Haze of Battle Hangs Over Venezuelan City

AP Facsimile

FIRES ACCOMPANY FIGHTING — Smoke rising from numerous fires forms a haze over a section of Caracas, Venezuela, yesterday, during the fierce, bloody fighting between security forces and foes of President Jimenez. Reports said that gasoline fire bombings destroyed 30 buses and other vehicles, a textile factory and several houses. Despite lower government announcements, reliable sources reported that at least 100 persons died and hundreds were injured in the riots.

GENERAL JIMENEZ

ADM. LARRAZEBAL

OUSTED, SUCCESSOR — President M. Perez Jimenez fled Venezuela by air to the Dominican Republic today, as Rear Admiral Wolfgang Larrazebal took over as president of the military junta which assumed control of the government.

Venezuela Strongman Overthrown in Revolt

CARACAS (INS) — Venezuelan dictator Marcos Perez Jimenez' 10 years of power were ended today when he fled into exile in the Dominican Republic at the climax of a two-day revolt by soldiers and civilians.

Hundreds apparently were killed in Caracas and other cities as last-ditch stands were made by the dictator's security police and loyal army units.

A five-man military junta took power and pleaded with the people of the capital to maintain order.

But the jubilant Caraquenos sacked the pro-Perez Jimenez newspaper Heraldo and attacked security police headquarters in wild demonstrations.

The crowd attacked the police building with stones and the police fired on them. Many were killed and injured but the political prisoners inside the building were set free.

Perez Jiminez, his wife, four daughters, mother-in-law and several of his political henchmen left La Carlota military airport shortly after 3 a.m.

Jimenez Story Page 17

IN SECLUSION

They flew to Ciudad Trujillo, capital of the Dominican Republic and domain of Generalissimo Rafael Trujillo, going into seclusion upon arrival. Their plane was impounded

Another onetime dictator, Argentina's Juan D. Peron, reportedly fled from his asylum home in Caracas in panic.

A Peronist crony reportedly was captured by the rebels and confessed the Peronists had been working with Perez Jimenez.

APPOINT CIVILIANS

The junta established temporary headquarters in the presidential palace. Rear-Adm. Wolfgang Larrazabal and the four colonels in the junta reportedly were hoping

UAW Delegates Okay Share-the-Profits Plan

Uncorks Plan to Erase State Budget Deficit

Conlin Proposes Putting Liquor Purchases on 90-Day Payment Basis

LANSING (AP)—Rep. Rollo G. Conlin (R-Tipton), House tax expert, last night uncorked a surprise proposal for virtually balancing this year's state budget without increasing the intangibles tax.

In brief, Conlin suggested the state go to a 90-day payment basis in liquor purchases instead of paying cash on the line as it does now.

He said this would enable the state in short order to pick up 18 million dollars to replenish dwindling state treasury cash. Fund transfers already in the works would take up most of the remaining budgetary slack.

★ ★ ★

Gov. Williams has estimated a state deficit by June 30 of nearly 35 million dollars.

As the main part of a plan to make budgetary ends meet, he recommended an immediate 21 million dollar increase in the intangibles tax, and its retention in fiscal 1958-59.

The governor had no immediate comment on Conlin's proposal.

Said Conlin:

"I have been in contact with a number of distilleries and they are willing to accept this arrangement. It is sound business practice and many of our major businesses operate on a 90-day payment plan."

Conlin said his proposal would have the effect of eliminating a tie-up of state cash in liquor inventory.

★ ★ ★

"The physical inventory will be on hand, but very little state money will be invested in it. Almost all liquor stocks are turned over within a 90-day period," he said.

The Tipton Republican, chairman of the House General Taxation Committee, said two steps were necessary to put his proposal in operation.

The governor would have to order the State Liquor Control Commission to adopt the 90-day pay procedure, and the provisions of the law setting up the liquor revolving fund would have to be amended.

Legislation to accomplish the second step is being prepared, he said.

Conlin cautioned that his proposal will have no bearing on budget problems for the fiscal year starting July 1.

He did not flatly oppose an intangibles tax boost for 1958-59, saying only it would not be necessary to make it "retroactive"—that is, applicable to 1957 security holdings and bank deposits.

Of his plan, he said "it is a swift

Opposition Develops

AP Facsimile

AGAINST PROFIT-SHARING PLAN — Carl Stellato, president of the 45,000-member Ford Rouge plant local 600 of the United Auto Workers union, takes the floor today at the UAW convention to voice opposition to a profit-sharing plan sponsored by union president Walter P. Reuther.

Stellato's Move for Short Week Fails to Score

Reuther Victorious as Union Chooses Issue for Bargaining

FROM OUR WIRE SERVICES

DETROIT—The issue of a shorter work week was killed today at the special United Auto Workers Convention in Detroit and the share-the-profits plan was approved by the 3,215 delegates.

Carl Stellato, Local 600 president, spearheader of the move for "30 hours work for 40 hours pay," failed to get more than approximately 75 backers for a vote in favor of it.

UAW President Walter P. Reuther asked for solid backing from the Union and praised the "short work week" campaigners for their fighting ability.

Stellato cried, "Let the membership decide!" He said the union's million and a half members are not prepared to fight for a profit-sharing plan sponsored by Union President Walter P. Reuther but will fight for a shorter work week.

Stellato has been demanding a 30-hour week with more take-home pay than for the present 40-hour week.

Stellato said the shorter work week is the only way to solve unemployment brought on by automation in auto factories. He said, "the unemployed are looking to the UAW. Unless we do something more constructive than we propose to do, we'll be turning our backs on the unemployed."

Stellato argued that the union would be united in fighting for a shorter work week. He added, "We may have some rough going in the face of what is going on in the country at this particular time."

The delegates were expected to

Would Make Figures Public Under Law

Ike's Labor Program Urges Accounting for Union Funds

WASHINGTON (INS)—President Eisenhower proposed to Congress today a seven-point program providing for criminal prosecution of persons responsible for labor-management abuses.

In a special labor message, the President also asked that union welfare and other funds be subjected to "goldfish bowl" treatment.

His program would require full reports to the government on the management of union funds and that these reports would be made public.

Persons filing false reports or failing to file would be subject to criminal penalties.

★ ★ ★

Mr. Eisenhower proposed that embezzlement of union funds, false statements or entries in books, wilful destruction of records and the payment of money by a labor leader or employer to influence actions should be made a felony.

The Chief Executive's recommendations are an outgrowth of the scandals revealed by the Senate rackets committee investigations.

However, the President also recommended changes in the Taft-Hartley labor law to prohibit secondary boycotts in some cases and so-called "blackmail" picketing.

His proposals follow closely an outline of the administration program presented by Labor Secretary James P. Mitchell to the AFL-CIO convention in December.

★ ★ ★

Mr. Eisenhower said nothing about any federal "right to work" law or extension of the anti-trust laws to cover labor. Mitchell has said the President would oppose such measures.

In his message, the President pointed to disclosures of "corruption, racketeering and abuse of trust and power in the labor-management field." He recalled that the AFL-CIO has launched a campaign to rid labor ranks of corruption.

Mr. Eisenhower stressed, however, the importance to workers and the public "of preventing the impairment of the individual rights of employes and of the fact that voluntary action is inadequate in this respect . . ."

His program would require:

—The registration and detailed annual reporting to the labor department of all health, welfare and pension plans, whether administered by employers, unions or jointly,

—All labor organizations to file with the labor department annual financial reports which would be made public, to "maintain proper financial books and records open to the scrutiny of all of their members," and to authorize suit against labor officials who mishandle funds.

—All labor organizations to file yearly with the labor department detailed information on their constitutions, by-laws and procedures, and to show that their members have the right to elect local officers by secret ballot at least each four years and national officers either by secret vote or through delegate bodies.

Courthouse Fund Reduced by Use for Welfare Cases

Money for the new courthouse appeared jeopardized today as county officials said they were forced to dip into the funds to help ease an increasing welfare load in Oakland County.

"We have gone into it very considerably," said Robert Y. Moore, Board of Auditors chairman.

Just how much of a $1,400,000 building fund has been depleted is uncertain, he said, because officials are still studying 1957 budget dispersions.

But a check of certain appropriations from the fund reveal that it has been sliced at least in half — because of welfare costs in addition to several other building projects.

One of the reasons for the increased welfare costs, Moore pointed out, is that the state cut its contributions to counties from 50 to 30 per cent. "And welfare cases are increasing," he added.

★ ★ ★

Having spent $1,137,000 on these cases last year, the official said the county is well into its 1958 appropriation of $1,050,000—some $87,000 shy of welfare costs last year.

Back in 1956, the county expended $664,000 for welfare cases.

County officials here and in other counties are fighting in Lansing for the state to resume its past load.

Whether this dip into a building fund was legal, was confirmed "tentatively" by corporation Counsel Harry J. Merritt. "My tentative opinion is that it is right," he said, "but its use is being investigated further by myself."

As an economy move, the Ways and Means Committee of the Board of Supervisors is expected to recommend tomorrow that a stop be put on hiring additional personnel "except where required by emergencies."

APPEAL PENDING

Pending in the state Supreme Court is an appeal by the county after a circuit court decision that the building fund had been swollen by illegally accumulated surpluses in various county departments.

Moore said there were "no other funds available" to use for welfare costs, for which he said an estimated $1,323,000 would be needed in 1959.

Starts New Life at 94

COLUMBUS (AP) — John Morgan, at 94, starts a new life today. Morgan is being released from Ohio Penitentiary. He will have a new suit — a gift of the state — a bus ticket to Cleveland and some $300 that has accumulated in his "personal account" at the penitentiary.

Better Bundle Up —It's Getting Colder

Temperatures are dropping in the Pontiac area. For tonight the U. S. Weather Bureau predicts colder weather with a low near 22 degrees.

★ ★ ★

Tomorrow will be mostly cloudy with little change in temperature. The high will be near 32. Light snow is likely by tomorrow evening.

Saturday's outlook is mostly cloudy with little change in temperature. Occasional snow, mixed with rain, is expected to end by evening.

The Weather Bureau's five-day forecast predicts temperatures will average about 4 degrees below the normal high of 33 and low of 19. Snow flurries are expected every day through Monday.

★ ★ ★

The lowest recorded temperature in downtown Pontiac preceding 8 a.m. was 22. At 2 p.m. the mercury stood at 31.

Who Controls? Asks Clay

WASHINGTON (INS) — Gen. Lucius D. Clay declared today that civilian control of the sprawling Defense Department is "so widely diffused as to be almost non-existent."

Klansmen Go to Prison

GREENVILLE, S. C. (AP)—Four Ku Klux Klansmen convicted in the beating of an aged Negro man were sentenced to prison terms here today.

Near Settlement of Hoffa Suit?

Rival Attorneys Confer With U.S. Judge Trying Contested Election

WASHINGTON (AP)—Rival attorneys conferred today with the judge trying a suit aimed at upsetting the election of James R. Hoffa as president of the Teamsters Union. Rumors spread that a settlement was near.

On leaving the session in the chambers of U.S. Dist. Court Judge F. Dickinson Letts, the opposing attorneys declined comment except to say they would return later in the day. The trial currently is in recess.

Thomas J. Dodd, one of the lawyers for 13 New York area rank-and-file Teamsters who brought the suit, said "I can't talk about it." Then he added: "I'm always hopeful."

Asked by reporters for his comment, Edward Bennett Williams, attorney for the union, replied: "Nothing."

★ ★ ★

In asking for a recess of the trial this week, the lawyers told Judge Letts they intended to work on various stipulations of fact with a view to shortening the trial.

Rumors, however, started that the lawyers might be given more attention to a possible compromise settlement. The hurried conference with the judge lent some credence to this speculation.

The executive board of the Teamsters is meeting here today.

Reliable sources said today that a three-man trusteeship will be set up to run the giant Teamsters Union until a new election is held.

The trustees would supplant James R. Hoffa as controlling head of the 1,500,000-man union. The proposed arrangement would be part of a settlement of the lawsuit brought by 13 dissident Teamsters charged that it was a "rigged" election.

Hare Announces Two Changes in License Rules

LANSING (AP) — Two procedural changes in the method of reckoning or suspending driving privileges of Michigan motorists were announced today by Secretary of State James M. Hare.

They were devised to settle legal objections raised by Circuit Judge Marvin J. Salmon in ordering the state to restore a license to an East Lansing man whose license had been revoked.

Hare said the changes were made after consultation with Atty Gen. Paul L. Adams.

The court order had threatened to undermine the state's driver improvement program under which motorists with bad driving records are removed from the highways.

Henceforth, Hare said, formal "notices to appear" sent to errant drivers summoned for a hearing before a state examiner will inform them that they may be represented by an attorney and may present testimony and other evidence in their own behalf.

In addition, the notices will list reasons for the investigation and set a time and place for the hearing in addition to citing the driving violations as is now done.

Dr. Fuchs Leaves Pole

AUCKLAND, New Zealand (AP) — Dr. Vivian Fuchs and his British expedition left the South Pole at midday today to continue his transantarctic trek. If he makes it, he will be the first man to cross the antarctic continent overland.

35 From Pontiac Attend Convention

Pontiac's delegation at the UAW convention is 35 members strong, with seven delegates from Fisher Local 596, 17 from Pontiac Local 653 and 11 from Truck & Coach Local 594.

The local presidents — Harold Grant at Fisher, Charles Beach at Pontiac and Andy Wilson at Truck & Coach — all are delegates.

Union officials said the delegates are the same that attended last year's national convention.

12 Hours of Whittling Frees Elderly Pair

ANN ARBOR (AP) — An elderly couple who whittled their way out of a closet recuperated from their ordeal today while State Police sought the two men who locked them inside and made off with a watch and $40.

★ ★ ★

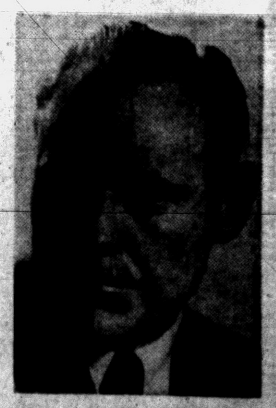

It took 74-year-old Christian Sautter more than 12 hours working with a jackknife to free himself and his wife, Ida, 73, from their Bridgewater Township home closet.

Mrs. Sautter lay bound with ropes throughout the ordeal while her crippled and partly paralyzed husband cut through the oak door.

131 Will Receive Diplomas at Pontiac Central Tonight

One-hundred and thirty-one members of Pontiac Central High School will participate in graduation ceremonies tonight at the high school.

Dr. George L. Miller, professor of secondary education at Wayne State University, is scheduled to address the class on "The Significance of This Hour," The exercises will begin at 8 o'clock in the boys' gymnasium.

DR. GEORGE L. MILLER

Miller is a former director of admissions at Wayne, teacher and assistant principal in Ann Arbor, and department head and supervisor of social studies in the Detroit public schools. He has taught summer courses at Eastern Michigan College and Atlanta University.

Glenn Griffin, president of the Board of Education, will preside over the ceremonies and Dr. Dana P. Whitmer, superintendent of schools, will award the diplomas.

Music for the processional and

BULLETIN

WASHINGTON (INS)—The executive board of the huge International Teamsters Union today unanimously agreed to accept supervision by a three-man board of monitors.

The three monitors would oversee the union for at least a year until a strictly supervised election could be held.

It was reported that under the compromise Hoffa would be allowed to take office as president.

New Facilities of City Court to Be Dedicated

Members of the Oakland County Bar and the public will participate in dedication ceremonies of the new Municipal Court facilities in the Public Safety Building at 3:30 p.m. Friday.

★ ★ ★

Philip Pratt, vice president of the County Bar, will preside at the one-hour meeting which will feature brief talks by Circuit Judges Clark J. Adams and H. Russel Holland.

Other speakers will include Pontiac's first municipal judge, Milton Cooney, and the present judges, Cecil B. McCallum and Maurice E. Finnegan.

Henry Woolfenden, representing the American Bar Assn. will present a National Traffic Safety Council award to the city. It will be accepted by Mayor William W. Donaldson.

Savings, Loan Assn. Reports Growth

Capitol Savings and Loan Assn., with a branch in Pontiac at 75 W. Huron St., reports substantial growth during 1957.

★ ★ ★

According to A. Taylor Menzies, vice president and Pontiac Branch manager, the firm's assets increased $4,291,399 during the past year, while the increase in members' accounts jumped by $3,993,190.

The association's total assets, Menzies said, are now $41.5 million, with total reserves over $4 million.

Locally, the loan association has some $9 million invested in first mortgages in the Pontiac area, he added.

Elected at Birmingham

Charles Wiggins has been elected president of the Birmingham Association of Insurance Agents. Other officers are James Moore, vice president; Lawrence MacKay, secretary; and Frank W. Whitson, treasurer.

Add Up Korean Bonuses

LANSING (AP) — State bonus payments to Korean veterans now total $57,275,[illegible], the state adjutant general's office reported today.

Know the Weather

By E. H. SIMS

Do trees tend to grow to the right — that is, does their grain lean to the right, so to speak?

We already know that there is a right "force" in this hemisphere, which makes rivers cut more sharply into their right bank, which makes projectiles veer right and which makes ocean current swirl to the right. Weather is affected by it.

These tendencies are reversed in the southern hemisphere, where things veer to the left. As for trees, this claim has never been proven. Many believe the grain leans right in this hemisphere.

But the answer to the question above must be qualified: maybe. Study the grain in trees you cut, or see, which have been cut, and see that you think.

Her Death Seen as No Accident

Two Testify in Hearing Prior to Murder Trial of Frank Henson

A coroner and pathologist testified yesterday that the Dec. 23 death of 57-year-old Mrs. Frank W. Henson of Hazel Park was not an accident.

★ ★ ★

Dr. Malcolm C. Young, pathologist at William Beaumont Hospital, and Dr. Ernest W. Bauer, Hazel Park coroner, were the first to testify in the pre-trial examination of Mrs. Henson's husband, who is charged with the slaying.

George F. Taylor, chief Oakland County assistant prosecutor, said he expected the testimony before Hazel Park Municipal Judge Robert C. Baldwin to conclude today.

Scheduled to take the stand today were police officers called to the scene at the Henson home at 62 W. Maxlow St., where Henson, 54, discovered his wife's body on the kitchen floor. Authorities at first believed the death was either an accident or suicide.

★ ★ ★

Later a second-degree murder warrant was issued against the former factory worker when investigation disclosed evidence indicating otherwise, officials say.

Hit-Run Driver Bound Over

Wooter to Be Arraigned Feb. 3 in Circuit Court in Fatal Accident

A factory worker who admitted driving the car that killed a 67-year-old woman pedestrian was bound over to Circuit Court yesterday on a charge of leaving the scene of a fatal accident.

★ ★ ★

If convicted, George Wooter, 40, of 249 Harrison Ave., could face a maximum penalty of five years in jail. He will be arraigned Feb. 3 in Circuit Court. He waived examination before Municipal Court Judge Cecil B. McCallum.

Wooter was arrested Tuesday when police officers spotted his car parked behind his house. It fitted a witness' description of the car that struck Mrs. Annie Gilmore, of 456 Harvey St., Friday night.

Mrs. Gilmore died Monday morning of her injuries.

★ ★ ★

Witnesses said the driver had stopped to pick up a piece of chrome trim that was knocked from the vehicle and then drove off.

Nats Trade Runnels for Zauchin, Rookie

WASHINGTON (INS) — The Washington Senators today traded veteran infielder Pete Runnels to the Boston Red Sox for rookie outfielder Albie Pearson and first baseman Norm Zauchin of Royal Oak.

★ ★ ★

Runnels, with the Nats since 1951, batted .230 in 134 games last season. He played every infield position during the season and put in a short stint in the outfield.

Supervisors Meet Friday

County Seat Issue Again Before Board

Royal Oak's request for a special election on changing the county seat from Pontiac to Royal Oak, and funds for a Clinton River sewage disposal system are two major topics slated for the January session of the Oakland County Board of Supervisors tomorrow.

Royal Oak's city commission and chamber of commerce made the request for the special election a year ago, and it has been studied in committee since then.

★ ★ ★

A "hold" order on $20,000 in county funds to finance a Clinton River sewage disposal system study will be asked.

The Ways and Means Committee is expected to propose withholding the loan until five townships—Waterford, Avon, Pontiac, Independence and Orion—indicate they will repay the county "should the project fail."

The proposed system, endorsed by the Board of Public Works last December, is designed to serve the Clinton River basin from Waterford Township to the Macomb County line.

Supervisors from the five townships approved the plan in November.

★ ★ ★

Another sewage matter will also come before the supervisors when they convene tomorrow.

A resolution will be presented seeking approval of a $4,900,000 general obligation bond issue to finance the Farmington interceptor sewer project.

★ ★ ★

If three-fifths of the 79 supervisors pass on the proposal, the county Department of Public Works would then petition the Michigan Municipal Finance Commission, according to Harold K Schone, acting department director.

He said construction plans are complete for this project and its sister project, the Evergreen sewer system.

"All our contracts with the communities in the first are signed," he said, "so we are ready to go ahead."

Pending still are contracts with Detroit which will serve as the drainage outlet for the twin project.

Other items waiting action tomorrow include:

Setting special elections for an incorporation of Novi as a village and for annexation of 447 acres to Oxford.

★ ★ ★

Recommendation of the Health Committee that three hospitals be considered for housing emergency mentally ill from the county.

That $50,000 from the contingent fund be advanced to the road commission for local road work this year.

Appropriation of $15,000 in order that micro-filming of county records can begin.

Venezuela Ousts Perez Jimenez

(Continued From Page One)

to appoint a new civilian government.

The junta took over Caracas radio to announce the fall of Perez Jimenez.

Newspaper editors were asked to return to their offices to publish extra editions, the first uncensored reports for 10 years.

Larrazabal's four junta colleagues represented the air force and three key army branches. They were Cols. Abel Romero Villate, Roberto Casanova, Pedro Jose Quevedo and Carlos Luis Araque.

★ ★ ★

Gen. Hugo Fuentes, leader of the New Year's Day air force revolt which failed, was expected to have a high position in the interim government.

HELD PRISONER

Fuentes and others had been held prisoner in the luxurious Humboldt Hotel atop Avila Mountain, which can be reached only by cable car.

The Caracas radio urged all exiled political foes of Perez Jimenez to return to Venezuela.

The military announcement called the uprising — which began as a general strike on Tuesday by workers, students, businessmen, and journalists and supported by the clergy — a complete success.

The toll of dead and wounded was not immediately known. Unofficial reports estimated deaths at more than 100 and the wounded at more than 1,000. Hospitals in Caracas were filled with the wounded.

Details of the rebellion were hidden by heavy censorship since Tuesday, but early this morning Radio Caracas announced the strongman who had ruled the oil-rich nation for a decade had fled.

The early report from the radio said a "civilian-military junta," apparently under the influence of young army officers and newspapermen, would form a government.

The junta which actually replaced Perez Jimenez is composed of Larrazabal and four colonels.

Caracas showed scars of the two days and night of heavy fighting. Scores of buses and automobiles and several buildings had been burned. Pock marks from tank cannon and heavy machine gun shells marked several areas.

A lieutenant of former Argentine dictator Juan Peron, who has been living in Caracas, was captured by rebels at secret police headquarters and reportedly confessed that he and other Peronists had been working for Perez Jimenez.

News Flash

ARLINGTON, Mass. (INS)— two jet planes traveling at better than 500 miles an hour collided this afternoon over nearby Boston Harbor. Two fliers were carried to their deaths in the flaming wreckage of one of the aircraft, which crashed and exploded in the yard of John A. McNeil, in Arlington Heights.

UAW Delegates OK Profit-Sharing Plan

(Continued From Page One)

vote on the profit-sharing plan shortly after noon.

The UAW president appeared confident that he had ample strength among the 3,000 delegates to win approval of the plan.

It would give the auto workers a one-quarter slice of a company's profits over 10 per cent on net capital before taxes.

In an hourlong opening debate on the plan, the redhaired labor chief bristled at a delegate's suggestion that it "appears we're serving as a rubber stamp."

The criticism came from Lewis H. Michener of Long Beach, Calif. He said the 1958 bargaining program should have been worked out in the convention instead of being publicized before the delegates convened.

Reuther retorted, "We only told you our thinking. The companies rejected our thinking. We could have been criticized justly if we had not given you time to think it over."

Reuther announced that General Motors President Harlow H. Curtice had rejected the union's invitation to address the convention on what he believed should be its bargaining goals this spring.

★ ★ ★

The delegates listened politely as Reuther's administrative assistant Jack Conway, read Curtice's letter.

Curtice urged the convention to "adopt a wage program tailored to the economic facts of life" instead of demanding a share of profits.

Curtice said, "I can make our position clear without a personal appearance."

He renewed a proposal he made last fall that the present three-year contracts, which run out around June 1, be extended for two years.

★ ★ ★

He said this would mean an increase in the basic wage rates of 6 cents an hour or 2½ per cent of wage rates, whichever is greater, on May 29 and a like increase a year later, or a total increase in basic wages of at least 12 cents an hour over a two-year period."

Earlier, in keynoting the convention, Reuther said, "Mr. Curtice was the first to reply rejecting our proposal. He said it was foreign to the free enterprise system . . . He said it would undermine confidence.

"I fail to understand how giving every GM worker 30.8 cents more per hour in profit sharing and giving every consumer a rebate will undermine their confidence. I think it will spread confidence by giving people employment and purchasing power."

★ ★ ★

Reuther used charts to illustrate how GM workers would benefit under profit - sharing. One chart showed a huge cake with candles.

"This is a kind of birthday cake," Reuther said. "We thought of this because GM was celebrating its 50th birthday and we wanted to get in the spirit of the occasion. We have a big birthday cake here and it is marked, 'if this were the 10th anniversary of the UAW bonus plan in General Motors alone, five billion six hundred million dollars in more purchasing power would have been shared by workers and consumers.'"

★ ★ ★

The convention unanimously adopted a resolution urging President Eisenhower to call a national full-employment conference.

Flint Man Ruled Insane in Wife-Slaying Trial

FLINT (AP) — A Genesee County Circuit Court jury has acquitted James H. Fisher, 42, by reason of temporary insanity, of a first degree murder charge in the slaying of his wife Aug. 7.

The jury returned its verdict last night after 3¾ hours deliberation, ending a six-day trail.

Fisher's wife, Maxine, was shot during an argument at the couple's Flint home.

Circuit Judge Stephen J. Roth ordered Fisher remanded to the Ionia State Reformatory.

Churchill's Art Shown in U.S.

One-Man Exhibition in Kansas City Attracts Large Crowd

KANSAS CITY, Mo. (AP) — An exhibition of 35 oil paintings by Sir Winston Churchill drew 1,221 persons to the William Rockhill Nelson Gallery of Art last night.

It was the first time Sir Winston's paintings have ever been displayed to the public in a one-man show.

The sponsors cabled compliments to the famous British statesman:

★ ★ ★

"Your pastime paintings have delighted the largest audience ever to attend an exhibition opening at the gallery. Please accept our sincere gratitude for honoring America, our city and the museum with the loan of this distinguished collection," the cable said.

★ ★ ★

The attendance was high despite icy, snow-packed streets and a thermometer reading of 23. The worst blizzard in 46 years dumped 15 inches of snow here Monday night and Tuesday.

The paintings — landscapes, seascapes and still lifes—will be shown in eight other cities in the United States and Canada after the show closes here Feb. 2.

President Eisenhower sent a telegram for the opening ceremonies.

★ ★ ★

"In authorizing a representative group of his paintings to tour our country, Sir Winston has paid America a great compliment," he wired, "I send my greetings and best wishes to all who made the exhibition possible."

Sir Harold Caccia, British ambassador to the United States, came from Washington to open the show.

131 Will Graduate From High School

(Continued From Page One)

pre-commencement program will be provided by the PCHS Band under the direction of Dale C. Harris.

★ ★ ★

Francis W. Staley, principal, is slated to present the awards to outstanding graduates. The Rev. Joseph Chapman of Bethany Baptist Church will deliver the invocation.

★ ★ ★

Below is a list of the graduating class:

★ ★ ★

Those graduating include:

Shirley Allen, Willie Amerson, Elisabeth Andrews, Elizabeth Arnold, Susan Arnold, Clay Baker, Jeanette Ball, Virginia Barron, Carroll Beaty, Georgia Bedford, Jeannette Brattain, Barbara Breeze, Archie Brooks, Lois Brown, Wilhelmina Brown, Era Bryant, Joanne Burkhart, Rosemary Burns, Merrie Cantarella, Kenneth Card, David Cartier, Charles Chandler, James Chapman, Judith Claus, David Coleman, Sammy Coleman, Lynn Colwell, Neil Craig, Ida Bell Daugherty, Michael Denihan, Frank DiCea, Carolyn June Dilldine, Cecil Dumbrigue, Janet Dunn, Phyllis Dusten, Marie Dworin, Carol Easton, Richard Elsholz, Jeanette Enfield, David Ferguson, Delene Fields, Kay Fink, Manitta Foster, Jack Freed, Elaine French, Johnnie Green, Harold Hanson, Michael Hardiman, Larry Harp, Robert Harrison, Joppa Haskins, Beulah Hayward, Janet Hendley, Leon Hendricks, William Hertel, Mervin Hickman, Loren Hines, Jeanne Hunt, Roberta Hunt, Carolyn Hurst, Anna Jackson, Yvonne Jennings, Marvin Johnson, Wesley D. Call From Pontiac Brings FBI Arrest

Eight days ago, a man picked up a telephone in Pontiac, called another man in Chicago and demanded $5,000 in exchange for protection from a fictitious Federal Bureau of Investigation raid, the FBI said today.

★ ★ ★

The caller himself was arrested by FBI agents yesterday in Chicago and identified as Lawrence B. Gould, 28, of Chicago. Gould was charged with using interstate wires to defraud a former employer.

Agents said he told the employer over the phone that the FBI was planning to raid his salvage firm on suspicion that it was disposing of stolen cars.

Gould further said, according to agents, that he had influence with the FBI and could get the raid called off.

★ ★ ★

Gould was arrested when he appeared at the firm to get an envelope containing half of the $5,000.

The Day in Birmingham

C. of C. Sets Up Group for Business Development

BIRMINGHAM—Looking toward the economic future of the city, the Birmingham Chamber of Commerce has formed a business development committee.

John W. Knecht will serve as chairman of the committee which includes George Averill, Carson Bingham, Clarence Blenman, John Maynard, Frederic Pew and Richard Wilson, chamber president.

They will make a thorough study of business conditions in the city.

The committee is being asked to develop a program designed to attract new retail businesses of a type which would be "pullers" of customers.

"The Chamber of Commerce feels that in the future outside competition is going to increase. There presently are enough parcels of attractive real estate available and the customer potential is here," Wilson said.

★ ★ ★

He added that if Birmingham is to survive and retain a healthy economic condition, these facts must be made known so that other businesses will be willing and eager to locate here.

Larceny from a garage is an often repeated entry in current police records, according to Birmingham Detective Lt. Merlin Holmquist. "This particular type of crime appeals mainly to youngsters," he said.

"It is attractive because it involves no breaking to gain entry and because of the type of items that are available," Holmquist said.

"Youngsters are taking food from food lockers, soft drinks, beer and liquor. Once in a while they find a camera or gun in the glove compartment of a car," he said.

Holmquist recommends that householders keep garages locked at all times. He suggests that food lockers, other storage places and cars be locked.

He asks that the suspicious cars or persons be reported immediately.

Birmingham Chapter of the Order of Eastern Star will mark the order's 60th anniversary Wednesday with a 6:30 p.m. cooperative supper, followed by a special meeting and initiation at 8 o'clock. Both the dinner and meeting will be held in Birmingham Masonic Temple.

In addition to initiation, the meeting will honor past matrons and patrons as well as charter, life and honorary members of the chapter.

Sunday, the OES has scheduled officers' practice at 3 p.m. in the Masonic Temple.

A newly formed supper group, the Pyads, Presbyterian Young Adults, will hold a get-acquainted meeting at 8 p.m. tomorrow in the First Presbyterian Church social hall.

Mr. and Mrs. Robert Girardin are in charge of the group, which is composed of young married couples.

Sees Way to Erase State Budget Deficit

(Continued From Page One)

and simple means of getting money into the state's general fund, and that is the problem of the moment."

The Conlin plan was unfolded in a statement to newsmen at the end of a day of mysterious activity on the part of majority House and Senate Republican leaders.

HELD CONFERENCES

They conferred at GOP state headquarters, three blocks from the Capitol in the morning. The all-Republican joint audit and appropriations committee held an afternoon session.

Lawrence B. Lindemer, Republican state chairman, and Arnold J. Levin, GOP state committee publicist, lingered in the House chamber and its environs.

To close the gap between state treasury income and outgo, Conlin, like Williams, counted on unfreezing about 10 million dollars in idle cash, mostly in the hospital bond interest and redemption fund.

Some of the legislation necessary to accomplish this already is in the works.

Earlier in the day, Williams reported a slight brightening of the state's financial picture, chiefly due to higher than estimated yields from public utilities taxes and an upturn in expectations of yield from other comparatively minor state taxes.

20 Begin Training as Auxiliary Police

Twenty more Waterford Township men began a 10-week training course in auxiliary police and Red Cross first-aid work last night at the Township Hall.

★ ★ ★

State Trooper Gerald Tafel will supervise the new men and the 21 graduates of the fall classes will serve as instructors for the course, according to Lloyd Gidley, assistant civil defense director.

★ ★ ★

He added that more men are needed for this type of work. They may enroll at the next meeting to be held at 7:30 p.m. Wednesday and each succeeding week until Feb. 26, when the class will be graduated.

LeBaron School Cubs Get Scouting Awards

Cub Scout Pack 66, of LeBaron School met last night and awards were given out by Cubmaster Lee Cotter to Larry Shefield, Dennis Farnsworth, Gregory Butler, Charles Laflin, Terry Weir, Billy Chapman and Bobby Church.

★ ★ ★

Howard Kuhn and Charles Esralian were graduated from the Cub Scouts, and four den mothers and 17 cubs received their one and two year pins. Several dens put on skits.

Two Admit Loitering in City Gambling House

Two persons pleaded guilty yesterday in municipal court to loitering in a gambling house.

Judge Maurice E. Finnegan fined Verna Lee Van, 32, of 499 Highland Ave. and Robert Lyons, 34, of 546 Montana Ave. $15 or three days in jail.

The pair was arrested in a Jan. 11 raid at 501 Harvey Ave.

35 Dead in Storm's Wake

Winter Lashes Northeast

CHICAGO (INS) — The winter's worst storm, which left at least 35 persons dead from the Great Plains to the Great Lakes, lashed the northeast section of the country with winds up to 50 miles an hour, snow and rain as it moved into the Atlantic today.

While parts of Kansas, Missouri, Iowa, Illinois, Wisconsin and Southern Michigan dug out from under a snow blanket a foot or more thick, a possible successor to the storm was intensifying over northern Mexico.

The forming disturbance spread rain northward into Central Texas and dumped two inches of snow on the Lone Star town of Alpine.

Snow also continued to fall in the Colorado Rockies, western Kansas, the Dakotas and portions of the Upper Mississippi valley.

Skies were cloudy and there were widely scattered showers or snow flurries in the Northwest.

CLEAR IN SOUTHWEST

By contrast, the weather was clear in the far Southwest.

Temperatures fell during the night in the eastern third of the nation and from the extreme northern plains southwestward through the northern Rockies and into the intermountain region.

A warming trend was noted over the Great Plains and the northern Great Lakes.

The rain in Texas was expected to continue and gradually spread eastward through the Gulf States to the South Atlantic Coast by evening.

★ ★ ★

Scattered snow flurries will continue in the higher Rockies and spread slowly southward through the northern plains into the Great Lakes region.

Light snow also will continue to fall in portions of the Appalachians and northern New England, but it will clear and become colder along the north Atlantic coastal section.

Mostly fair and cool weather will extend south to the Carolinas.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Colder tonight, low near 22. Tomorrow mostly cloudy with little change in temperature with light snow likely by tomorrow evening, high near 32. Southeasterly winds 10-20 miles an hour, becoming light variable tonight.

North and South Dakota got their names from the Dakota Indians. Dakota is an Indian word for "allied."

Gaillard Receives Vote of Confidence

PARIS (AP)—A two-day National Assembly debate on foreign affairs ended last night with a 343-224 vote of confidence in Premier Felix Gaillard's government.

★ ★ ★

The endorsement of Gaillard's foreign politices came after both the Premier and Foreign Minister Christian Pineau told Parliament France must arm with ballistic missiles able to strike Soviet bases.

Referring to Soviet warnings to Western European nations not to permit U.S. missile bases, Gaillard asked: "Why should those in the other camp who possess these missiles already, and who doubtless have them already intalled, forbid us to possess them ourselves?"

★ ★ ★

Pineau said no agreement has been reached by France on a U.S. offer to install intermediate range missiles in NATO nations. Before the government would agree to admit the missiles, he said, France would insist on a veto over their use.

Gaillard told the deputies the Soviet Union must give concrete promises not to seek new zones of influence before any East-West summit meeting can be held.

★ ★ ★

Military problems of the three-year-old Algerian rebellion are practically solved, Gaillard asserted, and the rebellion will die out if left to itself. The Premier was sharply critical of Tunisian support of the rebels.

Add 3 Cities in State With Surplus Labor

WASHINGTON (AP) — Three Michigan cities—Battle Creek, Benton Harbor and Marquette—have been added to the U.S. Labor Department's list of areas with surplus labor problems.

Battle Creek was added to group D which includes cities with 6 to 8.9 per cent of the labor force unemployed. Benton Harbor and Marquette were added to the list of smaller areas with substantial labor surpluses.

Muskegon, classified as having a substantial surplus in November, was moved into a category denoting even greater unemployment (9 to 11.9 per cent).

Designation as a labor surplus area entitles industries there to preference in obtaining government contracts.

2 Get $100 Fines Here for Drunk Driving

Lloyd R. Haukedahl, 34, of 78 Poplar St., was found guilty of drunk driving yesterday by Municipal Court Judge Cecil B. McCallum. He was fined $100 or 20 days in jail.

Richard L. Gibson, 29, of 244 W. Longfellow St., was found guilty of drunk driving. Judge Cecil B. McCallum fined him $100 or 20 days in jail.

The term of "English" walnuts developed because the nuts were carried in early commerce in English ships.

Junior Editors Quiz on SCIENCE

QUESTION: Are lefties as able as right-handed persons?

★ ★ ★

ANSWER: Doctors often have wondered what makes a person left-handed. Heredity is not the answer, they say, but they believe it may be caused by a habit formed soon after a child is born.

Pediatricians advise that if a child shows left-handed tendencies, he should be encouraged to do things with his left hand. It's easier for him that way.

Studies show that a left-handed person is no less and no more effective than a right-handed person. They point to many top musicians and athletes, especially baseball players, as examples of how effective a leftie can be.

★ ★ ★

FOR YOU TO DO: A good way to disguise your writing for use in secret communications is to write with your left hand, if you are right handed. Try it and see how successful this is—and how hard.

