Hospital Board Refuses to OK Room Rate Hike

Trustees Agree to Cut Staff Further Instead

Hope to Shave \$50,000 From Growing Deficit With Reduction

A room rate increase of two dollars a day at Pontiac General Hospital was turned down by the Board of Trustees last night as they met again to see what could be done about a soaring operational deficit at the city hospital.

Trustees did take a step aimed at making a dent in what looms as a year-end deficit of \$222,000, when they approved another personnel cut which is expected to save \$50,000.

This move was only one of three alternatives by the board's Finance Committee which trustees agreed to.

The other two cost-cutting deals involved breaking a union contract by cutting union employees' wages five per cent despite their objections, and the proposed room rate increase.

These latter two points, according to Harold B. Euler, acting hospital director and trustee, would have meant a saving around \$115,000 for the last part of the year.

OBJECTED LOUDLY

Breaking the union contract with Local 100 of the American Federation of State, County and Municipal Employees brought loud objections from several trustees. But the matter never came to a vote.

Instead, upon the suggestion of William P. Babcock, the board decided to look into operational costs which might produce smaller piecemeal savings. The costs of operating the hospital cafeteria will be the first target of a special committee with this purpose.

Babcock, who will head this new four-member committee, warned against the "consequences" of breach of the union contract which expires Dec. 31. "They could take us before the State Labor Mediation Board and tie us up like a pretzel," he said.

PAY CUT OUT

At the start of last night's 2½-hour meeting, Babcock reported that a union negotiating committee had met Monday with the board's Personnel Committee and rejected, for a second time, a pay cut. Turned down was a compromise move of the board to trim union employees' salaries five per cent for just three months instead of (Continued on Page 2, Col. 4)

Marines Turn Green

CAMP PENDLETON, Calif. (UPI) — The hair of a number of United States Marines may soon match the color of their uniforms, if they don't watch out. Officials here warned blond-haired leathernecks that, with repeated dousings, the high chlorine content of the camp's swimming pools could turn their hair to a marine corps green.

\$2.5 Million Truck Center Being Developed in City

A \$2,500,000 trucking center is under development on Franklin road in Pontiac's south-central area. Interchange, storage and service facilities are being planned for up to 14 trucking firms, seven of whom have already signed leases.

So says a Detroit real estate developer, Louis Y. El'Chonen, who believes the enterprise will help spur industry here.

Farmington Boy Dies in Accident

Killed in 2-Car Head-On Collision; Four Others Injured

James Denniston, 13, of Farmington Township, was killed yesterday in a two-car head-on collision on Orchard Lake Rd. at Alameda St., in Farmington Township.

Denniston, son of Mr. and Mrs. Finley Denniston, 28349 Parkhill Dr., was dead on arrival at William Beaumont Hospital.

He was riding in a car driven by his brother Richard, 17, who was injured in the collision. Two other passengers, Cecil Costigan, 15, and his brother Leonard, 13, of 29150 12 Mile Rd., Farmington Township, were injured.

The driver of the other car, Ralph J. Garry, 17, of 33715 Oakland St., Farmington, suffered a possible concussion and fractured ribs. All injured are reported in satisfactory condition last night in Beaumont Hospital.

The driver of the other car, Ralph J. Garry, 17, of 33715 Oakland St., Farmington, suffered a possible concussion and fractured ribs. All injured are reported in satisfactory condition last night in Beaumont Hospital.

Troy Owners of Prize Hounds Fight Eviction

Droopy-eared Timber King of Meadow Park and Longview Acres of Sweet Park are on the verge of being evicted.

But the owners of these national champion and near-champion Basset hounds don't believe the City of Troy has any business interfering with their hobby of hound raising.

So Raymond and Charlotte King, of 3616 Rochester Rd., went to Oakland County Circuit Court Tuesday to seek an injunction which would stop the city from preventing them from continuing their hobby.

City officials say the Kings' breeding of these low-slung, sad-eyed dogs constitutes a business and is thus in violation of a residential zoning ordinance. King disagrees.

"We're not in this business from the dollar and cent angle," he said. "We love these dogs. They're our hobby."

He explained that those members of a litter which don't bear prerequisites of future champs are sold. Doesn't a farmer weed out the wormy corn? King, a 55-year-old electrician, asked.

U.S. Urges U.N. Policing Unit for Lebanon

Tells Security Council Marines Would Leave if Replacements Sent

UNITED NATIONS (AP) — The United States urged the U.N. Security Council today to send an international military force to Lebanon to protect the country's independence from the rising tide of Nasserism. The Americans said their Marines would be withdrawn when the U.N. troops took over.

The Soviet Union was promoting a rival proposal for the Council to demand immediate withdrawal of the Marines the United States landed in Lebanon yesterday.

Delegates predicted the Council would vote on both resolutions by nightfall.

No one expected the Soviet resolution to get the necessary seven votes for adoption, and a Soviet veto of the U.S. proposal was generally anticipated.

MIGHT ABSTAIN

But one delegate suggested the Soviets might abstain from voting and let the American resolution pass, preferring "a U.N. force to an American force." Diplomatic sources said that if the Soviet Union vetoed the American resolution, the United States would not ask for a special session of the General Assembly to set up the U.N. force.

Instead it would leave the Marines in Lebanon as long as it was thought necessary.

The Lebanese government claims President Nasser's United Arab Republic is sending arms and men across its border to aid the rebels seeking the overthrow of pro-Western President Camille Chamoun.

Driving Hazard Put 'in the Bag' by Sack Dress

CHARLOTTE, N.C. (UPI) — At least one group favors the sack dress.

"We like the sack," said Thomas B. Watkins, president of the North Carolina State Motor Club. "It's what we need for safer summer-time driving."

Watkins said that ladies wearing shorts, especially short shorts, were a traffic hazard because the shorts distract the attention of drivers. Last summer, he said, the club reported the traffic accident rate was going up alarmingly because shorts were getting shorter.

The club even issued a request to girls to wear shorts only in their backyards, away from the view of motorists.

"Now," Watkins said, "thanks to the clothes designers, the trend is to the other extreme, perhaps in the interest of highway safety. 'The problem is, so to speak, in the bag this summer.'"

Costs to Move Statue

NEW YORK (UPI) — The Department of Parks announced yesterday it would cost \$125,000 to rehabilitate the Soldiers and Sailors Monument, built in 1902 as a memorial to New York's Civil War dead at a cost of \$250,000.

Lloyd to See Dulles

LONDON (AP) — Foreign Secretary Selwyn Lloyd announced he is leaving for Washington today to confer with Secretary of State Dulles on the critical Middle East situation.

Marines Set Up Gun Positions

ON BEIRUT BEACH — Marines of the U.S. Sixth Fleet set up a mortar position on Khalde Lebanon, yesterday. (This is one of the first actual pictures of operations to reach us.)

FLOATING HEADQUARTERS — This is James L. Holloway, who was ordered from the U.S. Navy attack transport Taconic which will serve as floating headquarters for Adm. landing forces in Lebanon.

17 State Marines Dispute's Background in First Wave

Among Initial 1,800 U.S. Troops Landing at Lebanon

WASHINGTON (UPI) — The Defense Department said today 17 Michigan Marines were in the first wave of 1,800 Marines who landed yesterday in Lebanon.

The department said the state Marines included Cpl. Donald A. Misiewicz of Muskegon, Cpl. Gordon T. Stinson of Houghton, Cpl. Gerald L. Ingerson of St. Louis, Pvt. Donald E. Nelson of Kalamazoo, Sgt. Robert E. Malott of Jackson, Cpl. Clifford D. Filhart of Orionville, Cpl. Carl A. Elbert of Saginaw, Pfc. Stewart C. Kinsinger of Dearborn and Cpl. Eugene Nagy of Harper Woods.

