Calif. (AP) — While a private eye named James Peek was looking elsewhere, someone pried open his parked car and stole \$300 worth of clothing.

Peek, of Los Altos, Calif., said he was in a Ventura night club when the theft occurred.

Woman Suffers Burns

HILLDALE (AP) — Mrs. Virginia Easter, 31, was burned seriously Wednesday in a stove explosion at her home. Police said the woman accidentally threw gasoline on glowing coals in the stove.

Drillers Dread Costly Dry Hole

TULSA, Okla. (UPI) — A "dry hole" once was the dread of every shoestring wildcat. Drilling an expensive hole only to find no trace of oil or gas ruined an individual or a small company in a hurry.

Dry holes are still the bane of the petroleum industry, and the financial problem they present is getting worse, but, for the wildcat, they need not spell bankruptcy.

This is because small and big operators today are pooling the risks of wildcat drilling. Major companies often will agree to stand some of the loss suffered by a neighboring wildcat driller.

If the driller strikes oil, the majors don't get any of the profits. If he goes bust, they figure it's worth standing some of the loss just to find out the oil isn't there.

The Humble Oil Co. of Houston, for example, finds the dry hole offers a perplexing paradox: Unavoidable, enormously expensive, yet necessary to the search for oil.

Last year, dry holes cost Humble nearly 62 million dollars, roughly 13 million more than in 1936. Dry holes cost the entire oil industry about a billion dollars a year — almost 40 cents for every barrel of oil produced. But oil can't be found without drilling for it — and when you drill, the odds are strongly against your finding anything.

In 40 years, Humble has poured half a billion dollars down long, dry holes. That's nearly half as much as the company's total assets today.

Only one hole in nine drilled produces oil or gas. Only one exploratory well in 44 finds a field that will produce a million barrels — the amount needed to supply America a scant four hours of fuel. And anything smaller usually is regarded as uneconomical to produce.

"Teaser" wells sometimes encourage oilmen to throw good money after bad. One example of this was the spectacular Kosee, Tex., gusher in 1923, which spewed oil over the countryside for 36 hours. Eight days later, it sputtered and stopped after producing 38,000 barrels.

NO IMPROVEMENT

Despite advances in oilfield technology, the experts aren't doing any better at avoiding dry holes. In fact, the situation is getting worse. This, coupled with the skyrocketing cost of drilling, is causing concern for the big companies.

In the first 29 years of drilling, dry holes cost Humble less than three million dollars. Now, the company has nine dry holes which cost it more than one million dollars each. The trend is clear. In 1937, dry holes represented only 10 per cent of the drilling costs — in 1937 they soared to 42 per cent.

'I DIDN'T DO IT, FATHER'—George Archer-Shee (Rex Thompson) denies the theft of a five-shilling postal order for which he has been dismissed from the Royal Naval College in England. Believing him, his father pursues the case to the highest court of the land in "The Winslow Boy" on Du Pont's television "Show of the Month" tonight. Frederic March and Florence Eldridge co-star as the parents in this tense drama based on an actual case in Britain during the year 1908.

Famous Case Basis for Story

Florence Eldridge and Frederic March Star in Dramatic Special

NEW YORK — "The Winslow Boy," the 90-minute dramatic special co-starring Frederic March and Florence Eldridge on the CBS television network's Du Pont "Show of the Month," (9:30 to 11 tonight), is based on one of the most celebrated and most battled cases of injustice in British history. Playwright Terence Rattigan faithfully dramatized it, added the behind-the-scenes emotion of the Winslow family's near-deterioration, and scored a hit on both the Broadway and London stages and in motion pictures.

It was in the fall of 1908 that a 13-year-old boy named George Archer-Shee was dismissed from the Royal Naval College at Osborne, in England, for the theft of a five-shilling postal order.

A trivial incident, it surely would have passed unnoticed by the general public had it not been for the righteous indignation of the lad's father, Martin Archer-Shee, manager of a Liverpool bank.

Convinced of the boy's innocence, and incensed at the seemingly callous attitude displayed by the College authorities toward the rights of an individual, the elder Archer-Shee retained the services of one of England's most brilliant attorneys, Sir Edward Carson, and began a two-year struggle to clear young George's name from the stigma of petty thievery.

The Archer-Shee affair became the most talked about case in England, and in July, 1910, it reached one of the highest courts in the land. (Playwright Rattigan, with dramatic license, takes it all the way to Parliament.) Public interest was at a peak.

In the courtroom Carson's devastating cross-examination — of the postmistress who had identified George Archer-Shee and the handwriting expert who had called the signature on the postal order a forgery by George's hand — completely discredited their testimony and won a clear-cut victory.