★ ★ ★

(Today's award goes to M.E. Reynolds of Delavan, Wis. You might win $10 by submitting a question on a postcard to Violet Moore Higgins, AP Newsfeatures, care of this newspaper. Tomorrow: Was there really a Capt. Kidd?)

(Copyright, 1958)

Travels About White Russia

Nikita Peps Up Farmers

MOSCOW (INS)—Nikita S. Khrushchev, who is supposed to be vacationing, is traveling about White Russia giving pep talks to farm workers.

The Communist Party boss participated in a conference of collective farm managers Tuesday night. Reports reaching Moscow said he repeated his determination to surpass the United States in per capita production of meat, butter and milk.

"Everything is good," Khrushchev said, "but there is still little milk."

American Navy Is Popular With Scottish Girls

GLASGOW — Hundreds of girls in the West of Scotland take an afternoon off and go man-chasing, now and then.

This is when American sailors come ashore from the visiting NATO fleet and make for Glasgow, Greenock, Ayr and other towns. Droves of excited teenagers wait for the Yanks and within minutes of arrival, many sailors have girl friends.

★ ★ ★

Cocktail bars, dance halls and hotel lounges are soon filled with free-spending gobs and girls — appalling many local people. A newsman recently asked some of the girls why they welcomed the Americans so heartily.

"Why shouldn't I go for American boys?" one asked. "They sure know how to enjoy themselves — they sure do."

Eyebanks in Canada have recently made 80 successful corneal transplantings.

Bob Considine Reports:

Ku Kluxers Can't Tell Indians Where to Go!

NEW YORK (INS)—Ella Logan, a gifted woman with strong feelings about justice, was delighted by the attack those Carolina Indians made on the Ku Kluxers, sending the hate merchants scampering in all directions, nightsheets flying.

★ ★ ★

"Clucks like those Kluxers always like to say, about people they don't like, 'Why don't you go back to Africa, or Israel, or Rome?'" the singer told us. "But what can they say to these Indians?"

A recent reference here to Ayn Rand's best seller, "Atlas Shrugged," and a warning that it had nothing to do with our long range missiles snafu, prompts Jack Anson Finke of CBS to write:

★ ★ ★

"Whit Burnett, editor and anthologist, had just published his arch book, 'The Literary Life And The Hell With It.' Spotting an unfamiliar bookstore during his daily walk, he thought he might take a moment to spur on the sales of his masterpiece. Entering the shop and approaching the young girl clerk, he asked importantly for a copy. The clerk disappeared, then returned some minutes later, empty-handed and regretful.

"'I'm sorry, sir,' she said, 'We don't have either.'"

Stamp collecting is the No. 1 hobby of the nation's youngsters, the American Hobby Federation declares after poking a quivering nose into 3,180 hobby and recreation clubs with a membership of 175,000. Dolls (toy dolls, that is) rates second. Match boxes rate ninth, we are relieved to report.

As for food preferences, the moppets cast a caterwauling vote for hamburger. Scattered returns rated the remaining nine this way: chicken, lamb stew, pot roast, frankfurters, roast beef, ham, turkey, pork, steak.

Genuinely alarming, I'd say. Ford Frick and others will be concerned to read that the boys, when questioned about their five favorite sports, listed them in this order: basketball, football, swimming, ice skating and—last—baseball. The girls didn't even give baseball a tumble.

Norway Reforesting

OSLO, Norway — Reforestation of Norway's coastal areas has increased fivefold in the past six years, according to Toralf Austin of the Ministry of Agriculture. The west coast plan for reforesting 900,000 acres in 60 years is so far ahead of schedule, he said, that the program is likely to be completed in 40. Under the long-range plan 1,250,000 acres will be planted, mostly with spruce trees. This will require 1,800,000,000 saplings.

Receives Minor Injuries in Pontiac Trail Crash

Clifton C. Scheall, 21, of 4260 Baza Rd., Leonard, received minor injures when he lost control of his auto yesterday and struck a tree on Pontiac Trail east of Haggerty Rd., in West Bloomfield Township, according to Oakland County Sheriff's Deputies.

★ ★ ★

Scheall was reportedly traveling at about 50 miles per hour when the accident occurred, said deputies. He was treated at Pontiac General Hospital for facial cuts and released.

Calls Upon Ike to Mobilize U.S.

Sen. Fulbright Insists 'Uncertain Call From Trumpet Won't Do'

WASHINGTON (AP) — Sen. Fulbright (D-Ark) said today President Eisenhower must abandon "sugar-coated half-truths" and mobilize this country for a supreme effort to avert national disaster.

★ ★ ★

He said the challenge from Moscow requires work and sacrifice from 172 million Americans "which can be called forth only by a leadership with vision, with determination" and with "strength to follow through."

"An uncertain call from the trumpet will not do," he said in a speech drafted for Senate delivery.

★ ★ ★

"Important and drastic changes" are needed, he said, in both domestic and foreign policy.

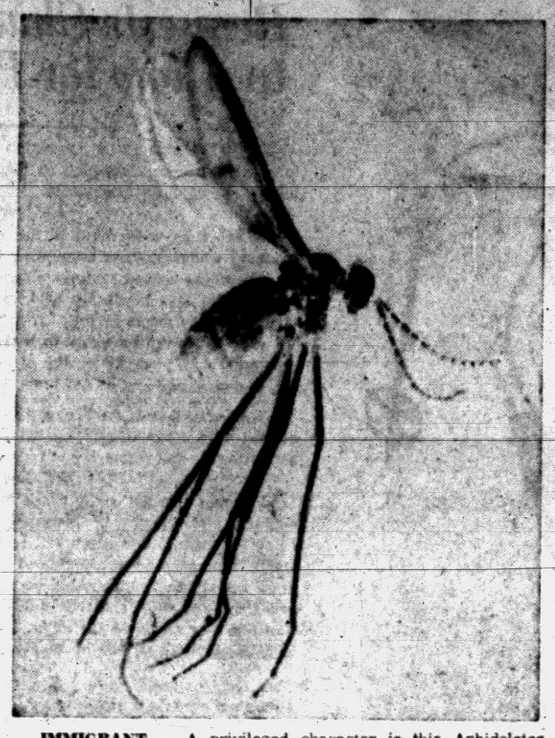

He said the confidence of the American people in their leaders has been shaken. An ever greater danger to the future, he added, is what he called "the serious erosion of respect for our strength and judgment" among free world allies.

★ ★ ★

"There is little doubt that we will meet the immediate problem of missiles and satellites," he said, but contended that the real challenge is posed by the Soviet emphasis on scientific education.

He suggested, as one step, that Eisenhower supplement his recently submitted 250 million dollar a year scholarship and counseling program with another 500 millions yearly to help the states finance a strengthened elementary and secondary school program stressing mathematic, languages, the natural sciences and history.

Body lice have lived on with human beings since long before the beginning of world recorded history.

IMMIGRANT — A privileged character is this Aphidoletes Thompsoni, who figuratively wears a "don't swat me" label. The "skeeter" is one of 1,800 imported from Czechoslovakia and colonized in Oregon and Washington to combat the balsam wooly aphid which causes gout-like swellings in silver fir. This unusual close-up photo of a "skeeter" in flight was taken by the Pacific Northwest Forest and Ranger Experiment Station.

Quiz, Release Slaying Suspect

Accountant Linked to the Wife of Murdered Flight Engineer

MINEOLA, N. Y. (AP)—A prosperous Utica, N. Y., accountant, who was questioned at length in connection with the slaying of Clyde Rose, has been released.

★ ★ ★

Nassau County Detective Chief Stuyvesant Pinnell made the statement in a morning conference with reporters at which he announced that the 30-year-old man, Arthur L. Jones, had been released.

Pinnell said: "The aura of a platonic relationship (between the 22-year-old Mrs. Rose and Jones) of which we had heard earlier has been destroyed."

When a reporter asked, "Couldn't they have been arraigned on some charge, like adultery?" Pinnell replied, "I suppose that is possible, but there are times in this game when you play your cards as you find them. Gentlemen, I shall see you tomorrow."

Rose, a handsome, dark-haired flight engineer for Pan American World Airways, was found dead Monday in his car with two bullets in his chest.

The car was parked on a lovers' lane only a few blocks from Rose's home in Long Beach, near here.

The murder weapon was not found.

Pinnell said that "any one who had any connection with Rose is a suspect," but would not single out any individual.

★ ★ ★

Pinnell told reporters that Jones said Rose knew of the relationship between his wife and Jones. The Nassau County officer said Jones told him he had asked Rose to give his wife a divorce. What the answer was, if any, Pinnell did not disclose.

★ ★ ★

Jones is married and is the father of three. He is a supervisory accountant for the General Electric Co. and earns more than $10,000 a year.

Scalp cuts bleed more freely than cuts in other parts of the body.

Navy to Place Yeast Aboard Test Satellite

WASHINGTON (AP) — The Navy plans to send some living organisms into outer space. A few yeast cells will be aboard one or more of the test satellites U.S. scientists hope to launch soon.

★ ★ ★

A Navy spokesman said last night the yeast would be enclosed in a tiny instrumented container inside the satellite, and that the experiment might provide data on the reaction of life outside the earth's atmosphere.

The test satellites, forerunners of larger spheres which are scheduled for launching later, are only six inches in diameter, too small to accommodate any sizable living object.

Officials said there was no plan to place any living animal, even a small one, in the test spheres.

Gets Army Contract

CADILLAC (AP) — Kysor Heater Co. announced receipt of a $122,000 contract Wednesday for heaters to be installed in Army trucks. Ray Weigel, company president, said the firm was in its seventh year of manufacturing the truck-type heaters.

Marlon Brando's Wife Suffers Kidney Ailment

HOLLYWOOD (INS) — Marlon Brando's wife, East Indian actress Anna Kashfi, who is expecting a baby, is under treatment at the Cedars of Lebanon Hospital for a kidney ailment.

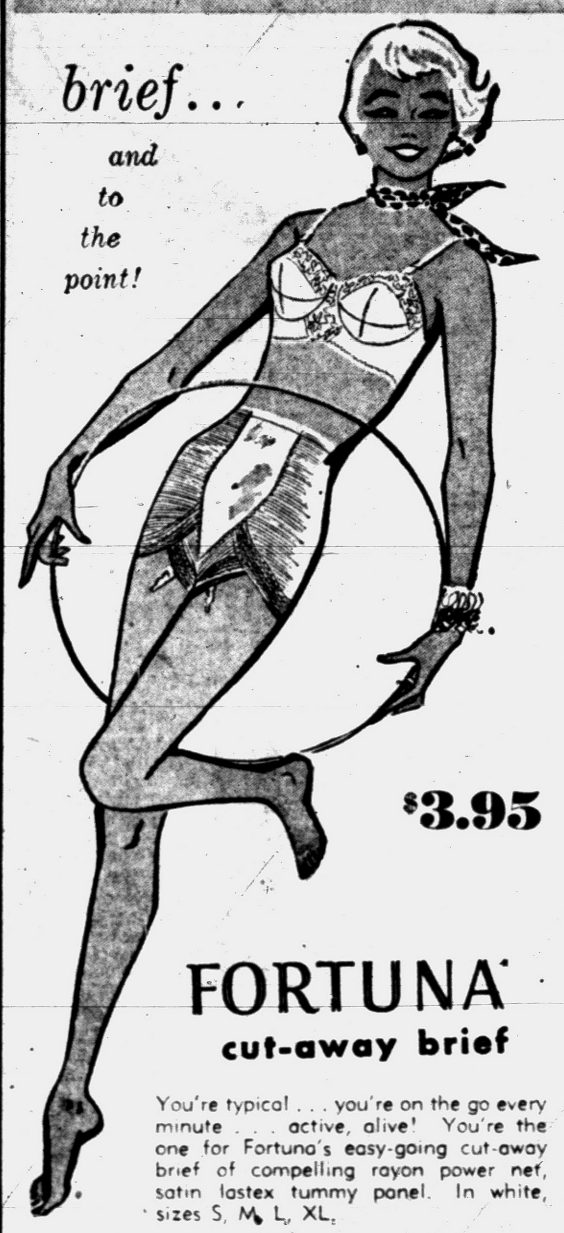

It was learned yesterday that she has been in the hospital for a week. She was rushed there last Thursday night after being suddenly stricken seriously ill while Brando was attending a dinner for a group of visiting Japanese film producers.

Brando hurriedly left the dinner and had his wife removed to the hospital immediately.

Panama to Ask U.S. for Half Canal Gross

Under a new agreement signed two years ago, Panama is receiving from the United States twice as much revenue from the canal as it did before.

Last year the total was $1.9 million. But Deputy Foreign Minister ERNESTO CASTILLERO recently told a university student congress that this isn't enough and that Panama should receive 50 per cent of the gross receipts. He said Panama was getting less than four per cent and the students, relying on his statements, passed a resolution endorsing the 50 per cent demand.

★ ★ ★

But Castillero wasn't quite honest in presenting his figures. The canal took in $88.7 million in gross receipts for the year 1956, the largest amount in peacetime. But the net was only $4.2 million after paying operating and maintenance costs. This does not include the cost of defending the canal or other related services which are not charged against gross receipts. The canal does not take in enough money to cover those.

★ ★ ★

As it is, Panama is getting almost 50 per cent of the net earnings. President ERNESTO DE LA GUARDIA admits this and his foreign minister is merely playing petty politics. No doubt the students' resolution will be hauled out to support the demand of a 50 per cent split when the Panama Canal Co. holds its annual meeting later this month.

★ ★ ★

The United States holds perpetual rights to build a canal across Nicaragua and studies are being made. This waterway would lessen dependence on the Panama Canal. We are not without our own weapons to meet the play of political opportunists.

Controlled Weather May Not Be Far Off

The satellite age is bringing renewed talk that man some day will be able to control the weather. This thought gives rise to several interesting considerations.

★ ★ ★

If the weather is brought under control, presumably it will be through some national or international government agency. What will happen if different nations' efforts along this line conflict? Will a planned rainstorm in the United States, for example, have any influence on the weather in Canada?

And how happy will the average person be with the weather his government produces for him? Not all of the governmental efforts at producing desirable services prove satisfactory, if we believe the comments we hear.

★ ★ ★

When one group wants rain, another may desire sunshine. It hardly seems likely, but it is possible that the time will come when political parties will campaign on the basis of the fine weather they will give the people?

Will the party out of power seek to win on the basis of the "terrible weather" that was experienced under the opposition? And will the States Rights issue be extended to the weather, and the ability to control it?

★ ★ ★

What if Washington decrees sunny skies for Wednesday and Lansing prefers a steady rain to aid growing crops? Will local option later on refer to water rather than liquor, with a choice of local showers in the midst of generally clear skies?

All these questions seem extremely fanciful today. Yet there is less of a tendency to scoff than there would have been a few short years ago. Science has wrought such wonders that no man can say, with certainty, what can or cannot be done.

★ ★ ★

It may be that CHAMBERLAIN'S umbrella was just a few years ahead of its time. And the time may come when the pen no longer will be called mightier than the sword, for both will have given way before the onslaught of the thermometer.

PREDICTIONS for 1958 greatly exceed those for any prior year from the standpoint of ifness, butness and howeverness.

The Man About Town

Compares Area

Visiting Governor Quite Amazed at Industry Here

School teacher: A person who passes her hand over a chair before sitting down.

When told that over 30,000 people are engaged in automotive production in Pontiac,

Governor Joe J. Foss

of South Dakota, speaker at the Eisenhower dinner here Monday evening, said, "I hardly think we have that many engaged in industrial work in my entire state. I hope your home folks appreciate what an important factor they are in our nation's existence."

To give my readers some statistics on the matter, I find that the population of Oakland County, with an area of 900 square miles, exceeds that of the entire State of South Dakota with over 85 times its area, or 77,000 square miles. Our county seat has over ten times the population of Pierre, its capital.

But the home state of Gov. Foss now leads the entire nation in gold production, and is among the first ten states in agriculture, having some individual farms that are larger than Oakland County.

That "black panther" which has put on a number of unscheduled appearances in the Pontiac area during the past few years evidently does not go into hibernation. A report phoned me by

Marcus Aldrich,

who drives in from the Dryden vicinity every night to work in a Pontiac plant, renews the mystery. He says a large black animal darted across the road in the big woods just north of Leonard. Mr. Aldrich stopped his car, and says the creature "howled back" at him from the forest. After reading this, the Detroit papers should have that animal caught, skinned and made into a fur coat within a couple of weeks.

The mayor of North Miami Beach, Fla., has appointed

"Sandy" Hastings,

former Pontiac mailman, as a member of the safety council of that city.

My good political friend,

Jim Farley,

whom I think is the nation's top gentleman and biggest man in the Democratic party, again has some hard luck, breaking his shoulder in a fall. At the last Democratic national convention he suffered a serious eye injury when struck by a piece of heavy cardboard—just after we'd had our picture taken together. He always calls Oakland County people "neighbors," because he has a daughter at Grosse Pointe.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

What Are the Odds?

David Lawrence Says:

GOP Rips Back on Defense Issue

WASHINGTON — This is a world of paradoxes—especially the world of politics. For weeks and weeks now, since the "Sputnik" started to circle the earth, the Democrats inside and outside of Congress have been castigating the Eisenhower administration for neglect of defense, for failing to have "bold and imaginative ideas" in foreign policy and for failing to exercise "leadership."

LAWRENCE

Now when Sherman Adams, assistant to the President, makes a lively speech of rebuttal, he is charged with being "partisan," and one leading spokesman for the opposition calls his remarks "mean and cheap."

One wonders what sort of "liberalism" prevails today when the "other side" isn't even supposed to answer back.

DEMANDS RESIGNATIONS

For two months now the Democratic partisans have had the field all to themselves. They have demanded the resignation of various cabinet officers. They have even been calling on President Eisenhower to "resign." Their disregard of courtesy to the President himself has gone beyond the usual limits of partisanship.

In politics a lie repeated without any denial comes to be accepted as truth. There have been so many charges of neglect on the missile issue flung at the administration that it was inevitable an indignant reply would be made. The mystery is why some of the Republicans in Congress haven't made it before this—they apparently are not strong in tactics of counteroffense.

So it remained for Sherman Adams to enter the lists. And he did quite a job in his Minneapolis speech. He didn't step down to the level of political combat hailed so exultingly by the Democratic partisans when Harry Truman turns loose one of his "give 'em hell" speeches. But he did an effective job nevertheless as he said:

★ ★ ★

"Nowadays, back in Washington, hardly a day goes by but that some armchair strategist intones doom for America. Nor hardly a day goes by but that some political soothsayer first proclaims, then bemoans, American weakness. Disaster is too mild a word to describe our pitiful plight.

"There is an interesting aspect to this. In large measure this professional shuddering comes from those whose attitude about defense has been dictated by political expediency. . . .

"But even so, they ought to know better than to keep on politicking with national defense. As a matter of fact, they ought to be called strictly to account by the American people for using this subject as party glue.

On the very afternoon before the night when the various political speeches by the Republicans were being delivered last Monday, statements were coming from the Democratic National Committee's Advisory Council belittling American foreign policy and lambasting the administration on defense matters.

Is all this "politicking" good for the country? Of course not. On the radio every night the Communists make wide use of the sniping comments about the administration's foreign policy uttered by Democrats and other critics. But in a democracy, where free speech and a free press are the rule, all things are discussed and hence the Republicans have the right of reply just as the Democrats have the right of attack.

There's one consolation for the Republicans. Harry Truman says that General Eisenhower was always pretty good prior to 1952 when he—the former President—could tell Ike what to do.

★ ★ ★

This seems to nullify all the nasty things the critics have been saying about Ike's willingness to let Stalin's armies occupy Eastern Europe and take over Berlin and all the alleged mistakes he made in agreeing with the other chiefs of staff that Korea was not a defense requirement of prime necessity to the United States.

Evidently these were not his own ideas at all but merely President Truman's orders. That clears the air—at least until the next salvo comes from the man from Missouri.

(Copyright, 1958)

Dr. William Brady Says:

Osler Cured 10 Million With Stroke of His Pen

Incidentally, unintentionally, without malice aforethought, Dr. William Osler himself cured 10 million Yankee snobs of chronic rheumatism with a stroke of his mighty pen, you might say, when he wrote, in his famous Practice of Medicine, in the chapter on chronic rheumatism:

DR. BRADY

"This affection commonly comes on insidiously in persons who have passed the middle period of life."

I believe the Oslerian concept of chronic joint disability (called rheumatism in his day) was nearer the truth than that of any of medical authority who calls chronic joint disability "arthritis."

★ ★ ★

In the section on morbid anatomy (pathology) of chronic rheumatism, Osler describes physical degeneration of the joint tissues—only he doesn't spell it out.

That's what chronic joint disability is—whether you call it chronic rheumatism or chronic arthritis — in the great majority of instances.

In a few instances, joint disability lasting more than a year is due to sprain or strain, or loose cartilage or other effect of severe or trifling injury. Inflammation and infection of the joint seldom lasts more than a year and therefore is not chronic.

If inflammation or infection of the joints were present it would be fair to call the affection "arthr-itis—a Greek-Latin word meaning literally joint inflammation.

★ ★ ★

Internal remedies are of little service, said Dr. Osler in the section on treatment of chronic rheumatism.

DRUGS OF LITTLE HELP

Neither aspirin nor any of the widely publicized "miracle drugs", has any curative effect on arthritis. Neither does diet, said the Arthritis and Rheumatism Foundation, in 1957.

Osler did mention one thing that the Foundation solicitors evidently deem unworthy. He said: "It is important to maintain the digestive functions and to keep the general health at a high standard."

There'll probably never be another Osler. But what a boon it would be for people with chronic joint disability if a doctor with Osler's medical wisdom and our newer knowledge of nutrition could write a textbook of Practice that would go through eight editions!

If you're wondering what the dickens I'm driving at, send me 35 cents and stamped, self-addressed envelope, in care of this paper, for the booklet Chronic Joint Disability and the pamphlet Calcium and Rheumatiz.

★ ★ ★

Signed letters not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright, 1958)

The Country Parson

"Love does to hate what light does to darkness—simply makes it disappear."

Voice of the People

Requests Change in Lights to Allow for Pedestrians

I heartily support the campaign of The Pontiac Press in its effort to alleviate traffic congestion on South Saginaw. It has focused my attention on one of my pet peeves.

★ ★ ★

What I have in mind is the congestion caused by pedestrians walking while cars are attempting to make righthand turns. For example, if you wished to make a right turn from Lawrence to go south on Saginaw Street, you are held up by the flow of pedestrian traffic. If you are the fourth or fifth car in line on Lawrence, you might have to wait two or three lights to make your righthand turn. A similar condition would prevail at any of the main downtown corners, Huron at Saginaw, Saginaw at Lawrence by the Pontiac State Bank, etc.

This condition is particularly bad on Friday nights and Saturday around noon. I would think the retail merchants would wish to end this as it must be very annoying for people attempting to shop downtown.

★ ★ ★

I have suggested many times to our Commissioners that a traffic engineer make a study of this problem, but apparently it is too complicated for them to straighten out. I have suggested that they change the "walk" and "don't walk" lights so that there is a 30 to 45 second walk in all directions. Traffic would be stopped in all directions to allow the pedestrians to walk and then a bell would ring and the traffic would flow one way and then the other. This is a system used in many very large municipalities, Miami, Florida, Pittsburgh, etc.

Robert G. Isgrigg

518 Community Bank Building

Second Complaint About Sewers

I am another Perry Park resident who agrees with Mrs. Fahrner. They send you a bill and call this improvement, when you can hardly get down the street without getting stuck. Cars can't pass on the streets because the men didn't fill in the holes they made. The City sure didn't waste any time sending the bill.

Mrs. J. Arellano

Cameron St.

I'm another disgusted resident in Perry Park. I don't mind paying for something either, if I'm satisfied. The storm sewers we are supposed to have are far from finished. They left roads in such a mess that I dread it every time I have to drive over them. I don't mind paying for any kind of improvements, but this is ridiculous. Improvements, they call it! ! ! !

Mrs. George McGlone

Cameron St.

'What We Need Is Less of It'

The man says we need socialism. The trouble is that we have too much socialism since we got the sales tax and income taxes, which let the Government into our pockets to the extent that a business man is just a glorified bookkeeper for the tax collector.

In 1906 the Federal budget was six tenths of a billion and they had 20 million left out of that. In those days we didn't have $20,000 houses and drive 50 miles to work in a $4,000 car and work 35 or 40 hours a week. We didn't have a $10 million booze bill and didn't smoke up 20 million acres of tobacco a year. That's why a man could be happy on one of those stump farms.

So when you feel poor, just think how rich you are with your shares in all these wonderful roads, public buildings, jet planes, rockets, bridges and vacant lots on the moon.

Fred E. Hyde

Holly

Suggests Solution to Guest Problem

I'm not a working wife, but I do get up at 4:30 a.m. to get my husband off to work at 6:15. I solve the problem of unwanted guests by just letting them know we don't go out or have company during the week. We're not bothered because I warn people ahead of time and tell them Saturdays and Sundays are O.K. but to call first. After all, people who work in stores, etc., don't have to get up until 8 a.m., or so, and they don't seem to get around to visit until 8:30 or 9 p.m. So come right out and say you have to work. They'll respect you more for it. If not, they aren't very good friends. It's worked for us the 10 years my husband has been on the early shift.

Case Records of a Psychologist:

Outlines Advantages of Teaching

Andrew's father is a dominant, go-getter who has picked Andrew's career for him. But I suggested a different vocation to meet Andrew's interest in people. We are acutely in need of teachers and clergymen in modern America, so you young folks should consider these topnotch professions for your careers.

By DR. GEORGE W. CRANE

Case X-310: Andrew J., aged 23, failed two of his courses in his first year at medical college.

DR. CRANE

"Dr. Crane, he doesn't like medicine," his distressed mother telephoned me from New York City.

"But his father has goaded him into it. Andrew has a high I.Q. and likes people, but he just doesn't have an urge to be a doctor.

★ ★ ★

"His father has deflated his ego by telling him he is a failure. So I wonder if you could give Andrew some positive advice and restore his morale."

VOCATIONAL ADVICE

Medicine is a wonderful profession but it isn't the ONLY one, by any means.

And this country is more in need of school teachers and clergymen, as well as trained youth leaders like YMCA Secretaries, than it is of physicians.

So you talented high schoolers should begin to look ahead to a career which will be both enjoyable and also productive of vast human good.

★ ★ ★

In our Chicago public schools, for example, the average salary is $5,500 annually, so you no longer will starve as a teacher.

Meanwhile, you have three months off via vacations. And your work lies in the most fascinating field of all, namely, the molding of developing personalities.

Clergymen, too, and YMCA leaders also deal with this greatest natural resource in our land, namely, youth.

★ ★ ★

So I urged Andrew to shift from medicine to one of these other fields where his social talents and fondness for mingling with people would pay rich dividends in social welfare.

IMITATE LINCOLN

Lincoln once said he hoped his biographers could state about him that he had "planted roses where thistles grew before."

Well, that is an excellent motto to hold aloft when you are choosing your career in life.

It is right and proper that you should expect a reasonably good cash income for even the Bible says the laborer is worthy of his hire (pay check).

But be sure you invest your life where you can look back at the age of 65 and realize you have been a rose planter instead of a disseminator of thistles.

Here in luxurious America, most of us live literally at the millionaire standard. For we have our own auto and TV. We eat three square meals per day and live in warm, comfortable homes.

We enjoy sports and newspapers and radio and movies. What more can a millionaire enjoy?

He can't eat 1,000 meals per day just because he has 1,000 times our income! Nor can he wear but one suit of clothes at a time!

He can't see special baseball games or movies or read newspapers just reserved for millionaires! He also drinks the same milk and same city water as you and I.

PULPIT NEEDS

Clergymen now wield probably the greatest social influence of any type of profession.

In their audiences they have the doctors and lawyers, business

heads and farmers, school teachers and housewives, all of whom come to be inspired by the minister's sermon.

★ ★ ★

So clergymen have a unique function. They are paid about the same scale as school teachers, when you consider their free parsonage quarters, etc.

Yet the seminaries aren't graduating 50 per cent of the number of young clergymen to meet their needs! This is a factual statement.

The retired clergy, plus those who die in office, plus the new pulpits required by our zooming population, are now calling for TWICE as many divinity students as we have in the seminaries! So the need is terrific.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 10c to cover typing and printing costs, when you send for his psychological charts and pamphlets.

Huron Traffic Still Suffering

No Relief Here Until Work Completed, Says City Engineer

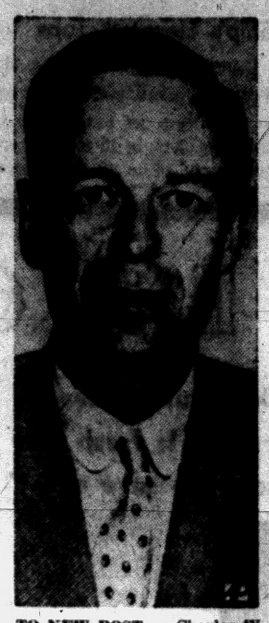

West Huron street traffic will continue to suffer at least another month as the city and gas company install underground improvements, City Engineer Lewis M. Wrenn said today.

★ ★ ★

One project, from Wayne street to Cass avenue, involves the installation of a new 12-inch gas main by Consumers Power Co. to provide more pressure to serve the downtown business district. This may take about two more weeks to complete, Wrenn figured.

The other project, from Palmer street to Johnson avenue, is part of installation of the $130,202 sanitary sewer project to relieve the Pontiac General Hospital area and provide for added service when the new hospital addition opens.

The Huron street portion may be finished in about a month, Wrenn figured. Work on the line from Palmer and Huron to a connection with the Orchard Lake interceptor is nearly finished, Wrenn added.

TO NEW POST — Charles W. Yost, counsellor and deputy chief of mission at American embassy in Paris, was named ambassador to Syria by President Eisenhower.

200 Flavors Available

NEW YORK — Some 200 flavors of ice cream are manufactured in the United States, but the favorite is vanilla because it blends with all kinds of toppings.

No Nagging Backache Means a Good Night's Sleep

Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional upsets or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation...with that restless, uncomfortable feeling.

If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—tending to increase the output of the 15 miles of kidney tubes.

So if nagging backache makes you feel dragged-out, miserable, with restless, sleepless nights, don't wait, try Doan's Pills, get the same happy relief millions have enjoyed for over 60 years. Ask for new, large, economy size and save money. Get Doan's Pills today!

Jet Airliners to Shrink Globe

Travel Expert Predicts Farthest Point Will Be Only 24 Hours Away

NEW YORK—Breakfast in Paris—and a second breakfast — an hour-and-a-half later in New York.

This isn't "Buck-Rogers-in-the-twenty-fifth-century stuff," writes noted travel authority Richard Joseph in a recent issue of a national magazine; its something that will be commonplace in 1960—only three years from now.

The "jet revolution," says the article, will arrive on the day jet airplanes now on order have been put into operation by the airlines of the world. In 1960, predicts Joseph, no spot on earth will be more than twenty-four hours away from any home.

"You'll be able to fly clear around the globe in two days," says the travel expert, "and when jet speed and the International Date Line have done their work a person can land in Seattle about seven and a half hours "before" they left Tokyo!"

The jet revolution of the Sixties will see Hawaiian weekends for Californians, European weekends for Easterners, and quick hops to Rio for a few days during the carnival season. In addition, two-week vacations in far-off India, Bali, Bangkok and hong Kong will become everyday occurrences.

* * *

Among the improvements in passenger comfort forecast in the magazine article are:

RESERVATIONS — Travelers will be able to make them in a fraction of the time it now takes, thanks to various electronics systems being tested or already in operation on some of the airlines.

BAGGAGE — There will probably be no increase in the free baggage allowances, but bags will be loaded on and off the plane in much less time than it takes at present.

CHANGES INSIDE THE PLANE —First-class planes will have movable reclining armchairs for conversational groupings. There will also be a plug-in device for international telephone calls, and a stenographic dictation service for those who want to work. A television set in the ceiling and a stand-up bar are other innovations.

Included in the article is a preview of space travel and a chart indicating how the jet planes of the near future will look and perform.

A Universal Peace Conference was called at The Hague in 1899. Immediately there began the South African War between the British and the Boers.

Northeast's Food Costs Highest of Any Region

BOSTON — Food costs in the nine states of the Northeast region of the United States are higher than in any other section.

This is because there is less home food production in this area and because more meals are eaten away from home.

Afghanistan, in southwestern Asia, has an area of 245,000 square miles.

More Hot Water Used

CHICAGO — According to a plumbers' organization's survey, Americans use 80 per cent more hot water than cold and they turn on the hot - water faucets and valves in the typical home 140 times or more each day.

A modern electric light bulb gives 10 times as much illumination as the first incandescent lamps and at about one-tenth the cost.

Ship's Elevators Tops

WASHINGTON — The world's largest elevators, powerful enough to hoist Navy jet bombers up to the flight deck in 15 seconds, are being installed on the new carrier Kitty Hawk. Each of the four elevators can hold 2,000 persons.

The first circulating library in the U.S. was organized in 1731 in Philadelphia. Benjamin Franklin was a customer.

Older People's Problems Need Action

By RAY HENRY

For the past 10 years the country has heard much talk about the problems of older people. Because of it, some promising programs have been started. But, the greatest output has been words. Now, it's time for action.

That was the conclusion of Rep. John Fogarty (D-RI) in a speech made to the House of Representatives within a few hours after Congress resumed in Washington.

What kind of action does he want?

"I consider it essential," he said, "that we make rapid progress in the employment of older people, in providing decent housing that older people can afford, in education and training, in improving their incomes and in research on chronic disease and the aging process."

Fogarty is in a good position to get favorable consideration of his views by both Congress and the White House. He's chairman of the House subcommittee which passes on the money to run both the Departments of Labor and Health, Education and Welfare. Both departments would be directly involved in any programs started for solving the problems of old people.

★ ★ ★

The first step, Fogarty said, should be for President Eisenhower to call together the experts in the field of aging, get their advice and recommend to Congress a broad program to meet the old age problems.

He introduced a bill to provide for such a "White House conference" and a conference in each of the states. They would be paid for by the federal government and sponsored by the Health, Education and Welfare Department.

What would Fogarty like to have the conferences look at?

Employment — The conference should "determine what additional measures should be undertaken to reverse the present trend toward shelving older workers. I cannot understand why it is that when we have extended the length of life and presumably, the period of physical vigor and health, the proportion of persons over the age of 65 who are at work should continue to decline."

★ ★ ★

Income — Despite advances in raising the income of older people, two-thirds of them are trying to scrape along on incomes of less than $1,000 a year. "We have a clear obligation to bring together the experts along with representatives of the older population itself to obtain the benefit of their thoughts and advice on how we can remedy the financial situation."

★ ★ ★

Health — "Something like three-fifths of our older people are suffering from one and often two or more long-term illnesses and many of these are in desperate need of medical care. Much of the progress (in this field) depends on further research." We should know from the experts "how we may speed up the progress of research."

★ ★ ★

Housing — A study of housing in Rhode Island in 1952 showed that one-third of the state's older people were without central heating in their homes. Twenty-seven per cent were forced to live in housing grossly substandard in other respects. The same is true nationwide. And, a broad program of action should be started.

★ ★ ★

Opportunities — Some 11 million of our older people "are not working and are not likely to work again unless it is some form of part-time employment. The tragedy is that we have not found new ways in which they can be useful and enjoy the satisfactions of belonging and self-sufficiency. Unless we do something about it, we . . . will fill our hospitals and old-age homes to overflowing and have a growing population of embittered older people."

(Questions on Social Security problems may be addressed to "Social Security," in care of The Pontiac Press. Questions will be answered by mail from the Pontiac office of the Social Security Administration. There is no charge for this service.)

New Astrolabe Pinpoints Time and Position

PARIS — The world's most perfect astrolabe, developed by Andre Danjon, director of the Paris Observatory, is being put to wide use in connection with the International Geophysical Year.

After sighting along several stars for an hour and a half, a person using this new astrolabe can fix the time of day within three thousandths of a second and tell within three feet where he stands in relation to the North and South Poles.

Such precision, never before attained, is important now that it is known the poles move as much as 48 feet, according to the season.

Deaths in Pontiac and Nearby Areas

C. J. ARCHEY

Word has been received of the sudden death of C. J. Archey of Mt. Pleasant. Service will be held at 2 p.m. Friday from the Stinson Funeral Home in Mt. Pleasant.

Mr. Archey had been connected with the F. J. Poole Co. here and was a member of the Masonic Lodge.

He leaves five sons, Francis, Robert, Edward, Carl and Charles all of Mt. Pleasant; a daughter, Mrs. Clarabelle Taylor of La-Habra, Calif.; 19 grandchildren and one great-grandchild.

MRS. JOE CRANK

Mrs. Joe (Minnie) Crank, 74, of 201 Baldwin Ave. was dead on arrival this morning in St. Joseph Mercy Hospital. She had been in ill health about a year.

She was formerly employed at Pontiac State Hospital.

Mrs. Crank leaves her husband, two children, Lester Rathburn of Pontiac and Violet Rathburn with whom she made her home; a brother, Victor Bacon of Pontiac and a sister, Mrs. Marion Smith of Canada.

Mrs. Crank's body is at the Huntoon Funeral Home.

CARL B. GIFFORD

Service for Carl B. Gifford of 29 Lexington Place who died Tuesday while visiting his daughter, Mrs. Martha MacDonald of Grand Rapids, will be at 1:30 p.m. Saturday from the Sparks-Griffin Chapel.

Dr. Milton H. Bank, his pastor, will officiate with burial in Perry Mt. Park Cemetery.

He was a member of Central Methodist Church and had been an employe of American Forging & Socket Co.

Mr. Gifford is survived by his wife, Mary; a son, Robert of Pontiac and his daughter, Mrs. MacDonald.

J. C. STEWART

J. C. Stewart, 70, father of John Harold Stewart of 890 Argyle St. died yesterday in Winston-Salem, N. C. where he made his home.

Besides his wife, he leaves four children.

Service and burial will be in Winston-Salem.

BERRY V. CABBAGE

ROCHESTER — Service will be held today at 4 p.m. for Berry V. Cabbage, nine-day-old son of Mr. and Mrs. Lydel Cabbage, of 3618 Longview St. He died yesterday at Children's Hospital in Detroit.

Officiating will be the Rev. Albert Eddy and burial will be in Cadillac Memorials Gardens East.

Surviving beside the parents are a brother, Michael at home, and his grandparents, Mr. and Mrs. Elmer Cabbage of Rochester and Mr. and Mrs. Victor Harpper of Clayton, N. C.

BENJAMIN CLARK

IMLAY CITY — Requiem Mass will be sung at 9 a.m. tomorrow at Sacred Heart Catholic Church for Benjamin Clark, 84, of 270 W. 5th St., who died yesterday. Burial will be in Mt. Calvary Cemetery.

The Rosary will be recited at 7:30 this evening at Muir Brothers Funeral Home.

Surviving are his wife, Delia; and two brothers, John and Ray, both of North Branch.

WILLIAM J. HUBNER

TROY — William John Hubner, 82, died yesterday at the home of his daughter, Mrs. Mildred M. Janess, 1145 Larchwood St., after a short illness.

