

LBJ Is in Detroit for Sen. McNamara's Rites

Mrs. Wallace Winner in Alabama's Primary

WASHINGTON (AP) — The Wallaces of Alabama, symbols of old-time segregation, have chalked up a victory of surprise proportions despite all efforts of civil rights forces to stop them.

Larleen Wallace, blonde, 39-year-old mother of four, thumped nine male candidates so thoroughly in yesterday's Democratic primary that there will be no runoff for the party's gubernatorial nomination.

Outdistanced badly was Alabama Atty. Gen. Richmond Flowers, a racial moderate who had criticized Gov. George C. Wallace for his tactics.

Flowers had counted on depriving Mrs. Wallace of a clear majority, and thus forcing a runoff.

But it was not to be and — provided Mrs. Wallace wins the November election — her husband will still be the top power in Alabama, making the decisions for his wife as a \$1-a-year aide.

By law, he is barred from succeeding himself officially.

UNOFFICIAL RETURNS

Unofficial returns from 3,113 to 3,654 boxes gave Mrs. Wallace 371,256 votes to 134,150 for Flowers, who picked up most of the Negro vote to run second.

Former Congressman Carl Elliott was a distant third with 58,286. Former Gov. John Patterson and James (Klans) Jim Folsom were also-raised.

Choosing words from her husband's lexicon, Mrs. Wallace told a victory celebration of supporters:

"We will continue to stand up for Alabama. We renew our pledge to continue the type of government which apparently has been endorsed today."

Negro voters in Alabama — their number doubled under the federal voting rights act of 1965 — turned out in long lines, but so did whites.

One result of the Negro surge (Continued on Page 2, Col. 4)

BEFORE DEPARTURE — Before leaving for Detroit this morning President Johnson presents a boxed pen to Genevieve Gillette of Ann Arbor at a ceremony at the White House. The President signed an order creating a president's advisory committee on recreation and natural beauty. At center is Bill Stinson, presidential aide, preparing to introduce an unidentified visitor.

Hundreds Pay Final Tribute to Lawmaker

President Is Greeted by Nearly 1,000 at Metropolitan Airport

DETROIT (AP) — President Johnson today joined politicians, dignitaries and hundreds of common laboring men in paying final tribute to the late Sen. Patrick V. McNamara, D-Mich.

The President, accompanied by a delegation of 15 senators and 13 representatives, headed by Sen. Philip Hart, D-Mich., arrived at Detroit's Metropolitan Airport.

The plane was greeted by nearly 1,000 curious onlookers, gathered in a nearby parking lot.

Mrs. Johnson, originally expected to accompany the President, was not on the plane. Secret Service men and some 400 Detroit policemen set up strict security measures along the President's 30-mile route from the airport and at the funeral at Detroit's Holy Name Roman Catholic Church.

The President was expected to return to Washington immediately after church services for the grief, 71-year-old former pipefitter who played a major role in steering Great Society legislation through the Senate.

Dressed in a dark suit and dark topcoat, the President paused briefly at the airport for pictures, but made no comment.

He and the congressional delegation, accompanied by a motorcycle escort, departed for the funeral five minutes after touchdown.

McNamara died of a stroke Saturday at Bethesda Naval Hospital, Bethesda, Md. He was under treatment for a blood clot in a lung.

Two of the three leading candidates for McNamara's Senate seat also were to attend the solemn requiem Mass. These were U. S. Rep. Robert Griffin, R-Mich., and former six-term Gov. G. Mennen Williams, who resigned as an assistant U. S. secretary of state to seek the Democratic nomination.

Detroit Mayor Jerome Cavanagh, opposing for the Democratic nod, is in Europe and will be represented by his wife, Mary Helen, and their 11-year-old son, Patrick.

Area Children Hurt by Autos

City Police Warn of High Mishap Rate

"In nice weather cars drive faster and kids are running all over the place."

That's the warning from Pontiac Police Lt. Clayton A. Randolph in the wake of four Pontiac area pedestrian accidents involving children in the last two days.

Two of the children have been hospitalized with 9-year-old Michael D. White, son of Mr. and Mrs. Homer White of 308 E. South Blvd., listed in critical condition at Pontiac General Hospital from injuries received Monday.

Yesterday, two schoolchildren were struck in the city and one 3-year-old boy was hit in West Bloomfield Township.

Phillip E. Hanley, 9, son of Mr. and Mrs. Gerald Hanley of 536 Emerson is listed in satisfactory condition at Pontiac Osteopathic Hospital after being hit near his home yesterday by a motorcycle driven by James M. Cote, 22, of 852 Melrose.

WALLACE FORECAST — Alabama's Gov. George C. Wallace raises his wife's arm in a victory salute before they entered voting booths in the Clayton courthouse yesterday to cast their ballots in the state's Democratic primary election. Mrs. Wallace won handily over her nine male opponents.

Murphy Hits State Senate Salary Plan

Pending legislation that would force Oakland County to pay an additional \$82,500 in salaries drew sharp criticism today from Daniel T. Murphy, chairman of the County Board of Auditors.

The State Senate yesterday gave tentative approval for pay raises to court stenographers and assistant prosecutors and is expected to take final action on the bill tomorrow.

Murphy termed the Legislature's move to set salaries for county employees as an infringement on the authority of local government.

"The people in Lansing want to tell us how much to pay but they aren't concerned about where we get the money," he said.

Murphy was just as concerned about the ramifications of the proposed pay hike.

KEEP IN STEP

"If we are ordered to raise salaries for a few employee classifications, it will mean that adjustments must be made for others to keep in step," he said.

The bill calls for a salary floor of \$12,000 for assistant prosecutors and \$11,000 for court stenographers.

By next January when the 1967 budget takes effect, the county will have a staff of 15 assistant prosecutors at an average salary of \$9,000.

A total of nine stenographers, who earn a flat rate of \$8,500 (Continued on Page 2, Col. 8)

City Acts to Form Human Relations Unit

An ordinance to establish a human relations commission with designated responsibilities was introduced last night by the City Commission. A public hearing was set for next Tuesday.

The commission would meet once a month. Among other duties, the commission would be required to submit an annual report of its activities to the City Commission.

The first commission members would serve staggered terms of office of one, two and three years, and after that the term would be three years.

Established as an advisory group to the City Commission, the human relations commission would operate in five broad areas:

- Foster mutual understanding and respect among all city racial, religious and ethnic groups.
- Encourage equality of treatment and nondiscrimination.
- Work cooperatively with governmental and nongovernmental agencies.
- Study and make recommendations on problems of discrimination in all fields of human relationships.
- Receive and investigate complaints and initiate investigation of racial, religious, or ethnic group tensions, and/or discrimination against individuals, organizations or corporations, or any group of persons.

The proposed human relations commission is to work to correct discrimination practices through "negotiation and education."

Problems the group can not solve are to be referred to appropriate agencies, such as the Michigan Civil Rights Commission.

Monthly Sales Record Set at Pontiac Motor Division

Pontiac Motor Division sold more cars in April than in any other month in its 40-year history, it was announced today.

E. R. Pettengill, general sales manager, said an all-time record 90,951 Pontiacs and Tempests were sold last month.

He said this was a 12 per cent increase over sales in the same month a year ago.

The 40-year high was achieved on the basis of "brilliant" sales in the last ten days of the month when 41,896 cars were sold.

Pettengill said this 10-day period in April marked the highest total sales for any 10-day period.

The record April 21-30 sales topped last year by 43 per cent. There were 28,703 units sold in the same period in 1965.

TEMPEST'S TOP MONTH

Tempest sales in April totaled 43,079, which was the biggest sales month for that model since its introduction six years ago.

"April sales were very gratifying," commented Pettengill.

The division has sold 303,023 cars in this calendar year — up 9,000 over the same period last year.

Other General Motors Corp. vehicle sales for the last 10 days of April did nearly as well as Pontiac Motor Division.

ALL-TIME RECORD

Total vehicle sales by GM dealers for the last 10 days amounted to 190,219 — an all-time record for the April 21-30 period. This was an 11 per cent jump over the same period last year.

The Press Is Nice at Giving Advice

Be advised, the impressive Pontiac Press is loaded with good advice. We have Abby on the lovelorn, Jacoby on bridge and Post on etiquette.

The Press has Dawson on business, Lawrence on politics and our own Kearns on sports as well as a host of other informants, confidants, coaches and well-informed sources. A word to the wise is sufficient, don't say we didn't tell you.

Tomorrow's stories include:

- Fenton triple murder of 29 years ago still puzzling.
- Oakland County Extension Women hold achievement day.

Warming Trend Forecast

Warmer temperatures are gradually creeping into the Pontiac area.

The weatherman predicts fair and not so cold tonight, lows of 34 to 42.

Partly cloudy and warmer with possible showers in the afternoon or evening with highs of 58 to 66 is the forecast for tomorrow.

Friday's prediction is variable cloudiness with possible showers.

Morning northwesterly winds at 8 to 14 miles per hour will become variable at 5 to 10 miles tonight.

A chilly 30 was the low thermometer reading prior to 8 a.m. By 2 p.m., the mercury had moved up to 53.

U.N. Not Ready to Handle Viet--Goldberg

The United States is in Vietnam today because "the United Nations is not yet prepared to accept this responsibility," UN Ambassador Arthur J. Goldberg said yesterday.

Goldberg hastened to add that the fault lies not in the makeup of the international organization but that "its members, notably the Russians, are not yet ready to trust the United Nations."

The U. S. ambassador to the U. N. addressed a crowd of about 2,200 persons at Oakland University yesterday afternoon during a conference of the Michigan U. N. Association.

He said the world no longer can accept war as a means of settling disputes; that "we can not tolerate a big war."

However, Goldberg said, "retreat before violence only encourages more violence."

RULE OF LAW

The U. S. would prefer that the rule of law be applied in Southeast Asia and that disputes be settled by "compromise, adjustment and, finally, impartial adjudication."

"We are not, and do not wish to be, the policemen," Goldberg said.

"This war is not a Holy War against communism as an ideology," he said. "It is based on the principle that the world can no longer tolerate an invasion of national borders by force."

"It is not a war to establish a sphere of American imperialism. It is not a war to frustrate or threaten the legitimate sphere of China."

PERSUADE CHINA

Rather the purpose of the war is to persuade China that it can not hold "vassal states" in Southeast Asia as it once did, according to Goldberg.

The ambassador said it would be "highly suitable" for the U. N. to conduct elections in both North and South Viet Nam.

"There, too, we have been frustrated," he said. "The So (Continued on Page 2, Col. 6)

Cavanagh Backed by Henry Ford II

DETROIT (AP) Henry Ford II, auto industrialist who publicly supported his first Democrat for President two years ago, yesterday endorsed Detroit's Mayor Jerome P. Cavanagh for the U. S. Senate.

Ford said in an interview he was supporting Cavanagh.

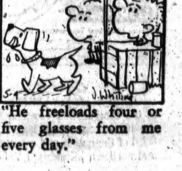

The mayor is seeking the Democratic nomination for the Senate against former Gov. G. Mennen Williams.

Asked if he would back Cavanagh in a race against Rep. Robert P. Griffin, who seeks the GOP nod for the Senate, the chairman of Ford Motor Co. replied:

"Cavanagh all the way."

Two years ago Ford threw his support to President Johnson in his bid for reelection.

L'I'L ONES

Feisty Dogs Face Bite of Stiff Fine

Dogs and dog owners beware! City Hall is going to bite back. Pontiac city officials plan to restore the "teeth" to the city's much-amended dog ordinance. The "teeth" were pulled last year in the third change in the ordinance.

City Commissioners last night directed that amendments be drafted to better control loose dogs, barking and yapping dogs and dog pens.

The ordinance amendments are to be reviewed at an informal session of the commission before passage.

Commissioner John A. Dugan raised the dog issue last week

City Awards Pedestrian Bridge Pact

A \$26,920 bid for a pedestrian bridge — the first of its type in the nation — was awarded last night by the City Commission.

Designed specifically for a span across the East Wide Track at Whitestone, the bridge is to be an aluminum arch structure.

The commission awarded the bridge construction to Spartan Sign Co. of Holt at \$26,920, reduced from the firm's original bid of \$29,985.

The final price was highest of seven bids received from four companies on three bridge designs.

A Reynolds Metals Co. spokesman said the Wide Track bridge would be the first aluminum arch-type crosswalk constructed in this country.

BIDS REVIEWED

The commission had reviewed bids of \$12,650 to \$29,985. Commissioner Leslie H. Hudson said the projected bridge would complement proposed redevelopment of the downtown area.

3 State Patrol Boys Win Lifesaver Medals

WASHINGTON (AP) — Three safety patrol boys from Michigan schools have been awarded the American Automobile Association's Gold Lifesaver Medal. It was announced Tuesday.

Winners are Robert Conley, 12, William Ford Conley, Dearborn; Norman Hegelund, 13, Trinity Lutheran School, Mount Clemens; and Alfred LaPan, 11, Mackensen School, Bay City.

Two Were Omitted as Trustees for UF

Otis Lawrence of 470 Ferry and John Z. DeLoe of 31255 Bingham, Bingham Farms, have been named to the Board of Trustees of the Pontiac Area United Fund.

Through an oversight, the two were not included in a story yesterday announcing the fund's annual election of officers.

Lawrence is a member of the city's board of canvassers. DeLoe is general manager of General Motors Corp. vice president.

City Lawyer Enters GOP Senate Race

Pontiac attorney L. Harvey Lodge announced today that he will seek the Republican nomination for state senator from the 17th District.

He is the second Republican candidate for the post, now held by Sen. Carl W. O'Brien of Pontiac, a Democrat. The other is Stanley M. Brown.

Lodge, 63, of 6610 Longwood, Waterford Township, was formerly a senator from the old 12th District which comprised the county of Oakland.

The 17th District includes the City of Pontiac, the townships of Waterford, Independence, Brandon, Oxford, Orion, Addison, Oakland and Lapeer County.

After serving two terms in the state senate, Lodge resigned in 1960 to make a bid for Oakland County prolate judge but was defeated by Donald E. Adams.

Active in politics since his college days at the University of Michigan, Lodge was assistant chief prosecutor and prosecutor from 1939 to 1947, when he was elected representative from 2nd District, Pontiac.

He served as director of the Michigan Children's Aid Society for 22 years, and has been a member of the State Government Committee for the American Bar and the Pontiac Housing Commission.

As a senator, Lodge was responsible for the legislation essential to the establishment of Oakland University, and in securing the passage of the Public Works Law.

This is the second time that Lodge has sought the GOP nomination for the 17th District seat. In 1964, he was defeated in the primary by Pontiac optometrist Lynn D. Allen.

Bid to Topple Pearson Fails

OTTAWA (UPI) — Parliament refused last night to topple the government of Nobel Prize winner Lester B. Pearson because of his probe of a sex and security scandal involving his political rivals.

Amid charges of "lies" and "political assassination," Pearson received a 133-106 margin on a no-confidence vote spurred by his pursuit of an inquiry into Canada's "little Profumo scandal."

Pearson's predecessor as prime minister, John Diefenbaker, led the spicy parliamentary debate forcing the vote on a motion which, if adopted, would have required new national elections.

The vote evolved on a question of whether Pearson abused the office of prime minister in launching an investigation of charges that Diefenbaker cabinet officials compromised security for the sake of sex with an East German beauty, Gerda Munsinger.

Mrs. Munsinger, who now lives in Munich, was in Canada from 1955 to 1961.

Deadline Near for Election

School Vote Sign-Up Will End on May 16

Voters in the Pontiac School District have just under two weeks to register for the June 13 school board election.

Registrations are taken by the clerk of the township or city of the voter's residence. City voters should register at City Hall, 450 E. Wide Track.

Voters from Sylvan Lake and Avon, Bloomfield, Orion, Waterford and West Bloomfield townships should register at their city or township office.

Along with two board posts at stake, a bond transfer request by the administration will also be on the ballot.

Vernon L. Schiller, school district business manager, said 8 p.m. May 16 will be the deadline for voter registration.

CAST BALLOTS

All registered voters in the school district are eligible to cast ballots.

Candidates for school board seats presently held by Dr. Walter L. Godsell, vice president, and Mrs. Elsie Mink, secretary, must file nominating petitions by 4 p.m. May 14 at the board of education office.

The board of education office will be open to receive petitions from 2 to 4 p.m. daily until the final day.

At least 20 but no more than 113 signatures of registered voters are necessary for filing of petitions. Schiller said no candidates have filed for the four-year terms.

UNUSED FUNDS

The administration is asking for permission from voters to transfer unused residual funds from previous bond issues to the district's building and sites fund.

State law requires voter approval of such a move.

Schiller said nominating petitions are also being received by the school district for a trusteeship with the Oakland County Schools.

Board members then select one of the nominees and submit the appointment to the county.

'U.N. Is Not Prepared to Handle Viet'

(Continued From Page One)

viet Union, its allies and Hanoi think the United Nations has no role in Viet Nam."

Goldberg said Red China was responsible for its own isolation from world politics.

BRANDED A FRAUD

The U.S. has proposed exchanges of scholars and newsmen but the offer "has been branded a fraud."

"We have invited Red China to preliminary conferences on nonproliferation of nuclear weapons, but we have thus far received no response," Goldberg said.

The ambassador said Red China itself has imposed impossible conditions for entering the U.N.

"We desire to see the rulers of mainland China come to terms with the international community," he said. "We must be patient and persistent."

NO MIRACLE WORKER

The U.N., he said, "is no miracle worker or international baby sitter."

Keynote speaker for yesterday's conference was United Auto Workers President Walter Reuther, who listed as the world's two greatest needs, the ending of the nuclear threat and the narrowing of the gap between the "haves and the have nots."

Reuther urged use of the U.N. to bring peace to the world, to establish unity through diversity rather than through compulsion.

"A rational world community can be built only within the broad framework of the greatest human diversity," he said, adding it can fit into no nation's preconceived mold.

He said the primary goal should not be to seek agreement, but understanding, which is "much more fundamental."

Birmingham Area News

City's Tentative Budget Would Require Tax Hike

BIRMINGHAM — A preliminary budget requiring a \$1.10 tax increase on each \$1,000 of assessed valuation has been received by the City Commission for study.

The \$2,541,187 tentative budget was submitted by City Manager Robert S. Kenning and is subject to the approval of the commission at a public hearing.

To balance the 1966-67 budget, the proposal, which is \$700,000 higher than current expenditures, a tax levy of \$1.10 is needed, according to City Finance Director James Purkiss.

The present tax rate is \$17 per \$1,000.

When the tax rate was reduced to 17 mills two years ago, property was reevaluated and higher assessments went into effect, generally.

PROPOSED WAGE HIKES

Proposed wage increases and additional fringe benefits account for a large share of the increase in the new budget, Purkiss said.

In addition, the budget includes a recommendation to hire six new firemen and three more policemen.

Capital improvement and special projects will take about \$339,000 of the budget, a \$31,000 hike over the current appropriation.

Under the City Charter, the budget must be adopted before the second Monday in June.

Before then, commissioners will meet with city administrators on a number of weekends to work out details of the proposed budget.

The nominating committee of the Birmingham — Bloomfield Chamber of Commerce announced the new 1966 officers last night at the annual chamber dinner held at Kingsley Inn.

Elected to the Chamber board of directors were John D. Maynard, representing real estate, construction and property management division of Berndt, Eiter and Van Maaren Inc.

Elected to the automotive division was Carl F. Fischer who is with Fischer Buick of Birmingham.

The new professional division member is Eugene A. Moore of Eugene A. Moore Associates Inc.

Directors at large are Arthur J. Lake of Lake Jewelers and John M. Rosso, who is with Birmingham Lumber and Supply Company.

Elected as directors on the retail board were Eugene Parkter of Farmer's Florist, Sean Monk of the Time Shop, Culver of Jacobson's Children's Shop, Marvin Danto of Englanders Furniture Shop and Maurice Barnett of Bloomfield Fashion Shop.

Pay Hike Plan Hit by Oakland Official

(Continued From Page One)

per year now, will be on the payroll.

"If we have to locate funds for pay increases ordered by the state, some county programs and salary provisions for other employees will have to suffer," Murphy said.

He added that he would ask the County Board of Supervisors to appeal to the governor if the salary legislation is approved by the Legislature.

Another N-Test Held

WASHINGTON (AP) — An underground nuclear test of low yield — meaning equivalent to the blast of 20,000 tons of TNT or less — was conducted today at the Atomic Energy Commission's Nevada proving grounds, the AEC announced.

Mrs. Wallace Wins Easily

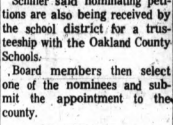

(Continued From Page One)

Both are state representatives.

Ohio — Gov. James A. Rhodes, Republican, swept to easy renomination. State Sen. Frazier Reams Jr., 36, won the Democratic nomination for governor. Robert Taft Jr. also won handily, winning the Republican nomination for the U.S. House of Representatives by a 4-1 margin.

Oklahoma — Former Gov. Raymond Gary captured the top spot in the 13-man Democratic gubernatorial primary and will face Oklahoma City Atty. Preston Moore, a former national commander of the American Legion, in the May 24 runoff.

In the three-man Republican primary, State Sen. Dewey Bartlett held a slight edge over Waukomis banker John N. Happy Camp and they apparently will face each in the May 24 runoff.

Circuit Court Post Sought

Attorney Seeks One of 3 Bench Vacancies

Robert E. Cunningham, a Pontiac attorney, today entered the race for one of the three vacant seats on the Oakland County Circuit Court bench.

A member of the three-man committee of the Michigan Veterans Trust Fund in Oakland County, Cunningham, 38, of 501 W. Iroquois has been practicing law since December, 1964.

He received his bachelor's degree in political science from Wayne State University in 1961 and his law degree from the Detroit College of Law. His office is at 18 W. Huron.

Before entering Wayne, Cunningham was a new and used car salesman in the Pontiac area for six years, and in 1956-57 was general manager of an Oldsmobile dealership in Rochester.

For four years, 1946-50, he served in the United States Air Force as a radar observer in an air-sea rescue unit in Japan and Korea.

TAUGHT RADAR

He also taught the use of radar at the Boca Raton Air Force Base in Florida.

Cunningham is a member of the Oakland, Michigan and American bar associations, the Delta Theta Phi Law Fraternity and the Chief Pontiac American Legion Post.

He and his wife Joan have one daughter.

Builders Ask U.S. Probe of Striker Pacts

By the Associated Press
Michigan's crippling construction strike entered its third day today amid indications the federal government has been asked to intervene.

Several construction workers struck their contractor-employers Monday to enforce new-contract proposals. Building projects worth millions of dollars throughout Michigan have been affected.

George Bowman, a member of the negotiating committee of the Flint Area Contractors Association, said Tuesday he has talked with an aide of W. Willard Wirtz, U.S. secretary of labor, hoping "to get a federal or top-level investigation of contracts in this area."

Bowman said carpenters in the Saginaw Valley were making wage demands greatly exceeding the 3.2 per cent per year wage-price guideline advocated by President Johnson's Council of Economic Advisers. The association has refused to

allow members of Carpenters' Local 2123 to work on its projects without a contract. The carpenters term this a lockout.

ASSOCIATION'S OFFER
Bowman said the association has offered carpenters a 5

per cent wage hike over three years. He said Local 2123 is demanding \$1.10 an hour plus increased fringe benefits over their current \$4.21.

This works out to a 26 per cent improvement, or about 8 per cent a year.

"This is way over President Johnson's 3 per cent wage hike guidelines," Bowman said. Bowman said "at the present rate, within two or three years the average person... will not be able to afford a home."

Strikers included laborers in many southwest Michigan metropolitan areas and bricklayers and operating engineers in the populous southeast Michigan complex.

Reinforced steel workers in 34 counties continued to work on a day-to-day basis while negotiations continued. They voted last Sunday to strike.

Arthritis cripples more persons in low-income families than in other groups.

Queen Mother of Britain Does Hawaiian Hula

HONOLULU (AP)—Queen Mother Elizabeth of England, stopping briefly in Hawaii during a tour, danced the hula Tuesday with Duke Kahanamoku, 73, a former Olympic swimming champion.

The queen mother took the floor before some 100 persons at a reception in her honor at an airport restaurant. She is en route to Britain from a trip to Australia, New Zealand and Fiji.

House Okays \$5-Billion Space Budget

WASHINGTON (U-P)—The House has approved a \$5-billion space agency budget that includes nearly \$3 billion to finance the Apollo program designed to send a man to the moon and back by 1970.

All attempts yesterday to change the bill on the House floor were defeated.

The measure was \$25 million less than President Johnson requested, but is subject to financing in a later bill.

Rep. John W. Wyder, R-N.Y., offered an amendment calling for \$60 million of the budget allotment to be earmarked for research in aircraft noise. That proposal lost by a roll-call vote of 270 to 90.

Rep. James G. Fulton, R-Pa., attempted to eliminate from the bill a \$9.1-million authorization to build a decontamination laboratory at Houston, Tex., for men and objects returning from moon trips.

