## Skippy Leaves His Pal

By DICK SAUNDERS

Ten years ago the eyes of a young Lapeer boy twinkled, his little nose wrinkled as a smile beamed across his face.

The boy, Bruce Patten, then 8 years old, had just been named the winner of a six-month-old puppy, the clumsy flouncy-coated top prize in The Pontiac Press "Skippy" Contest.

The same boy, now a Lapeer High School senior, has lost his pal of a decade.

Skippy is dead.

**In a letter to The Press, Patten related how Skippy "has gone to his resting place in a small grave in his master's backyard."**

The golden cocker had suffered from a recurring ear infection which limited his activities during the past few years.

"It didn't heal. It just kept getting worse, so we were forced to have a vet come and give Skippy a shot to put him to sleep permanently," the youth wrote.

★ ★ ★

"It was the only thing left to do under the circumstances. At least we know now Skippy is not suffering. He is greatly missed by all of us.

Through the years since Skippy first toddled on unsure legs into the Patten home, at 6 Higley St., the dog has played nursemaid to a batch of kittens, chased chickens around the backyard, and displayed an avid interest in television and a taste for an occasional sip of beer, among other things.

**But one day last week Bruce's father, Ralph Patten, took a shovel from the garage and began digging a small hole in the yard.**

The Patten children, and youthful neighborhood friends of Skippy's, gathered some stones and white paint to mark the grave.

But each white stone bordering the small mound of dirt in the Patten's modest backyard will forever stand for a happy moment in the life of a growing boy.

## General Motors Reports All-Time High in Income

### First Half Total Nearly Billion and Half Higher Than Last Year

From Our News Wires

NEW YORK — General Motors, world's largest automobile manufacturer, yesterday reported an all-time high gross income for the first half of 1959.

Actual sales and net income—or profit—failed to break GM's previous record, but came in second only to 1955 for the half year and the second quarter, the corporation said.

The total gross income — $6,562,649,649 — was nearly one and a half billion dollars higher than gross income for the first half of last year, and ran far ahead of the income of any American corporation.

**GM's net income after taxes was $590,285,641, equal to $2.08 per share of common stock for the first half of this year. For the same period last year, net income was $33,514,249, or $1.17 per share. There are 770,000 shareholders.**

General Motors' four competitors: Ford, Chrysler, American and Studebaker, had a first half net of $404,861,075. Last year, the combined net of the four came out to a loss of $13,079,484.

Net profits of the five U.S. automakers combined were just under a billion dollars — $995,146,716.

General Motors' first half net sales totaled $6,511,699,791, the second best in history, compared with $5,121,261,436 last year and $6,512,672,139 in the record year of 1955.

Gross income in the first half of 1955 was $6,553,529,002, about nine million dollars under this year's figure.

**Chairman Frederic G. Donner and President John F. Gordon said GM's business "reflected the continuing improvement in general business activity, employment and consumer confidence." Both total dollar sales of GM products and world-wide unit sales of GM cars and trucks reached levels for a second quarter exceeded only in 1955.**

"Sales of non-automotive products in the second quarter of 1959, particularly locomotives, earth-moving equipment and Frigidaire household appliances, were much improved over last year," the report said. General Motors opera-

## Yesterday: Okay! Today: Nyet!

AP Wirephoto

**CHANGES TUNE**—Yesterday he said "Okay," so they shook hands. Today he said "I didn't say 'Okay'," so new tension arose on the foreign ministers talks yesterday. Soviet Foreign Minister Andrei Gromyko and U. S. Secretary of State Christian Herter exchanged friendly words yesterday after apparently agreeing to break off the conference next Wednesday — with or without an agreement on West Berlin. Today, Gromyko denied this.

## Three Persons Hurt; Estranged Mate Is Held

### May Be Charged With Negligent Homicide or Manslaughter

A 17-year-old mother of two children was killed this morning when her estranged husband forced her into his car, then smashed into another auto at a Pontiac intersection.

The housewife, Sophia Chavez Zimmer, of 226 S. Parke St., was pronounced dead on arrival at Pontiac General Hospital.

**Her husband, Delbert Zimmer, 20, of 219 Willard Ave., a former Pontiac State Hospital patient, told police he drove to his wife's home early today.**

His wife planned to start divorce proceedings, he told police.

"I asked her to go for coffee," Zimmer said. "When she refused, I grabbed her by the wrist, and forced her to get into my car."

Zimmer's car, traveling east on Judson street, collided with another auto. His wife suffered a fractured skull, multiple concussions, and traumatic shock.

★ ★ ★

Zimmer and the occupants of the other car were also injured. Zimmer is under police guard at Pontiac General Hospital.

The accident was at the intersection of Judson and S. Paddock streets.

**The other car was traveling north on Paddock street when struck by Zimmer's vehicle. The vehicle driven by Robert Q. Naylor, 33, of 180 Fulton St., went out of control and struck a tree.**

Zimmer admitted to police that he went through a stop sign at the intersection at a high rate of speed.

★ ★ ★

Police were considering seeking a manslaughter or negligent homicide warrant against Zimmer. He was to make a statement this afternoon at the Oakland County Prosecutor's Office.

**Naylor is battling for his life at the hospital. His condition is critical. He was taken in for surgery shortly after the accident. Hospital spokesmen said he suffered serious chest injuries.**

Zimmer was also admitted to the hospital with multiple cuts out was reported in fair condition.

A passenger in Naylor's car, James Terry Gaff, 29, of 273 Cedardale St., was admitted with chest injuries but was reported in satisfactory condition.

Mrs. Zimmer was the mother of two children, Delbert Jr., 19 months, and Paula Marie, 4.

## *Nixon Gets Into Mills; Cheers Follow Him*

SVERDLOVSK, Soviet Union (AP)—Vice President Nixon motored deep into the semi-secret Ural mountain mining area today and received cheers every mile of the way.

Speaking to officals of a copper mine he visited during the forenoon, Nixon came out with a very strong indication that he favors either a quick meeting of President Eisenhower and Premier Khrushchev or a quick agreement at Geneva which would permit a summit conference.

**"I do not pretend that personal contact would solve the basic problems of the world," he said, and added briefly later: 'This trip of mine will be followed by others incuding contact between other leaders."**

The statement came in the wake of reports that he was on the verge of recommending that President Eisenhower invite Khrushchev to the United States for a visit. He has repeatedly remarked that a look is worth a hundred descriptions.

Herbert Klein, Nixon's press spokesman, said he is inclined to the belief Nixon referred to the hope that a way would be found for a summit conference. But the idea among Nixon's followers seemed to be towards recommending a visit by Khrushchev at a suitable time.

Klein also quoted Nixon as believing that the Hawaii election foreshadows a Republican victory in 1960.

**"The score of the Republican victory in Hawaii far exceeded the expectations of the Vice President," said his press spokesman.**

He added that Nixon believes "this election is concrete evidence that the trend is now reversed and the victory in Hawaii foreshadows a Republican victory in 1960."

★ ★ ★

For the first time on his tour, Nixon really went into the mills and mines long enough to see what was going on, at least in part.

His schedule in other spots had been so tight that frequently he had less than half an hour to see things and places that diplomats never had been allowed to view.

**LIKE OUR WEST**

It was his next to last day in the Siberian industrial complex of 600,000 persons and perhaps the one where he received the warmest welcome.

**People all through this territory cheered him as they would cheer a governor motoring through a pioneering country in the American Far West.**

And it looked like pioneering country in the West, with log cabins made out of the lush forests.

He also disposed gently of the questions of hecklers, who have been yelling at him questions about the air bases strung in strategic places around the Soviet Union.

High spots of the nearly 11-hour schedule were tours through the Pervouralsk mill and the Degtyarsk mine.

Nixon also took a long drive through the area surrounding Sverdlovsk, a center for the production of strategic metals, armaments, chemicals and heavy machinery.

Despite the hecklers who dogged his footsteps Wednesday in Novosibirsk and again in Sverdlovsk, Nixon said his welcome in the So-

(Continued on Page 13, Col. 4)

## *'Let's Rush to Summit,' Nikita Urges*

GENEVA (AP)—U. S. officials took a dim view today of Soviet Premier Nikita Khrushchev's proposal that the Big Four foreign ministers "agree on what they can agree" and then stand aside for a summit meeting. But a British official called the Soviet Premier's speech "splendid stuff."

Khrushchev's speech in the Ukraine Tuesday was made public Wednesday night after East and West had agreed to halt the foreign ministers' talks next Wednes-

(Continued on Page 13, Col. 1)

**United Press International reported in Geneva that Russia today laid the seeds of another major cold war wrangle by denying any part in the decision to break off the foreign ministers conference next Wednesday.**

**Soviet Foreign Minister Andrei A. Gromyko was clearly understood to have agreed to ending the big four meeting in his talks yesterday with Secretary of State Christian A. Herter.**

**But only a few hours after leaving Herter's villa, the Soviet diplomat began backing off from the agreement, UPI reported.**

## Slain Doctor's Patient Due for More Quizzing

Pontiac police today planned further questioning of the patient who said he found Dr. W. Carleton Warrick staggering about his office minutes after the physician was shot in his E. Huron street office Friday night.

A second lie detector test given Lloyd Tunnell, operator of two nursing homes, at the Redford State Police post yesterday afternoon was inconclusive.

Tunnell, 53, of 1755 Williams Lake Rd., is being held for investigation of murder.

**Dr. Warrick, 71, of 263 Chippewa Rd., died Saturday night of gunshot wounds in Pontiac General Hospital. He was shot twice, in the abdomen and left hand.**

Tunnell has been in custody since Monday evening when he was arrested for investigation of violating narcotics law.

He admitted after a lie detector test Tuesday that he lied when he said he had not left the doctor's office from the time he found the dying physician until police arrived.

**He said he went out of the building to look for police, then returned. He was with Dr. Warrick when the police arrived.**

The murder weapon, a .45 caliber revolver, has not been found.

Efforts by Redford State Police to get Tunnell's consent to a truth serum test failed yesterday.

**Chief Assistant Oakland County Prosecutor George F. Taylor said, "I think the doctor may have been covering something up. I'm not sure there was a robbery."**

Dr. Warrick told police he was robbed by a gunman who took $100 but overlooked $1,356 he was carrying in a rear trousers pocket.

Police found money strewn about the floor but no evidence that any was taken.

Taylor said today he would renew efforts to convince Tunnell, the only suspect in the slaying, to take a truth serum test.

## *GOP Happy Over Wins in Hawaii*

WASHINGTON (AP) — Unexpected victories in Hawaii's voting bouyed Republican hopes today that their party may be on the comback trail.

Although Democrats disputed the interpretation, the GOP national chairman, Sen. Thruston B. Morton of Kentucky, said the results point to Republican victories elsewhere in 1960.

**His party elected a governor, lieutenant governor, a United States senator and a majority of state senators.**

★ ★ ★

Morton said the results in Hawaii demonstrated that hard work, significant support from labor and the voters' response to "good government" will put the Republicans back in business in next year's presidential and congressional elections.

**HONOLULU (AP)—Five women ran for office in Hawaii's first state election Tuesday and two of them were elected.**

**Dorothy Devereaux and Eureka B. Forbes, both Republicans, won seats in the State House of Representatives.**

**They will be the only women in the 76-member State Legislature.**

However, Senate Majority Leader Lyndon B. Johnson of Texas emphasized that Democrats had taken two of the three seats at stake in Congress. These included one senator and the lone House member. Democrats also held on to control of the state House of Representatives.

★ ★ ★

Johnson said it was not surprising that the Republican appointive governor, William F. Quinn, had defeated Democrat John A. Burns, who has been Hawaii's nonvoting delegate in Congress.

★ ★ ★

Johnson said Quinn "had plenty of time to build up his position" and should have won "in an area which, until recent years, has

(Continued on Page 2, Col. 3)

## Water Officials Hear Willman

### State Expected to Tell Pontiac It Must Build Sewage Facilities

City Manager Walter K. Willman was to appear before the Water Resources Commission in Lansing this afternoon at a hearing preparatory to a state order for Pontiac to expand its sewage treatment facilities to curb pollution of the Clinton River.

★ ★ ★

It was expected the Commission would order a $3,300,000 expansion of Pontiac's plant by the end of 1961.

**Accompanied by City Attorney William A. Ewart, Willman indicated he would not resist the order.**

"It's up to the state now. We're going to admit nothing and deny nothing," he has told city commissioners.

**BOND ISSUE NECESSARY**

Because a bond issue would be necessary to finance construction of more sewage treatment facilities, Claude Stevens, Pontiac's bonding attorney, aided in preparing Poniac's written answer to state charges of pollution.

**A state order, backed up by Circuit Court, would allow the city to proceed with financing through general obligation bonds without voter approval.**

Pontiac voters three times have turned down bond issues for plant expansion.

★ ★ ★

The Water Resources Commission said it has been testing Clinton River polution two years.

**A State Health Department official recently called Pontiac's pollution of the Clinton "the worst in the state."**

At the request of the City Commission, Willman was to deliver to the Water Resources Commission a copy of a report that declares Waterford Township is polluting Crystal Lake through the West End storm drain.

## News Flash

**HUDSON, Wis. (AP) — The Chicago and Northwestern Road's crack "400" passenger train southbound from the Twin Cities was reported derailed this afternoon near Wilson Hill. The sheriff's office broadcast an appeal to surrounding counties for "all available ambulances."**

**The chief dispatcher's office in Milwaukee said it had heard that there were "lots of people injured."**

**At St. Paul, Minn., a railroad spokesman said that the last seven cars of the 11-car train were off the track and tipping sidewise on a bluff above the highway about 50 miles east of St. Paul and about 40 miles west of Eau Claire, Wis.**

**The Wisconsin State Police radio network asked all cars in the northwestern Wisconsin area to converge on the scene.**

**Dems Say 'Is It Legal?'**

## Sales Tax Package Back in Committee

LANSING — The Republican sales tax package was sent back to committee today after a question on its constitutionality was raised by the Democrats.

The action threw off the GOP timetable of getting approval

Passage of the proposal was stalled, apparently until Saturday at the earliest, when a parliamentary question was raised by Sen. Charles S. Blondy (D-Detroit).

**Republicans did not contest his point — that the GOP had improperly drafted the substance of their plan onto a short bill that carried different content when passed by the house.**

Sen. Haskell L. Nichols (R-Jackson), counseling delay, said the GOP program likely was headed for a State Supreme Court test.

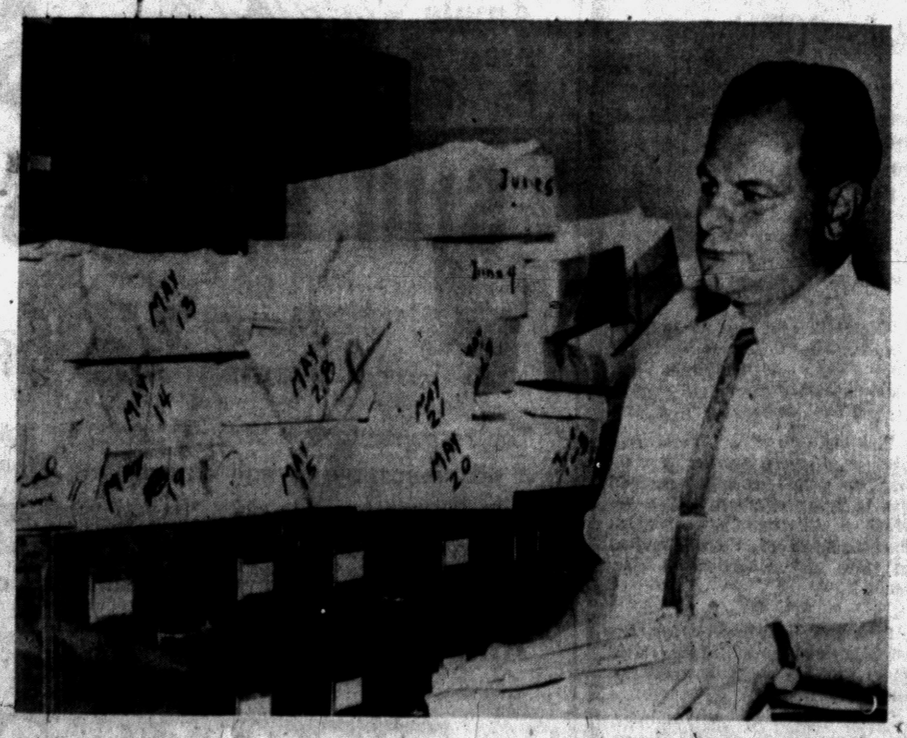

"We should do everything possible to see that the bill is as constitutional as we can make it," Nichols said.

Republican strategists thus were confronted with the problem of

(Continued on Page 13, Col. 3)

**LANSING (AP) — Added signs that the Legislature finally is nearing the end of its marathon session:**

**House Speaker Don R. Pears (R-Buchanan) yesterday laid off 20 of the 49 House employes hired for the session only. They include all five pageboys, three sergeants-at-arms, all 10 stenographers and two cloak room attendants.**

AP Wirephoto

**STATE'S MILLION-DOLLAR DENT**—Armed with $1,000,000, Auditor Gen. Frank S. Szymanski yesterday tackled the task of paying some of the bills the state has accumulated the last three months. In keeping with the policy of paying the oldest bills first, those that fell due between April 28 and May 8 were paid, at least in part. The box Szymanski is holding contains checks but the others hold bills and are marked with dates they were received.

## Arab Republic Opens Syria-Jordan Traffic

DAMASCUS, Syria (AP) — The United Arab Republic Thursday reopened the frontier between Syria and Jordan.

★ ★ ★

Official sources said land traffic between both countries was resumed normally at dawn, ending a 54-day standstill which had paralyzed transport and transit trade between the two Arab neighbors since June 6.

★ ★ ★

The move was the first result of mediation between the U.A.R. and Jordan carried out recently by the secretary general of the Arab League, Abdulkhalik Hassouna.

## *Clear, Cool, Dry Weekend Due for Pontiac Area*

A pleasant weekend appears to be in store for Pontiac area residents, the weatherman says. Showers will end tonight and temperatures drop to a low of 68.

★ ★ ★

Tomorrow will be fair, a little cooler and less humid, with the high around 82. Fair and pleasant is the forecast for Saturday. Rain is predicted again Monday.

Friday will be pleasant throughout Michigan, temperatures ranging from 74-82 in the north.

★ ★ ★

Seventy-three was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury rose to 88 at 2 p.m.

COMPARING SCORES — From the smiles it's evident one of these golfers is proud of his score. A threesome at the Pontiac Area Chamber of Commerce golf match yesterday was (from left) Raymond Ulseth, Raymond Gerson and Homer Shingledecker. About 150 chamber members joined in an 18-hole tournament at Pontiac Country Club and nearly 250 enjoyed dinner and evening entertainment, making yesterday's summer frolic "the most successful in recent years," according to John W. Hirlinger, chamber manager.

# Rain Is Worst in 40 Years

## City Engineer Can't Recall Greater Flash Flood in Pontiac

The worst flash flood within memory.

That's how one veteran Pontiac official described the flooding that followed yesterday morning's rain.

City Engineer Lewis M. Wrenn said the rain was "the worst" in his 40 years with the city.

"I have never seen anything like it within such a short period of time."

**The Pontiac State Hospital rain gauge counted 2½ inches between 8:30 a. m. and 10 a. m., with the heaviest fall over by 9:30 a. m.**

Pontiac Motor and Fisher Body divisions, forced by flooding to halt production yesterday morning, resumed normal operations when afternoon shifts reported at 4 p. m. About 3,000 day shift workers had been sent home between 9:30 and 10 a. m.

★ ★ ★

Both plants were flooded when storm drains backed up to a depth of several feet in places.

Neither plant had ever halted production before because of flooding.

City officials estimated that at least 200 basements were flooded.

**"Virtually every low spot in town was filled with water," said Wrenn.**

Officials explained that the city's storm drains are big enough to handle what is called a 10-year-rain, that is, a rain so heavy in volume that it occurs only once every 10 years on the average.

But in the face of yesterday's unparalleled deluge, the drains were inadequate, unable to handle all the water rushing toward them.

## Australia to 'Frisco: In Less Than 15 Hours

SAN FRANCISCO (AP) — Commercial jet service over the Pacific was inaugurated Wednesday.

A Qantas Airways Boeing 707 brought 84 passengers from Sydney, Australia to San Francisco—7,650 miles in 14 hours, 44 minutes. That halved the usual time.

## The Weather

**Full U.S. Weather Bureau Report**

SHARPENING UP — Golf was the order of the day at the Pontiac Area Chamber of Commerce's 23rd annual summer frolic yesterday at Pontiac Country Club. Here Thomas Hruska practices up on the putting green. Hruska, owner of Tom's Meat Market, 701 Orchard Lake Ave., was general chairman of the frolic.

# Small Businessmen's Assn. Seeks Members in Pontiac

Now in its 23rd year, the National Small Businessmen's Assn. is concentrating its membership drive in Pontiac "to get big enough to push through a decent labor bill."

★ ★ ★

Well over a million strong, the organization seeks a membership of four million.

Its purpose is to give small businessmen a stronger voice in national affairs.

**Michigan director Milton King explains that members are polled on legislation and their ballots and tabulations are sent to their respective congressmen in Washington and Lansing.**

The organization also sends delegates to Washington to testify before various committees.

"An example of a sort of situation we try to correct is the neglect of the small businessman in awarding contracts," says King.

★ ★ ★

"Small business has been bypassed in the State of Michigan as far as missile contracts are concerned. We haven't been able to compete with the large industries, while actually many small businesses can turn out the desired product much cheaper.

"The bigger we get, the bigger voice we'll have."

**There are approximately 2,600 members in Oakland County. The drive has just reached Pontiac, says King, and for the next two weeks he will personally solicit membership by visiting small businessmen in the city.**

Pontiac boasts seven of the national organization's "pioneer" or founder members. These men, along with others from the Detroit-Cincinnati section of the country, conceived and implemented the idea in 1937.

★ ★ ★

They are Matt Shelton of Service Glass Co., J. L. Van Wagoner of Van Wagoner Insurance Agency, Al Hubbard of Hubbard Spring Co., George Wasserberger of General Printing and Office Supply; Frank Stout, former owner of the Oakland Machine & Stamping Co. and Harold A. Fitzgerald, publisher of The Pontiac Press.

## The Day in Birmingham

# Mayor Accepts Award for No '58 Traffic Deaths

BIRMINGHAM—A bronze-finish plaque commending the city of Birmingham for having had no traffic deaths in 1958 and for a "generally fine traffic safety program" was presented to Mayor Harry M. Denyes yesterday.

Presentation was made by Sgt. Michael Sibal, Michigan State Police Safety and Traffic Bureau officer.

**Sgt. Sibal's primary purpose in coming to Birmingham was to explain the analysis report of the city's traffic safety activities for 1958 prepared by the National Safety Council.**

When presenting the plaque, he said that Birmingham also will receive an award from the American Bar Assn. for "outstanding traffic court operations."

★ ★ ★

The traffic safety analysis compares the city's performance with that of other communities of similar size and problems. It also offers specific recommendations, based on successful accident prevention experience, whereby Birmingham can improve its accident prevention program.

**According to the report, Birmingham, with an estimated population of over 26,000, had no traffic deaths last year but still only received a 68 per cent out of a possible 100 for its overall program.**

The 100 per cent is not the top position on an arbitrary scale, but it represents the traffic safety achievements of the top 30 per cent of the cities in the same class as Birmingham.

★ ★ ★

According to the Safety Council, the lack of an organization for traffic safety improvement greatly reduced Birmingham's possible point total in the inter-city competition. As Sibal pointed this out, City Manager L. R. Gare questioned the enthusiasm of Birmingham citizens for such an organization.

★ ★ ★

Gare felt that the people were somewhat complacent over the fine safety record.

**Birmingham scored 100 per cent in its death and injury record, but still reported 107 non-fatal injury accidents, six above the average for the preceding three years.**

The National Safety Council estimated that traffic accidents involving Birmingham residents in and out of the city cost the community about $800,000 annually. Included in this total are estimates of loss of earning power, medical and hospital expenses, cost of motor vehicle repair or replacement and the cost of providing automobile insurance.

Officer Sibal cited the city's accident report record for non-fatal and property damage accidents as being outstanding. In each case Birmingham's reports exceeded twice the recommended performance.

★ ★ ★

Highest on the National Safety Council's recommendation lists were more training for policemen and supervisors, and a more adequate lighting system for the city's 22 miles of paved streets.

### Robert B. Appell

Service for Robert B. Appell, 83, of 815 N. Forest Ave., Birmingham, will be held at 3 p.m. tomorrow at the Bell Chapel of the William R. Hamilton Co. Burial in White Chapel Memorial Cemetery, Troy, will be under the auspices of Birmingham Lodge 44 F&AM.

**Mr. Appell died Thursday at the Curtis Convalescent Home in Avon Township after a brief illness.**

He was in the painting-contracting business in Birmingham and a member of Birmingham Lodge 44 F&AM, the Royal Arch Masons No. 93 of Birmingham, the Pontiac Commandery 2, and the Senior Mens Club of Birmingham.

Surviving are two sons, Edward of the same address and Robert of 522 W. Lincoln Ave., Birmingham; two daughters, both of New York State; five grandchildren and five great-grandchildren.

# Murphy Moves Up in State Department

WASHINGTON (AP) — President Eisenhower today nominated Robert D. Murphy, a veteran career diplomat, to be under secretary of state for political affairs. This is the State Department's No. 3 post.

★ ★ ★

At the same time, Eisenhower nominated Livingston T. Merchant, another veteran diplomat to succeed Murphy as deputy under secretary of state. Merchant is now assistant secretary for European affairs.

★ ★ ★

Murphy, a native of Milwaukee, Wis., has been in the State Department since 1920 and has held diplomatic posts around the world as well as high offices in the State Department. He was ambassador to Belgium in 1948 and ambassador to Japan in 1952.

# Hawaiian Victories Raise GOP Hopes

(Continued From Page One)

been overwhelmingly Republican anyway."

**TO WELCOME DEMS**

He promised a rousing welcome in Congress for Democrats Oren E. Long, elected to the Senate, and Daniel K. Inouye, who won the House seat.

★ ★ ★

**Hiram L. Fong was the Republican elected to the senate. He and Long will determine by drawings later the length of the terms they will serve.**

Pointing out that Democrats have won every territorial election since 1954, Republicans said the balloting demonstrated a reversal in the trend that may mark the beginning of a GOP revival in state and congressional elections.

★ ★ ★

Senate Republican Leader Everett M. Dirksen of Illinois called the election a party outcome for his party.

★ ★ ★

Sen. Thomas H. Kuchel of California, the assistant GOP leader said the results show "that the people of our newest state have faith in the determination of the Republican party to serve and promote the interests of all of our people, not just segments or factions."

# Pontiac Highs List Graduates

## Central and Northern to Hold Joint Exercise Friday Night

Pontiac Central and Pontiac Northern High Schools will hold their combined summer school commencement exercise in the Pontiac Central High School Auditorium at 8 tomorrow night.

The address, "Frontiersmen, 1959 Models," will be given by Dr. Russell Curtis, coordinator of secondary education for Pontiac public school. Sandra McDowell, Pontiac Central High class vice president, will deliver the invocation.

# Deaths in Pontiac and Nearby Areas

**MRS. EDWIN E. JOHNSTON**

Mrs. Edwin (Rosetta G.) E. Johnston 87, of 42 Murphy Ave., died this morning following an illness of six months.

Formerly a member of the First Presbyterian Church, Mrs. Johnston is survived by one daughter, Mrs. Marie H. Thompson of Pontiac, one son, Elwyn D. of King City, Calif., four grandchildren and four great-grandchildren.

Service will be held at 1:30 p. m. Aug. 1 at Voorhees-Siple Chapel with burial in Perry Mt. Park Cemetery.

**CHRISTINE A. LEWIS**

Prayers were offered at 11 a.m. today at St. Benedict Church for Christine A. Lewis, infant daughter of Mr. and Mrs. Donald J. Lewis of Taylor, former Pontiac residents. Burial was in Mt. Carmel Cemetery at Lake Linden.

Surviving are the parents and grandparents, Mr. and Mrs. Richard T. Rowe, and Mr. and Mrs. W. Allen Lewis, all of Lake Linden.

The baby was dead at birth Tuesday at Pontiac General Hospital, where her mother was formerly a nurse.

**MRS. PEARL MORRIS**

Service for Mrs. Pearl Morris, 64, a former Pontiac resident, will be held at 2 p.m. Saturday at the Pratt Funeral Home in Richland Center, Wis. Burial also will be in Richland Center.

Surviving are a daughter, Mrs. Bert\a Moore of Richland Center; two sons, George of Richland Center and Fred of Wheeling, Ill., and a brother.

Mrs. Morris died Tuesday after an illness of several years.

Her body is at the Huntoon Funeral Home.

**James C. Sutherland**

Service for James C. Sutherland, 88, of 2146 Brook St., Keego Harbor, a former Bloomfield Highlands resident, will be held at 2 p.m. Friday at the Manley Bailey Funeral Home, Birmingham. Burial in White Chapel Memorial Cemetery, Troy.

Mr. Sutherland died Tuesday at a Pontiac hospital after a long illness.

He was a landscape gardener in the Bloomfield area and Boer War veteran of the Canadian Army.

Surviving are his wife, Annabella; a daughter, Mrs. Basil M. Terry of Birmingham; a granddaughter and two brothers.

**ROBERT TURNER**

Service for Robert Turner, 63, of 258 Hughes St., will be held at 11 a.m. Saturday at the Church of God in Christ with burial in Oak Hill Cemetery.

Mr. Turner's body is at the William F. Davis Funeral Home.

He was an employe of General Motors Truck & Coach Division and a member of the Church of God in Christ.

Surviving are his wife, Hattie; a son, James W. of Gary, Ind.; two daughters, Jessie of East Chicago, Ind. and Minnie L. of Pontiac, and four brothers.

Mr. Turner died Monday at Pontiac General Hospital after a long illness.

**JOHN J. BOURASSA**

BEVERLY HILLS — Rosary service for John J. Bourassa, 56, of 31725 Topper Ct., will be held at 8 p.m. and again at 8:30 p.m. today, under the auspices of the Knights of Columbus, at the William Sullivan & Son Funeral Home, 705 W. 11-Mile Rd., Royal Oak.

Mr. Bourassa, president of Multi-Products Co., 21470 Coolidge Rd., Oak Park, died Tuesday of a heart attack.

Funeral service will be held at 8:45 a.m. tomorrow at the funeral home and at 9:30 a.m. in Holy Name Catholic Church, Birmingham. Burial will be in Holy Sepulchre Cemetery.

Surviving besides his wife, Alice, are three daughters, Mrs. Frederick Ryner of Pontiac, Janet and Elaine, both at home; three brothers and two grandchildren.

**PATRICIA JANE SABOV**

OXFORD TOWNSHIP — Service for Patricia Jane Sabov, nine-year-old daughter of Mr. and Mrs. Kornel Sabov, 895 Glaspie Rd., will be held at 10 a.m. tomorrow at St. Joseph Catholic Church, Orion Township. Burial will be in Ridgelawn Cemetery, Oxford, under the direction of Bossardet & Reid Funeral Home.

The Rosary will be recited at 8:30 p.m. today at the funeral home.

Patricia was fatally injured in an automobile accident Tuesday night. She was a third grader at Daniel Axford Elementary School.

Surviving besides her parents is a brother, Mark, at home; grandparents Mr. and Mrs. Nick Sabov of Oxford and Mrs. E. R. Burgard of Thomas.

**MRS. E. ROY (Eva Mae) YOUNG**

LAKE ORION—Service for Mrs. E. Roy (Eva Mae) Young, 67, of 209 Perry St. will be held at 2 p.m. Saturday from the Allen's Funeral Home with burial to follow in Evergreen Cemetery.

Mrs. Young died this morning at the Almont Community Hospital, Bruce Township, after a three-month illness.

She was a life member of Orion Chapter 340 OES.

Surviving besides her husband are two daughters, Mrs. Howard Phelps and Mrs. Larry Laurence, a son, Charles, all of Lake Orion; seven grandchildren; four great grandchildren, and a brother, Almon Wilson of Rochester.

## TV Repairman Due Day Late to Save Her

RAEFORD, N. C. (UPI) — A defective television set that already had given shocks to several members of a family yesterday electrocuted nine-year-old Linda Furmage.

A repairman was to have picked up the set to fix it today.

---

The estimated wholesale value of automobiles, trucks and buses manufactured in the United States during 1958 was nine and three-quarters billion dollars a drop of about three and one-half billion dollars from 1957.

## Story Writer Dies

BERKELEY, Calif. (AP) — Barrett Billie Willoughby, 59, novelist and short story writer, died Wednesday of heart disease. Miss Willoughby, born Florence Barrett in Alaska, was the widow of Robert Prosser, a University of California engineer.

---

New York state raises more domestic ducks than any of the other states.

## Kansas City Snubs Nigerian Official

KANSAS CITY, Mo. (AP)—The secretary general of the Nigerian Civil Service Union, Alaba Kalejaiye, says a Kansas City cafeteria operator asked him to stay away "becuse of the color of my skin."

"I consider it an insult to the government of my country which I represent in the United States," Kalejaiye, 38, said Wednesday.

He is one of 10 foreign labor leaders visiting Kansas City under sponsorship of the U.S. Department of Labor.

The cafeteria manager, DeWayne Wixon, said Kalejaiye was allowed to eat his dinner but was advised "not to return because of the attitude of the public." Negroes and whites do not patronize the same restaurants here.

## Flint Will Increase Water, Sewage Fees

FLINT (UPI) — Residents will increase the city's income by $3,720,000 annually through a water rate increase and sewer service fee taking effect Aug. 1.

The city commission last night approved a 50 per cent increase in current water rates and voted to establish a sewer service fee amounting to two-thirds of the new water rate.

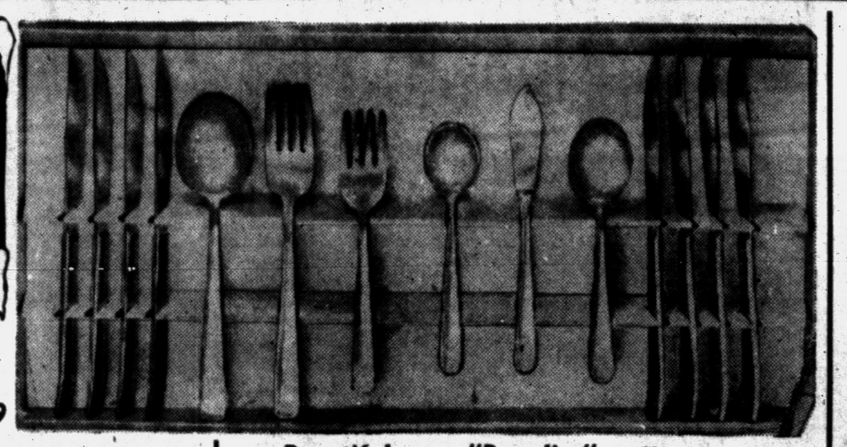

**Observers said this would mean the average resident who now pays $5.40 per quarter in water bills, would pay $13.50 per quarter when the August bills are computed.**

The hikes were put into effect to help the city expand its water sewage facilities and provide sufficient to meet the record $9,061,282 budget also approved last night.

## Paint Manufacturers Use All of Their Marbles

NEW YORK (AP) — Marbles, one of the most enduring playthings, have been put to work by the paint industry.

**The manufacturers of spray-on paints in aerosol cans place a marble in each can, reports the American Can Co. These marbles are identical to the "shooters" used by schoolyard marble champs.**

The paint is mixed by shaking the can. The marble breaks up pigment which may have settled between uses and rattles freely when the paint is well mixed. One manufacturer uses more than 20 million marbles a year.

There are no rivers to drain the island of Bermuda.

## Officials Missed Spirit of the Doctor's Answer

NOGALES, Ariz. (AP) — Immigration officers in Nogales tell this story:

★ ★ ★

A young government doctor recently assigned to the Nogales port of entry was returning from a visit to Mexico.

**An immigration officer asked, "What did you bring back from Mexico?"**

"A case of typhus," quipped the doctor.

★ ★ ★

"O.K., go ahead, but that'll be all for 32 days."

★ ★ ★

The federal government allows one case of liquor to be returned across the border without tax every 32 days.

## Prefers Her Husband

BALTIMORE (AP)—The penniless young woman had fled her husband down South and stopped at the Traveler's Aid Society on her way to New York to live with relatives.

**In Mrs. Elizabeth Kraiwec's office, she saw a painting of New York on the wall. As she stared at the icy blue pigment, the lonely looking bridge and skyscrapesr, tears formed in her eyes.**

"I can handle my husband but not that big, cold city," she said and headed back home.

## He Was Busy Man

NEW YORK — Thomas A. Edison held more than 1,000 patents on his various inventions at the time of his death.

## Campers Life Gets Rough

ROCKFORD, Ill. (AP)—Freshman Wayne Perkins and senior Joseph Almburg refused to be cowed in their determination to be the first students to sleep on Rockford College's new campus.

**They borrowed a tent and sleeping bags to spend a night in the field where college dormitories will be erected this fall.**

"It was wonderful," Almburg says. "But once during the night we had to hold off a herd of cows by flashing lights at them."

## Phony Dough No Relief

BUFFALO, N.Y. (UPI) — Erie County Welfare Commissioner Paul F. Burke reported someone on the welfare rolls had sent in a $10,000 donation — in phony money.

## Senate Decides to Open Payrolls to the Public

Newspapers, working through the American Society of Newspaper Editors, have recently accomplished a partial victory by the Senate's vote to make the salaries of all its employes public.

★ ★ ★

The PRESS feels that this information is long overdue and the decision a welcome one.

**Name, title and salary of each Senate employe will be published four times a year, according to the new resolution that the Senate has approved. This will not affect the House, since it already makes its payroll information available.**

Just why some quarters are referring to this action as a triumph is a little hard to understand. The expenditure of public tax money should not be secret. The taxpayers have a perfect right to know.

★ ★ ★

The apparent disregard for use of public funds is astounding. It appears on the surface at least that the Senate and House have blank checks for new construction. A lot of it is just plain lavish spending.

**A recent example was called to our attention which adds to our money woes in Washington. It seems that a tunnel dug between the Senate Office Building and the Capitol Building missed its mark by a number of feet, and the whole project is considered pretty much of a failure by Washington residents.**

★ ★ ★

This ruling by the Senate to open salary books is not perfect, but at least it is a start. They should still go a step farther and identify what employes work for what Senators.

## U.S. Aid to Cambodia Builds Needed Road

As part of its technical assistance to Cambodia, the United States had agreed to build a road from the capital city of Pnom Penh on the Mekong River to the French built port of Kompong Som on the Gulf of Siam.

The just completed 130 mile road, called the Cambodian-American Friendship Highway, has been officially opened by Interior Secretary FRED SEATON as President EISENHOWER'S representative. Its building is an engineering triumph over hot jungle, mountain ranges and inexperienced labor.

Rich in natural resources and with little or no maritime trade, Cambodia now will be opened up to world markets. The good effect of this American assistance will be felt in many parts of Southeast Asia and in other corners of the world.

## Farm Legislation Lags as Surpluses Pile Up

With fewer than 25 per cent of the Nation's farmers balloting, they again have voted four to one to continue the costly support plan which has produced a $3 billion surplus. They hadn't much choice. A vote against it would have lowered the minimum support price from $1.77 a bushel to $1.18.

★ ★ ★

Secretary BENSON'S proposal to gear wheat supports to 75 per cent of the average market price over the last three years instead of 75 per cent of parity as at present, was rejected by the Administration. A bipartisan proposal from the House Agricultural Committee for a conference with the President on the problem was ignored.

★ ★ ★

**In the meantime surpluses keep piling up and no relief is in sight. As the Magazine of Wall Street figures it, an average American family has a $131.89 investment in surplus farm commodities as of December, 1958. Since then wheat holdings have increased by more than 50 per cent. Over 200 pounds of grain sorghum and a 20 per cent increase in barley also have been added to each family's share.**

★ ★ ★

All this is costing the taxpayers $1 million a day for storage alone with the prospect of more surpluses when this year's crops are harvested. Nobody seems to be doing anything about it and the farmers themselves can't agree on a remedy.

---

"THROUGH use of radar telescopes that pick up sounds many billions of miles distant, only whines and howls have been heard to date." Thus the widespread search for good news continues—unsuccessfully.

## The Most Popular

### More Vacation Plans Over the Period Than Any Other

**Blotter: Like some people, soaks it in — but gets it backwards.**

The last week in July and the first week in August have long been the most popular vacation period of the year with local people. Checks with

**Arthur J. Bogue,**

Manager of the Pontiac AAA office;

**William Gracey,**

Grand Trunk ticket agent, and

**Pete Waidelich,**

local superintendent for Greyhound Lines, show that this again holds true, with the requests for routings larger than ever before.