Funeral arrangements are pending at Price Funeral Home, Troy.

SACHO MARINOFF

IMLAY CITY — Service for Sacho Marinoff, 71, of Imlay City, will be held at 3:30 p.m. Saturday at Muir Brothers Funeral Home. Burial will be in Imlay Township Cemetery.

He died Wednesday. There are no survivors.

MRS. HARVE MOORMAN

HOLLY—Service for Mrs. Harve (Jennie) Moorman, 89, of 111½ S. Saginaw St., who died Tuesday evening in Flint Osteopathic Hospital, will be held at 9:30 a.m. Friday at Dryer Funeral Home. Officiating will be the Rev. William Lankton of Holly Presbyterian Church.

The body will be taken to Traverse City for another service Saturday at 2 p.m. at Hibbard Funeral Home. Burial also will be in Traverse City.

Mrs. Moorman and her husband celebrated their 69th wedding anniversary on Dec. 13.

Surviving are her husband, Harve; three daughters, Mrs. Grace Foote of Holly, Mrs. Nellie Haviland of Kalkaska and Mrs. Ica Tucker of New Jersey; four sons, Frank of Mayfield, Cleon of Fenton, Verne of Flint and Jess of Flushing; 35 grandchildren and 42 great-grandchildren.

MRS. GRACE A. ODLE

LAPEER — Service for Mrs. Grace A. Odle, 78, of 24 Court St., who died last night, will be held at 1:30 p.m. Saturday at Baird Funeral Home. Officiating will be the Rev. Frank S. Heminghway of the Liberty Gospel Church, and burial will be in Mount Hope Cemetery.

She was the widow of Russell B. Odle, a former Lapeer businessman, who died in 1941.

She had been a member of Lapeer Martha Chapter, Order of Eastern Star.

JOHN REAM

COMMERCE — Service will be held at 10 a.m. Saturday at the Huntoon Funeral Home for John Ream, 57, of 8101 E. Commerce Rd., who died Tuesday. Officiating will be the Rev. Perry Thomas of Commerce Methodist Church. Burial will be in Oak View Cemetery, Royal Oak.

A 30-year resident of Oakland County, h leaves his wife, Hazel Mae; two brothers, Chester and William, both of Detroit; and two sisters, Helen of Detroit and Mrs. Marion Krieger in Canada.

MRS. HARRY C. SOMERVILLE

OXFORD—Service for Mrs. Harry C. (Pearl) Somerville, 71, of 13 Crawford Ave., will be held at 1 p.m. Saturday at Mabley Funeral Home with burial at Oxford Cemetery. The Rev. Alfred Eddy of the Lakeville Methodist Church will officiate.

Mrs. Somerville, who was an Oxford resident for 35 years, died unexpectedly at her home yesterday.

She is survived by four daughters, Mrs. Ruth Gray of Berkley, Mrs. Catherine Culber of Lansing, Mrs. Jean Baird of Lombard, Ill., and Mrs. Evelyn Griffin of Oxford; a son, Harry S. of Oxford; four brothers, William Piffer of Saginaw, Joseph Piffer of Davidson, Isaac and Samuel of Flint, and a sister, Mrs. Ella Turner of Hemlock.

JAY A. TOLES

ORION TOWNSHIP — Jay A. Toles, 77, of 3890 Gregory Rd., was dead on arrival yesterday in Lapeer General Hospital. He had been in ill health three months.

He was a retired farmer, and had been employed at Wilson Foundry & Machine Co., and Pontiac Motor Division.

Mr. Toles had served on the Orion Township Election Board, the Oakland County Canvassing Board of Brandon Township.

Surviving are five children, Roy J. of Columbiaville, M. Keith of Dearborn, Dean C. Toles of Watkins Lake, Mrs. Stanley Anderson of East Detroit and Mrs. Robert Williams of Lake Orion and two brothers.

Service will be at 2 p.m. Saturday from the Voorhees-Siple Chapel with the Rev. William B. Abbott of the Simpson Methodist Church, Detroit officiating. Burial will be in Seymour Lake Cemetery.

Ex-Pontiac Pastor Dies in Detroit

The Rev. John J. Downing of St. Brendan's Church, Detroit, a former assistant pastor of St. Benedict's Church, died yesterday in Holy Cross Hospital, Detroit, after an illness of two weeks. He was 48.

A native of Detroit, Father Downing had been a major in the U. S. Army, serving as chaplain.

★ ★ ★

He studied at Sacred Heart Seminary, Detroit and St. Mary's Theological Seminary in Cincinnati, Ohio. Before coming to Pontiac he was assistant pastor of St. Philip's and Holy Rosary Churches in Detroit.

Surviving are his mother, three sisters, and a brother.

Father Downing's body will be at the Sommers Funeral Home, 12140 Morang Dr., Detroit until Friday when it will be taken to St. Brendan's Church, 11406 Morang Dr. at 2:30 p.m. The Rosary will be recited at 8 p.m. Friday.

Solemn Requiem Mass will be sung in the church at 11 a.m. Saturday with burial following in Mount Olivet Cemetery.

Deaths Elsewhere

WASHINGTON (AP) — Rep. Lawrence H. Smith (R-Wis), 65, member of the House Foreign Affairs Committee, died yesterday. Smith dean of the Wisconsin congressional delegation, was first elected in 1941.

★ ★ ★

ELYRIA, Ohio (AP) — Norman Bragg, 31, executive of the southeast district of the Firelands area, Boy Scouts of America, died yesterday. Bragg suffered burns while rescuing his 15-month-old daughter from a fire in his home Jan. 14.

ANOTHER BIG CUT IN PRICES . . . TO MOVE GOODS FASTER!!

For FRIDAY and SATURDAY, Two BIG BARGAIN DAYS!

HERE'S THE REASON FOR THIS SALE!

Like all business men, we must buy goods in anticipation of your needs. This fall, Christmas and Winter was no different. We bought the finest nationally advertised goods for you . . . but, unforeseen record warm weather in September, October, and November did not allow us to move sufficient amounts of warm clothing for winter needs. The unexpected N. Y. Transit strike cut into our Christmas business. This created an overloading of seasonable merchandise which must be moved. Our policy is not to carry goods over from one season to the next so we have decided to clear our store in the next 8 days. Our loss is your gain.

Even At These LOW PRICES You Can CHARGE IT.

UP TO 24 MONTHS CREDIT TERMS

GEORGES NEWPORTS

GET HIGH QUALITY AT LOW, LOW PRICES

It's Quality . . . as well as low prices that make a real bargain! Buy nationally advertised merchandise at new low, low prices . . . Because we are forced to dispose of our Winter merchandise stock during the next three days. You buy quality at a sacrifice price and get quality merchandise.

It is well to consider just what comprises a good value and a bargain. We believe a bargain to be an unusual offering caused by an unusual event, or condition that actually forces a reduction in price, but not a reduction in quality.

The Quality Store of National Brands . . . We Give Red Trading Stamps

74 NORTH SAGINAW ST.–BETWEEN HURON AND MT. CLEMENS

Down go prices! Away go profits in another big cut in prices . . . Come, save in this bargain and value giving sale of Winter and early Spring goods. Greatest sale in our 25 years in business in Pontiac. The prices tell the story . . . you be the judge!

BIG $200,000 STOCK DISPOSAL SALE!

STORE CLOSED TODAY at 4 PM

Our store will be closed today, Thursday January 24 at 4 p. m. to mark down prices and to arrange the store and stocks for this great sale. Everything plainly marked at sale prices . . .

DON'T MISS IT . . . COME EARLY!

JUST THINK despite today's high prices you can save in this GIGANTIC STOCK DISPOSAL SALE. Just think what this means to your family. You can save in every department in the store on nationally advertised Dresses, Coats, Suits, Furs, Domestics, Linens, Towels, Hose, Lingerie, Women's Sportswear Accessories, Women's Robes, Men's Clothing, Men's Furnishings, Boys' Clothing, Infants' Wear, Children's Wear, Teen-Age Wear, Toys and Furniture, Shoes, Millinery, Jewelry and Small Appliances. IF YOU EVER SAVED IN YOUR LIFE YOU WILL SAVE IN THIS SALE. THE PRICES SPEAK FOR THEMSELVES. TELL YOUR FRIENDS, COME SEE FOR YOURSELF.

Open Fri. 'til 9 PM – Sat. 'til 6 PM

THE PONTIAC PRESS

THURSDAY, JANUARY 23, 1958 PONTIAC, MICHIGAN. THIRTEEN

ADDITION TO ROCHESTER SCHOOL — This is an architect's sketch of the proposed addition to the Woodward Elementary School in Rochester. Bids will be taken in March for the $200,000 project, Superintendent of Schools Donald C. Baldwin said. Facing North Pine street, the addition will include four classrooms, multi-purpose room, kindergarten, offices, boiler room and kitchen facilities. The new building is scheduled to be ready by the second semester of the 1958-59 school year. Architect is O'Dell, Hewlett & Luckenbach of Birmingham.

Horses Die as Fire Destroys Area Barn

SOUTHFIELD TOWNSHIP—An isolated barn burned to the ground last night, destroying two horses and all the contents of the building.

★ ★ ★

Southfield Township firemen said they were hampered in their efforts to save the structure or the horses by a lack of water.

The building, located at 23500 Almira Rd., west of Telegraph near 9-Mile road, had no nearby water outlets.

★ ★ ★

The Fire Department was called at 9 p.m., and when firemen arrived at the scene, the barn was in full blaze. Lt. Donald Haney of the Fire Department said flames made it impossible to rescue the animals.

★ ★ ★

Damage was estimated at from $4,000 to $5,000 by Haney. Cause of the fire has not been determined.

Avon Public Library Gets 35 New Books

ROCHESTER—The Avon Public Library has announced acquisition of 35 new fiction and non-fiction books. They are:

Adult Fiction

Deadly Summer, by Glenn M. Barns.
Amanda, by Paul H. Bonner.

Immense Journey, by Loren Eiseley.
Forbidden Childhood, by R. Slenczynska.
Into the Wind, by Mary P. Van Nes.
Battle for Investment Survival, by G. M. Loeb.

MR. AND MRS. ARTHUR V. SPIES

Carol Joan Hahn Is Wed in Evening Rite at Romeo

ROMEO—Before an altar banked with palms and white carnations, Carol Joan Hahn became the bride of Arthur V. Spies in St. John Lutheran Church Saturday evening. The Rev. E. S. Appel performed the double ring, candlelight ceremony before 500 guests.

The bride is the daughter of Mr. and Mrs. Alfred Hahn, of 77210 Fisher Rd. The bridegroom is the son of Mr. and Mrs. A. B. Spies of Almont.

Given in marriage by her father, the bride wore a chapel length gown fashioned in Chantilly lace over white satin, featuring long pointed sleeves. A pearl trimmed crown held her veil of illusion lace and she carried a cascade bouquet of white roses.

★ ★ ★

Mrs. Edward Weinmann, sister of the bride, was matron of honor. Serving as attendants were Mrs. Martin Maslar, Mrs. Alvin Wazel, Miss Marilyn Spies, the bridegroom's sister; Miss Barbara Kasler, and Miss Linda Hahn, the bride's cousin.

William Spies of Lake Orion was best man. Ushers were Richard Spies of Pontiac, William Hahn of Romeo, Ronald Popp of Almont, Donald Sutherby of Imlay City and Donald Hahn of Mt. Clemens.

★ ★ ★

A reception was held in the American Legion Hall, Utica, following the ceremony.

After a short trip, the couple will live on Shoemaker Rd., Almont.

Seven Farm Youths Will Visit Abroad

EAST LANSING (AP) — Names of seven Michigan farm youths selected to visit foreign countries this summer as part of the International Farm Youth Exchange were announced today.

★ ★ ★

Russell G. Mawby, state 4-H Club leader, announced the successful candidates and the countries they will visit as:

Ray Howard, Remus, to Honduras; Evelyn Carlson, White Cloud, to Sweden; Shirley Maxon, Kingsley, to Switzerland; Suzanne Thompson, Dansville, to Germany; James Gleason, Whitmore Lake, to Austria; Wilfred Wardowski, Leslie, to Ireland, and Leonard Schmiege, Chesaning, to Pakistan.

The Farm Youth Exchange, worldwide in nature, is aimed at promoting peace through better understanding. Delegates are selected on the basis of their youth work achievements and personal qualifications.

All delegates will leave in June and return in November with the exceptions of Howard, who will leave in April, and Schmiege, who will leave in August.

Novi Township Appoints Ackley to Inspector's Post

NOVI TOWNSHIP — The Novi Township Board has appointed Harold Ackley to the post of township building, electrical and heating inspector.

Ackley has been acting in that capacity without an official appointment since last fall when Glenn Salow Jr. resigned.

The board hired Ackley at a salary of $5,400 a year with an adjustment scheduled for April 1, according to Hadley J. Bachert, township clerk.

Board members also have granted tentative approval of a subdivision plat located on the northwest corner of Meadowbrook and 9-Mile Rds. Final approval was withheld pending approval from Oakland County Drain Commission and Oakland County Department of Health.

The plat consists of 133 individual lots. Land developers seeking approval of the subdivision plat expressed intention of constructing an artificial lake in the subdivision.

A small stream now runs through a section of the area.

Spraying Advised to Oust Cattle Lice

Spraying is the most effective way to get rid of lice on cattle, says Jay Poffenberger, assistant county agricultural agent.

★ ★ ★

Although lice are not destructive, they irritate animals and slow up gains. The U.S. Department of Agriculture states that 1 pound of 25 per cent wettable lindane powder in 100 gallons of slightly warmed water will do the job.

With power equipment, about 2 gallons are needed to thoroughly soak one animal. Methoxychlor or DDT also can be used.

If dust is used, officials recommend farmers cover the animal's body with a 50 per cent wettable powder and rub it into the hide. Dust again in 14 to 21 days.

Clarkston OES Slates 2 February Meetings

CLARKSTON — Joseph C. Bird Chapter 294, Order of the Eastern Star, will meet Feb. 3 at 8 p.m. in Clarkston Masonic Temple.

Oakland County officers and Oakland County Association officers will be honored at a Friendship Night meeting of the Chapter on Feb. 17 at 8 p.m. in Clarkston High School. Officers from the 22 county chapters will assist with the initiatory work.

PATRICIA JEAN ARCHEY

Mr. and Mrs. Robert Archey of Mt. Pleasant have announced the engagement of their daughter, Patricia Jean, to Erwin L. Johnston, son of Mrs. Irene Lamm of Detroit and Ernest Johnston, of 5735 Dwight St., Waterford Township. The bride-elect is a student at Central Michigan College and a member of Alpha Sigma Tau sorority. Her fiance, who is on leave from the Michigan State Police, also attends Central Michigan College. A September wedding is being planned.

Dawson-Revoir Rite Performed in Waterford

DRAYTON PLAINS—The Waterford Community Church was the scene of the wedding of Bonnie Sue Revoir and Wayne A. Dawson. The rite was performed by the Rev. Robert Winnie.

The bride wore a white waltz-length gown with a lace bodice featuring a sweetheart neckline trimmed with sequins, and long fitted sleeves. Her fingertip veil of wide lace edging was held in place by a lace cap trimmed with seed pearls.

★ ★ ★

The bride, who is the daughter of Percy J. Revoir of 6270 Barker St., chose Martha Powell of Drayton Plains as her maid of honor. Bridesmaids were Marie Gartec and Marcia Cameron, both of Drayton Plains.

Howard Dawson of Magnolia, Miss., brother of the bridegroom, served as best man. Ushers were Dan Revoir of Drayton Plains, the bride's brother, and Jack Gremlich of Pontiac.

A reception was held in the church parlors following the ceremony.

The bridegroom is the son of Mr. and Mrs. W. A. Dawson of Magnolia, Miss. A graduate of the University of Mississippi, he is a practicing pharmacist.

The newlyweds are living at 4148 Airport Rd., Waterford.

Imlay Scouts to Spend Weekend at Air Base

IMLAY CITY — Explorer Scouts will leave Friday afternoon to spend the weekend at Wurtsmith Air Base, Oscoda.

They are Bob Chriscinske, Steve Haedicke, Bill Tallman, Rick Braidwood, Tom Herrington. Maurice Chriscinske will be acting scoutmaster.

Activities have been planned by the Air Base personnel for the entertainment of Boy Scouts and Explorers attending from all parts of the state.

ALTA LOU THOMPSON

Mr. and Mrs. Robert Thompson, of 480 Coats Rd., Oxford, have announced the engagement of their daughter, Alta Lou, to David E. Garlick, son of Mr. and Mrs. Raymond Garlick of Cleveland, N. Y. A July wedding is being planned.

SALLY JOANN MILLER

An April 26 wedding is being planned by Sally Joann Miller and John M. Cook, the bride-elect's parents, Mr. and Mrs. Clark J. Miller, of 2885 Seymour Lake Rd., Ortonville, announced at a family dinner. The prospective bridegroom is the son of Mr. and Mrs. Milner Cook, also of Ortonville.

MRS. WILLIAM H. OLNEY JR.

The marriage of Charlene Sparks to William Olney Jr. has been announced by her parents, Mr. and Mrs. Charles A. Sparks, of 7010 Hatchery Rd., Drayton Plains. The bridegroom is the son of Mr. and Mrs. William H. Olney of Chicago. The newlyweds will reside temporarily in Hillside where they are students at Hillsdale College.

Concert at Oxford Sunday to Benefit Crippled Youth

CRAIG MARSH

OXFORD — A Craig Marsh Benefit Concert will be given at 3 p.m. Sunday at the Oxford High School Auditorium by the High School choir.

★ ★ ★

Craig, 20-year-old son of Mr. and Mrs. James Marsh of Seymour Lake road, has been crippled and partially paralyzed since birth. He now is at St. Joseph Mercy Hospital, Pontiac, undergoing a series of operations to relieve complicating conditions.

Overcoming or ignoring his tremendous handicap, Craig completed his elementary and high school education, and did outstanding work in choral groups. He served as student director of the junior high school chorus, during his senior year.

His enthusiasm for sports caused him to serve as manager of school athletic teams and for this he was awarded a special service cup at graduation. He hopes to be able to take training in radio announcing when his health and finances permit.

★ ★ ★

The high-school choir, under the direction of Mrs. Dorothy Jean Valentine, will sing three of Craig's favorite selections at the concert: "Whole World in His Hands," "Happy Wanderer," and "The Lord's Prayer."

★ ★ ★

Also included in the program will be three numbers which were enthusiastically received when the choir sang recently at the Midwest Music Conference in Ann Arbor: "Great Day," "Incline Thine Ear" and "Senorita Serenade."

Petitions Available in Wolverine Lake

WOLVERINE LAKE — Persons wishing to obtain nomination petitions for positions on the Wolverine Lake Village Council have been asked to report to the Village Hall 297 Glengary Rd.

The petitions may be filed at the hall between Feb. 25 and March 10 for the spring election.

The terms of four council members will expire this spring.

The posts which will be open now are being served by George Belprez, village president; Edmund Sim, Walter Dawes and Clifford Cottrell.

Allocation Announced

WASHINGTON (AP) — Michigan corn growers will be allocated $6,979,800 under the 1958 acreage reserve of the soil bank program, according to the U.S. Department of Agriculture. This compared with $8,001,507 last year.

Thumb Radio Club Linked to League

MARLETTE — The Thumb Amateur Radio Club has announced its affiliation with the American Radio Relay League, an international organization of radio amateurs with headquarters in West Hartford, Conn.

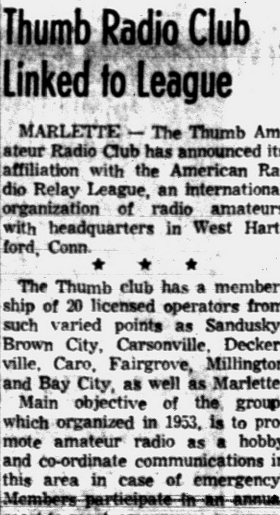

★ ★ ★

The Thumb club has a membership of 20 licensed operators from such varied points as Sandusky, Brown City, Carsonville, Deckerville, Caro, Fairgrove, Millington and Bay City, as well as Marlette.

Main objective of the group, which organized in 1953, is to promote amateur radio as a hobby and co-ordinate communications in this area in case of emergency. Members participate in an annual coast-to-coast emergency communications network.

★ ★ ★

The club meets the first Wednesday of each month, in Caro. Newly elected officers are: Douglas King of Marlette, president; Charles Stout of Caro, vice president; LeRoy Marlon of Marlette, secretary-treasurer; Willis Huffman of Fairgrove, activities manager, and Harry Avery of Caro, network manager.

JOAN IWERKS

Mr. and Mrs. Charles Iwerks, of 4434 Midland, Drayton Plains, have announced the engagement of their daughter, Joan, to Dr. Gordon A. Bergy, son of Dr. and Mrs. Gordon A. Bergy of Morgantown, W. Va. The bride-elect, who now resides in Seattle, Wash., formerly lived in Oxford. She is a graduate of Michigan State University where she was affiliated with Kappa Delta sorority and was a member of Mortar Board. Her fiance was graduated from the University of Michigan Medical School.

To University Road Would Rename Walton

ROCHESTER — In honor of the forthcoming Michigan State University branch college in Avon Township, the Village of Rochester has proposed that the name of Walton boulevard be changed to University road.

The village has made the suggestion to the city of Pontiac and the townships of Waterford, Pontiac and Avon, through which Walton boulevard runs.

Rochester thinks that Walton should be renamed University all the way from Dixie highway to the Rochester village limits. The village already has given the new name to the continuation of Walton within the village limits.

In Pontiac, City Manager Walter K. Willman has been assigned the job of studying the idea. One objection raised is that Pontiac already has a street named University, and it crosses Walton a block east of Baldwin avenue.

REV. GRANT DUNLAP

To Direct St. Paul's Church Fund Drive

ROCHESTER — A member of the National Board of Methodist Missions in Philadelphia, is scheduled to arrive in Rochester Jan. 31 to direct a drive to raise $100,000 for the construction of a new church for the St. Paul's Methodist congregation here.

He is the Rev. Grant Dunlap, former pastor of St. John's Methodist Church in Royal Oak. He'll supervise local teams in a 10-day "crusade."

The Rev. Dunlap will preach at the morning services of the St. Paul's Church and also will work with young people of the church while here.

Sunday the congregation will hear layman Leonard Billig outline the future and needs of the church.

Orion Guidance Club to Hold Card Party

LAKE ORION — The Lake Orion Child Guidance Club will hold a card party at Al Hanoute's Showrooms at 8 p.m. Saturday.

There will be table prizes and refreshments. Tickets will be available at the door.

★ ★ ★

Chairman for the party is Mrs. Charles Starrs. Mrs. Larry Giddings and Mrs. James Hoag, have charge of tickets; Mrs. Bruce Trimble, prizes; and Mrs. Arthur Rupert, refreshments.

Proceeds will be placed in the club's general fund until a worthy cause is decided upon.

During the past year the club sponsored the children's summer swimming program, donated $75 to the Orion Community Center, Inc., and "adopted" a family for Christmas.

South Lyon Man Seriously Injured

SOUTH LYON — A South Lyon man was injured seriously yesterday when his car struck an icy spot on Angle road near 7-Mile road in Salem Township, and crashed into a tree.

★ ★ ★

The driver, Billy Woodcox, 34, of 11270 Rushton Rd., was taken to University Hospital, Ann Arbor. He suffered concussion, and is not expected to regain consciousness for two or three days, the hospital reported this morning.

His left leg was crushed from the hip down and he has cuts about the neck and face.

★ ★ ★

Brighton State Police said the car apparently went out of control on an icy spot on the road.

Ruth Haggadone, Peter C. Elmy Wed at Hadley

HADLEY — Christ Lutheran Church parsonage was the scene of the wedding of Ruth Haggadone of Lansing and Peter C. Elmy of Hadley. The Rev. Edward Reinker officiated at the Saturday ceremony.

The bride wore a gown of rose satin and carried a bouquet of white roses and snapdragons.

She was attended by her sister-in-law, Mrs. Roselene Haggadone of Wayne.

Best man was the bride's son, Richard Haggadone of Lansing.

Following the ceremony, a reception was held at the home of the bridegroom's parents, Mr. and Mrs. Leonard Kramer of Hadley. A second reception was held Sunday at the bride's home in Lansing.

The couple will live in Lansing.

Announce Betrothals of 2 North Branch Girls

NORTH BRANCH — Announcement has been made of engagements of two North Branch girls.

Mr. and Mrs. Martin Bartholomy have announced the engagement of their daughter, Ann, to Carl O'Brien, son of Mr. and Mrs. Russell O'Brien of Barnes Lake.

Mr. and Mrs. George Rexin of Silverwood announced that their daughter, Barbara, will marry William Edward Volweiler of North Branch.

No dates have been revealed for the weddings.

In Dog Cruelty Case

Romeo Merchant Fined

ROMEO — A local businessman was fined $100 plus $50 in court costs and was given a 90-day suspended sentence last night for throwing turpentine on a stray dog Jan. 10.

Clare Tiencknell, 33, of 66415 Mound Rd., assistant manager of a local variety store, also was put on six months' probation. He originally was charged with cruelty to animals but pleaded guilty to an alternate count of disorderly conduct which carried the same penalty.

He said he poured the turpentine on the dog which he claimed, had appeared several times in the store, "to keep it from coming back again."

Some 80 spectators crowded into the Romeo Village Hall where Bruce Township Justice of the Peace James J. Comella was presiding. They heard Tiencknell's attorney Gary M. Corbin ask for a jury trial. But when advised the prosecution was ready to proceed, Corbin entered a plea of guilty for his client rather than delay the case.

HUMANE UNIT'S COMPLAINT

Charges had been brought against Tiencknell by the Macomb County Humane Society on complaint of its investigating officer, Lloyd Swartz, and Charles Becker, proprietor of the B-Bar-B Western Supply Shop next door to the variety store.

★ ★ ★

During the proceedings, the black and white part-beagle hound, named "Porky," remained unconcerned. After the verdict the dog was restored to his master, William M. Woodman, 29, of 70535 Mellon Rd.

He said the dog had "never been down town before" but imagined he must have followed some neighbor children.

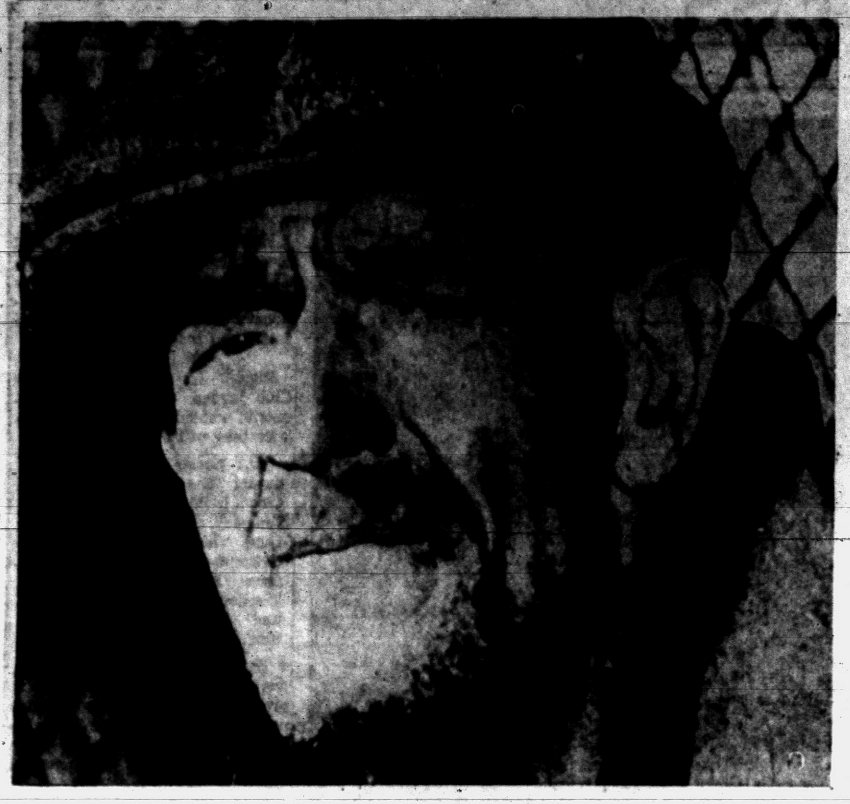

PATRICIA DAUTERMANN

Mr. and Mrs. Paul Dautermann, of 430 Cantley St., Lakeville, have announced the engagement of their daughter, Patricia La Vonne, to George Anderson, son of Mrs. Wilbur Anderson of Royal Oak and the late Mr. Anderson. An Aug. 2 wedding is being planned.

ANNE MARY LANGS

The engagement of two Michigan State University seniors, Anne Mary Langs and Robert K. Mitchell, has been announced by the bride-elect's parents, Mr. and Mrs. Charles L. Langs, of 3631 Dorothy Lane, Waterford. The prospective bridegroom is the son of Mr. and Mrs. Johnstone Mitchell of Highland Park. He is affiliated with Lambda Chi Alpha fraternity at MSU. A fall wedding is being planned.

United Press Photo

NEAR MISS — Although he's a self-confessed tramp and student of nature from a park bench, Jimmy Miller (above) almost got to be Rector of Scotland's Edinburgh University recently. Fifty medical students put Miller's name on the nomination list that included philosopher Bertrand Russell and Malcolm Muggeridge. Miller's name was later withdrawn.

Danes to Erect Statue

COPENHAGEN — Funds are being raised by public subscription for a 10-foot-high statue in honor of Danish soldiers who gave their lives in World War II. It will show a soldier in battle dress holding a rifle. There is already in Copenhagen a memorial to the resistance movement, erected on the site of executions by the Nazis.

ERIE — The so-called Thousand island chain actually comprises about 1,700 islands.

3 in 4 Playing Cards

NEW YORK — According to a recent nationwide survey, card playing is America's No. 1 participant "sport," being enjoyed by three out of every four persons in the country. There is at least one deck of playing cards in 87 per cent of the homes in the nation, and two or more in many of them, the survey showed.

CHICAGO — Railroads of the U. S. operate over a total of 223,427 miles of trackage.

New Cups Flavor Drink

WASHINGTON — A patent has been applied for on chocolate colored paper cups impregnated with chocolate flavor. When filled with water, the cups produce a chocolate-flavored drink instantly.

Cuba Bidding for Recognition as Biggest Gambling Center

HAVANA (AP)—Cuba is bidding for recognition as the world's biggest gambling center.

Millions of dollars, much of it apparently from American underworld sources, has been poured into new hotels and casinos.

★ ★ ★

That's only half the story. Americans are here angling for new building sites. The prospects are that 100 million dollars will go into more new hotels and casinos within the next five years.

Aside from the regular games, gamblers can invest in cockfights, in a huge national lottery and in jai-alai games.

★ ★ ★

Oriental Park racetrack in nearby Marianao has night racing. Between races a full-fledged casino operates in the clubhouse.

There are eight big gambling casinos attached to the new hotels or night clubs in Havana. Another will be opened in the 22-million-dollar Havana Hilton Hotel scheduled for completion in May. Still others go into operation soon at the Hotel Plaza and the new hotels Deauville and Barlovento.

★ ★ ★

Wherever one does not find a casino, he finds slot machines and nearly every type of gambling on a small, but well-patronized scale.

Gambling is legal and is pouring millions annually into the Cuban treasury.

Opening of the Riviera and Capri hotels this winter brought an influx of American gamblers.

Control of Cuba's gambling industry rests in the hands of men from Las Vegas, Detroit, Chicago, Los Angeles, Cleveland, Cincinnati, Washington, New York, Miami and other U.S. cities.

★ ★ ★

They came into Cuba with the blessing of President Fulgencio Batista.

They established special schools to teach Cuban employes how to deal cards and operate gambling devices.

Gamblers brought in hundreds of American pit bosses who watch operations.

Santo Trafficante Jr., operator of the casino at the Sans Souci night club, long has been identified with gambling in Tampa, Fla.

★ ★ ★

He and Joseph Silesi, 61, alias Joe Rivers, of New York, are wanted by the district attorney there for questioning in the gangland killing of Albert Anastasia in New York City last October.

Silesi reportedly has a slice of a casino operation.

Behind the scenes at the Riviera is seldom-seen Meyer Lansky, often mentioned during New York investigations of "Murder, Inc." The Riviera's casino is managed by Edward Levinson, Las Vegas hotel owner.

★ ★ ★

These are but a few of the personalities who rank high in the operation of Cuba's enormously profitable gambling industry.

PORT SAID — A fully-loaded vessel carrying about 42,000 tons is about the largest that can pass through the Suez canal.

THE BERRYS By Carl Grubert

Flath Discloses Unofficial Figures

# Indicates Loss for Pontiac General in '57

Pontiac General Hospital operated at a $71,698 deficit last year, according to unofficial figures disclosed today by Carl I. Flath, hospital director.

An unaudited account had the hospital's operating income last year at $3,401,158; its non-operating income, $170,705, and operating expenses, $3,559,019.

★ ★ ★

Flath saw two big factors behind the loss, one involving treatment of county welfare patients and the other interest on the 1952 hospital bond issue.

"Had it not been for these, we would have had a surplus of about $90,000 last year, enough to lower our room rates about $1-a-day this year," Flath said.

With the cooperation of the county and city, he said, the hospital may end up in the black this year.

The county problem revolves around the $26-a-day flat rate it pays for welfare patients admitted to the hospital. "The hospital actually looses an average $9-a-day on these patients," Flath said, "because our average per day operating cost is $35 a patient."

Flath figured the hospital lost a total $72,000 this way last year.

Even with this loss, he pointed out, the hospital was still $12,800 in the black.

"But we then paid out $82,500 interest on the bonds (plus $2,000 interest on other land contracts) and this ate up our profit and put us into the red," Flath explained.

Even so, he observed, the operating loss was about $2,300 less than last year, when the bond interest amounted to only $37,831.

★ ★ ★

Flath said he has asked both the Oakland County Social Welfare Board and the city to consider adjustments this year.

Any recommendations must be finally approved by the county board of supervisors and the Pontiac City Commission.

In 1956, the hospital's operating income was $2,952,712; non-operating income, $102,656, and operating expenses $3,091,476.

It's Still Just a Place to Park Automobiles

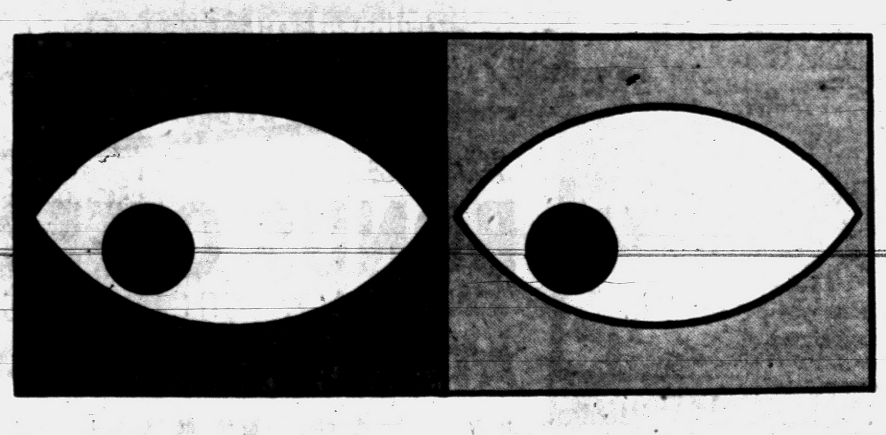

DURHAM, N. C. (AP)—No matter what you call it, it's just a place to park automobiles.

★ ★ ★

The Durham Merchants Assn. wanted to call the city's new parking lot "Downtown Parking Lot No. 1" or "Merchants Parking Lot No. 1." Councilman Floyd Fletcher suggested "Seaboard Parking Lot."

Other city councilmen listened deadpan, then named the city parking lot "City Parking Lot."

you'll delight
in the bright
difference
you now see in the
Detroit Times

What IS the bright difference?
It is many things. Cool green, for example, replacing the red on the Times front page. New, easier to read type face; new page layout; new local columnists . . . John Manning, Editor of the Times; Harvey Taylor, covering Detroit and suburbia; B. Jay Becker on bridge; Jack Crellin's "The Labor Front." A new Sunday feature section, "Tempo of The Times," covering art, books, theatre and music . . . plus all of the other features read regularly by over 500,000 families.

But see it with your own eyes . . . the BRIGHT DIFFERENCE in The Detroit Times.

PHILADELPHIA'S INDEPENDENCE HALL — Workmen dig trenches in Independence Square to uncover landscape planning made in 1736 and the location of an observatory from which the Declaration of Independence was first read to the public.

Restore Independence Hall to Builder's Plan

Historic Shrine to Face Parks

By THOMAS I. GERSON
NEA Special Correspondent

PHILADELPHIA (NEA) — Independence Hall, America's foremost historic shrine, has come of age.

* * *

Long hemmed in by a clutter of slums and commercial buildings, the hall's "front yard" is now being cleared under a federal-state-city program. It is a development in which every American citizen can take pride.

Two hundred and twenty-one years ago architect Edmund Woolley was paid five pounds by John Penn, son of the great William Penn, for designs for a structure first called Province Hall, then the State House, then Independence Hall.

Woolley hadn't heard of a document that was to begin, "When in the course of human events. . ." Nor had he heard of another document that was to begin, "We, the people of the United States. . ."

* * *

He didn't know that he had designed a cradle of liberty where the Declaration of Independence would be signed on July 4, 1776. Nor did he know that millions of visitors would come each year to the shrine where the Constitution was adopted and the United States perpetuated on Sept. 17, 1787.

The current project of reclamation will place our national shrine and its group of buildings between two park-like malls, three blocks in each direction.

One, being built by the state, extends between Fifth and Sixth streets and Chestnut and Race streets; the other, by the Federal government, from Fifth street to Second street and from Chestnut to Walnut street.

* * *

Two blocks of the state-sponsored "Independence Mall" have been completed and landscaped, and a third block of rattrap buildings is now being razed to make way for the last section.

INCLUDES HISTORIC SITES

Work on the Federal area, covering three city blocks, is under way. It will include important historic sites, such as the property adjacent to old Christ Church, the site of Benjamin Franklin's home.

* * *

Significant buildings included within these boundaries are the First Bank of the United States, erected in 1795, the oldest banking building in the country; the Second Bank of the United States, a splendid example of Greek Revival architecture, built between 1819 and 1824; Carpenters Hall, built in 1770, the meeting place of the First Continental Congress in 1774; the Bishop White house, home of the Right Rev. William White, "Father of the American Protestant Episcopal Church," and the Dilworth-Todd-Moylan House, erected prior to 1787 by Jonathan Dilworth, purchased in 1791 by John Todd, Jr., the first husband of Dolly Payne, who later married President James Madison.

* * *

Franklin Court, site of Benjamin Franklin's home, is also in the area. Excavations on the site, already revealing foundations of the house, will be continued in 1958.

RESTORE 1784 PLAN

Independence Square will be restored to the way it looked in 1784. Archeological excavations have revealed plans of the first landscaping by Samuel Vaughn in 1784.