Fords Disagree Over Sales

WASHINGTON (UPI)—Car dealers and the Ford Motor Co. say sales are up, despite charges that "sensational" Senate car safety hearings are driving them down, endangering the economy.

Rep. Gerald R. Ford, R-Mich., charged yesterday that car sales at mid-April were 10 per cent below last year's levels.

He attributed it to the hearings and "too much, too late," recession-producing effects by the Johnson administration to stem inflationary trends.

Later, Ford Motor Co. released April sales figures which did show a sales lag for cars in the first 30 days of the month but a record in the final 10 days.

Combined car-truck sales, with the latter zooming up, brought the overall Ford sales picture for April ahead of last year's levels.

There were no immediate reports from General Motors

Corp., American Motors Corp., or Chrysler Corp.

A spot check of dealers across the country by UPI found few who reported overall April sales on the downside.

Those that did give reasons other than the fiery Senate hearings as the cause.

Most dealers found normal demands for spending money to pay income taxes, a generally

tighter money market, or the Vietnamese war as factors contributing to any sales lag.

COVAIR SALES
One New York Chevrolet dealer said his sales of the Corvair were hurt by the Senate hearings. That car was a prime target for criticism.

However, a Volkswagen dealer in Raleigh, N.C. said that his sales were not hurt at all despite that car's having been singled out by auto critic Ralph Nader as one of the unsafest.

Kiss Might Kill Spaceman

LOS ANGELES (U-P)—A wife's welcoming kiss to a returning astronaut possibly could kill him unless his diet in space included plenty of down-to-earth germs.

This could mean that astronauts may have to take bacteria pills shortly before returning to earth after extensive space travels.

Dr. T. D. Lucey of the University of Missouri Medical School discussed the potential danger of a lack of bacteria yesterday during a symposium at the convention of the American Society for Microbiology, which ends Thursday.

He said spacemen's sterile air, food and water eventually could dangerously reduce the amount of bacteria in their systems.

The result, he said, could be bacterial illness when they come back to the bacteria-ridden earth.

OK Instrument Landing

Plan for State Airport

MIDLAND (AP)—The Federal Aviation Agency has approved construction of an instrument landing system at the Tri City Airport, Sen. Philip Hart, D-Mich., announced today.

The system would be built by the federal government at a cost of \$150,000, as part of a program to expand the airport for use by jet aircraft.

Children 'Tall' in the Saddle

Dedication, Ability Count on a Horse

By JANICE KLOUSER
AVON TOWNSHIP — Dedication — plus ability — are two necessary ingredients for learning to ride a horse. Young children seem to have an abundance of both.

Dedication and a love for the sport among the younger children are "almost unbelievable," according to Mrs. Karl Grmel, an instructor at the Stoney Creek School of Horsemanship, 1480 Mead.

"They'll do odd jobs and any number of chores at home just to raise the money to take lessons," she said. "They really have a passion for it."

Eight is the minimum age for youngsters to take lessons at the school. It doesn't pay to start them any younger, according to Alexander Duffield, owner of the school.

"It takes six lessons to teach a six-year-old what an eight-year-old can learn in one lesson," he said. "If they're much younger, their legs don't reach much past the saddle."

PLAYS GAMES
In order to overcome any fears the child might have the first time he climbs on a horse, his early lessons consist of playing games.

"We have the child touch his toes and play 'Simon says,'" Mrs. Grmel said. "This way, he's concentrating on the game and not the fact that he's way up there on this great big horse."

The beginners are given quiet, well-trained horses that respond to the instructor's spoken word. This way the pupil doesn't have to be concerned with controlling the horse.

Duffield said no one age group is more adept at learning to ride than another.

NATURAL ATHLETE
"Of course, a natural athlete will take to it better," he said, "but what it really takes, as it does in any sport, is dedication plus ability."

Riding lessons aren't considered a luxury.

It's Roundup Time for Kids, Yippee!

FARMINGTON — The schedule for the annual spring kindergarten roundup has been announced as follows:

Boisford, May 10 and 11; Edgewood, May 17 and 18; Westbrook, May 12.

Parents are asked to bring the child's birth certificate and health records with them when they register.

'Little Toor' to Be Rebuilt

FARMINGTON — "Little Toor," a grand tugboat, will soon be ready to take children for an imaginary ride through the city park at Howard and Shawwasee.

Farmington Jaycees have agreed to renovate the 25-foot boat for use by the children.

Plans call for a smokestack, cabin and many other additions that will make the little tug appealing to youngsters. The unique plaything will be sunk into the ground when finished.

Spraying Starts at About Dawn

Early Bird Catches the Beetle

It's an early bird's job — this winning the battle against the beetles in southwestern Michigan where men and low-flying planes are pitted against billions of cereal leaf beetles in the state of 10 counties.

Down on favorable flying days finds the Allegan airport, headquarters for the aerial treatment program, bustling with activity.

Planes are readied for take-off, and ground crews who guide the pilots with colored balloons called "kyttons" are at their stations before dawn in the areas to be sprayed.

Some 700,000 acres are to be treated in the counties of Allegan, Barry, Berrien, Cass, Eaton, Ionia, Kent, Ottawa, St. Joseph, and Van Buren.

get the urge to get away from the confinement of city living and take up riding again."

Many of Duffield's pupils become expert enough to enter horse shows around the state. Some have entered shows at Madison Square Gardens.

"Our goal is to produce the best there is," he said. "We try to make the rider good enough to compete in the Olympics."

He said that one pupil did qualify for the Olympics but since he was a child, started

his riding school four years ago in a rented barn.

Now he has facilities to stable 44 horses, two indoor riding rings and several outdoor rings.

RUN SCHOOL
He and his wife, Chris, run the school together. They met three years ago while she was teaching at his school.

They have about 60 pupils, 30 of which board their horses there. They keep about 18 or 20 horses for teaching purposes.

The Michigan Health Department ordered the halt because of increasing waste disposal into the Clinton River.

A committee to set up articles for incorporation of a building authority was approved by the township board last night.

Chosen to serve on the committee were Donald Holland, 3264 Brookcrest, Paul Ilenich, 3730 Sandy Creek and Joseph Bordinan, 32574 Shelby.

AUTHORITY'S POWER
The building authority will have the power to purchase land, sell or trade property and construct buildings.

In other action last night, the board received a request for a hearing by the Underwood Sand and Gravel Co. regarding a new licensing ordinance.

The letter from the firm's attorneys states opposition to the ordinance, which was put into effect recently.

Sand and gravel operations previously were issued permits by the board of appeals. Under the new ordinance, the township board must issue a license.

HEARING SLATED
A hearing for the firm was scheduled for the next meeting. The board also received a letter from the Utica Library requesting that the township board assist students from the township with fee payments. Those living outside the city limits of Utica must pay a fee to use the library.

Township officials turned down the request, saying they felt enough money is paid into the library fund from the justice court.

40 Children to Take 3-Day Trip to Chicago

WHITE LAKE TOWNSHIP — Some 40 youngsters from the Mandon Lake Community Church will leave tomorrow for a three-day trip to Chicago.

Sponsored annually by George Lueberger of 9 Oriole, Pontiac, the trip will include a visit to the Moody Bible Institute. The group will return Saturday.

BUILDING COST
Built at a cost of \$600,000, the school contains 22 classrooms, a library, a multipurpose room where hot lunches are served and a music room.

An unusual feature of the building is the inclusion of five student activities areas used for film and television viewing, story telling, perceptual motor development, exercises, art activities, science experiments for combined classes and small group work.

In addition the courtyard has been developed as a Japanese garden, complete with pagoda.

Following the dedication ceremonies in the multipurpose room, the school will be open for public tours.

WALLED LAKE — City Attorney Howard I. Bond presented a resolution to the Village Council last night that consideration be given to a proposal to construct a Detroit Edison Service Center in the city.

The center, if it is built in the area, will mean a considerable boost to the growth of Walled Lake, Bond noted.

Cleanup-Pickup week is now in progress, according to City Clerk Ilene Van Horn, with Saturday slated for the heavy refuse pickup.

Mayor Exchange Day, May 16, will send Mayor Wendell Kellogg and Mayor Pro Tem Margaret Thibideau to the city of Flushing.

Plans Friday Concert
ROCHESTER — The Rochester Tuesday Musicals will observe National Music Week with a concert at 8 p.m. Friday at North Hill Elementary School.

Spring Concert Near
WALLED LAKE — The vocal and instrumental music departments of Clifford H. Smart Junior High School will present their annual spring concert at 8 p.m. tomorrow in the school gym.

NOT HARMFUL
At the rate used in the program, which has the approval of both state and federal pesticide advisory groups, malathion is not harmful to man, wildlife, birds, or fish. But it is a potent insecticide in destroying overwintering adult cereal leaf beetles which emerge in early spring to mate and feed on growing oats, wheat, barley, rye, and some kinds of grasses.

The pest is one of the most dangerous threats to growing grain known.

Cool weather last week slowed down emergence of the pest in the area to be treated, and treatment was delayed in starting. Weather permitting, treatment should be finished by May 15.

The cereal leaf beetle program is operated jointly by the Michigan Department of Agriculture and the USDA's Plant Pest Control Division.

City Attorney Backs Center
Presentation of the building will be made by Rex Rokicki of the architectural firm which designed the building. Kenneth N. Larsen, president of the board of education, will receive the building.

The school, located at 2777 Lahser, was opened last September. It now has an enrollment of 569.

'Shelby Not Hit by State Order'
Only Affects Areas With Sewers—Clerk

SHELBY TOWNSHIP — A state order to temporarily stop acceptance of plans for sewer extensions and new sewage treatment plants will not affect Shelby Township, Mrs. M. A. Stecker, township clerk, said today.

"This doesn't affect us because we have no sanitary sewers, only septic tanks," she said. "This is only for communities that have sanitary sewers."

The Michigan Health Department ordered the halt because of increasing waste disposal into the Clinton River.

A committee to set up articles for incorporation of a building authority was approved by the township board last night.

Chosen to serve on the committee were Donald Holland, 3264 Brookcrest, Paul Ilenich, 3730 Sandy Creek and Joseph Bordinan, 32574 Shelby.

North Oxford Votes Saturday on School Annexation Issue

OXFORD TOWNSHIP — Voters in the North Oxford School District will decide Saturday whether to dissolve their district and become part of the Oxford district or maintain their present kindergarten through eighth grade district.

Residents of the six-square-mile district requested the referendum after the County Reorganization Committee recommended that their district be annexed to the Oxford district.

They said they wanted to initiate their own action for reorganization.

The annexation plan is now waiting consideration by the State Reorganization Committee. Included in the plan is an annexation of the Dublin and a portion of the Waterford Township school districts to Walled Lake; that Novi remain an entity and complete its K-12 program; and that Wash-Oak school district in Washtenaw County be annexed to the South Lyon district.

If this plan is not approved, the county committee must come up with a second plan. If the second plan is turned down, the state must create a plan and submit it to a vote of the people.

NEW STATE LAW
The annexation moves are the result of a new state law which requires all school districts to have a high school.

If North Oxford voters approve the annexation, their district would automatically be dropped from the recommendation. If not, it will remain as it is until the state decides on a county plan.

Approval will mean that North Oxford pupils will attend Oxford schools next year. The district presently has 15 pupils in grades kindergarten through eighth. High school students attend Dryden High School.

Oxford Schools Supt. Roger Oberg has said that North Oxford students attending Dryden High School may remain there if they wish to do so. Oxford would have to pay their tuition.

ONE-ROOM SCHOOL
Annexation will also mean the end of the one-room schoolhouse type of education for North Oxford children. They have been attending class in a school built in 1835.

It will be up to Oxford Board of Education members to decide what becomes of the school if the annexation is approved. Several uses have been discussed, including a library and curriculum material center.

If the voters approve the annexation, they will assume Oxford's operating tax levy of 17.50 mills. North Oxford now levies only the allocated millage of 8.17 mills.

They will not be obligated for Oxford's debt levy of 4.8 mills. They will, however, be responsible for any new bond issues approved after they become part of the district.

HIKE IN VALUATION
North Oxford's valuation of about \$800,000 would increase Oxford's per-pupil valuation from \$8,500 to about \$9,900 and produce about \$12,000 in taxes.

Because of its small enrollment, North Oxford has an unusually high valuation of \$38,000 behind each child. The state average is about \$14,000.

(15) The Cycle of Dynasty

by Don Oakley and John Lane

China Briefly Becomes A Maritime Power

The West Closes in on the Middle Kingdom

The Russians by Land

At the beginning of the Ming Dynasty (1368) China and the West had been on more or less the same level of development...

During the reign of the third Ming emperor, known as Yung Lo, something unprecedented occurred in China's history...

and carrying 1,000 men - sailed the South Seas and as far west as Africa.

But this epoch was short-lived. The voyages were carried out more for reasons of prestige than for exploration or trade.

The self-sufficient, self-centered Chinese soon reverted to their traditional isolationism, and we can only speculate on what turn history might have taken had they and not the Portuguese found a route around the tip of Africa.

Under Yung Lo also, the Chinese monarchy became more and more absolutistic and, behind the walls of the "Forbidden City" which the Ming erected in Peking, more and more remote from the life of the common people.

Such unheard-of practices as the public flogging of officials were instituted. Creative endeavor was restricted merely to refining the ideas and methods originated in former times.

The Ming could no more escape the "cycle of dynasty" - moving from strong, vigorous rule at the beginning to corruption and ineffectiveness at the end - than could any previous dynasty.

Classic signs that the dynasty was losing heaven's favor. Out of the north came a new menace to take advantage of this situation - the Manchus, whose tribal ancestors the Chinese had fought many times in previous centuries.

Aided by disaffected Chinese generals, the Manchus captured Peking in 1644 and for the second time, foreigners ruled China.

Another new force had also

begun to make itself felt during the Ming. In 1517, the first Portuguese seeking trade arrived in Canton.

By land, a people called the Russians were pressing into northern Manchuria. Only eight years after they seized the Dragon Throne, the Manchus faced armed conflict with these white-faced invaders of their own homeland.

Next: China vs. Confucius.

Cavanagh: Allies Must Hike Defense

PARIS (UPI) - The United States will have to make a greater effort to force its allies to increase their responsibility for the defense of Europe...

They'd Rather Be 4-F Than 1A, Called Away

DETROIT (AP) - Many men who flunk their draft physicals apparently prefer to remain fat, fidgety and 4-F rather than try to correct their defects, reports the Detroit Health Department.

The department, taking part in a medical program to help rejectees, said it has received only 17 replies from 506 men to whom corrective aid had been offered due to disabilities.

"A lot of them may still be talking it over with their wives," said a Health Department official. "Maybe they'll respond to our second letter."

When a man is rejected for medical reasons, nearby Fort Wayne sends a report to the Health Department. The rejectee is asked by letter to come in for consultation. If there is no response a second letter is sent.

NO COMPULSION A rejectee is under no compulsion to accept the counseling. If he does and his defect is corrected he could be reexamined and possibly drafted.

"The majority of the cases we have received so far have involved impairments that are readily correctable," said Dr. C. P. Anderson, deputy health commissioner, "things like hypertension, overweight, impaired vision or hearing."

"We will encourage them to go to a private physician for treatment," Anderson said. "If they are reluctant to do so because they don't have the money, we will arrange for help by a public agency."

A case will remain open for at least six months or until a physician certifies that a man's impairment is under treatment.

FEDERAL MONEY The federal government has agreed to reimburse the Health Department up to \$12 for every case that is closed to help defray the cost of the program.

"We are not interested in qualifying young men for the draft," Anderson said. "The program was meant to help them enjoy longer, healthier lives."

Teachers from four counties will spend Saturday in the classroom to catch up on new interpretations of history as explained by Oakland University faculty members.

The one-day conference is planned for teachers from Oakland, Macomb, Wayne and Genesee counties.

Entitled "New Interpretations of American and World History," the program is sponsored by the Division of Continuing Education, the Department of History and the American Historical Association.

Dr. Charles E. Hubbard
In the recent death of Dr. CHARLES E. HUBBARD, Pontiac lost a highly esteemed citizen and outstanding member of the dental profession.
Born in Port Huron, he graduated from the University of Michigan School of Dentistry and became a Pontiac resident and practicing dentist in 1919 following military service in World War I. He retired from active practice in 1956.
Dr. Hubbard was an enthusiastic outdoorsman with fishing and golf providing his principal recreational outlets. He was active in the Masonic Order and a continuous worker on behalf of the postgraduate school of dentistry of his alma mater.
Friends and former patients are saddened by the departure of so sterling a character as Dr. HUBBARD. His mortal life was both successful and exemplary. May he find the spiritual peace and reward he so richly earned.

United States Has Big Stake in Dominican Vote
Uncle Sam seems to have a penchant for getting involved in foreign entanglements for which no clear-cut solution is visible. Far-off Viet Nam, of course, heads the list; but in the U. S. backyard there is the Dominican Republic.
It is now a year since a revolution erupted on the Caribbean island and home of 3.3 million Dominicans that overthrew the government which had the blessing of the United States.
Believing that a Communist take-over, a la Cuba, was imminent, the U. S. moved in 30,000 troops in an effort to stabilize what became in effect a civil war. Currently, an "expeditionary force" of 6,500 men is doing caretaker duty in Santo Domingo, capital of the country.
During the past 12 months the United States, at a cost of \$100 million, has attempted to keep the lid on the boiling Dominican pot under a provisional government headed by HECTOR GARCIA GODOY, pending a popular election scheduled for June 1.
But the central, controversial fig-

Let's Give the 'Helping Hand' a Big Hand
Initiated last September by the local chapter of American Association of Retired Persons, the Helping Hand program is building up steam.
What is the Helping Hand?
It is a plan whereby homes in each local school district (ideally one to a block) are identified as points where children can find refuge from molesters, be given attention if taken suddenly ill or receive other forms of help in emergencies. Homes or establishments offering sanctuary display a "Helping Hand" window placard.
The idea that originated in

Viet Nam Is One Vicious Circle
By JAMES MARLOW
Associated Press News Analyst
WASHINGTON — When President Johnson and Henry Cabot Lodge met here next week they will try mind reading, not on each other but on the people of South Viet Nam.
Since neither Johnson nor Lodge, U.S. ambassador to South Viet Nam, knows for sure what to expect in that troubled land, the best they can do is guess, which would be bad enough if they only had to guess about the Communists.
But they have to do even more guessing about the people who this country is supposed to be protecting from the ravages of Communism at a cost of billions of dollars and thousands of American lives.
Not all the people in South Viet Nam are anti-Communists. Some are pro-Communist. Some are indifferent. Some are pro-American, some anti-American, and some are against each other.
In that little Southeast Asian peninsula, cries of gratitude to the United States get lost sometimes in shouts of 'down with Americans' as loyalties get tangled in politics, religion, and worry about living costs.
It must have come as cold comfort to Johnson — and to Lodge, as he made his way homeward to Washington this week — to read what U Thant, secretary-general

MARLOW

Too Many Untrained Troops!

David Lawrence Says:

Mexico Film Ban Not Surprising

WASHINGTON — Many Americans may have been surprised the other day to read that the Mexican government had banned certain films produced in Hollywood which portray Mexicans allegedly as bandits or buffoons.
The Mexican government, through its consul general at Los Angeles, entered a protest also against other jocular references to Mexico by film stars over nationwide television.
All this could be brushed aside as oversensitiveness, but it actually has a deeper meaning. For the underlying problem is directly related to some of the difficulties the United States often encounters in its relations with other governments throughout the world.
No nation enjoys being lampooned, except perhaps by caricaturists of its own.
It's a strange paradox, but understandable, that people of one race or nationality or religion do not mind being kidded by their own brethren. But when a people as a whole are subjected to satire or humorous jokes by writers or film artists abroad, resentment usually arises.
ENOUGH DIFFICULTY
There is difficulty enough between governments in trying to understand each other's peoples. The American mind doesn't always understand the Latin mind, and vice versa.
This, incidentally, may be one of the reasons for the misunderstandings between Gen. de Gaulle and the American government.
Films are seen by millions of people in all lands, and they do have a profound effect on the trends of public opinion.
This correspondent was in close contact with the Mexican people while writing about some of the revolutions of many years ago, and came to understand the feeling about foreign countries, especially since Mexico was beset by business interests at that time which seemed to have had only one aim — namely, exploitation.
Errors have been made by both Mexico and the United States over the years, but there has been a trend recent-

LAWRENCE

ly toward a better understanding.
It would be unfortunate if such progress were impaired by films that make fun of the people of Mexico or misrepresent that country's progress and development.
The opportunities for the peoples of Mexico and the United States to become closer and closer friends are increasing.
The valuable resources to the south of our border can

be steadily developed in Mexico and beyond with the aid and cooperation of this country.
Basically what is needed is a more enlightened attitude also toward the desire of all the peoples of Latin America to maintain their independence and to retain their own cultures.
As for adventures in self-criticism and satire, the Mexicans are capable of doing this for themselves.

Capital Letter:

Texas Asking U.S. Aid to Corral Prized Land

By RUTH MONTGOMERY
WASHINGTON — TEXAS is putting the bee on Uncle Sam for 50-50 matching funds to buy the land adjoining President Johnson's LBJ Ranch, so that it won't fall into the hands of commercial developers.
A news story reports that a "desperate" bid for federal funds is being Montgomery made, because one of LBJ's neighbors has "sold eight lots to San Antonio investors who may build a motel overlooking the Pedernales River."
Well, ... that should solve everything for our gregarious prey, who is forever telling people, "Y'all come see me, heah!"
The Johnsons obviously can't put them all up at the ranch, particularly since LBJ has asked Lady Bird to postpone adding two extra rooms, and the friendly strangers have to sleep somewhere.
If all those "nice folks" are willing to detour 60 miles off the beaten path to see the President, surely they're entitled to a restaurant or hotel stand, and a place to lay their weary heads.
The main LBJ Ranch comprises more than 400 acres.
This ought to provide enough privacy for any family, particularly one that is further protected by a cordon of secret service agents.
A GLASS HOUSE
As a matter of fact, no one who yearns for privacy should run for the presidency, with its glass-house existence.
Will Odum, a friend of Johnson's who heads the Texas Parks and Wildlife Commission, is pushing for condemnation of land adjoining the LBJ Ranch at \$450 an acre, to create a state park.
The President's neighbors are so mad about the project that nearly 500 have signed a protest petition and written a personal letter to LBJ, which has not yet been answered.
The matter is becoming such

Surrender, Dear?

The New York Daily News
There was a middling popular and middling punk song some decades ago called "I Surrender, Dear."
This ditty came to mind when we read printed excerpts of the speech of Sen. J. William Fulbright, D-Ark., here. Fulbright — oops, Quarterbright — oops, Fulbright (got it now) didn't use the word "surrender" of course. He merely accused his own country of irritating the fighting to save South Viet Nam from a Communist takeover, and of tempting peace-loving Red China to barge directly into that war.
We're growing war-hysterical, the Arkansas went on, and in our mounting eagerness for victory we're slight-

ing the Great Society here at home. Horrors! Fulbright gave no weight in this speech to the fact that today's genuine, 100 per cent ruthless imperialists are the Communists — in Russia, mainland China, Yugoslavia, Cuba — and that they are determined as ever to bury us.
We can settle our differences with them easily — by simply surrendering as prescribed inferentially by Fulbright. We could have settled with Adolf Hitler, in the same way, and with Kaiser Wilhelm II before that.
It is hard to imagine the U.S. surrendering to the Reds — meaning that Fulbright and people who think as he does are likely to be more and more unhappy in this country as the days go drifting by.

Why don't they all just pack up and get out, and ask political asylum in Moscow or Peking, Belgrade or Havana, whichever they prefer?
Meanwhile, it is predicted in informed Washington circles that Red China will shortly blow its third nuclear device; and there are intelligence people in Japan

'Observe Memorial Day by Demonstrating Unity'

Recently, we've been made aware of many types of marches and demonstrations. In observance of Memorial Day, let us reflect on the meaning of a truly American parade. As we see each unit pass, representative of our past, present and future, and as we pay tribute to our heroes now in service and the deceased, let us stand united, all-American, and say a prayer for peace.

Suggests Tax Break for Small Wage Earner

While President Johnson is considering the income tax, why not give the small wage earner a break by making the first \$5,000 exempt from income tax and reconsidering the exemption per person. There is a wide discrepancy between the \$9,000 a year it costs the government to keep a youngster in the Job Corps and \$600 a year the government allows parents to provide for the same youngster.

Postman Urges Support of Boy Scout Project

The Clinton Valley Boy Scout Council has purchased 2,300 acres of land for a Boy Scout reservation. This is in a suitable area and will be a historic move for the Boy Scouts of our council. As a former chairman of the Pontiac district, I can attest to the need for such a development. As a scout for 19 years, I am proud of this step forward.