However, it is pointed out that, more than ever before, it is highly advisable to arrange for all of your reservations in advance, as motels and hotels everywhere are usually booked far ahead to the limit of their capacity.

---

A phone call from a childish feminine voice who wishes to be designated only as

**"A Thousand Freckles,"**

wonders if they'll be counted at this column's freckles contest at next week's 4-H Fair. Hardly, my child — but that's up to the judges.

---

If all the players can get off (and keep off) the hospital and injury list,

**Osmun Fraley**

of Birmingham will wager even money that the Tigers win the flag — and world series.

---

A young robin being reared by

**Robert and Ann Belwick**

of Drayton Plains has quite appropriately been named "Robinann." It even eats with the family, and the children's parents,

**Mr. and Mrs. Richard Belwick**

say they've seen worse table manners.

---

There's a lot to cogitate and ponder upon in a letter from

**"Desiring a Long Life,"**

which asks: "Why is it that a person quite unaccustomed to driving must murder the speed limits (and something else) when on vacation—and on a strange road?"

---

Raspberries so large that they'll slip over your finger like a thimble are being picked by

**Mr. and Mrs. Gerald Falkman**

of Waterford, who say the secret lies in the fact that they cultivate the soil around their bushes, allowing no weeds or grass to interfere with them.

---

Getting a new dog for their six year old son, to replace one that disappeared,

**Mr. and Mrs. Blair Kinney**

of Lake Orion, suggested that it also be called "Rover." But the lad declined, because it also might "rove."

---

of Watkins Lake, 87th birthday.

**Mr. and Mrs. Perry Harrelson**

of Rochester; 51st wedding anniversary.

**Mr. and Mrs. Arthur Ferrier**

of Davisburg; golden wedding.

**Mr. and Mrs. Harry L. Burgess**

of Imlay City; golden wedding.

Our Own Picket Line

David Lawrence Decides:

## Ike's Best Quality: Good Sense

WASHINGTON — This correspondent happened to be one of a dozen newspapermen invited to dine with President Eisenhower last Monday night at the White House. Whatever the President says, informally or otherwise, in answer to questions on current issues is usually news, and permission was granted to those present to report it without direct quotation as they deal from time to time with the same subjects.

LAWRENCE

Both of the press associations, which had representatives there, will in due course give the details.

What impressed this writer most, however, entirely apart from the many subjects that were covered during a discussion lasting nearly four hours, was how President Eisenhower looks physically. He seems healthier, ruddier of face, and younger in spirit and mood than when he first came to the White House in January 1953.

**When this correspondent was in London recently, he was astonished to find that the image of President Eisenhower built up there by news dispatches from this country was that of a "sick man" and a "puppet."**

The impression prevalent in some quarters in Britain and in other parts of Europe is that Eisenhower is an invalid, that he really doesn't have a mind of his own, and that he merely reflects perfunctorily what different advisers inside and outside the Cabinet tell him. Some of this doubtless has originated from partisan sniping in America.

**EISENHOWER KNOWS**

A face-to-face appraisal, on the other hand, gives exactly the opposite feeling. Advisers, of course, play a part in every President's decisions, but Eisenhower shows an intimate knowledge of the pros and cons of many subjects, as well as of the nuances that emerge in the complicated problems of government.

He ranks high indeed in presidential stature, as this writer thinks back about the eight presidents whose official careers he has studied firsthand in the last few decades of our history.

**Eisenhower is not as spectacular or as eloquent or as dramatic or as bellicose as have been some of the other chief executives, but he is nevertheless an effective one. Today he has an unprecedented hold on public opinion in America and abroad.**

Incidentally, Eisenhower questions the accuracy of the phrase "lame-duck president," as it is often used in the press with respect to his own status during a second term. The words "lame duck," he rightly points out, apply to someone who is finishing out his term after he has run for re-election and been defeated.

This writer believes that if Ike were eligible to run again and decided to do so, he would be elected by an overwhelming majority. So he really ought not to be called a "lame-duck president."

Whether it is a complicated appropriations bill, or an analysis of the Cuban situation, or the contradictory and paradoxical aspects of the Khrushchev personality or of Communist aims, or the delicate subject of what American political currents may be in 1960, Eisenhower shows an extraordinarily intimate knowledge of what is going on and its relationship to the presidency.

**Just before he finishes his term, he expects to reveal a study he has made of our antiquated system of operation in the executive branch of the government. This probably will be issued after the election next year, when there is no possibility of political motivation being attributed to the plan.**

As for the guiding influence in Eisenhower's decisions, it can be expressed in the phrase "common sense." He has a remarkable insight into the mind of the American people. He understands the spirit of free America, and he constantly tries to apply it in his decisions. He holds tenaciously to a "middle-of-the-road" approach —avoiding the advice of extremists, irrespective of party. He is convinced that America can make progress only by steering a safe and sane course.

(Copyright 1959)

Dr. William Brady Says:

## Proper Exercise Vital to Heart Disease Victims

On page 14 of CVD, my booklet about heart and artery troubles, I say: Increasing reserve power by graduated exercise is a prime factor in the treatment of heart disease.

BRADY

On page 18, I say that the physician must prescribe such therapeutic exercise to suit the individual requirements.

**On page 24, I say that exercise taken strictly as prescribed by the physician may be of great value in promoting hypertrophy, enlargement, increased muscular development of the heart, which is necessary to widen the margin of reserve power so that the patient may lead a reasonably active life.**

All this may seem radical or even dangerous if you have the common notion that a person with heart or artery trouble must walk on eggs if at all, but it is sound in theory borne out in everyday practice.

★ ★ ★

A thorough scientific investigation and survey made by the National Health Service of Scotland, England and Wales during 1954-1956 led to this conclusion:

"Men in physically active jobs have less coronary heart disease during middle age, what disease they have is less severe, and they develop it later than men in physically inactive jobs."

**EXERCISE BENEFICIAL**

From this careful study of actual conditions, the British medical and health authorities, having in mind also the experimental or laboratory evidence of the beneficial effects of exercise carciovascular (heart-artery) physiology and pathology, infer that "habitual physical activity is a general factor of cardiovascular health in middle age."

**Mind that this is not endorsement of such strenuous physical exertion as football for growing boys or sideshow weight lifting or chest expanding stunts.**

The physical activity that is called therapeutic is anything from a slow walk of a few yards to a brisk walk of five or six miles daily. Walking, by the way, is the best all-round exercise one can take; one in good health condition or one with heart and or artery trouble.

As already suggested, the dose of this medicine must be prescribed by the patients physician who knows the patients present requirement. The physician will increase the dose GRADUALLY, according to the effects noted at each successive physical examination.

★ ★ ★

In this column, some time ago, I cited statistics that indicate that coronary occlusion or thrombosis is more likely to occur when one is resting than when one is taking a walk or other moderate exercise.

★ ★ ★

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright, 1959)

The Country Parson

Voice of the People

## Frightened Mother Has Problems With Teenager

I am the mother of a teenage boy and have the normal problems. The other night I let my son go to a dance saying, "Don't be too late, son."

★ ★ ★

**At two a. m. I was still sitting up waiting, frantic for I was sure that I had spoken clearly and had heard his agreement. I was gripped with fear, when he came jauntily whistling down the road. As a result, I took away his future privileges, confined him to the house and spoke no kind word for two days. But I wonder if I was wrong?**

Maybe it would have been better if I had tried to tell him what those long hours of waiting and worrying had done to me.

★ ★ ★

Surely in most of our children there is goodness, compassion, and kindness. They just don't know that we parents go through these things. Perhaps if they did know, they'd give it some real thought.

78 East Blvd. S.

### Reader Questions Dulles' Greatness

Now that the mauldin gush of praise for the late John Foster Dulles has subsided, it becomes possible once again to offer a critical opinion of the man. He had incredible energy and great personal courage. But did his corporation lawyer training really render him capable of understanding problems of Africa, Asia, even Europe?

★ ★ ★

**First he openly transformed his position into a pulpit from which he preached Protestant Christian dogma. Second, he openly admitted the heaviest reading he did for pleasure was the detective novel. How could he have ignored the rich literary tradition that so beautifully expresses the heart and soul of each country he dealt with?**

★ ★ ★

If he were a great statesman, where is the proof? Communism seems to be making steady inroads in Africa and Asia. We suddenly realize that, while Dulles brainwashed embassy heads played footsie with various dictators and Social elite in Latin America, Communists have been making steady progress there, too.

★ ★ ★

I'm writing this because I think Herter is an immense improvement. I see no reason why he should be cowed into walking in the shadow of the supposedly great Dulles.

**Kenneth G. Burns**

60 Cottage

### Grateful Parents Express Thanks

A thank you comes from the bottom of our hearts, but mere words could never express the gratitude we feel toward the wonderful people of Keego Harbor for their efforts in saving the life of our little girl last Saturday. She's home and doing fine now, but a day will never pass that we won't thank God for all those who helped. I just wish every mother that might have had such an experience while driving alone could be assured suck quick and aind efficient help. God bless all of you.

**Mr. and Mrs. William A. Halcom**

428 Linda Vista Dr.

### Suggests Solution for Dog's Water

I didn't write the letter to Caretaker, but I do admire anyone who will call attention to a dog without water.

★ ★ ★

**Caretaker didn't intend to neglect his dog. Most dogs will play with their dishes. So when we had dogs, my dad got half gallon crocks or a tin can will do and dug a hole within reach of the dogs. He buried the crocks and it kept the water cool and the dogs never went thirsty. And there wasn't a lot of mud around the dog houses.**

★ ★ ★

Please don't think me nosy, but I wouldn't want to go without water and be tied up and neither would you.

**Walled Lake Reader**

### Questions Aid for Disabled

What is the reward for almost 16 years of Army Service in the Para Medic., after one's back has been broken, unabling him to do heavy work?

**A friend of mine knows, for he is employed as a waiter at a local restaurant. Because of his condition the unemployment service cannot place him anywhere else.**

I wonder how many times he had to jump from a plane to help someone in need. Now will anyone come to the aid of men like him? To me he is great because he has humbled himself to do the best under the circumstances.

**Louis C. Bush**

Hotel Chapman

### Portraits

Case Records of a Psychologist:

## Describes Device to Cure Enuresis

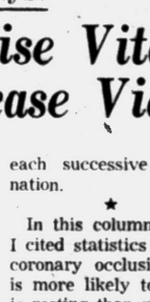

***Jerry has millions of unhappy victims who are in the same boat with him, so save this case or mail it to some member of the family who needs such help. Send for the "N-Uroclast" as a surefire final method for breaking this nuisance habit. You can build one yourself with a doorbell buzzer and a couple of dry cell batteries.***

**By DR. GEORGE W. CRANE**

CASE C-404: Jerry B., aged 11, is a victim of a common ailment.

★ ★ ★

"Dr. Crane," his mother anxiously began, "Jerry is a brilliant student, but he is developing a severe inferiority complex.

DR. CRANE

"For he still has occasional lapses at night and is guilty of enuresis.

"He tries to break himself of habit, but once in every few weeks he has a relapse.

"Is it weak kidneys or a weak will? And would hypnosis help him stop this nuisance habit?"

**ENURESIS FACTS**

By the age of 4 years, approximately 80 per cent of youngsters have broken themselves of wetting the bed at night.

★ ★ ★

But, alas, that other 20 per cent may continue to be victims of enuresis all through grade school. Indeed, hundreds of college students still are fearful of an occasional relapse.

And many soldiers as well as sailors were discharged from our military forces because of the same nuisance habit.

**It is not an indication of a weak will or a low I. Q., and it seldom has anything to do with weak kidneys. Hypnosis can often buoy up the morale of a victim and help him break the bad habit.**

But hypnosis is not needed in most cases if the victim will simply face the facts.

★ ★ ★

What causes a person to be guilty of enuresis, is the fact he has developed the habit of ignoring certain pain sensations from a full bladder that reach the brain.

**He is thus like the adult who has also learned to ignore the ringing of his alarm clock. How can you retrain yourself to hear the alarm clock after you have ignored it for weeks or months**

That is exactly tme problem which Jerry faces! How can he learn to heed the pain sensations from a full bladder?

★ ★ ★

First, he must work up intense resolution and even anger at himself till he vows he will pay attention.

**This means he must sleep lightly, like the person who tries to awaken at a definite hour in the morning without any clock whatever.**

Such a sleeper doesn't drift off into his normal deep slumber for he knows subconsciously he must keep checking on himself so he will awaken on schedule.

**ENURESIS ANTIDOTES**

You parents are no longer helping your bed-wedding child if you waken him and even carry him to the bathroom in the middle of the night.

★ ★ ★

No, the victim must take over full responsibility for waking himself.

A child, unaccustomed to an alarm clock, can often do the trick by setting an alarm to ring about 2 hours after he goes to bed, for that's when his first "accident" often occurs.

**If he will wind the clock, set the alarm and then hop out of bed on schedule, he may free himself from slavery to bed wetting in one or two nights.**

In the past, some people have urged a reduction of fluids before

going to bed, but as a sure test, it is wise to overload the child with liquids before bedtime to make sure his bladder registers pain within an hour or two.

★ ★ ★

For further advice about the surefire electrical shocking machine you can concoct for a few dollars, send for the booklet on the "N-Uroclast", enclosing a stamped return envelope, plus 20c (Non-profit).

★ ★ ★

**Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 4c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.**

# Where Is It From? License Plates Tell

LANSING (AP) — Where would a car with the letters AA on a Michigan license plate hail from? PX? UU?

The answers are Wayne, Barry and Grand Traverse county.

"Every summer we get a number of requests from all parts of the state for a list showing which counties have which letters on their license plates," said Secretary of State James M. Hare.

Many of the letters are scribbled notes from children. But the requests come from young and old, Hare said.

**"I suspect that a lot of people play games as they sit on their porches at the house by the side of the road," Hare said.**

"And some parents use license plate spotting as a device to keep their children from getting bored on long trips," he added.

Police and Sheriff's officers use the check list for handy identification. Tourist and resort operators use it to determine what part of the state travelers come from. People who are just plain nosey also find it helpful.

Bob Considine Says:

# Nixons Are Landing by Parachute

WITH NIXON IN RUSSIA—Vice President Nixon is landing here and there in Russia by parachute. So is Mrs. Nixon. So are the people who are following them. So far nobody has yelled "Geronimo!"

★ ★ ★

The rakish TU104 jets in which the Nixon entourage is marching through Georgia, and other Soviet republics, break out big parachutes immediately after touching down on a runway.

**The mammoth engines of the swept-wing jet are not equipped with the "clamshell" reverse pitch devices we find on the Boeing 707 and soon will be seeing on the DC8 and Convair 880.**

So out go the big chutes to help slow down the planes and assist the brakes of the eight-wheel landing gear. Makes quite a sight.

As soon as the jet has come to a stop and begins to whistle over to the administration building, the chutes are cast off—to be picked up by a special ground crew.

**It will come as aid and comfort to the Republican Party to learn that Nixon's 104 has two 'chutes, not one, to help keep him from rolling off the end of the runways.**

The reporters, being expendable, naturally, fly in jets equipped with just one braking 'chute.

★ ★ ★

We are, however, permitted to drag our feet. We felt a little like it on the landing at Leningrad.

★ ★ ★

Our pilot hit the runway in its first ten feet as gracefully as a fine skier returns to earth, but he must have been doing at least 160.

**Incidentally, the Russians have a niftier method of unloading plane passengers than we do. The ramp, or steps, are self-propelled.**

A guy in a uniform drives the apparatus right up to the plane, steering his odd vehicle from a low-slung seat far below the towering edifice overhead.

★ ★ ★

The ramp is much more substantially built than ours, with handrailing as ample as a czar's balustrade. We handle our tinny ramps at home pretty much as cheops built his pyramid.

---

The delicate question of whether Nixon should visit the mausoleum of Lenin and Stalin in Red Square was solved by compromise. He would have been happy, he said, to have visited Russia's tomb of the unknown soldier and lay a wreath.

Russia don't have one, as such. So the whole thing was passed over.

---

You've got to get up pretty early in the morning, by gum, to find a more eager beaver in Russian journalism than Sturua, Izvestia's man on the big story.

★ ★ ★

While the rest of us were bumbling along, taking humdrum notes on what Nixon had to say during his trip through Moscow's impressive exhibition of economic achievements, "Scoop" Sturua snared all sorts of goodies. Here are some:

**"From the main pavilion the guests passed over to the pavilion of the Uzbek S.S.R. On the stairs an old man aproached Mr. Nixon. This is Thepensioner P. Tsypin. 'If you want to carry out a peaceful policy,' he says, 'why do you maintain occupation troops in West Berlin, why do you back the subversive elements there?'" Old Tsypin isn't going to be dropped from no rolls.**

"Employe P. Grigoryev told Mr. Nixon that the so-called Captive Nations Week proclaimed in the United States is considered by Soviet people and our friends in the Peoples' Democratic States as a crude provocation. The vice president preferred not to answer directly." Probably couldn't explain captive to good old Grig, who apparently subscribes to the Congressional Record.

---

At the same visiting place, Nixon and Dr. Milton Eisenhower entertained their Russian hosts by telling them how hard their earlier lives were.

**Nixon spoke of hand-me-down clothes in his family, as a kid. The President's brother spoke up and said, "In our family we had the same situation, and I as the younger one was the unlucky one, I always had to wear the old things."**

Okay, Miltie, where's your brother Ike's five-star suit?

## Grounded Executive Keeps Fly-Boys Happy

NEWARK, N. J. (AP)— Guy Drake can't fix airplanes or fly them but at 27 he's head of the Newark Air Service at Newark Airport, one of the country's largest general aviation bases.

**"Aviation-wise I'm just a neophyte," says the blond executive who took over the family business a year ago and since then has made it pay.**

Drake has started serving pots of coffee to pilots and customers who look like they need a lift. "It's just a question of applying the important service philosophy of keeping the customer happy," he says.

Searches for Ironclad

## Didn't Find Sunken Ship

DUNDEE (AP) — Retired mail carrier Raynor T. McMullen returned home unsuccessful but undaunted Wednesday from his third attempt to find the sunken hull of the Civil War ship U.S.S. Monitor.

★ ★ ★

"If my health still is good," McMullen said, "I would like to go back and try again next year."

**McMullen left for Cape Hatteras, N.C., July 20, hoping to find the famed Union ship in the watery grave into which she sank during a storm following her historic battle with the Confederate Merrimac.**

The iron-clad Monitor and Merrimac slugged it out March 9, 1862 in Chesapeake Bay. The battle is rated as the turning point in the use of metal vessels over wooden ones by the navies of the world.

The Monitor sank Dec. 29, 1862 while being towed by another vessel during a storm.

McMullen used two divers and elaborate underwater search equipment, including magnets, in his unsuccessful effort to find the sunken vessel. He had hoped the magnets would attach themselves to the ship's turret.

"They were impractical," he said. "They didn't have enough magnetic pull and the roll of our ship made contacts erratic."

McMullen's search for the ship stems from a boyhood fascination with the story of the battle between the two ironclads. He previously tried to locate the ship in 1954 and 1958.

# Lifetime Bad Check Career Ends for Glib Impersonator

WASHINGTON (AP)—Frederick Emerson Peters admired people of intelligence, position and reputation. So he spent a lifetime meeting them, conversing with them, and handing them worthless checks.

That lifetime came to an end Saturday in a hotel in New Haven, Conn. Peters, 73, died of a cerebral hemorrhage, leaving behind a long record that the FBI considers one of the strangest in the annals of American crime.

A stickler for detail and a glib talker, Peters liked to pose as a high government official or a celebrity or a highbrow and then pass off a check just big enough to live decently. His checks often netted him less than $10, rarely more than $50.

In 1923, for example, he entered a Connecticut art store and identified himself as Commander Rogers, skipper of a Navy ship running down bootleggers. He bought three portraits valued at $91.50 and asked the dealer to ship them to his "father," Adm. C. P. R. Rogers of Maryland.

Then Peters gave the dealer a check for $100, receiving $8.50 in cash as change.

Peters followed this pattern throughout his life, sometimes asking a storekeeper to ship the goods to author Booth Tarkington or to the Marines or West Point.

★ ★ ★

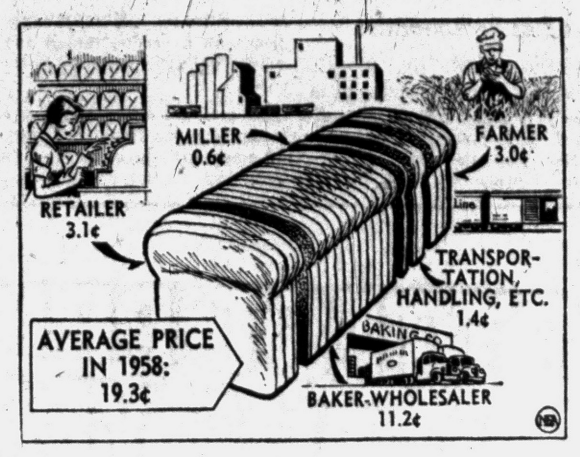

In his adventures, he used such names as Franklin Roosevelt II, Gifford Pinchot II, Theodore Roosevelt Jr., and Philip Wylie.

Not all his activities caused damage. Posing as administrative secretary to the undersecretary of agriculture, he once called on an instrument firm in Rochester, N. Y., and, in the course of conversation, suggested a change in the design of a rain gauge.

The company lost $60 to Peters on a worthless check. But, after he left, it changed the design as he suggested and improved the gauge.

In his long career, Peters passed checks in almost every part of the country. He served sentences in several federal penitentiaries and state prisons.

He was born in West Salem, Ohio, in 1885 and his first worthless check came to the attention of police in 1907, when he was 22.

**HOW YOU SLICE IT** — Bread prices have risen every year since 1945, reports the U. S. Department of Agriculture. While bread rose to a new high in 1958, the farmer's share dropped to 16 per cent of the price, as against 24 per cent in 1948. But increases in marketing charges more than made up the difference. Sketch above shows how the price you pay for a loaf of bread is sliced up among those who bring it to you.

### Admits Paying Premium on Policy

# Chicago Insurance Agent Says Hoffa Owes Nothing

LANSING (AP)— A young Chicago insurance agent has testified he paid a premium on a $50,000 life insurance policy issued for Teamster Union president James R. Hoffa of Detroit.

"But he paid me back. Hoffa doesn't owe me a cent," said Allen M. Dorfman, 36, who reported doing a four million dollars yearly insurance buiness with Michigan Teamsters.

**Dorfman testified yesterday before state insurance commissioner Frank Blackford in a continuation of a hearing to show cause why his Michigan insurance license should not be revoked.**

The hearing was adjourned until Sept. 1.

Stanford Clinton, attorney for Dorfman, asked dismissal because of lack of evidence of a charge that Dorfman paid the premiums on 13 policies issued by one or more of his 14 agencies. Blackford said he would rule on the request upon resumption of the hearing.

Dorfman also testified he paid an $875 premium on a policy issued for Frank E. Fitzsimmons, Detroit Teamster official, and a $246 premium on a policy issued in the name of Fitzsimmons and his son. Both of these payments also were refunded, he said.

Dorfman previously testified he made about $200,000 annually from the group insurance policies for some 34,000 Michigan Teamsters. He also writes policies covering more than 100,000 other Teamsters in the union's central states conference.

**The insurance commission also charged Dorfman temporarily appropriated for his agency $51,561 in premiums from Teamster group insurance plans in 1954, remitting them to the insurer, the Northeastern Life Insurance Co., three years later.**

It also charged he obtained a non-resident Michigan license last year as agent for Northeastern when he no longer had a contract with the company.

## Still Use Mahogany

LANSING — Mahogany in your car? Not anymore, since plastics and light metals appeared, but the car industry still is a substantial user of this important wood in making automobiles.

Pattern men use it to reproduce in exact duplicate various parts of the car, such as hood or fenders. These duplicates become the master models for the actual production dies which are made of huge blocks of steel.

Oldsmobile at its main plant in Lansing uses between 2,000 and 3,000 feet of Honduras mahogany a year in preparing these die models.

Civilian consumption of margarine in the U.S. last year was 9.1 pounds per person, compared with 8.5 pounds for butter.

COMMUNITY NATIONAL BANK
OF PONTIAC
Pontiac, Michigan

NOTICE OF SHAREHOLDERS' MEETING

Notice is hereby given that, pursuant to call of its directors, a special meeting of the shareholders of Community National Bank of Pontiac will be held at its banking house at 30 North Saginaw Street, in the City of Pontiac, State of Michigan, on Saturday, August 22nd, 1959, at 10:00 a.m., for the purpose of considering and determining by vote whether an agreement to merge the said bank and the Romeo Savings Bank, located in the Village of Romeo, State of Michigan, under the provisions of the laws of the United States, shall be ratified and confirmed; and for the purpose of voting upon any other matter incidental to the proposed merger of the two banks. A copy of the aforesaid agreement, executed by a majority of the directors of each of the two banks, providing for this merger, is on file at the bank and may be inspected during business hours.

July 17, 1959.

A. G. GIRARD,
President

July 18, 20, 21, 22, 23, 24, 25, 27, 28, 29, 30 and 31
Aug. 1, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, 17, 18 and 19, '59.

BIDS WANTED

Sealed bids will be taken for furnishing, and installation of a 75,000 unit gas space heater together with the necessary controls in the Goodrich Farms Pumphouse, 5685 GRIGGS Drive, Clarkston. Bids will be received until 8:00 P.M. Tuesday, August 4, 1959, at the Township Office, at which they will publicly be opened. The Board reserves the right to reject any or all bids. The Township has the necessary permits and the gas service will be in the building.

Sincerely Yours,
HAROLD J. DOEBLER,
Township Clerk
July 28, 30, 1959

7. W Frac. ½ of NW Frac. ¼ Exc. E 20 acres of SW Frac. ¼ of NW Frac. ¼ 80.64 A
8. That part of E 20 acres of SW Frac. ¼ of NW Frac. ¼ lying NLY of Cen. line of road 16.75 A
9. That part of E 20 acres of SW Frac. ¼ of NW Frac. ¼ lying SLy of Cen. line of road 3.32 A

From the Huron Valley School District and adding the same to the Walled Lake Consolidated School District of Oakland County, Michigan.

You are hereby notified that a public hearing will be held at the Oakland County School Office Building, 1025 N. Telegraph Road, Pontiac, Michigan on the 13th day of August, 1959, at 4:00 o'clock p.m. to consider the advisability of the above described territory transfer.

The Oakland and Livingston County Boards of Education, acting jointly, will determine:

1. Whether the proposed alteration of boundaries will be made
2. The effective date of the transfer, if ordered;
3. Whether or not any personal or real property is to be transferred and, if so, the equitable consideration thereof.

Any interested parties will be given an opportunity to be heard at the time and place above quoted.

Dated at Pontiac, Michigan, this 27th day of July, A.D. 1959.

BOARD OF EDUCATION OF
THE COUNTY OF OAKLAND
By: WILLIAM J. EMERSON,
Secretary
July 30, '59.

NOTICE OF INTENTION TO CONstruct Water Main in Palmer Drive.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held July 28, 1959 by resolution it was declared to be the intention of the City Commission to construct Water Main in Palmer Drive from Mt. Clemens Street to and including Lots 20 and 36, Assessor's Plat No. 143 at an estimated cost of $5,686.16, and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Palmer Drive from Mt. Clemens Street to and including Lots 20 and 36, A.P. No. 143 shall constitute the special assessment district to defray $4,804.49 of the estimated cost and expenses thereof and that $881.67 of the estimated cost and expenses thereof shall be paid from the Water Works Improvement and Extension Fund.

NOTICE IS HEREBY GIVEN

That the Commission of the City of Pontiac, Michigan will meet in the Commission Chamber on August 4, 1959 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

Dated July 29, 1959.

ADA R. EVANS,
City Clerk
July 30, '59.

## She Cops the Honors

SOUTH ORANGE, N. J. (AP)—A policewoman headed the honor roll of the graduating class at Seton Hall University's police science school.

Policewoman Lizzetta Smith of Newark beat out 24 police sergeants and patrolmen with a 3.59 average out of a possible 4.

Commercial banks protected by the Federal Deposit Insurance Corporation have total deposits of about 226 billion dollars.

## Needles Personalities

GEORGETOWN, Ky. (AP)—Miss Ellen Duffy draws pictures of famous personalities. She doesn't use pencil, pen or charcoal, though.

**Her portraits—which include Mrs. Eisenhower, Will Rogers and Princess Margaret—are done with a needle, thread and "just ordinary white Swiss goods."**

She says she copies pictures of the personalities from newspapers and magazines, traces them on the cloth, then stitches the portraits.

## It's Like This, Son

MADISONVILLE, Ky. (AP)—James R. Peyton, 41, rounded a sharp curve with his car and collided head-on with a truck. When Peyton got out to check the damage, he found the truck driver was his 18-year-old son, Gary.

On Feb. 6, 1779, France became the first nation to recognize the independence of the United States.

## Asia Well Populated

WASHINGTON — The people living in Asia, estimated at more than 1.3 billion, are more than double the number in Europe and four times the combined population of the western hemisphere.

## He Pulls Strings for Pay

PROVIDENCE, R.I. (UPI)—Yo-Yo champ Herb Carter has a stock answer for people who ask him if he's in his second childhood.

"Listen buddy," he says, "this business has its ups and downs — like sometimes I vacation in South America and sometimes I got to be satisfied with a new car."

**Herb, who is in his early 30's is actually one of the several Yo-Yo champions in the country. Employed as a sales promotion manager in the New England area, for a Yo-Yo company, he has a most serious opinion of a business that has its ludicrous aspects.**

"Yo-Yo teaches a kid a sense of fair play," he says. "It's a great game in which the individual is important; one might say it's indicative of our democratic way of life."

Herb has performed his Yo-Yo legerdemain throughout the world — he's entertained Vice President Nixon's children and the Prince of Indonesia, among others.

"I was all set to do my act in Cuba — but this Castro guy took over and we weren't sure how he'd react to a Yo-Yo. So we cancelled."

Carter, who has been spinning a Yo-Yo for eight years, says that "they go crazy for them overseas. Maybe it's because of the better way in which they promote stuff like this — anyway, in South America it was nothing unusual to see ads in the papers proclaiming: 'Llego el Yo-Yo, Caballeros' or 'Play Yo-Yo, fellas.'"

**Carter goes from place to place with a crew or by himself, organizing contests and baffling wide-eyed youngsters with his bag of tricks.**

"And the Yo-Yo is getting better every day in this age of modern design," he says with a grim. "Like this expensive model with the aluminum-engineered axle. Or this baby with the rhinestones."

So the laughs and the jokes don't bother Herb. "I figure there'll be at least 60,000 kids — and some of the jokesters too — spinning these jobs in New England by the time I finish up here. That's a lot of green Yo-Yo."

Where to next?

Herb has hopes of getting to Russia one day.

## Renting Bees Honey of a Job

LEWISTON N.Y. (AP)—It's not all honey in Howard Myers' business by any means. He's been stung plenty of times.

But by and large the millions of bees he rents out for a living have been good to him and he's grateful.

When pollination time comes in this fruit-growing section of upstate New York, the orchard owners just naturally think of Myers.

**Nature doesn't provide enough amateur bees to carry pollen to all the trees in the area, so growers rely on Myers' 35 million professionals.**

Myers, 72, has been working been eating honey and getting stung since I was a boy of 10," he says.

It costs $7 a day to rent a colony of 35,000 bees and the busy little buzzers really put their hearts into their work. They can pollinate an average size orchard a day. "They literally work themselves to death in four months," says Myers.

**In addition to rental fees, Myers and Davis realize about 100 tons of honey a year from their winged employes, marketing it at wholesale price of $24,000.**

With income like that Myers with bees most of his life. "I've admits that working with bees is a sweet business. "They still fascinate me after 62 years," he says. "Bees have been good to me and they've been good to the human race."

## Flint GM Institute Prepares Engineers

FLINT—Out of a rambling but modern four-story building in Flint, Mich., has come a vast amount of General Motors' engineering know-how.

General Motors Institute, through its Cooperative Engineering Program, supplies GM with some 25 to 30 per cent of its engineers.

**Although graduates are not required to work for GM, approximately 70 per cent of the more than 7,000 alumni are currently with the corporation.**

General Motors Institute provides a variety of courses ranging from degree-granting programs in mechanical and industrial engineering through, for example, blue print reading, offered as a spare time course.

It is estimated that General Motors Institute has given instruction of various kinds to more than 500,000 students since it was established in 1919.

## Stamps Recall History

NEWARK, N. J. (AP)—Henry J. Puc, who was born in Poland 30 years ago, has a colorful way of reminding himself of his country's history.

He keeps a collection of postage stamps issued by the different governments Poland has had since 1918: Monarchy, democracy, dicatorship, government in exile and Communist state.

## We Can't Get Away

SAN DIEGO, Calif. (AP)—A motorist stopped by motorcyle policeman Ross Beronda remarked about the woman's voice giving instructions on his police radio.

**"That must be as bad as having your wife around," he said.**

"You could be right," observed Beronda.

The voice was that of his wife—Mrs. Marie Beronda, one of the woman operators at headquarters.

Total U.S. supplies of meat for 1959 are estimated by industry sourses at 27 billion pounds, about one and a half billion pounds more than in 1958.

# News From Men in the Service

Electrician 2. C. Gordon Oak, has returned to his ship, the USS Newport News, at Norfolk, Va., after a recent 20-day leave with his parents, Mr. and Mrs. Francis Oak, of 154 N. Lake Angelus road. Oak enlisted after graduation from Pontiac Central High School in July 1956. He will receive his discharge in November.

★ ★ ★

Recruit Drum Major Gary B. Sallee, son of Mr. and Mrs. Carl L. Sallee of 556 E. Beverly Ave., is undergoing basic training at San Diego, Calif. Sallee led the Recruit Training Command Drum and Bugle Corps which outperformed an estimated 25 units to take the award for the best band in the 55th Annual Orange County July Fourth Parade at Huntington Park, Calif., and received a trophy for the 63 musicians. A Pontiac Central High School drum major last year, he will complete his recruit training Aug. 11 and will be assigned to duty after spending a leave here.

Mr. and Mrs. Sallee have another son, Carl, who is stationed in the Mediterranean aboard the USS Intrepid as a fireman apprentice.

G. B. SALLEE

Two area men are participating in "Operation Inland Seas" a cruise of 28 warships to the Great Lakes. Midshipman 3.C. Robert L. McDonald, son of Mr. and Mrs. Cameron H. Clark of 65 Summit Ave., is serving aboard the destroyer USS DuPont. Aboard the destroyer leader USS Willis A. Lee is Midshipman 3.C. Patrick M. Kelley, son of Mr. and Mrs. Maxwell H. Kelley of 729 N. Main St., Milford.

Both men boarded the vessels June 4 for the official opening of the St. Lawrence Seaway and will visit 27 cities in seven states bordering the Great Lakes before disembarking Aug. 5. This is the first time a major fleet has been on the lakes since the War of 1812.

Recently named soldier of the month for the 3rd Missile Battalion, 517th Artillery at the Harrison Township Nike-Hercules Site was Sp. 4.C. James D. Magner. He is the son of Mr. and Mrs. Fay K. Magner, of 643 E. Tennyson Ave. A launcher crewman, he was selected on the basis of his contribution to the unit's mission, knowledge of military subjects and current events, and personal appearance and bearing.

Magner entered the Army in 1949 and saw action in the Korean conflict with the 1st Armored Cavalry Division, earning the Combat Infantryman's Badge. Discharged in 1952, he re-enlisted in 1958 for duty in the Detroit Nike Defense.

## Jailed for Being Hoggy

NIAGARA FALLS, Ont. (UPI)—Alexander MacDonald, 42, who has a farm, got three months in jail for stealing three pigs. MacDonald was previously convicted for the theft of a cow.

## Smaller Than Maine

COLON — Area of the Republic of Panama is slightly smaller than the state of Maine. It is 425 miles long and varies from 31 to 118 miles in width.

# Firm to Study Law Business

## Will Teach Lawyers How to Equate Time and Charges

ST. LOUIS (UPI) — The average lawyer in Missouri has only about 21 hours a week to devote to his practice and, unless he's working for a salary, earns about $18,000 a year before taxes.

★ ★ ★

These figures were determined by S. J. Capelin Associates, who have been hired by the Missouri Bar Association to conduct an "engineering" program designed to tell attorneys how they can improve their business.

**The Capelin firm has already discovered that the average lawyer has about 1,100 hours to "sell" annually, when you deduct days off, holidays, charity work, politics and all the rest.**

It also found that the average income of non-salaried lawyers in 1957 was $18,000 with a net of $11,834, that half of all lawyers made more than $10,000 a year and that salaried attorneys averaged $8,463.

The purpose of the Capelin study will help lawyers decide how much they should charge for such matters as divorces and title closings where there is no way of fixing a flat fee since each case involves so many different factors.

## Top Vanilla Vendor

MEXICO CITY — State of Vera Cruz in Mexico supplies an estimated one-third the world's supply of vanilla extract and some associated products.

## Torpedo Parts Tiny

WASHINGTON—So intricate are the mechanisms of a modern military torpedo that some tiny parts could be hidden under a persons fingernail.

# General Motors Reports Soaring Gross Income

(Continued From Page One)

tions aboard established a record for any quarter.

Defense sales accounted for about 3 per cent of the Corporation's business during both the second quarter and the first half of 1959.

Net working capital at June 30, 1959, amounted to $2,629 million compared with $2,099 million at December 31, 1958, and $2,025 million at June 30, 1958.

In the first six months of 1959, there was an average of 580,488 men and women employed by General Motors throughout the world and payrolls totaled $1,598 million, compared with 538,998 and $1,328 million, respectively, in the first half of 1958.

**During the second quarter, GM's world-wide employment averaged 576,365 and payrolls totaled $803 million, compared with 500,435 and $628 million in the same period last year.**

In the United States, GM's average number of wage earners was 336,811 for the first half of 1959 and 330,723 for the second quarter, compared with 296,909 and 260,169, respectively, last year.

Weekly earnings in the second quarter of 1959 averaged $117.47 for GM's U. S. wage earners, compared with $103.52 a year ago.

★ ★ ★

Unit sales of cars and trucks from GM plants throughout the world in the 1959 first half totaled 2,309,711 or 26 per cent above sales for the corresponding period of 1958. For the second quarter of 1959, sales of 1,178,231 units exceeded the total for the same period last year by 38 per cent.

★ ★ ★

Unit sales from GM plants in the U. S. totaled 1,840,142 in the first half of 1959 and 925,437 in the second quarter. These totals represented gains of 30 per cent and 46 per cent, respectively, over the corresponding periods last year.

Sales of Canadian-produced vehicles in the second quarter of 1959 were about the same as in the like period of 1958, and sales of cars and trucks manufactured in General Motors overseas plants were at a new high, 22 per cent above the second quarter of 1958.

# Sales Tax Package Back in Committee

(Continued From Page One)

finding another legislative vehicle to hook their use tax plan onto. They were confident this could be done.

The course they followed was merely one to save time. To get around a constitutional requirement that a bill must lie five days in each legislative chamber.

Williams called the package a "Rube Goldberg" device to sock the sick, aged and poor, "clip small businessmen" and spare the highest corporate profits in history.

Sen. Lewis G. Christman (R-Ann Arbor) introduced a bill today to raise one million dollars by hiking the tax on insurance companies.

The bill would boost the annual privilege fee from 5 to 7½ mills on each dollar of paid-up capital. The $50,000 ceiling on the tax would be removed.

The bill was not eligible for consideration this week along with the Senate sales tax package but would be available if additional revenue were needed, Christman said.

# Nixon Gets Into Mines

(Continued From Page One)

viet Union has been warmer than he expected, especially in Siberia, which has been a closed region to most foreign visitors.

**Thousands turned out in Novosibirsk and Sverdlovsk to applaud him.**

Nixon canceled a dinner in his honor Wednesday night to work on a speech he will give from Moscow Saturday night over the Soviet radio and television network. In it he will urge that Siberia be opened up to more foreign visitors and to more ideas from outside.

Nixon told hecklers here in Sverdlovsk that Western radio broadcasts to them are being jammed and that they do not know the truth.

**The Soviets ought to have the right to hear both sides, he said, urging them to listen to his broadcast.**

The hecklers' themes in both Novosibirsk and Sverdlovsk were markedly similar, and Nixon's press aide, Herbert G. Klein, hinted the Soviet government had primed agents with hostile questions.

★ ★ ★

The hecklers usutlly asked why the United States maintained bases around the Soviet Union and why the United States wouldn't ban nuclear weapon tests at once.