All the Empire rejoiced that "right had been done." But this fascinating example of the triumph of justice was soon obscured by the clouds of World War I, and the case was all but forgotten by the public whose rights as individuals it had championed.

It remained for playwright Rattigan to recall the incident to the public's attention when, some forty years later, he wrote "The Winslow Boy." And to the court records of the Archer-Shee case he added the equally dramatic story of a family whose love and security is nearly destroyed by the father's determination that "right be done."

Starring as the parents of "The Winslow Boy" in tonight's performance will be the illustrious husband-and-wife acting team, Frederic March and Florence Eldridge, and the vital role of Sir Robert Morton (Edward Carson in the actual case) will be played by the renowned English star, Noel Willman. Siobhan McKenna co-stars as the Winslows' daughter, Catherine. Denholm Elliott plays her fiancé, and young Rex Thompson plays the title role.

Drillers Dread Costly Dry Hole

Major Producers Pool Risks With Wildcat in Hunt for Oil Fields

TULSA, Okla. (UPI) — A "dry hole" once was the dread of every shoestring wildcat. Drilling an expensive hole only to find no trace of oil or gas ruined an individual or a small company in a hurry.

Dry holes are still the bane of the petroleum industry, and the financial problem they present is getting worse, but, for the wildcat, they need not spell bankruptcy.

This is because small and big operators today are pooling the risks of wildcat drilling. Major companies often will agree to stand some of the loss suffered by a neighboring wildcat driller.

If the driller strikes oil, the majors don't get any of the profits. If he goes bust, they figure it's worth standing some of the loss just to find out the oil isn't there.

The Humble Oil Co. of Houston, for example, finds the dry hole offers a perplexing paradox: Unavoidable, enormously expensive, yet necessary to the search for oil.

Last year, dry holes cost Humble nearly 62 million dollars, roughly 13 million more than in 1936. Dry holes cost the entire oil industry about a billion dollars a year — almost 40 cents for every barrel of oil produced. But oil can't be found without drilling for it — and when you drill, the odds are strongly against your finding anything.

In 40 years, Humble has poured half a billion dollars down long, dry holes. That's nearly half as much as the company's total assets today.

Only one hole in nine drilled produces oil or gas. Only one exploratory well in 44 finds a field that will produce a million barrels — the amount needed to supply America a scant four hours of fuel. And anything smaller usually is regarded as uneconomical to produce.

"Teaser" wells sometimes encourage oilmen to throw good money after bad. One example of this was the spectacular Kosee, Tex., gusher in 1923, which spewed oil over the countryside for 36 hours. Eight days later, it sputtered and stopped after producing 38,000 barrels.

NO IMPROVEMENT

TO SAVE YOUR LIFE

WHAT TO DO—Rabies, one of the most dreaded of diseases, is still a serious problem in many countries, reports WHO, the World Health Organization. Sketches above illustrate steps it recommends in the event of a bite by a possibly rabid animal.

Disaster Mines to Shut Down

Nova Scotia City Faces Bleak Future With Loss of \$60,000 Payroll

SPRINGHILL, N.S. (AP)—The 7,000 residents of this hard-luck coal town today faced a bleak future without the \$60,000 weekly payroll from mining.

The Dominion Coal Co. announced Wednesday night it had decided not to reopen the mines which have been Springhill's lifeblood for 125 years. The decision followed the second mine disaster in two years.

"This looks like the knockout blow," Mayor Ralph Gilroy said. The Nova Scotia Cabinet planned to discuss the situation at a meeting today in Halifax. Premier Robert L. Stanfield promised his provincial government "will do all in its power" to help the town. One possibility was operation of the mines by other management. A. C. MacDonald, spokesman for Dominion Coal, said its lease on mine property would be turned over to the government if requested.

The miners' union opposed abandonment of the mines. "I feel Springhill cannot survive without some glimmer of mining," said President Bill Marsh of District 36, United Mine Workers.

Dominion's No. 4 colliery was closed after an explosion in 1956 caused 39 deaths. An underground upheaval in adjacent No. 2 colliery on Oct. 23 killed 74 men.

No. 2 was the only industry in Springhill. Miners drew their last wages Nov. 1.

Man Who Decided to Stand Goes Home

WICHITA, Kan. (AP)—Harry Biltz, who never will sit down again, is headed home from the hospital today after his third operation.

Biltz is the Colwich, Kan., salesman who attracted national attention a few weeks ago when he appeared at a state safety conference. A year ago his sports car hit a stalled truck near Colwich. The ball and socket joint in his right hip was shattered beyond repair.

At the time, Biltz, 31, was trying to decide whether to let doctors fix his bones so they would grow together without a joint at the hip. They said it was the only way they could relieve his constant pain.

The operation was performed Oct. 17.