Several of our postmen are directly connected with scouting and we are interested in seeing all we can to promote the program. We note with interest that many people are contributing to this worthy project. Congratulations to all givers and workers! If anyone is missed and wants to share in this development, a pledge card may be obtained from a postman.

Hopes Citizens Choose to Provide Facilities

The public voted down the bond issue offered by the Waterford Township Schools and there were many criticisms and comments regarding the swimming pool and gymnasium-multipurpose rooms. The swimming pool is needed for the children and the community. In an area where lakes are plentiful and swimming is a major summer sport, the need to be able to swim is critical. Lives often depend upon it. A pool would provide a safe place to swim year-round. A swimming program could be planned and funds used to support and maintain this facility.

The second facility that means a great deal to our Waterford children is that of gymnasiums. Another frill? Definitely not! During the elementary years a child's body growth is at its maximum, posture habits are formed, motor skills are being learned to give the child poise, grace and body efficiency. His social development is being formed through learning fairness, cooperation and good sportsmanship in gymnasium and sports activities, and leadership skills are developed.

I hope Waterford citizens will choose to provide these needed facilities for our elementary schools on June 13.

WATERFORD TOWNSHIP SCHOOLS

Are there any plans for a museum in the Pontiac area, whose history stretches back to the Civil War? The region is rich in historical treasures which many would enjoy seeing "come alive" again.

RANDALL BASTEDO
38 S. ANDERSON
REPLY

It is only a dream now, but architects have been consulted and drawings have been made for just such a museum. Space on the Wisner Home grounds may possibly be the site.

Protesters Hit Carty Removal

Detroit School Probe Due to Start Today

DETROIT (AP) — A committee of the City Board of Education was to begin an investigation of troubled Northern High School today, the day after about 100 marchers protested board action at the school.

Chairing the committee, the board said, would be Charles Wells, psychiatric social worker and former education chairman of the National Association for the Advancement of Colored People.

The Rev. David M. Gracie, rector of St. Joseph's Episcopal Church, previously was announced as chairman. He will be vice chairman of the group.

A number of students boycotted classes at Northern four days last month, charging the school offered inferior education and demanding the ouster of Principal Arthur T. Carty.

WAS TRANSFERRED

Carty was transferred to an office in the school board's building, although Supt. Samuel Brownell said he retained the title of principal. An "acting principal" was appointed.

The more than 100 demonstrators, many of them teachers or school administrators, marched in front of the school board's office building Tuesday night, protesting Carty's removal.

Chester Wydrzynski, leader of the march, said participants felt Carty "has been unjustly made the scapegoat for trouble fomented by a vocal minority."

The Rev. Mr. Gracie said the 15 or 16 investigating committee members would include some parents, probably three student leaders of the classroom strike, a principal and teacher from some other school, and a college professor.

The group is the first of a projected 25 committees to investigate conditions at all Detroit high schools.

Protestants' Bid to Unite Is Progressing

DALLAS (UPI) — Agreement on basic principles of a united Protestant church took shape today among leaders of eight denominations involved in the consultation on church union.

The consultation seeks to unite the Methodist, Episcopal, United Presbyterian, Southern Presbyterian, African Methodist Episcopal, Disciples of Christ, United Church of Christ and Evangelical United Brethren churches in a 24-million-member body which would be the largest Protestant church in the world.

Reports from closed-door work sessions indicated the delegates were having little difficulty in arriving at a consensus on theological beliefs, worship, practices and sacrament.

They did run into a few snags on questions involving the ministry and organizational structure of the proposed church, but leaders were hopeful of resolving most of the problems before the current meeting ends tomorrow afternoon.

"We're sailing happily along with no material problems," said Episcopal Bishop Stephen F. Bayne Jr., chairman of the group drafting a statement of doctrines.

The statement confirmed the authority of the Bible and accepts the Apostles' and Nicene Creeds with the understanding that the church from time to time must supplement these historic expressions of the Christian faith with "new formulations as relevant as possible to new times and situations."

Two Ohio scientists say studies show that taste sensitivity increases from age 3 to 30 years and then gradually declines.

REHEARSE FOR PLAY — Jack McCaffrey, who has the lead in the play "Harvey," to be presented by the Pierce Junior High School faculty this week in the school's gymnasium, points to his imaginary rabbit as cast members Charles Schmidt and Rosemary Martin look on. The comedy will be staged at 4 p.m. tomorrow and 7:30 p.m. Friday and Saturday. Tickets at 50 cents each can be purchased at the door or from faculty members. Proceeds will be used for school projects.

Showdown Looms Over N-Navy Issue

WASHINGTON (UPI) — Congress is moving into position for a showdown struggle with Defense Secretary Robert S. McNamara — and possibly President Johnson himself — over the issue of a nuclear navy.

In essence, the dispute stems from the belief of many lawmakers that McNamara is not moving ahead fast enough in building the nuclear-powered surface fleet they feel the nation needs.

McNamara's position is that, in many cases, any increase in fleet efficiency gained by the use of atomic fuel is simply not worth the price that the taxpayer must pay.

At present — excluding submarines — the Navy has four atomic warships: two frigates

(a vessel slightly larger than a destroyer), a cruiser, and an aircraft carrier.

The Defense Department is asking for money to build a second carrier during the fiscal year starting July 1.

AUTHORIZATION APPROVED

But yesterday the House Armed Services Committee, under the leadership of Chairman L. Mendel Rivers, D-S.C., voted to authorize \$28 million for construction of the carrier — plus two frigates the Pentagon did not seek.

The committee took the action while approving an \$18-billion military hardware authorization bill, similar to one passed by the Senate.

The bill also contains the seeds of one of those occasional

eyeball-to-eyeball confrontations between Congress and the President since the committee inserted language specifically directing the Navy and defense secretaries to begin work on the two nuclear frigates as soon as possible.

Contraceptive Pills Said Superior to Other Plan

GENEVA (AP) — The World Health Organization said today that the contraceptive pill is superior to the intrauterine loop as a birth control method.

A WHO survey found that the rate of pregnancy for women fitted with the loop was 1.8 to 2.9 per hundred women, while that of women taking the pill was 0.01 to 0.02 per 100.

Current Books

PROMISE MORNING. By Charles Mercer. (Putnam \$4.95).

The scene of this melodramatic novel is the eastern Congo. Its narrative tension is built around the bloody chaos of Congolese independence and a handful of whites seeking refuge from native forces.

The element of contrast lies between the twin sons of a Masai headman. Mato, feeling unjustly abused by a Belgian planter, turns renegade native.

Kiba, choosing the white man's education and religion, becomes a friend and guide to the fleeing whites.

When primitive revolutionary terror strikes the white outposts, a small group waits too long for safe escape, and then flees eastward toward Uganda.

Winston \$5.95: Miss Dykeman writes best of the mountain people of the southern Appalachians, and that is because she is one of them herself.

The story concerns the Thurston family, Mama, Papa and their three girls and two boys.

Rugged farming people, theirs was a well-knit group, happy in surroundings that included plenty of breathing space, farm animals and crops, hard work and simple pleasures that were possible early in the century.

The children grew up and scattered to diverse lives and occupations, but sudden danger to one of their members drew them together, again, older, wiser and with an insight into the importance of their family, each other and their common heritage.

THE RAGGED, RUGGED WARRIORS. by Martin Caidin. (Dutton \$6.95): There was a period of about five years, ending in 1942, during which air power evolved into the bloody instrument it is today. Gone were the romantic notions associated with aerial combat in World War II.

The new ideas of air-to-air and air-to-ground attack were being conceived and tested, first in Europe, then in Asia.

This is the era covered in this back-glancing book. The author, a prolific writer on the subject of air power, depicts that it is easier to remember the victories of World War II than to recall the early defeats in China and the Pacific.

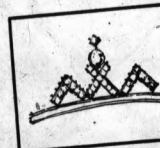

He tells an interesting story of what happened when things were really rough out there.

THE FAR FAMILY. by Wilma Dykeman (Holt, Rinehart & Co. \$5.95): Miss Dykeman writes best of the mountain people of the southern Appalachians, and that is because she is one of them herself.

Newest Nation Faces an Early Test

By BEN F. MEYER

WASHINGTON (AP) — British Guiana, long a target for Red subversion, is to become the world's newest independent nation on May 26, with a non-Communist government in control.

British Guiana—Guyana May 26

The little nation on South America's northeast coast, where the regime of Marxist Cheddi Jagan was overthrown in 1963 after charges by the London government that it was about to fall into Communist hands, was proclaimed a Communist target by the January

tricontinental conference in Havana. In October 1963, a drama was played out with the whole world watching. It was not one of the simple power plays of history where a great nation sends in troops to quell an uprising among the troublesome natives.

The point raised by the British Guiana was menaced by Communist domination. It didn't happen, but there are some who say the Communists have not given up.

Now prime minister of British Guiana is Linden Forbes Sampson Burnham, 40, a Negro who once won a nationwide contest as the brightest young man in the country.

In 1963, the British government sent 600 troops, a cruiser, a frigate and a detachment of airborne troops into British Guiana to meet what it termed a plot to turn the colony into a "totalitarian state subordinate to Moscow."

The Colonial Office said "intrigues of Communists and their associates, some in ministerial posts," created the threat. Jagan and his wife, Janet Rosenberg Jagan, formerly of Chicago, were spotlighted as key trouble-makers.

EDITOR'S NOTE — Britain loses another colony May 26, when British Guiana turns into the new nation of Guyana. Castro and the Communists are hoping to grab the infant country. Here is a look at an explosive hemisphere problem by a veteran observer of the Latin American scene.

Don's action was "outrageous and wholly unjustified."

It was not long after the interview that Jagan, then holding the title of chief minister, and members of his Cabinet were ousted from office by the British.

British Guiana will be the third British colony in this hemisphere to become independent. Jamaica got independence Aug. 6, 1962, and Trinidad-Tobago Aug. 31, 1962.

Jagan has said British Guiana may be facing a bloodbath. It was one of four Western Hemisphere countries given representation on a permanent committee at the Havana tricontinental conference.

Secret Session on Viet Captives Is Unproductive

GENEVA (UPI) — The Communist Vietnamese show no signs of complying with international rules regarding prisoners of war despite appeals made in secret talks between the American Red Cross and representatives of the Viet Cong. Highly authoritative sources, yesterday revealed that a secret meeting took place recently in the Czech capital of Prague, but failed to produce any results.

Four Detroit Officers Face Bribe Charge

DETROIT (UPI) — Four policemen and two nightclub operators were indicted on bribery charges yesterday in a gambling scandal uncovered in the city's Greektown area.

The policemen were charged with "acceptance or a reward for failing to do their duty."

They were identified as Frank Zugel, Leon Barnett, Anthony Klimball and Charles Smith.

Charged with conspiracy to bribe a police officer were Peter Vitale and Gus Colacassides, manager and owner respectively of the Grecian Gardens, a near-downtown restaurant-night spot.

Seek to Rid Sewers of Detergent Smell

TROY, N.Y. (AP) — Scientists at Rensselaer Polytechnic Institute are at work to remove the smell created by detergents in city sewers.

Dr. Nicholas L. Cicceri, an assistant professor of environmental engineering at RPI said Tuesday the research is aimed at developing a method to rid sewage of phosphorous, a common element of synthetic detergents.

Phosphorous, he said, acts as a food for certain algae — including the smell-producing kind.

Nickel coins were authorized by Congress May 16, 1866. They were made of copper and nickel.

Junior Editors Quiz on BRAILLE

QUESTION: How can blind people read?

ANSWER: Braille is an alphabet so arranged that blind people can read and write using the sense of touch. The discovery of Braille is an inspiring story.

Louis Braille was born in 1809, the son of a French harness maker. When very small he lost sight of both eyes in an accident.

But Louis did not lose his ambition to learn. He began to experiment with a code made by punching holes through scraps of leather in his father's workshop.

One day he discovered that if he punched a hole partly through he could feel the bump on the other side easily.

This was the foundation of the Braille system but Louis did not perfect it immediately. He went to school for the blind in which he finally became a teacher and a well-known musician.

But Braille's great ambition was to perfect an alphabet for the blind. He experimented with several systems then in use and finally decided the raised dots he had discovered as a boy were best.

He arranged a group of six called a "cell." Each letter is a selection of dots from this group.

Braille perfected his system in 1834; in 1870, in competition with other systems, it was chosen as the best, and then it spread all over the world.

FOR YOU TO DO: Get a piece of light cardboard, a nail and a hammer. Putting your cardboard on a piece of wood, punch a hole with the nail which does not go all the way through. Then turn the cardboard over, close your eyes and see if you can feel the bump. You will be reading the letter "a" in the Braille alphabet.

Group to Wait on Campaign to Kill Pay Hikes

DETROIT (AP) — The Vigilance Tax Committee will wait until after the November election to seek support for a measure opposing legislative pay raises, chairman George W. Kuhn said Tuesday.

Kuhn, mayor of suburban Berkley, said the group decided time was too short to try to place the proposed constitutional amendment on the November ballot.

A citizens committee headed by Dr. James K. Pollock, chairman of the University of Michigan political science department, last month recommended lawmakers' pay be hiked from \$10,000 to \$15,000 a year. Such a measure is now in the Legislature.

Asks Money Bill Veto

WASHINGTON (AP) — The leader of a House Republican campaign to cut appropriations called on President Johnson today to veto money bills that exceed his budget.

As an alternative, Rep. Frank T. Bow of Ohio, senior Republican on the House Appropriations Committee, suggested Johnson send some of his experienced arm-twisters like Postmaster General Lawrence F. O'Brien to the Capitol to help hold the line.

Only Tuesday, the House Armed Services Committee voted almost \$1 billion in excess of the President's budget request for military procurement.

Bow's comments were in a speech prepared for House con-

sideration of a bill appropriating \$10,555,342,500 to the labor department and the Department of Health, Education and Welfare for the fiscal year starting July 1.

The bill contains about \$400 million more than the President requested and follows a 1966 pattern of budget-busting appropriation bills. Bow planned to offer amendments to cut back the bill but was not optimistic about his chances of winning. He hasn't won a battle this year in his war against increased appropriations.

The President, Bow said, "has cajoled and needed individual members of Congress about budget increases, but he has also marched Postmaster Gen-

eral O'Brien and his legislative liaison troops up here to do battle to save the funding of the rent subsidy program."

The reference was to an earlier attempt to deny funds for the rent subsidy provision of the 1965 housing bill. Both the House and Senate approved the money by close votes.

Bow suggested that the President "either send General O'Brien and his legislative troops back up here to give aid and comfort to those of us who are trying to help the President, or that he exercise his veto power on bills that exceed his budget estimates."

South Viet Nam is slightly larger in area than Florida.

Well-Trained Act by Teen

LEICESTER, England (UPI) — Railway police said today some British teen-agers have taken to lying in the middle of railway tracks and letting trains pass over them "for kicks."

"I came around a bend at 80 miles an hour and saw a boy lying face down between the rails with his hands behind his head," said one shaken conductor.

He said he braked but it was too late and the train passed over the boy. "Afterwards I saw him get up and disappear on his bicycle," he said.

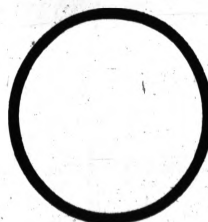

You deserve at least one real dress-up suit for the weddings, banquets, lawn parties, dances, graduations, plays and other big social affairs of the long, hot summer.

This one.

For a real dress-up occasion, The Suit is Mohair. Lustrous, silky to touch, it stands alone among other summertime fabrics. You look like a million. A cool million, thanks to the thousands of tiny "windows" in every square inch of weave. They let body heat out, cooling breezes in. See our big collection of luxurious black Mohairs by famous Eagle. Flawlessly tailored in 1- and 2-button models with plain front trousers. You deserve at least one. All right, maybe two.

WOMEN'S SECTION

Tired of Baby Sitting

Granny Deserves Vacation

By ABIGAIL VAN BUREN
DEAR ABBY: I have been married for 22 years and have two married daughters. Last year the husband of my 21-year-old daughter, who she came home with her baby. I had to give up a part-time job to baby-sit while she went to work to support herself and child.

Our 19-year-old just had a baby, and she has to go to work to help put her husband through college, so now grandma baby-sits with TWO!

I am not the stay-at-home type granny who likes to knit and bake. I bowl, play bridge, ski and golf, and I enjoyed my helping out when I'm needed, but I do not like to be tied down this way.

How do you get the nerve to tell your own daughter you've had it?

YOUNG GRANDMA
DEAR YOUNG: If it's "selfish" to want your freedom after you've put in your hitch and have earned a vacation, then you're "selfish." But if you want out and haven't the courage to say so, you're foolish.

DEAR ABBY: I visited some friends yesterday, and would you believe it if I told you they still had their Christmas tree up? Well, they did. Naturally, you can't just ignore an eight-foot Christmas tree standing there, so I said, "My, your tree is as beautiful now as it was when you put it up nearly four months ago! You really ought to call the press and have them

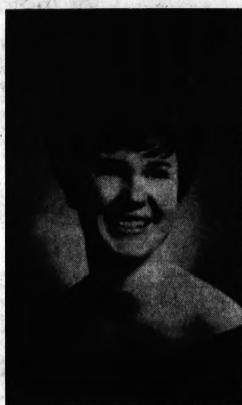

come out and take a picture of it. It's very unusual to keep a tree up that long; how long do you plan to leave it up?"

The lady answered me with a straight face. "Oh, until we see a needle fall." Now, Abby, I ask you, does this make any sense to you? Should I call the press, for it is rather curious? Or should I call the men with

Members View Hats

A fashion show of hats was presented at the recent luncheon of the Maple Leaf Club held in Devon Gables.

Guests attending were Mrs. A. B. Coleman, Mrs. John Radenbaugh, Mrs. Joseph B. Neal and Mrs. J. A. Davis.

DONNA MAE RICHARDSON

August vows are planned by Donna Mae Richardson, daughter of Mr. and Mrs. J. D. Richardson Jr. of Bloomfield Village, and James Henry Geisler, son of the A. Jerome Geislers of Geisler Court. She attends Ford Community College and her fiancé is at U. of M. Dearborn campus.

WNFGA Show Benefits Would-Be Collegians

By MADELEINE DOEREN
Members of the Pontiac branch, Woman's National Farm and Garden Association, staged a fashion show at the scholarship luncheon, Tuesday in the Kingsley Inn before some 300 women.

A carnival of color, taking its cue from bird plumage, set the pace for styles presented by the Four Corners Import Fashions, Bloomfield Hills.

Shop owner, Mrs. Charles Kleinsmith, deplored the trend toward Op and 'mod' styles, above-the-knee skirt lengths and the scarcity of dresses with sleeves.

Commentator, Mrs. Jack Mattison, fashion coordinator and a former model, told her audience "Don't worry about being chic when you sail for France or Spain. Be chic at home! If you are wearing understated styles in good taste in your home town, you can feel well-dressed anywhere."

Assisting Mrs. Bruce J. Annett, general chairman, were Mrs. Eugene K. Wellman, tickets; Mrs. Edward P. Barrett, model chairman; and Mrs. D. B. Eames, publicity. Mrs. Ferdinand Gaensbauer, played background piano music.

Modeling styles for patio or cruise wear were Mesdames Robert B. Oliver II, Richard H. Zimmerman, Cecil McCallum, Stuart E. Whitfield, Basil E. Brown, Robert S. Castell, Leamon S. Hunt, Verne C. Hampton, Robert G. Isgrigg, William L. Mack and Mrs. Barrett.

Mrs. Clarence Maguire, Grosse Pointe and Mrs. Marvin L. Katke, Kirkway Drive, president and first vice president, Michigan Division WNFGA also Mrs. Fred Trickey, president,

Osage branch, were guests of Mrs. Parker Rockwell, Green Lake, Michigan Division treasurer.

Sixteen members of the new Interlakes branch, sponsored by Pontiac branch, were present.

Hostesses for the day were Mrs. Glenn H. Griffin, Mrs. Clifford Ekelund, Mrs. Robert J. Alton, Mrs. Robert B. Oliver, Mrs. J. Standish Sibley, Mrs. Robert M. Glenn and Mrs. Eames.

Pontiac Press Photo

Arriving at Kingsley Inn on Tuesday for the scholarship luncheon and fashion show sponsored by Pontiac branch, Woman's National Farm and Garden Association, are Mrs. Bruce J. Annett, Sylvan Shores Drive (from left) chairman, with Mrs. Edward P. Barrett of Pine Tree Trail, who was in charge of the models.

Opti-Mrs. Unit Visits Club to Find Needs

Pontiac Opti-Mrs. Club members toured the Pontiac Boys Club Tuesday evening, led by Howard Dell, board of directors president.

Dell outlined needs of the club, particularly for the coming baseball season, and informed the women that there are 1,300 members of the city's combined East Pike Street club and Columbia Avenue extension.

Officers for the 1966-67 season were elected. They are: Mrs. Robert Bradley Jr., president; Mrs. Julian Galan, first vice president; Mrs. Robert Harrell, second vice president; Mrs. Richard Wolfe, secretary; and Mrs. Leon Bigger, treasurer.

Calendar

THURSDAY

Volunteers who work at the Oakland County Children's Village were honored at a tea Tuesday and given gold charms as a 'thank you' for their time. From the left are Mrs. Colonel Bailey, South Rochester Road, Avon Township, Mrs. Marvin Olds, Milford, and James Van Leuven, director of the Village.

Pythian Sisters Attend Confab

Eight members of the Fannie E. Thompkins Temple No. 41 were in Clawson Saturday to participate in the 60th annual convention of District 7 Pythian Sisters.

Mrs. Hugh Endries, Mrs. Isaac Myers, Martha Leach and Mrs. Wilbur Morey performed the memorial service. Others from the local temple participating were Mrs. Harry Winkley, Mrs. Charles Goforth, Mrs. George Brown and Mrs. Ivan Johnson.

How, Where in Hair Care

When you shampoo at a sink or bathtub, you can use an unbreakable pan or cup to pour water over your head. However, the easiest way to wet and rinse your hair is with a short hose which has a spray at one end and faucet attachment at the other end. This gadget, which costs less than a dollar, works like a small shower and can be used by the whole family.

If you have to wash your hair in the kitchen, scrub the sink first with hot soap or detergent suds and stuff the drain with steel wool. This will catch loose hair so it won't stop the plumbing. After shampooing, scrub the sink again with more hot suds and rinse with hot water to sanitize it again for food preparation and dishwashing.

Buckles and Bows

Buckles and bows run a race with laces for popularity in girls' shoes for fall. Buckles centered or sideline, range from the Pilgrim's squared ones to oval shapes. Big and little bows dress up pumps.

Recent Vows Pledged by Area Pair

An afternoon ceremony and reception, recently, in the Evangelical United Brethren Church marked the vows of Alice Lynn Waring and Seaman Douglas Warren Hummel.

Parents of the couple are the Joseph H. Warrings of Summit Avenue and the Richard M. Hummels of West Rundle Street.

An illusion veil with organza headpiece complemented the bride's princess-line gown and cathedral train of white satin. Gardenias centered her bouquet of white carnations and lilies of the valley.

Barbara Stevens attended the bride at the ceremony performed by Rev. Dwight Reibling.

On the esquire side, were George Loydort, best man and ushers Oliver Prudhomme and Ronald Bell.

The newlyweds left for a honeymoon in Washington, D. C. He is based at Norfolk, Va.

MRS. D. W. HUMMEL

Be Friendly on Meeting New People

By ELIZABETH L. POST

Dear Mrs. Post: My husband and I just moved to a new neighborhood and we want to be friendly but not pushy. Must we wait to be invited to our neighbors' houses, or may we start the ball rolling and invite them to ours? — Susan H.

Dear Susan: It isn't right for you to ask your new neighbors for a meal, but there are other ways to break the ice. When you're working in the yard or walking the baby, a friendly "hello" and a short chat may remind them that you're ready to make friends.

There's nothing wrong with your casually asking Mrs. X. over for a cup of coffee to show her what you've done with the house, or your husband's inviting Mr. X. in for a beer or a cola on a hot afternoon.

A RECEPTION

Dear Mrs. Post: My son's fiancée, who lives in another city, will be visiting us soon and I am planning a reception at the country club to introduce her to our friends.

Will you please tell me in what order my husband, son, his fiancée and I stand in the receiving line? — Eileen K.

Dear Eileen: So that you are in a position to introduce your son's fiancée to the guests as they arrive, you stand at the head of the line with your future daughter-in-law next to you and your son beside her.

Unless he particularly wants to be there, it is better for your husband to leave the introductions to you and for him to act as host and mingle with the guests.

What is your most puzzling etiquette problem? To the sender of the most interesting question that we receive each week, we'll send a free copy of Emily Post's "Etiquette," revised by Elizabeth L. Post.

Send your question to Elizabeth L. Post, in care of The Pontiac Press, and don't forget to include your name and address!

Sorority Sets Installation for Two Groups on Tuesday

Installation ceremonies will top the list of "things to do" for members of the afternoon and evening groups of Kappa Delta Sorority on Tuesday.