# State Birth Rate for Half Year Drops 2nd Time

LANSING (UPI) — Michigan's birth rate is falling off, the State Health Department said today.

★ ★ ★

Births during the first half of 1959 trailed the same periods of 1958 by 1,793 and of 1957 by 2,297. There were 93,457 births this year through June.

★ ★ ★

Michigan's record year for births was 1957, when 207,277 babies were born.

Nearly 1,600 deaths in the U.S. in 1958 were caused by "catastrophes" — accidents in which five or more persons perished. This was about 100 fewer than the preceding year.

# Nikita Wants Rush Into Summit Talks

(Continued From Page One)

day, with or without settling the grave issue of Berlin.

★ ★ ★

High U. S. officials said the Western powers will make every effort in the dying days of the Geneva conference to reach a Berlin accord.

**But they emphasized only an end to the Soviet threat to West Berlin will persuade the United States to accept a summit conference. The French attitude toward a summit meeting is similar.**

"We believe it is high time for the heads of government to take on this difficult job," Khrushchev declared in a speech published today.

★ ★ ★

"Mr. Eisenhower knows what war means," said Khrushchev. "During World War II when he was commander-in-chief of the Anglo-American troops on the Western front, Mr. Eisenhower fulfilled all the terms of the agreement with us."

★ ★ ★

The Soviet leader did not suggest a time limit for winding up the Geneva conference but said that the foreign ministers had already accomplished "positive work."

**He said the ministers should make "fresh efforts to search for mutually acceptable solutions and agree on what they can agree."**

The British official who thought Khrushchev's speech was a good one said the Soviet leader's remarks had indicated he clearly wants a summit conference on Berlin.

**SEEKS WEST ACCORD**

British Foreign Secretary Selwyn Lloyd is expected to spend the remaining time in Geneva trying to get a Western agreement to go to the summit.

**Lloyd probably will argue that differences between the Soviet Union and the West have been substantially narrowed.**

Secretary of State Christian A. Herter and Lloyd conferred this morning on disarmament questions they may bring up with Soviet Foreign Minister Andrei Gromyko before the Geneva meetings end. Lloyd told reporters he and Herter had not talked about the German problem.

One ranking U.S. official, speaking privately, said President Eisenhower has stated many times and emphasized again Wednesday that he will not go to the summit without prior Soviet assurances lifting the threat to Berlin. No agreement is now in sight containing such assurances.

# Floating Porches Swarming Over Oakland Lakes

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

SMALL AND MIGHTY — This little eight by eight-foot craft only took William Munro a week to build, and he claims it is as safe for his wife and children as being in the living room. Munro builds and sells these new-type lake conveyances, and has literally been "swamped" with orders.

LAZY-DAY PLEASURE — William Weicht uses his foot to steer his home-made pontoon raft around Williams Lake as his family and friends enjoy front-porch comfort in the middle of the lake. He figures it cost him approximately $300 for his "African Queen."

## Many in County Build Their Own

### Family Crafts Ideal for Fishing, Picnics or Just Relaxing

By REBA HEINTZELMAN

"Floating porches" are rapidly becoming one of Oakland County's favorite family building projects, according to lake property owners engaged in the activity.

These powered, fancy rafts can accommodate more people, more safely than boats, are inexpensive and fun to design and build yourself.

There are two kinds of these glorified rafts — the commercially made and the "do-it-yourself" types and both are propelled by low-powered outboard motors.

**Not built for speed, most of the pontoon crafts floating about on the county's inland lakes, accommodate from two to 20 people. A group may board a pontoon boat carrying tables and chairs, lounges, games and even an outside grill for meal-preparation.**

It's a fisherman's delight. If stubborn fish refuse to nibble a hook on one side of the pontoon, the angler can go as far as 16 feet away, on the other side of the float to try his luck.

★ ★ ★

Most of the commercial and homemade pontoon rafts are approximately eight by 16 feet, have a three-foot-high railing around three-quarters of the surface area and are powered by five-horse-power motors.

★ ★ ★

Just completed is the "African Queen" designed and built by the William Weicht family which lives at Williams Lake.

Ten sealed 50-gallon oil drums from the base of the floating platform, allowing many people to walk any place without so much as one small tilt from over-weight. "However, we don't try to throw our weight around," said Weicht (pronounced wait).

**HAS PIPE RAILING**

Around the outside of the deck, a railing made of three-quarter-inch plumbers pipe is painted shining silver, and has bright colored plastic strips waving in the breeze as the boat moves across the lake.

Even at night there is little danger of being hit by a speeding boat. The African Queen has varicolored insect repellent lights powered from a car battery installed all around the top of the gaily fringed canopy. From shore, the floating porch resembles a bright tiny toy.

**For more than a month, Allen (Bud) Hawke and his two boys Tom and Terry worked on blueprint plans for their "Silver Queen," so named for Silver Lake back of their home on Dixie highway.**

Finally, after three weeks of spare-time, back-breaking work, a unique double-paddle boat was launched, complete with handmade pontoons, railing and powered by a one-cylinder motor from Hawke's tool and die company in Clarkston.

★ ★ ★

Nineteen-foot long pontoons were welded together from flat pieces of sheet metal. Three-quarters of the eight by 15 foot deck is encircled by a fence and gate for "little-kid" safety and the rest of the area is used for diving-off.

The Silver Queen is different than any other, because it is propelled by swishing paddles mounted at the stern. Hawke said his craft eventually will have a canopy with a fringe on top, and a stationary table with matching chairs.

**WIFE BALKS**

When William Munro of Waterford got the notion that he wanted a little boat to take his family for rides on the lake, his wife Dorothy "balked" at the idea. She does not know how to swim, and maintained that their three children were too little to take out in a boat.

**That's when the determined lake-going Bill decided to design and build something, to accommodate and satisfy the entire family.**

First he made a form to mold eight-foot fiberglas strips, which he then bolted together to form a real professional looking pontoon.

To keep the little boat light, he used plywood for the deck, added aluminum tubular railing and finished with a brightly colored canvas canopy. A quaint touch was added with the installation of a tiny steering wheel, purchased from a boat accessories store, and mounted on the front.

★ ★ ★

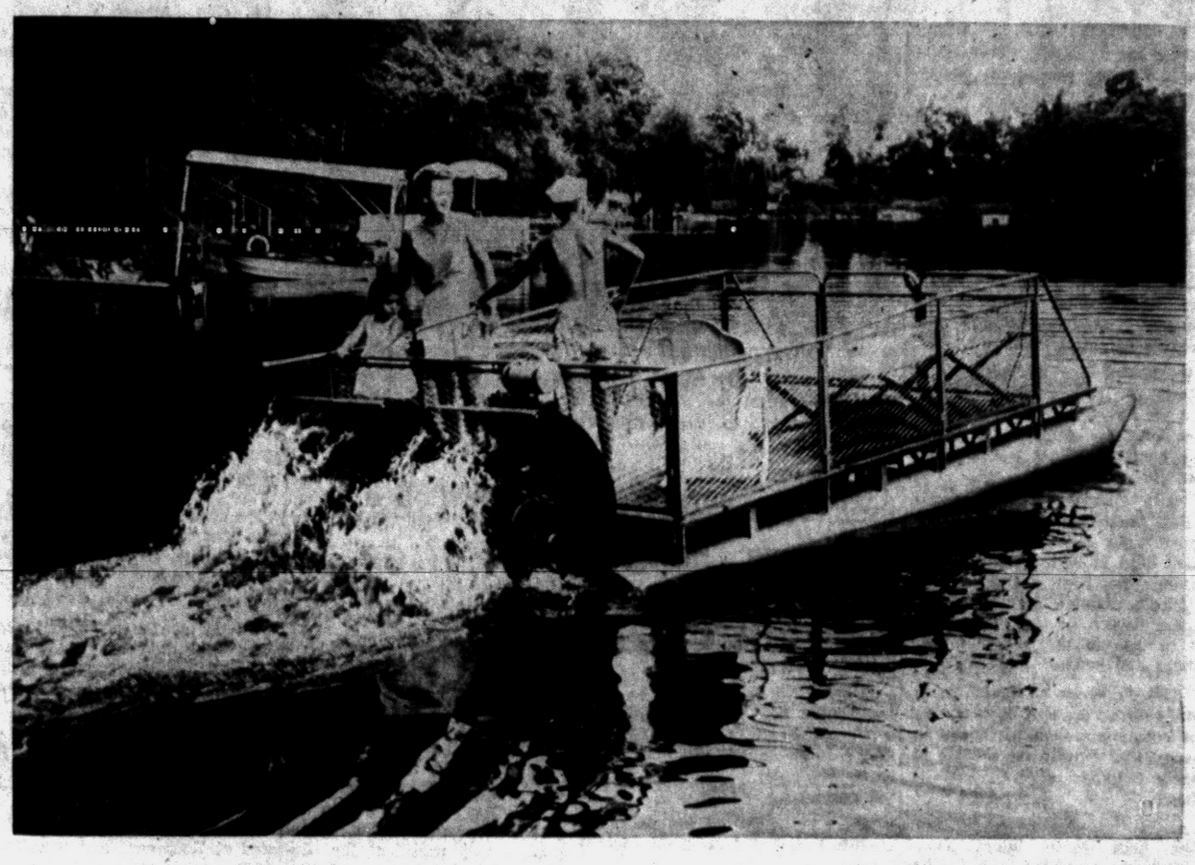

After Munro had the first pontoon boat completed, friends urged him to begin building them to sell, and since a year ago he has been doing just that.

A small eight by eight-foot boat with 12-foot pontoons underneath (for about eight people) sells for approximately $400, and Munro knows where special-built trailers are available for less than $250.

**RULED SAFE**

Water safety experts give their whole-hearted approval of the sudden pontoon-building popularity, and say there is hardly a lake in the county that does not boast at least one of these slow-moving pleasure-filled crafts afloat, and they add that there are as many as 20 on some of the larger lakes.

Seaweed meal, used experimentally in animal feed, has been found to increase milk and egg production. Sheep produced more lambs and better wool, turkey mortality was reduced and pigs fattened up faster with seaweed in their diet.

PADDLE-POWERED PONTOON — The Allen Hawkes have one of the most unique lake crafts in the county. Their "floating porch" is named the "Silver Queen" because it paddles all around Silver Lake. Young Terry Hawke puts the power to the wheels to take his mother, Marianna, and sister Holly for a ride.

## State Auditor General Is Papa Once More

DETROIT (AP) — Mrs. Frank S. Szymanski, wife of the state auditor general, gave birth to an eight pound, 14 ounce boy last night at Providence Hospital.

★ ★ ★

The Szymanskis have four other boys and a girl.

## Burroughs Revenue High

DETROIT (AP) — Burroughs Corp. said today its "world wide revenue for the first six months of 1959 was $167,800,000, an increase of 20 per cent over the same 1958 period." Ray R. Eppert, Burroughs president, said earnings per share were 49 cents, compared with 43 cents in 1958.

## Lightning-Set Blaze Hits Shelby Home

SHELBY TOWNSHIP — A bolt of lightning set fire yesterday to the Walter F. Kopietz home, 46024 Hecker Dr., causing about $3,000 damage, Shelby Fire Chief Clyde Schmidt reported today.

A neighbor is credited with discovering the fire when he noticed smoke billowing from the tri-level home. The Kopietz family was on vacation.

★ ★ ★

Chief Schmidt said the lightning bolt apparently struck the television antenna, followed the hot water baseboard heating system to a bedroom where it set a bed afire.

Flames were confined primarily to the one bedroom, the chief said, but smoke damage was done to the entire house and contents.

## Name 2 Officials for 3rd Boat Parade

UNION LAKE — Emil Lederer, Thruman Farlow and Jack Frick have been named acting committeemen for the third annual Boat Parade scheduled for 1 p.m. Aug. 9 at the fishing site here.

The event, sponsored by the Dewey Beach Improvement Assn. is open to all Union Lake residents. Registration forms are available at Embree & Gregg Real Estate Office, 1565 Union Lake Rd.

The theme of this year's Boat Parade hasn't been announced yet. A few of the past themes have been "A Scene From Hawaii," "Good Humor Truck," "The Old Woman Who Lived in a Shoe" and "The Purple Cow."

## Give Land to Society

DETROIT (AP) — The Ford Foundation has given 25 acres of property in suburban Dearborn to the Detroit museum of art founders society. The property takes in some $80,000 a year in income. The society said the money would be used to purchase works of art for the museum.

## Seeks OK to Build Plant in Addison

ADDISON TOWNSHIP — A Detroit man has approached the Addison Township Zoning Board with plans to build a small plant on a piece of property he owns on Lake George road.

Charles A. Belizzari is asking the Board to approve rezoning of the 40-acre tract from agricultural to industrial to allow him to procede with construction.

**The Zoning Board has set next Tuesday as the date for a second public hearing on Belizzari's request.**

Belizzari told the Board at the first public hearing Tuesday night that he expects to employ about 50 people.

**300 FEET BACK**

He also said that he plans to construct the building 300 feet back from the road and to landscape the property. He also has an additional 120 acres in the same parcel.

**Some 15 people who live in the general area of the proposed plant site voiced their objections to the rezoning at the first hearing, Township Supervisor Frank Webber said today.**

They base their complaints primarily on the fact that they want the township to remain residential and agricultural in character, Webber said.

★ ★ ★

Next Tuesday's hearing will be held at 7:30 p.m. in Rowland Hall, Leonard.

## Newlyweds Make Home in San Antonio

FENTON—Residing in San Antonio, Tex., are newlyweds, Mr. and Mrs. Dan N. Perkuchon who were married at the First Presbyterian Church here. The double ring ceremony was performed by the Rev. Charles Richey, assistant minister of the Royal Oak Presbyterian Church.

The bride, the former Merrie Jo Cohoon, is the daughter of Mr. and Mrs. Claude Cohoon of 1454 Petts Rd. here. Dan is the son of Mr. and Mrs. Peter Perkuchin of 1476 Belford Rd., Holly.

**A full-length gown of lace over satin was chosen by the bride. The fitted bodice featured a sabrina neckline of chantilly lace. She wore a shoulder-length veil and carried a crescent spray of white carnations.**

Maid of honor was Sandra Mahaffy of Davison, a roommate of the bride at Michigan State University. Claudia Cohoon, sister of the bride, served as junior bridesmaid.

Don Perkuchin of Lansing and Ron Perkuchin, brothers of the bridegroom, attended as best man and junior attendant, respectively. Ushers were the bride's brothers David and John Cohoon of Lake Fenton, and Robert McFadyen of Inkster.

A reception was held at the home of the bride's parents immediately following the ceremony.

## Pick Utica School for Scout Exhibit

Officials of the Macomb District of the Clinton Valley Boy Scout Council have picked Utica Community High School as the place and Feb. 6 and 7 as the date for the 1960 Scout Exposition.

The announcement was made today by A. W. Jepson and L. J. Hypnar, cochairmen of the exposition committee.

Arrangements for the two-day event were made through the cooperation of the administration and Board of Education of the Utica Community schools, the chairmen said.

# Income, Assets Fuel Economy

## In Spite of Recession, Americans Are Best Heeled in History

WASHINGTON (AP) — What's fueling the business boom?

The Federal Reserve Board today supplied one answer.

Consumers entered 1959 better heeled financially — both in their holdings of liquid assets and in current income—than ever before in history.

**The board issued its annual survey of consumer finances, based on sampling interviews across the country made by the Survey Research Center of the University of Michigan.**

It showed that in spite of the recession, total personal income last year rose by eight billion dollars, or 2 per cent. Prices rose 3 per cent, so there was a slight loss in real income.

★ ★ ★

But Americans as a group reduced their load of auto installment debt in 1958, increased their savings and bank deposits by the biggest amount of any year since World War II, and enjoyed a sharp rise in the value of their stocks and bonds.

**The emphasis on saving, said the board, "brought liquid assets of consumers to a new peak in early 1959 despite the decline in their holdings of U.S. savings bonds."**

About three-fourths of all families held some liquid assets —meaning checking and savings accounts in banks, shares in savings and loan associations or credit unions, and savings bonds —when the survey was made early this year.

★ ★ ★

About 40 per cent of all families had liquid assets of $500 or more.

About 40 per cent of all families reported an increase in income from 1957 to 1958, while 22 per cent reported a decline. More than half of the farmers—54 per cent—had income increases, and 44 per cent of self-employed businessmen reported increases.

★ ★ ★

Consumer spending on automobiles dropped sharply last year, but expenditures for home appliances and other durable goods increased somewhat.

★ ★ ★

By early 1959 slightly over 70 per cent of families reported automobile ownership, and 12 per cent of all families owned two or more cars compared with 10 per cent in early 1958.

Consumers favored lower-priced cars last year. As a result, there was a drop in sales of eight-cylinder domestic models and a doubling of sales of foreign makes.

★ ★ ★

There was a sharp decline in the total amount of auto installment credit extended, and the amount of auto installment debt outstanding declined over the year. This was more than offset by increases in other types of credit.

★ ★ ★

The board said that the recession caused more than 7½ million families to lose the income of their breadwinners for at least part of the year.

# Austria Expects Many Red Youths to Defect

VIENNA, Austria (AP) — Police today said two Iron Curtain delegates to the Communist-sponsored Seventh World Youth Festival have applied for political asylum in Austria, and the authorities expect more.

★ ★ ★

"So far this morning we have a Hungarian girl and a Czechoslovak boy," a police spokesman said. "But we expect quite a number more — if they can get away from their Communist guards."

**LEAVING THE FORCE** — City Manager Walter K. Willman (left) congratulates Police Sgt. Claude Hodges, who is retiring this week from the city force. Sgt. Hodges, the department's property custodian, has been a Pontiac policeman since August, 1927.

### After 32 Years With Pontiac Police

# Officer Hodges Retires

A veteran Pontiac police officer has retired after 32 years with the local department.

Sgt. Claude L. Hodges, 63, of 155 Dwight St., was the guest of honor at an afternoon reception in the Public Safety Building given by his fellow officers and civilian employes.

**He was presented his policeman's badge, fishing tackle and other gifts.**

Sgt. Hodges has been the department's property custodian since his promotion to sergeant in Jan. 1957.

His retirement becomes official Aug. 11, 1959. He joined the department as a patrolman on Aug. 11, 1927.

He plans to live at his cabin at Sand Lake near Tawas, Mich.

Sgt. Hodges has belonged to the Pontiac Metropolitan Club, serving as a vice president for several years, and the Pontiac Lodge of the Fraternal Order of Police.

### Pontiac City Affairs

# Eleven Sidewalk Projects Approved

Eleven more sidewalk projects passed public hearings by the City Commission Tuesday but two were indefinitely postponed

★ ★ ★

No objections were raised against the following sidewalks:

East side of Stirling avenue, Baltimore to Mount Clemens; west side of Stirling avenue, Madison to Mount Clemens; west side of Tasmania avenue, Michigan to Lois; east side of Arlene avenue, Madison to Columbia; west side of East boulevard between Michigan and the Clinton River bridge; 300 feet on the south side of Perry, Joslyn eastward; 1,000 feet on the north side of Perry, Madison westward; both sides of Robinwood avenue, Baltimore to Manhattan; south side of Rundell street, Saginaw to Hamilton; west side of N. Saginaw street, Rundell to north of Virginia; and the south side of E. Pike street, Paddock to Mariva.

**Deferred because of neighborhood opposition were sidewalks on both sides of Tasmania avenue, Maines to Michigan, and the east side of Roselawn drive, Fiddis to Maires.**

Also passing a public hearing was a proposal to grade and gravel Carlisle street, Columbia to Ann Arbor, and install curbs and gutters.

A public hearing was scheduled Aug. 4 on intention to construct a water main on Palmer drive north of Mount Clemens. It's estimated the assessed cost at $2.25 a front foot will amount to $472 and the city cost $408.

★ ★ ★

Confirmed were assessment rolls covering four recent asphalt recapping projects, including Cass avenue, Pike to Orchard Lake; E. Huron street, Saginaw to Perry; Prall street, Huron to Washington, and Sanderson avenue, Oakland to Cass. Curbs and gutters were replaced on Prall and Sanderson.

Also confirmed was the assessment roll for blacktopping Wyoming avenue, Bagley to Franklin.

**A petition calling for rezoning of two lots at the northwest corner of W. Huron street and Mohawk drive from residential to commercial was forwarded to the Planning Commission for study.**

Webb Fuel Co., 351 S. Paddock St., petitioned for rezoning of a 1,000-foot parcel west of Paddock and north of the Grand Trunk Railroad from commercial to manufacturing. Only signed by one-third of the affected residents, the petition was returned to the company for more signatures.

★ ★ ★

City Manager Walter K. Willman said he would ask Baldwin Rubber Co. officials to take steps to curb noise and smell at their South boulevard plant. Commissioner Robert A. Landry said about 35 persons had complained.

Willman was asked to handle a request for permission to stage a revival meeting Aug. 6-21 on Bondale avenue.

★ ★ ★

The Pontiac Housing Commission sent in a check from the federal government for a $12,731 payment in lieu of 1959 property taxes on the Lakeside Housing Project.

# Court Upholds Ruling on Reds

## U.S. Communist Party Regarded as Controlled by Moscow

WASHINGTON (AP) — The U. S. Court of Appeals, in a 2-1 opinion, today upheld a finding by the Subversive Activities Control Board that the U. S. Communist Party is dominated by Moscow.

★ ★ ★

This means that the party, unless today's ruling is reversed, must register with the attorney general as an agency of a foreign power, and must file reports of its finances and names of its members.

The court decision marks another step in a nine-year battle by the government to require the Communist Party to register under the 1950 Internal Security Act.

★ ★ ★

Two previous rulings by the board calling for party registration were returned by the courts for further proceedings.

## Take Farmington Youth to Hospital After Crash

Loren G. Lemon, 17, of 32175 Hull St., Farmington, was taken to Pontiac General Hospital early this morning with injuries suffered in an accident on Middle Belt road near Lone Pine road, West Bloomfield Township.

Pontiac State Police said Lemon lost control of his car on wet pavement and ran off the road striking a tree. He was treated and released.

# GIs Will Battle Jet Planes With Bazooka Missile

ABERDEEN Md. (AP) — A rocket designed to give a foot soldier some defense against a strafing plane is being developed, according to the Army's weapons research staff.

★ ★ ★

Lt. Gen. Arthur G. Trudeau told about the rocket at a news conference at the Army Proving Ground Wednesday.

The "Red Eye" uses the same principle as the "Sidewinder," an air-to-air missile which is attracted to the heat of an engine.

The ground-to-air weapon is fired by hand from a bazooka-like launcher and is effective up to one mile, Gen. Trudeau said.

# July Auto Production to Equal June's Pace

DETROIT (AP) — Auto production in the United States for July will equal June's fast pace, Automotive News reported today.

★ ★ ★

The trade paper estimated July output at 558,075 cars against 558,015 in June. Sharp cutbacks will come in August when most builders shut down for model changeovers.

**Production for the current week was estimated at 122,672 cars compared with 123,446 a week ago and 62,846 in the comparable week of 1958.**

Truck production dropped to 20,684 units against 25,175 a week ago. In the same 1958 week 16,315 trucks were built.

Canadian production was estimated at 7,365 cars and trucks and 6,849 a week ago and 1,444 a year ago.

# Fireworks Blast Kills Eight in Swiss Plant

OBERRIED, Switzerland (UPI) — An explosion at the Hamberger fireworks factory today killed eight workers and seriously injured ten more.

★ ★ ★

The explosion, the second biggest accident at the factory since 1942, completely destroyed the factory's biggest building.

Some 20 to 30 persons are normally employed in this building.

★ ★ ★

Police said that eight persons were either killed on the spot or died from their burns, while ten more had to be rushed to a hospital at Interlaken for treatment of serious burns and injuries.

# Public Apology Asked in Feud

## Justice Renfrew Says He'll Sue Huntington Manager Otherwise

The threat of a slander suit hung over the head of Huntington Woods City Manager Fred L. Yockey today unless he offers a "public apology" for remarks made last Thursday in the feud with Justice of the Peace James Renfrew.

**Charging that Yockey held him up to public ridicule by referring to him as "crazy" and "going off half-cocked," Renfrew demanded an apology within a "reasonable time."**

"I prefer to reserve comment until I consult legal counsel," Yockey said.

★ ★ ★

Huntington Woods officials are still awaiting the advice of City Attorney James Thorburn in dealing with the situation caused by Renfrew's sudden "adjournment" of his court last Thursday.

★ ★ ★

Huntington Woods police, who were ordered by the city to continue issuing tickets and collecting fines, reported that business has been "normal."

★ ★ ★

"Intemperate remarks to the effect that my actions are 'crazy' and that I have 'gone off half-cocked' are hardly complimentary to myself as a member of the legal profession," Renfrew said.

**He said if Yockey does not make a public apology "he will find himself engaged in litigation with me in which the truth of his remarks will be put to the acid test of trial by jury."**

Renfrew astounded Huntington Woods officials last week by announcing that his court was "indefinitely" adjourned and advising all traffic violators that they need not pay fines to the city's police-run violations bureau because it is illegal.

Americans spent approximately 75 billion dollars on food in 1958 which was four billion dollars more than in 1957.

## Court Says Must Take Chances in Back Nine

BURLINGTON, Vt. (UPI)—Federal Judge Ernest Gibson ruled that neither professional nor amateur golfers are responsible for their shots.

He dismissed a $25,000 suit brought by George Fraser, assistant pro at the Burlington Country club, who said he was struck in the right eye by a practice drive while retrieving some golf balls.

Judge Gibson said that "golf is a game in which the greatest of world professionals will, on occasion, completely flub a shot."

# Road Building Will Continue

## No Slowdown Planned in State Just Because Congress Is Slow

LANSING (UPI) — Michigan plans no slowdown in road construction while Congress decides whether to wipe out a deficit in the interstate highway fund, Howard Hill, managing director of the State Highway Department said Wednesday.

★ ★ ★

Hill said the state would not follow the action of neighboring Indiana, which has stopped highway bid letting until Congress takes action on the highway trust fund.

**"We plan to go ahead until Congress acts one way or another," said Hill. "If we do not have additional funds, then we will consider curtailment."**

"We already have let too many contracts—that is, we have awarded, like all other states, contracts in the belief that there was money in the trust fund."

Hill said the state might be able to make up a shortage in federal money by bonding programs.

If Congress does not boost the fund, Michigan could be short 23 million dollars from anticipated highway revenue, he said.

---

A recent survey found that 47 per cent of all Americans who buy foreign cars already owned at least one auto.

### Red 'Contacts' Hard to Buy

# Gamblers Try New Trick

NEW YORK (UPI) — Card sharks are using a new ruse to dupe their unsuspecting victims—red contact lenses.

But the system works only if the backs of the cards are red, too.

**A description of this new scientific advance in cheating at cards was provided by Stanley Olin, a research specialist for a contact lens laboratory (Vent-air Contact Lens Laboratories).**

Olin has a pair of red lenses, but he does not wear them when he plays cards. He also has lenses in 14 other colors, from beige to black, which he wears on various occasions, depending on his mood.

His company sells red lenses to detectives on the trail of crooked gamblers and to other persons who can prove they need them for purely honest purposes.

But because of the gambling gambit, all others seeking red lenses are turned away by Olin and his colleagues.

"I imagine that red lenses are getting harder and harder for gamblers to find, as more persons find out about their trick," Olin said.

**He said several card players had made no secret of their intent in seeking red plastic contact lenses at his laboratory to replace the old-fashioned red tinted spectacles they used to wear at the gaming table.**

"We turned them all away," he said.

Here's how the cheating system works. A card shark marks the backs of red-backed cards with ink visible only through deep rose-colored glasses.

★ ★ ★

Then he slips on his red contact lenses, which cover only the pupil and iris of the eye, leaving the whites unbloodshot looking.

The lenses enable the cheater to read the notations on the backs of the cards, so he knows what his opponents are holding and can win their money.

Olin said that in a good light, it is not very difficult to determine if a person is wearing contact lenses, particularly if they are colored. Red lenses often do not seem to be red to the casual observer, but a careful examination will disclose a ruby tint around the pupils.

**If there still is doubt, Olin advises looking at the suspect's profile. A tiny telltale bulge in the center of the eye will indicate he is wearing contact lenses.**

Then there is the blink test. If the suspect blinks his eyes about 14 times a minute, he probably isn't wearing contact lenses. But if the blink rate is 20 times a minute or more, watch out.

★ ★ ★

It won't be necessary to raise a protest or call police, Olin said, to deal with the man caught as a red-eyed cheater.

"Just ask for a new deck of cards," he said, "in any color but red."

# Testimony Nabs Other Woman

## Accused With Doctor of Murder of His Wife in Court Hearing

WEST COVINA, Calif. (AP) — Carole Tregoff, snarled in what officials call a web of conflicting statements, is accused with her lover of murdering his socialite wife.

Police say the shapely ex-model incriminated herself by trying to shield her paramour.

Miss Tregoff, 22, and her lover, Dr. Bernard Finch, are charged with murder in the July 18 shooting of the wealthy surgeon's 33-year-old wife, Barbara.

Miss Tregoff was arrested in court Wednesday shortly after she sobbingly admitted at Dr. Finch's preliminary hearing that she loved him and had sexual relations with the 41-year-old surgeon.

The hearing continues today.

★ ★ ★

Deputy Dist. Atty. Fred N. Whichello said Miss Tregoff "tripped herself up" when she testified Tuesday about a leather case found near the Finch home after the shooting. Investigators described the case as a "do-it-yourself murder kit." It contained a hypodermic needle, sedatives, bullets, a knife and rope.

*Chevrolet's proud Impala Convertible and the sleek Corvette*

WHAT MAKES CHEVY HOT?

"THE MOST WONDERFULLY RESPONSIVE ENGINE AVAILABLE TODAY AT ANY PRICE"

That's how SPORTS CARS ILLUSTRATED magazine expresses its admiration for Chevy's vigorous Turbo-Fire V8. Indeed, *every* motor magazine has given Chevrolet's standard passenger car and Corvette V8's unstinted praise. Take it from the experts: there's no more exciting performance in Chevy's field. What's more, you can choose from the widest range of powerplants among the leading low-priced three when you go Chevy!

HERE ARE 6 MORE BIG REASONS WHY CHEVROLET'S THE HOTTEST SELLER OF THE YEAR!

**BEST BRAKES**
Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

**BEST STYLE**
It's the only car of the leading low-priced three that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

**BEST TRADE-IN**
Check the figures in any N.A.D.A.* Guide Book. Chevy used car prices last year averaged up to $128 higher than comparable models of the "other two."

*National Automobile Dealers Assn.

**BEST ECONOMY**
No doubt about it: two Chevrolet 6's won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car, 22.38 miles per gallon—with Powerglide transmission.

**BEST RIDE**
MOTOR TREND magazine calls Chevy "...the smoothest, most quiet, softest riding car in its price class." But you'll be able to tell this yourself, the instant you take the wheel.

**BEST ROOM**
Official dimensions reported to A.M.A.* make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

*Automobile Manufacturers Assn.

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN 1959 THAN ANY OTHER CAR!

CHEVROLET

# Sophisticated Gadget Is Army Private Eye

WASHINGTON (AP) — The Army has developed a supersensitive radar which can see and "hear" a soldier crawling on the ground two miles away or spot a tank or jeep at 10 miles.

**Indeed, the Army claims the gadget is so sophisticated it can tell the difference between a man and a woman walking at more than 600 yards in the night or fog.**

★ ★ ★

An announcement Tuesday said the two mile range for spotting a crawling soldier was under average conditions.

Under ideal conditions, in a test made in the desert, the surveillance radar spotted a soldier walking at 15 miles distance.

★ ★ ★

Each type of target presented visually on the scope is accompanied by a characteristic sound.

**A difference in the sound emitted by the radar tells an experienced operator whether he is watching a man, a truck, a tank or a jeep.**

★ ★ ★

The radar scans a 30-degree sector. When the operator hears a suspicious sound, the beam is narrowed down, an indicator light under a mat shows the object's position and numbered dials give target data for aiming of artillery fire.

The equipment can be transported by helicoptor or small trailer.

## Williams, 12 Others, to Go to Puerto Rico

LANSING (AP) — A party of 12 persons will accompany Gov. Williams to Puerto Rico for the National Governors Conference, including Mrs. Williams and their three children.

The governor, his wife, Nancy, and Jack Wuthrich, a State Police aide, will fly by commercial airliner (flight 119, Eastern Airlines) )from Chicago at 10:30 p.m. Friday, arriving in San Juan at 6:45 a.m. Saturday.

The other 10 will go by National Guard plane from Lansing to Miami, where the governor's children, Gery, Nancy and Wendie, will transfer to commercial airliner for the rest of the trip.

Going all the way by National Guard aircraft will be Sidney H. Woolner, the governor's executive secretary; press secretary, Paul Weber; legal advisor, Alfred H. Fitt, each accompanied by his wife, and John Murray, Williams' national political adviser.

## Trades Beer for a Gun

WILLISTON, Vt. (UPI) — Earl Stygles had his beer and liquor license suspended after he traded a case of beer for a gun.

### Bandleader Follows Advice With Petshops

# Looking for Security? Develop a Hobby

NEW YORK (AP)—Looking for a sense of security? Bandleader Ted Steele gives a tip.

"Get interested in something besides your job," he advises. "Develop a hobby—and make it pay.

BOYLE

"This outside security even helps you in your career by giving you more peace of mind. It has worked for me. I have been 25 years in show business, and I have never been out of a job."

Steele, once a $65-a-month NBC page boy, now is in the six-figure income bracket. An all-around performer, he has written some 30 songs, made more than 100 recordings.

A vocalist, pianist and organist as well as a bandleader, he also doubles as an emcee and newscaster. Ted currently carries one of the heaviest schedules in the radio-TV field. He is on the air 25 hours a week.

But he has always believed in having "something outside" working for him. For years he ran a 300-acre dairy farm in Bucks County, Pa. He sold it when hired hands became too hard to find.

Now he operates two pet shops on the east side here.

★ ★ ★

Between entertainment chores Steele likes to visit his shops, which stock everything from 5-cent guppies to $500 white poodles.

He finds it relaxing — and profitable — to spend an hour or so each day in this small world of singing mules — canaries crossbred with wild goldfinches; kissing gouramis — fish from Honolulu, and black Japanese waltzing mice.

"The pet shops give me an added feeling of security, too," he says. "I know that, if I had to, I could make a living from them."

Ted numbers among his clients doctors, dentists, many society notables, and such entertainment figures as Anna Magnani, June Valli, Carol Haney and Lloyd Nolan.

Pets with wealthy owners today live in a special world of privilege. Some dogs arrive in chauffeur-driven cars for a beauty treatment that can cost up to $25.

White poodles who like to wear toenail polish now have a choice of more than a dozen colors. The canine set also can put on the dog with its own tuxedo collars, top hats, ankle bracelets, necklaces and cashmere sweaters.

"Many of the dogs have better wardrobes than their mistresses," said Steele.

Although tropical fish raising is now ranked as the third fastest growing hobby in the country, there is a small but growing number of mice fanciers.

"They are organized into mice clubs and hold mice shows just like the dog people," Ted said.

Steele says his accountant is still grumbling over his decision to go into the pet business.

"He thought if I needed an outside interest I should get interested in telephone stocks.

"But telephone stock can't lick you in the face when you're feeling low."

## Boats Varied, Ingenious

GOOCHLAND, Va. (AP) — A new lake was opened and the owner invited friends to come and bring their favorite boats.

One brought an army DUKW and he had to remove a support a 10-foot gateway to let the 11-foot wide vehicle into the state.

The prize for the smallest boat went to a man who brought an inner tube; inflated it, raised an umbrella and sculled across the lake using a paddle supported by his raised knees.

## Pastor Flies to Tasks

CORPUS CHRISTI, Tex. (AP)—The Rev. Lester L. Roloff, Corpus Christi's flying evangelist, is a tall, lean man with a big smile and a zest for work.

His work is that of pastor of the Alameda Baptist Church here, founder of four missions for rehabilitation of men, women, boys and girls, 59 hours of radio sermons each week, and a circuit of evangelistic meetings that have taken him 10,000 miles in 10 months.

"ANGELIC" POLIO VICTIM — Honorene Hawkins smiles from under a metal contraption dubbed a "halo" by her wardmates at Kosair Crippled Children Hospital in Louisville, Ky. The frame encircling her head supports four screws which have been turned into her skull. A delicate spinal fusion operation to correct the aftermath of polio was performed by Dr. Allan Zoeller, left. The brace holds her head in place while the surgery heals.

### It Holds Her Head Up High

## Girl Wears Metal 'Halo'

LOUISVILLE, Ky. (AP) — The pretty head of 13-year-old Honorene Hawkins is encircled by metal, and the screws in her halo are drilled into her skull.

But Honorene smiles and says she feels fine.

Her courage is well-developed. She has fought the results of polio for half of her short life.

Her attack at the age of 7 left her neck and shoulders so weak she could not hold up her head for more than a minute.

Without a brace her head flopped helplessly onto her chest.

This summer Honorene underwent very delicate surgery at Kosair Crippled Children Hospital. Physicians took a long flat sliver from her shin bone. They fused the upper section of her spine, strengthening it with the shin sliver.

Then they put Honorene into her metal halo—a tubular frame resembling a squarish space helmet without the plastic cover.

Four special screws on the frame were turned gently into her skull.

Children in her ward coined the "halo" nickname. She will wear it another four months, until the fusion is healed.

★ ★ ★

She won't be able to turn her head much even after the frame is removed, but Honorene doesn't mind. She'll be going to junior high this fall, only a little behind her group despite her long struggle.

"I'll be able to hold up my head like the rest of the world," she said.

**OPEN BY 10 A.M. 'TIL 9 P.M. DAILY FREE PARKING FOR 5,000 CARS**

HAWAIIAN VICTOR — Sending up a victory cheer is newly-elected Gov. William F. Quinn, 40, of Hawaii. The smiling Republican is surrounded by well-wishers after he won the closely contested race for the island state's first elected governor. Quinn had served as territorial governor prior to his election. The new governor won a see-saw battle over Democrat John A. Burns, Hawaii's last delegate to Congress. AP Wirephoto

### Shoots Hubby in Arm

CHEYENNE, Wyo. (AP)—Mary James was fined $50 when she pleaded guilty Wednesday to unlawfully discharging a firearm in the city limits.

Police Chief Fred Schmoker said Mrs. James shot her husband, Carey, in the arm with a .38 caliber pistol last week when he commented he had seen a "good-looking blonde" in a Frontier Days parade.

New State to Foster Greater Understanding

# Governor Hails Role of Hawaii

HONOLULU (AP) — Republican William F. Quinn, newly elected governor of Hawaii, announced his candidacy even before Congress voted statehood for the islands.

His victory over John A. Burns, generally unexpected, helped reverse a Democratic tide that had been running in the islands since 1954.

Quinn, territorial governor for the past two years, announced his candidacy for the state office last February, several months before Burns declared.

★ ★ ★

Quinn said statehood to him means "equality with fellow Americans and an opportunity to share fully in the national political life."

Particularly significant," he said, "is the added prestige for Hawaii in carrying out our mission as the hub of the Pacific in promotion of greater East-West understanding."

He envisions the islands as a bridge between the United States and Asia.

Quinn's victory carried with it unprecedented Hawaii patronage powers. He will appoint some 460 officials, including judges, department heads and members of commissions and boards.

★ ★ ★

He campaigned largely on an appeal that voters allow him to finish many projects initiated during his administration, particularly in land reform and economic development.

He relied heavily on television appearances and door-to-door canvassing. He always was ready to entertain with his better-than-average Irish tenor singing voice.

★ ★ ★

A native of Rochester N.Y., Quinn settled in the islands in 1947. His widowed mother lives in St. Louis, Mo. He was graduated from St. Louis University with highest honors and took his law degree at Harvard. He served in the Navy during World War II, entering as an ensign and leaving as a lieutenant commander.

An affable 6-foot, Quinn was married in St. Louis to the former Nancy Witbeck in 1942. They have four sons and two daughters and are expecting a seventh child about the first of the year.

Stay Alive Longer!

# Alcohol Won't Cure Inner Tensions

By LELORD KORDEL
Installment Sixteen

It is the opinion of several leading phychiatrists that a man does not break down from overwork, but from his attitude toward his work. The crackup of the executive, they believe, is precipitated by a deterioration in the executive's social life, his outside interests, or his marriage.

LELORD KORDEL

The man who turns to his work as to a refuge, for its therapeutic value, encounters in his work a special stress or a series of stresses that at some point intensify unbearably the conflicts of his personality. Then he goes to pieces.

The cocktail method of relaxation is a damaging one. If you limit your drinking to a glass of light wine or beer, this may relax you and prepare your stomach for nourishment. But the cocktail bender is another thing!