Restoration will include the rebuilding of an observatory, from the steps of which Col. John Nixon, on July 8, 1776, read publicly for the first time the Declaration of Independence.

* * *

Location of the site remains shrouded in mystery. Additional excavations beneath the flagstones of the Square are slated for next year. The observatory was built in 1768 at the request of the American Philosophical Society, founded by Benjamin Franklin, for observing the transit of Venus across the sun on June 3, 1769.

* * *

In addition, a far-reaching project of historical and architectural research has been undertaken by the National Parks Service, which administers this newest historical park. The facts gathered in this research will enable plans to be developed assuring the public of deriving maximum benefits from this most important historic area.

Farm Production Up

WASHINGTON—American farmers produced about 40 per cent more goods in 1956 than in 1940.

Venezuela Dictator's Dream Blown to Bits

By THE ASSOCIATED PRESS

Plump, bemedaled Gen. Marcos Perez Jimenez ruled oil-rich Venezuela and its six million people from behind the scenes and as benevolent dictator for nearly 10 years.

★ ★ ★

Though he seldom made big headlines — he rarely made speeches and never resorted to bombast — he had big ambitions to make Venezuela the leading economic nation of Latin America.

As the 43-year-old leader of a nation with important iron mines and the world's second richest oil fields, he made great progress toward his objective. Believing Western-style democracy bred chaos and disorder, he tried to follow a Portuguese-style dictatorship.

★ ★ ★

But he apparently overreached himself when he had himself overwhelmingly re-elected to a new five-year term as president last Dec. 15 in a yes-or-no plebiscite. There was no opponent on the ballot.

With a revolver on his desk, Laureano Vallenilla Lanz, the interior minister, announced the "overwhelming" election to newsmen as a television receiver in the room beamed the opening of the first ballot box.

★ ★ ★

Perez Jimenez was somewhat of a youthful prodigy. He was chief of staff at 31, the key man in a military junta ruling the country at 34 and president at 38.

He had the appearance more of a slightly pompous businessman than a dictator. Because of nearsightedness he wore large black-rimmed glasses.

The son of a country schoolteacher, he entered the army and was trained for two years in Peruvian military schools. As a captain he was active in plotting against the long dictatorship of Gen. Juan Vicente Gomez and his successors.

★ ★ ★

A bloody revolution, which was supported by the leftist Democratic Action party, overthrew President Gen. Isaias Medina Angarita Oct. 18, 1945.

The military leaders turned the government over to the Democratic Action party, led by Romulo Betancourt, and the novelist Romulo Gallegos became president.

But the military became dissatisfied with the softness of the regime toward what they called unruly labor elements. Gallegos was overthrown in a coup Feb. 15, 1948.

Perez Jimenez became defense minister and the backbone of the ruling junta. Lt. Col. Carlos Delgado Chalbaud, nominal president of the junta, was assassinated Nov. 13, 1950, as the upshot of rivalry with Perez Jimenez over who would be the constitutionally elected president.

Perez Jimenez stepped into his shoes and was confirmed as president by the Constituent Assembly in April 1953.

★ ★ ★

The nation made rapid strides in prosperity on the basis of an oil boom since 1950. Gross national production rose to nearly six billion dollars, almost double. Oil production almost doubled, rising to 2,700,000 barrels a day. Iron ore mining, mostly by the United States Steel Corp. mines at Cerro Bolivar, increased by a third to 15 million tons.

★ ★ ★

Skyscrapers and hotels multiplied in Caracas. New capital from the United States and other countries flowed in. About 40,000 Americans, mostly employes of large corporations investing in new enterprises, flocked into the country.

But along with the new factories, stores, roads, bridges, plush apartments and a few schools were shanty towns outside Caracas and other cities.

★ ★ ★

Roman Catholic Archbishop Rafael Arias Blanco in a pastoral letter accused the administration of ignoring the maldistribution of wealth, neglecting education, suppressing labor, showing unconcern toward unemployment and torturing political opponents.

Most laborers were paid only about $3 a day.

Student disorders in February 1956 followed a strike protesting midyear examination under a new education law.

★ ★ ★

Younger officers grew dissatisfied with their lot, feeling they had little chance for advancement over the older men surrounding Perez Jimenez. Air force units, in which young officers are numerous, revolted Jan. 1 and bombed and machine-gunned parts of the capital.

Lacking central direction, the revolt fizzled the first day.

Trouble with the Roman Catholic Church developed after five priests, including the acting editor of the hierarchy's newspaper, were arrested on the heels of the revolt. The priests were released after a Cabinet shakeup Friday.

★ ★ ★

Perez Jimenez married the former Flor Chalbaud and had four daughters. Formerly very dignified, in recent years he had shown signs of unbending. He interrupted his long hours of hard work occasionally for garden parties, auto races, holidays at the seashore, baseball games and attendance at such events as the Caracas appearance of the touring cuties of the Folies Bergere.

Reinstate White Girl at Little Rock High

LITTLE ROCK, Ark. (AP) — Darlene Holloway, 17-year-old white girl suspended Jan. 10 from integrated Central High School after a pushing incident involving a Negro girl student, has been reinstated by the city school board effective Monday.

Darlene's mother Mrs. Fred Gist, who had threatened to take the case into court if necessary, said after a board hearing on the case that her daughter would return to classes next week.

The reinstatement was announced by the board after a closed hearing attended by school board members, Mrs. Gist and her daughter, Central High officials and Amis Guthridge, attorney for Mrs. Gist. The Negro girl, earlier identified as Elizabeth Eckford, was not present.

★ ★ ★

The other indicated she no longer contemplated any court action.

Mrs. Gist, a member of the segregationist League of Central High Mothers, had quoted her daughter as saying she pushed the Eckford girl and the Negro threatened to strike her.

Bee Colonies Increase

DES MOINES — There were some 5,406,000 colonies of bees producing honey in the United States in the first half of 1957, about one per cent more than last year, when drought and cool weather slashed honey production to the lowest level in eight years.

Gifted Students Given Attention

One California District Even Combines College, High School at Once

GLENDALE, Calif. (AP) — New Sputnik-age programs designed to advance gifted students as fast as possible are being tried here—including one combining high school and college at the same time.

★ ★ ★

Twenty-five exceptional high school seniors will be assigned, in the new semester beginning Feb. 3, to a college freshman course at Glendale College in a major academic subject for their first period. The subject will be mathematics, science, English, history or psychology.

Then the standout seniors, already selected for the pilot program, will return to Glendale and Hoover high schools for a full day's work at senior high level.

★ ★ ★

"They'll receive college credit and will be treated in every way as college freshmen," said Dr. James H. Williams, superintendent of Glendale's public schools.

If the program proves successful, Dr. Williams said, it will be enlarged to include all students capable of participating in it.

The experiment is only one of several pilot projects by which this district like others, a spokesman said, is "trying to respond to the present urgency, the need for scientists and trained leaders especially in academic subjects."

★ ★ ★

In another experiment in elementary schools, the more capable learners are brought together in one classroom for perhaps three periods a week. There they do research or project study that is advanced for their age.

At junior and senior high school levels whole classes in algebra, science and English are made up of exceptionally apt pupils. They get more advanced assignments than their fellows in regular classes.

Toastmasters Seek to Better Their Lot in '58

LONDON (AP)—London's professional toastmasters have decided to butter their own toast in 1958.

"Toasts are going to cost more because we want more money for our toasts," said Harold Dean, president of the Society of London Toastmasters.

★ ★ ★

The London professional toastmaster is a unique calling — and as essential to public dinners and luncheons as salt and pepper.

Dressed in scarlet coats dripping in gold braid, they introduce the guests and speakers and do it so grandly they can make mister sound like marquess.

"It's not easy work," Dean explained. "Have you ever considered what it takes out of a man to introduce 800 guests in a loud clear voice and get all their titles right?"

★ ★ ★

He cited the annual Lord Mayor of London's banquet, the derby of all the dinners. It usually includes the Prime Minister, Cabinet members, the Archbishop of Canterbury, ambassadors, assorted peers, judges, baronets, knights and a lot of just plain people.

"A mistake in title or precedence is unthinkable," said Dean. "Everything has to be correct and it is correct."

★ ★

After each guest is announced, the toastmaster takes his position behind the lord mayor. With each toast — and they are numerous—he must thunder this preamble: "My Lord Mayor, my late Lord Mayor, your grace, your excellencies, my lords, aldermen, sheriffs, ladies and gentlemen. . . ."

To this the toastmaster must add the name of the speaker. For instance: "Pray silence for the Right Honorable Harold Macmillan, the prime minister."

The toastmasters charge from 4 to 5 guineas for each function. They want at least a guinea ($2.94) more.

Crime Lesson Fails

TEMPLE, Tex. (AP)—The Temple Theater had been showing a crime-doesn't-pay film, but neither the film nor such grim exhibits as an electric chair paid either. The management reported an overnight burglary. The loss was a few cigarettes.

AP Facsimile

SWEET FARE — A mongrel dog was the best passenger that cab driver Donald Jaggers of Louisville, Ky., ever had, he says. "Sugar" a dog owned by a "Mrs. Robinson" from Chicago started a 6 hour ride when the owner hailed the cab last night, gave the driver $15 and a $5 tip and asked him to ride the dog around the city. Jaggers said the dog seemed to like the city parks. She was well mannered, indicating when she needed out by scratching the driver's leg. The driver was glad when the ride was over. Sugar was about to become a mother.

One Legislator Asks Resignation

GOP Needling Governor About Recent Absences

LANSING (AP) — Republican legislators are needling Gov. Williams about recent absences from the state, and blaming the governor's travels for delay in presentation of the proposed state budget for 1958-59.

★ ★ ★

One of them, Sen. John P. Smeekens (R-Coldwater), said Williams should resign "if he finds it necessary to spend so much of his time seeking delegates to support his bid for the presidential nomination."

In a joint statement, House Speaker George M. VanPeursem and Sen. Frank Beadle, GOP Senate leader, also hit into Williams and demanded that he submit certain data on state finances forthwith.

The state budget, which would answer most of the queries, was due in the Legislature last Friday. It appears unlikely it will be ready before next week.

★ ★ ★

"You have found time to make a couple of political trips to California and currently you are conducting a television tour of Michigan, but you have not found time to detail your program for legislative consideration," Van Peursem and Beadle said.

"You have created a great deal of confusion and uncertainty by changing position several times on the intangibles tax. We hope the same confusion will not be attendant upon other phases of your proposals."

Among other things, Van Peursem and Beadle demanded the governor's intangible tax proposal in bill form, 1958-59 budget detail, the revenue estimate for 1958-59 and the governor's attitude on continuing on the books the new whisky and increased cigarette taxes voted last year for school purposes.

Replying a short time later, the governor in effect told them they would find the answers in the budget message, now scheduled for delivery to legislators Monday night.

LOOSE LOOK — Printed cotton outfit, shown in Paris, is forerunner of next summer's beach fashions. The slim overdress is unbuttomed almost to the waistline.

Nevada Senator Returns After Visiting Mother

RENO (AP)—Sen. Bible (D-Nev) returns to Washington today after a brief visit with his ailing mother Mrs. Isabel Bible, 75.

Bible remarked this year "looks like a good one for the Democrats."

Governs Hong Kong

HONG KONG (AP) — Sir Robert Black was sworn in today as Hong Kong's new governor. He has been governor of Singapore.

City Ice Queen Needn't Be Skater

For the first time in 21 years, the Pontiac Ice Queen will not be required to know how to skate.

According to Russell Themm, chairman of the citywide ice carnival, sponsored by the Pontiac Parks and Recreation department and the Northside Community Club this year's queen will be chosen basically on beauty and personality.

Deadline for entrance into the contest is Thursday, Jan. 30 at 5 p.m. Entry forms can be obtained at the Pontiac Parks and Recreation Department, 35 S. Parke St., or the North Side Skating Rink, Edison and Montcalm streets.

WHO'S ELIGIBLE

Any single girl living in Oakland County who is at least 16 years old is eligible to enter the contest. They can not be professional models.

★ ★ ★

Judgment of the Ice Queen will be based on appearance, poise, personality and knowledge of local and state current events.

The winner of the contest, to be crowned during the second day of the Pontiac Annual Winter Ice Carnival, Feb. 2, will represent Pontiac in the Grayling Winter Sports Carnival queen contest Feb. 8 and 9.

The winner of this contest will compete in the Miss Michigan contest which chooses a contestant for the Miss America finals.

LOCAL PRIZES

A complete ski ensemble and an all expense paid trip to Grayling will be part of the local queen's award. She will also be presented with a trophy, a traveling crown and will participate in city wide parades throughout 1958.

★ ★ ★

Preliminary judging for the queens will be held Feb. 1. Contestants will be requested to wear one-piece bathing suits.

For the final judging, the contestants will wear formals, according to Leonard Buzz, recreation supervisor.

Four Klansmen Await Sentence

All-White Jury Finds Them Guilty of Plotting to Flog Negro

GREENVILLE, S.C. (AP) — Four admitted Ku Klux Klansmen awaited sentencing today for conspiring to flog a Negro at his home near here last July 21.

An all-white jury found Andrew Marshall Rochester, Wade Henry Howard, Jack Bentley and Robert E. Waldrop guilty of conspiring to commit the assault and battery of Claud Cruell.

★ ★ ★

The jury also convicted Rochester, head of the Klan group, and Howard of flogging the 58-year-old Negro at his home near Travelers Rest, about 13 miles north of here, because of his association with a white family who rented a house on his 100-acre farm.

★ ★ ★

Judge James M. Brailsford Jr. could sentence Rochester and Howard to a maximum 15 years in prison, and Bentley and Waldrop to 10 years.

The jury, which deliberated almost four hours, freed Johnny Frank Quinn and R. J. Roach of charges in the case. The judge dismissed charge against 5 of the 11 white men originally indicted.

Cruell and his 54-year-old wife Fannie, were caring for the seven children of Mr. and Mrs. Sherwood Turner, the white tenants, when a group of men stormed into the house. The men wrapped a chain around Cruell's arm, dragged him to another room and beat him.

Mrs. Turner was in a hospital and her husband had left the children with the Cruells while visiting his wife.

Labor Disputes to Get Tougher?

Expert Says Bargaining Would Be Much Harder if Slump Hit U.S.

ANN ARBOR (INS)—A professional arbitrator predicts future labor-management negotiations will get tougher than they have been if an economic slump hits the country.

★ ★ ★

Prof. Meyer S. Ryder of the University of Michigan, says "more and more" employer-employe relationships are falling under the scope of collective bargaining. He declares management has been "more concessionary than adamant" in meeting labor demands.

However, he is quick to add "management has not abdicated its right to manage."

Ryder points out rules to govern each phase of the relationship between employers and employes tracts ar renegotiated. He states:

★ ★ ★

"There is a pressed but nevertheless voluntary capitulation by management in making these concessions. One of the results of this long-term development has been the growth of institutional rights for unions and individual rights for employes where management once exercised sole control."

The professor says most arbitrators apparently accept the theory that rights not included in a labor agreement remain the prerogative of management. However, they demand the prerogatives must be administered with an "even-handed treatment of employes."

An economic recession would have a definite effect on the demands at bargaining sessions and Ryder declares management will be protecting its right to manage.

There is a copper mining museum in the picturesque mountain village of Roros, Norway.

Sarah Churchill Is Suffering Emotional Upset

HOLLYWOOD (AP)—Actress Sarah Churchill is undergoing medical treatment for exhaustion and emotional upset, her agent reports.

★ ★ ★

The daughter of Britain's Sir Winston Churchill was fined $50 last Thursday on a drunk charge.

The agent, Lillie Messinger, said Miss Churchill is under the care of a UCLA internist and added: "She has been under an emotional strain for a long time—since the death of her husband."

★ ★ ★

The actress' husband, society photographer Anthony Beauchamp was found dead last Aug. 18 in his London apartment. Police blamed an overdose of sleeping pills.

2 Killed, 8 Felled by Fierce Fat Fire

LONDON (AP)—Two firemen were killed and eight others overcome by thick, fatty smoke today as a stubborn blaze raged out of control in a maze of tunnels beneath a huge central London wholesale meat market. Officials believed there might be more casualties.

★ ★ ★

Crates of turkeys and other poultry, stacked from floor to ceiling in a 2½-acre labyrinth of in the intense heat from wood impregnated with fat.

One fireman who came out of the maze of tunnels after the maximum five minutes that a shift could stand, said: "To get lost down there now means almost certain death. One can see nothing and the heat is unbearable."

Files as Bankrupt

GRAND RAPIDS (AP)—Petition in bankruptcy was filed Wednesday in federal court by George H. Waldman doing business as the Brothers Delicatessen in Lansing. He listed liabilities $241,341 and assets as $2,306.

Nevada Caves Yield Treasure

Prehistoric Relics Give Evidence of Man Over 23,000 Years Ago

WASHINGTON — Last summer the National Geographic Society cosponsored research work in caves near Reno, Nevada, where the dry desert air preserves ancient articles.

★ ★ ★

The Nevada caves, inhabited by fishermen some 11,000 years ago, lie around the bed of prehistoric Lake Lahontan. This huge lake covered 8,900 square miles, an area bigger than Lake Ontario. Climatic changes have almost dried it up, leaving only scattered small lakes in desert land.

★ ★ ★

It is not certain when men first took up residence around Lake Lahontan. But it is known now that men roamed southwest Nevada about 23,000 years ago, hunting wild horses and camels before these animals — like the mammoth—became extinct in the New World.

★ ★ ★

Radiocarbon tests indicate that perishable artifacts such as fiber sandals and basketry were left there more than 11,000 years ago.

ARTICLES USABLE

A beautiful basket, woven more than 2,000 years ago, was found in such good condition that a housewife might use it on a shopping trip today. A 212-foot coil of rope proved as strong and well woven as many modern machine-made ropes.

★ ★ ★

The archeological treasure trove also includes dart points, perfectly mummified fish, a cache of grasshoppers, and fish nets. One significant discovery was a small bone awl carved from the splint of a native American horse. It was the first proof that man occupied the area before the native horse became extinct.

The mummy of a woman was wrapped in a fur coat made of rabbit skins. Beside her lay a buckskin vanity case containing a reddish substance resembling rouge. Having been buried only 1,500 years ago, she might be classified as a modern woman.

The Lake Lahontan site was discovered by accident. Mr. and Mrs. G. C. Rollins of Lovelock, Nevada, found a cave filled with bat droppings. While mining it for fertilizer, they unearthed numerous Indian artifacts. The Nevada State Museum investigated, and excavations began in 1952.

★ ★ ★

Scientists from many fields and institutions are collaborating in studying artifacts taken from the site. Even case dust is being scrutinized. Pollen in the dust is expected to show, for instance, the type of plants growing in Nevada thousands of years ago.

Snow Carted to House

LARAMIE, Wyo. (AP)—Less than 2 inches of snow had fallen in Laramie during the week, but Ralph Moss had to shovel his walk every morning. He complained to police that pranksters every night had carted snow to his house and piled it across his walk.

Warns of Propaganda on U.S.-British Disunity

WELLINGTON, New Zealand (AP) —British Prime Minister Harold Macmillan said today anyone falling for propaganda whipped up from U.S.-British differences is unconsciously serving the cause of communism.

Almost everything today depends on the need for Commonwealth unity and British-American cooperation, Macmillan told a state luncheon here during his Commonwealth tour.

Report Teamsters Unit May Be Asked to OK Compromise of Legal Issues

WASHINGTON (AP) — The Teamsters Union Executive Board meets today amid rumors, denied in one quarter, that the board may be asked to approve a compromise settlement of the union's legal troubles.

The rumors were to the effect that an out-of-court deal had been worked out by opposing lawyers in a union members' suit seeking to upset James R. Hoffa's election as Teamsters president.

This was denied by Thomas J. Dodd, one of the attorneys for the dissident members who contend Hoffa's election was rigged. Dodd said, "There's always talk about settling a case. I can assure you it isn't so in this one."

But reports of a compromise persisted and it was known that opposing counsels have been conferring all week on phases of the suit, now before a federal district judge.

★ ★ ★

Some of the reports of a compromise were to the effect that Hoffa would step down as president-elect; others said he would take office but that a three-man committee would be named to look after members' interests.

The Teamsters have been expelled by the AFL-CIO on charges, brought out in Senate labor rackets investigations, that Hoffa and Union President Dave Beck were involved in vast union money scandals. Beck did not seek re-election and Hoffa was picked to succeed him.

★ ★ ★

Hoffa and other union officers elected at an October Teamsters convention in Miami Beach have been restrained by court order from taking office pending outcome of the suit. Beck, meanwhile, has continued as union president.

As conditions for Teamsters reinstatement, the AFL-CIO has said Hoffa must quit all claim to national union office and the union must hold new elections supervised by the federation. These are conditions both Hoffa and the union so far have refused to meet.

Edward Bennett Williams, representing the Teamsters Union in the case, had denied earlier reports of a possible compromise of the court suit. But he could not be reached for comment on the latest rumors.

It was learned Williams was scheduled to go before the Executive Board today to make a report on the case, and give his recommendations.

Now They've Put Him in the Spotlight

Life Was Lovely for Poor Rich Mr. Getty

By TOM A. CULLEN
NEA Staff Correspondent

LONDON—For Jean Paul Getty, the 64-year-old American oilman who has holed up at the Ritz in London, life was beautiful until a few months ago.

That was before Fortune magazine named him as America's richest man, heading a list of 76 Americans with fortunes of $75,000,000 or over.

Poor rich Mr. Getty. Now his life is a plush-lined, air-conditioned hell.

Until a few months ago Getty could slip in and out of his Ritz suite and could browse unrecognized in the rare book shops along St James's street.

But he was then a mere multi-millionaire whose fortune was as liquid as the oil upon which it was based, floating happily without fixed markers.

* * *

All that the world knew about Getty then was that he owned a chunk of Saudi Arabia and paid King Saud some $15,000 a day for the privilege of pumping black gold from the ground.

That and his wives, for Getty has been married five times and divorced just as many.

But now, in fixing the limits of his wealth at between 700 million and a billion dollars, Fortune has made Getty a world figure.

And these things have happened to Getty in rapid succession:

He has been besieged by press photographers, art dealers, earnest supporters of worthy causes and plain con-men.

He has been swamped with over 700 letters from individuals and organizations, all begging for money.

He has contracted Asian flu and recovered from it.

His name has been linked with at least a half-dozen lovelies—widows, divorcees, unmarried clothes models all of them eligible as Wife No. 6.

His suite at the Ritz, which was good enough for the late Aga Khan and the Maharaja of Indore, has now become untenable resembling more the mens cloakroom at Victoria Station than a cozy little hideaway.

Getty hardly dares to set foot outside the door for fear of being mobbed.

And now, to cap it all, the fifth Mrs. Getty has "told all" in the columns of Lord Beaverbrook's Daily Express. ("Anything he wanted to do he did—he was Mr. Success," ballyhoos the Express.)

* * *

And in Fleet Street, where American billionaires don't bob up every day in the week, it was like the good old times. At any moment the champagne corks would start popping—or so it seemed, as the British press went trooping to the Ritz to interview Getty.

But it wasn't that way at all. Instead of a "Good Time Charlie," the British reporters found a quet American, aged 64, whose reddish hair is hardly touched with gray. Getty has blue eyes a long, fleshy nose, and an air of ineffable boredom.

He dresses simply (he is proud that his overcoat is 15 years old), wears no diamond stickpins, nor rings. He neither smokes nor gambles, and he can't bear the taste of champagne. ("He didn't even offer us a cup of tea," one woman reporter complained.)

Where does Getty's money come from? Mostly from oil. Getty is head of the Tidewater Oil holdings in America, owns about half of the oil fields in the neutral zone between Saudi Arabia and Kuwait, with a peak production of 50,000 barrels a day.

* * *

But Getty is not, in the usual "wild cat" tradition of Texas oilmen. He was born rich. His father, George Franklin Getty, was a lawyer who parlayed an initial $5,000 investment in oil into a 15 million dollar estate.

And Jean Paul Getty seems to have inherited both his father's luck and good judgment. ("I've never made a bad investment," he likes to boast.) Having dug a dry hole on his first try, young Getty had made $250,000 as an oilman by the time he was 23.

Getty's big chance came during the depression years when he bought up Pacific Western Oil, merging it with his father's interest to form the Getty Oil Company. Today this takes in about 60 subsidiaries, including Tidewater Oil and Skelly Oil.

Today, although he divides his time between Paris and Teheran, Getty owns what he calls a "feudal style home" in 65 acres of Santa Monica, California. One wing of the mansion houses a priceless collection of tapestries, furniture, sculpture and paintings (he carries photographs of his best paintings with him so that he won't miss them).

* * *

Until a few years ago he owned a 260-foot yacht fitted out with 10 staterooms and manned by a crew of 45. "I sold it because I found myself getting into the shipping business," he explains.

"Paul is the world's most erudite millionaire" says Mark Goulden, the London publisher, who is a close friend of Getty. "He was educated at Oxford, speaks five languages, is a geologist, mineralogist, a connoisseur of painting."

* * *

Charities? If Getty admits that he gives money to charity, he will have assorted spongers around his neck.

Hobbies? Dare he confess that he collects 18th Century French furniture and he will have every antique dealer in London on his doorstep. London abounds in Louis XIV chairs when an American billionaire is in town.

Why is he in London? If Getty tells the truth—to buy rare books—he will have offers of everything from the first edition of "Uncle Tom's Cabin" to incunabala in priceless Grolier bindings.

Does he want to marry again? If he says "Yes," a band of eligible women, ages 18 to 80, will fight to get past the doorman at the Ritz.

(To forestall this Getty has already described himself as a "very poor marriage prospect," adding that "five times married is enough for a lifetime.")

Families Willing to Be Debtors

Study Shows Americans Use Credit Because They're Ready to Pay

ANN ARBOR (INS) — Most American families use credit just because they are willing to be debtors.

This was shown in a study by Jerry Miner of the University of Michigan's Survey Research Center.

Miner said about two thirds of the many consumers that started using credit between 1949 and 1956 did so apparently just out of greater willingness to owe money.

* * *

He stated the remaining third could be attributed to changes in income, home ownership, liquid asset holdings and the number of young married couples. Miner declared the use of credit in the second group "ordinarily has been substantial," and reflected little change during the study period.

He said the increase in the number of young married couples and home owners since 1949 naturally resulted in a rise in the use of credit, but "on top of this, general willingness to get in debt has risen sharply."

* * *

Miner stated about 38 per cent of American families used consumer credit in 1949 compared to 54 per cent today.

He explained it is "not surprising" that the size of a family's debt depends mainly on the amount of its income. In determining the size of a loan, "the lender is primarily concerned with whether or not the borrower's income is sufficient to enable him to maintain payments."

Miner found higher amounts of debt were incurred by families with either permanent increases or temporary income declines in 1955. Persons whose incomes remained stable maintained a relative balance of debts. He added:

"Apparently the effect of these income changes on the amount of debt depends on the general optimism of the consumer.

* * *

"The relatively large number of persons who have experienced income increases, together with the general optimism which prevailed in the economy, may have accounted for much of the striking increase in consumer debt which occurred in 1955."

Papers Stalled on Desk

COLUMBIA, S. C. (AP)—A desk in the federal district attorney's office here has three work baskets on top. They are labeled "in," "out" and "temporarily stalled."

The Many FACETS of the Pontiac Press Want Ads

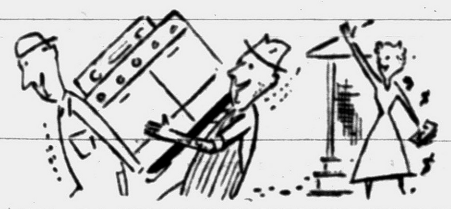

Brings

WANT EXPERT HELP?

You can hire expert help in a hurry just by doing as thousands do: run a Want Ad now in "The Pontiac Press."

FAST ACTION

MONEY IN USED APPLIANCES!

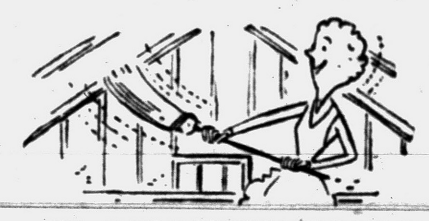

Got an old range, refrigerator, washer or dryer? You can sell it for CASH fast just by calling FE 2-8181 and running a Want Ad in The Pontiac Press!

BUYING, SELLING FARM EQUIPMENT?

Quickest way to turn used farm equipment into cash is to call FE 2-8181 & tell heaps of buyers about it at low cost with a Want Ad.

Whether you're looking for something to buy . . . have something to sell . . . looking for help or selling a service, you'll get real action with a Pontiac Press Want Ad. It costs so little to tell your story to so many.

THERE'S CASH IN YOUR ATTIC!

Plenty of folks will pay CASH for what you think may be just "junk" cluttering up your attic! Sell your old furniture, appliances, ornaments, apparel with a Want Ad in The Pontiac Press!

PICK UP A PET!

You'll find many bargains in pedigreed dogs and cats in the Want Ad section of The Pontiac Press.

DIAL FEderal 2-8181

WANNA BUY A SPORTS CAR?

You'll find heaps of listings of foreign and U. S. made sport cars in the Want Ad section of The Pontiac Press.

WANT AN EXTRA TV SET?

You can pick up a fine extra TV for the children's room at less cost than you thought possible! How? Look over the bargains in today's Want Ads!

PONTIAC PRESS WANT AD DEPARTMENT

AP Facsimile

PRETTY PRINCESS — Princess Caroline Louise Marguerite, daughter of Prince Rainier III and Princess Grace of Monaco, shows little interest in the keyboard of toy piano as she poses for picture on eve of her first birthday anniversary. Caroline, born Jan. 23, 1957, is the 31st generation of the Grimaldi family that has ruled Monaco since the 13th century. Princess Grace, the former Grace Kelly of Philadelphia, expects a second child in March. If it should be a boy, Princess Caroline would be demoted in the line of succession to 24 ancient European titles and her father's throne.

Against 'Tampering' With Veterans Fund

LANSING (AP) — Democratic minority leaders in the legislature say they are against "tampering" with the 50 million dollar veterans trust fund.

* * *

Any reports that there has been bi-partisan consideration of doing this are untrue, they said.

The joint statement was issued yesterday by Sen. John B. Swainson (D-Detroit) and Rep. Louis Messano (D-Wakefield).

"We do not know of any Democrat in the legislature who has any idea of taking the veterans fund to meet the state's financial emergency," they said.

Republicans in both the House and Senate have talked of either liquidating the fund and turning it to current use, or working out some device whereby trust funds could be unfrozen to support a state building program.

Representative Eyes State Senate Seat

LANSING (AP) — Rep. Adrian De Boom (R-Owosso) announced today that he will run for the Senate seat now held by Sen. Donald R. Smith (R-Owosso).

De Boom, 59, will seek the GOP nomination in the 15th Senatorial District comprising Clinton, Eaton and Shiawassee counties.

A member of the lower chamber for 10 years, De Boom is chairman of the House Rules and Resolutions Committee. He was a teacher in the Owosso school system for 31 years, retiring last year.

Smith, now serving his second term in the senate, has moved his family to California but has maintained his legal residence in Owosso. He says he will serve out his term, which ends this year.

The biggest diamond find in South Africa was the famous "Cullinan" which weighed about 3,106 carats.

Search Abandoned for Plane Survivors

HONOLULU (AP)—Search for seven men aboard a crashed Military Air Transport Service plane was abandoned last night, but the Navy continued to look for possible survivors of a vanished weather plane off Guam.

* * *

Faint radio distress signals spurred the search for 10 Air Force men aboard the weather reconnaissance plane that disappeared Jan. 15 while entering the eye of a typhoon.

* * *

The radio signals, heard again yesterday, could have come from a hand-cranked transmitter on a raft.

* * *

Search for the seven aboard the MATS plane that crashed about 275 miles southwest of Hawaii was called off after a half-ton of airplane debris was returned to Pearl Harbor. Much of it had burned.

Mistakenly Sold as Fuel in Chicago

Hunt for Explosive Gas

CHICAGO (AP) — A house-to-house search enveloped a West Side area when fire officials learned 2,300 gallons of an explosive gasoline-fuel oil mixture was mistakenly sold to scores of residents as stove fuel.

Residents had turned in 950 gallons at a central receiving station manned by firemen.

* * *

No explosions were reported, but Harry Mohr, deputy chief fire marshal, warned "a great potential for explosion" existed.

The fuel was purchased by residents of a densely populated low-rent district who live in flats mostly heated by space stoves.

* * *

Some 200 firemen, policemen and civil defense volunteers conducted the search, knocking on doors and broadcasting warnings with loudspeakers mounted on firetrucks.

* * *

Mohr set up his headquarters in a Martin Oil Co. station which sold the mixture. He checked off on a map each block of the four-square-mile area as police reported its residents had been warned.

* * *

Martin officials could not explain how the accident occurred. It was discovered when an official smelled gasoline fumes from a wholesale dealer's truck which had supposedly been filled with fuel oil.

Warnings were immediately broadcast.

* * *

Most of the oil was sold in 5- and 10-gallon quantities and the names of customers were unknown.

People carrying five-gallon cans of fuel oil soon clogged the station.

Robert Henderson, truck driver and father of four, said, "Every day I fill the stove for my wife, but I didn't today — and I don't know why."

Dirt Building Blocks Cut Housing Costs

BOGOTA, Colombia — A device that can make building blocks out of dirt — and almost dirt-cheap — is expected to have far-reaching effects on low - cost housing construction in rural areas of the Americas.

The inexpensive machine was developed by the Inter-American Housing Center of the Organization of American States at Bogota. With it one man and a helper can turn out about 400 blocks a day, or enough for a medium - size dwelling in a couple of weeks.

The foot-long blocks, dried in the open about three weeks, are as impervious to weather as ones made of cement.

Soil mixed with a little cement, lime, or asphalt is molded by pressure from a lever. The machine can also make flooring tile.

3 Downtown Buildings Damaged in Erie Fire

ERIE (AP)—Three downtown buildings suffered extensive damage in a fire in a vacant grocery store in this Monroe County community yesterday.

No one was reported injured.

Volunteer fire departments from five adjoining communities fought the blaze after it spread to a variety store and restaurant, confining it mainly to the walls of the buildings.

The fire began in a building which, until Tuesday, housed a grocery store owned by Joe Germani. He moved to a new location.

Lions Club Centenarian Honored at Niles Dinner

NILES (AP)—Fred Banke, who will be 100 next Tuesday, was honored by the Niles Lions Club as the oldest member of the organization in the world last night.

Club officials who gathered here for a dinner in honor of the retired tailor included Richard Bryan of Doylestown, O., international director.

Banke, the father of 13 children, joined the club when he was 17 and has never missed a meeting, club officials said.

Hollywood Headlines:

Jesse Lasky Developed Movie Success Formula

By BOB THOMAS

HOLLYWOOD (AP)—Pioneer producer Jesse Lasky once gave this observation of film making:

"The public wants sheer entertainment with a little uplift, a little hope. It does not want depressing stories, unhappy endings (with an occasional exception) and it does not care much for fantasy."

"But that is only a formula. To find stories that contain those elements is another matter."

★ ★ ★

Lasky devoted the last 25 years of his life to such a quest. Broke and removed as head of Paramount, which he helped found, he devoted his intense enthusiasm to finding suitable film subjects and selling them to the studios and the public. As long as he kept his formula in mind, he generally succeeded. He often failed when he attempted something apart.

★ ★ ★

One of his first films as an independent was "The Power and the Glory," which told its story in flashback after the death of the hero, a technique later used by others. The film started Spencer Tracy on the road to stardom.

Lasky had signed tenor Nino Martini at Paramount, later dropped him when he couldn't find a film for him. At Fox, he starred the singer in "Here's To Romance," a commercial failure.

Undaunted, Lasky tried again with "The Gay Desperado" when he joined forces with Mary Pickford to produce movies. This time, Martini paid off as a big hit.

★ ★ ★

During a lull in producing, Lasky decided to dip into radio. He promoted a show called "Gateway To Hollywood," in which unknowns were given a chance to act dramatic roles opposite well-known stars. Two of the winners were Josephine Cottle and Lee Bonnell, who got married and now have four children. Mrs. Bonnell is better kown as Gale Storm.

The producer got back into films in a big way with "Sergeant York." He followed this with two other successful biographies at Warner Brothers—"The Adventures of Mark Twain" and "Rhapsody In Blue," the George Gershwin story.

★ ★ ★

Taking his company to RKO, Lasky starred Claudette Colbert and John Wayne in a rollicking comedy, "Without Reservations."

The next film was not such a hit. Lasky had bought the novel "Miracle of the Bells" and decided to cast the bobbysox idol, Frank Sinatra, in the nonsinging role of a priest.

"It was good showmanship and it was a mistake," Lasky recalled. "Frank gave a perfect performance, but bobbysoxers who had come expecting their idol to sing were so disappointed that their word-of-mouth publicity undoubtedly discouraged others from seeing it."

Germany Eager to Get Scientists

Several Freed by Reds Expected to Fill Posts at Universities

BONN (AP)—Some of Germany's leading scientists who left the country before and after World War II may soon return home. University posts likely will be available to several.

The question came up at a committee meeting of Germany's Atomic Energy Commission, attended by leading scientists, including Nobel Prize winners Otto Hahn and Werner Heisenberg.

★ ★ ★

Official sources said the committee members know of several emigrants inclined to return home if they get adequate positions.

These scientists would be welcomed warmly. Since 1933, Germany has lost hundreds of first-class scientists who fled Nazi persecution.

After the war, other scientists were either forced to work in Russia or got jobs in Western countries.

★ ★ ★

West German universities must look abroad today to fill many of their scientific chairs, especially in nuclear physics.

This is due not only to emigrations. Germany was banned from nuclear research during the first postwar decade, and the young German scientist generation is not advanced enough to hold responsible university posts.

★ ★ ★

Many emigrated scientists, among them a number of Jews, have returned to Germany since the war. Most, however, are now working in the fields of philosophy, history, sociology and the like.

Prominent men in rocket research, such as Vernher von Braun, Hermann Oberth and Walter Dornberger live in the United States. Others have still not returned from Russia.

Only a few of the rocket elite are left.

AP Facsimile

STAND-IN FOR ANGEL CAKE — Firemen in Minneapolis had to use tools to free Kathy West, 3, after she got her head firmly stuck in this angel food cake pan at her home. Mrs. Eugene Johnston, her mother, used butter and a pair of scissors in a vain effort to extricate the child before calling for help. Kathy appeared on the verge of tears but didn't shed any during her ordeal.

Two Dems Prepare to Rap Ike's Budget

WASHINGTON (AP) — Two Senate Democrats prepared today an attack on President Eisenhower's spending budget and his administration's monetary policies.

★ ★ ★

Sen. O'Mahoney (D-Wyo) said he intends to challenge in a Senate-House Economic Committee hearing next week Eisenhower's contention that the $73,934,000,000 budget for the year beginning July 1 will be balanced.

★ ★ ★

Furthermore, O'Mahoney said, he wants the President's economic advisers to explain how they expect to pay the interest on a proposed five-billion-dollar increas in the national debt "when they plan to cut back on wealth-producing projects in the budget."