Other Marines from Michigan who landed in Lebanon were Pfc. Joseph Lockett Jr., Pfc. Alan J. Pointz, Cpl. Torrence J. Trudeau and Sgt. Lawrence E. Paden, all of Detroit; Cpl. Thomas C. Mathias of Grosse Ile, Cpl. Edward D. Jones of Trenton, Cpl. Denver A. Bryson of Wayne and Pfc. John C. Kelley of Monroe.

Sunny and Pleasant Tomorrow's Plan

Fair and cooler is the forecast for tonight, with a low about 60.

The weatherman says tomorrow will be sunny and pleasant with the high reaching around 80 degrees. Tomorrow night will be fair and a little warmer with a low of 62-65.

For the next five days temperatures will average near or below the normal high of 84 and normal low of 63. Precipitation will total about ¼ inch as showers about Friday and again Sunday.

Sixty-five was the lowest recorded temperature in downtown Pontiac preceding 8 a.m. The mercury read 77 at 1 p.m.

Dispute's Background

WASHINGTON (UPI) — Here is a list of events surrounding the dispatch of U.S. Marines to Lebanon:

MONDAY

The world was shocked by the news that Iraq's pro-Western government had been overthrown by a military coup in a swift, bloody revolt.

11 a.m.—President Eisenhower met with Vice President Richard M. Nixon and Secretary of State John Foster Dulles on the crisis, which threatened to crumple Western influence in the powder-keg Middle East. The Joint Chiefs of Staff conferred at about the same time at the Pentagon.

2:30-4:40 p.m.—Eisenhower and his top military and diplomatic aides briefed 22 senators and congressmen on the situation. After the session one congressman said U.S. troops would be sent to Lebanon; another said they would go to Jordan.

5:45 p.m.—President Eisenhower called for a special session of the United Nations Security Council as soon as possible to deal with the Mideast situation.

TUESDAY

1 a.m.—The Defense Department announced that planes were being dispatched from Donaldson Air Force Base, S.C. to an undisclosed destination.

9 a.m.—Some 1,700 U.S. Marines started wading ashore near Beirut, Lebanon.

9:30 a.m.—President Eisenhower told the world through a White House statement that he had sent the Leathernecks at Lebanon's request "to maintain security."

10:30 a.m.—U.N. Security Council session opened. Early afternoon—Eisenhower conferred with Dulles for 90 minutes.

Late afternoon—A White House courier delivered the presidential message to the House and Senate explaining why the Marines were sent and disclosing that more troops may be ordered ashore.

Faisal Killed on First Day of Revolt

Palace Guard Shot Down Iraq's King

TEHRAN, Iran (UPI) — King Faisal was shot and killed Monday by a member of his own palace guard, Iran's ambassador in Baghdad reported today.

The ambassador reported the assassination took place on the first day of the revolt in telephone calls to the Iran government.

PRINCE KILLED

He also reported that Crown Prince Abdul Illah was shot and killed at the same time.

Rebel radio broadcasts from Tehran had told of the death of Abdul Illah and said he was dragged through the streets by a mob and his body burned. But this was the first authoritative report on the fate of King Faisal.

Only last night reports circulated in Amman, capital of neighboring Jordan, that Faisal was still alive, barricaded in his castle and directing the fight against the rebels.

The rebel radio has never announced the death of the 23-year-old Faisal but denounced him as a "traitor." Unconfirmed reports reached Ankara earlier that he had been killed.

The rebels who overthrew Faisal's government in a coup d'etat Monday also were reported to have murdered Premier Nuri Es-Said, the staunchly pro-Western

Advance Guard Moves Into Tense Beirut

Reports No Opposition; U.S. Troop Landings Denounced by Rebels

MOSCOW (UPI) — The Soviet Union today officially demanded that the United States withdraw from Lebanon "at once." A formal statement said the Soviet Union "cannot stand by as a spectator" during the Lebanese intervention.

By EDWIN A. SHANKE
Chief of AP Beirut Bureau

BEIRUT, Lebanon (AP) — Another U.S. Marine battalion landed in Lebanon today. Advance units moved from their beachhead into Beirut, the capital.

This swelled the total of Leathernecks in this troubled republic to 3,600. More are on the way.

Rebel leaders fighting to

Interpretive Stories
Pages 10, 38

topple pro-Western President Camille Chamoun have denounced the Marine landing.

But there was no opposition as the Marines swung into the capital.

A third battalion, rounding out the presently assigned total, was off the Lebanon coast, waiting orders to go in.

More Marine assault troops from Cherry Point, N. C., were being flown to an intermediate destination in the Mediterranean by planes of the Atlantic Fleet.

The number of men was not given, but it was learned a lieutenant

Selfridge, Oscoda 'Alert'

DETROIT (AP) — Selfridge Air Force Base near Mount Clemens and Wurtsmith AFB at Oscoda have been placed on special alert because of the Middle East crisis.

The new status increases the number of guided missiles and airplanes held ready for instant use at the bases.

Colonel commands them. That rank normally handles a battalion of 1,700 to 1,800 men.

Adm. Jerald Wright, Atlantic Fleet commander, described them as combat ready and "tough as hell."

Rebel leader Saad Salam, holed up in the Moslem quarter of Beirut, issued a statement urging Lebanese "to defend your country and safeguard your freedom."

An air of tension gripped the city.

American civilians were leaving the country in greater numbers.

Of about 3,200 Americans in Lebanon, 220 private citizens and 168 dependents of embassy personnel have left since the revolt began 68 days ago.

REBELS WITHDRAW

A band of rebels that moved up to the area around The Associated (Continued on Page 2, Col. 5)

House Group Hopes to Wind Up Questioning of Goldfine Today

WASHINGTON (AP) — Rep. Oren Harris (D-Ark.) said he hopes his House Investigating subcommittee will wind up today its questioning of Bernard Goldfine. But "we're going to get all we can out of him first" before letting the 67-year-old Goldfine off the witness stand, Harris declared.

Today is the seventh appearance in two weeks for the Boston textile and real estate magnate whose gifts to presidential aide Sherman Adams and others set off a Washington uproar. Goldfine and Adams have steadfastly denied that Adams

swung federal favors for Goldfine.

Yesterday, after a 3½-hour se-

cret huddle with subcommittee members, Harris gave newsmen tidbits about an Army textile contract dispute in which he said the facts show "gross political interference and influence."

Harris named the company as Raylaine Worsted, Inc., of Manchester, N.H., and said the dispute concerned a penalty provision relating to an Army contract awarded in 1940. The matter was settled last year.

Goldfine stood fast in both closed and open sessions in declaring the congressmen have no business checking into what he says are his private affairs.

Harris said the matter is outside his subcommittee's jurisdiction, and is being turned over to the Armed Services Committee. Chairman Carl Vinson (D-Ga.) of that group said, "We'll look into it."

Harris named the company as Raylaine Worsted, Inc., of Manchester, N.H., and said the dispute concerned a penalty provision relating to an Army contract awarded in 1940. The matter was settled last year.

Goldfine stood fast in both closed and open sessions in declaring the congressmen have no business checking into what he says are his private affairs.

From 60 to 80 per cent of the graphite used in the U. S. is imported.

Home Blows Up, Burning 4 Badly

NEW YORK (AP)—A gas explosion blew a \$30,000 Queens home to bits at 3 a.m. today and critically burned a family of four. The split-level home in Douglass town near Little Neck Bay was demolished as a couple and their two daughters huddled in the living room.

The four apparently were blown out into the yard. A policeman said, "It was a miracle that anyone got out of there alive."

The explosion scattered parts of the house over a radius of 50 yards. Fire broke out in the debris.

A neighbor said: "I heard a

child screaming 'Mommy, mommy.' It was horrible."

The smell of gas awakened the family—Joseph Gmudici, 40, a musician; his wife Frances, 37; Joanne, 11; and Rosemary, 7.

As the father nestled the two girls in his arms, the mother telephoned the Consolidated Edison Co. and told an operator: "I smell gas escaping. We've got two children here. What do we do?"

Before the operator could reply, he heard the blast.