Surgeons told Biltz he'll be able to walk, perch on a high stool and lie almost normally in bed.

Sues the Barber for Shaving Off Half His Beard

FLINT, Mich. (AP)—Restaurant owner Wayne N. Johnson has filed a \$10,000 damage suit against a barber he accuses of ruining his business trademark.

The suit was filed after Johnson rushed out of Thomas C. Smith's barbershop minus half a beard he had grown since 1955. He said the barber began cutting after he told him to "give me the works."

Johnson's beard had been a topic of conversation since he grew it for Flint's centennial celebration.

See Carpenters' OK to Quit AFL-CIO

ST. LOUIS (AP)—Delegates to the convention of the Brotherhood of Carpenters & Joiners, world's largest craft union, were expected to authorize union leaders today to withdraw from the AFL-CIO.

Up for action was a resolution giving the general executive board power to sever the \$39,000-member union's ties with the AFL-CIO. The resolution apparently will have little opposition.

Some 1,200 of the convention's 2,000 delegates have signed their approval by signing copies of the measure.

The AFL-CIO Executive Council

has notified President Maurice H. Hutcheson it wants to question him about corruption charges made against him by the Senate committee. Last week Hutcheson advised the council he could not appear at the time because of convention preliminaries.

Philadelphia has a 57-foot stretch of cast iron sidewalk that has been in use for 101 years.

Jackson Studies Plan to Buy Bus System

JACKSON (AP)—A plan for municipal ownership of a city bus system is to be studied and drafted by Jackson's transportation advisory committee.

The city commission ordered the study last night as a result of

voter approval in the Nov. 4 election. The committee is to study the present Jackson City Lines with a view toward outright purchase by the city or the operation of some other system. The city presently leases Jackson City Lines.

Akron, Ohio, was named for the Greek word "Akron," meaning high.

Fines Herbes Blended

BOSTON — Fines herbes is a French term for specific combinations of herbs. The basic combination usually contains parsley, chives, and chervil. Fines herbes mixtures are packaged commercially or they can be compounded at home. They are especially good for seasoning vegetables, soups, and salads.

15-PIECES
\$1.00 Holds 'til
Christmas!

★ **FEATURING THE NEW
ELECTRIC EYE LIGHT METER**

**NO SPOILED FILM!
NO GUESSING ABOUT EXPOSURE!**

INCLUDED!
300-foot real can. Keep a complete movie show safe and clean for years.

ADVERTISED IN LIFE

INCLUDED!
Radiant screen
Genuine glass-beaded movie screen that reflects all the brilliance of your movies. Easy to set up and store.

INCLUDED!
Extra 300-foot reel. Keeps movie ready to show.

★ **EASY READING LIGHT METER.** Think of it! A light meter built into the top of the camera measures light for you... tells you lens setting. No figuring — no guessing. You get perfect color movies every time.

★ **KEYSTONE K-20 MOVIE CAMERA** with fast f/2.3 lens. Think of it! A color movie camera so simple to operate that anyone — even a child — can take beautiful sharp, clear/color movies the first time. No learning how — it's all fun, no fuss. Your family and friends will say you're an expert. But you'll say movies with the Keystone K-20 are as easy as snapshots.

★ **EVERY ACCESSORY YOU NEED INCLUDED!** You get the camera, the projector and all the accessories shown in this ad at one low, low price. Carry them home in the new handy package illustrated.

★ **KEYSTONE K-60 MOVIE PROJECTOR** with f1.6 Magna-Scope lens and Super-Optic beam. Think of it! A small, compact, movie projector that's easy to carry and simple as ABC to run. Throws a big, bright, 500-watt picture, filling your screen with color, motion and life.

INCLUDED!
Handsome genuine leather camera carrying case for camera protection.

INCLUDED!
Projector carrying case for protection from dust and weather. Made of handsome brown leatherette.

INCLUDED!
Quick Splice Kit for speedy splicing and easy editing. Cut and rearrange scenes like a Hollywood film editor — as easy as putting on adhesive tape.

INCLUDED!
Movie Scene Record Book — the Hollywood-like shooting script for your home movies. Be a pro by following the "book."

INCLUDED!
New, handsome Light Bar with four big, bright General Electric 350-watt lamps. Mount the camera on top and get those once-in-a-lifetime indoor shots.

LIFETIME GUARANTEE AND FREE SERVICE POLICY
Registered in your name on Keystone Cameras and Projectors

Free replacement of parts that do not function properly in normal use. Once during life of product Keystone will give complete checkup, cleaning, lubrication, adjustment without charge. Guarantee does not include projection lamp, does not apply to used or rebuilt equipment.

NO DOWN PAYMENT ... MANY MONTHS to PAY!

FREE DEMONSTRATION!