A combined meeting at 8 p.m. in the Southfield home

of Mrs. William E. Siebert will take place.

The evening group will be under the leadership of Mrs. Neil H. Leavens, president. Other officers are Mrs. William Lanphar, vice president; Mrs. James Coates, secretary; Mrs. Katherine Closson, treasurer; Mrs. William C. Rachwal and Mrs. Raymond Graziani.

AFTERNOON GROUP

The afternoon group will be guided by Mrs. Morris Johnson, chairman; Mrs. Arthur R. Karstad, vice chairman; Mrs. William P. Shaver, secretary and Mrs. William R. Nielsen, treasurer.

Assisting the hostess will be Mrs. Dorman B. Dickerson, Mrs. Ralph T. Northrup, Mrs. Victor Peck, Mrs. William E. Riley and Mrs. Thomas Wear.

New Slate Is Elected by Auxiliary

The "black stick" — the newest any-weather fashion accessory with Champs Elysee chic — is the continental walking stick umbrella designed by Polan Katz. Exclamation-point drama is in the black extra-long wood ferrule, hooked handle, and napkin-ring cincher that replaces the conventional tie band. Combined with light-up-the-skies shock-colored nylon, it's the perfect pick-up accent for any costume. In a choice of such as colors as potent pink, go-go green, mimosa, pale heaven blue, orient orange, tropic isle turquoise, red, oyster or white. Available locally.

The Waterford Jaycee Auxiliary elected officers at a recent meeting in the home of Mrs. David Packard, Mrs. Kenneth Wright assisted the hostess.

Mrs. Jeffrey Cornish is the group's new president. She will be assisted by: Mrs. Michael Patterson, vice president; Mrs. Charles Wood, recording secretary; Mrs. Richard Shipman, corresponding secretary; and Mrs. Raymond Freubury, treasurer.

Directors are Mrs. Whitney Caranah, Mrs. Richard Gilchrist and Mrs. Timothy Patterson.

A Jaycee and Jaycette banquet and installation of officers is planned June 3.

A committee headed by Mrs. John Gray will assist at a Junior Champ sports event sponsored by the Jaycees in June.

Tuesday Nighters, from left, Robert Jenkinson of Shaw Avenue; Robert Seator of Linda Vista Drive and Sandra Cotton of Union Lake, ready prizes for their annual card party. The event will be held at

7:30 p.m. in the Mark Twain School on May 11. Others working on arrangements are Joyce Hoppe, Carolyn Felt, Robert Blackburn, Elaine Schweitzer, Martin Brown and Ronnie Martin.

Cranbrook Sets Annual Student Sale of Pottery

The Cranbrook Academy of Art announces the annual student's pottery sale which opens May 13 and continues through May 27.

Student sales people will be in attendance daily from 9 a.m. to dusk in Crafts Court, the first entrance on the right off Lone Pine Road, Bloomfield Hills.

William Clover of Birmingham is general chairman of the sale. On his committee are Gregor Giesman, Rockville Center, N.Y.; Heijo Oik of Seoul, Korea, and Gwen Linn Goo of Honolulu.

Fifteen per cent of the sale proceeds is applied toward student-sponsored scholarships.

Why Grow Old? by JOSEPHINE LOWMAN

Q. Please tell me how I can get rid of fat on the inside of my knees. I can't find an exercise for this.

A. This is a difficult spot to reduce. Vigorous massage to break down the fatty tissue is your best bet. Dig in with the fingers and knead the flesh between the fingers and the heel of the hand. Also try this exercise. Lie on the floor on your back with your knees bent and your feet flat on the floor. Slap your knees together, separate, continue slapping briskly.

Q. When I started exercising, after two days, my muscles were very sore. I am continuing but is there anything I can do for the soreness?

A. You are correct in continuing to exercise. If you stop and wait for all soreness to disappear you will have to start all over again. Even if you only exercise a little each day it is better. You just have to go through this period. If you start in slowly and build up very gradually it is not usually bad. Soak in a tub of water as hot as you can stand it comfortably.

ALL MIXED UP

Q. To you this may sound silly but I am all mixed up. Some of my friends say that I am thin and some say that I should lose some weight! Who should I believe? I am 14 years old, 5 feet 3 and weigh 114 pounds. My bust measures 32 inches, waist 24 inches and hips 34 inches. This isn't the worst part! My thighs are 21 inches and my calf is 13 inches. Are my legs too big for my body?

A. You are not overweight and have a very fine figure for a girl of your age. It is

unusual for a girl 14 years old to have such a slim waist. Your bust and hips are O.K., too, but your bust will fill out later to bring your measurements to perfection. Your legs are a little larger than average, but nothing to worry about.

Q. What are the best colors in clothes for a woman who has quite a fair complexion, at least it isn't all yellow or brunette. It also has quite a lot of pink in it.

A. Practically all blues and pinks are good. So is red. Warm grays are flattering. So is periwinkle. Most greens are good too, but some make the skin look more sallow than it is.

Q. Do wigs always have to be reset?

A. No. You may wish to pick up the set in places, but often this is not necessary.

If you missed my 9-Day Reducing Diet which gives you a loss of from five to 10 pounds in nine days, you may have it in a convenient little booklet. If you would like to have this diet, send 10 cents and a stamped, self-addressed envelope with your request for it to Josephine Lowman in care of The Pontiac Press.

It's Fools Down in Noisy Fashion

When a woman puts her foot down, come fall, it stands to reason she'll probably make more noise than in the past. Or a heavier impression. The trend is to heavier shapes of shoes, starting with heels. Some look like pint-sized piano legs.

Japanese Violinist Is Solist

By RICHARD MORSE

Last evening, the Pontiac Symphony Orchestra closed its current season with Takako Nishizaki, violinist. Miss Nishizaki was born in Nagoya, Japan.

As a child prodigy, she performed in Tokyo. At present, she studies at the Juillard School of Music on complete scholarship and is appearing with orchestras throughout the country.

The orchestra opened the program with the overture, L'italiana in Algeri by Rossini, a work of exquisite harmonies and changing moods. It was a well-balanced, technically clean performance by the group.

MOZART CONCERTO

The Concerto for Violin and Orchestra No. 5 in A Major by Mozart was the composition Miss Nishizaki chose as her first of the evening.

Her lovely singing tone and fine control were evident throughout the entire work.

The second movement, an adagio, is Mozart at his best. Much of his greatness is based on the slow movements of his large works.

The Rondo, a swirling, driving third movement, in perfect musical form, was beautifully played to conclude a highly successful performance.

After intermission, the orchestra played Slavonic Dance, Opus 46, No. 1 by Dvorak. This is one of a set of eight, originally composed for piano duets.

The one performed has intricate rhythm and syncopation, requiring considerable skill from the musicians. It was extremely well done in

every sense of the word. The strings were especially outstanding.

Miss Nishizaki returned to play Rondo Capriccioso by Saint-Saens.

The soloist's beautifully controlled opening phase, her fine style and technical facility were all ably complemented by Felix Rosnick and the orchestra.

ACCLAIMED

Miss Nishizaki received acclaim from audience and orchestra alike.

The last programmed work of the evening was the Romanian Rhapsody No. 1 by

Enesco. Again, the orchestra showed skill and polish in this series of Roumanian folk tunes.

Two Recipes Have a German Flavor

By JANET ODELL

Pontiac Press Food Editor
Last month the Women's International League for Peace and Freedom of Oakland County had a series of small international dinners.

Mrs. Everett R. Casey of Orchard Lake sent in some recipes that had been used at the German dinner. You might like to try them.

OPEN FACE APPLE PIE

2 packages yeast
1/4 cup warm water
1/4 cup milk scalded and cooled
3 1/2 cups flour
1/4 cup butter or margarine
2 beaten eggs
1/2 cup sugar
1/4 teaspoon salt
Apples

Dissolve yeast in water, add sugar. Add one cup flour and beat until smooth. Cover and let rise in warm place for 30 minutes.

Cream 1/2 cup sugar and butter, add to batter, mix well and add eggs, remaining flour and salt. Knead slightly on floured board. Let rise in greased bowl for two hours.

Punch down dough. Roll to 1/2-inch thickness. Place in well greased jelly roll pan. Brush with butter and sprinkle with sugar.

Peel apples and cut into wedges. Press into dough. Sprinkle with sugar and cinnamon. Let rise 30 minutes. Bake 20 minutes at 350 degrees. Cover pans

with foil for first 10 minutes.

If you want a custard topping, use following recipe and do not cover pan while baking.

Custard Topping

2 eggs
1 cup milk
1/4 cup sugar
1/2 teaspoon cinnamon
Beat well, pour over dough and bake.

LETTUCE AND LEEK SALAD

1 head lettuce
2 leeks, finely chopped
1 strip cooked bacon
2 tablespoons wine vinegar
Stir vinegar into bacon fat, season with salt and pepper and pour over lettuce and leeks.

Thomas Bass and Bride Take Northern Trip

Pfc. and Mrs. Thomas John Bass (Margaret Ann Fife) left for a northern honeymoon after recent vows and reception in the Waterford Community Church.

Sorority Alums Planning Dinner

An annual cooperative dinner and installation of officers will highlight the Tuesday meeting of the North Suburban Alumnae Club of Alpha Gamma Delta.

The club rooms of the Birmingham Federal Savings and Loan Building will house the gathering at 7 p.m.

Everett M. Fife and Mr. and Mrs. Gerald D. Bass all of Waldon Road, Independence Township. The Fifes hosted a buffet dinner in their home.

Motifs of Venice lace accented the bride's Empire gown and Watteau train of white linen, worn with tiered illusion veil. White carnations encircled miniature pink rosebuds and ivy in her bouquet.

Diane Fife, attended her cousin as maid of honor Debra Fife was her sister's bridesmaid.

Gary Bass stood as his brother's best man with Ronald Cabbie, groomman. David and Everett Fife ushered with Richard Bass and James Bass.

The bride attended Michigan State University and the Alliance Francaise in New York. She has returned to Stamford, Conn. Her husband is based at Fort Devens, Mass.

Budget for Single Man Not Saving

By MARY FEELEY
Consultant in Money Management
Dear Miss Feeley: By Monday I'm always broke. I'm a shift worker at a plant and I change each week. So two weeks it's \$101.16 weekly after deductions—then it's \$97.72. Why can't I save something? I don't owe anything on furniture, TV, car FEELEY or Hi-Fi. I don't have any of these things. I do have two insurance policies (life and hospital) which cost me a total of \$37.04 a month.

My room rent is \$60 a month and I owe a lawyer \$500 — which I'm paying at the rate of \$50 a month. Food costs around \$30 weekly, carfare \$3. A few other things like haircuts, shoe shines, laundry, etc. amount to something.

Miss Feeley, there are men working with me — even taking care of families — who own cars and are buying homes on the

same money I make. But no one is as bad off as I am. I'm working myself into the poorhouse and can't save a dime. What's wrong with me?
W.N., Chicago, Ill.

Dear W.N.: There's nothing wrong with you. A man who can't \$101.16 after all deductions are taken out of his wages can hold his own anywhere. What you need, W.N., is a plan. You're not going to like it right off, but take your medicine, and one of these days — and pretty soon, too — it's going to taste good.

Now I suggest you try this for size:
Rent: this is all on a weekly basis), \$15; \$30 food; \$6 clothing; \$10 insurance; \$12.50 lawyer; \$10 carfare, personal grooming, coffee breaks and what-not; \$8 gifts and contributions; \$3 entertainment (and this isn't much, but let's face it — you don't have much left for this); \$3 medical and drugs.

with the fact that you haven't on your income, and have some been saving anything, this will think left over.
(For Mary Feeley's leaflet on Financial Building Blocks, send a long, self-addressed, stamped envelope and 10 cents to her in out how to buy a mink coat/care of The Pontiac Press.

SEW SIMPLE
By Eunice Farmer

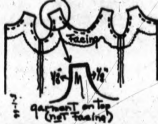

Dear Eunice Farmer:
Seems like almost every summer pattern I look at for my children or myself is sleeveless and has the neck and armhole facings cut in one piece. This has literally bugged me half out of my mind. I try to follow the pattern and it never turns out right.

One of my friends told me you had this in your column last year. I am wondering if you would be kind enough to repeat it for the benefit of your new readers. I love your column, you have inspired me to want to sew better than I ever did before. My things look much more professional too!

Mrs. C. F. R.

Dear Mrs. C. F. R.:
I am repeating these instructions for stitching the facing cut for armholes and necklines in one piece. This type of facing is found on sleeveless dresses, blouses, crop top shells, jumpers, etc. Follow each step carefully and you'll never have trouble with this again.

- If your pattern does not have the facing for the neckline and armhole cut in one, simply use the pattern itself for an outline and cut the facing approximately two and one-half inches wide, as sketched.
- If garment needs interfacing, cut one for the neck only.

The armholes do not need to be interfaced. If garment is to be completely underlined, cut underlining the same as the garment and treat as one piece. Cut a separate facing out of garment fabric.

• When stitching the facing to the neckline and armholes of your garment, and the stitching about one and one-half inches from the ends of the shoulders (front and back). If you have a long, narrow strap, usually found in low-cut front or back necklines, do not keep the garment and the facing edges together at this area.

Instead, bring the garment about one-eighth inch in from the edge of the facing on both sides of this section. (This will make the garment fabric seem a little full until it has been turned and pressed, but will prevent the facing from showing at the edges as it is likely to do if you keep the edges even. Measure the five-eighths inch seam allowance from the facing, not the garment fabric).

• Grade and clip your seams (for the curved area, clip down to the stitching line.) Turn the front shoulder strap right side out and slip this into the back shoulder strap which is un-turned. The right sides of the shoulders, in front and back, are together. Stitch the shoulder seam, press seam open. Next, machine stitch the facing seams together at the shoulder and press open.

• Pull this finished strap out still further so that you may continue stitching each side of the strap (left open originally). Grade these seams and pull through to the right side of garment. You will find a perfect finish each time. If you've ever battled this before, it will be like a dream come true.

TAILOR TRIX WINNER

Mrs. Bob Clodfelter, Lexington, N.C., wins a Tailor Trix Pressing Board for submitting the following idea:

"In order to make a jumper with the popular low-cut neckline wearable in the summer without a blouse, I sew a vestee from a contrasting fabric and tack it inside the jumper front neckline. The vestee raises the neckline so that the jumper does double duty for all seasons and the result is quite attractive. You could even make a triangular head scarf to match the vestee and it becomes a co-ordinated outfit!"

Mr. and Mrs. Levere J. Hodges of Plorman Road announce the engagement of their daughter, Delma Marie, to Dennis Clayton Ramsey, son of the Miles Ramseys of Genoa Street. A June wedding is planned.

A June wedding is planned by Virginia Banks, daughter of Mrs. Isiah Peavy of Ferry Avenue and Pfc. Elias Talbert, son of the Frank Talberts of Montgomery, Ala. Her fiancé is with the U.S. Marine Corps in Viet Nam.

Polly's Pointers

Invisible Fence

DEAR POLLY — Take wire coat hangers, straighten out the hook ends, pull up the top part a little bit and insert the sharp prongs in the ground. Placed side by side, these make an almost invisible fence to put around bushes, flowers and plants to ward off stray dogs. They can be placed as close together or as far apart as one likes and are easy to remove when cutting the grass — MRS. H. H.

DEAR POLLY — A covered cake plate stays on our kitchen table all the time. It holds the pepper and salt, sugar bowl and a small butter dish which are used at every meal. The cover keeps the small items out of sight and free from dust.

This also saves time and steps as I do not have to put these things away and get them out again three times a day. Thanks and keep up your useful work — MRS. B. T.

My thanks to you, Mrs. B. T. and I will keep up the good work as long as you and my other good friends continue to send in the Pointers. — POLLY

DEAR POLLY — Instead of having to buy a special table on which to change baby I found that a used knee-hole desk will do just as well and is the right height.

This can be painted to go with the room's color scheme and the drawers are so handy for storing diapers, powder, lotions, and so on.

The diaper pail can stand under the desk where it is handy and inconspicuous. — JEANE

DEAR POLLY — I recently bought a pair of glass fiber draperies. They are beautiful but are unlined and looked rather thin and stringy when hanging at the windows, until I hung some sheer tailored panel curtains I had back of them. The panels were slipped on the rods and the draperies

hooked over them. They now look much more expensive and will be easier to launder than if the lining was sewed in. — EVELYN

DEAR POLLY — When hanging shag rugs outdoors to dry I find that if I hang them with the backs to the sun they dry much faster. When the "source of the moisture" so to speak, is cut off the loops or nap dries much quicker.

This also helps to keep the colored rugs new looking longer because the sun does not fade them. When hanging rugs in the basement, hang the backs toward the furnace. Shag rugs take so long to dry even in the dryer so I find hanging them this way to finish drying is helpful. — L.S.

On, Waterford Sewer Contract

No Action Taken on Proposal

City commissioners last night took no action on a proposed amendment to a contract to provide Pontiac sewer services to a portion of Waterford Township. Sewer services are needed for a projected township elementary school — Cherokee Hills — and neighboring property.

(Now under construction, the school is to open in September.)

Although on last night's agenda, the contract amendment was taken for study at the commission's next informal meeting after the township objected to two of its provisions.

Township officials, who failed to approve the proposed contract at their board meeting Monday night, objected to a provision in the agreement that either municipality could cancel the contract upon a three-year notice.

CONNECTION CHARGES

Also, the township objected to service connection charges for the township that were double those paid in the city.

On the cancellation clause, the township wants 20 to 25 years instead of the three-year provision.

Mayor William H. Taylor Jr., after hearing Kenneth M. Squires, township utilities manager reiterate the township's objectives, said the matter would be taken under advisement.

The proposed extension of sewer services is to cover a township area near Marion and Scott Lake Road.

OTHER BUSINESS

In other business last night, the commission directed the De-

Hamlin Drain, but probably not until 1967 county tax bills are rendered.

In still other business, the commission approved a \$75-a-year lease with Mr. and Mrs. John Crump Sr. for vacant city-owned land at the end of Hubbard to be used for a parking lot for a planned renovated apartment building.

3 Resignations Are Received

Trio Named to Unit on Minority Housing

Three committee resignations were received last night by the City Commission, and three other appointments were made. Edward A. Maier, 39 Illinois, resigned as a city representative on the Oakland County Board of Supervisors. Maier resigned because of increased business responsibility.

William J. Winters, 233 Ottawa, a three-year member of the City Planning Commission resigned for essentially the same reason from the planning board.

William N. Anderson, 83 Thorpe, submitted his resignation from the Civic Improvement Advisory Committee (CIAC). Anderson said he could no longer devote the necessary time to the post because of business.

The commission, meantime, appointed three new members to the minority group housing committee of the CIAC.

ARE NAMED

Robert Norberg, 182 W. Chicago, Alfredo Aleman, 217 Going, and Leslie Tripp, 139 Illinois, were named to the committee.

Norberg, assistant vice president of Pontiac State Bank, is to represent the banking industry, while Aleman is to represent the Latin Americans United for Political Action and Tripp, a realtor, the Pontiac Board of Realtors.

Niagara Falls is estimated to be between 25,000 and 30,000 years old.

RECEIVE HND DEGREE — Pontiac area Masons receiving the 32nd Degree in Scottish Rite are, seated, (from left) Benjamin H. Brewer, 19 Salmer; Herbert M. Bunch, 675 Second; Charles M. Hayes Sr., 346 Voorheis; and Carl E. Pankey, 701 Stirling. Standing are (from left) Ernest R. Rhodes, 3545 Hi Lure, Orion Township; David H. Sidwell Jr.,

2579 Hempstead, Pontiac Township; William A. Weber, 9463 Bonnie Bryer, White Lake Township; and Robert M. Young, 2588 Williams Lake, and Robert C. Porritt, 2949 Old Orchard, both of Waterford Township. The nine area men were among a class of 450 to receive the degree in Detroit.

Group Backs Repeal of City Housing Law

A three-part recommendation incorporating total repeal of the city's ban on further public housing was submitted last night to the City Commission.

The recommendation came from the nine-member Human Relations Advisory Committee, a group slated to be reorganized, expanded and renamed.

In receiving the recommendation, Mayor William H. Taylor Jr. said action would be deferred until the new human relations group was formed.

He later indicated the advisory committee's recommendation would probably be turned over to the new group for its consideration and recommendation.

The committee recommended:

• That the City Commission rescind ordinance 1270, which precludes additional public housing except those planned for senior citizens.

• That the commission immediately embark upon a factual survey of local housing conditions.

• That the commission give immediate consideration to additional housing for low income families in the city.

REQUESTS MEETINGS

The human relations committee also asked that the City Commission meet within two weeks to discuss the group's recommendations.

The committee recommendations were presented to the commission last night in a copy of the minutes of the committee's April 25 meeting.

The minutes also contained three questions raised by Charles M. Tucker Jr., a committee member, who also is president of the Oakland County Chapter of the National Association for the Advancement of Colored People and was an unsuccessful District 1 commission candidate in the recent election.

Tucker asked for information on stating whether the city has some written policy relating to nondiscrimination in hiring and promoting of city employees.

SIMILAR POLICY

He asked if there was a similar policy on the employment practices of vendors to the city, and whether there is a policy that when city-owned lands are sold to private developers the sale or rental of the housing units will be open to all regardless of race, religion or national origin.

partment of Public Works to proceed with construction of a portion of the future Hamlin Storm Drain.

The city is to construct part of the trunk sewer to service major apartment developments on the east side of Woodward, south of the future East Boulevard extension.

The Hamlin Drain, a county project, is to cross a portion of the city.

The city is to go ahead with a portion of the work now in order to enable development of the apartment projects.

TOTAL COST

Total cost of the work was estimated at \$71,040, which is to come from the city's general fund. The county is to reimburse the city for its costs.

City taxpayers, however, will eventually pay their share of the

Study Is Approved on Pension Fund

The City Commission last night approved a study to update the city's nearly 22-year-old pension plan.

The actuary analysis of the general employees pension plan is to cost \$700 with a second \$700 charge being made if the plan is rewritten for a charter amendment.

The study was recommended by the General Pension Board.

The board said the plan has not been studied since it was adopted.

Injuries Claim Boy

BATTLE CREEK (AP)—Four-year-old Tyrone Adams of Battle Creek died in a hospital here Tuesday after he was struck by a car while crossing a city street earlier in the day.

Sociologists Will Meet at OU

Some of the world's most renowned sociologists will meet at Oakland University Friday and Saturday for a conference on "The Sociology of the Intellectual."

Supported by a National Science Foundation grant, the conference is planned to explore the changing role of the intellectual in modern society.

Dr. Jesse R. Pitts, professor and chairman of the OU Department of Sociology and Anthropology, is chairman of the meeting.

Pitts said the conference topic is significant because the university increasingly is becoming the center for all intellectual work, universities encompass a growing percentage of the population and professors have increasing influence as consultants and teachers.

Only one session of the conference, "The Intellectual and Academics," will be open to the public. It is scheduled for 8 p.m. Friday in the university's Oakland Center.

Among sociologists participating in the conference will be:

Bennett M. Berger, University of California at Davis; Lewis A. Coser, Brandeis University; S. N. Eisenstadt, Hebrew University; and Seymour M. Lipset, University of California at Berkeley.

Others are Talcott Parsons, Harvard University; Edward Shils, University of Chicago and King's College, University of Cambridge; Martin A. Trow, University of California at Berkeley; and Robert A. Nisbet, University of California at Riverside.

Also participating will be Peter Viereck, Mount Holyoke College author-historian, and Norman Zinberg, professor of psychiatry at Harvard University.

Edward Doran said during a stopover in Grand Junction on a return trip to Denver from California that when his car goes faster than 50 miles an hour he hears a folk-singer's voice coming from under the instrument panel.

Area Pupils Are Fit and Ready

About 150 pupils from Pontiac and Waterford Township elementary schools and their instructors will conduct a physical fitness demonstration from 1 to 3 and 5 to 8 p.m. Saturday at Pontiac Mall.

Using the theme "Physical Fitness Is the Combined Responsibility of the Home, School and Community," the pupils and teachers will demonstrate all different phases of physical education taught in their schools.

Some of the activities included are tumbling and apparatus, push and pull activities, motor perceptual activities, dancing, exercise, creative rhythm, team sports, riflery and archery, track and field and floor hockey.

Pontiac and Waterford Township school and governmental officials will be guests at the demonstration.

PREPARE FOR DEMONSTRATION — Wilson Elementary School pupils Jacky Duncan, 12, of 349 Central and Wanda Gohagen, 12, of 174 Raeburn exercise on the parallel bar under the supervision of instructor Mrs. Elaine Roe. About 150 pupils of Pontiac and Waterford Township elementary schools are preparing for a physical fitness demonstration to be held Saturday at Pontiac Mall.

for summer picture yourself in this Viracle stripe by Hart Schaffner & Marx

The elegantly thin pin stripe: dashing, dignified, debonaire. HS&M adapt it to summer in their celebrated Viracle: a tropical blend of 55% Dacron® and 45% fine worsted that's very light in weight (just 7½ ounces per yard) yet long on wear and wrinkle resistance. That's because the fibres are tightly woven in a two-ply construction, to produce a fabric that holds its press remarkably well; that looks as cool and collected on the outside as you feel underneath. HS&M offer it in navy or black, with razor thin stripes of white. (It also comes in solid colors, if you prefer it that way). In all, it's one of the best looking, most comfortable summer suits we carry. It's priced at 89.95.