Habitual drinking will cause lasting impairment to the brain, the nervous system, and the liver. Every time you drink too much a certain amount of brain damage results.

**You can measure the amount of damage your drinking does to you by your mental state.**

Alcohol is a poison that acts upon the brain as an anesthetic. Only a relatively small amount is found in a glass of wine or beer.

With a stronger drink, however, the alcohol triggers the whole complicated defense and repair system of the body. If you subject your body to repeated reactions to emergency situations with the daily drinking of strong cocktails, your system will eventually be weakened.

No matter how tense you feel at the end of the day, don't depend on alcohol for your relaxation.

★ ★ ★

Dr. Iago Gladston, psychiatrist for the New York Academy of Medicine, says: "The individual's ability to absorb tension depends upon his inborn deficiencies and his acquired ineffective ways of meeting stresses and strains."

Each individual may be thought of as being like a steel wire with a certain breaking strength. If the load is not too heavy he can carry it without damage.

But if the tension strain is too great, too concentrated, and too prolonged, even the man with the strongest personality, and the healthiest body, will crack.

**YOUR PERSONAL DEVIL**

How much can a man take of this personal devil which Dr. William B. Terhune, of New York, describes as "the income tax of civilization?" The breaking point of a man under tension varies.

**Many successful businessmen recognize the devastating effects of tension. Tex Colbert, president of Chrysler Motors, is an exurbanite who controls tension instead of letting it control him. If no night meeting is scheduled, he leaves work every evening at 5:30.**

"Instead of worrying all through the night about my problems in this highly competitive field of auto manufacture," Colbert says, "before I go to sleep, I ask myself if there's anything more I can do now. If there isn't, I sleep soundly."

Former President Truman clears his mind of any early-morning cloudiness with a brisk walk. He says this enables him to start work fresh and mentally alert. Bernard Baruch, Mrs. Eleanor Roosevelt, and other busy people manage to stretch their working time, instead of letting it tick away for them.

**THE COFFEE ADDICT**

We are familiar with the coffee addict—the worker who must have his morning shot of caffeine or he becomes morose, irritable, and speaks in grunts. If this man would eat a decent breakfast with the proteins of eggs and meat, he would be able to do a full day's work.

Far from needing less of the important nutrients, the tense person needs more. He needs protein for specific dynamic action. He needs more vitamins to speed up the metabolic processes to furnish the extra energy he needs and to repair the tissues he destroys.

**He requires four to eight times as much diffusible thiamine as the rested person. The victim of tension, whose condition is precipitated by a lack of minerals in the body organs, invites a breakdown unless he assures himself of an adequate supply of these important body-health regulators.**

Minerals, proteins, and vitamins work together to resist the onset of disease. Keep your nerves and your body in good condition by providing them with plenty of these vital materials. They are essential to your health, to your very life.

If you don't obtain enough minerals and vitamins in the food you eat—and few of us do!—be sure to take them every day in concentrated form.

I hope you won't ever need an antidote for a bad hangover, but if you should—try honey. Honey has a high vitamin content, and is a magnet for water, drawing fluid to itself and lessening the amount of fluid in the brain.

★ ★ ★

It's an invaluable aid in producing relief when a migraine headache appears. Because of its quick pickup action honey soothes tired nerves and combats fatigue caused by tensions.

Honey in milk, honey in lemon juice—or just plain honey!—these are unexcelled tension-stoppers in the form of natural food.

★ ★ ★

Tension is not new to this world. The Roman emperor Marcus Aurelius recognized tension. He said, "If you are pained by any external thing, it is not this that disturbs you, but your own judgment about it."

Tension today is a complex and dangerous threat to our national health. Overcome your tensions, or they will overcome you. An adversary not to be underestimated, tension is a killer of both mind and body!

# Ike Endorses New Labor Bill

## Much Tougher Than 1st One Drawn; Is Rough on Secondary Boycotts

LABOR — The President gave virtual endorsement to a new labor bill introduced in the House several days ago by Reps. Phil M. Landrum (D-Ga) and Robert P. Griffin (R-Mich). The bill is proposed as a substitute for one reported by the House Labor Committee and is described by union officials as much tougher than the committee version.

★ ★ ★

Eisenhower said the bill, which would crack down on secondary boycotts and what he called blackmail picketing, goes a long way toward meeting the recommendations for labor legislation that he made to Congress in January.

He called it a tremendous improvement over earlier and weaker versions, and commended the sponsors.

He did not, however, directly answer the question as to whether he believed a coalition of Republicans and Southern Democrats could get the bill passed by the House.

---

Birthplace of Herbert Hoover was a tiny cottage in West Branch, Iowa. His residence now is in the Waldorf-Astoria Towers on Park Avenue, New York City.

## Teachers Fail Course

BUFFALO, N. Y. (UPI)—Louis F. Sholl, director of mathematics in the Buffalo schools, checked results submitted by 61 schools which participated in the annual math contest and discovered that in 17 of them, arithmetical errors were made by teachers who tabulated the scores.

Plans for His Retirement

# Ike Intends to Travel

WASHINGTON (AP) — President Eisenhower disclosed Wednesday a lot of travel is included in his retirement planning.

A reporter noted at Eisenhower's news conference that the President has just 542 more days in the White House and asked what he intends to do after that. The newsmen said there have been stories the Eisenhowers would rent an apartment in Washington and that the chief executive might be offered the presidency of Gettysburg, Pa., College near his farm home.

★ ★ ★

**Eisenhower replied with a smile that such matters as the renting of apartments have to be left to the distaff side. He said the newsman ought to get his lady reporter friends to ask Mrs. Eisenhower about that.**

Eisenhower added it was the first he had heard about rumors he might be offered the presidency of Gettysburg College.

★ ★ ★

He said the college is headed by a younger man for whom he has high respect and he wouldn't think any change was in order.

As for his own plans in retirement, Eisenhower said he wants to travel.

## Jail 6 in Canton Area, Stop Fast Drag Races

DETROIT (AP) — The Wayne County road patrol last night put a stop to organized drag races in suburban Canton Township. Six youths were jailed on charges of reckless driving.

Residents complained that the youths were using a recently blacktopped two-mile strip on Sheldon road between Ford and Joy as a raceway at speeds up to 110 miles per hour. They said three cars raced abreast in organized heats with starters and timers officiating.

# Probes Waste in Viet Nam

Senate's Subcommittee Also Checks Charges of Delay, Inefficiency

WASHINTON (AP) — A Senate Foreign Relations subcommittee starts checking today into charges of waste, delay and ineffective performance in the foreign aid program in Viet Nam.

Chairman Mike Mansfield (D-Mont) said the hearings also would seek to determine whether U.S. funds were improperly spent and whether American personnel there were overpaid and lived on too high a scale.

★ ★ ★

Witnesses called included J. Graham Parsons, assistant secretary of state for Far Eastern affairs; Elbridge Durbrow, ambassador to Viet Nam; and Arthur Z. Gardiner, director of the U.S. foreign aid mission at Saigon.

Invited, too, was Albert M. Colegrove, a staff writer for the Scripps-Howard newspapers. Colegrove's series of articles from Saigon calling the aid program there "an outrageous scandal" prompted the inquiry.

★ ★ ★

James W. Riddleberger, U. S. foreign aid chief, called Colegroves' articles "obvious sensationalism."

Mansfield, in a prepared opening statement, praised the achievements of President Ngo Dinh Diem and his government in the crisis years from 1953 to 1955.

They performed, he said, "a near miracle in rescuing Viet Nam from chaos and almost certain Communist totalitarian oblivion" and settled in the south hundreds of thousands of refugees from the Communist north.

During that period, he said, it was "relatively easy to make mistakes and highly difficult to register achievements."

## Appeals Sentence on Maid Seduction

MONTGOMERY, Ala. (UPI)—A retired Air Force colonel has appealed a sentence of nearly 14 months at hard labor for seducing his 17-year-old Negro housemaid while his wife was gone.

Special Circuit Judge Herston Foster ignored jury recommendation that the defendant, Grady L. Smith, about 60, white, be fined for the offense and sentenced him to the jail term.

★ ★ ★

"This case involves every man, woman and child in Montgomery County," Prosecutor Maury D. Smith said in arguing for a stiff sentence. "In essence, it involves our way of life."

Smith was freed under $1,000 bond following the sentencing and his attorney immediately filed an appeal. Smith was convicted Tuesday by the all-white jury for contributing to the delinquency of a minor.

## Waterford Township to Hit Dog Dilemma

Because of legislation passed by lawmakers in Lansing last week, Waterford Township officials and others living in a county with more than 150,000 population may soon enact ordinances controlling dogs in the community.

This was announced by State Rep. Lloyd Anderson of Waterford. He said that due to many complaints by citizens, the bill had passed both the house and senate by a majority vote.

**Dogs running loose in Waterford Township have kept police and township officials busy. Without the legislation, there was nothing the local officials could do to control the problem, however.**

The township will penalize dog owners who permit their animals to run loose.

## *Waterford Area Driver Ordered to Circuit Court*

A Waterford Township motorist accused of negligent homicide in a fatal traffic accident was ordered bound over to Oakland County Circuit Court for trial yesterday by Municipal Judge Cecil McCallum.

Judge McCallum ordered Isidro Aguilers, 32, of 2901 Peerless St., held for trial following examination in his court.

Aguilers is free under $150 bond pending his arraignment in Circuit Court Aug. 3.

★ ★ ★

A passenger in Aguilers' car, Raymunde N. Vasquez, 23, of 2897 Peerless St., Waterford Township, was killed June 28 when their car ran off Kennett road and rolled over twice.

★ ★ ★

The accident occurred as the car traveled east on Kennett road, 100 feet west of Cherrylawn avenue. Aguilers at first admitted, than denied he was driving the car.

Aguilers was arrested a few days after the accident following his release from Pontiac General Hospital.

Officers said Aguilers lost control of his car because he was driving at a high rate of speed.

## *Toy Dog Leaps, Protects Tot; Rattler Bites*

HAYS, Kan. (AP)—Tina, a 6-pound toy Manchester, is the heroine of Hays.

★ ★ ★

The dog leaped in front of a child Wednesday and took the strike of a rattlesnake. Tina has a badly swollen head, but she'll recover.

Tina and Paula Jean Ott, young daughter of Mr. and Mrs. Henry Ott, were walking on the Ott farm near here when they heard the rattle of the coiled snake. Tina immediately jumped at the poisonous rattler.

## Recreation Lands Bill Includes Michigan Areas

WASHINGTON (AP) — Michigan areas are included in a bill proposing the federal acquisition of ocean and lakeshore recreation lands.

★ ★ ★

The legislation was introduced yesterday by Sen. James E. Murray (D-Mont). He said his proposal would entail expenditure of about 85 million dollars.

★ ★ ★

His bill would authorize appropriations for purchase of a number of areas. In Michigan this would include 90,000 acres of the Huron mountains, 100,000 acres of the Picture Rocks Grand Sable Dunes and 25,000 acres of the Sleeping Bear Dunes.

Vehicles Would Flood Countryside

# Air-Cars Could Cause Traffic Chaos

By JACK VANDENBERG
UPI Automotive Editor

DETROIT (UPI)—If the "air-cars" being talked about with increasing frequency ever come into being, they could cause quite a revolution in the world.

Currently research in the area of a means of personal transportation which utilizes some means of forced air to suspend it a short distance above the earth is being conducted by three companies—Ford Motor Co., Chrysler Corp. and Curtis-Wright.

The attitudes of these comcompanies toward these projects vary.

**Chrysler is working on it mainly from a military standpoint. It already has developed an aerial jeep for the army which utilizes ducted fans to suspend it in the air a short distance above the ground.**

Ford has developed an experimental Levacar which relies on jets of air to "float" this vehicle a fraction of an inch—about the thickness of a piece of paper—off the ground.

Ford engineers say the most promising use of their experimental vehicle in the future would appear to be in mass transportation—that is high-speed commuter vehicles which would probably follow a single rail of the type now used by trains.

Curtis-Wright seems to be aiming most directly at developing a vehicle which could be used by persons who now drive wheeled-vehicles.

Its experimental air-car floats about a foot off the ground and uses a helicopter-like propeller to suck air through a saucer-like opening at its top. This air is then deflected under low pressure and low velocity out the bottom and through side louvers, giving its suspension and propelling powers.

**Critics of the air-car idea in the auto industry like to ask the question, "What happens when you drive this type of car over a bridge that has a metal grating?"**

Obviously, air blasts would go right through these gratings and the air cars would come to a screeching halt on such a bridge.

Ford has a tough time answering this question because its Levacar rides so close to the ground that it requires a smooth surface on which to travel.

★ ★ ★

But Chrysler and Curtis-Wright quickly answer that their air cars wouldn't have to bother with these bridges because they could cross the surface of water without a bridge.

They also point out that roads would be unnecessary because their air cars can travel over rough surface, at least relatively rough.

This is where the revolutions would come in. Think what would happen if automobiles suddenly did not need roads anymore.

**Hundreds of thousands of dollars now spent to build roads could be diverted to other uses. But thousands of dollars now invested in toll bridges and roads would be lost because these facilities would no longer be used.**

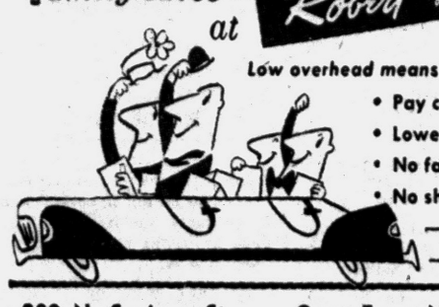

And think of the chaos that could result in traffic control. How could you tell which side of the street you were supposed to drive on if there was no street? And how could you decide who has the right of way if there were no traffic lights or stop signs because there were no specific routes which all vehicles travel?

Air cars, if they ever come into popular use, could force a re-evaluation of many of the things we now take for granted when driving our cars.

## Buys Jackson's WKHM

WASHINGTON (AP) — The Communications Commission yesterday approved acquisition of sole ownership of radio station WKHM at Jackson, Mich., by Frederick A. Knorr, present 33 per cent owner, through purchase of the remaining interest for $150,000.

## Can't See Road Over the Wheel, Says Auto Group

BOSTON (UPI) — Eighty-two per cent of the nation's drivers can't even see over the steering wheel, the Automobile Legal Association reported Wednesday.

George L. Dunn, of the ALA's safety department, said a survey showed these motorists have the steering wheel directly in the line of their vision or they must look under it to see through the windshield.

This factor, Dunn said, "could well be one of the major contributing factors in the annual highway slaughter of some 40,000 motorists."

### Elected to Bank Board

DETROIT (AP)— Louis A. Fisher, vice president and director of Eagle-Picher Co. and president of Fabricon Products, has been elected to the Detroit Bank and Trust Co. board of directors.

## To Adopt Rules at Little Rock

### School Board Planning Limited Segregation at 4 Public Highs

LITTLE ROCK, Ark. (AP)—The Little Rock School Board Wednesday night adopted rules and regulations for assigning pupils to public schools under the Arkansas pupil placement laws.

The board plans to open the four public high schools Sept. 8 on a basis of limited segregation. The placement laws will be used to minimize desegregation.

Gov. Orval E. Faubus closed the high schools last year to block integration.

★ ★ ★

Criteria for assignment of a pupil include such things as psychological effect of a particular student being assigned to a particular school, psychological effect on other students, moral standards, and the possibility of a breach of the peace if a student is assigned to a certain school.

★ ★ ★

The availability of transportation and distance the student would have to travel also will be considered, the board said.

Fifty-five Negroes have enrolled at Little Rock's three previously all-white high schools.

## Jet Planes in Florida Carry Atomic Bombs

HOMESTEAD, Fla. (AP) — Atomic bombs are stored at Homestead Air Force Base and jet bombers carry them over south Florida on practice missions, the Air Force has disclosed.

"We're not just sitting here," said Maj. Carl Harris, Homestead disaster control officer. "We have a job to do, and our aircraft are flying around with them (atomic bombs)."

★ ★ ★

He made the statement Wednesday during a meeting of Air Force and Dade County (Miami) police and fire officials called to set up plans in case of emergency.

The possibility of dropping a bomb accidentally on south Florida is remote, Harris said. If it did happen, there would be no nuclear explosion.

"When we fly with them, the bombs are not in 'strike configuration,' or ready to use as nuclear weapons," Harris said.

### One Killed, One Hurt in Illinois Train Crash

WAUKEGAN, Ill. (AP) — One freight train crewman was killed and another crewman injured Wednesday night when a Chicago and North Western Railway passenger train struck the rear of a freight train north of Waukegan. No passengers were injured.

The body of one man was removed early today from the wreckage of the freight train's caboose. He was identified as Donold Ehrlich, 28, a brakeman, of Lombard, Ill.

Another North Western employe, Ervin Pehlke, 45, Elmhurst, Ill., was hospitalized suffering a head injury and a possible arm injury.

### GM Engineer Transfers

FLINT (AP)— Edward D. Rollert, general manager of Buick Motor Division of General Motors Corp., Wednesday announced appointment of John R. Gretzinger as director of reliability and quality control at Buick. Gretzinger has been a chief engineer at GM's Allison Division in Indianapolis since 1955.

AP Wirephoto

PRINCELY YAWN — Sweden's Crown Prince Carl-Gustaf watches carefully, despite an apparent yawn, as he aids other Boy Scouts in making a stretcher at a camp at Galo in the Stockholm archipelago.

## Thief Kidnaps, Rapes Ecorse Waitress

DETROIT (AP) — A 31-year-old waitress, who is the mother of two children, was kidnped and raped today by a robber.

Brandishing a long knife, the holdup man robbed Gene's Drive-In at 3758 W. Jefferson in suburban Ecorse of $116. He took $31 from the cash register and threatened to kill the waitress if she didn't tell where the rest of the money was kept.

**Holding a knife at the woman's throat, the robber forced her into his car and drove to Lincoln Park in the vicinity of University and Cicotte streets near the Pennsylvania tracks.**

Then he dragged the woman into a field and raped her. He ripped pieces from her uniform, tied her hands and feet and gagged her. Then he drove off.

The waitress freed herself from the cloth strips and ran to a neearby home for help. Lincoln Park police took her to People's Community Hospital where she was given first aid and released.

### Reports Business Loans

DETROIT (AP) — F. W. Pritchard, regional director of the Small Business Administration, said Wednesday that $750,000 in loans were made to seven small businesses in Michigan in July. The largest loan was $300,000 to Jackson and Church Co. in Au Gres.

### Truck Crash Fatal

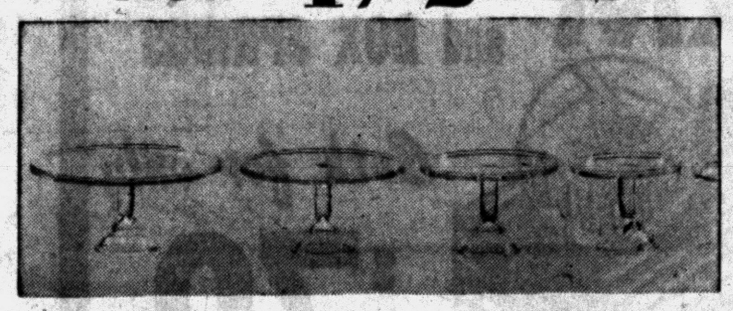

ZEELAND (AP)— Henry Martinie, 45, of rural Zeeland, was killed Wednesday in a two-truck collision on M50 about one mile west of Allendale.

# Requests Probe of Highway Unit

## State Senator Alleges Waste of Money by Road-Building Division

LANSING (AP) — Sen. John H. Stahlin (R-Belding), who has devoted much of his first term oratory to criticism of the State Highway Department, has asked for a legislative investigation of the road-building agency.

★ ★ ★

Stahlin introduced a resolution asking for a three-man Senate committee to study administrative practices of the department.

**The freshman Republican said he had received numerous letters since he started his series of blasts at the Democratic-controlled state agency. He has mostly alleged waste of money.**

Stahlin said he had "more than 100 good leads to chase down."

★ ★ ★

The majority, he said, dealt with land acquisitions for highway right of way. Stahlin said the complaints included overpayment for land by the department, improper route locations and the realization of huge profits from land deals.

Highway Department spokesmen had no immediate comment.

**Sens. L. Harvey Lodge (R-Waterford) and Clyde H. Geerlings (R-Holland) were cosigners of the resolution.**

It noted the Highway Department has the largest number of employes of any state agency, handles immense sums of money and makes decisions affecting the lives and property of thousands of citizens and many communities.

★ ★ ★

Under the resolution, the probers would be given the power to administer oaths, subpoena witnesses and examine books and records. A $5,000 appropriation was proposed to finance the investigation.

## Smog Clouds Research Work Up in Rockies

BOULDER, Colo. (AP)—Everything's going up these days—including smog and smaze.

The tiny dust and dirt particles have reached two miles high in the Colorado Rockies in sufficient numbers to polloute the mountain air for research.

A University of Colorado spokesman said pollution is interfering with work at the university's high altitude observatory near Climax, Colo.

### Those Kentucky Colonels!

# Hang On to Bourbon

FRANKFORT, Ky. (AP) — It's sad to relate but the only equipment remaining standard in the uniform of a Kentucky colonel, suh, is a quart of bourbon whisky.

It's official. The Kentucky attorney general says so.

★ ★ ★

It wasn't always thus. There were days of the broad-brimmed hat, the white handle-bar moustache, the dove-gray coat, the cultured drawl—and the quart of bourbon whisky.

★ ★ ★

There once was a real uniform, too, but it faded away long ago.

Blame it on "the encroachment of Yankee ideas and customs," says the opinion.

Attorney General Jo M. Ferguson wrote it, quoting liberally from an earlier one, answering the question of what a colonel should wear.

The question came from a member of the venerated order commissioned by governors of the Bluegrass State.

★ ★ ★

In the beginning, after the American Revolution, the colonel sported a "brace of dueling pistols, a plug of chewing tobacco, an overwhelming desire to hunt, fight, or make love to a woman—and a quart of bourbon whisky."

Later the colonel was decked in "broad-brimmed hat, a frock coat, and a pair of baggy trousers, and a shoestring necktie to which he added a white goatee, a pair of sideburns, a veneer of culture—and a quart of bourbon whisky."

After the Civil War the colonel declined to a "pair of patched pants, a floppy straw hat, a tobacco-stained goatee—and a quart of bourbon whisky which produced in him a dislike of anything Northern."

★ ★ ★

By the turn of the century he was in ascendancy, with "mutton chop whiskers, a broad-brimmed hat, a Prince Albert suit, love for the Democratic party — and a quart of bourbon whisky."

★ ★ ★

Today's colonels — or many of the 14,000—meet annually at Louisville the weekend of the Kentucky Derby.

They don string ties if they own them, banquet with their ladies and empty their voluntarily contributed treasury to charities before settling down to a weekend in true Kentucky style — with a quart of bourbon whisky.

Since the start of the U.S. government's surplus disposal program in 1954. India has acquired 266,000,000 bushels of wheat, or the equivalent in flour, more than any other country.

## Nitroglycerine Old Stuff

STOCKHOLM — Nitroglycerine had its origin in experiments conducted in 1846 by Ascanio Sobrero, but its explosive force was not discovered and developed until 1863 by Alfred Nobel.

## What All Drivers Need

NEW YORK (UPI)—A giant 100,000-ton supertanker can carry enough gasoline in one voyage to fill the tanks of 2,150,000 passenger cars, the American Petroleum Institute notes.

The Bank of America in San Francisco is the nation's largest commercial bank on the basis of its more than 10 billion dollars in deposits. Next comes the Chase Manhattan Bank of New York with more than seven and a quarter billion dollars in deposits.

# Moonshining Flourishes More Than Ever in the Kentucky Backwoods

LOUISVILLE, Ky. (UPI) — The Kentucky moonshiner may not be the splay-footed, big-nosed, unshaven character depicted in cartoons and movies, but he remains very much in existence today.

No exact figures are available, but there is good evidence that the moonshining industry is booming in the backwoods and hill country just as it did 20 years or more ago, and perhaps is doing even better.

**Agents of the Alcoholic & Tobacco Tax Division of the Internal Revenue Service — "revenooers" — arrested twice as many moonshiners during the last six months of 1958 as they did in the last six months of 1948.**

That was partly because the IRS was trying harder, but it also indicated there was just as much moonshining going on as ever, if not more.

During those last six months of '58 agents in Kentucky made 415 arrests. They confiscated 164 stills and seized 50 automobiles.

No other type of violation has remained such a persistent characteristic of the people of the area as illicit whisky distilling.

As printer's ink seems to get into the blood of a journalist, so does the smell of souring mash and the burning twang of a good shot of 'shine get into the blood of the moonshiner.

★ ★ ★

Records show that many — perhaps 8 out of 10—arrested on the charge are repeaters. Some have been arrested five or six times.

**To many of these people, especially in the mountain sections, moonshining is a livelihood, a hobby, an art and a way of life all in one. They do not really think of it as a violation of law, even though they know it is.**

To them, in a land where the only agriculture is subsistence farming and the only industry is digging coal deep in the dark channels of a mine, monshining is a must.

Do they know they will be caught? Of course they do. But they're willing to risk the consequences in matching wits with the law to live life as they like it.

★ ★ ★

One reason moonshining is not dying out is the continuing economic depression of the mountain areas. Many small coal mnies have been closed down, and many miners are out of work.

They can either leave their homes and the land they know in favor of a Northern industrial city as many of their young folks do, or they can turn to moonshining for cash as their fathers did before them.

Eastern Kentucky mountaineers are friendly and hospitable souls except to those prying into what is considered none of their business.

**Not so long ago there were many parts of Kentucky where the automobile had never been seen. Revenuers were strangers, and when they came snooping around, they ran a good chance of being shot at.**

There are still a few such localities, but for the most part the constant push by the officers against illicit distilling has brought a better understanding, or maybe it's fear, to the moonshiners.

Agents now are seldom fired upon, because the moonshiners know the added penalties of having a gun around the still. In addition, many of them have become acquainted with the agents and respect them.

Sometimes, they have even become friends, each knowing all about the other, and playing a good-natured game of "catch me if you can."

If the moonshiner loses, he'll shake hands with his captor, congratulate him and go along to court without protest.

One agent who for many years worked along the Big Sandy River —the stream that forms the border of Kentucky and West Virginia and was the boundary line in the Hatfield - McCoy feuds of half a century ago—tells this story:

★ ★ ★

One morning he and two other officers lay in wait and watched as a father and his two teenage sons came along, fired up their improvised furnace and put the still in operation. The agents came out of their hiding place and arrested all three.

**The job done, the party wound its way back down a narrow mountain path to the family cabin where the mother and daughters had a hot dinner ready for all hands—including the agents.**

Knowing that refusing a mountaineer's hospitality is a deep insult, the agents sat down to a hearty meal of boiled potatoes, hominy grits and corn bread—with a small glass of "white lightning" for an appetizer.

★ ★ ★

The revenuers are inclined to be a little less tolerant in sections where there are more opportunities to make a legal living. One agent in south central Kentucky reports that in his 15-county area there are not more than 10 per cent of the number of stills there were a decade ago.

This is because new industry has come to the region, the farming is good, and the IRS agents have kept up a constant drive against moonshining.

**Most important of all, the agent says, is the attitude of the federal judge in the area, because "without convictions, we cannot combat the moonshine situation." During 1958, of all those arrested for moonshining in the United States, 27 per cent were not convicted.**

Some of those who are arrested and sent to prison make good use of their time. They are well behaved and eligible for parole early. They also learn a trade in prison such as sheet metal work, plumbing or mechanics.

So, when they come out, they are able to build bigger and better stills.

### Germany Gets Rainfall After Month of Drought

FRANKFURT, Germany (AP)—It rained in Germany Wednesday after almost one month of hot, sunny weather.

The drought—one of the worst in decades — caused crop damages estimated in the millions of dollars.

But it rained all Tuesday night and weathermen predicted more rain.

### Boil Food in Pouches

NEW YORK (UPI) — Frozen foods are being packed in plastic pouches that you can boil in water. The advantage is that you can serve a wide range of dishes without dirtying a pot.

### A Lot of Railroad

CHICAGO — Statisticians estimate there is one mile of railroad for approximately every 4,500 persons in the world.

## May Claim Estate of Tyrone Power

LOS ANGELES (UPI) — The $800,000 estate left by actor Tyrone Power may be wiped out by creditors claims, a judge disclosed yesterday.

★ ★ ★

Superior Judge Burdette J. Daniels promptly ordered slashes in the monthly allowances of Power's widow, Debrah, 27, his former wife, Linda Christian, 31, and their two children.

**Mrs. Power's monthly checks were cut from $1,500 to $1,000, and Miss Christian's payments from $1,000 to $500.**

The claims against the estate were reported to include $294,999 allegedly owned in federal income taxes. Power died last Nov. 15, at the age of 45.

---

Scrub fire screens with hot water and detergent to remove gummy soil.

## Army Will Draft 9,000 in October; Up 2,000

WASHINGTON (UPI) — The Army will draft 9,000 men in October, an increase of 2,000 over the August and September calls.

With the October levy, the services will have drafted 2,472,430 men since the Korean War started. Draft calls this year have fluctuated between 6,000 and 9,000 a month.

---

The United States is the world's largest producer of eggs.

## EOKA Chief Announces He'll Fight Agreements

ATHENS (UPI) — Gen. George Grivas, a leader of Cyprus' fight for independence, announced yesterday he would actively oppose the present international agreements by which Cyprus is to attain nationhood.

★ ★ ★

In so doing, the EOKA guerilla chief openly broke with Archbishop Makarios who has given public support to the agreements reached earlier this year by Britain, Turkey and Greece.

# Local Produce Increases as Summer Nears Peak

Although retailers report that meat and poultry prices are much the same as last week, pork, lamb, turkey and fryers are featured in many stores. Perch, whitefish and trout are fresh fish in largest supply.

Michigan produce is on the increase, especially since the recent rains. Blueberries, cucumbers, corn, lettuce, potatoes and summer squash are economical choices due to large "in season" supplies. The first Michigan peaches have started to market with volume supplies expected by August 10 to 15.

**Egg prices are expected to continue as they have been for another week or so. Young hens are starting to lay and the season for small eggs is beginning.**

Several cheeses, butter, margarine, sherbet and ice cream are specially marked in dairy cases.

**FRUITS**

If you pick a fruit, pick Michigan blueberries. This last week in July and the first week and a half in August is the time of the largest supply and the lowest prices for the 1959 crop.

**There is a good supply of peaches, but most will be from out-of-state again this week. The harvest of Michigan's Red Haven variety is under way and some markets have those measuring over 2¼ inches in diameter.**

Smaller supplies of cherries, bananas, cantaloup and raspberries explain the increase in prices you may find.

**VEGETABLES**

There is a heavy supply of homegrown corn. Some retailers report the quality as excellent. Others say the quality is fair and that some growers are allowing corn to get too mature before picking. Why not look before you buy? If the kernels are large, hard, or dented, the corn is too mature for good flavor.

**The quality of homegrown tomatoes varies. If the tomatoes have a red tinge they will ripen at home if you give them the "right" treatment. Ripen at room temperature, out of direct sunlight. Then refrigerate. Underripe tomatoes will turn watery and have poor flavor if you refrigerate them before ripening.**

**PROTEIN CHOICES**

Good supplies of smoked cuts in storage and the trickle of spring pigs starting to market are cues to pork values. Smoked pork cuts such as bacon, ham, picnics, franks and sausage are featured again this week.

Some retailers are cutting the whole loin of small size hogs into chops with no price difference between the rib, center or loin section. Some boneless roasts are being cut from the first seven ribs of the rib-end roast.

**The 1959 crop of young hen turkeys is starting to market. These and the small Beltsville type turkeys are in good supply.**

Fryer prices are rising slightly so any feature might be considered a value from standpoint of price, if the quality and size is what you want. Cut-up birds are 4 to 6 cents more per pound than whole fryers.

Quantity, quality and price of beef continues about as it has been through July. Proper wrapping and freezing of chuck roasts at summer costs could mean a savings on the winter meat bill. Customer demand for steaks continues to be great and prices have held at the same steady level.

**Fish for variety? Great Lakes perch will be abundant until October. Whitefish will be in good supply for the next two months. Trout will be available through mid-September. Shrimp supplies are increasing and will until the peak in October.**

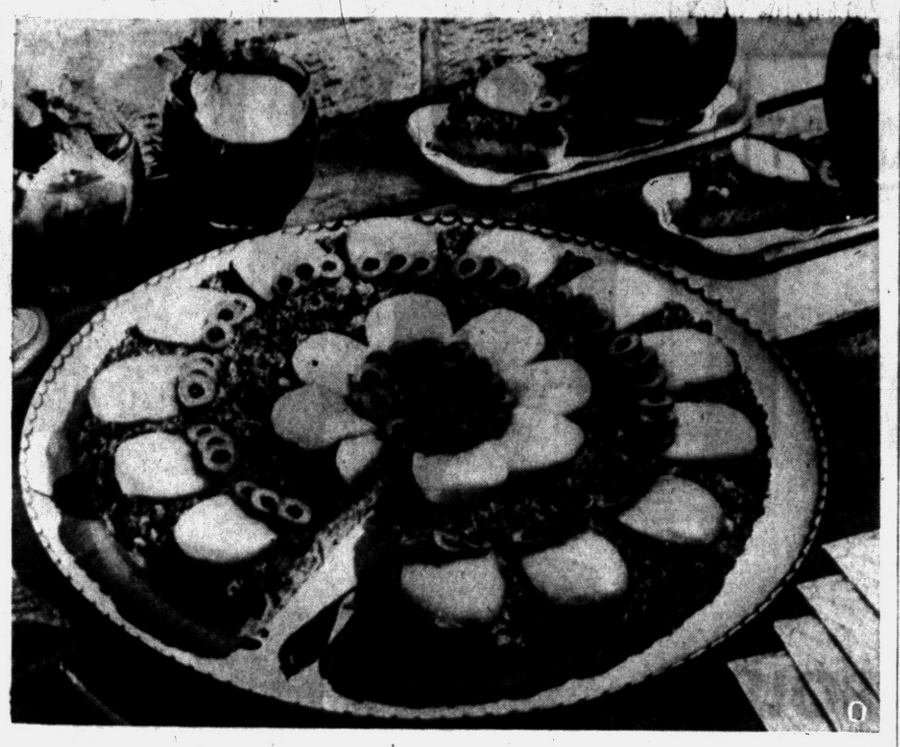

**EGGS & DAIRY**

Egg supplies and prices show little if any change. More small size eggs will be available within two weeks. Hens, starting to lay for the first time, will produce small size eggs until about November.

Surplus milk is used in more dry milk, butter, ice cream, cheese and sherbet in summer months. Many stores have marked these dairy products at special prices.

**OTHER FOODS**

Canned and frozen foods are also specially priced as the season for fresh produce progresses. Canned corn, cherries, apricots, pears, peaches, tuna, juices, margarine and frozen fruit pies are among these this week.

**HAM 'N' GOUDA APPETIZER PIE**—The answer to tempting easy-made appetizers for a crowd. The mild nut-like flavor of calories-controlled protein-rich Gouda cheese gives this ham and cornbread appetizer pie a truly distinctive flavor and appearance.

# Coffee Glazes Cookies Made With Cake Mix

Wherever the picnic site and whatever the crowd, one thing is sure, there must be a dessert. And everyone agrees that the most popular dessert includes cookies or small cakes. Team these with ice cream or fresh fruit or let them hold their own with just a beverage, iced or hot.

These moistly delectable Mocha Butterscotch Bars with their coffee glaze are quickly made from a box of butterscotch cake mix. They are baked in two 13x9x2-inch pans and then cut into bars. Fine out of hand eating, they are, for picnics at this season and lunch boxes later on.

**Mocha Butterscotch Bars**

1 package butterscotch cake mix
1 cup strong cold coffee*
2 eggs, unbeaten
1 cup raisins, chopped
1 cup chopped nuts

*If desired, dissolve 2 teaspoons instant coffee in 1 cup water; use instead of the strong coffee.

**Empty cake mix into bowl. Add coffee and eggs. Beat 3 minutes until smooth and creamy. Mix in raisins and nuts. Pour batter into two 13x9x2-inch pans, which have been greased and floured on bottoms and sides. Bake in moderate oven (350 degrees F.) 15 to 20 minutes.**

While cake is still warm, spread Coffee Glaze over top of cakes. When cool, cut into bars. Store in pans covered with aluminum foil.

**Coffee Glaze**

3 cups sifted confectioners' sugar
2 tablespoons melted butter
¼ cup strong cold coffee* (about)
2 teaspoons vanilla

*If desired, dissolve ½ teaspoon instant coffee in ¼ cup water; use instead of strong coffee.

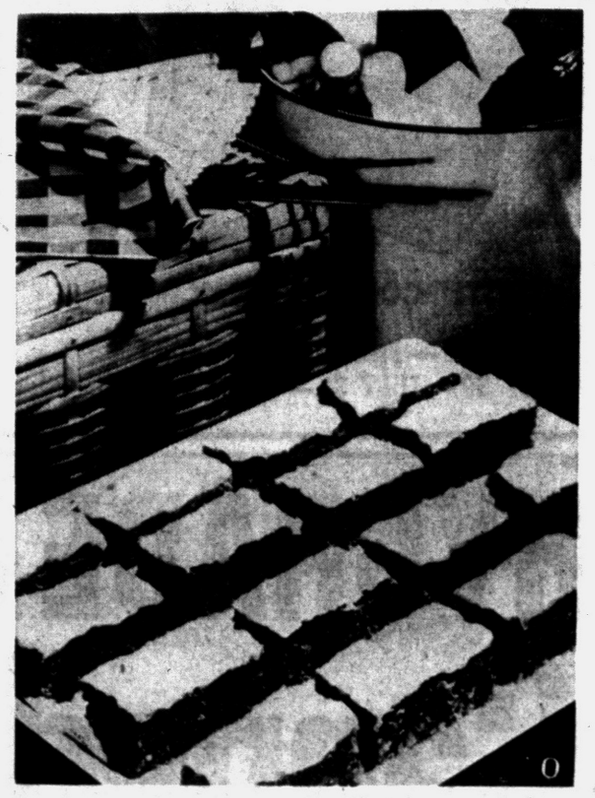

Measure sugar into small bowl. Add butter and coffee gradually, beating until smooth. Blend in vanilla. Makes 1⅓ cups glaze.

## Increase the Protein

To increase the protein food value of a serving of bouillon, add unflavored gelatine. Sprinkle the envelope of plain gelatine on ¼ cup of cold water to soften. Add 1 bouillon cube and ¾ cup boiling water. Stir until gelatine and bouillon cube are dissolved. If desired, ¾ cup of any very hot broth may be used in place of the bouillon.

## Peanut Topped Soup

That ¼ cup of salted peanuts left in the can will make an excellent garnish for soup; chop them with a sharp knife. Follow the label directions for heating a can of frozen condensed green pea with ham soup. Then garnish with peanuts.

**MOCHA BUTTERSCOTCH BARS** — For picnics at home or away, bake these delicious butterscotch bars from packaged cake mix. One package of butterscotch cake mix makes 32 of these tasty "fingers." A coffee glaze makes these an extra treat.

# Three-Fruit Drink Goes With Lunch

Enjoy a refreshing cold fruit drink with lunch? Here's your recipe!

**Three-Fruit Cooler**

1 can (1 pint and 2 fluid ounces) pineapple juice
2 large oranges
½ lemon
1 bottle (7 ounces) ginger ale

Mix pineapple juice and juice from oranges and ½ lemon. Add ginger ale and stir lightly; makes 1 quart. Fill 4 tall glasses with ice cubes and pour in drink. Serve at once. Makes 4 servings. Note: The pineapple juice called for is a No. 2 can yielding about 2½ cups.

## Horseradish Sauce

A summer platter of cold smoked meats takes to a horseradish sauce. One way to make the sauce is to fold drained bottled horseradish and finely grated apple into whipped cream, adding sugar and salt to taste.

# Exotic Soup Brings Praise

The familiar canned condensed soups we find on the supermarket shelves come in a galaxy of flavors—oh, so many to choose from. Yet, with all this variety, there is exciting adventure in creating a unique new blend — recognizably delicious, yet mysteriously different.

Celery-Mushroom Arabisque, for example, will bring laurels from your most sophisticated guests. And your family will be delighted with the warming, friendly taste of soups cleverly mated and garnished with nutmeg and almonds. Serve it as a beverage to "sip and spoon" glamorize a hurry-up meal.