George Couldn't Lie

NEWCASTLE, England (UPI)—George Washington could not tell a lie. He admitted taking two cooked meals from a railway station snack bar. The 39-year-old railway examiner was found guilty in magistrates court and con-

Wed at 2 A.M.: Navyman Off for Lebanon

PAWTUCKET, R.I. (AP)—A Navy man was married at 2 a.m. today and about an hour later was en route back to his ship without his bride.

The unusual hour for the wedding and the hasty return to duty was in compliance with the alert of the U.S. fleets because of the crisis in Lebanon.

Francis A. Theroux, 20, of Pawtucket, and Ethel Barker, also 20 and of Pawtucket, were to have been married at 9 a.m. today.

Because Theroux was hastily summoned to duty from a fur-

lough, he got special permission from the Most Rev. Russell J. McViney, Catholic bishop of Providence, for a 2 a.m. wedding at St. Teresa's Church.

At 3:45 a.m., Theroux boarded a train alone to return to his ship, the USS Salute docked at Charleston, S.C.

2,800 Algerians Freed

ALGIERS, Algeria (UPI)—French army headquarters announced last night that clemency had been granted to nearly 2,800 moslem nationalists in keeping with Gen. Charles de Gaulle's wishes for "French unity" on Bastille Day Monday. About 175 had been serving prison sentences. The rest were under various forms of house arrest.

Film on Alcoholism Gains State Approval

ESCANABA, Mich. (AP)—Another step has been taken toward the State of Michigan's production of a film on alcoholism as an "illness that can be cured."

The State Board of Alcoholism approved story treatment of the film at a meeting here.

Under the voluntary commitment program, an alcoholic seeks aid and accepts commitment and treatment of his own free will.

The 34 commitments of the 1957-58 fiscal year included 24 to the Grand Rapids Alcoholism Rehabilitation Center, eight to Brighton Hospital for Alcoholics, and two to Newberry State Hospital.

IT BEGINS TOMORROW at 9:30 A. M.

Questions-Answers on Mideast: Spelled Out in Oil

By WARD CANNEL
NEA Staff Correspondent

NEW YORK — Here are some of the immediate questions facing the U. S. on the crisis in the Middle East and answers obtained from qualified authorities:

Q. What do we want from the Middle East?

A. Oil. The U. S. and the free world consume 1 1/2 million barrels of oil each day.

Q. But what about nuclear energy, solar energy—new fuels that science promises?

A. Even at our present rate of scientific advance, our oil needs are increasing daily. Within seven years we will need 2 1/2 million barrels of oil each day.

Q. Don't we have enough oil under U.S. ground to supply our needs?

A. Probably not. It has cost more and more each year to find new oil reserves. And the cost of squeezing oil from shale is very high. If we depend solely on U. S. oil reserves, the price of our fuel will rise and we will jeopardize our defenses by running dry.

Q. How much oil do we have?

A. Expert opinion varies. But there is general agreement that proven reserves in the U. S. are about a 12-year supply.

Q. What is the Middle Eastern supply of oil?

A. With much of this barren, treeless, alien land still uncharted, geologists have already estimated that the Middle East holds two-thirds of the earth's oil.

Q. Can't we look to Venezuela or Canada for new oil?

A. Yes. And we are. But the cost of finding it is high and meanwhile we know that under the tiny country of Kuwait — about the size of Connecticut — lies twice the entire amount of oil in the U. S. And under a small section of Saudi Arabia that has been charted there is an equal reserve.

Q. But isn't it costly to import oil?

A. Not Middle Eastern oil. Where U. S. oil costs well over a dollar per barrel to produce, a barrel from Kuwait, for example, costs nine cents.

Q. Because labor is cheaper in the Middle East?

A. No. Oil production is not like auto production: labor is a small part of it. Cost of oil is built on availability. And where the average U. S. well pumps about 13 barrels per day, a Middle Eastern well pumps about 5,000 barrels per day.

Q. Does Western Europe have any oil?

A. Hardly any. France and England, for example, import well over 80 per cent of their oil needs from the Middle East.

Q. Does Russia want Middle Eastern oil?

A. Our experts say no. Russia has enough oil of her own to supply her needs.

Q. But isn't she wooing Col. Nasser?

A. Yes. But not for the rights to use Arab-controlled oil. If Russia succeeds in helping Nasser drive the West out of the Middle East, Russia would then be faced with the tremendous burden of paying Nasser the royalties his people would lose. Saudi Arabia, for example, gets \$1,000,000 per day in royalties for her oil.

Q. Does Nasser's United Arab Republic need the oil under its control?

A. No. The cradle of civilization is only now beginning to awaken after a thousand years' sleep. This is an agrarian land and most of its machinery is used in either tilling the soil or producing oil.

Q. Well then, if Russia doesn't need this oil and the Arabs can't use it, that leaves only the free, industrialized nations.

A. Right. And Nasser knows it. Listen to an excerpt from his autobiography:

"There remains (a) third source (of strength for us): oil, a sinew of material civilization without which all its machines would cease to function. . . . The center of oil production has shifted from the United States to the Arab area where the wells are still virgin. . . . Have I made clear how great the importance of this element of strength is?"

Q. Then he must deal with the free world?

A. Yes. But as he takes over more and more of Middle East, he holds the terms in his own hands. The Suez Canal, for example, floats out 60 per cent of Middle Eastern oil. Now he threatens to take Lebanon, Jordan, Iraq and Saudi Arabia — the land through which the rest of the oil moves by pipeline.

Q. Is there any way to deal with Nasser short of war?

A. This is the problem that faces the Western World.

BLACK GOLD: At stake in the Middle East crisis is the Arab world's vast production and reserves of oil. The figures above show the average daily production in barrels for the first five months of 1958. Lebanon, Syria and Jordan produce no petroleum, but pipelines from the richest producing nations pass through their territories.

DEDICATE LIBRARY AT ST. MARY'S — Next to the chapel, the library is the most important building on any campus, Edward Cardinal Mooney (center) said yesterday afternoon at the dedication ceremonies for the new Alumni Memorial Library at St. Mary's Preparatory College and the SS. Cyril and Methodius Seminary in Orchard Lake. The dedication of the \$200,000 library was the highlight of the 16th Biennial National Convention of the St. Mary's Alumni Association held yesterday and today.

Hospital Board OKs Further Staff Cuts

(Continued From Page One)

The originally-planned last six months of the year. Both proposals have been soundly opposed by Local 100.

Euler dismissed as futile any further attempts to convince the union, which represents 263 of 568 fulltime employees, to agree to the cut. "We'll just have to wait until October when we sit down to negotiate the 1959 contract," he said.

It was Euler who reported the hospital might face a "stubborn" deficit of \$125,000 for the last six months of the year. A \$96,762 loss was reported through June 30, he said.

"We don't expect to regain the first six months loss," he said, "but we will do anything to slow down the expected deficit."

WAGES HIGHER HERE

Euler reported that one of the major reasons putting Pontiac General in the red was that "our wage level is 22 per cent higher in starting salaries than other Oakland County hospitals."

Seventy-two per cent of every dollar the hospital spends, he explained, goes toward wages.

The personnel cut, which was passed by a 9 to 1 vote, will mean the elimination of some 30 more positions in addition to the 66 agreed to by the board last month. Trustee Cecil Congrove voted against the added cut.

Another step taken was a plan to ask for an advance of Hill-Burton federal aid previously appropriated to the hospital.

Trustees decided to meet again in two weeks to see how these piecemeal efforts were progressing.

FILL MORE BEDS

A spot of good news was handed the board by Euler when he announced that July occupancy had reached slightly over 90 per cent. During the month of June it was 85 per cent.

Huron Pipeline Cost Figures Due August 1

An engineering firm is expected to hand the Southeastern Michigan Water Authority by Aug. 1 a rate scale of costs of participating communities in the authority's Lake Huron pipeline project.