BOUND FOR PARIS — This Paris-bound trio of (from left) Mrs. Colette Johnson, 72; Mrs. Edith MacBean, 78; and Mrs. Clara Hicks, 82, skip with joy in Chicago after learning they had been chosen for an all-expense paid trip to Paris, France. The trip will be paid for by the Little Brothers of Notre Dame, an organization of young men who dedicate their lives to comforting the poor and old. All three women live alone on a small Social Security income.

Reformatory 'Tours' Ended

LANSING (AP) — Ingham County's shock treatment for juvenile delinquents—a visit to the Ionia Reformatory to show how convicts live—has ended because of manpower problems.

The chance remains, though, that the program may be revived if studies show it turned youngsters away from crime.

The visits diverted reformatory staff members from regular duties, said Robert Scott, youth division director for the State Corrections Department.

"Our job is treatment of individuals already in deep trouble," he said. "To the extent that the preventive activities interfere, we feel we should take a second look at them."

VALUE UNKNOWN

Value of the visit program, he

added, still is unknown. It won't be resumed, "unless there is some definite evidence that it has lasting value," he said.

The Ingham County Probate Court and Lansing Kiwanis Club sponsored the visit program, which operated from December until March.

"I have a lot of sympathy for them (corrections officers), but I still feel the program has a lot of merit," said Warren A. Ritter, director of children's services for the Ingham County Probate Court.

Physicians Increasing

CHICAGO (AP) — The number of physicians in the nation has been increasing at a faster rate than the population, says Dr. James Z. Appel, president of the American Medical Association.

New Methods Used to Treat Snakebite

Bites of poisonous snakes continue to occur but the methods recommended for their treatment have been changing in recent years.

It is now believed that cutting the skin and sucking out the venom is an obsolete measure that should be used only when the bite is known to have come from a rattlesnake or water moccasin that is longer than 3½ feet or when the bite is near the heart (face, neck or trunk).

In such a case, waste no time. If a knife is not handy use a sharp piece of tin or broken glass to cut the skin, but expose it to a flame first to reduce the chances of infection.

One of the dangers of using this type of emergency treatment is absorption of venom through a small cut or inflamed

portion of the lips, gums or inner surface of the mouth.

This can be prevented if you use a suction cup supplied with the standard snake bite first-aid kit or use a thin sheet of rubber between your mouth and the snakebite.

DISADVANTAGE

Another disadvantage of the cut-and-suck treatment is that in one's haste and excitement one may make a painful wound which later becomes infected, only to learn that the snake was nonpoisonous.

If it is possible to get to a hospital within two hours and the bite is on the arm or leg the best course is to apply a tourniquet several inches above the bite.

Care must be taken to cut off only the flow of venous blood to the heart — not the flow of arterial blood to the extremity.

Every 10 to 15 minutes the

tourniquet should be released for one or two minutes. If the arm or leg starts to swell, keep moving the tourniquet upward just ahead of the swelling.

IN HOSPITAL

In the hospital antivenin, antibiotics and tetanus toxoid or antitoxin will be available.

It is important to know what kind of snakebite you are dealing with because these antibodies are effective only against a single species.

The antibiotics and tetanus antibodies are given because snake bites are notorious for being contaminated with harmful bacteria.

Dr. W. E. Lockhart of Alpine, Tex., is a strong advocate of packing snake-bitten extremities in freshwater ice and keeping them so packed for six days to relieve pain.

This is important because it

is dangerous to give morphine to victims of snakebite. The rest of the body is kept warm with an electric blanket.

This treatment is effective only if a tourniquet has been applied for less than an hour and should not be used in persons with Raynaud's disease and other circulatory disorders.

Unique Payroll Tax Unveiled in Britain; Predict More Revenue on Full Employment

LONDON (AP) — Britain's automobile industry and the man in the street were relieved today at the Labor government's new budget but hotels and the tourist industry were angry.

The 1966-67 budget, unveiled by Chancellor of the Exchequer James Callaghan in the House of Commons Tuesday, introduced a payroll tax on the service industries, which is still recovering from the financial crisis of 1964-65.

The unique tax is designed to raise revenue and to drive workers into manufacturing, thus stimulating Britain's exports while maintaining full employment.

Britain needs to increase its exports to bolster the pound sterling, which is still recovering from the financial crisis of 1964-65.

Callaghan's budget estimated revenue during the fiscal year at 9.8 billion pounds (\$27.5 billion) and expenditures at 9.1 billion pounds (\$25.6 billion). Hotels and tourist enterprises, as service industries, were hit by the payroll tax although they are one of Britain's biggest earners of foreign currency. They can also expect to pay more for laundry and similar services.

Under the tax, the service industries will pay the government \$3.50 a week for each man on the payroll, and half that for women and boys.

Callaghan said in an interview Tuesday night the tax could be lifted from some sectors of the economy or extended to others during the fiscal year.

The automobile industry, which had been expecting higher sales or gasoline tax or higher auto license fees, instead will cash in on the subsidy of \$1.05 per week per worker offered to private manufacturers.

The payroll tax is designed to reduce recruiting by the service industries and thus release labor for manufacturing.

In the past five years, employment in the services, distribution and construction increased by more than one million while manufacturing added only 142,000 employees, Callaghan said.

The payroll tax is designed to reduce recruiting by the service industries and thus release labor for manufacturing.

Transport, agriculture, and such public enterprises as gas, electricity, schools and the national health service were exempted from the payroll tax. They also will not receive the subsidy offered to manufacturers.

Callaghan made no increases in the personal income tax or beer and cigarette taxes but announced a 40 per cent levy on company earnings.

Editors and Officials in Spain Still Spar Over New Press Law

MADRID, Spain (AP) — A month after Spain's new press law became effective, newspaper editors and officials who administer the law are still sparring carefully.

"We are feeling each other out," said a leading newspaper director. "The law is good, but neither we who publish newspapers nor the Ministry of Information officials who enforce it are quite certain how far we can exploit the freedom it provides without some wrist slapping."

The law, branchchild of the 43-year-old minister of information, Manuel Fraga Iribarne, ended many decades of press censorship. It provided both new freedoms and new responsibilities for those who write and edit newspapers and magazines.

Those who administer the law say that many newspapers, long accustomed to strict government controls, continue to work as though the new law had never been passed.

REPORT SHOOTING

A day after the press bill became law, nationally circulated papers reported that a policeman shot and wounded two people during a demonstration of Basque Nationalists in northern Spain.

Two days later Spanish domestic news agencies reported a labor dispute in the industrial center of Bilbao. Major papers carried the stories.

"We are feeling our way into press freedom, but we are still working under wraps," one newspaper director told questioners. "We feel pretty safe in publishing any story a Spanish news agency carries, but when we go out on our own, especially in matters involving politics, we tend to think first and write later."

Nevertheless political articles and news reports involving Spain and its future are appearing with increasing frequency.

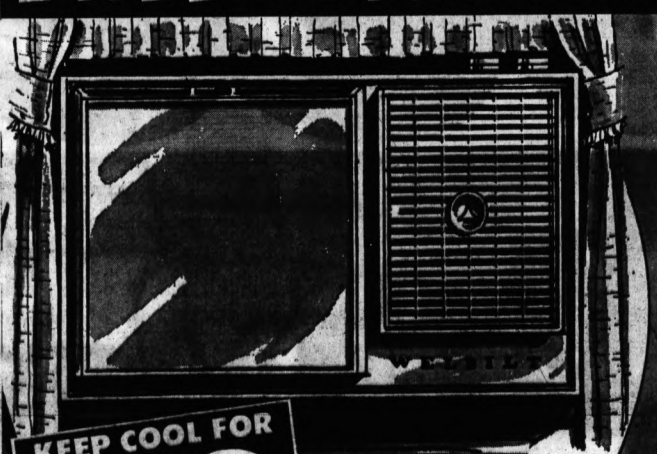

Nones has directly criticized the Franco regime. Among things reported in the press have been a financial scandal in Catalonia involving a former municipal mayor, economic strikes in various industries, direct criticism of Spain's four-year development plan, the recent wave of student disorders. Most if not all would have been banned by the official censor who disappeared with the new law.

Newspaper directors still repeat one complaint. Under the press law all foreign news must be funneled into Spain through a national agency — in this case the government-sponsored agen-

Beer

There hasn't been this much flavor in beer since Grampa brought it home in buckets!

This is beer the way it *should* be brewed . . . carefully, patiently . . . simmered slowly in solid copper kettles. Filtered for hours to clear it, not bruise it. Then . . . rested until it's ready, aged until it's right! This is *today's* Pfeiffer, with a full measure of flavor in every sip. And

to get *all* this flavor into every can and bottle we now "finish" Pfeiffer a totally new way.

It's Flashteurized! Instead of ordinary pasteurization, which causes flavor fade, we now "finish" Pfeiffer the way the best European brewers do it. By a process we

call "Flashteurization." Flashteurization finishes beer in seconds, allowing the full flavor to come through exactly as brewed. This is what we mean by "Back to Beer" . . . real beer flavor . . . in today's Pfeiffer! The grand old beer for a new generation!

MONTGOMERY WARD

Did
You
Know?

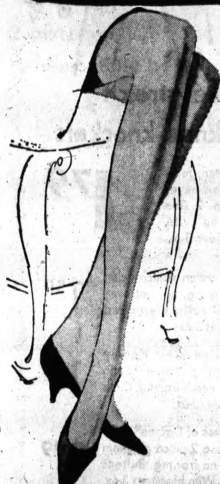

Wards LeGant® watch movements are frozen. Why? Because the skillful Swiss who make LeGant® watches lubricate them with super-refined oil costing \$56,000 a barrel. To protect that oil then freezes the movements here and LeGant® watch it is really "fresh" from Switzerland! This is typical of the way Wards world-wide buying network seeks out the very finest. . . then brings it to you in its original state of excellence!

IT'S EASY TO PLAY LUCKY BINGO!

Each Free Lucky-Bingo Number Ticket has two portions. One part has your Lucky-Bingo disc — which you punch out to reveal two Bingo numbers. The other half is your Sweepstakes Entry Blank — which you detach, fill out, and deposit at Wrigley Foods for big Sweepstakes prizes each week!

1. Get one FREE Lucky Bingo concealed number ticket every time you visit Wrigley — no purchase necessary! Or mail your name and address to 13901 Joy Road.
2. Punch out discs and insert into slots on Lucky Bingo card with matching numbers.
3. Fill a line vertically, horizontally or diagonally — and you win \$1,000 or \$100 according to the amount at the top of the card.
4. Bring your card to Wrigley and claim your prize!

If your disc shows the words "you win \$1.00" or a Food Product — you may turn it in immediately for the prize indicated!

Some of the sun wrapped in every loaf!

This is the "inside story" of Quality. Good things like these pictured above go into Kroger Bread—before we dress it up in our shiny new label!

New Kroger Mel-O-Soft Bread: guaranteed fine as the best and costs you less

Those clever Kroger bakers have a new way to make bread! Instead of one loaf at a time, a continuous mix of dough goes into the pans—then on to the ovens. Almost without hands! You get the superior flavor and extra protein of hard winter wheat in a loaf that's soft, light, pure white. And no holes ever! Stays fresh longer, too. Down to the last crumb. For bread "smooth as satin", in the modern twist-tie package, get Kroger Mel-O-Soft White Bread. And for a nice change-off, try one of the many other varieties of Kroger breads.

There's some of the sun wrapped in every loaf!

NEGATIVE FOGGED — "Sunrise in Toledo, Spain" is a color print entry in the Photography in the Fine Arts-V exhibition. It was taken on a 35mm Kodacolor negative at dawn from a hotel balcony. The rising sun shining into the camera lens fogged the negative — but in an unusual rainbow-hued path which dramatized the silhouetted figures of the boys hauling a basket of coal.

Camera Angles

Top Photos Are Sought

By IRVING DESFOR
AP Newsfeatures

Another search is now under way for outstanding examples of distinctive contemporary photography for consideration in the next, the fifth Photography in the Fine Arts exhibition. Photos which make the grade for PFA exhibition are an elite class.

First there is a nation-wide screening of outstanding pictures by many groups of recognized photo authorities.

When these judges emerge with their choices, the finalists will have passed critical photographic standards for artistic excellence.

Their selected photos are then screened again, this time by a jury of eminent art specialists.

150 PHOTOGRAPHS

About 150 individual photographs will survive the final eliminations to achieve the distinction of representation in PFA-V.

Photography in the Fine Arts-V, when the present search is completed, will be unveiled at the Metropolitan Museum of Art in New York on March 15, 1967, and will remain on view for 2½ months. Then it too will be booked in the nation's leading museums.

The continuing purpose of the PFA program, according to Ivan Dmitri, founder and director of the project, is to raise the status of photography by art museums to the same level and acceptance as works of art that paintings, sculpture and etchings now enjoy.

That goal has been achieved

in part since the PFA program started in 1959.

GROUPS INVITED

Among the groups invited to collect and screen entries from their members for consideration in PFA-V are: the National Press Photographers Association, the American Society of Magazine Photographers, the Photographic Society of America, the Professional Photographers of America, the Photographic Society of Japan and the Royal Photographic Society of Great Britain.

Also invited to assist in searching for exceptional photographs are photography schools, advertising agencies, art directors clubs, editors of national picture magazines, photographic journals and camera annuals, photo agencies and curators of photographic libraries.

Individual photographers who are not members of any of the participating groups and who feel they have worthy material may write for entry blanks to: Don McCullough, Colorado Photographic Arts Center, 1508 East Colfax Ave., Denver, Colo. 80218.

This Arts Center will also be the collecting center for PSA members' entries. The deadline for submission of entries is Sept. 10.

\$1.5 Million Donated

MACKINAC ISLAND (AP) — A New York couple, Mr. and Mrs. William Van Alan Clark, have donated \$1.5 million to help finance construction of a new four-year liberal arts college on Mackinac Island. Clark is honorary board chairman of Avon Products Corp.

'Copper Fever' Returning to Upper Peninsula

(EDITOR'S NOTE — Young men by the hundreds have fled Michigan's Upper Peninsula for a better life with better pay. But copper fever has seized the land and many who fled may come back. This report takes a look at the effect of a new optimism in this region.)

CALUMET (AP) — An entire civilization of copper miners is believed to have vanished mysteriously thousands of years ago from this ore-rich area.

And, for the past 45 years, a new generation of miners feared it might vanish, too.

But two dramatic announcements this month have spread copper fever through the countryside.

There have been rumors of mining stock being sold in the streets. Merchants have gotten estimates on building attractive new store fronts.

DOUBLE WEALTH

There's talk of people who have doubled their wealth overnight.

Mothers are writing to sons who long since struck out for greener pastures to return home to possible jobs in this far northern Upper Peninsula community.

Focal point of the new optimism is Calumet & Hecla Inc., second biggest copper producer in Michigan.

The company announced April 6 it had discovered a lode of at least 35 million tons of copper ore near Calumet.

The firm's president, Paul W. Robson, dispelled fears the company might someday leave Calumet when he told some 80 business leaders "Calumet & Hecla is back in the mining business again, and we are going to stay in the mining business."

Admitting many men, young and old, had left the area, Robson urged "Let's work to bring them back" because "many more people than we have today will be needed to mine the new deposits."

The price of Calumet & Hecla stock shot up \$25 a share after the New York Stock Exchange delayed trading for six sessions in an unprecedented precautionary action.

Bechtel Corp., an engineering

firm, has been hired to determine whether the lode near Calumet can be mined profitably. Its report is expected in August.

INDIAN PIT

The wave of optimism comes 100 years after a legendary pig scratched in an old Indian pit here and found the first copper in modern times. It comes after researchers found traces of a civilization that mined copper in the peninsula long before the pyramids were built.

Now, the firm's Calumet Division seeks 50 new employees to bolster a work force of 1,355 at its three old and four new mines. Only 10 years ago, 2,400 persons worked for the firm.

The old mines are considered marginal workings, but three of the new ones are being built

under a \$8 million program. These shafts are drawing on huge deposits of high-grade ore discovered two years ago in an existing lode. That discovery also brought a surge in optimism and a lifting of the stock price.

Hopes are to double Calumet's production of 35 million pounds a year. The firm's major problem is to mine copper from shafts 6,000 feet below the surface, while competing with open pit copper mines of the southwestern United States.

NEAR CALUMET

Meanwhile, the region's largest copper producer, Copper Range Co., is producing 132 million pounds of copper a year from its White Pine Mine, southwest of Calumet.

Copper Range plans to spend

\$85 million in the next seven years to double production at this mine where, last fall, the firm found ore reserves were twice the 300 million tons originally estimated.

Yugoslav Trade Group to Visit U. S. Cities

WASHINGTON (UPI) — An 11-man trade mission from Communist Yugoslavia is going to visit the United States from May 9 to June 10.

The Commerce Department said yesterday the delegation would visit Washington, New Orleans, Los Angeles, San Francisco, Chicago, Cleveland, Pittsburgh, Boston, New York and Philadelphia.

Proposed U.S. Achievement Test Stirs Controversy

By LESLIE J. NASON, Ed. D.

How good are American schools? We may never know.

An attempt to test the educational achievement of the American people is stirring such heated controversy among educators that the test may never be administered on a nationwide scale.

DR. NASON, chairman of an exploratory committee on assessing the progress of education, is moving ahead with plans to begin nationwide sample testing next year.

The project is being financed by Carnegie Corporation and the Ford Fund for the Advancement of Education.

"The assessment," Tyler says, "is an effort to develop an inventory of educational progress, roughly comparable to the gross national product, a concept which economists have developed to assess the growth of the American economy."

He contends that it will enable us to find out how good our schools are and what progress we are making educationally.

It is my belief that we are not ready for such a test. Specific goals must be set before progress can be measured. We cannot even measure a student's mastery of fundamentals as long as what is essential and fundamental has not been agreed upon.

UNANSWERED QUESTIONS First we must answer some questions. What are the minimum essentials in arithmetic? So many educators are satisfied that students learn a few number combinations. Others insist that multiplication tables must be learned completely and practiced to the point of instant recall so that a student can then center his thoughts fully upon the solution of problems.

What is a satisfactory facility in handwriting? So many say handwriting is not important since we have typewriters and dictating machines. Others point out that examinations, inter-departmental notes and personal correspondence must still be handwritten.

Students, they say, must be able to think and to write at the same time to have any test be a fair measure of their school progress.

In how many areas of reading should the pupil have developed ability, and how much ability in each?

The nearest we have come to a standard national examination is the mental test for military inductees.

The number of young men who do not reach minimum requirements in this test, in shocking. The national average of failure, according to a report from the California Teachers Association, is 30.9 per cent.

Many of these young men were advanced from grade to grade in school, indicating they had met what the school authorities considered to be adequate mastery of fundamentals.

Perhaps the development of even a proposed national test will stimulate enough discussion of the goals of education to have beneficial effect.

(You can write to Prof. Nason in care of this newspaper.)

French Waiters Have A Big Role Ahead

Tourist Chief Pulls Shade on 'Sourpuss'

PARIS (NEA) — France is not the nation of sourpusses that some American tourists have made it out to be.

Most of its people are, in fact, warm, friendly, hospitable, and any rumors to the contrary are simply propaganda put about by the enemies of President de Gaulle.

Who says so? Georges Normand, public relations director of the French Tourist Bureau, whose job it is to invite Americans to come to France at a time when de Gaulle is busy showing the American military the door.

Normand, a big jovial Frenchman with a Legion of Honor rosette in his buttonhole, explains why the "smile check-books" are being dropped this year.

Last summer, American tourists were given "smile checks" to award to helpful French citizens, who, in turn, could win prizes if they collected enough checks.

"We are dropping this smile campaign because we have no special need of it," he declares.

"The French do their share of smiling. The average Parisian grins as much at strangers as the average New Yorker."

Normand should know, for as chief pursuer on the French liner Flandre for 11 years before joining the tourist bureau, he spent as much time in New York as he in Paris.

"The average Frenchman will hold the door open for you in the subway — how many New Yorkers would do the same?" he pursues.

'RIGHT TRACK'

"And if you are lost, the Frenchman will go out of his way to put you on the right track. I've seen people fall down in the streets of Manhattan, and no one would help them."

"Don't get me wrong, I'm not anti-American," the public relations man hastens to add.

"I think that New York taxi drivers are the nicest in the world. People look at me as though I am crazy when I say that, but in 11 years of commuting to New York as a ship's purser, I never met an unpleasant taxi driver."

French politeness notwithstanding, the French tourist balance slid into the red last year for the first time since 1967.

The 430,000 Americans visit-

ing Paris in 1965, however, represents a slight (1.9 per cent) increase over the previous year. Average length of stay was 3½ days.

"Our method of computing the number of tourists is a lot more honest than the methods of some countries I could mention," says Normand.

"We count only foreign visitors who have slept in hotels, whereas some countries count those who cross the border. Now a restless traveler can cross and recross a frontier several times in one day."

Paris is also cheaper than its rivals for the tourist dollar, according to Normand.

HOTEL ROOMS

"You can get hotel rooms for as cheap as \$2 a day," he says.

"We don't recommend these rooms especially. But you can eat well for two bucks, and for \$5 or \$6 you get the best food bargain in the world."

Normand would like to see Americans visit Paris without going near the Louvre.

"There are dozens of other specialist museums in Paris if one takes the trouble to find them," he says.

Let's make Michigan beautiful!

By Proclamation of Governor Romney MAY IS "HOME IMPROVEMENT MONTH"

COME IN . . . SEE DETROIT'S GREATEST DISPLAY OF HOME IMPROVEMENT VALUES!

"I, George Romney, Governor of the State of Michigan, do hereby proclaim the month of May, 1966 as HOME IMPROVEMENT MONTH in Michigan and urge all home owners to examine and improve the condition, equipment and facilities of their homes. It is essential to the national advancement of our neighborhood that each home owner give adequate care and attention to his home at all times—but especially during the spring of each year."

Writer Boyle, Reaching for Moments of a More Leisurely Past, Remembers When ...

By HAL BOYLE
NEW YORK (AP) — Pity the young:
Memory is the fireplace of the heart, and what kind of memories will they have to warm themselves by later on in the twilight of this twentieth century?

What kind of memories of now will young people have a generation from now? Will it all seem like a hurried dream in which life went by at an antic gallop?

New Device to Curb Pain

Technique Not Yet Ready for Humans

By Science Service
ST. LOUIS, Mo. — Relief for severe, persistent pain such as is caused by cancer or serious injuries to the nervous system is expected through a technique being developed in the form of a miniature implanted electronic device.

It is not yet ready for human use, but laboratory studies reported by a group of Cleveland scientists here at a meeting of the Cushing Society, an association of neurosurgeons, have been successful.

Up to now, narcotics, which are often not effective, or cordotomy, which means cutting part of the spinal cord, have been the usual methods for relief of unbearable pain.

But surgical pain relief currently available destroys some part of the nervous system.

The new device will be smaller than a dime, implanted at an area of the spinal cord where its mild, nonpainful stimulus could block the pain stimuli coming from other parts of the body and prevent them from reaching the brain.

ELECTRIC CURRENT
The device would generate a very weak electric current, about two milliamperes (less than one-thousandth the amount of current used to light an electric bulb), but sufficient to inhibit pain, the researchers said.

Drs. C. Norman Shealy, Norman Taslitz and Donald Becker of Western Reserve University School of Medicine, a part of the University Medical Center, are collaborating with Thomas Mortimer, a graduate student in engineering design center at Case Institute of Technology.

Computers Aid in Tumor, Tissue Study

By Science Service
ROCHESTER, Minn. — Experimental equipment and computer programs have been developed to help radiologists locate tumors and malignant tissue in body organs.

Dr. W. Newton Taupe of the Mayo Clinic here says the objective of the joint study with the International Business Machines Corp. is to capture and enhance the data obtained from radioisotope scanners of a type used by many hospitals for diagnosis.

Just as a computer was used to improve the pictures of the moon received from our space probes, similar techniques are giving doctors a clearer view of the images painted by a radioactive compound chosen to go to the organ being studied.

Unlike ordinary scanners, which produce a paper chart or film record, the experimental Mayo-IBM system records a 111 data on magnetic tape for computer processing.

On the tape goes a new radiation record every tenth of a second and the exact location at which the reading was made. Besides improving the clarity of the picture, computer processing of isotope scanning data has the advantage of availability for later research or repeat processing, IBM project leader Donald W. Chapel points out.