★ ★ ★

He referred to reclamation and other domestic development projects.

★ ★ ★

Sen. Douglas (D-Ill) said in a separate interview he wants to know what the administration proposes to do about creating an economic climate in which business will move ahead with confidence.

★ ★ ★

"I hope the action of the Federal Reserve system in lowering the rediscount rates will work," Douglas said.

Secret Report Believed Sent to House Unit

Says FCC Illegally Accepted Favors

NEW YORK (AP)—The New York Times said today a secret staff memorandum to a House subcommittee charges members of the Federal Communications Commission with illegally accepting industry favors.

A Washington dispatch to the Times said the memorandum also accuses some commissioners of fraternizing with litigants.

★ ★ ★

The Times story also reported:

The 28-page memorandum was prepared by Dr. Bernard Schwartz, 35, chief counsel of the special subcommittee on legislative oversight and professor of law at New York University.

The New York Times obtained the document, intended to be the starting point of public hearings Monday. The subcommittee, however, voted at a closed meeting to lay aside Schwartz's proposal in favor of a "general survey" hearing that would bring in the heads of six government agencies, of which the FCC is one.

★ ★ ★

A member of the subcommittee denied that this procedure had masked any thought of "whitewashing" the FCC or any other government agency under investigation. Rep. John J. Flynt (D-Ga) said the subcommittee wanted, rather, to be sure that the investigation would go forward under rules of "evidence and fair play."

The Schwartz memorandum cited several examples of alleged personal misconduct on the part of FCC commissioners. The memorandum also criticized some of the practices followed by the commissioners in granting licenses for television stations.

★ ★ ★

The memorandum did not name any of the commissioners it accused of wrongdoing.

Among the criticisms were these:

1. A commissioner was fully reimbursed by the industry for expenses for himself and his wife in attending an industry convention at which he delivered an address. The commissioner also claimed and received government travel pay in addition to a $12-a-day expense allowance.

2. Some commissioners have permitted the industry to pay for their room and board and such expenses as cafe, valet and golf fees while attending industry conventions. These commissioners also claimed and received "per diem" allowances from the government.

3. FCC members have permitted the industry to pay their wives' expenses on these trips.

4. Members have engaged in "constant fraternization" with persons and corporations appearing as litigants before the FCC. The "fraternization" has included payment of hotel and entertainment bills.

★ ★ ★

5. Members have received for their personal use color television sets and other communications equipment.

6. The FCC, in disregard of the standards set for granting television licenses, showed a "disturbing" tendency to favor the large established company with extensive broadcast interests over the "small newcomer without established broadcasting interests."

★ ★ ★

7. In many instances the FCC, in granting applications for stations, "held against local owners and preferred applicants wholly owned by outside interests."

John C. Doerfer, chairman of the commission, said last night that he had received the $12 per diem expense allowance from the government on a number of occasions when he traveled to address industry groups. He told a reporter that he also accepted compensation from the companies on some of these trips.

★ ★ ★

Citing a provision of the Communications Act of 1934, Doerfer said: "The $12 allowance usually pays only a part of the expense involved. And an honorarium for addressing organizations is permitted by law."

Doerfer said that FCC commissioners including himself had color television sets "on loan" from the manufacturer. There was no secret about it, he said, adding: "To us it's no luxury. It's part of our job to know how it (color TV) works. We look at television shows, not for fun, but to learn what's going on."

★ ★ ★

The Schwartz memorandum said, however, that Controller General Joseph Campbell had taken a "strong position" against the propriety of the FCC actions listed.

Exotic Baghdad Changes Scene

20th Century Catches Up With Ancient City as New Buildings Rise

BAGHDAD — This ancient city on the banks of the Tigris River near the cradle of Western civilization has almost overnight become a 20th Century capital of a booming modern country.

★ ★ ★

Shining new office buildings are rising in downtown Baghdad and air-conditioned ranch houses and oil refinery towers are taking their places beside mud huts in the outskirts. More important to the traveler, however, is the New Baghdad Hotel scheduled for completion in the early spring.

★ ★ ★

In the midst of this rush to modernize Baghdad's principal attraction for the traveler lies its link to the past. Traces of ancient civilizations, some of them dating back 100,000 years, are strewn across the deert on all sides of the city.

Only 23 miles from Babylon is the Great Arch of Ctesiphon. The vaulted arch in this 4th Century castle is considered an archeological treasure and one of the engineering marvels of its time.

★ ★ ★

Just 55 miles away are the hanging gardens of Babylon, one of the wonders of the world, the Ishter Gate and the stone sculptured Lion of Babylon. The Biblical city of Nineveh, capital of the Assyrian empire, can be reached either by air or rail and a short drive from Nineveh is Nimrood, founded by Hammurabi in 1700 B.C.

★ ★ ★

Baghdad itself, teeming with struction workrs, shows the influence of American and European oil men.

To Sneak Ideas Into Viewers' Heads

Hollywood Video Station to Try Invisible Messages

HOLLYWOOD (AP) — Let's suppose, now, that in a couple of months some strapping young chap springs from his chair in front of the TV, grabs his coat and streaks down town to join the Army—without knowing why.

Well, some people might say it was a simple case of subliminal perception.

★ ★ ★

This hard-to-pronounce combination is actually nothing more than a somewhat creepy device for sneaking things into your head without your conscious knowedge.

Television station KTLA here says that in 60 days or so it will become the first station in the country to undertake a planned program of subliminal communication.

★ ★ ★

To pull the trick off, the station will employ special transmitting equipment that will flash an image or a message across the screen. It will be on and off so fast that the home viewer won't consciously know he's seen anything. But, if it works, the flash will leave an impresion in his mind.

★ ★ ★

Lew Arnold, KTLA's general manager, said the gimmick will be used at first only for public service messages. He elaborated: "We'll flash on something like 'Join the Army' or 'Give to the March of Dimes.'

"The next step would be to promote our own shows. Then—and I have a feeling this is a long way off — we might go into the commercial end of it."

Would it be fair, Arnold was asked, to subject people to subtle mental stimuli that would send them flying off to the drugstore for toothpaste they didn't need?

"Gee, I don't know," he said.

But he added that the Federal Communications Commission is going to study the new device and "if they say we can't use it, naturally we won't."

Arnold said his station won't spring the thing on its viewers without giving them a chance to duck.

★ ★ ★

"Before we put it on," he said, "we'll say: 'We've about to transmit a subliminal message.'"

At this point, presumably, the young chap with no inclinations toward Army life would head for the cellar.

'Space Airman' Put Off Limits to Papers

SAN ANTONIO, Tex. (AP) — Airman 1.C. Donald Farrell, 23, who makes a simulated flight to the moon next month, has been declared off limits to newsmen seeking interviews.

★ ★ ★

Farrell, a 23-year-old Air Force accounting clerk from the Bronx, N.Y., will spend seven days in a space chamber at the School of Aviation Medicine at Randolph Air Force Base early in February.

"Airman Farrell was picked fo his intelligence and his complete normalcy, according to many previous tests," a school spokesman said.

Scores of newspaper reporters and photographers have turned up for interviews since the upcoming test was disclosed. "We were afraid all this would cause Farrell to develop psychological eccentricities," the spokesman said. "So we put him off limits."

Thief Finds Religion, Confesses Crimes

A repentant bandit walked into the Pontiac police station and surrendered himself.

At the arraignment of Lester S. Smart, 24, of 1820 Hillsdale Dr., yesterday in Municipal Court it was brought out that he had turned to religion recently and decided to confess his crimes.

Police said Smart admitted the holdup of the Home Service Grocery, 43 Orchard Lake Ave., and he will be tried for armed robbery on that count.

He also admitted, they said, the theft of several guns from Simm's Department Store and stealing $125 from the cash register at the Top Hatter, 53 Wayne St.

Judge Cecil B. McCallum bound Smart over to Circuit Court when he waived examination yesterday. Arraignment is set for Feb. 3.

The big game population of the U.S. national forests is believed to have increased in the past 20 years.

Men 'Queens for Day'

OKLAHOMA CITY (AP)—Lt. Gov. Pink Williams said a new girl employe in his office made a mailing error and he commissioned several hundred Oklahoma men "Queens for a Day." Williams issue honorary female commissions for "Commodore and Queen for a Day" and honorary male commissions for "Admirals of the Great Navy of the State of Oklahoma."

Callas Earns Bravos Minus Boos in Chicago

CHICAGO (AP) — If Maria Meneghini-Callas had any echo in her ear of the fiasco attending her Rome Opera appearance, it vanished last night in a thunderous 10-minute ovation that set the Civic Opera House vibrating with shouts of "Bravo!"

★ ★ ★

The concert sponsored by the Alliance Francaise brought her back to the scene of her first American triumph and also marked her first appearance since the Rome revolt Jan. 2.

At times, the audience appeared unable to wait for her to conclude an aria before beginning an outpouring of adoration. There were no catcalls and whistles such as she received at Rome.

★ ★ ★

In the Rome Opera, singing the title role in Bellini's "Norma," the audience reaction caused her to quit after the first act. She claimed she was ill. Critics said she lost her voice and then her temper.

But last night, the 34-year-old diva seemed beyond annoyance.

Strikingly gowned in black velvet, a stole wrapped around her shoulders, she presented a stunning picture as she stood before the Chicago Symphony Orchestra.

★ ★ ★

At the concert's end, a huge bouquet of long-stemmed roses was placed in her arms. Then a second bouquet of lilies. And finally, a third bouquet of pink roses, which was set at her feet.

Taking leave of the crowd of 3,750, she was met in the wings by her husband, multimillionaire Italian manufacturer Giovanni Battista Meneghini.

To a newsman who confronted her, she bubbled: "What can I say? I am so very happy. There is no more to say."

The critics' reactions were mixed.

"This was Callas at her crest," wrote Claudia Cassidy, Chicago Tribune.

At half-voice there was the ravishing sound of yore . . . but when — in Verdi arias from 'Macbeth' and 'Nabucco' — she had to be a dramatic soprano, the voice got pushed beyond beauty and steadiness," wrote Roger Dettmer, Chicago American.

Hal Boyle Says:

Matinee Idol Believes Real Love Sacrifice

NEW YORK (AP) — "Real love is sacrifice," said Ricardo Montalban, who typifies the Latin lover to millions of movie fans.

Montalban, currently starring in the Broadway musical, "Jamaica," has also appeared in some 50 films, and he's a bit weary of portraying Don Juan roles, roles in which he has to be a Casanova with a Spanish accent.

They make an ironic doom for the handsome young Mexican actor, who is married to Loretta Young's sister, has four children, and has strong old-fashioned views on both marriage and parenthood.

"The Don Juans of this world are not romantic or carefree," he said. "They are miserable frustrated creatures lost in their own egos.

"The most romantic man I know is my father. He is 86, and has been faithful to one woman all his life. He and my mother have been married 55 years.

"They are still like lovebirds — and I don't mean in a silly sense. They didn't fight age. They grew old gracefully together. And they have achieved such a singleness of purpose that now they are almost like one human being."

Ricardo dislikes the phrase "Latin lover" and can't see that it has any real meaning — certainly not to one like him who had parents who were "tradition-minded."

★ ★ ★

"A Latin lover, an American lover, a Chinese lover — where is the difference?" he asked. "In any country real love is always the same.

"Marriage is the hardest vocation in life — and the best. But you do have to work at it."

Montalban believes the American husband is in some ways the best and kindest in the world, but that he sometimes shirks his duty in the home.

"He sometimes wants too much to be just a nice Joe to his wife and children," he said. "He hates the word authority too much.

★ ★ ★

"But in his home he should be more of a dictator—a good dictator with a sense of humor. He must remember that, after all, he chose to be the father—he was not elected.

"The American husband should exert a little more authority, not only with his children but also with his wife.

"A wife likes to be secure and protected, but she can't feel protected if she can always twist her man around her little finger and boss him. She feels lost and insecure."

To Montalban the failure of American parents to exercise more discipline on their children is little less than appalling.

"This theory that you shouldn't curb a child's instincts but let him express himself in any way, let him paint on the wall, let him do anything, even set fire to the furniture, is nothing less than catastrophic," he said.

"It makes him unhappy, not happy. Children are much happier under discipline that teaches them justice.

★ ★ ★

"Punishment, if the child knows it is fair, brings the child and parent closer. He should think of you as a friend to whom he can bring any trouble. But he must also be made to realize that while a good deed wins praise, a bad deed must be punished; or else there is no justice.

"The best way to do this is for the parent to set the right example."

And here, Montalban feels, is where some of the trouble in the American home starts. The parents can't very well discipline the kids if they can't first discipline themselves.

"Too many of us have the wrong idea of freedom," he said. "We think of freedom as the right to do anything we want to do. That is license, not liberty. True freedom is actually simply the right to do what we ought to do.

"We are too prone to discard old truths for new spectacular lies —merely because they are new and spectacular."

Well, scratch a Latin lover, and you find a family philosopher.

3 Slightly Injured in Auto Collision

Three persons were slightly injured at 6 p.m. Tuesday when a car hit another standing in the roadway on N. East Blvd. at Phillip St.

James A. Hall, 26, of 39 Judson St., told police he had stopped behind a stalled car when a car driven by Victor R. Matteson, 18, of 268 Clifford St., struck his vehicle in the rear.

Hall was treated for laceration of the eye at St. Joseph Mercy Hospital. Passengers in Matteson's car, May Frances McClusky, 22, and Thomas L. McClusky, 4, both of 243 Russell St., were treated for lacerations of the nose.

Hadrian's Wall Rouses Interest

Britons Seek to Retain Historic Barrier Built by Early Romans

WASHINGTON — Remains of a massive stone wall built by Roman soldiers 1,800 years ago still stretch like a belt across the north of England.

To preserve Hadrian's Wall, as it is best known, a movement is under way in England to put the historic barrier under stewardship of the British Government. Storms, sheep, and the ravages of builders already have reduced much of the structure to ruins.

★ ★ ★

Wendig across the moorlands of Northumberland and Cumberland, Hadrian's Wall extends 73.5 miles from Bowness on Solway Firth to Wallsend on the Tyne River. The Wall strides boldly from scarp to scarp and at its highest point climbs a crag of 1,230 feet.

PROTECTION AGAINST PICTS

When the emperor Hadrian visited Roman Britain A.D. 122, it was in a state of crisis. The Empire maintained three legions in the island province and could hardly spare more to protect it from the violently difficult Picts of Caledonia (Scotland).

★ ★ ★

Hadrian decided to build a continuous rampart to block all access from the north. Detachment were drawn from the three legions. Legionaries were skilled at that kind of work; they always carried entrenching and engineering tools. The Wall rose in five years.

Curiously enough, Romans seem to have taken the colossal task for granted. It is hardly mentioned in Latin literature.

The Wall probably was about 20 feet high, including the parapet, and eight to ten feet thick. At every mile stood a "mile-castle" or blockhouse.

Forts with barracks for 500 to 1,000 men fitted into the wall like keystones at intervals of four to five miles. In addition to barracks, each fort contained a regimental headquarters, shrine for worship of the emperor, baths, stables, shops, and granaries.

TWICE REBUILT

The Wall was overthrown and reconstructed at least twice. It was breached A.D. 367 when a confederacy of barbarians invaded the isle, subjecting Roman defenders of Britain to their greatest humiliation.

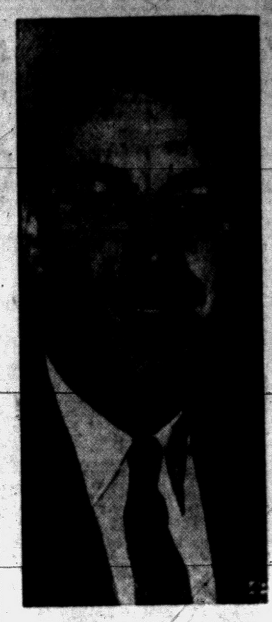

★ ★ ★

When the army of Britain was moved to the continent A.D. 383, in the growing twilight of the Roman Empire, the Wall's military history ended. It is not known whether all detachments pulled out from the forts at once or faded away, one by one. At any rate, the Wall's work was done.

Today, enough of the Wall remains to help or hinder farmers —and to stand unrivaled as the greatest monument of Britain's Roman occupation.

Hunters Damage Signs

DENVER (AP)—Mark U. Watrous, Colorado's highway department engineer, says target-shooting hunters were responsible for most of the $20,000 damage to state highway signs this year.

VA CHIEF — Sumner G. Whittier, 46, Massachusetts Republican and Navy veteran, has been appointed by President Eisenhower to head the Veterans Administration.

One way

Edison helps

Oakland County

grow

Schools receive an important part of the $1,813,322 tax payments made by Edison in Oakland County in 1957

For the year 1957 Detroit Edison's total tax payments will be about $88,201,000 to local, state and federal governments. Over half of this sum will stay right here in Michigan with $7,478,014 going to local school districts in our service area.

The balance of these Edison tax dollars helps to build needed public projects and to support police, fire and other vital services in your community.

As your electric company supplying your electric service, and as a corporate citizen paying taxes, we like to think that we are truly partners in the progress and growth of the 400 communities we serve in Southeastern Michigan.

'Eyewitness to Death' . . . by Agatha Christie

Copyright 1957..

THE STORY SO FAR: A blind in a train passing hers snaps up and respectable Mrs. McGillicuddy on a prosaic trip to visit her friend Miss Marple, flattery old lady with a shrewd brain and a gift for solving crimes, sees a man strangling a woman. After several trips over Mrs. McGillicuddy's route, Miss Marple figures the body must have been thrown out as the train passed the neglected park of Rutherford Hall, bush by Mr. Crackenthorpe, rich manufacturer. She asks Lucy Eyelesbarrow, brilliant young woman who has made for herself a unique profession—taking temporary charge of households and running them like magic—to get herself employed at Rutherford Hall. Emma Crackenthorpe's daughter engages her, and Miss Marple is installed in the neighborhood posing as Lucy's aunt. On pretense of playing golf, Lucy searches for the body and finds a piece of fur on a bush below the railroad tracks. In a barn Lucy pries open a sarcophagus and finds the body of a murdered woman. Mr. Wimborne, Crackenthorpe's attorney, tells Emma the murdered woman was probably a foreigner and Emma asks if she was French. Mrs. McGillicuddy identifies the picture of the murdered woman as that of the woman she saw in the train. Dr. Quimper advises Emma to tell police about Martine, the girl her brother Edmund, who was killed in the war, was going to marry. Just before Christmas a letter came from Martine asking if she might visit them. Later she wired canceling the visit. Could the dead woman be Martine?

CHAPTER 19

Lucy looked at a collection of twelve or fourteen lumps of rock, some polished and some rough.

"Lovely," she said kindly. "Most interesting."

★ ★ ★

"You're quite right. They are interesting. You're an intelligent girl. I don't show them to everybody. I'll show you some more things."

"It's very kind of you, but I ought really to get on with what I was doing. With six people in the house—"

"Eating me out of house and home . . . That's all they do when they come down here! Eat. They don't offer to pay for what they eat, either. Leeches! All waiting for me to die. Well, I'm not going to die just yet — I'm not going to die to please them. I'm a lot stronger than even Emma knows."

★ ★ ★

"I'm sure you are."

"I'm not so old, either. She makes out I'm an old man, treats me as an old man. You don't think I'm old, do you?"

"Of course not," said Lucy.

"Sensible girl. Take a look at this."

He indicated a large faded chart which hung on the wall. It was, Lucy saw, a genealogical tree; some of it done so finely that one would have had to have a magnifying glass to read the names. The remote forbears, however, were written in large proud capitals with crowns over the names.

"Descended from Kings," said Mr. Crackenthorpe. "My mother's family tree, that is — not my father's. He was a vulgarian! Common old man! Didn't like me. I was a cut above him always. Took after my mother's side. Had a natural feeling for art and classical sculpture — he couldn't see anything in it — silly old fool. Don't remember my mother—died when I was two. Last of her family. They were sold up and she married my father. But you look there — Edward the Confessor — Ethelred the Unready — whole lot of them. And that was before the Normans came. Before the Normans —that's something, isn't it?"

★ ★ ★

"It is indeed."

"Now I'll show you something else." He guided her across the room to an enormous piece of dark oak furniture. Lucy was rather uneasily conscious of the strength of the fingers clutching her arm. There certainly seemed nothing feeble about old Mr. Crackenthorep today. "See this? Came out of Lushington — that was my mother's people's place. Elizabethan this is. Takes four men to move it. You don't know what I keep inside it, do you? Like me to show you?"

"Do show me," said Lucy politely.

"Curious, aren't you? All women are curious." He took a key from his pocket and unlocked the door of the lower cupboard. From this he took out a surprisingly new looking cash box. This, again, he unlocked.

"Take a look here, my dear. Know what these are?"

He lifted out a small paper wrapped cylinder and pulled away the paper from one end. Gold coins trickled out into his palm.

"Look at these, young lady. Look at 'em, hold 'em, touch 'em. Know what they are? Bet you don't! You're too young. Sovereigns — that's what they are. Good golden sovereigns. What we used before all these dirty bits of paper came into fashion. Worth a lot more than silly pieces of paper. Collected them a long time back. I've got other things in this box, too. Lots of things put away in here. All ready for the future. Emma doesn't know — nobody knows. It's our secret, see, girl? D'you know why I'm telling you and showing you?"

"Why?"

"Because I don't want you to think I'm a played out sick old man. Lots of life in the old dog yet. My wife's been dead a long time. Always objecting to everything, she was. Didn't like the names I gave the children—good Saxon names — no interest in that family tree. I never paid any attention to what she said, though — and she was a poor spirited creature — always gave in.

"Now you're a spirited filly — a very nice filly indeed. I'll give you some advice. Don't throw yourself away on a young man. Young men are fools! You want to take care of your future. You wait—" His fingers pressed into Lucy's arm. He leaned to her ear. "I don't say more than that. Wait. Those silly fools think I'm going to die soon. I'm not. Shouldn't be surprised if I outlived the lot of them. And then we'll see! Oh yes, then we'll see. Harold's got no children. Cedric and Alfred aren't married. Emma — Emma will never marry now. She's a bit sweet on Quimper — but Quimper will never think of marrying Emma. There's Alexander, of course. Yes, there's Alexander . . . But you know, I'm fond of Alexander . . . Yes, that's awkward. I'm fond of Alexander."

★ ★ ★

He paused for a moment, frowning, then said:

"Well, girl, what about it? What about it, eh?"

"Miss Eyelesbarrow . . ."

Emma's voice came faintly through the closed study door. Lucy seized gratefully at the opportunity.

"Miss Crackenthorpe's, calling me. I must go. Thank you so much for all you have shown me . . ."

"Don't forget . . . our secret . . ."

"I won't forget," said Lucy and hurried out into the hall not quite certain as to whether she had or had not just received a conditional proposal of marriage.

Dermot Craddock sat at his desk in his room at New Scotland Yard. He was slumped sideways in an easy attitude, and was talking into the telephone receiver which he held with one elbow propped up on the table. He was speaking in French, a language in which he was tolerably proficient.

"It was only an idea, you understand," he said.

"But decidedly it is an idea," said the voice at the other end, from the Prefecture in Paris. "Already I have set inquiries in motion in those circles. My agent reports that he has two or three promising lines of inquiry. Unless there is some family life—or a lover, these women drop out of circulation very easily and no one troubles about them. They have gone on tour, or there is some new man — it is no one's business to ask. It is a pity that the photograph you sent me is so difficult for anyone to recognize. Strangulation, it does not improve the appearance. Still, that cannot be helped. I go now to study the latest reports of my agents on this matter. There will be, perhaps, something. Au revoir, mon cher."

As Craddock reiterated the farewell politely, a slip of paper was placed before him on the desk. It read:

Miss Emma Crackenthorpe.
To see Detective Inspector Craddock.
Rutherford Hall case.

He replaced the receiver and said to the police constable,

★ ★ ★

"Bring Miss Crackenthorpe up."

As he waited, he leaned back in his chair, thinking.

So he had not been mistaken—there was something that Emma Crackenthorpe knew — not much, perhaps, but something. And she had decided to tell him.

He rose to his feet as she was shown in, shook hands, settled her in a chair and offered her a cigaret, which she refused. Then there was a momentary pause. She was trying, he decided, to find just the words she wanted. He leaned forward.

"You have come to tell me something, Miss Crackenthorpe? Can I help you? You've been worried about something, haven't you? Some little thing, perhaps, that you feel probably has nothing to do with the case, but on the other hand just might be related to it. You've come here to tell me about it, haven't you? It's to do, perhaps, with the identity of the dead woman. You think you know who she was?"

★ ★ ★

"No, no, not quite that. I think really it's most unlikely. But—"

"But there is some possibility that worries you. You'd better tell me about it — because we may be able to set your mind at rest."

Emma took a moment or two before speaking. Then she said:

"You have seen three of my brothers. I had another brother, Edmund, who was killed in the war. Shortly before he was killed, he wrote to me from France."

(Continued Tomorrow)

CHAIN REACTION — It seems that everyone wanted to get into the act — transportation-wise that is — in this complicated crash in Amsterdam, Holland. In sequence, the streetcar was derailed, it toppled on the auto and the auto smashed into a bicycle. Luckily no one was hurt.

Italy Tries Roomettes

ROME — For the first time, roomette cars are operating on Italian railroads. Twenty-one of these cars will be available by the end of this year. The cars will have four beds in each first-class compartment and 12 beds in each second-class one.

U.S. Jetliners to Start Soon

New Yorkers Could Fly to California for Lunch and Back for Dinner

WASHINGTON — New Yorkers will soon be able to run out to California for lunch and be back in time for dinner.

Fastest commercial flights across the continent now take eight to 10 hours. Round trips in about the same time will be possible on American - built jet airliners expected to start hauling passengers by autumn, the National Geographic Society says.

In one minute a jetliner flying from New York will be high over New Jersey. In 10 minutes it will have crossed New Jersey and be roaring over Pennsylvania. In an hour it will bypass Chicago. In about four hours it will land in California.

The Civil Aeronautics Administration says that jet planes may replace piston-driven aircraft entirely on long hauls. Jets are most efficient at high altitudes on sustained runs.

Jet engines suck in air for oxygen to cause combustion. Rocket engines — which may some day be used in passenger travel — are not dependent on air. In one experimental model, hydrogen peroxide supplies oxygen to burn the rocket's fuel.

Jetliners can take advantage of jet streams—torrents of air whipping across the earth at high altitudes. A jet stream can give planes a free boost of perhaps 100 to 200 miles an hour. Or it can slow up craft. Meteorologists have been charting these powerful wind currents. During World War II, Japan used a jet stream to float incendiary bombs across the Pacific to the West Coast.

Britain takes credit for first using a jet — the de Havilland Comet — in commercial travel in 1952.

Fire Losses Increase

NEW YORK — Fire losses in the United States in the first half of 1957 averaged $96,000,000 a month compared with $88,000,000 during the like period of 1956.

SAYS MEN BETTER DRIVERS — Cathy Cinders, above, an instructor in an automobile driving school in Los Angeles, claims that men are better drivers than women. She says women drivers take too much for granted and frequently tend to be overcautious. Men, she says, react better and handle a car better but "his stubbornness about learning makes him a poorer pupil."

As Amendment to Defense Bill

House Members Weigh Money for Sub Building

WASHINGTON (AP)—House members were cautioned today against trying to make headlines as they weighed a 400-million-dollar submarine-building amendment to a $1,410,000,000 emergency defense bill.

★ ★ ★

This advice against voting more money than the House Appropriations Committee recommended came from Rep. Mahon (D-Tex), chairman of a subcommittee that drafted the bill.

The committee has recommended 40 million dollars more than the 110 millions Eisenhower asked in authority to transfer available funds to missiles and other advanced programs. The $1,260,000,000 in new funds contained in the measure is the total the President asked.

★ ★ ★

The amendment, drafted by Rep. Van Zandt (R-Pa), would give the Navy an extra 400 million dollars to start work immediately on 10 new nuclear-powered attack submarines.

★ ★ ★

Van Zandt said the Navy should build 100 such submarines in the next five years to combat the Soviet submarine menace. The 10 new submarines, he said, could be completed in 1961 and 1962 if funds were provided now.

The pending bill, among other things, would finance construction of three nuclear submarines capable of carrying the 1,500-mile range Polaris ballistic missile.

★ ★ ★

Mahon said he would oppose the Van Zandt amendment as premature. He said his subcommittee conducted no hearings on the submarine program, but would consider it in detail during hearings starting next week on the Defense Department's appropriation bill.

House leaders joined with Mahon in predicting defeat of any amendments to alter substantially the committee's money recommendations in the emergency bill.

Barge, Cruiser Mingle on Route

Inland Waterway Links Historic Points Along Atlantic Coast

WASHINGTON — The Atlantic Intracoastal Waterway, or Inland Waterway as it is better known, winds through time and tide from New England to the Florida Keys.

★ ★ ★

Roughly paralleling the eastern seaboard, it links some of the Nation's most important historic shrines and modern cities. It serves a steady flow of small tankers, barges, and shrimpers, as well as pleasure craft ranging in size from 100-foot yachts to small outboard cruisers and canoes.

On Chesapeake Bay is the home of the Chesapeake Biological Laboratory, a Maryland agency dedicated to fish and wildlife conservation. At present researchers are seeking ways to control the stinging jellyfish, a notorious nuisance in the Bay.

Following in history's wake, one heads southward to Hampton Roads where the Union's Monitor and the Confederacy's Virginia (formerly the Merrimac) fought the world's first battle between ironclads. The Norfolk Naval Shipyard, founded in 1767, is the oldest in the Nation.

★ ★ ★

Virginia's Jamestown, Williamsburg, and Yorktown; Nnrth Carolina's Outer Banks, Kill Devil Hill, and Fort Macon; South Carolina's Fort Sumter and Charleston; the dowager city of Savannah in Georgia, the islands of St. Simons and Jekyll; Florida's St. Augustine, the oldest permanent white settlement in the United States — are a few of the many place names charged with meaning.

At Fort Macon recent hurricanes have uncovered two jetties built by Robert E. Lee when he commanded the post before the Civil War.

Beautiful St. Simons has known the flags of France, Spain, Great Britain, the United States, and Confederacy.

Florida resort areas have every imaginable service for waterborne travelers. The South's largest marina, the Bahia-Mar Yachting Center at Fort Lauderdale, provides berths for 450 vessels.

Finance Director Tells Policy in Plain English

STERLING, Colo. (AP) — Side by side with a legal notice about an assessment for an improvement district, was this advertisement in the Sterling Journal-Advocate:

"IN PLAIN ENGLISH, the adjacent legal notice means that to avoid all interest charges, payment must be made in full prior to 5 p.m. on Feb. 14, 1958."

★ ★ ★

The capitals were Robert W. Freson's. He is city finance director here and inserted the ad.

Rock 'n' Roll Staying On

HOLLYWOOD (AP)—A vice president of RCA-Victor records predicts rock 'n' roll "will monopolize the record market for at least five more years." W. W. Bullock told newsmen Elvis Presley "is the largest single factor" in the recording industry's growth. He said about 20 million Presley platters were sold in 1957.

HIS LAST FORMATION — Occupying the "seat" of honor, Teddy the bear keeps a close check on the situation at a farewell review given for him by U. S. troops in Berlin, Germany. The playful nine-month-old cub, who was the mascot of the soldiers, was ordered transferred to the Washington National Zoo after he nipped the first sergeant and went AWOL.

World Air Traffic Center Changes Life in Greenland

WASHINGTON — Greenland, an Ice Age island that had no trees until a few years ago, is putting a large welcome mat on its "Arctic Riviera."

* * *

Autumn turns the world's largest island into a frozen wasteland. But its 27,000 inhabitants look forward to the riot of growth that will come with this year's spring-summer.

The warmth of 24 hours of sunlight a day spreads a tumult of flowers and greenery along the coastal fringes below the great Icecap, the National Geographic Society says. Sheep and cows graze in meadows among thousand-year-old ruins of Viking churches and farms.

Tourism as such does not exist yet, though Greenland has been a world air traffic center since the Scandinavian Airlines System inaugurated transpolar passenger service three years ago.

Future visitors to Denmark's country in the North Atlantic will find many modern innovations in a land where time once stood still.

Godthaab, Greenland's capital and senior city, has only 2,100 residents, but they have dial telephones, a daily newspaper, a radio station, a college, and a Girl Guide troop. What they don't have anywhere in town is trees.

Greenland's first stands of hardy, imported conifers were planted experimentally in sheltered southern areas a few years ago. Meanwhile, every board used for building still has to be imported.

* * *

Sondrestrom, a small town on a fjord north of the capital, has a cheery little hotel — Greenland's first. It was built by SAS to accommodate travelers stopping at the United States base which serves as a civil airport.

CHANGE IN ECONOMY

Greenlanders' lives are changing, thanks to increasing contact with the outside world and a warming climate. A rise in ocean temperature drove away the seals, which had made the Greenland Eskimo utterly self-sufficient. The hunter has turned to cod-fishing, shrimping, and sheep-farming. His swift, graceful kayak — so light that it can be lifted with one finger — now is used chiefly for sport.

One recent innovation — the establishment of a police force and courts — caused a sensation in Greenland. Back in the old days, when crime was virtually unknown, the people settled serious quarrels with enormous merrymaking at local "kangaroo courts."

Greenland claims that it has no illiterates. Schooling is compulsory. Children are taught both Danish and Greenlandic, a difficult language derived from aboriginal Eskimo with a small mixture of European words and ideas.

* * *

Among world classics that have been translated into Greenlandic, people of the forward-looking island favor — quite fittingly — Pilgrim's Progress."

Viet Nam Likes English Lessons

Since the French Left Country 3 Years Ago, Language Has Boomed

SAIGON (INS) — The United States has found a roaring market in South Vietnam for two major exports, American dollars and English grammar.

The dollars were understandably welcomed when the U. S. moved into Vietnam three years ago after France, which had just suffered disastrously at Dienbienphu, was forced to give up all Indochina after a century of colonialism.

But the interest in English was different. The language was rarely heard in Saigon three years ago. One spoke Vietnamese or French.

* * *

Now Vietnamese by the thousands are lined up waiting to get into English classes. French is at its waterloo in Asia.

Two major army schools are turning out 450 English students at a clip so they can go to the United States to attend military schools. More than 2,000 accomplished linguists — from privates to generals — have been graduated in the past three years and now more than one of every ten Vietnamese officers speaks English.

Government workers are the second major group of learners. They go to school on their own — there are more than 1,000 private classes being conducted in Saigon alone.

* * *

To give incentive, President Ngo Dinh Diem has promised that every employe who learns English will find 500 extra piastres (roughly $7) in his pay envelope every month. If he learns enough to help in translating, he will get from 1,500-2,000 extra.

Dr. W. G. Yates, who runs the Vietnamese - American Association reported that his school has turned out more than 2,000 civilians and is holding classes for 750 students. He said some 3,000 Vietnamese are waiting to get in. The association charges 500 piastres for a three month course.

Brother and Sister Not Seriously Hurt

A 19-year-old Drayton Plains youth and his sister escaped serious injury Wednesday when they lost control of their car on Pontiac Lake Rd. and struck a tree, said Oakland County sheriff's deputies.

* * *

Thomas L. McCoy and Carle Ann McCoy, 15, of 3641 Hatfield Rd. were held at Pontiac General Hospital for observation after being thrown from the vehicle by the force of the impact.

* * *

The youth was driving his sister to school, and attempting to pass a truck just east of M59 when the accident occurred.

Winter Salads Can Have Variety

WINTER SALAD — Olive oil glorifies and enhances this beautifully arranged asparagus, egg and caper salad. This would make a good salad for a buffet meal.

By JANET ODELL
Pontiac Press Home Editor

Salad making in the winter time is a more difficult job than the same process in other seasons. We are a little more restricted in our choice of ingredients.

Cucumbers, tomatoes and even some of the greens don't taste so fresh when they have to be shipped from the South. The same vegetables eaten in Florida were delicious.

When tossed salads lose their appeal, it's time to start thinking of other kinds. Usually cabbage is excellent in cold weather. But it is so high in price now that we think twice before buying much of it.

The salad pictured above stars canned asparagus. Capers are used to garnish it.

Asparagus, Egg and Caper Salad

1 medium head lettuce
1 can asparagus spears or lima beans, drained
2 hard-cooked eggs, sliced
1 tablespoon capers
Grated onion or radish
Olive oil
Vinegar
Salt and pepper

Wash and tear lettuce into small pieces. Place in salad bowl. Arrange asparagus or beans around edge of bowl. Heap sliced eggs in center. Sprinkle capers over top.

At table drizzle olive oil over salad and toss gently. Sprinkle vinegar (just a few teaspoonfuls), mixed with salt and pepper, over salad and toss. Makes 4-6 servings.

Citrus fruit is always a welcome ingredient in a winter salad. Serve this Orange Salad Bowl with cups of hot soup.

★ ★ ★

Fill your prettiest salad bowl two-thirds full with crisp greens. Top with bite-size pieces of juicy fresh oranges and tuck in a few onion rings and chunks of tuna. Toss with your favorite dressing. For variations, try slivers of cheese, ham or leftover roast with this orange 'n' green salad.

★ ★ ★

A new taste in vegetable aspic salads is this one containing canned mushrooms. It is a hearty salad.

Mushroom Aspic

3-ounce can chopped broiled mushrooms
3-ounce can broiled mushroom crowns
2 envelopes unflavored gelatin
3 chicken bouillon cubes
3 cups water
1 teaspoon tomato paste
1 teaspoon A. 1. Sauce
1 teaspoon lemon juice
Dash Tabasco sauce
¼ cup minced green pepper
½ cup minced celery
½ cup minced cooked carrot

Drain mushrooms, reserving broth and removing any bits of butter. Save several mushroom crowns for garnishing and coarsely chop the remainder. Soften gelatin in mushroom broth, then dissolve over low heat. Dissolve bouillon cubes in 1 cup boiling water, then add 2 cups cold water. Combine with the dissolved gelatin, tomato paste, A.1. Sauce, lemon juice and Tabasco sauce. Chill until the consistency of egg white.

Add green pepper, celery, carrots and chopped mushrooms. Mix well and pour into lightly oiled 9-inch pie plate. Chill until set. Slice reserved mushroom crowns and use to garnish top of aspic.

Serve cut in wedges, accompanied with mayonnaise to which a few capers may be added if you like. Yield: 6 generous servings.

Brazil Nut Sauce Dresses Beans

Chopped Brazil nuts with diced apples and celery provide a variation on popular Waldorf salad. Toasted Brazil nut slices in a lemon-butter sauce perk up vegetables, for example, green beans.

★ ★ ★

Brazil nuts, seeds of the hard shelled fruit of the parent tree, easily yield their nutmeats when boiled in water before cracking. Cover the unshelled Brazils with cold water; bring to a boil and boil 3 to 5 minutes. Drain; cover with cold water a minute then drain and crack. Many large nutmeats are obtained this easy way and there is less loss of nutmeats clinging to the shell. A pound of in-shell nuts yields about 1½ cups of shelled nutmeats.