The Kansas City firm of Black and Veatch is now preparing a detailed cost plan which the authority needed before negotiations with the communities could continue, said Howard K. Kelley, authority chairman.

"When we get this we can negotiate in earnest," he said.

A 43-mile pipeline from a Lake Huron intake five miles north of Port Huron is planned to bring water to many southeastern Michigan communities in this \$150 million project.

More Marines On Way; Advance Units in Beirut

(Continued From Page One)

Press office in Beirut withdrew after an hour and a half.

The United States, which sent in the Marines at Chamoun's request, described the intervention here as the creation of a beachhead to assure peace and stability in the Middle East.

The reaction of the Soviet Union and the Arab bloc headed by Egypt's President Nasser was not yet known.

The spotlight appeared likely to shift rapidly from Lebanon to neighboring Jordan, the partner of Iraq in the Arab Federation.

A pro-Nasser coup on Monday overthrew King Faisal of Iraq and chief of the federation. The Iraqi rebels have announced that Premier Nuri Said and Crown Prince Abdul Ilah were killed.

Reports were still conflicting as to the fate of Faisal.

King Hussein of Jordan announced his opposition to Faisal as head of the Federation.

A Jordan spokesman in Amman said the United States and Britain were considering what aid to give.

Entire Air Force Poised

WIESBADEN, Germany (UPI)—The entire U.S. Air Force in Europe including Matador missile units was placed today on a "pre-alert" status, the Air Force announced. The announcement said all tactical and logistical personnel of the U.S. Air Force were placed on this status "to handle any contingency arising from the international crisis in the Middle East."

Jordan's King Hussein has made an appeal for help to both London and Washington. But qualified officials said he has talked only with the British about sending troops to help keep his pro-Western nation from suffering the fate of Iraq where Arab officers linked to the Nasser government at Cairo seized power Monday.

From the United States, Hussein is reported asking only material aid including petroleum which Jordan normally gets from Iraq.

The Lebanese army and police, while officially loyal to Chamoun, have made no determined effort to dislodge the rebels from the Moslem quarter during the 68 days of the rebellion.

Activity in Beirut has consisted mainly of frequent exchanges of firing and terrorist bombings to enforce a rebel-called general strike which has been only partly effective.

Reliable observers said the landing of the Marines should be considered a precautionary operation.

"It is still basically a Lebanese show," one said. "The Marines are sitting on the sidelines in case they are needed."

The movement into the capital was halted for an hour when Shehab arrived. He conferred in the road with the U.S. ambassador, the American admiral, and Brig. Gen. Sidney Wade, commander of the 2nd Marine Division. Then the conference moved inside a Lebanese army training school.

Robert Wechs, who have been negotiating with the rebels for return of the captives, remained in the mountains to facilitate release of the rest.

The rebels between June 26 and July 1 kidnapped 30 U.S. servicemen, 17 American civilians and 3 Canadians. All the civilians and one Navy aviator were freed in small batches between July 2 and July 11, but the delay in freeing the bulk of the servicemen was beginning to anger the Navy and aroused concern for the safety of the men.

Twenty-eight of the Marines and sailors were on a bus seized by 13 heavily armed rebels June 27 between the Navy base and Guantanamo City. The Cuban bus driver also was released yesterday.

CAPTIVES TOGETHER
The 28 were kept together, Gibson said. They spent most of the time in mountains south of Baracoa, near Cuba's eastern tip and about 50 miles northeast of the base.

The men said they were well fed, though some got dysentery. They were given medical treatment.

The Day in Birmingham

Public Works, Forestry to Use Relief Recipients

BIRMINGHAM — The Birmingham Public Works and Forestry departments soon will have the use of labor of a number of county relief recipients, provided through the Oakland County Department of Society Welfare Relief program, it was announced today.

The project has been set up as a means of employment for these men at no cost to participating municipalities other than that for supervisory personnel and the necessary tools, according to Robert S. Kenning, assistant city manager.

Under the direction of T. C. Brien, DFW superintendent, the men used by his department will do cleanup work around the DFW yard, city parking lots and streets.

They will remove loose gravel and stones at street intersections and debris from catch basin tops.

Charles Gale, superintendent of the Forestry Department, will

have a 15-man crew of relief workers for the balance of the summer. The majority of the men will be used for cleanup along the Rouge River flood plain, particularly in the Outlet B area, recently acquired by the city for flood control, Gale said.

The men also will be used on an improvement program at Greenwood Cemetery and throughout the city's parks, he said.

Kenning said he feels that the use of these men will be of great value to the city. "It will enable us to accomplish a great many things which otherwise would be done only on a piecemeal basis."

City Manager L. R. Gare has been named city representative on the North Evergreen Sewage Disposal Authority. Grover Serenbetz, city engineer, will be his alternate.

Dr. Clarence W. Muehlberger, State Health Department toxicologist, held a training session yesterday for Birmingham police officers on the use of the toximeter, used to determine the degree of alcohol in a person's system. Twenty-one officers attended the session. Police Chief Ralph W. Moxley said.

Bang Two Boards to Scare Starlings

EAST LANSING (AP) — An East Lansing fireman has come up with what he claims is a simple, easy and effective way of frightening noisy starlings away from residential neighborhoods.

Other cities have tried shotguns, sirens, patented noise-makers, firecrackers and amplified recordings to get rid of the pests with varying degrees of success. But fireman Floyd Kiepert said he obtains good results simply by clapping two boards together.

The idea worked so well, Kiepert said, that he's organizing neighborhood squads of board-bangers. "The early evening exercise plus the absence of the noisy starlings later should give everyone a good rest," he said.

Grocery Store Burglar Makes a Meaty Haul

Oakland County Sheriff's Deputies reported a break-in by a burglar believed to have a hearty appetite yesterday.

The Green Lake Grocery, 1338 Lapeer Rd., Brandon Township, was entered through a side door and reported stolen were six smoked hams, four beef roasts, two pork roasts, eight pounds of pork chops and 10 pounds of round steak.

Service for Francis G. Davis, 61, of 1509 Birmingham Blvd., will be held 11 a.m. Friday at Bell Chapel of William R. Hamilton Co.

Burial will be in White Chapel Memorial Cemetery.

Mr. Davis died Monday at William Beaumont Hospital after a long illness. He retired in 1961 from his position as general sales manager of the Pontiac Steel Co., Detroit, where he had been employed 33 years.

He served as a consultant to the Navy in the processing of tool steel during World War II and was a charter member of the Engineering Society of Detroit and a member of the Masonic Lodge in Bloomfield, Ind., and the Moslem Temple in Detroit.

Surviving are his wife, Grace B.; sons, F. Gordon of Birmingham and John B. of Chicago; two sisters, a brother and four grandchildren.

Plans for Prevention

Book by Juvenile Judge Is Study of Delinquency

A new study of the problems which beset underprivileged youth has been written and published by Judge Arthur E. Moore, of the Oakland County Juvenile Court. Entitled "Johnny Delinquent," the 100-page book discusses all phases of the youth delinquency problem and concludes with a suggested "blueprint for prevention."

"Johnny Delinquent" is a composite and authentic picture of many children from many families, all unfortunate. To quote from the book's foreword by Walter Gehring, president of Camp Oakland, Inc.:

"He could be an excellent citizen. Given affection he is kindly; shown decency he gains self control; afforded work and opportunity he acquires self respect; granted counsel, advice and guidance by a Big Brother, a skilled professional, a foster parent or just a good neighbor, he becomes a good citizen."

This book shows the neglect and delinquency problem, the helpful program of the Juvenile Court, the need of improved child and family care, and plans for prevention of delinquency.

The book recommends creation of child protection committees in

each community for the betterment of all children and to deal with problems of children who are or may become delinquent. A suggested ordinance which would create such a committee with legal standing is included in the appendix.

JUDGE ARTHUR E. MOORE

"WHAT CAN YOU DO?"

If you would like to have the right answer when a prospective employer asks you this question, we can help you.