Well, in any case, few will still be alive then who can look back and remember a more leisurely past when—
LUCKY PLAYER

One Day Out of the Kitchen Is Good Gift for Mother

By JANET ODELL
Pontiac Press Food Editor

All mothers who read this page can pass it on to their daughters right now.

Daughters, why don't you take over in the kitchen this Sunday and give your mother a short vacation as part of her Mother's Day present?

Even if you aren't an experienced cook, you can get a good dinner. "You can cook, if you can read" is more than the title of a cookbook; it's the truth.

Let's make one thing clear before we talk about a menu. If you do this on Sunday, you see that the kitchen is left in spotless condition. No fair hiding dirty pots in the oven for

Mom to find and scour the next day.

Early on Sunday, or even on Saturday, you can make a molded salad and bake a cake. The chicken will take about 1½ hours to bake. You can bake potatoes in the same oven and cook frozen vegetable just before serving time.

If you want rolls, you have your choice of brown-and-serve type or the brown ones.

The salad is a two-layer lemon gelatin mold. If your family is small, you may want to make the fruit layer and omit the other. Either is good by itself.

Towering Pineapple Salad

Fruit Layer:
1 (3-ounce) package lemon

flavored gelatin

Water
1 (8½-ounce) can pineapple tidbits
2 tablespoons lime juice
1 cup halved strawberries
1 banana

Dissolve gelatin in 1 cup boiling water. Add cold water to syrup drained from pineapple to make ¾ cup. Add to dissolved gelatin. Stir in lime juice.

Cool until slightly thickened and beginning to jell. Fold in strawberries, sliced banana and drained pineapple tidbits. Chill until almost firm in 6-cup mold.

Meanwhile prepare pineapple layer. Cool to room temperature, then pour into mold over almost firm fruit layer. Chill several hours or overnight. Makes about 8 servings.

Pineapple Layer:

1 (13½-ounce) can crushed pineapple
¼ cup water
1 (3-ounce) package lemon flavored gelatin
1 tablespoon lime juice

Whirl undrained pineapple on blender until smooth. Turn into saucepan. Rinse out blender with water and add to pineapple. Heat to simmering; add gelatin and stir until gelatin dissolves.

Note: If blender is not available crushed pineapple may be used straight from the can.

Buy a box of angel food

cake mix and make it special with the addition of apple pie spice. If you don't have that spice on the shelf, substitute half cinnamon and half nutmeg to make the 1½ teaspoon called for.

Be sure to read and follow all directions carefully.

SPICY ANGEL FOOD CAKE

1 package angel food cake mix
1½ teaspoons apple pie spice
1 teaspoon pure vanilla extract

Prepare cake as directed on package, adding apple pie spice and vanilla extract along with dry ingredients. Bake as directed. Cool, then remove from pan. Drizzle Vanilla Glaze over the top.

Vanilla Glaze:

2 cups sifted powdered sugar

¼ teaspoon pure vanilla extract
3 tablespoons hot water
Combine all ingredients and mix well. Drizzle over top of cake.

If you're studying French in school, you'll have fun telling the family in French what kind of chicken they're eating. If not, tell them it's chicken with onion and orange.

This is a simple and delicious way to bake chicken halves or even chicken pieces.

POULET A L'OIGNON ET A L'ORANGE

2 (2½ pound) broiler-fryers, split
2 medium navel oranges, unpeeled, cut in thick slices

1 1½ oz. envelope onion soup mix
1 (8 ounce) can frozen orange juice concentrate, thawed
1 cup water

Preheat oven to 400 degrees. Place chicken and orange slices in large roasting pan. Blend onion soup mix with orange juice concentrate and water. Spoon some of onion mixture over chicken and oranges.

Bake about 1½ hours, or until tender and glazed, basting with remaining onion mixture, turning occasionally. Serve with pan juices. Makes 4 to 6 servings.

Mashed potatoes may please the family more than baked; use the package variety.

You'll get a glow of satisfaction when you sit down to a self. And no one will be any meal you've prepared by your prouder than your mother.

SPICY ANGEL FOOD

POULET (THAT'S CHICKEN)

Box of Noodles Base of Dish

Casserole dishes, the darlings of time-pressed cooks, can often take a great deal of preparation even though it is done ahead of time. Now, here's a recipe that tastes as if it took hours to prepare but really is easily done with a mix.

Swiss Tuna Romanoff is a happy blending of nut-flavored Swiss cheese, tuna and chives in a rich sour cream and cheese sauce with tender egg noodles. It's simply made with Noodles Romanoff and the addition of distinctive flavors in the Swiss cheese, tuna and chopped chives.

Such casserole dishes are easily served, cut down on dishwashing and are family-pleasing, too — ideal choices for the Lenten season. Here is the recipe.

Swiss Tuna Romanoff

1 package noodles romanoff
1 can (6½ ounces) tuna, drained
1 cup shredded Swiss cheese
1 tablespoon chopped chives

Heat oven to 350 degrees. Prepare noodles romanoff as directed on package except — increase milk to ¾ cup. In 1½-quart casserole, layer half the noodles, the tuna and cheese; top with remaining noodles; sprinkle with chives. Cover and bake 15 to 20 minutes. 4 servings.

Add Ripe Olives

Ripe olives and heavy cream are both good to have on hand. Together they're great. For an epicurean salad dressing mix ¼ cup heavy cream with 2 tablespoons lemon juice, ½ cup ripe olive wedges and salt and pepper.

TOWERING PINEAPPLE SALAD

Spicy Apple Flavor

Big Pancake Serves Four

A "Dutch Apple Pancake" for breakfast? It's a delightful way to start the day! Full of flavor and nutrition, this appetizing pancake sends children and husband off with extra bounce. It's a pleasant change too, for the breakfast routine.

Dutch Apple Pancake

1 medium-size apple
¼ cup butter
2 tablespoons sugar
¼ teaspoon ground cinnamon
¼ teaspoon ground nutmeg
1 cup biscuit mix
¾ cup milk
1 egg
1 tablespoon sugar

Thin apple slices sautéed in butter, cinnamon and sugar cook to juicy tenderness, while the biscuit mix batter goes to gether. Pop into the pan then cook slowly to develop the cake-like texture of this rich pancake.

It's perfectly delicious served topped with butter along with a glass of milk or steaming coffee.

Core apple and slice leaving skin on. Melt butter in an 8 inch skillet. Blend in sugar, cinnamon and nutmeg. Add apples and sauté until tender.

Meanwhile, combine biscuit mix, milk, egg and sugar until just moistened. Pour over apples. Turn heat to low and cook 10 to 12 minutes until surface of pancake looks dull. Place under broiler 1 to 2 minutes until lightly browned.

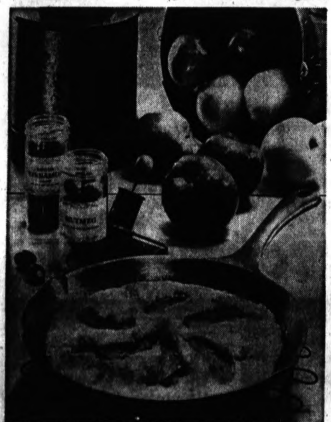

To serve turn upside-down on plate and pass extra butter and syrup if desired. Makes 4 generous servings.

Baked Spaghetti Is Fine for Lunchbox

Lunch box spaghetti can be prepared ahead to be reheated for carrying in a wide mouth vacuum bottle. Boil 8 ounces of spaghetti as label directs. Drain well.

Brown 1 pound of ground beef in skillet. Add 1 (1½-ounce) package of meat loaf sauce mix and ¾ cups of tomato juice. Combine meat sauce in 2 quart casserole with spaghetti and ½ cup of grated American cheese.

Bake 15 minutes in preheated 350-degree oven. Makes 4 to 6 servings. Reheat single portion in double boiler to fill pint-size vacuum bottle.

BIG PANCAKE — Cinnamon, butter and sugar combine to glaze thin apple slices in this breakfast treat. A "Dutch Apple Pancake" is a delicious and nourishing way to send the family off in the morning.

Peking Calls Russian a Liar

Dispute Flares on Soviet Aid to Viet

TOKYO (UPI) — Red China said yesterday it has given top priority to Soviet aid shipments to North Viet Nam and it called Soviet-Defense Minister Rodion Y. Malinovsky a "liar" for saying China hampered delivery of the military supplies.

The New China News Agency, monitored in Tokyo, quoted a spokesman for the Chinese Foreign Ministry as saying the truth of the matter is that Soviet aid is "a sham," designed to hide a policy of "world domination through U.S.-Soviet collaboration."

China also blasted U.S. Secretary of State Dean Rusk for saying that China has isolated herself from the community of nations.

"(It is) U.S. imperialism and the reactionaries of various countries who have really become isolated," said Foreign Minister Chen Yi at a reception in Peking for more than 800 overseas Chinese from Hong Kong and Macao.

The Foreign Ministry attack on Malinovsky was prompted by statements the Soviet defense minister in Hungary April 21. He was quoted as saying:

"The aid for the Vietnamese peoples struggle could be still more efficient should the Chinese leaders not hamper these efforts, and that as the Soviet Union did not border on the democratic republic, of (North) Viet Nam, its aid for the Vietnamese brothers could only reach them through Chinese territory."

"Malinovsky is a liar," the China replied. "China has never hampered the transit of Soviet aid materials to Viet Nam. All military aid materials which Viet Nam asked for and which the Soviet Union delivered to China have been transported to Viet Nam by China with priority, at high speed and free of charge."

Doctor Tells Real Secret of Penicillin

By Science Service
WASHINGTON — The secret of a marvelous thief is being revealed. Scientists are finding that the drug penicillin destroys harmful bacteria by stealing away an essential enzyme.

Penicillin has been an effective healer for more than 36 years, yet scientists have not known exactly how the drug works.

Now recent studies show that it works by reacting readily with an enzyme that is necessary for the growth of damaging bacteria within human and animal bodies.

The long-held secret was divulged by Dr. Jack L. Strominger, University of Wisconsin Medical School in Madison, at the 103rd annual meeting of the National Academy of Sciences.

Key to the secret lies in the fact that penicillin reacts with the recently isolated enzyme, glycopeptide transpeptidase, more readily than the bacteria.

ENZYME ESSENTIAL
The enzyme is essential in building the rigid cell walls of the bacteria. It helps form a bridge between chains of combinations of sugar and protein units in the walls, Dr. Strominger said.

The enzyme reacts with the end component of one chain and links it to the next, thus forming the bridges of a fish-net structure.

When penicillin is present, however, most or all of the enzyme combines with it rather than with the chain, and thus the bridges cannot be formed.

Greek Is Arrested for Passing Secrets

ATHENS, Greece (AP) — A Greek engineer employed at a NATO rocket base being built on Crete has been arrested and charged with delivering military secrets to Soviet embassy staff members in Athens.

Police said the engineer, Spyridon Georgakis, 36, has been under surveillance since last November.

Authorities did not specify the nature of the information Georgakis is accused of passing to Soviet military attaches.

Communist China Denies Mao Is Seriously Ill

TOKYO (AP) — Denying foreign speculation that Red China's top man is seriously ill, Peking's foreign ministry said today that Communist leader Mao Tse-tung "is very well."

"Rumors of Chairman Mao's physical condition are quite nonsense and malicious, false rumors of imperialism," the foreign ministry said in a statement reported by the Peking correspondent of the Japanese news agency, Kyodo.

Mao's absence from public

view has resulted in wide speculation in the West that he might be seriously ill.

"The whereabouts of Chairman Mao is unknown even in Peking," Kyoto correspondent Taduo Salto reported. "However, it appears certain that Mao was resting in warm central China away from Peking since late last year until early this year."

PEKING AIRPORT

In New York, an informant who declined to be identified said he saw Mao on Feb. 23 at

the Peking airport when Kwame Nkrumah, the deposed president of Ghana, left for Moscow.

Mao did not make a speech, the witness said, but he shook hands with Nkrumah and did not appear ill. He added that the 72-year-old Chinese leader walked without assistance.

Official circles in Washington, under the impression that Mao's last public appearance was in November when he received a Cambodian delegation, have been speculating that the

Chinese leader had suffered a serious illness or undergone major surgery.

Working on the assumption that the Chinese leadership might be about to change hands, President Johnson's administration has been making overtures to reduce tensions between Peking and Washington.

OPEN DOOR

Washington authorities believe the Soviet Union has been holding the door open to conciliation with China because of the same assumption.

Red China's Army newspaper, the Liberation Army Daily, invoked the name of Mao today in a blistering attack on Chinese intellectuals whom it branded as "anti-party, antisocialist." The paper said Mao's ideology was at stake in the current "great debate on the cultural front."

The average person swallows nearly 600 times a day except while eating, when the frequency rate is 295 times an hour.

U.S. Is Delivering C119s to Formosa

TAIPEI, Formosa (AP) — The United States is delivering C119 Flying Boxcars to Formosa to continue modernization of the Chinese Nationalist Air Force.

The first group of the planes arrived Saturday, an announcement said today.

The total number of C119s to be delivered was not announced. They will replace World War II C46 Commandos.

Study Is Urged of Flood Plain

Waterford Planners Ask Detailed Check

A detailed flood plain study of the Clinton River was recommended last night by the Waterford Township Planning Commission.

The study would be conducted by the U.S. Army Corps of Engineers if the Township Board gives the go-ahead. Federal funds are available.

A purpose of the study would be to determine the location of areas in the township which might be subject to flooding.

In other business, the commission agreed that the land use for two pieces of property the board of education plans to purchase would be in conformity with the township's proposed comprehensive development plan.

The parcels are located on Pontiac Lake Road near Hospital Road (8.2 acres) and on Lochran near Elizabeth Lake Road (19 acres).

The 8.2-acre property is adjacent to land already owned by the board of education and would be used for recreational purposes. Fourteen of the 19 acres at the other site also would be used for recreation.

Will Air Proposed Internship Project

The Waterford Township Board of Education tomorrow night will consider a recommendation of Supt. of Schools Dr. Don O. Tatroe to establish an administrative internship program in the district.

If approved, a limited number of teachers in the system will be given trials as administrative assistants on the secondary level on an experimental basis.

An advantage of the proposed program, according to Tatroe, is that prospective administrators could receive training within the district in preparation for future openings.

Insurance Exec Dies

DETROIT (AP) — Services for Dallas S. Kelsey, 60, Detroit insurance executive, will be held here Thursday. Kelsey, son of John Kelsey, founder of the Kelsey Wheel Co., died of a heart attack Monday at Sea Island, Ga.

Petition Deadline Is Nearing

County Clerk John D. Murphy issued a reminder today to precinct delegate candidates that they have only until May 24 to file their nominating petitions with his office.

Murphy said that he has received only six petitions to date and that there are 385 precincts in the county.

The petitions require the names of 20 registered voters in the precinct, according to Murphy. The petitions do not have to be notarized, but must contain the signatures of the petitioner and the circulator.

Murphy warned that new petition forms were issued this year, and that old forms will not be accepted.

The forms can be obtained in the county clerk's office or at Democratic and Republican headquarters.

NOTICE FOR BIDS
Sealed proposals will be received by the Purchasing Division of the Oakland County Board of Auditors located in the Oakland County Service Center, Room 10-404, West Wing, 1200 N. Telegraph Road, Pontiac, Michigan, until 2:30 P.M., Monday, May 23, 1966. Bids will be opened at 10:00 A.M., Monday, May 23, 1966, at the same place. Bids must be accompanied by a check for \$500.00 as a guarantee of good faith on the part of the bidder. The right to accept any proposal, to reject any or all proposals, and to waive defects in proposals is reserved by the Board of Auditors.

MICKY'S A DEVIL — Mickey Rooney, the perennial juvenile film actor, wears hair style and gloves that are the same as those of the devil, during a break in the filming of "The Archdeacon" in Italy. The cherot is Mickey's own idea, not a part of the role.

Murder Suspect Is Said Capable of Standing Trial

A Detroit psychiatrist testified at a sanity hearing yesterday that a Flint sailor charged with murder in the death of a Southfield businessman is capable of standing trial.

The hearing for Barrie S. Moody, 18, was postponed, however, until Tuesday, when another psychiatrist, Dr. Jerome Fink of Pontiac, requested that Circuit Judge William J. Beer give him additional time for further tests.

Moody is accused of the March 25 slaying of Albert E. Smith, 43, of 2257 N. Bellwood during a robbery.

Dr. William E. Gordon told Beer that his examination of Moody revealed that the youth understands the charge against him and can assist his defense counsel.

South Viet General Says Unrest Over

DA NANG, South Viet Nam (AP) — Political stability has returned to South Viet Nam's five northern provinces, the commander of the army's 1st Corps area declared today.

Lt. Gen. Ton Thai Din, the commander, denounced suggestions that the Buddhist-military unrest was continuing and said the people of the region "will struggle to the end to destroy the neutralist plot to negotiate with the Communists, and exterminate the warlike Communists."

Police Hold 2 in Taxi Slaying

DETROIT (AP)—Police held two men today in connection with the April 25 fatal shooting of 37-year-old Detroit taxi driver Clyde J. Polon.

Arrested Tuesday after police received an anonymous tip were Ervin Clay, 27, and Donald Bolton, 25, both of Detroit.

Police said Bolton had suffered a recent facial cut. Polon was shot in an apparent holdup attempt, with his cab slamming into several parked cars. Police said one of the bandits apparently received a cut when thrown through a plexiglass partition which separates drivers from passengers.

EMU to Break Ground for 7-Story Building

YPSILANTI (UPI) — A major step in transforming the Eastern Michigan University campus will be taken this fall when ground is broken for a seven-story classroom building, to be one of the largest in Michigan.

The building, with space for about 4,500 students in 75 classrooms, would be the first built under Eastern's master plan for campus construction, which provides for development of clusters of buildings group around plazas.

Talk Is Scheduled on Safety Measures

Safety in the home, at school and en route from one to the other will be the subject of a 3 p.m. talk tomorrow at McConnell Community School.

Lewis Russell, safety officer for Pontiac State Hospital, will discuss fire prevention in a classroom, advise on how to avoid traffic hazards and outline safety precautions in the home.

Deaths in Pontiac Area

PETER MOLISKEY
Service for Peter Moliskey, 68, of 1107 LaSalle, Waterford Township, will be 11 a.m. Friday at Deacon-Johns Funeral Home with burial in Ottawa Park Cemetery, Independence Township.

Mr. Moliskey, a retired welder at Pontiac Motor Division, died yesterday.

Surviving are his wife, Tessie; a son, Elmer of Uxbridge; a daughter, Mrs. Eugene Kline of Leeper; seven grandchildren; two sisters, and a brother.

MRS. JOHN AKERLEY
AVON TOWNSHIP — Service for Mrs. John (Janet) Akerley, 24, formerly of 1280 Greenridge, will be 2 p.m. Friday at Pyle Memorial Chapel, Rochester. Burial will be in White Chapel Memorial Cemetery, Troy.

Mrs. Akerley died Sunday as a result of an automobile accident near Fostoria, Ohio. She was a member of the Emmanuel Baptist Church of Pontiac and a former employee of B. Siegel Co., Birmingham.

Surviving besides her husband are her parents, Dr. and Mrs. J. V. Wilkes of Rochester; and a sister.

MRS. C. C. BENNETT JR.
BIRMINGHAM — Memorial service for Mrs. Clyde C. (Hannah) Bennett Jr., 45, of 1274 Westwood will be 11 a.m. Friday at Christ Church Cathedral. Cremation will be at White Chapel Memorial Cemetery, Troy, by Manley Bailey Funeral Home.

Mrs. Bennett died yesterday after a long illness. She was a member of the Village Womans Club, Piety Hill Chapter of the

DAR and was active in United Foundation work.

Surviving besides her husband are a daughter, Priscilla, and a son, William, both at home; and two brothers, Dr. Peter V. Dyke Hamill of Annapolis, Md., and John R. Hamill of Birmingham.

Memorial contributions can be made to Michigan Cancer Foundation.

WILLIAM F. ESSON
WHITE LAKE TOWNSHIP — Service for William F. Esson, 78, of 510 Cooley Beach will be 1 p.m. Friday at the Elton Black Funeral Home, Union Lake. Burial will be in Grand Lawn Cemetery, Detroit.

Mr. Esson died yesterday after a short illness. He was a self-employed painter and decorator.

Surviving are a son, Vaughn of Union Lake; two grandchildren; and two great-grandchildren.

WILLIAM A. ROSS
COMMERCE TOWNSHIP — Service for William A. Ross, 9-year-old son of Mr. and Mrs. Arthur Ross, 9470 Boncrest, will be 11 a.m. tomorrow at the Elton Black Funeral Home, Union Lake. Burial will be in Commerce Cemetery.

The boy died yesterday after a long illness.

Surviving besides his parents are grandparents Mr. and Mrs. William Butler of Livonia; two brothers, Alan Thomas, at home, and Wayne of Union Lake; and three sisters, Barbara, at home, Mrs. Larry Plinchum of Detroit and Mrs. Alphonse Kowalski of Long Beach, Calif.

Talks Slated on Proposed Sewage Plan

Representatives of the eight communities which would be served by the proposed Clinton-Oakland Sewage Disposal System will meet with Oakland County Department of Public Works officials at 10 a.m. Saturday at the Independence Township Hall, 90 N. Main, Clarkston.

Municipalities currently considering entering into agreement with the DPW for the service are the townships of Avon, Pontiac, Waterford, Independence, West Bloomfield and Orion and the cities of Pontiac and Orchard Lake.

According to Independence Township Supervisor Dennis Hurfall, the meeting will be informative.

County officials expected to attend are R. J. Alexander, director of the DPW, and Donald Ringler, DPW deputy director.

It will mark the second meeting of Clinton-Oakland communities, hosted by Independence Township officials.

Estimated principal cost of the project is \$16.5 million.

Teacher Vacancies Exist in 'Handicapped' Classes

More than 100 specially trained teachers are being sought to fill vacancies in the school programs for handicapped children in Oakland County.

Half of the vacancies are actually new positions created by expansion of programs.

Others, according to Dale Flynn, chairman of the Oakland Special Education Directors' Association, are the result of natural turnover rate in school faculties and desire of districts to put previously authorized special education programs into operation next year.

Nineteen visiting teachers are being sought, while 14 new positions for speech correctionists were authorized.

Teacher turnover in the 150 classes for educable mentally handicapped children accounts for most of the 34 prospective vacancies in the 12 school districts.

ELEMENTARY
Twenty-one teachers are needed at the elementary level

and 13 for junior and senior high school classes.

Ten new programs for trainable retarded children were included in the vacancy list, but these positions are rapidly being filled, Flynn reported.

The special education directors have organized a cooperative recruiting campaign.

They have distributed brochures promoting Oakland County as a place to live and work in colleges and at national and regional conferences of teachers of the handicapped.

Prisoners Freed by Shah of Iran After Birth of Son

TEHRAN, Iran (AP) — The Shah of Iran has freed 44 prisoners to mark the birth of his second son last week.

Those pardoned by Tuesday's royal decree included 10 persons sentenced to life imprisonment.

Issuance of the pardons is traditional following the birth of a royal son and heir.

NOTICE FOR BIDS
Sealed proposals will be received by the Purchasing Division of the Oakland County Board of Auditors located in the Oakland County Service Center, Room 10-404, West Wing, 1200 N. Telegraph Road, Pontiac, Michigan, until 2:30 P.M., Monday, May 23, 1966, at which time they will be opened and publicly read.

Bids from only accredited and directly employed representatives of equipment manufacturers will be considered. When submitting bids, please clearly mark all proposals and enclose to the Board. Each bid must be accompanied by a check for \$500.00 as a guarantee of good faith on the part of the bidder. The Board reserves the right to accept or reject any or all bids submitted, or to waive defects in bids, and to award the contract to the lowest bidder. Bids must be submitted in the original and in triplicate. The original and one copy must be submitted to the Board of Auditors, Oakland County Service Center, 1200 N. Telegraph Road, Pontiac, Michigan. Bids must be received by the Board of Auditors no later than 2:30 P.M., Monday, May 23, 1966. Bids received after this time will be opened and publicly read.

Solons to Meet With Hannah

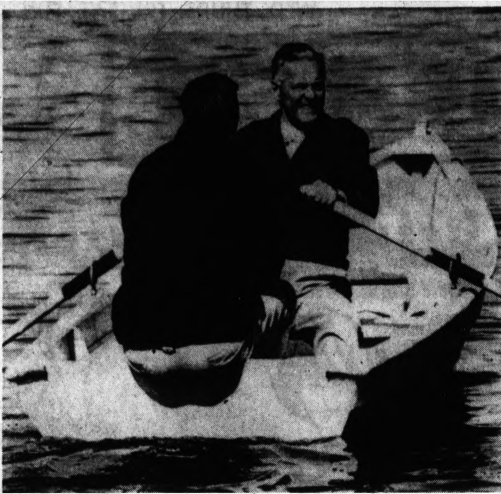

LANSING (UPI) — Michigan State University President John A. Hannah and a five-man House of Representatives subcommittee have set May 16 as the date to discuss MSU's role in a controversial aid project to South Viet Nam.