Brazil Nut Green Bean Medley

¼ cup butter or margarine
½ cup sliced Brazil nuts
1 tablespoon lemon juice
3 cups hot cooked beans (1 pound)

Melt butter; add Brazil nuts and cook until lightly browned. Stir in lemon juice. Pour over hot cooked beans. Yield: 4 servings.

Started Down in Dixie

Strawberries were first grown commercially in the Southern states shortly after the Civil War, but the greatest development has come within the last few years in California, where 45 per cent of the national crop is now produced. Strawberries are grown in commercial quantities in 39 states.

Choose Variety Meats for Economy Buy

Bananas have no bones and neither do variety meats. With only one exception variety meats are all lean edible meat says the MSU Marketing Information Agent, Mrs. Josephine Lawyer. The one exception is fresh tongue from which the skin and connective tissue are removed after cooking.

There are approximately four 4-ounce servings per pound of heart, liver, kidneys, sweetbreads and brains. There are three servings per pound of tongue.

You can steam a fish by wrapping it in cheesecloth and placing it on a rack over two inches of boiling water in a kettle.

LAMB SHANKS — Lamb shanks, a less-tender lamb cut, receive added attention when prepared with dried apricots and prunes. The shanks are cooked by a moist heat method of meat cookery . . . either braising or cooking in liquid.

Stylish Lamb Shanks Cooked With Dried Fruit

Being delicate in flavor lamb shanks are easily combined with many flavors . . . flavors that enhance the appeal of this meat cut as a main dish.

In this particular recipe lamb shanks join forces with dried apricots and prunes to produce a dish known as Fruited Lamb Shanks.

This meat cut is also good when barbecued. This would probably become one of Dad's favorites. Lamb shanks can also be stuffed. A rice or bread stuffing is placed in the pocket left after the removal of the shank bone.

Remember, regardless of what lamb cut is being served, lamb is always served piping hot or cold . . . never serve lamb lukewarm.

Fruited Lamb Shanks

6 lamb shanks
¼ cup enriched flour
1 teaspoon salt
½ teaspoon pepper
3 tablespoons lard or drippings
½ cup water
1 cup dried pitted prunes
1 cup dried apricots

Dredge lamb shanks in seasoned flour. Brown slowly in lard or drippings. Pour off drippings. Add water, prunes, and apricots. Cover and simmer until tender, about 2 hours. Yield: 6 servings.

Turkey and Peas Added to Nippy Cheese Sauce

Have you tried Creamed Turkey a la Waffles? Simply cook the frozen peas according to instructions on the package, then drain. Next prepare medium thick white sauce and season with dry mustard, salt and pepper. Add grated cheddar cheese and stir until the cheese is melted. Add the drained peas and diced cooked turkey to the white sauce. Then serve hot over crispy, golden brown waffles and garnish with hard cooked egg circles.

Aluminum pans are pitted by salt. It's best to empty these pans immediately after using them to keep them in good condition.

Cook Rice Dish in Your Skillet

This is a delicious meat and vegetable meal. It's easy because most of the ingredients are canned, and it cooks in a hurry using just one utensil. There's golden whole kernel corn, white rice, red tomatoes and the convenient canned corned beef which adds a delightful flavor.

Onions cook several minutes in fat. Then rice, canned corned beef, corn and tomatoes are added. All these foods cook together, blending their flavors for 25 minutes. And —this skillet meal will keep hot if dinner is delayed.

Corned Beef, Vegetable Skillet

1 tablespoon cooking fat
1 medium onion, chopped (about ½ cup)
¾ cup uncooked white rice
1 teaspoon salt
¼ teaspoon black pepper
1 12 oz. can corned beef, broken up
1 12 oz. can whole kernel golden corn
1 303 can tomatoes and juice
1 cup water

Melt the fat in a skillet. Add the onion. Cook, stirring occasionally, until the onion begins to turn yellow. Add the rice, salt and pepper. Add the corned beef, corn, tomatoes and water. Bring to a boil. Turn the heat down. Cover with a lid and simmer 25 minutes. Add water if necessary. Serve from the skillet if desired. This recipe makes 10 servings.

Curried Fowl Calls for Rice, Nuts, Chutney

A chicken curry that's just right for four.

Chicken Curry

2 large chicken breasts (from broiler-fryers)
1 cup water
1 bay leaf
4 peppercorns
2 whole all-spice
¾ teaspoon salt
5 tablespoons butter or margarine
5 tablespoons flour
1 to 2 tablespoons curry powder
1 can (10½ ounces) beef broth
½ teaspoon onion powder
¾ cup heavy cream
salt, white pepper
salted nuts
mango chutney

Cut chicken breasts in half; place in 10-inch skillet with water, bay leaf, peppercorns, all-spice and ¾ teaspoon salt; cover and simmer until tender — about 30 minutes. Drain, reserving stock. Refrigerate stock so fat will come to top and may be removed. Bone chicken and cube.

Melt butter (part of it may be replaced by chicken fat from stock) in medium-sized saucepan over low heat; stir in flour and curry powder. Add beef broth, onion powder and 1½ cups chicken stock; if there is not that much stock add water to make that amount. Stir with whisk over moderately low heat until boiling and thickened. Stir in cream and cubed chicken; add salt and white pepper to taste. Simmer about 20 minutes.

Serve with rice, salted nuts and mango (Major-Grey type) chutney. Makes 4 servings.

Note: This curry sauce is just medium-thick, particularly good if dish is to be made a day before and reheated.

Cottage cheese is extremely perishable and should be kept covered in the refrigerator. Use it as soon as possible after buying.

Olive Oil Marinade Points Up Fish Flavor

Americans who think the only way to cook fish is to fry it are cheating themselves of some mighty good eating. The Spanish have a thousand different ways of cooking fish, and one particularly delicious and easy recipe is this:

Cut fish fillets (fresh or frozen) into thin slices then marinate in a mixture of 1 onion, chopped, 1 tablespoon minced parsley, 2 cloves of garlic, crushed, and ¼ cup Spanish olive oil. Let the fish stand in this an hour or so, then remove from the marinade and place in a shallow baking dish or casserole and put under broiler with reduced flame. Cook until delicately browned and fish flakes easily with fork. The olive oil marinade seems to point up the delicate fish flavor making it seem "meatier" and more zesty.

To make pan gravy, remove most of the fat from the roasting pan and add a little water. Bring to a boil, scraping up the browned residue on the bottom of the pan with a wooden spoon. Season to taste and strain gravy before serving.

Sanitize for PROTECTION

During the "cold" season, it's important to disinfect children's hankies, towels, undergarments. Use Roman Bleach, triple-action bleach which makes clothes *sanitary* as it whitens them. You get extra health-protecting benefits when you use Roman Bleach.

ROMAN BLEACH IS A DISINFECTANT

Apples Stay on Top as Bargain Fruit Buy

Changes in supply and price mean more decisions when you go food marketing. Will you compare cost between canned, frozen and fresh foods before you choose? Will you consider family preferences as well as dollars to spend?

★ ★ ★

If you wish to compare costs, these guides will help you make quick checks suggests the MSU Marketing Information Agent, Mrs. Josephine Lawyer. Most fresh fruits and vegetables will yield between three to five servings from each pound. A 10-ounce frozen food package will serve three; a pound package will serve four. A No. 303 can, most often used for vegetables, holds two cups or four half-cup servings. A No. 2 can holds two and one-half cups; a No. 2½ size can holds three and one-half cups.

MEATS

Since about 25 cents of every food dollar is spent for meat, budget conscious shoppers will keep a weekly check on the market situation. Generally, you can expect red meats to continue at high prices for total supplies are smaller than they were a year ago.

Some retailers say beef supplies are slightly larger than they have been, but consumer demands have been high. This supply - demand situation will keep costs up. Red meat items for the thrifty list include ground beef, liver and other variety meats, picnics and frankfurters.

Even though broiler and fryer supplies are shorter and prices higher, there are values to be found in the poultry department. Some markets will call your attention to roasters, stewers, turkey and fryer parts. Have you noticed that more fryers tend to be heavy meaty birds weighing three pounds and over?

If you want a change in the meat menu, why not check at the fish counter? Fresh smelt are being dipped from beneath the ice. There are adequate supplies of whitfish, perch, pickerel or cod.

EGGS

When a dozen large size eggs costs the same as a pound of meat, the eggs are just as good a buy in protein. If you apply this rule and compare present prices, you will find that eggs are one of your best protein values.

Pound for pound, large size eggs are usually the best buy at this time of year. Extra large eggs weigh only 3 ounces more per dozen than large eggs; medium size eggs weigh only 3 ounces less per dozen.

PRODUCE

Fruit and vegetable prices are very similar to those of last week or the week before.

Apples at 10 to 20 cents a pound continue to be one of the best fruit choices. They arrive cold and crisp from storage, but soon begin to shrivel and lose flavor if left at room temperature. Keep them just above 32 degrees for the best eating or cooking quality.

Michigan's hothouse rhubarb can now be found in some markets. It takes two pounds to make a generous 8 or 9-inch pie. A pound will make about four or five one-half cup servings of sauce. The leaves are not edible and should not be used.

Lettuce, cabbage, broccoli and potatoes may be kept on your list of vegetables in very adequate supply. When you look at prices of tomatoes, cucumbers and peppers remember that supplies are very short.

Winter pears and bananas wear similar price tags; are 20 cents or slightly less per pound.

If canned foods need replenishing, you will find markets highlighting corn, peas, beans, peaches, applesauce and canned juice.

Want to add a bit of summer to January meals? You may choose a few fresh Santa Rosa plums shipped in from Chili. Prices are about double what they will be during Michigan's fruit season.

Cooking chicken? Save the liver and cook in a little butter, then mash fine with a fork. Add the mashed liver to the stuffing for deviled eggs along with salt, pepper, salad dressing.

Boneless Chuck Ideal

Take boneless chuck; slice it very, very thin; tenderize with seasoned meat tenderizer; thread on skewers with small tomatoes and mushrooms; let stand at room temperature about 20 minutes, while you prepare a vegetable and salad. Pop the skewers in the broiler for 4 to 5 minutes and presto — dinner is on the table!

One half cup heavy cream, whipped, and combined with ½ cup sour cream, ¼ cup confectioners sugar, 1½ teaspoons grated lemon rind and 1¼ teaspoons ground cinnamon yields a first-class topping for 6 to 8 baked apples.

Village Woman's Club Welcomes New Members

Mrs. James J. Nance (right) greeted Mrs. Burton Miller of Birmingham as she arrived for the tea held in the Nance home on Lone Pine road Wednesday. The event was the annual membership tea sponsored by the Village Woman's Club.

Pontiac Press Photos

Mrs. John Gillette (right) of Birmingham was chairman of the tea sponsored by the club. She was photographed serving tea to Mrs. Parbury Schmidt (left) of Birmingham, a committee member, and Mrs. E. J. Sylvester of Birmingham, also a committee member.

Grouped together for a chat were (left to right) Mrs. Robert H. Taylor of Bloomfield Hills, Mrs. Donald L. Collins of Birmingham, Mrs. Ferd Broock of Bloomfield Hills and Mrs. Frederick E. Booth of Bloomfield Hills.

Women's Section

Florida Attracts Residents

Personal News of Area

Mr. and Mrs. Richard Mason of Silver Lake road have returned from a vacation in Florida where they spent most of their time deep sea fishing. Mrs. Mason found it very exciting when she caught an octopus off the Florida keys.

Making their headquarters at Fort Lauderdale, Mr. and Mrs. Mason traveled to the west coast, around the keys and back to Fort Lauderdale before returning home Wednesday.

★ ★ ★

Edythe Cussans, who has spent the past six months in Florida, has returned to the city and is residing with Mrs. Ethel Stage on North Perry street.

★ ★ ★

Mrs. Harry Randall of Wards Point has returned from St. Louis where she attended a conference of the National Association of Hair Dressers.

★ ★ ★

The Stoic Society, honor group for sophomore students at Eastern Michigan College who have earned a scholastic average of B or higher, has received new members, among whom are numbered two Pontiac students, Carolyn Henry and Marilyn Kay Stickle.

★ ★ ★

Judy Lou Elwell, daughter of Mrs. Grace Elwell of Dick avenue, and Pat Dernberger, daughter of Mrs. Helen Dernberger of Oriole road, joined 11 members of the Michifish, University of Michigan synchronized swimming team, in presenting a swimming demonstration at Birmingham High School recently.

★ ★ ★

Mr. and Mrs. Charles T. Allen (nee Anita Basso) of Pioneer drive are receiving congratulations on the birth of a daughter, Suzanne Lea, January 15 at Pontiac General Hospital.

Grandparents of the infant are Mr. and Mrs. Charles F. Allen of Watkins Lake road and Mr. and Mrs. J. W. Basso of Owosso.

Athlete Enjoys Brief Homecoming

Even if it's only for a few hours, for a constantly traveling professional athlete like Pontiac's Guy Sparrow, there's nothing like a visit home to see "Mom and Dad."

★ ★ ★

Mr. Sparrow, who starred at Pontiac High School and later at the University of Detroit, spent one of his rare days off from the National Basketball Association with his parents, Mr. and Mrs. Paul Sparrow of West Huron street.

SLEEP AND EAT

His plans for the 24-hour stay called for nothing more than to "sleep and eat." These plans, however went amiss.

★ ★ ★

After being greeted by his father at Willow Run Airport, Guy went home and took a little nap. Following a late breakfast, he visited with friends and worked out with the Pontiac Central High School basketball team.

A dinner engagement took up most of the evening and by 9:30 the next morning he met his New York Knickerbocker teammates who were arriving for an early workout in preparation for their game Wednesday evening with the Detroit Pistons.

★ ★ ★

Guy napped before the game and it paid off, for the "Knicks" trounced the Pistons 115 to 92.

WIFE STAYS HOME

He was married in November to the former Carolyn McNamara of Iowa City, Iowa. His wife stays in their New York apartment while Guy is on his long basketball trips with the Knickerbockers.

★ ★ ★

Mrs. Sparrow, however, plans to make the next trip when Guy plays in Detroit, Feb. 9, to spend the weekend with his parents.

On that night, a group of Pontiac fans will travel to Detroit's Olympia for what will be designated "Guy Sparrow Night." The bus trip is being sponsored by the Pontiac Jaycees.

Pontiac Press Photo

It's sure good to relax for a while with Mom and a good cup of coffee, professional basketball player Guy Sparrow thinks as his mother, Mrs. Paul Sparrow of West Huron street, pours a cup of coffee.

Parliamentary Study Group Holds Meeting

Mrs. Paul Gorman presided over a Wednesday meeting of Parliamentary Study Club which was held in Pontiac Masonic Temple.

Mrs. Lester Oles was in charge of the guest book, Mrs. William C. Pfahlert was leader and Mrs. John McNeely was sponsor.

Lessons for the day were limit debate, extend limits of debate and previous questions. Mrs. Joseph Panter presided over the question box.

Junior Group of Child Study Hears Speaker

Madeleine Half, director of Oakland Child Guidance Clinic, spoke on "Sex Education" Tuesday afternoon when Mrs. Harold Kendrick opened her Cherokee road home to members of Junior Child Study Club.

Cohostesses for the event were Mrs. Jack Brannack, chairman; Mrs. F. E. Bonner, Mrs. William A. Ewart, Mrs. Walter J. Wharton and Mrs. Robert O'Connor.

The club will join other child study clubs in the Pontiac area for a luncheon at Rotunda Inn Feb. 18. James Costar of Michigan State University will address the group.

Five Pages Today in Women's Section

Beauty Studied by Newcomers

Meeting Wednesday evening in the Sylvan Shores home of Mrs. Hugh Hales was the Newcomers Club of Pontiac.

Mrs. Hales was assisted by Mrs. Gordon Hayter, Mrs. Paul Thams, Mrs. W. C. Caverly and Mrs. Gordon Low. Mrs. William Forbes was received as a new member.

★ ★ ★

Mrs. Merle Berry and Mrs. George Coker conducted a beauty program entitled "Glamorizing You."

Budget Fashion Demonstrated to Soroptimists

A demonstration, "Wardrobe Magic," showing that the resourceful woman can dress well on a small budget was presented by Mrs. John Baer of Royal Oak when the Soroptimist International of Pontiac met Wednesday at Fox and Hounds Inn for a dinner celebrating the local club's 11th anniversary.

★ ★ ★

Mrs. Baer used collars, buttons, stoles, boleros, belts, flowers and jewelry to create 10 distinctive ensembles from two basic dresses.

★ ★ ★

Guests of the day included Mrs. John McCulloch, Mrs. Harmon Lawyer and Mrs. J. H. Helps of Davisburg. Mrs. Howard Decker was welcomed as a new member.

Serving on the arrangements committee were Mrs. Maurice Wilcox and Mrs. Roy Maxwell.

Guests Describe World Tour

Wesleyan Guilds Gather

Dr. Sarah Van Hoosen Jones and Alice D. Serrell of Rochester were special guests when the Junior Wesleyan Service Guild of Central Methodist Church entertained the Ella Nickerson and the Sylvia Aldrich Wesleyan Service Guilds at a cooperative dinner held at the church Tuesday.

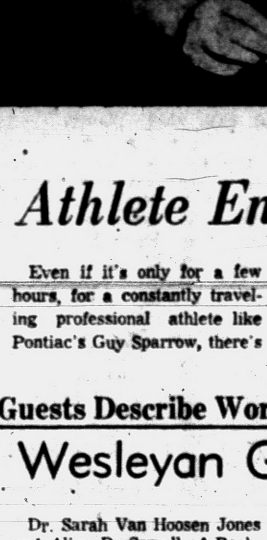

★ ★ ★

Dr. Jones presented a lecture entitled "80 Minutes Around the World." Both women made a world tour, visiting South America, the Union of South Africa, China, Japan, Hawaii and many other places of interest, about a year ago. During the discussion Miss Serrell showed colored slides to an audience of nearly 100.

A short worship service was given under the direction of Jean McLeod, with Mabel Smith, Ruby Julian and Helen Kinney participating.

★ ★ ★

Mary Mitchell, Wesleyan Service Guild Flint District secretary, announced that a meeting of the Detroit Conference Women's Society of Christian Service and Wesleyan Service Guild will be held at Fenton Jan. 31.

MAUREEN SLOSSON

A bachelor of science degree in education and a teacher's certificate will be awarded to Maureen Mae Slosson at commencement exercises Jan. 26 at Eastern Michigan College. Miss Slosson is affiliated with Sigma Nu Phi sorority. She is the daughter of Mr. and Mrs. T. N. Slosson of Woodbine drive and will teach in Grand Rapids.

Dummy at Bridge Shouldn't Chatter

Remember when you are dummy during a bridge game that even though you don't have to concentrate on the game, the other players do.

So don't start chattering the moment you lay down your hand for your partner to play.

Italian Version Unveiled in Florence

Husband-Wife Designers Vary the Sack

FLORENCE, Italy (AP) — Rome's husband and wife fashion rivals, Fabiani and Simonetta, won the approval of a critical audience with some variations on the Paris-dictated sack line.

They showed their spring and summer collections at the Florence fashion openings last night.

Both hiked the hem to barely cover the knees.

FULL AS BALLOONS

Simonetta — the wife — showed sack dresses that were full as balloons from the bust to the tightly banded knee-high bottom. Waistlines disappeared.

★ ★ ★

Her coats, wide necked with huge shawl collars, followed the same rounded line. The most handsome were of fuzzy white mohair, a fabric enjoying great success this season.

Some of the coats were loosely belted in back. Any pockets were placed so low they were almost beyond arms reach.

Bows instead of buttons fastened coats and jackets.

STRINGS OF PEARLS

Models wore strings of pearls longer than their dresses, and hats with wide, stiff face veils.

★ ★ ★

For evening the Simonetta sacks went very, very airy in lace chiffon and floating organza.

★ ★ ★

Fabiani was far more restrained, though he worked along the same lines. His suits, dresses and coats followed the sack line. But his mohair suits —with short, short skirts — looked slim despite their slack waists.

Dear Abby....

Birthday, Anniversary Too Close for Comfort

By ABIGAIL VAN BUREN

DEAR ABBY: You see, my husband and I had to get married. I know we're not the only ones that happened to, but my problem is that we have a darling daughter. When she gets old enough she will figure out that she will be six years old in June and we will have been married only six years in January. How can we explain this to her?

WORRIED

ABBY

DEAR WORRIED: It's easier to soft peddle your anniversary date than it would be to soft peddle her birthday. The less said about this, the better, but if you MUST make an issue of it, pick yourself a nice date in September and celebrate your "anniversary."

★ ★ ★

DEAR ABBY: I got attracted to a single man but I am a married woman. He told me to leave my husband and get a divorce because he doesn't care to have anything to do with married women. I told him that my husband could give me everything but love and I had been living without love for twelve years before I met him and didn't want to lose everything on the chance of ending up alone. What I mean to say is this man who I love don't say if he will marry me or not after I leave my husband, but he is all for me leaving my husband. Should I leave him on speculation?

WONDERING

DEAR WONDERING: Stick with your husband and tell the single man to get lost.

★ ★ ★

DEAR ABBY: I am a fellow who is 22 years old. I can't help it—I blush all the time. What should I do?

BLUSHING

DEAR BLUSHING: Think of something else!

★ ★ ★

DEAR ABBY: We recently built a home. It was a lifetime dream come true. We live in a lovely neighborhood, but one thing spoils it for us. A family a few doors down has a dog for their little boy. They keep this dog tied up and the poor little thing suffers such abuse from that little boy, it breaks my heart when I see him from my kitchen window. The boy tortures him with stones and pulls the rope tight around his neck. The dog cries and cries. I don't like to stick my nose into my neighbor's business but maybe if you print this I will clip it out and slip it into their mailbox.

A DISTURBED NEIGHBOR

DEAR DISTURBED: First tell his parents — and if the little boy continues to abuse his pet—call your Humane Society.

★ ★ ★

CONFIDENTIAL TO ROSIE: Don't go any further than you can walk home.

★ ★ ★

If you have a problem, write to Abigail Van Buren in care of The Pontiac Press. She will be glad to answer your letter. For a personal reply, please enclose a stamped self - addressed envelope.

When the steamship Titanic was sunk in 1912 by an iceberg off the Newfoundland coast, 1,317 lives were lost.

Pontiac Press Photo

Finishing the invitation list for the annual Daughters of Isabella card party, to be held Monday, are Mrs. Nora Ashton (seated left) and Mrs. Robert Landry (seated right). Mrs. George Michaels (left) and Mrs. Warren Cosgrove (standing center) give them a few helpful suggestions.

Women of Moose Slate Conference

Women of the Moose, Pontiac Chapter 360, have made final arrangements for the midwinter conference which they will hostess Sunday at the Moose Hall. Conference leader will be Hattie Phillips of Mount Clemens.

It was announced when the group met Monday evening that members have been invited to Dearborn for the College Chapter Night in February. Mrs. Ferman Huston, Pontiac's college chairman, will be in charge of the event.

JACQUELINE ROWE

Mr. and Mrs. James Rowe of Auburn Heights announce the engagement of their daughter, Jacqueline Lee, to Pvt. Richard R. Weir, son of Mr. and Mrs. Ralph Weir of Fiddis street. No date has been set for the wedding.

Card Party Is Arranged by Daughters of Isabella

Mrs. Nora Ashton, regent of Daughters of Isabella, is general chairman for an annual card party to be held Monday evening in St. Michael Hall.

★ ★ ★

She is being assisted by Mrs. John Stevenson and her ticket committee, and by Mrs. George Michaels, hostess chairman, aided by Mrs. Joseph E. Gilson, Mrs. Mildred Palmear, Mrs. R. F. Stringle, Mrs. George Winters, Rose Griffin and Mrs. William Robertson.

Mrs. Robert Landry and Mrs. Duane Heaton are cochairmen of prizes, assisted by Mrs. Louis Koprince.

Mrs. John Scharfenkamp is in charge of the dining room. Members of her committee include Mrs. Francis C. Pruente, Mrs. Benjamin Bidwit, Mrs. Earl Adams, Mrs. Merle Berry and Mrs. John O'Neil.

★ ★ ★

Mrs. Constant DeJager is refreshment chairman aided by Mrs. Robert Gallo, Mrs. Omer De Coninck, Mrs. John S. Keeling, Mrs. J. L. Bookie, Mrs. Stephen A. Turner, and Mrs. Arthur Birchmeier.

In charge of entertainment is Mrs. Warren P. Cosgrove, and Mrs. E. J. Duffy is publicity chairman.

Chapter AW of PEO Marks Founders' Day

Mrs. Archie McKillop of Gladwin was a visitor when Mrs. R. M. Williams opened her Dick avenue home to Chapter AW of PEO.

★ ★ ★

A Founders' Day program was given at the Monday evening meeting under the chairmanship of Mrs. Ashton Emery, Marian Emery and Mrs. James Boaz. Mrs. John Little, president, read the president's annual letter.

Mrs. Little will open her Bloomfield Hills home for the next meeting.

Gold Star Unit Names Heads of Committees

Mrs. Luisa Mayotte was installed as Sergeant - at - arms of American Gold Star Mothers, Oakland County Chapter 34. Mrs. Olive Burgess was the installing officer at Adah Shelly library.

★ ★ ★

Mrs. Burgess was named membership chairman at the Wednesday meeting. Mrs. Vivian Sutton will serve as hospital chairman; Mrs. Evelyn Knickerbocker, ways and means chairman; Mrs. Irene Briggs, sunshine chairman, and Mrs. Eva Welch, publicity chairman.

★ ★ ★

Plans were made for an early spring bazaar and bake sale. The Feb. 21 meeting will be held in Adah Shelly Library.

Areme Unit of OES Has Officers' Night

Mrs. Clyde Elliot ad Mrs. Bernard Garner were initiated into Areme Chapter 503, OES, Monday night at Roosevelt Temple. Officers' Night was held, with 270 members and guests present.

Guests included Russel Monroe, associate grand patron of Grand Chapter of Michigan; Mrs. Roy Wilton, past grand Martha, and Mrs. Beatrice Mundy, past grand warden of Grand Chapter of Michigan.

Is It Dry or Oily?

Selecting a face powder depends not only on skin color but whether the skin is dry or oily. A lightweight powder is best for a dry skin while oily skins require heavier powder.

Undergoes Surgery

Mrs. John Vanderlind of Judson street is recovering from surgery performed at Pontiac General Hospital.

Don't Look Like Your Wife's Dad!

By JOSEPHINE LOWMAN

Men! Better balance the picture! Everywhere women are dieting and exercising and becoming or remaining slim, good looking and radiant. What man wants to be taken for his wife's father!!?

It is true that women actually have turned the clock of age back at least 15 or 20 years. They became interested in weight and figure control much sooner than men.

Men should like this because the little ladies took the trouble in order to please them. However — a bay window looks no more attractive on a man than a protruding abdomen does on a woman.

It adds years to his appearance and fatigue to his life. The abdomen seems to be the first place to give a man's age and condition away. Overweight, lack of exercise, and a rich, heavy diet may lead to shortness of breath, weariness, high blood pressure, heart trouble and many other disagreeable and dangerous conditions.

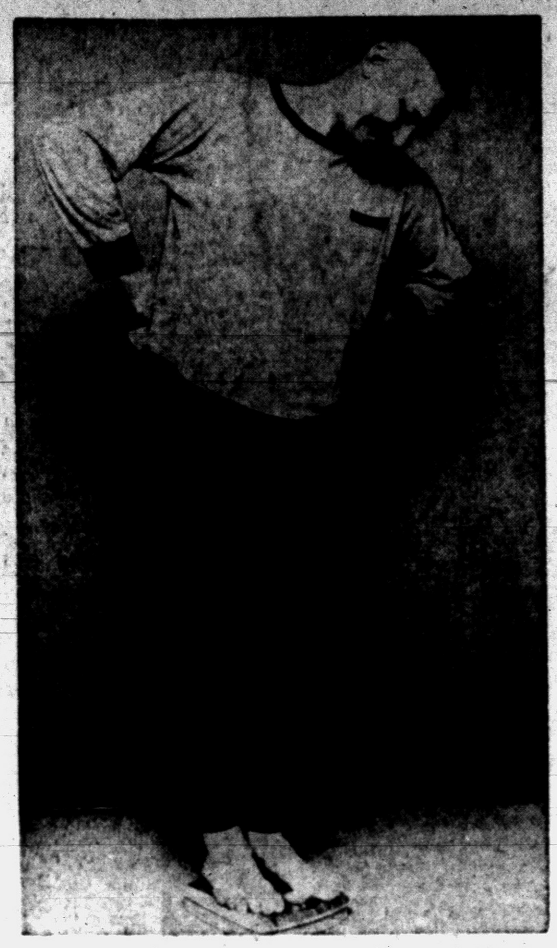

* * *

Women demand much less stringent standards of attractiveness in their men than men do of their women. Nevertheless, they like to see you look attractive. Few of them dislike irregular features or a balding head but they are drawn by good posture, vitality and good grooming.

RUSHED EXISTENCE

I know you are busy. I know you lead a rushed existence, but you are unfair to her as well as to yourself unless you have an interest in remaining as attractive and as youthful as possible.

Here is an exercise for that bay window. Have your heart and blood-pressure checked and get going!

Better check that weight. A bay window looks no more attractive on a man than a protruding abdomen does on a woman.

Lie on the floor on your back with your hands clasped behind your head, legs straight. Bend the elbows forward by your face and lift your head as you bend the knees up close to the abdomen. Touch the elbows to the knees. If you can't do it you probably cannot see your shoestrings when you stand up. Return elbows, head and legs to the floor and continue.

If you would like a flying start on a reducing program, you may want my Tubby Hubby Diet which gives you a loss of from 7 to 12 pounds in 12 days' time. If so, send 10 cents and a stamped, self-addressed envelope with your request to Josephine Lowman in care of The Pontiac Press.

* * *

Tomorrow: "Question Box Is Devoted to Men on Tubby Hubby."

MARY F. PIKE

Mr. and Mrs. Lawrence Pike of Gladstone place announce the engagement of their daughter, Mary Frances, to Harvey V. Render, son of Mr. and Mrs. Thomas Render of Navajo drive. The prospective bridegroom was graduated from St. John Academy

Women When Ladylike Can Bring Back Chivalry

Men Like to Receive Appreciation for Their Displays of Courtesy

By RUTH MILLETT

"They don't bother to say 'thank you' any more, do they?" a man said to his companion. He had just held a heavy door for a woman shopper who swept through it without even bothering to glance at the gentleman who had come to her assistance.

That's a pretty sad indictment of the manners of American women, isn't it?

But it may explain, in part, why so many men today don't bother to give a woman a seat on a bus or subway, or remove their hats in elevators, or step back to let women precede them in a crowd.

If women aren't feminine enough to appreciate being treated like ladies and say a smiling "thank you" for small courtesies, why should men bother to extend those small, helpful gallantries?

Unless we want to give up such special attention for good, maybe we women had better start making a real effort to show men that we appreciate their treating us like women, even though we may be just as able as they are to shove our way through crowds, struggle with heavy doors, stand up in buses, etc.

* * *

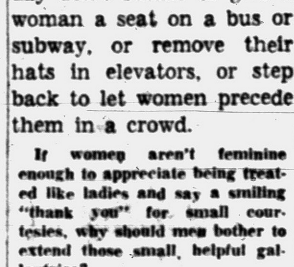

Instead of jumping to help ourselves, we ought to slow down enough to give men a chance to do little things for us.

When a man is helping a woman, the fact that his strength is serving her makes him feel more masculine. And when a woman is gracious in her appreciation for a man's help she naturally feels her most feminine.

We live at a fast pace today. But surely it isn't so fast a pace that both men and women can't slow down enough to enjoy emphasizing each other's femininity and masculinity.

* * *

So let's encourage the men to act like gentlemen—by acting like ladies ourselves.

A successful man is one who keeps looking for work after he has found a job.

Teenagers Prefer Professions to Presidency

They Don't Want to Live in the White House

By EUGENE GILBERT

"If nominated, I shall not run; if elected, I shall not serve."

It doesn't take much interpretation of that statement to determine that Gen. William T. Sherman didn't want to be president.

And it doesn't take much interpretation of our latest poll to determine that an amazingly high percentage of American youth just doesn't want to be President either.

The poll takers asked the young people flatly:

"Would you like to be President of the United States?"

Only 8 per cent of the boys and 2 per cent of the girls said yes.

★ ★ ★

But here's a switch: 11 per cent of the boys and 25 per cent of the girls would be happy to have a son become president!

NOT WORTH IT

Most of the boys, however, saw the presidency in the same light as Robin Brown, 13, a Hewlett, N. Y., high school freshman.

★ ★ ★

"I can't see any young boy who'd like to become president with the problems and the world tension surrounding us today," he said. "It's just not worth it."

Sarah Lee Saunders of Denver put the same idea in a lighter vein.

"Problems! Problems! Problems!" said Sarah, adding, "And I don't know how to play golf!"

★ ★ ★

If the great majority of young people don't want to be president, what do they want to be?

PREFER PROFESSIONS

We asked that question on another occasion and 55 per cent told us they plan to enter one of the professions—science or engineering, teaching, medicine, law and the like.

★ ★ ★

Two-thirds of these professionally-minded young people said they want to serve mankind.

At the same time, 52 per cent expressed the opinion material rewards are higher in the professions than in other lines of work.

Perhaps it won't come as a great surprise to find the girls more influenced by service opportunities than boys. Five out of six girls said being of service is most important while only slightly more than half the boys gave the same answer.

★ ★ ★

"Professions allow you to serve the community, be independent and live comfortably," said Charles G. Stemwedel, 19, of Kenilworth, Ill., touching all the bases.

MORE RESPECTED

"Professional men appear to be more respected than most," added 19-year-old Forrest T. Patterson of Burlington, N. C.

★ ★ ★

Some of our viewers-with-alarm will be glad to note that science and engineering together scored a high of 29 per cent on the popularity list. One girl in eight has her eyes on science as a career.

Teaching and medicine, each with a 25 per cent rating, were other favorites.

Generally, it was the girls who held teaching in the front rank. Only 1 out of 10 boys desires to be a teacher while half the girls said they plan to enter the field.

★ ★ ★

It is interesting to note that the desire to teach apparently rises in the young men as they grow older. Only 2 per cent of those 13-15 years of age call themselves prospective teachers. In the 16-and-over group, the figure is 15 per cent.

LURE OF MEDICINE

More girls than boys plan to enter the medical profession. Our figures for that category were: Girls, 30 per cent; boys, 22 per cent.

★ ★ ★

"Medicine is remunerative, respected and enjoyable," said Edward S. Beneville, 18, of Ithaca, N. Y.

"I like people and always want to help them," said Paula McAuley, a 16-year-old from New Rochelle, N. Y., who has nursing ambitions.

A career in law drew the nod from about 1 in 10 while less than 2 per cent told of plans to become clergymen.

One in 10 plans a professional career but is not yet sure of the field.

Married Saturday in First Baptist Church were Wilma D. Mattingly, daughter of Mr. and Mrs. Willie Mattingly, and Raymond Jones, son of Mr. and Mrs. Silas Jones.

MR. and MRS. RAYMOND JONES

Wilma Mattingly Speaks Vows in Baptist Service

One hundred guests witnessed the Saturday evening marriage of Wilma Delores Mattingly and Raymond Jones. The Rev. William E. Hakes performed the ceremony in First Baptist Church.

★ ★ ★

Parents of the bride are Mr. and Mrs. Willie Mattingly of Robinwood avenue, and the bridegroom is the son of Mr. and Mrs. Silas Jones of Pineville, Ky.

The bride chose a floor-length gown of Chantilly lace with nylon tulle. Scalloped, clipped lace edged the high, round illusion neckline and hipline.

A fingertip veil of lace and tulle was held in place by a beaded crown. She carried an arrangement of lilies-of-the-valley, fern, white roses and a white orchid.

★ ★ ★

Her sister's honor attendant was Shirley Ann Mattingly. She was gowned in an apricot taffeta dress of floor length.

Junior bridesmaid Mary Ann Buckley and flower maid Denise Ann Younger were dressed like the honor maid.

Miss Mattingly carried an arrangement of apricot roses and white chrysanthemums, the junior bridesmaid carried white carnations and apricot roses, and the flower maid carried a basket of rose petals.

Jasper Jones of Pineville, Ky., acted as his brother's best man. The guests were seated by Earl William Hudnell, uncle of the bride, and Samuel C. Christopher of Pineville, Ky.

★ ★ ★

For a reception in the church parlors Mrs. Mattingly chose a dress of light blue lace over blue taffeta with navy accessories and a pink rosebud corsage.

For traveling through Ohio and upper Michigan the new Mrs. Jones changed to a light blue faille sheath dress with black accessories and an orchid from her bridal bouquet. The couple will live in Wixom.

Father, Son Dinner Will Honor Team

A father and son banquet for the Championship Wilson School Rams football team will be held Friday at 6 p.m. in the school auditorium. Speakers will be Frank D. Thompson, league director, and Glen Husted, school principal.

Mrs. Sydney Gregory is chairman of the dinner.

Maccabees Unit Has Installation of New Officers

Mrs. Earl Riley was installed Tuesday as commander of Cora M. Eves Tent Hive 247 of Maccabees in a ceremony at the American Legion Home.

★ ★ ★

Larry F. Ayers, great commander of Detroit, was the installing officer, assisted by Mrs. Edwin Hoppe, installing director; Blanche Spencer, installing chaplain, and Ella Howland, installing musician.

Others installed were Mrs. Arthur Witt, past commander; Mae Worth, lieutenant commander; Golda Coldwell, record keeper; Mrs. William Lennex, assistant record keeper, and Mable Erickson, chaplain.

★ ★ ★

Mrs. Robert Boggs gave a reading and Carol Opland sang. Maxine Murphy was pianist.

Mr. and Mrs. Ayers of Detroit were guests.

Recipe Corrected

CORRECTION! In the recipe for making Corned Beef, published on Wednesday, the water called for to cover the meat should be COLD.

Fur or lace trimmed sweater as a formal for resort wear is a top fashion worn by all ages, all sizes over all fabrics in dresses.

The luxury sweater has a special niche as a formal for resort wear. Elaboration, front and back, in lace bands, sable, mink and fox-collared, makes the sweater the easiest-to-travel formal wrap and for daytime occasions as well.

An easy-moving after-dusk sheath of emerald green silk crepe has a cowl neckline, waist-hugging sash and tapered bias skirt which is tucked at the hips.

Color Gives Face-Lift to Kitchens

White Ruled Out for Room Used as Headquarters

PHOENIX, Ariz. (INS) — The American kitchen — that "laboratory-white" sweatshop of grandmother's day — is in for further face-lifting in 1958 with color and step-saving efficiency the keynote of up-to-date homemakers.

So says Ruth Kruger, home economics specialist of Arizona Public Service Company, who points out that the kitchen has established itself as family headquarters and should be planned as such.

"Modern housewives are demanding more in their kitchens today," Miss Kruger said, explaining it has "evolved into an entertainment, dining and family conference room."

"A telephone and a desk are as important to milady in her kitchen now," she said, "as they are to the business executive in his office.