The skills and knowledge which you acquire at the Institute will help you to apply your high school or college education in such a way that permanent employment will result. Your services will be valuable and your future secure.

Floods Threaten Several Areas Weather's Rampage Wet

By United Press International

Waves of fast-moving thunderstorms rolled over sections of the southwest and the Ohio River Valley today, creating new flood threats in Missouri and Indiana.

Flash floods plagued Pennsylvania and Ohio yesterday following drenching rain storms. A creek spilled over its banks at Middlefield, Ohio, causing locally heavy damage, and some streets and basements were flooded at Cleveland.

GIRL SWEEP AWAY

Pennsylvania counted thousands of dollars in damage from floods in four western counties, and a four-month-old girl was drowned

when she was swept from her father's arms.

Floodwaters receded in north-central Illinois today after forcing between 400 and 500 persons to flee their homes in Streator. The flood also was blamed for causing a hardware store explosion and fire that killed six persons.

Elsewhere, a 7.16-inch rain at Chillicothe, Mo., sent four creeks surging across lowlands yesterday, blocking highways into the city and washing a Burlington passenger train off the tracks.

About 40 passengers aboard the train, en route from Chicago to St. Joseph, were rescued and taken to Brockfield, Mo., to be routed.

The Grand River threatened to flood farmland today throughout its basin from Gallatin, Mo., to Brunswick.

Farmlands also were inundated in parts of Iowa following five-inch rainfalls yesterday. Storms in Indiana sent the Wabash and White rivers toward flood stage for the second time this season.

TORNADO REPORTED

A tornado was reported near Amarillo, Tex., last night and weathermen issued severe weather warnings for most of western Oklahoma.

Weathermen predicted scattered thundershowers today in the North and Middle Atlantic states and west into the Ohio Valley, and afternoon showers in the Southern Plains and Gulf states.

Mostly fair weather was seen for the West Coast, the Upper Mississippi Valley and the Great Lakes Region.

Prefer Lee to Sherman

CHICAGO (UPI) — A bunch of Georgia Shriners attending the National Shriners' convention liked everything about the Sherman Hotel here, except its name. So they hoisted a big sign renaming it in honor of Robert E. Lee.

Faisal Shot Down by Palace Guard

(Continued From Page One)

said the Iraqi forces stationed in Jordan had returned "in accordance with orders issued by the commander of the armed forces in Iraq."

The broadcast said all of the troops had returned with all of their arms and "are now within Iraqi territory."

The ambassador's report on Faisal today said a soldier representing the new regime entered the palace to present an ultimatum from the rebels.

The King and Crown Prince were standing together when the soldier entered the room, the ambassador said.

When they saw the soldier approaching Abdul Ilah reached to his holster but before he could draw his pistol a member of his own royal palace guard shot him both.

The ambassador said the new regime did not report Faisal's death because of his popularity.

In the meantime the rebel-controlled radio continued to describe him as a "tiger," a "stooge and mercenary" and a "traitor."

173,888,000 in U.S.

WASHINGTON (UPI) — The Census Bureau estimated today that as of June 1 the nation's population stood at 173,888,000.

22 Others Expected Today

GUANTANAMO, Cuba (AP) — Cuban rebels have finally started releasing the rest of the North Americans they kidnapped. Seven U.S. servicemen were freed yesterday and others of the 22 still held were expected to be returned today.

The seven bearded men released were in good condition and high spirits as they stepped from two helicopters at the U.S. Navy base on Guantanamo Bay. All said Fidel Castro's men treated them well during their three

weeks in the rebels' jungle camps. The returnees said they understood four or five more servicemen would be freed each day. They had been scheduled to start coming out of the east Cuban mountains Monday but apparently bad weather delayed transporting them to the pickup point.

"REBELS ANXIOUS"
"The rebels are willing and anxious to get rid of all the men because they wish to avoid endangering any of the captives' lives," said Storekeeper L. C. Robert Gibson of Chattahoochee, Fla.

U.S. Consuls Park Wollam and

Robert Wechs, who have been negotiating with the rebels for return of the captives, remained in the mountains to facilitate release of the rest.

The rebels between June 26 and July 1 kidnapped 30 U.S. servicemen, 17 American civilians and 3 Canadians. All the civilians and one Navy aviator were freed in small batches between July 2 and July 11, but the delay in freeing the bulk of the servicemen was beginning to anger the Navy and aroused concern for the safety of the men.

Lightning Bolt Kills Two on Illinois Road

GREENUP, Ill. (AP) — A motorist in trouble and a man who had stopped to help were killed yesterday by lightning.

The automobile of Mr. and Mrs. Orville Livingston of Los Angeles ran off U.S. 40 during a rainstorm and became mired.

Two traveling salesmen stopped to assist them.

Mrs. Livingston, 36, and one of the salesmen, Glenn Franklin Hartman, 33, New Carlisle, Ind., were killed by the bolt. The Liv-

ingtons' daughter, Jeannette, 4, was seriously burned. All were standing on the shoulder of the highway.

Livingston and the other salesman, who were trying to extricate the Livingston car, escaped injury.

Accused of Murder

BAD AXE — Harvey C. Deer Jr., 33, of Harbor Beach, was bound over to Huron County Circuit Court for trial after his arraignment Tuesday on a charge of murder in the June 29 death of Earl Myers, 49, of Detroit. Myers was shot to death while visiting Deer.

Comments Ike's Action

NEW YORK (AP) — Former President Herbert Hoover says President Eisenhower's dispatch of troops to Lebanon was "the only course possible if the freedom of nations is to be protected from militarist conspiracies."

Hoover's comment was issued from his apartment here.

Steals Wrong TV Set

DETROIT — The thief who took the portable television set from a sun porch of a home on Detroit's Northwest side bit off more than he could view. It belonged to Police Commissioner Edward Piggins.

Social Security Hike OK Near

House Committee Also Expected to Approve Higher Payroll Tax

WASHINGTON — An increase in old age Social Security benefits, together with a hike in the payroll tax, moved today toward approval by the House Ways and Means Committee.

It would mean an addition of 10 per cent, or a minimum of \$5, to checks under proposals now reportedly favored by committee members.

The boost appeared certain to get quick approval by House and Senate. It would be in line with an election-year pattern that has produced faster pension checks for the old folks every two years since 1952.

Benefits now are financed by a payroll tax of 4½ per cent, with each worker and his employer contributing 2½ per cent, on the worker's annual pay up to \$4,200 a year.

Committee proposals would increase the tax to 2½ per cent for worker and employer and the taxable wage base to \$4,800.

This would mean that \$320 instead of \$34.50 would be withheld each year from paychecks of workers earning \$4,800 or more.

The practice of voting election-year increases in Social Security benefits has been frowned upon by the Eisenhower administration. Secretary of Welfare Folsom opposed increases this year, contending any change should be limited to a form of cost-of-living additions.

He'll Bring Cherries as Treat for Needy

TRAVERSE CITY (UPI) — A grocery truck laden with cases of cherries for Michigan's children's homes, hospitals and home for the aged will leave Traverse City soon.

Herman Gustely of Traverse City today was buying red tart cherries for his 15th annual cherry-good will trip in a borrowed grocery truck.

Each year Gustely's trips have become a bit longer. This year he needed a larger truck to carry the cherries which he gives to the needy institutions.

Gustely pays for the cherries and his gasoline, too. His stops include Muskegon, Grand Rapids, Howell, Detroit, Dearborn, Saginaw, Bay City and Shields.

LEG CRAMPS?

One of the most common causes of painful muscle cramps in legs, feet, arms and hands is a prolonged deficiency of calcium. To stop a cramp, doctor and widely-read newspaper columnist, Dr. Harold O. Goodman, writes, "Take DYNAL-CAL Tablets, today. Bottles of 90 tablets, \$1.50."