State Rep. Jack Faxon, D-Detroit, said yesterday that Hannah had agreed to meet with the ways and means subcommittee on higher education on that date and that he "probably will bring with him whatever additional people are necessary to answer questions on overseas operations."

He also said a regular hearing on MSU's budget would be held later.

Three weeks ago, an article in Ramparts magazine, an "independent magazine of dissent" published in San Francisco, charged MSU served as a front for CIA agents in Viet Nam from 1954-1965.

Hannah denied the charge in a lengthy public statement—but agreed last month to meet with Faxon's committee to review the university's association with the regime of former Vietnamese President Ngo Dinh Diem.

ROWING AMBASSADOR—Henry Cabot Lodge, U.S. Ambassador to South Viet Nam, took time out yesterday to row a boat in Manchester harbor, near his Beverly, Mass., home.

While in the United States, Lodge plans a short visit with his family and consultations with President Johnson. Seated at the stern of the boat is Lodge's son, George.

Hundreds Plead for Vaccine

DETROIT (AP)—"My sister is dying...She doesn't know it...Can you help me?" "My wife is in constant agony...Nothing stops the hurt...Please."

These tragic pleas are typical of hundreds that have poured in daily by telephone, mail and telegram to Wayne State University in the three weeks since researchers reported on efforts to develop an anticancer vaccine.

The university's medical school has installed five telephones to handle the calls and has ordered seven more.

REMAIN UNOPENED

Stacks of letters and telegrams from every state and nearly every country in Europe and Asia have been delivered and remain largely unopened for lack of personnel.

Although gratified by the attention their work has received, researchers are worried that many people have been given false hope.

"The work presented is of a very preliminary nature. It suggests we may have a poten-

tial new form of treatment for cancer, but the work is largely experimental," said Dr. Norbert Cankowski, 29-year-old resident in ophthalmology at Detroit General Hospital who originated the research four years ago. He adds:

Jakarta's No. 2 Red Is Reported Killed

TOKYO (AP)—A report from Jakarta today said that M. H. Lukman, No. 2 man in the Indonesian Communist party, was killed last Friday by army troops when he tried to escape from them.

The report came from the semiweekly newspaper Ampera, which on Monday reported that Lukman had been captured in West Java.

Antara, the official Indonesian news agency, said that Ampera reported today that Lukman was caught at the home of a Chinese doctor near Jakarta by troops of the Siliwangi division and was killed when he tried to run away.

"Under the very best conditions—enough money, enough personnel—it will be at least two years before we will know if we have been successful."

20 PATIENTS

To date the program has included 20 patients. The score is: two completely freed of tumors; cancer halted or growing more slowly in eight; lives of two in advanced stages believed prolonged.

Eight other patients showed no improvement and the failure, researchers say, probably came because the disease was too far advanced and the patients' bodies were no longer capable of producing antibodies.

The experiments, carried out under the auspices of the Wayne medical school, are premised on the body developing antibodies against cancer, similar to those produced against polio by Salk vaccine.

Cancerous cells are taken from a patient and combined with chemicals taken from cells of rabbits. The combination then is injected into the patient.

The body recognizes the matter is foreign and produces antibodies to fight it.

Seven Indicted in Tax Case

DETROIT (AP) — Seven persons, including two former employees of the Internal Revenue Service, were indicted by a federal grand jury in Detroit Tuesday on charges of conspiring to defraud on income tax returns.

Assistant U. S. Attorney William Merrill named those indicted as:

Mrs. Mattie Wilson and Lucius N. Patrick, former IRS employees; Raymond J. Whitfield, owner of Whitfield Ford Agency in suburban Taylor Township; Thomas Raad, owner of Raad Used Cars in Detroit; Thomas Hunter Sr., Detroit; Clements Award, now of Milton, Mass., and formerly of Livonia, and Raymond Watson who is sought and believed to be in Florida.

Mrs. Mildred L. Smith, an IRS employee until last month, was named as a coconspirator, but not a defendant.

Merrill said it is alleged that the five taxpayers involved paid IRS employees a fee for preparing their returns and then getting them stamped as if they had been audited, when, as a matter of fact, no audit had been performed to confirm deductions claimed.

FAMOUS NAME
APPLIANCES

What is A Mother?

To her family, she's special.

She's understanding,

a banquet chef; a short order cook,

a fountain of love, a chauffeur,

warmth and security.

She's clean socks, starched dresses,

a mender of hurts.

She's scrubbed ears,

a tender nurse, a maid, a queen.

She deserves a day of honor and tribute.

She deserves the love of those she loves.

Yes, she's very, very special.

This Sunday, you'll tell your mother
how much you care.

We'd like to tell all mothers,

"We Care, too."

This is not a map of the world but a diagram of a race—a race between soaring populations and the ominous specter of famine. Already outdated, Newsmap above shows where the world's population stood—and where it was headed—as of the middle of 1965. Total world population then was 3,308 billion, or 65 million

higher than 12 months previously. In the period 1964-65, there were 125 million births and 60 million deaths, a ratio of births to deaths of about two to one. If the same growth trend continues, if traditionally high birth-rates do not begin to match the spectacular postwar decline in death rates achieved by modern medicine,

cine, world population will be more than doubled by the end of the century. The doubling rate for individual countries ranges from 16 years for Costa Rica, which records 5.5 births for every death, to 175 years for Hungary. The United States, with a doubling time of 44 years, occupies a position between the industrialized

nations of Europe and the developing countries of Africa, Asia and Latin America. The latter section currently leads the world in rate of population increase, followed by Africa and Asia. These three continents hold two and one-third billion people. Only two countries, Ireland and East Germany, have declining populations.

Track Better Collects

HAZEL PARK (AP) — There was one winning ticket Tuesday in the \$14,023.20 twin-double pay-off at Hazel Park Race Track, the largest payoff of the season. Largest ever at Hazel Park was \$103,987.20 last year. The track declined to identify the person who collected on the ticket.

The loss was Michigan's fifth in 20 games. WMU won its 12th

game against two losses.

Allergic Tots Aided by Poi

By Science Service

CHICAGO — Babies allergic to cereal thrive on poi, the popular Polynesian food that looks about like wallpaper paste, an American College of Allergists meeting was told recently.

In some instances, poi has been life-saving. Dr. Jerome Glaser of Rochester, N.Y., said.

Poi is prepared from the taro root. It is a carbohydrate but is not related to cereals.

It was the staple carbohydrate food of Polynesian people for centuries, credited with being responsible for excellent bone structure and teeth of the early Hawaiians.

Dr. Glaser's studies showed that young infants, including premature babies to whom poi can be fed as early as three days of age, take the food with little difficulty and thrive as well as did a control group fed rice cereal.

Poi is also being studied as a good food for patients with celiac disease, in which there is faulty absorption of food from the intestines, and with cystic fibrosis.

8 Million Chinese Join Youth Group

TOKYO (UPI) — Eight million Chinese young men and women between the ages of 15 and 25 joined the Chinese Communist Youth League in 1965, the Communist New China News Agency reported today.

During the same year more than 600,000 outstanding members of the youth league were accepted into the Chinese Communist party, New China said.

PADDLING FOR CLEAN WATER — Three men trying to promote a cleanup of the Grand River arrived at Lansing yesterday on trip down the river from Jackson to Grand Haven, about 270 miles. The trio are

presenting pine seedlings to officials along the way. They are: Dr. R. C. Schwaiger, a Grand Rapids chiropractor; James Kenney of Belding; and Tony Dauksza, a Grand Rapids photographer.

Can Batman Be Another Zorro?

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — To Adam West's worries that he might become permanently identified as Batman, Guy Williams remarks: Not necessarily. Williams beat the game. A few years back, it seemed as if he would be stuck forever with the image of Zorro. Yet this season he THOMAS made a successful return to the home screens as Prof. John Robinson, the man who leads his family through a variety of adventures in CBS' "Lost in Space."

say Williams, "earlier this season, 'Lost in Space' was on at the same time as 'Zorro' in New York City!"

HAS SURVIVED

Yet "Lost in Space" has survived to orbit next season, and Williams with it.

His escape from the Zorro image was managed despite the odds — and an unfortunate circumstance.

"We made two seasons of the series, then Walt Disney got mad over his treatment at the hands of ABC," the actor recalled. "The suit was in court

for two years and meanwhile I wasn't allowed to do anything. I felt like a kept man; all I did was collect my ever-increasing salary."

"During that time, I had no chance to prove I could do anything else besides Zorro. But I was fortunate in being able to make 'The Prince and the Pauper' for Disney. Then I made three pictures in Europe that helped establish me as an actor. By the time I returned from Europe after three years, the Zorro image was pretty well dissipated."

"I don't mind the fact that 'Zorro' is playing all over the world on reruns. Those residual checks can be mighty comforting."

Predict Peace for Indonesia and Malaysia

Come to think of it, there is much similarity between Batman and Zorro. Both hark back to the "Scarlet Pimpernel" theme of the young man who poses as a top while being an undercover do-gooder. Whether on horse or batmobile, both made their entrances out of a cave.

And both Batman and Zorro captured the fancy of the nation. Batman has done so while competing in the same time slot as "Lost in Space," although both are made by 20th Century Fox.

"If that wasn't bad enough,"

MANILA (AP) — Philippine Foreign Secretary Narciso Ramos said today that Indonesia's conditions for ending her armed confrontation against Malaysia have been relayed to the Malaysian government and he is certain of a peaceful solution.

He warned, however, that an end to the Indonesian campaign which has divided Southeast Asia since 1963 would not come suddenly.

Ramos spoke to newsmen and foreign diplomats on his return from a two-day conference in Bangkok with Adam Malik, foreign minister of the new Indonesian government.

"It is my judgment," he said, "that Dr. Malik spoke with authority and with sincerity when he said that the new leadership in Indonesia is eager to seek a peaceful solution to all the problems that have caused friction in this region."

"I have received information that some (troop) units have already been withdrawn and that others, particularly in the Singapore area, have been told not to fire under certain circumstances," Ramos reported.

He said he had also reached agreement with Malik on the Philippines' announced intention to extend diplomatic recognition to Malaysia.

"We will recognize Malaysia in a short time," he said.

Germans Set Ifs on Troop Stay

BONN (UPI) — French troops can remain in Germany only if they accept a clearly defined NATO mission, are assigned to NATO supreme command in the event of war, and are otherwise subject to German sovereign authority, the government said today.

Chancellor Ludwig Erhard's conditions for permitting an estimated 70,000 French troops to remain here after they are withdrawn from NATO's integrated command structure on July 1 were laid down in a memorandum.

The German memorandum was sent to Paris yesterday and published today.

French forces, the Germans declared, lose their right to remain in this country the moment they are withdrawn from NATO's supreme allied command, Europe.

"But it is the desire of the German government," Bonn's note said, "to reach new agreements with the French government, which would make it possible for the French armed forces to remain on federal territory, provided the military mission of these armed forces and their functions within the framework of the common defense can be satisfactorily regulated."

"Also, it would be necessary to create a new legal basis for their stay, and to accommodate their status to the changed circumstances."

Jet Fuel Blast Kills 2

BUENOS AIRES, Argentina (AP) — A fuel tank fell from a 15-year-old jet fighter plane Tuesday and exploded in a slum in suburban Buenos Aires. A 60-year-old woman and her 6-year-old granddaughter were killed when trapped in their hut by the flames.

Art Center Off Limits After Nude Scene

MILWAUKEE, Wis. (AP) — Wisconsin, Madison, staged the event which included a nude man and woman.

Scientists to Visit 'M'

ANN ARBOR (AP) — Thirty-five foreign scientists, including five from Russia, will visit the University of Michigan Monday to view its 50-million electron volt cyclotron. The \$12 million cyclotron is used to study the structure of the nucleus of atoms.

Vice squad officers were conducting Tuesday night a full investigation of last Friday's "happening." A group of art students and faculty from the University of

New York Socialite Waxes Unsual to Paris Photog

By EARL WILSON

A Socialite Wall Street broker got a hammerlock on a photographer and a national name used four-letter words on other gentlemen of the press at the Paris Review Ball given by George Ames Plimpton at the Village Gate.

They objected to great coverage of what they thought was a private party. Frank Sinatra, Sheila MacRae, Harry Karant, Mrs. Bennett Cerf and many, many other celebrities were there. Our agents said Sinatra was more cordial to the press than anybody. (He'll raise his image!)

One of the great nights in Cafe History was the Louis Prima-Gia Malone-Sam Butera and the Witnesses-and London Lee opening at the Copa. Tony Bennett (there with Sandy Grant) got up to perform along with Allen and Rossi and Jack E. Leonard, and it got to be wild and wonderful, with special credit due to drummer Jimmy Vinci (of Boston) and pianist Little Richie (from Allentown). Jack Cassidy, Anita Louis, Bernie Allen and others arose in an unprompted standing ovation to this delightful show.

John Ringling North was at the Paris Hilton and I asked him why the Ringling Circus is now such a hit that it's "in" and "Charlie." Said he: "Maybe it's because of all these wonderful European acts I've been discovering."

North, who rides about like a king in a Mercedes almost as big as two Cadillacs, awoke the other morning and called his chauffeur who looked at him questioningly. Settling back into the limousine, North grandiosely said, "Switzerland."

THE MIDNIGHT EARL

Zany rock 'n' roll singer Monty Rock III quit at the Cheetha; they wouldn't give him billing. . . . Liza Minnelli, at Trude Heller's with Peter Allen, sported a Mia Farrow short-short hairdo. . . . The Arthur discotheque marks its first anniversary with a big party May 9. . . . Amateur Chef Alan King said at Billy Reed's Barbary Room he got a 4-foot salamander (from Nathan's hot dogger).

Louis Armstrong's record of "Mame" will have different lyrics than the stage version; his agent, Joe Glaser, don't think they "suiited" Louis, so Jerry Herman rewrote 'em. . . . Duo to Monogramme: Singer Sherry Bassey and socialite Bill Wright Jr. . . . Julie Andrews'll get top billing everywhere in the world in "Hawaii" — except in continental Europe, where Max von Sydow's top-billed.

TODAY'S BEST LAUGH: Lee Hazlewood claims that one-man-one-note bill came up a long time ago — and his wife deflated it.

REMEMBERED QUOTE: "Anybody who wastes his time and energy looking for four-leaf clovers really needs one." — Arnold Glasow.

EARL'S PEARLS: A wife will forgive and forget — but she'll never let you forget that she forgave and forgot. . . . Trumpeter Jonah Jones, discussing music, said folk songs are prevalent today. "In fact, there are more folk singers than folk listeners." . . . That's earl, brother.

(The Earl Syndicate, Inc.)

Teen-Age Scientist a Dropout

LOS ANGELES (AP) — The theories of scientists interested in the "Flying Blind" for the second day at his Greenville-Southern Piedmont Crusade.

Now, at the age of 19, he is used to the fact that his own scientific theories interest others.

Although Salb is a college dropout, other scientists listened to him as an expert Tuesday as he delivered a paper before the American Society for Microbiology. And well they might: It was the second paper on virus-cell interaction he has delivered to the group in as many years.

The findings were made while working as a senior research assistant with Dr. Philip L. Marcus, 39, an associate professor of microbiology and immunology at Albert Einstein College of Medicine in New York City. He has been working with Marcus since he was 14.

ANSWERS QUESTIONS

"Now I have half the lab to myself," the slightly-built youth told an interviewer after fielding a number of intricate questions from scientists who packed the convention auditorium.

A lab is nothing new to Salb, who started one as a preschooler with a child's chemistry set. He had taken over a room in his family home in Monsey, a Rockland County town near New York City.

The smells of chemicals pervaded the house, but his parents, Seymour and Ethel Salb, didn't seem to mind. They had no objections at all to his not doing other things. They left him alone," he said.

Does he wish now that they hadn't?

"Perhaps. I have developed in a one-sided way, but now I don't have time to pursue other interests, being in the lab so much. But I'm aware of it, and that helps."

U.S. Banks May Operate in Viet for Servicemen

WASHINGTON (AP) — American servicemen in Vietnam soon may have a home-town bank right in their backyard.

Two of the United States' largest banks — the Bank of America and Chase Manhattan — have been granted permission by the Vietnamese government to set up commercial facilities in Saigon.

Treasury Department officials said today present plans call for both banks to establish what are known as banking facilities — as distinguished from branches — at some military bases in the Saigon area as a convenience for American servicemen.

Acress Joan Caulfield to Divorce 2nd Mate

HOLLYWOOD (UPI) — Film and television actress Joan Caulfield, 43, has filed suit to divorce her dentist husband, Dr. Robert Peterson.

The couple was married Nov. 24, 1960, and separated last April 7. They have a son, John, born March 22, 1962. Miss Caulfield previously was married to producer Frank Ross.

Rights Hearing to Start

DETROIT (AP) — The Michigan Civil Rights Convention was scheduled to open a hearing today on charges by two Negro teachers that the Romulus Township School District refused them permanent teaching jobs because of their race.

LEOPOLDVILLE, Congo (UPI) — The map of the Congo is changing again.

The government announced Monday it is "decolonizing" the country's major cities by dropping the Belgian names and assuming the old native names.

The announcement came a day after the provincial boundaries were changed by cutting the number of provinces from 21 to 12. Until independence from Belgium in 1960, the Congo had six provinces.

City name changes to take effect June 30, the sixth anniversary of independence, include:

- Leopoldville to Kinshasa.
- Elisabethville to Lubumbashi.
- Stanleyville to Kisangani.
- Coquilhatville to Mbandaka.
- Paulis to Isiro.

'YOU'RE OUT' — A baby girl, known as the "shirt box baby" in Chicago, gestures emphatically at the hospital yesterday. She was found in a shirt box in an alley on April 25. Many persons have asked to adopt her.

Recently the puppy disappeared. The couple searched in the thick brush surrounding the camp but no trace of it could be found.

Then they noticed that their pet, crow, brought to them by a servant, did not seem to be eating normally.

FLIES OFF

The crow would take a bit of food in its beak, fly off and return a short while later to fetch another scrap of food. The crow, which normally ate its food straight out of the dish, would then repeat the performance.

The couple followed the crow when it flew off again with a prize piece of meat. Keeping just ahead of the couple, the crow led them to the spot where the dog lay trapped.

The dog, they found, was in almost perfect health.

Dr. William MacNae, zoologist at Johannesburg's Witwatersrand University commented: "This is further proof that birds speaking crows, can become animal lovers themselves."

OLD TESTAMENT

"The earliest reference to this type of thing was the feeding of the Old Testament Prophet Elijah by the crows when he meditated in the wilderness."

A zoo official said crows had a tendency to form unusual friendships and when put to the test were usually courageous and faithful allies.

City Names in Congo to Alter Again

LEOPOLDVILLE, Congo (UPI) — The map of the Congo is changing again.

The government announced Monday it is "decolonizing" the country's major cities by dropping the Belgian names and assuming the old native names.

The announcement came a day after the provincial boundaries were changed by cutting the number of provinces from 21 to 12. Until independence from Belgium in 1960, the Congo had six provinces.

City name changes to take effect June 30, the sixth anniversary of independence, include:

- Leopoldville to Kinshasa.
- Elisabethville to Lubumbashi.
- Stanleyville to Kisangani.
- Coquilhatville to Mbandaka.
- Paulis to Isiro.

Chamberlain: Halt Mekong Shipping

WASHINGTON (UPI) — Rep. Charles E. Chamberlain, R-Ill., today called for South Vietnam to close the Mekong River to all ocean traffic bound for Cambodia.

Chamberlain, recently returned from South Vietnam as a member of the House Armed Services Committee, said in a speech preparing for the House that such shipping is the Viet Cong's "backdoor source of supply."

While in South Vietnam, he said, he was told by a "high ranking naval officer" that there is no effective control over Mekong shipping.

One of Lennon Sisters to Wed on Saturday

SANTA MONICA, Calif. (UPI) Janet Elizabeth Lennon, 19, of the singing Lennon Sisters will marry Lee Fredrick Bernhardt, 25, Saturday, she revealed yesterday.

The couple was issued a marriage license here yesterday. They said they would honeymoon in Palm Springs, Calif.

Donates to School

ALBION (AP) — Fred C. Palenka, a retired St. Joseph industrialist, has donated \$20,000 toward construction of a physics and geology building at Albion College, the school said Tuesday.

LBJ in Detroit for Funeral Rite

DETROIT (AP)—The President of the United States comes to town today for the funeral of a one time pipefitter.

Among those scheduled to pay final respects to U.S. Sen. Patrick McNamara were President and Mrs. Johnson and 20 of the gravel-voiced McNamara's Senate colleagues.

The White House announced yesterday Johnson and his wife would attend the last rites, scheduled at Detroit's Holy Name Roman Catholic Church.

McNamara, 71, dropped out of high school to earn nine cents an hour as an apprentice pipefitter, died of a stroke Saturday at Bethesda Naval Hospital, Bethesda, Md. He was under treatment for a blood clot in a lung.

Detroit Police Commissioner Ray Girardin said 350 uniformed policemen and 50 detectives were assigned to cover the President's visit.

SECURITY PLANS

Although the White House indicated Johnson did not plan to attend the burial at Mount Olivet Cemetery, Girardin said security plans covering such a trip were worked out in case Johnson changed his mind.

Two of the three leading candidates for McNamara's Senate seat also were to attend the solemn requiem Mass. These were U.S. Rep. Robert Griffin, R-Mich., and former six term Gov. G. Mennen Williams, who resigned as an assistant U.S. secretary of state to seek the Democratic nomination.

Detroit Mayor Jerome Cavanagh, opposing for the Democratic nod, is in Europe and will be represented by his wife, Mary Helen, and their 11-year-old son, Patrick.

(Continued on Page 2, Col. 6)

Monthly Sales Record Set at Pontiac Motor Division

Pontiac Motor Division sold more cars in April than in any other month in its 40-year history, it was announced today.

E. R. Pettengill, general sales manager, said an all-time record 90,951 Pontiacs and Tempests were sold last month.

He said this was a 12 per cent increase over sales in the same month a year ago.

The 40-year high was achieved on the basis of "bristling" sales in the last ten days of the month when 41,896 cars were sold.

Pettengill said this 10-day period in April marked the highest total sales for any 10-day period.

The record April 21-30 sales topped last year by 45 per cent. There were 28,703 units sold in the same period in 1965.

TEMPESTS' TOP MONTH

Tempest sales in April totaled 43,079, which was the biggest sales month for that model since its introduction six years ago.

"April sales were very gratifying," commented Pettengill.

The division has sold 303,023 cars in this calendar year — up \$9,000 over the same period last year.

Other General Motors Corp. vehicle sales for the last 10 days of April did nearly as well as Pontiac Motor Division.

ALL-TIME RECORD

Total vehicle sales by GM dealers for the last 10 days amounted to 190,219 — an all-time record for the April 21-30 period. This was an 11 per cent jump over the same period last year.

Mrs. Wallace Wins Easily

Bid to Topple Pearson Over Scandal Fails

Leader of Canada Survives Parliament No-Confidence Vote

OTTAWA (UPI) — Parliament refused last night to topple the government of Nobel Prize winner Lester B. Pearson because of his probe of a sex and security scandal involving his political rivals.

Amid charges of "lies" and "political assassination," Pearson received a 133-106 margin on a no-confidence vote spurred by his pursuit of an inquiry into Canada's "little Profumo scandal."

Pearson's predecessor as prime minister, John Diefenbaker, led the spicy parliamentary debate forcing the vote on a motion which, if adopted, would have required new national elections.

The vote evolved on a question of whether Pearson abused the office of prime minister in launching an investigation of charges that Diefenbaker cabinet officials compromised security for the sake of sex with an East German beauty, Gerd Munsinger.

Mrs. Munsinger, who now lives in Munich, was in Canada from 1955 to 1961.

And according to testimony at the inquiry, she once spied for the Soviet Union and later had an affair with Diefenbaker's associate defense minister, Pierre Sevigny.

MINORITY FACTION

To Diefenbaker, now leader of the minority Conservative faction in Parliament, Pearson's interest in the charges was "one of the most terrible offenses of any government — namely assassination of members opposite for political purposes."

"Worse than McCarthyism," said Diefenbaker. "Calculated to destroy by innuendo and defile and smear by innuendo."

Not so, said Pearson. The prime minister and Liberal party leader said, "What concerned me — what I sought — was information . . . that there had been political intervention in the administration of justice and in our processes of law."

Move to Create Unit on Human Relations

An ordinance to establish a human relations commission with designated responsibilities was introduced last night by the City Commission. A public hearing was set for next Tuesday.

Proposed Feb. 21 by the existing Human Relations Advisory Committee, the ordinance is aimed at improving the effectiveness of the current nine-member committee established in 1959 by appointment of a new group.

Object of creating the commission by city ordinance is to spell out responsibilities and duties of the human relations group.