"And the kitchen should be planned with as much detail as an efficiency expert gives to the laying out of a mass production factory with enough space to handle all the appliances, leaving room for children so that mother may babysit while she works."

The kitchen sink, the expert stressed, is still the hub of the room but instead of being the spotless white of "pre-color" days it is now installed in a variety of eye-pleasing shades, giving a "cozy, livable atmosphere to the entire home."

The all - important sink has a garbage disposal unit and an attached dishwasher.

The other primary kitchen centers, she said, are the range and refrigerator, also in color, and they must be placed in relation to the sink in a triangular pattern so that wasted steps are eliminated.

Work spaces must be located adjacent to each of the three points for further efficiency, Miss Kruger declared, and adequate lighting is as essential to a well-planned kitchen as it is to the living room.

If you are smoking a cigarette while waiting for an elevator, be sure to put it out before you enter.

Few, Large Accessories Are Best in Living Room

FORT COLLINS, Colo. (INS) — Colorado State University home furnishing expert Mary Grindstaff says when arranging accessories in your living room, keep them few and large.

★ ★ ★

Miss Grindstaff says a large number of knick-knacks often add to the clutter and make the room look busy and restless.

Just as jewelry should be selected to enhance your costume — so the accessories, or the "jewelry" for your room, should add to the appearance of the room.

Each pillow, vase, tray, picture, mirror or lamp in the room should be chosen carefully with the entire room in mind. Then consider color, design, texture and the place you will use each accessory.

★ ★ ★

Miss Grindstaff offers the following suggestions for arranging the accessories:

— A bright accent color may be used in very small amounts and can repeat or contrast with other colors in the room. But be careful not to overuse a bright color or you will get the uncomfortable "busy" look.

— The appearance of accessories should be suited to their function, not a disguise. A lamp should look like a good light source; a pillow should look like comfort, rather than a fussy decoration that looks and is uncomfortable.

★ ★ ★

— It's possible to mix old and new things, but don't use heavy-looking and delicate accessories together, and don't combine too many different kinds of textures and colors.

Mr. and Mrs. Ernest Borglin of Detroit announce the engagement of their daughter, Barbara, to Thomas Stinson, son of Mr. and Mrs. Lester Stinson of Birmingham. The bride-elect attended Northwestern University and is a member of Alpha Phi. Her fiance attended Albion College

BARBARA BORGLIN

January-March Group Lists Committee Heads

Committees for the year were announced when Mrs. William D. Thomas of Shore View drive opened her home to members of the January - March Group of First Presbyterian Church.

The president of the group, Mrs. H. E. McCulloch, announced that Mrs. Roy G. Ashwin will head the Bible study committee and Mrs. Mahlon A. Benson Jr. will head social activities.

Others in charge of committees are Mrs. George Cram, thank offering; Mrs. H. J. McGrath, social education and action; Mrs. John Main, hospitality; Mrs. Floyd Phillips, flowers; Mrs. Robert Will, telephone, and Mrs. E. G. Clark, publicity.

Additional committee heads include Mrs. C. H. Tompkins, membership; Mrs. Thomas and Mrs. Lawrence McCann, missionary education, and Mrs. W. J. Baumgartner, hostesses.

Assisting the hostess at the Tuesday affair were Mrs. Cram and Mrs. Ashwin. Mrs. McCann and Mrs. Ashwin presented the day's program. A guest of the group was Mrs. McCulloch's daughter, Mrs. John McVicker of St. Louis.

Reliable 12 Meets With Mrs. O'Neil

Mrs. Blanche O'Neil opened her home on Hudson avenue for a cooperative luncheon when members of the Reliable 12 Club met Tuesday.

The group discussed plans for earning money for crippled children, its project for the year.

The next meeting will be held at the home of Mrs. Alberta Trask on Hudson avenue.

Must Return Gifts She's Exchanged

Broken Betrothal Creates Awkward Situation

By EMILY POST

"Dear Mrs. Post: About two months ago I was given a bridal shower. I received many lovely presents, but several of them were duplicates. Soon after the shower I exchanged the duplicate presents for things I did not receive and needed.

"Last week my engagement was broken. I would like to know what I am to do about returning the presents that I exchanged.

"Do I return the item I took in exchange for the original gift, or must I buy a duplicate of the present that was given me and return that? I would be very grateful for your help in this matter."

★ ★ ★

Answer: If you can go to the store and exchange it back for the original present that would solve your problem. Otherwise, the only thing you can do is to explain frankly that you exchanged the present for something else and that you are returning it in place of the original.

★ ★ ★

"Dear Mrs. Post: Might it be too impersonal to let the funeral director take care of the customary fee to the officiating clergyman at the funeral?"

★ ★ ★

Answer: **If the clergyman who officiates is a stranger to the family, perhaps even someone arranged for by the funeral director, his fee may be given impersonally.** Otherwise, a member of the family generally prefers to take care of this, at the same time thanking the minister for his kindness.

"Dear Mrs. Post: A friend of mine brought a friend of hers to my house the other afternoon. She was a stranger to me and also to the other people present. Should I or the friend who brought her have introduced her to the others?"

★ ★ ★

Answer: As a rule it is always better that a stranger, no matter where, be introduced by the person who accompanies her (or him) rather than the hostess.

The reason for this is that the hostess may not remember the name of the stranger, and nothing could be more awkward than having to ask someone under her own roof, "Please tell me your name."

Gathering Held by Bible Class of First Baptist

Forty-five members and guests were present Tuesday evening when Fellowship Bible Class of First Baptist Church met at the church.

★ ★ ★

Speaker for the evening was the Rev. T. R. Allebach, pastor of Oakland Avenue United Presbyterian Church, whose topic was "The Sunday School."

★ ★ ★

Joe Davis, Kenneth Young, Merlin Asplin and LaVerne Cox sang, accompanied by Maxine Murphy. Mr. and Mrs. I. J. Davis and Mr. and Mrs. Ray Linabury were in charge of the program.

Earplugs, Masks Might Help You

Earplugs and eye masks may sound foolish to some persons. But shutting out disturbing noises and lights may be the key to sound sleep.

Try them long enough to see if they are what you need.

598

by Laura Wheeler

A handsome set for modern or traditional homes. Simple filet crochet with K-stitch sets off the deer design.

Pattern 598: Crochet directions, chart for chair back 12½x16 inches, armrest 6x8—in No. 50 cotton. Make scarf ends, too.

BIG AS A TRUCK — This huge aluminum body with a capacity of 37½ cubic yards is the largest ever built for a dump truck. The truck is 30 feet, 3 inches long, 12 feet, 4 inches wide, 11 feet, 11 inches high and weighs 54,000 pounds. Built by Mack Trucks for the Aluminum Company of America, it will be used in bauxite mining operations in the Dominican Republic. The truck, for off-highway use, is powered by a 335-horsepower turbocharged diesel engine, carrying a load of 67,000 pounds.

Mounted Flakes of Stone

Saw Is an Ancient Tool

WASHINGTON—Cave man, no less than the do-it-yourself enthusiast of today, could hardly get along without a saw.

The first saws were serrated flints. Then man learned how to mount flakes of stone in a grooved piece of wood or bone. However crude, this composite tool with teeth was the forerunner of the powered chain saw that has been such a boon to the lumber industry.

The saw of tomorrow, forest researchers say, will be a ray that can cut a log swiftly and cleanly without leaving sawdust. The ray's intense heat will plane boards during the cutting process.

* * *

The origin of the saw can only be conjectured. One legend says the inventor got the idea from the spined snout of a sawfish; another holds that the saw was inspired by a wasp's toothed sting.

More likely man devised the saw out of sheer need, the National Geographic Society says. Flint saws have been found in Stone Age caves. With them, paleolithic hunters gained mastery over bone, antler and ivory, developing a kit of tools.

In civilized societies the saw was even more important. Most wheels mare before 2000 B.C. were tripartite wooden disks. It is not easy to imagine how boards could have been cut into segments of a circle without a saw of some kind. Metal saws have been unearthed from graves at Kish, one of the more important ancient cities of Sumer.

The Greek physician Hippocrates, who was born in 460 B. C. performed skull surgery with a small instrument akin to today's circular saw.

Whatever the origin, the saw was an old tool when Moses lived in Egypt. The handsaw assumed its present appearance—blade and pistol-grip handle — in that ancient land.

* * *

The saw owes much, of course, to metallurgy. In the Stone Age, flint saws were thick and cumbersome. Not until copper and bronze became available could toolmakers devise elongated, efficiently toothed blades.

Even so, the Iron Age came before toolmakers learned to rake the saw's teeth in one direction. Armed with the frame and crosscut saws of the Iron Age, woodsmen had a definite advantage over the tree.

Water-powered sawmills appeared in Europe in the early 14th Century. From Europe, young America got first the water-powered up-and-down saw, then the circular saw, and the band saw.

* * *

Logging played an important part in the building of the United States. The first export shipment included pine clapboards transported from Jamestown to England in 1608 by a Captain Newport.

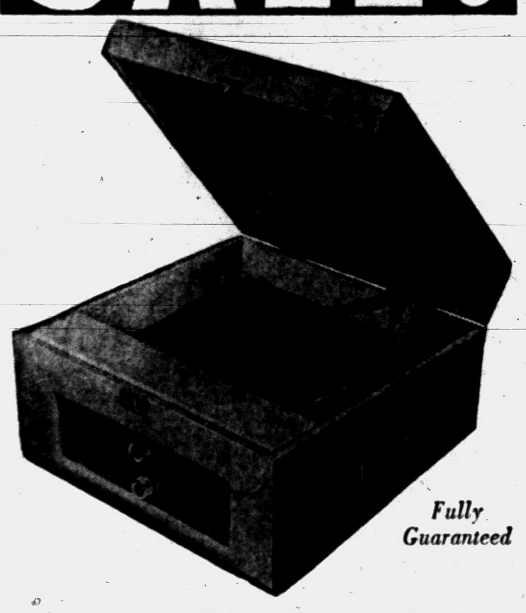

Though logging is one of the oldest American industries, the saw was one of the last pieces of woods equipment to become mechanized.

It has never been easy to negotiate ravines, slopes and the underbrush of forests with heavy cutting equipment. But the development of lighter, tougher metals has made it possible in recent years to build an easily portable chain saw.

Even today, however, making a saw that will stand the terrible punishment of gnawing into living wood, metal and other materials remains one of the most exacting jobs in the tool industry.

Steel scrap provides about one-half of each ton of newly made steel.

The Detroit Tigers have decided to protect themselves against losing teams or bad weather conditions.

They're not doing it with insurance policies, but by initiating a season ticket plan together with an outstate chain of offices for advance ticket sales.

For many years, under the old philosophy of the late owner Spike Briggs, Sr., the thoughts followed the line that, ALL TICKETS for every game should be available to anyone.

The concept is good as long as competition is nil and while the team involved is winning.

★ ★ ★

But professional athletics are now in the class of big competitive business. The huge stadia across the country must be filled to pay maintenance costs and salaries of today's pro athletes.

The Tigers have fallen in line with the rest of the Major League baseball cities. Detroit is the last to offer a season ticket plan.

Presently, however, the current season plans would hardly appeal to the individual average baseball fan. There are very few individuals who could pay $222 for a box seat and especially with the rider that he must buy four seats in the box. This would be $888.

★ ★ ★

However, large businesses and organizations will have the opportunity to buy such boxes, and several thousand dollars in the till before the season starts will at least give the Tigers many financial assurances.

Under the direction of Bill Loll, the director of ticket sales, and Bob Steinhilper, his laiason man with outstate sales, 10 cities in Michigan have been designated to handle Tiger tickets.

Pontiac was thought of as a site, but was tabled as a possible future outlet. Nearest ticket locations are Detroit and Flint.

★ ★ ★

"We thought it would be too cumbersome to have more than 10 locations in Michigan," said Steinhilper, "but we have not eliminated Pontiac as a future ticket point."

Steinhilper said that the ticket department expects to make available for sale to outstate fans a reasonable allotment of choice seats in proportion to the demand, and 10 locations would not stretch the best seats too thinly.

We think that the Detroit professional teams often tend to under-estimate the tremendous fandom located in Oakland County, the second largest county in the state.

OAKLAND COUNTY SECOND

Figures now show that in the past seven years Oakland County populace has grown to 615,000 which is 200,000 more than the third ranked county

None of the Detroit athletic organizations make concentrated efforts to give easy access for tickets to county residents. We think they are missing the boat.

Besides, there are a lot of people who just won't pay the long-distance charge to Detroit or Flint, to buy tickets in advance.

BATTERED — Tony DeMarco, one time welterweight title holder from Boston, examines his battered face after taking a bad beating from Virgil Akins in their fight on Tuesday night. Akins won on a 12th round TKO. DeMarco's managers fear it was his last fight.

Watrous Five Strokes Behind Mortie Dutra

Special to The Pontiac Press

DUNEDIN, Fla. — Defending champion Al Watrous could devote Thursday to rest and a few practice putts as he waited for the younger players to shoot their opening rounds in the PGA Seniors' Golf Championship.

Watrous and the other veterans in the 55-and-over bracket played their first 18 yesterday and the dignified Birmingham, Mich., swinger turned in a steady 74 for a spot five strokes behind Mortie Dutra of Calexico, Calif., the leader.

"I played about 71 golf," said Watrous, whose victory last year was his third in the seniors'. "But I wasn't putting well at all so I didn't score. The longest putt I sank all day was a four-footer on the short 11th hole for my par."

The 57-year-old Watrous got only one birdie. That came on the 533-yard No. 7, where he pitched up three feet from the hole and sank his putt for a four. He took three putts from the edge at No. 3 and caught a trap on the next hold, taking bogies. He went over again at No. 12, where a wedge shot hit the top of the elevated green and rolled back down.

★ ★ ★

Bill Lock of Dearborn and others in the 75-80 age bracket played only nine holes. Lock shot a 50.

Henry Flora of Blaney Park had a 46-41—87 and Joe Devaney of Grosse Ile did not turn in a card. Other Michigan players get in their first rounds today.

Dutra, 58-year-old former seniors' champ from Calexico, California, and the other 55-and-over swingers shot their opening rounds yesterday. The huge field — 260 entries were filed — had to be divided into sections. The 72-hole tournament is spread over six days.

Top contenders among those in the second-day lineup included Jim Barfield of Grand Rapids, Mich.

Cincinnati Will Provide Redlegs Better Parking

CINCINNATI (INS) — The Cincinnati City Council took another step toward keeping the Redlegs baseball team in the Ohio city by approving a $2,000,000 bond issue to provide additional parking at Crosley Field.

The Redlegs have threatened to quit Cincinnati unless parking improvements were made. They also have been seeking a new ball park.

In its action, the Council authorized City Manager C. A. Harrell to issue the bonds contingent on a satisfactory agreement among the Council's finance and traffic committees and attorneys for the City and Redlegs club.

Wins First 5 Races

NEW ORLEANS (INS) — Jockey Ray Broussard hit the winners circle the first five times out yesterday at the Fair Grounds race track in New Orleans.

Lions Waiting for Trade Offers

No Untouchable Players, Claims Detroit Coach

Only Layne, Rote Safe From Trading Block at This Time

DETROIT (AP) — George Wilson says he is waiting to hear from the Chicago Cardinals, Philadelphia Eagles and Green Bay Packers on possible player trades.

"I've talked with those three clubs lately," Wilson told a meeting of the Detroit Sports Broadcasters Assn. yesterday. "They all know we're interested in getting a good running back. Now it's up to them to make us a proposition."

Wilson's first choice, of course, is Ollie Matson of the Cardinals. But he says there is very little chance of getting Matson unless the Lions were willing to part with a player like quarterback Bobby Layne.

★ ★ ★

Wilson says he will not trade either of his top quarterbacks, Layne or Tobin Rote.

"I'll tell you this," said Wilson, "straight from the shoulder. There aren't many guys I wouldn't trade—I don't like that word 'untouchable.' But right now we just can't afford to get rid of Layne or Rote. Other than that, I won't say."

"I'm in favor of trading a guy while he still has some value left," said the Detroit Lions' coach. "I wanted to trade Doak Walker, Cloyce Box and Bob Hoernschemeyer a couple of years before they called it quits, but we didn't do it.

★ ★ ★

"Finally, all three of them retired on us—and we didn't get a thing for them. Frankly, I think it's good for a player too. Frequently a player who is about done can go for a couple more seasons with a change in scenery."

★ ★ ★

Wilson and his assistants will leave shortly for the National Football League draft meeting in Philadelphia late this month.

Detroit Lions' 'Coach' Lists 'Cage' Program

DETROIT (AP) — The Detroit Lions "basketball team" has scheduled games in seven Michigan cities, "coach" Bud Erickson announced today.

Erickson, the football club's publicity director, said the cage team will begin play in Royal Oak on Jan. 29th. Other games will be played in Jackson on Feb. 2, Battle Creek on Feb. 6, Wyandotte on Feb. 8, Romeo on Feb. 14, Berkley on Feb. 27 and Clio on March 1.

AGGIE COACH — The Texas A&M coaching job has finally been filled. Jim Myers, coach at Iowa State College, accepted the job yesterday.

SPORTS

KNICKS' CHOICE — Vince Boryla, coach of the New York Knickerbockers, said he thought his team's rookie, Guy Sparrow of Pontiac, could be easily picked as the "Rookie-of-the-Year" in the National Basketball Association. Sparrow scored 16 points last night as the Knicks whipped the Pistons, 115-92.

AP Facsimile

Eight Knicks in Double Figures

Pistons Fall, 115-92

DETROIT (AP) — For the first three minutes it looked as if the Detroit Pistons were off to their sixth straight home victory.

But when it was all over, the Pistons had absorbed their worst home defeat of the season, a 115-92 shellacking at the hands of the New York Knickerbockers last night that out did their 112-90 beating at Boston Nov. 12.

Harry Gallatin brought the crowd of 3,097 to its feet in the initial three minutes with three rapid goals in succession to give the Pistons a 6-0 edge. The score was 25-25 at the end of the first period and 27-27 a minute later, but from then on it was the Knicks all the way.

Starting with a 58-40 advantage at halftime, the New Yorkers completely dominated scoring in the second half — at one point, the Pistons went 4½ minutes without dropping in a single basket.

The Knicks continued to pour it on in the fourth period, running their lead as high as 31 points at one stage.

Eight Knickerbocker players hit in the double figures with Charlie Tyra scoring 17 and Ron Sobie, Guy Sparrow, Willie Naulls and Ken Sears each scoring 16 points.

Gallatin led the Pistons with 16 followed by Bill Kenville with 15.

★ ★ ★

George Yardley, the NBA's top scorer, was held to 14 points by New York's stubborn defense.

New York, which now is in a third place tie with the Cincinnati Warriors in the NBA's Eastern Dividsion, had a 96-63 rebounding advantage over the Pistons. The Knicks connected for 50 of 131 field goal attempts to 36-105 for Detroit.

The Syracuse nationals saw their 13-game winning streak at home snapped last night as the Cincinnati Royals poured 33 points through the basket in the third period and went on to a 115-109 victory.

★ ★ ★

The Boston Celtics beat Minneapolis, coming from behind for a 97-87 verdict and their ninth straight victory at the expense of the Lakers.

Clyde Lovellette hit six field goals in the third period to lead the Royals' surge that cut a 15-point deficit to one point, 85-84, going into the final period.

Troy, Clarkston Move Up

Chiefs Fall Out of Top 10

Pontiac, because of its loss to Flint Northern, dropped out of the top ten in Class A basketball ratings this week.

The Chiefs fell to 12th place while Flint Northern moved up to 9th position, just one notch ahead of Saginaw which fell to 10th place. The Trojans were 4th before losing to Flint Central last Friday.

Ferndale's unbeaten Railsplitters moved up the ladder after dumping East Detroit in the EML.

★ ★ ★

In "B" ranks, Troy's classy quintet chalked up two wins over the past week, including a victory over once-rated Rochester, to jump into 4th place.

Clarkston moved up two notches, but the Wolves have their make or break game Friday at Northville.

CLASS A RATINGS

1. Highland Park	(8-0)
2. Benton Harbor	(7-0)
3. Grosse Pointe	(8-0)
4. Flint Central	(6-1)
5. Muskegon Heights	(7-1)
6. Ferndale	(4-0)
7. Detroit Austin	(6-0)
8. Battle Creek	(6-0)
9. Flint Northern	(5-2)
10. Saginaw	(6-1)
11. Lincoln Benfley	(8-1)
12. PONTIAC	(5-2)

Bronx Righthander Tabbed Great Prospect

Rookie Hurlers Tigers' Hope

NEW YORK (AP) — A Cuban sugar king who touted Detroit on Jim Bunning last winter and turned out to be a true prophet, is tabbing Bob Shaw as the hottest pitching prospect in the Tiger organization.

Bob Maduro, owner of the Havana Club in the International League and one of the most respected men in baseball, told Tiger officials recently that the 24-year-old Bronx-born righthander is a cinch to make it big in the Majors in another year or two.

"Remember, I gave you Bunning last year," Maduro said. This year I'm telling you that Shaw can become one of your regular pitchers. He's the best in Cuba right now."

One of the many rookie pitchers on the Tiger roster, Shaw currently owns a 12-5 record with the Marianaos Club of the Cuban winter league. His earned run average is a remarkable 1.25 per game. Others include righthanders Jim Stump (14-11 at Birmingham), Charles Daniel (9-12 at Charleston), Don Lee (0-3 at Charleston and Birmingham), Ron Rozman (15-1 at Augusta); and bonus boy John Drake. The lefthanders are Hal Woodeshick (8-14 at Charleston and Augusta) and Jim Brady (6-5 at Augusta).

★ ★ ★

Shaw was invited to the Tigers' special school in the spring of 1956 and sent down to "A" ball where he had a combined 9-11 record at Augusta, Ga., and Syracuse, N.Y. The youngster began the 1957 season at Toronto but was shipped to Charleston after winning only one of three decisions. He did better in the American Assn., winning eight of 12.

Brought up to Detroit in mid-August he worked only seven innings and he was charged with one decision. Observers say he has made great progress with his curve ball, the pitch that gave him a great deal of trouble last year.

★ ★ ★

Manager Jack Tighe also is eager to get a good look at Rozman, the lad who lost only one of 21 starts in the Sally League last year. A native of Detroit, the 26-year-old, 195-pounder turned in a brilliant 1.63 earned run average, winning 15 games. He also showed remarkable poise and control, walking only 42 while fanning 89. The others, with the exception of Daniel and Drake, have had previous trials.

★ ★ ★

The two new catchers are Charley Lau and Tom Yewcic. Both have been up before. Lau, 24, batted .243 in 70 games at Charleston, and Yewcic is a service returnee who finished the 1957 season with Detroit.

★ ★ ★

Larry Osborne is the only new infielder. A big, strapping lefthanded hitter, the 22-year-old first baseman sandwiched a brief trial with the Tigers in mid-season between a .287 average at Birmingham and a .305 mark at Charleston. Johnny Pesky, who managed Osborne at Birmingham, thinks the youngster will develop into a real good hitter. He had 12 homers and 58 RBIs in only 74 games with the Barons.

Crawford in TV Bout

NEW YORK (AP) — Welterweights Mickey Crawford of Saginaw, Mich. and Tex Gonzalez of South Orange, N.J., have signed for a 10-round television bout at St. Nicholas Arena, Feb. 10.

Canadiens Gain on 2-0 Victory

Leaf Player Ejected Under New Loop Plan to Crack Down

By THE ASSOCIATED PRESS

The Montreal Canadiens and the Toronto Maple Leafs know now, if they didn't before, that President Clarence Campbell meant business when he told his officials to crack down on players who beef about penalties.

★ ★ ★

As the Canadiens extended their lead over second place New York to 19 points with a 2-0 victory over the Leafs last night, the league's get tough policy was very much in evidence.

Referee Frank Udvari called 12 minor penalties, eight of them against the Canadiens. In addition, he handed out two 10-minute misconduct penalties to the Canadiens and a 10-minute misconduct and game misconduct to George Armstrong, Toronto center.

Armstrong, who didn't approve of a minor called against him for hooking, got his 10-minute misconduct for disputing that decision. Then he was ordered to the dressing room for saying more unkindly things while in the penalty box. The rules call for him to be fined $75 with a report to Campbell leading to possible further action.

Bowlers Are Blazing in Westside Classic

The red-hot West Side Classic league is fast becoming the outstanding bowling loop in Pontiac.

A total of 66 games of 200 or better were rolled for the 2nd successive week recently with 16 600 series fired at Westside Recreation.

Top games were Joe Foster's 289, Spec Freeman 255, E. Valentino 247 and Sam Perna 246. Bob Gormong had the best series of the night with 684.

AP Facsimile

DODGER DIAMOND — This is a photo-diagram of how the diamond will look at the Los Angeles Coliseum where the Dodgers will play next season. The right field line will measure 300 feet, but the left field foul line is only 250 feet. It has brought howls from other league pitchers. Left field will have a 40-foot fence in front of the seats.

Williams Denies Injuries

BOSTON (AP)—Ted Williams and two prominent doctors have quashed reports that the 39-year-old Boston Red Sox slugger's baseball career is endangered by broken ankle bones.

★ ★ ★

Williams told several Boston sports writers by phone from his Florida home yesterday that he sprained the ankle on a fishing trip in Labrador last fall, but he flatly denied that any bones were broken.

Ted's comments were in reply to a report in the Boston Traveler that his future baseball status was "in jeopardy" because of two small broken bones in his right ankle.

The 1957 American League batting king with a .388 average, said the ankle still is a little sore, but he expects to be ready for the 1958 season.

Ted was backed up by Drs. George Bennett of Baltimore and both viewed X-rays of the tender Russell Sullivan of Boston who ankle.

THE AMERICAN LEAGUE BASEBALL SCHEDULE FOR 1958 IS FOUND TODAY ON PAGE 42

Jaycees Plan Excursion

Sparrow to Have 'Night'

Guy Sparrow, the first basketball player from Pontiac ever to make the grade in the National Basketball Association, will have his "night," the next time the New York Knickerbockers visit Detroit to play the Pistons.

It was announced that the Pontiac Junior Chamber of Commerce will sponsor a bus excursion from Pontiac to the Sunday night game of February 9th at the Detroit Olympia.

A package-price of $5.00 which includes roundtrip bus ticket and a choice seat to the game is being offered to all Pontiac area fans, and reservations can be made at either of Osmun's stores in Pontiac.

★ ★ ★

Bud Neal, chairman of the excursion, said the number of buses will depend on the reservations. Sparrow, who is one of the top prospects for rookie-of-the-year honors in the NBA, will be honored at halftime ceremonies on "his night."

Chiefs Shuffle Lineup for Do-or-Die Game

Pontiac Press Photo

TOP WOMEN ENTRIES — Some of the outstanding women bowlers in the Pontiac area have already entered the 1958 Pontiac Press Bowlerama tournament. Entries shown looking over a Bowlerama poster at Westside Recreation are, left to right, (standing) Gen Bradley, Rose Stratton and Mrs. Paul Lange and Mrs. Thomas Murphy (seated).

Pontiac Central Could Fall Out of Title Chase

Defeat May Eliminate PCH in SVC Race at Saginaw Friday

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Look for a high scoring and wide open game when Pontiac Central and Saginaw tangle at Saginaw Friday night.

The Trojans like to run and have the best scoring punch in the Saginaw Valley Conference. In fact Saginaw and Pontiac were running 1-2 as the best offensive teams in the league until they ran into the two Flint teams which now enjoy a share of league lead.

Coach Art Van Ryzin, unhappy over poor floor play and team work of the Chiefs in last week's 49-47 loss to Flint Northern, has decided to bring up the high scorer from the reserve team, Bill Hayward.

Hayward, a 6-2 sophomore forward is expected to see some action against Saginaw with the hope of bolstering the team's poor shooting and rebounding.

★ ★ ★

With Saginaw's height advantage, the Chiefs will have to be at their best on the boards. Van Ryzin said he would alter his lineup to give emphasis on rebound strength.

Van Ryzin did not indicate who would start but said he would utilize his bench as much as possible.

Harrison Munson may get the starting nod at forward, with either Dick Whitmer or Jim Skinner at the other slot.

shown peak form for the past three games. Both have dropped in scoring and rebounding.

Guard Charley Barge will be joined by either John Bandy or Jerry Williams, and Roosevelt Alexander may go at center.

★ ★ ★

Neither Whitmer or Skinner have Alexander was ineffective against Flint Northern, failing to score a point and getting only four rebounds. If Alexander fails to show better form Friday, Munson could move into the center post and Hayward may get a crack at forward.

Pontiac Press Photo

MOVES UP—The leading scorer of the Pontiac Central reserve team, Bill Hayward, has been moved up to the varsity by coach Art Van Ryzin with the hope of bolstering the Chiefs' sagging point and rebound column. Hayward will make his first appearance against Saginaw Friday.

Freds, Shamrocks Clash Friday

Rams Favored but St. Mike Is Dangerous

History of Crosstown Feud Shows Shamrocks Like 'Spoiler' Role

By BILL CORNWELL

St. Michael and St. Frederick, Pontiac's bitter parochial rivals from opposite sides of town, collide on the basketball court for the 34th time Friday night.

The two Suburban Catholic League foes will square off in the Pontiac Central High gymnasium at 8 o'clock with 3rd place at stake plus the glory that goes with victory in this traditional game.

St. Fred, boasting greater experience and more height, is the favorite, but the records show that the Mikes have thrived on "spoiler" roles, especially at district tournament time.

The Rams and St. Mike have met in the district on seven occasions with the Shamrocks winning six of them, three times in the finals. Not until last March when the Rams triumphed, 55-44, were they able to conquer the northsiders in a district tourney game.

★ ★ ★

In two of those encounters—1951 and 1953—the Shamrocks pulled stunning upsets on the Rams after losing to them twice during the regular seasons.

The 1953 district clash was a particularly prized victory for coach Bob Mineweaser, now in his 14th season as head mentor at St. Mike.

That was the year when the Mikes entered the tournament without a win and toppled the Rams for their only triumph of the season.

Aside from the district tourney, St. Fred has fared well against the Shamrocks. The southsiders hold an overall edge in the history of the series, 18 victories to 15, including two out of three last season.

St. Mike is even with the Rams at 15 wins apiece since Mineweaser took the reins in 1944.

The Rams won the series opener during the 1942-43 season, St. Mike's 1st fling in basketball, with Oakland County Prosecutor Fred Ziem coaching the north side school. The Mikes bowed twice the following season when Charles Welden was at the helm.

Pontiac Press Photo

AIMS AT RAMS — Forward Bob Mineweaser, St. Michael's leading scorer, hopes to collect a few points against St. Frederick Friday night when the two cross-town foes renew their basketball rivalry on the Pontiac Central court.

A&M Finally Gets Coach

Myers Hung in Effigy After Resigning Post

AMES, Ia. (INS) — Football coach Jim Myers was hung in effigy on the Iowa State College campus tonight a few hours after he reversed his position and accepted a bid from Texas A&M.

Reaction to Myers' decision ranged from well-wishing to exasperation to anger in both official and student circles on the Iowa State campus.

College officials declined to comment but Ken Marvin, head of a sifting committee to find a new coach, said Iowa State would not consider a coach currently under long term contract nor a "temporary" replacement.

Meantime, student support rallied around Leroy Pearce, Myers' line coach at Iowa State who last week accepted the first assistantship and line coaching job at the University of Nebraska.

Pearce, reportedly en route to Lincoln, Neb., from Fayetteville, Ark., was unavailable for comment. However, he recently said he would be interested in the head coaching job at Iowa State if Myers should leave.

Nebraska oficials were quoted as saying they would "not stand in the way" if Pearce were offered and decided to accept the Iowa State position.

It was disclosed that two Texas Aggie students, Gary Rollins, sports editor of the student newspaper, and John Hagler, a cadet colonel, spent several hours with Myers in Ames earlier this week.

★ ★ ★

They headed a "Get Myers" drive and told him he was wanted at Texas A&M and they would not accept "no" for an answer.

They reportedly registered at the Iowa State Memorial Union using the Kansas City address of Rollins' grandmother to avoid detection of their mission.

★ ★ ★

Their lodging was paid by the Iowa State athletic department when they told Memorial Union attendants they "represented" coach Myers.

Rookie Year Over, Tighe Looks Ahead

By DAVE DILES

DETROIT (AP) — Nice guys don't always finish last, as Leo Durocher once observed. Sometimes they finish fourth.

Jack Tighe, a nice guy, finished fourth last season in his first fling as a big league manager. And it was a "fling" — not merely a 154-game schedule that dragged on from mid-April until October.

The Detroit Tigers hired him as a "fiery and aggressive" manager, lifting him out of their Minor League system where he had toiled many years. Tighe was more than just fiery and aggressive.

No official figures were maintained but experts are certain that Tighe took the title as the Major Leagues' most - frequently - quoted manager, beating out Casey Stengel and Fred Haney.

★ ★ ★

It was Tighe's first trip into the spotlight and the man from Kearney, N.J., rather liked it. Still does.

The pay wasn't the greatest—not like the salaries paid Al Lopez, Walt Alston or Stengel — but Tighe had a few extra bucks in his gabardines.

Tighe was a fellow who was a little impressed with his job. And who wouldn't have been? He propped his feet up on his desk, unwrapped an inexpensive cigar (he never changed, unless someone was thoughtful enough to give him some expensive brand), rubbed one hand over his hair that had turned prematurely to skin, and carried on the business of analyzing victory and defeat.

★ ★ ★

Tighe was seldom alone. Writers from everywhere mobbed him in Florida during spring training. Even as the regular season wore on they came to Tighe for "something fresh." He was new. He was interesting. He talked sensibly.

Tighe never was "unavailable" to the writers who covered the Tigers. Sometimes his availability, his frankness and the pains he took to be nice put him in uncomfortable positions. If he was laboring to make favorable impressions his first year around the league, then he succeeded.

Managing the Detroit Tigers is no novelty now. Tighe no longer is a rookie.

"I made rookie mistakes, too," he said recently "But I learned a lot that I won't forget. I'll make mistakes this season, too—lots of them—but I hope they're not the same ones I made a year ago."

Tighe admitted that he talked too much. He likes the "cautious optimism" the club is practicing this year. Tighe is more confident about his own managerial ability. He believes he knows more about players — his own and those on other teams.

The Tigers have made some changes. No longer are they a stand-pat club. Tighe was laughing not long ago about one of his pitchers who remarked:

"Last winter we were 15 games ahead of the Yankees. In February they cut our lead to 10 games. In Florida the following month we were 7 games ahead. But in April, they passed us like we were standing still."

The players know, too, that there has been a lot of big talk and not very much big showing. Tighe is "cautiously optimistic" that big things are in store for the Tigers. He'd like to prove that nice guys, once in a while anyway, finish first.

42 Pros Open Thunderbird Play Today in California

PALM SPRINGS, Calif. (AP) — Three-time winner Jimmy Demaret headed a select field of 42 professionals into the first round of the $15,000 Thunderbird Invitational golf tournament today, marking his first appearance on the 1958 winter circuit.

★ ★ ★

Sir James, the Texan from Houston who heads a staff of pros at Kiamesha Lake, N.Y., has been ailing of late and missed the opening events this year.

But there was nothing ailing for the past two years when Jimmy won the top money in successive appearances here.

Last year he had to dispose of Mike Souchak and Ken Venturi in an 18-hole playoff, which he did with a 68 to their respective 75 and 76.

★ ★ ★

In 1953, when the Thunderbird was a 54-hole tournament, Jimmy let fly an eagle two on the 18th hole to beat out a birdie scored by his old pal from Texas, Ben Hogan.

The tournament site is the exclusive Thunderbird Country Club, par 36-35—71 and 6,680 yards.

Several invited pros, including 1957 Masters champion Doug Ford, Art Wall Jr., Dow Finsterwald and Arnold Palmer, passed the Thunderbird to play in Panama.

★ ★ ★

But on the scene were such shotmakers as U.S. Open champion Dick Mayer, PGA champion Kionel Hebert and his brother, Jay; Billy Casper, winner of the recent Bing Crosby tournament, and Frank Stranahan, who captured the $35,000 Los Angeles Open three weeks ago.

Yesterday Stranahan in a practice round shot 32-30—62, which broke the non-competitive course record of 63, made by Casper in a match filmed for a television series last fall.

CIO Cagers Stun Jewelers, 55-48

CIO Local 594, paced by the 19-point shooting of Chet Woodmore, upset Shaw's Jewelers, 55-48, in a Class A City League basketball game last night at Pontiac Central. Art Hughes scored 17 points for the Jewelers.

★ ★ ★

It was the 2nd straight victory for the Union cagers and moved them ahead of Southfield, which fell into the cellar after bowing to the Knights of Columbus yesterday, 62-48. John Keller led the 2nd place Knights with 24 points while Ed Bryant made 21 for the losers.

In Class D games Wednesday at Lincoln, the Rockets defeated Winter's Electric, 33-30; the unbeaten Bowen Arrows walloped Home Lunch, 50-20, and Fred Hyten tallied 25 points to lead undefeated Auburn Heights Boys Club to a 70-12 massacre of Perry Park.

11 Teams to Compete

SAULT STE. MARIE (AP) — Eleven teams will compete for the basketball championship of the 37th air division in a tournament opening Jan. 30 at nearby Kinross Air Force Base. Truax Field, Wis., is defending champion.

Pontiac Hosts Bay City Wrestling Team Today

Four Oakland County wrestling teams get back into action today and a 5th competes tomorrow to complete another busy mat card.

Highlighting today's slate will be a 4 p.m. tussle matching Bay City Central and Pontiac Central at the PCH gym. Southfield is at Hazel Park and Farmington at Royal Oak Kimball in other events. Royal Oak Dondero is at Fitzgerald Friday.

Pontiac will be attempting to even its record at 3-3 after dropping under .500 due to a severe beating by strong Lansing Sexton a week ago. Hazel Park and Farmington are favored in the other matches. Farmington has been coming along fast as a county power in recent outings.

NAIA Leaders Use Different Tactics

KANSAS CITY (AP)—West Virginia Tech and St. Benedict's College at Atchison, Kan., represent the top and bottom of the statistical scale among basketball teams playing for schools in the National Assn. of Intercollegiate Athletics.

West Virginia Tech wins its games simply by pouring in the baskets and has rolled up 102.8 points a game to lead the NAIA in that department.

St. Benedicts puts the emphasis on defense and has allowed opponents only 47.2 points a game. Panhandle A&M of Oklahoma has permitted 48.4 and Stephen F. Austin of Texas 48.6.

Norris Wants Active Heavies

Says Patterson Should Be Fighting Contenders for Title

CHICAGO (AP)—Jim Norris, president of the International Boxing Club, wants the heavyweight division activated again and disclaims any feuding with champion Floyd Patterson's manager.

"D'Amato (Manager Cus D'Amato) says he won't do business with the IBC because we failed to live up to an agreement to get bouts for some of his preliminary fighters," Norris said yesterday.

"Patterson simply is being used as a pawn in this thing, but I say let D'Amato go box for any promoter he wants—and I'd like a chance to compete with any other promoter—but let's get the heavyweight division activated again.