When meals, consistently deficient in calcium, are fortified with DYNAL-CAL Calcium Tablets, cramping calcium-deficient muscles can be promptly relieved. But don't confuse DYNAL-CAL Tablets with ordinary calcium-phosphorus products. DYNAL-CAL Tablets contain no phosphorus which frequently interferes with the absorption of calcium. And DYNAL-CAL Tablets contain a special ingredient which helps to put calcium into the blood stream quicker—bringing faster relief to cramping, calcium-starved muscles. Pleasant-to-take DYNAL-CAL Tablets with calcium, betaine hydrochloride, and vitamins D and C contain no drugs. They are safe, harmless, calcium food supplements. If you are suffering from leg cramps, and suspect you are not getting enough calcium, ask for DYNAL-CAL Tablets, today. Bottles of 90 tablets, \$1.50.

*Blue capsules for muscle cramps are entirely unrelated to certain diseases.

Michigan Made Pure Sugar

LIFTS UP YOUR ENERGY—YET HELPS HOLD DOWN YOUR WEIGHT

Sensible diets based on sound nutrition call for cutting down on food without cutting out fast-acting energy-producing foods.

The latest research shows that calories which your body uses up are non-fattening . . . and when your body needs energy, the calories from sugar supply it fast—faster than any other food. Michigan Made Pure Sugar contains only 18 calories in a level teaspoonful. Just enough to sustain you through 7½ minutes of normal activity.

On a modern diet you can stay slender and still enjoy many of your favorite foods. Get Big Chief or Pioneer Sugar. Both are Michigan Made Pure Sugar brands. Each has just 18 calories in a level teaspoonful.

TWINS STUDIED—Nancy (left) and Margery Oliver, identical twin daughters of Mr. and Mrs. C. W. Oliver, 4185 Motorway Dr., had their saliva collected for a study on heredity and teeth decay. They are coeds at Michigan State

University, and were included in a sample of 25 pairs of fraternal and identical twins in the experiment, supervised by geneticist Dr. Harold O. Goodman.

Joint Chiefs of Staff Have Plans Ready for Nuclear War or Landing in Lebanon

WASHINGTON (AP)—The strategy-making Joint Chiefs of Staff have handy how-to-do-it plans for all manner of situations, from nuclear wars down to landing in Lebanon.

The huge folio of tactics and

strategy is kept constantly revised. The period involved may be a short-range six weeks in the future or a long-range 15 years hence.

Even such details as a file of code names for tagging each operation and a "specified" command setup is ready. The command is established on paper, then kept dormant until the need for its use arises.

Thus "Cinsecpomme" was ready. Translated from Pentagonese, that means "Commander in Chief, Specified Command, Middle East."

It now develops that Cinsecpomme had existed, quietly, since a previous crisis in the Middle East, when Egypt and Israel quarreled along the Suez two years ago.

The United States, following its policy of keeping out of the Middle East hot spot, had made no provisions for an over-all, unified command in the Middle East until the Suez crisis threatened war.

Yesterday, as Marines landed in the Middle East, the Pentagon disclosed that Adm. James L. Holloway had hurried to the scene from his London headquarters to take over the dormant specified command under which na-

val and Marine units and any subsequent Air Force and Army units in the area will operate. This is in addition to Holloway's regular job as commander in chief of the West naval forces in the eastern Atlantic and Mediterranean (just call it "Cincelm").

The intricate details for getting men and supplies to the Middle East was part of the ready, over-all plan. Aircraft and ships were ready to provide the back-up support and reinforcements for the three Marine battalions afloat on ships in the Mediterranean.

Indeed, one phase of the logistics had been practiced weeks ago. The score of Air Force C124 transport-cargo planes which landed in Western Germany followed the pattern of a similar flight made about two months ago when the Middle East situation sharpened momentarily.

The assumption was that the first use for these huge, three-decker planes—each able to carry 200 soldiers—probably would be to transfer two airborne battle groups of the 24th Infantry Division to Lebanon.

These battle groups, transferred to the Germany-based Infantry Division when the 11th Airborne Division was deactivated, are specialists in this particular type of police action.

The 6th Fleet of the U. S. Navy, which roams the Mediterranean, has two primary functions: to provide air and sea support to the NATO forces in Europe if the Soviet Union strikes there, and to cope with incidents in the Mediterranean basin, like the threat to Lebanon's security.

The 6th Fleet is supposed to be able to operate independently of any supply or repair facilities ashore. Among its approximately 50 ships are provisions vessels, tankers and repair ships, all capable of keeping the fleet going even though war or diplomacy should close every Mediterranean port to the fleet.

Cranbrook Presents Second Concert Sunday

Troubadour lore by Alexander Suczek and piano selections by William Doppman will be featured in the Cranbrook Music Guild's second Garden Concert at 4:30 p.m. Sunday on the Cranbrook House Terrace.

Mr. Suczek's repertoire of folk songs and ballads includes 13th century English lute school songs, 17th century Italian numbers, and traditional folk songs from European countries and America, sung in the language native to the song and accompanied on a classic guitar made for him in Paris.

At the age of 20 Mr. Doppman was the first musician to receive both the Naumburg and Michaels awards. He began music study at five years and appeared as soloist with the Cincinnati Symphony at ten. He will perform in trios by Mendelssohn and Beethoven.

Mr. and Mrs. E. B. Hodges have arrived in the city from their winter home in San Benito, Tex., to spend a month with their daughter, Mrs. Marion Hodges Benter and grandchildren Lynne, Bruce, and Roger, of East Iroquois road.

Former Pontiac residents Mr. and Mrs. R. H.

SUCZEK

DOPPMAN

Harrison of Lexington, Ky., are arriving in the city Thursday for an overnight visit with Mr. and Mrs. William J. Emerson of West Iroquois road and their son, John. Christine and Margaret Emerson are at Camp Sherwood.

Before moving to Kentucky, Mrs. Harrison had been employed as an engineer at General Motors Truck and Coach Division.

Home again on Miami road following an extended weekend at Big Platte Lake, Honor, are Mr. and Mrs. Charles Rogers and their children, Mike, Susie, and Tom.

Mrs. R. J. Hillabrand of Perrysburg, Ohio is spending this week visiting Mrs. Dora S. Dawson and Mrs. Helen S. Tietgen, both of South Tilden avenue.

Pretend to Walk on Straight Line

Watching people walk can be a funny pastime. Those who toe out or toe in excessively draw attention to a waddling gait that is unnecessary.

To correct such a walk if it is merely one of habit, pretend to walk a straight line. Point your toes straight ahead and keep them as close and as parallel as possible to this line.

Elizabeth Circle Meets Tuesday

The Elizabeth Circle of the First Christian Church met Tuesday for a luncheon at the Boston street home of Mrs. Howard Reynolds. Mrs. Levi Geasler assisted.

At the meeting Mrs. W. T. Hoyt was elected chairman. Other officers elected were Mrs. Allan Hersee, vice chairman; Mrs. Paul Beam, secretary, and Mrs. Geasler, treasurer.

The next meeting of the group will be held at the Pontiac Lake road home of Mrs. Paul Colton.

New as tomorrow's headlines—the free and flowing shape of fashion's smartest chemise. Wear it one day as a dress—next day as a duster. Easy-sew Printed Pattern—two main pattern parts (collar in one with dress).

Printed Pattern 4733: Misses' sizes 10, 12, 14, 16, 18. Size 16 takes 4½ yards 35-inch fabric.

Printed directions on each pattern part. Easier, accurate.

Send 35c in coins for this pattern—add five cents for each pattern for 1st-class mailing. Send to Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Beauty Clinic

by Edythe McCulloch

VACATION MAKE UP

Unless you are headed for the excitement of the big city... plan to give your complexion a vacation, too.

By no means are we suggesting that you go around ghost-like. But your skin can rest and breathe better if you restrict yourself to eyebrow care and lipstick.

Take care with your lipstick and experiment with a brush if you don't already use one. This will keep you looking attractive as well as protect you in the sun's glare.