**Celery-Mushroom Arabisque**

1 carrot, shredded
2 green onions, thinly sliced
2 tablespoons butter or margarine
1 can (10½ ounces) condensed cream of celery soup
1 can (10½ ounces) condensed cream of mushroom soup
1½ soup cans milk
⅛ teaspoon ground nutmeg
⅓ cup finely chopped pecans or almonds

Lightly brown carrot and green onions in butter or margarine; simmer until green onions are cooked. Thoroughly blend in soups, milk, and nutmeg. Heat, stirring often, until bisque is hot, but do not boil. Serve hot with a sprinkling of nuts. Makes 4 to 6 servings.

# Cheese Appetizer Pie Keeps Guests Happy

Barbecue parties are fun! The outdoor chef knows it takes time to build a good fire and cook a dinner to perfection. He knows too, that those waiting and watching get hungrier with each sizzle. To keep your guests from becoming anxious watchers serve them Ham 'n Gouda Appetizer Pie along with their favorite chilled drink . . . and waiting time will fly.

Ham 'n' Gouda Appetizer Pie is just the type of appetizer a busy homemaker will appreciate being able to serve hungry guests on busy summer days. It's made in a jiffy with corn muffin mix and can be prepared ahead of time, if desired.

**Bake the crust and make the ham salad early in the day when it's cool and store salad in the refrigerator until serving time. Just before guests arrive spread corn crust with ham salad and top with Gouda cheese wedges and garnish with stuffed olive slices. Serve hot or cold as desired.**

Attractive baby Gouda is the calorie-controlled cheese weight-watchers like. It is made with partly skimmed milk, so is lower in calories and higher in protein than natural cheese of the cheddar type. Young moderns with trim figures will want to keep Gouda cheese on hand for summer meals and summer munching.

**Ham 'n' Gouda Appetizer Pie**

2 slices bacon, diced
2 tablespoons finely chopped onion
1 package corn muffin mix
Tomato juice (substitute for milk or liquids called for in recipe)
2 cups ground cooked ham (baked or boiled)
¾ cup mayonnaise or salad dressing
⅓ cup chopped sweet pickles
2 packages Gouda cheese
24 small stuffed olives, sliced

Saute bacon and onion in small skillet until bacon is golden brown and onion is tender. Drain. Cool. Prepare corn muffin mix as directed on package substituting tomato juice for the milk called for in recipe. Stir in bacon and onion.

Spread dough over bottom of well-greased 14-inch pizza pan. Bake in a hot oven (400 degrees) until done and lightly browned, about 20 minutes.

**Blend together ham, mayonnaise and pickles. Spread over baked corn crust. Remove bright red paraffin coating from Gouda and slice cheese into wedges. Top ham mix attractively with wedges of Gouda cheese. Decorate as desired with sliced stuffed olives.**

Serve cold, or return to moderate oven (350 degrees) to soften cheese, about 5 minutes. Cut into wedges and serve as an appetizer. Yield: 14 to 20 servings.

# Buffet Dinners Need Casserole

Easy to serve buffet meals are a must during the summer months of informal dining. Here's a recipe for a meat-ball casserole which is as adaptable as it is tasty. Serve it with spaghetti, as an entree, or as an appetizer.

**LEMONY-MEAT-BALLS**

1½ cups chopped onion
⅔ cup green pepper, chopped
4 tablespoons butter or margarine
1 clove garlic, crushed
2 10½ oz. cans tomato soup
2 cans beef boullion
½ cup lemon juice
2 unbeaten eggs
Salt
Pepper
Basil
2 pounds ground beef

Melt 2 tablespoons butter or margarine in skillet and add chopped onions, green pepper and clove garlic. Cook gently until the vegetables are tender and slightly golden. Add the canned soups and lemon juice. Simmer slowly.

**Turn ground beef into a large bowl. Add eggs, and season with ½ teaspoon salt, dash pepper and pinch of basil; mix thoroughly. Shape into balls about the size of table tennis balls. Melt two tablespoons shortening in a skillet and brown the meat balls, a few at a time, first on one side and then on the other, turning them carefully.**

When browned, put in a casserole. Pour the hot sauce over them. Cover and bake in a moderate oven, 350 degrees for 30 minutes.

## To Accompany Liver

Saute mushrooms, green peppers and onions (all thinly sliced) in butter and serve with pan-fried liver. Or use bacon drippings, if you like, for cooking the vege tables.

# Meals Are Unusual Just Before Vacation

By JANET ODELL
Pontiac Press Home Editor

It's a good thing we go on extended vacations ever so often. If we didn't, perhaps some of those jars in the back of the refrigerator never would get taken out.

We are leaving this weekend for a camping trip out west. So our meals these last few days are a little different. Miss Teenager is a counselor at camp and the Ten-Year-Old a camper at another camp. That leaves two of us and the three cats to eat everything up.

**Our salads are getting skimpier by the day. We don't want to buy any more lettuce; there is one cucumber in the garden. By Friday we'll have nothing but radishes. Why did we ever buy such a large bunch at the last minute?**

Looks as if we'll have to have an omelet Friday night to use up the eggs. Maybe we'll try freezing them and use them later on in baking. It would be a good time to experiment. The margarine, of course, will go in the freezer too.

Nuts, mint jelly, tomato preserves, pickles, mayonnaise, prunes and raisins, fat for deep frying — what an odd lot of food we store in the back of the refrigerator. The cottage cheese and pickled beets went on a relish tray for company. The six brown 'n' serve rolls were baked and served to the same company with some corn meal muffins, split and toasted.

**You know, it's quite a challen- to make things come out even on the last day. Sure, we know, we could leave the refrigerato on and just ignore that food. But we prefer to turn off all the electricity.**

Just think of us Friday evening having our dinner of radishes, eggs and a couple of dried prunes for dessert.

## Simple Food Served Attractively Is Best

Pretty summer angel tray . . . Simple desserts that combine light sweetness with refreshing coolness add much to the enjoyment of warm weather menus, especially when served in an attractive way.

A pretty and easy warm weather dessert to serve family and guests is a combination of angel cake wedges and orange ice. Using a packaged angel food from your grocer's ready-to-eat cake department, slice the number of wedges you need with a sharp knife.

To serve, spoon orange ice into a round bowl. Place bowl in center of a round tray or chop plate. Arrange wedges of angel food cake around the center bowl. Bring this arrangement to the table and make individual servings from it.

## New Packing Methods Prolong Cherry Life

SEATTLE, Wash. (UPI)—A new packing method will give longer storage-life to sweet cherries this season, says the Washington state fruit commission.

Polyethylene plastic liners for cherry lugs double the previous storage life of seven to eight days after picking. Sealed bags and low storage temperatures arrest the normal maturing action of ripe fruit. The seals are broken when the fruit is removed from storage for shipment to market.

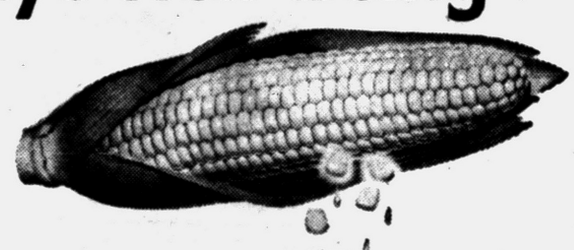

## Friday Night Dinner

Dress up an omelet for Friday night supper with shrimp sauce. Take a can (10 ounces) frozen condensed shrimp soup, ½ soup can milk; heat. Toss in a handful of chopped toasted almonds. Makes plenty for a 6 to 8 egg omelet.

RESEARCH REVEALS

New, More Delicious Margarine May be Important to Your Family's Well-Being

Because only New Fleischmann's is made from

100% CORN OIL

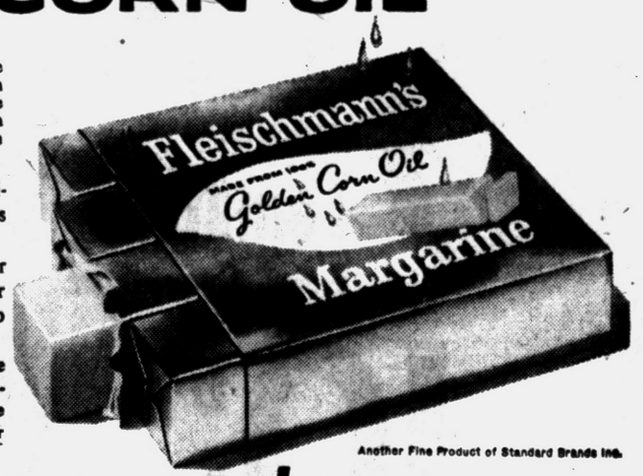

NEW TASTE TRIUMPH
Only Fleischmann's Margarine is made from 100% golden corn oil. It has a golden, delicate flavor never before achieved in margarine—the genuine golden taste of the high-price spread!

LATEST SCIENTIFIC REPORTS give evidence of new nutrition factors in golden corn oil. And it is corn oil that makes amazing new Fleischmann's Margarine so delicious.

Research indicates golden corn oil, in liquid form or partially hydrogenated as in margarine, may under proper conditions control excess *cholesterol*, believed by many to be an important factor associated with atherosclerosis.

ASK YOUR DOCTOR! Fleischmann's is the only margarine made from 100% golden corn oil. That is why many doctors now recommend Fleischmann's where the nutritional benefits of corn oil are important. Check with your doctor on how this applies to your family's well-being.

# Salads Hold Summer Spotlight

**PICKLES-IN-ORBIT**—Timely as today's headlines, but probably a little more appetizing, are pickles-in-orbit on "nose cones" of gelatin. The idea is crazy but the taste is wonderful.

**By JANET ODELL**
**Pontiac Press Home Editor**

This is such a delightful time of the year for salads. You can go to market and pick out an assortment of greens, then add to them anything your fancy dictates. It seems a shame that all the best salad ingredients come at one time. Sure, we know, we can get lettuce and so on all winter. But it isn't the same, is it?

★ ★ ★

Let's try some new ideas for the salad course this week. How about the attractive little molds pictured on this page? They will make excellent garnish for that cold meat platter. No lettuce is shown in the picture, but you may add it.

**Pickles-in-Orbit**

Two 3-ounce packages orange-flavored gelatin
2 cups boiling water
½ cup sweet pickle liquid
1 3-ounce package cream cheese, softened
¼ cup chopped sweet mixed pickles, drained
2 tablespoons chopped nuts

Dissolve gelatin in boiling water. Add pickle liquid; mix well. Chill until slightly thickened. Meanwhile, combine remaining ingredients; mix well. Shape into 6 balls.

**Turn half of gelatin mixture into 6 individual molds. Top with pickle balls and remaining gelatin. Chill until firm. Unmold. Garnish with additional cream cheese and pickles, if desired.**

Brussels Sprouts are certainly something we would never think of putting in a salad. But why not? We make cabbage and cauliflower salads.

Brussels Sprouts date back to the 13th century in Belgium, but it wasn't until 1909 that they were grown commercially in this country. Took them rather a long time to cross the Atlantic.

★ ★ ★

This particular recipe is for a filling main-course salad.

**Sprout, Beef and Macaroni Salad**

1 tablespoon salt
3 quarts boiling water
2 cups elbow macaroni (8 ounces)
1 10-ounce package frozen Brussels sprouts
1 cup cooked corned beef strips
1 medium-sized onion, chopped
¼ cup canned pimientos, sliced
½ cup mayonnaise
1 tablespoon prepared horse-radish
1 tablespoon sugar
3 tablespoons vinegar

Add 1 tablespoon salt to rapidly boiling water. Gradually add macaroni so that water continues to boil. Cook uncovered, stirring occasionally, until tender. Drain in colander. Rinse with cold water; drain.

**Cook Brussels sprouts as directed on package. Drain if necessary. Combine macaroni, Brussels sprouts, corned beef, onion and pimiento; toss lightly, but thoroughly. Chill.**

Combine remaining ingredients; mix well. Arrange macaroni mixture on bed of crisp lettuce, if desired. Top with mayonnaise mixture.

★ ★ ★

Tuna, marinated with onion rings and a tart oil and vinegar dressing, makes a delicious supper salad. Just before serving you add fresh cucumbers, tomatoes and greens. Serve hot biscuits with this salad.

**Zesty Cold Tuna-Onion Plate**

2 cans (6½ ounce) chunk-style tuna
2 onions thinly sliced

**Marinade**

½ teaspoon salt
1 teaspoon dry mustard
1 teaspoon brown sugar
½ teaspoon pickling spices
¼ cup cider vinegar
2 tablespoons salad oil

Drain tuna; set in shallow pan, and top with onion rings. Combine salt, dry mustard, brown sugar, pickling spices, vinegar and oil. Pour marinade over tuna and onions. Chill for a few hours.

**Arrange tuna and onions on salad greens on platter. Garnish with tomato, cucumber, mush-**

## Dried Beef Economical as Meat in Casserole

NEW YORK (UPI) — For a flavorsome economy meal, serve frizzled beef and noodles. Cook 8 ounces of medium egg noodles uncovered in 3 quarts boiling water with 1 tablespoon salt. Break the contents of 1 (5-ounce) jar of dried sliced beef into pieces. Melt ¼ cup of butter or margarine in saucepan.

Add beef, 1 cup of chopped onions, and 3 tablespoons of chopped green pepper. Cook over medium heat until onions are brown. Drain noodles and add them to meat mixture along with 1 (1-pound) can of peas, drained, and 1 cup light cream. Heat to serving temperature, stirring occasionally. Serves 4 to 6.

Frozen, sliced bread does not have to be thoroughly thawed before it is put into the toaster or made into sandwiches, say home economists at Michigan State University. Slices separate easily while still hand frozen, although you may have to loosen them with a knife.

# Fresh Citrus Drinks Will Win Friends

Straws Aweigh! If you want to win friends and influence appetites . . . plug in your blender (or use a mixer) and whizz away those warm hours with frothy, cool drinks.

There couldn't be an easier way of getting those recommended 2 quarts of liquid a day plus needed vitamins for stamina than in delicious fresh citrus and fruit beverages.

You'll think of others (especially if there are teenagers around) but a great favorite of ours is this . . . juicy fresh peaches plus tangy fresh lemon juice plus ice cream blended with lots of fun and two straws for easy sipping . . . if it's around the house add some small finger sandwiches of fruit bread and cream cheese. So relaxing!

**French Peach Lemon Nog**

½ cup fresh lemon juice
2 teaspoons grated lemon peel
1 cup sugar
½ teaspoon almond extract
4 medium fresh peaches
2 cups milk or 1 pint vanilla ice cream
Nutmeg

Combine first four ingredients and stir until sugar is dissolved. Peel peaches, remove pits and cut into pieces. Put peaches in blender, mixing until smooth. Add lemon-sugar mixture and continue blending. Slowly add milk or ice cream. Sprinkle with nutmeg. Makes 4 to 5 servings.

**Peachy Citrus Punch**

½ cup fresh lemon juice
1 cup fresh orange juice
½ cup sugar
4 medium fresh peaches, peeled, pitted, cut into pieces
1 quart ginger ale

Combine first three ingredients and stir until sugar is dissolved. Put peaches in blender, mixing until smooth. Combine with citrus mixture. Add ginger ale and ice cubes to serve. Makes 4 to 6 servings.

**FRENCH PEACH LEMON NOG** — Beating fresh peaches into a lemon milk drink is a new idea. If your teenagers are resistant to milk, serve it to them in this fashion. They may change their minds.

## *Gives Away Personality by Her Cake*

CHICAGO (AP) — A woman is known by the cake she bakes, says a producer of a cake mix.

Psychologists were called on a "reading" survey to see how three types of women reacted when handed a box of mix and told to make any of the four recipes on the box or invent her own.

The chic group unexpectedly proved to be "kitchen types" and baked fancy cakes. They made pastries richly filled with nuts and raisins, poppy seeds, cheese or fruit, topped with frosting.

**The non-glamorous group included wholesome "American girl" types and older women. All but four of the 15 in the group made plain cakes, with or without topping.**

In the group of "neat Nellies," 11 of them turned out fancy but less creative cakes than those of the chic sophisticates.

The group of women whose common characteristic was fastidious housekeeping favored gooey pecan rolls, made with scarcely a departure from package directions, but they outranked the others in quick cleanup action.

## Branch Out With Lamb

Often the homemaker will only think of barbecue when beef or ribs are mentioned. Have you ever thought of serving barbecued lamb shanks or barbecued veal chops? Yes, you can even have a barbecued leg of lamb. Try some of these new and unusual combinations.

## Advice Runs From 1,000 to 5,000 Miles

# Use Own Judgment on Changing Oil

By BEN PHLEGAR
AP Automotive Writer

DETROIT (AP)—You can get a lot of expert advice on how often to change the oil in your car.

In fact, the more experts you talk to, the more advice you'll get. And it probably will add up to something like this: Within reason, use your own judgment.

**There is the school that says flatly the oil in the engine of an automobile should be changed every 1,000 miles. The owner's handbooks for most 1959 model Chrysler Corp. cars says every 5,000 miles, or three months under normal conditions.**

The Volkswagen Handbook says "daily, under extreme conditions; 3,000 miles under normal conditions."

Most service stations stick with the 1,000 mile recommendation unless they sell one of the brands of oil that specifically claims 2,000 miles.

The argument is almost as old as the auto industry, which uses 70 per cent of all motor oil. One reason why the disagreement is heard more frequently now is that the carmakers gradually are lengthening their recommended period between changes. This has hurt the sale of motor oil.

**In the last four years the U.S. car population has increased 10 per cent. Gas consumption has hit a record peak. But total sales of motor oil dropped 4.7 per cent from 1955 to 1958.**

The oil companies figure the average motorist changed oil every 1,900 miles in 1952. By last year the figure was every 3,100 miles.

The tradepaper Automotive News in a full scale survey of the situation, found that service departments of new car dealers usually urged a oil change every 2,000 or 2,500 miles despite factory recommendations.

The oil you use rarely wears out regardless of the mileage. But this isn't true with the things put in it — the additives — to reduce wear and acidity, prevent corrosion, oxidation or sludge.

**Almost every motor oil on the market has from four to eight of these additives and they break down with use.**

The way a car is used has much to do with how long the oil lasts. Cold weather, dusty roads, start and stop driving all shorten the life of the oil, because it is under these conditions that the oil becomes contaminated with water, dirt and various oxides that harm an engine.

There was a time when a driver could look at the dipstick which shows his oil level and tell whether his oil looked clean. Today he can get fooled because some of the additives in good oil cause it to look gray. When these desirable additives quit working, the oil clears up.

**Both the auto industry and the oil industry are tending to accept the use of time, rather than miles, in suggesting oil changes.**

They feel this can give equal protection to cars used at highway speeds and to cars used by suburban housewives for their shopping.

So far, however, the two industries haven't agreed on the time interval. The American Petroleum Institute wants to make it 30 days in winter, 60 days in summer but in no case more than 2,000 miles. The manufacturers still favor longer periods.

Thus you can still pay your money and take your chances.

# Can Hear Rose Petals Dropping

## Electronic Instruments Duplicate Human Ear in Sound Sensitivity

FLINT — Electronic instruments so sensitive they can hear a flower petal's fall are used by Buick acoustical engineers in their never-ending battle against unwanted, irritating noises.

These same instruments are selective enough to completely ignore the sound of a nearby dynamite blast while listening to the petal falling, according to Oliver K. Kelley, chief engineer at Buick.

**"They can, for example, detect and record only the middle 'C' if all the keys of a piano are struck at the same time," Kelley said, "or pick out only the sound of a fan belt from all the noise of a running engine."**

Actually, instruments like these are nothing more than man's attempt to match the human ear, Kelley said.

"The human ear can detect the sound of a mouse squeaking in a corner at the same time it hears a deafening thunderclap," Kelley explained, "even though the noise level of the thunderclap may be millions of times louder than the squeak of the mouse."

★ ★ ★

This faculty of the human ear is the result of a very exact pitch or frequency sensitivity — the ability to quickly and accurately detect a change in tone. A change in loudness or volume, on the other hand, is not so easily detected by the human ear, nor can it be remembered for any length of time.

## Patrice Munsel Bears Premature Daughter

NEW YORK (AP)—Singing star Patrice Munsel gave birth Tuesday night to a 2½-month premature daughter, her second such birth.

Miss Munsel, the wife of Robert Schuler, and the girl were reported in good condition. The baby weighed 3 pounds, 4 ounces.

Last summer the singer had a son born prematurely. The Schulers have two other children.

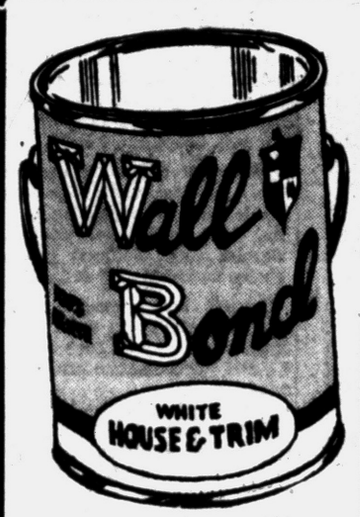

An estimated total of four billion, 800 million dollars was paid out to Americans in health insurance benefits during 1958, according to the Health Insurance Institute.

### List Steps to Aid Child After Suffocation

# Doctors See Plastic Bags Here to Stay

CHICAGO (UPI) — The American Medical Association, alarmed over the increasing number of deaths due to plastic bags, today listed three steps for saving a child from them.

At least 80 deaths, mostly those of infants, have been counted by United Press International as attributable to plastic bag suffocation since Jan. 1.

The AMA, in its current Journal, saw no decline in the use of plastic bags or wrappings.

**"Despite the sudden awareness of the potential danger to infants and children," the AMA said, "the convenience and utility which plastic offers as a covering material suggests that it will continue to be used."**

The AMA committee on toxicology said certain necessary steps should be taken for any child ensnared by thin plastic material. They were:

**1. If a child's breathing has stopped, the immediate need is to restore breathing. If possible, call a neighbor or send for help. Ask that a fire department inhalator squad be summoned and that the nearest hospital be alerted.**

**2. Try to resuscitate the child using the mouth-to-mouth technique recommended as the most effective method by the American Red Cross:**

**—Place the child on its back and extend the neck back. Put a towel or pillow under the shoulders so the head drops back.**

**—Lift and hold the lower jaw up to assure an open airway.**

**—Place the other hand on the stomach to prevent its overinflation.**

**—Place your mouth over the child's mouth and nose and blow in. After each breath, turn your head to the side, take another breath, and blow in again. Repeat 12 to 20 times a minute.**

**3. If the child is suffering labored breathing, is stunned, or has difficulty in movement, rush him to the nearest hospital.**

The AMA said it was imperative for parents also to take precautions and not to allow their children to play with plastic in any form. After plastic bags and wrappers have served their purpose the AMA said, they should be destroyed.

Never use plastic film for slip covers for pillows and mattresses or as blanket protectors, the AMA added since many of the infant deaths due to plastic occurred with such use.

# Atomic Shelter Funds in Senate Money Bill

WASHINGTON (AP) — The Senate Appropriations Committee voted tentatively Wednesday to include funds for an underground atomic shelter at Denton, Tex., in a huge catch all money bill it is drafting.

Committee members who attended the committee's closed door session said the group has agreed to include "the full amount" requested by Sen. Lyndon B. Johnson (D-Tex), the project's chief sponsor, for its construction.

**Johnson at public hearings had requested $2,700,000 for the project, which he said could serve as an emergency relocation center for the President and Cabinet in event of an atomic attack on this country.**

The proposed two story underground shelter is planned as a prototype for other underground regional centers.

# Midgets Compete in 250-Mile Race

The longest midget automobile race ever held will be run Aug. 23, at the huge paved oval at Trenton N.J. Speedway, according to announcement by promoter Sam Nunins of Jersey.

★ ★ ★

Set for 250 miles, this race, Nunis says, will offer a $12,000 guaranteed purse, midget racing's richest cash awards.

# *Ike Likes Split Party Elections in 50th State*

WASHINGTON (AP)—President Eisenhower said Wednesday he is gratified by Hawaii's election of a split party representation in Congress.

While Eisenhower said he is happy that Hawaii elected a Republican governor and at least one senator, he thinks the results have world significance beyond a mere party designation of those chosen.

**Eisenhower said he wanted to express grate satisfaction that among the people elected were Hawaiians of Chinese, Japanese and native Hawaiian extraction.**

The President said the election was a very fine example of democracy in operation.

He said it is an example for all the world to see and he is gratified by the results.

## South Haven Firm Gets Municipal Dock Contract

GRAND HAVEN (UPI) — Getman Brothers of South Haven has been awarded a $227,500 contract to build Grand Haven's new municipal dock.

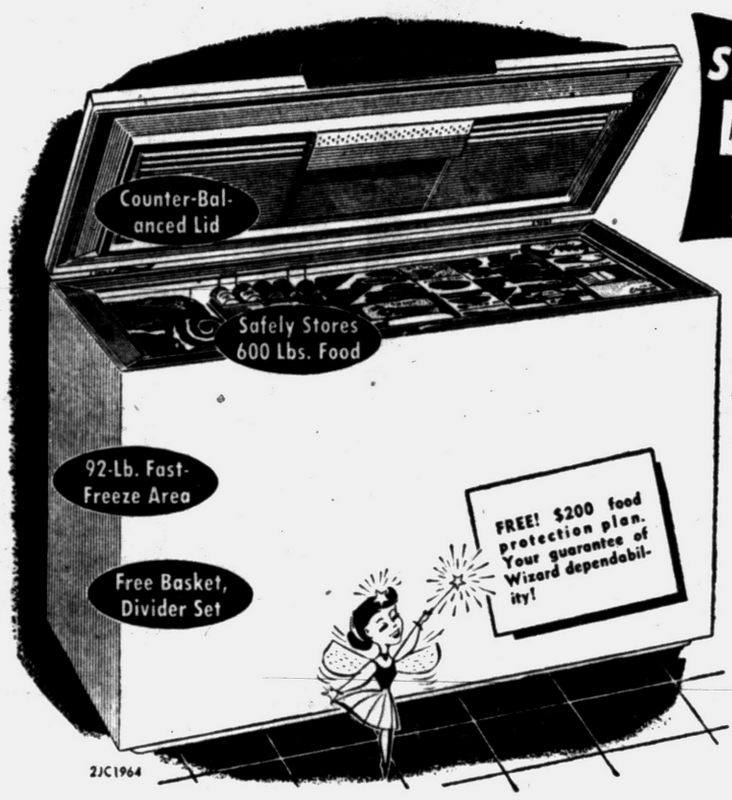

Construction of the dock will be the first phase of a $5 million expansion of the municipal light plant.

The dock, to be built at the head of the Grand River, will be used to unload coal for the power plant as well as other cargoes arriving here by water.

The Knees Have It

# House of Dior Shortens Skirts

By PAT HERMAN

PARIS (UPI)—Women with knobby knees could groan in unison today: The kneecap is coming back into fashion again for the first time since the roaring twenties.

For shorter skirts are what Yves Mathieu Saint-Laurent has decreed for fall in the House of Dior fashion showing this morning.

★ ★ ★

A lot of men dislike bony kneecaps but that may not help much. Dior's word has been fashion law for nearly a dozen years and the latest dictate could be as expensive as the late Christian Dior's "New Look" of 1947.

For those who think there is no area of the female form less appealing than the knee, there is the fact that virtually every other Paris designer has been plugging long skirts—around midcalf.

★ ★ ★

But by noon today the short hemline will be official to many women of the world who believe what the 23-year-old successor to Christian Dior tells them.

Such solid citizens as Jacques Heim, president of the governing body of high fashion (the Chambre Syndicate de la Couture Parisienne), and the ageless Mademoiselle "Coco" Chanel showed skirts at a respectable length—between the top and middle portion of the calf.

★ ★ ★

Except for Chanel, who always goes her own sweet casual way, the others pushed hard for a broad-shouldered, long torso line. To sideline observers this seemed to be a drastic enough departure from last season's pretty girl "back-to-nature" silhouette.

But they did not reckon on the multimillion dollar establishment on the elegant Avenue Montaigne, just off the Champs Elysee, where fashion history has been made since 1947.

The new look of 1947 has been talked about ever since because its success pulled French fashion out of a postwar slump. France is in better economic shape than ever but dressmaking is one of her most important industries.

The House of Dior knows that to sell dress you have to be different even if being different means showing off parts of the female shape that might better be left to the imagination.

★ ★ ★

In addition to hiking up skirts today, Dior also will narrow shoulders and work skirts in a way to dramatize the new look, the designer told me yesterday.

There were two things in the Dior collection for women to be thankful for: Waists and busts were unaltered.

# Head of GOP Women to Speak

## Mrs. Gibson to Address Republicans at Picnic

MRS. PETER GIBSON

President of the National Federation of Republican Women, Mrs. Peter Gibson of Monroe will be speaker at the 27th annual picnic to be held by Women's Federation of Oakland County.

The picnic will be held at 6:30 p.m. Aug. 3 at Avon Park, Rochester. The Oakland County Republican Lincoln Club will assist.

**MRS. GIBSON VOLUNTEERS**

Mrs. Gibson has been a volunteer worker for the Republican Party for more than 20 years and began her career in 1936 by collecting ballots. She has been president of her local Women's Republican Club and of Republican Women's Federation of Michigan for the past four years.

She has also worked in various posts with Eastern Star, Rainbow Girls, Presbyterian Church, Daughters of American Revolution and Business and Professional Women.

★ ★ ★

Mrs. Bert Norton and Mrs. Francis Covert of Rochester will be the hostesses at the picnic. Mrs. Harry Henderson, president of the federation has as cochairmen, Mrs. Charles Barrett and Mrs. Ralph Cook who have charge of the speaker's table, and Mrs. L. Raymond Sampson, vice county chairman. Club presidents assisting are: Royal Oak Republican Club, Mrs. Leslie Consterdine; Huron Valley Republican Club, Highland, Mrs. H. A. Simmons; Pontiac Republican Club, Mrs. Duncan McVean; Suburban Women's Republican Club of Birmingham, Mrs. A. B. Sheldon; Waterford Republican Club, Mrs. Charles Campbell and Southern Oakland County Republican Women's League, Mrs. Joseph Green.

**DONDERO TO OFFICIATE**

The Honorable George Dondero will be master of ceremonies and Lincoln Republican Club will be represented by president, Gordon Haupt. Invocation will be given by Mrs. Charles Crawford and the pledge to the flag by Mrs. Sadie Williams.

Others assisting are Mrs. Meta McIlroy, music and Mrs. Byron Cole, dessert.

Everyone is invited. Bring your own dishes and silver. Meat, rolls, dessert and coffee are furnished.

## VFW Members Receive Honors

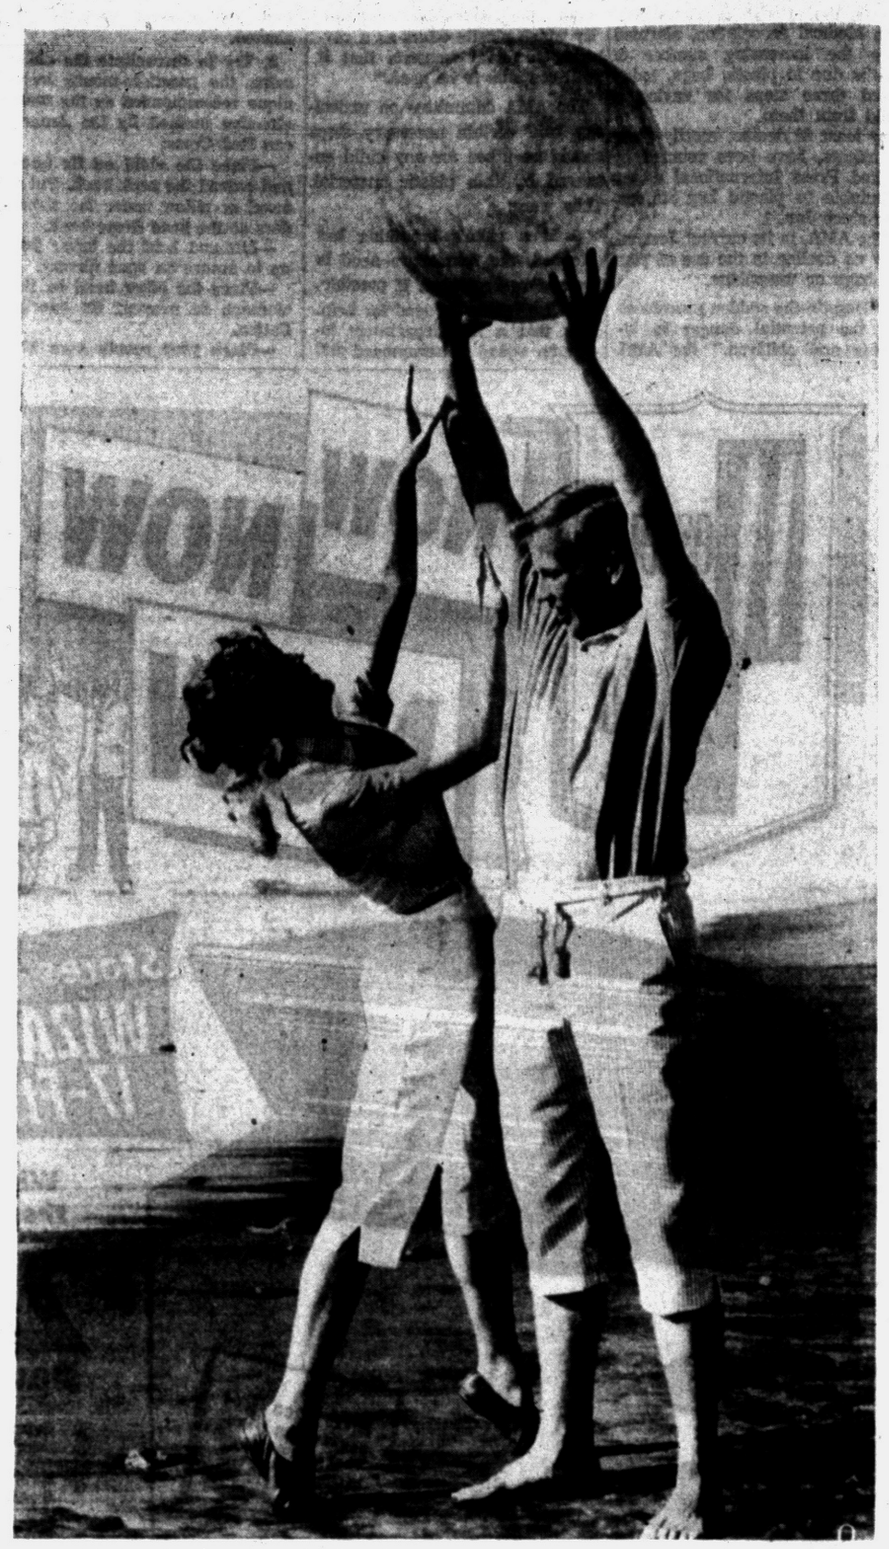

Several charter members of VFW 1008 Auxiliary received 15-year continuing membership bars when the group met Monday in the VFW Post rooms.

Recipients were Mrs. Leslie Dean, Mrs. Allen Hersee, Mrs. Sam Fadanins, Mrs. Archie Tryon, Mrs. Loren Beach, Mrs. Paul Boelter, Mrs. Alfreda Hutchison, Mrs. James Gaves, Mrs. Hazel Rice, and Mrs. Jean Luxon.

★ ★ ★

A picnic will be held today at the home of Mrs. Martie Pike on Silver Hill road for members and friends.

A social meeting will be observed on Aug. 10.

*Fun and games on the beach — and what is the ideal thing to wear but these cotton duck pants — slim and tapered of course, by Levi (that's right the same outfit that makes the Levis we all love so much).*

# Women's Section

ROBERT JOOHARIGIAN

## Pontiac Man Gets Will-O-Way Scholarship

First recipient of The Alexandra Grange Scholarship to be awarded each term at Will-O-Way Apprentice Theater, is Robert Jooharigian of West Dakota drive.

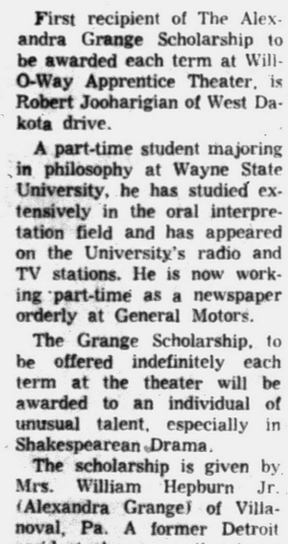

A part-time student majoring in philosophy at Wayne State University, he has studied extensively in the oral interpretation field and has appeared on the University's radio and TV stations. He is now working part-time as a newspaper orderly at General Motors.

The Grange Scholarship, to be offered indefinitely each term at the theater will be awarded to an individual of unusual talent, especially in Shakespearean Drama.

The scholarship is given by Mrs. William Hepburn Jr. (Alexandra Grange) of Villanoval, Pa. A former Detroit resident she was active in at the theater and appeared in plays at Will-O-Way Playhouse.

## For Safe Delivery

Here's some advice for those of you who correspond with American young people living abroad as exchange students. Remember to send mail in care of the family with whom the student resides to insure prompt and proper delivery.

JACQUELINE R. DUKE

Mr and Mrs. Jack W. Duke of Pleasant drive, Drayton Plains, announce the engagement of their daughter, Jacqueline Rosalie, to James Marshall Swain. He is the son of Mr. and Mrs. Merle G. Swain of Oakbeach drive, Drayton Plains. No wedding date has been set.

## Honor Carol Lee Venner at Bridal Shower Here

A miscellaneous shower honoring Carol Lee Venner was held Wednesday evening at the home of Mrs. James Reinert on Second street. Cohostess for the affair was Mrs. William Cox.

Miss Venner, daughter of Mr. and Mrs. Lyle Venner of East Mansfield avenue, will become the bride of Charles A. Bradshaw Jr. Sept. 12 at the Joslyn Avenue United Presbyterian Church. Charles is the son of Mr. and Mrs. Charles A. Bradshaw of Second avenue.

★ ★ ★

Norma Klukos will attend Carol as maid of honor and Phebe Henderson, Alycemae Stephens, and Mrs. George Hurley of Flint will serve as bridesmaids. Jean Bradshaw will be junior bridesmaid.

Guests attending the shower were Mrs. Venner, Mrs. Bradshaw, Mrs. Eugene Perkio, Joyce Perkio, Mrs. Lester Oles, Mrs. Harry Eaton, Mrs. Ben Brown, Mrs. Robert Bashaw, Mrs. R. A. Boatright, Mrs. Galbraith Pritchard, Mrs. Edward Pritchard, Mrs. Theron Taylor, Mrs. Patricia Drake, Mrs. Bud Newingham and Mrs. Robert Edward.

Mrs. Foster Creech, Mrs. William Roberts, Miss Henderson, Virginia Taylor, Penny Pritchard, Pat Eaton, Nancy Oles, Judy Oles, Mrs. Harry Vernon and Mrs. Francis Thompson were also present.

## Mrs. Adams Feted by Proxy

Mrs. Gerald W. Adams was given a pink and blue shower by proxy Friday evening at the Andersonville road home of her mother-in-law, Mrs. Frank W. Adams. Mrs. Gerald Adams is living in Florida where her husband is stationed with the U.S. Air Force. Mrs. Marie Wegman was hostess at the affair.

★ ★ ★

Attending were Mrs. Kenneth Strickland, Mrs. Julie McCrum, Mrs. Kenneth McCrum, Mrs. Richard Silvis, Mrs. Rita Silvis, Mrs. Albert Orr Jr., and Mrs. Leon Batsman.

Others were Gerald Vallad, Mrs. Stanley McCrum, Mrs. Ben Bronson, Mrs. David Lagoo, and Mrs. Frank Adams who received the gifts in behalf of her daughter-in-law.

FAY WEATHERBEE

Mr. and Mrs. Robert Weatherbee of Melrose avenue announce the engagement of their daughter, Fay, to Terry Douglas, son of Mr. and Mrs. William Douglas of Auburn Heights. An August wedding is planned.

## Pay Charges for Burned Furniture

By EMILY POST

"Dear Mrs. Post: The other evening while visiting friends, the tip of my lighted cigarette dropped on an expensive new chair cover and before I discovered it it had burned quite a large hole in the upholstery. My friend was plainly upset over this and I felt just terrible about it. I would like to know what I can do to make amends. Would it be proper to offer payment to have the chair repaired?"

Answer: If the upholstery can be repaired and you can afford the cost, you most certainly should offer to have the chair repaired.

"Dear Mrs. Post: The other evening while my husband and I were visiting friends of ours, another couple, who were friends of our hosts but unknown to us, came in. We found that we had a great deal in common with this other couple and liked them very much, and they seemed to like us too. Would it be proper to invite them to our house some evening without inviting our hosts through whom we met them?"

Answer: There is no impropriety in inviting them alone; although it would be more courteous to include your your hosts for the first time particularly if you have not had them recently. Later on if you become friends, it will not be necessary to invite your hosts every time you ask the other couple.