"Our hands are tied by D'Amato's refusal to sit down and talk," Norris continued in an inteview. "I'm certainly not feuding with him. In this business, you can't afford feuds. I'd go to Alaska to make a heavyweight title match.

"Patterson already should have faced Eddie Machen or Zora Folley, who meet March 17 at San Francisco. And then, if he won, he would meet the winner of the Willie Pastrano-Roy Harris match."

Hometown Foes Clash

NEW ORLEANS (AP)—The outcome won't affect the welterweight rankings, but a near capacity crowd figures to see an old-time slugfest tonight when hometown rivals Tony Dupas and Herbie Rodriguez meet in a 10-rounder.

Boyd, Mims Call It Even

MIAMI BEACH, (INS) — Bobby Boyd, though knocked down in the eighth round, managed to gain a draw last night against Holly Mims in a nationally-televised (ABC) middleweight bout at the Miami Beach Auditorium.

249 Arc Games in 1958

AL 'Night Life' Picks Up

CHICAGO (INS) — American League baseball fans who go for late shows can look forward to a record number of 249 night games in the 1958 season.

The release of the schedule shows a new league high, surpassing the 237 total booked in the 1957 season. Twelve night games were washed out by rain last season.

Baltimore's Orioles will be the "night owl" kings again. The Orioles are slated to play 48 home night games, one more than in 1957.

The Kansas City Athletics have scheduled 47 games under their lights, four more than last year. Only the Detroit Tigers (21) and the Boston Red Sox (18) are keeping their same total as last season. The Cleveland Indians have reduced their number from 31 to 30.

The Washington Senators, who will meet the Red Sox on April 14 in the traditional opener at Griffith Stadium, have booked a total of 41 night contests. The Chicago White Sox (24) and the New York Yankees (20) have also upped their night game schedule.

The All-Star game will be played at Baltimore on Tuesday, July 8.

Basilio, Robby Sign for Fight

Middleweights Make Million Dollar Show Official Today

CHICAGO (AP) — Champion Carmen Basilio and Sugar Ray Robinson are to sign formally today for their March 25 middleweight encore at Chicago Stadium.

They will affix their signatures amid all the hoopla the International Boxing Club can muster at a party tossed by President Jim Norris.

★ ★ ★

The rematch, which will mark the fifth time the 37-year-old Robinson will be fighting for the 160-pound crown, is being heralded by the IBC as a million dollar show.

Norris looks for theater television proceeds to exceed $275,000, a gross gate of $500,000 based on 19,000 attendance, $100,000 for movie rights and $30,000 from radio receipts.

Basilio, who lifted the middleweight crown from Robinson on a split decision Sept. 23 in Yankee Stadium, will get 30 per cent of everything. So will Robinson. Figuring a net gate of about $467,000, each expects to pocket nearly $262,000.

Barnum Ranks Eighth

EL CENTRO, Calif. (AP) — John Barnum of Grand Rapids, Mich., shot a 73 and finished with the 36-hole El Centro-Mexicali Open golf tournament with a 144 for the $125 eighth prize.

J. C. Goosie of Knoxville, Tenn., won the $5,000 tournament with 72-68—140. His prize was $500.

Entries Can Pick Bowling Day

Bowlers entering the 2nd annual Pontiac Press Bowlerama can get into the tournament with a choice of qualifying days.

Men will qualify for the tourney February 8 and 9, and they can designate which day they prefer to bowl.

Because of the great numbers, however, bowlers cannot pick a specific time, but they can denote preference of morning or afternoon for Saturday February 8th.

Bowling on Saturday the 8th at Howe's and Montcalm will begin at 10:00 a.m. and continue until the alloted number for that day have qualified.

★ ★ ★

On Sunday February 9th, qualifying will start at noon with hopes of completing the list by 4:00 p.m.

For the women's qualifying round February 15th at the Motor Inn, bowling will begin at 10:00 a.m. and continue until completed.

Unless necessary no qualifying is expected to take place after 6:00 p.m. on either Saturday for men or women.

Surplus will be carried over to Sunday at each alley.

Sites for qualifying will be selected at random for each bowler, and men's assigned alley and time will be printed in The Press, February 5th and 6th.

Women's times will be printed in The Press and posted at the Motor Inn on Thursday, Feb. 13th.

The final round, which is scheduled for Huron Bowl February 22nd is expected to begin about 10:00 a.m. with the hope of completing all bowling by 2:00 p.m.

★ ★ ★

Presentation of prizes, trophies and awards will be held at the "300 Lounge" later in the afternoon on the day of finals.

There are only 10 more days remaining for men to submit their entries. Deadline is midnight Sunday February 2nd.

Women have only until midnight February 10th.

Password to Big Ten Lead

'M' Controls Boards

CHICAGO (AP) — Control of the boards has been Michigan's password to the Big Ten basketball lead.

Official conference statistics show that the Wolverines rank fifth in field goal percentage with .436, but they are No. 1 in rebounds with an average of 52 recoveries in posting a 3-1 league record.

Ohio State, locked with Indiana in second place with 3-2, is second in rebounds with a 51 average while the Hoosiers are third with better than 46.

Michigan won't get back into conference action until it entertains Purdue Feb. 1, in a regionally televised game. Ohio State's next Big Ten start is against Purdue Monday. Indiana is idle in conference play until facing Minnesota Feb. 3.

Only two Big Ten games are slated Saturday, Iowa at Minnesota for an afternoon TV attraction and Northwestern at Michigan State. Illinois meets Notre Dame in a Chicago Stadium doubleheader with Marquette facing Loyola of Chicago in the nightcap.

With the poorest rebound mark in the conference, an average of 31, Illinois' height disadvantage is the reason for its 1-3 record. The Illini are third in hitting field goals at a .384 clip and third in free throw shooting with .716.

★ ★ ★

The hottest shooting team is Indiana with .412 from the floor while Northwestern is next with .405. Indiana's .758 also tops the foul line accuracy with Michigan second with .736.

Indiana's Archie Dees leads the individual scoring with a 26.6 average, followed by Don Ohl of Illinois with 24.3, George Kline of Minnesota with 22.7 and Pete Tillotson of Michigan with 20.8.

Dees is tops in field goal accuracy with .589 and John Green of Michigan State is second with .520. Green, who is 20th in the scoring race with a 14.5 mark, is first in grabbing rebounds. He was retrieved 74 in four games. Frank Howard of Ohio State has 75 and Dees 71—both in five games.

Johnny Mazur New Marquette Assistant

NEW ORLEANS (AP) — Johnny Mazur, one-time Notre Dame quarterback and backfield coach at Tulane for the past three seasons, today accepted the backfield coaching job at Marquette.

The 27-year-old native of Plymouth, Pa., said he regretted leaving Tulane, but termed the Marquette offer "one I could not turn down."

Mazur will replace John McGee, who resigned last week.

Podres Signs Contract

LOS ANGELES (INS) — Johnny Podres, the 25-year-old southpaw who posted the lowest earned run average in the National League last year, has signed his Dodger contract for the season.

Podres posted a mark of 12-9 for the Dodgers last year with an E R A of 2.66.

Crucial Games on Tap Friday

By CHUCK ABAIR

Several important league battles and an interesting independent clash matching old rivals Rochester and Romeo headline a heavy prep basketball schedule for area schools tomorrow night.

A great deal of attention will be focused on Northville where Clarkston puts its perfect record on the line against the strong Mustangs in an all-out duel for 1st place in the Wayne-Oakland. The defending co-champions would be back in a tie should Northville win.

There is a possibility of a three-way deadlock in the Inter-Lakes loop with Southfield and Van Dyke close on the heels of 1st place Berkley. It will happen if Southfield trips Waterford and Van Dyke upsets Berkley. Walled Lake is at Farmington in the other tilt.

The Oakland B is another league with a lot riding on the outcome of Friday's contests. Key game there will be Avondale at Lake Orion with Fitzgerald's invasion of Troy also of great importance. Madison at Clawson completes the slate.

★ ★ ★

Ferndale puts its 2-0 Eastern Michigan League mark to test against Mt. Clemens at home. Birmingham hosts Hazel Park and Port Huron is at East Detroit in other games.

Clarkston has won six straight loop starts and eight games in all, but tomorrow's road outing will be the Wolves' biggest test yet. Both have size and scoring power. Clarkston hit a record 92 last time out.

The perennial W-O contenders divided on home courts last year and Clarkston is hoping to break that spell this time. Two of the loop's outstanding performers will be going against each other—Leroy Parks and Clayton Pethers.

★ ★ ★

West Bloomfield will travel to Bloomfield Hills, Milford will be at Brighton and Clarenceville takes on Holly at home in other action.

Southfield has a six-game win string going in its drive to add the I-L crown to a holiday tourney championship but tripping Waterford may be a difficult task. Anything can also happen in the other pair.

Avondale has bounced back after a pair of dismal showings and is ready to make it hot for everyone. Orion has lost twice despite the remarkable scoring of Jim Drake and Nick Neira. Fitzgerald is seeking its 2nd big upset in hopes of handing Troy its 1st setback, which would throw the Oakland B into a tight race.

★ ★ ★

Rochester goes to Romeo the favorite on the basis of an earlier walloping of the Bulldogs but things might be different this time. Romeo has been going strong of late while Rochester has lost two in a row.

Other independent games around this sector will be Country Day at Oak Park, Utica at Lake Shore, Boysville at South Lyon, Flint Tech at Lapeer, Royal Oak Dondero at Dearborn Fordson and Grosse Pointe at Lamphere.

Ortonville gets a shot at interrupting Imlay City's trip to another South Central title in a big one at Imlay. Millington goes to North Branch in the other game.

Southern Thumb play will have Almont at Capac, New Haven at Memphis and Brown City at Armada.

STRIKES AND SPARES

By Joe Wilman

Of all the places to make a mistake, making one at the foul line is undoubtedly the most embarrassing—a well as the most permanent. Lots of times, a good bowler can recover from an early mistake in his footwork or arm-swing; but when the mistake comes at the foul line, there's no time to adjust.

Does your finishing position resemble the one shown today? It should be fairly close. Even though your right foot is straight back of you or even in the air, you must still have good balance.

Your right arm should be out in front of you, reaching toward your target. When it finishes as high as we show, you can be sure you've followed through properly. Both the hips and shoulders should face your target squarely; your head and eyes should also concentrate on target—whether your target is the pins or a spot on the alley.

Here's new hustle for your door-to-door hauling...
NEW CHEVROLET Step-Vans

Model 3445 Step-Van with 8-foot body

For the first time Chevrolet offers forward control delivery trucks equipped with handsome, spacious walk-in bodies — the new Step-Vans! You'll find new hustle, new muscle and new style throughout Chevy's light-duty lineup for '58!

Whatever kind of deliveries your business calls for, there's a Task-Force 58 Chevrolet truck ready to show you the short cuts.

To take the delays out of door-to-door hauling, Chevy introduces the versatile Step-Vans—with a choice of three spacious, spanking new walk-in bodies 8, 10 and 12 feet long. Insulated weather-tight cargo space goes up to nearly 400 cubic feet. Yet sturdy all-steel welded and bolted body construction remains lightweight . . . economical to own and operate with efficient 6-cylinder power.

Your Chevrolet dealer will be glad to show you these and the many other new features in the fast-working '58 lineup. Make it a point to talk trucks next time you're over his way.

Ready to put more GO into busy stop-and-go schedules with all these work-whittling features!

WIDE-ANGLE VISIBILITY makes delivery driving safer, more convenient.

SLIDING SIDE DOORS retract easily into pockets in van body. Jackknife doors* are also available.

DOUBLE REAR DOORS, available in three sizes, include full-width type* for maximum access.

DOUBLE-WALLED construction provides 24-gauge steel panels as lining for entire body interior. Inch-thick insulation protects cargo.

Plus These Standout Features as Standard!
Solid wraparound rear bumper that doubles as rear step . . . Corrugated 18-gauge steel load floor . . . Practical shelf-shaped rear wheelhousings . . . Protective wraparound steel rub rails . . . Easy-access engine service doors inside driver's compartment.

*Extra-cost option

L. to R.: Apache Series panel and pickup with Sedan Delivery

NEW HUSTLE . . . NEW MUSCLE . . . NEW STYLE

NEW CHEVROLET TASK-FORCE 58

Only franchised Chevrolet dealers display this famous trademark CHEVROLET *See Your Local Authorized Chevrolet Dealer*

Natives Purchase Farm Equipment

EAST LONDON, S. A. — Rather than wait for Europeans to help them mechanize their farms, African natives of South Africa have got together to do the job themselves.

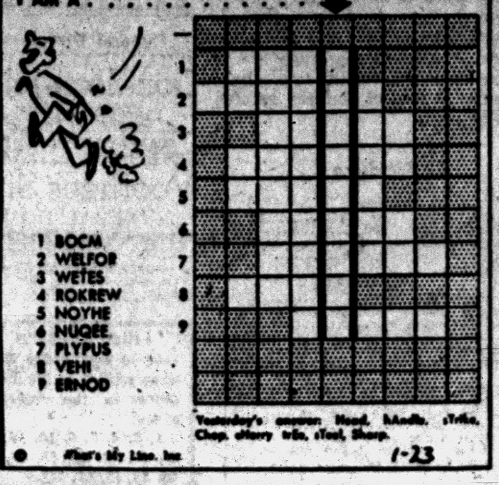

Through the African National Soil Conservation Association, in East London, they have bought a tractor for practical demonstration work. Miss M T. Soga, a leader in the association, has made her farm near Cala available to the membership for demonstrations.

It will be a model farm which the natives will work themselves. "If the natives see these various farming methods demonstrated to them by their own people, they will take an interest, association leaders say.

Sagging U.S. Economy Needled Again With Success to Make Money Easier

By SAM DAWSON

NEW YORK (AP) — The Federal Reserve Board is needling a sagging economy again and with some success in making money easier. But it has yet to use its biggest shot in the arm—freeing more bank reserves for loans to business and individuals.

★ ★ ★

It's too early to tell if relaxing credit will be the medicine needed to halt the business slump. Some think there was too much delay in applying the needles and that those used—cutting the discount rate and lowering stock market margins—were too small.

Some think industry is nursing ills that easy money can soothe but cannot cure by itself alone.

The Fed, as financial circles call the Federal Reserve system, has three chief means of regulating the supply of money and credit. (Stock market margins have little effect on industry and trade other than psychological.)

★ ★ ★

The one it is using today is to lower the discount rate. That means that member banks can borrow from Federal Reserve banks at either 2¾ or 3 per cent depending on which of the 12 regional banks they go to. They can use these funds in turn to lend to business.

The Fed's action needled commercial banks in New York and Philadelphia into trimming downward the rates they charge business. It also led to falling interest charges on short-term loans, such as the rate the U.S. Treasury pays when it borrows. And it made it easier and cheaper for corporations to float new debt issues.

★ ★ ★

But lowering interest charges furnishes very little new money for the commercial banks to lend.

Two other measures the Fed can use have more direct bearing on the supply of credit.

One is the buying or selling of U.S. securities in the open market. So far it has used this tool only along seasonal patterns. By buying in December the Fed gave banks more funds to tide business over its big Christmas borrowing needs. When the Fed buys, the money it gives the seller is deposited at once in the banks, giving them more funds.

By selling during January the Fed could mop up some of the excess money pouring back into the banks as businessmen and individuals paid their bills.

The third and largest tool is to cut the amount of reserves that member banks must keep with Federal Reserve banks. In New York and Chicago they must keep 20 per cent of their deposits there. In 48 other large cities it's 18 per cent and in smaller cities, 12 per cent.

Banks for a long time have been clamoring for the Fed to lower these reserve rules and to cut the differentials between big and small cities. The American Bankers Assn. wants reserves cut to a uniform 10 per cent on checking deposits, with different rules applying to reserves against savings accounts.

Bankers figure for each $1 of freed reserves they can make $5 to $6 in loans.

★ ★ ★

With demand for business loans declining, there is a question of how much having more credit available at lower interest will lead business to step up its borrowing for expansion, carrying inventories and the like.

Cutting margin requirements for stock trading from 70 per cent to 50 per cent brought mixed reactions. One view was it signaled a further easing of credit and hence was inflationary. The other was that it just called attention to the deepending sag in business and to official worrying about it.

PORTABLE PRIZE — Employes of local General Motors plants continue to swell the number of entries in GM's $500,000 "Golden Milestone" contest as the February 8 deadline nears. Raymond W. Marshall (right), a Pontiac Motor Division employe, and Mrs. Marshall, of 4412 Kempf, Drayton Plains, accept from Charles H. Collins a TV set won in a drawing of stubs attached to essays in the "What the 50th anniversary of GM means to me" contest. At Truck & Coach division, general manager Philip J. Monaghan has offered an additional $5,000 to any Truck & Coach employe who wins the top prize in the nationwide contest.

ORDINANCE No. 1352
ANNUAL APPROPRIATION ORDINANCE FOR YEAR 1958

Adopted: January 21, 1958
Effective: January 22, 1958

An ordinance to appropriate the sums of money necessary to be raised by taxation at the next city tax levy of July 1958 upon all of the taxable property in the City of Pontiac, Michigan, to defray the debts, expenditures and liabilities of said city for the fiscal year ending the 31st day of December, A.D. 1958, and requiring and authorizing the levying on the said city tax roll of July 1958 and also requiring and authorizing the return of the 1957 City, School and County delinquent taxes and unpaid special assessments on the delinquent tax roll in accordance with the Charter of the City of Pontiac and the general laws of the State of Michigan.

THE CITY OF PONTIAC ORDAINS:

Section 1: That there shall be raised by taxation upon all the taxable property in the City of Pontiac, Michigan, at the 1958 tax levy the sum of Three Million, Five Hundred Sixty-two Thousand, and no hundreds dollars ($3,562,000.00) for the purpose of defraying the debts, expenditures and liabilities of the said city for the fiscal year ending the 31st day of December, 1958 in accordance with the 1958 budget of said city as approved and adopted by the City Commission of the City of Pontiac.

Section 2: There shall be raised by taxation, over and above the estimated revenue of the City from other sources for the 1958 city tax levy of the City of Pontiac, Michigan, to defray the debts, expenditures and liabilities thereof for the fiscal year ending December 31st, 1958 based upon the budget of said City for the year 1958, as approved and adopted by the City Commission, the following amounts, respectively:

Total Operating Budget to Be Raised by Taxation	$3,462,000.00
DEBT SERVICE	
General Obligation Bond—Pontiac General Hospital	$ 100,000.00
Total Debt Service Budget to Be Raised by Taxation	$ 100,000.00
Total Budget, City Operation, Garbage, Capital and Debt to be Raised by Taxation	$3,562,000.00

Section 3: That said sum of Three Million, Five Hundred Sixty-Two Thousand and no dollars ($3,562,000.00) for the payment of said debts, expenditures and liabilities herein mentioned in Section 2 be appropriated for the several funds for said City of Pontiac for the fiscal year ending December 31st, 1958 and that the same be forthwith certified by the Clerk to the City Assessor and that the same shall be levied and collected upon the assessed or equalized valuation of all taxable property within said City of Pontiac in accordance with the provisions of the laws of the State of Michigan and the Charter of said City of Pontiac for the levying and collection of taxes and upon the 1958 City tax roll.

Section 4: That the City Treasurer of the City of Pontiac is hereby authorized, directed and instructed to cause to be prepared a delinquent tax roll for the 1957 City School and County delinquent taxes and delinquent special assessments adding thereto all penalties required by Charter of this City and the laws of the State of Michigan and in accordance with said City Charter and statutes of the State of Michigan.

Section 5: This appropriation ordinance is based upon the budget submitted by the City Manager, approved and adopted by the City Commission of the City of Pontiac, after public hearing held January 21, 1958 and pursuant to the Pontiac City Charter and statutes of the State of Michigan.

Section 6: This ordinance shall take immediate effect after the passage thereof by the Commission of the City of Pontiac, as it is hereby deemed to be an emergency ordinance within the meaning of Chapter VI, Section 3, of the Charter of the City of Pontiac.

Made and passed by the City Commission of the City of Pontiac, on the 21st day of January, A.D. 1958.

WILLIAM W. DONALDSON, Mayor
ADA B. EVANS, City Clerk
Jan. 23, 1958

Grain Futures Prices Weak

CHICAGO (AP)—General weakness marked the trend in grain futures prices again today in early dealings on the Board of Trade.

Here and there throughout the list were some fractional mark-ups among initial transactions but dealers said there had not appeared any solid support for any contracts.

Corn had a slight early boost on a renewed report that the government would not sell any impounded corn in the domestic market but some traders said the buying was light and scattered on that premise.

Only light commercial demand was reported in any of the pits.

Near the end of the first hour, prices had been bid up to the plus side on most contracts; wheat was ⅛ cent lower to ¼ higher, March $2.17⅛; corn ½ to ¾ higher, March $1.09⅝; oats ⅛ to ¾ higher, March 62⅜; rye ¼ to ½ higher, March $1.24¼; soybeans ¼ to ¾ higher, March $2.25; and lard 5 to 8 cents a hundred lbs. lower, March $11.65.

Building Suppliers to Hold Installation

New officers will be installed at the Joint annual meeting of Pontiac Lumber, Fuel and Builders' Supply Exchange and the Building Material and Solid Fuel Dealers Assn. to be held tonight at the Waldron Hotel.

To be installed by the exchange are Charles Dillman, president; Robert Mehlberg, first vice president; H. H. Smith, second vice president, and Charles Crawford, treasurer.

Members of the exchange board of directors for 1958 are Ralph Cromis, Elbert Donaldson, Harold Doremus, Harry Long and Norman Roth.

★ ★ ★

Building Material and Solid Fuel Dealers Assn. will install Donald Hicks for a second term as president. Other officers are M. A. Benson Jr., vice president, and James Corwin, treasurer.

★ ★ ★

Association board of directors for 1958 includes William Chaplow, James Church, Ralph Cromis, John Nowels, Fred Poole and Erwin Slater.

Frosted Windshield Brings Death to Driver

DETROIT (AP)— Jacob Fogle, 49, of nearby Highland Park, was killed early today when his car crashed into a metal post on his way home from work at the Ford Rouge plant.

Police said his windshield was heavily coated with frost except for a small square he had cleared off.

The hot springs of the Big Horn River in Wyoming flow 18,600,000 gallons daily.

City Man Sentenced for Littering the River

Arthur Patrick Golden, 62, of 12¼ S. Saginaw St. was found guilty yesterday in Municipal Court of littering the Clinton River.

Judge Cecil B. McCallum sentenced him to 20 days in jail but offered him probation if he would help clean up the Clinton for the next two weeks.

Golden was arrested on the complaint of Mayor William W. Donaldson who saw him dumping bottles and rubbish into the river at the Cass avenue bridge.

Engineers Ask Where State's Water Is Going?

DETROIT (INS) — Michigan's water wonderland really has experts wondering today . . . wondering where it is all going.

The Corps of District Engineers was investigating why water in the St. Clair River was down 18 inches.

Water in Lake St. Clair and the Detroit River was also reported to be two feet below normal level.

Mr. and Mrs. Ralph Baker, who own a 46-foot houseboat which normally floats in the shallows of the St. Clair Shores Marina, said it is now on dry land.

Market Prices Slightly Down

NEW YORK (AP) — Stock market prices slid off gently in quiet early trading today.

Leading issues declined from fractions to about a point. There were a few gainers.

★ ★ ★

The opening was fairly active, then turnover slackened. No pressure was apparent in any section.

The newest credit-easing steps gave the market only a temporary lift yesterday.

Detroit Steel was off a fraction following a published report that management has asked directors to defer first quarter dividend action until the February meeting.

★ ★ ★

Youngstown Sheet was down about a point. Fractional losses were taken by Bethlehem, International Harvester, Douglas Aircraft, American Cyanamid, Southern Railway, Paramount and Eastern Air Lines. Du Pont, Ford and Montgomery Ward were steady.

Opening blocks included: Pennsylvania Railroad unchanged at 12¼ on 1,000 shares; U.S. Steel off ⅛ at 54½ on 1,500; Phillips Petroleum off ¼ at 39⅜ on 1,100; and Kennecott off ½ at 77 on 2,000.

County Credit Union Elects New Officers

The Oakland County Employe Credit Union elected new officers and declared a dividend at the fifth annual meeting last night in the Civic Room of the Pontiac Federal Savings and Loan Building.

★ ★ ★

Elected were Mrs. Lois Tutor, president; Herbert Radunz, vice president; Vergiline Hooper, clerk and John Jones, treasurer.

Re-elected were William Arnold and William Webb, directors; Lewis Renshaw, credit committee, and Leo Halfpenny, supervisors' committee.

Miss Hooper announced the 1957 dividend as 4 per cent, compared with 3½ per cent in 1956.

★ ★ ★

Major speaker was Merritt D. Hill, general manager of Ford Motor Co.'s Tractor and Implement Division in Birmingham.

There are 43 peaks in the Canadian Rockies 11,000 or more feet in height.

In Memoriam 2

IN LOVING MEMORY OF AGNES M. Richardson, who passed away Jan. 23rd, 1957.
Take her in thine arms, dear Lord,
And ever let her be
A messenger of love
Between our hearts and Thee.
Sadly missed by her children.

Atomic Ships Within 20 Years

Experts See Nation's Merchant Marine Use Nuclear Power

NEW YORK — American shipbuilding experts are confident that within 20 years a segment of the nation's merchant marine will be plying the high seas in commercially-owned atomic ships.

★ ★ ★

Though the government and the shipbuilding industry plan to guarantee the nation's maritime strength for the next two decades by building 300 liners and cargo vessels at a cost of $3 billion, Steelways, official publication of American Iron and Steel Institute, says:

"Before the 20-year improvement program is finished, some private operators will be sending out atomic ships where sail, coal and oil blazed trails in their time."

The keel of the first atomic liner will be laid in six months and by 1960 should be burning her first kernel of fuel. This ship will be capable of sailing 350,000 miles without refueling while comparable vessels are limited to cruising distances of some 13,000 miles.

★ ★ ★

The publication says her speed will be about the same as her oil-driven counterpart, 20.5 knots, and her cargo capacity only slightly higher because the heavy shielding of atomic equipment will largely offset the elimination of fuel tanks.

Her cost, $42 million, will be about twice that of a comparable vessel and she will operate at a loss.

"But," says Steelways, "shipbuilding experts look for the payoff in the future, when the secrets of nuclear power are built into fast and far-ranging cargo and passenger vessels of tomorrow."

Explosion Kills Tot in Chicago

Seven Children, Adult Unaccounted for After Blast in Apartments

CHICAGO (AP) — A fire explosion at a South Side apartment house early today killed an infant and injured more than a dozen other persons. Police said seven children and one adult remained unaccounted for.

★ ★ ★

More than 75 persons were driven from the building.

Firemen brought the blaze under control after two hours.

Police said there was no connection between the explosion and a scare touched off on the West Side last night when it was learned that an estimated 100 persons had been sold a fuel oil-gasoline mixture as fuel.

Edward Brennock, 16th Battalion fire chief, said he thought he had a tornado on his hands when he first saw the fire. He said his men took at least 12 persons down fire ladders.

Witnesses said the explosion "just shook the whole block" in the Negro neighborhood. Bill Powell, 37, Negro, said he saw the explosion burst out on the first floor of the building.

"Seconds later the whole building went up in flames. The people inside didn't have a chance," he said.

Ten of the injured admitted to South Side hospitals were children.

Bystanders helped bring building residents to safety, catching children dropped from upper floor windows by their parents.

Schools Now One-Story

WASHINGTON — Nearly all schools built in the United States today are one-story—about four out of five. West of the Mississippi River 96 per cent are one-story.

Vanes on Door Let Pets in, Out With No Trouble

DANVERS, Mass. — A Danvers concern has developed an easily installed plastic door with overlapping vanes to let the family dog or cat go in or out of the house at will.

The vanes automatically snap back into position, keeping out insects and bad weather. The door is available in styles for home, doghouse, kennel or garage use.

Another version can be installed to let milk, newspaper and other deliveries be made inside the house through the plastic-vaned opening.

Truck Driver Happy at Light Traffic Fine

PITTSBURGH (AP) — Ray Partick, an out-of-town truck driver, figures he was lucky to get off with only a $30 traffic fine. It could have been much worse.

★ ★ ★

His tractor-trailer rig with four shiny new cars aboard was towed to the police auto pound the other night because it was standing in a no-parking zone.

★ ★ ★

Since the city charges for weight and distance a vehicle is towed, in addition to the cost of a traffic ticket, Partick's fine could have been four times higher.

Charcoal Production Up

ATLANTA — Some 30 charcoal plants in the mid-South region produced more than 74,000 tons of wood charcoal in 1956, an increase of 3 per cent over the year before.

Driver Fined

Norman J. Weingart, 46, of 695 Robinwood Ave., pleaded guilty to drunk driving today in municipal court. Judge Maurice E. Finnegan fined him $100 or 10 days in jail.

Hollywood Odds Say Rita Will Take Plunge

By EARL WILSON

NEW YORK—Although some cynics doubt the Rita Hayworth-James Hill marriage ever happens, Hollywood's betting 2 to 1 it does—by Feb. 15—and bitterly resents suggestions that 'twas a "Separate Tables" publicity stunt.

WILSON

Marlene Dietrich scoffs at the grandma tag in her next show at Las Vegas by doing a tap dance.

"Wilson Girl" nominee is Marilyn Mitchell (of Harrisburg, Wilkes-Barre and Washington, D. C.) Granddaughter of famous labor leader Johnny Mitchell, she's the daughter of Gussie Brennan, onetime gal vocalist with Vincent Lopez and Russ Morgan. "Wilson Girls" are now being scouted for TV by Steve Allen and Johnny Andrews of NBC. (So send in pictures, experience and measurements.)

★ ★ ★

MARILYN

A married wolf asked Detroit's Roxanne Arlen, sultry little Taffy-Tuttleish blonde in "Who Was That Lady I Saw You With?" just what kind of men she liked. "Single ones!" she retorted, bouncing away.

Admiral "Bull" Halsey—accompanied by his doctor—saw Rosalind Russell's last performance as "Auntie Mame." Ros's husband, Fred Brisson, is off to Copenhagen to see his father, Carl Brisson, close there at the Palace.

READER'S GAGS: "They used to say television would never replace entertainment, but it has"—Buck Spurr, Boston . . . I recently reported that Tuffy Tuttle was inventing a pencil with an eraser on both ends "for people who never do anything but make mistakes." Now Danny Dreeben Sr., San Antonio, sends me a pencil with two erasers but no point, saying his son took Taffy's suggestion and made one. A curio dealer there is putting the two-eraser penciless pencil on the market in novelty stores.

THE MIDNIGHT EARL . . .

Lawrence Welk met Jim ("Maverick") Garner, and begged an autograph for his son . . . Hermione Gingold said she'll film "Bell, Book and Candle" with Kim Novak and Jimmy Stewart . . . Joe E. Lewis got 84 bottles of Scotch for his birthday, so he gave a "birthday gift" party with 'em . . . The "New Girl in Town" showgirls are being bothered with obscene phone calls backstage.

★ ★ ★

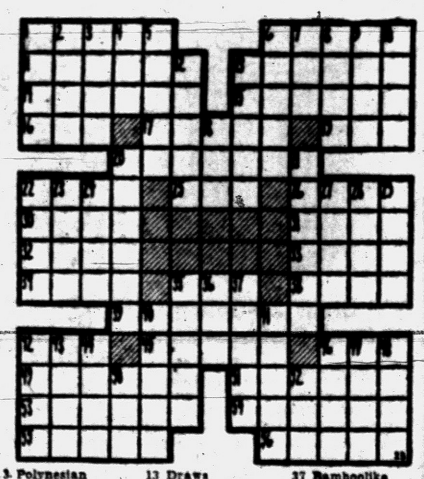

Eccentric boxer **Hurricane Jackson'll** give exhibitions in Europe . . . **Bob Feller** said he'd undergoe a checkup at the Mayo Clinic, and added jokingly, "Maybe I'll learn what happened to my fastball" . . . Singer **Laverne Baker's** building a 50G home in Elmhurst, L. I., with TWO swimming pools . . .

EARL'S PEARLS: It's Tom Kelly's advice: "Don't promise her the moon, fellas. It's going to be available one of these days." **That's earl, brother.**

O'Brian Likes Cowboy Shows

Who Cares if They're Not Cultural—They Are Fun to Watch

By JACK O'BRIAN

NEW YORK (INS) — We're getting more and more tired of the characters who belt the chaps off Western TV shows. Who cares if they're not cultural? Are they diverting? Do they get your minds off your troubles? Are they fun to watch?

★ ★ ★

The parallel this odd and snobbish anti-cowboy attitude brings to mind is one that intrigued us many years ago.

A man we knew about had just got married. He was a learned gent, a man of considerable consequence in the intellectual community, with valid accomplishments to his listing in Who's Who, a fellow about 40 who had just wed a very effervescent young thing who'd been credited even by her best friends with not having one important thought in her extremely pretty head.

The surrounding eggheads who'd married each other for their brains, who sat around eying each other's drabness, and dashed daily to the psychiatrist to search out the secret of their very real despair, couldn't understand it. What possibly could they have in common, they demanded at every double-dome gathering in their dowdy, downbeat clan.

★ ★ ★

As the marriage proceeded to become quite definitely a very happy one, the puzzle mounted until finally one close friend of the happy egghead bridegroom finally had beat around the bush long enough and as ked what possibly the egghead and the flapper type could find to keep them both so plainly contented.

The bridegroom replied with a long sigh of pleasure and quite frankly started to detail the attractiveness, the chic, the shiny cleanliness of his wife's blonde hair in comparison with the frowsy frizzes atop most of the acknowledged brains among the brainy babes in their circle.

LIGHTER PLEASURES

He cited what a bright, bouncing delight it was to come home from a day at Bunsen burner and slide rule and introspection to bask in the brightness of the lighter pleasures of his personal babbling brook:

"After wrestling with the problems of the world and science and the intellect all day, it's wonderful knowing I don't have to go home and match wits," he patiently explained.

It was in the wonderful tradition of how opposites attract. The marriage has endured and delighted both and, eventually, their children and grandchildren. Now for the parallel:

The only persons who want Westerns drowned in their channels and only the cerebral spectaculars sent into the TV air are the meager minority who do not understand entertainment in the first place.

★ ★ ★

These are double-dome types who must prove their soaring intellect every minute, even to themselves.

THEY MIGHT SLIP

If they ever let it slip that they dig something lighter than Bartok, friskier than Faulkner, hokier than Hemingway, they might slip in the myopic eyes of their associated gnomes.

★ ★ ★

Certain items of lighter content occasionally can be countenanced as "amusing," such as the cheap mystery books F.D.R. and Churchill notably admired as their particular change of cerebral pace, but really mostly because F.D.R. and Winnie liked them.

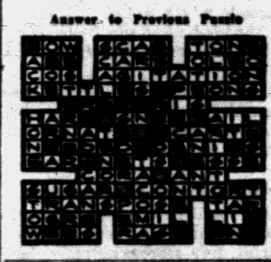

★ ★ ★

But television is the lightest of arts and can't aspire always to the perfection of a Mozart concerto, a Bach fugue, a T. S. Eliot obscurity or the pure panel discussions of semantics, cybernetics or the esterica which would satisfy this small, noisy smattering of 24-hour intellects.

Generals Used Mansion

JACKSON, Miss. — The Mississippi Governor's Mansion, at Jackson's busiest corner, served as headquarers for Generals Grant and Sherman during the Civil War. In the central rotunda of the Capitol there is a statue of Jefferson Davis, president of the Confederacy, who made his last public appearance in Jackson.

TO MOVE UP — Rep. Wilbur D. Mills (D-Ark) is in line for chairmanship of the powerful House Ways and Means committee. Post was held by the late Jere Cooper.

Mexico Would Build Low-Cost Car in '58

MEXICO CITY (AP)—Mexico hopes to be making its own low-cost automobile by the end of 1958. It will be modeled after the Italian Fiat 1,100—inexpensive and economical to operate.

Diesel Nacional said it has boosted its capital from $4,800,000 to 24 millions. It said it has full government support.

★ ★ ★

"The manufacture of cars in our country will reduce their cost considerably since the single item of import duty represents more than 35 per cent of the value," said the National Bank of Foreign Commerce.

★ ★ ★

At present U.S. made automobiles, particularly Chevrolet and Ford, dominate the Mexican market. But Volkswagen, Fiat, Porsche, Austin, MG and others are gaining.

Turn Radar Images Into Video Pictures

PARIS — A French firm claims to have perfected a system of converting radar images into television pictures.

★ ★ ★

A special "memory" tube makes it possible to maintain successive radar images and thus, for example, reproduce the path of an approaching plane.

★ ★ ★

The television picture produced is clear and easy to make out, even in a lighted room.

Princess Grace Calls Mom as Baby-Sitter

By OLGA CURTIS

PHILADELPHIA (INS) — When a young mother needs a good baby - sitter, her best bet is grandma.

Even if the young mother is Princess Grace of Monaco.

WATCHES BABY

That's why Mrs. John Kelly of Philadelphia is heading for Monaco next week to take care of Grace's baby daughter, Princess Caroline.

"The baby's a year old today," explained Grandpa Kelly. "So her nurse is entitled to a vacation. Grace wrote and asked her mother to come help out while the nurse is away."

Mrs. Kelly will stay on as palace baby-sitter through March, when Princess Grace is expecting her second baby.

HOPES FOR BOY

It would make Grandpa Kelly mighty happy, he admitted, if the second baby was a boy.

"We've got eight grandchildren," said the Philadelphia construction tycoon. "All wonderful healthy children. But there are seven girls and one boy. We need a few more boys to balance it up."

Right now, Caroline, who would succeed to the throne if there are no male heirs, is having problems learning how to toddle.

LEARNS BY HERSELF

"She's just learning to walk by herself," reported Caroline's proud grandmother. "And she has several teeth already."

"But she's not a cranky baby. She never cries much. Always has a big smile, and makes friends easily. She smiles her way right out of every predicament."

What kind of predicament can a one-year-old princess get into? Well for one thing, she has to stop biting the ears on the poodles, even though the poodles don't mind being used as teething rings.

★ ★ ★

But the baby princess has had no difficulty in learning the more important things: like smiling when her parents take her out for public appearances on their palace balcony, or behaving at parties.

"The baby went to several parties at Christmas time," Mrs. Kelly noted. "Did very well, too."

Mrs. Kelly, busy packing some new baby things for her next grandchild, said yellow will be the preferred nursery color for Caroline's brother or sister as well as for Caroline.

★ ★ ★

"Grace hasn't said she's planning to change the nursery," Mrs. Kelly explained. "So I'm buying yellow. But not much — there are so many baby things left that Caroline didn't use."

Marcel Palmero, Monaco's consul in New York, said there would be little fuss either in or out of the palace to mark Caroline's birthday. He added that only one birthday will be a really big event in Princess Caroline's history.

"When she is 21, she will pick her own nationality. She is a citizen of both Monaco and the United States now. The decision will probably depend on whether she has a brother, but there's not much doubt of that. The prince and princess want a big family."