Train your brows with a brush after each swim, and fill in the light spots. This should take you through daytime play and travel time if you are going by car.

When you do have a gala evening that calls for make-up... see how glowing and wonderful it will appear!

Women Make Better Pilots, Says Texan

By PHYLIS BATTLE
NEW YORK — Texans are not always noted for their strict adherence to fact, and the same can be said for red-haired Irish-type people. Thus it is with no guarantee we present Jimmy (Red) Blaine of Dallas, saying:
"Sure, women make better pilots than men, sir you know why?"
"Well, because women, by temperament, are more sensitive to the technical aspects of flying than men are. They have more coordination. They're quicker on the grasp."
"And men, you know, they are dreamers. Everybody has to stay

alert in the air, of course, or they will soon reach the point of life's termination. But men have a tendency to go up there in the sky and idling while at the sight. Like me—I like to go up and sit on a cloud early in the morning and think.
"Women don't think that same way. They're more 'all business.' And flyin' is something you never stop learning. You should work. You should improve. You should add dimension daily to your knowledge about plane and sky." Jimmy shrugged and grinned and took a gulp of tonic without gin. "Which sex do you suppose has

the ambition to do all that?" he said.
"Jimmy Blaine, besides being hewn and hued like a Texas crag by sunset, was a B17 pilot during the war. He now flies his own Navion plane for relaxation between stints on television. Currently, those stints include a kiddies' show called "Ruff and Reddy" on Saturday mornings, and some highly lucrative filmed commercials which because of a thing called residuals, allow him to collect \$1,500 a week for doing nothing—which is nice worklessness if you can get it and allows much time

for the observation of human nature.
"I first noticed that women were fine pilots during the war," he remembers. "I wanted desperately to fly a B29 but, as a B17 man, they wouldn't let me near 'em. I got the impression the 29s were too good for me."
"Then one day, at whatever field it was, I watched the smoothest landing I've ever seen in a B29. I thought, what a guy. I felt small with big eyes. And then out stepped, as if you didn't figure, the neatest little trick of a WAF you'd hope to see."
"Then just a few months ago I

was in Florida, and a girl came out to the field to take a first flying lesson. The teacher took me aside and said, 'This girl's smart. I'll have her soloing in two hours.' "An' you know, he did."
Jimmy's wife also flies their small, fast plane. To him, she has all the finer qualities of Amelia Earhart. But then, all women who fly are sure, safe, coordinated, he says. "Maybe it's a woman's basic love of security that makes them so good."
"Anyway, I'm glad women are such fine pilots. They keep us men humble. And in the air, when you stay humble you stay alive."

Burns Girl's Hands, Mother Gets Jail Term
LOS ANGELES (AP)—A mother accused of burning her 4-year-old daughter's hands has been sentenced to 90 days in jail.
Mrs. Consuelo M. Arce, 28, also lost custody of the child, Frances, who was placed in a foster home. Mrs. Arce was convicted after officers testified she held Frances' hands over a stove burner because she took a tortilla while her mother was away.

PARIS (AP) — Premier de Gaulle prepared today to call up more officers to fight a 31-month nationalist rebellion in Algeria.

A decree in the official government gazette said 600 reserve officers between 27 and 32 years old would be called for a year or more. Reserve officers and non-commissioned officers due for release Aug. 1 will be held for an additional three months.

In the past week 457 rebels were killed and 137 captured, military headquarters in Algiers said.

There were only 8,000 automobiles in the U. S. in 1900.

TWO LADDS AND A LASS — Olivia de Havilland, Alan Ladd and his son, David Ladd, head the cast in "Proud Rebel," which co-stars Dean Jagger. Starting Friday at Pontiac Drive In Theater, it is the story of a father who seeks medical for his mute son who saw his mother killed in the Civil War.

1,400 Bottles
of Booze to Get
Private Burial

ST. LOUIS (AP) — More than 1,400 bottles of liquor and wine, caught in a warehouse flood re-

cently, will get a private burial at a secret location next week.

Some of the labels were washed away. It's illegal to replace them so the Pure Food and Drug Administration, fearful that the goods may have been contaminated, obtained a court order authorizing destruction of the spirits.

A bulldozer operator, equipped with a gas mask so the fumes won't bother him, will smash the bottles before the burial.

"I'd rather not say where we are going to bury it," said Roy Kiergan, a deputy federal marshal. "We want this to be a private funeral without too many mourners."

Back From 6-Month Tour,
Crew Recalled Quickly

SAN DIEGO, Calif. (AP) — Crewmen were called back to the carrier USS Philippine Sea hours after the vessel arrived from six months duty in the western Pacific.

Police and sheriff's officers helped get the word to the crew. The Navy said the sailors were recalled as an extra security precaution due to the international situation.

Later, the antisubmarine carrier departed for its home port, Long Beach, Calif., 100 miles north.

Hokkaido, one of the Japanese home islands, has almost one-fourth of Japan's total home island area.

Bette Davies Triumphs Playing 'The Scapegoat'

By LOUELLA O. PARSONS
HOLLYWOOD—Just back from Europe, Ruth Waterbury tells me that she saw Bette Davis in London where she is playing Alice Guinness' mother in "The Scapegoat," and where Bette has had a great triumph. Bette and Anna Magnani have become very close friends and they are planning to make a picture together. They want to co-star in "The Three Sisters," which Anna owns.

The story is actually about three sisters, but the third one is unimportant. The three women live on an island and raise goats. Everything is wonderful until a man comes into their lives.

With Magnani and Davis there will be plenty of sparks flying, but I can't think of a better team.

Talked to Bill Goetz at the Whitney party. He and Edie had just the day before returned from Europe and he told me that although Queen Elizabeth II has cancelled the command performance, there will be a charity affair on Oct. 27. The Queen, Prince Philip and Princess Margaret will attend, the proceeds going to the Cancer Fund.

Bill said he is very pleased that his picture with Danny Kaye, "Me and the Colonel," has been selected for showing on this occasion.

I'm not surprised that a picture of Danny's has been selected. He always been a favorite with the royal family. He has promised to be in London for the gala affair, and co-star Curt Jurgens has agreed to come from Germany.

Elizabeth Taylor is moving to Tucson, where she'll live when she isn't busy making pictures. She has decided that a smaller town, such as this, is best to bring up her three children. She's toying with the idea of building a house there. She will be close then to Mrs. Jane Moss, sister of Arthur Loew Jr. who is a very good friend of hers.

I fully believe that Elizabeth will go back to work and make another picture as soon as she finds a story suited to her. She's had all kinds of offers and work is certainly the best panacea for her. She still has fits of depression over Mike Todd's death which is not surprising.

HIGHLIGHTS
 The Ryan-Lincoln game went only four innings. A base-loaded triple and a single by Harry Bayas and Paul Moran's three-run homer paced the winners who got a 1-0, 10-strikeout mound job from Gary Moran. Dave Maccarini flipped a no-hitter for Pontiac B.C. (Class F). He fanned 12.

Auburn trailed early 1-0 but romped thereafter behind a one-hitter for Fred Carlton. He struck out 12. A big single in the last of the 7th produced the Oxford victory in a tight mound duel. Lower Dave Jones had a one-hitter for six frames. Miracle Mile scored its trio in the 3rd. Jim Lowry allowed two safeties. An infield hit spoiled a no-hitter for Cranbrook's Andy Sullivan.

3 & B walked 21 hits and Baldwin 14. Gary Maccarini of the Little Eagles socked a grand slam. Northside blew a 3-0 lead. Jim Frey blanked the Senators with four hits. Steve Renda had a triple and single to score twice and Tom LeVerdus checked a three-hitter for the Braves. Gary Muncie belted a grand slammer for Preston's.

Frick Would Curb TV, Radio

WASHINGTON (AP)—Commissioner Ford Frick told senators today that baseball desperately needs the power to curb TV-radio broadcasts of its games. Otherwise, he said, the sport faces destruction.