"Dear Mrs. Post: When we moved into our new house, we were given a "Guest Book." I would like to know how many times the same guests should be asked to sign the guest book? Is it just the first visit or every time they stay with us?"

Answer: This depends upon your own choice. If you want to keep a record of all visits paid you; then guests should sign every time; if you merely want to keep a record of the many persons who have stayed with you, they sign once.

Final Summer Concert Sunday

## Cranbrook to Feature Pianist

Well known Detroit pianist, Mischa Kottler will be the featured artist at the final concert in the Cranbrook Gardens Summer Festival series. The concert will be held at 4:30 p.m. Sunday in the court at Cranbrook House.

Mr. Kottler will be joined by Paul Olefsky, musical director of the Festival and virtuoso cellist, in Brahms Sonata for Cello and Piano in F Major.

★ ★ ★

First chair cellist with the Detroit Symphony, Gordon Staples, will perform the Beethoven Kreutzer Sonata, Opus 47 with Mr. Kottler.

The trio will conclude the concert with the Mendelssohn Trio No. 1 in D minor, celebrated for its form and demands on the soloists.

Mischa Kottler is known in this area for his weekly recital broadcasts for radio station WWJ, for which he is musical director, and for his teaching and concert appearances.

★ ★ ★

Trained at St. Petersburg conservatory, he studied under Emil Sauer in Paris and Vienna. He appeared in concerts in Europe before coming to America in the 1920s.

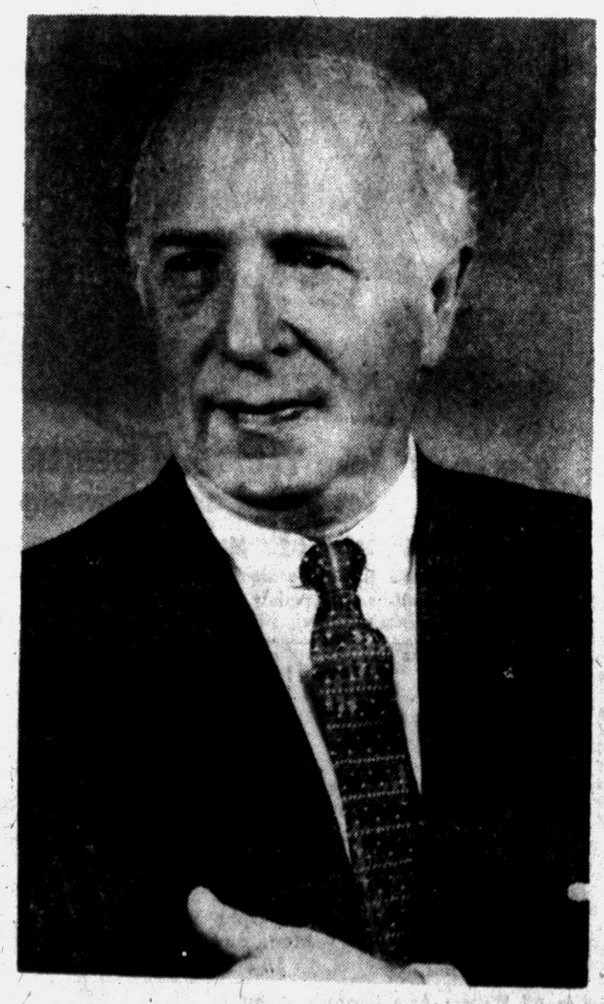

As accompanist for Leopold Auer's virtuoso violin class, he became acquainted with many greats of the music world including Jascha Heifetz.

★ ★ ★

Joining WWJ in its pioneering days, he has guided its musical programming as well as giving frequent broadcast performances. Through his teaching abilities, he has produced two winners of the Naumberg piano competition.

Arrangements for the summer concerts are under the direction of Ronald Kasperzak of Birmingham. On his committee are Mr. and Mrs. John Graham, Mary Sue Ekelund, Weston Meyer, Jari Ceil, Mrs. Kasperzak and James Schneider.

Tickets for the concert are available at Grinnells and at the garden gate on Lone Pine road, Bloomfield Hills, and at concert time.

MISCHA KOTTLER

# Personal News of Interest

Former Pontiac residents Mr. and Mrs. Philip Haweeli and their four children who now live in Honolulu where Mr. Haweeli is an administrator with the Federal Aviation Agency are here visiting until Aug. 4.

While here they will visit Mr. Haweeli's sisters, Mrs. Freda Myre of Lake Orion and Mrs. Rose Dolsen of Walton boulevard and his brother Edward Hawly.

★ ★ ★

Mr. and Mrs. Engel A. Groenberg of Moore street announce the birth of a daughter, Heather, born July 7 at St. Joseph Mercy Hospital.

Grandparents are Mr. and Mrs. John B. Oakley of West Walton boulevard and Mr. and Mrs. Engel Groenberg of Ward road.

★ ★ ★

Donald J. Bennett of Illinois avenue has returned from a month's vacation on the West Coast. Points of interest on his tour through 16 states included Glacier National Park, the Galina Mines of Idaho, Portland, San Francisco, Salt Lake City and Colorado Springs.

★ ★ ★

Mrs. Ferne Webber and children Kerry and Kraig of Tilden street spent 10 days in New Buffalo with her brother and sister-in-law, Mr. and Mrs. Charles L. Weber.

Mr. and Mrs. Charles A. Weber and their granddaughter Jacqueline Smith also spent the weekend with Mr. and Mrs. Charles L. Weber.

★ ★ ★

Mary Kent arrived home Tuesday evening to spend several days with her parents, the Ralph Kents of West Rutgers street. Miss Kent is attending Marion College, Marion, Ind., where she is studying to become a high school history teacher.

★ ★ ★

Mr. and Mrs. George H. Kimball (nee Evelyn Bochnig) of Daytona Beach, Fla., announce the birth of a son, David Ralph, July 18.

Maternal grandparents of the infant are Mr. and Mrs. Alfons Bochnig of Sylvan Lake. Mr. and Mrs. George C. Kimball of Daytona Beach are the paternal grandparents.

★ ★ ★

Nada L. Hunter is attending summer school at Washington University, St. Louis, Mo.

★ ★ ★

Mr. and Mrs. John C. Traxler (nee Deloris Rabadeau) of South Hospital road announce the birth of a son, Richard John, born July 22.

Grandparents are Mr. and Mrs. E. Traxler of Elizabeth Lake road and Mrs. Eileen Acord of River View.

★ ★ ★

Mrs. Carl Clifford of North Telegraph road left Wednesday morning for National Music Camp at Interlochen to attend the summer meeting of the Michigan Music Teachers Assn., for three days.

This is All-State Piano Week at Interlochen, and Mrs. Clifford, along with several other piano teachers, went to observe concerto auditions.

*Mr. and Mrs. Louis B. Livingston of Woodbine drive announce the engagement of their daughter, Sharon Kaye, to Richard E. McGee, son of Mr. and Mrs. Clarence McGee of Birmingham.*

SHARON KAYE LIVINGSTON

## Skin Requires Extra Care in Summer

The hot and often humid weather of summer frequently brings on skin problems. Women who have sensitive skins find themselves prone to rashes and other irritations.

There are several ways to keep yourself comfortable through such weather. First, remember that lightweight, loosely fitted clothing is far more comfortable and therefore better for your skin. It's also time to put away your closed pumps and get out open, airy sandals.

If you've a special summer sport, say, golfing, take a medicated powder with you to the links. It should go into your golf shoes before you start playing. It's absorbent, refreshing and contains, the makers say, two antiseptics to destroy harmful bacteria.

It's also handy to make a girdle slip on easily during hot and sticky weather. And by the same token, this powder can be used daily after shower or bath to give your skin a cool, slick feeling.

## Relief for Aches

After a day of cleaning house, rest your aching muscles on a soothing cushion. Experts have found that resting arms on a cushion will relax nerve and muscle tensions. It also is a comfort to those with arthritis and rheumatism.

**4 Pages Today in Women's Section**

*The latest thing in sportswear is this creation by Phil Rose. Slim Capri pants are topped with a tuck-in shirt with the "cropped top" look. Both are trimmed to coordinate, as in the whimsical sun hat.*

## Light Deceives

Artificial light plays tricks with one's face. Electricity drains color from the face. Also, there is a tendency to pick up shadows from Edison's pride and joy. So choose a foundation and powder which add color to your face.

A little grated lemon rind added to cream of asparagus soup (homemade or canned) points up flavor.

**Abby Says: No Good Telling Her**

# Gabby Visitor Better Get Wise to Self

ABIGAIL VAN BUREN

DEAR ABBY: A relative, acquired through marriage, visits me regularly and for several hours at a time. She talks continuously. She says she has no one to talk to at home so when she goes visiting she has a lot to say. The funny part of it is, she can't stand being around anyone who talks too much. She complains that no one comes to visit her. Can you blame them? She keeps visiting others until she wears out her welcome.

ABBY

She isn't stupid either. She is well-informed and up on all the news. I wish I could put her wise to the fact that she would be so much more acceptable if only she wouldn't talk so much. Can it be done?

Y.

DEAR Y.: You could tell her—but I doubt if it would help. A closed mind usually goes with an open mouth. She wants an audience not tips on how to win friends and influence people.

★ ★ ★

DEAR ABBY: I knew a sweet little auburn-haired girl 53 years ago, but she married someone else and so did I. I lost my wife six years ago. I read in the obituaries recently that this woman had lost her husband. I wrote her a letter and asked if she would like to see me again. We met. She gave me three beautiful kisses and said she thought I could replace her husband.

Now for my problem. I saw a doctor eight years ago because I lost all desire for romance. I was only 64 then. The doctor said he was only 62 and he'd lost his, too, and nothing could be done about it. Would it be fair to marry this lady without telling her about it? She is young yet. Only 64.

PONDERING

DEAR PONDERING: May I borrow a phrase from a very good Book? "Do unto others . . ."

★ ★ ★

DEAR ABBY: I know you are going to think I am terrible but I need help so I will have to tell you the truth. I am a 16-year-old girl who is considered very popular. I have gone steady several times but not for very long because I lose interest in the boy as soon as I know I've got him.

I get to know boys very fast. I mean on the first date I make out like mad with them. I don't let them go too far, Abby. I give you my word. My girlfriends have told me that my reputation is getting very bad. My own brother told me this, also.

How can I refuse to make out with boys that I have already made out with? I don't want to lose my popularity. Please don't throw this letter away thinking it is too silly to answer.

MUST KNOW

DEAR MUST: It is always the girl who sets the pace on a date. It's up to you to make it clear that you have "reformed." When a boy makes advances, restate the fact. And keep restating it. If you lose your popularity because you refuse to make out—you are popular with the wrong boys.

DEAR ABBY: Our mother is 72 and has been a widow for 8 years. Every year we have the same trouble with her. She likes to have a big party to celebrate her wedding anniversary. How can we tell her that after a husband passes away, his widow should not celebrate her wedding anniversary? Or are we wrong in trying to discourage such an event? She expects gifts, too.

THE CHILDREN

DEAR CHILDREN: You are not wrong. Perhaps she wants a "celebration" to ward off the "blues" on this particular date. Compromise by having a "family dinner." But tell her that anniversary gifts are discontinued after one of the parties is deceased.

★ ★ ★

DEAR ABBY: In reply to the milkman's wife who was jealous because her husband had the key to a lady's apartment so he could put her milk in her refrigerator:

I was a milkman for 26 years with a big company and there wasn't a driver there who didn't have at least one key. I knew one who had 16 keys! We delivered from 2 a.m. till 7 a.m. and here are a few things we did in the line of duty:

Heat baby's bottle. Carry out the wash. Put up the clothes line. Empty the trash. I even had to hook up a lady's dress in back once because she couldn't reach it and her husband was out of town.

So, don't let a little thing like having the key to another apartment worry you.

EX-MILKMAN

## Add Darkened Toned Clothes in Midsummer

Midsummer is the logical time to add some darkened tones to your wardrobe. They suggest that fall is on the way but since they're done in cotton, they're cool and therefore comfortable.

★ ★ ★

Cotton separates in deep colors and sophisticated prints are the easiest way to give your wardrobe a lift over those humid days until fall arrives. Neatly tailored shirts with convertible collars are teamed with slim or slightly full skirts. These are done in muted patchwork prints, provincial prints and medallion prints, all with dark backgrounds.

American girls have gotten along just fine with blouses ever since the days of the celebrated Gibson Girl. This summer, they'll find them still another solution to the midsummer clothes problem. And as in Gibson Girl days, the bigger the sleeve, the better. Capelet sleeves, double-layered lantern sleeves or deeply puffed sleeves are seen in the new blouses.

## Inexpensive Facial

When you want a quick facial pickup, splash your face with cold water. This is an inexpensive way to bring out the glow in your cheeks. And cold water also can make tired eyes perk up.

## Share Cosmetic and You're Apt to Share Germs

Using a comb or cosmetics belonging to someone else is the equivalent of borrowing a toothbrush. It's the surest way to pick up dandruff or skin trouble.

To avoid the problem entirely, always carry small sizes of your regular cosmetics in your handbag. Equip yourself with both comb and pocket-sized brush.

Carry a clean powder puff

And in the final analysis, it's far better to go with a shiny nose until you reach home than it is to use another person's powder puff.

Bernhard Altmann

# Showers, Parties, Teas on Agenda

By RUTH SAUNDERS

BIRMINGHAM—The Walter Piels of Henrietta street in Birmingham returned Monday from a nine-day trip to Lake Leelenau in northern Michigan. With Mr. and Mrs. Piel were their three children, Karen, Richard and David and also Mrs. Piel's parents, Mr. and Mrs. John Collins of Toledo, Ohio.

★ ★ ★

Honoring her daughter Mrs. Ross Heald of Scituate, Mass. Mrs. David G. Nethercot entertained at a tea Wednesday afternoon at Orchard Lake Country Club.

Mrs. Heald, with her children Mary Ann and Sam, arrived Monday to spend a week with her parents.

David C. Nethercot will bring his daughter Dana from Grand Rapids to spend this weekend with Mr. and Mrs. Nethercot and his sisters Mrs. Heald and Jill Nethercot.

Mrs. David Lehnen will give a bathroom shower Thursday in her home in Royal Oak for bride-elect Dolores Bader Smith who will be married Aug. 22 to James Lewis Dill of Detroit.

Delores is the daughter of Mr. and Mrs. Albert E. Smith of Puritan road.

Mr. and Mrs. John R. Canar will give a tool shower Friday in their Detroit home and Saturday Mr. and Mrs. Warren S. Sumner have invited members of the bridal party for cocktails and dinner Sunday at Orchard Lake Country Club.

Mr. and Mrs. Edward J. Ewing II will entertain for Delores and Jim at a steak roast and swimming party next Wednesday at their summer home on Harsons Island, St. Clair Flats.

Mary Anne Sweeny, who will be Miss Smith's maid of honor, will give the spinster dinner Aug. 18, and the rehearsal dinner will be given by Dr. and Mrs. J. Lewis Dill, parents of the bridegroom-elect, Aug. 22 at their home on Birchcrest drive, Detroit.

★ ★ ★

Another bride-elect of Aug. 22 is Jean Spencer, daughter of Mr. and Mrs. James H. Spencer of Shirley drive. Her fiance is Donald C. Nichols whose parents are the L. E. Nichols of Lahser road.

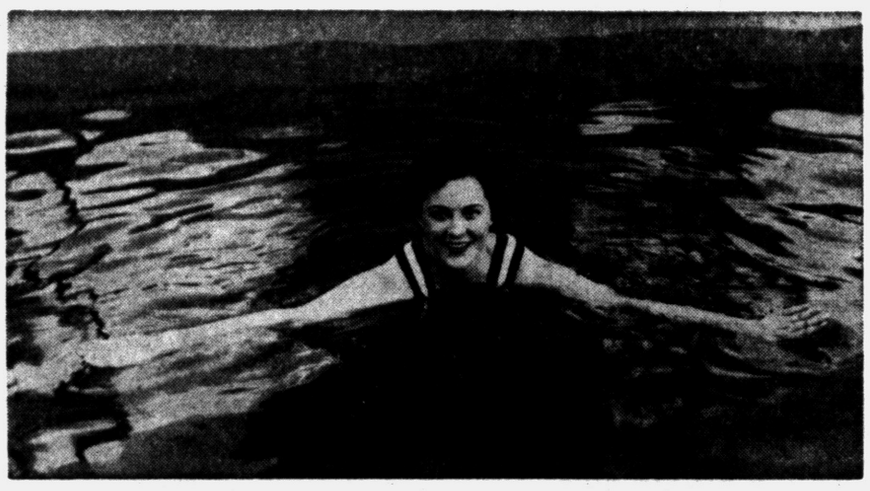

Parties started in May for the popular Miss Spencer, the most recent affair being a brunch Sunday given by her grandmother Mrs. Dayse Spencer and Mr. and Mrs. A. E. St. Armour at the latter's home in Huntington Woods.

Mrs. Andrew Sutherland and her daughter Susan have planned the spinster dinner for Aug. 20 in their home on Pine Lake. (Susan will be maid of honor at the wedding.) Mr. and Mrs. Nichols will give the rehearsal dinner at Devon Gables the following evening.

★ ★ ★

Mrs. Einar Benson and her daughter bride-elect Marilyn Benson have come from their present home in Closter, N.J. to stay until Aug. 22 when Marilyn will be married to Robert Scott Ketchum. Marilyn and her mother will be living at the Fredrick L. Robinson home on Pilgrim road while the Robinsons vacation in the East.

The Benson family formerly lived in Birmingham.

*Swimming is one of the very best exercises for overcoming arm flabbiness and is a good way to enjoy summertime, too.*

Exercise Does It

# Trim Those Flabby Arms

By JOSEPHINE LOWMAN

The flabby upper arm is one of the main figure defects which women must battle from middle age on. For this reason I write about it fairly often.

Even if the arm is the right size, flabbiness is unattractive. Lax muscles play their part and women often have this condition after a loss of many pounds too rapidly and without accompanying exercise. When one is overweight the skin actually becomes stretched and must be given time to shrink to normal proportions, or as nearly normal as possible. Exercise is a wonderful effective corrective measure.

PREVENTATIVE MEASURES

Today, however, I want to give you some exercises which should be taken as preventative measures. But if you already have flabby upper arms these will greatly improve the situation.

**1. Raise your arms forward, shoulder height, elbows bent. Press the fist of one hand into the palm of the other. Press hard. Continue, alternating. This should be done slowly, holding the pressure each time for as long as comfortable.**

2. This is one of the very best. Raise your left arm sideward, shoulder height. Place your left hand on some piece of furniture which is a little higher than shoulder height. Keep the elbow stiff as you press down hard toward the floor.

Relax and repeat several times. Now place your right hand on the same object and do the same thing. As in the first exercise the important part is the maintained pressure.

**Of course swimming is one of the very best exercises for overcoming arm flabbiness. Why not take advantage of it for the rest of the summer if you have not already done so?**

If you would like to have my leaflet which teaches you how to swim and dive and also gives you instruction for learning some of the better known strokes send a stamped, self-addressed envelope with your request for leaflet No. 22. Address Josephine Lowman in care of this newspaper.

Tomorrow: "Wants to Put Inches ON; The Answer is Exercise."

by Anne Adams

Separates with a young and gay "dress" look! Choose blouse with square neckline or collar to top flaring skirt with stitched, front pleats. Sew-easy in plaid, checks, plain. Tomorrow's pattern: Half-sizer.

Printed Pattern 4683: Misses' Sizes 12, 14, 16, 18, 20; 40. Size 16 takes 5½ yards 35-inch.

Send Fifty Cents in coins for this pattern — add 10 cents for each pattern for 1st-class mailing. Send to Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St. New York 11, N.Y. Print plainly Name, Address with Zone, Size and Style Number.

## *Furnished Nest Has Advantages for Newlyweds*

Newlyweds would do better to begin married life in a furnished apartment than to buy their own furniture, says interior decorator Sam Sorkin.

"We've found that without exception, their needs, desires change dramatically after the first few years of marriage," he said.

"Things that impressed them as brand new newlyweds are of absolutely no interest to them three to five years later."

Sorkin, who has worked as an interior decorator in the Chicago area for more than 30 years, conceded that his idea would not be popular with sociologists. They, he said, recommended that young people do things which bind them together. Buying furniture is an excellent example.

"But it makes economic sense to avoid furnishing a home until they understand one another," he added.

Failing this, Sorkin believes the young couple should keep their home-furnishing spending to "an irreducible minimum for the first four years or so of married life, until they find out where they are going."

Do-it-yourself furniture would be Sorkin's next choice, after a furnished apartment. Husband and wife can work together in choosing a color scheme and finishing unpainted furniture, and still keep their home-furnishing budget near the minimum.

## Shine in the Rain

Don't reserve your most dismal clothes for a rainy day. In these times of smart raincoats, boots and umbrellas, it's possible to look pretty even on a day when it's raining sideways.

by Laura Wheeler

Pretty and practical — this gay doll protects your mixer. Use remnants for doll's clothes.

Easy, fun to make. Add new charm and vivid color to your kitchen with this "conversation" piece. Pattern 671: directions, pattern for mixer-cover doll.

Send Thirty-five Cents (coins) for this pattern — add five cents for each pattern for 1st-class mailing. Send to The Pontiac Press, 124 Needlecraft Dept., P.O. Box 164, Old Chelsea Station, New York 11, N.Y. Print plainly Pattern Number, Name, Address and Zone.

Send for a copy of 1959 Laura Wheeler Needlecraft Book. It has lovely designs to order: embroidery, crochet, knitting, weaving, quilting, toys. In the book, a special surprise to make a little girl happy — a cut-out doll, clothes to color. Send 25 cents for this book.

**Survey Reveals Change in Attitude**

# Most Teenagers Fear Atomic Destruction

By EUGENE GILBERT

The impact of events during the last two years has produced a marked change in young people's attitudes about life in the atomic era.

They have strong fears that nuclear energy will be used to destroy man. They think it is no deterrent to war. Their immediate mental reaction to the words "nuclear energy" is expressed in terms such as "bomb," "death," "destruction."

**These key feelings emerged in a nationwide survey in which we interviewed 671 teeners.**

And it produced evidence of significant changes in their attitudes since they were questioned on the same subject two years ago. At that time, many were convinced that the atomic bomb meant that no nation would dare risk war because of the potential of total destruction. Then the majority also were satisfied that nuclear energy would be directed toward peacetime uses rather than toward military purposes.

The current survey found that 90 per cent think that nuclear energy will eventually destroy man. Two years ago, only 25 per cent thought so.

★ ★ ★

Asked for the first thought that comes to mind when they hear the words nuclear energy, 90 per cent responded with "atomic bomb" or some variation applying to military hardware and weapons.

The majority—66 per cent—said the possibilities of nuclear energy frightened them. This was more marked among the girls (80 per cent) than the boys (51 per cent).

**Among those who said they were not frightened was 17-year-old Tom Greenspon of Charleston, W. Va., who said of nuclear possibilities: "They can be useful." Peter Baci, 16, of Valley Stream, N. Y., said: "I firmly believe God removes all fears."**

On the big question of whether they think the existence of nuclear energy will make nations steer away from war, 68 per cent said no.

Which direction do the teeners think nuclear research and development will take in the future? They were asked whether they think the future uses will be mostly for peacetime or military purposes, and to explain why they held these views. The majority, 44 per cent, said military. Thirty-three per cent said peacetime uses. Twenty-three per cent of those questioned had no answer.

★ ★ ★

While two years ago the majority of teeners said they were happy that nuclear energy was discovered, this time only 39 per cent answered the same question in the affirmative. Forty-six per cent said they were not.

"I think man would be better off without it," said Dale Dance, of Portland, Ore.

**Questioning the teeners about peacetime application of nuclear energy produced an almost uniform outlook. They saw it producing marvels in transportation, power, medicine, industry and science.**

As for the role of government and private industry, 76 per cent think the government is doing much more than private industry in the development of nuclear energy. And 53 per cent think that the government should continue at this pace.

**Do-It-Yourself, Johnny**

# New Books Help Pupils to Read

By MARY PRIME

NEW YORK (UPI) — Now Johnny can improve his reading by a new do-it-yourself method.

This fall, for the first time, textboks will show youngsters exactly what reading skills they need, why and how to acquire them. The books, designed for the seventh and eighth grades, emphasizes self-help, and include chapters on reading comprehension, wordless reading, faster reading, interpreting between the lines, and use of the dictionary.

For example, in dealing with interpreting ideas, the book shows how to interpret quotations from William Shakespeare, such as "The fringed curtains of thine eye advance," (open your eyes) and "I am all the daughters of my father's house and all the brothers too" (I am an only child). Then it points out that Shakespeare used such phrases to provoke the reader into using his imagination.

One chapter on speeding up reading explains that just as a person eats by the forkful, he can learn to read by the eyeful — in groups of words instead of word by word.

Called "Reading With Purpose" and "Reading for Significance," the books were written by two educators, Ullin W. Leavell and Alex M. Caughan, who direct reading clinics at Virginia and Purdue Universities.

"Until now, public school textbooks have by-passed the pupil on what he is supposed to be learning about reading," said Dr. Leo Gans, editor-in-chief of the firm which published the texts.

"This has been a secret between textbook authors and teachers, told only in teachers' guide books," he said.

"Now the pupil will know what is expected of him instead of merely going through classroom exercises that may be meaningful to the teacher but meaningless to him."

In addition to six chapters on developing reading skills, the texts contain 30 feature stories adapted from articles that appeared in national magazines or anthologies and practice exercises after each story. The stories revolve around moral themes.

## *Switch to Pink Make Up Tones for the Summer*

The glow of warm summer colors is the cue for a whole change in make-up. For it isn't just the colors you wear, the pinks and blues, sand and gold and fawny shades. It's the very reflection of the day about you, the clear blue sky, the hot sun and green grass.

★ ★ ★

On a summer day, the clear light does something to and for your skin quite different from the effect achieved at, say, 4 p.m. on a dark winter day. If your skin is a golden tan, you need a completely different shade of powder, rouge and lipstick. But equally, you need different and new make-up colors if you've left your skin a pretty porcelain.

Another switch should come in nail polish shades.

**Most of the new homes have wall-to-wall carpeting and back-to-the-wall financing.**

**Have You Tried This?**

# Economy Barbecue Calls for Skinless Hot Dogs

By JANET ODELL
Pontiac Press Home Editor

Let's serve hot dogs in a different way this time. You may find that this becomes your family's favorite way with weiners. It's a dish you can prepare in the morning and refrigerate until dinner time.

★ ★ ★

Mrs. Don Chamberlain of Davisburg is today's cook. She has three boys and a baby girl. Cake decorating and sewing are two of her hobbies. Her husband is building the family a new house and Mrs. Chamberlain is doing the inside painting.

**BARBECUED FRANKS**
By Mrs. Don Chamberlain

1 medium onion, chopped
3 tablespoons salad oil
1 tablespoon sugar
1 teaspoon dry mustard
Salt and pepper
1 teaspoon paprika
½ cup catsup
½ cup water
¼ cup (scant) vinegar
1 tablespoon worcestershire sauce
2 drops tabasco sauce
12 skinless franks

Brown onions in oil. Add rest of ingredients, except meat. Simmer 15 minutes.

Score franks and place in shallow baking pan. Pour sauce over franks and refrigerate until meal time. Bake 30 minutes in 375-degree oven. Serve as the main meat course or on hot dog buns.

## *Don't Let Diet Talk Dominate Conversation*

This is a diet-conscious age. Even people who are not dieting talk about it. But there's no need to bore everyone else with the details of your particular diet. Pursue your own way without discussing it with others.

If your hostess attempts to force a fattening food upon you, simply say, "No, thank you, I'm on a diet," And don't discuss it further.

You've given her a perfectly sound reason for passing up those little calorie-loaded appetizers. She should accept it without comment.

## *If You Are Short-Waisted*

The gal who is short-waisted has a special problem. If she is to avoid looking dumpy, she must stick to streamlined (but not tight) one-piece dresses in solid colors.

The darker colors, lightened by bright touches, are her best bet. Wide belts are not for her since they tend to saw her in two and cut down on her height. She should avoid separates unless she wears dyed-to-match sweaters or blouses and skirts.

She should also be careful about foundation garments. A one-piece foundation is best for her since it will tend to smooth her out in the middle

## Czech Soldiers Defect, Ask Political Asylum

VIENNA (UPI)—Police reported yesterday that two Czech soldiers have defected to Austria and asked for political asylum because "political pressure in Czechoslovakia has become unbearable."

The Czechs, both 20, turned themselves over to Austrian authorities yesterday morning at Klein-Haugsdorf. They still were in uniform and fully armed.

## Hollywood Headlines

# Double Feature Seen Losing Its Value as Drawing Card for Movie Industry

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — The time has come for the movie industry to do some thinking about the double feature.

Does the public still want it?

Can the film business still afford it?

The twin bill has been with us since the depression days, when theaters tried to cure lagging business by giving the public double its money's worth.

THOMAS

Double features have long been attacked by producers, especially Samuel Goldwyn, but they continued to be the mode of film presentation. Why? Because theater men thought movie-goers liked it that way.

★ ★ ★

But times have changed. As a straw in the wind, Variety tells of two single-feature houses on Long Island, N. Y., that generally outdraw the double-feature theaters in the area.

It makes sense. If you, the movie goer, can be convinced that the double feature is no bargain, the theater men will come around. For they are faced with three conditions that make the single bill more urgent.

★ ★ ★

1. Movies are longer than ever. The 80-minute feature is almost obsolete. A two-hour minimum is standard for an important film these days. Three-hour epics are not uncommon.

There's nothing wrong with long pictures. But two longies in a row are hard to take for even the most rabid of fans.

2. Movies are fewer than ever. Hollywood is making less than half the number of features that it used to.

★ ★ ★

In their desperation to make up double bills, many exhibitors have taken to combining a new picture with an oldie. People can get enough old movies on TV.

3. Movies are costlier than ever. The industry can claim that theater admissions haven't risen as much as other consumer prices. But people still resent paying premium fees for what was once inexpensive entertainment. Single features could help cut costs.

★ ★ ★

Personally, I haven't seen double features in 10 years. And I haven't missed them a bit.

## Hart to Push Bill for Intention Notice

WASHINGTON (AP)— A bill that would require the government to give notice of intention to buy virtually all items it procures will be introduced this week by Sen. Philip A. Hart (D-Mich).

The bill, an amendment to the small business act, would require that such notice be given on all orders over $5,000, except those which must be kept secret for security reasons.

**Heart said only 2 to 3 per cent of the dollar volume of present federal procurement now is advertised in a daily synopsis published by the Department of Commerce.**

The bill would expand the synopsis, which is available to any firm wishing to purchase it.

He said his own continuing survey of small business needs in Michigan has demonstrated that most firms don't know what the government wants to buy and-or what agency to see about it.

## License Plate Income $2,000,000 Over '58

LANSING (AP)—License plate income this year is nearly two million dollars above the same period last year.

★ ★ ★

The secretary of state's office said 3,344,071 passenger car, truck and other vehicle license plate sales brought in $60,624,040—a $1,771,007 increase from the same period in 1958.

Motor vehicle registrations are up 71,780.

## Three Arrested by FBI in Theft of Money Orders

PHILADELPHIA (AP) — The FBI today announced the arrest of three men accused of altering and transporting money orders. A detainer warrant was issued for a fourth man, now in jail.

The men were not accused of stealing, but the FBI said the money orders were among those stolen from a Hazel Park drugstore on June 11; a Detroit drugstore on May 24, and the Railway Express Agency office in Vineland, N.J., in May 1957.

Nearly $60,000 worth of American Express Co. and Bonafide Co. money orders were stolen from these places and some of them have been cashed in New York, south Jersey and eastern Pennsylvania, the FBI said.

## Bring Officer Back to Detroit

### Arrest Patrolman Bush in UP After Complaint on Assault Charge

DETROIT (UP) — A married Detroit policeman was returned today from Michigan's Upper Peninsula to face assault charges by a young woman. He was jailed here at the Northwest Precinct Station to await arraignment.

**State Police interrupted the furlough vacation of Patrolman Robert L. Bush, 31, and his family, to arrest him yesterday and arrange for his return in custody to Detroit.**

Bush, a 10-year veteran of the force, is accused by Patricia Kingsbury, 22, of assault with intent to kill and felonious assault.

★ ★ ★

Fellow officers said Miss Kingsbury told them that Bush, twice cited for exemplary service and a member of the police pistol team, became violent when she tried to break off their relationship after learning he was married.

**FIRED AT HER**

Miss Kingsbury said that Bush fired at her Sunday morning in Rouge Park during an argument. She was not harmed. Police said they found four bullet creases in a fender of her car.

**The young woman said she even talked to Bush's wife, Hilda, in an effort to influence Bush and that he scoffed at them both, on one occasion handing his gun to them and telling them to shoot each other.**

State Police of the L'Anse post arrested Bush at the home of family friends near Hancock, taking him from his wife and their 10-year-old son, Donald.

★ ★ ★

Superiors said that Bush would be stripped of his badge and suspended upon his return to Detroit and would be brought into Recorder's Court on Miss Kingsbury's charges.

## Tool Union Local Charges UAW Unfair

GRAND RAPIDS (UPI) — The International Assn. of Tool Craftsmen (IATC) has filed unfair labor practice charges against United Auto Workers (UAW) Local 730 here, it was revealed Wednesday.

★ ★ ★

Paul M. Blake, recording secretary of the IATC Local 7, signed the charge which was filed with the National Labor Relations Board (NLRB). Blake accused the UAW local of "discriminatorily administering" union welfare plan money and benefits.

**The complaint contends the UAW local has used the welfare fund benefits to force employes at Fisher Body plant No. 1 here to pay back dues covering a period when there was no union shop agreement at the plant.**

Blake said the international UAW and its local will not allow payment of membership dues unless payment of a certain amount is made to the union welfare fund and has threatened employes with loss of employment if welfare contributions are withheld by them.

★ ★ ★

Blake said he also has written the Michigan Insurance Commissioner asking for a ruling on whether the welfare plan is an insurance program.

### Could Be Better Than Golf

## President Resumes Skeet Shooting

By MERRIMAN SMITH
UPI White House Reporter

WASHINGTON (UPI) — Backstairs at the White House:

President Eisenhower has resumed another sport—skeet shooting. He has a fine range back of his house at Gettysburg with all the proper equipment for flinging clay pigeons into the air electronically. He takes his stand with a shotgun and bangs away.

**The president has an excellent shooting eye and if he kept up the sport with any consistency, those who have seen him blaze away at quail in South Georgia say he'd be better at it than he is at golf.**

Speaking of country clubs, the President plays the Gettysburg Club course on weekends as an honorary member, but he's in the process of getting a resident membership for his son, John, who now makes his home in Gettysburg with his wife, Barbara, and their four children.

The club membes are naturally happy to have their course honored two or three times a week by the President playing their layout. His entourage of electric golf carts and accompanying secret service agents with their walkie-talkie radios and golf bags containing high-powered rifles is referred to in some raffish country club sets as "the panzer division."

The club members, who charge most outsiders $5 per round, fade willingly from the fairways when the presidential golf party hoves into view. Simple courtesy dictates that the players ahead of the president wave to his party to "play through."

Current gag among the reporters and photographers who cover the President in Gettysburg: "We're the white house peculiars."

This stems from his press conference remark last Wednesday when he said he invited to dinner the reporters regularly assigned to covering him because in good trips and bad, he felt a "peculiar closeness" to them.

**Ninety per cent of the time, the reporters at the first tee at the Gettysburg Golf Course are sitting or standing within a few feet of him and 90 per cent of the time he never speaks or acknowledges any sort of recognition.**

The reporters really try to stay away from him when he's playing golf. They watch him start and finish his game, but do not follow him around the course. But their jobs do require their relatively course that is semi-public Nevertheless, he doesn't like being watched and this is only human, as any golfer can testify who has ever hit a grass-cutting drive of 30 or 40 yards from a spectator-loaded first tee.

## Swarthout Writes Another Book, Sells Film Rights

EAST LANSING (UPI)—Author Glendon Swarthout, whose "They Came to Cordura" will be premiered as a movie in September, has written another book and already sold it to the movies.

Swarthout, a professor of communication skills at Michigan State University until this year, reportedly received $250,000 for the movie rights alone to "Cordura."

**His new book, "Where the Boys Are," will be published by Random House next January.**

Swarthout will move to Arizona this week to work on still another book.

The 40-year-old Swarthout will lecture part time at Arizona State University, Tempe, as well as writing a serious novel.

About 27,000 persons in the United States died during 1958 as a result of accidents in and about the home.

# Journalism Graduate Starting Salary Up

EAST LANSING (AP)—Journalism graduates never had it so good, a Michigan State University researcher reported today.

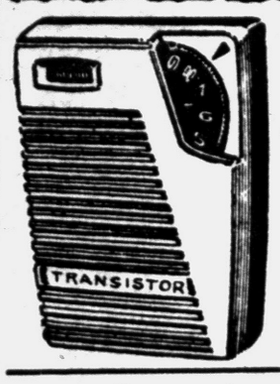

William Haight of the MSU journalism staff, said a study showed a marked increase in salries in the past 18 months for seniors starting out on their first jobs.

The average MSU journalism student taking a news job in 1958 had a starting salary of $3,952, the survey showed. The average starting salary this year was $4,710, a gain of $758 or nearly 20 per cent.

The starting salary for a graduate going into advertising was $4,513 in 1958, $4,846 in 1959, a gain of $323 or more than seven per cent.

"It is noteworthy," Haight said, "that the disparity between starting salaries in news work and advertising has narrowed perceptibly. The journalist no longer accepts such a severe penalty compared to his colleague in the advertising field."

# Claim They Isolate Virus of Trachoma

LONDON (AP) — British scientists claim they have isolated a virus that develops trachoma — the greatest single cause of blindness — and for the first time proved it by developing the disease in a human volunteer.

The British Medical Research Council said the virus could be cultivated in quantity in the laboratory, opening the way for extensive tests in the search for antibiotics and other drugs to provide a cure for the dread disease.

Some 400 million people are estimated to suffer from trachoma, which is highly contagious. It flourishes in underdeveloped countries where there is overcrowding, poor hygiene and deficient water supplies.

# Psychology Students Defend Sex Survey

LOS ANGELES (AP)—Some of the students in Cecil Cook's high school physiology class came to the defense of his controversial sex survey Wednesday.

Said Bill Kerr, 17: "If people were telling the truth (in answers to Cook's questionnaire) then our moral standards must be getting lower."

The survey contained nine questions on kissing, petting and more advanced sexual experience.

Cook, 37, father of three, is accused of unprofessional conduct and moral turpitude. He could lose his credentials if convicted at a hearing, which was in recess today.

Pretty brunette Judy Kessler told the hearing officer she found Cook's course "very interesting" and in accord with the class textbook.

"There was never any feeling of vulgarity or dirtiness, and in my opinion it (the class' conduct) was above question."

## Receives Tank Contract

DETROIT (AP)— Gibraltar Manufacturing Co. of Detroit has been awarded a $237,338.64 contract by the Detroit Ordnance Tank Automotive Command. The contract is for final drive track sprockets.

# 4 Under Arrest on False Money

## 3 Picked Up in Florida; Pass Counterfeit $100 High-Quality Bills

MIAMI, Fla. (AP) — Four persons are under arrest in connection with passing counterfeit $100 bills in an operation Secret Service agents said extended from Chicago to Miami.

Two men and a woman were arrested at Miami with 17 of the phony bills. Another man was picked up in Pittsburgh.

★ ★ ★

Other bills, which authorities said matched those from a Chicago counterfeit ring smashed two months ago, were reported to have turned up in Daytona Beach, Fla., Philadelphia and Atlantic City, N.J.

★ ★ ★

Arrested Wednesday at Miami were Lawrence Jack Crouse, 33, a former Miami Beach bartender; his red-haired wife, Anna Belle, and Robert L. Lee, 29, of Miami, Crouse posted $10,000 bond; his wife and Lee were released in $5,000 bonds.

John A. Marshall of the Secret Service said 25 of the high quality bills were part of the million-dollar Chicago ring and had been passed in swank restaurants and cocktail lounges in this area since Friday.

Pittsburgh authorities arrested Richard A. Stewart, 28, of Cleveland, Ohio. U.S. Atty. Hubert Teitelbaum said Stewart had arranged to sell 100 of the counterfeit bills through a contact man for $1,300. He was jailed when he was unable to post $50,000 bond.

## Reds Grant India Credit

NEW DELHI (UPI) — The government announced yesterday that Russia has granted India 1,500,000,000 rubles credit (150 million dollars at tourist exchange rate) for its third five year development plan. Details of the grant were to be worked out later, the announcement said.