The commission would be composed of 24 members, representing a cross section of the community and its groups. Appointments would be by the mayor with the approval of the City Commission.

The commission would meet once a month. Among other duties, the commission would be required to submit an annual report of its activities to the City Commission.

The first commission members would serve staggered terms of office of one, two and three years, and after that the term would be three years.

Established as an advisory group to the City Commission, the human relations commission would operate in five broad areas:

- Foster mutual understanding and respect among all city racial, religious and ethnic groups.
- Encourage equality of treatment and nondiscrimination.
- Work cooperatively with governmental and nongovernmental agencies.
- Study and make recommendations on problems of discrimination in all fields of human relationships.
- Receive and investigate complaints and initiate investigation of racial, religious, or ethnic group tensions, and/or discrimination against individuals, organizations or corporations, or any group of persons.

The proposed human relations commission is to work to correct discrimination practices through "negotiation and education."

Problems the group can not solve are to be referred to appropriate agencies, such as the Michigan Civil Rights Commission.

U.S. Reveals Secret Losses

11 Yank Fliers Killed, Some Missing in Laos

WASHINGTON (AP) — Secrecy-shrouded air operations over Laos in the past two years have resulted in the deaths of 11 U.S. fliers, the Defense Department reports.

Fewer than 20 air crewmen also are missing or prisoners of the Communists as a result of air action in the area, the Pentagon said.

The disclosures, made yesterday in response to a query, represented a crack in the secrecy which has been maintained largely to avoid embarrassing the Laotian government.

U.S. air attacks on Communist infiltration routes leading through Laos into South Vietnam have been stepped up in recent months.

But weekly announcements on Viet Nam casualties have made no mention of losses in Laos.

AIR OPERATIONS

In response to a request for the toll for air operations over Laos, the Pentagon said, without elaboration:

"Since May 1964, when the United States began aerial reconnaissance over Laos at the request of the Royal Laotian government, 11 air crewmen have been killed and less than 20 are in a missing or detained status."

Meanwhile, Sen. John Stennis, D-Miss., said Army equipment and manpower problems might have placed the United States in "grave difficulty" had the Viet Nam war produced combat on the scale of World War II or the Korean conflict.

WALLACE FORECAST — Alabama's Gov. George C. Wallace raises his wife's arm in a victory salute before they entered voting booths in the Clayton courthouse yesterday to cast their ballots in the state's Democratic primary election. Mrs. Wallace won handsily over her nine male opponents.

Henry Ford II Gives Support to Cavanagh

DETROIT (AP) Henry Ford II, auto industrialist who publicly supported his first Democrat for President two years ago, yesterday endorsed Detroit's Mayor Jerome P. Cavanagh for the U.S. Senate.

Ford said in an interview he was supporting Cavanagh.

The mayor is seeking the Democratic nomination for the Senate against former Gov. G. Mennen Williams.

Asked if he would back Cavanagh in a race against Rep.

Area Children Hurt by Autos

City Police Warn of High Mishap Rate

"In nice weather cars drive faster and kids are running all over the place."

That's the warning from Pontiac Police Lt. Clayton A. Randolph in the wake of four Pontiac area pedestrian accidents involving children in the last two days.

Two of the children have been hospitalized, with one 3-year-old boy listed in critical condition at Pontiac General Hospital from injuries received Monday.

Yesterday, two schoolchildren were struck in the city and one 3-year-old boy was hit in West Bloomfield Township.

Phillip E. Hanley, 9, son of Mr. and Mrs. Gerald Hanley of 536 Emerson is listed in satisfactory condition at Pontiac Osteopathic Hospital after being hit near his home yesterday by a motorcycle driven by James M. Cote, 22, of 852 Melrose.

CROSSING STREET

Mary Cutter, 12-year-old daughter of Mr. and Mrs. Robert Cutter of 686 Balboa, was hit on N. East Blvd. while crossing at Valencia.

Driver of the car was William E. Matheny, 22, of 1855 Mount Clemens.

Three-year-old Allan Mattoon, son of Mrs. Paula Mattoon of 1571 W. Furrall, West Bloomfield Township, is in satisfactory condition at Pontiac General Hospital.

The boy was hit yesterday by a motorcycle driven by Gerald R. Reid, 18, of 1810 Lochaven, West Bloomfield Township.

Nine of the drivers in the accidents was ticketed by police, who noted that in each instance the accident was almost unavoidable because of a child suddenly dashing into the street.

Friday's prediction is variable cloudiness with possible showers.

Morning northwesterly winds at 14 miles per hour will become variable at 5 to 10 miles tonight.

A chilly 30 was the low thermometer reading prior to 8 a.m. By 1 p.m., the mercury had moved up to 53.

Badly Defeats 9 in Alabama Governor Bid

No Runoff Required; 5 Other States Hold Primary Elections

WASHINGTON (AP) — The Wallaces of Alabama, symbols of old-time segregation, have chalked up a victory of surprise proportions despite all efforts of civil rights forces to stop them.

Lurleen Wallace, blonde, 39-year-old mother of four, thumped nine male candidates so thoroughly in yesterday's Democratic primary that there will be no runoff for the party's gubernatorial nomination.

Outdistanced badly was Alabama Atty. Gen. Richmond Flowers, a racial moderate who had criticized Gov. George C. Wallace for his tactics.

Flowers had counted on depriving Mrs. Wallace of a clear majority, and thus forcing a runoff.

But it was not to be and — provided Mrs. Wallace wins the November election — her husband will still be the top power in Alabama, making the decisions for his wife as a 41-year side.

By law, he is barred from succeeding himself officially.

UNOFFICIAL RETURNS

Unofficial returns from 2,921 of 3,654 boxes gave Mrs. Wallace 348,654 votes to 129,211 for liberal State Atty. Gen. Richmond Flowers, who picked up most of the Negro vote to run second. Former Congressman Carl Elliott was a distant third with 53,622 votes. Former Govs. John Patterson and J. Dan James (Kissin' Jim) Folsom were also runners.

Choosing winners from her husband's lexicon, Mrs. Wallace told a victory celebration of supporters:

"We will continue to stand up for Alabama. We renew our pledge to continue the type of government which apparently has been endorsed today."

"Negro voters in Alabama — these numbers doubled under the federal voting rights act of 1965 — turned out in long lines, but so did whites."

One result of the Negro surge (Continued on Page 2, Col. 4)

Warmer Trend Due for Area; Chance of Rain

Warmer temperatures are gradually creeping into the Pontiac area.

The weatherman predicts fair and not so cold tonight, lows of 34 to 42.

Partly cloudy and warmer with possible showers in the afternoon or evening with highs of 58 to 66 is the forecast for tomorrow.

Friday's prediction is variable cloudiness with possible showers.

Morning northwesterly winds at 14 miles per hour will become variable at 5 to 10 miles tonight.

A chilly 30 was the low thermometer reading prior to 8 a.m. By 1 p.m., the mercury had moved up to 53.

LI'L ONES

"He freeloads four or five glasses from me every day."

U.N. Not Ready to Handle Viet--Goldberg

The United States is in Vietnam today because "the United Nations is not yet prepared to accept this responsibility," UN Ambassador Arthur J. Goldberg said yesterday.

Goldberg hastened to add that the fault lies not in the makeup

of the international organization but that "its members, notably the Russians, are not yet ready to trust the United Nations."

The U.S. ambassador to the U.N. addressed a crowd of about 2,000 persons at Oakland

University yesterday afternoon during a conference of the Michigan U.N. Association.

He said the world no longer can accept war as a means of settling disputes; that "we can not tolerate a big war."

However, Goldberg said, "re-treat before violence only encourages more violence."

RULE OF LAW

The U.S. would prefer that the rule of law be applied in Southeast Asia and that disputes be settled by "compromise, adjustment and, finally, impartial adjudication."

"We are not, and do not wish to be, the policemen," Goldberg said.

"This war is not a Holy War against communism as an ideology," he said. "It is based on the principle that the world can no longer tolerate an invasion of national borders by force."

"It is not a war to establish a sphere of American imperialism. It is not a war to frustrate or threaten the legitimate sphere of China."

PERSUADE CHINA

Rather the purpose of the war is to persuade China that it can not hold "vassal states" in Southeast Asia as it once did, according to Goldberg.

The ambassador said it would be "highly suitable" for the U.N. to conduct elections in both North and South Viet Nam.

"There, too, we have been frustrated," he said. "The So-

County Official Hits Pay Plan

Measure Covers Some Employees in Oakland

Pending legislation that would force Oakland County to pay an additional \$82,500 in salaries drew sharp criticism today from Daniel T. Murphy, chairman of the County Board of Auditors.

The State Senate yesterday gave tentative approval for pay raises to court stenographers and assistant prosecutors and is expected to take final action on the bill tomorrow.

Murphy termed the Legislature's move to set salaries for county employees as an infringement on the authority of local government.

"The people in Lansing want to tell us how much to pay but they aren't concerned about where we get the money," he said.

Murphy was just as concerned about the ramifications of the proposed pay hike.

"If we are ordered to raise salaries for a few employee classifications, it will mean that adjustments must be made for others to keep in step," he said.

By next January when the 1967 budget takes effect, the county will have a staff of 15 assistant prosecutors at an average salary of \$8,000.

A total of nine stenographers, who earn a flat rate of \$5,500 (Continued on Page 2, Col. 3)

Feisty Dogs Face Bite of Stiff Fine

Dogs and dog owners beware! City Hall is going to bite back.

Pontiac city officials plan to restore the "teeth" to the city's much-amended dog ordinance. The "teeth" were pulled last year in the third change in the ordinance.

City Commissioners last night directed that amendments be drafted to better control loose dogs, barking and yapping dogs and dog pens.

The ordinance amendments will be reviewed at an informal session of the commission before passage.

Commissioner John A. Dugan raised the dog issue last week and asked for a review of the city's 32-year-old ordinance.

Assistant City Manager John F. Reineck presented the review last night, suggesting that the \$10 charge, deleted last year, be restored.

The \$10 charge was a penalty tacked on to the impounding and boarding fees charged by the Oakland County Dog Pound, which "jails" dogs picked up by the city's two dog wardens.

Reineck said the city might be able to afford another dog warden if the fee were reinstated. The fee was dropped last year because of complaints that city residents had to pay more to get their dogs out of the pound than other county residents.

DECLINES MILITARY OFFERS

Cameron J. Bergh, 18, has been approached by recruiters from the U.S. Marines, Annapolis and West Point. She declined all offers. She recently won a National Merit

Foundation scholarship and the services thought she was a boy. Cameron and her sister, Kirster (right), are A-average students at Richfield High School in Minneapolis.

City Awards Pedestrian Bridge Pact

A \$26,920 bid for a pedestrian bridge — the first of its type in the nation — was awarded last night by the City Commission.

Designed specifically for a span across East Wide Track at Whittemore, the bridge is to be an aluminum arch structure.

The commission awarded the bridge construction to Sparke Sign Co. of Holt at \$26,920, reduced from the firm's original bid of \$29,985.

The final price was highest of seven bids received from four companies on three bridge designs.

A Reynolds Metals Co. spokesman said the Wide Track bridge would be the first aluminum arch-type crosswalk constructed in this country.

BIDS REVIEWED

The commission had reviewed bids of \$12,850 to \$29,985.

Commissioner Leslie H. Hudson said the project bridge would complement proposed redevelopment of the downtown area.

Another N-Test Held by U.S. in Nevada

WASHINGTON (AP) — An underground nuclear test of low yield — meaning equivalent to the blast of 20,000 tons of TNT or less — was conducted today at the Atomic Energy Commission's Nevada proving grounds, the AEC announced.

It was the 15th announced weapons-related test this year.

Beer

There hasn't been this much flavor in beer since Grampa brought it home in buckets!

This is beer the way it *should* be brewed...carefully, patiently...simmered slowly in solid copper kettles. Filtered for hours to clear it, not bruise it. Then...rested until it's ready, aged until it's right! This is *today's* Pfeiffer, with a full measure of flavor in every sip. And

to get *all* this flavor into every can and bottle we now "finish" Pfeiffer a totally new way. It's **Flashteurized!** Instead of ordinary pasteurization, which causes flavor fade, we now "finish" Pfeiffer the way the best European brewers do it. By a process we

call "Flashteurization." Flashteurization finishes beer in seconds, allowing the full flavor to come through exactly as brewed. This is what we mean by "Back to Beer"...real beer flavor...in today's Pfeiffer! The grand old beer for a new generation!

Cohos Illegal Warns State

Many Salmon Caught in Trout Opener

LANSING (U) — You can't keep those Cohos, the State Conservation Department reminded fishermen today.

The memo was triggered by reports "a lot" of Coho salmon were caught in Bear Creek, Manistee County, during the trout opener this past weekend.

The department recently placed some 500,000 of the salmon in Bear Creek and the Platte River, Benzie County.

LEGAL-PREY The idea was to get the fish established. Next year they will be legal prey, but this year they are off limits.

Some fishermen thought the fish were not legally protected since there are no specific regulations covering this new species.

"All fish in Michigan waters are the property of the state and can be taken only according to provisions of the law," explained John Anguill, chief of the Conservation Department Enforcement Division.

"Since the law does not provide for the taking of Coho, these fish are automatically protected."

Colts to Try Illinois' QB

BALTIMORE (U) — Fred Custard, who set a pair of records as a quarterback at the University of Illinois, was signed Tuesday by a free agent by the Baltimore Colts of the National Football League.

The 6-foot, 200-pound native of Melrose Park, Ill., set school records for completions, 204, and pass attempts, 309, during his career at Illinois.

Colts Coach Don Shula has said he would like to have a "good young third quarterback to bring along" behind John Unitas and Gary Cuozzo. Custard will be vying for that spot when the Colts open their rookie camp July 11 at Westminster, Md.

Manager Paul Parks requests all players for completions, 204, and pass attempts, 309, during his career at Illinois.

Colts Coach Don Shula has said he would like to have a "good young third quarterback to bring along" behind John Unitas and Gary Cuozzo. Custard will be vying for that spot when the Colts open their rookie camp July 11 at Westminster, Md.

Manager Paul Parks requests all players for completions, 204, and pass attempts, 309, during his career at Illinois.

Along the Outdoor Trail

with DON VOGEL—Outdoor Editor, Pontiac Press

WHITE TROPHY — Ralph DeGraff, 335 Ridgmont, Addison Township, is shown with the polar bear he shot on an ice floe in the Arctic Ocean. The skull measured 26 inches, good enough to make the record book, and the hide squared 104 feet. The massive paws measured 17 inches.

He 'Flew Into Tomorrow'

Local Hunter Bags Polar Bear

By DON VOGEL
Outdoor Editor, Pontiac Press
Few hunters can make this claim:

"I went out today, shot the bear tomorrow, and returned with it today."

And accomplish this slightly confusing mission under the noses of sharp-eyed Red Commissioners.

Ralph H. DeGraff, 335 Ridgmont, Addison Township, went through such an experience last month while adding another trophy to his growing collection.

The 54-year-old veteran hunter bagged a polar bear within 20 miles of Russian Siberia that is expected to place in the top 10 of Boone & Crockett Club records.

The skull, which determines whether a bear is in the record class, measured 26 inches, and the hide squared at 104 feet.

Official measurement of the skull will be made after it dries. DeGraff, chief photographer at GMC Truck & Coach, also has taken record book Shiras (Wyoming) moose and caribou.

Accompanied by his wife Helen, he hunted out of Kotzebue, Alaska, which is just north of the Arctic Circle and 200 miles east of Russia. He explained the time element this way:

"We flew across the international dateline to where the bears were near the Siberian coast. You could say that we flew into tomorrow and came back today."

Polar bears are found only on ice floes. Hunters use planes to spot a bear and then try to land on the ice floe ahead of it. This is what DeGraff did — on the way back to Kotzebue after a fruitless day of looking for a "big" bear.

"When we started out, we flew due west over the Arctic Ocean for about an hour and a half before sighting any tracks among the ice packs," explained DeGraff. "But the wind was blowing (too hard) and was filling the tracks with snow so that we couldn't follow them from the air."

"About 15 minutes later we spotted two bears, a male and a sow. Ken Oldham, my guide, knew I wanted a big bear and suggested that I pass up the chance."

"We continued west to Siberia and then flew northwest near the coast. All we spotted was a sow with two cubs. Only males are legal. After turning east back to Kotzebue, we saw a sow and cub and a little later two males. I went after the largest."

Oldham landed the plane about a mile ahead of the direction the bears were taking, but DeGraff still had to sprint another half mile across the ice field to get in position.

"It was 32 below zero," said DeGraff, "and I had to keep the fur on the edge of my parka hood closed in around my face

and a hand over my mouth while running to keep my lungs from freezing."

He was in position when the bears passed, but only had a quick shot at 200 paces through an opening in the ice field. The first shot from his .300 Weatherby hit too far back, but broke the big bear down.

"He started snapping at the wound in his hip and I laid the crosshairs behind his shoulder and fired again. He went down, but came right back up again. I hit him in the neck and that finished him—I thought."

ONE MORE When Oldham and DeGraff approached to within 50 yards of the bear, the big carnivore raised its head and chest. DeGraff poured another 180-grain Nosler bullet, pushed by 79 grains of 4350 powder, into the bear and it finally stayed down.

It took over two hours to skin the bear and drag the 200-pound hide and head across a fast-breaking up ice field.

"We were splashing through six-inches of water before we reached the plane," said DeGraff.

TIRE TALK

All this talk in Washington about car safety is having an electric effect on John Q. Public when he considers a tire purchase. More and more frequently Mr. Public tells us he wants a good tire. He knows intelligent questions, and honestly admits bewilderment at times when ply, line, fabric, denier, level, etc. threaten to overwhelm him.

We can sympathize with his plight — tires are not easy to understand. We've accumulated our tire know-how thru a lifetime of selling and working with them. It's this hard-won experience that's at your disposal when we talk tires.

If you will soon be tire-buying, we can suggest several things that may help:

- 1.) Go to a tire man you know and trust
- 2.) Tell him how you drive and what you want from your tires
- 3.) Ask for his recommendation
- 4.) And then take it!

However, be sure you choose a tire man — chain store ribbon-clerks-turned-tire-sellers won't do, nor will car salesmen pre-occupied with power brakes and radios. Talk to a pro — a tire man — his selection will serve you safely and save you money.

And if you haven't got a family tire man to consult — drop in — We offer our experience, tires and unconfusion.

High Profits Cited by Business Critics

Henry Ford II Hits Safety Lag

Says Probers Perform a 'Valuable Function'

DETROIT (AP)—Henry Ford II, chairman of the nation's second-largest auto firm, says the industry should have done more in the past to promote highway safety.

Ford said current congressional hearings on auto safety—often feature witnesses critical of the industry—are performing "a valuable educational function."

However, Ford told a national purchasing agents convention here Tuesday, "automobiles have been subjected to much more rigorous and uniform criticism. Too much effort has been devoted to assessing guilt, too little to the rational search for constructive solutions."

"Until very recently," Ford said, "most of the initiative for the improvement of traffic safety came from the automobile industry. Nevertheless, with the benefit of hindsight, I wish that we in the industry had done even more even sooner."

"We did not act soon enough and vigorously enough to help combat the rising toll of highway accidents," he said.

Hearings by the House Commerce Committee "have helped create the climate of public opinion that is needed for constructive action," he said.

"And they have certainly taught us in the auto industry that we have to expand and intensify our long-term efforts to build better and safer cars."

But witnesses, Ford charged, have exaggerated auto design as a safety factor, while "the potential for major gains through improvements in highways, drivers and law enforcement has been played down."

STUDIED ISSUES
The industry has studied the issues, "considered carefully the views of our critics" and made suggestions for vehicle regulation, Ford said.

"We know very well that our suggestions will not be embraced in total by Congress, but we believe we have something important to contribute to the solution of this problem."

News in Brief
Jose M. Garza, 46, of 725 Scottwood paid fine and costs of \$125 after being convicted in Municipal Court yesterday of reckless driving.

John E. Finkbaker, 35, of 91 Fairgrove was fined \$100 yesterday after pleading guilty in Municipal Court to a charge of driving under the influence of liquor.

Dayton A. Hinkle, 43, of 250 High received a suspended sentence of \$100 fine and 15 days in jail yesterday after pleading guilty to driving under the influence of liquor.

George L. Morland, 60, of 2825 Milford, Milford Township, paid costs of \$25 and was sentenced to 90 days in the Oakland County Jail yesterday by White Lake Township Justice Richard L. Murphy after being found guilty of driving under the influence of liquor.

By SAM DAWSON
AP Business News Analyst

NEW YORK — Record profits are supplying ammunition to the critics of business policies.

But business, resenting this criticism of its price and wage stands, has counter-charges of its own.

Labor is using this year's big jump in corporate earnings as an argument for a greater share for the workers.

Government spokesmen are taking the net income climb as a basis for threatening tax increases on corporate income to cool down the booming economy.

On one thing do all sides agree: corporate profits have risen to the greatest dollar volume in history and the rise so far this year has been at a rate that few formerly thought could be attained.

Industry's answer is that if the dollar volume of profits is tremendous, so is everything else: production, sales, payrolls, materials costs, tax payments at all levels of government.

SOME INDUSTRIES INSTEAD that their profits must rise still more if they are to finance the growth and modernization that today's high-stepping economy demands.

And to this some company chiefs are adding that prices must go up still more if they are to keep up with rising costs — and with the need for more profit dollars to finance growth.

Business spokesmen also deny government officials' charges that business expansion plans are a safety factor, while "the potential for major gains through improvements in highways, drivers and law enforcement has been played down."

and price and profit policies offer the biggest threat of a ruinous inflation ahead.

Industry spokesmen insist that an equally big threat is the rapid rise in government spending. They call upon Washington to do more than propose token gestures of holding down its outlays.

In this business-held view, the efforts to get business to cut down on spending for growth just now should be matched by a like restraint at the government level.

WELL AHEAD
But the profit figures themselves can't be denied. With few exceptions, corporations are reporting their first quarter earnings well ahead of a year ago.

The first 500 to report show total profits after taxes of \$4.5 billion this year, against \$4.1 billion in the first three months of 1965.

Gardner Ackley, chairman of the President's Council of Economic Advisers, says this gain "substantially exceeds the rise in national income or the rise in employment compensation over that period."

And, while the federal tax collector now takes around 48 percent of the record gross earnings of corporations, the profit gains themselves will be a tempting talking point for Congress gets around to debating a stiffer tax, either to pay for a more costly war in Viet Nam or to ward off the inflation that a sizzling domestic economy might threaten.

BARBON PARK, Mass. — First quarter earnings reports confirm that the investor seeking near-term profits should look to many of the smaller U.S. companies, according to Roger E. Spear, investment adviser.

"Despite some record gains by America's industrial giants for the first quarter of 1966," reported Spear, "our studies show that a representative group of smaller companies are posting per share earnings gains at a 117 per cent faster rate than that for their bigger brothers."

Spear went on to say that in a period of economic expansion the earnings of smaller companies normally can be expected to increase at a faster rate than those of the larger companies.

"There are a number of reasons for this," Spear continued. "One of these is that with the larger companies at capacity production, more and more business flows to the smaller firms, either directly or through subcontracting. Also, the smaller companies are frequently more marginal, and are thus able to show large percentage earnings gains on a lesser increase in gross sales."

"The results may be seen in a comparison of quarterly earnings for the two types. This comparison also in part explains the fact that, for more than 14 months, the average prices for a broad list of stocks such as our COM-STAT 239-Stock Average have outrun those averages composed mostly of the large, blue-chip-type issues."

AVERAGE ADVANCED
Actually during this period of the COM-STAT Average has advanced approximately 28.5 percent while the Dow-Jones Industrial Average is up about 4.8 percent.

"In our survey of per share earnings for the first quarter of 1966 the major companies showed a 13.8 per cent gain over a year ago, while the smaller companies' earnings jumped 30.0 per cent over the same period. The cup filled to the brim with orders thus 'runneth over,' bringing new business and larger profits."

Fatal Auto Mishap
CADILLAC (AP) — Kristine Larson, 19, of Cadillac, was killed Tuesday in a two-car intersection collision here.

Realtor Hugo A. Peterson, owner of State-Wide Real Estate of Lake Orion, announced today that the annual state convention for the firm will be held at 1 p.m. tomorrow at Pine Knob Ski Lodge.

Peterson anticipates that about 50 realtors from the company in Michigan outlets will be represented at the fete.

Thomas C. Hassey, 752 Robinson Circle, Bloomfield Hills, has been appointed manager of publications in the Corporate Communications Department at Chrysler Corp.

George L. Beiswinger, 21070 Harvard, Southfield, succeeds Hassey as manager of communication for the car assembly group.

MARKETS

The following are top prices covering sales of locally grown produce by growers and sold by them in wholesale package lots. Quotations are furnished by the Detroit Bureau of Markets as of Friday.

Produce

FRUITS	Price
Apples, Delicious, Golden, etc.	\$3.75
Apples, McIntosh, Red, etc.	2.50