Frick pictured major league telecasts into minor league territory as a "major contributing cause" of the minors' rapid decline in popularity.

He said the majors and minors

depend on each other to stay in existence.

But he cautioned that without a binding TV-radio rule some clubs may "deviate from the desire line" and continue to beam their games into minor league cities regardless of the consequences.

Frick testified before the Senate Antitrust Subcommittee which is weighing House-passed legislation to grant pro baseball, football, basketball and

hockey broad exemptions from antitrust laws.

George Trautman, head of the minor leagues, also was called as a witness today.

In appealing for self regulation by baseball of its broadcasting activity, Frick touched on what may be the sorest point with senators who have expressed fear the House bill sets a bad precedent for easing antitrust law restrictions.

Frick went over baseball's prob-

lems from beginning to end, testifying upon other topics that:

1. Expansion of the major leagues is inevitable. He once thought a third league was the most likely method, but is now convinced that it "will first come as an expansion of the existing leagues."

2. Legislated exemptions are necessary to protect baseball against a reversal of Supreme Court rulings that the national pastime is now immune to the antitrust laws.

The court has held other sports enjoy no such freedom. Frick said each sport needs the question settled once and for all.

Frick recalled that the Justice Department several years ago had called on baseball to rescind a rule that prevented conflicts between television and minor league games and had said that any restriction must be confined to a particular league.

"In other words," he testified "baseball would have to operate for the benefit of the broadcasters even though it meant the destruction of minor leagues and minor league clubs."

He said the real problem is in striking a balance between protection of at-the-park attendance and broadcasting income.

Frick, Trautman, etc., 5th grad.

Comeback Wins in City Baseball

CIO Defeats Jets; PBI Pulls Triple Play and Upends Boys Club

CIO Local 594 spotted the Jets a 6-0 lead, then bounced back for a 7-6 victory in Class A City League baseball action Tuesday at Wisner Field. The Union club climaxed its uphill struggle with three runs in the bottom of the 7th inning.

Pontiac Business Institute also pulled a decision out of the fire and turned in the 1st triple killing of the season to boot in Class B activity at Jaycee Park. PBI rallied with three runs in the last of the 7th to upset the Boys Club, 5-4.

A walk to Chet Woodmore, Ron Woodhull's single, a double by Chuck Graves and Al Hayward's single, all in succession, produced three runs and victory for the CIO in the 7th stanza. Ted Reaver homered for the CIO to open the 3rd frame.

Dick Cloonan, the 3rd of four Jet pitchers, was charged with the defeat. The game-winning blow by Hayward came off reliever Jim Comparoni. Jim Wagner, who hurled five scoreless innings in relief of starter Jim Addis, was the winning pitcher.

PBI pulled its triple play in the top of the 7th when shortstop Leroy Nicholas caught a line drive from the bat of Bill Hayward, tagged out the runner coming back to 2nd and retired the 3rd man in a rundown between 1st and 2nd.

The triple execution was all important to PBI's triumphant three-run uprising in the last half of the inning. Pitcher Greg Meadows won his own game with a two-run double against loser Dick Goldsworthy.

Orioles Get 2 Broncs

BALTIMORE (AP)—Dick Sosnowski and Jack Rumohr, a pair of 22-year-old right-handed pitchers from Western Michigan University, were signed by the Baltimore Orioles Tuesday for bonuses "in excess of \$4,000."

Sosnowski and Rumohr will be assigned to Bluefield, W.Va., in the all-rookie Appalachian League.

RACES TOMORROW — Leon Blachura of Hazel Park, shown in his convertible sprint car, will be among the drivers in the featured race at Metropolitan Speedway in Mt. Clemens Thursday night.

Just One Pitching Battle Hitters' Night in Softball

It was a prosperous night for batters Tuesday in the City Softball League as O'Neil Realty, Lakeside Royals, Sports Shop and Deni's Corner posted victories at Beaudette and North Side parks.

The only pitching duel of the evening was the battle between Ron Clark of Deni's and Wilbur Wright of the Moose with Clark getting the best of it, 2-1.

Deni's made 10 hits off Wright and broke a 1-1 tie with the deciding run in the 5th inning.

Larry Douglas slammed a two-run homer in the 5th frame to help the Lakeside Royals down Griff's Grill, 6-3, on the North Side diamond. Ken Spears hurried for the Royals and limited Griff's to three hits.

In the other North Side attraction, the Sports Shop rapped out 10 safeties for an 11-3 rout of Autos of Europe. Al Urbaniak pitched a two-hitter for the winners in a contest marred by 14 errors.

Stewart of MSU Gets St. Louis U. Position

ST. LOUIS (AP)—J. Robert Stewart, director of scholarships at Michigan State University, was named Tuesday as athletic director of St. Louis University.

Stewart succeeds Ed Hickey, who took a coaching assignment at Marquette University.

Royal Oak Wins 6th

Royal Oak won its 6th game against four setbacks in Junior Legion play by whipping Berkley 5-2 last night in a makeup contest. Bob Lezotte hurled two-hit ball for the victors with Joe Brenkert wielding the big bat.

Elliott's Furniture walloped Berg Cleaners, 11-1, in a Little League game and Nu-Brite Plating was defeated by Lakeland Pharmacy, 4-3, in the Junior loop.

Coast Guard Searches for Missing Cruiser

CLEVELAND (U) — Darkness forced U.S. Coast Guard and Canadian authorities to call off a search of Lake Erie last night for a 44-foot cruiser bringing a Detroit family of five to nearby Willowick.

The search is to resume this morning.

Planes and boats sought the craft — the Ginger — and its passengers, Richard Slack, 39, his wife, 36, and their children, Rickie, 13, Timmy, 10, and Robin, 8.

The Slacks had left Detroit Sunday to visit Slack's father, Albert Luckner. They called Monday to say they had put in at Pelee Island to skin dive and would be here a day late. When the boat did not arrive by late afternoon, Luckner called the Coast Guard. Slack is a salesman for the Ford Motor Co.

Magnificent taste makes it America's favorite bourbon!

Establishing the Waterford Township school tax rate, will be one of the main items of business when the Board of Education meets at 8 p.m. tomorrow night, according to superintendent William Shunk.

The tax spread for 1957 was 8.2 mills by the allocation board, as voters approved 5 mills for operation and 3.3 mills for a 3 1/2-million dollar bond issue in February 1956.

The total rate paid by school district residents, was \$25.60 per \$1,000 assessed valuation as equalized in 1957, Shunk added. "For the past three years, there has been no increase in the tax rate approved by the Board of Education."

In other business, architect Eugene Cleland is expected to present a question involving the sewage disposal field for the new Thomas M. Cooley elementary school, now under construction.

Power Packed Tool For The Home

NEW Swingline HIGH COMPRESSION STAPLE GUN \$4.95

Imagine! Firing 100 staple-nails before reloading! Never before has such an indispensable tool for the home been priced so low. Drives staples into wood, plastic, plaster, etc. Delivers as much driving power as machines twice its size and weight. Swingline's patented push button open-chamber loading eliminates jamming. Takes two staple sizes 4/16" and 5/16". Extremely lightweight, maneuverable, balanced for tireless use.

Grain Futures Prices Down

CHICAGO (U) — All grain futures prices tipped downward in early Board of Trade dealings today in about the same uniformity with which they made their sharp climb yesterday.

Commission houses appeared to be the most liberal sellers in all pits and offerings were quickly absorbed.

Wheat was 1 1/2 to 1 3/4 cents a bushel lower near the end of the first hour, July \$1.90 1/2; corn 1/4 to 1/2 lower, July \$1.32 1/2; oats 1/4 to 1/2 lower, July \$1.26; soybeans 1 1/4 to 1 1/2 lower, July \$2.31 1/2; lard 15 cents a hundred lbs. lower to 10 cents a hundred lbs. higher, July \$12.55.

Traders were agreed that the tension in the Middle East will be the outstanding trade factor until the situation there is stabilized.