The number of new television sets sold in the U.S. last year was 5,250,000, compared with 6,560,220 in 1957.

# House Willing to Split on School Aid Hurdle

LANSING (AP) — House conferees say they are willing to "go halfway" with the Senate on a 10-million-dollar split blocking legislative approval of a record-breaking school aid program.

A Senate-House conference committee was to meet today in another attempt to iron out interchamber differences on the aid bill, one of the major hurdles holding up adjournment of the 1959 Legislature.

State school authorities estimated the two houses are about 10 million dollars apart.

**The House passed a bill to increase the level of state aid from $190 to $210 per pupil. Deductible millage, the system for equalizing aid payments to rich and poor districts with varying amounts of taxable property, would go up from 2¾ to 3½ mills. It would cost 323 million dollars.**

More economy-minded, the Senate cut down the per pupil formula to $200 and three mills. It would cost 333 million dollars.

"I think the House might be willing to accept a 328 million dollar program provided the cutback from the original proposal came from special aid programs and not the basic formula we adopted," said Rep. Raymond A. Wurzel (R-Port Huron), chairman of the House conferees.

★ ★ ★

Special programs such as tuition, aid to distressed districts and transportation costs account for nearly half of the 10-million-dollar difference between the two versions.

★ ★ ★

The aid program for the fiscal year that ended June 30 cost about 301 million dollars. An expected 70,000 increase in public school enrollments will require an additional 14 million dollars.

The aid program adopted by the Legislature will figure heavily in determining the size of the 1959-60 state budget, and hence the amount of new taxes to be raised. Lawmakers also must come to terms on a capital outlay program, figured at about 15 million dollars.

## Gerber Adviser of 25 Years Plans to Retire

FREMONT (UPI) — Miss Harriet Davis, a registered nurse who has corresponded with thousands of mothers who write Gerber Baby Food Co. about their children, is retiring.

Miss Davis will be honored by friends and business associates at a dinner tonight.

She began her career with Gerber's on a temporary basis 26 years ago to discuss with mothers the then-new prepared baby foods.

★ ★ ★

Gerber officials said Miss Davis "played a significant part in Gerber's growth to a position of leadership in the baby food industry."

★ ★ ★

Miss Davis supervised the preparation of Gerber's famous "Baby Book" and numerus other publications and has been editor of the Gerber News, an employe publication, since it began in 1935.

## Each Town for Itself Along Kalamazoo River

KALAMAZOO (AP) — The Battle Creek-Kalamazoo River Basin Development Corp., organized in 1949 to work out a plan to control Kalamazoo River polution, will be officially disbanded Aug. 18.

The final meeting, called by president Dwight L. Stocker, will be held on that date at Stocker's office at the KZP Co.

**The organization's proposal to construct a series of reservoirs along the river and its tributaries proved financially unfeasable.**

When an engineering study report last January revealed that an adequate reservoir project would cost 27 million dollars the organization decided that communities and industries along the river must solve their own polution problems.

---

The United Nations has recommended a worldwide minimum age of 14 for both sexes to marry.

## Rita Hayworth, Prince Ali Khan Agree at Last

NEW YORK (AP) — Rita Hayworth and her ex-husband, Prince Ali Khan, have reached a friendly understanding and agreed to drop legal wrangling over their daughter, Yasmin, 9, the New York Post said Wednesday.

★ ★ ★

The amiable solution was reported worked out at a conference at a midtown hotel arranged by Rita's present husband, movie producer James Hill, without benefit of attorneys.

Miss Hayworth and the prince agreed to abandon all litigation, the story said, and further agreed he could visit Yasmin in Beverly Hills, and have his daughter visit him in New York and France. Such visits have been a bitter issue in the legal battling.

---

The U.S. aircraft carrier Saratoga is said to have required 300,000 gallons of paint for its completion.

## Grab Poker Winnings From Trusting Opponent

ST. CATHARINES, Ont. (UPI)—Fred Gaspich will go right home the next time he wins money playing cards.

Gaspich told police the two men he won from insisted he count his winnings after they invited him to stop at a tavern for a drink following the game. He said when he pulled out the $80, the two grabbed the bills and ran.

Wishing to thank the many patrons of my barber shop, (100 Norton Ave.) for their patronage of the past 21 years and hoping to see you soon, I am back on the job as usual.

# Snowman, Sir Hillary Earn Respect

By PHYLLIS BATTELLE

NEW YORK—In the Himalayan Mountains, the natives are highly respectful of two entities — the Abominable Snowman, and the Admirable Sir Edmund Hillary.

The admirable one came to America this week. He sat in a polite hotel chair and his length and strength overpowered it. He stretched out the gangly legs that were the first to scale Mt. Everest. And he said, when asked why he as a great mountaineer adventurer does not chase down the Abominable One:

**"To tell you the honest truth, I rather hope they don't find the snowman. I've seen enough evidence to indicate that he exists—he may be a bear, or a monkey, or some human being gone sort of cuckoo—and a lot of shaky expeditions have gone after him.**

"But we can't have all of life's mysteries solved at once, can we?"

Sir Edmund recalled that, on his record-breaking trip to conquer Everest in 1953, he saw a great tuft of coarse, black hair—presumably the snowman's. "We were at about 20,000 feet, climbing a high pass. One of the sherpa (a native climber) showed me the tuft, stuck in a rock. It was very, very coarse and black, not like human hair at all. I wanted to take it back, but before I could put it away the old sherpa grabbed it out of my hand and threw it over the cliff.

"They're frightened to death of the yeti (snowman)—even a remnant of him."

But fright is a good thing for a man, Hillary thinks. That is part of what makes mountain-scaling thrilling. "Something you're afraid to do, in a sense, is more satisfying," he said. "I should say I am frequently frightened on expeditions—but this does not mean I get all in a sweat and fall off things."

Nor does he turn to religion, Sir Edmund said, when his life is suddenly endangered, as it has been often in nearly 20 years of climbing.

"I am moderately religious, but I don't believe in running to religion when you're frightened. That's a rather cowardly approach to it."

**The conqueror of Mt. Everest, who last year completed the first overland trip to the South Pole since Capt. Robert F. Scott's journey in 1912, is a New Zealand bee-keeper, by profession. He is 40, father of three children, aged 4, 3 and 6 months. He came here to accept Argosy Magazine's "Giant of Adventure" award for '59, and brought his young wife. She climbs, too, but is not a "tooth-and-nail climber—she doesn't like the blood-curdling stuff at all."**

He took up climbing in the depression days of the '30s.

"Most mountaineers will tell you this story about themselves—they all say, 'I was three months old, traveling across France in my mother's arms, and suddenly a mountain loomed in the distance and I said goo goo.'" Sir Edmund grinned. "Not I. I took up climbing because in the depression it was something a chap could do for a holiday at very little cost."

★ ★ ★

Sir Edmund had anticipated his next challenge would be scaling 29,002-foot Mt. Everest from the other side—the north. It is Chinese Communist territory, however, and recently he received a letter refusing him permission to attempt the feat.

"They said I could not risk it due to 'unsatisfactory conditions.' And you know what? I believe them."

## 100 to Eat Watermelon

DETROIT (AP) — A watermelon eating contest will be held in suburban Highland Park Aug. 4 at which 100 contestants will try to devour 600 pounds of watermelon. First prize is a 40-pound watermelon.

Lightning kills nine times more men than women.

## Expect Record List for PKC Fall Show

With the closing date for entries only a few days away, Pontiac Kennel Club officials are anticipating a record list for the 1959 fall show, Aug. 16. Show takes place on the Waterford Township High School athletic field, and will be featured by the competition for best-in-show trophy awarded by The Pontiac Press.

★ ★ ★

Closing date is Aug. 4, at noon, with all entries to be in hands of Bow Dog Show Organ, 4461 West Jefferson, Detroit, at that time. The show will be an all-breed affair.

# Dykes Calls Oriole Hurling Tops in AL

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

## Comments After 5-1 Tiger Loss to Baltimore

### Walker, Pappas Hold Early Lead Donated by 2 Veal Errors

DETROIT (UPI) — As far as Jimmie Dykes is concerned the Baltimore Orioles have the best pitching staff in the American League.

Jerry Walker and Milt Pappas, the Detroit sandlot product, combined yesterday to hold the Detroit Tigers to six hits as the Orioles coasted to a 5-1 victory.

**"They've got good starters and good reliefers," Dykes said. "The last seven times we've played them, we've scored more than two runs in a game only once.**

"You give Mr. (Paul) Richards four or five runs and he won't lose many ball games."

Baltimore has beaten Detroit 11 times in 17 starts between the two teams this season and stout relief pitching has been a major factor.

**The Orioles have used a total of 10 reliefers against the Tigers in the last seven games and Detroit has managed only two runs off them.**

"And we didn't hit in either of those runs," Dykes said. "One scored on a wild pitch and the other was forced across on a walk."

The Tigers spotted Walker a quick three-run lead on a pair of costly errors by Coot Veal and those were all the runs the Orioles needed.

**"We can't afford to 'donate' runs to anyone now," Dykes said. "With three regulars on the injured list, we don't have the punch to get them back."**

Veal's first error came in the top of the first after Chico Carrasquel singled and Bob Boyd flied out. Willie Tasby hit a bouncer to short and Veal fumbled the double play ball.

Gene Woodling followed with a run-scoring single and Barry Shetrone chipped in with a sacrifice fly.

**Veal fielded Brooks Robinson's roller in the second but made a bad throw to first and it led to another run when Carrasquel and Boyd singled.**

The Orioles added single runs in the sixth and seventh to complete their scoring. In the sixth, Woodling singled, took second on an infield out and scored on a single by Gus Triandos. A walk to Carrasquel, a single by Boyd and an infield out accounted for the run in the seventh.

Walker blanked the Tigers on two hits until the seventh when Lou Berberet's single and a pinch double by Steve Demeter, at the plate for the first time in the Majors, broke the spell.

But Pappas relieved Walker and blanked the Tigers the rest of the way to preserve Walker's eighth win against five losses. Paul Foytack suffered his ninth loss against nine wins.

### NFL Teams Trimming Rosters

# Giants Get Colt Quarterback

WINOOSKI PARK, Vt. (AP)—The New York Giants Wednesday night obtained quarterback George Shaw from the champion Baltimore Colts in exchange for their No. 1 National Football League draft choice in 1960 and another high draft pick later this year.

The former Oregon star, who lost his first string job to Johnny Unitas in mid-1956 when he suffered an injury, had asked the Colts to trade him rather than ride the bench in favor of Unitas, the all-pro star.

**In addition to the Giants, the Philadelphia Eagles and Chicago Cardinals reportedly were in touch with Baltimore officials but the Giants finally landed him. He joined the Giants immediately and was to workout Thursday.**

Shaw, 25, was the Colts' bonus election in 1955. He was the first string quarterback until Unitas turned in such a sensational job as his replacement.

★ ★ ★

Acquisition of Shaw gave the Giants five quarterbacks. Charlie Conerly, a 12-year veteran in the National Football League, still is No. 1. Coach Jim Lee Howell has promised Frank Gifford, his star halfback, a chance to play quarter. Don Heinrich also is with the club and rookie Lee Grosscup, now with the College All-Stars, will join the club after the Aug. 14 game in Chicago. Conery is 38.

★ ★ ★

"Shaw is a fine quarterback and we are overjoyed that we could get him from the Colts," said Howell. "But I've four other players at that position and he is going to have to beat them out.

**"Backfield coach Al Sherman and I promised Gifford a thorough trial at quarterback this season and he is going to get it. He'll start our first game and he'll stay at that position in training camp until the coaching staff decides otherwise."**

★ ★ ★

Another Shaw—Head Coach Buck Shaw of the Philadelphia Eagles—was feeling quite content over the way his club looks even though there is some concern over the absence of veteran defensive halfback Jerry Norton. Dick Jamieson, 21-year-old quarterback from Bradley, came in for special praise from Shaw.

★ ★ ★

The Green Bay Packers, playing their first season under Vince Lombardi, have progressed so fast that a full scale scrimmage has been scheduled for Saturday.

"We've got a long way to go," said Lombardi, "but I am well satisfied with the way the fellows are hustling."

Four more veterans checked into the Pittsburgh Steelers' camp at California, Pa. They were ends Ernie Stautner and Jimmy Orr, tackle Frank Varrichione and linebacker Dick Campbell.

The Chicago Bears went back to hard work today after only a two-hour drill yesterday. Owner-coach George Halas, turned the players over to the photographers after the morning practice yesterday.

Meanwhile, the Chicago Cardinals started brushing up on Canadian football rules in preparation for their Aug. 5 game with the Argonauts in Toronto.

## Gamblers Make Bribe Attempts at Chattanooga

### Loop President Also Suspends Players for Not Reporting Offers

COLUMBUS, Ohio (UPI) — Minor League President George M. Trautman today banned first baseman Jesse Levan of the Chattanooga Club in the Southern Association from baseball for life for his role as a contact man for a gambler who tried to throw some Chattanooga games.

★ ★ ★

Shortstop Waldo Gonzalez of Chattanooga was suspended until July 3, 1960.

**Trautman said no proof was found during hearings on the affair that any games were actually fixed. But he said it was apparent "that several players are guilty of not having reported attempts to induce them to throw games."**

"It is shocking to this office that several players did not report promptly the fact that this gambler was actively engaged in a program to fix games," Trautman said. He did not identify the gambler.

★ ★ ★

During hearings in Nashville on July 3, Trautman said, pitcher James Heise of Chattanooga testified that Levan approached him twice, once before the season and once during it, to ask if he wanted to "make a little money" by "delivering easy-to-hit pitches" to the players of the opposing team.

Trautman said Heise testified he refused.

**Another Chattanooga pitcher, Thomas McAvoy, testified that Levan also approached him with the offer in Mobile. McAvoy said he thought Levan was joking and did not report the incident.**

Sam Meeks, Mobile's first-base coach, testified that Levan offered him a deal in Mobile.

★ ★ ★

He said Levan suggested Meeks watch Gonzalez, playing shortstop for Chattanooga, before each pitch. Meeks said Levan told him Gonzalez would stand erect if the catcher signaled for a fast ball or would crouch if he called for a curve.

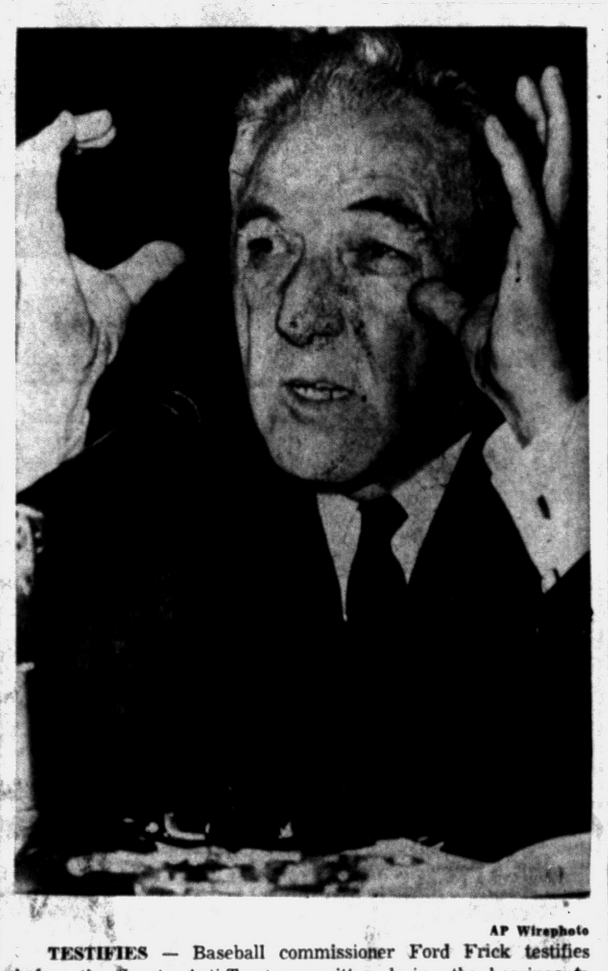

**Meeks then was to tip off the Mobile batsman as to what pitch to expect.**

Meeks said he rejected the bribe. He said no amount of money was mentioned.

He said he agreed to cooperate, although he would not accept any money.

Meeks did transmit signs to batters during one game of the Mobile-Chattanooga series in June, according to his testimony. He said he felt it was his job to help Mobile win any way he could.

Meeks later reported the incident when he became a member of the Chattanooga Club. Because he did so, he was reprimanded by Trautman, but not penalized.

AP Wirephoto

TESTIFIES — Baseball commissioner Ford Frick testifies before the Senate Anti-Trust committee during the hearings to clarify the status of professional sports under the anti-trust laws. He spoke up strongly against limiting number of players controlled by a team.

## All-Star Leaves to Rejoin Rams

EVANSTON, Ill. (AP)—End Tom Franckhauser of Purdue left the College All-Star football camp by plane Wednesday to rejoin the Los Angeles Rams.

Franckhauser arrived with an injured leg at the All-Star camp where Coach Otto Graham is priming the Collegians for the Aug. 14 game with the Baltimore Colts in Soldier Field.

★ ★ ★

The injury, the Boilermaker wingman said, was received during practice with the pros. All-Star trainer Tom Healion said Franckhauser's injury would not mend in time to permit his play against the Colts.

Other All-Star casualties, all of whom are expected to recover for service Aug. 14, include: Andy Overcko, Northwestern tackle, and Dick Kreitling, Illinois end, both with neck ailments; Sam Williams, Michigan State end, and Nick Mumley, Purdue tackle, bruised hands; and Billy Stacy, Mississippi State halfback, sprained wrist.

### Pitching Not Everything

BOSTON (UPI) — The Boston Nationals of 1890 finished in fifth place in the National League despite the fact that they had three 20-game winners—27 game winner Charley Nichols, 26-game winner John Clarkson and 24-game winner Charley Getzein.

### "Don't Block 3rd League," Says Congress

# Majors Get Warning

WASHINGTON (AP) — American and National League clubs have been told that Congress will be forced to act if they throw any roadblocks into the organization path of a third major baseball league.

★ ★ ★

That word from Sen. John Carroll (D-Colo) came after Baseball Commissioner Ford Frick had pledged full support of the present major leagues for formation of a third circuit.

**The subject of the projected Contineital League came up yesterday while Frick was testifying before the Senate Antimonopoly Subcommittee. The subcommittee is studying bills that would clarify the status of pro baseball, football, basketball and hockey under the antitrust laws.**

Frick supported a measure that would exempt such pro practices as the player draft and contract reserve clauses from the antitrust laws. The strictly commercial aspects of the sports would be subject to those laws under the bill.

★ ★ ★

Frick said he favored formation of another big league, adding it will not be simple or easy but will take "planning and scheming to bring it about."

★ ★ ★

Frick said founders of the Continental League will meet Aug. 18 with a seven-man committee from the National and American Leagues for a full and open discussion of all the problems involved.

★ ★ ★

He said the meeting will be an honest endeavor to get the new league started, and every bit of information will be furnished to help the Continental founders.

★ ★ ★

Carroll broke in at that point to say he would consider it most inadvisable for the 16 American and National League clubs to hamper formation of a third league. Carroll said Congress would be forced to act if the two major leagues put up any barriers.

★ ★ ★

Frick asked that baseball be left to work out the problem without interference from Congress.

## Great Lakes Boat Races Set Aug. 8-9

KALAMAZOO (UPI) — Two hundred stock outboard motor boats, in four hydroplane and four utility classes, will compete in the Great Lakes Divisional Championships at Lake Kilowatt near Comstock Aug. 8-9.

Entries have been received from seven states in the Great Lakes area.

## Haney Makes Selections for 2nd All-Star Game

MILWAUKEE (AP) — Manager Fred Haney is satisfied but not completely happy about the make-up of his National League squad for the season's second All-Star Game with the American League next Monday in Los Angeles.

The soft-spoken little skipper who has piloted the Milwaukee Braves to two straight pennants figures a misunderstanding has cost his talent-packed squad a couple of deserving players.

**"I didn't know we could replace pitchers selected for the first game," Haney said today. "If I had I would have picked the guy in Cincinnati and that little no-hit guy in Pittsburgh. They certainly deserve the honor."**

Haney referred to big Don Newcombe of the Reds, who has regained his old time form, and Harvey Haddix of the Pirates, who hurled 12 perfect innings against the Braves only to lose 1-0 in the 13th in baseball's all-time pitching masterpiece.

★ ★ ★

"You hate to leave any deserving player off the squad," Haney said. "But on the other hand I think anyone selected for the first game should be on the team for the second."

**Haney, whose charges edged Casey Stengel's American League stars 5-4 in the first classic in Pittsburgh earlier this month, explained his three additional choices permitted for the repeat performance.**

His picks were veteran third baseman Jim Gilliam of Los Angeles, right-hander Sam Jones of San Francisco and shortstop Johnny Logan of the Braves.

"I didn't know whether our Eddie Mathews would be ready because of his recent injury, so I picked Gilliam," Fred said. "Jones has been pitching great ball for the Giants and it would be a shame to leave him off the team.

"As for Logan, I would have picked him instead of Dick Groat as my second shortstop for the first game, but he was out with that spiked ankle. And I can't leave him off the way he has been going, hitting way above .300 and playing his usual fine game in the field."

Because of the ruling that all fielders in the first All-Star Game must be selected for the second, Groat will be in uniform in Los Angeles. The Pirates' captain appeared only as a pinch hitter in Pittsburgh as Chicago's Ernie Banks went all the way.

### Doubles in First Trip

## Demeter Gets Good Start

DETROIT (UPI) — Rookie third baseman Steve Demeter, who was called up to the Tigers from their Charleston farm club this week, is a modest young man who lets his hitting speak for itself.

In his first appearance at the plate as a major leaguer, Demeter delivered a pinch-hit double Wednesday which scored Detroit's only run of the game against Baltimore.

**He batted for Coot Veal in the seventh inning and then took over the third base position after manager Jimmie Dykes did a makeshift reshuffling job on his infield.**

Dykes moved Ted Lepcio from second base to shortstop and switched Eddie Yost from third to second. The move marked the first time in his long career that the veteran Yost has played second.

After the game Demeter, a shy 24-year-old, said, "it was my first hit in the Major Leagues, but I was with the Tigers for three weeks before the season started."

When asked about his background, he said, "I never played anything but third base except for a few times in the lower Minor Leagues when I took over at second when someone was injured. I hit over .300 for the last two years."

Demeter was an American Association all-star with Charleston this season, hitting .308 with a dozen home runs and 63 RBI's. Last year he had a .309 average at Birmingham where he hit 18 homers and 88 RBI's.

### This Is Do-It-Yourself

NEW YORK (UPI) — Charles (Old Hoss) Radbourne, famous "iron man" pitcher of the pre-1900's, hit a home run in the 18th inning on Aug. 17, 1882, to win a 1-0 decision.

### Southpaw Series Record

ST. LOUIS (UPI) — Harry Breecheen of the St. Louis Cardinals, who turned the trick in 1946 against the Boston Red Sox, is the only Southpaw in history to win three games in a single World Series.

### Finsterwald's Golf Tip:

## Use Least-Lofted Club

By DOW FINSTERWALD
PGA Champion

Unless the circumstances are unusual when playing a short approach, I use a club which will propel the ball in the air about six feet onto the putting surface and impart enough roll to carry it to the cup.

**The reason for dropping the ball well onto the green is to make sure that it doesn't fall short in the grass fringe and be slowed up considerably. Greens are more consistent than the fringe in texture and firmness.**

To be consistent, always use the least-lofted club the setup will permit. This cuts down the margin of error.

A distinguishing feature of the short chip shot is the minimum amount of body motion. Playing the close-in chip from the fringe, movement is limited almost exclusively to the wrists and hands.

# Field of 174 in PGA Tournament

# Dodgers in Top Spot

By The Associated Press

It was Los Angeles and Milwaukee who were hit hard by injuries, but it's the San Francisco Giants who are hurtin', blowing a 2½-game lead and giving up the National League lead to the Dodgers.

Los Angeles, winning four of six with slugger Gil Hodges sidelined, hit the top for the first time since May 12 last night, beating Pittsburgh 2-0 as Roger Craig's six-hitter tumbled the Pirates to their ninth straight loss.

That left the Giants, losing four in a row for the first time this season in a 3-1 defeat by last place Philadelphia, a half-game behind the Dodgers and only a half-game ahead of Milwaukee. The third place Braves, who had been without homer-hammering Eddie Mathews for seven games, closed in with a 8-5 victory over the Chicago Cubs.

Cincinnati whipped St. Louis 9-2 in the other NL game.

With Hodges, their home run leader, out with a bum ankle, the Dodgers clipped the Bucs and Vern Law (11-7) in the eighth inning on a two-out single by .230-hitter Joe Pignatano and a double by .169-hitter Don Zimmer. The Dodgers had been blanked on four hits by Law until Duke Snider's single and a walk opened the eighth.

Craig, the right-hander who helped boost the Dodgers to their only world championship as a mid-season rookie in 1955, now has a 6-2 record since being reclaimed from the minors last month. It was his second shutout and the struck out seven while walking only one.

The Braves, regaining Mathews for the first time since he injured his hip a week ago, beat the Cubs in a home run duel between Hank Aaron and Ernie Banks. Both hammered a pair. Aaron, homerless for two weeks, drove in the Braves' first three runs against loser Dave Hillman (5-8) with his 25th and 26th. Banks, tying Mathews for the NL lead with 29, drove in the Cubs' first four runs against Lew Burdette (14-10), who needed Don McMahon's hitless, three-inning mop-up after Sammy Taylor's solo homer in the seventh.

★ ★ ★

The pesky Phillies managed just three hits off southpaw Johnny Antonelli, but two were homers by Ed Bouchee and Gene Freese and all three came with two out in the fourth inning.

## Players Figure All Pro Entry Provides Test

### Wall and Casper Seen as Strong Contenders for Finsterwald's Title

MINNEAPOLIS, Minn. (UPI) — A field of 174 of the nation's top professionals started out after the Professional Golfers' Association championship today in the tournament which the players consider is the toughest of them all.

U.S. Open champion Billy Casper, Masters king Art Wall, defending champion Dow Finsterwald and old Sammy Snead were among the favorites for the four-day medal play grind over the long Minneapolis Golf Club course.

**There was no outstanding favorite for this is the one tournament in which practically every player has a chance to win. It isn't like the Open, where there are some, notably the amateurs, who go into the event knowing they'll be also-rans.**

"Let's look at it this way," explained former U.S. Open champion Ed Furgol. "In the Open, the field was 150 this year and 26 of them were amateurs. So the pros knew there were only 124 players to beat.

"Here there are 14 and while you might count out such old-timers but great golfers as Gene Sarazen, you got to figure there are at least 170 guys you have to beat. It takes a lot of doing, but the player who does it knows he's beaten the best. That's why in the years ahead the PGA tournament will be the number one aim of every pro golfer."

Now the P.G.A. is considered only about third on the big tourney list, headed by the Open and the Masters. The prize money in this is only a guaranteed $30,000, with $5,500 going to the winner. Casper picked up $10,000 for winning the Open and Wall $11,250 in taking the Masters.

There are 12 former champions in the field. In addition to Snead and Sarazen, who have won the title three times each, and Finsterwald, they are Lionel Hebert, Jim Turnesa, Denny Shute, Walter Burkemo, Doug Ford, Jack Burke, Chick Harbert, Ferrier and Chandler Harper.

## Pitchers Star in Legion Games

The pitchers reigned supreme in two area Junior Legion baseball games played yesterday.

Marv Kipp hurled a two-hitter and fanned 14 as Rochester downed Milford 3-1. He lost a shutout when he gave up four of his eight walks in the 5th. Howard Hinkle had two of the winners' five hits.

Bob Zyronski of Berkley evened bettered Kipp's showing by allowing just one bingle while also fanning 14 in a 7-0 blanking of Clawson. Berkley only garnered four hits but bunched three of them in a five-run 2nd inning.

## Junior High Teacher Pentathlon Champ

SAN ANTONIO, Tex. (UPI)— A junior high school teacher and a student of social psychology finished one-two in the National Pentathlon Championships which ended Wednesday with the 4,000-meter cross-country run.

Robert Miller, an English and history instructor in Seattle, Wash., won the top position with 4,865 points. George Lambert, a student of Waseda University in Tokyo, was second with 4,589 points in the five events.

Miller, as national pentathlon champion, will be one of four to represent the United States in the Pan-American Games at Chicago Aug. 30-Sept. 3 and the World Pentathlon Championships at Harrisburg, Pa., Sept. 26-30.

## Sept. 22 Still Target Date for Rematch

NEW YORK (UPI) — Promoter Bill Rosensohn retrned from Sweden Wednesday and said Sept. 22 at Yankee Stadium is still the target for the return bout between heavyweight champion Ingemar Johansson and Floyd Patterson.

"All I need is six weeks," the dapper young ring impresario said. "If we can get a few kinks ironed out next week we will go ahead with those plans. If not, maybe we can make it later in the month."

## Althea Gibson Pondering Over Tennis, Theater

NEW YORK (AP) — Tennis or theater, which?

That's the big question Althea Gibson is pondering as she nears the end of her self-imposed 12-months leave from competitive competition.

"I think I would enjoy playing some professional tennis and plans for a tour are still being discussed," the tall Harlem girl said today. "Also I have a chance for a part on Broadway, in the legitimate theater.

★ ★ ★

"My deadline is up the first week in September. I hope to make a decision by then."

### Breaks Bike Mark

CHICAGO (AP) — Alan Bell broke his own world bicycle speed record in the 1,000 meter dash last night as the first of five days of time trials for the U.S. Pan American Games team got underway. Bell, of Somerville, N.J.

# Hot A's Extend Streak to 10

How hot is hot? Well, the two pennant races are hot, what with rain and a rookie giving Chicago's White Sox a one-game edge in the American League and Los Angeles taking a half-game lead in the National.

But the Kansas City A's? Man, they're blazin', rolling up 10 straight for a winning steak that hasn't been topped in the AL since mid-1956. It's jumped them from last to within a half-game of third. third.

★ ★ ★

They did it with a 5-4 victory over Washingon last night that plunked the Senators into the cellar with 11 straight losses, tops among the majors this season.

No team has had a better winning string than the A's in the AL since the New York Yankees won 11 straight in '56. And no one has built a longer streak in the majors since Cincinnati won a dozen in a row in the NL two years ago.

★ ★ ★

The White Sox padded their slim edge when rain and the Yankees held them to a 4-4, six-inning tie after rookie Al Schroll had pitched Boston out of the cellar with a six-hitter for a 4-1 victory over second place Cleveland. It was Schroll's first complete game in the majors and ended Cal McLish's winning streak at eight games.

Third place Baltimore beat Detroit 5-1 in the only day game.

The A's, still 8½ games short of first place after picking up 3½ games since their blast off two weeks ago, decked the Nats in the first three innings. Dick Williams, who drove in three runs, hit a two-run homer off loser Bill Fischer (8-6) in the first, then singled in another in a three-run third triggered by Roger Maris' two-run double.

★ ★ ★

John Tsitouris (1-1) subbing as a starter for injured ace -Bud Daley, blanked the Senators on three hits until the eighth, when Faye Throneberry hit a two-run single after a walk and an error. Bob Grimm relieved and put it away, giving up two runs in the ninth before retiring Throneberry and Harmon Killebrew on foul pops with two on in the ninth.

The White Sox broke a 2-2 tie with two runs in the fifth on Luis Aparicio's triple and an infield out, then needed a leaping stab by left-fielder Al Smith on Hector Lopez' shot to the wall to escape defeat in the sixth after Yogi Berra's two-run, two-out homer had tied it again.

Bob Shaw pitched the six innings for Chicago, giving up five hits. The White Sox chased Yankee starter Whity Ford in a two-run second inning. Ford, bothered by arm trouble, has failed to complete any of his last seven starts against Chicago, five this year.

Schroll, a right-hander who gained his first major league victory in the National League with Philadelphia last April, evened his AL record at 1-1 while walking none and striking out five. The Red Sox, who had lost six straight to McLish (13-4) since last season, won it on Sammy White's two-out, two-run single in the fourth and added two unearned runs in the ninth.

Baltimore beat Paul Foytack (9-9) with three unearned runs in the first two innings while youngsters Jerry Walker (8-5) and Milt Pappas combined for a six-hitter against the Tigers.

## Souchak Wins PGA Driving Contest at 317

MINNEAPOLIS (AP) — Mike Souchak, the slimmed-down slugger from Grossinger, N. Y., stayed inside a narrow fairway with a belt of 317 yards, 18 inches, Wednesday and won the driving contest preliminary to the PGA Tournament Thursday.

The clout was worth $100 to Souchak.

Five contestants came through with accurate drives longer than 300 yards but some of the games longest hitters couldn't keep their shots within the first fairway of the Minneapolis Golf Club.

John MacMain of Danville, Va., took second and $75 with a drive of 310 yards 13 inches. Other placings were: Henry Castillo, Tampa, Fla., 307 yards 24 inches, $60; Pete Cooper, Lakeland, Fla., 304 yards 5 inches, $40; and Jay Hebert, Sanford, Fla., 301 yards 29 inches, $25.

**WEDNESDAY'S HOME RUNS**
By The Associated Press
AMERICAN LEAGUE
Berra (13), Yanks; Williams (10), A's.
NATIONAL LEAGUE
Cepeda (21), Giants; Freese (15), Bouchee (12), Phils; Banks 2, (29), S. Taylor (7), Cubs; Aaron 2, (26), Braves.

**WEDNESDAY'S FIGHTS**
CLEVELAND — Solomon Boysaw, 133, Cleveland, outpointed Flash Elorde, 134, Philippines, 10.
ROME — Tito Gomez, 133¾, Argentina, stopped Luigi Castoldi, 134¼, Italy, 5.

## 3 Errors on Play in Spencer Setback

One of the most unusual incidents of the year took place at Drayton Plains last night making it possible for Drayton Drug to upset Spencer Floor Covering 2-1 in the only Waterford softball game played.

★ ★ ★

With the score 1-1 in the 6th, Frank Keelean of Drug hit a fly that was dropped when two fielders collided. He was going into second and then headed for 3rd when one of the fly chasers bobbled the ball trying to pick it up. A relay to 3rd was late as Frank kept going towards home plate. The ensuing throw was wild.

★ ★ ★

Bill Goulet scattered eight hits and allowed no walks for the victory besting Jack Nelson. Hank Shell had three hits in defeat. Dale Remley got two for Drayton.

Nonne's won by forfeit over Sno-Bol in the other scheduled game. The Lakeland Optimists downed Frisk 8-5 in Little League.

# Sno-Bol vs Stadium Inn for Softball Title Tonight

The stage is set for the game of the year in Pontiac softball tonight when Sno-Bol and Stadium. Inn clash for the American League championship and the right to represent this city in the state tournament next month.

Beaudette Park will be the scene of the action starting at 7 with mound aces Harland "Fat" Keith (Sno-Bol) and Jake Mazur set to match pitches in the crucial contest.

**Both teams concluded regular season play with 12-2 records but Sno-Bol is rated the favorite tonight.**

The city loop newcomer defeated the Stadium meetings in thir only two meetings. Sno-Bol bowed to Lakeside Royals and Casa Mia.

★ ★ ★

Casa Mia downed the Royals 4-1 while the Merchants were blanking Deni's & Herks 3-0 in loop play last ight. Drive-In Cleaners downed Langdon's Boat Livery 10-4 and Pontiac Police drubbed Lakeland Merchants 16-1 in the International.

**A two-run triple by Ray Reid and winner Roger Reynolds big single were the only hits Casa Mia got but all they needed. Three pitchers combined for a Merchant two-hitter after they scored two in the 1st. Drive-In came from behind to win with seven in the 7th. The Police boys breezed featuring three safties by Fred Stormer.**

A Class A baseball thriller saw the Jets put together a double by Lou Seay, bunt singles by Gene Cox and pitcher Jim Jones and a walk to score two in the 7th and lead the Knights of Columbus, 2-1.

★ ★ ★

Don Picman had a one-hit shutout until the uprising. But he was saved from defeat when Fr. John Rakoczy singled with one out and stole second. He tallied on a two-out hit by John Burkhart to close the contest in a 2-2 deadlock.

Auburn Heights Boys Club and Our Lady of Refuge Class E victors Wednesday night.

Auburn scored all its runs in the first three innings and got ony one hit the rest of the way in beating Tel-Huron, 6-4. Joe Myers and Gary Hintz stole home in succession with two outs in the 7th to pull out a 6-5 Our Lady verdict over West Bloomfield Boys Club. Don Albertson got three hits for the losers.

# Pan-Am Wrestling Trials Begin Today at MSU

EAST LANSING (UPI)—A star-studded group of 112 wrestlers was scheduled to get down to the serious business of trying to make the 1959 Pan American Games team at Michigan State University today.

Bouts in eight weight classes were set to begin at 1 p. m. and continue until Saturday when the 24-man team to represent the United States at next month's meeting in Chicago will be picked.

**Men's and women's swimming trials for the Pan-Am Games are scheduled here Aug. 7-8 and 10-11.**

The list of grapplers includes Olympic stars, National AAU champions and high school kids trying to make the big team.

★ ★ ★

Most of the AAU stars who toured Russia this summer—and were beaten rather badly—will be on hand. But some top names in wrestling will be missing because jobs prevent taking time off to wrestle.

**A big factor in deciding who will represent the U. S. at Chicago against other hemisphere nations was expected to be conditioning. Those who have wrestled the most and worked out the most in recent months were given a decided edge.**

One of the best contests was expected to be in the lightest weight—114.5 pounds. Dick Delgado, former Olympian and ex-Oklahoma University star will face Dick Wilson, now an undergraduate at Toledo University.

Wilson was with the AAU team in Russia.

★ ★ ★

Others to watch in the Pan-Am tryouts:

Lee Allen, Portland, Ore., now in the Army, a former Olympic wrestler at 136.5 pounds.

Frank Bettucci, New York A. C., an Olympian, and Newt Copple, Lincoln, Neb., a Pan-American champion in the 1955 games at 147.5 pounds.

Bill Kerslake, former Case Tech star and Olympic performer at heavyweight.

Dr. Melvin Northrup, San Francisco Olympic Club, a 50-year-old veterinarian who wrestled on two Pan-Am teams and won the title in 1955 at Mexico City, 160.5 pounds.

# Pontiac Roller Skaters Shine

## Five Titles Captured to Date in National Championships

(Special to The Pontiac Press)

BOSTON—Pontiac roller skaters are distinguishing themselves at the American Roller Skating championships at the Boston Arena this week.

**To date five local skaters have captured titles with Michael Leincke adding the Juvenile Boys singles crown last night.**

Jean Hildebrand and Scott Hardy won their respective girls and boys diaper division titles.

The Pontiac junior fours team of Patty Blazak, Ronnie McDonald, Maureen Murthum and Edward Murthuh drew bursts of applause in taking their event.

★ ★ ★

The senior fours, Sylvia Ritchie, Louis Parker, Sue Welch and Rick Martins were second in their class. Miss Welch is the new novice ladies figure champion.

# Detroit Scots Aim for Soccer Crown

DETROIT — The St. Andrew Scots will go all out Saturday night in an attempt to win the United States Amateur Cup soccer championship at McCabe Field, Boston at Broadstreet.

**The Scots, hailed as one of the best soccer teams ever produced here, will meet St. Louis Kutis in the final game in the long Cup series. The kickoff is at 8 p.m.**

The game is the second between the Scots, winner of the Eastern title, and St. Louis, champions of the west and defending champion.

The Kutis eleven overwhelmed the Scots 5-0 in St. Louis last Saturday in the opener of the home-and-home series.

Ed Macauley set an NBA record when he played in 228 league games without being fouled out.

## Boysaw Over Elorde

CLEVELAND (AP) — Unbeaten Solomon Boysaw should move up in the lightweight standings with after a a unanimous 10-round decision over Gabriel (Flash) Elorde of the Phillipines last night.

The Cleveland buzzsaw admitted he was rusty after a five-month layoff and was slow getting started. But in the final five roundes he found the range with right hand shots to the head and boosted his strng to 21 victories and one draw.

---

Nickel alloy fishhooks do not rust even in salt water.

## Detroit Netters Win

CHICAGO (AP)— Detroit's Sharon Pritula and Julie Heldman advanced to the quarterfinals of the National Girls (15 and under) Tennis Tournament with victories yesterday.

Fifth-seeded Sharon won from Susan Gerber of Middletown, Ohio, 7-5, 6-0. Miss Heldman, sixth-seeded, defeated Marian Lindquist of Greenwich, Conn., 7-5, 6-4.

---

Rick Ferrell, new Detroit general manager, spent 19 years as a catcher, playing with three clubs in the AL.

Michigan State's soccer team was unbeaten in three years.

Richard Gano is the 45th president of the ABC.

## Veterans Join Daily Workouts at Lion Camp

Rain cut the Detroit Lion practice to one session yesterday but a number of rookies and veterans got in some running and passing work.

Two newly reported veterans, end Jim Gibbons of Iowa and defensive back Jim David from Colorado State, signed their contracts and went to work. Gibbons is a two-year man. David is the tough favorite of Lion fans who has served eight years with the pro football club.

Also reporting and taking part in the workout were lineman Harley Sewell and defensive back Yale Lary.

All veterans weer due to report today.

## Toledo Women Take Tri-City Golf Title

Toledo women won the annual Tri-City Golf Tournament yesteray by edging Detroit's team, 45-41. Cleveland had 22.

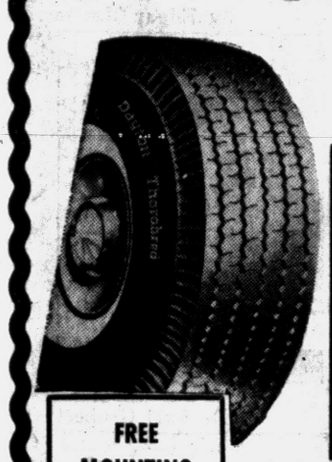

Mrs. Don Weiss took six points for the Detroit team by firing an 82 and Mrs. John Hume, Jr., got 5½ points with a 78.

Sally Sharp had an 89 and Mrs. Sue Gawne had an 83.

# Red Defections Thought Provoking

By RAY CROMLEY

WASHINGTON (NEA)—Something very curious is happening inside the minds of some Soviet officials.

And it must have Russia's ruler, Nikita Khrushchev, puzzled and worried.

**Mostly it has been kept secret — only a few cases have hit the newspapers — but in the past eight months throughout the world, 26 Soviet officials have defected. Nobody here can recall a similar flood of defections.**

These aren't refugees; they are officials who have been screened and rescreened for loyalty before being sent abroad.

The number doesn't include ordinary cultural exchangees, athletes, or average citizens who have finally found some way to escape. It doesn't include everyday men and women who have worked their way on a dark night across the no man's land and under the barbed wire between the East and West to get to freedom.

The 26 includes only embassy officials, military attaches, prize-winning writers, government officials high and low, all men with some authority in the Communist hierarchy.

A handful of these have been well publicized. There was Alexander Urevitch Kaznacheev, an information officer in the Soviet Embassy in Rangoon, Burma. Kaznacheev defected in June. Then he was given asylum in the U.S. Embassy in Burma.

**In May, 40 Soviet guards hustled Russian military attache Col. Mikhail I. Strygulne from a Rangoon hospital and put him aboard a Soviet-bound plane. He'd attempted to jump from a hospital window after making an abortive attempt to escape to freedom.**

A short time ago a Chinese Communist Embassy official asked the Burmese Government for asylum. He was beaten up attempting to escape.

Late last year, famed Russian novelist Alexander Tcheyshvili defected into Germany. Tcheyshvili was a onetime winner of the Stalin Prize for a novel praising the Soviet collective farm system.

★ ★ ★

But for every defector who is known, a fistful have been kept secret. The reasons: to protect the defector, to keep the Soviet from knowing precisely what's happening, sometimes to protect people who have cooperated in the defection.

If these defections puzzle Khrushchev, so do they puzzle the top U.S. cold war strategists. In the Pentagon and at the State Department there's a lot of head scratching by men determined to come up with an answer.

Perhaps a way can be found to increase the flow of defectors. These men are of immense value in providing information for planning the more aggressive U.S. cold war program that lies ahead. They obviously could pinpoint weaknesses in the Soviet that U.S. planners may not even suspect.

**Just as important, an increase in these defectors would be of special value in the psychological war the U.S. is now waging with the Red world.**

The defections in Burma, State Department men say, convinced a variety of Southeastern and Southern Asiatic leaders that they should take a more critical look at communism.

Defections in Germany have helped convince Berliners they have everything to gain and nothing to lose in fighting for their freedom. Here there have been not only defections of Soviet officials — but a flow of high-placed East Germans.

★ ★ ★

A few months ago, Lt. Col. Siegfried Dombrowski, deputy chief of East German army intelligence, defected to the West. In the wake of his defection a trio of high-ranking East German intelligence men were arrested. They included Gen. Linke, intelligence chief at the time Dombrowski defected; Col Willi Saegebrecht, Linke's successor, and the colonel who succeeded Dombrowski as deputy intelligence chief.

Last year, on the eve of an East German celebration at the University at which Karl Marx received his doctorate, the head of the University asked asylum in the Free World. Dr. Josef Haemel was the man, and East Germany's famed Friedrich Schiller University, at Jena, the school.

**Defections in northern Europe have convinced some Scandinavian neutrals that they're better off not veering too close to pro-Soviet neutrality.**

And unpublicized defections of Soviet officials in the Middle East are understood to have given strong-man Nasser of Egypt and Iraq, some second thoughts about putting too much trust in the Reds.

Says one State Department official:

"I hope we can find some way to keep this flow going. It's making a lot of people stop and listen to what we have to say for the first time."

THE GIRLS — By Franklin Folger

"Darn board meeting dragged on and on."

# Reporter Feels President's Ire

## Des Moines Newsman Asks About Policy on Security Publicity

WASHINGTON (UPI) — President Eisenhower showed his anger Wednesday and told a reporter to sit down after the newsman asked him about the administration's policies on release of information.

The President's ire was directed at Clark R. Mollenhoff, correspondent for the Des Moines Register and Tribune.

**It was the second time that Eisenhower has spoken sharply to Mollenhoff in recent weeks.**

Mollenhoff told the President today that the House acted to shut off funds to the International Cooperation Administration unless certain reports on the foreign aid program were made available to the public.

The reporter asked if the President felt this was a personal criticism and inquired if the administration would change what he called its "secrecy policies."

The President reddened and knit his brows. He replied tht Mollenhoff began his question by stating a premise that was not true. When the reporter began to rise and explain the question, the President bluntly told him to please sit down.

**The President went on to say that no administration had gone further than his in making public information that should not be kept confidential in the interest of national security.**

He referred to the House action indirectly as an invasion of the executive's responsibility and probably unconsitutional.

In a recent news conference the President cut off Mollenhoff's questioning about government information policies and told him to put it in writing. At that time the President said Mollenhoff was accusing government officials of fraud without justification.

## August Is 'Oil Month'

LANSING (AP) — The month of August was proclaimed by Gov. Williams Wednesday as Oil Centennial Month in Michigan. It marks erection of the first successful oil well by Col. Edwin L. Drake at Titusville, Pa., Aug. 27, 1859.

## Market Mixed in Easy Trade

NEW YORK (AP) — The stock market pursued a mixed path in relaxed early trading today.

★ ★ ★

Prices changes were generally limited to fractions.

Steels, motors, coppers and some selected issues stepped a shade higher. Aluminums, drugs and utilities retreated.

**Oils and rails, which ran ahead sharply yesterday, churned in a narrow range. Chemicals also were mixed.**

General Motors, after the company reported sharply higher first half profit crept higher. Other motors added small fractions.

Steels generally picked up around half a point. Republic Steel, following news of record first half company earnings, rose a fraction.

★ ★ ★

Drugs also receded again. Merck and Schering fell fractions.

## Set Bond for Men Accused of Burglary

Two men arrested Monday in a safe burglary waived examination in Waterford Township Justice of the Peace Donald E. Adams' court yesterday. Bond was set at $5,000 each.

William D. O'Guian, 35, of Hazel Park, and J. F. Crampton, 32, of Madison Heights, were caught counting money totaling $435 stolen from a safe in Richardson's Farm Dairy, Waterford Township, according to township police.

**Both men are free on three different bonds in Ferndale, Detroit and Madison Heights on breaking and entering charges.**

They were unable to furnish the new bonds and are being held in the Oakland County Jail pending their trial for safe burglary before Circuit Judge Frank L. Doty Monday morning.

## MARKETS

Commercially graded:

White — Grade A jumbo 38; extra large 35-36; large 34½-36; medium 30-31; brown Grade A large 33; medium, small 19; Grade B large 27.

### Livestock

**DETROIT LIVESTOCK**

DETROIT, July 30 (AP) (USDA) — Cattle salable 15c. Supply limited to cows; grass offerings and fed offerings virtually absent in early supply; cows moderately active, fully steady; utility 17.00-18.00; canners and cutters 13.50-17.00; utility bulls up to 23.00. Compared last week good and choice slaughter steers under 1100 lbs. along with heifers, strong to 25c higher; steers over 1100 lbs. steady to 25c lower; utility and standard steers and heifers steady to 50c lower; cows 50-1.00 lower; bulls 50c lower; several loads high choice 970-1070 lb. steers 28.75-29.00; two lots high choice to prime 1080-1110 lb. steers 29.25; several loads high choice steers 1100-1175 lb. steers 28.50-29.00; bulk choice steers 900-1150 lbs. 27.75-28.50; few loads low choice steers 1125-1150 lb. steers 27.50-27.75; most good to low choice steers under 1100 lbs. 26.00-27.50; standard to low good steers 22.50-25.50; utility steers 20.00-22.00; most choice 790-830 lb. heifers 26.75-27.50; good to low choice heifers 25.00-26.50; standard heifers 22.00-24.50; utility heifers 19.00-22.00; utility cows 17.00-18.00; canners and cutters 13.50-17.00; utility bulls 22.00-23.00, few early in week up to 23.50 and 24.00; cutter bulls 20.00-22.00.

Vealers—Salable 25. Not enough offered to test trade. Compared last week choice and prime vealers 1.00-2.00 higher; lower grades steady to strong; most choice and prime vealers 35.00-40.00, individual prime up to 41.00; standard and good 26.00-35.00; cull and utility 17.00-26.00.

Sheep—Salable 25. Not enough offered to make a market. Compared last week choice and prime spring slaughter lambs 1.00 higher; lower grades steady to strong; slaughter ewes steady; feeder lambs steady; most choice and prime spring lambs 23.50-24.50; one lot up to 24.75; good and choice spring lambs 21.00-23.00; utility to good lambs 19.00-21.00; cull to choice slaughter ewes 4.00-7.00; most good and choice feeder lambs 18.00-20.00.

## Wheat Prices Move Upward

CHICAGO (AP) — Wheat futures were in moderate demand and prices moved slightly ahead today in early transactions on the Board of Trade while scattered selling weakened soybeans.

Commercial buying was credited with the firmness in wheat but there appeared to be no urgency in the demand. Profit taking accounted for most of the soybean pressure.

Rye, which ran up sharply shortly before the close yesterday, was mixed with some contracts down about a cent and some ahead by small fractions.

### Grain Prices

**CHICAGO GRAIN**

CHICAGO, July 30 (AP) — Opening grain.

## Chemical Blasts Jolt Community

### No Injuries Reported in Connecticut From $500,000 Blaze

PORTLAND, Conn. (UPI) — Deafening explosions in a huge chemical tank here early today rocked this central Connecticut community and touched off a roaring fire that caused damage estimated up to $500,000.

★ ★ ★

There were no reports of injuries from the explosions and flames but State Police evacuated 100 families from within 1,000 feet of the inferno at Phillip Bros. Chemicals, Inc., storage area.

**Firemen feared that 30,000 gallons of acetic acid loaded on railroad tank cars would explode from the heat of the flames.**

The explosions sent flames mushrooming hundreds of feet into the air and knocked windows from nearby homes. One chemical tank was hurled against a freight car.

**MOSTLY SKYWARD**

"Thank God," one state policeman said, "the explosions went mostly skyward instead of to the side. There could have been a major disaster."

**Henry Cost, plant superintendent, said that damage would be between $250,000 and $500,000.**

He reported there was one "huge explosion at first" and possibly 50 smaller ones in the tanks which held up to 50,000 gallons of highly dangerous chemicals.

★ ★ ★

A retail establishment nearby, quonset salvage and surplus store, was completely demolished by flames which could be seen for miles.

**Flames were so hot firemen could not get near the blaze which roared uncontrolled for several hours but were reported confined to the chemical storage area.**

The chemicals stored at the plant which packages them for industrial purposes included sulphuric acid, soda ash, phosphates, alcohol and acetic acid.

Some of the hottest springs in the world are located in Iceland. In fact the word "geyser" comes from the Icelandic.

**RETIRING** — There was a party last night for Perry J. Aspinwall on his retirement after 37 years with the Grand Trunk Railroad in Pontiac. Aspinwall, 65, of the Roosevelt Hotel, was the chief of railroad police. He is shown here at Ted's Restaurant reading one of the many telegrams of good wishes from his associates.

FRANCIS MILLER

## Rename Pontiac Man Business Unit Head

Francis Miller, 9889 Coledale, Milford, of the Pontiac Credit Bureau, has been reappointed chairman of the Pontiac Chapter of the National Federation of Independent Business.

Richard Moore, district manager of the federation in this area made the appointment.

Miller tabulates the ballots of business members of the organization who are polled each month on the bills and issues that affect independent business that appear before Congress.

The tabulations are sent with the signed ballots to U.S. Rep. William Broomfield and also to State Senator L. Harvey Lodge.

## Business Notes

The Oldsmobile Motor Division has named Roland E. Gifford of Okemos as sales promotion manager. He fills a vacancy created when M. J. Seaton was advanced to general merchandising manager for the division. A graduate of the University of Michigan, Gifford has been used car merchandising manager for Oldsmobile for the past three years. He also has served as supervisor of public relations, advertising manager, assistant zone manager and zone manager at Charlotte, N. C. Gifford was a former president of the Lansing Junior Chamber of Commerce.

Morgan J. Seaton of Lansing has been appointed general merchandising manager for Oldsmobile, according to V. H. Sutherlen, general sales manager. Seaton, an Oldsmobile employe for 26 years, has been sales promotion manager for the past eight years. At one time he was a production worker in the Fisher Body plant in Detroit.

## Hold Pro-Hoffa Ohio Teamsters

### Seize Control of Union Meeting After Brawl With Elected Officers

CINCINNATI, Ohio (AP) — A dozen members of pro-Hoffa faction of strife-torn Teamsters Union Local 100 were arrested here early today after they had seized control of the union headquarters following a brawling fist-fight.

All 12 were arrested on warrants obtained by officers of the local charging trespassing and disorderly conduct.

**The officers were elected last winter on a platform in opposition to Teamsters International President James R. Hoffa.**

The rival "rank and file" group has been seeking to form a new local.

The fight started last night when the officers of the local sought to postpone a hearing on charges against one of the rebels. The 16-man executive committee finally left the building after being told by the rebels to resign or get out.

★ ★ ★

Police, called to the scene, made the arrests only after the officers of the local had obtained the warrants.

The 12 arrested were released on bond pending Police court action.

Robert Morris, cochairman of the "rank and file" committee, told newsmen he had notified Hoffa's secretary by telephone that:

"We are in the hall. We have thrown out our corrupt officers. We are begging for help from the International or from the monitors."

Otto Frobe, secretary-treasurer of the local; Marshall Tucker, business agent, and John Curtsinger, trustee, suffered cuts and bruises in the fight.

### Ingham Sheriff Elected State Group's President

ESCANABA (AP)—Ingham County Sheriff Willard Barnes of Mason was elected president of the Michigan Sheriffs' Assn. yesterday. He succeeds John W. Miller of Bay County.

Clarence Kackmeister, Saginaw County sheriff, was chosen vice president and Ferris Lucas, of Lansing, was re-elected secretary-treasurer.

Two new members added to the board of directors were Sheriff Ed Sandri of Crystal Falls (Iron County), and Sheriff Robert Stites of Adrian (Lenawee County).

## Outline Proposed Use Tax Ready for Senate Decision

LANSING (AP) — Here's what the New Republican use (sales) tax package, as readied for Senate decision today, would yield this fiscal year and next by the reckoning of its authors.

| | 1959-60 (10 Mos.) | 1960-61 (12 Mos.) |
|---|---|---|
| One-cent use tax increase, taking into account losses from a bracket excluding purchases of less than 50 cents from the increase. | $87,000,000 | $105,000,000 |
| Elimination of sales tax exemptions on: | | |
| 1. Hotel and motel rooms | $3,200,000 | $4,000,000 |
| 2. Materials used on federal projects | $4,800,000 | $6,000,000 |
| A four-cent use tax on intrastate telephone and telegraph bills and leased wires | $8,300,000 | $10,000,000 |
| Increase sales tax on drug prescriptions from 1½ to 4 per cent | $500,000 | $500,000 |
| Take away exemption for retailers on first $50 of sales each month | $1,500,000 | $1,500,000 |
| Boost intangibles tax paid by financial institutions from 40 to 55 cents per $1,000 of deposits | $2,000,000 | $6,000,000 |
| Growth in other than sales taxes, chiefly the business activities tax | $11,000,000 | $15,000,000 |
| Total additional revenue | $118.3 millions | $144,000,000 |

### 2 Boys Rescue 3rd Lad

## Saved From Sylvan Lake

A Sylvan Village mother whose four-year-old son was saved from drowning yesterday by two older boys could barely find words to thank them today.

★ ★ ★

"I am so grateful to them," she said, "I thanked God all last night that David was here safe."

★ ★ ★

Little David Webster had gone to the beach with his two older brothers, Bill, 10, and Bobby, 9. They forgot about their younger brother who went into Sylvan Lake with an innertube.

**The tube carried David out on the lake beyond his depth where he fell off. The youngster's cries were heard by Rickey Hacht, 12, and L. G. Smith, 11, who were on a nearby raft.**

"Look, a kid is drowning," exclaimed Rickey. He dived in, followed by L. G. Together, they brought young David into shore, a distance of about 30 feet.

**JUST LEARNING**

Bill and Bobby were at a loss what to do when they realized their brother's dilemma. They are just learning how to swim.

**The boys are the sons of Mr. and Mrs. William Webster of 2131 Greer Blvd., Sylvan Village.**

Rickey is the son of Mr. and Mrs. Harold Hacht of 1862 Warwick Ave. and L. G. is the son of Mr. and Mrs. Chauncey Smith of 2207 Greer Blvd. Both families also live in Sylvan Village.

Mrs. Webster said she was so thankful for her son's rescue that she called the American Red Cross Office in Pontiac, and that officials told her they are planning to present merit certificates to the two young rescuers for their heroic actions.

"David won't be going to the beach without me from now on, for quite awhile," vowed Mrs. Webster.

## First Step Is Taken to Slow Road Work

WASHINGTON (UPI) — A major slowdown in construction of the 41,000-mile superhighway network shaped up today if Congress approves a financing plan proposed by the House Ways & Means Committee.

★ ★ ★

The tax-writing committee, by a 15-10 vote, yesterday endorsed the issuance of a stopgap billion-dollar bond issue to get the federal-state program over the immediate financing "hump."

**Since this would not solve the long-range deficit, the committee also called for a "stretch-out" in the construction program, requiring a sharp curtailment in the roadbuilding schedule.**

A big question mark hangs over the future of this proposal, however. There is important opposition to both features.

## Turkey Farmer Still in Critical Condition

The 55-year-old owner of the Rochester Turkey Farm remains unconscious for the third day in St. Joseph Mercy Hospital after falling down a four-story elevator shaft Tuesday morning.

★ ★ ★

Orville Felmlee, of 603 W. Lincoln St., Royal Oak, is still in critical condition, doctors said today. He has multiple chest injuries.

**The accident occurred at the farm located at 1171 S. Rochester Rd.**

Sheriff's deputies said Felmlee apparently was fixing the motor at the top of the 60-foot shaft when he fell.

### Songwriter Ruby Dies of Heart Disease

BEVERLY HILLS, Calif. (AP) — Songwriter Herman Ruby, 68, died of heart disease today in his home.

★ ★ ★

His best known songs included "I'll Always Be in Love With You," "My Sunny Tennessee" and "Cecilia."

**He was born in New York City and began his musical career in "Tin Pan Alley."**

Ruby came to Hollywood at the advent of sound movies and wrote for many films.

He is survived by his widow, Betty.

## To Map Plans of Bank College

### Oakland Unit Meets Tonight; Will Organize Course Program

Approximately 45 banking counsels and seven local bank officials will be present at this year's organizational meeting of the education section of the Oakland County Chapter of the American Institute of Banking to be held at 7:15 tonight at the Waldron Hotel.

The education section of the A.I.B., similar to a "banking college," is designed to offer bank employes the opportunity to prepare themselves for advancement through education.

**The program attempts to keep employes abreast of changing methods and procedures in modern banking, according to Virginia E. Stark, president of the Oakland chapter.**

Instructions for the counsels regarding the information to be given to employes participating in the program will be handed out at tonight's meeting.

All members of the A.I.B. may join the education classes with night courses in Principles of Bank Operations, Economics I, Accounting I and Bank Administration beginning in September.

★ ★ ★

Officials at the meeting representing banks in Oakland County will be President Alfred C. Girard and Assistant Vice President Charles R. Harris, Community National Bank; Vice President Stuart Whitfield and Assistant Vice President Everett K. Garrison, Pontiac National Bank; President Alfred Klein and Assistant Vice President Charles Goebel, Wayne-Oakland Bank, Royal Oak.

Clifford A. Plumm, Genesee Merchants Bank and Trust, will be the main speaker at the meeting.

## Williams Denies Plane Misuse

### Rep. Bentley Charges Unlawful to Fly Staff, Family in Guard Craft

LANSING (AP) — Gov. Williams has denied he will violate Defense Department rules by using an Air National Guard plane to take members of his family, his staff and their wives to Puerto Rico for the annual governors' conference.

Rep. Alvin M. Bentley (R-Mich) said in Washington yesterday that the Democratic chief executive apparently intends to fly unauthorized personnel to the weekend conference.

**Williams responded that the Owosso Republican "is just trying to cash in on cheap publicity."**

The governor added:

"Governors and their families and their staffs traditionally used state guard planes to go to governors' conferences and neither the National Guard Bureau nor anybody else has ever questioned this use."

In a letter to Secretary of Defense Neil H. McElroy, Bentley said he was advised that the only ones authorized to make such trips are governors, their wives, lieutenant governors, adjutant generals and individuals in the military reserve.

## Flying Tackle Nabs Detroit Teen Suspect

A Detroit teenager was in jail today because of an Oakland County sheriff's deputy who really "tackles" his job.

Deputy Carl E. Raymond was called to the Oxford Police Station early this morning to question Wiley Brooks, 17, of 3361 Hudson.

**Brooks had been picked up by Oxford patrolmen who said they found him standing in front of Dick's Grocery, 691 S. Lapeer Rd., wearing a white handkerchief over his face and holding a rock in one hand.**

While being questioned, Brooks suddenly "whipped out a paring knife with a five-inch blade, flashed it at us and darted toward the stairway," the deputy said.

★ ★ ★

Raymond, ignoring the flashing steel blade, jumped to his feet and brought Brooks down with a flying ttackle.

The deputy wrestled the knife from Brooks and accompanied him to the Oakland County Jail where he was booked for investigation of carrying a concealed weapon.

### News in Brief

**Edward Cox, of 7028 Terrell St.** Waterford Township, reported to police that someone stole two 12-foot rowboats from in front of his house sometime last night.

**Rummage Sale, 2012 Cass Lake Rd. Fri. 9 to 5; Sat. 9 to 1. Adv.**

**Rummage Sale, Aug. 1. K. of C. Hall, 295 S. Saginaw. 8 to 12. Adv.**

Solitare has become the fifth most popular card game in the U.S. It comes after canasta, contract bridge, poker and pinochle.

### Pleads Guilty to Slaying

DETROIT (AP) — Rodney Hoerle, 16, of Redford Township, has pleaded guilty to second degree murder in the hammer slaying of William McEvoy, 62. McEvoy was beaten in his Detroit bicycle shop Dec. 5 and robbed of $20. He died Dec. 10. Recorder's court judge John P. Scallen set sentencing for Aug. 14.

NOTICE OF INTENTION TO CONstruct combined sewer in Assessor's Plat No. 144 North Section.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held July 20, 1959 by resolution it was declared to be the intention of the City Commission to construct combined sewer in Assessor's Plat No. 144, North Section at an estimated cost of $313,888.85, and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to benefits and that all of the lots and parcels of land as follows:

## In Memoriam 2

IN LOVING MEMORY OF MY sister Mrs. W. S. Downes who passed away suddenly July 30, 1958.
To linger off the way,
That leads us back to yesterday
To hear your voice, to see your smile,
And talk with you a little while.
Gladys.

IN LOVING MEMORY OF LOTTIE Downes, who passed away July 30, 1958.
The depths of sorrow we cannot tell,
Of the loss of one we loved so well;
And while she sleeps a peaceful sleep,
Her memory we shall always keep.
Husband, daughters and grandchildren.

IN MEMORY OF BRENDA MELaine Stuckey, who passed away July 30, 1955.
No one knows the silent heartache,
Only those who lose can tell,
The grief we bear in silence,
For the one we loved so well.
Some day, some time my eyes shall see,
The face we keep in memory,
And God will link the broken chain,
Still closer when we meet again.
Sadly missed by mother, father, sister & brother.

IN LOVING MEMORY OF OUR dear mother Christina Gay who passed away 7 years ago July 30.
Gracious gentle mother,
Always sweet & kind,
You only saw the good in folks,
And to their faults were blind.
God's taken you to Heaven,
Where all is joy & mirth,
But the place you left so empty,
No one can fill on earth.
Sadly missed by her daughter Christine Blower & Son Douglas & Gay.

# Asks Licenses of Hoffa's Pals

## Kentucky Commissioner of Insurance Rules on Dorfman, Schwartz

FRANKFORT, Ky. (AP) — Insurance Commissioner Cad Thurman cited two associates of Teamster Union President James Hoffa yesterday to show why their licenses to deal in insurance in Kentucky should not be suspended or revoked.

Allen M. Dorfman, Chicago, and Sol C. Schwartz, Lincolnwood, Ill., were ordered to appear before Thurman Aug. 14.

**The men are licensed by Kentucky as nonresident insurance agents, who may submit to a resident agent policies for countersigning on property located in Kentucky but owned by nonresidents.**

Thurman cited them after receiving testimony from the Senate Rackets Committee, which linked Schwartz and Dorfman to insurance dealings of Hoffa and the Teamsters.

Thurman is empowered under Kentucky law to suspend or revoke licenses of persons he deems unworthy, or of bad reputation or where he believes it would be in the public interest to do so.

**GETS GOOD NEWS** — Mrs. Iven C. Kincheloe Jr., right, of Cassopolis, widow of the late jet ace who was killed in an air crash a year ago, receives word that Kinross Air Force Base in Michigan's Upper Peninsula will be renamed Kincheloe Air Force Base. At left is Col. Robert S. Howell, of Bunker Hill Air Force Base near Peru, Ind. The Kincheloe children are Iven C. III, who by presidential order has been guaranteed admission to the Air Force Academy, and Jeannie, 10 months. Kincheloe was to have flown the X15, the Air Force's first space plane.

# BOAC Plane Turns, Is Safe at Shannon

SHANNON, Ireland (UPI) — A BOAC stratocruiser under charter to a Boston group landed safely today after turning back on a flight to Boston because of mechanical failure in one engine.

The 79 passengers, members of the Appalachian Mountain Club, were returning from a vacation in Switzerland. A 10-man crew was aboard.

Capt. Don Bellingham of Aylesbury, England, said the airliner was 1,000 miles out of Shtannon when "we had a mechanical failure in the No. 4 engine and then the cowling came adrift."

A full emergency alert was sounded at Shannon. Ships at sea were warned and planes in the air ordered to detour.

A DC7C on a flight from Boston to London arrived quickly at the spot and a Royal Air Force Shackleton bomber took off from Saint Mawgan, in Cornwall, England, to join the escort.

## Select Jane Dewberry for Elks' 'Cinderella'

Jane Dewberry, 15, of 375 Franklin Rd., was chosen "Cinderella" Tuesday night at the teenage record hop held by the Sylvan Lake Elks Lodge 723.

Her feet slipped perfectly into a pair of size 7-B slippers. Her measurements were taken at 34-24-34.

# *Rocky's Son May Wed Former Maid*

OSLO, Norway (UPI) — An Oslo newspaper reported today that Steven Rockefeller, 23-year-old son of New York's governor, will marry the 21-year-old Norwegian beauty who once worked as a maid in the Rockefellers' New York home.

★ ★ ★

The newspaper "Verdens Gang," quoting what it called "the best sources" in Soegne, in south Norway, said Steven will marry Anne Marie Rasmussen in mid-August. Soegne is the home of her family where Steven is now visiting.

**The young couple was not available for immediate comment and friends of the family discounted the newspaper report. They said "nothing has been decided yet."**

Young Rockefeller, who flew to Oslo to see Anne Marie as soon as he got out of the Army in mid-July, said earlier this week he and the honey-blonde Norwegian were "just good friends." She said a wedding had not been discussed.

Reports of a romance arose when Steven bought a motorcycle and took Anne Marie on a tour of scenic south Norway and ended up at the Rasmussen home to spend his vacation.

# NBC Will Test Drama Series

## Pitting Life Anthology Against Ed Sullivan and Maverick

By CHARLES MERCER

NEW YORK (AP) — Last season numerous television critics and viewers frequently asked: Why doesn't NBC-TV have a life anthology dramatic series?

Beginning Sept. 20, with "Sunday Showcase," the network is going to have exactly that. There is every indication that it should be one of the best on the air.

★ ★ ★

To my mind, it's one of the most significant programming experiments of the forthcoming season. NBC is gambling that enough people are sufficiently interested in good drama to match the program against Ed Sullivan and "Maverick" on the opposition networks at 8 p.m. Sundays.

Robert Alan Aurthur, executive producer of the series, was saying the other day that he and NBC are offering "maximum creative freedom" such as existed in the halcyon days of TV drama several years ago when Fred Coe developed a host of outstanding stars, writers and directors — including Aurthur himself.

★ ★ ★

For the opening show Aurthur says he has an "extraordinary script" by S. Lee Pogostin called "People Kill People Sometimes." It will be followed by a two-part adaptation of Budd Schulberg's "What Makes Sammy Run?"

A comedy by Patrick Dennis, author of "Auntie Mame," is planned, as well as works by Alfred Bestor, John Osborne and one by Aurthur himself.

**Well, you might ask, why get so excited about this program?**

Chiefly because it's one of those remarkably few TV series that bucks the increasing trend toward filmed Westerns and adventures. Sad to relate, the series still is unsponsored. If no advertiser decides to sponsor it, NBC will have to go it alone.

## Storm Wrecks Motors at Coldwater City Wells

COLDWATER (AP)—The City of Coldwater ordered residents today to conserve water after a power failure blew out motors operating two of the community's three wells.

A city spokesman said the situation was not critical but that it would take two or three days to either repair the motors or get new ones. Meantime, residents were asked not to sprinkle lawns or waste water. And the fire department banned trash and grass fires.

Yesterday's storm that flooded streets and basements and knocked out power was blamed for the breakdown.

Lightning caused a barn fire and other property damage. No one was hurt. Radio station WTVB was off the air for a time.

# *Who's Ava's Lovelife Down in Puerto Rico?*

By EARL WILSON

Down in That Crazy Caribbean—The B. W. and I are off on a Caribbean island-hopping trip and you may hear from us almost anywhere . . . We found Ava Gardner hunting privacy in San Juan, Puerto Rico, 20 miles out of town (the one Laurence Rockefeller helped build), and the dirty old gossip-mongers claimed she was in Puerto Rico because of a guy. (Who else?)

WILSON

**Ava was touring the spots at night, and leaving word she didn't want to be disturbed. Not only that, but her secretary was leaving word that she didn't want to be disturbed. The local press said further that Ava warned that if there was any publicity, she'd leave—otherwise she'd stay a month . . . evidently he must be quite a charmer.**

Just as we were leaving N. Y., I phoned three columnists who travel considerably for some special information.

★ ★ ★

One was in Ireland, one was in Alaska, one was in Tahiti.

"Isn't that amazing?" I asked the B. W., who said, "What's so amazing? You're going to Aruba, Puerto Rico, Curacao and Venezuela!"

AVA

**I'm still hayseed enough to get a kick when a globe-trotter in a gambling casino tells me mysteriously, "Just back from Africa—the Mau Mau thing is going to bust loose again worse than ever."**

Or when a Havana-to-Aruba chorus girl named "Drew Barry" confides that she's from Brooklyn and that she gave herself the name because she wanted to be an actress and picked out a combination of John Drew and John Barrymore.

## THE MIDNIGHT EARL IN N. Y. . . .

Crowds jamming to see **Frank Sinatra** at Atlantic City upset a cop and almost overturned a police car. One Sinatra fan, a Texan, was so mad he couldn't get a table he shouted at Prop. Skinny D'Amato, "It'll take extradition papers to get me to New Jersey again!" **Bob Wagner** and **Natalie Wood** are with Frankie.

Expectant **Eydie Gorme** and **Steve Lawrence** taped a TV show for Thanksgiving eve—and sang "White Christmas"

**EARL'S PEARLS:** Silly Simile from Jesse Kaplan: "She was as hard to get as applause on a TV show." . . . That's earl, brother.

## TV News and Reviews

# *Weak Acting Brings Death to Live Steel Hour Repeat*

By WILLIAM EWALD

NEW YORK (UPI) — This is the season of regurgitation on TV and it is only fitting that the U.S. Steel Hour should have elected last night to cast up a live repeat.

The retread selected by the CBS-TV drama show was a Sumner Locke Elliott piece, "Wish on the Moon," last seen on TV back in 1953. That original starred Eva Marie Saint and Phillis Kirk, two ladies who have since gone on to headier projects.

EWALD

Last night's offered Peggy Ann Garner and Erin O'Brien, two ladies who may go on to headier things, but not on the strength of last night's outing.

"Wish on the Moon" is not a very sturdy vehicle or original one. It deals with two young girls — one questing for a career, the other for a husband — whose paths cross and who wind up clutching each other's dreams.

★ ★ ★

It is a predictable little excrusion which takes the path of least resistance in its dramatic course, is stuffed with cardboard characters and sapless talk.

**Conceivably, two strong lead players could make the proceedings bearable but last night Miss O'Brien kept the hour anchored in the slush.**

Miss O'Brien is a pretty slice of cake, but her knowledge of the acting trade is wee.

Her lacks made things difficult for Miss Garner, a capable actress, who was unable to bounce her part off her teammate. As a result, the hour sagged amateurishly.

**SHORT SHOTS:** Mrs. Patricia McCarthy, a 30-year-old housewife who was forced to withdraw temporarily as a contestant from NBC-TV's Tic Tac Dough this week, gave birth yesterday to a six pound, nine ounce girl . . . ABC-TV's Music for a Summer Night has loosened up its stiff bones considerably since the start of the summer season and last night's episode was an agreeable clambake . . . for social historians: last night a lady won a St. Bernard dog complete with brandy flask on NBC-TV's The Price Is Right.

**THE CHANNEL SWIM:** CBS-TV is looking for a new time slot for its Brenner series—Brenner's Saturday night time period will be taken over on Oct. 17 by a new series, Mr. Lucky . . . one of the new daytime shows being prepared for the NBC-TV daytime schedule is something called Head of the Class.

★ ★ ★

The ABC-TV Dick Clark Show will originate its Aug. 22 and 29 and Sept. 5 telecasts from Hollywood.

# *Promises Judge She Won't Annoy Married Man*

CHICAGO (UPI)—Jane Caroselli escaped a $2 fine today by promising to stop pestering a handsome, married department store clerk for dates.

"I didn't mean it. I was just teasing him," Miss Caroselli, 25, protested in Woman's Court.

**"I go out with a lot of fellows. I don't have to pick on a married fellow, if you know what I mean."**

The Fair Department Store took a sterner view. It charged that Miss Caroselli, a brunette who calls herself a student model, had been making life miserable for salesman Bernard Spena, 21.

★ ★ ★

Spena, a handsome, dark-haired, happily-married fellow, could hardly get his work done, what with Miss Caroselli asking him to take her out, the store charged.

## Actor Fails to Appear, $263 Bail Is Forfeited

BEVERLY HILLS, Calif. (AP)—Actor Anthony Steele's $263 bail on a drunk driving charge has been forfeited because he failed to appear for jury trial Wednesday.

A bench warrant for his arrest was issued. His lawyer said the actor is in Europe. Steele was arrested June 3. He had a prior conviction on the same charge in West Los Angeles.

# *Detroit Beatniks Have Authentic Hangout Now*

DETROIT (UPI) — Ingenious combinations of paint, burlap sacking, string, wire and a minimum of capital combine to give Detroit its first "authentic" beatnik club, similar to those in New York's Greenwich Village and on the West Coast.

**Backed by a man, by self-description a "frustrated artist," who teaches commercial education in a local high school, "The Hungry Eye" opens its doors tonight to both the beatniks and the would-be beatniks who say they like to eat regularly.**

Conversion of a building which formerly housed a bar on Detroit's southwest side into an establishment where the city's beatniks congregate was a simple matter for manager Ed Schwartz.

He and several of his artist friends took their paint buckets, brushes, miscellaneous bits of wood, wire and burlap and put their imaginations to work.

# *Actor Explains, Then Gets Busy and Learns Lines*

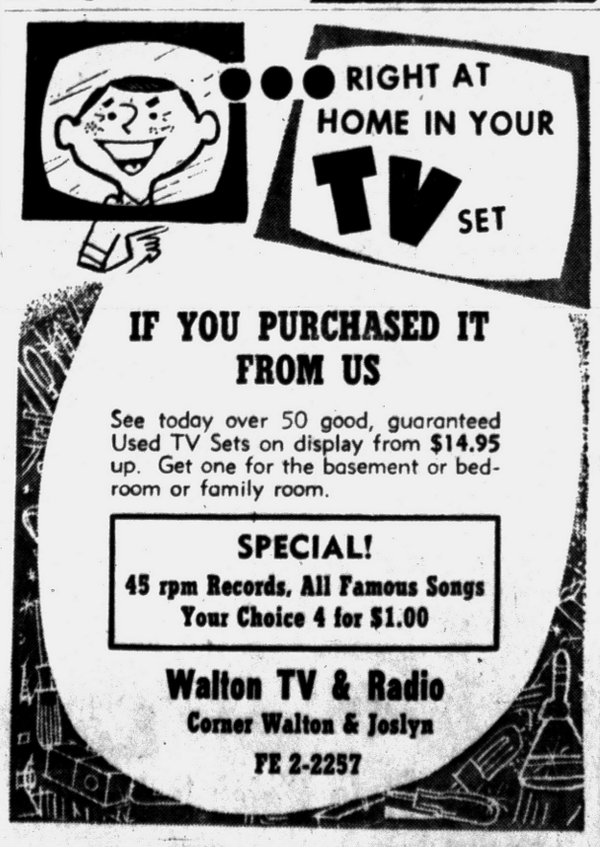

**FORT LEE, N. J. (UPI) — Actor Allen Jenkins remembered all his lines last night, after staying up a night and a day to learn them.**

**Night before last, after fumbling several times, Jenkins had stepped to the front of the stage in the first act to tell the startled audience: "I am not up to my lines." The play went on—with Jenkins reading from the script.**

**He was playing the lead roll in Arnold Schulman's "A Hole in the Head."**

## Novosibirsk Welcomes Nixon

# Siberian City Is Chicago of Russia

By PRESTON GROVER

NOVOSIBIRSK, Soviet Union (AP)—This bustling Siberian industrial center has been described as the Chicago of the Soviet Union. But it looks more like a new frontier city.

Buildings along the main street are garishly new. Most of them are two stories, a few rising higher.

★ ★ ★

Then comes the Novosibirsk Opera House, which residents boast is bigger than Moscow's Bolshoi Theater.

It looks bigger, but lacks a certain exterior elegance that distinguishes the pillared Bolshoi. It is a massive heap of gray stone and concrete that is far from lovely.

★ ★ ★

This city of nearly 900,000 persons is the pride and joy of the Soviet regime. It lies beside the great Ob River, which flows northward into the Arctic. It is on the Transsiberian Railway and recently has become an important hub of an air network with which the Soviets are trying to overcome their lack of roads and rail lines.

Novosibirsk has had its greatest growth since the revolution and now produces heavy machinery which is shipped to all parts of the Soviet Union. For most reporters the city has been closed territory, although occasionally someone gets in.

A big machine factory visited by Vice President Richard M. Nixon, part of the Soviet Union's basic tool production, was launched in 1942 with U.S. lend-lease and other aid from the Allies. American and British machinery can be seen on all sides. Nixon toured the plant for half an hour, but the manager pleaded for him to see more.

★ ★ ★

The enthusiastic welcome from the many thousands who awaited the American party startled the visitors.

"Siberians are very friendly people," said local editors on hand for the arrival.
